

HOPE AT CHERRY HAS DIED AWAY

No More Living Men Are Found in the Workings of the St. Paul Colliery, and No More Bodies Are Taken Out

Though Fire Still Burns, Rescuers Penetrate Far Into the Second Vein, Yet See No Sign of the 189 Miners Known to Be Entombed, and It Is Believed the Victims Are Buried Under the Debris That Fills Many of the Tunnels.

NEW GOVERNOR GENERAL INSTALLED AT MANILA

W. Cameron Forbes Takes the Oath of Office—He Dedicates His Administration to the Advancement of the People and Declares That the Philippines' Greatest Need Is Capital.

Manila, Wednesday, Nov. 24.—In the marble hall of the government palace, W. Cameron Forbes today took oath of office as governor general of the Philippines and delivered his inaugural address.

One Survivor Succumbs. The death today of one of the survivors brought up last Saturday reduced the total number of saved out of the 310 men and boys entomped to nineteen.

Diary Tells Pitiful Story. A diary begun on the 13th was found tonight in the clothing taken from a pocket of the thirty-eight bodies found in a pocket of the mine.

WILL COME IN DUTY FREE. Miners' Rescue Apparatus the Subject of a Timely Official Order.

Washington, Nov. 23.—Timely on account of the Cherry disaster, a liberal interpretation has been given by the treasury department to the paragraph in the tariff law permitting the free entry of "miners' rescue appliances."

FORMER GOLF CHAMPION. J. F. Curtis of Boston the New Assistant Secretary of the Treasury.

Washington, Nov. 23.—James Freeman Curtis, of Boston, now United States district attorney, one of the intercollegiate golf champions of the United States, has been chosen assistant secretary of the treasury, succeeding James B. Reynolds, who resigned to become a member of the tariff board.

LORIMER'S MAN WINS. Wm. J. Moxley Elected Congressman for the Sixth Illinois District.

Chicago, Nov. 23.—Wm. J. Moxley, Republican, was elected congressman for the Sixth Illinois district today, to succeed Wm. Lorimer, recently elected senator.

DRYS CARRY INDIANA COUNTY. Scottsburg, Ind., Nov. 23.—Scott county voted dry by a majority of 357 in a local option election today.

One Military Company Withdrawn. Springfield, Ill., Nov. 23.—Governor Deneen having received word from the sheriff that it was unnecessary to keep the Galesburg militia company at Cherry, he ordered that company home to

CONGRESSMAN GOES TO A HEROIC DEATH

Representative Dearmond of Missouri Perishes in a Fire That Destroys His House at an Early Hour in the Morning.

Attempting to Save His Six-Year-Old Grandson, His Namesake and His Idol, He Falls With His Unconscious Burden While Rushing Through the Flames That Fill the Room, and Both Sink Through the Floor to Their Doom.

BLACKHAND BLAMED.

Dynamite Explosion at Danville Wrecks Twenty-Five Buildings.

Danville, Ill., Nov. 23.—An explosion of dynamite in the fruit store and dwelling house of Joseph Masera, at 13 College street, early today wrecked twenty-five buildings in the business district.

NEW GOVERNOR GENERAL INSTALLED AT MANILA. W. Cameron Forbes Takes the Oath of Office—He Dedicates His Administration to the Advancement of the People and Declares That the Philippines' Greatest Need Is Capital.

Manila, Wednesday, Nov. 24.—In the marble hall of the government palace, W. Cameron Forbes today took oath of office as governor general of the Philippines and delivered his inaugural address.

One Survivor Succumbs. The death today of one of the survivors brought up last Saturday reduced the total number of saved out of the 310 men and boys entomped to nineteen.

Diary Tells Pitiful Story. A diary begun on the 13th was found tonight in the clothing taken from a pocket of the thirty-eight bodies found in a pocket of the mine.

WILL COME IN DUTY FREE. Miners' Rescue Apparatus the Subject of a Timely Official Order.

Washington, Nov. 23.—Timely on account of the Cherry disaster, a liberal interpretation has been given by the treasury department to the paragraph in the tariff law permitting the free entry of "miners' rescue appliances."

Washington, Nov. 23.—James Freeman Curtis, of Boston, now United States district attorney, one of the intercollegiate golf champions of the United States, has been chosen assistant secretary of the treasury, succeeding James B. Reynolds, who resigned to become a member of the tariff board.

LORIMER'S MAN WINS. Wm. J. Moxley Elected Congressman for the Sixth Illinois District.

Chicago, Nov. 23.—Wm. J. Moxley, Republican, was elected congressman for the Sixth Illinois district today, to succeed Wm. Lorimer, recently elected senator.

THE WEATHER.

Washington, Nov. 23.—The following is the weather bureau's forecast for Upper Michigan: Level snows, Wednesday and probably Thursday; warmer, Wednesday; moderate to brisk east to southeast winds.

FINE POLICEMAN, THIS.

He Comes Near Causing a Panic in Chicago's Grand Opera House.

Chicago, Nov. 23.—A panic in the Grand Opera House was averted tonight when attaches stopped and restrained a policeman who ran into the foyer and tried to enter the auditorium, shouting "Fire, fire; there's fire in the building."

ABDUL BLOCKS PLAN TO SEIZE HIS MONEY

Not Until the Draft Bears the ex-Sultan's Special Seal Will German Bank Surrender \$1,500,000 of the Former Monarch's Funds and He Avers That the Seal Is "Lost."

Berlin, Nov. 23.—The Imperial Bank of Germany holds \$3,000,000 deposited by Abdul Hamid before he was deposed from the sultanship of Turkey and which, according to the Frankfurter Zeitung, the present sultan proposes to recover.

FRENCHMAN WINS A GAME.

Harry Cline of Philadelphia Also a Victor at Billiard Tournament.

New York, Nov. 23.—Firmen Cassinoff, the French billiard champion, and Harry Cline, of Philadelphia, won the two games played today in the 182 ball line tournament for the championship of the world.

COPPER STOCKS SUFFER.

Wall Street Hears the Merger Plan May Be Abandoned.

New York, Nov. 23.—The downward tendency of the stock market today was most actively manifested in the copper industrials, which were vulnerable to the effect of Saturday's decision, as their recent sharp advance was based on the assumption of a coming consolidation of the copper producers on similar lines as prohibited by the Standard Oil decision.

POLICE STOP THE BOUL.

Mike Schreck Lasts Half a Minute in Fight With Sam Langford.

Pittsburg, Nov. 23.—The police tonight stopped the boxing contest between Sam Langford, the negro middleweight, and Mike Schreck after a half minute's fighting in the first round, on account of Schreck's apparent lack of condition.

TROTTLING RULES CHANGED.

Two Out of Three Heats Hereafter to Constitute a Victory.

New York, Nov. 23.—Two out of three heats hereafter will constitute a victory in trotting races recognized by the American Association of Trotting Horse Breeders, according to an announcement made at the annual meeting of the association tonight.

WANTS IT FOR SAN FRANCISCO.

Eddy Graney to Bid at Least \$200,000 for the Jeffries-Johnson Fight.

San Francisco, Nov. 23.—Eddy Graney, the fight referee, started for New York today with a check for \$25,000 as a forfeit for a bid for the Jeffries-Johnson bout.

CHICAGO'S FOOTBALL CAPTAIN.

Chicago, Nov. 23.—William Crowley today was elected captain of the 1910 football team of the University of Chicago.

RELECTS ALL ITS OFFICERS.

New York, Nov. 23.—The National Civic association unanimously re-elected all its officers this afternoon, as follows: President, Seth Low; first vice president, Samuel Gompers; treasurer, A. N. Seligman; chairman of the executive committee, Ralph M. Easley.

KEROSENE TRUST NOT DOOMED YET

Nothing in the St. Paul Decision Prevents the Company Continuing Business, Announces the Standard's General Solicitor

It Only Makes Its Operations More Cumbersome—Just What May Be Done in the Way of Reorganization Will Not Be Decided Until the Supreme Court Reviews the Verdict—In Any Event, There Will Be No Forced Liquidation of Securities

New York, Nov. 23.—The Standard Oil company announced today that it had no intention of seeking to procure the amendment of the Sherman anti-trust law, but would proceed with the appeal from the St. Paul decision to the United States supreme court.

Washington, Nov. 23.—Delay in decisive action by the United States in reference to the execution of Greece and Cannon has been occasioned by the inability of the government to fix the slain men's exact status in Nicaragua. Effort is making to determine whether they were members of the revolutionary army or were acting on their own responsibility when captured.

FORCED LIQUIDATION NEEDN'T BE FEARED.

"Although the decree enjoins the company from voting its share holdings in the subsidiary companies or receiving dividends from them, there is no reason why the individual holders among whom such shares would be divided under the decree should not elect their own officers in the subsidiary companies and receive their own dividends from them."

WANTS FEDERAL REGULATION.

Insurance Magnate is Tired of the Caprices of State Legislatures.

New York, Nov. 23.—Insurance should be subject to regulation by congress rather than the caprices of state legislatures, according to President Kingsley, of the New York Life Insurance company.

REFORM WAVE AT CAIRO.

Cairo, Ill., Nov. 23.—A committee of fifty business men was named today to bring about a better enforcement of the laws.

DANIEL WEBSTER'S OFFICE BOY.

Chicago, Nov. 23.—Charles P. Heywood, once Daniel Webster's office boy, died here yesterday, aged seventy-six.

TOBACCO POOLS BUSTED.

Winchester, Ky., Nov. 23.—Circuit Judge Benton tonight appointed Lee S. Baldwin and Rufus Lisle receivers for the Barley Tobacco society pools of the 1908 and 1907 crops.

DISMAL VIEWS VOICED IN LONDON

Long Struggle Over the Question of Taxation Declared Likely to Seriously Handicap the Country in Case of War.

Great Interest Is Created When It Is Announced in the House of Lords That the Government Will Not Yield to the Peers in Adopting Temporary Financial Measures to Meet the Situation Arising Out of the Rejection of the Budget.

WASHINGTON PLANS TO AID ZELAYA'S FOES

Whatever the Status of the Americans Who Have Been Executed, It Is Believed the Concentration of U. S. Forces on the Nicaraguan Coast Will Help the Rebels Immensely.

Washington, Nov. 23.—Delay in decisive action by the United States in reference to the execution of Greece and Cannon has been occasioned by the inability of the government to fix the slain men's exact status in Nicaragua. Effort is making to determine whether they were members of the revolutionary army or were acting on their own responsibility when captured.

MAY INVOLVE OTHER COUNTRIES.

New Orleans, Nov. 23.—A dispatch from Port Limon, Costa Rica, says that passengers arriving at Punta Arenas report a great movement of troops in Salvadoran ports.

IRISH COMPROMISE ATTACKED.

The house of commons this evening discussed the compromise reached with the house of lords over the Irish land bill.

NEW LEGISLATION IN GREECE.

Athens, Nov. 23.—The chamber of deputies today passed a bill limiting the age of naval officers and constituting a commission to decide the competency of the officers.

HOPE FOR THE CONGO NATIVES.

Britain and Germany May Co-Operate in Suppressing the Abuses.

Hull, Eng., Nov. 23.—Edmund Morel, honorary secretary of the Congo Reform association, announced tonight that he had reliable information that Great Britain and Germany have arrived at an understanding for co-operation in securing the rights of the natives and international commerce in the Congo.

ASTOR PARTY SAFE.

Yacht Nourmahal at San Juan the Evening of the 17th Inst.

PURITAN IS TOWED INTO PORT.

Grand Rapids, Mich., Nov. 23.—The Evening Press wireless station today picked up a message from the steamer Puritan, which for twenty-four hours had drifted helplessly about Lake Michigan with a broken rudder.

GOVERNOR HADLEY INJURED.

Springfield, Mo., Nov. 23.—Governor Hadley has been obliged to return from a hunting trip, on account of an injury to his hand.

KILL DEER IN CITY LIMITS.

Three deer were shot at the Shallows in the city limits at the Soo one afternoon last week.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

With the trusts robbing the government of its just dues and congress spending money for projects not conducive to the common welfare, it isn't to be marveled at that Uncle Sam finds himself hard up every now and then.

It is worthy of note that some mighty good men are allowing themselves to be persuaded to become candidates for seats in the next legislature.

Already the campaign for the gubernatorial nomination is well under way and it is months yet before the people will be called on to decide between the several aspirants.

Zelaya, who had two Americans shot because they were found in the rebel army, is said to be employing drastic measures to secure enlistments for his army and enforcing contributions to support it.

A bookkeeper, William Henechen, of the Travelers' Protective Association, committed suicide last week at St. Louis. It has since been discovered that he had made away with \$27,000 of the association's funds.

One of the leading express companies has just trebled its capital, and at the same time declared a stock dividend of \$300 a share.

Following the mine disaster at Cherry, Ills., there will be a violent agitation for legislation to compel mine operators to take greater precautions against similar disasters in the future.

There are some puzzling things brought to one's attention in reading the newspapers nowadays.

One of these is the readiness shown by people who found fault with Roosevelt for troubling the trusts while he was president to now censure him for

not having got after the sugar trust while he was in business as a trust-buster. Another is the desire Senator Burrows manifested during his recent visit to Michigan to get in touch with just ordinary, everyday people, instead of confining his attentions to the fellows "higher up" socially, financially and politically.

And yet another is the way good Republicans in lower Michigan allow hungry Democrats like Jim Helme to seduce them into supporting a wicked scheme whose object is punishment of the upper peninsula for its fidelity to the policies and candidates of the Republican party.

That brilliant Irish patriot and statesman, T. P. O'Connor, is to visit Detroit in furtherance of his mission to the United States, which has as its aim raising a fund to sustain the movement to obtain by parliamentary action better government for Ireland.

At last there is hope for Ireland. The weary years of religious dissension in that unhappy country have come to an end. When the Irish people of all denominations are united in demanding that their common interests shall receive proper consideration at the hands of the British parliament, and learn to respect the right of every man to determine for himself what party or church he shall give his adherence to, the day of deliverance from harassing conditions will soon dawn for Ireland.

In addition to being a public man of varied accomplishments and incessant activities, Mr. O'Connor is a journalist of world-wide reputation. He established two papers in London, both of which became money-making properties and a force to be counted with as moulders of popular sentiment.

A SINISTER SYMPATHY. Will somebody explain why a perfectly justified finding of a court of competent authority, obtained regularly and in strict conformance with legal requirements, against the Standard Oil company, should so affect Wall street that, following its announcement, the speculators there began to sell stocks down, as if to have the government interfere with the sweet will of the octopus would knock the bottom out of values everywhere?

The court simply found that the Standard Oil company of New Jersey, with a number of its incorporated tentacles, had no right to exist and should be dissolved. In other words, that organized rapacity was against public interest and would not be tolerated in this country.

Yet it had that effect. The depreciation in market values of a number of these stocks would run well into the millions. What does it mean?

Simply that the sympathy between the speculators who have control of the gambling concerns known as stock exchanges naturally sympathize with all interests and organizations in the country which seek to profit by invasion of the rights of the people.

It is infamous that the business of the country should be to so large an extent influenced by the machinations of a lot of stock gamblers. The time will come when they will be either driven out of business or forced to carry it on under regulations designed to prevent them from making it a source of constant uncertainty, and frequently of harmful disturbance, to the legitimate business of the country.

HIGHER COST OF LIVING. We read and hear a great deal these days about the increased cost of living and its causes, much of which is quite misleading. That prices are higher is indisputable. But is a man getting less now in exchange for his labor in the form of commodities consumed by him than he did twenty-five or fifty years ago, or even fifteen years ago? Is he consuming more, therefore living more expensively, than he did then, and on the same capital—that is, the service he renders in return for his living? If we could get accurate information on these points it would go to simplify the problem presented by the seemingly high prices now prevailing, by furnishing a clue to their causes.

No one disputes that our urban population has increased more rapidly than has the agricultural during the past twenty-five or thirty years. The cities have grown with wonderful rapidity latterly because of the development in them of vast manufacturing industries. But it is not true that the output of the farms has fallen short of the country's requirements in proportion to the change in ratio of the urban and farming population.

One factor that makes for high prices which should be borne in mind when considering this question is the increase in the world's production of gold of late years, with resultant cheapening of money. Money is in more plentiful supply, hence has lost something of its purchasing power. The cheaper money is the more of it is required to purchase any given article.

With such abundant crops as we have had this year could there be high prices if prosperity did not abound throughout the nation? Most assuredly not. If there were not employment for all who are willing to work, and at fairly good wages, the people who have to work that they may eat would have to buy sparingly, consumption would fall off and prices would have to be cut in consequence.

Platform tickets are used by some German railroads for the use of non-travelers who wish to say "Good-bye" to departing friends.

One Million Dollars for a Good Stomach. This Offer Should be a Warning to Every Man and Woman.

The newspapers and medical journals have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.

Dyspepsia is caused by an abnormal state of the gastric juices. There is one element missing—Pepsin. The absence of this destroys the function of the gastric fluids. They lose their power to digest food.

It is infamous that the business of the country should be to so large an extent influenced by the machinations of a lot of stock gamblers. The time will come when they will be either driven out of business or forced to carry it on under regulations designed to prevent them from making it a source of constant uncertainty, and frequently of harmful disturbance, to the legitimate business of the country.

This Is Your Store—and Ours

NOWADAYS any good business is really a partnership proposition—a place where values are shared between buyer and seller—and profits divided-up.

That's our idea of good store-keeping. It's the idea that rules here in every department. It's part of our salesmen's code.

We offer you the best proof of how this principle works out in our new showing of clothes from

The House of Kuppenheimer

You know the strength of that name. You'll marvel at the handsome new designs, the splendid fabrics, the perfection of every detail in trimming and tailoring. And you'll see what we mean by sharing profits when you note how these garments are priced. Nobody needs to buy commonplace clothes for economy's sake—when we are offering values like these in clothes of fine distinction and lasting satisfaction.

Kuppenheimer Smart Suits and Overcoats

\$15.00 to \$30.00.

ORMSBEE & ATKINS

Marquette's Largest Clothiers and Haberdashers. NESTER BLOCK. WASHINGTON STREET.

A LAUGH OR TWO

Cause and Effect. Rev. Dr. Ritchie of Edinburgh, though a very clever man, once met his match. When examining a student as to the classes he attended, he said: "I understand you attend the class for mathematics?" "Yes." "How many sides has a circle?" "Two," said the student. "Indeed! What are they?" "What a laugh in the court the student's answer produced when he promptly said: "An inside and an outside."

True Moral Courage. "Jinks is a man with courage enough to say no." "How do you happen to be aware of that?" "I saw him stand up to the bar with a bunch of friends last night."

Frugal Fare. "So you're on a diet, are you?" "Yes, my doctor has limited me to a few of the coarsest and simplest kinds of food."

FINE TEST FOR FISHHOOKS. Story Told by Skipper to Party About to Go Fishing. A party in waters down east a piece was going bluefishing. The boy had

kept the fishing tackle up from the cabin and now the skipper was sitting on deck, with a big file filing the hooks. "Used to be a man go bluefishing with me," the skipper said, "that always filed his own hooks. Carried a file in his pocket for just that. Always had that file with him and always filed his own hooks. And when he'd got a hook fixed he'd test it by banging it on his nose. He'd tip his head back, just a little, and just rest the point of the hook on his nose, and if it slid off he'd strike it some more, but if it hung there he knew it was all right."

KEEP THE KIDNEYS WELL.

Health Is Worth Saving, and Some Marquette People Know How to Save It. Many Marquette people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches can be quickly and permanently cured by the use of Doan's Kidney Pills.

Doan's Kidney Pills did me more good than any other remedy I ever used. For some time I had a constant dull pain across the small of my back and was so weak that I could hardly get about. If I sat in a chair for any length of time, my back became lame and I could not arise without catching hold of something for support. On several occasions I was so bad that I had to lay off from work. Seeing Doan's Kidney Pills highly advertised, I decided to give them a trial and procured a box at the Stafford Drug Co. They helped me from the first and in a short time after starting their use I grew strong and the pains left my back. My health has been good since then and I give Doan's Kidney Pills the credit.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

S.S.S. THE ONLY REMEDY FOR BLOOD POISON

The first symptom of Contagious Blood Poison is usually a little sore or ulcer, so insignificant that often no attention is given it. But when the blood becomes more fully infected with the virus the mouth and throat get sore, glands in the neck and groin swell, and sometimes ulcerate, forming sores and ulcers, the hair comes out, copper colored spots appear on the body, and where the disease is allowed to remain in the system the poison frequently penetrates deeper and attacks the bones. S.S.S. is the true antidote for Contagious Blood Poison—the only remedy that is able to get at the very root of the trouble and remove every particle of the virus from the circulation; at the same time S.S.S. acts with upbuilding and tonic effect on every portion of the system. As soon as the system gets under the influence of S.S.S. the symptoms begin to disappear and soon a perfect cure is made. S.S.S. can be used in the privacy of one's own home and a permanent cure effected. To aid those who wish to cure themselves at home we have prepared a special Home Treatment book which contains much valuable information to Contagious Blood Poison Sufferers. With the aid of this book and the use of S.S.S. a cure can be effected in every case. We will send this book, and also any medical advice desired free to all who write.

Copper Country

FOOTBALL GAME ARRANGED. Houghton and Marinette Teams to Play at Marinette Saturday.

Arrangements have been completed whereby the football team of the Houghton High school will play the Marinette High school eleven at Marinette on Thanksgiving Day. Marinette made the proposition, and it was accepted yesterday.

Menominee Plays Ann Arbor. Shortly after Houghton won the northern peninsula championship by defeating Ishpeming in the final game of the series, attempts were made to arrange a game with Ann Arbor. The matter was closed, however, by a letter from Secretary Louis P. Jocelyn, of the Michigan State Athletic committee. He stated that it was impossible to bring Houghton to Ann Arbor and that the two teams would have to remain champions of their respective regions, leaving the state title unsettled. This closed the matter, and the Houghton boys stopped practice, which had been continued daily up to that time. Sunday evening, a telegram was received, asking Houghton would come for a game. Although practice had been discontinued for a week, Principal Kelly realized that Houghton would start Tuesday if Ann Arbor would stand the expense of transportation or make some reasonable offer. No offer was made, however, and a telegram was received, stating that Ann Arbor had closed a game with Menominee. This game can, of course, affect the state championship in only one way. If Menominee should do the improbable and win, Houghton would be the state champion.

MOVING OF ARCADIA. The street car station and town of Arcadia has folded its wings and moved to a different site. The shifting of the tracks of the street railway company to a new right-of-way about a quarter of a mile west made this change necessary, and accordingly the station building of Arcadia was placed on rollers and shifted bodily from its former site to the present. The change of track on the part of the street car company was made so as to make room for a new shafthouse for the Quincy Mining company.

MAINTAINING THE NEW HOCKEY RINK WILL BE LIKE AMPHITRONE AND PALESTRA. A. W. Keulnow, promoter, and Architect Radcliffe, who is to draw the plans for the proposed Duluth hockey rink, have returned to Duluth after visiting and inspecting the Palestra at Calumet and the Amphidrome at Houghton. At Duluth they announce that the plans of their rink will be modeled after the two big copper country rinks. The Duluth rink seems now to be a certainty. Mr. Keulnow says that work will be started at once and that the rink will probably be ready for use by mid-January.

VOGUE OF INDOOR BASEBALL. Winter Game Will Be Played by Three Leagues in Copper Country. Indoor baseball is having a remarkable vogue in the copper country this winter. Three leagues have been organized and the first contest between the Hancock Fraternal league, has been playing for some weeks, two games every Tuesday and Friday night. A league has been organized in Calumet to play in the Y. M. C. A. gymnasium and a Fraternal league has been organized at Laska. The schedule of the Calumet league was given out yesterday afternoon, too late for use in this issue. The Hancock league played two scheduled games last night and next Friday night will come the big game of the season. This far, a contest between the A. O. H. champions last year and the Elks, second in the race last year and the chief opponents of the champions this season.

DEATH OF ALICE F. GEORGE. Miss Alice F. George, sister of Herbert George of the Calumet News editorial staff, died at her home at Great Falls, Mont., Sunday, after a long illness. She was twenty-eight years of age. She was the daughter of Thomas George, formerly of Calumet, and graduated from the Calumet High school in the class of 1905. Miss George had resided at Great Falls with her parents the past four years. She visited her brother and friends in Calumet the past summer.

NINETY DAYS IN JAIL. Michael Wallitala, the man who gave Under Sheriff Shirkman such a lecture in Houghton Sunday night, was sentenced by Justice Brand to ninety days in the county jail on a charge of threatening to kill his wife.

"FAKE MEDICINES" are fast being eliminated from the market by the action of the Pure Food and Drugs law, but there are many dependable advertised medicines, such as the Cool Liver and Iron preparation called "VINO," constantly prescribed by reputable physicians who are successful and broad enough to recognize the intrinsic merit of such a preparation. This combination of two world-famed tonics builds up the system when run-down and weakened by sickness or age quicker than any other means.

Many school children suffer from constipation, which is often the cause of sleepless Sunday night lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation. Sold by The People's Drug Store.

An average orange tree produces 20,000 oranges and an average lemon tree 8,000 lemons.

Reading scriptural lesson, Rev. M. H. Ely, Pastor, M. E. Church. Reading Thanksgiving proclamation, Rev. W. E. Marvin, Hancock M. E. Church. Prayer—Rev. J. S. Gould, Hancock Congregational. Sermon—Rev. Frank P. Knowles, Houghton Presbyterian Church. Rev. A. B. Sidelle, pastor of Grace church, will have general charge of the service. There will be special music by the joint choirs of these churches but the complete musical program has not as yet been arranged.

A special offering will be taken during the service and this will be placed in the hands of a committee for distribution among the poor.

Glass bricks inserted in the wall now take the place of windows. Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by The People's Drug Store.

Absolutely Pure... ROYAL BAKING POWDER

Royal Baking Powder improves the flavor and adds to the healthfulness of the food.

CLOSING THE RIEL CASE. Long Legal Contest Terminates in Houghton County Circuit Court. The case of Oscar Riel vs. August Gauthier, a suit for the former for \$5,000 damages for the alleged alienation of his wife's affections by Gauthier, went to the jury at 1 o'clock yesterday afternoon. The case had been in progress for a week.

FURNISHING THE NEW LIBRARY. Carnegie Gift to Houghton Will Shortly be in Use by Public. The shelving for the new public library at Houghton, gift of Andrew Carnegie to the Portage township and Houghton school district, arrived yesterday and is being put in place. The library will probably be ready for use within two weeks.

REMODEL THE INTERNATIONAL. White City Company Will Make Changes at Carroll's Dock This Winter. The White City company has begun laying up the steamer International at Carroll's dock preparatory to remodeling her extensively this winter. The steamer is to be made into a modern and comfortable excursion boat.

AN ARITHMETICAL CURIOSITY. County Clerk Richardson, in an idle moment, turned off a mathematical conundrum in the circuit court room the other day. A witness had stated that if he were the motorman he could stop a car going twelve miles an hour within seven feet and he later testified that he could stop a car going twenty miles an hour in five feet. From these two statements Mr. Richardson evolved the following based on the proposition that the faster a car goes the quicker you can stop it: A car going twenty miles per hour will stop in three feet. One going thirty-six miles per hour will stop in one foot. One going forty-four miles per hour will stop one foot before the power is turned off, and one going fifty-two miles per hour will stop three feet before the power is turned off.

WILL APPEAL CASE. C. P. Scarsom of Calumet, tried Monday before Justice Brand of Houghton, was convicted of using a motor boat for

ANTI-TUBERCULOSIS STAMPS. Houghton County Society Now Has Them For Sale in all Towns. The annual sale of Christmas remembrance stamps by the Houghton Anti-Tuberculosis society was started yesterday. The society has placed the stamps on sale in many stores in every copper country town. The sale is a source of revenue, the largest the society has.

UNION THANKSGIVING SERVICES. Calumet and Houghton Both Will Have Big Religious Gatherings. Union Thanksgiving services of all the English speaking evangelical churches of Calumet will be held tomorrow morning in the Laurium Baptist church. Rev. W. M. Ward, pastor of the Laurium M. E. church, will preach the sermon and all the other ministers will assist.

THE WORLD'S BEST MEDICINE! DUFFY'S PURE MALT WHISKEY. Duffy's Pure Malt Whiskey must not be regarded as an ordinary commercial whiskey. It is an absolutely pure distillation of malted grain. Its palatability and its freedom from injurious substances render it so that it can be retained by the most sensitive stomach. It has been the standard of purity and excellence for fifty years.

Duffy's Pure Malt Whiskey must not be regarded as an ordinary commercial whiskey. It is an absolutely pure distillation of malted grain. Its palatability and its freedom from injurious substances render it so that it can be retained by the most sensitive stomach. It has been the standard of purity and excellence for fifty years. It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system; it is a promoter of health and longevity; makes the old feel young and keeps the young strong. It is a wonderful remedy in the treatment and cure of consumption, pneumonia, gripe, bronchitis, coughs, colds, malaria, low fevers, stomach troubles and all wasting, weakened, diseased conditions, if taken in time. If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions. It tones and strengthens the heart action and purifies the entire system. It is recognized as a family medicine everywhere. CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold in sealed bottles only—never in bulk. Look for the trade-mark, the "Old Chief" on the label, and make sure the seal over the cork is unbroken. Price \$1.00. Write Medical Department, Duffy Malt Whiskey Co., Rochester, N. Y., for an illustrated medical booklet and free advice.

You'll Be Thankful

HELPING ALBION COLLEGE. Educational Convention Will Be Held in Calumet Next Saturday. A convention will be held Saturday at the Calumet M. E. church for the purpose of arousing interest in Albion college, the Michigan Methodist institution, Rev. D. D. Martin, D. D., education secretary of the college, who has been in the copper country for some time, will be present, as will be Bishop Moore, who is coming to take part in the golden jubilee of Grace church of Houghton. The following is the program: 8:15 a. m.—An hour with Dr. Day on Ministerial Qualification and Effectiveness. 9:15 a. m.—Purpose of This Convention, D. D. Martin. 9:30 a. m.—Is the Christian College a Necessity? H. C. Shaw. 9:45 a. m.—How to Interest Our Laymen in the Support of the College, W. M. Ward. 10:00 a. m.—Address, The Responsibility of the Church in the Education of the Youth, President Samuel Plantz. 10:45 a. m.—How to Interest Our Laymen in the Support of the College, W. M. Ward. 11:10 a. m.—Question box and discussion led by President Dickie. 11:30 a. m.—A half hour with Bishop Moore on the Christian college. 1:30 p. m.—The Semi-Centennial Campaign, F. E. Day. 2:30 p. m.—Address, "Albion College and Michigan Methodism," President Dickie. 3:15 p. m.—How to Bring the Individual Church and College in Close Touch, A. W. Stedliffe. 3:35 p. m.—Needed Modifications in Church Colleges, President Plantz. 4:00 p. m.—Closing address, Bishop Moore.

amount of primary school money the same counties received from the state during the same time. In 1908 the upper peninsula counties received \$781,710.63 school money, and paid \$642,769.55 taxes, leaving a balance of \$138,941.08 to the good. Every county, except Houghton and Iron, received more school money than was paid in taxes to the state. This year the total state tax which will be paid is \$608,897.72, and the school money has amounted to \$383,174, the tax being \$225,604.72 in excess of the school fund received. This year Baraga, Chippewa, Delta, Dickinson, Mackinac, Menominee and Schoolcraft are the only counties in the peninsula whose portion of the school money exceeds the state tax to be paid. Delta county has received the largest amount of money in the past two years over the amount of its state tax of any of the upper peninsula counties. In this time the county has received \$124,284.79 and has paid in state taxes \$55,485.08, leaving a balance of \$78,800.68 in favor of the county's end of the deal.

Accepts Position at Detroit—W. F. Hopkins, who for the past two years has been vice president of the First National bank of Munising and who has found time to organize and manage the State Savings bank of Gwinn, will leave Munising for Detroit Dec. 15. He has been promoted and has accepted the position of cashier of the Peninsular Savings bank, one of the best known and strongest financial institutions in the state. Mr. Hopkins' resignation as vice president and director of the First National bank of Munising and as vice president and director of the Gwinn bank have been accepted with exceeding reluctance by his fellow directors.

No More "Pork Barrel"—Writing to an Outgoing interest in the improvement of the harbor there, Congressman H. O. Young says: "There appears to be an opinion in some quarters that appropriations for rivers and harbors are obtained as matters of favor, and by the solicitation of the local member of congress, without reference to the merit of the proposition. No greater mistake could be made. There was a time when a condition approaching this prevailed in the committee on rivers and harbors. Grave scandal resulted. This bill became known as the pork bill, and was held in almost universal contempt, but with the selection of Theodore A. Burton, of Cleveland, as its chairman, a change was brought about. A rule was adopted, no project would be considered until after a survey and examination and a favorable report from the engineer officers of the army having the matter in charge. Since I have been in congress, that rule has been invariably applied. Undoubtedly, in some cases, it is utterly useless to expect any favorable action on any harbor until a favorable report can be obtained from the board of engineers of rivers and harbors, approved by the chief of the engineering corps of the army."

Hunter in Sorry Plight—Details of the experience of Francis Hodges of Calumet while lost in the woods west of Baraga show that he was in sorry plight when found by Ping Foster, the trapper. Hodges shot a deer at about 7 o'clock in the morning and after dragging it for several miles, left it behind and got into some old cuttings and was unable to find his way out. He stayed in the woods all that night and had nothing to eat except a bird which he shot. The next day while swimming the Sturgeon river to cross to the other side he lost his gun in the current. Toward evening, when he had given up hope, Foster found him near his hunting camp. Hodges' toes and fingers were badly frost bitten.

Bad Fire Narrowly Averted—What might have proved a bad fire at the Boyington House at Iron River was narrowly averted by the quick action of Earl Moran. A chimney was blown out of a chimney hole in the laundry, and a number of sparks fell onto a hand box which was on top of a wardrobe near by. A blaze immediately started and spread to the interior of the room. Moran thought of the chemical fire extinguisher, which was kept on the third floor. He procured it, and turning it on the fire at once extinguished it. But for Moran's quick work there is no telling what might have occurred—possibly another conflagration similar to the one twenty-four years ago, when the first Boyington House was burned to the ground.

Not Demented, Say Doctors—Physicians who examined William Craig of Escanaba to determine whether or not he was a fit subject for Newberry have stated that in their opinion the man who has been giving the justice courts and the police so much trouble is perfectly sane. Craig's case is a peculiar one. Despite all the advice that could be given him he persisted in making a bee line for some saloon as soon as he had been released from the county jail and speedily appeared on the street in an intoxicated condition, necessitating his arrest again. Three times in four weeks he was arrested and given short sentences with the hope that he might sober up and start to work but the efforts of the officers failed and at last, in sheer desperation, they decided that Craig must be crazy. Judge Yelland appointed physicians who examined the man and they have found his mental condition as near perfect as the general average. Craig has therefore been sent back to the county jail for fifteen days and it is probable that another offense will result in a term at Marquette. The Escanaba officers are ready to wash their hands of Craig and his troubles and they think a prison sentence the only method at hand.

Thousands Have Kidney Trouble and Never Suspect it. How to Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, stringy or stringy, or a precipitate often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

What To Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain on passing it, or bed effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

City Brevities
Today's weather: Snow and warmer. Yesterday's temperatures: Seven a. m., 24 degrees; noon, 25; 7 p. m., 25. Maximum, 26 degrees; minimum, 22.
Miss Angeline Keulier of Hancock is the guest of Miss May Fogarty, Fisher street.
Fred Burch, clerk at the Hotel Marquette, has returned from a visit in Albany, N. Y.
The Woman's Christian Temperance union will meet with Mrs. Guiland, 316 Alger street, at 3 o'clock this afternoon.
Our readers will be interested in the bill of fare for Thanksgiving dinner at the Hotel Clifton, advertised elsewhere in this issue.
James Sherman and his bride, who were married in Chicago recently, have arrived in Marquette, after a honeymoon trip to the West.
The young ladies of the Delta Alpha Society will conduct a pantry sale in the basement of the Methodist church today from 10 o'clock till 4 p. m.
The public library will be closed all day Thanksgiving Day, and the story hour set for Thursday afternoon will take place Wednesday afternoon.
Notices have been sent out for a meeting of the county board of supervisors to be held Wednesday, Dec. 1. The auditing committee will meet Saturday.
A Thanksgiving social will be given in the parlors of the Presbyterian church tomorrow evening by the Y. P. S. C. E. A cordial invitation is extended to all to attend.
The public schools of the city will close this afternoon for the Thanksgiving recess, and will not re-open until Monday. The same will be true at the Normal school.
There will be a union Thanksgiving service of the Methodist, Presbyterian and Baptist churches of the city held at the M. E. church, opening at 10:30 o'clock tomorrow morning.
Leonard Wiseman, who has been a student of the Ferguson Business college since last June, has left the city to take a position secured for him by the business college, as bookkeeper for N. M. DeHaas at Skaneateles, Mich.
There is every indication that those who attend the firemen's ball at Fraternity Hall tonight will have one of the most enjoyable evenings of the season. The committee has made elaborate preparations, the hall decorations being a particularly striking feature. A large attendance is expected.

Will Serve Supper—Our Lady Victory court of Foresters will serve supper at the fair tonight from 5:30 to 8 p. m., at twenty-five cents a plate. They will also serve supper at Fraternity Hall for the firemen's dance from 11 p. m. to 1 a. m., at thirty-five cents per plate. The public is invited.
Many Shots Wasted—Robert Hume reports that a few days ago five deer came down the beach to the island from Sugar Loaf as leisurely as if the hunting season was not in full swing. On the way down, Mr. Hume could hear the hunters blazing away at them, but not one of the animals was even scratched. The deer were recognized as among the number who spent last winter on the island.
Girls Had Gay Time—Judging from appearances, many of the girls in "The Alaskan" company, which appeared at the opera house last night, have seen more of the world except on the stage. The company arrived before noon and during the afternoon, many of the girls apparently had great fun jumping on sleighs, somewhat to the amusement of the public. The snow and winter weather seemed to be a novelty and the girls made the most of it.
Fair Well Attended—The fair now in progress at Baraga auditorium is being attended by unusually large crowds, considering that it has only been open for two days. Those who have attended speak highly of the attractive booths and the great variety of articles on sale. The ladies of Cathedral parish have spent much time in preparation for the event and the result is a splendid fair. Our Lady Victory court will serve the supper this evening.
Dowagiac Hunter Lost—The Mining Journal received a letter from Sidnaw last evening, stating that Robert Bell, a Dowagiac hunter, has been missing since the night of Nov. 16, and as he is sixty-eight years old, it is believed that he is dead. Bell was lost near Tunis Siding on the St. Paul, about eight miles southeast of Sidnaw. Two expert cruisers are now scouring the woods to find the missing man.
Turkeys Given Away—Several turkeys will be given away at the down town bowling alleys Thanksgiving day. A turkey will be given for the highest score made during the day and a duck for the second highest score. A turkey will be given to the person rolling the highest scores in three successive games and another to the person making the best score for three games during the day. No scores can count for more than one turkey. One-half each bowler's official handicap will be counted in figuring his score.
Five Feet of Culture—President Eliot's "Five feet of culture", which is the name given the Harvard University president's collection of most valuable books, has been gathered together at the Peter White public library and is now at hand in the reading room, with the exception of a very few volumes that are not in the library. The collection shows on its face that it was picked out by an eminent scholar and will not recommend itself particularly to the seeker after light or simply entertaining reading.
Was a Close Call—It was only good fortune that prevented a fire breaking out in the part of the opera house occupied by the J. H. Foster company Monday evening. When the lights went out Monday afternoon, an electric iron was left on a wooden board without turning off the current. The iron was left on that condition all night, and when the current was again turned on, the iron got so hot that the board was badly scorched and the wonder is that a blaze did not start in some inflammable material not more than a foot away.
No Residence Lights Yet—Superintendent Retaille stated yesterday that the repairs on the water wheel might be completed in time to supply light to the whole city by this evening, though the chances are that the repairs will not be

flushed until tomorrow. Patterns for the broken gates were made at the Lake Shore Engine works yesterday and the gates were cast last evening. The finished gates have been promised Mr. Retaille by noon today. Whether or not the plant will be in full operation today depends on the time necessary to fasten the gates in the wheel. Yesterday the residence lights were turned on during the daylight hours so that housewives could use the electric irons, but all except the lights in the down town district were again shut off at 4 p. m.
INSURE WITH PETER WHITE & CO.
THEATRICAL.
Parland-Newhall Concert.
That the performance to be given by the Parland-Newhall company at the opera house tonight will be a genuine musical treat there can be no question. This company has been upon the platform for a number of years and has been enthusiastically praised in the many cities where they have appeared. Here is a sample from the Joliet, Ill. News, of the flattering notices they have received:
"The Parland-Newhall company gave a musical program, the like of which has not been heard in Joliet before. Unaccompanied they sang in splendid harmony; the brass quartet is as complete in tone as a pipe organ and their ringing of the silver bells beggars description. There were big bells with soft dulcet tongues; little bells with sweetly shrewish tones all blending together in a joyous harmony; tinkled and tossed and caressed by those four handsome and nimble artists, clad in picturesque white flannel." The sale of season tickets for the course has been fairly satisfactory, though not as large as for the course a year ago, and a number of good seats are still to be had by those securing tickets for the single performance to-day. It is also understood that the electric light will be up to the normal standard this evening, so that the opera house will be as well lighted as usual.
"The Alaskan."
For the second time within a year "The Alaskan" was presented to a Marquette audience last evening. The production, however, has been so thoroughly revised since its appearance here last spring that it can scarcely be said to be the same piece. In this revision the comedy parts have been made much more prominent and several musical numbers and unique features have been added. Totem Pole Pete, who with Mr. Martindale in that role, was in some sense the whole show, in the revised edition holds a much less important part, being secondary in fact to that of Dick Atwater, the prospector. On the whole, the revision has greatly improved the structure and dramatic interest of "The Alaskan," in the first version of which several crude spots would have stood out prominently, had they not been overshadowed by the stellar work of Mr. Martindale.
Generally speaking, the new Alaskan troupe is adequate, there being several good voices and two excellent comedians in the speaking parts, who are assisted by a spritely and musical chorus. Detmar Poppen, who has the title role of the Alaskan, formerly carried by Mr. Martindale, is well endowed by nature for the part, possessing a powerful physique and a strong voice, yet his work suffers when compared with that of his predecessor. Gus Weinburg and Richard Carroll are an exceedingly clever pair of comedians who add much to the success of the show. John Phillips, as Dick Atwater, was exceptionally good, having both acting ability and a beautiful tenor voice, which he has abundant opportunity to use to advantage. Jessie Stoner as Arlee Easton won deserved favor and made her part an attractive one. Other members of the cast were of a fair order of excellence.
Several new and effective special features were introduced last evening. Among them may be mentioned the tableaux at the close of the first act, the snowballing song that opens the second act and Mr. Phillips' "The Face of the Girl I Love," sung with electrical and calcium light effects.

PANTRY SALE.
The ladies of the Baptist church will hold a pantry sale at the church on Wednesday, Nov. 24, at 1 o'clock.

When the People know—when a discriminating public is convinced that one store's facilities for serving it are better than those of another it is but natural that the tide of traffic should turn in the direction of that one store. Our advantage over other dealers in manufacturing our own clothing, being in direct touch with the woolen market and style origin, is so pronounced that even the lay mind can readily grasp its significance. Buying direct from the maker means no middle men's profit to figure with—it means a first hand knowledge of qualities and style. It means better clothing at less money.

JACOB ROSE
When the People know—when a discriminating public is convinced that one store's facilities for serving it are better than those of another it is but natural that the tide of traffic should turn in the direction of that one store. Our advantage over other dealers in manufacturing our own clothing, being in direct touch with the woolen market and style origin, is so pronounced that even the lay mind can readily grasp its significance. Buying direct from the maker means no middle men's profit to figure with—it means a first hand knowledge of qualities and style. It means better clothing at less money.

"Tis Better to Spare and Have Than to Spend and Crave"

The above remark, made by Benj. Franklin one hundred and fifty years ago, is good today. Does any one doubt the wisdom of his words? Look around you today and you will see on every side examples of men, who, during their working years, spent their incomes regardless of the future and now in their declining years they are in need. Take the lesson and open a bank account with this bank—save.

NO ACTION ON WIRE MERGER. Government Not Alarmed by the Telephone-Telegraph Consolidation.

Washington, Nov. 23.—The attitude of the department of justice with regard to the practical absorption of the Western Union Telegraph company by the American Telephone & Telegraph company, while not officially stated, is becoming well known in official circles in Washington. The department is inclined to look with equanimity upon the merger, on the theory that consolidation is the order of the day in the business world and that interstate agencies of the character of the railroad, the telephone and the telegraph are only following the natural course of events in falling under one management. The department has no thought of opposing the merger under the Sherman act, but the consolidation will be regarded as demanding a long step forward in government supervision.

That Sharp, Alcoholic Flavor

is found only in ordinary, inferior vanilla—never in Burnett's Vanilla. The rich, subtle flavor of Burnett's Vanilla is too precious to run by adding too much alcohol. That is why the delicious, delicate flavor never varies. That is why you should always insist on getting Burnett's Vanilla.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows: "The market rallied today from an oversold condition, it being apparent after the first two hours that liquidation was not as urgent as heretofore, and the many theories advanced in regard to the probable solution of the Standard Oil case had the effect of holding the selling in check. The fact that support was tendered in various quarters seemed to confirm the impression that the desire of large market interests was not to permit drastic unsettlement, but at the same time it was noted on the advance that stocks were freely supported. London market was reported unsettled, with counts rather heavy without a disposition to rally, and this condition undoubtedly was aggravated by the agitation over the budget. Copper metal issues were under heavy pressure in the early trading, but in the rest of the day sharply and the general disposition at the close was more cheerful than in the past few days."

Table of closing prices for various stocks including Amalgamated, Anaconda, Am. Smelt., Am. L., Wash., B. & O., B. & F., C. Pacific, Com. Gas, C. & G. W., C. & O., Erie, Gt. Northern, Ill. Cent., Kan. City, Mo. Pac., M. & T., Northern Pac., N. Y. C., N. Lead., Penn., Reading, Rock, Steel, St. Paul, St. P. & N. E., So. Pac., Sugar, Union Pac., Wabash, Western U., and W. Cent.

Boston Stock Quotations.

Writing from Boston yesterday, Paine, Webber & Co. had the following to say of the stock market: "The market opened soft again this morning, and for a majority portion of the session was feverish with prices breaking sharply and then falling easily. Toward the close the tone became more firm, and it looked as if the bull party had the situation well in hand. We are reliably informed that the recent Standard Oil decision will have no effect on the proposed merger. In the local market, Lake, North Lake and Boston Consolidated were again the catches. There was liquidation in all of them at the opening, but the stocks were well taken, and in the last hour all three made new high records. We think the market is in better shape after this reaction and look for a continuation of the bull market after Thanksgiving."

Table of closing prices at Boston for various stocks including Amalgamated, Anaconda, Am. Smelt., Am. L., Wash., B. & O., B. & F., C. Pacific, Com. Gas, C. & G. W., C. & O., Erie, Gt. Northern, Ill. Cent., Kan. City, Mo. Pac., M. & T., Northern Pac., N. Y. C., N. Lead., Penn., Reading, Rock, Steel, St. Paul, St. P. & N. E., So. Pac., Sugar, Union Pac., Wabash, Western U., and W. Cent.

Northern, Ill. Cent., Kan. City, Mo. Pac., M. & T., Northern Pac., N. Y. C., N. Lead., Penn., Reading, Rock, Steel, St. Paul, St. P. & N. E., So. Pac., Sugar, Union Pac., Wabash, Western U., and W. Cent.

Copper Metal Prices.

New York, Nov. 23.—Copper was weak and lower today, with spot closing at 13 1/2@13.50, the November and the December at 13 1/2@13.75, and the January at 13 1/2@13.50. The London market closed weak also, with spot quoted at £50, 5s and futures at £50, 7s, 6d. The London sales included 400 tons of spot and 2,200 tons of futures. Local dealers state that the copper market is very much unsettled, owing to the effect of the Standard Oil decision on the sentiment regarding the proposed merger of copper producers, and that the quotations are entirely nominal, with Lake ranging at about 13.25@13.75, electrolytic at 13 1/2@13.50 and casting at 12.87 1/2@13.37 1/2.

CHICAGO GRAIN MARKETS.

Chicago, Nov. 23.—Fears of a wet harvest in Argentina supplemented by predictions of a material falling off in the movement of wheat from Russia and by a decrease of 1,700,000 bushels in the European visible supply for the week, inspired a bullish sentiment in the early trading today, but late in the session the market weakened owing to more reassuring news from Argentina. The market also was weakened by a decline at Minneapolis and Duluth. The close was almost at the bottom, with the prices 1/2 to 3/4 below yesterday's final figures. The December opened at 109 1/2, to 109 3/4; highest, 109 3/4; lowest, 108 1/2; closing, 108 1/2@108 3/4. Corn—The bulge in wheat offset cold weather in the corn belt and caused firmness early. Later, however, the market eased off, in sympathy with wheat. The close was steady, but at about the lowest point, with the prices unchanged to 1/4 higher. The December opened at 60 1/4; highest, 60 1/2@60 3/4; lowest, 60; closing, 60. Oats—This market was steady. The trading was light. The close was a steady shade higher to 1/4 higher.

ket eased off, in sympathy with wheat. The close was steady, but at about the lowest point, with the prices unchanged to 1/4 higher. The December opened at 60 1/4; highest, 60 1/2@60 3/4; lowest, 60; closing, 60. Oats—This market was steady. The trading was light. The close was a steady shade higher to 1/4 higher.

Cotton Market.

Paine, Webber & Co. had this to say of yesterday's cotton market: "From all sections we hear of rapidly lessened ginning operations since Nov. 14. Many sections claim over 50 per cent of their cotton ginned, picked and sold and if we were to accept those statements verbatim without any allowance for poetic license we would think future ginning operations would be a bare 50 per cent of a year ago after this date. We feel friendly to cotton with the caution that at this level judgment and not enthusiasm should control and we do not think scalpers who win three times out of four and then get wrong once or lose their market position can keep even. Buy a little cotton to keep, and keep it."

FOOD PRICES SOARING IN NEW YORK CITY.

Butter Going to Fifty Cents, Milk to Ten and Eggs to Sixty.

Combinations Are Blamed—Dairy Produce Wholesalers Discuss the Situation—Public Is Up Against It.

New York, Nov. 23.—Foodstuffs in New York have been soaring for some time, and this week comes the announcement that butter is to go to fifty cents a pound, milk ten cents a quart, and eggs sixty cents a dozen, with a strong intimation that bread will soon either go up in price or the size of the loaf will be reduced. This is the situation which confronts not only the millions of New Yorkers, but almost every one living within a short radius of the great metropolis. This situation has aroused much anxiety among retailers, who have gone to their wholesale supply men for relief. This has resulted in inquiries going out how the situation can best be met. A tour of the wholesale district, where foodstuffs are handled by the train and ship load, disclosed that many substitutes will be made, or attempted at least, on the part of these dealers, to circumvent the advantage which those in control seem to be taking of the consumer.

About Reached the Limit.

For some time New Yorkers have felt that they have reached the limit of fixed charges on living expenses, and the last announcement has brought such a storm of protest that the wholesalers say a

Special attention to BANKING BY MAIL. Send a postal for booklet

decided change is bound to take place to meet the demand. "In all probability," said a wholesale butter dealer who handles carloads of this dairy produce at one time, "the substitutes for butter, now so popular in many parts of the world, will find a ready sale in New York. Oleomargarine, butterine and the like, you will find, will appear on sale in grocery stores where heretofore the patrons of those high-class places turned up their noses at even such a suggestion. It is evident to me that the great multitude, which constitutes the majority, cannot afford to pay fifty cents a pound for butter and by reason of necessity will be driven to a substitute for it. When they learn that the substitutes can be bought for twenty or twenty-five cents a pound, and that the better qualities can scarcely be told from first-class butter, housewives, who usually do the saving for the entire family, will be very quick to abandon entirely the purchase of butter.

Forced Into Oleo Trade.

"While it will be to my advantage financially to sell the substitutes for butter, I would much prefer to continue handling the genuine article, but I am afraid I will be driven into the oleomargarine business because of the existing high prices."

The owner of one of the large New York commercial men's hotels said today that he has been mixing butterine and other substitutes with the genuine article served in his dining room for some months, and with but two or three

exceptions no person discovered the difference. "I noticed that my regular customers eat less of the substitute than they did of butter, but they seem to be perfectly satisfied with what I give them. I think it is more the idea than anything else that causes people to object to those substitutes for butter. What we will do about eggs and milk remains to be seen. We certainly cannot afford to pay the awful advance in price which we are notified is to take place."

Controlled by Combines.

One of the largest wholesale butter and egg houses in this city is scouring the middle west with representatives who are endeavoring to arrange with the farmers for the direct purchase of their eggs. A big milk dealer said that there is a disposition throughout the country among those now handling dairy products to raise the price of these commodities. He said Chicago and several of the larger western cities are indirectly controlled by the combinations, which are responsible for forcing up the price of butter and milk in New York.

"What is the public going to do about it?" said he. "No family can get along without one or the other. Milk is an absolute necessity, and if it can only be had from one source you can easily see what is naturally going to happen. I would not be surprised to find southern states, as well as the northeastern section of the country, going into the dairy business on an extensive scale to supply

the enormous New York consumption. The custom of putting eggs in storage is going to be a larger business throughout the country this year than ever before, and it is stated by some of the wholesalers that it is almost entirely due to these enormous egg storage concerns that it is possible to even think about asking sixty cents a dozen for eggs. This may seem an exaggerated price, but today several people were seen buying fresh laid legions eggs, and paying sixty cents a dozen for the same at the Washington market.

MASCULINE SHYNESS.

A party of well-dressed women of a certain maturity of age is encircled with an atmosphere of awe which bears witness to their consciousness of power and superiority. For a complete stranger to enter among them requires a bravery of which mere man, unless driven by absolute necessity, is often incapable.—Black and White, London.

The wise merchant knows that it is the women who shop today that buy tomorrow.

Directions for Colic in Horses.—Contents of small bottle Painkiller (Perry Davis') in quart bottle, add pint warm or cold water, sweeten with molasses, shake well until all mixed. Give about half at once, then balance in fifteen minutes, if first dose is not sufficient. This will be found a never-failing remedy. 35c. for a large bottle. Also in 25c. and 50c. sizes.

CHURCH SOCIETY IS THIRTY YEARS OLD

ONLY THREE OF THE NINE ORIGINAL MEMBERS OF THE MISSION CONGREGATION ARE NOW IN THE CITY.

At the celebration to be held at the Ishpeming Mission church the last four days of this week in commemoration of the thirtieth anniversary of the local church society, considerable data concerning the early history of the organization will be presented and it is expected that there will be some interesting discussions by those who were prominent in the conduct of the church affairs during the early period. When the organization was perfected there were but

The Mission parsonage, purchased for the Ishpeming Church society by John Brynteson.

of the Young People's society of the local church, and was a splendid debater and a man of sound judgment. Since leaving here he has maintained the same interest in the church that he did while he resided in the city. After cleaning up his first big stake at Nome, he returned to Ishpeming and purchased for

The Mission Church, where the thirtieth anniversary celebration is to be held this week.

nine charter members, and three of these are still members of the congregation. They are John Skoglund, the shoe merchant, John Anderson of North Third street, and John Olson of East Ridge street. Mr. Skoglund has been a member of the church board continuously during the thirty years and superintendent of the congregation the parsonage property at the corner of Fourth and North streets now occupied by Rev. J. Sallstrom, the pastor, and his family. Since then he has frequently sent cash donations and has made the congregation other presents of a substantial kind. As stated in 'The Mining Journal' a few days

Rev. J. Sallstrom, pastor of the Mission Church.

CLOTHING WANTED FOR POOR FAMILIES

SALVATION ARMY OFFICER WILL CALL FOR AND DISTRIBUTE TO THE NEEDY ALL ARTICLES DONATED BY ISHPERING PEOPLE.

Captain H. D. Gough, of the local branch of the Salvation Army, yesterday stated that there are a great many people in Ishpeming in need of warm clothing and he intends to do what he can to secure donations for them. He stated that he will be glad to call at the homes of people who have excess clothing to donate and all he asks is that they drop him a postal card at his home, 111 South Third street, requesting him to call.

Captain Gough has made it his business to ascertain as nearly as possible where clothing is needed and he stated that he could distribute a large variety of garments for both adults and children to excellent advantage. He has found a great many children in need of warm wearing apparel and he will gladly accept underclothing, shoes, rubbers, etc., as well as outer garments. Captain Gough should be encouraged in this work and his call for aid for the poor will doubtless be liberally responded to by people who have articles they can spare.

At the barracks tomorrow evening there will be an illustrated song service. Fifty-five beautiful pictures of songs and verse will be shown and there will be solos, duets, testimonials, etc. The admission will be twenty-five cents for adults and fifteen for children.

Next Sunday afternoon at the 3:30 service two baby boxes will be given away. Special music will be provided for the occasion.

FIREMEN'S BALL TONIGHT.

Nineteenth Annual Party of Local Department Promises to Be Big Affair.

The committees in charge of the various features of the Ishpeming fire department's nineteenth annual ball, to be held tonight at Braastad's Hall, have been laboring for some days past in the interest of the affair. Several hundred tickets have been disposed of among the business men and others and it is expected that there will be some 450 or 400 people in attendance. It is doubtful if the firemen have ever had such attractive decorations as have been prepared for tonight's party. This work is being directed by Arson Perrault, chairman of the decorating committee, who is a real artist in that line. The national colors will predominate and there will be several attractive features.

Clifford's orchestra of ten pieces will furnish the music and dancing will begin promptly at 9 o'clock, continuing until the program of twenty-four numbers is completed. The souvenir program is an exceptionally neat one and all visitors will receive a copy. The dance numbers include, besides waltzes and two-steps, old time quadrilles and the firemen's dance. The latter will take place about 11 o'clock. Snapper will be served at midnight in the basement of the Presbyterian church by the ladies of the congregation. The menu will consist of oysters, celery, pickles, roast turkey, cranberry sauce, mashed potatoes, gravy, beet relish, cold ham, rolls and butter, ice cream, assorted cake and coffee.

IN NEW YORK. "Can you wait here in the machine while I run into the courtroom?" "Why, yes. Is it something serious?" "Oh, no. Just a divorce." "A divorce?" "Yes. I won't be gone more than a minute."

The best isn't too good for the man who can pay for it with honesty acquired coin.

THE SCARCITY OF LEATHER.

When the scarcity of hides and skins is referred to it is hardly understood by the layman, who perhaps does not know that the world is being secured in all corners for all the available skins and hides. More races are constantly becoming civilized and the increase of our hide and skin supply is not in proportion to that of the human race. The amount of leather used in the manufacture of novelties of all kinds has increased to a great extent within a few years, but in no line has the use of leather broadened so extensively as in automobile manufacture. Anyone who is at all familiar with an automobile knows that there is a considerable amount of leather used in its construction, in upholstery and otherwise. This means a large draught on the leather market, which is perhaps more noticeable in the high price of specialty steers, the hides of which are extensively used for that purpose—Shoe Retailer.

tion, in upholstery and otherwise. This means a large draught on the leather market, which is perhaps more noticeable in the high price of specialty steers, the hides of which are extensively used for that purpose—Shoe Retailer.

ADMITTED TO THE BAR.

Ishpeming Man Will Practice Law at Honolulu, Hawaiian Islands.

The following concerning Dennis P. Quinlan of this city, who is serving as first lieutenant in Uncle Sam's army at Honolulu, is from the Hawaiian Star: "Dennis P. Quinlan, first lieutenant in the Fifth cavalry, stationed at Schofield barracks, Leihana, was admitted to practice in all the territorial courts yesterday, after having passed what is said to have been an unusually severe examination. Lieutenant Quinlan has been studying law assiduously for the past year with the prospect of being admitted to the legal bar and in this way has completed the work which he commenced through two years spent in the law school of the University of Michigan in 1892 and 1893. He has no idea of leaving the army, but believed that he would be better off for the extra study which has brought about his admission to the legal bar by the supreme court. In speaking of his admission to the local bar Lieutenant Quinlan says:

"I thought that I would avail myself of the opportunity while here on account of the fact that I have learned through many sources that the standing of the local bar is considered to be very high throughout the legal profession of the

United States. Everywhere that I have been the lawyers have spoken of the high standing of Hawaiian lawyers, which means that the admission here means a good deal to a lawyer who starts in practice elsewhere. While I have no intention of leaving the army, I may say that I prize the certificate given me this morning as among my most precious belongings."

DIED AT BUTTE.

Brother of James M. Gee of This City Passed Away in Montana.

James McGee, the local master mechanic of the Duluth South Shore & Atlantic Railway company, who was called to Butte, Mont., about ten days ago, on account of the critical illness of his brother, Charles McGee, reached there before he passed away, death having occurred Friday evening. The deceased lived in the copper country for a number of years before going to Butte and he is remembered by many of the older residents here. The Anaconda Standard of Saturday said of him:

"Charles McGee, one of the well-known miners of Butte, died last evening at a local hospital of mine's consumption. He was a native of Ireland and had been a resident of Butte for the past twenty-one years, having many warm friends in this district. He was single. The body is at the Duggan undertaking rooms and the funeral services will be held this afternoon, the body being escorted by the Knights of Columbus to the Northern Pacific depot, from where it will be shipped to the old home in Lake Linden, Mich."

An excellent line of new, up-to-date suits, just received. Ishpeming Cloak, Suit & Fur Co., Mortley block.

STRONG CAST.

Richard F. Carroll, Gus Weinburg, Detmar Poppen, John R. Phillips, Sidney Algiers, John Lawton, Walter Anderson, Jack Rose, Jessie Stoner, Marion Hall, Etta Lockhart and a large male chorus, also one of the prettiest "girly girl" choruses will all be welcomed to the Ishpeming theater Friday evening, when the very latest musical comedy success, "The Alaskan," comes to this city. "Snowballing," an entirely new and novel comedy, in which the audience takes an active part, is a feature.

They say the coat sale will be continued Friday and Saturday at Sellwood's. (11-24-14)

Just received, ladies' and misses' cloaks, suits and furs. Great assortment. Ishpeming Cloak, Suit & Fur Co., Mortley block. (11-22-34)

They are selling even children's coats at Sellwood's at one-half price today.

We are showing an entire new line of ladies' and misses' cloaks and suits. Ishpeming Cloak, Suit & Fur Co., Mortley block, Canada street. (11-22-34)

Drop by drop the offensive discharge caused by Nasal Catarrh falls from the back of the nose into the throat, setting up an inflammation that is likely to mean Chronic Bronchitis. The most satisfactory remedy for Catarrh is Ely's Cream Balm, and the relief that follows even the first application cannot be told in words. Don't suffer a day longer from the discomfort of Nasal Catarrh. Cream Balm is sold by all druggists for 50 cents, or mailed by Ely Bros., 56 Warren street, New York.

TARANTULA SENT BY MAIL.

Nearly Caused Stampede Among Clerks in the Dead Letter Office.

Washington, Nov. 23.—The dead letter office of the postoffice department belied its name when a tarantula threw the clerks into a frenzy which for a moment threatened to become a stampede.

J. A. Davis, an experienced clerk, tore the cover from a mysterious looking package addressed to Hugero Verity, Florence, Italy, and found a box pierced with small holes. He shook it to ascertain whether or not it contained an infernal machine and the lid came off.

In a second a big tarantula was coasting on his shoulder. He knocked it to the floor, and at the sight women clerks climbed on desks and fell over one another to escape the spider. Never, said a veteran employee of the dead letter office, were so many silk stockings seen in the office before.

The tarantula was found in a pile of mail sacks and was killed.

\$100 REWARD.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: J. C. CHENEY & CO., Toledo, O. Sold by all druggists. Take Hall's Family Pills for constipation.

Right It—

Get at the bottom of the Baking Powder Question.

Buy a can of Calumet today. Put it through the most rigid baking test that you know. If it does not fully come up to your standard; if the baking is not just as good or better—lighter, more evenly raised, more delicious and wholesome, take it back to the grocer and get your money. Calumet is the only strictly high-grade baking powder selling at a moderate cost. Don't accept a substitute. Insist upon Calumet—and get it.

CALUMET Baking Powder

Received Highest Award World's Pure Food Exposition, Chicago, 1907.

ISHPEMING

FROM MORGAN'S CURB LETTER.

All New York stocks came lower at the opening this morning, and on heavy selling the leaders sold off from one to two points. The heaviest selling of Amalgamated copper stocks were thrown upon the market in the early trading, one Broadway house sold a line of this issue down to the lowest. New York looks for still lower prices.

In Boston, the Cole-Ryan stocks were again under heavy pressure. Considerable speculative copper stocks were thrown upon the market in the early trading, on the belief that the merger project had secured a setback. When this was out of the way, the market acted much better. Lake was the feature. After selling down to 46 in sympathy with the balance of the list it advanced to 51, closing at 50 1/2.

The curb issues were neglected, as is generally the case when the listed stocks are active. Exceptions were Cumberland Ely, Indiana, Ohio Copper, National Exploration and La Rose, there being quite a number of trades in these issues. Indiana sold at 7 1/2.

We quote the Wall Street Journal as follows: "The increased commercial activity which has characterized conditions in the United States during the past few months is beginning to make itself apparent in other parts of the world. The records of the Bureau of Statistics of the Department of Commerce and Labor, which have during the past several months indicated a marked improvement in both the internal and foreign commerce of the United States, are now showing improved conditions in the foreign commerce of many of the countries of the world."

Yesterday's prevailing prices were:
Almeck \$215.00
American Saginaw 2.37 1/2
Arizona & Mich. 40
Black Mountain 75
Butte & Superior 2.50
Butte-Alex Scott 3.75
Butte & London 25
Butte & Baklavava 9.02 1/2

Table with 2 columns: Stock Name and Price. Includes entries like Channing, Cumberland Ely, Cordova, Calumet & Cornish, etc.

The season's most fashionable cloaks and suits, also excellent line of furs, Ishpeeming Cloak, Suit & Fur Co., Mortley, (11-22-34)

ISHPEMING IN BRIEF.

Miss Doris Ruppals of Ripon, Wis., is in the city visiting Mrs. Brayton. Miss Irene Darlington of Humboldt visited Miss Myrtle Tucker here yesterday. Ludwig Jernstad has taken a position in the clothing department of F. Braastad & Co. E. R. A. Hunt, formerly pharmacist in A. Clement's drug store, was here Monday from LaRose. Daniel McQuiggan, who was so severely injured by a runaway team a few weeks ago, is out every day and will

soon be able to resume his work with T. Hughes & Son.

A son was born yesterday morning to Mr. and Mrs. George R. Jackson of Gwin, formerly of this city.

The Ishpeering fire department's annual election of officers will be held Saturday evening at 7:30 o'clock.

The stores of the city will be closed tomorrow, as will also the banks, brokerage offices, library and postoffice.

A special meeting of Sir Humphrey Lodge, Sons of St. George, will be held tomorrow afternoon at 2:30 o'clock.

The Chicago & Northwestern passenger train was over an hour late arriving here yesterday morning from the south.

In the article in yesterday's Mining Journal referring to the shipments at the Portland mine on the range west of Michigan, the figures were given as 30,000 tons; they should have read 80,000 tons.

Turkeys are retailing here at from twenty-one to twenty-three cents per pound, according to quality. It is not anticipated that there will be a shortage, as most of the dealers have received a large supply.

J. Selford & Co. have an exceptionally fine display of fruit and other articles suitable for Thanksgiving in the windows of the grocery department. Among the articles are apples from the state of Washington that retail at ten cents each. The fruit is among the finest ever seen here.

Mrs. N. E. Skud will leave tonight for Chicago, where she will spend several days with her husband, who is in a hospital. Very encouraging reports are being received daily from the hospital, though Mr. Skud is still very weak. His brother-in-law, J. Siamos, of Bessemer, will spend Thanksgiving with him.

Captain John H. Cundy and wife of Iron Mountain, are spending a few days in Ishpeering visiting old friends. Captain Cundy is one of the oldest and best known miners in the upper portion of the state. He worked in several of the mines here more than thirty years ago. He was also among the early employes at the Humboldt, Champion and Michigan mines. He has been on the Michigan range ever since he left this country.

Births recorded in the city yesterday are: a daughter to James Argall and wife, 115 E. Vine street; Mr. and Mrs. Elias Laakko, 112 York street; son, Gunder Wangberg and wife, 520 East Bank street; son, Matti Kallio and wife, 344 West Johnston street; son, Mr. and Mrs. Oscar Lahtinen and wife, 412 Second street; daughter, Mr. and Mrs. Andrew Mannula, 525 Jasper street; son, Solomon Takala and wife, 538 Marquette street; a daughter.

Mining News

TAMARACK.

An important piece of news has been that announced by the Tamarack Mining company, says the Boston Financial News. The plan of separating the Cliff lands from the Tamarack has been drawn up probably a year ago, but the announcement was delayed until the past week. In effect the organization of a new company to develop the Cliff is equivalent to an assessment on the Tamarack stockholders, but the assessment is not compulsory. The Tamarack stockholders are not obliged to subscribe for the new stock. Therefore, stockholders who do not consider Tamarack worth its present price plus the \$13 asked for the Cliff stock need not subscribe, and yet their Tamarack stock will be strengthened by the new money; and those who think that Tamarack is worth more than its market price will doubtless take on the new stock. Tamarack has advanced since the call for the meeting of the stockholders, which indicates that the plan is acceptable to the stockholders. In view of the fact that the Calumet & Hecla and allied interests have a voting control of the Tamarack stock, it may be taken for granted that the new plan will be adopted. Those familiar with the lake copper region state that the Cliff lands are among the richest copper deposits in that locality and that the development will be a great boon to the Tamarack. It will take time, of course, but with ample capital and a first-class management the outcome is very hopeful. By organizing this valuable area into one large tract, the latter company will receive \$750,000, which sum will pay off the floating debt, provide \$100,000 for the new company and leave a working capital of nearly \$400,000 in the treasury.

Within the boundaries of the Tamarack proper there are 120 acres of rich mineral land known as the three forties, which belong to the Calumet & Hecla company. Previous to the taking over of the Tamarack by the latter company this 120 acres could not be worked by the parent company. Now, however, the Calumet can run its own shafts right through the Tamarack lands and work the three forties to advantage. It is stated that this privilege is worth all that the Calumet & Hecla company paid for its holdings in the Tamarack. A large part of the 42,372 acres of the Tamarack consists of valuable lands, which makes another strong asset for this company. There is more timber on the property than the Tamarack will ever need for its own use, so that in case of a scarcity of lumber at the Lake, the various Calumet properties are assured of an ample supply. It is therefore, clear that although the old Tamarack mine in recent years has not made an encouraging record, its large acreage contains enormous values which have heretofore not been fully appreciated by a great number of people.

MERGER TO CURTAIL TRADING?

In connection with the proposed copper merger, few have apparently stopped to consider what will be the effect on the Boston Stock exchange of the combination of many of the old copper stocks, such as Amalgamated, North Butte, Greene-Canaan, Butte Coalition, Utah, Utah Consolidated, Nevada Consolidated, Superior & Pittsburg, Calumet & Arizona and Giroux, all of which are apparently slated to go into the combine. There will appear in place of these stocks the securities of the new company—probably preferred and common—but it is entirely likely that the trading in two stocks, one of which might be styled an investment stock, would begin to approximate that in a dozen popular copper stocks. If the new company has a billion-dollar capitalization, there is at present but one com-

pany with which to make comparison of share activity—the United States Steel corporation—although Boston's proportionate interest in the copper combination is larger than that in Steel shares. The total sales on the Boston Stock exchange for the week ended Nov. 13 were \$45,632 shares, of which the above mentioned copper stocks contributed 126,821 shares, or 30 1/2 per cent. Transactions in United States Steel common and preferred amounted to 18,000 shares, or about 3 per cent of the total, less than 100 shares of preferred changing hands during the week. Probably year in and year out the particular stocks which are now so active would not show so large a percentage of the total sales, but Amalgamated, North Butte, Butte Coalition and Greene-Canaan always have been speculative favorites in Boston, and in any active copper share market have been important factors in increasing the amount of business done. Therefore, while 30 1/2 per cent represent more than ordinary interest in these shares at the expense of other copper shares, it still shows that the elimination of these stocks from trading would be a matter of serious concern to the Boston Stock exchange.

IN THE BISBEE CAMP.

The properties of the Calumet & Arizona and the Superior & Pittsburg companies are making a better showing at present in their development work than ever before. New high grade bodies of ore have recently been encountered in the Oliver of the former company and the Hoatson and Junction of the latter. Ninety-six feet of high grade ore has been cut on the 1,400-foot level of the Hoatson which looks like the best body which was encountered on the 1,300-foot level. This body has been thoroughly prospected between these two levels. The ore is an oxide and runs as high as 36 per cent. For twenty feet in the drift on the 1,400-foot level chunks of native copper were encountered of immense size. A drift is being run on the 1,400-foot level for the purpose of encountering this body, which will be reached at a distance of about 800 feet from the station. The Junction has encountered a large body of sulphides on the 1,500-foot level, where work has been resumed after having been suspended for two weeks on account of an accident to one of the pumps. The ore will average 7 per cent drift. The ore was encountered in No. 2 drift. This is the same drift in which high grade sulphides were encountered about three months ago.

The Oliver of the Calumet & Arizona is exploring the high grade oxide body recently encountered on the 1,050 level. The ore body has been cut for sixty-five feet and it continues down to the 1,100. Oxides at this depth is looked upon as very encouraging for greater ore bodies with increased depth. The Paeroec ore body of the 1,250 has been tapped for the 1,300 and has been cut for seventy feet, with the face in solid ore.

The output of the Calumet & Arizona and Superior & Pittsburg combined is now reaching a total of 100 tons. About thirty men are at work and the sinking is being done with the aid of machine drills. The ground through which the shaft is sinking is diorite with veins of quartz associated with chalcopryite. It is expected that crossing to the Big John vein will not be undertaken until a depth of between 650 and 700 feet has been reached. The Big John vein which cuts the country in the vicinity of the shaft has proved rich in copper where mined on the Yuma and Big Johnny claims of the Old Dominion company. The opening of this vein by crosscut on the 600 or 700 levels of the Superior

SUPERIOR & GLOBE.

The Superior & Globe Copper company is continuing the sinking of its vertical three-compartment shaft, which has now reached a depth of 100 feet. About thirty men are at work and the sinking is being done with the aid of machine drills. The ground through which the shaft is sinking is diorite with veins of quartz associated with chalcopryite. It is expected that crossing to the Big John vein will not be undertaken until a depth of between 650 and 700 feet has been reached. The Big John vein which cuts the country in the vicinity of the shaft has proved rich in copper where mined on the Yuma and Big Johnny claims of the Old Dominion company. The opening of this vein by crosscut on the 600 or 700 levels of the Superior

Edison Records for DECEMBER Out To-Day. Amberol Standard. Edison Amberol Records by HARRY LAUDER. 1805 She's My Daisy. 1806 I've Loved Her Ever Since She Was a Baby. 1808 Bonnie Lizzie Lindsay. Edison Phonographs \$12.50 to \$125.00. Standard Records 35c. Amberol Records (twice as long) 50c. Grand Opera Records 75c. NATIONAL PHONOGRAPH COMPANY, 75 Lakeside Avenue, Orange, N. J.

NOTES OF COPPER NEWS.

Although nothing definite can be ascertained from local management of North Butte, it is learned that miners working on the 2,200-foot level that the drift on the Jessie vein which was recently intersected by the main crosscut will be under the ore body which gave high values on the 1,800 level, and from the character of the vein filling at present, it is fair to presume that good ore will be opened up within the next forty feet.

It is said that the Almeck stamp mill will be placed in commission about the middle of February. The property is now equipped and for the supplying of about 2,500 tons of rock daily point to a production at the rate of from 17,000,000 to 18,000,000 pounds of copper per annum. Including expenditures in connection with the construction of a stamp mill, the company's cost per pound for the current year is but a small fraction over ten cents.

An important strike has been made in the Ohio Copper ground, which is regarded with much significance by the Heinz engineers. On the first level the Elvina vein was tapped and a few feet of high-grade copper ore was uncovered. On the fifth level they drilled 460 feet from the shaft and cut this vein at a depth of 640 feet in its pit. It has been opened up four and one-half feet in width and shows over \$150 in gold, 4 per cent in copper and excessive iron values. If it is found continuous at greater depth, it will be of great value to the mine in mixing with the lower-grade ore for concentration.

There is little to report concerning developments on the Keweenaw property, where both diamond drill exploratory work on the Osceola amygdaloid and Calumet conglomerate beds and shaft sinking in the Kearsarge formation is in progress. Mineralized ground has been opened at nearly every point of attack though nowhere in commercial quantities aside from that found in several fissure veins, and such ground has invariably proven painfully limited in extent. Probably the most encouraging conditions found on this property are those at present obtaining in the Kearsarge bed with good indications that a low grade mine may yet be developed there.

TERrible Red Patches on Face and Arms Made Victim Ashamed to be Seen—Suffered Intensely for Ten Months—Expert Treatment Gave No Relief—Two Sets of the CUTICURA REMEDIES ENTIRELY CURED HER.

"About two years ago I contracted eczema and suffered intensely for about ten months. At first I thought I would scratch myself to pieces. My face and arms were covered with large red patches, so that I was ashamed to go outdoors, and I was obliged to wear a mask. I was a specialist in skin disease, but I received very little relief. I tried every known remedy with the same result. I thought I would never get better until a friend of mine told me to try the Cuticura Remedies. So I tried them as the last resource, and I am very glad that I did, for after four or five applications of Cuticura Ointment I was relieved of my unbearable itching. I used two sets of the Cuticura Remedies (Soap, Ointment and Pills), and I am completely cured. I always recommend Cuticura to any one who is suffering and in every case it seems to cure. Miss Barbara Karl, 629 Mt. Pleasant Ave., Highlandtown, Md., Jan. 9, '08."

Charles Sumner Smith, president of the Old Dominion Copper Mining & Smelting company, says: "Conditions at the Old Dominion have never been so good, both as regards quantity and quality of the ore, and the economical conditions under which it can be extracted. The mine is capable of producing a very large tonnage of exceptionally high-grade ore with the prospects extremely good for opening up larger bodies of a similar grade. It is also in a position to produce a very large tonnage of lower-grade or concentrating ore. However, the lower grade ore cannot be treated at the present time at any great profit, but it is from this class of ore that our excess of sulphur is largely derived. It is my opinion that the recent change in management at the Old Dominion will be highly beneficial to the property; that all the matters at the Globe end will be managed in a much more economical and efficient way than heretofore. I do not expect that the monthly production

RUSSIAN JUSTICE IN ALABAMA.

If it is true that an Alabama woman was sent to prison for seven years for stealing a pound of butter and a dozen eggs, the Daniel who sits on that particular bench presumably would imprison for life the woman who stole a sack of hominy, and hang the woman who appropriated a ham.

On the farms of England last year there were 1,494,089 horses employed.

TO BE SOLD FOR DEBT.

The Mitchell Mining company, which a few years ago began operating properties in Mexico, is reported to be in bad straits. George Mitchell, an eastern man, organized the company, and most of the capital stock was subscribed for by people in Washington, D. C.

DOING GOOD BUSINESS.

Carl G. Winkler, one of the members of the firm of Winkler Bros., who less than a year ago established a confectionery factory at Duluth, was in the city yesterday. The firm, although it started on a very modest scale, is now working twenty-one hands, and the business is increasing every month.

TO DO AWAY WITH HAND CARS.

The Chicago, Milwaukee & St. Paul Railway company will be one of the first of the big railway concerns to get the old style hand cars out of business. The management of the system has just decided to build a factory at Tomah, Wis., for the construction of railroad bicycles.

Negaunee Department

TWO CARLOADS OF CIGARETS FOR CHINA

UNUSUAL CONSIGNMENT OF "COFFIN NAILS" PASSED THROUGH NEGAUNEE YESTERDAY EN ROUTE FROM NORTH CAROLINA TO SHANGHAI.

Two carloads of cigars in transit from North Carolina to Shanghai, China, stood in the Negaunee yards of the Duluth, South Shore & Atlantic Railway company for a few hours yesterday morning.

This is by far the largest shipment of cigars that has ever passed through here consigned to a foreign country. Small shipments have been frequently made during the past several years over the route handling the two-car consignment.

Speaking of the laws that have been enacted during the past few years in some of the states in this country, prohibiting the sale of cigars, a Minnesota man in the city yesterday who travels through Northern Michigan, Wisconsin and Minnesota, said that the sale of cigars has not been entirely suppressed in either Wisconsin or Minnesota.

WIFE DEAD AND MONEY GONE.

Syrian Peddler from the Upper Peninsula Had Sad Home-Coming. A dispatch from Cleveland, O., says of the return to that city of a Syrian face peddler, who had been working in the upper peninsula.

TO EXAMINE RECORDS.

Books of Daly-West Mining Company Are to Be Looked Into.

The many upper peninsula people who hold shares in the Daly-West Mining company, operating the Daly-West mine in Utah, will be interested in the announcement that the district court of Salt Lake has handed down a decision giving H. Otto Hanke and W. R. MacMillan the right to inspect the books of the corporation.

This decision is one of the steps in the contest between the Hanke-MacMillan and Bamberger factions for control of the property. Hanke and MacMillan say that they hold stock and proxies amounting to 40,000 shares and the Bamberger faction claim to control 90,000 shares.

The fight comes over the contention made by Hanke and MacMillan that the property has been grossly mismanaged and they claim that an examination of the books, which they are now at liberty to make, will show this to be a fact.

A few years ago the shares in the Daly-West company were very actively traded in the markets of this section, and many of the early buyers of the stock have since retained it.

STEEL PRODUCT ACTIVE.

Additional Orders for Future Shipments Are Still Being Received.

It is reported from New York that the principal features of interest in pig iron last week were sales of speculative Alabama iron at a decline of from fifty cents to \$1 per ton and larger transactions of basic iron with concessions in Eastern Pennsylvania.

One or two Alabama furnace companies notified purchasers that carrying charges would be levied on iron in stock after specific dates. The result was a drop from \$15 to \$14 a ton for No. 2 foundry. Northern iron also sold at concessions for this year's shipment.

Steel products have continued active. Hardware and other manufacturers have placed additional orders for open-hearth. Orders for rails aggregated only about 20,000 tons.

Cold orders, however, have been heavy, aggregating 17,000. Wire products continue active, and heavy specifications for sheets and tinplate have been induced by the recent advance of ten cents a box on plates and \$1 to \$1.50 a ton on sheets.

LOCAL LACONICS.

A son has been born to Mr. and Mrs. William Neely.

C. D. Driscoll's oldest son has been quite ill the past few days.

Contractor Spaulding is putting the cornice in place on the new fire hall building.

Andrew Lindquist expects to finish putting the cornice on the Scandinavian society's block today.

A large number of Negaunee people will take in the Ishpeming fire department's annual ball at Braastad's Hall tonight.

Philip Levine and wife will leave tomorrow morning for Houghton, where they will spend the winter, visiting his brother, Maurice, and family.

Miss Elliot left Monday night for her home in Beaufort, N. C., after spending several months here with her brother, S. R. Elliot, who accompanied her as far as Chicago.

F. A. Bell, Dr. B. J. Miller, Walter L. Sterling and Frank Hopkins have returned from the woods, north of Clowry, where they spent ten days hunting. Each brought home a deer.

The blacksmiths of the city have had a rush of business the past few days in the horse-shoeing line on account of the condition of the streets and roads, which are covered with ice.

The steam shovel work on the South Shore's new spur leading to the Davis and Milwaukee mines, will be finished today. The rails have been laid the entire distance and cars of material can now be shipped into the mines at any time.

The ladies of the Swedish Lutheran church congregation who had planned to serve supper tomorrow evening in the Scandinavian society's new hall will serve it in the main room on the first floor, which is to be used as a music store room by J. E. O'Donoghue, as the hall is not yet completed.

The ladies of the Mitchell Methodist church congregation will serve supper, and will also conduct a bazaar, tomorrow evening in the church parlors. Supper will be served between 5 and 7 o'clock. An admission of five cents will be charged and adults will pay twenty cents and children ten for the supper.

A large collection of useful and fancy articles will be on sale. H. F. MacMaster, who a short time ago gave up his position as operator in the local office of the Duluth, South Shore & Atlantic Railway company, has gone to Saginaw, Mich., where he will spend a few days visiting friends. He will go from there to Chicago, where he will meet Ed Murphy of this city next Sunday. Both will go to Arizona, where they expect to spend the winter.

A. E. Sterne, county commissioner of schools, yesterday visited the new school house recently completed in Negaunee township, about two and a half miles north of the Maas mine. Miss Juliette Hoinanen of this city is the teacher. Several farmers have located in that district during the past few years, and there

DULUTH ENGINEER TO MAKE ESTIMATE

T. F. MCGILVARY SPENT YESTERDAY IN CITY STUDYING THE LOCAL WATER PROBLEM.

TO PRESENT COST FIGURES

Will Determine Expense of Extending Intake, Removing Plant to Presque Isle, and Installing Electric Pumps.

T. F. McGilvary of the Duluth Engineering company and city engineer of Duluth spent yesterday in Marquette, preparatory to making an estimate of the cost of the various schemes that have been proposed for improving this city's water supply. Mr. McGilvary during the forenoon inspected the present plant and different points in the city geographically connected with the water problem, and in the afternoon he met with the water board in the city hall, where a lengthy session took place.

While the majority of the board favor the extension of the intake as the most economical and most feasible method of getting pure city water, it is decided to have cost figures prepared on other proposed ways of bettering the supply, by means of which the public will be able to better understand what the board are doing and the reason they have taken any particular course in preference to some other. With reference to the different methods of securing better city water, Mr. McGilvary stated last evening that he did not care to commit himself, further than to say that the water board had evidently made a thorough and exhaustive study of the problem and that the conclusion reached was in all probability the reasonable and logical conclusion, at any rate from an economical standpoint.

Electric Pumps Under Consideration. In connection with removing the plant to Presque Isle, the question of electric instead of steam pumps came up. The experience of other cities and rough estimates show that the expense of operating the present water works plant could be reduced one-half by the installation of electric pumps. This being the case, were the plant to be removed to Presque Isle, no pumps except those operated by electric current would be taken into consideration. But as the light and power commission would probably not be able to furnish sufficient power at all hours of the day, it would be necessary to have a reservoir at sufficient elevation to insure water pressure when the pumps were not in operation. The Duluth engineer has consequently been asked to furnish estimates on the cost of installing and operating electric instead of steam pumps. This being the case, were the plant to be removed to Presque Isle, no pumps except those operated by electric current would be taken into consideration. But as the light and power commission would probably not be able to furnish sufficient power at all hours of the day, it would be necessary to have a reservoir at sufficient elevation to insure water pressure when the pumps were not in operation.

The reservoir proposition will necessitate the running of lines and surveys, which will be done by local engineers and the results transmitted to Mr. McGilvary in Duluth. Whenever these results are received, Mr. McGilvary states that it will not take him very long to prepare the estimates desired. Once these estimates are in the hands of the board, including cost of intake extension, removal of the plant to Presque Isle, and the substitution of electric for steam power, the figures will be made public so that the people will be able to vote intelligently upon whatever bonding proposition may come up. The board desire that the public shall at all times know just what they are doing and why they are doing it, and hope for the hearty co-operation of the people in their efforts to do the best they can toward the ultimate goal of absolutely pure city water for Marquette.

FINNS MUCH INTERESTED.

Generally Believed Locally that Russia's Demand is Unjust.

Local Finns are taking much interest in affairs in Finland with reference to the demand of Russia for the passage of the military bill, authorizing the payment by Finland of \$1,000,000 for the defense of the empire. The action of Russia is looked on locally as unreasonable and it is believed a diet composed of Finnish people will never pass the bill. The telegraphic news received this week that the diet had dissolved without passing the bill was hailed with much satisfaction. It is known, however, that the Russian government will demand the organization and election of another diet. It is the younger element in Finland which is against the passage of the bill. In fact, the only party in favor of the bill in Finland is the clergy, known as the old Finnish party. Marquette Finnish residents, however, realize the fatality of an uprising in Finland, believing that any rebellion would be instantly crushed by the Russian government.

Leading English and American papers are stirred up over Russia's action, and speak in condemnatory terms of what is considered an extortion and hardship on Finland and here already heavily oppressed people. Further information from Finland will be awaited eagerly locally.

THIRTY-SEVEN APPLICANTS.

Fewer Citizenship Cases Than Usual for Hearing at December Term.

But thirty-seven applications for final citizenship papers will come up for hearing at the December term of court, as compared with over seventy applications at the preceding term. It is stated that for some reason or other there are usually less applications for citizenship during the winter than the summer months. The fact that speaking knowledge of the English language is required as a test of fitness for citizenship may have been in part responsible for the small number of petitioners for the coming term.

The following are the petitioners: Fred Paju, Dominico Umbrello, Alexander Orr, Edward Johnson, Jacob Pihlaja, Thomas Chim, Christ Hoen, John Eagle, Ishpeming; Joseph Salo, Lauri Fenander, Viktor Heikkala, Knutaa Paalala, Fred Fredericksen, Viktor Ranta, Samuel Hogander, Eliel Rappan, Augusti Pivajarvi, Jacob Lofgren, Samuel J. McCall, Joseph A. Alondor, Phyllis Bernard, Joseph Sealock, Nogaanee, Oscar V. Nelson, Matt Aschholm, Allick Johnson, V. J. Halby, Marquette; Stephen Christian, National Mine, Adolph Pajala, James Perry, John E. Maki, Princeton; Frederick Gustafson, Gustaf H. Lindblad, John Hendrikson, Skandia; Jaako Holappa, Matt Lampinen, John Johnson, Henry Makeda, Palmer.

MANY SIGNERS FOUND TO BE NON-VOTERS

LIQUOR INTERESTS CLAIM AT LEAST 300 NAMES ON LOCAL OPTION PETITIONS ARE INVALID.

Those opposed to the local option movement have been making careful investigation of the signatures to the petitions posted last week and the statement was made last evening by one of the leaders in that investigation that there were probably at least 300 names on the petitions whose names do not appear on the report books used at last fall's election, and therefore are not qualified to sign the petitions. On the lists posted in Marquette city, it is claimed that sixty-seven such names were found; in Negaunee, ninety-eight, and in Republic about 100. No investigation has yet been made of the Ishpeming lists, but it is believed that the proportion of illegal signers in that city will be larger than in either Negaunee or Marquette. As the local option workers do not claim to have more than 150 more than the necessary number of signers on the petitions, this report makes it look as if the local option movement, as far as an election is concerned, would be killed by the board of supervisors.

In addition to the investigation of the petitions, the liquor interests have been circulating petitions among those who signed the local option election petitions, the latter petition requesting that the signer's name be removed from the original petition. It was said that 177 such withdrawals had been secured up to last night. Various reasons are given for signing the original petitions by those who now want their names withdrawn. Some say that they did not notice what they were signing, others that after deliberate thought they have changed their minds on the question, still others that they signed to avoid being bothered further by the men circulating the petitions, and a few claim that their names were put on the petitions without their knowledge or consent. Several affidavits have been secured from the last class, in which the signers deny ever having put their names to any petition for a local option election, and swear further that if their names appear on the petition the signatures are forgeries.

GREAT LAKES GIVE STATE LOW RATES

TARIFF EXPERT SAYS MICHIGAN HAS CHEAPEST FREIGHT TRANSPORTATION OF ANY STATE.

Intra-state freight rates are lower in Michigan than in any other state in the union by reason of its peninsular isolation, says R. R. Darwin, rate expert for the state railway commission and an experienced railway traffic man. Boundary lines have little to do with freight rates in other states, but in Michigan the great lakes, which set it apart from other states, also furnish cheap transportation to its many miles of coast line, and the railways, to get their share of the cross state business, have to make low rates to meet this ship competition and intermediate points in the state benefit proportionately. Some towns and shippers suffered in the past because of discrimination and rebating, but under present laws these practices have nearly disappeared, it is stated, and as the roads gradually bring their rates to an average fair basis the rates on shipments within the state are declared to be lower than those quoted in other states, and much lower in those commodities which boats may handle as well as trains.

Fewer Complaints of Discrimination.

This statement was brought out by an inquiry as to whether there was any conflict with railways over exorbitant freight rates and whether there were many complaints filed by shippers asking the commission to interfere and protect them. Mr. Darwin said that there were many complaints filed by shippers asking the commission to interfere and protect them. At the time the act was passed establishing the commission, there was a great hue and cry about these rates and it was urged that a commission was necessary to protect the people from the rapacity of the railroads. Since then there has been but little heard of this issue. Instead of the commission being overwhelmed with appeals the records show there were 496 complaints of this character filed last year, only a few of which were of any importance. Of these 400 were investigated and in 311 instances the rates were reduced. This year the number of complaints will be decreased in spite of the fact that the railways have filed with the commission 14,823 new passenger and tariff sheets this year.

"We have complaints from shippers relative to rates, of course, and there will be more of them," said Mr. Darwin. "Some day we may have general charges filed against large portions of the rates in effect, but in our experience so far the cases have not been as numerous as might have been expected. In a great many instances shippers filing complaints have been found, when we presented them with the facts that they were not being overcharged; in other instances the roads have adjusted the rates without a formal hearing. There are constantly new complaints of one kind and another to investigate, but these are not all directly concerned with freight tariffs."

Cheap Freight Rates.

Speaking of freight rates in other states, Mr. Darwin said that in them the great trunk lines do not find a boundary line impassable as in Michigan and the boats able to compete for a large portion of the carrying business. The lake carriers have made rates on many commodities so low that railways could only meet them by building up a business which will guarantee them to haul both ways. By means of electric lines boats can now deliver freight into many inland towns and the effect has been general all through the state. One act passed by the last legislature has done much, it is stated, to reduce the number of complaints. This act provides that the only legal rate between two points, shall be the lowest rate in combination of the published rates to intermediate points. Since this act went into effect, there have been only ninety-seven complaints filed with the commission.

Investigation of the daily reports in the office of the commission showing changes in rate tariffs, developed the fact that during this year the roads in changes in their rates have reduced a great many more than they have raised. The ratio may be about one increase to three reductions.
