

STRIKE TIES UP RAILROAD TRAFFIC

Managers and Switchmen of the Railroads Operating in the Northwestern Region Are Unable to Adjust Differences.

Demands for a Wage Increase of Sixty Cents a Day, With Double Pay on Sundays and Holidays, Are Refused by the Companies and Arbitration Is Refused by the Union—Accordingly, 2,300 Men Quit Work Between Duluth and Pacific Coast.

St. Paul, Nov. 30.—After fifteen days negotiating between the Switchmen's Union of North America and a joint committee of railroad managers representing the thirteen principal railroads of the Northwest, a strike involving 2,300 switchmen became effective at 6 o'clock tonight.

Unless speedily settled, the strike will mean a serious interruption of traffic. The first effect was a sharp bulge in the price of wheat at Chicago late today.

Position of the Railroads. The railroad managers' committee addressed the following to the public: "The railroads of the Northwest, recognizing that the public is an interested but unrepresented third party in the controversy with their switchmen, through the committee which has been conducting their negotiations desire to state the following facts:

The switchmen in the Northwest territory made simultaneous demands on the thirteen railroad companies entering in the Twin Cities for an increase in wages and certain changes in the service conditions.

Demands of the Men. The demands were for double pay on Sundays and holidays; overtime; an advance of sixty cents a day of ten hours in the wages of the switchmen switch tenders, towermen, engine herders and assistant yardmasters; the modification of the rule providing the payment of a penalty in case of failure to report the switchmen to their shift at a stated period, which modification contemplates double pay in cases where it becomes necessary to work a portion of the meal hour, and the elimination of the physical examination and age limit upon switchmen entering the service.

Present Wages Over \$100 a Month. Attention was called to the fact that in 1906 the switchmen were granted a larger percentage of increase than any other class of employes in the train service. At the present rates, the wages of the switchmen average over \$100 a month.

Nov. 23, in submitting the final answer to the switchmen, the managers' committee, assuming that the switchmen desired an amicable adjustment, suggested that the demands be submitted to arbitration under the Erdman act. The switchmen declined to accept the suggestion, and in a final written answer stated that they would not submit to arbitration under any circumstances.

Nov. 23, in submitting the final answer to the switchmen, the managers' committee, assuming that the switchmen desired an amicable adjustment, suggested that the demands be submitted to arbitration under the Erdman act. The switchmen declined to accept the suggestion, and in a final written answer stated that they would not submit to arbitration under any circumstances.

BIG FISTIC BOUT IN EAGER QUEST

Fight Promoters With Proposals Aggregating More Than a Million Dollars Are After the Johnson and Jeffries Contest.

Thirty-Five Bids Have Been Received, and These Will Be Opened and Considered at Hoboken Today—That the Battle Will Go to California, and Probably to San Francisco, Is the General Expectation in New York Sporting Circles.

New York, Nov. 30.—"Fight promoters" with proposals aggregating more than a million dollars will go to Hoboken, where tomorrow bids will be opened for the world's championship fight between Jackson Johnson and James J. Jeffries. Thirty-five bids have been received, ranging from \$150,000, the sum credited to Billy Garon, of St. Louis, to \$300,000, the amount promised by six different promoters.

Sporting circles sift the list to five probable contenders—Eddie Graney, James Coffroth and Jack Gleason all of San Francisco; Tom McCarthy, of Los Angeles; and Rex Rickard, of the West. It is understood, and the others are "bringing a wagonload of coin," ready to outbid everybody. California, and probably San Francisco, is expected to get the bout.

Pugilists Fined at St. Louis. St. Louis, Nov. 30.—Harry Trendall and George Mennis, pugilists, pleaded guilty today to having been the principals in a prize fight at Wellston Sept. 23. Each was fined \$100.

Box Twelve Rounds to a Draw. Boston, Nov. 30.—Ray Bronson, of Indianapolis, and Dave Desher, of Cambridge, boxed twelve rounds to a draw here tonight. Desher was the heavier hitter.

Many Trains on Sidings. At Duluth, two switch engines are working, manned by the foremen of switching crews. None are working at Superior. At Livingston, Mont., all thirty Northern Pacific switchmen are out. Fifteen freight trains are on sidings. Fargo reports the thirty-two members of the union at Northern and Moorhead all out. At Great Falls, all fifty switchmen have struck, and freight traffic is at a standstill. Reports from Helena state that only two of the twenty switchmen there have struck. At Billings, Mont., only three great Northern and four Northern Pacific switchmen quit tonight. The other twenty-five men employed there are not members of the union and are not in sympathy with the strike. Not a wheel is turning in the terminal yards at Seattle, Tacoma, Everett and Billings.

Hundreds of Cars Stalled. Sheridan, Wyo., Nov. 30.—Hundreds of freight cars are stalled on the Burlington railroad as a result of the refusal of the Northern Pacific to accept through freight, on account of the switchmen's strike. Only local freight trains are operated. Six coal freight cars here are seriously affected.

Portland, Ore., Nov. 30.—The local switching for the Northern Pacific railroad is done by the Northern Pacific Terminal company, whose men have taken no action toward the strike. The officials of the Terminal company state that their forty-two switchmen are all members of the Brotherhood of Railroad Trainmen. The Terminal company is controlled by the Harriman interests, and they see no occasion for the switchmen to take sides with the striking employes of the Northern Pacific. The great Northern trains are operated here over Northern Pacific tracks.

Mandate Is Stayed. Court of Appeals Grants the Appeal of the Labor Leaders. Washington, Nov. 30.—The court of appeals of the District of Columbia today granted the petition of Gompers, Mitchell and Morrison, in the contempt case against them, for a stay of execution of the mandate of the court sending them to jail. The mandate is stayed indefinitely, pending the appeal to the supreme court of the United States.

MOYER, TOO, GOING TO LEAD. Western Miners' Head Traveling on Same Train as Company's Detectives. Denver, Nov. 30.—Traveling on the same train with seventy employes of a detective agency, who are to guard the Homestake mine during the strike, President Moyer, of the Western Federation of Miners, is en route to Lead, S. D.

ENGINEER BONNELL RESIGNS. Chicago, Nov. 30.—Ralph A. Bonnell, assistant city engineer, who was brought into prominence through having approved a contractor's estimate for the removal of shale from a sewer excavation, tendered his resignation today. His resignation is ineffectual, as he has been ordered discharged by the civil service commission. Bonnell told the commissioner of public works that his record of the excavation had been stolen.

THE WEATHER.

Washington, Nov. 30.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Wednesday and Thursday; somewhat colder Thursday, in the west; moderate south winds, becoming west on Thursday.

HUNTING SEASON DISASTROUS. Thirty-Three Persons Killed in Woods of the Upper Lake Region. Chicago, Nov. 30.—The record of tragedies during the fall hunting season in Wisconsin, Michigan and Minnesota is thirty-three killed and thirty-seven wounded. It is believed later reports will swell the list.

ONCE HAD A FORTUNE OF TWO MILLION DOLLARS. Alonzo Whiteman Duluth's ex-Mayor, Convicted of Obtaining Money Under False Pretenses, Must Remain in New York Prison—New Parole Law Is Held Not to Affect Him. Albany, N. Y., Nov. 30.—Alonzo J. Whiteman, who was sentenced to prison from Erie county in 1905 for eight years and five months for obtaining money under false pretenses, has failed to gain his release under the new statute which makes all first offenders eligible to parole who have served one-half of their sentence. The attorney general holds that as Whiteman pleaded guilty previously in Massachusetts, he is not a first offender.

COPPER CONSOLIDATION HAS NOT BEEN GIVEN UP. Proposed Merger Still in Process of Formation, Announce J. P. Morgan & Co.—It Is Believed, However, the Plans Have Been Modified Somewhat. New York, Nov. 30.—The proposed merger of the large copper producing companies is still in process of formation, according to a statement made today at the office of J. P. Morgan & Co. It is believed that the Standard Oil decision, however, has altered the plans for the combination, and that those having the matter in hand will bring about the consolidation of the copper interests in such form as not to be affected by the present federal statutes. No announcement of the plans for the combine is expected for several weeks.

STOCK MARKET FEVERISH. Ascribed to Technical Causes, Prices Decline and Then Recover. New York, Nov. 30.—The movement of prices in the stock market today was ascribed more to technical causes than to reflection of opinions or causes bearing on values. There was a considerable absorption by uncovered shorts and by new buyers for long account to offset the liquidation caused by the events of the last few days. There was near enough balance between these opposing forces to bring the prices back over their own course and to lead to a considerable settlement of sentiment in consequence. Professional traders felt the pulse of the market eagerly, and their shifting of position had much to do with the variation of prices.

Yesterday's violent closing break caused widespread uneasiness. Lenders of money on stock collateral apparently liquidated caused by the events of the last few days. There was a considerable absorption by uncovered shorts and by new buyers for long account to offset the liquidation caused by the events of the last few days. There was near enough balance between these opposing forces to bring the prices back over their own course and to lead to a considerable settlement of sentiment in consequence.

Powerful Speeches Made. Today's debate was again distinguished by its oratorical excellence, particularly by the speeches of Lord Curzon, former viceroy of India, and the Archbishop of York. The latter, who made a deep impression, was completely in command of a measure passed by so large a majority of the people's representatives in the house of commons. Lord Curzon maintained that the lords had absolute right to reject a finance bill. He agreed that the country was in the midst of a momentous struggle which might lead to the reform of the house of lords, from which, however, the lords would not shrink.

The Earl of Cawdor, former first lord of the admiralty, maintained that there had been an attempt to evade the lords' ancient right to reject each tax, by placing all taxes in one bill. He quoted Prime Minister Asquith as stating, on assuming the premiership, that the function of the house of lords was to check slovenly, precipitate legislation. This, the earl thought, fairly represented the action that the lords proposed to take.

Referring to the tacking onto the budget of the license proposals and levations, he said that as these previously had been rejected by the lords, it would destroy all the power of the upper house if the lords were unable to veto a bill in which these were included. The government wanted a single chamber, independent of check, while the lords were fighting for the principle involved in the separation of the judicial and administrative functions.

Cabinet Minister Closes Debate. The Earl of Crew, colonial secretary and privy seal, closed the debate. Lord Lansdowne's amendment was rejected, flouted all usage. All agreed that it was necessary this year to raise a large extra amount by taxation, necessitated by the needs of the national debt and the adoption of the old age pensions. The sum total of the long debate, he declared, was that the opposition considered the government's method of raising money illusory, and that that justified revolution.

The following abstained from voting: The Duke of Connaught, the Archbishop of Canterbury, Viscount Staldwyn, the Earl of DeLaWarr, Lord Lytton, the Marquis of Dufferin and several other peers and bishops. The Archbishop of York and the bishops of Birmingham, Chester and St. Asph. voted against the resolution. The bishop of Lincoln voted for the resolution. Lord James of Hereford and the bishop of Hereford were paired against the resolution. Otherwise the division was on strict party lines.

Historic Struggle Precipitated in April. When on April 29, Lloyd-George, chancellor of the exchequer, presented to the house of commons the Liberal government's budget, he precipitated a historic struggle. Accumulated wealth and the liquor business were made to bear the burden of the \$78,810,000 deficit of the fiscal year incurred by the old age pensions and the race with Germany for Dreadnoughts. Increased income taxes, death estate and legacy duties, a tax of 20 per cent on the increase in the value of lands, taxes on motors for maintaining roads, and stamp taxes on sales of property were the principal levies on wealth.

The debate in the house of commons began May 3, but not until Nov. 4 did the budget pass, the vote being 379 to 149, a majority much larger than expected.

Parliament to Be Protruded. London, Wednesday, Dec. 1.—It is practically certain that parliament will be prorogued Friday until the middle of January. It is stated with the air of authority that yesterday's cabinet council decided upon the uninterrupted colloquy in the house of commons on tobacco until the next parliament convenes to pass a retrospective act, regularizing the situation. Premier Asquith will go to Sandringham today to confer with the king.

HOUSE OF LORDS REFUSES ASSENT

By the Vote of 350 to 75, It Refers the Liberal Ministry's Budget Bill to the Country Itself for Judgment.

It Thus, in Theory, Being Made Illegal to Collect Taxes and Carry on the Government There Is Created a Menacing Situation That Is Unprecedented in the History of the United Kingdom, at Least for the Past Three Hundred Years.

London, Nov. 30.—In the sedate and detached manner characteristic of the proceedings in the gilded chamber, and in direct disregard of the advice of some of its ablest and oldest members, the house of lords has created a situation unprecedented in English history, at least in three hundred years, by refusing to assent to the budget bill and referring it to the country itself for judgment, thereby, in theory, making it illegal to collect taxes and carry on the government.

After a six days' debate notable for the high standard of oratory and able arguments for and against the budget, and placing every possible light on all aspects of the great constitutional questions involved, the house of lords cleared for action at 11:30 o'clock tonight.

Tense Excitement Lacking. The scene was impressive, not exciting, except that the house was packed to its utmost capacity and there was a great array of strange faces on the benches, owing to the presence of numbers of the members who appear in the house only in the most exceptional cases. None would have supposed that the proceeding was destined not only to prove memorable in British history, but possibly, also, involving far-reaching changes in the British constitution.

There was unusual animation in the galleries, which were crowded with peers, members of the commons, ambassadors and others, but in the house itself complete calm prevailed. There was none of that tense excitement or exuberant enthusiasm so distinctive of similar occasions in the lower house.

Amendment Carried Overwhelmingly. The vote was on Lord Lansdowne's amendment that the house was not justified in consenting to the bill until it had been submitted to the judgment of the country. Nearly fifteen minutes were occupied in clearing the house for the division. When the vote was announced, just before midnight—350 to 75, in favor of the amendment—a few mixed cheers were heard. Adjournment was immediately taken. An expectant crowd awaited the result in the Central hall. When the vote became known there was a slight attempt at a counter demonstration, but the officials speedily cleared the place.

Lord St. Aldwyn, who as Michael Hicks-Beach was one of the ablest chancellors of the exchequer of the Conservative side, absented himself from all the budget debates and was absent when the vote was taken, on account of disapproval of the government's course. His attitude will have great effect. The Earl of Wenys, who is in his ninety-second year, was present and voted.

When the division was taken, there was no excitement in the streets, although earlier in the evening considerable crowds gathered in the vicinity of the house and attempted pro-budget demonstration.

Powerful Speeches Made. Today's debate was again distinguished by its oratorical excellence, particularly by the speeches of Lord Curzon, former viceroy of India, and the Archbishop of York. The latter, who made a deep impression, was completely in command of a measure passed by so large a majority of the people's representatives in the house of commons. Lord Curzon maintained that the lords had absolute right to reject a finance bill. He agreed that the country was in the midst of a momentous struggle which might lead to the reform of the house of lords, from which, however, the lords would not shrink.

The Earl of Cawdor, former first lord of the admiralty, maintained that there had been an attempt to evade the lords' ancient right to reject each tax, by placing all taxes in one bill. He quoted Prime Minister Asquith as stating, on assuming the premiership, that the function of the house of lords was to check slovenly, precipitate legislation. This, the earl thought, fairly represented the action that the lords proposed to take.

Referring to the tacking onto the budget of the license proposals and levations, he said that as these previously had been rejected by the lords, it would destroy all the power of the upper house if the lords were unable to veto a bill in which these were included. The government wanted a single chamber, independent of check, while the lords were fighting for the principle involved in the separation of the judicial and administrative functions.

Cabinet Minister Closes Debate. The Earl of Crew, colonial secretary and privy seal, closed the debate. Lord Lansdowne's amendment was rejected, flouted all usage. All agreed that it was necessary this year to raise a large extra amount by taxation, necessitated by the needs of the national debt and the adoption of the old age pensions. The sum total of the long debate, he declared, was that the opposition considered the government's method of raising money illusory, and that that justified revolution.

The following abstained from voting: The Duke of Connaught, the Archbishop of Canterbury, Viscount Staldwyn, the Earl of DeLaWarr, Lord Lytton, the Marquis of Dufferin and several other peers and bishops. The Archbishop of York and the bishops of Birmingham, Chester and St. Asph. voted against the resolution. The bishop of Lincoln voted for the resolution. Lord James of Hereford and the bishop of Hereford were paired against the resolution. Otherwise the division was on strict party lines.

DICTATOR ZELAYA IS READY TO QUIT

His Cause Apparently on the Rapid Wane, the President of the Nicaraguan Republic Makes Overtures to the Rebels.

Providing Congress Is Allowed to Choose His Provisional Successor He Will Step Down and Out, He Gives Notice; but This Is Not Agreeable to the Revolutionary Forces—They Want Their Own Leader Installed in the Executive Chair.

Washington, Nov. 30.—Zelaya has made overtures to the revolutionists, intimating his willingness to retire from the presidency of Nicaragua, provided that the congress be allowed to select a provisional president in his stead, General Estrada, commanding the revolutionists, has replied, refusing to accept terms other than recognition of the provisional government which he declares is fully established.

Zelaya's Troops Worsted. According to a cablegram received tonight by Castillo, the representative of the Estrada provisional government of Nicaragua, a revolutionist force of six hundred men attacked a thousand government troops yesterday. Guerrilla fighting raged from yesterday afternoon until 11 o'clock last evening, when the government troops withdrew, the cablegram says, leaving much ammunition. Advice from General Estrada tonight confirms the story.

Having gone at full speed from Pichilingue bay, Mexico, the transport Bufalo was reported today as having arrived at Panama. It will be her mission in case of necessity, to take marines from the isthmus of Panama to Corinto, on the Pacific coast of Nicaragua. Orders for the movement of the marines to Nicaragua have not been issued by the navy department, nor will they be issued until the state department gives the word.

Congress Alone Can Declare War. Washington, Nov. 30.—Congress alone can declare war. The administration was confronted by this fact after it had been offended by Nicaragua, according to the text of official dispatches received by the state department.

It is confessed that the acts of President Zelaya justify a declaration of war. He has threatened United States Vice Consul Caldera at Managua. He caused to be concealed the fact of the death of the two American citizens from the state department, and he has furnished to the department no explanation as to his acts affecting American interests and persons in his dominion. He has violated the spirit of the Central American treaty. He has caused the counsel of foreign bondholders to seek safety from their own government in the places of the burden of protection on the United States if it is to maintain its position as international guardian in the western hemisphere.

Government Standing Paat. The situation tonight appears to be set forth in the stand-pat policy. That is to say, that the government, while intensely incensed over the acts of Zelaya, can not launch a military expedition against Nicaragua. War could be declared by message or as a result of a message to congress by President Taft, reciting the reasons why congress should act.

The officials of the administration maintain that they have done all that could be done aside from an actual invasion of Nicaragua. It is also asserted they will not be caught unprepared if an emergency should demand the presence within six hours of 300 sailors and the flag at Greytown.

Parallel of Venezuela Case. The parallel so far as principles of action by the United States are concerned is between the case of Nicaragua and that of Venezuela. In the latter case Secretary of State Root announced that the government had reached the limit of endurance and that the subject would have to be dealt with by congress. It was only because a way was reached of unobscuring Castro by President Roosevelt to ask for a declaration of war. It is incontrovertible that the justification for war is graver in the case of Nicaragua than in that of Venezuela.

Mexico Proposes a Peaceful Solution. Mexico City, Nov. 30.—A suggestion for a peaceful solution of the Nicaraguan trouble has been made by the government of Mexico to the United States. This was admitted by Minister of Foreign Relations, Mariscal (tonight, Senator Mariscal said "Six days ago I wrote the government at Washington, making several suggestions regarding a peaceful solution of the Nicaraguan troubles. No agreement of any kind has yet been made. It was purely a voluntary suggestion by this government." Senator Mariscal said he had received no reply as yet.

IS FOUND IN DETROIT. Missing Bank Cashier in Serious Condition from a Knife Wound. Detroit, Nov. 30.—Ned Sargeant, the missing cashier of the Bank of Vernon, Mich., which closed yesterday, is in a hospital here. He is in a serious condition, the result of a knife wound in the arm, which he says was inflicted by hold-up men here Sunday night. He says that the bank was all right when he left Thursday.

WARM MONTH AT CHICAGO. All Records for High Temperature in November Are Broken. Chicago, Nov. 30.—All records for high temperature in November were broken this month, according to the statistics of the Chicago office of the weather bureau. The mean temperature at Chicago was 48.7 degrees, compared with an average mean temperature for all November since 1872 of 39.2.

SOLD OLEO AS BUTTER. That the Charge on Which a Janesville (Wis.) Man Is Indicted. La Crosse, Wis., Nov. 30.—This afternoon the federal grand jury indicted A. J. Graham, of Janesville, on the charge of being at the head of a conspiracy to defraud the public by coloring oleomargarine and selling it as butter.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., DEC. 1.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

'Way down in Alabama the "wets" have won the day, and the "drys" since the election haven't had so much to say.

"It might not be amiss," observes the Duluth News-Tribune, "to whisper in the ear of the New York World and Sun that the Standard oil case was begun under the Roosevelt administration."

Walter Wellman is merciless in his attack on the veracity of Dr. Cook, and makes out a strong case against him in a lengthy published article analyzing the account given by him of his "dash" for and location of the north pole.

Nebraska's supreme court has upheld the state law making a horizontal cut of twenty-five per cent in express rates in the state.

President Taft has decided to appoint Judge Lurton of Tennessee as associate justice of the supreme court of the United States to fill the vacancy created by the death of Judge Peckham.

Editor Baldwin has obtained a judgment for damages against the liquor dealers of Escanaba on the claim that they had entered into a conspiracy to injure his business as a publisher by boycotting his paper.

The census bureau has completed an investigation into the divorce evil in this country, which was begun five years ago. Its report discloses that there has been a steady increase in the divorce rate during the past twenty years.

A new and formidable issue in national politics was formulated by the deep waterway convention recently held at New Orleans through the adoption of a series of resolutions demanding that the federal government take immediate action on the lakes-to-the-gulf project.

5% DEBENTURES. Superior Trust Company. HANCOCK, MICH. Capital and Surplus \$500,000.00. DIRECTORS: B. L. Lawton, Jas. Chynoweth, C. A. Wright, G. E. Campbell, Jacob Beer, Jno. D. Cuddihy, Ferd. Wisler, Class L. Lawton, Leasing Karger, Norman W. Haire, H. L. Baer, L. H. Richardson, Joseph Bosch, Allen F. Rees, Chas. Briggs, Geo. Ruppe, James Mercer, Thos. Whittle.

and insist upon the construction of a fourteen-foot waterway from the lakes to the gulf and an abandonment of the present piecemeal experimentation of the great western rivers, on the plea that the improvement will be a national investment for the benefit of every section of the country.

It is reported from Washington that his superiors are much displeased with General Grant on account of the opinion he expressed concerning the right of President Zelaya of Nicaragua to have the two Americans, Cannon and Groce, executed if he found them in the ranks of the insurgents bearing arms against his government.

Speaker Cannon has undoubtedly intensified the dislike of him and his ways and manners previously entertained by the "progressive" Republicans, in and outside of congress, and there are quite a few of them.

Premier Katsura of Japan in an address before a club of bankers at Tokio recently outlined the policy of the government of that country in a manner that should allay the apprehensions of timorous souls who see in every move that direction a threat of war with the United States.

When the Russian czar wanted to go to Italy to have a royal good time with the king of that country his trip was involved in secrecy, and he took a roundabout way through France to reach Italy, in order to keep the bomb-throving anarchists who are eager to "get him" guessing.

At its session held recently the National Bankers' Association adopted a resolution declaring against the proposition to have the government establish a savings bank system, and it is given out from Washington that nothing will be attempted toward making provision for such a system at the pending session of congress, although the president is known to strongly favor it.

The action is brought as a test case, it is stated, the claim being made that the law is defective. It costs the contestants nothing to fight the tax, in all probability, as they have lawyers retained by the year to furnish them with legal advice in their business affairs, and much of the work of their paid attorneys is in the line of enabling them to

What is a cold in the head? Nothing to worry about if you treat it with Ely's Cream Balm. Neglected, the cold may grow into catarrh, and the air-passages be so inflamed that you have to fight for every breath. It is true that Ely's Cream Balm masters catarrh promptly. But you know the old saying about the ounce of prevention. Therefore use Cream Balm when the cold in the head shows itself. All druggists, 50c, or mailed by Ely Bros., 56 Warren street, New York.

FILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Pruriting Piles in 6 to 14 days or money refunded. 50c. What is a cold in the head? Nothing to worry about if you treat it with Ely's Cream Balm. Neglected, the cold may grow into catarrh, and the air-passages be so inflamed that you have to fight for every breath. It is true that Ely's Cream Balm masters catarrh promptly. But you know the old saying about the ounce of prevention. Therefore use Cream Balm when the cold in the head shows itself. CURED ITCHING PAINFUL HUMOR

Which had Spread Over Face, Body and Arms—Swellings were as Large as a Dollar—When they Broke, Sores would Not Heal—Suffered 3 Years.

MADE SOUND AND WELL BY 3 SETS OF CUTICURA

"My trouble began about three years ago with little black swellings scattered over my face and neck. They would disappear but they would leave little black scars that would itch at times so I couldn't keep from scratching them. Larger swellings would appear in the same places and they were so painful I could hardly bear it and my clothes would stick to the sores. The first doctor I went to said the disease was scrofula, but the trouble only got worse and spread. By this time it was all over my arms and the upper part of my body in big swellings as large as a dollar. It was so painful that I could not bear to lie on my back at night. The second doctor pronounced my disease inflammation of the lymphatic glands. He stopped the swellings, but when they would break the places would not heal. He tried everything that he could but to no effect. He said I had a bad case but it would take a long time. I bought a set of the Cuticura Remedies and used them according to directions and in less than a week some of the places were nearly well. I continued with the Cuticura Remedies until I had used three sets, and now I am sound and well. The disease lasted three years from the time it commenced until I was cured. Before Christmas something broke out on my seven year old brother's hands in the form of large sores. I tried everything I could think of but to no effect until I happened to think of Cuticura and one application cured him. Also not long ago, my sister got a bad burn on her ankle. I have been using Cuticura on that and it gave her scarcely any trouble. O. L. Wilson, Puryear, Tenn., Feb. 8, 1908."

Warm baths with Cuticura Soap, gentle anointings with Cuticura Ointment and mild doses of Cuticura Pills, afford immediate relief and point to a speedy cure of torturing, disfiguring humors of the skin, scalp and blood. Cuticura Soap (25c) to Cleanse the Skin, Cuticura Ointment (15c) to Soothe and Heal, Cuticura Pills (50c), for the form of Chocolate Coated Pills, 25c per box, 50c per box. Sold throughout the world. Potter Drug & Chem. Corp., Boston, U.S.A. Sole Mailed Free, Cuticura Book on Skin Diseases.

ALABAMA GOES "WET." Alabama has declared against prohibition, and wisely so. Prohibition has not given the results its advocates claim for it in any state where it has been tried. It was tried in Michigan and the people grew tired of it and abandoned it. If it will not work in the state at large what ground is there for the belief that it will do better in a county?

The Mining Journal is not championing the cause of the liquor dealers. It holds no brief for that interest. It believes in regulation of their business in strict compliance with the requirements of law, and will stand for that immovably. But it does not believe that people can be made temperate or virtuous by legal enactment, and it knows that laws which aim to do too much fail to accomplish anything good for the reason that they cannot be made effective.

This paper has no quarrel with the people who are trying to make Marquette county prohibition territory. If they succeed it will do its share to have the law making it so enforced to the letter, but in the interest of temperance itself the Mining Journal hopes they will not succeed, for it doesn't believe with them as to the method to be employed, though in agreement with them as to the necessity for imposing all practicable restraint on the business of selling liquor in public drinking places.

WALTHY TAX DODGERS. Suit has been brought by the United States government against thirty-three yacht owners of New York who are rated as millionaires to compel payment by them of the government tax of 87 a ton, or 35 per cent ad valorem, placed on foreign built craft brought into this country.

OBLIGED THE THIEF. Long Island Farmer Helped Crook Steal His Own Horse.

Water Mill, L. I., Nov. 30.—Prompted by a desire to be "accommodated" an obliging "a fellow-bein' in distress," Arthur Edwards, a farmer of this place, got out of bed about midnight and, going out into the highway, helped a thief to steal his own favorite mare and his own family carriage.

SERVE THESE TO YOUR FRIENDS. La Verdad. No mistake can be made in serving La Verdad cigars. They all know of the high quality and will commend your selection. LA VERDAD cigars afford the discriminating smoker an opportunity to reveal in his greatest delight—smoking an extra fine cigar. Every good cigar that a man should possess is found in LA VERDAD. Put a box for your home or office. Step into any cigar store and get LA VERDAD. Their wide distribution is proof of their popularity. SOLE-FERNANDEZ CIGAR CO., Duluth and Tampa. M. C. SCULLY, Agent, Marquette, Mich.

evade their obligations as citizens when these are in any way burdensome. One of the things too many of our wealthy citizens hate awfully to do is to pay taxes the same as ordinary people. It is so common to pay taxes! The butcher and the baker and the candlestick maker pay taxes. No wonder those favored ones, who have piled up millions by operations on the stock exchange, or inherited money made by dollar-grubbing deals, hate to be ranked with the ruck of humanity who do rough work to keep this prosaic old world going, whose broad shoulders are accustomed to burdens and who smell of the shop, the stable, the factory and the farm.

These latter have to pay taxes on everything they own, and on everything dutiable coming from abroad which they consume, and they do it without complaining, and without attempt at evasion, for they cannot afford to employ legal talent to fight the law. They would do it more cheerfully were it not for the knowledge they have of the indisposition of so many wealthy people to bear their fair share of the burden of supporting the government. As it is, there is growing up in this country a belief among the great body of our people, who are not possessed of millions each, or even a few paltry thousands, that the toiling and the mulling are for them and the immunities and privileges for those who are best able to pay, whether the debt is to the government or a private obligation. It is millionsaire of this class who are creating socialistic sentiment among the masses and breaking down their faith in the efficacy of our system of government for the purpose of enforcing the doctrine of equal rights for all and special immunities and privileges for none.

A GREAT RECORD. A Lansing report gives out, on the authority of Game Warden Pierce, the statement that in three days during the open season for hunting deer last month the shipments of deer carcasses across the straits footed up a total of 885, this being by far the greatest shipment record for three days in the history of deer slaughter in Michigan.

This by no means covered the shipments of deer killed in the upper peninsula during the hunting season, which lasted twenty-one days. It is probable that the shipments in other directions were even larger in the aggregate, and taking account of those consumed by the hunters on the ground, or kept up here, it is evident that the slaughter ran well up into the thousands.

Game Warden Pierce furnishes this list of convictions for violations of the game laws "recently obtained" by able and efficient deputies under his control, fines ranging up to \$40 being imposed in the several cases: John Pullen and Montie Haremon, of Lake county, for having a dog in their camp; John McClair, Marquette county, and C. P. Sorensen, Houghton county, for running fish traps without license; Frank W. Hathaway, Mackinaw City, shipping partridge out of the state; John Hamach and Lewis Nelson, Frankfort, commercial fishermen, taking undersized whitefish; August Swartz, Mackinaw City, for shipping birds as baggage; C. Terwilliger, Mackinaw City, buying deer, and Walter Richards, Calhoun county, destroying muskrat houses.

From which it may be deduced that there was not a deer illegally killed in the state during the open season just ended, although several thousand fell to the guns of the army of licensed hunters turned loose on them. Surely there would have been arrests and convictions for the illegal killing had there been evasions or infractions of the law prescribing when and how deer may be killed in Michigan.

Game Warden Pierce is to be congratulated on this splendid showing of the efficiency of his department and its value to the state as a factor in Michigan's admirable scheme for the protection and preservation of game within its limits. Let it be pointed to with pride.

Water Mill, L. I., Nov. 30.—Prompted by a desire to be "accommodated" an obliging "a fellow-bein' in distress," Arthur Edwards, a farmer of this place, got out of bed about midnight and, going out into the highway, helped a thief to steal his own favorite mare and his own family carriage.

After acquiring all the knowledge he can from books, many a man takes a postgraduate course by marrying a widow.

madam: Don't be misled. Cheap and Big Can Baking Powder is Only Big in Size - Not in Satisfaction - Not in Economy. A large can and a small cost does not make baking powder cheap— or even less expensive than Calumet—the high-quality, moderate-price kind. It certainly cannot make it as good. Don't judge baking powder in this way—the real test—the proof of raising power, of evenness, uniformity, wholesomeness and deliciousness will be found only in the baking. CALUMET BAKING POWDER. The Happy Medium. CALUMET BAKING POWDER. A better baking powder than you have ever used before. And we will leave it to your good judgment for proof. Buy a can today. Try it for any baking purpose. If the results are not better—if the baking is not lighter, more delicious, take it back and get your money. Calumet is medium in price—but great in satisfaction. Free—large handsome recipe book, illustrated in colors. Send 4c and slip found in pound can. Calumet Received Highest Award—World's Pure Food Exposition.

Mining News

UTAH-BOSTON CONSOLIDATED. It is practically assured that the Boston Consolidated will be absorbed by the Utah Copper company on the basis of one share of the latter for two and one-half shares of the former, says the Boston Financial News. This consolidation is the outcome of long negotiations. The physical relations of the two properties are such that a combination has always seemed the logical outcome of the situation. For a long time, however, the owners of Boston Consolidated claimed they were entitled to share for share, and their property was as valuable as that of the Utah. The history of the two properties has been very different, however, and the holders of Boston Consolidated are now apparently very much pleased to be able to own one share of Utah for two and one-half shares of their stock.

RAPID MINING DEVELOPMENT.

Charles Hayden of Hayden, Stone & Co., who has returned from a visit to Nevada, Utah and Arizona, with the directors of the various copper companies in which his firm is interested, says: "The consolidation of the Cumberlandly with the Nevada Consolidated permits of economies of operation which prove conclusively the wisdom of the transaction. A similar consolidation upon equitable lines between the Utah Copper and the Boston Consolidated should be equally advantageous and profitable to both companies. If negotiations now pending are carried to successful conclusion, it will permit of an increase in milling capacity and daily tonnage of ore treated which will make Utah Copper company one of the largest, if not the largest, producers of copper in the United States and at an exceedingly low cost of production. "At Kelvin, the development of the Ray Gila ore body has reached a point where there are in these two properties 50,000,000 tons of ore demonstrated, and the next three or four months at the present rate of progress should carry this up to approximately 80,000,000 tons. The standard gauge of the Ray Gila railway from Kelvin to Ray will be completed within the next thirty or sixty days, and this company will be prepared to enter tierks of the large producers as soon as it is physically possible to complete the construction of the equipment. Under the active supervision of General Manager lacking rapid progress has been made at the property of the Chino company. A mill site has been secured and the company is now preparing plans for the 2,500-ton mill and the location for the central operating shaft has been decided. On account of the nature of the ore body this mine will be a position to supply the mill with the full tonnage as soon as the mill can be completed."

HANCOCK.

The Hancock Consolidated company is well supplied with cash, as an assessment of \$2 was called last summer, \$1 of which has been paid and another is due next February. It was figured by the management that it would require \$1,000,000 to put the mine in a producing position and with the payment due in February this amount will have been contributed, making \$15, paid in on the \$25 par. No. 2 shaft, in which the strike on the West side is reported to have been made, is down over 2,000 feet. The mine has stopped ground from the ninth level to the fifteenth level and proven, with upwards of 400,000 tons of milling rock blocked and ready for stopping, or enough to keep a modern haul running for two years. All the openings of good ground and the small bunches of poor ground. Besides the West side the lands near the Nevada and Hancock copper-bearing beds, so there is an extensive territory in which the company may work. It is expected that the payable lode will be reached by the No. 2 shaft at a greater depth. As \$1,000,000 is put in the largest at the larger tonnage when active production is started. The present indications are that Hancock will make a very large mine and one of the low-cost producers.

COPPER RANGE CONSOLIDATED COMPANY.

Dividend No. 24. At a meeting of the board of directors held this day a quarterly dividend of \$1.00 per share, being dividend No. 24, was declared, payable on Saturday, January 1st 1910, to stockholders of record at the close of business on December 4th.

SPECIAL NOTICE. The Dardentella Havana Cigar is made under sanitary supervision and the consumer can rely that no pains will be spared to make it the cleanest and most wholesome Cigar on the market. Each maker has a jar of sterilized water on his table, and no saliva paste permitted to be used, thus insuring the consumer absolutely no contagion possible, and a clean fine Havana smoke. We recommend the straight 10-size, owing to its fine smoking quality. Manufactured only by JOHN E. KENNING & CO. Grand Rapids, Mich.

Copper Country

FUN FOR THE FIGHT FANS.
Jeffries and Gitch May Come—Two Bouts Scheduled.

James J. Jeffries, heavyweight pugilist, and Frank Gotch, champion wrestler of the world, may appear at the Calumet theater within the next month. The two big heavies have asked, through their theatrical manager, H. H. Frazee of Chicago, for dates at the Calumet theater, the Kerkorode theater, Hancock, and the Lyceum, Duluth. Negotiations are now under way. Whether or not the two big champions will be able to secure dates at Calumet cannot be determined until manager John D. Conduffy of the theater, who is out of town at present, returns home. The wrestling and fight fans and others of the copper country would be very pleased to witness the stage work of the big "heavies"—not villains—and it is unlikely that they will be accommodated.

Boxing Bout at Hancock.

Walter Whitehead, the colored middle-weight pugilist of Duluth, and George Debray, of Chicago, champion middle-weight of Canada, are booked to fight a ten-round bout at Germania Hall, Hancock, the night of Saturday Dec. 11. Transportation has been sent the men and they are expected to arrive today. Whitehead has fought in the copper country before. He has a good record back of him. Whitehead weighs about 170 pounds, and Debray 165.

Young Lucas of Houghton and Ralph Antonelli, the Italian boxer of South Range, are matched to box ten rounds in the latter place next Saturday night.

RECORD STILL WITH 1907.

Marriage License Clerk Deplores the Death of Matrimony.
The marriage license clerk in County Clerk Richardson's office had a doleful hour again yesterday, for the time had come when the romantics wanted to know about the monthly score in cupid's little game with matrimony, as he plays it in Houghton county. The year 1907 was the banner year for marriage licenses in Houghton county, each month exceeding the corresponding month in any other year. June of 1907 was a month in which love ran riot and there was such a piglitting of troth as to make priests and parsons and justices glee-full.
But the impetus given to marriage that did not keep up. In the marriage license clerk had been hoping for another such, but the year is waning with the record still unbroken. In 1907 the first of December saw a total of 815 licenses issued; in 1908, 748, and in this year 782. Last November issue this year was 72, last year 80 and in the banner year 73.

END OF THE DEER SEASON.

Copper Country Hunters Have Not Had Any Great Success.
The deer season ended yesterday, and it was probably the most unsuccessful in years, at least in the copper country. The weather has not been right for hunting. The ground is frozen solidly and deer cannot be tracked. Many of the hunters, though, failing to get deer, have bagged fine strings of rabbits.
A froak deer was killed near Herrmann by Postmaster Charles Wickstrom of Calumet. The animal was a doe and had one spike horn, while there seemed to be a place on its head for another. The horn was not yet ripe. Scores of people, including many hunters, saw the deer after it had been brought to Calumet. It was the only specimen of the kind that has ever been seen there. The animal was fully grown and of good size.

MOHAWK MINERS' CHARITY.

Underground Workers Are Sending a Fund to the Cherry Sufferers.
Mohawk's collection for the relief of the sufferers as a result of the fire in the St. Paul mine at Cherry, Illinois, has reached a point of considerable proportions. It has been decided to send in the contribution the latter part of the week. The money will go to the Cherry people through the Merchants' Loan & Trust company of Chicago.

MRS. PHILLIPS WINS.

A jury in the circuit court yesterday morning brought in a verdict in favor of Mrs. Gertrude Phillips in the matter of the petition brought by her son asking that a guardian be appointed for her person and property on the ground that she is insane. The verdict denies the petition. The case will be taken to the supreme court again.

OUR TOWN DRUGGISTS.

Says that Painkiller sells the best of any medicine they keep; during the hard times of the past year or two, there were none too poor to pay their "quarter" for a bottle of this indispensable medicine. Be sure and get the genuine. 25c, 35c, and 50c bottles.

OFFERS \$2,000 REWARD.

Son of Lost Robert Beily of Dowagiac Wants Father's Body.
William Beily of Dowagiac, Mich., whose father, Robert Beily, has been missing from a hunting party near Sidon, Ohio, for the past two weeks, has offered \$2,000 reward for the recovery of his father if alive or of the body if dead.
A party of about thirty experienced hunters and landowners has been scouring the woods near Sidon for the man. Mr. Beily is sixty years of age and reputed to be wealthy. There is little hope that he is still alive.

MURDER CHARGE HEARING.

Leander Kukkula Will Be Examined on Charge of Killing Cousin.
Leander Kukkula, who is held on suspicion of killing his cousin, Matt Kukkula, may have to face a murder charge. He has been remained to jail without bail and will be taken to an examination Friday morning. It has been said that Leander and Matt had had several rows which had resulted in fights and in which Leander had received the worst of it. It is also said that he had repeatedly made threats against the life of his cousin and he was the last man seen with the deceased on Nov. 20 he was arrested on suspicion.

SCHOOL CHILDREN'S TEETH.

Dental Society Will Make a Test Examination in Hancock.
As a result of a conference between the executive committee of the Houghton County dental society and a committee of the Houghton County Dental Society, held Monday night, the dentists will volunteer to the Hancock school a free examination of the teeth of the children of one of the school. The dentist in order to educate parents to a knowledge of the hygienic value of good teeth and the necessity of early teaching a child and the care of the teeth as bad teeth are a fruitful source of disease, particularly of tuberculosis.

JUBILEE BANQUET.

Tonight's Event in the M. E. Church Anniversary at Houghton.
The following is the program of the golden jubilee banquet to be given in the parlors of Grace M. E. Church, Houghton, tonight:
7:45 p. m.—Seats taken and singing, "Be Present at Our Table, Lord."
The temple and to people, "I find, lies through their mouths, or I mistake mankind" (Peter Parler).
Toastmaster—Professor E. D. Grant, "May the Lamp of Friendship Be Lighted With the Oil of Sincerity."
James Pryor—"The Fruit of Fifty Years We Brought."
Professor J. A. Doelle—"Our Appreciation."
Cornet solo—Walter Collins; Mrs. Thomas Richards, accompanist.
Judge George C. Bentley—"What the Church of Today Can Do for the Men of Tomorrow."
Double male quartet—"Oft in the Silly Night," Messrs. Odgers, Whitford, Everts, A. Whitford, Richards, Bradburn, Gates, Warrington.
R. T. Bennellack—"The Present Outlook."
Long distance greetings from former pastors and friends.
Double male quartet—"Good Night."
Tomorrow night Rev. Amos A. Maywood of Marquette, a former pastor of Grace church, will deliver his lecture on "Sinner's Cult."

TO BUILD HUGE AQUEDUCT.

New York Water Board Proposes Seventeen-Mile Main 500 Feet Deep.
New York, Nov. 30.—A huge aqueduct, as big as a railroad tunnel, running through the heart of Manhattan island from Yonkers to Brooklyn at an average depth of 400 feet from the street surface, is planned by the board of water supply. It will probably cost \$25,000,000 to the cost of the Catskill water system.
This change of plans will make it necessary to bore through solid rock, as the walls must resist a tremendous volume of water which will come down from the Catskills, ninety-six miles away, with the force of a Niagara.
This aqueduct will be the first to be built underneath a large city. It will be seventeen and one-half miles long. Borings made by engineers have located fissures in the rock at Delancey street and the Bowery which will necessitate the tunnel being carried 400 feet underground at that point. It will run far below the levels of any subway.
The great depth of the tube will add vastly to the expense. The cost of ordinary subway construction is estimated at \$1,000,000 per mile. It was stated by engineers recently that the cost of the projected aqueduct would exceed this by probably 50 per cent, because of the increased difficulties under which the work will be done.
The officers of the water supply board have planned the change for months, but carefully guarded the secret. It was laid before Mayor McCallan ten days ago.

SONS OF ST. GEORGE OFFICERS.

The following are the new officers of W. E. Gladstone lodge, Sons of St. George, of Mohawk. Past president, Geo. P. Currow; president, William J. Jewell; vice president, John Resciglit; secretary, Richard L. Richards; treasurer, Thomas H. Richards; messenger, George May; chaplain, Arthur Lugg; assistant secretary, Richard Leddra; assistant messenger, Thomas James; inside sentinel, Leonard Thomas; outside sentinel, John B. Trevarrow; trustee, William J. Barkala; physician, Dr. A. R. Tucker.

VILLAGE COUNCIL MEETINGS.

A regular monthly meeting of the Houghton village council is scheduled for tomorrow night. Clerk Brand said yesterday that he knew of nothing of special moment that is to come up Thursday night. The most important business will be the consideration of the night police force. The clocks will probably be identical with those now in use in Houghton.

SPECIAL CARS FOR ELKS.

Two special cars have been engaged from the Houghton County traction

company by the Hancock lodge of Elks for a trip to Calumet next Sunday afternoon. The cars will leave the East Houghton terminus at 1:30 o'clock. The trip to Calumet is on account of the joint memorial day services to be held there. The Calumet and Hancock lodges will join in observing the day.

GLEE CLUBS ORGANIZED.

Professor Mustonen Heads Calumet and Hancock Musical Bodies.
Two new glee clubs have been organized in towns of the copper country, one at Calumet and one at Hancock, with Professor Sanfriso Mustonen as director of both. The Calumet meeting was very largely attended by singers of all nationalities. It was decided to call the new organization the Calumet Glee club. Louis Hall was chairman and William Tatchell secretary of the meeting. The club is planning to give a big concert and dramatic entertainment, some time during February. The Hancock organization, which is composed of Finnish singers, will meet every Wednesday night at Germania Hall. It has eighteen members.

Notes of Copper News.

Jay P. Graves, Spokane, vice president and general manager of the Iron and Steel company, says that more ore is being taken out and treated now than at any previous time in the company's history, the treating amounting to 125,000 tons a month. Extensive improvements have been made in the company's plant. The new buildings have replaced the old ones. There are now converters and the eight furnaces have been enlarged and made modern in every respect.
The stockholders of the United Verde Extension company have authorized an increase in the capital stock from 300,000 to 400,000 shares. The new issue will be held in the treasury of the company until the management considers it advisable to dispose of it. Later the stock will be offered to shareholders and the proceeds used to enlarge the works. The new plant is now under construction. The new buildings have replaced the old ones. There are now converters and the eight furnaces have been enlarged and made modern in every respect.

Work of the Stations.

When a mine explosion occurs within a radius permitting the transportation of apparatus from the rescue station to the scene of disaster, a trained rescue corps is sent in all possible haste to the mine. On arrival, and with the concurrence of state mine inspectors and the mine owners, local miners, preferably men who have personal knowledge of the mine, are properly instructed in the use of the apparatus. The rescuers, each equipped with an oxygen helmet and a portable electric lamp, enter the mine and make an exploration for the purpose of finding any men who may have been overcome by the after-gases of the explosion. When a man is found, he is immediately taken outside of the mine, or to some station inside the mine where the atmosphere is pure and fresh, and there resuscitators endeavor to revive him by administering oxygen and by exercising his body. Each rescue corps carries a resuscitating cabinet, which consists of cylinders charged with oxygen, a flexible breathing bag, a flexible tube, and a hood that fits over the mouth and nostrils of the patient.
A mine rescue apparatus of the compressed oxygen type permits a person wearing it to breathe naturally with lit-

WORKS TO SAVE THE LIVES OF MINERS.

An Important Mission Undertaken by the Government.

Good Use Already Made of the Fund Appropriated by Congress in Reducing the Appalling Death Rate at the Collieries.

Washington, Nov. 30.—The mine-rescue station represents one of the most recent efforts made by the government to reduce the number of fatal accidents in mines, and it is but one feature of a general study of the causes of mine disasters now being undertaken by the geological survey of the mine accidents station in Pittsburgh, Pa.

This humanitarian work was started in July, 1908, by authorization of congress, which appropriated \$150,000 for this purpose, after four explosions in coal mines in December, 1907, costing 700 lives. These disasters started the government study and led to a general inquiry into the death rates among miners in the United States. Statistics gathered by the United States geological survey showed 2,061 miners killed and 4,800 injured in the coal mines in 1906, and 3,153 killed and 5,800 injured in 1907. The death rate for 1907 was 4.86 for every 1,000 men employed. In 1908, 2,450 men were killed, or 3.60 in every 1,000 employed, a reduction of 0.75 in the number of deaths from 1907. European coal-producing countries show death rates in mining as low as one to every 1,000 men employed and not more than two. In other words, for every man killed in European coal mines from two to four are killed in the mines of the United States. Since 1880 more than 30,000 miners have been killed in the United States. The lower death rate in European countries is due to the establishment of government testing stations for the investigation of problems relating to safety in mining, including the use of explosives.

The principal work at the Pittsburgh station consists of testing explosives to determine their safety when used in the presence of explosive gas or coal dust and much progress has already been made in this work. It is the purpose of the government to continue the tests of explosives until certain of them can be recommended to state mining bureau coal-mine owners, and miners as reasonably safe.
The principal mine-rescue station in the country is situated at Pittsburgh, in the center of the greatest coal-field in the world. A second station has been established at the University of Illinois, taking care of investigations in Illinois, Indiana, Michigan, Iowa, Northern Missouri, and western Kentucky. Another station has been established at Knoxville, Tenn. Others are being established in Virginia, eastern Kentucky, Georgia, and southern West Virginia. Other stations will be established at or near the greater centers of accidents. Perhaps one will be located at Bates, N. Mex., to take care of the work in New Mexico, Colorado, Utah, Wyoming, and Montana. A station has also been suggested at Salt Lake City, which will be central for the Utah fields and accessible to the Montana and the Washington fields. The coal fields of Oklahoma, Arkansas, and southwestern Missouri, and the coal fields of Wyoming, are being served by a station near South McAlester, Okla.

Mining News

NOTES OF COPPER NEWS.

Government mining engineers thoroughly trained in the use of rescue apparatus have been assigned to the stations already established and are ready at a moment's notice to go on duty in their district. When an explosion occurs in a coal mine, the rescuing of the trapped miners is the first duty of the rescue corps. The rescuers are equipped with a portable electric lamp, and a flexible breathing bag, and a hood that fits over the mouth and nostrils of the patient. A mine rescue apparatus of the compressed oxygen type permits a person wearing it to breathe naturally with lit-

What Provision are you making for those near and dear to you?

The best plan is to start an account with the Citizens' National Bank and deposit a certain amount each week.
Your account is cordially invited.

the inconvenience of a continuous period of two or three hours, even when surrounded by deadly or irritating fumes, smoke, or other irrespirable gases. The principal features of such an apparatus are the tanks or cylinders containing the oxygen, the regulator, an absorption can for taking up the oxygen exhaled from the lungs, and a helmet or mouth attachment with breathing bags, which enable the person wearing the apparatus to breathe with ease. The foregoing features are accompanied in the present degree of efficiency by different types of apparatus. At the Pittsburgh station the various types of mine rescue apparatus are being tested to determine their relative efficiency.
Without a careful study of the mechanism and function of each part of such apparatus and careful training in its use, no person should attempt to wear the apparatus in the dangerous atmosphere in mines immediately after an explosion or during a fire. Training in the proper manipulation of the apparatus is imperative for its successful use in mine rescue work. The apparatus is most effective when it is worn by persons who by training have learned to have confidence in its efficiency and who are also accustomed to underground work in coal mines.

Beware of Imitations.

Cheap Substitutes and "Just As Good As."

Unscrupulous dealers, mindful of profit and caring nothing for the health of their patrons, are offering for sale low-grade, impure whiskey, which they tell you is as good as Duffy's.

It is a cheap concoction and fraud, intended to deceive the people. Of course, when a remedy has been before the public, it has been prescribed and used by the best doctors and in all the prominent hospitals, and has carried the blessing of health into so many thousands of homes as Duffy's Pure Malt Whiskey has, imitations are bound to arise. But they can imitate the label and label only—no one can imitate the contents.

Duffy's Pure Malt Whiskey is an absolutely pure distillation of malted grain; great care being used to have every kernel thoroughly malted, thus destroying the germ and producing a predigested liquid food in the form of a malt essence, which is the most effective tonic, stimulant and invigorator known to science; softened by warmth and moisture, its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

Any firm that will sell imitation or substitution goods will sell impure goods. The firm that is dishonest in one thing would not hesitate to be dishonest in another. Whenever you see imitation and substitution goods offered for sale by a firm, beware of anything and everything put up by that firm. You endanger your own life and the lives of your family and friends by dealing with them.

BEWARE OF FRAUDS!
Duffy's Pure Malt Whiskey

is sold in sealed bottles only—never in bulk. A fac-simile of the genuine bottle is printed here so that you may easily recognize it. It is our own patented bottle—round, amber colored and with the name "Duffy's Pure Malt Whiskey Company" blown in the glass. The trademark—the Old Blended Head—is on the label, and over the cork there is an engraved paper seal. Be certain this seal is not broken.

It is the only whiskey recognized by doctors everywhere as a family medicine. At all druggists, grocers, dealers in food. \$1 a bottle. Write Consulting Physician, Duffy Malt Whiskey Co., Rochester, N. Y., for free illustrated medical booklet and free advice.

ROCHESTER, N. Y.

S.S.S. BEST TREATMENT FOR CATARRH

There is no way to cure Catarrh except to purify the blood, and thus do away with the cause. The symptoms may be relieved, and the use of washes, inhalations, sprays, medications, and the use of cathartics, and the use of S.S.S. are temporary relief and comfort. External and local measures however cannot have any effect on the blood, and therefore their use alone is of no real curative value. Catarrh is a deep-seated blood disease, and comes as the result of catarrhal matter and other impurities in the circulation. These morbid matters in the blood cause an inflammatory and irritated condition of the mucous membrane or tissue lining of the cavities of the body, producing an unhealthy secretion, ringing noises in the ears, stuffy feeling in the head and nose, headaches, hoarseness, bronchial affections, watery eyes, etc. S.S.S. is the best treatment for Catarrh because it is the greatest of all blood purifiers. This medicine removes every particle of the catarrhal impurity from the circulation, making this vital fluid pure, fresh and healthy. Then the inflamed membranes begin to heal, because they are nourished with pure, health-giving blood, every symptom disappears, and soon S.S.S. produces a perfect cure. S.S.S. does not contain any habit-forming drugs, which really never can cure Catarrh, but often ruin the health. Book on Catarrh and any medical advice free. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

City Brevities
H. D. Bush of Duluth is visiting at the home of his son, Ernest Bush.
Mrs. E. C. French has gone to Milwaukee to spend two weeks with relatives.
The G. I. A. to the B. of L. E. will meet in Keough's Hall this afternoon at 8 o'clock.
John Cummings, J. L. Allen and T. C. Connor of Escanaba were Marquette visitors yesterday.
The next theatrical attraction booked for the opera house is "Graustark" on the night of Dec. 14.
The Baptist Ladies' Missionary society will meet this afternoon with Mrs. James Sinclair, 502 North Front street.
The Marquette lodge of the Modern Brotherhood of America will give a dance at Legion Hall Thursday evening.
Mrs. Robert C. Love leaves this morning for Ironwood, to remain until after Christmas with her mother, Mrs. Della L. Durkee.
The first of the series of three Assembly parties will be given this evening at Fraternity Hall, commencing at 8:30 o'clock.
R. R. French has returned from Mosherville, Mich., where he participated in a family reunion and visited a brother from California, whom he had not seen for fifty years.
Mr. and Mrs. K. S. Baker will leave tonight for Detroit to attend a dinner, given by the vice president and general manager of the Michigan State Telephone company to the president of the corporation.
This is the last day on which the 30 per cent discount on water bills will be allowed and those who have not yet paid the quarter's water rent are urged to do so before tonight. The percentage of collections to date is said to have been fully as large as usual.
Finger Amputated—John Scholtz got his index finger caught in the steel cutter at Longyear & Hodge's shop Monday afternoon and was taken to St. Luke's hospital, where the injured member was amputated just below the first joint.
Chassell Man Dead—Joseph Legardi of Chassell died at St. Mary's hospital yesterday after a brief illness with pneumonia. He was fifty-seven years of age and unmarried. The remains were shipped to his home yesterday afternoon for funeral and interment.
Basketball This Evening—The City and Knights of Columbus basketball teams will try conclusions in a game at Legion Hall this evening. The lines will line up as follows: Marquette City, Riechart, forward; Herb Weiser, forward; Bruno Primeau or Sullivan, center; C. Drake, guard; Jeanson, guard; K. C. Hanley, forward; Conell, forward; Ring or Meyers, center; Middleton or Layne, guard; McGuire or Dundeauke, guard.
Supervisors' Meeting Today—The county supervisors will meet in the court house at 11 o'clock this forenoon. The all-absorbing business of interest will be the presentation of the local option petitions, with a request that a "wet or dry" action be held. It is expected that the matter will be referred to a special committee for a report at a later date, but some lively legal arguments as to the sufficiency of the names on the petitions may be expected.

EXTENSION RATE RAISED.
Underwriters to Increase Charge for Insuring Vessels after Dec. 5.
Vessel owners have received information that the marine underwriters will probably charge a rate of 1 per cent this year for extension of insurance on boats sailing between midnight Dec. 5 and midnight Dec. 10. This is an increase of one-half per cent over the extension rate charged last year.
While the rate has not yet been definitely decided upon, the underwriters are talking of a 1 per cent rate; and if there is any break in this rate it will depend upon the volume of business. If a great many vessels desire extensions there is a possibility of the rate being made lower; but if the number is comparatively few it is said that 1 per cent will be charged.
If any extensions are granted by the underwriters, the sailings will be subject to the approval of the advisory committee of the Great Lakes Protective association. This has been agreed upon by both the English and American underwriters.
The proposed increase in the extension rate this year is occasioned by the heavy losses on extensions last season, the underwriters claiming to have found that the premiums were inadequate to meet the losses they sustained.
One of the vessel owners says: "The proposed increase of one-half of 1 per cent on extension cargoes is prohibitive and is calculated to work a hardship on the vessel owners. The former rate of one-half was plenty. There is no telling at this time how many boats will ask for extensions. It will depend largely on the condition of ore at the other end of the route. If the ore continues to freeze there will be little or no need for ore carriers; and if the grain market keeps on as it is at present there will not be much of that to come down. The farmers are holding the grain in the home elevators until the foreign demand forces the price up. If this happens in time there will be a big rush to get the grain down before the end of the season. Present indications do not point to a great demand for late tonnage."

RULES SOMEWHAT CHANGED.
Certain changes governing the bowling contest for the Van Iderstine and Ford cup, which is to start this afternoon, have been made by mutual agreement of the contestants. The cup will be played under the following conditions:
1. The contest will be for the Van Iderstine and Ford cup, which will be open to challenge after Dec. 1, 1909. Challenges will be received by the holders until Dec. 8, and accepted in the order received. After one match has been played, holders will accept challenges on seven days' notice, games to be played within two weeks of date of challenge.
2. Not more than one match to be played each week.
3. Match to consist of fifteen games, total pins to count.
4. No player is to play in more than one pin.
5. No pair can play the same holder until at least three other matches have been played.
6. Cup to become the property of pair winning five matches.

BOWLING SCORES.

The Finnis won all three games in their match with the Bankers at the bowling alleys last evening. Handicaps included, the scores were as follows:

Finnis	Tot.
Savola	179 167 160
Parkkila	211 199 202 612
Jarvi	269 168 136 513

Peterson	144 168 155 467
Totals	928 888 833 2649
Bankers	166 188 207 561
Barber	166 188 207 561
E. Rose	179 155 167 501
Menchenet	235 143 199 588
Tucker	174 144 148 466
H. O. Bell	161 134 145 440
Totals	915 794 827 2509

SOO CANAL PASSAGES.
Boats Locked Through, Bound for Ports on Lake Superior.
Sault Ste. Marie, Mich., Nov. 30.—The boats whose names are here appended have passed the canals the past twenty-four hours, bound for ports on Lake Superior: Arcadian, Christopher, 9:30 p. m.; England, Steel King, 10; Walsh, 10:30; Carrigan, 11; Penobscot, midnight; Eklide, a. m.; Brewer, Smith, Thompson, 2; Weeks, 3:20; D. O. Mills, 4; Fairmount, 5; Cenestoga, Troy, 6; Black, Josina Rhodes, 7:30; Beatty, 9; Reis, 10:30; Alberta, 11; Agawa, Haddington, Mary Bayce, 3 p. m.; Scot-fish Hero, New York, 4:30; Woodford, Wassaga, 5:30; Junata, Robbins, 7.

A DANGEROUS MISTAKE.
Marquette Mothers Should Not Neglect Kidney Weakness in Children.
Most children have weak kidneys. The earliest warning is bed-wetting. Later come backache, headache, languor.
It is a mistake to neglect these troubles. To blame the child for its own distress.
Seek to cure the kidneys. Save the child from deadly kidney ills.
Doan's Kidney Pills cure sick kidneys. Thousands of parents recommend them. Read this testimony:
Mrs. Geo. Charlette, 1208 Holmes ave., Menominee, Mich., says: "I can recommend Doan's Kidney Pills very highly. My son, nine years old, suffered from a kidney weakness for a long time. He had no control over the passages of the kidney secretions, especially at night. He also complained of backache and pains across his loins. Physicians were consulted and I tried many remedies but nothing relieved him. Seeing Doan's Kidney Pills advertised, I finally procured a box and gave them to him. In a short time his kidneys were strengthened, the backaches disappeared and I felt a great deal better. I am very thankful to Doan's Kidney Pills for what they have done for my son."
(Statement given January, 1905).
On Oct. 9, 1908, Mrs. Charlette added to the above statement: "The testimonial I gave four years ago publicly recommending Doan's Kidney Pills was correct. I still think there is no remedy like them."

UPPER PENINSULA
Eyes Shot Out—
A man named John Dalzell was shot or shot himself while hunting deer in Mackinac county early in the week. The bullet crossed the top of his face, taking out both eyes. He has been taken to his home at Traverse City.
Good Hunting Grounds—
More deer have been shot in the territory between Ironwood and Lake Superior this season than ever before. The number of hunters that invaded the district was larger than in any former year, and the deer have been kept on the move most of the time.
Railroad Cashier Disappears—
Where is George Portland, assistant agent and treasurer of the Northwest station at Crystal Falls? According to information which leaked out of official circles at Escanaba, the former employee of the company has disappeared. The officials did not care to state anything about the case. They confessed that the former treasurer had left very suddenly and that his destination is unknown to them. Portland, while only the assistant agent, had charge of the funds of the company at Crystal Falls and his position was a responsible one.
Mine Worker Gets Damaged—
But one important case was tried during the recent term of the Gogebic county circuit court. It was that of Edward Bradley vs. the Castle Mining company. The litigation was of importance and interest to the mining corporations and those in their employ. Edward Bradley, an old resident of Bessemer, was injured while working at the Eureka mine at Ramsay July 16 last by falling into an unguarded opening or raise between the eighth and ninth levels. He fell over eighty-five feet and after his fall a car of ore was dumped upon him from one hundred feet above, burying him up to his neck, breaking his ribs and otherwise injuring him. The jury awarded him \$1,000; he asked for \$10,000.
Ski Club Enthusiastic—
The Viking Ski club of Munising has elected officers for the ensuing year as follows: President, Oscar E. Oie; secretary, Albert Jans; treasurer, Nick Olson; first captain, Mr. A. S. Hutter; second captain, John Anderson; third captain, Ed. Bloom; physician, Dr. T. W. Scholtes; musician, Alfred Anderson; trustees, H. Hansen, F. Runset, A. Christofferson, G. E. Olson. The members of the club consider themselves fortunate in securing Mr. A. S. Hutter as secretary. He has had several years' experience in that kind of work and was one of the charter members of the Ishpeming ski club. The Munising skiers are enthusiastic over the outlook for the approaching season. Outings will be held twice a week and probably a ski-jumping tournament will be arranged.
Refuses to Support Wife—
Not content with being twice arrested, Clyde Allen of Escanaba must be given another forcible lesson as to the proper care of his wife. After his first arrest his marriage followed. Next he was arrested for deserting his wife. He escaped to Ypsilanti, but was brought back and on promise of proper deportment in the future was released. After living with his wife for a short time he went to Van's Harbor to work. At that place he secured employment aboard a vessel and made several trips. A few days ago the boat came to Escanaba. His wife went to the vessel and pleaded with her husband to return to her, but he refused. Judge O. Y. Linden, before whom Allen was previously arraigned, ordered Under Sheriff T. J. Curran to arrest the defiant young spouse and lock him up in the county jail. He will be held there on a charge of non-support until he can be made to see the futility of attempting to escape the duty of supporting his wife.

Gift Suggestions
Those goods we have for the holidays are of a practical character. They are the kind where the buyer gets the most value for the money and where the recipient gets something that will be enjoyable or useful.
Our stock includes Fancy Staples, Hair Brushes and Combs, Cigars, Confectionery, Perfumes, Etc.

The litigation was of importance and interest to the mining corporations and those in their employ. Edward Bradley, an old resident of Bessemer, was injured while working at the Eureka mine at Ramsay July 16 last by falling into an unguarded opening or raise between the eighth and ninth levels. He fell over eighty-five feet and after his fall a car of ore was dumped upon him from one hundred feet above, burying him up to his neck, breaking his ribs and otherwise injuring him. The jury awarded him \$1,000; he asked for \$10,000.
Ski Club Enthusiastic—
The Viking Ski club of Munising has elected officers for the ensuing year as follows: President, Oscar E. Oie; secretary, Albert Jans; treasurer, Nick Olson; first captain, Mr. A. S. Hutter; second captain, John Anderson; third captain, Ed. Bloom; physician, Dr. T. W. Scholtes; musician, Alfred Anderson; trustees, H. Hansen, F. Runset, A. Christofferson, G. E. Olson. The members of the club consider themselves fortunate in securing Mr. A. S. Hutter as secretary. He has had several years' experience in that kind of work and was one of the charter members of the Ishpeming ski club. The Munising skiers are enthusiastic over the outlook for the approaching season. Outings will be held twice a week and probably a ski-jumping tournament will be arranged.
Refuses to Support Wife—
Not content with being twice arrested, Clyde Allen of Escanaba must be given another forcible lesson as to the proper care of his wife. After his first arrest his marriage followed. Next he was arrested for deserting his wife. He escaped to Ypsilanti, but was brought back and on promise of proper deportment in the future was released. After living with his wife for a short time he went to Van's Harbor to work. At that place he secured employment aboard a vessel and made several trips. A few days ago the boat came to Escanaba. His wife went to the vessel and pleaded with her husband to return to her, but he refused. Judge O. Y. Linden, before whom Allen was previously arraigned, ordered Under Sheriff T. J. Curran to arrest the defiant young spouse and lock him up in the county jail. He will be held there on a charge of non-support until he can be made to see the futility of attempting to escape the duty of supporting his wife.

Are You Exceeding the Speed Limit?

The record you keep on your check stubs is like the speedometer on the auto—shows just what pace you are going and warns you against spending too fast. That is why the man with a bank account is able to live more economically, thereby increasing his net earnings.

MARKETS

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows:
The stock market remained feverish and irregular during the greater part of the day's session, but in the last hour it recovered slightly from low levels on short covering. The news from Washington was rather conflicting, and reports indicated that the sentiment in London was far from cheerful. In view of the agitation of the market, liquidation of the high-priced issues continued to be conducted on the recovery, and although the short interest is said to have increased to a material extent, it does not as yet appear as though a recovery in price at this time would be sustained. Sentiment generally continues bearish, and we are inclined to advocate tightening of lines on the advance. Total sales, 1,065,700.

Boston Stock Quotations. Closing prices were as follows:

Amalgamated	127 1/2	Northern Pac.	143 1/4
Anacosta	17 1/2	N. & W.	120 1/2

Lake was again the most active stock in the Boston list, fluctuating widely, but closing very strong. One house prominently identified with the stock sold between four and five thousand shares of it today, and it seemed to be the general opinion that this was treasury stock. Butte Coalition and Greene were active with little change in price. On the whole the market looked better tonight, but not enough to make the traders very confident that the break was over.

Copper Metal Prices. New York, 30.—Copper on the New York Metal exchange was dull today, with spot and the December closing at 136 1/2, the January at 137 1/2 and the February at 138 1/2. The London market was easy early, but recovered and closed strong, advancing about 7s. 6d. with spot quoted at 458, 12s. 6d and futures at 459, 15s. The sales there were 300 tons of spot and 200 tons of futures. Local dealers quote Lake copper at 132 1/2-133, electrolytic at 136 1/2-137 and casting at 136 1/2-137 1/2.

CHICAGO GRAIN MARKETS. Chicago, Nov. 30.—The possibility of a switchmen's strike on the Western roads was largely instrumental in causing a sharp bulge in wheat late today. The market recovered all the loss sustained earlier and closed strong, 1/2 to 3/4 higher. The market was a dull and dragging affair until announcement was made that the switchmen would strike tonight unless their demands were granted. The shorts became uneasy, as grain movement in the Northwest and further hedges on contracts. The demand decidedly active and the prices advanced quickly more than a cent from the low point of the day. Weak cables and liberal receipts in the Northwest caused weakness early in the day. The December opened at 105 1/2, highest, 106 1/2; lowest, 105; closed, 106 1/2. The May closed at 106 1/2.

Corn—Liquidation induced weakness the greater part of the day, but firming in the afternoon. The market was a dull and dragging affair until announcement was made that the switchmen would strike tonight unless their demands were granted. The shorts became uneasy, as grain movement in the Northwest and further hedges on contracts. The demand decidedly active and the prices advanced quickly more than a cent from the low point of the day. Weak cables and liberal receipts in the Northwest caused weakness early in the day. The December opened at 105 1/2, highest, 106 1/2; lowest, 105; closed, 106 1/2. The May closed at 106 1/2.

Wheat Summary. Paine, Webber & Co.'s Chicago's correspondent had this to say concerning yesterday's wheat market:
The bears had things mostly their own way during the morning. The last prices were a little under the top figures. The Liverpool cable was weak and lowering. The Argentine crop news were heavy enough to encourage the bears a little. A Kansas City message claimed that although receipts were light, cash wheat was in slow demand except for choice milling lots. The trade at the close appeared to be stampeded by the prospect of a switchmen's strike in the Northwest, which might easily spread so as to seriously cut into wheat receipts. There was more friendly feeling for the buyers and all day after the first hour because the bears did not succeed in forcing the decline expected.

Cotton Market. Paine, Webber & Co. had this to say of yesterday's cotton market:
The fact that we are approaching the end of picking is well established. High prices have hurried it to such an extent that we are possibly a full month ahead of normal conditions and from reports that operations are completed for the season. Last year on Dec. 1st we had 84.1 per cent of the crop ginned. It is probably that this year we have from 88 to 90 per cent and if such be the case a ginning record of less than nine million bales will spell sensation. The volume of trade is not large, and the bulls are very confident any have ample means to care for their obligations which will not mature until next May. The bear crowd have no tenable argument except the fear that Southern spot holders will not recognize the strength of their spot position, but they can look out of the back window and see the crop gone and probably feel more bullish than the man who views New York bay from the nineteenth story of a skyscraper.

LOOKS FOR A BUSY SESSION.

Uncle Joe Not One Who Believes Little Will Be Accomplished. Washington, Nov. 30.—Speaker Cannon arrived this afternoon. He remarked that he expected a busy session of congress and did not agree with the predictions that little would be accomplished.

DIRECTORS MUST DIRECT.

Stern Decree Is the Latest Pronouncement of Comptroller Murray. Washington, Nov. 30.—All national banks must have monthly meetings of directors, and all loans and discounts must be approved by the directorate. This was the pronouncement of Comptroller of the Currency Murray today. The comptroller asked all banks to forward to the comptroller's office a copy of their by-laws as amended to include the foregoing provisions.

WANT FEDERAL LEGISLATION.

"On to Washington" the Slogan of the Anti-Saloon Workers. Chicago, Nov. 30.—"On to Washington" was the slogan at the opening today of the conference of the state superintendents and field workers of the Anti-Saloon League of America. The intention now is to obtain from congress legislation prohibiting the shipping of liquor into "dry" states.

CHILD LABOR LAW VIOLATED.

Boys Under Fifteen Years of Age Employed at Cherry, Illinois. Cherry, Ill., Nov. 30.—State Factory Inspector Davies today gave the coroner evidence of violations of the child labor law in the case of three boys—Alfred Howard, Joseph Leondeck and Alfred Kroll—who died in the recent mine disaster. The boys were each fifteen years old, according to their mothers' testimony. Coroner Malm refused to testify his action concerning this evidence. State Attorney Eckert announced that he had conferred with Davies, and it had been agreed to decide between one of two plans of prosecution, namely, to take the present evidence into the county court and institute proceedings against the mine corporation, or wait until the February grand jury convenes and begin prosecutions through that channel. The former, said Mr. Eckert, appears the logical solution.

MR. TAFT WORKING OVERTIME.

His Message to Congress Receiving Considerable Attention at Night. Washington, Nov. 30.—The financial portion of the president's message is completed, and at today's session of the cabinet the Panama canal bond situation and other features engaged close attention.

TWO HUGE SHIPS STARTED.

Keel Plates Laid for the Latest Monsters of the British Navy. London, Nov. 30.—The keel plates of two monster war ships, the Orion, the improved Dreadnought battleship, and the Lion, the cruiser battleship, have been laid, the former's at Portsmouth and the latter's at Davenport. The bulk of the material for both vessels is ready, and all arrangements have been made for their completion within two years.

FIVE HELD AS SWINDLERS.

Suspects Posed as American Millionaires Are Accused in Europe. Paris, Nov. 30.—Four men and a woman who have posed here as American millionaires but are alleged to compose a gang of international swindlers were arrested today charged with extensive stealing and the defrauding of jewelers. Jewels valued at \$15,000 were found at their home. The police claim that these were stolen from European houses. Two of the men gave their names as John Francks and John Sullivan, who is said to have once been expelled from France, and Jacob Hymen of Philadelphia.

RECEIVERSHIP IS LIKELY.

Interest on Chicago Subway Company's Bonds May Not Be Paid. New York, Nov. 30.—It is reported that friendly proceedings will be instituted for a receiver for the Chicago subway company. The December coupons of the company's bonds will be due tomorrow, but no arrangements are known to have been made for their payment. For several years the interest payments were furnished by Messrs. Armour and Harriman.

Not a "Cure-all"

Separate Remedies, Each Devise for a Particular Ailment. There is no "cure-all" among the Rexall Remedies. There are different and separate medicines, each one devised for a certain human ailment or a class of ailments closely allied. For instance, Rexall Dyspepsia Tablets are recommended for the positive relief of stomach irritation, indigestion, flatulence and dyspepsia. They are rich in Bismuth-Sulphate, Pepsin and Carminatives. They are prepared by special processes which perfect and enhance the great remedial value of these well-known medicinal agents. This remedy sells for 25 cents, 50 cents, and \$1.00 per package. Every one suffering from stomach disorders should try Rexall Dyspepsia Tablets, inasmuch as they cost nothing if they do not satisfy.

Remember, the Stafford Drug Co.'s store is the only store in Marquette where these remedies may be obtained, and every one in need of medicine is urged to investigate and take advantage of the frank and generous manner in which they are sold.

NEW PACKING PLANT PLANNED.

Armour Company Buys a Big Site Near St. Paul and Minneapolis. Minneapolis, Nov. 30.—The Armour Packing company has purchased several hundred acres of New Brighton, north of St. Paul and Minneapolis. A mortgage of \$50,000,000 to the Farmers' Loan & Trust company of New York, securing an Armour bond issue, was filed today.

TESTIFIES IN HIS OWN BEHALF.

W. Y. Ellis, Charged With Murder, Takes the Stand at Little Rock. Little Rock, Nov. 30.—W. Y. Ellis, charged with the murder of N. P. Willis, of Indianapolis, testified in his own behalf this afternoon. He related what he had been told by his wife relative to Willis, the latter's treatment of her and his efforts to secure their little daughter. The state objected to this evidence, and the remainder of the afternoon session was spent in arguing the point. The decision will be announced tomorrow. Mrs. Ellis fainting in the court room today, during the reading of a letter from her to her aunt, telling why she left Willis.

Tennessee Entombed Miners Rescued.

Knoxville, Tenn., Wednesday, Dec. 1. A Ducktown dispatch received early this morning says that eight miners who were entombed Tuesday in the London copper mine were all rescued at 1 o'clock this morning, alive and in good condition. The imprisonment resulted from a fire which caused a cave-in.

BROWNSVILLE INQUIRY ENDS.

Brownsville, Nov. 30.—The court of inquiry investigating the raid upon the city alleged to have been committed by negro soldiers, concluded its hearing here today and adjourned to meet at Washington, where it will hear discharged soldiers applying for reinstatement, who will be called to testify in their own behalf.

SIGNS CHICAGO PLAYERS.

Chicago, Nov. 30.—President Kinsella of the Springfield Three "P" baseball club today signed two Chicago semi-professional players—Walter Schaller, outfielder, and Harry Shelly, pitcher.

INDIANA COUNTY VOTES "DRY."

Williamsport, Ind., Nov. 30.—By a majority of 225, Warren county voted dry today. The county has been dry by remonstrance.

OIL MAGNATE ON TRIAL.

Austin, Texas, Nov. 30.—Late this afternoon the jury was empaneled in the case of Henry Clay Pierce, charged with false swearing.

Upper Peninsula

Miner Loses His Eyesight.—Word has been received at Ironwood that John Sullivan, a brother of Mrs. William Meade of that city, had recently had both eyes accidentally injured while steam shoveling in a mine at Butte City, Mont. Details of the accident are not given. Mr. Sullivan was for a number of years employed by the Ironwood Store company and is well known to many Ironwood people.

Woodsman Badly Injured.

William Morris, a woodsman whose home is said to be in Newberry, lies in the South St. Marie hospital in a critical condition from injuries received at Saw Junction. Morris is alleged, had been drinking heavily during the hours previous to the arrival of the train and was intoxicated. As the train for the Soo pulled out of the junction he attempted to get on the rear coach, missed his footing and went under the car. There was a bad crash across his forehead, one arm is dislocated and he is otherwise badly injured.

Wedded at Newberry.

Mrs. Sultana Darling and Charles Metcalf were united in marriage at the home of the groom's parents, Mr. and Mrs. C. W. Metcalf, at Newberry on Thursday, last. The ceremony was performed by Judge Metcalf, father of the groom. Only the immediate members of the family were present. Mrs. Darling and Mr. Metcalf arrived in the city on the noon train and repaired to the Metcalf home, where the ceremony was performed. The bride has had a number of years been best saleslady in the Fair Store at Escanaba. The groom is the editor and manager of the Escanaba Iron Port.

Red Coats Would Save Life.

The recent hunting fatality of which Charles Kneek of Greenville, O., was the victim near Wibeek, Marquette county, has called attention to the need of some legislation compelling hunters to wear brilliant colored clothing while in the woods. If Kneek had worn the bright blue suit he brought from home, the accident would not have happened. Too many hunters, in their eagerness to win success in the chase for deer, are too prone to dress themselves in costumes closely resembling the coat of the animals, and it is a great wonder that more hunters are not killed as a result of this inclination. With a law compelling the hunter to wear red or blue clothing it is declared there would be comparatively few if any fatalities. A red coat would have saved the life of Dr. Beason at Mercer, of Rodgers at Hermandville, of Dr. Moore at Ironwood, and of Colonel Hoekensbury at Newberry.

A Store Where Little Things Count

THE best reason why we've been able to do some pretty big things here in a merchandising way—is because we know the value of little things: take care of trifles.

With us there are no "unimportant" transactions—no "beneath-our-notice" details.

It's important to us, no matter what you pay for a suit or overcoat bought here, that you get the fullest satisfaction for every dollar—right style, right quality, right service.

It's important with us to know that all the small essentials of fit and finish—things that even the purchaser may overlook—are perfect.

And that's why we sell clothes that are made in the same spirit that we sell them—right to the finest degree of detail. They're clothes built by

The House of Kuppenheimer

and they compose the newest styles, the finest cloths, most artistic trimming and a perfection of tailoring you'll find it hard to equal anywhere.

Better see the brandnew designs and patterns now.

We'll see that you're fitted correctly—and guarantee every garment.

Ishpeming Department

Y. M. C. A. ENTERS LIFE-SAVING BUSINESS

QUITS POSTOFFICE.

One of Ishpeming's First Mail Carriers to Leave Uncle Sam's Service.

James Tucker, who entered the employ of the United States postal service eighteen years ago, has accepted the position of cashier at the Cleveland-Cliffs Iron company's new North Lake property, and will begin work there today, having finished his work at the postoffice yesterday. Mr. Tucker served as mail carrier for fifteen years, most of the time being on the No. 1 route, and for the past three years he has held the position of register clerk. As a carrier he was extremely popular with the people whom he served and he has also been an exceptionally obliging office man. His many friends in the city will regret that he is leaving the service, though all will rejoice in the fact that he is to receive a much better salary in his new position than the government paid him.

Mr. Tucker's family will remain in the city for the winter, but they will move to North Lake early in the summer. The company plans on building some five or more modern cottages for their head men at the North Lake property, and Mr. Tucker's family will have one of them. He is to have entire charge of the office work, which will be an important position, as within a few years several hundred men will be employed at the property. One of the neatest and most modern office buildings to be found in the Lake Superior district has been erected at the mine and is now occupied by Superintendent Graff and his principal assistants.

DOES SENSATIONAL ACT.

"Leaning Willie" Gives Thrilling Performance on Top of Braastad Block.

Fully 3,000 people, a majority of them school students, saw Willie Curran lean over the edge of the Braastad block, over sixty feet above the sidewalk, yesterday noon. The act is the most sensational that has ever been given in public here and it created a great deal of comment.

For ten minutes before "Willie" posed for his lean, he stood upon the edge of the roof looking down at the crowd. He leaned forward three different times, the last time going over far enough to touch the cornice on the underside with his hands. In his second lean his body was almost in a horizontal position, leaning directly above the walk.

There was much speculation as to how the act was performed, some declaring that he had springs attached to his feet and legs, while others were satisfied that he was held from behind, either by a rope or some contrivance. Nothing could be detected, however, from the street.

Curran places his feet in a pair of large shoes that are fastened to a board which is attached to the roof walk. He uses the same contrivance for his vaulting stunts when he leans forward so far that his nose almost touches the floor. Even with this arrangement he had to work on the trick for a long time before he could balance himself in different positions. He goes forward and back, and in one position he was almost in an upright position, indicating that the muscles of his limbs are thoroughly developed. "Leaning Willie" has proved a big drawing card for the Bijou and his performance on the Braastad block yesterday was the talk of the town.

PRIZES FOR BOWLERS.

The management of the Bank street bowling alleys is to award a prize of a bowling ball each month during the remainder of the season. It has not yet been determined under what conditions the prizes will be given. Prizes of a turkey, duck and goose are to be given Christmas eve for the highest scores in three individual games. Dave Lind yesterday broke the season's record by rolling 257. Thomas Roberts held the previous high record, 255. The Negaunee team which a local team defeated last Monday evening at Debraime's alleys, will play a return match here Friday evening.

How about your piano? If it needs tuning, don't neglect it. Leave your order for M. J. Olson at William Leiminger's store. (6-28-11)

The great danger from influenza is its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia. Sold by The People's Drug Store.

Former Secretary of Hopkins Company Tells About Firm's Business Here.

Thomas J. Delahunt, former secretary of the Wallace H. Hopkins company, and for some time in charge of the company's Ishpeming office, turned some light on his employer's brokerage business in Judge Landis' court in Chicago, Monday morning, when he told how Hopkins prepared for flight when the sheriff took possession of the business. At one time during the period that the Ishpeming branch was managed by Mr. Delahunt, the office here did \$2,000,000 a month, according to his statement in the federal court where the Hopkins case is being tried.

Mr. Delahunt explained the system of taking "redings" and "rippings" off of stock purchased for customers that was in vogue when he entered the company's employ in 1904, and the practice continued until the failure in April, 1908.

Mr. Delahunt told of Hopkins' last day in Chicago at the time of the company's failure. He said that Hopkins sent him to the office in the afternoon of April 22, 1908, and he got a certified check for \$1,000. He met Hopkins at the hotel in the evening and gave him \$500, and kept the rest for himself. He reminded Hopkins that he owed him and some of the other employees and told him that he would use the \$500 remaining to pay off some of the people whose wages were overdue.

J. H. Ringer, manager of the Jackson, Mich., office of the company, was also at the hotel, declared Mr. Delahunt. Mr. Ringer, he testified, said to Hopkins, "Come over to Jackson with me for a few days. You can hide at my home and you can have your mail addressed to me and I will see that you get it all right."

BELIEVES IN CUYUNA RANGE.

Diamond Drill Contracting Firm Has Purchased Land at Brainerd, Minn.

E. J. Longyear, of the diamond drill contracting firm of Longyear & Hodge, which is operating drills on all of the Lake Superior Iron ranges, has purchased for his firm the Swedish Lutheran church and parsonage, and the site on which they are located, at Brainerd, Minn. While the consideration was not large, the significance did not rest so much in the amount paid to the church society as that it is an indication that the Longyear & Hodge people believe that the Cuyuna range developments are as yet in their infancy. The property is located alongside the spur track of the Northern Pacific railway, and is purchased by the Longyear & Hodge people as a place to erect coal sheds, etc., for the storage of coal for many drills engaged in prospecting for iron. It is also reported that the firm will erect a brick building on the front end of the lot for an office, but this report has not yet been confirmed by the management.

ISHPEMING IN BRIEF.

Miss Helen McInerney arrived home yesterday from a visit to relatives and friends on the Menominee range.

Tom Malloney, who has been confined to his home with typhoid fever for the past eight weeks, was out yesterday for the first time.

Miss Borghild Braastad arrived home yesterday from Chicago, where she spent a week visiting her sister, Miss Lillian, who is a student in one of the colleges there.

The members of the Ladies' Aid society of the First Methodist Episcopal church will conduct a ten-cent social this afternoon and evening in the parlors of the church. In connection with the social there will be a sale of useful and

FROM MORGAN'S CURB LETTER.

The opening in New York was a trifle higher, but nothing sensational occurred during the early part of the session. An advance in the metal of ten shillings at the close in London was quickly followed by a rise in Amalgamated of one and a half points, and the other metal stocks sympathized to a greater or less extent. Wall street opinion is that the copper merger will be consummated and that this setback in coppers is but a shake-out of weakly held stocks. Trading was more general today than for some time past.

Lake was again the feature in Boston. Trading was heavy and the stock showed a range of seven points for the day. The Cole-Ryan stocks were active. Butte Coalition sold up to 28, Superior & Pittsburg lost a large fraction, Calumet & Arizona lost two points, and the others about held their own. On the whole, the market absorbed heavy profit-taking

WONDERFUL GROWTH OF AUTO INDUSTRY

RISE OF AUTOMOBILE BUSINESS HAS NO PARALLEL IN THE COUNTRY'S HISTORY.

EXPERIMENTAL STAGE PASSED

Horseless Car Has Come to Stay, Insuring Lucrative Employment for Many Thousands of Men.

"In the history of American industries nothing can compare with the rise and growth of automobile manufacturing," said a local motor enthusiast yesterday. "In 1898 there were fifty automobiles in the United States, while in 1908, according to the Association of Licensed Automobile Manufacturers, the American factories built and sold over 60,000 cars valued at \$125,000,000.

"In 1898 three or four experimental shops represented the total investment of capital, while at the beginning of 1909 the capitalization of 400 automobile factories was \$11,448,700, and these 400 factories together with 2,250 salerooms, garages, etc., gave employment to about 150,000 mechanics, salesmen, etc. In addition to this, 125,000 cars are registered in the various states, with 90,000 chauffeurs employed to take care of them. Three or four years ago the public looked upon the automobile as it did upon the bicycle and concluded that in the course of a few years, when the fever had subsided, it would pass out of existence as the bicycle had done. But today the automobile, both for pleasure and commercial use, is of such utility in the social and business life of our country that it is difficult to imagine how we could live without it. There is no longer any question about the permanency of the automobile. It has passed the experimental stage, and is now recognized as a practical vehicle and its displacement of the horse is only a question of time.

"The automobile, with its perfected mechanisms, with the individual system of propulsion, developed to a point of absolute safety where it glides gently and noiselessly through the crowded streets and winding thoroughfares, will have an extended use each year until it dominates all the highways of human travel and supplies safe, comfortable and rapid transit, on city streets and good country roads. During the past twelve months it has been demonstrated that the automobile is not limited in its use to city streets, but is equally of being an important factor in the life and work on the farm, on the prairie and on the rough and rugged hills; in fact, only the future will determine in how many ways this great invention of the twentieth century can be of general service to mankind in the varied occupations.

Will Increase in Popularity.

"The present output of the automobile factories is only a 'drop' compared to the possible production of ten or twelve years hence, and it is safe to predict that the automobile industry will soon be one of the largest in the country. A direct result of the rapid growth of the automobile business is a big demand for trained men who thoroughly understand the construction, operation and care of automobiles. Factories, salerooms, garages, repair shops, etc., and owners of cars demand men to hold positions of designers, machinists, assemblers, testers, salesmen, demonstrators, garage managers, repair men, chauffeurs, etc. No other single product of an American factory has at any time created such a demand and wide field for ambitious men as that opened up by the manufacture of automobiles and their accessories, and as the industry is absolutely new and distinct from any other business, it is impossible to draft men from other trades and professions to handle the enormous business successfully unless these men have secured some special automobile training.

"As the demand for men exceeds the supply and will continue to do so for some years to come, the salaries and wages paid in the automobile business are higher than those in the old established trades and professions where the supply is always greater than the demand. The average paid to the chauffeur, for instance in New York, is \$100 a month. This rate does not, of course, apply to the man who simply knows how to operate a car. When the term 'chauffeur' is used, it is understood to be the title of a person who is able not only to operate a car, but also keep it in good running condition at all times without having recourse to the repair shop except in cases of unusual breakdown. As it is a very easy matter to turn a steering wheel and move one or two of the levers and pedals it is reasonable to suppose that no other word pay \$25 a week for such service; but the chauffeur who can save unnecessary wear and tear, heavy repair bills, and operate a car at the minimum expense to the owner, is certainly worth at least \$100 a month.

Skilled Chauffeurs in Demand.

"It must be distinctly understood that the man in demand today must know something more than the mere driving of a car. There are at the present time hundreds of men in New York city and vicinity who are fairly expert in the driving of an automobile, but it cannot be said that these men are in demand. It is true that a number of positions on first class cars are held by such men, who work for less than \$100 per month, but what are the results? Heavy repair bills, shabby-looking cars, disgusted owners of cars, and appalling automobile accidents.

"As the automobile industry grows and develops it is becoming more and more apparent that the men who enter the various branches of the business must have a thorough knowledge of the automobile, its construction, operation, and care in order that they may perform their duties in an intelligent and skillful manner. In the case of a chauffeur it is absolutely essential that he should know the make-up of the machine which he has in charge. This qualification is becoming so necessary that in a very short time the driver of an automobile will be required by law to pass a strict examination before he is permitted to

handle a car on the public thoroughfares. He will be examined to prove both his knowledge of the mechanism of a car as well as his ability to control it under all conditions."

PEOPLE WILL VOTE.

Marquette Citizens to Express Choice For Postmaster at the Polls.

In response to an invitation from Congressman H. O. Young, the vice candidate for the Marquette postmastership, John D. Mangum, John Carlson and Wm. McCormick, met the congressman at Ishpeming Monday and at their conference, it was decided to ask the people to vote for their choice for the office at the next spring election. Mr. Young has had the matter under consideration for about a week, and after talking it over with a number of prominent local men, decided that a vote of the people was the best way to determine the respective strength of the three aspirants for the office. The arrangement is likely to be altogether satisfactory to both the candidates and the patrons of the Marquette postoffice.

CREOSOTE QUESTION UP AGAIN.

James Penill Charges Austin Farrell With Violation of Ordinance.

James Penill swore out a warrant yesterday against Austin Farrell, superintendent of the Pioneer Iron company, charging him with having violated section 13 of an ordinance adopted by the council Dec. 1905, providing that creosote shall not be dumped into the lake. At the time the ordinance was passed, the furnace people were about to install a creosote filter, which is said not to have been operated for some time. A few days ago the health committee of the council visited Mr. Farrell with the result that the furnace superintendent promised to get the filter into operation again as soon as possible, which he said would be within a very few days. The ordinance referred to reads as follows:

"Section 13. After March 1st, 1905, no person shall cause or permit to be placed in or to flow into the waters of the harbor of the city between the government breakwater at Presque Isle and the government breakwater at Light House Point, on or in any stream, ditch or drain emptying directly or indirectly into such waters, or assist therein; any tar, filth or other substance detrimental to the purity or salubrity of such waters, or tending to render such waters impure, unwholesome or offensive; and each owner, superintendent, manager and person in control of any chemical works or plant, or place from which there is discharged any refuse containing any such tar or other deleterious substance, shall provide such works, plant or place with such apparatus, appliances and process as may be necessary to prevent and does prevent any and all tar, filth and other matter above mentioned, from being discharged from such works, plant or place into such waters; and each and every act and each day of the continuance of any act in violation of the foregoing, and each day of the failure to do anything by this section required shall be deemed a separate offense and be punished as such."

IT IS TO LAUGH.

Story of Confiscating 500 Partridges in a Coffin a Wonderful Tale.

A very readable story of the confiscation of 500 partridges, in which Deputy Game Warden Harrington and his good dog "Fluff" play the leading roles, was sent out from Lansing a few days ago, apparently originating in the office of State Game Warden Pierce. The substance of the story is that Mr. Harrington, through the kindness of some of his dog, found 500 partridges in a rough box on the station platform at Floodwood, Dickinson county, which was about to be shipped to Milwaukee, presumably containing a corpse. While the game warden was investigating the contents of the coffin, the man to whom it apparently belonged made his escape.

The story seems to have been first published in the Lansing Journal, which publication with an official report received by the state game warden. The story has been copied by many papers throughout the state and makes very interesting reading.

In fact, a close analysis of the Lansing Journal's article leads one to think that it is one of the most wonderful stories ever incubated in the upper peninsula. Complete as the journal's story is, however, local readers would like to be further informed on certain points. In the first place, it would be interesting to know the identity of the man or men whose process with the gun enabled him to bag 500 partridges in a few days. Partridges must be plentiful near Floodwood, then in Marquette county. Again, the dimensions of that coffin would be desirable. The average hunter would guess that it would take an elephant's coffin to contain that number of birds. Finally, the Journal says "The man in charge of the 'body' did not display the least sign of nervousness as he walked up to the baggage agent and displayed a certificate of death, bearing the signature of a well known physician. While he was conversing with the station agent, the dog owned by the deputy was seen to come to a point, etc." That sounds well, but as a matter of fact, Floodwood is a little flag station on the St. Paul road, with no depot, no station agent, no baggage man and no express office. It's an interesting story, but—

We have dill pickles, sauerkraut, Limburger cheese and Milwaukee sausage, already yet.

(11-29-34) JOHN SIEGEL.

Marquette has dairies old and dairies moves superior ones. The small, but the Marquette City Dairy leads them all. Everything modern, sanitary and up-to-date. "Equal to any practical dairy in the state," says Dairy Inspector Hall. Bell 'phone 223.

U. P. MACADAM ROADS COMPARE FAVORABLY

NO SECTIONS OF COUNTRY ARE BUILDING BETTER OR MORE UP-TO-DATE HIGHWAYS—ARTIFICIAL BINDING MATERIALS.

County Road Superintendent V. S. Hillier was in Marquette yesterday and when asked about the meeting of the National Good Roads association he recently attended in Columbus, O., replied that he greatly enjoyed the meeting with the good roads experts of the country but that the road exhibits and show of road-making machinery were no better than are to be found in Marquette county. Former Highway Commissioner Earle and the present deputy state commissioner, Mr. Rogers, were of the same opinion.

While Mr. Hillier came back with the opinion that the upper peninsula of Michigan is about as progressive in the science of practical road building as any section of the United States, he was greatly interested in the demonstrations and discussions of artificial bindings and the use of oil to lay the dust. A large number of the business firms making road material of various kinds showed exhibition samples of roads built by or with their patented processes. A few of these were very well laid, while others were laughably crude, showing that the men who did the work had little or no knowledge of practical roadbuilding.

As to the use of oil on macadamized highways to lay the dust and at the same time prevent the top dressing being blown away by the wind, he found his general opinion to be that the results achieved did not warrant the expense entailed. While the oil lays the dust all right and its use is advocated by automobilists generally, the cost and application at present are so great that the roadmakers were of the opinion that it was a case of where "the game was not worth the candle."

It was in the various commercial and other road binding materials that Mr. Hillier was most interested. Experts as a rule seemed to think that tar alone was not a perfect binder, as it lacked durability. While it held splendidly for the first year or so, it is disintegrated by climatic and weather conditions and in a few years leaves the road in no better condition than if the tar had not been used. The best binder, they said, to be one composed of natural oil with an asphalt base, and several companies already have binding material of this kind on the market. Mr. Hillier was very favorably impressed with such a product now being put out by the Standard Oil company, and which could be secured in Marquette as cheaply as furnace tar. However, as this product has been on the market but a year, its wearing qualities are as yet unknown.

GEORGE BARNES GOES WEST.

Former Marquette Athlete to Spend Winter at Colorado Springs.

George Barnes of Hancock visited in Marquette the first of the week on his way to Colorado Springs to spend the winter with his mother. Barnes is an old-time baseball pitcher of some renown and formerly lived in this city. Barnes has made a good record in athletics in the copper country and in view of his leaving, The Hancock Journal says:

"In losing Barnes, the militia will lose one of the best pitchers in the indoor baseball league. Houghton fans fear that the militia will prove to be a very easy proposition without Barnes in the pitcher's box.

"Barnes came to Houghton several years ago, and took a position as bookkeeper with the Park Brewing company. He immediately took an interest in copper country athletics and showed himself worthy of being placed with the first athletes of the county. He is possibly the best all-around athlete that the copper country has ever seen. Placed under the care of a professional coach he would have 'made good' in any college in the country. Time and again he went into meets, without any training, and took off a goodly share of first and second prizes. Several years ago he took part in an A. O. H. track meet and carried off the greater portion of the medals.

"Last year was the first time that Barnes ever had an indoor baseball in his hand as a player and after a short practice and several games he was declared to be one of the best pitchers in the league, and held some records. He has the remarkable faculty of being able to learn almost any game that may come his way. In him Houghton loses its best track man, not excepting Heughens."
