

NEW MOVE AGAINST THE "INSURGENTS"

Representative Dwight, Speaker Cannon's Whip, Overturns a Custom That the House Has Followed for Half a Century.

He Instructs the Clerks to Cease Pairing the Republicans Excepting Under Prescribed Conditions—This Will Give the "Machine" Additional Leverage; but it May Yet Be Nullified by Democratic Recourse to a Long Dormant Rule.

Washington, Jan. 11.—A custom of the house of representatives followed for fifty years was overturned today by Mr. Dwight, of New York, the Republican whip, when he instructed the pair clerks to cease pairing the Republican members, excepting under prescribed conditions.

Mr. Garner, of Texas, the temporary Democratic whip, stated that Mr. Dwight had instructed the clerks to make no pairs excepting on Mr. Dwight's approval. This Mr. Dwight denies, but Mr. Garner has invoked a rule which for twenty years has been understood to require that the members make their pairs in writing at the speaker's desk.

Under the order attributed to Mr. Dwight he would be able to control the voting of the absentees, or those desiring to be paired, which would not work to the advantage of the house insurgents, since the Republican whip is working in harmony with the "regulars." The move of the Democrats, if successful, may result in greatly limiting the pairing and also perhaps in nullifying the effort of the Republican machine to embarrass the insurgents.

No definite future plans have been adopted by the insurgents, but they say they await developments with confidence of their ability to meet the issue to the satisfaction of themselves and the country. Their attitude on the Ballinger-Pinchot investigation is still nebulous. They declare that they want only a fair and impartial committee. Nothing decisive is likely to develop until some actual occasion for conflict arises.

Committee on Rules Sustained. Washington, Jan. 11.—An effort to take from Speaker Cannon the power to determine what part of President Taft's recent message should go to the house committee on interstate and foreign commerce, and what part to the judiciary committee, was defeated in the house today.

CHANGES INAUGURAL DATE. Resolution Favorably Reported Makes It the Fourth Thursday in April.

Washington, Jan. 11.—A resolution changing the date of the presidential inauguration to the fourth Thursday in April was favorably reported by the house committee on the judiciary today.

UNCLE SAM A BIG LOSER. Cost of Second-Class Mail \$64,000,000 in Excess of the Revenue.

Washington, Jan. 11.—Particular attention is devoted to second-class mail matter in the annual report of the third assistant postmaster general.

WANT GOVERNMENT TO DISMISS ITS SUIT.

Harriman Merger Not a Violation of the Law, Say Railroad Officials—President Taft Investigating the Claim.

Washington, Jan. 11.—Setting forth that the government cannot win the suit for the dissolution of the merger of the Harriman lines, the railroad interests want the suit discontinued.

IS A DRASTIC MEASURE.

Proposed "White Slave" Legislation Is Considered by the House.

Washington, Jan. 11.—After passing \$93,200,000 for the fiscal year 1911, the house today considered the "white slave" bill for the deportation and exclusion of immoral aliens engaged in prostitution or similar offenses, and for the exclusion, deportation and punishment of "procurers" of such women.

Opposition developed to the portion of the bill reported by the immigration committee which makes it felony for any person to assist another to go from state to another for the purpose of engaging in prostitution.

That the senate committees are not working earnestly was evident today when, after sitting less than an hour, the calendar was exhausted and the senate adjourned.

SENATE IS OUT OF WORK. Strongly advocating the bill, Mr. Austin, of Tennessee, contended that it might well be enlarged so as to exclude the members of the "blackhand" and undesirable Asiatics, including Japanese and East Indians.

INDIANA HONORS FAMOUS SON. Statue of General Lew Wallace Is Unveiled at Washington.

Washington, Jan. 11.—The statue of General Lew Wallace, of Indiana, soldier, author and diplomat, was unveiled today in Statuary Hall in the Capitol.

DEFENDS SPEAKER CANNON. Former Comptroller Dawes Gives Hamilton Day Address at Chicago.

Chicago, Jan. 11.—Charles G. Dawes, former comptroller of the currency, in his Hamilton Day address here today, said: "Hamilton was a constructionist. Like everybody who is a deer, he had to bear the lash just as many people who are now doing things are hearing the lash of thoughtless tongues and uninformed people."

OCEAN CRAFT IS MISSING. Washington, Jan. 11.—Four revenue cutters have been sent in search of the steam lighter Columbia, which left New York Dec. 24 for Haiti and has not been heard of since.

MENELIK REPORTED DEAD. Rome, Jan. 11.—The Observatore Romano prints a despatch from Harar, Abyssinia, saying that it is reported that King Menelik died Dec. 29.

GAME OF DIPLOMACY HAS MUCH AT STAKE

Nearly Half a Billion Dollars' Worth of Trade Involved in Negotiations Between the United States and Germany.

Reciprocity Arrangements Will Terminate Shortly, and Unless Secretary Knox and the Kaiser's Ambassador Reach an Understanding, for Which There Is Now but Little Hope, the Two Nations Will Engage in a Bitter and Costly Struggle.

Washington, Jan. 11.—Nearly half a billion dollars' worth of trade is at stake in a game of diplomacy in progress between America and Germany.

The indications are that this understanding is beyond attainment, and that the two nations can compose their differences only after a bitter and costly struggle. America will not be the only sufferer, for April 7 the maximum tariff rates carried by the Payne-Aldrich tariff act automatically apply to the vast German import trade, which in 1908 aggregated more than one hundred and sixty million dollars, and every article of German production must pay a 25 per cent increase of duty.

Meat Trade the Obstacle. Negotiations have been in progress for months to avoid this, but an obstacle has been reached in the demand of the United States for the relaxation of the German prohibition against American cattle.

There Is Little Interest and Light Sales. Prices Down.

New York, Jan. 11.—The drooping tone of the stock market persisted today. Encouragement for taking the initiative in the buying seemed lacking.

AMERICAN PROTESTS AGAINST POTASH LAW. Berlin, Jan. 11.—The United States today informed the German foreign office that it would regard the adoption by the Reichstag of the proposed potash law as a discrimination against American interests.

STATUE OF GENERAL LEW WALLACE IS UNVEILED AT WASHINGTON.

Washington, Jan. 11.—The statue of General Lew Wallace, of Indiana, soldier, author and diplomat, was unveiled today in Statuary Hall in the Capitol.

DEFENDS SPEAKER CANNON. Former Comptroller Dawes Gives Hamilton Day Address at Chicago.

Chicago, Jan. 11.—Charles G. Dawes, former comptroller of the currency, in his Hamilton Day address here today, said: "Hamilton was a constructionist. Like everybody who is a deer, he had to bear the lash just as many people who are now doing things are hearing the lash of thoughtless tongues and uninformed people."

THE WEATHER.

Washington, Jan. 11.—The following is the weather bureau's forecast for Upper Michigan: Unsettled, Wednesday; snow by Wednesday or Thursday; moderate east winds.

DATE GOES TO KALAMAZOO. For the First Time the Grand Circuit Racing Season Will Not Open at Detroit.

Detroit, Jan. 11.—The Grand Circuit racing season will open at Kalamazoo July 25. It will be the first time since the organization of the circuit that the program has started outside of Detroit.

WILL TRY WELLMAN'S PLAN. German Party Proposes to Reach the Pole in a Dirigible Balloon.

Berlin, Jan. 11.—An expedition is fitting to go to Spitzbergen to arrange for a starting place for the German Arctic exploring party which will try to reach the North pole in a dirigible balloon.

DAY'S AVIATION HONORS GO TO GLEN CURTIS. With Thirty Thousand Persons Watching the Flights, the American Aeroplanist Sets Three New Records at Los Angeles.

Los Angeles, Jan. 11.—Glen Curtis, the American aviator, who was eclipsed by Paulhan's spectacular feats yesterday, defeated his French rival in the race for today's honors.

STOCK MARKET DROOPS. There Is Little Interest and Light Sales. Prices Down.

New York, Jan. 11.—The drooping tone of the stock market persisted today. Encouragement for taking the initiative in the buying seemed lacking.

AMERICAN PROTESTS AGAINST POTASH LAW. Berlin, Jan. 11.—The United States today informed the German foreign office that it would regard the adoption by the Reichstag of the proposed potash law as a discrimination against American interests.

STATUE OF GENERAL LEW WALLACE IS UNVEILED AT WASHINGTON.

DEFENDS SPEAKER CANNON. Former Comptroller Dawes Gives Hamilton Day Address at Chicago.

Chicago, Jan. 11.—Charles G. Dawes, former comptroller of the currency, in his Hamilton Day address here today, said: "Hamilton was a constructionist. Like everybody who is a deer, he had to bear the lash just as many people who are now doing things are hearing the lash of thoughtless tongues and uninformed people."

BOSTON CHOOSES ITS FORMER MAYOR

In First Partyless Contest Held Under the New City Charter, John F. Fitzgerald Is Elected Municipal Executive.

Basing His Campaign on a Plea for the Vindication of His Previous Term, He Polls 1,233 Plurality Over His Nearest Opponent, J. J. Storrow, a Banker, While the Man Who Defeated Him Two Years Ago Is Lost in the Shuffle.

Boston, Jan. 11.—Boston today, in the first partyless election held under the new charter, elected former Mayor John F. Fitzgerald for a four-year term, giving him a plurality of 1,233 over his nearest opponent, James J. Storrow, a banker, former president of the Chamber of Commerce and former chairman of the school board.

The remarkable feature was the small vote—1,783—given the present mayor, George A. Hibbard, who received 38,000 votes two years ago, being elected on a "reform" ticket over Fitzgerald.

GIVES WOMEN THE BALLOT. Bill Sponsored by Suffragettes Is Introduced at Springfield, Ills.

Chicago, Jan. 11.—Mrs. Catherine Waugh McCulloch, justice of the peace at Evanston and chairman of the legislative committee of the Illinois suffragettes, effected the introduction of a bill into the legislature at Springfield today, granting woman's right to vote at primary elections and at all elections held under the commission form of municipal government.

MANY ARRESTS AT LISBON. Portuguese Police Unearth a Widespread Revolutionary Conspiracy.

Lisbon, Jan. 11.—In connection with the firing by sentries upon a group which was prowling around Necessidades palace two nights ago, and the arrest of a number of republicans, the police announce they have discovered a widespread revolutionary conspiracy.

WISH LABORERS SUCCESS. Washington, Jan. 11.—A cablegram expressing a wish for the success of labor's parliamentary candidates was sent today to J. Keir Hardie, at London, by the executive committee of the American Federation of Labor.

OBITUARY MENTION. Traer, Ia., Jan. 11.—Mrs. John Wilson, aged ninety, stepmother of Secretary of Agriculture Wilson, is dead.

TURBULENCE IN PHILADELPHIA. Philadelphia, Jan. 11.—Increasing rioting and charges of police brutality made by striking shirtwaist makers and their suffragette allies marked the strike here today.

WISCONSIN AND MICHIGAN COMPANY GETS A FURTHER EXTENSION OF TIME. Chicago, Jan. 11.—The threatened sale by the state of Michigan of the Wisconsin & Michigan railroad, one of John R. Walsh's properties, has been postponed until Jan. 26.

PUTS MUCH BLAME ON THE "LABOR TRUST."

It Largely Responsible for the Higher Cost of Living, Asserts President Kirby of the Manufacturers' Association.

Springfield, Mass., Jan. 11.—Large responsibility for the higher cost of living was laid by President Kirby of the National Manufacturers' association, upon what he called the "labor trust" in an address today before the Employers' association of Springfield.

When the official organ of the Civic Federation presents a photographic picture of its members, only Comptroller and Mitchell, their antagonistic defiance of our courts still vibrating, occupying the central position, the former located "next door but one to Mr. Taft and the latter touching the hem of his garments" is not such a spectacle enough to make honest citizens sit up and think?

As the Cattlemen See It. Denver, Jan. 11.—President Jastro of the National Livestock association, and Mudge Mackenzie, vice president, declared in addresses before the association this afternoon that as long as \$200,000,000 worth of beef is exported from America yearly, there is no danger of a shortage.

UNION MEN ARRESTED. New York Electrical Workers Said to Have Labeled Their National President.

New York, Jan. 11.—Charged with having labeled the national president of their organization, Francis J. McNulty of Springfield, Ills., Charles Eshwei and Edward Kelly, president and secretary respectively, of the New York Electrical Workers' union, were arrested today.

FATHER FORGIVES HER. Chicago, Jan. 11.—Late tonight Roberta DeLanon, surrounded by other inmates of the Harrison street annex, read aloud the following telegram from her father, the first word from him since her disappearance.

DISASTROUS FLOODS FEARED. Pittsburg, Jan. 11.—Higher temperature has caused an alarming ice gorge in the Allegheny river at Freeport, backing up a great volume of water.

COOKE REFUSES TO TESTIFY. Cincinnati, Jan. 11.—Edgar S. Cooke, of Chicago, who is accused of receiving part of the money which Charles L. Warriner confessed to having stolen from the Big Four railroad, refused to testify before the grand jury today.

WALTHY CHICAGOANS WED. Jacksonville, Fla., Jan. 11.—Mrs. Jarvis Hunt and Horace E. Cole, wealthy Chicagoans, both divorced, were wedded here Jan. 7 in the county judge's office.

DIES IN BURNING JAIL. Pierre, S. D., Jan. 11.—William Whalon of Blunt, S. D., a prisoner in jail here, perished last night in a fire which partially destroyed the building.

PEOPLE WHO THINK TWICE BEFORE THEY SPEAK SELDOM ACQUIRE REPUTATIONS AS LOYAL ORATORS.

MOB IS DEPRIVED OF INTENDED PREY

Quick Work by the Authorities Frustrates a Threatened Lynching of Three Colored Men at Vienna, Illinois.

Sheriff Wires the Governor When He Learns the Alleged Murderers of a Rural Mail Carrier Are in Danger, and When Troops Are Called Out and the Railroad Is Forbidden to Transport the Rioters the Lives of the Negroes Are Saved.

Cairo, Ills., Jan. 11.—Rioting is reported from Vienna, thirty-five miles north of this city. The Cairo militia company has been ordered to proceed there on a special train at once and will leave in an hour.

TROOPS ORDERED TO THE SCENE. Springfield, Ills., Jan. 11.—When Governor Deneen received a call tonight for assistance from Sheriff Mathis, of Johnson county, who said that a riot threatened at Vienna, the governor immediately ordered Captains Satterfield of Mount Vernon, Greney of Cairo, Cody of Paris and Swain of Danville, to go to Vienna on a freight train.

TO FURTHER FORESTALL THE REPORTED MOB THE GOVERNOR TELEGRAPHED SUPERINTENDENT MALONEY OF THE CAIRO VIENNA RAILROAD TO STOP TRAINS FROM ENTERING VIENNA.

MOBS ARE FRUSTRATED. Vienna, Ills., Jan. 11.—The mobs that formed at Eldorado and Harrisburg tonight to lynch three negroes here, charged with murdering Allen Clark, a rural carrier, were frustrated when they could not get a train to bring them here.

HIS MOTIVE A MYSTERY. Iowa Man Kills Son, Wounds Wife and Commits Suicide.

Baxter, Ia., Jan. 11.—Returning from town today, James Lynder seized a gun, killed his son, aged fourteen, wounded his wife, and then committed suicide. No cause is assigned. The wife reached a telephone and notified neighbors, who arrived only in time to see Lynder shoot himself.

CONDEMNED BLACKS REPRIEVED. Alexandria, Va., Jan. 11.—As the result of a confession by Henry Smith, a negro, the nature of which the authorities have not made known, Governor Swanson tonight decided to grant a respite of sixty days to the three negroes condemned with Smith to death for the killing of Waler F. Schultz, a Chicago artist.

MINE EXPLOSION KILLS FIVE. Wilkesbarre, Pa., Jan. 11.—Five men and one boy were killed and six other men were badly burned by an explosion of gas in the new shaft at the Nottingham colliery at Plymouth tonight.

DIES IN BURNING JAIL. Pierre, S. D., Jan. 11.—William Whalon of Blunt, S. D., a prisoner in jail here, perished last night in a fire which partially destroyed the building.

PEOPLE WHO THINK TWICE BEFORE THEY SPEAK SELDOM ACQUIRE REPUTATIONS AS LOYAL ORATORS.

DAILY MINING JOURNAL

Published daily except on Sundays. Contains the Morning Paper published by the Mining Journal Co. (Limited).

Subscription rates: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

Well, it's high time the bears had their inning in cotton. The bulls can't expect to have the game all their own way.

The expressions of appreciation of the service President Saladin had given the Commercial club were well earned. He was an indefatigable worker in its interests, and no criticism because of things not accomplished can properly be laid at his door.

Representative Townsend this week introduced the bill embodying the recommendations, outlined in the special message of President Taft, for amendments to the interstate commerce law.

The insurgents, it would appear, would like to remain in good standing in the G. O. P. if their standpat neighbors will only give them an opportunity to do so. It may be remarked that if the swallowing of Speaker Cannon and all that he stands for is the ultimate test of Republicanism, the party will be shown to have undergone a tremendous shrinkage since it triumphantly elected President Taft in the fall of 1908.

The railroad men have been at the White House again. This time, too, we have no doubt, they found President Taft with a well-defined understanding of the matters under discussion, and a disinclination to recede from any position he had taken unless a good argument could be brought to bear to show that his position was a wrong one.

John L. Sullivan is now telling the story of his life. His first battle, he relates, was fought to prevent a big boy from swindling a smaller one out of a lot of marbles, and, as a duly accredited hero of an autobiography, might be expected to do, he whipped his opponent. And he whipped his opponents ever after for a long series of years.

Monday evening, when it adopted an ordinance prohibiting the cutting of ice within the limits of the lower harbor, the council took an action it should have taken years ago. It has been the practice of the fishermen to cut their supplies of ice there, and other dealers have also, from time to time, cut ice for refrigerating purposes at the same place.

Whether Mr. Pinchot is in or out of office now settles the broader question of whether Mr. Ballinger should remain as secretary of the interior, says the New York Globe. "It throws no new light on whether or not the president was misled and wrongly informed as to the facts, as Mr. Pinchot alleges, when he removed Glavis. The action of the congressional investigating committee must be awaited. It may be assumed that if any charge seriously reflecting on Mr. Ballinger is brought out no pride of previous opinion will prevent the president seeking a new secretary. There is no more reason to doubt the sincerity of the president's support of the conservation policy than there is to doubt Mr. Pinchot's sincerity.

insurgents had unwittingly done him a favor." For some reason not explicitly set forth, the resolution passed by the senate for the investigation of the Ballinger-Pinchot controversy did not pave the way for a resubmission to the house of the question whether Speaker Cannon should name the house members of the joint committee. Instead, it accepted the will of the house as manifested last week, and provided that the house members shall be elected. There was definite talk that Speaker Cannon and his friends were to be given an opportunity to put one over the insurgents by reversing the verdict of last week.

The house insurgents have issued a manifesto telling where they stand with relation to the administration policies. They make little of the attempt to represent them as opposed to these policies and to President Taft. Without exception, they say, they are firm supporters of his measures and of his administration. Their fight is on "the system of automatic control which has reached its climax under the present speaker."

The house insurgents have issued a manifesto telling where they stand with relation to the administration policies. They make little of the attempt to represent them as opposed to these policies and to President Taft. Without exception, they say, they are firm supporters of his measures and of his administration.

There will be a disinclination on the part of people familiar with the relations existing between the Oliver Iron company and its employees to believe that other Steel corporation subsidiaries are as unmindful of the welfare of their men as the labor leaders represent them to be. It is to be expected that these men will draw a strong picture of the alleged wrong conditions. They have an uphill fight to carry on, in their attempt to secure the unionization of the Steel corporation's employes.

When Senator Hanna was walking through his factory in Cleveland some years ago, on the lookout for new ideas or anything which would aid the progress of business, he overheard a little red-headed lad remark: "Wish I had old Hanna's money and he was in the poorhouse."

When Senator Hanna was walking through his factory in Cleveland some years ago, on the lookout for new ideas or anything which would aid the progress of business, he overheard a little red-headed lad remark: "Wish I had old Hanna's money and he was in the poorhouse."

The labor leaders who have undertaken warfare against the United States Steel corporation, and who have already carried their appeal to President Taft, in their memorial to that official picture a distressing state of affairs in the corporation's industries. They allege that American born workers are being discriminated against in favor of foreigners, that excessive hours of work are required and that the general policy of the corporation is to debase labor and rob it of its legitimate share of the fruits of its toil.

The United States Steel corporation operates its industries through subsidiary companies, and if the conditions that obtain in the Lake Superior region, where the Oliver Iron company operates the corporation's mines, are a fair sample of those obtaining under the other subsidiaries, the representations of the labor leaders are largely false. None of the things they complain of are true of the Oliver Iron company. The conditions of employment in the mines of this company are identical with those in the mines of the other companies operating in this region, barring the few properties that are worked by eight hour shifts. The standard ten hour day is in vogue, and there is a standard wage scale that is in force at practically all the mines. For

WHEN DINNER IS OVER... LA VERDAD... Cigars compose the smoker's next course. They are a fitting climax to an elaborate banquet or a simple home meal.

M. C. SCULLY, Agent, Marquette, Mich.

man was looking for Ben to "pay him a visit" since he had formerly lived in Atchison, but moved away two weeks ago to Kansas City. Ben hasn't moved, but we resolved to be kind during 1910, and no one wants a man with a wife and five children to visit him.

No Use for It. Collector Loeb, at a dinner in New York, said of a customs criminal: "He was taken back when we produced our proof as much taken back as the Washington father."

LOWER STATE NOTES.

MT. CLEMENS.—A. T. Fisher and wife, owners of the Fisher farm on the edge of this city, have disposed of their property to C. W. Lukoff, of Detroit, for approximately \$100,000. The claim is made that the property is to be used for the erection of a \$1,000,000 hotel which has long been promised to Mt. Clemens.

WILL STAGE "BILLY TAYLOR."—Plans are progressing for the presentation in the Soo at an early date of the tuncful comic opera, "Billy Taylor," under the management of Messrs. Fleming and Muehling. It will be given under the auspices and for the benefit of the Y. M. C. A.

ANN ARBOR.—Robert McCormick and Charles Harrington, the two young men held for the murder of Baggageman Henry C. Miner in the shooting at the Michigan Central station in Ypsilanti early Saturday morning, will be arraigned in the circuit court here this week, probably Wednesday. As both have confessed to the shooting as well as several burglaries offenses. Prosecuting Attorney Storans is of the opinion that they will enter pleas of guilty to the murder charge. In case of a plea of guilty, it will probably be continued over the term.

OLIVET.—Beginning with the opening of the second semester in February Olivet will offer work in a new department which is to be in charge of Professor Edward M. Arnos of the department of applied economics. This department is at present offering courses in the various branches of business theory and practice, such as public finance, money and banking, insurance, commercial economics, theory and statistical laboratory which is being equipped with typewriters, an adding machine, sliding rules and the various instruments for work in statistics.

THE VILLAGE.—The village of Lakewood, five miles north of Pellston, which has been the center of extensive lumbering operations for several years, will soon be a thing of the past. The timber tributary to the mill has all been cut and the mill sold to E. C. Sisson, who will dismantle and remove it to Alabama. The Bogardus company, which succeeded the Lakewood Lumber company, has not yet decided what will be done with the general store, but several of the houses will be loaded on sleds and moved to the company's other mill, which is operating a mile east of Pellston and has many years' run in sight.

RAY CITY.—Helpless from an accident, Mrs. Mary McLaughlin was found in her home on the west side in a half-starved condition while there was plenty of food in the house. She was also suffering from cold, and had crept to the side of the bed, stove when a neighbor, who had heard her sobbing, came in. Mrs. McLaughlin, who is seventy-seven years old, fell and strained the muscles of her back and limbs. Mrs. McLaughlin went about thirty-six hours without food or assistance of any kind. Physicians were called by the neighbors who found her. She is seriously ill from exposure.

SAGINAW.—This week the unique spectacle of a traction line one hundred miles long between Saginaw and Detroit, filled from one end to the other with special cars running fifteen minutes apart, will be presented, when 600 Gleasons Journey from this city to Detroit to inspect the new road, which is the order of the board from the D. U. R. ten special cars, which will be brought here Wednesday for the event. The scheme calls for transferring the state Gleasons' convention body to Detroit and when the first interurban light of the delegates is within sight of Detroit, the last one will be leaving Saginaw.

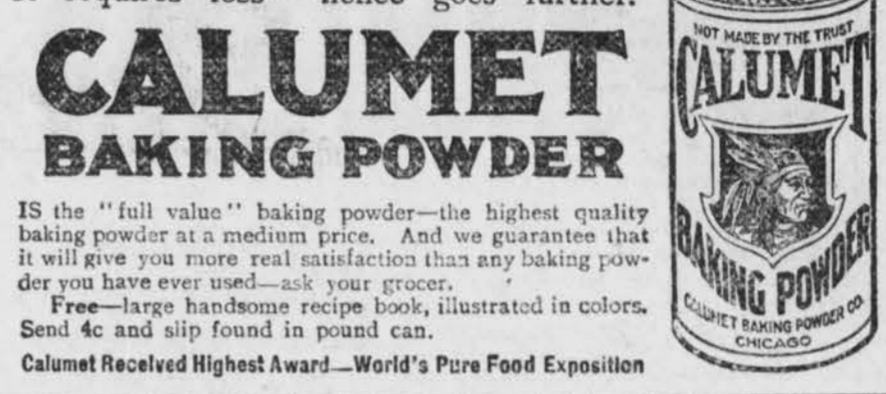

DETROIT.—President Fred Postal has submitted a bill to the board for the payment of the state fair. By increasing the indebtedness \$100,000 it will be possible, he believes, to build a suitable place for motor and horse drawn vehicles, a manufacturers' building and an administration building as well as a tunnel under the race track, which will allow the infield to be put to some use. These matters will come up at the annual winter meeting of the Michigan Agricultural society in this city. Members of the board view it with favor. At the same meeting the reports will show that the profits were a little over \$20,000, exclusive of the \$10,000 in permanent improvements.

LANSING.—The annual report by G. R. Munshaw, supervisor of trespass agents of the public domain commission, has just been made public. During the year he commenced 171 actions against persons for trespassing on state lands. Fourteen trespassers were convicted and he received \$3,385.54 from the sale of timber seized.

BATTLE CREEK.—When Johnny Bailey's two-year-old heifer was a calf it had the playful habit of following its young master up and downstairs in the farm barn between China and Battle Creek. But as he grew older and heavier she developed the trick. The other day Johnny, walking upstairs, heard sounds behind him, and found that the heifer had followed him as of yore, up fifteen steps. As hoary now weighs half a ton, she could not return, and it took six men to get her downstairs again.

More Economical than the Cheap and Big Can Kind — and MUCH BETTER

WHY? Because Calumet Baking Powder is more certain in its results—the baking is always lighter, more delicious and more evenly raised. You never have a spoiled batch of baking by its use. It requires less—hence goes further.

IS the "full value" baking powder—the highest quality baking powder at a medium price. And we guarantee that it will give you more real satisfaction than any baking powder you have ever used—ask your grocer.

Upper Peninsula

Hens Make a Record.—Dave Thomas of Sault Ste. Marie has twenty-three white Plymouth Rock hens which in twenty-one days of December laid three hundred and fifty-two eggs. That's a pretty good record for winter laying.

Blackboards Charged With Electricity.—Defective wiring has brought about a strange condition of affairs in the Liberty street school in Menominee and one which is being investigated by the authorities. For some time, the students and teachers in a number of the rooms have noticed that every time certain portions of the blackboards are encountered, the party touching the substance suffers a slight shock. The students first noticed this condition. The Liberty building was erected in 1881 and was first used as a high school. It was wired for electric lights six years ago.

Delta County Divorces.—During the year 1909 thirty-four actions for divorce were instituted in Delta county, according to the records in the office of the clerk of the court. Of this number, twelve resulted in decrees being granted and the remaining twenty-two cases are still pending of have otherwise been disposed of. During the year one divorce was refused, one action was withdrawn and one was appealed to the supreme court. None of these three cases, however, was begun in 1909. Desertion, non-support, drunkenness and extreme cruelty were the most common causes of domestic infelicity leading to actions brought for marital separation.

Mill is Closed at Present.—D. N. McLeod's sawmill at Rexton, Mackinac county, is not in operation at present, being shut down for some necessary repairs. Mr. McLeod is carrying on extensive operations in the woods men in getting out logs and cedar, and has already a large quantity of timber on the skidways. A logging railway conveys the timber from the woods to the mill. Mr. McLeod also conducts a general store at Rexton, which is in charge of J. W. Gilligan. Anyone who knows "Dan" knows that he is very much alive and that he thoroughly enjoys living. Although located in a little lumbering town the visitor to his home is pleasantly surprised to find a handsome and commodious dwelling nestling there in the woods, equipped with all the modern conveniences of city home. Here Mr. and Mrs. McLeod hold open house the year round.

Wedding Surprises Friends.—Taking all his friends by surprise, Dr. Frank T. Long, dentist, of Escanaba, was married to Miss Ethel Elizabeth Gordon at the home of the bride at Vancouver, B. C. Not a hint of his matrimonial plans was given to even his closest friends until after the ceremony had been performed and the formal announcement came. Dr. Long met his bride while on a visit in the West last summer and the acquaintance begun at the time developed into a friendship which has now culminated in marriage. Dr. and Mrs. Long are visiting with relatives of the bride in the West and will return to Escanaba about Jan. 20.

Will Dredge for Platinum.—The Gold-Platinum Dredge company has been organized at the Soo and has taken over the McKeone patents and all other interests of the Soo Some Mining company, which it succeeds. A representative number of the stockholders of the old SooSome company held a meeting in the office of the secretary and organized the new corporation. Those present were enthusiastic over the possibilities of the McKeone dredge, and it is hoped that it will soon be in operation at Cape Nome. Bishop P. T. Rowe while on his recent visit to the Soo stated that he visited the beach twice during the past summer and that he believed that there were many millions of dollars' worth of the metal in the shoal waters, only waiting for some one to take it out. Platinum, which is much more valuable than gold, has also been found in the beach sands of California, Oregon and Washington, and as yet no other method has been discovered to work the sand and extract the valuable deposits than dredges of the McKeone construction. It is the intention of the new company to build dredges for work wherever these deposits are located. The officers are: Chas. H. Chapman, president; Richard J. McKeone, general manager, and James R. Ryan, secretary and treasurer.

"Better Than Any Medicine" Gripe Cured and Her Health Restored. Thus wrote Mrs. Gibson of Harrells, Ala., who now enjoys good health after she had been a constant sufferer from gripe for years.

Duffy's Pure Malt Whiskey. If you wish to keep young, strong and vigorous and have on your cheeks the glow of perfect health take Duffy's Pure Malt Whiskey regularly, according to directions.

Send no money, but order the book sent you, all carriage charges prepaid on one week's approval, to be returned if unsatisfactory, or paid if it suits. Can you afford not to see the book and judge for yourself its value to you?

Copper Country

HANCOCK DEFEATS LAURIUM.

Hockey Game at the Amphidrome Monday Night Was a Tough One.

The Hancock hockey team defeated Laurium at the Amphidrome Monday night in the roughest game of the season. The victory was an easy one. The score was 12 to 5. The Hancock men played all round the visitors. The Calumet forward line was none too strong. Roberts, an Atlantic City player, played cover point for Calumet and showed up poorly. Linder was the bright star for the visitors. Time and again he rushed down the ice with the puck without assistance. At times he made passes, but his team mates were not on hand. He took the little goal tender for Calumet, stopped a terrific rain of shots, but did not show up in the form of previous games. He was caught several times on rebounds. The ice was in good condition and fast hockey was played. The teams lined up as follows:

Hancock—Monette, goal; Carrigan, point; Romp, cover point; Stroud, center; Bogart, rover; Waara, left wing; Exley, right wing. Calumet—Belek, goal; Linder, point; Roberts, cover point; Bateman, center; Reynolds, rover; Peters, left wing; Kallor and Osborne, right wing. The playing abilities of the Houghton High school team will be put to a test when the seven meets the puck-chasers of the Michigan College of Mines at the Amphidrome this evening. Owing to the fact that the Houghton Amateurs play at Mohawk tonight neither Haas or McCurdy will appear in the high school lineup. The line-up will be about as follows: Goal, Theriault; point, Chynoweth; cover point, Slusser or Alt; center, Bassett; rover, Croze; right wing, Wimmer or Slusser; left wing, Pryor; spare, Nickerson. The college team is certain to show up strong, as it has worthy of last year's Houghton Amateurs. Exley, Wimmer, and Slusser of this year's Hancock team, Wahl, a former Hancock High school player, and a number of other men who have played the game in Canada and at the Soo.

MINERAL RANGE R. R. TRAFFIC.

Copper Country Railroad Opens Up a Record Breaking Year.

Superintendent T. W. Smith of the Mineral Range railroad believes that this year his road will break all records of hauls of rock from mines to mills. He believes the rate of haulage will be half a million tons per month.

Around 450,000 tons of rock are being handled per month at the present time, notwithstanding the blizzards and immense quantities of snow to be contended with. Getting the train through the labyrinth of switches and tracks in the mine yards and at the rockhouses. More than 100 cars of rock per day are pulled up the big grade near Almuek by the road's immense "hogs," the largest type of freight engines used anywhere in this part of the country. The "hogs" carry weights 110 tons. One of these heavy engines, too, cannot pull more than six forty-ton rock cars at a time up this hill. The locomotives cannot be used on all the lines of the road because they are too heavy for the wooden bridges and trestles.

In the big blizzard of early last week, the worst of the season, and while many freight lines of the country were tied up or experienced severe delays in operating, the Mineral Range railroad handled 482 cars, close to 400 of which carried forty tons or better each, the remainder being thirty-ton cars. About 100 thirty-ton cars are used to haul the Mohawk and Wolverine rock to the Gay mills. On Thursday last, when another big blizzard was raging, 494 cars were handled and 400 of which carried more than 500,000 tons of rock to the mills. Everything worked as smooth as clock-work, despite the storm. That day cars were handled from the several mines as follows: Tamarack, seventy; Osceola, thirty-six; Kearsarge, eighty-three; Almuek, forty-one; Wolverine, forty-eight; Mohawk, ninety-seven; Isle Royale, seven; Centennial, fourteen; Alouette, 16; Mass, 11; Calumet & Hecla, seventy-one.

WILL HAVE "MUSIC" SESSION.

The Calumet Woman's club will devote Friday afternoon, its regular meeting day, to music, and an excellent program is being arranged under the direction of Miss Bertha Anderson. The quotation for the day is from Browning, and follows: "God has a few of us to whom he whispers in the ear; the rest may reason and welcome; 'tis we musicians know." The club will take up civic improvement work today, although just what lines the ladies will work this year has not been announced. Certain members of the club who have been identified with the park movement will continue their work, but this movement does not come in any way under the club's direction. Friday of next week the club will again take up the study of history and art.

DON'T FOOL WITH THE GRIP.

The after results of the grip are apt to be exceedingly serious. It leaves in its wake weakness and a run-down condition in general. Prof. R. E. R. Hicks of Maplewood, Ala., says that after grip, Vinol restored his strength and cured his cough after different physicians and cough syrups had failed and he considered Vinol one of the greatest blessings ever offered to the public. SUBMITS QUESTION TO VOTE.

Houghton County Board Favors County Road System Election.

The county road system question will be submitted to the vote of the people. The county building committee will investigate the necessity of a new jail. The superintendents of the poor will pass on the qualifications of applicants for admission to the county sanitarium. These three topics were the principal things touched upon by the Houghton county board of supervisors in January session yesterday morning, though a number of other matters were disposed of.

The county road system has been before the board for a year or more, and in accordance with the custom of the supervisors to iron the matter out before taking action leading to a vote the matter was held up until a decision was arrived at, so that the action yesterday was a brief and formal matter. Supervisor Hamar submitted resolution to place the question on the ballot at the April election, and it passed unanimously.

Jail and Sanitarium Matters. Sheriff Byers was on hand early yesterday to boost for a new jail. He saw many of the supervisors and sounded them on the question, evidently with good effect. Chairman Edwards brought up the question and it used up little time. Supervisor MacNaughton offered a resolution instructing the building committee to look into the matter, whether to build a new jail or enlarge the present one, and with instructions to report findings and recommendations at the next meeting.

Chairman Edwards opened the discussion on the county tuberculosis sanitarium after a communication from Dr. L. Hubbard, president of the Houghton County Anti-Tuberculosis society, had been read. Dr. Hubbard sought admission to the sanitarium for a young woman at Painesdale who is seriously ill with the disease and is a menace to the people with whom she is boarding. At the inception of the matter she could not have been called indigent, but now her husband cannot work as he must be with her constantly, it being found impossible to secure anyone to nurse her. The people with whom they board were removed, and she cannot go to a public hospital because of her malady. Dr. Hubbard would personally guarantee any expense which she might incur at the sanitarium.

Chairman Edwards said that he and County Physician Jackson were constantly approached by people desiring of taking patients to the sanitarium as paid patients, and he and the physician wanted exact instructions from the board. They knew that the building is a part of the county infirmary and as such open only to indigent patients, but he wanted an expression from the board. A resolution passed, declaring that only indigent patients may be admitted and that the superintendents of the poor shall be the judges of their indigency.

Miscellaneous Business.

A communication from the State Association of Supervisors, asking the board to send delegates to the annual meeting at Lansing Feb. 1, was placed on file.

The soldiers' relief commission—Charles Smith, W. A. Childs and A. J. Scott—reported that in 1909 they had expended \$2,471.30 for the relief of old soldiers and their families. At the request of Supervisor Smith it was decided to pay the secretary of the commission \$50 per year and the members, who are not supervisors, \$25 a year.

The contract with the city of Detroit for the care of Houghton county prisoners at the Detroit house of correction was renewed.

A letter was received from Chase S. Osborn of Sault Ste. Marie, thanking the board for the expression of good will and confidence embodied in the resolution of the previous meeting, referring to Mr. Osborn's candidacy for the governorship.

The county lands committee reported that the amendment asked by Joseph Croze to an option on certain Houghton county lands in the iron country, which Mr. Croze is developing, had not been approved, excepting that Mr. Croze was permitted to hoist ore from this land through a shaft sunk in adjoining property. Mr. Croze was willing to take a lease to the optioned property and the committee was authorized to execute the lease and to secure legal advice in so doing if necessary.

Treasurer's Quarterly Report.

Table with columns for Receipts and Disbursements, listing various taxes, fines, and payments.

CONFERS WITH C. S. OSBORN.

Attorney William R. Oates, state representative of the Calumet district, recently elected president of the Chase S. Osborn club of northern Michigan, was in Sault Ste. Marie yesterday to confer with Mr. Osborn and a number of the local city man's strongest supporters in his race for the gubernatorial nomination. It is believed that the preliminary plans for one of the strongest political campaigns ever waged in northern Michi-

Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Fitchville, Ohio.—"My daughter was all run down, suffered from pains in her side, head and limbs, and could walk but a short distance at a time. She came very near having nervous prostration, had begun to cough a good deal, and seemed melancholy by spells. She tried two doctors but got little help. Since taking Lydia E. Pinkham's Vegetable Compound, Blood Purifier and Liver Pills she has improved so much that she feels and looks like another girl."—Mrs. C. Cole, Fitchville, Ohio.

Iraburg, Vermont.—"I feel it my duty to say a few words in praise of your medicine. When I began taking it I had been very sick with kidney and bladder troubles and nervous prostration. I am now taking the sixth bottle of Lydia E. Pinkham's Vegetable Compound and find myself greatly improved. My friends who call to see me have noticed a great change."—Mrs. A. H. Sanborn, Iraburg, Vermont.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask? For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

On Mr. Oates' return to Calumet it is expected that the Republican ticket will be called together, and that the Calumet-Laurium Osborn club will be launched and will at once begin its work.

OSCEOLA'S CLEAN RECORD.

Believed the Township Will Again Have No Delinquent Taxes.

According to John C. Schulte of Dollar Bay, the treasurer of the district, Osceola township promises for the third year to collect every cent of taxes on time and to have no delinquents to run over to the county treasurer. The total roll this year is \$116,340.16, and of this all but \$1,000 has been collected. In this township the mining companies pay about half the taxes. The Osceola pays \$23,500 this year, the Quincy \$6,000, and on the LaSalle and Tecumseh the district of Houghton pays \$27,000. This is a total of \$56,500 in mine taxes.

ANNUAL REVIEW OF WEATHER.

Observer Wiesner Furnishes Meteorological Data for 1909.

A. E. Wiesner, observer at the Houghton station of the United States weather bureau, gives out for publication a compilation of the weather statistics for the year 1909. The mean temperature was 40.8, as compared with the normal mean of 40.2. The highest temperature was 93, that of June 21, and the lowest was seventeen below, that of Jan. 7. The temperature reached above 90 on only one day. There were 171 days on which the temperature was below the freezing point and sixteen on which it was below zero.

The average humidity at 7 a. m. was 82 per cent. The total rainfall was 31.40 inches, as compared with the average of 32.62. The greatest rainfall in any twenty-four hours was 1.57 inches, July 11 and 12. The total snowfall was 131.4 inches.

The total wind movement was 61,144 miles, prevailing from the northwest and the average was seven miles an hour. The highest wind was thirty-eight miles from the north on Jan. 29. There were eighty-seven clear days, 113 partly cloudy and 165 cloudy. On 161 days more than .01 inch of rain fell, and on ninety-eight days more than one-tenth of an inch of snow fell. There were six days of dense fog and fourteen days on which thunderstorms were observed.

S.S.S. NATURE'S CURE FOR BLOOD POISON

Not only its proven ability to cure, but its absolute safety as a remedy has made S.S.S. the most desirable of all medicines for the treatment of Contagious Blood Poison. S.S.S. is made entirely of roots, herbs and barks of the forests and fields. It does not contain a particle of mercury, potash or any other harmful mineral to injure the delicate parts of the system, impair the digestion, corrode and irritate the lining of the stomach, or in any other way injure the health. It is Nature's blood purifier, harmless in its action and certain in its good results. S.S.S. removes the poison from the circulation, enriches the blood, and safely and surely cures Contagious Blood Poison. It builds up and strengthens the system by its fine tonic effects and leaves the patient not only cured of the disease, but stronger and in better health in every way. If you are suffering with Contagious Blood Poison S.S.S. is your most certain reliance; an honest medicine, and because of its vegetable purity, a safe treatment for any one. We have a special book on home treatment which explains fully the different stages of the disease, also suggestions that will be helpful to you in the treatment of your case. We will be glad to send this book together with any medical advice desired, free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

cases of insanity examined in the court and committed to asylums. There were forty feeble-minded persons taken care of by the court. In the matter of inheritance tax collected Houghton county is second in the state and this business passes through the probate office. The probate court business has been added to the labors of the probate judge since last September. It may be seen that the probate court is a busy place. All of the business of the court is cared for by Judge Bentley and Register Freeman, who compose the entire personnel and machinery of the court.

The importance of the probate court may be the better understood by the general public when it is known that it is estimated by statisticians that the wealth of a county passes through its probate courts once every seven years and that the entire value of the county passes through once in seventeen years. This means of course that the changes brought by death make a complete revolution in the ownership of the wealth of the county once in seven years and seventeen years in the latter case.

The establishment of the juvenile court has somewhat relieved a congestion in the probate court. Heretofore that court room, which is one room only, has been too small for the hearing of cases involving the presence of any considerable number of people. The court can be taken to the juvenile court for convenience, if necessary.

Mining News

CORTEZ ASSOCIATED MINES.

Newly Organized Corporation Will Operate Properties in Mexico.

The Cortez Associated Mines has been organized under the laws of West Virginia, with a capitalization of \$1,500,000, divided into 500,000 shares of \$3 par. The officers are: Wm. G. Rice, president; Joseph Story Fay, third vice president; Philip W. Wrenn, secretary and treasurer; Olof Weststrom, consulting engineer. The Cortez Associated Mines, Inc., was organized by Wm. G. Rice, president; Joseph Story Fay, third vice president; Philip W. Wrenn, secretary and treasurer; Olof Weststrom, consulting engineer. The Cortez Associated Mines, Inc., was organized by Wm. G. Rice, president; Joseph Story Fay, third vice president; Philip W. Wrenn, secretary and treasurer; Olof Weststrom, consulting engineer.

The Cortez Associated Mines is primarily a development syndicate, but it is intended to set off lands and organize mining companies thereon, as soon as each group of mines shall have been developed adequately, control being retained by the parent company. The policy of the company will be to concentrate development work mainly on the more promising groups, the parent company continuing mining and reduction work on a larger scale upon the properties retained, after the setting off of subsidiary corporations. The management plans on cleaning out the old mines for preliminary sampling and at the same time starting on a comprehensive plan of development of the property by tunnels

It is believed that the amount of capital now being raised by the Cortez Associated Mines will be sufficient to carry development work to the point where the existence of large and profitable ore bodies will be fully demonstrated, after which the property will be sold off as a separate mining company, the parent company retaining share control.

The work of acquiring the various properties now held, including the entire camp of Jacla, and the extensive work of surveying, mapping, etc., has required upwards of four weeks, during which time the owners have made extensive outlays for lands, expert services and labor. The lands are in two groups, lying four and a half miles apart, near the town of Jacla, in the state of Hidalgo, Mex. Jacla lies north of the famous mining camp of Pachuca, where is located, among other mines, the Real Delmonte properties of the United States Smelting, Refining & Mining Company. The lands also are not far distant from the other well-known camp of Zimapan, while at Pilonates, fifteen miles distant, the Cortez Associated Mines has a large tract of land under development by the Robert S. Towne interests of New York.

Jacla lies about midway between the City of Mexico, and the important gulf port of Tampico, and is on the line of a railway survey, commenced and now under actual construction. The lands in the vicinity are well wooded, allowing abundant timber for mine use, and with the completion of the railway, cheap oil from the petroleum fields of Tampico will be available for future reduction works. The company's holdings, which have been selected personally, after thorough investigation, by Olof Weststrom, a mining engineer of wide experience, aggregate 2,307 acres, all patented, with direct title held from the Mexican government and the title passed upon as perfect by leading attorneys of the City of Mexico.

The property includes many old Spanish-Mexican mines, there being several hundred old mines, pits and tunnels remaining from early operations, and some of the more extensive of these have reached a depth exceeding 900 feet. The mines were worked mainly when Mexico was under Spanish dominion, producing considerable amounts of gold, silver, lead and copper, but operations were interrupted, first by the Mexican revolutionary wars and later by other disturbances that have since subsided. Some of the mines were worked as recently as 1898, in a small way, by a local company, and valuable records have been secured from these operations as to the production and grade of ore and output of bullion, with underground maps of some of the mines, now mainly caved and inaccessible for regular sampling. There are a half dozen ruined smelters on the property evidencing former activity.

The property of the Cortez Associated Mines shows a limestone porphyry formation similar to those at El Bingham, Bisbee and many of the principal mining camps of Mexico. The property shows many outcrops, with decidedly favorable indications of the presence of the available workings in the oxidized zone, in connection with actual records of past production, has given satisfactory results, showing ores carrying commercial values in gold, silver, copper and lead, and although the mines have been worked in the past mainly for silver, lead and gold, the indications are excellent for valuable deposits of copper ore at depth at a number of points. At Mapiqui, an old Spanish mining camp in a similar geological formation, conditions in 1892 were practically the same as at Jacla today. The Peñoles company was organized by German capital, and fifteen years later, or to the end of 1907, it had disbursed dividends of \$4,415,000, entirely from the operations at Mapiqui. Much work has been done on an available water power near Jacla, including thorough preliminary surveys, on which two engineers have been employed for an extensive period.

The Cortez Associated Mines is primarily a development syndicate, but it is intended to set off lands and organize mining companies thereon, as soon as each group of mines shall have been developed adequately, control being retained by the parent company. The policy of the company will be to concentrate development work mainly on the more promising groups, the parent company continuing mining and reduction work on a larger scale upon the properties retained, after the setting off of subsidiary corporations. The management plans on cleaning out the old mines for preliminary sampling and at the same time starting on a comprehensive plan of development of the property by tunnels

THE CITIZENS NATIONAL BANK Houghton Michigan. For New Year's there's no better present you can give your children than a bank account with the Citizens National Bank. It will encourage thrift and saving. Three per cent interest paid on savings accounts. Accounts of \$1.00 and up accepted.

PRYOR & SMITH BROKERS 37 Isle Royale St. HOUGHTON, MICH. Direct Private Wires to Boston and New York Stock Exchanges. Curb Mining Issues a Specialty. WILLIAM DUFFNEY, Manager.

NOTES OF COPPER NEWS. The piercing of the copper vein on the sixth level of the Lake property by diamond drill has again made the stock the feature of the Boston market. Assuming that the lode has the same width as above and that the ore chert on this level is as extensive north and south as is proved on the higher levels, the intrinsic value of the property has been greatly enhanced. It is stated that the new mill being erected jointly by Winona and King Philip will be ready to receive rock by the middle of next August. The Winona expects to start on shipping 600 tons a week, and the King Philip to start on shipping 1,000 tons before the close of the year. The company has extensive reserves, sufficient to maintain the high figure above for several years. As the cost of opening this ground has already been paid, Winona should be able to show substantial profit from the time that it produces its first pound of copper. The Isle Royale company has gradually increased operations on the old Isle Royale lode and is again sending diamond round tonnage to the stamp mill. The rock, however, is rather low grade. Operations on this bed are centered largely in the extraction of commercial grade, and only a minimum of development work is being done. Considerable work is being done on the Baltic lode, the single shaft opened on this bed has attained a depth of about 800 feet. Lateral openings at the third level disclose a rather keen looking rock, but this far without the mineral in commercial quantity. There have been no new developments recently at the Osceola where diamond drilling is in progress. Four drill holes have been put down on the property and have resulted in the disclosure of copper ground in the so-called Osceola lode. The fifth hole is now sinking. The hole is expected to tap the famous Tomahawk lode at a depth of about 500 feet and to cut the Osceola lode at a depth of 1,000 feet. The Osceola lode so far as can be judged from drill borings is not particularly rich but is sufficiently so as to make operations thereon profitable. The Tomahawk lode is somewhat of a mystery and there are those who expect it to be the equal of the Calumet conglomerata in riches. For that reason developments are being watched with considerable interest by the local mining men. Grievances voted are half cured. BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY. As mercury will surely destroy the internal and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the harm you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by druggists. Price, 15c. per bottle. Take Hall's Family Pills for constipation.

SOFT WHITE HANDS CUTICURA Soap and Ointment. Assured by the Use of CUTICURA Soap and Ointment. City Brevities

Today's weather: Partly cloudy, with snow flurries; stationary temperature. Yesterday's temperatures: Seven a. m., 23 degrees; noon, 23; 7 p. m., 22. Maximum, 23 degrees; minimum, 22.

John Keyes of Hancock spent yesterday in the city.

W. G. Winchester of Ironwood is a business visitor in the city.

The Guild Hall basketball team will practice at 8 o'clock this evening.

The Modern Brotherhood of America will give a dance at Legion Hall this evening.

Mrs. John Campbell of Florence, Wis., is visiting her sister, Mrs. T. P. Jarvis, 324 Waldo street.

The W. C. T. U. will meet with Mrs. H. B. Hatch, 1314 North Third street, at 3 o'clock this afternoon.

Rev. B. G. Burt and Director Houghens of the Guild Hall association will go to Ishpeming this morning on business.

The grocers and butchers will meet the rivals in a game of indoor baseball to be played at the Armory hall tomorrow evening. The admission will be twenty-five cents.

The Brotherhood of American Yeomen will meet at Siegel's Hall tonight to install officers. After the installation, there will be refreshments and a social good time.

The annual meeting of the members of the Marquette club will be held at the club house Tuesday evening, Jan. 25, at 8 o'clock, for the election of directors and any other business that may properly come before the meeting.

Does Anyone Know Him?—Postmaster Mangum has received a letter from Wm. Thomas of San Pedro, Cal., who desires to know the whereabouts of one Angus McDonald. The letter states that McDonald once owned a sawmill at Marquette on Cherry Creek, but no one could be found yesterday who ever heard of him.

Basketball This Evening—A game of basketball will be played at Armory Hall this evening. The city team and the Ferguson Business college five will be the opposing aggregations. The admission will be fifteen cents. The teams will line up as follows: City team, Richardson and Rhinehart, forwards; Dunlavy, center; and Weiser and Drake, guards. Ferguson's, Christensen and L. Drake, forwards; Denny, center; and Madigan and Whitney, guards.

Lecture Date Postponed—The third number of the Guild Hall lecture course, a lecture by Rev. Andrew Gillies of Marquette, which was scheduled for tonight, has been postponed until Feb. 23, by mutual agreement. Feb. 22 Rev. Mr. Gillies will lecture in the copper country and by the change made in the Marquette date, he will be able to fill both engagements on the same trip. The lecturer is one of the most gifted ministers of the Methodist faith in Minnesota and it is hoped that a large crowd may hear him.

Death of Martin Koepf—Martin Koepf, a pioneer in the farming district of the Chocolay valley, passed away at his home at Mangum yesterday morning, whence the funeral will be held Friday afternoon at 1 o'clock. Mr. Koepf was eighty-five years of age and located near Mangum over forty years ago, having been the third settler in that vicinity. He is survived by two sons, L. C. and August Koepf, and by one daughter, Mrs. Rosie Baker. The deceased was a well-known resident of the county and was highly respected.

Knight Templar Party—Lake Superior commandery, No. 30, K. T., will give a dance in Masonic Hall on the night of Washington's birthday, Feb. 22, which, it is hoped, will be largely attended by Marquette, Negaunee and Ishpeming Sir Knights and ladies. John Lewis, S. S., Ormishoe, P. W., Heiligs, W. J. Schweitzer, W. O. Johnson and Frank Stolpe have been selected a committee to make arrangements for the event. The Sir Knights promise all who attend an enjoyable evening, with good music, favors and refreshments.

Baseball Dance—Cards were placed in the windows about town yesterday announcing a dance to be given by the Marquette baseball club in Fraternity Hall Friday evening, Jan. 21. At the last baseball dance, the number who attended filled Legion Hall to overflowing, and Fraternity Hall has been engaged for the coming party to make sure that there will be room for all. Former dances given by the club have been largely attended and exceptionally enjoyable, and there is every reason to believe that the coming party will be no less so. The Peerless orchestra will furnish the music. Tickets, fifty cents per couple; extra ladies, twenty-five cents.

K. of C.'s to Ishpeming—Friday night there will be a basketball game at Ishpeming between the Marquette Knights of Columbus and Ishpeming Y. M. C. A. teams. After the game there will be a dance at Anderson's Hall, given by the K. of C.'s for Knights and their friends, with music by Trombly's orchestra. A special train from Marquette will leave the South Shore station at 7:15 p. m., which will stop at Negaunee for Negaunee members and their friends. Returning, the train will leave at 1:15 a. m. Ishpeming and Negaunee members of the Marquette council are making arrangements for the dancing party and are preparing for a large crowd.

Ordered to Be Deported—Charles Yim and Sam Lee, the two Marquette Chinese arrested by the immigration inspectors Sunday, were found to be illegal residents of the United States and ordered deported at a hearing before the federal commissioner at the Soo Monday. Both are said to have come to this country before the Chinese exclusion act went into effect, but neglected to take out certificates of residence, as the act required. They have ten days in which to make an appeal. Lee Gyp, the Ishpeming Oriental who was taken to the Soo with his Marquette fellow countrymen, was also ordered deported, though he claims to have been born on the Pacific coast.

NEW DIRECTORY ISSUED.

R. L. Polk & Co. Distributing Volume Compiled Last Summer.

The Marquette city and county directory for 1910 is being distributed by agents of R. L. Polk & Co., the publishers and compilers. The new volume corresponds closely with former issues and is the result of the work of the men who canvassed the county last summer and secured the names and information contained therein.

The first forty-eight pages are devoted to useful miscellaneous information relating to Marquette city and county in general, embracing a street and avenue guide, ward boundaries, the city government, county officers, county board of supervisors, asylums, hospitals and homes, banks, cemeteries, churches, courts, federal officers, incorporated companies, libraries, miscellaneous clubs and societies, newspapers, parks, postoffice statistics, postoffices in county, public buildings, public schools with lists of teachers, railroads, secret societies, etc. This is followed by the list of Marquette citizens, alphabetically arranged, telling their business, location of business and of dwelling or boarding house.

The same general plan is followed for the cities of Ishpeming, Negaunee and Republic, succeeding which alphabetical arranged directories of Beacon, Gwinn, Harvey, Champion, Croswater, Humboldt, Little Lake, Mangum, Michigan, National Mine, Palmer, Princeton and Yalmar.

Further back will be found a classified business directory of all persons doing business in the county. This department shows the various manufacturing, mercantile and professional occupations in alphabetical order by towns, and constitutes an epitome of the business interests of the county. The final pages are devoted to a list giving name, section, number of acres, assessed valuation, name of owner and postoffice addresses of all farmers in Marquette county.

ON THE WATER QUESTION.

Consumer Advocates That Daily Analyses Be Made and Published.

A reader of The Mining Journal submits the following on the city water question: "Marquette, Mich., Jan. 11, 1910. "Editor of Mining Journal: By filtering the water used for domestic purposes, Escanaba, instead of being the most unhealthy city in Upper Michigan, is now the most free from sickness. The appointment of Doctor O. C. Breitenbach as city chemist, making it his duty to examine the city water daily, to determine its wholesomeness, has done much to bring about this improved condition. Marquette is in a position to profit, at least to some extent, by what Escanaba has done. Why not arrange to send, daily, by express on morning trains, a sample of our city water to Dr. Breitenbach to be examined by him? This would enable him to furnish a report available for publication in the Journal, issued on the following morning. As consumers, thus acquainted with the condition of our city's water, we would from day to day, be able to determine when it could be safely used. A knowledge of the complete equipment of Escanaba's laboratory and Dr. Breitenbach's ability to make these examinations, would eliminate all doubt from our minds, as to the accuracy of such reports.

BOWLING SCORES.

The first five games of a special match of fifteen games, with a supper as the prize, were bowled at the downtown alleys yesterday. The scores were:

Godwin	155	138	146	157	156	752
Foard	147	191	161	170	149	818
Jenks	179	187	132	162	191	851
Vaulder	188	143	179	176	201	887

Jenks and Van Iderstine lead by 168 pins. Last night's league match had the following result:

Square Deals	140	141	153	434
St. Rose	182	186	144	512
Russell	187	158	149	494
Coleman	153	153	167	473
Drumney	143	187	136	466

THE MILK ?

Does it mean anything to you to know that the milk you are buying is clean? Is it worth your while to know that the milk you are giving your children is absolutely free from tuberculosis? Emblagaard Milk is CLEAN. When were our cows tuberculin tested? Dec. 30 and 31, 1909. We make this test every six months.

Dr. Shelley's Grip Tablets

Naturally we have a great demand for cold and gripe tablets. Many many different remedies are on our shelves, and are sold by us to our customers, but by carefully comparing results, we have found that no tablet in our stock gives such absolute and complete satisfaction as Dr. Shelley's Grip Tablets. These tablets compose one of the most effective and reliable cures for colds that is sold in any part of America today. Wherever it is used by our customers, we always hear words of praise for it, until now we never hesitate to recommend Dr. Shelley's Grip Tablets whenever a grip tablet is called for. It will break up the most severe cold in a day and a night. It is chocolate coated, easy to take, and we guarantee to refund your money to you if you are not entirely satisfied with the tablets and the results obtained from them. Put up in small boxes. ONLY 25c.

NEW YORK STOCKS.

Paine, Webber & Co.'s correspondent at New York yesterday telegraphed as follows:
Important liquidation was again conducted during today's session and was absorbed mainly by the shorts. In fact the demands of the latter were the only factor which tended to sustain the list.

Closing prices were as follows:
Amalg. 107 1/2, Anaconda 112 1/2, Am. Smelter 109, Am. Loco 113 1/2, Atchafalaya 120 1/2, B. R. 117 1/2, B. & O. 117 1/2, C. & N. 117 1/2, C. & P. 117 1/2, C. & S. 117 1/2, C. & W. 117 1/2, C. & Z. 117 1/2, C. & A. 117 1/2, C. & B. 117 1/2, C. & C. 117 1/2, C. & D. 117 1/2, C. & E. 117 1/2, C. & F. 117 1/2, C. & G. 117 1/2, C. & H. 117 1/2, C. & I. 117 1/2, C. & J. 117 1/2, C. & K. 117 1/2, C. & L. 117 1/2, C. & M. 117 1/2, C. & N. 117 1/2, C. & O. 117 1/2, C. & P. 117 1/2, C. & Q. 117 1/2, C. & R. 117 1/2, C. & S. 117 1/2, C. & T. 117 1/2, C. & U. 117 1/2, C. & V. 117 1/2, C. & W. 117 1/2, C. & X. 117 1/2, C. & Y. 117 1/2, C. & Z. 117 1/2.

Boston Stock Quotations.

The closing prices at Boston were:

R. 117 1/2, B. & O. 117 1/2, C. & N. 117 1/2, C. & P. 117 1/2, C. & S. 117 1/2, C. & W. 117 1/2, C. & Z. 117 1/2, C. & A. 117 1/2, C. & B. 117 1/2, C. & C. 117 1/2, C. & D. 117 1/2, C. & E. 117 1/2, C. & F. 117 1/2, C. & G. 117 1/2, C. & H. 117 1/2, C. & I. 117 1/2, C. & J. 117 1/2, C. & K. 117 1/2, C. & L. 117 1/2, C. & M. 117 1/2, C. & N. 117 1/2, C. & O. 117 1/2, C. & P. 117 1/2, C. & Q. 117 1/2, C. & R. 117 1/2, C. & S. 117 1/2, C. & T. 117 1/2, C. & U. 117 1/2, C. & V. 117 1/2, C. & W. 117 1/2, C. & X. 117 1/2, C. & Y. 117 1/2, C. & Z. 117 1/2.

Opposition of New York Governor to Income Tax May Mean Its Defeat.

Washington, Jan. 11.—There is a very strong opinion that Governor Hughes' message to the New York legislature advising against the ratification of the income tax amendment will be influential with the legislature of numerous other states and quite likely prevent that amendment from ever becoming, in its present form, a part of the constitution. His statement that the words "from whatever source derived" would subject state and municipal bonds to federal taxation and the forty-six commonwealths will make many legislatures pause. Some nine legislative points are being raised at the Capitol as to whether congress could recall or modify the amendment as submitted to the states. On these questions, the fact remains that congress is not at all likely to accept any such thing.

OTHERS MAY FOLLOW HUGHES.

Reviving a Dead Committee. Representative Roberts, by the way, is starting in to make something of the venerable Committee on Private Land Claims, of which he was appointed chairman last summer. Until the forty-ninth Congress this was one of the most important committees of the house, but since then the committee on Public Lands, of which Mr. Mondell of Wyoming is chairman, and the committee on Indian Affairs have gradually absorbed the work of the old committee. Robert Newcomb, the wide-awake clerk of the committee, has just discovered that the committee has had no records of its own for many years. He has gone to the house library, and now is industriously compiling a new set, while Representative Roberts has succeeded in having referred to his committee many bills which properly belong to it. The committee now has some thirty bills before it, and will have some real work to do. The special function of this committee is to consider land claims against the government by private individuals, corporations or companies. These relate for the most part to lands in the West and the South, some of the claims running back to the old Spanish grants.

Can You Ask More?

We are so confident that we can furnish relief for indigestion and dyspepsia that we promise to supply the medicine free of all cost to every one who uses it according to directions who is not perfectly satisfied with the results. We exact no promises and put no one under any obligation whatever. Sure, we can't be fairer. We are located right here where you live, and our reputation should be sufficient assurance of the genuineness of our offer.

Writing from Boston yesterday, Paine, Webber & Co. had this to say of the copper stock market:

"The sharp advance in Lake opened the entire attention of the local market today. The stock opened at 80, and advanced with practically no decline to 90, closing there. The buying of this stock is still by the same people who have accumulated it from 20 up. The floor traders are still buying and selling, but the small holders of the stock have long since sold, and are taking no interest in the advance. Gironx was active at 12 1/2 to 14, but was unable to obtain, owing to the large amount of stock offered for sale at 12 1/2 from New York. Copper Range was comparatively quiet, but one house stood ready to take all stock offered at 81. The weakness of East Butte

NEW WHITE HOUSE WAYS. Mrs. Taft Reforms Old-Time Methods of Receptions.

Invitation List Is Cut to the Limit of Entertainment—Friend Meets Friend and There Is Room for All to Wander About at Will—Washington Gossip.

Washington, Jan. 11.—If the success of a social innovation is to be measured by the delighted comments of its participants, Mrs. William Taft has raised the formal White House reception to an admirable standard. It is not fair to compare one administration with another, in characterizing events of this kind, therefore it involves no reflection upon the Roosevelt regime to say that the first reception of President Taft was the most pleasurable event of its kind in the immediate recollection of the persons who attended.

Mrs. Taft has reversed the Roosevelt reception methods in more ways than one. In former times, with an invitation list of perhaps a few thousand, more or less indiscriminately made out, the guests who came on foot were accustomed to assemble at the East gate an hour before the opening of the doors, at nine o'clock. By that hour the line would extend along the sidewalk for more than a block. For the Taft reception only twenty-five women were waiting at the gate; and the remainder of the great party, whether coming in carriages or on foot, filed through the corridors and up the great staircase as quietly and with as little crowding as if entering a theatre.

Stops Lameness

Much of the chronic lameness in horses is due to neglect. See that your horse is not allowed to go lame. Keep Sloan's Liniment on hand and apply at the first sign of stiffness. It's wonderfully penetrating—goes right to the spot—relieves the soreness—limbers up the joints and makes the muscles elastic and pliant.

Here's the Proof. Mr. G. T. Roberts of Resaca, Ga., R.F.D. No. 1, Box 43, writes: "I used your Liniment on a horse for swiney and effected a thorough cure. I also removed a spavin on a mule. This spavin was as large as a guinea egg. In my estimation the best remedy for lameness and soreness is."

Sloan's Liniment will kill a spavin, curb or splint, reduce wind puffs and swollen joints, and is a sure and speedy remedy for fistula, swiney, founder and thrush.

Price 50c. and \$1.00. Sloan's Liniment is sold by all druggists and hardware stores. Dr. Earl S. Sloan, Boston, Mass., U.S.A.

will follow the leadership of Mr. Hull, who is a Democrat, or of Senator Elkins, whose role as a friend of the common people is a brand new one. All the resolutions of this kind doubtless will be thrown into the hopper of some committee and emerge in chastened form.

Lobbyists Harness ALL CONGRESSMEN.

Members Find Most Troubles Outside of Capitol Chambers. ARE EVEN THREATENED. Delegations Frequently Promise Political Death if Their Views Are Not Followed.

Washington, Jan. 9.—Life just now among the members of the branches of congress is not all serene and blissful, as the atmosphere around the Capitol would indicate. Each day brings some new problem in politics and diplomacy for the members of the majority to solve. Most of these problems come, not in the shape of bills or resolutions, but by strong pressure through the lobby and in such a form as to figure materially in the future political life of the individual member, and often it has much to do with the party's destiny.

SHIP SUBSIDY HAS ROCKY ROAD TO TRAVEL.

There is Opposition to the Humphrey Ocean Mail Bill and It is Doubted if There Are Votes Enough in the House to Carry It Through.

Washington, Jan. 10.—It is a serious question whether the cause of ship subsidy has been helped or hurt by the introduction of a new ocean mail bill by Representative Humphrey of Washington, with the assent, it is understood, of President Taft and of Representative William S. Greene of Massachusetts, chairman of the committee on Merchant Marine and Fisheries.

Can You Ask More?

We are so confident that we can furnish relief for indigestion and dyspepsia that we promise to supply the medicine free of all cost to every one who uses it according to directions who is not perfectly satisfied with the results. We exact no promises and put no one under any obligation whatever. Sure, we can't be fairer. Gironx was active at 12 1/2 to 14, but was unable to obtain, owing to the large amount of stock offered for sale at 12 1/2 from New York. Copper Range was comparatively quiet, but one house stood ready to take all stock offered at 81. The weakness of East Butte

the particular brand of legislation wanted in the district of the members opposed to it. This is done to force the member to see the "right" way. In this method the future of many of the members is determined. If the lobbyists are successful and the member is still obstinate, it is then the business of the fellows after legislation to select a good man to oppose the incumbent in the primary or go to the opposite party.

This manner of getting legislation flourishing right now. Every day there are delegations and representatives from corporations or communities working hard. At the present time the friends and foes of ship subsidy have the center of the stage. No sooner has this measure's friends finished a day's work when its enemies are up and try to undo all that has been done.

LIVELY DAYS IN ALBANY. Renewal of Old Battles in the New York Legislature.

Senate's New Republican Leader, Aids, Always Has Opposed the Policies of the Governor, and the Later Has Renewed and Strengthened Recommendations Over which He Has Quarrelled With the Old Guard.

New York, Jan. 11.—The election of Jotham P. Aids as Republican leader of the state senate and president pro tem of the senate, to succeed the late John Raines, coupled with the declarations in the governor's message on direct nominations, the extension of the public service commission law, and bookmaking, have served to bring out a definite line-up of the contending forces at Albany on the very first day of the legislative session. It is the old combination of bosses—Republican and Democratic, as evidenced by the fact that Senator Thoman F. Gray voted with the Republican machine men for Senator Aids—on the one side, and Governor Hughes with an increasing number of supporters in and out of his own party ranks, on the other.

Until the last day or two considerable talk had been heard about the intention of the Republican majority to "be good," and support the governor in his fourth annual declaration of policies. State Chairman Timothy L. Woodruff did some talking as to the wisdom of getting the governor together with his party on a measure of direct primary reform, and even Barnes of Albany recently delivered observations touching upon the desirability of making peace with Governor Hughes so that the latter could assume "his full share of the party responsibility."

The state department has received a telegram from a dozen New Orleans commercial and industrial companies engaged in business in Nicaragua, strongly favoring Estrada for provisional president. They believe that the revolutionary general will afford full protection for their interests.

WILL FIGHT WITH ESTRADA. Prisoners Taken at Rama Now to Join the Revolutionary Army.

Washington, Jan. 11.—A state department telegram from Bluefields states that the indications are that the majority of the prisoners captured near Rama by the revolutionists will join General Estrada's army. President Madrid's offer of \$2,000 for the relief of these prisoners through distribution by the American naval commanders will not be accepted. The funds must be expended through the Red Cross.

Managua, Jan. 11.—Five hundred men and four field pieces left this afternoon for LaManga, to oppose the advance of General Chamorro. Pasos, Zelaya's son-in-law, was released today on the payment of \$10,000 and the surrender of 130,000 pesos in unsigned bills. He also handed over eighteen public buildings, whereon he had liens given him by Zelaya as security for an alleged loan.

SHIP SUBSIDY HAS ROCKY ROAD TO TRAVEL.

There is Opposition to the Humphrey Ocean Mail Bill and It is Doubted if There Are Votes Enough in the House to Carry It Through.

Washington, Jan. 10.—It is a serious question whether the cause of ship subsidy has been helped or hurt by the introduction of a new ocean mail bill by Representative Humphrey of Washington, with the assent, it is understood, of President Taft and of Representative William S. Greene of Massachusetts, chairman of the committee on Merchant Marine and Fisheries.

The revised Humphrey bill provides for amendment of the ocean mail act of March 3, 1891, so that steamships of the second class, of from sixteen to nineteen knots, shall have the rate of compensation now applicable only to transatlantic mail ships on routes four thousand miles or longer in length to South America, to the Philippines, to Japan, to China and to Australasia. On these same routes steamers of the third class, of from fourteen to sixteen knots, are to have the rates now applicable to vessels of the second class. It is provided that the total expenditure for foreign mail service in any one year shall not exceed the estimated revenue therefrom for that year.

There is a new and important stipulation that contracts under this act shall not be made for any steamship owned or controlled by a railroad or for any steamship to which a railroad shall extend any privilege not also extended to any other American steamship. The Postmaster General is directed to cancel any contract upon evidence that the provision of this section has been violated. No steamship under contract shall be held without the consent of the secretary of the navy.

A tonnage tax of twelve cents a ton, not to exceed \$1.20 a ton a year, is imposed on each entry of vessels from distant foreign ports, but the tonnage tax on vessels from ports in North America, Central America, the West Indies and the nearer coast of South America is not altered. But eighty per cent of the tonnage taxes are to be remitted to vessels of the United States carrying boys as apprentices.

The final section of the Humphrey bill admits to the registry foreign-built steel steamers of any gross tonnage or over, to engage only in trade with foreign countries or with the Philippines. These foreign-built vessels must be wholly owned by American citizens, and are not to be entitled to mail coastwise trade. This free ship section changes the law of the United States which has been operative since 1789. It will permit American citizens to purchase foreign-built steamers for the foreign trade or to naturalize steamers already owned by them, on terms more liberal than are provided by many foreign governments. Most foreign nations grant registry to foreign-built ships, but many of them prescribe a tax or duty for such registry.

Of all these propositions, only the first, that relative to the mail subvention, was included in the old ocean mail bill. Agreement has been reached upon this and a few weeks ago there were votes enough to carry it. There is said to be not enough votes in the house today to carry the Humphrey bill in its new form, even with the president's endorsement, unless some members, having changed once, change back again. The free ships clause is authorized by Mr. Humphrey to be a "harmless" provision; but if it would be harmless to American shipbuilders, it may not be to the bill. If it will be practically inoperative, it ought not to be in the bill, and if it would bring in foreign-built ships it ought to be out of the bill anyway, in the opinion of high protectionists. As to the increased tonnage taxes, congress last year deliberately decreased the tonnage taxes to two and six cents to avoid future international complications. The United States has avoided trouble with Great Britain by keeping her duties uniform to all countries, but giving the fullest play to foreign shipping. If this country maintains its high duties and then strikes a blow at foreign shipbuilders by means of heavy tonnage taxes, it will be impossible to avoid disastrous results, in the opinion of many, particularly in the senate, who have studied the ship subsidy question thoroughly and would be glad to vote for an ocean mail bill provided it contained no such irritating features as are here proposed. The amendments give a diplomatic phase to the question which did not exist before and raise fresh problems which, although they may seem immaterial in themselves to the gentlemen advocating the new legislation, nevertheless may cost votes.

NOTICE. A Democratic convention will be held at the court house in the city of Marquette on Saturday, the 22nd day of January, A. D. 1910, at 2 o'clock p. m., for the purpose of placing in nomination a candidate for circuit judge for the Twenty-fifth judicial circuit. Each county in said judicial circuit is entitled to representation in the convention as follows:
Delta county 9
Dickinson county 7
Iron county 5
Marquette county 15
Menominee county 9
FRANCIS M. MOORE, Chairman. Marquette, Mich., Jan. 10, 1910.

A RICH, FRAGRANT TEA "SALADA" is fresh from the gardens of Ceylon—the finest tea-producing country in the world. Sold only in sealed lead packets, which preserve its native purity and goodness.

Early June Peas, Sugar Corn, Standard Tomatoes, 3 cans, 25c. Soda Crackers, fresh baked, 20-pound box, \$1.35. Santa Claus or Queen Ann Soap, 10 bars for, 38c.

SHIP SUBSIDY HAS ROCKY ROAD TO TRAVEL.

There is Opposition to the Humphrey Ocean Mail Bill and It is Doubted if There Are Votes Enough in the House to Carry It Through.

Washington, Jan. 10.—It is a serious question whether the cause of ship subsidy has been helped or hurt by the introduction of a new ocean mail bill by Representative Humphrey of Washington, with the assent, it is understood, of President Taft and of Representative William S. Greene of Massachusetts, chairman of the committee on Merchant Marine and Fisheries.

The revised Humphrey bill provides for amendment of the ocean mail act of March 3, 1891, so that steamships of the second class, of from sixteen to nineteen knots, shall have the rate of compensation now applicable only to transatlantic mail ships on routes four thousand miles or longer in length to South America, to the Philippines, to Japan, to China and to Australasia. On these same routes steamers of the third class, of from fourteen to sixteen knots, are to have the rates now applicable to vessels of the second class. It is provided that the total expenditure for foreign mail service in any one year shall not exceed the estimated revenue therefrom for that year.

There is a new and important stipulation that contracts under this act shall not be made for any steamship owned or controlled by a railroad or for any steamship to which a railroad shall extend any privilege not also extended to any other American steamship. The Postmaster General is directed to cancel any contract upon evidence that the provision of this section has been violated. No steamship under contract shall be held without the consent of the secretary of the navy.

A tonnage tax of twelve cents a ton, not to exceed \$1.20 a ton a year, is imposed on each entry of vessels from distant foreign ports, but the tonnage tax on vessels from ports in North America, Central America, the West Indies and the nearer coast of South America is not altered. But eighty per cent of the tonnage taxes are to be remitted to vessels of the United States carrying boys as apprentices.

The final section of the Humphrey bill admits to the registry foreign-built steel steamers of any gross tonnage or over, to engage only in trade with foreign countries or with the Philippines. These foreign-built vessels must be wholly owned by American citizens, and are not to be entitled to mail coastwise trade. This free ship section changes the law of the United States which has been operative since 1789. It will permit American citizens to purchase foreign-built steamers for the foreign trade or to naturalize steamers already owned by them, on terms more liberal than are provided by many foreign governments. Most foreign nations grant registry to foreign-built ships, but many of them prescribe a tax or duty for such registry.

Of all these propositions, only the first, that relative to the mail subvention, was included in the old ocean mail bill. Agreement has been reached upon this and a few weeks ago there were votes enough to carry it. There is said to be not enough votes in the house today to carry the Humphrey bill in its new form, even with the president's endorsement, unless some members, having changed once, change back again. The free ships clause is authorized by Mr. Humphrey to be a "harmless" provision; but if it would be harmless to American shipbuilders, it may not be to the bill. If it will be practically inoperative, it ought not to be in the bill, and if it would bring in foreign-built ships it ought to be out of the bill anyway, in the opinion of high protectionists. As to the increased tonnage taxes, congress last year deliberately decreased the tonnage taxes to two and six cents to avoid future international complications. The United States has avoided trouble with Great Britain by keeping her duties uniform to all countries, but giving the fullest play to foreign shipping. If this country maintains its high duties and then strikes a blow at foreign shipbuilders by means of heavy tonnage taxes, it will be impossible to avoid disastrous results, in the opinion of many, particularly in the senate, who have studied the ship subsidy question thoroughly and would be glad to vote for an ocean mail bill provided it contained no such irritating features as are here proposed. The amendments give a diplomatic phase to the question which did not exist before and raise fresh problems which, although they may seem immaterial in themselves to the gentlemen advocating the new legislation, nevertheless may cost votes.

NOTICE. A Democratic convention will be held at the court house in the city of Marquette on Saturday, the 22nd day of January, A. D. 1910, at 2 o'clock p. m., for the purpose of placing in nomination a candidate for circuit judge for the Twenty-fifth judicial circuit. Each county in said judicial circuit is entitled to representation in the convention as follows:

BOWLING LEAGUE.

Ten Ishpeming Teams Will Participate in Handicap Series.

SALVATION ARMY GETS BETTER OF FIGHT

Ten five-men teams have been organized to participate in a series of handicap matches at the Bank street alleys. The first of the series was rolled Monday night, the contesting teams being the Printers and Linds. The Linds won two of the three games, though the Printers led by one pin in the three games. The scores were as follows:

Printers—	Tot.
Carney.....	177 170 209 553
J. Martin.....	167 193 181 541
W. West.....	180 165 150 495
A. Trosvig (sub).....	131 130 139 400
T. Dyer.....	176 167 158 491
Totals.....	831 825 836 2492
Linds—	
Grunnett.....	175 179 183 537
J. Hansen.....	175 171 227 573
H. Sullivan (sub).....	151 162 148 461
R. Kropp.....	122 159 189 461
D. Lind.....	141 175 143 459
Totals.....	764 837 800 2491

There will be a match every evening in the week, except Saturday, from now until the series is completed.

SUPREME COURT OF NEW YORK STATE DECIDES THAT RIVAL ORGANIZATION HAS NO RIGHT TO IMITATE ITS METHODS.

The fight that has waged between the Salvation Army and the "American Salvation Army" for the past fourteen years has reached a point where the former promises to gain a big advantage over its rival. Captain H. G. Gough, of the Ishpeming branch, was yesterday advised that five judges sitting in the first department of the appellate division of the supreme court of New York state, before whom the army appealed the decision of Justice O'Gorman in the so-called "American Salvation Army" case, had rendered a decision that the judgment appealed from should be reversed, and a new trial ordered.

The American army adopted every successful method that the old army used in conducting its work, and it is said that in many cases, misdeeds of the latter have been resorted to by officers and others connected with the organization, in securing financial aid. Three representatives of the American Salvation Army visited Ishpeming about a year ago. They solicited funds, and after completing their collection left here, giving no account of the manner in which the money was used. Representatives of the organization are expected here soon on another collecting tour.

The case just decided in favor of the Salvation Army came before the justices at the December term in New York state. The first action against the American Salvation Army by the original organization was started three years ago. Some months ago the Salvation Army appealed for an injunction to restrain the American Salvation Army from using its name, uniform, publications, etc. Justice O'Gorman, before whom the case was argued, decided adversely to the army.

As the judges strongly recommended the army's right to the judgment, it is expected that the officers of the organization will take immediate steps for the hearing of a new trial. It is claimed that the new organization has been injuring the original army considerably during the past few years.

It would seem from the following paragraphs, from the decision rendered down by the judges in the supreme court, that the American Salvation Army has very little ground to stand on.

"It is so clear as to hardly justify discussion that the purpose of the defendant in assuming the name 'American Salvation Army' for its organization and 'American War Cry' for its paper and its adoption of the military titles and uniforms and its whole scheme of procedure was to take advantage of the long-established and widespread public knowledge of the Salvation Army and to receive for itself what ever benefit might flow therefrom. While its object in organizing may have been entirely laudable, its assumption of the physical attributes of its predecessor in the field, with slight and colorable differences, was obviously an imitation, and calculated, if not deliberately designed, to deceive.

"We think there are enough findings of fact in the decision of the special term to establish plaintiff's right to a judgment, and that inconsistent findings in favor of the defendant are not supported by the evidence. It follows, therefore, that the judgment appealed from should be reversed and a new trial ordered, with costs to the appellant to abide the event."

Ernest Collins, (Guild Hall School of Music, London) teacher of piano. Expert instruction; rapid advancement. Terms reasonable. Lessons at pupil's residence until 1 open studio. Address, care Urban House, Ishpeming. (12-21-tf-2w)

Furs, Coats, Suits, Hats, Dress Goods, Sweater Coats, etc., all going at ridiculously low prices during this rummage sale. (1-3-tf) F. BRAASTAD & CO.

Many requests from Catarrh sufferers who use atomizers have caused us to put up Liquid Cream Balm, a new and convenient form of Ely's Cream Balm, the only remedy for Catarrh which can always be depended on. In power to allay inflammation, to cleanse the clogged air-passages, to promote free, natural breathing, the two forms of Cream Balm are alike. Liquid Cream Balm is sold by all druggists for 75 cents, including spraying tube. Mailed by Ely Bros., 56 Warren street, New York.

DEATHS AND BIRTHS.

The death rate in Ishpeming in 1909 was considerably lower than in either 1907 or 1908, the total number of deaths in the twelve months being 166. In 1908 there were 235 and in 1907, 202. The birth rate last year was also lower than in either of the two preceding years, the total registration being 360, compared with 379 in 1908, and 402 in 1907.

BUYS ONTOWAGON LAND.

Isaac Stephenson, United States senator from Wisconsin, has purchased from F. G. Sanborn, an Ashland, Wis., land dealer, a 7,490-acre tract of hardwood land in Ontowagon. It is believed that Senator Stephenson acted for a big lumber company in the transaction. The purchase price was in the neighborhood of \$100,000.

First-Class Work Guaranteed.

IRON TRADE FAIRLY ACTIVE.

Volume of Business Following Holiday Season is Exceptionally Good.

It is reported from New York that a fair volume of new business was developed in iron and steel products during the first week in January, interest being mainly centered in rails, structural and fabricated steel in the Eastern district, and in billets and sheets and bars in the Central West. There also was a fair degree of activity in steel sheets, hoops and wire products.

Contracts for rails were 60,000 tons, including the Chesapeake & Ohio, the Burlington and the Grand Trunk. Orders have been placed for 2,300 cars and twenty-five locomotives, and contracts for 8,000 cars are still pending. A few small railroad bridge orders were placed. There is still considerable activity and aggressive competition for fabricated steel orders for buildings and bridges in various sections of the country. New business placed during the week aggregated 50,000 tons. Specifications were received on previous contracts aggregating 43,000 tons, and business is now pending for 100,000 tons.

In pig iron, pipe works have been the principal purchasers, contracting for about 15,000 tons of forge and low-grade foundry iron in the East and for 15,000 to 20,000 tons Northern and Southern iron in Ohio. Business is now pending for basic, malleable Bessemer, forge and foundry grades east of the Allegheny mountains, aggregating about 40,000 tons, for delivery during the first half of the year. Some Alabama, Tennessee and Virginia iron has been sold for Eastern shipment.

Prices have not changed essentially. The December production of all kinds of pig iron was 2,675,000 tons, a record-breaking output.

M. J. Olson, the piano tuner, can now be reached by County telephone No. 520, or by mail at 400 East Ridge street, Ishpeming. First-class work guaranteed. (1-12-tf)

FROM MORGAN'S CURB LETTER.

The New York market was again dull and weak, Amalgamated and Anaconda being the exceptions to a general weakening of prices. The fractional advance in the coppers is due to the general improvement in the copper situation.

The Boston market was again furnished a sensation in the heavy buying and rapid advance of Lake Copper to the new high record of 90. The Lake coppers, especially those in which the owners of Lake are interested, were all strong in sympathy and well bought. Of these, Arcadian and Oneco were most prominent, though New Baltic, Indiana and North Lake were all in demand and higher. The buying of Giroux still continues. The other Colorado issues were quiet, as were the balance of the list. Prices were firm and few stocks are offered.

On the curb, the new Lake stocks, together with Ray Central, Superior & Globe and Chief, were most active. There was heavy buying of Oneco on a report that the drill had cut a heavy mineralized hole twelve feet wide, and it advanced the stock to 7. Cactus was quiet, with little for sale. Near the close it suddenly advanced to 63-16. The engineer's report to be submitted at the Ray Central annual meeting to be held this month is said to be surprisingly favorable. Chief was strong at 2½. Bid of \$10 for Elenita brought out but fifty shares, with no more offered at any price.

Yesterday's prevailing prices were:

	Bid.	Asked.
Ameek.....	\$220.00	\$225.00
American Saginaw.....	2.25	3.00
Arizona & Mich.....	.35	.40

Mining News

NOTES OF COPPER NEWS.

The Ansonia is still mining some very high grade ore on the 2200-foot level, but the richest body opened a few years ago has been mined out, although it is not unlikely that other equally good bodies will be opened in the vein on that level. The ore now coming from the 2200-foot level averages between 5 per cent and 6 per cent copper. On the 2100-foot level the vein has not been thoroughly opened yet and a big rich ore body is practical there yet.

The situation at the Lake mine has not changed to a degree inviting comment. It is on the whole much the same as in weeks past. Drifting is in progress at the second, third, and fourth levels in the Lake lode, and at the sixth level in the new lode. All new openings created in the past few days reveal good copper values, and those at the third level disclose ground of rather exceptional richness both north and south of the shaft. Developments in the new lode continue encouraging.

Hancock has temporarily ceased drifting at the twenty-seventh level where No. 2 shaft intersects the No. 3 lode, and shaft sinking is again under way. About eighty feet of exceptionally good looking copper ground has been opened at this depth. Drifting will be resumed as soon as the shaft has dropped sufficiently below this level to permit safe installation of underground storage bins, and station timbers without fear of destruction by flying rock incidental to shaft sinking. This lode which has made such a good showing at the twenty-seventh level is also being drifted upon at the thirteenth, fourteenth, fifteenth and sixteenth levels, with equally good results. Of the 800 feet of drifts at the thirteenth level, fully 600 feet is in first-class stopping ground. A total of about 1,000 feet of drifts at the fourteenth, fifteenth and sixteenth levels is, with the exception of a few feet, entirely in copper ground, of commercial value. The vein matter is good looking stuff, and merits all that has been said about it.

HOUSEHOLD CARES.

Tax the Women of Marquette the Same as Elsewhere.

Hard to attend to household duties, with a constantly aching back. A woman should not have a bad back, and she wouldn't if the kidneys were well.

Doan's Kidney Pills make well kidneys.

Here is a Marquette woman who endorses this claim: Mrs. Hattie Parker, 175 W. Crescent St., Marquette, Mich., says: "For several years I was a sufferer from kidney trouble. I had a severe pain in the small of my back and was also subject to headaches. I had but little strength or energy and could hardly attend to my work. I tried a number of remedies but did not succeed in finding relief until I procured a box of Doan's Kidney Pills at the Stafford Drug Co. They helped me from the first and I continued taking them until I felt better in every way. I do not hesitate to recommend this valuable remedy to anyone suffering from kidney trouble."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

POOR BOY.

A Hoboken man has named his first born "Hamburg-American" in compliment to the steamship line of which he is an employee. The selection affords material for facetious comment by New York papers, but it is by no means unprecedented, says the Boston Commercial. To say nothing of the historical Return Jonathan Meigs, of national renown, the Transcript recalls that there were in Boston a few years ago two brothers respectively named Army of the Potomac and Sixth Corps. They were the sons of a colored soldier who in the names of his offspring sought to commemorate his military services.

The first census of the city of Bangkok, recently taken, showed a population of 628,675.

PILES CURED IN 6 TO 14 DAYS

PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

Negaunee Department

MARQUETTE COUNTY'S RURAL SCHOOLS

NINETEEN NEW ONES HAVE BEEN ESTABLISHED IN LESS THAN SIX YEARS PAST.

A. E. Stearne, county commissioner of schools, visited two new schools in Richmond township yesterday. One is located about half way between Negaunee and Palmer, and the other is near the old Schwitzer mill site. About twenty children are attending each school. Richmond township now has eight teachers employed, there being four at the Palmer school and one each at two schools near Suomi, in the farming district about six miles from Palmer.

Mr. Stearne is kept busy visiting the rural schools, of which there are now 112 in the county. When Mr. Stearne succeeded E. D. Davis as commissioner less than six years ago there were ninety-one schools in the townships. The increase the past few years has been larger, proportionately, than during any similar period of late years. The increase was due to the population of the country districts is growing steadily. Many farmers have located in the townships during the past two or three years. Most of them are Finns. Perhaps 90 per cent of the children who will attend the two schools just opened in Richmond township are Finns, and are practically all of those attending the two schools at Suomi.

The school facilities in the rural districts have been improved considerably during the past few years. All of the new buildings are built along modern lines, and are more convenient and comfortable than the old style schools. As a rule more than 90 per cent of the children living in the outlying districts attend school, and in many places the teachers put in some of their spare time instructing the older people who desire to learn to read and write.

Mr. Stearne has 3,600 square miles of territory to cover, a larger area than is contained in state of Rhode Island. In spite of the fact that some of the schools are located many miles from the cities, necessitating long drives to reach them, he manages to average about three visits a year to each school in his territory. Occasionally, he can visit two schools in a day, as was the case yesterday. The educational work in the rural schools has been thoroughly systematized and is now being done in satisfactory manner.

ELECTED DIRECTORS.

The annual meeting of the Negaunee National bank was held yesterday afternoon. The following were re-elected as directors for the ensuing year: E. N. Breitung, Benjamin Neely, C. Meilleur, A. E. Boswell, Philip Levine, John Miller, J. Sawbridge, J. Hodgson and Jas. F. Foley.

The new bank building, to be erected on the site where the Montreal House stands, is receiving the attention of the directors. Several designs have been submitted and more are being prepared. The new building will be one of the most modern banking houses in the upper peninsula. Several prominent architects have signified their willingness to submit sketches and a number have already been received. Nothing can be done until early in April, so that the directors have ample time to decide on just what is wanted.

VOCAL INSTRUCTION.

Miss M. E. Fellow, pupil of William Howland and S. A. Sargent, will meet those who wish instruction in vocal work Saturday morning at her home in Negaunee, 1-11-6t.

LIGHT DEATH RATE.

There were only eighty-eight deaths in Negaunee during the year 1909, compared with 118 in 1908, 139 in 1907 and 126 in 1906. The large number deaths in 1907 was largely due to the many fatalities that occurred at the mines. The Rolling Mill disaster, which occurred on Sept. 20, 1907, resulted in the death of eleven men. There were 270 births in 1909, compared with 264 in 1908, and 268 in 1907.

Have you a weak throat? If so, you cannot be too careful. You cannot be too early. Each cold makes you more liable to another and the last is always the harder to cure. If you will take Chamberlain's Cough Remedy at the outset you will be saved much trouble. Sold by The People's Drug Store.

DID BIG BUSINESS.

Administrator T. M. Wells Speaks of the Laughlin Estate.

Thomas M. Wells, administrator of the Nicholas Laughlin estate, fearing that the brief interview given in yesterday's issue of The Mining Journal, relative to the prospects of selling the business, might have created a wrong impression, said:

"While we have had several offers for the business, we did not consider them adequate. As it has been decided to discontinue the business, we are desirous of closing it out in bulk before the first of next month, and will name a price that should surely be an inducement to purchase an established business of forty years standing. Mr. Laughlin for years did a business, the cash part of which was from \$65,000 to \$70,000 a year, and while we mentioned fifty customers of long time trading, there are 150 other good customers trading at the store. I shall be pleased to have any one interested investigate this opportunity to purchase a paying business at the best price that was ever offered in Marquette county. The business should be continued, as the location is a good one and the opportunity for an increase of trade is assured."

Nicholas Laughlin, Jr., has purchased from the estate the liquor business, and is now conducting it under his own name.

OLD OFFICERS RE-ELECTED.

At the annual meeting of the stockholders of the Escanaba River, Land & Iron company, held here Monday afternoon, the old board of directors was re-elected. It is composed of Charles Johnson, J. H. Winter, J. E. Sues, Nathaniel Lobb, Mrs. Elizabeth Lobb, George J. Maas and Mrs. M. H. Kline. At the conclusion of the stockholders' meeting the board re-elected the old officers. They are: Charles Johnson, president; J. E. Sues, vice president; J. H. Winter, secretary and treasurer. The company owns the fee of the Austin mine, on the Swanzy range, being operated by the Cleveland-Cliffs Iron company, also a small tract of nearby mineral land.

MODERN BROTHERHOOD ELECTION.

At the regular meeting of the Negaunee branch of the Modern Brotherhood of America, the following officers were elected for the ensuing year: Past President—E. H. Griddle. President—E. C. Rooks. Vice President—Richard H. Uren. Secretary and Treasurer—C. H. Jennings. Chaplain—Charles Rosevare. Conductor—Moses Barabe. Sentinel—William Watters. Warden—John Willis.

Directions for Colic in Horses—(Perry Davis) in quart bottle, add pint warm or cold water, sweeten with molasses. Shake well until all mixed. Give about half at once, then balance in fifteen minutes. If first dose is not sufficient this will be found a never-failing remedy. 35c. for a large bottle. Also in 25c. and 50c. sizes.

REPUBLICAN JUDICIAL CONVENTION.

The governor of the state of Michigan having ordered a special election to be held on Monday, April 4, 1910, for the purpose of electing a circuit judge, for the Twenty-fifth judicial circuit of said state of Michigan, to fill the vacancy created by the resignation of Hon. John W. Stone, notice is hereby given that a Republican convention for said Twenty-fifth judicial circuit is called to meet at the court house in the city of Marquette, Michigan, on Saturday, the 22nd day of January, 1910, at 2 o'clock p. m., to nominate a candidate for circuit judge of said judicial circuit.

The following apportionment of delegates, to which the various counties comprising said judicial circuit will be entitled to at said convention, is based upon the total vote cast for governor at the general election held in said state of Michigan, in November, 1908. Each of said counties will be entitled to one delegate for every 500 votes, or moiety thereof, cast at said election.

County	No. of Delegates
Delta county	4,511 9
Dickinson county	3,394 7
Iron county	2,411 5
Marquette county	2,512 15
Menominee county	4,376 9
Total number of delegates	45

By order of the judicial committee. Dated at Menominee, Mich., January 8, 1910. F. J. TRUDELL, Secretary.

LOCAL LAONICS.

J. D. Chubb, the Chicago architect, was in the city yesterday.

Miss Sheehan is here from Chicago on a visit to her mother.

John Keyes, the well known Hancock commercial man, called on his Negaunee patrons yesterday.

Louis Townsend left last night for Shadlock Military school at Fairbault, Minn., to resume his studies.

The members of the Bridge Whist club were entertained Monday evening at the home of C. V. Townsend.

John F. Allison and family, who left Negaunee last fall for Detroit, have moved to his former home at Elkhart, Ind.

The fire department was called out Monday afternoon to extinguish a chimney fire at Mayor Winter's home on Main street.

Mrs. L. Ross, of Detroit, who has been in the city for ten days past, visiting at the home of R. G. Jackson, will leave tomorrow for Jackson, Wis.

Matt Kangas, the clever Graeco-Roman and catch-as-catch-can wrestler of this city, will participate in a tournament at Calumet on Friday and Saturday evenings of this week.

Three girls have entered for the roller skating contest at Adelphi rink tonight. They are the Misses Tori Anderson and Julia Lindberg of Ishpeming, and Bessie Gilbert of this city.

Posters advertising the Negaunee German Aid society's annual masquerade ball, to be given at McDonald's Opera House a week from Friday night, the 21st, have been issued.

The two-year-old son of Eldredge Barabe, formerly of this city, who has been located in Los Angeles, Cal., for some few years past, died on New Year's day, after a brief illness.

Mrs. Elizabeth Lobb, formerly of this city, who now lives at Munising, and her daughter, Mrs. W. R. Burns, left Munising Saturday for California, where they will spend the remainder of the winter.

Charles Wasmuth, who has held the position of assistant City Recorder W. H. Mitchell for some few years past, has resigned to accept the position of supply clerk at the Mary Charlotte mine. Mr. Mitchell has received a number of applications for the place.

The annual meeting of the Negaunee club will be held this evening at 8 o'clock. New officers will be elected and committees will be appointed for the ensuing year. At the conclusion of the meeting there will be an auction of accumulated periodicals. The auction is always an amusing event.

Arthur Granberg, who left Negaunee a few years ago to go into the navy, was recently promoted to the position of commissary sergeant at the station in Colon, Cuba. Mr. Granberg went around the world with the fleet, concluding his work with the marines at San Francisco

on the return trip. He was then transferred to Colon.

Charles Vincent, a former member of the Negaunee police force, has taken a position as police officer with the Oliver Iron Mining company at the Hartford mine. William Harrington, who recently resigned his position as deputy game and forestry warden, is at the head of the Oliver force in this county, working under David Foley, chief of the police system on the several ranges. Mr. Vincent has been employed at the Maas mine the greater part of the time since he gave up his job on the city force last spring.

SEMESTER EXAMINATIONS COMING LATE THIS MONTH, FOR WHICH ALL ARE PREPARING.

WILL ENTER STATE CONTESTS

Final Local Declamatory Contest to Be Held Tomorrow Evening, With Others to Follow—Basketball and Play.

Students of the Marquette high school are unusually busy just now. The semester examinations are coming the last two school days of this month and those who have never studied before are now digging in to avoid "flunking" in any of their studies.

MORE BONDS PAID.

In a Year More, Light and Power Commission Hopes to Be Out of Debt.

At the meeting of the light and power commission held Monday afternoon, \$18,300 of outstanding bonds were paid off and the commission intends to retire \$1,500 more, now due, as soon as the holders can be located.

When the city lighting plant was established twenty years ago, a bond issue of \$60,000 was floated. Under the management of the common council, things went badly with the plant the first few years and in 1895 the public was clamoring for more adequate service.

C. T. HARVEY HAS A BIG JOB IN CANADA

WORK ON ROAD FROM JACKFISH TO HUDSON BAY PROGRESSING RAPIDLY UNDER DIRECTION OF WELLKNOWN CIVIL ENGINEER.

C. T. Harvey, the well-known upper peninsula mining engineer who was instrumental in the construction of the S. M. S. canal and the locks at the Soo, as was briefly stated in these columns several weeks ago, is now chief engineer of the road being built from Jackfish bay, on Lake Superior, to Hudson bay.

The construction of the road was rushed with such energy that within sixty-five days from date of positive action by the underwriting syndicate a gasoline motor boat capable of conveying twenty persons, was taken over it by horse and man power from Lake Superior to the largest lake in the Ontario section of the Hudson basin, a distance of about twenty-five miles.

It arrived on the 30th of November, last, at Lake Kenogama, generally known as Long lake, which is fifty-five miles long, its outlet, the Kenogama river, flowing into the great northern sea via the Albany river, to which it is tributary, and furnishing a continuous waterway over which the motor boat can pass to tide water early in the coming season of navigation.

The achievement, unequalled as a pioneering feat in the annals of Canada, both in novelty of conditions and rapidity of progress, is also of most notable historical importance, because of its initial introduction of improved methods of river transit into the vast Hudson basin east of Manitoba.

The era of exclusive canoe and row-boat, northern river transit, is now ended, precisely three hundred years since European eyes first saw those sea shores and water courses, and the natives who glided about the same in bark canoes, in all previous ages.

The motor car will soon follow the motor boat in dispelling the isolation of centuries thus far attaching to Hudson bay, but that the usefulness of the latter will be invaluable in utilizing those northern water courses as civilization advances is self-evident.

This road will be used for bringing down the large catch of salmon to Ontario and American points, which now goes via Hudson Bay and Labrador to eastern points. Several motor boats will be shipped for use on the different waterways. Nineteen hundred and ten and nineteen hundred and eleven are the tercentenary years of the discovery of the bay and the death of the explorer, Henry Hudson, which it is proposed to celebrate. It is expected that the line will be in operation before the end of the present year.

Conditions for lumbering in this locality are about as near ideal as they could be, according to George Reichel, of the firm of Reichel Bros., who are operating a camp on the Yellow Dog river. The ground is covered with a heavy layer of evenly distributed snow and the weather has been neither too cold nor too warm for successful logging.

The Reichels report that they are not troubled with any scarcity of men, such as has been reported in other parts of the peninsula, and that they have all the help they can use to advantage. They now have between forty and fifty men in their employ. The camps on the Salmon Trout river, with the exception of the office, which has been sold to a Marquette man for a camp, have been torn down.

While the Chinese are being deported, we deem it very important to assure our friends that we are still in business. Domestic or polished finished collars, at request. Our work is high-class and prices right. Give us a trial.

GLORIOUS TRIBUTE TO JUSTICE GRANT

DETROIT FREE PRESS GIVES HIGH PRAISE TO RETIRING MEMBER OF STATE SUPREME COURT.

The Detroit Free Press pays the following tribute to Justice Claudius B. Grant, who was elected to the supreme court from this circuit and to succeed whom Hon. J. W. Stone was recently elected.

With the close of last year, Michigan lost from the public service one of her most distinguished and useful men. After twenty-eight years of continuous service on the bench, Claudius B. Grant, at the age of seventy-four, voluntarily declined to accept a re-election as justice of the supreme court. This he did, not because he or his friends believed he had reached the end of his usefulness, since his health had been exceptionally good for the last few years, and in the opinion of his associates of the bench and bar generally he was never more vigorous mentally than he is now.

One of his associates on the bench recently publicly declared that the last opinion filed by Judge Grant was equal in clearness of statement and force of reasoning to any he had ever written. But he had the wisdom to appreciate that at his age it was uncertain how long his present vigor would last, and that eight years was a long time in the life of a man who is seventy-four.

Justice Grant was born in Maine in 1835, and twenty years later he came to Michigan, entered the university and graduated in the classical course in 1859. In 1862 he entered the army as a captain in the Twentieth Michigan infantry, retiring at the close of the war as colonel of his regiment. He at once entered the law department of the university, and upon his graduation was admitted to the bar and formed a partnership with his father-in-law, Ex-Governor Alpheus Felch.

For more than forty-five years he followed with patient industry his chosen profession, and twenty years ago he was crowned with the high honor of the supreme justice-ship.

Justice Grant is a man of exceptional fiber. Born of New England stock and reared in an atmosphere of sobriety, in a law-respecting and law-abiding community where industry and thrift were the rule, he possesses much of the inflexible character of the Puritan. With him a law was always the law, and there were no dead-letter laws. He believed that if the people didn't like a law, they should repeal it; but so long as it remained on the statute books, he sternly demanded that every citizen should obey it or take the consequences.

He had a high sense of official responsibility. With him public office was not only a public trust to be held, but to be used as a weapon of official language and defense against lawlessness. This does not mean that he was a fanatic. On the contrary, he was open-minded, without pride of opinion for opinion's sake. He never made up his mind without careful and conscientious investigation. He courted discussion and had a good listener. It was only when his judgment was convinced and his conscience satisfied that he was inflexible.

Because of his active interest in the enforcement of the laws, and his vigorous public denunciation of those officers who were charged with their enforcement but who shirked their duty, he has been unfairly criticized as intolerant and bigoted on the temperance question. Nothing could be farther from the truth. He believed in sobriety. In his personal habits he was temperate in all things as was St. Paul; but like St. Paul, he was "a lover of hospitality," and not averse to "using a little wine for his stomach's sake." He has never made any concealment of his position upon this question. He has been as frank and open in his views upon this as upon all others.

But it is in the 78 volumes of Michigan Reports, to which Judge Grant's industry and learning have contributed, that he has erected his enduring monument. It is a living monument, for so long as Michigan retains a government of law, Judge Grant's opinions will speak in the clear and forcible language of which he was a master, in support of sound principles in business and social life, and will furnish sure and safe precedents to which future generations will turn for enlightenment in the administration of justice.

Justice Grant, starting out on a trip that will give him a well-earned vacation. It may be predicted, however, that he will not find it congenial to remain long idle. His active mind and strenuous personality will keep him in the front line of progress for many years. In talking with a friend a few weeks ago, he was asked if he had read the charming pieces by David Grayson that have been running in the American Magazine, entitled "Adventures in Contentment." He said he had not. His friend outlined some of the articles and said he had enjoyed them very much, and had often wished that he could make a similar experiment in seclusion and simple living for the rest of his days.

"Oh," said Judge Grant, "I don't. I want to stay in the fight to the end." And so he doubtless will, to the advantage of us all.

CLERKS ELECT OFFICERS. At a meeting of the Retail Clerks' union, held at Siegel's Hall Monday evening, the following officers were elected: President—A. E. Peterson. Vice President—Arthur Boudry. Financial Secretary—Charles Mogren. Recording Secretary—Clifford LaFave. Guide—Peter Adolph. Guardian—Henry Johnson. Delegates to Central Labor Union—Arthur Boudry, Peter Adolph, Con Wellman.
