

UNCLE JOE IS STAR AT NOVEL SESSION

House "Autocrat" Makes Witty Address at the "Hobby" Entertainment of the National Press Club at Washington.

He Styles Roosevelt the Greatest Press Agent That Ever Lived; Says That While Peary Has the Glory, Cook Has the Money; Thinks That If Wiley Had His Way the People Would Be Afraid to Eat Anything, and Pokes Fun at Pinchot.

Washington, Feb. 15.—Men who ride "hobbies" make excellent servants but mighty poor masters, was Speaker Cannon's declaration tonight at the "hobby" entertainment of the National Press club. Among the "hobbyists" who preceded Mr. Cannon were Chief Moore, of the weather bureau; Dr. Wiley, of pure food fame; Gifford Pinchot, "still chief of the forestry of the United States," according to the introduction given him, and Commander Peary and Champ Clark.

Mr. Cannon declared that his "hobby" was "watching other men's hobbies." Men of one idea, he declared, are all good men, although "it makes one uncomfortable watching other men's hobbies." Of those who preceded him, he declared Dr. Wiley all right but if he were allowed to have his own way he would have everybody afraid to eat anything for fear of being poisoned.

With reference to Peary the speaker was glad that a Caucasian had reached the pole, but while Peary had the glory, Cook had the money. Roosevelt the speaker called the "greatest press agent that ever lived." He asserted that more good legislation was passed during the colonel's seven years' presidency than in any other similar period, except the Civil war.

The speaker declared that he found great enjoyment in watching the men who had "hobbies," but it hardly would do to let them head things. Mr. Cannon declared that Roosevelt had been more popular than either Lincoln or Grant while the latter were alive.

With reference to the congressional campaign in Illinois, Champ Clark again referred to the question of close votes which had decided great issues.

Mr. Cannon declared that he did not know whether he would get back to congress or not. Then, hesitating a moment, he added, "Anyway, there will be a lively time of it."

Gifford Pinchot defined conservation as the "natural resources prudently, wisely, foresightfully and economically handled and the benefit of them fairly and evenly distributed as far as the natural inequality and capacity of men will allow and as far as laws can be made to force it, giving everybody a fair show to get his share."

Dr. Wiley declared that his great hobby was to give the benefit of any doubt to the consumer. "My present hobby" is Antarctic exploration, declared Peary.

MANY ALIENS HAVEN'T PAID. Government a Big Loss in the Collection of the \$4 Head Tax.

Washington, Feb. 15.—Whether the government is losing a million and a half dollars a year in the collection of the \$4 head tax for every alien entering the country is a question the members of the house immigration committee are pursuing.

Mr. Hayes, of California, noted the fact that the figures showed there were 400,000 immigrants a year who paid no tax. Mr. Bennett, of New York, endeavored to show that many aliens are not subject to the tax.

Assistant Secretary Cable and Solicitor Earl, of the department of commerce and labor, were questioned regarding the tax, but were unable to satisfy the committee.

RAILROAD MEASURE ATTACKED. In Its Present Form, It Is Said, It Would Kill the Electric Lines.

Washington, Feb. 15.—Should the administration railroad bill pass in its present form, it would discriminate in favor of the steam railroads and absolutely crush out the electric lines, according to witnesses before the house committee on commerce today.

The bill gives the interstate commerce commission power to fix joint and through rates for steam lines, but no mention is made of electric roads.

"Why should our railroad be deprived of transacting a commercial railroad business," asked an Iowa electric road manager, "simply because it has an electric wire strung over its tracks?"

The hearing will be continued tomorrow.

MILWAUKEE MAN HONORED.

Washington, Feb. 15.—The state department has appointed as honorary commissioner general to the exposition in Berlin, Germany, from May until July, this year, William C. Brumder, of Milwaukee. Four honorary commissioners also have been chosen.

RIVER AND HARBOR BILL GOES THROUGH HOUSE.

Carrying Appropriations in Excess of Forty-Two Millions, the Measure Is Passed Practically as the Committee Reported It.

Washington, Feb. 15.—The rivers and harbors bill, carrying appropriations of more than \$35,000,000, with authorizations of work that will cost more than \$7,000,000 additional, was passed by the house today. The two days debate did not result in any important amendments.

"The godfather of all river and harbor improvements," was the title bestowed upon Speaker Cannon by Mr. Moore, of Pennsylvania.

Mr. Mason, of Arkansas, the Democratic objector of the house, had proved the appropriations in the bill for the Mississippi, which river is not only the Father of Waters, but the mother also, he declared, and for that reason he thought that no objection should be made against its improvement.

"If the Mississippi is the mother and father of waters, where does the speaker come in?" inquired Mr. Moore, who suggested that Mr. Cannon be known as the "godfather of the waters."

WHY PRICES ARE HIGHER. Senator Crawford Says the Increased Gold Supply Is Responsible.

Washington, Feb. 15.—Mr. Crawford of South Dakota, today addressed the senate in support of the contention that instead of wasting months or years in investigating the causes of the increased prices of the necessities of life, congress should devote itself to devising a remedy.

He attributed the rise in the cost of living to the rapid increase in the gold supply and the corresponding increase in the per capita circulation.

Mr. Crawford declared that the investigations by the labor bureau had been sufficient to establish the facts relative to the increase, and that further inquiry was useless. He found no cause for regret in the situation, except as it affected wages, which had not been correspondingly increased.

He declared that public opinion should compel such increase, thus placing the wage earner of an equal footing with the producer in the enjoyment of the good times.

Burkett Defends Postal Savings. Asserting that not even the fathers were more solicitous concerning the fate of their child, the federal constitution, than was Senator Rayner, of Maryland, Mr. Burkett, of Nebraska, replied to Mr. Rayner's recent speech attacking his position on the postal savings bank bill.

Senator Burkett also contended for the wisdom of the proposed law as a means of keeping money in circulation. He thought it would bring large sums out of hiding.

The senate passed a number of bills, among which were measures to prohibit misrepresentation regarding the government's guaranty of foods and medicines and authorizing regulations relative to hazing at the West Point academy.

GLAVIS STILL ON THE STAG. Investigation of the Ballinger-Pinchot Row Drags Wearily.

Washington, Feb. 15.—The Ballinger-Pinchot inquiry dragged wearily today. The cross-examination of Glavis by Ballinger's attorney was almost wholly upon documentary evidence. This required much reading.

Mr. Glavis continued his yesterday's tactics, always coupling his answers with long explanations. Counsel for Secretary Ballinger protested against this, but Glavis appealed to the committee and it was decided he could make his explanations as he desired.

The witness speaks with a decided drawl. His long statements seemed to irritate Attorney Vertrees. Attorney Brandeis, representing the prosecution, grinned constantly all day. Subpoenas were issued today for a number of witnesses, who, Mr. Vertrees announced, would testify about the finding of the twenty-four official letters in the boxes left by Glavis in the grand jury room at Seattle.

LID IS PRIED OFF AT ALBANY, N. Y.

Bribery Scandal Involving Legislators Gets a More Extensive Airing, and With Results That Are Held to Justify Suspicions.

Senator Conger Is Forced to Admit That the American Bridge Company Raised a Corruption Fund in 1902, 1903 and 1905, and There Is Laid a Basis for a Probe That Appears Likely to Bring Out Interesting and Sensational Developments.

Albany, N. Y., Feb. 15.—The lid was pried off the legislative bribery scandal today, and the developments disclosed justified the suspicions. Plans were laid for a wider investigation following the present inquiry of the senate into Senator Ben Conger's charges that Senator Allds took a \$1,000 bribe from an agent of the American Bridge company.

The day's disclosures laid a basis for the attempts to write a history of legislative corruption in New York state for nine years, and perhaps longer. When Senator Conger's attorney finished his examination this afternoon, Allds' accuser was forced by senator Newcomb to confess that the American Bridge company raised a corruption fund in 1902, 1903 and 1905.

Conger refused to answer some of Mr. Newcomb's questions until directed by the presiding officer.

After Senator Newcomb had wrung from Conger various admissions regarding the future use of the legislative corruption fund, he moved that the authority of the senate be extended to embrace "all matter relating to corrupt practices to influence the course of judicial legislation between 1901 and 1905."

COMMISSION PLAN WINS. Sioux City and Eau Claire Adopt New Form of Government.

Sioux City, Ia., Feb. 15.—The city adopted the commission form of government today by a majority of 747 in a total vote of 5,000. The proposition carried every ward and lost only in one precinct.

Eau Claire, Wis., Feb. 15.—The commission form of government was adopted today by a plurality of 900 votes in a total of 2,000. The opposition was led by the mayor and the union labor council.

Republicans Triumph at Philadelphia. Philadelphia, Feb. 15.—The Republican organization scored a sweeping victory in today's election. Hugh Black, Republican, was reelected receiver of taxes by a large majority over both his Democratic and William Penn party opponents.

The nine Republican candidates for magistracies won by substantial majorities.

EXPLORER PEARY'S REWARD. Gold Medal and Thanks Proposed by House Naval Committee.

Washington, Feb. 15.—A gold medal and the thanks of congress for Robert E. Peary, discoverer of the North pole, are contemplated in a bill introduced today by Representative Butler, of Pennsylvania, chairman of the subcommittee which a few days ago reported adversely on the proposition to make Peary a rear admiral.

The whole matter was referred back to the naval committee. It is stated the committee will endorse the Butler bill.

Clairmont, N. Y., Feb. 15.—Nava, champion Peary at today's committee meeting, although neither favored granting the explorer the rank of admiral. A motion by Mr. Hobson, of Alabama, to call Peary before the committee and ask him why he thinks he should be retired as admiral was voted down unanimously.

PENSION BILL REPORTED. It Benefits the Widows of Civil War Veterans Married Since 1890.

Washington, Feb. 15.—A bill authorizing pensions for the widows of soldiers of the Civil war married since 1890 was reported to the senate today from the committee on pensions.

THE WEATHER

Washington, Feb. 15.—The following is the weather bureau's forecast for Upper Michigan: Snow and colder, Wednesday; Thursday, snow flurries and continued cold.

MAINE DESTROYED TWELVE YEARS AGO. Anniversary of the Disaster Is Observed at Havana and Washington—That the Wreck Be Raised Is Earnest Hope of Speakers.

Havana, Feb. 15.—The twelfth anniversary of the destruction of the Maine was observed here today more elaborately than on any previous anniversary.

A fleet of tugs and yachts bearing the newly organized Havana camp of the United Spanish War Veterans and the Daughters of the American Revolution, American legation and consular officers, representatives of the Cuban government and hundreds of tourists and American residents surrounded the wreck.

The service for the dead was read by Protestant Episcopal Bishop Knight. A bronze tablet from the Daughters of the American Revolution, a floral medalion from the Spanish War Veterans, a wreath from President Gomez and many other tributes were offered.

Addresses were made by Major Hale and Colonel Gibson, both of Boston, commander-in-chief and past commander-in-chief of the United Spanish War Veterans.

All the speeches earnestly expressed the wish that before the next anniversary the wreck will be removed and the dead within be laid in American soil.

SERVICES CONDUCTED AT ARLINGTON. Washington, Feb. 15.—The veterans of two wars today remembered the Maine at the Arlington National cemetery, where lie 160 of the ship's crew.

Destroyed at Havana twelve years ago, Admiral Sigsbee, who commanded the warship, said: "I view these commemorative meetings gratefully. The burden of the Maine rests on me heavily with the advancing years, in ways known only by myself. To Father (the wreck and myself) some saddening evidences of the widespread misery consequent upon her awful destruction."

Samuel R. Van Sant, commander-in-chief of the Grand Army of Republic, spoke of the Maine disaster and the Spanish war as the greatest influence in remitting the country since it was riven by the Civil war.

Colonel J. Walter Mitchell, departmental commander of the Army and Navy union, demanded that congress appropriate funds for raising the wreck.

LYNCHING THREATENED. Four Companies of Militia Guard a Negro at Mobile.

Mobile, Feb. 15.—To prevent an anticipated lynching, four companies of militia were ordered tonight to guard the jail where Eustis Moseley, a negro, charged with assaulting Katie Walters last Saturday, is confined.

Florida Criminal Sentenced to Death. Tampa, Fla., Feb. 15.—Governor Gilchrist has ordered two Tampa companies of militia in readiness to respond to a call to the county jail, where Roland Flowers, a negro, who recently at today's election, Hugh Black, Republican, was reelected receiver of taxes by a large majority over both his Democratic and William Penn party opponents.

The nine Republican candidates for magistracies won by substantial majorities.

STOCK MARKET VERY DULL. Trading Is Semi-Stagnant and the Price Fluctuations Narrow.

New York, Feb. 15.—The stock market gave additional evidence today of its dull apathy. While urgent liquidation has ceased to press upon the market, disposition is manifested to accumulate stocks with sufficient determination to raise and maintain prices.

The desire to see the Federal Reserve act in the Sherman anti-trust law which is expected to emanate from the supreme court is accepted as the motive in refraining from large market commitments by the capitalists of the class which make a great speculative movement.

The decision of the tobacco case, however, is not expected until the Standard Oil case is submitted.

From the low prices of a week ago, marking the culmination of the liquidation, the rebound had been substantial, reaching over eleven points in Reading, which led the recovery. The efforts to extend the recovery centered in Reading today. The professionals, however, finding themselves almost alone in the buy-sell, desisted and allowed the dealings to lapse into semi-stagnation.

The dimming force of the current of the price movement was seen in the hesitating uncertainty of the narrowing fluctuations.

ADMITS STOCK OWNERSHIP. Mr. Stubbs Testifies in the Suit to Dissolve the Harriman Merger.

New York, Feb. 17.—General Traffic Manager Stubbs, of the Harriman lines, testified today in the hearing of the government's suit to dissolve the Union and Southern Pacific merger. Mr. Stubbs admitted that the Union Pacific had a stock ownership in the Oregon Short Line which gave the former a direct line from the Missouri river to Portland.

"So that all Asiatic business moved from the Missouri river to Portland would be handled by the Union Pacific alone," he was asked.

"Yes, that's so," the witness replied.

LOCOMOTIVE ENGINEER IS KILLED. Columbus, O., Feb. 15.—Engineer Benjamin Pierrig was killed and fifty people were injured, seven trainmen seriously, at Kimberly today in a head-on collision between a Hocking Valley passenger train and a way train.

POSTAL WILL QUIT THE "WIRE TRUST"

Annual Meeting of the Mackay Companies at Boston Determines That the System Shall Be Free and Independent.

Just to Please the Public and to Calm Its Fears, It Is Officially Announced, the Entire Holdings of Stock in the American Telephone & Telegraph Corporation, Which Now Controls the Western Union, Will Be Placed on the Market.

New York, Feb. 15.—Just to please the public, the Mackay companies are going to sell their holdings in the Bell company, which controls the Western Union. The sale was agreed upon at the annual meeting of the Mackay companies in Boston today.

A statement issued in New York tonight by Vice President Adams, of the Postal company, says: "The Mackay companies will sell their entire holdings of stock in the American Telephone & Telegraph company, in deference to public opinion, which views with suspicion this large holding of stock in a company which recently purchased control of the Western Union."

"That stock was acquired by the Mackay companies with a view of obtaining economies in the construction and maintenance of joint lines over long stretches of country where the business is insufficient to justify independent poles. Since, however, the American Telephone & Telegraph company has acquired control of the Western Union, the time has come for the Mackay companies to sell their holdings."

"The Postal system will continue free and independent and prepared to maintain the competition it has furnished for twenty-five years."

MUST CALL PACKERS THEMSELVES. Testimony of Minor Employees Is Not Satisfactory to Prosecutor Simms.

Chicago, Feb. 15.—District Attorney Simms, who is conducting the grand jury investigation of the packing industry, said today that he believed the following points have been established.

First. That if the government hopes to establish a case, it must pay less attention to minor employees and call the heads of the packing world to get at the facts of meat.

Second. That the packing interests are determined to drive home to the beef jurors that know that a trust exists, that it would be impossible for any ring to control prices, and that the law of supply and demand alone regulates the price of meat.

The most important witnesses today were President Agar, of the Western Packing & Provision company; Vice President Patterson, of the National Packing company, and F. E. White, known as the right hand man of Arthur Meeker, general manager of Armour & Co. Both White and Agar stood before the jurors and in reply to a rapid fire of questions quoted figures and purported facts, all tending, they asserted, to show that competition exists.

STOCK MARKET VERY DULL. Trading Is Semi-Stagnant and the Price Fluctuations Narrow.

New York, Feb. 15.—The stock market gave additional evidence today of its dull apathy. While urgent liquidation has ceased to press upon the market, disposition is manifested to accumulate stocks with sufficient determination to raise and maintain prices.

The desire to see the Federal Reserve act in the Sherman anti-trust law which is expected to emanate from the supreme court is accepted as the motive in refraining from large market commitments by the capitalists of the class which make a great speculative movement.

The decision of the tobacco case, however, is not expected until the Standard Oil case is submitted.

ROOSEVELT TABOOES PLANS TO LIONIZE HIM.

His Visit to Paris Will Be That of a Man of Learning Come to Lecture and Will Be Devoid of Spectacular Features.

Paris, Feb. 15.—The vice rector of the University of Paris is officially advised that Theodore Roosevelt will arrive April 14 and will remain in Paris three or four days. The government is anxious to honor an avowed society to honor literary, philosophical, geographical and scientific bodies desire to entertain him, and the American colony proposes a grand banquet in his honor.

But Mr. Roosevelt has allowed it to be understood that he desires to avoid any appearance of ostentation and to preserve the role of a man of learning who has accepted an invitation to lecture at the Sorbonne. Mr. Roosevelt's visit therefore will be devoid of the spectacular features which characterized Grant's visit at the time of his world tour.

Wife and Daughter Leave for Egypt. New York, Feb. 15.—Mrs. Theodore Roosevelt and daughter, Miss Ethel, sailed today on the liner Hamburg from Naples, en route to Khartoum, where they will meet Mr. Roosevelt and return with him to Europe.

BRITISH SOLONS MEET. Ceremony of the Simplest Character Marks the Opening Session.

London, Feb. 15.—Parliament assembled this afternoon for the ceremony of the simplest character, all the royal pageantry usually connected with an event of the kind being postponed to Feb. 21.

The result of the recent elections is so confused that even the staunchest supporters of the government admit that proof that the government will have a majority to act drastically upon the dominant issues can be established only after commons has settled down to work and the Nationalists and Laborites show their hands in the course of the debate upon the speech from the throne.

Redmond Promises Irish Support. London, Feb. 15.—This afternoon Redmond, Dillon and O'Connor conferred with Chancellor Lloyd-George on the attitude of the Nationalists toward the budget. It is understood that Mr. Redmond assured the chancellor that the general body of Irish members will make no attempt to embarrass the government whatever be the ministers' decision on the order of dealing with the budget and veto questions.

It is believed that Premier Asquith will promise some concessions to Ireland in the next budget which will justify the Nationalists in supporting the government.

King Edward Buys Italian Village. London, Feb. 15.—A Chronicle dispatch from Milan says that the beautiful village of Brazillana, in the province of Naples, has been purchased in behalf of King Edward. It is rumored that one of the guests of the king and queen there will be Theodore Roosevelt.

GIVES FOES THE SLIP AGAIN. Wily Gen. Chamorro Evacuates Matagalpa When Practically Surrounded.

Managua, Feb. 15.—The Madriz forces have again taken possession of Matagalpa, which Feb. 10 was occupied by Chamorro. The bombardment was resumed yesterday, and Chamorro, being without means to reply, evacuated early this morning. The revolutionists occupied none too soon, as they were nearly surrounded by the government forces. It is reported here that Chamorro has broken from Estrada and proclaimed himself president.

Managua, Feb. 15.—Chamorro, with a force estimated by the government at 800, is reported moving towards Managua by forced marches. Chamorro passed Terranova, twenty-four miles south of Matagalpa, this evening. General Lara, with 500 men, is in hot pursuit. Ramirez, with 500, is marching to intercept him at Boaco. Generals Valle and Carrera, each with a command of 300, are making a flanking movement to Matagalpa. General Chaverria is supporting the enveloping movement, directing it from Matagalpa. Colonel Valdes, with 200 troops, left Managua tonight to oppose Chamorro's advance. On the evacuation of Matagalpa, General Masias and forty other wounded insurgents fell into the hands of the government.

Bluefields Not Worried. Bluefields, Feb. 15.—It is believed possible that Chamorro did not take his full force to Matagalpa, and that his evacuation of the city was a strategic move. Confidence is felt in Chamorro's ability to move to Managua whenever ready.

Washington, Feb. 15.—Reported outrages against Americans in the vicinity of Matagalpa, the present battle center in Nicaragua, are being investigated. The further determination of the policy of the United States towards the Madriz administration depends on the result.

FRENCH DISASTER IN SENEGAL. Whole Company of Five Officers and 110 Natives Is Massacred.

Paris, Feb. 15.—An official dispatch from Governor Dakar, of Senegal, says that a French detachment has suffered heavy losses through an ambush in the Ouade region.

A whole company of five French officers and 110 native soldiers was massacred.

IS A DEAD ISSUE. Archbishop Ireland's Comment on the Fairbanks Episode at Rome.

Washington, Feb. 15.—Archbishop Ireland called the White House today and through Secretary Carpenter arranged for an interview with the president later. When reference was made to the Fairbanks episode, the archbishop remarked that it was a dead issue. "Some people," he added, "like to play with corpses, but I do not."

OPERATORS REJECT MINERS' PROPOSAL

Coal Companies Whose Collieries Are in the Pittsburgh District Refuse the Demands in the "Permissible Powder" Question.

On the Ground That Various Features of the Proposition Violate the Toledo Agreement of 1908, Which Especially Provides That Nothing Shall Be Done by the Men to Increase the Cost of Production, the Concessions Asked For Are Denied.

Pittsburg, Feb. 15.—The Pittsburg coal operators today refused the demands of the miners in the "permissible powder" question, on the grounds that the demands were unfair and in violation of the agreement made at Toledo in 1908.

The Mine Workers demanded compliance with the terms made by the Charlot Coal company, by paying on the run-of-mine basis or providing an increase of 5% per cent to the men working in wide rooms and 9 per cent in narrow work; that the miners be furnished the new explosives at the same relative cost of black powder, and that when shot-firers are employed the company should pay them.

The operators assert that the Charlot company does not come in competition with the other operators, and that on a run-of-mine basis the miner becomes careless and that when shot-firers are employed the company should pay them.

The operators assert that the Charlot company does not come in competition with the other operators, and that on a run-of-mine basis the miner becomes careless and that when shot-firers are employed the company should pay them.

BASEBALL MAGNATES DIVIDED. National League Holds Heated Meeting Without Adopting a Schedule.

New York, Feb. 15.—The magnates of the National Baseball league discussed the rival schedule propositions beatled from two this afternoon until after nine tonight, and then adjourned until tomorrow afternoon.

Chicago, Feb. 15.—The first day's session of the American Baseball league's schedule meetings was uneventful. No action was taken on the adoption of the schedule. The adoption of a new agreement to replace the ten-year one which ends in November was discussed. Many favored a perpetual agreement. The question will be voted upon tomorrow.

The American association today adopted a 168-game schedule, opening April 13 and closing Sept. 23. Action on the amendments and the revision of the constitution was deferred until a special meeting here May 3. The Western league will hold its schedule meeting tomorrow. It is unknown yet whether a 154 or a 168-game schedule will be played, but it is believed the majority of the club owners favor the shorter schedule.

BURGLARS GET RICH LOOT. Bank at Chatsworth, Ill., Is Plundered of \$10,000 Cash.

Bloomington, Ill., Feb. 15.—Early today burglars blew the safe of the Citizens' bank at Chatsworth with nitroglycerine and escaped with a team, taking \$8,000 in currency and \$2,000 in silver. Night Watchman William Kyle and Albert Kerber, a citizen, were bound and gagged.

Bold Raid in an Ohio Town. Delta, O., Feb. 15.—Receiving a tip, the sheriff and deputies watched all night for burglars. The thieves not appearing, the watchers went home, but after they had gone burglars entered the postoffice and emptied the safe.

TWO KNOCKOUTS SCORED. St. Joseph, Mo., Feb. 15.—Tommy Breenahan, of South Omaha, tonight knocked out Jimmy Cain, of Sioux City, in the thirteenth round.

Cincinnati, Feb. 15.—Battling Schultz, of Toledo, tonight knocked out Freddie Fricke, of Cincinnati, in the sixth round of a scheduled ten-round bout at Clifton, Ky.

BOWLING AT ST. PAUL. St. Paul, Feb. 15.—Abilin and Dougherty, of St. Paul, took the lead in the doubles in the International Bowling tournament today, with a score of 1,134. John Miller, of St. Paul, went to first place in the singles, with a score of 608. In the five-man event this evening, the Toolezes, of Minneapolis, were high with 2,865.

Per month, by carrier.....\$.00
Per year, by mail.....\$ 6.00
MARQUETTE, MICH., FEB. 16.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

It seems to be settled beyond any question of doubt that Dr. Cook is in South America.

For a young man hardly more than out of his teens former Special Agent Glavis is causing a deal of trouble.

The report of the chemists shows that some of the ice heretofore consumed in Marquette should have been boiled before using.

Having thought the matter over thoroughly, big business has decided that it likes President Taft's recent New York address.

No doubt at all that there is need of a well oiled machine to run the Republican majority in the house of representatives. But there appears to be an abiding conviction that the machine need not, of necessity, be a Cannon road roller.

The New York Republicans have uncovered a life-sized mare's nest in the Alldis bribery case. The leaders are frightened as they contemplate the things to which it may lead. Only the Democrats are satisfied with the developments.

Escanaba won't have anything to do with the baseball league in this county on any terms. It's going in for independent ball and expects to have the fastest team in the upper peninsula. Therefore it expects to get away with Rapid River.

Even if the candidates don't get together, there should be no trouble about having a proper observance of the restrictions which the direct nominations law places on the use of money and the methods of campaign organizations. The candidates will be watching one another closely, after all the discussion the matter has received, and the newspapers will be watching them all collectively.

On his visit to Grand Rapids, with the celebrities who addressed the Lincoln day banquet, Senator Smith is said to have made it clear that he is going to avoid entangling alliance with any one of the field of gubernatorial candidates. This is so obviously the wise thing for Senator Smith to do that no one can justly quarrel with his proposed course. No friend of his among the candidates could expect support from him when that support would constitute a betrayal of other friends. Senator Burrows has even more potent reasons than Senator Smith for keeping himself aloof from this contest within the party, and he likewise intends to do so.

The detailed story of the success met with by George J. Maas and his associates in their exploration for iron in the western part of the county occasioned no particular surprise, for it has been generally understood that their work had been attended by gratifying results. The discoveries made are, however, on Mr. Maas' figures, more important than was perhaps anticipated was the case, and take rank with the most significant finds in the county in recent years. Together with other recent discoveries, they go to show that the future of the Marquette range will be even more rich in production of ore than its past, and they give reason for much pleasure to every person whose interests lie within its borders.

The Chicago Tribune, at the same time it polled the Republican editors east of the east line of the Ohio and north of the Mason and Dixon line on the new tariff law and their attitude on Speaker Cannon as a possible candidate for re-election, addressed this question to them: "If you could vote for president today, for whom would you cast your ballot?"

In the resulting poll the supporters of Colonel Roosevelt outnumbered those of President Taft, the vote being 1,360 to 1,063. There need be little surprise at this, as many of the states polled have been the seat of aggressive insurgent movements that have to a considerable extent taken on an anti-administration tinge, and there can be no doubt that the tariff, for which the president is such an unhesitating voucher, is decidedly unpopular among their people. In Michigan ninety-seven Republican editors expressed a preference for Colonel Roosevelt, as against seventy-seven for President Taft. The Tribune's poll indicates that the Roosevelt popularity is an unimpaired asset, and also that if Colonel Roosevelt were the sort of a man to encourage the "Return from Elba" movement might take on all the formidableness that some of the nervous adminis-

tration men have been inclined to attribute to it.

The Detroit News discusses Mr. Musselman's allying of himself with the "temperance" movement, as he terms it, as a development promising much of interest in state affairs. It comments that Mr. Musselman has hit upon something that marks his candidacy for governor out distinctly from the others. "It is very unusual and, we would say, very courageous. It may be interpreted as a bid for the prohibition vote of the state, but there is no manner of interpretation that will make it appear as a bid to the liquor interests," the News remarks.

"Mr. Musselman cuts loose at one stroke from a powerful source of political support and he cuts loose without leaving one loophole for return. Speculation now turns on the effect that this will have in the primary election. There is no denying the fact that the temperance sentiment in Michigan has attained remarkable strength. The number of counties that have voted 'dry' is proof of that. Neither is there any doubt that the advocates of prohibition are making a most active campaign to increase that sentiment."

The same old plan of abolishing all the pension agencies save one, this has been located at Washington, has again bobbed up in congress. This is a plan that has been recommended by several pension commissioners, but every time congress attempts to carry out the recommendation influence is brought to bear to defeat the measure. There are at present eighteen pension agencies located in different parts of the country, and of course if seventeen of them were to be abolished it would mean cutting off a number of fat-salaried positions for faithful and favored political workers; also the elimination of a large number of clerical jobs, usually reserved for those who have managed to make themselves useful in the gentle art of promoting the success of some particular leader or party organization. Should there be a consolidation of all these offices, as proposed, it would naturally result in compelling many of these office holders and employes to seek other means of earning a livelihood, and for this reason they and their friends are always active in trying to defeat the plan.

At the same time it is perfectly plain that the proposed plan is a good business suggestion, calculated to save the government a good many thousand dollars annually, and therefore desirable on the ground of economy. The only objection that has been urged against it, other than the desire of office holders to retain their position, is that it would result in slight delay in the return of pension checks to pensioners in distant parts of the country, and the claim that some of these pensioners are accommodated by being able to personally call at an agency when the live in the same locality. The objection of delay is rather far-fetched, for pensioners who wait three months for their checks could not be greatly inconvenienced by having the checks arrive a day or two later, while there is even less excuse for the other claim of accommodation in allowing pensioners to personally call at an agency. Every pensioner is now furnished with an envelope addressed to the pension agent, requiring no postage, and it is therefore easier to mail a pension voucher than to take the trouble to deliver it personally.

As a matter of fact good business and a desire for economical conduct of the people's affairs both argue in favor of this plan of consolidating the pension agencies, and congress should no longer hesitate to enact the necessary legislation. Purely selfish motives are all that stand in the way of the accomplishment of this plan, and these selfish objections should be swept aside. Were the pension business conducted on the same basis as the business of a private corporation there is not a particle of question that this consolidation would occur, and quickly. Nor is there any good reason why a cumbersome and expensive system should be continued just to accommodate a few office holders, who hate to be legislated out of their positions.

KEEP THE KIDNEYS WELL.
Health Is Worth Saving, and Some Marquette People Know How to Save It.

Many Marquette people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Marquette citizen's recommendation:

David Carr, Marquette, Mich., says: "Doan's Kidney Pills did me more good than any other remedy I ever used. For some time I had a constant, dull pain across the small of my back and was so weak that I could hardly get about. If I sat in a chair for any length of time, my back became lame and I could not arise without catching hold of something for support. On several occasions I was so bad that I had to lay off from work. Seeing Doan's Kidney Pills highly advertised, I decided to give them a trial and procured a box at The Stafford Drug Co. They helped me from the first and in a short time after starting their use I grew strong and the pains left my back. My health has been good since then and I give Doan's Kidney Pills the credit."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Once in a very great while we meet a girl who knows how to handle a man as well as a young widow does.

Referring to the Chicago Tribune's poll of the Republican editors who they would vote for if a presidential election was to be held tomorrow, the Milwaukee Sentinel says: "The vote taken by the Tribune seems premature, and hardly fair to Taft. He is barely over the threshold of his first term, and should be given a chance to show what he can do before judgment is asked on his quality as president. There can be no comparison of records until the Taft record is fairly in evidence. Our conviction is that by 1912 Taft will have made a record which will bear comparison with the best—if only he gets a fair opportunity from the politicians and a square deal in the form of support from the people. The unfortunate party differences and cross purposes at Washington have put in his way difficulties of a kind that Roosevelt at the outset did not have to contend with. It is up to the people to see that this broad, just, generous president of their overwhelming choice gets fair play in the fight he is beginning for the welfare of this nation as he sees it."

CONSOLIDATE PENSION AGENCIES.

The same old plan of abolishing all the pension agencies save one, this has been located at Washington, has again bobbed up in congress. This is a plan that has been recommended by several pension commissioners, but every time congress attempts to carry out the recommendation influence is brought to bear to defeat the measure. There are at present eighteen pension agencies located in different parts of the country, and of course if seventeen of them were to be abolished it would mean cutting off a number of fat-salaried positions for faithful and favored political workers; also the elimination of a large number of clerical jobs, usually reserved for those who have managed to make themselves useful in the gentle art of promoting the success of some particular leader or party organization. Should there be a consolidation of all these offices, as proposed, it would naturally result in compelling many of these office holders and employes to seek other means of earning a livelihood, and for this reason they and their friends are always active in trying to defeat the plan.

At the same time it is perfectly plain that the proposed plan is a good business suggestion, calculated to save the government a good many thousand dollars annually, and therefore desirable on the ground of economy. The only objection that has been urged against it, other than the desire of office holders to retain their position, is that it would result in slight delay in the return of pension checks to pensioners in distant parts of the country, and the claim that some of these pensioners are accommodated by being able to personally call at an agency when the live in the same locality. The objection of delay is rather far-fetched, for pensioners who wait three months for their checks could not be greatly inconvenienced by having the checks arrive a day or two later, while there is even less excuse for the other claim of accommodation in allowing pensioners to personally call at an agency. Every pensioner is now furnished with an envelope addressed to the pension agent, requiring no postage, and it is therefore easier to mail a pension voucher than to take the trouble to deliver it personally.

As a matter of fact good business and a desire for economical conduct of the people's affairs both argue in favor of this plan of consolidating the pension agencies, and congress should no longer hesitate to enact the necessary legislation. Purely selfish motives are all that stand in the way of the accomplishment of this plan, and these selfish objections should be swept aside. Were the pension business conducted on the same basis as the business of a private corporation there is not a particle of question that this consolidation would occur, and quickly. Nor is there any good reason why a cumbersome and expensive system should be continued just to accommodate a few office holders, who hate to be legislated out of their positions.

SAY THE HENS DO THINK.
German Scientists Develop Interesting Facts in Experiments.
If the average man were asked if hens had any memory he would probably say "No," says the St. Louis Post-Dispatch, but he would be wrong, according to the experiments of two German scientists. The plan they adopted was to gum 20 grains of rice on a piece of cardboard, and between them to place 10 grains of loose corn. At first the hens, of course, picked at both rice and corn, but soon they learned to leave the rice alone, thus very clearly showing, according to the scientists, that they remembered the rice was stuck down. A very remarkable point about the experiment was that the longer the time between the trials the better was the hen's memory. When the experiments were made consecutively it took them six times to learn that the rice was not worth touching, but when the experiments were made at intervals of an hour they learned the lesson at the third try, thus showing it is claimed, not only that they had memories but that they thought the matter over in the intervals.
It takes a child to make a wise man feel like an ignorant fool.

Often The Kidneys Are Weakened by Over-Work.
Unhealthy Kidneys Make Impure Blood.
Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.
If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.
The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.
Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer, Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

Classified Want Directory
HELP WANTED.
WANTED—Finnish saleslady to sell dry goods and ladies' furnishings. Must be experienced. Address letter to "B" Mining Journal. (2-15-21)

If you will read the editorial page in this week's (date of February 12) number of

THE SATURDAY EVENING POST

Edition 1,575,000 Copies

you will find it clearly proved from the Post-Office Department's own reports, that it is totally unnecessary to put any additional tax on magazines and periodicals, and that a deficit of \$17,500,000 is not chargeable to the periodicals.

For instance, the Post-Office Department is charging \$13,821,100 of the cost of rural free delivery against the second-class mail. Now, rural free delivery was established as a matter of Government policy, and we believe in it, but it is not fair to charge one dollar of this expense against the magazines. It is undoubtedly of benefit to the daily newspapers, but the Department is trying to exempt them from an increase in rate. The magazines do not need or want once a day or twice a day deliveries on these rural routes.
Page 256, Postmaster's Report, 1908, says: "Franking privileges weighed 4,555,634 papers. They certainly cost the average price of all mail in all ways. And Governmental matter for Departments other than the Post-Office weighed 18,644,010 pounds."
This report says that if the matter was charged at postal rates it would yield a revenue as follows:
Second-class \$ 531,560.94
Franked matter 3,987,546.44
Government matter 16,362,131.95
Total credit due Department \$20,881,239.33
And that awful deficit disappears.
"It is impossible that a business of over \$200,000,000 should not offer an opportunity for enormous savings. And a business like that of our great Postal Department, with endless ramifications, must offer endless opportunities.
"No Postmaster-General entering his position to-day, with all the duties befalling a Cabinet official besides running his Department, can grasp the details of this enormous business before he disappears. There is no time given to him to find these opportunities to save expense. The affairs of the Department must, for the most part, be administered by those under him."

Given a chance they would save in business economies more than the alleged deficit of \$17,500,000.

We ask Congress to give us a Director of Posts—as recommended by the joint Congressional committee of 1907, an officer who shall be non-political, and whose term of service shall not be subject to political changes, and who shall conduct the workings of the Post-Office Department with the efficiency, economy and business-like methods which distinguish high-class American business enterprise.

Copper Country

VERDICT AGAINST WINONA.

Valentine Scender Gets \$900—Other Circuit Court Notes.

The circuit court jury trying the case of Valentine Scender vs. the Winona Copper company, after being out all night and since 2:30 o'clock Monday afternoon, brought in a verdict in favor of the plaintiff in 11:30 yesterday morning. He is given \$900 damages.

Young Burglars Released.

Harry Blonschne and Vivian Bud Gilson of Chassell were released on suspended sentence by Judge Streeter yesterday morning. They are two youths, just approaching manhood, who pleaded guilty in this term to burglarizing a small store at Chassell. Judge Streeter sentenced them to a year in the reformatory, but suspended sentence after giving them a fatherly lecture. He told the youths that he could not understand how any one could be so foolish as to take a chance on fourteen years in prison for the sake of the trifling things which they secured through the burglary. They are enjoined to refrain from drinking intoxicants, to report to Sheriff Myers once a month and in such report to declare how their wages have been disposed of.

Young Burglars Released.

A jury was drawn Monday afternoon in the case of Nick Minkinen vs. the Quincy Mining company. Yesterday morning Attorney C. D. Hanchette, for the company, made a motion to quash, declaring that over night he had discovered that Minkinen was confined in the county jail as an insane person. Attorneys O'Brien and LeGendre asked for half an hour in which to investigate the probable cause of his insanity and after some discussion, during the recess, it was decided to continue the case until the May term. Mankinen is suing for damages for personal injuries. His attorneys offer the plea that he received a disabled arm and was struck on the head by a rock which affected his brain to some extent. The defendant company's attorneys claim that the injury was not disabling, that Nick worked for a year after the injury and that he was an epileptic before he entered the employ of the corporation.

A TOUCH OF WINTER WEATHER.

Copper Country Jarred Out of Its Dream of an Ideal Winter.

The copper country was visited yesterday by a blizzard, one of no great severity but just enough to show that this is no place in which to summer away the winter, even though the conditions have been almost ideal since the first snowfall.

DR. HUBBARD'S GRATITUDE.

Sends a Check for \$100 to the Houghton Fire Department.

Chief Louis Voetsch of the Houghton fire department yesterday received the following note from Dr. L. L. Hubbard, whose stable was recently partially destroyed by fire:

L'ANSE DEFEATS BARAGA.

The L'Anse hockey team defeated the Baraga seven Sunday afternoon at L'Anse in a somewhat rough game, with a score of five to nothing. As a result of this game L'Anse seeks new fields to conquer. Manager D. P. Menard says that his seven challenges any copper country team outside of the league sevens.

Do farmers eat the proper sort of food?

The farmer of today buys a much larger proportion of the food that goes on the table than he did ten years ago. It's a good thing that this is so because he has a great variety to select from.

He should, however, use great care in selecting for the best results in health and strength.

The widespread tendency in the city to increase the amount of Quaker Oats eaten is due very largely to the recent demonstrations by scientific men that the Quaker Oats fed man is the man with greatest physical endurance and greatest mental vigor.

Farmers should give this subject careful thought and should increase the quantity of Quaker Oats eaten by themselves, their children and the farm hands.

DOKAYS TO HOLD SESSION.

Laurium Temple of the Knights of Khorassan Has Plans.

A ceremonial session of Koray temple, Knights of Khorassan, of Laurium, will be held March 28 or April 4. A class of thirty-five tyros has already been formed and will convene in a Franklin hearing room to have the session on Portage lake, but the Houghton and Hancock lodges of the Knights of Pythias could not agree in which town it would be held.

FIRE WAS NOT SERIOUS.

Calumet & Hecla Blaze Was Confined to a Small Space.

The fire which broke out Monday afternoon in the thirty-seventh level of No. 4 shaft of the Calumet & Hecla was extinguished during Monday night so that the day shift men could get to work yesterday morning. The night shift men did not work Monday night. It is believed that the fire originated through the carelessness of masons who were building a fire wall. It did little damage, as it was confined to a small space and was extinguished in a short time.

BLOODY FIGHT AT FRANKLIN.

Frank Laburacci and Another Man Badly Beaten or Slashed.

Dr. W. S. Jackson, county physician, spent half an hour yesterday morning in the office of Sheriff Myers, patching up the head of Frank Laburacci of Franklin. Laburacci's head is a mass of cuts and bruises, he is injured in the back, through a kick, and his left wrist is sprained. Another Franklin man is lying badly wounded in a Franklin hearing house, but is under arrest. When he is able to be moved to the county jail he and Laburacci will be charged with attempted murder.

CALUMET MUNICIPAL COURT.

Attorneys of the District Agitate in Favor of a New Tribunal.

A number of Calumet's most prominent attorneys and legal lights are of the opinion that Calumet township should have a municipal court for the trial of its criminal cases, and that this tribunal should be presided over by a man with legal and business training. The attorneys contend that Calumet has long since outgrown its system of justice mills such as obtain in country districts, and that, with its large population, something like 10,000 or more, its many industries, and metropolitan airs, just as every city should be found there.

WINTERING IN THE SOUTH.

Coppermen People Escape Raw Winds and Snows for Few Weeks.

Many residents of the copper country towns are spending the winter or at least a portion of the cold season in the South and Southwest. People are leaving almost daily for points below the Mason and Dixon line where there is little or no snow and where the cold "cut-throats" have ceased to blow at this season. Mr. and Mrs. James MacNaughton and daughter Mary and Mr. and Mrs. A. B. Mills have left Calumet for Palm Beach. Mrs. E. Sedwick and daughter Elma and Mrs. William Threlwhey, wife of Captain W. H. Threlwhey, will leave next Monday for Los Angeles. Thomas W. Smith, superintendent of the Mineral Range railroad, is at Hot Springs, Ark.; at Hot Springs also are Mr. and Mrs. Herman Haas and Mr. and Mrs. A. Ruttenberg of Calumet. President W. E. Fitch of the South shore railroad is wintering in Texas and Mexico. Mrs. John Bean of Tamarack is spending the winter in Texas.

SMALLPOX EPIDEMIC.

County Physician Says That Condition Is Not an Unusual One.

S.S.S. CURES CHRONIC ULCERS
There is nothing that causes more worry and discomfort than a chronic, festering ulcer. As it lingers, slowly eating into the tissues and surrounding flesh, and by its tendency to grow worse in every way, it suggests the possibility of being cancerous in its nature. Efforts to heal the ulcer by means of salves, washes, lotions, etc., always result in failure, because such treatment can have no possible effect on the blood where the impurities and morbid matters form, and are carried through the circulation to the place, to keep it open, irritated and diseased. The impurities in the blood must be removed before the healing process can begin. S.S.S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcers open. This rich, purified blood is returned to the diseased place the healing commences, the inflammation gradually leaves, the discharge ceases, new tissue and healthy flesh are formed, and soon the sore is permanently cured because the source has been destroyed. S.S.S. does not make a surface cure, but by supplying the blood with healthful, tissue-building properties it begins at the bottom and causes the flesh at the diseased spot to firmly adhere permanently together, and the place is left sound and well. Book on Sores and Ulcers and any medical advice free to all who write.

Green-Roman, with neither man securing a fall. A year after this Zbysko defeated the Russian. He has defeated Nenroulah, the Turk, the same man who was seriously injured by George Hackenschmidt, and who challenged Frank Gotch when the world's champion was in England last year.

Zbysko has also met Beck, Olsen, Lurek, the Russian, and Beaucaire, the French champion. In 1896 Zbysko won the world's free-style title, and entered in the tournament. It was after winning this tournament the Zbysko took up the catch-as-catch-can style of wrestling. He defeated Padonahy at this more modern style of the mat game. He was also matched to meet Hackenschmidt at this style, but the two giants of Europe never came together on the mat. Since the defeat of Hackenschmidt by Frank Gotch there has been an intense desire on the part of the wrestling fans of Europe to again take the world's championship to Europe. Their feeling can be realized when it is known that in Russia, Austria and Turkey wrestling is considered the greatest sport in the world. Frank Gotch is the first American to wrest the heavyweight title from an European champion, Muldoon and Whittier, great American wrestlers as they were, never attained to the title of world's champions.

Hackenschmidt defeated Tom Jenkins for the title in Madison Square Garden. The great Russian won the match in two straight falls, but it was the ridiculous ease with which he won this match that caused the Europeans to ridicule the idea of Gotch defeating Hackenschmidt. The defeat of Hackenschmidt came as a shock to the wrestling enthusiasts of Europe, who had seen Hackenschmidt handle Nenroulah, the giant Turk, with ease, and to toy with the giant, Joe Rogers, a man weighing 260 pounds, and known as the American Apollo, whom Tom O'Rourke took to Europe.

The great question in the wrestling game is whether Zbysko can defeat Gotch. Many Americans will answer no. In Buffalo Zbysko wrestled Gotch to a draw. Gotch agreed to throw the Polish champion twice in an hour and failed to secure anything approaching a fall. Gotch claimed he was not in the best condition at the time. Zbysko claims he is learning more about the American style of speedy wrestling every day. There you have it.

Upper Peninsula

Passed Away in Florida.

The news of the death of Mrs. Florence Jenkins at Jacksonville, Fla., was a great shock to the family at L'Anse. The deceased was a daughter of Mrs. E. L. Mason, Jan. 20, Mrs. Mason and Mrs. Jenkins left L'Anse for Florida to spend the winter, mainly for Mrs. Mason's health. The daughter was stricken suddenly and passed away shortly. She was fifty-seven years of age and had lived at L'Anse practically all her life. Her death has prostrated the mother. The remains of Mrs. Jenkins will be interred in Chicago by the side of those of her husband, who died four years ago.

Maxey His Own Successor.

The Iron River Reporter has been given a gentle hint that John O. Maxey of L'Anse has been decided that he will again be a candidate for re-nomination as representative from the Iron district in the state legislature. For a first term Mr. Maxey made a splendid record and there is no reason why he should not be returned if he so desires. Since his determination to run for the legislature he has been a number of prominent citizens in the district were brought out, but the honor was declined with thanks. At the same time considerable pressure was brought to bear on Mr. Maxey to reconsider his determination to quit the political game and his friends will be pleased to know he has about concluded to again be a candidate.

Plans Exchange of Nurses.

Dr. Campbell, medical superintendent of the Upper Peninsula Hospital for the Insane at Newberry, attended the recent regular monthly meeting of the board of trustees of the Sault Ste. Marie Hospital association held in the Soo. The purpose of Dr. Campbell's visit was to endeavor to make arrangements to send some of the nurses from the Newberry institution to the Soo hospital to receive the three months of general hospital training which is necessary to graduation. He was willing to make an exchange of nurses or to negotiate other arrangements if desirable. The matter was laid over for consideration at a special meeting to be called in the near future.

Say News Agent Robbed Them.

Two Finns who arrived at Manistique on a westbound Soo Line train claim that they were robbed of \$30 by the news agent. They tell this story: En route from the Soo, the agent compelled them to show their money to him, as he claimed to be an official of the train. It was necessary for him to know if they were bringing foreign money into this country. They reluctantly handed over their pocketbooks and while he was engaged in examining the money they claim the news butcher abstracted \$10 from one book and a \$20 bill from another. When they left the train at Manistique they discovered their loss and notified the officers. A demand has been made upon the Soo Line for the money in question.

Death of M. J. Weaver.

People of the Soo were shocked by the news that M. J. Weaver was dead. The information reached the city in a telegram from Pittston, Pa., to Cashier E. S. Stanley of the Sault Savings bank. Mr. Weaver passed away at the home of a sister with whom he and Mrs. Weaver had been visiting. The cause of death is supposed to have been a general nervous breakdown. He had been confined to his bed for some weeks. The deceased was born in New York state fifty-six years ago. He located at the Soo in 1887, before the days of the railroad into the city, and for years was the agent of the Lake Superior Transit company, a transportation concern that embraced the Anchor, Union and Erie lines of boats. In 1895 he abandoned the boat business to become the vice president and manager of the Sault Savings bank. He also was vice president of the Soo Woolen Mills, president of the Superior Laundry company and a stockholder in the Pearl Laundry of the Canadian Soo. He was never a conspicuous figure in politics, and was not active in fraternal circles, although a member of the Masonic order. He resigned his position

A WISE MAN

Doesn't live as though his income couldn't stop. He makes provision for sickness, lack of work, accident, and old age, by having a savings account with this bank, when every dollar he deposits earns three per cent interest. Compounded semi-annually.

with the Sault Savings bank in 1908, and since that time had lived a life of comparative retirement. The deceased is survived by a wife but there are no children.

Senator Burrows' Visit.—Julius C. Burrows, United States senator from Michigan, will deliver a patriotic address on "George Washington" at the Menominee theater the night of Tuesday, Feb. 22, the birthday of the father of the country. The senator will speak under auspices of the Menominee County Agricultural society, and he will be escorted from Chicago by a committee of that organization, headed by Fabian J. Trudell. Senator Burrows has been a distinguished member of the senate for many years and is a familiar figure in national affairs. His term will expire March 4, 1911, and he is promised a warm fight for reelection by Charles E. Townsend, of Jackson, who is at present congressman from the Second district. Mr. Townsend, who is the author of many important bills, appeared at Menominee a few months ago, making a favorable impression. It is thought a Menominee that Senator Burrows' presence in the city will attract many people from various portions of the upper peninsula. The afternoon of Washington's birthday there will be a reception at Hotel Menominee. There will be a band concert at the opera house in the evening and this will be followed by Senator Burrows' address on "George Washington."

Own Carelessness Caused Death.

That Mathias Schmitz, who was killed by being struck by a Soo Line passenger train at Massonville, Delta county, came to his death as the result of his own carelessness, was the verdict rendered by a coroner's jury. Both the engineer, James Inman, and Charles Gargarian, the fireman of the locomotive, testified that the victim was walking directly in the track and apparently did not see the train until the engine was almost upon him. Both testified that they expected him to step from the track as the train drew near to him, but that he made no effort to get out of the way of danger. They said that had they known that Schmitz was so careless, they could have been able to avert the accident. The train was running at about forty miles an hour. The deceased, who came from Antigo, Wis., last fall to make his home with his daughter, Mrs. Thomas Lehardt, at Massonville, was seventy-eight years old. He was going to the depot to get the mail when the accident occurred. Two freight trains had just passed in close succession and the old man evidently believed that the passenger had gone through. To reach the postoffice from the home of his daughter a short cut is offered by following the railroad track. Schmitz was hard of hearing and he was walking on the track he failed to hear the approaching passenger train until the locomotive was almost upon him. He looked back when the engine was but a few feet away from him and attempted to reach the side of the track. He was struck and his body was hurled through the air for a distance of twenty-five feet.

Politics at Manistique.

The political pot, which usually reaches a temperature in Manistique unequalled in any other city in the peninsula, is thus far in a quiescent state and the spring election is not far distant. Mayor Middlebrook, who gave the city an economical administration the past year, will accept a re-nomination if it is tendered him. Thus far no opposing candidate has made his appearance. James Christensen, who has proved his worth as city clerk, is the lone candidate for the office. Austin Fydel and George Frankovich have announced their candidacies for the nomination of city treasurer.

Stops Lameness

Much of the chronic lameness in horses is due to neglect. See that your horse is not allowed to go lame. Keep Sloan's Liniment on hand and apply at the first sign of stiffness. It's wonderfully penetrating—goes right to the spot—relieves the soreness—limbers up the joints and makes the muscles elastic and pliant.

Here's the Proof.

Mr. G. T. Roberts of Resaca, Ga., R.F.D. No. 7, writes:—"I have used your Liniment on a horse for some time and effected a thorough cure. I also removed a spavin on a mule. This spavin was as large as a goose's egg. In my estimation the best remedy for lameness and soreness is Sloan's Liniment."

Sloan's Liniment

Mr. H. M. Gibbs, of Lawrence, Kans., R.F.D. No. 3, writes:—"Your Liniment is the best that I have ever used. I had a mare with an abscess in her neck and one of her feet swollen and sore. Sloan's Liniment entirely cured her. I keep it around all the time for greasings and small swellings and for everything about the stock."

Sloan's Liniment will kill a spavin, curb or splint, reduce wind puffs and swollen joints, is a sure and speedy remedy for fistula, sweeney, founder and thrush.

Price 50c. and \$1.00

Sloan's Liniment is made from the best of medicinal herbs and is entirely pure. It is sold by all druggists and dealers in medicine.

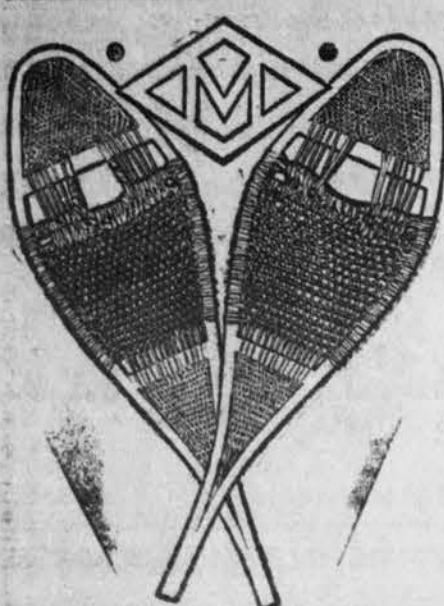

Dr. Earl S. Sloan, Boston, Mass., U.S.A.

A Reliable Remedy CATARRH

Ely's Cream Balm is quickly absorbed. Gives relief at once. It cleanses, soothes, heals and protects the diseased membrane resulting from Catarrh and drives away Cold in the Head. Restores the Senses of Taste and Smell. Full size 50 cts., at Druggists or by mail. In liquid form, 75 cts. Ely Brothers, 66 Warren Street, New York.

HAY FEVER

The fireman of the locomotive, testified that the victim was walking directly in the track and apparently did not see the train until the engine was almost upon him. Both testified that they expected him to step from the track as the train drew near to him, but that he made no effort to get out of the way of danger. They said that had they known that Schmitz was so careless, they could have been able to avert the accident. The train was running at about forty miles an hour. The deceased, who came from Antigo, Wis., last fall to make his home with his daughter, Mrs. Thomas Lehardt, at Massonville, was seventy-eight years old. He was going to the depot to get the mail when the accident occurred. Two freight trains had just passed in close succession and the old man evidently believed that the passenger had gone through. To reach the postoffice from the home of his daughter a short cut is offered by following the railroad track. Schmitz was hard of hearing and he was walking on the track he failed to hear the approaching passenger train until the locomotive was almost upon him. He looked back when the engine was but a few feet away from him and attempted to reach the side of the track. He was struck and his body was hurled through the air for a distance of twenty-five feet.

Dr. Shelley's Grip Tablets

Naturally we have a great demand for cold and gripe tablets. Many different remedies are on our shelves, and are sold by us to our customers, but by carefully comparing results, we have found that no tablet in our stock gives such absolute and complete satisfaction as Dr. Shelley's Grip Tablets. These tablets compose one of the most effective and reliable cures for colds that is sold in any part of America today. Wherever it is used by our customers, we always hear words of praise for it, until now we never hesitate to recommend Dr. Shelley's Grip Tablets whenever a grip tablet is called for. It will break up the most severe cold in a day and a night. It is chocolate coated, easy to take, and we guarantee to refund your money to you if you are not entirely satisfied with the tablets and the results obtained from them. Put up in small boxes, ONLY 25c.

City Brevities

Today's weather: Snow and colder Wednesday.

Yesterday's temperatures: Seven a. m., 14 degrees; noon, 8; 7 p. m., 14. Maximum, 14 degrees; minimum, 7.

D. H. Ball went to Boston last night on legal business.

Miss Hollie Oster has returned from a trip to Chicago.

Dr. and Mrs. Florentine of Sidaw were in the city Monday evening.

The G. I. A. to the B. of L. E. will meet at 2:30 this afternoon in Keough's Hall.

Lenten services will be held at the German Lutheran church this evening at 7:30 o'clock.

Miss Katherine Frei left last night for Milwaukee, Chicago and the East to get the spring styles in millinery.

Robert F. Brunner leaves this morning to attend a convention of the Customs Cutters' association, held in Chicago.

Edmond J. McComber, who has been visiting at the home of J. H. Primeau, has returned by way of Detroit to his home in Montreal.

Bills against the county should be presented to the county clerk by Thursday.

The auditing committee of the board of supervisors will meet Saturday and the county board next Wednesday.

At Legion Hall tonight, there will be a basketball game between the Ferguson Business college and the Munising Y. M. C. A. team. Munising has one of the best teams in this locality and an exciting contest may be expected. Admission, gentlemen, twenty-five cents; ladies, fifteen cents.

Evangelistic Services—Evangelistic services are being conducted in the Swedish Baptist church, corner North Third and Ohio streets. It is announced that the gospel is preached as it was in the first century. All services are in English. The meetings are in charge of J. G. Wilson, evangelist.

Last Day for May Term—Yesterday was the last day on which applications for citizenship papers could be made and the applications heard at the May term of court. The result was quite a rush of would-be citizens to the county clerk's office. During the day the applications of six foreigners for citizenship were made and three others took out their first papers.

"The American Girl"—The Carl W. Cook Stock company presented "The American Girl" at the opera house last night, in such a manner that the company received frequent applause. Owing to the stormy weather, the attendance was not large. The company carries a sleight of hand performer who does some very clever stunts between the acts. The play for tonight will be "A Daughter of the South."

Bound Over to Court—Deputy Marshal E. D. Mosher reports that Lum Duck Foo and Yum Yow, two Menominee Chinese who have been taken in by United States immigration officers because of alleged defects in their certificates of residence, have been bound over to the May term of federal court in Marquette by Commissioner John A. Colwell of the Soo. They are now out of jail under bond. Both of these Chinese have been in this country for many years.

Will Not Lose Sight—While playing hockey or "snimy" with a companion a few days ago, Orin, son of John Kind, eight years of age, suffered a serious injury to his eye, caused by being hit by the sled runner which was being used as a stick and in which there was a protruding nail. The nail penetrated the eyeball and for a time it was feared that the boy would lose sight in the injured eye. He was taken to St. Luke's hospital where an operation was performed. He now seems to be recovering rapidly and it is expected that his sight will not be seriously, if at all, impaired.

Heavy Fall of Snow—Marquette was in the grip of a heavy north-easterly storm this day yesterday and snow was still falling last evening. A foot or more of very fine snow had fallen up to dark and traffic was impeded to some extent, the walking being especially bad. The Chicago trains did not arrive until shortly after noon, but the South Shore train was able to maintain its schedule fairly well. The street car track was kept open by constant use of the snow plow, and the merchants made their deliveries under difficulties. The fall of snow was not accompanied by a very high wind nor was the temperature very cold. Decidedly colder weather is expected to follow in the wake of the storm.

High School vs. Kewatin—The Kewatin Military academy basketball team is making a tour of the upper peninsula and will play the Marquette High school team at Legion Hall Friday night at 8:15 and again at 3 o'clock Saturday afternoon. The Kewatin academy is located at Marquette, Wis., and its basketball team has made an excellent record this winter. Any proceeds of the games

will go toward defraying the expenses of the Marquette high school team to the basketball tournament, given at Madison, March 10, 11 and 12, under the auspices of the University of Wisconsin. The Marquette team will play in this tournament, and while there will have an opportunity to witness a game between the Purdue and Wisconsin college teams.

INSURE WITH PETER WHITE & CO.

LOWER STATE NOTES.

DETROIT—The bodies of two men, Benjamin Gilman, a bartender, and Horace White, a coremaker, were found in their room, where they had been asphyxiated by gas escaping from a gas heater.

CHARLOTTE—Upwards of 1,000 people greeted Senator William Alden Smith and the distinguished guests of the Grand Rapids Lincoln club when the Wolverine flyer on the Michigan Central passed through town. Senator Smith introduced Commander Peary and Vice President Sherman, who spoke during the regular stop.

IONIA—H. M. Wallace and Oliver H. Lau of Detroit are here in the interest of the cross state interurban being built to Grand Rapids from the Detroit terminal. It is said many of the directors prefer to come to Ionia under the new law if they ask for the use of the Ionia streets, as many promoters have done, the question must be submitted to the voters at the spring election.

LANSING—State Labor Commissioner Fletcher has issued a general order to all his deputies to attend the convention in Lansing on March 15 to discuss the best methods of compiling moving picture owners to keep their buildings safe. During the past year, the commissioner declares, the moving picture theater danger has greatly increased, despite many prosecutions, and it is his purpose to force them to adopt safety devices and add more exits to buildings.

GRAND RAPIDS—Charles M. Greenway, for several years business manager of the Evening Press and a newspaper man of wide experience, will leave soon for Saginaw to accept the general management of the Saginaw News. Mr. Greenway and his associates, Ralph H. Booth, Edmund W. Booth, George G. Booth, Bernard M. Winkoop, Edgar B. Whitcomb and H. S. Scott, have secured a controlling interest in the Saginaw publication from Eugene McSweeney and John T. Winship, the former publishers, who still retain a small interest.

LANSING—At a meeting of the executive committee of the State Grange, it was decided to ask senators and representatives from this state to work for the institution of postal savings banks and the adoption of the parcel post system. It was also decided to ask the state legislature to enact laws providing for a tonnage tax on ore; conservation of natural resources; making telephone companies common carriers; progressive action on the question of good roads; Torrens system of land transfers; the further extension of direct nominations to meet the original demands of the Grange.

ANN ARBOR—There has been a ten days' campaign to raise \$25,000 for the city Y. M. C. A., and the full amount and \$1,349.50 more was raised by the ten grantees who canvassed every nook and cranny of this town. Of this amount \$1,000 was given by J. L. Hudson, of Detroit, and it is to be used as an extra for painting the inside of the building. There was a mortgage of \$15,000 on the building and outstanding notes to the value of \$1,800. Provision is now made for the current expenses to January, 1912, after which it is expected the institution will be so safely on its feet, that it can care for itself without asking for outside help.

BAD AXE—Justice Gibson of Ionia has made his report to the prosecuting attorney of Huron county in the watered milk cases brought at that place as a result of wholesale frauds practiced on the Page condensary by numerous farmers. In all seventy-two complaints were made for the year 1912, and the total value of the milk found guilty paid fines aggregating \$12,225, which Justice Gibson has turned over to the library fund of the county. In addition the offenders paid a substantial sum for the costs of the justice and constables, and altogether it proved the most expensive milk-water case ever put up in Michigan. The Page company is now getting its milk satisfactory in every way.

PINNEBOG—There are at least two wild deer in Huron county, a fact discovered as the result of an odd incident in Lake township. While lumbering in that township the last two weeks, Alexander McPhee and his crew noticed that their supply of hay diminished in an unaccountable manner and large quantities at night. Investigation disclosed that two deer were in the habit of visiting the camp nights when the men were absent and feeding on the hay. Although the thieves were tracked some distance, they have not yet been traced to their home, and farmers are wondering where they keep themselves hidden. McPhee has placed a lighted amount of hay at their disposal and they will not be molested.

SEBEWAING—There is at present an unique village flourishing on Saginaw bay, which might in a snowstorm be mistaken for the chance traveler for an Eskimo settlement. It has a population of about 250 or 300 and in a few weeks it will have disappeared. It is a fishing village on the ice twelve miles from shore. There are about fifty shanties of Sebewaing fishermen, and it is estimated some 200 more from Bay City and other points. The men live there on the ice in their primitive dwellings through the winter fishing period. The big fish are coming into the bay in large numbers. The fishermen are averaging, many of them, from \$3 to \$5 a day, as there is a strong commercial demand at good prices for their product.

LANSING—Secretary of State Frederick C. Martin will submit the proposed amendment to the constitution, providing that no county shall incur any indebtedness which shall exceed its total debt beyond 3 per cent of its assessed valuation except counties having an assessed valuation of \$5,000,000 or less, which may increase their total debt to 5 per cent of their assessed valuation, at the spring election to be held Monday, April 4, 1913. The law provides that this amendment shall be submitted at a general election, and in some counties where this question is of vital interest there will be no general election in April. Secretary of State Martin was aware of this, but he decided it was not up to him to patch up the bungling work of the legislature and if there were any counties which wish to put a stop to its submission, mandamus proceedings can be instituted.

MARSHALL—The Daughters of the American Revolution, Mary Marshall chapter of this city, propose to have a monument erected to the old territorial road which runs from Detroit to Chicago. The

Answer This Question

When thousands of women say that they have been cured of their ailments by a certain remedy, does this not prove the merit of that remedy?

Thousands of women have written the story of their suffering, and have told how they were freed from it by Lydia E. Pinkham's Vegetable Compound—for thirty years these reports have been published all over America.

Without great merit this medicine could never have gained the largest sale of any remedy for woman's ills—never could have become known and prized in nearly every country in the world.

Can any woman let prejudice stand between her and that which will restore her health? If you believe those who have tried it you know this medicine *does* cure.

Read this letter from a grateful woman, then make up your mind to give Mrs. Pinkham's medicine a chance to cure you.

Brooklyn, N. Y.—"I am a firm believer in Lydia E. Pinkham's Vegetable Compound. I have been a sufferer from organic female troubles for years, and almost despaired of ever being well again. I had bearing-down pains, backache, headache and pains in my abdomen, and tried Mrs. Pinkham's Compound as a last resort. The result was astonishing, and I have used it and advocated it ever since. It is a great boon to expectant mothers. I have often said that I should like to have its merits thrown on the sky with a search-light so that women would read and be convinced that there is a remedy for their sufferings. My husband joins me in his praise. He has used it for kidney trouble and been entirely cured."—Mrs. E. A. Bishop, 1915 Atlantic Ave., Brooklyn, N. Y.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

DON'T KEEP YOUR MONEY IN THE HOUSE

PUT IT IN THE BANK

When your MONEY is BURNED up regrets won't bring it back to you. It is very UNSAFE and it WORRIES you a whole lot to have money in your house or in a hole in the ground. Besides "looking" time after time to see if it is safe teaches people where it is and makes it very UNSAFE.

Make OUR Bank YOUR Bank.

We pay liberal interest consistent with safety.

NEGAUNEE STATE BANK

ISHPEMING

RILEY LOST OUT.

Coleraine's Amateur Skier Fell to Sixth Place at Duluth.

Barney Riley, of Coleraine, of whom much is expected at the national tournament at Coleraine next Saturday and Sunday, jumped 127 feet on his first trial in the tournament at Duluth last Saturday, but fell at 116 feet in his second trial and finished in sixth place. J. Henriksen of Eau Claire won first place in the amateur class, while Arnold Olson of Duluth took second and George Jackson of Duluth captured third. H. Peterson of Virginia was fourth and H. Laundry of Duluth was fifth. The prize winners in the professional class were Francis Kempe, Red Wing, first; John Evenson, Duluth, second; Ole Fiering, Duluth, third; August Nordby, Superior, fourth, and Oscar Gunderson, Chippewa Falls, fifth. Sunday, August Nordby took first, Ole Nordby second and John Evenson third, in the professional class, and in the amateur class

Martin Roe of Superior won first prize; E. S. Henderson, Duluth, second; George Jacobson, Duluth, third.

Saturday Martin Roe, the Superior amateur, had a longer standing jump by two feet than any of the professionals, having covered 129 feet. John Evenson jumped 127 feet. It was thought that Ole Fiering's remarkable record of 144 feet, made Jan. 16, would be approached by the riders participating in the two days' tournament, but the longest jump of the tournament was Francis Kempe's leap of 138 feet, made Sunday. The events Saturday were productive of a new record for amateurs when Martin Roe, the young man from Superior, set his mark of 129 feet.

The officers of the Ishpeming Ski club have been assured that there will be a large attendance of outside riders here Washington's birthday. There is also a tournament at Eau Claire that day, but the prizes are not as large as those offered by the Ishpeming club. Tournaments will be held at Munising the 22nd and at Skandia the 24th. It is expected that the professional riders coming here will also participate in these meets.

M. J. Olson, the piano tuner, can now be reached by County telephone No. 620, or by mail, at 400 East Ridge street, Ishpeming. First-class work guaranteed.

ISHPEMING IN BRIEF.

The Misses Helen and Viola Lidberg left last night for Chicago. They will purchase a new line of millinery goods.

A. L. Brownell, who has been confined to the Ishpeming hospital the month or two weeks, expects to return to his home today or tomorrow.

The funeral of the late Robert Woolcox, Sr., was held yesterday afternoon from the First Methodist Episcopal church. It was very largely attended.

The Ishpeming and Marquette High school basketball teams will meet Friday evening in the gymnasium of the Young Men's Christian association. The admission will be fifteen cents.

The Chicago & Northwestern passenger train arriving from the south yesterday afternoon was drawn by two locomotives. The engines were almost completely covered with snow and ice.

The entertainment to be given in the new auditorium of the National school the evening of Washington's birthday will not be the dedicatory exercises, as these will not be held for a month or so. The program will be appropriate to the occasion.

The Y. M. C. A. basketball team of Calumet, which hopes to win the upper peninsula championship this season, is arranging a series of games for the iron and copper districts. The Y. M. C. A. team of this city will give the visiting five a game.

The fire, smoke and water sale, which the Continental Clothing company opened yesterday in the Andrews block, East Division street, was very largely attended in spite of the stormy weather. The management plans to continue the sale for at least a month.

Rev. E. V. Isaacson, former pastor of the Swedish Lutheran church in this city, who has been located at Fort Worth, Texas, for more than a year past, recently resigned the pastorate there to accept the charge at Lund, Texas, 125 miles south of Fort Worth.

Captain Thomas Wills of Calumet, who was to have given a moving picture and stereopticon entertainment in the Salvation Army barracks here the evening of Washington's birthday, will not be able to come at that time. He will be here the evening of the 26th. He will present the Passion Play in moving picture form.

James Kelly and Emanuel Pope have taken positions as police officers with the Oliver Iron Mining company, under William Harrington, who has charge of the company's force on this range. Mr. Kelly has for a number of years past been one of the engineers at the company's Section 16 mine. He will be employed at the Hard Ore property.

BREITUNG HEMATITE RESUMES IN TEN DAYS

CAPTAIN JOHN GRUNDY, EMPLOYED AT THE MARY CHARLOTTE FOR SOME YEARS PAST, WILL HAVE CHARGE OF THE UNDERGROUND WORK.

The Breitung interests expect to begin mining operations at the Breitung Hematite property on Monday. Preparations for a resumption of underground work have been going on there for several weeks past, and the greater part of it is completed. From 100 to 150 men will be employed at the start, and the force will be increased gradually. John Grundy, who has been an underground foreman at the Mary Charlotte mine for several years past, is to have charge of mining operations. Mr. Grundy is a capable miner, and will doubtless give a good account of himself at the Breitung Hematite.

The removal of the water from the Breitung and Milwaukee mines, which the Breitung people are also preparing to reopen, will be started within ten days. It is thought that it will take at least sixty days to remove all of the water, as there are a number of large pits at both properties. The preparatory work was started some two months ago, and good progress has been made. Besides installing two new boilers and an air compressor, and overhauling the hoisting plant, several buildings have been erected. Among them are an engine house, thirty by forty-five feet in size; the boiler house, thirty-five by forty feet; blacksmith shop, twenty-five by thirty-five feet; combination warehouse and captain's office, eighteen by thirty feet, and a dry, fifteen by twenty-five feet. The warehouse and office building, also the boiler house, have been completed. The boilers are in position. It is possible that a blower system will be used in the removal of part of the water, but pumps will be used exclusively at the start.

There is little difference in the depth of the Milwaukee and Davis properties, each of the shafts being in the neighborhood of 600 feet. The Milwaukee has the larger openings, as a larger tonnage was produced from that property than from the Davis. The mines are connected by drifts and will be operated as one property. All of the hoisting will be done from one shaft, at least, at the start. It is expected that about 100 men will be on the payroll during the first month or so. Eventually the force will be considerably larger, as there is room to work good sized crews in the mines.

With four mines, the Mary Charlotte, Breitung Hematite, and the Davis and Milwaukee, in operation, the Breitung interests will likely have in excess of 1,000 men on their payroll before the shipping season is far advanced. The Mary Charlotte is now working a large force than at any previous time. When the eight-hour day became effective last month the management was able to give employment to 200 additional men.

KANGAS TO WRESTLE.

Negaunee Man Has Arranged a Match for Washington's Birthday.

Matt Kangas, Negaunee's clever catch-as-catch-can and Graeco-Roman wrestler, is to meet K. B. Randal, a heavyweight catch-as-catch-can wrestler, at the Ishpeming theatre on the evening of Washington's birthday, next Tuesday. The match will be for \$50 a side and will be conducted in connection with the Lehto match. Lehto, the copper country champion, has agreed to throw William Matt, a 210 pound wrestler from Calumet, also two other upper peninsula wrestlers, in one hour, either in the catch-as-catch-can or Graeco-Roman styles. Randal is said to weigh 190 pounds. Kangas is in fine condition, as he is training regularly with the members of the Terno Athletic club at their rooms in the Kirkwood block. Kangas gave a good account of himself in the two matches pulled off at Ishpeming with Lehto and Wirtanen, and his friends here feel confident that he will be able to dispose of Randal.

I am selling my winter stock at one-third off to make room for spring goods that will arrive in a few days. Some fine bargains. L. Shea, Pearce block, West Iron street. (2-14-10)

MAKING GOOD HEADWAY.

The Consolidated Fuel & Lumber company, which is to establish a hardwood flooring mill in this city, has already received some of the machinery that will be used. Among the equipment that has arrived are a planer and sizer. The installation of these machines, also the engine, which is already on the ground, will be started within a few days, as soon as the engine house is enclosed. The engine is one that was used at the company's Marquette mill before electric dynamos were installed. It is a 150 horsepower machine and will be sufficiently large to generate power for the entire plant.

HOW CHILDREN KICKED AND SQUIRMEED.

In olden days when Cod Liver Oil was administered in its crude form. No one could blame them, for it was simply nauseating. Modern methods have devised a way whereby all the medicinal elements of Cod Liver Oil without the oil or grease, are combined with Tonic Iron, thus giving to the world two world-famed tonics in a most delicious and palatable form. It is unequalled for overcoming pulmonary troubles and build up weak and aged persons. The Stafford Drug Co.

A few minutes delay in treating some cases of croup, even the length of time it takes to go for a doctor often proves dangerous. The safest way is to keep Chamberlain's Remedy in the house, and at the first indication of croup give the child a dose. Pleasant to take and always cures. Sold by Peopie's Drug Store.

How a rocky path does enjoy an encounter with a tender foot!

WORKING DOUBLE SHIFT.

Cleveland-Cliffs Iron Company Gradually Increasing Force at Lucy.

About ninety men are now employed at the Lucy mine, where the Cleveland-Cliffs Iron company recently resumed operations. Both day and night crews are working underground and some additional men are to be taken on during the coming week.

The stockpile at the Lucy is beginning to show up and it will be of goodly proportions by the opening of navigation, as the company intends to work season opens. This is an open pit mine, and the stockpile is at present being confined to No. 2 shaft, which is 330 feet in depth. There are six levels leading from this shaft, and there are eight from the old shaft, which is about 400 feet deep. The timber in the old shaft will need considerable repairing to put it in condition for hoisting.

It is expected that the Cleveland-Cliffs Iron company will also employ a force at the South Jackson property, adjoining the Lucy, after the shipping season opens. This is an open pit proposition, but it is anticipated that eventually it will be worked in connection with the Lucy, as it lies immediately west of the No. 2 shaft. The ore in the Lucy is of better quality than that produced at the South Jackson, but it is thought that the mineral in the latter mine will improve in quality as depth is attained.

BISMARCKS WIN TWO.

In the bowling contest Monday evening between the Bismarcks and Pikers, the former won two of the three games, closing with a lead of 107 pins. The scores were:

Bismarcks	Pikers	Tot.
H. Peterson.....	122 167 122	411
J. Wassmuth.....	118 158 133	427
Thoren.....	117 113 141	371
Totals.....	354 488 417	1209

BIG STRIPPING CONTRACT.

The Winston-Dear company, which recently completed a stripping contract on the west end of the But-Pool mine, at Hibbing, for the Oliver Iron Mining company, has taken a contract to remove the overburden from the Buffalo & Soudan mine, located on lands in the outskirts of this city. It will require seven years to complete the stripping. The company plans to remove the overburden from the entire strip of eighty acres. The contractors expect to employ a crew of sufficient size to keep nine locomotives busy hauling out the cars. The contract is one of the largest ever awarded on the Mesaba range.

LOCAL LACONICS.

The employees of the Jackson, Maas and Negaunee mines will be paid today.

The Chicago & Northwestern passenger train was three hours late yesterday morning.

Manager McDonald of the opera house has booked "Tempest and Sunshine" for the 28th.

The funeral of the late Mrs. Jerry Roady will be held this morning at 9 o'clock from St. Paul's church.

W. L. Bedford has returned from Detroit, where he was called on account of the death of his brother-in-law.

A number of Negaunee people are attending the Duluth's band concerts at the Ishpeming theatre this week.

A very enjoyable valentine party was held Monday evening at the home of Ralph Wilcox in honor of Miss May Mitchell.

F. E. Nightingale, traveling auditor for the Oliver Iron Mining company, was in the city Monday and left that night for Duluth.

Harry Tremblath, manager of the upper peninsula branch of the Michigan Insurance Inspection bureau, left Monday for Detroit on business.

Oscar Field returned yesterday afternoon from Mt. Clemens, where he spent three weeks taking treatment for rheumatism. He was very much benefited.

There will be a skating race this evening at Adolph rink between Miss Bessie Gilbert of this city and Miss Julia Lindberg of Ishpeming. The race will take place at 9 o'clock and the admission will be ten cents.

The snow plow made frequent trips over the street car line yesterday. Two of the second hand cars that the company purchased last spring are now in condition for every day use, and one of them was used to excellent advantage yesterday during the storm. It is a single truck car, with the trucks about eighteen inches further apart than they were formerly. Double motors and double springs were put in.

FROM MORGAN'S CURB LETTER.

"A lower opening in New York was followed for a time by good buying, but this soon slackened and the market became dull and listless, with a sagging tendency. It is said that the market is now in a more thoroughly liquidated condition than at any time since the death of K. H. Harriman and this should safeguard it against any further aggressive bear attacks. Stocks are cheap and a resumption of buying should occur when the Washington situation clears up."

"In Boston, the leading Lake issues

WOMEN EVERYWHERE IN SYMPATHY WITH HOTEL SUPERIOR PROJECT, SAYS MISS WALZ.

\$6,500 IS ALREADY RAISED

Booklet to Be Issued Shortly, Setting Forth Plans for and Purposes of the Women's Institution.

Miss Maggie Walz arrived in the city yesterday afternoon more enthusiastic than ever regarding the so-called Hotel Superior project, in the furtherance of which, she says, she has been heartily encouraged, not only by the prominent women of this state but throughout the country. Since leaving here two weeks ago, Miss Walz has presented the project to women in Negaunee and Ishpeming and in other parts of the upper peninsula, and besides has received by letters of endorsement and good will from prominent club women in all parts of the United States.

Among others who have written letters in which they promise to do everything possible to bring about the idea of establishing a women's school and home in Marquette are: Mrs. Frances E. Burns, grand commander L. O. T. M. M. St. Louis, Mo.; Emma E. Bower, great record keeper L. O. T. M. M. Port Huron; Sarah P. Kinsey, member of executive committee General Federation of Women's clubs, Valparaiso, Ind.; Anna H. Shaw, president National American Woman Suffrage association, New York; Belle M. Perry and Mrs. Anna Walter, officers of the Michigan State Federation of Women's clubs; Miss Grace G. Brown, president Michigan Women's Press association, and Dr. Clara Geisel, of the Battle Creek sanitarium.

ELKS' LODGES OF U. P. NOW BEING INSPECTED

DISTRICT DEPUTY ALEX STEVENSON OF HANCOCK TO VISIT MARQUETTE LODGE NEXT WEEK THURSDAY NIGHT.

Alex Stevenson of Hancock, district deputy grand exalted ruler of the Benevolent and Protective Order of Elks, made the annual inspection of the Ishpeming lodge of Elks last night. Next Wednesday evening, he will inspect the Negaunee lodge and the following evening he will be with the Marquette Elks. Before the end of the month, the lodges at Iron Mountain, Escanaba and Manistiquette will be inspected.

AMENDMENT TO CONSTITUTION

Still Another Question to Be Voted on at Spring Election.

A proposed amendment to Article VIII, Section 12, of the state constitution, will be submitted to the electors at the election to be held on Monday, April 4, 1910, as follows:

"No county shall incur any indebtedness which shall increase its total debt beyond three per cent of its assessed valuation, except counties having an assessed valuation of five million dollars or less, which counties may increase their total debt to five per cent of their assessed valuation."

The effect of the proposed amendment is to give counties having an assessed valuation of five million dollars or less, the right to increase their total debt to five per cent of the total assessed valuation.

GUILD HALL BOWLING

At the Guild Hall yesterday, the following games were played:

E. Frei	180	161	148	489
A. Pendill	205	234	181	620

La. Foad	181	171	172	524
Totals	347	334	350	1031
Pendill and Frei	two out of three games.			

Totals 146 290 144 490
R. Frei 192 191 239 622
A. Pendill 167 147 170 484

Totals 338 391 383 1112
Brotherton 160 110 232 502
Robertson 167 147 170 484

Totals 327 257 402 986
Pendill and Frei took two out of three games.

The schedule for today is: Bell and Heughens vs. Foad and De Haas at 4; Carr and Miller vs. Drake and Kepler at 7; Wheeler and Stewart vs. Drake and Kepler at 8; Zerbol and McKereghan vs. Drake and Kepler at 9.

These are postponed games and positively must be bowled this week.

SALE OF HOUSEHOLD FURNITURE.
A sale of some extra good household furniture will begin at 2 o'clock this afternoon in the Bittner block, corner Baraga avenue and Third street, and will continue until all the articles are sold. Some rare bargains will be offered. The sale will be in charge of M. H. Foad. (2-15-34)

The F. Bending Co., distributors of that particularly good cigar, "Cremo De Cuba," have received some new shares in this well-liked brand. (2-9-1f)

ICE ORDINANCE PASSED WITHOUT ANY CHANGE

COUNCIL FORBIDS USE OR SALE OF PRODUCT CUT FROM CINDER POND OR INNER HARBOR—DEAD RIVER ICE GIVEN O. K.

Hereafter it shall be unlawful to sell or use ice cut from the cinder pond or the inner harbor, between the shore and of the government breakwater and Hampton street, produced. This condition is brought about by the action of the council last evening, which body passed the ice ordinance, as published in full in yesterday's Mining Journal, by the vote of five to three. Opposing aldermen were Butler, Downey and Hennessy, Alderman Donovan voting for the ordinance last night, though he had opposed it the night before.
