

JEFF DAVIS MAKES THE SENATE LAUGH

Namesake of the Confederate Executive Engages in an Excited Denunciation of the Standard Oil Company and Rockefeller.

He Opposes a Right-of-Way for a Pipe Line—Hades Is the Only Place He Would Be Willing to See the Big Trust Enter, He Says, and It Would Tickle Him Were John D. Incinerated—Then the Bill Passes, With Only the Arkansas Voting Against It.

Washington, Feb. 17.—In connection with the consideration of a bill granting a right-of-way for an oil and gas line across his state, Senator Jefferson Davis, of Arkansas, in the senate today engaged in an excited denunciation of the Standard Oil company and John D. Rockefeller.

Senator Davis, the sponsor of the bill, with business connection with the Standard Oil company, and contended that the admission of the pipe line into Arkansas would violate the anti-trust laws of his state.

Washington, Feb. 17.—Just before the adjournment of the house today, Mr. Dies, of Texas, made a stirring appeal for restrictions in the immigration laws and denounced "Cannonomism."

Washington, Feb. 17.—The question of the constitutionality of the Nebraska law limiting the banking business in Nebraska to corporations, and providing for a guaranty fund for the deposits in state banks, was brought today to the supreme court of the United States.

MR. TAFT'S REQUEST STUMPS THE LEADERS.

They Can't See How Provision Can Be Made to Carry Into Effect the Publicity Feature of the Corporation Tax Law—Besides, the Democrats Threaten to Reopen the Tariff Fight.

Washington, Feb. 17.—The collectors of internal revenue throughout the country were notified today of the president's decision that the returns by corporations under the law imposing a tax of 1 percent on their net income are not to be open to general public inspection, unless a substantial appropriation is made by congress to defray the necessary expense.

There appears to be grave doubt whether congress will give the treasury department the appropriation of \$50,000 asked for to carry into effect the publicity feature.

It was said today that Champ Clark, the minority leader, had notified Mr. Payne that if there was any attempt made to patch up this provision of the law through the ways and means committee, he would move to reopen the tariff fight.

**STEEL CORPORATION'S BONUS DISTRIBUTION**

IMPROVED THE BUMP.

Thought That Skiers Will Make Better Jumps Than Ever Before.

Men have been employed this week improving the bump at the ski slide, in the hope that the riders will be able to leave the take-off to better advantage than they did last year. The bump was last winter a little too steep at the point where the riders make their leap. The grade has been cut down several inches and the officers of the club believe that there will be fewer falls than there were last year.

The employees of the Oliver Iron Mining company on the Marquette range, who hold stock in the United States Steel corporation, have received between \$6,000 and \$7,000 since the first of the year in regular and extra bonuses. This is the third largest sum that has been distributed for bonuses to the employees on this range since the profit-sharing plan was adopted by the company six years ago. About 280 men on the range received the money.

This year's extra bonus amounts to \$16.80 per share. The extra bonus has been \$5 per share since the system was inaugurated, and each shareholder has received \$7 per share regular dividend for some years past. The extra bonus fund is accumulated by the surrendering of certificates by employe shareholders.

The Marquette range men, who have held preferred stock for three years past, have received in dividends, regular and special bonuses, \$76.80. The stock cost them originally, \$87.50 and it is now worth \$120.

On the first of the year about 200 Marquette range employes of the company applied for additional shares. A number of those who made application were not shareholders previously. A year ago last month 300 of the Marquette range workmen subscribed for stock, so that the list of employes financially interested in the company is steadily growing larger. The first year the offer was tendered the company's workmen, the number of subscribers was small compared with those who have been taking advantage of the offer in recent years.

Those who bought the preferred stock at \$87.50 will have received all the money they invested, as well as several dollars additional, when their next bonus is paid. Although the company provides the employes with the stock on an assessment plan, based on a certain percentage of the salaries they earn, the shareholders are entitled to both dividends and bonuses as soon as they become holders of the stock.

J. C. W. Chipman, the Oliver company's chief clerk on this range, yesterday said that many of the shareholders who received bonuses this year expressed their approval of the plan. Some of them advised Mr. Chipman that they felt that they were really receiving a present from the company, as paying for the stock had not been a hardship to them. In view of the fact that the employes are so well pleased with the shareholding plan, it is certain that the number of stockholders among the company's workmen will increase at a more rapid rate than ever before from this time on. Within a few years a number of the workmen in this county will have a nice bank account, represented in the value of their stock. No workman is granted a number of shares in excess of what the management believes he can afford to pay for.

**DOG RACE PRIZES.**

There Will Be Three Cash Prizes for Single, and Three for Team Races.

The arrangement committee for the annual dog races, to be held next Tuesday morning, has been increased to six members, and is now composed of John Lacey, F. E. Keese, James Bryden, John S. Olson, William Tren and Thomas Ekkman. The committee will have exclusive charge of the track and they will be assisted by their special police officers working under the direction of William Weelander, foreman of the Oliver Iron Mining company's diamond drill crews, and a former policeman. William Hooper will be Mr. Weelander's first assistant, both at the dog race course, as well as at the ski hill. The special officers will patrol the ski grounds.

John S. Olson has been appointed secretary of the dog races and all entries are to be made with City Recorder, J. D. West, at the city building. The prizes for singles will be \$3, 2 and \$1, and for teams, \$2.25, \$1 and seventy-five cents. The races will start at 9 o'clock sharp, in order that they may be completed before the wrestling commences at Ishpeming theater. Charles Bandel, who is to wrestle Matt Kangas of Negaunee for a purse of \$50, comes from DeKalb, Ill. He holds the championship there, and he is said to be a very fast catch-as-catch-can wrestler. The three men who will go against Karl Lehro are William Youch, Oscar Gronlund and K. J. Witanen.

Today's programs will be as follows:

**COOK STOCK COMPANY.**

The Terre Haute (Ind.) Tribune said of the Cook Stock company, which will open a week's engagement next Monday evening at Ishpeming theater: "The Carl W. Cook Stock company opened its fifth week at Young's Garden last night with an excellent production of 'Jim the Westerner.' The house was the largest of the season. This company grows in popularity each night, and deservedly so, for its offerings are always of high order and well deserving of the splendid patronage which is being accorded." "Jim the Westerner" will be the offering here Monday night. The prices will be ten, twenty and thirty cents.

Saturday and Monday we offer four timely towel specials. Prices, each, 5c, 9c, 15c and 25c.

**PYTHIAN ROLL CALL.**

The annual roll call of members of Zenith lodge, Knights of Pythias, of this city, took place Wednesday evening. About 150 members were present. A fine lunch was served at the conclusion of the meeting and a number of the members gave short talks. It was midnight before the festivities came to a close. Zenith lodge has in the neighborhood of 250 members.

**CARD OF THANKS.**

We wish, through The Mining Journal, to make known to our friends and neighbors that we most thoroughly appreciate the sympathy shown and the aid tendered us during our bereavement. We feel under obligations to friends in Ishpeming, as well as on the Mesaba range, for their kindly consideration, also for floral offerings. We assure all that the favors so freely and generously extended shall never be forgotten.

**IMPROVEMENTS IN PROGRESS.**

Oliver Company's Office More Conveniently Arranged Than Formerly.

Carpenters and decorators have had possession of portions of the Oliver Iron Mining company's main office in this city for two weeks or more, and the alterations planned will not be completed for perhaps a week or ten days. One of the halls on the south side of the main floor has been taken out and the space is to be utilized for rooms. Up to this time D. J. Slincy, assistant to W. H. Johnston, the company's general manager on the range, and Mining Superintendent F. E. Keese have occupied the same room, but hereafter each will have a separate room. The partition dividing the main accounting room from the timekeepers' room on the west side of the building is to be removed and all of the space will be utilized by the clerical force.

**ISHPEMING IN BRIEF.**

George R. Jackson and wife were here from Oshkosh last evening to attend the D'Urbano band concert.

J. H. Malloy, Ishpeming agent of the Chicago & Northwestern Railway company, who spent the past few months with his family on their homestead at Gregory, S. D., has returned.

E. M. Hitchcock, special agent of the Farmers & Merchants' Insurance company of Lincoln, Neb., also representing the Union Fire Insurance company of Philadelphia, was in the city yesterday.

The snow plays have gone over practically all of the principal walks in the city the past two days, and the walks are now in very good condition. The roads leading to the outlying locations have also been plowed.

The carpenters have completed putting in the new front in the Kennedy block on South Main street, which is to be occupied by the Fashion Sulf company. The front is a big improvement over the old one and it makes the building much more desirable than formerly. The store room will be ready for occupancy within a few days.

Charles Nankervis and children, Thomas Eddy and son and Thomas Quick and Miss Mary Trevarrow, who came from the copper country to attend the funeral of the late John Bennett, Jr., returned home yesterday. Mrs. Thomas Eddy and Mrs. Charles Nankervis, who were also in attendance at the obsequies, will return home today.

Dennis Cashen and his sister, Mrs. William Whitney, who accompanied the remains of their father from Taconite, Minn., left Wednesday night for their home. They were accompanied by their brother-in-law, Eugene Coffey, who also lives on the western Mesaba. Michael Juries. Sold by The People's Drug Store.

PLANS FOR PROPOSED HARBOR IMPROVEMENTS

DETAILED REPORT ON BREAKWATER EXTENSION AND DREDGING AT MARQUETTE PUBLISHED IN CONGRESSIONAL PAMPHLET.

Within the last day or two, a number of local citizens have received copies of house of representatives document, No. 573, which contains all the data submitted to congress regarding the proposed extension of the breakwater and harbor improvements at Marquette.

Three plans of extending the breakwater are discussed at length; continuing the present structure 1,500 feet due south; a deflection leeward of the extension, that is, in a southeasterly direction, instead of due south, and the erection of a new breakwater from the south shore.

General Discussion Followed. A general discussion on the local aspects of baseball followed, in which nearly all of those present participated and more than a little enthusiasm was aroused.

Those present were particularly insistent that definite and strict rules as to the eligibility of players be laid down, and lived up to in letter and in spirit, and if the other teams would not consent to such rules that Marquette should withdraw from the league and play independent ball.

Five different types of breakwater construction are submitted, varying in cost from \$116,000 to \$308,000. The one recommended by the engineers would cost \$262,000. This type is a form of construction that follows closely the type of breakwater already built, especially the southerly and more recent construction, which has proved stable and efficient.

One rule suggested to prevent any of the teams drifting into professionalism was to make it necessary for any player to establish a bona fide thirty days residence in a town before he would be allowed to play on the team representing that town.

OSBORN IS LEADING.

This Is Dr. James Opinion, After Visit to Lower Michigan.

Dr. S. M. James is home from a several days trip to lower Michigan. He left here last week in time to reach Grand Rapids for the Lincoln birthday banquet, which he attended and after leaving Grand Rapids visited in Detroit, Ann Arbor, Saginaw and other points.

The leading feature of the Lincoln day banquet at Grand Rapids was, in the eyes of most of the banqueters, General Grant's recollections of President Lincoln.

CATTLE OWNERS MAY BE RECOMPENSED

UNDER CERTAIN CONDITIONS, STATE WILL PAY HALF THE VALUE OF BOVINES KILLED BECAUSE OF TUBERCULOSIS.

Someone has brought to the attention of upper peninsula cattlemen a law, passed at the last session of the legislature, which provides that, under certain conditions, owners of cattle killed because of having been found diseased with tuberculosis may be recompensed by the state to the extent of one-half the value of the animals so slaughtered.

"In case of tuberculous cattle whenever the commission shall direct the killing of such cattle, it shall be the duty of the commission to appraise the animal or animals condemned, the owner or owners thereof to receive 50 per cent of value of animal as though not diseased, such per cent to be reckoned in no case on a sum over \$50; provided that the owners of slaughtered animals shall receive no compensation for the same unless the commission shall be satisfied that the premises have been kept in a sanitary condition nor shall they receive compensation until said sanitary commission is satisfied that the infected premises have been disinfected in such a manner as to prevent further spread of the disease."

"The importation of cattle into the state for breeding or dairy purposes is hereby prohibited excepting when such cattle are accompanied by a certificate of inspection made by a duly qualified veterinary surgeon, who is a graduate of a recognized veterinary college in the United States, Canada or Europe.

DR. GILLIES LECTURE.

No one should attend Dr. Andrew Gillies' lecture on "Jean Val Jean" at the Guild Hall next Wednesday evening expecting to hear a speaker of the conventional party type. He is not that sort. He has a style peculiarly his own and his originality of thought is very interesting and refreshing.

Dr. Gillies, though still a young man, has achieved unusual success in the ministry. While yet in his twenties he became the minister of the State street church of Troy, N. Y. and at thirty of St. Andrews' M. E. church, New York, one of the leading churches of that denomination in the metropolis.

IN THE "NO GOOD" CLASS. Cigar Salesman Says There Is Little Business in Marquette County.

"Marquette county now belongs in the 'no good' class, and it will remain there until the prohibition election is out of the way," said a cigar salesman here yesterday. "Also it will continue in the 'no good' class for to sayness it goes 'dry'. The saloon men, who are larger purchasers of our goods than any other class of dealers, have nothing more than a pleasant smile for us now. They propose to take no chances of being heavily stocked up with no market for their stock, and until they know whether they are to be permitted to continue in business will pursue a 'hand to mouth' policy. The business of the cigar salesman will be seriously curtailed for several weeks. The same thing will be true of the wholesalers of liquor in this territory. They will find their customers buying very sparingly, until the future status of the saloon business is settled. This is no new experience in Michigan, however. It is gone through in every county where a vote on the prohibition question is ordered."

Dr. Marshall of Lansing has not been able to find a single man who will drink milk from a tubercular cow. Yet many families are using the same quality of goods because they don't investigate the source from which it comes.

The F. Bending Co., distributors of that particularly good cigar, "Crema De Cuba," have received some new shapes in this well-liked brand.

Every cow at the Marquette City Dairy has stood the tuberculin test January 20-21, 1910, by Dr. Deadman and is warranted to be in perfect sanitary condition.
