

PLACE BLAME ON OTHER SHOULDERS

Retail Meat Dealers Who Give Testimony at Washington Deny That They Are Responsible for the Prevailing High Prices.

Five Merchants from Four Eastern Cities Appear Before the Senate Committee at the Opening of the Inquiry Into the Cost of Living—It Is Not the Shopkeepers but the Farmers and Packers Who Should Be Held Accountable, They Say.

Washington, March 8.—The retail meat dealers today placed the blame on the packers and the packers on the farmers.

Five retailers from New York, Philadelphia, Baltimore and Washington were heard, and Walter Brown, a Washington dealer, who kills his own meat, was the only one who did not admit that the price of meat had gone up at least 10 per cent during the last five years.

Each witness denied the charge that the retailers were responsible for the prevailing prices, and none would admit that any agreement existed among them.

Washington, March 8.—The retail meat dealers today placed the blame on the packers and the packers on the farmers.

Elgin Man Defends Butter Board.

Elgin, Ills., March 8.—D. S. Pearsall, a member of the Elgin board of trade, today denied that the plan to increase the high prices of living had anything to do with the action of the Elgin board of trade in reducing the price of butter.

Oleomargarine Frauds Widespread.

Chicago, March 8.—It was said tonight that the government revenue agents had discovered that the operations of the "oleo moonshiners" had extended to other cities, and that tons of colored oleomargarine on which no tax was paid had been shipped from Chicago to Wisconsin and Iowa points.

MR. TAFT TALKS TO NEGROES.

He Makes a Strong Plea for the University Education of the Race.

Washington, March 8.—President Taft, in an address to several hundred negroes tonight at a rally in the interest of Wilberforce university of Ohio, made a strong plea for the university education of the negro.

Washington, March 8.—The negro race is a great and growing race, said the president. "At close of the war there were in the country four million negroes; today there are ten million—a race with whose history the United States has been bound and with whose progress and improvement it always must be bound and united."

"DRY" LEGISLATION DEFEATED.

Columbus, O., March 8.—The Dean bill giving cities the right to vote on the liquor question regardless of whether a county wet or dry was defeated in the senate today.

ROCKEFELLER TRUST FIGHTS FOR ITS LIFE.

Filing a Brief in the U. S. Supreme Court, the Standard Oil Attacks the Decree Ordering the Company's Dissolution.

Washington, March 8.—Basing its plea largely on the contention that the corporations merged with the Standard Oil company of New Jersey in 1899 were non-competing at that time, and on the allegation that the interpretation of the Sherman law by the lower court would strike down organized business, the Standard Oil filed in the supreme court today a brief against the dissolution of the organization ordered by the federal circuit court as a result of the petition filed by the government in 1906.

The decree for the dissolution of the Standard will come up Monday for oral argument in the supreme court. Frank B. Kellogg is finishing the brief of the government. Attorney General Wickeshaugh is said to be preparing the oral argument of the case.

Counsel for the Standard Oil assert that the corporations whose stocks were exchanged in 1899 for stock in the Standard Oil company of New Jersey were all owned at the time and in the same proportion by the same people who owned the Standard Oil company of New Jersey. The method of the organization in 1899, and the additional business created by the individual defendants, J. D. Rockefeller, William Rockefeller, John D. Archbald, Oliver H. Payne, Henry M. Flagler, Charles M. Pratt and Henry H. Rogers, were lawful, the success of which, it is asserted, was the legitimate reward of what is described as unusual risk, energy, skill and plenty of capital.

The position of the circuit court that some of the companies in the organization of 1899 were "potentially and naturally competitive" and that their competition was prevented by this organization, is attacked. "We submit," says the brief, "that the idea of competition between properties all owned by the same persons is a novelty. The idea that the properties themselves compete and that if one man owns two or more he must compete with himself is startling. Competition between joint owners is also novel."

Objections to the decree are summed up in the statement that it is in general too vague, too indefinite and too broad. "It denies to each individual the right of holding his property as he chooses, either by legal or by equitable title."

GIVES INTERESTING TESTIMONY.

Comptroller Mahl Tells of the Union Pacific's Stock Holdings.

New York, March 8.—William Mahl, comptroller of the Union Pacific railroad, was the final witness called today before adjournment was taken, in another phase of the complicated legal contest of the government to dissolve the Union Pacific and Southern Pacific merger. Adjournment was taken until March 28, when the defense may offer additional testimony.

ANTI-INJUNCTION BILL DEFEATED.

President Taft Gives Out Some Interesting Correspondence.

Washington, March 8.—President Taft today made public the letters exchanged between himself and Representative Moon, of Pennsylvania, author of the administration anti-injunction bill.

HOUSE LEADERS AGAINST IT.

Bill to Complete Irrigation Projects Is Likely to Die in Committee.

Washington, March 8.—Several members of the house committee on ways and means predicted today that the bill providing for the issuance of \$30,000,000 of certificates of indebtedness to complete irrigation projects would die in the committee. This measure has passed the senate and has the support of the president.

MAPLE SUGAR SEASON OPENS.

Fairlee, Vt., March 8.—The sap has started and Vermont's maple sugar season has begun. The snow is deep in the sugar bush and the biggest run of sap in years is anticipated.

SENATOR ROOT TAKES THE REINS

Presumably Reflecting the Wishes of President Taft, He Assumes Active Charge of the Critical Political Situation at Albany.

State Chairman Woodruff's Candidate About to Be Made Temporary President of the Upper House of the Legislature, That Action Is Deferred on the Receipt of Washington Advice Urging the Election of the Man Favored by Governor Hughes.

Albany, N. Y., March 8.—Senator Blinn Root, presumably reflecting the wishes of President Taft, took active charge of the critical situation in the republican party in New York state tonight on the eve of the conference of republican senators called to elect the successor to Senator Jotham P. Aldis as temporary president of the state senate.

Mr. Root sent a telegram to State Senator Davenport, advocating the candidacy of Senator Harven D. Hinman of Binghamton, a staunch supporter of Governor Hughes, as against Senator George A. Davis, of Buffalo, and Senator George H. Cobb of Watertown, rival aspirants. Cobb and Davis have been regarded as among the senators opposed to certain of the governor's policies. The governor all along has favored the election of Hinman, and he expressed satisfaction tonight that Mr. Root had actively interested himself in the situation.

SENATOR HINMAN IS ONE OF THE SEVEN "INSURGENT" SENATORS WHO REFUSED TO SANCTION THE ELECTION OF SENATOR ALDIS AS PRESIDENT OF THE SENATE AT THE BEGINNING OF THE SESSION.

GOITCH AND ROLLER WIN.

Kansas City, March 8.—Frank Goitch and Dr. B. F. Roller defeated in straight falls Pat Connelly, champion of Ireland, and Carl Becker of Austria, respectively, in wrestling matches here tonight.

HUNDREDS OF BOWLERS WILL SHARE IN PRIZES.

More Than Twenty-Five Thousand Dollars Will Be Distributed Among the Winners at Detroit's Ten-Pin Tournament.

Detroit, March 8.—There was no change in the leaders of the three events in the tenth annual tournament of the American Bowling Congress as a result of today's attack on the pins.

CORPORATION TAX ATTACKED.

Many Briefs Filed at Washington in Opposition to the Law.

Washington, March 8.—The attack on the constitutionality of the corporation tax loomed into prominence today when brief after brief in opposition to the law were filed in the supreme court. The final argument of the cases involving the question is set for next week.

PROPOSED AMENDMENTS APPROVED.

A number of amendments were approved by the executive committee today and will be submitted to a meeting later in the week.

COST THE FARMER DEAR.

Insects and Fungus Diseases Responsible for Very Heavy Damage.

CONGRESS MAKES HEADWAY.

House Passes the Postoffice and the Senate the Agricultural Bill.

WASHINGTON, MARCH 8.—That one-tenth of the agricultural products of the country is lost because of the ravages of insects, and another tenth from fungus diseases, was the estimate given to the house committee on interstate commerce today by E. V. Sanderson, of the New Hampshire agricultural experiment station.

GIVES WESTERN UNION CONTROL.

Telegraph Company Buys More Stock in the A. D. T. of New Jersey.

THE WEATHER

Washington, March 8.—The following is the weather bureau's forecast for Upper Michigan: Generally fair, Wednesday and Thursday.

NEWPORT'S NEW PAD.

Eastern Society Resort Will Go in for Flying This Season.

Newport, R. I., March 8.—Newport society will go in for flying this summer, according to Wilbur Wright, the Dayton acroplaneist, who arrived here today.

BIG PRIZE FIGHT AT OAKLAND.

San Francisco, March 8.—After weeks of negotiations between the joint promoters it was definitely announced tonight by Tex Rickard and Jack Gleason that the Jeffries-Johnson fight on July 4th, will be held in the Emeryville race track at Oakland, across the bay from San Francisco.

ACTRESS RIDES IN BALLOON.

St. Louis, March 8.—Two balloons ascended from the grounds of the Aero club today. The St. Louis III, carrying Louis Von Puhl, Moratio Bowman, Jr., and an actress, landed at Massena, Ills., forty miles away, without accident.

GOITCH AND ROLLER WIN.

Kansas City, March 8.—Frank Goitch and Dr. B. F. Roller defeated in straight falls Pat Connelly, champion of Ireland, and Carl Becker of Austria, respectively, in wrestling matches here tonight.

HUNDREDS OF BOWLERS WILL SHARE IN PRIZES.

More Than Twenty-Five Thousand Dollars Will Be Distributed Among the Winners at Detroit's Ten-Pin Tournament.

Detroit, March 8.—There was no change in the leaders of the three events in the tenth annual tournament of the American Bowling Congress as a result of today's attack on the pins.

Widely Divergent Claims.

The day itself was the most uneventful experienced since the beginning of the strike. There was no disturbance of any kind reported and both the police and labor leaders busied themselves in preparing statistics to support their widely divergent claims of the strength of the sympathetic strike.

WALKOUT THREATENS WESTERN RAILROADS.

Chicago, March 8.—Unless the railroad men make additional concessions to the firemen and engineers, and improve working conditions, the ultimatum of the employees, expressed by complete returns from the "strike vote" recently taken by the men on fifty railroads and published today by the committee of the Brotherhood of Locomotive Firemen and Engineers.

ALL LOST IN SPECULATION.

French Official Confesses to Embezzlements Aggregating a Million Dollars.

Paris, March 8.—An official statement issued tonight says that M. Duet, arrested today for the embezzlement of funds from the liquidation of various congregations under the law of 1901, has confessed that his shortage would reach \$1,000,000, all of which was lost in speculation on the bourse.

BRITAIN OUT \$142,500,000.

Lords' Rejection of the Budget Costly, Says Government Minister.

LONDON, MARCH 8.—The rejection of the budget by the lords in the last parliament cost the country in loss of revenue \$142,500,000 in the current financial year, according to a statement made by David Lloyd-George in commons today.

MANY AUSTRIAN POLES COMING.

Vienna, March 8.—Arrangements are making in Galicia for an extensive representation of the Austrian Poles at the Polish national congress which will be held in Washington next May. The delegates include the most prominent Polish leaders and representatives, elected by county government districts.

KING GUSTAVE QUILTS SWEDEN.

Stockholm, March 8.—King Gustave, who recently underwent an operation for appendicitis, started tonight for the Riviera to convalesce. He will break the journey, however, staying a week in Seania, and then will go to Karlsruhe, where the queen is staying.

CHICAGO BUILDING BURNS.

Chicago, March 8.—The Hebrew Literary institute, West Taylor and Lytle streets, was destroyed by fire today. The loss is \$110,000.

PEACEFUL DAY HAS RIOTOUS END

Calm of the Morning and Afternoon at Philadelphia Is Followed at Night by an Unexpected Outbreak of Turbulence.

Enraged Because a Stone Is Thrown, Fifteen Strike Breakers Man a Car and Drive Wildly Up and Down Frankfort Avenue, Firing Bullets Into the Crowds and Wounding a Number of Persons—Mob Retaliates, and Havoc Is Done.

Philadelphia, March 8.—Six persons, including a girl, were wounded tonight by bullets fired by alleged strike breakers who rode wildly up and down Frankfort avenue in a trolley car and shot into the crowds that lined the sidewalks.

AMERICAN LEGATION STONED.

Mob in Colombia's Capital Indulges in a Hostile Demonstration.

Bogota, Colombia, March 8.—A quarrel between the manager of an American owned street railway line and a police officer late yesterday was followed by a riot during which a mob attempted to wreck the street cars. The manager was arrested. The rioting continued some time and reached the block in which the American legation is located.

Widely Divergent Claims.

The day itself was the most uneventful experienced since the beginning of the strike. There was no disturbance of any kind reported and both the police and labor leaders busied themselves in preparing statistics to support their widely divergent claims of the strength of the sympathetic strike.

WALKOUT THREATENS WESTERN RAILROADS.

Chicago, March 8.—Unless the railroad men make additional concessions to the firemen and engineers, and improve working conditions, the ultimatum of the employees, expressed by complete returns from the "strike vote" recently taken by the men on fifty railroads and published today by the committee of the Brotherhood of Locomotive Firemen and Engineers.

ALL LOST IN SPECULATION.

French Official Confesses to Embezzlements Aggregating a Million Dollars.

Paris, March 8.—An official statement issued tonight says that M. Duet, arrested today for the embezzlement of funds from the liquidation of various congregations under the law of 1901, has confessed that his shortage would reach \$1,000,000, all of which was lost in speculation on the bourse.

BRITAIN OUT \$142,500,000.

Lords' Rejection of the Budget Costly, Says Government Minister.

LONDON, MARCH 8.—The rejection of the budget by the lords in the last parliament cost the country in loss of revenue \$142,500,000 in the current financial year, according to a statement made by David Lloyd-George in commons today.

MANY AUSTRIAN POLES COMING.

Vienna, March 8.—Arrangements are making in Galicia for an extensive representation of the Austrian Poles at the Polish national congress which will be held in Washington next May. The delegates include the most prominent Polish leaders and representatives, elected by county government districts.

KING GUSTAVE QUILTS SWEDEN.

Stockholm, March 8.—King Gustave, who recently underwent an operation for appendicitis, started tonight for the Riviera to convalesce. He will break the journey, however, staying a week in Seania, and then will go to Karlsruhe, where the queen is staying.

CHICAGO BUILDING BURNS.

Chicago, March 8.—The Hebrew Literary institute, West Taylor and Lytle streets, was destroyed by fire today. The loss is \$110,000.

BLOOD POISONING THREATENS LILLIS.

Banker Carved by Meat Packer Cudahy Not Improving as Rapidly as Expected—Knife Old and Rusty, It Is Reported.

Kansas City, Mo., March 8.—Fears that blood poisoning may develop in the injuries of Jere F. Lillis, president of the Western Exchange bank, whom John P. Cudahy, the packer, roped and cut Sunday morning in the Cudahy home, caused the physicians not to take him home today from St. Mary's hospital. The knife which Cudahy used is said to have been old and rusty. Lillis is still unable to talk, as his lips are sorely battered. The nurses say that he has not spoken since his arrival at the hospital.

Hyde Released on \$100,000 Bail.

Kansas City, Mo., March 8.—Dr. B. C. Hyde, charged by the grand jurors that investigated the Swope mystery with two murders, one case of manslaughter and eight attempts at poisoning, will go on trial for his life April 11th.

AMERICAN LEGATION STONED.

Mob in Colombia's Capital Indulges in a Hostile Demonstration.

Bogota, Colombia, March 8.—A quarrel between the manager of an American owned street railway line and a police officer late yesterday was followed by a riot during which a mob attempted to wreck the street cars. The manager was arrested. The rioting continued some time and reached the block in which the American legation is located.

Widely Divergent Claims.

The day itself was the most uneventful experienced since the beginning of the strike. There was no disturbance of any kind reported and both the police and labor leaders busied themselves in preparing statistics to support their widely divergent claims of the strength of the sympathetic strike.

WALKOUT THREATENS WESTERN RAILROADS.

Chicago, March 8.—Unless the railroad men make additional concessions to the firemen and engineers, and improve working conditions, the ultimatum of the employees, expressed by complete returns from the "strike vote" recently taken by the men on fifty railroads and published today by the committee of the Brotherhood of Locomotive Firemen and Engineers.

ALL LOST IN SPECULATION.

French Official Confesses to Embezzlements Aggregating a Million Dollars.

Paris, March 8.—An official statement issued tonight says that M. Duet, arrested today for the embezzlement of funds from the liquidation of various congregations under the law of 1901, has confessed that his shortage would reach \$1,000,000, all of which was lost in speculation on the bourse.

BRITAIN OUT \$142,500,000.

Lords' Rejection of the Budget Costly, Says Government Minister.

LONDON, MARCH 8.—The rejection of the budget by the lords in the last parliament cost the country in loss of revenue \$142,500,000 in the current financial year, according to a statement made by David Lloyd-George in commons today.

Vienna, March 8.—Arrangements are making in Galicia for an extensive representation of the Austrian Poles at the Polish national congress which will be held in Washington next May. The delegates include the most prominent Polish leaders and representatives, elected by county government districts.

KING GUSTAVE QUILTS SWEDEN.

Stockholm, March 8.—King Gustave, who recently underwent an operation for appendicitis, started tonight for the Riviera to convalesce. He will break the journey, however, staying a week in Seania, and then will go to Karlsruhe, where the queen is staying.

CHICAGO BUILDING BURNS.

Chicago, March 8.—The Hebrew Literary institute, West Taylor and Lytle streets, was destroyed by fire today. The loss is \$110,000.

KNOX, JR., BRAVES PARENTAL STORM

Discreetly Leaving His Bride at Baltimore, He Goes Alone to Washington to Ask Forgiveness for the Hasty Marriage.

He Sees Only His Father, the Secretary of State, However, and to All Appearances the Expected "Bless You, My Children" Is Not Forthcoming—The Youngster Is Disappointed but Not Discouraged—He Means to Go to Work if Necessary.

Washington, March 8.—Philander Chase Knox, Jr., discreetly left his young bride in Baltimore today while he hurried to brave the parental storm in Washington and ask his father and mother to forgive the hasty marriage.

AMERICAN LEGATION STONED.

Mob in Colombia's Capital Indulges in a Hostile Demonstration.

Bogota, Colombia, March 8.—A quarrel between the manager of an American owned street railway line and a police officer late yesterday was followed by a riot during which a mob attempted to wreck the street cars. The manager was arrested. The rioting continued some time and reached the block in which the American legation is located.

Widely Divergent Claims.

The day itself was the most uneventful experienced since the beginning of the strike. There was no disturbance of any kind reported and both the police and labor leaders busied themselves in preparing statistics to support their widely divergent claims of the strength of the sympathetic strike.

WALKOUT THREATENS WESTERN RAILROADS.

Chicago, March 8.—Unless the railroad men make additional concessions to the firemen and engineers, and improve working conditions, the ultimatum of the employees, expressed by complete returns from the "strike vote" recently taken by the men on fifty railroads and published today by the committee of the Brotherhood of Locomotive Firemen and Engineers.

ALL LOST IN SPECULATION.

French Official Confesses to Embezzlements Aggregating a Million Dollars.

Paris, March 8.—An official statement issued tonight says that M. Duet, arrested today for the embezzlement of funds from the liquidation of various congregations under the law of 1901, has confessed that his shortage would reach \$1,000,000, all of which was lost in speculation on the bourse.

BRITAIN OUT \$142,500,000.

Lords' Rejection of the Budget Costly, Says Government Minister.

LONDON, MARCH 8.—The rejection of the budget by the lords in the last parliament cost the country in loss of revenue \$142,500,000 in the current financial year, according to a statement made by David Lloyd-George in commons today.

MANY AUSTRIAN POLES COMING.

KING GUSTAVE QUILTS SWEDEN.

Stockholm, March 8.—King Gustave, who recently underwent an operation for appendicitis, started tonight for the Riviera to convalesce. He will break the journey, however, staying a week in Seania, and then will go to Karlsruhe, where the queen is staying.

CHICAGO BUILDING BURNS.

Chicago, March 8.—The Hebrew Literary institute, West Taylor and Lytle streets, was destroyed by fire today. The loss is \$110,000.

INSANE MAN USES GUN.

Connecticut Officer Is Killed and Two Others Are Wounded.

Bridgeport, Conn., March 8.—In attempting to arrest August Miller, a former inmate of an insane asylum, today, Policeman Charles Dietz was killed, Leonard Bago was probably fatally shot and Charles Doherty was slightly wounded. Letters written in red ink addressed to foreign universities and one to Yale were found in Miller's pockets. Many of the letters, which condemned everything in general, were decorated with crudely drawn pictures of a revolver which he bought a revolver, he said he intended to shoot Alexander Hawley, president of the Bridgeport Savings bank, if he did not give him \$400,000 he asked for Saturday.

DAILY MINING JOURNAL
A MORNING PAPER PUBLISHED BY
THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains
Associated Press dispatches and is espe-
cially devoted to the Upper Peninsula in-
terests.

SUBSCRIPTION RATES:

Per year, by mail, \$10.00
MARQUETTE, MICH., MARCH 9.

Entered as second class matter of the
second class in the postoffice at Marquette, Mich.

Hogs are about as high as some of
our lake coppers.

Miss Maggie Walz is helping to put
Marquette on the map.

And now, for extra good measure, the
Fifth ward is to have an aldermanic
election.

If the Chicago council taboos long
hatspins, what's the Chicago woman to
do herself with?

No small part of the anti-saloon cam-
paigning consists in uncovering the al-
leged loopholes in the other fellow's
statistics.

The decision of the senators to delay
action on all patronage is eminently
satisfactory to the men who are now
holding down the jobs.

Philander C. Knox, Jr., appears to
have been a good deal of cutup. His
escape is beyond the reach even of
shirt sleeve diplomacy.

According to reports from different
sources there are somewhere between
20,000 and 200,000 men idle as a result
of Philadelphia's general strike.

The late Senator Platt was not as
rich as the general public credited him
with being. In explanation it is com-
mented that he was a good spender.

A new professor at the U. of M. ad-
vocates dueling on the German order
as a substitute for football. Perhaps he
believes that it would prove less dan-
gerous.

At Escanaba Frank Kraus, Sr., has
become a candidate for mayor against
Mayor Greenhook, and there is to be a
fight all up and down the line for city
offices.

Judging from the number of oleo fraud
cases that have started a large
share of the Chicago population must
have been eating the packers' product
under the delusion that was prime No.
1 dairy butter.

There are only 1,200 people at Rapid
River, Delta county, but the average
receipts of the home baseball game last
year was in excess of \$100. Rapid River
must be about the best village for base-
ball in the entire country.

State Superintendent of Public In-
struction Wright continues to have trou-
ble with treasurers who keep the pri-
mary school money and their personal
funds in the same sock. If a law was
passed holding up disbursements of
primary school money except to town-
ships that actually had a use for it this
temptation would be removed.

When the voter enters the polling
place at the April elections he will be
handed a whole fist full of ballots. There
will be no less than seven of them, and
this not counting the proposed ballot
on the job of postmaster. He will have
to keep his eye peeled to keep from mix-
ing 'em up, and the election officials
will have no small task seeing that they
all reach the proper ballot boxes.

The Calumet News twits the Escanaba
Journal, with running a picture of
Mr. Musselman larger than is permitted
by the state law. As we understand it,
however, the state law applies solely
to advertisements, whereas the publicity
the Journal is giving to Mr. Musselman's
features is a gratuitous offering. Under
those circumstances, the Journal might,
unless we are mistaken, run a full page
picture of Mr. Musselman, without
transgressing on the law, if it wanted
to give up the space to it.

Sticklers hearing insulting references,
pasted on saloons or the homes of sa-
loon men, in the dark of the night, are
a mighty poor campaign argument. It
may be put down as certain that the
men in charge of the "dry" end of the
fight in this county do not approve of
such methods, and will not countenance
them. The police officers should spare
no effort to apprehend irresponsible per-
sons who deface property in this offen-
sive manner, and to visit them with the
penalties that the law provides for such
misdemeanors. The time to stamp out
the practice is right at the go-in.

The baseball meeting here Monday, at-
tended by representatives of the teams
that are to be formed in Marquette,
Delta and Alger counties, had results

that seem to foretell the formation either
of a Marquette-Delta county league
or a satisfactory arrangement for in-
ter-league games between leagues to be
organized in both these counties. There
is little probability of Munising being
counted in on any arrangement that
will be made, for the Ishpeming and
Negaunee managements are opposed to
the only terms on which Munising is
willing to enter a league, and that town
will probably play independent ball.
There appear to be no serious differences
of opinion between the managements
of the Marquette and Delta county teams
relative to division of the receipts and
other important matters, and thus no
reason why they should not be able
to reach an agreement. Either of the
proposed plans for bringing them into
relationship promises the best baseball
that has been seen in this county for
the past several seasons, and either
plan, it appears, would meet with the
approval of the public.

The higher courts have not saved Jas.
M. Schumaker, former superintendent of
public buildings and grounds, and William
P. Snyder, former auditor general, from
paying their penalty of imprisonment
for their part in the Pennsylvania capitol
frauds. Schumaker and Snyder were
convicted in Dauphin county, December
18, 1908, and were sentenced to pay a
fine of \$500 each and to serve two years
in prison. John H. Sanderson, of Phil-
adelphia, who had the furniture contract
for the capitol, and William L. Mathews,
of Media, former state treasurer, were
convicted and received similar sentences
at the same time. Both have since died.
The cases of Schumaker and Snyder
were successively appealed to the su-
preme court and to the highest court in
the state, but the convictions were up-
held. At the hour when the supreme
court was handing down its decision
against Snyder and Schumaker the state
was instituting proceedings to recover
\$5,000,000, the amount which it was
muled of in the frauds, from all their
beneficiaries.

The sub-committee on naval affairs
which wants Commander Peary's proofs
that he found the north pole made public
before it will seriously take action
on the reward that is to be conferred
on him by congress can't have its way,
because Peary has entered into an agree-
ment with his publishers that they are
first to be made the property of the
public in his own story of his successful
expedition. To make them public
through submission to the committee
on naval affairs at this time would not
only be a violation of this contract, but
would subject Peary to a large financial
loss. Peary is not a mercenary man.
He has not endeavored to make his
achievement the basis of a hungry quest
for the almighty dollar. Tens of thou-
sands of dollars that he could have
made since his return he has permitted
to go by default. When he was present-
ed with a purse of \$10,000 at a recent
New York testimonial he turned it over
to a fund for South polar exploration.
With what money he has earned Peary
has been wiping out debts incurred be-
cause of his polar trips. It's not fair
for the committee to demand that he
submit to a heavy loss by a premature
publication of his records, if he did
not intend soon to make them public,
the situation would be different. The
attitude toward Peary of the house na-
val affairs committee has been picay-
unish. It acts as if it was disappointed
and chagrined because he had made good.

Regarding the progress that has been
made in organizing in this part of the
state in support of Mr. Osborn the Soo
News says: "The initial hope of the
active organizers in Mr. Osborn's behalf
in the upper peninsula was that a clear
majority of 20,000 votes would be se-
cured for the Soo man in the September
primary. The success which attended
early efforts at organization soon led
the leaders to estimate the prospective
majority for Osborn in the upper penin-
sula at 25,000 votes. At the present
stage in the game, with the unanimity
of the district becoming daily more ap-
parent, their expectation is that not less
than 30,000 votes for Chase Osborn for
governor from the upper peninsula alone
will aid in making him the nominee of
the Republican party on Sept. 5."

The growth in the sentiment for
Chase Osborn for governor which has
come as a result of Mr. Osborn's tour
in lower Michigan is little short of phe-
nomenal. Wherever he has gone he has
converted indifference into active inter-
est, made friends out of strangers and
has been assured of support in quarters
where support was least expected. He
has demonstrated a most remarkable
capacity as a campaigner, fully justify-
ing the high expectations of his friends
in this regard. So wide-spread has he
made his candidacy known that the sim-
ple announcement that Mr. Osborn is to
speak in any part of the state serves as
ample assurance of a big audience, and
a majority of those who come to hear
him out of curiosity leave the meeting
pledging their support and actively in-
teresting themselves in Mr. Osborn's be-
half. Before the campaign is done Mr.
Osborn will doubtless address personally
a majority of the voters of the state,
and this, in view of the success that has
attended his past efforts, gives his sup-
porters the most supreme confidence in
a successful conclusion of the campaign."

MONTGOMERY TO WITHDRAW.
There's much better than an even
chance that Judge Robert M. Montgom-
ery of Grand Rapids will withdraw from
the race for governor, to accept an ap-
pointment on the newly created cus-
toms court. Judge Montgomery is now
in Washington, where he went to con-
fer with President Taft regarding the
appointment, and his acceptance of it
is expected.

For a sick man it appears that Sen-
ator Smith has been playing a deal of
politics. The judgeship which Judge Mon-
gomery has been offered is the same
judgeship that Senator Burrows has
been hopeful of landing for Judge Ses-
sions of Muskegon. Unbeknownst to
Senator Burrows, it appears that Sen-
ator Smith has had a string on it all
along, by virtue of a prior promise from
the president.

If Judge Montgomery accepts the place,
Senator Smith will have discharged a
considerable debt of friendship to him.
Incidentally, he will have been the means
of materially changing the political sit-
uation in Michigan.

Whatever reluctance Judge Montgom-
ery has to going on the customs court
has its origin, it is said, in his reluc-
tance to abandon a contest to which he
was pretty definitely committed, thus
leaving his friends up in the air. In
this connection, however, it is pointed
out that the race is still young and that
there is plenty of opportunity for those
who have supported Judge Montgomery
to get under cover with other candidates.

If the field is narrowed down to three
candidates it is already commented that
the beneficiaries of Judge Montgomery's
withdrawal are likely to be Chase S.
Osborn and Amos S. Musselman, and
that Lieutenant Governor Kelley will
suffer for it. The idea seems to prevail
that the men who have supported Judge
Montgomery are, as a rule, men who
have not been enamored with the pres-
ent state administration and are, there-
fore, not likely to espouse the cause of
the candidate who has been most in-
timately connected with it.

Mr. Osborn's friends will confidently
believe that he will be the largest sin-
gle gainer in the event that Judge
Montgomery gets out of the race. Judge
Montgomery has been his most serious
rival for the preponderance of the large
vote of Wayne county. With him no
longer to reckon with, Mr. Osborn should
easily be the Wayne county favorite,
besides gaining substantial new support
in other parts of the state. He has nothing
to fear, and everything to be pleased
at, with the prospective new alignment.

LOWER STATE NOTES.
FLINT—With 250 Polish families in this
city it has been decided to erect a Polish
Roman Catholic church in Flint. For some
time past Bishop Foley has had the mat-
ter under consideration and the recent
addition to the Polish colony has in-
duced him to create a parish. Father
Stefanski, who has been for the past four
years assistant pastor at St. Albertus
church, Detroit, has been appointed to
take charge. Work on the new church,
which will be erected in the vacant dis-
trict, will be commenced immediately.

MT. PLEASANT—That hog raising is
profitable at the present season is shown
by the larger size of the hogs. George Mc-
Gregor, a farmer near Shepherd. From an
investment of \$2 McGregor cleaned up \$115
in about a year. He paid \$2 for two pigs
to start with. Five of their litter he sold
for \$2 apiece, or \$10. He kept two, which
he fattened and sold, the smaller bringing
\$21.75 and the larger \$18. He sold the
mother for \$25.25 and the father for
\$24.50, a total of \$115.50. McGregor thinks
this is the record profit from pigs in the
state.

SAGINAW—More extensive short-weight-
ing of coal was brought to light here when
the police rounded up delivery wagons
and took them to the city scales, where
also out of eleven wagonloads were found
short from 50 to 150 pounds. Three small
loads were in the aggregate 400 pounds
short. Extensive short-weighting was un-
covered earlier in the winter and the de-
alers were let off on a promise to stop
cheating. The present cases will be pro-
secuted. It is said, in most instances they
were the same dealers caught before. It
is suspected that consumers here are be-
ing defrauded out of large sums in their
coal purchases.

FLINT—The postoffice sub-station, re-
cently established in the factory district,
is doing more business in money orders
than the whole city showed only two
years ago. It is today the largest post-
office branch of its kind in the country
in point of business. These statements
from the postoffice department indicate
the tremendous growth of that section of
the city during the past two years. As
an illustration of the large volume of
business done, the men in charge of the
sub-station says that after the last pay-
day at the Dulek Motor works orders
amounting to \$2,886 were issued. In ad-
dition to this the money order business
at the main office has increased more than
60 per cent over last year.

Loose Tea Loses Flavour
It not only loses flavour, but worse than this, loose
tea takes on new odors, such as coal oil, molasses,
onions, coffee, soap, etc.,—to say nothing of
its exposure to the sun, dust, dirt and
air. Therefore for your protection

"SATADA"

is sold only in sealed lead packets—never in bulk.

in the water but a short time. Life was
extinct when it was taken out of the sea,
and this is only another and more re-
markable demonstration of the irre-
sistible power of popular demand once
it is aroused to the point of action.

But they were aroused into action
at last, and this is only another and
more remarkable demonstration of the ir-
resistible power of popular demand once
it is aroused to the point of action.

Justice is at last being done to the
women of Turkey by the Young Turk
party, whom they had assisted. The
sultan himself has now set the example,
and a new era has dawned for the
women of Turkey.—London Daily Mail.

TURKEY'S FREED WOMEN.
Their Emancipation Now Going Steadily
Forward.

To a large number of people the
words "Turkish woman" generally sug-
gest one of two pictures; either a
veiled form wrapped in an ample gar-
ment and revealing only two large,
black eyes, made up with kohl, or a
beautiful creature reclining on thick
satin cushions, clad in silk and gauze,
and smiling indolently as she puffs to-
wards the carved ceiling of the room
the smoke of a scented cigarette or a
"hubble-bubble."

The recent awakening of Turkey has
had its effect, however, upon the life of
Turkish women, and civilization, as
Westerners understand it, has made its
way into the haremlik.

Of course, it is well known that for
many years the leading Turkish ladies
have studied foreign languages, read
extensively English and French novels,
played the piano and have been ac-
quainted with the charms of the talk-
ing machine, and even the typewriter
and the fountain pen!

One was aware also of the fact that
Turkish women have had for a long
time right and privilege which Eng-
lish women have not; amazing rights,
indeed, which no Suffragists have yet
ventured to ask for. For instance, they
retain their own names when they
marry, and also their own fortune,
which they manage exactly as they
please. They have almost all the legal
rights that men enjoy, and the hus-
band's sanction, approval, or signature
is not needed.

For the past twelve centuries Turkish
women have been able to obtain a di-
vorce whenever they had a serious
grievance against their lord and mas-
ter, while our laws on separation and
divorce and on the granting of alimonies
are comparatively quite recent.

But, in spite of the sudden victory
of the "Young Turk" party, and the
wholesale modernizing of Turkey which
ensued, one did not expect that the old
traditions concerning women would be
tampered with.

Last year it was stated that a num-
ber of Turkish ladies of high standing
had boldly discarded the veil on a few
occasions. And now the news has
transpired that at the court functions
in connection with the "Bairam," the
Mahomedan Easter, the ladies of the
Turkish aristocracy were admitted.

The meaning of such a revolution in
Turkish official etiquette cannot be
overated. The sultan, Mohammed V.,
was informed, very courteously re-
ceived his aristocratic feminine guests.
They wore most elegant and fashion-
able Parisian dresses under the great
black cloak. They even removed their
transparent white veils before appear-
ing before the up-to-date "Commander
of the Faithful."

All the ladies had a few minutes'
conversation with the sultan, who in-
quired about their husbands and family,
their work and ideas. The scene re-

Copper Country

SUPERVISORS ASK \$15,000.

This Amount Will Be Voted on by the People for a Sanitarium.

The Houghton county board of supervisors voted yesterday morning to submit to the people at the April election the question of raising \$15,000 for the purpose of erecting a tuberculosis sanitarium.

The board did not arrive at this decision with the unerring speed which is characteristic of its deliberations. In fact the board consumed more time in discussing the question than it has devoted to any question in at least seven years.

The matter came up through a report of Prosecuting Attorney MacDonell to the effect that in his opinion Houghton county has a legal right to bond for a tuberculosis hospital or to raise the money in any other way, providing the question is submitted to the vote of the people. Then the discussion opened.

Supervisor Pro Tem Meads from Calumet thought the county could raise only one-tenth of a mill, but he was convinced of his error. Supervisor Seebor wanted to know if the tuberculosis matter could not be disposed of by enlarging the scope of the present sanitarium for indigent tuberculosis patients.

Dr. L. L. Hubbard, president of the Houghton County Anti-Tuberculosis society, was present and he answered this question by recalling that the site of that hospital has been sold and the land had no right to add to vacate. Dr. Hubbard said that the society did not care how the county went about it to stamp out tuberculosis providing something was done. He cited authorities to show that in twenty-five years the disease would become unknown if proper measures were taken by all governments.

Dr. Hubbard also stated that the county would have to provide accommodations immediately for twenty advanced cases. There are now thirty-two in the county and it may be expected that the number will reach fifty when a complete investigation is made by the society's visiting worker.

He placed the cost of maintenance at about \$40 per month per patient.

Mr. Meads rose to oppose the question from the point of view of the taxpayer, claiming the board had no right to add this burden to the taxpayers. And then ensued this colloquy:

Mr. Seebor—What will it cost in ten years if we don't do something now?

Mr. Meads—Wait till you come to the bridge before you cross it.

Mr. Seebor—But we are at it now.

Supervisor Uren arose and declared he thought this should be a matter for the state or the upper peninsula to take up.

It looked broader than a county affair. Dr. Fischer of Hubbell described the state institutions at Howland, to which Mr. Uren had referred. He said this took only incipient cases and what the Houghton county society wants to do is to gather the incurable cases and keep them from spreading the infection.

The discussion had gone along at this point without much of anything when an accomplished and Dr. W. H. Dodge of Hancock arose. He delivered a rapid fire and fervid address from the point of view of humanitarianism. He told of conditions in places where tuberculosis is now found and where the entire family is doomed to death if something is not done. He declared that every member of the board should say "This should be remedied if money can do it."

Supervisor Johnson offered a resolution to submit to the people at the April election the question of raising \$15,000. This was supported by Supervisor Jacques. But this only made confusion worse confounded. Supervisor Hamar wanted to amend by voting \$8,000 direct and at once. Dr. J. E. Scallon and Dr. Hubbard and several supervisors talked again. Supervisors Eddy expressed the opinion that the matter had not been properly presented, that it had come before the board without sufficient preparation. But the Johnson resolution came to a vote and was passed, almost unanimously.

The passing of this resolution indicates that at the spring election the people will be asked to give the supervisors authority to raise \$15,000 to be used in erecting a sanitarium for the treatment of tuberculosis. The board has no idea at present of the kind of building, its location or the manner of its administration.

Some Minor Matters.

Supervisor Lawton, for the building committee, reported that the committee had found the county jail inadequate and believed the present jail should be enlarged or a new one built. The plans of the present county building, which includes the jail, could not be found. The committee had no basis on which to work in suggesting changes. He asked for more time and authority to secure a floor plan of the building. This was granted.

Attorney O'Brien of Laurium, acting for that village, appeared to inquire as to the fate of a bill presented by the village in the sum of \$4,597.79, for expenses incurred in treating contagious diseases. It had been rejected by the finance committee, but the board reconsidered this action and refers the bill to the finance committee once more, to give Mr. O'Brien space in which to work. The committee will appoint a time of hearing on this matter.

The building committee was authorized to place electric lights in the county detention hospital.

LAYS CLAIM TO REWARD.

Detective Worthington of Duluth Seeks \$5,000 from Houghton County.

Attorney P. H. O'Brien of Laurium sprung a sort of bomb in the meeting of the board of supervisors yesterday morning. He appeared as representing Detective A. M. Worthington of Duluth, who claims the \$5,000 reward offered by Houghton county for information leading to the arrest of the man who sent the dynamite machine to Sheriff Beck two years ago.

Worthington was present and was willing to address the board. It appears that the finance committee and prosecuting attorney have been considering the matter and looking up the evidence which Worthington had presented. Worthington is a detective in the employ of the Duluth, Missabe & Northern railroad. He said yesterday to a reporter for this newspaper that he found the dynamite machine's owner and secured an identification from him of the machine. He said that the Pinkerton men were walking around Virginia, Minn., at the time with their hands in their pockets and making no headway when he came in and secured the evidence.

He said yesterday to a reporter for this newspaper that he found the dynamite machine's owner and secured an identification from him of the machine. He said that the Pinkerton men were walking around Virginia, Minn., at the time with their hands in their pockets and making no headway when he came in and secured the evidence.

Worthington was present and was willing to address the board. It appears that the finance committee and prosecuting attorney have been considering the matter and looking up the evidence which Worthington had presented. Worthington is a detective in the employ of the Duluth, Missabe & Northern railroad. He said yesterday to a reporter for this newspaper that he found the dynamite machine's owner and secured an identification from him of the machine. He said that the Pinkerton men were walking around Virginia, Minn., at the time with their hands in their pockets and making no headway when he came in and secured the evidence.

ROYAL Baking Powder
Absolutely Pure
Royal is the only Baking Powder made from Royal Grape Cream of Tartar

Many mixtures are offered as substitutes for Royal. None of them is the same in composition or effectiveness, so wholesome and economical, nor will make such fine food.

CRICKET LEAGUE TALK.

Same Ten Teams Will Be in the Comperdom Organization This Year.

Present indications are that the Copper Country Cricket League this year will be made up of the same ten teams that took part in the league games last season. In other words, working on the basis of the old ones showing any disposition to drop out. The plan of dividing the league into two divisions, the championship to be played for by the leaders, will likely come up again this spring, but will not likely be adopted.

The teams in the league last year were Calumet & Hecla, Tamarack, Kearsarge, Ahneck, Mohawk, Quincy, Mesnard, Tri-mount, Painesdale and Baltic. The Calumet & Hecla won the championship handily and the members of the club expect to capture the cup again this season. The team last year was but two years old. It will be improved considerably. The club this year will likely locate its pitch near the Albion station of the Houghton County Traction company or else in the Laurium Driving park. The old grounds in Calumet field will be included in the proposed new public park.

At a recent meeting of the members of the Mesnard Cricket club the following officers were elected: President, Captain T. Maunders; vice president, W. J. Sampson; secretary, Sidney R. Willis; captain, J. Rodda; vice captain, G. Perry; umpire, J. Trethowan; scorers, John and Garnet Polkinghorne. The other players who will make up the team will be A. P. Bennett, N. Clynio, J. Doney, P. Sullivan, W. Kagu, T. Orinovich and J. T. Sampson. The delegates who will represent the club at the annual league meeting to be held in April at Hancock are Captain Sampson, J. Rodda, G. Perry, T. Kule, P. McCarthy and Bert White.

A committee has been appointed to make arrangements for a concert to be given under auspices of the Mesnard club Saturday night. This concert will be given for the purpose of raising funds with which to purchase a mat to replace that destroyed by the burning of the Peawabic dry recently. The committee consists of J. Rodda, J. Harris, Edwin White, Larry Kopp and William Verran.

May Not Play the Game Again. Nicholas F. Kaiser, wicket keeper for the Calumet & Hecla club last year and two years ago, announces that he will not play cricket another season. When asked whether he would play baseball, Nick said "Maybe." Kaiser is "right there" at cricket, as at baseball, and will be missed should he not play this year. His batting eye served him well in the games in which his team took part the past two years. He was one of the heaviest batters of the league.

MOTOR BOAT PROSPECTS.

Portage Lake Club Appears to Have a Good Season in View.

Within a short time a meeting of the Portage Lake Motor Boat club will be called to make plans for the coming season. It is likely that a banquet will be held in the club house at Hancock. Houghton fifty-five motor boats of all classes, and they are generally large and comfortable craft. This number is to be largely added to during the summer. Joseph Bosch of Lake Linden is spoken of as having ordered a boat which will be the finest in copper country waters. R. Skiff Sheldon is numbered among those who will add to the fleet. R. C. Pryor's big cruiser, launched last season, will be one of the best boats in the region.

OSBORN CLUB MASS MEETING.

The Hancock Osborn club seems to be the only one in Houghton county which is actually kicking in with good work for the 800 man. It has instituted a house to house canvass of the voters to get them to enroll in the county. An announcement of a big mass meeting for Germania Hall March 22. The Quincy band will be there and Dr. E. T. Abrams of Dollar Bay will speak. William R. Oates of Laurium, president of the Upper Peninsula League of Osborn clubs, is also on the program.

OPENED KERREDGE THEATER.

The announcement of the death of Louis James, the actor, came as sad news to Portage Lake theatergoers. Mr. James had made several visits to this district. He was in one of the leading roles in "The Tamed" at the Kerredge theater when it opened Sept. 5, 1902. For years Mr. James traveled with Frederick Ward, visiting the copper country two or three times after the opening of the Kerredge.

The soothing spray of Ely's Liquid Cream Balm, used in an atomizer, is an unspeakable relief to sufferers from Catarrh. Some of them describe it as a Godsend, and no wonder. The thick, yellow discharge is dislodged and the patient breathes freely, perhaps for the first time in weeks. Liquid Cream Balm contains all the healing, purifying elements of the solid form, and it never fails to satisfy. Sold by all druggists for 75c, including spraying tube, or mailed by Ely Bros., 56 Warren street, New York.

Mining News

AMALGAMATED.

R. B. Thayer, president of the Anaconda Copper company, has left for Butte for the purpose of making property appraisals and rounding up conditions in general incident to an increase in the capital stock of the Anaconda company from 1,200,000 shares to 6,000,000 shares in order to acquire properties of other companies located in the Butte district. Mr. Thayer was accompanied by experts who will assist in appraising the different mines. March 23 the Anaconda shareholders will meet to vote upon the proposition of increasing the capital stock. After this meeting, meetings of the Boston & Montana, Washoe and other companies will be held for the purpose of taking up the matter of transferring these respective concerns to the Anaconda. The Amalgamated over all the stock of the Boston & Montana and Butte & Boston, and supposedly about 55 per cent of the stock of the Anaconda company. It is believed, however, that Amalgamated interests have accumulated considerable additional Anaconda stock over the last several months. The Amalgamated also has an option on a large amount of Butte Coalition stock, a company which will be included in the merger. The capital stock and approximate production of certain mines that will be included in the Butte merger, follow:

Company	Capital	Annual Production, lbs.
Boston & Mont.	\$ 3,750,000	95,000,000
Anaconda	30,000,000	85,000,000
Butte & Boston	2,000,000	20,000,000
Washoe	20,000,000	12,000,000
Parrot	2,500,000	5,000,000
Trenton	2,500,000	10,000,000
Butte Coalition	15,000,000	40,000,000
Total	76,750,000	208,000,000

The reasons for the proposed increase in Anaconda stockholders involve considerations of dilution and complicated legal questions, as well as those relating to the economical and efficient management of the business operations of the different companies. The merger of the Butte properties is expected to greatly reduce operating costs as well as improve conditions in the Butte camp. The development work and the introduction of economies in general will be carried on more aggressively than ever before when the various mines and smelters are operating under a single control.

The merging of the Utah and the minority stock of the Nevada Consolidated, and the consolidation of the Butte mines.

CUTICURA CURED TWO BROTHERS

One had Face Covered with Itching Eruption—Eyesight was Affected—Raw, Itching Humor Spread Over the Other from Head to Feet in a Single Day—Dreadful

SKIN-TORTURES YIELD TO EASY TREATMENT

"In 1907 my face broke out in a mass of itching sores which finally affected my eyesight and rendered me almost blind. I tried every remedy recommended by my doctor, but to no avail. A friend of mine urged me to try Cuticura Soap and Ointment. I used the Cuticura Ointment for about six weeks, after which my face was in perfect health now which I owe to the Cuticura Remedies. I shall always stand by them as one of the greatest blessings to the suffering thousands. Arthur D. Gridley, 532 Dean St., Brooklyn, N. Y., Apr. 9, 1909."

"In the middle of the night of March 30th I woke up with a burning itch in my two hands and I felt as if I could pull them apart. In the morning the itching had got to my chest and during the day it spread over my body. It happened to see about Cuticura Remedies and I thought I would give them a trial. I took a good bar of Cuticura Soap and used the Cuticura Ointment. I put it on from my head down to my feet and then went to bed. On the first day I felt like a new man. The itching was almost gone. I continued with the Cuticura Soap and Ointment and during that day the itching completely left me. Frank Gridley, 25 E. 43rd St., New York City, Apr. 27, '09."

Complete External and Internal Treatment for Every Humour of the Skin and All its Diseases of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin and Cure Itch, Eruptions, etc., or in the form of Cheapest Cuticura Pills, 25c. per box of 50 Pills. Purify the Blood. Sold throughout the world. Fuller, Trease & Co., Corp., Sole Proprietors, 135 California St., Boston, U.S.A. *See Manual Page 32-page Cuticura Book an authoritative treatise on treatment of Skin and Scalp Diseases.

ALLOUEZ AND CENTENNIAL.

The Alouez and Centennial companies have somehow become linked together in the public mind as sister properties. The stocks of these companies were among the first to be bought by the Calumet & Hecla people in carrying out their expansion policy at Lake Superior. Today Calumet & Hecla owns 43 per cent of Alouez and 51 per cent of Centennial. Both properties are operating on the Kearsarge lode, but, unfortunately for Centennial, it is the Alouez which seems to be making the only real progress. Certain it is there is nothing in the recently issued Centennial report to encourage the hope that the mine is destined in 1916 to show substantial improvement over the years which have immediately preceded. The operations of 1909 resulted in a loss of \$57,625. No helpful assurances are held out in the report concerning underground developments. Ten years ago now Alouez and Centennial began work on the Kearsarge lode. Its Nos. 1 and 2 shafts are down 3,816 and 3,947 feet respectively and drifts have been run therefrom north and south; yet the mine under the able management of the Calumet & Hecla people is unable to show any "class." From the stock market point of view, of course, the consolidation of 46,080 shares in the Calumet & Hecla treasury, leaving only 43,920 shares in the hands of the public, serves to give the stock a standing which it might not otherwise enjoy.

Alouez, on the other hand, while coming along much slower than many of its friends had hoped, is still, moving in the right direction, and showed in 1909 a record copper yield of 15,930 pounds per ton of rock, which compares with 13,8 and 13.6 in 1908 and 1907 respectively. As a matter of fact, Alouez last year showed a mining profit of \$92,231, or almost 81 per share. It is of interest to compare the operations of the Alouez and Centennial properties in 1909 in parallel columns. They follow:

	Alouez	Centennial
Gross receipts	\$842,700	\$245,632
Total operating exp.	450,532	397,359
Mining profit	92,231	51,707
Const. and equip't	75,872	1,983
Net profit after taxes	3,965	53,696
Tons of rock broken	258,234	199,918
Percent of fact dressing	2.01	1.17
Refined copper production (pounds)	4,931,342	2,583,988
Pounds of refined copper per ton	15.93	13.15
Cost per pound constructed	13.39c	15.61c

"Deficit."
A scrutiny of the operating accounts makes it evident that the management is exercising every possible economy in the operation of both properties, and stockholders may well be grateful that a friendly interest will have met with failure. Two sections of the mill have been completed, but the company is without funds with which to provide additional machinery needed. A small profit is now being made on the treatment of about 1,000 tons of ore per day.

Tamarack's annual report shows 20,286,174 pounds of mineral from 689,689 tons of rock, netting 13,332,207 pounds of ingot copper, costing 12.41 cents. The total receipts were \$1,906,877, and the total costs, including interest paid, \$1,955,423. The decrease in assets for the year was \$28,546. The balance of assets Dec. 31, 1909, was \$448,789. The accounts receivable were \$1,267,792, and the accounts payable \$1,367,999.

INSURE WITH PETER WHITE & CO. PRIMARY LAW EXPLAINED.
J. O. Maxey of Baraga Favors It for County Office Nominations.
Owing to the complicated nature of the primary law passed by the last legislature, which provides for the submission to the people this spring the proposition to adopt or reject the primary system of nominations for county officers, the following explanation by Representative John O. Maxey, of Baraga county, who is strongly in favor of the primary system, should be of general interest:
"That there may be no misunderstanding permit me to say it is compulsory upon the county clerk to provide the proper formality for submitting this law to a vote of the people on the first Monday in April, 1910. Therefore there is no necessity of securing a petition of 20 per cent of the voters to have the law submitted. The election law itself provides that it must be submitted to the people to be voted upon without petition, therefore all who are interested in good government in this county should go to the polls on that day and vote to pass the primary election law.
"The primary is a popular movement which has been adopted in many of the states and most of the counties of Michigan. The remaining counties expect to adopt this law at the coming April election. It is popular with the farmer because under the primary he can force his candidacy upon an unwilling machine. They may object to his becoming a candidate but with the primary law they cannot prevent him as can be done under the present caucus system.
"Under the primary law in lower Michigan the farmers have thirty-one representatives out of one hundred members in the lower house in the legislature which signifies that all voters may have an equal chance for election to public office.
"The primary is popular with the voters of the country because where they are industrious and honest they will have the best chance to secure nomination for public office. Under this law, worthy young men are coming to the front wherever it has been adopted. Under the primary younger men are being elected to office more frequently than under the older laws, and they are making good. Under the primary law the old caucus system is abolished, therefore giving every voter a fair chance to urge his candidacy and no machine can prevent him."

Basketball Game—The City team and the Knights of Columbus five will play basketball at Legion Hall tomorrow evening. It will be the third game between these teams. Both matches already played have been won by the Knights of Columbus, but in the contest of tomorrow the City team is hoping for better fortune. The game is expected to be one of the very best of the season.
Will Vote for Alderman—Citizens of the Fifth ward will have to cast their ballots for a successor to the late Alderman Walter T. Ward, in addition to their many other election day duties on April 4. The city clerk has notified that in case of death of an alderman, or vacancy for any other reason, that such vacancy must be filled at the next regular election, provided a special election is not ordered by the common council. It is said there are already several candidates in the field.
Many Paid Last Respects—A large number of Marquette citizens paid their last respects to the late Alderman Walter T. Ward by attending his funeral yesterday afternoon, at 3 o'clock from the house and at 3:30 from the Episcopal church. Members of the city council and the city officers turned out in a body, as did the Old Fellows and Knights of Pythias, of which lodges the deceased was a member. The sorrowing family received many beautiful floral tributes. Interment was in Park cemetery.
Trespass Case Continued—The case of Mrs. Ellen O'Donnell of this city, who accuses Z. Toussaint of Choctaw of timber trespass, was brought up in Justice Cronin's court yesterday, but continued until April 26. The trees in question in this case are located very close to the boundary line of the Toussaint and O'Donnell farms. Mrs. O'Donnell claiming that they were her trees and Mr. Toussaint that they were his. As soon as the snow goes off a survey is to be made to ascertain which party is in the right.
Gave Splendid Concert—The concert given by D'Urbano's band at the opera house last night proved to be one of the very best yet given by this great director and his talented band of musicians. The various numbers on the program were rendered with artistic finish and were selected with excellent taste, most of them being played for the first time in this city by this band. The last concert during this engagement will be given this evening, and should be attended by a large audience. An entire change of program is promised.
Brothers Enter Prison—Omar and Thomas Harrison of Presque Isle county were enrolled at the branch prison yesterday, having been sent up for manslaughter. Omar is under sentence of from five to fifteen years, and Thomas, seven and a half to fifteen years. Deputy Catlin left yesterday for Ionia with a convict sent up from Gogebic county in August, 1909, for manslaughter, Paul Brero, who is being taken to the state asylum for the criminally insane. Brero has been unbalanced ever since his incarceration, but of late he has developed melancholia to such an extent that he has become dangerous.
Bound Over to Court—Morris Honor, the peddler who absconded to Minneapolis with several hundred dollars worth of goods owned by M. F. Goldberg, of this city, has been bound over to circuit court on a charge of grand larceny. His bail was fixed at \$500, which he has been unable to secure. In defense of his actions, Honor told Justice Byrne that he lost \$55 in money in the road near Choctaw and was afraid to come back and tell his employer of his loss. He said that he decided to go to Minneapolis and as soon as he had earned the necessary amount, repay Mr. Goldberg the value of the articles taken from the store.
Family in Hard Luck—Arthur W. Hurley, aged ten years, son of Mr. and Mrs. E. T. Hurley, passed away yesterday morning at St. Mary's hospital, death being caused by typhoid pneumonia. Mr. Hurley is the city market keeper. He and his family are suffering from a series of misfortunes that deserves much sympathy. Not only is the son dead, but another child is in the hospital with typhoid fever and the mother is also very ill with serious eye trouble.
At the meeting of the council Monday night, M. Hurley was given ten days' vacation on full pay, in order that he might be able to spend his whole time with his afflicted family.
Official Notice of Elections—Sheriff Lehman is about to send out to all townships and ward supervisors official notices of the various elections to be held April 4, which each supervisor is requested to post in a conspicuous place in his respective township or ward. Notice of each of the six different elections to be held must be posted on a separate sheet, namely: Local option election, county primary system for nomination of county officers, primary system for nomination of circuit judge, bond issue for tuberculosis hospital, circuit judge election, and amendment to state constitution. In addition, in Marquette city there will be the amendment to the water board act and the postmastership to vote on.

BOWLING SCORES.
The Guild Hall "B" team was defeated at the downtown bowling alleys last evening. Lafayette took two of the three games. The scores were:
Guild Hall B. Tot.
Miller 161 190 152 503
Jeanson, sub 169 132 137 438
Cole 112 168 146 426
Robertson 135 143 154 432
Carr 181 149 114 444
Lafayette— Tot.
S. Rose, sub 133 182 159 474
Fennedy 140 161 117 427
Cain 147 184 145 476
Preston, sub 161 145 157 463
Marquette 142 124 151 417
Tot. 732 796 729 2257
Tonight the Guild Hall "A" and Pilgrims will bowl.
Do you need a piano? Tell us why—what you know to be an answer may bring you that beautiful \$300 Wellington displayed in the Cable company's store. (3-9-14)
Miss Flora E. Hill, of the Normal school faculty, will deliver a lecture on Tangiers, illustrated with stereoscopic views, in the Morgan Memorial chapel, for the benefit of the candidates branch of the Girls' Friendly society, Wednesday evening, March 9. Admission, adults, twenty-five cents; children, fifteen cents. (3-7-34)
A well informed Marquette lady meets milk man at the door with this question: "Have your cows stood the tuberculin test?" Milk man: "No, I don't believe in it." Lady: "I do, and I don't want any more milk from untested cattle." (2-26-14)
Every cow at the Marquette City Dairy has stood the tuberculin test January 20-21, 1910, by Dr. Deadman and is warranted to be in perfect sanitary condition. (2-14-10)
PROPOSALS FOR CEMENT.
—Office of the—
Park, Cemetery and Street Commission, Marquette, Mich., March 7, 1910.
Notice is hereby given that sealed proposals will be received at the office of this commission until 5 o'clock p. m., April 1st, 1910, for furnishing 4,000 barrels, more or less, of Portland cement, to be made in quantities as needed in the construction of concrete walks, etc., in different parts of the city. All cement to be guaranteed to pass the Standard Specifications for Cement, of the American Society for Testing Material.
The commission reserves the right to reject any or all bids.

A Home for the Future. Most every young man has the hope and ambition to some day have a home of his own. Such an ambition is commendable, yet of itself, it will not bring results. Energy and purpose, together with ambition and a savings account, will bring him to the desired goal almost before he knows it.

Marquette National Bank. Marquette, Mich. Capital and Surplus - \$125,000.00. UNITED STATES DEPOSITORY.

MARKETS. HELPS THE WHEAT MARKET. Government Report on the Farm Reserves a Bullish Statement. Washington, March 8.—The quantity of the 1910 wheat crop in farmers' hands March 8 was 23.5 per cent, equivalent to 173,344,000 bushels, compared with 21.6 per cent (143,692,000 bushels) of the 1908 crop on hand March first, 1909.

WALL STREET STOCKS. New York, March 8.—Paine, Webber & Co. say of today's stock market: "Operations in Steel were again the feature of the trading, but advances, except in a few specialties, were not of a material extent; in fact, Southern and Union Pacific closed slightly lower than last night. The money rates showed a slightly hardening tendency, and in good quarters the opinion is expressed that call money in the near future will work higher. Prices have enjoyed a good recovery, and although the outside interest has increased, still the same is hardly of such extent as to create a present advance in the market. The Washington situation is also a factor which is likely to become disturbing at almost any time, and the labor outlook is still fraught with a great deal of agitation. We are therefore inclined to think that advantage should be taken of the present strength in order to lighten accounts and secure profits on long stocks, as the occasional setbacks will provide plenty of opportunities for scalping operations."

Paine, Webber & Co.'s Wheat Letter. Chicago, March 8.—The wheat traders had a variety of news today, most of which was bullish. It took considerable time to get the wheat market to a normal feeling in the local trade. The chief bull features were a flood of the worst damage reports yet received from the southwest to nearly all the big houses in the trade, and this was followed before the close by the official report on farm reserves, which was bullish enough to be quite a surprise to the trade. The official figures of farm reserves are 173,344,000 bushels, or 23.5 per cent of the 1909 crop. There was an improved demand for cash wheat here from millers and sales of 36,000 bushels, including 30,000 bushels of No. 1 Northern, at 2 cents over the May price in store. There was quite a change of sentiment from bullish to bullish on the part of the entire trade.

Traveling Salesmen are Wanted. to place exclusive contracts with local agents to sell THE SARDONIA EVENING POST in towns with less than 500 inhabitants. This is an exceptional side-line proposition to county agents covering country towns. Something new and "different" — a really profitable side line. There's no expense on, no outfit to buy and no canvassing to be done. Nothing to carry — at least, not more than a pocketful of money. Chance for a good commission basis. Name the county you prefer. Address, Box C. C. Rev. Publishing Bureau, THE CURTIS PUBLISHING COMPANY, Philadelphia, Pennsylvania.

DR. CLARK BACK FROM TOUR. Christian Endeavor Leader is Home After Five Months in the Far East. Boston, March 8.—After a five months' tour of the globe, the Rev. Francis E. Clark, the founder and present head of the Christian Endeavor movement, has returned to this city from Winnipeg, Manitoba. Together with his wife and about twenty-five others, Dr. Clark left Boston last October for Agra, India, to attend the international Christian Endeavor convention which was held there. The trip, which carried him the rounds of the larger Asiatic cities and their societies, was continued with the same party, the mission being to spread enthusiasm for the movement into newer fields. This is the fifth such trip which Dr. Clark has taken in the last eighteen years, but he declared that the reception given him there was even warmer than before. His party returned from the Orient on the excursion steamer Cleveland a month ago and the interim has been busily occupied with lecturing and speaking engagements throughout California, Washington, Oregon and adjacent territory in Canada.

FUTURE DEBATED AFRESH. Influx of Americans Raises Questions as to Ultimate Affect on Sentiment. Montreal, March 8.—While the people of Canada are as a whole strong believers in the British connection, the question of the future of the Dominion comes up from time to time in a way that shows it can hardly be considered settled. Whenever an occasion arises like the present when the future of this country is being debated, it is inevitable that men should ask themselves how long actual conditions can be expected to last. The influx of American settlers into the North West stream which shows signs of widening as the year advances, is a result in certain modifications in public sentiment. The new owners will no doubt be found well disposed toward a system which guarantees them security of person and property equal to that which they enjoy under the Stars and Stripes, and in many respects they are to be found among some other elements of the population.

TO SERVE THE GRAPE FRUIT. The American appetite for grape fruit is on the increase, and more and more of the big yellow globes are being grown and consumed every year. This season's crop is estimated at over 4,000,000 boxes, which Florida furnishes about one-fourth, Jamaica and the Isle of Pines the balance. It is only about fifteen years since the fruit was regarded in a commercial light; there were few engaged in its culture; there was little market for it. Now a single Florida box, which sells readily at \$5 and \$6 per box.

HAIR HEALTH. If You Have Scalp or Hair Trouble, Take Advantage of this Offer. We do not afford to so strongly endorse Rexall "93" Hair Tonic and conditioner, if it were not certain that it would do all we claim it will. Should our enthusiasm carry us away, and Rexall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

ARTISTS SWAMP M'CALL. Risk to Get \$30,000 Job of Painting Portraits of House Speakers. Washington, March 8.—"Great Heavens!" ejaculated Representative Samuel W. McCall today, "I did not know there were so many artists in the country."

LIABILITIES OVER A MILLION. New York, March 8.—The receiver of Lathrop, Haskins & Co., the stock exchange firm carried down in the crash of the Columbus & Hocking Coal & Iron pool, announced tonight that the examination of the books showed the nominal excess of liabilities over the assets to be \$1,126,898.

MAY WITHDRAW FROM GUBERNATORIAL RACE. JUDGE R. M. MONTGOMERY SAID TO HAVE BEEN OFFERED A PLACE ON THE PROPOSED FEDERAL COURT OF COMMERCE. According to Washington dispatches Judge Robert M. Montgomery is likely to withdraw from the race for governor, to take a place on the newly created customs court. He is now in Washington, where he went to confer with the president on the subject. It is said that when Senator Burrows went to Grand Rapids to attend the Lincoln day banquet he was authorized by the president to offer Judge Montgomery the appointment, and that the matter has since been under consideration by the judge. Senator Burrows had no information of the existing state of affairs when he urged Montgomery to run for governor, and he is believed to have been misled by the custom court judge. It is generally held that Chase S. Osborn and Amos S. Musselman would be the chief candidates for such a development as it is believed that Judge Montgomery's support would be more likely to gravitate to them than to Lieutenant Governor Kelley. Mr. Osborn's friends say that such a development would insure his carrying Wayne county by a good margin.

PROHIBITION IN GEORGIA. The number of blind tiger cases for this year already outstanding more than three to one of those of last year. Up to the present date 223 convictions have been secured in the Atlanta city court for violation of the prohibition law. This number includes only such cases as were disposed of in the recorder's court by fine or were bound over for trial. It also includes only the cases made by the city detective force and not those made by regular police force.

PROHIBITION IN MICHIGAN. Right over here in the splendid old state of Michigan, from which comes my eloquent friend, I want to make comparison with some of the wet and dry counties there. These records are taken from the official records on file in the office of the attorney general at Lansing.

FREIGHT TRAINS ARE MOVING REGULARLY

CONGESTION DUE TO STORMS, STRIKES AND CONTINUED COLD WEATHER IS PRACTICALLY AT AN END ON ALL THE LINES.

The congestion in the freight traffic in the northwest is practically at an end. For some weeks past many merchants here have complained of the poor freight service, and there has been ground for their protests, as goods have been in transit from three to four times as long as they should be.

An official of the Chicago & Northwestern says that the outlook this week is the best that it has been in three months, but there are still many cars of loaded freight overdue in various parts of the upper peninsula. An official of the Chicago, Milwaukee & St. Paul railroad has made the statement that the congestion due to storms, strikes and continued cold weather is practically at an end, and that, also, the passenger trains on both the Northwestern and St. Paul are now making fairly good time coming north. The Chicago & Northwestern passenger from the south has not been more than an hour late for a week or so past.

With the improvement in the weather construction work on the railroads is being started on a fairly large scale. During the winter months bridges have been built in the factories and the work of putting them up will soon be started.

DECEASED AFTER LONG ILLNESS.

Old and Wellknown Citizen of Ishpeming Passed Away Yesterday.

Richard Thomas passed away yesterday morning at 1:35 o'clock. The deceased was the employe of the Oliver Iron Mining company for a number of years as a miner, and was very well known in the city. His age was sixty-four years and eight months, and he is survived by two sons, Williams and Charles Thomas, and one daughter, Mrs. Ed. Freshly. The funeral will be held tomorrow afternoon at 2 o'clock from the family home, 206 East High street, and the services will be conducted by Rev. C. L. Adams at the First Methodist Episcopal church. Friends wishing to view the remains are requested to call at the residence, where the casket will not be opened in the church.

DEMISE OF R. S. JOHNSON.

Former Wellknown Ishpeming Man Dies at Marinette, Wis.

Rasmus S. Johnson, who left Ishpeming some seven or eight years ago for Marinette, Wis., where he accepted a position as a meat cutter, died in that city Monday, and it is expected that his remains will be brought to Ishpeming for burial in the family home.

For some years before S. Johnson & Co. went out of the general mercantile business the deceased had charge of the firm's meat market. He was also in the employ of F. Braastad & Co. as meat cutter for a few years, and is remembered by most of the older citizens.

For some years while a resident of this city, the deceased and his family occupied the house now owned by Charles Sundblad on High street. On April 16, 1889, their only son died and just two months later, Mrs. Johnson passed away. Mr. Johnson sold out his property and after disposing of his interests here accepted a position at Marinette, where he had remained ever since.

BALL TEAM'S MASCOT.

Boys Wanting to Enter Contest Are Asked to Meet Committee.

The committee appointed for that purpose by the board of managers of the Ishpeming baseball team is perfecting plans for the mascot contest, to be held to raise funds with which to provide the team with new uniforms and other equipment.

The committee, of which John Lacey is chairman, will meet Friday evening at 7 o'clock in No. 1 hose house. All of the boys who wish to enter the contest are requested to meet the committee then, so that they can be given instructions as to what they will be expected to do. Only boys between the ages of twelve and fifteen years will be eligible. A number of the business men have expressed their willingness to subscribe to the mascot fund by taking coupons that will be given out to each customer making purchases. One coupon will go with each five-cent purchase and will be good for five votes. The names of all the boys entering the contest will be announced.

The committee requests that the votes be sent to The Mining Journal branch office.

Mr. Lacey said yesterday that he is satisfied that there will be much interest in the contest, as many boys want to be the team's mascot. The mascot will be taken with the nine on all of its outside trips and he will be provided with a uniform similar to that worn by the players.

UNTIMELY DEATH.

Edmund Voyer, Aged 15, Passes from Life in the West.

George Jones, agent for the American Express company and brother-in-law of George E. Voyer, formerly of Ishpeming, but now of Anaconda, Mont., was advised by wire last evening of the death in that Western city of Mr. Voyer's son, Edmund. No particulars were given, other than that the demise took place yesterday morning. The news came as a great shock to Mr. Jones and other relatives here and it will cause much sorrow among the friends of the deceased. Edmund Voyer was aged sixteen years and was the second son of Mr. Voyer. He was a fine young man, a boy of much promise, and he was a general favorite in Ishpeming. He possessed an exceptionally good tenor voice and he had taken part in a number of musical entertainments here. The deceased left Ishpeming a year ago last June, when his father removed to Anaconda, where he is the manager of the Anaconda Hotel.

Y. M. C. A. TEAM WON.

The second game of the series of indoor baseball contests between the Negaunee Union and the Ishpeming Y. M. C. A. teams was played at the Y. M. C. A. last evening. It resulted in a victory for Ishpeming by the score of 7 to 2. Erickson and Nibola were the battery for the Y. M. C. A. and Kirkpatrick and Dunlavy did the battery work for the Negaunee Union. Erickson struck out seventeen and Kirkpatrick thirteen men. Ishpeming had eight and Negaunee had nine clean hits.

SPEAKS WELL OF GOUGH.

Divisional Officer of Salvation Army Commends Ishpeming Officer.

The last issue of the War Cry contained an article, written by Major Morton, divisional officer, relative to his visit, a few weeks ago, to the various branches in the upper peninsula. Of his meetings in Ishpeming, he said: "Up again at 4:30 a. m. off to Ishpeming in time for breakfast. Spent the day inspecting books, property and city. The Colonel made some practical suggestions. Attacked by a blizzard at open-air time; the D. O. flew to the rescue of drum and drummer. (don't know where he would have been by this time if I hadn't). Do you know Ishpeming of late years? Could you imagine a crowd of over 200 people on a Tuesday night, with a blizzard raging? You must do more than that, you must do more than that, you must believe it. The secret is, the officer in charge is a hustler. The P. O. got into the hearts of the people and took the truth in with him, with the result that two souls came forward. Captain Gough deserves credit for his work. Thank God for a good night's sleep."

"The blizzard rather upset things for Marquette, but we found plenty to do all day, with inspections, meeting locals, conferences, etc. Our loves were well strengthened by the Ishpeming comrades, the same by those of Marquette at Ishpeming, and a good supper was provided in each place for the visitors. Our meeting was a good one, and at 1 a. m. the D. O. turned in."

EXCELLENT ATTRACTION.

Duluth Paper Speaks Favorably of 'The Time, The Place and the Girl.'

The Duluth Evening Herald of Tuesday had the following mention of "The Time, The Place and the Girl," the big musical comedy attraction that will be on view at the Ishpeming theatre to-night:

"The Lyceum is a good place, and now is a good time to take a girl for 'The Time, The Place and the Girl' is a very entertaining and clever show, filled with an original line of humor, that simulates at times, and plenty of action and music. Added to the vehicle is the fact that the people in the cast are clever enough to make the most of their lines."

"Like most of the Adams and Hough shows, the present play has a plot. In that it is something on the fashion set and musical comedy with plots."

"The Time, The Place and the Girl" has to do with the winning of a stubborn miss and there are necessarily many ramifications to such an accomplishment.

"Fred Mace is funny, which is saying enough, and as he has some clever lines, he made a big hit with yesterday's audiences. He maintains the pace through the three acts, never falling off for a moment."

"Elizabeth Goodall has the part of the Deaf Cross nurse, and her acting is natural and unaffected."

"The girl in the case, the one who refused to be last to scrub the veranda steps, Miss Florence V. Smith, has a very pretty voice and appears to good advantage in the part, that of a girl with a will that must be handled with care, as is often the case with small creatures."

"Miss Smith has several songs and she sings very well. She looks and acts the part, which helps considerably."

"The scenery of 'The Time, The Place and the Girl' is pretty, the music is good and the chorus well drilled. The show has not lost anything by its age and furnished a very good evening's entertainment."

GIROUXS TOOK THREE.

In the handicap bouling contest Monday evening at the Bank street alleys, the Girouxs won three games from the Miamis. The scores were:

Girouxs	Miamis	Tot.		
Dyer	170	209	142	521
Marlin	153	192	175	520
Marrell	182	194	183	459
West	193	199	179	545
Dawson	175	193	148	470
Totals	873	908	820	2503

SILVER WEDDING.

Jens Ole and wife, who are among Ishpeming's oldest Scandinavian residents, were given a surprise Monday evening at their home, 754 Morris street, by two hundred of their friends. The occasion was the twenty-fifth anniversary of their marriage. Mr. and Mrs. Ole were the recipients of a large number of beautiful gifts and the evening was very enjoyably spent. Their sons, Oscar Ole, who is a druggist at Mining, and Gunner Ole, were home for the occasion. Addresses were given by Rev. J. Stallstrom, pastor of the Mission church, and Rev. F. A. Hultman of Wausau, Wis., who conducted the services at the Mission church last Sunday morning and evening.

FROM MORGAN'S CURB LETTER.

"There was a continuation of yesterday's strength and activity during the first hour of the session in New York, after which the market became extremely dull. In Boston, interest is still centered in North Butte and the Lake stocks. The demand for North Butte was remarkably heavy. Franklin was the most active of the Lakes, closely followed by North Lake and Indian. There was considerable selling of Utah Consolidated advanced at point. Greene Cananea, Girox Consolidated, Superior & Pittsburg and Butte Consolidated were quiet but fairly strong. Bohemia, Caprus, Oneco, South Lake and Ray Central were most active among the cubs. The feature of the curb market is the scarcity of stocks for sale and though there is no aggressive buying, yet, all offerings at the market are quickly taken. A general advance is expected this spring and indications point to buy slight if any recessions amid the late spring."

Truth is not to blame because it isn't eligible in a beauty contest.

WANTED—Position as meat cutter or butcher. Five years' experience. Good references. Married. Address XX, care Mining Journal branch office, Ishpeming. (3-9-10)

FOR SALE—Business block at 213-215 East Division street and hotel furniture for sale at a bargain. Established business of twenty-four years standing is included. For further particulars inquire at premises. Joseph Schilling. (3-8-10)

LOST—Thursday, package—containing silk for a shirt waist, between First and Second streets. Reward. Return to Mining Journal office. (3-9-10)

FOR SALE—Thirteen and one-third acre farm; eight acres cleared and all fenced. Located one mile from city of Ishpeming. Terms, \$200 cash. Gust Boyer. (3-8-10)

Blacksmiths Consolidate

Notice is hereby given that the undersigned have entered a co-partnership for the conduct of a general blacksmithing and repairing business under the firm name of Peterson & Verrant, and will conduct business after March 1, in Mr. Peterson's former stand, 214 East Pearl street. All work guaranteed up-to-the-minute.

NIGHT LETTERS.

Western Union Telegraph Company Establishes a New Service.

Announcement is made by the Ishpeming office of the Western Union Telegraph company that it is prepared to handle fifty-word night messages at the rate customarily charged for ten-word day messages.

The Western Union has a large un-employed mileage of wire at night. These wires must be maintained and it is the idea of the new interests in the telegraph company to let the public have the benefit of them.

To be taken at these rates, "night letters" must be written in plain English language, that is to say, code words or communications written in foreign languages will not be accepted.

The messages will be taken at any hour up to midnight and transmitted at the company's convenience during the night for delivery the following morning.

For the present the new service is confined to Western Union offices in the United States.

Charges for night letters are so low it is expected that the new service will be largely availed of by business concerns and others to quicken their correspondence by using the telegraph instead of the mails.

A night letter sent by telegraph will reach its destination at the opening of business hours the following morning, thus saving as much as three or four days when long distances are involved.

ISHPEMING IN BRIEF.

Oscar Oie is here from Munising on a visit to his folks.

A regular meeting of the city council will be held this evening at 7:30 o'clock.

The Palmer school, on the Cascade range, is closed this week on account of diphtheria among the children.

Oliver Keifer, who has been in the city the past week, visiting his parents, Mr. and Mrs. J. F. Keifer, left last night for Fargo, N. D., where he has been located for a few years past.

Miss Flora Charbonneau, who is in the employ of the Kennedy Millinery company, has gone to Chicago, where she will spend a few weeks looking up the late styles and purchasing new goods.

A good-sized delegation of Champion people will take in the production of "The Time, the Place and the Girl" tonight at Ishpeming theater. They will come down on the evening train, returning at midnight.

P. H. O'Brien, attorney of Calumet, has accepted an invitation from the Ishpeming Hibernian and Ladies' Auxiliary societies to deliver an address at their annual banquet, to be held tomorrow night, the 17th, at Anderson's Hall.

The Ishpeming Ski club last evening entertained the men and boys who assisted at the tournament on Washington's birthday. Over 100 persons, including the club members, were present last night. A lunch was served, and there was music.

The members of the Young People's society of Calvary Baptist church extend an invitation to the public to attend their entertainment this evening. The admission will be fifteen cents. Refreshments will be served at the close of the program.

C. D. Cole of Childs' Art gallery prepared some very fine pictures of scenes at the ski hill, also of the dog races, on Washington's birthday. The pictures are in the window of the gallery on Division street, and they are attracting much attention.

IN THE DAYS OF YOUR GRAND-MOTHER
Cod Liver Oil was administered in a crude and most repulsive form, and would invariably upset the stomach.

Today all the medicinal properties of Cod Liver Oil are combined with Tonic Iron in the preparation called Vinol without oil. It is very beneficial in pulmonary troubles and quickly creates strength for weak, run-down and aged persons.

The Stafford Drug Co., Marquette, Mich.

Medicines that aid nature are always most successful. Chamberlain's Cough Remedy acts on this plan. It loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by The People's Drug Store.

Lung Trouble

Coughs, Colds, Consumption and All Diseases of the Throat and Lungs Can Be Prevented and Cured.

Mr. Walter Clark was restored to health and strength after being unable to work for two months. Read what he says: "After having been afflicted with a serious case of lung trouble and used many remedies without result—in fact, I was unable to do any work whatever for two months—Duffy's Pure Malt Whiskey was recommended and I commenced taking the same. I desire to state that I am entirely cured, having been pronounced so by my physician. I consider this the greatest medicine of the present age. This testimonial is conscientiously given and without any solicitation whatsoever."—Walter Clark, Bluefield, W. Va.

Duffy's Pure Malt Whiskey

has to its credit fifty years of public service. It is the result of years of careful work and is an absolutely pure distillation of carefully malted grain. Overworked men, delicate women and sickly children will find in Duffy's Pure Malt Whiskey the health and strength-giving parts that are so necessary to them.

You should have it in your home. It is a wonderful remedy in the prevention and cure of consumption, pneumonia, grippe, bronchitis, coughs, colds, asthma, malaria, low fevers, stomach troubles and all wasting and weakening conditions, if taken as directed.

All druggists, grocers and dealers, or direct, \$1.00 a large bottle. Refuse substitutes and imitations; they are impure and dangerous. Send for medical booklet and doctor's advice, both sent free.

The Duffy Malt Whiskey Co., Rochester, N. Y.

sixth level. It is requiring more time to repair the shaft on account of continuing the hoisting of copper rock. The No. 4 shaft was permanently closed about the last of January, thus saving all of its surface operating expenses, as well as the maintenance of the shaft, so that the year's output of refined copper was accomplished with one less shaft in operation than during the previous year.

Fears of an early assessment by the Mass Consolidated Mining company were responsible for a break in the stock yesterday morning. The price broke to 4 1/2, compared with 1 3/4 in May, 1909, when the company discovered a new lode on the seventeenth level in its "A" shaft. This new lode was expected to be of great value to the Mass, but a mill run of the rock proved very disappointing, showing a recovery of only eighteen pounds of mineral to the ton of rock. The publication of figures of the mill run caused a quick decline in the company's shares, since which time development on the new lode do not appear to have offered much encouragement.

Upper Peninsula

City Hall for Bessemer—

A mass meeting having declared in favor of the proposition, Bessemer is to have a city hall providing the people authorize an issue of bonds at an election to be held shortly. The proposed building will cost \$30,000.

'Quake Felt at Newberry—

The shocks of earthquake recently noted at St. Louis and Cleveland were felt in Upper Michigan also, according to Rev. Levi Bird, pastor of the M. E. church at Newberry. Mr. Bird says that he was awakened during the night by the earth tremors and that they were strong enough to dislodge small particles of plaster from the walls of his house.

These Hens Good Layers—

Amos Conrad of Ontonagon, who has fifty hens, reports that during the twenty-eight days of February the flock produced forty-five dozen of eggs. At thirty-five cents a dozen, the output was worth \$15.75. One fowl which persisted in setting was allowed to have her way, and she hatched eleven chicks, all of which are vigorous and healthy.

Liquor Issue in Gogebic—

The members of the Gogebic county board have been unanimous in their decision that the question of prohibition in the county shall be submitted to the electors at the coming spring election. In fact, the recent decision of the supreme court in the Marquette county case practically settled this matter and left the board nothing else to do under the circumstances.

Woman Takes Poison—

Mrs. Leo, Bellant of Seal Choix, Schoolcraft county, while in a fit of despondency is stated to have taken a quantity of carbolic acid. Dr. Livingston of Manistique was summoned, and he made the trip over well night impassable roads in five hours. He reports that the woman rallied, and it is thought she will survive. Her husband is a fisherman, and she has an only child.

Nester Estate Reorganizes—

The corporation composed of the heirs of the late Thomas Nester and that for the past twenty years has carried on a general lumbering business in Baraga, Mich., also in Wisconsin and Minnesota and at Thessalon, Canada, has been reorganized at Detroit. The name of the new concern is the Nester Lumber company. A general movement among Polanders is expected next spring, large settlements going to Michigan, Minnesota and other states. The Michigan settlement, it is stated will probably go to Chippewa county. Mr. Grygla, by virtue of the office he holds in the United States department of the interior, is in a position to know available lands in various parts of the country he covers. It was because of this knowledge that he has recommended the upper peninsula. A committee to view the proposed lands will visit Chippewa county in the spring. The settlements would be close to Wellsburg and on St. Mary's river below the Soo. The plan of the Alliance is to buy up a large tract and then re-sell it to the Polish settlers at a low price, allowing extended time for payments. It is said a tract of 100,000 acres would be taken up. According to Mr. Grygla, the Alliance list of immigrants for Michigan includes over 100 names. It includes families coming from the old country and many from Chicago. "The Polish people are a thrifty class and make desirable citizens," said Mr. Grygla. "All whom I have found in Chippewa county appeared to be making excellent headway and are happy. At Gatesville I talked with Mr. Gates, who conducts the store there. He told me they were an excellent class to deal with, always paying promptly, and minding their own business."

Remove to California—

After a residence of a quarter of a century at Newberry, Mr. and Mrs. G. Rosenthal have left for Los Angeles, where they expect to make their future home. When they located at the Lake county seat, the village was little more than a hamlet. Newberry avenue was still covered with stumps and the surrounding country was almost an unbroken forest into which the lumberman was making his first inroads. Mr. Rosenthal engaged in the mercantile business, and soon established himself as one of Newberry's leading and successful merchants. By strict attention to business he has amassed a considerable fortune, and last year when he announced his intention of leaving Newberry could hardly believe that he was really in earnest. In their departure from Newberry Mr. Rosenthal and family carry with them the best wishes of the community for their future welfare and prosperity.

New Township Created—

There will hereafter be twenty wards and townships in Gogebic county and the membership of the board of supervisors has been increased from nineteen to twenty. The name selected for the new township is in honor of the memory of the late Conrad Carlson of Bessemer, who was the first clerk of the county and served in that capacity for many years. The township is the first to be created in Gogebic under the new home rule law passed at the last session of the legislature. It consists of 57,000 acres in the extreme eastern end of the county. The territory is all taken from the township of Watersmeet, and leaves the latter 96,503 acres. The postoffice will be called Bonifas, after Bonifas Bros., who are building a large saw

Mining News

HANCOCK CONSOLIDATED.

No. 2 shaft of the Hancock Consolidated is now bottomed below 2,100 feet. As yet the No. 2 west lode has not been encountered. Those who have been watching developments at this shaft are inclined to the opinion that the No. 2 and No. 3 lodes have come together and were cut several months ago at No. 2 shaft. At No. 1 shaft the two veins were less than a foot apart, and then showed a tendency to come together. Should this prove true, no important developments at No. 2 shaft will be expected until the main lode is reached, which will be at a depth of approximately 2,600 feet. The Pewabic West Conglomerate will be encountered at a depth of 2,800 feet while the Quincy main lode will be reached at a depth of 3,400 feet. Drifting in No. 3 lode at No. 2 shaft has not been pushed to late as it interfered with sinking this shaft. As far as opened up the vein shows an excellent grade of ore. A crosscut is being extended from this shaft to No. 1 shaft at the 1,800-foot level, or equivalent to the twenty-first level of No. 1 shaft. At No. 1 shaft the veinage goes down in No. 3 lode is below the sixteenth level and from the thirteenth to the sixteenth levels has opened up some excellent ground.

The Boston curb will occupy its new and enlarged quarters on Duane street on March 21. It is expected that about thirty curb brokers with offices in various parts of the financial district will remove to the new building where the new exchange is to be located. The rental of the present curb quarters is \$2,000 per annum, while that of the new quarters will be about 35 per cent less.

The report of the Seneca Mining company for the year ended Dec. 31, 1909, shows expenditures of \$64,559, of which \$10,897 was for construction and surface equipment. The balance sheet shows cash and other assets of \$7,393, with bills payable of \$67,214, leaving a balance of liabilities of \$59,819. The mining operation included shaft sinking of 188 feet and a small amount of drifting without important results. Diamond drilling to a limited extent also was done.

That there will be a further decrease in stock reported on March 10 by the copper producers' association is the general belief in the trade. Producers will probably show further falling off and deliveries should continue large. The item of exports is a puzzle. Preliminary government totals show shipments abroad during February of \$5,513,920 pounds. It is stated that between 15,000,000 and 20,000,000 pounds of copper amount was included in the January statement of the Producers' association, as the metal was loaded on lighters or vessels prior to Jan. 31, but did not clear until early in February, hence did not figure as government exports until the latter month.

The shareholders' list, representing more than two-thirds of the stock of the Utah Copper company, filed at Trenton, N. J., in connection with the amendment to increase the capital, shows 64 shareholders. Of this number of shareholders, 522 hold less than 500 shares each. Therefore, it is estimated that total Utah Copper shareholders number between 1,000 and 1,500. The shareholders of the Nevada Consolidated number approximately 6,000. In the event of the switching of 600 shareholders of Nevada to Utah Copper, Nevada will still have approximately 6,000 shareholders, who are all in their names, providing the Guggenheims secure 900,000 shares, 1,100,000 shares.

The comment is made that the policy of the Quincy Mining company in refusing to give in the annual reports the essential operating statistics is quite in contrast with the spirit and tendency of the times. All details of costs, rock yield, etc., are this year omitted from the annual statement, which is, in some respects, the best the company has ever issued. The company virtually confesses a timidity which is unworthy of "the old reliable." The company shows net profits from mining operations of \$676,995, or \$0.26 per share, compared with \$437,768 in 1908, and with \$1,275,151 in 1907. It appears also that the cost of producing copper was reduced by about three-quarters of a cent a pound. The production was 2,511,984 pounds. All the shafts have produced their full quota of rock throughout the year, though since the recent "air blasts" No. 2 shaft has been unable to hoist below the forty-

THAT I HAVE A LITTLE DOG AND I CALL HER NINA. I got her on my ninth birthday. When I tell her to shake hands, sometimes she will put up both paws, and when I tell her to speak, she will crouch down and spring at the morsel, then she will get down on her front paws and bark and growl. When she wants to go with me she will jump up on me and beg. When we give her a bone she always takes it to her basket. She can play hide-and-seek and she barks at us when she finds us. In the morning she comes upstairs and wakes me up.

Facts For Sick Women

We know of no other medicine which has been so successful in relieving the suffering of women, or secured so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every woman you meet has either been benefited by it, or knows some one who has.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless.

The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity.

Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy.

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women, I felt sure it would help me, and I must say it did help me wonderfully. Within three months I was a perfectly well woman."

"I want this letter made public to show the benefits to be derived from Lydia E. Pinkham's Vegetable Compound."—Mrs. John G. Moldan, 2115 Second St., North Minneapolis, Minn.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

ing within their income that they are getting out of Watereport a certain amount of business training.

It is noticeable, looking at the matter from this point of view, that only football was profitable. Baseball came out only a little better than even, but rowing and track sports had to be defunct with the loss of the physical man would therefore say: "Drop rowing and track sports, continue baseball under a suspended sentence, and devote redoubled attention to football." That nothing of the kind will be done or even considered is proof that the whole idea of combining business with sport is somehow wrong, and that the amateurs who attempt it are verging toward professionalism so far as their financing is sound.

The ideal method would be to take nothing at all out of sports, but to consider the money spent on them, not as a loss, but as the price of physical development and innocent amusement, both of which are worth buying and paying well for. "The gate," some observers cannot help thinking, is out of place on university playing fields. All the abuses and excesses of athletics are due to it, or related to it, and without it most of them would disappear.—New York Times.

LEOPOLD A PATRON OF ART.

An art dealer said of King Leopold of Belgium: "In all this uproar of condemnation, let me raise one little note of praise. King Leopold had superb and incomparable taste. The chateau of Laeken is one of the finest in Europe. The chateau at Cap Ferrat, overlooking the Mediterranean between Nice and Monte Carlo, established a new standard in Riviera villas. As a connoisseur of several famous artists were spared years of privation, and unrecognized struggle, thanks to his generous aid. A French artist once told me that when he was quite unknown, Leopold admired a painting of his in the salon, and got the artist's address and bade him come with the picture on such and such an afternoon to a hotel. So to the hotel the artist and his picture repaired duly. King Leopold praised the picture. Then he said to the young man: 'I'll buy it. What is its price?' The poor artist hesitated, thought of demanding a thousand francs, then boldly said: 'Two thousand francs, your majesty.' Thereupon Leopold tactfully and delicately taught the young man his real worth—saved him from selling for a song for many years pictures that, in his old age he would, like Whistler, sell for fortunes. 'Ten thousand francs,' said the king, 'going to his misunderstanding. 'That and no more,' he added firmly. 'If that is satisfactory my secretary will write you a check.' 'Pardon me, your majesty,' stammered the young artist. 'I said two thousand francs, not ten thousand.' But the king again favored a slight deafness. 'No,' said I, 'I never bargain. Ten thousand or nothing.' And the money was duly paid."

ATHLETICS AS A BUSINESS.

When one figures up how many professors could be paid, or how many students assisted, if \$107,397.20 could be divided up among them, the expenditure of that sum at Yale last year on what are called "the four major sports" seems large. That particular money, however, could hardly have been secured for any except the uses to which it was put, and as from those same sports there were receipts amounting to \$110,986.34 the financial showing, as such, is satisfactory, or at least better than it would have been with the balance on the other side of the ledger. The boys who handled these big sums, too, showed by keep-

TURKEY'S NEW MILITARY ERA.

Army and Navy of the Ottoman Empire Are Being Regenerated.

Washington, March 8.—Marked success is attending Turkey's efforts to regenerate her army and navy. The people are responding readily to the appeal for a popular subscription of funds for outfitting the navy and the chamber, under the guiding hand of a famous German officer, is showing great progress. The government bill for an extraordinary credit of \$25,000,000 spread over ten years, and destined to meet the requirements of the navy, has been presented to the chamber of deputies. Its preamble it sets forth: "When the government applied for authority to guarantee the purchase of four destroyers out of the proceeds of the public subscription, it announced the preparation of a naval programme which would be shortly submitted to the chamber. We have now drawn up this programme, and find that its execution will entail an expenditure of \$25,000,000. We are aware that the present situation of the country does not allow the immediate expenditure of so large a sum. We are also aware that it is impossible to conclude a naval loan by issuing bonds. For these reasons we ask you to grant us an extraordinary credit of \$25,000,000, distributed over ten payments of \$2,500,000 each. We propose applying to various shipping yards for the vessels we require. The mode of payment for these purchases will be determined by special agreements with the contractors.

THUMB-PRINT FOR HUSBAND.

A report of the thumb-print bureau of the New York police shows some unusual demands made upon it. One of the most curious of these came recently from a woman who called to ask that the bureau make a print from the thumbs of a man who accompanied her. "I want his thumb prints for identification," said the woman. "We are going to be married tomorrow. He is my husband. The other two ran away and I had a hard time to find them because there was no sure way of identifying them. I intend to be on the safe side this time."

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular free.

FRENCH SOCIETIES TO MEET AT ESCANABA

NEGAUNEE ORGANIZATION HAS ACCEPTED INVITATION TO ATTEND TWENTY-FIFTH ANNIVERSARY OBSERVANCE THERE.

The members of Chevalier D'Lafayette society, met in the afternoon to attend the twenty-fifth anniversary celebration of the French society at Escanaba on June 25, the day following Midsummer day. The French societies of the upper peninsula have observed Midsummer day for some years past, but the Escanaba Frenchmen thought that as 24th falls on Friday this year, it would be more better, as a whole, to plan the program for the following Saturday.

This plan met with the approval of the Negaunee members, and much interest was manifested in the proposed celebration by the seventy-five or more members present at the meeting. The Escanaba lodge was well represented in Negaunee last year, when the Chevalier D'Lafayette society conducted its twenty-fifth anniversary celebration.

The Negaunee Frenchmen have been advised that the invitation to attend the celebration at Escanaba will likely be accepted by all of the other lodges of this county, also by the lodges of Delta, Menominee, Iron and Alger counties.

There are five branches of the society in Marquette county, there being one each in the three cities, also one in Republic and one at Champion. There are also branches at Crystal Falls, Iron Mountain, Norway, Vulcan, Munising, Sault Ste. Marie and Gladstone. All of these organizations have been invited to attend the Escanaba meeting.

The Negaunee lodge will appoint a committee to confer with committees from other lodges of the county, relative to the securing of a special train to leave here on the morning of the 25th and to return that night. The matter of taking a band along will also be considered by the committee.

At Sunday's meeting of the local lodge the following officers were elected for the ensuing year:

President—Joseph Cyr.

First Vice President—Pierre Lamere.

Second Vice President—Godefroy Trochuand, Sr.

Recording Secretary—Phyllis Bernard.

Financial Secretary—Godefroy Trochuand, Jr.

Corresponding Secretary—Arthur St. Armand.

Assistant Secretary—Louis Grenier.

Treasurer—Joseph Barabe.

Assistant Treasurer—Octave Gagne.

Conductor—Victor Menard.

Sergeant at Arms—Jule Gagnon.

Directors—Medor Gauthier, Leon Guimond, Fiek Choquette, Pierre Lesore, Jean B. Remillard, Alfred St. Armand, and Joseph Chalifoux.

STREET WORK IN 1909.

Over \$12,000 Was Expended for Improvements, Grading, Etc., Last Year.

According to the report of the board of public works \$12,000.04 was expended in 1909 for repairing streets and roads, general street cleaning, plowing roads, and walks, shoveling snow, etc. The highway department is credited with \$13,316.09, the sum collected last year for poll tax, leaving the net expenditures of the department at \$10,777.34.

The heaviest item of expense was the rebuilding of the Palmer road, which cost \$3,507.38. This road is now in better condition than at any previous time since it was constructed. It was widened practically the entire distance to the city line, many of the grades were cut down and in a number of places it was necessary to blast out the ledge.

Following is the itemized statement: Building team road, Rock street..... \$ 116.50

Macadamizing Park street..... 622.50

Grading Cole, Queen and Sterling streets..... 185.50

Filling in and grading Heath street..... 601.50

NEELY EXPLORATIONS.

Menominee Range Paper Intimates That Negaunee Man Has Found Ore.

It would appear from the Crystal Falls Diamond Drill's reference to the exploratory work Benjamin Neely, Jr., of this city is conducting on the Menominee range, that he is meeting with success, and that he has already located an ore body, though Mr. Neely is not giving out any information. Shortly after leaving at Crystal Falls, where he is dealing in real estate, Mr. Neely began securing options on promising mineral tracts and he now has several under control. A few months ago he began drilling work and is now putting down the second hole on Section 21, township 43, range, 32. The Drill's reference to Mr. Neely's work is as follows: "At this property, Lots 1 and 2 of section 21-43-32, the second hole has been ledged and it is unexpected that the ledge is 'good stuff' although Mr. Neely is giving out no information about it.

"The surface at this point is about 200 feet thick. The first hole was located about 100 feet east of the west line on lot 2 opposite from a hole which Corrigan, McKimney & Co. sank west of the line about the same distance. The second hole—the one that the drill is now on, is about 100 feet east and 50 feet north of the first hole."

IRON AND STEEL REVIEW.

Sales Were Lighter Than During Previous Week in Eastern Markets.

It is reported from New York that there was more sudden and sharp contraction in the volume of business in pig iron in the Eastern district last week. With the exception of Pittsburgh all distributive centers reported light sales. In the east 10,000 tons of foundry grades were sold, but in the central West about 40,000 tons were placed under contract, including 20,000 tons of Bessemer, 5,000 tons of basic, and 10,000 tons of foundry grades by steel works and radiator and electrical equipment manufacturers. A large portion of the foundry grades under negotiations have been suspended although the inquiries have not been withdrawn from the market. Pipe works have been negotiating, but have closed few additional contracts.

In finished steel products there has been a larger volume of orders placed, but business has been spasmodic. The most satisfactory branch has been structural steel, both plain and fabricated. Orders were received for the latter during the last few days of February in sufficient amounts to bring up the tonnage for the month to 100,000 tons and the prospect is that March will be equally heavy. In the last week railroads have put out more inquiries for bridges, orders for about 10,000 tons and receiving bids for 12,000 tons additional. The principal bridge order was 2,500 tons for the C. H. & D. Rail contracts have aggregated 32,000 tons, including 11,000 tons for the Chesapeake & Ohio railway and 10,000 tons for Alaska. Additional orders have been placed for 1,200 cars and 112 locomotives and specific inquiries put out for 10,000 cars and 200 locomotives. Railroads and car shops have placed orders for 50,000 tons of plain structural steel.

CUBS DEFEAT WOLVES.

In the league bowling contest Monday evening at DeFaine's alleys, the Cubs defeated the Wolves by sixty-one pins. The scores were:

Cubs—	Total

COOK COMPANY TONIGHT.

The Cook Stock company, which returns to McDonald's opera house for a three days' engagement, will produce "Lost Paradise" this evening. Thursday evening "Beware of Men" will be the offering and on Friday night the company will present "The Mysteries of New York." The Cook company created a favorable impression here last week. The prices will be the same as formerly, ten, twenty and thirty cents.

THE KAISER'S MOTTOES.

In the kaiser's workshop, arranged so that he may see them when sitting at his desk, are the following mottoes, in German: "Be strong in pain." "To wish for anything that is unattainable is worthless." "Be content with the day as it is; look for the good in everything." "Rejoice in nature and people, and take them as they are." "For a thousand bitter hours console yourself with one that is beautiful." "Give from your heart and mind always the best, even if you do not receive thanks. He who can learn and practice this is indeed a happy, free and proud one; his life will always be beautiful. He who is mistrusting wrongs others and harms himself." "It is our duty to believe every one to be good as long as we have not the proof to the contrary." "The world is so large and we ourselves so small that everything cannot revolve around us."

"If something damages us, hurts us, who can tell if that is not necessary to the welfare of creation?" "In everything of this world, whether dead or alive, lives the mighty, wise will of the Almighty and all-knowing Creator. We little people only lack the reason to comprehend it."

"As everything is, so it has to be in this world, and however it may be, should always seem good to the mind of the creature."

FOURTEEN MONTHS HIGGINS' SENTENCE

JUDGE DENNISON GIVES \$00 ASSISTANT POSTMASTER TERM AT LEAVENWORTH, KAN.

CASE WILL BE APPEALED

Defendant's Attorney Will Contest Jury Verdict and Ask for New Trial Before Court of Appeals.

"It is the judgment of this court that you pay the United States a fine of \$1,118.08, same to be levied and to stand against your property the same as any debt, and that you be imprisoned for a period of fourteen months in the federal prison at Leavenworth, Kansas."

It was expected that court would convene at 10 a. m. yesterday, but District Attorney Covell missed connections at Mackinaw City and did not arrive in Marquette until 3:30 in the afternoon.

When Judge Dennison entered the court room, Higgins, composed in manner and bearing, and his attorney and two or three Soo friends were already seated.

Mr. Oren then spoke in behalf of Mr. Higgins, stating that he spoke as an old and dear friend rather than as his attorney. He stated that he had known Higgins for twenty-eight years, and that during sixteen years of that time he had held public official positions of trust, and that his record up to the time of the alleged robbery had been unimpeachable.

He further said that he could not believe that Higgins was guilty of the crime of which he had been convicted, but that in case the court felt it his duty to pronounce sentence, it appeared to be a case in which extreme leniency should be exercised, perhaps to the extent of imposing a suspended sentence.

Judge Dennison called Higgins before him and stated that he was called upon to sentence a man who had been tried and convicted before another judge. He stated that he had carefully gone over the case with Judge Knappen and had read all of the documents of record connected with it, and that it was his duty to dispose of the case as Judge Knappen would do, could he be here.

Upon being asked if he had anything to say as to why sentence should not be pronounced, Higgins, pale but in complete command of himself, said: "Nothing, except to reiterate that I am absolutely innocent of this crime, or of connivance with those who did commit it."

Judge Dennison expressed regret that he was unable, in the light of the verdict of the jury, to accept this statement, and forthwith pronounced the sentence, and ordered Higgins to be placed in custody of the marshal. Recess was then taken while the attorneys argued out the request that Higgins be admitted to bond and not be compelled to go to prison, pending the hearing before the circuit court of appeals.

Later, court was adjourned until 10 o'clock this morning, when Judge Dennison will give his decision on the request for stay of execution of the sentence.

If you should not win the first prize, there is still left the handsome silver chest and the 100 piece dinner set, at the Cable company's store. The second and third best answers to "Why Do We Need a Piano" will do the work.

WORK FOR SUPERVISORS.

Must Report Insane, Epileptic, Idiotic, Deaf, Dumb and Blind to Clerk.

County Clerk Frank G. Jenks has recently sent out blanks to all the supervisors of the county on which each supervisor must report all insane, epileptic, idiotic, deaf, dumb and blind persons in his ward or township. In addition to the names of all persons suffering from any of these maladies, the blanks also require information as to the sex, mental condition, general health, pecuniary ability, duration of affliction, occupation, birthplace, birthplace of parents, etc. When filled out, these blanks are to be returned to the county clerk, and they must be returned before June 1.

THEATRICAL.

"The Time, the Place and the Girl."

"The Time, the Place and the Girl," which will be presented at the opera house Saturday night, is a comedy with music. It is legitimate comedy, with a sane plot and situations and legitimately enhanced by two or three delightful reproductions of unusual and amusing character types.

The most interesting characters in the piece are those of "Happy" Johnny Hicks and Molly Kelly. Hicks is a bright, good-hearted gambler full of sentiment. Molly Kelly is a trained nurse, sophisticated, but not unpleasantly so, with a perfect mastery of the gentle art of repartee.

All members of the K. O. T. M. M. are requested to meet at Keough's Hall Wednesday at 1:30 to attend the funeral of our late brother, Sir Knight A. W. Mulhauser.

By order of THE COMMANDER.

All members of L. S. Pioneer camp, No. 99, Modern Woodmen of America, are requested to meet at Fraternity Hall Wednesday, at 1:30 p. m., to attend the funeral of Neighbor A. W. Mulhauser.

Our answer to the many inquiries is, "Yes, we have decided to continue our annual 20 per cent discount muslin underwear sale for another week."

The leading dairy paper of the state says, "Beware of dairymen who have anything to offer cheap, as they are apt to have something cheap to offer."

ANTI-TUBERCULOSIS STAMPS ON SALE

EASTER OFFERING TO WHITE PLAGUE VICTIMS OF STATE MAY BE MADE BY PURCHASES AT DRUG AND BOOK STORES.

Easter stamps, issued by the State Anti-tuberculosis association, have been placed on sale at the drug and book stores of the city. These stamps are sold by local merchants without commission and the entire revenue derived from their sale goes toward stamping out tuberculosis in this state.

Dr. F. M. D. Harkin has received a letter from Dr. A. S. Warthin, secretary of the State Anti-tuberculosis association, regarding the sale of the Easter stamps and the purpose to which the revenue so derived is put, a portion of which is as follows:

"From conservative estimates we learn that there are at the present time in the state of Michigan over ten thousand cases of tuberculosis in the second and third stages. More than 2,500 people die from this disease alone in our state each year. Practically nothing is being done to prevent this unnecessary loss of life."

An appropriation which the legislature has made for improvements at the state sanatorium will, in the course of three or four years, about double the capacity of the sanatorium, but no increase in appropriation for maintenance of the institution has been provided.

The Michigan State association for the prevention and relief of tuberculosis is the only thing in the way of a central organization or bureau to push this important educational work. Present indications show that all that is done in this line must be done through the state association. This association does not aim at an enormous membership; it is simply a central bureau for all the local committees and societies in the state, uniting them in a common purpose and directing them along certain lines to the most effective work.

"In order to keep the state association in working order it must have some means of support. The state will give us no money. At present our chief sources of income are the annual dues from the local societies and the Easter stamp sale. The expenses of the maintenance of the central bureau amount to approximately \$1,500. If the local societies will take up the sale of the Easter stamps enthusiastically, much of this sum might be raised. Will you not see that some sale is made in your town to help out the state work?"

Chas. the Great, the best clear Havana cigars, in different sizes, at The F. Bending Co.
