City Brevities

Today's weather: Colder, with rain. Yesterday's temperatures: Seven a. m., 52 degrees; noon, 78; 7 p. m., 75. Maximum, 81 degrees; minimum, 49.

Miss Kathryn Flanigan is visiting her sister at Kenton for a few days.

The Peerless orchestra will go to Birch tomorrow to play for a dance Thursday night.

Miss Gem Sherman has returned to the Mesaba range, where she is teaching school.

Mrs. W. A. Mahan of St. Ignace is visiting with her daughter, Mrs. P. F. Mully.

Mr. and Mrs. Allen Cowden have returned from a ten days' visit with W. H. Gilbert at Palatka.

Mrs. Annie Ojala of Northland was brought to Marquette yesterday and will be examined today, as to her sanity.

Mr. and Mrs. H. R. Fox have gone to Chicago to visit relatives. Mr. Fox having taken a two weeks' vacation.

The Marquette City band will give a dance at Fraternity Hall Friday night. Tickets will be fifty cents per couple; extra ladies, twenty-five cents.

Joseph Bertrand, formerly of this city but now bookkeeper for the Detroit Cedar & Lumber company, has been appointed postmaster at Dollarville.

The funeral of James Donald Connolly, son of Patrick Connolly, 602 South Third street, will be held from St. Peter's cathedral at 8:30 this morning.

The Woman's Christian Temperance union will hold an informal reception for new members at the home of Mrs. Burt, Normal dormitory, this evening. The gentlemen are cordially invited to be present.

At the Guild Hall pool tournament last night, C. McKeehan won from Stewart; Kemp defeated Tucker, and Bell won from Hodson. The schedule for this evening is: A. Wheeler vs. Hoinhart; Kemp vs. Charlton, and Brotherton vs. LeVeque.

Mr. and Mrs. C. A. Larson left for Duluth last night, where Mr. Larson has entered the firm of O. E. Peterson & Co., brokers and stock promoters. Mr. Larson has been prescription clerk at the People's Drug store for some time and has a host of friends who wish him well in his new venture.

Engagement Announced—Mr. and Mrs. M. H. Egan, West Hewitt avenue, announce the engagement of their daughter, Alice Catherine, to Mr. Herbert W. de Berg, of Detroit, Mich.

Inspectors Hold Hearing—United States Steamboat Inspectors Gooding and York held a hearing yesterday on the collision of the steamers Henry Steinbrenner and Harry A. Berwin, which occurred at Round Island, St. Mary's Island, Dec. 5, last. Captain Lohr of the Steinbrenner was one of the witnesses, and was represented by his attorney, F. L. Lecky of Cleveland.

Rossley's Are Good—The Rossley's, a vaudeville trio playing at the Bijou this week, are said to be exceptionally talented stage performers. The trio consists of a husband and wife, and their daughter, the husband and wife doing one act, the daughter an act alone, and all three doing an act together. The work of the little girl is especially clever and is very favorably spoken of by those who have seen her.

Water at Fisher School—Members of the school board are highly pleased at the success of the water drilling experiment being conducted on the various public school grounds of the city. With the exception of the Ely school, water has been struck at a depth of less than forty feet at every building where driving has been done. The largest flow was found at the Fisher school yesterday, at a depth of twenty feet, but good wells have been discovered at the high school, Third street and Fourth street buildings, as well.

Favor Conference Division—A meeting of the Swedish Lutheran congregation was held Monday evening at which the proposal to divide the Illinois conference and form a Michigan conference out of the three districts in upper Michigan and northern Wisconsin, was discussed. After talking over the matter thoroughly, the Marquette congregation put themselves on record as in favor of the division. A short time ago, the 14th meeting of the conference voted against the division. A meeting will be held in Escanaba next month at which the question will be decided.

Advertises Resources—Indicative of what can be done by a live association or firm is a booklet that has just been issued by the Menominee Abstract & Land company, showing the resources of Menominee county. The booklet is filled with excellent cuts of Menominee farms and live stock and furnishes an excellent idea of that county. Such a booklet is of inestimable value in pushing the interests of any district. The work shows what might be accomplished in Marquette county with its superior lands and general advantages, were there an association here to foster such a work.

Charity Ball Tonight—Tonight will take place the annual Charity ball given by the Ladies of the Round Table. All proceeds from the party will be turned over to the St. Luke's hospital building fund. Dancing will begin at 9 p. m. and there will be a grand march at 9:30. Trombly's orchestra will furnish the music. Artistic and elaborate decorations will be provided, and everything will be in keeping with the idea of a "flower party." Flower favors will be given and many of those who attend will costume to represent their favorite flower. Mrs. LaVallee will serve the following menu at twenty-five cents per plate: Chicken, ham and lettuce sandwiches, olives, pickles, assorted cake and wafers, tutti-frutti ice cream and coffee. There has been a large sale of tickets in advance, and a good attendance is expected.

Ice Conditions at Soo—The following dispatch from the Soo indicates that the Great Lakes will soon be open for navigation: "Prominent marine men state that a big steamer could force its way through St. Mary's river from Duluth to Whitefish point. At Sault's Encampment, the channel is free from Johnson's point to the crib light and from the upper dike turn to Rains' dock. Little Mud lake is covered with a thin layer of rotten ice, full of holes. The upper river is free far above Point Aux Pins. Ice conditions on the river for this time of spring are remarkable." As the insurance does not go into effect

until April 15, it is not likely that many of the boats will start out before that date, though local marine men believe that a number of ore carriers will risk the run to Marquette before that date, if anything like present weather conditions hold.

The Ladies are requested to meet at Mrs. Pearce's, 341 West Bluff street, at 2:30 this afternoon. All are expected to be on time. (3-30-10)

Upper Peninsula

A Former Escanaba Boy—Fred W. Cram son of C. A. Cram of Escanaba, has been elected president of the village of Nashauk, Minn., where he also has the superintendency of an important mine.

Falls Heir to \$1,000—Charles Vaughn of Baraga has fallen heir to one thousand dollars. He has received a letter from Ashland, Wis., informing him that his aunt, who died there about ten years ago, left him that amount. Mr. Vaughn's whereabouts were unknown to his relatives; it was supposed by them that he was in northern Canada.

New Brick Block—August Olsen, a grocer, at Manistique, has decided to erect a two story brick block on his lot at present occupied by Cowman Bros' confectionery store on the north side of Oak street, coming spring. The building will have a frontage of twenty-seven feet and will be sixty feet in depth. Mr. Olson will occupy the first floor with his grocery store.

Picks Mayflowers in March—Mayflowers on March 23! Can you beat it? J. D. Mitchell is the man who has the honor of being the first person in Escanaba to pick Mayflowers this year. He reports that he found and picked enough of the fragrant flowers to make a small bouquet. The flowers were procured in the woods near Helps, on the Narenta branch of the Chicago & Northwestern railway.

Why Meats are High—Stating the wholesale prices for beef and pork quoted to him by the representative of one of the big packing houses, a Manistique butcher declares that the retailer is not responsible for the high prices asked for meat. He says that beef in carcasses is quoted at 11 cents per pound; pork loins, 18 1/2 cents per pound; pork cuts, 18 1/2 cents, and whole hogs 15 cents per pound.

Quiet Election This Year—Crystal Falls has never in its history had as quiet an election as is indicated this year. While the contests for city officers have been few in the past, yet there never was a year since the city was incorporated that some opposition did not develop in the wards. It looks as if there will be absolutely no opposition to anyone next Monday when the primaries are to be held. The city convention will be held immediately after the primaries and Mayor Arvid Bjork and W. J. Gribble and Robert Munns are the candidates slated for re-nomination.

Menominee Men's Thrilling Ride—It is claimed that on Sunday afternoon, March 13, the iceboat Sirius, owned by Edward Nowack of Menominee and sailed by him and Eugene Dugas, broke the world's record for speed in any vehicle during the race for the Christopherson class A trophy of the Menominee iceboat club. The seven-mile triangular course was negotiated in the almost unbelievable time of five minutes, and at one time, while sailing close into the wind, it is asserted that the boat attained the wonderful speed of 142 miles an hour. The judges and timers were Professors Charles Boryhart, instructor of languages at the Menominee High school, and N. C. Rawson, coach and mathematics professor of the same school. When the race was called there was a gale from the north blowing across the bay at the rate of thirty miles an hour. Every other contestant reefed sails, except the Sirius, which started out under full sheets. Before the first lap had been completed there were but four boats left out of the dozen starters, the others having broken down or been compelled to withdraw because of the severe wind. The yacht Clipper, sailed by Robert Cleary, broke in two while going at the rate of sixty miles an hour, and the crew was thrown out with terrific force. The members escaped serious injury, but were severely bruised and cut.

During the entire seven miles the Sirius sailed on two runners, the third being elevated in the air at an angle of ninety degrees. Walter Nowack, a seventeen-year-old boy, who was riding the runner plank as ballast, was exhausted when the boat was finally stopped, after having gotten away from the skipper's control on the home stretch. It went two miles before being finally brought up into the wind. The runner, winner of last year's regatta, also made remarkable time, coming in but twenty seconds after the Sirius. It was sailed by Francis Wall and Napoleon Raiche.

The Sirius was built on the Hudson river in 1898, and was at that time the largest racing iceboat in the country. It was purchased last year by William Gray of Oshkosh. The Menominee and Menominee iceboat clubs are now at work designing a boat with which they hope to defeat the Sirius.

An examination of the Sirius after the race showed that the terrific strain had worked every stay and bolt loose in the framework and had practically ruined the sail. All of the crew's faces were split and chapped from the wind.

The Marquette City band will give a dance at Fraternity Hall Friday evening, April 1. Music by the Peerless orchestra. Tickets, 50c a couple; extra ladies, 25c. (3-28-10)

When you want milk from clean cows produced in clean barns from tuberculin tested cattle, call up the Marquette City Dairy, Bell Phone 223. F. H. VANDENBOOM, Prop. (3-25-10)

You can get some nice parlor paper from 18 to 25c per double roll at Geil's wall paper store. (3-10-10)

Medicines that aid nature are always most successful. Chamberlain's Cough Remedy acts on this plan. It loosens the cough, relieves the lungs, opens the secretions and aids nature in restoring the system to a healthy condition. Sold by The People's Drug Store.

Right Here

—in the baking

that is where Calumet Baking Powder proves its superiority; its wonderful raising power; its never-failing ability to produce the most delicious baking—and its economy. In the baking—that is the only way you can successfully test it and compare it with the high price kinds. You cannot discredit these statements until you have tried

CALUMET

the only high grade baking powder selling at a moderate cost. \$1,000.00 is offered to anyone finding the least trace of impurity, in the baking, caused by Calumet. Ask your Grocer—and insist that you get Calumet.

FOR PURE WATER

VOTE FOR THE WATER BOARD CHARTER AMENDMENT APRIL 4

The Board of Fire and Water Commissioners will soon publish a report on the city's water supply and will make their recommendations for these improvements.

These improvements and the questions of raising money to carry them out, you will have an opportunity to vote upon later.

First, however, the charter revision must be adopted in order to provide the necessary machinery by which the funds required may be raised.

At the spring election in 1907 the attempt to raise money for water works improvement was a failure owing to the change in the charter which went into effect one month before the vote was taken, and this in spite of the fact that a considerable majority of those voting on the question were in favor of the improvements then recommended.

Since that time, owing to the adoption of the new state constitution and a failure until recently of the State Legislature to provide for charter revision under the new constitution, it has not been possible for the board to put itself in a position to carry out the necessary improvements.

The adoption of the proposed amendment will provide the necessary means by which the improvements may be made.

The action of the voters on the recommendation of the Board will then determine the question for or against pure water and the nature and extent of the improvements.

(Signed.)

Board of Fire and Water Commissioners.

J. D. WEST NAMED FOR RECORDER

COMMITTEE ORGANIZED.
Republican City Committee Preparing to Conduct Active Campaign.

The committee appointed by the Republican party at its city convention, held Monday evening in the Nelson House, perfected an organization yesterday afternoon. It is composed of one representative from each ward. W. P. Belden of the Ninth ward was elected chairman and D. J. Sliney secretary and treasurer.

Mr. Belden said yesterday that the committee will conduct an active campaign, and that in all probability meetings will be held in every ward in the city. The large rally will also likely be held.

REPUBLICAN NOMINEE ANNOUNCES HIS POLICY

DELEGATES AND OTHERS ATTENDING MONDAY NIGHT'S CONVENTION PLEASSED WITH MR. M'CORKINDALE'S REMARKS.

W. J. M'Corkindale, the Republican party's nominee for mayor, who was called before the convention at the Nelson House Monday evening, briefly outlined the policy he will pursue in the conduct of the city's affairs, in the event he is elected next Monday. He spoke as follows:

"In accepting the nomination of mayor—the highest office within the gift of the people of Ishpeming—I wish to assure all that I am thoroughly appreciative of the confidence that you have placed in me. In view of the hearty sentiments expressed in my behalf by the business men of the city, as well as by the working people, I could do no other than yield to the wishes of my friends.

"Realizing that the voters would be interested in knowing my policy in the event I am elected, I wish to state that I shall endeavor to give the city a thoroughly honest and business-like administration. My policies shall be along conservative lines, consistent with the people's demands, so far as I can interpret them. I have found, during my business career, that it pays to deal fairly with the public in all things. I shall leave it to the citizens of Ishpeming to judge whether or not I have tried to be honorable, upright and fair in my dealings with them during the years I have been a resident of this city. It has always been my aim to protect the interests of my concern as far as possible, and at the same time do what is right by the public. My policy is to be general, as without the co-operation and patronage of the latter my efforts towards success would be futile.

"The company that I represent has always encouraged me in my efforts to build up its business in this community. By gaining the confidence of the public through fair dealings, I believe that we have established an enterprise that is worthy of the patronage it is accorded. We have invested a large sum of money with a view to furnishing a service both in the street railway and lighting department that will be appreciated. It is needless for me to say that in the event of my election, the city's interests will be as carefully guarded by me as are the interests of the company that I represent. My election to the office will in no way embarrass my company, nor will it detract from the confidence placed in the hands of the city officials, as our present contracts for both lighting and street railway operations extend over a period of years. In view of these facts I can see no reason why I should not accede to the wishes of the citizens in becoming a candidate for mayor.

"I wish it understood at the outset that in the event local opinion carries in this county, I shall not tolerate the operation of 'blind pigs,' 'boot leggers' or any other methods that might be employed in the violation of the liquor laws. If Ishpeming goes dry, it shall be dry, so far as myself and the police force is able to make it. On the other hand, if the vote is in favor of a continuance of the licensed saloon, the laws of the state shall be strictly enforced with reference to the closing thereof, the places of business on Sunday, legal holidays and after hours. I realize that if the voters cast their ballots in favor of continuing the saloons in business, the people will demand a strict enforcement of the law. To this I solemnly pledge my honor.

"With this brief announcement I respectfully ask the suffrage of the electors, promising in return for your support and co-operation an administration that will tend for the betterment of Ishpeming and all its people."

CAPT. JOS. HODGSON,
People's Party Nominee for Mayor.

the convention, and their remarks were well received.

The ticket placed in nomination is as follows:

Mayor—Joseph Hodgson.
Recorder—John D. West.
Treasurer—Henry Tallhokka.
School Inspector—John Brandlund.
First Ward—Alderman, E. W. Johnson; supervisor, Urgel Lavigne; constable, Frederick Stevens.
Second Ward—Alderman, J. T. Rowe; supervisor, Henry Kappila; constable, Wm. Jenkins.
Third Ward—Alderman, Henry Nicholls; supervisor, Joseph Gill; constable, W. J. Lynn.
Fourth Ward—Alderman, Chas. A. Olson; supervisor, J. W. Snell; constable, August Samuelson.
Fifth Ward—Alderman, Wm. Andrews, Jr.; supervisor, A. C. Braastad; constable, Albert V. Sundberg.
Sixth Ward—Alderman, T. R. Williams; supervisor, Andrew Peterson; constable, John Staka.
Seventh Ward—Alderman, John Dowrick; supervisor, Burt Solomon; constable, Ben Kimball.
Eighth Ward—Alderman, Albert Andrews; supervisor, Isaac Gustafson; constable, Chas. Johnson.
Ninth Ward—Alderman, J. B. Quayle; supervisor, J. H. Mortley; constable, Wm. J. James.
Tenth Ward—Alderman, Thos. Crane; supervisor, Wm. Racine; constable, August Yorkey.

TOWNSHIP NOMINATIONS.

The Republican party in Champion township held its convention Monday evening and nominated the following ticket, which will be elected without opposition.

Supervisor—H. S. Thompson.
Clerk—Charles Simmons.
Treasurer—John H. Blaney.
Justice of the Peace, full term—William E. Trevall.
Justice of the Peace, to fill vacancy—Anthony Nord.
Highway Commissioner—Joseph L. Cardinal.
Overseer of Highways—Andrew P. Anderson.
Member of Board of Review—Joseph Mitchell.
Constables—C. H. Lavigne, Richard Mager, Victor Brodd and William Derrie.

W. A. Siebenthal, agent of the Republic mine, is at the head of the Republic township ticket, recently nominated. The complete ticket is as follows:

Supervisor—W. A. Siebenthal.
Clerk—P. W. Pascoe.
Treasurer—A. F. Isaacson.
Justice—E. S. Rowland.
Member Board of Review—Isaac Silberg.
Highway Commissioner—William Knottwell.
Overseer—Carl Headman.
Constables—Charles Palo, Fred Lind, Bruce Wallace and Joseph Piche.

BARGAIN IN LAND!

Ten thousand acres of land (mineral and timber) in Marquette county, Mich., for sale. If taken at once will sell this tract cheap. There are ten large iron mines in vicinity of this land. Timber enough on same to more than pay for the same. Perfect title and warrants deed given. These lands were taken up thirty years ago for the mineral right, but it has lain idle while other mines have been developed right in among these holdings. Parties interested must act quickly. For further particulars write to

Vocal solo Miss Grotte
Selection Byström's Orchestra
Selection Church Choir
Selection Y. M. C. A. Glee Club
Selection Byström's Orchestra

FUNERAL THIS AFTERNOON.

The remains of the late Wellington Burt, who died Sunday in Chicago from diphtheria, were received here yesterday morning, accompanied by the father of the deceased and Charles Hawes. The funeral will be held this afternoon at 2:15 o'clock, with services at the family home on North Maple street, conducted by Rev. C. L. Adams, pastor of the First Methodist Episcopal church. Members of the Masonic society will be the active pall bearers and members of the Sunday School class of the deceased will be honorary pall bearers and flower bearers. The death of Mr. Burt was a great shock to his many friends and acquaintances in Ishpeming. He was popular with the young people and during the years he attended the high school here he was a great favorite. He was a hard working student and as a result of his efforts during his last year in the high school he won the scholarship awarded by the University of Chicago, where he was on his second year when he was taken ill.

NEW VOTING BOOTHS.

The purchasing committee of the council, which some time ago ordered new steel booths, to be used in the election Monday, expects to receive them today or tomorrow. There will be twenty-nine booths in all. The only ward in the city that will not need these booths is the Second, permanent booths having been installed there. The fifth ward will have one more booth than formerly, making three in all, and the Fourth and Third wards will each have four. The committee has also ordered five new ballot boxes. Five boxes will be needed in each ward, making fifty in all that will be used in the city.

M. J. Olson, the piano tuner, can now be reached by County telephone No. 520, or by mail, at 400 East Ridge street, Ishpeming. First-class work guaranteed.

Fifth ward—Alderman, Felix Delaroy; supervisor, Ross Hanson.
—Taxpayers'—
Mayor—J. W. Elliott.
Justice of the Peace—J. F. Allison.
School Inspector—Robert Kronberg.
Treasurer—Joseph Mercier.
Constables—Richard Yelland, Jr.; Chas. Lindman, J. Jurous, J. Fredrickson, Simon Makela.
First ward—Alderman, W. H. Bath; supervisor, Elijah Toms.
Second ward—Alderman, Dan Shea; supervisor, John Deacon.
Third ward—Alderman, M. T. Murphy; supervisor, E. N. Corey.
Fourth ward—Alderman, Harry Jackson; supervisor, Jos. Barabe.
Fifth ward—Alderman, Joseph Thomas; supervisor, Chas. Johnson.

PLACING MANY CONTRACTS.

Iron and Steel Outlook Is Now Exceptionally Bright.

It is reported from New York that last week contracts for pig iron aggregated about 75,000 tons, mainly tonnage grade, the principal point of activity being at Buffalo, where furnaces have booked orders for about 25,000 tons. One New England manufacturer of plumbers' supplies divided an order for 8,000 tons between two furnaces, and another New England contract for 10,000 tons is pending. Minimum prices are ruling in all sections with Alabama iron especially weak and lower. Railroads were reeased last week, still withholding orders for bridges, rails and other equipment, but official confirmation was received of previous contracts for cars and locomotives, which insures March the highest month on record since last November.

Bids have been submitted on railroad bridges requiring 9,000 tons of fabricated steel, but no awards have been made and other railroad work is pending calling for 13,000 tons of structural material.

With an absence of railroad work there has been keener competition for fabricated steel orders coming from contractors and manufacturers for new buildings. The result has been the receipt of specifications for about 25,000 tons. The largest local contract has been 4,000 tons for the New Jersey Zinc company, divided between the Jones & Laughlin Steel company and the Lackawanna Bridge company.

There is a large amount of new structural work pending and never were the fabricating shops as busy in their estimating departments as now. Work present and prospective will call for about 150,000 tons of structural steel. Agricultural implement manufacturers are reported to have placed some contracts for soft steel bars, deliveries beginning July 1, and covering the next twelve months. Other similar contracts are pending.

Some new contracts have been placed for plates and shapes by car builders, ship yards and machinery manufacturers and larger specifications received on previous contracts with the same interests.

BALL A BIG SUCCESS.

The Negaunee fire department's annual ball, Monday night at McDonald's opera house, was a financial and social success. Nearly 300 couples were present. The hall was very prettily decorated, the feature of the decorations being the letters "N. F. D." in colored electric lights, suspended above the stage. The Negaunee orchestra furnished satisfactory music and the supper, served by Mrs. J. Flory in Shea's hall, was exceptionally good. The dance did not break up until 4 o'clock yesterday morning.

SOUTH JACKSON TO START.

The Cleveland-Cliffs Iron company is making preparations to resume operations at the South Jackson mine, west of the Lucy, which went into commission over a month ago. The South Jackson is an open pit property and is operated only during the summer seasons. Men are now employed cleaning up the pit and getting the machinery in condition for use. All of the ore produced at this property is crushed before shipment.

NOTICE TO CONTRACTORS.

Notice is hereby given that sealed proposals will be received at the banking house of the Negaunee National Bank until 5 o'clock p. m. April 14th, 1910, for the erection of the proposed new bank building as per plans, specifications and details to be had on application. The committee reserves the right to reject any or all bids. THE NEGAUNEE NATIONAL BANK, Negaunee, Mich., March 29, 1910. 3-29-34

ARNETT STILL MISSING.

Negaunee Gun & Rod Club Will Send Men on Search for Him.

A special meeting of the Negaunee Gun & Rod club will be held this morning at 9 o'clock, at No. 1 hose house, for the purpose of organizing a party to search for John Arnett, who disappeared from his home on Lincoln street early Sunday morning. Mr. Arnett was a member of the club and the other members are familiar with the places where he liked to hunt and fish. These will all be visited.

A meeting of the German Aid society was held yesterday morning and two men, familiar with the woods, were hired to search for Arnett. The society offers a reward of \$25 for information that will lead to his discovery. Mr. Arnett has been a member of the German Aid society for many years.

A special meeting of the council will probably be held today, or this evening, to take steps to aid in the search. Mayor Winter said yesterday that in all probability the city will offer a reward of at least \$100 to any one who gives information as to Arnett's whereabouts. Some of his friends yesterday went through the Cleveland-Cliffs Iron company's old barns and other buildings near the Pioneer furnace. He was familiar with these places and it is thought that perhaps he might have gone there, but no trace of him was found.

Many of Arnett's friends believe that he will be found somewhere near the city, as he was a great lover of the woods. Men went to the Carp river yesterday and a search will probably be made in the district north of the city today.

Arnett attended the baseball game at the Adelphi rink Saturday evening, leaving there shortly before 11 o'clock. He talked with a number of his friends and commented on the playing. He was not in possession of any money when he left home, and his relatives are satisfied that he did not leave on anyone of the trains.

CHARLES A. TOWNE.

Charles A. Towne, who will speak at McDonald's Opera House tomorrow evening for the licensed saloon, was born on a farm in Michigan in 1858. He entered the University of Michigan in 1875. The next year, at the age of eighteen, he was on the stump as a political orator and in 1880 he stumped Wisconsin for Garfield. On leaving college Towne's political affiliations secured him a clerkship at the capitol in Lansing, which he held for four years, meanwhile continuing the study of law. He was men-

tioned as a congressional possibility before he was eligible under the constitution. He went from Lansing to Chicago, where he opened a law office, going from there to Duluth in 1890. Four years later he was elected to congress as a Republican. He soon became known as an orator of ability, and the announcement that he was going to speak was sufficient to pack the galleries. He joined with the revolving members of the Republican party against the gold standard and was a strong advocate of the ratio of 16 to 1. In 1896 he was one of the most powerful speakers advocating the election of Bryan, and in 1900 he was nominated for vice-president by the Populists. He was appointed United States senator from Minnesota and after serving out the term, he removed to New York, where he enjoys a large law practice. He has served one term in congress from New York, and is now a member of the law firm of Delmas, Towne & Spellman.

A GREAT PUBLIC BENEFIT.

However prejudiced some people are against advertised medicines the general public is greatly benefited by some. For instance such standard remedies as the God Liver and Iron preparation called Vinol. Its ingredients are printed on every bottle, and its worth has been proven so often in cases of severe coughs and colds and to create health and strength for the weak and run-down that its sale will continue to increase in the future as it has in the past. The Stafford Drug Co.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. J. C. HENRY & CO., Toledo, O. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

LOGGING OPERATIONS CONCLUDED.

Gas Fredren of Norway has broken camp at Spaulding, where he has been logging for the Oliver Iron Mining company. He employed seventy-five men and thirteen teams during the winter, and put in 3,000,000 feet of logs, 45,000 pieces of logging, 2,000 ties, and 300 pieces of trestle timber. Mr. Fredren also had a camp near the Forest mine, where he put in 300,000 feet of logs with twelve men and two teams. He is now engaged in moving a set of camps and grading outfit from Gwin to the St. Lawrence mine siding on the Marquette range, where he has a contract to build six miles of railroad for the Cleveland-Cliffs Iron company. Mr. Fredren will make this point headquarters for his work. He expects to start work on both the railroad and his Marquette county road contracts about the first of April, employing about three hundred men and twenty teams.

LOCAL LAONICS.

Jack Height, a mining man of Lead, S. D., is in the city.

H. A. McIntyre of Houghton looked after business in Negaunee yesterday.

A. J. Reeves, representing the Oskosh Fluff Rug company, is in the city for a few days.

Miss Catherine McDonald, who is teaching school at Eveleth, Minn., is home on her Easter vacation.

George H. Crandell, a young lawyer of Detroit, spoke last night at McDonald's opera house for prohibition.

Matthew Malloney expects to begin moving the Montreal house from its present site, to his lot on Jackson street, within the next few days.

Monday evening many Negaunee people witnessed the firemen's parade, which took place before the opening of the ball at McDonald's opera house.

The Brieting interests are laying tracks to the Brieting Hematite property, where mining operations were recently resumed. A stockpile is being accumulated and shipments will start soon after the opening of navigation.

Fred Lindey, a well known diamond drill man, who has been working in the copper country, has decided to move his family from Negaunee. Mr. Lindey has about five year's work ahead of him in Houghton county. His family lived in Abram Boulson's residence on the eastern end of Iron street.

Because two members of the school board were unable to attend the meeting Monday evening, the hiring of teachers for the ensuing year was deferred until next Friday night. The members of the board have been advised indirectly that there will be probably four or five vacancies to fill, as some of the teachers have accepted positions elsewhere.

LOCAL TEMPERATURE RECORDS SMASHED

YESTERDAY WAS MUCH THE HOTTEST MARCH DAY EVER EXPERIENCED IN MARQUETTE.

MAXIMUM WAS EIGHTY-ONE

Precipitation During Month Has Been Remarkably Light, and Ground Is in Shape for Planting.

All March temperature records for this city were smashed to smithereens yesterday, it being much the hottest March day ever experienced in Marquette. The day dawned with the sun shining brightly and a south wind blowing and the thermometer hovering somewhere near fifty. As the sun rose toward the zenith, the temperature steadily increased until by mid-forenoon it was as warm as an August day. At 11 o'clock the official weather bureau thermometer registered seventy-eight, while others on the streets went up as high as eighty-five. At 3 o'clock in the afternoon, the government thermometer recorded eighty-one, which was the maximum temperature for the day.

Up to yesterday the highest March temperature ever officially recorded in this city was seventy-two degrees last Friday, and prior to that, seventy degrees, March 9, 1878. Monday the maximum temperature was seventy-one, but compared with the heat of yesterday these records are insignificant. Many of the fair sex donned their summer dresses, which looked as comfortable and appropriate as on a mid-summer day. Many enjoyed automobile rides about the city and around the island, while the boys were playing baseball on nearly every vacant lot. A number of prospective league players indulged in their first out-of-door practice of the season.

Unprecedented Weather.

The unprecedented warm weather was the subject of conversation everywhere and the old-timers racked their brains for instances of the same conditions back in the '70's, '80's or '90's, but usually without avail. A number remember the early spring of 1878, but declare that March this far has it beaten. Eight years ago, when the high school was built, it is said that that spring came in in March and it was possible to work continuously on that edifice from March until it was completed.

This month promises to be remarkable not only because of its unusual warmth, but even more so because of the deficiency of precipitation. Up to last night the total precipitation since March 1, was but .13 of an inch, whereas the average precipitation for March is 2.08 inches. For the last two weeks there has been no snow and only a very little rain and sandy soil is in excellent condition for working and planting. Not a few Marquette people have prepared garden beds and planted early vegetables such as lettuce, radishes, onions, etc.

In the woods, the snow is practically all gone except patches on the north side of trees or hills. As the snow has gone off without rain, the ground in the woods is very dry and the streams are not so high as usual at this time of year. Trout fishermen are lamenting that the opening of the season has been changed from April 15 to May 1, as it now looks as if the streams would be down and there would be excellent conditions for fishing by the middle of April. Even if there should be a heavy snow or continued cold, it is not thought that the streams can be very high by the first of May, owing to the woods being so dry now.

Farmers Pleased. "If this weather keeps up," stated a prominent farmer yesterday, "it means wonderful results. Never do I remember such a phenomenal spring, nor such such a favorable winter. The land is now in ideal condition, and unless the temperature takes a big drop in April, I look for the biggest agricultural year this country has ever seen. Of course, there is danger of the buds on the fruit trees starting if this exceptionally warm weather continues, and if they do, they are very liable to get nipped with frost before the end of May. This would mean injury to the fruit crop if not its ruin." The opinion expressed by the farmer is one that is general everywhere. Not only in this vicinity of the country has the spring been early, but everywhere has winter disappeared as if by magic. A commercial traveler whose business takes him through the agricultural districts of the Northwest, states that it was wonderful the shape the farmers were getting their land in. Many have begun plowing and in some instances, planting has begun.

Smoky atmosphere yesterday indicated that forest fires have started in the upper peninsula, and unless there is rain soon, they may do great damage. The unprecedented light precipitation this month has caused the woods to become very dry, and now that the snow is practically gone, rain is badly needed for the danger of extensive forest fires will be imminent.

INSURE WITH PETER WHITE & CO.

The Marquette City band will give a dance at Fraternity Hall Friday evening, April 1. Music by the Peerless orchestra. Tickets, 50c a couple; extra ladies, 25c. (3-28-54)

Does that piano of yours need tuning or repairing? The Cable Co. of Marquette has established a tuning and repairing department to their branch store, and has engaged the services of E. L. Beach of Chicago, who is an expert in this line and will not fail to fully satisfy you. All orders promptly attended to. Both phones—Bell 902, County 42. (3-24-11)

A nice strip or small square for bed room from 10 to 20c per double roll at Bell's paper store. I will trim the paper for you free gratis. (3-10-11)

300 NEW ORE CARS.

South Shore Has Placed Order That Will Greatly Increase Equipment.

The Duluth, South Shore & Atlantic railroad company has placed an order for 300 ore cars with the American Car & Foundry company, on which delivery has been promised next month. The cars will be put in service in the ore traffic between the range mines and the Marquette docks. The style of car ordered is different from any in use on either of the Marquette railroads, being built with a steel frame and bottom but with wooden sides. The cars are of fifty-ton capacity. They are equipped with a rapid dumping device which, however, is not patented. This purchase will materially increase the ability of the South Shore to handle its ore business promptly, shortage of cars having caused no little inconvenience last season.

It is stated that the South Shore has also placed an order for eight new locomotives, of the heavy consolidated type, which will be used on the Mineral Range railway.

BASEBALL DIRECTORS MEET.

Officers of Board Changed and Various Matters Discussed.

At the meeting of the directors of the Marquette baseball association held at the Hotel Clifton last evening, some changes were made in the officers by mutual consent. C. F. Willesen continues in the capacity of president, but John Siegel and H. R. Fox were elected vice presidents. Mr. Fox having decided that he is too busy to perform the duties of secretary and treasurer, John Stueglin was, accordingly, chosen for secretary and Walter Johnson as treasurer.

Members of the board report that there is no dearth of material from which to select players for the Marquette team this season. The management has received a number of letters from reported good men, who would like to play ball in this city if satisfactory arrangements can be made. "Hay" Scholtus has reconsidered his decision to play with the Iron Mountain team the coming summer, and has made all arrangements to play on the Marquette team. Ripelle will again be in his old place in left garden and Weiser, Richardson, Jenkinson, Hamilton and Young are slated for places in the line-up. The management is in communication with a good first, and a good third baseman, both of whom are anxious to play in Marquette and in their past records should be valuable acquisitions to the team. Several other highly recommended players are under consideration by the board, and the difficulty will be to make the best selection from the available material, rather than to secure players for the various positions.

ANALYZING MAPLE SYRUP.

State Dairy and Food Department Beginning to Inspect Samples.

State Analyst F. W. Robinson of Lansing, has received the first sample of questionable maple syrup for analysis and this lone sample is probably but a forerunner of scores of others to follow. The buckwheat season no more than closes with the dairy and food department than the maple syrup season opens up, and the state chemists are busy winter and spring in trying to find out the percentage of buckwheat that is mixed with lower grades of flour or what kind of robs were burned to flavor some mess of low grade syrup placed on the market under a "maple" syrup label.

It is not lawful to market any adulterated product labeling it "maple" syrup, when it is but a compound of smoked corn cob juice and some other liquid sweetening. The word "maple" or made word where maple enters into the make-up of such made word cannot be lawfully used on the label of any compound syrup.

The old-fashioned sugar bushes are largely a thing of the past in Michigan, and less buckwheat is raised each year, yet there seems to be plenty of both of these delicacies on the market. Suspecting persons often have recourse to the dairy and food department with samples of both maple syrup and buckwheat, and the present price of honest maple syrup is such that the consumer feels considerably hurt to discover that he has paid the real price without getting the real article.

But few prosecutions have been made in cases of adulterated or compound syrup exploited by clever advertisers as the genuine article, but adulterers of buckwheat flour have suffered heavy penalties in the past few years for violations of the pure food laws, as there seems to be longer chances taken on flour than on syrup.

CURE YOUR KIDNEYS.

No Need to Take Any Further Risks.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work. If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Can Marquette residents demand more convincing proof than the following:

H. H. Bradford, 610 River Ave., Iron Mountain, Mich., says: "I gladly recommend Doan's Kidney Pills as I have found them to be a reliable kidney remedy. They relieved me of backache, regulated the passages of the kidney secretions, and improved my health. Other members of my family have taken this excellent preparation with the same good results."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Mrs. Marlon E. Crane will be at Hotel Marquette, March 26 to 30th, with beautiful line of needlework, stamping and designing, dresses and waists—a specialty. Hours 10 to 12 a. m., waists a specialty. Hours 10 to 12 a. m., 2 to 5:30 p. m. (3-25-51)

For the lower two-thirds in the dining room use a dainty fabric. I will sell them cheap. From 18 to 30c per double roll at Gell's. (3-10-11)

ELI COUVION, TRUCKER. Removes ashes and garbage. Order by phone, Bell 382-J. (6-7-11)

PROTECTION AFFORDED BUSINESS TRADE MARKS

ELDRIDGE & MILLER HAVE BECOME LOCAL REPRESENTATIVES FOR COMPANY SUPPLYING A NOVEL SERVICE.

Owners of trade-marks will be interested in the new field covered by the Trade-Mark Title company of Fort Wayne, Indiana, for which Eldridge & Miller are the local representatives. This company was formed a few years ago to register, design and investigate the titles of trade-marks, and at present numbers its clients in every state in the Union, besides doing a large foreign business. The demand for protective service has brought out this department.

The financial losses caused manufacturers and jobbers owning valuable brands should be greatly lessened by this service. This department offers to secure to its clients full rights under the trademark law, and to relieve them of great expense in the way of litigation which cannot be helped in any other way. The government in granting the registration of a trade-mark does not guarantee its reality. It leaves that to the courts. For this reason applicants for a registration of a trade-mark often need the assistance of trade-mark experts, and so avoid as much as possible future trouble.

This company is said to have a more complete bureau of trade-mark records relating to the registration and protecting of trade-marks in this and foreign countries, than is found in the patent office in Washington, or in any other office in the world. Any client in the protective department has free use of this great bureau of information, and is saved the expense of selecting a brand or mark and spending thousands of dollars to advertise it, only to find he must spend a great amount of money to establish its validity. This department informs its clients of any case of attempted registration of their marks, and uses its efforts to detect any infringement in this and foreign countries. The expense of litigation will often cause the owner of a concealed valid trademark to hesitate before bringing suit against the most flagrant pirate. The maintenance of an "eye and ear" department by manufacturers and jobbers to protect their valuable brands would be at a cost almost prohibitive to give satisfactory service, but by serving many, this may be accomplished by a moderate outlay. It is the exclusive right of the Trade-Mark Title company through this department to be able to serve any client by giving protection when it is needed, save annoyance and in many cases financial loss.

In Early Spring, Don't forget what is due your looks as a careful dresser.

HOPES TO BETTER ROADS.

Deputy Highway Commissioner to Send Out Interesting Letter.

Deputy State Highway Commissioner Rogers is preparing an interesting circular, entitled "How to Care for Clay and Sand Roads," which is to be sent to every township road commissioner in the state of Michigan immediately after the April election. The circular will be a good roads institute on paper, for as a result of the same the state department hopes to save the township hundreds of dollars annually by teaching the commissioners, both the new office holders and the veterans, the most efficient manner of keeping their roads in good condition.

There is approximately 70,000 miles of wagon road in the state of Michigan. In 1908 the cost of maintaining clay and sand roads was \$4,222,572.23, or about 83¢ a square mile. This amount includes the money spent on bridges and culverts along the road and the deputy highway commissioner declares that at least \$40 per mile was used to keep the roads themselves in good condition. In his personal article, Mr. Rogers will tell what are the best implements to use in scraping the clay and sand roads, correct present evils which exist, discuss the best time to drag, the best manner of performing the work and hints as to how much equipment each township should have and about how much work should be done on the roads annually.

NEW PARK FOR THE NATION.

Woman's Relief Corps Buys Tract Contiguous to Andersonville Prison.

Washington, March 29.—Mrs. Jennie Iowa Berry, national president of the Woman's Relief Corps, announces in a general order that the United States government has accepted the gift of the Andersonville Prison Park property from the National Woman's Relief Corps. The land is contiguous to the Andersonville National cemetery and contains more than eighty-seven acres. It was given to the Woman's Relief Corps in 1890 by the department of Georgia, Grand Army of the Republic, who had bought it some years before of the original owner. Since then the property has been greatly improved. A seven-room house has been erected, the rooms being furnished by different departments of the order. Hundreds of rose bushes have been planted on what was "the dead line" and quantities of peach trees set out.

The states of Massachusetts, Michigan, Rhode Island and Ohio have erected on the grounds monuments dedicated to the memory of the soldiers from those states who died in the prison. A pavilion has been built over the providence spring, and the grounds have been enclosed with a wire fence. In 1908 the property was offered to the government as a free gift, unencumbered, and the bill of acceptance has now been passed. Members of the Woman's Relief Corps in Massachusetts have been especially interested in the matter, as the late Mrs. Elizabeth A. Turner was national president when the property was accepted by that organization and from that time the care and preservation of Andersonville Prison Park was her cherished work. Her death occurred while she was on her annual visit there. When the fence was removed from Boston Common the gates were given to Mrs. Turner for use at Andersonville.

House cleaning time is at hand. Get your orders in early for the Vacuum Wagon or Electric sweeper. Call J. H. Sanders, Bell Phone 650. (3-23-11)
