

Copper Country

HOGAN GOES TO CLINTON, IA.

Calumet Picher Is Farmed Out by the Chicago White Sox.

Paul Hogan of Calumet and W. A. Macdonald of Laurium have left for Iowa to join the Clinton team of the Three "I" League. Hogan is under contract to the Chicago White Sox, but has been farmed out for the season to the Clinton team. The management of the White Sox feels that Hogan is a young but effective pitcher and that he will make a valuable man for Chicago after a year or two of experience with a good minor league outfit. Macdonald will take care of the "ticket" end of the game for the Clinton team, both at home and abroad.

Bill Brand of Houghton, it is understood, is considering an offer to go to the Moose Jaw team of the western Canadian league. Brand is one of the best hitters and infield players who ever appeared with a copper country team. He played several seasons with Calumet and later with Houghton.

Jack Morrison, formerly of the Calumet team in the Northern League, has charge of a team in the new "Mink" league, embracing clubs in Minnesota, Nebraska, Iowa and Kansas.

Bert Sineck of Calumet has received offers from clubs in western Canada and also from the Buffalo team of the Eastern League.

COUNTY BOARD COMMITTEES.

Chairman A. D. Edwards Names Helpers for the Ensuing Year.

Chairman A. D. Edwards of the county board yesterday announced his appointments of committees for the ensuing year. County Clerk Richardson has named the list to the supervisors. They follow:

- Finance—Charles Smith, W. J. Uren, Samuel Edly, R. E. Seeber.
- Highways and Bridges—W. J. Uren, W. S. Cleaves, James MacNaughton, Michael M. Foley.
- County Lands—E. A. Hamar, C. S. Mason, James MacNaughton, C. R. Mol.
- Equalization—James MacNaughton, Charles Smith, Edward Koepel, C. L. Lawton, J. L. Harris.
- County Buildings—C. L. Lawton, E. A. Hamar, C. P. Mason, John Finkey.
- County Poor—A. P. Jopier, W. J. Uren, Edward Koepel, Martin Gustafson.
- Supplies and Printing—W. S. Cleaves, M. M. Foley, Patrick Sullivan, J. L. Harris.

DEATH OF MRS. ALICE L. MOSS.

Mother of Houghton Banker Passes Away at His Home.

Mrs. Alice L. Moss died early yesterday morning at the home of her son, Charles H. Moss, cashier of the Citizens National Bank, East Houghton, after a short illness. Mrs. Moss is survived by her son in Houghton and by two daughters, Mrs. Sara Bradley, who lives in Connecticut, and Mrs. C. H. Hall of Evanston, Ill.

Mrs. Moss was born in Chester county, Conn., in 1839. She lived in her native state until 1897, when she joined her son, C. H. Moss, at Espenhand and made her home with him since that time, coming to Houghton in 1897. Since her residence in Houghton she had attracted to herself many friends by her beautiful character. Mrs. Moss was a member of the Presbyterian church and was active in the interest of that communion here. The funeral will take place Monday afternoon from the family home to Forest Hill cemetery.

MINERAL RANGERS' BIG ORDER.

Eighty-Pound Steel for Mohawk-Gay Run—Six Big Locomotives.

It is officially stated that the Mineral Range railroad has placed an order for a large quantity of eight round rails for the run between Mohawk and the mills at Gay. It is also stated that the road has ordered six locomotives of 100 tons each for freight and rock train work. It was found impracticable to order engines of the "hog" type, which weigh about 160 tons each, because of the wooden trestles on the road north of Calumet, as these trestles will not sustain the weight and are being replaced by the heavier type of locomotive. No date for the delivery of the new rolling stock has been made known. It is also understood that the road is ordering a large number of new rock cars.

WOULD RELEASE KANGAS.

Movement Is Started for the Pardon of the Convicted Murderer.

A movement has been started to secure the liberality of Mark Kangas, who has served eighteen years of a life sentence for murder. He is in the Marquette branch prison. A petition has been prepared asking for his pardon. Kangas was sent to Marquette for killing a physician at Portage Entry.

Bronchitis at 78

Mr. J. M. Elicett Says Duffy's Pure Malt Whiskey Has Prolonged His Life Five Years. It Relieved and Strengthened Him When Nothing Else Did Him Any Good.

MR. J. M. ELICETT, 78 years of age.

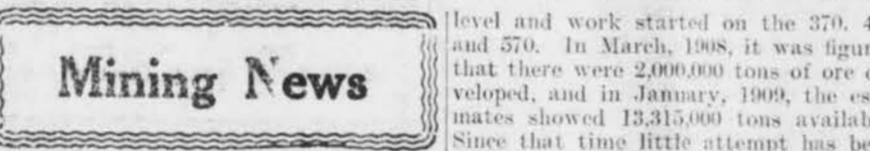

"I have been taking Duffy's Pure Malt Whiskey for six or seven years for Bronchitis, which I have had for about twelve years. Before this I tried doctors and everything else, but nothing did me any good. Duffy's Pure Malt Whiskey was recommended to me, as it would benefit me and would build up my whole body and system. I commenced taking it and found that it did me more good than all the medicines I had taken in the past.

"I think Duffy's Pure Malt Whiskey the best thing that a man can take to build himself up and prolong his life, as I am in my seventy-eighth year and had I not taken Duffy's Pure Malt Whiskey six or seven years ago I believe I should have been in the ground five years ago. I find it is the most invigorating medicine I can take, and I want the people of the world to know what it is doing for me."—J. M. Elicett, 608 23rd Street, Richmond, Va.

Ministers of the gospel, doctors of medicine, nurses and people everywhere unite in commending Duffy's Pure Malt Whiskey—the only perfect tonic stimulant, the one true medicinal whiskey.

Duffy's Pure Malt Whiskey

is an absolutely pure, gentle and invigorating stimulant and tonic. It overcomes all weakening, wasting and run-down conditions of the body, brain and muscle, giving the system power to throw off and resist coughs, colds, grippe, catarrh, bronchitis, asthma and lung troubles, and it is a wonderful remedy in the prevention and cure of consumption, pneumonia, malaria and low fevers, if taken as directed. It is prescribed by doctors and recognized as a family medicine everywhere.

Mining News

GLOBE-KELVIN DISTRICTS.

Ore Bodies Being Extensively Developed by Miami, Inspiration, Keystone.

With enormous ore bodies developed, exploration work proceeding on a substantial scale, concentrations in course of erection, and needed railway projects under serious consideration, the Globe and Kelvin districts of Arizona bid fair to become two of the most important copper producing areas of the Southwest, writes Edwin Higgins in the Engineering and Mining Journal. For many years the Globe district has been well known first as a silver and later as a copper producer, but it was not until ore was encountered on the Miami property, in January, 1907, that serious attention was given to the disseminated deposits. This discovery came near not being made, for operations were about to be discontinued; it is said that the superintendent on the ground continued work in the shaft after orders came to stop, with the result that ore was encountered within a few feet more.

TREASURER A BENEDICT.

Frank Bowden, Keweenaw county's treasurer, has figuratively put one across on his friends. He is married, has been married for over a month and the fact has become known to his friends. It was on March 10 that Mr. Bowden and Miss Miller, both of Eagle River, were joined in wedlock. They have the best wishes of their many friends.

LIVING ON THE EQUATOR.

Three Things Necessary—Mosquito Bar, Water Filter and Quinine.

Without a mosquito bar a white person is unable to live on the equator, writes Ida Vera Simonton in the Delimitator. No matter how hot and stifling the night—and no other place can be so stifling as the equatorial African night during the long rainy season in the middle of the jungle—one must sleep under a closely tucked-in mosquito bar.

Development of the Miami.

The property of the Miami Copper company was taken under option by the general development company and work began in January, 1907. In April of the same year ore carrying 2 per cent copper was encountered at a depth of 220 feet in the Red Rock (No. 1) shaft. By the month of June a depth of 270 feet had been attained and ore was opened up for about fifty feet square. The shaft was then continued down to the 720-foot

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man on the continent. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proven by the fact that ninety-eight per cent of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half-a-million women, in a practice of over 40 years, it is phenomenal, and endles Dr. Pierce to the gratitude accorded him by women, as the first of specialists in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as with-out fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres't., Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION

Makes Weak Women Strong, Sick Women Well.

done in two shafts, one of which is about 650 feet deep, on the Cordova property. The Black Warrior is just beginning to prospect with churn drills. Previously this company had been working on an ore body of chrysocolla from which it shipped no ore carrying less than 8 per cent copper.

The keystone is operated by the Lawsons. This property has one shaft down 300 feet and has been partially prospected by churn drills.

YERINGTON COPPER FIELD.

There is little actual mining activity in the Yerington copper district of Lyon county, Nevada, at the present time. The attitude of mine owners and operators is one of awaiting developments in the railroad and smelter situation, as without transportation and smelting facilities close at hand only the highest grade of ore can be mined at a profit. The Nevada Copper Belt railroad is now running trains as far as Mason, two miles beyond Yerington, so the mines can well afford to wait a little longer until the smelter is also built. The larger properties already have considerable tonnages of ore stacked on the eastern belt. From Mason, by wagon road across the hills, only eight miles to the west, is the Nevada-Douglas group.

Living is fairly cheap in the district, at least for Nevada, the adjoining country furnishing almost all the necessary foodstuffs. Non-union labor is plentiful, the prevailing scale of wages being \$3 for muckers and \$3.50 for machine men. The Truckee River General Electric company supplies electric power at \$5 to \$6 per horsepower per month, depending upon the size of the installation. A plentiful supply of water may be had anywhere in the Mason or Smith valleys by sinking shallow wells. This must be pumped to the mines against heads varying up to 1,000 feet.

Upper Peninsula

Street Fair for the Soo—The Elks of the Soo have appointed a committee to look into the feasibility and advisability of holding a street carnival and fair during the week of the Ironmen's tournament in August. The proposition met with the enthusiastic approval of every member present at the lodge meeting, and it is altogether likely that it will be pushed. A number of special attractions have been proposed and within a short time the whole scheme will be worked out.

Prosecutor Doyle's Last Term—

Michael J. Doyle, for two terms prosecuting attorney of Menominee county, will not be a candidate for re-election, Mr. Doyle states that his decision not to run again was formed when he was a candidate two years ago. With the retirement of Mr. Doyle, undoubtedly the strongest Democratic material for prosecuting attorney honors in the county, an interesting situation develops. There are three names in the county who are being mentioned for nomination on the Republican ticket, it looks as if the Republicans would be victorious in the coming campaign. During his four years service Mr. Doyle has made an excellent record as prosecuting attorney. He has won practically every case which he has fought for the county and he has conducted his office in an economical and conservative manner.

Miscellaneous Wreck Automobile—

While George S. Power of Menominee was attending a reception at the home of H. Tideman on the 22d Broadway, some miscreant placed a bolt through the drive chain on the left side of his Pope Toledo automobile and otherwise wrecked it, taking off the brass rods around the front of the machine and removing the speedometer and the attachments. The greatest damage was done when Mr. Power's machine was mistaken for somebody else's. The police are at work upon the matter and promise to find the guilty parties. Mr. Power is highly incensed and will push the prosecution to the utmost.

Escanaba Business Men's Officers—

President, D. W. A. Cotton; vice president, J. E. Byrnes; secretary, S. M. Matthews; treasurer, Leslie French; directors, Hermann Salinsky, C. M. Thatcher and M. J. Ryan. These are the officers elected by the Escanaba Business Men's association at its annual meeting to serve during the ensuing year. The meeting was held in the city hall and was largely attended and enthusiastic in spirit. Dr. Cotton succeeds J. V. Moran as president. Mr. Byrnes was chosen to succeed E. M. St. Jacques as vice president, Mr. Matthews succeeds himself as secretary and Mr. French is his own successor as treasurer. Messrs. Salinsky, Thatcher and Ryan were re-elected as directors, the holdover directors being F. H. Atkins, J. J. Cleary and W. R. Smith. The election of officers followed the reading of the annual report of Secretary Matthews and Treasurer French and a talk by Retiring President Moran. According to the reports, the association now has an active membership of 133 and a list of fourteen honorary members. During the year there was a net gain of fifteen active members. Nine were lost, two by death and the remainder through other causes. During the year the association expended nearly \$1,000 in its work and now has a balance of \$247.70 in its treasury.

Wedded at Manistique—

Announcement is made of the wedding of Victor Leo Power, youngest son of Hon. and Mrs. John Power of Escanaba, and Miss Perry Garner of Hibbing, Minn. The happy event was solemnized in Manistique at the home of Mr. and Mrs. Virgil H. Hixon, the latter being a sister of the bride. Rev. Father T. J. Shavers, pastor of St. Francis church, Manistique, conducted the marriage service, which was witnessed by only the immediate relatives of the bridal couple. The bride was attended by Miss Blanche Hixon, her niece, as bridesmaid, and Dr. M. R. Power of Hancock, a brother of the bridegroom, officiated as best man. Following the nuptial ceremony, a wedding repast was served and later a reception was held, at which were present all of the

ABOUT NATIONAL EMBLEMS.

Rostand's "Chanteur," in the title role of which Miss Maude Adams is to appear in this country, is an allegory. The cock, the old emblem of the French nation, in this remarkable play perhaps typifies and represents France. Benjamin Franklin opposed the adoption of the eagle as our national bird. He thought a nation's character could be affected by the sort of bird or beast chosen as its totem. He wanted us to choose the turkey, which is characteristically American, because it is native to this continent, social and peaceable, though able and willing to put up a good fight when attacked. The fact that it was useful also appealed to Franklin. Further, a number of countries already had selected the prodigious, self-sustaining and cruel eagle as their emblem. Would it have made any difference in our national spirit if the inoffensive and toothless turkey had been chosen as our national bird? At least it would have been a bit odd as giving on the national emblem such Thanksgiving Day. (Chicago News.)

AN UP-TO-DATE STOVE

Do you realize there is no longer any reason why you should use a coal range? Oil is cheaper than coal; it is lighter and easier to handle, and gives an intense heat. Provided you have the right stove, oil is more economical, cleaner and less trouble. Have you seen the New Perfection Oil Cook-stove WICK BLUE FLAME?

The accompanying illustration gives you only a rough idea of its appearance. You really can't appreciate it until you either use it yourself, or talk to someone who has used it. It does everything that a coal range will do—except heat the room. The New Perfection Oil Cook-stove will do anything from heating a kettle of water to cooking a course dinner, but it won't heat a room. It doesn't "smell," it doesn't smoke. It can't get out of order. Light it and it is ready. Turn it down and it is out. Only a woman who knows the trouble of carrying coal and cooking in a hot kitchen can appreciate what it means to have a clean, perfect stove that will cook anything, boil, bake or roast, and yet won't heat the kitchen. How is it done? The flame is controlled in turquoise-blue enamel chimneys, and directed against the bottom of pot, pan, kettle or oven, and only there. The flame operates exactly where it is needed—and nowhere else. With this stove your kitchen is cool.

The nickel finish with the bright blue of the chimneys makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without four burners. (Chicago News.)

Governor Warner has named April 29 as Arbor day in Michigan.

Mrs. Frank J. Russell and Miss Frances Russell left last evening for Chicago to attend grand opera.

The funeral of the late Mrs. Leon LaPorte will be held at 9 o'clock this morning from St. Peter's cathedral.

The Elks' Hotel at Ontonagon has recently been refurnished and refitted throughout, and is now open for business.

Walter Fish, president of the Chief Consolidated Mining Company, spent yesterday in the city, leaving last evening for Chicago.

Bishop Els will return tomorrow for Rome. He will sail from New York April 23 on the North German Lloyd company's steamer Berlin.

Ira Carley, of Ingalls, and E. C. Anthony, of Negaunee, are in the city attending a meeting of the board of control for the Marquette prison.

There will be a meeting of the Tigers baseball team at the city hall Monday night at 8 o'clock. All members of the team last year are requested to attend.

Mr. and Mrs. Carl Siegel will leave this morning for a business and pleasure trip to Milwaukee, Chicago, Kansas City and other points. They will be gone three or four weeks.

Wm. Daniels and Joseph Rogers will leave today for Buffalo to join the crew of the steamer Wilbert L. Smith. Mr. Daniels is first mate of the vessel and Mr. Rogers will serve as watchman.

Lipsett & Sinclair of this city have secured the contract for the erection of two brick store buildings at Munising. The buildings will be two stories high and will have a combined frontage of sixty-five feet. The contract was let by Sam Marks.

Methodist Church Sale—A sale of rugs, aprons and bakery goods will be conducted at the Methodist church next Thursday, the 21st, beginning at 10 o'clock. The rugs are of the colonial style and arched various patterns and colors. The bakery display will include baked beans, bread, cake and pie. The style and are of various patterns and colors.

Violin Artist at M. E. Church—Alphonse Chappuis, graduate of the Royal Conservatory of Music, Berlin, will play two selections on the violin at the Methodist church Sunday evening at the regular hour of worship. Mr. Chappuis has been playing first violin in the Symphony orchestra at Minneapolis for some time and comes here highly recommended as a soloist.

Epworth League Officers—At a recent business meeting of the Epworth league of the Methodist church, the following officers were elected: President, Miss Marie Anderson; first vice president, Oscar Olson; second vice president, Perry Hatch; third vice president, Florence Barber; fourth vice president, Miss Shanmacher; secretary, Frank Lewis; treasurer, Ruth Montford; pianist, Miriam King.

Night Letters to Canada—Announcement has been made by the managers of the Marquette offices of the Western Union Telegraph company and the Postal Telegraph and Cable company that their respective companies have extended the night letter service to include Canada from this time forward. Night letters can be sent by telegraph over the lines of either of these companies to all points in Canada. It is said that the night letter service is becoming very popular in Marquette, and, in fact, wherever it is in effect.

Bound Over to Circuit Court—James Sharkey, who has just completed a term in jail because of disorderly conduct, was returned to the county jail yesterday by Justice Byrne on a much more serious charge, which he will have to square with Judge Chappuis at the next term of circuit court. Sharkey is charged with a statutory offense alleged to have been committed upon his niece. The alleged offense is said to have been committed in Powell township several years ago, but it is only recent that the offended girl's mother learned of it.

Few Large Buildings—One close to the under current in the building trades stated yesterday that he did not expect to see many large buildings put up this year. Plans for a number of manufacturing and mercantile structures have been drawn, but the report that lumber and other building material was soon to rise in price has had a dampening effect. Dealers in building material report that there is a big demand for lumber for residences and that a large number of new houses will be constructed during the summer. Work on the Longyear & Hodge factory at the foot of Ohio street is progressing rapidly and the LaBonte and Bureau blocks are being rushed toward completion.

Spring Trade Excellent—Marquette merchants generally report a better early spring trade than for several years past. This is partly due to the very early season, which is always a business producer, and partly to the fact that the working men are more generally employed than in the last few seasons. During the dull times, many families had to economize and, in many cases, run in debt for necessities. With improved trade conditions last year, it took several months for these people to square those old accounts, and it is only this spring that the merchants have been getting their normal amount of trade. With every indication that this will be the busiest summer ever known in the ore trade, business prospects in Marquette are very bright for the coming summer and fall.

Northern Normal Notes.

President Kaye is attending the Cheboygan Teachers' association and will give several addresses at the meetings held today.

All classes offered in the domestic science department this quarter are filled. The work is well started and the courses seem very popular.

The Latin club held its regular meeting Tuesday evening. This quarter the club is making a special study of Bulwer Lytton's "Last Days of Pompeii."

The Western Journal of Education for March 1910 contains a very interesting and instructive article, "State Industrial Education in Massachusetts," by John E. Laurion of the Normal faculty.

The members of the senior class are hard at work on their Annual. As this will be the first Normal class to publish an Annual, they are very anxious that it may prove a successful venture.

Work on the opera "The Bohemian Girl" to be given commencement week under the auspices of the senior class, is well under way. The principals and choruses are all much interested and the opera promises to be a success.

Tuesday afternoon at Faculty club, Miss Melnich gave an excellent paper on school programs. The program and schedules of several of the foremost colleges and Normal schools were discussed with a view to making up an ideal or model program.

A recital is to be given in the near future at the Normal by the students in Mrs. Rushmore's department of expression. Two of the students have made original abridgments and original dramatizations of the works of Tarkington's "Monsieur Beaucaire" and Myrtle Reed's "A Spinner in the Sun."

Reverend Dr. William Byron Forbush of Detroit, who is an exceptionally fine orator, will deliver the commencement address in June. Dr. Forbush is a great student, lecturer and writer about boys and boys' problems. He is the originator of the society for boys—the Knights of King Arthur.

The following students were graduated from the life certificate course at the close of the winter quarter: Marguerite Barnes, Alphonse Carlson and Grace Doetsch, Marquette; Sarah Gubler, Norway; Laura Higgins, Iron Mountain; Flora Pearce and Emma Lachapelle, Crystal Falls; Olga Gottie, Ishpeming; Alice Stegath, Escanaba.

Thursday morning at chapel, Dr. Faught related some of his interesting experiences in Indianapolis during his visit there last December. He then told about his southern trip, describing many scenes of historic interest and relating several entertaining experiences of a personal nature. Dr. Faught and family spent most of the winter months in St. Andrews, Florida.

"Little Journeys Near Home" was the subject of an interesting talk given at chapel hour Tuesday morning by Dr. Downing. The talk was illustrated by stereoscopic views of a great many beautiful places and scenes in the vicinity of Marquette, a number of which are familiar to us all, but a greater number of which are known only to the nature lover.

The two literary societies will hold the preliminaries for the Kaufman oratorical contest next week; Ygdrasil, Tuesday evening at 8 o'clock, and Osiris, Wednesday evening at 8. There will be four representatives from each society. In each case, the meetings on Tuesday and Wednesday will be closed to all except members of the society holding the contest, and faculty members. Besides the orations several musical numbers will be given.

Oquir Literary society held its first regular meeting of the quarter Monday evening, April 12th. Miss Eva Watt, president, gave an excellent talk, which was followed by the program:

Reading, "Drifted Out to Sea"..... Miss Emily Wood.

Violin solo..... Alex Finlay.

Reading, "When Hilda Speaks Her Beau"..... Miss Ethel Thornton.

Piano solo..... Miss Alpha Carlson.

Reading, "Sam's Letter"..... Miss Eva Watt.

Dr. Faught and Mr. Parker both addressed the society. Dr. Faught giving a brief sketch of his southern trip.

Mrs. Rushmore of the department of expression gave a number of readings in several of the southern cities during her absence last quarter, her principal readings being Long's "Madame Butterfly" and Stephen Phillips' "Hered." She read in Nashville, Murfreesborough, Chattanooga, and Macon, Georgia, on her way south, going back for return engagements to each of these places later. Besides she gave several readings in Chicago. Wherever she read she was received with enthusiasm, and the newspaper comments speak in the highest terms of Mrs. Rushmore's ability as a dramatic artist. Mrs. Rushmore is to give a reading in the James Millikin University at DeCATUR, Illinois, very soon.

A regular side-splitter.

The Voice from the Fire-Place.

A strong dramatic subject, taken from Maupassant's story of "The Log."

THEATRICAL

The story of Frederic Thompson's "Polly of the Circus," with Fay Wallace in the leading role, which comes to the opera house Monday night, relates the love of Polly, the pet of the circus, who, having suffered a severe injury in a fall from her horse, is carried into the parsonage adjacent to the circus lot. There follows her to the parsonage, much to the disgust of several parsonages, the old clown, Toly, and "Big Jim," the boss canvasser of the show. They have been the self-appointed guardians of the girl ever since her babyhood, when her mother, herself a bareback rider, died. They leave her to the kind care of the parson and go their way. Polly recovers in due time and soon, under the careful tutelage of the young minister, forgets her slang of the dressing room and road, and becomes a ray of sunshine to the lonely pastor and the children of the flock. The story is followed out logically and simply. The cast is a capable one and the scenic equipment is elaborate and novel. The production played for one solid year at the Liberty theater, New York. One of the features of the play is the realistic circus scenes. Among them is shown a miniature circus caravan disappearing in the distance; the second scene of the fourth act, showing a circus in full swing, with the trained ponies, dogs and horses, clowns and acrobats, bareback riders and all the necessities of the white tops.

GEORGE P. BROWN, Attorney-at-Law.

CITY HALL, MARQUETTE, MICH. 7-26-14

STATE OF MICHIGAN, the Probate Court for the County of Marquette. At a session of said court, held at the probate office in the city of Marquette, in said county, on the twenty-fifth day of March, A. D. 1910.

Present, Hon. W. T. POTTER, Judge of Probate.

In the matter of the estate of Emil Muhonen, deceased.

Johanna Muhonen, having filed in said court her petition, praying that the administration of said estate be granted to Matt Lampinen, or to some other suitable person, it is ordered, that the eighteenth day of April, A. D. 1910, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order, one each week, for three successive weeks previous to said day of hearing, in The Daily Mining Journal, a newspaper printed and circulated in said county. A true copy. W. T. POTTER, Judge of Probate.

ELLA M. TINKENELLA, Probate Clerk.

D. H. O'BRIEN, Attorney for Petitioner. Business Address: Laurium, Michigan. (3-26-10)

THE TRUTH OF BANKING

Many people have a misconception of a Bank and a bank's usefulness.

To those who have not cultivated the habits of Thrift and Saving, the notion of a bank is that it is a Rich Man's convenience, or that it is merely a creation and necessary adjunct of commercialism.

More money is on deposit with banks throughout the United States belonging to salaried people as Savings Deposits, than is on deposit in all the banks belonging to manufacturing and business institutions.

It is the Savings Deposits that make up the real wealth of the country.

It is the Saver that makes the wealthy and successful man of the future.

And it is the bank that is the best educator, encourager, backer and guarantor of the Saver.

A Bank that looks after its Savings Depositors, placing every convenience and safeguard around them, makes success for itself and its depositors.

M'VEAGH KEEPS AWAY FROM WALL STREET.

Secretary of the Treasury Has Not Been Subject to New York Influences in His Policies.

New York, April 15.—Should it be found to have been an accurate forecast which contained the intimation that the secretary of the treasury, Mr. MacVeagh, is disposed to retire to private life, then the inference will be strong that the secretary of the treasury was one of the cabinet officers whom certain good friends of the president, at some time in the early winter, had in mind when they ventured to suggest to President Taft that it might be expedient for him to reconstitute his cabinet, if that could be done conveniently.

Mr. MacVeagh has been esteemed in this city as a fairly successful administrator of the treasury department, although his administration has been not of a highly constructive nature, but very conservative. He received the treasury department when it was in exceptionally good condition, leaving out of consideration the fact that there was an apparent, if not a real deficit, in large measure caused by the use of current funds to pay expenses which should have been provided for in the years and been cared for by the issue of government obligations.

Secretary MacVeagh has conspicuously absented himself from New York, at least has made very few visits to the city for the purpose of obtaining information and receiving counsel with respect to certain features of treasury department administration. In this respect he has differed from most of his recent predecessors, Mr. Cortelyou did not disdain the counsels of the able men of the Wall street district, especially at the time of the currency panic of 1907. Secretary Shaw and McKinley's first secretary of the treasury, Mr. Gage, used frequently to visit New York, so that they might get in touch with the great influence that handles foreign exchange, that have to do with the larger importations, and that are familiar with the fundamental principles upon which skillful and honorable financing is based. It should be said, however, that Secretary Shaw's extraordinary administration of the treasury department in 1905-6, involving as it did very highly artificial book-keeping, which made it possible to remove the discrimination commanded by law between receipts at the custom house and receipts at the internal revenue office, was exclusively his constructive work.

WILD PIGEON DISAPPEARS.

No More Big Flocks Left in Michigan Former Habitat.

One of the greatest ornithological mysteries, and one that has never been solved, is the disappearance of the wild pigeon of North America. Michigan figured conspicuously in this nesting bird tragedy, because it was the nesting place of the pigeons and it was in that state that the last great flock was seen, passing suddenly and completely out of sight of man, and only existing in memory.

The most noted migration in Michigan was the great flight of 1878. Late one afternoon on a dismal March day the pigeons began to arrive near Petoskey. The bird came in two bodies, one direct from the south by land, and the other following the east coast of Wisconsin until they reached the Manitowish islands, when this great army of birds changed its course and flew straight across Lake Michigan. This latter body came in from the lake just before dark. Those persons who saw it say that it was a compact mass fully six miles long and two miles wide. The first flock to arrive in the woods near Petoskey was almost as large.

The last big flock came to Petoskey in the spring of 1888. A few isolated pairs stopped to nest in that section, but the great body crossed the Straits of Mackinac and disappeared in the wilds of Canada. This was a great disappointment to the old-time settlers, who, concluding that the birds had returned to their old haunts, got out their nets and made preparation for their slaughter. The pigeons never returned. The disappearance of this last great flock marked the passing of the pigeon—New York Herald.

Healed cured in 30 minutes by Woolford's Sanitary Lotion. Never fails. Sold by Louis Penhill, Druggist. (10-16-6m)

EARNING A BIG SALARY.

How does a high salaried man earn his pay? Some time ago Frank Hedley, the general manager of the Interborough, was waiting on a subway station platform, says System. A train drew in with the power on, reached the stop signal and came to a sudden halt, jolting the passengers and straining the machinery. The incident gave him an idea. He went to a manufacturer of time clocks and gave an order for an experimental timepiece that would record elapsed time during which electric power was being used by the Interborough train.

The manufacturer in due time produced a small device that could be attached to the mechanism in the motor-man's box in such a way that the power could be turned on only after the time clock had been unlocked by the motor-man's special key and the clock set in operation. When the power was shut off the clock would record the exact moment. By this means the exact number of hours, minutes and seconds during which the train consumed electric current was automatically recorded and a special device printed the total elapsed time during the day's run.

The device was attached to the motor-man's control boxes in all the trains on one line and experimented with for a month. Instructions were issued to the motor-men to coast into the stations by turning off the power as far

distant from the stopping place as possible and come to a gradual halt after running some rods by the force of momentum. Rewards were offered to the men whose records showed the most economical use of electric power.

At the end of the month the engineer of the line reported a reduction of over 15 per cent in the power consumed. The individual records of the men showed a reduction ranging from 10 per cent to 40 per cent over the amount of power used previously. Time clocks have been ordered for the other Interborough lines. It may be assumed that the same saving in power will be effected. The Interborough's annual coal bill for producing electric current is \$2,800,000. A saving of 15 per cent means a saving of \$294,000 a year on this item alone to say nothing of the saving on wear and tear of machinery. The sum is considerably larger than Frank Hedley's salary.

In proportion to its owner's weight, a bird's wing is twenty times as strong as a man's arm.

MAYOR M'CORKINDALE TALKS TO SALOON MEN

CITY'S EXECUTIVE TOLD THE LIQUOR DEALERS YESTERDAY THAT THEY MUST OBEY THE LAW TO THE LETTER.

Mayor McCorkindale had a heart-to-heart talk with the liquor dealers of the city yesterday afternoon. It was a cool-headed, business-like discussion of the important provisions of the law affecting them. All of the saloon keepers, with the exception of one, and the local representatives of the breweries were present.

Mr. McCorkindale did not mince matters. He talked straight from the shoulder and it was evident that the saloon men were satisfied that he meant just what he said. He remarked that he had promised during the campaign that if he was elected the law would be strictly enforced, whether the saloons were voted out of business or not, and he declared that when he made that statement he meant it, and that he now intends to keep his word.

The mayor called particular attention to the provisions of the law relating to the sale of intoxicating liquors to minors and habitual drunkards, also to the provisions relating to the closing hours on Sundays, holidays and nights. He said that as he interprets the law all screens, or other obstructions between bars and windows must be removed; also that in places where liquor is served on tables, the latter must be in full view from the windows. He said that there was perhaps not a saloon keeper in the city who did not know nearly every man in

Ishpeming who is in the habit of getting drunk, and whom they should not sell liquor to. He also warned them against selling liquor to men who were in an intoxicated condition, and he laid particular stress on the fact that liquor must not be sold to minors. He also remarked that a saloon keeper is liable for any game of chance or sales of liquors that may be carried on in any room in the building where he conducts his business. He said that if a room is rented by the owner of the building occupied by a saloon man to a person conducting a card, dice or other game in rooms separated from the saloon proper, the dealer is liable for the violation.

Mayor McCorkindale asked the saloon men to discuss the matter freely, and said he would answer any question to the best of his ability. He said that ignorance of the law will not excuse any dealer who violates it. Many of the saloon keepers, he asserted, had expressed a de-

sire to have the law strictly enforced. Some of them had told him that they kept open on Sundays and holidays because others in the business did so.

One of the saloon men called attention to the fact that liquor can be procured in drug stores and restaurants. The mayor thanked him for bringing up that point. He said that there will be no "blind pig" business in restaurants and that if the druggists of the city retail liquor except for medicinal purposes, they will have to secure a liquor license, the same as the saloon men.

One of the dealers suggested to the mayor that he ask all present who intend to obey the law in the future to stand up as evidence of their good faith. The mayor said that he would be pleased to have the dealers respond in that way, and every one of them came to their feet. Mr. McCorkindale thanked them for their presence and he stated that he had issued a call for the police officers to meet him at the conclusion of the meeting, so that he could tell them what their duties are relative to the enforcement of the liquor law. He said that every officer will be expected to secure evidence of violations and make their complaints to the prosecuting attorney.

The Continental Tailoring Co. of Chicago will have a representative at our store today, tomorrow and Saturday. He will show over 500 fabrics. Men's Suits made to measure. (4-14-3d) F. BRAASTAD & CO.

BIDS FOR BRIDGE CONTRACT.

Bids will be accepted at the Richmond township clerk's office until the 11th of May. Bridge is to be filled in with gravel. The bridge is at the Belairie Gate, half way between Negaunee and Palmer. MATTI HOLMI, Richmond Township Clerk. (4-16-3d)

PUTTING IN EXTRA TRACK.

Railway Company Is Removing Part of Old Lake Superior Rock Dump.

Work preliminary to the starting of the construction of the Lake Superior & Ishpeming Railway company's North Lake branch has been started. A station shovel and crew are employed cutting away the northern end of the old Lake Superior rock dump, in order to make room for a temporary track that will be used while the main line is being raised and connected with the structures that are to be built over the Chicago & North Western and South Shore tracks, also West Division street.

The removal of the dirt from the dump will be a more expensive job than the management of the railway anticipated, as it is solidly frozen, and it is necessary to dig down. The dump is the oldest in the city, it having been accumulated nearly fifty years ago, when the Lake Superior Hard Ore properties were worked as open pits. The dump is the largest in the county in spite of the fact that thousands of tons of material have been removed from it from time to time for building purposes. When the Lake Superior & Ishpeming Railway company's line was extended around the north side of the dump a considerable quantity of the dirt was hauled away and used for filling. The pile is nearly forty feet in height at the point where the shovel is now working.

It will perhaps be late in the season before the North Lake branch is completed, as the line will be in the neighborhood of four miles long and the construction work will be difficult at several points along the route. The present main line will be brought up on a gradual incline from a point near Pine street leading to the overhead structures.

Young men's graduation suits made to measure. A factory expert will be at our store today. Over 500 fabrics will be on display. (4-14-3d) F. BRAASTAD & CO.

First-class piano tuning done by M. J. Olson. County 'phone, No. 520. 400 East Ridge street. (1-12-11)

STILL UP IN THE AIR.

Baseball league matters are still unsettled, but the managements of the Ishpeming and Negaunee teams expect to enter into a satisfactory playing agreement with the Crystal Falls and Iron Mountain lines. Ishpeming people are showing considerable interest in the game to be played tomorrow between the Negaunee and Ishpeming teams, and there will be a large attendance, if the weather is favorable. Harry Whitman, the new short stop, will not be in the game as expected. His father was taken seriously ill at Hurley, Wis., early in the week and he has advised the management that he could not get here. The game Sunday will start at 2:30 and the admission will be twenty-five cents.

Men's suits made to measure. Special display of 500 new fabrics today. A factory expert in charge. (4-14-3d) F. BRAASTAD & CO.

SCHOOL OF MUSIC.

Piano, violin and thorough harmony course. Ernest E. Collins, Guild Hall School of Music, London, Alphonse Chapuis, Royal Academy of Music, Berlin. Terms reasonable. Quayle block, 217 South Main street. (3-30-2tw)

GREAT AGE OF HALLEY'S COMET.

While Halley's comet has been identified as a member of our system for over 2,000 years, certain characteristics of its orbit lead us to believe that it has been with us at least ten or perhaps one hundred times as long as that. According to all accounts, it was a magnified object at the time of the Norman conquest in 1066. Its head was equal to the full moon in size and its tail increased to a wonderful length.—William H. Pickering in the Century.

WORSE THAN BULLETS.

SPRING DAYS TURN A MAN'S THOUGHTS TO SERGE SUITS

Especially if they are the decidedly warm Spring days like some we have had of late. Serge still stands at the top of the list for cool, comfortable, stylish clothes for men and this store stands at the top of the list for Serge Suits. Few clothing stores show a full assortment of Men's Serge Suits before May. We are ready in April, and today our assortment is high. A vast variety of fancy serges now are mostly self-striped. The effect is one of dignity, relieved with just enough of the life and dash to make them decidedly popular. We guarantee our serges all wool and fast color. Colors, plain blue and black and fancy effects.

Prices: \$13, \$15, \$20, \$27.50.

If you cannot pay cash we will arrange terms to suit.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown.

If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines when medicines are not needed, and when nature requires assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs and Elixir of Senna.

Taft's Economy Plans ARE LIKELY TO FAIL. 'Pork Barrel' Bills in Congress Probably Will Send the Appropriations for the Session Above the Billion-Dollar Mark—Treasury Watch Dogs Are Beginning to Worry.

Washington, April 15.—Economy advocates in congress are sounding a new alarm. The appropriations for the session are mounting high, towering to ward the billion-dollar mark, and practically demonstrating that all the nicely laid plans for preventing extravagance might as well not have been.

The two "pork barrel" bills are capping the climax, to say nothing of hundreds of claims against the government, which are piling up daily in a formidable aggregate.

The talk now is of a bill carrying \$12,000,000. The wise men around the Capitol say a bill for \$20,000,000 is indispensable to their program. For the larger sum they can frame a measure which will satisfy everybody and thus forestall the possibility of defeat.

PURELY VEGETABLE advertisement with an image of a plant and text describing its medicinal benefits.

MARKETS

WALL STREET STOCKS.

New York, April 15.—Paine, Webber & Co., says of today's stock market: "London turned quite a seller of stocks during the late forenoon, but no significance was attached to it.

Table of Boston Quotations with columns for various stocks like Boston, Lowell, and others.

The closing prices were: Adm. 7 1/8, Beale 3 1/8, Arc. 6 1/2, Bob. 11 1/2, All. 49 50, C. Cons. 106 1/2.

Table of the number of shares sold during the day, listing various stocks and their respective share counts.

Chicago Wheat Market. Chicago, April 15.—The prices of wheat were erratic today, but the market closed at a slight advance.

Paine, Webber & Co's Wheat Letter. Chicago, April 15.—It was a sort of wheat battle in wheat today.

NEW YORK COTTON MARKET. New York, April 15.—As long as the summer months are held tightly at the premium they are carrying, there will be little decline in the far positions until an abnormal crop is put on the market.

SOME DOCTORS PAID TO TRAVEL.

Many Who Cross the Ocean With Their Patients, Turning a Pleasant Trip Into a Source of Revenue as Well.

Anybody who crosses the ocean much is apt to be a doctor, and the number of doctors on the passenger lists. Some of them are wealthy practitioners who are going over to take a "cure" themselves, or to attend a convention, or perhaps merely to find recreation.

A few days ago there came back from Europe an American physician who has become such a great traveler that an acquaintance asked him how he could manage to cross the ocean so much and keep up his practice.

"To tell the truth, I practice as I go," he answered. "I have a small regular income just enough to keep me going in a sort of Bohemian way, and not only does my traveling not cost me a cent, but I make good money out of it.

"You see there are many wealthy persons who are afraid of a long trip. They do not know they will catch some infectious disease, or when they may get up against food that is not exactly what it ought to be and if they can afford it they decide that it would be an excellent thing to take along with them a doctor who may know them and their constitution.

At Marquette, Mich., Nov. 3, 1909. A regular session of the Park, Cemetery and Street Commission was called to order at 3:30 p. m., by the president, Commissioner E. J. Sisk.

On motion of Commissioner Powell, supported by Commissioner Kremer, and carried, that the secretary be directed to order of Roger Tansy, amounting to \$74.67, for construction of sewer in Arch street.

UNCLE SAM STARTS COUNT OF PEOPLE

CENSUS ENUMERATORS IN MARQUETTE AND ELSEWHERE BEGAN WORK YESTERDAY.

MOST COMPLETE EVER TAKEN

Thirty-Two Questions Asked of Every Person and Compiled Answers Will Give Much Valuable Information.

An army of census enumerators yesterday began the work of counting the population of the United States. The count was scheduled to begin in every city, village and hamlet in the country yesterday, though it is likely that comparatively few names were taken, owing to unavoidable delays attendant to entering upon any stupendous task. The work must be completed in the urban districts May 1, but in the rural districts, where a larger number of questions must be answered, the enumerators are given until May 15 to finish their task. These enumerators are authorized by law to ask many seemingly impertinent questions, and deserve obliging and respectful treatment from the public. The enumerators in Marquette are: David Carlson, first ward; Joseph Hogan, second ward; Rose Patonade, third ward; W. C. Jellison, fourth ward; Mary Doolley, fifth ward. The taking of the census in this county will be supervised by Wm. Verran of Negaunee, and the work in the whole Twelfth congressional district is being done under the direction of James T. Bennett of De Tour.

The taking of the population census is separate and distinct from the industrial census, which is also being taken throughout the country. The agents employed in taking the industrial census visit each factory, mill, mine or quarry, and every other establishment where manufacturing is carried on, and secure an exhaustive report as to the nature and extent of the industry. This is a much longer task than the counting of the people is expected to be, and will not be completed in all parts of the country until late in the year. The industrial census takers are now at work in the upper peninsula.

More Complete Than Heretofore.

The constitution directs that a census be taken every ten years to determine how many men each state may send to the house of representatives. And in early times this was the extent of the census—merely a count of heads. But now the tallying has a much broader worth. This year each man, woman and child in the land will be asked thirty-two questions. It is the most complete census ever attempted by this or any other country. The figures compiled from the totals of thirty-two answers will be of the highest importance to all of us. Legislation of various sorts may be expected to follow.

For instance each person will be required to tell his correct age under penalty of \$100 fine. In another column he will tell whether he is employed or not. So a child of eleven years may say in another column that he is employed. Thus would be shown a violation of the child labor laws.

Of course, information given the census enumerators will be held in strictest confidence, and no prosecutions of any sort can follow the giving of census information. But, for the first time in history, we are going to get accurate information as to the numbers of children employed by American manufacturers.

As a result of this census we will know whether there is an exodus from or to the farm, we will understand American labor conditions better than ever before, we will probably receive interesting sidelight upon the high cost of living. Great care is being taken to make this census, the thirtieth in our history, the most complete and accurate. It is the first time the human machinery for the count was not chosen politically. This time employment in the service has depended upon one's ability to pass the test examinations.

This year the census totals will be found by census machines, designed and patented by men in the census office. The machines are expected to revolutionize the work. One machine is built like

a typewriter with 240 keys. Each key is a symbol, instead of a letter, and a touch of the key punches a hole of special shape in a card. With these machines the whole census will be reduced to a card index system. With a machine one clerk can punch 3,000 cards a day. There are 300 of these machines ready to begin on the 90,000,000 cards. From the punching machines the cards will go to electric tabulating machines. Pins, passing through the required holes, will make electric connections, printing the tabulations on tape such as comes from a stock ticker. Hundreds of power adding machines will assist to complete and total the big count.

JOY FOR THE FANS.

First Real Baseball Game of the Season Will Be Played Sunday.

Baseball fans of this city will have their first opportunity this season of seeing the regular Marquette team in action at the fair grounds Sunday afternoon, with the Republic nine as the opposing aggregation of ball tossers. For two Sundays past, practice games have been played between the first and second nines, but as the ranks of both nines were filled in with substitutes, neither contest represented the real fighting strength of the two teams.

The game tomorrow will be something different, as the players in the line-up will be those with whom the directors expect to start the regular season. The line-up given out is as follows: Linder, pitcher; Richardson, catcher; Wing, first base; Hamilton, second base; Young, short stop; Eddy, third base; Riopelle, left field; Jeanson, center field; Weiser, right field. It is possible that the team will practice this afternoon in preparation for Sunday's battle.

BIG SECOND NIGHT CROWD.

Guild Hall Thronged With People at Carnival Last Evening.

A crowd nearly twice as large as that which attended the Guild Hall carnival and circus on the opening evening was on hand last night to enjoy and take part in the revelry of fun and merry making. The crowd imbued more of the carnival spirit than Thursday evening and confetti throwing, kazoo, squawking, peanuts, pop corn and all other circus necessities were freely purchased and indulged in by everybody. The result was that everybody had a good time and the carnival last night was successful beyond the most sanguine expectations of the committees that have had it in charge.

The parade traversed the downtown streets at 7 o'clock last evening, and on Thursday night, and again the streets were lined with people to witness the unique spectacle. The program at the Guild Hall was much the same as given on the preceding evening, but it went off more smoothly and with more snap and ginger than on the opening night. The barkers for the side shows succeeded in making more noise and these features were better patronized. Though there are many chances to spend money at the carnival, as one man put it yesterday there were no fakes, and everybody got his money's worth.

The last carnival performance will be given this evening and it is hoped that the attendance will be even larger than on the two nights that have preceded.

We have a small lot of odds and ends in all our laces and embroideries that we wish to clean up—a snap for any one wishing anything in this line. J. H. FOSTER CO. (4-16-1d)

NOTICE.

R. J. Darow has been appointed walking delegate for the Carpenters' union and will look after its business in this city. (4-16-1w)

SOO CANAL PASSAGES.

List of Boats That Have Passed the Locks, Bound for Superior Ports.

Sault Ste. Marie, April 15.—The following boats, up-bound, have passed through the locks, bound for ports on Lake Superior: Chippis, 9:30 a. m.; Augustus, 4:30 p. m.; Siemens, 7.

We dislike very much to make comparisons. Suppose we don't! Suppose we leave that to you! Come in and see our new line of shirt waists, then make your own comparisons. J. H. FOSTER CO. (4-16-1d)

FIVE ACCUSED OF LAW VIOLATION

WARRANTS SERVED AGAINST TWO SALOON KEEPERS, TWO RESTAURANT MEN AND ONE BARTENDER YESTERDAY.

Further results of the visit of two plain clothes men to this city, brought here at private expense to ascertain whether the liquor laws were being obeyed, came to light yesterday, when five warrants, three against saloon men and two against restaurant keepers were served. The complaints in every case were signed by Rev. J. M. Rogers, of the police commission, but it is generally understood that the evidence for all the complaints was obtained by the plain clothes men. These men are now out of the city but it is stated that they can be produced on short notice whenever their testimony is needed.

The warrants served yesterday were as follows: Angus Crossman, the Washington street restaurant keeper, selling beer without a license April 8; Thomas Horn, the Baraga avenue restaurant keeper, selling beer without a license on April 8; Peter Rasmussen, selling liquor after 11 o'clock Saturday night, April 9; John McMillan, violating Sunday closing law on April 10, and James Charlesworth, selling liquor to a minor on Sunday, April 10. The last charge is made against Mr. McMillan's bartender, so that in reality there are two charges against the Washington street saloon man.

All of these parties appeared before Justice Cray yesterday, entered pleas of not guilty and were placed under a \$200 bond, pending a preliminary hearing on Monday, next. It is not probable that the cases will be tried on that date, though disposition of them may be made at that time.

It is authoritatively stated that eight additional complaints for liquor law violation have been filed with Justice Cray. These complaints have not been served, and it is possible that they will not be served, provided the accused parties show a disposition to observe the spirit and letter of the law in the future. They are to be held in abeyance, however, and will be served whenever the parties holding the key to the situation decide it good policy to take such action.

Special train from Marquette to fair grounds, via South Shore railway, Sunday, April 17, leaving South Shore station at 2:15 p. m., and returning after the Marquette-Republic game. Round trip fare, fifteen cents. (4-16-1d)

A new line of shirtwaists just received at Foster's and put on sale today. (4-16-1d)

CONVENTION AT MARQUETTE.

Meeting of Upper Peninsula Modern Macabees of the World.

The members of the different lodges of the Macabees of the World are now making plans for an upper peninsula convention, which will be held in Marquette July 28 and 29. Nearly a score of lodges have been instituted in the upper peninsula and the coming convention will be the first gathering of the order north of the straits.

The Sir Knights and Ladies' lodges of this city, who are to be the hosts and hostesses, are taking active interest in the convention and are endeavoring to arrange an interesting program. Large delegations from each branch lodge of the order in the upper peninsula are expected to be in attendance, and programs of entertainment and business meetings are being arranged. It is planned to make the first Northern Michigan convention something that will long be remembered. A number of the supreme and state officers of both societies have promised to be in attendance.

Some specials in wash goods on sale at Foster's today. (4-16-1d)

SUNDAY AT THE CHURCHES.

First Church of Christ, Scientist—Services will be held at the First church of Christ, Scientist, Opera House block, Sunday at 10:30. The subject of the lesson is "Doctrine of Atonement."

Methodist Church—There will be an Epworth league anniversary service Sunday evening. The full choir will sing at both morning and evening services.

House cleaning time is at hand. Get your orders in early for the Vacuum Wagon or Electric sweeper. Call J. H. Sanders, Bell Phone 650. (3-23-1f)
