

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per month, by carrier, \$1.00; Per year, by mail, \$10.00.

MARQUETTE, MICH., APRIL 22

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

The senate "old guard" will have to open a recruiting station.

The point of view: Lucky twenty-one—"Fine."

Unlucky thirty-three—"Rotten"—Soo News.

Barring the difference that Hale is afraid of the cars and Aldrich isn't, there are many points of resemblance between the retirement of the senator from Rhode Island and the senator from Maine.

To the suggestion that his withdrawal from public life would be a natural sequence to the retirement of Senators Aldrich and Hale, Speaker Cannon replies that he is good for at least twenty-five years yet.

The socialists in Milwaukee will put an eight hour schedule in effect for all city work. The rule will work both ways. City hall employes who have been putting in six hours daily will be expected to give two hours more to their work for the same old salaries.

May 7 the voters will decide whether or not they will give the board of fire and water commissioners authority to issue \$75,000 of bonds, to be used in carrying out the intake extension project. The board believes it is the proper thing to do, and desires to undertake the work with as little delay as possible.

Mr. William Randolph Hearst's unqualified endorsement of President Taft will raise the query, is Hearst turning Republican. He makes it clear, however, that he is not, in any event, turning Roosevelt Republican. He evidently has had no truck with the "return from Elba" club.

The board of fire and water commissioners is sparing no effort to take the public fully into its confidence with regard to the plans for the improvement of the water supply. The public should show its appreciation by thoroughly familiarizing itself with the situation, as outlined in the commissioners' report, so that it will be able to act intelligently on the plans it is asked to pass on.

Samuel Gompers, president of the Federation of Labor, had his finger in the pie in the Thirty-second New York congressional district. He united with other labor leaders in a pronouncement favoring the election of the Democrat, Havens. It may have helped somewhat to swell the vote for Havens, but the tide was already running strongly to him, and he would have been successful even without formal endorsement by Gompers and his labor associates. The Republican candidate, Aldridge, was the principal reason for Havens' success.

Governor Harmon of Ohio has before him for his signature a bill permitting Sunday baseball in Ohio, wherever the voters of a given locality desire it. At a hearing this week it was vigorously opposed by a delegation of ministers, but Governor Harmon intends to sign it. He should. Local option on Sunday baseball will permit those communities that want it to have it, and those that do not can reject it. There are lots of worse things than Sunday baseball crying out for correction. Baseball is a healthy and manly sport, untainted by betting or any other bad feature, whether played on week days or Sundays, and is much to be preferred to many Sunday amusements that are permitted without question. Sunday affords a large percentage of the devotees of the game about their only opportunity of seeing it. The approval of the Ohio bill by Governor Harmon will assure Sunday baseball for Cleveland.

The Marquette county baseball managements have finally succeeded in reconciling their differences, and it is now assured that the Marquette, Negaunee and Ishpeming teams will play a league schedule through the coming summer, with Crystal Falls probably the fourth contestant. The reaching of the agreement will give much satisfaction to the people of the three cities, who have been but little concerned with the disputes of the managements, but have been insistent on the wisdom of the teams getting together. A league including Crystal Falls instead of Munising should be productive of better games than were played last season, for it is probable that Crystal Falls will put out a stronger team and give it better support than was the case with Munising last year. The completion of the ar-

rangements for the league season should progress rapidly, and now that the points of difference have been settled the relations of the teams should be harmonious throughout the season.

Deputy Game Warden Hogan says the people get an erroneous idea that the game wardens are inactive, because it is the rule of the department not to publish reports of arrests and successful prosecutions. If such a rule is in existence, it is a stupid one, and should be reversed in favor of a policy of full publicity. Knowledge gained through the press that the game wardens are abroad, vigilantly hunting for violators, and that infractions of the law have in many cases been followed by the infliction of fines and other penalties, would be a great deterrent of offenses of that description. The game warden's department would be better understood if it took the public into its confidence about its aims and work, and would receive more co-operation in the enforcement of the law. Its record is not so transcendently good that it can afford to hide its light, whenever it shines, under a bushel. Arrests and convictions for violations of the game laws are matters of news the public is entitled to know about and they should be given to the papers freely by all deputy game wardens. As a matter of fact we believe they usually are, and that absence of such news in most cases simply argues that there are no arrests and convictions.

Discussing the election of Havens, the Democrat, in the Thirty-second New York district, the Milwaukee Free Press says: "Aldridge stood for everything, both in ideals and methods, against which Governor Hughes and the progressive Republicans and Democrats of New York have been battling for many years past, and his nomination by the Republican convention in Rochester was an eloquent evidence of the stupidity and stubbornness of the old machine in the Monroe district. With a record tainted by scandal, with not so much as a pretense of sympathy with the new ideals of public almost sublime relied solely on the strength of his organization built up on patronage and corporation service. He was overwhelmingly defeated, as he deserved to be, and that defeat is less a matter of encouragement to the Democratic party than it is a warning to the Republican party. Had the Republican candidate been a recognized representative of the Hughes brand of Republicanism, an exponent of the new political ideals of his party, the Thirty-second district of New York would not have sent a Democrat to congress. For James S. Havens, worthy and capable as he undoubtedly is, is an old-line Democrat of a species that does not plumb with the advanced political thought of the times."

Attorney General Denman, of Ohio, has advised the secretary of the state board of health that, in his opinion, it is within the province of the local boards of health to require that sufferers from tuberculosis in an advanced stage shall give up their employment, when their continuance in it menaces the health of other employes. The opinion is based on the case of a cutter in a glove and shirt factory. He is a sufferer from tuberculosis in an advanced stage, and the female employes in the factory objected to his continuance in his position because their health was menaced. The issue raised, what is to be done with tuberculosis victims deprived of means of livelihood if this opinion is upheld and generally acted on? All of them need their daily wages for self-support or the care of families. The attorney general's opinion brings out the suggestion that such persons ought to be taken care of by the localities, as there is ample law for the construction of tuberculosis hospitals by the counties. This is true enough, but the fact remains that there are few, if any, of these county hospitals in Ohio and the state has not made ample provision for caring for this class of sufferers. Their dilemma, if they are compelled to give up their employment, will be a cruel one. At the same time it is manifestly wrong to permit the danger of healthy persons being contaminated with this dread disease. The tuberculosis problem, in all its phases, is far the most serious that the health authorities throughout the country have to wrestle with.

SOME POINTS OBSCURE.

In the opinion of H. W. Nebel, a member of the board of fire and water commissioners who presented the minority report favoring the establishment of the city pumping station at Presque Isle, instead of an extension of the intake at the present pumping station, the estimates of the Duluth Engineering company on the former project are too high. He believes that \$37,185 can be saved on the figure given by the Duluth engineers, \$205,137, giving an actual cost of \$167,952.

Mr. Nebel's minority report is somewhat perplexing. The majority report, in which the estimate of the Duluth Engineering company is given, regards as necessary a 2,000,000 gallon storage tank near park cemetery, and allows \$5,000 for the requirement of real estate, bringing the total estimated cost of the new plant to \$247,937.50. Mr. Nebel's report contains no reference to either of these items, and the public is left in doubt whether he regards the proposed storage tank as superfluous and would at all times depend on direct pressure pumping from the Presque Isle station. For the sake of clarity it is to be regretted that he did not make this point clear.

One of the principal savings assumed

MADE WELL AND STRONG

By Lydia E. Pinkham's Vegetable Compound

Jefferson, Iowa.—"When my baby was just two months old I was completely run down and my internal organs were in terrible shape. I began taking Lydia E. Pinkham's Vegetable Compound, and another woman told me just how I was. I began to gain at once and now I am real well."

Mrs. W. H. BURGER, 700 Cherry St., Jefferson, Iowa.

Another Woman Cured.

Glennwood, Iowa.—"About three years ago I had falling and other female troubles, and I was nothing but skin and bones. I was so sick I could not do my own work. Within six months I was made sound and well by Lydia E. Pinkham's Vegetable Compound. I will always tell my friends that your remedies cured me, and you can publish my letter."

Mrs. C. W. DUNN, Glennwood, Iowa.

If you belong to that countless army of women who suffer from some form of female ills, just try Lydia E. Pinkham's Vegetable Compound.

For thirty years this famous remedy has been the standard for all forms of female ills, and has cured thousands of women who have been troubled with such ailments as displacements, fibroid tumors, ulceration, inflammation, irregularities, backache, etc.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

By Mr. Nebel to be possible is over \$15,000 in contractor's profits estimated by the Duluth firm. Here again there is no explanation by Mr. Nebel, but the assumption is that he advocates the carrying on of the proposed improvement under the direction of the board of fire and water commissioners. In that event, however, it would seem that there would have to be a considerable allowance for superintendence and expert engineering services.

In the form it now stands in Mr. Nebel's report unfortunately does not make it clear whether the estimate it gives, \$167,952, covers the entire cost of the proposed new plant at Presque Isle, and can well be further elucidated by him, particularly as regards the storage basin the majority of the commission maintains would be necessary, if the Presque Isle project were adopted. In order to pass intelligently on the merits of Mr. Nebel's contentions the public, it appears, must be much more fully informed in regard to them. It would doubtless appreciate their detailed exposition, as the question at issue is one it desires to go into thoroughly.

Even accepting Mr. Nebel's estimate of \$167,952 as covering the entire cost of the proposed Presque Isle pumping station the excess cost of this project over the one of intake extension, advocated by the majority of the board, is more than \$100,000. Whittled down to the lowest possible figure the establishment of a pumping station at Presque Isle would be a burdensome undertaking for the city. If intake extension will secure safe and palatable water it is pre-eminently the thing that ought to be undertaken.

THE STATE PRESS.

It requires a stretch of imagination to picture Jack Johnson in the pink of condition.—Flint Journal.

The flattering thing about his denunciation of "Detroit manners" by Mr. Paul Goode of Chicago is the side-splitting fact that Dr. Goode lives in Chicago.—Detroit Journal.

"I'd like to know," said a policeman this morning, "whether these increases in wages which the railroads are making are in the interests of the employes or the butchers."—Bay City Times.

Europe calls Colonel Roosevelt "the great pacifier." He is that—and any man who denies it to his face must be trained to the minute, that's all.—Detroit Journal.

No kissing will be allowed in St. Louis ball parks this summer. The fans when expressing their dislike for the umpire will have to limit themselves to pop bottles.—Grand Rapids Press.

It will hardly be likely to hurt Congressman Foss' feelings to learn that he is not to be consulted about appointments to federal offices in his district. There are lots of congressmen who would be grateful were they to be excused from such cases a man generally makes one in a grade and a lot of enemies.—Saginaw News.

100 REWARD, 100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by all druggists, etc.

Take Hall's Family Pills for constipation.

LOWER STATE NOTES.

GRAND RAPIDS.—I don't want to live in this shape. Kill me and let me have it over with." With these words Otto Gussie, a fireman, pleaded in a pitiful manner with Patrolman Strom Gussie, becoming drowsy from overwork, lay down on the Pere Marquette tracks to snooze. A freight train amputated both of his feet and slightly injured him otherwise. His home is said to be in Detroit.

CADILLAC.—County Treasurer John H. Wheeler, owing to ill health and falling eyesight, has been compelled to give up his office and has appointed C. C. Daugherty, former treasurer, to conduct the office for at least two months. It is feared that Mr. Wheeler will not again be able to resume his work. He is in the last year of his second term, and is nearly seventy years of age.

LANSING.—It is expected that all of the local option counties will be represented at a meeting to be held in the senate chamber at the capitol Wednesday, April 27, to decide whether the time has arrived for a move toward statewide prohibition and whether the spread of the local option propaganda shall be continued and the legislative next winter asked to revise and strengthen the laws regulating the sale of liquor in this state. Speakers and men prominent in furthering the local option movement are to be present and it is expected that a state organization will be effected.

LANSING.—E. V. Chilson, clerk of the senate during the last three sessions of the legislature and Alderman Oscar M. Kinley of this city, who published the Lansing Herald, has been elected to the senate in this year's election. He is a candidate in a damage suit because they designated one home where rooms are rented as "The Mad House." The owner of the house has engaged an attorney and declares that he will start proceedings in the courts against the publishers of the directory. The suit is pending by seven young men, all of whom bear excellent reputations and they are said to be highly indignant. How the name appeared in the directory is a mystery.

PETOSKEY.—Upon the petition of 102 out of a total of 165 electors in the village of Wolverine, Cheboygan county, Judge Shepard of this city last year issued a temporary injunction restraining the township board from accepting the bonds of surety companies in connection with saloon license applications. In consequence of the fact that no one who was disposed to become a surety on such bonds was legally qualified there have been no saloons in the village since the injunction was issued by Judge Shepard. Mr. James Hiller, who seeks to open a saloon there, sought to secure the setting aside of the temporary injunction. Instead of granting their motion, Judge Shepard made the temporary order permanent. The case will probably be appealed to the supreme court.

LANSING.—There is a movement on foot to change the meeting place of the League of Michigan Municipalities from Lansing to Saginaw. At the meeting of the league in Flint last year Mayor Bennett, of this city, and a number of other desirous of bringing the several delegations to Lansing assured the gathering that Saginaw county would never be added to the "dry" list. This assurance was given as it was decided to make Lansing the next headquarters. Since the county went "dry" the delegation from Detroit is clamoring for a change in the place of meeting, and it is stated authentically that Saginaw will be chosen. A meeting of the board will be held here by Lansing the first week in May, at which time definite action will be taken. Lawton T. Hemanis is president of the board.

PONTIAC.—John Monroe, uncle of "Burglar Jim" Monroe, is in the toils. He is accused of lifting \$50 from a \$100 bank roll entrusted to him by Alexander Noble, an aged man who is ill at the Hotel Clinton. James Monroe was formerly landlord of the hotel, and his uncle, a man sixty-eight years old, had acted as clerk since "Burglar Jim" left for Jackson to serve a sentence of seven and a half years. Noble sent for the sheriff and tried to give him the custody of the \$100 which he said he held for his uncle. This he was refused, and he was then taken to the police station. An investigation showed that Monroe had acquired a new suit of clothes and was unable to account for \$50 of the money entrusted to him. Noble also complained that he had received scant attention at the hotel.

SAGINAW.—William F. Hemmeter, one of the three members of the county board of election canvassers, says that the results of the election held two weeks ago will show that the primary system has been adopted for the nomination of circuit judges and county officials in this city, despite the reports that have been circulated throughout the state to the contrary. He says they are irregularities in Frankmouth township, the results were changed and the tally sheets showed that the figures had been raised. He claims the results in Albee township showed the same difference. The Ninth ward votes in Saginaw city, which were largely against the primary system, will be shown on the returns, and a complete statement of all irregularities, discrepancies and evidences of fraud made public by the board.

Your tongue is coated, Your breath is foul, Headaches come and go, These symptoms show that your stomach is the trouble. To remove the cause is the first thing, and Chamberlain's Stomach and Liver Tablets will do that. Easy to take and most effective. Sold by The People's Drug Store.

HERE AND THERE.

Through the money left by Philanthropist Samuel Lewis for the erection of cheap dwellings in London, a woman may have a two-room flat with bath for fifty cents a week. The housing problem in the great cities is being solved.

Three hours after a showcase in front of a jewelry store in Philadelphia was robbed of opera glasses and other goods valued at \$500 early one morning, a policeman found three men gazing ardently in the direction where Halley's comet should have been through the stolen glasses. They were arrested and all of the goods recovered.

The Chicago Inter Ocean wants the national Democratic-Republican contest thrashed out in Ohio in the fall and suggests as representative gubernatorial candidates Governor Harmon and Representative Longworth. This, it says, "would bring to a real test the issue that is likely to be before the American people in 1912"—the fight between Cleveland Democracy and Roosevelt Republicanism. And Ohio, it adds, is the best dog to try it on.

Some one has said that the most beautiful flowers were those that bloomed upon the wall which separates political parties. The introduction illustrates the truth that no party has a monopoly of the personal virtues. In my youth I thought that my party had all that was good and the opposition all that was evil. But as I have grown older I have seen so many good Republicans and met so many bad Democrats that I have changed my mind.—William J. Bryan.

The new Samaritanism is a systematic and scientific endeavor to prevent sin and its attendant evils, and to remove the conditions which breed disease and crime by the wholesale. Many diseases are known as direct-diseases—a plentiful use of soap or brooms or chemical agents or fumigation would remove the causes of ill-health. God does not mean that such evil conditions should abide in society. If they do continue the reason is to be found in the stupidity or the selfishness of men.—New York Observer.

A LAUGH OR TWO.

Lost Opportunity.

They were penurious "pony-a-liners," and they lived together, partly because they didn't mind each other much, but principally because they were about the same size, and one best suit of clothes did for both.

In the silent watches of the night, one of them awoke to hear a suspicious creaking in the room. It was a banging burglar, who had mistaken their room for an adjoining suite, occupied by a wealthy fishmonger.

"George," he shrieked, "there's a burglar in the room!"

"You blundering idiot!" roared his bedmate. "Why the heavens couldn't you keep quiet? He might have dropped something!"—Answers.

Spreading the News.

Postmaster Fuller of Rockland, Me., was the sparkling wit at the postmasters' dinner. He announced with mock solemnity that he had just received word from his congressman that his name had been sent in somewhere in Washington for reappointment in recognition of his efficient service and the votes he could swing.

"I have flashed the momentous news of my triumph to distant Rockland to my wife, and if I am acquainted with the body, as I believe that I am, the first tidings have now penetrated to the most remote sections of that district," was a sally that brought down the house.—Boston Record.

A Test for Any Samson.

There is a theatrical manager in New York who, in his early days, plotted a small circuit through the villages of the middle west.

"At that time," he says, "I was featuring an Italian as 'Biancilli, the Strong Man from Rome.' One day, traveling from Kansas City to Omaha in a day coach, the strong man and myself were seated just ahead of a tall man with side whiskers. Whether or not the man overheard our conversation, I am unable to say; but at a time he leaned over and tapped my companion on the shoulder, saying, 'Excuse me, sir, but are you not Biancilli, the Strong Man?'"

"Biancilli admitted the soft impeachment.

"Is it true that you can lift two and a half tons in harness?"

"Yes."

"You can hold two men at arms' length?"

"I can."

"And put up 500 pounds with one arm?"

"Yes."

"Then," concluded the man with the side whiskers, "would you kindly raise this car window for me?"—Everybody's Magazine.

Cordially Invited.

Glasgow invitations are nothing if not hearty. Two friends met after a fairly long separation.

"Man, Tam," says one, "whar in a the arth hae ye been hidin' yersel'?" I havena seen ye for an age."

"Weel, Jems, I've been doon Gourock way a guid while. Come doon an' see me sune. I've got a set of good boxing gloves, an' if ye come down any day I'll knock the face all ye."—Tit-Bits.

Copper Country

AGED MAN SUCCUMBS.

Nicholas Schwartz of Redridge Found Dead at Stanton Club.

The lifeless form of Nicholas Schwartz of Redridge was found Wednesday morning lying on the veranda surrounding the Stanton clubhouse...

Nicholas Schwartz had been employed as keeper of the Stanton club for the past ten years. He crossed Wednesday morning and made a fire preparatory to scrubbing out...

The Stanton club overlooks the Redridge dam where fishing is exceptionally good. "Nick," as he was familiarly called, was probably known to every fisherman in the copper country...

TWENTY-FIVE TEAMS.

Secretary Montgomery of Bowling League Expects Many Entries.

Secretary Harold Montgomery of the Upper Peninsula Bowling league, which holds its 39th annual tournament on the Bow alley, Houghton, next week, April 25 to 29, said that it is virtually certain now that there will be twenty-five teams in the tournament...

One feature of mutual interest will be a match between Barbara of Lake Linden and some iron country man, Barbeau having challenged the entire iron country field to a single match...

The expected entries are as follows: One team each from Munising, Burtie, Copper City, Alameda, Iron River, Iron Mountain, Escanaba, six from Calumet, two each from Lake Linden, Houghton, Hancock and Marquette.

BREEZE FROM ONTAGON.

Arthur H. Brown, Versatile and Vivacious, in Our Midst.

Arthur H. Brown of Ontagon, Ontagon county, was in Houghton yesterday and a whole lot of people were glad to see him. Because Mr. Brown is one of the men who radiate good humor, love vibrations, music, gladness, heart throbs and heartfelt handshakes from early morn until dewy eve wherever he may be...

Arthur H. Brown is a young lawyer who is succeeding because he is a good lawyer and has a winning personality. He is an exponent of physical culture and while he only weighs about 125 lbs, he has an arm like Zhyko. In forensic eloquence he is not surpassed by any member of the Ontagon county bar. He is the organizer of his home church, is the biggest little ragtime piano player at all the social gatherings...

Invite some men to take a drink and they measure out "five fingers" just to keep their hand in.

M. C. M. COMMENCEMENT.

Dr. Hamerschlag Arrives to Deliver Address to Class of 1910.

The class day exercises of the Michigan College of Mines class of 1910 will be held tonight in the college gymnasium. President McNair and the faculty will extend an invitation to the public to be present.

Dr. Hamerschlag, who is to deliver the address, arrived in Houghton yesterday noon and is at the Douglas House. He is one of the leading engineers and educators along technical lines in the United States and his professional standing and his attainments are an assurance that his address will be most interesting.

Finishing College Exercises. The 1909-10 term at the Suomi college of Hancock will end May 26 and the commencement exercises of the graduating class will be held on that date.

There are five seniors, four of whom are men. All but one are from Hancock. The graduates are J. J. Jassberg, J. W. Wymore, Reino Staudinger and Hilma Salway of Hancock and Emil Hill of Baraga. The baccalaureate ceremony will be delivered by Rev. J. K. Nikander, president of the college.

REQUISCAT IN PACE.

Requm of the Bessemer Gas Company Sued in County Building.

Attorney W. J. Galbraith of Calumet was in the office of County Clerk Richardson yesterday to perform the last sad rites for the Bessemer Gas company, a body corporate. The company files notice of dissolution by reason of forfeiture of its franchise.

The Bessemer Gas company was organized by J. A. Langenhuf, now of Calumet, for the purpose of providing gas for lighting and cooking in Bessemer, Gogebic county. The city of Bessemer, grantee of the company's franchise, but the company did not carry out any of the terms of said franchise and the city of Bessemer declares it officially dead of inanition. The directors, all Calumet men, agree.

This company was a twin of that corporation which would have provided the village of South Range with gas had not its plant blown up some two years or so ago. The explosion did for that company what the more legal and formal action of yesterday has done for the Bessemer company.

TAKES MORGAN TO ROCKLAND.

Would-Be Suicide at County Jail Is an Ontagon Charge.

Sheriff O'Rourke of Ontagon county arrived in Houghton yesterday morning to take charge of Nicholas Morgan at the county jail and return him to Ontagon county, where his residence is. Morgan is the man who attempted suicide Monday night by jumping into Portage Lake and after being rescued and his wrists with a piece of glass. Since being placed in jail he has refused food and is believed to be insane.

It was the belief at the jail yesterday that Morgan will recover his faculties with returning health and that he will not have to be committed to the insane hospital. Little could be learned regarding the man as he has refused to talk but it is known that his children are in the orphanage at Assinippi and it is thought he and his wife have separated. Sheriff O'Rourke took him to Ontagon county yesterday afternoon. Morgan's home is in Rockland.

LABOR CONDITION BRIGHT.

Houghton Wage Earners and Employers on Excellent Terms.

An interesting indication of economic conditions in Houghton, as referred to yesterday by a prominent organized labor official in Houghton, is the harmony in the relations between employer and the employed in Houghton and the copper country generally, judging from reports from the unions affiliated with the American Federation of Labor. Houghton's employers are paying the highest scale and there is lots of work.

One satisfactory agreement recently reached by one large class of employers is the payment of expenses for tradesmen going out of their home towns to work. Hereafter a workman had to pay his own board and lodging expenses if sent to an out of town job and this often put him in the position of paying double a hardship for a married man.

Now the employers have come to recognize this and are paying these expenses. The rule here is also steady work, the men not being docketed for time lost because of weather conditions, for instance, excepting in extreme cases.

HUMOR OF THE LAW ON AUTOS.

Houghton Attorney Discovers a Decision Which Carries a Laugh.

A newspaperman was called into consultation by a leading Houghton attorney, not that the attorney needed assistance or advice but because he thought the newspaperman should get in on the only joke which he, the attorney, had ever seen in a decision. Decisions of supreme courts, all courts for that matter, are usually weighty,

After Grippe or any severe sickness. Minol. IS BY FAR THE BEST STRENGTHENING TONIC. We will supply it to any one with the understanding that if it does not do what we claim we will refund the money paid for it.

MARKETS. WALL STREET STOCKS. New York, April 21.—Paine, Webber & Co. say of today's stock market: "The market today was very dull and uninteresting, and while there was no desire of the public to buy, there was no particular selling. We look for a dull market for the rest of the week."

GOING OUT OF BUSINESS. T. H. Dawson, the china and crockery merchant at Dodge and Sheldon streets, Houghton, began yesterday a sale for the disposal of his stock of goods, he having decided to go out of business in Houghton, at least temporarily.

SIGNALS OF DISTRESS. Marquette People Should Know How to Read and Heed Them. Sick kidneys give many signals of distress. The secretions are dark, contain a sediment, are frequent, scanty, painful.

THE NUMBER OF SHARES SOLD DURING THE DAY WERE AS FOLLOWS: Anaconda 2700, Helvetic 10, Parry 20, Grand 20, Boston & Cor. 10, etc.

George F. Ruez's Review. "Today's market was a very quiet affair, with the tone showing considerable improvement. North Butte was particularly weak yesterday, was in very poor condition and an early decline was due to manipulation."

D. T. Morgan Company's Letter. "The New York market opened higher and was active during the first hour. After this it became rather dull, the price being mostly professional. New York was taken by the market and the technical position strongly favored a decided upward movement."

THE MIRACULOUS HAZEL TWIG. The German emperor will be interested in the investigation of the Cornish Higher Education Authority is about to hold into the reported success of the "divining rod" in locating mineral deposits.

CHAMBERLAIN'S STOMACH AND LIVER TABLETS assist nature in driving all impurities out of the system, insuring a free and regular condition and restoring the organs of the body to health and strength.

THE SWIFT SPECIFIC CO., ATLANTA, GA. S.S.S. does not simply cause a scab to come over an old sore, but beginning at the bottom it heals the place permanently by building new tissue and filling in the place with firm, healthy flesh.

Dear Sirs:—I was suffering greatly from a sore on my left breast, which had begun to eat, and at times deep shooting pains would pass through it. The ulcer was discharging yellow and rather offensive matter. I consulted physicians, but their treatment did not benefit me very much. My condition seemed hopeless, and I had almost despaired of getting well. I knew that the disease was hereditary in my case, as my only sister, my mother and two of my sisters had died of cancer of the breast. After I had finished the first bottle of S. S. S. I felt so much better, so continued until I was cured.

THE SWIFT SPECIFIC CO., ATLANTA, GA. S.S.S. does not simply cause a scab to come over an old sore, but beginning at the bottom it heals the place permanently by building new tissue and filling in the place with firm, healthy flesh.

on the eighteenth level brought in some new buying, and this, together with short covering, advanced the price to 35. There was no liquidation apparent in the rest of the list, but buyers were scarce and prices remained unchanged. We may have a little rally in anticipation of the Steel dividend on Tuesday, but we would advise conservatism at the present time, and would only trade for quick turns."

CHICAGO GRAIN MARKETS.

Chicago, April 21.—Wheat advanced again today and closed strong and high. While the market was largely dominated by a purely speculative trade there were various bullish reports from the Southwestern fields of reduced acreage and insect damage, which aided the advance, but before the final sale the prices for the distant months had advanced two cents and the May three cents over yesterday's low point.

New York Cotton Market.

New York, April 21.—We are indifferent as to the values of the near months, but inclined to look with favor on purchases of distant options, cautiously and thoughtfully made.

Mining News

above amount. Our ore is of a remarkably high grade, averaging very high in copper, with silver values running from \$0 to \$7 per ton."

THE CHINO COPPER COMPANY'S report of April 17 gives the development and partially developed ore at 17,533,510 tons, assaying 2.61 per cent copper, an increase of 772,252 tons over the previous month.

Work has been resumed at Bisbee Extension, and sinking in the main shaft is now being continued. The shaft is said to be 800 feet deep, and the management proposes to continue sinking until water in large quantities is encountered. Little lateral work is being done at the present time.

THE BRIGGS shaft of the Superior & Pittsburg company has encountered considerable water in sinking the shaft from the 1,200 level. The shaft is at present running through sulphides and white iron. It is possible that work on the ore body on the 1,200 or 1,300 level on account of the great amount of leached material which has been encountered on the 1,100 level.

THE GIBSON property is being developed on a scale of magnitude never before seen in this state, says an Ely (Nev.) correspondent. The opinion is expressed in this district that the lower workings of the Alpha, when they are opened for production, will establish a new record for high-grade ore and also for the tonnage that they can supply within a given time.

IT IS BELIEVED that by next fall, November or December, the Hancock will be in position to ship about 500 tons a day as the heavy machinery for the shaft will be in working order by that time and it is believed that milling arrangements can be negotiated without over, either some buying order or the Hancock's new stamp mill will start during the coming summer. If that is so it is reasonable to expect to have the plant in operation within two years.

AT THE annual meeting of the New Butte Mining company the following directors were re-elected: Robert Shattuck, president; Jas. P. Edwards, general manager; Simon J. Beahan, vice president; F. H. Baird, secretary and treasurer; J. Bradford Harlan. The treasurer's report for the period from the organization of the company in December, 1909, to April 20, 1910, showed receipts of \$120,825 and expenditures, including cost of incorporation, purchase of new property and development work, of \$25,002, leaving a balance on hand of \$95,723.

THE work at the Butte Balaklava mine is reported progressing in a satisfactory manner, Secretary Perival says. "During the past week we shipped approximately 700 tons of ore, assaying about 6 per cent copper and twelve ounces of silver. We also drilled on the ore on the 700-foot level and opened up the vein that was encountered on the 800 level. The 800 level still maintains its great body of ore blocked out ready for raising. We have also cut a station on the 900 level and are prospecting to intersect the vein that is so rich on the 800 level. We have raised ninety-five feet on the 1,000 level and have ore there also. The ore in the west drift on the 800 level shows a breast of eleven feet. We expect to have our big hoist ready for business very shortly, when it will be possible for us to more than double our present output. With the new equipment we should ship at least 200 tons of ore daily, and this, as the development work progresses, should be increased to at least twice the

Try It At Our Risk. If Occident Flour Is Not Better Than Any You Ever Used—Your Money Will Be Refunded. YOU never read a fairer offer—nor a broader guarantee—did you? There is only one way for you to know how and why Occident will please you best—use it. We are willing to take the risk—we know the flour.

OCCIDENT FLOUR

Go to your grocer and get a sack of Occident. If when you use it you are not convinced that Occident is the most satisfactory flour you ever baked with—both in working up and in results—if you don't like it better than every other kind—go back to your grocer and tell him so; he is authorized to refund, without argument, the full purchase price of any package of Occident which you do not find satisfactory.

Occident Flour costs you a few cents more than ordinary flour. It costs more. And the difference shows in your baking. The few cents more enable the millers to raise the standard of Occident Flour to "highest grade in the World"—from wheat to package. Use one sack at our risk.

City Brevities

Today's weather: Probably showers; cooler.

Yesterday's temperatures: Seven a. m., 42 degrees; noon, 58; 7 p. m., 54. Maximum, 64 degrees; minimum, 33.

Rush Culver left for Iron Mountain on business last evening.

The Young Woman's Guild will meet this afternoon at 2:30 o'clock at Guild Hall.

Mrs. W. Frank James has returned to Hancock after visiting relatives in the city.

St. Mary's Guild will meet with Mrs. Chas. F. Willesen, 118 Front street, this afternoon at 2 o'clock.

The Baptist ladies will meet with Mrs. P. B. Spear, 461 East Ridge street, this afternoon at 3 o'clock.

All members of the second baseball team are requested to be present at a meeting at the city hall this evening.

Mrs. Frank J. Russell and Miss Frances Russell arrived home yesterday morning, from a week's visit in Chicago.

The Ladies' Aid society of the Methodist church will meet this afternoon with Chas. W. Richardson, 729 High street.

Nathaniel Mortenson, formerly of 321 West Crescent street, has purchased and moved into the house at 806 High street.

A marriage license was issued yesterday to Everett Walker, of Lenoireville, Wis., and Miss Rose Mallette, of this city.

The ladies' society of the Presbyterian church will meet with Mrs. E. L. Drake, East Hewitt avenue, this afternoon at 3 o'clock.

A cow owned by Raymond Bashaw, Rock street, yesterday gave birth to twin calves, both of which are strong healthy progeny.

The Marquette City band gave an enjoyable open air concert in Lakeside Park last evening, which was heard by a good sized crowd.

Chas. H. Schaffer of this city has been elected chairman of the Alger county board of supervisors, a position which he held consecutively for eighteen years, prior to 1908.

Members of the Kappa Alpha fraternity are planning to give an elaborate dancing party in Fraternity Hall on the night of May 6. Trombly's orchestra will furnish the music.

Mr. and Mrs. S. R. Kaufman and children arrived home yesterday morning. Mr. Kaufman and children have been in Florida the past four months, and Mr. Kaufman also spent much of the winter in the south.

The ladies of the Presbyterian church, and especially the young ladies, are invited to meet Miss Anna Adams, syndical secretary of the Westminister guild, at the church this evening at 8 o'clock. A cordial invitation is given to all.

Mrs. F. N. Monroe Killed—Word was received in Marquette last evening that Mrs. F. N. Monroe, formerly a resident of this city, was killed yesterday afternoon by an automobile in Duluth. No further particulars were received. Mrs. Monroe has three children in this county. Her husband, Mr. John O'Meara, of this city, and Mrs. W. H. Oakley, of Ishpeming, Frank Monroe left for Duluth last evening.

Division Officer Coming—Captain Barr at the head of the Marquette Salvation Army corps, announces that Major Morton, of Minneapolis, division officer of the organization, will be in the city and will address meetings in the Ida block tonight and tomorrow night. The local corps has on foot a scheme to purchase the Ida block for army purposes, and Major Morton's visit will be for the purpose of furthering this project.

Sunday Train to Big Bay—Beginning May 1, the Marquette & Southeastern railway will inaugurate Sunday train service to Big Bay. The summer Sunday train to Munising, however, will not be started until about Decoration Day. The train to Big Bay will leave Marquette every Sunday in the month of May at 8:50 a. m., and will arrive at Big Bay at 10:10 a. m. Returning, the train will leave Big Bay at 6 p. m., and will arrive in Marquette at 7:20 p. m.

Beautiful Mirage Visible—A number of prominent Marquette people noticed a most remarkable phenomenon a few minutes after 1 o'clock yesterday afternoon. It was a mirage over the lake, and it is said that the reflected Canadian shore of Lake Superior was plainly visible, which grand island appeared to be no more than four miles away. Mirages of this character are visible occasionally on large bodies of water and are caused by peculiar light and atmospheric conditions.

Fifteenth Wedding Anniversary—Mr. and Mrs. N. A. Metz, who formerly lived in this city where Mr. Metz was in business, but are now residents of Hancock, celebrated the fifteenth anniversary of their marriage this week. The Calumet News gives the following account of the celebration: "Mr. and Mrs. N. A. Metz, of Hancock celebrated the fifteenth anniversary of their wedding, with a banquet and reception tendered to a large number of friends, at the Metz residence on Quiney street, the festivities extending throughout the afternoon and evening. The house was beautifully decorated in the parlors and dining room, with smilax, palms, and cut flowers, and the occasion was made one long to be remembered by the host and hostess and by the numerous guests as well. A sumptuous banquet was a feature of the gathering, and music, lights, flowers and wine and good cheer mingled with delicious viands and wines to make happy those gathered about the festive board."

Upper Peninsula

Found Dead in a Ditch—

Lying in a ditch partly filled with water the body of John Hendricksen, a woodsman, was found at the side of the Escanaba & Lake Superior railway company's tracks near Cornell, Delta county. How the man came to his death is not known. Hendricksen was about forty years of age and is survived by two daughters, one of whom was taken to the state school for dependent children at Coldwater last week. He had been in Escanaba and it is reported that he was intoxicated for the greater portion of the time that he was there. He left the city to go to work near Cornell. There were no eye witnesses to the accident, but it is thought that he may have stepped from the track and in attempting to cross the ditch fell into the water and was drowned. No marks of violence of any kind could be found upon the body.

Only Five Saloons for the So—

After May 1, Sault Ste. Marie will have only five establishments maintained exclusively for the sale of liquor. In accordance with the terms of an ordinance cutting down the number of saloons to one for each 500 of population, the council has granted only twenty-one liquor licenses, and sixteen of these are to hotels. There were fifty-four applications. Last year between sixty and seventy licenses were granted. The "prize packages" this year have been awarded as follows:

W. J. Hanley, Hanley House.
Jas. E. Morrissy, Tremont House.
Theophile Garipey and Ernest E. Priester, Montreal House.
Achille Corvieve, American House.
George Piteau, Commercial House.
August Musielak, Only Hotel.
August Klinglund, Beaver Hotel.
James R. Hayes, Park Hotel.
James W. McFavish Murray Hill Hotel.
Patrick R. Downey, Belvidere Hotel.
Daniel Martin, Superior House.
George A. Cook, Franklin House.
Bobt. W. Wines, Hickler House.
Chas. P. A'Hearn, Lock City Hotel.
Lucian Lauzon, Lakeview House.
Gustave Bubro, Gilbert House.
Berry & Field, The Merchants.
J. F. Moloney, W. E. Gowan, Ed. Fletcher and Joseph Moloney, The Empire.
John McGirr, Elk Saloon.
Ropin & Ermatinger, The Grand.
John Quinn, Eagle saloon.

The south side was cut out altogether at the final windup. The friends of George Coleman of South Ashmun street had worked hard with the aldermen in his behalf and it was confidently expected that he would get in. One of the greatest surprises in the distribution was shutting out the Fountain House. It became known some days ago that such action was contemplated by reason of the Miller not being citizens, but it was believed that the matter would be arranged some way and that the house would get in. A number of prominent citizens took the matter up with the aldermen, but without success. The Sherman House, one of the oldest hotels in the city, Fred S. Hazen, proprietor, was also denied a license in the distribution. There is now but one wholesale liquor house in town, that of J. F. Moloney & Co., which will be run in connection with the Empire in the Cook block. The second ward came in for the greater number of licenses, getting eleven of the twenty-one distributed. The first ward came next with seven, the third two and the fourth one. Alderman Cairns was of the opinion that the fourth should be on a par with the third, and endeavored to secure another license for his ward. He didn't succeed in this and voted against the resolution. His was the only vote cast in the negative.

Every woman in Marquette will have the best chance in the world to SUT herself.

NOTICE OF SPECIAL ELECTION.

WATER LOAN BOND ISSUE.

To the legal voters of the city of Marquette:

Notice is hereby given that the following preamble and resolution were duly adopted by the board of Fire and Water Commissioners of the city of Marquette at a session thereof held on April 19, 1910, viz:

Whereas, it is deemed necessary by this board that permanent improvements be made in the water works of this city, and that the expenditure of upwards of seventy-five thousand dollars, and it is deemed necessary to raise the sum of seventy-five thousand dollars and issue bonds therefor; therefore be it enacted:

Resolved, That the sum of seventy-five thousand dollars be borrowed by this board for the purpose of raising money with which to make permanent improvements in the water works of this city, and that bonds be issued therefor pledging the faith and credit of the city of Marquette for the payment of the principal and interest of such bonds; and be it further

Resolved, That the question of making such loan and the amount proposed to be raised be submitted to the legal voters of said city, qualified to vote thereon, at their approval, at a special election for that purpose, which is hereby called to be held at the police court room in the city hall, in said city, on Saturday, the 7th day of May, A. D. 1910; the polls of which election shall be opened between the hours of eight and nine o'clock in the forenoon of said day and shall be continued open until nine o'clock in the afternoon of the same day, and no longer; at which election the members of this board, or any two or more of them in attendance thereat, shall be the inspectors and clerks thereof; which said election shall be by ballot, upon blanks to be furnished by this board, with suitable instructions thereon, on which ballot the question to be submitted shall be printed in the following form, to-wit:

Shall the board of Fire and Water Commissioners be authorized to borrow \$75,000 and issue bonds therefor, for the purpose of raising money with which to make permanent improvements in the water works system of the city of Marquette?

Resolved, That the secretary of this board give notice of such election by publishing notice thereof, at least two weeks before said election, in the following named newspapers published in said city, viz: "The Daily Mining Journal," and "The Chronicle"; and that copies of such notice shall also be posted in each ward of said city, at least ten days prior to such election.

C. Ayes, Commissioners H. H. Williams, P. C. Young, H. Bitters, H. W. Nebel.

Notice is hereby given that a special election of the legal voters of the city of Marquette, qualified to vote upon the foregoing proposition will be held at the place and time and in the manner designated in the foregoing resolution, and that said proposition will be submitted to the legal voters of said city, qualified to vote thereon, in accordance with said resolution.

Dated April 20, 1910.

JOHN P. KELIN,
Secretary of the Board of Fire and Water Commissioners of the city of Marquette. (4-21-30)

NOTICE TO CONTRACTORS.

Office of the Park, Cemetery and Street Commission, Marquette, Mich., April 20, 1910.

Pursuant to resolution of the common council of the city of Marquette, notice is hereby given that sealed proposals will be received at the office of this commission until 5 o'clock p. m., May 2, 1910, for furnishing all material and labor required in the construction of a wooden bridge across the head river at the electric light plant, said bridge to be constructed in accordance with plans and specifications on file in this office and at a cost not to exceed the sum of \$700.

Proposals must be accompanied by a contractor's bond with two good sureties in a sum at least twice the amount of the bid; conditioned for performance of contract, payment for labor, material, etc., in accordance with form on file in this office. The commission reserves the right to reject any or all bids.

J. F. ANDERSON,
Secretary. (4-21-30)

Your Income-Tax

If you were to be taxed \$1.00 a week on your income you would call it "un-just." But you would have to pay the tax and you would continue to enjoy life, though the dollar-a-week were gone forever.

By taxing yourself this amount and depositing it regularly in our savings department you not only retain control and possession of what you save but you also receive 3 per cent interest on your account. Such a self-imposed income tax is a pleasure—not a burden.

BEARS TAKE THEIR PROFITS.

Their Buying Rallies Stocks, and Then the Market Becomes Very Dull.

New York, April 21.—The stock market today was relieved to some extent from the active weakness which sent the prices rapidly downwards the day before. The profound dullness which overcame the dealings at the advanced level of prices was a more striking feature than the recovery itself and had its effect in begetting distrust of the recuperative power of the market. The demand which carried the prices upwards was ascribed to a bear element in the speculation which had been selling stocks freely since the opening of the week and which saw profits accrued on the short side by buying to cover. There was no more positive factor discoverable in the buying.

The pause in the liquidation in rubber shares in the London market relieved the anxiety out of the wild speculation there, but the conviction remains unaltered that the pricking of that bubble must come and with danger of damage to other related financial markets. The rubber craze in London and the inflation of credits presumably accompanying it are believed to be related to the solatium manifested by the Bank of England to continue the accumulation of a gold reserve.

A factor in holding speculation in check is the desire to await the response of the market to the dividend action on United States Steel next Tuesday. The market response to that action is considered of more importance from a speculative standpoint than the action itself. Conservative dividend action and support for the stock in the market might reassure sentiment where a liberal dividend, coupled with free selling of the stock, would be regarded as a highly unpropitious omen.

PLANS HOME FOR NEWSPAPERMEN.

Dallas, April 21.—The Dallas Press club today launched a move for the establishment in Texas of a national press club home, farm and ranch for newspapermen in poor health and a permanent abode for workers who become infirm from age or disease. Newspaper organizations are invited to co-operate in the purchase of 20,000 acres of land.

CUSTOMS COURT IN SESSION.

Washington, April 21.—The newly named court of customs appeals met today for the first time, with all five

members of the court present. Judge Robert M. Montgomery, of Michigan, is the presiding judge.

WOMAN DELEGATES WRANGLE.

Daughters of the Revolution Again Engage in a Heated Clash.

Washington, April 21.—Factional strife broke out again in today's session of the congress of the National Society of the Daughters of the American Revolution. When amendments to the constitution relating to the discipline of the officers and members and to the question of the "state's rights" of the state auxiliaries were presented, the delegates aligned in their respective "party" camps found themselves embroiled in a parliamentary entanglement. Mrs. J. Morgan Smith, vice president general, of Alabama, was in the chair.

Mary Desha, of Kentucky, charged that she had been unable to secure recognition. Her voice was drowned in cries of "Out of order." She was allowed to continue, however.

The first amendment proposed to lodge in the congress the power to discipline the officers, members and chapters of the society. The amendment was tabled, but after a parliamentary tangle was recalled and overwhelmingly defeated.

The other amendment, this one providing for the election of the state regents and vice regents at meetings held in their respective states and territories instead of by the delegates to the congress after they reached Washington, also was defeated. This was the amendment in which "state's rights" were involved. In connection with this amendment, Miss Desha turned insurgent.

Election Favors the Administration.

The result of the election yesterday, the outcome of which was announced today, was the choice of nine vice presidents general, the majority of whom, it was said, are administration supporters. This leaves one vacancy among the vice presidents general, which will be filled tomorrow.

The delegates were received by President Taft at the White House this afternoon. A brilliant reception to the daughters was given tonight by the president general, Mrs. Matthew T. Scott.

The nine vice presidents general elected are: Mrs. Egbert Jones, Mississippi; Miss Virginia Randolph, Schackelford, Virginia; Mrs. LaVerne Noyes, Illinois; Miss Ellen McCune, New Jersey; Mrs.

Wm. E. Stanley, Kansas; Mrs. Emily P. S. Moore, Vermont; Ellen Randall, Texas; Mrs. J. T. Sterling, Connecticut; and Mrs. Andrew K. Gault, Neb.

VIGOROUS INQUIRY ORDERED.

Disappearance of Evidence in Hyde Case Arouses Suspicion.

Kansas City, Mo., April 21.—A vigorous investigation of the disappearance of the state's documentary evidence in the Hyde murder case, which fell into the hands of the defendant's counsel yesterday, was ordered by Prosecutor Conkling today. New developments in the case, the most important of which was the statement by Ruby B. Garrett, the man who lost the papers, that he did not drop them at the point where they are said to have been found, moved the prosecutor to renewed action.

Typoid Story Admitted.

Pearl Keller, the nurse, completed her direct testimony today. Attorney Walsh, counsel for Dr. Hyde, was unable to shake her testimony. She was allowed to tell of the typhoid epidemic in the Swope residence. The court permitted the jury to hear the testimony, but promised to order it out if later developments prove it irrelevant to the death of Colonel Swope. The most important feature was the testimony that Margaret Swope's symptoms on the morning that Hyde is said to have poisoned her were similar to those of Colonel Swope just before he died.

Hyde's attorneys made today another unsuccessful attempt to secure the letters and documents which passed between John G. Paxton and the chemists who made the Swope analyses. Mr. Walsh said that these papers would prove the contention that no poison was found in the ejecta of Margaret Swope or in the capsule which Hyde threw away when he left the Swope residence Dec. 18.

HEIRS LOSE OUT.

Dr. Ziegler Awarded \$100,000 from the Estate of Mrs. McVicker.

Chicago, April 21.—Dr. L. C. H. E. Ziegler, by a supreme court decision rendered today, is entitled to \$100,000 from the estate of Mrs. J. H. McVicker, as provided by a contract he held to render her medical attendance during her life. Ziegler lived up to his part of the contract for five years, when Mrs. McVicker died. The heirs attacked the contract and won in the lower court, but this was reversed by the Illinois supreme court at Springfield today.

CHINESE OUTBREAK SPREADS.

Riots Break Out in New Places and Even Trained Troops Revolt.

Peking, April 21.—The lawlessness of the natives which began at Chang Sha is reported spreading. Riots have occurred at Hsiangsiang, the site of a Protestant mission. At Yiyang, a mission school has been burned. The foreigners escaped harm. The foreign residents at Yo Chow were preparing to leave last night. These reports of lawlessness are coupled with a reported wholesale desertion of troops.

FEDERAL CONVICTS ESCAPE.

Guards at Leavenworth Threatened With Dummy Revolvers Made of Wood.

Leavenworth, Kas., April 21.—Two of six convicts who escaped from the federal penitentiary at Fort Leavenworth today by seizing a switch engine and threatening the prison guards with dummy revolvers made of wood are being sought tonight by guards and citizens. Four were recaptured. Farmers are joining in the hunt in the hope of getting the reward.

ALABAMA MINE THEIR TOMB.

All Forty Men Imprisoned Are Believed to Have Perished.

Birmingham, Ala., April 21.—Two bodies were recovered today from the Mulga mine of the Birmingham Coal & Iron company where forty men were entombed as the result of the explosion last night. It is believed that all the entombed miners are dead.

Every woman in Marquette will have the best chance in the world to suit herself.

When a man feels that he's appreciated it means he has been over-estimated by others.

GRABOWER'S SPRING MILLINERY EXHIBIT

That our Millinery showing is entirely different from what you see in other places is beyond question. We show you one of the greatest, most varied and most captivating collection of beautiful high-class spring and summer millinery ever brought together under one roof in the entire North country.

Smart, Jaunty Hats \$5.00

Every new style, color and material introduced this season is featured in our magnificent complete assortment of beautiful Spring Millinery, priced at \$5 00. The woman of discriminating taste but who feels that she must count the cost will find Hats in this wondrous gathering that will meet her most exacting demands. Hats that your own good judgment will tell you are worth \$2, \$3 to \$4 more than the price we ask. All our Hats are made in our store and not one shop-made Hat among them.

Wonderful Showing of Swell Trimmed Hats at \$15.00 and Up.

Exquisite styles, beautiful colorings and newest shapes.

All feminine Marquette and Marquette county should come here to see our handsome and exclusive models in Hair Braids, Leghorn, hand made Rough Braids, Imported Flat Braids, Tegal Hemp and Milan shapes, large, medium and small styles; Trimmings are of Imported French Flowers, Grasses, Foliage, Quills, Ribbons, Aigrettes, Veillets and Ornaments, artistically assembled in diversity of charming effects. See the stunning large picture Hats at our popular prices. Every color in the showing, including plenty of blacks and whites.

Special Groups Trimmed Hats, Featuring Reasonable Values at Popular Prices:

\$7.50, \$8.50 and \$12.50.

The Trimmed Hats we show at the above mentioned prices are positively unmatchable anywhere in style, value and general attractiveness. There are tailored and Dress Hats in Tuscan Lace Braids, Rough Braids, Milan, Chip and other wanted materials; every shape in favor this season is shown in profusion; Trimmings include Flowers, Foliage, Ribbons and Grasses, etc., all colors and black; Hats that compare favorably with those sold in the larger city stores at half as much again.

Finest Work Accomplished in Our Millinery Alteration Department

We have a force of expert trimmers—none better anywhere—who can take your hat apart and renew it into a stylish Hat. Our trimmer is an experienced designer, and out of season takes in the fashion centers to study the latest fashions, and her work is entirely different from what you see in other stores. If you intend to change your hat, come and try us.

A BIT OF NO-MAN'S LAND.

There Is Question as to Who Owns Part of El Paso.

This Due to the Shifting of the Rio Grande—Part of the City May Be on the Mexican Side—Property Worth Millions Involved in the Case.

Washington, April 21.—The shifting channel of the Rio Grande is responsible for a diplomatic controversy over the question whether the extreme southern section, valued at several million dollars, of the city of El Paso Tex., on the Mexican frontier, does not really belong on the Mexican side of the boundary line. The land involved, which is known locally and in the state department as the Chamizal zone, and over which the United States has always exercised jurisdiction, is about one and one-half miles long and about five blocks wide. It contains a large number of residences, owned and occupied principally by Mexicans.

El Paso never had considered the Mexican claims seriously until the meeting of President Taft and President Diaz in El Paso a year ago, when it was agreed that the disputed territory for that particular occasion should be regarded as a neutral zone. The citizens of El Paso regarded this agreement as of the highest consequence, in that it tended to recognize that Mexico might have a claim to the territory, and steps immediately were taken to obtain a settlement of the whole matter, as real estate values in the section involved were becoming seriously affected.

Citizens of El Paso, including the mayor of the city, visited the state department some weeks ago and urged Secretary Knox to dispose of the questions at issue as soon as possible, re-

presenting that the delay in fixing this bit of international boundary had already depressed the value of property lying within the zone. Secretary Knox gave assurance that he would take up the matter immediately with Mexico, and it was his hope that a conclusion might be reached within the next few weeks.

The treaty of peace with Mexico, which followed the War of 1846-'48, in fixing the boundary along the Texas frontier, provided that the channel of the Rio Grande should be the boundary line, but in supplementary boundary conventions, essentially those of 1884 and 1889, the fact was recognized that the Rio Grande River was extremely fickle regarding keeping its original course, and it was agreed that, in the case of a change in the course of the river by accretion, the territory gained by either country should remain in the country into which it had been thrown, but in case of a change by erosion, the territory involved should remain the property of the country within whose borders it originally was.

It is contended on behalf of Mexico, that the river ran on the Texas side of the disputed territory as late as 1852, and this contention is believed to have been recognized by the International Boundary Commission, which has no entered it on its maps and records. Since that time, however, the channel of the river has changed its course, and whether by gradually wearing away the Mexican bank and adding the sand to the Texas side or by taking an entirely new course is the question now at issue.

Up to a few years ago Mexico seemed to have acquiesced in the exercise by the United States of jurisdiction over the territory now in dispute, but at that time certain claimants to the land entered suit in the federal court to determine its status. W. J. Warder was the principal of these, and he sued to recover the land, basing the action on

an old Spanish grant known as El Chamizal.

In pressing his claim he contended that the territory still belonged to Mexico and therefore his title should be recognized. The federal court, however, refused to recognize his claim, but with those interested Warder later succeeded in inducing the Mexican government to lay claim to the territory. During the trial Warder introduced testimony of several aged Mexicans to the effect that certain cottonwood trees still standing in the Chamizal zone had been known by them to have been in their present location for sixty or seventy years, offering this as proof that the river made its change by erosion and not by accretion.

Upper Peninsula

Buys Goats to Clear Land—

Walter C. Houghton of Chippewa county, has returned from lower Michigan where he purchased a flock of seventy-five Angora goats with which he hopes to clean up the brush on about 3,000 acres of his cut-over timber lands near Strong's. His enterprise will be watched with interest by other owners of similar lands.

Judge Flannigan Means Business—

Leo Trotter, who pleaded guilty to a charge of keeping his saloon open on Sunday, was fined \$25 and costs amounting to \$5 by Judge R. C. Flannigan in the circuit court at Escanaba. When the defendant was arraigned Judge Flannigan commented on the severity of Michigan's new liquor law and the seriousness of the offense in violating its provisions. He assured the defendant that because of the fact that the present was his first offense he would deal lightly with him, but

asserted that if he was ever convicted on a similar charge he would impose the limit for the offense allowed by the law. Many in the courtroom were led to believe by the judge's short address that but a small fine would be imposed, and when the fine of \$25 and costs was announced, which was one of the heaviest penalties ever imposed on a saloon keeper for violating the law in Delta county, many were taken by surprise. The fine was paid by Trotter and he left the courtroom.

Jones' Furnace a Wonderful Success—

The Ardis furnace is a success, John T. Jones has gotten his wonderful invention out of the experimental stage and onto a practical basis where it will do all that he expected of it. In these words Mayor H. T. Emerson voiced the consensus of opinion among delegation of Menominee business men and city officials who visited Iron Mountain to witness a demonstration of the furnace on which Mr. Jones has been working for many years and which he has just brought to a state of completion. For two weeks the furnace has been running steadily, metalizing low grade ore at a lower cost than even that anticipated by the inventor. The mining world is watching Iron Mountain today with a sort of wonder at the immensity of the meaning which the perfection of the Ardis furnace means. A world of low grade ore, which has hitherto been worthless, is now at the inventor's command to transmute into a metal which will find a ready market at prices higher than that paid for pig iron, but prepared at a much lower cost.

Every family and especially those who reside in the county should be provided at all times with a bottle of Chamberlain's Liniment. There is no telling when it may be wanted in case of an accident or emergency. It is most excellent in all cases of rheumatism, sprains and bruises. Sold by The People's Drug Store.

ANNUAL PARTY.

BASEBALL MANAGERS REACH AN AGREEMENT

Nearly 300 People Attended the Knights of Pythias Function.

The annual card and dancing party, conducted by Zenith lodge, Knights of Pythias, Thursday evening, at Braastad's Hall, was a most enjoyable affair. Nearly 300 people, including members and their lady relatives and friends, were present. Many participated in the progressive pedro contests, which started at 8:30 o'clock and closed at 10. Mesdames Lydia Dunn, F. E. Olson, James Rogers, J. A. Blackney and A. L. Brownell were tied for first ladies' prize. The cards were cut and Mrs. Olson won the first and Mrs. Dunn the second prize, sets of gold collar pins.

John Lerwill, W. F. Anderson and J. B. Pearce tied for the gentlemen's prizes. In the cut Mr. Lerwill was the winner of first and Mr. Anderson second. The first prize was a handsome silver mounted clothes brush, the second a silver plated pencil pocket holder.

Dancing started at 10 o'clock and continued until 12. During the intermission refreshments were served. The ice cream was in bricks, in the lodge's colors, red, yellow and blue.

Two-year-old rose bushes 10 cents at Braastad's. (4-22-10)

If you want to see the Northern peninsula you must stop at Ishpeming and see the Fashion Suit Co. (4-22-10)

CAST EXCEPTIONALLY STRONG.

Paul Everton, Formerly of "Lion and Mouse," Is With "Third Degree."

"The Third Degree," by Charles Klein, author of "The Lion and the Mouse," which Henry B. Harris is sending to the Ishpeming theatre next Tuesday evening, typifies all that is best in modern "topical" drama and proves conclusively that its author is a psychologist of keen perception, as well as a dramatist of worth and ability.

Its bold and dominant theme is the despicable third degree system. Interwoven as part of the story is a romance between a Yale student, the son of a wealthy old Knickerbocker family, and a daughter of the people. The affection of this young woman for her scapgoat husband is at once pathetic and ennobling.

Miss Fernanda Elisen, who essays the character of Annie Jeffries, the young wife, is delightfully naive and unaffected in her impersonation of the broken-hearted girl. Others in the cast are Paul Everton, E. A. Eberle, Alfred Moore, T. E. Coleman, H. E. Forsman, Francis Bonn, Ralph Ramsay, A. H. Symmons and Margaret Drew.

A whisper in your ear—be wise and buy your ready-to-wear garments at the Fashion Suit Co. in Ishpeming. (4-22-10)

SYSTEM IS PERFECT.

Very Close Check Is Kept on All Census Enumerators.

The taking of the United States census is not a haphazard work. The Ishpeming enumerators have already found that a complete check is kept on them. They make reports daily to William Veran, of Negaunee, who has supervision of the work in this county, and every report sent in is carefully gone over. There are many things in connection with the work that require tact, as well as a certain amount of skill, on the part of the enumerator. In the daily reports, the enumerators are obliged to show the number of hours worked and the number of names taken. These reports are filed. The enumerators are also obliged to check vacant houses in their district, so that people who are moving are not missed while they are enroute from one house to another or from one part of the city to another. Information is filed relative to people who are out of the city temporarily, or who are going out for a few days, so that the fact that there is nobody at home when the census enumerator calls will not result in the family being left off the books.

The work of taking the census is progressing well in Ishpeming, and the men employed here expect to complete the task within the specified time. Little trouble is being experienced by the enumerators. Many are disposed to aid the enumerators in every way possible. Some of the Ishpeming men expect to close up their work next week, but it will be a week or two later before the enumerators in all the townships will complete their count.

DEATH OF OLD RESIDENT.

Mrs. David Devine passed away yesterday morning at 6 o'clock at the home of her son-in-law, William H. Hooper, on South Pine street. Stomach trouble, from which the deceased had suffered for three years, was the cause of her demise. Her condition had been precarious for a week or so and her death was not unexpected. Mrs. Devine was sixty-three years of age and is survived by one daughter, Mrs. Hooper, and three sons, David of this city and Matthew and

Thomas of West Superior. The two latter will arrive in the city this morning to attend the funeral, which will probably be held Saturday.

Prompt relief in all cases of throat and Cough Remedy. Pleasant to take, soothing and healing in effect. Sold by The Lung trouble if you use Chamberlain's People's Drug Store.

FOR SALE—A lot on North Main street. Inquire of Mrs. J. W. Jochim, Ridge St. (4-19-10)

WRESTLING MATCH OFF.

The catch-as-catch-can wrestling match between John Rowett and Chris Person that was to have taken place at the Ishpeming theater on the evening of the 17th has been postponed on account of Mr. Rowett's indisposition. The champion Cornish wrestler yesterday advised The Mining Journal that he is having trouble with his ear and his physician has told him that he cannot wrestle until it is remedied.

ISHPEMING IN BRIEF.

An unusually large attendance is expected at the junior hop to be given tonight at Braastad's Hall. A delegation will be up from Marquette by special train.

Harry Whitman, the shortstop for the Ishpeming baseball team, is expected to arrive in the city this morning. He will have a position with the Marquette County Gas & Electric company.

F. Braastad & Co. have an important announcement in today's issue concerning a sale that is to be commenced tomorrow. The interior of the store is being specially decorated for the occasion.

The saloon keepers of the city are requested to hand in their bonds to the city recorder as soon as possible, as the committee on bonds and sureties desire to call a special meeting of the council as soon as possible for their acceptance.

Miss Amanda Anderson has returned from Ironwood, where she assisted in the dedication program at the new Swedish Lutheran church. Rev. J. W. Johnson, whose wife was formerly Miss Julia Dahlstrom of this city, is the pastor.

Births recorded in the city yesterday were a daughter to Mr. and Mrs. Jacob Heinanen, 16 Jasper street; a son to Victor Lindberg and wife, 1302 North Third street, and a daughter to Mr. and Mrs. Alfred Riechstadt, 761 Michigan street.

A large number of Ishpeming people will attend the Negaunee baseball team's benefit dance tonight at the Adelphi rink. The members of the Ishpeming team have received a special invitation. A special street car will be at the service of Ishpeming people after the dance.

Russell Dawson, who has been employed for some time in the office of James Robertson, assistant general freight agent of the South Shore road at Houghton, has resigned his position and has gone to Duluth to enter the employ of the Standard Oil company in its offices in that city.

Hello, Sweetheart! You look so stunning; you must have been down to the Fashion Suit Co. in Ishpeming. I heard that they are the talk of the country for their style and quality. (4-22-24)

Negaunee Department

NEW FLOORING PLANT NOW IN OPERATION

CONSOLIDATED FUEL & LUMBER COMPANY'S MILL WILL TURN OUT 10,000 FEET OF HARDWOOD FLOORING A DAY.

The Consolidated Fuel & Lumber company's hardwood flooring mill will go into commission today. An expert from the S. A. Woods company of Boston, which furnished the machinery, is expected this morning, and will spend a few days with the crew.

The plant will be a model one of its kind. The company has needed it badly to take care of its extensive hardwood flooring business. The output will be 10,000 feet of maple flooring a day. The management believes it will have no difficulty finding a market for this output, as maple is now more largely used for flooring than any other lumber.

The first car of lumber has left the plant in the building at all times during the day and night.

The main work room is provided with an S. A. Woods No. 19 new flooring machine, also two other machines necessary to completely finish the product. The machine installed here is an improvement over all other machines that the Woods company has turned out. The machines dress, match, hollow and groove the lumber. The big machine is provided with eight saws which can be adjusted to turn out flooring of any desired width.

The consolidated company is fortunate in securing the old Pioneer furnace site for the plant, as there is ample space for tracks, and abundant floor room in the buildings. The main operating room, where the machines are located, is connected with a song room, twenty-five by forty feet in size, and immediately to the north there is a three-story building, thirty by forty feet in dimensions, that will be used for a ware house. Immediately back of this there is brick building, twenty by thirty feet in size, that is to be used for the storage of oil and other supplies. The engine and boiler room is thirty by thirty-four feet in dimensions and connected with it there is a shaving deposit bin, twelve by sixteen feet in size. All of the shavings and sawdust will be carried in a machine to this bin by means of a fan. A bin, twelve by sixteen feet, has been constructed for clippings, which will be sold for fuel. These will also be carried direct from the operating room by a thirty foot hoist that is to be used for the storing of lumber, and the fuel clippings will be removed from the bin as fast as it is filled.

The plant is to be in charge of H. C. Balch, who operated a similar mill at Curtis, on the Grand Marais branch of the Marquette road, for a few years. Mr. Balch had charge of plants for a number of years before engaging in the mill business on his own account. About twenty men will be employed.

TO PROFESSIONAL AND HOME DRESSMAKERS.

I am prepared for this season to make twenty different styles of cloth-covered buttons in all sizes. All plain, flat covered buttons from sizes 18 to 36 at 20c per dozen. Others from 25c to 75c per dozen, 10 per cent less to professional dressmakers and dry goods stores. All orders filled same day. Special attention to mail orders.

WILLIAM DAVIS, Opera House Block, Marquette, Mich. (4-20-24)

LOCAL LACONICS.

Henry Stuhl returned to his home at Calumet Wednesday, after a few days visit with E. D. Raymond and family.

Edward O'Donoghue entertained a number of his young friends yesterday afternoon between 4:30 and 5:30 o'clock at his parents home on Main street.

James Pennala has returned from Bisbee, Ariz., after three years absence. It is possible that he will decide to again locate here. Mr. Pennala's mother lives in Negaunee.

Mrs. Harry Jackson, who submitted to an operation at St. Mary's hospital, Marquette, a few days ago, is getting along nicely and will be able to return home in a few days.

A steam shovel is to be operated this season loading ore at the Richmond mine, on the Cascade range, where work was recently resumed. The management expects to considerably increase the output this season.

30 Years of Success

The Stafford Drug Co Offers a Remedy for Catarrh. The Medicine Costs Nothing If It Fails.

When a medicine effects a successful treatment in a very large majority of cases, and when we offer that medicine on our own personal guarantee that it will cost the user nothing if it does not completely relieve catarrh, it is only reasonable that people should believe in, or at least put our claim to a practical test when we take all the risk. These are facts which we want the people to substantiate. We want them to try Rexall Mucuo-Tone, a medicine prepared from a prescription of a physician with whom catarrh was a specialty, and who has a record of thirty years of enviable success in his record.

We receive many good reports about Rexall Mucuo-Tone than we do of all other catarrh remedies sold in our store, and if more people only knew what a thoroughly dependable remedy Rexall Mucuo-Tone is, it would be the only catarrh remedy we would have any demand for.

Rexall Mucuo-Tone is quickly absorbed and by its therapeutic effect tends to disinfect and cleanse the entire mucous membrane tract, to destroy and remove the parasites which injure the mucous membrane tissues, to soothe the irritation and heal the soreness, stop the mucous discharge, build up strong, healthy tissue and relieve the blood and system of diseased matter. Its influence is toward stimulating the mucous cells, aiding digestion and improving nutrition until the whole body vibrates with healthy activity. In a comparatively short time it brings about a noticeable gain in weight, strength, good color and feeling of buoyancy.

We urge you to try Rexall Mucuo-Tone, beginning a treatment today. At any time you are not satisfied, simply come and tell us, and we will quickly return your money without question or quibble. We have Rexall Mucuo-Tone in two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Marquette only at our store,—The Rexall Store, The Stafford Drug Co.

Diarrhoea should be cured without loss of time and by a medicine which like Chamberlain's Colic, Cholera and Diarrhoea Remedy not only cures promptly but produces no unpleasant after effects. It never fails and is pleasant and safe to take. Sold by The People's Drug Store.

MORGAN TRACT LEASED.

Negaunee Man Secures Rights on Promising Mineral Lands.

George J. Maas has been granted a fifty-year lease on the Morgan forty, which lies between the Fogarty and Caspian mines, at Iron River, Menominee county. The tract is owned by Eli Morgan of Fond du Lac and George Fish, a well-known conductor who runs a Northwestern freight train between Escanaba and Ishpeming.

The owners of the land gave Mr. Maas the lease on favorable terms. They believe that a big body of ore will be located there. The Caspian ore body dips toward the Morgan, and has been opened up to within 200 feet of the Morgan line. The latter tract has never been explored, but in all probability Mr. Maas will have drills in operation there before the close of the year.

Mr. Maas said yesterday that he will put down deep drill holes, as he is satisfied that the ore lies at a considerable depth, judging from the conditions of the underground workings on the adjoining properties. Messrs. Morgan and Fish, who were in the city Tuesday, reported that they had several opportunities to lease the tract to other parties, but they decided that they would offer it to Mr. Maas, as they are satisfied that he will give it a thorough test.

BASEBALL DANCE TONIGHT.

The members of the Negaunee baseball team and their friends will be out in force tonight at the benefit ball at the Adelphi rink. Many tickets have been sold and it is expected that there will be in the neighborhood of from 300 to 400 couples in attendance. A large delegation is coming over from Ishpeming and it is also expected that a number will be put from Marquette. The rink has been attractively decorated and the floor is in fine condition for dancing. A special street car will leave here for Ishpeming at the close of the dance.

STARTED EXCAVATING.

L. E. Chaussee has started excavating for the foundation of the Negaunee National bank's new block on the former site of the Moral House on East Iron street. Matthew Maloney who purchased the building, removed the last of his material from the lot Wednesday. Mr. Chaussee has already ordered considerable of the material that will be used in the construction of the block.

CONTEST THIS EVENING.

Orators from Various Upper Peninsula Schools Will Compete.

The annual upper peninsula oratorical and declamation contests will be held this evening in the auditorium of the Negaunee High school.

Urging Negaunee people to attend, Superintendent Schurtz writes as follows: "I wish through The Mining Journal to extend an urgent invitation to the people of Negaunee to attend the upper peninsula oratorical contest, which takes place in the auditorium of the high school building this evening. It has been left to me by the chairman of this association to fix the price of admission, and I thought best to make it so low that all may feel they can attend. Admission is merely nominal; fifteen cents for adults and ten for young people and children. It may not be known that this is quite an event in educational circles and that usually the attendance in the places where it is held is quite large. Unfortunately, at the present time, there are many other attractions, both in Negaunee and our neighboring cities of Marquette and Ishpeming, and for that reason I wish to urge a large attendance. Besides the speaking, there will be music to enliven the program, and I am sure those who attend will spend a very pleasant evening. I feel that it is incumbent upon the citizens of Negaunee to show their appreciation of the choice of Negaunee this year as the place of meeting."

Respectfully,
"ORR SCHURTZ."

There will be four contestants in oratory and four in declamation.

Diarrhoea should be cured without loss of time and by a medicine which like Chamberlain's Colic, Cholera and Diarrhoea Remedy not only cures promptly but produces no unpleasant after effects. It never fails and is pleasant and safe to take. Sold by The People's Drug Store.

MANY WATCHING FOR HALLEY'S COMET

BELIEVED THAT SOME HAVE MISTAKEN THE STAR VENUS FOR THE RARE VISITOR.

WHERE TO LOOK FOR IT

May Make Its Appearance Any Morning Now, Midway in Imaginary Line Drawn from Venus to Point Where Sun Rises.

Halley's comet is now one of the most generally discussed subjects of conversation among Marquette people. The report, published yesterday, that Patrick Deasy, night watchman at the Carr furnace, had sighted the comet Wednesday morning, was questioned by many who have also been rising at the wee, sma' hours in hope of catching a glimpse of the astronomical phenomenon. A number who were watching for the comet yesterday morning state that it was broad daylight at 4:30 a. m. the time when Mr. Deasy saw the comet, and that the comet, if visible at all, would be visible earlier than that. These persons believe that Mr. Deasy mistook the planet Venus for the comet, which would be very natural to do, as when this star first rises in the morning it has looked latterly like a dull red ball of fire, becoming brilliant only as it mounted higher in the heavens.

The comet, however, is likely to be visible any morning now, and people who have been foregoing their beauty sleep should not become discouraged, for before many days have passed their vigilance will surely be rewarded. The method to be followed that is most simple, and on the morning previous to when you go comet chasing, watch for the sunrise. Locate as nearly as possible with a tree or other object the place where the sun appears just as it clears above the horizon. Then locate the bright star Venus, which is the brightest one in the east and cannot be mistaken. From the star Venus draw an imaginary line to the place where the sun rises and about half way between Venus and this spot on the imaginary line, Halley's comet can be discovered before the sun rises.

A Dark Sky Best.

A very dark sky will prove to be the best for seeing the comet, as this body will cast a delicate light, which will be much better contrasted against a black or at least dark background. The comet rises at present about 3:55 a. m. After about 4 the daylight will interfere with the seeing. Venus rises now at about 3:20 a. m., fifteen minutes before the comet, and so it is of no use to look for the comet before Venus comes into sight. The comet is about 13 degrees north of the equator, and its position is near three faint stars that form a triangle and with which it forms an irregular four-sided figure. Astronomers say that the best time to observe the comet without instruments is between 2:45 a. m. and 4:00 a. m. The best place to view the wonder at present is anywhere from the lake front. Until May 18 the comet will be in the morning sky, but after that date, when it passes between the sun and the earth, it will be visible in the evening, and this will continue until well along in June.

With the coming of Halley's comet the world will have ample opportunity of witnessing under most favorable conditions one of the comets which has perhaps proved itself to be the most interesting from a general standpoint of all cometary bodies. It has spread terror, it has been an incentive for the gathering of knowledge. It has caused amazement; it has apparently assisted to prove and corroborate the vain system of astrology, the natural forerunner of astronomy.

From the year B. C. 11 periodically, at approximately seventy-six year spaces, we have records of people at large witnessing this luminous, tailed comet. The mathematical work of predicting the appearance of the body is almost beyond belief. The history of this comet and its supposed influence reads like a fairy tale. It is filled with a series of bloody wars, deaths and other dire events which throughout the dark ages astrologers professed were the direct result of the influence of the comet on the affairs of the world. Even this month a book has been published claiming "The ominous peril is in our sky? Superstition will you riot and every catastrophe which happens within the time the body is in sight will have its band of supporters blaming Halley's comet as the cause of it. Poor Halley, if the allegations were in the least part true, would have a sorrowful monument to mark his earnest labors in the astronomical field.

The comet has been sung by white-haired bards. It has been rudely pictured by ignorant men and will now be accurately photographed by learned scientists within the month. It has been pictured on cloth with delicate stitches to decorate the interiors of rude castles of the olden times when foundation was in vogue. Literature of old is filled with references to this comet and either this or other similar comets have found a place in popular superstitions.

The Discovery by Halley.
Edward Halley made an extended study of the comet 228 years ago when it was shining over London, and from his study of its movement he figured out the time when it would appear again. He hit the time within a few days, the result being it has since borne his name. Halley, of course, did not live to see it come into sight again. The appearance occurred seventeen years after his death, on Christmas night.

On Aug. 15, 1682, an assistant of Flamsteed at the Royal observatory, Greenwich, discovered a comet. Halley, however, saw the same one a day later while on his way to Paris, and Picard, at Paris, found the comet on Aug. 26. Halley made use of Flamsteed's observations and calculated the parabolic elements of the comet in accordance with the laws of gravitation, which by the way, Halley assisted Newton to publish to the world. Halley observed other comets and by their similarity deduced from "the like situation of their planes and perihelions that the comets which appeared in the years 1531, 1607 and 1682 were one and the same comet that

had made three revolutions in its elliptical orbit." From this reasoning he decided that the time needed by the comet to complete its elliptical course was approximately 75 1/2 years. Halley gave his opinions to the world in a paper prepared in Latin and first read before the Royal society. He died in 1742 and was buried in the churchyard of St. Margaret's Lane, which is near Greenwich.

People at first did not take his theory very much to heart and were rather skeptical both of this and the law of gravitation brought forth by Newton, from which Halley based his theory. Clairaut, a Frenchman, however, took the matter seriously in hand. He started calculating, which was an immense task, there being so many other bodies in the heavens having a direct influence on this comet. Every planet has its gravitational "pull" and these forces must be taken into consideration in predicting the appearance of a cometary body. For instance, it was necessary to compute the distances of the comet from the disturbing planets, Jupiter and Saturn, not only in 1682, when it was last observed, but for the previous revolution, or for a space of more than 150 years. Some faint idea of the magnitude of the task can be gained when it is stated that for a period of six months Lalande computed from morning to night, with short intermissions at meals and for sleep. His wife's assistance was also so valuable that it has been said that without it the task would have been completed, and even then Lalande contracted an illness from which he never recovered. Clairaut published his belief in the theory of Halley, but it remained for a farmer named Peltzsch, living near Dossow, to witness the comet at its next appearance.

Accurate Knowledge Now Possessed.

The outlining of steps taken to locate definitely the elusive comet would occupy a large volume, with hundreds of names even then omitted. However, the accurate knowledge now possessed of the previous appearance of the comet is due in a large part to ancient Chinese records. European domestic records and various more or less indefinite personal records made by private individuals.

Practically everything tending to show the everyday life of ancient peoples aptly demonstrates the fact that they fear evil comets. Only within recent years people have really ceased to fear a return of one of the comets. Even now in less civilized countries people are beginning to feel worried as to what the natural phenomena can mean. An educational campaign has been started in China, telling the people not to fear when the comet appears. Posters have been made by thousands, explaining just when it will appear, that they may be forewarned and thus not be suddenly frightened.

Commander Knapp, the hydrographer of the navy, has issued a request to all ship masters to make close observations with their binoculars, spy glasses, or the low power eye piece of their sextants, with a view to informing the government with regard to the brightness of the comet, compared with the stars. In order that the work may be somewhat systematic a chart has been prepared containing physical data about the comet and showing its calculated position in the sky from March 11 to May 30.

Every possible precaution has been taken that all data may be gathered regarding the wonderfully speedy body on its elliptical orbit. As early as Dec. 22, 1908, an American astronomer, O. J. Lee, at the Yerkes observatory, Chicago, commenced a photographic search for Halley's comet.

Every woman in Marquette will have the best chance in the world to SUIT herself.

KNIGHTS OF COLUMBUS WIN FROM Y. M. C. A.

BY SCORE OF 35 TO 15, MARQUETTE TEAM ANNEXES THE BASKETBALL CHAMPIONSHIP OF MARQUETTE COUNTY.

Victory fell to the lot of the Marquette Knights of Columbus team in the basketball game with the Ishpeming Y. M. C. A. five, played at Legion Hall last evening. Marquette took the lead early in the game and held it until the end, the final score being 35 to 15. The crowd in attendance was so large that the work of the players was considerably interfered with, and a large proportion of those who saw the game remained for the dance that followed.

Marquette won the game by superior accuracy in throwing baskets and by excellent defensive work. During the first half, both teams played fiercely and with speed and ginger. In the second half, the play was not so fast nor so interesting, though at times there was excitement to burn. In spite of the intense rivalry and the fact that it was the deciding contest in a series of seven games, the game was played without any wrangling or personal ill feeling.

At the end of the first half, Marquette had scored eighteen points and Ishpeming eight. Both teams started out strong and the first basket was scored in a few seconds. In this half, Ishpeming had nearly as many opportunities to make baskets as Marquette, but was unable to put the ball in the right place. Marquette, on the other hand, took advantage of every opportunity to score points. Ring and Connel, especially, making some remarkable throws. Ishpeming had hard luck in this respect, and several times the ball rolled around the rim of the basket and then dropped outside.

In the second half, Marquette took things easier, but Ishpeming also played with less vim, and each team made one less point than in the first round. Quite a number of fouls were called on both teams, each team making five points on penalties. The work of Referee Butler and Empire Catlin was excellent, and not a single kick was registered against their decisions.

It is to be regretted that this crucial game could not have been played on a neutral floor. The Ishpeming players were evidently not at home in the smaller hall, and would undoubtedly have made a much better showing in their home city. However, both teams agreed upon playing the game in Marquette and the Knights of Columbus' claim to the basketball championship of the county cannot be gained.

Every woman in Marquette will have the best chance in the world to SUIT herself.

BASEBALL TANGLE SETTLED AT LAST

DIRECTORS OF THREE MARQUETTE COUNTY TEAMS CAME TO AN AGREEMENT AT MEETING HELD IN ISHPERING YESTERDAY.

The long wrangle between the managers of the Marquette, Ishpeming and Negaunee baseball teams has at last been settled. At a meeting held at Ishpeming yesterday, after several hours of heated discussion, it was agreed to form a baseball league, composed of Marquette, Ishpeming, Negaunee and Crystal Falls. The Marquette directors who attended the meeting were John Stenglein and W. O. Johnson. The Marquette directors preferred Muniting to Crystal Falls as the fourth team, but the up-road men would not consider the Alger county nine. A special train will be run to Crystal Falls whenever a game is played in that city so that the Marquette team can make the round trip in one day.

Sixty-five per cent of the gate receipts to go to the home team, win or lose, and 35 per cent to the visiting team, was the basis on which the three teams have agreed to play this season. Negaunee and Ishpeming have agreed to play with Crystal Falls on a 60 and 40 per cent basis, and Marquette will have to make whatever arrangement is mutually agreeable with the Iron county management. It is probable that Marquette will play with Crystal Falls on the 60 and 40 per cent basis.

A proviso of the agreement between Marquette, Negaunee and Ishpeming is that in case the receipts at any game, including grand stand receipts, do not amount to \$200, all of the receipts of that game will go to the home team, and all of the receipts of the next game played between the two teams (play in the other city) will go to that home team. After the two games have been played, the 65 and 35 per cent arrangement will be in force, as before.

This proviso was demanded by the Ishpeming and Negaunee managements, because, they alleged, Marquette has not been in the habit of policing her grounds properly, and that in consequence, many of the spectators obtained admission by the "over-the-fence" route without paying their quarters. Those who were on watch at the game last Sunday agree that there is considerable truth in this complaint, and the proviso was inserted as an incentive to make the Marquette directors more strict in this respect. One of the directors stated last evening that hereafter policemen would be stationed outside the fence and that every effort would be made to prevent persons clandestinely gaining admission to the baseball grounds.

While the regular season will not begin until about the middle of May, according to the agreement made yesterday, Marquette will go to Ishpeming Sunday to play an ante-season game, and the following Sunday, Ishpeming will play in Marquette. At both these games, the receipts will be divided half and half. Fans generally will commend the action of the Marquette directors in coming to an agreement with the Negaunee and Ishpeming managements, even though the terms are not all that might be desired, from a Marquette standpoint. It will mean first class baseball this summer, and that, after all, is what everybody wants.

Every woman in Marquette will have the best chance in the world to SUIT herself.

300 CANAL PASSAGES.

A LIQUOR LAW DECISION.

A recent ruling of the attorney general may materially affect the liquor question at DeTour, Chippewa county, as well as many other villages in Michigan where local boards have refused to grant licenses after the county have gone "wet." The matter first came up at Novi, in Oakland county. The board of trustees of that village turned down one application, after having passed a local ordinance forbidding saloons, in response to a petition from the W. C. T. U. An application from a liquor dealer in Wisom in the same township met with the same fate. In response to an inquiry from Novi, the attorney general gives the opinion that a town board or village council cannot refuse arbitrarily to grant a license and that where the provisions of the Wagner-Cranston law are fully complied with it is obligatory to grant the license sought if the bonds offered by the applicant are sufficient. The township of Novi could have two saloons under the 500 ratio. This ruling also affects Ortonville in Oakland county and several other villages in wet counties. It is understood that the three liquor dealers at DeTour will make no further effort for the present to secure licenses, though the action of the village board may result in closing up the two hotels there. While a council may not arbitrarily refuse to grant a liquor license, it has authority to set the fee at any figure it sees fit, if over \$500; it may make it \$100,000, if desired.
