MARQUETTE, MICH., APRIL 23.

Entered as mail matter of the second  
class in the postoffice at Marquette, Mich.

And to think that Fowler and Uncle  
Joe were once as close as two peas in a  
pod!

Good water at the cheapest price for  
which good water can be obtained. That  
is what the Marquette public wants.

After July 4 Jack Johnson's roll will  
make people's eyes stick out even fur-  
ther, or they will not be able to see it at  
all.

Does that baseball treaty of peace  
provide for an arbitration commission  
for the settlement of differences of opin-  
ion that may arise in the future?

President Taft is confident that the  
retirement of Senators Aldrich and  
Hale will in no manner affect the ad-  
ministration's legislative program. Why  
should it?

If Detroit's traction muddle is ever  
finally settled, it will be a sorry day for  
the newspapers. It can now always be  
fallen back on when a dull day is en-  
countered.

The American newspapers' past  
few days have printed nine thousand  
nine hundred and ninety editorial  
leaders on the general text "The Old  
Order Changeth."

Mr. Roosevelt has taken Paris by  
storm. His receptions increase in enthu-  
siasm the farther he gets along on his  
journey, and they are destined to have  
their culmination in New York.

The terms on which the Marquette  
county baseball teams are to play ball  
are a matter of indifference to the gen-  
eral public. All it has wanted has been  
assurance that they would play.

Judge Flannigan told a liquor law vi-  
olator at Escanaba this week  
that he would be lenient with him  
because his was a first offense. He then  
levied a fine of \$95 and \$5 court costs.  
Tableau.

It is apparent that discussion of the  
interesting question, who does and who  
does not belong in the Republican party  
may well be postponed until it is de-  
termined that the party is going to  
have full control of the next congress.

Mayor Seidel of Milwaukee would put  
a crimp in public dance halls of objec-  
tionable character by opening the  
school, under proper restrictions, for  
Saturday night dances for the peo-  
ple. Sound radical, but in work-  
ing out would not unlikely prove to be  
an excellent idea.

If Boss Aldridge ever had any doubt  
that he is an undesirable citizen the  
comment of the press, Democratic, Re-  
publican, Independent and whatnot, since  
the collapse of his attempt to boss him-  
self into office should have disillusioned  
him. It has been frank to the point of  
brutality.

"The Thirty-second New York has re-  
sponded," says the New York Times, "to  
the Fourteenth Massachusetts, and in  
both districts the people have given their  
answer to Winona. . . . The  
meaning is the same. The people do  
not at all agree with President Taft  
when he says that the Payne-Aldrich tar-  
iff is a 'good tariff,' one of the best we  
have ever had."

Mr. Bryan will stump Missouri for the  
prohibitionists. However, he denies that  
he has any desire to inject the liquor  
question into national politics and says  
he does not expect to see it the "para-  
mount issue" in his day. This is Mr.  
Bryan's manner of answering those critics  
who have ventured the prophecy that  
the thing he is looking forward to is  
another campaign for the presidency on  
a "dry" platform.

Representative-elect Havens, like Rep-  
resentative Foss, of Massachusetts, as-  
sured the voters that if he was elected  
to congress he would not be a candidate  
to succeed himself. That he meant  
what he said is shown by his post-elec-  
tion statement that the Democrats of  
his district will have to secure another  
candidate for the election the coming  
fall. He considers that, in overthrowing  
Aldridge, he has done enough, and his  
personal affairs will not permit him to  
contemplate continued political service.  
The Republicans will have to get another  
candidate, too, and this time there is no  
doubt they will select one who does not  
need laundering.

Senator Hale, of Maine, is to retire  
because his considerable age disinclines  
him to enter into the hurly burly of a  
hard fought campaign for re-election,  
yet Senator Hale is the junior of our  
Senator Burrows. Senator Hale is said  
to be seventy-four. Whatever his ex-  
act count of years, Burrows has five  
months on him. Aldrich is another sen-  
ior who is retiring because age and in-  
disposition have made it inadvisable for  
him longer to undertake legislative du-  
ties, yet Aldrich is a youngster com-  
pared with Burrows, who is four years  
and ten months his senior. Hale and  
Burrows were born way back in the '30s.  
Hale entered the house of representatives  
in 1868, Burrows followed in 1872 and  
Aldrich in 1878. Hale and Aldrich are  
the last of the Big Six, whose decisions  
were, to all intents and purposes, law  
in the senate. Of late years the senate has  
rapidly been becoming a body in which  
comparatively young men are playing  
the most important parts. The retire-  
ment of Aldrich and Hale will quicken  
this apparent tendency. The future in  
the senate will lie with men in possession  
of the fullness both of their physical and  
mental powers, men moved by the spirit  
of the times and in sympathy with mod-  
ern political thought. Some of the  
keenest of political observers have main-  
tained that it was realization of this  
fact that in large measure led to the de-  
cision by Aldrich and Hale to volun-  
tarily withdraw. They can see that they  
are of a generation of statesmen past  
and gone, a generation whose work is  
done, and that the future, whatever it  
may be, belongs to a class of men  
schooled in different political theory and  
actuated by aims and ideals with which

The convention for the Sixth Indiana  
congressional district adopted resolu-  
tions that far outdo the resolutions of  
the recent Indiana state convention in  
unblushing consistency. The conven-  
tion nominated Representative Bernard  
and commended his legislative record,  
one of the principal items of which was  
his vote for the tariff bill. Then the  
delegates turned around and commended  
the record of Senator Beveridge,  
whose vote against the tariff bill has  
placed him in the insurgent category.  
The convention topped off by com-  
mending the Taft administration. Politi-  
cal conditions in the Republican ranks  
in Indiana are badly mixed this year,  
and apparently they are nowhere worse  
mixed than in the Sixth district.

Angus Kerr, of Houghton county, who  
is ambitious to succeed Representative  
Young in congress, has started an active  
campaign. He has been in Menominee  
this week, and the Menominee Herald-  
Leader informs us that "Mr. Kerr is a  
progressive, an anti-Cannon man and,  
while a Republican to the core, is a be-  
liever in individualism in political af-  
fairs." From now on Mr. Kerr expects  
to give his campaign his personal at-  
tention, and he plans a vigorous cam-  
paign. The continuance of the session of  
congress has so far prevented Representa-  
tive Young from giving anything but  
long range attention to his political  
views, but congress won't run on for  
ever, and presently Mr. Young will be  
on the ground to captain his campaign.  
What with this congressional distur-  
bance, the first the district has seen since  
Mr. Young defeated the late Carlos D.  
Shelden in the convention held in Mar-  
quette, the spirited fight for the gov-  
ernorship, the campaign of Representa-  
tive Townsend to overturn Senator Bur-  
rows, and thus add another to senate  
veterans on the retired list, to say  
nothing of campaigns for legislative and  
county offices, the political season prom-  
ises to be one of unprecedented activity  
and colorful developments. Previous  
campaigns will be pale and insipid in  
comparison, for never before has the di-  
rect nomination law applied to practi-  
cally everything from coroner to United  
States senator. It's a great institution  
for quickening the action of the political  
show.

Commenting on the defeat of Aldrich  
in the Thirty-second New York district,  
the New York Globe says: "The Repub-  
lican party will not follow or elect men  
that they believe are in politics for the  
benefit of their own pockets and whose  
alleged partisanship is merely a mask to  
conceal greed. It is worth while to have  
this demonstrated as often as may be  
necessary, for constantly the notion gets  
into the heads of "organization" men  
that the party is their private property  
and that the business of government is  
to make them rich. The Republican  
party does not approve or condone cor-  
ruption, and is ready courageously to  
clean house and to smite the men who  
abuse its confidence and misrepresent its  
spirit. So a record is made justifying  
reliance on the Republican party as an  
agency for good and one of the excuses  
for permanent departure from it re-  
moved. The crushing defeat of Aldridge  
should be a sufficient warning to Mr.  
Barnes and Mr. Woodruff. Notice is  
served on them to revise their policies  
and mend their ways. The club that  
smote Aldridge, their associate, is poised  
him to descend also on their heads. Every-  
thing done by Governor Hughes may not  
be approved, and his advice may not in  
all matters be the last word of wisdom,  
but it is generally believed that he is  
pursuing public and not private ends. He  
presents a personality about which com-  
plicity may center. Already the bosses  
and the bosslets have done great harm.  
With the Rochester telegram instructing  
them will they provoke greater and  
more embracing wrath? Are they still  
fatuously determined to destroy chances  
of Republican success?"

Senator Hale, of Maine, is to retire  
because his considerable age disinclines  
him to enter into the hurly burly of a  
hard fought campaign for re-election,  
yet Senator Hale is the junior of our  
Senator Burrows. Senator Hale is said  
to be seventy-four. Whatever his ex-  
act count of years, Burrows has five  
months on him. Aldrich is another sen-  
ior who is retiring because age and in-  
disposition have made it inadvisable for  
him longer to undertake legislative du-  
ties, yet Aldrich is a youngster com-

Burrows were born way back in the '30s.  
Hale entered the house of representatives

Strength and Vigor Restored

Marvelous Cure Effected. Doctor Perlie of the U. S. Navy Prescribed Duffy's Pure Malt Whiskey For His Mother and It Restored Her to Health.

"Two years ago I had peritonitis and after recovery I had indigestion of the worst form. I tried all kinds of medicines and tonics that did me no good."

I staggered while walking the streets. My son Doctor Perlie of the U. S. Navy ordered me to take Duffy's Pure Malt Whiskey. I took one bottle, but as other Physicians discouraged me I gave it up.

After a while I again concluded to try the whiskey and used four bottles. It cured my indigestion, my strength and physical vigor were restored and I am now in perfect health.

**Supervisors' Meeting**—A meeting of the county board of supervisors was called for next Wednesday at 11 o'clock. This will be the first meeting of the new board and one of the chief matters of business will be the election of a chairman and appointment of committees. Several members of the board have pleaded with Chairman Powell to reconsider his decision not to be a candidate for reelection, and it is likely that he will be a receptive candidate for the chairmanship.

**Another Snow Storm**—The unseasonably warm weather of the last few weeks was abruptly changed into a snow storm yesterday and last evening an echo of a winter blizzard was raging. The storm started with a cold rain early in the morning, which continued during most of the day, and toward evening turned into snow. The weather service hoisted signals giving mariners warning of an approaching storm Thursday afternoon, but undoubtedly there are many vessels on Lake Superior, the crews of which must have had a tough time of it last night.

**Recount Ordered**—It appears that the election of Chas. H. Schaffer as supervisor of Onota township, Alger county, is to be contested by the opposing candidate. A case has been started in the Alger county court, entitled Wolf vs. Jacobson et al. This case grew out of the election in Onota township in which Mr. Schaffer was declared elected over Frank Wolf, the relator, by one vote. The latter then applied to the circuit court for an order to show cause why a recount should not be made. The order was granted. The motion to dismiss the application was denied and the recount ordered. It will take place some day next week in Munising before Judge Steete.

### SAMBROOK'S MILL BUSY.

Business at F. W. Sambrook & Son's mill on Division street is more brisk than for several years past. The planing mill and sash and blind factory is running night and day and even now the company is unable to get out its orders for building lumber as fast as the market demands. Owing to the low price of lumber for the past two years, the mills in this part of the country having not been operating to their capacity, and now builders are realizing that finished lumber for immediate delivery is mighty scarce. The Sambrooks report that there is a particularly strong demand for pine, hemlock, birch and maple seasoned planks, not only in Marquette but in all parts of the country. This increased demand had already had its effect on the market, which is now more active at better prices than have prevailed for some time.

The Sambrooks have had a million and a half feet of logs in the Chocoyee river, above Lakewood, for nearly two years. These logs are now being run down the river and will be loaded into cars and taken to the mill over the South Shore railroad, beginning next week. It is planned to start the saw mill the coming week, and these logs now in the river, together with a half million or so already in the yards, will be sawed as fast as possible. The mill has a capacity of about 20,000 feet a day of ten hours. Other logs will probably be purchased when those now at hand have been manufactured and, in all probability, the saw mill will be continuously operated until late in the summer. When the mill is once in operation, the Sambrooks will have about thirty men on their payroll.

### Northern Normal Notes.

The junior class will have charge of chapel exercises Tuesday morning of next week.

Members of the graduating class are rapidly being engaged for positions for the coming year.

Superintendent W. D. Hill of Crystal Falls was a visitor at the Normal Thursday and Friday.

Thursday morning Mrs. Rushmore delighted the students and faculty by giving a number of readings, which were rendered in her usual pleasing manner. "The Flower Scene" from Ingomar was thoroughly enjoyed by all, and Mrs. Rushmore responded to two encores with Dunbar's "Lil' Brown Baby" and the poem and song "My Rose."

Tuesday morning the senior class gave the following excellent program at chapel hour:

- Song, "1910"..... Miss Adele Hessel
- Class.
- Piano solo, "Alpine Storm"..... Miss Merle Gibson.
- Reading, "An Old Sweetheart of Mine"..... Miss Adele Hessel.
- Vocal solo, "May Time"..... Miss Christina Creer.
- Piano solo, "Silver Thistles"..... Miss Alphild Carlson.
- Original poem..... Miss Esther Lindquist.
- Vocal solo, "The Mighty Deep"..... Howard McKeogh.
- Song, "1910"..... Miss Eileen Seully
- Class.

On Tuesday evening Ygdrasil Literary society held its preliminary contest for the Kautan testimonial. The following program was carried out:

- Song, "The Olive and the Gold"..... Miss Minnie Larson.
- Oration, "Education"..... Miss Minnie Larson.
- Piano duet, "La Chasse aux Gavelles"..... Calvin Brotherton.
- Oration, "Influence of Books"..... Miss Pearl Madden.
- Vocal solo, "Garden of Roses"..... Schmie.
- Vocal solo, "Love Your Truly"..... Bond.
- Miss Angela Schumacher.
- Oration, "Benedit Arnold, the Patriot"..... Miss Margaret Barich.
- Piano solo, "Erotik"..... Grieg.
- Claudius Pendill.
- Oration, "The Silent South"..... Miss Emma Saunders.

The judges were the Rev. Bates G. Burt, Miss Ethel Cooper and James E. Russell. All of the orations were of excellent quality, and first and second place were awarded to Miss Margaret Barich and Miss Emma Saunders, respectively.

Oasis Literary society held the preliminary contest on Wednesday evening. Following was the program:

- Selection..... Oasis Orchestra.
- Oration, "Onward and Upward"..... Miss E. L. Thornton.
- Piano duet, "Le Carillon"..... Misses Adelaide Desrosier and Eva Parks.
- Oration, "The Power of Oratory"..... Haven C. R. Stewart.
- Selection..... Oasis Orchestra.
- Male quartet, Messrs. Belding, Stewart, Mullaly and McKeogh.
- Oration, "Heroic Lives"..... Miss Eva Watt.
- Piano solo, "Fifth Nocturne"..... Miss Adelaide Desrosier.
- Oration, "The Viking"..... Miss Esther Lindquist.
- Selection..... Oasis Orchestra.

The judges, the Rev. Ames Maywood, Miss Prall, and Harlow Clark, awarded first place to Miss Eva Watt and second to Miss Esther Lindquist. The orations in both societies were all of such a high standard, that the final contest, which will take place in about two or three weeks, promises to be a very close one, and all are looking forward to it with a great deal of interest.

### MUCH PRIMARY SCHOOL MONEY LYING IDLE

MANY DISTRICTS IN THE STATE RECEIVING MORE EACH YEAR THAN THEY CAN EXPEND—DIFFERENT SYSTEM OF APPOINTMENT RECOMMENDED.

Definite information and figures as to how the primary school fund is piling up in some counties in the state, as an absolutely useless fund of money which no one can expend, were presented to school officers and teachers in convention at Lansing by F. L. Keeler, deputy state superintendent of public instruction. The information is of great interest in view of Mr. Keeler's statement that while some districts are adding to this useless hoard other districts are without schools because of lack of sufficient funds with which to maintain teachers.

He read a list of twenty-one districts which now have on hand sufficient primary school funds to pay teachers' wages for at least four years, while district No. 2, Westphalia township, Clinton county, has \$8,544 on hand, sufficient to pay teachers' wages for the next twenty-two years. District No. 3 of the same township has an amount of this fund on hand which will pay the teachers' wages for twelve years; district No. 2, Nottowa township, Isabella county, has sufficient for ten years; Saginaw county has three districts with amounts large enough to pay this item of school maintenance for six, seven and ten years; Bay has four with money on hand now for the next seven, eight and eleven years; Kent has two, Byron No. 7 with \$1,422 and Grand Rapids No. 11 with \$3,051.

He also presented a list of sixty-six counties in which there are school districts having a sufficient amount of primary money on hand to pay teachers' wages for the next two years. In some of these counties there are numerous districts in which this condition prevails. Allegan has thirty districts in that class and had a surplus of \$94,876 July 1, 1908; Bay had fifty districts with an excessive amount on hand, the total being \$123,799; Gratiot had twenty-four districts, Isabella, Kent, Lapeer, Macomb, Midland, Saginaw, Sanilac, Tuscola and Wayne being other counties in which there are a large number of districts with more funds coming in than they can expend for teachers' salaries.

During 1908 these sixty-six counties received \$7,453,401 in primary school money—expended \$7,700,992 and still had on hand at the close of the year \$3,146,473 in funds which could not be expended for any purpose.

In discussing this matter Mr. Keeler pointed out that some townships have a large population while others have a small and widely scattered population. Speaking of the school census he said that 50 per cent of the census lists sent to the department have to be returned for correction, and said that in some cases it is impossible to secure an accurate census, adding that often in the same township one school district has a large census and thereby receives a large sum of primary money while an adjoining district has a small census and secures a small apportionment, yet because the school population varies in number is no reason why all the schools

should not be amply and thoroughly supported.

"If the state is to assist in the support of the public schools," said he, "every district should receive the same treatment at the hands of the state."

"Speaking of the apportionment of the deputy superintendent said: "In 1908 there were 1,054 school districts in the state having enough primary money on hand to pay teachers for two years. There are 7,319 districts and of this number more than 1,000 districts receive so small an amount of primary money, because of the small number of children, that it is practically of no benefit. It appears to me, therefore, that the present method of apportioning the primary fund is absolutely unjust and inequitable."

### THEATRICAL.

"The Third Degree."

The production of Charles Klein's latest successful play, "The Third Degree," which Henry B. Harris will present at the opera house next Friday night, should arouse the interest of every theatergoer of this city, who was fortunate enough to witness Mr. Klein's "The Lion and the Mouse." In "The Third Degree," the author has seen fit to change the locale to New York city, and taken for his central characters, members of the old Knickerbocker set and police officials. The story deals with a young man of good parentage, who is under suspicion of having occasioned the murder of a man found dead under the most peculiar circumstances. The police in their stupidity, seeking to unravel the mystery, and anxious to fasten the guilt on someone, seize upon the boy as their natural victim and bend their every effort, bringing to bear the entire weight of their

authority to convict him. The young man's wife, seeking the aid and assistance of his father, and being refused, sets herself to defeat the minions of the law in their efforts to miscarry justice, with no other resources save her woman's intuition, ingenuity, courage and cunning. With clearness and perspicacity, he unfolds this absorbing story in a most alluring way. Prominent in the cast are Paul Everton, Fernanda Elisou, T. L. Coleman, A. H. Symmons, Margaret Drew, Francis Bonn, E. A. Eberle, Alfred Moore, H. T. Forseman and Ralph Ramsay.

### WALL STREET VIEW IS GLOOMY.

Trade Reaction Is Feared and Stocks Are Sold Because of It.

New York, April 22.—Speculative operators in stocks started the day in so gloomy a frame of mind over the commercial and financial prospects that some excess was to be looked for in the steps they would take to express that view, a late demand to cover shorts being the consequence. The sentiment was due to the effect of various factors at work for several days and to which was added the news over night that a reorganization was necessary for the old and prominent Tefft-Weller Drygoods company.

The strong influence of the drygoods embarrasment on the speculative sentiment was due to the watchful spirit which has been aroused by the admitted difficulties growing out of the high price of cotton, which was explicitly assigned as the principal cause of the trouble. The cotton market itself is the object of anxious attention, owing to the expected speculative position known to be held in that market and the precarious situation for speculators which may result from a precipitate fall in prices or from the intervention of the government authorities in the affairs of the pool.

The idea of a trade reaction has been growing up in the stock market during the week from various causes. The light demand for pig iron, the plans for reducing the out-put, the reports of a falling off in the new orders for finished steel and, more than anything else, the signs of liquidation of United States Steel shares and the lack of effective support for them in the market, have made up an effective factor in forming this impression. The unsatisfactory views of the copper trade position have enhanced it. The almost stagnant demand for money was brought forward today as additional evidence, to which was added this week's reports of some shrinkage in the volume of the bank clearings.

An over-selling of stocks by the bears and their demand to cover shorts were held responsible for the rallying tendency of the late market.

### SECOND ELECTION HELD.

Washington, April 22.—In the second election made necessary to complete the list of officers of the National Society, Daughters of the American Revolution, Mrs. Sarah T. Kinney, of Connecticut, was chosen honorary vice-president, defeating Mrs. Charles H. Deere, of Illinois by a majority of fifty. The fourth vice president general elected was Mrs. Anna Caroline Benning, of Georgia, who was given a plurality over Mrs. Charles Russell Davis, of Minnesota, of eighty-seven votes.

### NOTICE OF SPECIAL ELECTION.

WATER LOAN BOND ISSUE.

To the legal voters of the city of Marquette.

Notice is hereby given that the following preamble and resolution were duly adopted by the board of Fire and Water Commissioners of the city of Marquette, at a session thereof held on April 19, 1910.

Whereas, it is deemed necessary by this board that permanent improvements be made in the water works system of this city requiring the expenditure of upwards of seventy-five thousand dollars, and it is deemed necessary by this board for that purpose to borrow the sum of seventy-five thousand dollars and issue bonds therefor; therefore be it resolved that the board do hereby resolve that the sum of seventy-five thousand dollars be borrowed by this board for the purpose of raising money with which to make permanent improvements in the water works system of this city; and that bonds be issued therefor pledging the faith and credit of the city of Marquette for the payment of the principal and interest of such bonds; and be it further resolved, That the question of making such loan and the amount proposed to be raised be submitted to the legal voters of said city, qualified to vote thereon, for their approval, at a special election for that purpose, which is hereby called to be held at the police court room in the city hall, in said city, on Saturday, the 7th day of May, A. D. 1910; the polls of which election shall be opened between the hours of eight and nine o'clock in the forenoon of said day and shall be continued open until nine o'clock in the afternoon of the same day, and no longer; at which election the members of this board, or any two or more of them in attendance thereat, shall be the inspectors and clerks thereof; which said election shall be by ballot, upon blanks to be furnished by this board, with suitable instructions thereon, on which ballot the question to be submitted shall be printed in the following form, to-wit:

Shall the board of Fire and Water Commissioners be authorized to borrow \$75,000 and issue bonds therefor, for the purpose of raising money with which to make permanent improvement in the water works system of the city of Marquette? Yes [ ] No [ ]

Resolved, That the secretary of this board give notice of such election by publishing notice thereof, at least two weeks before said election, in the following named newspapers published in said city, to-wit: "The Daily Mining Journal," and "The Chronicle"; and that copies of such notice shall also be posted in each ward of said city, at least ten days prior to such election.

Ayes—Commissioners H. H. Williams, P. C. Young, H. Bittors, H. W. Nessel. Notice is hereby given that a special election of the legal voters of the city of Marquette, qualified to vote upon the foregoing proposition will be held at the place and time and in the manner designated in the foregoing resolution, and that said proposition will be submitted to the legal voters of said city, qualified to vote thereon, in accordance with said resolution.

Dated April 20, 1910. JOHN P. KELIN, Secretary of the Board of Fire and Water Commissioners of the city of Marquette. (4-21-34)

**BASEBALL TOMORROW.**

Marquette and Ishpeming Teams Will Play at the Union Park.

If the weather is favorable for baseball, the teams of Marquette county will be in fairly good condition when the league series begins next month. The Ishpeming players have already had considerable practice and they are showing up to very good advantage. The nine has had three practice games and the fourth one is to be played tomorrow with Marquette at the Union Park grounds. The contest will start at 2:30 o'clock and the admission will be twenty-five cents. A week from tomorrow the Ishpeming team will give the Marquette team a return game on their grounds.

The fans here are much pleased that the managements of the two teams of the county have finally adjusted their differences relative to a division of the gate receipts, and it is now predicted that the coming season will be the liveliest that this county has ever seen. The baseball craze has caught the entire country and there will be a great number of teams in action this year than perhaps ever before in the history of baseball.

It is reported from Chicago, Milwaukee and other cities, that practically every baseball player of prominence has been picked up by teams that are to play in leagues in various parts of the country. The failure of the managements of the teams of this county to get together has created much discussion and a wide spread interest in the game, and it is certain that the contests early in the season will be largely patronized.

It is very generally believed here that the Crystal Falls team will bear watching, as the fans over there are loyal supporters of their nine and they will start out with a strong lineup. If Crystal Falls had not been taken into the Marquette county league, it is quite likely that a Menominee range league would be organized, as it is reported from there that Iron Mountain and other towns were planning to organize teams.

The Jones furnace interests of Iron Mountain, have secured control of the Spur mine, west of Michigamme. Representatives of the company were at L'Anse Thursday conferring with parties relative to a resumption of operations. It is anticipated that mining work will be resumed at an early date. The Spur has been inactive for some thirty years and it is said that the owners have leased it on very favorable terms.

The Jones furnace is now working satisfactorily, and it is reported that an average of twenty tons of finished product is being turned out daily. The process has proven a success and it is anticipated that the daily output of the plant will be considerably increased before the close of this year. In the event operations are resumed at the Spur, it is said that the Jones company will erect a furnace near the mine. The Spur ore is of the quality that the furnace people want and they believe from the tests they have made of ore of similar character produced on the Menominee range, that the product will work out to splendid advantage. At the time the Spur was in operation it produced 16424 tons of ore. One shaft was sunk and most of the ore sold came from underground though a lower grade ore than that found below was removed from shallow pits. The ore is magnetic and very similar to that produced at the Michigamme mine. The Spur is a half mile north of the Imperial, one of the Cleveland-Cliffs iron company's properties, and it lies quite convenient to the South Shore main line. It is in Baraga county, close to the Marquette county line.

**Kloman May Start Again.**

It was reported from Republic yesterday that in all probability the Kloman mine will be given another trial. Thoburn Gibson, son of Matthew Gibson, of Republic, and a former resident of that town, who has been one of the prominent mining men on the Menominee range for some years past, has secured control of the property, and it is reported that the property has been turned over to the Rogers-Brown Ore company. It is expected that the Rogers-Brown company will explore the property thoroughly and Republic people are of the opinion, from what they have heard, that some of the old workings will be pumped out, in order to ascertain just what the ore bodies look like. There are several shafts at the Kloman and one of them was partially pumped out some few years ago when the Flagler interests had control. The Rogers-Brown Ore company has a number of splendid properties in operation in the Lake Superior district.

Work has been started at the Erie mine, seven miles west of Republic, which was recently secured by the Independent Iron company, a new corporation under control of Detroit men. Several men are now employed, erecting buildings and the first carload of machinery arrived at Republic yesterday, and it will immediately be transferred to the mine by teams. The pump in the assignment is one that was delivered at Humboldt some four or five years ago and has since remained there on the depot platform. It is a new Cameron pump and is large enough to take care of all the water that will be returned from the Erie workings, at least at the start.

**A SHOWER.**

On Wednesday evening, April 27, at 8 o'clock, at the First Methodist Episcopal church, under the auspices of the Woman's Home Missionary society, a rather unique entertainment will be given. It will be a "silver shower" for "Black Dinah" and will consist of orchestra music, plantation melodies, readings from Danbar, the colored poet, and character pictures from Uncle Tom's Cabin. Refreshments served by attendants of color, and a silver offering received at the door. The receipts will be applied to the support of the society's protegee, a young colored girl in one of the industrial schools of the church.

## TAFT NOT LOOKING AHEAD.

He Devotes His Time to the Present Administration.

Criticism of Him Is Due Chiefly to Misunderstanding—He Is Not Seeking Political Popularity—There Is Nothing to Indicate, However, That He Does Not Want a Renomination.

Washington, April 22.—President Taft's jesting reference to the local banker's dinner to the length of his own presidential term should not be construed as indicating that he is attempting to set a bound to his own tenure of office. Addressing the bankers the president incidentally remarked that he was "going to spend three more years here."

But in their own personal interests, but if the result of popular prejudice should be to weaken the hold of the president on the country or to cause him to prefer retirement to public life, he would stand in a position to profit by his withdrawal.

## WHERE MOST LOBSTERS ARE.

Newfoundland Exports Twelve Millions Canned Ones Annually.

St. John's, N. F., April 22.—This island is the greatest breeding place for lobsters in the world. Of the \$10,000,000 spent each year for lobsters New foundland receives nearly \$1,000,000.

Some 3,000,000 pounds of lobsters are exported every year. Allowing that each lobster yields four ounces of "meat," this represents a kill of 12,000,000 annually, but only 50 per cent must be added for meales, diseased and immature ones, which the traps contain, and which are thrown outside the country's ports.

## A DAY OF REST MEANS MORE WORK OTHER DAYS.

United States Steel Corporation Believes That Its Recent Reforms Are Sound Business Propositions.

New York, April 22.—In explanation of the increase in the payments to the artisans of various subsidiary companies of the United States Steel corporation, and furthermore, in explanation of the determination of the company to make Sunday a true day of rest for the employees, some of those associated with the Steel company give reasons not generally understood or in fact known.

First of all, it is apparently the understanding of the Steel company management that as a pure business proposition, one in which all sentiment is eliminated, these recent undertakings are abundantly justified. And this reasoning illustrates a new philosophy of the relations between those who receive pay and those who pay it. That is to say, between capital and labor.

Of course, every one associated with the Steel company management, from President Corey down, is an employee of the company. There are no sinecures, nor does any one owe a comfort place in the management. It is the fact that he had political or personal influence, nor to any other reason than fitness or merit.

Among the many revelations made to the management of the United States Steel corporation is one which has troubled the management. An analysis of the relation of employees to the company or the individual who employs. The fundamental philosophy of the United States Steel corporation is the economic principle of securing the largest production for the highest quality at the lowest cost. And it has been demonstrated to the corporation's satisfaction that one element in gaining high production together with high quality and low cost, is the payment of wages and salaries to employees.

## BONIFACE NOT A MERCHANT.

Supreme Court Says Restaurant Keeper Can't Go Into Bankruptcy.

Washington, April 22.—That which a hungry person seeks when he goes into a restaurant is not merchandise and the proprietor who sends a waiter to serve him is not a merchant. The Supreme court of the United States has so decided.

The federal courts of New York were called upon to decide whether the Wentworth Lunch company of New York city was amenable to the national bankruptcy laws. It was contended that it was a corporation which is "engaged principally in trading or mercantile pursuits" within the meaning of the law.

The circuit court of appeals for the second circuit held that the lunch company was not a merchant. The Supreme court now affirms that decision.

## SUPREME COURT CHANGES.

President Taft May Have to Make Five Appointments.

This Would Equal the Record of Any Other Administration—Some Interesting Historical Court Statistics—The Bench Now Has Three Democrats and Five Republicans.

Washington, April 21.—With little more than a year of President Taft's administration gone, the ante-election period by far the most successful in 1908 would appoint several members of the Supreme court of the United States which has been realized in large part. Justice Lurton already has been placed on the bench, and now the president is considering just how to enter the list with a view to selecting a successor to the late Justice Brewer. Rumor that Justice Moody may resign on account of ill-health are insistent, although denied. Two members of the court, Chief Justice Fuller and Justice Harlan, are near their seventy-seventh birthday. Should these three resign, retire or die in the next three years, President Taft would equal the record for appointing justices since the organization of the court. That record was made by Jackson, and matched by Lincoln and Grant, each naming five members. By my president with the exception of Harrison, Taylor and Johnson has filled vacancies on the bench, although it was necessary for congress to reduce the number of members of the court to deprive of the privilege, Chief Justice Marshall set the record for justice at thirty-four years. This was equalled by Justice Field of Massachusetts, and Justice Field of California. The shortest period ever served was by Justice Harlan of Maryland, who was a member of the court for only a year.

Although there have been sixty-three members of the bench in the 120 years of its existence, only twenty-three, or just half the total, have been represented by law graduates in this list. New York and Ohio head the roll with seven members each. Massachusetts comes next, with six. The old states of Pennsylvania, Maryland and Virginia have furnished five each, while Tennessee and Kentucky followed with three each. South Carolina, North Carolina, New Jersey, Georgia, Alabama, Illinois and California, with two each, and Connecticut, New Hampshire, Maine, Iowa, Mississippi, Kansas, Michigan and Louisiana, with one member, and Illinois, Kentucky, Louisiana, California, Ohio and Tennessee have one each.

A wide range of age is presented to a president from which to choose his appointees. The youngest justice ever appointed was Justice Story of Massachusetts. He was thirty-two when selected. The oldest man ever securing a seat on the bench is Justice Lurton of Tennessee, who by reason of his service on this particular bench, is designated as the "baby member." He is sixty-six when appointed. The record up to that time was held by Justice Hunt of New York, who went on the bench at the age of sixty-two.

The ages of the present members are: Chief Justice Fuller and Justice Harlan, seventy-seven; Justice White, sixty-five; Justice McKenna, sixty-seven; Justice Holmes, sixty-nine; Justice Day, sixty-one; Justice Moody, fifty-seven; Justice Lurton, sixty-six.

Presidents have generally felt themselves limited to their own party in making appointments. There have been only two exceptions. President Benjamin Harrison, just as he was about to be succeeded by his friend, Justice Jackson of Tennessee, to the bench, President Taft was the other president to step over party lines when he named his old associate on the bench, Justice Lurton, another three Democrat on the bench—Chief Justice Fuller and Justices White and Lurton—while Justices Harlan, McKenna, Holmes, Day and Moody are Republicans.

The religious belief of members is not known here to have entered into their selection in any way. At present Justices White and McKenna are Catholics, while the others are of Protestant profession or inclination.

## THE SOUND SLEEP OF GOOD HEALTH.

The restorative power of sound sleep cannot be over estimated and any ailment that prevents it is a menace to health. J. L. Southern, Eau Claire, Wis., says: "For a long time I have been unable to sleep soundly at night, because of pains across my back and soreness of my kidneys. My appetite was very poor and my general condition was much run down. I have been taking Foley's Kidney Pills but a short time and now sleep as sound as a rock. I eat and enjoy my meals, and my general condition is greatly improved. I can honestly recommend Foley's Kidney Pills as I know they have cured me." For sale by all druggists.

At a special meeting of the Light and Power Commission, held at its office in the city hall, Marquette, Mich., on Saturday, March 19, 1910. Present—Chairman J. E. Sherman and Commissioners Pease and Rule. Minutes of last meeting read and approved.

Resolved, That the debt of this Commission to the general fund of the city of Marquette in the sum of six thousand dollars (\$6,000) be now paid by the cancellation of the note now held for \$5,002.84 and that an order be drawn in favor of the city of Marquette for the balance, namely \$257.16. This was duly moved, supported and carried. Note delivered to the city controller April 14, 1910. Voucher No. 1,928.

Whereas the business of the Commission shows a surplus for the year closing this day, according to our books on the street lighting of \$2,829.84, and on our business of \$13,973.96, a total of \$16,803.80, and, whereas such surplus are substantially equal per kilowatt in view of the increasing business and income are deemed larger than what is needed to pay the increasing and take care of all obligations, therefore:

Resolved, That until the further order of this Commission the same be charged the city of Marquette for our street lamps, which at \$2 per month each and the rate for lighting in the residential district be per kilowatt supported and carried and the same charges to take effect from March 1, 1910. The Commission adjourned. G. W. RULE, Sec'y.

JACKSON—Roy Lacey, son of a farmer residing near here, disappeared mysteriously the 20th of last December and every effort to locate him ended in failure. A body found in the lake at Chicago was thought to be his, but proved otherwise. Nothing was heard of the young man until Friday last, when he appeared here. He said he had been in Okalahoma where he had taken up a farm and to which he, his wife and children have gone.

by the attorney general's opinion. The district assessors declared that the actions of the commission, before the passage of the law in question brought on several damage suits against the state by corporations whose assessed valuations were being changed.

EARLY PLANTING.

Marquette County Farmer Established Record This Spring. Charles W. Taylor, who has operated a farm at Sands for the past thirty-five years, yesterday said that he did plant this spring earlier than at any previous time. He put in fifteen bushels of early potatoes on the 15th of this month, and he expects to have them on the market early in July. Twenty-five years ago this spring he planted potatoes on the 25th of April.

NEGAUNEE MEN IN BIG TIMBER DEAL

STUMPAGE OWNED BY THE WOLVERINE & MOHAWK SILVER MINING COMPANY HAS BEEN SOLD FOR OVER \$50,000.

The Wolverine & Mohawk Silver Mining company, controlled by Negaunee men, has sold to Powell & Mitchell of Marquette the entire stumpage on its 2,400 acres of land. The price paid is in excess of \$50,000. Some of the pine was removed from the land years ago, but there is still considerable fine pine remaining.

BASEBALL FANS PLEASED.

The Negaunee baseball fans were pleased to learn that the differences between the Marquette, Ishpeming and Negaunee managements had been satisfactorily adjusted. It is now believed that the league series will be the most spirited that has ever been played in this county.

WANT SAARINEN GIRL.

Several People Would Adopt Child Who Was Left an Orphan. Marshal Rough yesterday said that several letters had been received from people who would like to adopt the little Saarinens girl, who escaped death in the explosion of dynamite at the Nonesuch vein on Monday morning.

EARLY PLANTING.

UPPER PENINSULA CONTEST.

Newberry Takes First Place in Oratory, Menominee in Declamation.

The upper peninsula oratorical and declamation contests were held at the Negaunee High school last evening. The winners and their subjects were as follows:—Orators—First—Jay Hamilton, Newberry; "The Child Labor Problem." Second—Henry Spear, Menominee; "An Era of Conscience." Third—Albert Michelson, Calumet; "The Spirit of Grant." Fourth—Russell Finch, Ishpeming; "Corporate Greed."

First—Lucile Harmon, Menominee; "The Mother of Lincoln." Second—Anna Juntunen, Painesdale; "A More Perfect Union." Third—Anna Peterson, Newberry; "A Vision of War." Fourth—Powell Bargh, Ishpeming; "The Reply to Walpole." The judges were Dr. H. W. Sheldon of Negaunee, Attorney Harvey R. Hatch of Marquette and Rev. Mr. Johnson of Munising.

LOCAL LAONICS.

M. F. Hail of Menominee looked after business in the city yesterday. Joseph Schmitzer, the food inspector, was here yesterday from Houghton. Miss Emma Quinn left last night for Milwaukee, to be absent several days. Captain J. F. Finnigan of Bessemer arrived in the city yesterday morning on a short visit.

### COMMENCEMENT TO BE HELD JUNE 15

THIRTY-SIX GRADUATES WILL RECEIVE HIGH SCHOOL DIPLOMAS AT THAT TIME.

### PROGRAM NOT YET ARRANGED

It is Likely, However, That an Outside Speaker Will Be Engaged to Deliver the Address.

High school pupils are on the home stretch of their year's work and plans for commencement are already under way. Commencement this year will be held June 15, and on that day it is expected that thirty-six young men and women will receive diplomas, signifying that they have completed their high school course.

It has not yet been finally determined whether the commencement program will be entirely in charge of the pupils, as last year, or whether some outside speaker will be engaged to deliver an address on that occasion. Sentiment among the members of the school board seems to be in favor of having a speaker and it is probable that this plan will be decided upon. Unless a positive decision is arrived at speedily, a speaker will be the only alternative, as the time is getting very short for members of the class to prepare commencement essays and orations.

There will be thirty-six graduates this year, an unusually large class for the Marquette High school, those having been but twenty-two last June. In fact, the attendance at the high school, in all grades, has been larger this year than for some time past. There were an even 100 who entered high school from the eighth grade last fall, and few of them have dropped out during the year. The present superintendent is paying special attention to encouraging the grade pupils to take up high school work, and to induce those in the lower high school classes to finish the course, and the result of his efforts is being noticed in increased attendance.

Though there are many details of commencement week yet to be arranged, Monday night has been set aside, for the class day exercises and Tuesday evening will be given up to the senior banquet. Those who are to take part in the Class day program were selected at a senior class meeting a few days ago, but the names have not yet been made public. As in the past, the Class day program will consist of history, prophecy, will, statistics, musical numbers, etc., the whole program being given by the student body and of particular interest to members of the high school.

High School Play Given Up.

Until a short time ago, it had been planned to give a high school play some time in May, but this idea has been given up, owing to several of the pu-

pils of theatrical taste and ability already having all the work they can attend to. Therefore, there will be no school play given this year.

### INSTANTLY KILLED BY AN AUTOMOBILE

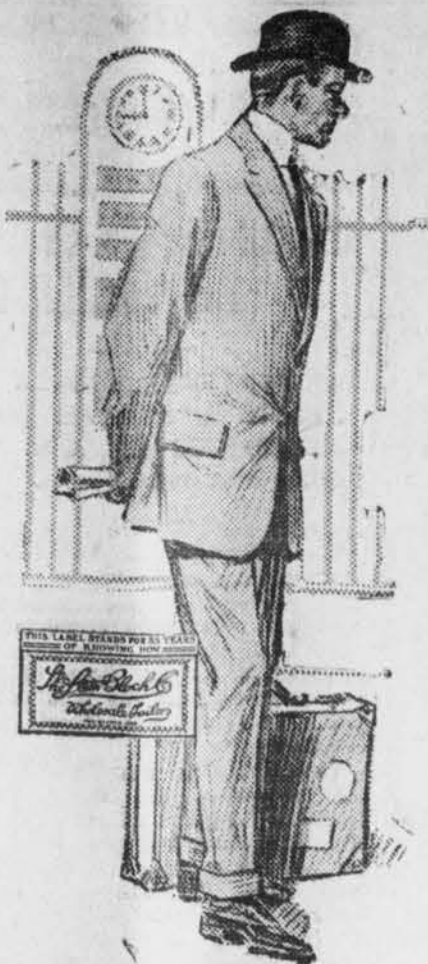

PARTICULARS OF ACCIDENT WHICH RESULTED IN DEATH OF MRS. F. N. MONROE, AT DULUTH.

Full particulars of the terrible automobile accident, which resulted in the almost instant death of Mrs. F. N. Monroe, mother of Frank Monroe and Mrs. John O'Meara, of this city, are contained in yesterday's Duluth Tribune. The victim was formerly a resident of Marquette and her untimely death has caused sorrow in many Marquette homes.

"While crossing First street at Lake avenue north about 3:30 o'clock Thursday afternoon, Mrs. Hannah Monroe, aged seventy-seven years, was struck by an automobile driven by Herbert Helmer, and almost instantly killed. She died while being removed to St. Luke's hospital, a short time after the accident. Helmer is charged with manslaughter in the second degree. He was later released from custody on a \$5,000 bond.

"Mrs. Monroe had been down town shopping. She was going north on Lake avenue. As she approached the crossing at First street the speeding automobile going west, gave a warning blast of the horn and for the moment Mrs. Monroe stepped back to avoid the machine. In the excitement it is supposed she became confused as to which side the car was about to pass her and jumped back directly into its path.

"The chauffeur, witnesses say, set his brakes, but the wheels slid the full length of the street intersection. The fender of the automobile struck the woman and dragged her for a distance of about four feet. People who witnessed the accident and heard the screams of the aged victim at once ran to her assistance.
