PRICE FIVE CENTS.

## GOVERNOR HUGHES GOES ON THE BENCH

New York Executive Will Succeed the Late David J. Brewer as an Associate Justice of the United States Supreme Court.

Tendered the Appointment by President Taft, He Has Formally Accepted the Post and Will Enter Upon His Duties in October Next, Retaining the Gubernatorial Reins Until That Time—Washington Greatly Pleased; Wm. J. Bryan Finds Fault.

Washington, April 25.—Governor Charles E. Hughes of New York, has accepted an appointment as justice of the supreme court of the United States to succeed the late Justice David J. Brewer, tendered him a few days ago by the president. He will enter upon the duties the second week of October next. He will remain as governor until that time. His nomination will go to the senate tomorrow and it probably will be confirmed without delay.

The president is elated over this evening. He said this evening: "I am very much delighted to secure Governor Hughes for the bench. He is a man of wide reputation and marked ability and it is a mighty valuable thing to have on the great bench of the supreme court a man of affairs. Mr. Hughes is forty-eight years old, and even if he should retire at seventy he will have had twenty-two years of solid usefulness on the bench."

The appointment was received with the greatest satisfaction here. It was reported once that Mr. Hughes would not accept, on account of the depletion of his private fortune, and that it would be necessary for him to return to his law practice. The president wrote Governor Hughes Friday. The acceptance was received today.

The justices of the court were apprised of the appointment, and expressed themselves as delighted. All thought that Mr. Hughes would make an excellent judge. Attorney General Wickersham and the members of the New York delegation in congress were equally pleased. Speaker Cannon declined to comment. Champ Clark said: "A good appointment."

Doesn't Suit Mr. Bryan. Lincoln, April 25.—Wm. J. Bryan, commenting tonight on the appointment of Governor Hughes to the supreme bench, says that many will regard the appointment as popular, but "no one who will examine his record can doubt that he is in close sympathy with the exploiting corporations." He goes on to say that Governor Hughes rejected the bill for the railroad rate reduction which the legislature had passed. He says that this proves that he obeys the mandates of the railway managers instead of the voice of the people. He says that he understood that Mr. Hughes is a close friend of John D. Rockefeller, and that the trust magnates contributed to his campaign fund and that in 1908 Mr. Hughes was the chief defender of the inaction of the Republican party on the trust question.

Means a Personal Sacrifice. Albany, N. Y., April 25.—That Governor Hughes' acceptance of a seat on the supreme bench means a personal sacrifice from participation in the next state campaign is the opinion of the Republican leaders here tonight. There is some surprise at the acceptance. Many thought that Mr. Hughes would resume his law practice, to better provide for his family, for while governor his resources have heavily drained. The governorship pays \$10,000, and the judgeship \$12,500. Many think that the governor has made a personal sacrifice in accepting, for they point out that he could make a fortune at the bar. Friends declare that he has done what he considered his public duty. Mr. Hughes would make no comment tonight.

PROPOSES A NATIONAL HOLIDAY. Society of Army of the Potomac Would Commemorate the Birth of Grant.

## ANDREW CARNEGIE EXTOLLS MR. TAFT.

He Tells the National Press Club the President Is One of the Greatest Chief Executives Ever Installed at Washington—He Praised the Tariff Law, Too.

Washington, April 25.—Andrew Carnegie, addressing the National Press club here tonight, declared Mr. Taft one of the greatest presidents the country has had, and said that for his efforts in the world of peace the country would grant him a high place in its history. He commended the Payne-Aldrich law as the best tariff law ever enacted, extolling its progress and spirit of the West and made a vigorous plea for universal peace.

President Taft and Mr. Carnegie spoke today at the dedication of the new Carnegie library at Howard University before a gathering of nearly 1,000 persons. Mr. Taft laid the cornerstone for the library a year ago, in the absence of Mr. Carnegie. Tomorrow Mr. Taft will speak at the dedication of the International Bureau of American Republics buildings, and the gift of Andrew Carnegie.

## DEMOCRATS HAVE FOUGHT IT.

Lodge Resolution Asking \$65,000 for Cost of Living Inquiry Is Withdrawn.

Washington, April 24.—Senator Lodge today withdrew his resolution asking the senate to sanction the expenditure of \$65,000 to continue the cost of living inquiry. The action was taken on the ground that the Democrats are conducting such an extended debate on the resolution as to interfere with the passage of the railroad bill. The committee will continue the inquiry under the original resolution.

## Hog Raiser a Witness.

Testifying as to the high prices of pork, Peter W. Peterson, of Clay county, S. D., a hog raiser, said to the senate investigating committee today: "Pork is high because there are not enough hogs to supply the demand. Corn is low because there are not enough hogs to eat the supply."

## JOHN A. PENTON SUSPICIOUS.

Thinks a Foreign Shipping Lobby at Work at Washington.

Washington, April 25.—At today's session of the ship subsidy inquiry, Secretary John A. Penton of the Merchant Marine League was asked more about the league's attacks on congressmen for their opposition to the ship subsidy.

## MUCH ORATORY IN THE SENATE.

Traffic Agreement Provision Is Debated Most of the Day.

Washington, April 25.—The Crawford-Elkins traffic agreement provision of the railroad bill was under discussion in the senate most of the day. Mr. Doherty introduced the provision as a mere removal of the pooling system, and the fact that the Republican platform declared for agreements was not sufficient reason for passing the provision. He ridiculed the declaration in the platform for agreements that do not interfere with competition. He said that he would support them, though Mr. Roosevelt did.

## IS GUEST OF CITY FATHERS.

Theodore Roosevelt the Subject of Glowing Tributes at Paris.

Paris, April 25.—As the guest of the city of Paris today, Theodore Roosevelt was received by the municipal fathers and was the subject of glowing tributes pronounced by M. Carton, president of the city council, and other officials. Speaking in French Mr. Roosevelt expressed the deepest gratitude. Mr. Roosevelt was the guest at a luncheon. He proposed a toast to Paris and the French people. During the day he visited the Carnavalet museum and the Notre Dame cathedral. At the Opera Theatre Mr. Roosevelt enjoyed a repetition of the ovation he received at the Comedie Francaise Thursday night.

## SOCIALISTS HEAD THEM ALL.

President of the Milwaukee Council Names His Committees.

## NEW TARIFF LAW IS WORKING WELL

Vice President Sherman, Speaking at St. Louis, Attributes Much of the Present Prosperity of the Nation to Its Operations.

It Has Been in Force Only Nine Months, Yet Already It Has Reduced the Government Deficit from \$70,000,000 a Year to \$15,000,000, and in the Same Time Wages Have Been Increased to the Extent of \$500,000,000 per Annum.

St. Louis, April 25.—Predicting that the tariff in general, and the Payne law in particular, is sure to be the principal issue in the coming campaign, Vice President Sherman in a speech here tonight said that it would be his duty as a protectionist to defend its policy.

Mr. Sherman said that the tariff was revised substantially and successfully last fall, and that the Republican party had kept its campaign pledge. He said that the law had been in operation only nine months, yet it had reduced the national deficit in a year from \$70,000,000 to \$15,000,000. And this latter promise to be wiped out by the end of the fiscal year.

Mr. Sherman declared that the workers are now paid the highest wages in the history of the country. He said that the increases in wages granted this year would equal \$500,000,000 per annum. The farmers equally were prosperous. He said that with this showing "surely we ought to give such a law a fair trial."

## HE RAPS THE DEMAGOGUE.

Mr. Watson brought his audience to its feet in an impassioned attack on demagogues. No man, he declared, after a reference to Theodore Roosevelt "coming back with all nations at his feet." Mr. Watson protested against the arraying of class against class, he said was contrary to the Rooseveltian policy of a square deal. He thundered: "Here is danger of this sort, because a demagogue will seek to do for selfish purposes. Look out for the demagogue. He is the most dangerous man today. I know one, and if my distinguished friend, the vice president, will, here I would name him. He runs his hands through his hair and exclaims: 'How long must I strive to lift the burden from the people? I'll tell you how long he will last. He'll last just as long as Chautauque tickets hold out. The man who would invite a mob for the sake of a worse than a traitor in time of war.'"

## IS GUEST OF CITY FATHERS.

Theodore Roosevelt the Subject of Glowing Tributes at Paris.

Paris, April 25.—As the guest of the city of Paris today, Theodore Roosevelt was received by the municipal fathers and was the subject of glowing tributes pronounced by M. Carton, president of the city council, and other officials. Speaking in French Mr. Roosevelt expressed the deepest gratitude. Mr. Roosevelt was the guest at a luncheon. He proposed a toast to Paris and the French people. During the day he visited the Carnavalet museum and the Notre Dame cathedral. At the Opera Theatre Mr. Roosevelt enjoyed a repetition of the ovation he received at the Comedie Francaise Thursday night.

## SOCIALISTS HEAD THEM ALL.

President of the Milwaukee Council Names His Committees.

Milwaukee, April 25.—Every chairman and vice chairman of the twenty-odd committees of the council announced this evening by President Melms is a socialist. Alderman Frederick Bogk, a Democrat, is the only member not a socialist who was given a chairmanship. He will continue as chairman of the special committee in charge of the plans for the \$7,000,000 inner and outer harbor.

## NEW NAVAL RESERVE PLAN.

Washington, April 25.—Representative Foss, of Illinois, today introduced a bill providing for a naval reserve, to be made up of voluntarily enlisted men from those in seafaring occupations and such other citizens as the secretary of the navy may accept. The purpose is to provide a reserve for time of war, when they would be subject to the call of the president.

## THE WEATHER

Washington, April 25.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Tuesday, probably rain in the east; Wednesday, fair; south to variable winds.

## SCHEDULES FOR TODAY.

National League. Boston at Philadelphia. Brooklyn at New York. St. Louis at Cincinnati. Pittsburgh at Chicago. American League. Detroit at St. Louis. Chicago at Cleveland. New York at Washington. Philadelphia at Boston. American Association. Columbus at Indianapolis. Toledo at Louisville. St. Paul at Kansas City. Minneapolis at Milwaukee.

## YESTERDAY'S GAMES.

National League. New York, April 25.—In a game marked by exceptionally brilliant hitting, the Giants defeated Brooklyn. Score: New York . . . 0000021—8 3 1 Brooklyn . . . 0000010—1 7 1 Batteries—Wiltse and Myers; Rucker and Bergen. Philadelphia, April 25.—It was a tie game today, stopped in the ninth on account of darkness. Score: R. H. E. Philadelphia . . . 200010002—5 10 2 Boston . . . 100001210—5 11 2 Batteries—Morris, Sittler and Dooin; Brown, Matten and Graham. Cincinnati, April 25.—The home pitchers were wild in the early innings. Score: R. H. E. Cincinnati . . . 000002100—3 7 3 St. Louis . . . 204002000—8 6 0 Batteries—Coveleski, Gaspar, Spade, McLean and Roth; Bachman and Bresnahan. Chicago-Pittsburg, wet grounds. American League. Cleveland, April 25.—Bergner was outpitched by Smith, and the visitors won. Score: R. H. E. Cleveland . . . 000000000—0 3 1 Chicago . . . 000000110—2 9 1 Batteries—Bergner, Bemis and Easterly; Smith and Payne. Boston, April 25.—Lewis' batting was the feature of today's game. Score: R. H. E. Boston . . . 200000000—2 12 2 Philadelphia . . . 000130000—4 4 0 Batteries—Wood and Carrigan; Atkins and Thomas. St. Louis, April 25.—A hot liner from Rarzen's bat in the ninth broke first baseman Jones' nose and he was carried from the field. St. Louis won in the twelfth inning. Score: R. H. E. St. Louis . . . 02000000300—16 10 6 Detroit . . . 000011310000—5 8 4 Batteries—Bailey, Waddell and Stephens; Willett, Pernoll and Stange. Washington, April 25.—New York bunched hits with Washington's errors in the first, and won. Score: R. H. E. Washington . . . 002000000—2 4 3 New York . . . 401000000—5 8 0 Batteries—Oberlin and Street; Warhop, Quinn and Sweeney. American Association. Indianapolis, 5; Columbus, 4. Kansas City, 0; St. Paul, 6. Louisville, 3; Toledo, 0. Milwaukee-Minneapolis; wet grounds. Western League. Denver, 4; Lincoln, 5. Topeka, 2; Sioux City, 5. Wichita, 6; Omaha, 5. St. Joseph, 8; Des Moines, 5.

## JEFFRIES TAKES A REST.

Ben Lomond, Cal., April 25.—Following the suggestion of Joe Choynski, Jeffries forsook his training schedule today. Choynski thinks Jeffries has been working too hard. He rested today.

## Bantam Champion Gets a Beating.

New York, April 25.—Johnny Coulton, the bantam champion, got a bad beating tonight, by Frankie Burns, of Jersey City, in a ten-round no-decision bout at Brooklyn.

## Kansas City, April 25.—Harry Brewer, of Kansas City, and Clarence English, of Omaha, fought ten rounds to a draw here tonight. Tommy Howatt lost a ten-round decision to Pierce Matthews, of Denver.

## UNIQUE CASE GETS TO HIGH TRIBUNAL

Supreme Court at Washington Is Asked to Pass on the Matter of the Corporal Punishment of School Children.

Never in All Its History Has That Judicial Body Been Confronted With Such a Question—The Litigation Comes from Illinois and Involves a Teacher Who Chastised an 11-Year-Old Boy—The Parents Sued and Were Given Damages.

Washington, April 25.—Miss Agnes Kelley, who was a school teacher in Tolono, Champaign county, Ill., has brought before the supreme court of the United States the question of corporal punishment of school children. Never before has the court been confronted with such a question.

If the court gives approval of this method of discipline, the woman will escape from a school squabble with only being declared a bankrupt. If the court rules against corporal punishment, she will probably have to go to jail for beating a pupil. In 1906, Miss Kelley was teaching in a primary school at Tolono. According to her brief, Michael Burke, aged eleven, "committed a breach of proper decorum, by using indecent, vulgar and profane language at and toward your petitioner, and jerking upon the floor and while in that position striking and kicking your petitioner." She says that she took the boy to the principal, and the lad said that he was not sorry and would not promise to be good. Then, after the principal had ordered her to chastise Michael, she flogged him. The Burkes brought suit for damages against the teacher. After the judgment Miss Kelley was declared a bankrupt. On the ground that the national bankruptcy law does not discharge a person from the payment of a debt incurred through the committing of "willful and malicious injuries to a person or the property of another," however, Miss Kelley was arrested under an Illinois statute for failure to satisfy the judgment.

Miss Kelley went to the federal court for discharge. The district court of Illinois admitted her testimony to show that it was not a debt incurred through willful injuries, and the court found that such procedure did not meet with the approval of the circuit court of appeals, and the judgment was reversed. She now asks the supreme court of the United States to review the case.

## DISMISSED CLERK SUES.

Daughters of the Revolution Dispute Is Taken to the Courts.

Washington, April 25.—The right of the head of the Daughters of the American Revolution to dismiss an employe was taken to the District of Columbia courts today. Agnes Gerold, a clerk, dismissed by Mrs. Matthew T. Scott, president general, for alleged insubordination, today entered suit for \$130, representing the salary for March and April. Her services were terminated at the end of February, but as she did not recognize the right of the president general to dismiss her she continued at her post until deposed by the board of management, April 16. It is alleged that she has not been paid since her dismissal by the president general, and the legality of Mrs. Scott's action is the point at issue.

## PEARY GIVEN A LUNCHEON.

He Tells Why He Attacked the Claim of Dr. Cook So Strongly.

New York, April 25.—At a luncheon tendered him at the Brooklyn club today, Commander Robert E. Peary, who says for Europe tomorrow, explained why he attacked the claim of Dr. Cook so strongly on his return from his Polar trip. He said that three weeks before he reached civilization he knew what Cook would claim. He said that he sent his telegrams, for which he was much criticised, after full deliberation. He said: "I knew that a deliberate attempt was to be made to defraud the country, and that I owed it to myself to give the warning in order that I might escape the charge of being an accessory to the crime."

## CHINESE OUTBREAK SUBSIDING.

Backed Up by Four Gunboats, a New Governor Takes Charge at Changsha.

Changsha, April 25.—The city is quiet tonight and the rioting in inland towns throughout the province of Hunan appears to be subsiding. Practically all the foreigners have left the capital and have gone to Hankow. A new governor, accompanied by four gunboats, has arrived and has taken charge of affairs.

## AMORY, APRIL 25.—THE CRUISER CHARLES TONNANT SAILED FOR SHANGHAI TODAY. THE GUNBOATS WILMINGTON, CALLOS AND SAMAR REMAIN HERE.

## GERMAN AIRSHIP WRECKED.

Limburg-an-der-Lahn, Prussia, April 25.—The Zeppelin II, one of the three dirigible balloons of the German government's aerial fleet, ran away today and was destroyed.

## DIJON, FRANCE, APRIL 25.—THE 140-TON DAYTONA, CAPTAIN DE CATER, FLEW 100 MILES IN AN AIRPLANE WITH A PASSENGER, BREAKING THE RECORD, IS RETURNING TO NEW YORK.

## WIFE OF DOCTOR HYDE BATTLES AGAINST SISTER.

Sitting Behind Her Husband's Attorneys in Court at Kansas City, She Directs Their Fight When They Attack the Testimony of Miss Margaret Swope.

Kansas City, April 25.—Sister battled against sister in the Hyde murder trial today. Miss Margaret Swope, whom it is charged Dr. Hyde attempted to poison, testified for the state. She told of her illness and of the typhoid epidemic in the Swope home. Behind Hyde's attorneys sat the girl's sister, Mrs. Hyde, directing the fight on her young sister's testimony.

Miss Swope testified how Hyde came to her room while the lights were burning low one night, and gave her a hypodermic. Dr. Twyman was in charge of the case at the time, she said. Her arm has since become sore. The state contends that the injection was "pure" germs, and not camphorated oil, as Hyde claimed.

Elizabeth Gordon, a nurse, testified that there was no camphorated oil in the house at the time. In giving Christian Swope a hypodermic, the nurse said, Hyde filled the needle from dirt water in a wash bowl before inserting the needle.

## IS CALLED THE DEAN OF AMERICAN SWINDLERS.

"Chappy" Moran, Arrested in an Expensive Suite in an Aristocratic Hotel in Chicago, Is Said to Have Cleaned Up \$1,000,000 the Past Twenty Years.

Chicago, April 25.—Charles, known as "Chappy" Moran, alleged by the post-office inspectors to be the dean of American swindlers, is under arrest here. In twenty years, Moran's illegal gains are said to have aggregated a million dollars. Moran was in an expensive suite at an aristocratic hotel, with a valet, when he was arrested. In his early days the man is said to have been a big gambler on Atlantic liners. Later he was a wire tapper. It is said that he originated the "sick engineer" mugging swindle. Moran is said to have made big sums by grain swindles in Philadelphia, Providence and New York. His latest arrest was in Philadelphia, where he jumped bail and came back here. He has since been running hard on the roads. He will be taken to Philadelphia. It is said that he is wanted also in Europe.

## MARRIED TO MANY WOMEN.

Badly Wanted Alleged Arch Criminal Is Rounded Up.

Chicago, April 25.—Harry Vincent Kavanagh, held at Kansas City for forgery, is being sought by police here. The Chicago police will bring the biggest and arch criminal who fled from Chicago when Miss Florence Helen Bamberger, daughter of the late Professor Gabriel Bamberger, founder of the Jewish war fund, according to the police, was duped into a marriage while he had other wives in different parts of the country. Moyle is a member of a prominent family at Greenville, Miss. He served in the Mississippi penitentiary for impersonating a naval officer and marrying in that disguise. Miss Bamberger last October was deserted in Milwaukee when on her honeymoon and when Moyle found that she had learned of his duplicity. For years Moyle has induced women to marry him according to the police, by forging the names of prominent men and declaring himself the son of a millionaire.

## CONVICT CONFESSES PLOT.

Wholesale Prison Delivery Had Been Planned at Leavenworth.

Leavenworth, Kas., April 25.—That a wholesale prison delivery had been planned by Arthur Hewitt and Theodore Murdoch, two of the prisoners who escaped from the federal penitentiary last Thursday, was the confession made today by Murdoch. They were cell mates and intended to get some prisoner whose term had expired to throw rifles and revolvers over the wall prison next fall. Later Hewitt hit upon the scheme finally adopted, that of capturing a switch engine in the prison yard.

## COLORADO CONSPIRACY DISASTROUS.

Canyon City, Colo., April 25.—Two convicts were killed and three were fatally wounded while attempting to escape the penitentiary here tonight. Five convicts escaped from their cells and were preparing to dynamite their way to the yard when met by guards.

## PROSECUTION COMES HIGH.

Court Ruling Makes Petty Larceny Cases in Illinois Expensive.

Chicago, April 25.—If John Manning and John Higgins stole fifty cents' worth of brass, as charged, it will cost \$500 to prosecute them, according to Assistant State's Attorney George Crane. Under a recent decision of the Illinois supreme court, Mr. Crane said today, petty larceny cases must be taken to the grand jury and tried in the criminal court of the county.

## TAKES CARBOLIC ACID.

Prominent St. Louisan Kills Himself After Quarrel With Son.

St. Louis, Mo., April 25.—Philip S. Kingsland, aged sixty-two, a member of one of the city's most prominent families, committed suicide this afternoon by taking carbolic acid, after a quarrel with his son. He drained the phial in the latter's presence.

## PLANNED ROBBERY, IT IS SAID.

Lansing, Mich., April 25.—Robert Coyle is under arrest here on the allegation that he planned to rob the Union State bank at Lansing.

## FREEZING WEATHER BRINGS DISASTER

Southern Portion of the United States Has Suffered the Most Severe Financial Setback Perhaps Since the Civil War.

With Snow, Sleet and Frost Experienced in Georgia, South Carolina, Tennessee, Alabama, Louisiana and Mississippi, Millions of Acres of Young Cotton Have Been Destroyed and There Is Not Nearly Enough Seed Left to Replant the Crop.

Atlanta, Ga., April 25.—With millions of acres of young cotton destroyed by the cold weather which today overspread the entire cotton belt, the South has suffered the most disastrous financial setback perhaps since the Civil War. Snow, sleet and heavy frost have been experienced in Georgia, South Carolina, Tennessee, northern Alabama, Louisiana and Mississippi. The cotton seed oil mills have been appealed to for seed for replanting purposes, and many state officials have implored the mills to use no more seed until the farmers are supplied. It is doubtful if there is enough to replant half of the acreage that has been destroyed.

## WINTRY BLASTS CHILL MANY STATES.

Kansas City, April 25.—A snowstorm prevailed this morning in eastern Iowa and all over Missouri, as well as in northeastern Arkansas, eastern Kansas and Tennessee and as far south as Montgomery, Ala. Temperatures ranging from two to three degrees below freezing to three degrees above freezing are reported in Kansas, Missouri and northern Oklahoma, with frost as far south as northern Louisiana. Freezing temperatures have prevailed at Memphis, and killing frosts are reported at western Kansas points. The general opinion among Kansas City fruit growers is that the fruit crop of eastern Kansas and western Missouri is not yet seriously injured.

## HELD FOR THE COTTON BULLS.

New York, April 25.—Reports of great damage to the cotton crop in the South, due to freezing weather, caused a wild rally in the cotton market today. The October option sold at \$12.94 a bale, fifty-seven points above Saturday's close, and the May gained twenty-one points. The prices held to the close. It was a big triumph for the bulls, who have been predicting a shortage.

## PRICES SUFFER SEVERELY.

Wall Street Stock Market Is More Depressed Than Ever.

New York, April 25.—The sentiment in the stock market today was more depressed than ever, after the failure of a momentary rally to hold. The tone was acutely weak and at several declines at the closing. The recuperative power moved from the market, when Walsh arrived. The action of the wheat market was taken as discrediting the worst fears of damage by the cold wave. The firm closing of wheat was partly neutralized by the excited strength of cotton and the alarming views of damage current in that market. The support centered in United States Steel, to the accompaniment of renewed predictions that the dividend would be increased to a 5 per cent rate tomorrow. The formidable dimensions of the week's engagements of gold export had a repressive affect on the speculation.

## HEINZE TO BE PROSECUTED.

Court at New York Sustains Seven of the Counts Against Him.

New York, April 25.—Seven of the fourteen counts of the indictment against F. Augustus Heinze, a conviction with his handling of the Mercantile National bank's funds while he was president were dismissed, and seven were sustained today.

## BANKER WALSH'S POSITION.

Leavenworth, Kas., April 25.—John R. Walsh, the banker, would accept a pardon from the president if one were tendered him, but he has had nothing to do with circulating the petition for his release. This statement was made tonight by Warden McClung of the federal penitentiary, when Walsh is confined. Walsh's name is not signed to the petition presented at Washington. The department of justice will communicate with Walsh to see if the signers represent his wishes before action is taken. Walsh is declared to be ageing fast.

## MORE GOLD GOING ABROAD.

Ten Million Dollars' Worth Is Engaged for Shipment to England.

New York, April 25.—Engagements of gold for shipment to England aggregating ten millions were made today. A total of over thirty-seven millions has been exported thus far this year.

## BOXING BOUT IS TRAGIC.

Brockton, Mass., April 25.—Joe O'Brien of Cambridge has been arrested on a charge of manslaughter as the result of a boxing bout with Max Sundry, of Boston. Sundry died, the police say, as the result of a blow in the right.

## City Brevities

Today's weather: Partly cloudy; stationary temperature. Yesterday's temperature: Seven a. m., 32 degrees; noon, 34; 7 p. m., 38. Maximum, 38 degrees; minimum, 30.

T. H. Noble has gone to Chicago on business.

The Choctaw arrived in port with a cargo of coal last night.

D. Fred Charlton left for Milwaukee on business last evening.

The Royal Neighbors will hold a card party in Fraternity Hall at 3 o'clock this afternoon.

Mrs. C. C. Van Iderstine and Mrs. N. M. De Haas left for Chicago last night to attend grand opera.

Marquette council, Knights of Columbus, will hold a regular meeting at their club rooms at 8 o'clock tonight.

The South Shore railroad is moving its scales about 500 feet north of their present location, near F. B. Spear & Sons office.

The funeral of Isaac, nine-months-old son of Isaac Garmanpe, 439 Bluff street, was held yesterday. The child died Saturday.

Young people of the Methodist church will give a social in the church parlors Friday night. Refreshments will be served. Admission, ten cents.

Mr. and Mrs. Oliver Morris and Mrs. A. Anderson, of Pequaming, visited with Dennis Hogan and family Sunday, on their way home from Sault Ste. Marie.

Miss Zella Bellard and Vincent Shorkey returned to their home at Two Harbor, Minn., last night, after attending the funeral of the late Mrs. Homer Shorkey.

Miss Nora Fraser and Albert Jorgensen were united in marriage by Rev. Father Jodocy at his residence Saturday evening. The couple will reside in this city.

Gust Frodeen, a Norway contractor, has twenty men and six teams employed in improving the Marquette-Dickinson county road, and the work is said to be progressing with dispatch.

Morris Willett, who for three years past has been clerk at the United States land office here, has been transferred to the office at Crookston, Minn., and will leave for that city the last of the week.

William Verran, of Negaunee, supervising agent for Marquette and Alger counties, bureau of the census, was in Marquette Saturday, ironing out some of the vexatious problems of the local census enumerators.

One of the features at the dance to be given by the second team Wednesday evening at Legion Hall will be a "moon dance." The hall has been beautifully decorated with crepe paper, flags and pennants. Indications point to a large crowd.

Because of the absence of the complaining witnesses, the preliminary hearings of the Marquette saloon and restaurant keepers, who are accused of liquor law violation, were not held yesterday, but were adjourned for two weeks.

The St. Paul road has resumed regular service on the Crystal Falls branch. During the winter, train No. 733, connecting with the main line morning train from Marquette, and train No. 732, making connection at Channing with the afternoon main line train for points in the copper country and the Marquette branch, was suspended. These trains have been re-instated.

Streams Will Be High—Local fishermen are much disgruntled because of the recent snow storm, as it is believed it will make the streams too high for trout fishing, when the season opens next Sunday. Before the snow, the water was down and fishing should have been excellent, had it been in season. Until the snow water is all out of the rivers, however, the trout will have plenty to eat, and their appetites and the catching worm will have no attraction for them.

Improving L'Anse Hotel—The Thomas Hotel, at L'Anse, now under the management of Thomas F. Follis, formerly a Marquette man, is to be extensively remodeled. The entrance to the hotel will be changed from its present location to the main street, with a large glass front and the door in the corner. Changes will also be made so that the hotel will have twenty rooms, instead of eleven. A toilet and bath room will also be among the additions. The building will be newly papered, kalsomined and renovated.

Arrivals and Departures—With the subsiding of the storm which has been raging on Lake Superior since last Friday, the ore traffic resumed its normal volume yesterday. At the L. S. & L. dock, the Yuma cleared for Cleveland, and the Presque Isle for Ashtabula. The Midland King, Danahon and Kensington are loading, and the arrivals were the Nichols, Thomas Maytham and Anna Minch. At the South Shore docks, the Gilchrist cleared for the lower lakes, and the Shaugnessy is loading.

Water Fairly Good—Superintendent of Water Works John Kern has received the analysis of the sample of city water sent to the state board of health for analysis on April 14. The state bacteriologist says: "The chemical examination of this sample of water gives practically the same results as previous samples. Chemically, there is no distinct evidence of any dangerous contamination. Bacteriologically, the water is fairly good, showing very slight contamination; but in the main, the water in its present condition is relatively safe for drinking purposes."

Business College to Move—P. H. Ross, manager of the business college in the Nester block, announces that the last of this week, the school will be moved into the Bertha block, on the second floor, in the rooms formerly occupied by the Salvation Army. The prospective quarters are now being redecorated, hardwood floors are being laid and a steam heating plant is being installed. In the new location, Mr. Ross will have about three times the floor space of his present quarters, and will be in much better position to give convenient facilities to the constantly increasing number attending the business college.

INSURE WITH PETER WHITE & CO.

You can get a dandy parlor paper from 16 to 23 cents at Geill's wall paper store. We trim your paper, so you can hang it. (4-25-34)

**FOGS MEANS TO ORDER.**

Among the means of protecting fruit trees against frost practised in California is the production of fog by a generator in the form of a wagon. The wagon carries a sheet-iron tank the upper part of which is filled with wet straw or similar material, kept moist by the automatic injection of water from a cask, while near the bottom is a grate, upon which tar is burned, a blast, operated by a revolving fan, serving to maintain the combustion. All the heat is compelled to pass through the wet straw before reaching the air, and in consequence the wagon is buried in a dense fog, and as it passes between the rows of low trees it envelops them in a mist so thick that the driver is frequently compelled to lead the horses.—Harper's Weekly.

Mrs. Eddy, founder of the Christian Science church, born July 6, 1821, is still, at eighty-nine, directing her work with faculties unimpaired, and names of others might be multiplied indefinitely to prove conclusively that men and women are old only when we think ourselves old.

A lot of money may be saved by using coke in cold weather and a gas heater in chilly weather, when the furnace is out. (4-25-1f)

The daily increasing demand for Vandenberg's fresh aerated milk is due only to the excellent quality of the goods. (4-25-1w)

House cleaning time is at hand. Get your orders in early for the Vacuum Wagon or Electric sweeper. Call J. H. Sanders, Bell Phone 650. (3-23-1f)

There is no such medicine so popular as Foley's Honey and Tar. It never fails to cure coughs, colds, croup and bronchitis. For sale by all druggists.

## Jacob Rose

In our hosiery department we are not content with giving our trade merely good wearing hose at the sacrifice of fineness and comfort. Good wearing hose of coarse yarn, poor fitting and unsightly colors are easy to be had. Our efforts were directed to give our trade footform fitting, mercerized, fine yarn and a selection of beautiful new shades in plain colors or embroidered at the price of \$1.50 per box of six pairs and guaranteed for six months. In the better grades of hosiery we offer silk finish lisle, German made hosiery, in beautiful and fashionable colors at 50c. Pure thread silk hose, plain color hose, rich colorings, linen thread reinforced heel and toe at 75c.

**Upper Peninsula**

Wants to Be Sheriff—

Andrew Stephenson has announced his candidacy for the sheriffship of Menominee county. He is one of the pioneers of the upper peninsula, and has been active in Republican politics of the county, district and state for many years. This is the first time that he has asked for an elective office.

New Chapter of the D. A. R.—

Chippewa chapter of the Daughters of the American Revolution has been organized at Iron Mountain with sixteen members. Following are the officers: Regent, Mrs. W. B. Selden; vice regent, Mrs. L. T. Sterling; secretary, Mrs. O. C. Davidson; treasurer, Mrs. E. C. Cole; historian, Mrs. L. E. Amidon; chaplain, Mrs. A. E. Wright; registrar, Miss Mary Beer; member at large, Mrs. Gilbert V. Carpenter.

Loses Fish and Nets and Is Fined—

Two hundred pounds of perch and suckers and a quantity of nets have been confiscated from John Jorgenson of Menominee by Deputy Game Warden A. B. Bedell. Jorgenson was illegally fishing with nets off the lower pier in North Menominee. He was arrested and paid a fine of \$10 and costs to Justice Breen. The nets are in the possession of Deputy Fish Warden Bedell and the fish have been turned over to the poor commissioner. This is the first prosecution of the year for illegal fishing in the vicinity of Menominee. Mr. Bedell states that he has had several complaints which he is investigating and which he will prosecute to the fullest extent if he finds the complaints are true.

Brook Trout Being Planted—

Under the direction of Timothy Kilham of Escanaba, 100,000 speckled trout fry from the hatchery at the Soo are being planted in the various streams in Delta county between Nahma Junction and Bark River, and also some at Garden Bay. The planting of fish fry is not as simple a matter as some seem to think. It requires much careful work and preparation, because they can be no delay in getting the little fish in the water after the cans in which they are kept are taken from the car. In the planting of the 100,000 fry it was taken, besides the crew of the commission car, thirty-six men, six railway trains, one steamboat, four section crews and two automobiles to take care of them and see that they are properly and quickly handled until they are planted. Mr. Kilham has been looking after this work for a number of years and he personally arranges all the details and selects the places in each stream where the fry are to be planted. And for this service he has received but small recompense and no thanks.

MARKETS

WALL STREET STOCKS.

New York, April 25.—Paine, Webber & Co. say of today's stock market: "The market today opened down on lower London prices and there was a good deal of pressure and later stop orders were caught. The market then became very dull, but in the afternoon there was a sharp break and the whole market suffered declines. Steel and Union Pacific were very heavily sold, and the whole market was very weak. The close was at the lowest prices and under pressure. We look for this break to go further, as there are many stop orders near the present levels."

Boston, April 25.—Today's stock market at Boston is summarized by Paine, Webber & Co. as follows: "The market opened with a slightly better tone this morning. Buying orders had accumulated over Sunday. In the local market there were very few stocks for sale, and any attempt to buy rallied prices easily. North Butte sold at 23 with the next sale 24 1/2. Copper Range sold 68 1/2 and the next sale was 69 1/2. The market was very dull all day and showed no tendency either way. Towards the close New York became very weak, but our market failed to break, although there were few bids for stocks."

POWOW OF BURROWS MEN IN WASHINGTON

REPORT THAT SENIOR SENATOR MAY WITHDRAW—SMITH'S SUPPORT WANTED—WOULD GIVE HIM MARQUETTE COLLECTORSHIP

The Detroit News prints this interesting story regarding Michigan senatorial politics, under Washington date line: "The senatorial situation in Michigan is approaching a crisis, at least so far as Senator Burrows is concerned. The understanding among the Michigan delegation here is that a meeting is to be held in Washington this week to decide whether Senator Burrows shall announce his candidacy for re-election or take the dramatic step recently made fashionable among the senate grayheads by Senators Aldrich and Hale."

Houghton county has at least one inhabitant who has already seen Halley's comet, the return of which has caused intense interest in all parts of the world. This person is Mrs. Margaret McKay, of Lake Linden, now past the four score and ten milestone of life's journey. Her age, to be exact, is ninety-two, she having been born in Edinburgh, Scotland, in 1818. Friends of this aged lady have only recently learned that she is not only one-half of their real value in the household, but also the value of the furniture and other personal property, the total investment in strictly "summer property" in Maine must approximate \$40,000,000. And what an abundant return outside of actual money earnings it gives in recreation and health!

Chicago, April 25.—The prices of wheat today closed strong, 1/4 to 1/2 higher, after a nervous session. At the outset the market advanced on the strength in corn and the higher Liverpool prices. Attracted by the upturn, sellers crowded the pit and caused an abrupt decline which carried the May 1 1/2, the July 1 1/2 and the September 1 1/2 down from the early high point. Later renewed reports of damage to the growing fields through the continued cold inspired a better quality of buying and the prices advanced, the distant options creeping up close to the top. The improved condition of cash wheat was a factor in the rising tide. The close was strong, with the July 1/2 up, the September 1/2 higher and the May 1/2 up. The May opened at 110 1/2 to 110 3/4, highest, 110 3/4, lowest, 108 1/2, closed, 110.

Chicago Grain Markets. Chicago, April 25.—The prices of wheat today closed strong, 1/4 to 1/2 higher, after a nervous session. At the outset the market advanced on the strength in corn and the higher Liverpool prices. Attracted by the upturn, sellers crowded the pit and caused an abrupt decline which carried the May 1 1/2, the July 1 1/2 and the September 1 1/2 down from the early high point. Later renewed reports of damage to the growing fields through the continued cold inspired a better quality of buying and the prices advanced, the distant options creeping up close to the top. The improved condition of cash wheat was a factor in the rising tide. The close was strong, with the July 1/2 up, the September 1/2 higher and the May 1/2 up. The May opened at 110 1/2 to 110 3/4, highest, 110 3/4, lowest, 108 1/2, closed, 110.

Upper Peninsula. Escanaba Girl Honored.—Miss Charlotte O'Meara, daughter of John O'Meara of Escanaba, was selected by the senior class of the Milwaukee Normal school as one of the delegates to represent the school at the convention of the International Kindergarten union at St. Louis this week.

reconstructed and an outside boiler house will be provided. A building at Palatka, also in Iron county, will cost about \$15,000. The present school at Palatka, containing four rooms, was erected less than two years ago. At that time it was thought the building would meet the demands of the school population for at least five years, but it is now crowded. Iron River, Stambaugh and Palatka all are having a boom.

Senator Burrows retires, in the event Senator Burrows retires, that probably either Congressman Denby or Congressman Fordney will take up the fight to beat out Mr. Townsend for the nomination. Senator Burrows himself does not admit that his own case is hopeless. When asked by the News this morning whether he contemplated following the example of Hale and Aldrich, he entered a decided negative. Yet the rumor persists, and it is said that with Burrows on Aldrich's monetary commission, he will be well enough taken care of. As a member of that body he can remain at a salary of \$7,500 a year, the same as Aldrich has announced he will do, and the same salary is expected to do. And in fact, the same as Senator Teller, of Colorado, and Congressman Overstreet, of Indiana, have done.

Escanaba Girl Honored.—Miss Charlotte O'Meara, daughter of John O'Meara of Escanaba, was selected by the senior class of the Milwaukee Normal school as one of the delegates to represent the school at the convention of the International Kindergarten union at St. Louis this week.

Weston Still Hiking Along.—Utica, N. Y., April 25.—Weston arrived at Little Falls, twenty miles east, this evening. He will resume his journey at midnight. He is nearly over his attack of indigestion.

MAINE'S GREATEST ASSET.

Entertaining the Summer Tourist—An Investment of Millions in Camps, Cottages and Hotels—The Field Not Yet Developed.

New York, April 25.—From the twenty-third annual report of the bureau of industrial and labor statistics for the state of Maine it is learned that there are in the Pine Tree state five thousand one hundred cottages, or summer residences owned by persons living outside of the state; these are held for purposes of taxation at \$10,102,083; and they pay annually in taxes into the town treasuries fully \$250,000. Maine assessors, as a general thing, pursue a very liberal policy in the matter of assessing non-resident property of this sort so as not to drive her summer colonists away but to encourage their coming and staying so long as fair profits are made. This statistical report, that this property represents a non-resident investment of more than \$20,000,000 in Maine realty. Besides this there are hunting and fishing camps and hotels on the wild lands owned both by residents and non-residents, whose assessed value is \$67,500. Maine people own eight hundred summer hotels there and four thousand six hundred and fifty-two cottages valued by the assessors at \$5,245,148; on the assumption that this is only about one-half of their real value and a fair allowance being made for the value of the furniture and other personal property, the total investment in strictly "summer property" in Maine must approximate \$40,000,000. And what an abundant return outside of actual money earnings it gives in recreation and health!

Escanaba Girl Honored.—Miss Charlotte O'Meara, daughter of John O'Meara of Escanaba, was selected by the senior class of the Milwaukee Normal school as one of the delegates to represent the school at the convention of the International Kindergarten union at St. Louis this week.

Wisconsin Educator Chosen.—Dr. Paul Reinsch to be Theodore Roosevelt Professor at Berlin.

McCracken Becomes Chancellor Emeritus.—New York University today accepted the resignation of Chancellor MacCracken, tendered Feb. 28, and appointed him chancellor emeritus.

Battle is in Sight.—Army of the Nicaraguan Government is Advancing on Bluefields.

Weston Still Hiking Along.—Utica, N. Y., April 25.—Weston arrived at Little Falls, twenty miles east, this evening. He will resume his journey at midnight. He is nearly over his attack of indigestion.

DISCRIMINATION WINS !!!

In every walk in life discrimination between the true and the false wins and enjoys success. In questions of form, of style and of values, whether financial, commercial or medicinal, the judgement of the men and women who select and appreciate and utilize the true and genuine product, proves most profitable and most satisfactory to themselves and to all who follow them. Therefore, in connection with so important a subject as the physical well-being of the people, the most eminent physicians insist on full information as to the wholesome nature and truly beneficial character of the component parts of the remedies used and prescribed by them, and the wise manufacturer not only supplies them with the knowledge desired, but also combines for them in proper proportions the very substances most approved by them and omits every objectionable substance. The world-wide acceptance of Syrup of Figs and Elixir of Senna by physicians and the well-informed of the world, as the best of family laxatives, is due to the universal satisfaction which it has given for more than a quarter of a century and also to the fact that it is a remedy of known quality and known component parts and to the further fact that the California Fig Syrup Co. presents it to the world simply as the ideal strengthening personal laxative to cleanse and sweeten the system gently, yet effectually, and to dispel colds and headaches and to assist in overcoming constipation. To get its beneficial effects—always buy the original and genuine, for sale by all leading druggists. The full name of the company—California Fig Syrup Co.—is always plainly printed on the front of every package.

Escanaba Girl Honored.—Miss Charlotte O'Meara, daughter of John O'Meara of Escanaba, was selected by the senior class of the Milwaukee Normal school as one of the delegates to represent the school at the convention of the International Kindergarten union at St. Louis this week.

Wisconsin Educator Chosen.—Dr. Paul Reinsch to be Theodore Roosevelt Professor at Berlin.

McCracken Becomes Chancellor Emeritus.—New York University today accepted the resignation of Chancellor MacCracken, tendered Feb. 28, and appointed him chancellor emeritus.

Battle is in Sight.—Army of the Nicaraguan Government is Advancing on Bluefields.

Weston Still Hiking Along.—Utica, N. Y., April 25.—Weston arrived at Little Falls, twenty miles east, this evening. He will resume his journey at midnight. He is nearly over his attack of indigestion.

## Warner's Rust-Proof Corsets

Very long, but not an inch too long to shape the fashionable figure.

The bones in this corset do not extend the full depth of the skirt—the soft, unboned cloth is the extra length. It is therefore impossible for the garment to be felt uncomfortably—quite the contrary. It is pleasantly felt.

We have many styles in this make, but only one cut, namely, a correctly, fashionably cut garment for every woman, large or small.

Every garment made to fit and to wear—not to rust, break or tear.

Security Rubber Button Hose Supporters Attached

### CONCRETE WORK NEARLY FINISHED

CLEVELAND-CLIFFS IRON COMPANY WILL SOON BEGIN SINKING NORTHWESTERN SHAFT BELOW THE LEDGE.

The New York Foundation company, which is putting in a concrete shaft for the Cleveland-Cliffs Iron company at the Northwestern mine, on the Swanzy range, will finish the work within ten days or two weeks. The concrete is now down to the ledge, 100 feet from the surface, and it will be sunk about five feet into the rock.

For three or four weeks past the Foundation company's workmen have been working only two hours a day, one hour in the morning, and one in the afternoon. For some time prior to starting the one-hour shift, the men worked four hours a day. There have been no mishaps, and the work has progressed satisfactorily.

The Foundation company started to put in the shaft nearly two years ago, but operations were suspended after the concrete had been put down thirty-eight feet, because of litigation over the title between the Chicago & Northwestern Railway company, the Cleveland-Cliffs Iron company and three Marquette county men. The Chicago & Northwestern company believed they had a clear title, but it was found to be clouded. Early last fall a satisfactory settlement was effected.

The property originally formed a part of the Chicago & Northwestern company's land grant. The surface rights of the forty acres were sold some thirty years ago, and when the timber was removed the property was abandoned in 1881. Some years later the tract was sold for taxes. The Cleveland-Cliffs Iron company secured an option on this particular forty acres, as well as other land in that vicinity, from the Northwestern company in 1903. The corporation spent a large sum in diamond drill work before it was decided to open the mine. Work was running along smoothly at the property when the litigation developed.

When the Foundation company completes its work and removes its equipment the Cleveland-Cliffs Iron company will continue the sinking of the shaft through the ledge to the ore body. A part of the equipment necessary for the operation of the mine is already on the ground and several buildings have been erected.

Table oil cloth, 15 cents per yard; cotton warp, 25 cents per pound. (4-26-tf) F. BRAASTAD & CO.

**REBUILDING CRUSHER.**

J. Wahlman & Son, who have the contract for the rebuilding of the city rock crusher at the gravel pit, expect to complete the job soon after the first of the month. Considerable of the crusher equipment, also some of the frame work of the old plant, is being used in the new work. The old crusher had been operated for ten years. The new plant will save money. It will have a capacity of fifteen tons an hour. Instead of putting all of the gravel through the crusher, as formerly, the fine material will merely pass over the "grizzly." With the new equipment it is not anticipated that it will be necessary to crush more than from 40 to 60 per cent of the gravel to be used for the new street work.

Thousands of shoppers have attended the big New Goods Sale now being conducted by F. Braastad & Co. (4-26-tf)

Ladies' suits, coats and capes at cut prices. (4-26-tf) F. BRAASTAD & CO.

**THE THIRD DEGREE TONIGHT.**

Henry B. Harris' Play Will Be Presented at Ishpeming Theater.

Charles Klein's "The Third Degree" is said to excel even his former success, "The Lion and the Mouse," in interest. "The Third Degree" exploits the savage methods of the police, and the pitiable blindness of justice in certain criminal proceedings against suspects.

It is admitted that torture will make a man "confess" almost anything, in order that he gain respite from his miseries. For proof of this we have the Spanish Inquisition. A confession, wrung from the lips of an accused while he is being tortured, does not prove his guilt, as the records of trials of a justice show.

In "The Third Degree" the accused is acquitted after he has been publicly condemned through circumstantial evidence and his alleged confession. The play is a wonderfully interesting psychological study.

The presenting company is one of exceptional ability and includes Paul Everton, Fernanda Elisen, E. A. Eberle, Margaret Drew, Alfred Moore, T. L. Coleman, Francis Bonn, A. H. Symmons, H. H. Forseman and Ralph Ramsay.

The big New Goods Sale is now in progress. Whether you buy or not, come and see the big display. (4-26-tf) F. BRAASTAD & CO.

**INVITED TO ELKS' REUNION.**

Mayors of Michigan Cities Asked to Visit Detroit in July.

Mayor W. J. McCorkindale has received from Philip Breitmeyer, mayor of Detroit, an invitation to be present at the opening of the national convention and reunion of the Brotherhood of Protective Order of Elks in that city, commencing July 11.

Concerning the reunion Mayor Breitmeyer writes:

"As you undoubtedly know, the Elks' reunion will be the greatest gathering any city in the state has ever entertained. I feel that both the state and its metropolis will be more thoroughly advertised through the medium of this great gathering than they could be through any other agency, and I am anxious for the co-operation of the whole state in the proper entertainment of our guests."

Mayor McCorkindale is a member of Ishpeming lodge, No. 447, and plans to attend the reunion in company with other members of the society from this city. It is now expected that from twenty-five to fifty members of the Ishpeming lodge will make the trip.

It is reported from the copper country that all of the lodges there will send large delegations and it is thought that there will be 100 or more going from this county. Committees representing the Ishpeming, Negaunee and Marquette lodges have been invited to meet committees representing the copper country lodges at Hancock, next Sunday, May 1, to work out the details pertaining to the trip.

**CARD OF THANKS.**

We desire to express our gratitude for the favors and sympathy extended by friends and neighbors during our recent bereavement, and to thank our friends for floral offerings.

**DEVINE FAMILY.**

Rose bushes, 10-cents each, at Braastad's. (4-26-tf)

**ONE CONDUCTOR WHO WAS CURED.**

Mr. Wilford Adams is his name, and he writes about it—"Some time ago I was confined to my bed with chronic rheumatism. I used two bottles of Foley's Kidney Remedy with good effect, and the third bottle put me on my feet and I resumed work as conductor on the Lexington, Ky., Street railway. It gave me more relief than any medicine I had ever used, and it will do all you claim in cases of rheumatism." Foley's Kidney Remedy cures rheumatism by eliminating the uric acid from the blood. For sale by all druggists.

**ARE KNOWN HERE.**

Employees of Northwestern Company Had Close Call Near Fond du Lac.

Five employees of the Chicago & Northwestern Railway company, some of whom are well known to the company's local workmen, were injured in a head-on collision between two passenger trains at Oakfield, near Fond du Lac, shortly after 10 o'clock Saturday morning. The wreck was one of the most disastrous that has occurred on that division of the road in years. The locomotives were reduced to scrap iron and several cars were destroyed, but none of the 100 or more passengers on the trains were seriously injured. The trainmen hurt were H. C. Kingsley, mail clerk; H. H. Crowley, engineer; Stephen Bush and Stephen Dille, both of Fond du Lac, firemen, and J. C. Ransom, engineer, also of Fond du Lac. Scores of passengers were cut by flying glass, and many received painful bruises by being thrown from their seats by the force of the collision.

A blizzard raging at the time was responsible for the wreck. The engineers were unable to see more than a few feet ahead, and the engineer on the north bound train did not realize that he was near the Oakfield station until he ran into the other train.

Startling bargains being offered during this big New Goods Sale. (4-26-tf) F. BRAASTAD & CO.

First-class piano tuning done by M. J. Olson. County 'phone, No. 520. 400 East Ridge street. (1-12-tf)

## Negaunee Department

### HARD TO DECIDE ON PAVEMENT MATERIAL

COPPER COUNTRY MEN ARE NOT ALL OF THE SAME OPINION AS TO WHICH IS THE MOST SATISFACTORY FOR THIS ZONE.

Messrs. E. C. Anthony, William Haggaton and Al Willman, who went to the Geographic range and the copper country to inspect pavements, reached home Sunday evening. The storm that raged Saturday made it impossible thoroughly to inspect the streets in the copper country. The Negaunee men conferred with the officials of the different towns they visited, and secured data concerning costs and other matters. Besides talking with officials, they also interviewed business men, securing their opinion as to the different kinds of material used.

The Negaunee men visited Ironwood Friday. Although it rained all day they went over the paved streets there roughly. The Ironwood streets are paved with tar macadam, which was put down two years ago at an average cost of \$1.25 per square yard. The opinion was expressed that this was cheaper than the same class of work done in the coming year, as material is more expensive and labor is higher than it was two years ago. Most of the Ironwood people expressed themselves as well pleased with the pavement. In the hot weather the surface at times becomes soft, but the material seems to stand up well under heavy loads.

In the copper country town officials seemed to prefer creosoted blocks to any other material thus far used. Some four or five materials have been laid on the streets of Calumet and creosoted blocks, granite, and brick have been used at Houghton. The brick pavement, put in several years ago, is standing up fairly well on Sheldon street.

Martin Foley, who has charge of the street work in Houghton, advised the committee that he liked creosoted blocks better than either brick or granite. One of the streets where this material was put down six years ago is still in fine condition. During heavy rains the water swells the surface of the blocks in places, but the material goes back into position again without special injury to the street as soon as the sun strikes it. The thoroughfare on which this material has been used is without a single break, in spite of the fact that heavy loads are hauled over it. Mr. Anthony said he liked this pavement, as it is noiseless and the street surface is perfectly smooth. Granite is noisy and is hard and expensive to repair. The cost of the pavements in the copper country vary according to the material used. The pavements on some of the streets ran as high as \$2.50 per square yard.

In all the towns visited the cost of the street paving is placed on the general tax roll instead of being assessed against the individual property owners. In Calumet the village has been bonded for \$250,000 for pavement work. Several miles of paving have been put in.

In the event the council decides to pave Iron street, the cost will likely be spread on the tax roll instead of being assessed against the individual property owners whose properties abut on the street. While the board of public works has not yet reached a decision as to what material it will recommend, it is likely that the board will favor some sort of paving instead of a crushed rock macadam.

### RAILS ON WAY.

Marquette C. G. & E. Company Will Soon Begin Work on Iron Street.

The new rails for the street car line are expected daily, and the company will begin the work of laying them as soon as they are received as the management desires to be out of the way of the street crew before work on Iron street is started.

The rails will be about twice as heavy as those now in use and will be similar to the rails laid through the principal streets of Ishpeming last year. The present rails are too light for the heavy cars. A car left the rails Saturday during the storm near the post-office, and jumped the track about a half block west of there a few weeks ago. The grade of the track will not be changed to any extent.

The members of the board of public works plan to have a number of the National Car Line company's hauling trains from Chicago to Boston, which means that over 300 cars of cattle will pass through the tunnel every week and that additional men will be given employment at their terminal. There is also a probability that feeding and watering quarters for the cattle will be erected at the tunnel.

OWOSSO—Because he had failed to equip his motorcycle with the regulation three inch license numbers, Dr. J. E. Taylor of Ovid lost out in his \$10,000 suit against the Grand Trunk railway for damages for injuries sustained June 29, 1909, when he was compelled to jump from his machine to save himself being run over by the flyer as it passed through the village. Judge Kelley Seale ruled that inasmuch as the plaintiff was violating a law when the accident occurred, he had no grounds for damages.

TRAVERSE CITY—The little village of Gravn is all torn up over the cheapest bit of scandal that has ever agitated the town. A revival conducted by the Latter Day Saints last week was the cause of all the trouble. It seems that one night a meeting was held preparatory to a general baptizing, and the fact that the faithful confessing their various sins. In addition to the converts there was a large gathering of those still in outer darkness, and the interest in all the revelations was intense. But when a young woman arose to her feet, with her first words she so effectively hushed the congregation that not a syllable was missed. In the course of her confession she named a professional man, a prominent farmer and a young man, the professional man's wife being in the congregation and also a convert. Should Halley's comet strike the earth Gravn would not mind it in the slightest, being unburned, not to say calloused. Hardly five minutes after the confession the story was known all over the village and since then has been the principal topic of conversation.

### WHY WOMEN SUFFER

With Piles and How to Find a Lasting Cure.

Constipation is a most frequent cause of piles. That is why women suffer more often from piles than men. Indoor work and lack of exercise brings on the attacks.

The People's Drug Store, Marquette, and the City Drug Store, Ishpeming, sell Hem-Roid, an internal, tablet remedy for piles, on the understanding that you can have the money back, if dissatisfied. \$1 for a large bottle. Dr. Leonhardt Co., Station B, Buffalo, N. Y., mails booklet on request.

Good results always follow the use of Foley's Kidney Pills. They give prompt relief in all cases of kidney and bladder disorders, are healing, strengthening and anti-septic. Try them. For sale by all druggists.

### DEATH OF THOMAS TRACEY.

One of Negaunee's Oldest Residents Expired Suddenly Yesterday.

Thomas Tracey, who was one of Negaunee's first settlers, was found dead in his bed yesterday morning. While the old man had been failing, he did not seem to be feeling any worse Sunday night than usual of late. Heart disease was the cause of his demise. Mr. Tracey lived with his nephew and niece, Joseph and Maggie O'Leary, at his home on Jackson street. His wife died about two years ago.

The deceased was over seventy-five years of age and was an industrious man, and many years ago was successful in money to acquire the business block on Iron street which bears his name, also the dwelling at the rear of the lot facing Jackson street. He was at one time interested in the Tracey mine, which was named after him, and he worked at the property while it was being operated.

### ALL WATER OUT.

Sinking of Shaft at Breitung Hematite to Be Started at Once.

The last of the water has been removed from the Breitung Hematite property, where mining operations were recently resumed in the upper levels. The pumps were started over a month ago and miners have been working underground for the past two or three weeks. The first shipment of ore has been sent out and it is expected that the property will now be a steady producer. Preparations are being made to sink the shaft, which is 275 feet deep, to another level.

The Breitung company is making good headway with the removal of the water from the Milwaukee and Davis mines, but it will perhaps be thirty days or more before mining operations will be resumed there. The Milwaukee shaft is about 400 feet deep and the water is run down about 100 feet from surface. All of the buildings at this property have been thoroughly overhauled, and the machinery has been put in first-class condition. Mining work will be started as soon as the levels are free of water.

### NEGAUNEE LACONICS.

Andrew Carlson is preparing to build a two-story dwelling with basement on East Snow street.

Louis Peterson of Crystal Falls, formerly of Negaunee, spent Saturday and Sunday in the city.

Miss Marguerite Seass left Sunday night for Chicago, where she will spend several weeks, visiting friends.

A party of Negaunee theatergoers will attend the production of "The Third Degree" at the Ishpeming theater tonight.

Mrs. Herbert Cameron and child left Saturday night for their home at Virginia, Minn., after an extended visit here.

J. Carlson and family, have gone to Roscommon, in the lower part of the state, where they will locate permanently.

G. DeGabriele, a member of the Negaunee City band, is enroute to his home in Italy, where he will spend a few months visiting relatives.

Paul Honkevaara came in from Palmer and returned to the location Sunday in his White steam touring car. In places the snow was three feet deep, but it was not necessary to stop the car on account of the drifts.

Monsignor Langner of this city, vicar general of the Roman Catholic diocese of Marquette and Sault Ste. Marie, will go to Europe shortly, for the benefit of his health. He will leave for Carlisle early next month.

The Gossard Corset company's representative, Mrs. Shank, will be at Levine Bros. store tomorrow to demonstrate and fit this popular corset. Mrs. Shank is an expert corseteer, and can be of considerable help to the firm's customers.

Barnum, the hypnotist, who is appearing at McDonald's Opera House this week, was greeted by a large audience last night. The hypnotic sleeper was awakened on the opera house stage. The company will present a complete change of program each evening.

R. G. Jackson, who spent the greater part of last week at Jackson, attending a meeting of the board of control of the Fair Fellows Home, arrived home Friday night. Three applications for admission to the home were accepted. When these patients arrive there will be fifty-two inmates.

David Foley, chief of the Oliver Iron Mining company's police force, is one of the disciples of Isaac Walton to return to the city with a basket of trout. He was down to the Grosbeak, the day after the opening of the trout fishing season and had the good fortune to fill his basket in a few hours. Then it rained and Mr. Foley says that the fishing will be poor until the high waters in the trout streams subside.—The Virginian.

O. J. LaCombe is doing some artistic decorating in his place of business. Outrigger paper of a pretty green shade is being used and in the upper panels there are painted pictures of dancing girls, in different poses. Between the panels there is a pillar effect, and the upper and lower panels, are divided by a moulding from which a lot of old time pictures are to be hung. Mr. LaCombe, who is a paperhanger and decorator by trade, is doing the work himself, and he expects to complete the job by the end of the week.

John O'Leary, a pioneer resident of Negaunee, passed away yesterday morning. Mr. O'Leary located in this city over forty years ago and had lived the greater part of the intervening time in the family's present home on Cyr street. He is survived by his widow and several daughters and one son, Dr. Austin O'Leary, who is located in Arizona. The latter is now on his way home to attend the funeral, the arrangements for which will be completed today. Two of the daughters, Mrs. Peter Donahoe, and Miss Margaret O'Leary, are located in the copper country.

### LOWER STATE NOTES.

KALAMAZOO—Kalamazoo saloonkeepers are on the anxious seat, awaiting the action of the city council. The population of Kalamazoo allows forty-nine saloons. There are now fifty-six saloonkeepers in the city and sixty-three applications are on file with the city clerk. Many of the old saloonkeepers will be refused new licenses because they are held to be disreputable. It is not believed that any new applicants will be given consideration.

ST. JOSEPH—Stricken with apoplexy while participating in the celebration of the fifth anniversary of St. Joseph's Masonic lodge, Fred A. Woodruff lies at his home dangerously ill. Mental strain and excitement induced by constant work in connection with the lodge of which he was past master is thought to be accountable for his illness. He is prominent in political, social and business circles of the city, having retired recently as postmaster after a service of twelve years.

ANN ARBOR—"Now you let me alone, I know where I'm going," said a young man of about thirty, clad only in his nightgown, who had just swum the Huron river. "I'm going to the police headquarters, that is, to the 'going.' But he didn't. Instead he went back to the psychopathic ward of the U. M. hospital, where he had escaped just at dusk, in his night shirt. He had eluded his nurse and the orderly, and started out to find the police station. A little thing like the Huron river was no obstacle for him and he swam across, and then begged it in the direction of the gas works. People who had witnessed the flight and the plunge into the river had followed him via the bridge route. He was returned to the ward.

LANSING—The exact status of the superintendent of public instruction as ex-officio member of the board of regents of the University of Michigan is given in an opinion handed down by Attorney General Bird. According to the ruling, the superintendent has the power to make and second motions at a meeting of the board of regents, but he may not be a member of any committee of the board, and may assume the title of regent of the University of Michigan. He is not, however, entitled to a vote in the board proceedings, nor can he be regarded as a member of the board in the making of a quorum at any meeting of the board, and the members of the board of regents and two ex-officio members, the latter at the present time consisting of Acting President Hutchins, of the university, and Superintendent of Public Instruction Wright.

PORT HURON—The Grand Trunk railway has secured the contract of hauling the National Car Line company's cattle trains from Chicago to Boston, which means that over 300 cars of cattle will pass through the tunnel every week and that additional men will be given employment at their terminal. There is also a probability that feeding and watering quarters for the cattle will be erected at the tunnel.

OWOSSO—Because he had failed to equip his motorcycle with the regulation three inch license numbers, Dr. J. E. Taylor of Ovid lost out in his \$10,000 suit against the Grand Trunk railway for damages for injuries sustained June 29, 1909, when he was compelled to jump from his machine to save himself being run over by the flyer as it passed through the village. Judge Kelley Seale ruled that inasmuch as the plaintiff was violating a law when the accident occurred, he had no grounds for damages.

TRAVERSE CITY—The little village of Gravn is all torn up over the cheapest bit of scandal that has ever agitated the town. A revival conducted by the Latter Day Saints last week was the cause of all the trouble. It seems that one night a meeting was held preparatory to a general baptizing, and the fact that the faithful confessing their various sins. In addition to the converts there was a large gathering of those still in outer darkness, and the interest in all the revelations was intense. ## Into the Saving Habit and Out of the Rut

The habit of saving has raised many a man out of the rut into the higher places. It makes him more methodical in the discharge of duty; it enhances his self-respect; it makes him a more useful member of society, and incidentally militates against those habits which undermine health and happiness. This would be a good bank in which to make your start. We are growing and you would also. One dollar or more will give you a start.

3 Per Cent Interest Paid on Savings Accounts.

### PIONEER PRAIRIE STILL.

A Cave in No Man's Land Where First Oklahoma Whisky Was Made.

"During the early days in Oklahoma, when the noise of the cars never caused people to lose their sleep, there was an old still that did a big business in 'No Man's Land,'" says Lyman Savage, one of the Oklahoma pioneers.

"There was a place a couple of miles from where Gate City now stands, along in 1886, 1887 and 1888. At the mouth of Hog Creek there is a wide space between the bluffs where a canon runs into the creek, and here there was plenty of time to form a small sort of grove. At a point where the bank comes closely together a number of citizens planned one of the most original of well-built caves. Poles were set upright midway between the banks, and after the necessary rafters or stringers were attached the dirt was thrown across and the cave perfected.

"Herein was installed a still that did a flourishing business day and night. The thirty for miles around were supplied, and the business extended and developed as far eastward as where Enid and El Reno are now located, and as far west as mankind was known.

"Wagon after wagon load was carried away from this still, running in a land unhampered by the law and where religion or political freedom was indulged in to suit the fancy of the individual providing the fancy was not to much out of the accepted order of affairs.

"The still was one of the finest to be found anywhere and worked three years without interruption from the Federal government. Not until 1889, when the field of immigration turned too far westward for such practices, was there any interruption.

"Then the revenue officers took a hand in the game, chopped up the copper still with axes, and left an order for it never again to do business, which order was not violated. The old cave was about 40x80 feet in dimensions, and corn meal was hauled from Dodge City for the needs of the still, and the product produced was of first-class quality."—Guyman Correspondence of the St. Louis Globe-Democrat.

Robert Browning's greatest poem, "Ring and Book," was composed when he was over sixty.

RESTAURANTS FOUND WORST

Investigation Showed It a Common Practice for Them to Sell Beer After Hours and on Sunday.

At the meeting of the police commission, held last evening, which was attended by Commissioners Carlson, Fay, Freeman, Rogers and Mayor Vaughan, considerable time was devoted to a discussion of the report of Mr. Rogers regarding the results of the quiet investigation made a short time ago to determine how well the law was being observed in this city.

Mr. Rogers stated that he had been moved to make arrangements for the investigation by numerous reports that had come to him, the tenor of which was that liquor was being illicitly sold and that several places were under suspicion of conducting other kinds of illegitimate business.

Several instances of law violation, however, were uncovered, as the result of which warrants for violation of the liquor laws had been sworn out in five cases, the preliminary hearings in which would take place on May 8 before Justice Cray.

He stated that sale of liquors in the restaurants of the city had been found to be the most serious form of law violation. It had been learned that the restaurant keepers had been in the habit of buying beer by the case and selling it out by the bottle after 11 o'clock at night and on Sundays, and that this was not an occasional but a quite general practice.

Another result of the investigation was the suspension of Officer Remortel from the police force, as it had been found that he had been remiss in his duty. Officer Remortel's suspension was made permanent by the police commission, inasmuch as he had not asked for a hearing and as he had admitted all, and more, than the charges of misconduct which were made against him.

As the result of this shake-up in the police force, and the arrests that had been made, said Mr. Rogers, he believed that the city was now being well policed and that the laws were in general being well obeyed.

With the payment of the payroll and other bills that were allowed last night, it was found that the police fund has a balance of about \$200, which is insufficient to meet the current expenses for next month, and the annual appropriation will not be received until some time in June.

As the result of this shake-up in the police force, and the arrests that had been made, said Mr. Rogers, he believed that the city was now being well policed and that the laws were in general being well obeyed.

THEATRICAL.

"The Third Degree."

Dealing in a daring manner with police methods and high society, "The Third Degree," which comes to the opera house Friday night, touches a theme hitherto given a wide berth by playwrights. Possibly because Charles Klein, the author, met with such success in "The Lion and the Mouse," he was resolved to make another attack on those who assume power without either legal or moral right.

CARD OF THANKS.

We desire to express our sincerest thanks to our friends and neighbors who did so much to aid us in our bereavement, and whose sympathy was so freely extended to us. We desire particularly to thank members of St. Cecilia court, W. C. O. F., and the telephone girls of the Michigan State Telephone company.

CONSTITUTION IN PORT.

Schooner, Anchored Near Granite Rock for Two Days, Reaches Marquette.

The schooner Constitution, which broke loose from the steamer Adriatic near Granite Rock light in Friday night's storm and lay at anchor with a broken steering gear over Sunday, was picked up by her steamer yesterday and towed into the Marquette harbor.

Captain Peterson, of the Constitution, stated yesterday afternoon that he was mightily glad to be safe in port again, though at no time was his vessel in serious danger. As soon as the tow line parted and the steering gear was found to be out of commission, both anchors were lowered and held fast to the bottom in 150 feet of water, about a mile from Granite rock.

No other marine accidents of a serious nature have been reported as the result of the storm, and it is now believed that no ships or lives have been lost.

ANTI-SPITTING LAWS ARE NOT ENFORCED

ATTENTION CALLED TO DANGER OF SPREAD OF TUBERCULOSIS FROM THIS PRACTICE, IN BULLETIN RECENTLY ISSUED.

Anti-spitting ordinances, laws and regulations in more than five-eighths of the cities and towns of the country are not enforced as they should be, alleges the National Association for the Study and Prevention of Tuberculosis in a bulletin recently issued.

A glance at the police report for last year shows that no one was arrested for violation of this ordinance. The laxity is not looked upon as the fault of the officers. It has not been a general practice to enforce this ordinance in any of the Michigan towns.

Dr. E. L. Tuohy, of Duluth, says the most effective way of battling with the white plague is to destroy the cause. "The germs are contained in spittle and when this is allowed to be distributed on the city streets, where it can dry, and then blow away as part of the atmosphere, it is carrying with it the deadly germ deposited there by the consumptive."

An idea of the general violation of this ordinance can be gained from the fact that during the year 1909 in eighty cities, 3,421 arrests were made for violation of the laws regarding spitting in public places. Over 2,000 convictions were secured and \$4,100.87 were collected in fines.

New York city had more arrests than any other city, having had 2,513, with 2,099 convictions, and \$1,938.80 collected in fines. Baltimore comes next with 214 arrests and an equal number of convictions. Pittsburgh is third in rank with 104 arrests and 104 convictions.

SOO CANAL PASSAGES.

List of Boats That Have Passed the Locks, Bound for Superior Ports.

Sault Ste. Marie, Mich., April 25.—The following boats, up-bound, have passed through the locks, bound for ports on Lake Superior: Saronic, Corigan, 10 p. m.; Carleton, Bullington, Marquette, Imperic, Lazon, 2 p. m.; Oster, 2:30; Team; Butler, 4; Myron, Page, Goshawk, 6; Hopkins, King, Ashley, 7; Barton, 9:30; J. E. Upton, Harlow, 11; Troy, Siemens, 12:30 p. m.; Tomlinson, Westmont, 2; Hebbard, Coruma, 4; Tronstadt, Panay, 6; Grativick (old), Ontario, 7:30.

BOWLING SCORES.

The Guild Hall "A" team won two of the three games of its match with LaFayette's at the downtown bowling alley last evening. The scores follow: Guild Hall "A"..... Tot. 463; La Fayette..... Tot. 408; Bogue..... Tot. 355; Cain..... Tot. 492; Jeanson (sub.)..... Tot. 344; Carr (sub.)..... Tot. 146; Fennessy..... Tot. 189; Bell (sub.)..... Tot. 188.

It is to your advantage to buy your paper at Geill's wall paper store. You can get enough paper for a bedroom, size 10x12, for 70 cents. You can't beat it. We trim it.

Baleom & Larson will be here Wednesday and Thursday to do all chimney cleaning. All work guaranteed. Leave orders at the fire engine house (4-19-36-21w)

If you want milk of superior quality from tuberculin-tested cattle, call up the Marquette City Dairy. Bell phone 223. (4-23-1m)

STONE AND BRICK WORK. Estimates furnished on all kinds of brick and stone work. Have had many years' experience in every coping and also, excavating and concrete work done.

Bring your babies to the Ground Floor Studio and have Stierle make a dozen of those beautiful Slapla photographs—two blocks north of library. (4-14-14)

ELECTRICITY CHARGES FAIR AND REASONABLE

SUPERINTENDENT RETALLIC EXPLAINS WHY CURRENT CAN BE FURNISHED CHEAPER TO POWER USERS AND BUSINESS FIRMS, THAN IN RESIDENCE DISTRICTS

"The schedule of rates for electricity furnished for light and power by the city light and power commission has been adopted after careful study of the systems in use by other electric companies, and is as fair as the commission knows how to make it," declared Superintendent Chas. Retallic, yesterday.

Mr. Retallic made this statement while discussing an attack that has been made on the existing schedule of electricity rates in this city, in which it was argued that all customers of the light and power commission, big and little, be charged a uniform price. Continuing, he said: "Before adopting the present system of light and power rates, the commission took occasion to investigate the schedules of rates in many other cities. It was found that a great many systems are in use, but that, judged from the consumers' standpoint, they all amount to about the same thing—that is, the large users of current pay less per kilowatt hour than those who use a smaller amount."

"This appears to me to be perfectly fair to the consumer, and from the manufacturer's standpoint is the only sane policy, as fixed charges are practically the same, whether a consumer uses \$1 or \$100 worth of electricity per month. One can buy a barrel of sugar cheaper than he can buy the same amount from time to time in ten-pound lots. In the business districts, where large number of consumers can be served from the same pole lines, transformers, and equipment, we can furnish electricity cheaper than in residence districts, where there are not more than one-fourth as much current is sold from an equal or perhaps greater investment in pole lines, transformers and equipment."

"When electric current is used for power, it is usually sold in large quantities and it can be furnished even cheaper than in the business districts for lighting purposes. Again, with manufacturing plants, it is a question of how much they can afford to pay. If a firm can buy coal cheaper, for power, than it can buy electricity, there is no market for electricity. In fixing power rates, the aim has been to charge enough to make a reasonable profit and little enough so that the manufacturers can afford to use it. If a uniform rate were charged everybody, it would have to be so high that steam would displace electricity for generating power, and then to come out even, the lighting customers would have to be charged a still higher rate. Conversely, the more electricity sold for power purposes, the lower the lighting rates can be made."

"Light and power plants have many different systems of adjusting rates. Some have fixed charges of so much per lamp installed, sufficient to cover fixed charges, and then a sliding scale for current used, the price per unit being less in proportion to the amount used. After investigating a large number of these intricate systems, the Marquette commission decided to adopt the much simpler system of class rates—one price for residences, another for business places, another for users of power, and so on. As far as the consumer is concerned, the ultimate result is the same, no matter which system is used, and those states which have public utility commissions, have in every case, held that the class rate system is just and equitable."
