

SENATOR BRISTOW FLAYS RAILROADS

Condemning the Present System of Rate-Making, He Charges Them With "Innumerable High-Handed Acts of Tyranny."

He Says, too, They Have Corrupted Legislation and Influenced the Appointment of Federal Jurists and That Now in the Enactment of the Pending "Administration" Bill They Are Attempting to Get from Under the Sherman Anti-Trust Law.

Washington, April 27.—Charging the railroads with not only innumerable acts of discrimination—"high-handed acts of tyranny"—but also with corrupting legislation and with influencing the appointment of federal judges, Senator Bristow, speaking in the senate today, entered upon an extensive condemnation of the present system of rate-making. He spoke in connection with the administration railroad bill, which he opposed.

Mr. Bristow cited many instances to show the ill effects of the plan employed in making railroad rates. Declaring that by these methods one man was enriched at the expense of another, and that there was great discrimination as between cities, he asserted that it should not be permitted longer. After presenting many instances of the kind, Senator Bristow said:

"The present system is intolerable. By it the railroads impose an unjust tax upon the necessities of the people. They stangle the natural growth of cities. They tax arbitrarily one region for the benefit of another; they levy tribute upon the rich resources of one community that they may favor another. They have driven independent American steamships from the inland seas and have contributed largely to driving the American flag from the oceans. They have annihilated the great steamboat industry which fifty years ago was the pride of the nation."

"That is not all. In order to retain the power that has enabled them to execute these high-handed acts of tyranny they have used their enormous wealth to corrupt legislatures, bribe conventions and control elections. They have sought to and, in some instances, I believe, have controlled the appointment of federal judges, that they might have an undue influence with the court. Now with amazing effrontery and apparent confidence in their power, they are attempting by the enactment of this bill not only to get from under the future operations of the Sherman anti-trust law, but to secure legislative immunity from the crimes which they have committed against that statute."

DOLLIVER, AS LEADER, DECLINES IT HOWEVER.

Senator Raynor Extends an Invitation to the "Insurgent" Republicans to Join the Democrats—Says They Are Out of Sympathy With Their Party.

Washington, April 27.—The invitation today of Senator Raynor to the "insurgent" senators to join the Democratic party was spurned by Senator Dolliver on behalf of the "insurgents." The suggestion by the Maryland senator followed a speech by him in the senate criticizing as unconstitutional some features of the administration railroad bill. He told the "insurgents" that they were out of sympathy with their party and should embrace the principles of the Democracy.

A tilt ensued when Senator Bailey of Texas advised the "insurgents" to remain in sympathy with the regular Republicans if they desired to win in the coming campaign. Otherwise they should join the Democracy. He recognized as one of the fundamental principles of government that the Republicans must continue Republicans and the Democrats Democrats; no other course was open except to join the Socialist party. He did not believe that any would be so foolish as to do that, but he recognized the importance of an organization strong enough to elect a mayor in a great city.

NO LAW TO PREVENT IT. Governor Hughes' Eventual Promotion to Chief Justice Is Possible.

Washington, April 27.—In view of the possibility that Governor Hughes, nominated by the president for associate justice of the supreme court, might become eventually chief justice of that court, people interested have been looking up the law and precedents applicable to the case. They are of the opinion that there is no law to prevent it, no one who has been an associate justice of the court has ever taken oath as chief justice. The only reason why the presidents have not promoted members of the tribunal is said to have been because they either found more desirable timber or did not wish to offend in any way the associate justices not promoted.

GETS AFTER SURETY CONCERNS. Secretary MacVeagh Wants Authority to Suspend or Revoke Licenses.

Washington, April 27.—The need for a government examination of certain surety companies which the treasury department has reason to believe are unsafe was pointed out to congress today by Secretary MacVeagh, who has recommended that he be authorized to suspend or revoke the licenses of suspected companies without proof of insolvency or impairment.

ELEPHANTS ENGAGE IN WILD RAMPAGE

Nine of the Big Beasts Escape from Ringlings' Circus at Danville, Ills., and for Hours Terrorize the Neighborhood.

More Than a Hundred Houses Are Damaged by the Animals, Truck Gardens and Orchards Suffer and One Man of the Several Persons That Are Injured Is in Critical Condition—Only Brick and Stone Walls Stop the Progress of the Herd.

Danville Ills., April 27.—Several persons were injured and considerable property was damaged when eight bulls and one female elephant of the Ringling Bros. show stampeded today. The pachyderms were being unloaded when one of the bulls made a break for liberty, followed by seven other bulls. While the trainers and keepers were engaged in an elephant hunt in automobiles, the female escaped.

At the home of Joseph Peebles, after killing a horse, one of the animals attacked the side of the residence. He is in critical condition. F. Krable, one of the keepers, taking the bulls into their quarters after their capture, was hurled against a barn and was severely injured. Other persons were slightly injured when horses were frightened or through their own fright during the stampede.

It is estimated that more than one hundred homes were damaged by the elephants, the loss probably aggregating \$10,000. Truck gardens and orchards suffered. Late this evening one elephant is still at large.

HIS PARIS VISIT ENDS. Colonel Roosevelt Is Guest of Honor at Gala Dinner.

Paris, April 27.—The visit of Colonel Roosevelt was concluded tonight with a gala dinner at the ministry of foreign affairs. Among the guests were Ambassador and Mrs. Bacon, Consul General and Mrs. Mason, former President and Mme. Loubet, Premier Briand, former Premier Clemenceau, Leon Bourgeois, M. Ribot, M. and Mme. Delcasse, Baron D'Estournelles de Constant, Jules Cambon, M. Jusserand, French ambassador to the United States, and Mmo. Jusserand and distinguished personages of official, political and society circles. During the dinner toasts were omitted. The orchestra played American and French airs. In the smoking room Colonel Roosevelt received many he had not met before, chatting pleasantly.

RICH PRIZE GOES TO FRENCH AVIATOR

Flying from London to Manchester in a Spectacular Race, Louis Paulhan Wins the \$50,000 Offered by Lord Northcliffe.

London, Thursday, April 28.—A Frenchman, Louis Paulhan, today won the greatest race in history and a prize of \$50,000 when he flew into Manchester at 5:30 o'clock this morning, after having traveled by aeroplane from London, a distance by rail of more than 180 miles, with only one single over-night stop at Lichfield. His competitor in the contest, Graham White, an English aviator, for some unexplained reason after making a successful new start at Reade, where he made his first landing, descended at Polesworth, and no advice have yet been received of his having resumed his flight.

White was doubly unfortunate, inasmuch as the wreck of his machine after a previous attempt had delayed the re-arrangement of the flight, and yesterday, believing that Paulhan would not start until Thursday, he went to sleep, allowing his opponent to gain a great advantage. Louis Paulhan is the holder of both the long distance record and the record for height. April 18 he broke all cross-country records, making a flight from Orleans to Arcis-sur-Aube, 118 miles, in three and one-half hours. At Los Angeles last January he reached an altitude officially announced as 4,165 feet. The most spectacular flight previous to this, in fact, was made by Louis Bleriot last July, across the English channel.

London, Wednesday, April 27.—The struggle for the \$50,000 prize offered by Lord Northcliffe for the aerial flight from London to Manchester took an unexpected turn this afternoon when the Frenchman, Louis Paulhan, stole a march on his English rival, Graham White, which placed him twenty miles ahead when darkness compelled both to alight. The race caused tremendous excitement here. Bulletins were posted in public places and were announced in the music hall. The evening papers were eagerly snapped up. Little else is talked of tonight.

U. S. Army Machine Damaged. San Antonio, April 27.—Lieutenant L. B. Fontlos, in making a landing in the army's Wright airplane at Fort Sam Houston today, smashed the skids of the machine. The lieutenant was carrying a passenger, Private Eldredge, of the signal corps. Both men were considerably shaken up.

TURKISH TROOPS REPULSED. Rebels in Albania Twice Beat Back the Sultan's Soldiers.

Constantinople, April 27.—Turkish troops have twice stormed Kachant pass, in upper Albania, in an attempt to dislodge Albanian rebels, but have been driven back with considerable loss. Bombardment Kills Many People. London, April 27.—A report from Salonika says that five hundred Albanians, chiefly women and children, have been killed in an artillery bombardment of Goudanuz by the Turkish forces.

U. S. ATTORNEY SCORES COPPER MINE MAGNATE.

Opening the Prosecution of F. Augustus Heinze at New York, He Styles the Financial Operations of the Defendant as Flim Flam and Bunco Games.

New York, April 27.—After a scathing opening address by United States District Attorney Wiser, the government began in earnest today the prosecution of F. Augustus Heinze, the Montana copper magnate, charged with misappropriation of the funds of the Mercantile National bank, of which he was president, and with over-certification of checks of the firm of Otto Heine & Co., which he and his associates dominated. The prosecutor referred to the operations as "flim flam" and "bunco games," and he charged that the Mercantile National bank had been reduced to a gambling institution. When the counsel had finished their addresses, the government began the introduction of evidence.

HEIRS TO GET A FORTUNE. Bill for \$1,824 in 1798 Is Allowed by the Court of Claims at \$100,000.

STERLING, ILL., April 27.—When the United States frigate Betsey was seized by the French in 1798, Solomon Barlow was interested in the craft to the extent of \$1,824. He put in a claim against the federal government which, according to word received today by two heirs resident here, has now been allowed by the court of claims. The principal and interest amount to \$100,000, which will be divided equally amongst the five surviving grandchildren of the original claimant.

JURIES TAMPERED WITH. Future Trials of Pittsburgh Councilmen Will Take Place Elsewhere.

Pittsburgh, April 27.—The last trial of councilmen indicted in the bribery scandal has been held in this county. Tampered juries have caused the district attorney to take action, and today Judge Robert S. Fraser discharged the entire panel while the jury was deliberating in the case of former Councilman Maurice S. Coffey. It is expected that in all the remaining cases of indicted councilmen, a change of venue will be obtained.

KANSAS CITY, Mo., April 27.—Dr. R. C. Hyde's bond of \$100,000 has been revoked and the physician was placed in jail by order of Judge Latawah at the close of the criminal court session tonight. The action was due to the evidence presented by the state.

WOLTER IS SENTENCED TO ELECTROCUTION. New York, April 27.—Albert W. Wolter, convicted of the murder of Ruth Wheeler, was sentenced today, to die in the electric chair during the week beginning June 6.

MANY AUTOMOBILE SMASH-UPS. Chicago's Record for the Past Two Weeks Is More Than Two Score.

CHICAGO, April 27.—Forty-three automobile smash-ups, in which thirty-eight persons have been injured, have occurred in this city the last two weeks. Thirty of the accidents were collisions between automobiles and eight were collisions between automobiles and street cars. Few snow storms and recklessness are given by the police as the causes.

Charles Willesen has received from C. R. McCabe a score card of a national league baseball game, played at Brooklyn, N. Y., a few days ago, which Mr. McCabe kept as he watched the game.

Secretary Anderson of the park, cemetery and street commission, has recently compiled a table showing the number of interments by months in Park cemetery for the last nine years. The average number for the whole period is eight per month.

At the L. S. & L. dock yesterday, the Maytham cleared for Buffalo, the Midland King for Port Edward, Ont., and the Donaldson for Ashtabula. The only arrival was the Rhodes. The Nichols is loading at the dock. The Fryer, Panay and Warner cleared from the South Shore docks.

Superintendent John Kern is preparing the special report of the water board for mailing, and within a few days it will be sent out to all who registered at the April election. The report deals with the water supply of the city of Marquette and recommendations for its improvement.

Another Ball Player—Vincent Clifford, who played with the Ishpeming baseball team at the close of last season, is expected in Marquette today and will be employed at A. Libershal's cigar factory. Clifford is said to be a good fielder and a tower of strength with the stick, and he is likely to find a berth on the Marquette team. He has been spending the winter at Hurley, Wis., and comes here from that city.

Will Make Over Piano—The Cable Piano company yesterday received a piano which went through a fire at Limestone, Algece county, which will be refinished and made as good as new, it is said. The piano now looks like almost worthless junk, a large part of the front having been burned away. The musical part of the instrument, however, is said to be unimpaired. The instrument will be refinished here in Marquette.

Looks Bad for Fishing—Continued cool weather does not serve to lighten the spirits of Marquette trout fishermen, who for many months have been planning a trip to their favorite trout streams next Sunday, the first day of May. As the result of the recent snow, which is still far from gone, the streams are high and the water icy cold. Two weeks ago, the conditions for trout fishing were nearly ideal, but from present indications very few trout will be hooked next Sunday, or for some days afterward.

Will Saloons Be Closed?—In connection with the special election on Saturday, May 7, to vote on the proposition to bond the city for \$75,000 for the extension of the present water works intake, the question of the saloons having to be closed on that day has come up. The law provides that saloons must be closed on election days, but does not specify regarding special elections of this character. As the election comes on Saturday, the best day in the week from the liquor dealer's standpoint, the saloon men are hoping that they may be allowed to keep open on that day.

Forest Reserve for U. P.—Representative Young this week introduced a bill having for its object the establishing of a federal forest reserve in the upper peninsula. It provides that upon the request of the secretary of agriculture, the secretary of the interior will accept on behalf of the United States the relinquishment to the government by the state of Michigan of any lands covered by its unperfected claims under the land laws of the United States, which the secretary of the interior will accept on behalf of the United States. Within two or three years the federal government has withdrawn for forestry purposes considerable areas of federal land in the eastern part of the upper peninsula, as well as extensive tracts in the lower peninsula.

TO THE WATER BOARD.

C. F. Button Asks to Be Enlightened on Matters of Live Public Interest.

To the Board of Fire and Water Commissioners:

As you are asking the voters to give you \$5,000 to extend the present water intake and invite discussion of the questions involved, an answer publicly of the following questions might enlighten:

1. Have you thoroughly investigated modern methods of sewage disposal? Are such methods effective? Are there topographical or financial reasons why such methods cannot be used here? If sewage could be kept out of the lake, wouldn't that be the obvious solution?
2. Can the furnace not take care of its crocote? By what methods? At what cost? Would the cost be an unbearable burden?
3. Is Mr. Nebel correct in his claim that "extension of the present intake is an experiment," and water analyzed from 3,000 feet out "was not entirely free from sewerage or crocote"? Would you advise extension as an experiment?

Very truly yours,
C. F. BUTTON.

Falling Ground Kills—

At work in a stope, George Syrak was instantly killed when caught beneath a fall of ground at the Dober mine at Iron River. He was aged twenty-two and had no relatives in the vicinity.

Union Men's Officers—

Charles Ford, one of the leading union men of the city, has been elected president of the Trade & Labor council at Escanaba. The other officers are: C. C. White, vice president; Bert Bilson, secretary; Louis Follo, treasurer; Joseph Richards, guard, and F. D. Bacon, C. C. White and Joseph Eis, directors.

Wanted Dead Man's Overcoat—

An unfortunate fellow named Gust King died at the county jail the other day, says the Crystal Falls Drill. He was brought here from Palatka, suffering with a complication of ailments, and lived but a couple of days after arriving. An uncle from Palatka was in the city, but had not enough interest in the unfortunate man to attend the funeral or view the remains. He was interested in getting an overcoat that the man was wrapped in when brought here. Further than that his interest ceased. The man was buried at the county's expense in the potters' field.

Boy Loses Arm—

As a result of accidental gunshot wounds, Clifford Payment, the thirteen-year-old son of Frank Payment of West Neshbit, near the Crystal Falls Drill, has lost his left arm. Clifford and an older brother were in the vicinity of Sand Island when the accident occurred. The younger boy took hold of the muzzle of the gun, a sixteen-gauge shot, and attempted to pull it towards him out of the boat, when the weapon was discharged, the contents entering his arm and hand. The boys had a launch and a row boat and as soon as possible the victim of the accident was taken to his home, about two miles away. The sufferer subsequently was conveyed to the Sog, where the arm was amputated.

Liquor Men Plan Reform—

A liquor dealer here is authority for the statement that a move is on foot among the saloon keepers of the city to shut off rushing grovelers by children and also to blacklist drunks, says the Crystal Falls Drill. The plan is to have a list of drunks submitted to the council and ask that the city marshal be instructed to post the list in each saloon and notify the saloon keeper that if liquor is served to any person whose name is on the list the dealer will be arrested. For a long time past the custom of sending children to saloons for pairs of beer has been indulged in, especially among the foreign portion of the population. This practice is to be stopped by the voluntary action of the dealers, who are to petition the council to require the city marshal to arrest any saloon keeper caught selling beer to children. If the liquor dealers are sincere and the law is enforced in these two particulars, it will be a great deal to mitigate the antagonism that exists at present to the saloons in this community. The liquor dealers are evincing a desire to improve conditions and if they are given assistance in the city officials in the line of putting the screws on a few dealers who have no self-respect or regard for public decency, conditions will be very good here and it will serve to temper the disposition which many have to try to vote the saloons out of business for a time.

Ironwood Students the Winners—

Sam Patek in oratory and Rose Roman in declamation carried off the prizes in the annual contests of the Eastern division of the Lake Superior Oratorical and Declamatory league held at Ironwood last week. Six schools were represented in the orations, and seven in the declamations. Those who were placed in the first and second positions will represent the Eastern division in the final contests of the league to be held at Ashland April 29, and will have pitted against them the four winners in the Western division, the same being pupils of the two high schools at Superior and the Iron River High school. The winners of the two first places at Ironwood are both sophomores of the Ironwood High school. Sam Patek's subject was "Toussaint L'Ouverture," being an oration by a University of Wisconsin graduate that won first honors for his college. It tells of the birth of the movement for the emancipation of the negro. Second place was awarded to Ed. Dunkel of Phillips, who delivered Henry Grady's famous oration, "The New South." James Cosgrove, Ashland, was third, his oration being "The Eloquence of Adams." The others taking part in this section, together with their subjects, follow: Fred Cummings, Mellen; "Tribute to Washington;" John Morris, Hurley; "Columbian Oration;" Ray Fitz, Park Falls; "Character of Napoleon;" Rose Roman, who took first place in the declamation contest, had for her selection, "The Soul of the Violin." The scene between Horriegan and Mayor Bennett in "The Man of the Hour" furnished Edith Dodd of Ashland a vehicle for decidedly clever portrayal, and she was given second place. Yerdia Noren of Hurley, was third. The other contestants were: Nora Evans, Phillips; Sophia Beaver, Mellen; Lulu Mamacheck, Eagle River; Harriet Walters, Park Falls.

WALL STREET STOCKS.

New York, April 27.—Paine, Webber & Co. say of today's stock market: "The market today opened up quite strong, but met a lot of stock and the prices sold off sharply. There was pressure and the bears were aggressive. Later the market became dull. In the afternoon the prices started to sag, and in the late afternoon, as soon as Union Pacific broke, there was heavy selling all around and the whole market became weak. Stop orders were caught and there seemed to be no support. The weakness continued until the close, and the market was full of stop orders. We expect to see this selling movement take the prices lower."

Chicago Grain Markets.

Chicago, April 27.—The official announcement today that 1,942,000 acres of wheat in Kansas had been abandoned, as hopeless made the prices of wheat here leap briskly upward. Although there had been a sharp break early, following the decline of the day before, the market closed 1/2 to 3/4 up for the new crop month. The May rallied one cent from the bottom, but finished with a net loss of 7/8. Nervousness and activity marked the day from start to finish. When the official report from Kansas giving the actual figures as to the acreage and condition was flashed over the wires the facts were seen to be more forbidding than the guesswork beforehand. The condition of the remaining portion of the crop was put at 76 per cent, indicating a crop of but 64,000,000 bushels on the maximum yield, as against 81,000,000 bushels last year. Unfavorable crop reports from Nebraska and scattering news of chinch bug damage increased the bullish feeling. The September closed strong, 1/2 higher. The May opened at 107 1/2 to 107 3/4; highest, 107 3/4; lowest, 107 1/2; closed, 107 1/2.

STATE FUNERAL FOR BJORNSON.

Christiania, April 27.—The evidences of mourning for Bjornson, the poet-novelist, who died in Paris last night, are universal. King Haakon and Queen Maud have telegraphed their condolences to the widow. The startling today decided on a state funeral, and immediately afterwards adjourned as an evidence of the public grief. All the theaters were closed today.

DEMOCRATS FACE STORMY CONTROVERSY.

Indiana Leaders Fail to Agree on the Matter of Endorsing a Senatorial Candidate, and the Question Will Go Before the Convention Today—Governor Marshall, as Temporary Chairman, Attacks the Tariff Law.

Indianapolis, April 27.—The Indiana Democratic convention, which assembled tonight for the first session, faces a stormy controversy over whether or not to endorse a candidate for United States senator.

Governor Thos. R. Marshall, presiding as temporary chairman, declared that the convention "either should endorse a candidate for United States senator or strike from its platform its twenty-year-old declaration that it believes in the election of United States senators by the people." This brought out shouts of approval from his many supporters in the convention.

After a stormy session the committee on rules and order of business decided to submit the question of endorsement to the convention tomorrow. The convention tonight adjourned until tomorrow, Governor Marshall's Address.

Governor Marshall, as temporary chairman of the convention, made the prophesy that Senator Beveridge will be lined up with the Democratic party two years hence, and gave his reasons for attending to the endorsement by the convention of a candidate for the United States Senate.

"We have exploited this Republic until exploitation will soon become explosion," he declared. "We must get business out of politics, and must take politics out of business. This must be done quietly, soberly, discreetly at the ballot box, or there will come an hour when the toiling millions of America, not willing to wait for an election, will accomplish by force what which should be accomplished by law."

Entire Freedom from Colds and Grippe

Did you ever wonder why people seldom have colds or grippe in summer? There are just as many germs in the air we breathe, by stove or furnace, as there are in winter.

"In winter this is impossible. Bad weather cuts down exercise. The windows are closed. The life is burned out of the air we breathe. And we get 'run down' and 'out of sorts' and in just the condition to quickly take cold—or gripper or other disease and have it hard."

It is simply wonderful how you begin to feel brighter, better, more energetic, almost from the first spoonful. Nature is a marvelous youth-renewer when we come to know our secrets and Nyal Tonic is Nature's own remedy.

SEXES APART IN CHURCH.

Believing that men will feel "more at home" in church if the women do not worship with them, the Rev. Trigg A. M. Thomas, pastor of the Westminster Presbyterian church of Kansas City, Mo., has arranged to have the men and women of his congregation meet in separate rooms at the weekly prayer meetings.

SOME UNKINGLY TRAITS OF LIONS.

There are the lion's habits—and are they of a kindly nature? Think not. For one thing, he is a shameless scavenger, as I say, there remains no room to doubt. I myself have seen him greedily devour part of a zebra that had been dead for more than three days.

Steamer from Japan Tells of Avalanche and Dynamic Explosion.

Victoria, B. C., April 27.—More than one hundred Japanese were killed recently when an avalanche plunged down a hill, overwhelming the village of Nishinomura, Japan, burying it and the adjoining valley for a long distance under sixteen feet of snow and debris, according to the report of a steamer which arrived here today.

Upper Peninsula

Planted Many Fish—Henry Cadreau of the Soo hatchery accomplished a big feat of "gardening" the other day. He "planted" 1,800,000 young whitefish in Mackinac straits.

Warner's Rust-Proof Corsets

Very long, but not an inch too long to shape the fashionable figure.

The bones in this corset do not extend the full depth of the skirt—the soft, unboned cloth is the extra length. It is therefore impossible for the garment to be felt uncomfortably—quite the contrary. It is pleasantly felt.

We have many styles in this make, but only one cut, namely, a correctly, fashionably cut garment for every woman, large or small.

Every garment made to fit and to wear—not to rust, break or tear.

DIED SUDDENLY IN WASHINGTON

FORMER ISHPEMING WOMAN SUC-CUMBS WHILE WALKING ALONG A STREET IN THE CAPITAL CITY.

Mrs. Florence Mercer, who was the wife of the late Dr. Townsend Heaton, formerly of this city, dropped dead on a street in Washington, D. C., recently. The deceased was an aunt of Dr. Vivian Vandeventer of the Ishpeming hospital staff. She came to the city and was with her husband, Dr. Heaton, as a bride in 1872. The doctor was then associated with Dr. B. S. Bigelow in the management of the hospital a few years, Dr. Heaton took charge of the medical and surgical work at the Saginaw mine, remaining there several years, until about twenty-five years ago, when he and Mrs. Heaton returned to their old home in Virginia, where he died a few years later.

The London Virginia Mirror of London, Va., had the following mention of Mrs. Mercer's death and funeral:

"Mrs. Florence Mercer, widow of the late Chas. Mercer, of this county, dropped dead on the streets of Washington, while on her way to visit a friend. Death was due to heart disease, though she appeared in her usual good health when she left her boarding house a short time before. She was about sixty years of age.

Mrs. Mercer was a native of London county, her father, George W. Jauney, being one of the most prominent merchants of London county. Her first husband was Dr. Townsend Heaton, of Leesburg. Some years after his death she married Charles Mercer, who died several years ago.

"Mrs. Mercer is survived by a daughter, Mrs. Florence Marshall, of Dunbar, Pa., and two sisters, Mrs. Edgar McCray, of Paeanian, and Mrs. T. H. Vandeventer, of Leesburg.

"Her remains were interred in Union cemetery, Leesburg."

MOTHERS' DAY.

Special Services Planned for Y. M. C. A. Building.

A special program is being prepared for services at the Young Men's Christian association building a week from next Sunday afternoon at 3:30 o'clock. It is to be known as "Mothers' Day." Rev. Amos Maywood, pastor of the Methodist church at Marquette, has accepted an invitation to speak.

The Y. M. C. A. gives and orchestra are preparing to give a concert at Ishpeming theater some evening during the latter part of May. The proceeds will form a nucleus for a camp fund.

A permanent camp is to be established on the shore of Lake Michigan, on a site owned by the Cleveland-Cliffs Iron company. A building will be erected. It is expected to have the place ready for use some time in June.

STOCK COMPANY PRAISED.

The Daily News of Merrill, Wis., said of the Mock Sad Alii company, which will appear at Ishpeming theater next week:

"The Mock Sad Alii company has been with us a week and it was a holiday week for young and old. This company has delighted a crowded house at every performance and is well deserving of the business it receives. It gives a high class show in every way and when you leave the theater you feel that you were well repaid for your money. The specialties introduced between the acts are a special feature and Mock Sad Alii is still chess with his magic."

FOUND HONEST DEMOCRAT.

Modern Diogenes Wanted to See What He Looked Like.

One of the best known Democrats in New Jersey—known for his enthusiasm for the party day in and out—is a farmer, known legally and otherwise as Frank Tilden McBride. Mr. McBride is vice-president of the Jeffersonian club, Jersey's leading Democratic club.

Mr. McBride is never anxious to have this story told about him because it may bring to light a phase of his character that might cause an injury to his business—as a fire loss adjuster for a large company.

The door of his office was opened the other day and a shabbily dressed individual came in.

"Are you the man who advertised that he had found a purse containing a considerable sum of money?" The insurance man nodded his "yes."

"You mentioned the fact that the owner could have the purse by applying and describing the pocketbook."

"Yes."

"Thank you, that is all I wanted to know."

"But you must give me a description before you can claim it."

Oh, I haven't lost any purse," was the reply as the shabbily dressed person edged to the door. "I merely wished to see what a Democrat and an insurance man looked like who will find a large sum of money and advertise for the owner instead of having a good time with it. Good day."—From Norman E. Mack's National Monthly.

SPECIAL PIANO SALE.

F. E. Levine, manager of Grinnell Bros., Escanaba branch, is in the city for a few days, to aid Manager Schroeder, the company's Ishpeming representative, in conducting a sale of pianos, piano players and organs, which is to open today, as announced elsewhere in this issue. Mr. Levine yesterday said that this sale will be the most sensational of his kind ever held in Ishpeming. The company intends to demonstrate to the people of the county and vicinity that they are able to make attractive prices on standard instruments. Many of the best known instruments manufactured will be included in the price cutting.

AN HONEST DOCTOR.

Remarkable to his patient who had been cured by Lydia E. Pinkham's Vegetable Compound after his efforts had failed, "Mrs. Weber, I do not believe in patent medicines, but I will say that Lydia E. Pinkham's Vegetable Compound is the best medicine ever discovered for women. Continue to use it." This is another link in the long chain of evidence to prove the reliability of this standard medicine for women.

FATALITY AT STEPHENSON.

Louis Vandetti, a miner, employed at the Stephenson mine, one of the Cleveland-Cliffs Iron company's properties, on the Swaney range, was instantly killed yesterday morning at 11:30 o'clock by a blast. The body was not badly mutilated, as Vandetti was a few feet from the hole when the dynamite exploded. The deceased was a native of Italy, where his family lives. The remains will be taken to Negawnee this morning, for interment. William Prim, the coroner, was called to the range last evening to conduct an inquest.

LIQUOR DEALERS HAVE LEARNED A LESSON

REPRESENTATIVE OF WHOLESALE CONCERN SAYS PROHIBITION AGITATION HAS RESULTED IN A MORE STRICT OBSERVANCE OF THE LAW.

"The widespread agitation for county prohibition throughout Michigan opened the eyes of the saloon men of this state," said a representative of a wholesale liquor concern here yesterday. "For several weeks before the election we might as well have remained at home, and we secured few orders in the counties where they were voting upon prohibition. Since the election we are getting a large business from counties that voted against prohibition. Perhaps 75 per cent of the dealers let their stocks run so low, fearing that they would be forced out of business, that they have since placed unusually heavy orders.

"I believe from what I have seen on my present trip that the liquor law is now being more closely observed in Michigan than at any previous time. I have talked with many of the saloon keepers and I find they favor a strict observance of the law. Most of them tell me that they are doing as much business as they ever did and that they will not miss the Sunday trade. In some of the saloons of the lower peninsula amusing signs are posted back of the bars. One sign I noticed read: 'Boys, buy your liquor on Saturday night as we will be closed tight from Saturday night at 11 o'clock until Monday morning at 6 o'clock.'

"I believe that if the saloon men conduct their business as most of them are running it the advocates of prohibition will have hard work arousing sentiment against the traffic in the future. Many drinking people voted in favor of local option, not particularly because they wanted to see the saloons put out of business, but because they desired a more strict enforcement of the law and better regulation of the traffic."

It is doubtful if there was ever a more strict observance of the law in Ishpeming than there has been since the election. It is said that every saloon is being closed promptly on time and that no attempt has thus far been made to do business on Sunday. Several of the saloon keepers have put signs in their windows announcing that no person under twenty-one years of age will be allowed in their places.

ISHPEMING IN BRIEF.

Con Murphy and wife are the parents of a son.

George M. Ross, representative of the Hartford Boiler Insurance company, is in the city.

E. E. Scribner and T. H. Bargh have returned from the lower peninsula, where they attended a state educational meeting.

E. W. Dray, traveling representative of the Boydell Bros. Lead & Color company of Detroit, is conducting a sale at Olsen's paint shop.

Up to yesterday 120 births had been recorded in the city since the first of this year. The number registered during the corresponding time last year was 115.

M. M. Duncan and wife have returned from the East, after an absence of a few weeks. They visited Dr. Joseph Vandeventer and wife, in Virginia, for a few days.

The Ladies' Reserve Fund society of the Presbyterian church will conduct a ten-cent social in the church parlors tomorrow afternoon between 4 and 5:30 o'clock. Mesdames J. D. Spitzer, D. B. Bilkey and Harry Hickory will be in charge.

The funeral of the late F. O. Blomgren, held yesterday afternoon from the Swedish Methodist church, was largely attended. Nearly 200 members of the Swedish Home society, with which the deceased had been identified for many years, attended.

William Trebilcock expects to soon begin putting in the foundation for a concrete dwelling on North Third street. Mr. Trebilcock is now delivering concrete blocks for the foundation of the dwelling to be erected by James A. Blackney, on East High street.

THE CALL OF THE BLOOD

For purification finds voice in pimples, boils, sallow complexion, a jaundiced look, moth patches and blotches on the skin—all signs of liver trouble. But Dr. King's New Life Pills make rich red blood; give clear skin, rosy cheeks, fine complexion, health. Try them. 25c at The Stafford Drug Co.

THE SOUND SLEEP OF GOOD HEALTH.

The restorative power of sound sleep cannot be over estimated and any ailment that prevents it is a menace to health. J. L. Southers, Eau Claire, Wis., says: "For a long time I have been unable to sleep soundly nights, because of pains across my back and soreness of my kidneys. My appetite was very poor and my general condition was much run down. I have been taking Foley's Kidney Pills but a short time and now sleep as sound as a rock. I eat and enjoy my meals, and my general condition is greatly improved. I can honestly recommend Foley's Kidney Pills as I know they have cured me." For sale by all druggists.

Sensational Sale of High Grade Pianos

MONSTROUS CLEARING SALE OF High Grade Pianos and PLAYER PIANOS and ORGANS THURSDAY, APRIL 28th, 1910

GRINNELL BROS. will inaugurate the biggest and most sensational Piano Sale ever conducted by any house. We are going to decisively demonstrate to the people of Marquette county and vicinity our undisputed leadership in the piano business and our ability to make far lower prices on high grade pianos than any other concern in this state.

Buying in enormous quantities to supply twenty-four stores, and often buying a train load of Pianos at a time enables us to secure WONDERFUL PRICE CONCESSIONS.

Often finding factories in stringent circumstances and in great need of IMMEDIATE CASH makes it possible for us to purchase Pianos way below actual factory cost. This is one of the many cash purchases that GRINNELL BROS. have made and this gigantic deal involves the spot cash purchase of 500 Pianos. Taking on one large purchase after another in order to receive these wonderful price concessions we find the capacity of our stores and warehouses over the state taxed to the utmost and we are now forced in our turn to dispose of the surplus stock at a tremendous saving to you in order to make room for our regular run of business.

Here and now is where Piano buyers can make dollars count. This is no agents inducement, but represents the makers cost.

YOUR SAVING by taking advantage of this great sale means a saving from \$50 to \$75 to you. Come early and make your selections.

In buying a Piano of GRINNELL BROS., you derive many advantages not obtainable from any other house in the country. REMEMBER WE ARE HERE TO STAY and our guarantee is as good as a government bond and the positive assurance of complete and permanent satisfaction which is guaranteed to all who deal with this reputable and reliable old house.

For 42 years the name GRINNELL has been identified with the mercantile interests of the State; each year it has come to mean more and more to those who appreciate the assurance of genuine worth, and today this name and MICHIGAN'S LEADING MUSIC HOUSE are inseparably associated.

Our Great Line of Pianos Embraces the Most Distinguished Names Known to the Musical World.

At no other House in the State will you find the superb STEINWAY, standard of the world; the magnificent GRINNELL BROS.—our own make—the artistic SOHMER; the beautiful WEGMAN; the tried and true Shoninger; the popular STERLING, 55,000 already sold; the dependable SCHAEFER; the sweet toned HUNTINGTON; the attractive MENDELSSOHN; and other high grade makes.

THE RICHEST SPOT IN CUBA.

There Are Only Two Other Districts in the World That Produce More Wealth.

Four hours east of Havana in Pinar del Rio is one of the most valuable tracts of land on the face of the earth.

Those two places are that portion of the valley of the Rincón where the Lichtenthal and other fine wines are made, and the Kimberley diamond district in South Africa.

What, then, is the marvel of this priceless tobacco ground? To the eye nothing. Dried red loam rather than on rocky hillsides and sparingly spread with tender corn as a half bald man disperses his hair impartially over his head.

But it is not the fertilizer alone that makes Vuelta Abajo tobacco what it is, nor yet the chesecloth protection that keeps out the hottest rays of the sun, nor yet the choice seed, nor even yet the mild, equable nature of the climate, nor the chemical composition of the soil.

Neither science nor experience can tell exactly what it is that makes Vuelta Abajo tobacco just what it is.

But it is not the fertilizer alone that makes Vuelta Abajo tobacco what it is, nor yet the chesecloth protection that keeps out the hottest rays of the sun, nor yet the choice seed, nor even yet the mild, equable nature of the climate, nor the chemical composition of the soil.

The cockfight has entered brilliantly into Cuban politics. The most brilliant man in affairs there is Alfredo Zayas, now vice president.

Syrup of Figs and Elixir of Senna appeals to the cultured and the well-informed and the healthy because its component parts are simple and wholesome and because it acts without disturbing the natural functions, as it is wholly free from every objectionable quality or substance.

In its production a pleasant and refreshing syrup of the figs of California is united with the laxative and carminative properties of certain plants known to act most beneficially on the human system.

The other half is sugar with a dash of bacardi. This half stretches from Guan tanamo to the Bay of Napi and disgorges its sweet substance through the harbors of Cienfuegos and Santiago.

There you can see the sugar can hoisted from the flat cars at one end of the refinery and, following it down the course of its journey to the other end you discover strange emanations into the various vats. Into the first pours a syrup as thick and almost as black as asphalt, and into the next and on pours the very finest syrup of all, a yellow stream as thin as the sap from a maple tree in spring.

Right here, in this sugar guard, you can study quickly and finally all the complicated, melodramatic politics of the island. Why should he guard sugar cane? Because in the heart of the sugar cane lies all the inflammable spirit of revolution.

Around this sugar cane revolves world politics, for it is the link between Cuba and industry and there on a par with tobacco, is guiding the finances of the realm; and, as everyone knows, high finance is today the soul of politics, indeed of statesmanship.

Recent Activities of "Gun Men" in the Chinese Quarters of New York and San Francisco—The Boston Tragedies of 1907 and the Relation of Such Events to the Underground Life of a Strange Race—How the Hep Sing Lost Influence and How the Four Brothers Tong Is Fighting Its Way to Control.

Boston, Mass., April 27.—Recently the "gun men" of the On Leong Tong turned loose their weapons in New York and Philadelphia, and four members of another tong were killed and several Chinese were injured by stray bullets.

There is some reason to believe that the tongs were promoted by the Six Companies, of the Chinese community.

Probably no American ever gets actually in touch with the Chinese. Mystery is the favorite atmosphere of the race, and it generally prefers to work underground.

On August evening in 1907, a party of Chinese who had evidently planned every detail of their work appeared at Chinatown at Boston, and killed four men.

TO DRAIN PART OF PALMER LAKE

THE VOLUNTEER ORE COMPANY WILL MINE UNDERNEATH THE EASTERN END OF LAKE BOTTOM AT ITS NEW CASCADE RANGE PROPERTY.

The Volunteer Ore company, which a few months ago began sinking a shaft at its property near Palmer lake, a little over a half mile north of the Volunteer mine, on the Cascade range, is making excellent progress.

The shaft is now down 165 feet to the point where the drift is to be opened up. The drift work will not be started, however, until the shaft is completed to the ore body, which lies about 400 feet from the surface.

The management will not start drifting at once, as it desires to take no chances of having a heavy run of water. The mine is not now equipped to take care of a heavy flow.

Preparations are now being made to drain the eastern half of Palmer lake, underneath which ore has been located.

The lake is about three-quarters of a mile in length by about 500 feet wide, and the average depth of the water is between twelve and fifteen feet.

Two carloads of eight-inch steel pipe were received yesterday for the compressed air line that is to be extended from the Volunteer engine house to the mine property.

The Volunteer company explored their lands near the new property thoroughly before deciding to open a shaft, and it is expected that the shaft will be completed in a few weeks.

Of the Thirty Members to Be Elected Within the Year, Enough May Be Democrats or Insurgents—A Survey of Conditions in the Several States.

Washington, April 27.—The people will get low prices soon enough. Prices are beginning to drop already.

This startling and rather venereal prophecy, by one of the ablest and most experienced of United States senators, represents a new phase of the disorganization of congress, which is growing worse every day.

But the senate old guard has been doing a little figuring lately, with surprising results. If the calculations of the most experienced politicians in the upper branch are not awry, not only will there be about 100 Republicans in the next house, but the senate will be either Democratic, after March 3, 1911, or so evenly divided that the votes of less than half a dozen insurgents will swing it either way.

Democrats May Gain in Senate.

The terms of thirty senators of both parties will expire March 3, 1911, when the third session of the Sixty-first congress will end. No less than twenty-four of these are Republicans and six Democrats.

COUNTY TO HAVE A GAME WARDEN

SUPERVISORS WILL PAY HALF HIS SALARY AND THE STATE THE OTHER HALF.

MR. POWELL AGAIN CHAIRMAN

Unanimously Re-elected to that Office by the Board at Meeting Yesterday—tuberculosis Hospital.

The first meeting of the newly constituted board of supervisors, held at the court house yesterday, was more of a talkfest than the usual run of supervisors' meetings, most of the matters that came up being quite generally discussed, though in an entirely friendly spirit.

The board was called to order at 11 o'clock and Mr. Powell was the unanimous choice for chairman another year.

Following the approval of the bills after the noon hour, the question of appointing a county game warden was brought up. This office has been vacant for nearly a year, and the matter came up again because of a letter received from State Game Warden Pierce in which the state offered to pay the salary of a game warden for six months of the year, if the county would employ such an officer for the remaining six months.

Game Warden Needed. Most of the members of the board considered this to be a good proposition inasmuch as there had been some criticism because there had been no county game warden for the past year.

After considerable discussion, it was decided to refer the matter to a committee of five, to be made up of Mr. Powell, Mr. C. A. Gering, Mr. D. W. Powell, F. E. Keese and T. P. Kirkwood.

Tuberculosis Hospital. In view of the fact that the electors of the county had voted in favor of bonding the county to the amount of \$15,000 for a tuberculosis hospital, the chairman was directed to appoint a committee to select a suitable site for such an institution, and have plans for the building, with estimated cost, prepared, before the next meeting of the board, which will be on May 25.
