

TARIFF LAW GETS SEVERE SCORING

Senators Dooliver and Cummins Bitterly Denounce Both It and the Men Responsible for Its Enactment by the Congress.

Their Attack on the Legislation Is the Feature of the Speeches With Which They Open the "Progressive Republican" Campaign in Iowa—Policy of the "Reactionaries," if Persisted in, Spells the Ruin of the Party, They Declare With Vigor.

Des Moines, Ia., May 10.—Ringling denunciations of the tariff bill by the men who passed it characterized the speeches of Senators Dooliver and Cummins, who opened the progressive campaign in Iowa at the Coliseum here tonight. Over ten thousand persons attended.

The meeting tonight followed district conferences throughout the day at which steps were taken to reconstruct the old Cummins organization and to organize the state by counties and precincts.

Senator Dooliver referred to the president as the "titular leader" of the Republican party, which meant, he said, "a good man surrounded by people who knew exactly what they wanted."

Play the Reactionaries. Both senators declared that if the Republican party continued the policy advocated by the reactionary leaders, it would spell ruin to the party. Among those leaders, Senator Aldrich was frequently mentioned as a man allied with the Guggenheims and Ryan and Pat Morton in a mammoth trust incorporated as a rubber company, which is allowed by its articles of incorporation to participate in any kind of business anywhere on the face of the earth, and which is one of the holding companies in the Guggenheim syndicate for the control of the wealth of Alaska.

"These are the men responsible for the tariff bill passed at the extraordinary session," declared Senator Dooliver. "The bill is only a scheme to rob the people and to increase the holdings of such gigantic syndicates. The troubles in the Republican party have come not of what has been said, but of what has been done. It has been said that the tariff bill is a good law. In fact, we have it on high authority that it is the best tariff bill ever passed. But not only do I denounce such tariff legislation, but I'm not particularly enamored of those who passed it."

"If a man protests against such a bill and is derided and ridiculed, what can be the moral status of such pirates who threaten congress and who have become the nucleus around which the Republican party is supposed to rally to preserve its solidarity? The fight against such unfaithful leadership in the Republican party is as hot in Massachusetts as it is in Iowa."

Hits at Wickersham. "I am not here to criticize the president, or to say unkind words against him, but I count it no reflection on him to state that I find it sometimes necessary to disagree with him and those surrounding him. I know something of the front in his administration who have not had the welfare of the party or of the country at heart."

"I am going to have some trouble in keeping inside the breastworks of the Republican party, but I know something of its doctrines. I do not intend to retire from it, although I have been invited and have declined the invitation. I do not recognize Wickersham or any other man who comes out here into the West to read men out of the Republican party who were known before he even was in it."

The meeting was presided over by Harvey Ingham, editor of the Register and Leader.

Senator Cummins was given a tremendous ovation. He seconded the speech of Mr. Dooliver, who had preceded him.

Senator Dooliver's Address. Senator Dooliver, analyzing the Adrich tariff bill schedule by schedule, declared that close scrutiny shows that "so far as the public is concerned, tariff revision in fact carries the rates as high or higher than the Dingley law on most articles in general use in the finished condition."

Most reductions, he said, were so trivial as to be ridiculous and were either on articles we did not import to any extent, but on the contrary export in enormous quantities, or were for purposes of further protecting the manufacturer especially by reducing the duties on raw materials. He declared that the revision was made to deceive the public in making it look like a reduction downward.

Mr. Dooliver declared that much stress had been laid upon the supposed enlargement of the free list, yet he said the only new items were hides, a few semi-finished coal tar products, radium, works of art over twenty years old, miners' appliances and Brazil cream nuts. Taking up the point of oil schedule, Mr. Dooliver said that the "Wimona table" showed "manifest padding to increase the alleged reductions."

Speaking of glassware, the senator said that the decreases were negligible and only on the larger sizes of plate, while the duty was increased on certain smaller sizes. The metal schedule was criticized as giving decreases only on crude material not purchased by the consumer. There were similar strictures on the wool schedule. The speaker said that the purported decreases on sugar were "too great a joke to receive attention."

agricultural implements were cunningly revised to show downward revision. Examination of the figures refutes the claim of reduction, he said. Also implements did not need protection, as most were made in this country. He declared the reduction made to fool the farmers. The cotton manufactures schedule was called a "most daring and iniquitous feature" in which the rates either were advanced or were unchanged. The senator declared the sundry schedule a master piece of cunning tariff jugglery. He said the coal rates reduction was made for the benefit of the Atlantic seaboard manufacturers.

Cummins Assails His Political Foes. Senator Cummins, in opening, said that he made no concealment of the hope that the next Republican state convention would approve his attitude on national questions and his present course in congress. He said that a few weeks ago there was held in Des Moines a caucus of certain persons who organized a campaign with the object of securing a state convention that would endorse the national administration. He said these men were well known in Iowa. In every fight in later years, he said, they had been his most persistent enemies. He continued:

"The only thing to which I object is the mask worn by these men in wearing. All I intend to do tonight with regard to the campaign so begun is to politely ask them to remove the mask and make their fight openly. I've the highest regard for a fair, brave fighter, but I do not like the midnight prowler with his dark lantern and his jimmy who hopes to get off with his plunder unheard and unseen. If these men decline my mild invitation to remove the false face which obscures their real purpose, I'm here to take it off for them, and to say to the Republicans of Iowa that the fight they are making is to get a convention that will make such declarations as will enable Aldrich and myself, together with the progressive members of the house delegation, have been repudiated in our own state."

The senator said that if the majority of the Republicans of Iowa believe that he and Dooliver are unfaithful to their interests and to the country, they ought to say so; if they thought the senators were keeping their trust and doing the best they could to protect the citizens of a free government, they ought to say so.

Denounces Corporate Domination. After explaining the extraordinary condition that now exists, and that this alone was an excuse for his being in the state at this time to plead for the interests of the candidates for Republican nomination for governor, Mr. Cummins traced the development of corporations and declared the present Republican leaders in league with these corporations. Most of them were brought up with these influences all around them, and therefore they could not protect the citizens of a free government, they ought to say so.

Many Radical Changes. The bill makes many changes which, if accepted by the senate, will greatly affect interstate commerce. A commerce court is created to adjudicate cases on appeal from the interstate commerce commission.

The telegraph and the telephone are put under the control of the commerce commission.

Many other provisions seek to protect the shipper and prevent rebates. Clump Clark, the mining industry leader, said that the Democrats had voted against the bill because they thought it had more bad than good features. He said that when first brought in, the bill was drawn in the interests of the railroads, that every amendment had helped the bill, but there were not enough of them.

Senate Debates the Dixon Amendment. Washington, May 10.—The senate today heard arguments by Mr. Bristow in support of the Dixon amendment prohibiting a greater charge for short than for long hauls on railroads, and by Messrs. Lodge and Pile against it. Senator Elkins and Aldrich entered the debate to say that the amendment would "destroy the business of the country." Mr. Bailey presented one of Mr. Dixon's statements when he spoke of railroads as "champions of the railroads."

NEW REVISION OF THE TARIFF. Under Certain Conditions, It Is Said, President Taft Will Urge It.

Washington, May 10.—The report has gained credence that a strong factor in the Republican congressional campaign this fall may be the declaration by the president that if the investigations of the proposed tariff board show that further reductions in the tariff are possible and compatible with a fair profit to American manufacturers, he will strongly urge a further revision by congress and will call a special session of congress to that end.

IN EASTERN RATE WAR CASE. Interstate Commerce Commission Agrees to Act as Arbitrator.

Washington, May 10.—At a conference today between the interstate commerce commission and representatives of Eastern trunk lines of railways and commercial bodies in large Eastern cities, the commission agreed to act as arbitrator on the import traffic question which has resulted in a rate war among the Eastern railroads. The war was started by the Boston & Maine over a year ago by its putting Boston on an equal footing with New York on west-bound import traffic.

DIRECT VOTE BILL CARRIES. Massachusetts House Passes a Resolution Affecting U. S. Senators.

Boston, May 10.—A resolution favoring the amendment of the constitution so that United States senators may be elected by direct vote was passed by the house today by a close vote. Tomorrow the resolution will go to the senate. The Democrats are for the amendment, while the Republicans are badly split.

WILL ARBITRATE WAGE DISPUTE. Washington, May 10.—Judge Chambers of this city today was appointed third arbitrator of the controversy between the forty-nine railroads of the territory west of Chicago and the firemen and engine-men.

RAILROAD BILL PASSES HOUSE

As Radically Amended in Committee of the Whole, the Measure Goes Through by the Overwhelming Vote of 200 to 126.

Every Republican on the Floor Supports the Legislation, and So Do Fourteen Democrats—The Bill Makes Many Changes Which, if Accepted by the Senate, Will Greatly Affect Interstate Commerce—Deep Gratification Is Expressed by Mr. Taft.

Washington, May 10.—Without a single dissenting Republican vote, the house today passed the amended railroad bill. Fourteen Democrats also joined the majority, making the vote 200 to 126.

Gratification was expressed by Speaker Cannon and others that there were sufficient Republican votes alone to pass the measure. President Taft tonight said that he was deeply gratified, especially as the commerce court feature was preserved. He did not care to discuss the amendments put in. Referring to the clause providing for the physical valuation of the railroads, Mr. Taft pointed out that that power practically now rests with the commerce commission and that the difficulty always has been in the enormous cost of the undertaking.

When all the amendments adopted by the house while in committee of the whole had been agreed to, Mr. Adamson of Georgia, moved that the bill be reported back with instructions that the clause stricken out be reinserted. The motion was defeated, 157 to 176.

Many Radical Changes. The bill makes many changes which, if accepted by the senate, will greatly affect interstate commerce. A commerce court is created to adjudicate cases on appeal from the interstate commerce commission.

The telegraph and the telephone are put under the control of the commerce commission.

Many other provisions seek to protect the shipper and prevent rebates. Clump Clark, the mining industry leader, said that the Democrats had voted against the bill because they thought it had more bad than good features. He said that when first brought in, the bill was drawn in the interests of the railroads, that every amendment had helped the bill, but there were not enough of them.

Senate Debates the Dixon Amendment. Washington, May 10.—The senate today heard arguments by Mr. Bristow in support of the Dixon amendment prohibiting a greater charge for short than for long hauls on railroads, and by Messrs. Lodge and Pile against it. Senator Elkins and Aldrich entered the debate to say that the amendment would "destroy the business of the country."

NEW REVISION OF THE TARIFF. Under Certain Conditions, It Is Said, President Taft Will Urge It.

Washington, May 10.—The report has gained credence that a strong factor in the Republican congressional campaign this fall may be the declaration by the president that if the investigations of the proposed tariff board show that further reductions in the tariff are possible and compatible with a fair profit to American manufacturers, he will strongly urge a further revision by congress and will call a special session of congress to that end.

IN EASTERN RATE WAR CASE. Interstate Commerce Commission Agrees to Act as Arbitrator.

Washington, May 10.—At a conference today between the interstate commerce commission and representatives of Eastern trunk lines of railways and commercial bodies in large Eastern cities, the commission agreed to act as arbitrator on the import traffic question which has resulted in a rate war among the Eastern railroads. The war was started by the Boston & Maine over a year ago by its putting Boston on an equal footing with New York on west-bound import traffic.

DIRECT VOTE BILL CARRIES. Massachusetts House Passes a Resolution Affecting U. S. Senators.

Boston, May 10.—A resolution favoring the amendment of the constitution so that United States senators may be elected by direct vote was passed by the house today by a close vote. Tomorrow the resolution will go to the senate. The Democrats are for the amendment, while the Republicans are badly split.

WILL ARBITRATE WAGE DISPUTE. Washington, May 10.—Judge Chambers of this city today was appointed third arbitrator of the controversy between the forty-nine railroads of the territory west of Chicago and the firemen and engine-men.

THE WEATHER

Washington, May 10.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Wednesday and Thursday; moderate to variable winds, becoming north.

JOHN KLAW & ERLANGER. Theatrical Managers Controlling 200 Troupes Form a New Alliance.

New York, May 10.—An alliance has just been formed by producing managers, who together own and control two hundred leading traveling combinations, placing their bookings and interests in the hands of Klaw & Erlanger. The managers in the group are Charles Frohman, David Belasco, Henry W. Savage, Henry B. Harris, Joseph Brooks, Cohen and Harris, Klaw & Erlanger, Florenz Ziegfeld, Augustus Pitou, Charles B. Dillingham, Joseph M. Gaites, Warrington Woods, Joseph Weber, Harry Miller, Daniel Frohman, William Harris and others.

SEES DANGER IN THE DOUBLE INVESTIGATION. Attorney General Stead of Illinois Takes Steps to Stop the Springfield Probe of the Lorimer Affair Until the Inquiry at Chicago Is Concluded.

Springfield, Ill., May 10.—Declaring that the Chicago investigation of the bribery should be postponed until the Cook county probe is concluded, Attorney General William H. Stead tonight filed a notice with State's Attorney Barke, of Sangamon county, that he would enter a motion to that effect before Judge Robert E. Shirley in the Sangamon county circuit court.

Mr. Burke tried to get evidence today from Representative Michael S. Link, of Mitchell, Frank Reed, of Aurora, the legislator's attorney, contending that Link would not testify for fear he would incriminate himself and would not accept immunity here, fearing it might not hold good elsewhere in the state.

Attorney General Stead contends that there is a danger of confusion and delay if two grand juries act at the same time. He says further that he has been unable to convince Mr. Burke of this.

Representative H. A. Shepherd, of Jerseyville, was closeted with Mr. Burke today. Senator A. E. Isely, of Newton, a Democrat, who voted for Stead, was at the grand jury today. Senator Thomas Tippet, of Oley, also was a witness.

FINDS BALLINGER CULPABLE.

Attorney Brandeis Shows Interior Department Ruling Violated.

Washington, May 10.—The existence of rulings in the interior department which Secretary Ballinger must have violated in appearing before the general land office in behalf of the Cunningham coal claimants after his retirement as commissioner was brought out by Attorney Brandeis in cross-examination today. Upholding a ruling of former Secretary Lamar, both Secretaries Hitchcock and Garfield had decided no person who had been an employee of the department could appear before it in any case previously pending within two years.

Attorney Brandeis secured the admission from Ballinger that he had been offered by appearing before the land office a similar ruling of Assistant Secretary Pierce rendered in another case subsequent to his activity in the Cunningham case and prior to his becoming secretary of the interior. Mr. Ballinger said he had not called these rulings to the attention of the president to assist him in reaching his conclusion on the Glavis charges, because he did not think there was any law to sustain them.

STOCKS SELL HIGHER.

Principal Feature of the Market, However, Is Its Shrinkage in Activity.

New York, May 10.—A marked shrinkage in the activity of the trading concentrated the principal feature of the early stock market today, during which the price movements were halting and irregular. The late bulge in prices was coincident with the decline in wheat. The most plausible explanation of the change in the early appearance of the market was that the supporting measures which were adopted yesterday and Saturday to guard against a depressing effect of the death of the king of England, had been decided. There was less confidence practiced in the duration of the truce between the political parties of England. The immediate influences from London remained favorable to values today.

The movements amongst the granger railroad stocks reflected some divergence of sentiment over the prospects for the different classes of the wheat crop. The railroads through the winter wheat sections continued somewhat backward, while the spring wheat grangers developed a striking upward movement in the latter part of the day. The weekly bulletin of the weather bureau did not encourage the hopes of a rapid progress in winter wheat from the unfavorable conditions. The weather in the cotton sections also was not what was desired.

The market for copper metal made a show of strength both in London and New York and there were reports of some large sales effected here. The copper industrial responded with a rise in prices which proved a sustaining influence in the general list. United States Steel did not share in the benefit of this movement, the dealings in that stock being at prices lower than yesterday's closing.

CAIRO RIOTERS DO NOT PLEAD.

Cairo, Ill., May 10.—The men indicted on the charge of leading the mob in the attack on the Alexander county jail last February did not plead in court today. The state failed in its effort to have the riot cases set ahead on the calendar.

COL. ROOSEVELT MEETS THE KAISER

With Mrs. Roosevelt and the Children, He Is Received at the Sans Souci Palace at Potsdam With Great Cordiality.

Following Luncheon With the Imperial Family, He Talks With the Sovereign for Over an Hour—Emperor Has Arranged a Sham Battle for Today, but It Is Doubtful if the ex-President Can Attend—His Throat Is Bothering Him Considerably.

Berlin, May 10.—The Roosevelts arrived here this morning and are the guests of the American embassy. The crowd at the railroad station gave the party a friendly greeting. In the absence of Emperor William, who but for the death of his uncle, King Edward, would have personally met the former president, the official party of reception was headed by Secretary for Foreign Affairs Schoen, who represented his majesty. Mr. Roosevelt's voice is still bothering him slightly, and one of his earliest appointments today was with a throat specialist.

This afternoon the party went to Potsdam to have luncheon at the palace with the emperor and empress. The colonel and the kaiser had their first long conversation after the luncheon. They talked over an hour. The emperor's welcome was exceedingly cordial. Wearing the white and gold uniform of the Garde du Corps, with brazen helmet, surmounted with a silver eagle, the emperor appeared at the entrance to the new palace on the arrival of the Roosevelts, which brought the Roosevelt party to the palace gates. The kaiser advanced quickly and shook hands warmly with each of the visitors. Later he presented his guests to the empress, and the entire party sat down to luncheon.

Mix-Up at the Station. A regrettable incident occurred on the arrival of the party at Berlin from Stockholm this morning, when the royal carriages failed to reach the station on time and Ambassador Hill was missing from among the officials gathered to greet Mr. Roosevelt. This was due to a misunderstanding regarding the arrival of the special train. Mr. Roosevelt subsequently met Dr. Fraenkel, a throat specialist. At Potsdam the emperor and the empress treated the guests with great cordiality. The emperor showed Mr. Roosevelt and his family through the Sans Souci palace himself.

The emperor has arranged for a sham battle for tomorrow, in which 12,000 men will take part. It is doubtful if Mr. Roosevelt can attend, as he is observing the utmost care, so he can deliver his lecture before the university on Thursday. His throat is in bad condition. Dr. Fraenkel explained that laryngitis often follows a long residence in the tropics. He believes that the hoarseness in this case is not due to the strain of speaking. Mr. Roosevelt, in his opinion, should be recovered in a week.

Mr. Roosevelt did not attend the dinner given by Ambassador Hill tonight, but remained in his rooms, to rest his throat.

NO INTERNATIONAL ATHLETICS.

Oxford and Cambridge Will Not Meet Yale and Harvard This Year.

London, May 10.—Oxford and Cambridge will be unable to participate in an international athletic meet this year. This word was sent today to Yale and Harvard. The English colleges will meet Dublin in June and they fell message to the task of training for another meet.

CHINA ABOLISHES SLAVERY.

Peking Government Prohibits the Purchase and Sale of Human Beings.

Washington, May 10.—The Chinese government has abolished slavery and has prohibited the purchase and sale of human beings under any pretext. Certain kinds of slavery are still permitted, but the reform eventually will free millions.

PERU IS MASSING TROOPS.

South American Republic Preparing for Possible War With Ecuador.

Lima, Peru, May 10.—Active preparations for a possible war with Ecuador continue. In this city 24,000 soldiers are quartered, while ten thousand additional troops are stationed near the frontier.

MISSION IS DESTROYED.

Turbulence Among the Chinese Spreads to a New Locality.

Chang-Sha, May 10.—Ward has reached here that riots have occurred at Yuen Chow, 225 miles from Chang-Sha, and that the inland mission has been destroyed.

FRENCH ASTRONOMERS DISAGREE ABOUT COMET.

One Finds Evidence of the Presence of Deadly Gas—Another Thinks the Tail an Optical Phenomenon—Variations from Orbit Observed by a Third.

Paris, May 10.—The astronomers of France are making observations of Halley's comet that are attracting the greatest interest.

Professor Deslandres, of the University of Dijon, finds a reappearance of the cyanogen, the poisonous gas observed in January and February, but which disappeared in March. He says that the probability that the gas is liable to affect the terrestrial atmosphere is not absurd.

Camille Flammarion thinks the tail of the comet simply an optical phenomenon produced by flight through ether, similar to the wake of a ship at sea. M. Marchand maintains that the comet shows variations from its orbit which presage unexpected surprises.

SENDS THE NATION A PERSONAL MESSAGE.

Britain's Widowed Queen Gives Thanks for the Sympathy Shown by the People—Cabinet Votes to Change the King's Oath as Catholics Wish It.

London, May 10.—While rulers and representatives of foreign nations are assembling here for the obsequies of the dead sovereign, the various necessary formalities incident to the sad event are being gradually completed.

The widowed queen has sent a touching personal message to the nation, saying: "From the depth of my poor broken heart I wish to express to the whole nation and our kind people we love so well my deep felt thanks for all their touching sympathy in my overwhelming sorrow and unpeakable anguish. May God give us all His divine help to bear this heaviest of crosses which He has seen fit to lay upon us."

"Give me a thought in your prayers which will comfort and sustain me in all that I have to go through. I confide my dear son into your care, who, I know, will follow in his dear father's footsteps, begging you to show him the same loyalty and devotion you showed his dear father."

The cabinet today framed a bill for parliament which eliminates from the king's declaration before parliament the ancient words, "Abjuring the church of Rome," which John Redmond, the Irish leader, says is distasteful to the Catholics. The bill allows the king to make the declaration without mental reservation or dispensation from the pope or other authority. The majority of the members of parliament are believed to favor the change, but the Orangemen and extreme Protestants are opposed.

PUTS THEM UNDER THE BAN.

National Trotting Board Punishes Horsemen Accused of Sharp Practices.

New York, May 10.—At a meeting of the board of review of the National Trotting association today, J. B. Pierce of Toronto, O., was expelled for alleged competition with the trotting of the mare Sally Reel, 2:13 1/4, under the name of Florentine at Hagerstown, Md., last fall. M. C. Sweeney, of Steubenville, O., and Robert Hall were expelled for connection with the same race. A. L. Bacon, of Conneaut, O., was expelled for racing the chestnut mare Pet Morgan, represented as having no record. The mare proved to be Ethlin C. 2:11 1/4, alias Rosewood, 2:10. The board denied the application for the reinstatement of the horse Hale L. alias W. P. Pointer, 2:11 1/4, and also the application of Prince, alias John W., 2:15 1/4.

AUTOMOBILE KILLED WOMAN.

Suspected Chauffeur in Chicago Is Reported to Have Confessed.

Chicago, May 10.—Arthur Watt, twenty-four years old, a chauffeur employed by Thomas McGuire, is said by the police to have confessed that he ran down and killed Mrs. Albert Blair on the North side Monday evening. Watt was arrested. At a garage at Lake View the detectives found an automobile with the front lamps broken, the radiator battered and a blood-stained piece of dress goods in the running gear. Inquiry showed that the damaged car had been run into the garage house an hour after the woman was killed.

AERONAUTS COME TO GRIEF.

Two Unconscious Men Found in a Wrecked Balloon Car in Kentucky.

Glasgow, Ky., May 10.—Two unconscious men were found in the wrecked car of a dirigible balloon which landed late today near Center, thirty miles from here. One of the men is believed to be A. Holland Forbes. A card bearing his name was found in the man's pocket, with these instructions: "In case of accident, notify the New York Times."

FIRES SWEEPING THROUGH FORESTS

Disaster Threatens Towns and Settlements in Northeastern Minnesota and in Northern Wisconsin and Upper Michigan.

Flames Cover an Extensive Area and the Pall of Smoke Over Lake Superior Is Reported to Be the Heaviest in Years—Grand Marais, on the North Shore, Seems Doomed, It Is Said—Villages in the Badger State Are in Imminent Peril.

Duluth, May 10.—Judging from reports received here today forest fires are sweeping the entire northeastern part of Minnesota. It is reported that the town of Tofte was nearly destroyed last night. The homes of many settlers in the fire zone are threatened.

Milwaukee, May 10.—The entire northeastern part of Minnesota is smoldering, vast timbered areas in northern Michigan and Wisconsin are being swept by flames, several villages are threatened with destruction and large losses seem inevitable.

A wireless message from Grand Marais, Minn., to Duluth, received here at 6 o'clock, said that fires were bearing down on the village and the town seemed doomed. The operator said that his was his last message, as the fire was getting so close he would have to abandon his tower and seek safety. Grand Marais is on the north shore of Lake Superior and is an old trading post. Steps are being taken at Duluth to send a relief boat.

Wild animals are being driven to the lake shore by the flames. The reports seem to indicate that fires are burning over an area of five hundred miles. The densest pall of smoke in a score of years is hanging over Lake Superior. The fires appear to be raging in all directions.

A Washburn (Wis.) report says that the flames have entered the largest tract of standing timber in the state. The entire crews of the Lanes Lumber company are fighting the blaze. Thousands of dollars' damage is reported. The fires have been raging two days and the homes of farmers living in the Four-Mile creek valley and along the Northern Pacific railway west of Washburn city are threatened. There are fires on every side of the city.

At numerous points in northeastern Minnesota fires are blazing and threatening the settlers. From Reservation river, thirty miles beyond Grand Marais, to a point fifty miles west of Duluth, come reports of serious fires. Tofte, a town of several thousand near Grand Marais, is nearly destroyed, only eight buildings being left standing. There are fires also along the Northern Pacific and Great Northern.

Fires are raging between Merrill and Tomahawk, Wis. The town of Cornish also is threatened. Scores are trying to check the flames. Timber slashings in Lincoln, Onida and Marathon counties are burning. Fires attacked Mosinee, Marathon county, tonight. The residence quarter was soon in flames. The whole town is endangered. All the citizens are fighting the flames. At Knowlton, forest fires are being fought by every available man.

Increasing fires in the west end of the upper peninsula of Michigan have cast a pall of smoke over the whole region, having destroyed much timber lands and threatening to wipe out the village of Abston, in Houghton county. The town now is safe, the fires having swept around it.

HYDE TRIAL NEARS THE END.

Case May Go to the Jury Saturday—The Defense Is Through.

Kansas City, Mo., May 10.—At the close of a long and tedious examination of Dr. Hyde today, the defense in the Hyde murder trial rested. The case may go to the jury by next Saturday. Every phase of the case was gone into in today's examination. Dr. Hyde said he had never poisoned any members of the Swope family; had never dropped capsules in the street in Independence, as Thomas H. Swope, Jr., claimed to have seen him do; that he used the cyanide mainly for killing bugs in his office, and that he injected only camphorated oil in Margaret Swope's arm, not poison.

MRS. SAYLER GOES TO PRISON.

Her Alleged "Affinity" Dr. Miller, too, Begins His Sentence.

Watska, Ill., May 10.—Mrs. Lucy Sayler, jointly convicted with her alleged "affinity," Dr. W. B. Miller, of murdering Mrs. Sayler's husband, the Crescent City banker, was taken to the penitentiary at Joliet today. Miller, too, began his sentence. Mrs. Sayler will appeal, but Miller, it is said, will not.

FRIGHT KILLS ILLINOIS BOY.

Youth Falls Dead When Father Attempts to Punish Him.

Duquoin, Ill., May 10.—The young son of John Bain, of Williamson county, fell dead from fright when the father attempted to punish him for an offense this morning. The coroner's jury said that death resulted from heart failure, due to fright.

Carlyle wrote a patient but cramped and oddly emphasized hand. Byron's handwriting was a mere scrawl.

DAILY MINING JOURNAL
A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

There's to be a truce to English politics, to permit King George to get his bearings.

Two grand juries are now loose on the Illinois senatorial election scandal.

The Detroit Journal says: "While no formal announcement has been made yet, it is said in Grand Rapids that Amos Musselman will make no more speeches in the gubernatorial campaign."

Money would have been saved and all interests would have been better served if the board of education had looked into the future with clearer vision when the group of school structures on Pine street was erected.

Mayor Seidel, of Milwaukee, has proffered the appointment of health commissioner to Charles B. Ball, of Chicago, a man thoroughly trained in sanitary engineering and who has the reputation of being an efficient public servant.

The sundry civil service bill contains a provision authorizing the president to appoint experts to ascertain the cost of production at home and abroad, and appropriating \$250,000 for its expenses.

Beach, in his work on Monopolies and Trusts, 1898 edition, commenting on this decision, says: "It is well settled that the state has the power to regulate the manufacture of bread."

ALCOHOL IN MEDICINES. Alcohol is the best known preservative of medical compounds, and the average proprietary medicine contains from 1 per cent to 22 per cent, which is the smallest possible amount to preserve the ingredients.

Registered Holstein-Friesian Bulls Ready for Service. Superior Breeding. Low Prices to Upper Michigan Buyers. Emblagaard Dairy Marquette, Mich.

an appropriation bill? If the speaker were to sustain the point of order, it would go to experts and appropriation. The speaker knows how the president feels about this matter and how anxious he is to get the men and the money.

A dispatch, under a Marquette date line, relating how the signatures of twenty-two voters of West Branch township were obtained for Burrows nominating petitions, ends with this observation: "There is almost no sentiment in this county for his opponent."

Higher Prices for Meats—A number of the Sault Ste. Marie hotels there use venison, charged twenty-five cents for regular meals have agreed to raise the rate to thirty-five cents, to go into effect the 15th.

A Story of Sheriff Byers—James Byers, sheriff of Houghton county, has been in the city for the purpose of securing a pair of driving horses, says the Soo News.

The Scandia Co-operative company is the title of a new business firm which has come into existence in Escanaba. Articles of incorporation have been filed in the office of the state secretary.

THE POWER TO CONTROL PRICES. If the decision by the United States supreme court cited by Attorney General O'Malley of New York is proved applicable, every state in the union has ample power to control the prices of the necessities of life.

Lake Superior Ore Shipments—The lake shipping season has opened and iron ore traffic is in full course, comments the Engineering & Mining Journal.

Milk Swarmed With Fish—"Billy" Stribling was one of the first men on the job when the locks were opened at the Soo the other day.

COMMANDER JULIUS A. PRATT POST NO. 143 DEPT. III, G. A. R. Mr. Isaac Cook, Commander of above Post, Keweenaw, Ill., writes: "For a long time I was bothered with backache and pains across my kidneys."

Upper Peninsula Railroad Contracts Awarded—H. S. Payne, formerly of Marquette, now of Iron Mountain, has been awarded several contracts in the Stambaugh-iron River district of the Menominee range by the Northern Pacific.

HASTINGS—Charged with defying the order of Deputy Sheriff Mann by stubbornly refusing to send his two young daughters to school, Albert Williams, a Yankee Springs farmer, was brought before Justice Bishop.

GRAND HAVEN—Immense quantities of dead fish are being washed ashore by the high west winds and fears are expressed that they will not only be a menace to the health of the city, but will interfere with bathing and boating this season.

LANSING—Not a single arrest for drunkenness has been made by either the police or sheriff's department since May 1, when local option went into effect in Lansing, and, according to the report of the officers, only one man has been seen on the streets in an intoxicated condition.

BENTON HARBOR—When the late James Molloy of this city was alive he was known as the most frugal rich man that can be visited in any of the grand hotels of the city.

LANSING—In an opinion the supreme court has sustained the decision of the circuit court of Wayne county in the case of Finney's orchestra against Finney's famous orchestra.

BAY CITY—The smallpox epidemic which has afflicted Bay City for the past two months is not yet at an end, but three patients now being under the care of physicians.

FLINT—While speeding along North Saginaw street an automobile containing George Nixon and two companions, struck a pile of sand near an open man-hole and was overturned.

The Cause of Many Sudden Deaths. There is a disease prevailing in this country most dangerous, many sudden deaths are caused by it—heart disease, pneumonia, heart failure or cerebral apoplexy are often the result of kidney disease.

LOWER STATE NOTES. MONROE—Frank Hoffman, a Cody, Wyo., cowboy, appearing with an Indian show, at the opera house, was accidentally stabbed near the heart in a scolding scene during the performance.

CHARLOTTE—The Charlotte Woman's club, the most representative organization of its kind in the city, voted down the resolution endorsing woman's suffrage.

LANSING—Not a single arrest for drunkenness has been made by either the police or sheriff's department since May 1, when local option went into effect in Lansing, and, according to the report of the officers, only one man has been seen on the streets in an intoxicated condition.

BODY NOT RECOVERED.

It is the General Belief That Yalmer Okerlund Has Been Drowned.

All hope of finding the missing Yalmer Okerlund alive has been given up, and hope of finding his dead body in Portage lake has been temporarily abandoned.

The dragging will now be discontinued, temporarily at least. It is hoped that if the boy was drowned his body will come to the surface, as did that of Fred Simmer at Ripley last week.

The parents of the Okerlund had almost despaired at the disappearance of the boy. They fondly hope that he may still be alive. It is the general belief, however, that he is dead.

OLD RESIDENT DIES.

James Roach Drops Dead While at Work in Mine-office Yard.

James Roach, for thirty-five years an employe of the Quincy Mining company, dropped dead while at his work Monday morning.

The deceased was sixty years of age. He came from Ireland in 1875 and had been in the employ of the Quincy ever since.

MANY LAW VIOLATORS TRIED.

Reports of Justices of the Peace to Prosecuting Attorney.

According to the April reports of nine justices of the peace to Prosecuting Attorney W. J. Anderson of Calumet, eighty-seven cases for violations of all laws were reported.

The crimes charged cover a wide field, although none were very serious. The charges were as follows: Exposing the public to scurvy fever by breaking quarantine; 2; disorderly persons; 37; assault and battery; 10; creating a noise and disturbance; 2; defrauding boarding house keeper; 1; obtaining goods under false pretences; 1; vagrancy; 2; larceny; 4; violating game and fish laws; 3; cruelty to animals; 1; slander; 2; drunkenness; 5; not sending children to school; 1; being a common prostitute; 1; gambling; 5; not given; 2; resisting an officer; 1.

The justices had cases as follows: Willam Fisher, Calumet; 25; C. O. Olivier, Hancock; 19; L. L. Croze, Houghton; 9; David Armit, Laurium; 12; Caspar Brand, Houghton; 7; Charles L. Little, Houghton; 3; E. F. Prince, Lake Linden; 1; M. L. Funkey, Hancock; 1; Jacob Davis, South Range; 11.

SAILOR JACK VS. LOUIS KRUGER.

Manager McNamara Arranges Preliminary to Big Wrestling Bout.

Louis Kruger of Michigan City, Ind., and Sailor Jack of Duluth will be the wrestlers to provide the preliminary to the (inter-Person) handicap bout next Friday night at the Amphitheatre.

Manager McNamara has taken his time about settling the preliminary bout, because he wanted it to be a good one. Sailor Jack has been cleaning up the wrestling fraternity in the Northwest for several months and is looked upon as one of the greatest middleweights in the business.

Kruger weighs only 145 pounds, but Manager McNamara is assured that the disparity in weight will not be a handicap for Kruger.

HOUGHTON COUNTY BOARD.

Meeting Held Yesterday Disposed of a Number of Big Matters.

The county board met at a suggestion of graft in the Laurium health bills.

The reward claim of A. M. Worthington is disallowed.

The board will probably build an addition to the county jail.

A nominating committee to suggest probable members of the board of county road commissioners is appointed.

The foregoing statements are, in brief, a report of the proceedings of the Houghton county board of supervisors yesterday morning in May meeting assembled at the county building.

The Laurium health bills were bills aggregating some thousands of dollars, presented by that village, with the claim that they had been incurred in fighting contagious diseases and were a proper charge against the county.

The finance committee reported, held that the bills are only payable when the patients are indigent, and stated that there appear in these bills the names of debtors who are capable of paying their bills to the extent of thousands of dollars.

The finance committee recommended the board disallow the bills of A. M. Worthington of Duluth be disallowed.

The board referred to the bridge committee the bill of \$800 presented by the Copper Range railroad, the balance of the drawbridge cost.

BARK PEELING BEGINS.

Bark peeling has begun. E. A. Hamer, superintendent of the Worcester Lumber company at Chassell, was in Houghton yesterday attending the supervisors' meeting and he reported that the spooling of hemlock bark had begun at Worham, his company's lumber camp de luxe.

The modern lumberman saves every part of a hemlock log but the squeal. He cuts it into lumber, burns the sawdust and sells the slabs to the pulp mill and the bark to the tanner.

Charles Doloso of Calumet, who had been in Italy for a few months' visit and was held up at Ellis island by the immigration officials on his return to the United States, has succeeded in passing inspection and will arrive in Calumet today.

DOLOSO WILL RETURN TODAY.

Charles Doloso of Calumet, who had been in Italy for a few months' visit and was held up at Ellis island by the immigration officials on his return to the United States, has succeeded in passing inspection and will arrive in Calumet today.

Absolutely Pure... Royal Baking Powder Improves the flavor and adds to the healthfulness of the food. ROYAL BAKING POWDER Absolutely Pure

NO DANGER IN ALSTON FIRE.

Supervisor Gustafson Says That the Flames Passed Around.

Supervisor Gustafson of Laird township, residing at Alston, was in Houghton to attend the county board meeting yesterday morning.

Mr. Gustafson was in communication with Alston yesterday morning, and says that the fire had gone around the village and the danger had passed.

MUST HAVE A LICENSE.

Fake Opticians Can No Longer Engage in Business in Michigan.

Hinnant peddlers will no longer be permitted to ruin eyesight in Michigan, for the law regulating optometry, passed May 3, 1909, has now become operative.

The enactment of the bill followed numerous complaints of people residing in the county districts, and in small towns, who claimed that they had bought spectacles from Hinnant peddlers claiming to be graduated as eye specialists and to represent some of the biggest establishments in the state, especially Detroit.

The bill presented at Lansing had no opposition. When it became a law the following board of examiners was appointed: President, Peter Scholler, Hancock; secretary-treasurer, Ernest Eimon, Muskegon; Vice-President, Ernest Eimon, Albert W. Klindt, Detroit; Orville E. L. Altonberg, of Saginaw. Previous to the passage of the bill a general investigation was made by several members of the legislature, finding that some harm might be done, but when attention was called to the fact that the eye was an important organ of the human anatomy and when eyes were ruined there was no remedy.

So Laurium is to have a dog catcher again and the dog catcher is going to count the noses of all the dogs, according to the owners \$1 and \$2 per dog, according to the sex, with the whole number of dogs to be a social shaver, but otherwise well it is far from pleasant.

How the World Grows. In 1801 there were in Europe only two and a half cities which had more than 100,000 inhabitants.

Now there are 100,000 cities in Europe. London, Dublin, Paris, Marseille, Lyons, Amsterdam, Berlin, Hamburg, Vienna, Naples, Rome, Milan, Venice, Palermo, Madrid, Barcelona, Lisbon, St. Petersburg, Moscow, Warsaw, Copenhagen and Constantinople. Two only of these cities had more than 1/2 million—London, 950,000, and Paris, 600,000. Naples came third, with 300,000, and Vienna fourth, with 250,000.

Many a man is not what it was cracked up to be.

COUNTY DENTISTS MEET.

Houghton County Society Holds Annual Session and Clinic.

The Houghton County Dental Society held its annual meeting and clinic Monday afternoon and evening at Calumet. The clinic took place at the offices of Drs. Thometz and Ogden in the State bank building.

The program of papers was as follows: "Ascher's Enamel Filling," Dr. P. E. Stoebach, Hancock.

"Extracting Teeth Under Anesthesia," Dr. C. T. Ferriss, Houghton.

"Dr. M. A. Thometz, Calumet." "Cast Gold Inlay," Dr. W. S. Whistler, "Puerlich," Dr. J. A. Ogden, Calumet.

"Highly Resin Spray as an Obturator," Dr. R. P. Neil, Laurium.

The dentists practically decided at their business meeting to conduct a rigorous campaign of education concerning the teeth and their care, seeking to reach the 25,000 school children of the county, more than 10,000 of whom are situated in the two districts of Calumet township.

WORK FOR DOG CATCHER NOW.

Census of Dog Population of Laurium Will Be Taken Again.

Uncle Sam's nose counters have just finished their work in Calumet and Laurium and the estimates of the population vary from 35,000 to 50,000.

But Laurium is going to have a little census-taker of its own, Laurium has plenty of dogs, a big dog population, in fact, and little revenue coming in from the animals.

The dogs close about the streets by day, loitering pedestrians and barking at passing vehicles. They are happy dogs and cause little or no trouble, but if they were a social shaver, but otherwise well it is far from pleasant.

So Laurium is to have a dog catcher again and the dog catcher is going to count the noses of all the dogs, according to the owners \$1 and \$2 per dog, according to the sex, with the whole number of dogs to be a social shaver, but otherwise well it is far from pleasant.

GOLDFIELD CONSOLIDATED.

The report of the Goldfield Consolidated for the quarter ended March 31 last shows receipts of \$2,162,282 and disbursements of \$693,496, and after dividends of \$1,779,549 had been paid there resulted a deficit of \$220,763.

In connection with the recent fire the statement is officially made that the property loss probably is not in excess of \$125,000. Within ninety days it is expected that the mill will be in full operation, although it is now running at about 70 per cent capacity.

NIPISSING.

During April the Nipissing Mining company mined ore containing 338,724 lbs. of silver, having an estimated value of \$179,018, and shipped ore having an estimated value of \$195,023.

Surfact prospecting was begun April 15, and up to the end of the month three important veins were encountered, namely—Nos. 134, 135 and 136. These veins averaged, approximately, an inch in width, and, where exposed, show high grade ore for fifteen or twenty feet.

Referring to the recent discovery on the eighty foot level of vein 101, the report states that the vein is an inch in width.

Mining News

QUINCY

It is pretty generally acknowledged by those in position to understand the Quincy property that the future is fairly well defined, and its limit and scope of operations fairly well outlined, as long as operations are confined to the present formation. In this connection the excellence of the copper showing in the north end of the property at the Pontiac and Mesnard shafts is particularly pleasing.

ARIZONA COMMERCIAL.

President Anster of the Arizona Commercial says: "I am very hopeful regarding Arizona Commercial. We were disappointed in the seventh level conditions at the start, but as drifting progresses east and west the vein gives promise of improving width and higher copper values.

When the crosscut from the shaft first penetrated the Black Hawk lode we encountered brecciated vein matter or "chicken quartz" as it is locally termed, but as the drift was extended toward the west there was gradual improvement.

When I left, the drift on the seventh level had been driven about 500 feet, and the vein had widened out to fourteen feet with copper values of 6 per cent. Of course this should not be taken to indicate that the entire vein at this point has a width of fourteen feet, or that the copper values are uniformly running as high as 6 per cent, but as the opening work continues, the outlook is distinctly more encouraging.

The National Mining & Exploration company, on the west, has demonstrated that the Arizona Commercial has truly 1,800 feet of mineralized ore on the Black Hawk lode to the west of our shaft. They have struck some high grade values in the sixth level of their shaft, which means much for their property as well as for the company.

We are pumping about 1,500,000 gallons of water daily and the maximum flow some weeks ago. We are lowering our pumps from the sixth level to the seventh in order to prepare for the further sinking of our shaft.

The water will of course better its some in sinking, but it will not interpose obstacles which cannot be overcome.

ISLE ROYALE.

On a 12-cent copper market, the Isle Royale can show a profit from the Isle Royale lode; but the possibilities of the Baltic lode are very great and there is very indication that the company will open up a valuable mine on the Isle Royale.

The drift is now making to the point, approximately 100 feet, and the company is now working to the point of contact with the lode. Within the past few days there has been a decided change in the character of the formation through which the drift is passing and it now resembles the character of the rock which came from the drift except that it lacks copper. A crosscut has also been started to the west to explore the hanging wall country.

There is every reason for believing that the showing in the drift ore will be exposed in the drift, and that it will show good copper at this end of the property. The expectation of developing another mine at this part of the Isle Royale has always been an important factor in the consideration of the market price of the stock.

GOLDFIELD CONSOLIDATED.

The report of the Goldfield Consolidated for the quarter ended March 31 last shows receipts of \$2,162,282 and disbursements of \$693,496, and after dividends of \$1,779,549 had been paid there resulted a deficit of \$220,763.

In connection with the recent fire the statement is officially made that the property loss probably is not in excess of \$125,000. Within ninety days it is expected that the mill will be in full operation, although it is now running at about 70 per cent capacity.

in places and assays from 2,000 to 3,000 ounces of silver per ton. As the vein on the surface shows high grade ore two inches in width for twenty-five or thirty feet and then branches, it is probable that the underground workings have encountered one of the stringers and that the main vein has not yet been reached.

QUINCY.

The directors of the Quincy will meet in the next two or three weeks to take action on the quarterly dividend due for payment in June. Three months ago the quarterly rate was increased from \$1 to \$1.50 and a director states that the dividend will probably be at the increased rate.

The company was fortunate in negotiating large sales of copper several weeks ago before the recent decline started in receiving 13 1/2 cents a pound for two months' output. The next dividend will be declared from the profits for the quarter ended March 31, which were at the rate of about \$5.50 per share per annum.

At the present time the company is producing at the rate of over 250,000 pounds of refined copper per annum. Costs are about 10 1/2 cents, the 15-cent copper Quincy can earn about \$5,000,000 net, or at the rate of \$5 a share on its 110,000 outstanding shares.

NOTES OF COPPER NEWS.

Eight boilers have arrived for the permanent hoisting plant at the new shaft of the Gironx Consolidated. Material is beginning to arrive for the steel girders frame, which will be ninety-four feet in height. The upraise from the 1,200-foot to the 1,000-foot level in the shaft is more than half completed.

It is said that the United Copper company now holds in its treasury all the Canadian timber lands, Pittsburg Coal lands, Davis-Daly and Ohio Copper of its president. People acquainted with this corporation asserted that there is a good deal more than full value for the \$5,000,000 preferred stock in the treasury of the company, notwithstanding that it is quoted at about 30 per share.

Evidence is being gathered that some of the Hecla securities while Heine is on trial. In the milling of La Salle rock, material has been shipped from stockpile and underground, without selection. It is stated officially that the Tecumseh shaft looks better now than at any time since the mine was opened.

Present rock shipments average 350 tons daily, one-third of this coming from underground and the remainder from stockpile. There is no prospect for increased production as the mine has not the facilities for handling it. Hoisting facilities are taxed at present and rock-house facilities are lacking.

Treasurer Graves of the Victoria Copper Mining company says: "At the bottom of the mine in the twenty-second level west, a large mass of copper has been found in the breast of the drift, and the miners are now working ground it. This drift is looking better than it has for six months. The new drift east from the eighteenth level is now in copper and looks well. The other drifts are about as usual. The mineral product for April was ninety tons.

Shannon is doing well at present considering the low price of copper. The net earnings for the quarter ended Feb. 28, the last reported—being nearly \$30,000 ahead of the previous quarter and \$40,000 ahead of the same three months of the previous year. Shannon on this level is not the copper of the previous year, but the property as a whole was never in better condition both as regards quantity and quality of ore reserves and ability to treat ore economically. On any improved metal market Shannon should be able to give a good account of itself.

The estimated copper contents of the mineral produced by the Calumet & Hecla and its eight subsidiaries during the month of April shows a decrease of 1,100,000 pounds from the preceding month. While April is a short month, some of the decrease may be thus explained, still it is true that the Calumet & Hecla properties are not pushing output and so far as the parent company is concerned, a 14 per cent cut in output is still being followed. In other

words, the company is smelting only 80 per cent of the mineral produced and is holding back from an over-supplied copper market. A report comes from London that copper producers in all parts of the world are much worried over the big surplus of metal that has been accumulated by the Tanganyika Concessions in the Congo. This is one of the mysterious enterprises of the late King Leopold.

Lady Warwick got the concession from the King and turned it over to the late Cecil Rhodes, taking a stock interest in the Concessions company, which is building a railroad to be opened by September. The report is that by the time this railroad is ready to handle copper metal, the Tanganyika mines will have 200,000,000 pounds ready for delivery. This copper has not been counted in the surplus stock of the world. Its threatened appearance on the market is likely to create some excitement.

The site of the new drill hole at the Aradian is at a point 2,000 feet west of the outcrop of the Aradian lode. This drill will go to a depth of approximately 1,800 feet. A lode dips west at an angle of about 30 degrees and the hole will dip east at an angle of 60 degrees. It is altogether probable that in the course of sinking this hole other lodes will be encountered. Ten years ago when the Aradian mines was so thoroughly opened by its four shafts the best ground was found in the most southerly shaft on the formation, the shafts running north and south. In fact, this shaft, known as "A" shaft, was the one which gave promise of showing the highest grade mineralization of them all, although it was opened to the seventh level and no lower. At this time the finances of the company were excellent. It is the plan of the present management to develop this ground with the drills and if the showing warrants to re-open either "A" shaft or No. 1 shaft, the next to the north, for continued and more exhaustive exploration, per market one-seventh of its production.

The New York Evening Post comments: "Copper metal is still the only fact, this was in the early part of 1908, and somebody must have a great deal of Analaugated Copper stock. The public has not got it; commission houses have been bare of it for months." A member of a prominent brokerage house which deals largely in copper shares says: "Never in my twenty-five years' experience in the brokerage business have I known the time when the large commission houses were borrowing so little money as at the present time. In the case of our firm we are borrowing less than \$100,000 call money. This is more than necessary, but the rates are attractive. As a matter of fact, we are borrowing more as an accommodation to the lender than from necessity. There isn't a day passes but we receive several offers from the banks to loan us money which indicates there is taking the matter with the money situation. The only thing now needed by the investing public is a little more courage, and copper shares will quickly improve.

A horse may know a good bit, without a college education. One of the surest ways to lose a friend is to lend him money. HOW'S THIS? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

S.S.S. CURES BLOOD HUMORS

The skin is provided with countless pores and glands, through which an evaporation is going on continually, day and night. This is Nature's method of regulating the temperature of our bodies, and preserving the natural appearance of the skin.

These pores and glands are connected with tiny veins and arteries through which they receive from the blood the necessary nourishment and strength to preserve their healthy condition.

Just as long as the blood remains pure the skin will be free from eruptions, but when the blood becomes affected with acids and humors its nourishing and healthful properties are lost, and its acid, humor-laden condition causes inflammation of the delicate tissues and fibers of the pores and glands, and the effect is shown in Eczema, Tetter, Salt Rheum, Pimples, Rash, etc.

The humors and acids get into the blood through a deranged and inactive condition of the system. Those members whose duty it is to collect and expel the refuse matters of the body fail to properly do their work, and a surplus amount of waste matter is left in the system to sour and ferment and be absorbed into the blood.

Salves, washes, lotions, etc., are valuable only for what ability they possess to keep the skin clean, allay itching and temporarily reduce inflammation. They cannot cure skin trouble because they do not reach the blood. S. S. S. cures Skin Diseases of every character and kind because it is the greatest of all blood purifiers. It goes into the circulation and removes the acids and humors that are causing the trouble, builds up the weak, acid blood and completely cures Eczema, Acne, Tetter, Salt Rheum, Pimples, Rash, and every variety of skin eruption and affection.

When S. S. S. has driven out the humors and acids from the blood, every symptom passes away, the skin is nourished with rich, healthful blood, the tissues are relieved of all inflammation, natural evaporation again takes place and the skin becomes soft and smooth and perfect. Book on Skin Diseases sent free. THE SWIFT SPECIFIC CO., ATLANTA, GA.

ECZEMA ACNE TETTER SALT RHEUM RASHES PIMPLES ETC.

ECZEMA IS YEARS. S.S.S. CURED HER Dear Sirs:—I suffered with a bad case of Eczema for over 12 years, and tried everything I heard of, and had many medicines prescribed by doctors. I spent considerable money, but it did me no good. I began to use S. S. S. I commenced this medicine and the Eczema soon began to gradually disappear, continuing taking S. S. S. and it is completely cured. My skin is now as good as new. 50 Clinton St., Newark, N. J.

City Brevities

Today's weather: Fair; stationary temperature.

Yesterday's temperatures: Seven a. m., 53 degrees; noon, 56; 7 p. m., 42. Maximum, 58 degrees; minimum, 42.

Mrs. R. C. Lowe is visiting friends at Menominee.

Mrs. R. C. Young has returned from Escanaba.

Fred S. Case left for Lansing yesterday afternoon, on a business mission.

The W. C. T. U. will meet with Mrs. S. Strong, 362 West Park street, this afternoon at 3 o'clock.

W. F. Knox of the Soo was here for a few hours yesterday, and left last evening for Calumet, after spending the afternoon in Ishpeming.

There will be a meeting of those members of the Guild hall interested in the formation of a baseball team at the hall this afternoon at 4:30 o'clock.

The three members of the board of pardons and Secretary Quigley arrived in the city yesterday, and are now holding sessions at the Marquette prison. They will be here today and tomorrow, and will hear twenty or more cases of convicts seeking parole.

S. J. Bigelow of Duluth, commercial agent of the Michigan Central railroad, E. B. Leppert, of Milwaukee, traveling passenger agent of the New York Central railroad, and F. D. Lyon, of Minneapolis, representing the "Back Island" were Marquette visitors yesterday.

James Cummings, charged by the American Bonding company, with embezzlement of \$256, while Marquette manager for the Marquette County Telephone company, was yesterday bound over for trial in circuit court. Prosecuting Attorney Bell was down to conduct the hearing.

Annual Spring Excursions—The annual spring excursions to Detroit, Toledo, Cleveland and Buffalo, via the South Shore and the D. & C. line will occur this year on June 9, 16 and 23.

Escanaba Won—Escanaba defeated Rapid River in the first game between Delta county teams Sunday, by the same score that Ishpeming defeated Marquette, 5 to 3. The teams showed up much good material and it is predicted that they will be fast.

Dies from Typhoid Fever—Miss Nellie Messier, aged twenty-six, daughter of James Messier, 907 North Third street, passed away last evening, a victim of typhoid fever. She was ill only two weeks. The surviving members of the family are the father and mother, four brothers and two sisters. The funeral arrangements will be made today.

Another Full House—Fritz, the Chaletier, the offering of the Mock Sad All Stock company at the theatre last evening, attracted another capacity house, and was followed with appreciative attention. The vaudeville features again met with much applause. Tonight, when "Under the Stars and Stripes" will be presented, lady's tickets will again be honored. One such ticket will be given to each purchaser of a thirty-cent ticket.

\$3,000 for Charity—At a concert in the Light Guard armory at Detroit Saturday evening last, where Madam Schumann-Heink, who comes to Marquette the latter part of the season, was the principal attraction, \$3,000 was raised for a tuberculosis sanitarium fund. The gross receipts were in the neighborhood of \$4,000 and the expenses about \$1,000.

Madam Schumann-Heink, and Madam Elms-Rougier, the cellist, who assisted her, were greeted by an audience that packed the armory to the doors.

Grasshoppers Appear Already—Young grasshoppers have already put in an appearance and promise, as L. M. Geismar, of the Upper Peninsula Experimental station predicted last fall will be the case, to be worse this year than they were last. Farmers and dairymen expect not much pasture and very little hay this season. The cold nights and dry days of the past week or so have been hard on pastures and meadows.

Elms-Rougier, a farmer's remarks, "will grow large quantities of corn and rye, which grow so heavy that the 'hoppers' cannot damage them to speak of."

Entertained at Lakewood—Thirty-five members of the Marquette chapter of the Daughters of the American Revolution were entertained at the camp of S. W. Shaul at Lakewood yesterday by Mrs. Shaul and Mrs. Ed. Culver at the last meeting of the season. A fine supper was served the guests. The annual election was held at the camp, the following officers being chosen: President, Mrs. King; vice regent, Mrs. W. S. Hill; recording secretary, Mrs. F. G. Jones; treasurer, Mrs. Ed. Culver; corresponding secretary, Mrs. Walter Hodgkins; registrar, Miss Blake; historian, Miss Tompkins.

Committee Raising Fund—A committee of directors of the Marquette baseball team yesterday circulated a subscription list for the establishment of a special fund to be drawn on for emergency purposes during the season. The receipts of the games are to go into a fund out of which the players are to be reimbursed for their work. Several generous subscriptions were received yesterday, and a good-sized fund will be gotten together. It is expected that Frost, of Munising, will do some pitching for Marquette this season. The management is now seeking one or two players who may be used in the regular line-up. The team expects to get in considerable practice this week, to polish up for the games at Crystal Falls Saturday and Sunday. From all accounts Crystal Falls will have a strong team assembled to meet the visitors in the first games of the league series.

INSURE WITH PETER WHITE & CO.

NATURAL RESULTS OF OLD AGE.

With old age comes feebleness and loss of power. The organs act more slowly and less effectively than in youth. It is hard to get sufficient nourishment from the food to keep strong because the digestion is weak. We want to say to every aged person in this vicinity if they only knew how our cod liver and iron medicine, Vinol, strengthens the organs of digestion and creates strength we would not be able to get it fast enough to supply the demand. The Stafford Drug Co.

WANTS NOMINATION.

Well-known Menominee Democrat Would Make Run for Congress.

Marquette Democrats, and some Republicans, have received circular letters this week urging G. T. Werline, of Nadeau, Menominee county, for the Democratic nomination for congress. Mr. Werline was elected to the state legislature by the Democrats of Menominee county in 1903, and if he is nominated for congress he would have a thorough personal canvass of the district.

The letter recommending Mr. Werline to the Democrats of the district is signed by some strong men, including C. I. Cook, of the Carpenter Cook company, John Stiles, A. F. McGillis, C. J. Huebel, A. B. Stryker, John O'Connor, Michael Cain, L. J. Leisen, Joseph E. Cuddy, M. J. Doyle, Michael Sullivan, Robert Sorenson, Barney Shomer, George H. Haggerson, Joseph Erditz, Paul Perizzo and W. A. Carley.

Of Mr. Werline, his Democratic friends say: "Mr. Werline is an old time Democrat of the Samuel J. Tilden type, a successful business man, in the prime and vigor of manhood, who now has the leisure, means and inclination to wage a vigorous warfare in the defense of the rights and liberties of the common people. He is deeply versed in all the details of the political history of the nation, is of most engaging personality and is an impressive public speaker. His long residence in the upper peninsula, his wide acquaintance with its people, and his intimate knowledge of its resources and industries, together with his sterling integrity of character, make him an ideal Democratic candidate, and we each will regard it as a special favor if you will signify to us your willingness that he shall become our candidate to the great office which he aspires to."

So far Mr. Werline is the only Democrat seeking the nomination. P. H. O'Brien of Calumet was the candidate for congress nominated by the Democrats in 1908.

CLEAR BREAK WITH THE TRUSTS

KLAW & ERLANGER WILL NOT SEND SHOWS TO THEATERS IN NORTHWEST—INDEPENDENTS HAVE MANY ATTRACTIONS.

The New York Review, a paper featuring stage news, gives over an entire page to a discussion of the change which has come over the theatrical world as a result of the theaters of the northwest declaring for an "open door" policy. John Cort is quoted in a three column interview, in which he pays his respects to Klaw & Erlanger in no uncertain terms. The feeling displayed in Mr. Cort's remarks and running throughout the discussion of the change in policy on the part of the theaters of the northwest indicates that there will be a complete breach between the Schubert-Bradley-Cort combination and allied interests and Klaw & Erlanger. Klaw & Erlanger will doubtless refuse to send any of the attractions of their company into the northwest, and the theaters in this region will have to depend on the "independents" for their bookings. This will mean a different line of attractions. On behalf of the "independents" assurance is given that it will mean more plays and better plays.

Mr. Cort says he was led to desert Klaw & Erlanger in favor of the Schuberts and the "independents" largely by the fact that the latter offered for the season of 1910-11 a much more attractive galaxy of stars and plays than Klaw & Erlanger, who, he charges, failed to fill their contract with him during the season now drawing to a close. Mr. Cort is confident that the "open door" theaters will get more and better attractions under the new arrangement than they have had under the old.

Mr. Cort, after the Schuberts and Julius Kalin, is the most important factor in the association of 1,200 theater managers formed in New York last Saturday. He now controls over 100 theaters in North Dakota, Montana, Idaho, Washington, Oregon, Arizona, Utah, California, British Columbia and Nevada.

It is the booking agent for these houses, and they depend on him for the power of filling their time, in accordance with his best judgment. Mr. Cort was the pioneer theatrical manager of the coast, and his circuit was built up largely without effort on his part, by managers of theaters coming to him and urging that he take the responsibility of booking their time for them. Now he can book an attraction for a continuous run of four, five or six months, in theaters under his general direction.

The C. M. Marshall theaters, so-called, in which group belong the iron and copper country houses, and whose managers are affiliated in the Northwestern Theatrical Managers' association, which meets at Milwaukee today, comprise a group of forty theaters in Minnesota, Wisconsin and upper Michigan, as follows: Minnesota, Duluth, Hibbing, Stillwater, Two Harbors, Virginia, Preston, Red Wing and Winona; Wisconsin—Superior, Kenosha, Merrill, Ashland, Manitowish, Eau Claire, Fond du Lac, Green Bay, Janesville, La Crosse, Marinette, Oshkosh, Sheboygan, Wausau, Appleton, Beloit; Michigan—Norway, Hancock, Ishpeming, Marquette, Menominee, Iron Mountain, Calumet, Sault Ste. Marie, Lake Linden, Ironwood, Escanaba, Gladstone, Marquette, Ontonagon, Bessemer.

The Marquette, Ishpeming, Hancock and Calumet theaters are usually booked for the same attractions, and they, with Menominee, are considered the best theatrical towns in the upper peninsula. At the meeting at Milwaukee today, the managers of the Marshall theaters, so-called, will doubtless ratify Mr. Marshall's action in casting their lot with the independents and committing them to the open door policy. It is likely that Mr. Marshall will be able to show them where the change will be distinctly to their benefit.

If you want milk of superior quality from tuberculin-tested cattle, call up the Marquette City Dairy. Bell phone 223. (4-23-1m)

A RARE ONE.

"You have an enviable collection of postcards, haven't you?" said the caller, looking through the lot. "Why, what's this one—all blank on one side?" she added. "That? That's a government postal card—a rare bird these days," the owner said, after consulting her catalogue.—Buffalo Express.

Warner's Rust-Proof Corsets

Very long, but not an inch too long to shape the fashionable figure.

The bones in this corset do not extend the full depth of the skirt—the soft, unboned cloth is the extra length. It is therefore impossible for the garment to be felt uncomfortably—quite the contrary. It is pleasantly felt.

We have many styles in this make, but only one cut, namely, a correctly, fashionably cut garment for every woman, large or small.

Every garment made to fit and to wear—not to rust, break or tear.

MIGRATING STARS.

Our Sun Supposed to Belong to the Nomad Class.

Most readers, of course, know that the constellations of the heavens are only convenient groupings of the stars arranged in ignorance and that the shining suns which appear in them may be void of connection one with the other. Modern astronomy, as Professor H. H. Turner points out in an article in the Fortnightly, has discovered strange affinities in the movements of stars far removed from one another in the sky. The great seven of the Plow, for example, are not all related. The middle five are speeding in company away from the earth; the two pointers at the end of the Plow are coming towards us. But these two are not alone in the heavens. They belong to the same company as Sirius, to which company belong also six other stars—the brightest star in the Northern Crown, one in the Lion, one in Eridanus, one in Auriga. These have been discovered by Dr. Ejnar Hertzsprung of Gottingen. They are scattered widely over the sky, and there may be others still undetected. They move in parallel courses through the universe like a flock of migrating birds, and some of this brilliant squadron have passed us by and some have not yet caught us up. It is possible that our sun is one of a cluster of stars moving like this. The variable star Algol may be moving with us; and so may be Beta in the constellation of Perseus, and one star of the Eagle and two of the Swan may be going our way. "Migrating stars," the Savilian professor calls these suns whose movements are now under analysis, and their peregrinations are

more mysterious than those of any birds. Can it be, he asks, that they have some common association of birth—perhaps some vast nebula collected into stars, billions of years ago, as a cloud condenses into drops, and yet retains in them its vast extension and its primeval velocity?—Scientific American.

HIS HIT.

"Every one who attended the banquet last night says I made the hit of my life."
"How did you accomplish that?"
"I didn't go."—Houston Post.

Many a headstrong man is weak-minded.

(Additional Ishpeming on Page Seven.)

RETAILERS MAY SELL BEER TO FAMILIES

DISPUTED QUESTION IS SETTLED BY OPINION FROM THE ATTORNEY GENERAL'S OFFICE.

Since the council granted licenses to retail liquor dealers of the city, the question whether representatives of the breweries have a right to deliver beer ordered through the saloons has been in dispute. The provisions of the Warner-Crampton law are not clear on that point. In order to be on the right side Mayor McCorkindale on Monday wired the attorney general at Lansing as follows:

"I understand wholesale \$50 licensed liquor dealers can only sell to \$300 licensed retail liquor dealers, and cannot deliver cases of beer to private homes. Can \$500 licensed retail liquor dealers sell and deliver cases of beer to private families? Answer will be Charles W. McGill, assistant attorney general, replied as follows: "Fifty-dollar warehouse license authorizes sales from warehouse to retail liquor dealers only. Retail liquor dealers may sell beer by the case to private families."

While Mr. McGill does not answer Mayor McCorkindale's question as to whether the \$300 retail liquor dealer can deliver cases of beer to private families, it is assumed that they can do this as it would hardly be reasonable to give them the privilege to sell beer and not deliver it.

"There is one thing, however, that the agents of the breweries having a \$50 warehouse license cannot do," said the mayor yesterday, "and that is to deliver beer direct from their refrigerators to the consumers. The orders from the families are now being received by saloon men and the deliveries are made from their places, instead of from wholesalers' warehouses. The representatives of the breweries must deliver the beer to the retail dealers, before taking the latter's customers. The beer is not the property of the retailer, until it is in his possession. As I understand the law, brewery agents can deliver beer to a saloon and immediately reload it on to their wagons and take it to the saloon men's customers. I see no reason why the retailer dealer cannot have his deliveries made by the brewery team as well as by any other team that he might engage for that purpose."

DEATH OF WILLIAM PASCOE.

Well Known Ishpeming Man Passed Away Monday Night.

William Pascoe, Sr., who had been a sufferer from cancer of the stomach, and whose demise had been expected, passed away Monday night at 10 o'clock, at the home of his daughter, Mrs. J. H. Roberts, corner of Empire and Fifth streets. The passing of Mr. Pascoe is mourned by a large circle of friends, as he was popular and highly esteemed. The deceased had been a resident of Ishpeming for thirty-one years, but he spent four years prior to last February at Iron Belt, where he held a position with the Cleveland-Chief Iron company at its Iron Belt mine. He was in good health until a short time after he returned, when he began to fail. He had been confined to the house for more than a month, but it was only two weeks ago that he was compelled to take to his bed.

The wife of the deceased died in this city nineteen years ago. He was sixty-seven years of age and is survived by seven sons and five daughters, all residing in Ishpeming. The sons are William, Charles, Arthur and Russell Pascoe, and the daughters are Mesdames Alfred Bone, Emanuel Pope, James Pascoe, William T. Watters and J. H. Roberts. He was a member of the Ishpeming branch of the National Protective Legion. The funeral will be held tomorrow afternoon at 2 o'clock from the First Methodist Episcopal church.

TO ATTEND EXERCISES.

Gerhard Alexis, organist at the Swedish Lutheran church, has been granted a month's leave of absence, and left last night for Rock Island, Ill., to attend the commencement exercises, to be held there next week. Before taking his position here Mr. Alexis was a student at the college and he is to graduate with this year's class, with high honors. From the institution he has continued his studies. Mr. Alexis will remain in Rock Island to attend the 50th anniversary celebration of the Swedish Lutheran church of this country, which is to be held there next month. It is reported that extensive preparations are being made for this event, which will be the largest and most important gathering that the Swedish Lutherans of the United States have ever held. Several thousand visitors are expected to be present. Members of the local congregation plan to attend the meeting.

ARMS BROKEN CRANKING CARS.

With the Franklin air-cooled car, of which E. R. Nelson, of Ishpeming, is superintendent, there is no danger of injury in the cranking operation. The Bosch magneto, with patented control, an invention of the Franklin company, is not only the surest device for firing the car, but makes back-firing impossible. Many people are injured in cranking cars, and this Franklin feature is a valuable one.

On this point the Motor Age says: "The driver who has been face to face with the problem of starting a car on which the open and closed throttle positions are not known will realize the spirit of expectancy with which he takes hold of the starting crank, not knowing whether the spark is too far advanced and if there is going to be a back-kick or not. If he does not take this risk he must open the bonnet and examine the positions, and then in some cases it is a most difficult matter to decide."

Paris has 30,000 liquor selling establishments.

VAUDEVILLE NEXT WEEK.

Company That Made Good in Lower Peninsula to Be at Ishpeming Theater.

"Ita" and company, a vaudeville troupe, will appear at the Ishpeming theater all next week, playing at prices ranging from ten to twenty-five cents. "Ita," who is sixteen years old, is said to be the greatest mind reader now appearing before the public, and she creates a sensation wherever she appears. There are twelve people in the company. Besides the vaudeville features, moving pictures and illustrated songs are also given. The Cheboygan Tribune of recent date gave the company this mention:

"Ita," the sixteen-year-old girl mind reader who is appearing at the Arcade theater, supported by her own company of six acts, is proving the biggest kind of a drawing card. Every night finds the theater crowded to its capacity to listen to this mental wonder. The good reports that preceded 'Ita' were not exaggerated in the least, as her demonstrations have never been equalled by any similar attractions who have appeared at local theaters. Blindfolded so she cannot possibly see, this girl tells things that baffles the most skeptical and inquiring persons; her description of persons, articles, telling time, calling persons in the audience by name, telling occupations, etc., is most mystifying, while her answers to any questions on any subject propounded by those in the audience is marvelous.

"Supporting 'Ita' are several good acts. Noteworthy is 'Farmer' Harrington and his daughter Lucille, known as the 'Musical Harringtons,' the best musical act that has ever appeared in Cheboygan. Keller, the messenger boy, is amusing, and Mme. LaMar's electric dance is very pretty and appealing to those who like fantastic beauty. Several feature films of pictures complete the best attraction ever seen in the Arcade."

NOTICES MANY CHANGES.

Man Who Left Ishpeming Thirty-Eight Years Ago Visits City.

Samuel Santhony, Jr., a member of Al. W. Martin's "Uncle Tom's Cabin" company, which played at the Ishpeming theater Monday afternoon and evening, was a former resident of Ishpeming, and this was his first visit to the city since he left here thirty-eight years ago. Mr. Santhony's father was the first blacksmith at the Cleveland mine. When he came here something like fifty years ago there was but one boarding house at the location, and that was conducted by a man named Cheverette. Several buildings were later erected and Mr. Santhony's family occupied the little cottage that stood immediately east of the old Cleveland store, located northeast of the city Monday.

While in the city Monday, Mr. Santhony looked up several of his boyhood acquaintances, and he regretted that his visit was such a brief one. Although he was a boy when he left here he remembers many of the older citizens. For several years past he has been traveling with theatrical and circus bands. He plays tuba in the band and violin in the orchestra. His father, who was succeeded as head blacksmith of the mine by Michael Ready, now of St. Paul, is still living, and is engaged in the jewelry business at Carlton, Minn.

Cabbage, celery and tomato plants, also seed potatoes, and a great variety of other vegetable seed.

ISHPEMING

ASSESSOR OF VIRGINIA.

John R. Kroglahl, a former Ishpeming man, was recently elected to the office of city assessor at Virginia, Minn., where he conducts a labor bureau and real estate business. The Virginia of last Saturday said of the work he is doing on his city job:

"City Assessor John R. Kroglahl has been studying last year's assessment books during the past few days and expects to begin action the first of next week. As many new homes have been built during the past year and property values have increased a considerable amount the roll will doubtless show when all returns have been made, a decided increase over last year's valuation. Mr. Kroglahl expects to complete the work early in June."

ISHPEMING IN BRIEF.

John Kjesboe is rehabilitating his residence property on Cleveland avenue.

El. J. Butler left last night for Milwaukee to attend the meeting of the theater managers of the Northwest, to be held there today. He will be back tomorrow morning.

Messrs M. M. Lunan and W. H. Johnston, members of the county road commission, and V. S. Hillier, the superintendent, yesterday inspected the

new work on the roads east of Marquette.

Mayer McCorkindale left last night for Milwaukee, to attend the annual meeting of the Wisconsin Gas Men's association, to be held today and tomorrow. He will spend Friday in Chicago and will probably go from there to St. Louis on business.

Clarence Bennett will be seen at the Ishpeming theater tonight in his biblical drama, "The Holy City." Mr. Bennett is said to have an excellent supporting cast and the several scenes of the play are mounted with special scenery. Popular prices, from twenty-five to seventy-five cents, will be charged.

A special meeting of the Ishpeming branch of the National Protective League will be held this afternoon at 2:30 o'clock in the Swedish Home society's hall to make arrangements for attending the funeral of the late James Pascoe, Sr., which will be held tomorrow afternoon at 2 o'clock from the First Methodist Episcopal church.

A special meeting of the Uniform Rank, Knights of Pythias, will be held this evening at the conclusion of the regular meeting of the Zenith lodge. Important business is to be considered and the officers desire a full attendance. The members of the Ishpeming society are preparing to attend the upper peninsula reunion, which will be held next month in Manistique. The lodge will be represented in the team contests.

Many of the business men are wondering how the change in the department of the Northwestern passenger train out of Chicago will affect the mail service

coming north. Under the present schedule all mail reaching the Chicago post-office up to 4 o'clock p. m. leaves on the train coming north, departing from Chicago at 8 o'clock. It is expected that mail reaching the Chicago postoffice after 4 will hereafter come north on the St. Paul train, arriving here at 10 a. m. the next day.

PRESIDENT'S LONELY LIFE.

After all, maybe it isn't so much fun to be the president of the United States. Perhaps there is more quiet, sociable satisfaction in being a non-commissioned officer in the great army of just common folks. There is almost of necessity a condition suggestive of loneliness attaching to every eminent, exclusive, or unusual position in life. Whatever in the nature of wall or fence or social or official barrier serves to shut the crowd out, tends to shut the individual in. One cannot enjoy the honor and distinction of occupying a position above the level of the multitude, and at the same time feel that sense of intimate sociability that comes of touching elbows with one's fellow-beings. The normal, ordinary mortal does not particularly enjoy being too much in the presence of his superiors, especially if he is expected to make the attempt of presuming to meet them on the level.

And so it is that for everyday people to meet and enjoy the society of the highest executive officer of the United States of America requires more tact and less self-consciousness than those who have never tried it would likely imagine. Perhaps the feeling that is apt to possess one making such an attempt might be compared, in a measure, to the sensation one would experience in going for a stroll with a friend who was mounted on stilts. As a matter of fact, the president would no doubt, gladly get down from his official stilts if it were possible for him to do so; but, as he will, he is powerless in the matter. He may seek to make those about him believe that he is no taller than they are, but it counts little what he may say or do; they will persist in looking up to him. Perhaps there has never been an occupant of the White House who has come nearer to meeting the people on a common level than does President Taft. But those with whom he meets cannot forget that he is the first citizen of the great republic.

The president of the nation, whoever he may be, needs and deserves all the honest and disinterested friendships that individuals and the public can give him.—Christian Science Monitor.

Foley Kidney Pills are antiseptic, tonic and restorative and a prompt corrective of all urinary irregularities. Refuse substitutes. Sold by all druggists.

Negaunee Department

NEW RULES FOR FIRE DEPARTMENT

CHIEF TO HAVE POWER TO APPOINT FIRST AND SECOND ASSISTANTS, BUT SECRETARY AND TREASURER WILL BE ELECTED BY BALLOT.

The committee appointed some time ago by the Negaunee fire department, to draw up new by-laws to become effective when the new fire hall is occupied, has about completed its work, and a report will be submitted to the department at its first meeting in the new quarters.

The new by-laws call for first and second assistant chiefs and also a secretary and treasurer. The chief is to have the power to appoint the assistant chiefs, but the secretary and treasurer is to be elected by ballot. Under the old by-laws, there were three secretaries, one for the department and one for each hose company, and each secretary received \$25 per year for his services. Under the new arrangement this \$75 will be divided between the first assistant chief and the secretary, the former receiving \$40, and the latter \$35 per year.

The committee will recommend that the department be composed of forty active members. There are now forty-three active men in the department. At one time there were sixty members, but no vacancies have been filled the past few years, as the officers of the department considered that sixty was a greater number than was actually needed.

The committee will recommend that members be placed on the honorary list, after fifteen years of service. They are now entitled to this distinction after a service of seven years. Men under twenty years of age will not hereafter be accepted as members. The former age limit was eighteen years. In case a member is injured in the service and is unable to perform the duties of a fireman thereafter, he shall be placed on the honorary list, provided a two-thirds vote of the members of the department is cast in his favor.

The regular monthly meetings of the department are to be held on the first Monday of each month.

Arrangements will soon be made for the opening of the new fire hall.

IRON AND STEEL REVIEW.

Tendency of Prices in Pig Iron Is Downward, With Business Light.

It is reported from New York that since May 1 the steel companies have been inclined to lay stress upon the receipts of liberal specifications on old contracts for finished products, but the decrease in the volume of new business is being reflected in reduced output in steel ingots and pig iron. The railroads have placed few orders for equipment. Contracts for rails, including heavy and light sections, have aggregated only 1,000 tons, and bridge contracts only 1,000 tons, and a few hundred-ton lots, the large Western contracts being still held in abeyance. Car orders aggregated 5,000 but locomotive orders were light.

Many additional bids have been submitted for the new steel plant in and about the country, but contracts for only about 18,000 tons have been placed. Contracts are still pending for about 150,000 tons, which, sooner or later, will result in orders. In the next few months supply contracts will be let to contractors, but any direct demand to the mills and fabricating shops is far in the future. Eventually, about 100,000 tons of steel will be required for this work.

The tendency of prices of pig iron has continued downward, and the volume of business has been light. During the last few days there has been an increase in the number of orders for foundry iron in the East, and new inquiries have been encouraging, aggregating about 12,000 tons for shipment over the second half of the year.

SAW WESTON WALK.

Miss Rae Orr, daughter of Archie Orr of this city, who recently returned from a visit to relatives at LaPorte, Ind., saw Edward Weston when he was walking into that city. Miss Orr was visiting relatives on a farm about four miles west of LaPorte and the people for miles around congregated along the roadside to greet the veteran pedestrian. He entered the city at an early hour in the morning, but in spite of this fact thousands were out to see him. As Weston passed the crowds cheered him, and he kept bowing and raising his hat as he passed along. Miss Orr's father saw Weston in LaPorte when he made the same walk nearly forty years ago.

RAILS FOR IRON STEEL HERE.

The Marquette County, Gas & Electric company Monday received the new rails for iron street. The rails were distributed yesterday, and the work of laying them will be started at once with a good-sized force. The rails are seventy pound steel, with a broad flange. The rail to be removed from Iron street runs forty yards to the yard, and the rails on the line between the two ties is thirty-five pounds. New crossings were put in last fall, so that this part of the track will not have to be disturbed.

HIGH BOX BALL SCORE.

Phil Levine, of Levine Bros., made a score on George DeTraine's box ball alleys yesterday afternoon that will probably be the record for some time to come. His score was 388. He had six strikes out of the ten frames. His first two strikes were made with the first ball he rolled and his third strike was with the fourth ball. A score of 300 is excellent in the box ball game. The Negaunee men who have made scores of 300 and over since the alleys went into commission, a little over a week ago, are Fred Ollila, 300; William Neely, 303; George DeTraine, 307; H. J. Peterson, 313; William H. Mitchell, 315; William Koski, 320; and Ernest Klein, 336.

Foley Kidney Pills contain in concentrated form ingredients of established therapeutic value for the relief and cure of all kidney and bladder ailments. Sold by all druggists.

HOW ABOUT UMPIRES? Men Capable of Officiating Say They Will Not Work for \$3 a Game.

It would seem that the managements of the teams to participate in the Marquette County-Crystal Falls league made a mistake when they decided to pay umpires only \$3 per game and their expenses. The men who are regarded as the most capable umpires have "struck". They refuse to act as arbiters for \$3 a game, saying that \$3 is little enough for the work.

Manager Thoren, of the Negaunee team, yesterday said that he favors paying the umpires \$5. He also says it would be agreeable to him to have one good man umpire each game, instead of two. The question about the umpires will have to be settled before Saturday. It was recently decided to appoint a man from each city as a member of an arbitration committee, but these appointments have not yet been made. Manager Stocking, of the Ishpeming team, is out of the city this week, but it is likely that Mr. Thoren, who was president of last year's league, will call a meeting for tomorrow or Friday.

LOCAL LACONICS.

G. L. Woodworth, a well-known mining man of the Menominee range, was in the city yesterday.

The Mitchell estate yesterday tore down the shed at the rear of its lot on the corner of Iron street and Pioneer avenue.

John Allen, one of the engineers at the water works station, saw Halley's comet at an early hour Monday morning.

C. B. Ulrich, who promoted the Pioneer Motor company, operating cars between Marquette and Ishpeming, was in the city yesterday.

The liquor dealers display in their windows printed cards announcing that no person under twenty-one years of age will be allowed in their places.

Several representatives of vault concerns were in the city yesterday figuring on the contract for the vaults for the Negaunee National bank's new block, to be erected on East Iron street. There is considerable competition in this line.

"Reddy" McKey, the catcher for the Negaunee league baseball team, is expected to arrive here tomorrow from Battle Creek. The management has had an opportunity to secure another good catcher, but it is thought that he will not be needed as McKey and Lafave will likely be able to do the work.

Albert Sundine, who was in the employ of Winter & Sness for a number of years, prior to a year ago, and whose mind has become slightly unbalanced, attempted suicide yesterday morning by cutting his throat with a pen knife. The wound was not serious and he will recover. It is possible that Sundine will be sent away for treatment.

Anton Henriksen, the concrete walk contractor, is able to be out again, after being confined to his home for two weeks with erysipelas. His crew remained idle during his sick spell, but resumed work yesterday at the home of E. W. Adams, where a new walk is being put in. Mr. Henriksen's son, who arrived in the city recently from Chicago, is assisting him with the work.

KILLED BY THE CARS.

E. R. Nelson, upper peninsula agent for the Franking car-cool, says it is impossible to get a back-fire in the cylinders with his machines. The Franking car has a special arrangement whereby the magneto is controlled by a governor, making back-firing absolutely impossible. In view of the fact that many people are injured in cranking automobiles, the safety of the Franking is a strong point.

THE HAND IN ACTING.

George Arliss on Its Important Aid to His Art.

There is no end to the possibilities of the expression of emotion with the hand, says George Arliss in the Strand Magazine. Whether in motion or limp, the hand tells its story. It is difficult, to express any great emotion without the assistance of the hands. If the brain or the heart is active so are the hands. The flexibility of the hand shows the degree of flexibility of the mind and nature, and the readiness with which the mind has power to unfold itself, and "see around the corner" of things.

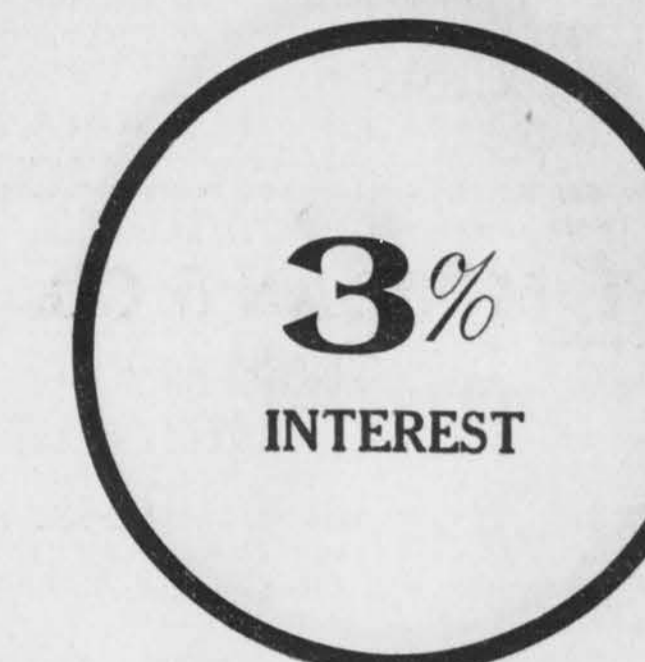

The hand and the eye work together. The moment the eye catches sight of anything the hand is ready to reach out for it—this is especially noticeable in the case of pickpockets and shoplifters.

The person who cannot look you in the eye usually fingers with his mouth. The mouth is the most tell-tale feature of the human anatomy, and the person who is weak and distrustful cannot keep his hands away from it. You see the hands, the agents of the brain, "put their fingers into it." I played such a part with Mrs. Fiske in "Leah Kleeschna" a few years ago. Raoul Barton was one of those fellows who couldn't look you in the eye and was always fingering with his mouth. Usually it is done with the aid of a cigarette.

Self-consciousness attacks the hands so savagely sometimes that they actually appear to grow larger in their misery, to swell and turn red and perspire. As a matter of fact, this growing larger is quite possible. When the mind concentrates itself on one part of the body it brings the blood to that part, and naturally the veins to swell and the hands seem to enlarge. The restlessness of hands are usually the helpless ones—useless little hands that are incapable of doing or making. People who use their hands a great deal, whether mechanically or intellectually, by manufacturing, writing or playing, are quite unconscious of them and are more than willing to let them fall loosely in relaxation, as if glad when not working to be at rest.

A good rule to remember is never to put the hands to the face, unless absolutely necessary—unless the type of character demands it. As a hint to the women of the profession it is not only a betrayal of self-consciousness, but induces wrinkles.

Morgan & Co.'s Letter.

The New York market presented a much more cheerful aspect today, opening higher and, though rather quiet, holding firm with slight advances in most instances. The European buying continues good, and action is being taken in Paris to broaden facilities for the handling of American securities there. In New York sentiment is decidedly bullish, especially on the metal stocks. Our correspondent advises buying Amalgamated. The news affecting the Boston market today was of a considerable nature and the stocks responded all through the day with more or less importance. The Lake stocks were the favorites, Lake, Indiana, North Lake and Hancock all advancing from one to five points on the heaviest trading for some weeks. North Butte was also active and sold up to 2 1/2. The other Lake-Region stocks were also stronger and in better demand. Confidence in the coppers was strengthened by the rise of \$1.25 for the day in London metal, and of large sales of electrolytic copper at thirteen cents by the United States Selling company. This is one-half cent above recent prices on small lots and is an indication that little copper is presently for sale. There was a better demand for stocks than for some weeks past, and being scarce, they were easily advanced under such conditions. The curb stocks also participated in the activity of the larger markets and all were stronger. Goldmine sold up to 10 1/2, Shattuck to 25, South Lake to 10, Onawa to 2 1/2, Cactus to 2 1/2, and several others made fractional gains. On the whole, the market was quite bullish and looks brighter. We would buy Shattuck, San Antonio, Cactus, Chief and Ray Central. The new Lake stocks look like good speculation.

George F. Ruez's Review.

Amalgamated was easily the feature in New York today, advancing from 47 1/2 to 75 1/2, with but a fractional decline on some profit-taking. The South range properties, Lake, North Lake, Indiana, Bolema and South Lake were noticeably strong on the rumor of important developments at Indiana. Nothing definite has as yet been given out. Lake advanced to 50 1/2, Indiana to 25 1/2, North Lake to 15, Bolema to 10 1/2 and South Lake to 7. The strength in the other coppers was due to the improvement in the metal market. It is reported that the independent companies sold large blocks of electro copper at 12 1/2, clearing up the market. This was easily advanced by sales of fairly large blocks by the United Metals company at thirteen cents, an advance of one-half cent. It is said that the General Electric company alone bought 15,000,000 pounds of copper today. On the curb, Shattuck opened at 25 1/2, advanced to 25, then broke to 27, but closed strong around 28 1/2 on the dividend announcement. As predicted, the first quarterly dividend of \$1 was declared today, payable July 20 to holders of record of June 30. This puts Shattuck on the same dividend basis as Summit & Arizona, which is selling around 61, while the amount declared is reported that being paid by North Butte, which is selling in the market around 23. It seems ridiculous that Shattuck should be selling around the present figure if the information which has been given out is correct. The fact that Shattuck does not enjoy a very broad market may account for the low price of the stock. Many people who have watched the property for years were skeptical about the dividend which it was reported some time ago could be expected.

Can You Afford Clothing Poorer Than Your Money Will Buy?

When You spend \$15, \$20 or \$25 for a new suit, can you afford to get anything but the best suit that money will buy? Would you invest money in any other property besides clothing without being SURE you were getting your full money's worth?

There is a part of your coat you never see. There are materials inside your coat which you never see. And on the quality of these materials and the character of the workmanship put into the unseen parts of your clothing, depends in very large measure its actual worth, its permanent shape and its good wearing ability.

Our business keeps steadily growing, and the same men come back year after year for new clothes. Why? Because there has been no skimping of material or of workmanship in the unseen parts of Gately Clothing. There is a distinction about our clothing which you realize as soon as you put a Gately coat on; and this is one of the qualities you ought to get where you spend your money for that new spring suit. Come, see how we demonstrate that.

PRICES:

Spring Suits, street and semi-dress wear, **\$13.50 to \$27.50**

Spring Top Coats.....**\$15.00, \$17.50, \$20.00**
