

SENATE REACHES AN AGREEMENT

Much Discussed Long and Short Haul Provision of the Administration's Railroad Measure Is Finally Definitely Disposed Of

By a Sudden Welding of Supposedly Irreconcilable Factions, and With Each Side Believing It Is Getting the Better of a Shrewdly Driven Bargain, a Compromise Amendment Is Adopted, 56 to 10, After a Period of Great Confusion.

Washington, May 13.—By a sudden welding late today of supposedly irreconcilable factions, the senate, by the vote of fifty-six to ten, adopted a compromise amendment to the railroad bill, for the regulation of the relative charges for long and short hauls.

Of the fifty-six votes in favor of the amendment, twenty-two were given by Republican senators who have opposed the insertion of any long and short haul provision, thirteen by Democrats and the remainder by Republicans, chiefly "insurgents." The negative vote was equally divided between Republicans and Democrats.

The agreement was reached chiefly for the reason that each faction apparently thought it was getting the better of a shrewdly driven bargain. Many senators tonight suggest that the supreme court may have to arbitrate the question as to which faction's judgment is right.

While a dozen amendments were submitted, the pending one was Mr. Heyburn's, for which Senator Dixon had presented a substitute. The regular Republicans had been boasting for days that they had a clear majority to defeat all amendments, believing that the majority of the senate could defeat the Dixon amendment, which was supported by the insurgents, some regulars from the intermountain sections and the majority of the Democrats.

Old Guard Plans Go Awry. Just before the time to vote today, Senators Elkins and Aldrich learned that the Democrats on their list, while voting against the Dixon amendment, proposed later to support one by Mr. Overman, the effect of which would be to place all rates on a mileage basis. Such a provision was particularly obnoxious to the opponents of the long and short haul provision, and they were unable in a hasty poll to show a majority against the Overman amendment.

Senators Carter and Smoot, both ardent supporters of the long and short haul provision, which would prevent discrimination against the intermountain section, received assurances from the regular Republicans who offered the promise in the form of a portion of the original Dixon amendment and a proviso taken from the amendment offered by Mr. Payne.

Picturing the political effect of a humiliating defeat through the adoption of an exclusively Democratic amendment, the "regular" Republicans encountered little difficulty in bringing a large majority of the senate to their way of thinking. The compromise which was finally adopted was put in the hands of Senator Smoot and in turn was presented to Mr. Dixon, who offered it as a modification of his own amendment, just prior to 4 o'clock, the hour for the vote.

Clumsy Handling Causes Confusion. Through clumsy handling the compromise was sent to the clerk's desk in a form far different from that intended by its authors. As the clerk began to read it, Senator Aldrich hurried to the desk and whispered to Mr. Dixon. Mr. Dixon clamored for recognition. He shouted for a recess until 4:30, apparently much excited. The demand was met with cries of "No, no." But on a vote a large majority sustained the demand.

There followed a scene of great confusion. Some declare that it was unprecedented in recent years. On every side were cries that the unanimous consent agreement had been violated. Evidently the insurgents did not know what was happening, and Mr. Bristow, who had been in the chamber with a bundle of papers, which he threw on the floor with indication of anger.

Senator Cummins hastened to Mr. Dixon's seat, and Mr. LaFollette followed. The conversation between Dixon and Aldrich had aroused suspicion and a number of senators loudly charged that they were being betrayed. Senator Dixon ran from seat to seat, claiming that they had "brought the regulars into camp," and that the coalition of the Republican and Democratic supporters of the long and short haul clause would bring a victory greater than they had.

Personal Explanations Quiet Things. After a few moments of personal explanation, there was a cooling off, and a number of the leaders, representing all the factions, went to work to shape the compromise. Among the seat of Mr. Fletcher where Senators Dixon, Aldrich, Elkins, Bacon, Crawford, Bristow, Raker, Gore and others, all of whom took part in a rapid interchange of comment. Other senators hung about the outskirts of the group. All elements were represented in the shifting group.

At 4:30 o'clock Mr. Dixon demanded another recess, which he obtained only after a rollcall. When the senate reconvened, the compromise amendment was adopted. After the vote was taken several senators asserted that the opponents of the long and short haul amendment had been compelled to accept a provision which they had denounced

as revolutionary. Senator Bacon openly hunted Aldrich with being willing to accept amendments to preserve his prestige and prevent the appearance of defeat. Senator Heyburn, who had fought the amendment at every stage, asserted that it had been "a great day for the railroads."

Text of the New Provision. The new provision, as amended, says that a carrier cannot charge more for a shorter haul than for a longer haul, but does not forbid the road from charging the same amount. The provision provides that the interstate commission may authorize lower rates for a longer than for a shorter haul if it finds that water rail competition enters into the question and finds that no discrimination exists.

Those voting against the bill were Senators Bailey, Bourne, Bulkeley, Chamberlain, Fletcher, Frye, Gallinger, Heyburn, McNary and Overman.

NEGOTIATING WITH CUBA. Washington Government Asks Permission to Raise Wreck of the Maine. Washington, May 13.—The state department has begun negotiations with the government of Cuba to secure permission to raise the wreck of the battleship Maine.

ISSUES ORDER PROTECTING SEALS. Washington, May 13.—Secretary Nagel issued an order today, forbidding the killing of female Alaskan seals and also protecting the males under a certain weight, this is to supply the required number for breeding.

UNCLE JOE'S TOM CAT IS CAUSING TROUBLE. It Gets Into the Department of Justice and Devours Rubber Bands and a Pencil Eraser—Attorney General Wickensham May Ask an Injunction. Washington, May 13.—The department of justice is confronted with a case of respect and degradation. It is that of a big Tom cat which the messengers say belongs to the household of Speaker Cannon, who lives in the house adjoining. The animal's great weakness is that of devouring rubber bands, one of the clerks declaring that the animal ate twenty-three in one day and on the same occasion devoured a pencil eraser. The suggestion has been made that the attorney general secure an injunction against the speaker's butler, enjoining him from permitting the cat from visiting the department of justice.

ONE PROVISION STRICKEN OUT. Mr. Burrows Reports to the Senate the Campaign Publicity Bill. Washington, May 13.—Senator Burrows today reported to the senate the house bill providing for the publicity of campaign contributions. The bill has been amended by striking out the provision requiring a publication in advance of the elections. Concerning that provision, the report says: "It would be the signal for a general assault upon every person making such contributions, with a view to prejudicing the electors."

BALLINGER ACTED ON HIS RECOMMENDATION. H. H. Schwartz, Chief of the Field Service of the Land Office, Assumes the Full Responsibility for the "Clear Listing" of the Cunningham Coal Claims. Washington, May 13.—The responsibility for the "clear listing" of the Cunningham claims and the conduct of those cases before the general land office was assumed by H. H. Schwartz, Ballinger's Pinchot committee today. Schwartz laid the blame for the delay in reaching a conclusion on the Alaskan cases at the door of L. R. Glavis, to whom he said he had given all possible latitude in investigating them. He said that Ballinger had never taken any initial action in these cases, and that when he had "clear listed" them as commissioner of the land office he had done so on his (Schwartz's) recommendation on the basis of the report of Special Agent Love.

Secretary Ballinger was excused from the stand for the time. Schwartz traced the history of the Cunningham claims, and his testimony corroborated that of Ballinger. Speaking of his clash with the late secretary, he said that there would always be trouble between the land office and the forestry bureau as long as they are in different departments.

Schwartz said that Glavis wanted a special agent to help him. He was undecided whether to send Sheridan or Knapp, but finally sent Sheridan, because "Knapp was from New York and some of the magazines, like Collier's, might charge that he was connected with the Guggenheims."

CLAIM TARIFF ISN'T NEEDED. Publisher and Paperman See Mr. Taft About Wood Pulp. Washington, May 13.—President Taft had an extended conference this afternoon with John L. Norris, representing the Newspaper Publishers' association, and A. N. Burbank, president of the International Paper company. They presented figures and arguments intended to show that there is no need of a tariff on wood pulp in this country.

Chicago, May 13.—At the annual national convention of the paper jobbers here today, it was announced that the print paper prices will remain unchanged during the ensuing year.

DIRECT VOTE BILL SIGNED. Boston, May 13.—The voters of Massachusetts may nominate direct in each district their candidates for state senators and representatives, Governor Dorr having signed today the Walker bill. There are no provisions for other candidates.

MR. LINK IS MUM BEFORE GRAND JURY

Illinois Legislator Involved in the Lorimer Alleged Bribery Affair Refuses to Testify at the Sangamon County Investigation.

He Is Ordered to Show Cause Why He Should Not Be Jailed for Contempt, and Then He Is Served With a Subpoena to Appear at the Chicago Inquiry—This Interpreted as the Opening Clash Between the Rival State's Attorneys.

Springfield, Ill., May 13.—Talk or go to jail for contempt of court. That is the situation in which Representative Michael Link, of Mitchell, was placed this afternoon for his repeated refusals to testify before the Sangamon county grand jury in the legislative bribery investigation. He was arrested and furnished bonds for \$500 for his appearance in the Sangamon circuit court Monday to show cause why he should not be jailed for contempt.

Though Sheriff Werner went to Mitchell to bring the legislator to Springfield, Link came voluntarily. On the same car with him were Sheriff Werner and Detective O'Keefe of Chicago, said to be an attaché of the office of the state's attorney of Cook county. When Link was taken before the grand jury, he refused to talk. Then State Attorney Burke hustled him before Judge Shirley, in the circuit court, and secured an order of immunity for Link. When before the jury again, Link again was mum. Once more he was taken to the circuit court. Mr. Burke wanted Link jailed for contempt of court, but the court ordered Link's appearance Monday. Immediately afterward, Detective O'Keefe served him with a subpoena to appear before the Cook county jury tomorrow.

Today's developments are interpreted by many to mean the opening clash between the state's attorneys of Cook and Sangamon counties. Mr. Burke believes that Sangamon county has jurisdiction. The only witness before the jury today was Representative George B. Welborn, of Woodlawn, a Republican, who voted for Hopkins. He said that rumors of bribery were in the air during the senatorial fight. He told of a meeting he had with Lorimer at the election of Speaker's room at the state house, in which he told Lorimer that he could not vote for him.

The attorneys for Minority Leader Browne and Representative Wilson were here today, watching the proceedings. Representative Thomas Campbell, of Rock Island, and Representative Charles Durfee, of Golconda, were here today, but did not testify.

Wayman Will Push the Prosecution. Chicago, May 13.—State's Attorney Wayman's announcement today that he would put the case of Lee O'Neill Browne, the Democratic state representative, accused of bribery in the election of Senator Lorimer, on Judge McCurdy's call for Monday is taken to indicate the prosecutor's desire to try the case with all possible speed. It is practically certain that a postponement, in order to prepare its case.

Browne, the minority leader of the lower house, is, according to three alleged confessions to Mr. Wayman, alleged to have distributed in \$10,000 the money that is charged with being used in securing Democratic votes for Lorimer. It is not unlikely that Mr. Wayman will leave the matter of the alleged legislative "jack pot," distributed in St. Louis from the proceeds of odd bits of legislation to State's Attorney Burke, of Sangamon county. The Chicago grand jury heard no witnesses today and will adjourn sine die when it resumes Tuesday.

Judgment Day at Pittsburg. Pittsburg, May 13.—Tomorrow will be judgment today for the victims of the recent bribery dragnet. Ten men, including leaders in financial, business and professional life, will be sentenced. Except one, all have entered pleas of no defense.

STAMP TAX IS SUSTAINED. Missouri Courts Uphold Law Relative to Grain and Stock Dealings. Jefferson City, Mo., May 13.—The supreme court en banc today sustained the constitutionality of the law requiring a stamp tax of twenty-five cents on each deal in future grain and stocks. Nearly \$200,000 of taxes were tied up, awaiting today's decision.

OLEO MAKER GOES TO PRISON. Milwaukee, May 13.—Edward Klimis, charged with coloring oleomargarine and selling it as butter, was sentenced to one year at Fort Leavenworth by Judge Quarles in the federal court this afternoon.

CREATES COLLEGE OF FORESTRY. Minneapolis, May 13.—A college of forestry was added to the University of Minnesota by the board of regents today. Professor S. B. Green was made dean.

PROF. GARRIOTT DIES SUDDENLY. Washington, May 13.—Edward B. Garrriott, chief forecaster of the weather bureau, died suddenly tonight, at the age of fifty-seven.

THE WEATHER

Washington, May 13.—The following is the weather bureau's forecast for Upper Michigan: Fair and slightly warmer, Saturday and Sunday; moderate east to southeast winds.

DR. HYDE'S FATE NOW IN THE HANDS OF THE JURY. Case of the Alleged Murderer of Colonel Swope Passes Into the Hands of the Twelve Men Who Will Decide It—Are Locked Up for the Night. Kansas City, Mo., May 13.—The case of Dr. B. C. Hyde, accused of murdering Colonel Thomas H. Swope, went to the jury at 9:55 o'clock tonight. James A. Reid closed the final argument for the state this evening. Earlier in the day Prosecutor Conklin, in a strong speech, implored the jury to indict the death knell. Hyde only smiled and, turning to his wife, said: "I'll eat dinner at home with you on Sunday, Frances." Mrs. Hyde sobbed during Mr. Conklin's castigation of her husband. John H. Lucas closed for the defense.

Mr. Reid in his speech argued that Hyde began to collect testimony last December to use in his trial, although at that time no charge had been filed against him. There was a tremendous jury in the court room.

After the jury had deliberated for one hour and forty minutes, without reaching a verdict, the jurymen were sent to their hotel for the night. They will resume the balloting at 9 o'clock tomorrow morning.

Wife-Slayer Convicted of Manslaughter. Cincinnati, May 13.—"Guilty of manslaughter" was the verdict of the jury tonight in the case of Jesse Vansandt, charged with having murdered his wife, whose body was found in the home and gagged and literally roasted over a lighted gas stove. The verdict carries a prison sentence and was a compromise.

Ohio Girl Is Charged With Murder. Canton, O., May 13.—Katie Manz, sixteen years old, was indicted here today on the charge of murder in the first degree. She is accused of causing the death of her sister Elizabeth, aged nineteen at her home in Massillon.

Chicago Man Exonerated. Chicago, May 13.—Henry Baumann, charged by the police with beating to death his wife, Mrs. Elizabeth Schoenwolf, forty-four years old, was exonerated by the coroner's jury today.

PRIZE FIGHTERS MATCHED. Kaufman and Langford Sign for a Twenty-Round Battle. Philadelphia, May 13.—Al Kaufman and Sam Langford will meet in a twenty-round bout June 11 at San Francisco. The articles were signed here today.

New York, May 13.—Matty Baldwin, Boston, was disqualified for fouling tonight in the eighth round of a ten-round bout with Leach Cross, of Brooklyn. Baldwin had the better of the fight.

Johnson Forsakes Auto for a Horse. San Francisco, May 13.—Jack Johnson has given up his automobile for a while and now spend his leisure time driving behind a pacer, loaned him by friends.

Evangelistic Crusade Taking Form. New York, May 13.—The proposed evangelistic crusade to offset the influence of the Jeffries-Johnson fight is taking form. Two New York preachers will go to San Francisco and hold revival meetings as counter attractions to a tent evangelist, may aid.

RICH TURF CLASSIC IS RUN. Fashion Plate Wins the Metropolitan Handicap in Record Time. New York, May 13.—Ten thousand persons saw Fashion Plate, a four-year-old chestnut colt, enter by the Oneck stable, win the Metropolitan handicap at Belmont Park today in the fastest time ever made in the history of this classic turf event. The colt, quoted at odds of 8 to 1, covered the mile in 1:37 4-5. Prince Imperial, entered by the Woodhaven stable and quoted at 10 to 1 for the place, was second, a length behind. Jack Atkin, winner of the 1908 Metropolitan, finished third; he was quoted at odds of 8 to 5 to show. This was the opening meet and one of the largest throngs of society people ever assembled at a horse track attended.

The Metropolitan brought together nine thoroughbreds, James R. Keene's Masket, S. C. Hilliard's King James and Resting Belmont's August Belmont's Priscillian and B. Schreiba's Jack Atkin were all heavily backed and each was looked upon as the probable winner. The others—Stanley Fay, High Private, Prince Imperial and Fashion Plate—were not lacking a following. Resting Belmont's nearly three-quarters of the race, set a heart-breaking pace, with Jack Atkin and Prince Imperial close up. At the turn into the stretch Fashion Plate, ridden by McGee, forged ahead.

ROOSEVELT NAILS ANOTHER CANARD

He Has Written No Letters Regarding the Taft Administration or the Gubernatorial Situation in the Empire State.

He Is Investigating the Subject of Public Dependents While Abroad, and in That Connection He Visits the Poor Farm Maintained by the City of Berlin—He Dines at the French Embassy and Afterward Receives 350 Fellow Americans.

Berlin, May 13.—Theodore Roosevelt today authorized an unqualified denial of the recently republished report that he had written letters expressing his attitude towards the Taft administration for governor of New York.

Mr. Roosevelt and Burgomaster Kirchner motored this morning to Bush, a suburb, where fifteen hundred worn workers are maintained at the expense of the city of Berlin. The subject of public dependents is being pursued by Mr. Roosevelt, who while in Denmark investigated a similar institution.

Mr. Roosevelt wound up a day devoted almost exclusively to social activities when, tonight, in the American embassy, he received 350 fellow Americans. Earlier in the evening Mr. Roosevelt and his family dined at the French embassy. Aside from the visit to the poor farm maintained by the city of Berlin, a luncheon at the American embassy and later a reception given by German navy and army officers were diversions of the day.

At the reception, one of the officers, acting on behalf of the emperor, presented Mr. Roosevelt with several photographs showing the American ex-president and Emperor William together at the Doberitz maneuvers. The photographs bore the autograph of the emperor.

Two honors were conferred upon Mr. Roosevelt today by his election to memberships in the German group of the Interparliamentary Peace union and the German Shako Peace society.

EXTREME PENALTY IS HIS. Student Who Killed Egypt's Premier Is Condemned to Death. Cairo, Egypt, May 13.—Wardania, the student who shot and fatally wounded Boutros Pacha Ghali, Egyptian premier, was condemned to death today. The assassin said that his motive was a desire to avenge various acts of the government which the Nationalists attributed personally to the premier. During his recent visit to Egypt Theodore Roosevelt created a sensation by condemning the assassination. Apprehension was felt of some untoward incident on the part of the resentful Nationalists, but no insult was offered to the American.

TREATHENED BY CHINESE. Ten American Missionaries, in Peril, Are Forced to Flee. Cleveland, May 13.—A cablegram received here by the secretary of the board of missions of the evangelical association says that ten American missionaries have been forced to retire from Shenshow, Husman, China, and take refuge at Kiang, 500 miles away, near Hankow. Among the missionaries concerned are the Misses Schemp and Roloff, new workers in the field; Dr. F. C. Krumling and wife, of Blissfield, Mich.; A. H. Balzbach and wife, of Bainbridge, Mich.; C. E. Ranck and wife, of Naperville, Ill.; and E. C. Koller and wife, who came from Wisconsin.

MEETS A TRAGIC FATE. Young French Aviator Is Killed at the Aerial Races at Lyons. Lyons, France, May 13.—Chauvetté Michelin, a young Frenchman, met a tragic death here today while competing in the races at the aviation meeting. Shortly after leaving the ground in a monoplane, Michelin lost control of the machine, which bumped into a telephone booth and then knocked over a derrick which, in falling, struck the aviator, fracturing his skull. Michelin was aged only twenty-three.

SHOCK LASTS OVER AN HOUR. Seismograph at Cleveland (O.) College Records a Heavy Earthquake. Cleveland, O., May 13.—The seismograph at St. Catharine's college recorded a heavy earthquake shock shortly after 2 o'clock this morning. The tremors lasted one hour and seventeen minutes. The record indicated a more serious shock than at Costa Rica last week.

San Jose, Costa Rica, May 13.—The earth tremors continue today. In the month since April 13, four hundred distinct shocks have been recorded.

STEAMER MINNEHAHA RELEASED. Falmouth, Eng., May 13.—The steamer Minnehaha arrived here this evening from her own steamer. Three weeks ago the Minnehaha grounded on reefs in the Scilly islands and hung there until Wednesday.

THREE CHICAGO DOCTORS PLACED UNDER ARREST

According to the Federal Officials They Have Been Operating a "Diploma Mill"—Have Sold Certificates to "Physicians" at Forty Dollars Each, It Is Said.

Chicago, May 13.—Charged with operating a medical "diploma mill," Doctors Alexander Chittick, N. O. Borjoe and J. Nelson Barnes were arrested by the federal authorities today. According to United States Commissioner Mark A. Fort, the physicians sold diplomas for \$40, operating under the names "Crescent Medical University" and "Chicago Medical University." The specific charge is using the mails to defraud.

THIEVES STEAL A CORNERSTONE. Robbery at Chicago Nets Only a Box Containing Papers, Cards, Etc. Chicago, May 13.—The cornerstone was discovered missing from the Lutheran Theological seminary, in course of construction here, today. The thieves presumably were in search of coins or of valuables, but they secured only a tin box containing newspapers, cards, etc.

HARRY L. MORRIS CONVICTED. Cleveland Young Society Man Found Guilty of Attempted Blackmail. Cleveland, O., May 13.—Harry L. Morris, a young society man, arrested April 2 on the charge of attempted blackmail, tonight was found guilty and sentenced to two years in prison. He was given a stay pending an appeal. Mrs. D. O. Caswell, the prosecuting witness, had received messages threatening herself and children unless she gave up \$2,000. Morris was caught by a decoy.

CONSIDERS DANCE OBJECTIONABLE. Chief of Police Stewart of Chicago Closes the Court Theater. Chicago, May 13.—Chief of Police Stewart today ordered the Court theater, a standard playhouse devoted to musical comedy, closed until a dance which he considers objectionable is eliminated. The chief said that his previous order was disregarded, and thus he took drastic action. A. H. Woods, manager of the production, has asked an injunction of the circuit court to restrain the chief. The court will consider the demand tomorrow.

FINDS INDICTMENT FAULTY. Chicago Jurist Frees Coal Dealer Accused of Defrauding City. Chicago, May 13.—Judge Baldwin today ordered the jury in the case of James P. Conners, charged with defrauding the city on coal contracts, to return a verdict of not guilty. The court declared the indictment faulty.

Merriam Investigator "Slugged." Chicago, May 13.—Theodore D. Smith, confidential stenographer for the Merriam municipal investigating commission, was slugged in the corridor of the county building here today, in an effort to obtain from him certain reports and notes of the investigators. Smith fought off the man who attacked him, and lost none of the reports. Chief of Police Stewart has ordered an investigation.

PUEBLO INDIANS UP IN ARMS. Troops Are Hurried from Santa Fe to Check a Possible Massacre. East Las Vegas, N. M., May 13.—An uprising of serious proportions has broken out among the Taos Pueblo Indians at their village seventy miles northwest of here and tonight troops are being hurried from Santa Fe to check a possible massacre of white ranchers. The Indians have cut all the wires, but the reports indicate that the depredations have been confined to an attack on the wife and children of a homesteader and to the cutting of fences and the theft of horses and cattle. The troops will be on the scene tomorrow. The uprising is believed due to the punishment of a Pueblo by the territorial authorities.

AGITATORS ARE DRIVEN AWAY. With State Troops Helping, Work Is Resumed at an Illinois Quarry. Danville, Ill., May 13.—Thirty Italian agitators who refused to work and had been discharged by the Casparis Stone company were driven from the quarry at Fairmont today by Sheriff Helmich with two companies of militia. About four hundred men, including a wife and children of a homesteader, were on the scene. No further trouble is expected. Last night a dynamite bomb was exploded in the Italian quarry to intimidate the workmen. The troops were sent home tonight.

WILL RETAIN HIS ZINC MINES. Clark to Sell Copper Properties to the Amalgamated, It Is Said. New York, May 13.—The indications are that the long continued war between the Amalgamated Copper company and former Senator W. A. Clark of Montana will come to an end within a few days by the transfer to the Amalgamated of the Clark copper properties in the Butte territory. Mr. Clark will retain his zinc mines.

OVERHEATED STOVE FIRES HOUSE. Five Members of a Minnesota Family Are Burned to Death. Faribault, Minn., May 13.—Bert Sperry and his three children and their grandmother were burned to death in a fire which destroyed their home in this city today. Mrs. Sperry and two children were saved. An over-heated stove set fire to the building while the family were asleep.

KIDNAPPER IS FOUND GUILTY. Holtos Kas, May 13.—Freeman H. Tilton was found guilty tonight of kidnaping Marian Blakely, the "nurse-for-baby," from her home in Topeka last August. The penalty is from six months in jail to five years in the penitentiary. He will be sentenced tomorrow.

SAY THEY TRIED TO EVADE PAYING DUTY

U. S. Customs Officials at the Port of New York Take Into Custody Frank W. Rollins and His Wife and His Son.

Man They Accuse Is New Hampshire's Former Governor and Now a Banker at Boston—He and His Family Failed to Declare Valuable Goods Brought from Abroad, the Officers Alleged, and They Arrest Them for "Conspiracy to Smuggle."

New York, May 13.—Frank W. Rollins, former governor of New Hampshire and now a banker with Boston offices, and his wife and his son Douglas were charged today "with conspiracy to smuggle into the United States wearing apparel and jewelry and souvenirs without paying or accounting for the duties legally due thereon." Mr. Rollins and his son were arraigned and released on \$20,000 bail. Mr. Rollins is prostrated.

The Rollins were first-class passengers on the Lusitania from Liverpool, landing today. They brought nine trunks. Mr. Rollins declared only a woman's fur jacket, valued at \$800, and was told to talk with his family to see if he had failed to declare anything else. He did, and then said that his wife had failed to declare a cheap necklace and minor sundries. He said the declaration was complete.

All the trunks were opened and later the trio were personally searched. The customs officers afterward swore that on the person of the former governor were found several articles of jewelry, on Mrs. Rollins a pearl-mounted watch and stud and on the son more jewelry. It is charged that none of this jewelry was declared, but the estimated value is not given. The arrests followed. The hearing will be held next Friday.

Fox Hall Keene, the millionaire sportsman, who also was a passenger today on the Lusitania, was notified that he had failed to declare wearing apparel from England said to be worth \$300. Mr. Keene said the omission was an oversight and that he would be glad to pay the 90 per cent duty. His explanation was accepted.

STOCK MARKET NEGLECTED. Trading Is Very Dull and the Net Price Changes Mostly Trivial. New York, May 13.—Idleness and neglect eclipsed all signs of interest in the stock market today. Some found no better explanation for the abstention from the market than the fact that it was Friday. Little of the imminence of a two-days holiday interval at London furnished a more rational explanation. The influence of the London situation on the speculative sentiment is increased by the evidence of hardening money at that center.

Wide movements in a few individual stocks supplied the only features of interest in the market. Only rumors could be pointed to as an explanation. A sharp rise in Canadian Pacific was coupled with reports that a disbursement of profits out of land sales was intended. Walshaw was affected again by revived reports that control was passing to the Rock Island interests. Texas & Pacific land trust certificates were run up on a few transactions for no other reason than a report that they were being bought by the trustees.

The halt in the speculation was due partly to the inconclusiveness of the crop conditions. The reports of insect damage to wheat and of low temperatures in the Northwest were not so far from the fact that the week's exports of wheat had expanded more than a million bushels over those of the week before. A bulge in the Canada group pulled the prices up in the latter part of the day, but the movement was inconclusive and the day's net changes were mostly trivial.

SMITH TO TAKE A RECESS. Senator Is Not Recovering as Rapidly as Expected—May Go to Hot Springs. Washington, May 12.—Senator Smith may abandon his work in the senate for a time and take a vacation. He is not making the progress since his operation which he had anticipated and feels weak. The routine of the senate affects his nerves.

The only thing which keeps him here at all is the delicate situation of Michigan items in the river and harbor bill. If these items can be made sure he will probably go to Hot Springs, Va., to recuperate. It is barely possible that he will abandon delivering the speech at Monroe on June 4.

CLUB WOMEN IN SESSION. Cincinnati, May 13.—Three thousand women delegates to the tenth biennial convention of the General Federation of Women's Clubs were the guests tonight of the citizens' committee on an excursion up the Ohio river on steamers. The day was given over to various discussions. Representative Randall being one of the speakers.

A proposition is on foot to establish in the ancient city of Palos, from which Columbus sailed to discover the new world, a permanent agricultural and industrial exposition. Increase the friendly and commercial relations between the nations of the western hemisphere and Spain.

Per month, by carrier.....\$.20
For year, by mail.....\$ 2.00

MARQUETTE, MICH., MAY 14.

Entered as mail matter of the second
class in the postoffice at Marquette, Mich.

Senator Lorimer cannot understand why any of his colleagues should take the thing seriously. The idea of getting all stirred up over a few pointless "hints!"

It should be understood, however, in contemplating Mr. Lorimer's refusal to do anything, that it requires a thick-skinned citizen to make a bi-partisan boss.

If strange and startling noises are heard to the west this afternoon, it will be Ishpeming and Negaunee settling the first disturbance of the league baseball season.

The Civil Service Reform association scores President Taft and former President Roosevelt in its recent report. Is the association sure it hasn't overlooked somebody?

We hope there will be a provision in the league agreement that when the season closes the respective managements will be required to tell the truth about the amount of money invested in their teams.

Governor Hughes' direct nominations bill has been defeated in the New York legislature. Its fate was a cinch any time after the governor announced his decision to accept an appointment to the supreme bench.

Our theater managers have gone the limit for the "open door." If Klaw & Erlanger don't like it, they can go assured. Our managers are pretty well assured that they will fare at least as well as they have in the past, and are hopeful of faring better. Also they will always have the satisfaction of having taken a crack at the "trust."

Why the high cost of living? That's easy. Overproduction of gold. Gaylor and Payne and innumerable other public men say so. So sit down, don't squeal, be good; by and by the gold mines will hit some lean streaks and ham and eggs, butter and cream, woolsens and cottons, etc., etc., etc., will come within talking distance once more. In any event don't travel away with the fallacious idea that the tariff can have anything to do with the cost of living. That idea is bally rot. Don't the tariff makers tell us so?

"President Taft is facing a new party complication," writes O'Laughlin in the Chicago Tribune. "In his effort to secure an appropriation of \$250,000 to enable the new tariff board to ascertain the difference in the cost of production here and abroad, and thus lay the foundation for another tariff revision, based on accurate and scientific information, it is said that Mr. Taft will have the opposition of Representatives Payne, Dalzell, Fordney, and high protectionists of the house. The insurgents are backing the president in his demand for the appropriation, and Republicans generally are looking to this appropriation, and the promise of another revision which it carries with it, as one of the brightest elements of hope in the coming congressional campaign. The insurgents are wondering if in the event of opposition from Messrs. Payne, Dalzell and others, their Republicanism will be called into question by the 'powers that be.'"

Chairman Glasgow, of the state railroad commission, has decided not to contest the congressional nomination in the Fourth district with Representative Hamilton. Mr. Glasgow has been strongly urged to enter the field against Representative Hamilton, and would have been a formidable opponent for him, despite the high favor in which Mr. Hamilton is held in his district, for his record on the railroad commission has been one to recommend him to the voters as a man well worthy of promotion. He has decided that the commission offers him a field of congenial work, as well as one of much usefulness to the people of the state, in which he may well continue to work. We feel that his decision is one the state can congratulate itself on, for under his direction the railway commission is an energetic and fearless board placed at an important point in our political structure. It has been doing admirable work and is entitled to a full meed of credit for it.

Mr. Brandeis has finally succeeded in getting Secretary Ballinger on the defensive. The secretary put in considerable time in the latter part of his testimony explaining things apparently needing explanation, and it will be

Marquette, Mich.

strange if his explanations satisfy his critics. If the prosecution in the pending inquiry failed to make a clean case, the same can be said for the defense. The net results of the investigation will probably be a widely held belief that while Ballinger may not have done anything seriously out of the way, it was unfortunate that he was urged into the department, as it appears that some other man might have straightened out the conflicting practices and evolved a satisfactory permanent basis for the forestry and conservation work without bringing down so much trouble and misunderstanding on President Taft's head, and opening up so vexatious a dispute. Secretary Ballinger may be the best intentioned and most honest man in the world, but the issue has proved that he would have been an excellent man to have left out of the government. A secretary of the interior who had never heard of those Cunningham claims, and had never had any connection, direct or indirect, with anyone who had ever sought, or thought of seeking, government lands would have been, it appears, a fortunately endowed official. The congressional investigation into the Ballinger-Pinchot controversy will clear up nothing. The partisans of the men will still be partisans when the reports are in. Points have been made against Pinchot and his aides and against Ballinger and his supporters, and both factions have been shown to be open to adverse criticism. The one gratifying thing about the inquiry is the fact that it has proceeded through several weeks, dozens of witnesses being examined through the interval, without at any time the personal integrity and honesty of any person under fire having been called into question.

RAILROADS FIND FUNDS.
The most important business announcement for some time is that to the effect that several of the railroads have successfully negotiated large loans in Europe. The St. Paul has bargained for \$50,000,000 in bonds, the Baltimore and Ohio for nearly \$40,000,000 in three-year notes and the Big Four and M. K. and T. for other amounts. Some \$5,000,000 of New York city warrants have also been disposed of in France.

In the meantime the demand on our market for gold to be sent abroad seems to continue and altogether some \$29,000,000 has been exported. The London market, however, is much easier and the Bank of England is reported to be in a very strong position, in much better condition to meet any sudden demand, in fact, than it has been in before for some years. It is likely, therefore, that there will be only a few more shipments of gold from New York to complete partially filled orders.

As soon as the negotiations for these foreign loans are put beyond the possibility of failure a number of business lines in this country should receive a strong impetus. The roads will undoubtedly begin at once to place orders for equipment and needed maintenance material and will make some of the extensions and improvements they have been planning. The iron and steel industries are, of course, those which will be most directly benefited.

The less pleasing feature of the situation is that the capital is imported from Europe. Sometime it must be repaid and in the meantime the interest charges will be a drain on our resources of no mean proportions. It is a little humiliating to our national pride also. In the last few years we have heard a good deal about New York as the future financial center of the world and pictures have been drawn of other nations coming to us for capital. Yet here in the face of industrial prosperity there is a breakdown. We are unable to supply a demand for capital here at home which, though large, is not enormous by any means. Generally speaking, also, the amount of money in the country is greater than ever before. The incident is evidence of the tremendous expansion of business and shows that we are still growing as a commercial nation with great rapidity.

AN IDEAL HUSBAND
Is patient, even with a nagging wife, for he knows she needs help. She may be so nervous and rundown in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters, the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used them and become healthy and happy. Try them. Only 50c. Satisfaction guaranteed by The Stafford Drug Co.

HAVE YOU PILES?
Then Get Hem-Roid Under Money-Back Guarantee.
Blind piles, protruding piles, itching piles, are cured with equal success by the guaranteed internal remedy, Dr. Leonhardt's Hem-Roid. The guarantee is so broad that it costs you nothing if you get no benefit. Don't waste any more time with salves, suppositories or other outside treatment. Attack the cause.
Hem-Roid—\$1 for large bottle, lasting 24 days, at The People's Drug Store, Marquette, Mich., and at the City Drug Store, Ishpeming, Mich. Dr. Leonhardt Co., Station B, Buffalo, N. Y., Props. Write for booklet.
WHAT EVERYBODY WANTS.
Everybody desires good health which is impossible unless the kidneys are sound and healthy. Foley's Kidney Remedy should be taken at the first indication of any irregularity, and a serious illness may be averted. Foley's Kidney Remedy will restore your kidneys and bladder to their normal state and activity. Sold by all druggists.

NOTICE OF SPECIAL ELECTION.
WATER LOAN BOND ISSUE.
To the Legal Voters of the City of Marquette.
Notice is hereby given that the following preamble and resolutions were duly adopted by the Board of Fire and Water Commissioners of the City of Marquette, at a session thereof held on May 13, 1910, by the following vote, to-wit:

Resolved, That for the purpose of raising money with which to make permanent improvement in the water works system of this city, the extension of the present intake into 70 feet of water, at a point about 3,200 feet from the lake shore, shall be authorized, and the board of fire and water commissioners be authorized to borrow the sum of \$75,000, and to issue new bonds therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; and that bonds be issued therefor, and that the sum of \$75,000 be borrowed by this board for the purpose of raising money with which to make permanent improvement in the water works system of this city, to-wit, the extension of the present intake into 70 feet of water at a point about 3,200 feet from the lake shore; Copper Country

CALUMET LICENSE MATTER.

Attorney General Gives an Opinion Sustaining Village Attorney.

Attorney General John E. Bird of Michigan sustains Village Attorney C. A. March of Red Jacket in his contention that it is not lawful, under the present law, for brewing companies or manufacturers of malt, brewed or fermented liquors and holding only warehouse licenses to sell brewed, malt or fermented liquors to others than holders of the retail or wholesale licenses costing \$500 each. Therefore the village of Red Jacket will probably benefit to the extent of \$2,000, as it will be necessary for the four brewing companies doing business in the village under warehouse licenses to procure the \$500 licenses. These four companies are the Haas, Schlitz, Schurmann and Calmet. The opinion of the attorney general was read before the council Wednesday evening, and is as follows:

"I will say that a company paying a manufacturer's license fee in one township and maintaining a warehouse agency in a village in the same township is authorized to sell malt, brewed and fermented liquors from such warehouse or agency only to retail liquor dealers having the regular retail liquor dealers' license fee. The company may not be authorized to send out wagons from their warehouse soliciting orders and making deliveries from the warehouse to residents of the village. The same would be true of a non-resident brewing company paying the \$500 fee to the treasurer and maintaining in the village a warehouse or agency for which it pays the regular fee of \$50. The non-resident would be authorized to sell from such warehouse only to retail liquor dealers and it could not sell and deliver liquors therefrom to other residents of the village."

It is believed that this opinion will prove of state-wide importance and that other villages will likely act as has Red Jacket. Laurium has already taken this action and has ordered the brewing companies to procure their \$500 licenses.

GREAT COMMANDER, L. O. T. M. M.

Mrs. Frances Burns Says That the Position is No Insecure

The title of great commander of the L. O. T. M. M. of the United States is an exalted one, but the office itself is no sinecure. That is what Mrs. Frances Burns of St. Louis, Mo., says and she ought to know. Mrs. Burns has been in Hancock this week. She came to attend the dedication of the Macebae bed at St. Joseph's hospital. She has been great commander of the order for the past sixteen years. During her stay in Hancock she has taken this opportunity to discuss the rigors of the position. Last year she travelled 25,000 miles in her official capacity. She is kept continually on the go and visits every portion of the United States from the Atlantic ocean to the Pacific and from Mexico to Canada. This was her first visit to the copper country, but she has enjoyed it very much and will look forward to a return visit. She left yesterday for Chicago, where she has been called on business connected with the Macebae. During her stay in this district Mrs. Burns was entertained by Hancock and Houghton Lady Macebaes. Mrs. Rachael Bailey of Grand Rapids, Mich., past great commander of the order, left yesterday for her home. She was here on the same mission as Mrs. Burns.

SACRED HEART GRADUATES.

Calumet Catholic High School Plans Commencement Exercises.

The 1910 graduating class of the Sacred Heart High School, Calumet, number ten girls and three boys. Sacred Heart school is one of the finest parochial high schools in the state. Its courses are very complete and compare very favorably with the similar courses given in the public schools. Its graduates are admitted without preliminary examination into many of the best institutions of higher learning in the country who will receive their diplomas in June; are: Fred Schulte, Gilbert Trudell, August Wroblewski, Nellie Larkin, L. D. Capant, Annie Shude, Florentine Heimlich, Louise Klinkert, Ella Harriman, Agnes Tobolski, Margaret Mantz, Mary Revitta, Lucy Lang.

GOTCH WINS HANDICAP MATCH.

Frank Gotch threw Chris Person in twenty-five minutes and fifteen seconds in their handicap match at the Amphidrome at Houghton last night. The champion was good-natured and gave a splendid exhibition of comedy wrestling. Person made a good showing. Sailor Jack, of Duluth, and Louis Kruger, of Michigan City, Ind., wrestled one hour and fifty-five minutes, without a fall, and the match was declared a draw at midnight. The boys were evenly matched. The sailor was stronger, but Kruger was more clever. A return match is expected.

SHAKE INTO YOUR SHOES.

Allen's Foot-Powder, the antiseptic powder. It cures painful, smarting, nervous feet, and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. ARRANGING FOR FLAG DAY.

Elks Name Committee in Charge of Annual Event—Fraternal News.

The Calumet lodge has appointed a committee to make plans for the Flag Day observance of the copper country Elks, which is to be held at Calumet Sunday June 14. The committee is made up as follows: C. E. L. Thomas, Charles Hohl, J. J. Ellis, Jr., F. W. Hesseman, Dr. C. H. Rupprecht and Harry S. Scott. It is expected that practically the entire Hancock lodge will attend the Calumet celebration. It is not considered unlikely that the dedication of the temple of the Calumet lodge will be deferred until fall, as the lodge is busy this spring with its Flag Day plans and the project of sending a large delegation as possible to the state and national conventions at Detroit early in July. This will not be decided, however, until District Deputy Stevenson of Hancock can be conferred with.

The representation of the Calumet lodge at the Detroit convention will be unusually large. H. S. Scott will attend as president of the Michigan Elks association. George Williams as a member of the law committee. C. E. L. Thomas, Frank Distel, Jr., C. H. Rupprecht and F. W. Hesseman as delegates to the state convention, and Dr. C. T. Hansen and John Foley as members of the committee on reception.

HANCOCK LAND RECLAIMING.

Various Methods Employed in Filling Up the Numerous Ravines.

Reclamation of property in the city of Hancock is now becoming common, but the methods vary. In the east end the front street ravine is being filled by the hydraulic method, sand and rock being deposited by water power. In the west end, the method employed is different. In the Usteth addition a large tract of land, which was very uneven, is now being improved, making it nearly level. A large ravine is being filled so that the houses along that side of the street will be in line. No water is used, but contractor George Hall has a force of twenty-five men and four teams at work, tearing down surrounding hills and filling up the gully. This will result in a great improvement. The work is being done for the Hancock Land & Improvement company, owner of the Usteth addition. It is being done as much to beautify the locality as to make the property more valuable. Conditions are not exaggerated when it is said that the west end of Hancock, particularly the Usteth addition, is now the handsomest portion in the city. The owners of the property are sparing no expense in improving the addition. Streets have been laid out and about twenty-five homes have been erected. The houses are occupied and carpenters are busy building new ones. The only work done by the city has been laying water pipe for one block. The street grading, laying of concrete sidewalks and grading the land had been done by the property owners.

M. E. MINISTERIAL CONVENTION.

Gathering of the Houghton District Delegates Next Week.

The annual convention of the M. E. Houghton district will be held at the Pewabic church Tuesday and Wednesday. The following is the program: Opening song service—Led by F. C. Watters. Sermon—D. C. Planette. Sacramental service—District Superintendent. Minute Business—District Superintendent. Vocal solo—Mrs. J. E. McAllister. Address—E. M. Randall, D. D. Question Box on Epworth League Work—In charge of Dr. Randall. Epworth League rally. Devotions—Led by A. E. Healey. Vocal solo—Miss Myrtle Gray. Address—Dr. Randall. Devotions—H. Magalany. Symposium, "The Church." How Best to Promote the Spiritual Life. C. L. Adams; discussion led by C. M. Merrill. How Best to Promote the Social Life. A. A. Maywood; discussion led by H. C. Shaw. How Best to Promote the Financial. H. N. Aldrich; discussion led by W. E. Marvin. Devotions—Led by R. H. Prouse. General theme, "Revivals." Times of Refreshing, What and When? W. M. Ward; discussion led by S. L. Polkinghorne. Methods of Conducting Revivals. A. B. Sutfill; discussion led by J. H. McNamee. Care and Culture of Converts. R. L. Hewson; discussion led by W. S. Smith. Devotions—Led by W. Harper. Vocal solo—S. Bennetts. "American's Problems, How to Meet Them." The Negro Problem, W. Roberts; The Immigrant Problem, W. B. Coulter; The Saloon Problem; C. H. Rutledge. Vocal solo—Mrs. C. D. Thomas.

BASEBALL SEASON OPENS SUNDAY

Big Parade Planned at Hancock—Mayor to Pitch First Ball.

The baseball season at Portage Lake will open at Hancock Sunday afternoon. The Houghton-Houghton team will play the Hancock nine. The opening of the season will be made in impressive manner. The teams will parade from the bank corner to the driving park, headed by the Quincy band. The officers of the league will ride in carriages. At the park the band will play selections throughout the game. The first ball will be pitched by W. Frank James, mayor of Hancock and president of the league. It is expected that a large crowd will be present.

PLAN AUTO CLUB.

Owners of automobiles at Calumet and in Keweenaw county are taking steps to organize a club for the purpose of procuring better roads, keeping the highways cleared of glass and

CAKE, hot biscuits, pastry, are lessened in cost and increased in quality and wholesomeness, by ROYAL Baking Powder

Bake the food at home and save money and health

obstructions and of obtaining protection from thieves and wreckers. There are more than 100 owners of automobiles in Calumet and vicinity. It is proposed that each member pay a fee of \$5 per year and that a special officer or highway patrolman be employed.

Northern Normal Notes.

Dr. Hall of Calumet visited the Normal Friday afternoon. Superintendent E. E. Scribner of Ishpeming was a visitor at the Normal Wednesday.

Mrs. Frances M. Kelsey entertained the faculty and a number of friends last evening at a most enjoyable party. Dr. Downing's classes in botany and bird study spent most of last Saturday at Mount Mesnard and the Carp river district. The party had a picnic dinner at Carp river.

The Maypole dance which was to have been given on the campus yesterday afternoon had to be postponed owing to the cold weather. It will probably take place some time next week. Through the efforts and kindness of James Penill a set of bird pictures has been placed in each room of the training school and a more complete set of all the available bird pictures has been placed in the science department. A similar set has been placed in each room of the city schools, while one of the larger sets has been put in each school building.

Monday afternoon Miss Eva Watt gave her original abridgement of Longfellow's "Evangelist." The abridgement is in two parts, the first carrying the story as far as the departure of the Avardians from their native home, and the consequent separation of Evangeline and Gabriel. Miss Watt's interpretation was excellent, and was thoroughly enjoyed by her audience. She responded to several queries such as "Sam's Letter" and "Bill Smith."

Miss Gable of the Third and Fourth grades had charge of the chapel hour Tuesday morning of this week. The following excellent Joel Chandler Harris program was given: Life of Joel Chandler Harris. Helen Brainerd. Reading, Brother Rabbit and Mosquitoes. Miss Audrey Schunk. Reading, Uncle Remus and the Telephone. Miss Emma Saunders. Song, "The Sweet Singers" of the Third and Fourth Grades. Reading, Uncle Remus on an Electric Car. Miss Emma Saunders. Reading, The Tar Baby Story. Miss Audrey Schunk.

Thursday morning at chapel Miss Louise Rudolph, Class '08, who is at present studying dramatic art in Chicago, gave several excellent readings which were thoroughly enjoyed by all who had the good fortune to hear her. The program consisted of the following numbers: "Giant Gismond" by Robert Browning, "The Royal Princess" by Christina Rossetti, "Johnnie Courtcan"

WAR HEROES HONORED.

Building is Dedicated to Them at Ann Arbor by University Alumni.

Ann Arbor, May 13.—Reverence for heroism and exaltation for the memory of the students who went out from Michigan's university to fight for their country in both the Civil and Spanish-American wars, was the theme of the dedicatory exercises of the new \$100,000 memorial building. Distinguished men, professors, statesmen, divines and men of letters sat upon the stage, upon which the most conspicuous figures were Dr. Angell and Curtis Guile, Jr., former governor of Massachusetts. Applause greeted the rising of Dr.

S.S.S. CURES BLOOD POISON

Every symptom of Contagious Blood Poison suggests a deeply poisoned condition of the circulation. No portion of the body is free from its contaminating influence, and its blighting effects are even stamped on innocent childhood if the ancestral blood is not rid of the infection. Contagious Blood Poison begins in an insignificant manner, usually the appearance of a tiny pimple or sore being the only outward evidence of its presence. But down deep in the blood the treacherous virus is at work and in a short time the victim finds himself affected from head to foot. The mouth and throat ulcerate, skin eruptions break out, sores and ulcers appear on the body, yellow blotches disfigure the skin, the glands of the groin swell, and often the hair and eyebrows come out. The only possible way to cure Contagious Blood Poison is to remove the cause from the blood. Mercury, Potash, etc., are often used with the idea that such strong treatment will kill the germs and thus produce a cure; but this is a mistaken idea—THE GERMS CANNOT BE KILLED; THEY MUST BE REMOVED FROM THE CIRCULATION. This is proven by the fact that there are thousands who took the mineral treatment for months, or even years, and when it was left off found the poison was still in the blood.

The ability of S. S. S. to cure Contagious Blood Poison comes from its blood purifying properties. It goes into the circulation and REMOVES every trace of the poison, makes the blood pure and healthy, and leaves no dregs of the trouble to break out later on, or to be transmitted to innocent offspring. S. S. S. is made entirely of roots, herbs and barks, each of which has a direct and specific effect in purifying the blood. S. S. S. is Nature's blood purifier, scientific and sure in its action, and so valuable are its tonic effects that the entire system is left in fine physical condition. Home Treatment book sent free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Angell, who held in his hand a letter, which he read in a trembling voice. The letter was that found in the hand of Allen H. Zacharias as he lay dead on the battlefield of Antietam, telling of his mortal wounds and bidding his loved ones goodbye. "Can anyone feel it was not the most sacred of duties, after he had read such a letter as this," said Dr. Angell, "to erect a monument whereon the names of brave fellows like this one may live forever. It is because they went that we have a nation at all. It is because of them that we have this university." Judge Claudius B. Grant, who acted as chairman, then introduced Ezra Rust of Saginaw, who spoke at length. Ex-Governor Guild, in his oration, called attention to the fact that Massachusetts in the east and Michigan in the west were the first to respond to Lincoln's call for volunteers. Coming down to the Spanish-American war, Mr. Guild paid a glowing tribute to the late United States Senator Russell A. Alger, who was secretary of war upon the outbreak of hostilities.

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen. It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

New Perfection Oil Cook-stove

WICK BLUE FLAME

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

Address Dr. R. V. Pierce, Buffalo, N. Y.

Warner's Rust-Proof Corsets

Low bust, long waist, latest coat-skirt model. Fit and comfort as well as fashion. Like all Warner's Corsets, this is guaranteed made to wear—not to rust, break or tear. We stand back of this guarantee, and are willing to give you a new pair if a Warner's should prove defective. The supporters attached at front and sides are the

Security Rubber Button Hose Supporters

—all metal parts of which are heavily nickelled and covered by the same guarantee as the corset itself.

Ishpeming Department

SERIES OPENS TODAY.

Ishpeming Will Have a Strong Line Up in First Ball Game.

The Marquette County-Crystal Falls league baseball season will open this afternoon at the Union park grounds, with a game between the Ishpeming and Negaunee teams. Goulette, who gave such a good account of himself in the game against Marquette last Sunday, will be in the box for Ishpeming and Rosevear will probably pitch for Negaunee. Klebs will catch for Ishpeming; Larson will be at first; Harris, second; Secore, third; Whitman, short; Burke, left field; Simpson, center, and Laxstrom, right. Nicholls and Dixon will be on the bench. McLaughlin will be the umpire.

It is possible that a hand will be in attendance both today and tomorrow. The grounds will be put in the best possible condition this morning, and the game will be called promptly at 2:30 o'clock.

ISHPEMING IN BRIEF.

Mrs. J. E. Oman is visiting relatives in Chicago.

A. D. McDonald, of Duluth, was in Ishpeming yesterday.

R. J. Bailey, district manager of the Sullivan Machinery company, is here from Chicago.

A new foundation and sills are being placed under the Menominee River Brewing company's building on Pearl street, between Main and First.

W. A. Wright of Chicago and George Ross of the copper country, who are in the employ of the Hartford Boiler Insurance company, are in the city.

Births recorded yesterday were a daughter to Mr. and Mrs. Alexander Thibodan, 415 Excelsior street, and a son to W. H. Carne and wife, 421 South Third street.

At the services at the Salisbury M. E. church tomorrow Dr. C. L. Finch, the pastor, will preach at 10:30 o'clock on "A Great Fall"; at 7 o'clock on "No Room for Jesus."

Miss Lulu Leisner, who fell into the Oliver Iron Mining company's open pit Wednesday, is still in a precarious condition. She was delirious the greater part of yesterday, and did not recog-

nize any one. She took nourishment several times and when given the stimulants seemed to realize what she was doing.

The funeral of the late Joseph LaTour, of Greenwood, who met death Wednesday by falling from a wagon on which he was hauling a boiler, will be held this morning from St. Joseph's church.

A class of thirty-seven boys and girls will be examined in catechism and confirmed at the morning and evening services tomorrow at the Mission church. The morning service will start at 10 o'clock and the evening at 7 o'clock. The evening, Rev. J. Sallstrom, the pastor, will deliver an address to the young people.

The Salvation Army hall, which has been redecorated, will be reopened this evening. Tomorrow meetings will be held at 11 a. m. Sunday school, 2 p. m., testimony meeting, 3:30, and Salvation meeting, 7:30. Friday of next week Commissioner Thomas Estill, commander of the army west of Chicago, will be here, together with several of the leading officers of the northwest.

The remains of the late Arthur Gothe, who died following municipal elections, were received yesterday morning. They were accompanied by Harry Hurley and Miss Magseth, friends of the deceased. Mr. Gothe was ill for four weeks. He was a member of the Commercial Travelers of Traverse City and Mr. Hurley was sent up with the remains by the organization. The funeral will be held tomorrow afternoon at 2:30 o'clock from the family home on North Pine street and at 3 o'clock from the Swedish Lutheran church.

Upper Peninsula

St. Ignace City Appointments—Mayor Maehia of St. Ignace has named the following municipal appointments: city marshal, Frank Grondin, fourth consecutive year; president of council, Alderman Grant; city attorney, James J. Brown; health officer, Dr. F. E. Dresser; poor commissioner, O. C. Baynton; city surveyor, Thomas Beveridge.

Forger Goes to Prison—

Tabon Alberts, who pleaded guilty to a charge of forgery at Escanaba, has been sentenced by Judge R. C. Flannigan to not less than one year nor more than fourteen years' imprisonment at the state house of correction at Lonia. The judge recommended that the length of the sentence be one and one-half years. Alberts passed a number of worthless checks on Escanaba merchants and then escaped to Green Bay, where he was later captured with his hideout at a few days. His bride was returned to the Milwaukee state school for girls, from which she had escaped.

Much Timber Tied Up—

Log driving is once more in progress on Pine creek, in the Menominee iron range region. Dykes & Bennett have been making a rich haul from the scene of the wreck of the anchor Line's Wisahickon. When the steamer went on the rocks at Outer Duck island, Lake Huron, last fall it was necessary to throw overboard considerable of the freight composing her cargo, among which was a large amount of baled barbed wire and nails. This has been fished up by people from DeTour, who have been engaged in the work for the past two or three weeks. Only the other day Lee M. Seaman arrived in the Soo with 500 bales of the wire, which was rescued from the deep, where it had lain since thrown over last fall.

FOR MORE THAN THREE DECADES

Foley's Honey and Tar has been a household favorite for all ailments of the throat, chest and lungs. For infants and children it is best and safest as it contains no opiates and no harmful drugs. None genuine but Foley's Honey and Tar in the yellow package. Refuse substitutes. Sold by all druggists.

MARKETS

CHICAGO GRAIN MARKETS.

Chicago, May 13.—Wheat today closed firm, 1/2c higher. Although much of the day's news was against the values, it was a steady absorption by large local speculators that, accentuating the congestion, that was chiefly instrumental in making the shorts uneasy. The lack of rain in the spring wheat sections appeared to more than offset the reports of downpours on the winter crop. The information was practically ignored that the weather was warming up in the Northwest, where the growth had been seemingly slow in consequence of the cold. Little attention, either, was paid to the statements that the Southwestern receipts were increasing and that one big mill at Kansas City was closing down. On the other hand, notice was taken of an advance at Liverpool, of the continued damage by insects in Illinois and Missouri and of reports that wheat in Michigan was showing a yellow tinge, indicating something radically wrong with the plant. The September opened at 101 1/2 to 101 3/4; highest, 102 1/2; lowest, 101 1/4; closed, 102 1/2.

Boston Quotations.

Boston, May 13.—Today's stock market at Boston is summarized by Paine, Webber & Co. as follows: "The activity in the general list was slightly increased today. A sharp rally in Isle Royale, from 18 to 21, was due to the filing of an order for 2,000 shares. The buying of this stock created an active interest in the rest of the list, and prices rallied all around. Amalgamated was strong all day, on the rumor that they had purchased the Clark properties in Butte. Talk on the metal situation is slightly bullish, on account of big sales which have been made the past few days. We still advise a conservative position with sales on the rallies."

The closing prices were:

Table of stock market closing prices for various companies and commodities, including Amalgamated, Boston, and others.

PORTS FOR THE SAME PERIOD HAVE BEEN 6,831 TONS.

ports for the same period have been 6,831 tons. The tone was heavy. The crop prospects were reported excellent. The close was unchanged to 1/4 to 1/2 lower.

Paine, Webber & Co.'s Wheat Letter.

Chicago, May 13.—July wheat closed at an advance of about one cent for the day and September was 3/4 over the last prices yesterday. This, to some extent, offset the clear cold weather over the spring wheat country, which was the bull factor at the opening. On the break the recognized bull leaders in September wheat became buyers on a liberal scale, and kept adding to their holdings until the top prices for the day were reached, a little before the close. There is some talk of an increased movement to the northwest markets. St. Louis reported considerable wheat left over unsold, but the prices there held steady. We think any further sell will be inviting and will likely prove profitable to quick sellers.

PITIFUL CASE OF SKIN DISEASE

When Two Months Old, Baby had Pimples Spread All Over Body—Broke and Left Skin Like a Scald—An Awful Sight—Doctor Afraid to Put His Hands on the Child.

CURED AT SLIGHT COST BY CUTICURA REMEDIES

"Our baby when two months old was suffering with terrible eczema from head to foot, all over her body. The baby looked just like a skinned rabbit. We were unable to put clothes on her. At first it seemed to be a few scattered pimples. They would break the skin and peel off leaving the underneath skin red as though it were scalded. Then a few more pimples would appear and spread all over the body leaving the baby all raw without skin from head to foot. On top of her head there appeared a heavy scab a quarter of an inch thick. It was awful to see so small a baby look as she did. Imagine! The doctor was afraid to put his hands to the child. We tried several doctors' remedies but all failed. Then we decided to try Cuticura. By using the Cuticura Ointment we softened the scab and it came off. Under this, where the real matter was, by washing with the Cuticura Soap and applying the Cuticura Ointment, a new skin soon appeared. We also gave baby four drops of the Cuticura Resolvent three times daily. After three days you could see the body gaining a little skin which would peel off and heal underneath. Now the baby is four months old. She is a fine picture of a fat little baby and all is well. We only used one cake of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent. If people would know what Cuticura is there would be few suffering with eczema. Mrs. Joseph Rosemann, 7 St. John's Place, Ridgewood Heights, L. I., N. Y., Apr. 30 and May 4, 1909."

Cuticura Soap (25c), Cuticura Ointment (50c) and Cuticura Resolvent (50c), for the cure of Eczema, Itch, Skin Diseases, etc., are sold throughout the world. Putter Drug & Chem. Corp., Sole Prop., 123 Columbus Ave., Boston, Mass. For Mailed Free, 25-page Cuticura Book, an Anchoy on the Treatment of Skin and Hair Troubles.

WHO OWNS AMALGAMATED?

Its Technical Position—The Stock Not Being Carried in Brokers' Loan.

The technical position of Amalgamated copper shares marketwise is always a matter of vital interest to the holders of copper shares...

Amalgamated has been kept well in hand by those responsible for its market. The control of the floating stock is clearly in the hands of the insiders.

The ability of Amalgamated, a \$2 dividend payer, to maintain as it did for months a market price above \$85 per share while many industrial preferred issues were selling on a 7 per cent income basis...

Anacosta is the instrument through which some sort of a realignment of the Butte situation is to be perfected and an exchange of shares in varying ratios will soon be in process.

A VISIT TO THE MINES.

A Boston Man's Observations After an 8,000-Mile Trip.

W. F. Bartholomew of Thompson, Towle & Co. has returned to Boston from an 8,000-mile trip to the mines of Arizona, California and Nevada.

"Inspiration is a whale. Already 30,000,000 tons of ore can be figured upon, while drill operations indicate that 50,000,000 tons of ore are not at an extravagant estimate for the block of ore 3,500 feet in length which lies east of what is known locally as the Taylor fault...

"Old Dominion under new local management is making the best record in its history in the matter of underground developments and costs. Its March cost was ten cents flat f. o. b. New York.

"In California I visited the Mammoth and Balaklava properties. Both are making a creditable showing. The Mammoth is producing about 2,750,000 pounds copper per month at a cost below nine cents and while it may not have the long life of a vein mine it is today one of the best and lowest cost producers in the country.

"In Nevada a new property which is bound to attract considerable attention is the Mason Valley mine in the Verdigton district. This company has developed about 1,000,000 tons of a 3 1/2 per cent to 4 per cent sulphide ore to a depth of only 400 feet.

CHIEF CONSOLIDATED.

The striking of rich ore by the Chief Consolidated in a mine which is going up from the 1600 foot level to the 1,400 is a most important development for the company.

follow, as the class of ore which Chief has been mining on the 1,400 is excellent. The first 2,000 tons of shipments gave net returns from the smelter of \$23 per ton.

ing any factor in its earnings. If the experience at the other mines in the neighborhood is to be taken as a guide, the gold values will show a material increase with depth.

ISLE ROYALE.

The Houghton Copper company, a St. Mary's Mineral Land proposition, owning 160 acres directly between Superior

and Isle Royale, has recently encountered a very good showing of copper—believed to be the Superior lode—in its diamond drill at a depth of about 320 feet.

to show a profit on 13-cent copper, the possibilities of encountering pay values in the immense territory east of the Isle Royale lode make the proposition one of unusual promise at the recent low prices at which the shares have been selling.

NOTES OF COPPER NEWS.

The North Butte smelting contract with the Washoe company expires shortly and negotiations are now under way for a new contract which is expected to show a saving of \$20,000 monthly to North Butte.

President Jackson of the National Conduit & Cable company states that the business of his company thus far this year has been the largest in its history. He believes that consumption of copper at the present time about equals

the production, and he does not anticipate that the price of the metal will drop much below the present level.

Butte-Balaklava's new electric engine is working successfully and the output of ore is being gradually increased. The company will produce in excess of 500,000 pounds of copper in May and at a cost under eight cents.

The recent break in Ohio Copper stock to the lowest price on record is said to have been not the result of property conditions, which are declared to be better than for a long while. The break was caused by a New York bank calling a loan, and as the money was not forthcoming, the bank proceeded to sell out the collateral. Ohio is operating one-half of its mill, which is turning out an excellent grade of concentrates, and earning about \$35,000 per month net.

Better be alive and poor than rich and dead.

TRUTH NUMBER 4

A Good Investment is Worth a Life Time of Toil

OIL is one of the greatest things in this country to-day. More fortunes have been made and are being made in Oil than in any other known commodity.

Oil is a necessity, and new uses are being made of it every day. On the Pacific Coast Oil is about the only fuel used, and even two of our largest railroad systems use California Crude Oil for locomotive fuel.

BROWN GOLD

By R. S.

Note: (We wish the reader to know that the term "Brown Gold" means California Crude Oil.)

When Jud Elwood awoke one morning in his cabin, located near Bakersfield in the State of California, and decided to go on a rabbit hunt, "by his lonely," he little dreamed the result of that decision and the subsequent trip was to lead to the discovery of one of the greatest Brown Gold producing districts in the world.

To quote Jud, as he gave the account of his find to the writer, he on that morning left his cabin accompanied by his gun and dog, and by the way, was always fond of dogs and had a few that were as good as any in Kern county; and Jud knows a good dog, too, and why not? His old home, Bakersfield, is the Mecca to which all really good ones make an annual pilgrimage to attend the great national trout, well, to continue Jud's story, he started out in a direction to the northwest of his cabin toward the foot-hills, and after securing a good-sized bag of cotton-tails was returning homeward, when his attention was attracted in one direction to the different hues of the early morning mist which, rising from the soil, gave off a color that had the appearance of being a brown-colored haze, or a "something" entirely different from that noticeable in other directions.

Jud had hard work at first in his efforts to convince friends and neighbors as to the importance of his find, his deductions not being accepted even by experts as being at all reasonable, which brings to mind the curious story told of the earliest discovery of Brown Gold in this country during the days of Colonel Drake. The Wise Ones at that time smiled at the prospector, being amused at the mere idea of finding Brown Gold in the earth. The son of one old farmer brought home the news of Col. Drake's find, which to the mind of the old man was utterly absurd, consequently he would not believe it. "If you had told me that they had found whiskey, I could readily understand it, for we know that whiskey is made from corn, and it might easily soak through the roots of the stalk and accumulate in the earth, but flowing Brown Gold, never." As a consequence, the adverse opinions and criticisms to which Jud was subjected showed neither sympathy nor support, which made him fully realize the old truth that "no man is a prophet in his own country," and the sequence in all probability would have been that the great body of mineral wealth which had been lying there dormant for many ages would have remained undisturbed if it were not for the stranger who took advantage of the opportunity and backed his judgment with money.

the great Brown Gold districts of California, which today is by long odds the greatest producing country in the world, came from the outsider, from the stranger. The local capitalist and others of smaller means, being absolutely blind as to the opportunity then within their grasp. From other portions of the state, California capital and brains took a leading part in the early development. Well known merchants, lawyers, doctors, lumber and fruit men taking a leading part, and to the list must be added the many hundreds of the comparatively smaller investors, such as mechanics, railroad men and particularly the keen department store capitalist—two Los Angeles stores alone supporting hundreds of investors, each one helping the development in amounts that ranged from \$50 by the lady cashiers to \$2,500 by managers of departments. Another interesting feature in this connection was the impetus given by residents of the "Show Me" states. They sent their delegations to investigate, were duly "shown," and as a consequence their subsequent investments have added many millions of dollars in Brown Gold to the world's wealth. Some towns of about 20,000 inhabitants furnishing more "sinews" than did any one of the wealthy eastern states.

It was not very long after the Elwood discovery before all the good land in the district was acquired, principally by mining, fruit, lumber and other men, who through business connections and associates were brought into active touch with the exact situation in Kern county, and who were quick to take advantage of the immense possibilities and profits to be ultimately derived from the development of Brown Gold as against that of any other kind of mining or industrial enterprise. And, as a consequence, those who later on decided to engage in the industry were compelled to go elsewhere and secure lands in other districts, where the indications and general appearance of the country were similar to those prevalent in the Kern River District. This "crowding out," which led to the compulsory seeking for other districts, was particularly fortunate from the fact that it led to the further exploring, development and ultimately the proving up of the greatest of all California Brown Gold Districts—"Coalinga."

The stupendous magnitude and the recent rapid advancement made in the development of this great Brown Gold district is such as fully warrants the name "WONDER DISTRICT," and in order to fully appreciate its immense richness and the development thereof which has been made during the past few years, which period covers the real opening up of the field, a comparison will be necessary, and for the purpose of making an intelligent one, the celebrated Kern River District, the field that is generally (and was truly) regarded as being the greatest and richest producer of Brown Gold in the world will be taken.

The authentic, up-to-date figures used in order to substantiate the statements herein are those compiled for the month of March, 1910, and they are interesting as well as remarkable from the fact that they prove unquestionably the supremacy of Coalinga, the Wonder District of California, and shows it to be by all odds, through comparison of present development, as well as by results of actual production—the King of all Brown Gold districts. The figures referred to, which cover the total pro-

duction of those two great Brown Gold districts for the month of March, 1910, are:

Coalinga District, 1,231,000 Barrels. Kern River District, 1,100,000 barrels of 42 gallons each, the difference in favor of the Coalinga district being 131,000 barrels for the month. BUT when the present development of both districts are taken into consideration, the startling fact is realized that the great Coalinga district produced this enormous quantity of Brown Gold with less than one-half the number of wells as compared with the more thoroughly developed and comparatively older district, the Kern River.

And by a further comparison of the average production per well in the two districts it is shown that the Coalinga district well produced two and one-half times as much Brown Gold as was produced by the Kern River district well in the same period, or in other words, to make the contrast more apparent, while the average Kern River well was producing 800 barrels the average Coalinga well was producing 2,000 barrels.

Having shown by facts and figures that Coalinga is the greatest producing district, it is now pertinent to refer to another point in order to show the further great advantage this district has in facilities for marketing or moving the product to Tidewater, and this brings up the subject of transportation, which as a matter of fact was the one and practically the only handicap with which, until recently, the producer of Brown Gold in California has had to contend. Producing a commodity without the facilities of getting it to a market is like finding a Yellow Gold mine in the heart of Africa without being able to handle the ore or getting the product to the outside world. Such was the story of Brown Gold found in the heart of California. No means of transportation, excepting by the few thousand tank-cars furnished by the railroads, which at its best was a totally inadequate, as well as very expensive, service. Now, however, those conditions have been completely changed and with a due appreciation of the magnitude and importance of the "Wonder" of all producing districts, the Coalinga producer has at his disposal the service of the following great pipe line systems—one of six-inch and four of eight and ten-inch capacity each, making in all five great through pipe lines, which extend to various coast points north and west from the district to market, i. e., Tidewater.

These lines are: Associated from Coalinga to Monterey, from Coalinga to Port Costa; Producers from Coalinga to Port Harford; Standard from Coalinga to Mendota, the lat-

ter two being parallel lines, which connect with the through line to Point Richmond on San Francisco Bay.

The product is handled by the transportation company or companies with which the producer elects to do business, which concerns, at their cost and expense, run pipe lines to the property and take care of the product, thus relieving the producer of all further work. From tidewater points the Brown Gold is shipped north, south, east and west, from Alaska in the north to Chili in the south; and over seas as far as Japan, and portions of it even as far as Australia.

The Coalinga district offers a product capable of further immense development; offers ample facilities for the marketing of the same; offers a market which is practically unlimited, coupled with a demand for the commodity, which all present efforts have as yet been unable to supply. With all these facts in mind, can a single argument be advanced that will contradict the statement that an investment made now in Coalinga Brown Gold is the best investment extant?

How or where can I make an investment whereby I may participate in the distribution of the immense amount of mineral wealth with which California is so favored and the development of which is still in its infancy? How? By making an investment in a company that has something to offer in return for your investment, and the more they "have and hold" the greater will be your return thereon. Where? Investigate fully the California National Crude Oil Company, which has recently acquired five thousand acres of rich Brown Gold holdings in the now famous Coalinga district, the Wonder District of California.

Remember the story of Jud and his dogs and don't be likened into the blind friends and neighbors, but "get in" now, like the stranger did, when the investment of a few hundred dollars, which the stranger actually made, resulted in a private car, which he now uses and is now his own; all the result of a small investment in Brown Gold made at the bottom.

Invest your savings in a company that is operating in the greatest field in the state. Remember, you have only a short time to purchase this stock at 40 cents per share. We can assure you that within a limited time this stock will be sold for double this figure, and you will see it quoted at that figure in these columns.

We would advise you to make as large a reservation as you can afford and do so immediately. Make all drafts, money orders, etc., payable to the California National Crude Oil Company, Los Angeles, Cal., and mail with attached blank

LOWER STATE NOTES.

PONTIAC HARBOR—A party has left for the northern peninsula to hunt for the remains of Robert Bell. The deer hunter who became lost in the north woods last fall. Six weeks ago the north was invaded by a party of searchers, headed by the lost man's son, but after a two weeks' unsuccessful hunt the party returned. This time the searchers will stay a month.

PONTIAC—The police department has been asked to suppress Sunday ball games in the vicinity of the Lutheran church, Auburn avenue. According to the complaint which has been made, Sunday afternoon the pastor was engaged in earnest supplication. "Oh, Lord," he said, and just then some one watching the ball game on the outside yelled, "Stille, you munt, or you'll be die." Commotion followed.

LANSING—After a conference between Governor Warner, Attorney General Bird and former Probate Judge Emory Kuhn, of Mt. Clemens, it was announced that Attorney General Bird will resign June 1, to take his place on the supreme bench, and at that time Judge Kuhn will take up his duties as attorney-general under appointment. This delay is made necessary, it is said, by the request of Mr. Bird to be given time to attend to several matters in his office before leaving it.

PONTIAC—Pontiac township will build two miles of road from the city limits of Pontiac out Baldwin street.

This is one of the poor roads entering Pontiac and residents along the route will stand \$1,730 of the expense. The state bounty is \$500 per mile and the balance of the expense will be provided by assessments upon the township at large. Two other districts bid for the new road, but the Baldwin street residents made the highest offer.

KALAMAZOO—Because John Rohemia charged each man \$1 for a dance with his bride, each game lasting but one minute, Mr. and Mrs. Rohemia will start their married life with \$240 in the bank. The dance took place in the Hungarian settlement. Just as the sun was rising in the east the police were called and quelled the disturbance, which followed the dance. Rohemia admitted to the officers what he had done and named the amount he had collected for the dances with his bride.

LANSING—At the last session of the legislature an act was passed providing that homesteads of civil war veterans not exceeding \$1,200 in value should be exempt from taxation upon petition of the property owner. No provision was made in the act, however, for the exemption of homesteads owned by survivors of the Mexican war and some of the old soldiers are rising in righteous indignation and inquiring why they are not entitled to the same privileges as the Civil war veterans. Evidently the legislature did not think that there were a sufficient number of Mexican war survivors still in the land of the living to make it worth while to insert a clause in this piece of leg-

islation, but the number of kicks registered at the office of the attorney-general indicates otherwise.

OWOSSO—Fred Louis, a local business man thirty-three years old and married, is in a serious condition as the result of being struck in the temple by a pitched ball seven years ago. Louis was playing with the Owosso team against Perry and at the time of the accident he was in the line of play and death for several months. Recently he was operated on at the U. of M. hospital at Ann Arbor, and a piece of bone that was pressing on his brain was removed. He believed he was improved, but the other day fell unconscious in the street.

TRAVERSE CITY—Mrs. W. O. Holden recovered her jewels, which had been missing for more than a week. The bag, containing two diamonds, a diamond pin and other valuables, was found at the mouth of the Wellington street sewer by Lloyd Spafford, an employee of the Park Place hotel. Mrs. Holden dropped the charms skin bag containing the jewels into a waste pipe at the hotel, the package getting into the sewer before the loss was discovered. The house pipes were disconnected, and the jewels not being found, the matter was reported to the city officials, who constructed a screen at the mouth of the Wellington street main and then kept watch. It took the package just a week to reach the river.

LION FONDLES A CHILD.
In Pittsburg a savage lion fondled the hand that a child thrust into his cage. Danger to a child is sometimes great when least regarded. Often it comes through colds, croup, and Whooping Cough. They slay thousands that Dr. King's New Discovery could have saved. "A few doses cured our baby of a very bad case of Croup," writes Mrs. George B. Davis, of Flat Rock, N. C. "We all ways give it to him when he takes cold. It's a wonderful medicine for babies." Best for Coughs, Colds, LaGrippe, Asthma, Hemorrhages, Weak Lungs. 50c. \$1.00. Trial bottle free. Guaranteed by The Stafford Drug Co.

THE HIGH COST OF LIVING.
Increases the price of many necessities without improving the quality. Foley's Honey and Tar maintains its high standard without any increase in cost. It is the best remedy for coughs, colds, croup, whooping cough and all ailments of the throat, chest and lungs. The genuine is in a yellow package. Refuse substitutes. Sold by all druggists.

Negaunee Department

NEW PASSENGER TRAIN ADMIRABLY EQUIPPED

OFFICIAL ANNOUNCEMENT OF NORTHWESTERN'S NEW TRAIN, RUNNING BETWEEN CHICAGO AND CALUMET, RECEIVED HERE YESTERDAY.

A. P. Johnson, Negaunee agent of the Chicago & Northwestern Railway company, yesterday received official announcement of the new passenger service that is to be started between Chicago and upper peninsula points. The first train will leave Chicago tomorrow evening at 6 o'clock and will reach Calumet at 9:55 Monday morning. The announcement received by Mr. Johnson is as follows:

"The Chicago & North Western railway announces new schedule arrangements effective May 15th for the Iron & Copper Country Express, which will after that date leave Chicago at 6:30 p. m. instead of 8:30 p. m., and leave Negaunee at 6:00 with through sleeping cars between Chicago and Calumet, Chicago and Marquette, and Chicago and Sault Ste. Marie. The arrivals at destination and at intermediate points will be affected. The new arrival at Marquette being 7:35 a. m., Houghton 9:10 a. m. and Calumet 9:55 a. m.

"An excellent dinner will be served in the dining car leaving Chicago, and the equipment will include parlor cars between Chicago and Milwaukee, and standard day coaches to the Lake Superior country.

"New all-steel, fire-proof construction day coaches and smoking cars of the latest design will be used on this train. They are of maximum length, and are equipped with all the most approved and latest conveniences the ingenuity of the car builders can suggest.

"The sleeping cars between Chicago and Marquette and Calumet are of the most recent Pullman design, with berths of the most generous dimensions and ample and luxurious drawing rooms. These sleeping cars are electric lighted throughout with individual reading lamps in each section and drawing room for the convenience of the traveler.

"Train No. 2 southbound will continue to be operated on practically the same schedules as at present.

"It is believed The North Western line's patrons in the Lake Superior country will find the new service of this train, in every respect, a most desirable and convenient one, and they will be warmly welcomed by them as a considerable improvement.

"The North Shore Special, heretofore leaving Chicago at 6:30 p. m., Milwaukee, will leave at 8:00 p. m. instead."

MINER MEETS DEATH.

Italian Workman at the Cambria Killed by Falling Ground.

John Grearatti, a miner employed at the Cambria property of the Republic Iron & Steel company, was instantly killed yesterday morning at 10 o'clock. He and his partner were working in an effort to release a drill that had become fastened in a hole they were boring when a chunk of ore weighing between twenty-five and 100 pounds fell from above, striking Grearatti in the back.

About thirty minutes before the ore came down J. T. Quine, the mine inspector, and Captain A. T. Dutton inspected the hanging, but did not find any of the ground loose. While they were in the stop they both talked to Grearatti, who spoke good English, and he advised them that he and his partner had made an examination of the ground before they started to drill and that they considered it perfectly safe. Nothing had been done to disturb the ground, and both the mine inspector and the captain are at a loss to understand what caused the chunk of ore to fall away.

The deceased was very well known among the Italian people of Negaunee. He has a family living in the city. Coroner Prin came over from Ishpeming yesterday afternoon and impounded a jury.

LOCAL LACONICS.

Mrs. Pauline Josephs, of Superior, was a Negaunee visitor yesterday.

The hose ordered some time ago for the fire department has arrived. They are 1,400 feet in length.

Robert Jackson and Robert Thompson spent yesterday fishing in one of the streams south of Palmer.

A. H. Stoholm, who conducts a bicycle and automobile repair business, offers for sale his gasoline engine and equipment.

E. D. Davis, former superintendent of the Negaunee public schools, now superintendent of the Escanaba schools, called on Negaunee friends Thursday.

Sam Stephens, who conducts the pool and billiard hall in the Soudberg block, is increasing his stock of confectionery, tobacco, and new show cases and other equipment is being installed.

The building committee of the school board has asked several fence manufacturing concerns to submit bids on the fence that is to be constructed around the new high school property.

J. E. Schoen and bride arrived home yesterday. They will begin housekeeping at Ishpeming at once. They are to occupy one of Mrs. John Muggins' dwellings on North Third street.

A number of Negaunee men plan on attending the catch-a-catch-a-wrestling match between John Rowland and Pearl Heaman, this evening at Ishpeming.

AUTOMOBILE DISPLAY.

Hundreds of Machines Will Be Seen in Elks' Procession at Detroit.

The publicity committee for the Elks' convention and reunion to be held in Detroit in July, and which will be attended by a large number of upper peninsula members, has advised the judges that there will be twenty miles of automobiles in the procession. The value of the machines will be more than \$3,000,000. The start of the automobile parade is to be made from Boulevard and Woodard avenues. In order to let every driver see the parade the start car in the procession will have to be driven to Grand Pointe before burning for the counter-march, so that the last auto in line may be given an opportunity to pass the others on the return.

That the automobile parade will be the greatest ever held in America is assured. Previously the number of automobiles in a parade was something like 1,032 but in the Detroit turnout there will be more than 2,000. The roping plan used the day of the Elks' parade will be left intact, the police patrol will be the same and the D. U. R. has given assurance that its cars will not break through the line.

It is expected that many beautiful and original productions in decorations will be displayed, and this is going to tax local talent and labor to its utmost. Decorators from abroad will be drawn to Detroit to take care of the demand for labor.

The automobile committee is making plans to care for owners of cars who intend motoring to Detroit.

WILL TAKE SCHOOL CENSUS.

William Verran, who has taken the school census in Negaunee for a number of years past, has been engaged by the board of education to do the work again this year. Some time ago, when Mr. Verran was offered the work, he expressed doubt whether he would be able to do it, because of his having the supervision of the general census for the government, but the latter work has progressed so satisfactorily up to this time that he expects to soon complete it, and he will then be at liberty to begin the school census.

TEACHERS TO REMAIN.

Miss Anna C. Jensen and R. C. Cole, members of the Negaunee high school faculty, who expected to take positions elsewhere, have decided to remain in Negaunee for another year, and have both been re-engaged by the board of education. Miss Jensen has charge of the domestic science department and her work has been most satisfactory. Mr. Cole is assisting Principal Erickson.

A MAN WANTS TO DIE.

Only when a lazy liver and sluggish bowels cause fruitful despondency. But Dr. King's New Life Pills expel poisons from the system; bring hope and courage; cure a Liver, Stomach and Kidney trouble; impart health and vigor to the weak, nervous and ailing. 25c. at The Stafford Drug Co.

Foley Kidney Pills contain in concentrated form ingredients of established therapeutic value for the relief and cure of all kidney and bladder ailments. Sold by all druggists.

A good heater is better than a good speaker.

LEAGUE OPENS TODAY.

If Weather Is Favorable Game Will Be Witnessed by Large Crowd.

Many Negaunee people are wondering if "Reddie" McKey intends to play baseball here or remain at Battle Creek, where he has been catching for a month past. In the report of the game played by the Battle Creek team Wednesday, McKey was charged with having lost the victory by a bad throw to second base. In spite of this fact it is said that he has been making good. He has written his Negaunee friends a number of letters, and has said in all of them that he intends to return. The players were disappointed when he did not show up on Thursday, when he had promised to be here. It is said that McKey has signed with the Battle Creek team, and that if he leaves there without being released he will be blacklisted.

Negaunee will be able to get along without McKey. Manager Thoren has another good catcher in sight and will probably have him here before the end of the coming week. It is not known just what today's lineup will be, but it is likely that Roseward will be in the box, and that Steidle will pitch tomorrow's game. Gonlette will likely twirl for Ishpeming today and Dixon will probably be in the box tomorrow. The game on both days will start at 2:30 o'clock sharp. The diamond lines will be chalked and the diamond put in first-class condition.

MINER MEETS DEATH.

Italian Workman at the Cambria Killed by Falling Ground.

John Grearatti, a miner employed at the Cambria property of the Republic Iron & Steel company, was instantly killed yesterday morning at 10 o'clock. He and his partner were working in an effort to release a drill that had become fastened in a hole they were boring when a chunk of ore weighing between twenty-five and 100 pounds fell from above, striking Grearatti in the back.

ing theater. The contest will start at 8:30 o'clock.

C. G. Griffoy, who came up from the lower peninsula early in the week, left yesterday for his home. While here he had shrubbery and flower plants set out at his residence property, corner Cyr and Jackson streets. An iron fence was also erected.

The members of the senior class of the Negaunee high school were tendered a reception and hop last night in the gymnasium of the new school building. The room was attractively decorated in class colors and the party was well attended.

J. E. McCarthy and Gustav Rosted, who are working for the North American Accident Insurance company, which is now working in this county, are here from the copper country. Mr. Rosted is to have charge of the business in this county under Mr. McCarthy, whose headquarters are in Calumet. Dr. George Bellumier of the Negaunee hospital staff is the company's Marquette county physician.

GYROSCOPE FOUND TO GIVE POISE TO BIG WARSHIPS.

New York, May 13.—Freedom from rolling for the battleship in the heaviest seas is now assured, according to Elmer A. Sperry, who lectured at the Engineer's club on a series of experiments that have been made by him at the navy yard in Washington during the past six months. Mr. Sperry demonstrated his talk with a working model of his improved gyroscope, through which the stability is to be obtained. The engineers who listened to him declared that they believe his device will overcome entirely the rolling motion imparted to ships, either by wave pressure or by recoil of big guns. Another advantage which is claimed for this type of gyroscope is the fact that, owing to its extreme sensitiveness, it needs to be of a weight but one-tenth of 1 per cent of that of the ship which it is intended to govern.

Foley Kidney Pills are antiseptic, tonic and restorative and a prompt corrective of all urinary irregularities. Refuse substitutes. Sold by all druggists.

Murder may be condoned, but discourtesy never.

COME TO OSHKOSH

5,000 Men Wanted

Steady Employment Good Wages

A wonderful opportunity for you to secure better wages. The City of Oshkosh has entered upon a period of growth that is phenomenal. Workmen in all lines can find immediate employment.

OSHKOSH is the city of greatest opportunity for the workman today. You can find employment there at once. The new industries locating in Oshkosh, the rapid expansion of present factories, the great increase in building operations, offer employment to all classes of labor. Oshkosh has now over 300 prosperous manufacturing concerns. Every one of them is in need of more help. Conditions are such that they must rapidly train unskilled labor into skilled help to care for increased production. This means quick advancement—higher wages. For a man with a family the situation offers unusual advantages. He can not only find employment for himself but also for his sons and daughters. In Oshkosh the majority of workmen own their own homes. Churches of all denominations are thriving—schools are the best—stores carry large and complete stocks of all commodities supplied from local wholesale houses which equal those of the larger cities. Rents are low—property reasonable now but will rapidly increase in value. Splendid street car service reaches all parts of the city—3 cent fare during time men are going and coming from work. Up-to-date Interurban Cars afford rapid transportation to surrounding cities at low rate. Oshkosh, one of the most beautiful and healthful cities in the country, is situated in the famous Fox River Valley on the shores of beautiful Lake Winnebago in the heart of one of the richest agricultural districts in the world. It is a country seat. Within a radius of 50 miles there are 200,000 people. Its manufacturing industries send their products all over the world. It is the home of the largest match factory—the largest sash, door and blind factory—the center of hardwood and veneer door production. Shipping facilities are excellent, via lake or rail. Oshkosh is famous as a summer resort. People come from all over the country to spend their vacations here. Its shady, parklike streets, handsome public buildings, comfortable homes, splendid police and fire departments, excellent gas and electric lighting systems, make it at once a safe, pleasant and economical place to live. There are plenty of amusements both outdoor and indoor—good theatres and short, easy, inexpensive trips up the lake or into the country.

Some of the Products Manufactured

Sash, doors and blinds—hardwood and veneered doors—mattresses—logging and mill supplies—bank and office furniture—boats—engines—sawmill and shingle-mill machinery—furniture—mattresses—springs—carriages—trunks—bags—quills—bottle covers—grass matting—clothing—muslin underwear—boilers—boxes—brooms—wagons—cigars—cigar boxes—excelsior—kitchen cabinets—step and extension ladders—rugs—sawmills—sawp—threshing machines—vinegar—

NEW TRAIN SERVICE STARTS TOMORROW

SOUTH SHORE EXPRESS NOW LEAVING AT 6:45 A. M. WILL LEAVE AT 5:15 A. M.

AFTERNOON TRAIN UNCHANGED

From Negaunee South Shore Road Will Handle Northwestern's New Iron & Copper Country Express.

The South Shore management has now officially announced the new Marquette-copper country train service that has been the subject of so much discussion the past week or ten days. One of the most radical changes in the service made of late years is proposed, but it is one that, on the whole, greatly benefits the people of this city. It is a announced in conjunction with the new Iron & Copper Country Express, of the Northwestern line.

The South Shore train now leaving here at 6:45 a. m. will, beginning tomorrow, leave at 5:15 a. m., or an hour and a half earlier than at present. This train will only run to Negaunee. There the South Shore coaches, all but the mail car, which has been painted yellow to correspond to the Northwestern coaches, will be set out and the South Shore locomotive and mail car will pick up the Iron & Copper Country Express and pull it through to the copper country.

This Iron & Copper Country Express will leave Chicago at 6:30 p. m. daily, instead of at 8 p. m., as at present. It will be a new train of steel frame cars, with new Pullmans of the latest design and most modern appointments, including electric lights. This train will arrive at Negaunee at 6 o'clock a. m., and the Marquette sleeper will be set out at Ishpeming. This sleeper will later be hauled to Marquette by a train arriving here at 7:55 a. m.

The Iron & Copper Country Express will be hauled south in the afternoon on the same schedule now in force. At Negaunee the South Shore will pick up the coaches left there in the morning, the Marquette passengers transferring at that point both in the morning and in the evening.

Boon for Marquette People. The Marquette traveling public will find the new service a boon. The present service leaves little time in the copper country towns for Marquette people who desire to transact business in them and return the same day. The time available for this purpose will be increased the difference of the leaving time, an hour and a half, by the new service. Of course passengers for the new train will have to arise early, but if they are pressed for time it will be worth their trouble to do so. For those to whom time is no great object, the 8 o'clock train for Milwaukee, run by the St. Paul line, connecting with the cop-

per country express on the St. Paul line at Champion, is a later train through to the copper country. The mail service will be quickened. This will work out more to the advantage of the publishers of The Mining Journal than to any other single interest. The early departure of the train will permit it to secure the delivery of its daily edition to its extensive Negaunee and Ishpeming subscription lists before the breakfast hour, making its service in those two towns, to all intents and purposes, the same as it is able to give here. All its westbound mail will be gotten out on the early train and its delivery to all points west will be quickened by the difference in the leaving time of the new train, compared with the present one. It will necessitate going to press somewhat earlier.

After Copper Country Business. The new train service was planned by the Northwestern company to put it in a position to go after the copper country passenger traffic more effectively than it has been able to heretofore. The South Shore company fell in with the Northwestern's plans to improve the Chicago-Cahmet service. The copper country will be the greatest gainer through the new service, as not only will the Chicago train arrive there much earlier than at present, but the copper country people will have the advantage of a through service of finely equipped coaches and Pullmans.

It is reported that the Chicago, Milwaukee & St. Paul's mail contracts will prevent that road from taking any steps to meet the competition of this new Northwestern service. The St. Paul train from Chicago now arrives in Cahmet shortly after the noon hour.

Consolidation Not Possible. "This talk about a possible consolidation of the Soo and South Shore lines that is going the rounds of the newspapers is all nonsense, as the newspaper men would know if they would stop to think a minute about it," said a South Shore official yesterday. "Do you recall the Northern Securities decision of the federal supreme court? If nothing else stood in the way of a consolidation this decision would bar it. The South Shore and Soo lines are competing interstate railroads serving the same territory. Any plan to bring them under one management would go hang up against the courts."

CARD OF THANKS. We wish to express our sincerest thanks to our friends and neighbors who were so prompt to show their sympathy for us in our recent bereavement by their aid and kindly attentions. Their friendship will never be forgotten. JAMES MESSIER and Family.

Just received the latest in turbans and ladies' dress hats. Also a nice line of children's confirmation hats. MISS NELLIE MERRITT, (5-13-21) 133 West Ohio Street.

When you want clean milk from clean cows, produced in clean barns, well lighted and ventilated, from tuberculin tested cattle, call up the Marquette City Dairy, Marquette's Ideal. Bell phone No. 223. (5-2-1m)

The regular Saturday night hop will be held at Fraternity Hall tonight. Music by the Peerless orchestra. 5-13-21

FROST IS SIGNED.

Will Pitch for Marquette Team During the Present Season.

W. O. Frost, the well-known Munising pitcher, was in the city yesterday, meeting with the directors of the Marquette baseball team. It is announced that arrangements were made to have Frost work for the team during the season now opening. He will not be able to go to Crystal Falls with the team this morning, as he had previously agreed to play with Rapid River, but hereafter he will alternate with Scholastic in doing the pitching for the Saturday and Sunday games. Frost is as dependable a pitcher as is located in this region and with proper support can be depended on to get his share of the games. The management of the team yesterday received word that Percy Croze, of Houghton, could not come down for the Crystal Falls game, and arrangements were made to have Jacobs, a well-known Soo backstop, come here to go behind the bat. The team leaves this morning at 8 o'clock.

For today's game the team will probably line up as follows: Young, shortstop; Weiser, right field; Riopelle, left field; Clifford, center field; Jacobs, catcher; Scholastic, pitcher; Mack third base; Eddy, second base; Wing, first base. Richardson and Jeanson will accompany the team as the second battery. Hamilton will not be able to go to Crystal Falls for the games, word to that effect having been received yesterday.

SOO CANAL PASSAGES.
