NUMBER 7653.

MARQUETTE, MICH., FRIDAY, JUNE 3, 1910.

PRICE FIVE CENTS.

ROADS UNDAUNTED BY FEDERAL MOVE

Legal Notifications of Proposed Increase of Commodity Rates Pour Into the Offices of the Interstate Commerce Commission.

They Are Filed by Practically Every System in the East and the Middle West and They Contemplate Advances Ranging from 3 to 31 per Cent—Vote in the Senate Is Withheld, and Mr. Wickersham Declines to State Just What He Will Do.

Washington, June 2.—Undaunted by the government's proceedings under the Sherman anti-trust act, by which part of the proposed increases in freight rates in the territory west of the Mississippi river have been suspended by injunction, the railroads in the East and in the Middle West today filed with the interstate commerce commission tariffs embodying various increases of rates.

Attorney General Wickersham declines to indicate what course he will pursue in behalf of the government, while the senate, just on the verge today of passing the administration rate bill, hesitated and finally postponed action until another day.

Tonight practically every railroad system in the North, from the Atlantic to the Pacific, has filed with the interstate commerce commission legal notification of proposed increased commodity rates. The increases filed today range from 3 to 31 per cent. The time set for the increases to go into effect on the Eastern roads was generally July 3. On the roads in the Middle West, July 1 was the date fixed.

Before the revised tariffs began to pour into the offices of the commission, Attorney General Wickersham received telegrams from Western shippers, asking him to take action to have the injunction extended to other commodities, and especially to wool. Replies were made that it was now too late. As to the course of the government in regard to the railroads in the East and Middle West, the attorney general is not ready to talk. Immediate action is not necessary, inasmuch as the rates will not go into effect for a month. Mr. Wickersham said that no complaints had yet been received by him from shippers in the East or Middle West.

The railroad bill in its present form gives the interstate commission power to investigate the reasonableness of proposed increases of rates and to suspend their going into operation as long as ten months. Unless the railroads had put their new rates into operation by the time the bill becomes a law, the interstate commerce commission might suspend their operation for the purpose of investigation. In this way the same result might be accomplished as was sought in the legal proceedings by the department of justice against the roads west of the Mississippi.

Western Railroad Officials Perplexed.

Chicago, June 2.—President, traffic managers and lawyers representing eight of the big railroad systems entering in Chicago found themselves considerably puzzled as to the real situation when they met in the office of President Ripley of the Santa Fe today.

So little of definite nature was known by the railroad men as to what specific rates had been enjoined, and what agreements had been brought to bear on President Taft, that those at the meeting found themselves without a well-defined subject for discussion, according to one of the officials who was present. Some expressed the opinion that the president had been misled by the statements of the shippers, while others were inclined to see a political motive behind the Missouri injunction. A direct expression from the White House will be sought, it is said, by the heads of the important railroad companies.

A meeting of railway attorneys scheduled informally for tomorrow will not be held, as it is thought that many of the lawyers cannot reach Chicago by tomorrow. The committee of shippers appointed at the meeting here May 17 will meet next Tuesday to consider its action on the tariff advances announced for July 1 and 5 by the Eastern roads.

St. Louis, June 2.—The twenty-five Western railroads temporarily restrained from advancing their freight rates in the territory of the Western trunk line committee will ask for the dissolution of the injunction following a conference in Chicago next Wednesday.

Wall Street Speculation Pauses.

New York, June 2.—The speculation in securities today showed a disposition to ease and take stock of the situation created by the injunction against raising the Western trunk line freight rates. There seemed to be a consciousness developed that the heading rate at which the damage feared from this action was being absorbed might have in it the quality of headlessness. The question arose in the minds of eager sellers of stocks whether they might not be sacrificing their own holdings and at the same time playing into the hands of other speculators over whom they were seeking to obtain the advantage.

The new measure inaugurated by the department of justice remained the central topic of discussion. On the part of the stock market operators, and to some extent of railroad officials, there is heard some criticism of the Western Trunk Line committee of the methods

it pursued in seeking the rate advances which have been enjoined. The fact that one agent was used by all the railroads in filing the notices of the advances is cited as almost a challenge to government authorities to test the prohibition of rate advances in the anti-trust law.

A report was in circulation that the New York Central had asked for the cancellation of an order for new freight cars, said to amount to between five and six million dollars. There were rumors, also, of a proposed heavy reduction of working forces by the railroads. The weakness of St. Paul was attributed to fears for the integrity of the dividend, without higher charges for transportation. The effect of the reduced net earnings of the railroads on the placing of railroad bonds abroad is another phase of the problem given much attention.

The stock market closed but little changed from yesterday's closing prices, the early losses having been practically made up.

JOIN HANDS WITH THE COAL MINE OPERATORS.

Illinois Manufacturers Demand the Immediate Resumption of Work at the Collieries—Attitude of Union Men Denounced.

Chicago, June 2.—Demanding that the national and state officials of the United Mine Workers and the representatives of the Illinois Coal Operators' association immediately adjust their differences and reopen the coal mines of Illinois, the Illinois Manufacturers' association, at a special meeting here today, appointed a committee empowered to call upon the state or federal authorities and to take other steps to assure the speedy resumption of coal hoisting at all the mines in the state.

The manufacturers voted to stand with the coal operators in the fight, after various speakers had stated that the miners had resumed work in Pennsylvania, Ohio, Indiana, Iowa and Michigan. The meeting was attended by a number of well-known members of the coal operators' association, who condemned the operators in the southern part of the state for making agreements with the miners objectionable to the other mine owners of the state.

In a lengthy set of resolutions, approved by the manufacturers, the coal strike situation was reviewed in detail and the conduct of the miners of Illinois was declared unwarranted.

Mine Workers Adopt Drastic Measures.

Springfield, Ill., June 2.—Drastic methods have been taken by the Illinois Mine Workers in an effort to force a settlement with the operators. A petition was sent from the state officers at Springfield today to all the unions where the operators have failed to sign the scale. The letter calls for the immediate notification to the operators that all engineers, firemen, pumpmen, miners and other workers will quit work within twelve hours after the receipt of the notification unless the wage scale is signed. This means heavy losses to the operators, who claim that the mines would be flooded and the mules starved.

Scale Signed by Many Companies.

The Bunson Coal company, at Danville, employing 2,000 men, signed the scale today. This mine is owned by the United States Steel corporation. The scale also was signed by the Litchfield Coal company. The operators of the Fifth and Ninth districts likewise have signed, and 20,000 of the 72,000 strikers in the state have returned to work. Seventy mines have resumed operations in the Fifth and Ninth districts, and one hundred in the state.

"Mother" Jones Is Seriously Ill.

Cincinnati, June 2.—"Mother" Jones, the gray-haired little woman who has appeared prominently in many big mine and other labor strikes in the last decade, is seriously ill at a hotel here. She is suffering from nervous breakdown.

WILL BE SOLD AT AUCTION.

Two of John R. Walsh's Roads to Go Under the Hammer Next Month.

Chicago, June 2.—The Southern Indiana and Chicago Southern railroads—John R. Walsh properties—were ordered sold at public auction next month by Judge Kossbass of the United States circuit court here today, when a decree of foreclosure was entered. The decree relating to the Southern Indiana is similar to a decree entered by Judge Anderson at Indianapolis May 27.

HE MAKES NO DEFENSE.

Banker Lyon Is Fined \$5,000 on the Charge of Smuggling.

Trenton, N. J., June 2.—Judge Rellstab, of the United States court, today imposed a fine of \$5,000 on Hiram A. Lyon, a prominent banker of Minneapolis, on the charge of smuggling. Lyon was detected last Sunday in the act of smuggling two pearl necklaces through the port at Hoboken. Lyon made no defense, and the court fixed the sentence.

HUNGARIAN MINISTRY WINS.

Budapest, June 2.—Eighty districts are yet to be heard from, but the government has secured a majority in the general elections of more than a hundred seats in the next parliament. The parties headed by Francis Kossuth and Julius Horthy have thus been overwhelmingly defeated.

CONVICTED OF HEINOUS CRIME.

New York, June 2.—Six youth of Paterson, N. J., all good families, were found guilty tonight of criminal assaulting John Rioren, a seventeen-year-old girl. The maximum punishment is fifteen years and a fine of \$1,000. Sentence was postponed.

PRESIDENT TAFT DELIVERS ORATION

He Gives the Commencement Address at Bryn Mawr College, Pa., Where His Daughter Helen Is a Student.

Higher Education, He Concludes, Does Not Detract from the Power of Woman to Make a Good Companion or Mother, While at the Same Time It Makes Her Independent—Today He Will Address the Graduates of the Ohio Northern University.

Philadelphia, June 2.—President Taft delivered the annual commencement day oration today at Bryn Mawr college, where his daughter Helen is a student. Taking for his subject, "Higher Education for Women," the president declared that "college education certainly does not detract from the power of woman to make a good companion or to train and teach children, while at the same time it makes her independent, as if she never makes a man who can make her happy as a husband she can become a useful member of society."

Losses Suit Case and Overcoat. The president reached here shortly before 11 o'clock. After his arrival his suit case containing his cap and gowls was mislaid, and he was obliged to deliver his address clothed in his traveling suit. He left here at 5 o'clock for Ada, O., where tomorrow forenoon he will address the graduating class of Ohio Northern University. He is carrying a new overcoat, discovered shortly before the president's departure, but after boarding the train he found that he had forgotten his overcoat. The secret service men were unable to recover it before the departure of the train.

College Raises Big Fund.

At the commencement exercises, Miss M. Carey Thomas, president of the college, announced that the fund of \$380,000 required to be raised by today in order to secure \$250,000 promised by the General Education board had been secured. Seventy young women were admitted to Harrisburg, Pa., June 2.—President Taft arrived here at 7:11 tonight and left at 7:45 for Pittsburg over the Pennsylvania railroad.

FINAL VOTE IS EXPECTED TODAY.

Senate Adopts Important Amendments to the Railroad Bill.

Washington, June 2.—A number of important amendments to the railroad bill were adopted by the senate today. Among these was one by Senator Overman, of North Carolina, prohibiting federal courts from granting interlocutory injunctions to suspend the operation of the order of three judges, one of whom should be a member of the supreme court or a circuit judge.

The provision including telegraph companies within the scope of the interstate commerce law was modified so as to prohibit the granting of telegraph franchises and permitting special rates on press despatches. The time when the bill shall take effect was extended to sixty days after its passage.

House Sides With Labor Unions.

Washington, June 2.—An amendment to the sundry civil appropriation bill adopted by the house today stipulates that no part of the \$100,000 provided for the enforcement of the Sherman anti-trust law can be used in the prosecution of labor organizations. The amendment was proposed by Mr. Hughes, of New Jersey. Chairman Tawney, of the appropriations committee and in charge of the bill, resisted the amendment, but received little support from his party colleagues. The Democrats voted for the amendment, and some Republican "independents" joined them.

Action was taken today by the judiciary committee of the house looking to the appointment of a commission "for the purpose of making a thorough investigation of the subject of employers' liability and workmen's compensation." A resolution for the creation of such a commission was reported by Representative Moon and was based upon the bill introduced by Mr. Sabath and which the committee has had under consideration for several weeks.

WILL HEAD MINING BUREAU.

Edward W. Parker, U. S. Geologist, Is Stated for the Position.

Washington, June 2.—Edward W. Parker, chief statistician of the Geological survey, is slated to become director of the new bureau of mines. Announcement of the appointment, it was reported today, will be made by President Taft upon returning from his western trip.

PENSION FOR MRS. HOWARD.

Washington, June 2.—The widow of General O. Howard will receive a pension of \$100 a month by the action of the house today.

THE WEATHER

Washington, June 2.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy, Friday and Saturday; light variable winds, mostly northerly.

Louisville, 5; Minneapolis, 6.
Other games postponed; rain.

Western League.
Sioux City, 10; Omaha, 7.
Wichita, 10; St. Joe, 8.
Other games postponed; rain.

UNCLE SAM WILL AID.

Government Joins in the Hunt for Alma Kellner's Murderer.

Washington, June 2.—The state department will render every possible assistance to the Louisville authorities in tracing the murderer of little Alma Kellner. The department today received a communication from the citizens of Louisville through Congressman Shelby asking the department's aid in locating the murderer in case he should have gone abroad. It is expected that circular letters embodying all the information obtainable will be sent to all the United States diplomatic and consular officers throughout the world. The co-operation of the police authorities of the several countries will be requested.

LORIMER AFFAIR SHELVED AWHILE

Prosecutor Burke of Sangamon County Is Devoting His Attention to the "Jackpot" Phase of the Legislative Accusations.

He Has Found That Money Was Paid to Defeat the Fish Bill, He Says, and He Expects That the Inquiry Into This Transaction Will Be Productive of the Most Important Results Since the Doings of the Illinois Law-makers Have Been Investigated.

Springfield, Ill., June 2.—That the grand jury questioning concerning the "jackpot" phase of the legislative accusations was "hold out" the sum given him in the "jackpot" phase of the legislative accusations is the expectation today of State Attorney Burke, of Sangamon county.

Information given the prosecutor today, he said, supplemented fragments known by him before and has completed a chain of evidence from men who paid sums of money to defeat the bill to a man who collected the amounts and up to a legislator who is charged with having "held out" the sum given him in the "jackpot" phase of the legislative accusations. The state's attorney said that he had been given the name of a legislator who had been given \$3,000 of the \$2,500 collected to defeat the bill and who had failed to turn the money over to the "jackpot," which was its designed resting place.

Witnesses examined today by Mr. Burke, parts of whose testimony went into the chain of information of the strayed fund, were Fish Commissioner Cohen, Fish Warden Caldwell and Representative Foster, chairman of the fish and game committee. Some twelve or fifteen witnesses are to be subpoenaed in connection with the fish bill inquiry. Most of the additional facts were furnished by Fish Commissioner Cohen and Fish Warden Caldwell. Representative Foster was not questioned to any length by Mr. Burke and his answers were practically confined to telling what action the committee had taken on the bill. Additional testimony regarding the fish inquiry came from Representative Beckmeyer, if the fish witnesses reach Springfield tomorrow, they will be taken before the grand jury and more indictments may follow.

The investigation of the fish scandal is in line with the investigation of the intention of Mr. Burke to go after the "jackpot" end of the legislative accusations and to ignore for the present the senatorial bribery phase, which is holding the attention of the Cook county prosecuting attorney. In addition to the developments in the fish bill investigation, the program tomorrow includes the appearance of Representative Beckmeyer before the grand jury. The net result of the visit of Mr. Burke to Governor Denen today was an understanding that the prosecutor would have the hearty co-operation of the governor in any matter where the chief executive could be of service.

Governor Wants Whole Plot Exposed.

Springfield, Ill., June 2.—Governor Denen tonight issued a statement regarding the visit of State's Attorney Burke to his office today. He said that the legislative corruption was discussed and that the governor offered Mr. Burke any service possible in the investigations. "The taint of guilt should be traced from the members of the legislature who have received bribes to the persons or the corporations who gave them. The whole nefarious plot should be exposed, and all connected with it prosecuted and all who are innocent relieved from the burden of unjust suspicion."

"The crime of bribery is one of the most insidious and dangerous crimes against the state. It makes a farce of party contests and elections. Our general assembly should not become a place where political highwaymen exact tribute from defenseless citizens, or a market place where laws are huckstered to venal bidders."

"Every citizen who has any knowledge of the commission of crimes in our general assembly should furnish it to the authorities."

Representative Beckmeyer is reported to have declared today that he will send his resignation from the legislature to the governor before he leaves Springfield.

Fraternal Insurance Scandal Promises to Develop Sensations.

Chicago, June 2.—State's Attorney Magill, of Cook county, today after intimating that a confession from a wealthy Chicagoan, well known in the social and business world, is apt to be one of the sensations in the fraternal insurance scandal now under investigation. Many Chicagoans will be summoned in the Cook county grand jury investigation, and the situation is being closely watched by State's Attorney Magill, of Cook county, and State's Attorney Burke, of Sangamon county, as the alleged frauds also are under their jurisdiction.

"A wealthy Chicagoan has been mentioned in the probe," said Mr. Magill, "but I cannot comment upon that phase of the matter now; the grand jury proceedings will speak for themselves. I expect indictments. I also feel satisfied that several Chicagoans have committed perjury in this case."

The Rock Island grand jury reconvenes tomorrow and the insurance

ALLEGED MOONSHINERS INDICTED.

Chicago, June 2.—Charged with having operated a "moonshine" brandy still near the heart of Chicago and defrauding the government out of \$112,000 of internal revenue tax, Simon Frindel, Max Bronstein, Abram Weiss, Frank Weiss and Jacob Seizer were indicted by the federal grand jury today. Frindel is president of the Illinois Fruit Distillery company.

Coal Dealer to Be Tried Again.

Chicago, June 2.—James P. Conery, secretary and treasurer of the Chicago Fire Appliance company, was reindicted today on the charge of defrauding the city in coal contracts. At a recent trial Conery was found not guilty of the same charge. The state's attorney says there was a technical fault in the indictment.

SENATORIAL SITUATION HANGS ON WILLIAM ALDEN.

What Will the Junior Senator Do?—That One of the Big Questions in Michigan—How Congressional Districts Stack Up.

Lansing, Mich., June 2.—[Special.]—Senator J. C. Burrows' announcement that he will be a candidate for United States senator in the primaries received only a faint amount of comment at the state offices. Opinion among persons holding state jobs is about equally divided between Burrows and Townsend, the latter, however, having the support of the younger and more active elements.

To a person familiar with conditions in various parts of the state, it appears that Burrows is not as strong in some parts of Michigan as his managers claim he is. In the Thumb, for instance, which was claimed by the Burrows people, the Townsend sentiment is pronounced, and the Jackson man will receive a good vote there. It looks as if Townsend will break even in the First congressional district, and of course, he will get a large vote in his own, the Second. The candidates now run pretty close in the Third, but Townsend will lose the Fourth, which is Senator Burrows' stronghold.

The result in the Fifth will depend on future developments and on the nomination of Senator William Alden Smith will take in the senatorial contest. The Sixth will give Townsend a good vote, and the Seventh as well. In the Eighth, however, Burrows appears to be strong. The vote will be close in the Ninth, but Townsend having a shade the best of it, while in the Tenth the same condition holds good, with Burrows slightly in the lead. The Eleventh will go to Townsend. In the Twelfth, it looks as if the agricultural counties southeast of a line drawn from Marquette to Iron Mountain, will give a majority for Townsend and Burrows will carry the copper country and the western part of the upper peninsula.

This is the situation as it appears today. Between now and the primaries many things may happen. One of the main questions asked by politicians is, "What will William Alden Smith do?" Will he remain neutral or will he take his hand in the fight? The catch phrase, "The are all my friends" will not make the junior senator any friends at all, but, on the contrary, a lot of people would be dissatisfied with his inactivity. For it is really Smith's fight, as well as Townsend's—at least many voters are inclined to look at the situation that way.

There appear to be many people who have a grudge against the junior senator, for various reasons. The Burrows men can not forgive him the appointment of Rich and Montgomery and the nomination of Charles J. Byrns for the Marquette collectorship. Burrows could not keep step with Smith, when it came to handing plums to his friends. As long as Smith remains active in the senate, there will be no chance for any one else but friends of the junior senator. But conditions would change, if Burrows succeeded in getting reelected, for then the old cry would be raised that western Michigan has a senator.

The eastern part of the state is entitled to one, and Newberry, or some other acceptable man, would be trotted out to restore the political equilibrium.

This is the layout. Two years must elapse before William Alden Smith's present term expires, but the mills of the politicians grind slowly. The desire to make the junior senator a one-termer is discussed freely here, and the only way that it can be done, according to the friends of the senior senator, is to reelect Burrows. The Grand Rapids friends of the senior senator are especially active along this line, and make no bones about it either. Their object is to get after Smith through Burrows.

As a general proposition this policy of action has not yet been adopted by the Burrows forces throughout the state. It is still hoped that some arrangement can be made between the two senators relative to the distribution of the federal patronage. It has been stated that friends of Burrows that he would consent to the confirmation of Charles J. Byrns as collector at Marquette, if Smith would promise to support him in his present campaign. Even if Smith would consent to such an arrangement it would not change the attitude of Burrows and his friends when Smith's term expires. They are after their share of the federal pie and Smith stands between them and the lunch counter.

For the above reasons Townsend's friends expect that the junior senator will get into the game and help to elect a man from the eastern part of the state, one with whom he can work in harmony in the senate and who will be in position to offer a helping hand when Smith is up for reelection in 1912.

WAR VETERAN DROPS DEAD.

Chicago, June 2.—Colonel Wilton Atkinson Jenkins, aged eighty-two, a Chicago pioneer and veteran of the Civil war, dropped dead of heart disease today while reading a paper at the Mid-day club before members of the Illinois commandery of the Loyal Legion.

JOCKEY IS INSTANTLY KILLED.

Gravesend, June 2.—Jockey Fred Langan was instantly killed today when his mount fell on the home stretch turn.

BRANDS THE STORY AS A "PLAIN LIE"

Gov. Gillett of California Denies a Reported Interview, Quoting Him as Declaring the Jeffries-Johnson Fight a "Frame-Up."

White Man Was to Win, It Was Said—This Creates a Turmoil in the Blacksmith's Training Camp, and the Big Fellow Threatens to Quit—Negro Goes Motoring—English Aviator Sets New Aeroplane Record by Crossing the Channel Twice.

Chicago, June 2.—Governor Gillett, before leaving Chicago for California late today, labeled as a "plain lie" the report that he had stigmatized the Jeffries-Johnson fight as a frame-up. He denied all the statements attributed to him by the agents of a certain news syndicate.

Jeffries Aggrieved.

Ben Lomond, Cal., June 2.—"For two plus I would peck up and take my family back on the ranch and call the whole thing off," declared James J. Jeffries today when shown an interview from Chicago quoting Governor Gillett as saying that the Jeffries-Johnson fight was a "frame-up" arranged for the white man to win. Jeffries was hurt and angry over the matter.

"I cannot believe," he said, "that Governor Gillett is truthfully quoted. I do not believe that he ever said a word against the fight." Turning to the newspapermen, the big fighter said: "You boys who have seen me working here must know that my heart and soul are in the coming scrap, and it does not stand to reason that I would break my neck working if everything was settled for me to win."

For a while the camp was in a turmoil as a result of the story. Later, when the Gillett story was declared untrue by the governor himself, quiet returned to the camp and Jeffries went to work again. Frances Gibbs, the welter champion, will arrive the latter part of next week.

Johnson Gives New Auto a Trial.

San Francisco, June 2.—Jack Johnson could not overcome the desire to give his new ninety-horsepower automobile a thorough tryout today, and as a result no work was done in his training quarters. The entire staff of trainers and sparring partners were given a treat. The champion gathered them all in the machine and set sail early for San Jose, fifty miles away.

"There is not a word of truth in the story sent from Chicago that Governor Gillett had declared the big fight a frame-up," said Tex Rickard. "I've positive assurance that the governor has branded the whole supposed interview as false."

"I will certainly be the referee of the contest. That is final. I am sure that nothing with the semblance of crookedness will be countenanced."

CROSSES THE CHANNEL TWICE.

Aviator Rolls, Englishman, Makes the Round Trip in 96 Minutes.

Dover, Eng., June 2.—Hon. Charles Stewart Rolls, captain of the London section of the army motor reserve, driving a Wright bi-plane, vindicated Anglo-Saxon aeronautics by crossing the English channel twice this evening without alighting. He made the round trip between Dover and Calais in ninety minutes.

While two Frenchmen—Louis Bleriot and Count De Lesseps—have crossed the channel in aeroplanes, it remained for an Englishman in an American machine to perform the double feat. The distance across between the two points named is twenty-two miles, so that his overwater flight of forty-two miles without a stop establishes a new record.

Big Meet Planned at St. Paul.

St. Paul, June 2.—The Twin City Aviation Exhibition company filed articles of incorporation today with the secretary of state. The capital stock is \$750,000. The incorporators and officers are all Twin City men. The company will hold an aviation meet at the state fair grounds here June 22 to 25, inclusive. Thirty thousand dollars in prizes will be offered. Contracts have already been signed with Glenn Curtiss, Charles Hamilton and Charles Willard. Barney Oldfield will compete with the aeroplanes to set a new record for the world's fastest race.

A movement has been started here to offer a purse for a flight from Chicago to Des Moines.

Des Moines Launches Aviation Scheme.

Des Moines, Ia., June 2.—A movement was launched here by the members of the Greater Des Moines committee for the continuation of the proposed aviation contest from St. Louis to Kansas City to Des Moines and thence to Minneapolis. The Des Moines Capital has wired to newspapers at Kansas City and Minneapolis for co-operation.

Wright Brothers Will Enter.

Dayton, O., June 2.—Orville and Wilbur Wright announced today that they will enter the long distance aeroplane contests announced if the conditions are favorable.

Muskogee, Okla., June 2.—The Phoenix will start a subscription that will amount to a purse for an aviator making the New York-St. Louis flight, if he will continue the flight to Muskogee.

June 23, 1887.
Of course if this had weather keeps
up we could play indoor baseball.

In taxation as in everything else all
the upper peninsula asks for is a
square deal.

When it comes to upper peninsula polit-
ics Jack Cremer of the Journal writes
as if he hadn't left the boat.

Senator Burrows will need all the up-
per peninsula votes he can get, no mat-
ter how numerous they are.

The council has voted to retire \$5,000
of municipal bonds. Laudable act. But
where's the money coming from?

The weather man varied the monotony
somewhat yesterday. For a slight
change he gave us a little June snow.

If these umpires aren't used better the
league will presently not have enough
money to be able to command their ser-
vices.

Zbysko, without exactly being a false
alarm, is still a good deal of a disap-
pointment. Why, he hardly warmed
Gotch up.

Vice President Sherman is to be the
headline attraction at the Republican
"harmony" convention in Milwaukee
next week.

A few more of these supreme court
decisions and the interstate commerce
commission will enjoy a greatly en-
hanced prestige.

Victor Berger says that socialism is
about to overwhelm both the old par-
ties. We had no idea that the recent
Milwaukee victory had made Victor so
brave.

President Taft has, apparently, swung
at the railroads with a big stick. Is he
gradually coming to the conclusion that
a big stick is a handy thing to have
around?

The result in the upper peninsula in
the senatorial primary will largely de-
pend on what it is possible to do with
the chaps who have never heard of either
of the candidates.

The Lansing aldermen have just voted
their salaries up to \$400 per annum. It's
expected to give the movement for a
commission form of government a boost
in the state capitol.

Madam Schumann-Heink sang at the
Marquette prison. Was that another
"prison contract" incident?—Detroit
Journal. We don't know what this
means, but it wasn't.

Gentleman Jim Corbett seems to be
aching to try his luck with Jack John-
son. His admiring friends will hope
he will forget it. They would hate to
lose him from their midst.

When we read of Mr. Roosevelt's lec-
ture to the Britishers on their Egyptian
policy we find it hard to understand how
he ever got out of Germany without
reading Emperor William a lesson on
disarmament.

It is said that the late president's sec-
retary, Mr. Carpenter, is a man of quiet
demeanor, with a great liking for quiet
surroundings. No wonder he views with
pleasure the prospect of leaving Wash-
ington for Morocco.

In London there is a difference of op-
inion about the propriety of Mr. Roose-
velt's speech on the British Egyptian
policy. It has always been a peculi-
arity of Mr. Roosevelt's speeches that they
provoke differences of opinion.

The senate this week voted down Sen-
ator La Follette's amendment to the
rate bill, providing for physical valuation
of the railroads, 50 to 25. So this issue
is left for the senator for another cam-
paign for the nomination for president,
if he is ever a candidate again.

The feeling is not so bitter in the
case of Iowa, but as a matter of fact the
issue there is about the same as in the
senatorial election in Wisconsin. The
voters are called on to say whether they
will back up their senators, or back up
President Taft in the matters in which
he and the senators are at odds.

"The Burrows platform," remarks the
Detroit News, "is just what it always
has been. No one will ever quarrel with
a Burrows platform. In medicine it has
its equivalent in a bread pill; in law its

equivalent is the simplest of the com-
monments; in the nursery sugar and
water approximates it. The senator
says the country needs a navy to defend
it; also the crops need rain; and the
people need work in order to live. We
think no one will seriously disagree
with any part of Mr. Burrows platform,
for in the senate Mr. Burrows is always
voting on the platform of someone else,
anyway. Moreover this is a grand old
country—starry old flag—great state
of Michigan—boom! boom! boom-boom-
boom!"

Step by step the state's attorneys busy
with the investigation are weaving a web
of conclusive evidence about the men
accused of having helped buy Lorimer's
way into the senate. State's Attorney
Burke, of Sangamon, this week visited the
State bank of Chicago and obtained
proof of a deposit slip showing that
Senator Holstlaw had placed \$2,500 in that
institution the day, in last June, he had
sworn that Senator Broderick paid over
to him that amount for his vote for
Lorimer. The cases against Broderick
and Browne become more binding with
each passing day, and a conviction that
Lorimer's expulsion from the senate
must inevitably follow the searching in-
quiries now in progress, and the trials
that will grow out of them, is rapidly
gaining ground.

The statement is made that Representa-
tive Burns of Muskegon will not seek
a renomination. Evidently he doesn't
regard the game worth the powder that
would have to be burned in his district
to gain a second term. It's the strangest
legislative district in the state. A man
cannot, it seems, possibly serve it well
enough to win a renomination. The dis-
trict rule is one term and out. Representa-
tive Burns doubtless would be willing
to return to Lansing, if the nomination
came to him without his having to put
up a contest for it, but knowing the dis-
trict's predilection for ousting the sit-
ting member every second year, irrespec-
tive of the manner in which he has
acquired himself in office, he is wise to
withdraw from the contest. A. Mac-
Eachern, of Gould City, Mackinac coun-
ty, is a candidate. He served the dis-
trict some years ago, and he, too, was
cut off, a dawning legislative light, by
the caprice of the voters. Mr. MacEach-
ern plans an energetic canvass. It is not
known whether he will have any oppo-
sition.

Marse Henry Watterson congratulates
the Chicago Tribune on the advertise-
ing it received in Senator Lorimer's
speech. It is Watterson's idea that it is
something for a newspaper to live for
to be held up in the senate as a foe
of Limerism for a full twenty years.
And Watterson is right. The Tribune is
indeed to be congratulated, not only on
the advertising it received, but on the
public service it performed in making
the first move that led to the uncovering
of the tale of legislative graft at Spring-
field in 1899 and the revelation of the
true story of how Lorimer's election was
accomplished. This service is of inestim-
able value, for no greater service can
be done for the people than to make
political skulduggery unhealthy and im-
proper employment of money in elec-
tions highly unsafe. The people's offices
of trust must not be merchantable
things, to be knocked down in the mar-
ket place to the highest bidder. When a
verdict of a jury shows the slightest
taint of bribery connected with Lorimer's
seat the senate should, and must, vindicate
its honor by formally expelling him
from membership.

Here is a sample of the intelligent
comment that many lower state papers
are making on taxation matters. It is
from the Kalamazoo Gazette. "Believ-
ing as Kelley does on this matter, the
Gazette sees no reason why the farmer
and manufacturer should be forced to
pay practically all the taxes collected
in this state when it is known that the
copper mines are permitted to practically
escape taxation." It would seem that
there can be little hope of a sane dis-
posal of the taxation question in Michi-
gan when a paper like the Kalamazoo
Gazette will be sponsor for such a palpa-
ble absurdity as this. The Gazette
would find, if it inquired into the matter
judicially, that Houghton county is
equalized for state taxation at a figure
that makes the mines pay a tax com-
parable in size with that stood by other
property of equal value, outside the rail-
roads, anywhere in the state. The market
quotations furnish a means of keeping
tab on the copper mines. It is possible
that, along with other property in both
peninsulas of the state, the copper mines
may well bear some additional taxation,
but for a newspaper to say that they
"practically escape taxation" simply
serves to show that either the news-
paper is grossly ignorant of the facts, or
by choice, is grossly unfair. Unfortu-
nately dictums like this are being spread
abroad by many lower state papers and
a wrongful impression is becoming firmly
rooted.

"It cured me," or "It saved the life of
my child," are the expressions you hear
every day about Chamberlain's Colic,
Cholera and Diarrhoea Remedy. This is
true the world over where this valuable
remedy has been introduced. No other
medicine in use for diarrhoea or bowel
complaints has received such general ap-
proval. The secret of the success of
Chamberlain's Colic, Cholera and Diar-
rhea Remedy is that it cures. Sold by
The People's Drug Store.

Even when charity begins at home, it
usually ends with some foreign mis-
sionary.
The man who is blind to his own
interests seldom interests any one else.

The consensus of opinion in London
and England seems to be that Mr. Roose-
velt might better have refrained from
discussing the Egyptian policy of the
government. This is the tenor of much
of the press comment on the subject, and
this view is said to be reflected even
more strongly by the comment of the
men in the streets than it is by the
newspapers. Some apprehension is felt
lest his remarks will aggravate the
strained situation already existing in
Egypt. At home the view taken of Mr.
Roosevelt's address does not differ mat-
terially from the English view. While
Mr. Roosevelt may have uttered salu-
tary truths, no particular good will come
of his having uttered them at the time
and place he did, and under the circum-
stances they were enunciated. How-
ever, Mr. Roosevelt weighed all the
pros and cons of the matter, and ar-
rived at a decision that it would be salu-
tary for him to say what he did. He is
doubtless not surprised at whatever of
criticism has been written regarding his
utterance, and he, no doubt, still holds
that what he said was proper and fitting.
Also if he had the thing to do over
again he would, we may be pretty sure,
deliberately deliver the same address.

BRIBERY A CRIME.
Judge McSulley, in his opinion refus-
ing to quash the indictment found by a
grand jury against Lee O'Neil Browne,
charged with bribing Illinois legislators
to vote for Lorimer for United States
senator, showed but little patience with
the astounding contention of Browne's at-
torneys that it is no crime to bribe leg-
islators to vote for a candidate for
senator. Judge McSulley said:
"The importance of this claim is
recognized at once, and so far as I am
aware, has never before been made an
issue in any court. A claim so con-
trary to the general impression of
what the law is in this regard, and
so sweeping in its consequences,
should not only receive most careful
attention but, I believe, should not
receive assent, unless compelled
thereto by convincing reasoning and
authority. I make no apology for
admitting that my conclusion on this
point is largely one of first impres-
sion. I do regret that time did not
permit fuller investigation and am-
pler argument to justify that im-
pression."
"The claim is advanced that when
members of both houses meet in joint
assembly to vote for a senator
of the United States congress they
cease to be a state legislature
and become a wholly different
body. It is therefore important to
inquire into the origin of what elicits
the senator from the congress of the
United States. The constitution
says (Article I):
"The senate of the United States
shall be composed of two senators
from each state, chosen by the leg-
islature thereof, for six years."
"The federal statute entitled 'Con-
gress,' section 14 (election of sen-
ators) reads:
"The legislature shall proceed to
elect a senator in congress. And
again, more than once, the statute
contains the words: 'The legislature
shall elect.' This alone would
seem sufficiently clear to permit of
no further question. But it is said
that the members of the legislature
when voting to elect a senator cease
to be state officers, and are more
properly federal officers."
On this point Judge McSulley
quoted the decision of Justice Gray
in Fitzgerald vs. Greene, 134, U. S.
377.
"Paraphrasing the language of Jus-
tice Gray," said Judge McSulley, "we
may say:
"Although the legislature when
electing a United States senator is
acting under and under the constitu-
tion and statute of the
United States, they are no more
officers or agents of the
United States than are presidential
electors, when acting as electors of
the president and vice president, or
the people of the state acting as
electors of representatives in congress."
No unnecessary time is to be lost in
taking up and disposing of Browne's
case. It is set for trial for June 6, when
State's Attorney Wayman will be ready
to go ahead with it. The defense should
be ready, too, as there has been plenty
of time to prepare its case since the in-
dictment was returned. It will be hoped
that the trial can proceed without any
delay. The scandal is a noxious one,
and should be cleared up, definitely,
at the earliest possible moment.

A LAUGH OR TWO.
Now He Thinks It's Wrong to Bet.
Two old cronies went into a drug
store in the downtown part of New
York city, and addressing the proprietor
by his first name, one of them said:
"Dr. Charley, we have made a bet of
the ice cream season. We will have them
now, and when the bet is decided the
loser will drop in and pay for them."
As the two old fellows were departing
after enjoying their temperance bever-
age the druggist asked them what the
wager was.
"Well," said one of them, "our friend
George bets that when the tower of the
Singer building falls it will topple over
toward the North river, and I bet that it
won't."—Everybody's Magazine.

A Twain Story.
"Mark Twain" says a New York mag-
azine editor, "liked to tell, as an illus-
tration of persistence and push, a story
about a Sheepshead Bay race.
"He said that at the end of an impor-
tant race a young man shouted so sav-
agely 'Hats off! Hats off!' that
every one in hearing distance obeyed him
and stood bareheaded.
"A moment later the young man hasten-
ed toward an elderly gentleman,
shouting as he ran:
"You can put on your hats again
now! It's all right!"
"Some one asked him later on why he
had made all the people take their hats
off."
"Why," he replied, "I bet fifty with
a baldheaded man, and I had to find him,
hadn't I?"—Washington Star.

One of Lincoln's.
Jasper Allan Comant tells the follow-
ing anecdote of Lincoln in the Metro-
politan Magazine:
"One of the comical characters in
Washington during the war was jolly
old Isaac Newton, the Philadelphia
Quaker whom Lincoln appointed com-
missioner of agriculture—a new office
just created by congress. Newton, who
tried and at the same time amused the
president, had made his reputation on a
dairy farm; beyond this he knew little
of agriculture.
"Hearing which, I could not refrain
from asking Lincoln why he had ap-
pointed such an ignorant man to the
office."
"Because I think he's competent
enough to attend to all the agriculture
we will have till the war is ended," was
the answer."

A Shrewd Campaigner.
In a campaign in Kansas some years
ago, when the tariff was made a dom-
inant issue, an old German was running
for a county office in central Kansas.
He didn't know enough about the tariff
to talk about it two minutes. More
than that, he didn't care much, for it

had nothing whatever to do with the
office he wanted anyway. But the vot-
ers were much excited over the question
and seemed to think that every candi-
date should be able to discuss the prob-
lem from A to Z.
So this German and his campaign
manager invented a successful subter-
fuge. When the German got up at the
meetings to talk he would say: "Now,
gentlemen, I will talk to you about
der tariff. It is like—"
Just then his campaign manager
would interrupt: "Why, John, you have
only five minutes to talk. You cannot
do yourself justice in that length of
time on the tariff."
"Then I won't talk about der tariff,"
would be John's inevitable reply, and
he would go on to tell that he wanted
a certain county office, and so on. His
game won, and he was elected.—Kansas
City Journal.

THE STATE PRESS.
Talking about oil paintings, Mr.
Rockefeller has never been "done" in oil
yet.—Jackson Citizen-Press.
Amos S. Musselman was in Flint yes-
terday, and is coming again when the
campaign is warmer. And the weather,
too, we hope.—Flint Journal.
Rev. Dr. Newell Dwight Hillis says
"Roosevelt always throws sixes." Gee,
doctor, where did you learn to play it?
—Port Huron Times-Herald.
Mr. Bryan is hopeful of a Democratic
gain. Now if Mr. Bryan will only keep
in the background may be—but what's
the use, he won't.—Port Huron Times-
Herald.
It is to be sincerely hoped that the
increased cost of cotton will not further
reduce the size of those interesting all-
wool bathing suits at summer resorts.—
Jackson Patriot.
Denver has voted against prohibition
and men who drink more than they
ought to will still continue to blame it
on the altitude.—Detroit Free Press.
Last month the births in Michigan ex-
ceeded the deaths by an even thousand,
but unfortunately this will not help out
the Burrows petitions at present.—
Grand Rapids Press.
The Russian government proposes aid-
ing newspaper correspondents to obtain
the news. If the government will stand
aside for a few minutes the press cor-
respondents will do all the gathering
that is necessary.—Ray City Times.
Now that Senator Stephenson has pre-
sented the president with a cow to re-
place the late lamented Edythe the ad-
ministration only needs a new cook to
replace the one who married the White
House policeman to run smoothly again.
—Detroit News.

BUILDS UP THE HEALTH.
I have used S. S. S. quite exten-
sively, and it has been the best
of blood purifiers. It is vegetable,
as you claim, and does not injure
the system in the least, but on
the contrary builds up the general
health while ridding the blood of
all poisons and impurities. I feel
better in every way since taking
your medicine, and am firm in the
opinion that it is all you claim for
it in the cure of blood troubles.

MILLING CO.
Without a Rival

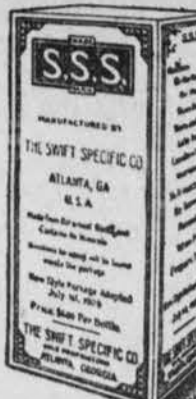

of the irate men of his visitor that
something had gone wrong.
"You are responsible, in the absence
of your chief, for this report of my
daughter's wedding," and Mr. Cobb
tapped a paragraph in the paper pub-
lished the night before.
"Yes, sir, and I thought it was a
mighty good send-off I gave them," said
the reporter.
"You did, did you?" thundered Mr.
Cobb. "Well, perhaps you will be kind
enough to explain these words."
He pointed, and following the compell-
ing finger, the reporter read:
"The gift of the bridegroom to the
bride was a brooch of rubies and dia-
monds, and there were many other
beautiful things in cut glass on that
table."—Youth's Companion.

**Chamberlain's Stomach and Liver Tab-
lets** will brace up the nerves, banish sick
headache, prevent dizziness and in-
vigorate the whole system. Sold by The
People's Drug Store.

Refrigerators That Are Built for Economy
Primarily there is only one thing for a refrigerator to do, and that is to keep food at such a temperature that it will not spoil in warm weather. The refrigerator that will accomplish this with the least possible consumption of ice, is the best refrigerator. A refrigerator must be built on scientific principles or it will fail in its mission.
Every refrigerator sold in our store has gone through an efficiency test, and we believe that each in its particular grade is the best refrigerator that will be had anywhere for the money.
Our line of high grade refrigerators are far superior to all others, as they are constructed of thoroughly seasoned hardwood, and contain eight walls of the best known non-conductors of heat and cold.
See our famous Yukon and Chilkoot Refrigerators.
Yukon, the great Sanitary Refrigerator; prices **15.50 to \$29**
Chilkoot, the best low priced Refrigerator on the market; prices **\$15.50 to \$26.**
Buy the best—they cost no more than others and will give better satisfaction.
If you don't care to pay cash, we will arrange terms to suit.

S.S.S. OLDEST & BEST
S.S.S. BLOOD PURIFIER
Time is the supreme test of all things, and the very best recommendation of S. S. S. is that it has stood a long test and is now often used, and has the confidence of a greater number of people than any other blood medicine.
The blood is the vital force of life; the health-preserving element and motive power of the system. Every organ, nerve, muscle, tissue and sinew of the body is dependent directly on the blood for nourishment and strength. As it circulates through the system, pure and full, it furnishes to these different members the health-ful properties needed to sustain and enable them to perform their various duties. So long as the blood remains free from infection we are apt to be healthy, but any impurity, humor or poison in the circulation affects some portion of the general health.
Bad blood may come from various causes, such as sluggish condition of the system, imperfect bowel and kidney action, indigestion, etc., or the trouble may be inherited, but whatever the source the blood must be purified before the body can be healthy. Pustular eruptions, pimples, rashes, and the various skin affections show that the blood is in a feverish condition as the result of some humor, or the presence of an irritating, fiery acid.
Rheumatism comes from an excess of uric acid in the circulation, while Catarrh, Sores and Ulcers, Scrofula, and Contagious Blood Poison, are all deep-seated blood disorders.
S. S. S. is a natural blood purifier and tonic. It is made entirely of the juices and extracts of roots, herbs and barks of recognized curative ability, and being free from all harmful minerals is an absolutely safe medicine for young or old. S. S. S. goes into the circulation and removes every trace of impurity, humor or poison. It freshens and enriches the blood and cures promptly and permanently Rheumatism, Catarrh, Scrofula, Sores, and Ulcers, Skin Diseases, Contagious Blood Poison, and all other blood disorders. S. S. S. is the most reliable medicine for those whose blood has become weak and who are suffering from Anemia, Malaria or other debilitating trouble. Book on the blood free. DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

City Brevities
Today's weather: Unsettled; stationary temperature.
Yesterday's temperature: Seven a. m., 37 degrees; noon, 38; 7 a. m., 40. Maximum, 40 degrees; minimum, 36.
Mrs. G. A. Ferris, of Detroit, is visiting in the city.
The meetings of the Young Woman's guild of St. Paul's church will be discontinued until September.
Miss Anne Wallace has returned from Denver, where she graduated from a hospital as a trained nurse.
The Ladies Aid society of the Methodist church will meet Friday afternoon in the church parlors.
The Baptist Ladies' Aid and Missionary societies will meet this afternoon with Mrs. J. E. Hodge, 321 East Arch street.
Miss Anne Duncan, librarian at the Peter White public library, has gone to Chicago and Au Sable to spend a month's vacation.
The Woman's society of the Presbyterian church will meet Friday at 3 p. m., at the house of Mrs. C. A. Shelton, North Front street.
Alfred Kidder, of Boston, formerly superintendent of the Champion and Lake Argenteau mines, is in Marquette on a business trip.
Stephen Korman was fined \$10 and costs by Justice Byrne yesterday. Korman was arraigned for a board bill by a South Marquette man recently, and he retaliated by attacking and abusing one of the children of the family.
A Pantry sale will be held in the parlors of the Methodist church on Friday, June 3, under the auspices of the Ladies Aid society. The sale will begin at 10:30 in the morning and the usual variety of home cooking will be on sale.
A. E. Archambault and family yesterday moved into the residence on East Hewitt avenue until recently occupied by Rush Culver. Mr. Culver and family are moving to L'Anse, where they will make their home in the future.

Receipts Show Increases—Notwithstanding the fact that the light and power commission reduced its residence lighting rates a few months ago, the total receipts for April show an increase of over \$2,000, compared with April, 1909. This increase is due to an increased number of customers and to many customers using more current than a year ago. The percentage of increase in receipts from residence and business lighting is about the same.
Death of Patrick Cleary—Patrick Cleary, an old resident of this city, passed away early yesterday morning after a brief illness, at the age of sixty-five. Mr. Cleary is survived by a wife and seven children: John, of Chicago; Philip, Mary, Helen, Bessie, Agnes and Della, all of Marquette; also a brother, John and sister, Mrs. Mary Gleason, both of Marquette. The funeral will take place Saturday at 9 o'clock from St. Peter's cathedral, with interment in Holy Cross cemetery.
Death at St. Luke's—Mrs. Fred Boessler, of Green Garden, died at St. Luke's hospital Wednesday night, where she had been a patient for several years. Mrs. Boessler was sixty-eight years of age and leaves a husband and five children: George, Henry and Carl, of Green Garden; Mrs. Wm. Specker, of this city, and Mrs. Joe Specker, of Yalmar. The funeral will be held at 3 o'clock Sunday afternoon from the German Lutheran church, with interment in Park cemetery.
Gypsies Leave Marquette—The band of gypsies who have been camping near the brewery for several days pulled up stakes yesterday, and left bag and baggage for the copper country last evening. The leader of the band has told the officers that he expected to get passage on one of the boats, but they finally made the trip by rail, leaving on the midnight train. There were about twenty-five in the party, most of whom were women and children, and a more disreputable lot of humanity it would be hard to find anywhere.
Maccabee Rally in July—Active preparations are being made for the reception of the Knights and Ladies of the Maccabees of the upper peninsula, who will assemble in Marquette the latter part of July. Mrs. Albert Droule, state president of the Ladies of the Maccabees, is one of the upper peninsula's stirring up interest in the meeting and reports that she is meeting with encouraging success. Mrs. Cora Sunday is in charge of the arrangements for the Marquette meeting, which will be held at the Marquette Hotel, and will be attended by Maccabees from all parts of the upper peninsula.
May Has Been Colder—The report of the Marquette weather station for the month of May does not show that May just passed is the coldest and most disagreeable month on record. The mean temperature for the month was 47 degrees, only two degrees below the normal mean temperature for May, and one degree warmer than May of last year. In May, 1907, the mean temperature was only 90 degrees. The total precipitation during the month was 2.55 inches, 37 inches below the normal. There were seven clear, fourteen partly cloudy and ten cloudy days during the month. Light frost occurred on the 5th and heavy frosts on the 3rd and 14th.

NOTICE TO TAXPAYERS.
City Controller's Office, Marquette, Mich., June 1, 1910.
Notice is hereby given that the assessment roll for the year 1910 will be in the hands of the board of review on Monday, June 6, 1910, at 9 o'clock a. m., and will be in session each day thereafter, including Saturday, June 11th, 1910, for the purpose of reviewing and correcting said assessment roll.
Every person having property in the city of Marquette is requested to call at the common council room during the sessions of said board of review and inspect said assessment roll, in order that all errors which may have been made in said assessment can be corrected.
PETER PRIMPEL, Controller.

PASSING OF THE PIGEONS.
Large Rewards Offered for Specimens of Birds Once Numerous Here.
Private individuals and Audobon societies have offered large rewards for the discovery of any wild pigeons that used to be so numerous in the United States and whose flights in flocks of countless thousands over this section of the state are well remembered by the old residents of Marquette. The Audobon societies and the American Ornithologists' union are desirous of discovering the whereabouts of any passenger pigeons that may still exist in order that they may be protected from total extermination and efforts made to increase their numbers. It is said that the last flock of pigeons—some eight acres in extent—flew over northern Michigan in 1888 but that their nesting place was never discovered. One of the biggest rookeries in the country was the one in Emmet and Cheboygan counties near the Houghton River. Hundreds of thousands of birds nested there and the slaughter of the old and young pigeons—the squabs—was cruel, heartless and disgraceful. They were killed with guns, clubs, poles and caught in nets by the thousands and so great was the slaughter that they became a drug on the market and sold for as low as two cents apiece. Thousands of pigeons, especially the squabs, were drowned in traversing the lakes in fogs, which also hastened their extermination. There never was such a ruthless, wanton slaughter. Hunters seemed to kill them just for the sake of killing. At this late day efforts are being made to find any stray pigeons that may have escaped the brutality of man. Of the millions that once existed not one is left. It is a pathetic story.

Upper Peninsula
Arms Cooked in Hot Water—
Ole Dahl, thirteen-months-old child of Ole Dahl, 1144 Garfield avenue, Menominee, was terribly injured by stumbling while toddling about the floor and plunging both arms to the shoulders in a tub of boiling water. The flesh was literally cooked in places and dropped off. Dr. Nadeau treated the child and did what he could to alleviate its suffering. He states that it will be necessary to graft both arms with new skin before the child can recover, if recovery is possible.
Invents a Trousers Rack—
Thomas A. Cleary of Escanaba has been granted a patent on a trousers rack. The number of the patent is 939,112. The rack is an ingenious contrivance described as "an article of furniture," and is designed to meet the wants of clothing dealers and individuals who desire to keep their trousers in such a manner that they will retain shape and good condition. The technical description of the rack, as published in a publication devoted to patents, would require more than a half column of newspaper space. Mr. Cleary is a member of the Continental Clothing company.
Woman Enjoins Her Husband—
Joseph Savoie, a saloon keeper at Rapid River, Delta county, has been served with a restraining order issued upon application of his wife, Mrs. Jennie Savoie, which forbids him from attempting to draw his money from the bank where he has it on deposit or in any way attempting to get possession of his property until action upon the injunction is taken by the court. He is also restrained from molesting his wife or in any way interfering with her movements. Mrs. Savoie in her complaint against her husband alleges that he holds at various times threatened to do her great bodily harm and has even threatened to take her life. She has begun an action for divorce based on these allegations.
Fifteen-Year-Old Boy Electrocut—
Trying to shake a blackbird off a wire carrying 2,000 volts of electricity caused the instant electrocution of Frank Meyers, aged fifteen, in the yards of the Merrymann Manufacturing company at Menominee. The boy's mother, standing in the door of the house not one hundred feet away, calling to her son to come down from his dangerous position, was a witness to the tragedy. The wires carrying the deadly voltage span the top of a lumber pile, sagging to within a few inches of it. The insulation with which it was formerly covered has worn off and it is bare in many spots. Young Meyers had just placed his hand on one wire to shake off the bird when the shock made him instinctively throw back his hand and touch the other wire. There was a slight twitch to his body and he dropped in a heap on the lumber pile. The boy was the son of Joseph Meyers, barn boss for the Merrymann company.

Bursting Flywheel Menaces Lives—
By the bursting of a large fly wheel while revolving at a rapid rate, which crashed through a solid brick wall and skimmed over the heads of a number of women until stopped by an obstruction, three employes at the plant of the Escanaba Manufacturing company were slightly injured and the lives of many others were endangered. The flywheel was attached to an engine that is known as the hopper. While revolving at a rapid speed, the spokes attaching the heavy rim to the axle suddenly gave way. The rim of the wheel shot upward and forward and crashed entirely through a brick wall and entering the butter dish room, where a number of girls are employed at machines, skimmed over their heads and struck on opposing wall, loosening a number of bricks. Three persons in the path of the missile received minor cuts and bruises, but luckily none were hit directly. A stool on which one of the girls was sitting while at work at her machine was struck and crushed and a part of the machine was wrecked. That someone in the path of the heavy piece of iron was not struck and killed is considered by eye-witnesses to be marvelous.

\$45,000,000 IS SENT ON ITS WAY TO CANADA.

Senior Partner of Mackenzie & Mann Bringing British Capital to Invest in Canadian Northern Schemes—Railroad North of Lake Superior Protected.

Montreal, June 2.—According to the news received at the Canadian Northern offices, William Mackenzie, the president of the system, was one of the passengers who sailed from Bristol on the company's new steamer, the Royal George.

Mr. Mackenzie is stated to be bringing with him drafts representing \$45,000,000 of British capital which he has secured for investment in the Canadian Northern enterprises. Among these enterprises is said to be one for linking up the eastern and western portions of the Canadian Northern railway system by means of Lake Superior, and the completion of the company's line between Montreal and Toronto.

The scheme for the latter was decided on just prior to Mr. Mackenzie's departure for Great Britain, and during his absence the plans for the line have been filed for the approval of the railway commissioners. They show that the company's line from Toronto will strike the St. Lawrence and Ottawa branch of the Canadian Pacific south of Billings' bridge, and, paralleling that line to Rideau Junction, will cross the Canadian Pacific and Grand Trunk there and proceed to Ottawa, thus establishing the fact that the federal capital will be on the main line between Montreal and Toronto. Between Ottawa and Montreal the line is already well advanced.

The management of the Canadian Pacific railway has decided to double track its bridge over the St. Lawrence at LaChapelle. The work will cost about \$1,500,000, and is to be completed within the next two years. The late Sir Robert Reid built the present bridge. It was completed in 1884 and cost over \$2,000,000.

000. L. P. Brodeur, minister of marine, announces that the ships of the Canadian navy will be built in Canada at whatever points are best suited to the contractors.

Numerous firms, he said, have intimated their willingness to construct them in this country.

MADRIZ DENIES IT, HOWEVER. Washington Hears That His Army Has Been Badly Routed.

Washington, June 2.—Today cablegrams were received from Bluefields saying that the armies of Generals Lara and Godoy were completely destroyed. Word also was received reporting that Chamorro took 400 prisoners, great quantities of arms and ammunition and all the field pieces in the Madriz forces' possession. More than 200 wounded soldiers were taken by the provisionals and cared for. Despatches from Madriz declare that there is no truth in the reports of his government's defeat.

The decree of Dr. Frias, in command of the Madriz war vessel, Venus, that no vessel should enter the port of Bluefields after June 1 without the permission of the Madriz government and without having paid customs duties at the bluff, will be disregarded by Captain Gilmer of the United States gunboat Paducah, and should an attempt to prevent American vessels entering the port, prompt steps will be taken by Captain Gilmer to prevent interference by the Venus.

The United States, it was officially declared today, has present intention of assuming a protectorate over Nicaragua, or in any way intervening until one faction or the other has obtained full control of the government by consent of the people and is in position to meet the national and international obligations.

Ecuador and Peru Still Hostile. Guayaquil, Ecuador, June 2.—The friction between Ecuador and Peru

continues, owing to the failure of the two republics to reach an agreement as to the basis of mediation.

ASSAILS JUDGE SMITH'S RECORD. Senator Cummins Formally Enters the Iowa Congressional Campaign.

Des Moines, Ia., June 2.—Assailing the record of Walter I. Smith, congressman from the Ninth district, and declaring that he was not a safe man to represent the people because of his line-up with the corporate interests, Senator Cummins entered the Iowa congressional campaign here tonight. He endorsed Warren Garst, the progressive candidate for governor; W. H. Byers, Judge Smith's opponent, and the other progressive candidates in districts where there are contests. He said: "I don't want to say that Judge Smith is one of the congressmen nominated and elected by the corporate interests, but he has leanings that way. He has always shown a willingness to follow the lead of Cannon and his bunch."

DINE TOGETHER IN LONDON. Roosevelt and Cromer Believed to Agree on Egyptian Policies.

London, June 2.—Theodore Roosevelt and Lord Cromer, British agent and consul general in Egypt from 1883 to 1907, were the guests tonight at a dinner given by John Strachey, proprietor of the Spectator, in honor of Mr. Roosevelt. They sat on either hand of the host. Mr. Roosevelt and Lord Cromer are believed to be perfectly agreed on Egyptian policies, and that the complaints of sentimental Englishmen which the former president voiced at the Guild hall had all arisen after Lord Cromer's administration.

Mr. Roosevelt will go to Colonel Arthur H. Lee's country place tomorrow with Sir Harry Hamilton Johnston, who has written much on Africa. John Burns, president of the local government board, and Captain Robert F. Scott, the Antarctic explorer, will also be guests. Mr. Roosevelt will spend Sunday at the home of Sir George Trevelyan, where he will meet Viscount Morley Blackburn.

FINING CONNORS RETIRES. John A. Dix Succeeds Him as Head of the Democratic State Committee.

New York, June 2.—To the accompaniment of bows, smiles and mutual felicitations, William J. Connors retired from office as chairman of the Democratic state committee today. John A. Dix was elected in his place.

During the meeting there was not a single evidence even of a difference of opinion. Dix praised Connors; Connors promised his loyal support, and the whole committee thanked Connors for what he had done. Everybody laughed when Connors stood up to turn over the office to the newly elected chairman. "It's a good job you have got," he said, with a grin. "I hope you will like it."

Mr. Dix, the state committeemen that he proposed to be the chairman of the whole party and not of any faction or section.

Gov. Folk's Boom Given an Impetus. St. Louis, June 2.—Missouri Democrats of all factions at a dinner here tonight heard former Governor Folk announce the principles on which, it is said, he will seek the presidential nomination in 1912. The dinner was in charge of men who have been promoting the boom for the governor. Mr. Folk declared that the Democratic party should insist upon the creation of a graft, special favors, subsidies and a tariff for any other purpose than revenue.

By a rising vote the banqueters pledged the support of the Missouri Democracy to Folk and to the nomination for president, Champ Clark, telegraphed the state committee tonight that he was not a candidate for the presidency. He said he was in the race for speaker to stay.

PUBLIC OFFICIALS INVOLVED. Congress Is Told That Land Grafter Are at Work in Oklahoma.

Washington, June 2.—"Land grafter" are said to be industriously operating in Seminole county, Oklahoma, where, according to reports quoted in a letter submitted to the house by Secretary Ballinger today, "the township, county and state officers are either in sympathy with the land pirates or are helpless." The reports, written by District Land Agent Cordell, set forth a deplorable condition affecting titles to Seminole allotment lands. Mr. Ballinger calls upon congress for an appropriation of \$6,000 from the Seminole tribal funds in the treasury to defray the cost of government suits to set aside the illegal conveyances and protect the possessions of the Seminole allottees.

KAISER GIVES A TROPHY. Marksmen of the Schuetzenbund Will Shoot for a Golden Eagle.

New York, June 2.—Count von Bernsdorff, the German ambassador, was the guest of honor this afternoon at the sixth national schuetzenfest of the National Schuetzen society of America at Union Hall Park, Hoboken, N. J. The ambassador delivered an address in which he stated that President Taft had authorized him to give the German Schuetzenbund his greetings and express his regret at not being able to be present. Enthusiasm prevailed when the ambassador, at the conclusion of his remarks, presented the Schuetzenbund with a golden eagle from the German emperor as a prize for marksmanship.

AUGUST BELMONT INJURED. New York, June 2.—August Belmont was thrown from his horse this afternoon while playing polo at the Meadow Brook Hunt club. For a time there were many rumors that he had been seriously injured, but it was said tonight that he was only badly shaken. At the club it was said that he had broken a wrist. At Menpstead, where Mr. Belmont has a country place, it was said that his injuries were serious. Village reports were that Mr. Belmont had suffered a broken rib and that his scalp was torn and his face badly lacerated.

GLAD TO RECOMMEND THEM. Mr. E. Weakley, Kokomo, Ind., Says: "After taking Foley's Kidney Pills, the severe backache left me, my kidneys became stronger, the secretions natural and my bladder no longer pained me. I am glad to recommend Foley's Kidney Pills." In a yellow package. Sold by all druggists.

IMAGINATION COULD NOT CONCEIVE OF A HANDIER AND PRETTIER FORM THAN THAT WHICH IS PRESENTED IN **CRYSTAL DOMINO SUGAR** NEITHER COULD THE MOST PARTICULAR PEOPLE ASK FOR MORE PERFECT PURITY, NOR ECONOMIC PEOPLE FOR LESS WASTE. **SOLD BY GROCERS EVERYWHERE!**

MARKETS

WALL STREET STOCKS.

New York, June 2.—Paine, Webber & Co. say of today's stock market: "Foreign buying, said to be principally of the short covering kind, served to steady the market today, but nevertheless the desire to liquidate was pronounced on the part of the domestic holders. Considerable discussion continues to be heard relative to the conditions in railroad circles, as a result of the decision in the Missouri river case, and also the government's injunction against increased freight rates. A reduction in the Bank of England's rate of discount was a favorable factor insofar as it indicates easier foreign money conditions, but the domestic institutions still report that the interior banks are large borrowers when ordinarily at this time the tendency is to reduce loans and create credits at the primary centers. A rally would only be natural after the recent sharp decline, but there are not as yet any indications of a desire on the part of prominent market interests to force a sustained advance."

Closing prices were as follows:

Amal	67	Nor. Pac	120 1/2

Boston Stock Quotations.

Boston, June 2.—Today's stock market at Boston is summarized by Paine, Webber & Co. as follows: "The London prices showed a good advance, but the opening here failed to meet expectations and the stocks were freely supplied to meet all buying orders. Around noon the selling pressure was removed and the operations became entirely professional, fluctuations being confined to narrow limits. The local list showed little change, North Butte and Lake being slightly stronger and Butte and Balaclava being weaker. The railroad rate injunction has dampened bullish sentiment that was springing up and the buying power is smaller than ever."

The closing prices were:

CHICAGO GRAIN MARKETS.

Chicago, June 2.—Stop-loss orders were heavily caught in the wheat pit today, both down and up, especially down. The huge sales were largely attributed to a few big speculators who twice had backed a lively advance and left the market in a state of collapse at the close. The final figures showed a net loss of 1 1/2¢. One of the things that, aside from the senseless selling, finally stirred the market for futures was the lowering of the cash premiums, the June delivery being quoted at the July price, and disclosing a somewhat startling lack of demand for hard winter wheat here.

Unofficial figures on the Canadian North-west acreage indicated a gain of 10 to 15 per cent. The Burlington road's report showed an increase of 272,000 acres in Nebraska as compared with the government's May figures, and if borne out would mean ten million bushels additional for that state. A private estimate from Kansas gave that state ten millions more than a month ago. On the bull side there were sharp advances in the European markets, freezing weather in the Canadian Northwest, damage by the Hessian fly in the winter wheat belt and the bulge here in the prices of corn. The September opened at 92 1/2 to 93 1/2; highest, 93 1/2; lowest, 90 1/2; closed, 90 1/2 to 91 1/2.

Corn was the leader of the grain list a good part of the day, but went to pieces and lost much of the advance. Cold and cloudy weather in the corn belt, with more predicted for tomorrow, was the all-important influence. Shorts covered during the bulge. The close was steady, 1/2¢ to 1/4¢ higher. The September opened at 38 to 39; highest, 60 1/2 to 60 3/4; lowest, 59; closed, 59. Oats advanced with corn but lost all the gain and a trifle extra when wheat and corn sold off. The weather was counted excellent for the growing crop. Elevator interest sold freely on the wheat. The close was 1/4 to 1/2 off. The September opened at 36 to 36 1/2; highest, 36 1/2; lowest, 35 1/2; closed, 35 1/2 to 35 3/4.

Paine, Webber & Co.'s Wheat Letter.

Chicago, June 2.—It is safe to expect that the trade will be kept on the move, that the surges in price will be sharp, both up and down, and while it will be a good trading proposition the average trader will need to confine his orders to weak spots like that at the close today. When the estimate of a seventy million bushels harvest for Kansas was given to the trade last hour and the leading interests became active sellers, there was a stampede of early buyers and an uncalled for break in prices.

FIRST SINCE CIVIL WAR DAYS. Big Monitor to Navigate the Waters of the Upper Mississippi.

Washington, June 2.—For the first time since the days of the Civil War a big monitor will navigate the waters of the upper Mississippi as far as St. Louis. The double-turreted monitor Amphitrite, which saw service during the Spanish war, has been ordered placed in commission for the use of the naval militia of the state of Missouri at St. Louis. The Amphitrite, thoroughly modernized, lies at the League Island navy yard, Philadelphia. Her cruise down the Atlantic coast and up the changing channels of the Mississippi will be watched with interest by the advocates of the fourteen-foot channel scheme.

COURT'S WEDDING GIFT. \$1,000 Fine and Jail Sentence Are Handed Out to Senator's Nephew.

New York, June 2.—For a wedding present to young Edmund A. Guggenheim, a nephew of Senator Guggenheim of Colorado, the court of general sessions gave him today a fine of \$1,000 and a sentence of one day in jail. Guggenheim pleaded guilty to violation of the automobile speed law. He had no defense to offer, yet he asked that sentence be suspended and promised he would never drive an automobile in this state again. His counsel urged that as he is to be married Monday a prison sentence would be an unnecessary humiliation to the bride-to-be. The court turned a deaf ear. Sentence was passed at 3:15. The prisoner crossed the bridge of sighs to the Tombs and at 4 p. m. the legal day having ended, he was liberated.

OKLAHOMANS SWELTER. Hot Winds Sweep Prairies and the Mercury Goes Up to 109 Degrees.

Hobart, Okla., June 2.—At three this afternoon the mercury reached 109 degrees. It was the hottest day in the last seven years. Hot winds swept over the country. Because of the heavy rainfall in May, crops will be but slightly injured by the heat. A thunderstorm brought relief tonight.

Cyclone at Augusta, Ga.

Augusta, Ga., June 2.—This city has been in darkness most of the evening, the streets are strewn with uprooted trees and prostrate wires, every telephone is cut and the trolley system is disabled as the result of a cyclone lasting eighteen minutes. There were no fatalities, but half a dozen residences were wrecked and several warehouses were blown down.

Over 100 babies are now being fed on Vandenberg's Special Milk and all are thriving splendidly. (5-26-1m)

Special for Today and Tomorrow

We will offer at a great saving our entire line of beautiful Walking Skirts in the season's newest creations, and in all the noblest designs and shades. Wool Panamas, Chiffon Panamas, Serges and Altman Voiles, in exquisite models. This will be a rare opportunity to select a skirt of distinctive character and an extra good fitting garment. All Wool Panamas, in tan, black and navy,

Chiffon Panama, tan, black, gray and navy

\$6.45

Extra fine Chiffon Panama in all the popular shades and designs

\$7.95

Exceptional Values in Tailored Suits and Coats.

We invite you to examine our big display of strictly tailored and effectively trimmed Coats and Suits which we will show today and tomorrow at truly interesting prices.

We will not go into detail as to the make and design of these goods, because any garment from our store is positively correct and carries with it our recommendation.

"WHERE FASHION REIGNS."

A. L. Guetter

EDISON'S BIOGRAPH INCOME. Court Decision Restores to Him Royalalties of \$7,200 a Week.

Since the settlement not long ago of the differences between Thomas A. Edison and the biograph people and various independent moving picture companies, which resulted in Mr. Edison reaping profits of his genius and his industry, a settlement which followed a federal court's affirmation of Mr. Edison's patent rights, peace had promised to reign among the manufacturers of the pictures for the first time in nearly fifteen years, says the New York Sun. But a few months ago a number of new manufacturers sprang up who, it is charged, boldly infringed upon Mr. Edison's patents and set about justifying themselves on the ground that the eleven manufacturers in this country and Europe were violating the Sherman anti-trust law.

It is declared that these men represented that they would either break up the settlement or force Mr. Edison to open his patents to them. This idea of competing that the exercise of an inventor's patent rights led to violation of the Sherman

man law was the only novel feature in the litigation, which resulted recently in a decision by Judge Noyes of the United States circuit court that an injunction should lie against the group of defendants, who admittedly have been infringing upon Mr. Edison's patents.

The president of one of the companies which are paying royalties to Mr. Edison said recently:

"You may see at a glance that with the 4,000,000 or 5,000,000 persons who make up the daily attendance of the 18,000 moving picture theaters in this country the question of the supply of these films is a matter of wide interest."

"Now, until the settlement of the moving picture patent dispute in his favor, which resulted in the union of the Edison and Biograph companies in the Motion Picture Patents company—the plaintiff in the action just decided by Judge Noyes—he wasn't getting anything from his moving picture invention and was involved in costly litigation. Since then these concerns have been paying him royalties. The Biograph company, the Edison Manufacturing company, the Essanay Film Manufacturing company, the Gaumont company, the

Kalem company, George Kleine, the Lubin Manufacturing company, George Melies, Pathé Freres, the Selig Polyscope company and the Vitagraph company of America, eight of them being American concerns and the other European interests.

And here is what the business announcements are issued each week in this country. Each is of 900 feet of film, making 18,000 feet, and eighty of each are issued, making 1,440,000 feet. On this production a royalty of one cent per foot is paid to Mr. Edison, giving him from this source a weekly revenue of \$7,200."

BABIES SECRETLY ADOPTED. Chicago Wives Do It and Husbands Are Not Informed.

"There are in Chicago today fully 3,000 men fondling infants that are not their own, but babies adopted by their wives—and the 'fathers' are none the wiser."

This was the statement made by Lyman W. Rogers, treasurer of the

National Maternity Hospital, from which institution he says some 250 infants are adopted into good homes every year.

Of these 250 infants, more than one-half are believed by the "fathers" to be their own, he declared. A majority of the babies, he said, enter homes in stations high above those which they would otherwise occupy.

"It is rare," said Mr. Rogers, "that a husband wants a child that is not his own blood. If some husbands who are bringing up children knew the truth about them, I tremble to think what the consequences would be."—New Tribune.

EVIDENCE IS COMPLETED. St. Louis, June 2.—The evidence in the case of Mrs. Dora A. Dooey, charged with the murder of William J. Elder, was completed this afternoon. Both sides rested shortly after three. Judge Grim's charge and the pleas of the counsel will be delivered tomorrow. It is expected that the case will be in the hands of the jury before tomorrow night.

FAMILY WITH A GREAT WAR RECORD

HUGH MOSIER, ORIGINAL FIFER OF THE FAMOUS "YANKEE DOODLE" TRIO, WAS AN UNCLE OF MRS. S. L. BARNEY, ISHPEMING.

Mrs. Samuel L. Barney, who, on the death of her husband a few weeks ago, became Marquette county's oldest resident, has a photograph of her uncle, Hugh Mosier, which she prizes very highly. Mr. Mosier was the fifer in the famous "Yankee Doodle" trio, commonly known as "The Spirit of '76." The likeness of the fifer in many of the pictures of the trio bears a close resemblance to the photograph in the possession of Mrs. Barney. The picture was taken shortly before Mr. Mosier's death, which occurred in Ohio, sixteen years ago.

The picture of the famous trio has perhaps done more to arouse patriotism in the rising generations than any other one thing. The first famous painting of the trio was made by Willard for the Centennial exposition at Philadelphia. Mr. Mosier went from Ohio to pose as the original of the fifer of the picture, and the artist's father was the model for the drummer. A son of the late General Deveraux, who afterward bought the painting, was the boy who was the model for the youthful figure in the stirring picture. The first painting, which was designed to be reproduced in a chromo, was fourteen by twenty-four inches. While at work on this, the artist became enthralled at the subject and later produced a more pretentious painting. The latter is eight by ten feet and the figures are life-size.

When the painting was placed in the show window of Byrd's establishment in Philadelphia it attracted immense crowds of people who at times obstructed the street. The picture perhaps attracted more attention than any other piece of art work at the Centennial. It was afterwards exhibited at the Old South church, Boston, also in San Francisco and in the Corcoran art gallery, Washington, as well as at other points. General Deveraux later purchased the painting and presented it to the old town of Marblehead, Mass., and it is now in Abbott hall in that city.

The Mosier family were long lived. Hugh was one of twelve children, six sons and six daughters. He and two of his brothers enlisted in Northern regiments and fought throughout the Civil war. All of the sons were over six feet tall. Hugh was the only son of the family who was born in Ohio. The family has held reunions annually for more than a half century. Mrs. Barney and her late husband attended the reunion in Perry, O., two years ago, and there were over 100 relatives present. This year's reunion is to be held at Cleveland, and Mrs. Barney, who is enjoying excellent health, considering her

age, which is seventy-five years, expects to attend.

Hugh Mosier's father fought in the war of 1812. He owned a farm in what is now the city of Buffalo when the British took the city. He sold his farm for a team of horses and \$40 in gold.

Mrs. Barney yesterday said that she many times heard her grandfather say that during that war pork sold at \$100 per barrel.

Mrs. Barney expects to soon dispose of her old home in Marquette. She is grieved at the thought of selling the property, as the sale will entirely close out the Barney family interests in that city, where they have owned a home for the past sixty years.

COMPLETED MEDICAL COURSE.

Ishpeming Boy Is Graduated from College of Physicians and Surgeons.

Dr. Arthur Charbonneau, son of John Charbonneau of North Third street, is here on a brief visit to his parents. He has completed his medical course in the College of Physicians and Surgeons in Chicago. During the last year that Dr. Charbonneau was in Chicago he was successful in securing appointments in hospitals and was offered permanent positions in several of them, but he accepted an offer in the county hospital at Los Angeles, Cal., and will leave for that city within a few days. It is his present intention to spend a year or more in the Los Angeles institution, and he will then engage in private medical practice, though he has not yet decided where he will locate. The Los Angeles county hospital is one of the largest institutions of its kind west of Chicago. It contains 600 beds and receives the county expended \$350,000 for additional buildings, medical and surgical wards, etc.

For some time before entering the Chicago institution Dr. Charbonneau was employed as a clerk in the Ishpeming post-office. During his last summer vacation he assisted a physician in South Dakota and he has had an excellent outside training in addition to his college work.

CONCERT TONIGHT.

The Young Men's Christian association's Glee club will give its first concert this evening at the Ishpeming theater. In addition to the musical numbers to be given by the Glee club and others, there will be athletic stunts by several members of the organization.

CARD OF THANKS.

We desire to express our appreciation for the many favors and sympathy extended during the illness and after the death of our wife and mother. We feel very grateful to all our relatives and friends for their floral offerings, also to Rev. C. L. Adams and the choir of the First Methodist Episcopal church for their kindness.

LOST—About ten days ago, black cow with white face, long horns and bell. Reward. Isaac Sneli, 221 Hill street. (6-2-5a)

BODIES RECOVERED.

Yesterday's Duluth Herald said of the finding of the bodies of Miss Lucy Backus of Michigan and Michael Mulvihill, who were drowned at Grand Rapids, Minn., Monday while boating:

"Michael Mulvihill and Miss Lucy Backus did not have a death grapple when they struggled in the waters of Lake Pokegama, as they sank to their death Monday evening. This was demonstrated yesterday when both bodies were found several feet apart. Mr. Mulvihill's body accompanied by John Costello left today for its final resting place at Arnprior, Ont., the home of the deceased. John Mulvihill, father of the deceased, will meet the body at the Soo.

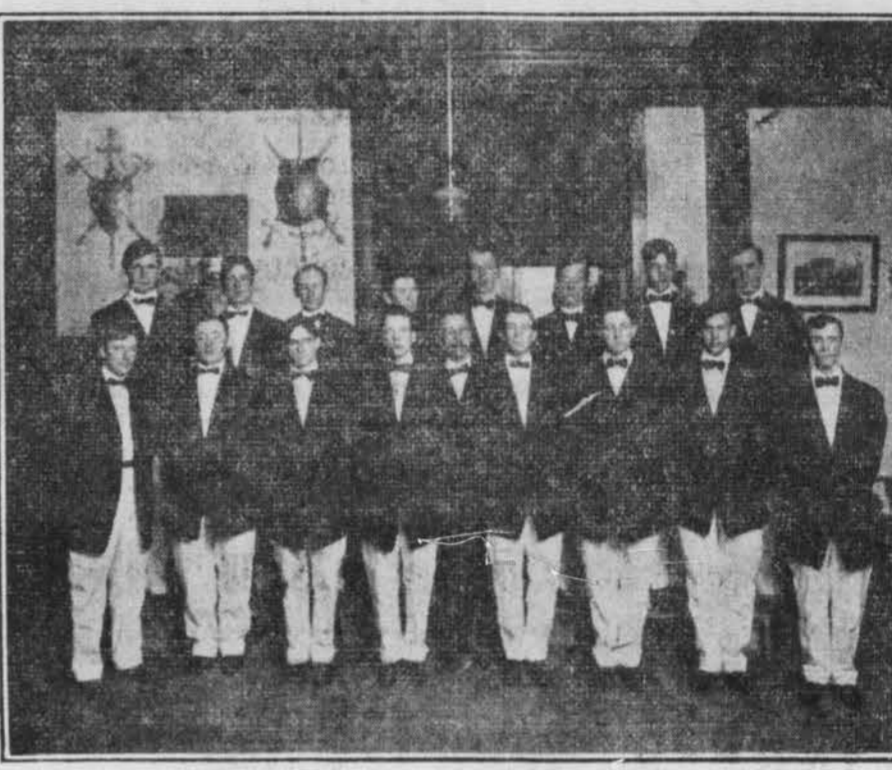

"Miss Backus' body will be taken to her home at Michigan, Mich. Her sister, Miss Viola Backus, also living here, when hearing of the tragedy went into hysterics. The sad affair has thrown a gloom over the community. Sympathetic friends have subscribed \$50 to bury floral tributes."

MEETING TONIGHT.

A meeting to consider the advisability of holding a celebration on the Fourth, will be held this evening at 8 o'clock in the council chamber of the city hall. Many business men favor a celebration. If it is decided to celebrate, an organization will be perfected tonight and committees will begin work at once.

If you are not satisfied after using according to directions two-thirds of a bottle of Chamberlain's Stomach and Liver Tablets, you can have your money back. The tablets cleanse and invigorate the stomach, improve the digestion, regulate the bowels. Give them a trial and get well. Sold by The People's Drug Store.

ISHPEMING

"THE PRINCE OF TONIGHT"

Mort H. Singer's Big Musical Comedy Coming This Way.

"The Prince of Tonight," the first big attraction to be booked by the independents for dates in the iron and copper country theaters, will be at the Ishpeming theater a week from next Tuesday, the 14th.

"Henry Woodruff is featured in the starring part. Woodruff will be remembered as the stellar attraction in that ladylike college comedy, 'Brown of Harvard,' and 'The Prince of Tonight' is said to be the first time that he has switched from straight to musical comedy work.

"More than the usual amount of plot is found in 'The Prince of Tonight.' A Yale man, broke, takes the job of lifesaver at Palm Beach, and after being spurned by a millionaire's daughter, becomes, through the magic power of a blooming century plant, a prince with unlimited coin and luck, a regular heart-breaker for one night only. To keep alive he must smoke cigarettes incessantly, and he must only be kissed by the right girl, or he will die. The right girl, who is the afforest millionnaire's daughter, gives him the smack just as the moon is plunging into the sea and the prince is about to cash in.

"Mr. Woodruff is the prince. Mr. Woodruff is one of the few professional male beauties on the stage, but he is not as pretty as he was a few years ago, for a chap will take on flesh despite his own preferences and wishes. However, Woodruff makes a pleasing picture in his Prisoner of Zenda regiments, the white uniform and mantle of cloth of silver, upon which the spotlight shines effectively.

"Ruth Peebles is the prima donna who, from being a heartless coquette,

ISHPEMING IN BRIEF.

William Kilbride, the concrete walk contractor, is in the city.

Mrs. R. P. Bronson is spending a week with relatives and friends in Ohio.

Ray Kimball, of Crystal Falls, was a visitor in Ishpeming, yesterday.

Mrs. Venia St. Andre of Elder street is visiting relatives at Gwin.

H. M. Hanna, Jr., and C. W. Hickok of Cleveland and J. D. Ireland of Duluth, all mining men, are in Ishpeming for a few days.

Miss Kate Green, who has been in the copper country for a year or so, has returned to her home here, because of the illness of her mother.

Thomas Lane, who is employed as a brakeman on the Chicago & Northwestern railway line, is confined to his home here with an injured foot.

Mrs. Holland of Calumet attended the funeral of her niece, the late Miss Mary Harrington, which was held yesterday morning from St. John's church.

Births recorded in the city yesterday were a daughter to Mr. and Mrs. John Lehtimaki, 426 Jasper street, and a son to Mr. and Mrs. Alex Neimi, 437 South Third street.

J. C. W. Chipman, cashier of the Oliver Iron Mining company, will leave today for Washington and Boston on a three weeks' vacation. Mr. Chipman was a resident of Boston for a number of years before coming to Ishpeming.

The Ishpeming band will be out this evening to play for the Y. M. C. A. Glee club. The band will march from the Young Men's Christian association's building to Ishpeming theater and will play a few selections in front of the latter.

The Young Men's Christian association's Glee club, under whose auspices a concert will be given this evening at Ishpeming theater, will repeat their program at the Cleveland-Cliffs Iron company's new club house at Gwin next Tuesday evening. The boys are going to Gwin by request.

The remains of the late Mrs. Sophie G. Smith, mother of Mrs. Julius N. St. Clair of Duluth, whose death was announced in yesterday's issue of The Mining Journal, will be taken to Chicago for interment. The funeral services will be held this afternoon at the St. Clair residence on 20 North Twelfth avenue east.

The mail service between Chicago and upper peninsula points, which was so unsatisfactory the first week or so of the Chicago & Northwestern Railway company's new schedule was in effect, is improving daily. Ishpeming business men report that they are receiving a larger percentage of their mail on the early train than they did at first. Nearly all of the business men have written,

Negaunee Department

PLAN TO DECORATE FORTY-NINE GRAVES

ORIGINAL RECORDS OF NEGAUNEE FIRE DEPARTMENT WERE DESTROYED IN CLIFFS STORE FIRE SIXTEEN YEARS AGO.

If all of the graves of deceased members of the Negaunee fire department can be located in the Negaunee cemeteries there will be forty-nine of them to decorate Sunday, when the organization holds its memorial services. Secretary A. J. Lacombe has the names of this number recorded, but he does not believe the list is complete. The original records of the department were destroyed in the Iron Cliffs store fire sixteen years ago. If these records were now in existence they would be highly prized by the department, as they contained much information relative to its early history.

It is feared that the committee appointed by the department at a special meeting Monday evening will not be able to locate the graves of all the deceased members. The committee pointed last year could not find all of them. Each grave will be marked with an American flag.

The names of the deceased members of the organization on the secretary's books are John Muck, Michael Cunningham, Sr., John Reichel, Alex Murray, George Moll, Joseph Winter, Nelson Rivers, Ira Hinckley, Philip Madden, Joseph H. Cox, James Tourville, John Murphy, W. J. Chapman, John Barrett, George Mitchell, J. F. Stevens, J. R. Mitchell, A. J. Maas, A. J. Sterling, Gotlop Sporley, Maurice Gaffney, Edward Lobb, R. J. Sterling, John Johnson, Sr., John Butcher, George Fick, John Moll, August Olson, Andrew Peterson, Joseph Brand, Sr., Louis Peterson, Paul Marketty, John Lentz, Louis Goodrich, William Nesbitt, Ed Moll, Frank Muck, Henry Koester, Michael Manning, Louis Kellan, Robert Duschane, Edward Laughlin, John Westmeyer, Nicholas Westmeyer, Charles Martel, Donald McDonald, H. B. Krogman, Alfred Newcombe and Fred Zimmerman.

TO VISIT GERMANY.

Negaunee Man Will Return to Old Country, After Absence of 44 Years.

John Kuntz, who has been a resident of Marquette county for the past 44 years, ever since arriving in the country from his native place in Germany, will leave Sunday night for the old country, on a three months' visit. Mr. Kuntz was twenty-six years of age when he left Germany and is now seventy-one. He is in good health and believes he will be able to make the journey without any difficulty. He said yesterday that the only living relative he has in Germany is a brother-in-law, but he expects to meet some, at least, of his layhold friends.

Mr. Kuntz, who is well known here, did his first work in Marquette county in the Jackson mine in 1866. After working there for one year he took a position under Captain George Bryniger at the old Parsons mine in the first property opened up at the Winthrop. He went from there to Clarkburg, to work at the furnace. In those days the men at the mines in this county, as well as at the furnace, received their pay twice a month. Between paydays they could get everything they needed in the company stores on the order system. After leaving Clarkburg Mr. Kuntz worked at the Washington mine at Humboldt for three years, and then worked at the Edgewood mine, also at Humboldt. In seven months he cleaned up \$2,500.00. Under the late Captain Peter Pascoe, in two months he cleaned up \$2,000.00. From Montana he moved to Dakota, where he bought a farm. In his farming venture he dropped \$4,500 and returned to Negaunee without a dollar. He later secured a position as foreman at the Republic mine, remaining there for six years, when he returned to Negaunee to take a place under T. F. Cole at the Queen mines, which were then being operated by Ferdinand Schlossinger of Milwaukee. Mr. Kuntz has always been an industrious man and now has sufficient of the world's goods to keep him and his wife comfortably during the remainder of their lives.

Lame shoulder is almost invariably caused by rheumatism of the muscles and yields quickly to the free application of Chamberlain's Liniment. This liniment is not only prompt and effective, but it is in no way disagreeable to use. Sold by The People's Drug Store.

BONDS IN DEMAND.

City Will Have No Trouble Disposing of Paving Securities.

The city officials do not anticipate any difficulty in placing the bonds to be issued in the sum of \$30,000 to pay for the paving of Iron street, as applications from bonding concerns are already being received. City Recorder Mitchell said yesterday that all of the applications for the bonds have come from outside houses, but he expressed the belief that Negaunee people will want at least part of them. Most of the city's outstanding bonds are now held by Negaunee people. The new bonds will bear interest at not to exceed 5 per cent. An effort will be made to place them at 4 or 4 1/2 per cent. The board of public works will endeavor to get the pavement work started as soon as possible, as it will take the greater part of the summer to complete the job. Bids will be advertised for, and it is expected that the contract will go to some concern that makes a business of putting down crosscoated blocks. There has been much discussion as to the advisability of using crosscoated blocks, but the members of the board of public works feel that this material is best suited for use in this region.

NEW OFFICERS ELECTED.

At the regular meeting of English Oak Lodge, Sons of St. George, held this week, the following officers were elected for the ensuing term: President—W. T. Thomas. Vice President—Thomas Stanaway. Secretary—Sidney A. Northey. Treasurer—Elias Daves. Assistant Secretary—William Sharp. Messenger—James Thomas. Assistant Messenger—John Snowden. Chaplain—Thomas H. Roberts. Sr. Inside Sentinel—Garfield Rice. Outside Sentinel—William Vincent. Representative to Grand Lodge—William H. Bath and James Hawke. Alternates—William J. Hocking and Elias Daves. Trustee (full term)—Joseph Thomas. Janitor—William Tregay.

DOG AND PONY SHOW.

H. J. Williams, business manager of Cole & Rogers' dog and pony show, was in Negaunee yesterday, completing arrangements for the attraction's appearance here on Wednesday of next week. The company has tents covering an area 200 square feet and it carries a large number of performing dogs and ponies, also a few other animals, including a baby elephant. The company travels in its own cars and it gives an attractive street parade. The show will go from here to Ishpeming, playing there on Thursday, the 9th.

LOCAL LACONICS.

Dr. R. J. Miller is confined to his home with an attack of tonsilitis.

A concrete walk is to be laid in front of the Iron Herald property, on Jackson street.

The interior of J. J. Wentala's jewelry store, in the Caples building, is being redecorated.

The Marquette and Negaunee baseball teams will play at Union Park Saturday and Sunday.

A class of boys and girls from the parochial school will receive their first Holy Communion a week from Sunday, the 12th, at St. Paul's church.

Will Piper arrived in the city yesterday from Birmingham, Ala., where he has been working for a mining concern of which his father, Captain James Piper, is superintendent.

James Curley, who was ill during the greater part of the winter, has returned to his position with Miller Bros. During his absence his brother John filled his place. John has again taken charge of the delivery work.

John Lassa, the Italian baker, on Peck street, has purchased Frank Anderson's residence property, corner of Pioneer avenue and Clark street, and is fitting it up for bakery purposes. An oven is being installed in the basement.

John Alpin, who is a deputy sheriff, on Wednesday night arrested Franz Blökt on a charge preferred by Miss Mary Swenski. Blökt left Negaunee about three months ago and recently returned. Miss Swenski is now in Calumet.

The trophies that are to be given the winners in the golf tournament, which starts tomorrow afternoon at the club house, are on display in Perkins window. There are two loving cups for the winners of the pair contests and two nugs for the winners of the singles.

Dr. N. J. Robbins, who opened a hospital in the city Tuesday, intends to retain his offices in the Sundberg block. His office hours at the hospital will be from 8 a. m. to 12 and 7 to 8 p. m., and at his private office, 9 to 10 a. m. and 2 to 3 and 8 to 9 p. m.

The subjects of the moving pictures that will be shown tonight at McDonald's Opera House by the Independent Moving Picture company are "Cupid at the Circus," "Prisoner's Strategy," "Hot Stuff Takes on a New Champion," "The Feud," and "In War Time."

There were several snow flurries here yesterday morning. Thermometers in the city at an early hour registered thirty-three to thirty-seven degrees above zero. Many Negaunee people have had their furnaces in continuous operation, with the exception of a short time in March, for eight months and one week. They fired them the last week of September.

The Independent Moving Picture company will give a two hours entertainment at McDonald's opera house tonight. In addition to 4,000 feet of film, a number of songs will be given by Miss Eugenia Sess, Miss Anna Hennessy and Ted Butler. The general admission will be ten cents, with twenty cents for reserved seats. The entertainment will start at 8 o'clock sharp.

William Trebcock, who will put in the concrete foundation for the Negaunee National bank's new block, will start a crew to work today. L. E. Chaussee, the contractor, has completed putting in the frames. Mr. Trebcock expects to complete the foundation within two or three days, and the concrete will be allowed to stand for a week or so before the brick work is started. Brick is now being delivered.

AS TO EUROPEAN HOTELS.

They Have Better Food and Better Service, Says Walton Marshall.

London, June 2.—Walton Marshall of the Waldorf-Astoria Hotel has sailed for New York after a month in Europe, partly on business and partly on pleasure. The latter consisted of a motoring trip, the former had as its object the studying of the principal hotels in Europe. Mr. Marshall says that he has gained a lot of useful information on his trip.

"I am very pleased with what I have seen," he says. "While it is manifestly unfair to compare the New York hotels with those in Europe, owing to the tremendous difference in size, I must say that the European hotels are ahead of ours in the restaurant department—especially in regard to mutton and poultry. In fact, I don't know why it is, but the food material all around Europe is ahead of ours."

"From the structural point of view New York hotels are away ahead of those here, while we spend a lot more money in providing music for our guests. Another point in favor of European hotels is the excellence of the servants."

"The trouble is that Americans will spoil their servants, while here they are kept rigorously in their place. But then, again, the supply here is far in excess of the demand, the opposite being the case in America."

Don't marry a lover of music; perpetual harmony will end in separation or nervous breakdown.

ARRANGEMENTS FOR COUNTY FAIR MADE

PREMIUMS FOR AGRICULTURAL EXHIBITS TO BE MATERIALLY INCREASED THIS SEASON.

WILL BE THE BIGGEST EVER

Directors Provide for Program of Sports and Variety of Entertainment That Sounds Good.

At a meeting of the directors of the Marquette County Agricultural society held Wednesday afternoon it was decided to hold the next county fair Sept. 3, 4, 5 and 6, 1910. The aim of the directors at the next fair will be to promote agricultural features more than in the past, and increased premiums for many different classes of farm exhibits are to be offered.

In the way of sports, the next fair promises to eclipse anything previously offered. Appropriations were made for baseball, Cornish wrestling and horse racing, though less money will be expended for racing than last year, as it has been found desirable to see a large number of fast horses to come here, being so far distant from other racing circuits. A new feature will be an athletic field meet, in which prizes will be offered for running, jumping, weight throwing, etc. This should make the fair more attractive to young men of athletic tendencies, as something in the nature of a college track and field meet will be pulled off. Another new feature will be a balloon ascension each day of the fair.

Has Not Paid Expenses.

For many years past the fair has not paid expenses and today the association is over \$2,000 in debt. Inasmuch as this has been the case, the directors have decided to increase the admission fee from twenty-five to fifty cents, which, it is believed, will meet with the approval of the public. People are in the habit of paying twenty-five cents to see a ball game, twenty-five cents to see a wrestling match, fifty cents to see a horse race and the agricultural exhibits alone ought to be worth a quarter. In other words, the association has in the past been giving \$125 worth of entertainment for a quarter, and giving it at an actual loss, in view of which the increased admission fee is considered just and reasonable.

In return the directors promise a better show than ever before. Every effort will be made to get together the finest show of live stock and Marquette county agricultural products ever exhibited in this county. Last year, the show of chickens and vegetables received much favorable comment, and there is reason to believe that there will be even more entries in these departments the coming fall. Just what will be doing in the way of baseball cannot yet be announced, but a good game each day is assured. It is probable that the Marquette, Negaunee and Ishpeming, and possibly Crystal Falls teams will play during the fair, and all these teams should be going at a fast clip by that time. Altogether, there is a very bright prospect of the coming fair being the biggest and best ever held in Marquette county.

PLATTED INTO LOTS.

Forty West of Fair Grounds Being Sold Off Rapidly.

Asire & Palmer have recently acquired forty acres of land in Section 16, located one-fourth miles west of the Catholic cemetery on the opposite side of the road leading to the light and buoy tower plant. This forty has been platted into lots of one-fourth acre each, and the whole divided into eight blocks of equal size. Though these lots were opened for sale only a few days ago, over 100 of the total 100 lots have already been disposed of. The tract is level, lying on the bank of a small stream, and the soil fertile. Most of those who have purchased lots have done so with the purpose of turning them into truck gardens, where vegetables for family use and for sale can be raised. The lots are well adapted for this purpose and being just outside the city limits, the taxes are very low.

Another feature which has caused an unusual demand for the lots has been the attractive terms on which they are being sold. Asire & Palmer are disposing of these lots on easy payments, \$1 down and \$1 per month for each lot purchased, without taxes or interest in case the payments are made promptly. In case payments are delinquent, interest and taxes fall on the purchaser. In case the purchaser of any of the lots should die such lots will not be conveyed to his heirs without further payments, no matter how much or how little the decedent may have paid toward the original purchase price. The lots are being sold for \$25 each, or \$100 per acre. The new allotment is known as Trowbridge park.

WEAK, WEARY WOMEN

Learn the Cause of Daily Woes and End Them.

When the back aches and throbs. When housework is torture. When night brings no rest nor sleep. When urinary disorders set in. Women's lot is a weary one. There is a way to escape these woes. Doan's Kidney Pills cure such ills. Have cured thousands.

Read this woman's testimony. Mrs. C. A. Burnham, 926 S. Jennie St., Escondido, Mich., says: "I speak from experience when I say that Doan's Kidney Pills are a reliable remedy for kidney trouble. They have never failed to give me relief from pain in the back and other troubles caused by disordered kidneys. I have no hesitation in allowing my name to be used as an endorser of such a reliable preparation."

For sale by all dealers. Price 50 cents. Foster-McMullen Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

The regular Saturday night hop will be held at Fraternity Hall tomorrow night. Must be by the Peerless orchestra (6-5-24)

DISASTROUS FIRE.

Mill Building at South Marquette Quarry Destroyed by Flames.

The most disastrous fire that Marquette has experienced for many months occurred shortly after 2 o'clock yesterday morning at the sandstone quarry of the Portage Entry Quarries company in South Marquette. The mill building in which the sandstones are sawed was practically destroyed, and much of the machinery was rendered valueless. No close estimate of the loss has been made but it will run into four figures.

No nightwatchman is employed at the quarry and the fire was not noticed until it had gained considerable headway. By the time the fire department arrived on the scene the building was a mass of flames and the blaze was not entirely extinguished until 7 o'clock in the morning. The origin of the fire appears to be a complete mystery.

Early this spring the South Marquette quarry was leased by the Portage Entries Quarry company from First, Ven & Co., a Chicago firm, who operated it last year. Since that time work has been going on at a lively rate and quite a number of men have been employed there. In order to continue to operate the quarry, it will be necessary to put up a new building and it could not be ascertained yesterday whether or not steps to that end were to be taken immediately. The loss was partially covered by insurance.

AUTO GARAGE MAY BE BUILT HERE

MARQUETTE ONE OF THE FORTY CITIES IN STATE WHERE SAGINAW CONCERN PLANS ESTABLISHING BUSINESS.

According to downtown newspaper reports, Marquette is to be one of the forty cities in the state where the Buick Auto Supply & Garage company will build an automobile garage. M. W. Jopling, of the Pioneer Motor company, when asked regarding the truth of this report yesterday, said that several letters had been received from this company relative to the sale of the Pioneer Motor company's interests here. The Buick concern has been advised that the Pioneer company can be bought out at a fair price, but no answer has been received to this communication. Meanwhile, the Pioneer Motor company is working out plans for the establishment of a first-class automobile garage in this city and something definite regarding these plans is likely to be made public within a short time. Concerning the plans of the Buick company, which has no connection with the Buick Auto company, of Flint, in spite of the similarity of names, an exchange says:

"The Michigan Buick Auto Supply & Garage company, which will be incorporated under the state laws with a capital of \$2,000,000 is the first subsidiary company of the Buick Auto Supply & Garage company of Maine, and will have its general office at Saginaw. What is claimed to be the largest garage building in the United States will be erected by this company in Detroit on the Grand boulevard."

"The big Detroit site comprises 245 feet frontage on the Grand boulevard and has a depth of 150 feet. The building will cover the entire lot. It will be two stories high in the front, extended back fifty feet to the garage part proper, the latter to have 24,500 square feet of floor space, entirely free of posts, with a capacity to store 400 automobiles. At one end will be a completely equipped machine shop 50 by 100 feet. Fifty skilled mechanics will be employed in this department for the overhauling and rebuilding of automobiles."

"The purchase of the Boulevard property was made by Thomas D. Buick, president of the holding company, who also purchased a fine down-town site in Grand Rapids for the Michigan property which is located at the corner of Ottawa and Crescent streets and is 100 by 134 feet. The Michigan company will build its Grand Rapids garage on this site. The Detroit and Grand Rapids garages will be two of the string of forty which the corporation will operate in Michigan. Other towns in this state in which the company will either build new garages, or take over garages already established are:

Adrian, Alpena, Ann Arbor, Battle Creek, Bay City, Benton Harbor, Cadillac, Calumet, Cheboygan, Coldwater, Flint, Holland, Iron Mountain, Ishpeming, Jackson, Kalamazoo, Lapeer, Lansing, Ludington, Maunee, Marquette, Marshall, Menominee, Monroe, Mt. Clemens, Muskegon, Niles, Owosso, Pontiac, Port Huron, Saginaw, Saint Ste. Marie, and Traverse City. The company already holds options on going garages in a good many of the above cities."

Members of the Ladies' auxiliary to the E. of B. T. are requested to meet at Siegel's Hall at 2:30 Friday afternoon. (6-2-24)

SOO CANAL PASSAGES.

HIGH WATER MARK FOR EARLY SHIPMENTS

VERY LARGE AMOUNT OF IRON ORE SENT DOWN THE LAKES FROM MARQUETTE SINCE THE OPENING OF THE SEASON.

Up to June 1 more iron ore has been shipped from Marquette than for the same period in the history of local shipping. Since the season opened, April 20, 348,019 tons of ore have been shipped from the S. & L. dock as compared with 272,779 tons up to the same date in 1909. From the South Shore docks, 220,599 tons have been shipped since the opening of the season, a considerable increase over the shipments up to this time last year.

This unprecedented large early season shipment has been due to several causes, chief among which is a more active demand for ore on the part of the furnace interests than for many years. Ever since last fall the furnace people have been placing contracts for ore and the opening of the navigation season found a large percentage of the available tonnage already tied up. Again, the ice went out of the lake much earlier than in 1909 and by the time the insurance went into effect, a large part of the lake fleet was ready to take on the first cargo. Shipping was in full swing practically a month earlier than last season.

Since the season opened, bear reports have emanated from supposedly reliable sources to the effect that the demand for ore was falling off and that early season activity would approach dullness before many months. Many of the furnaces on the lower lakes have been slow in starting but there has been no falling off in demand for ore, at least in Marquette. In fact, a well informed marine man stated that the outlook now was brighter than it was two weeks ago. Some of the ore carrying railroads have been disappointed in the amount of ore carried to date, but this has been due to the boats being held up by the late opening of the Poe Lock, rather than by any slump in the iron market, it is said.

While it is possible that the demand for iron ore will not continue so active throughout the season, local interests are inclined to take a sanguine view of the situation and are "making hay while the sun shines," leaving any worrying about the future to others.

MARQUETTE COMMON COUNCIL PROCEEDINGS.

(Official.) Marquette, Mich., May 27th, 1910. A special session of the common council was called to order at 8 o'clock p. m. by the mayor, the Hon. Daniel Vaughan.

Present—Aldermen Butler, Donovan, Ekstrom, Fassbender, Hennessy, Peters, Reichel and Schauer—9. The call for this session, signed by the mayor, together with the aindavit attached, showing proper service of the notice and the time on the mayor and all the aldermen of the city, was read, the object of the session as stated in the call being, "To consider and act upon the following matters: 1. Resolutions concerning the improvement of the water works system of the city. 2. Resolutions concerning sewerage of the city north of present main trunk sewer. 3. Payment or refunding of bonds of the city. 4. Advance of moneys to the Park, Cemetery and Street Commission."

On motion of Alderman Butler, supported by Alderman Peters, the following was unanimously adopted: Whereas, the Board of Fire and Water Commissioners of this city have been for the past year and more engaged in the endeavor to find the most feasible and satisfactory method of supplying this city with pure water.

And Whereas, said board has now called a special election of the legal voters to determine as between moving the water works to Presque Isle at an estimated cost approximating \$2,450,000, and extending the intake from present Water Works into 70 feet of water at a cost approximating \$75,000, and has, upon its investigation of the subject and the advice of the expert engineers employed, recommended the extension of the intake.

Now Therefore, Be it resolved that the approval of this council is hereby extended to said board for its action, and that this council does hereby endorse and approve the said recommendation for extension of the intake.

On motion of Alderman Donovan, supported by Alderman Asire, the following resolution was unanimously adopted: Resolved, That this council stand ready to cause the laying of sewers to accommodate that part of the city lying north of and below the present main sewer which empties through the east end of the Jackson dock, as soon as the intake of the City Water Works is extended out into Lake Superior to a depth of 70 feet as now planned and recommended by the Board of Fire and Water Commissioners.

A communication from Spitzer & Co., bankers, of New York, offering \$5,000 municipal improvement bonds, issue of 1901 of this city, was presented.

On motion of Alderman Asire, supported by Alderman Ekstrom, the following resolution was adopted: Resolved, That the city accept of the offer of Spitzer & Co., bankers, of New York, to take up and pay \$5,000 municipal improvement 3 1/2 per cent bonds, issue of 1901 of this city, due July 1st, 1911, at 99 and interest; and that a warrant be drawn on the general fund for said purpose for the amount necessary to retire said bonds.

Yes—Aldermen Asire, Butler, Donovan, Ekstrom, Fassbender, Hennessy, Peters, Reichel, Schauer and the mayor, Nays—None.

On motion of Alderman Asire, supported by Alderman Peters, the following resolution was unanimously adopted: Resolved, That five thousand dollars be transferred from the general fund to the park, cemetery and street fund, as an advance to the Park, Cemetery and Street Commission.

The council then, on motion, adjourned.

DANIEL S. DONOVAN, Recorder.
