

MR. DOLLIVER SPEAKS FOR INSURGENTS

Answering the Critics of the Progressives, He Refutes the Charges of Disloyalty—They Don't Fight to Destroy the Party, but to Uphold It.

It Is Not Necessary to Swallow a Tariff Revised by Interested Men in Order to Remain a Republican, He Says—He Contends for Independence.

Washington, June 13.—Mr. Dolliver, of Iowa, today answered the critics of the "insurgents" in a speech in the senate during the discussion of the provision of the sundry civil bill providing \$250,000 to enable the president to gather information bearing on the operation of the new tariff law.

Senator Dolliver's speech was the reply of the insurgents to the charges of party disloyalty which were leveled against them by their opponents in the party.

Not Playing for Popularity. Discussing the president's course toward the insurgents, Mr. Dolliver declared that they were not playing for popularity, as has been charged, and speaking of his personal relations with the president, he declared that he never had done anything to injure the administration.

Criticizes the Winona Speech. Asserting that it was his desire to learn the public will, Mr. Dolliver suggested that he would like to hold a political inquisition of the motives of those in both branches of congress who view the president's course as following in the "delsian" that he is their leader.

Two Great Hoaxes Last Year. The senator said: "Last year witnessed two important hoaxes—the discovery of the North pole by Cook and the revision of the tariff downward by Aldrich."

Speaking of the opposition that had been tendered upon both events, he said that the tariff revision was due to the belief that it failed to fulfill the party

pledges. He said that they had deliberately taken their stand having full knowledge of the political machinery that would be in operation to bring about their defeat.

Containing that the principle of allowing interested men to revise the tariff was wrong, Mr. Dolliver asserted that while the president understood the principle, his ideas of it were "foggy."

The Infant Rubber Industry. After stating that Senator Aldrich had made a plea for the protection of the rubber industry, Mr. Dolliver said that it subsequently had been ascertained that these concerns were multiplying their wealth by rapid strides.

Aimed at Lake Michigan Gamblers. The joint resolution originating in the house and authorizing Illinois, Indiana and Michigan to agree upon the question of jurisdiction over crimes committed on Lake Michigan was adopted today by the senate.

Charges Scandal in the Philippines. Representative Martin, Democrat of Colorado, wants Land Speculation Looked Into.

Washington, June 13.—As a result of information sent to the house Saturday by the war department, disclosing the alleged fact that Frank W. Carpenter, executive secretary of the Philippine government, had bought and leased "friar lands" of many thousands of acres in the Philippines, Representative Martin, Democrat of Colorado, today introduced a resolution demanding an investigation.

Session Is Devoted to Oratory. The entire session of the house today was devoted to political speeches delivered during the period permitted for general debate upon the deficiency bill.

Arranging the record of the Republican party as one of "ranked promises and wicked extravagance," Representative Beck, of Texas, contended that "Republicans" and "sinners" meant the same thing.

Claims Committee Closes Its Work. With a record of 150 bills, carrying \$800,000 altogether, favorably reported and 200, carrying \$2,000,000, adversely reported, the house committee on claims today closed its work for the session.

President Appoints a Board of Fine Arts. Washington, June 13.—A commission of fine arts, to pass upon the location, plans, etc., for future buildings, monuments and the like in the District of Columbia was appointed by President Taft today in conformity to a bill recently passed by congress.

Father of Rural Mail Delivery. Aberdeen, S. D., June 13.—Major John A. Piekler, who while a member of congress introduced a resolution which authorized the first rural free mail delivery, died at his home at Faulkton today, aged sixty-six.

Washington, June 13.—Every Daughter of the American Revolution has been asked to display the American flag tomorrow and participate in flag day exercises wherever they may be held.

"JACK POT" TESTIMONY ELIMINATED

First Day of the Trial of Legislator Browne on Charges of Bribery Results in a Victory for the Defense—Much Evidence Is Ruled Out.

This Relates to the Alleged Disbursement of Money at St. Louis and Has an Important Bearing in Various Particulars—White Tells His Story.

Chicago, June 13.—The first day of the trial before Judge McSurely, in the criminal court here, of Representative Lee O'Neil Browne, charged with alleged bribery in connection with the election of Senator Lorimer, resulted in a partial victory for Browne's counsel.

Conferees Are Near Agreement. Washington, June 13.—With the end in sight, a session of the conferees on the railroad bill was held tonight. Only one feature remained as a serious barrier to final agreement.

Fearful of Government Ownership. Deer Park, Md., June 13.—That government ownership of railroads will be the result of the proposed legislation was the opinion expressed today by President Daniel Willard of the Baltimore & Ohio railroad at a conference of the company's officials.

Stock Mart Is Dull, But Prices Go Up. Liquidation Subsides, the Bears Buy to Cover and Values Improve All Around.

White on Stand All Day. Representative White was on the witness stand all day, but the frequent lengthy arguments prevented him from testifying at any great length.

Murder Mystery Still Baffles Italian Police. Como, Italy, June 13.—Developments today in the mystery of the murder of Mrs. Porter Charlton were few.

Pope Forbids Churches Collecting at Doors. New York, June 13.—Pope Pius X has issued an order forbidding the practice of collecting a fee at the church doors at services, a custom that has prevailed in nearly all Catholic churches.

Uncle Sam Gets After Lake Towing Trust. Washington, June 13.—The government is collecting evidence intended, it is said, to form the basis of a suit against the Great Lakes Towing company under the Sherman anti-trust law.

Rebating Is the Charge. Chicago, June 13.—A bill in equity against the Union Stock Yards and Transit company et al, charging rebating, was filed here today by United States District Attorney Sims.

Washington, June 13.—Briefs were filed by the attorneys for the prosecution and the defense with the Ballinger-Pinchot investigation committee today.

The Weather

Washington, June 13.—The following is the weather bureau's forecast for Upper Michigan: Fair, Tuesday; cooler in the northwest; Wednesday, fair; light variable winds, mostly west.

EXPOUNDS DOCTRINE OF THE SQUARE DEAL

President Taft Declares for Equal Opportunity to Both Railroads and Shippers.

Washington, June 13.—In talking with a delegation of shippers representing the entire country, who called to congratulate him upon his course in the recent railroad negotiations, President Taft today again expounded the doctrine of a square deal.

Conferees Are Near Agreement. Washington, June 13.—With the end in sight, a session of the conferees on the railroad bill was held tonight.

Fearful of Government Ownership. Deer Park, Md., June 13.—That government ownership of railroads will be the result of the proposed legislation was the opinion expressed today by President Daniel Willard of the Baltimore & Ohio railroad at a conference of the company's officials.

STOCK MART IS DULL, BUT PRICES GO UP

Liquidation Subsides, the Bears Buy to Cover and Values Improve All Around.

New York, June 13.—The state of ill-will which the stock market fell today proved to the advantage of values, a withdrawal of orders being apparent from the selling side of the market.

Murder Mystery Still Baffles Italian Police. Como, Italy, June 13.—Developments today in the mystery of the murder of Mrs. Porter Charlton were few.

FLAG DAY CELEBRATION.

Elks at Calumet Will Observe It—This Also Pythian Memorial Day.

Today is flag day. It will be observed in the copper country by the Elks with special services at the Calumet temple. The Hancock and Houghton Elks will go to Calumet in a special car, leaving Houghton at 1 o'clock.

It is the plan of the officers of Charity lodge to hold a meeting in the castle hall at 2 o'clock this afternoon. There will be a short ritualistic service, and after that the members of the order will go to Lake View and Hecla cemeteries, where the graves of deceased Pythians will be decorated.

WHITEFISH DINNER.

Pleasant Party at White City Planned by Hancock Alumni. A new plan of entertainment has been adopted this year by the alumni association of the Hancock High school for entertaining the members of the graduating class. The old time reception and dance have been passed up. The members of the association have chartered one of the boats lying between Hancock and the White City for the evening of Tuesday, June 21. The boat will leave Hancock at 6 o'clock in the evening carrying the members of the association and the class to the White City where all will be served with a whitefish dinner. The evening party is given so that those who are not at liberty during the day and are members of the association may attend without interfering with business duties.

Anti-Tuberculosis Society Plans to Remove from Houghton to Calumet.

Dr. L. L. Hubbard, president of the Houghton County Anti-Tuberculosis Society, who returned Sunday from a business trip to the East, has called a meeting of the society for tonight. It will be held in the association's room in the Murphy building. The meeting is called for the purpose of considering the advisability of removing the headquarters of the association from Houghton to Calumet.

This change will in all probability be made. It is found, through the work of Miss Elliott, the visiting nurse, that the greater number of tubercular patients are in the north end of the county and the society is at a great expense sending out from a large number of houses from Houghton. With headquarters at Calumet the work would be much simplified. There is now under consideration a scheme to locate the society in an office adjoining the Associated Charities of Calumet in order that the two societies, which have much in common, will be enabled to work together with greater ease. This is, however, only a matter of detail.

Question of Dispensaries. Dr. Hubbard reviewed on Sunday for a reporter for this newspaper the work which the society has done. He says that the early work of the society was educational and that large public meetings were held in order that the public might fully understand the work of the organization and the necessity for the campaign. These meetings resulted in sitting out from a large number of interested people a comparatively few enthusiasts who took prominent parts in the work of the society and who have enticed others so that there are now a fairly large number of representative Houghton county people who are interested in the work and are seeing that it is carried on. The necessity for big meetings has passed, Dr. Hubbard praises without stint the work of Miss Elliott, the visiting nurse. She has a large number of patients under her instruction and care and they are adhering faithfully to the prescribed regime and mode of living with the result that an appreciable benefit is seen in many cases.

The next big matter for the society's consideration is the establishment of dispensaries. Dr. Hubbard hopes to see one in every town in the county. These dispensaries should not be confounded with depots for the free distribution of treatment. They are rather central points where consumptives may come to receive instruction and to have their records kept so that a faithful record of the course of their disease may be preserved. All of these things are coming in time for the society. Dr. Hubbard is convinced that the society is doing good, and that what will do more good in the future. The fight against tuberculosis is one which will not terminate in this generation and those now engaged in it can look forward only to a battle which will last as long as they do. And the officers and members of the Houghton County Anti-Tuberculosis society seem willing to face such an unequal contest, confident that they are working toward an end that will be accomplished some day.

SENTENCED TO MARQUETTE.

Hjalmar Jankila and Andrew Jokela Go to the Branch Prison. Hjalmar Jankila and Andrew Jokela were sentenced to Marquette prison yesterday morning by Judge Streeter, the first for two and a half to five years and the other for one and a half to two years. Both were convicted in the present term of court for larceny, being jointly concerned in stealing money from a man in a Hancock saloon. Jankila is considered by Sheriff Byers and Prosecuting Attorney MacDonold to be one of the most dangerous crooks in Houghton county. He is said to make a specialty of starting friendly wrestling matches in saloons in order to rob the man with whom he wrestles. It was a case like this which caused his arrest this time.

WRESTLING TOURNAMENT OFF.

Houghton Businessmen Decide on Quiet Fourth of July. The wrestling tournament and band concerts which the businessmen of Houghton contemplated arranging as a partial recognition of Independence Day will not be given on the Fourth of July. The committee has learned that owing to the large number of desirable wrestlers will be engaged on the Fourth and will be unable to come to Houghton. So it is decided to arrange nothing for the Fourth and to defer the wrestling tournament until a later date.

Mr. E. Weakley, Kokomo, Ind., says: "After taking Foley's Kidney Pills, the severe backache left me, my kidneys became stronger, the secretions natural and my bladder no longer pained me. I am glad to recommend Foley's Kidney Pills." In a yellow package. Sold by all druggists.

NEW BOAT IS LAUNCHED.

Dr. R. W. DeMass Has Fine New Craft on Portage Lake. Hancock has had another launching and there has been added to the message fleet of Portage lake the craft of Dr. R. W. DeMass. Dr. DeMass has had the boat in storage for some time, awaiting the arrival of an engine. The engine is now at the shops of the Northern Garage & Supply company of Houghton where the craft was towed yesterday for the installation of the power. The boat was launched near the county bridge. It is thirty feet long and was formerly the captain's gig on one of the United States battleships. It is an elegant boat. It is propelled by twin screws and with its new engine will make good speed.

DEMAND FOR NATURALIZATION.

County Clerk Receives Thirty Additional Petitions for September. There is a possibility that the next term of the Houghton county circuit court, which convenes Tuesday, Sept. 6, will break all records for Michigan and several other states in the number of persons naturalized at a single term. The demand for naturalization is one of the features of the year.

DOUBLE H STILL LEADS LEAGUE.

Huron-Houghton Ball Team Seem Invincible—Cricket Note. The Double H still lead the Copper Country baseball league, with 1,000 per cent. The Huron-Houghton boys beat Winona at Winona Sunday, taking the game by the score of 5 to 1. Gay beat Hancock 8 to 5 and Mohawk beat Lake Linden 11 to 1. The Ripley independent team went to Ontonagon and won 7 to 5. Kearsarge still leads in the cricket league as a result of Saturday's games. Mohawk is second and Butte third.

RESIGNATION IS ACCEPTED.

A meeting of the board of trustees of the Hancock Congregational church was held Saturday evening at which the resignation of Rev. J. Sidney Gould, presented recently, was considered. The resignation was accepted. The matter of extending a call to a new pastor was left to the standing committee. Mr. Gould will preach his farewell sermon in Hancock on Sunday, June 26. As previously announced Mr. Gould will take up missionary work in Kansas.

TAKES OVER ARLINGTON BAR.

H. Harrington, Jr. who for the past few years has been the mixologist at the bar of the Scott Hotel, Hancock, has completed negotiations for taking over the bar of the Arlington Hotel at Calumet. Mr. Harrington will at once assume the proprietorship of the popular buffet, "Jokanda" is a Hancock product and will be missed by his friends in that city. He is well known in Calumet, having worked at the Arlington before.

The member of the mines in the Butte camp has been accomplished and the Anaconda Copper Mining company is now the one operating company for all

Mining News

BUTTE COALITION.

Still Preserves Its Cash—Making Copper for 8 1/2 Cents a Pound. The annual report of the Butte Coalition company for 1909 makes it clear that the management deemed it expedient to charge the operating account heavily for all of construction, opening and improvement work, rather than to encroach upon cash reserves. The balance sheet as of date Dec. 31 shows that the company's cash account has not been impaired and that it stands at \$3,922,138 against \$3,759,410 for the same date in 1908 and \$3,503,150 in 1907.

NOTES OF COPPER NEWS.

At the Anaconda diamond drilling well begun shortly in No. 3 shaft to determine the distance remaining between the bottom of the shaft and the Kearsarge ledge. Whenever an opportunity offers, the Anaconda company has been buying Boston & Montana shares, as high as \$200 being paid. Last year, about 120 shares were bought privately.

THE HUNSEY-BOWEN-SENEGAL INTERESTS.

The Hunsey-Bowen-Senegal interests have begun exploratory work on their lands lying immediately south of the Bohemia. Operations are being conducted in the extreme eastern limits of that territory with the object of determining the western limits of the eastern sandstone which in this district is presumed to mark the eastern limits of the mineral belt.

THE UTAH COPPER AND NEVADA CONSOLIDATED PROPERTIES.

The Utah Copper and Nevada Consolidated properties are producing at the rate of about 170,000,000 pounds of copper per annum. By reason of Utah Copper's large interest in Nevada Consolidated, the former receives the benefit of about 125,000,000 pounds of annual output, and if the cost is eight cents per pound, there are indicated profits on 12 1/2 cent copper equal to \$4 per share on Utah Copper or \$1 in excess of the dividend now being paid.

ANAONDA.

The member of the mines in the Butte camp has been accomplished and the Anaconda Copper Mining company is now the one operating company for all

former Amalgamated properties.

The next step will be the gradual dissolution of the Boston & Montana, Parrot Butte & Boston, Red Metals Mining and other companies. This will take some months but by the end of 1910 there is very likelihood that none but the Anaconda will be in existence. What were formerly considered subsidiary companies of Amalgamated are now known as departments of the Anaconda company. There are: The Boston & Montana mining department, Boston & Montana smelting department, Parrot Washoe, Butte & Boston and Red Metal departments. The Clark properties, original and Stewart mines together with the Butte Reduction Works, are now part and parcel of the Anaconda company and since June 1 their operations have been under direction of the Anaconda management. Their purchase was a cash transaction. Already a portion of the economy to result from the merger has become operative, although it will not be possible to reduce operating costs fully one cent per pound for at least another year.

THE HUNSEY-BOWEN-SENEGAL INTERESTS.

The Hunsey-Bowen-Senegal interests have begun exploratory work on their lands lying immediately south of the Bohemia. Operations are being conducted in the extreme eastern limits of that territory with the object of determining the western limits of the eastern sandstone which in this district is presumed to mark the eastern limits of the mineral belt.

THE UTAH COPPER AND NEVADA CONSOLIDATED PROPERTIES.

The Utah Copper and Nevada Consolidated properties are producing at the rate of about 170,000,000 pounds of copper per annum. By reason of Utah Copper's large interest in Nevada Consolidated, the former receives the benefit of about 125,000,000 pounds of annual output, and if the cost is eight cents per pound, there are indicated profits on 12 1/2 cent copper equal to \$4 per share on Utah Copper or \$1 in excess of the dividend now being paid.

Cook in Comfort. You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort. Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection Oil Cook-stove. Wick Blue Flame. Standard Oil Company (Incorporated). Why? Because The New Perfection Oil Cook-Stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wick with a cloth cleans it—consequently there is no smell.

City Brevities

Today's weather: Fair and cooler. Yesterday's temperature: Seven a. m., 74 degrees; noon, 79; 7 p. m., 76. Maximum, 85 degrees; minimum, 65.

Attorney M. J. Doyle, of Menominee, was in the city yesterday.

Mrs. W. J. Ellison left last evening to visit relatives in Duluth.

Robert H. Shields, of Houghton, was in the city on business yesterday.

Born, Sunday, June 12, to Mr. and Mrs. S. Lauri, Second street, a son.

A. E. Sterne, county superintendent of schools, spent yesterday in the city.

Mr. and Mrs. H. B. Shepard are here from Denver, Col., visiting relatives.

The Ladies of the B. of R. T. are to meet at Siegel's Hall at 2:30 this afternoon.

Mr. and Mrs. F. H. Withey left last evening for Lower Michigan to visit friends and relatives.

Members of the baseball team are requested to take the 3 o'clock car this afternoon for the fair grounds.

Mrs. Ames Maywood and daughter and mother, Mrs. Field, are guests of Mr. and Mrs. S. G. Pierce of Houghton.

Dr. James McQuillan, of Superior, is in the city attending to business. He will return home Wednesday or Thursday.

The wooden sidewalk in front of Manhard's hardware store has been torn up, preparatory to putting down a concrete walk.

The Knights of Columbus will hold a regular meeting at their club rooms at 8 o'clock tonight. Important business is to be transacted.

Miss Emily Foubert has returned from Niles, Mich., where she finished a season's trimming for the millinery shop of the Misses Brahony.

Ira C. Carley, of Ingalls, O. C. Davidson, of Iron Mountain, and E. C. Anthony, of Negaunee, attended a meeting of the board of control of the Marquette prison yesterday.

An unusually large number of applications for citizenship are being filed at the county clerk's office. It now looks as if there would be over 100, and perhaps 150, applications for second papers at the September term of circuit court.

Governor Warner and Leonard Freeman, of Fenton, went to Ishpeming in a motor car yesterday afternoon and spent the evening there, leaving after midnight, accompanied by E. C. Anthony, of Negaunee, for Stillwater, Minn.

Friends of Mr. and Mrs. E. W. Maynard, who are located at Louviers, Colo., near Denver, where Mr. Maynard is employed as a chemist by the Du Pont Powder company, have received cards announcing the birth of a daughter, Bessie Agnes.

J. C. Woodworth, of the Grand theater, left this morning for Munising. Mr. Woodworth and Sid Howard are to open the Palace theater in that village Wednesday night. The Palace will use the same excellent film service now used at the Grand.

John Welsh and mother and sister, who have been visiting here for several days, have returned to the copper country. Mr. Welsh formerly lived here but is now superintendent of a mine in Nevada. He has been away from Marquette for twenty-one years.

Princeton Man in Toils—Armatto (Gerolmi, of Princeton, has been bound over to circuit court by Justice Sarasin, on the charge of having sold liquor without a license on May 18, last. Several witnesses at the hearing before the justice testified to having purchased beer from him on that date. His bond was fixed at \$300.

Charged With Robbery—Harold Chase, a youth who claims to be nineteen but looks much younger, was bound over to circuit court yesterday by Justice Byrne on the charge of robbery. It is alleged that Chase stole some money and a pair of cruising boots from John D. Mangum at his farm at Gordon last Saturday. The boy was arrested by Marshal Manning at Yalmar.

May Report of V. N. A.—At the meeting of the Visiting Nurse association held yesterday afternoon, the visiting nurse made the following report of her work during May: Number of patients visited, 22; total number of visits, 168; doctors sent, 1; garments given away, 62; total disbursements, \$135.92. The relief committee reported that \$8.22 had been expended for groceries and provisions; \$1.50 for shoes; \$8 for milk, and \$6 for labor, the total monthly expenditure being \$20.42.

Row on W. B. Morley—A row that took place yesterday on the steamer W. B. Morley will be aired before Justice Byrne today. On the way into the harbor, the captain and engineer of the vessel got into an altercation and each man has sworn out a warrant against the other, charging assault and battery. Both men were arrested by Marshal Manning yesterday and when brought before the justice arranged for a hearing this morning, being in the meantime at liberty on their own recognizance.

Excursion Tickets—Several hundred tickets for the excursion to be given by the Chicago association of Commerce on the steamer Theodore Roosevelt tomorrow evening were placed with the business men yesterday and the distribution will continue today. Parties entitled to them can secure the tickets by application to officers of the Commercial club. It is expected that the Roosevelt will take out well over 2000 people tomorrow evening, making one of the largest excursions that has ever left Marquette.

Hydraulic Engineer Here—O. C. Smith, of Appleton, Wis., a hydraulic engineer, is in the city to confer with the light and power commission relative to the construction of a concrete dam at the head of the steel flume above the light and power plant. The wooden dam there now has become unsafe and it is to be replaced with a permanent structure just as soon as the work can be done. The new dam will be so built that it can be raised in case the commission ever decides to purchase additional flowage rights and increase the capacity of the dam.

MAKES REPORT ON ST. LOUIS MEETING

Superintendent Retallic Tells of Subjects Discussed of Interest Here.

At the meeting of the light and power commission held yesterday, Superintendent Charles Retallic told the members of the board something about the convention of the National Electric Light association, which was held in St. Louis, May 23-27. Mr. Retallic attended this convention together with representatives from practically every manufacturer of electric supplies and from most of the larger electric lighting companies, and learned many things applicable to the Marquette lighting and power system.

Much of Mr. Retallic's report was too technical to be of general interest, and dealt with pole line construction, grounding systems, different types of lights, meters, etc. For lighting the streets in the down-town districts, many cities are discontinuing the arc lights suspended in the center of the street and substituting either ornamental poles and brackets, with tungsten lamps, along the curb line on both sides of the street. This makes a very pretty and effective lighting system, as it does away with the dark shadows between arc lamps. The chief objection to the ornamental bracket, tungsten lamp plan is that it is more expensive than the ordinary arc system, but in many cities the business men are paying a part of the expense in return for the benefit derived from a better and more beautifully lighted street.

He learned that the Westinghouse company is about to put on the market a new form of tungsten lamp. It differs from the old type in that the new form of filament is made of one continuous piece of tungsten, hung in loops over hooks. The old type of filament was made of five pieces of filament in series. By making the filament in one piece, a better and more uniform conductor is obtained. One year ago it was thought that the forty watt tungsten would be the smallest tungsten lamp made, but the companies are now about to put on the market a fifteen watt (11 c. p.) lamp.

Rates for service were given much discussion at the meeting. This talk brought out that nearly every company has its own system of charging and that a system that was just and equitable in one city might be unfair and unsatisfactory in another place, where local conditions were different.

At the convention nearly every kind of meter was exhibited that is manufactured, together with appliances for testing them. The consensus of opinion was that meters should be tested at least every year and better still, every six months. In Marquette, the superintendent believes that meters have not been tested often enough, and a systematic plan for testing all the meters in the city regularly is now under way. Tests already made show that nearly all the meters in the down-town district are running from 4 to 10 per cent slow. The meters tested in residences do not show as large a percentage slow as do the business meters, due to the fact that the number of revolutions is not as many per year.

On the whole, from what he observed at St. Louis, the superintendent is of the opinion that the Marquette commission is following the latest and most modern methods employed by the large private companies as to operating and construction, and has been especially fortunate in choosing the proper types of meters, transformers, generating apparatus, etc.

CLASS NIGHT PROGRAM.

Seniors of High School Held Enjoyable Exercises Last Evening.

From the standpoint of the graduates, one of the most important events of commencement week took place in the high school assembly room last evening, when the annual Class Night program was rendered before a fair-sized and appreciative audience. The program was as follows:

- Piano solo, An den Fruhling.....Grieg
- Addie Van Evert.
- President's Address.....Will Byrne.
- Class History.....Addie Van Evert.
- Class Poem.....Mary Doetsch.
- Girls' Quartet, Morn Rise (Stephanie Gavotte).....Czibulka
- Marguerite Johnson, Margaret McCombs, Viola Richardson, Elma Kraft.
- Class Prophecy.....Margaret McCombs.
- Address to Juniors.....Karl Patrick.
- Giftatory.....Hazel Madden.
- Vocal solo, Appare Love at Thy Window (Serenade).....Grieg
- Marguerite Johnson.
- Valedictory.....Jeanie Lundquist.
- Quartet, Joys of Spring.....Geibel
- Marguerite Johnson, Arvid Paulson, Grace Fletcher, Donald Begole.

REPAIRING LAKE STREET.

Street Commissioner Riedinger Is Doing Needed Work There.

Street Commissioner Riedinger has been engaged on a piece of work that has been meeting with the most hearty approval of the draymen, automobilists, farmers and Choctaw township, and all other persons who have occasion to use the Lake street road. Beginning at a bad stretch just north of the South Shore freight house he has worked to a point south of the Carp furnace, filling all the bad holes with crushed rock and otherwise putting the road in good condition. It is his purpose to repair it south to the city limits, and he expects to leave it in very fair condition. A number of bad holes near the gas house have been filled, and the work south from the Carp furnace is badly needed, as the road between the furnace and the city limits has been going to pieces rapidly the past few years. The road is probably the most traveled in the county. On many days from fifty to a hundred farmers drive to town over it, and there is also a large traffic from the city that uses it, and which will be largely increased when the county road commission finishes the stretch of meadum highway it is now building from the Choctaw location to Greengarden.

BIG REPAIR JOB

Probably Cost \$100,000 to Float Steamer Wissahickon, of Anchor Line.

When the Anchor line steamer Wissahickon is floated out of drydock at the Orleans street yard of the Detroit Shipbuilding company, probably today, one of the largest repair jobs on a lake vessel ever undertaken at that port will have been completed.

The Wissahickon has been in drydock since April 20. In the interval since, the Detroit Shipbuilding company has had a force of nearly 200 men almost steadily at work repairing the damage which the big steel package freighter received when she stranded Dec. 12 last year on Great Duck Island, near the head of Lake Huron.

About 160 plates, practically her entire bottom, were removed. Most of them were re-rolled and put back. Her shoes, which was badly bent, was straightened and the greater part of her floor frames were taken out, some to be straightened and others to be replaced. Her center keelson, also was removed. Except for repairs to steamers her machinery is believed to be all right.

Although Frank Jeffrey, the company's general superintendent of the yard, declines to throw any light on the size of the repair bill, vesselmen estimate the job will figure up to at least \$100,000.

The Wissahickon was released from the rocks last winter and lay in Great Duck Island harbor all winter before being brought to Detroit.

SOO CANAL PASSAGES

List of Boats That Have Passed the Locks, Bound for Superior Ports.

LOWER STATE NOTES.

CADILLAC—Two weeks ago, while C. Jacobs of South street was shaving himself, a slight scratch was inflicted on his throat. For a week the scratch did not bother him and then blood poisoning set in that resulted fatally. He was sixty-four years of age.

COLDWATER—Turning out to let a team pass, an auto containing a party of four went off a culvert and turned turtle in the ditch just outside the city. Carl Willis of Adrian was pinned under the car and his hip broken and dislocated. Fred Brown, J. B. Glover and Richard Hurst, the other passengers, escaped without injuries other than bruises.

PORT HURON—The twenty-fourth annual convention of the Michigan Bankers' association will be held at Port Huron and on Georgian bay June 21 to 25. The convention will meet at Port Huron June 21 and will go on the steamer, Thousand Islands, Muskegon Lakes and returning to Detroit.

LANSING—Lientenant Governor Kelley has filed his petitions with the secretary of state to qualify as Republican candidate for governor. In the bulky roll of the petitions are 40,000 names from various parts of the state. About 6,000 names are required, but the remainder were filed in case any are crossed off during the checking of the lists by the department. Mr. Kelley is the first gubernatorial candidate to file petitions.

LANSING—R. E. Olds, president of the Old Motor Car company of this city, has announced that his company is to enter the manufacture of automobile trucks. The Remont property, formerly operated as a stove works, has been purchased and is to be remodeled for the construction of two kinds of delivery trucks, one to sell for \$600 and the other for \$750. The plant will employ 1,000 men and will build a new building soon. The company has declared a 30 per cent dividend. E. F. Pere, secretary and treasurer of the company, has resigned.

CARO—Ivan Woodcock, the twelve-year-old son of Mrs. Jonas Woodcock, was seriously injured while playing with dynamite caps and was badly mangled both his hands. Dr. C. H. McLean found it necessary to amputate his left hand at the wrist joint and the thumb from the right hand. He was also injured about the eyes. A box of dynamite caps such as are used in mines had been thrown out by a dealer and had become wet and stuck together. The boy found them and took them to the school grounds and was trying to whittle them apart with a pocket knife when the explosion occurred.

BATTLE CREEK—Word has been received here that President Taft has pardoned from the asylum for the criminal insane at Washington Charles Mains, formerly of this city. Mains shot and killed a prospector in Alaska during a quarrel over a mining claim. He claimed self defense and after he was sentenced to Leavenworth prison for life he further claim was made for him that he was insane at the time. He was transferred to the Washington, D. C. asylum and it is now explained he has recovered his reason. The president is stated to have pardoned him on the ground that Mains was insane at the time the crime was committed.

SAGINAW—A step in advance has been taken for the trade school which was established in this city five months ago and which is just about to end its first term of work. The Fitchburg plan is to be tried next year. A meeting of the school authorities and many manufacturers was held at which the plan was decided on as the most feasible to secure practical work in connection with the shop work that is given in the manual training school. The boys will attend the school between the ages of fourteen and sixteen years. They receive in that time a lot of theoretical knowledge that is to be imparted to them.

them. After that time the student spends one week in school where he continues the study he has been pursuing and every other week he works in a shop. The shops are to be designated later and will be placed at the disposal of the board of education by many manufacturers of Saginaw. While working in the shop the student is under a regular foreman and will receive pay like any other workman. While the student is spending his week in the shop other members of his class are in the school and Saturday afternoons the two are exchanged so that ideas may be given to each other. Superintendent Warriner, of the public schools, is highly pleased with the first efforts of the trade school and the budget for the current expenses of the school for next year carries ample funds for the maintenance of the school.

CHICAGO GRAIN MARKETS.

Chicago, June 13.—The lowest prices to date for the crop of 1910 were made in the wheat pit this afternoon. As if to emphasize by contrast the bearish outlook regarding the current year, the May delivery for 1911 scored a net advance of 1/4. The large yields and the fine quality of the new wheat in Texas were today recognized as so certain that Kansas City millers offered flour to the Atlantic seaboard at 75 cents a barrel below the Minneapolis quotations. The effect of this action was immediate in the market here. The average of Canadian wheat was officially stated to be 1,554,000 more than ever before. The Hungarian crop was authoritatively estimated at 108,352,000 bushels, as against 113,232,000 bushels last year. During part of the day there was continuous pressure on the market from influential sources. The July weakened more relatively than the deferred months. The indications pointed to persistent limitation in that delivery. At the close the tone was easy, with the active futures 1/4 to 1/2 under the final figures of Saturday. The September opened at 87 1/2 to 88 1/2; highest, 89 1/2; lowest, 88 1/2; closed, 88 1/2.

Corn.—This market was weak. Fine weather and increasing offers were the factors. The close was easy, 1/4 to 3/4 down. The September opened at 57 1/2 to 58 1/2; highest, 58 1/2; lowest, 57 1/2; closed, 57 1/2. Oats.—This market declined on selling by farmers and lack of support. It closed 1/2 lower. The September

Markets

WALL STREET STOCKS.

New York, June 13.—Paine, Webber & Co. say of today's stock market: "Except for a slight recession during the early trading the stock market was strong throughout today's session. The trading in the last hour, however, became purely professional and transactions were relatively small. The borrowing demand for stocks after the close Saturday revealed a large extension of the short interest, and in the absence of unfavorable news over Sunday and the lack of shortening rumors from Washington, shorts covered freely, resulting in substantial advances in a great many instances. Some liquidation of a significant character was noted Saturday, and it was said today that stocks were again being freely supplied on the advance. There was some talk of a large sale of copper metal abroad being consummated, but the same lack of confirmation. However, it served the purpose of driving shorts to cover in Amalgamated and Anaconda. We still think that a conservative attitude in the market will bring the best results, as agitation relative to the railroad bill is likely to enter the situation as a disturbing factor when least expected."

Boston Stock Quotations.

Boston, June 13.—Today's stock market at Boston is summarized by Paine, Webber & Co. as follows: "The action of the market today shows clearly the absolute control of the big interests. The London quotations for copper were decidedly lower, but the price of Amalgamated was steadily rallied, in spite of aggressive selling by the bears. The trading in the entire list was very dull. The liquidation by big interests was conspicuous by its absence. The market will probably remain dull for some time but should be sold on any good news, as the street is full of undigest securities which will be marketed on any opportunity."

The closing prices were:

ISHPEMING IN BRIEF.

The Carnegie public library will close every evening between now and Sept. 1 at 8 o'clock.

The city council will convene this morning as a board of review. It is expected that it will take three days to completely review the tax roll.

Court Widows' Friend of the Foresters will meet hereafter on Tuesday, instead of on Saturday evening. The first meeting under the new arrangement will be held tonight.

The Cleveland-Cliffs Iron company's workmen at the Lake and Cliffs shafts mines were paid yesterday. The men at the Hard Ore and Salisbury mines will be paid today.

Mr. and Mrs. Joseph Hocking were given a surprise at their home on Second street, Friday evening last. The time was spent in games and music. Light refreshments were served, after which Captain G. H. Gough gave a short address.

C. L. Phelps, principal of the Ishpeming High school, and wife, will leave tomorrow evening for Chicago, going from there to Madison, Wis., where they will spend a few months. Mr. Phelps will be principal of the Calumet High school next year.

William Bamford left yesterday for Traverse City, Mich., in response to a message advising him of the serious illness of his uncle, Joseph Graham, formerly of this city. Mr. Graham worked for the Cleveland-Cliffs Iron company here and is known by many Ishpeming people.

William Treblecock yesterday completed the walls for a concrete barn at the home of M. A. Kahn. The structure is twenty feet long by fourteen wide. Mr. Treblecock will today complete the foundation for a concrete dwelling that Mrs. Robert Wilcox is erecting on North Third street. The building will be a duplicate of George Wane's house on Empire street.

The Northern Leather company yesterday installed a Campbell leather stitcher, which was set up by an expert sent from the factory. The Campbell company are the principal manufacturers of harness and shoe making machinery in the country. In testing the stitching machine yesterday the expert sewed together five pieces of tug leather and four pieces of sheet iron without either breaking or dulling the needle. The machine can make from 300 to 400 stitches per minute. A tug for a harness can be sewed the entire length of both sides and across the ends in three minutes. It would take a man an hour and a

Ishpeming Department

AMUSEMENT BUILDING FOR TWIN CITIES

Fire-Proof Structure 60 by 120 Feet Proposed for Cleveland Park.

W. J. McCorkindale, manager of the Marquette County, Gas & Electric company, has started a movement for the erection of an amusement building near the entrance to Cleveland park. In the event the project is carried through the building will be known as the "Casino," and will be used for dancing, roller skating, indoor baseball, basketball and other amusements.

Mr. McCorkindale has had this project in mind for some months, and he recently had plans prepared for a structure that will cost in the neighborhood of \$7,500. His company has agreed to pay one-half of the cost, and an effort will be made to raise the remaining amount among the people of Ishpeming and Negaunee. Mr. McCorkindale has talked with representative men of both towns and he says that he has met with encouragement.

The Farwell interests, who own the Marquette County, Gas & Electric company, have advised Mr. McCorkindale that they will guarantee 6 per cent interest annually on all stock taken in the two cities. It is proposed to issue bonds in small denominations and the company, in addition to guaranteeing 6 per cent interest on the investment, will agree to redeem all of the bonds at the end of ten years, provided the holders do not wish to carry them for a longer period. The principal object in asking citizens of the two cities to purchase some of the bonds is to get them interested, so that they will aid wherever possible in making the project a success. Mr. McCorkindale believes that the proposed building would be self-sustaining, as it could be used to good advantage both summer and winter.

While the exact location for the proposed building has not yet been decided on, it will be constructed either to the east or west of the road leading from the street car line to the Golf club links and Cleveland park.

The plans, which have been approved, call for a fire proof structure, 120 feet in length by sixty wide, exclusive of a dressing room, ticket offices, toilets, etc. The foundation and side walls will be concrete and the frame work steel. A balcony for the musicians and spectators will be extended around the four walls. It is planned to provide the building with a steam heating plant, and some sort of a water system will be put in.

DEATH OF YOUNG LADY.

Mr. and Mrs. Christ Hansen of Salisbury Street Mourn Loss of Daughter.

Clara, the seventeen-year-old daughter of Christ Hansen, of Salisbury street, died Sunday. The girl was taken down four months ago with pneumonia and her demise was due to complications that set in following the illness.

The death of the young lady is particularly sad, as she was the only girl in the family. She possessed a lovable disposition and all who knew her were her friends. She attended the Ishpeming High school, and was a member of the sophomore class. She had many friends among the students, to whom her death is a distinct shock. Besides her parents there are three brothers surviving. The oldest brother is ten years of age.

The funeral will be held Thursday afternoon at 2 o'clock from the house and at 2:30 from the Norwegian Lutheran church. Rev. C. L. Finch, pastor of the Salisbury Methodist church, will conduct the services in the absence of Rev. J. A. Lillehei, the pastor. Friends desiring to view the remains are requested to call at the house.

"THE PRINCE OF TONIGHT"

Mort H. Singer's Musical Comedy Success at Ishpeming Theater.

At the Ishpeming theater tonight Manager Mort Singer will present the latest success from the Princess theater, Chicago, "The Prince of Tonight." The book and lyrics of the new piece are the work of Frank Adams and Will Hough and the music is from the pen of Joe Howard. Henry Woodruff will make his initial bow as the leading player in a musical comedy. He will represent an impecunious college youth who is transformed, through the mystic influence of a blooming century plant, into the prince of Lousiana, a mystical country, in order that he may gain the affections of a young woman of wealth who spurns him as a life saver at Palm Beach. The prima donna of the cast is Miss Ruth Peebles, who distinguished herself with the Savages, former season, in the role of the town's most studious alchemist for the past two years, but was tempted out of her retirement by Manager Singer. Others in the cast are Joseph Herbert, Jr., Margaret McBride, Edward Beck and forty of the famous show girls and boozers from the Princess theater, Chicago.

FORMER RESIDENT HERE.

Frank Ecklund and family are here from Billon, Wis., on a visit to his stepfather, Charles Fosberg, and family, 529 North Lake street. Mr. Ecklund, who was reared in Ishpeming, left here some years ago. He has held the office of village clerk at Billon for several years, and is one of the town's most prominent citizens. Prior to coming to Ishpeming, he attended a convention of the Mystic Workers at Elgin, Ills. The Billon News said of him:

"Village Clerk Ecklund and family left Monday for Elgin, Ills., where Mr. Ecklund goes as delegate of the local lodge of Mystic Workers at the convention of the order. Before returning Mr. Ecklund will also take his family for a visit at their old home, Ishpeming, Mich., also affording a brief visit to Mark P. Ohlson, who is acting village clerk during Mr. Ecklund's absence."

BAND'S ENGAGEMENTS.

The Ishpeming band, which accompanied the members of the Knights of Pythias, to the First Methodist Episcopal church and to the cemetery Sunday morning, and the Scandinavian society to the cemetery in the afternoon, will furnish music for the Salisbury Sunday school society's picnic at the Salisbury location. On Saturday, the 25th, the band will accompany the Ishpeming French society to Escanaba. On the fourth it will play for Sir Humphrey Davey lodge, Sons of St. George, at its picnic at the Cleveland Park, and on the 21st it will accompany the same society to Iron Mountain, where this year's reunion of the Sons lodges of the state is to be held.

BOOST FOR HARRIS.

To the Editor:
Dear Sir—Having witnessed the games at Marquette on Saturday and Sunday, I must say in regards to the umpire, Harris, that he is square and fair in all his decisions. I must further say that I have seen some of the best games played, and that Harris is even fit to umpire for bigger leagues. I don't know him. I have only seen him umpire three games. Your team here are playing just as fast and good ball as any of those western leagues, and the boys should be given credit for their good work and clean ball. Kiebs and Dixon are two ideal ball players, cool and always on the alert. I am sorry to say that I am not able to see more of your games, but owing to my position of a traveling man I will not be able to attend any more of your games. Yours truly,
A. J. MCCORMICK.

This is the time you need a gas stove. Order one from the Marquette County, Gas & Electric company. It can be installed at once. (6-14-tf)

George F. Ruez's Review.

"The New York market held fairly well today and closed at the high for the day. North Butte received another jolt this morning. It opened at 27 and sold down to 24 1/2, recovering to 25. The buying of Lake was good on the report that Boston interests, who have been soliciting proxies, have enough to bring about a change in the management. It is reported that E. H. Broughton, president of the U. S. Metals company, and John P. Ryan, president of the Amalgamated company, are now in London negotiating for the sale of very large lots of metal to English and Continental buyers. Consumption of such a sale would greatly stimulate the market for copper shares at the present low level of prices. There was no feature to the early market. Transactions were few and prices practically unchanged. Cactus has secured options on about 500 additional acres of mining claims. A report by Consulting Engineer Prickett, showing the present physical condition of Cactus will be published shortly."

DEAFNESS CANNOT BE CURED

Until applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional means. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running, sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; none cases out of ten are caused by catarrhs, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Safety Deposit Boxes for Rent at \$3.00 Per Year.

Negaunee Department

FREE MAIL DELIVERY IS NOW ASSURED

All Dwellings Should be Provided With Private Mail Boxes—Twenty Street Boxes.

George E. Reidenback, the inspector from the postal department at Washington, who was sent to Negaunee to make an investigation as to whether the city is entitled to free mail delivery service, has made a favorable report, and has recommended that the service be started as soon as possible.

Usually free delivery service is not started until about three months after the inspector recommends it, but as Mr. Reidenback has recommended that the service be started as early as possible it is thought that Negaunee people will be getting their mail at their homes in sixty days.

Mr. Reidenback called upon members of the board of public works and other city officials and found all of them favorable to free delivery. He found that the board of public works has already procured the house numbers and street signs and was assured that they will soon be put in position.

The inspector advised Postmaster Connors that mail boxes must be provided at every house in the districts to be covered by the carriers. The mail carrier is not allowed to leave a letter at houses where he finds the door locked and which are not provided with mail boxes.

The box should be placed near the front door, and the number should be above or alongside the front door. Mr. Reidenback selected twenty locations for street mail boxes, and also laid out the routes for the carriers. He will recommend that three carriers be employed at the start, but it is thought that a fourth one will be necessary within a year or so.

Postmaster Connors expects to receive application blanks for carriers in a few days. Up to this time few have expressed a desire to take the examination for carriers, but it is thought that there will be several seeking the positions.

Postmaster Connors has received a request from the government for a statement, showing the school census for 1905, as compared with 1909. The census during the four years increased more than 30 per cent, and it is expected that there will be a fair increase this year over last year. The number of children of school age in the city last year was 2,751. William Verran, who is taking the census, expects to complete the work this week.

EXTRA BADGES ORDERED.

The officers of the Negaunee lodge of the Fraternal Order of Elks have ordered 150 of the souvenir badges to be worn by the iron and copper country Elks at the reunion in Detroit next month. Several of the members have ordered two or more badges. The badge will be unique. The top bar will reproduce a copper ingot and the picture on the lower part will be a reproduction of the historic stump where the first iron ore was found in the Lake Superior district at the Jackson mine. The badges will cost the members forty cents each.

There are 103 members in the Negaunee lodge. About fifteen members of the Negaunee lodge now plan to attend the reunion, but it is possible that this number will be increased by at least five. The officers of the Ishpeming lodge also expect that at least from fifteen to twenty of the members will attend.

CEMENT SIDE WALKS.

I will be glad to have you ask me to figure with you on the cement sidewalk. My work and prices should be attractive to those having cement work done.

ANTON HENDRICKSON, Negaunee.
Many a husband sails, dangling to fame, in the grasp of an ambitious wife.

MANUAL TRAINING PRIZE.

Son of Mayor John W. Elliott Awarded Carpenter's Bench.

The committee appointed by the board of education to decide which student of the public schools is entitled to the carpenter's bench offered as a prize by Rosen Bros. & Klein decided in favor of J. Melvin Elliott, son of Mayor J. W. Elliott. The committee was composed of Contractors Chaussee and Lindquist and Alderman C. B. Driscoll.

All of the better pieces of work turned out by the students in the manual training department were inspected by the committee. The names of the boys doing the work were unknown to them. There were two other pieces of work that compared favorably with the one turned out by Elliott. The piece made by the winner of the prize was a piano bench. The judges were well pleased with the work of the department, considering that it was the first year of manual training in the Negaunee schools.

EIGHTH GRADE EXERCISES.

Second Program of School Entertainments Will be Given This Evening.

The eighth grade exercises of the Negaunee public schools will be held this evening in the auditorium of the new high school building. A play, entitled "The Fire Fly Slave," will be presented, and an admission of ten cents will be charged. The cast of characters will be as follows:

Housekeepers, how do you manage to get along without gas stoves? Put one in and save labor and expense. The Marquette County, Gas & Electric company. (6-14-10)

DIED AT HOUGHTON.

The remains of Mrs. Thomas Adams, formerly of this city, who died in Houghton, were received in Negaunee Sunday and the funeral was held yesterday afternoon at 2 o'clock, with interment in the Catholic cemetery. The deceased was a daughter of Louis Washburn, of this city. The family left Negaunee for Houghton eleven years ago. Mr. Adams is in the employ of the Houghton village, working under Martin Foley, superintendent of the board of public works. Besides her husband the deceased is survived by six children.

Meals prepared quickly and cheaply with a gas stove. Marquette County, Gas & Electric company can supply it on short notice. (6-14-10)

BATTLE CREEK—Mrs. Jessie Burch, wife of a foreman in a local food factory, while on her way home from Hagenbeck-Wallace circus in company with a woman acquaintance, was shot through the abdomen with a thirty-two caliber bullet, fired by an unidentified negro. Believed to be a follower of the show. Mrs. Burch was near her home when the stranger stepped from behind a tree and with the admonition, "I'm going to shoot you," pulled the trigger. A crowd quickly gathered and there were threats of lynching, but the man made his escape. Several women had reported to the police during the evening that their lives were threatened by a negro. The physicians hold out some hope for Mrs. Burch's recovery.

Fifty-seven unmarried people commit suicide to only forty-three married.

LOST—Leaf brooch pin, set with sapphires and pearls, attached to long velvet cord. Finder will please return to Perkins' drug store and receive reward. 6-14-10

LOCAL LACONICS.

John Nesbitt and wife, who spent the winter in Chicago, have returned to Negaunee.

H. C. Work, the well known commercial man, called on his patrons in Negaunee yesterday.

H. O. Young's primary list is being circulated in Negaunee and many of the voters are signing it.

Peter Anno and his bride have returned from St. Paul, where they were married some ten days ago.

Miss Margaret Adams has returned from Grafton Hall, Fond du Lac, where she was a student for the past year.

Thomas Penglase, son of Captain William Penglase, was over from Crystal Falls Sunday. He returned that evening.

Aksel Larson, manager of the Gwin Lumber company, came up from there to spend Sunday with his folks, returning yesterday.

Heinonen Bros., the Negaunee contractors, have purchased an Oakland car from E. R. Nelson, the company's upper peninsula agent.

Samuel Goodman and two daughters, Pearl and Viola, visited his wife and their mother Sunday at St. Mary's hospital, Marquette. Mrs. Goodman is doing well.

The porch in front of the Gauthier block, on East Iron street, has been removed and a new one is to be erected. This is one of the oldest buildings on the street.

Yesterday was by several degrees the warmest day of the summer. It was sixty-seven degrees here yesterday morning at 5:30 o'clock, and Sunday morning at the same hour it was fifty-two and on Saturday fifty.

Guy Katus and Miss A. Vizina, popular young Negaunee people, who were married recently by Father Lamott at St. Paul's church, have gone to Detroit and other lake points on their honeymoon trip. They will be absent several days.

Wm. Carroll, who has been an engineer at the Cleveland-Ciffs Iron company's Maus mine, has resigned, to accept a position as master mechanic with

the Oliver Iron Mining company at a property at Stephenson, on the Mesaba range.

Benjamin Andrews and family, former residents, have returned from Butte, Mont., and will again locate here. Mr. Andrews was a member of the Negaunee City band for some time before going to Butte. He played during most of the time that John Blackwell was the leader.

Miss Ella McDougal, who was last week called to Eyleth, Minn., on account of the serious illness of her brother, Dan, has returned. Dan is suffering from pneumonia and is confined to a hospital. His brother Angus, who is working at Coleraine, Minn., is still with him.

A large number of Negaunee people will attend the musical comedy production, "The Prince of Tonight," at the Ishpeming theater this evening. Special street car service will be provided. The curtain will not ring up until 8:45 o'clock, as the company does not arrive until 6:50.

Simon Bishop, a well known resident of Negaunee, sustained a fracture of the collar bone and two ribs Sunday afternoon by falling thirty feet in the Lilly mine shaft. Mr. Bishop was the head pumpman at the property and he and his crew were called out Sunday to do some extra work. He was standing on a platform in the shaft when the plank under him gave way. He is confined to the Negaunee hospital.

TEACHERS' EXAMINATIONS.

Will be Held at State Normal Thursday, Friday and Saturday.

An examination of teachers for all grades of county certificates will be held at the Northern State normal, Marquette, Thursday, Friday and Saturday, the 16th, 17th and 18th, beginning at 9 o'clock each morning. The next examination will be held on the 11th and 12th of August at the same place. Most teachers plan on taking the August examination, but there is a mistaken idea prevailing in regard to work done at the summer school and institute at the Normal. Examining boards have no authority to accept standings from any educational institution or teacher. Therefore, teachers should be careful how they classify for the summer's work.

Review courses in the following subjects will be offered: Orthography, arithmetic, theory and art, civil government, geography, United States history, course of study, geometry, grammar, physiology, reading, algebra, physics, botany, general history. Thus an excellent opportunity is afforded for six weeks to prepare for examination. Many teachers have failed in the past because the above subjects have not been carefully reviewed, which mistake has been made by not classifying with this object in view.

SCARED INTO SOUND HEALTH.

Mr. B. F. Kelley, Springfield, Ill., writes: "A year ago I began to be troubled with my kidneys and bladder, which grew worse until I became alarmed at my condition. I suffered also with dull heavy headaches and the action of my bladder was annoying and painful. I read of Foley's Kidney Pills and after taking them a few weeks the headaches left me. The action of my bladder was again normal, and I was free of all distress." Sold by all druggists.

Total Amount to Be Collected This Year Is \$100,060, Which Is About \$1,400 Less Than Was Levied in 1909—One Mill for Library and Schools Not Included

As the Valuation as Equalized by the Board of Review Is Practically the Same, the City Tax Rate Will Be Neither Higher nor Lower Than in 1909.

At the meeting of the common council held last evening it was determined that the amount to be collected by taxation for city purposes during the fiscal year ending March 8, 1911, shall be \$100,060, exclusive of the one mill tax allowed by law for school and library purposes, the amount of which is estimated at \$6,890 for each purpose. This appropriation means that the total amount to be raised by taxation this year is about \$1,400 less than last year.

Controller Primeau has not yet added up the revised assessment roll prepared by the board of review last week, but it is believed that the valuation as equalized will be practically the same as last year, which means that there will be no material change in the city tax rate. The tax rate for city purposes the past year has been 1.71. The board of review made a good many changes in the assessments, raising some and lowering others, as the result of which it is thought that the total real estate valuation will be somewhat higher than last year, while the personal property valuation will be just about as much lower. The reduction in the personal property valuation is principally due to the reduction made in the assessment of the Keewenaw Association, Ltd., which was lowered from \$150,000 to \$90,000.

The \$100,060 appropriated by the council last night was distributed as follows: Streets \$20,000; Parks and cemeteries \$5,000; Police commission \$4,500; General purposes \$10,500; Fire and water board \$14,000; Schools \$46,000.

Last year the appropriation for streets was \$20,000; for parks \$2,000; for the police commission, \$4,000; for general purposes, \$11,000; for fire and water board, \$22,500; for schools, \$42,000. Total, \$101,500.

The budget as prepared by the committee on finance and taxation was adopted without change, but there was considerable discussion over whether or not the council should specify just exactly where the amount appropriated to the street commission should be expended. Aldermen Downey maintained that last year the street commission had expended money appropriated for one improvement in other places and had left

the work undone for which the money was appropriated. Several others agreed with him that this was a bad practice and should be discontinued. Alderman Asire defended the commission, claiming that the board was better qualified to determine where the street money should be expended than the council, and suggested that the commission would not be apt to spend their appropriation for any other purposes than were specified in the budget submitted, asking for an appropriation of about \$22,000. He thought that the commission could most wisely determine what should be cut out of the original budget, and the matter was left that way.

On motion of Alderman Peters, it was voted to spread all last year's delinquent special assessments upon the 1910 tax roll. Mayor Vaughan re-appointed H. R. Harris as a member of the light and power commission, and the appointment was confirmed without opposition. There being no further business the council adjourned.

U. S. COURT OPENS TODAY.

Wheels of Justice to Be Set in Motion by Judge Dennison at 10 a. m.

The summer term of United States court will open at 10 o'clock this morning, and already the hotels of the city are filled with attaches of the court, attorneys, jurymen, witnesses and others who have an interest in the proceedings of the term. District Attorney Covell and Assistant Attorney Clute arrived yesterday and spent the day getting evidence in shape to present to the grand jury and preparing for cases that are to be tried. Judge Dennison was expected to arrive in the city last evening. Mr. Covell stated yesterday that he could not say as yet in what order the cases on the criminal calendar would be taken up, but the criminal cases are to be disposed of before passing to the civil docket. The district attorney expects that the trial of George H. Beddow will be begun before the end of the present week. Beddow is accused of having embezzled and misapplied funds in his custody as the assistant cashier of the defunct First National Bank of Ironwood. It is probable that some cases will be disposed of today, but it is impossible to say what cases they will be.

THEATRICAL.

"The Prince of Tonight"

"The Prince of Tonight," which will be seen at the Marquette Opera House Friday evening, is by Hough, Adams and Howard, the trio whose names are linked with "A Stubborn Cinderella," "The Goddess of Liberty" and "A Flirting Princess." The book is clever, dealing with the mysterious efforts of the blooming century plant, and gives opportunity for some beautiful transformations, grouping and stage pictures. These have been worked out by George Marion. The music is in Joseph Howard's catchiest vein and the score abounds in numbers that will be whistled, a sure test of popularity. Among them are "Her Eyes Are Blue for Yale," "The Best Thing a Walter Does Is Wait," "I Wonder Who's Kissing Her Now," "I Can't Be True So Far Away," "You're a Dear Old World After All," "You Won't Know Anybody There" and "The Girl That Never Can Be Mine." Henry Woodruff assumes the title role and he will be surrounded by a company of about sixty people, mostly girls.

MACCABEES HAVE BRIGHT PROSPECTS

Local Delegates Well Pleased With Showing Made at the Kalamazoo Meeting.

According to the Marquette delegates who attended the Great Camp of Modern Maccabees at Kalamazoo last week, the Michigan tents have never been in better condition than at present and are now in a position to grow steadily. This result, it is said, has been obtained in the face of adverse circumstances. A year or so ago the order received considerable space in the newspapers, some of which was in the nature of adverse criticism, and this had a tendency to excite unrest, dissatisfaction and lack of confidence in the order. These matters of policy and administration that were in dispute have now been settled to the entire satisfaction of the membership at large and local members of the order are enthusiastic as to its future.

The report of Great Recorder Keeper A. M. Slay showed that there were 8,143 admissions during 1909 and that 8,204 certificates were issued, the difference being accounted for by the fact that there are members who have had issued to them two or more certificates and are carrying protection in two or more plans. There were 1,891 deaths during the term just closed and the amount paid the beneficiaries was \$2,388,044.77. The total amount paid beneficiaries in death claims from date of organization to December 31, 1909, was \$14,217,798.34. During the term just closed there were \$36,058.27 paid in salaries, while the expenses totaled \$9,885.39.

The session of the ladies was given over to the reports of the officers, all of which were enthusiastically received. Probably the most interesting of these to the membership scattered throughout the state is that of Great Recorder Emma E. Bower, which in substance is as follows:

New hives instituted during the term, 7; charter members, 1,708; average age, 29; members added during term, 13,698; net gain, in life benefit members, 472; hives suspended but reinstated, 47; deaths during term, 1,949; amount paid to beneficiaries, \$876,243.24; hives having largest membership in state, Venus, No. 372, Flint, 386, hives making greatest gain in membership Belle Isle, Detroit, 99.

NEEDLEWORKERS.

I shall remain in Marquette only three days longer, until Wednesday evening, June 15th. The ladies who have not already supplied themselves with embroidery work for the summer months are invited to call on me before 6 p. m. Wednesday at Hotel Marquette, Room 7. Everything to delight the heart of a needleworker.

There Will Be a Big Crowd This Week at Our Special Bargain Sale

A RINGING MESSAGE FROM THE MILLINERY DEPARTMENT

250 Stylish New Hats for a Little Money.

The most extraordinary offering of the kind ever known in this city.

This is the Millinery event of the week and the season. It will cause a furore in the Millinery circles. Those who come here this week will be amazed at the Hats that are to be offered. It does not seem possible that Hats with such style and good materials could ever be sold at such price and there are hundreds to select from. The entire Millinery department has been given up to this event—counters and tables will be flooded with Hats arranged so you can easily inspect them.

There are large Hats, small Hats, styles so varied that women of every type and complexion can find the shapes and colors that are most becoming.

- 58 untrimmed Hats, handsome shapes, worth \$2 and \$2.50, your choice for **78c**
 - 48 Sailors, worth everywhere \$2, your choice . **98c**
 - \$7 Trimmed Hats for **\$4.00**
 - \$5 Trimmed Hats for **\$3.25**
- Every trimmed or untrimmed Hat at a special price.

Flowers, Trimmings, Ornaments and Aigrettes at reduced prices.

Ladies' Coats, Suits, Skirts and Millinery

— AT —

Grabower's Big Store

The woman who lets this Suit opportunity slip by is missing a real chance to save money.

Nothing Finer Than Printzess Suits

Beautiful Tailoring, Elegant Materials, Rich Silk and Satin Linings.

What more can a woman ask? and here they are selling at prices that you could not begin to buy such Suits at other stores. No line of Suits or Coats is more delightfully satisfactory to our customers than the famous manufacturers of Printzess Suits and Coats, and as for style and good materials inquire in any of the larger city stores about Printzess Suits and Coats. Many, and there are very many of our customers, who would not buy under any consideration any other make of Suits or Coats. This week we want to make the greatest Suit and Coat week of the season and here are some very interesting figures for you to think about.

- Regular \$35 and \$25 Suits, your choice **\$15.25**
- Regular \$22.50 and \$20 Suits, your choice **\$12.50**
- Regular \$16.50 and \$15 Suits, your choice **\$8.75**

All Coats at very low prices. You never have seen such prices on high grade ready-to-wear goods.

Louis Grabower Co.
