If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

Mrs. Abraham Steier of Second street died Sunday at midnight. Cancer was the cause of her dehise. Although Mrs. Steier had been in poor health, her death came rather unexpectedly. Two years ago she submitted to an opera-tion and since then her health had been gradually failing, though she was able to be around until three or four weeks ago. The deceased was about fifty years

The deceased was about fifty years and a fiter it. Births recorded in the city yesterday were a daughter to Mr. and Mrs. Gustates and two sons. Her daughters and Miss Minnie Steier, living at home. The sons are Samuel Steier, who is a student at the Michigan College of Mines, and Leo, living at home. The family has lived here for many years and Mrs. Steier's death is mourned by many friends. The funeral will be held today, with interment in the Marquette cemetery. The remains will be taken to that city on the South Shore train, leaving here at 10 a. m.
