ROOSEVELT BREAKS HIS LONG SILENCE

In a Telegram to Lloyd C. Griscom of New York, He Makes His First Public Utterance on a Political Subject Since His Return from Abroad.

Saying He Believes the People Demand It, He Advocates the Enactment, With Certain Amendments, of the Direct Primary Legislation Pending at Albany.

New York, June 29.—Theodore Roosevelt today made the first public utterance on a political subject since his return from Europe. In a telegram from Cambridge, Mass., he advocates the enactment, with certain amendments, of the so-called Cobb direct nominations bill, now before the extraordinary session of the legislature in this state. The telegram, which is addressed to Lloyd C. Griscom, chairman of the Republican county committee of New York county and sponsor for the amendments in question, is as follows:

"During the last week great numbers of Republican and independent voters from all over the state have written me, urging the passage of the direct primary legislation. I have seen Governor Hughes and have learned your views from your representative. It seems to me that the Cobb bill, with the amendments proposed by you, meets the needs of the situation. I believe the people demand it. I earnestly hope it will be enacted into law."

Mr. Roosevelt's statement, "I have seen Governor Hughes," must refer to their brief meeting at Cambridge today. Mr. Griscom received the telegram late this afternoon and almost immediately made it public, together with a statement explaining the proposed amendments to the Cobb bill. The bill is now before the judiciary committee of the assembly. The amendments are likely to be introduced in the senate tomorrow.

Griscom Explains Them.

Mr. Griscom's statement says: "While the amendments affect the law throughout the state in some particulars, they chiefly are important to New York city. One provides that a voter in New York city changing his residence after enrollment shall lose the right to vote at a primary election. It is alleged that the removal of an elector from one place to another within the electoral district has been a fruitful source of fraud at primary elections. The amendment will, therefore, make for greater honesty at primary elections, and will distinguish a comparatively small number who might otherwise be legitimately entitled to vote."

"The other amendments provide that delegates to conventions and presidential electors need not necessarily reside in the district from which they are elected. In the selection of delegates to national and state conventions particularly, it is often found desirable to send delegates of party prominence from districts other than those in which they reside, and the amendment is intended to allow the continuance of the well-established practice."

Adverse Report at Albany.

Albany, N. Y., June 29.—The assembly judiciary committee today decided to report adversely the Cobb compromise direct nominations bill and the Gray-Frisbie primary bill, favored by the Democratic league.

COMMENCEMENT AT HARVARD UNIVERSITY

Roosevelt and Hughes Are There and Nearly 1,000 Young Men Receive Diplomas.

Cambridge, Mass., June 29.—Guest and host in one, Theodore Roosevelt brought energy and animation to commencement day at Harvard University today. The cheers that marked his passage to and from among the buildings of the ancient yard indicated his position as chief guest, while his presence at the head of the table at the commencement luncheon was a token that he was host by virtue of his office as president of the Harvard Alumni association.

Other distinguished guests also were within the university walls, and when the great audience saw Governor Chas. E. Hughes of New York stand up to receive an honorary degree, it burst into applause. J. Pierpont Morgan, the New York financier, and General Horace Porter, former ambassador to France, also were awarded honorary degrees. Nearly a thousand young men received diplomas. Colonel Roosevelt later went to Manhattan to spend the night as the guest of United States Senator Henry Cabot Lodge.

In opening the alumni meeting Mr. Roosevelt said he felt gratified for the bestowal of the degree on him abroad, but he came back feeling that the place for a man to be educated was his own home, where his citizenship must be exercised. It was important that the home universities should turn out scholars, but it was more important that they should turn out men able to do to the fullest extent what is required of them by the fullest needs of American citizenship. While "America" stood abroad as a symbol of the possibility of realizing ideals, there was a certain disheartened sense that we had not

achieved the ideals as we should. He urged his hearers to put their house in order in accordance with the highest standards of morality and decency.

MR. TAFT AT BEVERLY; MEETS ROOSEVELT TODAY.

Beverly, Mass., June 29.—President Taft arrived at his summer home at 9:30 o'clock this forenoon. Mr. Taft and Theodore Roosevelt will meet at Burgess Point tomorrow. Whether Governor Hughes will participate is not certain. It is believed that Senator Lodge will be present.

DEATH CLAIMS SENATOR DANIEL

Stricken With Apoplexy Last October, Virginia Statesman Expires at the Age of 68.

Lynchburg, Va., June 29.—John W. Daniel, senior United States senator from Virginia, died at a sanitarium here at 10:35 o'clock tonight, death being due to paralysis. The funeral will be held at 11 o'clock tomorrow at the sanitarium. The senator was a cerebral hemorrhage. The senator began sinking late in the afternoon, and the relatives were all summoned to his bedside. The funeral will be held at 11 o'clock tomorrow at the sanitarium. The senator was a cerebral hemorrhage. The senator began sinking late in the afternoon, and the relatives were all summoned to his bedside. The funeral will be held at 11 o'clock tomorrow at the sanitarium.

Dr. White, Scientist, Also Is Dead.

Washington, June 29.—Dr. Charles A. White, scientist, died here today, aged eighty-four. The greater part of his writings were on geology and paleontology. He was born at North Dighton, Mass., and was for a time professor of natural history in the Iowa state university and in Bowdoin college. He was state geologist of Iowa for four years.

MANY CORPORATIONS ARE HOLDING OFF

Special Tax Not Being Paid as Promptly as Expected—Washington Gossip.

Washington, June 29.—Today was a record-breaking day in the amount received by the treasury department under the corporation tax law, the total being \$1,420,000, making the aggregate received by the government on account of the tax \$9,921,184. The corporations are not paying as promptly as expected. The impression is that many are holding off until the last moment before penalties are exacted so as to be in position to claim that the tax was paid under duress, making recovery easier in the event that recourse to law is necessary.

Now Will Appear at Springfield.

Springfield, Ill., June 29.—Lee O'Neil Browne, of Ottawa, minority leader of the state legislature, and Representative R. E. Wilson, of Chicago, the alleged distributor of the legislative "pocket," will appear tomorrow to give bonds in the sum of \$10,000 each to the indictments charging conspiracy to commit bribery. The delay in giving the bonds is due to the fact that Browne has been awaiting the jury's verdict in the case at Chicago charging him with bribery.

Indictments of Senator John Broderick, of Chicago, charged by Senator D. W. Holladay, of Lake, with paying him \$2,500 for his vote for Wm. Lorimer, as well as against Senator Stanton C. Pemberton, of Oakland, and Representative Joseph Clark, of Vandavia, indicted for conspiracy in the furniture case, already have been drawn and will be returned by the grand jury Friday.

The grand jury in Chicago is investigating the charges of fraud in the local park board election, and a score of indictments are ready to be returned the latter part of the week. The grand jury will then take a recess until July 18.

Witnesses Say Bleached Flour Is Not Injurious.

Kansas City, June 29.—In the bleached flour cases today, Miss Ella Agnes Hartwell, acting head of the University experiment station at Ames, Ia., said that she had made bread from both bleached and unbleached flour, had it tested for ash, nitrates and digestibility, had used both kinds on her table and had found no difference so far as affect upon body was concerned. Dr. Fred A. Alway, professor of agricultural chemistry at the University of Nebraska, testified that eighty tests of bleached flour he had made had convinced him that the flour is not injurious.

Senator Crawford Attacks River and Harbor Bill.

Pierre, S. D., June 29.—The South Dakota conservation congress today devoted its time principally to agricultural conservation. Senator Crawford, as presiding officer of the night session, attacked the method of making appropriations for Western rivers as wasteful. He took the position that the work on river improvements should be the complete protection of the banks of the streams under a comprehensive plan to cover the whole length of the navigable streams for a series of years.

North Dakota Stalwarts and Insurgents Divide the Honors.

Bismarck, N. D., June 29.—Early reports from the Republican primary election indicate the nomination of Senator P. J. McCumber, stalwart, and Congressman Gronna, insurgent, for the United States senate. Congressman Hanna, stalwart, and Hegelson, insurgent, are running ahead for the congressional nominations.

Irrigated Crops Doing Excellently.

Washington, June 29.—Approximately sixty thousand acres in Nebraska and Wyoming under irrigation by the North Platte project are actually planted this season, according to the reclamation service. It was said today that the crops are doing excellently.

Holmes Pays a \$5,000 Fine.

Washington, June 29.—Former Government Statistician Holmes, indicted in 1905 in connection with the "cotton task," today pleaded guilty and was fined \$5,000, which he paid.

LEE BROWNE'S TRIAL ENDS IN "NO VERDICT."

After Being Out 115 Hours, the Longest Session by 41 Hours in Chicago Court Annals, the Jury Reports That It Is Unable to Agree.

Twenty-Four Ballots Were Taken, It Is Officially Announced, and All of Them Stood 8 to 4 for Conviction—Wayman Declares the Jury Was "Fixed."

Chicago, June 29.—The jury that heard the case of Lee O'Neil Browne, the legislative minority leader, charged with bribing Representative White to vote for United States Senate Wm. Lorimer, today disagreed and voted a "no verdict." The jurist stated that the jury took twenty-four ballots, standing eight to four for conviction throughout.

The jury was out 115 hours, the longest session by forty-one hours ever held by a jury in Chicago. Judge McSweeney said he would hear a motion for a new trial a week from today.

"Packing" Charged by Prosecutor.

State's Attorney Wayman declared to newspaper reporters this afternoon that the case offered the most flagrant case of jury-fixing ever known. Mr. Wayman said: "The jury was packed from the start. Three men confessed to receiving bribes."

Mr. Wayman's comments caused a sensation, and later he attempted to modify his remarks, saying: "I did not think that my remarks, at least all of them, were to be published. What I wanted to say was that there was considerable suspicion of 'flagging' and winking at the jurors."

Minority Jurymen Explain.

The causes for the mistrial were discussed later by the four jurymen who held out for acquittal. Here are the explanations of the men who composed the determined minority:

Charles Spore—I felt throughout the trial that Browne was innocent. This feeling was increased with the arguments of jury-fixing ever known. Mr. Wayman said: "The jury was packed from the start. Three men confessed to receiving bribes."

Wm. R. Lowe—I did not believe that Representative White was telling the truth.

Wm. H. Hennessey—I was not convinced of Browne's alleged guilt; the state's evidence was not strong enough.

Waiter J. Hermanson—I objected to a vote of guilty, because of the circumstantial character of the evidence. White's word did not impress me.

Now Will Appear at Springfield.

Springfield, Ill., June 29.—Lee O'Neil Browne, of Ottawa, minority leader of the state legislature, and Representative R. E. Wilson, of Chicago, the alleged distributor of the legislative "pocket," will appear tomorrow to give bonds in the sum of \$10,000 each to the indictments charging conspiracy to commit bribery. The delay in giving the bonds is due to the fact that Browne has been awaiting the jury's verdict in the case at Chicago charging him with bribery.

Indictments of Senator John Broderick, of Chicago, charged by Senator D. W. Holladay, of Lake, with paying him \$2,500 for his vote for Wm. Lorimer, as well as against Senator Stanton C. Pemberton, of Oakland, and Representative Joseph Clark, of Vandavia, indicted for conspiracy in the furniture case, already have been drawn and will be returned by the grand jury Friday.

The grand jury in Chicago is investigating the charges of fraud in the local park board election, and a score of indictments are ready to be returned the latter part of the week. The grand jury will then take a recess until July 18.

Witnesses Say Bleached Flour Is Not Injurious.

Kansas City, June 29.—In the bleached flour cases today, Miss Ella Agnes Hartwell, acting head of the University experiment station at Ames, Ia., said that she had made bread from both bleached and unbleached flour, had it tested for ash, nitrates and digestibility, had used both kinds on her table and had found no difference so far as affect upon body was concerned. Dr. Fred A. Alway, professor of agricultural chemistry at the University of Nebraska, testified that eighty tests of bleached flour he had made had convinced him that the flour is not injurious.

Senator Crawford Attacks River and Harbor Bill.

Pierre, S. D., June 29.—The South Dakota conservation congress today devoted its time principally to agricultural conservation. Senator Crawford, as presiding officer of the night session, attacked the method of making appropriations for Western rivers as wasteful. He took the position that the work on river improvements should be the complete protection of the banks of the streams under a comprehensive plan to cover the whole length of the navigable streams for a series of years.

North Dakota Stalwarts and Insurgents Divide the Honors.

Bismarck, N. D., June 29.—Early reports from the Republican primary election indicate the nomination of Senator P. J. McCumber, stalwart, and Congressman Gronna, insurgent, for the United States senate. Congressman Hanna, stalwart, and Hegelson, insurgent, are running ahead for the congressional nominations.

The Weather

Washington, June 29.—The following is the weather bureau's forecast for Upper Michigan: Generally fair, continued warm, Thursday and Friday; light winds.

MINIONS OF THE CZAR ARE STILL EXPELLING JEWS.

Kiev, June 29.—The expulsion of Jews still continues, 152 being sent out of Kiev in the last two days, together with sixty-one from Solomenka and fifty-seven from Demielka. Many of those expelled were given time to arrange their affairs before withdrawal, while others proceeded to specified destinations under the protection of passports.

YESTERDAY'S GAMES.

National League.

Pittsburg, June 29.—Fielding and battery errors gave Cincinnati the victory.
Score: R. H. E.
Pittsburg . . . 000110000—2 9 4
Cincinnati . . . 020120001—6 8 2
Batteries: Leever, Powell and Gibson; Gaspar and T. Clark.

St. Louis, June 29.—Kane's home run in the seventh saved the visitors from a shutout.
Score: R. H. E.
St. Louis . . . 00000020—2 11 2
Brooklyn . . . 00001000—1 4 3
Batteries: Salter and Bresnahan; McIntrye and Kling.

Boston, June 29.—Brooklyn defeated Boston in a poorly played game.
Score: R. H. E.
Brooklyn . . . 1120010—5 10 5
Boston . . . 020100012—7 9 2
Batteries: Mattern, Ferguson and H. Smith; Bell and Bergen and Erwin.

New York, June 29.—Merkle's batting was the feature of today's game—four hits in four times at bat.
Score: R. H. E.
New York . . . 0000101001—3 8 0
Philadelphia . . . 000000002—2 9 1
Batteries: Mathewson and Myers; Stack, Maroney and Moran.

PUGLISTS COME TO AN AGREEMENT

Battle Between Jeffries and Johnson Will Take Place in a Ring Twenty-Two Feet Square and Charley White Will Serve as the Second Referee.

After Seeing Both Men Box, Governor Dickerson Says That the Champion Will Land the Most Blows, but That They Will Not Have Same Telling Effect.

Reno, Nev., June 29.—James J. Jeffries went into action against his sparring partner late today, with Governor Dickerson of Nevada as a guest and the whole sporting fraternity well gathered here as eye-witnesses. In all Jeffries had six rounds of boxing, two each with Joe Chynski, "Brother" Jack and Sam Berger. Only in the last go, that with Berger, did Jeffries sweat. The governor was an interested spectator, accompanied by Captain Cox of the state police.

Jack Johnson also boxed today. He played with his sparring partners instead of going after them as yesterday when the governor was a spectator of his sparring. Women were conspicuous among the visitors.

Governor Compares the Men.

This is how Governor Dickerson compares the fighters: "Jack Johnson, in my opinion, is a faster man than Jim Jeffries, but there is not as much power behind his blows. I think, though, that Johnson's defense is harder to penetrate than Jeffries."

"It is safe to say, I think, that Johnson will hit Jeffries more times than Jeffries hits him, but his blows will not have the same telling effect. I would not care to venture a definite opinion about the result. Jeffries is a much more rugged man than Johnson, but does not as nearly represent the type of expert boxer."

Charley White the Second Referee.

It was announced tonight that Charley White, of New York, will be the second referee in case of an accident to Rickard.

After a conference with Tex Rickard, Johnson agreed today to fight in a ring twenty-two feet square. This suits Jeffries, and the matter of ring dimensions has been settled. The question of the thickness of the padding to be stretched over the floor of the ring is still open. The prize fight law of Nevada says nothing on the matter, and Jeffries and Johnson have not yet agreed as to how much canvas and felt must be under their feet when they face each other. They will state their requirements tomorrow.

Fitzsimmons Picks Jeffries to Win.

Victoria, B. C., June 29.—Bob Fitzsimmons, who arrived here from Sydney last night, picks Jeffries as winner of Monday's battle. "Johnson won stand long against the massive strength and bearlike tenacity of Jeffries," said Fitzsimmons today.

FIRST RACE ON THE THAMES IS A VICTORY FOR YALE.

New London, Conn., June 29.—The Harvard and Yale varsity fours and freshmen eight met in the morning for the annual rowing contests on the Thames, and the varsity eight will contest late in the afternoon. The town is crowded with undergraduates, alumni and their friends. In the toss for positions today Yale won and took the west side of the river for the varsity eight and four-oared crews. Harvard took the same course for the freshmen eight. Ideal conditions are promised for the races. The races seem to be open and should therefore prove a great struggle between the respective crews.

Yale won the freshmen four-oared race this evening, and although this was considered a "scrub" event the supporters of Yale were greatly encouraged. The race was rowed over a mile course, stream, and Yale finished three-quarters of a length ahead, after a spurt in the last quarter. No official time was taken.

ZEPPELIN'S LATEST AIRSHIP IS A COMPLETE WRECK.

Osnabrueck, June 29.—Count Zeppelin arrived this evening, but did not visit the spot where his latest model, the Deutschland, was wrecked last evening. The latest information from the scene of the disaster indicates that the airship is a total wreck. Reconstruction will not be attempted, but all the available parts will be used in the construction of a new airship. The motors of the Deutschland, as well as the vertical steering planes, can be utilized.

Montreal, June 29.—Count DeLesseps, the French aviator, made a trip here this evening as a passenger in a Wright biplane, the safe carriage of the guest being entrusted to Brookings. The latter took the count up about a thousand feet and later the count made short flights in his Blériot machine.

PHILADELPHIA JURIST DENOUNCES RECKLESS AUTOMOBILE DRIVING.

Philadelphia, June 29.—"The fact that running automobiles is reckless of anybody's rights has become a public scandal is due to the supineness of the people in not rising up and demanding that one class shall not have practically the executive use of the roads and streets of our city." Thus declared Judge Brogy in discharging the June grand jury in the criminal court here today. "We

BOY DIVES FROM BRIDGE AT BROOKLYN

Otto Eppers, Seventeen Years of Age, Leaps 135 Feet Into East River and Escapes Uninjured—He Gets \$250 in Cash and Two New Suits of Clothes.

He the First Person to Make the Jump With Unquestioned Witnesses, as Part of a Pre-arranged Plan—Police Arrest, but Court Discharges Him.

New York, June 29.—Otto Eppers, an undersized youth, dived successfully this afternoon from the center span of Brooklyn bridge to East river, 135 feet below, for \$250 in cash, two new suits of clothes, and whatever fame the world may hold in store for him.

The late Steve Brodie acquired fame and a Bovey saloon on the strength of it, but many say it was never proved that he really jumped. Several would-be suicides have been fished out of the river unharmed after jumping, but Eppers is the first to jump with unquestioned witnesses and as a part of a pre-arranged plan.

The seventeen-year-old boy's first words when he was fished out of the river by the crew of a passing tug were: "Go, but I hit hard," and his next were: "Say, who's got the makins of a cigarette?" He meant to shed his coat and trousers, but the police were too quick for him. He was taken to a hospital ward Eppers fit to appear in police court, where he was discharged for lack of evidence that he had attempted suicide.

BODIES OF DROWNED TRIO ARE FOUND BY MARINES.

Annapolis, Md., June 29.—The bodies of Mrs. Bowyer, daughter-in-law of the superintendent of the Naval academy, and Mr. and Mrs. Thomas and Nelson, who were drowned near here yesterday, were recovered today by the marines who had prosecuted the search for the trio ever since the empty sailboat of the party was found last evening.

Lives Lost in Kentucky Floods.

Sayreville, Ky., June 29.—Caught by the raging waters of Licking river, swollen by recent rains and a cloudburst early this morning, six persons are known to have lost their lives by drowning and many others are reported missing, including three entire families. The cloudburst occurred at the head waters of the stream at 3 o'clock this morning, affording small chance of escape. Buildings were swept away and crops are ruined. The damage will be great.

WALL STREET MARKET TAKES VIOLENT ALARM

Stocks Slump Badly When Important Rate Cases Are Decided Against Railroads.

Washington, June 29.—Decisions were handed down today by the interstate commerce commission in a number of important rate cases affecting portions of the traffic over practically all the great trans-continental railroad lines. They affect freight rates—both class and commodity—on all transcontinental lines operating between the Atlantic and Pacific oceans. Extensive reductions are ordered, in some instances amounting to 50 per cent. The decisions are made in what are popularly known as the Pacific coast cases.

Stock Market Slumps Violently.

New York, June 29.—Speculative sentiment took violent alarm today over the decisions announced by the interstate commerce commission in a number of important rate cases affecting portions of the traffic over practically all the great trans-continental railroad lines. They affect freight rates—both class and commodity—on all transcontinental lines operating between the Atlantic and Pacific oceans. Extensive reductions are ordered, in some instances amounting to 50 per cent. The decisions are made in what are popularly known as the Pacific coast cases.

BOYS' FIGHT AT CHICAGO HAS SHOCKING OUTCOME.

Chicago, June 29.—A street fight between two Italian boys on the West side late today resulted in the murder of the father and the boy brother of one of the boys and the serious wounding of his mother. The parents ran to separate the boys and became involved in a row. Peter Gnoft shot and killed Anthony Liani, thirty-six years old, and Dominick Liani, nine years old, and wounded Mrs. Frances Liani, thirty-one years old. Mrs. Liani was carrying the baby in her arms when it was killed. Gnoft escaped.

MUSICIAN AND SINGER FOUND SHOT TO DEATH.

Stuttgart, Germany, June 29.—Dr. Alois Obeist, a famous musical conductor, and Anna Sutter, a court singer, were found dead, together, today. Both were shot. The appearances indicated that one murdered the other and committed suicide.

NEW TRIAL IS DENIED SWOPE'S ALLEGED MURDERER.

Kansas City, June 29.—Dr. R. C. Hyde, convicted of poisoning Colonel Swope, the millionaire philanthropist, was denied a new trial this morning. The prisoner's attorney then filed a motion for an arrest of judgment. Tuesday, next, was set for the arguments.

SERIOUS RAILROAD ACCIDENT.

Valdosta, Ga., June 29.—Dashing into the coach of a passenger train of the Georgia & Florida railroad in the yard here this morning, a loose engine knocked the coach from the remainder of the train and carried it sixty feet, turning it over and injuring fourteen of the passengers and trainmen, none fatally.

IRELAND RESPONDS TO METHODIST BISHOPS

Roman Catholic Prelate Justifies the Vatican in Connection With Roosevelt Incident.

New York, June 29.—Responding to the address of the board of bishops of the Methodist Episcopal church issued May 16, Archbishop Ireland has contributed to the forthcoming issue of a magazine an article upon the M. E. church of America in Italy, justifying the vatican in connection with the proposed audience of Colonel Roosevelt.

The archbishop sets forth that each visit of a public man of America to the Methodist college in Rome has been seized upon by the representatives of the M. E. church as an occasion for insulting the vatican. He cites the cases of ex-Mayor Seth Low and Mr. Fairbanks as illustrations. The archbishop claims that the Methodist preachers in Italy are paid higher salaries than those of other denominations; that their work is chiefly confined to proselyting, and the results have not been commensurate with the cost of the work.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription rates: Per year, by mail, \$6.00; Per month, by carrier, \$0.50.

Marquette, Mich., June 30.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

Jack Sheridan, the veteran umpire, has quit. But he stuck it out for thirty years.

Jack London says that both Jeffries and Johnson may be abysmal brutes and not know it. And he gives it as his opinion, as a literary expert in abysmal brutes, that if they are the Reno, Nev., show will be a great deal better than anybody remotely expects it to be.

The Bedow trial, which has just been concluded in United States court here, has been the longest trial ever held in this county, and probably the longest ever held in this circuit and the upper peninsula. The judge, jury and attorneys are of the opinion that it has been quite long enough.

Immediately on the conclusion of that eminently satisfactory to the senator—conference between Senator La Follette and Colonel Roosevelt will find the Milwaukee Sentinel getting slightly pessimistic on the subject of the colonel. "This Roosevelt business is being overdone," it says, but adds the qualifying phrase "and it is not his fault, either."

The Western Union Telegraph company appears to be getting vigorous. It will not cater to the baser appetites of the public by handing fight bulletins.

The Western Union Telegraph company appears to be getting vigorous. It will not cater to the baser appetites of the public by handing fight bulletins.

Lieutenant Governor Kelley has been in Menominee and Delta counties the past few days, and has been cordially received by those friends of his who will support him this year for governor and those more numerous friends who will support Mr. Osborn.

This drought has long since ceased to be a joking matter, even in this part of the country, where the wheat crop is of little account. Other crops are suffering and suffering severely.

The regents have finally settled the question of who will be president of the University of Michigan by electing to that office Dean Hutchins, of the law department, who has been acting president since President Angell retired in 1909.

It is refreshing to note in this connection that one of the largest and more prominent of the medical schools of the country, the Fordham School of Medicine, New York, has taken it upon itself to demand more and better work of its students.

Registered Holstein-Friesian Bulls Ready for Service. Superior Breeding. Low Prices to Upper Michigan Buyers. Emblagaard Dairy Marquette, Mich.

their efforts to dispose of the presidency, and there has been little or no foundation in fact for many of their reports. Dean Hutchins has had a long and honorable connection with the university. He is a man of fine scholarship, a high order of executive and administrative ability and he believes in, and is thoroughly imbued with the traditions of the University of Michigan.

There is, as will be seen by a special Lansing dispatch we print in another column, considerable demand below the straits for a candidate for lieutenant governor who may be regarded as a middle-of-the-roader as far as the troublesome issue of prohibition is concerned. Senator Dickinson has been regarded as a "dry" candidate and it is said that Representative Rice, of Berrien county, belongs in the same category.

Immediately on the conclusion of that eminently satisfactory to the senator—conference between Senator La Follette and Colonel Roosevelt will find the Milwaukee Sentinel getting slightly pessimistic on the subject of the colonel. "This Roosevelt business is being overdone," it says, but adds the qualifying phrase "and it is not his fault, either."

Lieutenant Governor Kelley has been in Menominee and Delta counties the past few days, and has been cordially received by those friends of his who will support him this year for governor and those more numerous friends who will support Mr. Osborn.

This drought has long since ceased to be a joking matter, even in this part of the country, where the wheat crop is of little account. Other crops are suffering and suffering severely.

The regents have finally settled the question of who will be president of the University of Michigan by electing to that office Dean Hutchins, of the law department, who has been acting president since President Angell retired in 1909.

It is refreshing to note in this connection that one of the largest and more prominent of the medical schools of the country, the Fordham School of Medicine, New York, has taken it upon itself to demand more and better work of its students.

HERE AND THERE.

At an audience which the Kaiser gave in Potsdam to Burgomaster Kirschnor and City Architect Hoffman the fate of the historic Royal Opera house was finally decided. The Kaiser agreed to sell it to the municipality. The price was not fixed, but it is known that approximately \$2,000,000. The property thus passes out of the hands of the Hohenzollerns. It has been in their possession since the days of Frederick the Great. The house will not be pulled down, but will be altered. The ugly emergency staircases outside, which were hurriedly run up after the Franco-Prussian war in 1871, will be removed and the interior staircases revived. The house will hereafter serve as a concert hall and a place for civic entertainment. Structural alterations have already begun. Next year's American invaders will look in vain for the operatic shrine at which they have worshipped or read of as the scene of many American artistic triumphs. The new royal opera will be in the Tiergarten.

Dr. Jacques Bertillon, writing about the decline in the French birthrate, points out that in 1900 for the first time in French history the births and deaths during the year were practically equal. The figures were: Births, 770,000, and deaths, 756,500. He asserts that if it had not been that last summer was exceptionally cool and therefore more healthful than usual, the death rate would have exceeded that of the births.

Young King Manuel of Portugal is looking for a suitable bride, but none of the marriageable princesses of Europe seems to be over anxious to share his somewhat unstable throne. His failure to secure a wife during his recent tour is a source of great disappointment not only to Manuel himself but his advisers. Manuel is not wealthy as monarchs go. His civil list is just \$1,000,000 a day, and it is hoped he would be able to make a match with a popular princess possessing large means in her own right.

Charles Frohman and George Edwards have leased the Adelphi theater on Broadway, New York, to a syndicate headed by Col. Myron P. Walker, the Drummer Boy of the Tenth, to whom a loving cup was presented. "We shall not be here much longer, but, fortunately, through our efforts there will be no north, no south, no east and no west to our children."

Mrs. Kate Douglas Wiggin has returned from Europe and is at her summer home in Maine. It was no less an authority than the Spectator that called Mrs. Wiggin, as the author of the "Penelope" books, "one of the most successful ambassadors between America and Great Britain."

That universal peace commission will also afford very desirable positions for five diplomats whose services are not otherwise in demand.—Indianapolis News.

Now let's turn Barney Oldfield loose with a Wright aeroplane.—Cincinnati Commercial Tribune.

Carnegie can't get Brown University to take any of his money. In order to rid himself of it he may yet be compelled to live in a New York hotel.—Cleveland Leader.

A LAUGH OR TWO.

The young son of a Chicago man, who attended school in an English provincial town, found himself, by reason of the fact that he was the only representative of his nation there, made the subject of much chaff on the part of his British cousins. The young fellow, however, took the guffing with such good nature that, despite the number of his tormentors, he generally managed to come off with flying colors.

On one occasion at an evening gathering the westerner wore upon his coat lapel a pin in the form of a tiny American flag. Several of his friends pretended not to recognize the stars and stripes, and one of them, a young woman affected with the most supercilious air, gazed long at the emblem and said: "You belong to some secret society or organization, I see."

"Oh, yes," cheerfully assented the Chicago chap, amiably. "It's my club you see. The boys are about 900,000 of us in it now, I believe."—Harper's Weekly.

James A. Patton, appropos of a failure that had an ugly look, said recently in New York: "That failure reminds me of Brownlow," he said. "Brownlow's boy, 'I've been reading all them modern society novels by Robert W. Potts about marriage being a failure, and I want to know what it means.'"

William and Lawrence were in the habit of saving a part of their dessert from the evening dinner for consumption the next morning, and in accordance with this custom two small cakes had been placed in the cracker jar for them. William, being the first up on the following morning and being hungry, went to the jar. He found only one cake, and a large piece had been bitten out of that. Full of wrath, he went upstairs and found the cracker jar for them.

That universal peace commission will also afford very desirable positions for five diplomats whose services are not otherwise in demand.—Indianapolis News.

Now let's turn Barney Oldfield loose with a Wright aeroplane.—Cincinnati Commercial Tribune.

Carnegie can't get Brown University to take any of his money. In order to rid himself of it he may yet be compelled to live in a New York hotel.—Cleveland Leader.

Do You Feel This Way?

You feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? Do you feel as well put a stop to your misery? You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. C. Pierce, of Buffalo, N. Y., whose advice is given free to all who wish to write him. His great success has come from his wide experience and varied practice. Don't be wheedled by a penny-grabbing dealer in taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are of known composition. Their every ingredient printed on their wrappers. Made from roots without alcohol, and without habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

buildings which form a large part of the Monroe Manufacturing company's plant will be replaced with brick structures and the top department, now conducted in the old phatton company building on Willow avenue, will be removed to the new factory when completed. The recently organized Pontiac Commercial association figured largely in securing the hotel, and is now about ready to close up other bigger deals which will bring more industries to Pontiac.

LANSING—In an endeavor to decrease the rate of infant mortality in the state during the months of July and August the state dairy and food commission is planning six chemists in the field who will make tests of the milk delivered in several of the larger cities of the state and who will also inspect the dairies from which the milk comes. The plan was originated by State Chemist Robinson and when he took it to his chiefs in his department, it met with such unqualified approval that it was carried out in full. Mr. Robinson has been attempting for some months past to devise a plan for handling the work of his department in the most efficient manner and yet keep within the amount of the appropriation made while it is impossible to keep chemists in the field throughout the year, it was decided that the department could afford the services of these men for at least two months and July and August were chosen because the infant death rate at that time is so high that it positively overshadows all other mortality rates within the state.

LANSING—Prominent Republicans throughout the state, not satisfied with either of the candidates now running, are interesting themselves in the matter of a nominee for lieutenant-governor. There is a widespread feeling, it is stated by a politician in close touch with the situation, that J. C. Carter, deputy land commissioner, is the man to be entered as a candidate who will relieve the party of a bitter factional fight over this nomination and avoid bringing the liquor question into the campaign. Mr. Carter has been a quiet, unassuming man, but his friends assert that if he can assist in clearing up what promises to be a bad muddle he will enter the race. For some time there has been a quiet undertone of opposition to Senator L. D. Dickinson of Eaton because of the opinion that he is the candidate of the dregs. Leaders in the party are strongly opposed to bringing this issue into state politics, believing that it is not the place to settle the question. Last week Representative N. E. Rice of St. Joseph announced himself a candidate and he is reckoned a candidate of the so-called dry interests in the state. To increase the danger of this issue being brought into the light, it is stated that "Puss" Palmer of Manistee, one of Mr. Osborn's campaign lieutenants, has been quietly sounding party men throughout the state on the proposition of his entering the race for the lieutenant-governorship and he is said to be about ready to come out with an announcement. His candidacy is pointed out would be open to criticism directly opposite to that urged against Mr. Dickinson. Mr. Carter served two terms in the senate and is well acquainted with legislative matters and conditions in the state. The politicians say that Palmer will not enter the race if Mr. Carter gets in.

Muskogee, Ok., June 29.—Many towns in Oklahoma are going to be disappointed when the official census for 1910 is made public. Newspapers in these towns and the people have been claiming a population based upon a ratio of two and one-half times the number of people given in their directories. This rule will not apply in Oklahoma, where there are so many young men who have no families. In fact, it is rare to find one real old man out of every ten. A directory published in Muskogee, one in Oklahoma City and a number in other of the larger towns of the state, says the average in Oklahoma is about one and five-sixths to every name in the local directory. One city in New Jersey, with a population of from 10,000 to 15,000 is claiming a population of 25,000. The canvass shows that the larger per cent of the population is composed of people without families. The claim of this city is a fair sample of what has been claimed in cities in the state. The ratio can not be determined, as it can be in the older states.

MARKET NOTES.—The Ladies' Benevolent society of Petoskey has installed a little white iron bed at the C. & I. station for the care of little ones whose mothers are compelled to wait for trains. The bed is in charge of the matron at his station, who will see that it is kept clean and in order. A mite box has also been placed nearby for contributions to pay for the laundering of the bedding, and it is thought that this will make the project self-supporting.

BATTLE CREEK—Induced to locate their convention and camp-meeting here through the efforts of the Industrial association, the Free Methodists of Indiana, Illinois and Michigan are having hard sledding, the chief trouble being the interference of the "bedding" and "power" the campers have the habit of shouting, wildly gesticulating and even rolling on the ground. At first this was amusing, but now it has become serious. Adventist neighbors, robbed of sleep and of daytime comfort, have complained to the police, and Chief Farrington has sent several patrolmen to the camp with warnings.

ST. JOSEPH—M. C. Hubbard was sentenced to twelve years' imprisonment at Jackson by Judge Coolidge for a serious offense against an eighteen-year-old girl, who took the stand during the trial to testify that she had been seduced by the sensational story she told of Hubbard's treatment. Hubbard's case attracted wide attention because of his prominence, he being a rich real estate man at Benton Harbor. Hubbard asked for a sleep and of daytime comfort, he had no evidence to prove an alibi, but the court said that the evidence was not sufficient and denied further postponement of sentence pending appeals to the supreme court.

Classified Want Directory

- HELP WANTED. WANTED—Two dining room girls at the Clifton. 6-20-10. WANTED—Trained or semi-trained nurse for Marquette county home. Salary \$30 per month, board and washing. Apply to Dr. F. McD. Copper Country

LAST JURY CASE IS NOW BEING TRIED

Houghton County Circuit Court Term Nears Its Finish After Six Weeks' Work.

The last case on the civil calendar to be tried at the present term of the Houghton county circuit court was called yesterday morning. It is that of Donato versus Liberti. The case is an action for damages. Mr. Donato is a resident of the city of Marquette and is a member of the Houghton county circuit court. He is a resident of the city of Marquette and is a member of the Houghton county circuit court. He is a resident of the city of Marquette and is a member of the Houghton county circuit court.

Mary Curkman was brought before the court yesterday morning for sentence. She had pleaded guilty to larceny and had since been in jail. The crime of which she was accused was committed in Laurium several weeks ago. Judge Streeter explained the seriousness of the crime and suspended her until the next term of court, which convenes Nov. 7. During the interim she will be in charge of Sheriff Byers and will report regularly to him.

After the girl had left the court room Judge Streeter remarked that she was not a criminal at heart, but a victim of circumstances. Her mother died in Europe while the father was working in one of the Houghton county mines. The daughter was sent for, and two days after her arrival she was met with an accident which robbed her of all the relatives she had in this country. The girl is younger in years than her appearance might suggest and with the proper environment she will no doubt keep on the right path in life. She has been helping about the jail quarters for some time and has a capacity for good work.

WRITING FOR DATA.

United States Wants Information Regarding Unmarked Graves.

A communication was received this week from Angus F. McDonald, of the George Miller camp, Spanish War Veterans, asking that the quartermaster general of the United States army be furnished with all necessary data pertaining to graves of deceased soldiers whose families have been interested in copper country cemeteries, and whose graves are unmarked. The government makes its purpose very clear. While alive the veteran will want for nothing, but upon his death, if his family cannot provide a monument, it will be done for them. Mr. McDonald will at once set about securing all possible information which he will forward to the quartermaster general.

The communication received follows: "Upon application to the quartermaster general, United States army, headquarters will be furnished for unmarked graves of soldiers, sailors and marines who served in the state militia or the army or navy of the United States during any war or insurrection including the Revolution, whether regular or volunteer, and whether they died in the service or since, their names will be furnished also in place of furnishing a headstone."

"These headstones are of best American white marble, thirty-six inches long, ten inches wide and four inches thick, the top slightly rounded, and the portion of the stone which will be above ground is set in sand rubble; each sandstone is inscribed with the name, rank (if above private), company, and state regiment, or other organization, to which the deceased belonged, cut in relief within a sunken shield. No deviation can be made from these specifications, which are prescribed by the secretary of war, and the law does not provide for any expenditure except for the headstones as above described; neither is it lawful to make any monetary allowance in place of furnishing a headstone."

FIRE THREATENED BIG HOTEL.

James McHardy's blacksmith shop, Red Jacket, was slightly damaged by fire yesterday morning. It adjoins the Michigan House, and that hotel was in danger for a time, but was uninjured. Mr. McHardy's loss is about \$200.

KEPT THE KING AT HOME.

"For the past year we have kept the King of all laxatives—Dr. King's New Life Pills—in our home and they have proved a blessing to all our family," writes Paul Mathuka, of Buffalo, N.Y. Easy, but sure, remedy for all Stomach, Liver and Kidney troubles. Only 25c at The Stafford Drug Co.

GOODELL IS PICKED.

Duluth Looks to Former Houghtonite to Win Honors. The following from Duluth speaks of R. T. Goodell's chances of winning the Minnesota state championship. "Yesterday the program of the state golf tournament was received by the officials of the Northland Country club. The tournament will be held at the Town and Country club of St. Paul, beginning July 12 and lasting until the following Saturday. While Harry G. Legg is the favorite candidate for the state championship, it is believed that R. T. Goodell of the Northland Country club has a very good chance for the title. The Duluth club will send the strongest team it has ever sent to a state tournament, and there are not a few members who hope to see Mr. Goodell. Mr. Goodell is a former Houghtonite."

HAMMER AND DRILL CONTEST.

Great Interest Being Taken in Calumet's Chief Event of the Fourth.

The hammer and drill contest to be conducted in Red Jacket on the Fourth of July this year will be the biggest and most important event of the day ever held in northern Michigan, judging from the number of teams being entered. It is now believed that at least ten teams will take part. The contestants will meet with the hammer and drill committee at the town hall Saturday evening, when they will draw lots for the position or order of drilling. The drilling will start at 2 o'clock the afternoon of the Fourth and will be expected to be finished by about 7 o'clock in the evening, each team working fifteen minutes. This will allow time for changing and to haul the big granite block to a new location for each team.

It is expected that a team of Rutte (Mont.) miners, who are now in Calumet, will enter this contest. This team last year won the championship of the West and it comes to the copper country this year to defend it. If possible, the heavy drilling teams of this district will also take part. This will mean that the Calumet & Hecla mine's picnic at Calumet park late in July.

ROUNDING FIRST TRIP.

Steamer North West in Port Yesterday on Her Return Trip.

The North West tied up at the Peninsula Wharfe dock yesterday morning, and returned from her trip to Duluth and returned to the city before her scheduled time. The trip from Duluth Tuesday night was made in a heavy fog, but this did not result in preventing the boat continuing at a fast rate.

The passenger list was increased considerably by a number of Minnesota people. Librarian Erhart of Duluth was aboard, in charge of thirty Minnesota librarians who are going to attend the National Library association's convention at Mackinac.

DIAMOND RING CONTEST.

Miss Kate Lisowe Still Leads in the Voting at Calumet.

Miss Kate Lisowe, in the latest contest taken in the Calumet & Hecla mine's diamond ring and picnic contest held a lead of nearly 300 votes over the nearest contestant. The contest is very heavy and much interest is being aroused. It is expected that July 10, 1910 votes will be cast before the date for the picnic. The standings are as follows: Kate Lisowe.....1,144 Miss Gertrude Richards..... 861 Miss Celestine Meyer..... 522 Miss Adeline Locatelli..... 35

CROPS ARE ENDANGERED.

Extreme Heat and Continued Drought Menace the Harvest.

There seems to be much alarm in certain portions of the copper country that the crops will suffer to a great extent, owing to the extreme heat. One farmer stated that he has no question of the crops being damaged, and that if present conditions continue much longer a large portion of the crops will be ruined. The copper country has had no rain to speak of for a considerable spell. There was a light shower the last past week, but the precipitation scarcely wet the dust. A big rain would do thousands of dollars' worth of good.

KILLED BY FATHER'S DRAY.

Matt Michelelek, twelve-year-old son of Matt Michelelek, Sr., of Calumet, is dead as the result of injuries received by being run over by his father's dray. The father was moving a load of household goods from Copper City and the boy was riding with him, fell from the wagon and beneath the wheels. The front wheels passed over his legs.

FOUR NEW RESIDENCES.

James McChure of Red Jacket yesterday let the contract for the erection of four residences in the name of the company. The buildings will occupy roomy lots on Seventh street. They will be eight-room houses in each case and modern in every way. These houses will be for rental and will be snapped up as soon as completed, because Red Jacket is a town of few residences.

MARRIED AT HANCOCK.

Engene R. Lynch, assistant clerk of the Quincy Mining company, and Miss Alice Foley, daughter of the late John Foley of Eagle Harbor, were married yesterday morning at St. Patrick's chapel, Hancock, by Rev. T. J. Atfield.

TIPPING EVIL IN PARIS.

System of Extortion That Drove Out an American Woman.

An ultra fashionable hotel in Paris lost one of its wealthiest American patrons, a woman, this year because she was tired of being extorted to scatter a small fortune in tips at the end of each visit, says the New York Sun. The hotel is much frequented by royalties, and for anybody else to stop there costs real money. The American woman had made it her temporary abode for many years, but this year she didn't go there. Instead, she bought a big house she had bought. "To tell the truth," she said the other day, "I thought that big house for no other reason than to get away from the tipping evil. Of course it meant a big outlay, especially as I spend only six

Feel Headachy?

It probably comes from the bile or some sick condition of the stomach or bowels. No matter which, put yourself right with

BEECHAM'S PILLS

Sold Everywhere. In boxes 10c. and 25c.

weeks of the year in Paris, but you have no idea what a satisfaction it was to go to Paris this year and not be held up for tips at the end of my stay. "The tipping evil over there, instead of abating, has grown worse, and last year my experience was such that I determined I would never submit to it again even in Paris, just before leaving the hotel I had made liberal provision to everybody I thought could possibly lay any claim to having done anything for me, but as I was about to go away my maid said: "You have forgotten the carpenter." "The carpenter?" I exclaimed. "Why, what has he ever done for me?" "Why, he mends things about the house."

"But he has never mended anything for me." "No, madame, but he expects a tip." "This got on my nerves, and I declared that I should not tip Monsieur the carpenter nor anybody else; but in the last I was mistaken. "I drove to the railway station in a great state of indignation, but with the firm determination that I would never go back to that hotel. Judge of my surprise when, upon reaching the station, a boy wearing the uniform of the hotel ran up and took hold of my hand. "Who are you?" I demanded. "I am the elevator boy at the hotel," he said. "But I tipped one elevator boy," I said, in perplexity. "The other elevator, madame, informed me."

"But did you ever take me up or down stairs?" "No, madame, but I run the other elevator."

"Then how in the name of common sense can you expect a tip from me?" "Oh! Madame has tipped everybody else in the hotel, why should she not tip me?" he rejoined, coolly; and I was so humiliated that I simply handed him a five-franc piece, and gave it to him."

Several years ago a New Yorker was being Belgium and France in a very odd way, and among other places he visited one of the little villages near the battle-field of Waterloo. He had lunch at one of the local hostries and as he sat at the table he looked out at a few soldiers who were standing near the battle-field of Waterloo. He had lunch at one of the local hostries and as he sat at the table he looked out at a few soldiers who were standing near the battle-field of Waterloo. He had lunch at one of the local hostries and as he sat at the table he looked out at a few soldiers who were standing near the battle-field of Waterloo.

BIDS WANTED.

Sealed bids will be received by Dr. E. H. Campbell, secretary of the hospital board of trustees at Newberry, Michigan, up to 12 o'clock noon, June 28th, 1910, for additions to the dining room building at Newberry, Mich. Plans and specifications may be seen at the office of the secretary at Newberry, Mich. or at the name of the secretary. The board reserves the right to reject any or all bids.

NEW YORK COTTON.

(Paine, Webber & Co.)

New York, June 29.—Directly affected by the opening, good buying for the short account developed. Heavy rains in the Mississippi valley and eastward were responsible in a large measure for the strength of the market and were a source of apprehension to the shorts. While Texas continues to get showers, the general rain necessary for relief in that state was lacking. The boll weevil in Mississippi is said to be more numerous than at any time last season, in some sections, and is causing apprehension.

CHICAGO GRAIN MARKETS.

Chicago, June 29.—For the first time in many days the wheat market this afternoon closed at a decline. The bad news from the crops in the Northwest seemed to have finally lost the power to thrill. It was thought that rain in eastern Montana might extend into North Dakota. Besides, preparations were under way here for the three days adjournment of the board of trade following Friday's session. Large holdings were undoubtedly leading interest and caused sharp declines, the net loss at the close being 1 1/2 to 1 3/4. The Southwest reported the receipts today three times as large as a year ago. The September opened at 10 1/2, 1/2 highest, 10 1/4; lowest, 9 3/4; closed, 10 1/4.

ODD ITEMS OF EXPENSE.

Congress Appropriates Money for Some Curious Purposes. The United States government pays out annually thousands of dollars for purposes which not one in a thousand citizens knows anything about, says the Los Angeles Times. A close study of the appropriation bills passed every year by congress reveals the fact that this country has an expense account which contains some remarkable items. Appropriations for these have been regularly made for years, and will probably continue to be made for many more to come.

Although slave trading is generally supposed to be a thing of the past the United States does not think so. This is evidenced by the fact that this country contributes annually \$100 as its share of the expense of keeping up at Brussels an institution known as the International Bureau for the Repression of the African Slave Trade.

Uncle Sam is deeply interested in ascertaining the size of the earth over which he recently stretched out his mighty hand. With a view of gaining the much-desired information he pays annually, through the American embassy at Berlin, his quota as an adhering member of the International Geodetic Association for the measurement of the earth, \$1,500. The records do not show what progress the association is making toward reducing the size of the planet to cold figures, but the \$1,500 is paid every year.

In Brussels there is an International bureau for the publication of customs tariffs. It costs money to maintain the bureau, and the United States pays \$1,385 annually as its proportionate share of the expense. More expense still is the annual membership fee of the United States in another institution with headquarters in Brussels. Every year \$2,270 is paid by this government as a contribution to the maintenance of the international bureau of weights and measures. It costs the United States no less than

GUARANTEED PILE CURE.

Backed by Your Leading Druggist. If you have any kind of piles, get a box of Dr. Leonard's Hem-Roid at the People's Drug Store, Marquette, Mich., or at the City Drug Store, LePine, Mich., or the money-back plan. Hem-Roid is made from Dr. Leonard's own prescription—a tablet remedy, taken internally and cures thoroughly by removing the internal cause of piles—something that suppositories, ointments or cutting operations cannot do.

Markets

WALL STREET STOCKS.

New York, June 29.—Paine, Webber & Co. have this to say of today's Wall Street market: "The market was under heavy pressure throughout the session, and at times presented a demoralized condition, with aggressive support being absent and a pronounced desire to liquidate as rapidly as possible. The capitalists certainly are discouraged and there does not seem to be very much hope in sight at the moment for higher prices. We still advise great caution on the long side of the market and to have stop loss orders back of all holdings at present and on new purchases."

Closing prices were as follows:

Amalgamated	61	M. K. & T.	31
Am. Smelting	27 1/2	Nor. Pac.	119 1/2
Am. Lead	29 1/2	N. Y. C.	113 1/2

Boston Copper Quotations.

Boston, Mass., June 29.—Summarizing today's copper stock market, Paine, Webber & Co. say: "The market was very active today at the lowest prices yet seen on the downward swing, and there was important liquidation on a large scale. An unfavorable piece of news as to the several decisions by the interstate commerce commission in the western rate cases, ordering a reduction in the rates in all classes, where it was expected that more favorable decisions would be made. This, no doubt, forced liquidation in dividends and was the near future. It becomes more evident each day that the large interests are more dissatisfied with the future outlook for legislation against railroads and other corporations generally, and the big traders are gradually getting out of the market. We don't think we have seen the bottom yet."

The closing prices were:

Adv.	5 1/2	Alc.	206 1/2

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

New Perfection Oil Cook-stove

Given no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle, or even, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without

the opening, good buying for the short account developed. Heavy rains in the Mississippi valley and eastward were responsible in a large measure for the strength of the market and were a source of apprehension to the shorts. While Texas continues to get showers, the general rain necessary for relief in that state was lacking. The boll weevil in Mississippi is said to be more numerous than at any time last season, in some sections, and is causing apprehension.

On the coast of Morocco, at Tangier and Cape Spartel, mariners used to experience great difficulty in avoiding disaster on account of the absence of warning light signals on the shore. Lighthouses were sadly needed, and as the government of Morocco would not provide them, the great powers took the matter in hand in the interest of their shipping interests. Lighthouses were established and the powers are assessed so much annually for their maintenance. The share of the United States in this expense is \$25.

It is sometimes necessary for the United States to bring back to this country from abroad persons charged with crime. It is rather expensive work, and for it there is an annual appropriation of \$50,000.

This government is ever grateful for any service rendered its citizens in case of marine disasters by those of foreign countries. Such services are usually substantially remembered, and there is a special provision for them. An annual appropriation of \$4,500 is made for "expenses incurred in the acknowledgment of the services of masters and crews of foreign vessels in rescuing American seamen and citizens."

The people of Alaska who inhabit the islands of St. Paul and St. George receive special consideration at the hands of the government. Congress authorizes the secretary of the treasury to furnish them with food, fuel and clothing and lay out for this purpose \$19,500 in appropriated industrial and elementary education in Alaska costs the government \$20,000 a year.

The Washington monument comes in for a good-sized appropriation every year. In order that it may be kept open to the public and receive the necessary repairs, congress allows the war department an annual appropriation of \$11,520. The same department is given \$347,275 annually to be expended in procuring artificial limbs for soldiers, and an additional sum of \$2,000 is appropriated for surgical appliances for the veterans.

The items enumerated are only a few of the long list of unique expenditures made by the government. The state department has a secret fund which is used for diplomatic purposes. The public knows absolutely nothing concerning it and it is surrounded with the greatest air of secrecy. Out of it are paid the bills for entertaining foreign visitors who may be the guests of the government from time to time.

D. MURRAY'S BOTH PHONES

City Brevities

Today's weather: Partly cloudy; stationary temperature. Yesterday's temperatures: Seven a. m., 80 degrees; noon, 86; 7 p. m., 79. Maximum, 87 degrees; minimum, 67.

Mrs. D. M. Otis, of Springfield, Ill., and daughter Gwendolyn are in the city visiting relatives.

Miss Swanson, recording operator for the Michigan State Telephone company in Detroit, is visiting friends in the city.

Mrs. W. E. Kemp, 343 Bleunber avenue, leaves today to make her residence in St. Paul, Minn. Mrs. Kemp has been located for two months.

A special meeting of the Young Woman's guild will be held at the Guild Hall this morning at 10:30. All who can attend are requested to be present.

Mr. and Mrs. James H. Conlin and son Harold, of Grand Rapids, are guests at the home of Samuel Bennett, Bluff street. Mrs. Conlin is a daughter of Mr. Bennett.

Mrs. Harry Gray is in the city, visiting her parents, Capt. and Mrs. C. D. Blanchard. Mrs. Gray comes here from New York, where she has been residing since last fall.

A special meeting of the Central Labor union will be held in Labor Hall this evening, which will be addressed by John J. Scannell, representing the Boot and Shoe Workers' union of Boston, Mass. A large attendance is desired.

H. O. Bell will run a launch excursion from the island to the mouth of the Yellow Dog river and return Saturday, leaving the boat house at the island at 8 a. m., and returning to the island at 9 p. m. Passengers may stop at any point on route and will be picked up on the return trip.

Will Be Married Today—Miss Sarah Jane Harris, daughter of John Harris, and William Henry Jacobs will be married at 12:30 today at the home of the bride's parents, 303 Alger street. Rev. A. A. Maywood will be the officiating clergyman. Mr. Jacobs resides at Hancock and is employed by the Houghton County Traction company. Mr. and Mrs. Jacobs will leave this afternoon for that city to make their home.

Angus W. Kerr, of Calumet, left yesterday afternoon for Munising, after spending the day in Marquette visiting with friends in attendance at the Shriner's meeting. He addressed a gathering at Munising last night and will spend a few days in Alger county. He spent last week in Schoolcraft and Mackinac counties. Mr. Kerr says he has a schedule which disposes of every day of his time between now and the September primaries. He professes himself well satisfied with the outlook for his nomination for congress.

Untidy Sidewalks—The Mining Journal has received a complaint from the untidiness of sidewalks in the residence districts, particularly on Ridge street. There are a number of stretches on the latter street where the old brownstone flagging are still found, and these walks are covered with a thick coating of sand and dust which is said to play havoc with dainty summer gowns. It is suggested that washing them off with a garden hose would mean a great improvement.

July 4 Excursions—Announcement is made of excursion rates on the Lake Superior & Ishpeming, Munising and Marquette & Southeastern railways July 2, 3 and 4, good returning until July 5. Trains No. 10 on Monday will leave Marquette for Munising and Princeton at 7 a. m.; No. 3 will leave Munising for Marquette and Princeton at 6 p. m.; No. 12 will leave Princeton for Marquette and Munising at 5:15 p. m.; Marquette to Birch and Big Bay, special train at 2 p. m., leaving Big Bay at 6:15 p. m., and Birch at 6:47 p. m. Tickets to Negaunee only will be sold July 4 and 5, good returning until July 6.

INSURE WITH PETER WHITE & CO. SUPERVISORS MEET.

County Prisoners Will Be Used on Road Work.

Yesterday the board of supervisors gave its approval to a recommendation of the special committee appointed to report on the subject that the able-bodied prisoners in the county jail be employed on highway and quarry work whenever they can be used to advantage, and Sheriff Lehman was authorized, in his discretion, to employ two extra deputies to guard prisoners employed in that way. There are nine men now under sentence who are able to do this class of work. The supervisors have in mind making the county jail a less popular abiding place for the minor offenders. It is thought that if it is known that a jail sentence means hard work under a blistering sun in a stone quarry or along a highway rather than putting out at the dandelions or about the court yard shrubbery, between meals the jail will be shunned by many of the men who now are not averse to a short stay there, as the county's guests. This will mean smaller hold-alls and, in the aggregate, a considerable saving.

Professor Savine, of Harvard University, an authority on acoustics will report on a method of improving the acoustics of the court room. The committee on the county tuberculosis sanitarium was granted more time in which to complete a report.

BEDDOW'S FATE WITH THE JURY

After Deliberating from 5 O'Clock Until 11:45 Last Evening Without Being Able to Agree, Judge Denison Dismissed Them Until This Morning.

Rumor Current That They Stand Eight for Conviction and Four for Acquittal, But It Cannot Be Traced to Any Authoritative Source—Attorneys' Arguments.

After being out from 5 o'clock until 11:45 last evening, the jury in whose hands George H. Beddow's fate now rests reported to Judge Denison that they had not yet been able to agree, and accordingly were permitted to go to their several homes for the night and will resume their deliberations at 8 o'clock this morning. Judge Denison had previously stated to the jurymen that he would not insist on their being kept together during the night, owing to the extreme heat.

At 8:30 a request was received from the jury, asking a copy of the indictment, the court's charge and the "confession" alleged to have been made by Beddow to J. B. McCormick. The last two documents were denied them but a brief summary of the indictment, prepared by the court with the approval of the attorneys for both sides, was sent in to the jury room.

At 11 o'clock the court called the jury in and told them they might go home if there was no prospect of their soon reaching an agreement. The foreman, G. F. Wierman, announced that they might be able to agree within an hour and would like to deliberate for an hour longer. At 11:45, however, they reported that they had been unable to agree and were discharged for the night.

When they were in the court room at 11 o'clock the foreman stated that two of the jurors desired further explanation of what constituted misappropriation and a false entry. The court then made further explanation of the legal meaning of those terms.

This incident is taken by the defendant's attorneys to mean that the jury has decided that Beddow is not guilty of the offense of embezzlement, and that they are undecided as to the questions of misappropriation and false entries. Assistant District Attorney Clute, on the other hand, denies that any such deduction can be made and expressed himself as satisfied that there will ultimately be a verdict of conviction.

The general impression of the public at large seems to be that the jury will never be able to agree, though there appears to be no particular basis for the opinion, rumors were current last evening that the jury stood eight for conviction and four for acquittal, but the rumor could not be traced to any authoritative source.

Arguments of the attorneys, W. K. Clute, on behalf of the prosecution, and M. M. Riley and Arthur O'Neill, for the defendant, and the court's charge occupied the attention of United States court all of yesterday, and at 5 o'clock last evening the jury retired to determine the guilt or innocence of George H. Beddow, former assistant cashier of the First National bank of Ironwood, who has been on trial since a week ago last Monday for embezzlement, misappropriation of funds and making false entries in the bank's books.

Assistant District Attorney Clute chose to divide his time for argument, speaking for an hour and a half in his opening and an hour after the attorneys for the defense had spoken. Mr. Clute made a logical, straightforward statement of the government's case and interpreted the evidence to prove, in his opinion, beyond a shadow of doubt that Beddow had been guilty of the charges preferred against him.

"We have proven false entries, almost without number, practically during the entire period that Beddow was assistant cashier," declared Mr. Clute. "He lays them all to Larson. Beddow tells you that for upwards of two years, during which he was assistant cashier and the keeper of the cash account, and chief counter of the coin, and during which period enough false bookkeeping and falsifying was done in that bank to make away with \$210,000, that he had no suspicion, knowledge or reason to believe that anything of the kind was going on. Gentlemen of the jury, if you believe that, let him go.

Declares Beddow's Guilt Proven.

"Every fact shows Beddow crooked, and even treacherous to Larson, who had troubles enough to bear alone. We have proven embezzlements and misappropriations by Beddow by the score, leaving Larson out of it. Beddow dodges and ducks like an expert. In fact, he is the craftiest witness I ever met, but when he faces real facts he flounders in their web. He has contributed his due proportion to the wrecking of this bank. It was broken down by the stealings of at least its cashier, Larson, and his assistant, Beddow.

"Not a dollar did each one of them steal but that some purse is lighter for it, and more than one heart heavier. For did it not in the last analysis constitute theft from the depositors, the people of Ironwood, its business men, its workers in the iron mines and their families, who must now take from the receiver less than fifty cents on the dollar of their savings.

"Oh, great is bankruptcy and the receivership! The great bottomless gulf into which all their forgings, embezzlements and falsely kept books do sink, disappearing. They are all checked off the account as losses, whether from the first they were all doomed. No lie can you act or speak, but it will come back, after longer or shorter circulation, like a draft on Nature's reality and be presented there for payment, with the answer of Nature's cashier, 'No effects.' The only pity is that they often have so long a circulation; that the original forger is so seldom he who must bear the smart of it.

But Nature always balances her accounts. Observe how by a just compensating law the embezzlements and misappropriations to speculate in stocks,

County Prisoners Will Be Used on Road Work.

Yesterday the board of supervisors gave its approval to a recommendation of the special committee appointed to report on the subject that the able-bodied prisoners in the county jail be employed on highway and quarry work whenever they can be used to advantage, and Sheriff Lehman was authorized, in his discretion, to employ two extra deputies to guard prisoners employed in that way. There are nine men now under sentence who are able to do this class of work. The supervisors have in mind making the county jail a less popular abiding place for the minor offenders. It is thought that if it is known that a jail sentence means hard work under a blistering sun in a stone quarry or along a highway rather than putting out at the dandelions or about the court yard shrubbery, between meals the jail will be shunned by many of the men who now are not averse to a short stay there, as the county's guests. This will mean smaller hold-alls and, in the aggregate, a considerable saving.

Professor Savine, of Harvard University, an authority on acoustics will report on a method of improving the acoustics of the court room. The committee on the county tuberculosis sanitarium was granted more time in which to complete a report.

BEDDOW'S FATE WITH THE JURORS

(Continued from Page Four.)

concealed by the burden of a successful of falsehoods entered on the bank books, do sink in the scale and the effect is ever shifted downward, an return the distress of it rises ever ward, whereby the examiners all their funds and the bank is closed; crash in the town's finances. The officers of the bank and their clerks are sore distressed; the president commits suicide; the cashier goes to jail and his assistant artifice swindling of the public is made.

"Such is the law of just nature, though at long intervals, ripture and criminal arrests, forgings, embezzlements, and other crimes around to the mark of To all men, to all women, it is parent that Mr. Beddow was trust as an officer of this consequence, you gentlemen are brought here to set the face of truth to measure out tails of its affairs."

Mr. O'Neill's Arguish, and they Attorney Arthur O'Neill, himself in opening argument for the people of the ing from 11 o'clock until a that when foundation for his remark, they have seven counts of the indictment, free to do ted that Beddow was being this week attached bill of particulars, a ten-year-old the mass of false entries being a dis- items, which had been introduced definite ac- government for the purpose of "Dozer to the transactions they represent. Dozer to Most of the argument was de- flow no a discussion of these different in the of the indictment and the testimon on in had been submitted regarding them, as outlined Beddow's story of the various transactions, showing in what respect it appeared plausible to him, and explaining how the entries might have been made by Beddow without any sus- picion of their not being straight.

In connection with the Stanlake draft, he claimed that it had been proven in- deed dispute that Beddow was not in the bank when the draft was presented, or when it was credited to Brady's ac- count, and that all the evidence showed that it was Larson's and not Beddow's transaction. Furthermore, Mr. Jahn, the day before he took his own life, had told J. W. Best that Beddow was in- nocent as far as the Stanlake matter was concerned, which at that time was the only thing of which Beddow was ac- cused. "Did Jahn lie when he said fully determined to take his life and was at the very brink of the grave?" exclaimed Mr. O'Neill to the jury.

Dietrich's Testimony. Mr. O'Neill gave considerable time to the testimony of Herman Dietrich, who is considered to have been the star wit- ness for the government. While Mr. O'Neill stated his belief that Dietrich was honest, he asked the jury to re- member that he, too, had made a number of false entries without knowledge or in- tent of having done wrong, but that in- stead of being accused of crime, he had been taken as a clerk into the receiver's office at an increase in salary. When Dietrich sought on Tuesday to talk with him on the Saturday and Monday of the failure, Mr. O'Neill declared Dietrich was really acting as a detective in the em- ploy of the government, and engaged him in conversation for the purpose of get- ting Beddow to give incriminating evi- dence against himself.

The testimony of witnesses McCormick and Logan was also discussed by Mr. O'Neill, his claim for McCormick's testi- mony being that McCormick himself made his statements preposterous, and that Logan had a personal interest in convicting Beddow as every conviction he secured would be considered a feather in his cap by his superiors.

Mr. O'Neill spent almost all of his time in reviewing the evidence presented concerning the various counts of the in- dictment, and attempting to show that the government had failed to make a case on any of the original charges. He made little attempt to work on the juror's feelings or sympathies, and sim- ply presented a concise and logical state- ment of the defense's side of this case.

Mr. Riley's Argument. When Mr. Riley began the closing argu- ment for the defense at 2 o'clock in the afternoon, the court room was crowded, in spite of the oppressive heat. Mr. Riley declared that he felt a great responsibility, as to some extent, the liberty of his client depended on him. He criticized the opening argument of the Assistant District Attorney in that he did not make it clear that Beddow was being tried on the indictment and the bill of particulars attached there- to, and not upon the whole mass of evidence presented solely for the purpose of showing guilty intent or knowledge in connection with the items mentioned in the indictment.

Mr. Riley argued at considerable length along the line that if Dietrich was innocent Beddow must be equally innocent. He declared that Dietrich had made three false entries on the bank books to Beddow one, yet, he said, Mr. Clute has set up Dietrich as "a little Daniel in a den of thieves," while he classes Beddow as a consummate scound- rel who should be sent to prison. "Diet- rich had a better education than Bed- dow and is by nature of a brighter mind. Both had equal access to and knowledge of the operations of the bank, yet the government would convict Beddow and set up Dietrich as a hero, I submit and believe that Dietrich was absolutely in- nocent of the illegal operations being conducted by Larson and Jahn, and that Beddow, too, was equally innocent.

Duluth Witness Cited. "Take the case of Mr. Wilson," he continued, "the bookkeeper of the City National bank of Duluth, who testified in this case that he credited the First National bank of Ironwood with \$6,300 on the verbal order of his superior officer and never even made out a de- posit ticket for the amount. Bank Ex- aminer Logan has testified that this was not an unusual or wrongful thing to do. But suppose that one of the officers of the Duluth bank had killed himself and that another confessed to the crime and was now in prison. The government experts find that Wilson has made this charge in the manner in- dicated. What show of acquittal would he have at the hands of a jury? I submit that Beddow is now in exactly the same position."

In closing Mr. Riley made a dramatic and eloquent appeal to the jurors on

Negaunee

ICE DEALERS ARE RUSHED WITH WORK

New Record in Quantity of Ice Consumed Established Last Saturday.

"I have sold and delivered a greater quantity of ice during the past three weeks than in any similar period since I have been in the business in Negaunee," said Robert Thompson, one of the local ice dealers, yesterday. "The demand for ice is now so great that I have put on an extra man and delivery outfit. For three weeks past we have been getting out every morning at 5 o'clock and it is seldom that we finish our deliveries before eight in the evening. Richard Kappes is also having a big rush, and he has found it necessary to put on an extra delivery team."

"Last Saturday was our banner day. We delivered twelve tons of ice. This was a big day's work for two men. We had to saw practically every cake of it. We filled 125 boxes at private homes, in addition to our trade in the business district."

Both Mr. Thompson and Mr. Kappes are taking on very large loads of ice, and occasionally they are not able to supply all the demand. Mr. Thompson says that the present demand for ice is the heaviest that he has met since it was above par for the year. He is partial, and so plain that the jury should have no difficulty whatever in understand- ing the law applying to the facts.

The court stated that Beddow should be found guilty or acquitted on one or more of all of the seven counts of the indictment, and that the many other items brought into the trial should only be considered as bearing on the ques- tion of intent. He said this indictment charged three distinct offenses, embezzle- ment, misapplication and making false entries, and that the jury could find the defendant guilty of one or more or all or none of these offenses, as they thought just. He explained at length what constituted each of these offenses and their application to the various charges contained in the indictment and the attached bill of particulars.

POLITICIANS FEAR PROHIBITION ISSUE

Demand a Candidate for Lieutenant Governor Who is Neither "Wet" or "Dry."

Lansing, Mich., June 29.—[Special.]—It now appears as if Senator Loren Dick- inson, of Eaton Rapids, will have oppo- sition in his campaign for lieutenant governor. After the withdrawal of Col- on C. Lillie from the race several weeks ago, Senator Dickinson had the field to himself and the politicians feared that the race for lieutenant governor would be uninteresting, but during the last few days other candidates for the second place on the state ticket have come for- ward, and there will be plenty of gin- ger in the campaign for this nomination from now on.

Nelson C. Rice, of Berrien county, has announced himself as a candidate. Rice was a member of the last legislature and chairman of the ways and means committee. He is classed as a "dry," and as such has no advantage over Dick- inson, who is also a local option candi- date. It is the desire of the leading politicians to keep the "wet" and "dry" fight out of the campaign next fall, at least as far as the Republican party is concerned, and for this reason a compromise candidate may yet enter the race, a man who has no decided opinion as to the local option fight, and who may be able to make a race independent and free from all alliances. His record as deputy land commissioner has been excellent, and by many politicians he is considered as the logical candidate for state land commissioner, when the incumbent, H. W. Russell, retires two years from now.

The liquor question will loom up large in the next session of the legislature. The victories of the "drys" at the last elections were not decided enough to warrant an attempt in the next legisla- ture to "dry" up the entire state. The local option people are aggressive, how- ever, and attempts will be made to strengthen the liquor laws by adding stricter regulations to those now in force. The Warner-Crampton bill was accepted by the "dry" members in the last leg- islature, and the fight for more legisla- tion along this line next winter will be in- teresting.

The presiding officer of the senate, who appoints the committee which has primary consideration of all liquor bills, should be a fair man, free from preju- dices one way or the other, so that both the "drys" and "wets" would be able to get a square deal. With Dickinson and Rice as pronounced "drys" and Pal- mer a decided "wet," Carter seems to be the logical man for those politicians who do not want the prohibition issue put forward.

It appears to be a foregone conclu- sion that the Democrats will select their candidate as to his conviction on the liquor question. Ferris for the "drys" and Gaffney for the "wets" are men- tioned. The local option fight, which was so closely averted at the last Democ- ratic state convention in this city will be renewed with vigor and the out- come will be watched with great in- terest by the electorate of the state.

YANKEE SKILL STIFLES BIG BURNING GAS WELL

Flames from Great Reservoir Destroyed Everything in Sight Until Steam Was Turned On.

San Francisco, Cal., June 29.—One of the most spectacular gas well fires in the history of the petroleum industry of California has just been conquered by Yankee ingenuity. In boring for oil in the Midway district near the town of Taft, the Standard Oil company opened up a vast gas reservoir. The terrific pressure of the escaping gas wrecked the derrick. Combustible material caught fire and consumed the wreckage, driving the workmen from the scene, several of them being overcome. The huge, roar- ing column leaped 200 feet high, light- ing up the countryside at night for many miles like a massive, flaming torch.

The huge torch of flame twisted and roared for seven days before a means was devised to subdue it, and put an end to the tremendous waste. This was accomplished by pressing into service six forty horsepower boilers. Four lines of steam pipe were laid from as many sides of the mammoth gas jet. Safety valves were tied down, and when the limit of its capacity of the boiler was reached the steam was projected on the gas flow. The mixture of the steam with the gas shut out the oxygen. The great flame sputtered, dwindled and finally died out, conquered by man's ingenuity.

The well has been capped and the gas will be utilized for fuel and lighting pur- poses in the surrounding fields.

TRUSTEES VOTE BIG BUDGET FOR UNIVERSITY OF ILLINOIS.

Chicago, June 29.—The trustees of the University of Illinois, at their annual meeting here tonight, voted \$1,229,368 as the budget for 1910-11. This is \$28,000 larger than last year and brings the amount up to that of any of the first four or five universities of the country. The trustees accepted a rail- way locomotive testing plant presented by the Northwestern Railway company. It will be the only plant of the kind in any Western institution and the most important of any in the country. It will become a department of the school in Urbana.

CAPTIVE OF NICARAGUANS IS BEING WELL TREATED.

Bluefields, June 29.—William P. Pitt- mann, the Boston engineer recently cap- tured by Nicaraguan troops and charged with laying mines for the provisional forces at Bluefields, is receiving the treat- ment of a prisoner of war at Bluefields Bluff. The American naval officers are in communication with him every day. It is probable that Pittmann will not be tried until after the war is ended.

FORWARDERS

We now represent the largest forwarders in the United States. Rates the same. Send along your claims for adjustment. The outside attorneys that we employ are BONDED with the UNITED STATES FIDELITY AND GUARANTY COMPAN- Y OF BALTIMORE. Capital \$6,000,000.

Upper Peninsula

Cubs Captured

Two bear cubs, a male and a female, were reared in Escanaba this week by John McGuire from Watson. The cubs are three months old and were captured by a trapper at Watson, who has had them in his care for the past month. Both have learned to eat everything that is given them and have become most gentle pets. The male still refuses to make friends readily with strangers and growls and snarls viciously when approached but the female has more the disposition of a kitten than of a bear.

New Chief Clerk Named

After a vacancy had existed in the position for the past two years, Frank P. Smith, for the past two years superintendent of the mails in the Milwaukee postoffice, has been appointed as chief clerk of the railway mail service for the upper peninsula of Michigan with headquarters in Escanaba. Since the transfer of Col. G. W. G. Estover from Escanaba to LaCrosse two years ago the railway mails of the upper peninsula have been handled from St. Paul but the growing importance of the district makes imperative the appointment of a regular official here. The appointment of Mr. Smith will take effect on July 1.

Village President Dies Suddenly

Death came suddenly to Adolph Highstone, village president of DeTour, Chippewa county. Mr. Highstone had just left his general store and walked to the postoffice. In front of that building without a word of warning he dropped dead on the sidewalk in sight of a large number of people. Heart failure was the cause. Mr. Highstone was elected president of DeTour this spring on a "dry" ticket. He is succeeded by Vice President Thomas Montgomery. A widow and five children survive. The children are Vera, Albert, Haddedge, Maxwell and an infant. The deceased was aged fifty-seven years.

Politicians Open Campaign

The campaign of 1910 for public office in Delta county has already been opened. While it was stated that no political significance would attach to the meeting the county assemblage of farmers at Fayette, where the various granges held forth last Monday, attracted numerous politicians. These latter were on hand to build new fences and repair any breaks that may have occurred since the close of the last campaign. Among those who went to Fayette were County Treasurer Joseph J. Mallman, Register of Deeds Charles W. Malloch, County Clerk John A. Semer, Judge Judd Veland and others who are seeking office and considering the occasion propitious for launching their candidacies.

Chippewa Crops Flourishing

Hugh Carr, superintendent of the Michigan Land company at Ruland, Chippewa county, says that the company has 700 acres which at the lowest estimate will produce 1,400 tons of hay and that some acres will in all probability yield as high as three tons. They have also 325 acres of oats and eighty of peas. In fact Mr. Carr says that in spite of the poor start the vegetation obtained at the opening of the season this year's crop without a doubt will be exceptional.

Leck City Is Growing

James T. Bennett of DeTour, supervisor of the census for the upper peninsula district, was in the Soo this week and was interviewed by a reporter. Said he: "I am not authorized to give out any figures, but you should be able most any time now to secure the population of the Soo by writing the census department at Washington. I can say this, however, that Sault Ste. Marie will show as healthy an increase in population as any town in the lower tier of counties. You may say for me," he added, "that if you have any knockers in the Soo they will no doubt be surprised when they get the figures and that they had best begin to boost from this on." From Mr. Bennett's talk it is inferred that the Soo will show a material increase in population over the last census, and it is the general opinion that the number of people is in excess of 12,000.

Plans War on the House Fly—While dairymen catering to the wants of Soo people have done much of late

toward making their places more sanitary there is another phase which has not yet received attention and one which it is the purpose of the board of health to correct immediately. It is the house fly, and that is the little but dangerous fly. The board is securing material for a campaign against this insect and proposes shortly to go before the dairymen with facts. It is proposed to advertise the sanitary ravages of this little fellow and to send circular letters to the milkmen. In these letters will be contained information how to fight the fly, how to screen the milk houses and take other precautionary measures.

Plans Active Canvass

Hon. G. T. Werline, of Menominee county candidate for the Democratic nomination for congress from this district, will start his political campaign about the middle of July, possibly right after the fourth. He has done very little campaigning, but he has visited Delta, Dickinson, Iron and Marquette counties, and at every point he has visited he has been given a hearty reception. At the present time Mr. Werline is in Marquette, where he is on the jury in the United States court, and he will probably be held there until the first of July, when his time will be his own and he will have plenty of opportunity of getting out among his friends and electioneering for himself. In the twelfth congressional district there are fifteen counties and Mr. Werline will endeavor to cover all of them in his campaign.

School Teachers Are Wedded

In the presence only of a few close friends Miss Estelle Deroche and Fredrick W. MacKenzie were married at Escanaba, the ceremony being performed by Rev. P. B. Ferris of the First Presbyterian church. The bride was attended by Miss Ruth Sylverson as maid of honor and George F. Edmonds attended Mr. MacKenzie as groomsmen. Following the ceremony dinner was served at the Sylverson home, after which the newly married couple left for Boston where they will visit for several weeks. The bride has been engaged for the past two years as a teacher in the Escanaba public schools. The groom is principal of the high school, having served in that position for the past year and having been engaged for the same post for next year. While it has been known for some time that the couple were to be married the exact date of the wedding was known only to their most intimate friends and the ceremony came as a surprise to many.

Park Looters Caught

The young boys who a few days ago looted dinner baskets at John Hennes park at Menominee were caught and taken before Chief of Police English. All of the silverware that had been taken was recovered. The young men were

Cheer Up!

It is no longer necessary to mope, yawn, stretch and wish that spring wouldn't make you feel so fearfully sluggish.

Banish that idea from your mind. Your system is run down, that's all—it's the most natural thing in the world—in the spring your own house needs a cleaning, an airing—same with your system.

Tens of thousands have discovered the truly natural, amazingly successful tonic is Nyal's Tonic, for it works like magic—makes you feel years younger—turns a dragging, slow, weakly step into a sprightly, vigorous, gingery stride. Your whole system, your brain, responds in a flash!

You fairly sparkle with renewed vitality—the very first spoonful tells and in an astonishingly short time you're in great fettle—tonus up so quick you feel like a new person! Nyal's Tonic is nature's way of toning up the human system—a combination of organic iron, Peruvian bark, hypophosphites and malt extract in exactly the right proportions so they digest with the food and vitalize the entire body with invigorating strength—strengthen every muscle, nerve and tissue with every heart beat.

Here are the reputable druggists who sell and strongly recommend wonderful Nyal Remedies, including Nyal's Tonic.

The People's Drug Store, Marquette, Mich. City Drug Store, Anderson Block, Ishpeming, Mich.

not jailed or fined, but were given a good lecture by Chief English, and they have promised to behave themselves in the future. Some young people of the city seem to have the idea that when they are out to Hennes park they have unlimited privileges and are free to do and act as they please. Only this week Elmer Christopherson, a sixteen-year-old boy, was arrested for creating a disturbance in the park, but no definite action was taken against him, his sentence being suspended. Chief of Police English has instructed Officer Van Doer to quiet all disturbances, and allow no rowdiness of any kind to go on in the park, and to take prompt action in every case where it is necessary.

Record Catch of Muscalonge

What is perhaps the record catch of muscalonge in St. Mary's river was recorded by a party in Mud Lake. The catch included nine whoppers and weighed 116½ pounds. The party consisted of Charles Hewitt, John L. St. Herbert Laing and George Berry. The sport started about 4 a. m. and lasted until 10:30 o'clock. During that period the fishermen declare they had more sport than could otherwise possibly be crowded in that time. George Berry, having a most strenuous time with his catch and, fearful of losing him, he handed his pole over to Hewitt. After considerable fighting the big fellow was brought up close to the launch and Berry made a lunge at him with the gaff. With one mighty pull he landed his catch in the boat. But in doing so he slipped and fell. Thereafter ensued a mighty tussle. The fish gained the first down in two seconds, landing Berry flat on his face with the view on top. Berry immediately recovered and gained the next two falls and victory. This fellow weighed twenty-five pounds and was the biggest of the catch. All the others averaged around fifteen and sixteen pounds. The entire catch was made with light fly rods.

TABLE TALK.

Its Undeniable Importance to Digestion—Inexpensive Diet.

In the department of "The Pilgrim's Script" in the American Magazine, the following letter is published:

"I was interested in your article called 'Soiling Danger' in the Pleasant. It is true that simple food costs a lot of money today. I have just returned home from a family gathering where there were gathered together representatives of states and cities and towns. It seemed to me that nothing was so marked in the family talk as the pleasant reports on the cost of living. Butter and eggs and meat and other things have gone up and up everywhere. The small town is no better off relatively than the city. There is no use in telling the city people to rush to the country. As the thing stands now there is no relief in that direction.

"Now I am not going to suggest that anybody should do what I do. All that I intend is to give you my own experience and let it go at that. Here it is:

"A number of years ago (I live in Chicago) my wife and I agreed to eat less and talk more at the table. Talk is less expensive than food. And, curiously enough, we have found that by doing this we can get along, at least for the present. We cheer what we eat slowly and seem to get as much nourishment out of a smaller amount of food as we used to out of a larger. You would like me to be more specific? Well, I will. Take the matter of eggs. At breakfast we have them often. The point is that we each have one, whereas ten years ago we each had two. And I give you my word I do not now see any difference between eating one egg and two.

"So I just had to kill him." Miss Perrino was taken to the Juvenile home at Ewing and Halsted streets, but afterwards was paroled to Attorney P. Barasa, who promised that the girl would appear in court whenever desired. At the hospital Rossi recovered consciousness for a few minutes and talked to a police sergeant.

He said he wanted to collect \$20 the girl had been owing him for more than two years. He denied that he was in love with the girl and said she read trashy novels and imagined the story she told.

Negaunee Department

ICE DEALERS ARE RUSHED WITH WORK

New Record in Quantity of Ice Consumed Established Last Saturday.

"I have sold and delivered a greater quantity of ice during the past three weeks than in any similar period since I have been in the business in Negaunee," said Robert Thompson, one of the local ice dealers, yesterday. "The demand for ice is now so great that I have put on an extra man on delivery outfit. For three weeks past we have been getting out every morning at 5 o'clock and it is seldom that we finish our deliveries before eight in the evening. Richard Kappes is also having a big rush, and he has found it necessary to put on an extra delivery team.

"Last Saturday was our banner day. We delivered twelve tons of ice. This was a big day's work for two men, as we had to saw practically every cake of it. We filled 125 boxes at private homes, in addition to our trade in the business district.

Both Mr. Thompson and Mr. Kappes are taking out several large loads every day and occasionally they are not able to supply all the demand. Mr. Thompson says that the present demand for ice is the heaviest that he has ever known in Negaunee, but he does not anticipate that there will be a shortage as both he and Mr. Kappes last winter put in much more ice than they had ever before stored.

It is reported from several places in the Northwest that there will probably be a shortage of ice toward the close of the season, if the hot weather continues through July and August. The city dealers will naturally look to the country ice men for a supply, in case they run short, but very few of the country men have put up much more ice than they will need for their own trade.

The Negaunee dealers learned a lesson in 1907, when there was a shortage of ice here as well as in a number of other places in the upper peninsula, and they now store heavily.

BARASA IN CITY.

Former Negaunee Man Will Defend Young Chicago Girl.

Bernard Barasa, who, during the past few years has made a name for himself as a criminal lawyer, arrived in the city yesterday morning and will leave for Chicago again today. Before leaving Chicago from Escanaba, he was engaged to defend Rose Perrino, a fifteen-year-old Italian girl, who, on Monday, shot and probably fatally wounded Anthony Rossi, forty-seven years old, at the door of the factory where she worked. The girl said she believed the police powerless to protect her from Rossi, who forced her at the door as she was leaving for her home.

The young woman drew a revolver from her pocket and shot Rossi twice in the back as he turned from her. One bullet lodged in the left lung, and surgeons at the county hospital, where Rossi was taken, said he would die.

Rossi fell to the sidewalk, but the girl started to run to the third floor of the building he staggered in pursuit. Half-way up the entrance steps he fell back to the sidewalk, and lay until the police came. "I knew it was going to shoot him, and I decided to do it," said the girl in custody at the Desplaines street station. "But I knew he would kill me if I did not kill him."

I asked the police to keep him away. They told me they would, but he followed me wherever I went. I have been unhappy ever since he began to love me. He roomed at our house until about a year ago. Then we had him arrested because he persisted in wanting to lug me. He would rush in on me at any moment. I hated him."

"Then he was put under bond to keep the peace, but that did not keep him from following me. He would get on the street car and sit in the back seats whenever I went anywhere. I was frightened all the time and night after night didn't sleep because I worried lest he get me."

"So I just had to kill him."

TWO WARM DAYS.

Tuesday and yesterday were considered the two warmest days of the summer here. Tuesday morning thermometers registered sixty-two above and yesterday morning seventy-two. At noon Tuesday it was ninety-four degrees in the shade and at 3 o'clock thermometers under awnings, where the sun was beating down on them, registered from ninety-eight to ninety-nine degrees.

A DREADFUL WOUND.

From a knife, gun, tin can, rusty nail firework, or of any other nature, demands prompt treatment with Bucklen's Arnica Salve to prevent blood poisoning and gangrene. It's the quickest, surest healer for all such wounds, as also for Burns, Boils, Sores, Skin Eruptions, Eczema, Chapped Hands, Corns or Piles, 25c. at The Stafford Drug Co.

Those who want to fill up their yard may get sand free, and loaded on their wagons from the Workers' Hall company's lot, nearby Hanson & Son's meat market, on Tobin street. Men can be found working on the lot during all day. (6-27-10)

WHAT EVERYBODY OUGHT TO KNOW.

That Foley's Kidney Pills contain just the ingredients necessary to tone, strengthen and regulate the action of the kidneys and bladder. For sale by all druggists.

WEDDINGS YESTERDAY.

Two Marriages Solemnized Early Yesterday Morning.

There were two marriages early yesterday morning at St. Paul's church. The first was that of Miss Emma Raymond, daughter of Mr. and Mrs. E. B. Raymond of Teal Lake avenue, and Herbert Calligan, of Sioux City, Ia., formerly of Negaunee. A half hour later Miss Barbara Kirschner was united in marriage to T. A. McDonnell of Escanaba.

The Raymond-Calligan wedding took place at 5 o'clock and the service was read by Rev. N. J. Raymond of Lakeside, cousin of the bride. The bride was attended by her sister, Miss Evelyn Raymond, and Clarence Calligan, also of Sioux City, Ia., brother of the groom, was best man.

Following the marriage the bridal party, together with immediate relatives, partook of a wedding breakfast at the home of the bride's parents, after which they left on the St. Paul train for an extended wedding trip through the West. They will be at home to their friends at Sioux City, Ia., after Sept. 1.

Mr. Calligan and his bride are favorably known in Negaunee as they spent the greater part of their lives here. Mr. Calligan is now a passenger conductor on one of the lines running out of Sioux City.

The Koeschner-McDonnell marriage was performed by Rev. Father Lamot, the pastor in charge of St. Paul's congregation. The bride was attended by her niece, Miss Viola Connors, daughter of Postmaster Connors, and Jack McDonnell, brother of the groom, was best man. Following the ceremony the bride and groom and their attendants, together with a number of their relatives, partook of breakfast at the home of Mr. Connors, where the bride has lived for some years.

The bride is a daughter of Thomas Koeschner, an old resident of Ishpeming, and she had been employed in the Negaunee postoffice for a number of years, until a month or so ago, when she resigned her position. The groom is a popular Escanaba young man. The bride and groom left for Milwaukee, Chicago and other points on the Northwestern train at 9 o'clock. They will be at home to their friends in Escanaba after Sept. 1.

MARRIED LAST EVENING.

With the Rev. Dr. C. C. Plamette, pastor of the M. E. church officiating, Harry Warn of Allouez, Keweenaw county, and Miss Gertrude Mary Sincok of this city were united in marriage at 6 o'clock last evening. The ceremony was performed at the home of the parents of the bride, Mr. and Mrs. John Sincok, and was witnessed by a company of seventy-five relatives and friends. Miss Warn of Allouez and Miss Ada Richards of Negaunee were the bridesmaids, and James Mills of Allouez and Wm. Sincok of this city attended the groom. The bride and her attendants were garbed in white, the former in silk and carrying a shower bouquet of roses. An elaborate supper was served after the ceremony, and at midnight Mr. and Mrs. Warn departed for the copper country, where they will make their home. The bride is one of Negaunee's most popular girls and has the well wishes of a legion of friends. The couple were the recipients of a large number of presents.

BENNETTS-VINCENT.

William J. Bennetts of Ishpeming and Miss Beatrice Vincent of this city were married yesterday afternoon at 2 o'clock at the home of Captain Fred Ware on Main street. Rev. R. T. T. Hicks, rector of St. John's Episcopal church, performed the ceremony. The bride was attended by Miss Kezia Bennetts, sister of the groom, and Enoch Vincent, the bride's brother, was best man. The parlors were attractively decorated and the ceremony was performed under an arch of roses. The bride is a sister of Mrs. Ware and the groom is a plumber in the employ of Peter Barasa. The couple left on the afternoon train for the copper country, where they will spend their honeymoon.

BRANCH OF EAGLES.

J. S. Parry, assistant grand worthy president of the Fraternal Order of Eagles, who has been in Negaunee and Ishpeming the past few days, will likely organize a branch of the society here. There are about twenty Negaunee men holding membership in the Ishpeming lodge and it is thought that the proposed aeria can be started with forty or fifty members.

LOCAL LAONICS.

Mrs. W. J. Whiting has gone to Escanaba on a visit to her parents.

The concrete work was started yesterday on the foundation for the new union depot.

A plate glass window was put in John Baraba's business block yesterday, taking the place of the one broken several weeks ago.

Mr. Setterstein of Escanaba was present at the marriage of his friend, T. A. McDonnell to Miss Barbara Kirschner here, yesterday.

Rev. Father Deauchene of Escanaba attended the Raymond-Calligan wedding in Negaunee yesterday. He is an old acquaintance of the Raymond family.

Mr. and Mrs. Thomas Remington and their son, and his father, are here from Coleraine, Minn., on a visit to Victor Harris and family of the Jackson location.

Mrs. N. C. M. Hansen of Hibbing, Minn., is in the city visiting her parents, Mr. and Mrs. E. B. Raymond, she having come down to attend the marriage of her sister, Miss Emma Raymond, to Herbert Calligan.

Dave Baraba and wife of Los Angeles, Cal., formerly of Negaunee, who arrived in the city a few days ago, are now visiting relatives in St. Paul, Minn. They will return to Negaunee before their departure for their home.

Frank C. Kuemper, supervisor of Turin township, was in the city yesterday. It was reported that forest fires had

been started in the vicinity of Turin, but Mr. Kuemper stated that there was no foundation for the rumor. A Finnish picnic will be held Sunday at the Cleveland park under direction of one of the Negaunee Finnish organizations. There will be athletic contests, starting at 10:30 o'clock in the morning, and the picnic proper will be held in the afternoon.

William Boyd, who was called to Negaunee on account of the death of his mother, the late Mrs. Mary Boyd, returned Tuesday night for his home at Chippewa Falls, Wis. His wife will remain some days. Robert McClellan, a brother of the deceased, who came down from Coleraine to attend the funeral, also departed for his home Tuesday.

Henry Young, who came up from the Sands Tuesday to attend the funeral of the late Mrs. Mary Boyd, returned to his home that evening. Mrs. Young has been seriously ill and Mr. Young was accompanied to Sands by one of the Ishpeming physicians. His wife is a sister of the late Mrs. Boyd, and is seventy years of age.

J. J. Wentala and Archie Orr have formed a co-partnership for the conducting of their jewelry business in the Caple block. The firm name will be Wentala & Orr. They have just completed remodeling the interior of the store. New hardwood floors have been put in and the walls and ceiling have been redecorated.

Lloyd Coombe and Miss Irene Hakonen were married last Wednesday, and left for the Mesaba range, to which place Mr. Coombe was recently transferred from one of the mines here. His father, Rev. W. B. Coombe, former pastor of the Mitchell Methodist church, came down from Ironwood to perform the ceremony.

1,800 CORDS OF WOOD BURNED

Fire Near Stillman in Alger County Raged Three Days and Caused Considerable Loss for Cleveland-Cliffs Iron Company—Locomotive Started It.

Woods Are Dry as Tinder and Unless Rain Falls Soon Fires of Wide Extent Are Likely to Be Reported—Precautions Being Taken at the Wood Camps.

The Cleveland-Cliffs Iron company this week had a loss of 1,800 cords of hardwood piled in the woods on a spur of the Munising railway, near Stillman, and the fire was only gotten under control after a stubborn three days' fight, in the course of which over 100 of the company's employees were pressed into service. They fought the flames with water, shovels and axes, their effort being mostly confined to preventing its spread.

The fire was caused by a spark from a locomotive and burned over a stretch of territory extending back about half a mile from the track and about 800 feet in width. The fire was only stayed when it reached the green timber, the work of the men being directed to preventing it from spreading laterally. The loss was somewhere in the neighborhood of \$3,000 and it cost several hundred dollars to fight the flames.

This loss was far the most serious that the Cleveland-Cliffs Iron company has had this year, but it does not compare in extent with the loss in the disastrous Coalwood fire of last season. In that fire 20,000 cords of hardwood were destroyed a few miles out from Wetmore and a large area of country was burned over.

Taking All Precautions.

Because of the inflammable condition of the woods, particularly at the scene of their wood cutting operations, where there is, of necessity, much slashings and other dry debris in and about the piled cordwood, the lumbering department of the Cleveland-Cliffs Iron company is taking special precautions to prevent the outbreak of fires and to quench them speedily, wherever they are discovered.

In the places where large cordages of hardwood is piled patrols are employed to follow after all trains, to report any fires that may be started by sparks from the locomotives and many such fires are extinguished before they are able to gain much headway. The greatest danger of fires lies in sparks from the locomotives and if it were not for the precautions taken to prevent the spread of the flames that start from this cause serious damage would result.

All the employees of the company in the threatened districts are instructed to be on the lookout for fires and to send in an alarm as soon as a blaze

is discovered. When there is fire to be fought all the men needed to extinguish it are hurried to the scene and no effort is spared to quench the flames, or to restrict their area, if it is impossible to make headway against them. The company maintains many fire stations in and about its cutting, where buckets, shovels, grub hoes and other fire fighting material are kept.

Woods Dry as Tinder.

From all quarters come reports that the woods are as dry as tinder and that unless there are rains immediately there is a likelihood that disastrous fires will soon be raging through the country. Fires are burning at different points already, but so far no great damage has been done. They will, however, probably gain great force and sweep a wide area unless there are rains before the end of the week.

The city was overhung with smoke yesterday and the smoke blanket extended far out on the lake. The fog signals were sounded yesterday to assist the vessel captains in making the lower harbor.

CITED FOR CONTEMPT.

Witness in Beddow Case Reprimanded for Friendliness With Juror.

In the course of the proceedings in United States court yesterday, it developed that what is considered to have been an attempt to influence one of the jurors in the Beddow case had been made several days ago. The man accused of this offense was brought before Judge Denison yesterday and sentenced to spend five days in the custody of the marshal, the court at the same time instructing the marshal to use his judgment as to the proper method of carrying out the sentence. The marshal accordingly told him to go home.

Judge Denison stated that from his investigation of the case he was not convinced that any deliberate attempt had been made to draw the juror into a conversation concerning the merits of Beddow's case, but that it did appear that this witness, who had publicly stated that he was a friend of Beddow, had been altogether too friendly with the juror during the trial, and that this companionship was of such a nature as to constitute contempt of court.

The witness himself states that he was a friend of the juror and that he did drink and dine with him in public, and that he was seen while doing so by representatives of the department of justice in this trial. He declares that he associated with this friend without thinking that he was a juror in the Beddow case, and emphatically denies that at any time there was any conversation between them concerning the trial, or that he made any attempt to influence the juror in behalf of Beddow.

Foley's Kidney Remedy may be given to children with admirable results. It does away with bed wetting, and is also recommended for use after measles and scarlet fever. Sold by all druggists.

SHRINERS HOLD SUMMER SESSION

Ahmed Temple Initiated Large Class Last Evening—Enjoyable Day Was Spent.

Yesterday was Shriners' day in Marquette, being the summer semi-annual session of Ahmed Temple, Nobles of the Ancient Order of the Mystic Shrine. In spite of the intense heat, there was a fairly good attendance from all parts of the upper peninsula and the usual good fellowship and good time was enjoyed. The business session in the afternoon was very short and the remainder of the time was spent in seeing the sights of the city and other forms of pleasure. One of the Pioneer Motor company buses was at the disposal of the nobles during the afternoon and many sought to get away from the heat in this manner. Others accepted the hospitality of the Marquette club, which was extended to all the visitors.

In the evening the Shriners in red caps and other regalia marched from the Hotel Marquette to Masonic Hall, leading the candidates who were destined to cross the desert sands by a route and toilsome pilgrimage to finally find comfort and enjoyment in the oasis of Ahmed Temple.

After the ceremonial session a musical and vaudeville program was given, which was followed by a luncheon and smoker. The following were the candidates who were worked last evening: P. B. Ferris, Escanaba; F. W. Good, Escanaba; J. T. Daniell, Laurium; J. M. Goldsworthy, Crystal Falls; August Wallen, Ewen; J. C. Brown, August Nordin, Kenton; A. B. Gibbs, C. G. E. Sieberry, A. B. Whittomore, Menominee; Thomas Deardon, Hubbell; A. B. Jacobs, Sault Ste. Marie; A. A. Maywood, Marquette; Nathaniel Lobb, L. B. Steward, Munising; R. A. Maulard, Marquette; William Craig, Escanaba, and J. W. Kingston, Laurium.
