

NO PRIMARY REFORM FOR EMPIRE STATE

Cobb Bill Is Defeated in the Senate at Albany, as It Was in the House—Minority Republicans Join the Tammany Democrats in Killing It.

Outcome Is a Situation That May Force Roosevelt to Take an Active Hand in Politics—Plans Are Laid to Make Him Leader of the Party.

Albany, N. Y., July 1.—The senate today defeated the Cobb direct nomination bill by the vote of twenty-five to nineteen, seven Republicans combining with the Democrats against the measure.

Mr. Roosevelt is to be asked to get back in the harness again. His defeat in both the senate and the assembly by the Republican organization has created a situation which may force him to take an active part in the politics of both the state and the nation.

Roosevelt's defeat on the primary bill in no sense repudiates his leadership or indicates that his power is on the wane. Those who stood with him say Lloyd Griscom said: "The rest thing which stands out clearly is of national importance. It is a consolidation absolutely of three such men as Taft, Roosevelt and Hughes. This situation has brought about such a condition, and it would be difficult to imagine a situation more hopeful to the party, both in the state and in the nation."

How Roosevelt Was Drawn In. New York, July 1.—Theodore Roosevelt today told how he became drawn into the New York primary fight, saying that when he met Governor Hughes at Harvard Mr. Hughes urged upon him the importance of making a statement, saying that silence might be construed as opposition on his part to primary reform.

Will Campaign for Lodge. Boston, July 1.—The statement that Theodore Roosevelt, who after a several days' stay returned home today, will return to Massachusetts in the fall and take part in the Republican state campaign was made by Senator Lodge today. The senator said: "Mr. Roosevelt is a remarkable man in many ways. He has a wonderful, an astonishing—hold on the American people. Mr. Roosevelt will not talk politics now. There is no doubt, however, that he will talk later and may have something important to say."

Oyster Bay Looks for Hughes. Oyster Bay, N. Y., July 1.—Theodore Roosevelt arrived here by automobile tonight and went straight to Sagamore Hill. It is believed that Governor Hughes will be an early visitor.

WORK OF THE U. S. MINTS. Washington, July 1.—More than twenty banks were this morning authorized to begin business during June. The addition of these will bring the total national banks in existence to 7,170.

Washington, July 1.—At the mints of the United States during the fiscal year just closed, the government made \$88,000,000 coins, valued at \$54,215,410.

WARDEN WENDER ACQUITTED OF THE CHARGE OF PERJURY.

Jackson, Mich., July 1.—Acting Warden John C. Wender, of the Michigan state prison, was acquitted by a jury today of charges of perjury in connection with the investigation of the regime of former Warden Allen Armstrong. Wender was accused of attempting to assist Armstrong in his defense. Armstrong later confessed to receiving a bribe and is now serving a sentence.

BANKER WALSH'S COUNSEL SEES THE PARDON ATTORNEY.

Washington, July 1.—A conference over the case of John R. Walsh, the Chicago banker now in prison, was held at the department of justice today. George T. Buckingham, of Chicago, counsel for Walsh, and a lawyer named Fardon Attorney Fitch, in which the whole question of the banker's case was discussed. The visiting attorney did not indicate when Walsh would petition the president for a pardon.

JUROR SPARE SUES PROSECUTOR WAYMAN

Charging Slander and Libel, He Begins an Action for Damages of \$50,000. Chicago, July 1.—Charles Spare today filed notice of a suit for \$50,000 against Lee Oswald Broderick Wayman, alleging slander and libel. Mr. Wayman, in an interview, is said to have accused Spare, who was a juror in the Lee Browne case, with "hanging" the jury.

SENATOR BRODERICK INDICTED ANEW.

Springfield, Ill., July 1.—A new indictment against State Senator John Broderick, of Chicago, charging bribery, was returned today by the Sangamon county grand jury. The accused legislator is expected next Wednesday morning to give a new bond of \$10,000. Ben M. Kirhn and Richard F. Egan of this city, attorneys for Broderick's present bond, will sign the new one.

The new indictment contains seventeen counts, whereas the first one contained only two. Great care has been taken in drawing the bill, and the objections made by the defense in the trial of Lee Oswald Broderick, charged on the same charge have been met, declares the state's attorney.

GOVERNMENT TO SELL TIMBER IN MINNESOTA.

Washington, July 1.—The interior department today announced that all of the remaining pine timber on the ceded Chippewa Indian lands of Minnesota will be offered for sale to the highest bidder. It involves 375,000,000 feet, covering 122,849 acres. The greater portion of the timber stands in the Minnesota national forest. It will be the largest sale of Chippewa timber yet held. Sealed bids will be opened at the district land office at Cass Lake, Minn., Sept. 15. Under the rules, the timber will be cut and logged by the purchaser, but the logging will be supervised and the scaling will be done by the interior department. The purchaser will be allowed four years to remove the timber which is outside the national forest and five years to remove that inside.

LONG CRUISE IS PLANNED FOR THE NAVAL MILITIA.

Washington, July 1.—The state naval militia men are to be taught something of actual seamanship this summer. On the great lakes a squadron of seven naval militia vessels will cruise from Thunder Bay, Lake Superior, to Buffalo and back to Detroit, between Aug. 8 and 16. The Wolverine will be the flagship, while militia from Illinois, Michigan, Ohio and Minnesota will sail along behind.

UNCLE SAM'S FINANCES IN EXCELLENT CONDITION NOW.

Washington, July 1.—A surplus of \$9,402,000 in the ordinary receipts and expenditures against a deficit last year of \$58,734,000 was announced by the treasury department today. The total deficit over all, which includes the Panama canal expenditures and the public debt, is today \$25,884,000 against \$118,795,000 last year.

DOGS MAY GO AND COME WITHOUT PAYMENT OF DUTY.

Washington, July 1.—Pet dogs can be carried into Canada and back or anywhere else without fear of duty, under a decision announced by the treasury department today. The provisions relative to the registration of horses of domestic origin taken abroad for personal use by their owners are extended to dogs and other domesticated animals.

IMMIGRATION THE PAST YEAR PASSED THE MILLION MARK.

Washington, July 1.—Commissioner General Keeffe today estimated the total immigrant aliens admitted at all ports of the United States the past fiscal year at 1,035,545. This is an increase of 283,750 over the number admitted last year.

WISCONSIN'S HEALTH BOARD PROMULGATES IMPORTANT RULE.

Madison, Wis., July 1.—No public school in Wisconsin may hereafter use textbooks on physiology or hygiene that do not contain chapters explaining the nature and dangers of contagious and infectious diseases. This rule was promulgated today by the state board of health.

EX-SENATOR TURLEY IS DEAD.

Memphis, July 1.—Former United States Senator Turley died here today.

RAILROADS WILL NOT BE HARASSED

Mr. Taft Makes It Plain to the Commerce Commission That the Added Authority Given It by the New Statute Shall Not Be Used Arbitrarily.

He Is Anxious That Nothing Be Done to Menace the Prosperity of the Carriers, and the Board Agrees With Him—Knapp and He Have Conference.

Beverly, Mass., July 1.—President Taft had a long talk today with Chairman Knapp, of the interstate commerce commission, regarding the administration of the new railroad law. It was made plain that the added authority given the commission by the new statute is not to be used arbitrarily or for the purpose of hindering the railroads in their legitimate business.

The president feels it is in the hands of a conservative body of men. It always has been the aim of the chief executives of the nation to make the commission a conservative body. Mr. Taft, above all, is anxious that this character of the commission be maintained. It was at his request that Mr. Knapp came to Beverly today.

Regrets the Action at Albany. Mr. Taft expressed regret to several callers today over the defeat in the New York legislature of the Cobb primary bill, which was advocated by Governor Hughes and Theodore Roosevelt.

RATES ON LEMONS ORDERED REDUCED.

Washington, July 1.—The freight rates on lemons from the producing territory in southern California to Eastern destinations today were reduced by the interstate commerce commission from \$1.15 per hundred pounds to \$1 per hundred. The new rates are effective Sept. 1.

Southern Pacific Pleads Guilty.

San Francisco, July 1.—Pleas of guilty were entered today by the Southern Pacific railroad to eighteen counts of the indictments charging relating and discriminating in rates found by the federal grand jury on information gathered by the interstate commerce commission. Fines aggregating \$18,000 were imposed by United States Circuit Judge Van Fleet. The rebates were mostly on Far West and Orient shipments.

JUDGE UPHOLDS TURKS' LAW.

Worcester, Mass., July 1.—The complicated marriage conditions of Sadie Kapigian of Holliston and Krikor Der Missianian of Milford were given legal ruling in the superior court, by Judge George A. Sanderson, who heard the evidence recently in the petition of the wife for an annulment of her marriage to Missianian on the grounds that he had a wife in Turkey when he married in this country. The judge finds that the libellant is not entitled to annulment of her marriage to the Milford man.

In the evidence, Missianian admitted that he had a wife in Turkey when he was married in this country, but produced an expert on Turkish law, who testified that in Turkey, when the woman changed her religion and married a man of that faith, any previous marriage was null and void. On this basis Judge Sanderson ruled that the wife of the libellee was not in force when he married wife No. 2, and Miss Kapigian is not entitled to a decree. The case will be reported to the supreme court at the request of both parties.

AN OPALIZED SNAKE.

What is supposed to be an opalized snake has been discovered by a prospector at White Cliffs opal fields, South Australia, from whom it has been secured by an Adelaide resident named S. Saunders. On what appeared to be a piece of ironstone, dark brown in color and therefore making an excellent background to show off the precious stone, was imbedded the form of a small snake or lizard of pure opal. The coiling body measures about two inches in length, and the head and eyes are to be plainly seen. Even the scales of the back can be discerned. Before Mr. Saunders secured it the specimen had been submitted for examination at the museum and he was informed on making the purchase that it was a reptile of some kind and then opalized.—Adelaide Advertiser.

COURT AFFIRMS JUDGMENT.

New York, July 1.—The United States circuit court of appeals affirmed today the judgment for \$20,000 awarded to Samuel Dempster, a Pittsburg, against Colonel Wm. D'Alton Mann and the Town Topics Publishing company. The suit grew out of alleged libelous statements printed in Town Topics concerning Dempster.

DENMARK'S CABINET RESIGNS.

Copenhagen, July 1.—The cabinet resigned today.

ABOUT 5,500 TRADE MARKS ARE REGISTERED DURING THE COURSE OF THE YEAR AT THE PATENT OFFICE.

The Weather

Washington, July 1.—The following is the weather bureau's forecast for Upper Michigan: Unsettled weather; probably showers in the west Saturday or Sunday; light to moderate west winds.

Baseball

STANDINGS OF THE TEAMS.

GAMES SCHEDULED FOR TODAY.

Table listing scheduled games for today, including National League, American League, and American Association matches.

YESTERDAY'S GAMES.

Table listing results of yesterday's games for National League, American League, and American Association.

PHILADELPHIA, July 1.—Coombs and Ford had a pitchers' battle in the first game of the second, Plank was hit hard, but good fielding saved him.

Philadelphia, July 1.—Coombs and Ford had a pitchers' battle in the first game of the second, Plank was hit hard, but good fielding saved him.

CHICAGO, July 1.—St. Louis defeated Chicago today in the first game played at the new American league park.

Chicago, July 1.—St. Louis defeated Chicago today in the first game played at the new American league park.

CLEVELAND, July 1.—Lajoie hit with terrific force, making two triples and a double in three times at bat.

Cleveland, July 1.—Lajoie hit with terrific force, making two triples and a double in three times at bat.

ST. LOUIS, July 1.—Lajoie hit with terrific force, making two triples and a double in three times at bat.

St. Louis, July 1.—Lajoie hit with terrific force, making two triples and a double in three times at bat.

FIGHT FANS FLOCKING TO NEVADA

Reno Rapidly Filling Up With Sporting Men from Far and Wide—Rumors of Various Sorts Cause Much Perturbation, but All Are Proved Groundless.

Johnson Never Felt Better in His Life, He Says—Jeffries Shakes Hands With 200 Visitors, and They Find Him Fit—Ringside Officials Are Named.

Reno, Nev., July 1.—The list of the ringside officers for the Jeffries-Johnson battle next Monday was completed today. The officers are: Tex Rickard, Nevada, referee; Charles White, New York, alternate referee; Geo. F. Harting, San Francisco, time keeper.

Reno was much perturbed today by rumors that were being everywhere about Jeffries, Johnson, Rickard and about everything. Taking the Jeffries rumors, this morning rumor had it that he had broken his left forearm; at noon he had ruptured a blood vessel in the elbow, and at 2 o'clock he had undergone an operation for appendicitis. Despite all this "hard luck," Jeffries had sufficiently recovered at 5 o'clock to look up a game of cards.

Lawyers Demand Big Fee.

The only real objection of Jeffries was one that threatened his pocketbook. A suit for \$5,000 for attorneys' fees was filed against him by local lawyers who drew up a contract conveying the fight-ers share in the moving pictures to a syndicate. The lawyers claim that they are entitled to at least \$5,000 for their services.

Harting, the time keeper, has officiated at 1,100 ring battles. He came to this country with Peter Jackson twenty-five years ago. Harting said of Jeffries today: "I have never seen him look so well prepared as he does today."

Jeffries shook hands with two hundred visitors today and also posed for a moving picture machine. Among his visitors were John L. Sullivan, George Harting, Tommy Burns, Abe Attell, Sam Langford, Battling Nelson, Bill Lang and Hugh McIntosh. Jeffries held an earnest conference with Attell for nearly an hour. Attell was in Jack O'Brien's car when Jack fought Johnson less than a year ago. The banter told Jeffries that O'Brien made the negro "look foolish" on many occasions and illustrated the blows that Jeffries should use on Johnson.

Think Negro Hasn't a Chance.

Attell said: "I think there is nothing to it except Jeffries' Tommy Burns said: 'Johnson has not got a chance.' Sam Langford said: 'Jeffries is the greatest of them all; he's the only man I don't want to fight.'"

Jeffries did not work today. Beyond four miles of road work, neither did Johnson. The champion was in the sunniest mood today, and when asked how he felt he said: "If I felt any better I would not know what to do. I think it would probably hurt."

RENO IS RAPIDLY FILLING UP.

Reno is rapidly filling up. Everybody is talking "fight." The gambling halls are wide open.

ODDS STILL FAVOR JEFFRIES.

Tom Corbett, betting commissioner, today received \$5,000 from his brother John to place on Jeffries and later received \$10,000 from a New Yorker to cover \$6,500 or better against Johnson. The trainers and other camp attendants of Johnson tonight raised a purse said to be \$5,000, which they desire to bet at 6 to 1.

AUTOMOBILE RECORDS SMASHED AT INDIANAPOLIS SPEEDWAY.

Indianapolis, July 1.—Records were smashed at the motor races at the Indianapolis speedway today. Burnan, driving a Marquette-Buick, won the fifty-mile and ten-mile races for cars of the 251-horse class, and the fifteen-mile race for cars of 301-450 displacement. He clipped two minutes off the fifty-mile record, making the distance in 40:30.7 and taking the honor from Harroun. In the ten-mile race he pulled the record down from 8:16.08 to 8:14.46, free-wheel, also in a Marquette-Buick. He won the five-mile race for cars of 161-230 displacement and cut the record from 4:41.17 to 4:40.88. The Indianapolis speedway helmet, which is worth \$50 a week to the winner, was won by Harroun with a Benz car in the ten-mile race for all. Grant, in an Also, won the ten-mile event for heavy machines.

AMERICAN YACHT WINS EMPEROR WILLIAM'S CUP.

Traverseville, July 1.—The American yacht "Westward" won the emperor's cup in the schooner race from Kiel to Traverseville today. The emperor's yacht Meteor was towed in.

JOHN BEGGS FIGHTS COLLECTION OF BACK LICENSE FEES.

Milwaukee, July 1.—The proceedings against John L. Beggs, president of the Milwaukee Electric Railway & Light company, in which the city seeks to collect \$72,000 alleged to be due for back license fees, were stayed today when Circuit Judge Tarrant issued an order for a hearing of the petition of Mr. Beggs on July 15. Mr. Beggs sets up that there has been no license fee since May 1, 1895; that even if there was, this action is barred under the statute of limitation, and that it is all unconstitutional, because it aims to deprive him of property without due process of law.

MANY COTTON MILLS CLOSE TO CURTAIL PRODUCTION.

Boston, July 1.—Many cotton mills in the United States shut down today until July 11 for the purpose of curtailing production. The corporations closed employ one hundred thousand operatives.

NEW YORK STOCKS IN POOR DEMAND

There Is Very Little Buying, Except by Shorts, and Prices Continue Depressed.

New York, July 1.—The action of the stock market today was in accordance with the usual symptoms following so violent a disturbance as that of yesterday. The mere fact of the arrest of the decline relieved the market of the weight of forced liquidation through the wiping out of margins and the uncovering of stop-loss orders. The influence of the triple holiday interval emphasized the disposition of a large short interest to cover, and this constituted an important sustaining influence. There was perceptible, also, the operation of the usual secondary causes, in the reselling of stocks bought at the bottom prices yesterday by lucky speculators eager to secure quick profits, or by banking interests and insiders who bought yesterday solely for the purpose of checking the demoralization and with no desire to retain their holdings. Still another cause of selling came from related liquidation that had been carried through the break of yesterday to save heavy sacrifices, with the condition of retirement at the first available opportunity. In some cases this belated liquidation had the appearance of coming from dissolved pools of considerable calibre.

TWO BLOODY CRIMES RAFFLE THE POLICE OF TWO STATES.

Norfolk, Neb., July 1.—The officers, after an all-day hunt, have not secured a clue to the murderer of Louis Pledge, the young woman found dead near Wayne Thursday evening. The officers are still searching. The woman, aged thirty, was found in her front yard, with two bullet holes in the head. A tramp was chased from the house the day before and it is believed that he murdered her. It is believed the woman was assaulted. The sum of \$25 was stolen from the house.

MISSOURI REWARD INCREASED.

Jefferson City, Mo., July 1.—John Wender Cole, the Cole county farmer whose daughter, Anna, is believed to have been murdered and thrown into the Missouri river, tonight increased his reward for the murderer to \$400. Farmers are still searching for the girl's assailant.

HEAT IN BIG CITIES IS DEADLY TO MANY.

Chicago, July 1.—Four deaths and more than a score of prostrations occurred here today. This was the hottest day of the season. The temperature went up to 93 degrees.

WEEKLY REVIEWS OF TRADE.

New York, July 1.—Bradstreet's will tomorrow say: "The trade in crop reports are still irregular, but the weather conditions favor final distribution, and except in a few sections the crops have made satisfactory progress in the direction of large yields. The hot weather has stimulated the retail distribution of seasonable goods, though the demand is still retarded below the earlier anticipations. Jobbing trade for the fall is irregular, being checked in the Northwest. Rather more activity is noted in pig iron, though at the expense of a curtailment of 25 to 40 per cent in progress, and jewelry, coal mining and some other lines are quiet. The production of tin plate in June was of record proportions, and the mills are behind on the shipments of steel bars. Copper is easier, though business has come out in a relatively fair way. Apparently the consumers have covered their immediate requirements, and on that account quiet conditions are anticipated, at least until the appearance of the next statement as to stocks, production and deliveries."

R. G. Day & Co.'s Trade Review will say: "Conflicting crop reports and severe declines in security prices have dominated the situation during the last week. The record of the half year just ended is summed up in the word 'readjustment,' in the prices of commodities and of securities, and in the last week of the half year the progress in the latter has made rapid progress. With the opening of the second half of the year the future in iron and steel remains obscure, although an appreciable change for the better with the advent of fall is expected. Retailers report a more seasonable trade in dry goods. The curtailment of production in nearly all textile lines is interesting. The 'hoop' and shot trade is slow and featureless. The leather trade is dull and the prices are weak. Country hides show a firmer tone, but packer hides are still weak."

PROUD OF HIS INSOMNIA.

Appropos of Hall Caine's recent lawsuit a New York playwright said: "Hall Caine is always talking about his health, his ruined nerves, insomnia and so forth. He is as proud of his invalidism as Sandow is of his muscles."

"The last time I saw Hall Caine was in his bedroom in the Hotel Walton, in Philadelphia. The little, thin man, with his domelike forehead and weak, wispy brown whiskers, looked more like Shakespeare than ever."

STREET CAR MAN'S MURDERER GOES TO PRISON FOR LIFE.

Chicago, July 1.—Joseph Schmee, twenty-six years of age, was sentenced to life imprisonment here today. Schmee got into a fight with the crew of a street car in the suburb of Harvey a few weeks ago and shot and killed Herman Bierman, the motorman.

John Bull's diet is not exclusively one of beef. At last accounts Great Britain had 1,500,000 turkeys.

ASHES FALL AIR IN ALL DIRECTIONS

Forests in International Boundary Region Are Veritable Oceans of Fire All the Way from the Shore of Lake Superior.

Flames Higher Than Tree-Tops Have Rushed for Days Through Valuable Standing Timber, and the Loss Is Incalculable—Whole Country Seems Burning.

Winnipeg, July 1.—Forest fires are burning in every direction along the boundary from the Rainy river to Lake Superior. Today ashes are in the air in all directions. Navigation is difficult on account of smoke, and the whole country seems burning. Several large camps and powder magazines have been destroyed, with heavy losses. The loss to the government in standing timber is beyond estimate. Flames have rushed for days through the forests, traveling over the tops of the trees at the rate of four miles an hour.

MINNESOTA TOWN ALMOST WIPE OUT.

International Falls, Minn., July 1.—Fire of unknown cause almost wiped out the town of Mizpah, forty miles south of here, today. The loss is estimated at \$60,000. The flames were subdued by dynamiting the postoffice building. The town's only fire engine fell into a cistern, leaving the town helpless.

TWO BLOODY CRIMES RAFFLE THE POLICE OF TWO STATES.

Norfolk, Neb., July 1.—The officers, after an all-day hunt, have not secured a clue to the murderer of Louis Pledge, the young woman found dead near Wayne Thursday evening. The officers are still searching. The woman, aged thirty, was found in her front yard, with two bullet holes in the head. A tramp was chased from the house the day before and it is believed that he murdered her. It is believed the woman was assaulted. The sum of \$25 was stolen from the house.

John Bull's diet is not exclusively one of beef. At last accounts Great Britain had 1,500,000 turkeys.

DAILY MINING JOURNAL
A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

All the same, it must have hurt La Follette to find a "living American" greater than himself.

It is pretty hard on candidates for office to be forced to do campaigning in such beastly hot weather. But September is near at hand and they have got to keep a-going.

In view of recent happenings to United States senators, it can hardly be said of the venerable members of that body, as it has been said of officeholders generally, that "they seldom die and never resign."

Ex-Governor Lind of Minnesota is a sane and safe politician. The Democrats of that state want him to head their ticket this year, but he declines absolutely. It isn't every year that a Democratic candidate for governor can win out in Minnesota, and Lind is shrewd enough to know that this is one of the years when the party in that state is slated to lose.

A Grand Rapids paper states that an "air of quiet confidence" is noticeable about the Musselman headquarters in that city. The air enveloping the Osborn headquarters "in the saddle" is also charged with confidence, but it is in motion and bristling with the magnetism that attracts voters. This is a year for the strenuous campaigner, and the candidate who waits about his headquarters expecting the voters to flock to him is going to be somewhat astonished when the tale of the balloting is told.

North Dakota should feel proud of its newly acquired pre-eminence among the states of the union. Because it has been hot and dry for a few days in a part of that state the whole fabric of our national prosperity seems to be threatened with destruction, and already the consequent shrinkage in value (on paper) of our mines and railroads has mounted into millions of dollars. Let us hope and pray that there may be more or less rain in North Dakota before the country is driven into hopeless bankruptcy.

Thomas May, the veteran cartoonist, whose work for many years past has been one of the strongest features of the Detroit Journal, was this week given an honorary degree of Master of Arts by the University of Michigan. The honor is an unusual one, but few active newspaper men having been granted degrees. It is well conferred on Mr. May, however, for he is a cartoonist whose work is potent for good and who is a considerable factor in molding public opinion in Detroit and in the state at large. He stands in the front rank of American cartoonists. He is an admirable judge of cartoon themes and expresses his points graphically and with certain effect. Everybody cannot agree with May's political cartoons, but everybody can be in substantial agreement on the point of his great power in this distinctive department in American newspaper making, and every one will wish him a long continued active career, in enjoyment of his own found honors.

And here comes the Escanaba Press, to claim that those much boasted grange resolutions endorsing Musselman were passed by a minority of the Delta county grangers, the majority of whom are sticking tight to the upper peninsula candidate for governor. The Press quotes a Delta county politician in this wise: "I was at Fayette throughout the meeting and talked with a large number of the members of the grange, and I pledge my word of honor that I did not hear a single granger, or other person, at the picnic express himself in favor of Musselman. I talked with a large number of voters who are members of the grange, and many who are not, and everyone I approached is for Osborn first and all the time. F. L. Baldwin, Musselman's manager in Delta county, slipped through at a meeting of the grange the resolution endorsing Musselman and I venture to say that not 10 per cent of the grangers who were present at Fayette were at the meeting when the vote was taken. From my talks with the people who were gathered at Fayette I am certain that Musselman will not receive more than 10 per cent of the grange vote in Delta county."

The Lansing State Republican quotes a paragraph printed in a recent issue of this paper, in which reference was

made to the Republican playing the Kelley-Townsend combination. The Republican takes exception to the word "combination." The Mining Journal begs to assure it that the word was used in a loose sense, and not literally. It was not the intent to imply that there was any hard and fast combination between the two candidates named. Our purpose in referring to the Republican's friendliness to both Kelley and Townsend was to suggest the way the wires are crossed between different candidacies for governor and senator throughout the state. Many of Mr. Osborn's loyal supporters are Burrows men, others to whom he owes much for active interest in his campaign are whooping it up for Townsend. And the same thing is true of Mr. Kelley, and of Mr. Musselman, too, we have no doubt. One very apparent fact about the pending campaign is that there is no hard and fast combination between any two candidates for governor and senator. Each candidate is making such alliances as he can make honorably, and is letting the other chaps look after their interests in the same manner.

A REBUFF FOR ROOSEVELT.

The refusal of the New York legislature to enact a primary election law after having been given notice of the desire of ex-President Roosevelt to have it passed is a plain intimation to all concerned that the old party leaders in the Empire state do not intend permitting Mr. Roosevelt to have his way in state affairs without opposition.

This spells a diminished chance for Republican success in New York in the coming election, for it further deepens and widens a breach between the two factions of the party in the state that was all but unbridgeable before. For Roosevelt and the progressive element in the party will not retreat from the position taken on this measure, while the standpaters evidently would prefer to have the state go Democratic to having the reformers become dominant in its affairs; and against a united Democracy the divided Republican party cannot hope to win at the polls.

The speaker of the assembly, Mr. Wadsworth, in expressing his satisfaction with the action taken by that branch of the legislature in defeating the direct nomination bill, took plausible ground in declaring that the adverse vote on the measure should not be construed as a slap at the ex-president, but rather as an assertion by the legislative branch of the state government of its disinclination to be swayed by influences that have no right to attempt shaping legislation. There is no doubt that the old leadership of the party, which has managed thus far to retain control of the legislature, is determinedly opposed to the direct nomination system, but it is reasonably certain that the bulk of the Republican voters of New York favor it, and will let their vengeance be felt at the polls when the men who killed the Cobb bill again come up as candidates for office. That the reactionists will endeavor to retain control of the party admits of no doubt, but that they will be successful in this is quite unlikely. In the struggle between the two wings comes an opportunity for the Democrats to recover power in the great state of New York, and if they should win in the next state election that outcome cannot fail to have a tremendous influence in determining the result of the presidential election in 1912.

SHIAWASSEE'S SHAME.

How long is Shiawassee county going to endure the disgrace of being discredited by her representation in the lower house of the legislature?

For three sessions of that body preceding the last the county was represented in the assembly by Chas. E. Ward, whose legislative career closed in a scandal so odorous that the nauseating details were never given to the public, being unfit for publication.

He was succeeded by J. J. Whelan, whose record did nothing to cause the people of the state generally to have a better opinion of the political sagacity and good citizenship of the constituency that held Ward in the legislature for six years and then replaced him with a fussy nonentity.

Now if they desire to show that they glory in their shame the chance is theirs, for the Honorable Jay wants to go back, and is a candidate for a second term in the assembly. He has started his campaign for re-election by issuing a card bearing his "piety" and announcing his candidacy on the front exposure, while the backyard side is decorated with his platform, here reproduced:

I stand for a general house-cleaning in the state affairs of Michigan. Is it not time?

I stand for a true and honest report from every state institution. Are we getting it?

I stand for dealing out justice without fear or favoritism to those who betray the public in public positions. Where is justice today? Answer: She is somewhere in the attic, hoodwinked.

These are some of the principles that I stand for. As an elector at the primary will you kindly stand by ME?

doggerel interminably. He is a "pote" of the Podunk school, whose versatility in turning out bad rhymes that he insists on reading most inopportunistically, (for they are tuneless as well as senseless), made him the joke of the house during the last session of the legislature.

THE STATE PRESS.

Hetty Green says she finds her wealth a great burden. It will be noted, however, that Hetty hasn't shirked any portion of the burden to others.—Grand Rapids Press.

Cleveland's "golden rule" chief of police has been acquitted of charges of drunkenness and immorality. There never was a man who attacked privileged vice who wasn't blackguarded.—Jackson Patriot.

Secretary Knox has laid down the law very clearly to Madriz of Nicaragua. Madriz has the alternative of doing as he is told or jumping the country and writing a book.—Pontiac Press Gazette.

Up to date, about 1910 persons have remarked that the encounter in Nevada on July 4 promises to be a peachereno.—Flint Journal.

These are called the "dog days" because Detroit, when they get hot and flustered, always think it is the dog that is mad.—Detroit News.

"Nat" Goodwin probably will find it hard to get any more advertising out of the matrimonial game, unless he should marry airy, fairy Lillian Russell.—Jackson Citizen Press.

After the railroad commissioners have investigated the wreck at Vassar they probably will decide that it resulted from two trains coming together when not standing still.—Flint Journal.

Additional military service has been imposed upon bachelors in France to promote marriage. The government is evidently bound to make its men go to war one way or another.—Grand Rapids Press.

A LAUGH OR TWO.

The Return of Ferguson. A night clerk in a hotel sat dozing at his desk at about 1 a. m., when a man in evening clothes came in as if laboriously trying to walk a crack, and said:

"I'm Ferguson; key to room 44." The guest disappeared in the direction of his room, one flight up. In a few minutes a man in his shirt sleeves, with a flattened silk hat on the side of his head, and with one shoe on a foot and the other in his hands, came in and said to the clerk:

"I'm Ferguson; key to room 44." The guest disappeared in the direction of his room, one flight up. In a few minutes a man in his shirt sleeves, with a flattened silk hat on the side of his head, and with one shoe on a foot and the other in his hands, came in and said to the clerk:

"I'm Ferguson; key to room 44." The guest disappeared in the direction of his room, one flight up. In a few minutes a man in his shirt sleeves, with a flattened silk hat on the side of his head, and with one shoe on a foot and the other in his hands, came in and said to the clerk:

"I'm Ferguson; key to room 44." The guest disappeared in the direction of his room, one flight up. In a few minutes a man in his shirt sleeves, with a flattened silk hat on the side of his head, and with one shoe on a foot and the other in his hands, came in and said to the clerk:

A Mother's Love

wisely directed, will cause her to give her little ones only the most wholesome and beneficial remedies and only when actually needed, and the well-informed mother uses only the pleasant and gentle laxative remedy—Syrup of Figs and Elixir of Senna—when a laxative is required, as it is wholly free from all objectionable substances. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co.

he wouldn't vote for Roosevelt were "Teddy" running for president today." In an instant the hotel lobby was in a turmoil. Managers, clerks, guests, and hangers-on rushed out on Prospect avenue to get a peek at the guest who denied allegiance to "Teddy." "So you wouldn't vote for Roosevelt?" said one man savagely. "Ain't he all right? What have you got against him?" "I haven't got anything against Roosevelt," said the man. "I simply wasn't born in this country and I haven't got a vote."

GREAT STADIUM FOR ROME

Rome within a few months will have a great stadium, large enough for all athletic purposes. It will be for the people, private enterprises for gain being excluded. It will occupy a vast space on the historic Flaminian road, of easy access, even by foot, from the city, and on the bank of the Tiber, so that swimming and boating will be among the attractions. In the ground will be a large space for all kinds of gymnastic exercises and sports, a swimming pool, and an arena. About this will rise seats, tier above tier, which will accommodate 23,000 persons, with standing room for 30,000 more, the most remarkable features being the facility of access and possibility of seeing perfectly from every seat in the stadium. The ex-

GOT HIS RECEIPTS.

He had run up a small bill at the village store, and went to pay it, first asking for a receipt.

The proprietor grumbled and complained it was too small to give a receipt for. It would do just as well, he said, to cross the account off, and drew a diagonal pencil line across the book.

"Does that settle it?" asked the customer. "Sure." "An' ye'll never be askin' for it ag'in?" "Certainly not."

"Faith, then," said the other coolly, "an' I'll kape me money in my pocket." "But I can rub that out," said the storekeeper.

"I thought so," said the customer, dryly. "Maybe ye'll be givin' me a receipt now. Here's yer money."—Lippincott's.

A DATE IN HISTORY.

"What member of the class can mention one memorable date in Roman history?" the teacher asked.

"Antony's with Cleopatra," ventured one of the boys.—Everybody's.

HE WANTED ALL TO BE HONEST.

Mark Tully, state treasurer and candidate for re-election, was a traveling salesman for twenty-five years and has a fund of good stories of the road.

He tells that one time he was in a town in central Kansas where a protracted revival meeting was going on. One of the residents of the town was named Toby. He was a tall, gaunt man with long whiskers, and was very fond of whisky, of which he frequently imbibed beyond his limit. This man was attending one of the meetings and the revivalist was busy scoring every form of vice and calling down drastic condemnation upon them.

"Woe to the drunkard! Woe to the drunkard! Woe to the drunkard!" he shouted in doleful tones.

Old Toby got on his feet and tugged at his whiskers, and the revivalist, who had just finished his sermon, shut-tered off, made his interruption more marked: "G-g-g-guess th-th-that's m-m-m-e. I-I-I'm p-p-present!"

The preacher turned on: "Woe to the liar! Woe to the liar! Woe to the thief! Woe to the thief! His voice was doleful and sepulchral.

Again old Toby got to his feet. He motioned around the room, swinging and pointing with his arms and fingers. "G-get up!" he commanded. "G-get up! He's callin' on s-s-some of you fellers. I've answered p-p-present. It's your turn now. S-s-stand up and be counted."—Kansas City Journal.

THOSE PIES OF BOYHOOD.

How delicious were the pies of boyhood. No pies now ever taste so good. What's changed? The Pie? No, it's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitters of all organs of digestion—Stomach, Liver, Kidneys, Bowels—Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50c at The Stafford Drug Co.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Sold by The People's Drug Store.

Upper Peninsula

Singing in Light Opera—Miss Klara Farm of the Soo, formerly of Ashmington, and who has had for several years considerable success on the stage, is now playing with Lew Mort, general manager for all of the Joe Hart attractions. The company at present is playing a long stand of light opera in Albiontown, Mich. Miss Farm is reported to be making a great success in prima donna roles.

Loses Arm on Saw—While at work at the shingle mill of the Van's Harbor Land & Lumber company in Delta county, Max Conradson, a shingle weaver, had his left arm cut off by a saw. A splinter had become caught and the workman reached with a piece of wood under the table to remove the obstruction. He reached too far and his hand was caught, the saw drawing in his arm and amputating the limb midway between the wrist and elbow. Conradson had only just left essential for Van's Harbor to work in the mill and it was during his first day's work that the accident occurred which will make him a cripple for life.

Cave-in Buries Four Men

The caving in of a trench being dug for the new water works system at Norway nearly cost the lives of four men. John Warwick, the contractor, had an arm broken and his foreman, Charles White, was injured, but not seriously. Two of the men who were buried were rescued without trouble, but it took nearly all of the night to set the other men free. The victims of the accident were not shut off from the air and were surrounded by the workmen, none of those who were buried suffered any inconvenience of a serious nature. The accident occurred two miles from Norway.

Greenstones in Demand

S. W. Bartons of Chicago, dealer in greenstones, agates, Thompsonites and other precious stones which a few years ago were hardly regarded as being of any particular value, has been a recent visitor to the peninsula. He reports the prices of the gems climbing upward steadily. Mr. Bartons has been dealing in these stones for the past twenty years and has witnessed the price of greenstones climb from a nominal figure to \$20 per carat. The latter price is now demanded in Duluth and vicinity. The greenstone is essentially a Michigan gem, since it is found only on certain beaches of Isle Royale. The supply has been decreasing steadily.

Will Campaign by Automobile

Chas. S. Osborn will start on his automobile campaign next Tuesday morning at Mackinac, Mich., and will keep continually at it until the day of the primaries, Sept. 6. It is his intention to speak at every place of any importance and to meet personally as many voters as time and opportunity will allow. Mr. Osborn will be accompanied by Nelson C. Rice of St. Joseph, chairman of the house committee on ways and means and a prominent candidate for lieutenant governor and also by Mr. DeLoe. It is the confident belief of his friends that all that is necessary for Mr. Osborn to get the vote is for him to meet and talk with the people and the methods proposed are considered the best calculated to carry out this program to a successful issue.

Log Drivers Near Death

A large number of log drivers on the Menominee river were near death the other day. The water is especially high at this time, and the rain and the excessive heat and this causes the logs to jam at almost any time and place. However, the crew of one hundred men employed in driving the main stream had succeeded after extraordinary difficulty in bringing the drive as far as at which point the logs piled in a gigantic jam. The men sought to release the timber by prying gradually from the bottom, but suddenly and unexpectedly the great pile broke loose. As the men were about to get out when it gave way, and as most of the logs were too small to ride, they were forced to swim for their lives. All escaped serious injury but one or two who sustained sprained ankles, while others were thrown. Unless the rain falls within a short time it will be necessary to suspend operations. To date it has taken longer to drive the stream than in a number of seasons past.

Believes in U. P. Farming

President Flanagan, of the Sagola Lumber company, is an enthusiastic believer in the agricultural possibilities of the upper peninsula. His own company is planning to engage in the farming and dairy business on an extensive scale. Four or five farms, each to contain several hundred acres, will be started and each farm is to maintain a creamery. Judge Flanagan declares that nearly every acre of land in Dickinson county is suitable for agricultural and dairy purposes. It has been demonstrated that lands for many years considered worthless are capable of producing large crops. These new lands produce the finest oats in the country, the berry being perfect and the yield phenomenal, while peninsula potatoes are conceded to be unequalled and are in great demand for seed. The peninsula has tremendous possibilities as a fruit and berry country. The great success attained in the cultivation of strawberries is proof abundant of this assertion. Roots of all kinds can be successfully cultivated and peninsula wheat is standard. The fact that much of the land is owned by large corporations has no doubt retarded the growth of the region agriculturally. The lack of roads has also kept out the settler. This latter drawback is rapidly being remedied, and it is only a question of time when the corporations will be forced to place their holdings in the market.

HOW'S THIS?

We offer one hundred dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Pills.

We, the undersigned, have known F. J. Cheney for the past 25 years and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm. Wading, Kinman & Marvin, Wholesale Druggists, Toledo, O. Hall's Catarrh Pills are taken internally, acting directly upon the blood and mucous surfaces. Price 75 cents per bottle. Sold by all druggists.

Take Hall's Family Pills for constipation.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Liniment. This liniment is equally valuable for muscular rheumatism, and always affords quick relief. Sold by The People's Drug Store.

 Harold Hayes has returned from the Michigan Agricultural school at Lansing, to spend the summer in Marquette.
 The United States court jury men were excused last evening until Tuesday. Non-jury matters will occupy the attention of the court today.
 George Tucker of this city will deliver the oration at Escanaba's Fourth of July celebration next Monday. He will leave for there Sunday evening.
 The Northern baseball team has broken up and many of its members are now playing on the Lucky nine, of which Lowell Jeanson is manager.
 The Second team will go to Munising Sunday to play their second game in the Marquette-Alger league. The team has signed Gus Rydholm and Bruno Primeau, former members of the first nine. They will leave Marquette at 8:45 a. m., over the Marquette & Southeastern railway.
 The funeral of Mrs. John Vanhalla, who died Thursday, will be held at the house, corner Fitch avenue and Waldo street, this afternoon at 2:30 o'clock, with interment in Park cemetery. The deceased was seventy-five years of age and leaves a husband and four sons, that latter being John, of Ishpeming, and Victor, William and Oscar, of Marquette.
 Dr. Vergil V. Phelps, who occupies the pulpit of the Baptist church tomorrow, is a graduate of the University of Chicago (1901). He received his master's and bachelor of divinity degrees from the same institution. He held a fellowship at Harvard in 1907 and in 1906 was a professor of history at the Cook County Normal college. Dr. Phelps has held pastorates at Barrington, Ill., a suburb of Chicago, and at Del Norte, Cal. He has been acting pastor at Bay City, Mich., and Grand Forks, N. D. He has also preached considerably throughout New England and the Northwest.

Polish Picnic—There will be a Polish picnic at Shady Grove, at the end of Fisher street, Sunday afternoon and the afternoon of the Fourth. There will be sports of various kinds with prizes to the winners. Dancing will also be enjoyed on both afternoons and evenings. The public is invited to attend the picnic.
Death of Pioneer—James Cassidy passed away at St. Mary's hospital yesterday at the age of eighty-one. Mr. Cassidy came to Marquette from Ireland in 1863 and has resided here ever since. Through his long residence in the city he has acquired a wide acquaintance. His wife died many years ago and he has been a patient at St. Mary's for nearly three years. He is survived by a son, John T., who is employed at Huron Mountain club.
Much Water Being Pumped—Superintendent Kern, of the water works, reports that something over 3,000,000 gallons of water is being consumed daily in this city during the abnormally hot weather, and that the pumps are taxed to their capacity to supply the demand. Much of the extra amount of water is being used to sprinkle lawns. In winter, the average amount of water used each day in this city is one and three-fourths million gallons, and in summer time, from two to three million gallons.
Moving Summer Goods—Local merchants report that the hot weather of the past week has served to move their summer goods rapidly and in some lines it has been necessary to put in additional orders. With a very backward May it was feared that many of the merchants would have large stocks of summer goods on their hands this year, but the recent hot spell has demonstrated that this fear was groundless. Several of the merchants state that the very hot weather is keeping some people from shopping, but on the whole, the merchants have done a very brisk business this week.
Driest June on Record—The month of June just past was the driest June in the history of the Marquette weather bureau. The total precipitation during the month was only .82 of an inch, of which two-tenths of an inch was snow on June 2. The temperature for the month was four degrees above the normal, and only for the very cold days the first of the month, all records would have been broken. The maximum temperature recorded was 93 degrees on the 21st, and the thermometer reached 91 on the 28th and 30th. The lowest temperature was 35 degrees on the 3rd. The highest June temperature ever recorded by the Marquette weather bureau was 98 and the lowest, 31.
INSURE WITH PETER WHITE & CO
 When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by The People's Drug Store.
 Michigamme is less than 40 miles from Marquette, in Marquette county. (7-1-24)

WATER WHEEL GOVERNOR.
 Needed Purchase Made by Light and Power Commission—Bonds Paid.
 The light and power commission has purchased a governor for the water wheel, which will serve the same purpose as the governor on an engine. Owing to the variable load now placed on the plant by several rock crushers and other machinery operated intermittently and requiring large quantities of power, for some time past complaint has been made that the electric power furnished to customers has not been steady, so much so as to interfere with the operation of several kinds of machinery. With only a hand governor at the water wheel it was not possible to remedy this condition. The new governor, however, works automatically and will keep the water wheel running at the same speed, regardless of the amount of the load. The governor was purchased from the Lombard Governor company at a cost of \$1,275.
 The commission paid off \$14,000 worth of outstanding bonds yesterday and \$6,000 more which were due July 1 will be paid as soon as they are presented for payment. This payment will reduce the total bonded indebtedness of the plant to \$14,500, of which \$1,000 will be due Aug. 1, 1912, and \$13,500 due Aug. 1, 1915. As the commission has available funds to retire these bonds, an effort will be made to take them up before they become due, but whether this is done will depend on the willingness of the holders to sell them.

500 CANAL PASSAGES.
 List of Boats That Have Passed the Locks, Bound for Superior Ports.
 Sault Ste. Marie, Mich., July 1.—The following boats have passed through the locks, bound for ports on Lake Superior: McKee, 8 p. m.; St. Clair, Neepawa, 9; Van Vliet, Fanny Mitchell, 8:30; Kotcher, 10:30; Michigan, 11; Walter Scanton, Fleetwood and whaleback, 11:30; James Davidson, 1 a. m.; Parks, 2:30; Gratiwick (large), Tagona, 4; Portland, Moll, 4:30; Gratiwick (small), Hanna, Zenith, oil barge, 6:30; Samuel Morse, Phipps, Moore, 7:30; Widener, Perkins, 8:30; Dinky, 10; Henry Rogers, Troop, 10:30; Myron, Page, Goshaw, Sylvain, Shaughnessy, 11:30; Midland, Prince, noon; Black, George Peavy, Fulton, 1:30 a. m.; Butler, Manitoba, 2:30; Edenborn, Ball, Alfred Mitchell, 3; Lyman Smith, 4; Yuma, Stanton, 5; Meaford, Matthews, Wilbert Smith, 7; Herr, 8; McWilliams, 8:30.

OPEN END ENVELOPES SUPPLIED BY GOV'T

May Be Obtained by Making Request Through Postmasters—Plans for Postal Savings.

Postmaster John D. Mangum has been notified by the postoffice department that it is now prepared to furnish one cent plain and special request stamped envelopes in what is known as the "open-end" pattern, intended for the mailing of third-class matter.
 The local postoffice will not carry this class of envelopes in stock, but business men and others who are desirous of securing the same may order them in any quantity they desire, and the order will be acknowledged through the local office.
 This envelope is well adapted to the mailing of circulars. The unscaled end flap admits of ready examination of contents. The opening is smaller than in the envelope with the top flap unsealed, affording less chance of loss of contents in transit or of other pieces of mail matter getting caught in the opening.
 Nos. 5, 6, 8 and 13 stamped envelopes of the several colors are supplied in the "open-end" pattern. The selling prices are the same as for the corresponding envelopes of the regular open-top pattern.
Ten Cents Will Start Account.
 A silver ten-cent piece will be all that you will need to start a savings account with Uncle Sam when the new postal savings banks are installed throughout the country. The plan is this: Uncle Sam wants to encourage thrift among persons earning small wages. He wants the child, as well as the adult, to learn to save. Many persons spend their pennies. The postal bank will receive only regular deposits of \$1.
 To encourage the savings of the squandered pennies, however, the postal savings bank will issue a card representing ten cents, in the "postal savings stamps" will be sold at two cents each. When the card is filled with stamps it will be accepted at the postal savings bank and placed to the account of the depositor.
 Some of the features of the postal savings bank law are:
 Children over ten years old may open accounts.
 Married women may have accounts in their own names and free from control or interference from their husbands. No one will be allowed to deposit more than \$100 in any one calendar month.
 The balance to the credit of any person shall never exceed \$500, exclusive of accumulated interest.
 Interest of 2 per cent per annum will be paid on all deposits, but no interest will be allowed on fractions of \$1.
 The board of trustees, consisting of the postmaster general, secretary of the treasury and attorney general, designated under the law for the control, supervision and administration of the postal savings depositories, will meet and map out a systematic program. While no time is to be lost in arranging preliminaries, it is not thought feasible, according to a statement of Postmaster General Hitchcock, to establish depositories for several months. The postmaster general says that the board will go over the matter in a general way at its next meeting, outlining plans for organization and adopting regulations under which the business is to be conducted.

Jacob Rose

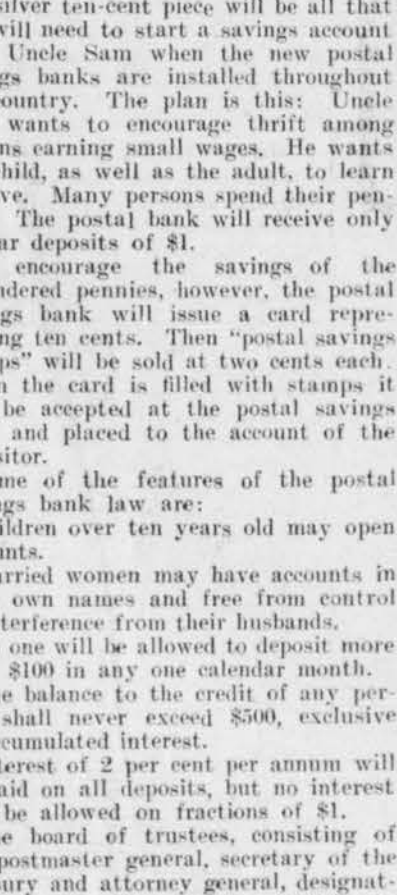

You smartly dressed, high-stepping young fellows who must have style in footwear as in other things and who appreciate quality along with fit and comfort, our high arch and high heel Shoes and Oxfords are as well as you ever set foot in. They come in Gun Metal, Patent Calf or Tan Russia, at \$3.50 to \$5.00, but no matter what you pay better shoes for the money are not made.

Better than an orchestra

The Victor plays all kinds of dance music, loud and clear and in perfect rhythm.

Always ready when you want it. Keeps on playing as long as you want.
 Obliging enough to repeat any barn dance, waltz, two-step or any other selection.
 Takes up little room—doesn't crowd the dancers.
 Does away with the trouble and expense of hiring musicians.
 Provides high-class entertainment of every kind between the dances.
 Come in and hear some waltzes, two-steps and other dance music by the Victor Dance Orchestra, Pryor's Band, Sousa's Band and other famous musical organizations.
 You can own a Victor—\$18, \$25, \$32.50, \$40, \$50, \$60, \$100.
 Victrola—\$125, \$200, \$275. Easy terms if desired.

Meeting of the Board of Education held at the office of the Superintendent Gehrand's office at 8 o'clock p. m.
 Present—President Neidhart, Trustees D. H. Ball, James O'Reilly, H. J. Hornbogen and Edw. S. Rice.
 Meeting called to order by President Neidhart.
 Minutes of meeting May 24, 1910, were read and duly approved.
 Miss Mabel P. Moore and Miss Theresa Smeberg were allowed the cost of street car fare for the school year just closing.
 Communication from Mr. W. J. Cadden, deputy factory inspector, in reference to alterations in Manual Training department was read, and in accordance therewith the auditor was instructed to make the required changes.
 Upon motion, which was duly seconded, Mr. Randall Black was engaged as janitor for ensuing year at \$65 per month.
 Communication was received from Mrs. O. G. Lindsay and matter referred to therein is having the attention of the board.
 Miss Weitzinger's request to make change in German text book was granted.
 Miss Werny's request to be allowed to close her school on Thursday noon, June 16, was granted.
 Report from Domestic Science Department was read and placed on file.
 Upon motion, which was seconded, Miss Gladys Brown was engaged as grade teacher for the ensuing year, at a salary of \$22.50 per month.
 The superintendent was authorized to purchase a rotary neostyle.
 Bills presented were allowed and ordered paid.
 No further business appearing, the meeting was adjourned. EDW. S. RICE, Secretary.

Meeting of the Board of Education held at the office of the First National Bank at 4:30 o'clock p. m.
 Present—President Neidhart, Trustees D. H. Ball, James O'Reilly, H. J. Hornbogen and Edw. S. Rice.
 Meeting called to order by President Neidhart.
 Minutes of previous meeting were read and approved.
 Miss Mary Nelson's request to be released from her contract for school year 1910-11 was granted.
 Communication from Miss Lucie Wallace was read and placed on file.
 Mr. A. J. Richardson's bill for taking school census was allowed.
 Communication was received from Miss Weitzinger in reference to German text books now in use and was referred to the superintendent with authority to act.
 Upon motion, which was seconded, the following were engaged as teachers in the High School for the ensuing year:
 Gertrude Edwards Brown, \$100 per month
 Luthera Ebert, \$100 per month
 Mabel M. Bradshaw, \$85 per month
 No further business appearing, the meeting was adjourned. EDW. S. RICE, Secretary.

FARMERS HEAVY LOSERS.

Wisconsin Man Says Grain Crops Are a Complete Failure.

Ernest Carlson, a former Ishpeming man, who left here about eleven years ago for New Auburn, Wis., where he has since been engaged in farming work, is here on a visit to relatives. He said yesterday that the farming industry of Wisconsin has received one of the worst setbacks during the present hot and dry spell that it has ever experienced. The hay crop is practically a complete failure, and the oat crop will perhaps not be more than 50 per cent. Even the vegetable crops have been affected by the drought, and the farmers are in a bad predicament.

Before Mr. Carlson left his home many of their cattle, as they are not raising feed enough to keep them. The fields are barren and very few of the farmers will cut hay in the high lands, as there is not enough of it to pay for the labor. On the farm conducted by Mr. Carlson's folks there is not enough hay to feed a team of horses for a month.

It is reported from various farming districts in the northwest that the situation with reference to hay and grain is so serious that large dealers cannot procure their supplies for future delivery. Farmers who have any considerable quantity of hay and grain on hand are disposed to hold it, believing they will sell it at a much better price than is now offered. It is predicted that prices for hay and feed of all kinds will surely soar the coming fall.

Whether the lack of hay and feed will force cattle on the market and cheapen the price of meats is problematical. This condition might put prices down temporarily, but it takes some time to grow and fatten a steer and the supply, after a forced liquidation of stock, would be so short as not only to put prices back where they were before, but probably to boost them higher.

JAMES H. BILLINGS GRANTED LICENSE

JOHN C. GREENWAY LEAVES OLIVER CO.

Is to Succeed L. W. Powell as Manager of Arizona Copper Mines.

Council Accepted His Application at Special Meeting Thursday Evening.

The matter of granting James H. Billings a license for the conduct of a retail liquor business in his block on First street was disposed of by the council at a special meeting Thursday evening.

The only other business that came up was a petition from residents of the Fifth ward, asking that the barn on lots five and six in block nine, of the Excelsior Iron company addition, be removed. The petitioners stated that the structure was in a dilapidated condition, and that it was a public nuisance and a menace to the people living in that district. The petitioners were unable to advise the council who owns the barn but one of the aldermen expressed the opinion that it was the property of a tobacco company. The city attorney was instructed to ascertain to whom the property belongs and the petition was referred to the board of public works and the street and highway committee.

After thoroughly investigating the application of Mr. Billings for a saloon license, the members of the council were unanimous in favor of granting it. It was found that the city has one saloon less than the number required under the law, and, upon the advice of the city attorney, the application was accepted, not, however, until Mr. Billings had made changes at his premises to meet the requirements of the council. He was requested to nail up the door leading to the alley at the rear of his building, and he promptly complied with this request.

Mr. Billings was present at the meeting and after the council had decided to grant him the license, Mayor McCorkindale assured him that his application had not been denied for personal reasons. He told him that he will be expected to observe the law strictly and that so long as he does this he will be given the protection that he is entitled to, but in the event he violates the law he will not be shown any mercy by the city authorities.

Mr. Billings' bonds were presented at the meeting and accepted by the council. Dave Crago, who has been in Mr. Billings' employ for some time, will have charge of the business. Mr. Crago was, a few years ago, one of the most expert hammermen in the Lake Superior district. He won a number of prizes at drilling contests for miners in both Houghton and Marquette counties, and he is very generally known.

It has been erroneously reported that Mr. Billings intended to sue the city for damages. The fact is there was in mind only proceedings to compel the council to issue him a license. Action for monetary damages was not contemplated.

NEW PHYSICAL DIRECTOR.

Wausau Man Will Succeed W. E. Hawthorne at Y. M. C. A.

W. H. Norman has been engaged by the management of the Ishpeming Young Men's Christian association to succeed W. E. Hawthorne as physical director. Mr. Norman has held a similar position at the Wausau, Wis., Y. M. C. A. for the past five years and comes highly recommended. Before going to Wausau

TO OCCUPY FLAT.

Ishpeming Elks Have Secured Desirable Quarters in Detroit.

The officers of the Ishpeming lodge of Elks have secured a six-room flat in Detroit to be used by them while they are attending the forthcoming annual reunion. The flat is located on Cass street, and is equipped with telephone, bath and other conveniences. It has been inspected by the local Detroit committee, who pronounce the quarters as desirable.

The Ishpeming arrangement committee desires that members who want to make the trip, be granted the flat. Mr. Crago, Ramsdell at once, so that assignments can be made. The rate for each person will be \$1 per day.

It is not yet known how many members of the Ishpeming lodge will make the trip. The board of directors has definitely not discouraged the copper country members of the society, as it is reported that at least 200 of them will go to Detroit. The Houghton county committee has arranged with French & Co., Houghton, to take charge of the commissary car, which will be attached to the special train.

The special will leave Houghton on the morning of the 9th at 8:15 o'clock, and will pass through here about 11 o'clock. The train will remain in Marquette thirty minutes. The train is due to arrive at St. Ignace at 5 o'clock, and the boat is scheduled to leave there at 7. The full Calumet & Hecla band will accompany the iron and copper country lodges. It is to play at every station along the line. The band will give a concert and furnish music for a dance on the boat Saturday evening.

The upper peninsula Elks have received an invitation from the Walkerville distillery concern of Windsor to become its guests one day during their stay in Detroit. The Calumet & Hecla band is to give a concert at the Wayne hotel at Detroit.

DANGEROUS PRACTICE.

Yesterday noon when the fire alarm was sounded, hundreds of Ishpeming people immediately put on their garden hoses, taking advantage of the fact that the pumps at the water station were in operation. The excessive use of the water reduced the pressure to such an extent that it would not have been sufficient, in case the fire was a large one. Superintendent Devine of the board of public works asks that the citizens refrain from putting on their garden hose when there is a fire, as all of the extra pressure is needed for fire protection.

he was engaged in the same work at Hamilton, Ont. He is expected here the latter part of the month, and will assume his duties Aug. 1, when organization of the fall and winter classes will be started.

The annual report of the association is being prepared by the officers and copies will be sent to the members within a week or so. The building will be closed Monday, but the swimming pool will be open in the morning.

OFFICIAL TEMPERATURE.

Thursday the Hottest Day of the Summer in This City.

C. J. Shaddock, the Cleveland-Cliffs Iron company's cashier, who makes the reports to the government of the temperatures recorded by the government thermometer at the company's main office on Spruce street, yesterday prepared a statement of the maximum temperatures since June 12, when the present hot spell started in. Thursday was the hottest day of the summer, the maximum temperature being ninety-seven degrees at 3 p. m.

Mr. Shaddock said yesterday that the government thermometer here registered 103 degrees one day some ten or twelve years ago. On that day the government thermometer at Marquette registered 108 degrees, but only for a short time. It was then reported by the government that the mercury had reached a higher point that day in Marquette than at any other place in the United States.

The government has another thermometer at the Cleveland-Cliffs Hard Ore property. It is stationed in a small building erected for the purpose on the north side of the lavers where it is protected from the sun by the

company's building. The thermometer at the office is on the north side, facing Lake Superior, and the sun never strikes it. A comparison of the records of the two thermometers show that they varied only slightly between June 12 and yesterday. On two or three days there was a difference of one degree between them, but the average difference was a fraction of a degree.

The maximum temperatures for each day from June 12 to July 1, inclusive, were as follows: June 12, eighty degrees; 13, eighty-seven; 14, eighty-six; 15, eighty-six; 16, eighty-seven; 17, eighty-seven; 18, eighty-eight; 19, eighty-five; 20, ninety; 21, ninety-one; 22, ninety-two; 23, ninety; 24, eighty-seven; 25, eighty-nine; 26, ninety; 27, eighty-four; 28, ninety-five; 29, ninety-three; 30, ninety-seven, and July 1, ninety-five.

GWINN.

TWO MORE SHAFTS.

Cleveland-Cliffs Iron Co. to Sink Them on Northwestern Lands.

The New York Foundation company, which recently completed a concrete shaft for the Cleveland-Cliffs Iron company at its Northwestern property, on Section 27, is now preparing to put down another shaft on Section 35, about two miles south and east of the one recently finished.

W. L. Collar, who has had charge of all of the shafts put down on this range for the New York concern, with the exception of the Smith shaft, which was the first one sunk here, will supervise the work. Mr. Collar will employ his usual crew on both jobs.

The shaft in the Cyr district will be close to Rice lake, between that and Bass lake. There is a good shales swamp in the vicinity of Rice lake and it would be a difficult task to put down anything but a concrete shaft there.

The Foundation company has completed

four concrete shafts in the Mesaba district and two more are now being sunk near Hibbing. One is for the Seranton Mining company, which is under control of the Pickands-Mather company, and when completed it will be 145 feet to the ledge. The Morton shaft, being sunk by Tod-Stamblugh & Co., will be 185 feet to the ledge. This will be the deepest concrete shaft in the Lake Superior district.

REPORTER FOR GWINN.

Ted Butler, of Ishpeming, has entered the employ of The Mining Journal company, as its Swanzy range representative, and will spend two days a week here, on Monday and Tuesday. He will furnish a news department and will look after the concern's business interests. Mr. Butler has had considerable experience as a reporter during the past few years and it is thought that he will represent the range to the entire satisfaction of its people, as well as to the management of the paper. He will also attend to the news service at Champion, Michigan and Republic, making the rounds of these places once a week. News items left at the Gwinn Pharmacy during Mr. Butler's absence will receive proper attention. The Gwinn news will appear Thursday or Friday each week, starting with the 11th.

MODERN SAUSAGE PLANT.

Richard Quayle Has Completed Building for New Enterprise.

Richard Quayle, who controls the largest mercantile establishment in Gwinn, has just completed the erection of a brick building in which he has installed machinery for the manufacture of sausage. The building is of the latest type for sausage manufacturing. The machinery is all new and will be run exclusively by electricity. A warehouse, completed a short time ago, near the Marquette & Southeastern railway is being used to excellent advantage. The structure is solid brick and was erected by the Foster Construction com-

S.S.S. CURES BLOOD HUMORS

The skin is provided with countless pores and glands, through which an evaporation is going on continually, day and night. This is Nature's method of regulating the temperature of our bodies, and preserving the natural appearance of the skin. These pores and glands are connected with tiny veins and arteries through which they receive from the blood the necessary nourishment and strength to preserve their healthy condition.

Just as long as the blood remains pure the skin will be free from eruptions, but when the blood becomes affected with acids and humors its nourishing and healthful properties are lost, and its acid, humor-laden condition causes inflammation of the delicate tissues and fibres of the pores and glands, and the effect is shown in Eczema, Tetter, Salt Rheum, Pimples, Rash, etc.

ECZEMA 12 YEARS. S.S.S. CURED HER. Dear Sirs:—I suffered with a bad case of Eczema for over 12 years, and I tried everything I heard of, and had many medicines prescribed by doctors. I spent considerable money and my husband spared no expense to cure me of the disease. Nothing helped me until I began to use S. S. S. I commenced the use of S. S. S. and Eczema soon began to gradually disappear. I continued taking S. S. S., and it completely cured the disease. Mrs. Chas. Gill, 60 Clinton St., Newark, N. J.

Acne, Tetter, Salt Rheum, Pimples, Rash, and every variety of skin eruption and affection. When S. S. S. has driven out the humors and acids from the blood, every symptom passes away, the skin is nourished with rich, healthful blood, the tissues are relieved of all inflammation, natural evaporation again takes place and the skin becomes soft and smooth and perfect. Book on Skin Diseases sent free.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

Negaunee Department

THURSDAY WARMEST DAY EVER KNOWN HERE

Mercury in Thermometers Has Recorded Highest Marks Ever Noted in This City.

Thursday was generally conceded to be the hottest day ever experienced in Negaunee. None of the older residents could recall a time when the thermometers registered such high marks. It was reported from various other parts of the Northwest that the day was also the hottest experienced since the weather bureau has been established. The records of the temperature kept by Laverne Seass, proprietor of the Breitling House, are interesting, and show that Thursday was the hottest day experienced here in many years. Mr. Seass said yesterday that the temperature was the highest that has ever recorded at the hotel, and he believes that it was the warmest day that the oldest inhabitants of the city have ever known. In addition to taking notes of the thermometer at the hotel, he also prepared a report of the thermometer on the shady side of the South Shore passenger train coming from the Soo that afternoon. When the train reached Negaunee at 3 p. m. the thermometer on one of the coaches registered ninety-nine degrees. The railroad men reported that at the highest temperature the thermometer had ever registered.

The thermometer on the shady side of the pillar in front of the hotel registered 103 at 4 p. m. and ninety-nine at 3 p. m. At 4 o'clock the thermometer in the court, at the rear of the hotel, which is shaded on all sides, registered ninety degrees. This was four degrees higher than the mercury in this thermometer had ever before reached. One hour earlier it was 88 degrees. At 11:30 Thursday morning the thermometer at the front registered ninety-two and at 1:30, ninety-eight. The early morning was also the warmest of the year. A thermometer at the front entrance registering 74 at 5:30. Yesterday morning at the same hour it registered 72.

According to the Millers papers Wednesday and Thursday were the two hottest days experienced in that city since the weather stations there were established, thirty-nine years ago. The mercury in the official thermometers at the weather bureau recorded 96.3 degrees at 2 o'clock p. m. That was the hottest time of the day, according to the weather bureau. Thermometers in the shade at the Grand avenue bridge registered 100 degrees. The nights have been a little warmer in Milwaukee than here, though the thermometer reported from there was seventy-six degrees, Tuesday night. Six Milwaukee men were overcome by the heat Wednesday. Up to this time no prostrations have occurred here, but quite a number employed outside have been compelled to quit work for brief intervals.

The weather has been the chief topic discussed here for more than a week past. It was just one month yesterday since the long rain. The dry spell has been the longest ever known here at this time of the year, and has almost completely ruined the hay crop, while grain and vegetables have also been considerably damaged. Unless there are several weeks of good growing weather, with frequent showers, the farmers here will not harvest very large hay or oat crops. The only hay that has not yet been seriously affected is that growing in the swamps. Between the drought and the grasshoppers there is very little hay on high ground. One farmer who cut his hay this week, did not get enough to feed a half dozen cattle a week, whereas he usually secures several tons. The only reason he cut the hay was to save the little that was left from the grasshoppers.

Why suffer with the heat when you can be comfortable with a gas stove in the kitchen? (6-14-tf)

BLUE BERRIES SCARCE. Drought and Hot Weather May Cause Almost Complete Failure of Crop.

Parties living in the blue berry district, along the Chicago & Northwestern Railway company's main line, south of here, report that indications for the berry crop are unfavorable on account of the continued dry and hot spell. About the only place where buds can be seen at this time are under the trees of the upper berry district. The berries are almost completely dried up the branches and unless there are heavy rains very soon pickers will find the season unprofitable.

A resident of that district yesterday said that he would be much surprised if anything this year. He says that under favorable conditions the crops would be very large, but that during the many years he has resided down there something has always come up to injure the berries. Usually the early frost hurts them and as a rule most of them are killed off by frosts in the latter part of August.

Up to this time the fires have not destroyed many berry vines in that neighborhood. A fire started Wednesday from sparks from a Northwestern locomotive near Sands, and it spread over the surface of several acres. There is no heavy timber in the vicinity of the flames and no attempt was made to check it. Another fire started Thursday at Little Lake from a spark from the passenger locomotive on the Marquette & Southeastern railway, but it was soon put out by men working at B. J. Goodman's saw mill. Sand was used to smother it.

WORK 24 HOURS A DAY. The busiest little things ever made are Dr. King's New Life Pills. Every pill is a sugar-coated globe of health, that changes weakness into strength, languor into energy, brain-fog into mental power; curing Constipation, Headache, Chills, Dyspepsia, Malaria. 25c at The Stafford Drug Co.

It is cheaper to cook with gas than any other fuel; besides it is cooler and quicker. (6-14-tf)

THREE BALL GAMES.

Double-Header Will Be Played Tomorrow at the Union Park Grounds.

The baseball fans of Negaunee and Ishpeming will have it sufficient number of games to satisfy them the next few days. The Negaunee team will be seen in action in five games, today, tomorrow and Monday, and the Ishpeming team will play the Double H team of the copper country on Tuesday.

It has been decided to play off the postponed game between the Negaunee and Crystal Falls teams tomorrow afternoon at the Union park. Two full games will be played, the first starting promptly at 1:30 o'clock. There will be a few minutes intermission between the games to give the batteries a chance to warm up. One admission price will be charged. Today's game will start at 3 o'clock, while the game on Tuesday between the Ishpeming and Double H teams will commence at 2:30 and the morning game will be started promptly at 10 o'clock. While it had not been decided yesterday who will twirl for Negaunee today, it is likely that Stenbenthal will be in the box. Stenbenthal will probably pitch the first game tomorrow and Rosevear will likely be on the slab in the second. The local players expect hard games with Crystal Falls as well as with the copper country team, as both nines are very strong. The Double H nine has not lost a game this season.

M'LAUGHLIN TO UMPIRE.

"Dad" McLaughlin, formerly of Ishpeming, who is now in Negaunee, having recently taken a position at the Maas mine, has been appointed official umpire for this city, succeeding Ed. Dyer, who gave up the job after last Sunday's game between the Ishpeming and Negaunee nines. Mr. Dyer made one decision in favor of Negaunee that the Ishpeming fans and players did not approve of, and was scolded so heavily that he concluded that there was not money enough in the job to pay for the abuse he received. The Negaunee men think that McLaughlin is a very square umpire, and he has a good knowledge of the game. He will officiate in the games at Marquette today, tomorrow and Monday when the Ishpeming and Marquette teams meet in league contests.

WITH MACCABEE SOCIETY.

James A. Goodman has taken a position as district deputy with the Maccabee society under A. P. Crooker, district supreme commander, who has charge of the entire upper peninsula. Mr. Goodman's territory will include Marquette county, west of Marquette, Dickinson, Gogebic and Iron counties. He is at present securing applications for membership at Palmer, and he expects to organize a tent there within a few days. The Maccabees have a very large membership in the upper peninsula, but the officers believe that a number of new members will be added to this section. Mr. Crooker has been in the service of the society for a number of years and is now one of its most efficient organizers.

TWO BRASS BANDS ENGAGED.

At the call of the committee in charge of the Independence Day celebration scheduled for next Monday, a mass meeting of Negaunee citizens was held last night. Considerable enthusiasm was manifested. It was voted to engage the Negaunee City band, as well as the Light Infantry musical organization, so that there will be plenty of music. Plans have been made for a rousing celebration and it is promised that a good time will be had by everybody.

WELLS A CANDIDATE.

Thomas M. Wells, who was a member of the state legislature from this district some few years ago, is a candidate for the nomination, and he has decided to file a petition with the county clerk, though it will be some days before he secures the signatures of the required number of voters. He has circulated a petition in this city and it was very generally signed. William Ewing of Chocoma, who is also a candidate, has filed his petition with the county clerk. The petitions of a complete set of county officers have also been filed.

KING GEORGE'S REAL NAME.

"How many people know what King George's real name is?" asks M. A. P. "If his majesty were to be deprived of all his titles and reduced to the rank of commoner, he would be known simply as Mr. Wettin. The counts of Wettin were the founders of the prince consort's ancient house of Saxe-Coburg. The prince consort's name was Wettin, just as Queen Victoria was by birth a Guelph, and she became a Wettin on her marriage. Thus the present king's real name is George Wettin.

However, the name and title which will actually be given to his majesty on the forthcoming new coinage will be 'Georgius V., Dei Gratia, Britanniarum Rex, Fidel Defensor, Indiarum Imperator.'

"It is too long for the coinage, but this is how the king's full style and title goes as corrected to date: 'George the Fifth, by the Grace of God of the United Kingdom of Great Britain and Ireland and the British Dominions Beyond the Seas King, Defender of the Faith, Emperor of India.'

Many a man imagines he is making a big noise in the world when as a matter of fact he isn't heard across the street.

A Notre Dame Lady's Appeal.

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pain, to write her letter in home treatment which has repeatedly cured all of these tortures. She feels it her duty to send this to sufferers FREE. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Sumners, Box 8, Notre Dame, Ind.

The World's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. Invaluable for children and adults. Sold by The People's Drug Store.

GUILTY, VERDICT IN WAGNER CASE

Convicted of Having Aided and Abetted Four Chinese in Making Their Entrance Across the Soo River Into United States, Landing at St. Ignace.

Defense Sought to Show That the Government Had Not Proved That the Men Were Aliens Under Law—Attorney McDonald Makes Eloquent Plea

Richard Wagner was found guilty of aiding and abetting in the smuggling of four alien Chinese into this country yesterday afternoon, the jury having been out for 2 1/2 hours before returning this verdict. There were four counts in the indictment originally, one of which charged a violation of the United States immigration act and the other three violations of the Chinese exclusion act. In his charge to the jury Judge Denison struck out the count based on the immigration act and one other count, which charged aiding and abetting Chinese to get into this country by land. Count two, on which he was convicted, charges aiding and abetting Chinese to get into the country by water. On the last count of the indictment the jury was unable to agree, but count two contains the essence of the whole charge against Wagner.

The case of the government was substantially as follows: That Wagner last October arranged with Leon Thibault of St. Ignace to transport four alien Chinese from the Canadian Soo to St. Ignace in a gasoline launch, and that Wagner met the party at St. Ignace and then bargained with Thibault to take three of them across to Mackinaw City, while the fourth was carried to Marquette on a freight train. This fourth man is a brother of Lee Hock King, of this city, who was one of the important witnesses for the government.

The defense submitted was very brief. Wagner himself not going on the witness stand. The conductor of the freight train on which the one Chinese man is alleged to have been taken from St. Ignace to Marquette denied having had any such person on board, and his testimony was corroborated by one brakeman, while another brakeman admitted having seen a Chinese or Japanese on board when the train arrived at Soo Junction.

Line of the Defense. Attorney F. F. McDonald, who defended Wagner, based his case chiefly on the claim that the government had not proved that the men taken across from the Soo to St. Ignace were Chinese, or at least that they were Chinese forbidden to enter this country under the exclusion act. As the four Chinese in question have departed to parts unknown, the evidence of the government on this point was entirely circumstantial. It was shown, however, that Thibault had been paid several times as much as he would have cost to take the Chinese from the Soo to St. Ignace by rail, and that he had paid \$5 to have them taken from St. Ignace to Mackinaw City, while they could have gone across on the ferry for \$2. Lee Hock King further testified that one of the four was his brother and an alien under the exclusion act.

Notwithstanding that he had an apparently open and shut case against him, Attorney McDonald made one of the most eloquent arguments in behalf of his client that has been made before a jury in Marquette for several years. He devoted his attention largely to the impeachment of the witnesses who testified for the government, arguing that they had an interest in the case or had been promised immunity themselves for testifying against Wagner. In closing he mailed down the point that it had not been shown that the men carried in Thibault's boat were persons prohibited under the exclusion act.

Wagner received the verdict of the jury removed. The maximum penalty for the crime of which he has been convicted is imprisonment for one year and a fine of \$1,000, and the minimum penalty one day's imprisonment and a fine of \$1. Another indictment has been filed against Wagner, charging the same general offense, but in an entirely different instance.

COMES HERE TOMORROW.

Lieutenant Governor Kelley to Be in County Three Days.

The Mining Journal yesterday received a telegram from Lieutenant Governor Kelley, who is now in the midst of a two weeks campaign in the upper peninsula, furthering his candidacy for governor, stating that he will arrive in Marquette Sunday morning, and will be in the county until Tuesday morning. Mr. Kelley is accompanied by former Speaker of the House Whelan and former State Superintendent of Public Instruction Pattengill. He concludes his telegram with "having great trip." Early this week Mr. Kelley and his co-workers visited Delta and Menominee counties and the past few days they have been in Iron and Dickinson counties and adjoining territory. They visit the copper country after leaving Marquette county.

As announced, Mr. Kelley will be the speaker at the Fourth of July picnic, to be conducted by the German Aid society at the fair grounds. As far as is known this will be Mr. Kelley's only speaking date in Marquette county, but he will doubtless visit Ishpeming and Negaunee. Mr. Kelley has been meeting with a cordial reception in all the upper peninsula counties, regardless of the allegiance in the present fight of those who have helped receive him. Everybody who has greeted the genial lieutenant governor has assured him that the upper peninsula is glad to see him on any and all occasions.

Feed your children on Vandenberg's Special Milk, the most perfect infant food in the market. (6-30-10)

You would like Michigan game if you were here. (7-1-24)

THREE BALL GAMES.

Ishpeming to Play Here This Afternoon, Sunday and Monday.

Beginning this afternoon at 3:30 until after the Fourth there will be enough good baseball at the fair grounds to satisfy the most ardent fans. Ishpeming will oppose the Marquette team this afternoon, Sunday afternoon and Monday afternoon. All of these will be regular league games and their result will have material effect in the standing of the two teams in the percentage column.

The game this afternoon will not be called until 3:30, as experience has shown that many cannot attend at an earlier hour. The game Sunday will be called at 2:30, but Monday's game will probably not be called before 3 o'clock. On Monday several special trains will be run to the fair grounds over the South Shore, the first of which will leave at 11 a. m. Scholtus, Frost and Clinton will each pitch one of the games, but the management has not decided in what order they will work. The batting averages of the members of the Marquette team to date are as follows:

	G.	A.B.	H.	Av.
Mack	12	47	13	.273
Hamilton	8	33	9	.273
Young	12	54	13	.241
Jacobs	4	13	3	.230
Weiser	10	42	9	.214
Riopelle	12	48	10	.208
Scholtus	9	30	5	.167
Clinton	3	12	2	.167
Harrison	9	30	5	.167
Eddy	6	19	3	.158
Magnan	2	7	1	.143
Frost	4	12	1	.083

OPEN AIR ENTERTAINMENT.

Flower Festival Next Week Promises to Be Beautiful Spectacle.

The flower festival to be held on the Jopling tennis court next week promises to be a delightful out-of-door entertainment. Seats have been built on the hill near the court, which will be used as the stage. These seats will accommodate 400 people and there will be plenty of standing room for others. The participants, under the direction of Mrs. W. J. Pettie and Miss Jessie Palmer, 150 in number, are now rehearsing their parts on the court.

Miss Mabel Russell will interpret the character Flora, the goddess of flowers, and will preside over the festivities, seated in a beautiful raised box of verdure. A quartet composed of Miss Ottman, Miss Smith, Mrs. Ormsbee and Miss Kraft will sing McDougal's "Spring Song" and Miss Ottman will sing a solo.

Children costumed to represent different flowers will execute many new and beautiful dances. Among the flowers that will be impersonated are snowdrops, Johnny jump ups, crocuses, violets, daffodils, daisies, sweet peas, roses and hollyhocks. There will also be black-eyed susans, chrysanthemums, poppies and autumn maple leaves. The festival will begin Tuesday evening.

ANALYSES MUCH THE SAME.

Water Off Black Rocks Appears No Better Than That Out from Intake.

Those interested in the water question will be much interested and considerably surprised to learn that a sample of water taken from near the Black Rocks, north of Presque Isle, has been analyzed by the state bacteriologist and pronounced "probably safe." The sample was found to contain a few colon bacilli, showing slight sewage or other similar contamination. Another sample taken at the same place the previous day was declared "safe."

Between the state bacteriologist and the state bacteriologist for analysis. Some of these were taken from the present city supply, others from the site of the mouth of the proposed extended intake and others north of Presque Isle. A comparison of the analyses shows a remarkable similarity of the water in the three locations. The water now in use seems to be much better than the analyses a few months ago showed, though not quite so pure as samples taken at the same time at the end of the proposed extension.

Between the quality of the water at the site of the proposed intake extension and that taken north of Presque Isle there seems to be absolutely no choice, as far as the analyses are concerned. Both classes of samples have been declared pure in the great majority of instances, and in both in one or more instances traces of pollution have been found.

These results bear out the claim of Engineer Johnson, of the firm of Herzig & Fuller, who has held that analyses are at best only presumptive tests and that a single analysis is not positive evidence of a contaminated water supply. He claims that dangerous impurities, by some inexplicable freak of nature, might at times be found in samples of water taken from any part of Lake Superior. He has further claimed that he did not believe the quality of the water north of Presque Isle was materially better than that at the mouth of the proposed intake extension, either being entirely satisfactory for general public use, and the analyses thus far received by the water board seem to bear out his contention.

LAKE SUPERIOR & ISHPERING RAILWAY—MUNISING RAILWAY—MARQUETTE & SOUTH-EASTERN RAILWAY.

Excursion rates July 2nd, 3rd, 4th, 1910. Tickets will be sold at all stations on the above dates at Saturday and Sunday excursion rates; good for return on July 2nd, 3rd and 4th, and first train of July 5th, 1910.

Notice—Change in leaving time of trains for Monday, July 4th—Train No. 10, Marquette to Munising and Princeton, leaves Marquette at 7 a. m.; train No. 3, Munising to Marquette and Princeton, leaves Munising 5 p. m.; train No. 12, Princeton to Marquette and Munising, leaves Princeton 5:15 p. m.; special trains, Marquette to Birch and Big Bay & Birch to Marquette, leaves Big Bay at 6:15 p. m., Birch 6:47 p. m.

Note—Tickets to Negaunee only will be sold on July 4th and 5th; good for return July 6th. (6-30-34)

Special leaves Marquette for Michigan the morning of the 4th at 7:30. Come and see us. (7-1-24)

Drink Vandenberg's pure sweet milk—it's always cool and refreshing. Delivered packed in ice. (6-30-10)

CHOCOLAY FURNACE HAS BEEN SOLD

Entire Holdings of Lake Superior Iron & Chemical Company Taken Over in Big Deal.

Negotiations in progress several months have been consummated, transferring the property of the Lake Superior Iron and Chemical Co., of which the late Joseph Berry was organizer and chief owner, to the newly organized Lake Superior Iron and Chemical Co., incorporated under the laws of New York, according to a Detroit dispatch. The deal has been put through by the Union Trust Co.

Stock in the new company is apportioned between \$10,000,000 common and \$1,625,000 preferred. An issue of \$6,500,000 in sinking fund bonds, bearing 6 per cent is authorized at this time. Of these stockholders in the old company receive \$1,500,000. Foreign markets will dispose of \$3,000,000 and \$2,000,000 go to New York. A further issue of bonds to the amount of \$5,500,000 will be made for the acquisition of new properties. The general offices of the new company will remain in Detroit.

The present properties of the company comprise iron furnaces and chemical plants at Ashland, Wis., Manistique, Newberry and Elk Rapids, Mich., iron furnaces at Boyne City and Chocolay, Mich., the Yale Iron Ore Mine at Hesper, Mich., in which \$700,000 tons of ore are blocked out; the Tyler Forks Iron Mine, Plummer, Wis., under process of development and 170,000 acres of timber land in northern Michigan and Wisconsin.

The new company has arranged also to take over 200,000 acres of hardwood timber land and railroad branches and spur tracks aggregating 35 miles. Inventory of the properties of the old company sets the valuation at \$8,558,903.

Will Remodel plants.

It is proposed to convert the chemical plants of the old company from the kiln method to the resort system, thereby increasing the product of wood alcohol from four gallons a cord to fifteen gallons a cord and the product of acetate of lime from total loss to eighty pounds a wood cord.

With remodelled plants it is estimated the annual output and its value will be: Chloroform pig iron, 198,000 tons, \$833,000; wood alcohol, 3,420,000 gallons, \$786,000; acetate of lime, 61,500,000 pounds, \$948,900; operation of Yale mine, \$75,000; estimated net earnings, deducting all allowance, \$1,383,420.

Several large financial interests are represented in the directorate of the new company, including Canadian interests through F. M. Harrison, New York, president of the United States Industrial Alcohol company, a Standard Oil subsidiary; the Dominion Iron & Steel Co., and the Canadian Bank of Commerce.

The board comprises F. M. Harrison, New York, president of United States Industrial Alcohol company; W. H. Matthews, Boyne City, Mich., general manager Boyne City Chemical company; John Joyce, Boston, director in Shawinigan Water & Power Co.; Thomas McDougall, Quebec, vice-president Shawinigan Water & Power Co. and director in the Quebec bank; Hon. William G. Sharp, of Elyria, O., member of United States House of Representatives; Frank W. Blair, Detroit president Union Trust company; H. H. Meville, Boston, vice-president Canadian Northern railway; George H. Russell, Detroit, president Peoples State bank; Hon. William A. Charlton, lumberman, Toronto, Ont.
