

DAILY MINING JOURNAL
A MORNING PAPER PUBLISHED BY
THE MINING JOURNAL CO. (LIMITED)
Entered daily except on Sundays. Contains
Associated Press dispatches and is espe-
cially devoted to the Upper Peninsula in-
terests.
SUBSCRIPTION RATES: \$5.00
Per year, by mail.....\$5.00
Per month, by carrier.....\$0.50
MARQUETTE, MICH., JULY 20, 1910.
Entered as mail matter of the second
class in the postoffice at Marquette, Mich.

Senator Burrows has said it.
And to think that "Gentleman Jim"
would throw down Gatch for a mere un-
known.
No dark horses need apply for the sen-
atorial nomination when the primaries
are over.

The old Pennsylvania and its em-
ployees are going to get along without a
strike. That's the best of good news.

If James J. Corbett's "unknown" pans
out the way of his "well known" he will
have no difficulty completing the job of
"busting" his followers.

Speaker Cannon evidently does not
agree in the view that the party has
done so much for him that it is time
for him to do the clever thing by the
party.

The lid's going on pretty much every-
thing these days. Why, it has even
been clapped on New York's "great white
way." Nothing is sacred to Mayor
Gaynor, it seems.

Can't be any doubt about it. Uncle
Joe is far and away the strongest speak-
er the Democratic congressional cam-
paign committee has managed to get on
the stump in the pending campaign.

If the Illinois legislature is to be
cleaned up the decent voter will have
to be everlastingly on the job the next
few months. Nearly every suspected
member of the present legislature is an
aggressive candidate to go back.

The Detroit newspapers, now that the
money is spent, have found that the
appropriation by the city of over \$30,000
for the Elks' convention was illegal.
Nothing can excel the behindhandedness
of the Detroit press. It's simply great
on locking the barn door after the horse
is gone.

President Taft thought that he had
the troublesome question, "what is
whisky," settled for the period of his
administration, at least, but here it bobs
up again by way of the Louisiana state
courts. The man who can settle the
question of what whisky is to the satis-
faction of both the revenue officials and
the distillers will earn a pension.

An Escanaba dispatch, bearing all the
evidences of authorship by the editor of
the Journal, makes the interesting ob-
servation that "Mr. Musselman has the
support of all the Protestant clergymen
of this city," and proceeds to enumerate
these gentlemen and the strength of
their congregations. Is it to be under-
stood, then, that the gubernatorial con-
test, as well as the school election, is to
be fought out on religious lines in Es-
canaba? Are Mr. Musselman's friends
in that balliwick going daft entirely?
Nothing could be in more dubious taste
than a reference of the nature of the one
here quoted, and nothing could have
more subtle possibilities for making
serious mischief.

The task of counting noses of the men
who will be the accredited delegates to
the Iowa Republican convention next
month has been finished, and it is now
stated that the Progressives will con-
trol that assemblage by 200 votes or
more, and that a platform thoroughly
in consonance with the ideals and ideas
of Senators Dolliver and Cummins will
be adopted. The platform may even be
made stiffer than it would have been
had not there been so much jubilation in
select "standpat" circles at the alleged
undoing of the Iowa Progressives at the
time Governor Carroll and Representative
Smith were renominated. The Progres-
sives now feel it necessary, to show
that they dominate the political senti-
ment of their state, to make a declaration
which shall set forth clearly and
emphatically what they stand for and
what the people of Iowa want. The plat-
form, it is said, will be largely framed
by Senators Dolliver and Cummins.

In an article treating of political con-
ditions in Wayne county, the Detroit
Journal says: "Thus far there has been
but little campaigning done here for
Amos Musselman, and his name is sel-
dom heard. The fight here seems to lie
entirely between Chas. S. Osborn and
Lieut. Gov. Kelley, and there are long
line-ups on both sides. If Mr. Mussel-
man puts up a campaign here he may
change the complexion of things, but the
time is getting short." Any candidate
for any state office, experience has
shown, must, to have a chance, get a

good sized vote in Wayne county, the
largest and most important county in
the state. The Journal says the fight
there is between Osborn and Kelley; so
it is in the state at large.

The council made a sensible disposal
of the question of licensing the proposed
street fair to use Baraga avenue. By
the resolution adopted the petitioners
are permitted to hold the street fair, if
they desire, but under restrictions that
will safeguard the interests of the coun-
ty fair and partly reimburse the city for
the special police protection that will be
necessary if the proposed carnival is
held and for repair of the streets, which
usually are more or less damaged by
street shows. The street fair will not
be licensed earlier than county fair
week, and if it comes here that week
will have to agree to give no perfor-
mances the afternoons of the county fair
dates. Furthermore, a fee of \$200 must
be paid for the privilege of using the
streets. These are reasonable terms,
considering that there was much opposi-
tion to the street carnival project, and
represent a compromise between those
who oppose and those who advocate it.
If the carnival is given on the basis of
the council's resolution well and good.
If those who want it do not choose to
accept the terms made, that's their
privilege, but they are reasonable and
fair, all things considered.

Too many preventable fatalities are
reported from the iron mines in the
western part of the upper peninsula.
The mines are not safeguarding their
men as carefully as the Marquette range
mines, for instance, are doing. At the
Newport company's Bonnie property on
the Gogebic range last week two men
were drowned like rats in a trap by be-
ing lowered in the cage into several feet
of water in the bottom of a shaft, which
had accumulated there because of trouble
with a pump. These men failed to get
off at the level where they were work-
ing, and had in mind riding to surface
again and returning to the proper level
on the next trip, they evidently not
knowing of the existence of the water
in the bottom of the shaft. It will be
readily seen that this accident plainly
belongs in the avoidable class. No one
who keeps track of mine fatalities in the
western part of the upper peninsula has
failed to observe too frequent other in-
stances of the same thing. Some of the
companies must be slack or mine inspec-
tion something is amiss. A stiff verdict
for damages in a case where neglect of prop-
er precautions contributed to death or
injury might aid in improving condi-
tions.

It is said that the report of the ma-
jority members of the Ballinger-Pin-
chot investigating committee has been
pretty well outlined, and that it will be
an endorsement of Secretary Ballinger
and his conduct of his office, and an im-
plied arraignment of the course of Gil-
ford Pinchot, former Secretary of the
Interior, Garfield, Glavis, and the other
officials and ex-officials who were in-
volved in the assault on Ballinger's al-
leged abuses of his trust. This report
will be signed by all the Republican
members of the committee but Representa-
tive Madison, of Kansas, who will pre-
sent a report of his own preparation, in
which it is expected that he will dis-
agree with the majority Republicans' con-
clusions as to Ballinger. There will be
a third report, from the Democrats,
also opposed in its findings to the ma-
jority Republican report. It was pre-
dicted even before the investigation was
closed that this would be the outcome,
and it is probable that the findings will
hear out the current reports of what
their contents will be. It is said that
the majority report will be made public
immediately following the meeting of
the committee in September, so that no
charge that the Republicans are trying
to evade the issue can lie. Pinchot and
Garfield, and the lesser lights who will
be criticised either directly or by infer-
ence in the majority report, are said to
be entirely indifferent as to what its con-
tents may be, holding that the public
has already passed judgment on the evi-
dence adduced and on the men under
fire, and that this judgment is not af-
fordable to Ballinger. On the other
hand Ballinger and his friends will point
to the majority report as his "vindica-
tion." If Ballinger would accept this
"vindication" as sufficient and, after a
decent interval, retire to private life,
there is no doubt that the situation
would be greatly relieved. And he may
do it.

IT'S YOUR KIDNEYS.
Don't Mistake the Cause of Your
Troubles.

Many people never suspect their kid-
neys. If suffering from a lame, weak or
aching back they think that it is only
a muscular weakness; when urinary
trouble sets in they think it will soon
correct itself. And so it is with all the
other symptoms of kidney disorders. That
is just where the danger lies. You must
cure these troubles or they may lead
to diabetes or Bright's disease. The
Don's Kidney Pills. It cures all ills which are caused
by weak or diseased kidneys. Residents
of this vicinity are constantly testifying
to permanent cures.

William Pillely, 812 River Ave., Iron
Mountain, Mich., says: "I was troubled
by acute pains in the small of my back
and did not know what caused them.
When a friend advised me to try Don's
Kidney Pills, I procured a box and they
soon relieved me. I gladly give Don's
Kidney Pills my endorsement in return
for the good they have done me."
For sale by all dealers. Price 50 cents.
Foster-Milburn Co., Buffalo, New York,
sole agents for the United States.
Remember the name—Don's—and
take no other.

WILL ABIDE BY PRIMARY.
In clear and concise letters addressed to
A. H. Vandenberg, chairman of the board
of governors of the Michigan Repub-
lican Primary Defense League, both Sen-
ator Burrows and Representative Town-
send have given wholly satisfactory evi-
dence of their acceptance of the letter
and spirit of the provision for a direct
vote on candidates for senator, and have
pledged themselves to respect the state
wide result. Their letters finally remove
their respective attitudes from the realm
of debate.

Addressing Mr. Vandenberg, Senator
Burrows sets forth his position in these
paragraphs:
I want no misunderstanding of my
attitude in the matter. I have sub-
mitted my candidacy to the quali-
fied Republican electors of Michigan
and whatever the verdict of such
electors may be on the sixth of Sep-
tember next, I shall abide by that
verdict.
If my candidacy is not approved
by a majority of such electors of
the whole state, as revealed by the
count of the entire vote in the state,
I shall not thereafter be a candidate
for the senate before the legislature.
Representative Townsend leaves no
room to doubt what his position is. He
says:

The Michigan primary law in refer-
ence to the nomination of United
States Senator is a statute and it
should be tried and followed with-
out evasion. No man should be
elected to the Michigan legislature
who is unwilling to abide by the
choice of a plurality of the votes of his
party as cast in the entire state at
the September primary, and vote for
the man so nominated by the people.
Personally, I shall respect the
choice of the people and if my op-
ponent receives a plurality of the
Republican votes cast on September
sixth, I shall so far as I am con-
cerned receive every Republican
vote of the legislature in January.

I shall not remain a candidate for
United States senator after Septem-
ber sixth, unless I shall receive a
plurality of the Republican votes
cast in the whole state at the pri-
maries.
In connection with the letters from
the candidates the Primary Defense
League made public the following com-

NOTICE TO CONTRACTORS
Sealed proposals for furnishing all labor
and materials for constructing a chemical
house and apparatus, a resident of the
Marquette, Mich., addressed to the Sec-
retary of the Board of Fire and Water
Commissioners and endorsed "Proposal for
Constructing a Chemical House and Ap-
paratus," will be received by the
Marquette, Mich., Board of Fire and Water
Commissioners at their office until 8 p. m., Tuesday,
August 2nd, 1910, in accordance with the
provisions of the Michigan Statutes in the of-
fice of the commissioners, from whom
copies may be obtained. The board re-
serves the right to reject any and all bids,
7-13-1w JOHN P. KERN, Sec'y.

LOWER STATE NOTES.
ANN ARBOR—Francis Lester Moran,
of Detroit, was instantly killed by a
Michigan Central train on what is known
as "Head Mo's crossing." Moran was
a freshman engineer at the University
of Michigan. Students who were cano-
ing near the crossing say they heard
several blasts of the engine's whistle,
and, drawing their craft ashore, ap-
proached the crossing when the train
crew was removing the body from the
engine. The crossing is one of the worst
in the city. It is at the end of a sharp
curve and high embankments on both
sides obstruct the view. The engineer
of the train says he saw the boy walk-
ing across the crossing and blew the whistle
several times, but Moran failed to heed
the danger signal, as he made no ef-
fort to get off the track. His body
was carried 150 feet on the pilot of the
engine.

HASTINGS—Carlton township has
just completed another mile of state re-
ward road, and another stretch of high-
way is now being surveyed for another
proposed mile and a half of good road.
Interest in road building has been great-
ly revived in Barry county, and other
townships are planning to build miles
of good road this summer. John T.
Loonard has offered the township of
Baltimore \$1,000 for the improvement of
the McOmber hill, five miles south of
Hastings on the Battle Creek road, this
hill being the steepest one in the coun-
ty. It is estimated that the cost of
improving this road, according to state
road specifications, will be \$4,000.

ST. CLAIR—Reaching over the side
of the wheel, Alfred Greening, a resident of
St. Louis, Mo., lost his balance and fell
into St. Clair river mid-way between the
Riverside hotel and the Canadian shore.
Greening was running his launch, the
Seminole, near the hotel when he re-
ceived a signal from a point near the
Canadian shore asking him to come over
and tow a disabled launch ashore. He
had gone about half way when he was
seen to pitch forward over the side of
his boat.

When the stomach fails to perform its
functions, the bowels become deranged,
the liver and the kidneys congested
causing numerous diseases. The stom-
ach and liver must be restored to a
healthy condition and Chamberlain's
Stomach and Liver Tablets can be
depended upon to do it. Easy to take and
most effective. Sold by The People's
Drug Store.

Mob-Coddling by Congressmen

Two hundred thousand dollars was to
be appropriated for use by the depart-
ment of justice in prosecuting offenders
against the Sherman Anti-Trust Law,
which is intended to protect men at
work, whether they be working with
hands, heads, or both.
Protect them from "combinations and
conspiracies in restraint of trade."
That means combinations of men who
conspire to prevent other men from
earning a living.
Two or three large oil companies might
"combine and conspire" to freeze out
a smaller dealer.
He has a right to conduct a business
and earn a living for his family and
should have protection from "combin-
ations" "conspire" to ruin him.
It also applies to "combinations" of
workmen who "conspire" to drive other
workmen from work.
The great "Labor Trust" has been
seized by certain men who now have
control.
They force every member to pay fees,
which aggregate over a hundred thou-
sand dollars a year.
They intend that no men who refuse
to pay fees to them shall work.
Whenever independent men or those
who form their own union seek to work
the big trust orders strikes on the jobs,
to force the independent men to work
for the big trust and pay fees to the
leaders.
One illustration will suffice:
On June 22nd, 1910, the N. Y. Build-
ing Trades Council (part of the Labor
Trust) declared a strike of all trades
on a twelve-story building at 35th and
6th avenues, because of the employment
of members of an electrical union, not
members of the trust. Work on the en-
tire building was stopped.
The secretary of the "trust" said that
general strikes would be ordered on
every building where the "obnoxious elec-
tricians" are employed.
These electricians belong to a union
formed under the arbitration plan some
time ago and kept their jobs. The em-
ployers afterward contracted, under
pressure, with the big trust and were
told to and did order the independent
union to join the Labor Trust.
The men refused because they did not like
the trust methods of coercion, bullying,
slugging and general violence.
This is only one illustration of hun-
dreds of cases where the trust "con-
spires in restraint of trade."
That is by combination they conspire
to and do stop work, interfere with in-
dustry, and prevent men from earning
a living unless they pay fees to the trust
leaders.
There is perhaps never one single day
in a year but what the Labor Trust is
engaged somewhere in America, in "re-
straining trade," preventing men from
working and stopping the flow of indus-
try. No trust in this country breaks the
law one-tenth as many times, or takes
the bread from men's mouths as fre-
quently as the Labor Trust.
No trust has ever "restrained" such
volumes of work or stopped the payment
of so much money.
No trust has maimed and killed so
many men or blown up and destroyed
so much property and yet the attorney
general has been held back from prose-
cutions for a more unexplained reason.
What does a workman care about the
prosecution of the oil trust when the
big labor trust keeps him out of work
every now and then.
Suppose you write President Taft and
ask why the attorney general does not

case goes to a carefully selected board
of mediation. When the facts are
brought out in friendly conference a
settlement is reached in a great ma-
jority of cases. If not, the facts on both
sides are given the local press and thus
the citizens of the community become
entirely conversant with the matter and
public opinion steps in.
It's hard for either side to stand for a
wrong, with the great weight of public
opinion opposed.
Up to the time of the mediation pro-
ceeding the men keep at work and the
flow of money through the community is
continued. If, thereafter, they feel they
can do better elsewhere, they have a
right to withdraw 5 per cent of the men
each day and go to a job better liked
but they make no objection to the em-
ployer putting new men in the places
they leave. It seldom comes to that.
The practical working of the plan
shows the industries go on and the em-
ployer holds his time-tried men to him
on any reasonable terms and they and
he are friends working together, where-
as if they settled by the club and force,
late would invariably follow, greatly to
the detriment of the industry and the
men personally.
The Trades and Workers' association is
growing rapidly among some of the best
workmen in America.
It marks a new epoch. Let workmen
write the Trades and Workers' associa-
tion of Battle Creek, Mich., for a consti-
tution and by-laws and study the new
peace movement.
Practically all real workers dislike to
have their negotiations conducted by
strikes, violence, hate and general dis-
turbance, but the noisy ones, have gained
control of the big Labor Trust and they
force the peaceful ones, and by such
methods have brought much odium on
the name of labor.
A better day is coming. A day of
peace and steady prosperity for the
workers, but it will be delayed by cow-
ardly congressmen if they mistakenly
vote to put more power in the hands of
the trust leaders and make them im-
mune from prosecution when they boy-
cott, slug, burn and dynamite, using
such means to hold workmen in their
power to extract monthly fees from
them and to force the rest of humanity
to "obey" them or take the consequences.
It is high time the people were pro-
tected by the strong arm of the law.
Reader if you want to retain your
freedom talk plainly to your congress-
men and legislators. Remember the
high priests of the Labor Trust are al-
ways busy hounding congressmen to
pass new laws to protect them in their
attacks on workmen and citizens.
Do your duty and compel your rep-
resentatives to protect you. If they
don't respond, see you are at the polls
and cast a vote for the man who has
first agreed to stand by the majority
of labor and being established
free from the fee-hunting tyranny of
the big Labor Trust.
One of these, the National Trades and
Workers' association with headquarters
at Battle Creek, Mich., recently offered
ex-President Roosevelt its presidency.
The association had't means enough
to pay a suitable salary for his great
ability and moral worth.
I became so strongly impressed with
the honesty of purpose and progressive
principles of this labor organization that
I considered it worth while offering him
\$100,000 a year if he would accept it.
This organization takes in many of
the best skilled workers in various
crafts. They are pledged to no strike,
no boycott, picketing, coercion or vio-
lence of any kind. They present their
cause peacefully and with dignity.
If settlements cannot be made, the

UNEQUALLED FOR BAD BLOOD.

Normal, healthy blood contains millions of tiny red corpuscles, which are the vitalizing and nourishing element of the circulation.

These corpuscles are constantly forming in healthy systems by the extraction of nutriment from food eaten, and this nutriment is then supplied through the circulation to every portion of the system.

Markets

WALL STREET STOCKS.

New York, July 19.—Paine, Webber & Co. have this to say of today's Wall Street market:

"The market today resembled greatly that of yesterday. Considerable irregularity was noted during the first few hours and fallings resulted from the fact that the market was

City Brevities

Today's weather: Fair; stationary temperature.

Yesterday's temperatures: Seven a. m., 66 degrees; noon, 82; 7 p. m., 49. Maximum, 82 degrees; minimum, 55.

Lorenzo Bree, of Hancock, was in the city on business yesterday.

Herman Stensrud left last evening on a business trip to Milwaukee.

Mrs. Minnie J. Reese and son, Everett, have gone to Detroit and Lexington to visit.

Mrs. Dan Sullivan, of Ishpeming, is in the city, visiting Mrs. J. Fitzhugh, West 21st street.

J. G. Anderson, of Duluth, is in the city visiting his brothers, J. F. and J. A. Anderson.

Mrs. W. E. Chilton, of Chicago, is visiting friends in the city. Mr. Chilton will join her here Sunday.

Dick Kelley and Miss Mary Donovan will be married at St. Peter's cathedral at 6 o'clock this morning.

Mr. and Mrs. Harry Fay are visiting their father, Joseph Fay, on their way back west after attending the Elks convention.

Mrs. N. C. Willard, of this city, recently underwent an operation for appendicitis at a Calumet hospital. She is reported on the road to recovery.

Chas. O. Hultquist and John Hultquist of Chicago are visiting friends and relatives in Marquette. They are stopping at the Hotel Marquette.

Bills against the county should be filed with the county clerk not later than Thursday, in order to be allowed at the meeting of the supervisors next Wednesday.

The Royal Neighbors will give a dance in the Fraternity Hall Wednesday night, July 27. Tickets will be fifty cents a couple and Trombly's full orchestra will furnish the music.

Mrs. Albert E. Herron left for Escanaba last evening, after visiting her parents here for the past two weeks. She was accompanied by Ruth Williams, who will visit with her for awhile.

A dancing party for only members of the council and their ladies will be conducted by the Knights of Columbus at the pavilion at Presque Isle Friday evening. Trombly's orchestra will furnish the music.

The temporary track around the bridge on the South Shore, near Even, which was burned Monday, could not be completed yesterday and the freight trains were run over the Northwestern and St. Paul railroads between Saxon and Sidway last evening. It is hoped that the temporary track can be finished today.

Several Shows in Sight—Whether Marquette has a street fair or not, there will be several other attractions of like nature within the next few weeks. First will be the Campbell Bros. circus, which comes Aug. 4 with the usual managerie, parade and ten performance afternoon and evening. Besides this, a man who operates a merry-go-round has asked permission to take in all the nickles that are forthcoming, and a medicine show is considering spending a week here next month.

An Unruly Prisoner—Chas. Raatigan, of Michigan, partook too freely of firewater in Marquette Monday and much against his will was put in the cooler. He was first put in the outer cell, where he tore the bed to kindling wood and broke two windows in an attempt to get out. When locked in the inner cell, he thumped and kicked until the iron bars resounded like a blacksmith shop. Yesterday he was taken before Justice Byrne and paid a fine and the damage he had done, all of which amounted to about \$20.

Annual Summer Concert—The annual Normal school summer concert will be given in the assembly room Thursday evening. Among those who will take part are Mrs. Alton True Roberts, Earl Killen, of the University of Michigan School of Music, and several members of the Saturday Music club. No admission will be charged and the public is invited to attend. The talks by Mrs. Abbey Shell Burnell on life in India, given at the Normal yesterday, proved highly entertaining and instructive and large audiences were in attendance.

Many Cities Using Oil—Experiments are being made in many nearby cities this summer in the use of oil for laying the dust on the streets. At the Canadian Soo, crude oil is to be used for this purpose. One street is to be resurfaced and after the top dressing is on the oil will be tried out for laying the dust. This method of sprinkling macadam streets with dust and oil has been used in many small towns and is said to be giving satisfaction. The Standard Oil company recently donated a large quantity of crude oil to the town board of Mackinac island to be used on the streets there the coming summer.

INSURE WITH PETER WHITE & CO.

"IN FAIRYLAND"

Lost Child Dream a Sweet Reality.

Somewhere along the pathway of the years we lost our childish fairyland but does there not ever linger within us, the hope of some day finding it again?

When you tread the enchanting shores of Mackinac Island, legend guided, from one rock wonder to another, or slip along dim forest trails into the solitudes of the infinite, you will know that your dear, lost child dream has come true at last and that fairyland is once more, for you a sweet reality.

Mackinac "Fairy Isle" is easily and comfortably accessible four times per week by D. & C. Coast Line to Mackinac.

Send two cent stamp for "In Fairyland" booklet.

MANY VIOLENT DEATHS.

Vital Statistics for June Show Unusual Number of Fatal Accidents.

The mortality report for the month of June, issued by the secretary of state shows that 2,997 deaths occurred in Michigan last month. This number corresponds to an annual death rate of 13.3 per 1,000 estimated population. Generally these reports show tuberculosis to be the chief destroyer, but last month 243 of the deaths reported were due to violence. Tuberculosis claimed 203, while cancer was third with 169. The report states that the increase in the number of deaths from violence was due to the large number of drownings. One death was reported from pellagra, a disease rarely found in this section of the country.

There were 4,719 births reported as having occurred in June. This corresponds to the annual birth rate of 21.0 per 1,000 estimated population. There was a decrease of 143 births last month over the number reported in May. The returns received in time for the compilation of the bulletin represent a reporting population of 2,501,833 persons, according to the last state census.

SOO CANAL PASSAGES.

List of Boats That Have Passed the Locks, Bound for Superior Ports.

Sault Ste. Marie, Mich., July 18.—The following boats have passed through the locks, bound for ports on Lake Superior: Houghton, Marilla, 9:40; Charles Eddy, 10; Klansham, Phipps, 10:30; Clyde, and Whaleback, Kennedy, 11; Carter, Sierra, midnight, Hubbard 1 a. m.; George Stephenson, Manila, 3; Samuel Morse, Choctaw, 7; Malleton, Jenny, 8:30; Cuddy, 10; Fairburn, Malta, 10:30; Chas. Guild Hall Notes

The young women's club entertained about forty guests at the hall last evening. Gymnastics, bowling, swimming and dancing occupied most of the evening. Light refreshments were served. A business meeting will be held Friday evening for election of officers and other business.

Arrangements have been made for a class in swimming at 10 o'clock Wednesday morning for children under eight whose parents are members of Guild Hall. The class will begin this morning. Miss Watson and Mr. Thayer will both assist in teaching, if there is a demand for such a class. No charge will be made for this class.

A picked team of "has beens" will defeat the Guild Hall baseball team at Longyear field Thursday afternoon between 5 and 6:30 o'clock. This is the first of a series of such victories on successive Thursday afternoons at the same hour. Applications for positions on the "has beens" team must be filed with A. E. Miller before 5 o'clock Thursday afternoon.

A second baseball game with the South Shore officers has been scheduled for Saturday afternoon at 2:30 on Longyear field. Uniforms have been ordered for the first team and it is hoped they will be ready for use in time for the games next week. The uniforms are of steel gray flannel, trimmed with Guild Hall colors.

The tennis tournament begins this morning. Drawings are posted both at Guild Hall and at the tennis court. Players are asked to play off their matches as soon as they can and report the results at the office in the hall or post them on the papers for that purpose at the court. Each contestant is supposed to furnish one ball and his own racket. Until the semi-finals the winner will be decided by the best two out of three sets. Late entries can be arranged for up to tonight if any members still desire to enter.

FANCY 1/2 HOSE.

Upper Peninsula

Friends Pay Cow-Owner's Fine—

Gus Ohman was arrested at Gladstone the other day on complaint of Mayor W. F. Hammel, for the alleged repeated offense of letting his cows trespass. He pleaded guilty and was fined \$5 and costs, but was determined to prove a martyr to the liberties of the Gladstone bovines and declared that he would serve a term in jail sooner than pay a cent. He was taken to Escanaba to serve fifteen days; but if he was willing to suffer for his convictions, his friends could not see it so, and they paid his fine and had him released from the sheriff's custody.

Two Lose Feet in Accidents—

While attempting to jump on the footboard of a logging train at Bryan, Mich., Richard Manders, an employee of the Escanaba Lumber company, fell beneath the wheels and his right foot was crushed to a pulp. The injured man was taken to the Menominee River hospital, where the injured member was amputated just above the ankle. Attempting to crawl under a train at the Soo line dock at Gladstone Guy Brunette, a delivery clerk, was caught and his left foot was so badly crushed that amputation was necessary. The unfortunate lad was employed at O'Connell's grocery store and drove to the dock with a bill of goods for a boat. Finding a train standing in the way he started to crawl under one of the cars. The train began to move and before he could escape his left foot was caught by one of the wheels and crushed.

Two Miners Drown in Shaft—

The Newport Mining company's Bonnie mine, a Gogebic iron range property, was the scene of a shocking double fatality when two men, Mile Rainjoke and Nikola Rozina, lost their lives by drowning. The accident occurred on the twenty-fourth level of K shaft. There had been some trouble with the pump during the day and there were several feet of water in the bottom of the shaft. The cage started from the surface with some twenty men who were going to their work for the night shift. Nearly all the men got off at the levels as the cage went down, but three men, the two who were drowned and Nick Groboz, did not get off at the eighth level where they were working, and so concluded that they would stay on the cage until it reached the bottom and then ride back again, they evidently not knowing of the water in the bottom. These three men were in the lower compartment of the cage, and when it was stopped with the upper compartment at the twenty-fourth level, this lower por-

tion, with the three men, was under the water. Groboz managed to climb out of the cage and get out of the water, but the other two were under water four or five minutes before the alarm was given and the cage hoisted. The men were still alive when they were brought to surface, but, though every effort was made to revive them, they were too far gone and soon passed away. The men were each aged about thirty and leave families in Europe.

Dead Before She Burned—

Although the remains of Mrs. Elizabeth Abbott, aged sixty-six years, a pioneer resident of Chippewa county, who was found dead in a shed in the rear of her residence at 818 Brown street, Sault Ste. Marie, by her daughter, Mrs. Thomas Small, who resided with her, were badly charred, it is not believed that she died when the shed demised, it is thought, was due to heart failure as a result of the excitement occasioned by her night dress catching fire. From the surrounding circumstances it is evident that feeling the need of a drink during the night she went to the shed where the water was kept in a refrigerator. Instead of taking a lighted lamp that stood on a table in a room through which she passed she lighted a match in order to see her way, which, in some manner, ignited her night clothing. Her ill health and the excitement of the occasion is believed to have produced a fainting spell or heart failure, as she made no outcry whatever, and her daughter, sleeping on a cot near her mother's bedroom door, knew nothing of the tragedy enacted until she awoke in the morning. The deceased had lived in Chippewa county for forty-six years. Her husband died twenty-seven years ago, also of heart failure, being found dead near his home by one of his children. The wife was a woman of more than ordinary intelligence and business capacity. When her husband died she was left with a family of small children and a burden of debt, but she went cheerfully to work and succeeded in giving her sons and daughters a good school education and paying off all indebtedness on her property, and at the time of her death was in comfortable circumstances and in a position to enjoy the fruits of her long years of toil. Four children survive, the eldest son having died about six months ago. They are Edward and Mrs. Thomas Small, residents of the Soo, and Albert and Mrs. Frank Smith of Pine Grove.

EXCURSION TO DULUTH

Via the South Shore. Fare and one-third for the round trip. Tickets on sale July 24 to 28. Return limit leaving Duluth until Aug. 2. 7-18-10.

AUTOMOBILE GIVEN AWAY

Asire and Palmer will give away absolutely FREE to the person or persons directed by the purchasers of the first 20 of their lots, sold within 30 days, a FLANDERS "20" FOUR PASSENGER CAR, equipped as advertised by the Pioneer Motor Company of Marquette, Michigan, which company has sold cars of this type to satisfied purchasers in the city. You see them on the streets every day.

CONDITIONS:

Prices of lots, same as heretofore, from \$200 up.

Terms of sale; \$100 down, balance as may be agreed.

Terms of gift: As soon as 20 lots are sold, if within 30 days, Asire & Palmer will give 24 hours notice to purchasers, by notice in the Mining Journal or Chronicle, of the time and place of meeting of the purchasers to decide what disposition shall be made of the Flanders "20" Four Passenger Car; and Asire & Palmer will give an order upon the Pioneer Motor Company for such car to be delivered to the purchasers of such lots jointly, or such one of their number as may be designated by vote of a majority of purchasers present in person or by proxy. In case more than one person unites in the purchase of a lot or lots such persons to be counted jointly as one purchaser for each such lot.

If 20 lots are not sold in 30 days Asire & Palmer may, at their option, give the Flanders "20" Four Passenger Car in same manner to or upon the order of purchasers of lots then sold; or may abandon the project; in which case purchasers, at their option, may revoke purchases and have refund of their money.

Dated, July 18th, 1910.

Mining News

CALUMET & HECLA.

The estimated copper contents of the mineral produced by Calumet & Hecla proper for the first half of 1910 is 37,035,997 pounds, a decrease of 3,656,903 pounds, or 9 per cent, from the same six months in 1909. It should not be understood that Calumet has actually produced 37,000,000 pounds of copper from its own mines for the half year just ended. Such is not the case. It has, on the other hand, smelted only 96 per cent of the mineral product of its stamp mills, preferring on the present low price of copper to put into accumulation one-seventh of its product. This in effect means a refined copper, curtailment of 14 per cent. It is apparent, therefore, that Calumet actually put on the market during the past six months but 32,000,000 pounds of copper on which we figure the company derived a net profit of \$1,600,000, or \$16 per share against \$15 paid in dividends. In January Calumet & Hecla sold at 68 1/2; within a week sales were made at 50. At this price, assuming dividends will continue at the rate of \$28 per annum, there is an investment return of something less than 6 per cent. The company's notes are selling on about a 5 per cent basis. The 5s of 1912 are quoted 99 1/2 @ 100 1/2, against a high price of 101 1/2. The 1919 maturity is quoted 100 @ 100 1/2, against a high of 103. These are the notes issued at the time the company acquired control of the Bigelow companies.

BUTTE'S CURTAILMENT.

Notwithstanding all the denials that have been made and which still are emanating from the general offices of the larger producing companies, and curtailment policy is being observed at all of the Acacanda Copper Mining company, which now embraces all of the Amalgamated and subsidiary companies and the recently acquired Clarke properties, and whether this is merely to allow the smelters to catch up remains to be seen. At all of the mines a large number of men have been laid off and there is hardly a mine in the camp, outside of the independent operators, such as the Butte-Balaklava, Tuohime and East Butte, which is being operated more than five days a week. It is estimated that at the present time there are not more than 4,000 men at work in the

mines of the big companies, and it is hinted in some quarters that unless there is a change for the better in the copper metal situation in the near future, production in the Butte camp will be further restricted.

NOTES OF COPPER NEWS.

A cross section is now being made at the Mayflower from the eastern sandstone west by two diamond drills and a distance of 2,000 feet horizontally has now been reached, without any results of importance.

The west crosscut from the fifteenth level of the No. 2 shaft of Franklin has connected with the No. 3 shaft. At the bottom of the No. 3 shaft a promising looking lode had been cut showing eight feet of commercial copper.

Almeek's diamond drill operating in the crosscut between shafts three and four has penetrated the Kearsarge lode which the shafts will command. The lode is thirteen feet wide and shows excellent mineral value.

There is declared to be no foundation for rumors that Lake is looking poorly at the bottom. The drifts both ways at the sixth level are at the moment breasted in rather indifferent ground, but this situation is no different than is at one time or another found at other points in this and other mines at all stages of development. At the fifth level the south drift is in ground quite as rich as any at present showing in the newer cuts.

The new stamp mill now under course of erection, to be owned jointly by the Winona and King Philip companies, will be completed Dec. 31, and as a result of the latest improvements in stamp mill construction, the management expects to be able to effect a saving of at least two pounds of copper per ton of rock, as compared with the treatment of the rock at the Adventure mill.

One of the new directors of the Lake Copper company says: "No attention will be paid to the market for Lake shares, but if we succeed under intelligent mine management in making a big producer, the market for the shares will take care of itself. We have about \$175,000 of cash in the treasury and over 10,000 shares of stock and this should more than meet our development requirements."

The New York Evening Post says: "All that Wall street knows about the copper business it learns in the stock market, and its knowledge, therefore,

must be imperfect; but its opinion is that the copper situation has been badly handled. It assumes that the copper situation has been handled as Amalgamated stock has been handled, and if that is true, the lode is being carried by the responsible persons. There has been much conjecture as to their identity. The younger element, with no surplus of stock-market experience, was for a long time thought to be responsible for the handling of Amalgamated, but opinion recently has been veering to another and more aggressive personality."

HOW'S THIS?

We offer one hundred dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

Take Hall's Family Pills for constipation.

Ishpeming

CHARLES SHAFFER DIED YESTERDAY

Wellknown Citizen of Ishpeming Succumbed After Lingering Illness.

Charles Shaffer, one of Ishpeming's oldest residents, passed away yesterday morning at 8:30 o'clock, after an illness extending over a period of eighteen months. For more than a month past the deceased had gradually lost strength, and he had been unconscious for over two days.

There are only three men now living in the city who located here before Mr. Shaffer did, he having arrived prior to 1880. He was born in Germany and when he was a boy his parents came to this country, locating at Wyandot, Mich., where the family remained until they moved to Ishpeming.

The deceased was a son of the late Jacob White, who conducted the first boarding house in Ishpeming. It was located on Lake Superior ground, not far from the Oliver company's office, and was moved from there to South Main street. Mr. Shaffer was one of the early employes of the Lake Superior Iron company, he having driven the first team of horses that was brought to the town. The horses were brought in by the Lake Superior company and were used in hauling the ore in the old-fashioned two wheel cars from the pits to the dumps.

Mr. Shaffer also helped to grade the Marquette, Houghton & Ontonagon railway, when it was being extended from Marquette to Ishpeming, and he was one of the first engineers on the system. When the Lake Superior company bought its first locomotive, Mr. Shaffer was the engineer, and he held that position for several years, later entering the mechanical department. He was also one of the first steam shovel operators on the Marquette range. He was regarded as one of the most competent all round mechanics and engineers that ever worked for the Lake Superior company and during the forty-three years that he was in its employ he helped to install a large number of engines and other machinery at its mines. After leaving the Oliver company Mr. Shaffer entered the employ of the Cleveland-Cliffs Iron company as engineer at the Brownstone engine house, where he remained until a year ago last March when he was obliged to retire on account of his failing health.

Had the deceased lived until next September he would have celebrated the sixty-seventh anniversary of his birth. He was married about forty years ago to

Miss Ellen Slattery, who, with six sons and two daughters, survive him. The sons and daughters are William, Elizabeth, John, James, Arthur, Bernard, Agnes and Frank Schaffer. All but James, who lives in Milwaukee, reside here. There are four sisters and one brother living. The sisters are Mesdames William Murray, wife of Captain Murray, at one time in charge of operations at the Barrum mine, and Mrs. Mary Bartley, both living in Canyon City, Colo., and Mrs. J. F. VanBroeklin and Mrs. Ellen Uren of this city. The brother is Jacob White of Peshigo, Wis. The funeral will probably be held tomorrow morning from St. John's church.

IN LIVELY CONTEST.

Former Ishpeming Man Candidate for School Trustee at Virginia, Minn.

One of the liveliest elections that has ever taken place on the Mesabe range occurred at Virginia Monday, when four candidates were in the race for school trustees. W. B. Shaver, a former well known contractor of this city, who now conducts a big business on the Mesabe, was a candidate, and he and W. H. Eaton were defeated by J. H. Fleming and R. J. McGhee. A total of 1929 votes were cast. Mr. Shaver received 731, Eaton 765, Fleming 1,136 and McGhee 1,119. Fleming and McGhee had a two weeks start on Shaver and Eaton, and it is said to have been due to this fact that they received such large majorities. The latter did not enter the race until the night before the election.

OLD COMPANY LOST.

New Concern Granted Franchise For Street Railway at Ironwood.

The special election held Monday at Ironwood for the purpose of granting a new corporation franchise for the operation of street railway and lighting plants in the city resulted in a landslide for the new concern. The vote in favor of the proposition was 805, and only thirty-five voted against it. The company at present operating the street railway, electric light and water plants was organized by Ed Nelson, a former Ishpeming business man, who is still in control of the company.

Unusual interest was taken in the election and practically every taxpayer in the city voted. The parties securing the franchise were Albert D. Johnson, Lawrence D. Sullivan, Arthur E. Appleby and Manuel M. Reid. The new concern will be given until July 1, 1911, to erect and put its plants in operation. It is expected that the fight between the old company and the new concern, which started when the latter applied for franchises, will be a long drawn out affair.

Teething children have more or less diarrhoea, which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Sold by The People's Drug Store.

CLANCY REMEMBERED.

Ishpeming Postmaster Receives Token from Oliver Iron Mining Company.

James Clancy, who resigned the position of master mechanic of the Oliver Iron company's Marquette range properties a few months ago, when he received the appointment of postmaster of Ishpeming, is the recipient of a handsome silver service, the gift of the Oliver Iron Mining company. The token came as a surprise to Mr. Clancy. With it was a letter from W. J. Oleott, the president, written in behalf of the company, in recognition of the services rendered by Mr. Clancy during the long period of years that he was in the company's employ. The silver service is composed of five pieces of colonial design. On each piece is engraved the name of the company, the year that Mr. Clancy entered its employ, and the year in which he retired. He began work for the company in 1876 and retired early in 1910, having remained with the company the entire thirty-four years.

BALL PLAYERS' AVERAGES.

Several members of the Ishpeming baseball team raised their batting average considerably in last Sunday's game against Crystal Falls, when the team scored twelve hits. Larson is still in the lead, with Dixon second, the latter having jumped from down near the bottom of the list. Klebs also took a step upward and is now in fourth place. Laxstrom holding third position. The team's average is .221. The individual averages are as follows:

Larson	.59	16	275
Dixon	.44	12	272
Laxstrom	.39	17	244
Klebs	.37	16	228
Bourke	.32	15	208
St. John	.30	8	200
Whitman	.29	11	186

D. T. Morgan & Co's Letter. Today's New York market was a repetition of that of yesterday, except that the volume of trading was still smaller. It was very dull and weak until the last few minutes, when a spurt occurred which carried the leaders to the highest point for the day and above yesterday's close. The market is almost entirely professional, and fluctuations are confined within narrow limits.

The New York list opened off and was very dull until the last hour of trading, when considerable activity took place and prices advanced from one to two points from the morning quotations. Amalgamated was strong and strong tips are out to buy it. There is also talk of a favorable announcement bearing on freight rate advances. Lake was strong in Boston. Offerings between 31 and 32 were readily absorbed and it looks as if the liquidation was over. The better class of cubs were dull and unchanged.

Ishpeming

ISHPEMING IN BRIEF.

Forest fires have taken a fresh start in the woods some miles south of the city.

"Up and Down Broadway," a musical comedy that is to be produced at Marquette under the direction of Donald MacDonald, will be repeated at the Ishpeming theater on Saturday evening, the 30th.

James Columbus was brought down from the American mine yesterday with his right leg fractured below the knee. The fracture was reduced at the Ishpeming hospital, where Columbus will be a patient for a few weeks.

C. J. Byrns, who is a member of the Newberry asylum board, has secured a position as attendant at the institution for William Demmett of this city. Mr. Demmett has gone to Newberry and will begin work at once. Mr. Byrns went down yesterday to attend a meeting of the board.

The Gas Men's baseball team defeated the Ishpeming Business Men's nine yesterday afternoon at the Union Park grounds by a score of 10 to 1. The battery for the former was McDougal and Blight, and for the latter Schott and Skoglund.

Mrs. Bert Sheridan of Topeka, Kan., and Miss Elizabeth Hutchinson of Senanton, Kan., are in the city visiting the family of Captain William Trebilcock, of West Superior street.

Preparations are being made for the laying of a concrete walk in front of the Jones, Nelson and Mortley blocks, on Canada street.

San Fazackerley, a traveling doctor, will be in Ishpeming three weeks, commencing next Monday, and will give free lectures and entertainments each evening on the Cleveland-Cliffs Iron company's vacant lots on North Third street. He carries a company of vaudeville performers and moving pictures and illustrated songs are also given. The Ishpeming band has been engaged to assist with the program.

Miss Hildred Fransen and Clyde E. Ford, well known young people of this city, left for Sault Ste. Marie on the early train yesterday and were married there soon after their arrival. Mr. Ford is in the employ of the Duluth, South Shore & Atlantic Railway company as a telegraph operator. After spending a few days at the Soo and other points they will return to Ishpeming, which will be their future home.

At the caucus of the Republican voters of the Fourth ward held Monday evening, Peter Finnegan was nominated as the candidate for alderman to succeed the late Oscar Forsberg. Mr. Finnegan served on the council for two terms prior to about a year ago last spring, when he declined the nomination. The election will be held next Monday.

The funeral of the late Gilbert Vickery, who died Monday evening, will be held tomorrow afternoon. The cortege will leave the family home at the Salsbury at 1:30 o'clock and the services will be held thirty minutes later at the First Methodist Episcopal church, and will be conducted by Rev. L. C. Finch, pastor of the Salisbury Methodist church. Amusee lodge, Independent Order of Odd Fellows, will have charge of the obsequies, and the members of that society, also the members of Zenith lodge, Knights of Pythias, will attend in a body.

The A. W. Myers Mercantile company's property, corner Division and Pine streets, is available for the proposed federal building. The building on the corner lot was used as the first postoffice and drug store in the present business section, it having been moved down from the hill near the Oliver Iron Mining company's office.

Bargains in Millinery. All trimmed hats and other goods to be sold out at once, at greatly reduced prices. Untrimmed shapes, ten to twenty-five cents. (7-12-1w) MISS O'LEARY.

Negaunee Department

PAVEMENT BIDS ARE CALLED FOR

Contractors Asked to File Their Proposals by Saturday of Next Week.

The plans and specifications for the proposed cross-tied block pavement on Iron and Gold streets and Pioneer avenue were received Monday from H. W. Fesling of Houghton, the consulting engineer, and can now be seen at the city recorder's office.

The board of public works has called for proposals for the work. The specifications call for paving Iron street from the Breitung House to Cyr street, Gold street from Iron to the South Shore railway tracks, and Pioneer avenue from the new hose house to Main street. Bids will be opened by the board of public works Saturday, the 30th, at 2 p. m.

The specifications call for the laying of approximately 10,250 square yards of pavement. The bidders must send with their proposals a certified check on a solvent bank for at least 5 per cent of the total amount of the bid. The board reserves the right to accept or reject any or all bids and to let the contract to other than the lowest bidder, should it be to the interest of the city to do so.

The bidders will be instructed to submit proposals on cross-tied blocks, three inches thick, also on blocks of three and one-half inches. Under the terms of the contract the successful bidder will have to remove all of the dressing necessary from the surface of the streets to be paved. It is estimated that it will be necessary to dig out approximately 4,200 yards of dirt, average depth of about nine inches. At several points where the grade is high it will be necessary to strip the surface twelve inches. In the event the contractors have to haul the dirt more than 1,000 feet from the point of operation, the city will allow two cents per cubic yard for each yard hauled beyond that distance. The board has already secured places near by to dump practically all of the dirt that will be removed.

If one of the proposals submitted is accepted, the members of the board expect that the successful bidder will begin work in ten days or two weeks after the contract is signed. The specifications indicate what telephone and electric light poles are to be removed. The Bell company will have a greater number of changes to make than either the city or the operators of the street railway system.

The Marquette County Gas & Electric company will be asked to immediately extend the gas service mains to all of the buildings on the streets not now provided with them so that it will not be necessary to tear up the pavement after it is once laid.

Cook with gas, it is more economical, quicker and cleaner than any other fuel. (6-14-1f)

DEATH OF ROSS HANSEN.

Diamond Drill Foreman at Breitung Mines Victim of Typhoid Pneumonia.

Ross Hansen, who was taken down about three weeks ago with typhoid pneumonia, died yesterday morning at 10 o'clock. The announcement of his demise caused sorrow among his friends here and at Ishpeming.

The deceased was a native of Denmark, where he was born April 3, 1868. One year later he came to America with his parents, the family locating at Ishpeming, where they have resided ever since. Their home is on the county line, almost midway between the two cities.

Mr. Hansen moved to Negaunee about the time the Breitung estate resumed operations at its properties here, to take charge of the diamond drills. He was an exceptionally capable drill man. He was married to an Ishpeming girl, who, with four children, survive him. The youngest child was born a week ago last Monday.

The deceased held membership in Iron Mountain lodge of Odd Fellows, of this city, the Negaunee Elks and Scandinavian fraternal societies and the Ishpeming branch of the Danish Brotherhood. The funeral arrangements will be completed today.

FATALITY AT MARY CHARLOTTE.

Young Finnish Miner Killed Monday Night by Fall of Ground.

John Lampi, a miner employed at the Mary Charlotte mine, was instantly killed by a fall of ground Monday night about 8 o'clock. His partner, Tom Thompson, who was slightly injured, had a close call, as some of the dirt that covered Lampi struck him. It took the workmen about an hour and a half to recover the body.

Lampi was wellknown to the Finnish people of Negaunee, as he had lived here many years. His parents and other members of the family live on a farm in the southern part of the city. The deceased was about twenty-two years of age. He boarded with a family at the Blue Mine location.

Corner William Prin came over from Ishpeming yesterday morning and impaled a jury. After viewing the remains, it was decided to hold an inquest later.

HAVE SECURED NEW MEN.

Six Musicians Have Taken Places in Negaunee City Band.

The five Italian members of the Negaunee City band, who recently resigned to take places in the new Italian band, have been replaced by new men, some of whom were former members. They are August Allen, solo clarinet; Thomas Goldsworthy, bass; Frank Prouse, alto; Fred Paltanen, solo trombone; Arthur Johnson, cornet, and J. Williams, saxophone. Both Mr. Allen and Mr. Prouse played with the band before, and Mr. Goldsworthy has recently played with the Ishpeming band. Mr. Paltanen has been with the Light Infantry band of this city. Mr. Johnson, who is now living at Ishpeming, formerly played in a band at Escanaba. Mr. Williams was a former member of the Marquette band, and is now residing at Ishpeming.

The English Oak lodge, Sons of St. George, has engaged the band to accompany it to Iron Mountain on the Sons' excursion next Saturday, leaving here at 7:25 a. m. on the South Shore line.

Next Sunday night four members of the band will leave for Duluth and the Mesaba range with the Ishpeming Finnish band. They are Ernest Hawke, the leader, who plays a cornet; Jacob Salo, clarinet; Joseph Ikkela, cornet, and August Allen, clarinet. The band will be away about a week or ten days and will give several concerts, including one at Eveleth, where the National Finnish Brothers' Temperance association is to hold its annual reunion the latter part of next week. It is expected that there will be a band contest for Finnish bands, and if so the Ishpeming organization will enter. Including the four Negaunee men, the band will have thirty musicians on the trip.

SIMPSON TO PLAY HERE.

Gust Simpson, who played in the field for the Negaunee team Saturday and Sunday, will likely finish up the season here. Simpson played good ball both days. The management was glad to get him, as there has not been a regular player in right field since the season opened. McKale, who has been filling the position part of the time, will be retained as an extra catcher. Joe Lafave, who also filled the place in a few games, has been released, and Jim Roberts has quit the team. Loell, who was on the first sack in both games Sunday, came to the city unexpectedly and the management decided to give him a trial. Roberts thereupon announced that he was through with the team. Manager Thoren stated yesterday that he will have another first baseman here by next Sunday, when the team plays at Marquette.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the Board of Public Works of the City of Negaunee, Mich., up to two o'clock p. m. of July 30th, 1910, and then publicly opened for the improvement of a portion of Iron and Gold streets and Pioneer avenue as per plans and specifications now on file in the office of the Superintendent of Public Works and of the Engineer, H. W. Fesling, Houghton, Mich.

The work consisting of the laying of approximately 10,250 square yards of pavement.

Bids must be indorsed "Proposal for Iron street improvement, etc." and be accompanied by a certified check on a solvent bank for at least five (5) per cent total amount of bid made payable to the City Treasurer.

The right to accept any or to reject any and all bids being hereby reserved and to let the contract to other than the lowest bidder should it be to the best interests of the City to do so.

W. H. MITCHELL, City Recorder. Dated, Negaunee, Mich., July 20, 1910. (7-20-10t)

Gas is in every way more satisfactory for cooking than any other fuel. Save money by putting in a gas stove. (6-14-1f)

LOCAL LACONICS.

A number of French people of Negaunee have gone to St. Anne de Beaupre, Canada, during the past few weeks.

The Bedford stone columns on either side of the main entrance to the Negaunee National bank's new block were put in position yesterday.

The crew employed on the road east of the city is making good headway, as no time to speak of has been lost since the work was started nearly two months ago.

A special meeting of the Negaunee Scandinavian society will be held this evening at 7:30 o'clock to make arrangements for attending the funeral of the late Ross Hansen.

The concrete work at the new union passenger station will be completed today and the brick walls will probably be started today or tomorrow. The first consignment of brick arrived Monday.

Orr Schurtz and his family will leave Thursday for Detroit and other points in the lower peninsula. They will be absent about a month. They will go by boat from Marquette to Detroit.

Kenneth Pellow and his sister, Marion, and five other young people, have gone to Duluth, where they will take a boat on a trip down the lakes, stopping off at Buffalo, Cleveland, Detroit and other points.

M. Koivisto, who conducts a general mercantile business at Palmer, has fitted up an ice cream parlor and confectionery department in his store building. Mr. Koivisto has made a number of improvements at the store since he bought out D. D. Smith and he is doing a good business.

Recent births in the city are a daughter to Mr. and Mrs. Elias Seippola, Lombard street, a son to Mr. and Mrs. Joseph Jettas, Cambria location; a son to W. B. Kebern and wife, Gold street, and a son to Mr. and Mrs. John Rolles, Clark street.

Closing out Millinery, starting Thursday, July 14. All goods at a big sacrifice. Stock must be sold within two weeks. Untrimmed shapes, ten to twenty-five cents. (7-12-1w) MISS O'LEARY.

PASSING OF COUNTRY DOCTOR.

While all authorities admit that there are too many doctors in America today and that the medical schools are turning them out in far greater numbers than will be needed for generations to come, the closing of the smaller medical colleges, as planned by the Carnegie Foundation, will have a serious effect upon the country at large. And for this reason: The crossroads doctor is already passing.

The heads of the big medical colleges receive letters almost every day from small country towns saying that their village doctor is dead and that there is a good opening for a young physician. The graduates of the big medical schools who have spent seven or eight years in fitting themselves for their life work are unwilling to settle down in small communities. They want to begin their practice in the cities where there is an opportunity to make a good income.

Besides most of them have specialized along certain lines. They do not want to engage in a general practice, especially in a small town, where even with the hardest work it is impossible to make more than \$3,000 to \$4,000 a year. Accordingly the country towns are supplied today by the smaller medical colleges, which students can enter direct from high school. The students in these colleges are usually without much money and they return to their country districts to practice. So when many of these smaller medical schools are wiped out of existence—as they will be within a comparatively short time—the country will be confronted with a real problem—the problem of the village doctor.

—New York World.

Have you a gas stove? If not, why not order one. You will save time and money. (6-14-1f)

The World's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. Invaluable for children and adults. Sold by The People's Drug Store.

Remember this sale only comes once and it means a great deal to you.

Sale starts at 9 o'clock Saturday morning. Nothing will be sold at 1-4 off until that time.

There will be a great many bargains, you should not miss one. Sale lasts one week.

EXHIBITION OF DE LUXE BOOKS

Some of the Highest Products of the Bookmaker's Art to Be Shown at the Public Library This Afternoon by Representatives of the Grolier Society.

Several of the Volumes Valued at Hundreds of Dollars, Being Superbly Bound and Illustrated, Making the Finest Collection Ever Shown in Marquette.

Lovers of art for art's sake and all who are lovers of good books will be much interested in an exhibition of de luxe volumes from the press of the Grolier society, London, England, which will be shown at the Peter White public library from 2 to 5 o'clock this afternoon, and will be free to the public. The collection contains books worth as much as \$1,000 a volume and is by far the finest collection of fine books ever shown in this city. The exhibit is in charge of Captain Anson Himes, of London, and John T. Lovett, representing the Irving Squires company, financial agents for the Grolier company in this country. Captain Himes will give a talk at the library from 3 to 4 o'clock on the making of a book.

The Groliers stand without a peer in the art of bookmaking in England and Europe. For their finer works, they manufacture their own paper, treat their own leather and the stamp of the firm has come to be a guarantee of integrity and full value of workmanship. Several of the volumes to be shown here are fully as interesting from an artistic standpoint as are paintings from the brush of a great painter. The higher priced bindings are done in the best levant, hand-tooled and lavishly inlaid with gold. In some instances, the works are printed on parchment and the Groliers claim to have revived the lost art of compounding an ink which will take on parchment. The illustrations are hand-tinted photogravure reproductions of famous paintings, which have been obtained only at untold labor and great cost.

The Grolier Idea.

"It is the Grolier idea," says Captain Himes, "that the public has a right to know what it is buying in books just the same as in buying a watch. Under the system of buying expensive works from advance prospectuses, which is the usual custom in America, the purchaser is in danger of being grossly swindled, and the opportunity has been worked to the limit by unscrupulous publishers. The Grolier society offers no book for sale until it is able to show the buyer what he is getting. The purpose of traveling over the United States with this collection is to give the Grolier society the same prestige in America that they enjoy in Europe where a Grolier means to the booklover what a Stradivarius means to the violinist.

"This company has been in existence for more than 100 years and is engaged in the publication of all kinds of standard literature. The first editions of high class works are usually limited, sometimes to as few as ten copies, which are gotten up in the best manner known to the publisher's art, both as to workmanship and content. Subsequent editions are issued in great numbers and made less expensive, though none of the subject matter or illustrations are changed or abridged. At length an edition is published which is within reach of the masses. Expensive or moderately priced, the purchaser of a Grolier is

assured of the worth of his money." This collection of books is being shown in Marquette, not primarily for the purpose of selling any of them, but as a means of educating and instructing the public as to the difference between good and poor books. These works are just as much works of art as is a collection of original paintings and are well worth looking at for the reason alone. The company makes arrangements, if so desired, for sending out collections of these books annually for exhibition purposes.

"UP AND DOWN BROADWAY."

Rehearsals Progressing in Most Promising Manner—Surprise in Store.

Rehearsals for "Up and Down Broadway," the jolly comic opera which will be produced at the Marquette Opera House the 28th and 29th, are going on with tremendous enthusiasm, and from present indications the performances promise to be more brilliant ever than "The Talk of the Town," the hit of two years ago.

Donald MacDonald has surrounded himself with a company that couldn't be matched on the professional stage. The song hits are from such operas as "The Arcadians," "Havana," "Our Miss Gibbs," "Tillie's Nightmare," "The Scarlet Plume," "The American Idea," "The Jolly Bachelors," and many more operas now playing in London and New York.

The list of soloists looks unusually promising and includes Miss Flora Retailie, who returned yesterday from Detroit especially to take part in the performance, Mrs. L. G. Kaufman, Miss Oltman, Miss Rushmore, Miss Watson, Miss Jessie Palmer, Miss Conklin, Mr. Fielding, Donald MacDonald and others. The production will be the society and theatrical event of the season.

LAST OF BANK CASES.

Federal Court Now Engaged in Trial of Leaper vs. Heubel Case.

The last of the Ironwood bank cases to be heard this term was disposed of yesterday, when Judge Denison directed a verdict in favor of the plaintiff in the case of Tillinghast, receiver, against F. H. Lesselyong. Several of these cases have been postponed until next term, but as most of the points have been decided in previous trials, they are likely to be settled out of court. In the case against E. D. Nelson, former president of the bank, a demurrer has been filed, which will be argued during the present term.

CAMPING SITES FOR SALE.

M. H. Foad wishes to notify parties that want good camping sites on the shore of Lake Superior where there is good fishing, good hunting and the best camping sites that are for sale on the shore of Lake Superior. Ten minutes walk from Buckroe station on the line of the Marquette & Southeastern railway, also a good road from the city that can be driven in two hours and can be made with a launch in two hours time. All of the above lots are well timbered and a beautiful pebble and brown stone beach. Any of the above lots that are not sold by Aug. 1 will be advanced in price.

VESSEL CAPACITY MORE THAN NEEDED

Ship Building on Great Lakes Has Increased Faster Than Growth of Commerce.

An increase in shipping from all of the docks on the great lakes was the record for the first three and one-half months of the present season of navigation, and new records were made at all ports. Facing this there are constant complaints coming from all quarters that owners of independent lines are experiencing great difficulty in securing cargoes, and many of them have tied up their vessels, temporarily at least.

A comparison of the present-day vessel capacity with that of some of the earlier days is interesting and will enlighten some who can see nothing but dull times in the present situation; also a comparison of the manner of loading vessels with those of the older days. In this comparison the statistical records of the American and Canadian canals at the Soo, compiled by L. S. Sablin, are of interest.

These records show the total freight movement, east and west, through canal in June last was 9,839,872 net tons. This represents a volume of freight in excess of the entire year's record for any season preceding 1892, when the total for the year was 11,214,333 net tons. It is more than 50 per cent greater than the total of 1888, which was 6,411,423 net tons.

Great Freighters Reduce Cargoes.

Today there are in commission on the lakes more than 100 steel freighters, each of which has a cargo capacity equal to or in excess of 10,000 net tons, and of these more than two dozen have a cargo capacity of from 12,000 to 14,000 tons. In other words, eighty vessels, each making eight trips, would move a volume of freight greater than the total for the entire season of 1888, when 522 smaller boats were in operation.

Records of cargo capacity show that the steamer John W. Gates, carrying 8,402 net tons, hit the high mark for 1909, while in 1909 the steamer E. V. Townsend set the record with 13,664 net tons, an increase of more than 50 per cent, and also held the record for greatest number of miles run, 44,443 miles.

Improved facilities for loading and unloading that have been placed in operation in the last five years have still further increased the supply of tonnage by reducing from three or four days to one day the time the big freighters spend at the docks.

Still another element to be considered is that the Pittsburg Steamship company is operating nearly 100 vessels, nearly all of large capacity, having combined tonnage almost equal to moving all the shipments of the United States Steel corporation, of which it is a subsidiary.

The difficulty independent owners are experiencing results from an excess of tonnage on the lakes for the needs of shippers. While the increase of the freight movement has averaged about 20 per cent a year, the construction of new boats has more than offset this growth not only in number of boats, but in their increased carrying capacity and higher speed.

It is estimated that one crew will destroy 700,000 insects every year.

CUBAN WAR ROUSED LOVE OF CAMP LIFE

Boys and Others Now Learning Self-Reliance and Sacrifice by Out-of-Door Vacations.

The Spanish-American war resulted in two things, thus far little noted, says a Marquette lover of outdoor life. It revealed the utter lack of knowledge of camping conditions among the men of the continent. Hundreds of young men are now in untimely graves because of the imperfect knowledge that prevailed among the national guard in the matter of arranging camps.

The second result was the great awakening of men and boys in the matter of camping. Boys were fired with the ambition to do as they had seen the soldiers do, and men were enthused with the idea that the youth of America should be taught how to set up and construct camps.

Boys' camps have come into great prominence. Many societies and organizations are making strenuous efforts to provide camps for boys of all classes and conditions. The poor boy, the working boy, the school boy and the rich man's son—each has his camp adapted to his purse and planned to meet his needs and tastes.

From the Atlantic to the Pacific, from the Gulf of Mexico to the Mackenzie river, nearly every city and town contributes its share to the mighty army of those who live in the open and revel in the joys of boating, swimming, fishing, hiking and amateur sports played for the love of the game.

The camping activity of North America originated with, and still centers in, the great cities of the continent. It is generally accepted that the first great boys' camp originated in New York city, and has continued for twenty years or more, and is now known as Camp Dudley, Philadelphia, Boston, Chicago, St. Louis, Denver, San Francisco, New Orleans, Buffalo and Cleveland have all made their contribution in developing plans for camps for boys and men.

Bank by Mail If You Wish

You need not always come to town to transact your business with us. If you have a check on this or any other bank in this vicinity, endorse it on the back, place in an envelope and address to This Bank. The mail will bring it to us and we will credit your account and mail you a receipt. We want your banking business—and we want to make it easy for you to transact it, in fact, we want to make ourselves useful to you in anything pertaining to finance.

Suits that sold up to \$15.00, now marked down to	9.50

Come in while stock is still well assorted. You'll be amazed at values offered you.

A. E. ARCHAMBEAU,

Everything that a Man or Boy Wears.

218 South Front Street. MARQUETTE, MICH.

"First aid to the injured," "life-saving corps," mainly helpfulness and patriotic efforts are on the schedule of nearly every boys' camp.

Prominent among the organizations that have made possible this great boon to boys is the Young Men's Christian association, under whose auspices New York's Camp Dudley arose. Nearly every association has its camp or camps, and many states have formed them, Pennsylvania, wherein dwell one-tenth of all the half million of members of the Young Men's Christian association of North America, has two well-organized camps for boys, one at either end of the Keystone state.

But this is only a part of the local movements, Sunday schools, church choirs, boys' brigades, boys' clubs, news-boys' organizations, boys from high schools, grammar schools, social settlements and independent parties have their camps—hundreds of them—until the hills, valleys, rivers, bays and seashores are thick with white tents and odorous with the smoke of many camp fires. Some commercial houses conduct overnight and week-end camps for their boys who are obliged to work.
