

EXPLOSION AT FORT IS DISASTROUS

Eleven Men of the Coast Artillery Meet Death and Half a Dozen Others Are Wounded as the Result of an Accident During Target Practice.

Big Gun's Breach Lock Blows Off as Crew Is Striving for a Record, and Only the Heroism of the Survivors Prevents a Second Appalling Fatality.

Fortress Monroe, Va., July 21.—Eleven men of the coast artillery are dead tonight as the result of the blowing out of the breach lock in one of the big guns while the fort was engaged in target practice this morning.

The death list would have been larger had it not been for the heroism both by the officers and men in the battery. The wounded forgot their hurts and aided the uninjured in stamping out the burning powder that threatened the sacks in which the charge for a second shot had been brought up.

Scene Is Indescribable. The gun was in charge of Captain James Frontie, who had with him Lieutenants George P. Hayes, Jr., and George L. Vandusen. Lieutenant Hayes had gone forward from the breach to examine the range wheel when the charge exploded.

Exploding Due to Gas. The explosion, it is believed, was caused by carbon monoxide, a highly inflammable gas which forms in the barrels of large guns and which is especially dangerous during rapid firing.

The theory is that the new charge of powder was hurried into the breach before the gases generated by the previous shot had time to dissipate.

Disaster in the Transvaal. Johannesburg, Transvaal, July 21.—Fifteen natives were killed and seventy-six native and thirteen white miners were injured as the result of a gelatine explosion today at the Sumner East Deep mine.

C. & N. W. FREIGHT TRAIN PLUNGES THROUGH A BRIDGE. St. Paul, July 21.—A Chicago & Northwestern engine and freight train plunged through a bridge spanning the Cotton river, three miles south of Sauborn, Minn., late this afternoon.

FIVE NEGROES SLAIN WHEN THEY ATTACK AN OFFICER. Elliot, Miss., July 21.—Five negroes were killed and two others were mortally wounded today when the seven men, taken into custody on a minor charge, advanced on the officer with farming implements.

GRAND RAPIDS WOMAN IS BURNED TO DEATH. Grand Rapids, Mich., July 21.—Trapped in bed with her week-old baby, Mrs. Grace Wilson was burned to death this afternoon when fire destroyed the old LeMay block.

COLORFUL MURDER DOOMED TO DIE THIS MORNING. Springfield, Ills., Friday, July 22.—Governor Deneen, upon the recommendation of the board of pardons, at 1:15 o'clock this morning refused to commute the sentence of Robert Martin, colored, who is sentenced to hang at 8 o'clock this morning for the murder of Floyd Harris at East St. Louis.

but Governor Deneen granted a reprieve until July 22. The attorney for Martin appeared before the board of pardons last Wednesday and argued the "unwritten law," maintaining that the case was one of manslaughter and that Harris had been intimate with Martin's wife.

RHODE ISLAND'S POPULATION IS FOUND TO BE 542,647.

Washington, July 21.—The census returns for the state of Rhode Island give a population of 542,647, an increase of 20.5 per cent, as compared with 450,100 in 1900. Providence has 224,826 people, an increase of 27.8 per cent, as compared with 175,597 in 1900.

Chicago, July 21.—The federal census will show the population of Chicago to be under the 2,200,000 mark, according to Wm. E. Hotchkiss, the local census supervisor. The school census announced yesterday, placing the population of Chicago at 2,100,000, is declared by Mr. Hotchkiss essentially correct.

POLICE ON TRAIL OF DR. CRIPPEN

They Believe Now He Is Headed for the Almost Forgotten Republic of Andorra.

Paris, July 21.—The police at Vernets les Bains, a little French watering place at the foot of the Pyrenees, are positive that Dr. Hawley H. Crippen, widely sought by the London police, was in their city last Saturday.

M. Sebille, who is directing the search in France for Dr. Crippen and his typist, Ethel Clara Leneve, who is supposed to have left London in his company, opposes the theory that the woman who killed herself at Bourges July 13 was Miss Leneve, saying that she did not resemble the London stenographer.

Paris, Friday July 22.—A special dispatch to the Matin from Vernets les Bains says that according to a telephonic message received there, a man answering the description of Dr. Crippen was seen at Puigreda, a town just across the frontier in Spain, Wednesday night.

FATHER, CONVICTED, DIED IN PRISON

Rag Picker in France Now Confesses to the Murder of the Five Briere Children. Tours, France, July 21.—A rag picker named Joseph today confessed to the assassination April 21, 1901, of five children of a farmer named Briere in the vicinity of Chartres.

Government of China Sides with United States. Peking, July 21.—China's reply to the announcement of the recently concluded Russo-Japanese convention was delivered at the legations of those two countries today.

Nicaragua's New Cabinet Is Hostile to Uncle Sam. Washington, July 21.—A new cabinet has been formed in Nicaragua, according to advices received here today from Consul Olivares, at Managua.

Hibernians Declare for the Study of Irish History. Portland, Ore., July 21.—The forty-seventh biennial convention of the Ancient Order of Hibernians went on record today as unanimously favoring the inclusion of compulsory course of Irish history in the curriculum of the parochial schools and colleges of the Catholic church.

Electricity to Supplant Steam on Bavaria's State Railroads. Munich, July 21.—The Bavarian diet today voted \$1,500,000 as the first installment of the funds to be used for the construction of water power works at Lake Walchen, where power for the complete electrification of the state railroads of Bavaria will be developed.

SUSPICION MARKS THE RAWN CASE

Whatever the Manner of the Death of the Monon Road's President, It Is Declared the Tragedy Occurred on the Eve of a Probable Great Scandal.

Decedent Involved, It Is Said, in Alleged Frauds by Which the Illinois Central Is Stated to Have Sustained Heavy Loss—Suicide Is the Police Theory.

Chicago, June 21.—Whether I. G. Rawn, president of the Monon road, was killed by a burglar in his home at Winnetka Wednesday, or whether, as stated by the Chicago police, he committed suicide, railroad men declared today that his death occurred on the eve of what may be one of the greatest scandals in railroad history.

The questions asked Rawn at the hearing July 7 in the Illinois Central repair cases all were planned, it is said, with intent to incriminate Rawn as responsible for the losses to the road. Rawn, it is declared, knew of the purpose of the counsel of the road, and had sought by every legal means to delay his examination.

Winnipeg, July 21.—Forest fires are near Rayney River, Ontario, 100 miles southeast of here, near the International boundary. Every available man tonight is fighting off forest fires to the north.

Trading in Corn Reaches Huge Proportions and Prices Go Up 1 3/4 to 2 3/8 Cents. Chicago, July 21.—Corn led the entire speculative trade on the exchange today. The transactions in that commodity were so voluminous that a movement over the fear that the dry weather might ruin the crop was the sole cause.

Horse Branding Opposed. Humans Societies Protest Plan to Tattoo Upper Lip of Army Animals. Washington, July 21.—The new plan of the army authorities to brand army horses with a tattoo mark inside the upper lip is to prove the center for a storm of protest from humane societies throughout the country.

Stock Market Declines. New York, July 21.—Until the reduction in the National Lead stock from 5 to 3 per cent per annum was announced, the stock market today was a humdrum affair.

Train Service to Start One Month From Today. San Francisco, July 21.—The Western Pacific railway will begin running passenger trains Aug. 22, according to an announcement made here today.

Nicaragua's New Cabinet Is Hostile to Uncle Sam. Washington, July 21.—A new cabinet has been formed in Nicaragua, according to advices received here today from Consul Olivares, at Managua.

Hibernians Declare for the Study of Irish History. Portland, Ore., July 21.—The forty-seventh biennial convention of the Ancient Order of Hibernians went on record today as unanimously favoring the inclusion of compulsory course of Irish history in the curriculum of the parochial schools and colleges of the Catholic church.

Electricity to Supplant Steam on Bavaria's State Railroads. Munich, July 21.—The Bavarian diet today voted \$1,500,000 as the first installment of the funds to be used for the construction of water power works at Lake Walchen, where power for the complete electrification of the state railroads of Bavaria will be developed.

Disaster in the Transvaal. Johannesburg, Transvaal, July 21.—Fifteen natives were killed and seventy-six native and thirteen white miners were injured as the result of a gelatine explosion today at the Sumner East Deep mine.

C. & N. W. FREIGHT TRAIN PLUNGES THROUGH A BRIDGE. St. Paul, July 21.—A Chicago & Northwestern engine and freight train plunged through a bridge spanning the Cotton river, three miles south of Sauborn, Minn., late this afternoon.

FIVE NEGROES SLAIN WHEN THEY ATTACK AN OFFICER. Elliot, Miss., July 21.—Five negroes were killed and two others were mortally wounded today when the seven men, taken into custody on a minor charge, advanced on the officer with farming implements.

GRAND RAPIDS WOMAN IS BURNED TO DEATH. Grand Rapids, Mich., July 21.—Trapped in bed with her week-old baby, Mrs. Grace Wilson was burned to death this afternoon when fire destroyed the old LeMay block.

COLORFUL MURDER DOOMED TO DIE THIS MORNING. Springfield, Ills., Friday, July 22.—Governor Deneen, upon the recommendation of the board of pardons, at 1:15 o'clock this morning refused to commute the sentence of Robert Martin, colored, who is sentenced to hang at 8 o'clock this morning for the murder of Floyd Harris at East St. Louis.

The Weather ONE TOWN DESTROYED; OTHERS IN DANGER

Wausau, Wis., July 21.—The losses in the forests in the region both to the west and to the east of here continue, there being no stemming of the flames which are sweeping a large portion of central Wisconsin, far and wide.

All Possibility of a Walkout on the Canadian Pacific System Is Removed When a Definite Agreement Is Reached—The Employes Are the Winners.

Montreal, July 21.—All possibility that the conductors and trainmen of the Canadian Pacific railway would strike was removed tonight when a definite agreement was reached between the company and the men.

Grand Trunk Strike. Montreal, July 21.—A proposition to arbitrate came to the Grand Trunk railway and the chairman of its striking trainmen and conductors today from W. L. MacKenzie King, minister of labor, coupled with the intimation that if both parties would accept the award to be binding, the government would defray the incidental expenses.

FEARED DRY WEATHER WILL RUIN THE CROP. Trading in Corn Reaches Huge Proportions and Prices Go Up 1 3/4 to 2 3/8 Cents.

Chicago, July 21.—Corn led the entire speculative trade on the exchange today. The transactions in that commodity were so voluminous that a movement over the fear that the dry weather might ruin the crop was the sole cause.

ENGLISH STRIKERS ACCEPT RAILROAD COMPANY'S TERMS. Newcastle, Eng., July 21.—The strike of the 12,000 employes of the North-eastern railway was settled this evening. The men accepted the terms of the company and work will be resumed at once.

GLASS BOTTLE BLOWERS DECIDE TO DEMAND HIGHER WAGES. Atlantic City, N. J., July 21.—Denis A. Hays, of Philadelphia, was elected president of the American Glass Bottle Blowers' association here today.

TRADE GETS FIFTH AVENUE. New York, July 21.—Fifth avenue property owners, losing hope of further protecting the residential character of the neighborhood against the steady northward march of trade, have sold without restrictions, the northeast corner of Fifth-second street and Fifth avenue, which they have guarded carefully for years.

MAYOR SEIDEL PROPOSES PRIZES FOR CHILDREN. Milwaukee, July 21.—Prizes for children in connection with keeping the streets of Milwaukee clean and the elevation of the "white wings," giving the trustworthy ones power of arrest for violation of the health ordinances, are among the recommendations embraced in a special message of Mayor Emil Seidel to the city council today.

NATIONAL BANK RESOURCES ALMOST TEN BILLION DOLLARS. Washington, July 21.—A total of 7-145 national banks in the United States responded to the call of the comptroller of the currency for reports of their condition at the close of business June 30, last. This is an increase of 219 banks since June 30, 1909.

Worst Forest Fires in Years Still Sweeping Large Areas in Central Wisconsin.

Wausau, Wis., July 21.—The losses in the forests in the region both to the west and to the east of here continue, there being no stemming of the flames which are sweeping a large portion of central Wisconsin, far and wide.

All Possibility of a Walkout on the Canadian Pacific System Is Removed When a Definite Agreement Is Reached—The Employes Are the Winners.

Montreal, July 21.—All possibility that the conductors and trainmen of the Canadian Pacific railway would strike was removed tonight when a definite agreement was reached between the company and the men.

Chicago, July 21.—Corn led the entire speculative trade on the exchange today. The transactions in that commodity were so voluminous that a movement over the fear that the dry weather might ruin the crop was the sole cause.

ENGLISH STRIKERS ACCEPT RAILROAD COMPANY'S TERMS. Newcastle, Eng., July 21.—The strike of the 12,000 employes of the North-eastern railway was settled this evening. The men accepted the terms of the company and work will be resumed at once.

PROPOSES THAT STRIKE BE ARBITRATED

W. L. MacK. King, Minister of Labor at Ottawa, Makes a Proposition to the Grand Trunk Railway and Its Men—The Outcome as Yet Is Doubtful.

All Possibility of a Walkout on the Canadian Pacific System Is Removed When a Definite Agreement Is Reached—The Employes Are the Winners.

Montreal, July 21.—All possibility that the conductors and trainmen of the Canadian Pacific railway would strike was removed tonight when a definite agreement was reached between the company and the men.

MAKES WIFE CRAWL ON HER KNEES TO CHURCH

Chicago, July 21.—Because of a family quarrel in which he insisted that his wife was at fault, J. Anderson, of Waukegan, today compelled her to do penance by crawling on her knees several blocks to church and confessing that she had marred the domestic tranquility.

DEATH CLAIMS MILLIONAIRE AND A PROMINENT MASON. Westfield, Mass., July 21.—James Arthur Crane, the millionaire paper manufacturer, died here today, aged sixty-two.

CHAIRMAN REPORTS "AN APPALLING LOSS OF \$4,000,000" AND CHARGES GROSS DISOBEDIENCE AND IRREGULAR METHODS—A THOROUGH PROBE OF THE "SCANDAL" IS DEMANDED.

London, July 21.—At a meeting of the directors of the Pillsbury-Washburn Flour Mills company here today the report and accounts for the past fiscal year were presented and were passed after a stormy session.

RACES AT GRAND RAPIDS ARE CLOSELY CONTESTED. Grand Rapids, Mich., July 21.—There were no sure things in the third day's racing at the Grand Rapids harness meet, and extra heats and sharp finishes were the rule.

TAKE STAND AGAINST LOCAL OPTION PLAN. Wisconsin Prohibitionists Say It Is Inadequate to Settle the Liquor Problem.

Madison, July 21.—The platform adopted by the Wisconsin Prohibitionists, assembled in state convention here today, contains clauses denouncing local option and county option as not being a settlement of the liquor problem and declaring that the only way to secure effective prohibition is to elect prohibition party men to office.

MAYOR SEIDEL PROPOSES PRIZES FOR CHILDREN. Milwaukee, July 21.—Prizes for children in connection with keeping the streets of Milwaukee clean and the elevation of the "white wings," giving the trustworthy ones power of arrest for violation of the health ordinances, are among the recommendations embraced in a special message of Mayor Emil Seidel to the city council today.

best foot forward, for the Dems are going
to renominate Governor Harmon.

But, it may be reflected, the political
situation in Maine was greatly simplified
by the withdrawal from public life
of Senator Hale.

Western bankers are refusing to lend
money with which to buy automobiles to

against the farmers?

Mayor Ellis thinks he is running for
congress, but Representative Dieckema,
Michigan's candidate for speaker, is sure
Mr. Ellis is mistaken.

Really, it seems that proper recognition
of the rights of the owners of Out-
look demand that the colonel give more
time to that editorial job of his.

One Detroit automobile concern ex-
pects to sell \$36,000,000 of its output
next season. Detroit will become the
city the automobile has made famous.

Insurgency? Fiddlesticks! There's no
such thing. Look up Uncle Joe's opinion.
The word of the great standard bearer
should carry a lot of weight in this con-
nection.

The finding of the congressional com-
mission on the subject didn't go much
further than the determination that the
high cost of living is due largely to the
high price of foods.

It seems to be the consensus of opin-
ion that the pugilistic champion might
better remain with the black than that
"Gentleman Jim" should flounder
around trying to qualify a white for it.

Senator Burrows and Representative
Townsend are conducting what Pat
Kelley would call affirmative campaigns.
Each is boosting his own interests and
wasting no time on the other fellow.
And both are just now so busy that the
twenty-four hour day appears to be all
too short.

Governor Carroll, of Iowa, is indicted,
but it isn't for any departure from the
straight and narrow path, or for com-
plicity or conspiracy in any crooked
deal whatsoever. Governor Carroll is
indicted for criminal libel. He is al-
leged to have made statements regard-
ing John Cronnie, former chairman of
the state board of control, which were
unwarranted and false, making him lia-
ble to the law. It isn't pleasant for
Governor Carroll to be indicted for crim-
inal libel, still as indictments run he
might have fared much worse.

The Menominee school electors laid
out a proposal to bond the city for \$15-
000 for the erection of a manual train-
ing and domestic science building. The
most effective argument against the
bonds was citation of the fact that the
city has two or three unsanitary grade
schools, deficient in ventilation and
other important respects, that should be
put in good order before the town goes
in for educational frills. There was no
getting away from that argument. It
was solid good sense. Too much atten-
tion can't be paid to the grade schools
everywhere. It's in them that the
great majority of the young get all the
schooling they ever receive.

The forest fires the past few days have
been more serious than those reported
during the drought that was broken
by rain nearly three weeks ago. It
required strenuous work to prevent serious
damage at the American mine loca-
tion, the Diorite location and in the
northern part of the county early this
week, and the danger is by no means
passed, as fires are burning in all di-
rections and heavy gales of wind would
spread them rapidly. What is needed is
a heavy downpour of rain. The farmers
are also calling for rain, as crops are
again drying up. Lack of rain promises
to make the summer season an unusu-
ally disastrous one throughout this region.

With the forthcoming visit of Mr.
Musseleman the candidates for governor
will finish their personal campaigns in
this part of the state. It is a marked
commentary on how little significance
Mr. Osborn's friends attach to the re-
ports from the press bureaus of the
other candidates of the inroads they are
making in this region that he will give
no personal attention to his campaign.

north of the straits, giving his
time entirely to the lower state
counties where he has to make
his real fight. In August both
the candidates for senator will visit us.
Senator Burrows plans to come to the
upper peninsula the second week in the
month, and Representative Townsend
will follow him later, planning to do
some of his final campaigning in this
region. The advent of the senatorial
candidates may arouse some interest in
their rivalry. So far their contest in
this region has attracted comparatively
little attention, and the purely perfu-
tory nature of most of the support being
given Senator Burrows has called forth
much comment.

Representative Snapp, of Illinois, will
not be a candidate for re-election. Snapp
was one of the most dependable Cannon
men on the Illinois delegation, and for
this and other reasons a formidable re-
volt against him sprung up among the
home folks. Two candidates were pre-
pared to contest his seat, and, despite
the fact that the sitting member usual-
ly stands a pretty good show in a three-
cornered fight, Snapp has decided that
discretion is the better part of valor and
has announced that his private inter-
ests and a law practice impaired because
of his service of the people demand that
he withdraw from public life. As the
Chicago Tribune remarks, Representative
Snapp is to be felicitated because his
private interests and the public interest
so nicely coincide. Representative
Bottell, of Chicago, lately dubbed the
Boanger of protection, is another Illi-
nois member who seems to have hard
sledding ahead. It is now in prospect
that he will be refused the organization
endorsement and that the organization
will put a candidate in the field against
him.

The revenue reports from Indianapolis
appear to bear out the contention of
the brewing interests that one of the
effects of making counties "dry" is to
increase the consumption of spirits
liquors, and thus promote, instead of
alleviating, intemperance. The county
option law has operated to close 989 sa-
loons in Indiana, and most of these have
been closed since January 1, 1909, but
the federal government report for the
Indianapolis district shows that the
consumption of whiskey has increased,
while the consumption of beer has re-
mained the same compared with the
preceding fiscal year. The increased
amount of whiskey consumed in the dis-
trict netted the government an increased
revenue \$833,782.78. While the revenues
from whiskey showed this in-
crease, the receipts from beer
showed a decrease of \$1,014.85, the total
receipts for the year being \$638,199.50.
Previous to the holding of county op-
tion elections 1,207 saloons had been
put out of business in the state by the
operations of the township and ward re-
municipal law, but these figures cannot
be taken into consideration in connection
with the reports of the federal officials,
since these remunicipal laws were al-
leged to be inoperative before the year
covered by the federal report. However,
almost all the saloons ousted by the
operations of the county option law quit
business during the government fiscal
year.

AN IMPORTANT DEAL.
Much interest has been aroused in
financial circles by a report that the
control of the Michigan State Tele-
phone company is about to pass to the
American Telephone & Telegraph com-
pany, which now controls practically
all the other Bell telephone systems in
the country. It is said that the hold-
ers of a majority of the common stock
have agreed to exchange their holdings
for American Telephone & Telegraph
company stock on the basis of five
shares of the Michigan company stock
for four shares in the big company. The
Michigan State Telephone company now
has outstanding \$3,500,000 of common
stock, on which it is paying dividends at
the rate of 7 per cent, and also has \$2-
285,000 of 6 per cent preferred stock and
\$8,660,000 of bonds. The common stock
is quoted at \$106, giving it a value for
five shares of \$530 as against a value of
\$329 for four shares in the big com-
pany at a rate of \$132.25, the prevail-
ing quotation. Five shares of Michigan
State stock, however, pay \$35 annually
in dividends at the present rate, and four
shares in the big company pay \$32. But
there has been gossip of an increase in
the rate of the American Telephone &
Telegraph company. The Michigan
State Telephone company is the success-
or to the Michigan Telephone company,
which defaulted the interest on its
bonds in 1902. Since the new manage-
ment took hold the Michigan State com-
pany has been steadily gaining ground,
and the number of telephones in use has
been increased from 49,000 to nearly
180,000, located throughout the state,
and the elaborate system of long dis-
tance installations has been developed.
The company's physical plant is now
generally in admirable condition, its
business organization is superb and its
standing with the public is excellent,
the result of a sincere effort to estab-
lish itself firmly in the public esteem by
a policy of good and courteous service
and fair-dealing. If the American Tele-
phone & Telegraph company gets hold of it,
it will take over an important asset, and
a company that should have a steady
growth.

**CHAMBERLAIN'S STOMACH AND LIVER
TABLETS**
Gently stimulate the liver and
bowels to expel poisonous matter,
cleanse the system, cure constipation and
sick headache. Sold by The People's
Drug Store.

THE STATE PRESS.
Evidently the state supreme court
knows a "blind pig" when it sees one.
—Flint Journal.

**Late crop reports indicate that the
western New York apple belt is likely
to be tightened up a hole or two.**
—Pontiac Press-Gazette.

"Never borrow money of a pessimist,"
says a Philadelphia paper. It can be
done. A real pessimist is sure that he
won't get it back.—Detroit Free Press.

The insurgents and regulars have
found out again that Twedy's position
in politics—his stands just where he
stands.—Kalamazoo Telegraph.

A Berlin court has ordered the at-
tendance of Dr. Cook. And still we scoff
at German humor.—Saginaw Courier-
Herald.

A report from Chile says Dr. Cooke
goes about there disguised in a golf
cap. Seems as though that is rather
chilly attire even for a north pole ex-
plorer.—Grand Rapids Press.

A whole lot of these towns that are
"prohibiting" the fight pictures don't
stand a ghost of a show of ever getting
them, anyway, as the picture trust will
demand a small fortune for showing
them, even for a day. For the first
weeks, at least, it will cost \$1,000 a day
to get the light films. How many towns
in Michigan want them at that price?
—Kalamazoo Telegraph.

STATE POLITICS.
Congressman Dieckema has returned
from a tour throughout Iowa county.
He declares nothing could look better
for him than the situation there. He
found his old friends already in line and
many new ones offering their services.
He thinks his services for Iowa are being
appreciated. Among other things,
he secured a new federal building for the
city of Iowa, a new postoffice and rural
free delivery for Belding.

Amos S. Musseleman has returned from
a trip through Cass county, the strong-
hold of Patrick Kelley, but he returns
very highly gratified with the outlook
there. He is being enthusiastically re-
ceived everywhere he goes. While Cass
county will be for Kelley, he was told,
the general Pat will not get all the votes
that view sustains. He will get a fair
share of the vote, but he doesn't get
Musseleman and A. E. Ewing went to
Coldwater in Branch county and will
balance the balance of the week in Branch
and Hillsdale. Here, he is informed, is
a fruitful field for him and he is pre-
paring to make the most of it. Monday
he will leave with George Clapper
for the upper peninsula and will put
in a good bit of time there.

STATE FIGHT ON STATE ISSUES.

There's one thing about the campaign
in Michigan that differentiates it from
the campaigns in nearly every other
state in the union, namely, its absolute
divorce from issues of national politics.
The campaign for governor is being
fought on state issues and on the per-
sonalities of the candidates.

This accounts for the small place the
Michigan campaign has in the public's
eye outside of the state itself. News re-
lating to the gubernatorial situation in
New York is eagerly waited for. The
Ohio situation is regarded as being of
national import. The campaigns in many
other states are being observed with the
greatest attention. But outside Michigan
there are comparatively few people who
even know who our candidates for gov-
ernor are.

But this is as it should be. There is
no particular justification for nominat-
ing and electing governors on anything
else than state issues. The best results
for the state are likely to follow when
these are not obscured by the injection
of questions really foreign to state
government. There is no reason for
Michigan to lament the trend of its
primary campaign this year.

While Governor Warner's recent state-
ment that there is no insurgency in
Michigan has not found general accept-
ance, certainly no question of insurgen-
cy and its opposite has been raised
between the men who would like to be
governor. There is no issue of factional
Republican politics being fought out
between them, and they would all, doubt-
less, lay claim to the title of progres-
sive Taft Republicans.

National politics are being discussed
in Michigan solely in relation to the
primary on the senatorial candidates and
the contests in the congressional dis-
tricts, and into these no questions of
state politics are being dragged to ob-
scure the points of difference between
the men before the voters.

This is really an ideal condition, and
one that should beget the most intelli-
gent results. State campaigns should be
fought on state issues and national cam-
paigns on those relating to the nation.
It's when the two are confused that the
voter loses himself.

THE STATE PRESS.

"Why boss," he exclaimed, "here ain't
no fish in dis yere pond. Der never was
a fish in it."
—Well, what do you fish for?
The salesman wanted to know.
"So my old woman can see dat I ain't
got no time to chop wood fer de fire," the
negro answered.—Neward Star.

Ingratitude.
"You remember dat guy, Jim Burke?"
asked an irate fireman, "He's that stiff
dat's doin' time up der river—
Sing Sing—Bojilary—ten years. Well,
you know all I done fer dat stiff. When
he was pinched I didn't put up der coin
fer der lawyers? Didn't I pay der witness
fer der jury? Sure I did. De other day I
'tink dat stiff tell dat guy 'tell me 't
I'll get 'em goin' see dat mut jus'
'leave him know his fren's ain't t'ied
de can on 'im. So I drives out to d' jail
and goes into d' warden's office and he
says I gotter send me card in. Me card
'd' ye get dat? Well, anyway, I writes
me name on a piece of paper an' a guy
that view sustains, I believes, next to
the controversy over the use of benzolate
of soda to preserve food. "The develop-
ments during the last year," he says,
"have accentuated my opinion as to the
harmful character of benzolate of soda
as a food preservative. I propose to see
that view sustained by the federal
court, as the evidence that has been sub-
mitted recently in Indiana cases points
that way."

When She Wanted to Go.
E. D. Whitley, who's been ticketed
agent for several steamship lines, was
at work at his desk the other day when
a Swede girl came in the office. She had
been in this country only a few months
and was tired of it.
"Aye vant tay get a ticket tay
Sweden," she said. "Aye vant tay go
to Gothenburg."
"When do you want to go?" asked the
polite Mr. Whitley.
"Aye vant tay go when boat starts,"
she replied.—Denver Times.

HERE AND THERE.
A University of Michigan professor
has come to the conclusion, in the light
of modern psychology, that Lady Mac-
beth was not to blame for murdering
her husband. They were murdering
enough in her time, however, not to
have invented high-priced alien-
ists and 13,000-word hypothetical ques-
tions. Plain murder was just plain mur-
der.

Removed by Lydia E. Pinkham's Vegetable Compound
Holly Springs, Miss.—"Words are
inadequate for me to express what
your wonderful medicines have done for
me. The doctors said I had a tumor, and
I had an operation, but was soon as bad
again as ever. I wrote to you for advice,
and began to take Lydia E. Pinkham's
Vegetable Compound as you told me to
do. I am glad to say that now I look
and feel so well that my friends keep
asking me what has helped me so
much, and I gladly recommend your

EDWARDS, Holly Springs, Miss.

NOTICE TO CONTRACTORS
Sealed proposals for furnishing all labor
and materials for constructing a chemical
house and apparatuses in the city of
Marquette, Mich., addressed to the Secre-
tary of the Board of Fire and Water Com-
missioners, and enclosed in envelopes ad-
dressed "City of Marquette, Mich., and
Contracting," will be received by the
Board of Water Commissioners at their
office until 8 p. m., Tuesday, Aug-
ust 2nd, 1910, in accordance with the
plans and specifications on file in the
office of the commissioners, from whom
copies may be obtained.
JOHN P. KEIN, Sec'y.

THE CINCINNATI TIMES-STAR, of which
Charles F. Taft is proprietor, offers to
be a candidate for governor this year. "Dr.
Garfield deserves all the nice little
things Cleveland will give him," it says.
"He is a remarkable figure in Ohio poli-
tics. He is the one Republican in the
state for whom Colonel Roosevelt com-
take the stump every morning and every
night during the campaign without giving
him the slightest chance for victory."
Clark Williams, New York's state
comptroller, is authority for the state-
ment that fully \$1,000,000 a year has
been lost through the purchase and sale
of cancelled stock transfer stamps by
office boys and clerks. He says that
many boys have made \$200 a month
from their trade in cancelled stamps.

The fact that prohibition and moon-
shining get on well together is so gen-
erally recognized that the report by
Royal R. Campbell, internal revenue
commissioner, of a marked revival of the
moonshine-whisky trade in the fiscal
year just ended occasions no surprise.
In the last twelve months over 2,000 il-
licit stills were raided in southern
states, and most of the raids were made
in states which voted for prohibition.
The Memphis Commercial Appeal says
there has been an unprecedented boom in
the prohibited traffic and that "profitable
prices and opportunities for disposing
of corn whisky have tempted even those
who have determined never to make
moonshine whisky again." Tennessee
North and South Carolina, Georgia and
Alabama are named by Commissioner
Campbell as states in which the moon-
shiners have been particularly busy.
While Kentucky, once believed to have
a surprising number of stills that are
being guarded by men who know how
to shoot, is not mentioned at all in this
connection.—Hartford Courant.

LOWER STATE NOTES.
ALLEGAN—The business men of this
city are indignant because they allege
they have been wronged by a smooth
advertising game. Two ladies came here
last week and put on an entertainment
for a local fraternity. Then they se-
cured advertising from merchants on
some cheap banners by representing
that the lodge was to receive part of the
proceeds. Now the merchants claim that
the lodge got none of the money.

TRAVERSE CITY—Clyde Green, aged
twelve, and Floyd Harris, aged ten, sup-
posed to have been drowned while play-
ing on Boardman lake, returned home
safe and well. The youngsters decided
to go cherry picking, securing a job on
the peninsula, but getting tired walked
home today. As it was reported that
they were on Boardman lake in an old
sew, with a heavy sea running, the
frantic father of the Green boy searched
the shores all night, while the police
aid in the search.

EATON RAPIDS—James House and
James Webster became involved in a
brawl in front of the Hotel Daniels and
before the men could be separated House
had chewed Webster's ear nearly off.
House was immediately arrested and
paid a fine of \$5 on a disorderly charge
and Webster is now making an effort
to have the prosecuting attorney order
a warrant issued for House's arrest on
a charge of mayhem. The chewed ear
is in bad shape, although a surgeon put
it in more than an hour trying to put it
in something like normal condition.

LANING—For many months, barbers
have commented on the way bay rum
has been manufactured of late and it
is claimed that only a small portion of the
liquid so named is in reality pure bay
rum. A crusade against the impure
article has been started by the dairy
and food department and hundreds of
gallons of the impure stuff may find
its way into sewers. Fully 75 per cent
of the tinctoring of iodine tested thus far
by the department has been below the
standard and about 25 per cent of the
spirits of camphor has been found to
contain water.

OWOSSO—Owosso is to be the hub
of the wheel of power lines when the
plans of the Commonwealth Power com-
pany and Jackson and Michigan Com-
missioners are carried out, ac-
cording to E. M. Eaton of New York, di-
rector of the Commonwealth. Eaton re-
cently bought the O. & C. E. and is here
sewing up the rights of way for the
power company. A line is to be run
from Lansing and Jackson, one from the
An Salle river delta, another from the
dam station at Ionia, another from the
steam plant to be erected in Flint and
another from the steam plant in Kalamazoo.
All the lines are to be connected
within one year.

LANING—Numerous complaints
have been received at the office of the
state dairy and food commissioner from
commission merchants and creamery men
in various parts of the state regarding
the butter in the cans of the
butter. The commission men claim that
the butter is not up to the standard and
the creamery men all claim that the
cream is ofter old and nearly spoiled
when delivered to them by the farmers.
The butter manufacturers are afraid to
accuse the farmers, as they declare it is
exceedingly difficult to secure sufficient
cream and they do not want to antagonize
the ruralists. The commission has
promised to investigate both complaints
and will remedy conditions if possible.
Many of the smaller villages of this state
are desirous of having samples of milk
tested during the winter months. The
commission will make as many tests as
possible during the summer.

ANN ARBOR—When it comes to ap-
pointing a dean for the law department
to succeed President Hutchins, who was
asked to be relieved from the office when
he was made president of the University
of Michigan, the board of regents are
likely to find Professor Bates, who resigned,
did not at once go to Detroit after the close
of the regular college year has given
rise to a report that he would most
likely accept the deanship if it was
offered him. It is understood that
the position has not yet been offered
to him though there is a general
feeling that it might be. Professor
Bates is generally better liked among
the students than he is among the fac-
ulty of his department, and the faculty,
feeling that he might be appointed,
have drawn up a protest and filed it
with the president, in which they say:
"We believe his selection as dean would
be a serious mistake and imperil the
welfare of the department."

CURES
D. S. S. OLD SORES

Every old sore comes from some kind of impurity in the blood. It remains
an open, discharging place on the flesh because the circulation constantly de-
posits into the fibres and tissues which surround the spot, the infectious matter
with which the blood is contaminated. It is impossible for the sore to heal while
the blood is in this impure state. S. S. S. heals old sores because it is the
greatest of all blood purifiers; it goes into the circulation and removes the cause
from the blood. When the blood has been purified there is no longer any inflam-
matory impurity or infectious matter to irritate the place, and nature causes a
certain and natural healing of the ulcer. It is all well enough to endeavor to
cleanse an old sore, or stop the itching, or absorb the discharge, with external
applications, but a cure can never be reached in this way, because such applica-
tions do not reach the blood where the cause is located. S. S. S. does not simply
cause a scab to form over an old sore, but beginning at the bottom it heals the
place permanently by building new tissue, and filling the place with firm healthy
flesh. S. S. S. is a purely botanical remedy, being made entirely of roots herbs
and barks, each of which has a direct and lasting effect in removing impurities
and poisons from the circulation. Old people who have suffered for years with a
chronic sore will find S. S. S. a most helpful tonic and system builder in counter-
acting the debilitating effects of the old ulcer. Special book on Sores and Ulcers
free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

GEORGE P. BROWN,
Attorney-at-Law,
CITY HALL, MARQUETTE, MICH.

D. S. S. & A. Railway
Excursion Bulletin

Every day to Sept. 30. Low
round trip summer tourist fares to
Eastern Canada, New York and
New England. Optional routes.

During July. Every Friday, low
rates by train and steamer to Buf-
falo, Toledo, Cleveland and De-
trot.

July 20, 21, 22—Sons of St.
George reunion, Iron Mountain,
Mich.

Aug. 10, 11, 12—Firemen's Tour-
namant at Sault Ste. Marie.

Sept. 2, 10—Eucharistic Con-
gress, Montreal.

Watch for announcement of other
excursions. For particulars apply
to ticket agents.

A LAUGH OR TWO.
Identified.
Jack London had an affection for chil-
dren, and he once made the acquaintance
of twin sisters of six.
"Good morning, my dear," he said one
morning, meeting one of them on the
street; "and which of the twins are you?"
The little lassie looked up into his
face and said very gravely:
"I'm the one what's out walkin'."
—Success Magazine.

Tongue Slip.
Representative Washburn, toastmas-
ter of the prostration dinner of the
legislature recently, told a story of a
pastor who, coming to a new parish, got
his words slightly twisted in his an-
nouncement. Said he: "I have come
here to heal the sick, cast out the sick
and raise the dead."
Another ministerial friend of Wash-
burn's speaking to a congregation re-
marked: "I am sorry to see so many
absent faces I used to shake hands
with."—Boston Record.

Methodical Fishing.
Jim McDermitt, the lawyer, has a great
fond of "darky" dialect stories. The one
he most delights to tell follows:
"A traveling salesman in a southern
town came to a small pond. An old
negro was lolling contentedly in the sun
with fishing rod in hand. The sales-
man passed and watched the fisher-
man. After waiting for half an hour without
seeing the least sign of a bite he asked
how the fish were biting. The fisher
looked surprised.
"Why boss," he exclaimed, "dere ain't
no fish in dis yere pond. Der never was
a fish in it."
"Well, what do you fish for?" the
salesman wanted to know.
"So my old woman can see dat I ain't
got no time to chop wood fer de fire," the
negro answered.—Neward Star.

Copper Country

SELDEN FALVEY HAS HOPE.

Sunny Little Lame Post Boy Will Be Treated at St. Louis.

Selden Falvey, the cheerful little fellow who has for a year or more sold the Saturday Evening Post from a wheeled chair on Selden street, Houghton, will not be at his post to greet his customers today. Selden has retired and expects that the next time he appears in public he will do so on his feet.

Selden suffered an attack of meningitis when he was seven years old. He is now twelve and in the five years intervening he has lived in a wheeled chair. He is cheerful as a sunbeam and game as a pebble and has never murmured. Now his parents have heard of a wonderful surgeon who is going to try to restore life to the boy's limbs. He will be taken to St. Louis in a short time for treatment.

DEADLY TWENTY-TWO RIFLE.

Young Son of Councilman Michels Did Not Know It Was Loaded.

The young son of Village Councilman John J. Michels, in camp at the usual with the family, sustained a painful but not serious wound from the discharge of a .22-caliber rifle Wednesday afternoon.

The rifle was not loaded until the thinking of it was not loaded pulled the trigger. The bullet penetrated his foot.

Mrs. Michels sent a message to the councilman at once and he enlisted Dr. Turner and R. C. Pryor's automobile in the cause. Mr. Pryor made a record-breaking trip to the canal and Dr. Turner found that the child had not sustained a dangerous injury. He was brought home and with care will be about in a few days.

TOMORROW'S CRICKET GAMES.

Painesdale-Mohawk Match at Mghawk Promises to Be a Warm Event.

More than one hundred rooters will accompany the Painesdale team to Mohawk tomorrow to witness what will be one of the crucial cricket games of the season. The game should lack nothing in interest and excitement for the best players in the copper country will be pitted in a desperate battle to win. Mohawk now leads the league by one game, winning last Saturday by a big margin while Painesdale remained idle and took a game from Mesnard by forfeit.

However, the league must decide either for or against Painesdale in a disputed game and the result may put the South range eleven at the top of the percentage column. This can be accomplished by the league awarding Painesdale the game in question and the team winning a victory over the present leaders.

FINE BALL GAME TOMORROW.

Billy Mutter's Double H. M. Team to Play Calumet Y. M. C. A.

The biggest and best baseball game of the season at Calumet will be played at Athletic Park tomorrow afternoon, when the Double H. or Houghton-Huron team, leader in the Copper Country league and the only team of the league undefeated so far this year, will meet the undefeated Calumet Y. M. C. A. nine. Billy Mutter is in command of the Portage Lake contingent and will appear with the old-time galaxy of diamond heroes that has worried the copper country baseball world in the name of Hurontown for so many years past. The fans will doubtless turn out in large numbers.

Captain Billy Gray of the Calumets feels confident that his bunch of Y. M. C. A. men can lower the colors of the Double H. The Y. M. C. A. has given a bad beating to every team it has met this year and has gradually been working up to securing a game with the Portage Lake men under Mutter. Mutter will be the neatest catcher in the old days, but Gray, many believe, is his equal now. And Gray is the younger man and has more baseball days ahead of him than Mutter—the other Bill has. Mutter will probably play at first for the Double H. team Saturday.

Wagner will be on the firing line in all probability. This will be something pretty big for the Y. M. C. A. to go up against, but they are not afraid of it. Wagner has pitched in big company and has everything that a first-class pitcher should have. For the Y. M. C. A. team Eaton, who has been making a great record for himself this season, will pitch.

FOREST FIRES THREATEN.

Excursionists From Freda Pass Through Flames on Way to Houghton.

The serious aspect of the continued dry spell was shown Wednesday by the condition of the woods along the line of the Copper Range railroad between Houghton and Freda. In many places on the route burning patches of wood were seen from trains by parties returning from Freda Park. The rain last week stilled the fires for a time, but it appears now that its effect was not permanent. Observers of conditions assert that the situation is serious.

It takes a good cook to fix up anything to eat so a man can't tell what it is.

Mining College Victrola.

Students Have Joined Forces for Purchase of Instrument.

The latest addition to the pleasure which the students of the Michigan College of Mines take in the lounging room of the gymnasium is a Victrola, which was purchased at a cost of \$125. The student body and the faculty united in purchasing the instrument.

P. B. McDonald, who managed the social affairs of the college during the past year, made a success of it. He even paid off the debts of last year and had some money left. His committee contributed toward the Victrola, and the athletic committee and the faculty contributed. Now the students have sixty records and the Victrola is the most popular thing on the campus. A music committee for the ensuing year has been appointed, consisting of J. J. Zebbens, A. R. Karkort and W. L. Johnson.

EXPERIMENT TO ST. IGNAZEE.

Houghton Officers of the Northern Michigan Brick & Tile Company.

A party made up of officers and directors of the Northern Michigan Brick & Tile Company will leave Saturday for St. Ignazee to inspect the company's plant, which is now in operation. The company is largely composed of copper country people, with M. Van Orden as president, James J. Byers as vice president and W. P. Palmer as secretary. Frank Hildebrand and Ben Chynoweth of Houghton are directors, as is W. J. Reynolds of Laurium. The party will include the officers named as well as a number of copper country stockholders, and there will be in all about twenty. The company's prospects seem to be bright and the present expedition is a sort of a jubilee.

Mining Commission Is Here.

President Hoyt Explains the Object—To Increase Assessments.

William H. Hoyt of Plymouth, James H. Thompson of Lansing and George Lord of Detroit arrived in Houghton yesterday to begin a trip of inspection of the upper peninsula, in the interest of taxation. Messrs. Hoyt and Thompson with R. H. Shields of Houghton, compose the state tax commission. Mr. Shields is secretary.

President Hoyt talked yesterday with a reporter for this newspaper. He said

HOKEY CUP IS LOCATED.

Bauble Is in Hancock Awaiting Pleasure of League Officials.

Replying to an inquiry from Mohawk published yesterday morning relative to the present whereabouts of the Amphidrome hockey trophy, of which the Mohawk team was the winner last season, a Portage Lake official of the league says that the cup is in safe hands and is held awaiting official instructions from the Copper Country league before it is turned over to the champions. "It is, in fact," said the official, "in the possession of the league officials, who have not as yet held a meeting to close up last season's business and make a general transfer of the trophy. Until such meeting is held or some official action is taken which will warrant the turning over of the cup to Mohawk, the trophy will remain where it is. When Hancock won it year before last, it was officially presented at a banquet held after the close of the season at the Arlington Hotel in Calumet, and Hancock was to keep it until ordered by the league to surrender it to whatever other team might thereafter be declared the winner. The cup is in good condition."

ATHLETIC SOLDIER BOYS.

Calumet Engineers Will Enter a Team in the Hipernian Meet.

Company A, Calumet Engineers, will be represented at the Hipernian field and track meet, Hancock, by a full team, made up of some of the best known athletes in the district. The men are already practicing, and they expect to capture a number of the honors of the carnival. Sergeant Murdock Mc-Duff will represent the company in the pole vaulting and high jumping. The company will also have some good runners for the mile and two-mile events and also for the relay event. This will be the first year in several that the company has taken any interest in matters athletic about the county. The organization does not expect, therefore, to be able to capture the meet, but will nevertheless make a strong bid for first honors.

The members of the company who will be the best records will go to the Tamarack range on Sunday to shoot off positions on the team which is to represent Company A in the state rifle matches, to be held at Grand Point, near Detroit, July 29 to Aug. 6. Among the men who are making bids for places are Captain Jesse Meads, Lieutenant Penberthy, Lieutenant MacDuff, Sergeant MacDuff, Sergeant P. H. Cowley and Private Ekblom. The team will be made up of six men. A week from Sunday, after the team will have been picked, the men will be given a still practice.

LAKE COPPER COMPANY.

A Report on Present Conditions—Values Have Grown Steadily.

Gay & Sturgis issue a report on the Lake Copper company, extracts from which follow:

Lineal drifting on the main Lake lode is about 300 feet, with the longest drift (1,450 feet) at third level ranging within seventy-five feet of the south boundary. The actual width of the lode is tested in very few places, but where tested by crosscutting or diamond drilling, the horizontal width is sixty to seventy feet generally, occasionally going beyond this dimension, the greatest width being at the fifth level main crosscut, 137 feet. Lineal drifting on the foot wall lode is about 500 feet, all north, at the sixth. About 300 feet shows fair sloping values eight feet wide and the remainder is poor. The crosscut at the fifth showed good quality drifts, but the lode, but one cut in each direction longitudinally from the crosscut turned north and drifts were not opened. In the shaft the copper continued in the foot wall lode for a short distance below the sixth and then disappeared. The shaft eventually drew into the foot wall of this lode and it was not seen again until the pit was cut at the seventh where it was poor.

The main lode carries all the characteristics of a Lake Superior amygdaloid lode in its nature and composition. The copper. The drifts have been intermittent rich and poor, exactly as in all other mines. But in the rich spots the showing has generally been spectacular, indicating a particularly brilliant prospect. Nothing but regular stoping and stamping will settle the question of lineal average in copper values. There appear to be three well-defined shoots of enrichment, one in about the line of the shaft, another to the south with its center of enrichment about 300 feet from the shaft, and the third to the north with its center of enrichment about 300 feet from the shaft. The shoots appear to rake northward with depth. It may be that these shoots will merge into each other and that when stoping is under way the enrichment indicated thus will be more uniformly distributed than is now apparent. The middle shoot is being opened up by raises which are to form the dumping channel for loading rock at the sixth level. The south shoot has been opened for stoping at the first, second and third levels. The north shoot has been opened by ventilating raises, the upper one going to surface.

The values in the mine have grown steadily, although slowly, because the extension of development in new ground, except for the disclosure of the lode at the sixth level, has been unusually slow during the last six months on account of efforts being directed toward cutting out stops and putting up raises for enlarged production, instead of pushing lateral development in new ground until the company's prospects seem to be bright and the present expedition is a sort of a jubilee.

OHIO COPPER.

Alfred Frank, chief mining engineer for F. A. Heinz, is spending considerable time at the Ohio properties in Utah, and says the company is accomplishing great results. While the mine building is completed it is equipped only for half the tonnage that it will handle ultimately. At present it is treating 1,250 to 1,300 tons of ore per day. When the Ohio is finished the mill will be completed and the tonnage doubled. The ore runs about 15 per cent copper, and the concentrates 30 per cent. While the ore looks low grade, compared to what Butte ore runs, there is an enormous difference in the cost of handling it, and the large tonnage makes it an entirely different proposition. Mining is done by the cavendish system, and splendid results. The company's original estimate as to cost of mining was seventy cents per ton, but Mr. Frank says: "The mining is now being done actually under fifty cents per ton. Costs in May were fifty cents per ton for tonnage, and the concentrating costs run from thirty-eight to forty cents per ton, and these costs also include all charges for management and office expenses."

The concentrates are being shipped to the Garfield smelter of the American Smelting & Refining company, and are regarded as exceedingly desirable. Transportation from the mine to the mill is through the Mascotte tunnel, owned by the Bingham Central Railway company, controlled by Mr. Heinz. It is figured that there are 12,000,000 tons that portion of the property that has been developed. The Ohio is producing at the rate of about \$800,000 pounds of copper per year, at some profit. Mr. Heinz's friends believe the Ohio will make good and prove to be a big mine. There also have faith in the ultimate results of Davis-Daly.

In a circular to Raven Copper company stockholders, relative to the calling of an assessment of ten cents per share, President E. C. Frisbie says: "When this company bought the property of the Raven Mining company, it assumed as part of the purchase price the outstanding mortgage bonds of that company, which with accrued interest amounted at that time to \$67,300. During the current year general financial conditions, and particularly the condition of the copper mining industry, have been such that it is now necessary to renew or extend the mortgage bonds, so it has been necessary for the company to take from its treasury the funds it had intended to use for development work only, and pay the bonds as they fell due. The shaft has been sunk to the 1,500-foot level, about 1,250 feet vertical, but owing to the large inflow of water little drifting has been done, and cannot be until the pumps have been installed that were ordered several weeks since. While the ore so far shown in the shaft is not of a quality to warrant us there for any length of time, it might temporarily affect dividends. Copper range interests, however, do not anticipate copper prices to break 12 cents, believing that the consuming interests would be willing to take all the copper offered at that price.

The failure to locate anything of value in the drift from the 1,257-foot level of the Emma shaft of the Boston Fly has resulted in a shutdown of operations there. An expert examination of the property will be made, and it is expected that a resumption of operations will come as soon as feasible plans for further development can be determined upon. The Emma shaft has passed through an immense quantity of banded material in its downward course, an excellent indication of an enriched zone at depth, but the present workings have passed the leached material, and failed to locate any ore.

The steam shovel crews of the Nevada Consolidated in the pit at Copper Flat are putting forth an extra effort to keep up with the demands of the Steep-Top concentrator for 9,000 tons of ore a day, and at the same time dispose of the ever-increasing mass of overburden which must be removed before the ore is available. It is now reported that two steam shovels will not be received before October, hence it is apparent that the new steam shovel pit on Liberty claim cannot be opened much before snow flies. The narrow, deep cut which is being widened in order to provide better truckage facilities for the engines which haul the ore cars from the pit to the storage yards, where they are assembled into trains of twenty cars each for transportation to the smelter at McGill, twenty-two miles distant.

Michigan drill No. 1, operating in drill hole 29, has penetrated about six feet of amygdaloid and amygdaloidal train carrying fine copper, the bulk of which is disseminated, although some was in seams throughout the rock. The ore apparently would give very fair ore, although the copper was fine, and the management hopes that this may be indicative of better things for Michigan in the near future. The drill hole is 1,650 feet deep, and has been sunk to the fourth level, which is usually rich, showing considerable mass and barrel work. The new mill is now under cover and plastered with cement both inside and out. It is a splendid structure of steel

and concrete, and presents a fine appearance. Two Parker boilers have been set in the mill power house, and the installing of the heavy stamp-head casting has begun.

ON INLAND SEAS YOUR VACATION TRIP

ALL the important ports on the Great Lakes reached regularly by the excellent service of the D. & C. Lake Lines. The ten large steamers of the fleet are of modern steel construction, propelled by powerful engines, and have all the qualities of speed, safety and comfort. The United Wireless Telegraph Service used aboard.

The D. & C. Lake Lines operate daily service between Detroit and Buffalo, Detroit and Cleveland, four trips per week between Toledo, Detroit, Mackinac Island and way ports, and two trips per week between Detroit, Boy City, Saginaw and way ports. About June 25, a special steamer will leave Cleveland twice a week direct for Mackinac, stopping only at Detroit every trip and Goderich, Ont., every other trip. Send two-cent stamp for illustrated pamphlet and Great Lakes map. Rail tickets available on steamers.

City Brevities

Today's weather: Generally fair; stationary temperature.

Yesterday's temperatures: Seven a. m., 70 degrees; noon, 73; 7 p. m., 74. Maximum, 75 degrees; minimum, 65.

Morgan W. Jopling went to Chicago on business last evening.

J. G. Gannon, of the Gannon Grocery company, left for Chicago last evening.

Dennis Crothers, of Yalmar, was in the city on business yesterday.

Mrs. Mary Little, of New York, is visiting her brothers, Dan and Frank Keough.

Mrs. F. A. Weeks and children leave this morning to visit relatives in Duluth.

Born, last evening, to Dr. and Mrs. Thomas C. Hebb, of the Northern State Normal, a son.

County Clerk Frank G. Jenks and Justice J. W. Stone have gone up the lake on a fishing trip.

The Marquette and Negaunee league teams will play ball at the fair grounds here Saturday and Sunday.

Miss Mayme Tierney, of Menominee, is visiting with Mr. and Mrs. John McCarthy, Champion street.

The Parker fish tug Theora was taken to Houghton yesterday, where she will undergo repairs in dry dock.

D. E. Charlton, who is now a mining engineer with the Chief Consolidated company, arrived in the city yesterday.

A meeting of the members of the Marquette Art League will be held at the Guild Hall Monday afternoon at 5 o'clock.

Mr. and Mrs. Al McGuire, of Eveleth, Minn., are here on their honeymoon, and visiting with his sister, Mrs. Frank Stickney.

Jas. A. Curran and daughter, of Denver, Colo., are visiting relatives in the city, on their way home from the Elks convention.

Mrs. Carrie Keough has returned home from Detroit and Cedar Point, Ohio. She attended the Lady Macabees' school of instruction at the latter place.

A stranger who "got fresh" with a Marquette young woman received a richly deserved beating at the hands of T. J. Maney on Washington street Wednesday evening.

Miss Bina M. West, of Port Huron, supreme record keeper, and Mrs. Albert Droelle, of Detroit, state commander of the Lady Macabees, will attend the upper peninsula rally to be held in Marquette July 29.

Mrs. Lake, of North Marquette, was fined for intoxication by Justice Byrne yesterday. The police officers found the woman a regular amazon when they arrested her and things were lively around her home for a few minutes.

The Knights of Columbus will conduct an informal dance at the Presque Isle pavilion tonight, from 9 until 12 o'clock. The invitations have been limited to the members of the council and their ladies. The music will be furnished by Trombly's orchestra.

Wm. Dunwoody, who is engaged in mining work in central Illinois, is spending a few days in the city. Mr. Dunwoody formerly lived at Eagle Mills and left this county about twelve years ago, this being his first trip back since that time.

The firm of Whittier and Martinielli, doing business under the name of the Marquette Tent & Awning Co., have dissolved partnership. The business will hereafter be conducted by Mr. Martinielli, who has had many years experience in the business. The Marquette Tent & Awning Co. is doing a large business throughout the upper peninsula.

Admiralty Case Decided—The only matter disposed of in United States court yesterday was an admiralty case. Louis A. Clark had brought suit against the steamer Normal on a claim for wages. The matter was heard by Judge Denison and Clark was awarded \$100. Provided the witnesses arrive, the first of the Chinese deportation cases will be heard today.

New Shoe Store—J. B. Arons, of Lake Nebagamon, Mich., is in the city and in a short time will open a shoe store on Washington street in the store room formerly occupied by Angus Crossman as a restaurant. The room is now being fitted up with new cases and shelves. Mr. Arons is said to be an experienced shoe man.

Governor Warner Here—Governor Fred M. Warner arrived in Marquette last night from Lansing to attend the mid-summer meeting of the joint prison boards, to be held in Marquette today and tomorrow. Several members of the boards are expected today, and it is likely that a session will be held at the Marquette prison this afternoon.

Fires Bad in Menominee County—Ira Carley, of Ingalls, arrived in the city yesterday afternoon to attend the meeting of the prison boards today and tomorrow. Mr. Carley reports that forest fires have caused much damage in Menominee county this week. He lost the farm buildings, including house and barn, on a place he owns, and also a fine set of winter lumbering camps. Much other damage has been done.

Macadamizing Third Street—The north end of Third street is now being macadamized with crushed rock by the park, cemetery and street commission. This will be one of the most expensive street jobs of the year and will do away with several blocks of what was very rough roadway. The work is rapidly being pushed to completion. Furnace tar is being used as a binding material.

Ethel J. Tied Up Again—The tug Ethel J., formerly owned by the Handford interests here, seems to be fated to play a prominent part in court litigation. For nearly two years she lay in ordinary at Marquette because of a suit pending in United States court, but last spring she was put in the service of the Lake Superior Fish company at Houghton. This week United States Deputy Marshal Mosher attached the tug in that city and she is again lying idle. Mr. Mosher will give out no information as to the reason nor in whose interest the action was taken, and the attorneys who handle the affairs of the Lake Superior Fish company say they know nothing of the matter.

Chocolay Furnace Situation—According to W. H. Brisse, superintendent of the Chocolay furnace, who was in the

city yesterday, it is likely to be some time before the furnace goes into blast again. The shut down about a week ago was caused by the breaking down of the blowing engine, and preparations are now under way for installing a new engine. At present the iron market is very dull, says Mr. Brisse, and until there is a decided improvement in the market the management will be in no hurry to start the furnace again. It is not likely that any more work will be done this year, and plans for enlarging and remodeling the plant are being held in abeyance, pending a better iron market.

INSURE WITH PETER WHITE & CO. MARKET BADLY DEMORALIZED.

Mining Man Sees Dull Times Ahead in the Iron Trades.

"The iron market is in a badly demoralized condition," declared a prominent mining man who was in the city last evening. "There is absolutely no demand for ore and but few sales have been made since last January. The mines have been kept going thus far this season in filling contracts made last year, but now business is falling off and I look for shipments to drop steadily from now on."

"The queer thing about the situation is that the dullness of the market is without any apparent reason, it being due largely to a feeling of uncertainty and apprehension that has gone abroad and is making all promoters of industrial interests ultra-conservative. The eastern furnaces have large amounts of ore on hand and are not likely to be in the market for more for some time, so I do not look for any great improvement in the market before next year."

"One thing that is making the iron business dull is the policy of retrenchment being practiced by the railroads throughout the country. The railroads are doing no construction work except what is absolutely necessary and are not using anything like their usual quota of iron and steel. The same condition prevails in other important lines of industry. Altogether, the outlook looks to me to be anything but optimistic."

STATE BAR MEETING.

Program Out for Annual Gathering of Lawyers of Michigan.

Arrangements for the twentieth annual meeting of the Michigan State Bar association, which will be held in Marquette for the first time north of the straits July 26 and 27, have been completed and copies of the program are now being distributed. Addresses will be given by a number of prominent legal lights of the state and an unusually successful session is anticipated. As many of the lower Michigan attorneys look upon a trip to Marquette as a desirable summer outing, the attendance is likely to be larger than usual. A large delegation of lawyers from below the straits is expected on the Octorara, which is due to arrive next Tuesday morning. The program will be as follows:

—Tuesday 10 a. m.—
Address of Welcome—Dan H. Ball, Marquette.
Response by President—Harry A. Lockwood, Detroit.
Minutes of Preceding Meeting—Secretary.
Address of President, "Reorganization of the Judicial Circuits"—Harry A. Lockwood.
Report of Secretary—Wm. J. Landmann, Grand Rapids.
Report of Treasurer—Wm. E. Brown, Lapeer.
Report of Committee on Legislation and Law Reform—Clarke E. Baldwin, chairman, Adrian.
Report of Historical Committee—Wm. J. Landmann.
Report of Christianity Memorial Committee—Harry A. Lockwood, chairman.
Report of Treasurer of Christianity Memorial Fund—Wm. J. Landmann.
—Tuesday 2 p. m.—

NOTIFY THE OFFICE.

As a number of the regular carrier boys are on their vacations during the summer months, it may be that The Mining Journal carrier service is not so satisfactory as usual. In case any subscriber fails to receive his paper regularly, the management will consider it a favor if he will call the office at once, and the missing copy will be sent him. The Mining Journal desires to serve every subscriber with his paper promptly and regularly each morning, but with a number of substitute carriers on the various routes occasional mistakes are unavoidable. The management asks that the public show due patience and consideration and any errors or omissions will be corrected promptly, as soon as the office is aware of them.

NOTICE TO TAXPAYERS.

Office of the City Treasurer: Marquette, Mich., July 15th, 1910.

Notice is hereby given that the general tax roll of the city of Marquette has been deposited with me, and is now in my office in the city hall, and that the amount of taxes therein assessed and specified are due and may be paid to me at any time up to and including the 31st day of October, A. D. 1910.

Upon all such taxes paid to me before the first day of September a collection fee of one per cent will be charged, and on all such taxes paid on or after the first day of September a collection fee of three per cent will be charged.

R. P. BYRNE,
City Treasurer.

HEMAN HAS GROUCH ON UPPER PENINSULA

Says Its Solid Vote Is Menace to Public Policy—Will Run for Governor If Nominated.

Lansing, Mich., July 21.—(Special)—In a recent interview with your correspondent Lawton T. Heman, Democratic candidate for governor in 1908, made some interesting statements regarding the upper peninsula. The Democratic leader does not entertain a very friendly feeling towards that section of the state, which so loyally stood by the Republican state ticket in 1908 and prevented the election of a Democrat as governor of Michigan. "The overwhelming Republican vote cast in the upper peninsula is abnormal and dangerous to public policy. If the voters in the upper peninsula continue to cast their vote as a political unit it will become necessary for the voters in the lower part of the state to exert themselves and act more independently than in the past," said Mr. Heman. Continuing the Democratic leader said, "I do not want to be a candidate for governor. The physical strain of a campaign is severe, and I still feel the effects of the campaign of 1908. While it is a hardship for the Republican nominee to follow his campaign, it is even a greater hardship for the Democratic nominee, because no brass bands or carriages are in waiting for our candidate at the stations. I believe that if Chase S. Osborn should be nominated by the Republicans the fight for election will be a good deal harder than it will be if Pat Kelley is the nominee. There are thousands of Democrats in the upper peninsula who will vote for Mr. Osborn, and thousands of Republicans in the lower peninsula will not stand for Kelley but are willing to vote for Osborn." Heman appeared to be sincere in his statement that he did not want to become a candidate for gubernatorial honors. Should the nomination be tendered him by his party without opposition he is willing to make the race, but he will be obliged to sacrifice the peace of an idyllic country life for a strenuous political campaign. Nominating petitions are out, however, with Heman as governor and Mayor Bailey of Battle Creek for lieutenant governor. Heman disclaims any knowledge of them and says that he has not authorized their circulation. Lieutenant Governor Kelley opened his

automobile campaign tour in the northern counties of the lower peninsula this week and will make them at the rate of one county a day. The Kelley managers feel that the Tenth congressional district has been slipping away from them, and are making strenuous efforts to hold it in line. This district includes Bay county, where the opposition to Kelley is strengthened by the revolt of the Bay county voters against Fletcher's dictatorial rule. Kelley's main strength lies in the Fourth congressional district, in the southwestern part of the state, and it may become necessary in the course of the campaign to pass up some counties. In that case the voters in the Fourth district may not see the beaming smile of the lieutenant governor. The statement issued by Senator Burrows and Representative Townsend that the result of the primary will be conclusive, and that each will abide by it, has made a good impression with the politicians and state officers. It was feared that should the candidates disregard the result of the primary, the work of the legislature might be seriously interfered with. This fear is now without foundation and the legislature will be able to handle the important problems that will come up without being handicapped by a prolonged senatorial election.

JOSEPHINE SETS NEW MARK.

Missouri Prize Cow Smashes the World's Milk Record. Columbia, Mo., July 20.—With a margin of 150 gallons or 14 pounds of milk, Missouri Chief Josephine, the Holstein dairy cow, owned by the Agricultural college of the University of Missouri, has smashed another world's milk record, taking it away from Colantha Fourth Johanna, a Holland dairy cow owned by J. W. Gillett of Roseville, Wis. Josephine's record for six months, figured out 15.54 pounds of milk, while Josephine's total for the same period is 16.74 pounds. Johanna's best single month during her year's test was 2783 pounds, against Josephine's high mark for one month of 2900 pounds. THOSE PIES OF BOYHOOD. How delicious were the pies of boyhood. No pie now ever taste so good. What's changed? The Pie? No. It's you. You've lost the strong, healthy stomach, the vigorous liver, the active kidneys, the regular bowels of boyhood. Your digestion is poor and you blame the food. What's needed? A complete toning up by Electric Bitters of all organs of digestion—Stomach, Liver, Kidneys, Bowels—Try them. They'll restore your boyhood appetite and appreciation of food and fairly saturate your body with new health, strength and vigor. 50c at The Stafford Drug Co.

Omaha, 10; Sioux City, 5. Denver, 8; Topeka, 2. Flowers, like men, look anything but attractive when they go to seed.

HASSAN

CORK TIP CIGARETTES
The Oriental Smoke

The real value of a cigarette is not measured by the price but by the pleasure afforded. The mild Oriental flavor of Hassan Cigarettes is exquisite—a flavor obtained by skillful blending and great care in manufacturing. Their great popularity attests the unusual value afforded in these cigarettes.

Markets

WALL STREET STOCKS.

New York, July 21.—Paine, Webber & Co. have this to say of today's Wall street market: "The reduction in the dividend of National Lead common was the most disturbing influence during today's session and caused general selling throughout the list. Amalgamated Copper was well absorbed during the day's session, although it declined in sympathy with the general market, and the declaration of the regular dividend, announced after the close, together with rumors to the effect that efforts will be made to curtail the production of copper metal will probably be made the basis of considerable short covering in the issue, as it has been rather too popular to sell the stock of late whenever the market displayed any weakness. It still appears that the list will continue to fluctuate within comparatively narrow lines and the advisability of stop lossing purchases have been fully demonstrated by the action of the market today. We would continue to advise confining purchases to the drives and lightning accounts on the occasional recoveries." Closing prices were as follows:

Upper Peninsula

Educator Steps Up.

Professor C. C. Root has returned to Manistique from Bismarck, North Dakota, where he has been elected superintendent of the public schools at a salary of \$1,800 per annum. Bismarck is the capital of the state and is a rapidly growing and prosperous city. His new position, as compared to the one he held at Manistique is a decided promotion and his many friends are more than pleased that his worth has been recognized. Mr. Root is admirably equipped to fill any position in his chosen profession, comments the Pioneer-Tribune. As a man he won the respect of practically everyone that he met, and it was with genuine regret that it was learned that he had been selected by the local board of education. However, the shabby treatment he received here really was the means of advancing him, for he goes to a larger city and secures a substantial increase in salary. Schoolcraft Politics Quiet.—With the primary election only a few weeks in the distance, there appears to be a decided dearth of excitement in political circles at Manistique. This in part can be attributed to the fact that all of the county officers, with the exception of Prosecuting Attorney Wood, are likely to have no opposition. Attorney V. I. Hixon has decided to enter the race from the nomination of Prosecuting attorney. County Treasurer Forschar, County Clerk Dufstrom and Sheriff Smith are considered practically certain of being their own successors. Cartoonist in the Bud.—Connie O'Donnell, a former Escanaba lad, who through an unfortunate chain of circumstances was sent to the reform school, is making good. For several months he practiced drawing and a number of his cartoons were found to be excellent. A booklet issued by him, containing members of the Escanaba baseball team, attracted particular attention and showed plainly that he had latent ability. Now he is employed as associate cartoonist by one of the big Detroit papers. JACKSON—Attorneys Thomas A. Wilson and John E. Sheekel, constituting a committee appointed by Circuit Judge James A. Parkinson to investigate charges of unprofessional conduct preferred against William K. Sagenadorph, a Jackson attorney, returned a report recommending disbarment or suspension. He is cited to appear before the court August 2 to show cause why the recommendation of the committee should not be carried out. Mr. Sagenadorph is one of four Jackson attorneys who are under investigation. The world's most successful medicine for bowel complaints is Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering, and saved more lives than any other medicine in use. Invaluable for children and adults. Sold by The People's Drug Store. You have got to know a business before you can make a success of it. From 1789 to 1909, inclusive, the government of the United States spent \$474,169,917 in caring for the Indians of the country.

Watch This Space Every Friday

Every Friday we will have something special to offer in reasonable goods at big reductions for that day only; therefore it's to your advantage to watch this space on Fridays.

In the short time that we have been with you our store has won for itself an exceedingly enviable reputation, gained solely on its merits. By presenting absolutely the highest grade of wearing apparel obtainable, by superior value-giving, by clean business methods at all times, and by meriting the confidence of the people, therein is the reason why this store's supremacy is recognized.

Today We Start our First Friday's Special Sale on Lingerie Waists

Regular \$1.25 values. French eyelet embroidery, Cluny lace and embroidery trimming; Friday special95c

MARQUETTE

CAMPING SITES FOR SALE.

M. H. Foard wishes to notify parties that want good camping sites on the shore of Lake Superior where there is good fishing, good hunting and the best camping sites that are for sale on the shore of Lake Superior. Ten minutes walk from Buckroe station on the line of the Marquette & Southeastern railway, also a good road from the city that can be driven in two hours and can be made with a launch in two hours time. All of the above lots are well timbered and a beautiful pebble and brown stone beach. Any of the above lots that are not sold by Aug. 1 will be advanced in price. (7-19-11d)

Ishpeming

(Additional Ishpeming on Page Seven)

CAMPS NORTH OF CITY BURNED

Fire in Forests Near Beyond Dead River Worst in Many Years.

The forest fires that have been raging in the woods north of Ishpeming the past four days are the most destructive that have occurred in that district in many years. Many square miles of land have been swept by the flames.

Ben Hassenger, of High street, and Clarence Shea, of North Third street, who went out early in the week to camp, were driven out of the woods by the flames Wednesday. They had to flee leaving their horse and camping outfit behind there, but they believe the latter will escape the flames. The horse broke away and they could not catch it. They pulled their vehicle and outfit to a point where they believed it would be safe. Hassenger and Shea had some difficulty dodging the fires and they traveled from 6 o'clock in the morning until 6 in the evening, covering many extra miles going around woods that were on fire. They found themselves hemmed in two or three times and were obliged to run in order to escape the rapidly moving flames.

They saw two or three camps go down and four wagons and camping outfits owned by parties in the district were also destroyed. The fire burned many fine trees from top to bottom and the dry grass and underbrush was being consumed at a rapid rate. A strong wind prevailed Wednesday, and the fires traversed a greater area than they had on either of the two preceding days. The last big fire in that region was two years ago next September, when a considerable quantity of timber was damaged, but none of the camps were burned.

American Mine Fire.
 J. R. Thompson, manager of the American mine, says that the fires that raged near the property Wednesday afternoon and evening nearly wiped out the mine buildings as well as every residence in the district and at the American location. Several of the houses at the mine location took fire, but the flames were attacked by the workmen as soon as they started.

James Tucker, the cashier at the mine, yesterday said: "We had quite an exciting experience, as for a time it looked as if every building would be destroyed. The members of the Ishpeming fire department arrived just in time to give us help that we needed badly. While we got the fire under control shortly after supper, many of the men at the mine worked all night in an effort to drive the flames back from the location and mine buildings. The wind changed soon after supper, and within a few minutes practically all of the territory north from the mine to the big bluff was in flames. The bluff is about one third of a mile from the mine. The sight was a most beautiful one."

The members of the fire department returned from their duty yesterday morning. They did not have a great deal of work to do during the night, but they thought it advisable to remain there, because if the wind changed the locations would again have been in danger.

Nettleton \$5.00 Shoes at \$2.50.

CIRCUS ADVERTISERS HERE.

Campbell Bros. First Crew Was in the City Yesterday.

The first of the two advertising cars that will be here in advance of Campbell Bros. Consolidated shows, which are to exhibit at the Union park a week from next Wednesday, August 3, arrived in the city yesterday afternoon from the copper country. The car was about thirty-six hours behind schedule, it having been delayed on account of the extra time taken to cover the territory between Duluth and the copper country, due to the burned railway bridges on the South Shore line. The bill posters and lithographs and banner men began work within a few minutes after their arrival, and by evening they had the city pretty thoroughly billed. The second advertising car is due next Wednesday.

The Campbell Bros. circus has grown annually since it was launched some fourteen years ago. The show has for a number of years been under the personal supervision of A. G. Campbell, one of the proprietors. The management prides itself on its excellent display of horses. Mr. Campbell's long and varied experience with horses has served as a means by which he has brought the stable with the show up to a high standard of excellence. The past winter Campbell Bros. bought of Col. W. P. Hall, the largest horse dealer in the world, twenty thousand dollars' worth of horses, among the number being several imported Arabian steeds. Over 200 head of horses now grace their stables, ranging from the Shetland pony to the largest draft horse.

The pride of the stable is "Lucy," a Kentucky-bred saddle mare, grey in color. She is supreme in her quality and gait, having been awarded first prize at both the Minneapolis and Saint Louis horse shows. She is only one in a class of four noted saddlers owned by this show. This department has been turned into a great horse fair; the stables are always open for the inspection of the public, and a special invitation is extended to ladies and children, who are lovers of pets, to visit the horse stable.

Visit our 10-cent department. Special values today.

"UP AND DOWN BROADWAY."
 Comedy to be Seen Here Soon Highly Spoken of by Duluth Paper.

Donald MacDonald and Marquette talent, who are preparing for the production of "Up and Down Broadway," will produce this musical melange at the Ishpeming theatre a week from tomorrow evening, the 30th. The Duluth Herald said of the production, "It was recently given in that city under Mr. MacDonald's direction: "Not only the best, but the brightest and most thoroughly enjoyable amateur performance ever given in Duluth, was seen at the Lyceum theatre last evening."

"Even Webster fails to provide enough adjectives to describe at their full value the pretty girls, striking stage setting and generally pleasing effect."

"When one stops to consider that this performance is the result of only two weeks' preparation, a slight idea of the real ability of the young actor—Manager Donald MacDonald—may be obtained."

"Mr. MacDonald has always shown unusual ability in an artistic line. His clever dancing has received much favorable mention abroad as well as here. The one quality, however, which overshadows all of his other accomplishments and which was for the first time brought unmistakably to view, is the tremendous amount of executive ability he really possesses. To select people suitable for the various parts, choose stage effects, train the large choruses in both song and dances and in two short weeks present such a performance, requires brain, tact, persistence and diplomacy."

"The bewilderingly large chorus of pretty girls, too numerous to mention, did excellent work."

"A cleverly arranged series of vaudeville and musical sketches, a well-trained company and an enthusiastic audience all combined to make the production a huge success. Not a hitch occurred to mar the work of the play, and the ability displayed by those who participated in the various numbers was an agreeable surprise to relatives and friends of the players."

"At times it seemed hardly possible that this was an amateur production, the artistic finish displayed by the young performers performing their various stunts making their sketches rank with the work of professionals on the comic opera stage."

"The stage effects, ensemble and harmony of the entire play were most delightful and the event will long be remembered."

WILL ATTEND REUNION.

Members of Uniform Rank to be Present at Milwaukee Meeting.

The Uniform Rank Knights of Pythias, of this city, will be well represented at the reunion to be held in Milwaukee during the first week in August. The Ishpeming organization has about thirty-five members, and it is expected that from twenty to twenty-five will make the trip. They will leave Ishpeming a week from tomorrow evening, the 30th, on a special sleeping car on the Chicago & Northwestern line. They will go direct to Chicago and will attend the Detroit-Chicago baseball game Sunday afternoon, returning to Milwaukee that night.

All of the visiting knights are to camp in tents about three miles from the business center of the city. It is expected that several thousand uniformed men will be in attendance. The secretary of the local division has been advised that the arrangement committee will provide the visitors with free tickets to every theater in the city during the week.

Members of the Ishpeming lodge who plan on making the trip are asked to apply soon to E. O. Bengry, in the freight office of the Northwestern depot, for the berth reservations.

All \$2.50 to \$3.50 Ladies' Oxford, choice today, \$2.00.

TO THE GRAND LODGE.

Captain John Trebilcock, Will Andrews, Stephen Terrill and W. H. Bamford, grand lodge officers of the Sons

WILL SOON VISIT IN ISHPeming

"Fazakerly" the Great Demonstrator and Advertiser

(Now in Cheboygan)

The people of Ishpeming will soon have an opportunity of seeing and hearing one of the most eccentric individuals now traveling throughout the United States. It has been said of this young man, who is known as "Fazakerly," that he ranks foremost in his particular line of business, being one of the leading and most original advertisers in the country. He is well known in all of the principal cities, having for the past five years been giving free entertainments, band concerts and lectures, always carrying a large company of first-class vaudeville performers with him. These entertainments will be a rare treat for everybody, as they are all free.

He is expected to arrive here Monday, July 25, and on Tuesday, July 26, at 8 p. m., will give his first free show, band concert and lecture on the vacant Cleveland-Cliffs lot on Third street.

He will be here for two weeks and will give a complete change of program every night. Arrangements have been made with the Ishpeming band to furnish the music.

of St. George society, left Wednesday evening for Iron Mountain, to attend the annual convention, which convened yesterday morning and which will be held in the upper peninsula. The delegates from this county had been instructed to vote in favor of Detroit. Detroit has one of the oldest lodges in the organization, and it has several times invited the grand lodge to meet there. The meetings have heretofore always been held in the upper peninsula. The grand lodge officers and delegates will be entertained at a banquet tonight, and the reunion festivities proper will take place tomorrow. There will be a parade, baseball, wrestling, hand concerts and athletics.

CURB STOCK QUOTATIONS.

D. T. Morgan & Co.'s Letter.
 The New York market opened firm and held strong and fairly active until noon. A break of 1/4 points in National Lead occasioned by a reduction in the dividend was followed by a drop of 5/8 points in Standard, and they served to weaken the entire list. The other losses, while general, were comparatively unimportant. In few cases exceeding one point. The market is very nervous as a result of the prolonged decline and it is no difficult task for the bears to retard the recovery, any upward movement. No important change in the market is looked for until industrial, political and crop situations are further developed and more clearly defined.

Superior & Pittsburg was steady and led a repetition of yesterday's upward movement, but the weakness in New York proved too great an obstacle, and about noon the more active issues sold off sharply, losing from a fraction to three points.

Chicago, North Butte and Grandby were conspicuously active and suffered the greatest losses. Superior & Pittsburg was steady and in demand around 19 3/4. Greene Cananea and Grandby were firm and unchanged. No news regarding rumors of yesterday on metal curtailment, but greater activity and firmness indicate a belief that there is some foundation for them. Amalgamated declared regular quarterly dividend of 30 cents. There was somewhat better trading in the cubs and prices were fractionally better in most cases. Algonquin, Bohemia, South Lake, Chicago, Cactus and Chief were all in evidence in the trading and all were strong. Shattuck sold at 23. While there is nothing sensational in these issues as yet, inquiries are more plentiful and a few days of strength in the larger markets would cause a decided advance from present low prices.

George F. Ruez's Review.
 Early London-copper cables showed an advance of over one pound for spot and future copper. This caused a great bullish feeling, especially for the copper stocks, and prices worked up gradually. Later in the day the announcement of a reduction in the dividend rate of National Lead and reports of damage to the corn crop in Nebraska caused a sharp break in the New York list. Prices declined from 1 to 5 points. National Lead broke from 67 to 52 on the dividend announcement. Amalgamated declared its regular dividend. It is rumored that arrangements have been made to curtail copper production 25 per cent for three months and 10 per cent for six months thereafter. It is also reported that inquiries are in the market for 25,000,000 pounds of copper at 12 1/2 cents, but no sellers have so far been found. The sales at 12 1/2 are for small lots only. Lake and North Butte were again the most active of the Boston list, although the demand for the balance of the list was very good before the break in the New York list. Shattuck was again strong on the curb, selling at 23. China sold up to 12. Cactus advanced to 24, Chief to 15 and Bohemia to 24.

ISHPEMING IN BRIEF.

George O. Drissoll of Ironwood was an Ishpeming visitor yesterday.
Mr. and Mrs. Clifford Ayotte, 401 Excelsior street, are the parents of a son.
The families of T. J.udge and J. H. Mortley are camping at Deed Lake.
Miss Princess E. Moon of Lansing is visiting William Crabb and wife of North Lake street.
Mrs. Walter C. Thompson of Ironwood is visiting her grandparents, Mr. and Mrs. P. H. Byrns.
Miss Louise Matthews left yesterday for Calumet, on a visit to her grandmother, Mrs. Ann Goldsberry.
Mrs. Joseph Koskilly of Virginia, Minn., formerly of this city, is here on a visit to her sister, Mrs. Al Blamey, of Empire street.

The local branch of the Finnish Brothers' Temperance association will hold a picnic Sunday at the Cleveland park. The Ishpeming Finnish band will furnish the music.
Roy Matthews will accompany the Ishpeming Finnish band on its Minnesota tour next week, leaving Sunday night for Duluth. He will play the snare drum.

The Dinner club, recently organized with thirty-two members, met Tuesday evening at the Golf club house. Dinners will be served there on the first and third Tuesday evenings of each month.

Captain H. D. Gough and family left yesterday morning for Superior, Wis., where they will conduct Salvation Army work. Adjutant and Mrs. Staiger of Sioux Falls, N. D., arrived in the city yesterday. Their welcome meetings will be conducted Saturday evening and Sunday.

The funeral of the late Charles Schaffer was held yesterday morning from St. John's church, and was largely attended. The pallbearers were the five sons of the deceased and his nephew, John Connors. James Schaffer, one of the sons, who lives in Milwaukee, was unable to attend.

The funeral of the late Rosa Hanson of Negaunee, who lived in Ishpeming for many years, and who was very well known here, will be held Sunday afternoon, with interment in the local cemetery. Members of the local Scandinavian and Danish Brotherhood societies will attend.

The funeral of the late Gilbert Vickery, held yesterday afternoon from the First Methodist Episcopal church, was largely attended by members of the Odd Fellows and Knights of Pythias societies as well as other friends. The deceased was born and reared in Ishpeming and was very popular.

A lot of Dutch Collars, Jabots, etc., at 10 cents.
(7-22-1f) F. BRAASTAD & CO.

William Pilley, 812 River Ave., Iron Mountain, Mich., says: "I was troubled by acute pains in the small of my back and did not know what caused them. When a friend advised me to try Doan's Kidney Pills, I procured a box and they soon relieved me. I gladly give Doan's Kidney Pills my endorsement in return for the good they have done me."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
Remember the name—Doan's—and take no other.

F. Braastad & Co. offer their entire line of Ladies' Dresses at half price, and less.

Negaunee Department

WORK ON MAIN ROAD NEARLY DONE

Has Been Widened Seven Feet and Macadamized for a Mile and a Half.

The improvements on the Negaunee end of the main thoroughfare between Negaunee and Marquette, started several weeks ago, will be finished within two weeks. The job is the most extensive one that the city has done in some years.

A stretch about a mile and a half in length has been improved. It extends from the old cemetery to the Carp river bridge. Formerly this portion of the road averaged about sixteen feet in width, but it has been widened to an average of twenty-three feet. The spreading of the gravel, all of which will be finished in ten days, but it will be some days later before the turnouts will be completed. One turnout has already been put in near the river bridge and two more are being made, one near the old cemetery, and the other about midway between the two points.

In several places grades have been reduced. The surface of the road has been raised on an average of over six inches. Some 4,000 cubic yards of gravel has been spread and over 10,000 yards of filling was put in. The gravel haul averaged over a mile, but most of the dirt for the filling was obtained close to the road. The job will cost in the neighborhood of \$3,000. The steam roller will be operated on the road for nearly a month. The surface is now a little rough, but within thirty days the road will be in better condition than it ever was before.

The Cleveland-Chiffs Iron company is making good headway with the clearing of the new cemetery site between the city and Eagle Mills. Practically all of the stumps, underbrush and second growth timber has been removed. Some of the pine stumps were of large size necessitating the blasting of the roots. Workmen are now grading the main roads leading through the plat, and the grounds are being enclosed with a square mesh wire fence. While the lots have not yet been staked out, it is possible that the work will be far enough advanced to permit the transferring of the bodies from the old cemetery during the fall and winter months.

First-class piano tuning done by M. J. Olson. County phone, No. 620. 400 East Ridge street.

Gas is in every way more satisfactory for cooking than any other fuel. Save money by putting in a gas stove.
(6-14-1f)

LANSING—Another section of land has been added to the experiment station of the M. A. C., located at Chatham, Alger county. The land will be utilized for the purpose of experimenting in the science of economical clearing of timbered and burned-over land. It is proposed to "stump" this land by means of cattle and the assistance of nature. Part of the land will be sown to timothy and clover and cattle and sheep then turned out. The grazing cattle will keep the smaller bushes browsed off, while the larger scattered timber that is wanted will grow shortly to make shade that will rot down the stumps.

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by The People's Drug Store.

After marrying for money many a man wishes he had been brought up to work for a living.

Ed. Roach and N. E. Ganung, representatives of the Great Northern Land & Townsite company of Spokane, Wash., are meeting with success here in the sale of town lots and farm lands at Trinidad, Wash., platted a few months ago. The town is situated on the Columbia river and is about midway between Seattle and Spokane, on the main line of the Great Northern system. The

Hair mattresses cleaned by the latest machine, just received. Don't discard your old mattresses, as I can make them as good as new. Franklin Wade, in Swanson & Person's shop, Cleveland avenue, Ishpeming. Both phones.
(7-21-1f)

Sealed proposals will be received by the Board of Public Works of the City of Negaunee, Mich., up to two o'clock p. m. of July 30th, 1910, and then be publicly opened for the improvement of a portion of Iron and Gold streets and Pioneer avenue as per plans and specifications now on file in the office of the Superintendent of Public Works and of the Engineer, H. W. Fesling, Houghton, Mich.
Bids must be indorsed "Proposal for Iron street improvement, etc." and be accompanied by a certified check on a solvent bank for at least five (5) per cent of total amount of bid made payable to the City Treasurer.
The right to accept any or to reject any and all bids being hereby reserved and to let the contract to other than the lowest bidder should it be in the best interests of the City to do so.
W. H. MITCHELL,
City Recorder.

Former Resident Writes Regarding Removal of Bodies from Cemetery.
Every once in a while City Recorder W. H. Mitchell receives a letter from some former resident, making inquiries regarding the removal of bodies of their deceased relatives from the old to the new cemetery. One of the most interesting that has been received came from Cornelius E. Seymour, who is now a corporal in the United States Marine corps on the Philippine Islands, and is serving in Company D, First Regiment, Mr. Seymour's father, William H. Seymour, was an early resident of the county, and he died in this city in July, 1869. His remains were interred in the Catholic cemetery. His brother, John Seymour, was killed in one of the mines here on Feb. 1879, and the remains of a younger brother who died in this city are also buried here. Mr. Seymour was born in Marquette, Nov. 18, 1867, shortly before the family moved to Negaunee. He visited the city in 1880 when the remains of his brother, John, were reinterred in the lot where his father and younger brother were buried.
Mr. Seymour writes that he would like to know what disposition will be made of the remains. He says that he will gladly pay all of the expenses of their removal to the new cemetery. He speaks of several old residents and particularly of the O'Leary brothers. He says that his mother died in Chicago in 1897. His two sisters were married years ago and both now have grown up sons and daughters.
Mr. Seymour has been in the army and marine corps since 1894, nearly sixteen years. He has been all over the world and has been in almost every state in the Union since then, with the exception of Michigan. He expects to remain in the Philippines until next April, when he will be transferred to one of the home stations. He has held various ranks in the non commissioned line from private to sergeant. He is now on his second trip to the Philippines, having been sent their first in 1899 during the war with Spain. He went there again in 1908.

IT'S YOUR KIDNEYS.
Don't Mistake the Cause of Your Troubles.
Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Residents of this vicinity are constantly testifying to permanent cures.
Both Phones.

CHURCH FAIR.
The ladies of St. Paul's Catholic church congregation have started work for the fair they will conduct during the week of August 16. Chances are being sold on a list of forty articles. It has not yet been decided whether to hold the fair at McDonald's opera house or at the Adelphi rink. The net proceeds will speak of several old residents and particularly of the O'Leary brothers. He says that his mother died in Chicago in 1897. His two sisters were married years ago and both now have grown up sons and daughters.

(6-14-1f)

TO REPAIR PECK STREET.

Three Blocks, from the School House to Brown Ave., to Be Macadamized.

A crew of men and teams will be put to work Monday removing the gravel from the surface of Peck street, which is to be macadamized with crushed rock from a point near the Peck street school building to the intersection of Brown avenue, a distance of three blocks. The crusher will be put in operation early in the week. The rock will be crushed to three different sizes. The total depth of the three layers will be in the neighborhood of six inches. It will be necessary to remove about 1,000 cubic yards of dirt from the surface of the street, and it will take the greater part of a month to complete the job.

A crew has started to work on the Bluff street sewer extension. It will be 900 feet in length, and eight inch pipe is being laid. The average depth of the trench is between seven and eight feet. The work was started on Lombard street, and the sewer will extend through that thoroughfare across Cy street to Bluff. The pipe will be run along both the eastern and western ends of Bluff street. As there will be no difficulty digging the job will be completed within a week or ten days.

IS NOW IN NAVY.

Former Resident Writes Regarding Removal of Bodies from Cemetery.
Every once in a while City Recorder W. H. Mitchell receives a letter from some former resident, making inquiries regarding the removal of bodies of their deceased relatives from the old to the new cemetery. (6-14-1f)

IT'S YOUR KIDNEYS.
Don't Mistake the Cause of Your Troubles.
Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they may lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Residents of this vicinity are constantly testifying to permanent cures.

PIG IRON MOVED WITH A MAGNET

Very Interesting Labor-Saving Device in Use at L. S. & I. Merchandise Dock at Presque Isle to Load Vessels With the Product of the Pioneer Furnace.

Two Men Able to Handle Nearly a Ton a Minute, the Electrolized Steel Lifting About 1,000 Pounds at a Time—Harbor and Slip Dredged to 21 Feet.

A most interesting mechanical labor-saving device is in use at the L. S. & I. merchandise dock at Presque Isle. It is a crane by which pig iron is handled with a powerful electric magnet.

At a distance the machine looks like a steam shovel, but at the end of the crane is a large piece of soft steel, circular in shape, three or four feet in diameter and about a foot thick.

On the average, the magnet handles about twelve eighty-pound pigs at a time, but sometimes it lifts a load weighing a ton.

The magnet can be used in loading iron on or off the cars at the furnace and at the dock the pigs can be taken off the cars and piled on the dock or in the hold of a vessel, as is desired.

The dredging which has been in progress at the L. S. & I. dock for the last two months was finished last evening and the dredge, which is owned by the Zenith Dredge company of Duluth, will be taken to Houghton.

THE UNITED STATES OF AMERICA—Western District of Michigan. Whereas, on the 13th day of July, 1910, Edward F. Kennedy, by John L. Adams, attorney for libellant, filed a libel in the District Court of the United States for the Western District of Michigan against the steam tug "Ethel J." her boats, tackle, apparel and furniture, in a cause of contract and marine.

And Whereas, by virtue of process in due form of law, to me directed, returnable on the 2nd day of August, 1910, I have seized and taken the said steam tug "Ethel J." and her boats, tackle, apparel and furniture, and I have the same in my custody.

Notice is hereby given that a District Court will be held in the United States court room, in the city of Marquette, Michigan, on the 2nd day of August, 1910, for the trial of said premises, and the owner or owners, and all persons who may have or claim any interest, are hereby notified to be and appear at the time and place aforesaid to show cause, if any they have, why a final decree should not pass as prayed.

NOTICE TO RECEIVE BIDS. Notice is hereby given that sealed bids will be received by the County Road Commissioners of the County of Alger, at the office of the county clerk until Thursday, July 28, 1910, at 2:00 o'clock P. M., for the following described work to be done on the Alger County Road System, to-wit:

Proposal, The clearing, grubbing and grading on the Charbon-Delta county Road between station 694 plus 75 to station 705 plus 68.

All of the proposed work to be in accordance with the profiles, plans and specifications adopted for said road, and to be completed on or before October 1, 1910, copies of which may be seen at the office of the County Clerk, Munising, Alger county, Michigan.

Bids for the construction of the above may be submitted for the entire work or for each subdivision separately.

POLARIS MINERAL WATER delivered to any part of the city in sterilized one-gallon bottles. Telephone, Bell No. 118-L. Polaris Water Co., Marquette.

DELIGHTFUL CONCERT.

Program at the Normal Heard by an Enthusiastic Assemblage.

The Northern Normal annual concert, which was given last evening under the direction of Miss Sophia Linton, was enjoyed by a very large and enthusiastic audience.

A really excellent program was rendered, every number of which had an artistic finish rarely heard outside of great cities.

The Recitative and Cavatine from Lucia Lammermoor was exquisitely rendered by Mrs. Alton T. Roberts. It is a pleasure to know that we have in our community a singer so artistic and so generous that we are enabled to hear selections from the great operas perfectly rendered.

Earl Killeen, of the University School of Music, Ann Arbor, was heard in concert for the first time in Marquette. His selection of songs was very happy and his rich baritone voice was heard to good advantage.

"The Cycle of Life" by Landon Ronald was beautifully sung by Miss Harriet Ohtman. Mrs. Harry Davis played C. Chamindre's Spanish Caprice in her usual happy manner.

"UP AND DOWN BROADWAY." Boxes and a Few Seats to Be Auctioned Off Monday Morning.

"The most enthusiastic chorus I have ever trained," was the comment of Donald McDonald last evening, following the rehearsal of "Up and Down Broadway."

Those who are particularly anxious to secure boxes or the best orchestra seats will have an opportunity to accomplish their desire at an auction to be held in front of Bigelow's store, where P. W. Phelps will act as auctioneer, before the regular seat sale opens next Monday morning.

At this time the boxes and a limited number of the choicest orchestra seats will be sold to the highest bidder.

"Has Beens" Win Ball Game. The "Has Beens" surprised themselves and their friends by defeating the Guild Hall nine handily yesterday afternoon by a score of 5 to 2, in seven innings, and proved their right to be called the "Are Yets."

Has Beens—Thayer, catcher; Fox, pitcher; Miller, shortstop; G. N. Hodgkins, first base; Gilbert, second base; Osgood, third base; Dr. Carriel and B. G. Burt, left field; J. H. Primeau, Jr., center field; G. W. Gehrand, right field. Guild Hall—Larson, catcher; Smith and Crebassa, pitchers; Hayes, first base; Schank, second base; Hately, third base; Frel and Quarters, shortstop; Crebassa and Smith, left field; Lindstrom, center field; F. Hatch, right field.

Good progress is being made in the tennis tournament. Harold St. John and Philip Case have won the doubles in the E class by defeating Felch Pennell and Lawrence Tucker, 6-3, 6-4, and Langan Fozard and DeWitt Van Evera, 6-0, 6-3.

All members of the boys' 85 class are requested to meet in the reading room at 8 o'clock tonight. Important matters are to be considered.

For milk of superior quality call up the Marquette City Dairy, where cattle are fed on green food and kept comfortable in hot weather by the use of electric fans.

It's the experience of every man that he wants a lot he doesn't get and gets a lot he doesn't want.

SWEDEN'S MEASURES TO PREVENT FIRES

Col. C. H. Graves, of Duluth, Tells How Woods Are Kept from Devastation by Flames.

In view of the incalculable damage that is being done to timbered areas of the northwest by fire this summer, owing to the extreme drought, the methods of European countries by the practice of which forest fires have been largely eliminated, are of timely interest.

"These towers are about 50 feet high and the lookouts are provided with very powerful telescopes with which they can see over a great area. Below the tower is a small building in which the lookouts live.

Fire Alarm at Once. "When he discovers a fire starting, he gives the alarm and it is the duty under the law of every able-bodied person to turn out from village and farm and help fight the fire.

"The usual methods for extinguishing the fire are whipping out and spading, although of course where water is available it is used.

Wide Swaths in Forests. "Sweden also has another plan to keep losses from forest fires to the minimum. It has great swaths, fifty feet wide, cut through its forests in many places, and it has found that measure very efficacious.

"Sweden has very stringent laws for the protection of its forests, and I cannot help but refer to them. A man owning a tract of timber there cannot cut one stick of it until the government officials permit it.

"I am not ready to say that cutting 50-foot swaths in our forests would be desirable, but the other measure pursued by Sweden has my approval. I have seen how it works and know it to be successful.

"You are planning—have YOU the suit that will make you look of the best? Remember—when traveling you are always among strangers and that a stranger's opinion of you is largely made up by the way you are dressed.

If you have on garments made by us to YOUR measure you'll look as well as the best dressed Metropolitan.
