Per month, by carrier, \$0.50

MARQUETTE, MICH., AUG. 5.

Entered as mail matter of the second
class in the postoffice at Marquette, Mich.,
October 10, 1907, under No. 1007.

REPUBLICAN COUNTY CONVENTION.

A Republican convention for the county
of Marquette is hereby called to meet at
the City Hall in the City of Marquette, on
Wednesday, the 14th day of September, A.
D. 1910, at 11 o'clock in the forenoon, for
the purpose of electing twenty-two dele-
gates to attend the Republican state con-
vention to be held in the City of Detroit
on Thursday, the 6th day of October, 1910,
at 11 o'clock in the forenoon, for the pur-
pose of nominating candidates for state
offices, for the election of a state central
committee and a chairman thereof, and
for the transaction of such other business
as may properly come before the conven-
tion.

The several wards in the cities of Mar-
quette, Ishpeming and Negaunee, and the
townships of the county are entitled to
delegates in the convention, based on the
vote for governor at the general election
held in November, 1908, as follows:

Table with columns: City/Township, Votes, Delegates. Lists Marquette City, Negaunee City, Ishpeming City, Townships, and Total delegates.

Total delegates.....80
Dated, Ishpeming, Mich., Aug. 3, 1910.
M. M. PINNACAN,
Chairman Marquette County
Republican Committee.
E. W. MacPHERSON, Secretary.

Recent convention returns are of a
nature to confirm that estimable candi-
date, Senator Burrows, in his plan to
keep going.

Senator Crane has one excellent qualifi-
cation for a secret political mission.
He can say nothing in several different
languages.

Representative Calderhead whom
Uncle Joe went to Kansas particularly
to help him, it seems, been more decis-
ively cleaned up than any of the other
candidates for representative who bit
the dust.

At Des Moines, Senator Dolliver said:
"The day has passed when men think as
others think, or speak as others advise
them to speak. No harm can come to a
party because of a difference of opinion.
When you find all people thinking alike,
if you are industrious you can locate the
office where the thinking is done."

It appears that if Uncle Joe Cannon
had campaigned a little more energetically
in Kansas, instead of confining his
work to but three or four addresses, the
entire slate of Kansas insurgent Republi-
can candidates for representative nomi-
nations might have been successful, in-
stead of only six out of the eight.

Gains, gains and then more gains is
the burden of the reports coming from
the lower state counties in which Mr.
Osborn is conducting his campaign for
governor. The most significant feature
of his canvass has been the warmth of
his reception in those counties and con-
gressional districts where Lieutenant
Governor Kelley, the man Mr. Osborn has
to beat, has been believed to possess his
greatest strength.

The rival candidates for congress are
thundering around Houghton county this
week. Mr. Kerr is going to thoroughly
canvass his own balltwick with the idea
of building his majority there up to the
highest possible point, and he opened his
campaign with an enthusiastic meeting
at Lake Linden. Mr. Young is on the
ground to cut into Mr. Kerr as much as
conditions will permit. Houghton coun-
ty is getting more fun for its money
than it ever had in politics before, much
more fun than Marquette county, by the
way.

Long distance political prognostica-
tions are dangerous things to experiment
with. Immediately after the Iowa pri-
maries the Houghton Gazette, which
cannot abide an insurgent, ventured this
one: "The regular Republicans will con-
trol the state convention. Senators Dol-

Emblagaard Dairy
Pure Dairy Products
from Holstein Cows.
GEO. GILLETTE,
Distributor.

liver and Cummins and their program of
insurgency will not be approved by the
state gathering of Republicans of the
state of Iowa, even if Senators Dolliver
and Cummins get down on their hands
and knees and ask for that approval."
Wonderful, isn't it, the way the Gazette's
guess has been borne out?

The last two weeks of the month will
witness a rapid fire speaking campaign
throughout the upper peninsula by a
party of Mr. Osborn's friends. There
has been some demand that Mr. Osborn
give a little of his time to this region.
It has its basis not so much in the idea
that he needs to put in the work to ce-
ment his support as in a desire to hear
his presentation of his candidacy. But
Mr. Osborn's important work lies in the
lower part of the state. Most of the
votes are to be gleaned there and Mr.
Osborn must expand his personal ac-
quaintance where he is least known. It's
absurd even to suggest his leaving such
an important field to give any of his
time to the upper peninsula. The party
that has been formed to make the close
speaking tour in this region will ably
represent Mr. Osborn. His personnel
includes strong and appealing stump
speakers and its itinerary will cover a
good share of the upper peninsula. The
fruits of its work cannot help but be
excellent.

President Taft will deliver the open-
ing address at the St. Paul conservation
congress on September 5. There was
some misunderstanding about the in-
vitation that has now been extended to
the president and accepted by him, but it
is fortunately cleared away. It is fit-
ting that President Taft, who has given
tangible expression to his belief in the
great policy the congress is held to fo-
ster and his desire to advance it in every
way, should open the deliberations, for
the progress that will be made in prac-
tical application of the policy in the
next few years depends perhaps more on
President Taft than on any other one
man. The conservation congress should
be kept free of all differences between
the conservationists of the different
schools and should stick closely by the
principal issue. The less it wanders to
survey the controversies that have arisen
in connection with the policy the past
twelve months or more the more effective
it will be for significant service to the
cause.

The reports that will be returned by
the Ballinger-Pinchot investigating com-
mission have not yet been formulated,
but even without them to stir interest
in this memorable controversy Mr. Bal-
linger continues very much an issue. It
is reported that President Taft has been
under much pressure to take the initia-
tive in some movement that will mean
Mr. Ballinger's retirement from the cabi-
net. This pressure does not come par-
ticularly from friends of Mr. Pinchot
or from the progressive wing of the
party, but from levelheaded leaders who
have not been particularly involved in
the vexatious controversy and who are
not particularly interested in either side
of it. What they are primarily inter-
ested in is the success of the Republican
party, and they conceive that Mr. Bal-
linger is a considerable load to carry at
a time when the party should be light-
ening itself of all incumbrances and
preparing to go into action in the best
of fighting trim. President Taft is re-
ported to be absolutely unmoved by the
representations that have been made to
him. He believes implicitly that Secre-
tary Ballinger has the rights of the con-
troversy in which he is one of the cen-
tral figures and believing that, would
scorn to advise or suggest that he take
a course that would, even within a mea-
sure, be interpreted as a confession of
culpability. There have been presidents
who have been willing to make seagoings
to help themselves out of trying situa-
tions; but President Taft is not one of
them. Nor does Secretary Ballinger
show any disposition to take himself
out of the way. He says he is going to
stick, and he doubtless will. Handicap
he may be, but it seems to be on the
cards that the party will have to carry
him. There is no way in which he can
be gotten rid of gracefully or in which
he can efface himself without his action
being interpreted as a tacit confession of
the truth of much of the mass of allega-
tions against him. And yet there's no doubt
that it would be an excellent thing for
the party if Ballinger could be lost in
some manner that would not violate the
promises.

NO VALID TAX ROLLS.
"There is not a valid assessment roll
in the upper peninsula, because any as-
sessment roll not made on a cash basis
is a violation of the constitution," is
the seemingly startling declaration made
to the Detroit News by George Lord,
secretary of the state tax commission,
which recently completed a trip in this
part of the state.

But Mr. Lord might as truthfully
make it a great deal more startling. He
might have said, "There is not a legal
assessment roll in the state of Michigan,
because any assessment roll not made
on a cash basis is a violation of the
constitution." That he did not do so is
doubtless because of the failure of his
interviewer to put the question to him.

The investigation made by the com-
missioners has pretty thoroughly per-
suaded them that this is the case. Both
commissioners and secretary have re-
turned from their trip convinced that
there is need for a statewide review of
the taxing system, particularly of that
part of it relating to assessments, and

one member expresses the belief that
farm lands are assessed as low, in pro-
portion, as the mines of the upper penin-
sula, which the state grange has singled
out for its special attention.

Fair minded men in all parts of the
state have come to see, and admit, that
the question that has been raised is not
a sectional one, and that the evil of under-
assessment exists in every county in the
over eighty that make up the state of
Michigan. This grante, it goes with-
out saying that the remedy applied will
be one that will embrace the entire
state, and we will hear no more of mak-
ing our seven upper peninsula mining
counties the scapegoat for the sins of
omission of the assessing officers of the
entire commonwealth.

It is an interesting fact, and a signif-
icant one, that Secretary Lord's in-
quiries have persuaded him of the in-
utility of the tonnage tax idea of grap-
pling with under-assessment of mining
properties. He is opposed to it for
three reasons: First, the state has been
for years trying to get its property on
an ad valorem basis, and to go back to
a specific tax would be a backward move-
ment; second, the tonnage tax is not a
feasible one for the reason that the ex-
pense incurred in the verification of the
tax on the tonnage mined would be so
large that it would eat up all the reve-
nues from that source; third, that it
would be unjust, for there are some
mines where the cost of production does
not exceed \$1 per ton, while it costs
other mines from \$1.50 to \$2 per ton to
mine the same amount of ore. Again
there are many mines not raising any
ore at all. These would not be taxed,
while in reality their property might
be worth millions.

As we have suggested, the inquiries
of the state tax commission the past
few weeks have shown clearly that the
problem of under-assessments is a state-
wide problem, and must be approached
with statewide remedies. The section-
al idea of singling out the upper penin-
sula for any special treatment must, in
the light of the facts, be given up. The
work of the tax commission has removed
the issue from the realm of politics.
All the candidates for governor want
some order in the taxing system and
they want drastically wrong condi-
tions corrected, wherever they are found.

gotten. He was put forward as the
temporary chairman to hold down the
tempo of the proceedings by a dreary
speech, so as to avoid any danger of a
stampede to Roosevelt and to give to
the allies the greatest freedom to try to
bring their schemes to name a reaction-
ary candidate to a successful fruition.
Previous to this Senator Burrows had
exercised his influence to prevent the in-
struction of Michigan delegates for Mr.
Taft.

Senator Burrows' talents have always
been at the service of the reactionaries,
and to this service he has given of them
liberally. He was consistently unsympa-
thetic with and unfriendly to Presi-
dent Roosevelt's projects and sat in the
game, to the last minute, to secure the
nomination to be his successor of a re-
actionary of the Aldrich-Cannon school.
In the light of the facts his free use of
the names of Roosevelt and Taft to serve
his campaign purposes borders on bald
apocryphy.

THE STATE PRESS.
Writing from Lansing, Mr. L. E. Row-
ley says: "I admit that the insurgents
have done some good work, but —
Now isn't that just too sweet of him!"
Detroit News.

Rain has fallen in Kentucky every
day for five weeks and Kentuckians are
getting discouraged. Rainwater is of no
use whatever in making mint juleps.—
Flint Journal.

After all, the married man has the
best of it. He always is beset by one
woman, while the bachelor has to be
aware of them all.—Jackson Citizen-Press.

Patents have been applied for on a
new airship, which is claimed to have
some striking points. An airship with-
out any striking points would be much
safer for the aviator, however.—Pontiac
Press Gazette.

President Taft absolutely refuses to
talk politics. Talking does not knock
off the permissoms in politics. If it
did Bryan would have been president
for the past fourteen years.—Grand
Rapids Press.

We do not wish to appear pessimis-
tic, but we must admit that our hopes
that Saginaw would again capture the
penman have declined somewhat since
the opening of the season.—Saginaw
News.

THE GRANGE IS TAKING A WARM INTEREST
in the fight for the speakership of the
house, which for some time has been
dormant. Up to the time of the meet-
ing of the State Grange at Traverse
City, Speaker Campbell claimed seventy
votes for the speakership, and nobody
seemed anxious to dispute with him.
But lately the Grange has taken up the
cudgels in behalf of Herbert F. Baker
of Cheboygan, who has been a candidate
all along and who is also a member of
the executive committee of the State
Grange. The Grange is sending out let-
ters on behalf of Baker and urging all
the subordinate granges to pledge their
legislative candidates to vote for Baker.

AMOS S. MUSSELMAN IS MAKING A TRIP
through the eastern counties. He is go-
ing to campaign in Wayne and Genesee
counties, Jackson, Lapeer and Saginaw.

THE DYSPEPTIC'S ERROR.
The dyspeptic who gives prayerful
thought to every bite he eats sat down
at a restaurant table and glanced dis-
tantly over the French menu card on
which a dozen items were marked with
a cross in red ink.

"To my untutored mind," said he,
"those things sound all right. Some of
them follow with a stomach has been
here a few things that a Christian can eat
without the slightest sudden death."

"Good Lord," said the dyspeptic and
bolted for the nearest doctor.—New
York Sun.

HERE AND THERE.
The international credit of the world
today rests upon \$4,000,000,000 worth
of gold, in the banks and treasuries of
Europe and America. The reported gold
holdings of our banks is largely paper
certificates. The actual metal is only
used, to any appreciable extent, in inter-
national transactions.—August Lippincott's.

A LAUGH OR TWO.
His Regular Nightly Go.
Judge Hilary C. Guest, the temperance
advocate, said in a recent address at
Cleveland:

"Alcohol makes some men pugna-
cious. A man of this type was drinking
glass after glass of beer in a saloon
when his wife entered.

"Jim," she said wearily, "it's after
the eleven o'clock, and you have got to
get up at five. Have you had your scrap
yet?"

"Naw," Jim started.
"Then get it scrapped and hurry on
home, do!"

plorable thing," said Senator Briggs
in a recent address at Trenton.

A Figure Of Speech.
The baldest man in congress is Repre-
sentative Ollie James of Kentucky.
One hot afternoon, when he was engaged
in a heated colloquy with Mr. Payne of
New York, he shook his fist and wagged
his head with great energy.

LOWER STATE NOTES.
LANSING—President J. L. Snyder of
the Michigan Agricultural college has
just received the resignation of Dr. J. R.
Dandeno, the assistant professor of bot-
any in that institution. This, together
with the resignation of Dr. W. J. Beal,
the head of the department, and several
of the instructors will cause important
changes in the botanical department for
the coming year. Dr. Dandeno came to
East Lansing eight years ago to fill the
position of assistant professor of botany
from the high school of St. Louis, Mo.,
where he had an instructorship in bot-
any. Previous to that he had been at
Harvard university for several years.
From here he goes to a small college
near Toronto, Canada, where he will
teach general scientific work, including
biology and chemistry.

KALAMAZOO—J. Gore Baller, a
well-known physician who conducts the
physic-medical institute here, was ar-
rested and placed in jail on a capias, the
complaint being made by Nellie Kowley,
a young girl of this city. The girl has
begun a \$10,000 lawsuit against the
doctor, alleging criminal treatment. Dr.
Gallaher has been a resident of Kalamazoo
for many years and his practice is
believed to be the largest of any Kalamazoo
physician. His total net worth is
\$4,000. The girl who makes the charge
against Gallaher is in Bronson hospital
in a serious condition.

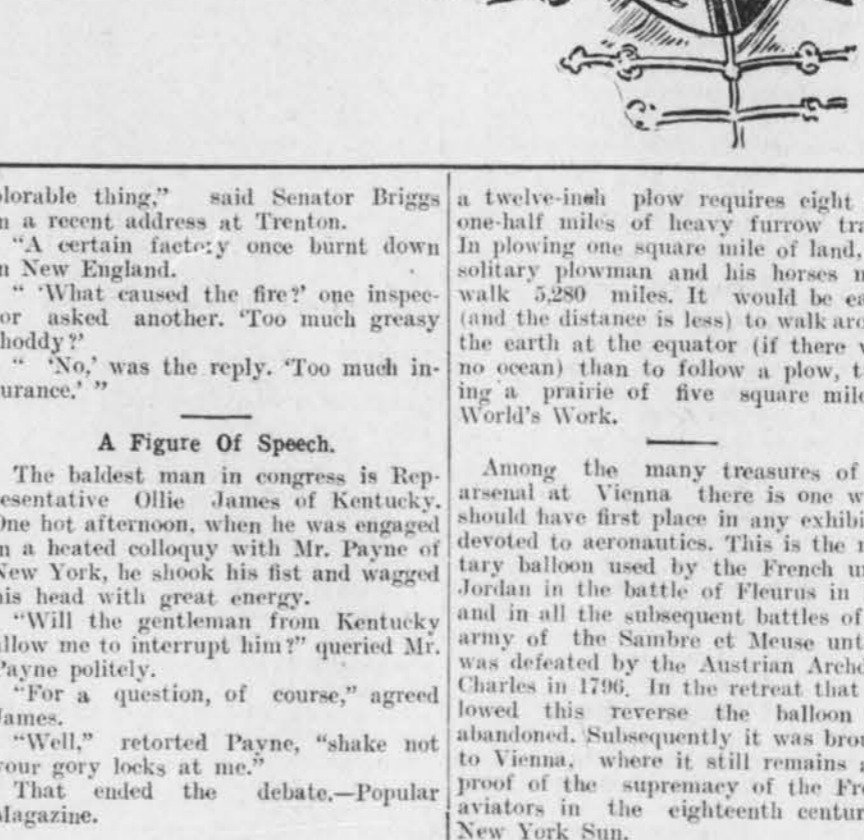

BIG RAPIDS—William Rouse forty-
four years old, is locked up in the coun-
ty jail, a self-confessed principal in a
systematic series of robberies that have
mystified those living in and around
Chippewa lake for nearly three years.

LANSING—The state board of health
has given a report on weather statistics.
According to the report, July was the
hottest July during the last thirty-one
years, that is, the monthly mean tem-
perature was higher the last month by
several degrees than during any previous
July since 1879. The report also says that
the monthly mean rainfall for July was
2.21 inches less than during any July
since 1879. The authorities do not offer
an explanation for the causes of the un-
usual weather conditions, but the report
gives the results of various observations
and meteorological records.

SAGINAW—Judge Kelly Seal, of the
Griatiot circuit court at Ithaca, will re-
view the evidence for the calling of a
grand jury in the recent April primary
election frauds and his arrival here
awakened new interest in the probe of
the alleged frauds. Judge Seal took all
the papers in the case, in the custody ac-
cured by Prosecuting Attorney Browne,
and such other documentary evidence as
he may need back to Ithaca with him
and will pass on the advisability of call-
ing a jury. The result of his investiga-
tion will be made known throughout the
Griatiot county circuit court.

SAGINAW—That love is not found
only in young hearts was shown here in
the wedding of Charles W. West, aged
seventy-six, of Union City, and Mrs.
Ellen Minto, aged sixty-eight years, of
St. Charles. The wedding was the cul-
mination of a courtship extending over
several years past. The groom is a retired
business man of Union City and the
bride is the widow of George Minto. The
groom appears as active as a man forty
years younger. After a short wedding
trip Mr. and Mrs. West will live in Union
City. Both have children from former
ties.

HASSAN
CORK TIP
CIGARETTES
The Oriental Smoke
To enjoy their aroma—to
taste their mild, oriental flavor,
will make you wonder how we ever
accomplished it. The
secret is the blending
of the mellow tobacco
of which Hassan Ci-
garettes are made.

## ARCHBISHOP IRELAND COMING.

Distinguished American Prelate Will Be Passenger in Juniata.

Archbishop Ireland of St. Paul will be a passenger in the steamer Juniata when it arrives from Duluth this morning. The archbishop is taking a lake trip and will be here only during the short stay of the boat. Archbishop Ireland is one of the greatest prelates of the Catholic church in America and his visit here will be of especial interest to people of this faith.

## GOLF AT PORTAGE LAKE.

Play for the Paine Ringer Contests Cups Has Opened.

C. H. Moss, one of the oldest members of the Portage Lake Golf club, and one of the most enthusiastic, says that he believes the donation of two cups by William A. Paine for ringer contests will do more to bring people to anything which has been done for the club in years. The conditions make it possible for every game played to assist a player in getting a good standing in the contests, because if a player should be made to hole in a record number of strokes and he can get credit for that hole regardless of the others.

The play has opened for the Paine cups and the players are getting worked up as the possibilities of the contests are beginning to be apparent. An instance is shown in the case of John J. Zealand, one of the tyros. He made the seventh hole in three on Wednesday afternoon, which is two under bogey. As he has a handicap of one at that hole he has made a record which probably will stand for some time.

## BIG PROHIBITION MEETING.

Gathering of the Anti-Saloon Party in Laurium This Evening.

A meeting of the Prohibition party of Houghton county will be held in the Finnish temperance hall, Laurium, tonight. It is called for the purpose of discussing the coming county campaign and nominating a full county ticket, if that course is decided upon. The following program is announced: "The Enforcement of the Law"—Rev. Lewis Keast of Dollar Bay. "The Prohibition Question from an Economic Standpoint"—Rev. A. E. Healy, Oscoda. Address, subject selected—Rev. A. B. Sutcliffe, Houghton. Music by male quartet.

## YANTIC LEAVES TONIGHT.

Hancock and Escanaba Naval Reserves Will Go on Annual Cruise.

The U. S. S. Yantic, having on board the Hancock naval reserve and the Escanaba naval reserve, constituting the upper peninsula battalion of the Michigan Naval Brigade, will leave tonight for Detroit to rendezvous with the other ships of the great lakes naval militia squadron, which will cruise to Buffalo.

The ship is in command of Captain H. S. Goodell, commander of the upper peninsula battalion. Lieutenant Henry Heeler commands the Hancock division and Lieutenant C. D. Mason of the Escanaba division. Lieutenant Grant Stephenson of Escanaba is to be the executive officer and Lieutenant Allan F. Rees of Houghton will be navigator.

## ODD FELLOWS' BIG PICNIC.

Copper Range Railroad Pulls Immense Trains to Freda Park.

The annual picnic of the Odd Fellows of the copper country was held yesterday at Freda Park and it was one of the biggest excursions of the year. The Copper Range railroad pulled a train of seventeen coaches in two sections into the park. A train of eight coaches left Calumet at 8 o'clock yesterday morning and every car was crowded. Another section of eight coaches left Houghton and another car was added to this at Mill Mine Junction. Superintendent Files estimated that there were seventeen hundred people in the train. Later trains took belated Odd Fellows and their ladies to the park and probably two thousand people all told spent the day there.

## DEER KILLED OUT OF SEASON.

Game Warden Jack Rowett Was There at the Psychological Moment.

Jack Rowett, of Ironwood, the Cornish warden and special deputy game warden, was in Ontonagon yesterday night waiting for a train. He sat in the office of the Hawley House talking with a group of friends when he heard shots off in the woods. "Somebody killing skunks, I guess," said the warden, "but I guess I'll take a look."

He went into the woods and almost fell onto the men who had just shot a 150-pound deer. He confiscated the deer and arrested the men. The fellows were John Puaring and Albert Dee, southern Michigan men, who have been working at Ontonagon. They were taken before Justice Johnson and fined \$18 each.

## NORWEGIAN YOUNG PEOPLE.

Society of District Will Hold Annual Convention in Calumet.

The Norwegian Young People's society of this district will hold its annual convention at the Norwegian Lutheran church, Calumet, Sunday and Monday, next. It will be the second annual meeting. Delegates are expected from Marinette, Oconto, Porterfield and Peshigo, Wis., and Escanaba, Pequaming and Hancock. The convention will be opened Sunday morning with divine services at the Norwegian Lutheran church, and the first business meeting will be held Sunday afternoon. At this meeting the officers will be elected. At the evening service in the church the convention sermon will be preached. Monday the members of the society will go to Crestview Park for an outing. In the evening a social session will be held in the church parlors.

## RED JACKET RUNNING TEAM.

The Red Jacket department will be represented by a strong running team at the annual tournament of the Upper Peninsula Firemen's association at the Soo next week. The Red Jacket firemen believe that their team, which is made up of some of the best known athletes of the north end of Houghton county, will easily capture the main events of the tournament. There are fourteen men as follows: Martin Doolley, Joseph McManara, Ole Olson, Will Niekirk, E. J. Smith, Ray Dozier, Charles Gilbert, Borchgrevink, Martin Peterson, Albert Ruonavaara, Ben Grenier, Bert Murphy, John Petlewski and George Peters. The team will enter every event.

## A SANITATION INSPECTION.

The members of the board of Calumet township yesterday made a tour of inspection with a view to starting a sanitary campaign. The board recently has been compelled to pay large bills for the health department and believes that a cleaning up would reduce this expense by removing the causes of disease.

## STORE CHANGES HANDS.

Harry Levin of Prentiss, Wis., pioneer in-law of A. Niemark, one of the prominent merchants of Calumet, has purchased the stock and trade of the Niemark clothing and men's furnishings store on Third street. Mr. Niemark has been in business in Calumet more than thirty years.

## DELIVERED THE HOCKEY CUP.

The silver cup representing the championship of the Copper Country Amateur Hockey league was presented to the Mohawk team by President Fairbank at a meeting of the league held at the Douglas House, Houghton, Wednesday night. It was a quiet affair, only representatives of the clubs being present.

## TO VISIT IN CUBA.

Mrs. Joseph H. Hodgson of Houghton left yesterday for her former home in Havana, Cuba, accompanying her sister Mrs. O'Rourke, who has been visiting here for some weeks.

## MRS. BEEHLER'S FUNERAL.

The funeral service for the late Mrs. Agnes Beehler, who died Tuesday, was held yesterday morning in the Sacred Heart church, Calumet, and the remains were taken to L'Anse for interment. Mrs. Beehler having been a pioneer resident of that place.

## MOTHER'S DEVICES.

Children should be taught the ethics of complaining before they can speak plainly. The best thing a mother can do is legitimate only when it is intended to serve a purpose—to remedy the evil in question. Idle complaining is a wrong to the victim who has to listen to it, as well as a confession of weakness of mind in the complainer. If complaining can make things better, by all means complain; if not, keep still, and in as far as possible, forget your grievance. No one has a right to make another person listen to a detailed history of his (her, usually) discomforts. If the knowledge of them needs to be communicated, let it be briefly and detachedly as possible. Of course do not require any such standards of stoicism from ignorant, untrained minds. This is merely the ideal that we have in view, the far-off goal that we hope some day to attain.

Then, too, mothers are exceptions; a great many weaknesses are legitimate with mothers. What is the use of a mother if we can't let go with her and be just the weak, self-indulgent, cowardly little animals that we are at bottom? Our complaints do not bother her; she will go on getting married and for knowing our sins better, by all means, to hide our transgressions from her. Our children know that they can come to us and pour it all out, however trivial or childish it may be, and never lose a chance to make them realize that it is a self-indulgent mother who is permitted with people other than mothers and fathers.

Germany is to have indestructible aerial warships. From earth modern progress moved the locality of battles to the sea and now it is to be moved thence to the air. It is characteristic of the perversity of human nature that the first thought of the practical adaptation of man's victory over the resources of nature should be to use this victory for the destruction of man.

# TOGA FOR HITCHCOCK?

He May Represent State of Arizona in the Senate.

Postmaster General's Office Not Wholly Congenial and He Is Likely to Start for the Southwest if the Republicans Secure Control of the Constitutional Convention—He Owns a Paper and Has Other Investments.

Washington, Aug. 4.—Will Postmaster General Frank H. Hitchcock, former chairman of the Republican national committee, resign in due time and seek election to the United States senate?

This interesting question is revived by the return of Mr. Hitchcock from a flying trip to Europe, and the knowledge that New Mexico and Arizona very soon must prove to congress whether they are Republican or Democratic. Congress will not longer time from passing the statehood bill, and it was really the representations of Mr. Hitchcock to the Republican leaders that the territories were "all right" from the party point of view that induced the senate finally to approve the statehood bill. The leaders have not doubted the Republicanism of at least Arizona, but believed that even if the new states should prove to be nominally Republican they would send Democrats to represent them in congress.

Dr. Oleott said that a great problem of the constitution adopted by each state shall not become effective until it has been approved by both congress and the president. There is a proviso, however, that if congress shall fail to approve the constitution at the next regular session they shall become operative. Candidates for the United States senate will then be in order. Mr. Hitchcock has some personal and political reasons for desiring that the state should be prosperous and Republican. He is the owner of a newspaper in Tucson, of which James T. Williams, Jr., a former Washington newspaper correspondent and later civil service commissioner, is the editor. Mr. Hitchcock apparently has not been informed of his present office, and his friends expect him to pull out for Arizona should the Republicans obtain control of the constitutional convention.

## CONVENTIONS COMING SOON.

New Mexico is to hold an election Sept. 6 for delegates to her constitutional convention, and on Sept. 12 Arizona will elect delegates to her convention. The campaign in each territory, it is announced, will be short and spirited. The Republican national organization if it is what Mr. Hitchcock wants it to do will send into the territories some forceful speakers from the north to tell the people that they ought to elect Republican candidates for seats in the constitutional convention. Senator Beveridge expects to be the speaker for Arizona.

## THE CONDEMNED.

The family had heard that bachelor Uncle Joe was going to get married, and there had been much caustic comment over the coming event, mingled with many expressions of sympathy for his fate at the hands of the designing woman who had captured him, all of which were overlooked by the keen and open-eyed Joe when he saw the constitutional "Pa," said the youngster one day, "I hear Uncle Joe is going to be married next week."

"Yes," said the father. "Uncle Joe has only three days more."

The little boy sighed. "The last thing he said," they give them everything to eat that they ask for, don't they, pa?"

A new laboratory has been built at the Barren mine and Fred Cornell of Ishpeming has taken the position as chemist.

Nearly all of the engineers speak with enthusiasm tempered by professional mannerism of the proposition to bring the Catskill mountain water into New York city by means of a very deep level tunnel. At a hearing a day or two before the city authorities one of the ablest of the engineers, who advocated this plan spoke especially of the adequacy, and in the long run the economy which will be found in the construction of an aqueduct tunnel several hundred feet beneath the surface of Manhattan and the Bronx. And when an inquisitive amateur philosopher asked this engineer what would happen if there were an earthquake, he received the reply that whatever the devastation of an earthquake upon Manhattan might be, it would not in the slightest degree impair a tunnel constructed at a depth of from 500 to 700 feet.

A German professor has decided that the various branches of the human race descended from four different varieties of apes. We cling to the opinion, however, that the fellow who rocks the boat is a great-grandson of some laboon.

## INSURANCE AGAINST RAIN.

Lloyd's of London Will Pay for Excess of Wet Weather.

London, Aug. 4.—As the rain promises to hurt the Englishman's summer this year as badly as it did last year, a scheme of insurance has been drawn up at Lloyd's by which underwriters are prepared to insure against one-tenth of an inch of rain falling on more than two days a week at any towns on the south and east coasts, where the daily rainfall is officially measured or satisfactory records can be obtained. For a premium of \$1,800, covering seven days, compensation will be paid at the rate of \$2,500 a day for every day in excess of two days on which one-tenth of an inch of rain falls, while a premium of \$2,500 insures against an excess of four wet days in a fortnight. The greater part of the one-tenth of an inch must fall in the day time.

# TUNNEL BUILDERS TO DIG 1700 FEET

New Aqueduct Under the Hudson Will Require One of the Deepest Shafts in the Record of Engineering—Great Power May Be Generated in the Fall.

New York, Aug. 4.—Dr. E. E. Oleott, widely known to civil and mechanical engineers, and first president of the Engineers' Association which occupies the great clubhouse that was given by Andrew Carnegie, said this morning that he has ascertained that a very important change of purpose, or at least a contemplated change, respecting the construction of a part of the world's greatest aqueduct, that aqueduct is to cost not less than \$100,000,000, and it is to be constructed for the purpose of bringing water from the Catskill mountain regions to New York City. It is regarded by engineers as a constructive work for aqueduct purposes unparalleled in modern times, and possibly to be matched in magnitude only by one of the historic systems of Rome.

Dr. Oleott said that a great problem for the engineers was that which involves the carrying of the water across, over or under, the Hudson river. The siphon method, which is probably the one to be adopted, necessitates the construction of a tunnel under the Hudson and the first question was that this tunnel must necessarily be of a depth of at least 1000 feet below the surface. That depth was essential if the water was to be siphoned up to the planned elevation on the east side of the Hudson, where by gravity the water would be carried 40 miles to the city, which will be constructed in the outskirts of Yonkers.

The engineers found, Dr. Oleott says, unexpected and very peculiar conditions at the bottom of the Hudson, Borings were made for a distance of some 700 feet below bed rock, and discovered. And the geologists at the United States have manifested a great interest in the preparatory work done by the engineers some of them believing that the tests will tend to confirm the opinion of some of the ablest of modern geologists that the first outcropping of land on this globe was that which the Adirondack mountains now represent.

The engineers at first proposed to construct a shaft upon the west bank of the Hudson, extending about 1000 feet below the surface. And from the bottom of the shaft they were to construct a tunnel under the Hudson until the opposite side of the river is reached, where the tunnel will turn into another shaft.

Recently, however, the engineers have suggested, according to the information received by Dr. Oleott, that this Hudson tunnel, instead of being cut through the rock at a depth of 1000 feet, be constructed at a depth of 1,700 feet. The engineers are almost persuaded that a tunnel at that depth would give more satisfactory results than one at a depth of 1000 feet. The tunnel construction progressed within the past 20 years, and particularly within the past 10, that engineers are now persuaded that no serious difficulties will be met with in the construction of a tunnel at a depth of 1700 feet.

Some of the electric engineers have suggested that this stupendous water-fall, for the water which passes through the shaft to the tunnel will be of that character, may be so utilized that its energy will be converted into electric energy sufficient for lighting and power purposes for many of the towns between Poughkeepsie and New York City. That, however, is a proposition which is at present not under serious consideration.

The engineers estimate that to construct a tunnel under the Hudson at a depth of 1700 feet will entail a relatively small increase in cost as compared with a tunnel at the depth of 1000, or 1500 feet.

If this tunnel should be constructed and should the city accept the proposition involving the construction of a deep tunnel under Manhattan island and a portion of the Bronx, whereby the Catskill mountain water could be brought into the heart of the city, then this may be properly called in the opinion of some of the engineers, "the tunnel age."

A great piece of road building was completed in Iowa last week, when in one short space of one single hour a line of road 380 miles in length and stretching entirely across the state of Iowa was put in the most perfect condition of any road west of the Mississippi river. Weeks and months were spent in preparation for the work, but not a pick or shovel was used until the designated second was ticked off. Then as if by magic 10,000 workmen swarmed out onto the roadway, and when they ceased work sixty minutes later Iowa had one of the finest long distance roads in the entire west.

And not the least interesting thing in connection with the tremendous piece of work is the fact that not a man of the entire 10,000 engaged on the work received one cent of wages. Good will and patriotism alone is responsible for the splendid showing.

Last winter the Iowa roads became so feverishly bad that traffic was practically killed and farmers were compelled simply to remain in their homes. Finally

# THE BEST You Want the Best.

## PEACOCK BRAND

LEAF LARD and SPECIAL MILD CURED HAMS and BACON Are the Best;

The Lard being absolutely Pure Leaf. The Hams and Bacon are from dairy-fed selected pigs, mild-cured by the "Peacock" process; given a light smoke, they become the most delicious morsel to the palate.

For sale only by the leading dealers.

The matter became a political question and both parties got behind the movement. Governor Carroll called a good roads meeting at Des Moines early last March and out of this meeting was evolved the plan of a river to river road stretching from Council Bluffs on the Missouri River to Davenport on the Mississippi, a distance of 380 miles straight across the state from east to west.

"Make the river to river road as near perfect as is possible to make just common dirt" was the sense of the good roads convention.

Instead of appointing new committees to handle the work the regular Republican and Democratic committees in each county through which the road would pass were appealed to. The chairmen of the committees of each party were asked to get in the game and work for the road. Everybody agreed to do so, and soon a rivalry was created between Republicans and Democrats, each to see which party would have the most workmen on the job when the time for work arrived.

Last Saturday was selected as the day and from 9 o'clock to 10 o'clock the hour of work.

Every farmer on the way was personally seen by the committees, and practically every man agreed to give the one hour that was asked for. Farmers were asked to bring their ploughs, scrapers and road drags, and an organization equal to those employed in professional railroad building was worked out.

In the weeks preceding the work all bridges and culverts along the road were repaired and put in first class order that no delay might come to the road builders when once the latter started working.

The result of the organization was shown last Saturday. Shortly before 9 o'clock in the morning farmers began getting out in the road. Hundreds and thousands of ploughs, picks, shovels, scrapers, road drags, grading machines and other implements were brought along. Every farmer brought his team with him. Superintendents and overseers had been appointed in readiness when promptly at 9 o'clock the order was issued to "fall in."

And 10,000 determined men fell to. For an hour they continued working with might and main. At 10 o'clock the job was finished and the farmers went back to their fields, leaving Iowa the possessor of the finest piece of long distance roadway in the West. The Council Bluffs correspondence of the Pittsburg Gazette-Times.

Goldfish are partial to mosquitoes and mosquito larvae, and it is suggested that all streams be stocked with goldfish in order to exterminate the pestiferous insect. But can the country afford to use the gold cure for its mosquito dilemma?

When the airship passenger routes are in full operation it should be unnecessary to post signs warning passengers not to get off while the machine is in motion. But long acquaintance with the traveling public may result in keeping the sign up.

A University of Chicago professor now suggests that Venus is inhabited, arguing that habitable conditions there are nearer this world's than any other planet. He might have waited until the Martian puzzle was solved before springing another.

# A REAL TONIC S. S. S. & BLOOD PURIFIER

Any system that needs a tonic needs also a blood purifier, for it is the weakened and impure condition of the circulation that is responsible for the run-down state of health. We have only to recognize the importance of pure, rich blood in preserving health, to realize the danger of a weakened or impure circulation. Deficient blood nutrition weakens the system, and it can not resist disease like a strong robust constitution. First the body has a worn-out feeling, the appetite is feeble, energy begins to flag, the digestion is bad, etc. If the condition is not corrected at this stage more serious results are sure to follow, and some times a long debilitating spell of sickness is the result. S. S. S. is Nature's tonic made of roots, herbs and bark. It is not a nerve stimulant, but a medicine that steadily builds up every portion of the system by cleansing and enriching the blood, and in this way supplying an increased amount of nourishment and restorative powers to every portion of the body. S. S. S. quiets the overstrained nerves, improves the appetite, tones up the stomach and digestion, and thoroughly enriches and purifies the blood. S. S. S. is a real tonic because it is a real blood purifier. S. S. S. contains no harmful mineral and persons of all ages can use it with the same beneficial results. Be sure to get S. S. S. for your tonic this year do not accept anything in place of it; there is nothing else "just as good" as S. S. S. You will find it all that is claimed for it.

Today's weather: Fair and warmer. Yesterday's temperature: Seven a. m., 56 degrees; noon, 54; 7 p. m., 60. Maximum, 62 degrees; minimum, 54.

The Pioneer Motor company will make regular motor runs from the Golf club this evening, beginning at 10:45.

Dr. I. B. Seelye, the truss expert, is at the Hotel Marquette for a few days. See his announcement in another column.

Miss Louise Williams of Munising is spending the week-end with Misses Beatrice and Leona Geismar, at W. H. Elliott's home.

H. A. St. John, R. C. Mann, A. J. Yungbluth and Geo. W. Ackerman, of the Cleveland-Ciffs company, are enjoying an outing at Lake Independence.

Local police officials had no trouble yesterday because of the circus being in town, and speak very highly of the Campbell Bros.' attraction.

Joseph Allen and Miss Mary LaVake, both of Crandon, Wis., were married by Justice C. D. Blanchard at the court house yesterday. Misses Dell Richardson and Alice Little acted as witnesses.

E. H. Bush has received notice of his appointment as a member of the credentials committee of the Elk's State association, which will meet at Traverse City next June.

Colonel Graham D. Fitch, of the United States corps of engineers, was in Marquette yesterday on board the Vidette. He expects work on the extension of the Marquette breakwater to be started next spring.

The Marquette Social club will give a dance at Presque Isle Saturday night. Tickets, twenty-five cents a couple. H. O. Bush will give a lammie ride around the island and will also serve lunch.

Wm. Ford, of Cheboy, is very grateful to the board of supervisors for rewarding him for his part in the capture of Palmer Grunette a short time ago. Deputy Sheriff James Maloney also made him a fine present, which is duly appreciated.

**Doings at Golf Club**—Members of the Golf club are anticipating great pleasure this afternoon, tonight and tomorrow. A golf tournament will begin this afternoon and be completed Saturday afternoon. Tonight an informal dance will be given, to which all members, and their friends are invited. It is expected that the traps will be ready by Saturday afternoon and, if so, there will be some lively shooting.

**Normal School Closed**—The summer term of the Normal school closed yesterday and many of the students have returned to their homes. The term has been especially successful from the standpoint of the school, and profitable for the students. Besides deriving great benefit from the pursuit of the special summer school courses, the students have had the rare privilege of hearing a galaxy of noted lecturers, several of whom are authorities in their lines of work and research.

**Get Wet, Anyway**—Wm. Jossey, Richardson Cotton, Geo. Hill, Fred Mohley and Edward Westfield, of the Pierce Associate Players, together with D. P. Fontaine, went fishing near the steel bridge across Dead river Wednesday. They caught more or less trout (mostly less), but Mr. Jossey got some experience out of it, anyway, for in trying to land a big fish, he slipped off a moss-grown rock and gracefully sat down in about two feet of water. His audience applauded enthusiastically and asked for a curtain call, but contrary to his usual practice, he refused to comply.

**Boats Earning Less**—One familiar with lake marine affairs states that in spite of the fact that the carrying charges for ore are the same as in 1907, the earning capacity of the boats is about 50 per cent less than it was that year. The water is lower than it was in 1907, he said, which of course means a loss, but the great increase in operating expenses is what cuts down the earnings of the vessels. On a big steamer the pay roll is \$15 a day higher than it was three years ago, and an advance has been made in the insurance rates. Fuel is higher and the price of supplies has been marked up all the way around.

**Careless About Numbers**—Secretary of State Martindale is sending word to police and county officers throughout the state to the effect that in many places there is a great lack of observance of the automobile laws and calling upon them to strictly enforce these laws. There are over 15,000 machines in the state which are licensed, but Secretary Martindale states that there are several thousand which bear no license. Another thing the secretary calls to the attention of county and city officials is the fact that the state law requires the judicial officers to report to his office all cases which come before them for violation of the automobile law. Up to May 1 but fifty cases had been reported to the secretary and forty-six of them were from Detroit.

**Oates in the City**—W. R. Oates of Calumet, who has been one of the most active Osborn lieutenants in the upper peninsula the past several weeks, is in Marquette and expects to spend a few days in Marquette county, shaping up some campaign work. Mr. Oates has lately returned from a trip below the straits, and he expresses entire confidence in Mr. Osborn's nomination. He was constantly surprised while he was in lower Michigan at the nature of the support that was voluntarily being offered Mr. Osborn, and at the apparently widespread endorsement of his candidacy. Mr. Oates has been in close personal touch with the upper peninsula situation and he says that Mr. Osborn is stronger in this part of the state than he has been at any previous time in the campaign. While both Mr. Kelly and Mr. Musselman were handsomely received in the upper peninsula the reports from conservative men in the different counties they visited indicate that they made practically no gains in this region and that all but a small percentage of the vote is now even more certain to go to Mr. Osborn than it was before their visits. Mr. Oates will be one of the party of speakers for Mr. Osborn who will campaign in the upper peninsula the last two weeks of the month.

St. Louis, Aug. 4.—It was an even break in a double header here today. Johnson's pitching won the first game and Lake was too much for the visitors in the second.

**UNITED STATES MARSHAL'S SALE.**

Western District of Michigan.  
By virtue of an Order of Sale issued out of the United States District Court for the Western District of Michigan, on the 30th day of July, 1910, notice is hereby given that I will sell by public auction, for cash, on Thursday, the 18th day of August, 1910, at 2 o'clock p. m., at Detroit, Mich., in front of Watson & Bennett's store, the tug "Victory," her engines, boilers, machinery, boats, tackle, apparel, appurtenances and furniture, as she now lies at her dock.

FRANK W. WAIT,  
United States Marshal.  
By E. D. MOSEIER, Deputy.

Anyway, the aeroplane has put an end to the plight of the mollycoddle who was always sighing for the wings of a dove.

**WHY COLORS ARE BECOMING.**

The hair of the blonde is a mixture of red, yellow and brown. As a rule the skin is lighter, that is, it contains not so much orange and the tinges of red are lighter. Nature therefore very properly made the blonde's eyes blue, since the blue is complimentary to the orange of her hair. The brunette's skin on the other hand has more orange in it, and hence a color favorable to one would not be becoming to the other. What would be the effect of green upon a complexion deficient in red? It would certainly heighten the rose tints in the cheeks, but the greatest care should be exercised in the selection of the upper shade of green, because the brunette's complexion contains a great deal of orange, and the green, acting upon the red of the orange, could readily produce a brick dust appearance. Green therefore is a risky color for the brunette, and so is violet, which would neutralize the yellow of the orange and heighten the red. But if the orange complexion had more yellow than red, then the association of violet would produce pallor. Yellow of course is her color, since its complementary violet neutralizes the yellow of the orange complexion and leaves the red.

In the last year nineteen cities in the south through their chambers of commerce or through some organization of the merchants and business men have taken practical steps to induce farmers to build telephone lines and connect with their towns.

### LOWER STATE NOTES.

**SAGINAW**—The state railroad commission will investigate the rates for electric lighting charged by the Bartlett Illuminating company, the Saginaw Power company and the Eastern Michigan Power company, all three being members of the state-wide hydro-electric merger. The city fathers, acting on a recommendation reported by the special lighting committee, adopted the resolution which asked for an immediate probe by the state commission. This is the first time that the merger has taken over a smaller company holding a city franchise when it was about to be investigated and every interest in the city demanded that the state commission be called in.

**ST. JOSEPH**—State anti-saloon detectives in Michigan are good drinkers if the evidence in the case of Fred Potter, local druggist, is true. Potter was arrested for a violation of the liquor laws it being claimed he sold a dozen bottles of beer on July 3 to an anti-saloon detective brought to the city under the auspices of the local Law and Order league. It is understood the evidence shows the sleuth bought beer and was allowed to consume it at Potter's place of business. Two arrests have been made in this city and four in Benton Harbor as the result of the investigations of the saloons and drug stores. The Good Order league of both towns insists that the "hike" be kept down, even if it is necessary to bring sleuths into the two towns.

**LANSING**—Reports which are being received daily from the trading inspectors and chemists in the employ of the state dairy and food department lead to the belief that the people of Michigan are eating better ice cream than ever before. According to the records issued by the department in its last annual report Michigan ice cream was below the average in many cases. While this did not mean that the product was composed of grossly inferior ingredients it meant that the cream used did not test up to

standard. The department took cognizance of the fact that the law was new, however, and in the majority of cases a warning was given and the matter dropped temporarily. This year the records are showing different results. Cream is testing high, in many cases going above the required 12 per cent mark. Cream manufactured by concerns outside the state is also coming up to the standard. Michigan retail dealers have found that they are liable to prosecution if they handle inferior brands of cream and have insisted that their houses conform with the rules of the dairy and food department. In this manner the commissioner has been able to reach foreign makers who are absolutely outside their jurisdiction, and their power to exercise supervision over all classes of cream, whether state or foreign made, has done much in raising the average throughout Michigan.

### GRANT SADDLE IN MUSEUM.

San Francisco, Aug. 3.—One of the most notable donations recently received at the Memorial museum in Golden Gate park was presented to the museum recently by U. S. Grant, Jr. It is an ancient Japanese lacquered saddle, the gift of the emperor of Japan to General U. S. Grant when the latter was making his tour of the world. The saddle, according to Curator Barron, is about 400 years old and was used by one of the famous Samurai warriors of four centuries ago. It will be given a conspicuous place at the museum, next to the cabinet of Japanese curios which was presented by the same Japanese emperor to President Lincoln.

In an age of canals and canal projects, the Grand canal, which the Chinese dug far back in the dark ages of European civilization, has not yet been rivaled in length. It is 650 miles long and it has never ceased to be useful to the millions that live near its banks, through all of its seven centuries of bearing witness to the capacity of the ancient lands of the east for great undertakings.

### Markets

#### WALL STREET STOCKS.

New York, Aug. 4.—Paine, Webber & Co. have said today to many of the stock market: "The market during the greater part of today's session was dull and uninteresting, but after early declines were recorded the undertone became firm and a slight recovery took place in the last hour. Rumors were not circulated as freely as heretofore, and the comparative strength of Northern Pacific served to create the impression that the session yesterday was more in the nature of liquidation and operations rather than on fears of a dividend reduction in October. A period of dullness would perhaps be about the best remedy for the market at this time, as the confidence of investors has been shaken to a very great extent by the recent sharp movements. We would continue to employ the use of stop-loss orders for protective purposes."

**Boston "Coppers."**  
Boston, Mass., Aug. 4.—Summarizing today's copper stock market, Paine, Webber & Co. say: "There was again a fair demand for coppers, with the offerings still light. There seems to be a little more confidence in our market, and on any weak spot we would buy Lake, North Butte and Hancock. These stocks have been very well bought the last few days. The New York market is practically unchanged. We believe that purchases made on any dips around this level will show moderate profits."

**Chicago Wheat.**  
Chicago, Aug. 4.—The market closed with a rather remarkable show of strength, considering the heavy selling at times during the session. The Liverpool cables were strong and higher, based on rain reports for the French harvest, a good continental demand for cargoes and limited offerings of new wheat from exporting countries. The Northwest markets all showed a sharp advance on the early trades and the closing prices in that quarter were at better gains than in this market. The cash advices were all to the effect that there was better demand and higher prices.

**New York Cotton Market.**  
Paine, Webber & Co.  
New York, Aug. 4.—The excessive temperatures that have prevailed in Texas and Oklahoma were relieved overnight by fairly well distributed rains in Oklahoma and showers in north and northwestern Texas. This respite from the torrid heat and moisture will afford temporary relief to a part of the dry territory and the possibility of further rains in Texas started heavy selling for both long and short account, causing some decline. Liverpool was unfavorably affected also, and at the time of our opening was 3 to 5 lower. The Texas rains so far have covered only a narrow strip along the north edge of the state and have been wholly insufficient, unless more follows, and have not reached that portion of the state where they are most needed. We strongly favor buying on the theory that there is slight hope now of a crop anywhere near the size needed and ultimately higher prices will prevail.

**HUSBAND DESERTS WIFE WITH NEGRO TAINT IN HER VEINS.**  
Pittsburg, Pa., Aug. 3.—Through the arrest of Mrs. Caroline Harkins, on the assumption that she had gone insane, the story became known of how her husband of the last twenty-six years and the father of her four grown children, had deserted her when he was told there was negro blood in her veins. An aged relative was visiting Mrs. Harkins, and in a moment of pique, informed Harkins that his wife's great-grandmother was a mulatto. Harkins put on his hat, shook hands with his wife and informed her she would never see him again. He then left and Mrs. Harkins went into hysterics. When arraigned before Magistrate Alpern she told her story. Mrs. Harkins acknowledged that it is true that there is some negro blood in her veins, but declared it is so slight that she always has associated with members of the Caucasian race.

**HOW TO MAKE A NOISE.**  
Harry, the Highlander, was bent on being a successful Scot. He was bent on making a splash. "Oh, ay!" he was going to make those daft gowks (Scottish for "silly idiots") in England sit up.

But how was Harry to achieve his aim?  
He sought advice of a great friend—a Scotsman who had already made his mark in shipbuilding circles.

"Tell me," pressed Highland Harry, "how can I make a noise in the world?"

The famous Scotsman gazed at him steadily for a few moments and then laying a hand on the inquirer's shoulder he replied:

"Hoot, mon!"

**THE SHOPS OF LONDON**  
It is easy to understand why London speaks of shops and shopkeepers. There are not many of the retail establishments which we designate as stores and the principal one of these is a recent American enterprise. Many of the shops in which goods are retailed have a depth of no more than twenty or thirty feet and the stocks are not large. The shopkeeper makes what the customer wants or orders it for him from the manufacturer. The furnisher had but three suits

## Its Real Saving

is not in the price alone, but also in the unequalled amount of good—and the certainty—of Rumford Baking Powder. It never spoils a baking—never fails to give good results. Its never varying and uniform strength

### Is One of Many Merits of

Rumford Baking Powder. Besides it saves in health because it always makes your food light and digestible—because it adds to food only wholesome and nutritious ingredients. The price—25 cents a pound.

**RUMFORD BAKING POWDER**  
The Wholesome Powder—No Alum

of woolsens of the required size, but telegraphed to the mill in Scotland for the remainder of the order. The stationer had but one box of the desired type-writing paper, but said that he would have the two other boxes the next day. This all seems to be a survival of the mediaeval period when artisans made the things used in a community as they were needed. In the United States we began an early day to make things in large quantities by machinery and all over the country we find articles of all sorts ready made, ready to use and ready to wear. In many of the London shops no attempt is made at attractive display either in the windows or on the counters.

#### D. T. Morgan & Co.'s Letter.

The New York market opened lower and was freely sold for a time by professional and political developments in Western states. When losses of about a point were reached the selling ceased and the market became very dull and narrow with a stronger tone and a partial recovery took place. The confidence which the best informed people have in the future of copper stocks is shown by the following advice from Boston: "The Quincy Shave estate has more than doubled its holdings of Calumet & Hecla stock in the past year, is evidently awaiting the copper price report before resuming the generally predicted activity due to curtailment of output. The confidence which the best informed people have in the future of copper stocks is shown by the following advice from Boston: "The Quincy Shave estate has more than doubled its holdings of Calumet & Hecla stock in the past year, is evidently awaiting the copper price report before resuming the generally predicted activity due to curtailment of output. ### SWEDISH PEOPLE ARE DISAPPOINTED

Postponement of Dr. P. P. Waldenstrom's Engagement Here Regretted by Many.

Many of the Swedish residents of Ishpeming were much disappointed because Dr. P. P. Waldenstrom, who was to have been in the city Tuesday, was prevented from coming here on account of sickness. The doctor was taken ill on Sunday at Rockford, Ill., and he is still under the care of a physician. Dr. Waldenstrom, who is said to have traveled more extensively than any other native of Sweden, is seventy-two years of age. He is the founder of the Swedish Mission covenant and he is one of the best known Swedes in the entire world.

Dr. Waldenstrom visited Ishpeming some twenty years ago and he is remembered by many of the older residents. He spoke to one of the largest audiences that ever gathered here to listen to a Swedish speaker, and many of his hearers at that time are still in the city and they were among the most anxious of those who desired to hear him talk last Tuesday evening.

On his present tour Dr. Waldenstrom has been lecturing on the subject of "Shadows and Lights in Sweden," which he delivers in the Swedish language. In his lecture he declares that while Sweden is small, compared geographically with the United States, still it is one of the largest countries in Europe. It is the oldest independent country in Europe and has a population of 5,500,000.

The number of tourists, thousands of whom visit Sweden every year, is growing and the country is considered to be one of the most picturesque in the old world. Sweden has advanced so rapidly in recent years that one may now take a train to its northern extremity, where the sun does not set for seven weeks during the summer time. Sweden today has more miles of railroad in comparison with its population than any other country in Europe. Speaking of Sweden's export trade, the doctor is credited with stating that the pulpwood industry alone has grown from 2,000 tons a year, twenty-five years ago, to 6,000 tons annually at the present time. The butter export has also grown very large. Sweden now has a cow for every three persons.

### Sweden's Iron Mines.

The iron mines of Sweden, according to Dr. Waldenstrom, are the richest in the world, but on account of the scarcity of coal the iron ore has to be exported from the country. As soon as some one invents a device to smelt iron ore by electricity Sweden will not export her ore, but will build up iron industries of her own.

According to Dr. Waldenstrom, Swedish people are the most homogeneous of any country in the world and only 1 per cent of the population are foreigners. Fifty years ago the state church of Sweden was Lutheran, and Dr. Waldenstrom took an active part in bringing about the free church movement, and was the founder of the Swedish Mission covenant in 1878. This church now has 1,200 congregations in Sweden and in some several of the most splendid edifices in the land. The denomination has a following of 200,000 members in Sweden alone, as well as a very large following in this country among the Swedish population. Besides the Lutheran and Methodist churches there are the Baptist and Salvation Army, which General Booth said was more effective in Sweden than in any other country.

Another claim that Dr. Waldenstrom makes is that Sweden is the most democratic country in Europe. Farmers and workmen are better represented in the parliament than in other European countries. In making good this statement, he cites as an instance, that the chamber of the Swedish parliament was comprised mostly of farmers. Dr. Waldenstrom was a member of the Swedish parliament for twenty years.

The telephone is used more in Sweden than in any other country in the world. This fact is due, Dr. Waldenstrom claims, to government ownership of the telephone system. Under this plan the poorest of the people can afford a telephone, while under the system of private ownership the charge is too high for them. The Swedish government is expected to build a new telephone system of the country. The postal savings bank system has been in operation there for the past thirty years and the Swedish people like it so well that they would not desire a change.

### TO MEET NEW DIRECTOR.

A meeting of the Juniors, Intermediate and Business boys of the Y. M. C. A. will be held in the gymnasium on Saturday morning at 10 o'clock, for the purpose of meeting W. H. Norman, the new physical director, and to make arrangements for an ice cream social, to be given by the boys on Saturday, August 13. Every boy who is free at that hour is requested to be present.

## DON'T CONDEMN A STRANGER

### FAZAKERLEY AND HIS REMEDIES WINNING PRAISE AND FRIENDS.

The Doctor's Office at 607 3rd Street Is Packed During Office Hours with Anxious Crowds.

When Fazakerley and his company first made their appearance in Ishpeming, there were many who were ready to criticize and condemn his work. He certainly has been working against strong skepticism since he has been here. But his persistence has won many friends for him and his medicines. He has built up for himself his reputation, and company, a reputation that will long be remembered. He has made life-long friends among our citizens, and best of all, he has made marvelous cures and given great relief, where hope was entirely gone. Too much cannot be said in praise of the good that has been done with these formulas.

The valuable entertainments given nightly at the Fazakerley camp have certainly proven a treat to all. People who have scarcely laughed for years, have found that after all laughter is a great help to good health and happiness; for these shows certainly make the most morose people laugh. There seems to be no end to the good things that can be said of this man. Fazakerley, who came into our city, "condemned before he was heard." But who can criticize him now? He has dealt fairly and liberally with all with whom he has come in contact.

His office at 607 3rd street is still crowded to overflowing daily. Office hours are from 10 to 12 and 2 to 4 from 7 to 8 in the evening. Consultation, examination and advice are free to all. (8-5-10)

Kuppenheimer Clothing for Men at Braastad's. (7-22-10)

### NEW BALL PLAYERS.

There will probably be at least two new ball players on the Ishpeming team in the games with Negaunee tomorrow and Sunday, and Phil Secore, third baseman, will also be here. The men expected are Mort Lemers of Appleton, Wis., and White of Coleraine, Minn. Lemers plays either short or at second base, and he is also said to be a fairly good pitcher, while White is a fielder. The latter is a cousin of John C. Greenway, and is known to quite a number of people in Ishpeming, as he has been here a year or so ago. He was recommended by Dr. N. D. Kane, a former resident. Mr. Lemers is only twenty years of age. He has played several games this season with the Appleton team, but it is said that he would not accept a regular position with it. It is likely that he will play short stop, as Whitman has had a disabled hand since last Sunday's game.

### ISHPEMING IN BRIEF.

Miss Julia Flack of Gwinn is visiting friends at Marquette.

Miss Amelia Arson of Gwinn is spending a few weeks with friends at Chatham.

Irving H. Johnston of Crystal Falls transacted business in Ishpeming yesterday.

Miss Lottie Nicholls has returned from a two weeks' visit with friends in Duluth.

Mrs. Ed Swan left last night for Hillsdale, Ill., where she will visit for a few weeks.

Mrs. William Finnegan and her two children are here from Soudan, Minn., on a visit to Mr. and Mrs. Peter Finnegan.

J. E. Labreeh left last night for Aurora, Minn., where he is to take a position with the Interstate Mining company.

The April quartet of Gustav Adolphus college, Ste. Peter, Minn., will give a concert next Sunday evening, commencing at 7:30 o'clock, at the Swedish Lutheran church.

The regular monthly meeting of the council was postponed from Wednesday evening until this evening on account of several of the members having attended Campbell Bros. circus.

Dr. V. H. Vandeventer's family, and the family of R. E. Funston, Jr., of St. Louis, Mo., are camping at Island Lake. Dr. Vandeventer this week purchased the Island Lake resort from Dr. N. D. Kane.

Dr. N. D. Kane, wife and son, Dudley, who spent the past ten days in the city, left Wednesday night for Sault Ste. Marie, where they will spend a few days before returning to their home at Coleraine, Minn.

Joe Peterson, the Division street tailor, who has been absent from the city for some time on a tour of the West, is expected to arrive home in about ten days. Mr. Peterson left Astoria, Ore., yesterday morning by steamer for San Francisco.

R. E. Funston, Jr., of St. Louis, Mo., who was in the city visiting his brother-in-law, Dr. V. H. Vandeventer, and family, has departed for his home. He intended making the trip in his automobile, but he received a message calling him back hurriedly, so he left by train. His chauffeur departed yesterday, after shipping the car by freight.

W. J. Richards, who with his wife and two sons, Bryant and Clarence, is here from Two Harbors, Minn., on a visit to his parents, Mr. and Mrs. Matthew Richards, of West Ridge street, is a former resident of this city. Mr. Richards, who learned the boiler making trade under W. T. Cole, conducted a boiler shop here for some time before leaving the city. He is now employed at the Duluth & Iron Range railway shops in Two Harbors. His wife was formerly Miss Lillian Pearce of this city. They will remain about two weeks.

### Not So Many Attractions Booked For the Opening as Last Year.

The changing of many theatrical producers and booking agents from the old management has caused somewhat of a delay in the early bookings for the opening season throughout the various circuits now identified with the independents. The season of 1909-10 opened early in August and all things were quiet in this country during the latter part of that month, also in September. While attractions are being booked almost every day by the management of Ishpeming theatre for different months of the season, fewer dates are held for the first months of the year. The first attraction to make the circuit will be the Gaskell-MacVitty-Carpenter company's "Rosaldid at Red Gate," which will hold the boards at Ishpeming theatre on Saturday, the 20th. This will be followed on Thursday, the 25th, by the well-known musical comedy, "Flower of the Ranch."

"Rosaldid at Red Gate" is a dramatization of Meredith Nicholson's novel of that name. To those who have seen and enjoyed "The House of A Thousand Candles," the present play will come like a breath of fresh air. While it is in no sense a sequel to Mr. Nicholson's former play and book, it is nevertheless something of a continuation of it. Laurence Donovan, the friend of the hero of "The House of A Thousand Candles," being in this story the hero of the play.

Two brothers through business misfortune become separated; each has a daughter, and both look so much alike that they are constantly mistaken for the other, as they have unintentionally and unknowingly, and as strangers to each other, been brought to the same neighborhood. Like the "House of A Thousand Candles," the play is one of mystery, but solves itself so naturally that the reader wonders why he has not seen through it all the time.

Meredith Nicholson set a high standard for himself in "The House of A Thousand Candles," and in his present play he has not, in the slightest, departed from it. He eschews the problem and is far removed from the detective story. But his books make plays that are full of wholesome excitement to tell and he knows how to arrange them in a pleasing and acceptable manner.

If the world were your oyster would you open it now or wait until the oyster season begins next September?

Cook with gas, it is more economical, quicker and cleaner than any other fuel. (6-14-10)

Hair mattresses cleaned by the latest machine, just received. Don't discard your old mattresses, as I can make them as good as new. Franklin Wade, in Swanson & Person's shop, Cleveland avenue, Ishpeming. Both phones.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by The People's Drug Store.

All \$2.50 to \$3.50 Ladies' Oxfords, choice today, \$2.00. (7-22-10) F. BRAASTAD & CO.

Have you ever cooked with gas? If not you should put in a gas stove at once. (6-14-10)

### Our Fall Orders for

## Suits and Overcoats

made by constructors of clothes for the great centers of fashion are now arriving, and at the season's opening we will be prepared to show clothes for the men and young men, unsurpassed in style, workmanship and materials.

Hanan and Tilt Shoes L. W. ATKINS & CO.  
Knox and Stetson Hats

Complete Lines of Latest Men's Furnishings.

Mining News

GRANBY.

Diamond drill operations on the 400-foot level with a view to drilling to the 1000-foot level and thus exploring the property at depth have been started on the Granby property. This has never before been attempted on this property and the success of this drilling will be important for the company's future. A development which will add to the Granby ore resources was the cutting of 100 feet of good ore by a diamond drill on the southern part of its Knob Hill claim, being undoubtedly a continuation of the ledge which has contributed largely to Granby production in the past. The Granby smelter is now treating 3,200 tons of its own ore and 300 tons of custom ore daily, the copper recovery being at the rate of about 20-20,000 pounds per annum. It is believed that all of the 100,000 tons of ore which were displaced in the recent cave-in can be mined. While the cave-in was not serious, it confirms rumors that have been current in the boundary district for some time, namely, that underground work at Granby has been so bad and dangerous that miners are refusing to work. It is said that loss of life has been greater at Granby during the past year than at any other property.

WOLVERINE COSTS HIGHER.

The report of the Wolverine Mining Company for the year ended June 30, 1910, shows that the Wolverine is undoubtedly the cheapest producer at the lake as the total cost per pound was 7.41 cents including construction, which compares with 7.31 cents during 1909. This gave a margin of profit per pound of 5.83 cents. The percentage of copper in the mineral ran slightly higher than in 1909, the figure being 78.94 per cent, but the yield of copper per ton of rock stamped was reduced 1.79 pounds to 24.90. Wolverine rock has been steadily decreasing in copper values since 1905, in which year the return was 30.25 pounds per ton. It is noticeable that the production has been maintained at an even level, for as the mine is opened for a long period ahead the output can be easily regulated. The following figures will be of interest:

Table with columns: Yr., Lbs. min., rk. lbs., pr. per lb., c. Total underground workings to date aggregate 6,296 feet. President Eaton says: Our surface consists of an altered schist much brecciated and copper stained. At 250 feet we began to encounter the sulphide ores and carbonates and the development on the 300 and 400 levels has been mainly in sulphides (chalcocite) running from 1/2 per cent to 4 per cent and better, and we have now over 2,500,000 tons of such material, a large part of which we figure will be of commercial grade, although no effort

has been made to block out ore, but simply to explore the ground. Phelps, Dodge & Co. have been curtailing the production of copper ever since the first of the current year. For the first half of the year this curtailment totaled 7 per cent. This rate will be at least maintained throughout the remaining months of 1910 while the management may see fit to reduce still further shipments of ores from its own mines. While the company has been slowing down in the production of its own properties, the Douglas Reduction Works has greatly increased its custom business through the opening up of many independent mines in the Arizona district during the past year. Phelps, Dodge & Co. did not accept this business other custom smelters in the district would. The Guggenheim having a plant at El Paso.

Horace J. Stevens says of the Lake Copper property: "In my judgment the Lake mine has passed the point of a prospect, but is not yet fairly to be included in the ranks of developed and producing mines. I think that the suspension of rock shipments was justified, though the former management should not be censured for making such shipments, as no attempt was made at extensive stoppage, scarcely warranted by the mine, though it is capable of a considerable production at present, but could not produce to the best advantage until given a much heavier power plant. I did not advise any one to buy Lake at the high prices of last winter, as I felt that such figures were risky. I do think, however, that any one who buys Lake stock around the present level, for an investment, and puts it away for two or three years, should do exceedingly well on the purchase. There is no question whatever in my mind that the Lake will make a large and rich mine."

PLACE FOR THE ST. BERNARD. Now Seen Less Often at Bench Shows. Prized for Country Places. The dear Saints are out of date, they say! exclaims Miss Anne Whitney, the bench judge of St. Bernards. The one dog with the halo of centuries of self-sacrificing devotion to suffering humanity is passing out of sight! People should know better. The St. Bernard, peerless in character, beauty and size, may not fill as many benches at public shows as in past years, but his owners prefer to keep him at home in the country, to guard their property, protect their children and escape the risks and expenses of transportation. Perhaps there are fewer on city avenues, but out of town there are still with us, most loving and beloved of all canine companions and New York dogs.

The first St. Bernards in this country were brought from Switzerland by travelers somewhat bound, and they were smooth coats, the original breed. More recently, forty years ago and later, English kennel men have been chosen in the country, to guard their property, protect their children and escape the risks and expenses of transportation. Perhaps there are fewer on city avenues, but out of town there are still with us, most loving and beloved of all canine companions and New York dogs.

NOTES OF COPPER NEWS. The East Butte Copper Company has about 250 stockholders at the present time, the average holdings being 120 shares. Recent reports from the East Butte smelter show that the company's ore is averaging 5.1 per cent copper with a daily output of about 41,000 pounds, or 1,250,000 pounds per month. The company is showing a small profit from operations on present low metal market, but it is going back into the property in the form of improvements. Development work in the fourth and fifth levels of the Lake property continues to make a better showing than in the second and third levels. In the past month there have been over fifty names added to the stockholders' list. The company now has nearly 500 shareholders compared with 452 at time of annual meeting in June. The directors of the Cactus Copper Company issue a report covering operations from Jan. 1, 1910, to July 1. Total receipts were \$235,737, of which \$202,500 was from sale of stock; expenditures were \$135,967, of which \$78,855 was for mine construction and development work, leaving cash on hand July 1 of \$106,280. Total underground workings to date aggregate 6,296 feet. President Eaton says: Our surface consists of an altered schist much brecciated and copper stained. At 250 feet we began to encounter the sulphide ores and carbonates and the development on the 300 and 400 levels has been mainly in sulphides (chalcocite) running from 1/2 per cent to 4 per cent and better, and we have now over 2,500,000 tons of such material, a large part of which we figure will be of commercial grade, although no effort

Negaunee Department

CHANGE IN TRAIN SCHEDULE RUMORED

Reported That Former Time Table Will Be Resumed on Northwestern Railroad.

It has been persistently reported the past few days that the officials of the Chicago & Northwestern Railway company have about decided again to change the schedule of the northbound passenger train, running from Chicago to Calumet. A. P. Johnson, the company's Negaunee agent, has no information from headquarters to this effect, however.

It is said that the train will be put back on its former schedule starting next Sunday morning. It is assumed, however, that the company will continue sending the train through to Calumet. Many complaints have been received by the officials from the copper country, as well as from the iron district. Escanaba and other points south of here regarding the mail service. The passenger service is said to please copper country people, but copper country business men complain because but a small part of the Chicago mail comes in on the early train. In many instances important letters have arrived a day later than they would have if the Northwestern mail train left Chicago at a later hour.

The Escanaba business men have never been satisfied with the schedule for the train service coming north is not to their liking. The train passes through there about 4 o'clock in the morning and northbound passengers have to get up at least an hour earlier and then either walk or drive to the station, as there is no street car service at that early hour.

A committee of Escanaba business men recently waited on the officials, asking them to return to the old schedule, or put on an extra train between that city and Ishpeming. While the merchants here have not complained particularly about the mail service most of them would like to see the Northwestern return to the former schedule. One merchant yesterday said that so far as the passenger service is concerned, he thought the present schedule an improvement on the old one, but the mail service is not so good.

LOCAL LAONICS.

Mrs. Ida Kinsman has returned from a two weeks' visit with friends at Marinette.

The Light Infantry band will give a concert in the grandstand in the city square Saturday evening.

A good-sized force of men is employed on the Labor Temple building, being erected on Tobin street.

The trustees of the Swedish Lutheran church desire a large attendance of the members of the congregation at the special services this evening, also at the business meeting to be held later in the evening.

J. D. McNulty of New York was in Negaunee yesterday, visiting George J. Mans, Mr. Mans and Mr. McNulty were roommates at college more than twenty-five years ago. This was their first meeting since they left school.

C. L. Sporely's camp, near Swanzy, will be occupied for the next week or more by Mrs. Everett Sproule, and the Misses Elizabeth Sporely, and Marion and Georgia Elther and Mr. and Mrs. J. Sproule. They went down Wednesday.

Tom Flannery, who left Negaunee about four months ago for Aranzaco, Mexico, to take a position as diamond setter for the Mazapil Copper company, is now foreman of the drill crews. George Kappas, who left at the same time, as drill runner, is doing the setting. They like the southern country very much.

Andrew Lindquist and family have moved into their new dwelling on the corner of Teal Lake avenue and Rock street. Mr. Lindquist yesterday put men to work making alterations in his former home which he recently sold to Abe Levine, and which is to be occupied by Mr. Levine's family. Among the improvements will be hardwood floors.

The last of the second floor reinforced concrete beams will be in position at the Negaunee National bank's new block by tomorrow night. The concrete work on the vault has been finished and it is now expected that the brick layers will resume work on the second-story walls about the middle of next week.

Tomorrow and Sunday the Negaunee and Ishpeming teams meet at Union Park. It is reported that Ishpeming is getting two or three new men and it is thought that the team will be stronger than at any previous time this season. In all probability Rosewater will select the place for holding the convention next year. Following is the present list of grand lodge officers: Grand president, Louis Mueller, Owosso; first grand vice president, Joseph Walsh, Escanaba; second grand vice president, Chris. Hammet, Saginaw; grand secretary, Charles Borst, Hamcock; grand treasurer, William Waas, Laurium; grand trustees, Fred Schmelzer of Escanaba, Chris. Groshus and Louis Arnold of Iron Mountain.

MANY TO ATTEND CONCLAVE.

A number of Masons of this county have planned to attend the Knights Templars conclave, to be held in Chicago from the 8th to the 13th, inclusive. There are in the neighborhood of 200 Knights in Marquette county. The Chicago & Northwestern has announced a rate of \$11.00 from Negaunee to Chicago and return; this is equivalent to a fare and one-half. Tickets will be on sale from today until the 8th, inclusive, and will be good leaving Chicago until the 16th. Parties desiring to remain longer can have their tickets extended to Sept. 16 by the payment of fifty cents extra. The rate will be good for the general public as well as for members of the Masonic fraternity.

If your liver is sluggish and out of tone, and you feel dull, bilious, constipated, take a dose of Chamberlain's Stomach and Liver Tablets tonight before retiring and you will feel all right in the morning. Sold by The People's Drug Store.

In buying a cough medicine, don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it, and relief is sure to follow. Especially recommended for coughs, colds and whooping cough. Sold by The People's Drug Store.

COMPLAINTS OF SPEEDING.

Board of Public Works Calls Council's Attention to Fast Driving.

So many complaints have been made against automobile drivers on account of speeding through the streets that the city authorities will now try to stop this dangerous practice. The board of public works, in a communication to the council last evening, represented that fast driving is general, also that many of the drivers are neglecting to light the lamps on their machines after dark. The board recommended that steps be taken to stop fast driving.

The board advised the council that its members had received many complaints. It is said that some of the more reckless drivers many times come through the principal streets at the rate of from twenty to thirty miles an hour.

WILL TRY OIL HERE.

Board of Public Works Recommends Its Use on Streets.

At the meeting of the council last evening, the board of public works asked permission to purchase some 4,000 or 5,000 gallons of asphalt road oil, to be used on the city's end of the road leading to Ishpeming. The board expressed the belief that this oil would not only keep down the dust but that it would also save the road from considerable wear and tear. Members of the board of public works who have examined the Ishpeming streets on which the oil has been used during the past ten days express themselves as well pleased with the results it has given. E. C. Anthony says that the oil seemed to keep down the dust as well as save the surface of the streets. He went to Ishpeming specially to look over the streets where the oil had been spread, and he says that there was absolutely no dust where it had been used. He said he could not help but notice the difference on the highway between the two cities. On the Negaunee end there were clouds of dust following the passing of automobiles and carriages, and on the Ishpeming end there was absolutely no dust.

Many cities are now using oil on their streets. The oil will save a city several hundred dollars in sprinkling cost each season. The manufacturers claim that two applications a summer is all that is required to keep the surface of a street or road in good condition.

LEADER GETS FIVE YEARS.

Pete Janovich, the leader of the gang that assaulted Harry Wilcox, the Oliver Mine company's mining foreman, at Virginia, Minn., on the night of April 24, last, has been sentenced to five years in the penitentiary at Stillwater. Wid Warkala and Peter Doudovich, two of the others who were implicated in the assault, each were sentenced to one year and six months, and Steve Borovic will be sent to prison for one year.

Upper Peninsula

Last Licenses Are Granted.

With the granting of liquor licenses to James O'Brien and George Coleman and Anton Rafack, the latter two associated as partners, the Sault Ste. Marie aldermen completed the parcelling out of the extra allotment allowed under the new census and there will be no more similar packages to bestow until next spring. The licenses are granted on the basis of one for each 500 of people.

Will See the Fight Pictures.

The Menominee city council has refused to prohibit the exhibition of the Jeffries-Johnson fight pictures. At a recent meeting a petition, signed by a considerable number of citizens, was presented. It requested that the pictures be prohibited. The Rev. Guy V. Board of the M. E. church spoke before the council in support of the proposition. At the meeting of the council this week the judiciary committee and city attorney, to whom the matter had been referred, reported that the fact that there is no colored population did not make showing the pictures dangerous from that point of view, and recommended that the petition be denied. The council adopted the report.

Sons of Hermann Convention.

The state convention of the Sons of Hermann is in session at Escanaba. The meeting convened yesterday and will conclude this evening with a banquet. There are twenty-three lodges of the order in the state and each of these is represented by one to five delegates. The majority of the grand lodge officers also are present. Considerable business of importance affecting the Sons of Hermann in Michigan will be transacted by the convention, which will also elect officers for the ensuing year and select the place for holding the convention next year. Following is the present list of grand lodge officers: Grand president, Louis Mueller, Owosso; first grand vice president, Joseph Walsh, Escanaba; second grand vice president, Chris. Hammet, Saginaw; grand secretary, Charles Borst, Hamcock; grand treasurer, William Waas, Laurium; grand trustees, Fred Schmelzer of Escanaba, Chris. Groshus and Louis Arnold of Iron Mountain.

Improved Train Service Arranged.

An important meeting was held at the office of J. E. Byrns at Escanaba this week, those present being members of the Escanaba Business Men's association and the following Chicago & Northwestern Railway officials: General Passenger Agent C. A. Cairns, Assistant General Freight Agent C. C. Cheney, Soliciting Freight Agent H. E. Webb, Division Superintendent W. B. Linsley and Local Agent C. B. Henderson. The meeting was called to consider the new train service which the Chicago & Northwestern has promised shall soon be inaugurated and at its conclusion it was the understanding that the Northwestern will on Sunday next begin running two new daily trains as follows: Train No. 110 will leave Escanaba at 5:15 a. m., arriving in Chicago at 4 p. m. Train No. 113 will leave Chicago at 9 a. m., arriving in Escanaba at 7:25 p. m. Both trains are to be first class in every respect and will each carry a parlor car. There will also be reserved for Escanaba section 2

BOTH PHONES.

Calcutta firm: "Send 1,000 pairs of boots for Middlesex by next train."

Days passed, and no boots arrived. The colonel's anxiety increased hourly. Just when he had become almost frantic the Bahru manager in Calcutta sent him this telegram: "Order received, but not comprehended. Male sex 1 know; ditto female sex; middle sex, however, not known. Please send specimen."

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by The People's Drug Store.

THE CAUSE OF THE DELAY.

English is full of pitfalls for the foreigner who wrestles with it, and the language gets some severe jolts at times, as this anecdote from India shows. The story is to the effect that when a battalion of the Middlesex regiment was ordered to take part in a recent ceremonial parade at Delhi the commanding officer determined to refit it with new boots. He accordingly telegraphed to a

# VALUATION TO BE INCREASED

### Reported That State Tax Commission Has Decided That Marquette Property Is Assessed Too Low by a Half Million Dollars and That It Must Be Raised.

### Other Cities Are Boosted, but Ishpeming Is Lucky Enough to Get a Decrease of \$200,000—Local Property Owners Believe Decision Unfair and Unjust.

According to an article published in the Lansing State Republican Wednesday, the state tax commission has decided that the assessed valuation of Marquette city taxable property should be increased \$500,000. For some months past the tax commission has been touring the state and only a few weeks ago visited the upper peninsula. It is fair to suppose that the reported increase in valuation to be charged up against Marquette property owners has been decided upon as the result of that visit. The report announces large increases in the valuations of many other cities, and that the commission has decided to lower the valuation of Ishpeming \$200,000. The dispatch reads as follows:

"Michigan cities, with the exception of two, are given a stiff increase in valuation by the state tax commission, after an investigation of assessed valuation throughout the state. It is announced that the commission has decided that Detroit should increase its valuation \$20,000,000; Flint, \$6,000,000; Traverse City, \$3,000,000; Lansing, \$1,200,000; Port Huron, \$1,000,000; Bay City, \$400,000; Battle Creek, \$500,000; Ironwood, \$500,000; Jackson, \$4,000,000; Kalamazoo, \$1,000,000; Marquette, \$500,000; Muskegon, \$900,000; Pontiac, \$2,500,000. The two fortunate cities are Alpena with a decrease of \$150,000, and Ishpeming, \$200,000.

"These figures do not mean that we have held reviews in these cities and are now ordering increases," explained Secretary Lord, "but that we have made investigations and ordered assessing officers to make raises. In only a few instances has a formal review been necessary. As a result an increase of over \$50,000,000 has been brought about in cities of over 10,000 population. The total increase will come close to \$75,000,000 for the state."

### Raise Totally Unexpected.

This news came as a great surprise to city and county officials yesterday afternoon. No one has been officially notified of the reported increase decided upon for Marquette and the decrease for Ishpeming. City Controller Primeau stated last evening that such a notice would likely be sent to the board of supervisors, and that he would receive his orders from the board after the annual meeting in October. Taxpayers here are of the opinion that the increase, presuming that the Lansing report is authentic, is unjust. Marquette property is generally believed to be assessed more nearly at its actual cash value than is the rule in other cities, particularly in Ishpeming and Negaunee. As the valuation of Ishpeming has been reduced, local taxpayers feel that the commission has done a great injustice in increasing the valuation of this city. One member of the county board stated last evening that there was a good deal of real estate in this city that was on the tax roll for every cent it was worth, and that the average assessment throughout the city was about 80 per cent of the actual value of the property. On the other hand, it is claimed that in other cities in this county the average valuation does not represent more than 60 to 70 per cent of the actual value of the property. The present equalized valuation of Marquette city is \$6,700,000, and of Ishpeming, \$7,200,000. The proposed changes will put Marquette on the tax roll for \$7,200,000 and Ishpeming for \$7,000,000.

### SOO CANAL PASSAGES.

### Marquette Port List.

D. S. S. & A. docks: Cleared—Morley, Tonawanda; Barlow, South Chicago. L. S. & L. dock: Arrived—Pioneer.

### READY FOR BUSINESS.

The new firm of Lowrey & Madigan has opened its store—corner of Genesee and Champion streets—and is now ready for business. It will handle a general line of groceries, hay, grain and feed, and will deliver orders to any part of the city. Both telephones. Bell No. 174. (8-4-34)

### NOTICE TO TAXPAYERS.

Office of the City Treasurer: Marquette, Mich., July 15th, 1910. Notice is hereby given that the general tax roll of the city of Marquette has been deposited with me, and is now in my office in the city hall, and that the amount of taxes therein assessed and specified are due and may be paid to me at any time up to and including the 31st day of October, A. D. 1910. Upon all such taxes paid to me before the first day of September a collection fee of one per cent will be charged, and on all such taxes paid on or after the first day of September a collection fee of three per cent will be charged. R. P. BYRNE, City Treasurer. (7-16-10-o)

### CONTRACT LET YESTERDAY.

Lipeett & Sinclair Will Construct Water Sterilization Plant.

A meeting of the board of fire and water commissioners was held at the water works plant yesterday morning for the purpose of determining whether or not the city property extended far enough east of the pumping station to permit of the construction of the hypochlorite of lime purification plant on the site and according to the proposed plans and specifications. It was decided to build the structure a few feet north of the location intended, which would have brought the building over the well.

The board then decided to accept the bid of Lipeett & Sinclair for the construction of the building and plant, at the price of \$3,225. This was the lower of the two bids submitted, the other being that of A. P. Wilson and the price, \$4,808. The new structure will be an addition to the present pumping station and will be built of the same quality of stone. The tanks through which the water will pass before entering the city mains are to be of reinforced concrete. In these tanks the water will be treated with a solution of hypochlorite of lime, by means of which all organic impurities will be killed, insuring the purity and safety of the water for drinking and other purposes, as far as sewage and other bacteria are concerned.

### ENGINEER AT FAULT.

Marquette Inspectors Fix Blame for Soo Lock Accident Last November.

After almost eight months the responsibility for the ramming of a closed gate in the Poe lock at the Soo by the steamer Isaac L. Elwood has been placed by the steamboat inspectors, and Floyd E. Lyons, chief engineer of the Elwood, has had his license suspended for fifteen days. This action was taken by Inspectors Charles York and Charles Gooding, after an exhaustive investigation.

### THEATRICAL.

"The Squaw Man."

"The best bill that the Pierce Associate Players have put on yet." This was the general verdict of the large audience after last night's presentation of "The Squaw Man," Edwin Milton Roy's great drama. The Pierce players have shown they are good in anything they attempt, but in the play last night they outdid all former efforts in this city. One of the great features of this bill is the elaborate staging and beautiful scenery, all of which is carried by the company and is a close reproduction of the original settings. "The Squaw Man" is familiar to many Marquette people and is known to be a wonderfully strong play, and the Pierce players demonstrated their ability to successfully cope with its many strong dramatic features. Wm. Jossey, as the squaw man, was just as well cast as in "Strongheart" and "At the White Horse Tavern," which is equivalent to saying that he was a great success. Miss Douglas appeared to splendid advantage as Lady Elizabeth, and her handsome gown in the first act was a distinct feature. Miss Hampton took the part of Nat-U-Ritch, the Indian wife, in a highly capable manner, and it is difficult to realize that she is the same woman who plays the comedienne so delightfully in the other bills. Arnold Combine, as the titled Englishman, was strong, and Frederick Money was at his best in the role of the Indian chief. One of the most pleasing members of the cast was Little Vern Schultz, as Little Hal, the squaw man's son. "At the White Horse Tavern" will be the bill tonight.

### SQUABBLE IN MINOR LEAGUE.

President L. H. Drumme of the Marquette-Alger league will give his decision Friday, Aug. 12, on the Gwinn and Munising disputed Sunday contest. Munising has as yet failed to send in her statement of the game and unless this is received by the above date Gwinn will receive the benefit of the game. Sunday Gwinn comes here to play the local second team and one of the very best games yet seen on the local field is expected. Jeason will do slab duty for the locals, while Linderville will work for Gwinn. Marquette's infield has been improved, while the outfield has been strengthened considerably. Sunday, Aug. 14, Marquette goes to Munising, while Gwinn has an open date. Not counting the disputed Sunday affair, the standing of the league is as follows:

	W.	L.	P.C.
Marquette	3	1	75%
Gwinn	2	1	66%
Munising	0	3	0%

### HOW'S THIS?

We offer one hundred dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. E. J. CHENEY & CO., Toledo, O. We, the undersigned, have known E. J. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by The People's Drug Store.

# CAMPBELL BROTHERS GAVE GOOD SHOW

Attendance Was Large and Audiences Were Well Pleased With the Exhibition.

Circus day has come and gone and the tent city on the old fair grounds appeared during the night just as quickly as it sprang up in the early hours of yesterday morning. The small boy was in his glory yesterday and the few favored ones who got a job leading a camel or carrying water at the grounds will be the idols of their playmates for months to come. For the next few weeks playing circuses is likely to be a popular form of amusement, and what with the boys doing handspins on the bed and walking a rope in the barn, nervous parents may expect to be driven to near distraction.

The Campbell Bros. gave a show that was well worth the money and on their first visit to Marquette left a very favorable impression. There is an interesting collection of animals, the parade was better than was expected generally, the circus acts were excellent, and all of the show was clean from start to finish, with none of the fakirs and hangers-on that usually follow a circus to the disgust of the public and the worryment of the police officers.

The circus trains arrived about 4:30 yesterday morning, beginning of Ishpeming and by the middle of the forenoon the tents were up and the circus ground at the end of North Third street was already a busy place. The parade traversed the down town streets about 11 o'clock, and was witnessed by a large crowd, many of whom were from out of town. The incoming Marquette & Southeastern train was crowded with people coming to see the circus. While some of the wagons and costumes in the parade looked a little the worse for wear, the parade was good enough and big enough to be a great drawing card for the show in the afternoon and evening. One of the best features of the parade was the large number of beautiful horses.

Tigress With Kittens. Shortly after dinner, crowds began to flock to the circus ground and spent the time before the beginning of the regular performance looking at the animals and taking in the sideshows. The menagerie was particularly interesting and comprised many rare animals. The cage to which the largest crowd was attracted was that containing a tigress with three kittens, two months old, which had not learned to bite and scratch and could be handled without danger. The eleven elephants received due notice and have learned to be excellent beggars for peanuts and other circus delicacies.

Generally speaking, the circus performance itself was entirely satisfactory. Two rings and a stage in the center of the big tent were occupied by skilled performers most of the time during the hour and a half performance, and the acts proved very interesting. There was a good deal of fancy and trick horsemanship riding, and the performance closed with several fast and furious horse races. One of the very best features of the program was the high bar and trapeze work, all of which was thrilling and almost deserved applause. Two rings of trained elephants did some very clever stunts. Two men with splendid physiques made a hit in their poses representing famous statuary. The tumbling acts and drills were all good. Campbell Bros. had a large staff of clowns who are really funny and they pulled off a large number of clever stunts.

The circus was well attended, both afternoon and evening, and the general expression of opinion among those who were there is that it was better than they had expected. The tents, cages, wagons and other paraphernalia were loaded on the special trains early this morning and left for Newberry, where they will give two performances today.

### Guild Hall Notes

The E. club baseball team will play the Invincibles on Longyear field this afternoon at 2:30. In a game between the same teams (Wednesday) the score was 7 all—The game had to be called in the ninth to allow the regular team the use of the field—The E. club expect to develop a team that can defeat any team of its age in this vicinity.

There will be hitting base running and signal practice for the Guild Hall team at the field tonight at 5 o'clock. A hard game is expected with the second Marquette team Saturday so all the men should be out for practice tonight.

### NOTED RUPTURE EXPERT HERE

Seeley, Who Fitted the Czar of Russia, Is at the Hotel Marquette.

L. B. Seeley of Chicago and Philadelphia, the noted trust expert will, Aug. 5, Mr. Seeley says: "The Spermatic Shield Truss as now used and approved by the United States government will not only retain any case of rupture perfectly, affording immediate relief, but closes the opening in ten days on the average case, and costing only proportionate with common trusses." This instrument received the only award in England and in Spain, producing results without surgery or harmful injections. Mr. Seeley has documentary references from the United States government, Washington, D. C., for your inspection. All charity cases without charge, or if any interested, call he will be glad to show the truss without charge or fit them if desired. Anyone ruptured should remember the date and take advantage of this unusual opportunity. Home establishment 70 Dearborn street, Chicago. (8-2-14)
