

Mayor Gaynor Is Shot and Seriously Wounded

James J. Gallagher, a Discharged and Disgruntled Municipal Employee, Attempts to Murder New York City's Chief Executive.

TRAGEDY TAKES PLACE ON THE DECK OF THE KAISER WILHELM DER GROSSE

Victim Is Bidding Friends Goodbye Preparatory to Sailing for Europe When His Life Is Attempted--His Assailant Is Overpowered and Arrested--The Bullet, It Is Found, Had Lodged in the Head--The Patient's Condition Is Grave, but Unless Blood Poisoning Develops His Recovery Is Probable.

New York, Aug. 9.—The following bulletin of Mayor Gaynor's condition was issued at 9 o'clock tonight: "A radiographic examination of Mayor Gaynor's wound indicates that the bullet divided into two fragments, occupying positions that do not demand operation or interference at present. The condition of the patient is satisfactory. He is resting quietly."

"WILLIAM J. ARLITZ, Visiting Physician, GEORGE E. BREWER, GEORGE D. STEWART, CHARLES N. DOWNS."

New York, Wednesday, Aug. 10.—The following bulletin on Mayor Gaynor's condition was issued at 1:30 o'clock a. m.: "The mayor is awake and cheerful. There is no pain, and he is conversing freely with the nurses and physicians. The indications are that he will have a good night."

The mayor said: "I have been forced into strife and responsibility against my will. I have done my best, and this seems to be the result."

New York, Aug. 9.—Wm. J. Gaynor, mayor of New York city, was shot in the head and seriously wounded today as he stood on the promenade deck of the steamer Kaiser Wilhelm der Grosse by James J. Gallagher, a discharged and disgruntled city employe. Gallagher almost instantly was overpowered and arrested. The shot was fired at 9:45 o'clock this morning, fifteen minutes before the Kaiser was due to leave her pier at Hoboken, N. J., and while the mayor was receiving good-byes from a group of friends preparatory to a vacation in Europe.

The bullet struck behind the right ear and ranged downward, inflicting a dangerous though not necessarily fatal wound. Unless blood poisoning develops, the surgeons are hopeful of the mayor's recovery, although at his age—fifty-nine—such a wound essentially is grave. Tonight the mayor is in St. Mary's hospital, at Hoboken, surrounded by specialists, while the members of the family are gathered near, awaiting the outcome with anxiety. All the early reports from the hospital were hopeful in tone, and this evening six X-ray negatives of the wound were taken to facilitate the operation for the removal of the bullet. Gallagher is locked in a cell at Jersey City, held without bail. He expresses no remorse.

First Cartridge Misses Fire. The big liner was ringing with the shouting of good-byes when the tragedy occurred. Most of those who had been aboard the ship to say farewell had come ashore, but a little group remained to talk with the mayor. They were standing on the port side of the vessel near the promenade deck forward and were in the act of posing for a group photograph when Gallagher, unnoticed, pushed his way almost to the mayor's side and fired pointblank at his head. He used a 38-calibre revolver, and an examination later disclosed that the first cartridge had missed fire. This probably saved the mayor's life, for Gallagher, when he first pulled the trigger, was less than two feet away. Backing away slightly in the excitement, Gallagher pulled the trigger a second time and sent a bullet crashing into the mayor's neck below the ear. William H. Edwards, commissioner of street cleaning and former Princeton football star, lunged forward with his 500 pounds as Robert Adamson, the mayor's secretary, struck Gallagher's arm. As he did so, a second shot pierced Edwards' sleeve, inflicting a slight flesh wound on the commissioner's right arm which remained undiscovered for hours because of the excitement.

Bitter Struggle About the Deck. Unmindful of his wound, Edwards hit the man crashing blow in the face, and they fell to the deck together, Gallagher struggling with the strength of desperation and pulling viciously at the trigger. Edwards rained blow after blow in Gallagher's now bleeding face, while Adamson and Archibald R. Watson, corporation counsel, flung themselves on the struggling two in an attempt to grasp the weapon. When Watson obtained it, Edwards and Gallagher continued their bitter struggle about the deck, Edwards now crying and shouting in his anger and excitement.

When Gallagher was completely subdued in Edwards' vice-like grip, a pair of steel nippers was slipped on his wrists by an officer aboard the ship and he was rushed through a hoisting and threatening crowd of the vessel into an automobile and was arraigned before Recorder McFievern in Hoboken.

Mayor Keeps His Feet. Mayor Gaynor, though badly wounded

and bleeding from the mouth and nose, did not lose consciousness. The impact of the bullet did not even throw him from his feet, but he raised his hands to his ears and with his face contorted with pain staggered in a daze and leaned limp across the ship's rail until Mr. Adamson came to his assistance. Then someone drew up a steamer chair, and into this the mayor sank. A few minutes later he was removed to a stateroom, where the ship's surgeon temporarily bandaged the wound. He was taken to the hospital in a special automobile.

Rufus Gaynor, a son, was the only member of the mayor's family present when he was shot. His wife and the other children were at the Gaynor country place on Long Island. Mrs. Gaynor was almost overcome when she reached the hospital and was permitted to see her husband for but a moment. She was joined there shortly by Mrs. Ethel Vingut, her daughter, and they began a vigil at the bedside. Rarely has a wounded man evinced more fortitude and cheerfulness than did Mayor Gaynor.

Thought His Wound Was Fatal. Mr. Gaynor evidently thought, as he was being carried down from the ship on a stretcher, that his wound was fatal, for he smiled faintly and said: "Tell the people goodbye." To his wife and son Rufus he said in the hospital, later: "This very strange, very strange. I wonder why he did it." But at no time did he express ill-feeling toward Gallagher. That the mayor looked calmly on the ever-present prospect of assassination is indicated by the tone of a recent letter to Attorney Charles Weinblatt, who had warned him of the danger of going in the subway without an escort. To Mr. Weinblatt, he wrote, in March: "I thank you very much for your letter, but I have no fear about going out alone. I don't think that any one would do me any harm, unless he was a lunatic, and it is hard to guard against lunatics."

Gallagher No Lunatic. Gallagher, judging by appearance, is no lunatic. His mind apparently is as sound as that of any man of fifty-old years, but he has availed himself of a hat and a night watchman in the departments of docks and ferries in July last for incompetency. Since then he had repeatedly written the mayor, anonymously and otherwise, harping on the impression that he had been persecuted and demanding redress. He even had written the governor. He went on board the Kaiser today with the express purpose of murdering the mayor.

"You took the bread and butter out of my mouth," he shouted, as he approached the mayor, and expressing his revolver and fired. "There was no panic during the disorder. President Pedro Montt, of Chile, enroute to Europe, was a spectator of the tragedy and its ensuing scenes. He had been talking to the mayor just before the shooting.

Many Telegrams Received. From every portion of the country telegrams vigorously denouncing the attempted assassination and expressing the most fervent hopes for Mr. Gaynor's recovery poured into the office of acting Mayor John Purroy Mitchell throughout the day and night. President Taft, Colonel Roosevelt, twenty-five governors and as many mayors, and exchanges and boards of trade in every section of the country and from Canada have sent telegrams of sympathy.

The following bulletin of Mayor Gaynor's condition was issued at midnight: "Mr. Gaynor is doing as well as expected. He has slept some. He is perfectly conscious. There is no evidence of infection." Mr. Gaynor began life as a Brooklyn newspaper reporter, studying law at night while working days.

Assailant Meant to Kill. Gallagher is a short, thick-set man, weighing 200 pounds. He smoked a cigar cheerfully after his arrest and at no time expressed sorrow because of his deed. He repeated stolidly that the mayor had robbed him of a livelihood and that he meant to kill him. He is fifty-six years old. It was a clergyman, he said, who pointed the mayor out to him before he fired the shot. After his arraignment this afternoon Gallagher was sent to jail, where he sat in a cell, contentedly smoking a pipe and seemingly pleased with the attention he had attracted.

Legislature Denounces the Crime. Denver, Aug. 9.—Both houses of the Colorado legislature today adopted a resolution sympathizing with Mayor

Gaynor and denouncing his attempted assassination as a crime against popular government.

WM. LOEB HAS CONFERENCE WITH THEODORE ROOSEVELT.

Oyster Bay, N. Y., Aug. 9.—Theodore Roosevelt spent this evening talking politics with William Loeb, Jr., collector of the port of New York. Tomorrow he expects to have a conference with Gifford Pinchot, former chief forester, and James R. Garfield, ex-secretary of the interior. Senator Bourne, an insurgent, of Oregon, called on Mr. Roosevelt today at the latter's New York office. When asked if they had talked politics, the senator said they had discussed the "Oregon system" of government and he had asked Mr. Roosevelt's advocacy. Mr. Roosevelt said he had already gone on record for the recall, the initiative and referendum and other features of the Oregon system.

Mr. Hitchcock at Beverly. Beverly, Mass., Aug. 9.—Postmaster General Hitchcock visited President Taft today. They talked politics. "I am not the least bit pessimistic over the outlook from the Republican point of view," said Mr. Hitchcock. Mr. Taft today appointed Eugene Reardon postmaster at Hibbing, Minn.

Governors' Proposed Conference to Discuss Conservation Problems. Salt Lake, Aug. 9.—Tentative steps looking to a conference of the governors of the Northwestern and Pacific coast states preliminary to the meeting of the National Conservation congress at St. Paul have been taken by Governor Hay of Washington. The executives of nine states have been invited to meet here to discuss conservation problems. Governor Hay, in his answer to an invitation from Governor Eberhard, of Minnesota, to attend the congress, declined unless he be allowed to name one speaker to be given no less than an hour's time to address the Washington convention. It is feared the new move will be inimical to the St. Paul meeting.

PROBE BRINGS OUT LITTLE THAT IS NEW

Oklahoma Indian Land Investigation Continues—Senator Gore Introduces a Letter.

McAlester, Okla., Aug. 9.—Little that was new was brought out in the investigation of the McMurray Indian land contracts today. References to Vice President Sherman and Senator Charles Curtis of Kansas were made in a letter introduced by Senator Gore. It had been explained by Congressman Creeger that he and Richard Adams, Washington attorney for McMurray, had called upon Mr. Taft and the president had announced his approval of the plan to reopen the tribal rolls so that many claimants might enter, his disapproval settling the land question. Mr. Taft, he said, wrote a letter, declaring his willingness to have it published.

After the letter was made public George Scott, McMurray's agent in Oklahoma, wrote to Adams, saying: "Please say to the president that his course is to be commended. He has placed himself on record in his letter to you as against the reopening of the rolls and as for the withdrawal of his name from the list." The advance was made after the tariff bill and advocating the creation of a tariff commission, Senator Joseph L. Bristow, of Kansas, addressed a crowd of some hundreds of people here tonight in the second speech of his whirlwind campaign through Wisconsin in the interest of Senator LaFollette and the cause of the insurgency. A large portion of the senator's address was devoted to the subject of the revision of the tariff. He referred with great emphasis to the rubber and lead schedules. "Under the leadership of Aldrich and Cannon, instead of revising the tariff as promised the duties were fixed, not with a view of protecting legitimate American industries or of securing revenue for the government, but for the purpose of promoting the financial interests of certain individuals or concerns," said the senator. "For instance, the duty on manufactured rubber was increased from 30 to 35 per cent, while crude rubber was left on the free list. The advance was made after the bill came to the senate by the senate committee on finance, of which Mr. Aldrich was chairman. The new tariff bill became a law Aug. 5, 1909. In September it was discovered that the organization of a rubber trust was being consummated, with the son of Senator Aldrich as the executive head."

The speaker declared that the stability of the government will be tested at the coming primaries, which he characterized as the most important in the history of the nation, and that the integrity of the nation will depend upon the character of the men sent to Washington. "It is our purpose to keep the party as clean as it came to our lands and not consent to have men like Cannon and Aldrich substituted for such leaders as Lincoln, Grand, McKinley and Roosevelt."

FLOOD IN RUSSIA CARRIES HUNDREDS TO DESTRUCTION.

London, Aug. 10.—A St. Petersburg dispatch to the Times says that the village of Boshonik, in the Caucasus, was being consumed, with the loss of a flood which swept away five hundred houses, with their inmates.

DUKE OF ABRUZZI NOT COMING HERE IN NOVEMBER.

Manchester, Mass., Aug. 9.—The Italian embassy, from its summer headquarters here, tonight denied the reports circulated today that the Duke of Abruzzi will pay another visit to Washington in November.

INCREASED FREIGHT RATES WILL BE LOOKED INTO.

Washington, Aug. 9.—The inquiry into the proposed advances in freight rates recently made by the railroads of the Western Trunk Line association will begin at Chicago Aug. 29.

TEMPLAR HOST SHATTERS ALL PAST RECORDS

Greatest Demonstration in the History of the Order Is Registered at Chicago When More Than 40,000 Knights Parade Before Half a Million People.

One Tragic Death, One Fatal Accident and a Dozen Minor Casualties, However, Cast a Pall Over the Event—Wife Scans in Vain for Her Husband.

Chicago, Aug. 9.—One tragic death, one fatal accident and a dozen minor casualties, however, cast a pall over the event which shattered all past records of the order. Fully half a million people witnessed the demonstration. The first note of tragedy came when Hermann Grossman, of Chicago, on his way to join his commandery, was caught between two street cars and received injuries from which he died on the way to the hospital. In a grandstand two blocks away sat his wife, scanning the marchers for her husband and not learning of his death until she reached home.

Shortly afterward William Hackett, a Templar from Fosteria, O., was thrown from his horse in the parade and was dragged with his heel in the stirrup for a block. His injuries are fatal. W. B. Biddle, of Laporte, Ind., was struck by a cab and was seriously injured. Scores of women who fainted in the crush received attention in emergency hospital booths which had been erected along the line of march.

After the parade the first formal session of the conclave was held, largely in the choice for the next triennial gathering lies between Los Angeles, New Orleans and Denver.

JABS AT ALDRICH AND CANNON AGAIN

Senator Bristow Speaks at Appleton in the Interest of LaFollette and Insurgency.

Appleton, Wis., Aug. 9.—Fighting Senator Aldrich and Speaker Cannon, denouncing those Republicans who favored and fought for the passage of the last tariff bill and advocating the creation of a tariff commission, Senator Joseph L. Bristow, of Kansas, addressed a crowd of some hundreds of people here tonight in the second speech of his whirlwind campaign through Wisconsin in the interest of Senator LaFollette and the cause of the insurgency. A large portion of the senator's address was devoted to the subject of the revision of the tariff. He referred with great emphasis to the rubber and lead schedules. "Under the leadership of Aldrich and Cannon, instead of revising the tariff as promised the duties were fixed, not with a view of protecting legitimate American industries or of securing revenue for the government, but for the purpose of promoting the financial interests of certain individuals or concerns," said the senator. "For instance, the duty on manufactured rubber was increased from 30 to 35 per cent, while crude rubber was left on the free list. The advance was made after the bill came to the senate by the senate committee on finance, of which Mr. Aldrich was chairman. The new tariff bill became a law Aug. 5, 1909. In September it was discovered that the organization of a rubber trust was being consummated, with the son of Senator Aldrich as the executive head."

The speaker declared that the stability of the government will be tested at the coming primaries, which he characterized as the most important in the history of the nation, and that the integrity of the nation will depend upon the character of the men sent to Washington. "It is our purpose to keep the party as clean as it came to our lands and not consent to have men like Cannon and Aldrich substituted for such leaders as Lincoln, Grand, McKinley and Roosevelt."

GRAIN MARKETS INACTIVE.

Chicago, Aug. 9.—On account of the Knights Templar parade, the board of trade today closed at noon. Long before that hour the business had dwindled to almost nothing. Wheat closed 1/8 higher to 1/4 lower. At the opening the market was weak, due to the bearish construction put on the government report and the free receipts of new wheat here and elsewhere. Later the market became firmer on bullish foreign news. It was rumored that 250,000 to 500,000 bushels of wheat had been sold today for export, part from Duluth and some from Baltimore. Another influence which helped overcome the early weakness was the firmness of Paris, due to rainy weather in France and to bad crop conditions throughout that country. In addition, the European visible supply decreased unexpectedly. The close was firm. The September opened at 101 to 101 1/4 and closed at 101 3/4.

AUSTRALIAN SWIMMER BREAKS THREE WORLD'S RECORDS.

London, Aug. 9.—Frank E. Beaurepaire, of Australia, in a continuous swim tonight broke the world's record for 200 metres, 300 yards and 300 metres at the Exeter baths. The times of the respective distances were two minutes and thirty seconds, 3:30 and 3:10 1/2.

FIRE AT BOSTON DESTROYS PROPERTY WORTH A MILLION.

Boston, Aug. 9.—A loss of upwards of \$1,000,000 was caused tonight by a fire in the wholesale district. Five buildings, including one tenement, were destroyed. Five firemen were caught under falling walls, but were rescued.

THREE FOREST FIRES RAGING IN THE YELLOWSTONE PARK.

Livingston, Mont., Aug. 9.—Three forest fires are raging in the Yellowstone National Park, according to reports here. It is believed the fires will be brought under control before great damage is done. The fires are being fought by two hundred regular troops. The park is heavily timbered.

SHIPWRECKED PASSENGERS CAMPED ON THE BEACH.

Bellingham, Wash., Aug. 9.—The Inland Navigation steamer Chippewa, which carried eight hundred excursionists from Bellingham for Victoria, is ashore at Castle island, in the strait of San Juan del Fuca. The passengers were taken off and are camped on the beach. The Chippewa is not in perilous position. It is believed the steamer will be floated at high tide.

SMUGGLER PAYS \$5,000 FINE AND LOSES VALUABLE GEMS.

New York, Aug. 9.—Wm. Loeb, Jr., collector of the port, today received word from United States Marshal Alcott, of Trenton, N. J., that two pearl necklaces which were taken by customs inspectors from H. R. Lyons, a miller of Minneapolis, on his arrival here on the steamer Amerika May 28, have been forfeited to the government and will be sold in Trenton Aug. 10. Appraiser Vanmaker places the value of the necklaces at \$9,100. In addition to forfeiting the gems, Mr. Lyons paid a fine of \$5,000 on the charge of attempted smuggling for not declaring the pearls.

MARKET DEVELOPS POSITIVE STRENGTH

Prices of Wall Street Stocks Go Up, Largely on the Demand from Uncovered Shorts.

New York, Aug. 9.—The development of positive strength in the stock market today was an outgrowth, largely of the power of resistance to unfavorable factors which was demonstrated. The news of the attempt upon the life of Mayor Gaynor confronted the market when it opened. This new element followed upon the disappointing government report yesterday on the condition of the market at the close yesterday. The depression of the early prices was so moderate as to serve as a warning to the bear element in the speculation that the present holders of stocks would not be induced easily to sell. A market of stocks is not a comfortable situation for an uncovered short, and a substantial demand sprang up from that source. The advance in prices was largely due to that cause. The dealings in large degree were professional. Leading Union Pacific Steel division of the transactions. There was some disposition to revise yesterday's appraisal of the crop report and to take a more hopeful view of its promise. The grain markets having adjourned yesterday before the publication of the bulletin, the stock market had been without a guide of the action of those markets. The quiet tone of the corn market today and the downward tendency in wheat left no room for sensational inferences of harm to those crops. The tone of the weekly bulletin of the weather bureau strengthened the assumption that improvement had been going on since the date of the monthly report. In the field of dividend action, there was the increase in the Canadian Pacific dividend and the maintenance of the Stow-Shellfield Steel dividends. Secondary consideration of the July statistics of the Copper Producers' association seemed to give greater satisfaction than the first impression, and the copper stocks were all strong.

THE WEATHER

Washington, Aug. 9.—The following is the weather bureau's forecast for Upper Michigan: Fair, Wednesday, preceded by showers in the morning in the east; Thursday, fair; moderate west winds, becoming variable.

DR. CRIPPEN THE PREMIER OF ALL PRESS AGENTS?

Inspector Dew of Scotland Yard Intimates That the London Dentist May Have Hoaxed the Entire World and Made the Police a Laughing Stock.

"Murder" of the Actress Wife May Not Be a Murder at All, but Just a Gigantic Fake for Advertising Purposes—Present Evidence Cannot Convict.

Buffalo, N. Y., Aug. 9.—The Crippen-Elmore murder not a murder at all, but just a gigantic fake for theatrical advertisement purposes? This is the surprising development in the Crippen case hinted at by Inspector Dew, during a visit here from Quebec, where he has Dr. Crippen in custody. Dr. Crippen, prime minister of all press agents and a past master in the art of "putting it over," is the way the Scotland Yard detective fears the thing will turn out.

Despite all the evidences of murder the valuation of the levels at \$9,100. In addition to forfeiting the gems, Mr. Lyons paid a fine of \$5,000 on the charge of attempted smuggling for not declaring the pearls.

Inspector Dew, in advancing his theory, pointed out that no identified body has been found and the flesh and bones discovered buried in quicklime in the doctor's London home have not even been proven those of a human body. Should this turn out to be true Crippen cannot be convicted of murder. Nobody knows for certain, as far as the police have learned, that Belle Elmore is not living. If Belle Elmore should turn up

TRAIN DASHES INTO AN AUTOMOBILE

Five Persons Are Instantly Killed at a New Jersey Crossing of the Pennsylvania Railroad.

Cape May, N. J., Aug. 9.—Five persons were crushed to death tonight when an express train on the Pennsylvania railroad dashed into an automobile at Mill Lane crossing. The dead were Frederick W. Feldner and wife and Fritz Mergenthaler and wife and their chauffeur, M. C. Jones, all of Baltimore. Mr. Mergenthaler was the son-in-law of Mr. Feldner and the son of Ottman Mergenthaler, inventor of the Mergenthaler Linotype. All were instantly killed.

Conductor Blamed for Western Horror. San Rafael, Cal., Aug. 9.—Twelve persons were dead and a score are suffering painful injuries as a result of the collision on the Northwestern Pacific railroad at Ignacio station last night. One death—that of W. B. Burton, of Berkeley—occurred today and the condition of several of those in hospitals at San Francisco is precarious. New light was thrown today on the cause of the accident, which is now ascribed by the railroad officials to the failure of Conductor George Flaherty, of the work train, to obey an order to hold his train in the yard at Ignacio until the passenger train from the south had passed.

The bodies of E. W. Banks and his brother, W. A. Banks, of Rockford, Ill., lie in the morgue here. They met death instantly. The body of the former was crushed. They had offices at 205 La Salle street, Chicago, and were interested in the sale of lands in Idaho and California. About ten days ago they came to this state and were being taken on a tour of inspection by Colonel E. E. Holy. They bought some sandwiches here and, leaving Chicago, they in a day coach, went into the smoker only a few moments before the collision. They would have escaped had they remained in the day coach.

Muncie, Ind., Aug. 9.—Ad Wolgast, lightweight champion, and Freddie Cole, of this city, boxed six rounds here tonight. No decision was given. Wolgast was Cole's master all the way.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

REPUBLICAN COUNTY CONVENTION.

A Republican convention for the county of Marquette is hereby called to meet at the City Hall in the City of Marquette, on Wednesday, the 14th day of September, A. D. 1910, at 11 o'clock in the forenoon.

Table with columns for Ward, Cast, and Votes. Lists wards like Marquette City, Negaunee City, Ishpeming City, and various townships with their respective vote counts.

It would, of course, thicken the plot and add to the confusion if Jake Hamon were to charge that Senator Gore of Oklahoma also solicited a bribe.

The census figures for the United States will not be available until October, but census bureau officials are predicting that they will show an increase of 13,000,000 people in the decade, or a population of 90,000,000.

Representative McKinley leaves no doubt that the congressional campaign committee considers that a Republican majority in the house is to be preferred to a Democratic majority, even if the former has to be made up of regulars and insurgents.

We should say that the management of the Negaunee baseball team is entirely safe in proceeding with arrangements for a post-season series of games with the Escanaba team, on the theory that it is going to win the bunting in the Marquette-Iron Country league.

In view of the fact that it has not been qualified, it appears that Speaker Cannon's Kansas declaration that he will be a candidate for reelection to his present office in the house stands, but even his erstwhile supporters admit that he has no chance of election and that his candidacy, if he persists in it, will be a bootless piece of disorder-breeding nonsense.

A Decatur, Ill., woman has just had a trying experience while familiarizing herself with one of the latest of fashion's freaks. While taking an experimental voyage in a hobble skirt, churchward bound, she was precipitated by her cranky costume into a pool of mud left by a recent rain, and emerged therefrom much the worse for wear.

The Escanaba school board scored a minor point on F. D. Davis, who claims to be superintendent of the Escanaba schools. Judge Flannigan granted an order requiring Mr. Davis to surrender the key of a vault containing the school records. Judge Flannigan promises an early decision in the injunction proceedings brought with the idea of confirming Mr. Davis' title to the office for the period covered by the contract he holds, and which was abrogated by the trustees.

Emblagaard Dairy Pure Dairy Products from Holstein Cows. GEO. GILLETTE, Distributor.

study the first week in September. There isn't much time left in which to straighten out the tangle before the fall term opens. Naturally there is much interest and concern to learn whether Escanaba is going to have one or two school superintendents on its hands.

There is a probability that the prohibition issue will lead to the calling of a special session of the Texas legislature. Governor Campbell has the convening of a special session under advisement, and if he calls one will urge the passage of a law making Texas "dry." O. B. Colquitt, who has been nominated by the Democrats to succeed Campbell, which of course is equivalent to an election in Texas, is opposed to prohibition, and says that he would veto a prohibitory law, even if one was passed by the legislature. The prohibitionists would like to forestall him by placing such a statute on the books before he is sworn into office.

There can be no quarrel with the tariff law as a revenue producer. During the first year of its operation it produced an amount of income \$75,000,000 in excess of the income from that source in any previous year except 1907, the banner year. During the first full year under the law, which ended last Saturday night, the total ordinary receipts, including customs, ordinary internal revenue, corporation tax and miscellaneous income, aggregating \$678,850,816, exceeded disbursements by \$20,214,029.

The Milwaukee Free Press thinks that Secretary Ballinger should step out of the cabinet. It believes him guilty of wrongdoing, "but," it says, "Mr. Ballinger has been indiscreet in many respects, and more important, he has not shown himself in complete sympathy with the spirit of the conservation movement as it is popularly interpreted.

These things the public will not forget and Mr. Ballinger must understand that no vindication can affect them. Secretaries and ministers have resigned their portfolios for reasons trifling compared with those which should actuate the secretary of the interior, for greater men than he have retired for the good of the cause under the spur of unjust accusation. If Mr. Ballinger were nothing more than an embarrassment to President Taft, who has so graciously and loyally sustained him in the hour of his trial, he should be prompted to remove himself as the Old Man of the Sea of the administration."

"You're a liar," "You're another." This is a not infrequent colloquy between persons whose tempers have given away to strain. Down in Oklahoma Representative Creager says to Jake Hamon "You're a bribe giver," and Jake rejoins, "You're a bribe seeker," and the public will be perhaps as much puzzled to know which to credit as it is in the case of those irate individuals who invoke the shorter and uglier word. Indeed, at this writing it appears as if the congressional investigation into Senator Gore's charges in relation to the Indian land contract cases will do little more than give publicity to a miscellaneous lot of allegations, few if any of which will be either definitely proved or disproved.

A DANGEROUS MISTAKE. Marquette Mothers Should Not Neglect Kidney Weakness in Children. Most children have weak kidneys. The earliest warning is bed-wetting. Later comes backache, headache, languor.

ORGANIZATION WINS. The organization in New York has won its long and stubborn fight for its primary reform ideas, and it is said that, as a result of a conference this week between Chairman Woodruff, of the state central committee, and President Taft, the party will enter the fall campaign pledged to a retention of the convention system. President Taft is said to favor this plan and President Roosevelt, it is asserted, will not endeavor to force his ideas about direct nominations or the candidate for governor on the party.

To keep your health sound; to avoid the ills of advancing years; to conserve your physical forces for a ripe and healthful old age, guard your kidneys by taking Foley's Kidney Remedy. The People's Drug Store.

Detroit Saturday Night's poll of the state editors' preferences between the gubernatorial candidates bears out the judgment of most persons qualified to pass on matters political that the real contest lies between Chase S. Osborn and Lieutenant Governor Kelley and that a vote for Amos Musselman will be a vote shot in the air, as far as any direct bearing on the outcome is concerned. This poll, as was shown in yesterday's issue, indicated that more editors favor Mr. Osborn than Mr. Kelley and Mr. Musselman put together, and more editors believe that Mr. Osborn will carry their legislative districts than have any idea that either Mr. Kelley or Mr. Musselman can accomplish that feat.

THE STATE PRESS. With so many candidates making "whirlwind" campaigns in the state, Michigan voters are in danger of being swept off their feet.—Flint Journal.

MEETS ISSUE SQUARELY. Senator La Follette is going to run a slam bang radical insurgent campaign for re-election in Wisconsin. He will not beg the issue, but will welcome it and will have the assistance of those radical members of the insurgent wing who have idle summer time to put in.

There were 597 divorces in Wayne county last year, enough to shock and grieve the pious city of Windsor, where the "marriages" are made which a decent American court must annul.—Detroit Journal.

A LAUGH OR TWO. Couldn't Say It. A Wall street broker has a boy who stutters badly.—One day a neighbor wanted to send a note across the city and borrowed George to carry it for him. The trip was a long one, and the boy was gone three hours. When he returned the broker asked him how much he had charged for his services.

A "Special Favor." "I have never received but one letter against the granting of a pension. It ran: "Dear Sir: You have ruined my life. I was to be married next week. Now you have gone and had widows' pensions raised to \$30 per month. That is a willful temptation to every woman who marries an old soldier to murder him. I am afraid now to marry, and my life is ruined. Can't this law be changed?" No such tests is good risk, whether the tests were accurate or not.—Detroit News.

Rural Sympathy. The rural free delivery reaches its flower of perfection in Vermont. "Mr. Carrier," said a lady who was summing among the mountains. "I have a letter, received several days ago, saying a package had been forwarded to me by mail. I have not received it yet. Have you seen anything of it?" "A package?" asked the rural free deliverer.

ORGANIZATION WINS. The organization in New York has won its long and stubborn fight for its primary reform ideas, and it is said that, as a result of a conference this week between Chairman Woodruff, of the state central committee, and President Taft, the party will enter the fall campaign pledged to a retention of the convention system. President Taft is said to favor this plan and President Roosevelt, it is asserted, will not endeavor to force his ideas about direct nominations or the candidate for governor on the party.

ORGANIZATION WINS. The organization in New York has won its long and stubborn fight for its primary reform ideas, and it is said that, as a result of a conference this week between Chairman Woodruff, of the state central committee, and President Taft, the party will enter the fall campaign pledged to a retention of the convention system. President Taft is said to favor this plan and President Roosevelt, it is asserted, will not endeavor to force his ideas about direct nominations or the candidate for governor on the party.

THE GREAT POWER OF THE ORGANIZATION IN NEW YORK IS SHOWN BY THE OUTCOME OF THIS STRUGGLE. It has resisted one of the most popular and one of the strongest governors New York has ever had in his advocacy of direct nominations, and stood him off cavalierly even in a special session of the legislature called with the particular design of securing the adoption of his ideas on this subject. It stood off, also, Col. Roosevelt and lost an opportunity of pleasing President Taft, who while he did not interfere would no doubt have been greatly pleased to have had the legislature fall in with Governor Hughes' views. The organization was loyal to its own ideas, and stood out for them until they finally are generally accepted, it seems.

words as she threw her arms around his neck. "Yes," he said, "but, by the way, did you save me that piece of apple pie?"—Cleveland Plain Dealer.

LOWER STATE NOTES. BAY CITY.—After eleven days of hiccoughing, Elmer Smith, the wealthy Alto farmer who was brought to Mercy hospital because his physicians could not stop the spasms, local physicians succeeded in bringing about a complete cessation of the affection, but Smith is in such a state from exhaustion and the effects of the heroic remedies that his life is hanging by a thread. Enormous doses of chloroform and whisky almost completely paralyzed the man, the physicians announcing beforehand that they might kill the sufferer with the drug. Relief was also afforded by mechanically inducing the phrenic nerve, nurses sitting for hours at a time pinching it between their fingers.

OWOSSO.—The Michigan Central railroad company is finding that but few of its trainmen on the division between Bay City and Jackson care for promotions from freight to passenger runs, although but a few months ago passenger train duty was eagerly sought. This apathy may be attributed to the fact that Bay and Saginaw counties are "wet" territory, while all other counties between Bay City and Jackson are "dry." The call of the wild attracts many paroled ones from the south to Bay City and Saginaw, and their exuberance manifests itself on the return trip. Many are quarrelsome, and the duties of the conductor and brakeman are rendered onerous by their obstreperousness, bad language and insults. Several times conductors on southbound Michigan Central trains have appealed to Owosso officers for aid in quelling belligerents. On more than one occasion windows in cars have been broken by fighting passengers. The Sunday excursions are most largely patronized by the bibulous ones.

FLINT.—Delmas Merritt made an unsuccessful attempt to kill his wife here at the boarding house of Randolph North. The man shot at her with a revolver three times before he was disarmed by Officer Floyd Jewell. Taken to the police station, Merritt confessed and said he regretted he had not killed his wife. The couple have been married several years, but for some time past have lived the greater part of the day, and several times during the afternoon, in the presence of others, engaged in casual conversation with his wife. As he prepared to leave the house he passed her, pulled his gun and began shooting.

CADILLAC.—Sheriff Evans arrested, in a dense wood five miles west of this city, W. H. Wilkins, a gang of seven thieves who have been robbing the farmers of Cherry Grove three years without being caught at it until recently. He was found living upon an outfit that would have enabled him to live in the woods a lifetime. Since the arrest a few days ago of Ed and Will Platz, members of the gang, Wilkins has not been out of the woods. The Platz boys were given light sentences for the reason that they gave information that led to the arrest of the leader.

LANSING.—John Pine, a farmer residing in Alcona county and the father of nineteen children, was made a happy man recently through an act of kindness by the state land department. Twenty-seven years ago Mr. Pine moved to a farm which at that time was a dense wilderness. He understood that all that was to settle on a piece of state land and do a certain amount, and in time it would become his property by right of the state homestead law. For twenty-seven years he continued to improve the forty acres, thinking all the time that it was his and was unaware of the fact that all this time the land was the property of the state. A short time ago he glanced at a local paper and was amazed to see his own forty acres which he had improved to a state of fine cultivation and erected fine buildings on advertised for sale by the state. Making his way to the home of neighbors he sought their opinions and was informed that the only redress he had was to appear at the sale and make a bid on the property. This he did. When the description was reached, Deputy Carter of the land office, who had been informed of the situation, stated to those present that he would take a vote and if agreeable the forty would not be sold, but that Mr. Pine would be given a chance to homestead the land for five years, after which time he would, by virtue of the state law, be entitled to a deed of the farm. Not a dissenting vote was cast by the large assembly of residents, and now all that Pine has to do is to continue to live on the farm and continue his improvements and in five years' time he will receive a deed of the forty.

\$100 REWARD, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in the most permanent manner, and that is Catarrh. Catarrh of the bladder is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure, taken internally, acts directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The price is fifty cents a bottle. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Beware of cheap imitations. Take Hall's Family Pills for constipation.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by The People's Drug Store.

COLLEGE OF ST. THOMAS ST. PAUL, MINNESOTA. A Catholic Military College, situated in beautiful and extensive grounds near the banks of the Mississippi. Ranked by the War Department among the ten military colleges of the United States distinguished for discipline and efficiency.

Restores Damaged Complexions. The sun burns and the wind dries the skin that is inflamed or dried by the elements may or may not be restored to its original condition. Often a little permanent damage remains and this process continues until the complexion loses its freshness and beauty.

Desjardins' Toilet Cream. This is a delightful preparation to use, not sticky, greasy, and one which everybody should keep on hand during the summer season.

Desjardins' Pharmacy 417 North Third Street.

FOR SALE—Lot corner Bluff and Fourth, on easy terms, two acres on Fisher street and houses in different parts of city. Enquire J. E. Reus, 311 Baraga Ave. County Home Bldg. (6-25-11).

# Copper Country

## RESIGNS AFTER TWENTY YEARS

### Justice Casper Brand Gives Up the Treasurership of the Houghton Firemen.

Justice of the Peace Casper Brand, for the past twenty years treasurer of the Houghton fire department, resigned the latter office at a meeting of the department Monday night. Justice Brand's health compels him to give up all other interests than those of his office. At the meeting before his resignation he turned over to the department the books and the funds, the latter being a considerable sum which shows the department has been very thrifty. The firemen voted to Justice Brand their thanks for the services which he has rendered during two decades. Maurice Spring was elected to succeed the retiring treasurer.

### SOUTH RANGE SIDEWALKS.

#### Village Faces Litigation Through Forcing Municipal Improvements.

It looks as though the village of South Range will become involved in litigation concerning the building of concrete walks wherever walks have been ordered constructed. One property owner is refusing to comply with the decision, not because he does not want to build the walk, but because he thinks the grade should be changed. At its last meeting the village voted unanimously to leave the grade as fixed by the village engineer.

To show that the village means business, and that the walks must be constructed according to the specifications, a portion of a new walk had to be taken up. The property owner contracted for building the walk and after it was completed it was learned that the contractor had built it two feet wider than the plans called for. The village served notice on the property owner not to make any payments on the job, and if such was done, then the village would hold the owner responsible.

It will be necessary for several of the property owners to raise their buildings to get in line with the grade. Here is where the hitch is. It is contended that if the grade is lowered, then the buildings will not have to be raised so high and the expense will be lighter.

### HANCOCK EAGLES' CARNIVAL.

#### Aerie Appoints Committees to Have Charge of Barkot Shows.

The following committees have been appointed by the Hancock aerie of Eagles to take charge of the street fair to be conducted under the auspices of the lodge in September:

Soliciting—Richard H. Hosking, Ed Caff, Matt Eskola and C. E. Rouleau. Arrangement committee—W. Frank James, R. H. Hosking, Ed Caff, Ben Gettelman, C. Simmer, Frank Wern and C. E. Rouleau.

Advertising—C. E. Rouleau, Ben Gettelman and Frank Wern.

Transportation—C. Simmer, H. Rouleau and C. S. Brown.

Finance—Bismarck, Dittler, C. E. Rouleau, Alex. MacDonald.

Police—Frank Wern and Ed Caff.

The Barkot Amusement company will be in Hancock with fifteen shows and 300 people for the week of Sept. 19. The shows will be located on side streets. Special police protection will be provided.

### NEW OFFICERS NAMED.

#### Election Held by St. Jean Baptiste Society in Hancock.

At the annual meeting of the St. Jean Baptiste society of Hancock and Houghton, the following officers were elected for the ensuing fiscal year:

President—Amedee Corneller.  
First Vice President—Fred Mayrand.  
Second Vice President—Antoine Crignon.  
Secretary—C. E. Rouleau.  
Treasurer—Philius Verville.  
Corresponding Secretary—C. O. Olivier.

Assistant Secretary—Omesine Racine, Sergeant-at-Arms—Archille Fournier, Commissioner—Damarse Bourquin, Directors—Hercule Racine, Joseph Coulombe, Emil Brunette, E. Y. Marleau, Adelaud Landry, Joseph Roy and Diomedee Dostler.

President Corneller succeeds himself as president, as do many of the other officers.

### ESCANABA GETS NEXT MEET.

The Young People's society of the Norwegian Lutheran church, whose annual convention for the Michigan-Wisconsin district, met Monday at Calumet, decided to meet next year at Escanaba. Officers were elected as follows: President, Rev. S. Romsdahl of Calumet; vice president, L. Lund of Calumet; secretary, Miss L. Hansen of Marquette; W. A. Trezona, treasurer, Miss Ovidia Johnson of Escanaba.

## MAKES A REPORT ON FOUR COUNTY JAILS

### Chairman Edwards of the Board of Supervisors Tells of His Trip of Inspection.

Chairman Edwards yesterday presented to the Houghton county board of supervisors an informal report of a recent trip of inspection which he made to four county jails in the upper peninsula. These were those of Delta county, at Escanaba; Marquette county, at Marquette; Menominee county, at Menominee; and Dickinson county, at Iron Mountain.

The trip was taken with the purpose of ascertaining data regarding jail management and the cost of maintenance, largely with reference to the manner in which the sheriff is paid. As some of Mr. Edwards' criticisms were somewhat drastic he asked that in this report no reference be made by name to the county discussed, so they are here numbered in the order of his report:

### Jails of Four Counties.

No. 1. Pays sheriff \$1,000 a year, all fees and sixty cents a day for feeding prisoners. Pays two turnkeys. Quality of the county jail not equal to that of Houghton county. The cells are under a sort of mezzanine floor and are spoken of as "the bear pit." County is now talking of a new jail and sheriff's residence, which probably is the reason this county has not come in for census at the hands of the state board of corrections and charities, as Houghton county did. This jail has a padded cell, which is commendable. It is provided with a padded bunk to serve as a bed for the occupant and Mr. Edwards recommends such a bunk for the Houghton county jail. In No. 1 county the prisoners work on the county roads, in particular the road to the mill, and the plans called for. The village served notice on the property owner not to make any payments on the job, and if such was done, then the village would hold the owner responsible.

No. 2. This county pays the sheriff \$2,000 a year and fifty cents a day for board of prisoners. Prisoners average twenty in number. The jail is more modern than Houghton's, with good quarters for women and a distinction as to classes of prisoners. The management of the jail is "fierece." A turnkey is employed, but he was off libating while Mr. Edwards was there and the sheriff's wife, a very pleasant woman, by the way, said Mr. Edwards, showed the visitor through.

No. 3. A very peculiar situation. Here the sheriff is paid a salary of \$100 a month and \$150 a month for prisoners' board, regardless of what number he has on hand. The sheriff formerly received \$250 for board. The supervisors cut him down \$100 and afterward came to the conclusion they had been a little harsh, so they voted him \$50 for firing the furnace at night and mowing the lawn by day. The jail is quite modern. There were no prisoners when the visitor was there, but the official who showed him around said, "We had one last week." The county has half its population in the county seat, which has a salaried municipal judge. He keeps the town free of vags and small fry of crime and thus the jail is seldom very thickly populated.

No. 4. The county clerk was not at home, but he has a most charming deputy, was the way Mr. Edwards opened up on No. 4. In this county the sheriff gets \$100 a month and all fees and is paid \$208.33 a month for prisoners' board, regardless of the number. In order to keep the sheriff on his job constantly the county will not provide him with a turnkey nor turnkey fees, so he must stay at home or hire help out of his own income. In this county the circuit court is hard on drunks and disorderlies and the number of prisoners thus is reduced. There were four or five prisoners on hand, but Mr. Edwards did not visit the jail because of the exigencies of railroads.

Mr. Edwards said that Houghton county is far behind in county building grounds, all of the other counties having at least two blocks. Dickinson county has the best arranged court house. Little or no attention is paid to the juvenile criminal in any of the counties visited.

The chairman praised the roads of Dickinson and Menominee counties, but said that Houghton county could not expect to attain much perfection under the county road system for some years, as it takes time and money.

### A Few Minor Matters.

The finance committee held up a bill of \$233.50, for returns of births and deaths, from Calumet township, pending investigation.

The building committee was instructed to have shingled the roof of the nurse's residence at the county tuberculosis sanatorium.

The report of the committee on the proposed new tuberculosis sanatorium was meagre. Chairman Seeber said that he favored the county infirmary grounds, but that there was a possibility the entire Good Will Farm institution may be donated to the county for the purpose.

### COMING OF SENATOR BURROWS.

#### Venerable Statesman Will Arrive Here Tomorrow Morning.

Hon. Julius Caesar Burrow of Kalamazoo, Michigan's senior United States senator, will arrive in Houghton Thursday morning at 5:40 o'clock to spend the day in the copper country. He is coming to discuss his campaign for re-nomination. Senator Burrows will be met by a committee of citizens, with Hon. Graham Pope as chairman. He will spend Thursday morning in Houghton and Hancock and will go to Calumet in the evening.

### JAMES TREZONA IS DEAD.

Word has been received in Calumet of the death of James Trezona at the Fayal mine on the Mesaba range. No details have been learned. The deceased was a brother of Alex. Trezona of the Bijon theatre, Calumet, where he formerly lived. He is survived by a five-year-old son.

# S. S. S. SKIN DISEASES CURES

Lying just beneath the outer covering or tissue-skin, is a sensitive membranous flesh in which are imbedded thousands of small blood vessels. It is through these tiny veins and arteries that nutriment is supplied from the blood to the different pores, glands and lymphatics. Thus the skin is kept healthy, and free from all eruptions or diseases, by pure blood. When impurities and humors infect the circulation its nourishing properties are diminished and instead of supplying the skin with healthful properties it constantly irritates and diseases the delicate fibres, pores and glands with sharp uratic matter. Then the skin tissues inflame, swell and ulcerate and some form of skin disease appears on the surface. Applying soothing lotions, salves, etc., to the outer eruptions does not purify the blood and therefore the skin trouble can not be cured in this manner. S. S. S. cures all skin diseases by neutralizing the acids and removing the humors from the blood. It cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its rich, nutritious corpuscles, and adds to its purity in every way. Then the skin, instead of being irritated and inflamed by sour impurities is nourished, soothed and softened by this cooling, healthy stream of blood. S. S. S. Cures Eczema, Acne, Tetter, Salt Rheum, Poison Oak, boils, pimples, rashes, etc. Book on Skin Diseases free to all who write.

THE SWIFT SPECIFIC CO. ATLANTA, GA.

### GOLF CHAMPIONSHIP TODAY.

#### "Tal" Goodell Coming Down from Duluth to Participate for Bryan Cup.

The Ben B. Bryan cup event will be played on the links of the Portage Lake Golf club today. This is the big event of the year, as the trophy is emblematic of the club individual championship. The event has been in progress six years and the cup has been won twice each by John C. Pryor, C. B. Moss and "Tal" Goodell. As according to the conditions a member must win the trophy three times to own it, each of these men has a chance to become permanently possessed of the bauble. "Tal" Goodell is coming down from Duluth to participate.

S. E. Byrne, one of the scratch men of the club, is the only leading player who has not won the Bryan cup once. He may be in such form today as to compete on a par with the winners with the final disposition of the cup this year.

Deen L. Robinson is the winner in this year's "Tal" Goodell cup event. He qualified for the finals against S. E. Byrne (scratch), he having a handicap of four. They played it off Sunday, and Mr. Robinson won, two up and one to play.

### CHAMPION COPPER.

The Champion Copper company, the ownership of which is divided equally between the Copper Range company and the St. Mary's Mineral Land company, is showing a yield of twenty-four pounds of refined copper to the ton of rock. The present yield compares with the recovery for past three years as follows: 1909, 23.88; 1908, 22.38; 1907, 23.08. For the first six months of this year the company was producing at the rate of over 19,500,000 pounds of refined copper per annum, a record output, and 1,500,000 pounds larger than the total for 1909. Beginning July 1, the rate of production was increased to 18,000,000 pounds per annum figure and, if continued, will result in a probable output of 18,800,000 pounds of refined copper for the year. The indicated output this year compares with actual output figures in past four years as follows: 1909, 18,057,700; 1908, 17,587,700; 1907, 16,189,436; 1906, 16,954,986. It is now costing the company under eight cents a pound to produce its copper, including construction, which compares with the cost in three previous years as follows: 1909, 8.45; 1908, 8.34; 1907, 8.05; 1906, 8.21. "Piling copper" at 12 1/2 cents the present earnings of the company are at the rate of 88 per share per annum.

### NEGAUNEE PAVING CONTRACT.

#### Wick O'Connell & Co. Expect to Get the Work Today.

Arthur Rice of Wick O'Connell & Co., the Houghton paving contractor, is in Negaunee looking after the contract which his firm is supposed to have been awarded and which calls for the paving of the main street of that city. He advised Mr. O'Connell yesterday that the council insists on certain emissions from the street railway company. The president of the company was expected in Negaunee yesterday, and Mr. O'Connell believes the contract will be signed today. He is preparing to ship his paving plant to Negaunee at once.

### Mining News

#### HANCOCK.

No. 2 shaft at the Hancock is now more than 2,400 feet deep. It is believed to be reaching the vein which is expected that this vein will be reached before a depth of 2,600 feet is attained. The No. 3 west vein was encountered in this shaft almost 100 feet earlier than was expected, indicating that the formation at this point was becoming flatter. This condition may continue, and for that reason there is a possibility that the Hancock vein will be reached earlier than expected, say Minnear & Co., of Laurium.

The management does not hold any great expectation of encountering rich ore when the Hancock vein is intercepted. The objective point is the Pewabic lode, which lies several hundred feet below the Hancock vein. At No. 7 shaft of Quincy, where the low levels have been reached, the boundary line of the Hancock, the rock is considered the richest in the Quincy territory. For that reason, the Hancock management entertains great hopes for developments when No. 2 shaft reaches the Quincy vein. During the course of development work, Hancock is creating a stock pile of considerable proportions. It is understood that a mill run will be made the coming fall. The management has been importuned by many of the shareholders to arrange for such a test as it will give some basis for estimating what can be expected from the Hancock when it is ready for regular production. An assessment of \$1 a share was payable on Hancock stock August 1st, and a like amount will be due October 10th. This money will be sufficient to pay for all the permanent equipment now being installed at No. 2 shaft, and also provide funds to continue operations well into 1911. It is understood that early next year definite action will be taken on the question of the construction of a stamp mill for Hancock, the site for which has already been purchased.

#### MIAMI.

Development at the Miami property has reached a point so far ahead of mill construction that about 150 men have been laid off from underground work, and for the next six months at least, a slower pace at the mine will be maintained. There will, however, be retained on the property about 1,000 men. The mill is being rushed to completion and is expected by Jan. 1 shipments will be started, thereby placing this property in the producing rank simultaneously with Ray Consolidated. There has accumulated a big stock pile through the shipments of between 600 and 700 tons of ore per day, so that when the first unit of the concentrator with 1,000 tons daily capacity is ready for operation, there will be plenty of ore available. Miami mine has been opened up and it is said that there are now at least four years' production ready for stopping, a record seldom paralleled in mining affairs.

#### OLD DOMINION.

In the Old Dominion mine proper 300 men are at present employed underground, with approximately 200 at work on the surface plant around "A" shaft. The pumping amounts to 2,600,000 gallons every twenty-four hours and this pumping is being done by three of the four Northern pumps on the twelfth level. Repairing at the third level station at "A" shaft is still going on. It will be remembered that the repairing of the timbering at this level in the shaft is what caused the recent shut-down between July 1 and July 10. As to the extent of ore in the same conditions obtain as in the recent past. About 300 tons of smelting ore, 400 tons of concentrating ore and 300 tons of waste are being hoisted daily. From the Gladiator claim of the United Goleo property at No. 12 level and fourteenth level, an abundance of ore is being produced as usual. The stopes on these levels are approximately 1,700 feet east of "A" shaft. The east extension drift on the twelfth level is now the easternmost drift of the Old Dominion mine property. It is the neighborhood of 2,500 feet east of "A" shaft and is in the Hooper claim of the United Goleo. The hoist house for the new Nordberg hoist is practically finished and it is expected that the hoist itself will be installed in a few days.

### WASHINGTON REFORM IS MOST SWEEPING

#### A Big Problem That Relating to the Aged Clerks Now Carried on the Rolls—Unless Pension Scheme Is Adopted They Will Be Cut Off Without Mercy.

Some of the Plans Suggested for Making the Departments More Efficient and for Reducing Expenses—Secretary MacVeagh Plans Some Important Improvements in Treasury Department.

Washington, Aug. 9.—It is the president's intention to have the government's business conducted in a coldly scientific manner, with the sole aim of promoting efficiency and economy in the executive departments. That mercy and consideration which have been shown to those men and women who have grown aged in the service of the government are to be done away with by the automatic workings of a system, and the axe may fall on any expert in the line of old to work. This means that, unless the next session of congress enacts into law the plan of retiring superannuated employees of the classified service on the contributory annuity scheme, the aged clerks will have the twelve months in which to find a way of caring for themselves for the remainder of their lives.

In these few sentences there is summed up the far-reaching decision of Mr. Taft and his advisers, as indicated by the information received in Washington that the president has asked four firms of business and economy in the work of the government can best be done on absolutely scientific and business-like principles. According to officials in Washington familiar with what this means, the administration has committed itself to the policy of making the most radical reform known to the administrative work of the government in all its history.

It will touch every department and every bureau of the service. It will be carried out partly by executive order and partly by new legislation. It will affect the personnel, the salary plan, the purchasing of supplies, the formation of bureaus and divisions and the production of business methods unknown to the government service up to this time. It is the president's intention to have the reports of the business experts before him in time to recommend to congress any changes needed in the laws to make the proposed reforms effective. It is believed to be certain that, when he makes these recommendations, he will ask that the contributory annuity retirement plan be adopted simultaneously with the other legislation desired.

All who have studied the conditions in the service are agreed that before the reforms can be made, with any degree of effectiveness, there must be established a "method of outlet" for those who have become so old in their work as to make their output not up to the standards they set when they were younger. Mr. Taft has taken the same attitude. Ever since his inauguration he has demanded more efficiency in the executive departments, but up to this time he has held back from taking any steps toward discharging without means of support the superannuated clerks. Now, however, according to the officials here in his confidence, he has taken the stand that he will try to secure in the next session the business reforms he desires and the retirement plan. If the retirement plan fails he will let congress take the blame.

#### NOTES OF COPPER NEWS.

Drilling has just started in the fourth hole at the Phoenix Consolidated property. Since diamond drill work was started at this old mine, now under the control of the Keweenaw Copper company, three holes have been completed. The fourth hole is located on the west bank of Eagle river and nearly opposite the first hole put down on the east bank of the river. The Ashbed lode has been located. It is sixty feet wide, where penetrated by the diamond drill, and shows some copper for the entire distance. Exploratory work will be continued until a complete cross section of the property has been obtained.

A drill has been taken to the 320-acre tract owned by the Union Copper Land & Mining company and has started work. This property, which has been explored in detail directly west of the Algonquin and North Keweenaw mines. No profitable lodes have ever been located in that immediate vicinity, but it is practically virgin territory and the management of the Union company will explore the property systematically.

Sinking in the Algonquin shaft has been suspended, temporarily, until hoisting facilities are provided for handling the water and rock. The shaft is twenty-five feet deep and is in copper ore to the entire distance. Advantage is being taken of the present inactivity in the shaft and it is being timbered. The Copper Range railroad will shortly start construction on a spur to the shaft.

A mining man who recently inspected the Triniton mine states there has been a decided improvement in the property since his last visit to the mine earlier in the year. The showing on the 2200-foot level, he declares, is particularly good.

The Champion Copper company at the present time is making the best showing of copper recovery from the rock and costs in its history.

It is figured that the treasury assets of the Calumet & Hecla company, consisting of cash, copper and stocks in other companies at market prices, exceed its outstanding notes and other indebtedness by \$10,610,000 or \$130.10 for each share of stock.

It is figured that if the Calumet & Arizona and Superior & Pittsburg properties combine into a company with a total of 500,000 shares, the new company will have a producing capacity of between 35,000,000 and 40,000,000 pounds of copper annually at a cost of not over 9 cents per pound. On a 13-cent copper market the company would earn around \$4.40 per share and on 15-cent copper, \$6.00.

### THIS SHOULD INTEREST YOU

It is told that a merchant in New York city advertised for a young man to fill a certain position. The next morning he found six applicants in waiting.

The merchant asked: "How many of you young men have savings bank accounts?"

Only one replied that he had.

"I'll take you," said the merchant.

The bank account was a recommendation. It suggested at once to the merchant the possession of qualifications he desired in his service.

You can start an account with this bank with \$1.00 or any other amount. We allow 3 per cent interest on deposits in our savings department.

Don't let a mistake discourage you—history is made up of mistakes.

### Danderine

Grows Hair and we can PROVE IT!

DANDERINE is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

A lady from St. Paul writes in substance, as follows: "When I began using Danderine my hair would not come to my shoulders and now it is swaying below my hips."

Another from Newark, N. J. "I have been using Danderine regularly. When I first started to use it I had very little hair, now I have the most beautiful long and thick hair anyone would want to have."

NOW at all druggists in three sizes, 25c, 50c and \$1.00 per bottle.

Danderine enjoys a greater sale than any other preparation regardless of kind or brand, and it has a much greater sale than all of the other hair preparations in the world combined.

Free To show how quickly Danderine acts, we will send a large sample free by return mail to anyone who sends the free coupon to the KNOWLEDGE MANUFACTURING CO., Chicago, Ill.

with their name and address and we will silver or stamp to our postbox.

Today's weather: Fair; stationary temperature.

Yesterday's temperatures: Seven a. m., 64 degrees; noon, 65; 7 p. m., 66; maximum, 68; minimum, 62.

Mrs. P. J. Powers, of Bluff street, leaves tonight for Ironwood for a two weeks' visit.

Otto Gotsch, of Fort Wayne, Ind., has taken a position as pharmacist at Stafford's drug store.

Mrs. Dan Keough left yesterday to be away four weeks in the interests of the Ladies of the Maccabees.

The members of the Marquette ball team are requested to take the 4 o'clock car for the fair grounds today.

The M. B. A. will give a hop at Bureau's Hall tonight. The music will be furnished by Trombly's orchestra.

August Karhunen, of Neegaunee, has been adjudged insane in probate court and committed to the Newberry asylum.

Mrs. J. H. Russell, of Jackson, has returned home, after spending six weeks with her daughter, Mrs. A. H. Palmer.

Mrs. Wilson, who has been visiting her daughter, Mrs. A. F. Koepeke, returned to her home in Detroit yesterday.

The Ferguson cottage at Lakewood has been purchased by Asire & Palmer, and will be rented, furnished, until it is sold.

The Misses Ethel and Ruth Young and Mary Keen returned home yesterday from Escanaba. There were away two weeks.

Mrs. T. F. Ball has as her guest, Mrs. Hurs, of Peoria, Ill., who arrived from Mackinac Island yesterday on the Tionesta.

The dance which was to have been given by the Kappa Alpha Pi fraternity at Presque Isle Friday night has been postponed for one week.

Mr. and Mrs. Nels Caderette leave this morning to visit in Quebec and Montreal. Mrs. Caderette will remain away a month but Mr. Caderette expects to return in two weeks.

A. H. Palmer shipped his automobile to Detroit last evening. This afternoon, Mr. and Mrs. Palmer will leave for Detroit by rail, and from there will make a motor tour of lower Michigan and Ohio.

Mr. and Mrs. P. W. Brown have gone to Boston, New York and other eastern points. They will be absent for two months or longer. Mr. Brown goes for recuperation and his friends of this city sincerely hope that he may find both.

Meeting of Democrats—The Democrats of Marquette county have issued a call for a general meeting to be held at the band room in the city hall Thursday evening at 8 o'clock. At this meeting plans will be considered for putting up a full county and legislative ticket to be voted for at the November election. It is desired that as many enrolled Democratic voters as possible from all parts of the county will attend the meeting.

Many Vessels Built—During July 1910 sail and steam vessels, aggregating 38, 372 tons were built in the United States and officially numbered, according to a report issued by the department of commerce and labor. The largest steam vessel included in these figures were the W. J. Orest, built at Ecorse, Mich., 7,755 gross tons; the Georgian, built at Sparrows Point, Me., 6,900 tons; the Theodore W. Wickwire, Jr., built at St. Clair, Mich., 6,977 tons; the Allegheny, built at Wyandotte, Mich., 5,698 tons; the El Sol, 6,000 tons and the Bath, 3,162 tons the two latter being built at Newport News, Va. The majority of the tonnage was constructed on the Atlantic coast and the Great Lakes.

Swedish Baptist Convention—The Swedish Baptists of this city will hold their annual convention in this city this week, Wednesday to Sunday, inclusive. All of the sessions and services will be held in the Swedish Baptist church, at the corner of Third and Ohio streets, except the Sunday afternoon and evening services, which, if the weather permits, will be held in the open air near the Hoglund residence, corner of Fair avenue and High street. The evening services commence at 7:30. All of the Swedish Baptist ministers of upper Michigan are expected to attend. Among them are not a few men of recognized talent as speakers. Everyone that speaks or understands the Swedish language is cordially welcomed to these services.

Bluff Quickly Called—An enthusiastic supporter of Pat Kelley for governor, who had been expressing himself very forcibly to the effect that Kelley would take everything in sight in Detroit, had his bluff called by Jack Cremer, of the Senator Burrows party, yesterday afternoon. The stranger had just declared that Kelley would get a bigger majority in Detroit than Gubern himself in the upper peninsula, when Cremer stepped up with \$50 in his hand and offered to bet even money that Osborn would carry Wayne county. The man promptly tried to hedge, but Cremer stuck to him

until finally the man backed down altogether, much to the amusement of the large crowd, including Senator Burrows, who had witnessed the episode.

**Mining News**

**CALUMET & HECLA.**  
\$20,000,000, or \$200 Per Share, Invested in Its Subsidiary Companies.

It is now nearly five years since the stockholders of Calumet & Hecla authorized the directors to acquire shares of other Lake Superior mining companies, a policy inspired by the constantly declining yield of the famous conglomerate lode which in 1900 produced 59,363 pounds of silver per ton of rock; in 1905 when the expansion policy was inaugurated the yield had decreased to about fifty-two pounds and in the fiscal year just ended it was but 32.25 pounds, or a decline in ten years of 46 per cent.

The first move was the organization of the Alouez and Frontenac mining companies, which together comprised over 60,000 acres of mineral land. Options were also secured on 51 per cent of stock of the Superior and on the Nonesuch, Gratiot, New Jersey and La Salle properties, for which a "development fund" of \$2,000,000 was created during the year ending April 30, 1906. It was not until 1906, however, that Calumet & Hecla's policy of expansion took on gigantic proportions. From November, 1906, until the end of the fiscal year April 30, 1907, the big company bought 42,798 shares of Alouez, 46,080 shares of Centennial and 22,671 shares of Osceola at a total cost of \$7,398,267. Everyone is, of course, familiar with the litigation which followed the acquisition of the Osceola shares and which ended in Calumet & Hecla purchasing from the Bigelow interest 25,000 shares of Laurium, 10,316 shares of Seneca, 27,507 shares of Isle Royale, 9,000 shares of Osceola, 19,400 shares of Tamarack, and 24,796 shares of Ahmeek, at a cost of \$8,592,120.

While the actual amount invested by Calumet & Hecla in subsidiary company stocks is difficult to figure, it must be nearly if not quite \$20,000,000, an amount equal to \$200 per share on the company's outstanding capital of 100,000 shares. It should be remembered that the company has spent considerable sums in exploration work on the various properties, which, of course, must be considered a part of the investment, along with the purchase price. The \$20,000,000 investment represents an ownership of 619,931 shares out of a total issue of 1,289,127 shares of seventeen different companies, although with the exception of the companies actually organized by Calumet & Hecla the ownership does not carry control.

It is too early, of course, to judge of the success of Calumet's policy of expansion which has so far called for a cash outlay of about \$12,900,000 in addition to the creation of a debt of \$8,519,000. There has been no income so far from the various properties commensurate with the loss of interest on the cash investment and the added burden of interest on debt. For example, the only income from the holdings of subsidiary stock which Calumet received in the last fiscal year was \$327,810—the dividend of \$10 per share on 32,781 shares of Osceola. On the other hand, interest on notes outstanding for the period amounted to \$384,610, or \$56,800 more than the amount of the Osceola dividend. If the \$12,900,000 cash is considered as worth 4 per cent per year to Calumet in its surplus account, there is indicated a further loss of \$480,000 per annum, which would make the total net cost of the expansion policy about \$536,800 per year, or say at the rate of \$5 per share on Calumet & Hecla stock.

If dividends from Osceola represented the final result of the expansion policy, it could be put down at once as a failure. Several of the other properties, however, are of good promise especially Ahmeek, Superior, Alouez and Laurium. Ahmeek is the more advanced and with its construction account practically finished the company should within a year be paying substantial dividends on its outstanding 50,000 shares, as in the last fiscal year it earned nearly \$9 per share on an output of about 9,000,000 pounds of copper. Ahmeek is easily capable of a production of 20,000,000 pounds of copper per annum at a cost of not over eight cents per pound, and this time is not off.

Superior is also "coming," while Alouez of late has been steadily improving. Tamarack, too, is doing better now than for some time, and with its floating debt paid off should in time contribute to the Calumet & Hecla treasury in the form of dividends. Centennial and Isle Royale do not indicate profitable operations for a long time to come. La Salle in time should make good.

The end of the great conglomerate lode in the Calumet & Hecla is in sight, the official estimate being that at the present rate of extraction something less than twelve years' supply of copper remains yet to be taken from this vein. The Kearsarge and Osceola lodes, however, traverse the Calumet & Hecla property from one end to the other, and while the Kearsarge lode explorations to date hold out no extraordinary hopes for the future, still the developments on this lode have been such a small scale that it is too early to make final conclusions. The Osceola lode, however, is one upon which the management depends in a very large degree to compensate for the declining values in the conglomerate lode, although the copper return per ton of rock is less than half the present yield of the conglomerate lode.

Officials of the company have made the statement that they believe the Osceola and Kearsarge veins in the Calumet & Hecla property alone will produce a net profit equal to all of the net profits which have been extracted from the conglomerate vein, and these net profits after all development, construction, machinery and replacement charges, have to date amounted to not less than \$135,000,000.

**WOLVERINE.**

The work of exploring the Osceola vein on the Wolverine property very soon started. The value of this lode at this point was demonstrated to a certain extent when it was cut by the Alouez shaft, but owing to the peculiar position of this shaft no drifting was done on it. However, a small mill test was made at that time by the Alouez management, and it ran very rich. The developing work for the present will be confined entirely to trenching, though later it is very likely a shaft will be put down. This scene of operation is about a quar-

## A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice free of charge and in absolute confidence and privacy by writing to the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription. IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

The many and varied symptoms of woman's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (1008 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed free on receipt of 31 one-cent stamps to pay cost of mailing only. Address as above.

## Markets

### WALL STREET STOCKS.

New York, Aug. 9.—Paine, Webber & Co. have this to say of today's stock market: "Aside from some pressure during the early trading, the market was strong throughout the session, with a noticeable absence of aggressive selling operations. There was not much news to influence the course of the list, but it seemed to be the general impression that the weak spots were pretty well eliminated and that operations for the usual August rise were in progress. There was considerable talk of price reductions on finished steel products, principally rails, but the same could not be verified. We would still adhere to the policy of lightening accounts on the advances and confining purchases to the occasional drives which seem more than likely to occur frequently under existing conditions."

Closing prices were as follows:  
Amal. .... 61 1/2  
Ana. .... 41  
Am. Smelt. .... 37 1/2

### Boston "Coppers."

Boston, Mass., Aug. 9.—Summarizing today's copper stock market, Paine, Webber & Co. say: "Confidence in the stability of the copper market is growing fast. The local market was broader today than it has been for a month. Almost every one of the copper stocks was traded in and most of them showed advances. The two stocks which had the greatest rally yesterday, North Butte and Lake, were fairly active today, but showed no further advance. This was due to profit-taking by people who bought at the low prices and were willing to sell out and go into something else which had not yet moved. We consider the whole situation more encouraging than it has been for some time and with the present scarcity of stocks prices can easily rally ten points further before we have a setback. North Butte, Lake, Copper Range, Quincy, Alouez, Osceola, Indiana, Shannon, Hancock and Gironx are the safest to buy."

Closing prices were:

## TURF FAVORITES HAVE A GOOD DAY

In Only One Event at the Grand Circuit Races Are the Forecasts Upset.

Cleveland, Aug. 9.—The favorites had another good day in the Grand Circuit races today. In only one event were the forecasts upset. That was in the concluding race, when Fuzz Johnson, driven by Frank Jones of Memphis, beat Louis W. Winan's chestnut mare Dora after a hard struggle. Dora looked an easy winner in the first heat, but broke at the stretch. She won the second heat, but broke again in the third, when she again had a fine chance to land the money.

The \$3,000 Edwards stake went to The Abbe. Geers got the Abbe away in the first place in the first heat of the three-quarters pole had him battling with Evelyn W., passing her a few yards from the wire in a driving finish. The time was 2:04 flat, a new mark for The Abbe, who made 2:04 1/2 at Detroit last week. The second heat developed into over a hotter battle. A blanket would have covered The Abbe, Evelyn W. and Branham as they passed under the wire in the order named. The Abbe was never headed in the final heat.

Earl, Jr., let W. D. S. set the pace to the three-quarters pole in the first heat of the 2:10 pace and then took the lead handily, finishing an easy winner. In the next two heats Cox kept Earl, Jr. ahead of the field the entire distance.

Country Jay kept up his great record at Kalamazoo and Detroit by joggling home an easy victor in the 2:08 trot. Lou Billings, a three-year-old trotter by John A. McKerron (2:04 1/2) and Lou Dillon (1:53 1/2), was driven a mile in 2:13 3/4 by John Dickerson, with a run as a pace-maker. The summaries follow:  
2:10 pace, \$1,500; eight starters:  
Earl, Jr. .... 1 1  
W. D. S. .... 2 4 2  
Hallie Direct .... 4 2 3  
Vasten .... 5 3 4  
Best time, 2:06 1/2.  
Edwards stake, 2:14 pace, \$3,000; six starters:  
The Abbe .... 1 1 1  
Evelyn W. .... 2 2 3  
Branham Baughman .... 3 3 2  
The Philistine .... 4 4 4  
Best time, 2:04.  
2:08 trot, sweepstakes, \$800 added; two in three:  
Country Jay .... 1 1  
Caron May .... 2 2  
Dewitt H. .... 3 3  
General H. .... 4 4  
Best time, 2:06 1/4.  
2:15 trot, \$1,000; two in three; only winners in deciding heat; four starters:  
Fuzz Johnson .... 2 2 1 1  
Dora .... 4 1 3 2  
Jossie Mae .... 1 4 4 3  
Lulu Arjona .... 3 3 2 4  
Best time, 2:13 1/4.

**SOCIALIST GAIN 50 PER CENT.**  
Progress in Three Years Indicated in Figures Compiled by Officers.  
New York, Aug. 9.—A report of the progress of the Socialist party throughout the United States for the last three years, compiled by officers of the party here, shows a gain of more than 50 per cent in that time. The report says that on Jan. 1, 1907, the Socialist party had regular state organizations in thirty-nine states, comprising 1,900 local organizations with a total membership of 26,784. At the present time the report finds the party is fully organized in forty-two states, the number of its local organizations has grown to 3,290 and the average dues-paying membership is 53,375.

## ALDRICH MAY RUN AGAIN.

Belief That He Will Not Adhere to His Decision to Retire.  
Providence, Aug. 9.—Will Nelson Wilmarth Aldrich be his own successor for a sixth term in the United States Senate? The senator's persistent silence in the face of specific accusations by Senator Bristow of Kansas and demands by representative newspapers, coupled with incidents that have been noted here, is causing much speculation among the politicians and among the candidates for the senatorial toga that the Sage of Warwick Neck was believed to have tired of.

Some of the politicians here profess to believe that the national political fight is being centered on Senator Aldrich this year, because of a belief that he will not adhere to his announced decision not to be a candidate for reelection; that his announced retirement was merely a gallery play, and that things will so shape themselves in Rhode Island as to give Senator Aldrich an opportunity to withdraw from his position with good grace and accept a re-election.

The Democratic leaders are pointing to the fact that there is no active canvass on the part of any one for Senator Aldrich's seat, and what is more significant, that there is no apparent search by the party managers for senatorial material, though the time for laying plans for the fall campaign is rapidly approaching.

Republican politicians admit that they have been instructed not to talk about the matter. One of them admits that they know nothing about the situation save that they have been told not to pledge themselves to anybody. The senator, however, is said to be planning a long yachting trip to parts unknown with two multimillionaire cotton manufacturers, Col. Henry F. Lippitt, who has been considered by some as his political heir, and Robert Ives Gammell, who is interested in the Lonsdale and Berkeley cotton mills.

## HOBBLE SKIRT THROWS DECATUR WOMAN HEADLONG.

Decatur, Ill., Aug. 9.—The first appearance in Decatur of the new hobble skirt was one of considerable note inasmuch as its wearer, Mrs. James Snyder, had the misfortune to don it immediately following a heavy rain. The result was that the unskilled matron took a high dive into a hardy mud puddle and was forced to retire after the rather ludicrous occasion much the worse for the mud.

## Jacob Rose

# Annual Shoe Sale!

Our Yearly Mid-summer Oxford Sale has long ago become a merchandising event of importance to people who appreciate Good Footwear. Our unalterable policy of closing out the broken lines at the end of each season is a source of money saving to those who are in the habit of buying their Footwear in this store, and equally an economical beginning to customers who still continue to buy lower grades of Footwear. This explains the reason why each season many people anticipate their future Footwear wants and supply themselves, during our sale, with Footwear to last them for the entire year and, in truth, it does not take many pairs of our grades of Footwear to keep one comfortably shod for a full year. This sale embraces many hundreds of pairs of Men's, Women's, Misses' and Children's Low Cut Shoes, Oxfords, Pumps and Ankle Strap Sandals in all fashionable leathers and the price reduction is unusually liberal—20 to 33 1/3% Reduction—a saving deserving consideration of every man and woman.

Sale will be in force all through the month.

### Upper Peninsula

#### Is Severely Burned—

While engaged in boiling water in which a quantity of kerosene had been placed, Mrs. Fred Carroll of Manistique received severe burns about the face as the result of the blaze that followed when the mixture caught fire by boiling over and becoming ignited by contact with the hot range. The interior of the kitchen was badly scorched.

#### Form a Townsman Club—

Escanaba friends of Charles E. Townsend, candidate for United States senator to succeed J. C. Barrows, have formed an organization to further the interests of their candidate in Delta county and the surrounding district. Attorney I. C. Jennings is the president and George F. McEwen the secretary.

#### Queen of Firemen's Tournament—

Lydia, the "Fat Girl," Calumet's candidate, has been elected queen of the firemen's tournament at the Soo this week, having received a plurality of thirty-eight votes over her closest competitor. This buxom young woman is twenty-two years of age, weighs 508 pounds, and is physically capable of bearing the honors of the station.

#### Little Girl Seriously Injured—

Helen Jorgenson, aged ten years, daughter of F. Jorgenson, 1306 Langley street, Escanaba, was seriously injured in a collision between a bicycle which she was riding and a delivery wagon owned by H. C. Larsen, who manufactures pop and conducts a bottling works. Her jaw was fractured and her head was badly cut in three places, while her body was severely bruised and the top of one of her ears was partially torn off.

#### Outing for Fire Chief—

Through action taken by the common council of Escanaba, Chief of the Fire Department Herman Kamrath will be enabled to attend the thirty-eighth annual convention of the International Association of Fire Engineers, which is to be held in Syracuse, N. Y., Aug. 23, 24, 25 and 26. Chief Kamrath is a member of the association and the council, upon motion of Alderman Carl Johnson, gave him leave of absence to attend the convention and appropriated an amount not to exceed \$75 to defray his expenses.

#### School Teacher to Wed—

Announcements have been received of the coming marriage of Miss Edith Elizabeth Marshall, formerly engaged as a teacher in the public schools of Escanaba, to Edmund Grand Greenwood of that city. The ceremony will be performed at the home of the parents of the bride at Mansfield, Wis., Aug. 16. After a short wedding trip Mr. and Mrs. Greenwood will go to Escanaba and will be at home to their friends after Sept. 1. Miss Marshall was for two years the instructor in the fourth grade at the Franklin school. The groom-to-be is employed at the Escanaba store of Grinnell Brothers.

#### Merchants' Picnic Today—

The storekeepers of Menominee and Marinette will unite today in a big picnic at the John Hones park. Great preparations have been made for the event. The feature of the afternoon program will be a ball game between teams drawn from the merchants of the two cities. Free lemonade will be served during the day. The stores will close at the noon hour. In the evening a business meeting and smoker will be held at the Eagles' hall.

#### Major League Club Buys Him—

Clarence Lehr, the Escanaba man playing short stop and second base for the Keweenaw team of the Central Baseball association for the past three years is to break into fast company. By negotiations that were closed he has been sold to the Philadelphia National league club for \$1,800. Lehr is easily one of the fastest infielders ever turned out in Escanaba. For several years he played with the Escanaba High school and city teams and on entering the University of Michigan was a member of both the baseball and football teams of that institution. Since going to Keweenaw he has played a spectacular game, holding down second base until early in this spring when he was shifted to short stop. In addition to playing his position in great form, Lehr has been one

### of the heaviest batters of the Keweenaw team.

#### Victim of Peculiar Accident—

Running into a steel cable stretched across Stephenson avenue where a building was being moved, Mrs. C. W. Kates, riding in an automobile driven by her husband, narrowly escaped serious injury at Escanaba. No light or signal of any kind showed the obstruction of the street and when the automobile bumped the cable two feet from the ground the car was brought to a sudden standstill. Mrs. Kates was pitched headlong from the car and, striking the pavement, was rendered unconscious. Mr. Kates picked her up and raced to the family home at Wells, where a physician was called and it was found that aside from the shock she was not seriously injured.

#### Stock Market Affects Barbers—

A man went into a barber shop at Hancock the other day to get a haircut and a shave and as a starter for conversation he asked the barber how business was. "Slow," said the man of razors and scissors. "The stock market is on the bum you know." "Stock market?" queried the patron in surprise. "What has the market got to do with the barber business? Isn't a shave, a shine or a haircut or other things that one gets in a barber shop as essential to a man as his meals, at least in a sense?" "Yes," said the barber. "I can't just give the reason for this, but it has an effect on my trade. Mind you I am not the only barber in town that feels the slacking off of business. All are of the same opinion. When the market is up and everything is going good a man feels happy and shows this by coming into the shop, feeling his chin reflectively but contentedly, and asks for a shave or a haircut. When the market is down he sticks to his board room and leaves his beard grow half as long as before. Now and then he will drop in, though the majority of times he will go home and use a safety device for cutting his feathers. It's kind of hard to believe all right, but I've been in the business for years and have felt this happen a number of times."

#### Steals Ride; Loses an Arm—

Falling under the wheels of a freight train on the Soo Line at Gladstone, Joseph Beauchamp, of Cheboygan, Mich., had the right elbow of his arm so badly crushed that amputation was necessary. In leaping from the train as it neared the water tank the unfortunate man slipped and fell backward with his arm across the rail. His agonized cries attracted attention and he was taken to

#### Thousands Have Kidney Trouble and Never Suspect It.

##### How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, or stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

##### What To Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passages. Correct inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

##### FOR QUICK RELIEF FROM HAY FEVER.

Asthma and summer bronchitis, take Foley's Honey and Tar. It quickly relieves the discomfort and suffering and the annoying symptoms disappear. It soothes and heals the inflamed air passages of the head, throat and bronchial tubes. It contains no opiates and no harmful drugs. Refuse substitutes. The People's Drug Store.

You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Birmingham, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

## Negaunee Department

### RAILWAY MATTER STILL UNSETTLED

City Officials and Manager McCorkindale Have Not Yet Reached Agreement.

The members of the board of public works, street committee and the special council committee in conference Monday evening failed to reach a definite understanding with Manager McCorkindale of the Marquette County Gas & Electric company, relative to the removal of the railway from Iron street. They conferred for nearly two hours before they returned to the council room, when Mayor Elliott called the council to order. On motion of Alderman Hagaton an adjournment was taken, subject to the call of the mayor.

There is strong sentiment against paying the Chicago & Northwestern Railway company the \$2,500 that is asked for the right-of-way privilege for the street railway along the north side of the railroad right-of-way, between Cyr and Jackson streets. Mr. McCorkindale said he was not in a position to say whether his company will pay anything for the right-of-way, and asked that action be deferred until the company's chief engineer could look over the ground. Mr. McCorkindale stated that the engineer was here today, and it is expected that he will be here today.

The council will be called together as soon as Mr. McCorkindale and the company's chief engineer are ready again to confer with the board and committee.

Mayor Elliott yesterday said that he was sure the meeting would be held before the end of the week. When an agreement is reached the Marquette Gas & Electric company can at once begin work on the new line, as nearly all of the rails and other equipment that will be needed are on hand.

Mayor Elliott said he believed that matters will be adjusted to the satisfaction of the property owners and expressed the opinion that the proposed new route of the street railway will be satisfactory.

Mr. Elliott said he believed that matters will be adjusted to the satisfaction of the property owners and expressed the opinion that the proposed new route of the street railway will be satisfactory.

### ANALYSIS ENCOURAGING.

Graphite on Cuyuna Range May Prove of Great Commercial Value.

A former Negaunee man, who is working on the Cuyuna range, writes a friend here that the discovery of a few weeks ago of graphite has created much interest, particularly among land owners. Analysis of drill samples and correspondence which those interested have had with authorities on the subject lead to the belief that the graphite discovered on the Cuyuna range is of commercial value.

Mr. Foley, who made the discovery while drilling for iron ore, has taken out several rich samples of graphite and he has had a number of them analyzed by the chemists in the University of Minnesota and Wisconsin.

The analysis shows that some of the samples run as high as 45.75 graphite and that the geological formation is such that there is more than a possibility that oil will be encountered. The first graphite discovery was made at a depth of 100 feet and it is said that the body extends to a considerable depth. The quality varies in the different holes drilled, but it is said that nearly all of the graphite discovered is of a higher percentage than the average.

It is believed that the graphite to run under 15 per cent, while most of the commercial graphite now used in the United States runs about 8 per cent. Sold in large quantities, graphite brings from \$10 to \$150 a ton, according to its richness. The demand for graphite is so great that mining operations conducted on a fairly large scale would not effect the market price to any extent.

### HAS GOOD POSITION.

Dr. Fred Northey, a former well-known resident of Negaunee, and his wife, are here from Detroit on a visit to his parents, who have been going away to study medicine. Dr. Northey worked as a pharmacist in this county. He is now at the head of the biological department of the Barke-Davis company, the largest manufacturers of drug chemicals in the world. He is also in the biological department under Dr. Northey. He and Mrs. Northey will return to Detroit within a few days.

### THE BEST HOUR OF LIFE.

is when you do some great deed or discover some wonderful fact. This hour came to J. R. Pitt, of Rocky Mt., N. C., when he was suffering intensely, as he says, "from the worst cold I ever had. I then proved to my great satisfaction, what a wonderful Cold and Cough cure Dr. King's New Discovery is. For, after taking one bottle, I was entirely cured. You can't say anything too good of this medicine like that." It is the surest and best remedy for diseased lungs, Hemorrhages, LaGrippe, Asthma, Hay Fever, any Throat or Lung Trouble. 50c. \$1.00. Trial bottle free. Guaranteed by Stafford Drug Co.

Gas is in every way more satisfactory for cooking than any other fuel. Save money by putting in a gas stove. (6-14-4)

From Sickness To "Excellent Health!" So says Mrs. Chas. Lyon, Peoria, Ill.: "I found in your Foley Kidney Pills a prompt and speedy cure for backache and kidney trouble which bothered me for many months. I am now enjoying excellent health which I owe to Foley Kidney Pills." The People's Drug Store.

### KILLED AT PROCTOR.

Former Well-known Negaunee Man Meets Death on Minnesota Railroad.

A telegram was received Monday night telling of the death in a railway accident of Patrick Scanlon, a former well-known resident of Negaunee, who was employed on a railway at Proctor, Minn. No particulars were given in the message, but it was learned yesterday that he was riding in a caboose that left the track and overturned.

The deceased was a son of the late William Scanlon, one of the early residents in the county, and who lived in Negaunee for many years before his death. He was employed as conductor on one of the ore trains running between Proctor and Duluth, having taken a position on the road some three or four years or so ago, after returning from Butte, Mont. The deceased was a member of the Negaunee police force for three or four years before he went to Butte. He was born in Ishpeming, but spent the greater part of his life in Negaunee. He was about thirty-three years of age, and is survived by five brothers and two sisters. The brothers are James Scanlon of Butte, Ed and Joseph of Proctor, John and Harvey, living here. The sisters are Mrs. John Hassett and Miss Ella Scanlon, living at Proctor. Mr. Hassett, Proctor, and his daughter, Margaret, have been in Negaunee visiting relatives for more than a week past.

The deceased was a member of the Negaunee division of the Ancient Order of Hibernians. The remains will probably be brought to Negaunee, and the funeral will probably be held here Friday or Saturday morning.

### LOCAL LACONICS.

Hjalmar Malmgren and wife of Waukegan, Ill., are visiting M. Koivisto and family at Palmer.

Peter Kreer, a well-known resident of Negaunee, went to Marquette Monday to submit to a surgical operation.

Dr. J. H. Andrus of the Negaunee hospital staff has been ill and confined to his home the past few days.

Miss Minnie Harris left yesterday morning for Houghton, where she will visit friends for a few days.

"The Social Bunch" will conduct a hop Saturday night in Kirkwood's hall. Tickets will be fifty cents per couple.

Mrs. J. A. Miller left Monday night for Chicago, after a visit with Henry Kronberg and family, of West Jackson street.

Joseph Murphy and his sisters, the Misses Anna and Margaret, left last night on the Octovara for a trip down the lakes.

Miss Hattie Gurisk entertained about forty of her young friends Saturday evening at her home on the Jackson road. Several were present from Ishpeming.

Archie Orr, who accompanied the remains of his daughter, the late Rae Orr, to his former home at Laporte, Ind., ten days ago, will be away until the end of this month.

W. P. Cole of Hot Springs, Ark., is in the city on a visit to his wife, formerly Miss Virginia Mackenzie, who has been here visiting her mother for some time past. Mr. Cole will remain in the city a few weeks.

Mrs. S. Soaler, who conducts a cash grocery store in the Pearce block on Iron street, is doing a fine business. Her trade is growing steadily, and she has doubled the size of her stock.

A. D. Rice of Houghton was present at the special meeting of the council Monday evening in the interest of Wick O'Connell & Co., who were the lowest bidders for the street paving contract.

Mrs. Louis Moll submitted to a surgical operation for appendicitis Monday at St. Mary's hospital, Marquette. The operation was performed by Dr. C. J. Larson of this city, assisted by Dr. Curtis J. Evans of Milwaukee, who has been here visiting Dr. Larson for a week or more. Mrs. Frank Vanhan, Mrs. Moll's sister, is here from Milwaukee, keeping house for Mr. Moll and the family while she is confined to the hospital.

### PICTURE FILMS SHOW BIG "SCOOP"

How a Discharged Reporter Gets His Job Back by Exclusive News Is Portrayed.

New York, Aug. 8.—Patrons of moving pictures will be able in a few weeks to see a realistic representation of life in newspaper offices. At the Edison studio has just been completed a film telling the story of a great "scoop" it is the work of Stephen Chalmers.

The first scene shows the city editor's room. The night city editor is at the head of the copy desk, which is piled with copy. The copy readers are at work, editing the news for next day. The boys are running with messages, and the reporters sit at their typewriters working at top pressure. A few of them are shown in one corner awaiting assignments and amusing themselves with cards. The night city editor calls one by name. He has dined too freely and is unfit for work. The managing editor sees his condition and an alteration results in the reporter being fired on the spot.

Then the moving picture man turns on the heart interest. He shows the reporter's home and his wife and daughter. The reporter comes in and the little girl is sent to bed. His wife breaks into tears and the reporter swears that never again will one drop of the hateful stuff pass his lips. Next day he applies to be taken back. The city editor and the managing editor are obdurate, and the reporter leaves the office, desolate.

### Overheard in a Ca's.

He seeks a cafe, but, true to the promise of his wife, astonishes the waiter by asking for a cup of coffee. He overhears two men talking in a nearby box. He lounges over to the bar and buys a cigar, and loiters near the box as he lights it. The men talk on and

## Money Deposited

In the Negaunee National Bank is as safe as if invested in government bonds and pays you better, at 3 per cent.

Your business with this bank can be done by mail, if so desired.

A man with a Bank Account and a Check Book in his pocket has all the money he needs right with him, and the correct change, too.

We invite you to open an account with the—

## NEGAUNEE NATIONAL BANK

NEGAUNEE, MICHIGAN.

compare papers and the reporter hears all they say. As they go out they drop a paper and the reporter picks it up. One glance is sufficient. He tracks them along Wall street and sees them turn into the office of the Consolidated Trust Company.

The next scene shows the directors of that institution in anxious consultation. The reporter gains admission to the building and then to the conference by bringing back the dropped paper. As he gives it to the directors they break into angry discussion, and they get so absorbed that the reporter has time to cut a splinter of wood and clip it into one telephone receiver, so even with the receiver on the hook, the circuit is not cut off.

The reporter goes out and, as he passes the switchboard, prevails on the night watchman to allow him to use the telephone. The man goes off, and the reporter at once plugs in the board room. With eyes starting out of his head, he hears the bank examiner declare the trust company must close its doors.

By this time it is 12:30 o'clock, and the toll of the night city editor and the copy readers is pretty well over. Suddenly the telephone rings from the Consolidated Trust company, and the audience can see the way in which the emergency man writes out the message as he takes it over the telephone. It is to the effect that the ex-reporter has a tremendous scoop, and the processes must be stopped at all cost to get the news in the first edition.

### Edition is Held.

The city editor leaps from his chair and rushes to the managing editor. There is a rapid consultation of watch-glasses and it is decided to hold the edition. The next scene shows the composing room, with the foreman making up. The shout comes down that the edition is to be held and everybody stops at once. Still there in the levels of the earth is the stereotyping room. There is the great vat of boiling lead and the stereotypers stripped to their undershirts preparing to cast the last matrix.

Meanwhile, along Wall street dashes the reporter, fighting not only for his scoop, but his place with the old newspaper. He is in the office by 1 o'clock, and the city editor flies at him. He stutters out his story, and the office is all excitement. The reporter is seen dictating his story to a man at the typewriter and everybody caps at once. The reporters crowd round to hear the great scoop, and in a flash is seen the finish of the Consolidated Trust company, which is driven to the wall and a financial panic certain.

Of course, once a paper is out, there are congratulations galore. The reporter is reinstated at once, and his friends flock round to shake his hand. Those who saw the film at a private view today expressed scepticism as to the methods of the great scoop, but were loud in praise of the realism of the scenes in the newspaper office, and declared that they could even recognize some of the dramatic personae.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by The People's Drug Store.

### NO MORE PILES.

Hem-Roid Does Its Work Thoroughly. No Return.

If you have piles, you know that the usual treatment with salves, suppositories or operations can't be depended upon for more than temporary relief. Outside treatment won't cure the inside cause—bad circulation in the lower bowel. Dr. Leonard's Hem-Roid, a Tablet remedy taken internally, removes the cause of piles permanently. Sold for \$1 fully guaranteed by the People's Drug Store, Marquette, Mich., and City Drug Store, Ishpeming, Mich.

# BURROWS MET POLITICIANS

### Senator and Party Spent Yesterday at Hotel Marquette, Where They Extended the Glad Hand to Those Who Called—Collectors Candidates in Evidence.

### Jack Cremer Predicts That Townsend Will Be Defeated at the Primaries and that Osborn Will Be Nominated for Governor in a Walk—Will Carry Detroit.

Senator Burrows, accompanied by his campaign manager, J. E. Worthington, of Grand Rapids, and Jack Cremer, political writer for the Detroit Journal, spent yesterday in Marquette in the interests of the senator's campaign for re-election to the United States senate. The party arrived in the forenoon from the Soo on the Tionesta and spent most of the day at the Hotel Marquette, where a considerable number of the senator's Marquette friends visited him, exchanged congratulations and talked over things political.

From 4:30 to 5:30 in the afternoon the senator was "at home" to all who cared to meet him and quite a number took advantage of the opportunity to shake his hand. C. J. Byrne, D. W. Powell and E. W. MacFarran, the three candidates for the customs collectorship in this district, were very much in evidence and tried to outdo each other in manifestations of friendliness to the senator. Mr. Burrows had a broad smile and pleasant words for each of them, and if he has any favorite, it was not apparent from his actions.

The senator and party were entertained by Austin Farrell at dinner at the Marquette club last evening, after which they went to Ishpeming for tonite, where Senator Burrows delivered an address last night. A number of local politicians accompanied the senator and party to Ishpeming.

When asked what he thought of the political situation as applied to himself, Senator Burrows stated that "things looked first rate" to him, but further than that he did not care to make any statement. He referred the reporter to either of his lieutenants, as he did not think it became him to do much boasting in his own behalf. Jack Cremer was then approached and he fairly bubbled over with Burrows and Osborn enthusiasm.

### Cremer Is Optimistic.

"We can see nothing pessimistic in the situation," said Cremer, "and I am confident that Burrows will get a handsome majority at the primaries. I have traveled pretty well over the state and cannot do it out any other way. I predict that the senator will get 75 per cent or more of the vote of Wayne county and will roll up a big majority in the First district. I figure that his majority in the First and Twelfth districts will be something like 100,000, and that this is considerably more than Townsend will get in all the rest of the state. Of course, the interest in the senatorial fight is overshadowed by the gubernatorial campaign and it is impossible to predict just how large a vote will be cast, but the vote for senator will not be so large as that for governor."

### Osborn Will Be Nominated.

"Who is going to be nominated for governor?" the reporter asked. "Why, Osborn is a walkaway, and has had from the start," said Cremer. "He is going to carry Wayne county by about 10,000 and the city of Detroit by a big majority. With what the upper peninsula will add to this, I think that there is no question but that Osborn will be the nominee. Kelley will be a poor second and Musselman will hardly know he has been in the running. I look for Osborn to carry the city of Grand Rapids by from 500 to 500, but Musselman is likely to carry the Fifth congressional district. Outside of this district Musselman will get but very few votes. Osborn is getting stronger all the time while the other candidates are losing votes every day. You can bet your last cent that Osborn will win, and by a big majority."

### STRUCK A RICH MINE.

S. W. Bonds, of Coal City, Ala., says he struck a perfect mine of health in Dr. King's New Life Pills for they cured him of Liver and Kidney Trouble after 12 years of suffering. They are the best pills on earth for Constipation, Malaria, Headache, Dyspepsia, Debility, 25c at Stafford Drug Co.

### NOTICE TO TAXPAYERS.

Office of the City Treasurer: Marquette, Mich., July 15th, 1910. Notice is hereby given that the general tax roll of the city of Marquette has been deposited with me, and is now in my office in the city hall, and the amount of taxes therein assessed and specified are due and may be paid to me at any time up to and including the 31st day of October, A. D. 1910. Upon all such taxes paid to me before the first day of September, a collection fee of one per cent will be charged, and on all such taxes paid on or after the first day of September a collection fee of three per cent will be charged.

W. W. W. BYRNE, City Treasurer.

## DROWNED AT COAL DOCK.

### Deck Hand on Steamer Andaste Fell Into the Water Yesterday.

Another has been added to the already long list of those who have gone to their death by falling into Lake Superior at the foot of Baraga avenue, where the Pickands coal dock and Spear's passenger dock join. A deck hand on the steamer Andaste, who shipped under the name of Joe Smith, but whose correct name is believed to be Joe Zoba, was drowned there about 5:30 yesterday afternoon. He had been on shore and was returning to the boat when he got too close to the edge of the dock and fell in.

One of the watchmen on the boat saw him fall in and jumped into the water in hope of saving him, but he never rose to the surface, sinking to the bottom like a stone. The life saving crew was then notified and about a half hour from the time he fell in, the body was recovered. In hope that life was not yet extinct, the life savers and others worked over the body for nearly an hour, but respiration could not be restored.

Zoba was about twenty-four years of age and has made three trips on the Andaste. But little is known about him except that he lives in Cleveland and that he worked for a drayman before shipping on the lake. He shipped as Joe Smith, but he told the watchman that his right name was Joe Zoba, and Zoba has also stated to members of the crew that he had two sisters in Cleveland, one of whom is married and lives in the east end.

The body was taken to Hager's undertaking rooms, where it is being held pending the possible location of some of the deceased's relatives. Nothing that would assist in the identification was found on his person or among his personal effects.

## MILLIONS SUNK IN LAKES.

### Whether or Not Submerged Treasure Can Be Recovered Is Disputed.

The Detroit syndicate preparing to send divers to the bottom of Lake Erie in search of the old packet Atlantic, sunk off Long point, in 1852, will have their work for naught," says an old sailing master. He declares that the treasure was brought up from the Atlantic a little over a year after she was sunk. "A man named Green," said the skipper today, "a diver for a Buffalo concern, reached the vessel and located the safe, but was paralyzed by the water pressure before he could rig proper tackle. A heavy weight made fast to the rope. Some few weeks later, William Pike, a seaman of Buffalo, completed the job. The safe contained \$75,000 in gold bullion."

Capt. Ellis J. Holland of San Francisco, who is visiting in Washington, expressed his opinion that there is \$12,000,000 worth of wealth sunk at the bottom of the Great Lakes. He said in part: "Ships with valuable burdens of iron, copper, steel, coal and machinery have gone down in some of the lakes' terrific storms and have left their cargoes in the depths to tempt wrecking companies and adventurers to come years. From 1878 to 1898 alone 600 vessels wrecked on those inland seas and about 110 of these were total losses. In all it is estimated that wealth to the amount of \$12,000,000 lies in the lakes among the lumber of lumber ships. Unlike the treasures sunk on the Spanish traders," said the veteran seafaring man, "much of this lake wealth is perishable, for on the old ships it was chiefly silver and gold, precious stones and pearls."

## SOO CANAL PASSAGES.

### List of Boats That Have Passed the Locks, Bound for Superior Ports.

Sault Ste. Marie, Mich., Aug. 9.—The following boats have passed through the locks, bound for ports on Lake Superior: William Mather, 9 p. m.; Anemone, 9:30; Fisher, Simla, Beaver, 10; Frontenac, Chattanooga, 10:30; Tionesta, 11; Cornelia, 11:30; Carnegie, Hill, midnight; Bickerdike, McGregor, 1 a. m.; Eads, Jenny, Portland, 6:30; Lewiston, 7:30; Rochester, 1 p. m.; Ed Smith, 1:30; Athabasca, 2; Masaba, 3; Port Colborn, Carter, 4:30; Saronie, 5:30; Cuddy, 7; Socopa, 7:30.

## TEAM BATTING AVERAGES.

Only two players on the Marquette baseball team are in the 300 class. La Fave and Tallon, though Mack is very close to it with a percentage of 296. The batting average of the team is 222. Individual averages follow:

G.	A.B.	H.	Ave.
LaFave	2	8	.400
Tallon	9	41	.464
Mack	24	31	.296
Schultz	14	48	.250
Riopelle	22	84	.182
Young	23	76	.143
McCarthy	5	22	.182
Hamilton	18	73	.138
Weiser	16	63	.111
Magnus	9	31	.111
Day	7	29	.143
Richardson	13	44	.114
Frost	10	35	.100

## LAKE FISH BECOMING SCARCE.

Will whitefish and lake trout eventually become so scarce in Lake Superior that fishing will be dropped as a business when this will be the case is not so remote as it may seem at first thought, according to men who handle not only the white fish that have helped to make Lake Superior famous, but also lake trout and other fish that were abundant in Lake Superior waters not so very long ago. Even herring, usually very common, are becoming scarce, it is claimed. According to the statement of one of the officials of the Booth company white fish and lake trout are much more scarce the present season than they were last year. The company is getting daily supplies of these fish, but the supplies will not average up to the supplies secured last season. When asked if it was a possibility that white fish might become extinct, the official of the company answered in the affirmative. The reason given is the heavy demand for them. The lake is restocked from time to time with various species of fish, but according to the statement of the Booth company official, the restocking is not keeping pace with the number of fish that are annually being taken out. It is claimed that the restocking is not always well done.

The only metal polish for automobiles at Wm. Schuck's harness shop, 211 S. Front St. (8-2-2w)

# FAIR WILL BE A GOOD SHOW

### Agricultural Society Has Been Busy the Past Few Weeks and Much of Interest, Including Several Entirely New Features, Is Promised Those Who Attend.

### Field and Track Meet Scheduled for First Day, and Balloon Ascensions, Baseball, Horse Racing, Cornish Wrestling and Other Sports on the Program.

Preparations for the Marquette county fair to be held Sept. 5, 6, 7 and 8 are well under way and those in charge intend to give the public one of the biggest and best shows ever assembled at the fair grounds. While the admission has been raised to fifty cents, the management promises an entertainment on each of the four days that will be well worth the advanced price. In view of the fact that the street carnival will be in progress down town the same week, it is anticipated that larger crowds from points outside Marquette will take in the double attraction than has formerly been the case.

Some of the special features of the fair this year will be a balloon ascension each day, a ball meeting, Labor Day, baseball, horse racing, Cornish wrestling and a particularly good exhibition of poultry and cattle, including a display of dairy machinery. The balloon ascension will be made by Professor Martin, who has appeared here on former occasions, and is known to give the public their money's worth at every performance. He will ascend high into the air each day of the fair and make a parachute drop to earth again.

The field and track sports will be an entirely new feature of the fair and the program is now being prepared under the direction of A. T. Roberts and Director Thayer, of the Guild Hall. This meet will take place Monday afternoon. It will include track events such as 100-yard dash, quarter, half, mile and two-mile races, high and broad jumps, pole vault, hammer throw, discus throw, shot put, etc. These events will be open to all athletes. No cash prizes will be given but cups and medals will be presented to the winners.

### Horse Racing Program.

The program for the horse racing Tuesday, Wednesday and Thursday afternoons has just been completed and it is expected that this feature will be at least as interesting as in former years. Two races are scheduled for each day, and on Thursday there will be a farmers' race to buggy and a hitch and tie race. The program is as follows:

—Tuesday—  
3:00 pace or trot—\$150.  
2:20 pace or trot—\$200.

—Wednesday—  
2:40 pace or trot—\$150.  
2:23 pace or trot—\$200.

—Thursday—  
Free for all—\$200.  
Farmers' race to buggy, one-half mile—\$70.  
Hitch and tie race, one-half mile—\$17.50.

Arrangements for baseball and Cornish wrestling have not yet been completed, but the devotees of both sports may rest assured of an interesting program. A committee of Negaunee and Ishpeming men will make the wrestling arrangements, while baseball games have been placed in charge of Postmaster John D. Mangum.

One of the best features of the fair last year was the poultry exhibit, which was largely brought about by the completion of the new concrete building in which excellent accommodations for valuable birds were provided. More coops are now being built, and the capacity of the building will be one-third greater than last year. The poultry committee especially desires that a large number of the breeders of fancy poultry from Ishpeming and Negaunee make arrangements to show their stock this year. A large show from Marquette is already assured.

## Cattle and Dairy Machinery.

The building known as machinery hall has been transformed into a cattle building and some very fine stock is sure to be exhibited. The pick of the Embury blaguard has been secured and it is expected that several other upper peninsula dairymen will be represented. Arrangements are also being made for a display of modern dairy machinery, such as separators, churns, aerators, etc., and it is hoped that a milking machine may be secured. The last named would undoubtedly be one of the most interesting exhibits of the fair, as none has ever been seen in this locality.
