

Copper Country

ENGLISH DIGNITARY HERE. The Earl of Euston Passes Through Portage Lake in North West.

Besides the Earl of Euston, the others in this party are: The V. E. Knight, the Lord of Athluney, past great commander of the V. E. Knight, Thomas Fraser, great marshal; the E. Knight, R. Newton Crane, past grand herald; the E. Knight, H. J. Homer, acting grand master's banner bearer, and the E. Knight, John Ferguson, acting great aide-de-camp.

As the Earl of Euston and his party will return to Houghton from Duluth on the steamer today and will have a couple of hours in that port, it is probable that the Portage Lake Knights Templar will arrange some sort of entertainment in honor of the distinguished visitors.

Prominent members of the order were told of the presence of the party aboard the boat by a reporter for the Mining Journal and were somewhat surprised, as they were not aware that the Britishers were coming up this way.

Other Passengers of Note. There were several other passengers of note aboard the North West on this trip. Governor Marshall of Indiana was one of these.

PETERSON BOUND OVER. Chassel Man Waives Examination on Assault and Robbery Charges. John Peterson of Houghton county court on two charges—assault with intent to murder and highway robbery.

REV. HICKS TO NEW FIELD. Former Pastor of Grace M. E. Church Called to Spokane, Wash. The following is from a Lansing dispatch: "At the meeting of the vestry of St. Paul's Episcopal church the resignation of Rev. William C. Hicks was accepted."

INVADERS THE ENEMY'S CAMP. Angus W. Kerr left yesterday for Marquette to attend a speaking tour of Marquette county in the interest of his congressional candidacy. He is accompanied by E. K. Guek and August Beck of Calumet and Justice C. O. Olivier of Hancock.

The Evening Gowns. Mrs. Herman Oelrichs, the best-dressed woman in Newport, criticised very pertinently at a recent dinner the new dinner gowns of Paquin and Callot.

J. A. Minnear & Co. BROKERS. Direct Private Wire to all Markets. We handle orders for all stocks listed on the Boston, New York or any other exchanges.

DRIVES OUT S.S.S. BLOOD HUMORS

When we see persons with soft, smooth skins we know at once that their blood is pure and healthy, that the cuticle is being sufficiently and properly nourished by the circulation. But when the blood becomes infected with any unhealthy humor the effect is shown by eruptions, boils, pimples, or some more definitely marked skin disease such as Eczema, Acne, Tetter, etc.

Ishpeming

Ishpeming in Brief. The Owl club will hold its annual picnic next Sunday. Miss Lorena Schadt has gone to Marquette on a two weeks' visit to her aunt, Mrs. Frank LaPorte.

The Bee Hive society of the Norwegian Lutheran church will give a lawn social this evening, commencing at 8 o'clock at the Krogerlund home on Bank street.

WALL STREET STOCKS. New York, Aug. 16.—Paine, Webber & Co. have this to say of today's market: "The market was very strong and more active than for some time."

Boston "Coppers." Boston, Mass., Aug. 16.—Summarizing today's copper stock market, Paine, Webber & Co. say: "After a dull opening, activity and strength developed throughout the entire morning."

Mining News

INSPIRATION. The work at the Inspiration property is said to be continually extending the limits of the developed ore body. So far as the operations have proceeded the distance claimed to extend a distance of 3,900 feet in an east and west direction while at right angles to this direction the work has opened ore through distances ranging from 800 to 1,200 feet.

New York Cotton Market. [Paine, Webber & Co.] New York, Aug. 16.—Exaggerated reports of rains in Texas, such as we had this morning, and as our market showed the effect, is that the crop has been all over of no avail and the market went on its way back to the 14-cent level for the new crop months.

both of winter and spring wheat, and the accumulation of stocks. Evidence of important sales were numerous and confirmation was received of sales of cargoes from Philadelphia, Baltimore and San Francisco, for France, indicating an insistent demand from that quarter.

Mining News

LABOR CONDITIONS AT BUTTE. The dull season in mining and the stock market are a good time for the manufacture of rumors and ill-reports, comments a Butte correspondent.

NOTES OF COPPER NEWS. Hancock will be shipping copper rock to a stamp mill by Jan. 1, 1911, according to the present plans of the management.

The southeast crosscut from the Telfair shaft of the Arizona & Michigan Mining company, which is making allowance for delays and for unexpected impediments in construction work.

The three-compartment Eureka shaft on the Ely Central property is down 585 feet and will soon reach 600 feet, where a station will be cut and another crosscut started for the sulphide zone south of the fault plane.

The Entire Atlantic Coast is made available for your summer outing by the very low fares in effect daily to Sept. 30th via Michigan Central New York Central Niagara Falls Route.

PIGEON FLYING IN BELGIUM

Pigeon flying has not become a serious obstacle to politics in this country yet, but in Belgium, where it is the working people's favorite sport, it has, according to a Socialist plan quoted by Mr. Secohm Rowntree in his book of Belgian "Land and Labor." Propaganda work is declared to be impossible during the summer because everybody is thinking and talking of nothing but pigeons. "Wife and child don't count, family life disappears; the social gatherings of the party are no longer attended; the pigeon alone reigns as absolute master." Mr. Rowntree gives a case of connection between flying pigeon and the land question. A man had to move from his house, the site being wanted for some public purpose, and he claimed damages because his pigeons, having been trained to fly to the old pigeon roost, would require training again for the new one. The court awarded him £50, one-third of their value. Many of the societies whose pigeon flying season is just starting owe their inception more or less directly to the siege of Paris. For the fact that it proved possible to send considerably over a million messages during the siege by means of pigeons which had had no training whatever gave a great impetus to the sport of pigeon flying. The occasional use by man of the homing instinct of the bird can be traced all

through the ages. Hirtius and Brutus corresponded by means of pigeons at the siege of Modena, pigeons acted as couriers at Alexandria and Bagdad and in 1819 thirty-two pigeons liberated in London all reached Antwerp safely on the following day. In 1899 a successful pigeon post was established between New Zealand and Great Barrier Island. Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of diarrhoea, and it is best to be prepared. Sold by The People's Drug Store.

"Has anyone here seen Kelly" Kelly Hardware Co., is where the great Demonstration exhibit of Majestic Ranges takes place every day this week. 8-16-5d)

No matter if your kidney trouble is acute or chronic Foley's Kidney Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried Foley's Kidney Remedy and a few large bottles effected a complete cure. He says, "It has been of inestimable value to me." The People's Drug Store.

MEANS TO EXTINGUISH FIRE.

Important New Ruling Relative to Operation of Motor Boats.

Deputy Customs Collector W. W. Osband desires to call the special attention of Marquette motor boat owners to certain provisions of the new law, which are possibly not being carefully observed. Under a recent ruling the supervising general of the bureau of navigation has held that all motor boats, of whatever size or length, shall at all times carry ready for immediate use the means of promptly and effectually extinguishing burning gasoline.

The penalty prescribed for any violation of this provision is a fine of \$100, which must arbitrarily be imposed by the customs officers, the secretary of the interior not having the power to mitigate a sentence imposed for infraction of this rule, though he may do so for infractions of any other of the laws relating to the equipment and operation of motor boats. The department announces that the usual fire extinguishers, suitable chemically, or bags of coarse flour or sand will serve the purpose. This is a new ruling and one which local motor boat owners would do well to conform to promptly.

Motor boats less than twenty-six feet in length must carry a white light aft and a combination light in the fore part of the vessel showing green to starboard and red to port. Boats more than twenty-six feet in length must carry a white light forward, a white light aft, a green light to starboard and a red light to port.

The combination light prescribed to show green to starboard and red to port must not be a three-color combination showing white ahead. The use of the three-color combination is condemned, as the colors do not show clearly. This objection does not hold to the red and green combination alone.

Majestic Range demonstration at Kelly Hardware Co. from Aug. 15 to Aug. 20. Don't forget the date. 8-9-10

THEATRICAL.

"The Flower of the Ranch."

The theatrical prospects for the coming season look far better locally than ever before, inasmuch as the open door policy affords him who has spent thousands of dollars in giving to the local theater-goers a beautiful play house, assurance that he will receive many of the larger attractions which, heretofore, have been kept from him. Among several big musical attractions booked for the coming season, "The Flower of the Ranch," one of Joseph E. Howard's best offerings, has been booked for next Monday night. This fascinating musical play enjoyed long stays at the Majestic theater, New York city, and nearly all summer at the Garrick theater, Chicago. It is a story of the West set to music, with a plot closely worked out.

The scenes are laid in California and picture life on a Western ranch. There are cowboys, cowgirls and all sorts of characters that one expects on the western ranch, including, of course, a tenderfoot in the leading comedy role, and a love story prettily told. There are some twenty musical numbers, "Days of '49," "Just Say You Care," "What's the Use of Dreaming," "California" and "The Panama and the Nighty" are the real song bits, while there are other songs and specialty numbers interpolated.

300 CANAL PASSAGES.

List of Boats That Have Passed the Locks, Bound for Superior Ports.

Sault Ste. Marie, Mich., Aug. 16.—The following boats have passed through the locks, bound for ports on Lake Superior: Samuel Morse, 9:30 p. m.; Ralph, Connolly Bros., Harold, 10; Shaughnessy, Yale, Centurion, 10:30; Presque Isle, Wadswell, 11:30; Rees, midnight; Berry, 12:30 a. m.; Mariska, Coralia, 1:30; George Peavey, Luzon, 2:30; Lambert, 3; North Wind, 5; enedy, 6; Dunham, 6:30; George Stephenson, Manilla, 7; Fairmount, Garrettson, 7:30; Rensselaer, 8; Sierra, 9; Wickwire, Jr., 10; Mariona, Smeaton, 10:30; Van Hise, Holley, 11:30; Victory, Constitution, noon; Calumet, Athabasca, 1 p. m.; Leonard Hanna, 1:30; Nye, 2:30; Wolvin, Saronie, 4:30; Wyoming, Plymouth, 6:30; St. Clair, 7:30.

HOUSEHOLD REMEDIES.

which have stood the test of time deserve a place in the medicine chest of every family. Mothers are to-day administering to their children the remedies their grandmothers used.

For thirty years, Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been curing the women of this country from the worst form of female ill, and merit alone could have stood such a test of time and won such an enviable record.

Upper Peninsula

Bonding Proposition Carries—

The proposition to bond the village of Starbough for \$5,000 for street and sidewalk improvements has been carried by the vote of fifty-one to twelve. The bonds will run for a term of five years, the first one falling due Aug. 15, 1915.

Costly Train Wreck—

A costly train wreck occurred on the Soo Line a mile east of Plummer, Gogebic range, when twenty-two loaded steel ore cars jumped the track and piled up in a broken mass over a distance of about four cars' length. None of the train crew were injured. The cause of the wreck is not known. Several days' time was required to remove the debris and repair the roadbed.

Agriculture Making Headway—

That the country around Ontonagon is developing into a first-class farming district is very evident. Nice new houses and barns are now standing where only two years ago there were only a few shacks. The Flint Street road for a distance of four or five miles from town is in excellent condition. It is high and dry and has been graded so that in very wet weather it will drain properly. The crops are looking fine and potatoes and wheat especially. Some barley is also being raised this year.

New Nursery Company—

Capitalized at \$15,000 there has been organized at Ontonagon a company that will engage in the business of raising nursery stock. The officers are: President and manager, Charles F. Nehmer; vice president, Daniel Nehmer; secretary and treasurer, Henry D. Nehmer. The company will experiment with various fruits and vegetables and will find out which are best adapted to climate and land. The men interested have already commenced work. Last spring they set out 250 fruit trees and a large number of berry bushes. They will also experiment with grapes.

Deaths Show a Falling Off—

According to records on file in the office of City Clerk M. J. Lyons, there were but 106 deaths in Escanaba during the seven months ending July 31, last, while for the same period last year the deaths numbered 131. The decrease in mortality is 19 per cent. There are several reasons advanced for the decrease in the death rate, one of these being that the city is in a much better sanitary condition and another that the water supply has been greatly improved and purified since the installation of the filtration plant.

Flag Pole is 100 Feet Tall—

A big flag pole has been erected on the roof of the high school at Crystal Falls. It is 100 feet in height and consists of two sections, the upper section raising and lowering as needed. The material was donated to the school by William and Herman Holmes, the bottom pole being the finest piece of Norway pine left standing in this section. The upper section is spruce. The pole is set on a concrete bed and between two anchor posts imbedded in concrete. It is bolted securely in place and has a band wound around the splice so that its anchorage is perfect.

Double Drowning Fatality—

Frank Ikes and Albert Roderick were

THE BEST Peacock Brand Leaf Lard
and
Peacock Brand Special Mild Cured Hams and Bacon

Cured by

drowned in MilleCoquin lake, in the eastern portion of the upper peninsula, last week by the capsizing of the craft and they disappeared beneath the waves before they could be rescued. Their bodies were recovered and when found they were still clinging to the boat.

HANDICAPPED.

This Is the Case With Many Marquette People.

Too many Marquette citizens are handicapped with a bad back. The unceasing pain causes constant misery, making work a burden and stooping or lifting an impossibility. The back aches at night, preventing refreshing rest and in the morning is stiff and lame. Plasters and liniments may give relief, but cannot reach the cause. To eliminate the pains and aches you must cure the kidneys.

Doan's Kidney Pills cure sick kidneys and cure them permanently. The following statement should convince every Marquette reader of their efficiency.

James Simmons, 317 E. Hughtitt St., Iron Mountain, Mich., says: "I had kidney trouble for ten years and suffered greatly from a lame and aching back. At times I could hardly drag myself around and should have been home instead of working. I had to be careful when sections were very irregular in passage and at night I would be obliged to get up five or six times to avoid them. I heard so much about Doan's Kidney Pills that I finally decided to try them and procured a box. In a few days after using the remedy my condition was greatly improved and before long the back-ache was removed."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

HUMBOLDT MAN SHOT YESTERDAY

KILLED BY TRAIN.

Newcomer in Country Met Death Yesterday Morning Near Michigamme.

Frank Victor Paavola, who arrived at Michigamme last Saturday from Finland, was killed by the Duluth, South Shore & Atlantic Railway company's Duluth train yesterday morning between 1 and 2 o'clock. Paavola was walking from town to his boarding place at Three Lakes, about three miles west of Michigamme, when the train struck him. It could not be ascertained at Michigamme yesterday whether the man was intoxicated, but it is thought from the fact that he remained out so late that he had been drinking. The train arrives at Michigamme between 1 and 2 o'clock and it was a few minutes after it left there when it ran down Paavola. The body was frightfully mangled and was scattered for a long distance along the track.

Paavola was a native of Harolan, Finland, where he was born Nov. 19, 1865. A friend of his at Michigamme yesterday informed the authorities that he is survived by six daughters and two sons, living in Finland, and one daughter in America. The whereabouts of the latter is not known. The funeral will be held this afternoon, with interment in Lakeview cemetery, Michigamme.

Joseph Shimon Is Fired on and Severely Wounded by a Man Hiding in the Bushes While He Was Driving to His Work at the Baron Mine.

Wounded Man, Now at the Ishpeming Hospital, Believes Shot Was Aimed by One of Three Men With Whom He Has Had Trouble—Suspects Held.

An attempt was made yesterday morning, shortly before 7 o'clock, upon the life of Joseph Shimon of Humboldt, and he now lies in a critical condition at the Ishpeming hospital, with a bullet wound, penetrating the liver, through his body, also a wound through his right arm, near the elbow. Shimon was shot while riding to his work at the Baron mine from the farm of his mother-in-law, Mrs. Pollard. The man who did the shooting lay in ambush by the roadside and fired upon his victim at a point about a quarter of a mile from the mine. The Pollard farm is about a mile and one-half from the Baron property.

Mrs. Pollard owns a team that is working at the Baron mine and Mr. Shimon and the driver were in the seat, Shimon being on the side from which the shot was fired. The bullet not only passed through Shimon's arm and body, but it also went through the side of the seat.

The driver hurried the wounded man to the mine and some of the workmen gave him such attention as they could. A South Shore switch engine was pressed into service and the wounded man was brought down to the Ishpeming hospital, arriving here shortly after 8 o'clock.

Shimon lost considerable blood, but was in good condition when he reached the hospital. Operations were performed upon the arm and body, and he was reported late yesterday afternoon that he was resting well. Shimon is a strong man and is in fine physical condition, nevertheless his condition is considered very grave.

Family Feud the Cause.

It has been known by the people of Humboldt that there was bad feeling between the Pollard and Trewenick families, who own farms adjoining each other. Immediately after the shooting, Shimon advised his friends at the mine that he suspected either Tom Harvey, William Trewenick or John Snell of having done the shooting, as all of these men had been quarreling with the Pollard family. Last Wednesday Shimon and Harvey had a desperate fight, Shimon getting the better of the argument. Shimon said that at the conclusion of the fight, when the men were separated by workmen at the mine, Harvey made the threat that he would get even with him, and for this reason the wounded man thinks that Harvey did the shooting. Shimon claims that Harvey provoked him to fight and that he struck the first blow. Harvey is much the larger and heavier man of the two.

Harvey and Snell are married to sisters of Trewenick. It appears that the trouble between the families is largely due to a disagreement over the use of a road that passes through the Pollard farm. This road has been used by the Harvey, Snell and Trewenick families. The Pollards frequently charged that they deliberately left the gate open, so that the cattle could come in to their fields. Harvey, Snell and other members of the family resented the accusation, and it is said that they frequently had wogdy combats.

Shimon, who had lived at Humboldt up to about a year ago, when he and his family left for Hibbing, returned to Humboldt about three weeks ago, and had been living at the Pollard home. Three Arrests Follow.

SELLING HOUSES.

Cleveland-Cliffs Iron Co. Disposing of Dwellings at Deer Lake Location.

Several Ishpeming people have purchased houses at the Deer Lake location from the Cleveland-Cliffs Iron company, and some of them plan to have their families spend the summer there. J. H. Mortley, whose family is now camping at Deer Lake, recently bought a two-story house that he intends to fit up for a summer home.

There are a dozen or fifteen dwellings at the location that are in fairly good condition. The company is selling the houses with the understanding that they will be occupied and kept in good repair. They are disposing of them at reasonable prices.

Last year the company fitted up a dwelling for the use of members of employees' families. A number have taken advantage of the company's generosity and the house was occupied the greater part of last summer, and there are at present six or seven people there. The resort is in charge of Miss Brown, the company's trained nurse. The company pays all the expenses of those who go to the cottage. They procure their meals at the home of Joseph Charles, near by. The cottage will be kept open for about another month.

WILL SELL LAND.

George Grummett of this city, who owns 300 acres of land in Section 20, Baraga county, offers the timber, also the mineral rights, for sale. Mr. Grummett and other Marquette county men have never located with him found gold and silver in different places on this tract some years ago. A few shallow shafts were put down, but the work was abandoned because of the water. Mr. Grummett has always believed that gold would be found in paying quantities; but he has never had the means to thoroughly develop the property. There is considerable timber on the tract and he offers to sell it at \$5 per acre, with mineral rights reserved, or \$10 per acre, including stamper and mineral rights.

DEATH OF OLD RESIDENT.

Mrs. Hennessey, a pioneer resident of Ishpeming, died yesterday morning at the home of her son, Patrick Hennessey, on Lake street. She had been in poor health and her death was expected. Mrs. Hennessey was a native of Ireland and was located in Ishpeming over thirty-five years ago. She was ninety years of age. Surviving members of the family here are two sons, Patrick and John Hennessey, and Mrs. John Ryan, living at the Barnum. The funeral will be held tomorrow morning from St. John's church.

EXCURSION FROM DETROIT.

Mart Adson, general passenger agent of the Duluth, South Shore & Atlantic Railway company, has advised Agent D. Randall that the Detroit & Cleveland excursion from Detroit to the upper peninsula under auspices of the Detroit News. The boat will leave Detroit on the 29th inst., and will connect with the South Shore train at St. Ignace. The round trip fare from Detroit to St. Ignace will be \$7 and to Marquette \$9. Tickets will be valid for return passage to fifteen days from the date of sale.

COLUMBUS CONSOLIDATED.

The Columbus Consolidated property at Alta is in better condition than it has been in years, according to Salt Lake advices. Three shafts are now working at the mill and some of the concentrates turned out from the second grade ore of a recent strike are running better than \$50 to the ton. General Manager Jacobson believes that the company will shortly pay off its indebtedness and accumulate a surplus. The ore was recently struck on the tunnel level. When the last shot was put in a big stream of water broke out, carrying ore in a concentrated form. It was necessary to bulk head this to stop the flow. As soon as this was done an upraise was sent up for eighty feet to catch the ore above the cave. This was reached a short time ago and drifting was started in both directions along the ore body. As the air became bad it was necessary to discontinue the work and extend the third level out to the strike. The third level is the one above the tunnel. This has reached the strike and some fine looking silver lead ore is now being taken out. As the company has a number of places in the mine from which ore can be taken there will be no cessation in shipping from now until the snow closes up the road.

MANY INTERESTED IN DAVIS CASE

His Negaunee Friends Wonder if He Will Continue Fight to Retain Position.

The Negaunee friends of F. D. Davis have been watching with interest his fight against the board of education of Escanaba, in an effort to retain his position as superintendent of public schools. It would seem from the decision given last Thursday by Judge L. C. Flannigan, quashing the temporary injunction secured by four Escanaba corporations, that the board has won a decisive victory.

Many here have expressed the opinion that, in all probability, Mr. Davis will drop the fight. Following the decision, F. E. King, the new superintendent, was permanently placed in charge of school affairs. It is said that Judge Flannigan's decision is regarded by Escanaba people as a distinct victory for the majority of the members of the board of education, who voted to oust Mr. Davis immediately after the annual election in July.

The fight over the superintendency has created a great stir in Escanaba and nearly all the people are taking sides in it one way or another. It is said that Attorneys John Power and M. C. Spencer, who represented the board of education, presented some strong arguments before the court in favor of retiring Mr. Davis. After Judge Flannigan returned his decision Mr. Spencer was quoted as saying: "We have won the first battle for the people and while ex-Superintendent Davis may sue on his alleged contract we are equally confident that we will also be able to win in any action that may be brought by him."

Mr. Davis can sue the school district on his contract, in an effort to collect the salary that he may claim to be due him, but he has not yet decided just what steps he will take.

SOME UNFULFILLED ORDERS.

Steel Corporation Is Operating 75 Per Cent of Its Capacity.

The United States Steel corporation has officially announced unfulfilled orders at the close of last month for 3,790,931 tons. It is said that the steel corporation is running 72 per cent of its pig iron and 75 per cent of its finished steel capacity. All the subsidiary companies have specifications which will carry them at the present rate for sixty to ninety days and in some instances rolling schedules are complete even to the end of the year, notably in fabricated material and in tin plate.

The wire trade is exception in that new business is exceeding shipments and both specifications and new orders are

greater than at the corresponding time last year.

One important feature is that current business is almost entirely for quick shipment and the volume of new orders in all lines is light because consumers, anticipating lower rates rather than higher prices, are throwing the burden of carrying the stocks upon the manufacturer. Fabricated steel orders last week were 15,000 tons, and railroads placed nothing but mandatory orders.

Equipment contracts included 13,000 tons of rails, insignificant car and locomotive orders, while bridge work was scarcely 5,000 tons. The principal railroad order was 1,500 tons for the Schuylkill river bridge awarded by the Pennsylvania railroad to the Steelton mill.

The pig iron trade was dull in all districts. In the Eastern territory new contracts were less than 10,000 tons and in the entire country the aggregate tonnage placed was little more than 25,000 tons. Prices were not changed and sentiment tended downward rather than otherwise. Stocks at merchant furnaces continue to increase notwithstanding the reduced output.

The Mexican government has sent out an agricultural expert to lecture in the principal towns of Sonora to induce the farmers of the state to raise products for the American market especially early vegetables, lemons, dates, figs, etc.

Mirrors that are made of glass have metal placed on one side of the glass. The light will pass through the glass, but will not pass through the metal backing. Light has the property of bending from a surface that it cannot penetrate, the same as a ball would when thrown against a surface that it cannot penetrate. The light passes through the glass of the mirror, meets the metal backing, and then bounces from it. This bending of the light from the metal surface is called reflection, and mirrors are said to reflect.—St. Nicholas.

ANGUS W. KERR HERE TONIGHT

First Meeting in Congressional Campaign Will Be Held at City Square.

Angus W. Kerr, candidate for congress, will address the first meeting in the congressional campaign held in this city at the city square this evening at eight o'clock. Mr. Kerr and a party of friends arrived in Marquette by boat yesterday afternoon. They have two Buick automobiles which they use in their campaigning to make out of the way places. Last evening Mr. Kerr opened his Marquette county campaign to a good sized open air audience, and

made clear his position on the issues of the campaign.

Mr. Kerr and his friends will arrive in Negaunee this afternoon, and will spend some time meeting the voters. He will also probably spend Sunday in the city. His itinerary calls for visiting all the principal points in the county.

CARD OF THANKS.

We wish through The Mining Journal to assure our friends that we most heartily appreciate the sympathy and kindness after the death of our brother, the late Patrick Scanlon. We feel very grateful for the many beautiful floral tributes sent by friends, also for the flowers and favors extended by members of the Ancient Order of Hibernians of Negaunee and the members of Marquette lodge, No. 10, and Hematite lodge, No. 612, of the Brotherhood of Railway Trainmen, also the members of the trainmen, engineers and firemen's organizations of Duluth. P. Rasmussen,

SHEA BLOCK, E. IRON ST., NEGAUNEE, MICHIGAN

LARGE CROWD HEARS MR. KERR

Copper Country Candidate for Congress Opened His Campaign in Marquette County With an Enthusiastic Open-Air Meeting in Lakeside Park Last Night.

Declared Himself Opposed to Speaker Cannon and Cannonism in Favor of Employers' Liability Law, Court Reform, and Distribution of Legislative Power.

Pledging himself as unalterably opposed to the re-election of Joseph G. Cannon as speaker of the house of representatives and standing unequivocally for that progressive Republicanism which has recently been endorsed by the Republicans of Kansas and Iowa, Angus W. Kerr opened his Marquette county campaign for the Republican nomination for representative in congress from the Twelfth district of Michigan, with an open-air speech in Lakeside park last evening, which was heard by a large and apparently sympathetic crowd.

Mr. Kerr arrived in the city at 5:30 last evening by boat from the copper country and will spend the week in Marquette county. On his campaign through the iron country he is accompanied by Justice Chas. O. Oliver, of Hancock; C. D. Hanchette, of Hancock; August Beck, of Calumet, and Fred K. Guck, of Calumet.

Judge Oliver, Attorney Hanchette and Mr. Kerr spoke at the meeting last evening. Mr. Kerr's address was given close attention by the large crowd and at the close of several of his oratorical periods he was given hearty applause, particularly when he declared himself squarely against Cannonism.

In opening, Mr. Kerr stated that he was a Republican through and through and would not abuse his opponent in the race for the congressional nomination. He advised the voters to vote for the Republican candidate, whomsoever it might be, and deplored the bitterness within the party which might be stirred up during the campaigns of the candidates for nomination, unless the candidates themselves exercised due care to prevent it.

Your Congressman Your Attorney.

"Of all the men you elect to office," said Mr. Kerr, "there is none so important as the man whom you choose to represent you in the legislative halls at Washington. Your congressman is your attorney in national affairs, so to speak, and you should see to it that the man you vote for is a man who stands for the things you stand for. While I am a loyal Republican, I believe in speaking out against the wrongs which have sprung up within that party.

"There are now two factions within the Republican party, the so-called

standpatters, and the progressives or insurgents. The former apparently believe that the duty of the government is to protect and build up the great material interests. I believe this a misconception of the idea of government. The other party says that the government shall give concern to the things that affect the welfare of the individual citizen.

"Joe Cannon has said that the so-called insurgents are not Republicans, but the voters of Kansas and Iowa have within the last few weeks emphatically declared that Cannon was not elected to say who is and who is not a Republican. I stand for the enactment of those laws that are for the benefit of individuals, rather than for laws that work only for the benefit of material interests.

"Such being the case, I believe that congress should enact an employers' liability act. The fellow servant doctrine, which says that an employe cannot collect damages from a company by reason of an injury inflicted by a careless fellow employe, however little the injured may know of or about him, is all wrong. There are only two countries in the world where this doctrine still applies—in the United States and in Turkey.

Court Rules Need Reforming.

"Further, I stand for the belief that the courts should be as free to the man of small purse as to the man with a big purse. Under the present system a rich man or corporation can keep a case in the courts for years, until the poor man on the other side has to give up for lack of money to carry on the fight. I have in my pocket the record of one case where a man was awarded \$4,000 damages after which the case was appealed and retried four times, and more than nine years elapsed before final judgment was rendered.

"But the great question in this congressional campaign is whether one or a few men shall make the laws for this great nation, or whether all of the 391 members of the lower house shall have a part in making those laws; whether this country shall have a constitutional government or a government by the speaker of the house.

"My opponent says that a new man's usefulness in congress is limited, as it takes eight or ten years to get acquainted and to get on to the ropes. If this is true I think it is time you sent some one down to congress who will cut away those ropes and unwind the red tapes, so that it won't take eight or ten years for the people of a congressional district to get recognition.

"I believe that Speaker Cannon stands as a barrier in the way of spreading the responsibility of legislation among the 391 members of the house, and if elected to membership in the house of representatives, would be unalterably opposed to his re-election as speaker. In conclusion, let me impress the fact that this is just as much your fight as my fight, and vote for the candidate who will do the things you want your representative to do."

Introductory Speeches.

Mr. Kerr was preceded by Judge Oliver and Mr. Hanchette. Judge Oliver spoke of his personal acquaintance with Mr. Kerr and the high regard in which he is held by the people of the copper country. He outlined Mr. Kerr's life history, declaring that his war record was above reproach and that he would reply to the attacks made on his legislative record was the fact that he was re-elected to his second term by the

practically unanimous vote of his constituents. Mr. Hanchette spoke very briefly and seconded all that Judge Oliver had said before him. In asking for support for Mr. Kerr he stated that Marquette county had had the congressman from this district for eight years, and asked in all fairness if Houghton county, with a larger population, should not now be permitted to have the congressman for a term or two.

The Marquette City band had been engaged for the Kerr meeting and marched over the downtown streets in the early evening, and gave a concert in the band stand at the park before the speaking began. Mr. Kerr was greatly pleased with his reception in this city, and will spend today here for the purpose of meeting as many voters as possible.

Mr. Kerr's Itinerary.

Mr. Kerr's itinerary of this county, as scheduled, is as follows:
Negaunee—Wednesday night.
Houghton—Thursday.
Champion—Thursday.
Michigan—Thursday.
Princeton and Gwinn—Friday morning.
Republic—Friday evening.
Isppening—Saturday night.

SECOND TEAM BATTING.

Primeau is far and away the premier slugger of the second team. He now has a percentage of 538 and if he keeps on batting the way he did against Gwinn he will finish out far ahead of the others. There are several other changes in position, since the averages were last published. LaFave is now tied with Daniels for second place, while Jenson managed to creep out of last place, forcing Smith to that position. Bastian took a slump while Ormsbee raised his average twenty points. Rydholm is closely following those holding second place. The team average is 254. Individual averages:

	A.B.	H.	P.C.
Primeau	13	7	538
LaFave	15	5	333
Daniels	22	6	273
Rydholm	15	5	311
Nault	19	5	263
Bastian	15	3	200
Ormsbee	24	4	125
Jenson	19	2	105
Smith	12	1	83

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by The People's Drug Store.

The only metal polish for automobiles at Wm. Schunk's harness shop, 211 S. Front St. (8-2-2w)

Don't take a chance on feeding your baby on milk that never was cooled and from cows that were never tested, when Vandenberg's special milk for babies can be secured at the regular price. 8-12-1m

It is worth 88¢ to you to read our advertisement in this paper, so don't overlook it. 8-9-1f KELLY HARDWARE CO.

BANK BY MAIL

It is not necessary for you to go without the benefits of a bank account simply because you do not live next door to the bank. "Uncle Sam" is a first-class messenger and all your banking can be done easily and safely by mail.

Send for our booklet, "Modern Banking," which fully explains our system of Banking by Mail.

MAJESTIC DEMONSTRATION

Week of Monday, August 15th, to August 20th

FREE

SOUVENIR SET OF MAJESTIC WARE FREE

If you will call at our store during our Majestic Demonstration Week and allow us to show you the many advantages and superior qualities of the Great and grand Majestic Range, and will purchase one at the regular price, we will give you FREE the beautiful and useful Souvenir Set of Ware illustrated in this advertisement. This ware is made to match the quality of the Majestic Ranges, and we know all ladies will see the beauty and utility of this Set, especially the first three pieces, which are entirely new and cannot be had alone by purchase, except at a very high price. The prices of Majestic Ranges are the same, but we give the set FREE with each Majestic Range bought during demonstration week only.

Reasons why the Great Majestic you should buy

- 1st. It has the reputation of being the best range money can buy.
- 2nd. It not only has the reputation, but is the best range made, and we will prove this to you if you will let us.
- 3rd. It is constructed of Malleable iron (material you can't beat) and of Charcoal Iron (material that resists rust 300 per cent greater than steel), is riveted together air-tight. No heat escapes or cold air enters range, thus uses very little fuel to do perfect work.
- 4th. The reservoir alone is worth the price of the range over any other reservoir made. It boils 15 gallons of water; is heated like a tea kettle, with pocket against left-hand lining, and is movable and sets on a frame, hence cannot wear out. When water gets too hot it can be moved away from fire.

MAJESTIC RANGES use less fuel; heat more water—and heat it hotter; cost practically nothing for repairs; lasts three times as long; bake better; easier to keep clean and give better satisfaction than any other range on the market. If you knew positively that the above statements were true, wouldn't you buy a Majestic at once? Come in during Demonstration Week and we will prove it to you.

KELLY HARDWARE CO.,

305 SOUTH FRONT STREET, MARQUETTE, MICHIGAN.
