

SITUATION IN NEW YORK IS CLEARED

Mr. Taft and Mr. Roosevelt Will Continue as Fellow Workers in the Same Political Field—Threatened Break Due to Misrepresentation Is Averted.

President Had No Hand in the Colonel's Recent Defeat, in Fact He Is His Choice for Chairman, and This Explanation Is Accepted at Sagamore Hill.

New York, Aug. 22.—Wm. H. Taft and Theodore Roosevelt are again fellow workers in the same political field. The threat that they might pull apart has been foredoomed by a full explanation on one side and an unreserved acceptance on the other.

President Taft's Letter.

The following letter from Mr. Taft to Mr. Roosevelt was given out today by Mr. Griscom:

"My Dear Roosevelt—As you know from your telephone conversation with my office, I have steadily refused to admit the propriety or the necessity of the president replying to newspaper statements not based on fact or authorized word of his which have been sponsored by me entirely willing, however, to reply categorically to your telegram of Aug. 19, which has just arrived and which is, in part: 'I am informed and believe that several members of the New York state committee who voted for Vice President Sherman over ex-President Roosevelt as the nominee for temporary chairman of the state convention were influenced by statements that the vice president's name was presented to defeat Mr. Roosevelt in accordance with your wish as a member of the state committee declared to me before the meeting that Mr. Sherman's candidacy had been arranged with you by telephone the previous day.'

"The suggestion that I have ever expressed a wish to defeat Mr. Roosevelt for temporary chairman of the convention or have ever taken the slightest step to do so is wholly untrue. I never heard Mr. Sherman's name suggested for temporary chairman of the state convention until I saw in the newspapers of Aug. 16 that he had been named at a meeting of the committee. When you called at my house Saturday evening, Aug. 13, you told me that Mr. Roosevelt intended to go to the convention as a delegate, and you suggested incidentally his being made temporary chairman—a suggestion in which I acquiesced. You did not ask me to take any action whatever with respect to it.

"After a full discussion of the New York state situation, I drafted in your presence a telegram to Mr. Sherman, which in part says: 'Please say to Mr. Ward and Mr. Woodruff that I have had a long conference with Griscom. He confirms my judgment already expressed to you that the whole situation in New York may be saved without humiliation to anyone and with victory for the party by a full conference with Mr. Roosevelt and reasonable concessions with reference to platform and candidates. The thing of all others that ought to be avoided is controversy in the convention.'

"On the afternoon of Aug. 15 Mr. Sherman telephoned me from New York and for the first time apprised me of the fact that there was a proposal to oppose Mr. Roosevelt for the temporary chairmanship, and that with Senator Root's name. I protested against the idea of a contest on such a matter and peremptorily declined to be drawn into the fight against Mr. Roosevelt.

LA FOLLETTE LOOKS TO HIS LEUTENANTS

Because of a Physical Ailment and on Medical Advice, He Will Not Enter Campaign for Renomination Unless Absolutely Necessary to Do So.

Senator Warner of Missouri Announces His Retirement at the Close of His Term March 3, Next—Ex-Governor Stokes Out for the Toga in New Jersey.

Milwaukee, Aug. 22.—United States Senator Robert M. LaFollette will not enter the primary campaign in his contest for renomination, unless he has to, according to a story printed in the Milwaukee Journal this afternoon from Madison which dealt about a conference at the LaFollette farm between the senator and a number of his adherents, bearing on the primary struggle. The only issue in the campaign is for representative government, according to Mr. LaFollette.

"A physical ailment prevents me entering the campaign," the senator is quoted as saying. "I have had a long talk with my doctor, and he advises me to stay out of the campaign for the present unless it is absolutely necessary for me to enter." At this point there were cries of "Leave the primary to us," and the speaker said he felt perfectly safe in doing so.

Ex-Governor Stokes a Candidate.

Trenton, N. J., Aug. 22.—Former Governor E. C. Stokes today filed with the secretary of state a petition which will result in his name being placed as a candidate for United States senator upon all Republican primary tickets throughout the state. His petition was filed under a recent law which permits the voters of a political party to express their preference for United States senator. Mr. Stokes's petition consists of 1,100 names. It is necessary for a petition to contain 1,000 names. Former Governor Franklin Murphy and Congressman Charles N. Fowler, both of whom have indicated their intention to file similar petitions, have not yet done so. Wednesday is the last day for the filing. The primary election will be held on Sept. 13.

Senator Warner's Last Term.

Washington, Aug. 22.—Senator Warner, of Missouri, in a formal statement issued tonight, announces that he will not be a candidate for re-election. He gives ill health as the reason. The senator is in his seventh year. The strain of the tariff session affected him seriously and the heavy work of the session recently ended did not tend to improve his condition. His term expires March 3, next.

WALL STREET MARKET DRIBBLES DOWNWARD

Business Transacted Is Very Light—Roosevelt's Utterances Eagerly Awaited.

New York, Aug. 22.—Stocks dribbled slowly but surely downward today, on a very light volume of business. The market was dull and exceedingly nervous throughout the day, and the pressure upon the market apparently had origin in the operation of short interests, which were inclined to take renewed courage from the reactionary tendency noted the latter part of the previous session. There was some partial recovery in the closing hours, but not enough to effect more than nominal recoveries, the closing being in most instances the lowest of the day.

The political situation, which has been a foremost factor recently, showed no change today, although there was a general disposition to await the result of Theodore Roosevelt's coming public utterances, the first of which is to be delivered at Utica tomorrow. Wall Street believes that the present tension in the Republican party in this state will be satisfactorily settled before long, but it is less sanguine at the outcome of the nation, the increasing force of the "insurgent" movement being watched with a great deal of interest.

Grain Prices Somewhat Firmer.

Chicago, Aug. 22.—Wheat today closed firm, unchanged to 1/4 higher. The market more than held its own in spite of depressing statistics and weaker foreign markets. Prices were supported by the early bulge in corn, an improvement in the Southwest flour trade and some strength at Winnipeg. The accumulations were heavy in both the foreign and domestic markets, the visible supply in the United States increasing more than 3,700,000 bushels against an increase of 301,000 bushels a year ago. The world's shipments also were enormous, Russia and the Danube contributing 8,000,000 bushels. The array of bearish statistics was insufficient to cause a permanent slump. Cash wheat held steady. The September opened at 98 1/2 to 98 3/4; its highest was 99 1/2 and its lowest 98 1/2, and it closed at 99 1/2.

Corn started weak, but rallied on shorts covering. The official forecast of cooler weather contributed to the advance, which carried the figures from 1/2 to 3/4 above Saturday's closing quotations. Cash houses sold freely on the bulge and the values sagged. The close was steady, with the prices a trifle lower to 1/2 up. The September opened at 59 1/2 to 59 3/4 and closed at 60.

The oats market was a narrow affair today, with the burden of a big crop and heavy receipts pressing down on values. Cash oats held firm, in spite of free offerings. The futures closed easy, with the prices a shade to 1/2 lower. The September opened at 34 1/2 and closed at 34 1/2.

LA FOLLETTE LOOKS TO HIS LEUTENANTS

Because of a Physical Ailment and on Medical Advice, He Will Not Enter Campaign for Renomination Unless Absolutely Necessary to Do So.

Senator Warner of Missouri Announces His Retirement at the Close of His Term March 3, Next—Ex-Governor Stokes Out for the Toga in New Jersey.

Milwaukee, Aug. 22.—United States Senator Robert M. LaFollette will not enter the primary campaign in his contest for renomination, unless he has to, according to a story printed in the Milwaukee Journal this afternoon from Madison which dealt about a conference at the LaFollette farm between the senator and a number of his adherents, bearing on the primary struggle. The only issue in the campaign is for representative government, according to Mr. LaFollette.

"A physical ailment prevents me entering the campaign," the senator is quoted as saying. The senator is in his seventh year. The strain of the tariff session affected him seriously and the heavy work of the session recently ended did not tend to improve his condition. His term expires March 3, next.

FOREIGN YACHTS OUT-SAILED AGAIN

Spaniards Close Their Career in American Waters With Another Bad Defeat.

Marblehead, Mass., Aug. 22.—The Spanish yachtsmen closed their career in American waters by losing another race to the Americans today, and tonight they saw the Governor Draper cup, the second important trophy of the international series, awarded to Captain C. H.-W. Foster, owner of the Beaver. The owners of the visiting sloop yachts will go on board the Mayflower Wednesday and join in acclaiming the Harpoon, the principal winner of the series, when President Taft presents the cup bearing his name to Captain C. F. Adams II. The final race today was between two American and two Spanish boats, the Mosquito II not participating. The Beaver won after an interesting contest with the Cima, which was only thirteen seconds behind at the finish. The Spanish boats, Chonta and Papoose, were far astern when the American boats crossed the line.

WRIGHT DEFEATS M'LOUGHLIN; PLAYS BRILLIANT TENNIS.

Newport, R. I., Aug. 22.—Playing in splendid form, Beals C. Wright, of Boston, today defeated Maurice E. McLaughlin of California, in straight sets in the sixth round of the all-comers lawn tennis tournament for the national championship on the Casino courts here. McLaughlin had been looked upon as Wright's most dangerous rival, and tonight it appears certain that, barring accident or a remarkable reversal of form, there will be a repetition of the tennis history of 1908. R. H. Whitney, of Boston, the interscholastic champion, had little trouble in disposing of C. E. Cutting. E. C. Colston was the fourth man to reach the semi-finals, defeating Dean Mathew. Tomorrow Wright will meet Whitney, while Colston will play Bundy. The finals come Wednesday, and the challenge match Thursday, if the weather hold good.

EIGHTEEN MEN DIE WHEN BRITISH CRUISER IS WRECKED.

London, Aug. 22.—Eighteen lives were lost when the British cruiser Bedford ran ashore on the rocks off Quelpar island, Korea, yesterday, according to a report received here by the admiralty. The men were members of the engine room staff.

The Weather

Washington, Aug. 22.—The following is the weather bureau's forecast for Upper Michigan: Showers and cooler, Tuesday; Wednesday, showers; moderate variable winds.

Baseball

STANDINGS OF THE TEAMS.

YESTERDAY'S GAMES.

Table with columns for National League, American League, and American Association.

Pittsburg, Aug. 22.—Pittsburg won two games today by timely hitting. In the second, Pittsburg made three home runs in one inning.

Philadelphia, Aug. 22.—Land's all-around work was the feature of today's twelve-inning game.

New York, Aug. 22.—Detroit scored four runs in the ninth, on a hit, an error, four passes and a hit batsman and a balk.

Washington, Aug. 22.—Harry White retired in the seventh in favor of Olmstead.

Boston, Aug. 22.—Hooper's batting was directly responsible for Boston's victory. He made a home run, two three-baggers and a single.

Columbus, 2; St. Paul, 1. Toledo, 5; Milwaukee, 2. Lincoln, 4; Wichita, 2. Louisville, 6; Kansas City, 4. Second game: Louisville, 3; Kansas City, 1.

ROOSEVELT IS SCHEDULED TO RIDE THE GOAT

Omaha Folks Will Initiate the Former President Into the Mysteries of Ak-Sar-Ben When He Visits the Nebraska Metropolis Early the Coming Month.

Organization He Will Join Is a Unique One and Its Ceremony of Conferring Knighthood Contains Many Surprises—Strenuous Time Is Planned.

Omaha, Neb., Aug. 22.—When Colonel Theodore Roosevelt meets King Ak-Sar-Ben in this city Sept. 2, after his return from the frontier celebration in Cheyenne, he is to be initiated and knighted by this mysterious ruler and permitted to sit on a real throne for a few minutes, surrounded by a serious court and other diverting grotesqueries.

Though Mr. Roosevelt may have experienced unique entertainment in some of the strange lands which he has visited, the trip to the den of Ak-Sar-Ben is intended to be an event in his life which will linger in the memories of the colonel's great-great-grandchildren.

Ak-Sar-Ben is the Mardi Gras of the North. It is the "boosters'" organization of the Middle West—the name being formed by spelling Neb-ras-ka backward. By delving into the language books it has been discovered that it means a lot more. "Ak" is said to be good Syrian for "head of a household," "sar" in the Arabic is "household" and "ben" in the Hebrew is "family" or "brothers in a household."

Thus Ak-Sar-Ben consists of a king, the head of governors and the "brothers of the household," or all the business men in the Middle West who have banded themselves together in a great co-operative movement to develop the trans-Missouri country.

The festival which Colonel Roosevelt will visit has two seasons, one for initiation and the other a carnival, the latter to be held later in the fall. The colonel is to get the full initiation and will be told of the work of King Ak-Sar-Ben. Sixteen years ago it was founded by business men of the West. It has something besides romance for a soul. The foundation of the festival is business fraternalism and it has brought the people of the Middle West together, pulling them out of the depths of despondency in which they were plunged during the hard years of the nineties.

After having accomplished this work, Ak-Sar-Ben has been continued, growing more popular each year until this season the membership had to be limited. Some 6,000 are initiated annually and 150,000 attend the festival and watch the parades. Last year President Taft was initiated. Cabinet officers, senators, members of congress, foreign ministers, army officers, have taken the initiation and almost every Western governor has been knighted.

All this closes with the electrical parades and the coronation ball in the fall. The initiations will close when Colonel Roosevelt "gets his" Sept. 2. All the ceremonies are unique, but a strenuous time is planned for the colonel—one which will manufacture for him some original emotions out of whole cloth.

Initiation Ceremony Unique.

As in many other secret orders, all candidates enter on an equality just as they entered the world, without money on their persons or titles thundering along after their names.

The "den" is a huge building, covering an entire block. Under it are numerous tunnels and mysterious chambers. Running through one tunnel is a rope constantly in motion, drawing the candidates in.

ROWBOAT IS CAPSIZED AND FOUR IOWANS PERISH

Charles City, Ia., Aug. 22.—Four persons were drowned when a rowboat capsized in Cedar river late last night. They were Charles Shaffner, Frank Vaughan, Miss Pearl Mulchler and Miss Mary Williams.

FIRES IN THE FAR WEST CONTINUE DIRE HAVOC

Spokane, Wash., Aug. 22.—Reports from the forest fires in northern Idaho and western Montana increase the toll of dead. The latest figures from Wallace are that forty-five are dead in that vicinity and half of the town is destroyed. In the hills near Sand Point, Idaho, sixty-five fire-fighters are surrounded by fire and in danger of perishing. Thousands of acres in the affected territory have been swept by fire, and hundreds of refugees are crowding into the larger towns. Seven hundred people from Wallace arrived in Spokane today. Among the known dead at Wallace was Harry Hanson, of Rainie, Wis. It is reported that the town of Burke is in flames and is certain of destruction. The three hundred residents are in flight towards Wallace. Nine sisters and forty-two patients from the Providence hospital, at Wallace, have arrived at Missoula, Mont.

Washington, Aug. 22.—The forest service has positive evidence that many fires in Oregon are incendiary. The war department is preparing to send more troops to fight the fires in the forests of the far West.

FOUR MEET DOOM IN AUTO EXPLOSION

Mother and Daughters Burn to Death and Father and Son Are Badly Injured.

Pittsburg, Pa., Aug. 22.—A mother and her three daughters were cremated yesterday, when an automobile driven by the father was blown to fragments by the explosion of a twenty-gallon tank of gasoline on the rear of the machine. The father, William Faith, a retired oil operator and a wealthy resident of Masontown, Pa., and his son, William Faith, Jr., were seriously burned and may die. The dead: MRS. ELLEN FAITH, 58 years old. CATHERINE FAITH, 23 years old. ANNE FAITH, 20 years old. ELLA FAITH, 16 years old.

The party had left their home for a day's tour in the big car and had proceeded several miles when the accident occurred. What caused the explosion no one knows. The injured are in such condition that they cannot talk. The car is entirely wrecked and what damage was not done by the force of the explosion resulted from the flames. The father and son were thrown some distance from the machine, while the mother and daughters were hemmed in the tonneau. They could not escape and their bodies were burned to death. They were unconscious from the shock of the explosion.

STEEL CORPORATION STRIKE DUE TO END THIS WEEK

Newcastle, Pa., Aug. 22.—Notwithstanding that almost three-quarters of the membership of the Amalgamated Association of Iron, Tin and Steel Workers have voted to continue the strike against the United States Steel corporation that has been on more than a year, two lodges in this city yesterday adopted resolutions recommending the immediate calling off of the strike. The resolutions were forwarded today to President McArde, and it is stated that the strike will end this week.

RAILROAD GRAFT CASES TO BE HEARD FRIDAY

Chicago, Aug. 22.—Chief Justice Olson, of the municipal court, today postponed the hearing of the case of John M. Taylor, former general storekeeper of the Illinois Central, until Friday, the same day that the cases of E. R. Harriman, former general manager, and C. L. Ewing, former superintendent of the lines north of Ohio river, are set for hearing.

STEAMSHIP IS HELD UP AND CAPTAIN IS MURDERED.

Eureka, Calif., Aug. 22.—The Alaska Pacific Steamship company's liner Buchanan was held up at sea off the coast today by two passengers. Captain Wood was shot and killed by one of the men, while resisting. The second man was empowered by the engineer, panicking him. The crowd cheers and then the accident began as though the scot wagon had been frightened. One by one the colonel's beautiful companions are tossed mysteriously from the automobile, the last one leaving just before the explosion, which wrecks the machine and leaves the strenuous one sitting on a great pile of hay with thousands cheer-

REVOLUTION IN NICARAGUA IS SUCCESSFUL

Madriz Forces Are Crushed and General Juan Estrada Becomes Director of the Destinies of the Republic—This Very Good News to Washington.

Advance Guard of the Insurrectionists Arrives in the Outskirts of the Capital City and Will Take Formal Possession Today—Out-Going President Flees.

Managua, Nicaragua, Aug. 22.—The advance guard of the revolutionists is now one mile from Managua. President Madriz left the capital Sunday night for Corinto, accompanied by his chief advisers. William Pittman, the Boston engineer accused of laying mines, is free agent at the American consulate. Before his departure, for Corinto with Generals Toledo, Vasquez, Ortiz and Montenegro and Dr. Julian Irujo, the presidency was turned over by Madriz to Jose Dolores Estrada, brother of General Juan Estrada, leader of the revolution. Immediately afterwards Jose Estrada issued a proclamation saying that he would give the office to his brother, and started a peace commission for Granada to inform General Estrada of his intention. The commission, which was composed of the foreign consuls, was compelled to return to Managua, however, as the railroad tracks were torn up.

American Authorities Pleased.

Washington, Aug. 22.—While official dispatches are lacking, there is scarcely any doubt in Washington tonight that the Madriz forces have been crushed in Nicaragua and General Estrada, leader of the insurgents, has succeeded in taking as temporary acting president at Managua. The state department officials declined to discuss the developments in Nicaragua, but it is well known that they are pleased at the reported downfall of the Madriz power, and they look with favor on Estrada, whose treatment of Americans and the protection afforded American interests along the eastern coast, where he has been recognized as the head of a responsible government, has been the subject of repeated praise. The department, it is expected, will favorize Estrada only after satisfactory assurances of an early election which shall be fair and open to all candidates.

U. S. INFANTRY LEADS IN THE NATIONAL SHOOT.

Camp Perry, Aug. 22.—The United States infantry rifle team, which took the lead this morning in the first (200-yard) stage of the national match, increased its three points this afternoon on the 600-yard target. It was scored 1,095. The first ten teams tonight stand as follows:

Table with columns for Team, Points, and Total.

SPOKANE BANK THE FIRST TO ISSUE GERMPROOF MONEY.

Washington, Aug. 22.—To the Old National bank of Spokane, Wash., belongs the distinction of circulating the first antiseptic, germproof national bank notes. The United States treasury is still experimenting with devices intended to launder dirty bank notes into bright crisp ones, but the Spokane bank has the first sanitary money on record. Fifty thousand one-dollar bills have been put out by the bank signed with ink which consisted largely of carbolic acid. The result is that the bills were saturated with an agency which means death to the most vigorous germ.

NATIONAL REPUBLICAN LEAGUE WILL MEET AT NEW YORK.

Washington, Aug. 22.—The biennial convention of the National Republican League will be held at Carnegie Hall, New York, Sept. 30 and Oct. 1, according to an announcement made here today by John Hays Hammond, president of the league. Addresses will be made by W. B. McKinley, chairman of the congressional committee; Representative Longworth, and others. The convention will close with a dinner at which President Taft and Vice President Sherman will speak.

AUTOMOBILES FOR WAR SERVICES; GEN. GRANT'S RECOMMENDATION.

Washington, Aug. 22.—In order to have available a large number of automobiles and motor trucks in case of war, General Frederick D. Grant, in the annual report of the Department of the Lakes, submitted to the war department today, recommends the enactment of laws that would oblige private owners to turn over to the government, on demand, their automobiles at the first cost of the machine.

ARRESTS EXCITE AMERICANS ON THE ISLE OF PINES.

Havana, Aug. 22.—United States Minister Jackson yesterday succeeded in quieting the Americans on the Isle of Pines who had assembled to rescue seven Americans arrested on what they termed trumped-up charges against them. He promised to take up the matter with the Cuban government.

MARQUETTE, MICH., AUG. 23.

When as mail matter of the second
 class in the postoffice at Marquette, Mich.

This falling from an aeroplane is a
 most untidy sort of death.

Flint, Mich., also ought to be able to
 show some dadas in the population line.

The Democrats appear to have settled
 it, and Lawton T. Hemans will be the
 man.

The Ananias club is receiving numer-
 ous, though unnamed, recruits each week
 lately.

The man who decries the progressives
 decries President Taft himself. He is
 happy to take a place among them, in
 the front rank.

The New York Globe believes that the
 "conservatives" went to capture the
 president, and the "radicals" the ex-pres-
 ident; and there you are.

The secretary of state's department is
 now working three shifts trying to find
 out whether all the primary petitions are
 shipshape, and it is groaning over the
 job.

If the board of league managers can
 dispose of that disputed Negaunee-Ish-
 peming game to the satisfaction of both
 parties to the disagreement it will prove
 to be a most wonderful board, indeed.

The entire west is going to turn in to
 give Colonel Roosevelt a rousing time.
 It will be no political demonstration;
 only the west's testimonial to its con-
 tinued esteem for Roosevelt, the man.

Negaunee has still five league games
 to play with Marquette. If the Mar-
 quette team continues to travel at the
 clip it was going over the end of last
 week Negaunee may learn when a pen-
 nant cinch isn't a pennant cinch.

Oyster Bay has sent no ultimatum to
 Beverly. The stock of ultimatums at
 Oyster Bay is stored away in a back
 closet with the Big Stick, to be called on,
 if at all, only when the situation gets
 much thicker than it is now.

"The Detroit speech," remarks the
 Grand Marais Herald, "has nearly scut-
 tled the Burrows ship, and in attempt-
 ing to patch the hole the Burrows man-
 agers have made a sorry job of it.
 Townsend stock is going up by leaps and
 bounds."

Among the true elite in the present
 campaign is Senator Moriarty of Crystal
 Falls. He doesn't have to lift a finger
 for himself, because he is the only man
 in the field. He can sit back and watch
 the other chaps hustle, while the sun
 burns their necks.

The spectacle of Mr. Murphy and Mr.
 Hearst pooling forces for the fall cam-
 paign would be startling were it not that
 the public is prepared for it by the num-
 erous strange political capers that the
 owner of the several Americans and Ex-
 aminers has cut in the past.

If Candidate Kelley wins September 6
 he will have to his north and placate the
 upper peninsula for his raising of the sec-
 tional issue. When the cruel primary
 war is over the candidate, whoever he is,
 doubtless will find that he needs the up-
 per peninsula votes.

Detroit has shown in the past decade
 a larger ratio of increase than any other
 first class city in the United States and
 has far distanced those other cities that
 ten years ago were quarreling with her
 about supremacy. Great is the automo-
 bile!

There's a plain provision in the pri-
 mary law against candidates' settin' 'em
 up for the crowd. Many candidates in
 many directions have forgotten it. They
 can well bear it in mind. The law pro-
 vides a penalty for violations. It would
 be decidedly embarrassing for a candi-
 date to be haled into court a day or two
 before the votes were to be polled.

Besides having all the money he needs
 for his expensive defense, "Bible Stud-
 ent" Browne, Democratic leader in the
 Illinois assembly, also commands plenty
 of funds for use in his impudent cam-
 paign to get himself re-elected. "Bible
 Student" Browne has tapped a rich
 source of sinews of war somewhere.
 When it is uncovered, if it ever is, the
 spring from which most of the waters
 of political corruption in Illinois have
 flowed will be laid open to the people's
 gaze.

Representative Burns, of Munising, and
 A. McEachern, of Gould City, Mackinac
 county, are making a spirited campaign

Emblagaard Dairy

Pure Dairy Products
 from Holstein Cows.

GEO. GILLETTE,
 Distributor.

Vol. 1910-11

for the Republican nomination in the
 legislative district composed of Alger,
 Luce, Mackinac and Schoolcraft counties,
 the district that has set the unusual pre-
 cedent of turning the incumbent out after
 one term. Mr. McEachern was a former
 member of the legislature, and in his
 first term succeeded to the precedent. Mr.
 Burns was nominated two years ago after
 a spirited convention fight, and was a
 serviceable member during the last ses-
 sion. Neither candidate lacks for
 friends and newspaper support, and the
 prospect favors the polling of a good
 vote on the office in the primaries.

The current issue of the Saturday
 Evening Post has an article on the
 Michigan senatorial situation under the
 heading "Michigan Awake." It says,
 in part: "Michigan is one of the states
 in which a senator will be chosen by the
 people this year. Whether Burrows is
 returned will be decided at the Republi-
 can primaries in September. Michigan is
 a good state, too, but politically it is
 asleep or sleeping? Can it be taken in
 by a reactionary party machine, a set of
 whisks and a line of twaddle? This
 question assumes national importance in
 view of the circumstance that Burrows,
 if re-elected, will succeed Aldrich as
 chairman of the finance committee. Strangely
 enough, this is urged as a reason
 why Michigan people should vote for
 Burrows—as though to afflict the nation
 by putting a pinchbeck Aldrich in the
 most powerful position in the senate
 would somehow reflect glory on the
 state! We seem to hear cries of dissent
 and dismay from the other forty-five
 states whose legislation the finance com-
 mittee will shape."

It is said that President Taft will
 send a letter to Representative McKin-
 ley, chairman of the Republican con-
 gressional campaign committee, stating
 that while he does not believe in the in-
 surgency which seeks to destroy the
 present administration he regards favor-
 ably the quality of insurgency which
 seeks to hurry on progressive legisla-
 tion. It is said that "while the document
 will attempt to bring out what has been ac-
 complished by a Republican congress un-
 der the leadership of a Republican presi-
 dent, it will also contain promises of
 more progressive legislation to come if
 the party is continued in power in the
 house next year. It will promise a re-
 newed fight to prevent delays in the courts
 and the administration of justice, delays
 which Mr. Taft believes harm only the
 poor man and accrue to the unjust ben-
 efit of the rich. It will be particularly
 strong on the point that there will be
 more perfect and far-reaching conserva-
 tion legislation, and it will renew the
 promise of a federal incorporation act.
 The letter will be couched in terms which
 will do more than anything ever said
 or written by Mr. Taft to show that he
 intends to have his policies tinged with
 all that is sanely progressive in the agi-
 tation in the far and middle west."

Representative Townsend's Marquette
 meeting was gratifying both to
 himself and his friends and the
 impression he left with his audi-
 tors was a most happy one. He is a
 vigorous orator, with vigorous ideas on
 the important issues before the American
 people this fall. There is no note of
 hesitancy in his remarks, no difficulty
 about understanding just where he
 stands, and no disposition to try and
 straddle any of the vital questions that
 he discusses. The evident approval given
 in the sentiments he expressed indi-
 cates that he has a large and substan-
 tial support in this city and bears out
 the impression that has been given by
 the marked success of his earlier meet-
 ings at the Soo, Escanaba and Menom-
 ieux, and smaller places he has visited,
 that the upper peninsula is debatable
 territory, with Townsend's chance of
 leaving it with a majority fully as good
 as Burrows'. There has been a distinct
 veering of opinion toward Townsend the
 past week or more, with every prospect
 that it will continue up to the primaries.
 The copper country possesses a large
 quota of ardent Townsend workers, and
 will be well organized on primary day in
 his behalf. From all parts of the dis-
 trict reports are received of effective and
 aggressive work being carried on
 with the purpose of crystallizing the
 growing Townsend sentiment into the
 effective form of votes.

To keep your health sound; to avoid
 the ills of advancing years; to conserve
 your physical forces for a long and
 healthy old age, guard your kidneys
 by taking Foley's Kidney Remedy. The
 People's Drug Store.

The congressional committee investi-
 gating the Indian contract cases has is-
 sued a statement that Vice President
 Sherman and Senator Curtis were both
 wronged by the introduction of their
 names in the course of the inquiry into
 those of men interested in the allow-
 ance of the excessive McMurray claims.
 No scintilla of evidence has been forth-
 coming to in any way identify either
 man with McMurray. Senator Gore says
 that it was not his intention in using
 their names to impute possible
 or probable guilt, and that he
 introduced them only as
 part of a conversation which he had
 sworn to detail truthfully and fully. He
 himself indicates that he believes that
 neither man is properly liable to suspi-
 cion of having any financial interest in
 the success of McMurray's claims. At no
 time after the true nature of the testi-
 mony given by Senator Gore clearly ap-
 peared has there been any disposition
 to attach serious significance to the in-
 troduction of Sherman's and Curtis' names.
 The reference to them was not
 more than hearsay gossip, and for all
 the difference that it would have made
 the names of hundreds of other men prom-
 inent in Washington might as well have
 been mentioned by Gore's informant.
 The incident will now be regarded as
 finally closed.

Senator La Follette is denied by his
 physicians permission to participate in
 what has been said to be "the fight of
 his life." The senator is a seriously
 sick man, and his medical advisers have
 told him that if he insisted on taking
 an active part in the campaign they
 would not be responsible for the conse-
 quences. He will, therefore, refrain from
 any appearance on the stump, and his
 interests will have to be looked after
 entirely by volunteers. There are no
 lack of these. Senator La Follette has
 broken with many of his supporters of
 other years, some of the strongest of
 whom are now actively aligned against
 him, but in their place have arisen new
 lieutenants and aides to take up the
 work they have laid down. There will
 be no lack of speaking in behalf of La
 Follette. The invaders, who, to date,
 have included Judge Lindsey, of Denver,
 and Senator Bristow, of Kansas, will be
 backed up by many lesser lights of Wis-
 consin residence, and the fight will go
 merrily on, despite the inability of the
 man chiefly concerned in it to lead. No-
 where in the union is an issue more un-
 mistakably drawn between radical in-
 surgency and the administration than in
 Wisconsin. So clearcut is it, and so
 bitterly has Senator La Follette attacked
 President Taft, that it is hard to see
 how La Follette's endorsement could be
 otherwise construed than as a vote of
 lack of confidence in the Taft adminis-
 tration. Realizing this, the Taft Republi-
 cans are making a strenuous effort to
 carry the state, and they are not lack-
 ing for money.

FARMERS AND AUTOS.
 According to a writer in The Orange
 Judd Farmer, a careful investigation of
 the sales of automobiles in this country
 for the first seven months of the present
 year reveals the fact that something
 like 55 per cent of the total, or more
 than one-half, were purchased by farm-
 ers, the prices ranging from \$1,000 to
 \$3,000. This tendency of the farmers to
 invest in autos is more pronounced in
 the East, it being estimated that in
 New York, for instance, from 60 to 75
 per cent of the machines sold have gone
 to people who ride in the country. Even
 in the West, however, thousands of
 farms now possess an auto or two as a
 complement to their regular equipment,
 and the owners find genuine enjoyment
 as well as practical convenience, in the
 use of these machines. One firm, only
 recently, received a rush order for 165
 autos to be distributed almost exclusiv-
 e to farmers in Kansas and neighboring
 states.

That the auto is doing its part to
 ameliorate many of the more burden-
 some conditions of farm life there can be
 question, and to a considerable degree
 it is affording farmers and their fam-
 ilies opportunity to enjoy many of the
 pleasures heretofore afforded to city
 dwellers alone. Amusements and other
 public attractions which necessarily cen-
 ter in the towns and cities are easily
 reached by means of the auto while it
 naturally promotes and encourages so-
 cial exchanges between the farmers
 themselves. Furthermore, the shrewd
 farmer does not overlook the feature of
 the practicality of the auto as a quick
 and ready means of transport for much
 of his lighter produce, and in the mere
 saving of time he finds an advantage
 that appeals to his sense of economy.
 There is nothing strange, therefore, in
 the spectacle of the farmers investing so
 freely in automobiles, and for them
 such investment seems even more wise
 and natural than for many city dwellers
 whose use of autos is confined either to
 pleasure riding.

One of the distinct advantages of hav-
 ing the farmers well supplied with autos,
 moreover, is the fact that nothing more
 quickly converts a man into an earnest
 advocate of good roads. The auto owner
 soon discovers that well kept roads mean
 lessened expense and increased conveni-
 ence, and he therefore wants his own and
 all other roads in his neighborhood im-
 proved and converted into permanently
 "good roads." Eventually, therefore, the
 effect of farmers owning and operating
 automobiles will be a general improve-
 ment of the country highways.

THE STATE PRESS.
 Some men aware on slight provocation
 and pray as a last resort.—Kalamazoo
 Telegraph.

It might be advisable to get the opin-
 ion of the attorney general as to what
 or not the primary law is violated by
 the sale of copies of the song "Has
 Anyone Here Seen Kelley?"—Flint
 Journal.

We have become so accustomed to the
 cost of living that when something we
 like looks fairly cheap in the local pro-
 ducer market quotations we conclude it
 must be a misprint.—Pontiac Press &
 Gazette.

The Gore investigation will at least
 be a reminder that the Indians have been
 playing a "head" you win, tail's was
 game with Uncle Sam for a century of
 dishonor.—Jackson Citizen Press.

It seems that the only thing for Sena-
 tor Gore to do is to apologize for pre-
 venting the deal from going through.—
 Detroit News.

Lawton Hemans is not particularly
 fond of running for governor on an
 "off year" but he should remember that
 so far as the Democrats in this state are
 concerned there have seldom been any
 other kind of years.—Grand Rapids
 Press.

When a minister of the gospel is so
 poorly paid that he is obliged to
 shovel coal to make both ends meet,
 and is forced to call upon the county to
 bury his son, as is the case at Grand Rapids,
 it is easy to understand why a few men
 enter the ministry.—Jackson Citizen Press.

A LAUGH OR TWO.
 Try to Come Back.

Not long ago Lord Kinnaird, who is
 always actively interested in religious
 work, paid a surprise visit to a mission
 school in the east end of London and told
 a class of boys the story of Sampson.
 Including his narrative, his lordship
 added:

"He was strong, became weak, and then
 regained his strength, enabling him to
 destroy his enemies. Now, boys, if I
 had an enemy, what would you advise
 me to do?"

A little boy, after meditating on the
 secret of that giant's strength shot up
 his hand and exclaimed: "Get a bot-
 tle of hair restorer."

Speaking With Authority.
 One of the briefest and no doubt one
 of the most sincere addresses ever deliv-
 ered on the subject of capital punish-
 ment was made in Worcester, county,
 Mass., more than two generations ago.

A notorious character by the name of
 Charley James, standing on the gallows
 with the noose properly adjusted, was
 asked before the cap was drawn over his
 face if he would like to say a few
 words.

"Ladies and gentlemen—beg pardon,
 gentlemen," he said. "Standing where
 I am, I am unalterably opposed to capi-

WHAT BURROWS SAID TO ALDRICH
 In the interest of decent journalism,
 Saturday Night herewith offers its testi-
 mony in support of the evidence of the
 Detroit News of Aug. 16 in answer to
 the astonishing attempt of the Burrows
 press bureau to explain away the famous
 Burrows speech of Nov. 16, 1909, before
 the board of commerce of Detroit. It
 was in that speech that Mr. Burrows ac-
 knowledged his subservency to Aldrich
 and his indebtedness to the Rhode Island
 senator for the protection bribe Mr. Bur-
 rows accepted in return for Michigan's
 part in the Payne-Aldrich tariff conspi-
 racy. The writer of this editorial was
 present when Mr. Burrows made his
 statement. The News report was essen-
 tially correct. Following is Saturday
 Night's comment on the incident as
 printed in our edition of Nov. 20, 1909:

Burrows as Fat Fryer.
 "The appearance of Senator Burrows at
 the Board of Commerce luncheon Tues-
 day, as the humble hewer of wood and
 drawer of water for Senator Aldrich,
 was not a fortunate thing for the Bur-
 rows candidacy. In spite of his ability
 and his power Senator Aldrich is not the
 idol of the business men of this vicin-
 ity. The persistence with which Burrows,
 under the tutelage of "the most poten-
 tial factor" in legislation in the
 United States has ignored the demands
 of this same board of commerce and the
 Wholesalers & Manufacturers' associa-
 tion of this town for wider markets and
 less restrictions on Canadian trade is
 well understood.

"The demands have been answered
 by the provocation of a possible tariff
 war with the Dominion, and the imposi-
 tion of a pestiferous tonnage tax on
 Canadian vessels, a tax that might quite
 as sensibly apply to freight cars. It has
 already become the subject of Canadian
 retaliation. So the business flat-tery
 with which Mr. Burrows covered the gen-
 tleman from Rhode Island gave a hu-
 miliating meaning to the brazen declara-
 tion of the Michigan senator, to-wit:

"Whenever I have wanted anything for
 Michigan I always knew where to go to
 get it. And he (Aldrich) never failed me."

"And he (Burrows) never failed Ald-
 rich. Everybody in Michigan under-
 stands that. Just as everybody in Michi-
 gan understands the price of Mr. Bur-
 rows' co-operation. That price is the
 tariff protection of Michigan's industries,
 not to cover the difference in the cost of
 production at home and abroad, but the
 protection he could get by conspiring
 with the eastern fat-fryers. He re-
 ceives most in what he did for the linen
 industry and the iron industry. He
 helps to build up a new linen industry,
 to help the humble miner in northern
 Michigan he secured a duty of fifteen
 cents a ton on ore, which he admits is
 ample, though he fought furiously in
 conference for a twenty-five-cent rate
 when he found he could not keep the
 old rate of forty cents. As we said
 above, Senator Burrows holds a very
 definite position in Michigan."

If any additional evidence were need-
 ed to show that Mr. Burrows' statement
 was correctly quoted both in the News
 and Saturday Night it is the quick
 applause with which the members of the
 board recognized the humor of the situa-
 tion at their Harmonie Hall dinner in
 March (four months later), when Mr.
 Burrows was represented by the bur-
 lesques as telephoning to Mr. Aldrich
 at Washington to find out what he
 should eat.—Detroit Saturday Night.

Keir Hardie's Wit.
 "London is a dull old place," said a
 Chicago woman. "The only fun I had
 in London was listening to the speakers
 —tub-thumpers, they call them—in
 Hyde Park."
 "I heard Keir Hardie, the socialist,
 M. P., speak for the suffragettes one
 rainy Sunday in the park. Keir Hardie
 is a fine speaker, but his appearance is
 a little rough."
 "Standing bareheaded in the rain,
 with his red tie, flannel collar and blue
 pea-jacket, Keir Hardie looked about his
 rough and ready look."
 "He said that, the first day he served
 in the house of commons, he had occa-
 sion to go to the library, and while he
 was there a policeman approached and
 said in a friendly tone:
 "Are ye workin' here, mate?"
 "Yes," answered the new member.
 "On the roof," said the policeman—the
 roof was at that time being re-
 paired.
 "No, not on the roof," Mr. Hardie
 replied. "On the floor!"
 John D. and His Caddie.

first birthday last month, told a Cleve-
 land reporter a golf story.
 "Golfing in Augusta one bright winter
 day," he said, "I had for caddie a boy
 who didn't know me.
 "An unfortunate stroke landed me in a
 clump of high grass.
 "My, my," I said, "what am I to
 do now?"
 "See that tree there?" said the boy,
 pointing to a tall tree a mile away.
 "Well, drive straight for that."
 "I lofted vigorously and fortunately,
 my ball soared up into the air, it landed,
 and it rolled right on to the putting
 green.
 "How's that, my boy?" I cried tri-
 umphantly.
 "Gee, boss," he said, "if I had your
 strength and you had my brains, what a
 pair for a foursome we'd make!"

Copper Country

TREES BLOWN DOWN BY NEAR-TORNADO

Copperdom Visited by a Severe Wind Storm of Short Duration.

A sudden drop in the barometer and an increase in the velocity of the wind yesterday morning at 6 o'clock created a condition for a few minutes which was dangerously akin to a tornado. Observer Cowdick of the weather bureau station says that he does not want to be as close to a tornado again.

The normal barometer at Houghton is thirty inches and it dropped at 6 o'clock yesterday morning, suddenly to 29.58, almost half an inch, a most unusual variation for this latitude. This created a condition which made for a high wind and it came. Trees were blown down, windows were broken and clouds of dust filled the air.

Early risers describe the weather conditions as threatening.

The conditions were ideal for a tornado as can be seen by the fact that the wind velocity at Duluth was ten miles at Marquette eighteen and at Escanaba four while in Houghton it reached a speed of thirty-nine miles an hour. This shows that the wind was confined to a small area, a typical tornado condition.

The temperature figures around Saturday and Sunday were also somewhat unusual. For instance, the obscuring of the sun yesterday morning and the obscuring of the moon Sunday night were due to the humidity, which was 90 per cent, showing that the air was almost saturated with water, approximating a dense fog.

The temperature was almost continuous throughout Sunday and Sunday night because at 7 o'clock yesterday morning the Houghton temperature was 76, only 2 degrees cooler than at Tampa, Fla.

The temperature was the same as at Knoxville, Tenn., and was 16 degrees warmer than at Louisville, Ky.

DEATH OF SALLY M. LEVY.
Wealthy Milwaukee Manufacturer Dies on His Farm Summer Home.

Sally M. Levy, president of the National Knitting Works of Milwaukee, one of the wealthiest businesswomen of that city, died yesterday morning at his farm south of Houghton, where he has been ill for the past month. The remains will be taken to Milwaukee for burial, leaving yesterday afternoon.

Mr. Levy formerly resided at Marquette and about twenty-five years ago left that city for Milwaukee, where he opened a knitting works. He continued in that business and prospered. He was married in early life to a sister of Otto N. Oehnhoff of Houghton and the farm where he died is the old Oehnhoff farm, the early home of that family.

Mr. Levy is survived by his wife, two daughters and a son, the latter Sam Levy, who has been operating the farm for some years. A brother in Duluth also survives.

BEAUTIFUL HOUGHTON STREET.
Huron Naturally One of the Most Attractive Thoroughfares.

"The hills are greenest that are farthest away."

This quotation—it is too bad credit may not be given for it—is brought to mind by the fact that Houghton people are usually oblivious to the beauty which is at their own doors. Hark back to a little volume entitled "The Natural History of Shelburne," which describes the flora and fauna found in and around a little English village, living things which the populace passes by every day unnoticing. So it is with Huron street, in Houghton.

John T. McNamara and a reporter for this newspaper happened to stand at the foot of Huron street yesterday morning. They noticed that in the two blocks between Sheldon and Albion streets the big maple and poplar trees meet overhead, forming a green arch which is nothing less than a delightful picture. Beyond this to the south is the rugged massive bluff which forms a background to the picture.

The village public works department is now improving the surface of the street with curb and gutter, a promise of future pavement. The new Houghton public library with beautiful grounds and other details combine to make this a street to which the attention of visitors should be called with some pride. But it is simply taken for granted and passed idly by.

FIRES AT SOUTH RANGE.
The unfinished residence of John Milt at South Range burned down yesterday morning, with a loss of about \$2,000. Mr. Milt would have occupied the building within a short time. The cause of the fire is unknown. About the same time an old building on the outskirts of the town of South Range burned down. It had formerly been conducted as a vicious resort but was recently closed by the authorities. No cause for the fire is known.

WILL HELP PROMOTE WHEAT GROWING

Michigan Milling Association to Send Two Experts to the Copper Country.

Houghton county has possibilities as a wheat growing center, though these possibilities have not been recognized nor taken advantage of by the agriculturists of the region. This is the opinion of the Michigan State Milling association as expressed in a letter to John T. McNamara, secretary of the Houghton County Agricultural society and of the Copper Country Fair. The milling association is desirous that the wheat growing possibilities of this county, and in fact the four counties in the agricultural society's territory, be exploited on a larger scale and to this end has asked the latter society for permission to co-operate.

The milling association asks permission to send to this territory in advance of the Copper Country Fair two wheat experts who will look over the ground, advise with the farmers on wheat growing methods, assist in judging wheat at the Copper Country Fair and in general promote interest in wheat raising. Secretary McNamara is to put the matter up to the fair committee and believes the milling association's offer will be taken up. It will involve no expense to the fair and Secretary McNamara believes it will be a great benefit to the farmers.

The wheat which is sold for chicken feed or is used for that purpose on the farms, if a farmer can raise a carload of wheat he can find a market for it but in lesser quantity it is of little value. The mill at Sals, the only flouring mill in the copper country, cannot purchase all the wheat grown in the territory even in the present condition of restricted production. All the mill can do is to grind such wheat as the farmers bring to it, for a fee of either cash or flour. It cannot purchase the wheat for its own use, not a particularly profitable matter for the farmer.

The Michigan State Milling association would provide an outlet for copper country wheat if it is grown in sufficient volume to make the effort worth while. The experts who will be sent here will interest the farmers in the matter, instruct them in the possibilities of wheat production and generally stir up a matter which is receiving all too little attention.

PRYOR IN THE FINAL.
Will Play "Tal" Goodell for Portage Lake Golf Championship.

The two greatest surprises of the season at the Portage Lake Golf club are Deen L. Robinson and W. R. Thompson, the latter showing some remarkably good playing during his recent matches in the contest for the Ben B. Bryan trophy, which is emblematic of the club championship. Messrs. Pryor and Thompson have been playing disconcerting themselves on various occasions of late. Mr. Thompson recently worked his way into the semi-finals of the Bryan trophy race by beating Sam Byrne, the match, like all of those of the Bryan trophy play, being a scratch affair.

By beating Mr. Byrne, Mr. Thompson became the opponent of John Pryor, acknowledged to be one of the best golfers at the links, for the determining of which of the two should play "Tal" Goodell for the trophy and the club championship. Messrs. Pryor and Thompson met Sunday and Pryor won the match, although he was tied at the finish of the eighteen-hole play and forced to play two extra holes, the final score being one up. In the handicapping of the players under the rules of the "Woods" Golf association, Mr. Thompson has been given a handicap of twelve strokes, while the handicap of Mr. Pryor is only eight strokes.

The result of the match of Sunday between Messrs. Thompson and Pryor leaves only the winner of that match and the loser of the race and these two are expected to play their match some afternoon soon. Mr. Goodell leaving from Duluth when he was needed. Unusual interest attaches to this match for several reasons. One of these is that each of the contestants has already won the trophy two different seasons and the winner this time will be accorded permanent possession of the cup and will be acclaimed club champion.

SHOWS AGRICULTURE PROGRESS.
Liminga Farmers Receive a Steam Traction Thresher Engine.

John and William Pirikka and Charles Lahnala, three farmers of the Liminga district, between Houghton and Redridge, have received a J. L. Case traction engine which will be used in operating a threshing machine which they own. The men have been in the threshing business for some years, using a secondhand separator and engine, and about three weeks ago they received a new separator and a threshing machine. The engine just received completes the equipment.

John Pirikka said yesterday that with this plant they can thresh 1,200 bushels of grain per day and that the farmers of the district keep them employed constantly for three weeks harvesting their grain crop. There is another similar outfit owned in the district, which would indicate that agriculture is on a boom in Houghton county. The owners of the outfit just described say that the grain crop is not a failure this year and they expect a big business with their plant.

HANCOCK PIONEER PASSES.
Michael Murphy, one of Hancock's pioneer residents, died at his home yesterday morning at 5:30 o'clock after an illness extending over the past six

Wise Men and Women Know

that most of the sicknesses of life come from inactive bowels and from unhealthy condition of the organs of digestion. If your digestive system is not working right, your food does not nourish you—poor blood and weakness follow; if your bowels are inactive—waste matter poisons the whole system and serious sickness is sure to follow. To take promptly

BEECHAM'S PILLS

is to save yourself trouble and expense. Gentle, but quick; safe, but thorough, they enable the bowels to carry away waste matter naturally and tone up the whole digestive system. They will not injure the most delicate. They help you to get your bowels and your digestive organs in that condition when they can take good care of themselves and of you. Beecham's Pills

Do Good Naturally

For females, Beecham's Pills are specially suitable. See instructions with each box. Sold Everywhere in boxes, 10c, and 25c.

The deceased was eighty-five years of age and had made his home in Hancock and vicinity for more than forty years. No funeral arrangements have yet been made. There remain five children to mourn him, three daughters and two sons. They are Mrs. Louis Brisson, Mrs. Samuel Hodges, Miss Anne and Stephen and Daniel P. all of Hancock.

Ishpeming

OSBORN MEETING TONIGHT.
A political meeting will be held in Ishpeming tonight, though up to last evening no definite arrangements had been made as to where the meeting will be held. The weather is favorable for the meeting and it will take place in the city square if not in the Ishpeming theater. A son of Chase S. Osborn, the upper peninsula candidate for the nomination for governor, arrived in the city last night on the midnight train and he will complete all arrangements for the meeting this morning. W. H. Oates, Judge Bentley and other good speakers will be heard.

BIG CELEBRATION PLANNED.
Reunion of the Italian Societies of Michigan in Hancock.

A reunion of the Italian societies of Michigan will be held at Hancock Friday, Saturday and Sunday of this week. It is expected that ten thousand visitors will attend. There will be a big lantern parade Friday night at which it is expected that Hon. Charles E. Townsend and Hon. H. O. Young will be the speakers.

There will be a monster parade and field day Saturday and Saturday night. Albert Mandino, an Italian wrestler of New Philadelphia, O., will wrestle Chris Person at the Kerredge theater. Five bands have been engaged for the Saturday parade.

THREE FUNERALS.
The funeral of Daniel Douglass, who was killed in an automobile accident Wednesday night at Phoenix, was held at the home of his mother in East Houghton Sunday afternoon. Rev. John E. Curtzon of Trinity church conducted the service. Interment at Forest Hill.

The funeral of Mrs. Lizze Tisdale, a copper country pioneer, will be held at the home of her son, who died at her home in East Houghton Friday, was held in Detroit yesterday.

The funeral of John Gasparevich, a member of the Red Jacket council, one of the leading Austrians of the country, was held from the Catholic church, Calumet, Sunday afternoon. Six societies appeared in the funeral cortege. Interment at Lakewood cemetery.

SUMMER RESORT TOWNSHIP.
A company of Calumet people have laid out on the south bank of Portage lake, near the canal, a summer resort township to be known as Craig Roy. O'Connell & Co., the contractors, yesterday began work on grading the streets and excavating for sewer and water works. The water supply is to come from a series of dammed springs which will furnish pure water in unlimited quantity. Craig Roy is in a beautiful location and undoubtedly within a few years will be a village of summer homes of wealthy copper country people.

A BERNHARDT TRICK.
Mme. Sarah Bernhardt, who is supposed to be something of an artist as well as an actress, was recently called upon in one of the marvelous creations to enact the role of a sculptor, and to model a certain bust in view of the artist. This fairly electrified the critics, but when going into rehearsal over the technical skill in handling the clay which Mme. Bernhardt exhibited they showed that they knew little of the artistic tricks of actors and actresses; as a matter of fact, she does nothing of the kind. The artist is molested and balked, and over it is played damp clay of the same color. This the talented actress merely pulls off, leaving the beautifully modelled head unharmed.

PARROT.
As the Parrot Silver & Mining company stockholders have voted to sell their property to the Anacosta for 90 cents per share of stock of that company, which is the only asset which the Parrot company now holds in its treasury, the stockholders have been wondering just what they are to receive individually through the above sale of their property. At an early date there will be a stockholders' meeting called for the Parrot company to see if they will vote to dissolve and distribute the Anacosta stock to the stockholders, thus winding up the company. Until this meeting has been held and an affirmative vote passed, the stock cannot be distributed by the Parrot company. When this action is decided upon, stockholders will be notified to present their stock to obtain the proceeds of the distribution. The present Parrot stockholders will receive their pro rata proportion of any dividends that may be declared on the 90,000 shares of Anacosta stock now in the Parrot treasury.

AMSTER PROPERTIES.
N. L. Amster, president of the Arizona Commercial, Shannon and Boston & Corbin companies, says: "For the first time in many months the Arizona Commercial is giving us encouragement, and having located the ore 240 feet below the seventh level, I feel confident of the future of the property. We are making good headway in sinking the shaft as we are very anxious to open up the ore on the lower levels. I think the ore on the ninth and lower levels will be found to be of good quality and quantity. The Boston & Corbin has reached the 900-foot level with its shaft and that level will soon be opened, and if it proves anything like the third, fifth and seventh levels the company will have a large tonnage of ore in sight."

UTAH COPPER.
A Salt Lake correspondent reports the following interesting data concerning the current operations of the Utah Copper company: "For the first sixteen days of August Utah Copper mined and shipped 4,226 cwt. of ore, or at the rate of 252 cwt. per day. These cars hold an average of fifty-two tons each which would make the daily output 13,401 tons. Prior to August the output was 16,000 tons daily from the Utah and Boston consolidated properties. While the output is being curtailed the mine forces remain the same. The management proposes to take advantage of the enforced reduction in output by stripping a vast

Swanson of this city a position as nurse at the institution.

Ed Wehler has purchased M. J. Griffin's residence properties on West Ridge street and will improve both of them. Mr. Wehler will occupy the dwelling on the front of the lot and the one at the rear will be rented.

J. S. Olson, of the A. W. Myers Mercantile company, left Sunday night for Muskegon Center, Wis., where he will spend a week with relatives. Mrs. Olson has been there for more than a week past.

Louis Erickson & Son have taken the contract to remodel the first floor of the Quayle block, where D. E. Rice is to establish a moving picture theater. Men began the work yesterday.

Joseph Shimmion, who was shot from ambush at Humboldt one morning last week, and has since been confined to the Ishpeming hospital, is getting along very nicely. It was reported yesterday that he would recover unless some unexpected complications set in.

Births recorded in the city yesterday were a daughter to Mr. and Mrs. George Green, 630 Vine street; a daughter to Victor Vertucci and wife, 615 Angeline street, and a daughter to Mr. and Mrs. Matti Polo, 220 Second street.

M. Hubner & Co., the milliners, in the Anderson block, will soon move to the Nolan building on Cleveland avenue. The store in the Anderson block will be occupied by the Grinnell Bros. piano company, which has had its salesroom in the rear of the Anderson jewelry store for some time past.

Rev. Edward Schuck of Chicago, who is spending his vacation with relatives in Negaunee, preached at the Swedish Lutheran church here Sunday evening. Mr. Schuck had charge of the Ishpeming church on several occasions during his absence of the regular pastors.

Richard Matthews and wife will leave his morning for Houghton and tomorrow they will attend the reunion picnic of former Rockland settlers. A special train will leave Houghton in the morning for Ontonagon country, returning in the evening. Mr. and Mrs. Matthews lived at Rockland more than thirty years ago.

Mining News
CHINO AND RAY.
D. C. Jacking has returned to Salt Lake from an inspection of the Chino and Ray Consolidated properties. Concerning Chino, he says: "This is one of the most unique propositions in the world. During July they have produced 4,000,000 tons of additional ore reserves of an average grade of 2.85 per cent copper. This is in the heart portion of the property, which was unprospected control. To date Chino has demonstrated over 25,000,000 tons of 2.85 per cent copper ore. This does not include the higher grade material which runs 5 per cent and over. Chino has one of the highest ore bodies of its kind ever known. In the heart estate portion 900,000 tons of ore has been developed and it may prove to be one of the largest open producers in this country. The rating for mill has been completed and more steam shovels have been ordered. The overburden is very thin and it now appears that almost all of the ore can be extracted by steam shovels. It will be at least several years before any other method will be employed."

"At Ray Consolidated No. 2 shaft has been started one mile west of No. 1. These shafts will be connected by underground workings. The project is now being developed on a mile underground each month. By Sept. 10 the steel structural work on the main building of the concentrating plant will be completed."

"At the Utah Copper property a slight curtailment has resulted from the closing of the Copperton mill. Later on the increased capacity at the Garfield plant will take care of a very much larger tonnage."

ISHPEMING IN BRIEF.
Mr. and Mrs. Victor H. Grau of Duluth were visitors in the city yesterday.

J. S. Wahlman's family has returned from their summer resort at Lake Michigan.

J. Willis and family are here from Calumet on a visit to Mrs. Willis' parents, Mr. and Mrs. T. F. Gill, of Empire street.

Mrs. Donald Bell of Bayfield, Wis., is here on a visit to her mother, Mrs. John Malloy, and sister, Miss Margaret Malloy.

J. G. O'Connor, prosecuting attorney of Baraga county, returned to L'Anse-au-Loup yesterday, having been the guest of Dr. S. G. Main for several days.

Byrns Camp of the Royal Neighbors will conduct a dancing party Thursday evening at the Woodmen's hall. Lantala's orchestra will furnish the music.

C. A. Childs, manager of Sellwood & Co.'s dry goods store, has returned from Chicago, where he spent the past week on business for the concern.

John Lacey, chief of the Ishpeming fire department, has departed for Syracuse, N. Y., to attend the annual meeting of the National Fire Chiefs' association.

The Messrs. Mary Kennedy and Margaret Malloy have returned from a visit in Chicago and Milwaukee. Miss Kennedy also spent some time at St. Anne de Beaujeu, Canada.

C. J. Byrns, who is a member of the board of control of the Newberry hospital, has procured for Miss Helma

ON INLAND SEAS YOUR VACATION TRIP
All the important ports on the Great Lakes reached regularly by the excellent service of the D. & C. Lake Lines. The ten large steamers of the fleet are of modern steel construction, propelled by powerful engines, and have all the qualities of speed, safety and comfort. The United Wireless Telegraph Service used aboard.

The D. & C. Lake Lines operate daily service between Detroit and Buffalo, Detroit and Cleveland, four trips per week between Toledo, Detroit, Mackinac Island and Sault Ste. Marie, and a trip per week between Detroit, Boy City, Saginaw and Sault Ste. Marie. About June 25, a special steamer will leave Cleveland twice a week direct for Mackinac, stopping only at Detroit every trip and Goderich. Every other trip will stop two days at Sault Ste. Marie. Illustrated pamphlet and Great Lakes map.

Address: I. G. LEWIS, G. P. A., Detroit, Mich. P. H. McMillan, Pres. A. A. Schmitt, Gen. Mgr.

THE COAST LINE TO MACKINAC

amount of overburden territory. This will place the mine in excellent shape for a large output when construction is no longer necessary and the two mills have had their capacity increased.

Eighteen steam shovels are now operating on the property and two more have been ordered. Underground working on the Boston Consolidated will soon be abandoned and all ore extracted by steam shovel. Scales of hoists have been bought up in upper Bingham and torn down by the company. These are in Commercial Gulch which is to be used for the dumping ground for millions of tons of waste. New levels are to be built on the side of the mine and railroad track laid thereon. A large force is needed for repair and construction work on the property all the time."

SUPERIOR & GLOBE.
The churn drill on the 650-foot level of the Superior & Globe mine is at a depth of 140 feet on the incline, which is about thirty degrees off the vertical. The ground encountered so far is a well preserved diabase. Around the 100-foot mark a system of fissures, running transversely across the course of the drill was encountered, which made progress very slow. This fissure system, however, is nearly passed through, and wedging of the drill core does not occur so frequently. The drill is progressing at the rate of five feet a day, of eight hours, and should pierce the vein at a depth of 600 feet below this level, or 1,300 feet from the surface. As the Superior & Globe vein is quite similar to those in various other parts of Copper Hill district, and as the vein will be shown up at a greater depth by more than 500 feet than any other vein in the district much interest will be attached to the revelation in the progress of core drilling at this property. Possibly 4,000 gallons of water are being hoisted every day.

NOTES OF COPPER NEWS.
The Atlantic Mining company is planning exploratory work in beholzon just east of the Atlantic, on sections 4 and 9, where a drill is expected to be in commission shortly. The territory to be exploited presumably carries the southerly extension of the Quincy lode.

The following are copies of telegrams received from the mine of the Montana Clinton Copper company: "Helena, Mont.—Three feet of ore in face of east drift on fifty-foot level assays \$27. It is a great surprise. (Signed) C. L. Friederichs, Supt." "Helena, Mont.—Assay on last ore shows one better than \$20 net at the smelter. Another car shipped today. (Signed) C. L. Friederichs, Supt."

Arcaidian trenching operations in the horizon east of Arcaidian lode on Section 17 have resulted in the discovery of an unidentified anygdaloid lode well charged with copper. The showing was made at a depth of between twenty-five and thirty feet in the trench. The lode was previously disclosed by drilling, the drill core showing a width of fifteen feet, of which about eight feet carried copper in commercial quantity.

Superior's shaft is bottomed close to the fifteenth level. The lowest level at which the lode is exposed is the fourteenth. An excellent grade of copper rock is being developed throughout prac-

tically all openings tributary to No. 1 shaft, and the showing in these workings is probably better today than at any time in the history of the property. No. 2 shaft continues without disclosing any copper, although of late an encouraging character of anygdaloid ground has been opened. The shipments from No. 1 shaft could be materially increased at any time.

The character of the native copper disclosed in the bottom of Algoma's shaft indicates that with further depth the ore opened at surface will give way entirely to native copper. The pieces of native copper are to a large extent encased in oxidized ore, indicating that the original form of the copper was native and that the ore is an alteration, due probably to the action of surface waters.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relief for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. City Brevities Today's weather: Unsettled and cooler. Yesterday's temperature: Seven a. m., 76 degrees; noon, 77; 7 p. m., 67. Maximum, 79 degrees; minimum, 67. Mrs. Chas. Small, of Belvidere, Ill., is visiting relatives in the city. Rev. Father McCabe has arrived from Denver and will spend two weeks in the city. The M. S. C. will give a social dance at the Presque Isle pavilion Saturday evening. Mrs. Chas. Urston and family leave for Escanaba today, and will camp near there for a month. Marquette council, Knights of Columbus, will hold a regular meeting in their club rooms at 8 o'clock this evening.

Miss Maude Deverol, of Clinton, Canada, is visiting at the home of Mr. and Mrs. John MacLeod, North Fourth street. Miss Viola Franchere, of Chicago, and Miss Viola Primeau, of Escanaba, are spending a few days with Miss Florence Archambault. Mrs. Angus McDonald and family have returned to their home in St. Johns, New Brunswick, after having spent the summer with her mother. Henry Russell, of the Michigan Central railway, came down from Huron Mountain club yesterday, and returned to his home in Detroit. E. J. Miller, formerly with Robinson & Pierce, of this city, who is now conducting a meat market at Kearney, Neb., is critically ill with blood poisoning. Professor K. P. Brooks, formerly superintendent of the public schools of Marquette, now a resident of Mt. Pleasant, is in the city for a two weeks' stay. A special meeting of the common council has been called for this evening to designate the places for holding the primary election Sept. 6 and to transact other business. Mrs. James Redy, of Duluth, is visiting with her parents, Mr. and Mrs. John Stewart. Mrs. Redy, Mrs. Stewart, Miss Stewart and Mrs. John Lewis went to the Stewart camp yesterday. John Henry, son of Henry Rustenhoven, died yesterday morning after an illness of three weeks. He was eleven months old. The funeral will be held from the house at 3 o'clock this afternoon. Owing to several members of the Marquette baseball team not being in the best of condition, the postponed game with Negaunee, which was to have been played Wednesday, has been postponed until some later date. The cattle at the Marquette City dairy are now being fed on green corn from a fifty-acre field. Much of the corn stands eleven feet high and is said to be the finest ever grown in the Lake Superior country. Members of the W. C. T. U. and their families and members of the Loyal Temperance Legion and their mothers will hold a basket picnic at Presque Isle tomorrow, the weather permitting, otherwise the event will take place Friday. The picnicers will go to the park on the 10 o'clock car. George Johnstone, of Rhineland, Wis., arrives in the city today to accept a position as singer of illustrated songs at the Grand theatre. He has a fine baritone voice, is an accomplished pianist, comes highly recommended, and is sure to please the lovers of good music. Miss Maggie J. Walt, who has recently returned from a three months' trip abroad, spent a few hours in the city yesterday afternoon, on her way home to Calumet. Miss Walt is still hopeful of the ultimate success of the Hotel Superior project, which she explained to many prominent women while away.

Repairing Front Street—The street commission began the repairing of the east side of Front street yesterday, between Washington and Bluff street. This street has become rough with heavy rains and constant travel. When the macadam has been properly prepared it will be treated with Pioneer road asphalt, commercial preparation used for a binder, with which the street commission is experimenting. Bear at Golf Club—A bear with a large bump of inquisitiveness came within a few feet of the Golf clubhouse a few days ago, much to the surprise of Mrs. Sweeney and others who happened to be there. The bear came down the hill from the west, put his front paws on the fence, looked around for a moment and then ambled back into the woods. What is thought to be the same bear has recently been seen in the wild growth in the western part of Park cemetery. Tarantula at Del's Grocery—Persons passing by Del's grocery Sunday noticed a large ugly looking bug crawling on the window, which was identified as a tarantula by a man who has lived in the south. Yesterday the bug was found under the oil cloth covering the bottom of the show window and it is now on exhibition in a glass jar. It is not known how or when the tarantula got into the window, but it is thought it must have been there two weeks or more, as no bananas have been in the window since that time. A Remarkable Day—Yesterday was a most remarkable day and many of the old residents declared that they had never seen anything like it before. In the forenoon it was sultry and cool by spells and rain threatened every minute, but none fell. In the afternoon, the sky took on a weird, yellowish tinge which became more pronounced toward nightfall. There was much speculation as to the cause of the phenomenon, but no authentic explanation has been offered. Some said it was due to the forest fires in Montana, others that it was caused by the air being surcharged with electricity, and still another class began to talk about the world coming to an end.

NOTICE TO TAXPAYERS. Office of the City Treasurer: Marquette, Mich., July 15th, 1910. Notice is hereby given that the general tax roll of the city of Marquette has been deposited with me, and is now in my office in the city hall, and that the amount of taxes therein assessed and specified are due and may be paid to me at any time up to and including the 31st day of October, A. D. 1910. Upon all such taxes paid to me before the first day of September a collection fee of one per cent will be charged, and on all such taxes paid on or after the first day of September a collection fee of three per cent will be charged. R. P. BYRNE, City Treasurer. (7-16-10)

Guilid Hall Notes The Young Ladies' club will occupy the entire building tonight after 7:30. The class in the gymnasium will begin promptly at 8 o'clock. The A baseball team of the E club won from the Tommas in an eleven-inning game yesterday afternoon by a score of 7 to 6. The game was one of the best the E team has played. The Tommas started off with a rush and it seemed up until the eighth inning that they would carry off a victory. In the eighth the A team tied the score, making it 5 all. In their half of the ninth the Tommas added another run but the Guild Hall boys were not to be outdone and in their half tied the score again. In the eleventh the E team succeeded in bringing in the winning run and thus adding another game to their long list of victories. There has seemed to exist a misunderstanding as to the time a membership begins to run in Guild Hall. In order to clear this matter up the governing board voted at its last meeting that all memberships taken out after Aug. 15 should date from Sept. 1. After that date, unless some further arrangement is made, a membership will date from the day of the payment of the membership fee, and not from March 1, as some have been led to believe. The F club baseball team lost a five-inning game to the Stars yesterday afternoon. Because of the game between the E club and the Tommas which was scheduled for 3:30 the F club played only five innings. The F club was handicapped by the loss of several of their men who have gone to camp this week. Plans are being laid for a Guild Hall baseball league of four teams with a prospect of five. If the plans are carried out a series of five production league will consist of the team which has been playing under the name of the Has Beens, the regular Guild Hall team, a second Guild Hall team, and the team known as the Rival Juniors, nearly all of whom have recently joined Guild Hall. It is planned to have some of the games played this week if possible. The Rival Juniors will play the Guild Hall team a practice game Thursday at 5 o'clock and from the two teams will be chosen the team to play in the game with Manning Y. M. C. A. which Guild Hall will play on Longyear field Saturday afternoon at 2 o'clock. In preparation for the league series the Has Beens team has decided to hold regular practice twice a week, Tuesday and Thursday afternoons. All the baseball players of Guild Hall will meet for practice at the field at 5 o'clock tonight.

THEATRICAL. "The Flower of the Ranch." Judging from the excellence of the first production of the 1910-1911 theatrical season at the opera house last evening, theatergoers of Marquette are in line to enjoy a series of fine productions this winter. The bill last night was "The Flower of the Ranch," a musical play which pleased everyone and which was enthusiastically received from beginning to end. The best features of "The Flower of the Ranch" are its catchy musical numbers, and the vim and dash with which the excellently drilled cast and chorus carry them through. The setting of all three acts is in California and the piece abounds in that romantic freedom of the west in the early days, without in any sense descending to the level of the melodramatic. In fact, the plot is subsidiary to the dashing songs, the pretty chorus and some very clever comedy and ingenue work. As had been predicted in the advance notices, several of the musical numbers were "hits", and are likely to be whistled and danced to many times in the coming months. There are too many good singers and dancers in the cast to mention each separately, but any review of "The Flower of the Ranch" would be incomplete without special mention of Miss Nellie Watters, the Flower, and Miss Harris, the leading comedienne, both of whom instantly won their way into the favor of their audience. "The Flower of the Ranch" is a good show and is deserving of very liberal patronage. "Rosind at Redgate." Although the mystery in the new play, "Rosind at Redgate," is a prominent feature, and the love element proportionally strong, all but the casual observers will realize that the feature in which lies its greatest merit is its character delineation. Here is a decent plot, unusual but possible, and experienced workmanship, two qualities that go far towards a play's popularity. Chief in the character studies are Rosind, a mystery-troubled and tantalizing girl that will keep the spectator in doubt almost to the end of the play, and Patricia Holbrook—"Aunt Pat"—a delightful woman of middle age, who holds in trust a large sum of money for her brother, Henry Holbrook, father of her niece and ward Helen. Larry Donovan, a romantic young Irishman, is the hero who is appointed guardian of the affairs of the ladies, and in that position gets himself into a heap of trouble. He proves himself staunch and true, however, and is ably seconded by one Reginald Gillespie, president of the button trust. The character of Gillespie is no small aid to the brightness of the play. He is a frivolous chap—eccentric and funny. How these rivals, along with a number of other people were the actors in some very dramatic episodes, will be put forward at the Marquette Opera House Wednesday evening.

Upper Peninsula Many Rats in Cars of Coal—The Water Works company of Iron Mountain has been unloading a consignment of 1,500 tons of coal recently. Superintendent Croll says that more than a thousand large wharf rats were re-locating with the shipment. Ben Nowatki, who bossed the job of unloading, declares that some of the rodents were as large as cats. In a consignment of coal received at the pumping station direct from the Pennsylvania mines some time ago several hundred snakes were received. The snakes were of all sizes and of various breeds. New Spur Line—Peppari & Co. of Minneapolis have been awarded a contract by the Chicago & Northwestern company to build a spur to the Chicago Lake mine, Iron county. The spur will start at a point near Jumbo just above Pentoga and run northeasterly, probably touching the Blair, Michaels, Swanson and other properties on the way. Construction work will begin at once. The Chicago is a property of the Buffalo & Susquehanna interests and has been in course of development the past two or three years. Liquor Dealers Discharged—Amasa, Iron county, will not be a dry town as a result of the arrest of every one of the five saloon keepers recently on two charges. The liquor dealers appeared in Justice Dawson's court at Crystal Falls for examination and it was decided that the evidence was not sufficient to hold the prisoners. In addition, when the cases were called for hearing, there was none of the complaining witnesses present and the court had to rely upon what was told when the cases were started several weeks ago. Prosecuting Attorney Watson was present and stated that he had examined into the matter as thoroughly as he could under the circumstances and it was his opinion that the defendants could not be convicted in the circuit court. Will Locate in Wisconsin—Donald McDonald of Newberry has gone to Mellen, Wis., and will shortly remove his family to that city. In the removal of Mr. and Mrs. McDonald Newberry will lose one of its prominent and highly respected families. For many years Mr. McDonald has had an important part in the industrial affairs of the county. During the time the Danaher Lumber company were in operation he held the position of woods superintendent for the firm, and when that concern went out of business became a stockholder in the Danaher Hardwood Lumber company. Mr. McDonald is now superintendent of the Foster Lattimer Lumber company, at Mellen. Slot Machines Destroyed—The slot machines recently found in the saloon of Napoleon LaPorte and the Billiard rooms of Clyde Harding at Crystal Falls will not do any more business. After they were seized and confiscated under search warrants they were taken to Justice Linden's office at Escanaba, where they have since been destroyed. Rev. C. H. Rutledge and Attorney John Cumiskey smashed one of the machines and Justice Linden, Chief of Police Iverson and some others reduced the other to a wreck. The machines were of the nickel-in-the-slot variety. No trace has been found of the machine that was seized by Chris Westermuth's saloon and stolen from Justice Linden's office and the police have thus far obtained no clue to the individual or individuals who spirited the machine away. Alleged Blind Piggers Jailed—Three alleged "blind piggers"—Valentino Basso and Mrs. Johanna Porte of the Romie location and Antonio Tonzi of the New Port location—have been placed under arrest at Ironwood on complaints charging them with selling liquor without a license. The examination of Basso and the Porte woman were held before Justice Gustafson and a number of witnesses testified. The examination was continued until Sept. 3rd. It is alleged that there are a number of these so-called "blind piggers" on the Gogebic range mining locations who make a practice of buying beer in kegs, bottling it themselves and then selling it. The people who are charged with this illegal practice are mostly keepers of boarding houses, and they maintain that they simply buy the beer and serve it to their boarders as a beverage with their meals, in place of tea or coffee. These are the first of these alleged "blind piggers" to be brought up for trial in Iron county and the outcome will be watched with interest. Soo Babe's Marvelous Escape—That Lillie Morrison, the three-year-old daughter of Andrew Morrison, residing in the vicinity of Kelly & Mayer's Mill, Sault Ste. Marie, is alive today would appear to be because Providence intervened and saved her from being crushed and ground to pieces. The child was playing in the vicinity of the railroad and wandered on the tracks. Her mother was busy in making up trains, when suddenly the engineer from his cab noticed the child directly in the middle of the track but a short distance away. The train, consisting of the engine and three heavily loaded freight cars, was traveling at a fast rate of speed and Engineer John J. Burphy realized that he could not stop the engine before the child would be reached. Steam was shut off, the brakes applied, the bell was rung and the whistle blown, but still the child looked innocently at the approaching train and laughed and waved her hands. The engineer attempted to get out of the cab and on to the fender in an effort to snatch the child from what appeared to be instant death, but he was too late and the fiery monster was upon the baby before he could reach her. She was knocked down and the engine and three cars went completely over. The horrified train crew rushed back to the spot where the child had been, expecting to find her body crushed and mangled beyond all recognition. What was their surprise to find the baby sitting bolt upright between the rails of the track, apparently dazed, but beyond a slight scratch on her forehead and lips otherwise unharmed.

MISSOURI. KISS YOUR WIFE. This advice from a Chicago clergyman is sound common sense. General adoption of his counsel would prevent 80 per cent of family quarrels and reduce the work of the divorce courts to a mere fraction of the present grist of trials. A husband may love his wife, and his wife may be perfectly well aware that he loves her, but an occasional outward demonstration of his affection will go farther toward making her happy than absolute consciousness of his undying affection without a loving word or a daily kiss. Even the husband who does not love his wife can keep her happy by tender words and frequent kisses. Therefore, Mrs. Married Man, whether you are in love with your wife partner or not, do not neglect to kiss your wife.

OLIVER COMPANY TO EXPLORE AT CLOWERY

Two Diamond Drills Will Be Operated in the Vicinity of the North Champion Mine.

The Oliver Iron Mining company is putting two diamond drills at work on a tract of land it owns west of Clowery, in the vicinity of the North Champion mine. The North Champion was operated some years ago on a limited scale by the Champion Iron company, though the property was never thoroughly explored or developed. Operations were conducted on the open pit plan and a few thousand tons of lean ore were mined and shipped.

The officials of the Champion Iron company were satisfied from what they had done at the property that there is a considerable deposit there, but operations were suspended at a time when the demand for that particular grade of ore fell off. It is the intention of the Oliver company to put down a number of holes to a depth of several hundred feet, in order to test the deposit. It is thought that a better grade of ore than was found in the pits will be located at a point below the bottom of the open cuts.

The formation is located on a line with the properties now being opened up by the Cleveland-Cliffs Iron company at North Lake and the Dexter. It is thought that in all probability as high a grade of ore as has been found at either of these two properties will eventually be located. In this event a good sized mine will surely be developed. The property is located quite close to the Chicago & Northwestern railway line, which runs through to Michigan. The company owns a large acreage in that vicinity. Practically all of the equipment at the North Champion was removed at the time operations were suspended by the Champion Iron company, and in the event a mine is opened it will be necessary to put in a complete new outfit of machinery. New buildings will also be necessary.

MINING MEN HAVE OUTING.

Cleveland-Cliffs Employees Hold Annual Picnic at Michigamme.

The annual outing of the members of the Cleveland-Cliffs Iron company's mining club was held Saturday at Lake Michigamme. The party was composed of the superintendents, mining captains and shift bosses at the mines in Ishpeming, Negaunee and North Lake district and some of the office employees. The party went to Michigamme on the Northwestern passenger train in the morning, returning in the evening. Boats were taken to the lower end of the lake, where dinner was served.

A most amusing feature was a nine-maning ball game. There seemed to be some uncertainty about the final score, although the game ended peacefully. The feature that attracted the greatest attention was the umpiring of W. H. Quayle, who refused to be influenced by the captains or other players. While his cool and unbiased decisions were frequently questioned, no decision was changed and every one had to submit. The mining men feel safe in recommending Mr. Quayle as umpire for the Marquette-Iron County league.

The outing was by far the most enjoyable that the mining men have ever had. The party was composed of the following: Max Barber, Lucien Eaton, W. W. Graff, J. Stevens, Alfred Collick, J. H. Gill, George Bredson, Alfred Bone, Thomas Creer, J. H. Dunstan, J. S. Mennie, William Edyvean, George Garrett, Jack Kivisto, John Lamin, James Williams, Thomas Lucas, John Olds, W. H. Quayle, John Skeewis, William Beeby and W. H. Moulton, Ishpeming; J. H. Roush, S. R. Elliott, John Frederickson, William Bath, John Barrett, Victor Nelson, William Penigale, William J. Phillips, John Mainje and William Esterbrook.

CONCERT THIS EVENING.

Romsdahl Company Will Give Entertainment at Mission Church.

The Misses Mildred Irene Romsdahl and Lillian Constance Wright, who will give a concert this evening at the Mission church, will be entertained at F. Braastad's home during their stay in the city. Members of the congregation are showing unusual interest in the concert and the musicians will be greeted by a large and enthusiastic audience. The admission will be thirty-five cents for adults and twenty-five for children. The program will be as follows:

- Rubensal.....Weber
- Misses Wright and Romsdahl
- I Love Thee.....Mildenberg
- Mother, O Sing Me to Rest.....Hildach
- How Nearly Was I Sleeping (Der Freischutz).....Weber

- Songs
- Hexentanz (Witches Dance).....MacDowell
- Concert Waltz.....Wieniawski
- Piano
- And a Highway Shall Be There (from Israh).....Patten
- Cry Aloud, Spare Not (from Israh).....Patten
- Songs

FIRST INDEPENDENT PLAY.

Shubert Bros. & Co. Sending "The Blue Mouse" Here.

Leon Victor, business manager for the Messrs. Shubert's production, "The Blue Mouse," is in Ishpeming completing arrangements for the presentation of Clyde Fitch's clever comedy at the theater Tuesday evening, Aug. 30. Mr. Victor states that the attraction he represents will be the first of the independent attractions to visit the iron country, and will be the forerunner of Messrs. Shubert's high class shows that will come here in the near future.

BIG ORE STRIKE.

It is reported from the Mesaba range that Joseph Sellwood and other Duluth men have discovered a big body of ore near Biwabik. One drill hole has penetrated the ore deposit to a depth of about 100 feet. The property being tested is under control of a syndicate

of which Mr. Sellwood is the leading spirit. The ore has been found on a forty-acre tract, just out of Biwabik to the west, running between the Canton and Holland properties. It is said that the forty had been on the market for years and that several Biwabik men had it under option at different times, but they never explored it.

IS BEAUTIFULLY STAGED.

"The Flower of the Ranch," which will visit this city Thursday evening, is beautifully staged, presenting an ideal picture of rugged ranch life in California. The story is intensely interesting from a dramatic standpoint, possessing a mixture of excellent comedy dialogue. The dances are finished and the chorus movements are novel.

THEY HAVE A DEFINITE PURPOSE

Foley Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser, Terre Haute, Ind., tells the results in her case. "After suffering for many years from a serious case of kidney trouble and spending much money for so called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them." The People's Drug Store.

A NEW ELECTRIC LOCOMOTIVE.

A remarkable railway engine, with a saloon hatched on, has just made a very successful run from Glasgow to Gairloch, on the Caledonian and North British railways. The locomotive consists of three separate parts—a steam turbine, a dynamo for generating electricity, and electric motors for the actual driving. The boiler is fixed at one end of the engine, which is a very long one; the generator is situated in the center, and consists of a Zoelly steam turbine working at 3,000 revolutions per minute, directly coupled to the dynamo, which supplies the electric current to four motors; these motors give a direct drive to four sets of heavy driving wheels. The nominal power of the locomotive is one thousand horse, and considerable economy in fuel is anticipated. All the advantages of an electric engine are obtained without recourse to external wires, and it can therefore travel over

any lines. The exhaust steam is also condensed, so that a very long run could be made. The current of air which passes through the cooler for the condensed steam is driven by a fan to the furnace of the boiler, which is thus under forced draught. Extraordinary ingenuity has, in fact, been displayed in order to make the greatest use of every possible feature to increase the efficiency of the engine. The new locomotive is now having the finishing touches applied preparatory to being exhaustively tested at pulling heavy express trains.—London Daily Mail.

HENRY BAKKA RUN DOWN BY TRAIN

Mangled Remains of Negaunee Man Found on Track Near the Blue Mine Crossing.

Henry Bakka, a Finnish resident of the Blue location, was killed by the Chicago & Northwestern company's south bound fast freight Sunday morning at a point near the Blue crossing below the Lake Superior & Ishpeming Railway company's bridge. The mangled remains were found a few hours later by men who were going fishing and who were walking down the track. The man was evidently struck some eight or ten rods west of where the body was found. The top of the head, one arm and one leg were severed from the body.

It is thought that Bakka was intoxicated and that he did not hear the approaching train. So far as could be learned yesterday, neither the engineer nor the fireman on the train saw him on the track. A bottle partially filled with liquor was found in one of his pockets. Bakka was about thirty years of age and single. He was well known in the city especially among the Finnish people, as he had resided here for some five or six years. He worked at the Blue mine and was an industrious and steady fellow. The funeral will be held this afternoon. Coroner William Prin came to the city yesterday and empanelled a jury. The inquest will be held today or tomorrow in Judge Argall's office.

SUNDAY'S BALL GAME.

Captain Steimle Says That Ishpeming Forfeited it to Negaunee.

The unsatisfactory ending of Sunday's baseball game between the Ishpeming and Negaunee teams was much discussed here yesterday. Negaunee men who witnessed the contest are practically unanimous in the opinion that Captain Larson had but very poor grounds for pulling his team out.

Captain Steimle yesterday said that, according to the rules, Ishpeming forfeited the game to Negaunee when the team left the diamond and that they can gain nothing by protesting. He further said that both umpires decided that McCrory was safe and that they awarded the game to Negaunee by a score of 9 to 0. He denies that he agreed to concede the putout. Steimle believes that McCrory was safe on the disputed decision. He says Nevelt turned and was about to throw the ball to the plate, in an effort to catch McCrory before he reached home, but held it when he saw that there was no one to catch it.

DIED IN CHICAGO.

Mrs. S. R. Hansen, formerly Miss Clara Pierce of Negaunee, daughter of

Mrs. Anna Pierce, of Merry street, died Saturday night in Chicago, where she had resided for some years. The remains are expected to arrive in Negaunee this morning, when the funeral arrangements will be completed.

BASEBALL TODAY.

The Union Giants, a colored baseball team from Chicago, which is making a tour of Minnesota, Wisconsin and Michigan, will try conclusions with the Ishpeming nine this afternoon at the Union Park grounds. The Giants have been defeated by a few of the teams they have met on their present trip. The Ishpeming nine won from them one day last week by a score of 4 to 0. Today's game will be called at 3 o'clock. No passes, except those issued to the press, will be recognized. The Giants management having insisted on this clause being inserted on their contract. Renhardt will be in the box for Ishpeming.

IS FOUND GUILTY OF VIOLATING GAME LAWS

Clarksburg Woman Refuses to Pay Fine and Is Committed to Jail for Thirty Days.

Mrs. Henry Osier, of Clarksburg, yesterday was found guilty of having venison in her possession and was fined \$10 and costs, a total of \$30, in Judge Verlan's court. Deputy Game Warden Phil Hogan of this city, caused Mrs. Osier's arrest. The defendant pleaded not guilty, but on the evidence adduced the court convicted her.

According to the testimony, Mrs. Osier gave a leg of venison to a neighbor, Mrs. Santonen. Fearing that the venison might be found in her possession, the latter gave it to her boy, instructing him to hide it in the bushes near the house. Mr. Hogan got track of the venison and it was found where the boy had placed it. He used it as evidence in court. He also presented an affidavit from Mrs. Santonen, who was unable to attend the trial, to the effect that Mrs. Osier had given her the venison. Mrs. Santonen's young daughter, gave testimony in accordance with the facts presented the court by the game warden.

Mrs. Osier refused to pay the \$30 and she was committed to thirty days in the county jail.

FAIR BIG SUCCESS.

Ladies of St. Paul's Congregation Expect to Clear \$1,500.

The fair conducted at McDonald's opera house last week by the ladies of St. Paul's church congregation was a financial and social success. Although all the bills have not yet been received, the members of the arrangement committee expect to clear \$1,500 or more.

The diamond ring contest was exciting during the last hour or so. Miss Reidy was the winner, she having had 2,963 votes. Just before the polls closed she brought in \$165. Up to that time Miss Aminino was in the lead, with 1,493 1/2 votes. Miss Arneith had \$10. The receipts from the ring contest were \$520.85. The committee decided to give the two unsuccessful candidates gold watches. The judges for the participants were J. E. Suess and C. B. Driscoll, for Miss Reidy; J. E. O'Donoghue and J. P. Miller, for Miss Aminino; and Will Maas and T. J. Flynn, for Miss Arneith. Nearly all the articles the ladies had on sale were disposed of. Eight of the forty articles in the drawing, which took place Saturday night, were won by Ishpeming people.

The members of the arrangement committee, composed of Miss M. Sullivan, chairman; the Misses Nellie McAuliffe, Nellie Manning, Helen Sterling and Marguerite Suess, desire The Mining Journal to express their appreciation of the assistance given them by many of the ladies and men of the congregation, of the liberal patronage, the many donations, and the services of the bands and orchestra.

ALL BATTING OVER 200.

All of the members of the Negaunee baseball team are now batting over 200, with Cullis in the lead with a percentage of 359. Rains having dropped back to second place after the last two games. The team's average is now 271. The individual averages are:

	A. B.	H.	P. C.
Cullis	117	42	359
Rains	70	24	340
Goulette	3	1	333
Heinelson	94	39	320
McCrory	109	29	271
Swick	111	50	270
McKale	37	10	270
Sieenthal	27	7	259
Steimle	39	9	232
Rosevear	40	9	225
Messier	100	22	220
Simpson	44	9	208

The standing of the four teams in the league is as follows:

	P.	W.	L.	P. C.
Negaunee	29	22	7	759
Marquette	28	17	11	608
Ishpeming	28	10	18	357
Crystal Falls	27	7	20	250

LOCAL LAONICS.

George Lemire came up from Wells Sunday and spent the day with relatives here.

A number of Negaunee men accompanied the Buffalo baseball team to the Swanzy range Sunday.

Michael Kelley, who arrived home from Mexico one day last week, has gone to the copper country, where he will do diamond drill work.

A merry-go-round began business yesterday on the Pendill lots, in the triangle between the Northwestern and South Shore tracks and Silver street.

The Ishpeming baseball team will this afternoon meet the Union giants, a colored aggregation that is touring this region. The game will be called at 3 o'clock.

Onis S. Kangas of this city and Miss Sonia Olliva Nyman of Ishpeming,

C. MEILLEUR, PHILIP LEVINE, JAS. F. FOLEY

were married Friday evening by Judge Argall, the ceremony taking place at his office.

Thermometers in the city registered seventy-four degrees yesterday morning at 5:30 o'clock. It was the warmest morning of the summer with two exceptions. It was eighty-eight degrees Sunday afternoon at 4:30.

The eight-year-old son of Victor Maki, the policeman, died Sunday from tuberculosis of the left knee. The boy had been suffering from the disease for two years. The funeral was held yesterday afternoon.

W. H. Israel, the photographer, has completed a group picture of the members of the Negaunee baseball team, together with Manager Thoren, Scorer Miller and the mascot, taken recently at the Union park. The players are seated on benches in front of the grand stand.

The students from the Michigan College of Mines, who have been working on the range for the past ten days or so, came to Negaunee yesterday morning but the weather looked so threatening that they returned to Ishpeming. They plan on spending several days at Marquette after completing their work here.

The National Troubadours entertainment, under the direction of Miss Jolly will be given this evening, also tomorrow evening, at McDonald's opera house, for the benefit of the Epworth league of the Mitchell Methodist church. In the neighborhood of 100 people will take part in the various drills and choruses. The admission will be twenty-five, thirty-five and fifty cents.

The new hook and ladder truck, ordered some time ago for the fire department, is expected in a few days. Everything about the new hose house is in readiness for the transfer from the present headquarters, but it is not known when the change will be made. The delay is due to the delay with the street paving work. If the paving is to be done this year the change from the old to the new house will not be made until after the work is completed on Pioneer avenue and the eastern end of Iron street.

FOR QUICK RELIEF FROM HAY FEVER.

Asthma and summer bronchitis, take Foley's Honey and Tar. It quickly relieves the discomfort and suffering and the annoying symptoms disappear. It soothes and heals the inflamed air passages of the head, throat and bronchial tubes. It contains no opiates and no harmful drugs. Refuse substitutes. The People's Drug Store.

TOWNSEND GAVE FINE ADDRESS

Jackson Candidate for United States Senate, Standing on a Conservatively Insurgent Platform, Impressed Large Audience With His Logical Arguments.

Declared in Favor of One Law for Poor and Rich, a Tariff Commission, Conservation of Natural Resources and the Roosevelt Policies Generally.

Progressive Republicanism as opposed to the "let well enough alone" doctrine of the reactionaries was the keynote of Representative Chas. E. Townsend's address in Marquette last evening. Mr. Townsend spoke from a carriage near the corner of Front and Spring streets and was given an attentive hearing by a large crowd of interested voters. The speaker proved himself an orator, and gave the impression of one who has convictions and has the courage to speak out for and stand by those convictions to the last ditch.

Mr. Townsend, accompanied by Senator Arthur J. Tuttle of Lansing and Congressman McLaughlin of Muskegon arrived from Lansing at 7:15 last evening. The party was met by the Marquette City band and a number of citizens and escorted to the Hotel Marquette. While Mr. Townsend and his fellow campaigners were eating dinner, the band gave a concert in Lakeside Park.

Attorney W. S. Hill, a college class mate of Mr. Townsend's, accompanied the visitors from the hotel to Spring street, and introduced each of the three speakers, the first of whom was Senator Tuttle. Mr. Tuttle stated that he had been born only a few miles from Mr. Townsend's birthplace and had known him from boyhood. He said that it seemed to him peculiarly fitting that on the first opportunity of the people of Michigan to cast their vote for a United States senator that there should be an opportunity to cast that vote for a man who had always stood for the election of United States senators by popular vote. Mr. Tuttle referred to the fact that Mr. Townsend's opponent had voted against such a measure. Comparing the argument that now men are not able to accomplish much in congress, Mr. Tuttle declared that Mr. Townsend had done something the first term he was a member of that body. In fact, he had so distinguished himself that Roosevelt chose him as the champion of several of his most important measures, and again in the next congress President Taft picked out Mr. Townsend to father the railroad bill.

Townsend in Congress.

Congressman McLaughlin followed Senator Tuttle and stated that he and Mr. Townsend had been fellow members of congress for the last four years. He declared that he personally knew the great work that his colleague had done, and his great ability, particularly in matters relating to the transportation problem. "Mr. Townsend has long been a student of the transportation problem," said Mr. McLaughlin. "When President Roosevelt called attention to the abuses being practiced by the railroad companies, Mr. Townsend, though it was his first term, drafted a railroad regulation bill which met the approval of the president and which, considerably amended, was finally passed. Though this bill in its final form was not entirely satisfactory to its author, it is safe to say that it represented the most important railway legislation of a generation. Again, in the next congress, President Taft selected Mr. Townsend to father another and better railway bill. Mr. Townsend is a thorough student of public questions and that he is an able attorney is shown by the fact that former Attorney General Blair obtained his legal assistance when the constitutionality of the present state railway bill was at stake."

In introducing Mr. Townsend, Attorney Hill spoke of his acquaintance with the candidate in college, where he was always a jolly good fellow, and a young man of great promise and strict integrity, traits of character which remained with him throughout his distinguished career.

Mr. Townsend is gifted with a powerful yet pleasing voice, great personal magnetism, and his words are uncluttered with truth and sincerity. His rather lengthy address was given marked attention, and in part he said:

Believes People Should Select.

"This is a campaign to determine whether the people want to select their senator from Michigan, or whether they prefer to have him selected by a preferred few, as has been the case in the past. I believe that in a popular government the people should select directly all the officers, from the president down to coroner."

"In this great industrial age things are changing rapidly, so rapidly that it is sometimes necessary to have our attention called to it to realize the extent of those changes. Down at Mount Vernon is a massive coach in which George Washington used to ride. It looks as if it would take four horses to draw it, and it would hardly serve to make the whirlwind campaigns that the candidates are making this fall. There has been great progress in means of locomotion, but no greater than in other lines of endeavor."

"The tendency of the times is toward centralization and combination. Not only have small companies been merged into corporations, but there have been combinations of corporations. Washington itself has changed. That city is now the social center of the country and the home of many of its wealthiest men. Perhaps this is due to the fact that the government pays half the city's taxes. These great combinations have a lobby in congress which is ever alert to their interests. The people have to lobby and must depend upon their elected representatives to look after their interests in the legislative halls. It seems to me that the people should select a representative who will represent

their interests, rather than the interests of the corporations.

"In 1776 the thirteen colonies were as remotely situated from each other, owing to lack of means of communication, as are the states from the Philippine Islands today. Then it may not have been practicable to elect senators by popular vote, but the argument does not obtain now. I am a firm believer in the primary system. It is hard on the candidate, but I gladly take up the increased burden, leaving it to the duty of the people's representative to get out among his constituents at least once in six years. My opponent says he, too, is a believer in the primary system, but the record shows that he voted against two bills introduced, which would have given the people the right to elect senators by direct vote."

"From boyhood I have been a firm believer in the Republican party—the party which was established to secure human freedom and the equal rights of men. This party has made a magnificent record, but every step forward has been a struggle, and when the victory was won, the men who have stood in the wheels of progress have gone back home and boasted. 'See what we have done.'"

"I went to congress believing that the life and prosperity of the country depended upon the enactment of laws insuring justice and equal rights to all. I believed it was the duty of congress to carry out the pledges of the party platform, and stood with Roosevelt to frame legislation in the interests of the people."

Progressive Legislation.

"President Roosevelt reported to congress that the railroads were abusing their privileges. Every railroad is chartered as a public service corporation, and all have a duty to the public as well as to themselves. The United States has been good to the railroads, having given them vast acreages of land equal in area to a half dozen states. They were built under a pledge to serve everyone impartially. However, it was found that certain companies, notably Standard Oil, were receiving rebates and thereby were able to throttle competition. The bill introduced to curb this evil was a progressive bill, supported by insurgents, if you please, and decidedly unpopular at the beginning. Every piece of progressive legislation has originated with the insurgent element in congress, against the opposition of those who would 'let well enough alone.'"

"The public domain bill was bitterly fought at first, though it is now popular and many of those who bitterly opposed it are telling their constituents what a prominent part they played in its passage. The natural resources of the country belong to the people, not to any favored corporation. President Roosevelt called attention to the fact that monopolies were getting an unfair grasp on the government coal and timber lands. One element in congress protested against stirring up this question, arguing that the country was prosperous enough and that it would be better to let well enough alone. What do you send men to congress for if not to make things better? If there is nothing to be done, it would be wiser not to send any men to congress at all."

"No man has greater confidence in congress than I. In an assemblage of 391 ministers it would be strange if there were not as many black sheep as find their way into the legislative hall of the nation. There are always a few bad men there, however, and the honest legislator must ever be on guard against them. Well, the law conserving the country's natural resources passed with popular approval, and now some of those who said 'let well enough alone' are going over Michigan, pointing with pride to the bill and saying, 'See what we have done.'"

Favors Tariff Commission.

"I am a protectionist in the Republican sense of the term, which means that there shall be a tariff sufficient to make up for the difference in cost of production at home and abroad. But how am I to know what is the proper duty on any article? In making the last tariff the manufacturers said they must have a duty of so much or they could not do business. The importers wanted free trade. Sometimes the legislators are financially interested in the production of articles on which they are fixing the tariff. The individual legislator cannot know what is the proper duty on every article of commerce. For this reason, I am heartily in favor of a tariff commission and argued for it in the house. The bill was repudiated by the senate and the senator from Michigan was one of those who voted against it."

"I defy you to point out to me one piece of legislation to which the public points with pride that was initiated by a reactionary. All have been introduced by insurgents and passed against determined opposition. Nevertheless, I do not claim that all insurgents are patriots. I believe there are some who stand with those progressives who have always cast their vote for what they thought to be right. While I am proud of the record of the Republican party, the glory of the past is valuable only as a guaranty of progress in the future. I have no personal grievance against Speaker Cannon, and Cannon and Aldrich should not be confused with what is styled Cannonism and Aldrichism. I am a believer in the Roosevelt policies, together to discuss revision of the house rules long before the majority of the house would admit that any revision of the rules could be brought about, and while many of those who are now telling of what has been accomplished by that revision, were doing their utmost to prevent any curtailing of the speaker's power."

Don't Let Bosses Rule.

"Gauge a man by what he has done. The people express their wants at the ballot box and they will not get what they want until they are willing to get out and vote. Sometimes a few men control the politics of the county. In a popular government, the whole people, not a select few, should rule. Oftentimes there is a government of, for and by the office holders, rather than by the people. I believe there are 20 per cent more jobs than there should be. It is not the duty of the government to furnish jobs to anybody, and anyone holding a job should be required to give service. The sole object of a job should not be to pay a salary to some one to whom an office holder is indebted. However, the job holders are always busy in political campaigns and oftentimes, the people let them control the political affairs of a community."

In conclusion, let me state that I am not an enemy to corporations but

I do believe that money should be earned honestly and that there should be one law for all, applied with equal force to the giant corporation and to the man with small purse."

THREE PARTIES PUT TICKETS IN FIELD

Only County Office Contested for Is Republican Nomination for Representative.

At 4 o'clock yesterday afternoon the time allotted candidates to file their petitions for the primary election to be held Sept. 6 expired. As far as the county offices are concerned, there will be but little interest in the primaries locally, as there is but one contest for any of the offices—W. S. Ewing of Chocoma and Thomas M. Wells of Negaunee opposing each other for the Republican nomination for representative from the First district.

This is a very different situation from most of the counties in the state, where the primary system of nominating candidates has been adopted, as in many instances there are as high as five or more candidates for nearly every office on the Republican ticket. In Marquette county these complete tickets have been nominated, Republican, Democratic and Socialist, but it is universally conceded that all the Republican candidates will be elected in November. Those who have filed nominating petitions as is required by law are:

—Republican Party—
Representative—First district, W. S. Ewing, Thomas M. Wells; Second district, D. T. Morgan.
Sheriff—John Lehman.
Clerk—Frank G. Jenks.
Treasurer—Thomas Gribble.
Register of Deeds—J. H. Primeau.
Prosecuting Attorney—Frank A. Bell.
Surveyor—James Cummings.
Circuit Court Commissioners—Geo. P. Brown, Joseph Clark.
Coroners—L. P. Crary, Wm. Prin.
—Democratic Party—
State Representative—Conrad Wellman, Marquette.
County Clerk—Peter Trudell, Negaunee.
County Treasurer—Wm. Schunk, Marquette.
Sheriff—James Farn, Tilden township.
Prosecuting Attorney—J. L. Hefferman, Marquette.
Coroner—Dr. C. N. Bottom, Marquette.
—Socialist Party—
Representative—First district, Wm. Ronback, Richmond; Second district, W. J. Roberts, Ishpeming.
Sheriff—Axel Hakala, Negaunee.
Clerk—Martia Skauge, Ishpeming.
Treasurer—John Kolivisto, Negaunee.
Register of Deeds—Matt Soderback, Ishpeming.
Circuit Court Commissioners—Axel Kolinen, Turin; Ernest Hawkins, Negaunee.
Coroners—Peter A. Niemi, Ishpeming; Frank Vivian, Ishpeming.
