

THIS Bank wants the savings account of the small depositor as well as the large. It is interesting to look over the accounts and notice that the small depositor of ten years ago who has been saving a little each month is now classed as a large depositor. If others have made a success of saving so can you. Remember, it is the nickel spent here and there that uses up the surplus which, if saved, will soon make a bank account of goodly proportion for you.

THEATRICAL.

"The Boys of Company B"

Charles Hoyt pictured the militiaman beautifully in "The Milk White Flag." Rida Johnson Young puts him in nearly as an amusing light in "The Boys of Company B," her aim being merely to picture nice, agreeable young gentlemen in a possible employment of energy and harmless mischief. The curtain rings up upon a "sun room" in a militia colonel's residence, fixed up as a gym redolent of college rather than government volunteers, and here some frisky young men who loaf about are fanning each other with boxing gloves and putting up as good a bluff as a prize fight might, with real smashing going on. Rida Johnson

Young who is responsible for "Brown of Harvard" and "Ragged Robin," has in "The Boys of Company B" in her jolliest mood reeled into the dramatic ring with another crop of those engagingly nealy youths of raw and unripe masculinity, who seem to have suddenly become idols of the footlights, being this time young militiamen. William Jossey, of the Pierce Associate Players, appears in the role formerly played by Jack Barrymore and gets away with the part nicely. Miss Blanche Douglas is seen as one of those American society women which offers this admirable actress splendid opportunity. "The Boys of Company B" will prove a delightful treat for those enjoying a bully good comedy. "Soldiers of Fortune" and "The Prisoner of Zenda" will also be seen here by this fine company who won many friends here recently. The visit of the Pierce Players in Marquette will be limited to three

PUTS TEARS IN THE EYES OF PINCHOT

Conservation Congress Gives Former Chief Forester an Almost Hysterical Welcome.

(Continued from Page One.)

such sites should be withdrawn and leased for the profit of the pleasure of the federal government. Against this the whole West rightly protests. The water power differs from the coal deposit in that it is not destroyed by use. The attempted federal control of water powers is illegal, because the use of the waters within a state is the property of the state and cannot be taken from it, and that the state may and actually does, in the case of Idaho for example, perfectly safeguard its water powers from monopoly and make them useful without extortion.

There remains an opportunity and a need of conservation transcending in value all others combined. The soil is the ultimate employer of all industry and the greatest source of all wealth. It is the universal banker. Upon the maintenance unimpaired in quantity and quality of the tillable area of the country its whole future is conditioned. With the exception of the increase in breadstuffs in 1907-8 caused by our desperate need to send something abroad that would bring in money to stay a panic, the decline is constant and enormous. A continuance of similar conditions, and no change in sight, must mean partial food famine and hardship prices in the home market; an annual indebtedness abroad which, having no foodstuffs to spare, we must pay in cash; and financial depression and industrial misfortune because we have drawn too unwisely upon the soil.

This impending misfortune only the conservation of a neglected soil and all the interests connected with it can avert. At our present rate of production and consumption we may cease to be a wheat exporting nation within the next ten or fifteen years, perhaps earlier. Is there any other field where conservation could produce results so immense and so important?

"Any survey of practical conservation would be imperfect if it omitted the almost desperate necessity at this time of conserving capital and credit. Our states, including cities and minor civil subdivisions, have run in debt about three quarters of a billion dollars in the last twelve years. Public expenditure is increasing everywhere. Public economy is a virtue either lost or despised. Any conservation movement worthy of the name must place high upon its program the saving of capital and credit from the rapacious hands of socialist as well as monopolist. Extravagance is undermining the industry of this country as surely as the barbarians broke down and looted that mighty empire with whose civilization and progress Ferrero repeatedly insists that ours has so much in common. "The tariff in some respects is a great enemy of conservation. Whatever we may think of it as a general industrial

policy, every one can see that, by excluding the raw products of other countries, it throws the entire burden of their consumption upon our own resources and thus exhausts them unnecessarily. The tariff on forest products cuts down our own forests, a tariff on coal depletes our mines, a tariff on any raw material forbids the conservation of similar natural resources here.

"Conservation is wholly an economic, not in any sense a political principle. The nation has suffered and still suffers so much from transferring other economic questions to politics that the mistake should not be repeated. Whoever attempts to make conservation the bone of a personal controversy or the beast of burden to carry any faction into power or popularity is its worst enemy. Conservation does not mean forbidding access to resources that could be made available for present use. It means the freest and largest development of them consistent with the public interest and without waste."

ENGLISH AVIATOR STRIVES FOR PRIZE OF \$10,000.

Boston, Sept. 7.—Claude Graham White, of England, sailed out to Boston light and returned today in a Bleriot monoplane, the first competitor for the \$10,000 prize of the Harvard-Boston aero meet. The course was thirty-three miles, consisting of two trips of seven miles each straight down the harbor to the light and return, and then a number of turns to make the total mileage. The Englishman established a mark of 40 minutes, 13.5 seconds, which if not bettered before the meet closes Tuesday night will give him the prize.

OLDFIELD'S RECORD DISALLOWED BY THE AUTOMOBILE BOARD.

New York, Sept. 7.—The automobile record of a mile on a circular track, 50 2-5—made by Barney Goldfield at Brighton Beach last Monday was disallowed today by the American Automobile association contest board. Thus the record of Ralph De Palma of Minneapolis, in 1909, remains official. This is 50 4-5.

WEALTHY AUTOMOBILIST HELD FOR CAUSING A GIRL'S DEATH.

New York, Sept. 7.—"Guilty of criminal negligence." This was the verdict found today by the coroner's jury against Edw. T. Rosenheimer, a young millionaire, whose motor car killed Grace Hough, the nineteen-year-old daughter of a policeman, Aug. 18. The coroner refused to admit Rosenheimer to bail. The chauffeur, Milton Fischer, and his friend, Lewis Schumann, both in the car, were held in \$10,000 bail each as accessories after the fact.

ROWED MORE THAN 150 MILES BEFORE PICKED UP AT SEA.

Boston, Sept. 7.—Bearing sixteen men rescued from a life boat of the foundered British steamer West Point, the Leyland liner Devonian arrived from Liverpool today. From the time the steamer foundered after burning, the West Point men rowed more than 150 miles before being picked up by the Devonian. Their sufferings were intense.

Fearing international complications would follow the continued attacks of the populace on the Bogota City Railway company, an American concern, which

has a franchise to operate a street car service, the municipality of Bogota, Colombia, has bought the franchise for \$80,000. The National Assembly strongly opposed the appropriation. The concession, given during the presidency of General Reyes, was always unpopular with the people of Bogota, and several times cars were stoned and the company compelled to suspend operations. Recently the line was boycotted.

STOCK MART CONTINUES IN VERY DULL STATE

Events Awaited to Stimulate the Trading Still Pass by Without Arousing Activity.

New York, Sept. 7.—Events which it was supposed were awaited to dissolve the uncertainty and hesitation of the speculation in stocks succeeded each other without bringing any relief to the dullness. The election news was without effect today and the attention was carried forward to tomorrow's government crop on the grain crop conditions. Should that fail to arouse activity in the dealings in stocks, the coming copper producers' report and the monthly statement of the unfiled tonnage orders of the United States Steel corporation will be brought forward as subjects on which light is desired. The disposition to cover shorts was enhanced today by the belief that tomorrow's government report on the crop conditions may show improvement. The spring wheat crop espe-

cially is believed to have made up part of its late deficiency to an extent to promise a prosperous total yield. The showing of the corn crop, even if favorable, is likely to be accepted with more reserve, owing to the conviction that the year will offer unusual hazards from frost damage, owing to the lateness of the crop in maturing. The weakness of foreign exchange was believed to have connection with the increasing supply of commercial bills in that market.

Chicago Grain Markets.

Chicago, Sept. 7.—With the export outlet shut off and with the milling demand practically so, wheat today declined, closing 3/4c@3/8c to 1 1/4c lower. There was continual liquidation by longs. One of the chief causes was a bearish estimate putting the wheat crop of Minnesota and the Dakotas at 170,000,000 bushels. Then, too, the world's available supply was shown to be 47,000,000 bushels larger than a year ago. Two leading houses were active on both sides of the market, selling on the bulge and buying on the breaks. The December opened at 101 to 101 1/2; highest, 101 1/2@101 3/4; lowest, 100 3/4; closed, 100 1/2.

Corn—After an easy opening, some backbone was put into the market on a forecast of much cooler weather tonight and tomorrow. Fears developed as to a possible frost. The close was unchanged to a shade higher. The December opened at 55 1/4 to 55 1/2; highest, 55 3/4; lowest, 55 1/4; closed, 55 1/2@55 3/4.

Oats—The market suffered from unloading by exhausted longs and made new low points. The world's supply was reported the largest on record. The close was 1/4 to 3/8c lower. The December opened at 35 1/2 to 35 3/4; highest, 35 3/4; lowest, 35 1/4; closed, 35 1/2.

Sold by The People's Drug Store.

QUALITY FURS

We Announce Our Immense Advance Showing of High-Class Dependable Furs

Every Woman will be interested in looking over our Superb Display of All the Newest Creations in Stylish

NECK PIECES, MUFFS and COATS

Our very early purchases enabled us to secure the Choicest Skins on the market for our Sets and Garments, at the same time taking advantage of the then existing low prices, because manufacturers of furs always advance their price as the season advances. We are therefore in a position to give our customers the advantage of our early purchases.

As a Special Inducement to make your selection on or before September 17 we will allow a **Discount of 10 Per Cent**

Any Woman that anticipates buying a Fur Set or Coat, will do well to take advantage of this rare opportunity. You can make your selection now while our assortment to choose from is complete, and by making a small deposit we will keep your Set or Coat in storage until November 1st.

"WHERE FASHION REIGNS" **A. L. Guetter** MARQUETTE, MICHIGAN.

Every woman knows that there is much deception in Furs. Many people are often deceived into buying an inferior Fur and pay the price of the genuine. We have had many years of experience in the handling of the raw and manufactured article and are therefore qualified to give expert advice. We do not have fancy names for our Furs, when selecting any thing from us you are told the exact nature of the article. In other words with us a Raccoon is a Raccoon, and a Fox a Fox. When we sell imitation Lynx it is sold as such and is not called the genuine.

HUGHES-MALLONEY.
Popular Ishpeming Couple United in Marriage Yesterday Morning.

One of the prettiest weddings of the season took place yesterday morning at 8 o'clock at St. John's church, when Miss Agnes Esther Hughes and Thomas J. Malloney were united in marriage. The ceremony was performed by Rev. J. A. Keul, the pastor. William Malloney, brother of the groom, was best man, and Miss Henrietta Wiltzias of Milwaukee, was bridesmaid.

The bride wore a white net gown over tulle, a white picture hat and carried a shower bouquet of lilies of the valley. The only ornament worn was a sapphire pendant, the gift of the groom. The bridesmaid was attired in an embroidered burnt coral robe and wore a white picture hat. The church was prettily decorated with palms and ferns.

At the conclusion of the ceremony, dinner was served to immediate relatives at the home of the bride's mother, Mrs. Joseph Carney. Mr. and Mrs. Malloney left on the evening train for New York, Boston, Chicago and Milwaukee, to be absent three weeks.

Both Mr. Malloney and his bride were born and reared in Ishpeming and they are married in the town which has been a happy and prosperous life. The bride has been a teacher in the public schools here since she was graduated from the Marquette normal. Mr. Malloney is a traveling salesman for the Swift company, making his headquarters here, and representing the Ishpeming branch. The newly wedded couple will begin house keeping soon after their return to the city.

Both Mr. Malloney and his bride were born and reared in Ishpeming and they are married in the town which has been a happy and prosperous life. The bride has been a teacher in the public schools here since she was graduated from the Marquette normal. Mr. Malloney is a traveling salesman for the Swift company, making his headquarters here, and representing the Ishpeming branch. The newly wedded couple will begin house keeping soon after their return to the city.

ISHPEMING IN BRIEF.

T. H. Wallace of Champion was a visitor in the city yesterday.

C. F. Zielke and wife of Detroit are the guests of J. D. Spitzer and family.

W. T. Carpenter, a well known resident of Iron Mountain, was in the city yesterday.

The Misses Gertrude Miller and Emma Smith of Menominee are visiting at the home of F. H. Berg.

Miss Mary Casey has returned from Green Bay, where she visited Mrs. Con Curran for a few weeks.

Mrs. Miles Sparks and her two children have returned from a visit with relatives in the lower peninsula.

F. H. Nickerson, traveling representative of the I. E. Swift company, of Houghton, was in the city yesterday.

Rev. P. Bordas, pastor of St. Joseph's church, has returned from a three months' visit in Europe.

Charles Johnson has lowered the plate glass windows in his business block on Cleveland avenue, opposite F. Braastad & Co.'s block. Transoms have been put in above them.

Births recorded in the city yesterday were a daughter to Charles Anderson and wife, 812 North Third street; a son to Mr. and Mrs. Isaac Juntunen, 503 Jasper street, and a daughter to Charles Larson and wife, 402 South Third street.

The larger boys of the high school are starting to practice football, with a view of organizing a team. As most of the boys who played in last year's team have returned to school, it is expected that the eleven will be a good one.

Frank Brown, Jr., supervisor of Michigan township, was here yesterday, having stopped off between trains on his way home from Marquette, where he delivered the election returns of Michigan township to the county clerk.

The election returns in Ishpeming, as well as in the nearby townships, show that in the race for the nomination of lieutenant governor, Ross received about as many votes as Dickinson and Rice combined. No particular work was done here in the interest of either of the three candidates.

The Settlers' baseball team of this city defeated the Republic nine at Republic on Labor Day by a score of 18 to 14. Nearly all of the members of the Settlers' team slugged the ball and the nine had five home runs to its credit. Charles Jacobson was in the box for the Settlers and Roy Pirin wore the mask. Jarvala pitched for Republic and Johnson caught. The Settlers will play the Negaunee Buffalos Sunday morning at the Union park.

The reception and hop tendered Dr. and Mrs. Joseph Vandewater Tuesday evening at Braastad's Hall was a most delightful function. Nearly seventy-five families, all of them old friends of the doctor and his wife, were present. The hall was prettily decorated with autumn leaves, palms, etc., and a dainty lunch was served. Trombly's orchestra furnished the music.

LAWRENCE COLLEGE
Appleton, Wis.
One of the Strongest and Best Colleges in the Middle West.

Three departments, including college of liberal arts, music, expression; twelve buildings; extensive laboratories; good museum, large library; strong faculty; Christian Ethic; high standards of scholarship; 184 courses— are some of the things indicating the strength of the college.

Send for catalogue.

4-23-3m SAMUEL PLANTZ, President.

DON'T BREAK DOWN.

Severe strains on the vital organs, like strains on machinery, cause break-downs. You can't over-tax stomach, liver, kidneys, bowels or nerves without serious danger to yourself. If you are weak or run-down, or under strain of any kind, use Electric Bitters, the matchless remedy. Mrs. J. E. Van de Sande, of Kirkland, Ill., writes: "That I did not breakdown while enduring a most severe strain, for three months, is due wholly to Electric Bitters." Use them and enjoy health and strength. Satisfactory results guaranteed. 50c. at The Stafford Drug Co.

A RELIABLE MEDICINE—NOT A NARCOTIC.

Mrs. F. Marti, St. Joe, Mich., says: "Foley's Honey and Tar saved my little boy. She writes: 'Our little boy contracted a severe bronchial trouble and as the doctor's medicine did not cure him, I gave him Foley's Honey and Tar in which I have great faith. It cured the cough as well as the choking and gagging spells, and he got well in a few days. Foley's Honey and Tar has many times saved us much trouble and we are never without it in the house.'"

Furniture upholstering and hair mattresses made over. Franklin Wade, at Swanson & Person's store. Both phones. (9-1-4)

First-class piano tuning done by M. J. Olson. County phone, No. 523. 430 East Ridge street. (1-12-4)
