

BARS LORIMER FROM BANQUET IN WINDY CITY

Theodore Roosevelt Refuses to Attend the Elaborate Function of the Hamilton Club in Chicago if the Junior Senator from Illinois Is Among the Guests.

His Demand That the Organization Shut Out One of Its Own Members Comes With Characteristic Bluntness—It Causes a Sensation, but Is Complied With.

Chicago, Sept. 8.—Colonel Roosevelt today barred Senator Wm. Lorimer, of Illinois, from the Hamilton club banquet at the Congress Hotel tonight by refusing to sit at the same table with him.

The unprecedented demand that the Hamilton club deny one of its own members the privilege of attending the banquet came with characteristic bluntness from Mr. Roosevelt.

A Hamilton club delegation headed by former Judge John H. Batten joined Mr. Roosevelt at Freeport shortly after noon. The colonel at once began questioning his hosts concerning the banquet.

Delegation Is Amazed. The committee members were amazed and after some hesitation informed the distinguished guest that they would go back to Chicago and tell Senator Lorimer his views.

The delegation was perplexed. Mr. Roosevelt chatted with others standing near while the perturbed committee consulted as to what should be done. Finally the following program was dispatched to Senator Lorimer:

Big Crowd Out to Greet Him. Mr. Roosevelt's experiences on the way from Milwaukee were lively. At the various towns at which the train stopped large crowds were out to greet him, and he made a number of speeches.

Senator Takes It Coolly. Mr. Roosevelt's demand was given to Mr. Lorimer when the senator reached his office in the president's room of the LaSalle Street National bank.

Mr. Roosevelt's demand was given to Mr. Lorimer when the senator reached his office in the president's room of the LaSalle Street National bank.

EX-PRESIDENT ADMINISTERS DENUNCIATION

Political Conditions in Illinois Are Condemned by Col. Roosevelt in Scathing Terms—He Calls for Their Purification and the Punishment of the Guilty.

Scene in Chicago Banquet Hall as He Hurts This Verbal Bomb Is Wildly Enthusiastic—1,200 Diners Rise and Cheer Speaker at the Top of Their Voices.

Chicago, Sept. 8.—Standing tonight in the presence of two hundred men, nearly all of them citizens of Illinois, Theodore Roosevelt brought his hearers to wild enthusiasm by a scathing denunciation of political conditions in Illinois.

After his introduction Mr. Roosevelt declared that he was about to talk of delicate matters which nevertheless were matters to be treated only with directness.

Following this he took up the condition of Illinois politics described by witnesses in the present trial of Lee O'Neil Browne for bribery in connection with the election of William Lorimer to the United States senate.

After ending his speech Mr. Roosevelt was to have attended a reception in another room of the hotel, but when he reached this room, but for some time was unable to make his way through the cheering crowd.

Mr. Roosevelt read an open letter by William R. Hearst in which Mr. Hearst advised the colonel to return to the New York and take up the fight on the Republican organization there.

Mr. Roosevelt's experiences on the way from Milwaukee were lively. At the various towns at which the train stopped large crowds were out to greet him, and he made a number of speeches.

Mr. Roosevelt's experiences on the way from Milwaukee were lively. At the various towns at which the train stopped large crowds were out to greet him, and he made a number of speeches.

ACCEPTS HEARST'S AID IN FIGHT WITH BOSSES

Roosevelt, too, Admits There Is a Possibility of His Returning to Public Life.

Freeport, Ill., Sept. 8.—Theodore Roosevelt admitted today that there was a possibility of his returning to public life. He issued warning to corrupt corporations that any aid which might extend him in obtaining any official place would be at his own peril.

Mr. Roosevelt read an open letter by William R. Hearst in which Mr. Hearst advised the colonel to return to the New York and take up the fight on the Republican organization there.

Mr. Roosevelt's experiences on the way from Milwaukee were lively. At the various towns at which the train stopped large crowds were out to greet him, and he made a number of speeches.

THE WEATHER

Washington, Sept. 8.—The following is the weather bureau's forecast for Upper Michigan: Fair, Friday, rising temperature; Saturday, brisk northwest winds, diminishing and becoming variable.

BASEBALL

STANDINGS OF THE TEAMS. National League. Chicago 84, Pittsburgh 75, New York 70, Philadelphia 65, Cincinnati 64, Brooklyn 60, St. Louis 49, Boston 44.

American League. Philadelphia 87, Boston 73, Detroit 72, Washington 59, Cleveland 55, Chicago 49, St. Louis 38.

American Association. Minneapolis 97, Toledo 80, Columbus 79, St. Paul 76, Milwaukee 67, Indianapolis 60, Louisville 53.

GAMES SCHEDULED FOR TODAY. National League. Brooklyn at Philadelphia. Boston at New York. American League. Chicago at St. Louis. Detroit at Cleveland. Philadelphia at Boston. New York at Washington.

YESTERDAY'S GAMES. National League. Chicago, Sept. 8.—Borow was knocked out of the box in the first round. Score: R. H. E. Chicago 3, Boston 2.

Pittsburg, Sept. 8.—The good pitching of Harmon won for St. Louis. Score: R. H. E. St. Louis 2, Pittsburg 1.

New York, Sept. 8.—New York and Boston played a ten-inning tie. Score: R. H. E. New York 0, Boston 0.

Philadelphia, Sept. 8.—Philadelphia hit the ball hard and won. Score: R. H. E. Philadelphia 10, Boston 1.

Boston, Sept. 8.—Errors by the locals gave Philadelphia the game. Score: R. H. E. Philadelphia 1, Boston 0.

Cleveland, Sept. 8.—Cleveland bunched its hits. Score: R. H. E. Cleveland 10, Detroit 3.

Washington, Sept. 8.—Warhop was a puzzle to the locals. Score: R. H. E. Washington 2, St. Louis 3.

St. Louis, Sept. 8.—Olstead pitched a one-hit game in the first contest today. Score: R. H. E. St. Louis 0, Chicago 0.

COAL MINERS TRIUMPHANT IN ILLINOIS

Wage Scale Demanded by the Workers Is Signed by a Committee Representing the Operators' Association, and the Prolonged Strike Comes to an End.

Thousands of Men Idle the Past 23 Weeks Will Now Return to the Pits, Although It Will Require a Fortnight to Put the Collieries in Condition to Produce.

Chicago, Sept. 8.—The strike of the Illinois coal miners, which had been in progress twenty-three weeks, came to an end here today, when a committee of the Illinois Coal Operators' association signed an agreement adopting the wage scale outlined by the Peoria miners' contingent.

The adoption of the scale is held by the miners as a complete victory. It carries a general increase of three cents a ton throughout the state and an increase of five cents in the northern fields and six cents in Franklin and Williamson counties.

Seventy-two thousand men quit work when the strike was declared. Since that time twenty-eight thousand have returned to work as individual mine owners have signed the scale.

Chicago, Sept. 8.—Bowen was knocked out of the box in the first round. Score: R. H. E. Chicago 3, Boston 2.

CHANGES IN VALUES ARE INSIGNIFICANT

Stock Market a Dull and Narrow Affair—Crop and Copper Reports Disappointing.

New York, Sept. 8.—The small contingent of operators in stocks laid aside political considerations today in the conviction, apparently, that they had lost their power to influence prices.

Chicago, Sept. 8.—Speculators in wheat today expected the government crop report to show an increase in the spring wheat yield as compared with last month.

Chicago, Sept. 8.—The August production made a record for any month since the statistics of the present association have been compiled, rising nearly half a million pounds over the previous record month—June—this year.

Chicago, Sept. 8.—Representative Edwin Denby, of Michigan, a Republican member of the Ballinger-Pinchot investigation committee, tonight denounced the action of the five members who yesterday adopted a resolution declaring that Secretary Ballinger "was not a faithful trustee of the people's interests."

Chicago, Sept. 8.—Representative Edwin Denby, of Michigan, a Republican member of the Ballinger-Pinchot investigation committee, tonight denounced the action of the five members who yesterday adopted a resolution declaring that Secretary Ballinger "was not a faithful trustee of the people's interests."

Chicago, Sept. 8.—Representative Edwin Denby, of Michigan, a Republican member of the Ballinger-Pinchot investigation committee, tonight denounced the action of the five members who yesterday adopted a resolution declaring that Secretary Ballinger "was not a faithful trustee of the people's interests."

BAD ACCIDENT TAKES PLACE ON BATTLESHIP

Three Sailors Meet Death on the Dreadnought North Dakota and Nine Other Members of the Crew Suffer Injuries of More or Less Serious Nature.

Fort Monroe, Va., Sept. 8.—Another of those tragedies which go to show that a sailor offers his life to his country in time of peace as well as in war was enacted this morning on the dreadnought North Dakota when the ship was twelve miles from Old Point, in Lower Chesapeake bay.

LEAD OF TOWNSEND AND OSBORN GROWS

Kelley Congratulates the Soo Man—J. Q. Ross the Nominee for Lieutenant Governor.

Detroit, Sept. 8.—The plurality of Chase S. Osborn for the Republican nomination for governor has tonight grown to 33,000, with the probability of attaining still larger figures before the final returns come in.

Sault Ste. Marie, Mich., Sept. 8.—Chase S. Osborn this afternoon received the following message from Patrick H. Kelley: "The contest is over and you have won. Please accept my congratulations on your nomination."

Chicago, Sept. 8.—Three persons—two women and a man—were injured to death in South Chicago tonight when their automobile crashed into a car loaded with molten slag from the plant of the Wisconsin Steel company.

Chicago, Sept. 8.—The pope today issued a proclamation outlining new and practical measures to be taken against the growing modernist campaign. The pontiff reiterates all of the rules previously set forth against modernism and adds that the bishops and the rectors of Catholic colleges must watch attentively the development of the young clergy, seeing to it that they are well prepared to fight erroneous doctrine and for bidding them to read newspapers and periodicals in other ways to see that they are not distracted from their studies.

London, Sept. 8.—At the resumption today of the trial of Dr. Crippen evidence was introduced to establish the claim of the crown that the parts of the mutilated body found in the Crippen home once formed part of the person of the missing wife and to so strengthen what has been popularly regarded as the missing link in the chain of circumstantial evidence against the accused.

Paris, Sept. 8.—George Chavez, of Peru, broke the world's aviation record for height today, rising in a monoplane 8,792 feet. The best previous record was made by Leon Morane, whose mark was 8,471 feet.

Boston, Sept. 8.—President Taft today was an interested spectator at the aviation meet. There were eighteen events today.

Santiago, Sept. 8.—The papal representative here, Monsignor Sillita, caused a sensation today by withdrawing from the cathedral with his secretary during the funeral services of Vice President Fernandez Albano. He complained that he has been placed below the special ambassadors appointed to the centenary celebration.

ANN ARBOR—A piece of balsam peel which lodged in his windpipe, caused the death of Fred, the six-year-old son of Mr. and Mrs. Fred Kapp, of Superior township. The youngster had the peel in his mouth, and, inhaling suddenly, sucked it into his windpipe. Before help could reach him, he had strangled to death.

New York, Sept. 8.—Oscar Hammerstein confirmed here tonight the reports recently cabled from London, England, that he would build a new grand opera house there.

City Brevities

Today's weather: Fair and colder. Yesterday's temperatures: Seven a. m., 70 degrees; noon, 67; 7 p. m., 56. Maximum, 72 degrees; minimum, 50.

Clarence Brown, of Fostoria, Ohio, is visiting with his parents, Mr. and Mrs. George P. Brown.

Nearly all of the stores were closed yesterday afternoon on account of Marquette day at the fair grounds.

Persons having bills against the Marquette baseball association are asked to present them as soon as possible.

The members of St. Paul's choir are requested to be at St. Paul's church at 3 o'clock this afternoon to attend the funeral of Warren Elliott.

John Koussil has returned from Minneapolis, where he attended the Minnesota state fair with his brother, Walter, of that city.

The Baptist Ladies' Aid and Missionary societies will meet with Mrs. Jane Smith, High street, this afternoon at 2:30 o'clock. It is requested that there be a full attendance.

The remains of the late Warren Elliott will arrive in the city this morning and will be taken to the home of D. W. Powell. The funeral will be held at St. Paul's cathedral at 3 o'clock this afternoon, conducted by Rev. Bates G. Burt.

Death of Anna Plattenberg—Anna S. Plattenberg, fifteen years of age, daughter of John Plattenberg, 223 West Washington street, passed away at St. Mary's hospital at 10:30 o'clock last night. She was ill only a few days. Arrangements for the funeral have not yet been made.

Death of Two Children—Two infants died in this city Thursday night: Emil Haapala, son of Emil Haapala, 722 Washington street, aged thirteen months, and Helen Closs, daughter of Wm. Closs, 231 West Crescent street, aged one year. Both funerals will be held this afternoon from the homes of the bereaved parents; that of Helen Closs at 2 o'clock, and that of Emil Haapala at 3 o'clock.

Fifty-One Examined—The examination of fifty-one candidates for citizenship occupied the attention of circuit court yesterday, and there about as many more to be examined today. Thirty-seven were admitted to citizenship yesterday, nine cases were continued and five were dismissed. Merton Sturges, United States naturalization examiner, assists in the examining of the applicants and their witnesses. No jury trials will be heard until Monday.

Another Band in Town—Another of those "German" bands dropped into Marquette yesterday, and proceeded to "make home bow" with plenty of noise, if not much music. This "german" organization, most of the members of which probably never saw Germany, do not make much of a showing, compared with Mummolo's band, which gives several free concerts each day this week, not even passing the hat after having played a couple of selections. These itinerant "german" bands are getting so numerous as to be almost, if not quite, a nuisance.

Fire at Big Bay—The planing mill of the Lake Independence Lumber company at Big Bay was totally destroyed by fire about 4 o'clock Tuesday morning. The cause of the fire is unknown, and it was noticed about fifteen minutes after the watchman had made his rounds. From the first, there was no hope of saving the building, and within twenty-five minutes, it was in ruins. About 100,000 feet of fine lumber, piled near the mill, was also burned. The extent of the loss could not be estimated last evening, but the building and machinery are a total wreck. The loss is partially covered by insurance.

Rain at Street Fair—Heavy showers last evening interfered with the Macabees street carnival, but the grounds opened during the early evening until the storm broke. The present standing in the Doll contest is as follows: Ruth Tobin, first; Hortense Libershal, second; Muriel Price, third; Vera Hartman, fourth; Eloyia McNulty, fifth; Edwidge Gagnon, sixth; Charlotte Marvin, seventh; Norma Schaefer, eighth; Lois Atkins, ninth; Katherine Little, tenth; Salome Mosher, eleventh; Agnes Griffin, twelfth; Mary Gulhke, thirteenth; Belle Anderson, fourteenth. In the Queen contest, Belle Smith is first and Anna Johnson, second. The contest will close at noon today, with public voting in front of Hager Bros' store from 11:30 until 12:30, at which a concert will be given by Mummolo's band. All the shows at the carnival will be open this afternoon. This will give the children a good opportunity to see "The Model City." The high dive of Professor Matt Gray will take place at 4:30 o'clock, and trapeze act at 2:30.

Drumrey Resigns Management—L. H. Drumrey last evening threw up the sponge as manager of the second team on account of dissatisfaction among some of the players over the division of the receipts of Tuesday's game at the Fair grounds. It appears that Manager Drumrey wished to hold out some of the money in order to meet regular expenses in case rain should stop Sunday's game with Munising. Sunday night the remainder of the purse was to be divided equally among the players. Some of the boys did not approve of this and then a battle of words took place, which ended in Drumrey resigning. The second team has been under the management of Mr. Drumrey for the last two years, and this is the first time an affair of this kind has come up. Ed Smith, who has been captain and assistant manager of the team, will take hold of the team Sunday, which will be the last game played.

INSURE WITH PETER WHITE & CO. State of Ohio, City of Toledo, Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the city of Toledo, county and state aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case in which said patent shall not be cured by the use of Hall's Catarrh Cure.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1888. A. W. GLEASON, Notary Public. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free. CHENEY & CO., Toledo, O. Sold by all druggists, etc. Take Hall's Family Pills for constipation.

HERE AND THERE.

The United States government has spent more than \$250,000,000 for the improvement of inland navigation and more than \$40,000,000 for irrigation.

The largest railway company in England, the Great Eastern, has a locomotive nearly every mile of the system; there are 3,000 miles and nearly 2,600 engines.

Don Luis Tarrazas, whose Mexican farm is 150 miles in extent north to south and 200 miles from east to west, is receiving some government attention on account of the magnitude of his holdings. His "farmhouse" is the most magnificent in the world—a palace, costing \$1,000,000 in gold, superbly furnished, with rooms for 500 guests.

The oldest mummy known was discovered in the Medun pyramids in 1891, and now is in the museum of the Royal college of Surgeons. Its age is 2700 B. C. and it is eleven centuries older than any mummy yet discovered that was not a man and a hound and a bunch of hair. But there is every evidence that the Egyptians had been bungling along trying to manufacture mummies for a thousand years before this old chap had been turned out of the mummy mill.—New York Press.

The Swiss, so a Paris paper reports, invent all kinds of cures to attract visitors to their country. Just now it is the asparagus cure in Valais. Thanks to the aluminum, there is an abundance of asparagus in the land of the Rhone valley, and it is exported to various countries of Europe. The cures begin about the end of May, and the patients make asparagus their principal diet. Meat is rigorously banished. It is widely heralded that this vegetarian diet is a most effective cleanser of the system, and moreover the cure has cheapness to recommend it.

By act of parliament in 1569 every Scotch householder with \$2,500 to his credit had to provide under penalty of \$30, 7/8 hilde and palms buke in vulgar language in their honiss for the better instruction of thame selfs and their famielles in the knowlege of God." The condition of the times gave added value to such a regulation. Books being compelled to buy it may have been a financial hardship; but having it and next to no other look at all made opportunity for good intellectual and spiritual delight.—Northwestern Christian Advocate.

Peter C. Thompson's factory occupies a large tract in Hamilton, O. To supply himself with wood pulp he owns thousands of miles of timber lands in the Carolinas. His place on College hill is the most magnificent residence and personal estate in Ohio. It is modeled after Marie Antoinette's Le Petit Trianon and is filled with rare tapestries, ceramics and other art treasures. In his earlier life Thompson was a wellknown athlete, and he has a collection of medals and trophies to show for those days. By the way, the little Trianon was not built originally for Marie, but for Du Barry.—New York Press.

William Clemo, of Carbondale, Pa., has just perfected a machine for stripping coal lands that will dig and dump in only a few minutes every two minutes with only seven employees. He built the first device himself four years ago, shortly after he entered the business of contracting for stripping top veins of coal land. Since then he has improved on his invention and it is believed the machine has solved the problem of stripping coal cheaply and quickly. With his one machine he has mined over 100,000 tons of coal.

A STRANGE DISEASE.

New York Family Afflicted with Gangrenous Ergotism.

Suffering from gangrenous ergotism, one of the rarest of diseases, Catherine and Jeannette Florence, of 504 West 185th street, New York, are in the J. Hood Wright hospital; Joseph Florence, their father; Mrs. Rose Florence, their mother, and Joseph Florence, Jr., their brother, are being treated daily at the dispensary of the hospital for poisoning of the same nature. Both feet and the left ear of Catherine, who is twenty-two years old, have turned black with the taint. The right foot of Jeannette, who is sixteen, has been dangerously infected, and the mother's index finger, the toes of the father's right foot, and the same members of the son all show the presence of the virus.

The infection came to the family through their fondness for rye bread. They have eaten it constantly for years, but a month ago they quit, because the bread they were getting didn't taste just right. It was this fact that gave Dr. J. S. McGinnis, the house surgeon of the hospital, his first clue to the nature of their affliction.

Damp rye, when ground into flour, often forms ergot, and when Dr. McGinnis learned that the Florence had taken to wheat bread because there seemed to be something wrong with the rye they were getting he believed that he was on the right trail. Reference to a few texts from Germany, where the poisoning is comparatively wellknown convinced Dr. McGinnis that he was right, and he took steps accordingly. The two girls applied for treatment at the dispensary a week ago. At their visit, Dr. Lucas, who was in charge, advised them to enter the hospital. They went at once, but the poison had already come to the surface, and it was only by the use of heroic measures that amputation was avoided. The necessity of it may yet arise, but the surgeons are hopeful that they began their treatment in time.

The other members of the family were not so seriously affected as the two girls were, but they are being treated daily and it will be some time before they can be declared out of danger. A report of the extraordinary case has been made to the board of health, and an official inquiry is being made into the source of the flour from which the bread that poisoned the Florence family was manufactured. This is said to be the first appearance of ergotism in America. It is somewhat common in countries where rye bread is a staple and has been studied closely enough to determine its nature and its consequences. "The famine of three years ago in Russia had its horrors heightened by the appearance of ergotism, and in three of the Black Sea provinces no less than one-

tenth of the population was permanently disabled by its ravages. Ordinarily it causes a permanent contraction of the limbs, which is followed by blindness and idiocy."—New York World.

FROZEN COAL SHAFTS.

Perhaps it is not generally known that there are such things as coal mines in Holland; yet Holland's mines were the very first of all continental mines to be discovered and exploited. Indeed, two of them were in use in the middle ages, although the quantity of coal then obtained was of so little importance as to be measured in pounds.

It was only after 1860 that the mining industry came to be more seriously considered when several concessions were given out in the province of Limburg, not far from the Belgian and German frontier. These mines were, however, far from being a success, and several concessionaries failed. The reason for this unsatisfactory state of things was that the coal deposit lay everywhere beneath a thick stratum of drift sand that contained great quantities of water. It was therefore almost impossible to sink shafts through such unstable soil where the water constantly interfered with the work. The only place where no drift sand was encountered and where the coal was found immediately beneath the solid rock was near Kerkrade, where the two medieval mines were situated. In every other mine drift sand in layers of greater or less thickness overlay the coal, even in the seemingly solid chalk hills in South Limburg.

It was not until 1883 when Poesch invented the "freezing method" that Holland's coal fields became of any practical value. This freezing is a curious process. First of all, twenty-five to thirty borings are made down about five feet beyond the circumference of the projected shaft. Pipes are then sunk into the holes and powerful freezing machines circulate through them a chemical solution cooled down to minus 20 degrees Celsius. This solution does not freeze at that low temperature, but it causes everything that comes anywhere near it to freeze solid. In this way the drift sand containing water is frozen hard as a rock after the machines have been working day and night for two months. In this frozen cylinder of sand and water a shaft is then dug with the same case as when digging through sandstone. Not a drop of water percolates into the shaft, for the ice machines are kept working until it has been entirely lined from bottom to top with strong segments of cast iron, securely soldered together with lead.

If the shaft is deep the machines are kept working for a year or more; and the cost is pretty heavy, being on an average some 3000 florins (\$1200) per meter (39.37 inches). The deeper the hole the greater is the cost per meter; for instance, if a shaft is 650 meters deep the cost per meter would be 6000 florins (\$2400), so that the completed shaft would cost 3,900,000 florins (\$1,560,000). The method, however, is sure and there is little risk of accident. The coal layers in Holland are generally encountered at a depth of from 100 to 350 meters, so that all Dutch mines with three exceptions have been built by this process.—Cor. Chicago Daily News.

WHERE TUGBOATS FLOCK.

Around this harbor there are a dozen places where tugboats can get water for their boilers. From the nearest street main the city lays a pipe to a bulkhead or down to the end of the wharf and there sets up hydrants for the tugboats' use.

The capacity of the tugboats' tanks is known and each boat gets a yearly license to take water from these hydrants. Under this arrangement they run in anywhere to the nearest hydrant when in need of water and fill up.

Down at the end of South street where there are two such hydrants, one on either side and each with two outlets, here four boats can take water at once and it is a common thing to see that number of boats filling their tanks at the same time with maybe one or two or three more waiting their turn, a flock of tugboats lying around the end of the wharf.

When the boat is made fast a deck-hand drags the hose ashore and screws the coupling onto a hydrant outlet while aboard they drop the other end through the deck manhole into the tank, forward or aft. Sometimes you see hose led from the deck of a boat lying outside over the deck of a boat tied to the wharf.

Then all hands sit around and let the water run, shifting the hose from one tank to another on the boat till both tanks are full. Then they turn off the water at the same time taking a few turns on the wheel, and then the boat sheers off or works her way out of the ruck of boats and is off and away again, once more ready for business, while another boat is getting her nose ashore to couple onto the hydrant outlet just left.—New York Sun.

A STATUE OF A PRIEST.

Father Junipero Serra, the pioneer missionary of California, is to have his statue in the national capitol if Congressman Julius Kahn can get it there. "Every state in the Union is entitled to place two statues of its citizens in the Statuary Hall," says the congressman except California. This is not a private hall of fame, but one that was started by the federal government. When the old hall of the House of Representatives was abandoned as a meeting place it was set aside as a hall of statuary. It is there that these statues are being placed, and many of the good locations are already gone. I have always contended that one of the two statues from California should be that of Father Junipero Serra. He blazed the way for Caucasian civilization on the Pacific coast, and it would be eminently fitting that his statue should be one of those selected by California. The Legislature will, of course, have to appreciate what funds would be necessary for erecting the statue. Father Serra founded the mission of San Carlos at Monterey in 1770 and the mission Carmel in 1771. He helped to establish the mission Dolores in San Francisco. His was a noble and beautiful character. His life was given to God. He consecrated himself to work for the conversion of the Indians. He loved his kind. He lived a daily sacrifice. He died in peace. His statue would be an honor to the Capitol in Washington.

A Bright Young Lady Found That

There are no bargains to be had today in any grade of diamonds—why, simply because their value is advancing, not decreasing. Of course, there are grades and qualities in diamonds—you can buy diamonds at different prices per karat—but, high or low, price is always based on quality and color. Selling as we do but one grade of diamonds, the very best, you will find that our prices are fair and honest—lower than we can ever expect to replace the same goods in our stock—lower, we assure you—quality considered—than you can buy elsewhere. We invite the most critical expert criticism—as to our prices and the high grade quality of our diamonds. The strongest written guarantee goes with every diamond we sell.

#### OIL BEING USED ON FRONT STREET

Ishpeming Board of Public Works Is Experimenting With a New Preparation.

An oil preparation different from that used on Main and Division streets a few weeks ago is receiving a test on Front street, where men were employed yesterday spreading it. The preparation is manufactured by the Standard Oil company and a representative of the concern is here directing the work. Several blocks of the street will be sprinkled and if the oil proves a success the city will doubtless use more of it. The oil is not mixed with water, but is spread in its original form. After the sprinkler distributes it, men spread it over the surface of the street with heavy brushes. After the oil is thoroughly spread the surface is given a light sprinkling of fine sand. The street will be blocked for traffic until the preparation is thoroughly dry.

The oil has been used with satisfactory results in many places where the streets are macadamized with gravel or crushed rock. It is claimed that the oil will pay for itself in the saving of the sprinkling costs in a single season.

#### A STRONG ATTRACTION.

"The City" at Ishpeming Theater Wednesday an Important Offering.

Clyde Fitch's last play, "The City," which comes to the Ishpeming theater next Wednesday evening, is a drama showing the effects of metropolitan life on an ambitious and prosperous country family who move to New York city from an up-state town. Furthermore, it is a defense of the city, so dearly loved and so admirably interpreted by Mr. Fitch, as the crucible in which the essential good and bad qualities of men and women are more thoroughly brought to the surface; as the place too fraught with life and activity to tolerate the self-deceit and small hypocrisies which may flourish in lesser localities.

The most exact idea of the theme and the sentiment of "The City" is to be found in the dramatic and explanatory speech of the central character, George Rand, Jr., in the last act of the play. This outburst is called forth by the wails and lamentations of the other people in the play, who seek to blame the city rather than themselves for the various catastrophes with which they have been overwhelmed.

"No, you're all wrong," declares the young man on whom the brunt of retrospective justice has fallen heavily. "Do not blame the city. It's not her fault; it's your own. What the city does is to bring out what's strongest in us. If at heart we are good, the good in us will win; if bad, God help us. Do not blame the city. She gives man his opportunity; it is up to him what he makes of it."

The cast includes Norman Hackett, Geoffrey C. Stein, Josephine F. Shepard, M. H. Harriman, Ethel Martin, Susanne Willis, Dora Booth, and other well-known and capable players.

#### BIJOU THEATRE SOLD.

Negotiations for Transfer of Moving Picture House Closed Yesterday.

C. S. Sullivan, manager of the Royal moving picture theatres in Calumet and Hancock, yesterday purchased the Bijou theatre, in the Voelker block, from Al. and Emma Schott, and will take possession at the close of the performance tomorrow night. The house will be closed for at least two weeks, to permit improvements to be made. Mr. Sullivan will call the house the "Royal."

Besides purchasing the house, the new proprietor has secured a lease of the room from George Walker, the owner for six years. He intends to make a number of improvements, and will rearrange and redecorate the front, reconstruct the picture booths and redecorate the interior.

Two picture machines will be installed and two operators will be employed giving a continuous performance from 7:30 o'clock in the evening until the last program is finished.

Mr. Sullivan left yesterday afternoon for his home in Hancock and will return Monday morning, when Louis Erickson & Son will begin work on the alterations.

Mr. Sullivan and D. E. Rice, who is preparing to open the Lyric theatre in the Quayle block, are old rivals in the moving picture business, and there is reason to believe that the contest between them for patronage in the local houses will become quite spirited. They have clashed many times at Calumet and it is said that one is continually trying to outdo the other.

**D. T. Morgan & Co.'s Letter.**

There was little net change in the New York market today. Activity early in the session advanced prices somewhat, but later the market quieted down and prices receded to the opening level. The government crop report, which showed improvement over last month in all crops, but evidently was not up to expectations, as it brought some selling. Our New York correspondents say the report is good and no basis for bearish operations. They look for a better market. The Boston market was very active during the first hour, with North Butte, Superior Copper, Calumet & Arizona and Indiana making from 1/2 to 2 1/2 point gains. Gironx was active and fractionally higher, and Greene Cananea was freely traded in around 7. There was no special feature in the others, though nearly all participated in the trading to some extent. The Copper Producers' report shows a decrease of 120,423 pounds in the surplus metal, considerably less than had been predicted, but it should be remembered that this represents the June mine output. After the report was given out, the market became dull and somewhat weaker, with the Lake issues showing greatest weakness. Agomah was again the feature on the curb, and sold up to 13 1/2. This stock is being steadily bought by good people, and we are reliably informed it will rapidly advance on any favorable turn in the market. Bohemia and South Lake will also do much better.

**George F. Ruez's Review.**

The Copper Producers' report issued about 11 o'clock, although showing a decrease of nearly two million pounds in the copper surplus for the month of August, is not as favorable as expected, with the result that although the market was more active than for some time there was little change in prices. North Butte and Superior Copper showed the best gains for the day, advancing from 2 to 2 1/2 and from 4 1/2 to 4 3/4, respectively. Calumet & Arizona, East Butte, Gironx, Hancock, Agomah, Chino and South Lake were more active than usual, but at prices ranging within half a point of last night's closing. Actual figures of the Copper Producers' report are as follows: Surplus decreased 120,423 pounds; production, 127,800,000 pounds; increase of 9,437,015 pounds over June; domestic deliveries 47,232,121 exports, 61,831,780 pounds. Visible supply of copper in Great Britain, France and the United States comprising all but a very small percentage of the total of the world, is shown in the following as of Sept. 1: Europe, 218,444,800 pounds; United States, 108,881,244; total, 387,326,044 pounds.

**"ST. ELMO" TONIGHT.**

The Russell Stock company, playing this week at the Ishpeming theater, appeared to good advantage last night in "The Lady of Lobster Square." Tonight the company will present Augusta Evans-Wilson's famous book play, "St. Elmo." It was presented here last season at much higher prices than the Russell Stock company is charging.

members of the Bridge Whist club yesterday afternoon at her home on North Oak street.

The council will meet tonight, it having been adjourned from Wednesday evening on account of the absence of the quorum.

Messames Thomas Walters, D. T. Morgan and F. E. Tommeson entertained the members of the Dinner club Wednesday afternoon at the golf club house.

Messames W. H. Johnston, W. H. Moulton and Al. Meads will conduct a social in the Presbyterian church parlors this afternoon from 3 to 5 o'clock.

An important meeting of the local household of the American Yeomen will be held tomorrow evening. Following the business session refreshments will be served.

Mrs. George Jones and Mrs. Emma Kyrne entertained with cards yesterday afternoon at the latter's home for Mrs. T. Garrison and Miss Garrison, of Grand Rapids, Wis., who are the guests of Mrs. Jones.

J. Silverman, proprietor of the Fashion Suit company, arrived in the city yesterday and will remain a day or two. He recently returned from New York, where he spent a few weeks on a business mission.

In the Mining Journal's report of the vote for governor in the Seventh ward in Wednesday's issue, the figures were transposed. Osborn should have been credited with fifty-nine, Kelley twenty and Musselman fourteen.

Will Harrington and Joseph O'Neil left last night for St. Paul, where they will resume their studies at St. Thomas' college. Walter Lally, who is also home on his summer vacation, will leave tonight for Quebec, to resume his school work.

Births recorded in the city yesterday were a son to Alexander Anderson and wife, 311 West Ridge street; a daughter to Mr. and Mrs. Will Andrew, 220 East

MINING IMPROVEMENTS.

Republic Iron & Steel Company Doing Big Work Near Gilbert. A Negaunee mining man, who recently paid a visit to the Mesaba range, yesterday commented on the extensive work that the Republic Iron & Steel company, operators of the Cambria, Lillie and Bertford mines here, is making at its properties near Gilbert. The management plans to make the Schley and Pettit mines extensive producers. Over 500 men are now employed at these properties and both development and mining work will be continued throughout the winter.

RUSSELL COMPANY COMING.

The Russell Stock company, which is this week playing at Ishpeming theatre, and which filled an engagement last week at the Marquette Opera House for four nights, beginning next Sunday. From Negaunee it will go to Iron Mountain for three nights, and the company will close its tour in that city, as Mr. Russell and several other members of the troupe have accepted a contract for a permanent stock engagement in a theatre at Dayton, O. The opening bill here Sunday night will be "St. Elmo." Among the other plays to be offered will be "The Man on the Box." The prices here will be 15, 25, 35 and 50 cents.

HOUSEHOLD CARES.

Tax the Women of Marquette the Same as Elsewhere. Hard to attend to household duties. With a constantly aching back. A woman should not have a bad back. And she wouldn't if the kidneys were well. Doan's Kidney Pills make well kidneys. Here is a Marquette woman who endorses this claim: Mrs. Hattie Parker, 175 W. Crescent St., Marquette, Mich., says: "For several years I was a sufferer from kidney trouble. I had a severe pain in the small of my back and was also subject to headaches. I had but little strength or energy and could hardly attend to my work. I tried a number of remedies but did not succeed in finding relief until I procured a box of Doan's Kidney Pills at the Stafford Drug Co. They helped me from the first and I continued taking them until I felt better in every way. I do not hesitate to recommend this valuable remedy to anyone suffering from kidney trouble." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

MINING INSTITUTE.

Next Year's Meeting Will Be Held on Menominee Range.

W. J. Richards, who was elected president of the Lake Superior Mining Institute at the annual meeting held a few weeks ago at Gary, Ind., has announced that next year's session will be held on the Menominee range, with Crystal Falls as headquarters. Mr. Richards, who has been general superintendent of the Corrigan-McKinney properties in Michigan for some years past, feels highly honored by his election, and will endeavor to make the 1911 meeting one of the most enjoyable that the organization has ever held. It is several years since the institute met in the Menominee district, and many important changes and improvements have been made in the interval. Many new mines have been opened and those who attended the last meeting, and who have not been on the range since then, will hardly know the Iron River district. Dozens of new properties are now being developed. Important changes have also occurred at the Chapin mine, at Iron Mountain, and at the Dober and other properties in the Crystal Falls district.

EARLIER LABOR DAY.

Members of the labor organizations throughout the country are advocating a change in the date of Labor Day, in order that more favorable weather may be had for celebrations. An effort may be made to change the date to some day in August. Many of the celebrations throughout the country were marred this year by either rain or cold weather. In South Dakota there are two different dates for Labor Day, one for the lower part of the state, and the other for the Black Hills region.

STILL PICKING BERRIES.

The blueberry shipments have slackened off considerably during the past week, but the crop on the lake shore east of Marquette is said to be fairly good. Weather conditions have not been as favorable for picking during the past week as they were previously, and a number of pickers have left the field. An average of over fifty cases a day are now being transferred by the Western to the American Express company here, but occasionally the shipments are over 100 cases. The berries are still in fine condition.

CULLIS STILL IN THE LEAD.

The team average of the Negaunee league nine is now .250, and the individual averages are as follows:

LOCAL LACONICS.

A concrete walk is to be laid in front of the Montreal House, on Silver street. John Nesbitt is preparing to lay concrete walks in front of some of his properties on Cyr street. The Cleveland-Cliffs Iron company will pay its employees at the Negaunee, Jackson and Maas mines Wednesday of next week, the 14th. J. H. Primeau, Jr., who is to engage in the practice of law in Negaunee, opened his office in the Kirkwood block yesterday. Levine Bros. are enlarging their office in their Savings Bank store, in the Neely block. The office space will be more than twice as large as formerly. Mrs. John Spargo and daughter, who visited friends in Negaunee and Ishpeming for several days, have returned to their home in Kenton. Mr. and Mrs. H. E. Marsden, of Grand Rapids, were visitors in Negaunee yesterday. Mr. Marsden is a commercial salesman and travels through this section.

CURTAIN RINGS DOWN ON FAIR

Largest Crowd of Week in Attendance on Last Day—Directors Believe Increased Price of Admission Has Been Justified, Though Receipts Are No More.

Baseball Game Between Marquette and Ishpeming Was a Batting Bee, Marquette Winning, 8 to 3—Livestock Show Was Big Feature This Year.

The Marquette county fair of 1910 closed yesterday afternoon and by this morning all of the exhibits will have been removed.

Secretary Asire stated last evening that the total receipts would fall slightly less than last year, which means that only about one-half as many people paid to see the show.

The directors believe that no mistake was made in raising the admission price from twenty-five to fifty cents this year, and state that another year people will have gotten used to the increase.

Was a Good Fair. On the whole, the fair just closed was one of the best in the history of the agricultural society.

The show of poultry was by all odds the finest ever shown in this county, and revealed that Marquette county need not take a back seat in poultry raising anywhere.

A high wind and rather chilly weather made it rather disagreeable on the fair grounds yesterday and the grandstand was poorly patronized.

Marquette Won Game. With the wind blowing clouds of dust across the diamond and making it exceedingly difficult for the hitters to judge fly balls, classy baseball was impossible yesterday afternoon.

Both teams and the crowd as well were inclined to inject a good deal of comedy into the game, and no one was inclined to take things very seriously.

FARMERS SHOULD KEEP PURE BRED STOCK

History of Stock Raising at the Newberry State Hospital for the Insane.

One of the several fine herds of cattle shown at the Marquette county fair this year is that kept at the state hospital for the insane at Newberry.

The first pure bred Holsteins were purchased in 1897. These animals were purchased from a well-known breeder and one of the original importers of Holstein cattle in Michigan.

The first registered animals were purchased in 1902. The purchases consisting of five cows from W. K. Sexton, a well-known importer and breeder of Howell, Mich.

There is no economy and no money saved in buying for an active boy a cheap school suit.

Buy the Boy one of our XTRAGOOD Suits and let him go the limit in coasting, skating, running, jumping or any other kind of sport.
