

LOOKS LIKE A WATERLOO FOR TAWNEY

Minnesota's Standpat Congressman Is Running Behind His In-surgent Opponent in the Primary Election and Apparently Is Beaten by 2,000 Votes.

All the Other Representatives Are Renominated, Except Possibly in One District, the Fourth, Where the Returns Indicate the Contest Extremely Close.

St. Paul, Wednesday, Sept. 21.—Although the returns are incomplete it is reasonably certain at an early hour this morning that Congressman James A. Tawney, of the First district, who has been defeated for renomination by Sidney Anderson, an insurgent, a young attorney of Lanesboro.

Mr. Tawney, who is chairman of the appropriations committee of the house and a recognized standpat, has lost Freckorn and Olmsted counties, where he expected to run strong.

Mr. Tawney, who has been a member of congress continuously since 1892, apparently is beaten by 2,000 votes. He was attacked by Anderson as a "Cannont" the Minnesota congressman who voted for the tariff bill and the enemy of Roosevelt.

Frank M. Nye, of Minneapolis, is renominated in the Fifth district by a large majority, as is Clarence B. Miller, of Duluth. Congressmen Volstead, Stearnson, Davis and Lindbergh, all insurgents, also are renominated.

In the Fourth district, the result between Congressman Fred C. Stevens and Hugh Halbert has not yet been decided. An early hour this morning, but Stevens is running ahead and the indications are that he is the winner.

Senators Committee's Investigation Is Put Off for a Day. Chicago, Sept. 20.—No definite plan of procedure was reached today by the senate committee which is here to investigate the charges touching the validity of the election of Senator Wm. Lorimer.

Senators James B. Frazier, of Tennessee, and Morgan G. Bulkeley, of Connecticut—it was decided not to attempt to lay any plans for the work of the committee. Telegrams were sent to the absent members, urging them to come at once.

Attorney Seeks to Quash the Indictment Against Senator Broderick. Springfield, Ill., Sept. 20.—Attorney Thomas Dawson, counsel for State Senator John Broderick, of Chicago, appeared in the Sangamon county circuit court today and was given until tomorrow to file the specifications in motion to quash the indictment against Broderick.

THIRTY THOUSAND COAL MINERS RETURN TO WORK. Kansas City, Sept. 20.—Thirty thousand coal miners who had been on strike in Missouri, Kansas, Arkansas and Oklahoma the past five months returned to work today.

Southern Pacific Strike Broadens Out. Sedalia, Mo., Sept. 20.—The boiler makers and sheet metal workers of the Missouri Pacific railroad here today voted in favor of a sympathetic strike to aid the machinists, who struck May 22.

TWO MORE MARRAY MEN ARE SENTENCED TO JAIL. Council Bluffs, Ia., Sept. 20.—Judge Smith McPherson, of the United States district court, today sentenced Barney Martin and William B. Godfrey, two members of the Mabray organization, to nine and one-half months each in the county jail.

HEAD OF CARPENTERS' UNION DECLARES FOR THE BOYCOTT. Des Moines, Ia., Sept. 20.—President Hunter, of the International Brotherhood of Carpenters and Joiners of America, in his annual report at the convention today, declared that the right to boycott was the handmaiden of the right of free speech.

BIG STEAMSHIP LAUNCHED FOR FRENCH TRANS-ATLANTIC LINE. St. Nazaire, France, Sept. 20.—The steamship France built for the Compagnie Generale Trans-Atlantique (French line) for its New York and Havre service, was launched here today.

OFFICIALS OF THE ODD FELLOWS ELECTED AT ATLANTA, GEORGIA. Atlanta, Ga., Sept. 20.—The sovereign grand lodge of Odd Fellows today elected: Grand Sir, John B. Coker, Indianapolis; deputy, C. T. Keller, San Antonio, Texas; secretary, John E. Goodwin, Baltimore, re-elected; treasurer, M. Richards Muckle, Philadelphia, re-elected.

STANDPATTERS CONTROL NEW JERSEY CONVENTION.

Trenton, N. J., Sept. 20.—Vivian M. Lewis was nominated for governor at today's Republican state convention.

MR. TAFT IN CINCINNATI TO REMAIN TILL SATURDAY. Cincinnati, Sept. 20.—President Taft reached Cincinnati late today. He will remain until Saturday, when he goes to Washington.

LORIMER IS OUT OF THE HAMILTON CLUB. Directors Accept His Resignation and Commend the Action of President Batten.

Chicago, Sept. 20.—Senator Lorimer's resignation from the Hamilton club, of Chicago, was accepted by the board of directors at an executive session tonight, which lasted from six until midnight.

Senators Committee's Investigation Is Put Off for a Day. Chicago, Sept. 20.—No definite plan of procedure was reached today by the senate committee which is here to investigate the charges touching the validity of the election of Senator Wm. Lorimer.

VOTERS GIVE SHERMAN A BAD DEFEAT

Vice President Is Turned Down in His Own Ward and in His Own Assembly District in the Contest at the Polls for State Convention Delegates.

Primaries Are Held in Various Counties of the State, and as a Result Control at Syracuse Next Week Is Claimed by Both of the Rival Forces.

Utica, N. Y., Sept. 20.—Vice President Sherman was defeated in his own election district, own ward and own assembly district by the progressive Republicans at the primaries in Utica today, though he carried the city by gaining the delegates in a scant majority of the wards.

New York, Sept. 20.—Vice President Sherman, the candidate of the "old guard" for temporary chairman of the Republican state convention, was defeated in his own assembly district—the Second district of Oneida county—and in his own ward in the city of Utica at the primaries today.

Utica, N. Y., Sept. 20.—Vice President Sherman was defeated in his own election district, own ward and own assembly district by the progressive Republicans at the primaries in Utica today, though he carried the city by gaining the delegates in a scant majority of the wards.

BRYAN BOLTS HEAD OF HIS PARTY TICKET

In a Statement Issued at Lincoln, the Commoner Says That He Cannot Support Mayor James C. Dahlgren of Omaha in the Gubernatorial Contest.

Nominee of the Democrats for Governor Is a Representative of the Liquor Interests, He Asserts, and as Such He Is Opposed to His Election.

Lincoln, Neb., Sept. 20.—In a statement in which he declares that the crusade which he feels impelled to wage against the liquor interests of the state and the nation overshadows a personal and political friendship of twenty years, William J. Bryan this evening announced that he had bolted the head of the Democratic state ticket of Nebraska and would not support Mayor James C. Dahlgren, of Omaha, for governor.

Bryan says he regrets that he is compelled to take the stand he does—his first departure from political regularity—but he says he feels it his duty to do so, because of the position taken by the Democratic nominee on the liquor question.

The statement is apologetic to none. It does not indicate that Mr. Bryan will support the candidate of any other party, but announces that he is a pronounced advocate of the county option and the saloon early closing law, both of which he insists are menaced by Mayor Dahlgren's candidacy.

Mr. Bryan will support the rest of the state ticket.

Cowboy Bids Fearless One Defiance. Omaha, Sept. 20.—Mayor James C. Dahlgren, Democratic candidate for governor, tonight hurled defiance at Wm. J. Bryan, who has already said on a statement that he would not support the mayor in the gubernatorial campaign.

Omaha, Sept. 20.—The narrow limitations of the present stock market were marked again today in the way in which the price movements exhausted themselves before going far in either direction.

Chicago Grain Markets. Chicago, Sept. 20.—With foreigners buying futures here today and the trans-Atlantic news unmistakably bullish, the price of wheat rose lightly today and closed firm, 1/4 to 1/2 cent higher.

Chicago, Sept. 20.—The Populist party state central committee met here this evening to take action on the declaration of Governor Shallenberger to accept the nomination of the party for governor. It decided not to fill the vacancy.

PASTOR TOOK GIN RICKEYS. And Beer and Whiskey, Too—He Signs His Office. Philadelphia, Sept. 20.—After having been shadowed for four weeks by detectives, the Rev. Dr. William H. Pheley, general secretary of the International Brotherhood of Andrew and Philip, resigned at a meeting of the executive committee of the brotherhood and pleaded guilty to having indulged in gin rickies, "some whiskey and possibly some beer," besides having frequented moving picture shows and the burlesque at the Grand Opera theater while making theological studies in the Tenderloin.

Dr. Pheley declared that he is "undoubtedly culpable and will have to suffer for it," but is at the same time convinced that the sole motive for shadowing him and collecting evidence against him for the presbytery has been one of malice.

Until June 1 Dr. Pheley was in charge of the Huntington Valley Presbyterian Church at Bethays, but gave up the pastorate in order to devote his time to his work as general secretary. It has been since his resignation from the pastorate that Dr. Pheley has been shadowed, and his friends are convinced that the detectives who followed him were in the employ of enemies he had made in his old congregation.

It is true that I have gone into public saloons and taken gin rickies," said Dr. Pheley, and then he told how he began taking gin rickies for kidney troubles.

"After I had taken some of the power of suggestion made me take others," Dr. Pheley went on. "When I felt a quail in the stomach, it at once suggested the gin rickies to my mind and the relief it would bring me. Then again I took

GRAND ARMY CONTEST IS LIVELY ONE

John E. Gilman of Boston and John McElroy of Washington, D. C., Are Rival Candidates at Atlantic City, N. J., for Election as Commander-in-Chief.

Movement to Increase the Pensions of the Veterans Gains Added Impetus—Cry Now Is a Dollar a Day for Life—Gift Is Presented the Nation.

Atlantic City, N. J., Sept. 20.—The veterans of the Grand Army of the Republic, in forty-fourth annual encampment here, tonight were formally welcomed to the city by Governor Fox and Mayor Story. The big parade will take place tomorrow.

The campaign for the next commander-in-chief continues in earnest. Each of two candidates in the field—Commander John E. Gilman, of Boston, and John McElroy, of Washington, D. C.—have a host of friends.

Practically all the allied organizations of the G. A. R. held meetings today. The movement for increasing the pensions of the veterans is growing. The cry is a dollar a day for life. The National Association of Naval Veterans believes it has a solution in the proposal of placing the statue of General Lee in the Capitol at Washington.

The association adopted resolutions in which it did not adopt placing Lee's statue in the Capitol, provided it does not appear in Confederate uniform. The Naval Veterans elected Wm. G. McEwan, of Philadelphia, commodore.

The Sons of Veterans met this afternoon. The reports show that the organization has had an increase of 5,000 in membership, making the total 40,000.

It is expected that Fred Bolton, of Boston, will be elected commander. There is a spirited contest for secretary, between John E. Dilly, of Illinois, and Horace Hammer, of Reading, Pa., the incumbent. There also is a pretty fight for national president of the Woman's Relief Corps, there being four candidates. Henry White, of Indiana, Pa., was re-elected president of the National Association of Union Ex-prisoners of War.

A tract of eighty-three acres containing the famous Andersonville prison and fort is now the property of the national government. Sixteen years ago the Georgia department of the G. A. R. turned over to the Woman's Relief Corps about fourteen acres of the historic ground and the Relief Corps later purchased the remainder.

An act of congress signed by President Taft last March authorized the government to accept the gift. Tonight the deeds were handed to Louis Call, representing the government, by Jennie Iowa Berry, the national president of the corps.

MORE INTERESTING TESTIMONY IN THE CAR GRAFT CASE. Chicago, Sept. 20.—Both the defense and the prosecution scored in the Illinois Central car graft case before Judge Bruggemann today.

The early advance today was partly in response to London, which took the late recovery here where it had left off yesterday and pushed it further. Buying for London account was a factor in the strength shown at the outset here.

The decline began about the time the finance committee of the United States Steel corporation was in session and that stock led the movement. The fall in prices was not continued to the end of the day and the net changes again proved small.

The copper mining companies of secondary grade were pointed to as encouraging developments in the copper trade.

Chicago, Sept. 20.—With foreigners buying futures here today and the trans-Atlantic news unmistakably bullish, the price of wheat rose lightly today and closed firm, 1/4 to 1/2 cent higher.

Vienna, Sept. 20.—Seven persons were killed and twenty-nine were injured by a collision between express trains today near Rotterdam. Four of the injured died tonight.

HUSBAND AND FATHER FINDS FAMILY DEAD

Unknown Man Murders Woman and Her Three Small Children at Myers, Pa.

Westchester, Pa., Sept. 20.—Mrs. John Zoos and her three young children were murdered this afternoon at Myers, a small town near here.

Suspicion points to a boarder, who has disappeared. The husband and father discovered the crime. While on his way home from work Zoos saw the body of his son lying in the bushes.

The father took the child and rushed home. Here he found the bodies of his two girls and his wife.

Mr. Bryan says he regrets that he is compelled to take the stand he does—his first departure from political regularity—but he says he feels it his duty to do so, because of the position taken by the Democratic nominee on the liquor question.

The statement is apologetic to none. It does not indicate that Mr. Bryan will support the candidate of any other party, but announces that he is a pronounced advocate of the county option and the saloon early closing law, both of which he insists are menaced by Mayor Dahlgren's candidacy.

Mr. Bryan will support the rest of the state ticket.

The Weather Washington, Sept. 20.—The following is the weather bureau's forecast for Upper Michigan: Fair, Wednesday and Thursday; slight change in temperature; light to moderate variable winds.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED.)

Entered as second class matter of the second class in the postoffice at Marquette, Mich.

MARQUETTE, MICH., SEPT. 21,

But, of course, like all good things, our excellent baseball came high.

The voters in Illinois have not yet "got" all the rascals, but they have landed some of 'em.

Newspapers that report the news straight and do not juggle it to serve ulterior purposes rarely get in very bad.

And will Representative Boutell vote the election if the Republican voters of his district again truss him up on November 8?

The aeroplane flight over the Alps failed of success. However, there are lots of other high spots the aeroplanes can hit.

Mr. Hemans continues to put up a brave front, but, nevertheless, the outcome of the Republican primaries was a great disappointment to him.

Lena Cavaleri says that the whole Chaner family are mercenary money grubbers. That's enough to make Sheriff Bob gag until he's black in the face.

Old Commodore Vanderbilt's watch word, "The public be damned," seems, looking back to it, a great joke. The public is just now doing the damping.

It's nothing less than a shame, the way the cellar champs of the Marquette Iron county league are being overlooked in the scramble to congratulate the pennant winners.

There's practically no talk now about who will be put forward for governor by the New York Republicans. This, and a great many other things, hinges on, and in turn is overshadowed by, the grand free-for-all between the "old guard" and Roosevelt legionsaries.

A proposition that Marquette should play Trout Creek, the champions of Ontonagon county, has been turned down because Neganneau has grabbed the major honors, because the team is disbanded and because what's the use anyway.

An assistant building commissioner in New York has upset all precedents and caused consternation by resigning his post for the reason that he could find no work to do and that he was convinced that the position is not necessary. The "soft snap" theory of municipal offices has been getting a lot of hard jolts lately.

The board of control of the Jackson prison proposes to ask the legislature for \$200,000, with which to provide a new cell block. Judging by what we have heard of the old cell block, one of the first things the legislature should do after convening next January is to jam through this appropriation, so that no time need be lost in providing the improvement.

When Lloyd C. Griscom, actively in charge of Colonel Roosevelt's interests in New York state, claims but 570 delegates of 1,050 who will have seats in the Saratoga convention, it is seen that the margin in the gathering is going to be a very small one, no matter which way the majority votes. The Saratoga convention promises to be a fitting climax to an unusually stirring series of ante-election events.

The Negaunee Iron Herald questions whether the Marquette County Fair association will gain anything from the increased admission price. It is, indeed, a matter of doubt. Halving the attendance at a doubled admission price leaves the treasury just where it was before, and this is what happened this fall. Further experiment with a fifty-cent admission will probably result in persuading the officials and directors of the association of the wisdom of restoring the old rate.

It has been erroneously reported that Representative Oates, of Calumet, who was defeated in the primaries as a candidate for renomination, would seek to be elected as the Prohibition candidate. Mr. Oates was nominated for representation by the Prohibitionists and it has been stated that his friends would turn in to secure his election. Mr. Oates, however, has issued a statement showing that there is no foundation for this report and asserting his intention of abiding by the result of the Republican primaries, giving his best support to his

successful opponent and the other candidates on the ticket. Those who know Representative Oates were not misled by the report that he would endeavor to defeat the primary nominee in his district. Oates plays the game fairly, and is a good party man. It is the upper peninsula's loss, not Mr. Oates', that he will not be a member of the delegation from this region in the next legislature.

Of course the New York convention will endorse the Taft administration. As if anything else was ever thought of! Barnes, Woodruff & Co. would probably like to boot it, if they dared, because its weight is thrown against them in the pending contest, but they don't dare, and besides they have been striving to make capital out of a charge that Colonel Roosevelt was scheming against it. If the colonel saw fit to dignify this charge by referring to it at all, he would apply the "shorter and uglier word."

A project for getting Senator Lorimer out of his difficulties has been outlined. It is no less a plan than that the senator should resign, and appeal for reelection to the next Illinois legislature, in which "jackpot" victories in the recent primaries assure that there will be a goodly representation of Lorimer men, real and true. There would be, however, a certain amount of hazard connected with this proceeding. Lorimer would have to let go his bird in the hand before he had his bird in the bush, and in the past Lorimer has been known as a sure thing player. The scheme probably will not materialize.

There can be no jury tampering with the committee of honorable United States senators who have now entered on an inquiry into the manner in which the election of William Lorimer to membership in their body was obtained. The committee is abundantly equipped with power to secure testimony and evidence, and it is within its province to initiate proceedings for the punishment of perjurers, if any should attempt to feign it by lying. The senatorial committee is better adapted to secure a full revelation of facts than any grand jury could be, and its findings are more likely to be in consonance with the truth than those of a jury in a trial court. The committee will doubtless so conduct the inquiry that public confidence will be engendered, with the result that its decision will be regarded as the only proper one, based on the information and evidence the committee was able to develop.

The success of the Negaunee baseball team in winning the upper peninsula championship from Escanaba gave genuine pleasure throughout Marquette county, particularly among the people who have been loyal supporters of the league teams, for it makes the class of baseball played in the Marquette-Iron county organization stack up well when compared with other fast semi-professional baseball in this region. The Negaunee and Marquette teams were of practically equal strength at the close of the season, with Crystal Falls close up, and there is no doubt that both of the latter teams would also have given Escanaba a good argument. Not all the people who have attended the baseball games the past summer have appreciated how fast the teams that strove for the league championship were. As a matter of fact, they would stand comparison with the best of semi-professional teams anywhere, and they were faster than the teams of some of the professional "bush" leagues. Negaunee won the long end of the series with Escanaba fairly and there can be no questioning its title to the upper peninsula championship, for outside of the Marquette-Iron county league the fastest ball played in this region was put up by Escanaba, Gladstone and Rapid River.

The following extract written by a lower state man, who was a loyal supporter of Lieutenant Governor Kelley in the gubernatorial primaries, indicates that little of Mr. Kelley's strength in the recent contest will find its way out of the party fold to Mr. Hemans: "We sit up here have just begun to sit down and look around a little since the 'dispensations of providence' loosened its strange hold on us, and passed on. We don't know just what it was, or how it looked, but we think it must have been some 'man devouring monster' that you sent down here from the north to 'eat us alive,' and rend our garments, and loosen and impair our well grounded faith in John Knox, Martin Luther, John Wesley and all the Andrew Jacksons, Zach Chandlers and William Henry Harrisons that we have always believed in. I do not pretend to understand it, but certainly your man who came out of the north made a magnificent run, and we of the lower part of the state want to congratulate you and to assure you that we will aid in every way in our power, giving him a surprising majority in the general elections in November."

Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be taken at the first unnatural looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by The People's Drug Store.

RHEUMATISM PURIFYING THE BLOOD THE ONLY PERMANENT CURE

No case of Rheumatism was ever cured except by a thorough purification of the blood; just as long as the blood remains charged with fermenting uric acid poison, the painful disease will continue. The pains and aches of Rheumatism are simply superficial effects of the impurities in the circulation, and sometimes may be temporarily relieved by the application of plasters, liniments, hot cloths, etc. But the person who trifles with this dangerous disease by depending on local treatment alone, is certain to pay for the mistake with constant suffering later on. S. S. S. cures Rheumatism in the only way it is possible to cure the disease. It goes down into the blood, and removes uric acid from the circulation, so that the nerves, bones, muscles and joints are lubricated and freed from the uric acid.

At Sandringham you know, King Edward raised prize swine, prize bullocks, and all manner of fancy live stock. Well, there was a fashionable west end butcher who bought all the king's fat swine every year at a simply enormous price, and a reporter said to this butcher one day: "How can you afford to pay such prices for the king's swine?" "Well, you see," said the butcher, "with a wink at the king's pigs have such a lot."

THE SWIFT SPECIFIC CO., Atlanta, Ga.

THE PATRONAGE HANDICAP.

"The president feels," says Private Secretary Norton, "that the value of federal patronage has been greatly exaggerated, and that the refusal to grant it has probably been more useful to the men affected than the appointments would have been." It is a large truth which Mr. Norton thus uncovers. Political parties in some respects may have lost virtue, but they are no longer the organized appetites once they were. While patronage still influences party action and the deliberations of conventions, the supposed power to dispense things is generally more of a liability than an asset. The blanket is never large enough to cover, the pie never big enough to give every one a slice, and every patriot rewarded means three or four patriots dissatisfied. Think also of the great political profit there is in being able to shout with plausibility against machinism.

Moreover, the gradual victory of the civil service reform principle has greatly diminished the number of the loaves and fishes that may be distributed. In all departments of the government, city, state and national, competent subordinates are keeping their jobs. The patronage mongers have beheld a contraction of their currency. There is now but one job to be handed out where formerly there were a hundred. It is no wonder managers cannot secure the results. They haven't the old "sinews."

The spoils system is practically gone and with it spoils control of political action. What does it profit a humble worker in the party ranks to have a few head men get places by favor while he has to go against an unfeeling competitive examination and prove his competence?

THE STATE PRESS.

"Hit 'em where they ain't," is good baseball advice and might be applied to everyday life.—Adrian Telegram.

It begins to look as though the next place Fordney will be sent to save will be Pennsylvania.—Saginaw News.

Some doubt is still expressed as to whether Col. Roosevelt is out after votes or subscribers.—Kalamazoo Evening Press.

Battle Creek is to have a mausoleum to cost \$60,000. The city long has needed a larger public meeting place.—Flint Journal.

But now that Maine has gone democratic the end of the world may not be as far away as those professors at the University of Chicago believe.—Grand Rapids Press.

The farmer is not the only individual who is harvesting a rich crop. Just cast your eye on the school book dealers' stores these days.—Jackson Citizen Press.

The Detroit papers are redheaded. A man by the name of P. Knott Owens was nominated for mayor over Mayor Breitmeyer, and the papers didn't seem to care how he was running. Next time Owens ought to go round to the offices and tell them.—Hillsdale Standard-Herald.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY. as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such a thing should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co., Postoffice box 2618.

Not a minute should be lost when a child shows symptoms of croup. Chamberlain's Cough Remedy given as soon as the child becomes hoarse, or even after the croupy cough appears, will prevent the attack. Sold by The People's Drug Store.

A LAUGH OR TWO.

Strong Beer. Inspector Dew, of Crippen renown, told a Buffalo reporter that he was most impressed in America by the grandeur of Niagara Falls and the sobriety of the American people. "We have no such sobriety across the water," said the Scotland yard detective. "Our 'shims' of a Saturday night are horrible. It's the beer you see. British beer is as strong almost as American whiskey. "They tell a story about two British beer drinkers. One said to the other: "I've been very sick, George. For two days little snakes and frogs and lizards were crawling over me." "Been sick?" said George. "Why man, you're sick still. Pink swarms of 'em are crawling over you now."

Everybody Ate Royal Hams. "The most successful swindlers," said James E. Keene, at a dinner at Saratoga, during which "are those that have basis of honesty. It's like the story of King Edward's pigs. "At Sandringham you know, King Edward raised prize swine, prize bullocks, and all manner of fancy live stock. Well, there was a fashionable west end butcher who bought all the king's fat swine every year at a simply enormous price, and a reporter said to this butcher one day: "How can you afford to pay such prices for the king's swine?" "Well, you see," said the butcher, "with a wink at the king's pigs have such a lot."

A Poor Piece of Work. Mrs. Carrie Chapman Catt, president of the International Woman Suffrage Alliance, was talking in her New York office about an anti-suffrage orator. "He was badly hazed," she said, "during his last speech in Brooklyn. His theme was the hockney one—'woman's sphere, the home.' In the home a woman wielded a power far greater than the ballot. And so forth. "My wife," he cried, striking his breast proudly, "my wife has made me what I am!" "That's the way with you men!" a shrill voice shouted from the gallery. "Lay all the blame on a woman!"

Bright Chicago. Dr. W. E. Evans, Chicago's original and efficient health commissioner, was discussing his health eternals—striking papers that are stuffed with such phrases as "Fifth, sixth and fever are the three disgraces." "I try, by means of these circulars," said Dr. Evans, "to get the public's attention. In the majority of cases I succeed, too. Chicago is a bright town and you could appreciate that." "You may lead an ass to knowledge, but you can't make him think."

Long and Short. Senator Frye, at a luncheon in Lewiston, spoke of the difficulty of reforming cities, or gourmets, or political parties. "For a party to become corrupt," he said, "it is easy; but for it to purify itself again is very, very hard. "We should all remember, you know, that it isn't anything like so far from virtue to vice as it is from vice to virtue."

LOWER STATE NOTES.

BENTON HARBOR—A woman's propensity for fine clothing led to the cleverest forgery worked in this county in several years and the arrest of the offender, Mary Fredericks, a pretty 18-year-old girl, who has before this virtuously had a good reputation. She went to the State Bank of Colonia and presented a check signed, supposedly, by John Rericke, a rich farmer, who had been educating her, and endorsed in the name of "Jane Williams." She intended to go to Indiana, where she has a husband. At Benton Harbor she made the rounds of the leading dry goods stores and spent several hours in selecting goods. The officers were able to follow her and capture the girl because of the delay caused by her passion for shopping. When she entered the suburban waiting room, elaborately dressed, she was met by officers. After her arrest, she broke down and, in tears, confessed her crime. It is claimed. A second check for \$50 was found in her purse.

JACKSON—The police assisted by the sheriff's force made a systematic raid on alleged "blind pigs" in the city. The raid was a complete surprise to the "piggers." The police station was crammed full to overflowing and the patrol wagons were kept busy bringing in the booze. In one place ten men, most of whom were more or less under the influence of liquor, and a girl were found, together with several cases of beer.

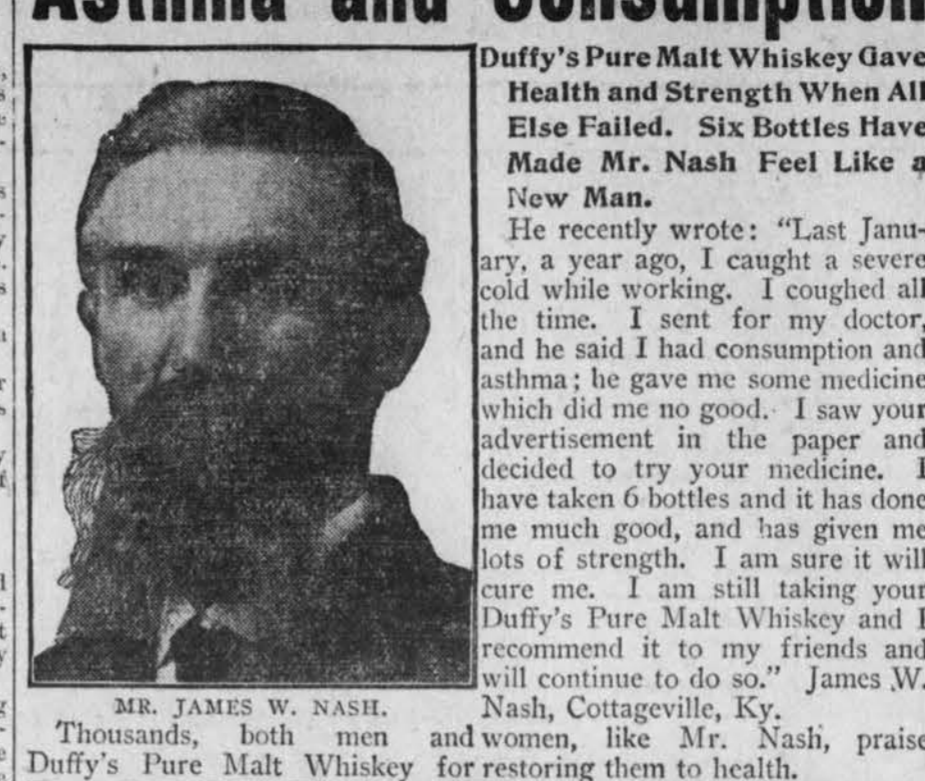

GADSDEN—"I don't care if I live or not, Mr. Sheriff. My fellow, whom I am just wild about, is going to marry another girl. It may seem funny to you, but it is pretty hard for me. I guess I'd be happier dead." Hearing that a friend was engaged to another girl, Gladys Arnold of Pleasant Lake swallowed a heavy dose of arsenic, which she found in the cupboard. Her brother tried to prevent her doing so, but only succeeded in wresting the bottle from her grip after she had exhausted its contents. The arsenic was diluted or the girl would be dead. A physician brought her out of danger after an hour's treatment. Her father is dead. She has been making her home with a brother at Pleasant Lake. She told her brother that she was tired of life and he ridiculed the idea of her having any love for the friend whom she admired. She became wild when her brother spoke lightly of the man and laughed at her tears. She has promised not to repeat the attempt at suicide.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by E. O. Bengry, secretary of the Board of Education, of Ishpeming Township, until 6 o'clock p. m. of Monday Sept. 26, 1910, for the building and partial completion of the school house at North Lake district, Michigan.

Plans and specifications can be seen at the secretary's office also at the offices of the architects at Marquette, Michigan and Milwaukee, Wis. The right to reject any and all bids is reserved. CHARLTON & KUENZLI, Architects (9-15-17-21-24)

Asthma and Consumption

Duffy's Pure Malt Whiskey Gave Health and Strength When All Else Failed. Six Bottles Have Made Mr. Nash Feel Like a New Man. He recently wrote: "Last January, a year ago, I caught a severe cold while working. I coughed all the time. I sent for my doctor, and he said I had consumption and asthma; he gave me some medicine which did me no good. I saw your advertisement in the paper and decided to try your medicine. I have taken 6 bottles and it has done me much good, and has given me lots of strength. I am sure it will cure me. I am still taking your Duffy's Pure Malt Whiskey and I recommend it to my friends and will continue to do so." James W. Nash, Cottageville, Ky. Thousands, both men and women, like Mr. Nash, praise Duffy's Pure Malt Whiskey for restoring them to health.

ABSOLUTELY PURE & UNADULTERATED TRADE MARK. CAUTION—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey, be sure you get the genuine. It is an absolutely pure medicinal malt whiskey, and is sold in SEALED BOTTLES ONLY—never in bulk. Price \$1.00 a large bottle. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Write Medical Department, The Duffy Malt Whiskey Co., Rochester, N. Y.; for an illustrated medical booklet and doctor's advice, both sent free.

FALL OF MINE ROCK SNUFFS OUT TWO LIVES

Alfred Waisanen and Abram Bukka the Victims of a Fatality at the Superior.

The bodies of Alfred Waisanen, thirty-eight years of age, and Abram Bukka, twenty-eight years of age, were found yesterday morning on the second level of No. 1 shaft of the Superior mine. The men had been killed by a fall of rock sometime between 1 o'clock and 6. No one witnessed the accident. Waisanen was a married man living at Atlantic. Bukka was single and lived at Baltic. Justice Little held an inquest yesterday morning, the jury returning a verdict of accidental death.

GOOD ROADS MOVEMENT.

Calumet Township Board Asked to Co-operate in Keweenaw. The Calumet township board has received a petition from a number of farmers in the Lake View district, asking for improvements in the roads leading into Calumet. They ask the board to co-operate with the officials of Keweenaw in this regard as a big agricultural district is growing up in that county and Calumet is the natural market to reach which good roads are necessary. The board has taken the matter under advisement and Highway Commissioner Mudgett is investigating.

PLANT IS NOT HAMPERED.

Portage Foundry & Machinery Company's Fire Not Disabling. The fire which destroyed the coke shed, part of the coal dock and the warehouse of the Portage Lake Foundry & Machinery company at Ripley will not have a disabling effect. Manager Royce announces that while the loss is about \$20,000, it was in a portion of the plant which was not vital. The origin of the fire is still a mystery. The blaze was discovered by Ed Sandquist, one of the watchmen. It was found burning in the coal pile. As soon as possible the company's fire protection was put into action and the Ripley department helped. Assistance was also called from Hancock and Houghton. The greatest loss was that of pattern lumber, sixty-five thousand feet of this was destroyed.

CREATES NEW CITIZENS.

Houghton Circuit Court Grants Second Papers to Many Applicants. The circuit court of Houghton county spent another busy day yesterday making new citizens. Two days this week were confined to granting second papers. Of the large number of applications only a few were held over till the January term. The postponements were for various reasons, some because the petitioners did not know enough of the English language and others because they were deficient on the history and laws of this country. At the Houghton county has been making citizens this term, the vote will show a big increase within a few years. The trial of the criminal calendar will be resumed this morning with the case of Charles Davis, charged with robbery. Prosecuting Attorney MacDonald returned yesterday from Chicago, where he had been for several days. The Davis case is the last of the criminal business. HIS EYE BELIEVED LOST. Alfred G. Nicholas, a machinist employed by the Wolverine Copper Mining company, had the misfortune last Sunday morning to probably lose the sight of his right eye. In company with a number of other machinists he was engaged in changing cables on the skip at No. 4 shaft. While stooping to pick up the socket in order to insert one end of the rope, another workman struck off a small piece of the wire strand that was loose. This piece flew straight into Nicholas' eye. The physician in attendance is of the opinion that the sight is gone, but to avoid any doubt Mr. Nicholas, accompanied by his brother Frank, of Houghton, left for Milwaukee Monday afternoon, to consult Dr. Snyder.

HANCOCK COUNCIL TONIGHT.

At the meeting of the Hancock city council tonight the park committee will recommend that two acres of land be given the Fennia Manufacturing company as a factory site. The company is a Hancock organization for the manufacture of various devices invented by Joseph Ostman, president of the concern. As far as can be learned the council has no other business of importance in view.

CHARGED WITH \$50 THEFT.

A warrant was issued in Hancock yesterday morning by Justice Olivier for Abram Hendrickson, who is charged by John Maki with the theft of \$50. Maki alleges that Hendrickson took the money from his trunk at their boarding house.

LONGEST LAUNCH TRIP.

Duke Holcombe of Chicago Makes Lake Route in 30-Foot Boat.

What is probably the longest gasoline launch journey on record on the great lakes is being made by Duke Holcombe of Chicago, who came into Portage lake Monday night in a thirty-foot launch, having made the entire route in his boat. He visited his aunt, Mrs. Cordelia Jacka of Calumet, Monday night and yesterday morning, and yesterday afternoon he boarded the launch again for Duluth. Mr. Holcombe expects to visit friends in Duluth for two weeks and will then attempt the return journey, though the lateness of the season makes his effort seemingly impossible.

ENGINEERS OFF TO CAMP.

Calumet Company A on Its Way to Fort Benjamin Harrison. Pioneer Company A, the Calumet engineers, left yesterday afternoon via St. Paul and Copper Range for Camp Benjamin Harrison, Indianapolis, where they will be the only Michigan representatives at the annual maneuvers with the regulars. The company is seventy-five strong, the men in good condition and well equipped and there is every reason for the Michigan National Guard to feel proud of the contingent. This is the largest company ever sent from Calumet to an encampment. The men were inspected physically by Lieutenant M. M. Kerr, of Laurium, assistant surgeon of the Michigan National Guard, Sunday afternoon. Every one was found in good health. Perhaps this examination was a bit superfluous, as all of the men have been examined by the surgeon from time to time since entering the service, but the orders that every man going to camp be again examined were received recently from the state military board. The company is taking a full baseball team to the big camp and will enter for the baseball championship this year. Among the men is Lorimer Eaton, pitcher of the Y. M. C. A., who in a half dozen games this summer allowed but fifteen hits and seven runs.

GOLF TROPHY MATCH.

The golfing committee of the Portage Lake Golf club yesterday drew the players who will contest in the third round of the Pope trophy event. They are as follows:
Harkness vs. Moss.
Zealand vs. Nichols.
J. B. Dee vs. Thompson.
Hubbard vs. Cairns.
Hodgson vs. Robinson.
Granahan, Pope, donor of the cup, made the condition that it should be played for three times this season and the winners of the three matches should play off for its permanent possession. S. E. Byrne and John C. Pryor have each won a leg of the match.

GO TO DOUGLASS, ALASKA.

A party of Calumet people, consisting of M. Niemi and family and Mrs. Charles Pekkala and family, leaves this week for Douglass, Alaska, where they will settle and will make their future home. There will be six persons in the party, perhaps more. They already have a good sized colony of former Calumet and other copper people at Douglass, and others are scattered in the neighborhood.

WILL TRAVEL IN EUROPE.

Mrs. Henry Brett of Calumet has left for New York city, where she will be joined by a friend, Mrs. J. M. Longyear, of Brookline, Mass., and sail for Europe later in the week. Mrs. Brett and Mrs. Longyear will spend some time abroad. Mrs. Brett was accompanied as far as Boston by her son, Henry Brett, jr., of San Francisco, who has been visiting in Calumet. Mr. Brett, jr., will leave New York shortly for his home in the West.

A MOVE AND A MARRIAGE.

William Langdon of Ripley, master mechanic for the Hodge Iron Works for several years, has been appointed master mechanic of the Arizona Commercial company at Globe and will leave for Arizona tomorrow night for his new position. He will take his bride with him, as he is to be married tonight to Mrs. Florence Geisinger of Ripley.

MANY WILL GO TO MARQUETTE.

About twenty young ladies, recent graduates of the Calumet High school, are planning to enter the Normal school at Marquette this fall. The school is growing in popularity with copper country young women who intend to make teaching their life work.

OBJECT TO PAYING LICENSE.

The brewing companies with warehouses in the village of Laurium and which have been ordered by the council to take out the regular \$500 licenses for retailers or quit the retailing business have decided, it is understood, to thresh the matter out with the village board.

BIG CONTRACT IS LET.

The contract for the construction of the Masonic temple in Houghton was let yesterday afternoon to Herman Gundlach, the Houghton contractor.

MICHIGAN'S OLDEST PHYSICIAN.

It is the claim that Dr. W. T. Carpenter, of Iron Mountain, is the oldest physician in the upper peninsula. He began his practice in Ishpeming in 1872 and remained there a number of years before going to the Menominee range.

COPPER RANGE CONSOLIDATED COMPANY.

DIVIDEND NO. 27.
At a meeting of the Board of Directors held this day a quarterly dividend of \$1.00 per share, being Dividend No. 27, was declared, payable on Saturday, October 1st, 1910, to stockholders of record at the close of business on September 6th, 1910. The transfer books of the company will close at the close of business on Tuesday, September 6th, and will be reopened on Wednesday, September 14th, 1910.
FREDERIC STANWOOD, Treasurer.
Boston, August 21st, 1910.

CONVINCING PROOF

OF THE VIRTUE OF

Lydia E. Pinkham's Vegetable Compound

What is the use of procrastinating in the face of such evidence as the following letters represent? If you are a sick woman or know one who is, what sensible reason have you for not giving Lydia E. Pinkham's Vegetable Compound a trial? For 30 years we have been publishing such testimonial letters as these—thousands of them—they are genuine and honest, too, every one of them.

Mrs. S. J. Barber says:
"I think Lydia E. Pinkham's Vegetable Compound is the best medicine in the world for women—and I feel it my duty to let others know the good it has done for me. Three years ago I had a tumor on which the doctor said would have to be removed by an operation or I could not live more than a year, or two, at most. I wrote Mrs. Pinkham, at Lynn, Mass., for advice, and took 14 bottles of Lydia E. Pinkham's Vegetable Compound, and today the tumor is gone and I am a perfectly well woman. I hope my testimonial will be of benefit to others."
—Mrs. S. J. BARBER, Seott, N. Y.

Mrs. E. F. Hayes says:
"I was under the doctor's treatment for a fibroid tumor, suffering with pain, soreness, bloating, and could not walk or stand on my feet for the length of time. I wrote to Mrs. Pinkham for advice, followed her directions, and took Lydia E. Pinkham's Vegetable Compound. To-day I am a well woman, the tumor was expelled and my whole system strengthened. I advise all women who are afflicted with tumors of female troubles to try Lydia E. Pinkham's Vegetable Compound."
—Mrs. E. F. HAYES, 1500 Washington St., Boston, Mass.

Mrs. W. K. Housh says:
"I have been completely cured of a severe female trouble by Lydia E. Pinkham's Vegetable Compound, and I want to recommend it to all suffering women."
—Mrs. W. K. HOUSH, 7 Eastview Ave., Clinton, O.
Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female troubles, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, etc.

Mrs. George May says:
"No one knows what I have suffered from female troubles, neuralgia pains, backache, and so forth. My doctor said he could not give me anything to cure it. Through the advice of a friend I began using Lydia E. Pinkham's Vegetable Compound, and the pain soon disappeared. I continued its use and am now in perfect health. Lydia E. Pinkham's Vegetable Compound has been a God-send to me as I believe I should have been in my grave if it had not been for Mrs. Pinkham's advice and Lydia E. Pinkham's Vegetable Compound."
—Mrs. GEORGE MAY, 50 4th Ave., Paterson, N. J.

Mrs. W. K. Housh says:
"I have been completely cured of a severe female trouble by Lydia E. Pinkham's Vegetable Compound, and I want to recommend it to all suffering women."
—Mrs. W. K. HOUSH, 7 Eastview Ave., Clinton, O.
Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female troubles, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, etc.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.
Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

Mining News

EAST BUTTE.

The underground conditions at the East Butte are reported very satisfactory and it is said the ore reserves are larger today than ever. The August output of 650,000 pounds of refined copper was almost 100,000 pounds less than the July production, but this is attributed to curtailment, because of the low price of the metal. One of the features of the property is that several new veins have been opened up and left for future development. Although they have not been correlated the lodes on the East Butte have approximately the same strike as those in the Butte camp proper. No work is being done below the twelfth level, and very little below the eighth. It is reported that a body has been developed on the eighth level about 300 feet long, varying up to thirty feet wide, and carrying 8 per cent to 8 per cent copper. The reserve ores are said to be sufficient to last for four or five years' operation. The management has contemplated a number of important improvements, involving an expenditure of from \$50,000 to \$75,000, which will principally bring about an enlargement in the smelting capacity. It is estimated these changes should show a reduction of approximately one-half cent per pound in the cost of producing copper. Reorganization plans have not yet gone through, but the Pittscomb Copper company having been extended for another year. The East Butte property has a large amount of underground territory with good possibilities. The company is producing approximately 8,000,000 pounds of copper per annum, at a cost of about 10½¢ per pound. There are at present 300,000 shares, but when the reorganization is completed there will be 600,000 shares. On a basis of 300,000 shares the earnings per share at the present time are approximately sixty cents.

HOUGHTON COPPER.

Development work at the Houghton Copper property, at the present time, is confined to the sinking of a shaft which is located midway between the shafts on the Superior and Isle Royale mines which are now working on the Baltic lode. There is no doubt in the minds of the Houghton Copper officials that the property carries the underlay of the Baltic lode in about ninety acres and this lode is expected to be reached at a depth of about 500 feet. The prospects of the company have been improved recently by the developments on the Baltic lode in the Superior property, which adjoins the Houghton tract to the south, and there is reason to expect that similar results will be secured in the Houghton property. Diamond-drill operations were discontinued last June as sufficient evidence had been secured to convince the management that the property carried the Baltic lode. The diamond drills disclosed a conglomerate lode at the expected depth below the copper-bearing amygdaloid, establishing a correlation with the Superior. The copper-bearing amygdaloid was about seventeen feet thick, with fair enrichment, which was probably the west vein of the Baltic formation. At eighty-three feet additional depth another copper-bearing amygdaloid was entered showing copper for about 20 feet with vein wider, which is regarded as the main Baltic lode. At a still further depth of 150 feet the conglomerate lode was reached, making the chain of evidence complete. The company has a small capitalization, namely, 67,000 shares, of which 37,228 shares are owned by the St. Mary's Mineral Land company. The management is the same as the St. Mary's Mineral Land company. King Philip Mining company and Winona, with mining operations in

SPECULATION

and the savings account are not related. The element of chance predominates in speculation, while with your savings in this bank you know it is "a sure thing" with 3 per cent interest. Better be safe than sorry.

PEOPLE WANT DIETZ BROUGHT TO JUSTICE
Sentiment in Barron County, Wis., Now Against the Thornapple Dam Outlaw.
MAN IS REPORTED INSANE.
Estranged Family and Friends by Strange Actions Since Memorable Defense Two Years Ago.

Chippewa Falls, Wis., Sept. 19.—John Dietz cannot be taken alive. This is heard all over northern Wisconsin. But all are agreed that he must be made to face trial for the shooting of Bert Horel at Winter Sept. 6.

How to dislodge him from his log cabin in the Thornapple river, where with his wife and five children he defies the law, is a question. For a radius of fifty miles from his cabin fear dominates the people. Dietz is a desperate man, they say, and they point to his record of a few years ago, when with a rifle and revolver he fought off hundreds of deputies. At that time sympathy was with him. He was defending his home from what he considered the attempt of a grasping lumber company to worst him.

Shot Man Who Befriended Him.
Dietz is now charged with shooting a man, a friend who had seen to it that a teacher was provided for the Dietz children, the only ones in the district, and who had in addition given him rent for the use of his rude cabin, where the schools was conducted.

Eight years ago the board requested Dietz to put a lean-to on his cabin for school purposes. Rental was agreed to by Dietz and Charles O'Hare, president of the school board, at \$15 a month and \$5 a month extra for furnishing wood and janitor service. It was paid for three years. Payment was delayed this year.

Lower State Notes.
EATON RAPIDS—Since wheat has been standing around the dollar mark for a number of months, with every prospect of it going higher, the farmers in this section of the state are increasing their wheat acreage this fall by fully 75 per cent over that of last year. Seeding time is now on and there is much activity in the farming districts as there is during haying and harvest.

ST. JOSEPH—William Mead, living at Livingston, south of here, is out \$800 because he did not believe in banks. The money, representing the savings of five years, was stolen. Mead, an employe of the Pere Marquette, has always had an aversion to banks, not even believing in safety deposit boxes. Accordingly he planted his savings in the cellar of his house, in a tin can. Mead had \$1,000 hidden in this manner. \$800 in one can and \$200 in another. During his enforced absence thieves entered his dwelling and evidently suspecting his hiding place, dug up the can containing the \$800. The other can was not found by the thieves. Mead made the discovery of the loss upon his return. He reported it to the officers and then deposited the \$200 in the bank.

SAGINAW—Married against the advice of their parents, Oliver D. Little and Ethel N. Little, a St. Johns couple, have taken their domestic difficulties to the divorce court. Mrs. Little applied for the divorce and was given the decree and the custody of her 3-year-old girl. The wedding in December, 1905, occasioned a great deal of comment as the bride was only 16. She left home one morning for school, but was not located for three days, when she wrote home from Windsor that she and Little were married there. She charges her husband with cruelty.

BATTLE CREEK—His wife died from tipping a boiler of hot water and scalding herself a little less than a year ago, he is discharged for his part in the Grand Trunk wreck at Durand recently, now the authorities object to his children staying with relatives at Urbandale near here. Such is the chain of hard luck that winds itself about Charles E. Spencer, a locomotive engineer of this city. The petition states that the children are dependent and are neglected. Spencer has not been able to find work since his discharge by Grand Trunk officials. He is said to have saved a few hundred dollars and partly owns his home here.

City Brevities

The members of the Alpha Delta will meet tonight with Miss Schumaker.

The Hibernians will hold a meeting at Keough's Hall this evening at eight.

H. B. Hatch is attending the Methodist conference in Detroit this week.

A meeting of the common council will be held this evening for the transaction of general business.

The G. I. A. to the B. of L. E. will meet at Keough's Hall at 2:30 this afternoon.

H. J. Waterbury returned yesterday from lower Michigan and Canada, after an absence of two weeks.

The M. E. A. will give a hop at Bureau's Hall tonight. Music will be furnished by Trombly's orchestra.

Postoffice Inspector W. E. Hurley, of this city, has been transferred from the upper peninsula district to New England.

Miss Anna Price entertained a number of friends at her camp at Lakewood Sunday afternoon. An enjoyable time was had by all.

The ladies of the Presbyterian church will serve supper in the church parlors this evening at 6 o'clock; price thirty-five cents.

John Cooney arrived home from Devil's Lake, N. D., yesterday, and will make his home at 318 West Bluff street.

Miss Frei, of the Marquette Millinery Co., arrived home yesterday from New York and other eastern cities, where she has been in the interests of her business.

John W. Rankin, business for the new farce with music, "Daddy and the Girls", was in the city yesterday completing arrangements for the appearance of his company at the opera house next Monday evening.

Local Democratic leaders have received notice from State Secretary Canfield that Lawton T. Hemans, candidate for governor, will speak in this city on the night of Sept. 30. Where the address will be given has not been determined.

Judgment by Consent—A settlement in the case of Lydia Bengstrom against Frank Piatto was agreed upon yesterday, and Judge Flannigan instructed the clerk to record a judgment by consent in favor of the plaintiff for \$305.

This suit was brought as the result of Mr. Piatto's horse, which he was driving, knocking down a child on a street crossing in Ishpeming some time ago.

Will Shoot at Channing—H. Hall, Ben Sweeney, A. C. Richards, E. H. Kukuk and Dr. A. W. Deadman of this city, left last evening for Channing, where they will participate in the gun club shoot at that village today. It is possible that other Marquette trapshooters will go to Channing this morning, and that the Marquette club will compete in the five-men team event as well as in the individual contests. Much interest is being aroused locally in trap shooting and the tournament here next Monday and Tuesday is expected to be a rousing success.

Jury Unable to Agree—After having wrestled from 4 o'clock Monday afternoon until 9 o'clock yesterday morning and having spent the night locked in the jury room in the court house, the jury impaneled in the case of Lawry against Gummerson and others, reported that they were unable to agree and were discharged. This suit was brought on account of the alleged sale of liquor to the plaintiff's son, a minor. The jury stood two in favor of a verdict for the defendant.

Water Dropped Suddenly—The head of water at the light and power station began going down very rapidly about 2 o'clock yesterday afternoon and by 4 o'clock it had dropped from eighty to fifty feet, leaving barely enough water to operate the lights during the evening. At 12 o'clock the plant was shut down in order to allow the dam to fill up. The sudden fall of the water in the dam was entirely unexpected and just as inexplicable, the river apparently almost drying up without warning. A man was rushed from Ishpeming to the Silver Lake dam last evening in an automobile and the mystery of the unexpected water shortage is likely to be solved today.

Decision Reconsidered—The Marquette land office has received notice that the secretary of the interior has reconsidered his former decision as to the claim of Frank G. Bell, of Ogemaw county, who sought to recover \$205.00 paid the government on a timber and stone claim which was subsequently taken away from him. Mr. Bell's entry was contested on the ground that the land was suitable for agricultural purposes, and hence could not be taken up under the timber and stone act. The contest was upheld. Then Mr. Bell asked that he be given his money back, and the Marquette land office officials recommended that the report be granted. On the ground that Mr. Bell had made fraudulent claims regarding the nature of the claim in question, the secretary of the interior reversed the decision of the local land office, but upon further consideration, he has decided that Mr. Bell had no fraudulent intent, but was simply mistaken as to the nature of the land, and he will get his money back.

REPUBLIC IRON & STEEL COMPANY.

Notice of Eleventh Annual Meeting.

Notice is hereby given that the annual meeting of the stockholders of Republic Iron & Steel Company will be held at the principal office of the company, at Number 15 Exchange Place, in the city of Jersey City, New Jersey, on Wednesday, the 19th of October, 1910, at 11 o'clock in the forenoon, for the transaction of any and all business that may come before the meeting, including the election of four directors and the payment of dividends. The meeting will be held in accordance with the provisions of the articles of incorporation and the by-laws of the company, as set forth in the minutes of the stockholders and executive committee, including the proceedings in and about the creation of the company's mortgage, dated March 17th, 1910, made to Central Trust Company of New York and James N. Wallace, trustees. Said minutes will be open to the inspection of stockholders at said meeting.

The stock transfer books will be closed October 1st, 1910, at three o'clock p. m. and will be reopened at ten o'clock a. m. on October 20th, 1910.

By order of the Executive Committee.

H. L. BROWN, Secretary.

Pittsburg, September 17, 1910.

SEASON WILL CLOSE EARLY ON THE LAKES

Light Ore Movement Expected from Now On, and Most Vessels Will Tie Up Dec. 1.

The steel corporation, which takes care of something more than 50 per cent of the wild capacity in the ore trade, will be through with outside boats in thirty days. The other shippers will have about all they can do to take care of the vessels they have under contract during the balance of the season, in the opinion of marine men, and wild cargoes will be very scarce.

The outlook is for a slow finish and the indications are that many of the vessels will have to go to the dock before Nov. 1. The movement of grain will not be as heavy as it was last season and all the big carriers that are under contract to the steel corporation are turned loose the latter part of next month the grain trade will only furnish cargoes for a small part of the fleet.

There will be a marked let up in ore shipments from now on and with the exception of a few special loads the bulk of the ore that is forward will be moved by contract tonnage. Shipments for September, it is expected, will show a slump of from 600,000 to 800,000 tons compared with August. A greater decrease is looked for in October and a leading shipper a few days ago said that he did not think that the movement after Nov. 1 would exceed 5,000,000 tons. Last year the fleet carried 4,899,220 tons in November and shipments for December were 519,525 tons.

Little or no ore will be moved in December this year and the steel corporation will be practically through by the middle of November, when it is planned to load the last boats of the trust fleet. There will be a fair movement of coal up to the close of the season, but at present the supply of tonnage is far in excess of the demand.

The docks at the upper lake ports are in bus and coal carriers will spend considerable time in port. Shipments to Lake Superior ports up to Sept. 1 were far ahead of last season for the same time. This year the fleet carried 7,297,788 tons of soft coal through the Soo canal, which was a gain of 2,495,630 tons over last year. The increase in hard coal shipments was 261,714 tons and the movement for this year up to Sept. 1 was 1,000,259 tons.

EMPLOYES UNDER CIVIL SERVICE ARE AROUSED

Opposed to Gillett Retirement Bill and Favor Pensioning of Aged Government Servants.

A petition is being circulated among the United States civil service employees in this city, protesting against the passage of the Gillett bill, introduced at the last session of congress. This bill provides for a compulsory assessment on the salaries of civil service employees deducted each month for the purpose of creating an annuity for superannuated employees. Government employees affected by this bill in this city are unanimously opposed to its passage, and the petition is being generally signed. In its stead, they desire the passage of a merit pension bill, permitting employees who have a good record to retire at sixty-five on three-quarters pay.

The United States Civil Service Retirement association has taken a decided stand against the Gillett bill and circulars setting forth the injustice it would do to government employees are being sent broadcast all over the land. The Gillett bill in substance provides that the government deduct from \$5 to \$15 per month, depending upon age when entering the service, from each \$100 salary, to be applied as a pension when the employee is retired at sixty-six, sixty-five or seventy years.

Numerous objections are urged against the bill by its opponents. It is claimed that when in full operation that the expense will be paid entirely by compulsory assessments on salaries, and that in forcing this plan upon its employees, the government is offering nothing better, and something probably not so good, as can be obtained from an insurance company. The whole scheme it is declared, is simply a plan for compulsory saving at 3 1/2 per cent, forcing all civil service employees to use their savings to buy an annuity which can be bought on just as favorable terms from an insurance company. Savings banks pay 4 per cent interest and mortgages pay 5 per cent, from which it is argued that the government proposes to take its employees' money on less advantageous terms than they could invest it themselves. It is urged that the immediate effect of the Gillett bill would be to reduce salaries just at the time when there is urgent need of an increase.

President Taft is said to be opposed to the Gillett bill and in favor of a clear civil service pension. This is what civil service employees in this city want, together with the great majority of those in all parts of the country. The employees' association has set apart the first Saturday in October as Retirement Day on which a country-wide effort will be made to arouse public sentiment in favor of the pension system, as opposed to a retirement bill of the contributory type.

WOMEN'S SHOES OF QUALITY

WE will this time especially call the ladies' attention to our brand of Ladies' Shoes. We have the Krippendorf Dittmann Co.'s Shoes, of Cincinnati, Ohio. A Shoe that is as good in quality and style as any other make of ladies' shoes in United States.

We do not, as a rule, blow our own horn and consider

Quality Is Our Best Salesman!

But as we have recently opened up our store and our brands of Shoes are new to the people here, a little boosting from our side may not be out of place.

We have also Gents' Fancy Shoes, Gents' heavy working Shoes and Children's Shoes of all descriptions. We buy our different brands of shoes direct from the different factories and have taken extraordinary precautions to select our brands only from the very best factories known.

SHOULD WORK LIKE MEN IF THEY VOTE

So Says Marx Baff, a Psychologist of Clark University, Concerning the Suffragettes.

"What makes women talk on the street corners? What makes them claim from soap-boxes? What makes them distribute handbills? Nothing but excitement," Dr. Baff declares. "Do they really want the ballot? No, they just think they do."
"If women want to vote," he continued, "they ought to do men's work. They ought to dig the tunnels; they ought to run the street cars; they ought to begin right now to practice with a hammer and some nails."
"And they are perfectly capable of doing these things. In foreign lands women do hard manual labor. It is not considered degrading in localities where it is done. It would not be degrading here—if the women would do it. But they won't. They are looking for something easy."
"What makes them want to vote?"

Hysteria! Their excited suggestibility! Women want to do what everybody else is doing. They follow the crowd. This whole movement is caused by a few women who excite other members of their sex. Because they come along and collect a crowd on the sidewalks and stand on a platform and say that they want the ballot every woman who is listening thinks that she wants it too!
"You know how easily a mob can be inflamed to desire things that never entered the heads of individuals who compose it. Women see men going to the polling booths and they want to imitate them."
"If women want to vote, let us say if they want to vote on an affair of the city street cleaning department, they should first get a job and clean the streets themselves. Physically they would be able to do it. If they want to walk across a bridge they ought to help build the bridge. Why can't they be carpenters and engineers and draughtsmen?"
"Why can't the men wash the dishes? Men do not want to wash dishes! (This very emphatically.) There is no reason why they should do the work that belongs to women. You cannot make a woman out of a man, and you can't make a man out of a woman. There is a difference between the sexes. The trouble is that women think they can make men of themselves."
"As far as the actual performance of putting a ballot in a box goes, a woman is just as well able to vote as a man. A business woman should be allowed to vote as long as she prefers to remain unmarried."

Upper Peninsula

Will Discontinue Logging Work—
The West Branch Cedar company, which has been operating on a large scale near Ralph for several years, has decided to discontinue operations and will sell its logging outfit. The company owns 5,000 acres of land in Dickinson and Marquette counties, which will be held for future operations. During the past season the company has cut 3,000 cords of pulpwood, 60,000 railroad ties, 750,000 feet of shingle timber, 1,500,000 feet of mixed timber, 50,000 posts and 5,000 poles.

Married for Fifty Years—
Married for fifty years, Mr. and Mrs. Joseph Farr of Sault Ste. Marie have just celebrated the event. Half a century ago they were wedded in the ancient and historical Plumstead church about ten miles out of London. Since that time the city has grown so that Plumstead is now a portion of the great metropolis Mrs. Farr was at that time twenty and

Mr. Farr twenty-three years of age. Ten years after their marriage Mr. and Mrs. Farr went to Hamilton, Ont., where they stayed until moving to the Soo in 1882. At the time of their arrival the Soo was a little village on the water front and they have seen it grow to the city of over 12,000 inhabitants.

Close Contest in Schoolcraft—
The Republican convention held at Manistique and which chose the Schoolcraft county delegates to the forthcoming state meeting at Detroit was marked by a close contest for the position of county chairman. Benjamin Gero was re-elected to the place by the vote of thirteen to twelve. His opponent was Jas. H. McCallum. The latter was chosen chairman of the convention in a contest with W. L. Middlebrook, mayor of Manistique, by fourteen votes to thirteen.

Young Woman Loses a Foot—
Miss Sophia Johnson, nineteen years of age, was run over by a string of ore cars while crossing the North-western track at Norway the other afternoon and had her right foot crushed so badly that amputation was necessary. The young woman was accompanied by her mother. She was crossing the track ahead of a westbound ore train and did not see a switch engine with a number of ore cars coming from the opposite direction on the north track. She was struck by an ore car and knocked down, one of the wheels passing over her foot. She was taken to Chicago for treatment.

Wants the Firemen's Tournament—
Gladstone already is a bidder for the 1912 tournament of the Upper Peninsula Firemen's association, which next year will meet at Bessemer. To furnish sinews of war, a ball will be given Thanksgiving night at the opera house. Gladstone has urged her claims year after year in a half-hearted way, always coming in at the last minute. Now the department means business and is making an early start.

Ironwood's Pioneer Liveryman—
Although they had known that he was afflicted with an incurable malaria, the word that Tom Brown, Ironwood's pioneer liveryman, had passed away at Riverside sanitarium, Milwaukee, proved a distinct shock to his many friends. He suffered a paralytic stroke while walking on Suffolk street several months ago, and steadily grew worse. The deceased had been a resident of Ironwood most of the time since 1885. For twenty years he was employed as a diamond drill expert by the Sullivan Machinery company and carried on deep drilling for that concern in both North and South America. On account of failing health, he gave up drill work and engaged in the livery business. He was always a good citizen, and many men received their start in life with Tom Brown's money, for none was more loyal and generous to those he liked than he.

His wife died and was buried at Brentwood, Ontario, many years ago, and it was there that the only child, Joseph Brown, has now buried the husband and father. The deceased was born at Kingston, Ont., in 1854.

Married at Bessemer—
Announcement is made of the marriage at Bessemer of Lydia N. L. Reid of this city and Howard B. Haley of Denver, Colo. The ceremony took place at the home of Wm. H. Rogers. It was performed by Rev. F. W. Schoenfeld and was witnessed by the relatives and a few close friends of the family. The home was decorated with flowers and greenery. The bride wore a gown of cream peau de crepe, trimmed with baby Irish lace, and carried a bouquet of roses. A reception followed the ceremony, and an elaborate luncheon was served, following which the couple departed for a tour of the East. After Nov. 1st Mr. and Mrs. Haley will be at home at 1137 Sherman avenue, Denver, Mr. Haley is a business man.

IN FAIR JAPAN.
A Woman's Curious and Delightful Experience There.

Miss Marie C. Stopes went to Japan with a definite object. Although young she is a geologist, and she spent a year in exploring coal mines and collecting fossils, with which she combined visits to Japanese as well as European residents, dancing and dining and seeing the country.

She came into touch with every place from the officials at Tokio, to peasants in wild places where no European woman had ever been seen. And she has written "A Journal from Japan." It is fresh and graphic, and gives a very real impression of the life of the country. Of the varied experiences it relates, some are delightful, especially that of "a perfectly ideal ruin" on the cliff above a tiny bay. "I took a small room facing the sea, where the breakers dashed on to the cliffs, and found that, though inside the house, on one side it was open, because a big piece of cliff stuck right into the building. This gave a charming view of moss-grown rocks and a hollow stone with a lake in it lying between me and the next room."
"The bathroom was also scooped out of the solid rock, and was a great vault-like place. The beds were excellent, and the bill was 66 cents. On the other hand, one receives a disconcerting impression on hearing of a professor who, with his wife and children, had settled into a new house, to be told that a leper had just died there—or the tendency of Japanese gentleness to strip at inappropriate moments must be a trifling embarrassment till one becomes accustomed to it."

Tetter, Salt Rheum and Eczema
Are cured by Chamberlain's Salve. One application relieves the itching and burning sensation.

New York, Sept. 20.—The market today was dull at the opening and was later under some pressure. The traders took little interest in the market, but during the middle of the day sold stocks and prices eased off. Before the close there was a rally on some short covering, but the market responded only feebly. We look for continued dullness for the next few days. The closing prices follow:

New York Cotton Market.
New York, Sept. 20.—There is an undercurrent of bullish feeling even by those who are for the moment standing aloof, the idea being that a portion of the crop should be permitted to liquefy itself before a permanent foundation for higher prices is built. So much unanimity of desire to buy at lower levels exists, however, that it is doubtful if all will be accommodated. We feel very friendly to cotton on all soft spots, and believe that this pendulum-like swing of the market will one day cease and that cotton will move to higher levels and forget to come down again.

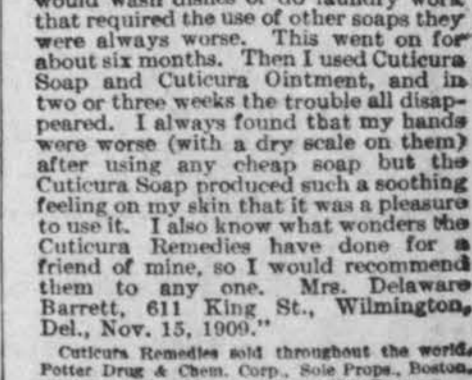

Chicago Wheat.
Chicago, Sept. 20.—Considering the Liverpool cables at the opening and the strength of the tone on hour later, our market has not shown much snap and certainly held the early advance very poorly. The rash of cheap Russian wheat appears to be over, according to the cable reports, but this influence is too remote to start a bull market here. Minneapolis claims a fairly good cash demand and some increase in flour sales. The northwest reports also claim that about half the wheat arriving in Duluth

BREAKING OUT ALL OVER BODY

Itched Dreadfully. When Scratched It would Bleed and Become Very Sore. Could Scarcely Sleep as the Itching was Worse at Night. Dreaded Putting Hands in Water.

Used Cuticura Soap and Ointment 3 Weeks. Trouble All Disappeared.

"Some time ago I had a breaking out all over my body. It first started like what we call goose flesh and itched dreadfully. When I scratched it, it would bleed and become very sore. I tried almost everything for the itching but none gave me much relief. I could scarcely sleep as the itching was always worse at night. My hands were so sore I dreaded putting them in water and after I would wash dishes or do laundry work that required the use of other soaps they were always worse. This went on for about six months. Then I used Cuticura Soap and Cuticura Ointment, and in two or three weeks the trouble all disappeared. I always found that my hands were worse (with a dry scale on them) after using any cheap soap but the Cuticura Soap produced such a soothing feeling on my skin that it was a pleasure to use it. I also know what wonders the Cuticura Remedies have done for a friend of mine, so I would recommend them to any one. Mrs. Delaware Barrett, 611 King St., Wilmington, Del., Nov. 15, 1900."

High Grade Sausage

Each year the output of our Sausage Department has increased. This is owing to our living up to our motto, "The Best in the Land" only the best by Cudahy Brothers Co. Only the choicest of meats and the finest spices are used. Cleanliness in all departments is rigidly enforced, all being under U. S. Government supervision. This is the secret of our success. If you are not a regular purchaser of Cudahy Milwaukee sausage, place an order at once with your local dealer.

Correct Autumn Clothing for Women
 IT'S the finest and hand-somest clothing, ready-to-put-on, that human skill can produce. It is every thread all wool and made up with the maximum amount of hand work in every grade. All suits and coats being made with the same care as custom clothing.
 There is a reason for the great growth of this Gately clothing business. It spells better clothing or a lower price for quality. It means clothing that not only fits when you buy it, but keeps its fit through long and satisfying service. We believe that you will be as enthusiastic as our thousands of other customers are after you give us a trial.
 You will like the new suits and coats and the latest creations in fall millinery.
 You don't need much cash to open an account with us. Use your credit—we will trust you. Pay as you get paid.

Ishpeming Department
RECORD YEAR FOR ISHPEMING SCHOOLS
GATELY IN THE CITY.
 Wellknown Installation Goods Man Spent Yesterday in Ishpeming.
 John Gately, at the head of the John Gately company's stores, spent yesterday at the concern's Ishpeming branch. He was accompanied to the city by his nephew, Fred E. Harwood, who is a buyer for all of the Gately stores being operated under the Chicago headquarters. This is Mr. Gately's first visit to Ishpeming since a year ago last July. He is making the rounds of all of the stores doing business under the Chicago management, and will be on the road for several weeks. He came here from the copper country, where the Gately-Wiggins company has two stores, and he and his nephew left last night for Iron Mountain to inspect the business of the branch there.
 Since Mr. Gately's last visit to Ishpeming new stores have been added to the chain. There are now ninety-four branches in operation. Forty-six of these are under the management of the Boston house, sixteen are managed by the Philadelphia headquarters, twenty-three by the Chicago house and nine by the St. Louis headquarters. The stores reach from Boston to Seattle.
 Mr. Gately stated that while he hears merchants in various lines of trade complaining of not having as good business now as they had a year ago, this is not true of the Gately stores, especially the ones under the management of the Chicago house. He said that the business of the Calumet, Houghton and Ishpeming stores, which are now conducted under the firm name of the Gately-Wiggins company, have increased their patronage about 20 per cent during the past twelve months and that the increase of the Duluth branch is from 40 to 50 per cent.
 Mr. Gately is very proud of his Michigan stores. The concern's Saginaw store is the largest house of its kind in the state and the company owns the four large buildings in which the business is conducted. The sales department occupies two buildings with a combined frontage of 100 feet, 120 feet in depth, and three stories in height. The shipping and receiving departments are in separate buildings. The firm also owns the largest store building in Peoria and Bloomington, Ill., where an extensive business is carried on.
 In spite of the fact that Mr. Gately is an unusually busy man he always finds a little time to play golf and fish. He is one of the most enthusiastic golfers that comes to this section and there are very few sportsmen in the upper peninsula who are more familiar with the trout streams than he. He has fished in nearly every river and lake in this section during the more than thirty years he has been coming this way, and he has also played golf on a majority of the courses in the state. Last year he played golf in most of the important cities from Chicago to the east and there was only one month in the year, December, that he did not play the game. His record for the year was 1,512 holes.
NOTABLE IMPROVEMENTS.
 Milwaukee Decorators Will Begin Work This Week at Peninsula Bank.
 Wallager & Co., a well-known decorating firm of Milwaukee, has been awarded the contract for the decorating of the interior of the Peninsula bank, which has been completely remodeled, and a number of the concern's workmen are expected here the latter part of the week. The rooms have been given a second coat of wood fibre plaster, and work on the third coat was started yesterday. The decorations will be in fresco. The Milwaukee concern expects to complete the job within three weeks. The new fixtures of the bank are not expected to arrive until the latter part of October, and the bank officials do not expect to move from their present temporary quarters until about Nov. 1.

REPUBLICAN LEAGUE DELEGATE.
 Ishpeming Man Also Appointed Member of the Advisory Council.
 John W. Egan of Grand Rapids, president of the Republican state league, has notified C. J. Burns of this city that he has appointed him a member of the advisory council of the organization and delegated him to attend the national Republican League convention, which is to be held Sept. 30th and Oct. 1 in New York City. The advisory council is composed of two members from each of the twelve congressional districts of the state. The other appointee from the Twelfth district is W. Frank Knox of Sault Ste. Marie. Chase S. Osborn's campaign manager, Mr. Burns was a member of the council two years ago, when the National Republican League held its convention in Cincinnati. He was then appointed by Samuel H. Kelly of Benton Harbor, the ex-president. On that occasion President Taft made his initial campaign speech, following his nomination. Mr. Egan has advised Mr. Burns that President Taft is to speak again this year.
STOCK MARKET LETTERS.
 Geo. F. Ruez's Review yesterday said: "The New York list opened strong and held well until noon, when a sharp decline came out. This caused a reaction of a point throughout the list. Nipissing declared a regular quarterly dividend of 5 per cent and 2 1/2 per cent extra, payable Oct. 20 to holders of record of Sept. 20. The Shattuck directors declared a dividend of \$1 per share, payable Oct. 20 to stockholders of record Oct. 10. There is a good demand for the stock on the announcement. Sales at 24 were made. North Butte was the most active of the Boston coppers. The transactions resulted in a break from 27 1/2 to 26 1/2, with a slight recovery. Lake, Indiana, North Lake, Algonah and Bohemia were weak. South Lake was the only one of the Ontario group to be strong. Nipissing was active around 9 on a report that drill No. 5 had penetrated the Atlantic amygdaloid twenty-two feet thick. The following message was received from New York on the steel price situation: "It is learned on highest authority that the United States Steel corporation has no intention of publicly announcing a reduction in steel prices. It is admitted, however, that adjustments in the official schedule of prices of the various subsidiary companies of the corporation will be made. It is admitted also that actual sales of steel products have been made at prices below these official schedules and the understanding is that the schedules will be adjusted to meet these prices."
 D. T. Morgan & Co. said: "During the first half of today's session the New York market was strong and prices held well above those of yesterday. The circulation of bearish news at noon, such as an expected further cut in prices of steel products, and that forces are being largely released at steel plants, was followed by an aggressive bear attack and rather heavy selling of steel common. The New York political situation is also distasteful to Wall Street. The losses during the last hour, while general, were mostly confined to small fractions showing the strong resistance power of the market. It looks as though any change of real importance must be upward. Authority has the feature in a dull and weaker Boston market opening at 27 1/2 and selling down to 26 1/2 on heavy trading. Algonah and Bohemia were also weak, the former declining to 10 1/2 and the latter to 12. Shattuck declared a quarterly dividend of \$1 and was bid up to 24 on a few small lot transactions. We are not sure that the market is as fractionally stronger. Nipissing and La Rose declared quarterly dividends of 6 1/2 cents and 10 cents, respectively. There was no material change in the price of Ohio, Inspiration and South Lake were active on the curb, and all were strong. South Lake sold up to 9 1/2 on news of counteracting rich rock in No. 3 drill hole, and closed at 8 1/2. Davis-Daly was in demand at 2. The others were quiet with little change."
 Pupils wanted for piano. Experienced teacher. Usual terms.

Complete Change Today
 Ricketts, Dr. Ricketts stated that he was pushing important construction work with all possible speed at Cananea and that the result of the installation of new machinery and methods would both increase the production and reduce the cost. A steel reverberatory building is going up and is making good progress. Two 1850 K. W. turbines will be placed in this building. The first of these is expected to arrive next month and the second in November. Foundations for eight McDougal roasters are being built. The present monthly output of copper is at the rate of 36,000,000 pounds, a slight decrease from a few months ago. Besides copper the Greene-Cananea produced 100,000 ounces of silver last month.

BETTER SIGNAL SYSTEM ADOPTED

Management of Cleveland-Cliffs Roads Putting in Upper Quadrant Three Position Semaphores, to Insure Greater Safety at Crossings and Junctions.

An Especially Modern Interlocking Plant Being Installed at West Ishpeming, where North Lake Branch Crosses the Chicago & Northwestern Railroad.

The Lake Superior & Ishpeming, Marquette & Southern and Munising railroads are installing a number of the latest improved safety appliances, which place these roads in the first rank among upper peninsula railroads. Upper quadrant, three-position signals are being put at all crossings, and the equipment at the interlocking tower at West Ishpeming on the new North Lake branch is of the latest approved pattern.

Under the ordinary signal system in use at railroad track crossings, what is known as a "distance" semaphore is placed about 1,500 feet from the crossing and a "home" semaphore about 300 feet from the crossing and switchman's tower. The distance semaphore, according to the position of the board, may mean either a clear track or be a cautionary signal warning the engineer to have his train under control before coming to the home semaphore. If the home semaphore is set against him, it means that a train on the other track has the right of way, and that the derail switch, about fifty feet distant, is open; in other words, that he must stop his train until the other track has passed by and he is "given the board."

The only difference between the distance and the home board in the system commonly in use is that the former has a fish-tail shaped end and the home board a square end, and that the two are not the same color. This difference was not proved sufficient to prevent the engineers becoming confused at times, particularly as the two boards in the same position may mean different things. To obviate all possibility of such confusion the upper quadrant, three-position signal has been invented, and the Cleveland-Cliffs roads are among the first in this part of the country to adopt it.

Power Signals at West Ishpeming.

At the junction of the North Lake branch of the L. S. & I., and the Clowry branch of the Northwestern at West Ishpeming, power signals operated by electricity, are being installed. With hand levers, the distance board can be operated at a distance of more than 1,500 feet from the home board, but by using electric power, the distance board is to be placed 3,000 feet away, and the home board will be 600 instead of 300 feet away from the tower. An electric annunciator is also to be installed, which will notify the tower man of an approaching train when it is a half mile away from the distance board. Extra precautions are needed at the West Ishpeming crossing, owing to the sharp curve and heavy grade, making it hard for the tower man to see down or up the track for any great distance, and difficult for a train to stop on short notice.

A time lock will also be installed at the West Ishpeming tower, making it impossible for the tower man to change a right of track signal for forty-five seconds after he has once set it. This improvement is designed to prevent a train being derailed because of the tower man losing his head at a critical time, and is considered an important device by local railway men. Sometimes after the tower man has given a slow freight train the right of way over a crossing, he sees a faster train coming on the other line, in which event he may take a chance on changing the signal and give the right of way to the faster train. This is a practice in which some tower men persist, notwithstanding orders to the contrary, and the fact that it often results disastrously.

As in the past, the Cleveland-Cliffs roads are up to the minute in the installation of devices designed to make railroading safe for employees and traveling safe for passengers, and the installation of the improvements enumerated in this article, will place the road among the foremost in the upper peninsula in these respects.

SOO CANAL PASSAGES.

List of Boats That Have Passed the Locks, Bound for Superior Ports.

Sault Ste. Marie, Mich., Sept. 20.—The following boats have passed through the locks, bound for ports of Lake Superior: Fairmount, 8:30 p. m.; Ishpeming, Choctaw, 9; Snyder, 9:30; Bangor, Laughlin, 10; Gerrison, Marquette, 11; Tempest, Shannock, 11:30; Beatty, Nevada, 1:30 a. m.; James Wood, Sultana, Geo Peavey, 3; Black, Corless, Corey, 4; Winnipeg, 6; Norton, 6:30; Gordon, 7:30; Carter, 8; Buffington, 9:30; Walter Seranton, 11; Superior City and wheelback, Rome, Samuel Mather (small), Xenon, Erlanson, Fritz, 12:30 p. m.; Artec, Miztec, Zillah, Pesh-tigo, Delaware, Athabasca, 1:30; Saronic, 5.

Miss Hamrick is closing her shop this week at Mackinac Island and will display her needlework at Hotel Marquette for a week, beginning Monday, Sept. 26. (9-20-10)

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold by The People's Drug Store.

AUTOMOBILE DAMAGE SUIT.

Tregay vs. Fenner Case Being Tried in Circuit Court.

All of yesterday in circuit court was taken up with the trial of the damage suit brought by William Tregay against Howard Fenner, as the result of an automobile accident which occurred on the hill between Negaunee and Ishpeming Nov. 11, 1908. Mr. Tregay was driving down the hill with a light wagon and when near the foot was struck by an automobile driven by Mr. Fenner, the impact overturning the wagon and throwing Mr. Tregay underneath. Mr. Tregay is an old man and the injuries received kept him confined to the house for some time.

Mr. Tregay is represented by C. F. Button in this trial, and alleges that he had no warning of the approach of the Fenner car, which was running at a high rate of speed, "faster than a horse could run," as one of the witnesses testified. Mr. Fenner and other occupants of the car tell a different story. They claim that the car came down the hill at not more than ten or twelve miles an hour with brakes set, and that the horn was tooted all the way down the hill. When a short distance from Mr. Tregay's wagon, the defendant's witnesses state, Mr. Tregay turned around, evidently became confused and turned to the opposite side of the road and right in front of the approaching car. Mr. Fenner then swerved his car quickly to the opposite side from which he had intended to pass, but not quickly enough to miss the wagon altogether, the front wheel of the auto colliding with the rear wheel of the wagon.

All the evidence in the case was taken yesterday and Mr. Button was in the midst of his argument to the jury when court adjourned for the day. Mr. Fenner is a resident of Detroit and is represented by a Detroit attorney, James McNamara.

MUCH INTEREST SHOWN IN GUN CLUB SHOOT

Trap and Rifle Experts from All Parts of Peninsula to Gather Here Next Week.

Indications are that the first annual trap shoot of the Town and Country club of Marquette, to be held in this city next Monday and Tuesday, will be largely attended and that all of the events will be well filled. Programs were distributed about the city yesterday and mailed to 100 or more shooters in the upper peninsula. It is expected that at least six outside teams will compete for the H. O. Young cup, which is now on exhibition in the show window of Conklin's store.

The shoot will be under the management of Jack Parker, a professional representing an ammunition house, and will begin Monday morning at 9 o'clock on the club grounds on West Washington street. The traps are of new construction and are in excellent working order. The shoot will open with two events of twenty targets each, for a prize of \$2.25 each, to be followed with five pair of doubles.

Then will follow a rifle shoot, eligible to three-men teams from any gun club in the upper peninsula. This event will consist of five shots at 200 and five shots off hand, at a 200-yard range, magnifying and telescopic sights not allowed. The first prize in this event will be a cup.

Events No. 4, 5 and 6 will be shot Jack rabbit system, two of the events fifteen targets and one twenty targets. In addition to the cash prizes in these events, the \$25 Stevens repeating shot gun will be given for the highest score; a Gillette safety razor for the second highest score; above six trap shooting events, a Damascus hunting axe for the third highest score, and an Ideal gun cleaner for the fourth prize. The Marquette club will add \$5 to the prize in each event.

Three-Men Team Event.

The big event of the shoot will be that for the possession of the H. O. Young silver cup, which may be shot for by three-men teams from any upper peninsula gun club. In this event each man will shoot fifty targets on Monday and fifty on Tuesday. The cup belongs to the property of the club that wins it two years in succession.

MADE RECORD TIME.

Party Motored from Munising to Marquette in Less Than Three Hours.

A party of four Marquette county men, George A. Newett and E. R. Nelson of Ishpeming, James Russell and E. J. Mitchell, of Marquette, made the round trip from Marquette to Munising yesterday in Mr. Nelson's 1911 Model D Franklin car in remarkably short time. The trip to the Alger county seat was made in three hours even. After dinner and visiting at Munising, the party started on the return trip, leaving Farrell's drug store at 3:15 p. m. and arriving at Pendill's drug store in this city at 6:07 p. m., two stops being made en route, for which seven minutes are counted off the total time on the road.

The engine of the car did not stop running the entire distance on the return trip, and not a tire was punctured or any trouble of any kind encountered on the entire run. The running time from Farrell's drug store to the cross roads near the cemetery was sixty-five minutes; from the cemetery to Whitefish river, thirty-two minutes; from Whitefish river to Carlsbad, twenty minutes; from Carlsbad to Skandia, thirteen minutes; from Skandia to the prison, thirty minutes, and from the prison to Pendill's drug store, five minutes, making a total of 165 minutes. It

is sixty miles by highway between the two cities.

"This is the most beautiful drive in northern Michigan," said Mr. Mitchell last evening, "and if owners of automobiles had the faintest idea of its beauty, this bit of roadway would be the most traveled in this section of the country. With the exception of a short stretch of sand this side of Skandia, the road is excellent, though the clay stretches might make trouble in wet weather."

LOOK FOR OSBORN TO LEAD THE WAY

One View Is That He Should Participate in Framing Platform.

From all reports, the Republicans of the state are awaiting the call of their leader, Chase S. Osborn, before starting any election campaign, while Mr. Osborn says he is waiting for the state convention, says the Lansing State Republican. There is a general disposition, it is stated, to stay in camp pending the time when Mr. Osborn shall signify what he deems are the issues, and there will be no great activity, it is understood, until he maps out the campaign and starts for the firing line. In this connection his letter last week to the Detroit News is considered an insufficient outline of the strategy and tactics to be used.

In that letter the Soo candidate asserted that he had no desire to dictate to the party convention, conveying the inference that the delegates will be elected by the Republicans whose candidate he is, and he is willing to stand for whatever platform they consider proper. This declaration is approved by many Republicans, but they point out that after the turmoil of the primary battle the tactical evolutions and the skirmishes which were a part of it, no man but Mr. Osborn can mark the lines for the main campaign with assurance. In other words, they declare that the personal views and the personality of the successful candidate entered into the primary campaign to an extent which renders it impossible for other than he to take up this work for the election struggle. His platform and utterances secure such a significance under the direct nomination system, they contend, that he becomes the main figure in the general election struggle and must of necessity assume the same responsibilities he did in his pre-nomination combat. Any other course, Republicans say, might lead to a dangerous situation in which the party platform and candidate are not in accord.

The people are not greatly interested in party platforms, it is urged, but are interested in Chase Osborn and what course he proposes to pursue if elected governor, and what principles he desires to advocate and sustain. They urge that there cannot be any half way measures, and doubt the expediency of the party adopting a platform and Mr. Osborn subscribing to it except that with it goes the guarantee that it is written exactly as he desires that it be written.

Think Osborn Should Express His Views.

Expressions of this character by party men show why they are waiting for a word from Mr. Osborn before opening the battle. This is the "zeitgeist," as they say they have found it throughout the state. Mr. Osborn used that word "zeitgeist," in his letter to the News, adding its translation—the spirit of the times—which he said in Michigan is a sane party poise, standing for things safe and sound in other states. Republicans, in discussing the letter, say they understand it to mean that Mr. Osborn believes the party should adopt a middle course between the "cautious selfishness of yesterday" and the "destructive hysteria of today." Or that the party should not be ruled by either faction. This he immediately raised the question as to whether he refers to national or state policies. Some extremists of the progressive wing in federal government are out now seeking to bind the party to a platform which will outdo any of the recent promulgations by the party in other states. It is asked whether Mr. Osborn will abide by the convention in this regard, and it is pointed out that if he has any fears along that score he can avoid the issue by speaking now as to what he at least believes should be in the platform. Men who are his warm admirers are hoping that through an early declaration on his part as to his views regarding the planks of the platform, all danger of a factional fight over the question can be obviated, the general opinion being that he has the right to take a stand in this regard. These men are desirous to know whether they have placed the right construction on his language in his letter.

Former Opponents Are Waiting.

Unquestionably the Warner men are waiting the word from Mr. Osborn before resuming their places in the party ranks after the factious clamor of the primary contest. Not that any of them are miffed, or have suggested they might adopt some other course, but they are wondering whether they are to be invited in or are expected to take their places with no word from the chieftain. Not a word has come from the Musselman forces since they raised the white flag on Sept. 7, and it is believed they are waiting for some hearty words of enthusiasm from the leader to serve as their opportunity to express their Republicanism and alignment for the big struggle.

Everywhere the expression is heard: "What is Mr. Osborn going to say?" There has been a heightened interest in the query since the Democrats walked out and hung down the glove without waiting for their state convention. Next Wednesday Mr. Humans will open his campaign in Grand Rapids without waiting for his party to enunciate its views and the general understanding is that he will pretty definitely place his party in position for the combat, leaving the convention to follow after with its declarations. It is urged that the course of the Democrats renders it imperative for the Republicans to adopt similar tactics and for Mr. Osborn to lead the way.

E. Reckmeyer of Milwaukee will be at the Marquette Millinery company's store, on Tuesday, Wednesday and Thursday with his line of Royal Furs. (9-19-31)
