

FIRST GAME IS TAKEN BY MACK'S MEN

Before a Crowd of Twenty-Seven Thousand Persons, the Philadelphia Americans Win the Initial Contest of the World's Baseball Series by the Score of 4 to 1.

To Bender's Brilliant Pitching and to Third Baseman Baker's Timely Batting the Athletics Largely Owe Their Victory—Indian Allows but Three Hits.

Philadelphia, Oct. 17.—In a clean, sharply-played game the Philadelphia American league champions defeated the Chicago Cubs, the National league champions, this afternoon, four to one, in the first contest of the world's series.

To Charles Albert Bender, the Chippewa Indian pitcher, and to Frank Baker, third baseman, Philadelphia largely owes her victory. The "Chief" never showed better form. Baker's contribution was his timely hitting.

Philadelphia found Overall rather easy, and after the third inning Manager Chance was compelled to send McIntyre in. The latter kept the Athletics without a hit until the eighth, when Baker made a two-bagger to the right field wall.

Cubs Got Only Three Hits.

Bender allowed Chicago three hits, one in the first, one in the second and two in the ninth. Not one Cub reached second until the final inning. If it had not been for the muffing of Tinker's foul fly by Thomas in the ninth, Chicago would have been disposed of with but two hits, as little Tinker hit the next ball for a clean single and took second on Strunk's tumbled.

The big Indian was as steady as a clock. Besides getting only three hits, Chicago was able to work him for only two bases on balls, and Schulte got both of these, one in the fourth and the other in the ninth. Overall got away with the first inning in five, but Collins, second baseman of the Athletics, hit a single; but he got into trouble in the second, when the locals batted him for three hits, one a double. He also gave a base on balls in this inning.

In the third he was touched for a single and in the fourth he was hit. Third baseman Baker was the only man of either team to get more than one hit. He landed two doubles and a single, scoring one run for himself and sending home two others, out of a total of four. Lord was the only other player to hit for an extra base.

Little Sensational Fielding.

Except for a hard running catch by Sheppard of a long fly by Murphy in the seventh and several hard stops by Baker and Barry, the fielding was not sensational. The only stolen base was by Murphy, who reached second on a high pitched ball which Kling could not bring down in time for a try to the center bag.

The crowd was not the largest that ever attended a game here. The official attendance was 26,801; the total receipts were \$37,424. The players receive \$20,293.25, the club owners \$13,478.82 and the national commission \$3,742.45. The failure of a record crowd was due partly to the inability of thousands to obtain reserved seats and to the fact that the police would not permit anyone to stand in the aisles of the grandstand. The bleachers were filled two hours before the game, several thousands having spent most of the night at the gates of the park.

Story of the Game.

Sheppard fouled off the first ball pitched. Then he went out on strikes. Schulte singled to left. In trying to steal second he was thrown out by Catcher Thomas. Hoffman was an easy out. In the Athletics' half Strunk and Lord were easy outs, but Collins got in a hit to left. Collins then was caught trying to steal second.

Chicago was easily disposed of in the second, Chance and Steinfeldt going out on grounders and Zimmerman on a foul fly. Baker, for Philadelphia, sent a two-bagger into the left field crowd and was sent to third on Davis' sacrifice. Murphy, right fielder, singled to the left field line, bringing home Baker with the first run. With shortstop Barry at the bat, Overall appeared unsteady, and on a high pitch, which Kling just managed to reach, Murphy stole second. He was advanced to third on Barry's out. Thomas drew four balls. Bender sent a single to center, and Murphy scored the second run. Strunk flied to Sheppard.

The Cubs went down in one, two, three order in their half of the third. Lord opened for Philadelphia with two bases to center, went to third on Collins' sacrifice and came home on Baker's single to left. Davis struck out.

McIntyre Relieves Overall.

In the next inning Schulte got a base on balls but was caught stealing second. The other two batters were easy outs. McIntyre relieved Overall. Murphy, the first man up, went out on a grounder to Tinker. Barry also was an easy victim. Thomas struck out.

The fifth, sixth and seventh innings passed without anything sensational. Both Bender and McIntyre were working in championship form and not a man saw second. In the eighth the Americans scored again. Strunk and Lord, the first up, failed to reach first. Collins was giving a base on balls. After twice trying to catch Collins off first McIntyre threw wild and the ball rolled into the bleachers. Collins reached third

NOT A WORD COMES FROM THE AMERICAN

Five Westbound Liners Report That They Have Seen No Word of Walter Wellman's Airship—Storms Have Prevailed and There Is Much Anxiety.

Washington, Oct. 17.—The following is the weather bureau's forecast for Upper Michigan: Increasing cloudiness, with showers, Wednesday, and in west Tuesday; cooler, Wednesday; moderate brisk variable winds.

With Ten Monster Aerostats Participating, the Fifth International Balloon Race Is Launched at St. Louis—Aeronauts Competing Represent Five Countries.

Sassonset, Mass., Oct. 17.—Five westbound Atlantic liners, all in touch with each other and all anxious for news of Walter Wellman reported to the wireless station here at various intervals today that they had seen no word of anything of his dirigible airship America and her crew of six. All vessels told of heavy rains and a violent electrical storm Sunday evening, followed by fair weather.

Wellman will attempt a dash for Europe or will return ahead of the easterly wind now prevailing.

Wellman is believed in a position which can only be broadly approximated as somewhere off the coast of New England or Nova Scotia, pursuing the general direction of the northern steamship lane toward the British Isles. As nearly as can be computed, the balloon ought to be in the neighborhood of Sable island sometime tonight, with Cape Race 350 miles away as the next and last stage in the voyage before the final turn across the open sea.

Washington, Oct. 17.—Walter Wellman and his balloon are now somewhere off the eastern coast and south of the North Atlantic steamer lanes, and where communication with the wireless is lacking. This is the opinion of the officials of the weather bureau tonight. These officials believe that the balloon has been forced south of the steamship route by westerly winds.

FORTUNES DEPOSITED FROM SALARIES

Bank Accounts of Alleged Grafters Show a Remarkable Accumulation of Wealth.

Chicago, Oct. 17.—The bank accounts of six former Illinois Central officials whose names have been mentioned in connection with the car repair frauds were introduced today in the trial of Frank B. Harriman, Charles L. Ewing and John M. Taylor in the municipal court. The prosecution declared that Wm. Reushaw, receiving a salary of \$7,900 a year as superintendent of machines, had deposited \$538,905.12 in four years. The prosecution submitted accounts showing that Charles L. Ewing, who received a salary of \$5,000 a year from the Illinois Central, had deposited \$229,065 in a period of about four years. In nearly every case the bank accounts had been closed. The defendants were not yet ready to submit the accounts of Ira G. Rawl.

JULIA WARD HOWE PASSES FROM LIFE

Noted Author and Philanthropist Dies from Pneumonia at the Age of Ninety-One.

Middletown, R. I., Oct. 17.—Julia Ward Howe, aged ninety-one, the noted philanthropist and author, succumbed today to pneumonia. The funeral will be held Thursday, in Boston.

The deceased was born in New York. When twenty-two years of age she went to Boston. She met Dr. Samuel Gridley, the great philanthropist. Two years later they were married. From that time until Dr. Howe's death in 1876 this remarkable couple showed a never tiring co-partnership activity in things making for the uplift of mankind. After her husband's death Mrs. Howe continued to work by pen and mouth for many of the causes. She had shared her husband's labors for the Greeks in their struggle for independence, had assisted him in his anti-slavery work and had fired the nation with her "Battle Hymn of the Republic." She joined heartily in the crusade for woman suffrage, and then in the last years of her life pleaded that action be taken to insure pure milk for infants in Rhode Island.

Mrs. Howe was the author of many poems. She had published in several volumes many of her prose works. She was one of the most prolific contributors to the women's journal, after suffering from pneumonia, of which she was the founder.

Wm. Vaughn Moody Dead.

Chicago, Oct. 17.—Private advices late today made known the death of Wm. Vaughn Moody, author, playwright and authority on English literature. He died at Colorado Springs, after suffering from tumor of the brain for a year. He was born at Spencer, Ind. He graduated from Harvard in 1893 and came to the University of Chicago in 1909. Among his best writings are "Masque Judgment," "History of English Literature," "Great Divide," and "Faith Healer."

Beverly, Mass., Oct. 17.—President Taft left today for New York, where he will stop two days before going to Washington.

CUBAN HAVOC FROM STORMS IS APPALLING

Plantations Are Devastated, Costly Damage Is Done at Havana and Other Cities and Thousands of Persons Are Homeless—Loss of Life Believed to Be Heavy.

Havana, Oct. 17.—Cuba has probably sustained the greatest material disaster in her history, in a practically continuous cyclone which began with rains Thursday morning, developing into torrential floods and devastating hurricanes and continuing until this evening. The western half of the island suffered the most.

The first cyclone had hardly abated Sunday night when suddenly the wind, which had been southeast, changed to southwest and with renewed fury swept over Matanzas, Pinar del Rio and Havana provinces, completing the destruction wrought by the first storm. The damage doubtless is many millions.

In addition to great destruction to sugar and tobacco plantations, many thousands of peasants in the western provinces are homeless and destitute by the loss of homes and food crops. It seems probable that the republic may be compelled to request international aid.

Great Havoc at Havana.

The interior provinces are believed to have escaped the greatest fury of the storm. In the city of Havana the losses will exceed a million dollars, due to the destruction of customs house sheds filled with perishable goods; the sinking of scores of lighters, many containing valuable cargoes, and the submerging of about a square mile of the residential section of the city, facing the sea. The waves were of mountainous height. The waters invaded all seaward part of the city until 3 o'clock this afternoon, when the district was several feet under water. At Vedado, a residential suburb, the sea advanced some hundred yards inland. Many hundreds of people are homeless. A rumor that the city had been struck by a tidal wave, which had been the general opinion of the residents, was dispelled and the water ceased to rise.

The upper part of the Pardo is filled with throngs of panic-stricken negroes, carrying household effects. The jail is surrounded by water. It was feared for a time the prisoners would break loose. At the height of the storm great waves breached clean over the ramparts of Moro castle. They rolled with terrific speed up the harbor, tumbling over the sea walls, and inundating the streets in the lower part of the city.

Small streams in the vicinity of the city are overflowing, flooding the lowlands and carrying off huts, barns and cattle. Probably many persons have lost their lives in these sections. A large contingent all the outfit of the divers working at the wreck of the battleship Maine was carried away, narrowly escaped death tonight when an elevator in which they were riding fell three stories in an office building. The state central committee tonight passed resolutions mourning the death of Senator Dolliver.

WISCONSIN G. O. P. LEADERS NARROWLY ESCAPE DEATH.

Milwaukee, Oct. 17.—F. E. McGovern, Republican candidate for governor, with two other state candidates and five members of the state central committee, narrowly escaped death tonight when an elevator in which they were riding fell three stories in an office building. The state central committee tonight passed resolutions mourning the death of Senator Dolliver.

MEAT PACKERS MAKE COMPLAINT

Senate's Cost of Living Inquiry Not Conducted in Good Faith, They Say.

Chicago, Oct. 17.—The report of the executive committee of the National Meat Packers' association, which met in annual convention here today, intimates that the select committee of the United States senate, when it met to investigate the high cost of living, did not act in the best of faith in examining the packers. The report complains that the whole object of the committee seemed "bent upon endeavoring to find that this association, or some other form of organization, somewhere in the country, was in unlawful combination to control prices and competition," to discredit the packing business, and that the whole inquiry "was a very clear case of the deep prejudice which exists against the packers." The report, however, expresses the opinion that the "belief is growing with the public that the packers are doing a legitimate business."

The claim is made that the "packers and meat dealers have been doing business without profit during the year," intimating the high price of livestock as the cause.

SENATOR DOLLIVER EXTOLLED BY GOVERNOR OF IOWA.

Des Moines, Oct. 17.—Governor Carroll, in a proclamation of sorrow for Senator Dolliver, says, in part: "Of all the able men our state has given to public life, none attained the height of Mr. Dolliver, especially as an exponent of public questions. His friends extended beyond the limits of our nation and his splendid ability and patriotic devotion to public duty were recognized by all who knew him."

Chicago, Oct. 17.—Speaker Cannon today named the following committee to represent the national house of representatives at the funeral of Senator Dolliver: Wm. B. McKinley, Illinois; Charles E. Townsend, Michigan; James H. Davidson, Wisconsin; James T. Lloyd, Missouri; Charles E. Scott, Kansas; Andrew Volstead, Minnesota; John E. Andrus, New York; E. H. Ingham, Nebraska; Chas. H. Burke, South Dakota; Nicholas Longworth, Ohio; Swager Sherley, Kentucky; Lincoln Dixon, Indiana.

LaFollette Much Affected.

Rochester, Minn., Oct. 17.—News of the sudden death of Senator Dolliver has caused a slight setback to the favorable condition of Senator LaFollette, who is recovering here from his recent surgical operation. The close relationship between the senators made the news of the death one of great sorrow to Mr. LaFollette. His condition by no means is serious. It is expected the senator will leave the hospital this week.

Santa Fe, N. M., Oct. 17.—The constitutional convention of New Mexico today adopted resolutions of sympathy on the death of Senator Dolliver.

THE WEATHER

Washington, Oct. 17.—The following is the weather bureau's forecast for Upper Michigan: Increasing cloudiness, with showers, Wednesday, and in west Tuesday; cooler, Wednesday; moderate brisk variable winds.

HEMANS IS ACCUSED OF "FOURFLUSHING"

Chase S. Osborn and ex-Mayor Codd Open the Campaign in Branch County.

Coldwater, Mich., Oct. 17.—Directly charging Lawton T. Hemans, Democratic candidate for governor, with "fourflushing," ex-Mayor George P. Codd of Detroit created a big stir when he asserted in opening the local campaign here tonight that Hemans "only attempted reform while in the state legislature for two terms was an attempt to legalize bucketshops and stock gambling. That the expenditures of the state railroad commission office had failed to increase as rapidly as had been explained and that Hemans, although living in the county where the sessions were held, had been absent thirty-nine times without leave from legislative sessions were charges filed by Mr. Codd.

Chase S. Osborn, Republican candidate for governor, declared that he intended to urge placing the telephone, telegraph, gas and electrical supply companies and many other public service utilities under charge of the state railroad commission. He said that he would urge that every passenger car operating in Michigan on either steam or electric lines be constructed of steel. In this way he would safeguard the lives of travelers.

Candidate Osborn and ex-Mayor Codd were guests at a dinner given in their honor tonight at the Arlington Hotel by the Branch county Republican committee. H. E. Straight, candidate for representative, served as chairman of the party. W. Glen Cowell, candidate for prosecuting attorney, was the only other speaker.

INTERNATIONAL BALLOON RACE

St. Louis, Oct. 17.—The fifth international balloon race was launched here this afternoon, when ten monster aerostats ascended. They sailed toward the north and northwest and were out of sight within a few minutes. The balloons and their pilots are: Condon (France); Jacques Faure, pilot. Million Club (United States); St. Louis; Louis Von Phulo. Azura (Switzerland); Emil Messner. Hamburg III (Germany); Lieutenant Leopold Vogt. Des Moines (France); Alfred Le Blanc. St. Louis No. 4 (United States); H. E. Honeywell, St. Louis. Helvita (Switzerland); Colonel Theodore Schareck. Dusseldorf II (Germany); Lieutenant Hans Gerickel. America II (United States); Allan R. Hawley. Germania (Germany); Captain Hugo Von Abercron.

The race is for a distance which is to be an air-line measurement from St. Louis. The winner will receive the James Gordon Bennett cup and \$2,000. The second and third prizes are \$1,500 and \$1,250. Under the rules, a landing is made if the basket touches the ground, or if the drag rope becomes entangled in trees or trails along the ground more than fifteen minutes, or if a balloon descends in salt water. If a balloon descends in salt water, it is disqualified.

Oxygen tanks are carried in each basket for use in high altitudes. The French entrants included champagne and whiskey in their supplies of drinks. The Germans placed beer and sausages in their baskets. Most of the balloonists took fruit. E. Messner, a Swiss, took cold tea to quench his thirst. Roast chickens were taken by many, also hard-boiled eggs. H. E. Honeywell will cook meals by slacking lime. Lieutenant Gerickel took a revolver with him. He said he expected to shoot game if he landed in a wooded country. The Million Club balloon carried homing pigeons which are to be liberated as messengers. Captain Messner's balloon is fitted with a pecker comb.

Pearl, Ills., Oct. 17.—A balloon passed over Pearl at 10 o'clock tonight, going north, at a low altitude. The occupants could be plainly heard singing a foreign language. Pearl is eighty miles from St. Louis. The balloon Azura was seen here about nine. Two other balloons passed within the next ten minutes. All were going due north, 1,400 feet up.

Winchester, Ills., Oct. 17.—The balloon America II passed over Winchester at 10 o'clock tonight, up 200 feet. Winchester is eighty-four miles from St. Louis.

ELOPES WITH AN ATHLETE.

Philadelphia, Oct. 17.—Fashionable Chestnut Hill is gossiping over the report that Miss Grace Tetlow, a popular member of the younger set, and Theobald Clark, her stolid New York acquaintance, were married without the knowledge of their families. Mr. Tetlow admitted that the report was true. Mrs. Clark is a daughter of Joseph Tetlow, a wealthy manufacturer. There was no opposition to the marriage, but, as Mr. Clark is still an undergraduate at Princeton, his family wanted the wedding postponed until after his graduation. Clark is a prominent athlete and is a crack pitcher of the Tiger baseball team. He is a brother of Walton Clark, famous Princeton twirler. At her father's home, Mrs. Clark said she had been married in New York and

CUBAN HAVOC FROM STORMS IS APPALLING

Plantations Are Devastated, Costly Damage Is Done at Havana and Other Cities and Thousands of Persons Are Homeless—Loss of Life Believed to Be Heavy.

Havana, Oct. 17.—Cuba has probably sustained the greatest material disaster in her history, in a practically continuous cyclone which began with rains Thursday morning, developing into torrential floods and devastating hurricanes and continuing until this evening. The western half of the island suffered the most.

The first cyclone had hardly abated Sunday night when suddenly the wind, which had been southeast, changed to southwest and with renewed fury swept over Matanzas, Pinar del Rio and Havana provinces, completing the destruction wrought by the first storm. The damage doubtless is many millions.

In addition to great destruction to sugar and tobacco plantations, many thousands of peasants in the western provinces are homeless and destitute by the loss of homes and food crops. It seems probable that the republic may be compelled to request international aid.

Great Havoc at Havana.

The interior provinces are believed to have escaped the greatest fury of the storm. In the city of Havana the losses will exceed a million dollars, due to the destruction of customs house sheds filled with perishable goods; the sinking of scores of lighters, many containing valuable cargoes, and the submerging of about a square mile of the residential section of the city, facing the sea. The waves were of mountainous height. The waters invaded all seaward part of the city until 3 o'clock this afternoon, when the district was several feet under water. At Vedado, a residential suburb, the sea advanced some hundred yards inland. Many hundreds of people are homeless. A rumor that the city had been struck by a tidal wave, which had been the general opinion of the residents, was dispelled and the water ceased to rise.

The upper part of the Pardo is filled with throngs of panic-stricken negroes, carrying household effects. The jail is surrounded by water. It was feared for a time the prisoners would break loose. At the height of the storm great waves breached clean over the ramparts of Moro castle. They rolled with terrific speed up the harbor, tumbling over the sea walls, and inundating the streets in the lower part of the city.

Small streams in the vicinity of the city are overflowing, flooding the lowlands and carrying off huts, barns and cattle. Probably many persons have lost their lives in these sections. A large contingent all the outfit of the divers working at the wreck of the battleship Maine was carried away, narrowly escaped death tonight when an elevator in which they were riding fell three stories in an office building. The state central committee tonight passed resolutions mourning the death of Senator Dolliver.

WISCONSIN G. O. P. LEADERS NARROWLY ESCAPE DEATH.

Milwaukee, Oct. 17.—F. E. McGovern, Republican candidate for governor, with two other state candidates and five members of the state central committee, narrowly escaped death tonight when an elevator in which they were riding fell three stories in an office building. The state central committee tonight passed resolutions mourning the death of Senator Dolliver.

MEAT PACKERS MAKE COMPLAINT

Senate's Cost of Living Inquiry Not Conducted in Good Faith, They Say.

Chicago, Oct. 17.—The report of the executive committee of the National Meat Packers' association, which met in annual convention here today, intimates that the select committee of the United States senate, when it met to investigate the high cost of living, did not act in the best of faith in examining the packers. The report complains that the whole object of the committee seemed "bent upon endeavoring to find that this association, or some other form of organization, somewhere in the country, was in unlawful combination to control prices and competition," to discredit the packing business, and that the whole inquiry "was a very clear case of the deep prejudice which exists against the packers." The report, however, expresses the opinion that the "belief is growing with the public that the packers are doing a legitimate business."

The claim is made that the "packers and meat dealers have been doing business without profit during the year," intimating the high price of livestock as the cause.

SENATOR DOLLIVER EXTOLLED BY GOVERNOR OF IOWA.

Des Moines, Oct. 17.—Governor Carroll, in a proclamation of sorrow for Senator Dolliver, says, in part: "Of all the able men our state has given to public life, none attained the height of Mr. Dolliver, especially as an exponent of public questions. His friends extended beyond the limits of our nation and his splendid ability and patriotic devotion to public duty were recognized by all who knew him."

Chicago, Oct. 17.—Speaker Cannon today named the following committee to represent the national house of representatives at the funeral of Senator Dolliver: Wm. B. McKinley, Illinois; Charles E. Townsend, Michigan; James H. Davidson, Wisconsin; James T. Lloyd, Missouri; Charles E. Scott, Kansas; Andrew Volstead, Minnesota; John E. Andrus, New York; E. H. Ingham, Nebraska; Chas. H. Burke, South Dakota; Nicholas Longworth, Ohio; Swager Sherley, Kentucky; Lincoln Dixon, Indiana.

LaFollette Much Affected.

Rochester, Minn., Oct. 17.—News of the sudden death of Senator Dolliver has caused a slight setback to the favorable condition of Senator LaFollette, who is recovering here from his recent surgical operation. The close relationship between the senators made the news of the death one of great sorrow to Mr. LaFollette. His condition by no means is serious. It is expected the senator will leave the hospital this week.

Santa Fe, N. M., Oct. 17.—The constitutional convention of New Mexico today adopted resolutions of sympathy on the death of Senator Dolliver.

JEALOUS HUSBAND SHOTS HIS WIFE AND HIMSELF.

Joliet, Ills., Oct. 17.—After she had been pursued through half a dozen states, Mrs. J. J. Payne was probably fatally shot here tonight by her jealous husband, who shot himself dead directly afterward, in the court house square. Payne was a railroad man. He had lived in El Paso, Memphis, Los Angeles and other places. His wife left him in the West and went to the home of her sister, Mrs. Chris Brughman, in Manhattan, a suburb of Joliet. Few saw the shooting.

ESTATE OF EZRA J. WARNER IS VALUED AT \$2,600,000.

Waukegan, Ills., Oct. 17.—The will of Ezra J. Warner, the late millionaire Chicago merchant, was filed here today. It disposed of an estate valued at \$2,600,000.

HURRICANE SWEEPING SOUTHERN FLORIDA

Campers and Resorters Are in Peril and Untold Damage Is Being Done to Oranges.

Tampa, Fla., Oct. 17.—With communication with all points south cut off and the wireless stations out of commission, Tampa and all the territory between Tampa and the Florida keys are being storm-swept tonight. It is impossible today to estimate the damage. A steady gale is blowing fifty miles an hour, and increasing. The indications are that the storm will pass a little south of Tampa, probably spending itself in the Everglades. Grave fears are felt for forty-six members of the Tampa City artillery camped near the Plant City keys, and for the residents of Pass-a-Grille, a resort on the bay. At least fifty persons are there. The last message from Key West reported the wind velocity to be ninety miles. Untold damage is being done to oranges.

REHEARING IS REFUSED IN MISSOURI RIVER RATE CASES.

Washington, Oct. 17.—A rehearing of the Missouri river rate cases was refused today by the supreme court of the United States. The case was before the interstate commerce commission order reducing the class rates between Mississippi river crossings and the Missouri river on freight originating at the Atlantic seaboard.

ADVANCE IN STOCKS IS CARRIED FURTHER

There Is Much Realizing, However, and the Final Prices Are Below the Highest.

New York, Oct. 17.—Last week's spectacular advance in the stock market was carried forward today in a manner to impress sentiment with the power and resources embarked on the movement and the strength of the convictions on which it was based. The realizing sales were very heavy. The power of absorption manifested in the market kept alive the speculative confidence and lessened the inclination to sell out. The consequence was an occasional upward movement after various periods of hesitation and irregularity. Before the end of the day the realizing had carried back the leaders a point or more from the highest prices. The general assumption remained unshaken that a foremost private banking house was the principal influence in furthering the rise in prices. The United States Steel again absorbed practically one-quarter of the total dealings.

Cereals All Decline in Value.

Chicago, Oct. 17.—Rains in Argentina and an unexpected large increase in the visible supply in the United States and Canada gave a long downward swing to the wheat market today. The close was at a net loss of 1/4 to 1/2¢. With the exception of a brief period at the opening the weakness was continuous. There was a steady absorption of offerings on the way down, but the demand was in large part to take profits on sales made higher up. The news of rain in Argentina was followed by the announcement that Nebraska wheat at low prices had been diverted from Minneapolis to this city and to St. Louis. The increase in the visible supply amounted to 3,294,000 bushels and formed a sharp contrast with the decrease of 658,000 bushels a week ago. The market closed at 95 1/2 to 95 3/4 and closed at 94.

Corn closed at the lowest price in four years. Fine weather made short sellers bold and discouraged owners. The close was 1 to 1 1/4¢ down, the December at 46 1/2. Oats went into the twenties today. That is, the great bulk of less than thirty cents a bushel, a level which has not been seen in this market in many years. Selling for country account was the immediate reason. The market closed 1/4 to 3/4¢ lower, the December at 30¢. At the low point the December was down to 29 1/2¢.

SPRINGFIELD BRIBERY TRIALS TO BEGIN THIS WEEK.

Springfield, Ills., Oct. 17.—State's Attorney Edmund Burke is ready for the legislative bribery trials. Today he issued a subpoena for the records of the office of Secretary of State Rose which affect the election and subsequent acts of State Senator Stanton C. Pemberton of Oakland and Representative J. S. Clark of Vandalia, both indicted in the bribery probe. Their cases are to be tried in circuit court here Wednesday.

A subpoena also was issued for the secretary of state, who was a member of the commission which awarded the state house furniture contracts and which resulted in the indictment of Pemberton and Clark and also of Sen-

STRIKE IN FRANCE IS CALLED OFF

Stringent Measures Adopted by the Government Bring About an Adjustment Which Carries With It the Concession of the Principal Demands of the Men.

More Bomb Explosions Take Place and a Number of Railroad Trains Narrowly Escape Destruction—These Outrages Laid to Anarchists and Revolutionists.

Paris, Oct. 17.—The strike committee of the railroaders' union tonight formally called off the strike of the railroad employes, which had extended over several of the most important systems in France. Work will be resumed on all lines tomorrow. The collapse of the strike is primarily due to the stringent measures taken by Premier Briand, who had called to the colors the majority of the strikers, thus compelling them to receive as reservists. The premier also had placed under arrest many of the strike leaders and had used the military without restraint for the protection of life and property.

After having broken the backbone of the strike, Premier Briand arranged for a practical settlement, whereby the chief demands of the men were met. A serious situation arose through the throwing of bombs and the attempts at train-wrecking, the responsibility for which the strikers denied. According to the police, these outrages were planned by anarchists and "fighting revolutionists," who hoped to take advantage of the strike situation.

Bomb Explosion Shakes Versailles.

The succession of bomb outrages reached the climax today in an attempt to wreck a passenger train at Versailles. A bomb was thrown at the entrance to the tunnel to the Chantiers station at the moment a passenger train was due. The bomb struck the limb of a tree, and, bounding off, landed beside the tracks, with a terrific explosion. It tore a great hole. The train arrived a few minutes later. All Versailles was shaken.

Dynamite was found today strewn along the tracks near Miramas and an attempt was made to blow up the bridge spanning the river Loire nearby. A bomb also was found under a railroad bridge near Firming which was intended to explode upon the passage of the first train. Another was found in a first-class compartment of a train near Reully. The bomb contained enough dynamite to blow the train to pieces. The express from Marseilles for Nice was derailed. Half a dozen bombs had been exploded in the city of Paris. The Rome and Paris express narrowly escaped being wrecked last night. The compressed air connection had been cut, and for a time the train ran wild.

FAMOUS RUSSELL WILL CASE IS SETTLED OUT OF COURT.

Boston, Tuesday, Oct. 18.—The longest contested probate case in the world, it is claimed, was settled last night when Wm. Russell, of Melrose, declared that Daniel Russell, of Dickinson, N. D., was his brother and co-heir with him to the \$500,000 estate of his father, the late Daniel Russell. The acknowledgment was made in writing and throws out the claims of the alleged Daniel Blake Russell of Fresno, Cal. "Fresno Dan" was publicly acknowledged as the long-lost brother by Wm. Russell last April, at the conclusion of a six months' trial in which the claims of "Dakota Dan" were thrown out. "Fresno Dan" has since lived at Melrose with Wm. Russell as his brother. The acknowledgment was made in writing, which lasted 123 trial days, to prove that "Dakota Dan" was James D. Rousseau, of Messena, N. Y. "Dakota Dan's" attorney was State Senator Leslie A. Simpson of Dickinson, N. D.

HIGH COURT DECLINES TO REVIEW NEBRASKA CONVICTIONS

Washington, Oct. 17.—The supreme court of the United States today refused to review the conviction on charges of land frauds in Nebraska of Bartlett Richards, Will G. Comstock, Charles C. Jamieson and Aquille Triplett. Richards and Comstock were sentenced to imprisonment for one year and Jamieson and Triplett for eight months, besides being fined.

CONSTANTINOPLE FACES A FINANCIAL CRISIS.

Constantinople, Oct. 17.—The Turkish government is facing a financial crisis. Three members of the cabinet resigned today, because of complications over the army budget.

WISCONSIN CENTRAL ELECTION.

Minneapolis, Oct. 17.—The annual meeting of the Wisconsin Central directors was held here today. The officers were re-elected, as follows: Edmund Pennington, president; A. H. Bright, vice president; C. F. Clement, treasurer; H. S. Paint, assistant treasurer; Geo. C. Webster, secretary; J. A. Millington, of Milwaukee, assistant secretary.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Entered as second class matter of the second class in the postoffice at Marquette, Mich.

MARQUETTE, MICH., OCT. 18.

The late Stanley Ketchell made a lot of money in his time. Most top-liners in his profession do. But precious few of them finish with any of it.

If Michigan had a 20 per cent law, like Wisconsin's, the official ballots could be searched the entire state over next month without disclosing on them a single Democratic candidate.

Candidate Hemans is going as blithely on his way as if he really believed he had a chance of being elected. He is meeting one of the first qualifications demanded of a Democratic candidate for governor in Michigan. He is a great bluffer.

The prisoners of the Kansas penitentiary are employed mining coal, which is disposed of to the state institutions, and thus the prison labor problem is solved in Kansas. But lack of convenient coal fields prevents its solution in a similar manner in other states. In Michigan mining trap rock has been suggested as a possible alternative, but mining trap rock is not regarded as a practical industry by those who have looked into it most carefully.

Ty Cobb is the American league's leading batter, and is to have the prize automobile. Lajoie, who was beaten by a whisker by Cobb, gets an automobile, too. Ban Johnson says Lajoie's famous St. Louis batting feat was legitimate. The St. Louis owner, notwithstanding, has "fired" his manager and scout. In short, the great question of batting supremacy is settled and all the disputes in relation to it are closed up. The only thing left of the latter is the bad taste in the sporting public's mouth.

If he had not gone the pace Stanley Ketchell would have lasted better. Wine, women and song, the lure of the bright lights, a penchant for spending his easy money foolishly, contributed to bringing about the situation in which he fell a victim to a twenty-two calibre bullet. Had Ketchell lived more wisely he would have lived longer. But the same sentiment would serve well as an epitaph on the tombstone of many another short-lived pugilist. There is nothing in pugilism for anybody. There may seem to be, but there isn't. It's a calling, or profession, or whatever you choose to term it, occurred.

Our Ishpeming friends are meeting with more success in pounding the elusive football over the line for touchdowns than they did in batting our victories on the baseball diamond last season. There is no likelihood that its football teams will finish at the bottom of the percentage columns, the sad fate of its baseball artists. Its high school football team has romped over both Marquette and Negaunee by decisive scores and its "Y" team promises to be one of the strongest in the upper peninsula. Excellence in football is a tradition at Ishpeming. It has been turning out strong teams for, lo, these fifteen years past, ever since the game received its first introduction in the high schools of this region. Ishpeming can point to more good football teams than any other single city north of the Straits.

The Wisconsin supreme court has upheld as constitutional one of the provisions of the direct nomination law having as its object the keeping of Democrats out of Republican primaries. This provision denies to all Democratic candidates who fail to receive in the primaries at least 20 per cent of their party vote in the preceding regular election a place on the ballot. It was expected that this section would operate to make the Democrats vote for their candidates instead of for Republican candidates, which they can do freely in Wisconsin, as the primary statute in that state does not provide for party enrollment. The provision may to some extent have worked out as desired, but many Democratic nominees failed to receive the required 20 per cent vote, and thus their names cannot be printed on the ballot. The supreme court's decision is important as outlining one way in which the legislature can legally move to lessen the evil of Democratic invasion of Republican primaries, which is even more pronounced in Wisconsin than in Michigan. And it is bad enough in Michigan.

It appears that almost any city could show a startling gain in population if it set about the task of doing it as Wis-

tematically as several western cities, of which Tacoma, Wash., is the most flagrant example, did. The original returns from Tacoma showed a population of 116,268. The census officials came to suspect that there was something wrong with figures that indicated such a phenomenal growth in Tacoma, and had a second enumeration made. This second count indicated a population of 82,972, and showed that the first count had been padded to the extent of 33,296 names, or more than 25 per cent of the first census returns. The padding was bold and barefaced, some districts being credited with twice as many people as lived in them. Seattle, Wash., Portland, Ore., Minneapolis, Aberdeen, Wash., and Boise, Idaho, are other cities that are said to have made false census returns. The census bureau, with the approval of President Taft, intends to make public full information about all the census frauds uncovered, and to take steps to punish those implicated in them. This is a laudable intention. The offending cities should be "shown up" in a most definite and forcible manner.

"Of all the leaders of the insurgent movement in congress the dead Iowa rang the truest," the Milwaukee Free Press says. "He invested it with a peace, a sanity and a certain fairness which it might not otherwise have possessed. He could insurge without besmirching those who refused to join him. He believed in honest differences of opinion. He never confused principles with personalities. This was true because, in the first place, Senator Dolliver was a big man, big of heart and big of brain, and, in the second, because he had once been a 'rock-ribbed' regular himself. Thus he possessed what all truly big men who have learned their fallibility possess—a saving grace of humor, a kindly human tolerance and a profound disinclination to proclaim himself as the custodian of all virtue. It has been decreed that Senator Dolliver's powers should not come to their full fruition here. But the work he has done, the ideals he has inspired, will not die, and his memory should long be a prompting to his co-workers toward the acquisition of the human touch in which too many of them are deficient."

There need be no wonder that Mr. Loeb's enemies are legion in New York. His conduct is certainly most indefensible. Take the case of the Duveen brothers. Here is an eminently respectable firm, worth millions, the members of which are British subjects, we are told. Evidence indicating that they have swindled the government out of \$1,000,000, or so, in duties was disclosed in sufficient volume and strength to warrant arrests. Here's where Mr. Loeb should have played the game fair, according to the time-honored rules. If he had to make himself unpleasant, as he evidently had to, he should have sworn out warrants for a number of clerks and bookkeepers, and avoided giving the heads of the house the undesirable notoriety they are now getting. What did he do? Arrested all the Duveen brothers on this side of the water, raided their magnificent stores, seized their books and accounts and generally conducted himself without any respect for vested property interests, acting for all the world as if the Duveen brothers were common rogues. It has been a succession of offenses like this that has gotten Mr. Loeb "in bad" in many influential quarters in his jurisdiction, the port of New York. No wonder the suggestion that he be nominated for governor by the Republicans was quickly dropped. It is strange that they should have had the offrontry to nominate that other reckless one-time official, former Federal District Attorney Stimson, for the office. The rough and ready tactics of men like them, their refusal to play the game according to the accepted precedents, ought to be emphatically sat down upon. Mr. Loeb's conduct in the case of Duveens is outrageous. President Taft certainly should look into it.

Half of the expenses of fire insurance companies goes to get the business, according to a statement made by Insurance Commissioner James V. Barry of Michigan during the convention in Chicago of the Fire Underwriters' association of the northwest. Mr. Barry said also that the services of the agents were not worth the price paid. Fire insurance officials say the fire waste is necessarily added to the cost of their insurance. Mr. Barry says the agents do little to reduce fire waste and are frequently discouraged from becoming first class agents by the companies who allow big risks to be written over their head by other agents and brokers. "The present system of compensating agents tends to array the agents against the companies they represent, and to build up between them a barrier of hostile interests," Commissioner Barry said. "It leads to over-insurance, the covering of risks which, in the interest of the general public, never should be insured, and thus leads to arson and crime. It discourages rather than encourages the improvement of risks and the elimination of hazards, and makes it an object for the agent to lose sight of the fact that he is primarily the representative of his company, charged with the duty of zealously guarding its interests without doing violence to the legitimate interests of the insuring public with whom he deals. The retention of such a system makes fire insurance companies ridiculous to the average business man."

BLIGHTED HOPES. The elimination football games this season are really eliminating. Chicago's defeat by Illinois Saturday, following on its defeat by Indiana, puts Stagg's proteges out of the fight for the conference championship, and leaves Indiana, Illinois and Minnesota to be the real contenders. In the east West Point's decisive defeat of the Yale eleven makes it unlikely that the Blue will this year be able to claim premier honors in that part of the country. At Ann Arbor the Michigan eleven, after undergoing the rather unusual experience of being tied by Case the previous week, was hard pressed to score a victory over the Michigan Agricultural college, which they finally did by the narrow margin of 6 to 3. The Michigan football machine is rounding into condition slowly, and there is much work for Coach Voss to do before it will be ready to give a creditable account of itself in the "big" games of the fall.

## ARCHIE J. SCOTT NOT A CITIZEN

### Former Mayor of the City of Hancock Makes a Remarkable Discovery.

Probably the most prominent applicant for naturalization who ever sought that distinction in Houghton county, or rather the most remarkable applicant, is Archie J. Scott, former mayor of the city of Hancock, veteran of the Civil war and "first citizen" of his city for close on to half a century. Mr. Scott made application yesterday morning. He discovered only a day or two ago that he was not a citizen of the United States. He had been a soldier in the Union army, and he had supposed that that naturalized him.

Mr. Scott was born in Canada in 1848 and came to the United States, to Ohio, with his parents in 1849. He enlisted in Company D of the Fifty-second Wisconsin regiment March 10, 1864, and served until the close of the war, coming to Hancock that year, 1865. Mr. Scott commented yesterday upon the fact that there were many young men of Canadian birth in the Union army. "Why, in some Canadian towns they have Grand Army posts just as they do in the United States," he said.

Mr. Scott was a supervisor of Hancock township for twenty-six years and president of the village and mayor of the city for seventeen years. He was Hancock's first mayor and probably would be mayor or yet were it not for physical infirmities which have almost disabled him in recent years. He has been village treasurer, assessor and chief of the fire department while not a citizen of the United States. "And most remarkable of all," he said, "I have been on the bonds of postmasters and other officials and a man not a citizen is not a responsible bondsman."

Mr. Scott will get his papers within ninety days, the new law making this speedy action possible because of his having exercised the rights of a citizen through lack of information as to the real facts in his case.

## PETIT JURY CHOSEN.

Will Hear Cases Booked for Trial at November Term of Court.

The petit jury for the November term of the Houghton county circuit court was drawn Saturday, but its personnel was not given out until yesterday because of the uncertainty regarding the date on which the jurors are to report for duty. Court opens the day preceding election day and it is usual to have the jury report the second day. But as that is election day this year, and as election day of the board of supervisors is the date of the month, Judge Streeter awaited the action of the board as to its meeting day. The board decided yesterday morning to meet on the ninth and the jury is ordered to report on the tenth. The following is the list of jurors:

Duncan—James Ferguson, William Wilcox.

Hancock—Patrick Sollman, J. M. Bore, George S. Wern, Ira Priest.

Calumet—William Pollard, Jr., John G. Johnson, Edward Rye, Edward Burckman, Fred A. Larson, Marmaduke Jacka, Charles Ellis, Jr., Livingston Wareham, John Sustarick.

Adams—Hugh Dunstan, Fred Jenkins, Ralph Paoli, William J. Allen.

Stanton—Arthur Pooley, Harry Jollie, Portage—Julius Rompf, Bert Milano.

Laird—Carl Simi.

Elm River—F. J. Lahey.

Torch Lake—Joseph Snell, William Howard, E. M. Peck.

Franklin—John Goudge, Henry Vial, Richard Tranzmar.

Chassel—Edward Michael.

Oscoda—John B. Rowe, William Pridmore.

Schoolcraft—J. A. Paton, Henry Larose.

## MILL FIRE AT LAKE LINDEN.

Eddy & Belhumer Plant Threatened by Flames Yesterday.

The lumber mill of Eddy & Belhumer of Lake Linden, the biggest enterprise in an industrial way on Torch lake, with the exception of the mining companies' mills and smelters, was threatened by fire yesterday morning. The blaze was discovered on the roof and it is since found that it was caused by heat from the boiler, which set fire to the rafters.

The mill hands and the Lake Linden fire department turned out and put up a stiff fight against the flames. The mill is a huge wooden structure and it could easily have made a very bad fire. However, the fire fighters worked fast and intelligently and soon had the flames under control.

Samuel Eddy, managing partner in the concern, was in Houghton attending the board of supervisors' meeting and did not know of the fire until it had been extinguished. He said that the damage would amount only to a few hundred dollars. The mill continued running.

## JAIL PROJECT GOES OVER TILL SPRING

### Houghton County Board, in Adjourned Annual Session, Transacts Much Business.

The adjourned annual meeting of the Houghton county board of supervisors yesterday was a protracted session, continuing from 9 o'clock a. m. until 1 p. m. A large volume of business was disposed of.

One important matter was the disposition of the county jail and sheriff's residence scheme. The building committee had presented some meetings ago, plans for these new buildings, and a week ago these plans were sent to the state board of corrections and charities for approval. That approval has not been received yesterday. Supervisor MacNaughton moved that the whole matter be deferred and the bids for the jail construction, which had been submitted last week, be returned to the bidders unopened. This resolution was passed, but Supervisor Hamar thought the county should take steps to provide funds against the time the work would be commenced and he moved that the county bond for \$75,000 at the coming general election. Supervisor MacNaughton opposed. He pointed out that the board had just increased its taxes over last year by about \$75,000 and it would not be quite right to spring a bonding proposition on the people for an equal amount, with only about three weeks for consideration before the election. Mr. MacNaughton referred to an inspection of jails by Chairman Edwards in various upper peninsula counties some time ago. He thought the county had not profited by the information thus gained, though, the county is a school of keeping prisoners. He believed more economy could be displayed in this direction and urged a re-amping of the county's entire scheme of jail management. The motion was withdrawn by Mr. Hamar and the matter is closed until next spring.

## Equalization and Taxation.

The most weighty matters discussed by the board yesterday were those leading up to the spreading of the annual tax roll for 1910. The supervisors had submitted their rolls at the first session of the annual meeting, and the equalization committee made up from those rolls its report. In the following table the valuation of the wards and townships, as equalized, which is the final valuation on which the taxes are based, are given:

Adams	\$18,153,920
Calumet	36,473,686
Chassel	236,530
Duncan	445,932
Elm River	1,303,065
Franklin	4,818,949
Hancock, twp.	77,110
Hancock, first ward	1,491,529
Hancock, second ward	497,412
Hancock, third ward	388,972
Hancock, fourth ward	1,143,608
Laird	649,103
Oscoda	8,902,234
Portage	8,604,850
Quincy	2,816,644
Schoolcraft	1,537,248
Stanton	1,283,986
Torch Lake	4,690,430
Total	893,356,322

Houghton county raises this year for state and county purposes the sum of \$82,400. This amount was ordered spread on the tax rolls of the wards and townships. It includes \$381,788.81 for state tax, and \$247,394.25 for county tax. Included in the county taxes for the year are \$15,000 for the tuberculosis hospital and \$29,951.50 for the purposes of the county road commission, as well as a few increases in salaries notably a raise of from \$2,400 to \$3,000 for the county treasurer. This total of state and county taxes is apportioned among the wards and townships as follows:

Adams	\$48,107 80
Calumet	96,655 23
Chassel	679 80
Duncan	1,187 71
Elm River	3,453 12
Franklin	12,770 22
Hancock township	204 34
Hancock, first ward	3,157 55
Hancock, second ward	1,318 44
Hancock, third ward	1,030 78
Hancock, fourth ward	3,030 56
Laird	1,720 13
Oscoda	25,590 05
Portage	22,802 85
Quincy	7,404 11
Schoolcraft	3,596 71
Stanton	4,200 46
Torch Lake	12,429 64

Miscellaneous Business.

The board passed the annual salary budget yesterday. It is unchanged from last year, excepting in the instance of the county treasurer and in the addition of \$10 to the salary of the matron of the juvenile detention building and an additional clerk for the probate court at \$80 per month.

The county road commissioners presented the draft of a resolution and asked its passage. It provided that the board appoint a committee of four members to confer with the commission to determine a standard of road improvement and construction for the guidance of the commission in the future. Supervisor MacNaughton opposed the resolution. He said that by so doing the board would lay itself open to the imputation of usurping the powers of the commission or lay the commission open to the imputation that it was laying down on its work. The statute expressly provides that the commission is the judge of what roads shall be taken over and what construction and repairs shall be done. The resolution was not put to a vote.

The board passed the usual resolution authorizing the township boards to spread upon their rolls the monies which they estimate will be required for highway, school and township purposes during the ensuing year.

Supervisor Seeler presented a report of the special committee on the tuberculosis sanitarium. He had inspected sites at the poor farm, at Twin lakes and near Lake Linden and would not recommend any of them specifically, leaving it to

### RAY CENTRAL.

The recommendation of J. Parke Chaning to relinquish the option which the General Development company has on \$2,000,000 Ray Central convertible bonds will be acted upon shortly by directors of the development company, who are expected to follow the suggestion of their consulting engineer. With this situation existing and some of the largest stock holders liquidating their stock in the open market the Ray Central, it is understood, faces reorganization. According to its last available financial statement as of June 30 Ray Central had cash amounting to \$79,404. In the intervening months most of this money has been expended in further development work, so that the treasury is not now in strong position. During the past week or so there has been a mysterious pressure of the stock with heavy selling in Philadelphia. Endeavors to interest Ray Central people in the Ray Central property have been without avail. It is believed that too much secrecy has been maintained by the Lewisohns in connection with the Ray Central development and some of the stockholders are considering the advisability of forming a protective committee to care for their interests if it is officially stated by the General Development company that it does not want the property.

The largest stockholders of the Ray Central are Philadelphiaans, Director Meyer Schamberg being the heaviest holder. J. A. Lewisohn is president and other General Development company interests are among the directors and hold executive and operating positions. While generally dominating the management, the General Development company is not a large stockholder. The turning down of the option referred to will probably result in the resignation of Lewisohns interests from the Ray Central board.

There has been some question as to whether the Ray Central would be justified in erecting a mill of its own. Early this year J. Parke Chaning estimated 7,500,000 tons of ore in sight averaging 2 per cent or better. This tonnage has since been increased although to what extent has never been made officially known. The recommendation that the General Development company give up its option would indicate that Mr. Chaning is not satisfied with the ore tonnage at the property.

### NORTH BUTTE.

Recent developments on the 2,400-foot level have given a new lease of life to the North Butte property, and if the present rate of secondary enrichment continues with additional depth the mine will again prove to be one of the great copper properties in the camp, says a report from Butte. The drifts on the 2,400-foot level are showing up in a most encouraging manner, and both east and west they are opening into good strong ore bodies of increasing value. At a depth of 2,000 feet the prospect was nothing but promising, and a lean zone was encountered that gave the property a new lease of life. This zone was not of secondary enrichment, a theory that has been extensively entertained by some of the greatest geologists of the country, but by many others scouted. The policy of sinking the main shaft to greater depth was based on a similar condition which existed in the High Ore mine, an adjoining property. In the High Ore the same depth was reached approximately at the same depth as in the North Butte, and with an additional depth of about 900 feet most remarkable values were opened up and today some of the richest copper ore in the camp is being taken from that property.

### INSPIRATION.

In connection with the sale of 200,000 shares of Inspiration Copper stock at \$10 a share it is stated that work will commence at once on the proposed 5,000-ton mill. The company is now financed for at least two years. The purchasers of the stock include Hayden, Stone & Co., Thompson, Towle & Co. and other interests who are identified through actual control or partial ownership with Utah Consolidated, Chino, Mason Valley and other copper properties. The Inspiration company now has outstanding 1,000,000 shares of common stock, no bonds, preferred shares or debt, and has in its treasury \$2,900,000 in cash for plant construction. It is understood that, based on the methods of development used by the other porphyries, the Inspiration has already fully developed 9,000,000 tons of ore of over 2 per cent and partially developed 8,000,000 tons of ore of 1.5 per cent, and that the unmined mill holes and surface indications point to an early development of at least 30,000,000 tons.

Hancock is making excellent progress in blocking out ground in the No. 3 lode. This lode is opened by winze and raises from the eleventh to the eighteenth levels and by drifts at all levels from the thirteenth to eighteenth, inclusive. The ground is well charged with copper generally, and at points is remarkably rich. Estimates place the total tonnage blocked out at about 1,000,000 tons. These workings are now connected with the 4g vertical shaft by crosscuts at the thirteenth and eighteenth levels through which the rock will be trimmed for hoisting; it being planned to use the old inclined shaft for men and material exclusively. The vertical shaft is sinking steadily at about 2,700 feet and should eventually tap the Quincy-Pewabic lode at a depth of about 2,600 feet. The power plant at the big shaft is receiving the finishing touches and may possibly go into commission this month. There has been some talk of a mill test this winter but no official announcement to that effect has been made though it is probable that production on a small scale will begin in order to dispose of the rock taken out during development work.

### TENNESSEE.

The Tennessee Copper company will make a disbursement to stockholders in December of probably \$1.25 a share. In December, 1909, \$1.25 was paid, while previous to that time a payment was made in September, 1908. To date the company has paid dividends at irregular intervals totaling \$2,308,240. The management is figuring on net earnings of \$1,000,000 per annum on 13-cent copper and \$5 acid. Next year regular dividend payments will be established, but whether payments will be made quarterly or semi-annually has not been decided. Stockholders may, however, it is said, look for an increase over the \$1.25 which has been paid once a year during the past few years.

On 13-cent copper the Tennessee company will make its major profits from the acid department, while should the metal advance to 15 cents, there would be a greater profit. For the current calendar year the company will make about the same copper production as in 1909—14,000,000 pounds. Costs, however, will be higher, as approximately \$100,000 has been spent in developing the Eureka mine and charged to the cost of operation. This is equivalent to all most three-quarters of a cent per pound of copper. The company made its lowest cost in 1902, 9.05 cents per pound. Since that time it has run as high as 11.79 cents (in 1907). Last year the

### CALUMET WOMEN'S CLUB.

The committee on civic work in the Calumet Women's club is preparing its plans for work in the wards and townships. It includes \$381,788.81 for state tax, and \$247,394.25 for county tax. Included in the county taxes for the year are \$15,000 for the tuberculosis hospital and \$29,951.50 for the purposes of the county road commission, as well as a few increases in salaries notably a raise of from \$2,400 to \$3,000 for the county treasurer. This total of state and county taxes is apportioned among the wards and townships as follows:

The board passed the annual salary budget yesterday. It is unchanged from last year, excepting in the instance of the county treasurer and in the addition of \$10 to the salary of the matron of the juvenile detention building and an additional clerk for the probate court at \$80 per month.

The county road commissioners presented the draft of a resolution and asked its passage. It provided that the board appoint a committee of four members to confer with the commission to determine a standard of road improvement and construction for the guidance of the commission in the future. Supervisor MacNaughton opposed the resolution. He said that by so doing the board would lay itself open to the imputation of usurping the powers of the commission or lay the commission open to the imputation that it was laying down on its work. The statute expressly provides that the commission is the judge of what roads shall be taken over and what construction and repairs shall be done. The resolution was not put to a vote.

The board passed the usual resolution authorizing the township boards to spread upon their rolls the monies which they estimate will be required for highway, school and township purposes during the ensuing year.

Supervisor Seeler presented a report of the special committee on the tuberculosis sanitarium. He had inspected sites at the poor farm, at Twin lakes and near Lake Linden and would not recommend any of them specifically, leaving it to

### POSTAGE STAMPS GALORE.

Success is assured for the international stamp exhibition, opened at Berne, owing to the fact that King George's splendid collection, which is the most valuable in the exhibition, is being shown. Next in value is the collection of Mr. Duveen of London, which includes the most valuable stamp, a "blue twopenny Mauritius," worth \$10,000. The various collections, it is estimated, are worth over \$1,000,000, and are heavily insured.

HUMPHREY'S HOME, MEDICINE CO., CORNER William and Ann Streets, New York.

It really is, to realize the inward changes of taste, unconsciously wrought, is also true. One of the most degraded if yours was received at the shelter and lived in Mrs. Hall's family two years and was then discharged on a Saturday afternoon apparently incorrigible—her retention was more damaging to others than could longer be allowed. Late the same night she returned and fearfully begged admittance, saying, "Oh, it all seems so different and so desirable; please do admit me." She was admitted again, and after a few months' further residence, was discharged on a Saturday afternoon, a new-found relative in a neighboring state. Years passed when it came to my knowledge that she had married; the wife of a worthy mechanic, mother of two children; and a respected member of the community. "Fallen girls" can be rescued; the attitude of workers should be scientific rather than sentimental; and rescues must be accomplished by women—not by men.

## CHILDREN WHO ARE SICKLY.

Mothers who value their children, should never be without a box of Mother Gray's Sweet Powders for Children, for use throughout the season. Today's weather: Partly cloudy and cooler. Yesterday's temperatures. Seven a. m. 60 degrees; noon, 74; 7 p. m. 64; maximum, 76; minimum, 53.

E. O. Stafford returned Sunday from a several weeks' eastern trip.

Chester Blanchard left last evening for Chicago on a short business trip.

Miss Mattie Hinton of Buffalo is visiting in the city with Miss Inez Handford.

Gus Mellin, the meat dealer, went to Bessemer yesterday, on a business mission.

Mr. and Mrs. O. A. King left Sunday for Detroit, where they will make their future home.

Mrs. Henry DuPuis and daughter, Alverna, have returned from an extended eastern trip.

Born, to Mr. and Mrs. John Peters, 523 East Hewitt avenue, at 1:30 o'clock yesterday afternoon, a daughter.

Miss Ada Fleming of Chicago gave an interesting talk to the members of Miss Linton's music class at the Normal yesterday.

Miss Anna M. Erickson of Ishpeming was adjudged insane in probate court yesterday and committed to the Newberry asylum.

Miss Josephine Kramer and Bud Schulte, who have been visiting friends in the city, return to their homes in Detroit this morning.

The funeral of the late Mrs. John Burke, of 320 Michigan street, will be held tomorrow morning, with services at St. Peter's cathedral at 8:30 o'clock.

Yesterday afternoon the management of the Ishpeming bowling team notified H. O. Bell that they could not play a match game in Marquette last night, as planned, and the contest has been indefinitely postponed.

Invitations have been issued for a dancing party to be given Friday evening, Oct. 21, in Bureau's Hall by the "Girls' club." The hall is being tastefully decorated and a large crowd is expected to be in attendance. Dancing will begin promptly at 9 o'clock and music will be furnished by Trombly's orchestra.

Got His Money Back—At the hearing before Justice Byrne yesterday, the waitress at Horn's restaurant, who was accused of having short changed a customer Saturday, was discharged on her repayment of the amount the complainant claimed was due him, the latter then withdrawing the complaint.

The complainant charged the girl with having taken a \$10 bill in payment of a bill of \$1.25 and not bringing back any change.

Hunters Already Coming In—Railroad men and others report that quite a number of down state hunters are coming into the upper peninsula and making their camps, notwithstanding that the opening of the deer season is nearly a month away. When asked their reason for going into the woods so early, most of them reply that it takes several weeks to get their camp in readiness for the season. To a native hunter this explanation sounds "phony," and the game wardens would do well to keep an eye on the movements of these antlered deer hunters.

Former Resident Wedded—Cards have been received here announcing the marriage at Barnaby Lake, New Westminster, B. C., of Mme. Louise Olivier to James Houston, on October 4. Mme. Olivier was for many years a resident of Marquette. She conducted a musical studio here and instructed large numbers of students. She was a fine pianist, a thorough musician and had many friends in the city. She left Marquette a few years ago for British Columbia, where she has since made her home.

To Return to Upper Peninsula—E. W. Maynard, who for a number of years, up to two years ago, was in charge of the manufacturing operations at the Du Pont Powder Mills here, and who was transferred from Marquette to the new plant the company erected a few miles from Denver, Colo., where he has since been located, is to return to the upper peninsula and will take an important position at the plant which is to go into operation some miles from Dollar Bay, in the copper country, within two months or so.

Rice-Odette Nuptials—Miss Frances Rice, daughter of Wm. Rice, was married to George Odette, son of Owen Odette, Division street, at 6 o'clock yesterday morning by Rev. Father Pinton at St. Peter's cathedral. The couple were attended by Miss Bertha Marlowe and Frank Tick. The groom is a mechanic at the Lake Shore Engine works. Mr. and Mrs. Odette left on the morning train for Chicago on a short wedding trip. They will reside at the home of the bride's parents, 325 West Washington street.

Tailor Shop Cor. Market and Jackson Blvd., Chicago. 304-306 Front St.

Upper Peninsula

Names New Poor Commissioner—

The board of supervisors of Schoolcraft county has elected H. J. Neville of Manistique as the successor of W. W. Parker as member of the board of poor commissioners, for a term of three years. The board was evenly divided on the second ballot, each candidate receiving seven votes. On the third ballot Neville received eight votes and Parker six.

Football Results—

By a score of 12 to 0 the Gladstone football team defeated Manistique Saturday, thus putting the Schoolcraft county eleven out of the running for the peninsula gridiron pennant. Escanaba defeated Menominee, 11 to 5. Next Saturday, the Gladstone and Escanaba teams will try conclusions, as will the Soo and Newberry.

Both Legs Amputated—

Thomas Trotter, a brakeman employed by the Northwestern road at Iron Mountain, fell under an ore car Saturday and had both legs crushed below the knees. It was found impossible to save the limbs and they were amputated. Trotter was engaged in switching cars when the accident occurred.

Fireman Loses a Foot—

Edward Nelson, for the past five years a fireman on the Duluth, South Shore & Atlantic road, is at the home of his father at St. Ignace, minus his right foot. He was the victim of an accident at Allenville. He was at work beneath the locomotive when in some manner the "slack" of the train shoved the engine ahead and his foot was caught and badly crushed at the ankle.

Pioneer of the Peninsula—

One of the oldest pioneers of the upper peninsula has passed away in the death of Mrs. William Valier, Sr., of St. Ignace at the age of seventy-six. She went to that city from Canada with her parents in 1845 when eleven years old. At the age of fifteen years she was married to William Valier and settled in the little cottage on State street where she lived until the time of her death. Her husband preceded her to the great beyond in 1895. To them seven children were born, five of whom still survive, Antoine, Joseph and John Valier and Mrs. N. Marjineau and Mrs. Robt. Johnston.

Makes Hardwood Flooring—

Last week a new industry was started in Menominee. The industry is the making of hardwood flooring. The plant is owned and operated by the J. W. Wells company. It started up with a working force of about fifty men, which will be added to as the plant is increased to its normal size, when it will be necessary to use 125 men. Every piece of machinery is run by electricity, furnished by the Menominee and Marinette Light & Traction company from its plant at Grand Rapids. In the factory there are thirty-two motors continually in operation. These motors will be added to as the remainder of the machinery is placed. Particular attention is to be paid to maple flooring, although some birch and beech will be used. When all the machinery has been installed it will be possible to turn out at least 60,000 feet of flooring per day.

Salary Reduced, He Resigns—

As a result of the action taken by the Menominee county board of supervisors in making a reduction in the salary of the drain commissioner, A. L. Sawyer, the incumbent, has resigned and has written the chairman of the Democratic central committee to remove his name from the ticket. The salary of the commissioner was lowered from \$900 to \$400 a year at the recent annual meeting of the board of supervisors. This, coming as it did, immediately following the request of Mr. Sawyer that the salary be doubled, was a great surprise to him. In his petition for an increase in salary Mr. Sawyer alleged that the work had greatly increased. He cited instances of other counties paying from \$700 per year to \$1,200. In addition to this sum, a majority of the commissioners were furnished offices, or were allowed a certain amount each year for office quarters.

Chief John Lapointe of Drummond Island, who, although nearly sixty years of age, took his first railroad trip with in the past two weeks, going to Marquette on business in the district court, faced Judge Rannels in police court at the Soo last Saturday. John, in addition to his duties as chief of the Indians of Drummond and vicinity, is also the "town fiddler," and his services are in great demand. Some of his Soo friends prevailed upon him to demonstrate his ability with the bow Friday evening, and in return, it is said filled him with liquor. When picked up by the police in Ashmun alley at 3:30 a. m., the chief was as happy as any of his illustrious ancestors could possibly have been in their palmyest days when they ruled over thousands of dusky braves. John promised faithfully to be a good Indian in future and to leave anything stronger than water and tea strictly alone. In recognition of the fact that he is an honest, good-natured and jovial ruler of his tribe, his dignity was not further tried and he was released without sentence or fine.

At midnight Saturday night, the owner had recently moved out and was planning to rent the property. Owing to the fact that no one was living in the residence it is presumed that someone started the blaze. The building was insured for \$600, and it is thought that this amount will cover the loss. Mike Osterberg first saw the blaze and ran to the St. James Hotel and sent in an alarm. For some reason the fire department was not promptly notified and it was twenty minutes or more before the firemen were at the scene.

New Game Warden Appointed—

Hereafter Claude Larson of Ironwood will act as deputy state game warden for the district comprising the counties of Gogebic, Iron and Ontonagon, John Rowett having tendered his resignation to State Game Warden Pearce. The selection of Mr. Larson was brought about through a visit of Chief Deputy Smith, it being the desire of the department to have someone actively at work in the district during the fall hunting season. Mr. Rowett's entire time from now on will be devoted to his candidacy for election as sheriff of Gogebic county, he being the Republican party's nominee for that office. Mr. Larson is well versed in woodcraft.

Explosion Injures Six—

As the result of an explosion at the Donnellite paving plant at Crystal Falls late last week, three men and three boys were burned by hot tar. The men were George Rockey, fireman; Frank Rafter, engineer, and M. Maloney, dump Carter and Rockey were badly lacerated about the faces and hands, but Maloney escaped with but slight burns about the face and wrist. The boys injured were Ole Olson, Elmer Carlson and Willie Minnepassee. The Olson and Minnepassee boys were badly burned about the face and body and are in the hospital, the Carlson boy receiving but slight burns about the body. The boys were standing fifteen feet from the plant, looking on, when the explosion occurred. The explosion was plainly heard all over the city and excitement ran high for a time until the exact nature of the accident was learned.

County's Valuation Is Boosted—

At the annual meeting of the board of supervisors held at Bessemer last week, the valuations were equalized and taxes apportioned to each of the cities and townships of Gogebic county for the ensuing year. In the equalizing the board showed a decided tendency to increase, rather than reduce, taxes. The taxable property of the county was fixed at a round twelve million dollars, an increase of two millions over last year. In the appropriation of taxes for the coming year, \$33,000 was provided for the county road system. Part of this amount is to be expended on the trunk road between Ironwood and Bessemer and Wakefield and Dunham; the road between Ironwood and Bessemer is to be macadamized, and the grading done on the road between Wakefield and Dunham. W. L. Winehiser was reappointed poor commissioner for the Ironwood district and L. W. Brice, of Wakefield, county school examiner. The board of county canvassers, consisting of J. A. Sullivan, Gust Ziebur and Wm. I. Russell, was reappointed. Delta county's equalized valuation has been fixed at \$9,380,613.

Drank Too Much Firewater—

Chief John Lapointe of Drummond Island, who, although nearly sixty years of age, took his first railroad trip with in the past two weeks, going to Marquette on business in the district court, faced Judge Rannels in police court at the Soo last Saturday. John, in addition to his duties as chief of the Indians of Drummond and vicinity, is also the "town fiddler," and his services are in great demand. Some of his Soo friends prevailed upon him to demonstrate his ability with the bow Friday evening, and in return, it is said filled him with liquor. When picked up by the police in Ashmun alley at 3:30 a. m., the chief was as happy as any of his illustrious ancestors could possibly have been in their palmyest days when they ruled over thousands of dusky braves. John promised faithfully to be a good Indian in future and to leave anything stronger than water and tea strictly alone. In recognition of the fact that he is an honest, good-natured and jovial ruler of his tribe, his dignity was not further tried and he was released without sentence or fine.

The Cough and the Cure

Coughs will come and, if there is nothing at hand to cure them with, they are quite apt to be neglected until they are firmly seated. Every neglected cough means danger. Better get at once a bottle of our White Pine Cough Syrup and have it on hand. It is the ideal family cough cure, good for young or old, and its merit has been proved by years of use in this locality.

### The Best Line of STOVES and RANGES

Our line of Home Base Burners needs no introduction to the people of the upper peninsula as they have been sold and used here for the past 20 years and have always given satisfaction. They have kept pace with all the newest ideas in construction and in many respects are far ahead. They are unquestionably the leading line, are artistic and well proportioned and are constructed for the express purpose of producing the greatest amount of heat and comfort with the least amount of fuel and care. They have full base radiation, ventiduct circulation, extra large hot air chamber, double heaters, duplex grates, finely nickled.

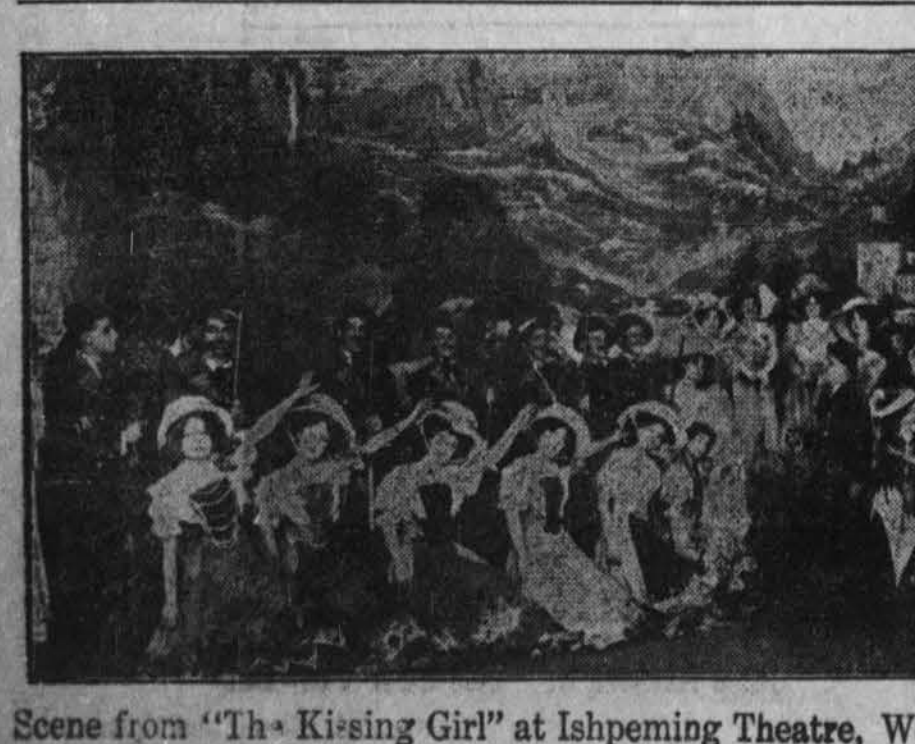

PRICES, \$37.50, \$40, \$45, \$55,  
The Globe line of Steel Ranges, \$35 to \$70.  
The Globe line of Oak Heaters, \$11 to \$32.50.

Remember, these stoves are fully guaranteed.  
It is easy to Pay the Gately Way, which helps you to afford the things which make home bright and cheerful.

### BAD ACCIDENT AT NORTH LAKE

**Four Men Are Killed in 340-Foot Shaft of the Cleveland Cliffs Iron Company's New Mining Property—A Fifth One Marvelously Escapes Unscathed.**

Bucket Tips in Some Mysterious Manner and the Victims of the Fatality Are Plunged to Their Doom—Two of the Dead Former Ishpeeming Men.

In one of the most shocking accidents in the history of the Marquette iron range, four men met death in the North Lake mine of the Cleveland Cliffs company at 7 o'clock last evening. All of the victims were instantly killed. A fifth man escaped death in marvelous manner. Those killed were: EDWARD HONKELA, HERMAN HUPALA, GUS JOHNSON, UNKNOWN MAN; a resident of Michigan.

All of the victims were men of Finnish birth. The miner who escaped death was John Luoma.

The five men were riding to surface in a bucket. At a point some 250 feet from the bottom of the shaft, which is 340 feet in depth, the bucket careened in some mysterious manner and its occupants were thrown out. Luoma alighted onto the timbering which divides the compartments of the shaft and clung there until rescued. He was not injured. The four other men were plunged to the bottom of the shaft. The bodies of Edward Honkela was a former member of the Ishpeeming police force. He is the man who attempted to shoot his wife two years or more ago and who, because of that crime, was sent to Marquette prison. He had been out on parole the past number of months. He made his home with his brother, Frank, at North Lake, along with his three children. Mrs. Honkela is in Chicago.

Herman Hupala is survived by a family in Ishpeeming, and Gus Johnson leaves a wife and two children in Finland. The fourth man killed, and whose name could not be learned last evening, was from Michigan. He had commenced work at the North Lake only yesterday afternoon. Johnson formerly was employed at Amasa, on the Menominee range.

### WILL MAKE AUTO TRIP TO MILWAUKEE

**Ishpeeming Men Expect to Drive to Wisconsin City in One Day in Franklin Cars.**

E. R. Nelson and George F. Ruez plan to make the trip from here to Milwaukee next Saturday in their Franklin automobiles. Mr. Nelson will be accompanied by George A. Newett and Oscar Fischelick and J. W. Fufts of Milwaukee, and Mr. Ruez will be accompanied by J. S. Wahlman, S. J. Mitchell, and perhaps one or two other friends. Messrs. Fischelick and Fufts are coming up from Milwaukee to make the trip.

If the weather is favorable the party will leave about 6 o'clock Saturday morning and they will attempt to make the run to Milwaukee by evening. The distance is 327.6 miles. It is reported that the road is exceptionally good from the Menominee range south, with the exception of a short stretch between Norway and Escanaba. The four-mile strip west of Republic will be by far the worst piece of road on the entire trip. If the run is made in ten hours, the cars will average more than thirty-two miles an hour.

Mr. Nelson's passengers will draw a diagram of the route from Ishpeeming to Fond du Lac for publication in the Blue Book, issued at intervals by the Milwaukee Automobile club. The club recently published a diagram of the highway between Fond du Lac and Milwaukee. Mr. Nelson is a member of the Milwaukee club.

The members of the party will spend Sunday in Milwaukee and will leave there Monday on the return trip. They will not attempt to get back in one day, but they expect to reach Escanaba Monday afternoon.

Messrs. Nelson, Newett and Wahlman will leave this morning for Escanaba in Mr. Nelson's car and will return tomorrow. They will attempt to make the return trip over the road following the Northwestern line to Little Lake. It is reported that there is one bridge either out or in bad condition on this highway. If the bridge is not passable they will attempt to ford the river and if they are unsuccessful in this they will return to Escanaba and return to Ishpeeming by way of Iron Mountain.

### HEIRS TO BIG ESTATE.

**Girl Born in Ishpeeming Comes in For Fortune By Death of An Uncle**

It is reported from Duluth that Carl Edward Miller and his sister, Aline Miller, are heirs to a large estate left them by an uncle, who recently died in Sweden. Miss Miller was born in Ishpeeming. Her brother was born in Duluth. Both of their parents are dead. A Duluth paper said of them:

"Carl Edward Miller.  
"Aline Marie Miller.  
"The foregoing are the names of two children who are heirs to an estate if they can be located.  
"Carl Miller was born in Duluth in 1894. His sister, Aline, was born in Ishpeeming, Mich., two years previous to that time.  
"In 1899, while the family was living in Duluth, the father died. The mother was not able to care for the children and she allowed them to be adopted.  
"By whom they were adopted or into what institution the children finally entered is not now known.  
"Miss Poirier, deputy state labor inspector, has been notified that an uncle has died in Sweden and left quite an estate to the children.  
"She is making an effort to find them."

### NEED NEW UNIFORMS.

The Ishpeeming band has decided to conduct a series of dances during the fall and winter months to raise money to purchase new uniforms for next season. The present uniforms, which have been used ever since the band was organized, are in poor condition. The new uniforms will cost in the neighborhood of \$400. The proceeds of the band's annual concert, to be given at the Ishpeeming theatre on the evening of Dec. 26, will also be placed in the uniform fund. The first of the hops will take place next Saturday night at Braastad's Hall. Dancing will start at 8:30 o'clock, continuing until 12. Tickets will be fifty cents per couple.

Dr. W. Covieau, dentist, second floor, Peninsula bank building. County phone 178. (9-30-11)

### DIED IN ST. LOUIS.

**Sister of Mrs. J. E. Schoen of This City Passed Away Yesterday.**

Sister Bernadine, daughter of Peter Lemire of Negaunee, and sister of Mrs. J. E. Schoen of Ishpeeming, died yesterday morning at the mother house at St. Louis, Mo. Pneumonia was the cause of her demise. Sister Bernadine was taken ill about two weeks ago at Oconto, Wis., where she has been located for the past sixteen years. She was immediately removed to St. Louis for care and treatment. The announcement of her death came as a great shock to the members of the family here and at Negaunee, though they had been advised that her condition was critical.

The deceased was born and reared in Negaunee and was graduated from the parochial school there during the time that Bishop Egan was pastor of St. Paul's church. She took her final vows at St. Louis over twenty years ago. She is survived by her parents, five sisters and two brothers. The sisters are Mrs. Horan of Gwinn, Mrs. M. J. Rice of Manistique, Mrs. Schoen of Ishpeeming and the Misses Bernadette and Lillie, at home. The brothers are George Lemire of Escanaba and Aloysius of Negaunee. George left Escanaba yesterday for St. Louis, to attend the funeral, which will

### VICTROLA CONCERT.

Unique Program Will Be Given Wednesday Evening at M. E. Church.

The Epworth league of the First Methodist Episcopal church will give a victrola and piano concert in the church parlors tomorrow evening. Both instruments will be in charge of L. C. Schroeder, of Grinnell Bros., and some of the world's best music, both instrumental and vocal, will be heard. Mrs. A. H. Niver, of the Emerson school of Oratory, will assist. Those who heard her last Friday evening can testify to the excellence of her readings. After the concert refreshments will be served.

The program speaks for itself, and is as follows:

—Part I—  
"Hands Across the Sea"—Sousa's band.  
"Hearts and Flowers"—Victor orchestra.  
"The Palms" (with variations)... Faure  
Piano.  
"Aida"—Caruso... Verdi  
"Good-bye"—Mella... Tosti  
Victrola.  
First Settler's Story...  
Mrs. A. H. Niver.  
"Traumerei"—Joseph Holman... Schumann  
"Madame Butterfly"—Caruso and Puccini  
Victrola.  
"Minuet"... Paderewski  
Piano.  
"Old Folks at Home"—Emma Elva... Foster  
"Toreador Song"—Campanari... Carmen  
Victrola.  
—Part II—  
"Last Rose of Summer"—Sembrick... Moore  
"Swear in This Hour"—Caruso and Scotti... Verdi  
Victrola.  
"Autumn"... Chaminode  
Piano.  
"Rosary"—Schumann-Heink... Nevin  
"Nocturne"—Mitschkin Elman... Chopin  
Victrola.  
"Jimmy Brown's Prompt Obedience"... Mrs. A. H. Niver.  
"Lead Kindly Light"—Hayden quartet... "William Tell"—Fryor's band... Victrola.  
"How Can I Leave Thee"... Schmidt  
Piano.  
"Romeo and Juliet"—Petrizaine... "Home, Sweet Home"—Patti... Payne  
Victrola.

be held tomorrow, with interment in the sister's cemetery there.

**SONGS MAKE A HIT.**  
Of the twenty-one songs in "The Kissing Girl" there are several which will be freely whistled after its presentation at the Ishpeeming theatre tomorrow evening.

Harry Hermon sings "Good Old German Beer," a rattling drinking song that vies with Gustav Luders' "Old Heidelberg" in "The Prince of Pilsen," and a stirring song and chorus, "On the B— on the Zou— on the Boulevard."

Miss Texas Guinan has dainty numbers in "A Little Band of Gold" and "Kiss the One You Love."

Dick Temple has two catchy ones in the pompous "Major General Pumpernickel" and a patter song, "The Hair of the Dog That Bit You." Marion Mills has a fine romance in "The Soldier Boy," she also sings a waltz song that shows to great advantage the brilliant quality of her pure coloratura. Ida Fitzhugh has a quaint German folk song, full of humor.

# RESIGNS FROM COMMISSION

**Wm. Dorais Appointed to Take Dr. S. M. James' Place on Park, Cemetery and Street Board—Every Member of Common Council Present at Meeting.**

After considerable discussion, City Fathers Vote to Macadamize, Curb and Gutter Arch Street Hill at Once, Payment to Be Made Out of General Fund.

At the meeting of the council last evening Dr. S. M. James resigned from the park, cemetery and street commission, and Wm. Dorais of South Marquette was appointed in his stead by Mayor Vaughan. The appointment was unanimously confirmed by the council.

For the first time in several months every member of the council and every city officer who usually attends the council meetings were in his seat when the mayor rapped the gavel that called the meeting to order. The business of the session was not extensive and the meeting lasted but a few minutes.

The principal subject of discussion was the petition for the macadamizing, curbing and guttering of the Arch street hill, between Cedar and Walnut streets. This petition was referred to the committee on streets at the last meeting. The committee reported favorably on the request and recommended that the park, cemetery and street commission be directed to do the work, payment to be made out of the general fund.

This recommendation finally received the approval of the council, but not without considerable discussion. Alderman Hennessy voted against it when the roll was called, with Aldermen Asire and Reichel not voting at all. Alderman Hennessy disapproved of authorizing the work until its cost had been estimated, and thought that as it was now late in the season, on the whole, the improvement ought to be put over until another year. Alderman Asire said that it was a question with him whether there was enough money in the general fund to pay for the work, and that the declared policy of the council was to make the annual budget reach through the year.

Street in Bad Shape.

Other members of the council, particularly Aldermen Downey, Peters and Schauer, took a different view of the matter. It was explained that the street was now rough and in some places the old macadam was broken through, so that it was impossible to haul heavy loads up the hill, which was the regular route of the ice wagons and teams from the Pioneer furnace. The opinion was that the street was continually getting worse with use, and that "the stitch in time saves nine" argument was sufficient to outweigh all considerations against making the improvement at once.

Superintendent Riedinger stated that it would cost about \$2,000 to macadamize, curb and gutter the block as it should be done, and that there was not enough rock at the city quarry, which has been closed down for the year, to complete the job. The Pioneer furnace company has agreed to furnish tar free, if tar macadam is used. What rock is needed will probably be purchased from Lipsitt & Sinclair. The final vote was seven for the improvement and one against.

Controller Primeau reported that he had prepared a roll for the macadamizing and curbing of Park avenue, between Washington and Bluff street, which was approved, and Nov. 7 was set for the date of final confirmation. This street is on the west side of Washington Park, and more than half of the expense of the improvement will fall on the city.

A petition for an arc light at the corner of Fitch avenue and Hawley street was rejected, on recommendation of the street committee.

**CONVENTION AT ESCANABA.**

Several Marquette Women to Attend Upper Peninsula W. R. C. Meeting.

Mesdames Ferris, Bishop, Dowerick and Johnson have gone to Escanaba to attend the annual district convention of the Women's Relief Corps. This district comprises the entire upper peninsula and in its membership are included eight or ten corps of the W. R. C., representing as many cities. It is expected that every corps in the upper peninsula will be represented by two delegates and there may be others accompanying the delegates.

The first session of the convention will be opened at 9:30 o'clock Tuesday morning and will be devoted principally to business. An afternoon session will also be held, beginning at 2:30 o'clock Tuesday evening a campfire will be held at this all of the old soldiers and visitors will be entertained. There will be a genuine campfire supper served and following this will be rendered a literary and musical program. The final session of the convention will be held Wednesday morning, opening at 9 o'clock. At this session officers for the ensuing year will be elected and the place for holding the next convention selected.

The present district officers of the Women's Relief Corps are as follows: President—Mrs. Emma Ferris, Marquette. Vice President—Mrs. Alice Walters, Escanaba. Chaplain—Mrs. Mary McNamara, Marquette. Secretary—Mrs. Mary Eastwood, Escanaba.

**STOCKHOLDERS' MEETING.**

Notice of Meeting of the Stockholders of the Grummett Gold & Silver Mining Co.

Notice is hereby given that a special meeting of the stockholders of the Grummett Gold & Silver Mining Company will be held at the residence of James H. Grummett, 406 Cleveland avenue, Ishpeming, Michigan, on the seventeenth day of November, A. D. 1910, at two o'clock in the afternoon, for the purpose of selling the property of the company and winding up its affairs.

GEORGE GRUMMETT, President.

# OLD SOLDIER DEAD.

**Edward M. Shepard Passed Away Last Evening After Long Illness.**

After an illness covering a period of years, Edward M. Shepard passed away last evening at the age of sixty-five, at his home, 127 East Michigan street. He is survived by a wife and three sons, Edward H. and Joseph P. of this city, and H. B. Shepard, of Denver, Col.

Mr. Shepard was born in New York city in 1847 but his family moved to Vermont when he was a boy. During the Civil war, and when he was seventeen years old, he enlisted in Company I, 17th Vermont infantry, and served until peace was proclaimed. He was a member of Albert Jackson post, G. A. R., and had been the post chaplain for several years.

He came to Marquette nearly forty years ago. In 1874, he married Mary Hume, sister of Robert Hume, keeper of Presque Isle park, and she is left to mourn his death. Shortly after their marriage they went to Vermont, but came back to Marquette in 1892 and have since resided in this city. Funeral arrangements have not yet been made.

# NEW LODGE ORGANIZED.

**Order of Owls Launched Last Night With Appropriate Festivities.**

A new social and fraternal lodge, the Order of Owls, was organized at Legion Hall last evening with ninety-four members. Fifty members of the Ishpeming lodge, organized a few weeks ago, came down in a special train and assisted in the organization. After the election of officers, lunch was served. The evening was a big success. The charter will be held open until Friday night, when a meeting will be held for the adoption of by-laws and other business. The lodge will meet twice a month, on Friday nights, at Legion Hall.

The officers elected last evening were as follows:

President—James T. Gray.  
Vice President—Chas. Johnson.  
Past President—Chas. Dorais.  
Treasurer—George O'Neill.  
Secretary—C. A. Mullhauser.  
Liaison—P. T. McCarthy.  
Warden—Wilfred Murray.  
Picket—Wm. Perron.  
Guard—Arthur Pepin.

Trustees—For three years, Ed Bernard; for two years, Ed Brush; for one year, A. E. Peterson.

# WHAT IS THE LIFE OF A MOTOR CAR?

**E-M-F Company Experimenting for Purpose of Answering This Often Asked Question.**

What is the life of a modern motor car? How long ought a standard automobile, well built, amply guaranteed against defect by the parent factory and well cared for by its owner or driver, continue to give satisfactory service, despite the wear and tear of regular use on the average United States highway?

It is a peculiar fact that the automobile world is as yet in the dark, groping for an answer to this very question. The public, the dealer, the manufacturer all are equally interested, each from his own point of view.

Purchasers of cars want to know how long their possession will last. Dealers want to be able to plan their season's campaigns for the future with definite knowledge of the percentage of cars destined each season for the scrap pile. Manufacturers yearn to find out in order to lay intelligent plans on production.

In all probability, the manufacturers will be the first to solve the problem. Some of them are wearing out cars with deliberate intent, keeping a careful track of conditions and mileage. Knowledge gained in this way has been supplemented by speeding portions of the car for weeks at a time, attached to a bolt in the factory. But these methods have as yet brought results of little value. The dealer, the manufacturer, alone will tell in figures the grand aggregate and each manufacturer will have to determine that figure for himself.

The E-M-F company is making interesting experiments along this line with cars comprised in the first year's output. The eighth car made in the E-M-F company shops was sent to the firm's agency in Atlanta to be used for demonstrating purposes. It is demonstrating yet. When not in use as a schooling car for new drivers, or in the other uses of a garage car, it is whizzing around the Atlanta roadway at a rate which regularly brings it home in first place. It is the most famous motor car in the south. Georgians speak of it in the same class with the descendants of the famous old blue hens that have never lost a main. "The E-M-F Bullet" they call the old car now. Every man, woman and child in Atlanta knows it and points it out with pride to visitors.

I only burned 1 1/2 tons hard coal in my Favorite Base Burner last winter, says J. R. McDonald, 109 E. Arch St. They are sold by Kelly Hardware Co. only. (10-17-10)

**REPUBLIC IRON & STEEL COMPANY.**

**Notice of Eleventh Annual Meeting.**

Notice is hereby given that the annual meeting of the stockholders of Republic Iron & Steel Company will be held at the principal office of the company, at Number 15 Exchange Place, in the city of Jersey City, New Jersey, on Wednesday, the 23rd of October, 1910, at 11 o'clock in the forenoon, for the transaction of any and all business that may come before the meeting, including the election of four directors for the term of three years, and consideration of the report of the board of directors and of the executive committee of this company, since the last preceding annual meeting of the company, as set forth in the minutes of the stockholders and of said board of directors and executive committee, including the proceedings in and about the creation of the company's mortgage dated March 17th, 1910, made to Central Trust Company of New York and James N. Wallace, as trustees. Said minutes will be open to the inspection of stockholders at said meeting.

The stock transfer books will be closed October 1st, 1910, at three o'clock p. m., and will be reopened at ten o'clock a. m. on October 20th, 1910.

By order of the Executive Committee.  
H. L. ROWND, Secretary.  
Pittsburg, September 17, 1910.  
9-20-10

# MRS. M. H. MAYNARD DIES IN CLEVELAND

**Was One of Marquette's Oldest and Most Dearly Beloved Residents—Interment Here.**

Telegrams were received in Marquette yesterday announcing the death of Mrs. M. H. Maynard, one of the pioneer residents of this city, which occurred at the home of her daughter, Mrs. Wm. D. Rees, in Cleveland early yesterday morning. The body will be shipped here for burial and will arrive Wednesday. The funeral will be held at 3 o'clock Wednesday afternoon from the Maynard home on East Ridge street, conducted by Rev. J. A. Rogers, pastor of the Presbyterian church. Interment will be in Park cemetery beside her late husband and son, Gardner.

Mrs. Maynard's death was not unexpected as she was seventy-five years of age and had been in failing health since last spring. She spent the past summer in Marquette, leaving here for Cleveland early in August. Two children survive her, Mrs. Wm. D. Rees, of Cleveland, and A. F. Maynard, of Chicago, both of whom are well known in this city.

Having come here as a bride in 1856, Mrs. Maynard was one of the oldest Marquette residents. She was the daughter of John A. Foot, a prominent Cleveland attorney in his day, and her grandfather was at one time governor of Connecticut and United States senator from that state. Her husband, who died in the South about three years ago, practiced law in this city for many years, and was associated in business with the late Peter White.

Mrs. Maynard was beloved by all with whom she came in contact because of her delightful hospitality, engaging personality and beautiful character. In their later years, Mr. and Mrs. Maynard spent much of their time traveling, and visited all parts of the world, but they usually planned to spend their summers in this city. Since Mr. Maynard's death in the time with her children or in the South. Her passing is sincerely mourned by all who knew her.

**CUPID IS BUSY.**

Eight Marriage Licenses Issued at County Clerk's Office Yesterday.

Deputy County Clerk Dell Richardson had a busy time of it yesterday issuing marriage licenses, no less than eight couple being given legal permission to wed during the day. Three licenses were issued to Marquette people and five to residents of Ishpeming. Those from Marquette who sought and received licenses were Wm. Dube and Miss Emma Gravelle, Wm. Kendall and Miss Agnes Fairbairn, the latter of Webbwood, Ont., and John Kumpula and Hilma Kainulainen.

This brings the total number of marriage licenses issued during the calendar year up to 320, four less than during the same period a year ago, but more than the average for the same months during the last five years. October, June and December are the months in which the greatest number of marriages occur. The number of licenses issued is a fairly good barometer of local industrial conditions during a given year. "Love may be blind" but Marquette county young men evidently "take thought for the morrow" before entering into the marriage relation. The largest number of licenses issued up to Oct. 17 in any year in this county was 347 in the palmy days of 1907, when there was plenty of work at good wages for all. The next year the number dropped to 294 for the same period. The average number issued in this county is about one a day. The present year is now twenty-nine ahead of the average, yesterday being the 291st day of the year. The number of licenses issued up to Oct. 18 for the last five years is as follows: 320 in 1910; 324 in 1909; 294 in 1908; 347 in 1907; 329 in 1906; 272 in 1905.

**THEATRICAL.**

**"A Broken Idol"**

California has been the subject of many stories, but never before had it been used for the background of a musical play, until the advent of "A Broken Idol," which comes, with the recommendation of eight months at the Whitney in Chicago, six months at the Herald Square, New York, and seven months at the Tremont in Boston to the Marquette opera house Saturday night. Opening in Los Angeles in the Chinese quarter during the Chinese New Year celebration, and from there changing to Santa Monica, California, it has given the scenic artist, costumer and electrician free scope for gorgeous display. A party of tourists are seeing Chinatown and during a frolic in a Chop Suey house, one of them accidentally breaks a Chinese idol and they think they have killed a real Chinaman. From that time until the final curtain, complications and ludicrous situations follow in rapid succession.

Gas Solhko, who has been called the wizard of stagecraft, has put in many startling surprises such as a silken dragon that turns into a bevy of dancing girls, animated rose vases which become bewitching show girls and a fiery balloon that sails out over the heads of the audience.

A capable cast of metropolitan favorites will be seen including Don A. Macmillan, Perle Barti, J. W. Carson, Dorothy Grey, Edyth De Valmasada, Dan Russell, Sydney Stone, Jack West, Madge Carson and a chorus including the famous "Chop Suey Dancing Girls." There are many song hits.

**OPEN FOR ENGAGEMENTS.**

Original and high-class readings—suitable for Church or platform work. Schools, Guilds and Clubs, etc. Reasonable terms. Advers for one week regarding rates and dates. Byron Woodward Goodsell, Douglass House, Houghton, Mich.
