

THREE OF THE AERIAL CREWS ARE MISSING

No Word Concerning Their Present Whereabouts Has Come from the Pilots and Aides of the Big Balloons Azurea, Dusseldorf II and America II.

There Is Fear the Men Are Lost in the Wilds of Canada or Perhaps Have Alighted in Georgian Bay, and Plans Are Made to Send Out Relief Expeditions.

Mattawa, Ont., Oct. 21.—Colonel Schaeck, pilot of the balloon Helvetia, arrived here tonight. He landed at Saint Paeide, Temiskaming, at 7 o'clock Wednesday morning on the outskirts of civilization.

Quebec, Oct. 21.—Word was received here tonight from one of the aeronauts that the balloon Germania landed at Coococash, 179 miles north of here, Wednesday morning. The town mentioned is approximately 1,195 miles from St. Louis, Mo., which probably means that all world's records are broken. Captain Hugo Von Abercorn was the pilot.

Three Balloons Missing.

St. Louis, Oct. 21.—Relief expeditions to search for the pilots and aides of three balloons—the Azurea, Dusseldorf II and America II—which started in the international race here last Monday, and who apparently were last seen, will be started from Toronto, Ontario, Sunday, if no news is received from the men before that time. This announcement was made tonight by the officials of the Aero club of St. Louis. It is believed the men have landed in the wilds of Canada, where they might starve unless rescue is given soon.

The Aero club has called upon the government to have the revenue cutters patrolling the Great Lakes look for wreckage on Lake Huron. Vessels plying Lake Huron and Georgian bay have been requested to join the search. The Ontario government tonight notified the club that its services would be rendered in the search. The Hudson Bay company also has replied favorably to the quest.

All the balloons should have been down and reported by Wednesday night or Thursday morning. The fact that the Ontario government is in the case of the balloons having descended in Georgian bay. This stretch of water contains more than thirty thousand islands where the aeronauts might perish before relief arrived.

The last balloon to land, so far as known, was the Helvetia, piloted by Colonel Schaeck. It alighted in Pontiac county, Quebec, Wednesday. So far the balloon reported to have passed over Kiskisno, Quebec, is believed to have gone the greatest distance—about 1,190 or 1,200 miles, breaking all records in that connection. The balloon yesterday was supposed to be the Germania. Its identity now is a mystery.

GOVERNMENT OF PORTUGAL ABOLISHES EMERGENCY LAWS.

Lisbon, Oct. 21.—Decreets were published today abolishing the exceptional laws put in force with the advent of the republic, including those concerning anarchists and those restraining the newspapers from publishing "undesirable" news. All the bishops and the higher members of the clergy have announced their adhesion to the republic. The soldiers who fought in the revolution have been granted four months' leave of absence, with pay. The minister of the interior has declined to introduce a number of measures favored by the socialist party, which has promised support to the government.

Berlin, Oct. 21.—Great Britain has proposed that all the powers recognize the republic of Portugal at the same time. Germany today replied, approving the suggestion.

J. P. MORGAN GIVES \$100,000 TO CHURCH UNITY FUND.

Cincinnati, Oct. 21.—A gift of \$100,000 to the campaign fund for the world's conference on church unity by J. P. Morgan served as a fitting climax today to the convention of the Protestant Episcopal church. Mr. Morgan was named as treasurer of the movement to raise the funds required to bring about what is hoped to be the greatest world's conference of Christian churches ever planned.

SPAIN BALKS AT REMOVAL OF A FAMOUS STAIRCASE.

Madrid, Oct. 21.—The government is taking steps to prevent the removal to the United States of the famous staircase in the ancient Casa de Miranda at Burgos. The staircase is a beautiful example of renaissance architecture. It was announced that J. Pierpont Morgan had purchased it.

PRINCE FRANCIS OF TECK REPORTED ON HIS DEATHBED.

London, Saturday, Oct. 22, 4:55 a. m.—A bulletin just issued states that the condition of Prince Francis of Teck, brother of Queen Mary, has become extremely critical during the last hour. He is ill with pleurisy and had recently undergone two operations.

NOBEL PRIZE GOES TO A GERMAN PHYSICIAN.

Stockholm, Oct. 21.—The Nobel prize for medicine was awarded today to Dr. Albrecht Kossel, professor of physiology at Heidelberg University.

DANVILLE (ILLINOIS) MAN GETS REWARD OF \$5,000.

Hartford, Conn., Oct. 21.—That Everett Bailey of Danville, Ill., is entitled to the reward of \$5,000 offered by the Savings Bank of New Britain for giving the information which led to the capture of William F. Walker, its defaulting treasurer, was decided by Judge Wm. F. Bennett of the superior court here today. At the time of Walker's capture, Bailey was United States consul to Escanada, Mexico, where Walker was captured. He has since retired from the government service. Originally there was one other claimant for the reward—Jose Jiminez, who was chief of police at Escanada. Bailey produced documents in court today which showed that Jiminez had waived all the claims he had to the reward for a consideration of \$200 paid by Bailey.

HOFFMAN HOUSE, NEW YORK, IS THROWN INTO BANKRUPTCY.

New York, Oct. 21.—The Hoffman House, one of New York's most famous hotels, was thrown into bankruptcy by the creditors this afternoon. The Misses Cadagan, sisters of the late James Cadagan, control the hotel, which has been famous as a gathering place for politicians.

262 HEAD OF CATTLE PERISH IN A RAILROAD WRECK.

Calhan, Colo., Oct. 21.—Three men were badly hurt and 262 head of cattle were burned to death today in a collision between a cattle train and a local freight on the Chicago, Rock Island & Pacific railway two miles east of here today.

FISHING SCHOONER HAD NARROW ESCAPE

Equilibrator of Wellman's Airship Missed Hitting the Craft Only by a Few Feet.

Noank, Conn., Oct. 21.—When the auxiliary fishing schooner Ada Bell put in here tonight, the crew told of the narrow escape they had last Sunday of being hit by the equilibrator of Walter Wellman's airship. Captain Harry Christensen said that they were fishing on the way the airship passing not thirty feet from them. The captain could make out the members of the airship's crew, but neither his crew nor Wellman's made any effort to speak and the balloon passed by.

Overdue Steamers Limp Into Port.

New York, Oct. 21.—Three belated steamers struggled into port today showing the effects of their battles with the tropical hurricane that recently tore through the southern waters. The Southern Pacific steamer Greole arrived from New Orleans, twenty-six hours behind schedule. The Brazos, of the Matlory line, came three days late, with windows smashed and deck rails bent and twisted. The Comus, of the Southern Pacific line, from New Orleans, reached here four days late.

HITS JEWELRY TRADE

Automobile Craze Said to Have Decreased Sale of Precious Stones. New York, Oct. 21.—In the Maiden Lane district complaints of a depression in the jewelry business are quite common at present. An explanation is given for it is that the "automobile craze" has decreased the demand for articles of personal adornment. The sales of gold and silver watches are reported to be as large, if not larger, than those of last year; but a marked falling off in orders for precious stones, necklaces and brooches is reported. By most of the importers and wholesale dealers. In this connection it is interesting to note that recently there have been several failures in the jewelry trade.

A prominent wholesale merchant, discussing the effect of the automobile craze on the jewelry business, said: "Noadays a woman does not ask her husband to buy her a diamond brooch or a pearl necklace, or an expensive ring, but she asks for an automobile. They all want cars and prefer them to jewelry because a vehicle is more useful and is more conspicuous. Persons who have funds to spend on luxuries select the automobile. They say they get more fun out of it and the neighbors are sure to see it, while it is not always convenient to display jewels to residents of the neighborhood. Not only that, but if a Mr. Smith or a Mr. Jones is known to ride around in an auto, that fact stamps him as a man of wealth."

Importers and wholesale dealers of watches say that the increased demand for automobiles has not hurt them quite as much as it has their friends who deal in precious stones and other articles of jewelry. They call attention to the fact that a watch is an article of necessity as well as one of luxury, and a person in need of a timepiece usually buys one, while when it comes to rings and jewels more cash is required and purchasers are not as common.

It was recalled by some dealers that when bicycles were in style, the sales of watches decreased because parents who are accustomed to present watches to their sons as birthday gifts at that time bought bicycles instead.

NEW MEXICO LAYS CLAIM TO A PORTION OF TEXAS.

Santa Fe, N. M., Oct. 21.—The committee on boundary of the New Mexico constitutional convention today decided to report that the 103rd meridian is the true historical boundary between New Mexico and Texas. This would give New Mexico two hundred square miles more than it now has, and Texas would lose a part of Texas.

BASEBALL FANS IN WINDY CITY GET NEW HOPE

Because Fourth Game of World's Series Is Postponed on Account of Rain, They Hail It as a Good Omen—Think It Will Break Chicago's Hoodoo.

Wet Weather Is Indicated for Today, Also—Pennant at New York Is Won by the Giants—Big League Attendance This Year Has Broken All Records.

Chicago, Oct. 21.—Wet grounds and a drizzling, intermittent rain caused the postponement of today's game of the world's baseball championship series between the Philadelphia American and Chicago National league clubs. There is much doubt that it will be possible to play the contest tomorrow, the weather bureau having issued a bulletin tonight, predicting rain Saturday also. The partisans of the Chicago team are generally hailing today's postponement as a good omen. Many declared that the break in the series of games will prove a charm that they think will break Chicago's hoodoo.

Point to Boston Precedent.

The followers of the Chicago team tonight recalled a precedent for the present situation by relating the experience of the Boston club a number of years ago, when Boston had lost three games of the world's series and then won the series by winning the next four games, and the championship. But despite the apparent hopefulness of the local men, there is little betting. The odds today fluctuated about the ten to one mark, with Philadelphia the favorite.

Chance Deluged With Advice.

Captain Chance of the Chicago team was besieged during the day by Cub fans who desired to offer suggestions and support. He received more than two hundred letters by mail during the day, each one giving advice and suggesting changes in the line-up of the local team. A number of the supporters desired to hold a mass meeting downtown, at which they desired the presence of the entire Chicago team. Chance met many of the men, but was forced to refuse admittance to hundreds of others.

A Suicide at Philadelphia.

Philadelphia, Oct. 21.—Excitement over the world's series between Chicago and Philadelphia, it is said, was the cause of the suicide tonight of Frank Ayers, forty-five years old, a New York National league team won the 1910 baseball championship of Manhattan by defeating the American league team today, thereby taking four out of the seven games played. Doyle's home run in the third, with men on bases, was the feature.

Giants Win Manhattan Title.

New York, Oct. 21.—With Mathewson in the box, the New York National league team won the 1910 baseball championship of Manhattan by defeating the American league team today, thereby taking four out of the seven games played. Doyle's home run in the third, with men on bases, was the feature.

Year's Attendance a Record Breaker.

New York, Oct. 21.—Statistics given out today show that the attendance at the baseball games of the year has broken all previous records, the total for both being 9,105,204, compared with 7,978,108 last season. In the National league Chicago shows the largest attendance—980,420—New York following with 937,840. In the American league New York leads, with 620,114; Philadelphia is second, with 520,180, and Chicago third, with 510,200.

WRIGHTS BUILD NEW RACER.

New Biplane Said to Have Shown Speed of 80 Miles an Hour.

St. Louis, Oct. 21.—Despite the efforts of the Wrights to keep secret until the international aviation meet in New York the details of the new Wright racing biplane, it was learned here today from a man who had been in Dayton, O., recently, that it had been tested and showed a speed of eighty miles an hour. It is described as being similar in general lines to the biplane flown at the St. Louis meet, without front elevators, but much smaller. It measures twenty-eight feet from tip to tip, and the main supporting surfaces are much narrower than usual. They are placed so close together that there is barely room for

the operator to sit between them. It has an eight-cylinder water-cooled motor of about 70-horsepower; which drives two propellers at higher speed than on the present biplane. The control is practically the same as on the slower machines.

Two of these racers are now in the Wright factory at Dayton, it is reported, and they will probably be driven at the Belmont Park meet by Arch Hoxsey and Walter Brookins.

The Weather

Washington, Oct. 22.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy and cooler, Saturday, with rain in the east; Sunday, fair and warmer; brisk north-west winds.

SAYS COUNTESS FELL DOWN STAIRS

Nothing Mysterious About the Accident to His Daughter, Declares M. H. Kilgallen.

Chicago, Oct. 21.—M. H. Kilgallen, a wealthy real estate man, tonight issued a statement regarding the injury at his residence of his daughter, Countess Irmaid Bueford, who is at a hospital suffering with a compound fracture of the left wrist, a broken knee cap and other injuries. He said: "There is nothing mysterious about the accident. My daughter was hurt Thursday afternoon at my home. She was on the third floor and was going down to the second, when she stepped on a small rug on the landing between the floors. The rug slipped, and in trying to regain her footing she fell over a small railing down to the first floor hall. My wife saw the accident, as did the countess' husband. They were not near enough to save her. It was a miracle that she was not more dangerously hurt."

The Kilgallens formerly lived at Ishpeming, Mich.

LOS ANGELES POLICE WANT ONLY THE DYNAMITERS NOW.

Los Angeles, Oct. 21.—"The evidence in the Times dynamiting case is complete. All that remains is to arrest the men who did it." Attorney Earl Rogers, in charge of the investigation of the dynamiting of the Los Angeles Times building Oct. 1, made this announcement tonight, following an interview with Mrs. Belle Lavin of San Francisco, the lodging house keeper now in jail here on a charge of murder. "How about catching the guilty persons?" Mr. Rogers was asked. "It's almost sure as death," he replied. "When we get them we will have a case that the cleverest lawyer in the world could not break down."

KETCHUM'S ALLEGED SLAYERS SECURE CHANGE OF VENUE.

Marshallfield, Mo., Oct. 21.—Walter A. Dipple and Mrs. Goldie Smith, charged with the murder of Stanley Ketchum, today secured a change of venue. The hearing probably will be held next Friday.

DR. CRIPPEN'S FATE WILL BE KNOWN TODAY

Trial Will End This Morning and Verdict Is Expected Before Nightfall.

London, Oct. 21.—Dr. Crippen's cross-examination was conducted today. He said that he had not seen his wife since Feb. 1. He could not prove that she left the house alive, but supposed she had gone to Chicago. He found his wife missing when he returned home in the evening, but had made no inquiries as to her whereabouts. He admitted that Miss Leneve had slept in the house the night of Feb. 2, within twenty-four hours after his wife had disappeared. It was at his suggestion, he admitted, that she had disguised herself and called for the summing-up address of Counsel Todin. The prosecution will close tomorrow morning, after which the case will go to the jury. The verdict is expected tomorrow afternoon.

MUSIC BOX FOILS BURGLARS.

Plays as Latter Seize It and They Flee, Leaving Silverware.

New York, Oct. 21.—After packing up about \$350 worth of silver ware in the dining room of Frank J. Leavy's home on De Witt street, Corona, before day light, two burglars went nosing through the parlor. They came to a music box. Apparently they took it for a jewel box, for their price it open. The operation started the music.

The music woke Mr. Leavy, and he bounced out of bed, because he knew he had locked the box before he went upstairs. The burglars fled through the porch window by which they had entered. Mr. Leavy found all his silver ware on the dining room floor, made up into four bundles.

UNIVERSITY HEAD ENTERS THE GOVERNMENT SERVICE.

Washington, Oct. 21.—Dr. Kendrick C. Babcock, president of the University of Arizona, today was appointed a specialist in higher education in the United States bureau of education. The appointment is in line with the policy of the present commissioner of the bureau of paying specialists to study various phases of education. The salary is \$3,000. The appointee is a graduate of the Harvard and Minnesota universities.

MR. ROOSEVELT PAYS VISIT TO BOSTON, MASS

His Reception Is Enthusiastic—He Speaks in Behalf of Henry Cabot Lodge and Says the Defeat of the Senator Would Be a Calamity to the Nation.

Ex-Governor Curtis Guild of Massachusetts Is a Campaign Orator at Port Huron—He Upholds the "Insurgency" and Extolls Nominee Chase S. Osborn.

Boston, Oct. 21.—Declaring that it would be a calamity to the nation if Senator Lodge should fall of reelection, Theodore Roosevelt spoke here tonight in behalf of the Republican party of Massachusetts. He said that the senator was a friend of the progressive legislation, and that there was no difference of opinion as to the basic principle of protection, as the Republican party stood solidly on the tariff commission plan as contained in the last national platform.

The colonel made no reference to the Payne-Adrich tariff bill, containing his remarks to an endorsement of the tariff plank of the Republican state platform and the tariff board scheme. He said that he was advocating the same principles in his speech that he had advocated in all his speeches during the summer, from the Rocky Mountains to the Eastern seaboard.

Mr. Roosevelt's reception in Boston was enthusiastic. Taking up the Massachusetts situation, the colonel assailed Eugene Foss, the Democratic candidate for governor. "It would be a bad thing for the people of this state to elect a man who trying to dominate one party and having failed now seeks to dominate another party," he declared.

Curtis Guild at Port Huron.

Port Huron, Mich., Oct. 21.—"If the voters of Michigan want a governor who will be to Michigan what Governor Hughes has been to New York, they will vote for Chase S. Osborn of Sault Ste. Marie." Ex-Governor Curtis Guild, of Massachusetts, voicing the doctrines of insurgency at a big Republican meeting here tonight, made this statement and was greeted with as much real applause as any political speaker has received in this city in months. He said that the Soo man stood for the highest ideals in everything, and he declared that the choice of the Republicans at the recent primary should be the choice of the people of Michigan for governor.

Eliminating his occasional reference to Osborn, the speaker's remarks were those of one who stands as a strong progressive. He said that "life and liberty" had been given to the people of the United States by Washington and Lincoln and that the United States of tomorrow should give to the people of the United States the right to enjoy the "pursuit of happiness." He advanced the theory that one law should govern all of the states, not only in the control of monopolies, but in the regulation of divorce, child labor and other matters of equal importance.

The meeting was in charge of ex-governor John T. Rich. The first speaker was Senator Charles C. Simons, of Detroit, who spoke on state affairs, telling also of the records of the Republican and Democratic candidates for governor in Michigan and why the people should vote for the Soo candidate. Despite a pouring rain the attendance at the meeting was large.

Osborn and Codd at Ithaca.

Ithaca, Mich., Oct. 21.—Speaking here tonight to a crowd of 1,000, with large proportions despite the inclement weather that prevailed, Chase S. Osborn, Republican candidate for governor, and ex-Mayor George Codd, of Detroit, opened the campaign in Gratiot county. The candidate confined himself to a general and fair discussion of the campaign issues and referred in kindly manner to the general campaign mistakes that have been made not only by Lawton T. Hemans, the Democratic candidate, but the Democratic party generally.

Mr. Codd continued his attack upon Mr. Hemans, his public record and his general campaigning methods. After recalling his several charges against the Democratic candidate and explaining each, he said: "As a member of the constitutional convention, Mr. Hemans voted against giving the state legislature the power to regulate the conditions surrounding women and children working for wages."

EIGHT JURORS ACCEPTED IN SPRINGFIELD BRIBERY CASE.

Springfield, Ill., Oct. 21.—At the close of the third day of the trial of Senator Stanton C. Pemberton of Oakland and Representative Joseph C. Clark of Vandalia, charged with bribery, eight jurors had been accepted by both the state and the defense. The first venire of fifty was exhausted today and another venire was ordered to report forthwith.

ILLINOIS SPEAKERS DENOUNCE JACKPOTTERS AND YELLOW PRESS

Springfield, Ill., Oct. 21.—Governor Deneen's denunciation in bitter terms of the "jackpotters" at the last session of the legislature and the attack of Chief Justice Vickers, of the Illinois supreme court, on yellow journals were the features of a banquet given here this evening to the members of the Southern Illinois Editorial association. The governor said that the credit for driving corrupt politicians from the legislature is

LABOR LEADERS PROPOSE A NEW POLITICAL PARTY.

Rock Island, Ill., Oct. 21.—The Illinois Federation of Labor this afternoon passed a resolution presented by President John H. Walker, of the Illinois Miners, looking to a referendum vote of the workers in this and other states upon the question of forming a new political organization for the working classes, including farmers. President Edwin R. Wright, of Chicago, was re-elected, as were all the other officers. The next meeting will be at Springfield and will be a joint one, the Illinois, Indiana, Iowa, Missouri, and Michigan state federations participating.

MILWAUKEE COURT'S RULING PUTS DEMOCRATS ON BALLOT.

Milwaukee, Oct. 21.—Under a ruling made late this afternoon in circuit court by Judge Ludwig, every candidate on the Democratic county ticket will be placed on the official ballot. The court rules that a Democratic ballot deposited by a voter, whether marked or not, must be counted for the Democratic candidate, it being the intention of the voter, in the opinion of the court, to vote the Democratic ticket. If the ruling holds good, it may affect Democratic candidates throughout the state.

MEMORIAL SERVICE TO BE HELD IN DOLLIVER'S HONOR.

Washington, Oct. 21.—A memorial meeting in honor of the late Senator Dolliver will be held in the Foundry Methodist Episcopal church here Sunday afternoon. Addresses will be made by a number of Iowa, including Justice Harlan of the supreme court of the United States, Secretary of Agriculture Wilson and Wm. S. Kenyon, assistant attorney general.

STOCK SPECULATION RECEIVES A CHECK

Obstacles Are Encountered and the Upward Swing of Prices Is Halted.

New York, Oct. 21.—The advance in stocks, which was pushed with vigor during the earlier portion of the session today, encountered obstacles later which resulted in a hesitating and irregular tone. The retrograde movement left the final prices lower than at yesterday's close. How far the halt in speculation may have been due to misgivings over the money position did not appear in any action of the money market itself, that medium appearing invulnerable to developments indicating a depletion of resources. The call loan rate was unaffected and the tone in the time money market itself was somewhat easier. Estimates of the week's currency movement, however, indicated another substantial impairment in the cash holdings of the banks, due to the demand from the interior.

The change in the speculative sentiment is due partly to the accession of the new forces which had taken up the market leadership and whose powers and resources are not so much relied on as those of the interest credited with the initiative in the present upward movement. The pronounced pressure which developed against the copper industries gave color to the supposition of a change in the market sentiment being great financial groups. The decline in copper took place notwithstanding a sharp advance in London price of the metal and which was accompanied by a corresponding advance in the price of copper securities in that market. Reports of labor troubles on the Missouri Pacific hurt that stock.

All the Grains Close Lower.

Chicago, Oct. 21.—With the harvest in Argentina not three weeks off, and with the exportable surplus in the country estimated by one authority this afternoon at \$40,000,000 bushels, the wheat market today fell a prey to short sellers. The closing prices were 1/2 to 3/4% lower. The shorts acted with considerable caution and many covered on the weak spots. With the exception that the primary receipts were light, the bulk of the day's news was depressing. The cash demand was slim and the reports of large flour sales in the Southwest were denied. In the winter wheat London rains were affording relief. As for spring wheat, Minneapolis reported that the stocks there had increased this week about as fast as at the corresponding time a year ago. The foreign advices gave the bulls no help. The weakness of corn also affected the market. The December opened at 94 1/2 to 94 3/4 and closed at 93 1/2.

Corn closed 1/2 to 3/4% down. Many offers of low-priced corn for ten to thirty days' shipments pulled down the quotations. The December opened at 47 1/2 to 48 and closed at 46 1/2 to 47. Oats closed 1/2 to 3/4% lower. Local speculators hammered the market, backing away only when wheat showed strength. The December opened at 31 1/2 to 32 and closed at 30 1/2.

CHINA TO USE ENGLISH

Soon Will Be Officially Recognized, Says British Instructor.

New York, Oct. 21.—The English language is being taught in the schools of China, and before long it will be recognized as official," said Captain Joseph Hough of the English navy. He is stationed in Peking teaching Chinese sailors how to handle a battleship. Hough, who was wounded in the Peninsular war in South Africa in 1885, arrived on the Philadelphia from Cherbourg recently. "The edict calling for the teaching of the English language was issued by the court just before I left Peking a month ago," said Captain Hough. "That the court writings will be in the same language soon seems certain."

EDGAR A. POE GETS INTO THE HALL OF FAME

Years of Effort on the Part of Staunch Supporters of the Author of "The Raven" and Other Melancholy Works Are at Last Attended With Success.

Even More Than the Required Number of Votes Are Finally Polled, and the Name of the Poet Will Now Adorn a Tablet at New York University.

New York, Oct. 21.—Edgar Allan Poe is at last in the Hall of Fame. Years of effort on the part of staunch supporters to get his name added to the list were rewarded today by the announcement of Dr. John H. MacCracken, chairman of the senate of New York University, that the author of "The Raven" with ten others, had been accorded the honor.

The eleven names added are: Harriet Beecher Stowe, 74 votes; Oliver Wendell Holmes and Edgar Allan Poe, 69 each; Roger Williams, 64; James Fenimore Cooper, 62; Phillips Brooks, 60; William Cullen Bryant, 59; Frances E. Willard, 56; Andrew Jackson and George Bancroft, 53 votes each, and John Lathrop Motley, 51. The total number of ballots cast was 97, and the number required for a choice was 51.

Poe's vote jumped from 42 in 1905 to 69. An analysis of the bronze tablets shows that twenty-one were cast by college presidents, seventeen by professors of history and scientists, eighteen by publicists, editors and authors, and thirteen by jurists. Contrary to the general impression, the memory of the melancholy poet is as prominent in the West as in the South, according to the vote. Since the last election his fame has increased more among college presidents than among any of the other groups.

As a result of today's election the authors' corner doubles its population and goes far ahead of the statesmen in number. The bronze tablets, the names will be designed, with an appropriate quotation from the works of each, and the formal unveiling will take place in October, 1911, in the Hall of Fame at New York University.

MISSOURI PACIFIC SHOPMEN QUIT ALL ALONG THE LINE.

St. Louis, Oct. 21.—Simultaneously with the walking out of the boiler makers, pipefitters and electricians on the Missouri Pacific and Iron Mountain systems today, in sympathy with the 1,200 striking machinists, the companies received here three carloads of men to fill the vacancies. The men are said to be from Chicago. The walkout of the mechanical workers was general along the system, and the union men in the mechanical departments of the other Gould roads may be called out if the trouble is not settled within a reasonable time.

ARTHUR HEINZE'S ATTORNEY DEBARRED FOR A YEAR.

New York, Oct. 21.—Sanford L. Robinson, who as attorney for Arthur P. Heinze, brother of F. Augustus Heinze, was charged in the United States circuit court with resisting and opposing the United States marshal in attempting to serve a subpoena, for which he was sentenced to pay fine of \$500, was ordered today to be suspended from the practice of law for one year by the appellate division of the supreme court. The litigation in the Heinze case had to do with the affairs of the United Copper company.

PANAMA LABEL SUIT POSTPONED UNTIL MONDAY.

Washington, Oct. 21.—When the so-called "Panama label suit" of the United States against the Press Publishing company, of New York, was called for argument today in the supreme court of the United States, the attorneys concerned obtained postponement until Monday. The case was not reached until so late that the argument could not be completed today.

SAVED BY CANARY'S SONG.

Stamford, Ct., Oct. 21.—A canary's death song saved the life of Mr. and Mrs. Frank Elero here. Soon after midnight its last weak and quivering notes were but loud enough to waken Mr. Elero. He sprang up with a sense of suffocation and nausea. He was nearly overcome and fell, but regained his feet with an effort and threw open a window. The canary, whose song had saved Elero, lay on its back in a cage near the range. The room was full of gas, which had been given off by the coal fire.

While spruce remains by far the most popular pulp-making wood, there has been a gradual decline in consumption, the percentage being 60.5 in 1909; 64.5 in 1908, and 63.1 in 1907. This decrease is attributed to the increase in the price of spruce, which amounted to more than \$1 a cord from 1907 to 1908. There also has been an improved demand for white fir, which has been found to be a very excellent pulp wood. As much of this timber is found in the national forests, the prediction is made its use will prove of material benefit to the forestry service.

NO MORE STREET WORK THIS FALL

Arch Street Hill Improvement Likely to Be Put Over Until Spring, Because of Lateness of Season, Making It Impossible to Apply Any Binding Material.

Suggestion Is Made That Commission Another Year Would Do Well to Devote Special Attention to Permanent Betterment of the Down Town Thoroughfares.

Notwithstanding all the fuss and feathers at Monday night's council meeting over the macadamizing of the East Arch street hill, it is highly improbable that the improvement will be begun this fall, although the council directed that the work be done as soon as possible. In the first place, the season has advanced so far that it would be impossible to apply tar or any other binding material to the macadam, as tar will not run in cold weather. To build the hill without applying any binder would be poor economy, as the grade is so steep that the work would be seriously damaged by the fall and spring rains.

Besides, the city rock quarry has been shut down for more than a month, and with the exception of No. 4 size, there is no rock on hand with which to do the work. It is reliably stated that the street commission is opposed to purchasing a quarry at public expense. Finally, the argument is made that the street will soon be covered with snow and then it will make no difference whether the hill is smooth or rough. One of the aldermen who voted in favor of the improvement has stated that he did so that the improvement might be made early next spring, realizing all the time that it would not be feasible to do street work so late in the year, and it is possible that other councilmen sized the situation up in a similar way.

There is no question but that the street needs rebuilding, and with curbs and gutters. In fact, the city ordinance now in force requires that curbing and gutters must be included in all street improvements where there is a grade of 3 per cent or more. The hill has washed until it is rough and uneven, and in several places heavily loaded wagons cut through into the sand. There are particularly bad holes where the street has been dug up for the purpose of laying lateral sewers and water pipes to houses built within the last few years.

Down Town Streets.

Among taxpayers who take active interest in the city's best welfare, there is sentiment in favor of devoting more attention to the improvement of the business streets of the city another year than has been done for several seasons past. One citizen who has recently returned from a tour through Wisconsin states that he never before realized

why visitors were so impressed with the streets of this city. He states that in Badger state towns, he found fine pavements in the business districts, but that in the residence districts and on side streets practically nothing has been done in the way of street improvement. Marquette, on the other hand, has just as good streets throughout the residence sections as are to be found in the heart of the city.

While the street commission has been wise in looking after the residence streets, there is now some feeling that it is time to spend the bulk of next year's appropriation in the business districts. The suggestion of this class of people would be to keep the streets already built in good repair but to pay especial attention to the permanent improvement of the down town thoroughfares. Washington street is getting cut out badly in places, and the Third street hill is in bad shape. Front street also needs some looking after and there are other business streets to which attention could well be devoted.

With some taxpayers it is a question whether or not these business streets should be rebuilt with macadam, or whether some other material should be used. It has been demonstrated that macadam will not stand up for any great number of years under heavy and constant travel, and there has been discussion as to whether brick, asphalt or creosoted wooden blocks would not be cheaper in the long run. Those who have seen the creosoted block streets now being built in Chicago, and many other cities are well pleased with them, and it is claimed that they will outlast brick, at the same time being noiseless and easy on horses' feet. The street commission is likely to give considerable attention to the paving question before another spring.

ATTENDED CONVENTION OF REXALL DRUGGISTS

E. O. Stafford Tells of Interesting Meeting Held in Boston, Mass., Recently.

While in the East recently, E. O. Stafford, of the Stafford Drug company, attended the eighth convention of the stockholders of the United Drug company, proprietors of the Rexall remedies. Mr. Stafford being one of the 4,000 or more druggists who hold stock in this unique company. For three days business and pleasure were combined. The convention was held in the Boston arena, the largest building in that city, which was elaborately decorated for the occasion. There were a score of booths erected, where were displayed all the Rexall remedies.

The keynote of the business sessions was the advancement of the sale of pure drugs and the prevention of the sale of noxious preparations, so that purchasers might be certain that they were getting the best drugs obtainable at the lowest possible price, allowing a fair margin of profit to the dealer. The newer stockholders learned from their talks with the older ones how valuable the co-operative idea had been because it eliminated the middleman; how during the past eight years business had increased largely be-

cause the purchasers had confidence in Rexall remedies, and this allowed the company—the largest organization of its kind in the world—to buy its drugs in such wholesale quantities as to permit a great saving, with the natural result that the quality was always bound to be excellent. A large number of the stockholders, having been in business for many years, were able to speak words of wisdom from experience, and their opinions, realizing that this is an age of progressive ideas and young, fresh minds contain many kernels of value. Naturally every stockholder derived much benefit from the business sessions, all of which were attended by practically every one.

President L. K. Liggett and others put themselves to great expense and effort to entertain the visitors. Sight-seeing motor tours were arranged, by which the visitors were taken to all points of interest in this historic city. One of the features most enjoyed was an airship flight by Chas. F. Willard, in a Curtiss biplane. The delegates were fed and they gathered at the United Drug company's laboratories, where a buffet luncheon was served. Then followed an inspection of the laboratories. This proved very interesting, for an exhibition of how various articles that have made the name Rexall famous are manufactured was demonstrated by the experts. The visitors got some idea of the immense plant occupied by their company, which covers six acres of floor space and gives employment to about 1,000 people. A visit was also made to the plant where chocolates are made, and it was seen that everything pertaining to sanitary conditions was in evidence in turning out the high grade Liggett and Fenwick confections. This plant employs several hundred people, too.

The meeting closed with the annual banquet, which was made, and it was seen that everything pertaining to sanitary conditions was in evidence in turning out the high grade Liggett and Fenwick confections. This plant employs several hundred people, too.

THREE OF THE AERIAL CREWS ARE MISSING

No Word Concerning Their Present Whereabouts Has Come from the Pilots and Aides of the Big Balloons Azurea, Dusseldorf II and America II.

There Is Fear the Men Are Lost in the Wilds of Canada or Perhaps Have Alighted in Georgian Bay, and Plans Are Made to Send Out Relief Expeditions.

Mattawa, Ont., Oct. 21.—Colonel Schaeck, pilot of the balloon Helvetia, arrived here tonight. He landed at Saint Paude, Temiskaming, at 7 o'clock Wednesday morning, on the outskirts of civilization.

Quebec, Oct. 21.—Word was received here tonight from one of the aeronauts that the balloon Germania landed at Cocococash, 170 miles north of here, Wednesday morning. The town mentioned is approximately 1,195 miles from St. Louis, Mo., which probably means that all world's records are broken. Captain Hugo Von Abercorn was the pilot.

Three Balloons Missing.

St. Louis, Oct. 21.—Relief expeditions to search for the pilots and aides of three balloons—the Azurea, Dusseldorf II and America II—which started in the international race here last Monday, and who apparently have been lost, will be started from Toronto, Ontario, Sunday, if no news is received from the men before that time. This announcement was made tonight by the officials of the Aero club of St. Louis. It is believed the men have landed in the wilds of Canada, where they might starve unless rescue is given soon.

The Aero club has called upon the government to have the revenue cutters patrolling the Great Lakes look for wreckage on Lake Huron. Vessels plying Lake Huron and Georgian Bay have been requested to join the search. The Ontario government tonight notified the club that its service would be rendered in the search. The Hudson Bay company also has replied favorably to the quest.

All the balloons should have been down and reported by Wednesday night or Thursday morning. It is pointed out that the greatest danger is in the case of the balloons having descended in Georgian Bay. This stretch of water contains more than thirty thousand islands where the aeronauts might perish before relief arrived.

The last balloon to land, so far as known, was the Helvetia, piloted by Colonel Schaeck. It alighted in Pointe county, Quebec, Wednesday. So far the balloon reported to have passed over Kiskiskin, Quebec, is believed to have gone the greatest distance—about 1,190 or 1,200 miles, breaking all records made in competition. The balloon yesterday was supposed to be the Germania. Its identity now is a mystery.

GOVERNMENT OF PORTUGAL ABOLISHES EMERGENCY LAWS.

Lisbon, Oct. 21.—Decreets were published today abolishing the exceptional laws put in force with the advent of the republic, including those concerning anarchists and those restraining the newspapers from publishing "undesirable" news. All the bishops and the higher members of the clergy have announced their adherence to the republic. The soldiers who fought in the revolution have been granted four months' leave of absence, with pay. The minister of the interior has declined to introduce a number of measures favored by the socialist party, which has promised support to the government.

Berlin, Oct. 21.—Great Britain has proposed that all the powers recognize the republic of Portugal at the same time. Germany today replied, approving the suggestion.

J. P. MORGAN GIVES \$100,000 TO CHURCH UNITY FUND.

Cincinnati, Oct. 21.—A gift of \$100,000 to the campaign fund for the world's conference on church unity by J. P. Morgan served as a fitting climax today to the convention of the Protestant Episcopal church. Mr. Morgan was named as treasurer of the movement to raise the funds required to bring about what is hoped to be the greatest world's conference of Christian churches ever planned.

SPAIN BALKS AT REMOVAL OF A FAMOUS STAIRCASE.

Madrid, Oct. 21.—The government is taking steps to prevent the removal to the United States of the famous staircase in the ancient Casa De Miranda at Burgos. The staircase is a beautiful example of Renaissance architecture. It was announced that J. Pierpont Morgan had purchased it.

PRINCE FRANCIS OF TECK REPORTED ON HIS DEATHBED.

London, Saturday, Oct. 22, 4:55 a. m.—A bulletin just issued states that the condition of Prince Francis of Teck, brother of Queen Mary, has become extremely critical during the last hour. He is ill with pleurisy and had recently undergone two operations.

NOBEL PRIZE GOES TO A GERMAN PHYSICIAN.

Stockholm, Oct. 21.—The Nobel prize for medicine was awarded today to Dr. Albrecht Kossel, professor of physiology at Heidelberg University.

DANVILLE (ILLINOIS) MAN GETS REWARD OF \$5,000.

Hartford, Conn., Oct. 21.—That Everett Bailey of Danville, Ill., is entitled to the reward of \$5,000 offered by the Savings Bank of New Britain for giving the information which led to the capture of William F. Walker, its defaulting treasurer, was decided by Judge Wm. F. Bennett of the superior court here today. At the time of Walker's capture, Bailey was United States consul to Escanada, Mexico, where Walker was captured. He has since retired from the government service. Originally there was one other claimant for the reward—Jose Jiminez, who was chief of police at Escanada. Bailey produced documents in court today which showed that Jiminez had waived all the claims he had to the reward for a consideration of \$200 paid by Bailey.

HOFFMAN HOUSE, NEW YORK, IS THROWN INTO BANKRUPTCY.

New York, Oct. 21.—The Hoffman House, one of New York's most famous hotels, was thrown into bankruptcy by the creditors this afternoon. The Misses Cadagan, sisters of the late James Cadagan, control the hotel, which has been famous as a gathering place for politicians.

262 HEAD OF CATTLE PERISH IN A RAILROAD WRECK.

Calhan, Colo., Oct. 21.—Three men were badly hurt and 262 head of cattle were burned to death today in a collision between a cattle train and a local freight on the Chicago, Rock Island & Pacific railway two miles east of here today.

FISHING SCHOONER HAD NARROW ESCAPE

Equilibrator of Wellman's Airship Missed Hitting the Craft Only by a Few Feet.

Noank, Conn., Oct. 21.—When the auxiliary fishing schooner Ada Bell put in here tonight, the crew told of the narrow escape they had last Sunday of being hit by the equilibrator of Walter Wellman's airship. Captain Harry Christophersen said that they were fishing on the Nantucket shoals during a fog last Sunday morning when a large object appeared which they took to be a heavy bank of fog. As the object approached, they saw something bumping along the top of the water, and the motor was started just in time to get the boat out of the way, the airship passing not thirty feet from them. The captain could make out the members of the airship's crew, but neither his crew nor Wellman's made any effort to speak and the balloon passed by.

Overdue Steamers Limp Into Port.

New York, Oct. 21.—Three belated steamers struggled into port today showing the effects of their battles with the tropical hurricane that recently tore through the southern waters. The Southern Pacific steamer Creole arrived from New Orleans, twenty-six hours behind schedule. The Brazos, of the Matamoros line, came three days late, with windows smashed and deck rails bent and twisted. The Comus, of the Southern Pacific line, from New Orleans, reached here four days late.

HITS JEWELRY TRADE

Automobile Craze Said to Have Decreased Sale of Precious Stones

New York, Oct. 21.—In the Maiden Lane district complaints of a depression in the jewelry business are quite common at present, and the explanation given for it is the "automobile craze" has decreased the demand for articles of personal adornment. The sales of gold and silver watches are reported to be as large, if not larger, than those of last year; but a marked falling off in orders for precious stones, necklaces and brooches is reported. The importers and wholesale dealers in this connection it is interesting to note that recently there have been several failures in the jewelry trade.

A prominent wholesale merchant, discussing the effect of the automobile craze on the jewelry business, said: "Nowadays a woman does not ask her husband to buy her a diamond brooch or a pearl necklace, or an expensive ring, but she asks for an automobile. They all want cars and prefer them to jewelry because a vehicle is more useful and is more conspicuous. Persons who have limited funds to spend on luxuries select the automobile. They say they get more fun out of it and the neighbors are sure to see it, while it is not always convenient to display jewels to residents of the neighborhood. Not only that, but if a Mr. Smith or a Mr. Jones is known to 'side around in an auto, that fact stamps him as a man of wealth.'"

Importers and wholesale dealers of watches say that the increased demand for automobiles has not hurt them quite as much as it has their friends who deal in precious stones and other articles of jewelry. They call attention to the fact that watches are articles of necessity as well as one of luxury, and a person in need of a timepiece usually buys one, while when it comes to rings and jewels more cash is required and purchasers are not as common.

It was recalled by some dealers that when bicycles were stylish, the sales of watches decreased because parents who are accustomed to present watches to their sons as birthday gifts at that time bought bicycles instead.

NEW MEXICO LAYS CLAIM TO A PORTION OF TEXAS.

Santa Fe, N. M., Oct. 21.—The committee on boundary of the New Mexico constitutional convention today decided to report that the 103rd meridian is the true historical boundary between New Mexico and Texas. This would give New Mexico two hundred square miles now a part of Texas.

BASEBALL FANS IN WINDY CITY GET NEW HOPE

Because Fourth Game of World's Series Is Postponed on Account of Rain, They Hail It as a Good Omen—Think It Will Break Chicago's Hoodoo.

Wet Weather Is Indicated for Today, Also—Pennant at New York Is Won by the Giants—Big League Attendance This Year Has Broken All Records.

Chicago, Oct. 21.—Wet grounds and a drizzling, intermittent rain caused the postponement of today's game of the world's baseball championship series between the Philadelphia American and Chicago National league clubs. There is much doubt that it will be possible to play the contest tomorrow, the weather bureau having issued a bulletin tonight, predicting rain Saturday also. The partisans of the Chicago team are generally hailing today's postponement as a good omen. Many declared that the break in the series of games will prove a charm that they think will break Chicago's hoodoo.

Point to Boston Precedent. The followers of the Chicago team tonight recalled a precedent for the present situation by relating the experience of the Boston club a number of years ago, when Boston had lost three games of the world's series and then turned the tables by winning the succeeding four games and the championship. But despite the apparent hopefulness of the local men, there is little betting. The odds today fluctuated about the ten to one mark, with Philadelphia the favorite.

Chance Deluged With Advice.

Captain Chance of the Chicago team was besieged during the day by Cub fans who desired to offer suggestions and support. He received more than two hundred letters by mail during the day, each one giving advice and suggesting changes in the lineup of the local team. A number of the supporters desired to hold a mass meeting downtown, at which they desired the presence of the entire Chicago team. Chance met many of the men, but was forced to refuse admittance to hundreds of others.

A Suicide at Philadelphia.

Philadelphia, Oct. 21.—Excitement over the world's series between Chicago and Philadelphia, it is said, was the cause of the suicide tonight of Frank Ayers, aged fifteen. Young Ayers was a delinquent boy in a department store, and when he was refused permission to absent himself to see the game here Monday the boy gave up his position. The parents did not learn that the lad had quit work until this evening, and when they were informed that he was in the position of a young man, they went to his supper. Later the mother found her son hanging to a balustrade, dead. He had used a bed sheet for a noose.

Giants Win Manhattan Title.

New York, Oct. 21.—With Mathewson in the box, the New York National league team won the 1910 baseball championship of Manhattan by defeating the American league team today, thereby taking four out of the seven games played. Doyle's home run in the third, with men on bases, was the feature.

Year's Attendance a Record Breaker.

New York, Oct. 21.—Statistics given out today show that the attendance at the baseball games of the two big leagues this year has broken all previous records, the total for both being 9,105,304, compared with 7,978,108 last season. In the National league Chicago shows the largest attendance—980,420—New York following with 937,640. In the American, New York leads, with 620,114; Philadelphia is second, with 520,180, and Chicago third, with 510,200. In the matter of salaries the Chicago Nationals lead, with a total of \$120,000, New York following with \$25,000 less. The highest salary total in the American league was that paid at Detroit—\$75,000. New York and Boston each paid \$70,000, while Chicago is fifth, with \$60,000. Boston paid the lowest total in the National league—\$45,000—while the foot of the list in the American league is held by Washington, its total being \$48,000.

WRIGHTS BUILD NEW RACER.

New Biplane Said to Have Shown Speed of 80 Miles an Hour.

St. Louis, Oct. 21.—Despite the efforts of the Wrights to keep secret until the international aviation meet in New York the details of the new Wright racing biplane, it was learned here today from a man who had been in Dayton, O., recently, that it had been tested and showed a speed of eighty miles an hour. It is described as being similar in general lines to the biplane flown at the St. Louis meet, without front elevators, but much smaller. It measures twenty-eight feet from tip to tip, and the main supporting surfaces are much narrower than usual. They are placed so close together that there is barely room for

the operator to sit between them. It has an eight-cylinder water-cooled motor of about 70-horsepower; which drives two propellers at higher speed than on the present biplane. The control is practically the same as on the slower machines.

Two of these racers are now in the Wright factory at Dayton, it is reported, and they will probably be driven at the Belmont Park meet by Arch Hoxsey and Walter Brookings.

The Weather

Washington, Oct. 22.—The following is the weather bureau's forecast for Upper Michigan: Partly cloudy and cooler, Saturday, with rain in the east; Sunday, fair and warmer; brisk north-west winds.

SAYS COUNTESS FELL DOWN STAIRS

Nothing Mysterious About the Accident to His Daughter, Declares M. H. Kilgallen.

Chicago, Oct. 21.—M. H. Kilgallen, a wealthy real estate man, tonight issued a statement regarding the injury at his residence of his daughter, Countess Irma de Buefort, who is at a hospital suffering with a compound fracture of the left wrist, a broken knee cap and other injuries. He said: "There is nothing mysterious about the accident. My daughter was hurt Thursday afternoon at my home. She was on the third floor and was going down to the second, when she stepped on a small rug on the landing between the floors. The rug slipped, and in trying to regain her footing she fell over a small railing down to the first floor hall. My wife saw the accident, as did the countess' husband. They were not near enough to save her. It was a miracle that she was not more dangerously hurt."

LOS ANGELES POLICE WANT ONLY THE DYNAMITERS NOW.

Los Angeles, Oct. 21.—"The evidence in the Times dynamiting case is complete. All that remains is to arrest the men who did it." Attorney Earl Rogers, in charge of the investigation of the dynamiting of the Los Angeles Times building Oct. 1, made this announcement tonight, following an interview with Mrs. Belle Lavin of San Francisco, the lodging house keeper now in jail here on a charge of murder. "How about catching the guilty persons?" Mr. Rogers was asked. "It's almost sure as death," he replied. "When we get them we will have a case that the cleverest lawyer in the world could not break down."

KETCHER'S ALLEGED SLAYERS SECURE CHANGE OF VENUE.

Marshfield, Mo., Oct. 21.—Walter A. Dipple and Mrs. Goldie Smith, charged with the murder of Stanley Ketchel, today secured a change of venue. The hearing probably will be held next Friday.

DR. CRIPPEN'S FATE WILL BE KNOWN TODAY

Trial Will End This Morning and Verdict Is Expected Before Nightfall.

London, Oct. 21.—Dr. Crippen's cross-examination was conducted today. He said that he had not seen his wife since Feb. 1. He could not prove that she left the house alive, but supposed she had gone to Chicago. He found his wife missing when he returned home in the evening, but had made no inquiries as to her whereabouts. He admitted that Miss Leneve had slept in the house the night of Feb. 2, within twenty-four hours after his wife had disappeared. It was at his suggestion, he admitted, that she had disguised herself and sailed for London with him. The defense rested with the summing-up address of Counsel Tolin. The prosecution will close tomorrow morning, after which the case will go to the jury. The verdict is expected tomorrow afternoon.

MUSIC BOX FOILS BURGLARS.

Plays as Letter Seize It and They Flee, Leaving Silverware.

New York, Oct. 21.—After packing up about \$350 worth of silver ware in the dining room of Frank J. Leavy's home on De Witt street, Corona, before day-light, two burglars went nosing through the parlor. They came to a music box. Apparently, they took it for a jewel box, for they tried it open. The operation started the music. The music woke Mr. Leavy, and he bounded out of bed, because he knew he had locked the box before he went upstairs. The burglars fled through the porch window by which they had entered. Mr. Leavy found all his silver ware on the dining room floor, made up into four bundles.

UNIVERSITY HEAD ENTERS THE GOVERNMENT SERVICE.

Washington, Oct. 21.—Dr. Kendrick C. Babcock, president of the University of Arizona, today was appointed a specialist in higher education in the United States bureau of education. The appointment is in line with the policy of the present commissioner of the bureau of paying specialists to study various phases of education. The salary is \$3,000. The appointee is a graduate of the Harvard and Minnesota universities.

MR. ROOSEVELT PAYS VISIT TO BOSTON, MASS

His Reception Is Enthusiastic—He Speaks in Behalf of Henry Cabot Lodge and Says the Defeat of the Senator Would Be a Calamity to the Nation.

Ex-Governor Curtis Guild of Massachusetts Is a Campaign Orator at Port Huron—He Upholds the "Insurgency" and Extolls Nominee Chase S. Osborn.

Boston, Oct. 21.—Declaring that it would be a calamity to the nation if Senator Lodge should fall of reelection, Theodore Roosevelt spoke here tonight in behalf of the Republican party of Massachusetts. He said that the senator was a friend of the progressive legislation, and that there was no difference of opinion as to the basic principle of protection, as the Republican party stood solidly on the tariff commission plan as contained in the last national platform.

The colonel made no reference to the Payne-Allen tariff bill, containing his remarks to an endorsement of the tariff plank of the Republican state platform and the tariff board scheme. He said that he was advocating the same principles in his speech that he had advocated in all his speeches during the summer, from the Rocky Mountains to the Eastern seaboard.

Mr. Roosevelt's reception in Boston was enthusiastic. Taking up the Massachusetts situation, the colonel assailed Eugene Foss, the Democratic candidate for governor. "It would be a bad thing for the people of this state to elect a man who trying to dominate one party and having failed now seeks to dominate another party," he declared.

Curtis Guild at Port Huron.

Port Huron, Mich., Oct. 21.—If the voters of Michigan want a governor who will be to Michigan what Governor Hughes has been to New York, they will vote for Chase S. Osborn of Sault Ste. Marie. Ex-Governor Curtis Guild, of Massachusetts, voicing the doctrines of insurgency at a big Republican meeting here tonight, made this statement and was greeted with as much real applause as any politician has received in this city in months. He said that the Soo man stood for the highest ideals in everything, and he declared that the choice of the Republicans at the recent primary should be the choice of the people of Michigan for governor.

Eliminating this occasional reference to Osborn, the speaker's remarks were those of one who stands as a strong progressive. He said that "life and liberty" had been given to the people of the United States by Washington and Lincoln, and that the United States of tomorrow should give to the people of the United States the right to enjoy the "pursuit of happiness." He advanced the theory that one law should govern all of the states, not only in the control of monopolies, but in the regulation of divorce, child labor and other matters of equal importance. The meeting was in charge of ex-governor John T. Rich. The first speaker was Senator Charles C. Simons, of Detroit, who spoke on state affairs, telling also of the records of the Republican and Democratic candidates for governor in Michigan and why the people should vote for the Soo candidate. Despite a pouring rain the attendance at the meeting was large.

Osborn and Codd at Ithaca.

Ithaca, Mich., Oct. 21.—Speaking here tonight, the speaker said that the large proportions despite the inclement weather that prevailed, Chase S. Osborn, Republican candidate for governor, and ex-Mayor George Codd, of Detroit, opened the campaign in Gratiot county. The candidate confined himself to a general and fair discussion of the campaign issues and referred in a kindly manner to the general campaign mistakes that have been made not only by Lawton T. Hemans, the Democratic candidate, but the Democratic party generally.

Mr. Codd continued his attack upon Mr. Hemans, his public record and his general campaigning methods. After recalling his several charges against the Democratic candidate and explaining each, he said: "As a member of the constitutional convention, Mr. Hemans voted against giving the state legislature the power to regulate the conditions surrounding women and children working for wages."

EIGHT JURORS ACCEPTED IN SPRINGFIELD BRIBERY CASE.

Springfield, Ill., Oct. 21.—At the close of the third day of the trial of Senator Stanton C. Pemberton of Oakland and Representative Joseph C. Clark of Vandalia, charged with bribery, eight jurors had been accepted by both the state and the defense. The first venire of fifty was exhausted today and an other venire was ordered to report forthwith.

ILLINOIS SPEAKERS DENOUNCE JACKPOTTERS AND YELLOW PRESS

Springfield, Ill., Oct. 21.—Governor Deneen's denunciation in bitter terms of the "jackpotters" at the last session of the legislature and the attack of Chief Justice Vickers, of the Illinois supreme court, on yellow journals were the features of a banquet given here this evening to the members of the Southern Illinois Editorial association. The governor said that the credit for driving corrupt politicians from the legislature is

LABOR LEADERS PROPOSE A NEW POLITICAL PARTY.

Rock Island, Ill., Oct. 21.—The Illinois Federation of Labor this afternoon passed a resolution presented by President John H. Walker, of the Illinois Miners, looking to a referendum vote of the workers in this and other states upon the question of forming a new political organization for the working classes, including farmers. President Edwin R. Wright, of Chicago, was re-elected, as were all the other officers. The next meeting will be at Springfield and will be a joint one, the Illinois, Indiana, Iowa, Missouri and Michigan state federations participating.

MILWAUKEE COURT'S RULING PUTS DEMOCRATS ON BALLOT.

Milwaukee, Oct. 21.—Under a ruling made late this afternoon in circuit court by Judge Ludwig, every candidate on the Democratic county ticket will be placed on the official ballot. The court rules that a Democratic ballot deposited by a voter, whether marked or not, must be counted for the Democratic candidate, it being the intention of the voter, in the opinion of the court, to vote the Democratic ticket. If the ruling holds good, it may affect Democratic candidates throughout the state.

MEMORIAL SERVICE TO BE HELD IN DOLLIVER'S HONOR.

Washington, Oct. 21.—A memorial meeting in honor of the late Senator Dolliver will be held in the Foundry Methodist Episcopal church here Sunday afternoon. Addresses will be made by a number of Iowans, including Justice Harlan of the supreme court of the United States, Secretary of Agriculture Wilson and Wm. S. Kenyon, assistant attorney general.

STOCK SPECULATION RECEIVES A CHECK

Obstacles Are Encountered and the Upward Swing of Prices Is Halted.

New York, Oct. 21.—The advance in stocks, which was pushed with vigor during the earlier portion of the session today, encountered obstacles later which resulted in a hesitating and irregular tone. The retrograde movement left the final prices lower than at yesterday's close. How far the halt in speculation may have been due to misgivings over the money position did not appear in any action of the money market. The advance in wheat, however, was a notable exception, indicating a depletion of resources. The call loan rate was unaffected and the tone in the time money market itself was somewhat easier. Estimates of the week's currency movement, however, indicated another substantial impairment in the holdings of the treasury, due to the demand from the interior. The change in the speculative sentiment is due partly to the succession of the new forces which had taken up the market leadership and whose powers and resources are not so much relied on as those of the market leaders. The initiative in the present upward movement. The pronounced pressure which developed against the copper industries gave color to the supposition of a change in the market sentiment between great financial groups. The decline in copper took place notwithstanding the advance in wheat. London price of the metal and which was accompanied by a corresponding advance in the price of copper securities in that market. Reports of labor troubles on the Missouri Pacific hurt that stock.

All the Grains Close Lower.

Chicago, Oct. 21.—With the harvest in Argentina not three weeks off, and with the exportable surplus in the country estimated by one authority this afternoon at 140,000,000 bushels, the wheat market today fell a prey to short sellers. The closing prices were 1/2 to 3/4% lower. The shorts acted with considerable caution and many covered on the weak spots. With the exception that the primary receipts were light, the bulk of the day's news was depressing. The cash demand was slim and the reports of large flour sales in the Southwest were denied. In the advance wheat states, rains were affording relief. As for spring wheat, Minneapolis reported that the stocks there had increased this week about as fast as at the corresponding time a year ago. The foreign advices gave the bulls no help. The weakness of corn also affected the market. The December opened at 94 1/4 to 94 1/2 and closed at 93 1/2.

Corn closed 3/4 to 1/2% down. Many offers of low-priced new corn for ten to thirty days' shipments pulled down the quotations. The December opened at 17 1/2 and closed at 16 1/2. Oats closed 1/2 to 3/4% lower. Local speculators hammered the market, backing away only when wheat showed strength. The December opened at 31 1/4 to 31 1/2 and closed at 30 1/2.

CHINA TO USE ENGLISH

Soon Will Be Officially Recognized, Says British Instructor.

New York, Oct. 21.—The English language is being taught in the schools of China, and before long it will be recognized as official," said Captain Joseph Heugh of the English navy. He is stationed in Peking teaching Chinese sailors how to handle a battleship. Heugh, who was wounded in the Benin massacre in South Africa in 1893, arrived in the Philadelphia from Cherbourg recently. "The edict calling for the teaching of the English language was issued by the court just before I left Peking a month ago," said Captain Heugh. "That the court writings will be in the same language soon seems certain."

EDGAR A. POE GETS INTO THE HALL OF FAME

Years of Effort on the Part of Staunch Supporters of the Author of "The Raven" and Other Melancholy Works Are at Last Attended With Success.

Even More Than the Required Number of Votes Are Finally Polled, and the Name of the Poet Will Now Adorn a Tablet at New York University.

New York, Oct. 21.—Edgar Allan Poe is at last in the Hall of Fame. Years of effort on the part of staunch supporters to get his name added to the list were rewarded today by the announcement of Dr. John H. MacCracken, chairman of the senate of New York University, that the author of "The Raven," with ten others, had been accorded the honor.

The eleven names added are: Harriet Beecher Stowe, 74 votes; Oliver Wendell Holmes and Edgar Allan Poe, 69 each; Roger Williams, 64; James Fenimore Cooper, 62; Phillips Brooks, 60; William Cullen Bryant, 59; Frances E. Willard, 56; Andrew Jackson and George Bancroft, 53 votes each, and John Lathrop Motley, 51. The total number of ballots cast was 97, and the number required for a choice was 51.

Poe's vote jumped from 42 in 1905 to 69. An analysis of the votes shows that twenty-one were cast by college presidents, seventeen by professors of history and scientists, eighteen by publicists, editors and authors, and thirteen by jurists. Contrary to the general impression, the memory of the melancholy poet is as famous in the West as in the South. Of the votes, however, since the last election his fame has increased more among college presidents than among any of the other groups.

As a result of today's election the authors' corner doubles its population and goes far ahead of the statesmen in number. Eleven bronze tablets for the names will be designed, with an appropriate quotation from the works of each, and the formal unveiling will take place in October, 1911, in the Hall of Fame at New York University.

MISSOURI PACIFIC SHOPMEN QUIT ALL ALONG THE LINE.

St. Louis, Oct. 21.—Simultaneously with the walking out of the boiler makers, pipeworkers and blacksmiths on the Missouri Pacific and Iron Mountain systems today, in sympathy with the 1,200 striking machinists, the companies received here three carloads of men to fill the vacancies. The men are said to be from Chicago. The walkout of the mechanical workers was general along the entire line of the road. The president of the unions maintain that 2,500 men have quit. The union men in the mechanical departments of the other Gould roads may be called out if the trouble is not settled within a reasonable time.

ARTHUR HEINZE'S ATTORNEY DEBARRED FOR A YEAR.

New York, Oct. 21.—Sanford L. Robinson, who as attorney for Arthur P. Heinze, brother of F. Augustus Heinze, was charged in the United States circuit court with resisting and opposing the United States marshal in attempting to serve a subpoena, for which he was sentenced to pay fine of \$500, was ordered today to be suspended from the practice of law for one year by the appellate division of the supreme court. The litigation in the Heinze case had to do with the affairs of the United Copper company.

PANAMA LABEL SUIT POSTPONED UNTIL MONDAY.

Washington, Oct. 21.—When the so-called "Panama label suit" of the United States against the Press Publishing company, of New York, was called for argument today in the supreme court of the United States, the attorneys concerned obtained a postponement until Monday. The case was not reached until so late that the argument could not be completed today.

SAVED BY CANARY'S SONG.

Stamford, Ct., Oct. 21.—A canary's death song saved the life of Mr. and Mrs. Frank Elero here. Soon after midnight its last weak and quivering notes were but loud enough to waken Mr. Elero. He sprang up with a sense of suffocation and nausea. He was nearly overcome and fell, but regained his feet with an effort and threw open a window. The canary, whose song had saved Elero, lay on its back in a cage near the range. The room was full of gas, which had been given off by the coal fire.

While spruce remains by far the most popular pulp-making wood, there has been a gradual decline in consumption; the percentage being 80.5 in 1909; 64.5 in 1908, and 69.1 in 1907. This decrease is attributed to the increase in the price of spruce, which amounted to more than \$1 a cord from 1907 to 1909. There also has been an improved demand for white fir, which has been found to be a very excellent pulp wood. As much of this timber is found in the national forests, the prediction is made its use will prove of material benefit to the forestry service.

DAILY MINING JOURNAL
A MORNING PAPER PUBLISHED BY
THE MINING JOURNAL CO. (LIMITED.)

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES:
Per year, by mail, \$6.00

Entered as second matter of the second class in the postoffice at Marquette, Mich., March 11, 1908.

MARQUETTE, MICH., OCT. 22.

Michigan has 17,000 club women in 215 organizations. How many suffragettes, please?

The New York campaign has settled down to a steady tug of war for the votes. Its spectacular features seem to have come to their end.

Those Cubs used to be classy baseball players, when they were young. But, he it politics or baseball, 1910 appears to be a bad ear for the old 'uns.

It is, of course, not escaping notice that Mr. Hemans is not "pointing with pride" to the last Democratic administration in Michigan. He confines his activities on the stump to "viewing with alarm."

Rain, merciful rain, gave the Cubs a respite from their sufferings yesterday. At that, it did not come soon enough. The Cubs wanted it in the second half of the third innings Thursday afternoon.

And to think that only a few days ago, days of the standard twenty-four hours, we were all pointing to the Peerless Leader's Cubs as the last word in the twentieth century's aspirations toward a perfect baseball machine.

Negaunee has withdrawn from the Marquette county high school football league. That's one way of getting out of the path of that all-devouring Ishpeming eleven. At last reports Marquette intended to stand to its guns and take its medicine.

The copper country, having enjoyed Schumann-Heink and Melba, is now reaching out for the St. Paul Symphony orchestra. The next thing we know the copper country will be establishing a school for instruction in the correct eastern accent.

Emphatic denials to the story that \$500,000 was raised to defeat Governor Hughes' anti-race track gambling bills have come in so fast that the legislative investigating committee has been hard pressed to keep track of them.

Really, any unbiased observer must admit that, considering the opportunities he has had, Lawton T. Hemans signally failed to start anything along the line of the reforms that are so dear to his heart whenever he is made his party's nominee for governor.

The would-be suicide who, when Captain Chance accepted his proffered hand, deftly slipped a lemon into the sturdy paw of the Peerless Leader was foiled of his purpose, being allowed to escape alive. Some people have most trying times getting out of this world.

Count Zeppelin, who is credited with knowing more about dirigibles than any other man who has ever experimented with the cranky craft, never ventures out over the ocean. On the contrary, he is very careful to pick out a nice, soft forest to fall into.

In Utica, N. Y., the Republican and Democratic committees have reached an agreement not to bid against one another for the estimated purchasable vote of 2,000, and to confine the outlay in the campaign to \$30 to a precinct. Surely the world is moving on.

It's one of the anomalies of present day politics that Illinois, one of the states where the Republicans best deserve a sound thrashing, is held to be absolutely safe for the G. O. P. The Democrats are the reason. Their record in the last legislature was one that should debar them from power in the state for years and years to come.

If the western cities that stuffed the census could have foreseen that they would be immediately caught with the goods and exposed, they would no doubt have insisted on a fair count. Now the wind has not only been let out of their inflated figures, but they have had the unpleasant experience of being spanked by the president, with the whole country looking on.

Success magazine, by a vote of some 15,000 life subscribers, has gathered data on which it makes the prediction that the next congress will be Republican by the slender margin of three votes. Among the doubtful districts it gives a place to the First Michigan district, where Representative Denby and Frank Doremus are the rival candidates. All the other Michigan districts it regards as safely Republican. The figures given

Tel. 554-L.

by the magazine indicate, as every other test of the situation has, that the contest for control of the house is very close indeed, and that the majority for either party will be a slender one. It is a marked commentary on present-day political conditions that the Democrats are hopeful of winning the house in the east, in states and in districts that have not yet fallen in step with the progressive movement. The hope of the Republicans largely lies in the fact that they have had large working majorities in many of these now endangered districts and that while the Democrats may gain heavily in votes they may be unable completely to overturn the normal Republican majorities. The Democrats have little or no hope of making gains in the frankly progressive states of the middle west. In these states the masses of the voters are rallying strongly to the support of the progressive candidates.

The "just plain balloons" launched from St. Louis in the long distance race traveled farther than Mr. Wellman's dirigible, and also traveled with about as much sense of direction as that ill-fated craft. It should be remembered, however, that these "just plain balloons" did not have the handicap of an equilibrator composed of cans of gasoline.

As The Mining Journal predicted would be the case, Mr. Hemans has found that this year he is up against an entirely different kind of a candidate than he had to contend against in 1908. Governor Warner is not a vigorous fighter. It has been his apparent willingness to take hard blows without responding in kind that has encouraged his newspaper enemies in Detroit to assail him in and out of season and that in 1908 permitted Mr. Hemans to conduct a vigorous campaign against him without having to take any hard cracks in return. But Mr. Osborn doesn't turn the other cheek when he gets a jolt from an enemy. He counters, and usually lands in a manner that jars the self-complacency out of his assailant. Thus it is in the pending campaign. He is taking advantage of all the weak points in the armor of political righteousness in which Mr. Hemans has clad himself for his appearance before the voters of the state, and is cleverly showing that Mr. Hemans, when he had the power to do something of definite purpose, had no thought for the reforms he now urges as salutary, or for the correction of the had conditions which he complains have been tolerated by the Republicans these many years. Mr. Hemans had hoped to put Mr. Osborn on the defensive and to keep him busy answering charges and allegations. But it hasn't turned out that way. It is Mr. Hemans who is busy answering Mr. Osborn. He has given up considerable parts of all his recent addresses to an attempted refutation of the points Mr. Osborn has cleverly scored against him. Mr. Hemans finds Mr. Osborn a worthy political foe, one whom he can't run over. It is something of a new experience for him.

UGHT TO HAVE SMITH.

One result of the short campaign a going to be the comparative neglect of the upper peninsula by the state central committee. It was announced some days ago that Senator Smith would visit the principal cities in this region, but now comes the information that the senator will spend his time below the straits. This means that the upper peninsula will not have an opportunity of hearing either of the three men—Ouse S. Osborn, Representative Townsend and Senator Smith—now most prominent before the public in Michigan.

The Mining Journal has no doubt that the state central committee is making the best arrangements within its power for the campaign. The demand for the strongest speakers and the limited time for the campaign create a situation most difficult to meet satisfactorily. The Mining Journal regrets, however, that the original plan of sending Senator Smith to this part of the state has been altered. Sentiment up here is strongly for the Republican ticket. Mr. Hemans' inroads have not been at all serious. The Republicans promise to poll their full proportion of the vote. The particular trouble in this region is a state of comparative apathy. There are few local lights to stir the voters. The Republican candidates for county offices do not regard their opposition as serious. Representative Young is not at all afraid of his Democratic opponent. The general assumption among Republican electors that the state ticket will be elected by substantial majorities does not make for the live interest in the campaign that should be manifested at this stage.

The situation demands a tour of the upper peninsula by some man like Senator Smith who will arouse a genuine interest in the forthcoming election and stir the voters out of their lethargy. Lacking it, and it now seems that we are not to be visited by any of the really big fish in the political pond, it is to be feared that the vote polled in the upper peninsula will not be as large as it should be. The primary vote in this region, it will be recalled, fell far below what might naturally have been expected, considering that an upper peninsula man was aspirant for the nomination for governor. All signs indicate that the upper peninsula voter is apathetic about politics this year, and people who would like to see a smashing majority for the state ticket piled up at the straits will be regretful that he isn't to be prodded from his slumber by the vigorous admonitions of either one of the "big three."

The things the candidates are saying these days about the Detroit United railway must make that corporation's ears ring like fare registers.—Detroit Journal.

NOTICED BALD SPOT COMING ON HEAD

Interesting Story of Consultation with Dermatologist and Successful Use of Cuticura. Also Case of Severe Itchy Poisoning, Relief of Which by Cuticura was Permanent.

"Nine years ago I noticed a bald spot coming on my head and, as I was only nineteen years old, it did not seem natural, as it was on the side of my head instead of on top. My mother advised my seeing a dermatologist and I did so, one of the best in Boston, and he said it was due to a germ. I must have got it at the barber's. He couldn't assure a cure, but by treating each hair separately by electricity, he said, the hair might come out white or gray, if it came out at all. He proposed giving me a treatment every month for six months at ten dollars a treatment. When I told my mother she advised using Cuticura and this I did, using Cuticura Soap and Ointment every day. In two months my hair commenced to grow, and in six months one would never have known there had been any trouble, the hair coming out being black, the exact shade of my own. I have never had any trouble since, and feel I can't say half enough for Cuticura."

"Another member of our family was terribly poisoned by poison ivy and every summer for six years the blisters came, burning and causing great suffering. We tried everything recommended by the best physicians, but with no good result. Finally we tried Cuticura and obtained relief in a very short time which was permanent. She has never had any trouble since, so Cuticura is invaluable to us, you see. G. J. Browne, 1 Remington St., Dorchester, Mass., Jan. 29, 1910."

This letter is but one of hundreds giving proof of the success of the Cuticura Remedies in treating the skin and scalp. Foster Drug & Chem. Corp., Sole Props., Boston.

A GOOD RESOLUTION.

The Boston & Maine railroad has given up its overlordship of politics in the state of New Hampshire. The state has President Mellen's assurance on this point, for he said this week, regarding the future policy of the road: "We will not interfere in any way with the election of members of the legislature or of other public officers. We shall not give or offer to any public officer, directly or indirectly, any consideration which shall tend to influence him in the performance of his public duty. We shall do away with the lobby in the sense in which it is commonly used. We must, however, employ the ablest talent we can secure to present to the legislature our views upon pending legislation affecting our company."

The railroads all over the country are, like the Boston & Maine, getting out of politics. In some cases, as in New Hampshire, they are withdrawing because they find it expedient to do so. In others, as in California, they hang on until the people kick them out. They were kicked out in Michigan some years ago. Governor Pingree was the pioneer in getting them heavily in his courageous fight for equal taxation. Their influence lingered after him, but they were chastened and comparatively humble. Now they are no longer potent, whereas the day is still remembered when they regarded it as a normal condition to own in fee simple a goodly part of the legislature.

Colonel Roosevelt had much to say lately about the necessity of eliminating the selfish "special interest" as an influence in politics. La Follette long ago attacked this evil in Wisconsin, where for years his battle was waged against a firmly entrenched railroad political machine. Pingree and La Follette were among the pioneers in the fight against the corrupting political influence of the "special interests." Since their day much progress has been made. Many legislatures have been cleaned up. Direct nominations now make it feasible for the people to secure public servants whose first allegiance will be to them.

STATE POLITICS.

William Alden Smith is preparing to get into the campaign with a hurry-up tour of the state the last two weeks before election. His schedule is as follows: Oct. 24, Potoskey; 25th, Boyne City; 26th, Traverse City; 27th, Mt. Pleasant; 28th, Bay City; 29th, Newaygo; 31st, Hillsdale; Nov. 1, Kalamazoo; 2nd, Battle Creek; 3d, Ionia; 4th, Jackson; 5th, Ypsilanti (afternoon), Detroit armory meeting in the evening; 7th, Grand Rapids.

The state central committee has received a practical assurance that Congressman Nicholas J. Longworth, of Cincinnati, son-in-law of Colonel Roosevelt, will be in Detroit for a campaign speech at the Light Guard armory meeting on Oct. 29. Mr. Longworth is being brought here especially to help out Congressman Denby.

Friends of Mr. Denby believe the securing of Mr. Longworth as a campaigner will be a big point gained. They hope that his coming to Detroit will swing some disgruntled Roosevelt Republicans back in the Denby columns.

News that Mr. Longworth may come to Detroit has caused activity in the Democratic camp also. The local leaders are finding a hard task in persuading the national Democratic committee that Michigan is a debatable ground. For so many years it has been practically solidly Republican that the committee chiefs are said to prefer to spend their oratory on less workshod territory. A half promise has been secured, however, that Governor Marshall, of Indiana, will be swung into the first district to help Frank E. Doremus and they hope at least one other of the national figures of the minority can be gotten to visit Detroit before Nov. 8.

Never before in the history of Michigan's political affairs has there been such earnest and cordial co-operation on the part of the newspaper writers with the Republican candidates. The local leaders witness the last Illinois legislature—but the warfare against them has been at no time more unrelenting than it is at this hour, and the day is at hand when the legislative scandal will no longer be cropping up at frequent intervals, under black headlines, on the front pages of our newspapers, and when "special interests" can get from legislatures only what the are fairly entitled to, and not a jot more at any price.

A LAUGH OR TWO.

A Happy Optimist.

Mayor William S. Jordan, at a Democratic banquet in Jacksonville, said about optimism: "Let us cultivate optimism and hopefulness. There is nothing like it. The optimistic man can see a bright side to everything. "A missionary in a slum once laid his hand on a man's shoulder and said: "Friend, do you hear the solemn ticking of that clock? Tick, tick, tick. And O, friend, do you know what day it inexorably and relentlessly brings nearer?" "Yes, pay day," the other, an honest, optimistic working man, replied."

Fair Exchange.

The military manoeuvres. All afternoon the attackers had attacked, and the defenders, in command, with conspicuous lack of incident or bravery. Operations were beginning to drag horribly, when the white flag went up.

The officer in command of the attackers stared in amazement.

"A flag of truce!" he exclaimed. "What do they want?"

The senior major endeavored to cover up a smile.

"They say, sir," he reported, "that, as it's tea time, they'd like to exchange a couple of privates for a can of condensed milk—if you can afford it!"—Answers.

Tit For Tat.

A clergyman who enjoyed the substantial benefits of a fine farm was slightly taken down, on one occasion by his Irish plowman, who was sitting on

THE STATE PRESS.

A man has been found on a ranch in Oregon measuring seven feet and eleven inches in height. Though only a sheep herder, he stands high in the community.—Flint Journal.

Not every man can make congress behave, but every man can make it behave off his lawn.—Battle Creek Enquirer.

Kaiser Wilhelm has declared that the Bible is a good book even if he didn't write it himself.—Detroit Free Press.

Portugal permits the Irish religious organizations to remain. Naturally, the baby religion doesn't want a real fight on its hands just now.—Detroit Journal.

New York society women are going to play with dolls this winter. Maybe some day they will be seen fondling live babies.—Flint Journal.

The safety devices recommended for the railroads will cost \$50,000,000, and the scarcity of accidents thereby will cost the Detroit for a campaign speech at the Light Guard armory meeting on Oct. 29. Mr. Longworth is being brought here especially to help out Congressman Denby.

Friends of Mr. Denby believe the securing of Mr. Longworth as a campaigner will be a big point gained. They hope that his coming to Detroit will swing some disgruntled Roosevelt Republicans back in the Denby columns.

Tit For Tat.

A clergyman who enjoyed the substantial benefits of a fine farm was slightly taken down, on one occasion by his Irish plowman, who was sitting on

his plow in the wheat field. The reverend gentleman, being an economist, said with great seriousness: "John, wouldn't it be a good plan for you to have a pair of pruning shears here and be cutting a few bushes along the fence while the horses are resting a short time?"

John considered a moment and then said: "Look here! Wouldn't it be well, sir, for you to have a tub of potatoes in the pulpit and while they were singing to put 'em a while to be ready for the pot?"—Tit-Bits.

Was Well Paid.

Once upon a time there was an Indian named Big Smoke, employed as a missionary to his fellow Smokes.

A white man, encountering Big Smoke, asked him what he did for a living.

"Umph!" said the Big Smoke, "me preach."

"That so? What do you get for preaching?"

"Me get \$10 a year."

"Well!" said the white man, "that's d—d poor pay."

"Umph!" said Big Smoke, "me d—d poor preacher."—National Monthly.

A LINCOLN RELIC.

Handkerchief That He Carried on Fatal Night Still Preserved.

There was recently exhibited as a leading attraction at a church fair in Philadelphia a large linen handkerchief that has an interesting history. It was in one of Abraham Lincoln's pockets on the night he was shot, and it bears evidence of the president's blood. It is now the property of Mrs. Lucile Earp Moon, of Philadelphia, and The National Geographic says of the story of the relic: "Mrs. Moon inherited it from her maternal grandfather, Isaac Newton. He was one of the leading agricultural authorities in Pennsylvania during the middle of the last century, and when the department of agriculture was instituted as a branch of the national government he was appointed its first commissioner by President Lincoln. "From his large farm, which is now the site of Morton and Rutledge, in Delaware county, he went to Washington, and while the head of the department of agriculture was not then, as now, a member of the cabinet, there soon grew up between this capable

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system.

THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrappers and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine or KNOWN COMPOSITION. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

Quaker farmer and the great president a strong friendship—a bond which led the former to accede to Lincoln's pressing invitation to accompany him to Ford's theatre on the fatal night, despite his religious scruples.

"Newton went, as a mark of respect for his chief, but shortly after the play began he said to the president: "If this will excuse me, I think I will withdraw."

"Within an hour came the shot that shook the world, and when the commissioner of agriculture next saw his friend, it was as a dying man.

"Shortly after the terrible event Mrs. Lincoln gave Mr. Newton a large lock of Lincoln's hair and this handkerchief. "It is of sheer linen, nearly two feet square and of the tape edged sort then so popular and still carried by some men. The two hemmed edges are hand sewn, and in one corner is the name 'A. Lincoln,' worked in tiny square letters of red.

"Time has somewhat yellowed the flax, and the four small spots of blood, which are still plainly visible, are now brown. It has never been laundered since it came into the Newton family."

NOTICE.

A special meeting of the stockholders of the Lake Shore Engine Works is called by the Board of Directors to be held at the office of the undersigned, in the Nestler block, in the City of Marquette, on Wednesday, the 26th day of October, at two o'clock p. m., for the purpose of ratifying the resolution of the Board of Directors adopted October 12th, 1910, and to consider such other business as may come before said meeting.

Dated October 15th, 1910.

Houghton, Mich.

Copper Country COPPER COUNTRY SOIL GOOD ALFALFA GROUND

John Dillon Put in Seed Aug. 30
—Plant Now Well Leaved
Out.

There have been numerous indications recently to show that the climate of the copper country does not harmonize entirely with its latitude. It is natural to expect snowstorms at this time of the year near the great lakes and also it was natural to expect that within recent weeks the vegetation would have taken on the sere and yellow appearance of the days just before winter. But it is not more than a week since wild strawberries were picked in Houghton and garden plants have been putting forth their blooms until within a day or so.

There is also another indication of the semi-tropical nature of the copper country climate. John Dillon of East Houghton has a small field of alfalfa well leaved out in East Houghton, the seed of which was planted Aug. 30. This is a cheerful indication to those who look upon the practical side of the climate. This alfalfa took root and burst from the ground in just the same manner as it would have done had it been planted in the spring. The fact is another argument in favor of the copper country soil as good alfalfa ground.

There have been evidence enough in the past agricultural season to show that alfalfa will be a profitable crop to copper country farmers. Such experts as W. S. Prickett, T. A. Green, James H. Crocker, Eugene Hardie and John C. Mann have demonstrated this. Alfalfa is the most profitable crop which the stock raising farmer can grow, unless it be fodder corn and this he cannot grow for the market. There is every reason to believe that as an alfalfa growing region the copper country will rival the best of Kansas within a few years.

MOHAWK WILL NOT PLAY.

Baseball in Copper Country Is Ended for Season.

The Mohawk baseball team has emphatically announced that it will not play the game with Hurontown as planned by the league committee, that it would not now accept the pennant and that it will withdraw from the league, contending that it is already the rightful champion. This puts copper country baseball to sleep until another season.

It was expected that Mohawk and Hurontown would play Sunday afternoon for the championship, and the league directors had so directed. The Mohawk people maintain that their team is ahead of Hurontown by one full game for the season. The withdrawal of Mohawk from the league may mean the disruption of the organization.

Mohawk people are proud of their baseball team and its record, of their cricket team and its record and of its hockey team and its record. All are keenly interested in their respective sports and to celebrate the fact that the prosperous little Keweenaw county team has the best in copper country athletics the Mohawk people are preparing to hold a big banquet for the three teams.

JOHN E. KRAFFT AND SON.

Veteran Traveling Man Breaking His Son into the Business.

John E. Krafft of Marquette has been making the copper country in the interest of Burnham, Stoepel & Co. of Detroit for something like fifteen years, carrying a general line of drygoods. Mr. Krafft ranks as one of the veterans of the road in this territory and is one of the most popular with his fellow knights of the grip and the trade. That Mr. Krafft actually is a veteran is shown by the fact that his son, Karl Krafft, arrived in Houghton Thursday with his father, carrying a special line for the same house. The younger Mr. Krafft is just breaking into the business under his father's guidance and his own personality, joined with the fact that he is John Krafft's son, should help in making it easy for him.

RETURN FROM EUROPE.

Mrs. Susan Daniell and Daughter Home from Tour of Continent.

Mrs. Susan Daniell and Miss Daniell have returned to Calumet from England, France, Switzerland and other countries of Europe, where they spent several months. Dr. and Mrs. L. A. Farnham will not return for several days. Mrs. Farnham, formerly Miss Edwina Daniell, has been ill. Captain and Mrs. John Daniell did not return from Europe with Mrs. Susan Daniell. They will spend a year in Finland and other European countries. Captain Daniell is superintending the erection of the concentrator and other plants of the Finnish-American Mining company at the Orjari property near Houghton. Captain Daniell is president of the company.

Fresh Air in Winter

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others, and if you open the windows it is hard again to heat the room properly. If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

PERFECTION
SMOKELESS
OIL HEATER
Absolutely smokeless and odorless

The difficulty. You can leave the windows in a room open all day in winter, and when you close them apply a match to a Perfection Oil Heater and heat the room to any temperature you desire in a few minutes. The Perfection Oil Heater is finished in Japan or nickel. It burns for nine hours. It has a cool handle and a damper top. It has an automatic locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be quickly cleaned. An indicator always shows amount of oil in the font.

The filler-cap does not need to be screwed down. It is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot be welded, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking. The Perfection Oil Heater is strong, durable, well made, built for service, yet light and ornamental.

Whether or not the respective merits of two performers on the concertina, known as the sailor's piano, are weighty enough to occasion a division of opinion among musical experts or musical lovers is a matter for later discussion. But the fact is that at the county jail there is a division of opinion on Louis Valerio and Angelo Yotti. Both men are in jail charged with crimes but they still have music in their souls and have their instruments with them.

A volunteer committee consisting of George Carroll, turnkey and high baritone; Fred Rogers, deputy sheriff and old time clog dancer; James J. Byers, sheriff and one who favors the month sherrif; Frank Knoetges, who has a leaning toward a full brass band, and a couple of reporters who like any kind of music prevailed upon Valerio and Yotti to perform yesterday morning in order that judgment might be rendered.

Valerio's instrument is the larger, but seemed to have mechanical defects, which do not detract from its tone but interfere with the execution. It is fitted with a piano keyboard. Yotti's instrument is more on the English model, which is round or octagonal, but is larger than the English instrument made familiar by Joe Cyethora and Knox Wilson, who have been heard by copper country theatergoers at various times.

The committee was divided. Some favored the popular music which Yotti plays. He having selected "By the Light of the Silvery Moon" for his contribution. Others thought that Valerio's selection, the "Gagliano" march, a triumphant and sonorous composition, was the more pleasing and made the greater demand upon the player. But the committee as a whole decided that Valerio has more musical feeling than Yotti. He spent the past summer playing on an excursion boat at Duluth for \$25 a week.

COUNTY AGRICULTURAL SCHOOL.

Matter May Be Brought to Attention of Supervisors.

"The next public institution which the county board of supervisors will be asked to build," said a Houghton man yesterday, "is an agricultural school. I do not think the matter will be broached to the board for some time yet, but it is bound to come up sooner or later." The county agricultural school is the latest Michigan plan for instructing the youth of the state in knowledge of agriculture. The state law permits board of supervisors to build such a school.

Since the movement for a dog show was started dog fanciers have sprung up all over the copper country. It is evident that there are many good dogs in the district and many persons who have made a study of dogs. They all agree that a dog show, which will put on exhibition really good dogs, will have more to do than any other agent with riding the copper country of curs.

DOG SHOW SEEMS SURE.

Believed the Copper Country Poultry Association Will Hold One.

The recent effort to arouse the interest of the Copper Country Poultry association, which annually holds a poultry show in the Amphitrome, in a dog show section seems to be meeting with success. President Stone of the association is to call the annual meeting in a few days and it is virtually assured now that at this meeting it will be decided to admit dogs to the show.

Since the movement for a dog show was started dog fanciers have sprung up all over the copper country. It is evident that there are many good dogs in the district and many persons who have made a study of dogs. They all agree that a dog show, which will put on exhibition really good dogs, will have more to do than any other agent with riding the copper country of curs.

TUBERCULOSIS DISPENSARY.

Houghton County Agricultural Society Doing Good Work.

The Calumet dispensary of the Houghton County Anti-Tuberculosis society has already more than proved its worth and the need for such an institution in the community. Although open but a few weeks, the dispensary has been visited by hundreds of persons, forty-five of them as patients in search of treatment or a diagnosis of their cases. The dispensary, which is open Saturdays, is in charge of Miss Ehler, visiting nurse of the Anti-Tuberculosis society.

Almost all of the patients who have already called at the dispensary have been found to be suffering from tuberculosis in some form or other. Probably every one of these cases can be cured. Probably because of the organization of the Anti-Tuberculosis society, of the establishment of the dispensary and the

excellent work being done by Miss Ehler and others, these forty-five lives will be saved. But they must live up to the rules laid down by the visiting nurse. People suffering with tuberculosis in any form are in danger of being carried away suddenly. They are taught by the Anti-Tuberculosis society and its corps of workers how to care for themselves, are told the proper things to eat, are shown how to breathe and are given the assurance that they can live, can prolong their own lives. It is as much the new hope that helps save them as it is anything else.

Because of the lack of a county sanatorium for the treatment of severe cases, the Anti-Tuberculosis society finds it necessary to treat the Calumet cases at their homes. In the hospital there are but ten beds and these are far too few for the number of applications from cases of absolute need. Even with the same treatment, however, many cases which would have been considered hopeless a very few years ago have been started well on the road to recovery.

GEORGE LOSES SUBJECTS.

Sixteen Forewear Allegiance to English King, for Citizenship.

The names of sixteen applicants for full naturalization were posted yesterday morning by County Clerk Richardson, three being of Canadian birth and the others English. All are British subjects until January, when their papers will be granted, and thus King George loses sixteen subjects in one batch. The application of A. J. Scott, former mayor of Hancock, is included in the list, which follows:

Archibald James Scott, Hancock. A native of Canada; entered at Altenberg, N. Y., in 1849.
Molpise Poisson, Calumet.
Peter Jeffery, Laurium.
Edward Treloar, Laurium.
James Johns, Laurium.
James Rowe, Calumet; here since 1854.
Joseph Odgers, Calumet; here since 1873.

David Morris Myke, Hancock.
Archie Chipman, Calumet.
Edward Hancock, Calumet.
Mathew Barrett, Calumet.
Mayor James of Hancock, president of the Houghton County British-American club, has called a meeting for tomorrow afternoon. It will be held at the Racket town hall. The committee appointed to draw up the constitution and by-laws will make its report and the permanent organization of the club will be effected.

MINING COLLEGE SMOKER.

First Gathering of Year—End of Freshmen-Sophomore Contests.

The first smoker of the year will be held tonight at the Michigan College of Mines gymnasium. The principal event will be a basketball game between teams representing the freshmen and sophomore classes, which will be the series of class contests with which the year usually opens. The sophomores won the rush and the football game this year and expect to make it a clean sweep with the basketball game tonight. The evening to be the program.

REMAINS TO IRON MOUNTAIN.

South Range Youth, Dead at Hospital, Shipped at County Expense.

The remains of Dominic Stata, eighteen years of age, who died at St. Joseph's hospital, Hancock, Thursday, were yesterday shipped to Iron Mountain, where the mother of the deceased resides. The remains were shipped at public expense.

Stata was arrested about a month ago on a charge of burglarizing Goodfellow's store at South Range, being one of a number of youths arrested on similar charges there at that time. About a week ago he was taken down with typhoid fever in jail and was sent to the hospital. He had no money and no friends here and yesterday Sheriff Byers notified Poor Superintendent Stahl of the facts. Mr. Stahl ordered the body shipped to Iron Mountain.

BIG SALES OF COPPER.

In the current buying movement a new high record in the volume of copper sales has been established. Within the last few days the United Metals Selling company has alone disposed of 10,000,000 pounds of copper. It is estimated that the American Smelting & Refining company, Phelps, Dodge & Co., forced buyers and selling agencies have sold close to 75,000,000 pounds, making a grand total of about 110,000,000 pounds. Practically all the copper was sold on a basis of 12 1/2 cents a pound, and many producers and selling agencies are posting 12 1/2 cents a pound. The buying movement continues. There

LAKE.

It has been stated that on the seventh level of the Lake Copper company the crosscut encountered the lode 175 feet from the shaft. This was an error. The lode was cut at a point 350 feet from the shaft opening. This seventh level crosscut is the longest that has yet been driven to cut the lode and is explained by the fact that from about 400 feet the lode has been flattening. Down to that point the shaft was in the lode, the first crosscut being at the third level. Since that time the distance between the shaft and lode has been increasing except that on the fourth a twist brought the lode ten feet nearer than on the third. In the following table is shown the approximate length of crosscuts since the lode left the shaft.

Level	Feet
Third	50
Fourth	40
Fifth	130
Sixth	160
Seventh	350

COPPER RANGE.

During the past ten days the Copper Range company has sold over 3,000,000 pounds of copper and it has today practically no unsold metal on hand. As a matter of fact the company is better sold up than it has been for the past two years. During the recent visit of President Paine to the Lake Superior copper country he went over the Copper Range situation carefully. He says that there is little change in the production of copper per ton of rock now being obtained from the Baltic, Champion and Trintmountain mines, and that the averages this year will closely approximate the averages of 1909, which were 218 and 162 pounds respectively. Costs this year will be slightly under the very creditable costs of last year. Mr. Paine said that Trintmountain was slowly improving and that while last year the mine was unable to contribute any divisible profits to the parent company, it would this year be able to show a small surplus over operating expenses and taxes. Mr. Paine was asked if the Copper Range mines would curtail output and he significantly replied that he was quite in sympathy with the efforts which

WEAK KIDNEYS & THIN BLOOD

Not only is the blood the great nourishing source of our systems, but equally as important is its work of removing the waste of oxidized tissues which have been consumed in the body and bodily heat. This waste is filtered out through the kidneys. When, however, the kidneys become weak and unable to perform their regular duties, the waste is allowed to remain in the circulation, soon forming uric acid which destroys the greater portion of nourishing elements of the blood and leave it weak and acid. This imperfect blood deposits into the different muscles and joints the uratic impurity with which it is contaminated. Then the pains and aches of Rheumatism commence. The gritty formation which uric acid causes collects in the joints and produces the aches and stiffness which always accompany the disease. Likewise the muscles are coated and lose their elasticity, while the continual irritation to the nerves produces swelling and inflammation of the flesh.

S. S. S. cures Rheumatism in the only way it is possible to overcome the disease; it cleanses the blood of all uric acid poison and strengthens the kidneys so they are enabled to properly filter out the waste. S. S. S. is not only the best of blood purifiers, but a fine tonic. Book "Rheumatism free to all who write." S. S. S. SPECIFIC CO., Atlanta, Ga.

5 PER CENT GOLD BONDS

OF THE

Great Lakes Engineering Works of Detroit

Total Issue, \$750,000 Denomination, \$500 and \$1000

Dated July 1, 1910, maturing serially from January 1, 1912, to January 1st, 1925, inclusive, with interest payable semi-annually.

These bonds are secured by an absolute first mortgage upon all the property now owned and that may hereafter be acquired by the Great Lakes Engineering Works, including the company's valuable real estate and plants located respectively at Ecorse, Detroit and St. Clair, together with the company's new plant now in course of construction at Ashtabula, Ohio.

The Company's net assets are nearly five times the amount of the outstanding bonds.

Complete details, with statements of company's condition and earnings, given on application. Correspondence solicited. W. T. BRADFORD, Bond Officer.

COLE-RYAN IN NEVADA.

The official announcement that the Cole-Ryan interests had made investments in Ely, Nev., to the extent of \$5,000,000 and that it is proposed to erect an immense smelter, was no surprise to the people at Butte, but a statement in an Ely paper is so ridiculous that it is laughable. This paper says that Ely will at once become the greatest copper producing district in the world and adds: "Butte will have been forgotten, the mines on the Great Lakes will have been closed and abandoned and the big plants of the Guggenheims and the Cole-Ryan interests will still be producing copper from the mountains of ore which will still be buried in the hills surrounding this city. In view of the fact that experts have decided that the Butte district is good for at least the next 100 years, the people are not worrying over the statements above. However, the purchase of the Cole-Ryan people means a great deal for the Butte district. Mr. Cole is credited with the statement that it is intended to build a smelter, a railroad and make other extensive improvements to the present holdings. The Cole-Ryan purchase included the East Ely Townsite company's holdings with a valuable water right. It is stated that it is not intended to go into the townsite business, but that the holdings of the townsite company had to be purchased in order to secure the water rights.

HEINZE ACQUIRING MINES.

F. Augustus Heinze is certainly getting a hold on properties in Idaho. A short time ago he secured control of the Independence mine by purchase of shares in the property for \$5,000, which was put up at auction to satisfy a judgment of \$35,000. Now comes word that he has succeeded to the presidency of the Stewart mine, Attorney Charles R. Leonard, who is Heinze's attorney, retiring from the position. Mr. Heinze has been supposed to be the controlling factor in the Stewart for a long time, but for some reason or other he had Mr. Leonard in the office of president. This change took place at the annual meeting of the company. No financial statement was submitted and the public was not acquainted with the conditions existing beyond the general statement that the indebtedness incurred by the company in the prosecution of development work had been almost wiped out. It was stated that the constantly increasing production from the property gives assurance that it will shortly be accumulating a surplus and may be expected to pay dividends in the near future. The output of the mine at present is 230 tons a day and in the next forty days it is expected to increase the production to 450 tons a day. It is reported that Mr. Heinze is deriving at least \$15,000 a month from the Stewart property. The Independence mine has not been in operation for some time, but it is stated that operations will be resumed at an early date. It is considered in some quarters a "worked out" mine.

City Brevities

Today's weather: Unsettled; stationary temperature. Yesterday's temperatures: Seven a. m., 40 degrees; noon, 41; 7 p. m., 44. Maximum, 44 degrees; minimum, 37.

J. G. Reynolds returned yesterday from an eastern business trip. James J. Donovan returned yesterday from Chicago where he has spent the week on business.

H. H. Williams is expected home today or tomorrow from a business trip to eastern cities.

Miss Minnie Patterson, of Ripley, Ont., is visiting her brother, Geo. A. Patterson, and family, 701 Champion street.

Judge S. S. Cooper, who has been hearing chancery matters in Marquette, returned to his home in Ironwood last evening.

Elma Lehtanen aged six years, daughter of Armer Lehtanen, 138 Rock street, died at St. Luke's hospital yesterday afternoon of cerebro-spinal meningitis.

Darius LaPlant will go to Crystal Falls Monday to re-dress and put the bowling alleys in that city in first-class shape. Mr. LaPlant has always assisted H. O. Bell in similar work at the Marquette bowling alleys.

Eugene E. Osborn, who has resigned from the vice presidency of the C. & N. W. railroad because of ill health, is well known locally, having formerly been a member of the Marquette County bar and practiced law in Ishpeming. Of late years, his residence has been in New York.

If the weather is favorable, there will be a football game at the fair grounds this afternoon between the Marquette High school second team and the Munising High school eleven. The Marquette team will be selected from the following players: Hemmingson, Foster, Courtney, Quarters, Johnson, Block, Smith, Harrington, Kemp, Murray, Cavin, Driver and Lindstrom.

Carlson-Johnson Wedding—Miss Stina Carlson and Peter Johnson, both of this city, were married by Rev. Oscar Sandahl at the Swedish Lutheran parsonage at 8 o'clock Thursday evening. The couple were attended by Herman Gustafson and Miss Hilda Bergh. The bride's parents reside in Sweden, but she has been in this city for some time. Mr. Johnson is a well-known carpenter, and with his bride, will reside on Alger street.

Four inches Below Normal—Weather bureau records show that the amount of rainfall in this city the current year is four inches below the normal, obtained from the average during the past thirty-seven years. The normal rainfall in this city is thirty-two inches per year. This fact, in some degree, explains the unusually small amount of water flowing in Dead river. The dam at the light and power station contained more water yesterday than the day before, due to the Silver Lake dam having been opened. There is now no reserve supply in the Silver Lake dam.

Dietz Pictures at Grand—Manager J. C. Woodworth, of the Grand theatre, announces that forty stereoscopic views of the Dietz farm and family, of Cameron dam fame, will be shown at the Grand Monday and Tuesday. The views include pictures of the interior and exterior of the bullet riddled cabin, the farm from all directions, the spot where Deputy Oscar Harp lost his life, the set guns used by Dietz and his family, the ruins of the historic dam, the guarded bridge over Brunie river, Thornapple creek, the guards on duty at the dead line, scenes in Winter, the drug store from all directions, the steam-dressed and the baggage car in which she was taken to Ashland, Helen and Mrs. Dietz in their cells, Helen Dietz and many others.

Copy for Official Ballot—County Clerk Frank G. Jenks has prepared the copy for the official ballot to be used in this county at the election to be held Nov. 8. Five parties have partial tickets on the ballot, Republican, Democratic, Prohibition, Socialist and Socialist Labor, but the Republican ticket is the only one in which there are candidates for every office. There will be 15,000 ballots printed, which will be distributed among the precincts of the county. In this city, an effort has been made to cut off the dead names from the registration lists, which will be printed shortly. There has been no general registration in Marquette for eight years and the lists contain the names of many who are no longer voters here.

Masters Not to Blame—Steamboat Inspector Gooding and his crew have just handed down their decision in the collision between the passenger steamer Lakeland and the large Smeaton, which occurred in St. Mary's river Sept. 20, last. Both masters were exonerated from blame in the report, and the wheel chains breaking is declared to have been the cause of the accident. The barge was being towed by the steamer Maricopa down the river and the Lakeland was going up. The steamers had passed, when one of the wheels chains on the barge broke, and the vessel sheered with the current toward the Lakeland. In the opinion of the inspectors, had it not been for the presence of mind of the captain of the barge in quickly casting out anchors, the Lakeland would have been cut in two. As it was, the Lakeland was damaged to the amount of \$15,000 and the Smeaton perhaps half that amount.

Greatest Medicine on Earth

A prominent citizen of Evansville, Ind., writes:—I was ill for five months with a pulmonary trouble and had the best of doctors;—I had hemorrhages and was in a very bad way. Through the advice of a friend I tried Vinol, and I feel that it saved my life. It is all you recommend it to be. I believe it is the greatest medicine on earth. I have advised others to try Vinol, and they have had the same results. (Name furnished on request.)

We want every one in this vicinity who is troubled with chronic colds—coughs—or pulmonary troubles—to come to our store and get a bottle of Vinol. If it does not go to the seat of trouble—beating the inflammation and stopping the cough—we will cheerfully return every cent paid us for it. This shows our faith—and proves that you take no chances. Do we mean it? Come and see. The Stafford Drug Co., Marquette; also Fred P. Tibson, Ishpeming, and J. E. O'Donoghue, Negaunee.

THE TELEPHONE OPERATOR

The Telephone Operator has been inspected by the government and the report is filed. This report gives the height, the health, the age, the hours, conditions and wages, everything that expert sociological investigation can give.

There are some things which must elude the inspector's eyes, however, though he may be. The Telephone Operator is to him a well trained young woman, one of the many business girls of America, and she will take her place with thousands of others in other lines of work, when the report is published.

But there is a different picture in my mind. When I see the words Telephone Operator, I do not see the sum total of the requisites of height and age, eyes and ears and education. These are but the skeleton of the person I know. She is all that, but she is so much more! She is not a business machine—merely an automatic servant of the public. To be sure, she has a poise which has come from discipline, she knows how to cooperate with others, she repeats her phrases correctly and conforms to rules, but she is far from being a machine. The summing up of these things does not make the picture of the Telephone Operator as I know her.

The Telephone Operator's work requires her undivided care and attention. She is one on whom rests the responsibility of assisting a citizen in the city's business. She is closely in touch with the pulse of the business world and if the rise and fall of the traffic is high or low, the calls numerous or light in number, she realizes it is her part to meet the situation and continue to render service in an efficient and satisfactory manner. She cannot begin to estimate the importance of the individual calls which she continually handles, but must see that each is connected quickly and accurately; but when emergency calls are received, such as fire and Police alarm calls, or for ambulances, it is then she must think and act most quickly, often assisting the one who is calling, but who is too alarmed or frightened to do their part in summoning assistance.

Let me give a few sketches which help to make the composite picture which comes to me when I think of the Telephone Operator.

It is nearly five o'clock. The day force is beginning to realize that their day's work is nearly done, and the evening force is assembling in the operator's quarters, preparatory to coming on duty. The bus hours of the day are about over and the heavier hours of evening work have not begun. The normal traffic is being handled easily and only a faint murmur of the Operator's voices is heard in the Operating Room. As the force is getting ready to change, suddenly the boards seem to be ablaze with signals. The Operators though surprised and wondering, immediately undertake to meet the unexpected rush in traffic, and make the connections as fast as called. The evening force comes into the room, but there is no thought on the part of the Operators of leaving their positions. There is no suggestion that they are tired from their day's work, or anxious to get home. They realize the emergency which is back of the frantic calling.

It is no patient public which encounters the Telephone Operator, begging, imploring, crying, they are calling for numbers that are always busy. The morgues, the hospitals, the newspapers, anyone whom they can give them information—for it is the terrible theatre fire, and the Telephone Girl, many of them, are streaming down their faces, are working hand in hand with desperate subscribers. They are no automatic machines mechanically serving the public. Every nerve is alive to the situation, and they are putting forth every effort to serve the people whom they cannot see, but whom they sympathize and suffer. The overtime work goes unnoticed, and they work, relieving each other, until late in the evening, at times pulled away from the board almost fainting to be revived with nourishment only to go back again to help with the connections.

It is eleven in the evening and work is light. Suddenly there is a terrible noise, more sudden than thunder, shaking the very foundations of the boards where the girls sitting. With it is heard the crash of falling glass and snapping timbers. A word of direction from the Manager, and every girl's face is toward the board, and with fingers that tremble and voices that quaver, the brave Telephone Girl meets the sudden increase of calls. The day girls sleeping in their homes respond to the call to come again to the office, and a complaint; but it is not a machine that responds because it has to; it is a thinking, responsive, personality, meeting the emergency calmly and bravely giving herself to the work she has chosen.

Take another view that helps to make up the composite picture: A generator is gone. It will be ready again at any moment. There at the boards sit the girls waiting, watching, alert. It is the busy time, but they are helpless. Thirty-five minutes they sit there, and it seems hours. The strain is more intense than when a full board calls for most active service. These are the ones who serve when kept from service, the hardest task sometimes, a gas main has broken. The insidious gas is penetrating an Operating Room. The girls are wondering why it is so hard to work; why the numbers are so crowded; wonder why they are opening their eyes in the Rest Room. They worked till the mind could act no longer; they had fainted at the board. In the dense smoke and under dripping ceilings I see girls who calmly serve their subscribers, who little dream that "Numb Please" comes from an Operating Room threatened with fire and filled with smoke from the blazing building next door. They may be in no danger from fire but the smoke becomes so dense that they can hardly see the numbers. It is only when blinded eyes and choking throats refuse to serve longer that they move away from their places which others stand ready to fill. The Service Must Never Stop. That is the determination of the devoted Operator, and she does not hesitate at suffering to accomplish that purpose.

And I see them when fire is blazing in the very room where they work. With fine self-control they sit at their posts, trusting to the Manager and the firemen; their faces to the board, illuminated now by the blaze, they calmly make connections while the crackle of the fire and the confusion of putting out the blaze added to the stifling smoke, makes such service the proof of character strong and faithful.

Finally, when the word is given that the room must be abandoned, still unafraid, they leave with regret, stopping to put up a last connection; then forming in line, and carefully selecting their way through the confusion of water and wreckage, and through the crowds that have assembled, they gather to await the earliest summons announcing that it is safe to return to their posts of duty.

And here and there, everywhere, are girls who come to their work from homes where they would prefer to stay. Here is a girl whose father is ill; he does not lack for care, but it would be pleasant to stay at home. But the force would be short; she is needed; she sets her mind to her work and all day faithfully puts her own private care aside to serve where she is needed.

The street cars are not giving service. For weeks the cars are held up. The more extended the lack of city service, the more essential is the service of the telephone. She is needed more than ever at her Exchange. She walks miles to get there; she begs rides on the milk wagons; she climbs up into express wagons; even rides in the police patrol.

Get there she will. Through blizzards and blinding storm of wind and rain, she defies nature itself to keep her away from her place of duty.

Always willing to meet the demands of unusual traffic caused by special events, to work the unusual hours, such as evenings, Sundays and Holidays, in order that the public may have continuous service, could we expect a catalogued report to describe even in a general way the qualifications which go toward making up the Telephone Operator as she is today?

This composite picture is a "Telephone Girl" of character; unselfish, devoted, brave, resourceful, loyal, ready for emergencies, trained only to bring out the qualities which prove her to be a notable woman—the Telephone Operator as I know her.—H. N. Foster, in the Chicago Operating Bulletin.

CHAIRMAN KNOX WELL SATISFIED Expects Victory for Chase S. Osborn by More Than 75,000 Plurality.

With election day over two weeks off the Republican state central committee is satisfied from the reports made by the various committees around the state that Chase S. Osborn and the entire state ticket will be elected by a plurality of more than 75,000, that the legislature will be safely Republican and that in only one or two congressional districts have the Democrats the least chance to win.

Following the conference at Detroit of county chairmen and state candidates a systematic canvass of the lower peninsula counties was started. The reports on this canvass are now in possession of State Chairman Knox. It is on the figures obtained that he bases his claim of the state by more than 75,000. The canvass was carried by thorough in the counties which were carried by Mr. Hemans two year ago and in every case it has been reported that Mr. Hemans has nowhere near the strength he exhibited in the last campaign.

Here are a few of the counties. In Saginaw two years ago Mr. Hemans carried the county by approximately 4,700. Mr. Osborn carried it in the recent primary by 2,500 and it is asserted by the leaders there that he will carry it at the election by 3,500, the majority being cut some by the fact that this is an off year. Kent county gave Hemans nearly 9,000 in 1908 but it is conceded to Osborn by 5,000 at least. What is true of these big counties is true of Jackson which was strongly Osborn in the primary, Washtenaw which is an exceedingly strong Osborn county, Hillsdale, Kalamazoo, Calhoun and Muskegon, all of which were carried by Mr. Hemans at the last election.

In all of these counties house to house canvasses have been made of scattered precincts so that the general sentiment could be gauged. The new state central committee, with its energetic officers, is engaged in putting up an organization in Michigan such as the state has never seen before and the party will unquestionably go to the polls in better shape this time than in the past several campaigns.

State Chairman Knox is well satisfied with the reports he is receiving from the upper peninsula also, although the canvass has not been so closely conducted there, and is confident of a majority for Mr. Osborn above the straight approximating 30,000.

GOLD DUST POLISH

Seattle, Wash., Oct. 20.—Charlie, a Chinese cook of the steamer Northland, will never again scour his pans with sand. He failed to notice when he brought finely ground scouring dust from the forward hold of the ship that he was wasting gold bearing sand. Charlie ran out of scouring soap when the boat was 1,000 miles from a grocery. He looked about the ship for a brick to make dust, but, finding none, appropriated a bushel of nice black sand from the hold. Captain Brunn complimented the cook on the appearance of the cutlery the next day, but the day when the Northland touched port Charlie was in disgrace. It had been found that he had taken more than \$50 worth of gold bearing sand.

KILLS A MURDERER.

A merciless murderer is Appendicitis, with many victims. But Dr. King's new Life Pills kill it by prevention. They gently stimulate stomach, liver and bowels, preventing that clogging that invites appendicitis, curing Constipation, Headache, Biliousness, Chills, 25c at the Stafford Drug Co.

TWO BULLSEYES.

Senator La Follette was talking about two corporations that had been attacking one another in the press. "They both scored," he said. "They made me think of two prisoners, in Atlanta, one of whom had been convicted of stealing a watch, the other of stealing a cow. "These two prisoners hated each other, and as they passed one morning in the

exercise yard, the cow-stealer said with a sneer: "What time is it?" "Milking time," the watch-stealer answered." A RELIABLE MEDICINE—NOT A NARCOTIC. Get the genuine Foley's Honey and Tar in the yellow package. It is safe and effective. Contains no opiates. Refuse substitutes. The People's Drug Store.

Ishpeming

TO CALUMET TODAY.

Ishpeming Football Team Will Try Conclusions With Copperdom Eleven.

The members of the Young Men's Christian association football team have put in a hard week of practice in the gymnasium, and when they line up against the Calumet Y. M. C. A. team this afternoon at Calumet they will be in condition to put up a strong argument. Accompanied by several other members of the Y. M. C. A., the eleven will leave for the copper country on the Northwestern train this morning at 6:20 o'clock. They will return tomorrow evening.

The line-up of the team was decided upon yesterday. It will be as follows: Paulsmor, center; Dixon, left tackle; Johnson, right half; Lind, left guard; Haglund, left end; Beauchamp, right guard; Perrault, right end; Webber, right tackle; Gill, full back; Quinlan, quarterback; Butler, substitute quarter; Walters, substitute end; Hendrickson, substitute guard or full back; Nichols, substitute guard. W. H. Norman will be in charge of the party. Other members of the "Y" planning on making the trip are Hoot, Getchel, Leininger, Matthews, Rose, Goldberg and Ball.

H. H. Whitney, who is connected with the Painesdale High school, will referee the game, and Mr. Norman will be the umpire.

WAS WELL ATTENDED.

The organ recital Thursday evening in Calvary Baptist church was well attended. The program was much enjoyed. Professor Fohrman, who rendered solos on the Burdette organ, recently installed, was delighted with the instrument. The organ was made thirty-nine years ago, but was recently reconstructed by Gust Anderson, the Cleveland avenue jeweler. It now has a fine tone and is the best of its kind. The piano formerly used in the church will be removed to the basement and the organ will hereafter be used exclusively at all services and entertainments.

HALLOWEEN PARTIES.

Two halloween dancing parties will be given before the first of November. The first will be the second of the series conducted by the Uniform Rank, Knights of Pythias, and will be held next Thursday evening, the 27th, at Braastad's Hall. The other one will be held at Braastad's Hall a week from next Monday night, the 31st, under auspices of the newly organized lodge of Owls. For the Pythian party a special street car will be provided for Negaunee people. Dancing will start at 8:30 o'clock, continuing until 12.

TO ORGANIZE MINERS' CLUB.

The members of the Young Men's Christian association working in the mines of the city will meet this evening at 8 o'clock in the Y. M. C. A. building for the purpose of organizing a club. A complimentary luncheon will be served. All those interested in the project are invited to attend.

ISHPEMING IN BRIEF.

Mrs. C. H. Rutledge, was operated upon Thursday by Dr. Picotte of this city and Dr. Teinhaus of Milwaukee. D. E. Rice, proprietor of the Lyric theatre, who came here on business from Calumet Thursday, was called back there yesterday, on business. Mr. Rice

and his brother, who is in the mercantile business in Milwaukee, contemplate the erecting of a building for the conduct of a moving picture theatre in Milwaukee.

Miss Emma Hansen, who has been visiting relatives here for the past two months, left Thursday evening for her home in California.

Mesdames D. McVichie and W. H. Moulton will serve coffee this afternoon at the Golf Club house. If the weather is favorable this evening the last dancing party of the summer series will be given.

The Ishpeming band will conduct a hop tonight at Braastad's Hall. The proceeds will apply on the uniform fund. Tickets will be fifty cents a couple. Dancing will start at 8:30 o'clock, continuing until midnight.

The four teams participating in the Junior A Baseball league series at the Y. M. C. A. met on the diamond Thursday afternoon. The Pirates defeated the Tigers, 12 to 13, and the White Sox won from the Athletics, 13 to 12.

George F. Ruez, who a few weeks ago purchased the Barney property, on North Oak street, is building an addition to the house. Two extra bed rooms and a new kitchen are included in the addition. Mr. Ruez recently sold the corner lot to Joseph Carney, who intends to build a house there.

NUMBERED ON THE HOOF.

That's One Way by Which a Driver May Identify His Horses.

"That is a new one on me," admitted a man who had been contemplating the hoofs of a couple of truck horses standing on Monroe avenue.

The driver, who had just unloaded a heavy crate of merchandise, looked inquiringly at the speaker.

"I mean that way of marking a horse—the number on the hoof," continued the puzzled one.

"Oh, the figures," said the driver, smiling. "That isn't anything very new. We all do that, you know. Have to protect ourselves."

"Do you mean that all horses in Detroit are marked that way?"

"Pretty much all that belong to the big trucking companies are," continued the driver. "You see each firm has certain numbers it uses—not a mark, like they brand horses in the west—but just plain numbers. You'll see if you take a look that that off horse's number is 227 and a high one is 43. The bosses get together and agree on numbers so there won't be any mixup. Then each fellow brands a horse with one of the numbers given him, each horse, of course, being numbered differently, so he can tell in a minute whether a horse is his or somebody else's."

"It's just a case of having a number into the front of the hoof, but it does the business. Some years ago a concern for which I worked had two horses stolen—fellow drove them away right under the driver's nose. They were both marked, and the thief didn't know this or didn't have sense enough to do anything about it. They trailed those horses all about the state, but finally got them where they had been sold by the thief. If it hadn't been for those numbers, though, they probably never would have seen the team again."

"After a time the numbers wear off or the hoof gets scuffed by so the number has to be renewed. This doesn't mean much work, but it is a great protection to the owners and to drivers who are forced to take chances on a team being driven off while they are inside."

Banking Service

When the rooms equipped by this bank were planned, no detail was omitted which could in any way add to the efficiency of the service which the bank renders. Every modern device that aids in promptness and courtesy has been installed, and careful attention has been given to the selection of men adapted to the work which they are called upon to perform.

You are cordially invited to avail yourself of the unexcelled services which this bank affords.

SAVINGS DEPARTMENT.

Saving deposits of \$1.00 or more are cordially invited and interest is allowed on the money at the rate of 3 per cent, compounded twice a year. Try saving a part of all the money that comes into your hands. Many of the substantial fortunes in this country have been started by careful saving. A little money in the bank is always a safeguard against misfortune and sickness.

BANKING DEPARTMENT.

Accounts subject to check are invited in any amount, enabling our depositors to protect the money which they have on hand for personal or household expenses against loss by fire, burglary or other mishap. When you deposit all of your money and pay for all expenses by drawing your own personal checks, you always have receipts for your payments and do not have to pay a bill the second time.

GREAT CHANGE IN BRITAIN?

Revolution in the Present Form of Government Rumored

London, Oct. 21.—Fundamental changes in British legislation and the whole system of parliamentary government are impending. The conference of leaders of the Government and the Opposition, which had been considering a possible compromise on the question of the House of Lords, held four sessions last week and has now reached the crux of its deliberations. Not a word of the proceedings has been allowed to transpire officially, but it is possible to give the general scope of the great changes contemplated. It is by no means certain, perhaps not even probable, that an agreement will be reached, but the leaders of both parties have made a genuine effort to reach a non-partisan solution of the grave questions involved.

danger than ever. It is impossible to say what progress has been made by the conference, but it has been admitted that the situation there is now critical. Lloyd-George and other members of the Government have postponed their partisan speeches, which were looked for next week, until a resolution has been reached. Failure to agree would be followed by the announcement of rival schemes for the reform of the Lords and an early election by the country. If a compromise is reached, the sweeping changes involved must in any event be submitted to the people, but the election would be postponed until there had been an opportunity for a thorough canvass of the great issue. It is believed the conference will finish its work one way or another within a week.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

as mercury will surely destroy the sense and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio.

NOTICE TO CONTRACTORS.

Negaunee Department

JOHNSON LAND HAS BEEN SOLD

Negaunee Man Has Disposed of 160-Acre Tract on the Swansey Range.

Charles Johnson, of this city, has sold 160 acres of land on Section 12, range 45, town 23, on the Swansey range, located some distance northwest of the Cleveland-Cliffs Iron company's mines. Mr. Johnson says the man to whom he sold is a stranger to him and he made no effort to ascertain whom he represented. He believes, however, that he represents some mining company. It is thought mineral will be found on the land. The price offered was attractive, and Mr. Johnson did not hesitate to accept it. He sold both the surface and mineral rights. A year or so ago Mr. Johnson was urged by friends to organize a stock company for the purpose of exploring the tract, but he found that the drilling operation would be expensive, and gave the prospect up.

An important land deal that has been pending between The Oliver Iron Mining company and owners of land on Section 12, on the Swansey range, will probably be closed soon. Those who have offered their land are John Hassett, formerly of this city, now engaged in railroad work at Proctor, Minn., Patrick Nicholson of this city, and Gust Beyer and wife of Ishpeming. All own homesteads and it is thought that the ore formation extends through the several tracts.

Messrs. Hassett and Nicholson each have eight acres. The Hassett tract is only about a half mile from the Cleveland-Cliffs Iron company's new Cys shaft, now being sunk. The Cleveland-Cliffs Iron company drilled close up to the Hassett line and Mr. Hassett believes that ore was traced by them up to his eighty. He has been offered a liberal sum for the tract, in the event ore is found, and a royalty on each ton mined. Mr. Hassett has been several times the past year negotiating with officials of the Oliver company, and it is reported that he has about closed a deal.

The lands in question are some three or four miles distant from the Oliver Iron Mining company's present holdings on the range. The company has been operating the Stegmiller property for some four years past and the mine is surrounded by properties under control of the Cleveland-Cliffs Iron company. Mr. and Mrs. Beyer and the Messrs. Hassett and Nicholson acquired their homesteads some years before either the Cleveland-Cliffs or Oliver company entered the field.

SECOND CROP OF ARBUTUS.

If Fine Weather Had Continued Flowers Would Have Been Gathered.

The warm weather of the week prior to last Wednesday, caused many flowers to bud. If the warm spell had continued a few days longer there would have been a second crop of arbutus. A number of Negaunee people who were in the woods Sunday and Monday found arbutus almost in bloom at a number of places. They also observed that trees which had shed their leaves a month ago were beginning to bud again.

In a number of gardens here spring flowers were beginning to bloom and rose bushes were blossoming again. Berry bushes and fruit trees were also showing new life.

The sudden change from a temperature of 80 degrees to freezing point caused much comment. In some places the weather was very light as compared with the copper country. The change in the temperature was quite general throughout the United States. From various parts of the Dakotas, Montana and Wyoming the temperature was reported to have dropped to from ten to fifteen degrees below the freezing point.

HOW TO PLANT POTATOES.

Experiments Conducted by Government Bring Out Interesting Facts.

As practically all of the farmers operating in this region grow potatoes, facts about the experiments conducted at the Williston, N. D. experimental station, by F. B. Babcock are of interest. Mr. Babcock has made public a statement covering the experiments of two years. They had to do with the depth of planting, the width apart of the seed, and other matters. The experiments were carried on under dry farming methods. For two years the average yield of potatoes planted at different depths favor the planting at about four inches. The closest planting yielded the largest number of bushels per acre, and the wider apart the seed was planted the better and larger was the quality. Mr. Babcock draws the conclusion that in the average dry year potatoes should be given considerable space to get the best results.

BETTER THAN SPANKING.

Spanking does not cure children of bow-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. North Dakota, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urticaria by day or night.

A GENEROUS AND CHARITABLE WISH.

"I wish all might know of the benefit I received from your Foley's Kidney Remedy," says I. N. Regan, Farmer, Mo. His kidney and bladder gave him so much pain, misery and annoyance, he could not work, nor sleep. He says Foley's Kidney Remedy completely cured him. The People's Drug Store.

NO FOOTBALL TODAY.

Negaunee and Marquette Teams Will Not Play at Union Park.

The game of football scheduled for this afternoon at the Union park grounds between the Negaunee and Marquette high school teams has been declared off. It is conceded that the Ishpeming high school team, which has shown greater speed and strength than either the Marquette or Negaunee elevens, would win the championship, should the schedule as planned early in the season be carried out.

A Negaunee team calling themselves the "Teddy Bears" has been organized and the manager says that it is prepared to meet any eleven in the upper peninsula averaging 102 pounds in weight. The line-up will be as follows: Harold Langford, right half and captain; James Routh, full back; Eugene Houle, left half; John Moffatt, quarter back; Emmitt Driscoll, center; John Paul, left end; Harry Carroll, left tackle; John Doty, left guard; Ray Curley, right guard; James Williams, right tackle; Leslie Edwards, right end.

The "Teddy Bears" will probably go to Marquette this afternoon to play the Guild Hall juniors.

LOCAL LACONICS.

Several carloads of apples have been shipped in Negaunee during the past week.

Mrs. Joseph Verville, of North Dakota is visiting friends and relatives in Negaunee and Ishpeming.

Peter Barasa & Co., the Negaunee plumbers, contemplate opening a shop and saleroom in Ishpeming.

Mrs. C. Parson and sons, late arrivals from Cornwall, Eng. have taken up their residence in England.

Tempi Seppanen, aged two years, daughter of J. Seppanen of Palmer, died Wednesday. The funeral was held Thursday afternoon.

The four-months-old daughter of Jacob Tulla, residing on a farm north of the Maas mine, died Wednesday and was buried Thursday.

Miss Katherine Wieber, one of the teachers of the Negaunee High school, whose home is in Houghton, left yesterday for that city to attend the marriage of a friend. She will return Sunday.

Herbert Griddle, piano player at the Bijou theater, will play at D. E. Rice's Grand theater in Calumet the next two or three weeks. His place here will be filled by the player who has been employed at the Grand.

L. E. Chaussee, the contractor, went to Ishpeming yesterday to look over the Urban House, with a view of submitting a bid on the remodeling of the present structure. The property is owned by the Peter White estate of Marquette.

The plate glass front for Hugo Muck's warehouse building, which has been remodeled for his meat market business, has been received and men began work putting it in yesterday. Mr. Muck opened up for business last Tuesday.

"Reddie" Heidenson, who caught for the Negaunee league baseball team last season, and who is now at his home in Chicago, has advised some of his friends here that he will return to the city after the world's championship series and will remain during the winter.

The Duluth, South Shore & Atlantic Railway company is preparing to increase the length of the side track extending from a point west of Hugo Muck's property, on Pioneer avenue, to the Independent Fuel & Lumber company's coal dock. Including the new track, the siding will be over 300 feet in length.

Manager McDonald has booked "The Fighting Parson," a pastoral drama, for next Thursday evening, the 27th. This company is under the same management as "The Cow Puncher," which was at McDonald's opera house Thursday evening. "The Cow Puncher" played to good business.

Peter Barasa & Co. have been awarded the contract for putting in about 1,500 feet of sewer pipe for the Cleveland-Cliffs Iron company on Davis street, in Ishpeming. Mr. Barasa has already started work on the job and he expects to add a dozen or fifteen men to the force next Monday, with a view to completing the contract by the end of the week.

HOLIDAY DISPLAY.

Gimble Bros. of Milwaukee, will be pleased to have you call on their representative, Miss Mary D. Powers, who will have on display at the Breitung House, on Oct. 24 and 25th, a very complete and attractive line of holiday and staple goods.

Champion

M. C. Quinn, of Negaunee, was a business visitor in Beacon Thursday.

The employees of the Champion mine were paid Thursday.

Bert Adams and wife, of Bisbee, Ariz., visited with Beacon friends last week.

Charles Christiansen is attending the grand lodge meeting of the Odd Fellows at Grand Rapids. While away he will visit in Chicago, Milwaukee and other cities.

County Clerk Frank G. Jenks of Marquette spent Saturday hunting in the woods north of Beacon.

Mrs. M. Dougherty, of Gay, Mich., is visiting with Beacon relatives and friends.

Robert Young, of Detroit, called on friends here Saturday.

Ed. Brophy, of Michigamme, spent Sunday with Champion friends.

Howard Lally, of Ishpeming, spent the forepart of the week visiting with Mrs. M. C. Bellmer and family.

Jacob Arneht, of Negaunee, spent Sunday with Champion friends.

Thomas Coreoran has returned from Minneapolis, where he visited for a few days.

Ralph Thomas has gone to Grand Rap-

is, where he will spend the winter months.

Oscar Beck, of Seattle, Wash., is here visiting his folks.

John Gustafson, of Painesdale, Mich., is here, on a visit with relatives and friends.

Miss Annie Corron has returned from Chassell, Mich., where she visited friends.

The platform of the Chicago, Milwaukee & St. Paul depot is being repaired.

Will Larson, of Ishpeming, spent Sunday here, with relatives.

Peter Garrick and Jeff Marehand visited in Ishpeming Wednesday.

A number of Champion people will attend the Catholic church bazaar at Michigamme this evening.

Miss Donna Frechett visited with relatives and friends in Ishpeming last week.

Captain Joseph Hodgson, of Ishpeming, was a Michigamme visitor Thursday.

Claude Murray spent Sunday in Ishpeming.

George Milroy is here from Virginia, Minn., on a visit to his parents.

G. J. Schwendeman spent Wednesday in L'Anse on business.

Dan Riley, section foreman for the Chicago & Northwestern railway, had a finger badly crushed by a rail falling on it one day this week.

Martin Voetsch, president of the Catharine Mining company, was here from L'Anse Thursday.

George Maas, of Negaunee, came up in his Packard runabout Wednesday. Brett Read and Abe Mathews, of Marquette, were here in Mr. Read's car Thursday.

Ed. Stensrud has added another new horse to his livery, one that he purchased in Kaukaunee, Wis.

The Cable Piano company is going to open up a store in the Anderson building. Miss Jennie Johnson, who has been in the concern's employ lately, will have charge.

Superintendent H. L. Chamberlain, of the Ohio mine, has purchased a new driving horse.

A number of repairs are being made on the Odd Fellows hall. A new entrance is being made to the stairway.

The new engine house at the Catharine mine is about completed and will be put into commission in a few days.

C. F. Sandstrom is supplying the residents of Michigamme with coal for the winter.

Dr. Picotte, of Ishpeming, was here Tuesday evening, assisting Dr. I. Sietto in a case.

Deputy Game Warden Russell, of L'Anse, was a Michigamme caller Sunday.

Several Michigamme people spent the greater part of the week in L'Anse in connection with the Hetu case against the Niagara Mining company.

The ladies of the Catholic church are holding a fair in the Odd Fellows hall.

REACHING THE TOP

In any calling of life, demands a vigorous body and a keen brain. Without health there is no success. But Electric Bitters is the greatest Health Builder the world has ever known. It compels perfect, action of stomach, liver, kidneys, bowels, purifies and enriches the blood, tones and invigorates the whole system and enables you to stand the wear and tear of your daily work. "After months of suffering from Kidney Trouble," writes W. M. Sherman, of Cushing, Me., "three bottles of Electric Bitters made me feel like a new man." 50c at The Stafford Drug Co.

CEMETERY PLAT ACCEPTED

Notice is hereby given that the sale of lots in the New Negaunee City Cemetery will commence Wednesday, Oct. 26, at 9 a. m., when the plat will be on view at the cemetery, remaining there for two days and if necessary three, between the hours of 9 a. m. and 4:30 p. m. During the evenings of 26th and 27th, between 7:30 and 9 o'clock, the plat will be at the city recorder's office for the accommodation of those who may be unable to visit the grounds. The plat will be on view at the city recorder's office from now until the 26th, for inspection.

The price of the lots will range from \$10 to \$40.

People living outside the city, who desire lots in the new grounds for their deceased relatives, are requested to correspond with the city recorder relative to the purchase of the same and the transfer of the remains.

W. H. MITCHELL, City Recorder.

10-19-10

TO BUY LOT FOR MASONS' TEMPLE

Directors of Marquette Masonic Association, at Meeting Yesterday, Decided to Close Option on Meeske Property, at the Corner of Front and Bluff Streets.

Intention Is to Erect Costly Edifice There, Possibly Next Year, Which Would Be Home of All Local Masonic Bodies—Plans Under Way for Some Time.

At a meeting of the directors of the Marquette Masonic association held yesterday afternoon, it was decided to close the option for the purchase of the Chas. Meeske lot, at the northwest corner of Front and Bluff streets, and the papers formally making the transfer will be executed within a few days. The Masonic association is purchasing this lot as the location of a Masonic temple, which it is hoped may be built another year.

The Masonic temple project has been in process of evolution for several years and last spring a meeting was held at which plans for the building and for financing its construction and maintenance were outlined to a large assemblage of Masons. It was about this time that the Marquette Masonic association was formed, which is now incorporated under the laws of Michigan. Its membership comprise all the Masonic bodies that have lodges in this city.

Some time ago the association elected a board of seven directors, as follows: M. M. Duncan, C. H. Schaeffer, F. M. Moore, F. A. Bell, Louis Penhall, J. E. Ball and E. S. Bice. This board was empowered to secure and purchase, when ever deemed advisable, a site for the proposed Masonic temple. Accordingly, the lot at the corner of Bluff and Front streets was optioned, and at the meeting yesterday the directors decided to effect its purchase. The price paid is not made public.

Plans for Building. Plans for a Masonic temple in this city were drawn up some time ago, but just when they will be realized is uncertain, though it is hoped that actual work has begun next summer. The building, as planned, would be a one-story brick construction, three stories high, facing on Front street, with a ground floor auditorium for dancing and other parties at the west end, with a Bluff street entrance. The ground floor would be fitted up to be rented as store rooms and a part of the second floor would be rented for business offices. The entire third floor would be devoted to strictly Masonic purposes. A part of the second floor would also be used by the Masonic bodies. It is estimated that the building will cost \$65,000 or \$70,000.

It is the plan to raise the money for the temple by selling bonds, which could be purchased only by members of the Masonic order. The committee in charge of the financial end of the enterprise have gone into the matter thoroughly and think they have a practical plan that would be successful and satisfactory to all concerned. It was recently decided to build a Masonic temple at Houghton, but it is understood that some of the stock in that project is held outside of the Masonic order, which would not be the case in Marquette, if present plans are carried out.

Now that a site has been secured, it is expected that the sale of bonds for the proposed temple will be actively pushed during the winter and all members of any of the Masonic bodies that have their homes in Marquette will be invited to become stockholders in the enterprise. Upon the degree of success that the committee meets with in the sale of bonds will depend the time when the construction of the building will be begun. At the present time, there is hope among local members of the fraternity that the temple can be erected next summer.

"HELLO" IS OUT OF DATE.

Word Results in Many Lost Minutes, Say Telephone Managers.

When called to the telephone, by what word do you announce that you are at the receiving end of the line? Do you answer with a plain, familiar "hello?" or do you give your own name, or the name of the concern for whom you are the mouthpiece, if answering a business phone? You have perhaps noticed that the feminine voice at the end of a private branch exchange or any other party line, answers your call with the name of the party or firm you wished to get. At least, she is supposed to.

The traditional "Hello!" once supposed to be an important and indispensable part of the telephone service is the thing itself, rapidly becoming a thing of the past. With the requirements of modern business life it has become the fashion to dispense with the needless and time-wasting method of answering a telephone with the same words you meet a fellow friend on the street. It rapidly is becoming customary to get right down to business by informing the person calling the number what party he has, then if he has the wrong number there is no delay in his becoming aware of the fact and if he has succeeded in getting into communication with the office he desired he can start right in talking about his business without the preliminary little social talk with the operator.

Telephone companies in this city and others long have urged operators to answer the signals on their boards with the name of the store, factory or office with which the telephone user has become connected.

PAID SHORT VISIT HERE.

R. A. Wilson, formerly Head of Light and Power Commission, in City.

R. A. Wilson, of Spokane, Wash., formerly superintendent of the city light and power commission, spent yesterday afternoon and evening in Marquette, on his way West, after having made an extended business trip to eastern cities. He left on the midnight train for Duluth. Mr. Wilson was in charge of the Marquette electric plant for nine years and left here eleven years ago to take charge of the electric light and gas plant at Helena, Mont. For the past five years, he has been manager of the Spokane street railway system, in the employ of the Washington Light and Power company.

Mr. Wilson has become an enthusiastic western booster, especially when it comes to talking about Spokane, which he declares is the one best city in the country. He called especial attention to the fact that Spokane is one of the Washington cities that is not included in the census padding charges. "Spokane does not have to pad," he says. He enjoyed his short stay in Marquette very much and only regretted that time did not permit of his visiting and looking over the present electric plant, which has developed wonderfully during the years since he resigned its management.

Just received a fresh lot of that delicious Milwaukee sausage. JOHN SIEGEL, 10-22-10

Normal Notes

Thursday afternoon Mrs. Bushmore entertained the students in the department of expression in her room on the third floor of the south building. The following excellent program was given: Vocal solo—Miss Angela Schumaker. Talk, "Characteristic Gestures of Some of Our European Neighbors"—Mr. Parker.

Reading, "The Atheist"—Miss Lorraine Barnaby. Piano solo—Miss Hazel Price. Talk, "Points of Interest Near Marquette"—Miss Daisy Shaul.

Reading, "Bill Smith"—Miss Eva Watt. Reading, "Scene from Macbeth"—Miss Emily Wood. Vocal solo—Miss Harriet Oltman.

After the program tea and wafers were served, and a most enjoyable social hour was spent.

An improvement is being made upon the campus this fall, in that a new cement walk is being laid along Henaut street, to replace the wooden one. A walk is also being laid to the dormitory, with a cross walk from the school to the dormitory grounds.

Miss Margaret Buehly of the Domestic Science department received word Thursday afternoon of the death of her sister, which occurred at Silver City, New Mexico. No definite word as to the arrangements for the funeral has as yet been received.

The members of the Senior class have organized and are making plans for the work of the year. Claudius Penhall has been elected president; Edith Unsworth, vice president; Ruth Miller, secretary; and Lorraine Barnaby, treasurer. They are planning to give their annual party Friday evening, Nov. 11.

Owing to the meeting of the Upper Peninsula Educational association held at Negaunee, there was no school on Thursday and Friday of last week. The faculty and many of the students attended the various sessions. The meeting was highly successful.

The literary societies of the school are taking vigorous hold of work this fall. Tuesday morning of this week, the two societies, Osiris and Ygrasil, had charge of chapel exercises and the following excellent program was given: Society song—Ygrasil. Society song—Osiris.

The meaning of Osiris—Miss Florence Markham. The meaning of Ygrasil—Miss Flora Clark.

Piano solo—Miss Adelaide Desrosier. Reading—Miss Grace Fletcher. Piano duet—Miss Elma Kraft, Miss Ethel Young.

Reading—Miss Lorraine Barnaby. Vocal trio—Miss Angela Schumaker, Miss Beatrice Allen, Claudius Penhall. Reading—Miss Eva Watt.

The program was followed by the various yells of the two societies.

The first meeting of Ygrasil Literary society was held Monday evening of this week. The president gave a brief talk on literary societies and their value. After a short business meeting, and the reading of the constitution, the following program was carried out:

Piano duet—Claudius Penhall, Walter Hornstein. Reading—Miss Pearl Madden. Vocal solo—Miss Oltman. Piano solo—Miss Eva Parks. Talk on Ygrasil—Miss Hill.

Wednesday evening Osiris Literary society held its regular meeting in the society rooms. A very appropriate and unique program had been arranged. After the regular business meeting, the lights were turned low, and there approached from the outer room four weird figures, two witches wearing high black hats, and two ghosts draped in white, each carrying a lighted candle. After marching round the room to the strains of weird music, they sat down on the floor and told the following stories: The Monkey's Paw, the Golden Arm, Counting the Stars, and the Upper Berth. After the stories had been told, refreshments of apples and fudge were served, and all declared it a most delightful evening.

Thursday morning at assembly, Dr. Downing gave an excellent and practical talk on personal hygiene.

MARQUETTE SCHOOL BOARD PROCEEDINGS.

Marquette, Mich., October 19, 1910. Meeting of the Board of Education held at Superintendent Gehrand's office at eight o'clock p. m.

Present: President Nelthart, Trustees D. H. Ball, James O'Reilly, H. J. Hornbogen and Edw. S. Bice. Meeting called to order by President Nelthart. Minutes of meeting September 26, 1910, were read and duly approved. The requisitions of Superintendent Gehrand, H. D. Grose, W. A. Piensohn and the Domestic Science department were presented, and upon motion, which was duly seconded, the same were allowed. Bills presented were examined, allowed and ordered paid. No further business appearing, the meeting was duly adjourned. EDW. S. BICE, Secretary.

IMMENSE CROWD AT BAGGAGE SALE

Bidding Was Lively and Most of the Articles Brought Very High Prices.

In spite of the inclement weather, the sale of unclaimed baggage conducted by the Duluth, South Shore & Atlantic railroad company in the Red, White and Blue block last evening was attended by an immense crowd and nearly all the articles sold for exorbitant prices. About half the articles were sold last night and the sale will be continued this evening.

W. A. Ross acted as auctioneer, and though it was his first attempt in this line of work, no one would have suspected that he was not a veteran. The success of the sale demonstrates that the American people like to take chances. No matter what kind of an article was put in—trunk, saddle, "turkey" or what not—it was bid for as lively as if it were a gold watch going for a quarter, and the average price received per piece was probably at least \$1.50. Trunks sold at from \$2 up to \$6; suit cases at from \$1.50 to \$4; and sacks and packages at from fifty cents up to \$2. A few of the trunks and satchels were comparatively new and in good condition, while others were sadly dilapidated.

It was not so much the outer appearance that fixed the price people were willing to pay as the possibilities within the trunk or satchel. Even cheap telescopes, some of which proved to be empty, were frequently knocked off at \$1.50 to \$2. Lumberjacks "turkeys" sold at \$1 and upwards. Few of the packages were opened by the purchasers and whether any real prizes were contained in them could not be learned last night. One man, more daring than the rest, opened a grain sack for which he paid \$1.70, and joined heartily in the laugh when it was found to contain feathers.

In some instances articles were bid up to high figures purely out of rivalry between the bidders. In such cases the appearance or apparent value of the article was not considered. The bidders were simply determined that their opponents should not "beat them to the prize package." The crowd was remarkably good natured and if any were "stung," they doubtless consoled themselves with the thought, "It was a great night, anyway."

THEATRICAL.

Mildred Holland Coming.

Local theatergoers will be pleased with the announcement that Mildred Holland will come to the Marquette opera house Nov. 15, appearing in her latest play, "The Provoker," written for her by Matthew Barry. It will be Miss Holland's first appearance in this city as an American woman of the present day, and her entire company will appear in modern, familiar roles. "The Provoker" is simple in its treatment of the theme of two men who love one woman. One, a powerful banker, and the other, a note teller, are the rivals. The production will in every respect be up to the standard of Miss Holland's previous presentations in this city. Miss Holland played here three years ago in "A Paradise of Lies" and five years ago as Catherine the Great of Russia, in "The Triumph of an Empress."

"A Broken Idol" Today.

"A Broken Idol," which a Chicago critic has designated as "a superior musical comedy," will be the attraction at the opera house today, matinee and night. The matinee performance will start at 2:30 o'clock and the evening presentation at 8:15. This comedy is advertised as the show of 100 surprises. Among the many, the following are mostly noticeable: "The Wizard of Oz," "The Merry Go Round," "Living Rose Bushes," and the sensation of them all, "The Great Balloon Ascension." The prima donna sails through the audience so close that she can shake hands with her friends. The book of this successful comedy is by Hal Stephens, lyrics and music by Williams and Van Alstyne. Gus Solhke, the wizard of stagecraft, was especially engaged to stage, present and drill the big American Beauty chorus. The company engaged is up to the Whitney standard. The production is finished in detail and comes after its successful run of eight months in Chicago, seven months in Boston and six months in New York.

SUNDAY AT THE CHURCHES.

Methodist Church—Services as usual Sunday at 10:30 a. m. and 7:30 p. m. Sunday school at 12 noon and Epworth league at 6:45 p. m. The vested choir will assist at the morning service. H. N. Ormsbee will render a solo number at each service, in addition to an anthem by the quartet, consisting of Miss Snell, soprano; Mrs. Ormsbee, alto; Earl Ross, tenor, and F. Asbury Hatch, bass. Rev. Joseph Dutton will preach and the public is cordially invited.

First Church of Christ, Scientist—Services in the society's hall in the Opera House block Sunday morning at 10:30 o'clock. Subject of the lesson, "Probation After Death."

Presbyterian Church—Usual preaching services at 10:30 a. m. and 7:30 p. m. In the evening a sermon-story will be given based on Grace T. Richmond's, "On Christmas Day in the Evening."

English services will be held at the German Lutheran church Sunday evening at 7:30 o'clock.

SUPERIOR DANCE TONIGHT

in every way will be the FRATERNITY HALL

Music of Superior quality by the Superior Orchestra.

Three solid hours of unalloyed pleasure. Admission, 25c.

We have just received a Sample Line of---

LADIES' SUITS

which we are placing on sale. A big reduction is made on all, and as there is but one of a kind, now is your chance for securing a bargain. These are all this season's styles, and entirely up-to-date in every respect.

The "BEE HIVE"

L. GETZ, Proprietor.

220-222 S. Front St. Marquette, Michigan.
