

Democrats Triumphant in Many Close States

They Score Notable Victories at the Polls, Both in the Eastern and Western Portions of the Country.

REPUBLICANS GET A BAD BEATING IN NEW YORK AND MASSACHUSETTS.

Dix Defeats Stimson by 60,000 and Fess Downs Draper by 25,000--Harmon's Plurality in Ohio Is 30,000--Baldwin Is Successful in Connecticut, and Woodrow Wilson in New Jersey--Iowa Is Classed as Doubtful, While Indiana Appears Lost to the G. O. P.--Wisconsin and Minnesota Strongly Republican

The elections held throughout the country yesterday resulted in a political convulsion of far-reaching extent, similar to the famous tidal wave of 1882 and even more widespread in its effects. The national house of representatives has been carried by the Democrats, who will control that branch of the congress by a comfortable margin. Representative Champ Clark, of Missouri, has announced his candidacy for speaker to succeed Joseph G. Cannon. The United States senate will have a reduced Republican majority as a result of the elections held.

his first ballot. Kermit, never having cast a vote before, did not know how to do it, and his father showed him how. "Absolutely nothing to say," was the word that came from Sagamore Hill tonight. Mr. Roosevelt was home, but declined even to receive interviewers. The election has given no indication as to what political moves he will make in the future.

FOSS THE VICTOR IN MASSACHUSETTS

Republicans Control Legislature, However, Insuring the Re-election of Senator Lodge.

PLURALITY IN PENNSYLVANIA ONLY TWENTY-FIVE THOUSAND.

Philadelphia, Nov. 8.—Estimates indicate that John K. Tener, Republican, has carried the state by about 25,000 plurality over Wm. H. Berry, the Keystone party candidate. Webster Grim, regular, is behind. The Democrats have gained two congressmen, with three close districts to hear from.

SENATOR LA FOLLETTE WILL KEEP HIS TOGA

Wisconsin's Legislature Republican--The Governor, too, but by a Reduced Plurality.

PRESIDENT TAFT CASTS HIS BALLOT AT CINCINNATI, O.

Cincinnati, Nov. 8.—President Taft arrived here at 10:30 o'clock this morning to vote. He went to the home of his brother, Charles P. Taft, and cast his ballot before noon. His stay here was limited to five hours.

COLONEL ROOSEVELT SHOWS KERMIT HOW TO VOTE.

Oyster Bay, N. Y., Nov. 8.—In the old family carry-all, Theodore Roosevelt drove from Sagamore Hill at noon to the polling place in the fire company's house in Oyster Bay and cast his vote. Kermit Roosevelt at the same time cast

ocrats elect their Milwaukee county ticket by between 2,000 and 5,000 according to the latest returns.

Victor L. Berger said of his election: "With the election of a Social-Democratic to congress, America gets into line with all other civilized nations that have Socialist representatives in its national legislative bodies." In this sense a new chapter in American history begins, because for the first time the American workmen will be represented as a class.

The slogan of the Social-Democratic campaign was "Let the nation own the trusts." The Social Democrats are conceded thirteen members of the legislature from Milwaukee county.

ONE DISTRICT IN VIRGINIA IS CLASSED AS DOUBTFUL.

Richmond, Nov. 8.—The Democrats of Virginia today elected their nominees for congress in nine of the ten districts, and possibly have triumphed also in the remaining one. The Ninth district is still in doubt.

UPSET IN ILLINOIS IS REMARKABLE

Democrats Sweep Cook County and Gain Heavily in the State at Large.

Chicago, Nov. 8.—With one out of a total of twenty-five congressional districts yet to be heard from, twelve Democratic congressmen and twelve Republicans have been elected in Illinois. The present representation in congress consists of nineteen Republicans and six Democrats.

As a result of the Democratic landslide, the state legislature will undergo a decided change. Less than one-half of the men who sat in the last legislature and who voted by a partisan combination have been returned. Three of the state law-makers who were indicted in connection with the "jackpot" scandal, however, were re-elected.

The unfavorable news was read in silence. The Taft smile was gone. At last, the president had a good laugh, for one read like this: "And at five this afternoon Pauline Wayne gave birth to a fine bull calf weighing 100 pounds."

Pauline Wayne is the White House cow, recently presented by Mr. Taft by Senator Stephenson of Wisconsin.

PROHIBITION DEFEATED IN FLORIDA AND MISSOURI.

Jacksonville, Fla., Nov. 8.—The reports tonight indicate that the constitutional amendment for statewide prohibition has been defeated.

St. Louis, Wednesday, Nov. 9.—The reports this morning indicate that the proposed statewide prohibition amendment is defeated by 10,000 in St. Louis alone.

DEMOCRATS SAY THEY HAVE INDIANA

Declare They Have Both the Legislature and the Whole Congressional Delegation.

Indianapolis, Nov. 8.—While the early returns indicate tonight that the Democrats will elect the state ticket, yet the race is so close that the result is doubtful. Six hundred precincts out of 3,836 give Ellingham (Democrat), candidate for secretary of state, 65,687 and Guley (Republican) 65,650.

CONTEST IN IOWA IS VERY CLOSE

Both Parties Claim the Governorship--Roosevelt's Man, Chas. Grik, Defeated.

Des Moines, Nov. 8.—At midnight, both the Democrats and the Republicans claimed the governorship. Governor Carroll is expected to be elected by a narrow margin. Claude R. Porter, Democrat, claimed that he would carry the state by 20,000, but more conservative estimates based on the returns from a proportion of the 2,300 precincts placed his plurality (if any) at four or five thousand. Carroll declared that the early returns were all from the cities, Republican State Chairman Franke declared that the country districts, despite the light vote, would more than make up the Republican losses in the cities. Governor Carroll was crushed mercilessly, running behind his ticket in practically every precinct. The re-

mainder of the state ticket probably is Republican.

The state has eleven congressional districts. I. S. Pepper, the young Democratic candidate in the Second district, walked away with the election, carrying every county over his opponent, Charles Grik, for whom Theodore Roosevelt recently spoke at Davenport. In the Fourth and Sixth, respectively, the Republican incumbents, Haugen and Kendall, are reported in danger. Burlington reported Congressman Kennedy, Republican, safe, which is disputed by the Democratic chairman, S. P. Prouty, progressive Republican, of Des Moines. Walter I. Smith, "regular," is elected with a reduction in plurality in the Ninth.

REPUBLICANS LOSE CONTROL OF THE HOUSE

Democrats Gain a Sufficient Number of Seats to Assure Their Dominance of the Lower Branch of the National Legislature by a Comfortable Margin.

Their Approximate Majority is Thirteen--For the First Time in History a Socialist Is Elected to Congress--He, Victor L. Berger of Milwaukee, Wis.

St. Paul, Nov. 8.—The Minnesota state ticket and at midnight the indications were that eight Republicans and one Democrat would be sent to congress. Congressman Hammond (Democrat) apparently is re-elected by a reduced majority. This leaves the party complexion of the Minnesota delegation unchanged.

Sidney Anderson, Republican, apparently has a safe lead in the First district, which is now represented by James A. Taylor. The indications are that Frank M. Nye, in the Fifth, is elected by about 2,000, while C. B. Miller, in the Eighth, and Halvor Steenerson, in the Ninth, will be returned by large majorities. Davis, in the Third, and Lindeberg, in the Sixth, and Volstead, in the Seventh, had no opposition. The election of Fred C. Stevens in the Fourth, is doubtful, meagre returns giving him a slight lead over John L. Gustke, Democrat.

Governor Eberhart's plurality over James Gray, Democrat, is estimated at 40,000 to 70,000. Gray espoused county option.

Chicago, Nov. 8.—The indications at 10 o'clock tonight are that the Democrats have gained control of the next house of the congress. The Democrats are one in Connecticut, one in Kentucky, two in Maryland, one in Massachusetts, three in New York and one in North Carolina, or a total of nine. This is offset by a gain by the Republicans in Pennsylvania and in New York.

It is indicated that the Democrats will probably gain three or four seats in Missouri, three in Iowa, one in North Carolina, and five or six in Illinois, or enough to assure a net gain of twenty-two.

The total membership of the house is 391; majority, 196. The present Republican majority is 215; present Democratic membership, 172; vacancies, 4; Republican majority, 43. In order to gain control it was necessary for the Democrats to elect twenty-four members, while the Republicans could lose nineteen and still hold the control. Of the twenty-four necessary to secure control, the Democrats have already elected already been elected from Maine. The vacancies were caused by resignation and death of members. Samuel L. Gilmore, of Louisiana, Democrat; Walter C. Tirrell, of Massachusetts, and Charles C. Brownlow, of Tennessee, Republicans, have died. One Russell, Democrat, of the Third Texas district, has resigned.

Thirty-Five Majority Is Claimed.

Chicago, Nov. 8.—It is definitely known at 11 o'clock tonight that control of the national house has passed to the Democrats. James T. Lloyd, chairman of the Democratic national committee, has issued a statement, saying: "The present indications are that congress will be Democratic by about thirty-five majority. It is a serious rebuke to the Republican party for its failure to reduce the tariff as the people believed the party had promised."

Chairman Wm. B. McKinley at 11 o'clock tonight sent his congratulations to Chairman Lloyd, of the Democratic national committee, upon the reported success of the Democrats in winning a majority in the next congress.

Danville, Ills., Nov. 8.—Joseph H. Cannon, speaker of the house of representatives, is re-elected to congress from the Eighteenth district by a slightly reduced plurality. Mr. Cannon said: "I am elected by 6,000. I am a Republican. I have kept the faith, have endorsed and have not apologized for the legislation of this congress."

Bowling Green, Mo., Nov. 8.—Champ Clark, Democrat, re-elected to the house, said tonight: "I am an avowed candidate for speaker of the house of representatives, and I hope to be elected."

Milwaukee, Wis., Nov. 8.—The Republican committee considers the election of Victor L. Berger, Social-Democrat, to congress in the Fifth district.

These the Latest Figures.

Chicago, Wednesday, Nov. 9.—The Democrats have gained forty seats in the house of representatives, assuring them not only of control, but also of a substantial majority. The Democratic gross gain, however, is reduced to a net gain of thirty-seven by three Republican gains. In order to gain control of the house, it was necessary for the Democrats to elect twenty-four members. Assuming that the party will retain its representation in the states not yet heard from it is apparent that the Democrats will have thirteen members

At Buffalo, Norman E. Mack, chairman of the Democratic national committee, voted the straight Republican ticket. It was an error, but could not be rectified. Subsequently Mr. Mack told of the joke on himself. The city of Buffalo gave Stimson, 28,205; Dix, 22,735.

Payne Defeated in Home City.

Auburn, N. Y., Nov. 8.—Serrano Payne, father of the tariff law, lost his home city today by 417 votes.

Kansas City, Mo., Nov. 8.—Amy Johnson, three years old was burned to death today when the home of the family was destroyed by fire.

Gov. Stubbs of Kansas Retains His Position.

Topeka, Kas., Nov. 8.—Governor W. R. Stubbs was re-elected today by a majority of 12,000 to 20,000. The remainder of the Republican state ticket is practically certain of election. The election of six Republican congressmen is conceded, with the odds favoring the Democrats, six remain in doubt—in the Third and Sixth.

The Result in Kentucky.

Louisville, Ky., Nov. 8.—Eight Democratic congressmen and four Democratic judges of the court of appeals elected, and one congressional race close, with the odds favoring the Democrats, is the result of today's election in Kentucky.

Osborn Successful By Fifty Thousand

He Carries All but a Few Counties, and the Balance of the State Ticket Is Elected With Him.

TWO CONGRESSIONAL DISTRICTS IN DOUBT; THE OTHER TEN WON BY THE REPUBLICANS.

Democrats Are Victorious in a Number of Legislative Contests, Notably That in Gogebic, but Their Gains Are Not Sufficient to Make Them Much of a Factor in the Law-Making Body at Lansing--A Feature of the Battle of the Ballots the Lightness of the Vote--Everywhere It Is Less Than Normal.

GOPHER STATE IS STRONGLY REPUBLICAN

Governor Eberhart Is Re-elected by a Margin of Forty to Seventy Thousand.

Detroit, Wednesday, Nov. 9.—The latest figures give Osborn a lead of 50,000.

Detroit, Nov. 8.—Chase S. Osborn of Sault Ste. Marie today was elected governor of Michigan by a majority of upwards of 40,000 although the supporters of Lawton T. Hemans, of Mason, the Democratic candidate, declare that later returns from the country will show gains for Hemans.

Before midnight it was conceded that Republican congressmen had been elected in all twelve districts except two which are still in doubt. These are the First, where Representative Edwin Deming, Republican, was opposed by Frank E. Doremus, Democrat, and the Fifth, where Representative G. J. Diekmann, Republican, was opposed by Edwin L. Sweet, Democrat.

Republican state ticket is elected throughout. The Republicans will control the legislature and carry out the popular endorsement of Chas. E. Townsend to succeed J. C. Burrows as United States Senator. In the last legislature there were only two Democrats. In the next legislature there will be over a dozen.

Osborn's Lead May Reach 60,000.

Detroit, Mich., Nov. 8.—The Democratic landslide in Michigan today confidently expected by the Democrats and feared by some Republicans failed to materialize. In fact it was quite the contrary. When Fred M. Warner carried the state by less than ten thousand two years ago with the help of the presidential election, Chas. S. Osborn of the Soo came through today with flying colors and a majority which at midnight appears to be close to sixty thousand. And he ran behind his ticket somewhat at that.

EMPIRE STATE VOTE IS A LAND SLIDE

John A. Dix Swept Into Office by a Plurality of About 60,000.

New York, Nov. 8.—John A. Dix was swept into office of governor of New York by a Democratic landslide that has apparently carried through with him the entire Democratic ticket, that seems to have returned a Democratic legislature and that has defeated scores of Republican office holders throughout the state.

Dix's plurality appears to be approximately 60,000. In the Greater City he piled up a majority over Stimson large in excess of that figure, and upstate ran surprisingly well, nearly holding his own with his Republican opponent, whose vote in all quarters of the state showed a disastrous falling off from the vote polled by Governor Hughes in 1908.

In nearly every county were evidences of Democratic election, and in the wreck "old guard" men and progressives alike went down. Among the former was Representative Millington, of the Oneida district, who was the man picked by Vice President Sherman to succeed him two years ago.

Complete returns show twenty-two Democratic congressmen chosen or re-elected, as against fifteen for the Republicans. This is a Democratic gain of eleven.

Oyster Bay Democratic.

New York, Nov. 8.—The following was received at Tammany Hall tonight from a Democrat in Colonel Roosevelt's own district (Oyster Bay): "Roosevelt's own district—Dix, 218; Stimson, 158. Beaten to a frazzle."

At 9:20 o'clock p. m., Mr. Stimson sent the following telegram to Mr. Dix: "The present returns clearly indicate your election. I congratulate you and send you my good wishes for the success of your administration."

Mr. Stimson attributes his defeat to causes nation-wide and to the general movement of the Republican party toward progressivism. He said: "There seemed to be a ground swell all over the country, and I was caught in it. I think it is only the beginning. We are beginning a realignment of the political parties, and the Republican party is going through the agony of becoming progressive. I have nothing to remark."

A Joke on Chairman Mack.

At Buffalo, Norman E. Mack, chairman of the Democratic national committee, voted the straight Republican ticket. It was an error, but could not be rectified. Subsequently Mr. Mack told of the joke on himself. The city of Buffalo gave Stimson, 28,205; Dix, 22,735.

Payne Defeated in Home City.

Auburn, N. Y., Nov. 8.—Serrano Payne, father of the tariff law, lost his home city today by 417 votes.

Kansas City, Mo., Nov. 8.—Amy Johnson, three years old was burned to death today when the home of the family was destroyed by fire.

Sheriff Nellis, Republican, Is Ousted at Cairo, Ills.

Cairo, Ills., Nov. 8.—Alexander Frazer, Democrat, today defeated Sheriff Fred Nellis for that office by a majority of nearly 1,000. Alexander county normally is Republican. Nellis is the sheriff who filled the county jail with negro deputies when white citizens attacked it to lynch the negro John Pratt for an attack upon a white woman. The vote today eliminates the negro from politics at Cairo.

NEARLY 20,000 FOR OSBORN IN THE U. P.

Despite Light Vote Soo Man Has Been Given a Handsome Majority.

Marquette, Mich., Nov. 8.—Returns compiled at midnight indicate that Chas. S. Osborn, despite the small vote throughout the region, has carried the upper peninsula by not far from 20,000 majority over Lawton T. Hemans. It is possible on the returns available to count for him a majority of 18,000. Following are the figures for the upper peninsula counties, as far as they have reported:

Table with 3 columns: County, Osborn, Hemans. Rows include Marquette, Houghton, Gogebic, Alger, Iron, Dickinson, Baraga, Mackinac, Schoolcraft, Lapeer, Chippewa, Keweenaw, Delta, Ontonagon, Menominee.

Some Legislative Districts Democratic.

Besides the whole state ticket, it appears that every Republican candidate for congress outside the Detroit district is elected, with the possible exception of Mr. Diegma in the Fifth district. Their majorities, however, are very greatly reduced over the figures of two years ago.

The Democrats will gain a number of members of legislature, several districts heard from up to midnight conceding the victory of the Democratic candidates for the lower house, and the race in several senatorial districts is very close. A notable case of a Democratic nominee for the lower house being elected is in the Gogebic district, where A. D. Johnson of Ironwood, who was nominated by the Republicans at the primary over "Stony" Monroe, was defeated by John Holland of Bessemer. Colin P. Campbell, speaker of the last house and a candidate for reelection in the next session, is having the race of his life in the Third district of Kent county, and it will probably take all the returns to decide his fate.

Vote Much Below the Normal.

The feature of election in the state was the lightness of vote cast, many counties reporting not more than 60 per cent of the registration being polled, while in few counties was the vote more than 75 per cent of normal.

This light vote undoubtedly greatly reduced the majority given Osborn in the upper peninsula. In nearly every county north of the Straits his plurality fell off greatly from Warner's figure two years ago. In the lower peninsula, as well, there were few counties which Warner carried two years ago where Osborn's majority this year was not smaller, but he made it up in the counties which Hemans carried in 1908. In nearly every one of the twenty-three counties which Hemans carried then, his majority either disappeared entirely or shrunk to comparatively small figures.

CONGRESSMAN DENBY SEEMS DEFEATED

Young Ran Well.

Representative Young is re-elected to congress by a vote closely approximating the one piled up for Mr. Osborn. In some counties he ran somewhat ahead of Mr. Osborn. Two Democrats were elected to the legislature, John Holland, of Bessemer, who defeated Johnson of Ironwood, who was nominated over Representative Monroe in the Republican primaries. Holland's majority is reported as 217. In the Second Houghton county district Fred Kappler was elected over the Republican nominee, Gray. In Gogebic county a large prohibition vote, nearly 600, was polled. It being attributed to the defection of the Finns because they were not given a place on the county ticket. It had the effect of materially reducing the Republican majority and doubtless contributed to the election of a Democratic legislator from that district. John Howett was elected sheriff in Gogebic by a majority of but twenty-one votes.

Mayoralty Race at Detroit Is Very Close--Thompson in the Lead.

Detroit, Mich., Wednesday, Nov. 9.—At 2 a. m., Proctor K. Owens, Republican candidate for mayor, stood 13,013, against 15,013 for William Thompson, Democrat. Thompson is predicting his election by 7,000, although the result is doubtful. Frank Doremus and Edward Denby, for congress, are running neck and neck. The latter is slightly ahead, although the final count is expected to show Doremus the winner by several thousand. Denby admits that it is a "very very close race." The returns on the mayoralty are coming in slowly and the result will not be known for many hours.

### Copper Country

#### LAST OF THE CARGOES IS DUE NEXT WEEK

Copper Range Docks Will Handle About 200,000 Tons of Coal This Season.

The Copper Range railroad officials announced yesterday that the steamer William A. Paine will arrive next week with 3,000 tons of coal. This will close the season at the Copper Range coal docks. The Paine, which has been unloading coal this week, brought in a cargo of 6,200 tons. She finished unloading yesterday noon. In all, the Copper Range docks will have received about 200,000 tons of coal this season. This entire amount is not for the Copper Range companies alone, but includes the coal that will be used at the Atlantic, Winona and Michigan mines, besides the Michigan smelters.

#### DENTISTS IN SESSION.

Annual Meeting of Houghton County Society Held at Hancock.

The third annual meeting of the Houghton County Dental society was held at the Hotel Scott, Hancock, Monday evening. The annual election of officers resulted as follows: President—Dr. W. J. Spender, Houghton. Vice President—Dr. A. G. Coggin, Lake Linden. Secretary—Dr. W. T. Ferris, Houghton. Treasurer—Dr. R. W. DeMass, Hancock.

Dr. N. B. Fox of Hancock read a very interesting paper on "Malnutrition." The dental hygiene committee reported that it had arranged for the distribution of over 50,000 circulars to the school children of the copper country in the care of the teeth. The dental society is working in conjunction with the Houghton County Anti-Tuberculosis society in teaching the children how to care for their teeth and thereby assist in the prevention of tuberculosis. The dentists have been criticized in some of the towns, it having been stated that the circulation of these circulars is a sort of advertising proposition and that they are working only to have the children have a lot of work done. The dentists insist that they are working for the good of the community.

There are now twenty-three members of the society. The secretary's report showed that at the meetings held during the year 92 per cent of the members had attended. Arrangements have been made for eight meetings and a clinic during the coming year. The annual clinic will be held in May. The next monthly meeting will be held at Calumet on the second Monday in December, and at that time Dr. W. F. Corbett of Houghton will display models of articulation of the teeth. The newly elected officers will be installed at that meeting.

#### Medical Society Meets.

The Houghton County Medical society also met at the Hotel Scott Monday evening. A large number of the Houghton county physicians attended. The feature of the evening was an illustrated lecture on "The Treatment and Prevention of the Hookworm Disease," by President F. W. McNair of the Michigan College of Mines. The address was a valuable one and several stereopticon slides were used to illustrate it. The lecture was followed by a very profitable discussion.

#### JUNK DEALER IN COURT.

Joseph Marcus of Hancock, who was arrested Saturday, charged with stealing sixty-five pounds of copper from the Michigan smelter, was taken before Justice Olivier Monday afternoon. He pleaded not guilty and demanded an examination. Some of the testimony was taken and the examination was adjourned until this afternoon at 2 o'clock.

#### PERCHE IS DISMISSED.

The case against Joseph Perche, charged with assault with intent to murder, has been dismissed in Justice Fisher's court, Calumet, because of lack of evidence. Perche was suspected of murdering an attempt to dynamite the residence of Frank Phillips at Tamarack Junior some time ago.

#### CHURCH CONVENTION AT HUBBELL TODAY

Regular Fall Meeting of the Lake Superior Congregational Association.

The fall meeting of the Lake Superior Association of Congregational churches will be held at the Hubbell church today, opening this morning with devotional services at 9:45. The meeting promises to be a well attended one. Rev. William Steensma of Chassell is moderator, E. S. Grierson of Calumet is assistant moderator and James Fisher, Jr. is registrar and treasurer. The program follows:—Forenoon—

Devotional Service—Led by Rev. Wm. Steensma.

Business.

Paper—The Work of the Holy Spirit, Rev. E. O. Colbeck.

Paper—The Source of Power, Rev. Fred Deighton.

Discussion.

Afternoon—

Devotional Service—Led by Mr. R. M. Corbett.

Women's Missionary Hour—Led by Mrs. Luther K. Long.

A Conference on Programs of the Churches for the Fall and Winter Campaign—Dr. J. W. Sutherland.

Address—What Practical Appeal Has the Gospel for Men?—Rev. Mandus Barrett.

Discussion.

Communion Service—Led by Rev's. Povey and Steensma.

Offering of ministerial relief fund.

Devotional Service—Led by Rev. Jesse Povey.

Offering for the general expense of the association.

Address—Is the Church Making Good?—Dr. J. V. Sutherland.

Report of the meeting of the National council and the 100th anniversary of the American board—Rev. Luther K. Long.

Each church affiliated with the association is entitled to representation by its deacons, deaconesses, clerk, treasurer and six delegates chosen for that purpose.

The Hubbell church has prepared a fine entertainment for the visitors. Dinner and supper will be served by the ladies.

#### METHODIST CONFERENCES.

Rev. James Pascoe Announces Dates for the Quarterly Meetings.

Rev. James Pascoe of Hancock, superintendent of the Houghton district of the M. E. church, will conduct the first quarterly conference of the Hancock church tonight. Last evening he was at the Hurontown church. Mr. Pascoe announces the dates of the quarterly conferences as follows: Nov. 10, Mo. Hawk; Nov. 11, Dollar Bay; Nov. 12, Lake Linden; Nov. 14, Baltic; Nov. 15, Centennial; Nov. 16, Ishpeming Finnish Mission and Ishpeming church; Nov. 17, Gwin; Nov. 18, Marquette; Nov. 19, Negaunee; Nov. 20, National Mine; Nov. 21, Salsbury; Nov. 22, Calumet; Nov. 23, E. Michigan; Nov. 25, Laurium; Nov. 26, Onondaga; Nov. 27, Allouez; Nov. 29, L'Anse and Baraga; Dec. 2, Amasa; Dec. 3, Iron Mountain; Dec. 5, Iron River; Dec. 6, Crystal Falls; Dec. 9, Sidway; Dec. 10, Bessemer; Dec. 11, Ironwood Mission; Dec. 12, Ironwood church; Dec. 13, Rossaville; Dec. 14, Ewen; Dec. 17, Outongou; Dec. 18, Rockland; Dec. 20, Michigamme; Dec. 20, Champaign; Dec. 21, Republic; Dec. 23, Winona; Dec. 28, Mass City; Dec. 29, Belt.

#### LUMBER MILLS CLOSING.

Season's Cut This Year Surpasses That of Last Year. With the approach of winter the saw mills in this district are suspending operations. The season's cut this year has been very good, although the official figures are not yet ready to be given out. The mill at Skanee owned by N. M. DeHass of Marquette ceased operations about two weeks ago. The season's cut was hardwood, mostly. The Nester mill at Baraga has not been in operation since the middle of the summer. The Baraga Lumber company will probably close this week, while Hebard & Son of Pequaming will probably operate their mill the greater part of this month. The different firms mentioned will all operate camps during the winter. Hebard & Son will get out the largest cut. The operations of this firm are confined mostly to Baraga county and about five miles from the sawmill plant. This firm during the past year has built a railroad of its own to transport the timber to the mill.

#### ST. PATRICK'S CLUB.

Social and Literary Institute of Hancock Reorganizes.

The St. Patrick's Social and Literary Institute of Hancock has reorganized for the season. The officers are as follows: Spiritual Director—Rev. T. J. Atfield. Moderator—Father Anthony. President—V. J. M. O'Connor. Vice President—F. W. Murphy. Recording Secretary—J. F. O'Neill. Treasurer—E. T. Carrigan. Custodians—W. B. Carrigan and Russell Conway.

Cases—Fred J. Buntbach. Standing Committee—Thomas J. Carney, Emmet Dwyer and Timothy Doyle.

The club begins this season with fifty-three members. It is planned to fit out a gymnasium. This gymnasium will be equipped in full style and when the improvements contemplated are completed the club rooms will be the finest of any young people's organization in this portion of the state. A committee has been appointed to arrange for a social and smoker in the club rooms the evening of Wednesday, Nov. 16. Neil Holland, chairman of the committee, says it will be the best yet conducted by the club.

#### DEATH OF MRS. MARY SHEA.

The funeral of Mrs. Mary Shea, who has passed away at Dollar Bay at the

# How you Tried?

Lydia E. Pinkham's Vegetable Compound? We can furnish positive proof that it has made many remarkable cures after all other means had failed.

Women who are suffering with some form of female illness should consider this.

As such evidence read these two unsolicited testimonial letters. We guarantee they are genuine and honest statements of facts.

Cresson, Pa.—"Five years ago I had a bad fall, and hurt myself inwardly. I was under a doctor's care for nine weeks, and when I stopped I grew worse again. I sent for a bottle of Lydia E. Pinkham's Vegetable Compound, took it as directed, and now I am a stout, hearty woman."—Mrs. Ella E. Alkey, Cresson, Pa.

Baird, Wash.—"A year ago I was sick with kidney and bladder troubles and female weakness. The doctors gave me up. All they could do was to just let me go as easily as possible. I was advised by friends to take Lydia E. Pinkham's Vegetable Compound and Blood Purifier. I am completely cured of my illness, and I am nearly sixty years old."—Mrs. Sarah Leighton, Baird, Wash.

Evidence like the above is abundant showing that the derangements of the female organism which breed all kinds of miserable feelings and which ordinary practice does not cure, are the very disorders that give way to Lydia E. Pinkham's Vegetable Compound.

Women who are afflicted with similar troubles, after reading two such letters as the above, should be encouraged to try this wonderfully helpful remedy.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

advanced age of eighty-nine years, was held yesterday morning with a rive at the Catholic church. The remains were taken to Calumet for interment. The copper country had been the home of Mrs. Shea for a long time and she had many acquaintances in Houghton county. She is survived by four children. These are: Mrs. Nelson DesRosier, Mrs. Sylvester Harrison and Daniel and James Shea, all of Dollar Bay.

#### HUNTERS LEAVING TOWN.

Advance Guard Going Out to Prepare for Tomorrow. The advance guard of hunters is going into the woods. Yesterday morning the departure of a large delegation who waited in town only long enough to vote. The hunters are headed in all directions, some going to Ontonagon county, others to the wilds of Keweenaw and still others to Baraga county. The total number of deer licenses issued up to noon yesterday was 700.

The deer season opens tomorrow, and the hunters who are going out now explain that they are getting on the ground a day or two before the open season in order to get their camps established and get settled for the hunt. The conditions are fairly favorable right now, but an additional fall of snow would be welcomed.

According to reports, deer are plentiful in the upper peninsula this fall. There have been fewer fatal hunting accidents the past few years, but at that rate a ghastly enough record. There is some evidence that hunters are more careful.

#### EPIDEMIC UNDER CONTROL.

The scarlet epidemic has not been routed from the village of Houghton, but the health authorities and school officials claim there are not any new cases developing so far as they are concerned.

#### BOYS' CLUB MEETING HELD.

A meeting of the Houghton and Hancock people interested in the organization of a boys' club in the Amphibious district was held at the Amphibious Monday evening. Two hundred or fifty persons were present. The evening was devoted to short talks explaining the purpose and aims of the prospective club. The speaker was Dr. Oakeshott and Principal Kelly of the Houghton High school spoke. Besides the speech the audience was entertained with selections by the high school orchestra, a dramatic play, step-dancing, demonstrations of the art of self-defense and an illustration of the possibilities of a stage make-up. The club will be formally organized at a meeting to be held at the red room in the Douglass House this evening at 8 o'clock.

#### BAR ASSOCIATION'S OFFICERS.

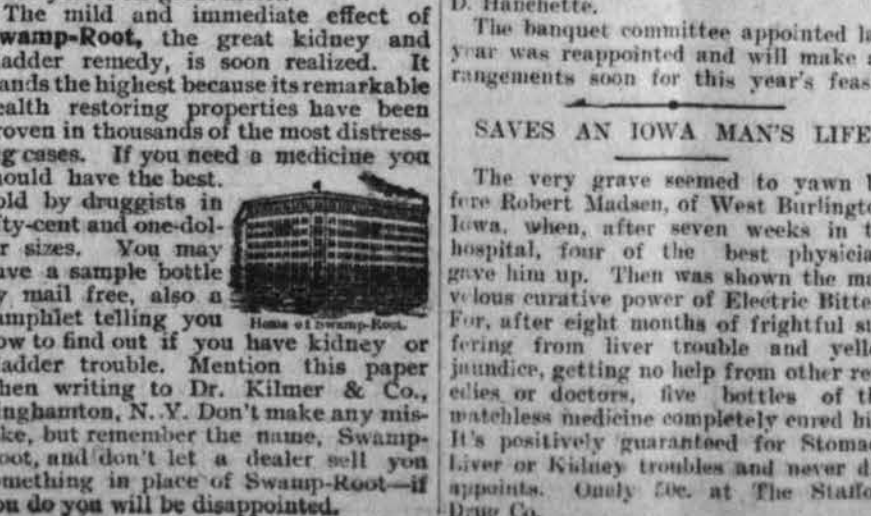

The Houghton County Bar association has elected officers as follows: President—Allen E. Rees. Vice President—Angus W. Kerr. Secretary and Treasurer—A. E. Petermann. Executive Committee—J. F. Hamblitz, W. A. Burritt, P. H. O'Brien and C. D. Banchette.

#### SAVES AN IOWA MAN'S LIFE.

The very grave seemed to yawn before Robert Madsen, of West Burlington, Iowa, when, after seven weeks in the hospital, four of the best physicians gave him up. Then was shown the marvelous curative power of Electric Bitters. For, after eight months of frightful suffering from liver trouble and yellow jaundice, getting no help from other remedies, a bottle of this paper medicine completely cured him. It's positively guaranteed for Stomach, Liver or Kidney troubles and never disappoints. Only 50c. at The Stafford Drug Co.

Often The Kidneys Are Weakened by Over-Work. Unhealthy Kidneys Make Impure Blood. Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit. The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N.Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

### Mining News

#### SHANNON.

President Amster is optimistic regarding the Shannon property. He says: "Shannon has closed one of the most important years in its history. The mine has during the year largely increased its ore reserves, but the most important development has been the discovery of high-grade ore on the lower levels at points heretofore considered barren and where the ore will average 2 per cent to 3 per cent above that mined in the upper levels. The company is now beginning to get the benefits of its reduced freight rates and the increased richness of the ore, and this year our showing of costs will compare favorably with most of the large copper producers. During the months of August and September the cost of copper at the mine was about 85¢ cents, and refined and delivered in New York, including all eastern expenses, the cost was a fraction over ten cents. We have reason to believe that this cost will be maintained this year and probably improved upon, for we have as yet not begun to ship from the high-grade ores in the bottom of the mine.

"It may be interesting to know that the Shannon company owns several other groups of mines outside of the Shannon mine proper, and that it has a controlling interest in two other groups in Clinton which are being operated. The two groups which the company owns outright have this year developed into very interesting properties. One of the mines shipped several hundred tons of ore that will average 20 per cent copper, although this property has not yet developed very large quantities of this high grade material. The purchase and development of these 'outside' properties has been accomplished out of earnings, during a period of low metal prices and with no increase in our capital liabilities, the company having as a matter of fact, reduced its bonded indebtedness to \$59,000 from an original issue of \$60,000.

"The mines and plant are in shape today to produce 2,000,000 pounds of copper per month, but so long as the present conditions exist we feel that it would be unwise to increase production to this figure. We have no present intention of putting out more than 1,500,000 pounds of copper per month until the accumulated surplus has been still further materially reduced. We shall continue for the time being to run only one of our three furnaces."

#### BUTTE COALITION.

Recent underground developments of considerable importance have taken place at the Butte Coalition property. These developments have been exceedingly favorable in the Mine Healy mine, where the ore bodies of the West Colusa are being encountered and developed. The ore is of a higher grade than the average ore of the mine, and occurs from the 1,400 to the 1,800-foot level. Butte Coalition will have distributed to stockholders \$3,700,000 in dividends, with the payment of the last quarterly dividend in December. The merger of the International Smelting & Refining stock, which returns 88 per cent, the receipts from the Anaconda amounting to \$1,440,000 and from the International Smelting company to \$24,000. The interest in the company's surplus, amounting to about \$4,000,000, may be added to this amount. It can be seen that Butte Coalition's profits will be above dividend requirements as long as dividends are maintained on the Anaconda and the International. At the present time Butte Coalition has outstanding 1,000,000 shares. The present rate of dividends on the stock call for the distribution of \$1,000,000 per year. Butte Coalition is noted for being a low-cost producer, and it is considered a desirable asset in the Anaconda and Anaconda-Anaconda companies.

#### SUPERIOR & PITTSBURG.

The directors of the Calumet & Arizona and Superior & Pittsburg companies have been making a careful examination of the two properties with the view of gathering definite information concerning the proposed consolidation of the two companies and the basis on which the exchange will be made. President Briggs is quoted as saying that in the near future a merger proposition would be submitted to the stockholders of both companies for their approval. It is known that the directors favor a consolidation and will endeavor to present an equitable basis. There is nothing of particular interest to report from the Calumet & Arizona and the Superior & Pittsburg. They continue to send 1,500 tons of ore daily to the smelter at Douglass and the values do not materially vary. The shaft at the Superior has reached the 1700-foot level, which is the deepest in the district. A shaft is now being opened and as soon as the work is completed a station will be cut and drifting started at this deep level. The output from the Superior now comes from the 1500-foot level and above, and these ore bodies will be cut at the deepest level. The pump equipment at the new Junction level will be entirely new and electric pumps will be installed instead of steam pumps, which have been used on the levels above. The smelters at Douglass are continuing to produce at a minimum rate for the year. The Queen has been running eight furnaces and the Calumet & Arizona four. At the latter smelter the fifth furnace is being rebuilt to a capacity of 500 tons from a 300-ton one. When this work is completed the plant will consist of five 500-ton furnaces and one 300-ton furnace. Before the present output at the plant could be materially increased a new stack would be required to accommodate additional converters.

#### HOUGHTON COPPER COMPANY.

It is expected that the Houghton Copper shares will soon be listed. The property is located between the Superior Copper and the Isle Royale, and more than one-half is allowed to carry the underlay of the Baltic lode. A drill has been put down near the center and a rich core was found. This is taken to indicate that the Baltic Superior lode crosses the property for the Isle Royale and the Baltic lode at a depth of 700 feet, within fifty feet of the Houghton Copper boundary line and the Superior

### PRYOR & SMITH BROKERS

37 Isle Royale St. HOUGHTON, MICH. Direct Private Wires to Boston and New York Stock Exchanges. Curb Mining Issues a Specialty. WILLIAM DUFFNEY, Manager.

is working on its lode within 200 feet of the boundary line. The Houghton Copper company is sinking a shaft which is now down more than 100 feet. So far as money needed for development purposes is concerned, the company is well off, inasmuch as it has about \$100,000 cash in its treasury and the Isle Royale and Superior mills are both available.

#### ARIZONA COMMERCIAL.

The Eureka shaft of the Arizona Commercial has reached a depth of 835 feet. The flow of water has fallen 0.33 per cent, and is decreasing steadily. The mine is pumping only 1,300,000 gallons a day as compared with 4,000,000 gallons at one time. The bottom of the shaft is practically dry. A depth of 900 feet in the shaft should be had by the end of this week. Sinking will continue to the tenth level, a depth which should be reached in five or six weeks. When the shaft has reached this point it will probably be necessary to cross-cut between 150 and 170 feet to get under the rich ore which has been demonstrated to exist at a depth of 150 feet. This ore has been cut by three drills between lateral limits of 600 feet, the indicated width of the vein being thirteen to sixteen feet. By the end of December, station cutting at the tenth level should begin preparatory to driving the crosscut for the veins already penetrated by the drills.

#### LITTLE MIAMI.

Although all work on the two groups of claims owned by the Little Miami Copper company is now at a standstill, the management expects that instructions to resume development will be forthcoming at no very distant date. It has been virtually decided that the first exploratory work will be done on the seventeen claims purchased from the Cole Development company last spring and located about twenty-two miles from Globe. The place selected for future exploration is the inclined shaft sunk 400 feet on one of the main veins in evidence on the property. This vein has been shown by cross-cutting to be thirty-five feet wide and the so-called core of rich streak in the center of the vein contains very high grade material. The average copper content for the entire width of the vein is held to be about 5 per cent. In the part of the property contained in Spring Gulch the company may eventually find that it has a stream shovel proposition as a tunnel driven into the hill side encountered a body of low-grade chalcocite ore at only a short distance from its portal and at a comparatively shallow depth. As steam

shovel work can be advantageously carried on provided there are 100 feet of ore for every 100 feet of overburden, the Little Miami ore body should be a workable deposit by this method should the tonnage prove to be great enough to justify the installation of such machinery.

#### WOLVERINE.

Wolverine's output figures for October showing 780,000 pounds produced, compares with 748,000 pounds in September and shows that the monthly production is averaging between 750,000 and 800,000 pounds monthly, slightly lower than the average some months ago. It is estimated that it costs the Wolverine about 7½ cents per pound to produce its copper, so at the present rate of production this would indicate earnings of approximately 88.00 per share, while the company is paying dividends of 85 per share semi-annually. At the date of the last annual report the company had a comfortable surplus of \$780,000. The principal work at present in the new shaft in the Occident lode is being confined to the construction of the collar. Some native copper has been encountered in this vein, but apparently insufficient depth has not yet been attained.

### RAILWAYS TEACHING THEIR MOTORMEN

Technical Courses in Especially Equipped Cars a Feature in New England.

Boston, Mass., Nov. 8.—Motoring a car on the Boston & Northern and Old Colony Street railway system is going to be done with more scientific precision in the future. A fair test has been given by the instruction department recently organized by H. W. Irwin, and the motor men are being given their first real scientific course of instruction so that they may not only know how to handle the cranks and levers on their cars, but may understand the electrical mechanism that responds to their manipulation of the cranks and levers on their cars. The two instruction cars, equipped for this purpose at an expense of \$25,000 or more, are making their first round of the systems, stopping on each division and at almost all the bars long enough to give a forenoon to five motormen at a time until all have been through it, and an afternoon to practical demonstrations with regular cars. These instruction cars will do away with the present system of "breaking in" new motormen and will impart knowledge to present and future employees which formerly they could not obtain in any way, and therefore could not thoroughly understand the cars they handle. So completely are these cars equipped with the parts that enter into the construction of cars and power machinery that every function of the electric trolley system can be reproduced and demonstrated in full view, even the mechanical accidents that some times happen on the line. It is said that nothing can happen to the mechanism of an electric car that cannot be duplicated instantly on these cars, so that the motormen may see the cause and effect. Many things may be done which the average motorman would be inclined to disregard before he had seen it in these cars and tried it in the actual operation of an electric car in the street. For instance, a car may be stopped and held on a hill without the aid of either the power in the trolley or the application of the brake. If it be a car with four motors, two of them may be turned into dynamo in an instant and they will generate power enough to operate the other two motors by which the car may then be held or let down to a safe speed. A car with two motors can be operated in the same way. If the motorman can operate his lever understandingly he can save both power and material, and this is one of the reasons why the companies are spending large sums of money on the instructions for their employees. Each instruction car stays at a barn so long as there are motormen to instruct. Then it moves to the next barn, and the superintendent assigns five men to it every forenoon. In each car there is an instructor.

#### PILES CURED IN 6 TO 11 DAYS

PAZO OINTMENT IS GUARANTEED TO cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days or money refunded. 50c.

#### SHALL WOMEN VOTE?

If they did, millions would vote Dr. King's New Life Pills the true remedy for women. For banishing dull, lagged, aching, backache or headache, constipation, dispelling colds, purifying complexion and toning up the system, they're unequalled. Easy, safe, sure. 25c at the Stafford Drug Co.

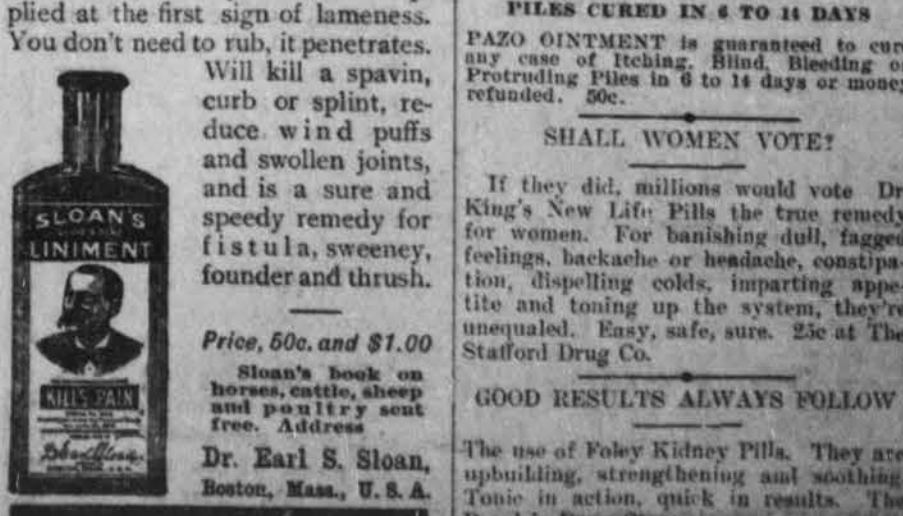

#### GOOD RESULTS ALWAYS FOLLOW

The use of Foley Kidney Pills. They are unbuilding, strengthening and soothing. Tonic in action, quick in results. The People's Drug Store.

### SLOAN'S LINIMENT

should be in every stable and applied at the first sign of lameness. You don't need to rub, it penetrates. Will kill a spavin, curb or splint, reduce wind puffs and swollen joints, and is a sure and speedy remedy for fistula, sweeney, founder and thrush.

Price, 50c. and \$1.00 Sloan's book on horses, cattle, sheep and poultry sent free. Address Dr. Earl S. Sloan, Boston, Mass., U.S.A.

Today's weather: Unsettled with  
snow flurries.  
Yesterday's temperature: Seven a.  
m., 24 degrees; noon, 33 degrees; 7 p.  
m., 34; highest, 35; lowest, 23.  
A Mathews went to Crystal Falls last  
evening on business.  
The Ladies of the Maccabees of the  
World will meet at Keough's Hall this  
evening.  
The Alpha Delta society will meet  
this evening with Miss Marion Bath-  
way, N. Third street.  
Mr. and Mrs. Max Reynolds arrived  
home yesterday morning from a two  
weeks visit in Chicago.  
A dance with music by the Finnish  
band will be given at Bureau's Hall  
the night of Nov. 12.  
Mrs. H. J. Stevens, of Houghton, is  
the guest of Mrs. M. J. Griffin, 412  
West Washington street.  
The W. C. T. U. will meet with Mrs.  
H. B. Hatch, 1314 North Third street,  
this afternoon at 3 o'clock.  
Mr. and Mrs. Guy Reed, of Superior,  
are visiting at the home of Wm. H.  
Preston, 923 North Third street.  
Chauncey Dougherty and Miss Sadie  
Morris will be married at St. Peter's  
church at 8:30 this morning.  
The two-year-old son of Mr. and Mrs.  
John Stenglein fell out of bed Monday  
night and broke his arm just above the  
wrist.  
The Finnish band will give a con-  
cert at Keough's Hall Thursday night,  
Nov. 17. There will be dancing after  
the musical program.  
Chas. F. Button, Fred Cleveland,  
Frank H. Withey and John Mark left  
yesterday on a ten days' hunting trip  
in the vicinity of Skanee.  
Brett Read will leave this week for  
Detroit, where he expects to spend the  
winter. He will drive his Chalmers-Detroit  
car to that city, and will probably  
make the trip by way of Iron Moun-  
tain.  
A. H. Meyer is now a happy grand-  
father. Yesterday he received a tele-  
gram from Einar Tellefsen, of Detroit,  
announcing the birth of a son, Monday  
night. Mrs. Tellefsen is Mr. Meyer's  
daughter.  
Inspectors Gooding and York will leave  
today for Ontonagon to inspect the tug  
Tramp, which will be used to fish for  
berber by the Booth interests. The  
Tramp has been out of commission for  
a year or more.

**Bowling Scores**

The Square Deals won three straight.

**Restaurant Changes Hands**—Charles  
Christian has disposed of the Queen  
City restaurant to J. R. Penny, former-  
ly of Chocoley, who took charge of the  
business yesterday. Mr. Christian will  
continue his entire attention to conduct-  
ing the saloon adjoining the restaurant.  
Mr. Penny has been the proprietor of a  
store at Chocoley for four years and is  
well known in this city.  
**First Catch of Herring**—The tug Co-  
lumbia came in yesterday with the first  
catch of herring of the season. Only a  
few fish were caught as the nets are not  
many nets set as yet, but the fish are  
said to be coming in to shore in large  
numbers. The Elhel J., and Thora are  
setting nets and will likely lift today.  
The Silver Spray, which also will fish  
herring from Marquette, will not ar-  
rive until the 10th.

**Few Traveling Men Out**—Business at  
the local hotels is rather light this week,  
many of the commercial men have  
gone to their homes to vote. Hotel  
men state that business is usually light  
election week but that from now until  
Dec. 15 the hotels will be well filled.  
During the holidays there is little doing  
in the hotel business but after Jan. 10  
there is another rush period, as all the  
traveling men are out with the spring  
lines of goods.  
**Washington Street Car**—Beginning to-  
day, street car service on West Wash-  
ington street will be discontinued until  
next spring. This car has been taken  
off in the winter time for several years  
past. The car to Holy Cross cemetery  
on Wednesday and Friday afternoons  
has also been discontinued during the  
winter. Beginning Sunday, the first car  
will leave Baraga avenue and Front  
street at 6:30 a. m. instead of 5:30 a. m.  
**Agency for High Class Car**—The Pio-  
neer Motor company has taken the local  
agency for the Premier Motor Manu-  
facturing company, manufacturers of  
high grade automobiles, selling at from  
\$2,000 to \$3,500. This is the only high  
class make of car sold in this city, and  
heretofore, those who purchased cars of  
that character had to buy them out of  
town. The Premier made the best re-  
cord in the 1910 Glidden tour, the annual  
national endurance run.

**Had Another Good Crowd**—Barnum  
and Bates had another large and ap-  
preciative audience at the opera house  
last evening. Barnum hypnotized a  
good sized class and while under the in-  
fluence, they did many things which  
were very amusing to the audience.  
Barnum's "Nippon's prison" act, in which  
he unshackled himself under water, is a  
spectacular performance and is one of  
the best features of the program. The  
company will give another show this  
evening.  
**Children Caught Stealing**—Three  
girls, the oldest of whom was perhaps  
twelve and the youngest eight, were  
caught stealing ribbons and other fin-  
ery at the J. J. Foster company's store  
yesterday. The articles were taken by  
the older girls and when they saw they  
were caught, they passed the stuff over  
to the smallest child, who, when ques-  
tioned, stated that the three had stolen  
articles in a similar manner at West  
lake's store a few days ago. Mr. Mey-  
er, manager of the Foster store, keeps  
a close watch for shop lifters and per-  
sons who attempt that sort of thing  
are likely to get into trouble.  
**Exodus of Hunters**—Many hunters left  
for the woods yesterday to be in readi-  
ness for the opening of the deer season  
tomorrow. An especially large crowd  
went up on the train to Birch and Big  
Bay yesterday morning. Over 600  
licenses had been issued at the county  
clerk's office up to last evening, which  
is more than usual two days before the  
opening of the season, making it likely  
that an unusually large number of local  
hunters will go after deer this year.  
Many hunters are coming across the  
straits daily and the heavy business  
made the west bound train yesterday  
afternoon nearly an hour late. More

favorable weather than for several years  
past has undoubtedly induced an un-  
usually large number to go into the  
woods this season.  
**INSURE WITH PETER WHITE & CO.**  
**500 CANAL PASSAGES.**  
List of Boats That Have Passed the  
Locks Bound for Superior Ports.  
Sault Ste. Marie, Mich., Nov. 8.—  
The following boats have passed  
through the locks, bound for ports on  
Lake Superior: Thomas Barlow, 9 p.  
m.; Joseph Wood, 11:30; Wolvin, 1 a.  
m.; Sonoma, 6:30; Ranny, 7:30; An-  
drews, 10; Paine, Athabasca, Wickwire,  
Jr., 11; Gratiwick, (small), Moore, Gay-  
ley, noon; Nike, Peterson, Norris, Drum-  
mond, 1:30 a. m.; Zillah, Postuga, Dela-  
ware, Three Brothers, Kaminitiqua, 2;  
Arabian, 5:30.

**COMMUNICATED.**  
Editor Mining Journal—In my com-  
munication of Saturday prices were given  
from one of the so-called high class  
meat markets of Detroit. Below are  
the prices charged every day by Lamkin  
Bro., 125 Michigan avenue, Detroit:  
Choice roast chickens ..... 17c  
Hind qr. mutton ..... 12c  
Front qr. mutton ..... 9c  
Prime roast beef ..... 12c  
Boneless roast beef ..... 11c  
Sirloin steak ..... 14c  
Honey cured hams ..... 16c  
Hamburg steak ..... 10c  
Round steak ..... 12 1/2c  
Roasts veal ..... 13c  
Hind qr. lamb ..... 15c  
Front qr. lamb ..... 12c  
Pork steak ..... 13 1/2c  
Leaf lard ..... 13 1/2c  
The following prices were quoted Mon-  
day by the Central market, of Mani-  
towish:  
Bacon ..... 24c  
Pork chops ..... 18c  
Round steak ..... 16c  
Sirloin steak ..... 18c  
Porterhouse ..... 20c  
It seems to me that the present  
wholesale price of meat does not war-  
rant the dealers here in charging the  
exorbitant prices that the people have  
to pay, and the meat we get here is  
not any better than that sold in other  
places. Thousands of dollars go out  
of this city every month for meat and  
other staples that could be handled by  
the merchants if it were not for the  
high prices. If the retailers are in  
earnest in their claims I would like to  
see the question of prices investigated  
by an independent committee of citi-  
zens, one to be named by the banking  
interests, one by the mayor, one by the  
president of the Commercial club, one by  
the editor of The Mining Journal and  
one by myself, when I will place fig-  
ures before them that I think will con-  
vince them that we are paying from 50  
to 100 per cent more than is necessary  
and still allow the dealer a fair profit.  
This ends the discussion as far as the  
writer is concerned.  
A MEAT EATER.

**WILL PROMOTE BEAUTY.**  
Women desiring beauty get wonderful  
help from Bucklen's Arnica Salve. It  
banishes pimples, skin eruptions, sores  
and boils. It makes the skin soft and  
velvety. It glorifies the face. Cures sore  
eyes, cold sores, cracked lips, chapped  
hands. Best for burns, scalds, fever  
sores, cuts, bruises and piles. 25c. at The  
Stafford Drug Co.

**SPECIAL HUNTERS' EXCURSION  
TRAIN.**  
The Marquette & Southeastern railway  
will run a special hunters' excursion  
train, from Marquette to Big Bay and  
return, on the following Sundays: No-  
vember 6th, 13th and 20th. The train  
will leave Marquette at 6:30 a. m.;  
returning, will leave Big Bay at 5:00  
p. m., making the usual stops between  
Big Bay and Marquette. As this train  
will not handle baggage, it will be ne-  
cessary for parties having other than  
hand baggage to arrange to make ship-  
ments of their baggage by freight on  
Saturday, which will require delivery at  
the M. & S. E. railway freight station  
not later than 6:00 p. m. Friday night.

### ERICSON-GYLLING NUPTIALS YESTERDAY

Popular Couple United in Marriage at Home of Bride's Father on High Street.

Rudolph Ericson and Miss Edith Willhelms Gylling struck a march on their friends yesterday afternoon, when they were married at 4 o'clock at the home of the bride's father, J. F. Gylling, on High street. The bride was attended by Miss Pansy Milden and Dr. W. S. Picotte supported the groom. Rev. S. Bergdahl, pastor of the Swedish Lutheran church in Republic, read the English Lutheran marriage service. The bride wore a gown of white satin, trimmed with brussels and rose point lace. There were no guests present.

At the conclusion of the ceremony the members of the bride's party partook of a dinner, after which Mr. and Mrs. Ericson left the city on their honeymoon trip, which will be spent in Milwaukee, Chicago and other cities. They will be away a week or so and upon their return will move to Iron River, Mich., their future home. They will be accompanied by Mrs. Ericson's father, who will make his home with them.

Both Mr. Ericson and his bride were born and reared in Ishpeming and they are both graduates of the local high school. The bride is an accomplished musician and she is highly esteemed and has many friends here. Mr. Ericson is one of the most promising young mining men in the Lake Superior district. After finishing his high school course he took a position in the engineering department of the Pittsburgh & Lake Erie Iron company under E. F. Bradt. After Mr. Bradt resigned Mr. Ericson was placed in charge and he filled the position with credit until a few months ago, when he resigned to accept the superintendency of the New York State Steel company's properties, near Iron River, on the Michigan coast. Two shafts are now being sunk and both properties will produce ore next year. A force of sixty-five men is employed, sinking the shafts, erecting buildings and installing the machinery. The company has just completed a home for Mr. Ericson at the mines, which are located about a mile and one-half from Iron River.

### "MY CINDERELLA GIRL."

One of Chicago's Successful Musical Shows Will Be Seen Here Soon.

Arrangements have been completed whereby Chicago's most successful musical comedy, "My Cinderella Girl," will be produced at Ishpeming theater on Tuesday evening, the 23rd. This attraction broke the long record of last year in Chicago, having played 310 performances at the Whitney opera house. The business was so big that the attraction was continued during the hot weather of the summer. The same company and massive scenic production seen at the Whitney is coming this way intact.

The play is by Richard Walton Tully, co-author of "The Rose and the Ranelagh," with David Belasco and Robert M. Baker. The music is by William Frederick Peters, who composed the tuneful score of "The Mayor of Tokio." The many musical numbers have been artistically staged by Gust Sohlike, who is responsible for the staging of not only the Whitney opera successes, but the Casino theater shows as well.

It is reported that "The Cinderella Girl," since opening the season in Chicago, has been drawing capacity audiences everywhere. It recently completed week engagements at the Davidson theater, Milwaukee; Century theater, St. Louis; Willis Wood theater, Kansas City, and Brandis theater, Omaha.

### BASKETBALL TO START.

Young Men's Christian Association Teams Will Begin Work This Week.

Basketball will be started at the Young Men's Christian association's gymnasium tomorrow evening. The team that represented the organization in games with outside fives last season has been reorganized and it will line up against a second team for the opening practice tomorrow evening at 8 o'clock. It is anticipated that a number of outside teams during the coming winter. The managements of several teams have written for games and some of them are to make a tour of the upper peninsula, arranging contests with all of the best teams in this section. Besides the regulars of last year's team several fast men are in line to try out and a strong five will represent the "Y" this season in this popular indoor sport.

The boys of the Junior B class played two very interesting games of basketball in the league series Monday afternoon. The Highlanders trimmed the Cubs, 20 to 7, and the Yankees defeated the Giants, 13 to 7. The standings of the teams is as follows:

Team	W.	L.	P.C.
Highlanders	5	0	1000
Yankees	2	2	500
Cubs	2	2	500
Giants	1	4	200

The Junior A class leaders corps organized Monday afternoon and met at 5:30 for their first lesson in class leadership. The corps will study basketball, gymnastics and games and will meet every Monday afternoon at 5:30 o'clock.

The Senior class indoor basketball teams will have their second meeting tonight, commencing at 7:45 sharp. There will be two games, Martin and Nicholls' teams meeting in the first for the second contest, which will start at 8:45.

### MANY LEAVE FOR THE WOODS.

A number of hunting parties left yesterday for the woods and all will be well settled in their camps by tomorrow morning, when the deer season opens. Among those who went out were Capt. Frank Platto, Charles Johnson, Peter Gunnerson and several others. They will hunt in the district south of here in the vicinity of Flat Rock. Geo. Grummett, Sr., and his sons, George, Jr., and James, William Utzie, Albert Drake and Ed. Veliu, will leave today for the district north of Clowery. Fred Smith, a former resident, who is now located at Elk Rapids, arrived yesterday, accompanied by two friends, Pat Rooney and John Merrill. They will leave this morning for Camp Nine and will be accompanied by John Lacey and John A. Anderson of this city. C. T. Kruse and Dr. T. Morgan will leave today for Mr. Kruse's camp, south of the city. They will be joined later in the week by Captain Thomas Walters and W. T. Potter. Messrs. Herman Jaedecke, Fred Ongie, John S. Meunie and John S. Anderson will leave this morning for Camp Florence, in the south district, where they will spend a week or so.

### BROKE THE LIBRARY RECORD.

Last Saturday 521 books were issued at the Carnegie Public Library for home reading. This was the largest number ever given out in a single day, although the total books drawn for home reading have several times exceeded 475. The patronage of the library is increasing steadily.

### ISHPEMING IN BRIEF.

A son was born yesterday morning to Mr. and Mrs. "Bony" Dixon.

Michael Losselyoung who has been critically ill for some days past, is improving.

A daughter has been born to Mr. and Mrs. Edward Luturi, 208 South Second street.

Miss Anna Sheridan of New York, N. Y., is in the city visiting her sister, Mrs. J. H. H.

Joseph Mitchell, a well known resident of Beacon, and owner of the Mitchell block, corner Main and Division streets, was in the city yesterday.

Miss Mary Anderson of North Third street has gone to Chicago, where she will be a patient at the Mercy hospital. Miss Anderson has not been in good health for some time past.

The regular monthly meeting of the

### STOCKHOLDERS' MEETING.

Notice of Meeting of the Stockholders of the Grummett Gold & Silver Mining Co.

Notice is hereby given that a special meeting of the stockholders of the Grummett Gold & Silver Mining Company will be held at the residence of Mr. E. Grummett, 409 Cleveland avenue, Ishpeming, Michigan, on the seventeenth day of November, A. D. 1910, at two o'clock in the afternoon, for the purpose of selling the property of the company and winding up its affairs.

GEORGE GRUMMETT, President.  
(10-18-10nes)

### A HOUSEHOLD MEDICINE.

To be really valuable must show equal good results from each member of the family using it. Foley's Honey and Tar does just this. Whether for children or grown persons Foley's Honey and Tar is best and safest for all coughs and colds. The People's Drug Store.

## The Miner's National Bank

ISHPEMING, MICHIGAN.

Capital, \$100,000  
Surplus, \$90,000

### United States Depository

We solicit your business, large or small, and we pay interest on all savings accounts. We sell money orders payable in all parts of the world. Get our rates before you buy elsewhere.

**DIRECTORS:**  
D. T. MORGAN, F. BRAASTAD, A. B. MINER, W. H. JOHNSTON, A. MAITLAND, H. O. YOUNG, JAMES CLANCEY, DR. T. A. FELCH, M. M. DUNCAN.

F. BRAASTAD, Pres., A. B. MINER, Cashier, H. O. YOUNG Vice Pres., O. G. AAS, Ass't Cashier, GEO. HATHAWAY, 2nd Ass't Cashier.

council will be held this evening at 7:30 o'clock and a special meeting will probably be held Thursday evening to canvass the vote in yesterday's election.

The ladies of the Swedish Missionary society will serve coffee this afternoon at 2 o'clock in the Young People's hall at the rear of the Swedish Lutheran church property. They invite their friends to attend.

John Skoglund, of the boat and shoe firm of Skoglund & Ohman, and Mrs. Clara Setterquist, who some days ago stole a march on their Ishpeming friends, when they were married in Chicago, are expected home today.

The men who have been working in the Peninsula bank for the past two weeks, installing the marble counters and mahogany furniture, are making good progress. The counters are all in position, though it will be several days before the last of the furniture is set up. The tile floor work and decorating is still to be done.

Fred and Joe Erditz, John Raindi and Joseph Birmingham of Menominee, who have hunted deer in the woods north of Ishpeming every year for several seasons past, will be up from there Sunday. They will be accompanied on the trip by Steve Simons and Dave Spencer of this city.

The Cleveland-Cliffs Iron company's pay days will take place this month as follows: Lake and Hand Ore, next Monday, the 14th; Cliffs Shafts and Salisbury, Tuesday, the 15th; Mass, Negaunee and Jackson, Wednesday, the 16th; Imperial and North Lake, Friday, the 18th, and the Swanzy range district Saturday, the 19th.

M. M. Duncan, agent of the Cleveland-Cliffs Iron company, who, with his family, spent the past three months abroad, will sail from Europe next Saturday on the return journey. They are expected to arrive in the city about the 25th.

Miss Nellie Kane, who spent the past few days visiting friends in the upper country, will return today.

### SOCIETY AWAIT'S HELEN

President's Daughter to Make Her Formal Debut in the Fashionable World Soon.

SMART SET IS INTERESTED.

White House Young Woman Inherits Intellectual and Social Gifts from Both Parents.

Washington, Nov. 8.—Kindly is the light that is now turned upon a prospective White House debutante Miss Helen Taft, who since it is assured that she will take her place in the great world this winter has become a person of much consequence to all those to whom society is of paramount importance. Her likes and dislikes, the amusements she favors and the friends she prefers are all being anxiously considered by a large number of persons, chief of whom are the mothers of other prospective debutantes.

Miss Taft, far from being a stranger to Washington, has already hosts of acquaintances among the girls of her own age. But the White House circle and society in general have so long been accustomed to look upon Miss Helen either as a little girl in the nursery or as one determined upon a college diploma that the thought of her in the role of a young woman of fashion is still somewhat new to them.

Yet Miss Taft demonstrated what she could do in that line last spring, when she acted as hostess for the school girls place as hostess at the dinner given in honor of a visiting Japanese prince. For the first time society saw Miss Taft as a charming young woman.

The guests received a distinct surprise when they beheld the complete metamorphosis of the chubby little school girl. Her first low-cut frock was becoming, her hair was elaborately coiffed, and it should be noted that she wore golden opinions for the admirably poised manner in which she carried herself on an occasion which could not have failed to be somewhat trying for so young a hostess.

### EDUCATED WITH THOROUGHNESS.

The daughter of the White House will be one of the best equipped young women who have ever been presented to Washington society. She has been educated with that thoroughness for which Mrs. Taft is famous, and in addition she has inherited the intellectual and social gifts of both parents.

One of the stories most frequently told around Washington to illustrate Miss Helen's complete lack of vanity is one which relates to a request for her picture sent by a well known magazine at the time of her father's inauguration. Miss Taft brought forth a well worn amateur picture representing her in a group of schoolgirl friends. "I think that will do nicely, don't you, mother?" she inquired.

The magazine representative protested that his publication would hardly care to print so unflattering a portrait of the first young lady of the land. "But I haven't any others," protested Miss Taft. "I think maybe they can make this do."

Miss Taft deprecates the fact that she has not inherited her mother's talent for music. But she is an uncommonly fine linguist, speaking Spanish, French and German with fluency and precision. She has acquired a remarkable knowledge of Latin and has found it of great benefit in mastering the other Romance languages.

Cares Nothing for Athletics.

Miss Taft has no great fondness for athletics, but she is an expert in motor-riding. She handles a runabout with the skill of an experienced chauffeur, and looks her best when spinning down street in a smartly equipped electric runabout.

Miss Taft inclines to the conservative in dress, and does not favor exaggerations of the prevailing modes. She likes blue, both in the ciel and Alice tones. She shares, too, her mother's liking for pink, and like Mrs. Taft, seldom looks so well as when arrayed in this color. Miss Taft's hats frequently show touches of blue, and her wardrobe in-

## SCROFULA

### HEREDITARY BLOOD POISON

Scrofula is a disease manifested usually by a swelling and ulceration of the glands, especially about the neck. It is almost entirely hereditary in its origin, being the dregs or remains of some specific blood poison. Where the blood is greatly weakened with the scrofulous poison, the disease attacks other portions of the system besides the glands, and then we see its effects in weak eyes, poorly developed bodies, running sores and ulcers, skin diseases, especially on the scalp, catarrhal troubles, etc. Scrofula usually makes its appearance in childhood, though manhood or womanhood may be reached before the poison progresses to the stage of outward manifestation. S. S. S. is the one real cure for Scrofula. It is a blood purifier without an equal, and it cures this destructive blood poison by removing every trace of the infection from the circulation. S. S. S., in addition to cleansing and purifying the blood, assists the stomach and digestive members in the creation of new blood corpuscles and other nourishing matter for the circulation. S. S. S. increases the resistive powers of the system and by strengthening and building up the vitality, allows nature to make a perfect and lasting cure. Book describing the disease and any medical advice sent free to all who write.

THE SWIFT SPECIFIC CO., Atlanta, Ga.

## IMPORTANT VICTORY FOR THE NEGROES

Decision Holding Maryland's Disfranchisement Illegal Is a Sweeping One.

Baltimore, Nov. 8.—That the fifteenth amendment to the constitution of the United States cannot be nullified or the negro be disfranchised by "grandfather" clauses, educational or property tests, and that the disfranchisement act applies not only to congressional, but state and municipal elections as well, is the sense of the decision handed down by Judge Thomas J. Morris, of the United States circuit court here.

The decision is also important in that it will be carried to the supreme court of the United States and permit the first clear and well defined decision on the legality of the various subterfuges adopted in the South to disfranchise the negro. The issue has been before the highest court of the land, but always accompanied by entangling or compromising questions that prevented a direct adjudication of the "grandfather" clause direct.

Another effect of the decision of Judge Morris is to keep Maryland in the rival of politically doubtful states. The rival political parties here are about evenly divided. The independents hold the balance of power. The organization Democrats have time and again planned to establish themselves in power by eliminating the negro vote from the Republican party. Seeing that they would lose their commanding position should the Democrats carry out their scheme, the independents have stood by the Republicans and the black man, to maintain the balance between the two old parties and their own commanding position.

And Judge Morris holds that the state law is not only void, but that the registration officials who attempt to enforce it may be held responsible and sued for damages. As a result, the Democrats see no hope of drafting a valid law that will disfranchise the negro solely because of his racial color. Judge Morris has declared unconstitutional all the various devices being used in the South to wipe out the colored vote. According to his contention, it seems impossible to disfranchise the negro, yet the South is doing it constantly through the laws that, he declares, are void and null and in direct conflict with the federal law, the supreme test in the matter.

## DON'T GET RUN DOWN

Weak and miserable. If you have kidney or bladder trouble, dull head pains, dizziness, nervousness, pains in the back, and feel tired all over, get a package of Mother Gray's AUSTRALIAN-LEAF, the pleasant herb cure. It never fails. We have many testimonials from grateful people who have used this wonderful remedy. Ask your druggist or mail for 50 cts. Sample FREE. Address: The Mother Gray Co., Le Roy, N. Y.

For pains in the side or chest dampen a piece of flannel with Chamberlain's Liniment and bind it on over the seat of pain. There is nothing better. For sale by The People's Drug Store, S. B. Jones, Prop.

# Banking Service

When the rooms equipped by this bank were planned, no detail was omitted which could in any way add to the efficiency of the service which the bank renders. Every modern device that aids in promptness and courtesy has been installed, and careful attention has been given to the selection of men adapted to the work which they are called upon to perform.

You are cordially invited to avail yourself of the unexcelled services which this bank affords.

### SAVINGS DEPARTMENT.

Saving deposits of \$1.00 or more are cordially invited and interest is allowed on the money at the rate of 3 per cent, compounded twice a year. Try saving a part of all the money that comes into your hands. Many of the substantial fortunes in this country have been started by careful saving. A little money in the bank is always a safeguard against misfortune and sickness.

### BANKING DEPARTMENT.

Accounts subject to check are invited in any amount, enabling our depositors to protect the money which they have on hand for personal or household expenses against loss by fire, burglary or other mishap. When you deposit all of your money and pay for all expenses by drawing your own personal checks, you always have receipts for your payments and do not have to check at the end of the month.

## HUNTERS TO WEAR A BRIGHT RED

Novel Law to Restrict Human Slaughter Proposed in the Vermont Legislature.

Montpelier, Vt., Nov. 8.—Vermont hunters will be garbed in a bright red during the open season if a measure pending in the Legislature becomes a law. Representative Gillett of Richmond is the author of the bill, which provides a penalty of \$100 for non-compliance with its provisions.

Just how extensive or how detailed will be this uniform, the reader cannot imagine from the dispatch. But it seems a vital matter. Thousands of hunters would wear a red sweater, in the woods at least, but they resent the suggestion that they must wear a pair of red breeches. If it were left to individual tastes with only the demand that there must be something red about the person when hunting the woods would be transformed into a phantasmagoria of shifting scenery, pleasing to the eye, but confusing to the animals.

Why not be consistent, dignified and

expressive in the matter of costume? The red sweater seems essential, but even this feature of the costume could stand modification. The hunter might wear a red sash with long tassels down the left side. As for trousers they should be red. It would be a hardship if the hunter's hat should be of a different color, and reaching only to the top of the shoes. Better should the law read that the trousers should be worn as suits the fancy of the wearer, thus allowing the picturesque use of high rubbers or leather boots of the guide and experienced woodsman, as well as the ruffled high-topped shoes of the city sportsman.

The hat should be distinctive. It could be a Turkish fez or the chipper Fedora of the German kaiser of the hunting field. The German hat is brown, according to the impression gained by the magazine where it is pictured, but the Vermont hunter's hat should be of course be red. But there should be something else there. Would not a lion's tooth, a rabbit's hind foot or a pheasant's tail feather be a suitable ornament for the back side of the headpiece. Would it not lend just that sort of distinction that all correct people, man or woman, desire in their clothing? Red gloves are not a necessity. No sane-minded legislature this side of Siam would demand it. It would be pushing the joke altogether too far. The Vermont legislature must provide surely for uniformity of uniform. There can be no hit-or-miss policy. There is only one way to plan for this

feature, and that is by the appointment of a state commission with power to enforce the law. This commission should visit the homes of the hunters and follow them into the woods. They should advise the housewife as she laboriously toils over her husband's outfit and follow the hunter to insist that he provide a fresh crease in his trousers at least once in every twenty-four hours.

The governor of the state has a great responsibility here. He must name a commission which will measure up to the highest ideals of character; they must be men who can take care of every detail without flinching. But above all else, they must be men who are not color blind; red as a color is deceptive. How the state would be laughed at if special commissions from other states of the Union, appointed by governors, were sent to the Vermont woods to study the practical working of this new law and found hunters there in uniforms of every hue of red from vermilion to orange and blue of red to crimson!

What effect will red costumes have upon the poor innocent deer and moose of the woods? That result will naturally give Vermont a reputation in the world of science paralleling that which she receives in the sartorial world and the world of sport. Off hand, one might say this: The best animals, those worldly-wise, inquisitive and assertive, will look at the hunter's red trousers and that jaunty little hat perched on the left side of the hunter's head, smile (but not long enough to oblige the hunter with a good target) and run away as fast as their legs will carry them.

But the younger animals, those the hunter would not shoot, will be paralyzed with the first glance. What unsophisticated person or animal could stand such a show without being transfixed.

The third thought is this: Vermont farmers will welcome the law because it will result in rivalry among the housewives in the operation of costumes. The farmer's wife will come to regard the fixing up of her husband's red trousers and his little hat as one of the delightful pleasures of the household. It will take its place with the canning of the tomatoes and the fruit and the stringing of the dried apples. Happy will be that farmer's wife who with her deft touches and precise sewing wins the praise of her neighbors. That of the commission on Uniformity of Costume and Regularity of Practice when they visit her house. The Vermont housewife is proud of her talents. This is her great opportunity. Lastly one might suggest that every year, on the day when the law goes into effect, the governor call the hunters forth from the forests and review them as they march past.

### A FLOATING ISLAND.

The crew of the bark Atlas, which arrived at Seattle recently after rounding the Horn from Philadelphia, reports a queer discovery for one day of the 138 of her voyage. She had been out many days without seeing anything—only three ships were seen on the entire trip—when one morning in the Pacific the lookout reported that he had sighted land off the port bow where no land was supposed to be. Nor could any be found on the charts. It seemed too good to be true, but the captain ran toward it. It proved to be land, right and thick low underbrush. Birds and a few monkeys were seen upon it, but no other signs of life. These precluded the possibility of the island being of volcanic origin, and leads the captain to claim it is a floating island. He believes that it was washed out to sea from the delta of the Rio de la Plata or the Negro, and that the undergrowth was so thick that its roots held the whole together. As he saw trees tumble into the water from the island's edge before he sailed away his theory appears to be somewhat substantiated.

### WHEN HER BACK ACHES.

A Woman Finds All Her Energy and Ambition Slipping Away.  
Marquette women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headache, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Marquette woman's words: "Mrs. Hattie Parker, 175 W. Crescent St., Marquette, Mich., says: 'I am constantly recommending Doan's Kidney Pills to my friends who are in need of a kidney remedy. I do not hesitate to confirm the testimonial I gave in 1903, publicly recommending this remedy. My back ached a great deal and I had severe pains in my sides and loins. Headaches and dizzy spells were common and I was often very nervous. I did not rest well and I arose in the morning feeling all tired out. I finally procured Doan's Kidney Pills from the Stafford Drug Co. and through their use I was given complete relief.'"

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

# Negaunee Department

## FIRE FIGHTING IN EARLY DAYS

Old Records Show That the First Engineer Was "Fired" for Incompetency.

The members of No. 1 hose company of the Negaunee fire department conducted their monthly meeting Monday evening in the old house under unique conditions. All of the furniture, with the exception of the billiard table and piano, was some time ago removed to the department's new headquarters, and all of the lights had been taken out. While there was a little business to transact the members did not care to pass up the meeting as they thought it would perhaps be the last one they would hold, as it is understood that both hose companies will be disbanded as soon as the new by-laws are approved.

The members of the company stood around the billiard table while the meeting was in progress. There was only one incandescent lamp in the room, and the place was not as cheerful looking as it formerly was. The company decided to have the old record books removed to the city recorder's office, for safe keeping. These books contain much interesting information concerning the early activities of the fire department. The first hose company was organized in 1875 and in 1875 the city purchased the original fire engine, which is still in use and in good condition. About the time the steamer was received, the department passed a resolution asking the council to discharge the man who held the position of engineer, on the ground of incompetency, and recommended the appointment of another man for the place. Among the men still in the city who were active in the management of the department's affairs in those early days are E. C. Anthony, Charles Muck, Henry Lee, Frank Dunshaine, Angus McDonald and John Lee.

Charles Muck was one of the first officers of the original fire company, having been foreman for several years. It was Mr. Muck who christened the old hand fire pump as the "Up Miter and Down Miter." During the years the pump was in use it was never called by any other name. The steamer was purchased shortly after the big fire that wiped out the Laughlin blocks and other buildings on West Iron street. Up to that time the department's equipment was limited, and the members of the organization fought a number of hard fires with buckets.

The department has never been as well equipped as it is at the present time and considerable new apparatus is still to be added. There are now two hose teams at headquarters, also one working team. Under the new by-laws drafted during the summer by a special committee, appointed by the council, there will be but one company in the future. The rules are much more stringent than those under which the old departments were governed. It is said that some of the rules submitted by the committee will be modified. It is expected that the by-laws will be approved at the next meeting of the council.

### CUBAN IRON ORE.

Shipments to the States Are Increasing Annually.  
The American Iron & Steel association's statistics of the reduction of iron ore in Cuba in 1909 credited the Juragua iron company with 289,926 gross tons, the Spanish-American Iron company with 524,949 tons, and other smaller concerns with 43,983 tons, making the total shipments for the year of 968,854 tons, as compared with 699,735 tons, the largest previous production, made in 1902.

The Juragua Iron company produced its first ore in 1884 and has been operating its properties continuously ever since. In spite of the fact that it has been producing for twenty-six years it is expected that the output to the close of 1909 will be 5,285,023 tons. The Spanish American Iron company began producing in 1905 and up to the close of last year it had shipped 4,791,093 tons. The total shipments by all other companies operating in that country up to the close of 1909 were 114,992 tons, making a total of shipments of 10,191,778 tons. The 114,992 tons shipped by other companies than the two leading producers is made up of 6,418 tons in 1892 and 14,920 tons in 1893 by the Sigua Iron company; 17,851 tons in 1901 and 23,590 tons in 1902, by the Cuban Steel Ore company and 53,983 tons in 1909 by the Ponopo Manganese company, which is owned by Charles F. Rand, Jennings S. Cox, Jr., and Pedro Aguilera. The Ponopo company's iron mine is at El Cuero. Its manganese ore shipments from Ponopo in 1909 were 2,885 tons, as against 1,484 tons in 1908.

Shipments from the Pennsylvania Steel company's (Spanish-American Iron company) Mayart deposits in 1909 were 5,196 tons, but in recent months the rate has been 45,000 tons a month.

### BUILDING RETAINING WALL.

The Chicago & Northwestern Railway company has a crew of masons here on Webb street, over which the company recently extended a spur leading from the diamond crossing to the new union passenger station. The crew is working under supervision of Fred Gehl of Escanaba. The wall will be about 100 feet in length and will be from two to ten feet in height. The Northwestern company is now prepared to use the new track, but the necessary arrangements have not yet been completed with the South Shore officials. The change from the old to the new line will enable the company to reduce the running time of its passenger train from Negaunee to Ishpeming, and it will also result in a saving in fuel as the run up the heavy grade east of depot of south bound trains will be cut off.

Camp orders given special and careful attention. Pocket compass free with each order. J. Sellwood & Co. (11-9-10)

### HUNTERS GO TO WOODS.

Number of Negaunee Men Left Yesterday—Others Going Today.

Many men and boys went out to hunt rabbits and partridge, others left on their annual deer hunts. More Negaunee men will leave for the woods today. One party leaving the city today will be composed of Charles Kirkpatrick, John Kunz, John J. Hanserman and William Chelwell of this city, and Charles Johnston of Marquette. They will hunt near Birch lake, and will make their headquarters at Camp Nine, some miles south of Ishpeming.

Al. Maitland, Frank Tompkins and several other Negaunee men will leave either today or tomorrow for Mr. Maitland's camp, north of Clowery, where they have hunted for several seasons past. They will be away about a week. Thomas Connor, C. L. Sparley, Thomas Gribble, J. H. Knigh and his son James, and James Gaffney, will leave this morning on the Northwestern train for Saw Mill creek, near Helena, on the Chicago & Northwestern line, where they will hunt for several days. This is new territory for the Negaunee men, but they have received very favorable reports from there and they all expect to return with venison.

### NEW COMMERCIAL TEACHER.

Charles E. Year, of Chicago, has been engaged as instructor in the commercial department of the Negaunee High school, to succeed Professor Martin who resigned about ten days ago to accept a federal position in the lower peninsula. Mr. Year is a graduate of the Calumet High school, Chicago, also of the University of Illinois, and he is a well recommended. While he is a recent graduate of the university, he has had considerable office experience and is fitted for the position he will fill here.

### LOCAL LACONICS.

Contractor Stensrud and his crew removed 210 bundles from the old cemeteries Monday.

Captain John Huhtala of the Richmond mine, and wife, are the parents of a son, born yesterday morning.

Joseph Gannon, of the Gannon Grocery company, was here from Marquette yesterday, calling on his trade.

The Cleveland-Cliffs Iron company will pay its employees at the Negaunee, Maas and Jackson properties a week from today, the 10th.

Mrs. Edward Charles, who came down from Hibbing to attend the funeral of her father, the late E. LaBau, departed Monday night for her home.

The Lake Superior & Ishpeming Railway company is lowering one of its main tracks opposite the Union park. A steam shovel and crew are employed on the job.

The Consolidated Fuel & Lumber company shipped a car of maple flooring to the lower peninsula yesterday. The plan was closed down on account of election day.

Matt Aho and wife, living on the Jackson road, are the parents of a daughter, and Mr. and Mrs. Julius Wik, residing on Ann street, are the parents of a son.

Frank Brand and his family, who were called here from Watertown, Wis., a few weeks ago on account of the death of his mother, the late Mrs. Catherine Brand, left for their home yesterday.

J. J. Dorsey, who has charge of the exploratory work in the Dead River district for the La Duke and other Duluth parties, was in the city yesterday on business. A diamond drill is being operated and pits are also being sunk. The work was started nearly a year ago.

Charles Perina, a former resident of Negaunee, who left here about twenty years ago for California, is in the city and will remain a few weeks visiting his brother-in-law, Alex. Lensiek and family, and other relatives. Mr. Perina has a large farm in California and he has been engaged in farming most of the time since he left here. He makes a specialty of raising fruit, and during the season recently closed he sold thirty tons of high class raisins.

TO TAX CHRISTMAS TREES  
Proposed Law to Protect Vermont Forests from Being Denuded.  
Montpelier, Vt., Nov. 8.—New York and New England will pay higher prices for their Christmas trees this year if a bill which has been favorably reported by the conservation committee of the lower House of the Vermont legislature is enacted into law. The measure provides for a tax of twenty-five cents on every tree that may be cut. Its avowed object is to prevent the forests of the State from being denuded of young trees.

## Don't Miss Your Opportunity

### TEST MARINELLO

A Marinello treatment does not mean a mere plastering on of any cream that happens to be at hand. It means the use of THE PARTICULAR preparation suited to YOUR special case. One treatment will benefit any skin. Marinello graduates always secure results. They give sanitary as well as scientific care to all ordinary skin and scalp troubles. MARINELLO SPECIALTIES. Methine Treatments — Reduces redness of nose and cheeks. Instantaneous Bleaching — Makes any skin five shades lighter. Pimple and Blackhead Treatment — Clears the complexion. Astringent Mask — Obliterates wrinkles. Electrolysis — Removes warts, moles and hair.

# LEADS HEMANS 3,000 VOTES

### Marquette County Deals Handsomely by Chase S. Osborn—He Carried all the Cities and Every Township and Got Majority of 1,276 in Ishpeming Alone.

### Representative Young Runs Along With Him and There Will Be Little Difference in Their Votes—All Republican Candidates Have Large Majorities.

Marquette county returns, with the townships of Negaunee, Powell, Sands, Turin, Wells and West Branch missing, at midnight showed a majority for Chase S. Osborn for governor of 2,882. Representative Young ran in close company with Mr. Osborn. In some precincts he was a little ahead; in others a little behind. The final tabulation will show but little difference in their vote. Mr. Osborn is on the returns available, credited with 3,837 votes, Mr. Hemans with 955. The vote will show a falling off of about 1,500 from two years ago, but Mr. Hemans was the principal loser, he running much further, in proportion, behind his vote of two years ago than Mr. Osborn ran behind that of Governor Warner.

### Election in Marquette City.

The general apathy which has been the feature of the entire campaign was very noticeable in the election yesterday, as far as Marquette was concerned, and the total vote polled was only 1,239, as compared with 1,820 two years ago. Chase S. Osborn, Republican candidate for governor, polled 694 votes to 559 cast for the Democratic candidate, Lawton T. Hemans, giving Mr. Osborn a majority of forty-five. The Republican candidates for county offices to a man polled the normal Republican vote and received good sized majorities over their Democratic opponents. Congressman H. O. Young, running for re-election, ran about as strong as the Republican county ticket.

The Socialists polled 45 votes in the city as compared with 36 two years ago; the Prohibitionists dropped from 38 to 28, and the Socialist Labor Party polled three votes to one in 1908. As was to be expected, interest centered in the head of the ticket, and during the day there was much speculation and considerable betting as to whether Osborn or Hemans would carry the city, most of the bets being placed at even money. Supporters of Mr. Hemans contended that he would run as well as he did two years ago, when he carried Marquette by 210 votes. Mr. Osborn's friends, on the other hand, maintained that the Republican candidate would make a much better showing than did Governor Warner two years ago and that he would get a good majority over his opponent. As might be expected from these predictions the race was very close, but forty-five was just as good as three, and the majority to those who had placed their money on the 800 man.

Comparisons of the vote for governor yesterday and two years ago are somewhat misleading because of the great difference in the total vote polled. In 1908, Hemans carried the First ward by a majority over Warner of 79; the Second ward by a majority of 129; and the Fourth ward by a majority of 104. Warner carried the Third ward by a majority of 82 and the Fifth ward by a majority of 20. Yesterday Hemans carried all of the wards with great majorities, and he also carried the Fifth ward, which he did not carry two years ago. In the Third ward, however, the Republicans were much stronger than two years ago, and the majority there for Osborn was 135, while Hemans' majority in the other four wards was but 80. The First ward gave every Democratic candidate but two, Young and Ewing, a plurality.

### Fair Vote in Third Ward.

The Third was the only ward in the city where anything like the usual vote was polled, and even there it was only 291 for the head of the ticket, as compared with 376 in 1908. In the Second ward, there were only 160 votes cast for governor yesterday, as compared with 253 two years ago; the vote in this ward being lighter than in any ward in the city. As this vote was almost solid for Hemans two years ago, it is probable that the stay-at-homes hurt Hemans more than Osborn. In the First ward there were 202 votes polled, as compared with 323 two years ago; in the Fourth ward, 284 as compared with 432, and in the Fifth, 226 as compared with 322. In these figures the votes cast for minor party candidates are disregarded.

Throughout the day the city was very quiet and apparently but little effort was being made to get out the vote by either party. The Republicans had a few rigs hired to bring in the voters and the most active work was done in the First ward. The Democrats made little or no effort to get out their vote. The early morning vote was lighter proportionately than that of the afternoon, and though the polls closed at 5 o'clock, not half of the voters had been at the polls by noon. There was comparatively little political talk on the streets and one might easily not be reminded that it was election day in case he had forgotten that fact. There was no semblance of disorder anywhere

and no attempts at ballot box stuffing were reported. Election officers report that there was considerable scratching, something like 50 per cent of the ballots being scratched. Osborn's name was most frequently scratched on the Republican ticket, but there were quite a number of Democratic ballots marked for Mr. Osborn. Much of the scratching was on the county ticket, but the results show that it was not directed against any particular candidate, but that it was rather a personal preference on the part of the voters. The men in the booths had an easier day than usual and the count was completed earlier in the evening than is ordinarily the case. This was partly due to the light vote and partially to most of the election officers having had previous experience.

### Good Election News Service.

Through the courtesy of the Bell Telephone company and Paine, Webber & Co., Marquette people never got local, state and national election returns more promptly than last evening. Paine, Webber received the returns through their eastern offices, and from their dispatches the earliest returns of the results in the eastern states was obtained, while considerable state and local news was also received. A large crowd was gathered in the offices until the results had been forecasted with reasonable certainty.

The Michigan State Telephone company, with offices especially equipped for the occasion in the Mining Journal building, maintained direct telegraph service with Detroit from early in the evening until late at night. Michigan and national news was sent to the Marquette office as soon as received and from here distributed by long distance telephone throughout the upper peninsula. News from the entire upper peninsula was received and sent to Detroit. The bulletins were coming constantly and furnished a complete and eminently satisfactory service.

### AUTOMOBILE SMASHED UP.

John Wentela, of Negaunee, Came to Grief in Lovers' Lane.

John Wentela, C. L. Sporeley and A. Boulson, well known Negaunee men, were the participants in an automobile smashup in Lovers' Lane, some three miles from the city, in which Mr. Wentela's Oakland car was badly wrecked and Mr. Sporeley suffered a cut on the head. The car was being driven by Mr. Wentela at a good rate of speed when it skidded in the snow, left the road and after a dangerous course of some yards crashed head on into a tree. Mr. Sporeley, Mr. Wentela says, leaped from the car and fell headlong down the steep declivity alongside the road. The shock of the impact broke in the wooden body of the car and hurled it forward on the passengers. The radiator was staved in, one lamp wrecked, and one of the rear wheels broken down. The car will need an extensive rebuilding, and the damage will amount to considerable. It is fortunate that none of the men in the car were severely hurt, as the top was crumpled up and the highway was lined with heavy trees. Brett Read was the first passerby after the accident and he brought Mr. Sporeley to the city. Mr. Wentela and Mr. Boulson went through to Negaunee on a car that met them by the Pioneer Motor company.

### HOWE'S MOVING PICTURES.

Noted Traveler, as Usual, is Presenting a Good Program.

Lyman H. Howe, whose celebrated moving pictures have made him famous, will present his latest program at the Marquette opera house Friday evening. Mr. Howe writes that this year's program surpasses any that he has ever before presented. All records for big business have been broken at Louisville, Montreal, Cleveland, Pittsburgh, Cincinnati, Baltimore, Kansas City, Philadelphia, Detroit and Denver. In each city the company remained five to eleven weeks without a change of program. This is the greatest record that Mr. Howe's companies have ever made and he regards it as a strong guarantee of the attraction that anything he might be able to say. The Billboard, recognized as one of the leading theatrical journals of the country, in its issue of Aug. 29 said of the program that will be presented here: "Howe's moving pictures are all the rage, and the audiences are distinctly representative of intellect and fashion. Pictures representing scenes in foreign countries appeal greatly to the people. A picture showing views of the eruption of Mt. Etna evoked the greatest interest and applause. King Edward's funeral was the feature of the week. Large crowds are always in attendance and the admission is greater than the accommodations afford." This was at Baltimore.

For Milk, Cream and Butter of superior quality call up the Marquette City Dairy, the most modern practical plant in the upper peninsula. Bell phone 223. (10-31-1m) F. H. Vandenboom Prop.

## Our Fur Lined Coats
