

DIAZ FORCES ARE BOUND TO GAIN VICTORY

Because of the Excellent Disposition of the Military, the Revolution Is Sure to Be Put Down, Reports the American Ambassador at Mexico City.

However at the Moment, the Situation Appears Very Grave—Fighting Occurs in Various Districts and There Has Been Much Destruction of Property.

Washington, Nov. 22.—That the revolutionists are doomed to defeat is the opinion of Henry Lane Wilson, American ambassador at the Mexican capital, Mr. Wilson has reached the conclusion, which he has transmitted to the state department, that owing to the excellent disposition of the Diaz military forces, the revolutionary movement, which appears to have been sporadic, is not likely to succeed.

Rebel Number Many Thousands.

El Paso, Texas, Wednesday, Nov. 23.—A. m.—Chihuahua is reported in great danger, it being estimated that more than a thousand revolutionists are gathered between the city and the plant of the American Smelting & Refining Company. The citizens are armed and are expected to be attacked at any moment. Crowds of defenders occupy the tops of all the large buildings throughout the city. A train of eight coaches of soldiers from the city of Mexico has passed through Torreon, enroute to Chihuahua. It will arrive there at 7 a. m.

Fighting has been going on at Torreon since early last evening. Two thousand revolutionists are on the river front opposing the city coaches of soldiers. They are engaged against them from the city side. Large numbers of rebels are reported killed.

Alarming Reports Reach Washington.

Washington, Nov. 22.—Southern Mexico practically has been cut off from the capital, railroad bridges have been blown up or burned and the revolutionists have gained great proportions in that portion of the republic, especially in Yucatan. This is the burden of unofficial advices received here tonight. Senor De LaBarra, the Mexican ambassador, who declared the reports of the revolution grossly exaggerated, had no advice tonight. The state department likewise was without new information.

The recipients of the unofficial information declare that Vera Cruz will be captured by the revolutionists within three days and that the revolutionary movement is sweeping northward. A copy of the statement issued by General Madero was received here today. So far it has not been formally presented to the state department. It contains an outline of the proposed new government and pledges Mexican protection to American lives and property.

Found Whole District in Arms.

El Paso, Texas, Nov. 22.—A. G. Springer, of New York, a traveling merchant arrived here today, direct from the scenes of disorder around Torreon. He said: "The whole country through which I passed is in arms, and in many places a state of terror prevails. I was in Monterey Sunday. The troops were in full control and everything was quiet. At the station I saw thirty men, each carrying a rifle, get off a train. Police and rurales surrounded them, but I don't know the outcome, as our train pulled out."

"I reached Torreon Monday and found Gomez Palacio in the hands of the revolutionists. Everything was closed. Torreon and business was at a standstill. A mining engineer and myself visited Gomez Palacio on a train car, and we saw dead bodies lying about the streets and were told a battle had taken place between revolutionists and rurales. It was said that two hundred soldiers had descended and joined the insurgents. There was fighting around the palace for several hours, and we saw some of it. The chief of police was shot dead."

"It was impossible to send a telegram, buy a paper or get anything to eat. At Torreon, I heard rumors of battles in other places, especially at Parral, where it was reported that sixty-seven persons were killed. The rumors piled up so fast that it was impossible to verify anything."

William Dale, a miner from Chihuahua, declares that three hundred troops enroute from Chihuahua to Madra were blown up on a bridge and killed. It is impossible to verify this report.

Fighting in Various Towns.

El Paso, Texas, Nov. 22.—Reports were received today of general fighting at Orizaba, Rio Hondo, Nogales and Santa Rosa, whether troops were sent yesterday. Some rumors, it is said, have been fired. Ten thousand employes in Orizaba are said to be against the government. It is also reported that forty revolutionists were put to death last night at Puebla. Parral is reported in the hands of the revolutionists, and it is said that federal troops enroute to Parral left the train at Jimenez, refusing to go further. Villardena, where a smelter of the American Smelting & Refining Company is located, is reported in possession of the revolutionists. It is said the plant was damaged and many Americans were roughly treated.

El Paso, Texas, Nov. 22.—At 6 o'clock tonight it was stated by one of the highest Mexican officials that fighting was going on in Cuatro Ciengas, a large city just below Muclovca. This

is a stronghold of the anti-Diaz people. The same authority says that the situation in Mexico is serious. He declares the excitement on the border nothing compared to what it would be if all were known of the situation in the interior. This official said that it was his opinion that the Diaz reign was over with. Ciudad Porfirio Diaz under military control. A passenger train which was supposed to have left Torreon yesterday afternoon has not arrived in Ciudad Porfirio Diaz, though it was due at eleven this morning. The railway wires are not working. Residents of Eagle Pass who have relatives in Torreon and other points down the Mexican international line have not been able to get word from them for three days.

An order was issued today by the Mexican postal officials to refuse admittance to all American newspapers containing references to the Mexican revolution.

Rebel Leader Attacks a City.

El Paso, Texas, Nov. 22.—It is reported that General Madero, accompanied by nearly 1,000 mounted men, attacked Cuatro Ciengas tonight at 11 o'clock and that a battle is now in progress. This news comes from Torreon at midnight. At that hour the revolutionists who had left Gomez, Palacio and the vicinity of Torreon were reported gathering in great numbers at San Pedro De La Colonia, fifteen miles east of Gomez Palacio.

San Antonio, Texas, Nov. 22.—General Madero this afternoon reached a point between Monterey and Torreon, at the head of a considerable force. A rumor that President Diaz had been assassinated gained some circulation here tonight, but the efforts to trace it to an authentic source were futile.

Wholesale Assassination Planned.

Mexico City, Nov. 22.—Documents found in the house of a revolutionary leader are said to have revealed a conspiracy for the wholesale assassination of prominent government officials, including Foreign Minister Ceval, Vice President Corral and others, among them Editor Spindola, owner of El Imparcial. President Diaz was to be taken, but his life was to be spared, because of his past services to the country. The bodies of those killed were to be suspended from electric light wires in the streets. The building of El Imparcial was to have been destroyed by dynamite.

The papers exposing the conspiracy were discovered during a raid by the police Sunday. Three employees of El Imparcial had been furnished with explosives and were instructed to use them at the first report of the uprising which was planned for last Sunday. The seizure of the plans on the day which they were to be executed is thought to have had great effect in heading off the rebellion.

Garrisons Are Hurdly Reinforced.

Brownsville, Texas, Nov. 22.—The garrison at Guerrero, a hundred miles up the Rio Grande, was hurriedly increased today. Mexican authorities say this indicates a grave situation.

Douglas, Ariz., Nov. 22.—Mexican troops to the number of eight hundred have been rushed to the barracks at Guahula. The state police to protect Americans. Everything is quiet there.

Mexico City, Nov. 22.—Four hundred revolutionists who took part in the assault on Parral were repulsed with the loss of thirteen dead, for the inhabitants withstanding the attack for many hours. The three thousand troops which left here yesterday are expected to reach Torreon, Gomez Palacio and Parral tomorrow.

SPLIT WITH THE CANADIAN LABOR UNIONS AVERTED BY GOMPERTS AND HIS FRIENDS.

St. Louis, Nov. 22.—The threatened split between the labor unions of the United States and Canada was smoothed over this afternoon in the American Federation of Labor by President Gompers and his friends. A discussion that often was heated grew out of the report of the special committee on labor relations with Canada which recommended that the Canadian central bodies be given the privilege of affiliating with the American Federation of Labor at their discretion. Delegate Andrew Fuerseth, of the seaman's union, led the opposition. He said that this would give the opponents of the union men in Canada an opportunity of saying that the Canadian workmen were dictated to from Washington. President Gompers said that already ten Canadian central bodies were affiliated with the federation, and that the defeat of the resolution would mean their withdrawal. The resolutions finally were adopted. A resolution recommending that local unions throughout the United States affiliate immediately with the state and central bodies also was adopted.

CLAIMS OF THE RIVAL EXPOSITION CITIES ARE PRESENTED AT SAN ANTONIO.

San Antonio, Tex., Nov. 22.—The Trans-Mississippi Commercial congress opened today with many speakers urging the advantages of New Orleans and San Francisco for the proposed Panama canal exposition. The reception each speaker received indicated that the congress is divided on the subject of leading its endorsement.

SUFFRAGISTS RAISE HOB IN LONDON AGAIN

Militant Women Who Are Clamoring for the Ballot Surpass All Their Previous Riotous Efforts in a Desperate Battle Fought in Downing Street.

Ministerial Leaders Are Assaulted, Windows in Their Houses and in Government Offices Are Smashed and Order Is Restored With the Greatest Difficulty.

London, Nov. 22.—The present political campaign is being waged with a fierceness almost unknown in England, both by the politicians on the stump and the suffragettes on the battlefield.

The "battle of Downing Street," which was fought this afternoon, when several hundred suffragettes attempted to storm the premier's residence, assaulted Mr. Asquith and Augustine Birrell, chief secretary for Ireland, and broke many windows in the government offices, surpassed all previous spectacles of the sort.

About 150 women and several men supporters are in police stations tonight. Following the announcement by the prime minister in commons today that if he was still in power at the next session of parliament, the government would give facilities for the consideration of the suffrage bill, a large body of women, inflamed rather than placated by the promise, which was recently called as "nothing more nor less than an insult to the cause," left Caxton Hall in search of the premier.

The suffragettes came upon the prime minister on his way to Downing street, and immediately formed a hostile cordon around Mr. Asquith. They resorted to all kinds of subterfuges to keep himself clear of the hands of the militant women. One of the crowd—Henrietta Williams—struck the government leader, and the premier would have fared badly had not a large detachment of police seen to his rescue. The police had great difficulty in putting down the disorder and many women had to be dragged away, with their clothes half torn from their backs.

The rioting continued into the evening, when squads of women attacked the residence of Edward Grey, foreign secretary, Winston Spencer Churchill, home secretary, and Lewis Harcourt, secretary for the colonies. Stones were sent crashing through the windows of the houses, Sir Edward Grey's bearing the brunt of the attack.

One band of women spied Secretary Birrell, tending to his room in Park Street, and swooped down upon the aged statesman, knocking his hat over his eyes and kicking him about the legs. When the women were driven off Mr. Birrell limped to a motor car on the arms of policemen.

Mrs. Emmeline Pankhurst, leader of the suffragettes, was among those taken to jail. Her sister, Mrs. Grant, denied admittance, threw a missile through a jail window. She also was incarcerated. Miss Grace Johnson was the only American arrested.

TOLSTOI'S BODY IS BURIED; SINGING BY A CHORUS IS THE ONLY CEREMONY.

Tula, Russia, Nov. 22.—Just before sunset today the casket containing the body of Count Tolstoi was carried to a grave about which the family and close friends knelt. A chorus sang "Everlasting Memory," but there was no other ceremony. In silence the casket was lowered into the ground, and within half an hour a mound of earth marked the chosen resting place of the body of the Russian reformer.

Police Prevent Demonstrations.

St. Petersburg, Nov. 22.—Hands of singers who gathered in various cities throughout Russia to honor the state of Count Leo Tolstoi and to sing "Eternal Memory" were dispersed by the police. At Kiev a girl was trampled to death and a score of persons were wounded by the whips of the Cossacks.

THOUGHT MICHIGAN MAY REENTER THE "BIG EIGHT"; A CONFERENCE IS CALLED.

Chicago, Nov. 22.—The football disturbance which centers in the Michigan-Minnesota relations will be brought to a head at a meeting of the Big Eight faculty representatives to be held here Dec. 3. The session was called today by Chairman Moran, of Purdue. Michigan's re-entry into Big Eight athletics is believed a possibility. The assurances of the Minnesota authorities that they have no intention of breaking with the conference and that it is their intention to drop future games with Michigan unless that state rejoins the conference are said to make the chances good for a reconciliation.

CUBS ARE FINED BECAUSE BROTHERS OF TWO PLAYERS SERVED AS THEIR SUBSTITUTES

Cincinnati, Nov. 22.—Because brothers of John Evers and Arthur Hofman represented these players when the Chicago National league club played at Ottumwa, Ia., Sept. 9, the national baseball commission today fined the Chicago club \$200. The claim of the Ottumwa management for damages was disallowed, because the home team allowed the Chicago to go on and profited by it. The findings of the commission cause the Chicago club for sending substitutes.

The Chicago club was paid \$1,500 as its part of the receipts.

The Weather

Washington, Nov. 22.—The following is the weather bureau's forecast for Upper Michigan: Light rain or snow, Wednesday and Thursday; rising temperature, Wednesday; winds becoming west Wednesday night.

DR. HAWLEY CRIPPEN DIES THIS MORNING

He Will Be Hanged in Prison at London—He Has Made No Confession.

London, Nov. 22.—All preparations have been made for the hanging of Dr. Hawley H. Crippen tomorrow morning within Pentonville prison, which stands in one of the most dismal sections of London. It is probable that the execution will take place between 8 and 9 o'clock. Public Executioner Ellis, who hanged a wife-murderer at Liverpool this morning, arrived in London tonight. The scaffold was erected today.

Only a small group of official witnesses will attend and every effort has been made to prevent morbid curiosity from gathering. The body probably will be buried in quicklime in the prison yard. Father Carey entered the prison at 6 o'clock this evening to spend the night with the condemned man. He will walk with Crippen to the scaffold. An evening paper caused a sensation late this afternoon by declaring that Crippen had made a written confession. The report was at once officially denied. Ethel Levene paid Crippen a visit this afternoon.

Young Woman Coming to America.

London, Wednesday, Nov. 22.—Ethel Levene has booked passage on the steamship Majestic, which sails from Southampton for New York today.

PIECE OF FURNITURE SAVES BABY'S LIFE

Infant's Escape a Strange Feature of a Disaster in Which Four Persons Meet Death.

Cleveland, Nov. 22.—The wife of Simon Frutkin, a tailor, and his two small children and a servant were crushed to death by the collapse of a new concrete mercantile building here tonight. An explosion of unknown origin is believed to have caused the disaster. A baby, the youngest of the Frutkin children, was saved by the strength of a bureau under which it had rolled and which supported a weight of many tons until rescuers found the little one, unharmed. Frutkin himself was badly injured. His two apprentices and a woman and a child escaped at the first warning sound. The father stood next to the concrete structure. The concrete wall bulged and fell on the house.

FIRE IN A COLORADO COAL MINE IMPERILS THE LIVES OF MANY MEN.

Canon City, Colo., Nov. 22.—Miners caught in the workings of the Fremont mine of the Colorado Fuel & Iron company, which took fire in the underground mine late this afternoon, are being hoisted to surface one by one through the shaft, which offers the only way to escape. More than 160 have reached the surface and the mine officials declare that all but two men employed underground have been communicated with and are known to be safe.

NEAR SIGHTED HUNTER CHASES MAN AS DEER.

Bismarck, N. D., Nov. 22.—Running away from a man who mistook him for a deer and keeping out of range until the pursuer's rifle was empty, and then giving the near-sighted nimrod a trombone, was the experience of Nathan Good, a claim holder living near this city. Sixteen shots were fired at Good. Good had been out rounding up his stock and not being mounted was late in getting home. As he went over a small hill his canvas coat and dark trousers against the dead grass color of the surrounding territory made the hunter think Good was a deer. The hunter opened fire. Good dodged and started to run. The hunter kept on firing.

Good says when the sixteenth bullet struck the ground near him he started in for his share of the fun. He charged upon the hunter, who was too surprised to attempt to escape. Good pounded the man with his fists and wound up by taking the rifle and hammering it on the frozen ground until it was out of commission.

MR. TAFT HOME FROM HIS TRIP TO CANAL ZONE

Anxious to Get Back to Washington, Nevertheless He Stops at Richmond to Spend 24 Hours as Guest of the People of the Old Confederate Capital.

A Near-Collision Between the United States Cruiser Tennessee and a German Training Ship a Thrilling Incident of the President's Voyage from the Isthmus

Richmond, Va., Nov. 22.—Landing from the armored cruiser Tennessee at Fort Monroe this afternoon, after a flying visit to Panama, President Taft came to Richmond tonight to be the guest of the citizens of the old Confederate capital for twenty-four hours.

Mr. Taft held an informal reception at the Commodore club. He will spend the night here. Tomorrow he will breakfast with Governor Mann, will motor over some of the battlefields surrounding Richmond, will be entertained at a luncheon and will speak in the afternoon at the Virginia educational conference. He will reach Washington tomorrow night. On his way to Richmond this afternoon, Mr. Taft stopped half an hour at Williamsburg to visit the old William and Mary college and the Bruton parish church, which dates back to 1632. From the pulpit of the historic church he made a little speech, paying a tribute to the Virginians.

The cruiser Tennessee passed in the Virginia Capes at nine this morning and came to anchor off the government dock at Fort Monroe two hours later. The presidential salute was fired. Mr. Taft remained aboard the Tennessee until after three this afternoon. Landing the president found eight companies of the coast artillery lined up to greet him. The cruiser Tennessee was filled with incident. Friday night last, when about 140 miles south of Guantanamo, Cuba, the Tennessee narrowly averted a collision with a German training ship, supposed to be the Freya.

The president is anxious to get back to Washington. The Mexican situation is still being handled wholly by the state department. Mr. Taft has had but meagre details.

SENATOR CARTER DENIES HE HAS BEEN OFFERED A SUPREME JUSTICESHIP.

St. Paul, Nov. 22.—Senator Thomas H. Carter, of Montana, who it was reported had been offered a position as justice of the supreme court of the United States, said today that he knew nothing of the report. Mr. Carter passed through here on his way to Washington.

May Go to Commerce Court.

Butte, Mont., Nov. 22.—Private advices from Washington state that Senator Thomas Carter will be tendered an appointment as judge of the court of commerce, created by the ... congress, and for that purpose has been called to the national capital by Mr. Taft.

GOVERNOR STUBBS BEGINS A CRUSADE FOR PURE WATER FOR MISSOURI RIVER TOWNS.

Topeka, Kas., Nov. 22.—Governor Stubbs, it was announced today, has asked the governors of the states bordering the Missouri river to appoint commissioners to draft a uniform law regulating the discharge of sewage in the river. Kansas, Missouri, Nebraska, Iowa and the Dakotas have cities which take their water supply from the Missouri river, and each of these cities in turn pours into the river its sewage. There have been several outbreaks of typhoid in river towns and the disease has been traced to bad water. The government, it is said, cannot prevent the contamination of the stream.

SEVEN DEMOCRATS REFUSE TO SIGN THE CONSTITUTION DRAFTED FOR NEW MEXICO.

Santa Fe, N. M., Nov. 22.—The constitutional convention adjourned today. All the Republicans and all the Democrats but seven signed the constitution.

GOOD ROADS MOVEMENT LAUNCHED AT WASHINGTON.

Washington, Nov. 22.—A nation-wide movement for the harmonious development of the highway systems of the country was launched today in the formation of the American Association for Highway Improvement. The organization will co-operate with the numerous county and state associations for road improvement already in existence. Logan Vailor Page, director of the United States bureau of public roads, was elected president.

JOHN DIETZ CHARGED WITH ANOTHER MURDER.

Eau Claire, Wis., Nov. 22.—Judge Wickham, at Chippewa Falls, today fixed the bail for John Dietz on an indictment charging the killing of one Gibson several years ago at \$10,000. Attorneys from Milwaukee secured an order from Judge Wickham upon District Attorney Davis and County Clerk Horn, of Hayward, appear before him today and show cause why Dietz, Mrs. Dietz and Leslie Dietz should not have bail fixed for all the indictments and complaints for which bail has not yet been given.

Believe only half that you hear, and be sure that that is the right half.

HINES LUMBER COMPANY BUYS MORE BIG HOLDINGS; THIS A \$2,500,000 DEAL.

St. Paul, Nov. 22.—The Edward Hines Lumber company of Chicago today took over the entire properties of the St. Croix Lumber company, of Winton, Minn., at a consideration of \$2,500,000. The properties include 300,000,000 feet of timber, mostly pine, 50,000,000 feet of logs in the St. Croix river and mills and other buildings at Winton.

CONVICT WHO IS REARRESTED GAINS LIBERTY WHEN WIFE SETTLES CLAIM AGAINST HIM.

Philadelphia, Nov. 22.—As he was greeting his wife at the gate of the penitentiary today after he had served three years and six months for passing a bogus check here, Henry M. Wilson, whose home is said to be New London, Conn., was again arrested, this time on the charge of passing a fraudulent check on a hotel in Cedar Rapids, Ia. The check passed here and the one in the West were drawn in the name of ex-Governor Guild, of Massachusetts. The Wilsons, it is said, were married in Boston and it was while they were on their wedding trip that Wilson got into trouble here for giving a hotel a bogus check. The culprit fled at that time and was captured at San Francisco. Tonight Mrs. Wilson got in communication with the authorities at Cedar Rapids and settled the claim against her husband. When this was officially placed before the Philadelphia police, Wilson was released.

Most Farmers in Debt, He Says

Business as Well as Scientific Education Advocated by a Grange Leader.

Atlantic City, N. J., Nov. 22.—Business as well as scientific education for the farmer was advocated by State Creasy, of Pennsylvania, chairman of the committee on agriculture, in his annual report before the National Grange this afternoon. He declared necessary for the highest returns from the products of the farm. The increase of tenant farmers he declared dangerous. He said that three-fourths of the farmers are in debt, despite the computation of the agricultural department to the contrary. Official reports, he said, show that the farmer gets but thirty-five cents on each dollar paid by the consumer. The farmers, he added, would like to have the crop reports before their own crops are marketed.

The growing independence of the farmer as a voter, Mr. Creasy stated, is a hopeful sign. "The whiskey trust is their chief obstacle to a liberal law for denatured alcohol manufacture on the farm," continued the speaker, "and the Standard Oil company is in league with the whiskey syndicate to prevent national legislation giving the farmer the full benefits from farm distilleries and the use of alcohol for power and light."

"Insurgents" Are Disciplined. During the day the Grange adopted the recommendation of the committee finding George P. Hampton, of New York, and J. M. Helme, of Adrian, Mich., guilty of malicious slander on the present administration of the national society and expelling them from the third degree of the organization.

STOCKS DRIFT TO A LOWER LEVEL

Wall Street Market Is Dull and Neglected—Shorts About the Only Buyers.

New York, Nov. 22.—The stock market sank into deeper neglect today and the price fluctuations narrowed correspondingly. This quietness was considered reasonable and desirable by the banking element, who rely on moderate demands for banking facilities on the speculative element to carry through the requirements to the end of the year. The present easing tendency of the money market and the strength of the New York banking position have been brought about with that end in view and not to provide reserves for progress as speculative speculation. Some demand for stocks from uncovered shorts resulted from the free selling yesterday. Outside of that, there was little to sustain the prices and they drifted to a lower level towards the end of the day.

Argentina News Helps Wheat.

Chicago, Nov. 22.—Drought helps as great as at least 30 per cent of the crop near Bah Blanca, in the Argentine Republic, put up the price of wheat here today. The close was strong, at a net advance of 3/4 to 7/8. The Argentine news was the chief factor in the pit. After a strong opening there was a temporary reaction, due to the weakness of some consignors for \$1,500. When the day's session closed, one hundred horses had sold for a total of \$20,000, of which \$20,720 was bought by Claiborne stock.

FAMOUS STALLION GOES FOR ONLY \$1,100 AT A SALE IN MADISON SQUARE GARDEN.

New York, Nov. 22.—On a bid of only \$1,100, Director General, a famous stallion, was sold today at the "Old Glory" horse sale at Madison Square Garden. The low price was the sensation of the day. Only a few years ago the horse was bought for the Claiborne farm, Lexington, Ky., for \$12,000. Frank McCloud, of Dayton, O., was the successful bidder. Star Patchen, by Joe Patchen, with a pacing record of 2:03 3/4, was bought by J. R. Oakden, of Corning, N. Y., for \$1,900. He was consigned by W. L. Snow, Charles R. Tweedle of this city bought Wilkes Heart from the same consignors for \$1,500. When the day's session closed, one hundred horses had sold for a total of \$20,000, of which \$20,720 was bought by Claiborne stock.

MICHIGAN GUARDS FIRE ON TWO WOMEN WHO TRY TO ESCAPE FROM QUARTINE.

Lapeer, Mich., Nov. 22.—The militia-men guarding the state home for the feeble minded, which is under quarantine on account of smallpox among the inmates, fired on two women attendants who were trying to pass the lines this evening. Neither was wounded. They were captured and returned to their homes. Smallpox broke out in the home two weeks ago. Since then there have been fourteen deaths. There are sixteen cases at present.

Chicago, Nov. 22.—Chicago's horse show opens here today at the amphitheatre at the Union Stock yards.

ROSTER OF THE HOUSE SHOWS A BIG UPSET

Whereas the Republicans Have a Majority of Forty-Seven at Present, the Majority of the Next Democratic Party in the Next Congress Will Be Sixty-Three.

Kansas the Only State of Size Which Will Have a Solid G. O. P. Delegation—Nebraska's Membership Is Equally Divided, and So Is That of Maine.

Washington, Nov. 22.—The Democratic representation in the next house will be 227, as against 163 Republicans and one Socialist, according to the roster of the house published today. These figures give the Democrats a majority of sixty-three and a plurality of sixty-four.

According to this publication, Kansas is the only state of size which has a solid Republican delegation. A number contain only one Democrat, among those thus included being Iowa, Minnesota, California and Wisconsin. All the Southern states have solid Democratic delegations, except Maryland, Virginia, Kentucky and Tennessee. Maryland and Virginia each have one Republican, while Tennessee and Kentucky each have two. Colorado is the only Northern state represented entirely by Democrats, but Indiana, possessing a much larger representation, presses close, with twelve Democrats out of thirteen members.

Illinois has eleven Democrats in a membership of twenty-five; Massachusetts, four out of fourteen; Michigan, two out of twelve; New Jersey, seven out of ten; New York, twenty-three out of thirty-seven; Ohio, sixteen out of twenty-eight, and Pennsylvania, nine out of thirty-two. Missouri's delegation consists of thirteen Democrats and three Republicans. The Nebraska delegation is evenly divided, three and three, as is that of Maine, two and two. Oklahoma has two Republicans and three Democrats, while Washington is represented by three Republicans.

All of the states having one representative only are Republican. The present house has 219 Republicans and 172 Democrats.

APPLE MARKET CORNERED.

New England Growers Holding Their Fruit for High Prices.

Springfield, Mass., Nov. 22.—New England, given an opportunity to get back at the West on the high beef racket, by the shortage of winter apples in the South and West, is holding her supplies of pie filling in cold storage and demanding prices that makes the days when every school "kid" had an apple in his lunch box seem like a memory of long ago. It is asserted that in some cases the dealers are asking as high as \$4 a barrel, wholesale, for good Baldwin. The local retail men who did not get their supplies in early are also up against the same price.

Some families who were wise enough to buy early, like the wise dealers, it is asserted, purchased at fairly reasonable figures. Others will meet with the same shock as the prominent resident who was told yesterday that he would have to pay \$4 or \$4.50 a barrel for good winter apples. In response to his indignant inquiries he was told by the dealers that the fruit was being held up in cold storage by men who had practically engineered a corner on the market and were demanding their own price.

"There are no apples in the South and West," was the comment of one dealer this morning. "If there was a big shortage here and plenty there, they would put the price up on us and I suppose it is no more than natural that when there are plenty here and few there, the New England men should retaliate."

Senator Lodge has given the patronage free some vigorous shakings of late.

Time to vaccinate, the present. Place to vaccinate, entirely a question of sex.

It's getting along to the time when that Christmas shopping should be done early.

Did you ever hear of anything to equal the gall of that chap Foss in Massachusetts? To think that he used to be a Republican, too.

If single votes against Governor Hughes' anti-race track gambling bill were bid for up to \$100,000, what could Governor Hughes have got had he been that kind of a governor?

Kansas has gained, according to the census bureau, 17 per cent in population in the past decade.

HOUGHTON COUNTY HAS GOOD PEOPLE

None of Its Aliens Unworthy of Residence and Liable to Deportation.

There are no undesirable aliens in Houghton county. This statement may be controverted by some who know of certain aliens who do not adhere strictly to the canons of good citizenship...

The attorney general has prepared for the use of such county officials as come in contact with alien residents officially, including judges of probate and superintendents of the poor...

The recount was conducted in a friendly manner, the candidates being on pleasant terms with each other.

SHOOTS BIG WILDCAT

Then Henry Makkiangas Tries to Dispose of It in Hancock.

Considerable interest was centered Monday afternoon on one Henry Makkiangas who came to Hancock from Mass City with a full grown wildcat strapped over his shoulder.

The wildcat was shot six miles south of Mass City after it had been lured into a trap whose steel jaws held it securely while a small 22-caliber rifle did the rest.

Officials in Oratorical Contest From Without the Copper Country.

It has been decided by the superintendents of the copper country high schools, in consultation with John A. Dowdy, appeals committee president, that the judges in the sub-district oratorical contest next spring must be from outside the copper country.

Section 21. That in case the secretary of commerce and labor shall be satisfied that an alien has been found in the United States in violation of this act, or that an alien is subject to deportation under the provisions of this act...

No Undesirables Found. It is a somewhat remarkable tribute to the character of the alien-born population of Houghton county that the county officers report none of them as coming under any of the heads cited.

A., will hold a special meeting in Fraternity Hall Thursday night, Nov. 24, at which it is expected that at least 100 will be initiated into the order, of whom seventy-five are from this city. Supreme President T. B. Hanley, Supreme Secretary E. L. Balz, State Director Albert Hass and State Manager D. N. Davis are expected to be present. After the lodge meeting, a banquet will be held in Keough's Hall. Representatives from all M. B. A. lodges within a radius of fifty miles will be present at this red letter meeting.

**Negro in Munising Jail**—The negro who shot Frank Witheril, the barber at Shingleton, Sunday night, was lodged in the Alger county jail at Munising yesterday, having been captured by Sheriff Smith, of Schoenher county, near Manistique, the day before. Sheriff Conroy, of Munising, was in the city yesterday taking the testimony of Mr. and Mrs. Witheril, fearing that Witheril might not recover. It was stated at St. Mary's hospital last evening that Witheril appeared to be holding his own, and that having unforeseen complications, he stands a good chance for recovery.

**Fair at Finnish Church**—The new Finnish Lutheran church on West Bluff street will be opened Thanksgiving day with a fair, at which numerous useful and fancy articles will be on sale. This fair will be held in the basement, as the auditorium has not been completed and it is not expected to finish it until

next year. From now on, however, services will be held regularly in the basement rooms until such time as the church proper can be completed. The building is of concrete and presents a neat and pleasing architectural appearance.

**Must Repair Boilers**—Complaint was made to United States Steamboat Inspector York yesterday that the boilers of the steamer L. W. Nichols, owned by the Minch Transportation company, of Cleveland, were leaking and in an unsafe condition. Captain York at once boarded the steamer and found the boilers in just such condition as they had been described to him. He ordered the fires drawn at once and the leaky boilers must be repaired before the steamer will be allowed to leave this port. The Nichols is lying at No. 4 dock.

**Children at County House**—It is not generally known that there are five young children at the county house, who are worthy of a better home. The children were taken away from their mother, who resides in Negaunee or Ishpeming, because Prudis Judge Patter, after making an investigation, decided she was not fit to be a mother to them. As the state school of Coldwater is overcrowded it has not yet been possible to place them in that institution. The children are of Finnish parentage and an effort has been made to place them in families of that nationality, but thus far they have been unsuccessful.

**THIRTY APPLICANTS.**  
Number Desiring to Become Citizens at December Term is Small.

There are only thirty applicants for citizenship at the next term of circuit court, which opens Dec. 5, as compared with over 100 at the September term. The fact that there is no election of general interest for some time is perhaps responsible for the falling off in the number of applicants. Those whose petitions for second papers will be heard at the coming term, in case they appear at the appointed time, are the following:

Negaunee—Antonio DiBernardo, John Makela, Antonio Deleico, Leon Guimond, Ishpeming—Eric A. Albert, Erickson, Isak Nyrikonen, Jaakko Heinonen, Victor Laitinen, Otto Fredholm, Edward Stohl, John Silvate Imbola, Cahrl Raisanen, Jaakko Antilla, Isaac Hill, Jani Mustajarvi, Matti Pikkumake.

Marquette—Macome Belanger, Matti Hakajarvi, John Kivimaki, Ole C. H. Peterson, Salomon Laakso, John Savola, Carl Riekard Carlstrom, Albert Nelson Fisher.

Little Lake—Joseph Beaupre.  
Princeton—Jones Cotto, Joseph P. P. Palmer—William Gustafson.

**IN JAPAN.**  
The government extends its business operations considerably beyond the public-service field. It owns the tobacco monopoly, a source of great private wealth in America; the salt monopoly, another American wealth-maker; its fingers deep in banking, controls the camphor market of the world through its ownership of the Formosa supply, and essays to operate a great steel plant which loses heavily and makes it hard for private corporations to compete. The latter was established as an aid to national independence of foreign steel-makers. The move may have been necessary, but the result is costly to the state and burdensome to unassisted individuals.

The government also maintains a stock exchange. It is constantly being appealed to by would-be promoters who wish it to extend its activities in industrial directions, but the indications now are that the administration perceives that the policy, necessary as it may have been to start the people in the new course laid down for them, can only perpetuate dependence and weaken enterprise.

Once in 1340, when all the land had been sequestered, the great proprietors of Japan by common accord distributed it to the people—one acre to each adult male and three-quarters of an acre to each woman—and the stagnant country thrived again. It is an easy guess that at some near date the government will again have to turn its possessions back to the people if they are to engage successfully in great wealth-making and secure the effective aid of foreign money.—New York World.

Edward Ramquist, Formerly of Ishpeming, Had Narrow Escape in Drowning Accident.

#### Wellknown Mining Man Passed Away at Home of His Son in Philadelphia.

Henry Harwood received a telegram yesterday, advising him of the death of Harvey Browne Sturtevant, formerly a resident of this city. Death occurred at the home of the son of the deceased, Dr. Charles N. Sturtevant, in Philadelphia.

The announcement of Mr. Sturtevant's demise was not entirely unexpected, as he had been critically ill for several days. The funeral will be held in Delavan, Wis., on Friday. Mr. and Mrs. Harwood will leave for that place tonight, to attend the obsequies.

The deceased was well known to the older residents of this city and the upper peninsula, as he was prominent in mining circles here prior to twenty years ago. For several years he was chief engineer of the Lake Superior Iron company. He left here for the Minnesota district, where he had charge of mining properties for some years before he went East.

The deceased was married thirty-one years ago in Republic to Miss Mary Northmore, daughter of Prof. John Northmore, former superintendent of the Ishpeming schools, who was then superintendent of the Republic schools. He was fifty-three years of age, and is survived by his widow and three sons, Dr. Charles N., Harwood and Robert Sturtevant. The two later are now students at the Michigan university.

#### UP TO PROSECUTORS.

City Authorities Will Not Push Case Against C. C. Sullivan.

The opening of the Royal theatre Sunday afternoon and evening, and the subsequent arrest of its manager, C. C. Sullivan, on the charge of violating a state law, was generally discussed yesterday, and the outcome of the trial will be watched with interest.

Prior to opening his theatre, Mr. Sullivan advised Mayor McCookingdale and City Attorney Jurma that he desired to test the law, in hope that he would establish his right to do business on Sunday in the future. The mayor agreed not to have any of the officers molest him Sunday but it was understood that a warrant would be issued for his arrest on the following day. Their agreement covered last Sunday only. In yesterday's issue it was stated that City Attorney Jurma has assured Mr. Sullivan that he could not be prevented from opening on Sunday. The assurance given him was only that he would not be interfered with last Sunday.

MINERS AND LABORERS SCARE IN ENGLAND

Managements of Properties May Decide to Go to Italy or Other Countries for Workingmen.

The labor problem is now a serious one in the mining districts of England, according to the last issue of The Cornishman of Penzance, just received here. So many young English miners have emigrated the past few months that the operation of the mines has been seriously interfered with.

Favor Italian Miners.

J. E. Holman, one of the officers, spoke highly of the Italian miners, and expressed his opinion that the management should negotiate for a few hundred of these workmen. He said that he had worked with Italian miners and that they were faithful and industrious.

Charles T. Teichert of Menominee looked after business in Negaunee yesterday.

Miss Jennie Rothchild of Detroit is visiting Abel Levine and family. She will also visit Mrs. F. Bending and family at Marquette.

J. H. Winter and A. C. Seass have returned from Grand Island where they spent the past ten days hunting deer, in company with Chicago friends.

The delivery team of the Negaunee Bakery ran away Monday afternoon, starting from the Lake Superior & Ishpeming Railway depot. No particular damage resulted.

Thomas Vashaw, the well known Negaunee dray man, who is now one of the few Grand Army men here, has received an increase of \$4 per month in his pension.

C. L. Sporely, Thomas Gribble, Will Maas, C. L. Sporely, Jr., and Howard Connors returned Monday evening from T. C. Yates' camp, where they spent the past few days, hunting deer.

Herbert Gribble has resumed his former place as pianist in the Bijou theatre. He spent the past five weeks playing at one of D. E. Rice's moving picture theatres in the copper country.

The barbers of Negaunee will keep their shops open late tonight, but they will be closed tomorrow.

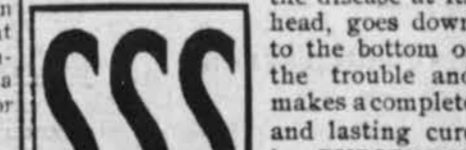

J. E. O'Donoghue is moving his music store from the Scandinavian society's block, on Gold street, to the Boulson block, in the room adjoining his drug store. An opening is being cut between the two rooms. Wood & Jacobson, the tailors, who has occupied the room in the Boulson block ever since H. J. Peterson moved out, have moved to L. E. Chaussee's building, on the corner of Pioneer avenue and Case street.

The heating plant in the Negaunee National Bank's new block has been put into commission, but the radiators have not yet been permanently placed. E. J. Sink, of Marquette, has the contract. The men who have been doing the stucco work on the main floor the past week or so finished up last evening and left for Milwaukee.

The Sunday School society of the Mitchell Methodist church will serve supper and give an entertainment tomorrow evening in the church parlors. Supper will be served from 5:30 until 7 o'clock and the entertainment will begin at 8 o'clock. The charge for both supper and entertainment will be thirty-five cents and for the entertainment only, twenty-five cents.

CATARRH A SYSTEMIC BLOOD DISEASE

Catarrh is not merely an affection of the mucous membranes; it is a deep-seated blood disease in which the entire circulation and greater part of the system are involved. It is most commonly manifested in the head nose and throat, because of the sensitive nature of these membranes, and also because they are more easily reached by irritating influences from the outside. The symptoms of Catarrh, such as a tight feeling in the head, nose stopped up, throat clogged and dry, hacking cough, etc., show that the tiny blood vessels of the mucous membranes are badly congested and inflamed from the impurities in the circulation. To cure Catarrh permanently the Blood must be purified and the system cleansed of all unhealthy matter. Nothing equals S. S. S. for this purpose. It attacks the disease at its head, goes down to the bottom of the trouble and makes a complete and lasting cure by PURIFYING the blood. Then the inflamed membranes begin to heal, the head is cleared, breathing becomes natural and easy, the throat is no longer clogged, and every unpleasant symptom of the disease disappears. S. S. S. is the greatest of all blood purifiers, and for this reason is the most certain cure for Catarrh. Book on Catarrh and medical advice free to all who write.

# EXPERIMENTS WITH ALFALFA

**Good Yields of This Valuable Forage Plant Have Been Obtained in Marquette County This Year, Though Not Yet Grown on a Large Scale.**

**Considerable Trouble Experienced in Getting a Foothold on New Soil, but Once Rooted, It Will Produce for Years Without Re-Sowing—Some Timely Hints**

Several farmers in the vicinity of Marquette have in late years been making experiments in a small way with alfalfa culture, and though but little has been accomplished as yet, it is thought by those who have been following these efforts closely that it has been demonstrated that alfalfa can be successfully raised in this part of Michigan. Among those nearby who have experimented with alfalfa are E. H. Vandenberg, George Freeman and J. M. Longyear, at Ives Lake farm.

Mr. Vandenberg has been experimenting with alfalfa for eight or ten years and the past summer for the first time he has secured a good crop. From his plot of a little less than an acre he has harvested a good stand and the field appears to be in excellent condition to withstand the winter. Two crops would have been harvested the past summer had it not been for the ravages of grasshoppers early in the season, which kept the field almost barren until about Aug. 1. It is also stated that the experiments at Ives Lake farm this year have been very successful.

In making his experiments, Mr. Vandenberg has put into practice many of the numerous suggestions that are made by successful alfalfa growers in other parts of the country. He has sown the seed alone and has sown it with oats; he has sown it on native soil, and on soil inoculated with lime, as well as on soil mixed with alfalfa soil imported from lower Michigan. He says he cannot see that he has much different results in any of these experiments, though in those in which there is any acid certainly should be treated with lime. He is firmly convinced that alfalfa can be grown here and that no more difficulty is being experienced in getting the plant started than has been true in other places.

**Experience in Wisconsin.**

On several occasions, Mr. Vandenberg has visited at ex-Governor Hoard's farm at Fort Atkinson, Wis., where some of the finest alfalfa fields in Wisconsin are to be found. Mr. Hoard tells him that it was years before he succeeded in getting alfalfa started there, but now that it once has a foothold, it will grow anywhere and almost under any conditions. This would indicate that soil inoculation would be efficacious, though this is denied by many alfalfa growers. A booklet on alfalfa culture has recently been issued by the Chicago & Northwestern Railroad company, which contains many facts of interest to the prospective alfalfa grower. The book is to some extent based on the results of experiments conducted on the railroad company's farms in South Dakota. These experiments have shown that for feeding purposes an acre of alfalfa is worth \$12.73, as compared with \$9.70 for an acre of red clover and \$1.80 an acre for timothy hay. Another test showed an acre of alfalfa to be worth \$23.98, as compared with \$12.33 for red clover and \$3.75 for timothy hay.

Once alfalfa is started the field does not need re-seeding for years, some plots having been known to produce two and three crops a year for twenty-five years. The best crops are usually obtained about three years after sowing. Early experiments with alfalfa were frequently unsuccessful because of the plants not being vigorous enough to withstand the rigorous winters. Of late years, a seed adapted to northern climates has been developed and alfalfa is now successfully grown as far north as Saskatchewan.

**Care Necessary at the Start.**

The best soil for alfalfa is a clayey loam, sand not being well adapted to the plant unless lying nearly at a level with and in close proximity to ground water. Alfalfa land must be well drained and the seed bed should be prepared with exceeding care. Every spring it is a good plan to disk over the alfalfa ground, as it has been found that cultivation results in the life of the plants being longer. A South Dakota man who has had a good deal of experience in alfalfa growing gives the following advice:

"To the prospective grower, as well as those who have already made a success of it, a few timely hints may be of value. In the first place, it is absolutely essential to select a good field. A hard and fast rule may be set down and that is, 'Alfalfa will not stand wet feet.' The soil must, therefore, be well drained at all times, for standing water will kill it before anything else. A soil that is lumpy or clumpy in texture is better suited than sand and is given preference. Where sandy soil has ground water within two or three feet of the surface, it will prove as good as loam or clay. Of the upland soils, sand does not do so well as loam or clay. Alfalfa follows best a cultivated crop which has been kept comparatively free from weeds. The land should be plowed in the fall to a depth of six or eight inches. No cultivation should be given until early spring, when it should be disked so that the disk laps half. This is important, for the ground should be kept as level as possible to get it, in order to secure an even stand. The soil should be disked and harrowed in the spring to conserve moisture and kill the few weeds until May of the fore part of June, which is the average time for sowing."

## IN PITIABLE FLIGHT.

**Twelve-Year-Old Girl in the City Without Money or Friends.**

A pathetic case will be brought to the attention of Probate Judge Potter today. Hilma Ross, an apt pupil in one of the lower grades of the public schools, twelve years of age, appears to be in most pitiable circumstances. The little girl says that her parents are now living in Arizona and that there is domestic trouble between her father and mother. The whole family formerly lived in this city, but about nine months ago they moved west. At the opening of the school year, the little girl, according to her own story, was sent back to Marquette to attend school, and since that time she has lived with Mrs. Thomas Morgan. For three months the girl's mother sent money regularly to pay for her board and lodging, but for several weeks past no money or letter has been received from the mother and the little girl does not know what to do. She came to Superintendent Gehrand and members of the board of education the week and unfolded her pitiable story. It was at first suggested that she be taken to the county poor farm, but the little girl objects to going there, and an effort will be made to have her sent to the state public school for girls at Coldwater. The little girl is said to be remarkably bright for one of her tender years and deserving of a good home.

## FORGED DRAFTS ARE BASIS OF LAWSUIT

**Bank Paper Mailed to Barney McGraw in California Signed and Cashied by Another.**

Who is liable for the loss if a bank draft never reaches the person in whose favor it is drawn, but which falls into the hands of some one else and by him is forged and cashed?

This is the legal problem which was threshed out in Justice Cray's court yesterday afternoon, the case at issue being that of Barney McGraw vs. the Marquette National bank.

Mr. McGraw was formerly a resident of Marquette but several years ago he moved to California, leaving Attorney W. S. Hill empowered to collect any accounts that were due him. Mr. McGraw after some months wrote Mr. Hill that he was in need of money, and that if the Marquette National bank had been successful in making any collections, that he would like to have \$200 sent him. Accordingly, Mr. Hill went to the Marquette National bank and bought four drafts on a Chicago bank of \$50 each, which he mailed to Mr. McGraw.

About a year later, Mr. Hill received another letter from Mr. McGraw asking why the money had never been sent to him, as he had requested. This was the first intimation that Mr. Hill had that the drafts had not reached their destination. Mr. McGraw was notified that the drafts had been mailed to him and about two weeks ago he came to Marquette in person to make an investigation of the matter, as well as to attend to other business.

The records of the Marquette National bank show that the drafts were cashed by a Pacific coast bank, after having been properly signed, and that they were subsequently allowed by the Chicago bank on which they were drawn, eventually finding their way back to the Marquette National. A short time ago Mr. Hill, representing Mr. McGraw, asked that the presumably forged drafts be returned to him, and was informed that they had been sent in to Chicago in order that the alleged forgery might be investigated.

Subsequently, Mr. McGraw began suit against the Marquette National bank for \$200 or the cancelled drafts. The bank sets up that the drafts are not in its possession and that it in no way can be held liable for the amount of the drafts, claiming that if any one can be sued for the face of the drafts, it must be the bank that actually paid them.

## LOOKS SUSPICIOUS.

**Crescent Laundry Fire Appears to Have Been of Incendiary Origin.**

The fire which broke out in the rear of the Crescent Laundry on West Washington street early yesterday morning appears to have been of incendiary origin. From all appearances, the blaze started on the ground floor along the rear wall near the partition which separates the washing and finishing rooms. It then burned through into the second story and when it was first noticed by a policeman, the smoke was so thick that a family residing in the front rooms upstairs had to descend by means of a ladder raised to a front window.

Where the fire started there is no chimney, no electric wiring, and no other material that would be likely to start a fire, though it is directly below a window, from which a burning substance could have been thrown in. Once before this week, in the morning when the employees started to work, a hole was found burned through the floor during the night, but as it burned into a steam pipe below the floor the incipient fire was put out.

The fire was a hard one to fight as the rear wall is covered with a sheeting of iron. The back part of the building was considerably damaged, as was most of the ironing and finishing machinery inside the building. None of the laundry work in process was harmed in any way and the company is able to turn out its work as usual, except that all starching and ironing has to be done by hand.

## 30 Years of Success

**The B. M. Hyde Co. Offer a Remedy for Catarrh. The Medicine Costs Nothing if It Fails**

When a medicine effects a successful treatment in a very large majority of cases, and when we offer that medicine on our own personal guarantee that it will cost the user nothing if it does not completely relieve catarrh, it is only reasonable that people should believe us, or at least put our claim to a practical test when we take all the risk. These are facts which we want the people to substantiate. We want them to try Rexall Muc-Tone, a medicine prepared from a prescription of a physician with whom catarrh was a specialty, and who has a record of thirty years of enviable success in his record.

We receive more good reports about Rexall Muc-Tone than we do of all other catarrh remedies sold in our store, and if more people only knew what a thoroughly dependable remedy Rexall Muc-Tone is, it would be the only catarrh remedy we would have any demand for.

Rexall Muc-Tone is quickly absorbed and by its therapeutic effect tends to disinfect and cleanse the entire mucous membrane tract, to destroy and remove the parasites which injure the membranous tissues, to soothe the irritation and heal the soreness, stop the mucous discharge, build up strong, healthy tissue and relieve the blood and system of diseased matter. Its influence is toward stimulating the mucous cells, aiding digestion and improving nutrition until the whole body vibrates with healthy activity. In a comparatively short time it brings about a noticeable gain in weight, strength, good color and feeling of buoyancy.

We urge you to try Rexall Muc-Tone, beginning a treatment today. At any time you are not satisfied, simply come and tell us, and we will quickly return your money without question or quibble. We have Rexall Muc-Tone in two sizes, 50 cents and \$1. Remember you can obtain Rexall Remedies in Marquette only at our store—The Rexall Store. The Stafford Drug Co.

## ISHPEMING MAY HAVE K. OF C. COUNCIL

**Marquette Knights Last Night Voted to Help and Cooperate in Its Organization.**

At a meeting of Marquette council, Knights of Columbus, held last evening, the proposed organization of a council of the order at Ishpeming was broached, the nucleus of which would naturally be the present members of the Marquette council who reside in Ishpeming and Negawane. The Marquette members voted to lend their active support to the Ishpeming and Negawane members who are in favor of the organization of a council at Ishpeming.

Now that the Marquette council has taken this action, the next step will be for the Ishpeming and Negawane Knights to make application to the national board of directors at New Haven, Conn., for a charter, which is altogether likely to be granted, as there appears to be a good field for a strong organization at Ishpeming. The Marquette council now has about 200 members, of whom fifty would probably withdraw to become members of the Ishpeming council, in case the charter is granted. Before any member can withdraw from the Marquette council, however, he must make formal application to the national board of directors to be transferred, and the Ishpeming and Negawane Knights will be likely to make such application as soon as the charter is granted.

It always has been the policy of the Knights of Columbus order to organize councils only in central cities and towns where there was reason to believe that the local organization would become strong and have a large membership, and as the membership increased to establish new councils whenever conditions seemed to warrant. The policy of the order has always been directed toward the permanent betterment and growth of the order, both in the individual councils and in the society as a whole.

The Marquette council was organized in 1902 and since that time it has steadily increased in membership, until it is now in a flourishing condition with ample financial resources to meet any obligations that might be incurred. It is now the only council in Marquette county. There are now seven councils in the upper peninsula, the Ishpeming council making eight, in case a charter is granted to that city. It is expected that the national board of directors will take action on this application within the next two or six weeks.
