CALUMET SKI CLUB PLANS TOURNAMENT

Proposes a Big Contest This Winter Like That Annually Held at Ishpeming.

The Calumet Ski club made the announcement yesterday morning that shortly after New Year's Day a meeting would be held, probably at the Y. M. C. A., for the purpose of arranging for a ski jumping contest similar to that held at Ishpeming annually for a long period.

The club has for the past two years operated a ski-jumping hill at Florida, an artificial hill which has not been suited to the purpose entirely.

The promoters of the club feel that the time is ripe to adopt ski jumping as a copper country sport and they feel that the interest is sufficient to warrant a series of contests on a large scale.

Heretofore the copper country has not taken great interest in ski jumping. Hockey has had the office here for several years and no other sport could be attempted on a large scale.

BOYS CHARGED WITH BURGLARY.

John Winnikka and Oscar Pasonen of Calumet Are Bound Over.

Justice Fisher of Calumet yesterday bound over to the circuit court John Winnikka and Oscar Pasonen, charged with burglary in having robbed M. Johnson's hardware store in Red Jacket last Wednesday night.

The boys waived examination when brought into court yesterday. They failed to get the \$1,000 bail required of each when they were bound over and were remanded to the county jail.

HANCOCK COUNCIL MEETING.

Aldermen Will Consider Open Air Rink and the City's Poor.

The regular meeting of the Hancock city council will be held tomorrow night and two important matters are to come up.

The municipal open air rink will be considered. The council has had in mind for some time a plan to give the people of the city a free open air rink and it is believed that tomorrow night some definite arrangement will be made.

The aldermen recently voted instructions to themselves to investigate conditions among the poor of their various wards. Their plan originally was to have some of the city's money voted for the amelioration of the poverty in the city but it is found that the law does not permit such an appropriation.

IS A STRENUOUS WRESTLER.

John Pyykyl of Hancock went to the Hackenschmidt-Sampson wrestling match at the Korvelde theater Saturday night.

Panion was thrown heavily to the floor with one Haeck's hitches and the fall broke both bones of his right leg. He is now in the hospital.

MONDAY, CHRISTMAS HOLIDAY.

A movement has been started in Hancock to observe next Monday as the civic Christmas holiday, the feast coming on Sunday this year and thus giving employees of business houses no holiday after the long grind of waiting on Christmas trade.

Many groceries and butcher shops have subscribed to the movement. The plan is to be adopted at Marquette and other upper peninsula cities.

HOPES TO GIVE MANY CHRISTMAS BASKETS

Ensign Hansen of Salvation Army Starts Soliciting Tour in Interest of Poor.

Ensign Hansen, head of the Portage Lake Salvation Army corps, was out bright and early yesterday morning on a soliciting tour in the interest of the Christmas dinner which the Army annually gives to the poor of Houghton and Hancock.

Miss Hansen has been in Salvation Army work for fifteen years and says she should have had experience enough to insure the success of this year's Christmas dinner, but she shrinks from the task of begging even for the poor and has to nerve herself to the task every time she approaches a business man with a request for money or food.

Miss Hansen is a fair-haired Scandinavian tall, blue-eyed and capable but timid. She is also hampered by a lack of aides, having only one first lieutenant, and that young woman was ill yesterday through the exposure of standing guard all day Saturday over the Salvation Army pot at Sheldon and Isle Royale streets.

Justice Fisher of Calumet yesterday bound over to the circuit court John Winnikka and Oscar Pasonen, charged with burglary in having robbed M. Johnson's hardware store in Red Jacket last Wednesday night.

They failed to get the \$1,000 bail required of each when they were bound over and were remanded to the county jail.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only, or, in cloth binding for 31 stamps.

Address Dr. R. V. Pierce, Buffalo, N. Y.

McCaughey and Arthur J. Vivian of Laurium are the stockholders. The company takes the place of the Superior Brass Foundry, which has been operated in Laurium by John McCaughey for some years.

MACCABEES OF THE WORLD.

A. P. Crooker of Marquette Organizes a Tent in Hancock.

A. P. Crooker of Marquette, state commander of the Knights of the Maccabees of the World, has organized a tent in Hancock. He installed the officers last week, and Thursday night the first class of ten members will be initiated by the new officers.

Mining News

NEVADA CONSOLIDATED.

The annual report of the Nevada Consolidated company, for the year ended Sept. 30, 1910, contains an item concerning inquiry which there has been more or less inquiry.

HOUSEHOLD ECONOMY

How to Have the Best Cough Syrup at Home.

Cough medicines, as a rule, contain a large quantity of plain syrup. If you take one pint of granulated sugar, add 1/2 pint of warm water, and stir about 2 minutes, you have as good a syrup as money could buy.

RAY CONSOLIDATED.

Through subscription by stockholders to the entire issue of \$3,000,000 six percent convertible bonds the Ray Consolidated Copper company has financed all its needs while in process of development.

to handle 600 tons of concentrates in its four reverberatory furnaces. It is not improbable that later a blast furnace will be added to the smelting battery.

ANACONDA.

When the dissolution of the Boston and Montana company is brought about late this month, another step in the merger of the various Amalgamated properties into the Anaconda Copper Mining company will have been effected.

Portage Township Board Will Ask Annual Meeting to Vote Money.

The Portage township board virtually has decided to recommend to the annual meeting of the voters of the township in April that they vote a large appropriation for road purposes.

MIAMI.

Surface construction at Miami is nearly completed and the first ore is expected to run through the mill about the first of January.

Shareholders of Boston & Montana Consolidated Copper & Silver Mining company have received a call for a special meeting on Dec. 27, to consider proposition to dissolve the corporation.

Officers of the Butte & London say the fact that the machinery is being sold to pay a judgment against the company does not mean that the company is going to quit, but that when it resumes, electricity will be installed to take the place of steam.

NOTES OF COPPER NEWS.

Others of the Butte & London say the fact that the machinery is being sold to pay a judgment against the company does not mean that the company is going to quit, but that when it resumes, electricity will be installed to take the place of steam.

The reorganization of the Pilot Butte company has been completed. Tuolumne and other local interests are largely in control and are financing the company.

Current earnings of North Butte are fairly in excess of the present rate of disbursements, but with the scale of development now in progress, and considering the amount of the company's capital assets, there seems but little upon which to base the hope of an early increase in dividends.

The Shawmut Consolidated Copper company has sold for \$30,000 all its property to Salt Lake interests closely identified with the Utah Copper company.

Shawmut continues to show high-grade smelting ore below the so-called Ore level in every opening where work is being done.

The shaft. The vein appear to carry a good grade of ore with the width undetermined as the shaft is still in vein matter. At the present rate of progress it should be possible to establish a level at the 1200-foot point not later than the middle of January.

Chicago Wheat. Chicago, Dec. 19.—The close today is but 1/4 under the last price of Saturday. It was the impression in the local trade that the market was prevented from following rather bearish news for the session by supporting orders placed by bull traders around 9:45, at the opening and later around 9:55, and that this sort of buying took most of the wheat off the market.

City Brevities
Yesterday's temperatures: Seven a. m., 20 degrees; noon, 14; 7 p. m., 16. Maximum, 22 degrees; minimum, 14.
Marquette news will be found on pages 4, 5, 8, 9, 10 and 12 this morning.
Mayor Seidel of Milwaukee was in Marquette for a few hours yesterday.
Howard McKereghan, who is teaching at Even is at home for the holidays.
Maxwell Copelof, of Boston, Mass., spent Sunday with A. T. Roberts.
H. L. Kaufman arrived in the city yesterday from Cleveland to spend the holidays.
E. N. Breitung arrived home yesterday morning from a business trip to Chicago.
Dr. S. M. Jones has been taken to the Presbyterian hospital in Chicago for treatment.
Otto Lositinen, of Negaunee, aged twenty years, died at St. Mary's hospital Sunday evening.
Eugene LaRoche and wife, of Champion street, are visiting Joseph LaRoche at Princeton.
The Irit and Miss club will meet at the Guild Hall this afternoon at 5 o'clock. It is a special meeting.
Mrs. E. P. Weiss, of Munising, arrived yesterday morning to spend a few days with friends and relatives.
Lippett & Sinclair have closed down their rock crushing plant southwest of St. Mary's hospital for the winter.
Chas. Kelsey, deputy clerk of United States court, has returned from a several weeks' visit with relatives in New York state.
Henry LaRoche will leave tonight for Thomaston to visit his daughters, Marcelline, Louise and Hazel, over the holidays.
The program committee of the Baptist church desires to meet the children of the Sunday school this afternoon at 4 o'clock.
The teachers and pupils of Chocoley No. 1 and Cherry Creek schools have arranged to give a joint Christmas entertainment at the Harvey hall on Friday night, Dec. 23.
J. M. Longyear was to deliver his lecture on Spitzbergen before the students of Tufts college last evening. This is the same lecture that he gave at the Guild Hall a short time ago.
The next meeting of the county board of supervisors will be held next Wednesday, Dec. 28. All bills against the county, in order to be paid at this meeting, should be in the hands of the county clerk not later than tomorrow night.
Mr. and Mrs. M. E. Asiro have returned to the city for the holidays, after having been in Minneapolis for some time. They expect to return to that city early in the New Year and will spend the winter there.
Married at Memphis, Tenn.—Friends of Miss Grace Story have received news of her marriage to Dr. L. R. Fowler, which took place Dec. 2, at Memphis, Tenn. Miss Story was born and brought up in Marquette and was a member of the Episcopal church, taking much interest in church and choir work. Dr. Fowler is a practicing physician of Memphis, where they will make their home.
Pleased With the Stock—R. F. Hildebrand, a live stock artist of Chicago, formerly with the Breeder's Gazette, visited the Embury dairy Saturday. He is very enthusiastic over the stock he found there and says that few herds in the country can surpass that kept at Embury for individuality and records.
He was surprised to find Holsteins of such high quality in northern Michigan.
Twenty-Two Tabooed—Marshal Manning intends to enforce the law relating to the use of firearms within the city limits in the case of boys who have been using twenty-two rifles to kill sparrows with. Since the boys began sparrows hunting for the berries many of them have been using rifles on the city streets. The practice is one that is full of danger for other people using the streets and there also is a chance that bullets will glance through windows into houses. Marshal Manning says that he must stop. He has ordered the officers to confiscate the rifles of all offenders and in addition they will be brought into court to answer to a charge of violating the ordinances.
Salvation Army Program—J. D. Clark, commanding officer of the Marquette Salvation Army corps, requests that all intending to contribute to give the poor of this city a merry Christmas through the Salvation Army make their contributions as soon as possible. The kettles were put on the street corners in the business district for the first time yesterday. On Friday, there will be a Christmas tree and exercises for and by the Salvation Army Sunday school. On Christmas eve, there will be a Christmas tree for the poor children of the city. Christmas baskets will be given out from 3 to 4 o'clock in the afternoon on Saturday.
Sportsmen's Meeting Today—A meeting of upper peninsula sportsmen will be held at the court house in this city today, beginning at 10 o'clock, the purpose of which is to consider and adopt recommendations for the revision of the game laws at the coming session of the legislature. It is hoped and expected that delegates from every county in the upper peninsula will be present. By united effort along definite lines, it is hoped that game protective legislation more satisfactory to upper peninsula citizens can be obtained at the coming session. Judging from the interest that has been shown in other upper peninsula counties, there should be a large attendance at the meeting today.

Upper Peninsula
Want City Charter Revised—
A petition signed by 210 electors and representative citizens of Sault Ste. Marie was presented to the common council this week, asking that the question of a general charter revision be submitted to the people at the spring election. A motion to refer the matter to a special committee of three to be appointed by the mayor was made and carried, and the chair named Aldermen Vandenberg, Lapish and Catrus as such a committee.
Deer Paid Heavy Toll—
During the recent hunting season 1,130 deer were shipped from the Iron Mountain district to various points, by express and freight, over the St. Paul road. This is in accordance with the count of the deputy game wardens. It is considered probable that over 500 deer were handled by the Northwestern road from stations between Watersmeet and Powers. Hunters undoubtedly killed an additional 500 deer, making the total for the territory of which Iron Mountain is the hub considerably over 2,000.
Will Locate in the West—
Attorney F. J. Harris has left Iron Mountain for Portland, Oregon, where he will enter into the practice of law with an established firm. Attorney Harris has lived in Iron Mountain practically all of his life. He graduated from the law department of the University of Michigan with the class of 1908. He has had an office in the Menominee iron range metropolis city since October of that year. He is twenty-seven years of age.
Christmas Tree Shipments Heavy—
During the past few weeks fully twenty carloads of Christmas trees have been shipped from points along the St. Paul road between Iron Mountain and Republic. It is estimated that there were not less than 7,000 trees. The heaviest shippers were Frank Cleveland of Iron Mountain, who shipped about ten carloads, and a Green Bay firm. The trees went east to Toledo and Columbus, west to Omaha and Topeka and south to St. Louis.
Telephone Company Prosperous—
At the annual meeting of the stockholders of the Daggett-Nathan-Bathorn Telephone company all the directors of that Menominee county concern were re-elected to serve the ensuing year. The directors are Paul Perrizo, D. R. Lansborough, Eugene Houtte, Clarence Harter and C. W. Wilkins. The directors elected the following officers: President, Paul Perrizo; vice president, Clarence Harter; treasurer, D. R. Lansborough; and C. W. Wilkins, elected secretary. A 10 per cent dividend will be paid to all the stockholders.
Duped by Labor Agents—
Escanaba is being filled with laborers who are unable to find work in that district. B. D. Winnegar, employment agent, says there are over 100 men in the city without work and without the hope of getting anything to do in the near future. Most of these men are penniless and unless some method of getting them back to their homes is devised they are certain to become a public charge. The idle element in question is not composed of bums or hoboes. They are hardy fellows who are anxious to obtain employment. Many of them were duped into going to Escanaba by false statements by irresponsible labor agents in the larger cities.
Want the Channel Deepened—
Because the steamer Amazon got stuck in the Menominee river channel in seventeen feet of water, the Commercial club of Menominee will ask that congress make appropriations for the purpose of dredging to a depth of from twenty to twenty-two feet. A committee composed of C. I. Cook, Mayor H. T. Emerson and M. H. Kern has been instructed to communicate with Congressman Young. The steamer Amazon had a cargo of about 7,000 tons of coal. In going through the draw bridge the big boat scraped bottom, but finally passed that point. After going up the river a short distance the water became so shallow that it was impossible for the boat to proceed any further and it was neces-

THE WORD CHRISTMAS.
Reasons Why the Abbreviation X-Mas Should Not Be Used.
The modern habit of writing the word "Christmas" with an X is something which "good form" alone should forbid, says an exchange. The Greek letter for chi, found in the word for Christ, has the form of our X and from this the abbreviation of the word has followed. A writer in the Capital News of Boise, Idaho, reminds us that X stands for the unknown quantity in mathematical problems. Do those who use it, then, intimate thus their ignorance of the Christ? Certainly it would not seem as if any who have a deep sense of the sacredness of this word, "Christmas," would write it in a hasty abbreviation. Further, X is the sign used by illiterate people to show that they cannot write their own names. Is this Xmas, then, a sign that the present generation has not yet learned to write or read its title clear?
X is furthermore a voiceless letter; that is, it has to borrow the sound of other letters to make itself heard. It is the ostracized letter of the alphabet and always discarded when its use is not indispensable.
If X is regarded as a sign of the cross, that great symbol of Christian history, it is incorrect in form. In any case, to connect the thought of the cross with the Christmas blessedness is no longer the need for those who have witnessed the resurrection. Let this symbol of ignorance, indifference and suffering, then, no longer appear as a disguise of the beautiful word "Christmas."
The writer in the News concludes: Let this meaningless, ugly sign "X-mas" be banished forever. Let the reporter scorn to use it. Let the city editor frown upon and stab it with his blue pencil. Let the advertisement writer cease to make it a blarney and blarney upon his otherwise beautiful lettering. Let the teacher, with his fine sense of the eternal fitness of things condemn it. Let the student be taught never to use it. Let the people in their private correspondence disdain to disgrace their names with it. Let every one who demands the removal of this barbaric from the English language. And whenever we have occasion in writing or printing to refer to the initial event of the centuries, let us use that sweet, sacred and beautiful word, "Christmas."

THE WORD CHRISTMAS.
Reasons Why the Abbreviation X-Mas Should Not Be Used.
The modern habit of writing the word "Christmas" with an X is something which "good form" alone should forbid, says an exchange. The Greek letter for chi, found in the word for Christ, has the form of our X and from this the abbreviation of the word has followed. A writer in the Capital News of Boise, Idaho, reminds us that X stands for the unknown quantity in mathematical problems. Do those who use it, then, intimate thus their ignorance of the Christ? Certainly it would not seem as if any who have a deep sense of the sacredness of this word, "Christmas," would write it in a hasty abbreviation. Further, X is the sign used by illiterate people to show that they cannot write their own names. Is this Xmas, then, a sign that the present generation has not yet learned to write or read its title clear?
X is furthermore a voiceless letter; that is, it has to borrow the sound of other letters to make itself heard. It is the ostracized letter of the alphabet and always discarded when its use is not indispensable.
If X is regarded as a sign of the cross, that great symbol of Christian history, it is incorrect in form. In any case, to connect the thought of the cross with the Christmas blessedness is no longer the need for those who have witnessed the resurrection. Let this symbol of ignorance, indifference and suffering, then, no longer appear as a disguise of the beautiful word "Christmas."
The writer in the News concludes: Let this meaningless, ugly sign "X-mas" be banished forever. Let the reporter scorn to use it. Let the city editor frown upon and stab it with his blue pencil. Let the advertisement writer cease to make it a blarney and blarney upon his otherwise beautiful lettering. Let the teacher, with his fine sense of the eternal fitness of things condemn it. Let the student be taught never to use it. Let the people in their private correspondence disdain to disgrace their names with it. Let every one who demands the removal of this barbaric from the English language. And whenever we have occasion in writing or printing to refer to the initial event of the centuries, let us use that sweet, sacred and beautiful word, "Christmas."

INSURE WITH PETER WHITE & CO.
FOR SLEIGHRIDE PARTIES.
Call Flanigan Bros. to Fit You Out.
Also, Christmas Trees for Sale.
We have just completed a large sleigh suitable for sleighride parties. It is so arranged that it can be used with or without seats, as it has a deep box (an ideal arrangement for a straw ride) with adjustable seats. Telephone 13-L. (12-19-1w)
Just received, Rembrandt's famous tube colors, also water colors for artist at Geill's wall paper store. 12-7-1f.

Want City Charter Revised—
A petition signed by 210 electors and representative citizens of Sault Ste. Marie was presented to the common council this week, asking that the question of a general charter revision be submitted to the people at the spring election. A motion to refer the matter to a special committee of three to be appointed by the mayor was made and carried, and the chair named Aldermen Vandenberg, Lapish and Catrus as such a committee.
Deer Paid Heavy Toll—
During the recent hunting season 1,130 deer were shipped from the Iron Mountain district to various points, by express and freight, over the St. Paul road. This is in accordance with the count of the deputy game wardens. It is considered probable that over 500 deer were handled by the Northwestern road from stations between Watersmeet and Powers. Hunters undoubtedly killed an additional 500 deer, making the total for the territory of which Iron Mountain is the hub considerably over 2,000.
Will Locate in the West—
Attorney F. J. Harris has left Iron Mountain for Portland, Oregon, where he will enter into the practice of law with an established firm. Attorney Harris has lived in Iron Mountain practically all of his life. He graduated from the law department of the University of Michigan with the class of 1908. He has had an office in the Menominee iron range metropolis city since October of that year. He is twenty-seven years of age.
Christmas Tree Shipments Heavy—
During the past few weeks fully twenty carloads of Christmas trees have been shipped from points along the St. Paul road between Iron Mountain and Republic. It is estimated that there were not less than 7,000 trees. The heaviest shippers were Frank Cleveland of Iron Mountain, who shipped about ten carloads, and a Green Bay firm. The trees went east to Toledo and Columbus, west to Omaha and Topeka and south to St. Louis.
Telephone Company Prosperous—
At the annual meeting of the stockholders of the Daggett-Nathan-Bathorn Telephone company all the directors of that Menominee county concern were re-elected to serve the ensuing year. The directors are Paul Perrizo, D. R. Lansborough, Eugene Houtte, Clarence Harter and C. W. Wilkins. The directors elected the following officers: President, Paul Perrizo; vice president, Clarence Harter; treasurer, D. R. Lansborough; and C. W. Wilkins, elected secretary. A 10 per cent dividend will be paid to all the stockholders.
Duped by Labor Agents—
Escanaba is being filled with laborers who are unable to find work in that district. B. D. Winnegar, employment agent, says there are over 100 men in the city without work and without the hope of getting anything to do in the near future. Most of these men are penniless and unless some method of getting them back to their homes is devised they are certain to become a public charge. The idle element in question is not composed of bums or hoboes. They are hardy fellows who are anxious to obtain employment. Many of them were duped into going to Escanaba by false statements by irresponsible labor agents in the larger cities.
Want the Channel Deepened—
Because the steamer Amazon got stuck in the Menominee river channel in seventeen feet of water, the Commercial club of Menominee will ask that congress make appropriations for the purpose of dredging to a depth of from twenty to twenty-two feet. A committee composed of C. I. Cook, Mayor H. T. Emerson and M. H. Kern has been instructed to communicate with Congressman Young. The steamer Amazon had a cargo of about 7,000 tons of coal. In going through the draw bridge the big boat scraped bottom, but finally passed that point. After going up the river a short distance the water became so shallow that it was impossible for the boat to proceed any further and it was neces-

WHAT VACCINATION DID IN SAGINAW

Some Interesting Facts Concerning Recent Epidemic of Smallpox in That City.

In view of the discussion of the advisability and efficacy of vaccination as a preventive against smallpox, the recent experience of the city of Saginaw, as reported in the Journal of the Michigan State Medical Society, December number, should be of much interest locally.

On Oct. 17 and 18, smallpox broke out in Saginaw. On these two days forty-five cases were reported in forty-five different families in different parts of the city. Up to Nov. 7, 102 cases had been reported with twenty-six deaths. Nearly all of the first forty-five cases were of the hemorrhagic and confluent type, and nearly all of the twenty-six deaths were from among these forty-five. Most of the cases reported since the first two days were of the discrete type.

The source of the infection is unknown, but the occurrence of so many cases in such a short space of time and so widely distributed would seem to indicate that exposure occurred in some public place. All schools, theaters, churches, lodge halls and other places where people congregate were closed and the strictest quarantine was enforced. Saginaw has a modern hospital, but some three years ago and capable of accommodating thirty patients. In ordinary epidemics this would suffice, but in this one many had to be quarantined in their homes.

General vaccination was ordered and met with popular favor, 40,000 being vaccinated during the three weeks. Members of the families where the first forty-five cases occurred were immediately vaccinated and quarantined, and while some have contracted the disease, it has always been of the mild discrete type. Briefly, the points of especial interest are:

1. There were no severe cases among patients who had been vaccinated in the past ten years.
2. Few cases in new families after quarantine was established.
3. Readiness with which the people responded to the call for general vaccination.
4. Vaccination "worked" on people who had smallpox previously. (This last fact shows a mistaken diagnosis, or that smallpox may not always produce immunity, or that immunity to smallpox does not always mean immunity to vaccination.)

Not since 1892 has there been a severe epidemic of confluent or hemorrhagic smallpox. Since then smallpox epidemics have been so mild that the public began to doubt the severity and danger of the disease and to distrust, to an extent, the precautions sanitarians have taken to prevent it. This feeling has received a severe shaking up from the epidemic in Saginaw, for once again has the state been visited with genuine, old-time smallpox, with a mortality of about 20 per cent. among the cases reported the first couple of days, and 25 per cent. during the first three weeks of the epidemic.

INSURES AN AMPLE SUPPLY OF WATER

Vienna's New Aqueduct, 130 Miles Long, Took 10 Years to Build and Cost \$21,000,000.

Vienna, Dec. 19.—The Vienna water supply has been more than doubled this month by the opening of the new aqueduct from the region of the Seven lakes near Hochschwab. The aqueduct is one hundred and thirty miles long, and will, when the new reservoirs are finished, have cost \$21,000,000. Owing to the great height of the springs that supply the aqueduct, the water distributes itself to all but the highest points of the Vienna municipal district, and flows so rapidly that it provides electrical power sufficient to pump the supply to the very highest points. All technical obstacles have been overcome with complete success, tunnels several miles long having been cut through solid rock and the water has been carried across the deepest valleys of the Alps. The Vienna water supply would now suffice for nearly double the present population. The Emperor Francis Joseph, who presented the city with the principal spring for the first aqueduct forty-five years ago, and who granted for the new aqueduct a right of way through the imperial preserves, opened the new aqueduct at the Rathaus by touching an electric button. Water immediately streamed over the rocks prettily arranged in the Rathaus and played in the big fountains in the Rathaus park. The new aqueduct, like the old, will be called after the emperor.

The new water supply represents ten years' labor. The sources of the new supply are in the valley of the Styrian Salz, between Gusswerke, near Mariazell, and Wildalpe, more than seven thousand feet above the level of the sea. Thence the water is brought to Vienna, a distance of 142 miles. For the greater part of the way it is conveyed through underground pipes, but in places by aqueduct bridges. The engineering difficulties were considerable. In one place, in the Gostingerthalpe, it was necessary to tunnel the mountains for more than three miles. The longest aqueduct is eight hundred feet in length and seventy-five feet in height. Two rivers and several streams had also to be tunneled under. An enormous quantity of material was required for the work. Among the principal items were 140,000 tons of cement, 33,500 tons of cast-iron piping, and 200,000 tons of wrought-iron piping. The daily supply of water from this new work is estimated at forty-four million gallons, which, added to the fifteen and a half millions from the existing sources will provide Vienna with all the water it can possibly need for several decades. The new water is said to be of excellent quality, and every care has been taken to preserve its purity. The municipality has bought twelve thousand five hundred acres of land surrounding the reservoirs at the sources besides which a very large district has been specially enclosed as a protective area, in which no mining or works of any other kind which could possibly affect the water will be permitted.

WHEN you instill into the minds of your children the HABIT OF SAVING, you start them on the road to success. You teach them self-restraint, and you illustrate the value of money. With these rudiments there can be no failure. Do your DUTY. Start a bank account for your children TODAY.

DIRECTOR BYRNS CAN'T SHAKE JOB

Modern Woodmen Refuse His Resignation — He Won't Take Pay, However.

C. J. Byrns of this city, who a few weeks ago was appointed collector of customs for the Superior district, has received notices from Senators Smith and Burrows that the United States senate has confirmed his appointment.

Mr. Byrns, who arrived home yesterday from a meeting of the executive council of the Modern Woodmen of America, held at Rock Island, Ill., stated that he tendered his resignation as director to the board in session last week, and that it was not accepted. He has given notice, however, that he will accept no remuneration for his work.

Prior to presenting his resignation, Mr. Byrns refused to accept the salary for last month's services (\$500), advising his colleagues that he would not draw pay from the Woodmen so long as he held his federal position. He also announced that he would not serve on the board of directors unless he received permission from the government. The Rock Island Argus of Saturday evening contained the following reference to Mr. Byrns' resignation:

"The board of directors of the Modern Woodmen society, in session at the head office yesterday, refused to accept the resignation of C. J. Byrns of Ishpeming, Mich., a member of that body. It was the desire of Mr. Byrns that he be relieved owing to his recent appointment as United States collector of customs, a position that will occupy so much of his time that he will be unable to give the attention he feels it requires to the business of the Woodmen board. Mr. Byrns explained that it was his wish to make way for some other deserving person, and that he has been honored by the members of the society in being returned four consecutive terms as a director, he being now in his eighth year in that position.

"The resignation was tendered formally, but before the words had barely left the lips of Mr. Byrns, a motion was made that the resignation be not accepted, and it was carried unanimously. Mr. Byrns was reminded that he had proved himself a valuable and faithful officer of the order; that his term would expire next June, and that it was the earnest desire of his colleagues that he continue with them officially and retire with a complete record of service. Mr. Byrns finally consented to retain his place on the board on condition that he be permitted to serve to the end of his term without salary. This proposition was concurred in.

"I am a pretty busy man right now," Mr. Byrns said after the meeting of the Woodmen directors. "While I will be able to so arrange my affairs as to attend the sessions of the directors for the few remaining months of my term, I am anxious to be relieved in order to make way for some other member of the society who would be in position to give his undivided attention to the interests of the society. The action of the board was unexpected by me, and naturally I was flattered by the expression of confidence in me by my associates. A man could not very well resign such a position as I have held, and I have decided to stick, but I shall insist that my service be without pay."

John Dennison, Jr., the Dubuque (Ia.) man who preferred charges against the officials of the Woodmen society, included Mr. Byrns, whom he stated he accepted pay for his services as a director while serving as a member of the Michigan legislature. In a refutation of all of the charges preferred that will soon be issued in pamphlet form and sent to the individual members of the society, the following reference to Mr. Byrns' work in the legislature will appear:

"The next charge is that a director of the society is a member of the Michigan state legislature, and that he charged the society for the days he worked for the state. This must refer to Director C. J. Byrns, of Michigan. Mr. Byrns has not been a member of the Michigan legislature since 1907. This charge was made some years ago against Director Byrns, and he so completely exonerated himself from any blame that he was re-elected by unanimous vote of the 1908 Head camp.

"Mr. Byrns, while in the legislature of Michigan, rendered services to the society for which he can never be repaid. His influence in that body was such that he was able to prevent the passage of laws which would have injured the Modern Woodmen of America as well as some other fraternal societies immeasurably, and he was also able to bring about the passage of laws which was of great benefit to such societies."

ADDING DRILL CREWS.

The Cleveland-Cliffs company, which has been operating in this district for two years past and is probably one of the largest explorers in this end of the county, is increasing its holdings in Bates township. It has recently started drill crews on the August Franz and Carl Gustafson properties, in Section 22, 43-34. Another crew is located on Peter Sjoquist's farm, in 22, 43-34.—Iron River-Stambaugh Reporter.

A large and most complete line of box confectionery, put up specially for Christmas gifts. The finest candy on the market. M. A. Claven. 12-1916t.

The quicker a cold is gotten rid of the less the danger from pneumonia and other serious diseases. Mr. B. W. L. Hall, of Waverly, Va., says: "I firmly believe Chamberlain's Cough Remedy to be absolutely the best preparation on the market for colds. I have recommended it to my friends and they all agree with me." For sale by The People's Drug Store, S. B. Jones, prop.

Tree ornaments, a great variety, also fine Christmas candy. M. A. Claven, Nolan block, Cleveland avenue. 12-1916t.

DESERTED HIS WIFE.

Young Man Is Brought Back to Ishpeming from Indiana.

Marshal Trevarrow, who left Friday night for Fort Wayne, Ind., returned yesterday with Philip Monroe as a prisoner. Monroe, who left here six or eight weeks ago for Indiana, was arrested in Fort Wayne last Friday on a complaint issued by his wife. Mr. Trevarrow was notified of the arrest and he at once left the city to bring back the prisoner. Monroe is twenty years of age and has been married less than a year, his wife at that time being barely over fourteen years of age. About ten days ago she became the mother of twin boys, both of which died a few days later. Monroe told the officers that the reason he had left his wife was because he could not get along with her folks, and that they were making married life miserable for him.

The warrant for his arrest was issued by Judge Veran of Negaunee, and he will be given a hearing some day this week. If Monroe does not agree to take care of his wife in a proper manner, he will be bound over to the circuit court for trial.

W. THURTELL.

The wellknown optometrist is now at Ishpeming at The Anderson House, Canada street. Eyes tested and glasses fitted and all work guaranteed. Telephone 291 for private calls and appointments. 12-7-tf.

CHECKING UP CONDUCTORS.

Train auditors in the employ of the Chicago & Northwestern Railway company began work on passenger trains running in and out of Ishpeming yesterday. They collect all transportation while the conductor has charge of the train. The train auditors worked on this end of the system during the greater part of October and it is not known how long they will be employed at this time. The auditors are able to work four or five days and then lay off a day or a week, and return unexpectedly. The auditors are not supposed to advise the conductors what fares they collect, nor are the conductors supposed to advise the auditors when they collect on their runs. The collections of the auditors and conductors are compared in the Chicago office.

Special line of Christmas confectionery. Boxes from fifty cents to \$10. Also a great line of box cigars. M. A. Claven. 12-19-6t.

BASKETBALL PRACTICE.

The first and second basketball teams of the Young Men's Christian association will line up for practice this evening at 9 o'clock sharp for a scrimmage of twenty-minute halves, after which the regulars will hold a short signal practice. The Ishpeming High school team will be taken on by the "Y" basketball team some evening this week.

"CITIZEN" REPLIES TO "A MINISTER'S SON"

Says That Preacher's Offspring Should Make Less Noise and Shed More Light.

To The Mining Journal— A man who signs his name "A Minister's Son" has some criticisms to make on an article of mine, in a late issue of your paper.

His article, abounding in hard words and soft arguments, resembles something we used to know some years ago, written here, and printed in the copper country, but the publication has now entered into its long rest.

Let men neglect the divine law and ignore the state law for a time, and use working seven days of the week, instead of six, and what is the likely result? The greedy money power will force men to work seven days for six days wages.

Now, this unfortunate son acknowledges no authority but his free will when the question is how one is to use his Sabbath. It would seem useless to re-

son with a man who denies the very principles on which Divine and human governments are founded. What an atheistical and anarchical assertion to make, in the midst of a God fearing and law abiding community.

But further, our critic makes the astonishing and shameful assertion that our Sunday law is a blue stocking and bigot law, which this generation no longer honors.

Let men neglect the divine law and ignore the state law for a time, and use working seven days of the week, instead of six, and what is the likely result? The greedy money power will force men to work seven days for six days wages.

Now, this unfortunate son acknowledges no authority but his free will when the question is how one is to use his Sabbath. It would seem useless to re-

The Lord referred exclusively in all his rights to the unbelieving Jews of his day, as well as in his great fight with the devil, in the wilderness.

But greater annoyances are still in store for my critic. He almost falls into a fainting fit over this, calling out: "Oh, oh, oh, citizen." Here the sentence: "It has always been easier for men to do the wrong thing, when the opportunities have been freely offered, than the right."

But, further, our critic makes the astonishing and shameful assertion that our Sunday law is a blue stocking and bigot law, which this generation no longer honors.

Let men neglect the divine law and ignore the state law for a time, and use working seven days of the week, instead of six, and what is the likely result? The greedy money power will force men to work seven days for six days wages.

Now, this unfortunate son acknowledges no authority but his free will when the question is how one is to use his Sabbath. It would seem useless to re-

234; to sales at 25%, 25% and 20%, with but a few shares offered.

D. T. Morgan & Co.'s Letter The Boston copper was somewhat more active also, and several of the leaders advanced. The most conspicuous was Lake, which sold up to 36.

SEVEN THEATRE MEN MUST SHOW CAUSE Proprietors and Employes of Picture Houses to Be Brought Into Court the 29th.

The members of the committee appointed at the mass meeting of church people, held Sunday afternoon in the First Methodist Episcopal church, with instructions to take the necessary legal steps to compel the proprietors of the moving picture theatres to close their places on Sunday, called on Prosecuting Attorney Bell yesterday morning to talk the matter over.

Judge Andrews yesterday stated that all of the men who will be summoned to appear in court will be privileged to a hearing before a jury and that, if found guilty of violating the law, as charged, they will be liable to a fine not exceeding \$10 and the cost of the court proceedings.

Now, Mr. Critic, if you do not believe that this is a true picture of the times, turn to the moralists and philosophers of that age, for example Seneca, and see if they do not bear the apostle out in the matter.

stinted against the proprietors of the moving picture theatres. In his talk he said that the young man of today must have amusement, even if he has to get it on Sunday.

Yesterday was one of the most disagreeable days of the winter in Ishpeming. A high wind prevailed and with snow blowing and a declining temperature people found little enjoyment in being out.

Mrs. Louis Cain will leave today for Iron River, Mich., to join her husband, who a couple of weeks ago accepted a position as shift boss at one of the mines there.

Hedvick Lindstrom, aged eighteen years, son of Theodore Lindstrom, of Cliff street, died yesterday of dropsy, from which he had been a sufferer for the past two years.

Omber Seem, the Consolidated & Fuel Lumber company's carpenter, had three fingers and the thumb of his left hand taken off about 5 o'clock yesterday afternoon.

APPLICATION BLANK The Daily Mining Journal Bermuda Tour Contest I desire to enter the Bermuda Tour Contest from District...

NOMINATION BLANK I respectfully nominate Miss Mrs. Residence District as a candidate in THE DAILY MINING JOURNAL EDUCATIONAL TOUR CONTEST.

THE DAILY MINING JOURNAL BERMUDA YOUNG LADIES' CONTEST GOOD FOR ONE VOTE For M. District No. Town. If presented at The Daily Mining Journal Office on or before above date.

Women's and Misses' Apparel Something New--Specially Priced--Fine for Gifts There is no more appropriate gift for a Mother, Sister, Wife or Daughter than a rich set of Furs, a nice coat or an evening dress or a party gown, of which we have a large assortment in stock.

CATELY-WIGGINS Houghton Iron Mountain 15 DEATHS IN DEER SEASON. Fewer Fatalities in New England Than in Previous Years. Boston, Dec. 19.—The last day of hunting in New England closed the 1910, when the Maine season, the last of all, was ended.

Hundreds of Applications Are Being Sent in Daily. Why Not Yours? Plenty of Time to Win One of These Beautiful Trips.

It is the votes that will make the winners; it is the votes that the candidates are after—all have the eagle eye for those precious little slips called subscription coupons, entitling the lucky holders to certain numbers of votes.

Some are brought into the contest department and found after minutes of careful searching in some remote part of a pocketbook or handbag, carefully hid away; others are untripped from the folds of some highly perfumed handkerchief; someone's nice young man will rush into the office and pull a coupon from his hiding place back of the inside band of his hat; some young lady will pull one out from a popular fiction, where she had it performing the twin duty of bookmark and to use as a gentle reminder that she must get busy securing other subscriptions as soon as the time allotted for reading had expired.

Every day someone comes into our office and subscribes for the Journal. They had been waiting for someone to ask them to subscribe.

The candidate may work in any territory they choose. Each one must be a resident of a district to win within that district, but they may go into any district, or outside of all the districts, if they so desire, to get the ballots that are printed in the paper, and to secure paid-in-advance subscriptions, on which "special" ballots only are issued.

There will be representatives to look after the pleasure of the young ladies, and every convenience and comfort will be provided to make the trip a memorable one. Experienced guides will accompany the party while ashore at Bermuda and to all historical and natural points of interest.

To those who are entered we would point out that anything the Journal can do to help you to win in the way of supplying letters for friends, cards for visiting, etc., or anything you feel the need of—it stands ready.

Have all you need. Don't be afraid to ask for what you want. Ask for the Contest Manager AND HE WILL TELL YOU HOW TO WIN.

Everyone has an equal chance and a contestant will not have to compete with the young ladies in all of the five districts, but only with her sister contestants in her own district. This rule makes it more fair and impartial to all.

There is plenty of time to start, and to those who have hesitated to join so far we would say send in your application at once and we will send you all the necessary printed forms to help you to win. This is the greatest opportunity offered in Michigan for a great trip, and the interest aroused indicates how much alive to its advantages the girls of Marquette and vicinity are.

There are great opportunities in all of the districts for an enterprising young lady, as will be seen when the vote ex-

hibit appears. Quite a number have signified their intention of getting in the race, and several others have already chosen friends as campaign managers to look after their interests.

THE PLAN IS SIMPLE. Send in your name and home address, then ask your friends to save the coupons for you that appear every day in The Daily Mining Journal. If they do not take the Journal ask them to subscribe. For every year's subscription you get 1,000 votes credited to your name.

Simply, isn't it? One girl from each district is bound to win a Bermuda trip. Then the contestant polling the highest vote irrespective of districts, may choose the chapman.

Every day someone comes into our office and subscribes for the Journal. They had been waiting for someone to ask them to subscribe.

The candidate may work in any territory they choose. Each one must be a resident of a district to win within that district, but they may go into any district, or outside of all the districts, if they so desire, to get the ballots that are printed in the paper, and to secure paid-in-advance subscriptions, on which "special" ballots only are issued.

HAS PLACE AWAITING AN ABLE POLITICIAN

President Taft Looking for Some One to Prepare the Way for His 1912 Campaign.

Washington, Dec. 19.—President Taft is understood to be looking for an able politician who can take charge of many matters of politics and prepare the way for the 1912 campaign. If there were any prospective vacancy in the cabinet, he might seek to bring such a man to his council table. But it is said on good authority that there is no likelihood of any change in the cabinet for some time to come.

Just what status the new man will be given is not announced, and it is probable that the president has not given the matter final attention yet. The talk about selecting a new chairman of the national committee, which prevailed some time ago, is idle. A new chairman could not be chosen without calling the national committee together, and precedents and practice are both against such a course. Ex-Governor John P. Hill of Augusta, Me. is acting chairman of the committee, and will undoubtedly continue in that office up to the next national convention.

The new man presumably will be some one who can be in Washington much of the time, and who can be in close touch with the president. It is thought an executor or one who soon will be. The selection will probably be made very quietly, and it may happen that the name of the new political manager and adviser will only be made plain with the development of his activities with reference to the president's political future.

It is becoming very plain in numerous indirect ways that the president is going ahead on the assumption that he will be the nominee in 1912. He has been told by more than one influential Republican in recent days that the conditions all point to his probable nomination, and that he might just as well begin to bear it in mind and shape his course accordingly.

Indeed, the attitude of most of his party here at Washington toward him in a political sense is clearly based on the idea that he will be the only logical candidate. That hardly includes the insurgents, of course. But Republicans believe the president by wise procedure can do much in a preliminary way to improve his own prospects, and also to put the party into condition to fight a vigorous campaign.

MISSOURI COW BEATS ALL

Chief Josephine Breaks World's Record As a Milk Producer.

Columbia, Mo., Dec. 18.—Missouri Chief Josephine, the Holstein cow at the Agricultural college of the University of Missouri, is the world's champion milk producer, and has broken the records made by Colantha Fourth's Johanna of Rosendale, Wis., which formerly held the high mark.

Josephine, at the end of a six months test, has averaged forty-seven quarts a day, which far exceeds any previous record. Many cows have produced fifty quarts of milk a day for a week, but none has equalled Josephine's six months' test. In addition, at the end of nine months Josephine is just one ton of milk ahead of the world's record for that time and is gaining on the record daily. Most cows show a decline in production during the last four months of the test for a year. Josephine has had a slight decrease for a time, but has proved that she can "come back." Her year ends on Jan. 17. The Missouri Holstein consumes sixty-five cents' worth of food a day.

The cow's best record for a single day was fifty-five quarts or 110 pounds of weighed milk. The animal is milked four times a day and her daily regime is under the direct supervision of Prof. C. H. Eckles of the dairy department of the college. I. T. Van Note, university herdman, feeds and cares for the cow. During the summer her stall was screened to keep flies out and electric fans were put in to keep her from suffering from the heat. In addition she was given a shower bath every day. A special plot of bluegrass was set aside for her exclusive use. Josephine is fed silage and green fodder to give her plenty of milk producing material.

What this eight-year-old Missouri-bred Holstein accomplishes can be appreciated when it is recalled that the average city family uses less than a quart of milk a day and Josephine produced fifty-five quarts in a single day, or enough for more than that many families.

Worse than an alarm of fire at night is the metallic cough of croup, bringing dread to the household. Careful mothers dread Foley's Honey and Tar in the house and give it at the first sign of danger. It contains no opiates. The People's Drug Store.

NEW BOOKS AT LIBRARY.

Long List Placed on Shelves During the Month of November.

TOO MUCH POLITICS IN FEDERAL SERVICE

Assistant Attorney General Denison Tells How It Hampers the Legal Work.

Baltimore, Dec. 19.—Political lawyers in the government service are largely responsible for the popular impression that it is next to impossible to put a rich criminal in jail, declared Assistant Attorney General W. T. Denison in an address here before the National Civil Service Reform association. Predicting that civil service principles ultimately would be applied to all legal positions in the government service, with the possible exception of attorney general and solicitor general, Mr. Denison declared the breakdown of the criminal law was due largely to political appointments in legal positions because they prevent the people from getting their money's worth in ability and services.

"A law officer of the government, and especially a criminal prosecutor, ought not to know a Republican from a Democrat," said Mr. Denison. President Taft and Attorney General Wickersham had eliminated political considerations from all appointments under attorney general, except in a few isolated cases, he continued, and as the result of his experience in the prosecuting branch of the government he said he had come to believe that all assistant attorneys general and all United States attorneys could best be selected by promotion on a competitive basis and all positions below assistant district attorney by competitive oral and other examination, a practice which had been used by Henry L. Stimson when the latter was United States district attorney in New York.

Bosses Wanted Free Counsel.

Mr. Denison said that Mr. Stimson's prosecutions of rebates, sugar frauds and bank wreckers never could have succeeded if he had made appointments in his office in accordance with the demands of political bosses. New York politicians, he said, had even protested to Attorney General Bonaparte that Stimson was requiring too much public work from his assistants, which had the effect of causing them to neglect legal work for the Republican organization of New York, which they wanted done at public expense.

"Stimson's method was strongly opposed not only by the ordinary type of politician," declared Mr. Denison, "but by certain very enlightened and genuinely public spirited leaders who were of the opinion that Mr. Stimson was in error in politically adopting it. It came down, then, to the real objection—a direct bald question of dollars and cents. The party managers said, in effect: 'The party has to have a certain amount of legal work done, some of it for poor members of the party, who need to be kept in line by some sort of charity, and some of it for direct organization legal work in connection with watching elections, advising as to rights of voters, etc. etc. This legal work being necessary, how, they said, can we get men to do it? Would anybody do it without compensation? We must then either pay them from our own private money, or we must pay them through preference in appointments, good salaries—in other words through the public purse.'

"I agree fully that this point of view is abiding in the minds of some of the average men, though I recognize that in particular cases it does not seem immoral to many men of genuine high moral character. I confess that I have not the acuteness of moral vision that can perceive its essential distinction from ordinary compensation. All this is aside from another fundamental evil of the spoils system, which is an evil common indeed to the application of that system in all kinds of appointments, but perhaps in the largest degree evidenced in regard to legal positions.

A Fatal Swapping of Horses.

"The terms of public office are very short in this country, the law is very long; and the two do not fit. Under our defective and absurd legal procedure, the law's delays are so great that a hardfought legal campaign against experienced and high-paid counsel can not be carried through to final culmination within the limits of the term of office; and a change in the office following a party change in a fatal swapping of horses.

"We all know how bitter has been the feeling among the poor concerning the ineffective, as well as against rich and powerful criminals of the administration of our criminal laws; we all know how far that bitterness has been justified; and we all know how these failures of the criminal law have fostered class hate and wild, vengeful political movements. I believe that many of our failures are due to political appointments to judicial and legal positions.

"There appeared the old objection that a Republican would be a more effective servant in a Republican administration than a Democrat could be. Even on the merits (if the objection ever had any) it is peculiarly inappropriate to appointments of public prosecutors because the duties of those officers are purely the application of the law, and there are no crimes, so far as I have ever found in its prosecution of which it is important to know a Democrat from a Republican. Indeed, it is vitally important not to know a Republican from a Democrat, for the moment any such observation occurs there follow injustice, tyranny and the betrayal of the oath of office."

NOTICE TO TAXPAYERS.

City Treasurer's Office, Marquette, Mich., Dec. 1, 1910. Notice is hereby given, that the general tax roll of the city of Marquette, with all regular taxes, state, county and municipal, for the year 1910, spread thereon, has been deposited with me and is now in my office in the City Hall, and that the amount of taxes therein assessed and specified are due and may be paid to me at any time up to and including the 28th day of February, 1911. On all state and county taxes paid to me on or before January 9th, 1911, a collection fee of one per centum will be charged, and on all such taxes paid to me on and after January 9th, 1911, a collection fee of four per centum will be charged. On all municipal taxes paid on or after this date, a collection fee of three per centum will be charged. E. P. BYRNE, City Treasurer. (12-6-0)

The Girl Who Lives Alone

whether she attends college or goes to business, needs the Perfection Oil Heater. It will heat a cold, cheerless boarding house or dormitory room and make it livable. It

is always a ready help in the many things women do for themselves in their rooms. With the damper top opened it will heat water for tea or cocoa; it will dry the small articles that a woman prefers to wash herself in her own room. It will quickly heat an iron or curling tongs; quickly dry wet shoes or skirts—an ever ready help for the woman who lives alone, dependent on her own resources. The

PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

is invaluable in its capacity of quickly giving heat. It will burn nine hours with one filling. It is safe, smokeless and odorless; has a cool handle and a damper top.

An indicator shows the amount of oil in the tank. The filter-cap is put in like a cork in a bottle, and is attached to the front by a chain. It has an auto-matic locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

The burner body or gallery cannot become wedged, and can be unscrewed in an instant for reworking. Finished in Japan or nickel, strong, durable, well-made, built for service, and yet light and ornamental.

Desires Everywhere. If not at yours, write for descriptive circular to the nearest agency of the

Standard Oil Company

MARQUETTE NUMBERS 11,503 INHABITANTS

Population of Upper Peninsula Cities Given Out at Washington Yesterday.

The population of the cities of the upper peninsula, as shown by the thirteenth census, was made public yesterday at Washington by E. Dana Durand, director of the census bureau. The population of Michigan by counties was announced several months ago, but this is the first announcement of the population of the smaller cities.

The census taken last May shows the city of Marquette to have 11,503 inhabitants, an increase of 1,445 in ten years, or an increase of 14.3 per cent. The population in 1890 was 9,958, and in 1900 it was 10,038, an increase in those ten years of 9.6 per cent. While it was confidently hoped by many local citizens that the 1910 census would show this city to have a population 12,000, and of this prediction the figures fall about 500 short, Marquette has had a steady, healthy growth during the last decade. It is the general opinion that the increase in population has been almost entirely due to the establishment of the Pioneer Iron company's furnace in North Marquette. The plant is now employing between 200 and 300 men, most of whom are married and the families will probably average five each. It is thought by many that the southern half of the city has grown little if any during the last ten years.

Much to the surprise of Marquette people, Ishpeming city shows a gain, compared with the population ten years ago. The population as enumerated in 1910 was 12,448 and in 1900 it was 12,255. In 1890, it was 11,107.

Negaunee has had the largest increase of any of the three Marquette county cities in the last decade, its present population being 8,460, an increase of 1,525 since 1900 when the census showed a population of 6,935. Negaunee's more rapid growth is thought to be due to the development of several new mining properties within or adjacent to the city limits within the last ten years.

Other upper peninsula cities and villages that show substantial increases in population since 1900 are Ironwood, Houghton, Escanaba and Laurium. Hancock and Menominee show less during the same period.

Lower State Notes.

DETROIT—As mysteriously as they disappeared \$4,100 worth of unset diamonds were returned to Arthur F. Harwood, jeweler. Harwood received his package by mail. He hurried to police headquarters and handed the package to Captain McDonnell, who opened it. The diamonds were all in the wallet, where Harwood placed them a week ago.

Mt. CLEMENS—Struck by a fast limited car on the Detroit United Railway tracks at New Baltimore Mrs. John Stewart, aged seventy-six years, was almost instantly killed. The accident occurred at 3:15 o'clock. Mrs. Stewart was about to board the car at a crossing. Instead of slack, however, the car kept on and struck her before she could leave the track. The body was taken aboard the car, but was found to be lifeless.

BATTLE CREEK—Business and society circles were given a severe shock by the arrest of Herbert W. Taft, a prominent real estate dealer, on a charge of having eloped with Mrs. Grace R. Fox from Kirkland, Oneida county, N. Y. Mrs. Fox was also held, and both were bound over to the circuit court. According to Mrs. Nettie Taft and Win. N. Fox, left behind at Kirkland, the couple left there two years ago and only recently were located in Battle Creek. Meanwhile Taft, making money in the milk business, had sold out and become a prominent real estate man. His supposed wife became popular here, being a charming woman. The community received the news of the arrest with intense surprise.

SAGINAW—Basing the farmers' share of the annual sugar beet production in Michigan on the two payrolls that have been distributed by the sugar companies for beet deliveries in October and November, the millions which have been turned into the pockets of the farmers in past years will be far in excess of the season. The farmers of eastern Michigan, where sugar beet raising is heaviest, and those in northern and western Michigan have just received the November payment for beets and the Carrollton plant of the Michigan Sugar company, but one of six similar factories, many of them larger, paid out in round numbers \$310,000. It had previously paid out this year \$200,000. It is estimated the farmers will receive close to \$600,000 from this factory, and with several of the so-called trust plants paying even more than that, the Michigan Sugar company bids fair to pay the beet growers approximately \$5,000,000, while the numerous independent concerns will probably swell that total to at least \$8,000,000.

PONTIAC—The Michigan State Telephone company has petitioned the circuit court to determine if it is purchasing the Oakland County Telephone company they are violating the so-called "anti-trust" laws of the state. Attorneys for the telephone company want the court to decide whether in buying the opposition telephone system here they are violating act 329 of the laws of 1890, and act 329 of the laws of 1905. The purchase of the property by the Michigan State company has not yet been confirmed and the prospective purchasers are desirous to learn if they are proceeding in a legal way in purchasing it. They want the court to cite in the general that he may express an opinion on the subject.

JACKSON—Fred Snyder, who has the swill contract at the prison, for which he is alleged to have tendered ex-Warden Armstrong a bribe of \$15 at the latter's solicitation, has been as good as acquitted. The jury failed to agree on a verdict after being out five hours. In reply to the court, the foreman stated they were about evenly divided and that there appeared no prospect of reaching a verdict. The judge then discharged them. The people's case consisted only of the testimony of Armstrong and that of Warden Stone, who testified to the execution of the contract with Snyder for the sale of the garbage for the sum of \$220, which he as chief clerk of the prison received and turned into the

state treasury. The defendant did not go on the witness stand and no evidence was offered in his behalf.

BAY CITY—Rev. Levi R. Lupton, who made confession to his Alliance, O. congregation of illegal relations with a young woman member of his flock, was the founder of the village of Lupton, near Rose City, in Ogemaw county. Some eighteen years ago he settled at Lupton, bringing with him a number of Quakers, and started a colony in partnership with George Stanley, who later became a wealthy miner. Lupton undertook to establish a new sect of the "grit of tongues" brand, but the colonists would not stand for it, and a split occurred. Lupton returned to Ohio with a few faithful followers. Five years ago he went to Africa and tried colonization schemes, but it failed. Two brothers, who take no stock in his fanatical religious views, are prominent lumbermen of Lupton.

ST. JOSEPH—William Peapples of Benton Harbor, a telephone lineman, was killed by electricity while working on a pole on the north side of the river, grasping a wire, 2,200 volts shot through his body, killing him instantly. Other linemen on the ground below saw him fall across the wires and saw him turned into a veritable torch as his clothing took fire and burned. His body was taken down with the wire, and first being necessary to extinguish the flames with buckets of water. Peapples, foreman of a construction gang, was stringing wire to put in a telephone. The wire had been pulled over an electric light wire. Peapples believed that they were grasping the wire to pull it. So tragically was the foreman's death that one other lineman became temporarily derailed.

PORT HURON—At the present time it looks as if Port Huron was stung for a cool \$106,000 on the proposed canal to connect Lake Huron and Black river, and that they are beginning to believe that the water of the latter stream sparkling and clear instead of murky black. Every citizen in the city is asking himself and others whether the ditch is going to be completed, and from present indications it would appear as if nothing but a big hole in the sand will have been dug. A few days ago John C. Carland, the canal contractor, quit work, but insisted that he would return again, the next time with another kind of dredge. However, the citizens have been fooled so much that they are beginning to believe that the money they have put into the venture has gone for naught.

BATTLE CREEK—Waiting patiently for an answer to the appeals he sent out in personal letters to the governors of four states where electricitition is legal, asking that he be put to death by this method, Rev. Thomas McKinsey, local blind singer and former pastor, who leaped into prominence by his strange request, dejectedly admitted that his pathetic appeal had not been granted. He stated that while he considered suicide against the laws of God and man, he might take his own life if his request was not honored. "I am praying every day that my request may be granted," he said, "but I do not want to exist this way much longer." His family, while taking every possible care of him, are inclined to the belief that McKinsey is insane. Three months ago they filed a petition to have his sanity investigated, but a commission of two of the ablest physicians in the city declared McKinsey was of sound mind and in possession of all his faculties, though suffering from extreme nervousness.

SAGINAW—Friends of Miss Phoebe Anderson, teacher in the Spencer school near Marcellona, have received word of the terrible privations she experienced while lost a night in the woods in a big snow storm near Mitchell's lumber camp. She started from her school at 5 o'clock to go to the home of Francis Gregg, whose wife was boarding. The storm was at its height and the sky was darkened so that she could not see more than a few feet ahead. She thought she would take a by-road which led through the woods and which would cut off considerable distance home. She lost the path,

wandered in the snow until exhausted. She pulled her skirts over her head and lay in the snow until she had secured enough strength to continue her journey. In that way she wandered all night, never giving up, but struggling on in the hope of reaching the farm house or other shelter. At 8 o'clock in the morning men from Mitchell's lumber camp heard her feeble cries and found her beside a log in the snow. She had lost her gloves and rubbers and was barely able to stand alone. They carried her out in time to save her life.

ON REFORMING CHRISTMAS.

Don't Be Over-Practical in Your Selection of Gifts--Remember the Poor.

Not content with remodeling the Fourth of July, ultra-zealous reformers are now advocating drastic changes in Christmas. Most of their attacks on the winter festival are directed towards the giving of gifts, which, they say, is productive of jealousy and hypocrisy, to say nothing of extravagance. It is true that many give beyond their means, often against their will; and those with little money foolishly try to compete with those who have much. People with whom we have long exchanged gifts, yet for whom we have perhaps ceased to care, will send us something, and we must not do so. Now, if there must be reform, let it be here, demands a writer in Lippincott's. If we no longer desire to exchange gifts with someone, let us have the courage to write a friendly note and explain that we prefer not to this year. It is quite possible that our friend will be as glad to stop as are we. Or, and simply a card or a friendly letter, regardless of what may be sent to us. This hint is pretty sure to be taken the following year.

The exchanging of gifts has been a feature of Christmas for centuries. To me, it is a most beautiful custom, if noticed the if-it-is done in the proper spirit—a spirit of genuine affection and good-will. If two loving hearts exchange gifts of equal monetary value, each prizes what he receives far above the value in dollars and cents of that he has given. Nor do I hold with the doctrine that it is better to send merely cards or letters on Christmas day, and give to the poor the money we should otherwise have spent. I am selfish enough to want some of the Christmas fun myself, and I want my relatives and friends to have some, too. I always feel that Christmas day is sacred to my dear ones. Reformers may tell us that the furs which a man purchases giving to his wife would buy many dinners for the hungry, and many dolls and toys to make glad the hearts of ragged little ones; but—well, I should be sorry for the poor folk, but if it were my wife, she would get the furs. This is not a plea to abolish giving to the poor on this day of days; it is merely a plea for moderation. Let us remember the poor, let us give—bountifully if we can—to help them; but—don't let's overdo by failing to give gifts to those near to us.

Another thing, in giving to the poor—or, for that matter, to the moderately well-to-do—let us not give only useful articles. Those in whose lives luxuries seldom come will appreciate it all the more if they receive something which they would not have needed anyway. Socks and groceries may be of more practical value than bonbons and gift-books, but if the latter will promote happiness, let us by all means give them.

A SIMPLE SAFEGUARD FOR MOTHERS.

Mrs. D. Gilleson, 326 Ingles Ave., Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house." Accept no substitutes. The People's Drug Store.

NEGAUNEE NEEDS A CIVIC SOCIETY

So Declares Hon. Emil Seidel, the Socialist Mayor of Milwaukee.

Hon. Emil Seidel, Milwaukee's socialist mayor, who gave the principal address at the dedication of the new Labor temple on Tobin street Sunday afternoon, spent yesterday looking over the three cities of the county.

"I would like to go into one of these mines," said Mr. Seidel yesterday morning when seen at the Breitung House by The Mining Journal representative.

"I like the looks of your country, but your people lack in public enterprise. I cannot understand why cities like Negaunee and Ishpeming are not provided with organizations whose object it is to work for civic betterment."

"They tell me that there is much opposition to socialism here. If that is true the people should come in contact with the socialists, and show them where they are wrong. They shouldn't be afraid to meet these people."

CHRISTMAS AT ERICKSON'S

A full line of Toys of every description, Skis and Sleighs, Dolls and Doll Sleighs and Carriages, Games, Tree Ornaments, Toilet Articles, Gift Books, Perfumery, Candies and Fruits.

When you have a cold get a bottle of Chamberlain's Cough Remedy. It will soon fix you up all right and will ward off any tendency toward pneumonia.

out labor, there would be no civilization, and that the rights of both capital and labor should be respected.

Mr. Seidel declared that it was absolutely necessary that the people get control of city as well as of state and national governments. He said he was strongly in favor of government ownership of the railroads, telegraph and telephone systems, street railways and lighting plants.

Mr. Seidel cited a number of cases where government ownership was proving a success in this country and he said that the country will develop more rapidly under government control than under private control.

He said that many of the leading men of other political parties have commended them for what they are doing. He referred particularly to Dr. Elliot, of Harvard college, who recently visited Milwaukee, and who openly commended the administration for the good that it has done and for the great moral force that is back of the administration leaders in their effort to do things satisfactorily.

WILL SHUT OFF WATER.

Delinquent Water Takers Must Pay Up Before First of January.

The board of public works has decided to cut off the water supply of all patrons in arrears, if their accounts are not paid up by the first of January.

The only settlements that will be acceptable to the board are those adjusted in the office. Otherwise the patrons will have to settle their accounts in accordance with their bills, which were made out from the meter readings.

MORE SNOW FALLS.

Six inches or more of snow fell Sunday night and yesterday. There is now more snow on the ground here than at this particular time for many years.

CHRISTMAS FESTIVAL.

The Sunday school society of St. John's Episcopal church will hold its annual Christmas festival in the Scandinavian society's hall, on Gold street, a week from today, the 27th, the exercises starting promptly at 7 o'clock, continuing two hours.

LOCAL LAONICS.

Ray Connors, who is a student in a Detroit college, is home on his holiday vacation.

R. G. Quinn is here from Milwaukee, making his final call of the year upon his patrons.

Mrs. Fred Pierce of Marquette visited her mother, Mrs. Stephens, in Negaunee yesterday.

T. H. Harris, who travels for the American Candy company, is home to spend the holidays.

Miss Marguerite Adams has returned from school to spend her vacation with her parents, Mr. and Mrs. E. W. Adams.

The brokers' offices of the upper peninsula will suspend business Friday night, remaining closed until next Tuesday, the 27th.

Miss Myrtle Corhill has returned from Ypsilanti, where she is a student at the Normal school. She will return soon after New Year's.

Louis Townsend has returned from the Military academy at Fairbault, Minn., to spend his holiday vacation with his parents, Mr. and Mrs. C. V. R. Townsend.

Many Ishpeming people, also a number from Marquette, and a dozen or more from Hancock, attended the daily exercises at the Labor temple in this city Sunday.

T. P. Kirkwood purchased a driving team and Thomas Pellow bought a single driver from M. J. Greenhal, former manager of the Newald livery, before he shipped his stock to Beloit, Wis.

Up to yesterday a total of 249 deeds had been given out to lot owners in the Catholic cemetery. The demand for removal permits continues. In the neighborhood of 4,000 have been issued to date.

The Misses Clara E. Miller and Genevieve Doyle, students at Stout's domestic science school at Menomonie, Wis., are home for their holiday vacation.

TROUBLE DUE TO DREDGING?

Last Three Samples of City Water Analyzed by the State Bacteriologist Were Found to Be Contaminated With Sewage Germs and Pronounced Unsafe.

Many Think Digging Recently Done in the Harbor Under Government Contract Has Polluted the Supply—Sterilization Plant Will Soon Be Ready for Use.

The third consecutive report declaring the Marquette city water to be unsafe for drinking purposes was received from the state board of health yesterday by Superintendent John Kern. The latest report was based on a sample sent to Lansing, Dec. 10, and while the analysis shows a slight improvement over the last previous one, the state bacteriologist declares that the water is unquestionably contaminated with sewage. In summing up his report, he says: "This sample of water shows again fairly good chemical results, but bacteriologically the number of colon bacilli is too high for a safe drinking water. The degree of contamination is not great nor is it great enough so that any serious epidemic might be anticipated, nevertheless the fact that sewage reaches the intake cannot be questioned."

The dredging of the harbor which was in progress until about ten days ago, when the dredges were laid up until spring, is the reason most often assigned for the city water being more seriously contaminated than for several months past. If this be the cause, the water now used should be better than that analyzed, for the dredging has ceased for the winter. It is significant that the first sample taken after the dredging was begun was the first to be reported unsafe for six months or more. The dredges have been operating near the mouth of the trunk sewer that empties into the harbor at the old Grace furnace dock, and the mud dug up was towed in a southerly direction and dumped into the lake at a point about midway between the end of the breakwater and the prison. It was thought that this location was far enough removed from the outer end of the water works intake to avoid any possibility of contamination, but possibly such was not the case.

May Not Be the Cause.

However, it is by no means positively proven that the dredging is responsible for the recent increased pollution of the city water. It has been demonstrated by scientists that sewage bacteria will live longer in cold than in warm water, and that, for this reason, the same cause operating might be expected to show a greater contamination of the water in winter than in the summer. Again, in years past, there have been times when several consecutive analyses

showed the water to be contaminated, and following them apparently without any particularly reason, would be a number of highly satisfactory analyses.

Colonel Fitch, of Duluth, the government engineer having in charge the dredging, has been communicated with regarding the possible contamination of the Marquette water by the dredging operations, and has asked for data and information at hand, which might determine the cause of the increased amount of contamination, as shown by the three reports. He states that once it is proven to his satisfaction that the dredging, as it was done this fall, was responsible for the bad analyses, it will be discontinued, and that the contract will be modified to enable the contractor to take the mud dredged up to some place where none of it can possibly contaminate the city water supply. Colonel Fitch expects to settle the question before the dredging is begun again in the spring.

Until the sterilization plant now in progress of construction at the water works pumping station is put into service, the water board recommends that the water be boiled for drinking purposes. This plant, through the agency of which all water will be treated with hypochlorite of lime, is nearly finished and should be in operation soon after the first of the new year. This treatment is expected to destroy all dangerous bacterial life that may be in the water as it comes out of the lake and make it absolutely pure and safe, as far as the danger of contracting typhoid fever or other diseases is concerned.

A WONDERFUL SINGER.

Audiences Enthuse Over Evan Williams, Who Will Sing Here Jan. 26.

Evan Williams, whose recital here on Jan. 26 has been announced by the Saturday Music club, has been received with delight wherever he has sung this winter. He has already filled many engagements in the middle western cities near here, most of them return engagements, and before audiences that have heard him again and again with ever increasing pleasure.

Evan Williams was soloist at the opening of the remodeled auditorium in Milwaukee on Nov. 3 by the Arion and Cecilia club. The Milwaukee Sentinel commented: "Mr. Williams' singing was as ever a delight. From a whispering pianissimo to a thunderous forte, Mr. Williams' voice of great range never loses its beautiful lyric quality. Tenorship he possesses in abundance. He virtually lives his songs and that is what makes him the artist that he is."

The Columbus (O.) Dispatch says of him: "Evan Williams, with his golden voice, melting tones, impeccable diction and magnetic personality made us take all those Handel songs willingly, and I dare say he could have made us take another group and declare we liked nothing better, had he willed it. The three lyrics of Robert Browning which Daniel Protheroe has melozed, and which are so well known to us in other musical guises, were fervently sung, every word uttered with such pure intonation and perfect enunciation, that not a word was lost, and proved how senseless it is to print words for such a finished singer as Mr. Williams."

HOLIDAY EXCURSION FARES

To points in Michigan and Eastern Canada via the South Shore. Please apply to agents for particulars. 12-14-11

Christmas Neckwear

WE have just placed on sale a new stock of exclusive Neckwear. We pride ourselves on showing the latest and best creations. Come and see the new things.

Priced at 25c, 50c, 75c and up.

For a Scarf or Muffler that is just the thing, for a pair of Gloves that are right, for a new Collar or a new pattern in a Shirt, or anything to embellish a wardrobe, come here!

Don't forget our Fur Caps and Fur Gloves, Handkerchiefs, Silk Umbrellas, Slippers, Moccasins, Bath Robes, Smoking Jackets, Underwear, Hosiery, Sweaters, etc.
