City Brevities
Today's weather: Snow flurries and warmer.
Yesterday's temperatures: Seven a. m., 11 degrees; noon, 22; 7 p. m., 20. Maximum, 25 degrees; minimum, 11.
Marquette news will be found on pages 4, 5, 9 and 12 this morning.
H. K. Anderson, of Kenton, was in the city on business yesterday.
Yesterday was ideal weather and in the afternoon the stores were filled with Christmas shoppers.
Mrs. Wm. Hoar and Mrs. John Parker left last evening for Duluth to spend the holidays with Mrs. Parker's daughter, Mrs. Carl Rough.
Arrangements are under way for giving the inmates of the county jail the usual Christmas dinner, with turkey and all the trimmings.
John Pollard and Miss Augusta Weimberg, both of Republic, were married at the Methodist parsonage yesterday afternoon by the Rev. Joseph Dutton.
The Ladies' Auxiliary to the Brotherhood of Railway Trainmen will give a dance in Bureau's Hall Monday evening, Jan. 2. Trombly's orchestra will furnish the music.
A chimney fire at the corner of Fifth and Fisher streets, at the residence of Mrs. Michaud, called out the fire department at 9:30 last evening. In spite of the high wind, no great damage resulted.
The Presbyterian Sunday school will have its usual Christmas entertainment at the church Saturday evening at 7:30. This will be for all but the kindergarten department. Santa Claus will visit that department next Tuesday afternoon at 2 o'clock.
The stag dinner to be given at the clubhouse by members of the Town and Country club and their friends promises to be a very enjoyable affair. Quite a number are planning to make the trip on snow shoes from town to the clubhouse and those wishing to make the trip on snow shoes are asked to meet at the Marquette club at 5 o'clock Friday evening.
Hundred More Licenses—A hundred more deer licenses, issued by Judge Andrews, of Ishpeming, should be added to the total of 1,513 for the season, published yesterday. This total number, 1,613, is as many as has been issued any year since the license fee was raised to \$1.30. When the license was seventy-five cents, the total number for several years ran up over 2,000.
Chas. Smith Dead—News was received here yesterday of the death of Chas. Smith, of Rockland, which was caused by appendicitis. Mr. Smith resided in this city for many years, having been employed for some time by Peter White & Co., in the insurance business, and he has many friends among local business and professional men. He left here seven years ago to accept the cashiership of the First National bank at Rockland.
Eagles' Dance Jan. 2—The annual dance given by the Marquette members of the Fraternal Order of Eagles will be held this year at Fraternity Hall on the night of Jan. 2. The Eagles in the past have made this one of the big events in the round of winter amusements and the coming function is being anticipated with pleasure by many local people. The Eagles' dances have always been largely attended and there is no reason why the coming ball should be an exception. Trombly's orchestra will furnish the music.
Will Have Fine Rooms—Armory Hall and the floor below, which were rented by the Order of Owls some time ago, are being completely remodeled, and when the alterations and improvements are finished, the Owls will have one of the finest club rooms in the city. It is expected that the rooms will be ready for occupancy shortly after the first of the year. The Owls dance at Fraternity Hall on the night of Dec. 26 is also attracting much advance attention. The feature of this dance will be an entirely new grand march.
Ardis Furnace Has Good Run—Nels Flodin of the Lake Shore Engine Works arrived home last evening from Iron Mountain, where he inspected the operation of the Ardis furnace, the invention of John T. Jones. The furnace has been running for the past five weeks, thirty-five tons daily, and has been giving, Mr. Flodin says, most gratifying results. Many well known steel men have lately inspected its work, including representatives of An-

draw Carnegie, the Jones & Laughlin interests and other important concerns.
Caught at Bellingham, Wash.—The prison officials were notified by a telegram yesterday that Archie Davidson, a trusty who escaped from the prison barn last September, had been apprehended at Bellingham, Wash., and Deputy Warden Cattin will leave today for that place to return him to the prison. Davidson was sent up from Bay City on a burglary charge under a sentence of from five to fifteen years, and would have been eligible to parole four months after his escape. He will now have to serve the maximum sentence less the time already served. Davidson had been treated as a trusty for several months prior to his escape, and had worked at the barn for two months.
Christmas Tatler Appears—The Christmas number of the Tatler, the monthly publication of the Marquette High school, made its appearance yesterday. The number is similar in form and arrangement of contents to that issued a month ago, but it shows improvement in many respects. There are several cleverly written short stories, much interesting high school news, some well written editorials and the usual number of amusing incidents that have transpired in the high school during the last four weeks are recorded. The publication of a monthly is no inconsiderable undertaking on the part of the high school students and their efforts are worthy of the generous cooperation of the public.
Public Schools Closed—The public schools closed yesterday afternoon for a two weeks' vacation, and appropriate exercises were held in many of the grade rooms. Most of the teachers whose homes are out of the city have gone home for the holidays. Those of the High school faculty who will spend Christmas out of town are: Miss Luthera Egbert in Chicago; B. E. Brown at Franklin, Ind.; Miss Barnard at Saginaw; Miss Mabel Bradshaw at Manistigee; Miss Ethel Cooper at Grass Lake, Mich.; C. A. Shoultz at Brown City, Mich.; Mr. Bayley at London, Ont.; J. H. McNeel at Fond du Lac, Wis., and Miss Williamson in Chicago.
Mrs. Ed. Harris, of Cedar street, has returned from a visit with relatives in Chicago and Milwaukee.

INSURE WITH PETER WHITE & CO.
ANNUAL MEETING.
Marquette, Mich., Dec. 5, 1910.
The annual meeting of the Marquette County Agricultural society will be held at the city hall, Marquette, Michigan, on Monday, the 9th day of January, 1911, at 2 o'clock p. m., for the election of officers and the transacting of such other business as may properly come before the meeting.

From the most inexpensive to the very best offers you an unrivaled selection and pleasing to your sense of economy.
THE STORE OF QUALITY.

**RAILROAD CAR SHOP
NOW BEING USED**
South Shore's New Building Is
Fireproof and Modernly
Equipped Throughout.
With the exception of a few finishing touches, the new car shop of the South Shore railroad, built to replace the building destroyed by fire Sept. 18, last, has been completed and work is now being done in the new building. Nearly all of the machines and all of the larger motors have been installed and are in operation, but several of the individual motors are yet to be placed. Electricity from the city plant will furnish the motive power.
The building is of fireproof construction and was erected by C. C. Van Idersdine. It is steam-heated and is lighted from the railroad company's electric plant. Four ply asbestos roofing has been used and the roof is laid on steel rafters. The new building is sixty-five feet longer and fifteen feet wider than the old building, and with increased machinery the car repairing department should be able to turn out about twice as much work as formerly. The old building was erected in 1866 and had been in service nearly forty-five years.

**SAGINAW TOWN
BOOMER TALKS**

J. N. Southgate, Secretary of West Side Commercial Body, Visits the City.

J. N. Southgate, of Saginaw, who is the secretary of the West Saginaw Commercial organization, was a Marquette visitor yesterday, he being here on a special mission for the Fidelity Accident company, of Saginaw. Mr. Southgate was greatly interested by what his friends told him of the efforts that are being made to put the Marquette Commercial club on a business basis.

"You are on the right track in this," he told a Mining Journal man. "Every commercial club has to come to a paid secretary, who devotes his entire time to the work, before it can get the hoped for results. Civil development work has come of late years to be a specialist's work, and no person who does not make it his profession can expect to get the results achieved by those who do. So many are the ramifications of the work that can be properly undertaken by a commercial secretary that he finds the day too short to attend to all his duties."

"It is a mistaken idea that all a secretary of a commercial organization has to do is to look for new industries. He has many duties to perform in connection with the industries already est-

ablished in his home city. They have interests of varied natures that he can serve, particularly where manufacturing has been developed to a position of importance. He finds much employment in connection with freight rates, regarding which the average manufacturer is by no means as well informed as he might be.

"The quest for new industries is one that must be conducted with great caution. There are many 'lame ducks' in the commercial world looking for help whose absence is much to be preferred to their support and whose help to be carefully discriminated against. I find that about two-thirds of the propositions put before us are not worthy of serious consideration, and but a small number of them are referred to our committee."

"Our association has been getting excellent results since it adopted business methods and the members are well pleased with what has been accomplished and are supporting it liberally. They find they get benefits all out of proportion with what it costs them to support the work."

"The most effective of the civic boomers now command high salaries. Detroit has lately hired a man who was previously located in that city, but who was allowed to get away from there, he having received a flattering offer from Des Moines. Detroit is getting him back at five times the salary he was paid when he left there, and as he is a good man he will be cheap at the price."

"Here in Marquette you cannot expect to accomplish as much as cities more favorably located for industrial development can, but you may be assured that the only way you can get results will be by putting your work in the hands of a specialist in this new profession. You will probably be surprised at what a good man will be able to accomplish."

THE STAFFORD DRUG CO.
FRONT ST., MARQUETTE

Upper Peninsula

Has Much Concrete Walk—
City Engineer Goldsworthy estimates that about four miles of cement sidewalks were constructed in Iron Mountain the past season. The engineer also estimates that there are fully ten miles of such walks in the city now and he intends making a map showing the location of the same.

A Chippewa County River—
The United States geographical board at its last meeting was asked to pass upon the proper spelling of one of the rivers in the western part of Chippewa county and which empties into Whitefish bay. The decision of the board was that the river referred to was the "Taquamenaw." Though that is the pronunciation usually given the name of the stream by the hunters and fishermen who visit that locality, half a dozen different styles of spelling have been used. Most of the maps of Michigan have it down as "Taquamenon."

Iron Mountain Prosperous—
It is highly probable that Iron Mountain will be the seat of considerable building activity the coming season. Plans are already being made for the erection of a number of business blocks and a large hotel is among the possibilities. Several new industrial enterprises are also under consideration and a new high school building has become a necessity. There is need of a large number of new dwelling houses and a company may be formed to supply this want. The outlook for a prosperous year in all branches of business was never brighter than today.

Ironwood's Seventeenth Church—
Ironwood's seventeenth church is in course of erection on the North side. It will be the spiritual home of another element of the city's cosmopolitan population, the adherents of the orthodox Greek Catholic faith. The building is a modest one, 28x45 feet, but its size is ample for the followers of the faith, adults and children numbering about one hundred. Most of the congregation are Syrians who have proved themselves law-abiding and industrious citizens. It is hoped to have the church ready for dedication the first of the year. The church will be under the jurisdiction of a bishop in New York. A priest has been appointed to have charge of the Ironwood parish, and will arrive within a few days. The name St. Samuel has been chosen for the church, which will be the first Greek Catholic church to be erected in the upper peninsula.

Old Landmark of the Soo—
The old building known as the Minneapolis house, recently gutted by fire at the Soo, is one of that city's most ancient structures. The west wing was almost entirely destroyed and the roof of the main building was badly burned. The building is owned by Mrs. Alfred Goetz and Mrs. James Smith; the loss being fully covered by insurance. The building was occupied by Charles Hill, who kept a shoe repairing shop in the west wing and housed his family in the upper floor. Mr. Hill before retiring for the night filled up the stove for the purpose of keeping the water pipes from freezing. He and his wife were awakened by the smoke which soon filled their sleeping apartment and a moment later the flames broke through the partition. They escaped in their night clothes. The building for years was utilized by the people of action on the morning entertainments of all kinds. It was constructed in 1872 by William H. Smith, deceased. Mr. Smith went to the Soo as a sergeant in the army and was for a number of years stationed at Fort Brady. On his retirement from the army he created the building which he designed for amusement purposes. Here all the public functions and local entertainments were given for years and such of the small theatrical companies as made the trip to the north country during the summer season filled their local dates in the hall. It continued to serve its purpose until the construction of the old boat house on the river front in 1884, when it was converted into a hotel, and later into a saloon. When the licenses were reduced last spring the Minneapolis House came under the ban and a restaurant was started therein, John Bush later being arrested on the charge of keeping a house of ill fame. He was bound over to the circuit court, but skipped out and forfeited his bonds. Since that time only the west wing has been occupied.

In the Market Milk Exhibit at 1910 National Dairy Show, Chicago, our Clean Jersey Milk entry showed only 300 bacteria per cubic centimeter and won diploma in competition with milk from nearly every state in the Union.

Mama! I want to Telephone the

Ishpeming Candy Kitchen

And ask them if they have any of the good Christmas Candies that I bought from them last year. They always have the most delicious candies that I ever had to eat, and they are so cheap

Only 6c a pound up to 75c

And are made of the purest sugar on the market.

They also sell box candy 10c up to \$5 a box. I also want some large and small candy canes, mixed nuts and fruits to hang on my Christmas tree. I know that they are very cheap, because they always have the best of everything at the cheapest prices. Their telephone No. is 147, and they deliver all orders at once. A one pound box of candy is given with each \$1 purchase.

(Additional Ishpeming on Pages 7 and 8)

ALL CONCEDE THAT CENSUS IS WRONG

Mayor McCorkindale Has Written Bureau Asking for an Investigation of Returns.

That the census taken in Ishpeming last summer was woefully incomplete is now evident from the many persons who are reporting that they were not interviewed by the enumerators. If The Mining Journal should attempt to name all who told its representative yesterday that the enumerators missed them, the list would be a long one. One well-known resident said that some of the members of his family were counted, but others were not. Another man said he knew positively that none of the census takers secured the names of the several men who have sleeping quarters in the second story of the Dundon block. Another man said he had been informed by some of his workmen that they and members of their families had been overlooked.

Many people consider that the census report is a direct slap at the city, as they are all sure that the population is larger than it was when the last census was taken ten years ago. No one in Ishpeming will admit that the population is smaller, as they cannot see how this is possible, in view of the way the city has grown during the past few years. They call attention to the many new dwellings that have been erected in the northern end of the city, also those put up in the western end. They also refer to the many new dwellings that have been built on the east side of the Cleveland location. It is also pointed out by many that houses were never in greater demand than they are at this time and so far as The Mining Journal can learn there are very few, if any, vacant dwellings even in the outskirts of the city.

Mayor McCorkindale yesterday wrote to the census bureau in Washington, calling attention to some of the omissions that he knows occurred here, also calling attention to the fact that the enumerators employed in this city were school boys, and that their work was not as thorough as it should have been. The mayor asked the department to review the records, and to advise him as soon as possible the result of the new count.

Several of the aldermen have expressed the opinion that if the government does not order a recount, the city should take a census on its own account and report its result to the census bureau. Some have expressed the opinion that the population of the city is at least 13,000. It is said that there are as many men employed in the mines here now as there were when the previous census was taken, and it is certain that there are a greater number of families living within the city limits than there were then.

Why not go to L. W. Atkins & Co. and buy him a suit case, traveling bag or a traveler's kit? 12-21-10

VENISON SEIZURES ILLEGAL.

It is said that according to advices received by Deputy Game Warden Bedell of Menominee from State Game Warden Pierce, of Lansing, Deputy Wardens Andrews and Leggett of Iron Mountain had no legal right to arrest Albert Lowenstein or Alfred Lustfield. Mr. Lowenstein, a resident of Menominee, was arrested on a St. Paul train for having venison in his possession. Mr. Lustfield, a prominent businessman of Crystal Falls, was arrested for shipping venison to a friend in Menominee. Both men were fined. According to the report, Mr. Bedell has received a letter from Mr. Pierce to the effect that it is a violation of the game law to give venison away. That is a new interpretation of the law, if the Menominee deputy is quoted correctly, as a number of arrests have been made under this heading. Mr. Lowenstein is quoted as stating that he will commence a suit for damages against Wardens Andrews and Leggett for false arrest, and it is reported that Mr. Lustfield will undoubtedly endeavor to recover his money. Deputies Andrews and Leggett have no information from Mr. Pierce regarding this new construction of the law and are inclined to believe that there is some mistake about the matter.

A Number of School Children Received Christmas Money Yesterday Afternoon.

The W. G. Mather school prizes for best kept grounds were distributed yesterday by W. H. Moulton. The amount distributed was \$250, including \$12.50 that was given to the Cleveland school for the best kept grounds of any of the schools in the city. The prize winners were determined by a committee, and are as follows:

Grammar School—
 First—Mildred Peterson, \$6.
 Second—David Engstrom, \$4.
 Third—Ludie Olson, \$2.50.

Salisbury School—
 First—Pearl Viant, \$6.
 Second—Maud Johns, \$4.
 Third—Garfield Skews, \$2.50.

Ridge Street School—
 First—Judith Peterson, \$6.
 Second—Fritz Wallin, \$4.
 Third—Clarence Beaglehole, \$2.50.

High Street School—
 First—Bertal Engstrom, \$6.
 Second—Mildred Swanson, \$4.
 Third—Myrtle Sur, \$2.50.

Central School—
 First—Edith Wnorm, \$6.
 Second—Russel Collick, \$4.
 Third—Jennie Adamson, \$2.50.

Cleveland School—
 Prize of \$12.50 to whole school for best kept grounds.

Fancy vests, full dress vests, white and colored wash vests are always appreciated. L. W. Atkins & Co. have them. 12-21-10

ISHPEMING IN BRIEF

R. C. Mann, auditor of the Cleveland Cliff Iron company, is here from Cleveland.

George A. Nowett yesterday received a Jersey cow by express from a farm at Ingalls, Mich.

Miss Clara Steinbraker, who is teaching school at Watson, Mich., is home to spend the holidays with her parents.

Miss Anna Bronson has returned from school to spend the holidays with her parents, Mr. and Mrs. R. P. Bronson.

Miss Mary Miner, who is a student at the Milwaukee Downer college, is expected home today for her holiday vacation.

A new fire team, being sent here for trial by Joseph Harkkan of Reedburg, Wis., is on the way and will probably arrive today or tomorrow. The city has been in need of a team ever since one of the horses of the old team was killed in a runaway.

Miss Mabel Richards, who is an instructor of music in the public schools of Appleton, Wis., is home to spend the holidays with her parents, Mr. and Mrs. Matthew Richards, of West Ridge street.

C. C. Wilnot, auditor for the Fairwell interests, is here from Chicago to audit the books of the Marquette County Gas & Electric company. This is the first time that the company's accounts have been gone over during the four years that W. J. McCorkindale has managed the business, but it is expected that Mr. Wilnot will be here at least once a year in the future to do the auditing.

A foreigner called at the Ishpeming hospital Tuesday evening to have several knife wounds that were inflicted by a countryman on one of the back streets patched up. He urged the surgeon to do a hurry-up job, as he said he wanted to get back and get even with the fellow who had slashed him. He left the hospital on the trot, and a short time afterwards another man returned for repairs, so it is assumed that he got his man.

Dr. John Raishala and wife have returned from a six-months honeymoon trip through European countries. Mrs. Raishala was formerly Miss Anderson, daughter of Alex. Anderson of Hank street. The couple were married in this city the day they left on their European trip.

Special Christmas services will be conducted in the Swedish Lutheran church Sunday morning at 5 o'clock. There will be special music by an augmented mixed choir, also a male choir, and an orchestra will probably assist. On Monday morning at 10:30 o'clock, services similar to those conducted on Sunday will be held.

The seat sale of tickets for the Ishpeming band's fourth annual concert, to be given at the Ishpeming theatre next Monday evening, will open at the box office tomorrow morning. Those who have purchased tickets from members of the band can have them exchanged for seats at the same time.

Upper Peninsula

Railroad Manager Resigns

Manager Robinson of the Manistique & Lake Superior railway has resigned his position and will sever his connection with the road Jan. 1st. Mr. Robinson has been connected with the line ever since it was constructed. He was selected as superintendent when the road was built by the Chicago Lumbering company, fifteen or more years ago. The property has changed ownership several times since the C. L. company disposed of it and Mr. Robinson always has been retained by the new owners. Two years ago he was elevated to the position of manager, which position he has since filled. He is undecided as to his future movements, but will quite likely continue to reside at Manistique.

Gave Too Much Credit

L. S. O'Neill, who recently moved in from Algonquin and opened a grocery and mixed merchandise store in the old Clifton Hotel building on South Ashmun street, had a short business career in the Soo. He has made an assignment for the benefit of his creditors, naming E. S. Royce as assignee. His liabilities are about \$2,000, with assets estimated at from \$1,000 to \$1,500. When the costs of handling the stock are figured off there will probably be but little left for the creditors. The cause of O'Neill's failure is but a repetition of the old story in the Soo: He was too liberal in extending credit. There is scarcely a business here in town that is not carrying dozens of slow if not worthless accounts on its books, and a new firm can easily pick up the trade that had been rejected as undesirable by the older houses. O'Neill was not backed with sufficient capital to con-

time on this basis, but the closing of his place of business came sooner than was generally anticipated. It has developed that when O'Neill leased the rooms in the Clifton building he gave the Union Trust & Savings bank of Flint (owner of the building) a chattel mortgage on his stock to secure the payment of the rent. This instrument is now declared to be worthless owing to the fact that O'Neill was not aged. Among the local creditors the Musselman Grocer company and Cornwell Beef company are said to be the heaviest losers. A committee of the creditors will decide upon the best means of disposing of the stock.

Important Real Estate Deal

The most important real estate transaction that has taken place in Ironwood in several months was consummated when G. E. Erickson bought the property known as the Rothschild block from William Rothschild, formerly of Ironwood, but now located at Detroit. The exact amount paid is not given out, but it was in the neighborhood of \$20,000. The Rothschild block is one of the most valuable pieces of business property in the city. It is a brick structure, 75x80, on the corner of Suffolk street and McLeod avenue. William Rothschild was one of the earliest business men at Ironwood and previous to the great fire of September, 1887, occupied a frame building on the site of the present Rothschild block. When the flames were sweeping south on Suffolk street it was thought best to tear down the Rothschild building in an attempt to stop the progress of the conflagration, and this was done, but the fire was stopped at the alley between Mullen Bros. store and the St. James Hotel, and the destruction of the Rothschild property proved useless. Immediately after the fire Mr. Rothschild built a

small brick building and in 1892 added two additional store rooms, completing the present block. The three store rooms are at present occupied by the C. E. Erickson Hardware company, Mrs. Roman, clothier, and John Saippi, saloon. The upper story is occupied by Attorney J. J. Patek and the Swedish Glece club.

Court House Has Narrow Escape

Schoolcraft county's handsome court house, at Manistique, had a narrow escape from destruction the other day as the result of a fire which started in the waimeeting around one of the flues. The officials smelled smoke all forenoon, and the janitor remained on duty at the noon hour to keep watch. Early in the afternoon Contractor Erickson was called in. The smoke and odor appeared to be strongest in the probate judge's office and the trouble was finally located in the waimeeting surrounding the smoke flue. When the benefits were torn loose they were red-hot and partially burned through. Had the fire reached the ceiling of the basement it would have quickly spread over the entire building. This is the second time that the building has been endangered by the present system of heating. It is declared that what is sorely needed is a central heating plant between the house and jail, and the installation of a steam heating system in the court house. It is argued that the plant would pay for itself in three or four years, in the reduction of insurance and the amount of fuel used. Then, too, all danger from fire would be obviated.

Chairs

We also have a very fine showing of Davenport, Toilet Tables, Mirrors, Brass Beds, Ladies' Desks, Music and Record Cabinets. All well made reliable goods, such as we have no hesitation in guaranteeing.

WINTER LOGGING IN FULL SWING

Season Is Said to Be Unfavorable Because Snow Came Before Ground Was Frozen and Many Storms Make It Difficult to Keep Roads Open and in Shape.

Summary of What Is Being Done Along the Lines of the Cleveland-Cliffs Railroads, Both at the Mills and in the Woods—Operations Quite Extensive.

The various companies engaged in the lumbering business along the line of the Cleveland-Cliffs railroad are now in the midst of their winter operations, though the logging is being handicapped by the unfavorable season. In the first place, the snow came before the ground was frozen and the result is that the ice roads are continually breaking through, especially in the swamps. Again, the experience thus far has been that the logging roads are drifted full of snow again almost as fast as they can be opened up. Lumbermen are longing for the return of conditions two years ago, when the ground froze hard before the snow came and logging roads opened in the early winter were kept open until the spring break-up with very little trouble.

The Lake Independence Lumber company at Big Bay is operating a band sawmill with a capacity of 80,000 feet per day, a shingle mill, and a bowing pin factory. Machinery is being put in so that the pins can be finished at the mill and this will be ready for use in a short time. At present, however, the pins are being shipped out in the rough. This company conducts extensive logging operations and also buys many logs from jobbers. The company owns a locomotive and has built several spurs, while the locomotive is operated over the Marquette & Southeastern track from the spurs to the mill. About 200 men are employed in the mill and logging operations.

Activity at Birch. The Northern Lumber company at Birch is doing its own logging and operates several camps. This company also has its own locomotive and is employing about 200 men in the woods. The mill has a capacity of 80,000 feet per day and is employing about 130 men.

S. T. McReavy at Mangum has a mill that is capable of cutting 25,000 feet per day and employs fifteen men. Mr. McReavy does his own logging and is now employing from twenty to twenty-five men in the woods. The mill at Yalmar, now operated by

the Crothers Lumber company, has a capacity of 25,000 feet per day and is operating logging camps this winter. Fifteen men are employed at the mill and perhaps twenty in the woods. Both the Mangum and Yalmar mills use circular saws.

The Dalton Lumber company at Dalton is operating extensively this winter. Several camps are in commission and the company has its own locomotive and railroad in commission this winter for the first time. The plant includes a band mill, with a daily capacity of 25,000 feet, a shingle mill of 40,000 per day capacity, and a chair rocker factory. About fifty men are employed at the mill and nearly 100 in the woods.

Peterson Bros. at Skandia have a mill built last summer of 15,000 feet per day capacity. This firm buys most of the logs used and employs fifteen men.

B. J. Goodman & Son at Little Lake are working twenty-five men at the mill, which has a capacity of 25,000 feet per day. This company operates logging camps and also buys logs from jobbers. Operations at Munising.

At Munising there are three mills engaged in the manufacture of lumber, the Superior Veneer & Cooperage company, the Great Lakes Veneer company and the Cleveland-Cliffs Iron company's saw mill. The Superior company mill operates only in summer, but logging is being done all along the Munising and Marquette & Southeastern railways. About 100 men are employed in the woods and 150 at the mill, when it is running. The plant includes a band saw mill of 35,000 feet daily capacity, a stove mill of 35,000 capacity, a hoop machine of 20,000 capacity, and a veneer machine of 80,000 feet capacity. The Great Lakes company has three veneer machines and manufactures about 8,000,000 feet of veneer and thin lumber a year, employing forty-five men. The Cleveland-Cliffs saw mill runs only in summer and is capable of sawing 40,000 feet per day. Shingles and lath are also manufactured in large quantities. About 7,000,000 feet of logs a year are utilized. Eighty-five men are employed at the mill when it is running.

Among the principal jobbers along the lines of the C. C. I. railroads are the Forster Bros., who are logging on the Munising railway; Schweitzer & Sons, who are getting out logs, ties, poles and mining timber at Pickrel lake and near Birch; and the C. H. Worcester company, at Casino. The Worcester company gets out ties, poles, pulpwood and cedar in large quantities, owns its own engine and railway and employs in winter about 200 men.

The lumbering department of the Cleveland-Cliffs Iron company is employing upwards of 500 men in the upper peninsula this winter. Camps are operated at Mathews, Alger and Limestone, on the Soo Line; at Coalwood, Rumley and Au Train, on the Munising railway; and at Weston on the Manistique & Lake Superior railway. The Rumley camp is the largest and alone employs over 150 men. The department gets out furnace wood and all forest products.
