

CONSERVATION TRIUMPHANT IN LEGAL BATTLE

Supreme Court of the United States Upholds the Constitutionality of the Establishment of Forest Reserves for Any National and Public Purpose.

It Goes Still Further by Declaring the Government in Entire Control of Its Natural Resources and Empowered to Deal With Them as It Sees Fit.

Washington, May 1.—The legal battle against the forest reserves of the West in particular and conservation by the federal government of the natural resources in general was lost today in the supreme court of the United States.

The nation's highest tribunal not only upheld the constitutionality of the establishment of forest reserves for any national and public purpose, but it settled once and for all that the federal government and not the states may say how the reserves shall be used.

The immediate result of the conclusions of the court are that Fred Light, a Colorado cattleman, will remain enjoined from allowing his cattle to graze on the Holy Cross forest reserve in Colorado, and that three California sheepmen must answer to an indictment charging them with grazing sheep upon the Sierra forest reserves without a permit, in violation of regulation 45 of the secretary of the agriculture and the statutes of congress of 1891.

The subject was dealt with in two opinions delivered by Justice Lamar. The entire court concurred. The basic principle, said Justice Lamar, was that "the nation is an owner and has made congress the principal agent to dispose of its property."

Can Do Just as It Wishes. "The United States can prohibit absolutely and fix the terms on which its property may be used," said the justice, "in the Colorado case, it can withhold or reserve the land, it can do so indefinitely."

"It is true that the United States does not and cannot hold property as a monarch may for private and personal purposes. But that does not lead to the conclusion that it is without the rights incident to ownership, for the Constitution declares that congress shall have the power to dispose of and make all needful rules and regulations respecting the territory or property belonging to the United States."

"All the public lands of the nation are held in trust for the people of the whole country. And it is not for the court to say how that trust shall be administered, that is for congress to determine. The court cannot compel it to set aside the lands for settlement; nor to suffer them to be used for agricultural or grazing purposes; or interfere when in the exercise of its discretion congress establishes the forest reserves for what it deems to be national and public purposes. In the same way, and in the exercise of the same trust, it may disestablish the reserves and devote the property to some other national or public purpose."

Story of the Controversy. The United States government had brought suit to enjoin Fred Light, a prominent Colorado cattleman, from causing or permitting his cattle to trespass upon the Holy Cross forest reserve in Colorado. A subpoena contest arose and among the other defenses put forth by Light was the one that the formation of the Holy Cross reserve, without the consent of the state of Colorado, was unconstitutional. As the other vest reserves in the West had been formed by a similar process of federal action in withdrawing public land from entry, the argument applied by analogy to them. The injunction was granted, and an appeal taken to the supreme court of the United States.

Throughout the contest, the federal government claimed that when Light turned his cattle onto his ranch, adjoining the forest reserve, they followed well-defined cattle trails, in order to get grass and water, directly to the reserve, where there existed superior grass and water supply. Such a practice, the government contended, was tantamount in law to Light driving the cattle onto the reserve.

The defense met the government with several arguments. In the first place, it was pointed out that the reserve had not been fenced by the government, and a Colorado law provided that no person should recover damages for trespass unless the land in question was fenced. Therefore, Light pointed out, this was barring the government from relief. The government retorted that the fence law applied only to individuals, and not to the state of Colorado or to the United States. If it was meant to apply to the United States, it was argued, the government that the law was unconstitutional. One of the sharp issues of the case was centered on this point.

State Fights for Cattlemen. So widespread was the interest in the case and so vital the questions involved that the state of Colorado threw itself into the contest. Attorney General Barnett was authorized to assist Light in fighting the federal government. He did so.

The Colorado attorney general emphasized the argument before the supreme court that no provision of the Constitution empowered the federal government to "conserve the national resources," by providing for a continuing timber supply, regulating the flow of streams and preserving power sites from being monopolized.

olized. He urged that the withdrawal of such large tracts of land, said to be one-fifth of the entire area of Colorado, was the denial of equality with the other states which had been allowed to exercise dominion over all the territory within their boundaries. On all of these points the cattleman and the state were worsted.

In the California case, Justice Lamar upheld the rules which the secretary of agriculture had provided for the control of the reserve.

IMPORTANT INDICTMENT HANDED DOWN IN THE CARNEGIE TRUST AFFAIR. New York, May 1.—The grand jury investigating the failure of the Carnegie Trust company handed an indictment to a public official to receive value in violation of the supreme court here, late today. The proceeding was surrounded with great secrecy, but it was said that the indictment was drawn under a section of the penal law which makes it a felony for a public official to receive value in consideration of his vote, opinion, action, judgment or decision in any affairs of his office. The law names a ten-year sentence in prison or a \$5,000 fine or both as the penalty.

It is reported that the indictment is of more consequence than any other so far found by this grand jury, but the name of the accused man, it was said, would not be revealed until an arrest had been made.

NOTE OF ANNEXATION IS SOUNDED AGAIN Is Struck in the House as an Incident of the Free Trade Debate. Washington, May 1.—Speeches on the farmers' free list bill in the house today again sounded the note of Canadian annexation; traversed the whole range of argument concerning reciprocity already disposed of by the house, and came back at times to specific attacks upon or support of the free list measure which has now been pending for six days and gives promise of continuing for several more.

At times less than a score of members were on the floor to hear the speech-making. Democratic Leader Underwood at adjournment expressed the hope that a vote might be reached Thursday or Friday, but many members wish to speak and all the desired time will be given.

RECIPROCITY IS DISCUSSED BY SENATORS

Mr. Stone of Missouri Complains Against What He Styles Is an Unjust Propaganda to Defeat the Proposed Closer Trade Relations With Canada.

He Quotes Statistics, and These Are Seized by the Opponents of the Commercial Agreement to Prove Their Contentions, Also—Debate Involves Prices.

Washington, May 1.—In a speech lasting more than three hours, Senator Stone of Missouri, in the senate today, denounced what he declared to be an unjust propaganda to defeat the Canadian reciprocity bill. The attempt, he said, was being made to alarm the American people by painting the ruin that would follow the free importation of Canadian goods, the product of cheap labor. This contention, he declared, was absolutely untrue and he submitted statistics gathered by both governments designed to show that both labor and livestock were higher across the border than in the United States.

When Mr. Stone concluded, Senator Gallinger asserted that the Missouri senator had proved conclusively that there would not be a reduction in the cost of living which it had been contended that reciprocity would bring to the United States. Mr. Stone replied that he had not contended that and of itself reciprocity would be of great benefit, but had undertaken to show that it would produce no great injury. "And yet we give away \$10,000,000 of revenue," Mr. Gallinger retorted.

Mr. Stone urged that the great benefit to be derived from entering into reciprocal relations with Canada would be to encourage free trade with that country, opening the way to free trade with the world. He said he hoped to have an opportunity to vote for the free list bill, Senator Cummins agreed with Mr. Stone's conclusion regarding prices in Canada and said he appeared to think the passage of the bill would not effect a reduction of the cost of living.

Mr. Stone contended that American labor is in no special danger from labor in Canada and replying to Senator Page of Vermont, he said it appeared to him from government figures that farm wages in Canada are 50 per cent. higher than in the United States. Counting out the lowering effect of the small wages paid negroes in the Southern states, Mr. Gallinger declared that the American wages paid near the boundary are from 25 to 30 per cent. more than across the line. He contended that generally prices in Canada were higher than in this country.

Senators Gallinger, Smoot, Warren, Jones, Heyburn, Cummins, Martine, Bailey and Bacon all discussed the range of prices on dairy cattle.

U. S. SENATE COMMITTEE VOTES IN FAVOR OF THE DIRECT ELECTION PLAN. Washington, May 1.—Following favorable action by the committee on judiciary, Senator Borah of Idaho today reported to the senate the house resolution for the direct election of United States senators.

All the Democrats present and three progressive Republicans voted for the resolution. They were Senators Chilton, Overman, Culberson, Bacon, Cummins and Borah. The negative votes were cast by Senator Clark of Wyoming, Dillingham, Sutherland, Brandegee and Root.

An amendment offered by Mr. Sutherland providing for federal supervision of elections when deemed advisable was voted down.

Lorimer Resolution Referred. Senator LaFollett's resolution for a re-inquiry into the case of Senator Lorimer was today referred to the committee on contingent expenses.

DEPOSED CUSTOMS COLLECTOR SUES THE TREASURY HEAD FOR DAMAGES OF \$100,000. Chicago, May 1.—Franklin MacVeagh, secretary of the treasury, was made the defendant in a suit for \$100,000 damages filed today by Charles F. Leach, former collector of customs at Cleveland, O. Mr. Leach charges that following his dismissal from office March 10, 1911, by President Taft, Secretary MacVeagh in a statement charged that Leach had turned over to importers thousands of dollars' worth of woolsens before the customs were paid, that the importers had been allowed to store woolsens in their own warehouses before the payment of duty and that he had been guilty of other breaches of the treasury department rules.

SECRETARY FISHER SCHEMES TO SAVE LABOR AND EXPENSE BY ATTENDING LAND HEARING. Washington, May 1.—Secretary of the Interior Fisher agreed today to sit with Commissioner Dennett of the general land office and members of the law board in the hearing of the so-called Cuninghame cases, involving the right to certain coal claims in Alaska here next Monday. The decision, which will be rendered after the hearing, will be that of Commissioner Dennett. Secretary Fisher purposes to prevent the repetition of the labor and expense incident to presenting the cases, should it be decided to appeal to him from the decision of Commissioner Dennett.

SELASTOPOL, May 1.—The military aviator, Mativitch, and his brother were killed today while making an aeroplane flight.

WICKERSHAM THRUSTS AT PROGRESSIVISM One Honored Guest at Princeton Banquet Attacks Things Another One Advocates. Princeton, N. J., May 1.—The diners at the thirteenth annual banquet of the Daily Princetonian tonight listened to one of the principal speakers tearing to shreds the very things which another honored guest has urged ever since his election as governor of New Jersey.

The idea that a sturdy, prosperous commercial people can make or administer laws better than representatives, chosen from among the people for the purpose, has proven its fallacy, said the attorney general. Continuing, he said: "In the long run, our representative bodies must and do give expression to precisely what the mature thought of the majority of the people demand. They may not yield at once to a spasmodic and artificially stimulated emotion induced by one particular class of society for its own ends as against all other classes."

The attorney general said that impatient reformers may chafe at the delay, as no system of law can be devised that will automatically work good.

Governor Wilson, who followed Attorney General Wickersham, made no reference in his address at the thrust at progressivism. His topic was "Princeton's Ideals."

LAWRENCE MAXWELL RESIGNS FROM POSTAL COMMISSION. Washington, May 1.—Lawrence Maxwell of Cincinnati has asked President Taft to relieve him of his duties as a member of the postal commission, and the president has agreed to do so. This action was announced this afternoon. Mr. Maxwell withdrew from the commission, because he fears that his past services as counsel for express companies would embarrass the administration, the commission and himself.

The Weather

Washington, May 1.—The following is the weather bureau's forecast for the Michigan fair, Tuesday and Wednesday: slowly rising temperature; moderate; northwesterly winds.

INJUNCTIONS TIE UP THE PROPOSED AHMECK MEETING AT BOSTON, MASS., TODAY. Houghton, Mich., May 1.—[Special.]—Another restraining order in the controversy over the proposed consolidation of the Calumet & Hecla Mining company and its so-called subsidiary concerns was issued today. It was granted by a meeting of the Houghton county circuit court on the application of Attorneys Ball & Stone, representing the administrator of the Thomas L. Chadbourne estate. As a result, no business at all can be transacted at the special meeting of the Ahmeck Mining company called for tomorrow at Boston. The Deaton injunction issued last week restrained all business except the voting of the stock. The one granted yesterday forbids the Calumet & Hecla from voting shall otherwise direct. This means that no business at all can be transacted at the proposed meeting.

AGREEMENT MADE IN ANACONDA CASE

Copper Company Will Stop the Emission of Destructive Smelter Gases. Washington, May 1.—The government suit against the Anaconda Copper Mining company has been compromised by an agreement between the company and the department of justice. The company agrees that its smelters at Butte, Anaconda and Great Falls will be equipped to prevent the emission of gases which the government claims have done great damage to the national forests. A committee composed of John Hays Hammond, mining engineer; Dr. John A. Holmes, director of the bureau of mines, and Louis D. Ricketts, representing the copper companies, has been named to see that the agreement is carried into effect. It was claimed that the poisonous gases from the smelters not only ruined the national forests in the vicinity, but also the farmers' land. The farmers have a separate suit against the company which is not affected by the compromise of the government's case.

COURT UPHOLDS THE WRIT PROCURED BY CHICAGO MEN IN THE LORIMER INQUIRY. Chicago, May 1.—A motion by Attorney John J. Healy, of the Helm investigating committee of the Illinois senate to quash the writs of habeas corpus obtained last week by Edward Tilden, W. C. Cummings and George Benedict, was denied today by Judge Pett when it was found that the returns of the warrant for contempt of the state senate were regular.

HIGH COURT ADJOURNS WITHOUT DECIDING THE TRUST CASES. Washington, May 1.—The supreme court of the United States adjourned today until May 15, without announcing an opinion in either the Standard Oil or Tobacco suits arising under the Sherman anti-trust law. On May 15 opinion will be announced by Judge Pett when the court will adjourn until May 29, the final day of the present term. The trust decisions are expected on one of these days.

LOSS AT BANGOR, ME., NOT OVER \$3,000,000 Approximately 285 Residences and 100 Business Structures Destroyed in the Fire. Bangor, Me., May 1.—Between \$2,500,000 and \$3,000,000 will cover the financial loss of the fire which destroyed approximately 285 residences and about 100 business structures in this city last night and early today. No official estimates of the loss have yet been made, but insurance agencies estimate that they will lose 60 per cent, or about \$1,500,000.

Bangor will rise undiscovered from her ashes without the necessity of asking for outside help was the sentiment expressed tonight. Only seventy-five families were reported destitute. A search was made of the ruins today for possible victims, but tonight only two were accounted for as dead. Armed troops patrolled the streets tonight, under orders to shoot in case of looting.

CAPTAIN JOHN McWEENEY IS PUT AT THE HEAD OF CHICAGO POLICE DEPARTMENT. Chicago, May 1.—John McWeeneey, a captain of the police department and a member of the force since 1885, was named as chief of police by Mayor Harrison today and was confirmed by the common council tonight.

The acting chief of the fire department, Charles Seyferlich, who succeeded James Horan, killed at a fire at the stock yards in December, was appointed chief.

TENANTS OF HETTIE GREEN AT ST. LOUIS HAVE PAID NO RENT FOR 10 MONTHS. St. Louis, May 1.—Mrs. Hettie Green of New York has, according to the tenants of a four-story building at a downtown St. Louis corner, forgotten that she owns the building. The tenants have not paid rent for ten months, because no authorized collector had called upon them.

SOCIALISM IN ITS GLORY AT BOSTON, MASS.

Red Flag Is Waved Through the Streets While Crowds Gathered in the Tremont Temple Listen to Fiery Denunciations of the Capitalistic Barons.

Congressman Victor L. Berger Is the Principal Speaker—In Ten Years, He Declares, Both the U. S. Senate and the Supreme Court Will Be Abolished.

Boston, May 1.—The red flag of socialism waved through the streets of Boston tonight and from the pulpit of Tremont temple, while crowds listened to denunciations of the alleged capitalistic barons. Resolutions denouncing the arrests in the Los Angeles dynamite case were unanimously adopted.

Fiery Speech by Victor Berger. Congressman Victor L. Berger of Milwaukee, as the principal speaker, declared that the American troops had been sent to Mexico for the "sake of J. Pierpont Morgan and his crew." In ten years, he declared, the United States senate and supreme court would be abolished and supplemented by the referendum.

McNamaras Innocent, Says Gompers. Indianapolis, May 1.—Samuel Gompers, president of the American Federation of Labor, stated this afternoon that he had completed his work here in connection with the arrest of J. J. McNamara, the iron workers' secretary, who is held in Los Angeles, Cal., and that he would go to Chicago tonight. He said: "We have received evidence which clearly disproves the charges against the men arrested and which shows that they are entirely innocent."

Labor Strikes in Various Cities. New York, May 1.—The scheduled strike of the machinists for an eight-hour day, a walkout of 1,000 bakers, two big parades and half a dozen smaller ones marked the passing May Day in labor circles here today.

Chicago, May 1.—Maintenance of way employees of six railroads, numbering 2,500 men, struck tonight when their demands for recognition of the union and a wage increase were refused. The number of men involved in strikes and lock-outs as a result of the May Day labor troubles is estimated at 12,000.

Pittsburg, May 1.—The shoppmen of the Pennsylvania railroad on the Pittsburg division went out on a strike this morning, and tonight the officers of the union asserted 10,000 men are out. The cause of the strike is the allegation by the men that in its retrenchment policy the railroad dismissed men that were active in organizing and carrying out their union.

Western Miners Vote to Join American Federation of Labor. Denver, May 1.—The affiliation of the Western Federation of Miners with the American Federation of Labor, which was submitted to a referendum vote of the miners, has been ratified by an overwhelming majority.

CARNEGIE COMMISSION MAKES 35 MORE AWARDS FOR ACTS OF HEROISM. Pittsburg, May 1.—Thirty-five awards in recognition of acts of heroism were made today at the spring meeting of the Carnegie hero fund commission and the issuance of nine silver and twenty-six bronze medals was authorized. In addition, the money accompanying the medals amounted to \$24,100 and the pensions to widows of heroes total \$1,310 annually.

The money is apportioned as follows: \$8,000 for worthy purposes, \$2,200 for the liquidation of mortgages, \$3,700 for other indebtedness, \$4,900 for the purchase of homes, \$14,000 for education, \$3,200 for death benefits and \$1,900 for the restoration of health. In nine instances the heroes lost their lives and the award is made to a member of the family.

Twenty of the awards are made in connection with rescues from drowning, five from railroad trains, four in run-aways, five in mine or well-suffocation cases and one the rescue of an insane patient from a roof cornice.

Since the inception of the hero commission, 4,901 cases have been refused recognition, 487 have been granted and 893 are still pending.

OLD BOOKS AND MANUSCRIPTS ARE SOLD AT HIGH FIGURES. New York, May 1.—Within an hour more than a third of a million dollars was bid at the Hoe library sale tonight for fifty-two old books and manuscripts, J. P. Morgan's library bought for \$42,800 Sir Thomas Malory's Morte of Arthur, the only perfect copy of Claxton's edition, printed in 1485.

M. E. BISHOPS FAVOR PRESENT METHODS OF ASSIGNMENT. Winona, Minn., May 1.—The college of bishops of the Methodist Episcopal church, in session here, decided today not to change the methods of the assignment of bishops.

DEATH LIST GROWS. Easton, Pa., May 1.—One more teacher of Utica, N. Y., is reported among the missing in the wreck at Martin's Creek. If she is dead, the total of the railroad disaster at this time is twelve.

MEXICO'S VICE PRESIDENT DENIES ACCUSING AMERICANS OF FOMENTING THE REVOLT.

Paris, May 1.—Vice President Corral of Mexico arrived here today and in a statement made to the Associated Press denied that he had ever given an interview in which he criticized Americans as having fomented the revolution in Mexico.

Reported Capture by Rebels. Mexico City, May 1.—Unconfirmed reports that Durango, the capital of the state of that name, had fallen into the hands of the rebels, and rumors that attacks were soon to be made upon Cuor Navaca and Puebla, two state capitals south of Mexico City, have served to increase the feeling of apprehension here.

ERUPTION OF A VOLCANO TERRORIZES NICARAGUANS.

San Juan Del Sur, Nicaragua, May 1.—The volcano Ometepo, in Lake Nicaragua, is in a state of great activity. Great quantities of ashes have been thrown up and much uneasiness is felt by the people living on the borders of the lake.

MAY DAY IN FRANCE EXCEPTIONALLY QUIET

There Is Some Disorder at Paris, but It Is Not Serious and Is Squelched Promptly. Paris, May 1.—During the hours of the day the extra troops and those from the Paris garrison and the police had little trouble with the crowds and workmen who gathered to celebrate May Day with great demonstrations, but late in the evening things took on a livelier aspect and there were many collisions in the streets.

At 7 p. m. hundreds of thousands of persons gathered, but the troops and police finally succeeded in dispersing them. The prefect of Paris announced that the disturbance had nowhere assumed a serious character, and that this May first had passed more quietly than ever before known. About 9 o'clock, however, several thousand manifestants reassembled before the big St. Paul riding school and listened to anti-militarist speeches by revolutionary leaders.

A German workman, wearing a tricolor rosette in his buttonhole, declared, amid thunders of applause, in the name of his comrades, that in case of war the German workers would refuse to raise their weapons against their French comrades. The close of the meeting was marked by serious disturbances. Despatches from the provinces say that the customary labor celebrations were held everywhere.

Berlin, May 1.—The socialists held eighty-six meetings in Berlin and its suburbs this evening. All passed off without incident.

London, May 1.—No disorders accompanied the May Day demonstrations here.

SPANISH MONARCH IS REPORTED GRAVELY ILL

King Alfonso a Victim of Tuberculosis, According to Advices Reaching Paris. Paris, May 1.—Intransigent claims that King Alfonso is gravely ill with tuberculosis and at a recent consultation of his physicians it was decided that urgent measures of treatment were necessary and also that the Spanish monarch should pass the coming winter in Switzerland, where the climate is better adapted to his condition.

King Alfonso has long suffered from what has been described as a nasal trouble. Dr. Mourre, a specialist of Bordeaux, has performed several minor operations on his majesty, on one occasion, this in 1907, removing adenoids, according to current reports. In April last the king visited Dr. Mourre again, and at this time, it is understood, a polypus was cut out.

There have been occasional rumors of a more serious ailment, including that of tuberculosis of the throat. Alfonso will be twenty-five years of age on the 17th of the present month. He has always been of a delicate constitution.

MILLIONAIRE'S SECOND WIFE PETITIONS THE COURT TO DECLARE HUSBAND INSANE. Washington, May 1.—A petition to have adjudged insane Stilson Hutchins, founder of the St. Louis Times, Washington Post, Washington Times and once prominently connected with the Des Moines (Ia.) State Journal, Dubuque Herald and St. Louis Dispatch, was granted here today, the writ being returnable May 4. Mr. Hutchins is a multimillionaire and was an organizer and chief promoter of the Mergenthaler Linotype company.

The petition was filed by Mrs. Rose Hutchins, his second wife, a Baltimore woman, whom he married in 1900. She recites that for many months past Mr. Hutchins had been paralyzed and is of "dissipated and unsound mind." She says he is wholly unfit and incapable of managing and properly caring for himself and his estate. It is claimed the estate is worth between \$3,000,000 and \$4,000,000.

BILL TABOOING FRATERNITIES IN MICHIGAN HIGH SCHOOLS IS SIGNED BY THE GOVERNOR. Lansing, Mich., May 1.—Late today Governor Osborn signed the bill prohibiting fraternities in the high schools of the state.

UPRISING IN CHINA OF BIG PROPORTIONS

Loyal Troops in Vicinity of Canton Are Fighting Desperately to Crush the Revolt—They Are Spilling Much Blood, but Are Making Little Headway.

United Against Them Are Rebels, Brigands and Anarchists—These Have Largely Been Driven from the City and Are Devastating the Nearby Country.

Hong Kong, May 1.—Rebellion, brigandage and anarchy are stalking through the western half of Kwang Tung province, murdering, pillaging and burning. The loyal troops are fighting desperately to crush the uprising, the seriousness of which is revealed in further despatches from Canton today.

Wu Sun, a Chinese who was educated in Japan and has adopted the dress of western countries, is the leader of the revolt against the Manchu dynasty. The brigand chief, Lank, is the head of a horde of outlaws whose object is robbery and murder. Following the standards of these men are anarchist groups to whose purpose the present outbreak lends itself most advantageously.

Fearing More Troops Will Mutiny. These combined forces have thrown themselves with fanatical disregard of their own lives against the troops and have since the first outbreak Thursday night shed much blood. Sedition is rife among certain troops and it is feared that the disaffected soldiers will desert their officers if the revolters appear to have the upper hand.

Official advices and refugees arriving from Canton today confirm the sinister reports of yesterday. Bodies of the slain lie in the streets of the city. Famine prices are asked for food stuffs and the shops generally are closed. In the panic there has been an attempt to bury the dead and the stench from the decomposed bodies fill the air.

Today the revolt has withdrawn to a great extent from Canton and are devastating the country to the west along the West river. Before falling back they fought the troops from street to street, many persons being killed. They attacked the provisional arsenal and, being repulsed, gathered in an immense rice store, which they barricaded with bags of rice. From the building they threw bombs into the attacking troops and were only dislodged when the bags were set afire. Many of the revolters escaped, but thirty or more died in the flames while others killed themselves to avoid capture.

Now Sweeping the Countryside. While the fighting was progressing in the streets, Chinese gunboats patrolled the West river and fired into several parties of rebels, slaughtering 200 of them. Retreating to the countryside, the revolutionaries attacked and captured Sam Shui, thirty miles west of Canton, and murdered the prefect. The triumphant sweep of the revolutionaries continued westward along the West river and reports from that district say that the movement is spreading and that the revolutionaries are murdering and pillaging in other places.

A report that the foreign concessions above Canton had been evaded locks confirmation. An American gunboat Wilmington has the place under her guns.

Missionaries Believed Safe. Boston, May 1.—The belief that the Christian missionaries in China are not in special danger on account of the revolt in Kwang Tung province, south China, was expressed today by Rev. Wm. E. Strong, editorial secretary of the American board of commissioners for foreign missions. Mr. Strong said that the revolt is against the Manchu dynasty and not an anti-foreign demonstration. The total number of American missionaries in the region is 145.

London, May 1.—The British foreign office has received no advices from Canton since Friday, when it was stated that the victory and all Europeans were safe.

WALL STREET PRICES SCORE A NUMBER OF SUBSTANTIAL ADVANCES. New York, May 1.—For a few hours today the advance in stocks which progressed briskly in the closing days of last week was halted while the market awaited word from Washington as to whether decisions were to be announced by the supreme court in the anti-trust cases. There were some irregularities in prices, but the market held firm. When it became known that the decisions were not to be handed down today, the buying movement was resumed and the prices moved upward. At the close a number of substantial advances were distributed through the list of active issues.

The metal stocks were well supported today. The fortnightly report of the European copper stocks showed another decrease, bringing up the total shrinkage in April to nearly 9,500,000 pounds, the largest monthly shortage reported since last October. The outlook for the steel trade is somewhat brighter, due to the disposition of the railroads to reenter the market. On the New York metal exchange today, standard copper was called quiet, with spot and the May at 11.60@11.80 and the June, July and August at 11.65@11.75. The London market was firm, the spot at 254, 1s. 3d and the futures at 254, 1s. 3d. The custom house returns show exports of 27,445 tons for the month of April. New York dealers quote lake copper at 12.37 1/2 @12.50, electrolytic at 12.12 1/2 @12.37 1/2 and casting at 11.87 1/2 @12.12 1/2.

MARQUETTE, MICH., MAY 2.

Our spring is now suffering its annual relapse.

On Friday don't overlook voting for good water, and lots of it.

A \$9,000,000 rebuild of the capitol at Albany was a piece of picking that Tammany wasn't figuring on when it was working overtime to bring about the election of Governor Dix.

President Taft will visit Detroit in September. The invitation was tendered by one Senator Burrows, convincing proof that the former senator can still struggle up to the seats of the mighty.

Governor Wilson's proposed swing around the circle may not be a campaign, in any sense, yet it is very improbable that Governor Wilson would be swinging around the circle if he was not one of the most discussed possible Democratic nominees for president.

Victor Berger, of Milwaukee, says that within five years there will be twenty members of congress who will have been elected on the socialist ticket. At that Mr. Berger, in the light of developments in Milwaukee, can feel no great measure of confidence that he himself will be able to get back again.

It is expected that in this day and age, when the public conscience has been quickened and when the public eye is more attentively fixed on its servants, it will be possible to build the proposed \$9,000,000 additions to the New York capitol building without the introduction of any "solid oak" construction that will turn out to be papier mache.

When the present program of bill signing and bill vetoing is concluded at the executive offices, Attorney General Kuhn will start a friendly suit to determine whether the governor has the right to seal down an appropriation bill that he does not veto entirely, as he has done in several instances. Auditor General Fuller is quoted as expressing solicitude that this point be cleared up before September, when the tax levy is made. If the suit is started at once there should be no trouble about getting an opinion long before it is necessary to spread the taxes, so that there will be no possible chance that the levy will be invalidated. It is reported that Lansing is somewhat on edge for the moment, waiting for the governor's moves after the bills are out of the way. Rumors are numerous that he will go out after a few scalps. There are several office holders on the state roster whose presence there he is known to view with undisguised resentment. The governor's moves are so unexpected and daring that he has the staid and sober capitol dwellers at Lansing "buffaloed," to employ a colloquial expression. They don't know just what to expect.

Governor Osborn has vetoed the bill permitting the members of the board of pardons to draw salary for as many days in the year as they find it necessary to work to keep abreast of the cases referred to them, and the old limit of 200 days salary is to remain. The governor is of the opinion that the board ought to be able to keep up with its work by putting in 200 days time, and his veto is consistent with his attitude on all the bills passed by the legislature that have come before him. He has avoided authorizing any but absolutely necessary expenditures. The board of pardons' duties are by no means light. The operations of the parole law puts on the board the greater part of the burden of keeping the population of the prisons down, and if its work is to be done carefully and well each case must be given searching investigation. The board has found the restriction on the time it is allowed for its work irksome, in that it has been practically impossible to clean it up within the limit set. But it will doubtless head in and do the best it can to satisfactorily discharge its duties until such time as the legislature and the governor can agree on giving it more latitude.

Friends of W. M. Palmer, postmaster at Grand Rapids, have been circulating petitions urging his retention in office on the expiration of his present term, this despite a pretty well defined understanding that Mr. Palmer is to be succeeded by George W. Clapperton, a prominent attorney in that city, and one of the best known public men in western Michigan.

**Emblagaard Dairy**

Pure Dairy Products from Holstein Cows

GEORGE GILLETTE, DISTRIBUTOR.

Tel. 554-L.

Senator Smith, who has the disposal of the office, has, however, settled all question of who will get it by a frank declaration that Mr. Clapperton is the man. The senator says that his promise has been given to Mr. Clapperton and he intimates that he will abide by it, no matter how many petitions that he do something else are sent to him. Senator Smith will not be at all embarrassed, either, by his stand, for Mr. Clapperton is highly regarded at Grand Rapids and his selection for the office will be a popular one. He has been a devoted friend of Senator Smith, and when the senator used to run for the lower house of congress Mr. Clapperton was his official nominator. As the senator points out, he performed this duty seven times, and the first time he had fully as strong claims on the place as the man he nominated. It is understood that the proposed change in the Grand Rapids post-office is not imminent, and that Mr. Palmer will continue to fill it for some months. When he is succeeded, however, he will be succeeded by Mr. Clapperton, who will be given a full four years' term.

**LIKES COMMISSION FORM.**

Port Huron has been under the commission form of government since the first of January, and likes it. The friends of the innovation declare that even its short trial has proved it to be a success. Those who remain its opponents, while unable to point to any place where it has fallen down, say that it has not been tested for a sufficient time as yet to warrant a final judgment and they still reserve their decision as to its value.

For one thing the commission plan has eliminated politics. The commission, the mayor, with \$2,000 salary, and four commissioners, each drawing \$1,200 annually, ignores political considerations in the employment of public servants and in all other matters with which it is called on to deal. It seeks the greatest efficiency in its employes and the most advantageous terms for the city in the various business it is called on to transact.

"We have the business down to a working basis," Mayor Bell is quoted as saying. "There is no man working for the city from the commissioners down who is not earning his money. The commission is practically a one man board, in that it is governed by a desire to serve the common welfare, and although we have been in power but a short time, probably not long enough to give the new form of government a fair trial, yet I know it is working out very well."

The degree to which the commission system has concentrated authority in Port Huron is shown by the statement that the only municipal officers other than the commissioners who are still elective are the justices of the peace and the constables. All the other numerous officials necessary to conduct the city's affairs are named by the commission, which also has the responsibility of fixing their salaries. Thus these five men are to be given all the credit, if their administration is successful, or can be given all the blame if it fails. The voters know, in either case, just who has made conditions what they are.

As a check on the commissioners, they are made removable by their fellow commissioners for, among other things, drunkenness, incompetency, willful misconduct or willful violation of any provision of the charter. The charter also gives the people a certain direct voice in their government by providing for the initiative and referendum. The initiative requires that the commission, upon the receipt of a petition of a certain percentage of the voters, must submit the proposal or ordinance petitioned for to the voters for ratification or rejection. It is further provided that every ordinance passed by the commission must lie on the table ten days. If during that time a petition of 25 per cent of the electors is received asking that it be done the ordinance must be submitted to the electorate for ratification or rejection by majority vote. Thus are the people assured a final voice in their own government any time it may seem to their interest to use it.

Ward boundaries have, of course, been abolished and the commissioners regard all projects not with any thought of artificial boundaries but solely with the interests of the entire city in mind. The destruction of the incentive that formerly moved the aldermen in "working for their wards" has been one of the great aids in curtailing expenditures of the public money, as logrolling among aldermen has disappeared as an element in determining what public improvements will be undertaken.

As far as salaries are concerned the new form of government is more costly than the old. The total salaries paid to the city commission are \$6,800, while twenty-two aldermen drew but \$2,640, yet this is more than offset by the reduction of salaries in other departments, which are now looked after by the members of the commission. But greater economies have been secured by requiring all supplies and materials to be purchased for cash and under the supervision of the commissioners; the abolishing of all grafting as far as can be discerned and the greater efficiency resulting from requiring everyone to do an honest day's work while in the city's employ.

**OUR "ARCHIE" HOME.**  
Representative Archibald McEachern has arrived from Lansing. Mr.

McEachern has done all for his constituency that any man could do. He has been right on the job, and good judgment and good sense has characterized his every act and vote. None of the measures the advocate should have failed to enact, and those that fell by the wayside, fell through no fault of his. The appropriation for the State park at Mackinac Island was killed by the governor. A most important law passed at Lansing was framed by him—that prohibiting insurance companies from canceling policies when danger to the insured property grows more imminent, as in the case of forest products banked on a railroad right-of-way. When a dry spell occurs, and danger from forest fires increases, the companies cancel the policies issued to the owners. They will not be permitted to do this in future, and "Mack" deserves great credit for engineering through this just piece of legislation.—St. Ignace Republican News.

**JUSTICE BIRD'S CASE.**

The Houghton Gazette indorses Governor Osborn's veto of the bill permitting supreme court justices to reside away from Lansing, saying in part: "The greatest complaint that the state has found with the workings of the supreme court is in the delay in getting decisions. If the supreme court members resided wherever they saw fit, in any extreme portion of the state, it would certainly have even greater difficulty in keeping up with its work. Then again, the state of Michigan pays good salaries to the members of the court. They receive \$7,000 per annum. The law was made to that effect to conduct the business of the state, and the judges would make Lansing their home and cut out the traveling expense items that amount up to such stupendous figures in paying the bills for the maintenance of the state of Michigan."

"That is good pay and Michigan seems well able to pay really high grade men on the supreme bench at such compensation. Besides, why should there be any complaint on Lansing as a place of residence? It is a fine city. And it has most excellent schools, so the Bird children might have attended the Lansing public schools without injury. Mr. Bird has, of course, technically lived within the law as he made his home at the Downey hotel in Lansing, but members of the supreme bench, the highest judiciary in the state of Michigan, ought not to violate even the spirit or the letter of the law. They ought to be above suspicion in this regard. The saloon proprietor who keeps his side door open on Sundays may be able to get away with it, and some day he may explain his action by telling you that a member of the supreme court of the great commonwealth of Michigan violated the law which required his residence in Lansing. As for the sacrifice which Justice Bird made to take the \$7,000 a year from the state, wasn't he attorney general for the state just preceding his elevation to the supreme bench? And the pay of the attorney general is not anywhere near that amount."

"We believe that the governor did the right thing in vetoing that bill, which gave members the chance to reside at distant parts of the state and certainly would not help in the expediting of supreme court cases. Perhaps he should have called Justice Bird aside and told him that he didn't like the idea of Justice Bird lobbying for the passage of the bill and that he considered it more in conformity with precedent and usage to have members of the supreme court hold their homes about from Lansing, especially when it concerned their own pocketbooks, and let it go at that, instead of springing the sensation on the whole state. But that is not the governor's way of doing things."

**RUSSELL'S SCARLET SIN.**

By way of illuminating the political factors involved in the recent conspiracy to ruin Warden Russell of Marquette prison we submit a few extracts from editorials which appeared in the columns of The Marquette Mining Journal following the primary election of September last. Warden Russell is one of the owners of the Marquette Mining Journal. He supported Mr. Townsend in the senatorial nomination against Mr. Burrows. He also assisted in the nomination of the present governor of Michigan, who has of late become persona grata to the publisher of two of Detroit's daily newspapers—the Free Press and the Journal. Warden Russell's first editorial offense was committed a day or two after the September primary election, and appears in these paragraphs: "These papers, particularly the Journal, have been conducting a singularly malevolent campaign against Mr. Townsend. The Journal has been wholly conscienceless in its opposition, but, as is usually the case with a newspaper that has thrown discretion to the winds, it has largely nullified its efforts by its excesses."

"The Free Press and Journal are generally credited with being under the domination of E. D. Starr, a gentleman who picked up his pile in the show business, and who writes articles in the newspaper profession like a bull in a china shop. The interesting thing about Mr. Starr is that he is reputed to possess political ambitions. The state is full of people who want to be in on the killing when he submits them to the electorate for ratification."

"The second editorial offense was committed some days later, when the following opinions were expressed in The Mining Journal: "These estimable journals (the Free Press and Journal) pursued their policy of misrepresentation up until the last minute. Their campaign for Senator Burrows was one gigantic bluff. His meetings were represented to have been ever so much larger and more enthusiastic than they actually were, and Mr. Townsend's were minimized and belittled in every possible way. The stories these papers printed on Senator Burrows' visit to the upper peninsula were screaming jokes, and they didn't give a line to the magnificent reception accorded Senator Townsend when he swept through this district on one of the most spectacular and successful tours ever undertaken by a candidate for office in Michigan."

"It appears to be the settled policy of the Free Press and the Journal to thimble the news with the hope, and to the end, of advancing the interests of some candidate or candidates for office, rather than to correctly inform the public as to what is going on."

For these his scarlet sins, Mr. Russell has obviously not been shriven in Mr. Starr's satchel. Retribution has come upon him. He has been visited with the wrath of the Detroit papers he criticized, condemned for the very acts that won their approval in former years, exposed to further mutiny among the des-

perades in his keeping, declared guilty on the ex-parte evidence of convicts whose crimes were too revolting to be described in the public prints, denied his day in court, subjected to vilification scarcely limited by the postal and libel laws, and impeached in an hour of hysteria by a house of representatives whose members already begin to question their own action.

On the other hand, it must afford some gratification to Gordon Russell to remember that most of the leading newspapers of Michigan recognized the motive for the assault on him and refused to accept the hasty judgment of the house, that of thirty-two senators only nine—three of them democrats—were mustered to approve his impeachment, and that not a single senator could be induced to cast his vote in favor of the disgruntled Mr. Ogg's vindictive measure prohibiting corporal punishment—the measure which gave the signal for the general assault on the Marquette institution several weeks ago. Nor did Governor Osborn ever show himself to better advantage than when he refused to be stampeded by the din and uproar of the senate, or the well-meant appeals of many people who had no means of knowing the facts as well as he knew them.—Detroit Saturday Night.

**State Press**

There has been a fist fight in the Illinois state senate. Somebody must have tried to steal the jackpot.—Grand Rapids Press.

A Texas man sold 187,000 snakes last year at prices ranging from twenty-five cents to \$2.50. We suppose the \$2.50 ones were extra selects.—Lansing State Journal.

There is no more excuse for reckless automobile driving than there would be for reckless use of firearms about the streets.—Saginaw News.

And now the New York suffragettes are planning to sing as they march. If this doesn't sweep all opposition before them their cause is hopeless.—Pontiac Press Gazette.

Governor Osborn might also insist that an ax be represented in the state seal.—Yint Journal.

Some citizens' definition of an undesirable saloon would be "One which doesn't keep a baseball scoreboard."—Detroit Journal.

Penny postage on letters no doubt will greatly facilitate the delivery of mails, as checks will not have so many post cards to read.—Grand Rapids Press.

The farmer probably is not letting the solicitude professed for his welfare at Washington interfere with the spring planting to any appreciable extent.—Detroit News.

**A Laugh or Two**

**Nobility.**  
Ambassador James Bryce, at a dinner in Washington, said of the American spirit:

"But you have not a monopoly of this independent, this democratic spirit. I, for example, once knew an Oxford don, a very eminent man, whose father was a humble carpenter."

"As the don stood conversing one day before the Mitre with a group of distinguished visitors, the old man, in his working clothes, slunk by on the other side of the street, thinking he would spare his son the mortification of a salute."

"But the son, breaking off his conversation, called out in the good Hampshire dialect of his childhood:

"'Eh, feyther! If thee hain't ashamed of I, I hain't ashamed of thee.'"

**Geniality.**  
Edgar A. Brown, the Denver millionaire, is writing a book about his two years' voluntary experience as an "out-of-work" man; the other day:

"One trouble about poverty is that it makes you ridiculous. You need shaving, your trousers are fringed at the ends, your coat has a hole in the elbow. Yes, to be poor is ridiculous—as ridiculous as being misquoted in the press."

Mr. Brown laughed gently, "A friend of mine," he said, "was misquoted in the press last week, said: 'Whisky makes men genial for a time.'"

"But his favorite paper reported this remark as: 'Whisky makes me genial for a time.'"

**Ladylike.**  
Frederick Townsend Martin was condemning the spirit that animates too many "little girl" expeditions. "A little girl from the east side," he said, "was invited the other day to a garden party given by a very aristocratic lady to a group of little east sides."

"The little girl, as she drank her tea and ate her plum cake on a velvet lawn under a white-blossomed cherry tree, said to her hostess:

"Does your husband drink?"

"Why—er—no, not to excess," was the astonished reply.

"How much does he make?"

"It doesn't work," said the lady. "He is a capitalist."

"You keep out of debt, I hope?"

"Of course, child. What on earth—"

"Your color looks natural—I trust you don't paint."

"Look here," exclaimed the hostess, "do you mean by all these impudent questions?"

"Impudent!" said the little girl. "Why, ma'am, mother told me to be sure and behave like a lady, and when ladies call at our rooms, they always question mother like that."

**Overdone.**  
Alfred Gwynne Vanderbilt being asked at the Knickerbocker club if he would drive his London-Brighton coach again this year, answered with a smile: "This is coronation year, and the streets of London are apt to be overcrowded for coaching. They are apt to cause a good many repetitions of Kit Sykes' accident."

**Makes Baking Easy**

horses, sent his pole crashing through the back of a brougham.

"He instantly tossed his reins to the groom, ran to the door of the damaged carriage, and apologized so gracefully and gallantly that the old lady within expressed her entire satisfaction.

"Sykes, indignant, called out again that afternoon. He soon got into another crush, however, and once more his pole pierced a brougham. Again he ran to the brougham's door, and, hat in hand, again he began a voluble apology.

"But an angry voice interrupted him. 'What! You again? No, sir, I'll never forgive you! Twice a day is too much.'"

**A "BEST WOMAN."**

It has been suggested by some maker of jokes that the reason why the bride so often weeps at the wedding is that she never marries the best man. Reading about the wedding described in Dr. Winifred Weston's "A Broomstick in India" one can but hope that there was a "sequel"—that after the bride had so signally demonstrated her unusual caliber and made way for a less spirited successor, the "best man" mentioned in the case saw his opportunity.

Yesterday I went to a native Christian wedding.

Many guests had assembled, and the ceremony had progressed to the point where Mr. Gray asked the bride:

"Do you take this young man, cheerful and obey?" when the young woman in the case responded with a surprising and unmistakable "No!"

Mr. Gray labored with her in an undertone, but to no avail. The marriage had, as usual, been arranged by the parents without consulting the daughter. But it is almost an unknown thing for a girl to be so bold and disobedient. I predict a great future for her.

The situation was then explained to the assembled guests, and volunteers were asked to supply the vacancy. A young lady promptly came forward, and the ceremony proceeded as if nothing had happened.

Afterward the bridal pair left the altar by different aisles to hold a reception under a tree, where congratulations and rice were poured upon them. The groom placed a silver ring upon the great toe of the bride's left foot, and a "best man" tied the groom's necktie to the bride's flowing garment, and thus they sat in state for some hours.—Harper's.

**SPEAKER'S OFFICIAL CHINA.**

Uncle Joe Cannon was as simple in his way of living as speaker as he used to be as a simple representative in congress. So during his reign over the house the china, furniture, glass, silver and fine linen provided for the private dining room of the presiding officer reposed neglected in the storeroom at the capitol.

The forgotten articles have been taken from the seclusion in which they have lain since the nation paid for them in the time of Mr. Speaker Henderson, and will demonstrate to legislators when put in use the true Jeffersonian simplicity of the gentleman from Missouri.

The china bears the thistle badge. An excellent piece of symbolism, considering the nature of the animal for which that noble plant is the most acceptable article of food.—Chicago Record-Herald.

**NOTICE OF SPECIAL ELECTION.**  
WATER LOAN FUND ISSUE.

To the Legal Voters of the City of Marquette, Michigan:

Notice is hereby given that the following proposition will be submitted to the legal voters of said city, at a special election duly called for the purpose of electing the Board of Fire and Water Commissioners of the city of Marquette, to be held at the police court room in the city of Marquette, on Friday, the 6th day of May, A. D. 1911, viz:

For the purpose of raising money with which to make permanent improvement in the water supply of the city of Marquette, by extension of the present intake into about 50 feet of water at a point about 3,000 feet from the shore, shall the Board of Fire and Water Commissioners of the city of Marquette be authorized to borrow the sum of \$75,000 and issue new bonds therefor?

The date of election will be opened between the hours of 8 and 9 o'clock in the forenoon of said day and be continued open until 8 o'clock in the afternoon of said day and no longer.

Every male elector of said city and every woman having the qualifications of such male electors and who owns property in said city, either in her own name or jointly with her husband or any other person, which is assessed for taxes, will be entitled to vote on such proposition, if duly registered.

Dated, April 12, 1911.  
JOHN P. KERN,  
Secretary of the Board of Fire and Water Commissioners of the City of Marquette.

**BIDS WANTED.**

The Light & Power Commission of the City of Marquette, Michigan, invites sealed bids to be opened at the City Hall, in said city, on May 20, 1911, at 9 o'clock a. m. for the construction of a water main and labor and building of two dams on Dead river, one about five miles from the business center of said city, and the other of the head waters of said stream on the outlet of Silver Lake on the Secor river, T. 45 R. 28, about eighteen miles by road from the city of Ishpeming, Mich.

Plans and specifications on file and will be furnished May 1, 1911.

The dam near the city to be solid concrete and include head works to connect with present operating six foot wood penstock.

The dam at Silver Lake to be of earth fill with concrete headwork, wing walls, core wall and spillway, and contractor to allow this commission out of the contract price the sum of \$2,500 for 40 M. feet pine lumber and 1000 barrels of cement now on the dam site.

Bids must be separate for each dam.

The right is reserved to reject any or all bids.

### City Brevities

Today's weather: Fair; slightly clear, ten partly cloudy and twelve cloudy days during the month.

Annual Tax Sale Today—The annual sale of lands delinquent for taxes will be held in the supervisors' room at the court house today, beginning at 10 o'clock. Descriptions on which taxes have not been paid have been advertised in the papers of the county for several weeks past, and if not redeemed before the hour of the sale, all such parcels will be transferred to the highest bidder. Indications are that there will be less delinquent land in this county to sell this year, than in the past, which condition is in part due to the fact that state took over a large acreage on which taxes had not been paid for a period of years, a few months ago.

Kermis at Virginia, Minn.—Mrs. Perette and Miss Palmer left last evening for Virginia, Minn., where they will stage a Kermis in the near future, beginning work in connection with it at once. They recently returned from the Soo where they put on a successful entertainment.

The degree team of the Modern Woodmen meets tonight at 7:30 in Fraternity Hall.

A. F. Koepeke and family returned yesterday after a six weeks' trip through the East.

The ladies of the cathedral parish will give a party at the Baraga auditorium next Friday evening.

A regular monthly meeting of the fire department will be held at 8 o'clock tonight in the fire hall.

Supper will be served at the Presbyterian church at 6 o'clock Wednesday evening at thirty-five cents a plate.

Dr. Z. Vadnais has moved his residence and office from Washington street to 130 West Ridge street, opposite St. Luke's hospital.

Mrs. Dan Keough and Mrs. Caroline Brooks left this morning for Traverse City, having been called there by the illness of Mrs. Keough's sister.

A telegram was received yesterday, stating that The Mining Journal tourist party had arrived safely in New York after their trip to Bermuda, and would get home Wednesday.

John H. McMillan, who has conducted "The Office" saloon on Washington street for a number of years, is moving into new quarters on East Baraga avenue. He hopes to be able to open up for business today.

Two fire alarms, only a few minutes apart, were turned in yesterday noon. The first call was from the residence of Richard Smith, West Ohio street, and the second from 335 West Washington street, Mr. Conright's residence. Both were chimney fires.

Nice Catch of Fish—D. P. Fontaine and S. Faucher brought in probably the biggest haul of fish on the opening day of the trout season. Their catch aggregated eighty fish. It was made at Chatham. The men report the average four to five inches deep in that vicinity.

Died in San Francisco—News has been received here of the death at San Francisco, Cal., of Chas. A. Standish, son of the late A. B. Standish, formerly of Sault Ste. Marie. The body will arrive in Marquette at 11:30 today. A private funeral will be held at Hager Bros' chapel at 2:30 this afternoon, with interment in Park cemetery.

Will Entertain Students—Miss Carrie Van Evert, a student of the University of the Michigan College of Mines who is engaged in the production of "In Tobero" at her home at the corner of Front street and Hewitt avenue this afternoon. Following the performance this evening the college men will be the guests of a number of young ladies at a dance that will be given at the golf club house.

Very Poor Fishing—In spite of the wintry blasts from the north that blew over Marquette county yesterday, a number of the dyed-in-the-wool thirty-third degree disciples of Isak Walter went trout fishing yesterday. The small lakes in the vicinity of Morgan were the scene of several catches. Very small catches are reported, and fishing proved anything but an enjoyable sport, for it was so cold that ice froze on the line.

Wolf and Six Pups—John King, of Escanaba, who is trapping in Ishpeming and Powell townships, brought a she wolf and six live pups to the county clerk's office yesterday, on which he drew a bounty of \$87. The pups were kept in a hollow log and the mother was shot a few minutes later, when she came around to see what was going on. Sheriff Lehman killed the pups before the bounty was paid.

Keep Off Salmon Trout—The Huron Mountain club intends to keep non-members of the club from fishing in the Salmon Trout river this summer, as far as possible. The club controls both banks of the river nine miles up the stream from the mouth, and two patrolmen have been put on to keep out campers, fishermen and hunters. This is being done in an effort to restock the stream, which has been greatly depleted of trout in the past few years. Two cars of trout fry, 750,000 in all, are being planted in the river and its tributaries this week.

Buried by Masons—The body of the late H. H. Stafford arrived in Marquette at 3:30 yesterday afternoon from the East, and was met at the train by members of Lako Superior commandery, Knights Templars and Marquette lodge No. 101, E. & A. M., of both of which the deceased was a charter member. Headed by the Masonic bodies, the funeral procession proceeded from the South Shore station to Park cemetery, where the remains were interred beside those of Mrs. Stafford, who died some years ago.

Curfew Is a Whistle—Curfew did not ring last night, but it whistled. According to orders issued by the police commission last week, the ordinance requiring all children to be off the streets by 9 o'clock is to be enforced from now on the order going into effect last night. Instead of a bell announcing the curfew hour, it will be announced by the fire whistle at the water works. A warning blast is blown at 8:45 p. m., as a signal for children to start home, and when the whistle blows a second time, at 9 o'clock, all youngsters are expected to be under the parental roof.

Was a Dry April—The monthly report of the Marquette weather bureau for April shows that it has been the driest April since 1879. The total precipitation during the month was only .66 of an inch, which is one and a third inches less than the normal April precipitation. In April, 1910, the total precipitation was 2.89 inches. The normal temperature during the month was 40 degrees, two and a half degrees above the normal. The highest temperature was recorded on the 27th, when the thermometer reached 76 degrees, while 10 degrees was the lowest temperature during the

month, on the 3rd. There were eight clear, ten partly cloudy and twelve cloudy days during the month.

Additional Power Purchased. In 1900 an additional head of 7.5 feet was purchased from Ayer and Longyear for \$2,000, which allowed us to flow the water to an elevation of 175 feet. The plant was operated without change until 1905, or a period of four years, when the plant again was too small for the needs of the people, and plans were made to build a dam at the extreme west end of the property making a dam fifty feet six inches high. From this dam a seventy-two-inch inside diameter penstock was built to the power house, a distance of 2,700 feet. A 900 horsepower water wheel and 6,000 light dynamo were installed and operated until 1904, when a still larger dynamo, of 12,000 light capacity, displaced the smaller machine.

From this dam a seventy-two-inch inside diameter penstock was built to the power house, a distance of 2,700 feet. A 900 horsepower water wheel and 6,000 light dynamo were installed and operated until 1904, when a still larger dynamo, of 12,000 light capacity, displaced the smaller machine.

900 electrical horsepower at switchboard. With a minimum flow of 2,000 cubic feet per minute the horsepower developed would be 225. It is obvious, therefore, that some means of storing water must be provided in order to equalize the flow so as to be able to generate on an average about 500 horsepower. To do this requires about 5,500 cubic feet of water per minute. The pondage at our present upper dam is comparatively small, being only of sufficient size to take the average flow of about one acre. That is, supposing that an average flow of 5,000 cubic feet per minute was flowing into the pond, and if during the day an average of 300 horsepower was being generated, and about 4,000 cubic feet per minute was being used, there would be 1,000 cubic feet per minute flowing into pond that was not being used. The pond, therefore, would rise during the day. On the peak of load which comes in the evening, say in the summer time between 7 and 10 o'clock, much more water would be drawn out of the pond than would enter it. Consequently, the surplus water which was stored during the day would be used during the evening. In hydraulics this is termed "pondage" and not "storage."

Ayer & Longyear Deal. The commission has recently closed negotiations for the purchase from Ayer & Longyear, for a consideration of about \$13,000,000, for ten feet additional head, which will allow us to flow the water back to foot of Stone's mill falls, which is about 1 1/2 miles above the present site of upper dam. The dam is now sixteen years old and pretty well rotted and must be replaced at once. Consequently plans and specifications are now ready, bids called for and a contract will be let on May 20th for a concrete dam, built to an elevation of 108 feet for the speedway and 175 for the wing walls. This will give a working head of 98 feet, or an increase of approximately 150 horsepower with the same amount of water formerly used. The cost of this structure will be about \$62,500,000. This type of construction is practically everlasting, barring earthquakes.

The reservoir dam at Silver Lake is about thirty-five miles from Marquette and was built by lumbermen to aid in driving their logs down the river, and was constructed about twenty-three years ago. Being built of wood, it is now very rotten, and liable to go out at any time. The dam is owned by Ayer & Longyear and the city has had the use of it for the past twelve years, without any rental whatsoever, with the exception of being obliged to keep a watchman at the site to prevent injury to the dam.

Concrete Dam at Silver Lake. The commission plans this summer to build a concrete dam to replace the wooden one and to build it twenty feet high, which is 10 feet higher than the old wooden structure. The old dam flooded an area of about 1,600 acres, the new dam will flood the country to an elevation of 883 feet, or an area of 2,900 acres, and will contain about 1,150,000,000 cubic feet of water. Our engineers tell us that this dam will hold all the rainfall of the twenty-seven square miles drainage area around Silver Lake.

The commission figures that when this dam is built and filled, which will probably be in the spring of 1912, there will be sufficient water to run the mill continuously, no matter how small the rainfall. The average rainfall in this region is 32 inches but the last two years it has been much below the normal, it being 26 inches for 1909 and 27 inches for 1910. After these two dams have been built the growth of the city will determine what improvements will be made in the future.

500 CANAL PASSAGES. Names of the Boats Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., May 1.—[Special.]—The following upbound boats have passed the canal in the past twenty-four hours: McKee, Empire, 3:00; Highland, 8:30; last night; Chas. Bradley, Woolsey, Brightie, Zenith City, 10:30; Wade, 11:30; Carnegie, Mataafa, Yale, 12:30; this morning; Linden, 1:30; Duluth, 3:30; Corey, Huron City, 7; Stanton, 9:30; Perkins, Strathcona, 10; Spokane, Black Rock, noon; Princeton, Northern King, Phipps, 1 p. m.; Cornell, 1:30; Townsend, Zillah, Peshtigo, Redington, Goshawk, Soper, 6; Gary, 7; Helen C., 7:30.

SUMMER PRICES. Special orders, or repairing of furys during the summer, will save you from 10 to 20 per cent on fall prices. Orestin Bros., furriers, Calumet, Mich., 4-24-6t. Walton's tailor store May 1, 2 and 3, 4-26-6t.

Here and There. Miss Amy F. Rowland of the International Institute for girls at Madrid, Spain, delivered an address the other day before the number of the candidate Smith college. The International Institute is the first and so far the only woman's college in Spain. The ballots electing the alumnae trustees trustees for Smith were counted the 27th of this month. The name of the candidate who got the greatest number of votes will be submitted to the board of trustees for election. This election is to fill the vacancy caused by the expiration of the first term of Miss Laura Drake Gill, '81.

The Isle of Man has had in force for 300 years a law fixing 6 per cent as the highest rate of interest that can be charged on a loan. In the Isle of Man every woman has a parliamentary franchise. The Maux were many years ahead of the English in prohibiting the sale of cigarettes and liquor to children. Every widow has an income of half the personal estate of her husband and a life interest in his real estate.

Another instance of the stories of energy that may be drawn upon after one gets his "second wind," as Prof. James said, is to be found in a chess game played two weeks ago in Vienna. The players, Count Orsini and Herr Tannenbaum, began their game on Saturday afternoon at 3 o'clock and kept at it steadily until 4 a. m. Monday. There was almost as much excitement over the contest as if it had been a prizefight and members of the chess club made many bets.

An exceptionally interesting visitor to London soon will be Emperor William's daughter, Princess Victoria Louise, who will accompany her parents to the un-

veiling of the Victoria memorial. She is an attractive type of German girl—a little spoiled, perhaps, for the German emperor adores her—but good looking, sunny tempered and accomplished. She is inclined to be imperious at times, of which habit, her father once remarked: "Sometimes when talking to me she quite forgets that I am emperor, but I am confident that she never for a moment forgets that she is the emperor's daughter." It is just possible that history may be made as a result of the princess's visit for the matrimonial future of the emperor's daughter is to be decided soon.

FUR ORDERS. Our custom department is fully equipped and we are prepared to execute orders for fur garments and guarantee them in every detail. Orestin Bros., furriers, Calumet, Mich., at Walton's tailor store May 1, 2 and 3, 4-26-6t.

Order your milk, cream, butter and buttermilk of the Marquette City Dairy, the most modern, practically dairy in the state. Bell phone 223. 4-3-1m

### ISHPEMING GIRL'S LIFE THREATENED

**Jealous Suitor Lost His Head Because She Went to Show With Another Man.**

Miss Nellie Chilton, an Ishpeming girl, who has been located in Duluth for the past few years, one day last week charged Late Montroy with assaulting and threatening to kill her in her room at the Columbia hotel, where she is employed. When Montroy was arraigned in court he pleaded not guilty. His hearing was set for last Friday afternoon, but the case was dismissed the following morning upon the request of Miss Chilton, she and her sweethearts having settled their differences out of the court. A Duluth paper said of the affair:

"Late Montroy, a tug cook, was arrested last night on a warrant sworn out by Nellie Chilton, charging him with assaulting and threatening to kill her in her room at the Columbia hotel, 115 West First street.

"The assault is alleged to have occurred Monday afternoon when Montroy is claimed to have pushed her over the sill of an open window, grabbed her by the throat with one hand and to have brandished an open clasp knife with the other, threatening to kill her.

"Yesterday morning she claims that he slashed the clothes left in her room into ribbons, and to have been waiting for her to put in an appearance. She heard of it and swore out a complaint against him at the office of the assistant city attorney at the city hall.

"Miss Chilton said that she and Montroy had been 'sweethearts' for some time past, but that she recently became convinced that he was not sincere in his protestations that they would be married soon. Sunday evening it appears that she attended the theater with another man, which aroused Montroy's anger. He is claimed to have waited for her return and to have severely upbraided her that night. She asserted that he had been drinking."

### PUT LOVE INTO LAW.

Judge Ben B. Lindsay, the juvenile reformer of Denver, Col., speaking before Harvard Students, said that our whole jurisprudence in criminal matters has been based upon a recognition of the sacredness of property rights rather than the sacredness of the human rights.

Judge Lindsay is quoted by the Boston Post as saying: "The young offender is in the ordinary court made to feel a great deal of the law, looking upon the policeman as a place leading to jail. The remarkable work that has been accomplished in the Denver juvenile court has been done through sympathy wisely directed and by carefully studying the conditions of the young offenders and not through following out the old principle of respecting property rights at any cost to the individual.

"In the majority of juvenile offenses the culprits are not really bad. They have loyalty, but the loyalty is misdirected because there is no director. They have energy, but it is likewise misdirected, and that misdirected energy we used to call crime.

"The jail will never solve the problem of crime; it must be solved by the home, church and school.

## ALWAYS BEST—

### Gately's Spring Suits

Are now \$5.00 less than any previous year.

It is simply second nature for Gately's to show more choice in more value at less price than any other concern. Because Gately's count on the volume of business they do, and their enormous purchasing power enables them to "buy for less and sell for less."

Now then, some folks are crying "Hard Times." We haven't felt any—and don't want to—so we took full advantage of every cash buying concession, and we therefore bought even heavier than usual for this spring. Which fact coupled with a preference for plenty of business at less profits makes the head lines exactly true, and places Gately's value beyond all hope of competition.

<b>\$15</b> As good as our \$20 Suits, usually.	<b>\$20</b> As good as our \$25.00 Suits, usually.	<b>\$22.50</b> As good as our \$27.50 suits, usually.

## GATELY-WIGGINS

ISHPEMING - CALUMET  
Houghton Iron Mountain  
150 SHELTON ST. 121 STEVENSON AVE

### WILL BE INSTITUTED SATURDAY NIGHT BY DISTRICT DEPUTY W. T. COLE.

W. T. Cole, special deputy of the Independent Order of Odd Fellows, will organize a branch of the society Saturday night, at Gwinn, on the Swanzy Range. He will be assisted by the degree team of Ahmeek lodge. A special train has been chartered from the Chicago & Northwestern Railway company to take members of the society in Ishpeming and Negaunee to Gwinn and return. The train will leave Ishpeming at 7:10 p. m. and Negaunee ten minutes later, and will leave Gwinn on the return trip at the conclusion of the lodge work. It is not possible to tell at this time what the fare will be as the expense will be divided pro rata. Persons other than lodge members wishing to visit friends on the range can ride on the special.

Mr. Cole spent some time at Gwinn recently arousing interest and the lodge will be started with forty-one charter members. A meeting of the prospective members was held Sunday and they decided to name the branch after the town of Gwinn.

Mr. Cole and John T. Quine will go to Gwinn on the early train Saturday and during the afternoon they will perfect the organization and also dispose of other preliminary arrangements. As the four degrees will be conferred upon the candidates it will take several hours to complete the work. The train will arrive on the range before 9 o'clock and Mr. Cole expects to have the work under way in less than an hour after the members reach there. The meeting will be held in the Bank hall, on the second floor of the Gwinn bank building, and at 10:30 a banquet will be served at the Gwinn hotel. It is expected that the 4 o'clock Sunday morning.

There will be a good-sized delegation present from the Ishpeming lodge, and it is also expected that the members of the Negaunee, Marquette and Munising lodges will attend. The Gwinn lodge will be the seventh Odd Fellows lodge in Marquette county. This society has a larger membership in the county than any of the other fraternal organizations.

### NOW IN BOSTON.

Y. M. C. A. Worker, Who Put On Campaign Here, Meeting With Success.

Fred S. Shepherd, field secretary of the Young Men's Christian association, who a few weeks ago conducted a "whirlwind" financial campaign for the Ishpeming branch of the organization, raising over \$23,000, is now in charge of a similar movement in Boston, where the Melrose branch has started to raise \$45,000. The campaign will be conducted along the same lines as the one here.

The Melrose campaign is the eighteenth that has been conducted in Massachusetts within a comparatively short time, and it is said that the amount raised in the campaign has exceeded that of any of the previous ones. In the seventeen campaigns, conducted prior to the one started by the Melrose branch, the amount pledged was \$1,623,908.41. Over 3,000 members of the organization assisted in raising the money. For the main branch in Boston, \$514,624.18 was subscribed in fifteen days; in eleven days at Cambridge, \$151,060 was pledged; the Chelsea association raised \$71,826 in ten days; Fall River pledged \$55,596 in eight days; Franklin, \$31,269 in ten days; Lawrence, \$156,680 in ten days; Lowell, \$174,527 in ten days; Malden, \$60,000 in ten days; Marblehead, \$16,795.65; Milton, \$29,000; Newton, \$156,890.05 in six days; Quincy, \$27,160 in nine days; Somerville, \$4,667.50; Taunton, \$40,918 in seven days; Roxbury, \$14,000 in ten days; Abington, \$4,500 in five days and Beverly, \$83,003.40 in two days.

It is said that Mr. Shepherd has never failed to raise the amount desired in any of the campaigns he has directed. The money being subscribed for the Melrose association will be used to repair the building, the cleaning up of a mortgage and to build a swimming pool at headquarters.

### A NEW LEADER.

Light Guard Band Will Be Directed by Former Leader of Finnish Band.

Harry Sayle, who has been the musical director of the Ishpeming Light Guard band, succeeding John Peterson, has resigned, and he will be succeeded by Waldemar Vittala, who was the organizer of the Ishpeming Finnish band. Mr. Vittala gave up his directorship of the Finnish band early last fall, when he was elected to the position of Light Guard band director.

The Light Guard band has recently increased its membership to twenty men and a new solo cornet player is to join the organization next week. The band is now preparing for the engagement of Oscar T. Lidberg, who travels for Mufgur & Son, is the manager. He can be reached by either telephone at Mufgur & Son's office, or by addressing him at 601 Cleveland avenue.

### SOLD SEVERAL CARS.

E. R. Nelson, upper peninsula agent for the Franklin and Oakland automobiles, left Sunday night for Pontiac, Mich., to place orders for several Oakland touring cars. The contracts for which he closed up last week. Among the sales he made is one of a five passenger car to William H. Mitchell, of Negaunee. This car has already been delivered. The others to whom cars were sold are Captain John H. Hatala of the Richmond Light Guard, the Cassin car to Matt Kovisto, proprietor of the Palmer store, Dr. Von Zellen of L'Anse; Dr. I. Lindgren, August Sutton and J. R. Thompson of Ishpeming. Dr. Lindgren has been driving a Franklin car the past few years, and J. R. Thompson has been using a Buick.

### ISHPEMING MAN MARRIED.

Will J. Cole, son of W. T. Cole, the Division street boiler maker, who has been serving in the United States army, with headquarters at Fort Snelling for the past three years, received his honorable discharge last Thursday morning and that afternoon he was united in marriage to a Fort Snelling girl. As Mr. Cole does not intend to re-enlist it is likely that he will again locate in Ishpeming, and will probably enter his father's employ, as he learned the boiler maker's trade before going away.

### EAGLES MEETING.

The regular meeting of the Ishpeming acera of the Fraternal Order of Eagles will be held this evening, and a large attendance of the members is desired, as important business will be transacted.

5-2-11

We have another car of horses at Lossing Bros. barn, Ishpeming, and will sell them right.

### ISHPEMING IN BRIEF.

An important meeting of the Ishpeming acera of the Fraternal Order of Eagles will be held this evening.

The Knights of Pythias and Hematite bowling teams will roll a special match of three games this evening at the Bank street alleys.

Lester Richards, who will play second base for the Ishpeming league baseball team this season, is expected to arrive in the city today.

Captain James Stephens, of the Cleveland Cliffs Iron company's North Lake properties, left last night for West Branch, Ind., accompanied by Captain J. H. Rough, of Negaunee. They will be absent ten days or two weeks.

Ed J. Butler left on the early train this morning for Sault Ste. Marie, where he will attend the state convention of the Modern Woodmen of America, as one of the two representatives of the camps in Marquette county. He will return Wednesday night.

Thomas Callow, who conducts a confectionery business at the Salisbury, will spend the greater part of the summer in the woods, in the hope that the change will be beneficial to his health. His brother, Henry, will have charge of his business.

Ishpeming people, who removed their heating stoves and storm windows last week had cause to regret it yesterday, as it was one of the coldest and most disagreeable days since the middle of March. The sidewalks were covered with a sheet. The temperature was in the neighborhood of twenty degrees above zero the greater part of the day and

WANTED—Band men—Piccolo, Eb clarinet, two solo Bb clarinets, soprano saxophone, alto saxophone, baritone saxophone, solo trombone, Ebb bass, two solo cornets, bass and snare drums. Applicants must own instruments. Positions secured for min-ers. Job shift work. Only apply to E. Hawke, Gwinn, Mich. 5-2-11

there was a strong north wind.

Supt. Chas. E. Lawrence of the Pickands-Mather mines on this range, will leave about May 15 for a visit to Europe. He will be accompanied by Mrs. Lawrence and their daughter and by Mr. Lawrence's mother, who resides in Cleveland and for whose pleasure the trip is principally made.—Crystal Falls Diamond Drill.

Joseph Pope, who has been employed at the Nelson House for the past six years, left yesterday morning for Calumet, where he will take a position with the Michigan Bell Telephone company, under Ted Berdall, who is the company's chief lineman in that district.

On Saturday evening Mr. and Mrs. Thomas Tripp, of South First street, entertained about forty friends in honor of the baptism of their one-year-old son, Walwin. The baptismal service was conducted at 5:20 o'clock by Rev. C. S. Robinson, pastor of the First Methodist Episcopal church. At 6 o'clock the guests partook of a beautiful supper. The evening was enjoyably spent in games and music. The baby was the recipient of a large number of beautiful gifts.

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice, thereby inducing good digestion. Sold by The People's Drug Store.

### Mining News

#### LAKE COPPER.

Engineer F. R. Weekes, who last November made a report on the Lake Copper property for Director Galen L. Stone, has recently completed another examination. He speaks in optimistic terms concerning existing conditions. The ground to the north, he says, is particularly encouraging. The lode, measuring at right angles to the formation, is about fifty feet in width, the copper-bearing portion measuring about twenty feet in width. The hanging wall trail is fairly well defined but the foot wall continues extremely irregular, there being no well marked line of separation between it and the vein matter. The so-called east vein which will be re-mined was cut by the original shaft and opened a short distance at the fifth level, is believed by Mr. Weekes to contain important mineral possibilities and development operations may shortly be resumed on this lode. Mr. Weekes has not changed the opinion contained in his former report, wherein he said: "The property I consider to be a mine with prospective values exceptionally good."

#### NOTES OF COPPER NEWS.

D. C. Jackling is quoted as declaring that either late in 1912 or during 1913 Utah Copper will be produced at a cost of less than seven cents a pound. It is stated semi-officially that the Lake Copper company will start production six months hence at the rate of 500 tons of rock a day.

There has been no date set for the trial of the Butte-Balaklava suit and it is not expected that the case will come up for hearing until next fall. New Baltic's shaft at a depth of about 300 feet is again showing copper in fair quantity. The sinking continues, but at 390 feet it will be stopped to send a crosscut into and across the lode.

The strength in Shattuck-Arizona is accompanied by a report that Phelps-Dodge interests will exercise an option at a price which works out several points above the recent market price of the share.

W. M. Wiley, the Los Angeles expert, who examined the Colorado mine of Davis Daly, has expressed himself as satisfied that the property can be operated at a profit with the present showing of ore.

It is understood that the United States Smelting, Refining & Mining company has offered \$1,250,000 for the Gold Road mines in Arizona, but that the offer has not yet been accepted. The asking price has been \$2,000,000.

The South Lake will soon start sinking a shaft to the ledge, having determined to undertake the work at this time, although sinking below that depth will have to await the replenishing of the company's treasury, which will probably be done by an issue of treasury stock.

The Wolverine Mining company during March produced 1,021,000 pounds of refined copper, as compared with 737,729 pounds of refined copper in the previous month. The recovery per ton of rock was 23.44 pounds, as against 23.08 pounds in February.

Granby's production during the first quarter of the calendar year was 3,280,159 pounds of copper, 107,311 ounces of silver and 13,551 ounces of gold. The output during March was 988,341 pounds of copper, 40,400 ounces of silver and 1,912 ounces of gold. The production of copper exceeded the record for many months preceding.

Reports relative to developments on the Arizona Commercial property state that the north crosscut of the tenth level entered a vein 120 feet from the shaft. The vein where cut at this point shows a width of thirty-one feet, highly mineralized with copper glance and good oxide ores.

The total assets of the Baltic Mining company, March 1, 1911, were \$3,370,139, compared with \$3,616,285, and comprising real estate valued at \$1,019,251.

## Negaunee Department

### PENDILL ADDITION MAY BE PLATTED

Many Negaunee People Have Applied to Company to Purchase Lots.

The officials of the Cleveland-Cliffs Iron Company may decide within a short time to lay out a plat in the Pendill addition, south of the Negaunee greenhouses, for building purposes. The land office has, during the past few years, received so many requests for the plat that the Michigan Smelting Company, Accounts payable are \$237,073, as against \$29,455 a year ago, and the profit and loss surplus shows a decrease from \$1,716,830 to \$1,311,047.

An official statement to stockholders of the Ray Central says that a large and rich extension of the known ore body has been opened up on the 400-foot level and all underground work is now concentrated on that level. The ore assays better than at any place in the mine. The breasts of all workings are in high-grade ore, and the showing of a large amount of native copper is suggestive of a greater thickness of the ore body here than had been supposed.

The Hancock mine is shipping about 200 tons daily coming from the fourteenth to the seventeenth levels of the Nos. 2 and 3 Hancock lodes, being the rock removed in the making of the drifts, and this should be sufficient to maintain the above output for some time without taking ore from the stopes. It is the intention of the management to average a good quantity of the rock shipped before making public any mill returns.

Following the agreement recently made by the Calumet & Hecla interests with minority stockholders, Frank L. Whitcomb and T. N. Perkins have been added to the directorate of the Isle Royale Copper company. This increases the board to seven. The copper contents of the company's rock is said to be running higher than last month. The output, however, is expected to be smaller, as one of the stamps is being repaired.

#### STEAM LAUNDRY PROJECT.

New Enterprise Will Be Located in "Cherry Hall" Building.

The management of the Crescent Steam Laundry at Marquette, which is to be moved to Negaunee, has decided to rent August Raatykanen's building on Gold street, generally known as the "Cherry Hall" block. The laundry equipment found a more desirable building location, as the block is large and well built.

A number of alterations will be necessary. The machinery will be located in the basement and the office and the rest of the building will be used for the lighter machinery, including the shirt ironers, etc. Several of the partitions on the second floor will be removed.

During the past few weeks Manager F. E. Knight has disposed of nearly 82,000 of stock in the company among Negaunee people. The company is to be reorganized with a capitalization of \$3,000,000. The officers expect to dispose of the greater part of the stock by the time shares which have subscribed for the shares believe that the enterprise will be a success, as Negaunee is now large enough to support a steam laundry.

P. Hannula, who has conducted the "Cherry Hall" building, yesterday received notice to vacate, and he has rented the Keating building, immediately north of the M. T. Murphy's store, on West Iron street.

#### MAINTLAND MINE.

Expected That Operations Will Soon Be Resumed at Gold Property.

A press dispatch from Deadwood, S. D., states that work on the property in the Maintland district, near Lead, is expected to be pushed this summer. It is announced that arrangements are now being made for a resumption of work on the older properties in that section and one or two new ones will be started up. The most important company is the North Homestake, formerly known as the Maintland mine. This company has been idle for nearly two years.

A large majority of the Superior & Pittsburgh has been deposited with the State Street Trust company, Boston, under the terms of merger, and this stock will be exchanged for Calumet & Arizona shares very shortly. The 1,300,000 shares of Superior & Pittsburgh have been stricken from the unlisted department of the Boston Stock exchange and the 428,571 additional shares of Calumet & Arizona stock issued for Superior & Pittsburgh listed in their place. The first dividend of the Consolidated company is due for payment in June and there is considerable speculation as to the ability of the company to continue the \$1 a year rate maintained by the Calumet & Arizona for the past three years.

#### GOSSARD CORSETS.

Madame Shanks will demonstrate the merits of the Gossard Corsets at Levine Bros. store, Negaunee, Wednesday and Thursday of this week. The women of this city and the county are cordially invited to call.

#### MARINELLO COMFORT SHOP.

When you want a good Shampoo, a restful Massage, a scalp treatment or unobtrusive work done, make an appointment by telephone or call at this shop. Over the Savings Bank store.

#### MRS. D. WENDROFF.

Foley Kidney Pills take hold of your system and help you to rid yourself of your dragging backache, dull headache, nervousness, impaired eyesight, and all of the ills resulting from the impaired action of your kidneys and bladder. Remember it is Foley Kidney Pills that do this. The People's Drug Store.

tion, through which runs a promising looking dike.

Utica, N. Y., men are developing some ground near Box Elder creek in which the ore contains gold, platinum and palladium. They had driven a tunnel 400 feet before they struck the vein which contains paying ore. This vein was located with some trouble, as it dipped, but when struck proved to be a quartz formation 100 feet wide and said to average about \$18 a ton. The ground is owned by John Peterson and Al Switzer, both of Box Elder, and is the first find of platinum in commercial quantities in this region.

The Bear Gulch district northwest of Douglas, an only incidently developed heretofore, is to be the scene of systematic operations this summer. The district contains both gold and tin prospects in numbers, including the Nigger Hill district, about whose tin lodes much has been said. In the whole district with a history of thirty years assessment work, there has never been a shaft sunk to quartzite, the deepest being 200 feet, but all the upper levels have shown excellent quality of ore. Now A. J. Johnson and associates plan to reach quartzite.

#### FISHERMEN DISAPPOINTED.

Most of the Negaunee men who planned to go fishing yesterday remained at home because of the unfavorable weather. One party of young men went down to the Carp river Sunday night and camped out, but they did not fish as long yesterday as they expected, as the temperature during the greater part of the day was several degrees below the freezing point, and besides a stiff north wind was blowing. The local dealers in sporting goods report that they have sold more fishing tackle this year than for a number of years past, prior to the opening of the season.

#### NEW OFFICERS BEGAN WORK.

Marshal Robert W. Jackson and the other new men who were elected by the council for positions on the police force began work yesterday, as did also William Walters, the new janitor at the city building. The new officers will be without uniforms for several days, but they will be provided just as soon as the tailors can turn them out.

#### GOSSARD CORSETS.

Madame Shanks will demonstrate the merits of the Gossard Corsets at Levine Bros. store, Negaunee, Wednesday and Thursday of this week. The women of this city and the county are cordially invited to call.

#### LOCAL LAONICS.

Joseph Symons, of Hubbard, was a business visitor in Negaunee yesterday. A party of twenty-eight Negaunee citizens went to Marquette yesterday to make application for citizenship papers.

W. H. Mitchell has purchased an Oakland touring car from E. R. Nelson, the company's agent. The car was delivered Saturday.

John Buska, who was in the employ of Hugo Huck for some time, succeeds William Nadeau as bartender with James Caffery.

Henry Swartzler is putting in a foundation for Mrs. Sheehy's house on Peck street, which is to be moved from its present location to the lot adjoining.

Captain J. H. Rough left last night for West Baden, Ind., where he will spend several days. He was accompanied by Captain James Stephens of the Cleveland-Tifts Iron company's North Lake properties.

A number of Negaunee theatergoers are planning orders for seats for the musical comedy, "The Fishers," which students of the Michigan College of Mines will present at Ishpeming theater next Friday evening.

The foundation for Jarlet Rytkanen's new business block, corner Iron street and Pioneer avenue, was completed Saturday. The carpenter work will be started within a few days. A considerable quantity of lumber has already been delivered.

The funeral of the late Charles Muck, will be held this afternoon at 1:30 o'clock, with services at the house, conducted by Rev. R. T. Hicks, rector of St. John's Episcopal church. The remains of the deceased members of Mr. Muck's family were last week removed from the oak to the new cemetery.

The temperature here fell 20 degrees on Sunday morning at 6 o'clock until Monday morning at the same hour, there was a light rain fall Sunday night and yesterday the sidewalks were coated with ice. The temperature at 5 o'clock yesterday morning was twenty-two below zero.

Messrs. Ganschow and Wilder, grand master and grand secretary, respectively, of the Independent Order of Odd Fellows of Michigan, were entertained by R. G. Jackson and other members in Negaunee Saturday morning. They left on the afternoon train for their homes in the lower peninsula.

The fire department was called out Sunday afternoon at 4 o'clock to extinguish a chimney fire at the home of William Cheney, on Cyr street. It was one of the worst fires of its kind that has occurred here in a year or more and it has been found it necessary to remove some of the bricks in order to get out a fire pipe on the top of the chimney, which had become blocked with soot.

Fred Ollila, who has been employed as a clerk in Levine Bros. store for the past ten years, will give up the position Saturday to enter the employ of his brother, John, who a few months ago engaged in the grocery business in the eastern part of the city. When Fred started at the Savings Bank store he was employed as an errand boy.

Louis Greuter, consul of the Negaunee camp of the Modern Woodmen of America, will leave this morning for Sault Ste. Marie, to attend the state convention of the society, which will be held tomorrow. The Soo camp has arranged a program for this evening. It will consist of a picture entertainment and addresses by prominent members of the society. The pictures will be scenes of the Woodmen's tuberculosis sanitarium, near Colorado Springs, Colo. Mr. Greuter will return home tomorrow night.

# ST. COMMISSION GETS GRILLING

### Council Last Night Sharply Criticized Failure to Expend Money Appropriated Where Specified in the Budget—Washington Street Park an Example.

### Ordinance Passed Forbidding Sale of Dangerous Fireworks—Eagles Want to Give Street Fair Week of July 4—Garbage Must Be Properly Disposed Of.

In connection with the discussion of an appropriation of \$625 for the improvement of Washington street park, the park, cemetery and street commission came in for a grilling last evening at the hands of the common council. It all started when Alderman Fassbender made a motion to set aside \$625 out of the general fund for the improvement of the park, in accordance with an understanding reached between the finance committee and residents of that locality a year ago. At that time the committee decided to expend in park improvements \$625 annually until \$2,500 had been appropriated, and the first quarter of the amount was advanced last May.

At this juncture Alderman Scully called attention to the fact that the only improvement made at the park with last year's appropriation was to build a rough stone and cinder walk diagonally across the park, which nobody would walk on. The resolution of the council called for a concrete walk, but the street commission did not get at the work until it was too late to lay concrete, and nearly \$300 was expended for the macadam walk, which is said not even to have been rolled. Mr. Scully asked that the appropriation this year be made in such a manner that the commission would have to expend it in the manner provided by the council, and not when and how they saw fit.

### Hennessy and Schauer Let Loose.

This sentiment touched a responsive chord in Alderman Hennessy's and Alderman Schauer's bosoms. The former declared that the street commission on different occasions had not expended its money for the purpose it was appropriated, and cited the macadamizing of two blocks on Front street, built because a member of the commission and one of the aldermen lived on that part of the street. Alderman Schauer declared that all the council had to do with the streets of the city, under the present system, was to furnish whatever money was wanted, and let the commission spend it where they pleased.

The city attorney was called upon to explain the council's rights in this matter, and he informed the aldermen that they were empowered to make local laws and minutely where and how the money appropriated the street commission was to be expended. He suggested that the council give more specific directions this year than heretofore, and judging from the sentiment expressed last night, the council will endeavor to hold the street commission strictly to the improvements specified in the budget this summer, and it is possible the council may even specify the amount that shall be expended on each separate piece of work.

Washington street park finally got the appropriation and the street committee of the council was instructed to see to it that all of the appropriation was spent on the park in accordance with plans already drawn, which contemplated eventually the expenditure of \$2,500 on the park.

### Fireworks Ordinance Passed.

An ordinance prohibiting the sale of dangerous fireworks was also passed last evening by a unanimous vote. The ordinance forbids the sale of fire crackers more than seven-eighths of an inch in diameter and four inches long, or of torpedoes or bombs, of explosive caps, or of toy cannons, pistols, canes, etc. Any person who wishes to fire any kind of gun or set off any explosive within the city limits at any time, must first get the written permission of the mayor, which shall be filed with the city recorder. The new ordinance reads as follows:

"No person shall keep for sale or sell in this city any fire cracker more than seven-eighths of an inch in diameter, or more than four inches in length; or any torpedo or bomb of any kind or size; or any explosive cap or caps; or any toy cannon, gun, pistol, cane or other contrivance for firing explosive caps; or any other toy cannon, gun or pistol for the discharge of explosives; or any ammunition for toy cannon, guns or pistols. No person shall fire or discharge any cannon, gun, pistol, cane or other contrivance for firing explosive caps, or set off any squib, cracker, bomb, or other thing containing powder, nitroglycerine or other explosive material, without permission from the common council, or written permission from the mayor filed with the recorder, which permission shall limit the time of firing and shall be subject to be revoked by the mayor or common council at any time after it has been granted. Any violation of this section shall be punishable by a fine of not less than two dollars nor more than twenty dollars, or by imprisonment in the city lockup or county jail for a term not exceeding thirty days, or by both such fine and imprisonment in the discretion of the court before whom a conviction is had."

### Eagles Want Street Fair.

A petition from Marquette Aerie, Fraternal Order of Eagles, was presented, asking permission to hold a street fair in Marquette on July 3 to July 8, inclusive. It is understood that the Eagles intend to bring the Barkfoot Amusement company, which held a street fair in this city last fall, here again at that time, provided they can get permission of the council to use the streets. This matter also aroused some discussion, and it was finally referred to a special committee composed of Aldermen Asire, Scully, Hennessy, Donovan and Fassbender, who will report at the next meeting, to be held May 15.

### On Petition of Abutting Property Owners.

The council authorized the city controller to prepare a roll for the macadamizing and curbing of Waldo street between Presque Isle avenue and for the grading of Waldo street from Fifth avenue to Wilkinson avenue.

The question of city printing came up,

# NOTED LECTURERS AT SUMMER SCHOOL

### Coming Term at Normal Will Be Full of Rare Educational Opportunities.

The eleventh annual session of the Normal State Normal school will open Monday, June 26, and close Friday, August 4. The work of the summer term will be very similar to those that have preceded, students being given opportunity to pursue regular courses leading to graduation, or to take up special studies, as they see fit. Classes will be formed in all subjects required in the county examinations for first, second and third grade certificates, and there will also be review classes in the common branches.

As last year, a number of eminent lecturers and educators have been engaged to give a series of lecture courses during the summer session. These lectures will be both popular and scholarly, and will appeal not only to all classes of students and teachers, but to the general public as well.

Professor Arthur D. Dean, chief of the division of trade schools, New York State Education department, has been engaged for a week's lectures on industrial education. Professor Dean is not only a thorough student of industrial and vocational education, but he is also a successful administrator. Twelve industrial and trade schools have been established in New York state under his supervision. For several years he supervised the vocational work in the summer school at Cornell university, and has carried on similar work in Y. M. C. A. night schools in Massachusetts and Rhode Island. He has written extensively on this subject and is a recognized leader in the movement.

Francis G. Blair, state superintendent of Illinois, will give a course of lectures on educational topics of very general interest. Mr. Blair is recognized as one of the country's foremost educators and is withal an entertaining speaker. He will speak on the following subjects in Marquette: "Waste in Education," "The Child and the School," "The Home and the School," "The Teacher," "The Aim of Instruction," "New Phases of Education," and "General Results."

Miss May Masee, children's librarian at the Buffalo public library, will give a course of lectures on children's reading, children's books and children's literature. Miss Masee has lectured at former sessions of the summer school, and she needs no introduction to Marquette people. She will bring with her a model children's library of over 500 volumes, which will doubtless be of great interest to teachers, parents and students.

### Painters and Decorators Demand Increase to Forty Cents an Hour.

Marquette as well as other and larger cities has its labor troubles. Yesterday, the painters' and decorators' union declared a strike against J. E. Trethevey, Chas. T. Geill and The Decorating Co., who refuse to pay forty cents an hour to their employees, the wages fixed by the union to take effect May 1. This is an increase of five cents an hour, painters and decorators having been paid thirty-five cents an hour heretofore.

Notwithstanding the strike, The Decorating company had two men in its employ yesterday, but the other two contractors were left deserted. However, the employers maintain that they will have plenty of help to take care of their business within a few days.

The union is demanding a higher scale, and they claim that the union is dominated by small contractors, to whom the increased wage would give an unfair competitive advantage, as they do a large part of their work themselves. The members of the union, on the other hand, maintain that forty cents is no more than a just and reasonable wage, in view of the increased cost of living.

### NEW DEPUTY U. S. MARSHAL.

Joseph Wills of Calumet Succeeds to Office Held by E. D. Mosher.

A change in the personnel of the government officers in the federal building took place yesterday. Joseph Wills of Calumet, succeeding E. D. Mosher as deputy United States marshal for the western district of Michigan, northern division. Mr. Wills was sheriff of Houghton county for four years and is well fitted for the position to which he has been appointed, being familiar in a general way with the duties of the office he assumes by reason of his experience as sheriff, and having a wide knowledge of the upper peninsula and its people. He will undoubtedly make an efficient officer.

Mr. Mosher retired as deputy marshal yesterday after having served seven years in that capacity in an eminently efficient manner. When Marshal Whalen was appointed some months ago to succeed Marshal Waite, it was generally expected that several of the deputies would be changed and Mosher was one of those that lost out in the political shuffle. He leaves the office with a creditable record as a government official.

### HENRY H. STAFFORD.

Was Receiver of U. S. Land Office Under Abraham Lincoln.

The Boston Globe of April 28 contains the following obituary notice of Henry H. Stafford, a former resident of this city and its first mayor, who was buried in Park cemetery yesterday:

"Henry Stafford, first mayor of Marquette, Mich., and a resident of this city since 1900, died last night at the home of his son, Walter K. Stafford, 32 Richmond street, Newton, Mass. Mr. Stafford was born in Boston in 1833 and spent his early life about Boston and Provincetown. He became engaged in the druggist business in 1859, connecting himself with the firm of Joseph Kidder and remaining in this capacity until his marriage in 1856 to Miss Catherine L. Kidder, daughter of Joseph Kidder and a member of one of the leading families of Boston, when the couple removed to Marquette, Mich.

"In that city he established the first drug store. He was elected the first mayor of the city and served in the Michigan legislature from that district during the 70s. He became active in politics during the administration of Lincoln, under whom he served as receiver of the U. S. land office. Under subsequent administrations he became receiver for the same office. He was also interested in mining projects.

"He was a member of the lodge of Masons and Lake Superior commandery, K. T. of Marquette.

"The funeral service will be held from the home of his son Saturday afternoon, at which Rev. George S. Butters, pastor of the Methodist Episcopal church, will officiate. The body will be sent, following the services, to Marquette for a Masonic burial on Monday.

"He is survived by five sons, Edward O. of Marquette, Mich.; Walter K. of Newton, Charles M. of Minneapolis, Minn.; Henry L. of Duluth, Minn.; and Morgan H. of Newton."

### FUR STORAGE.

Furs stored during summer and insured against loss or damage by fire or moths at 2 and 3 per cent. Ornstein Bros., furriers, Calumet, Mich., at Walton's tailor store May 1, 2 and 3. 4-26-11.

### Theatrical

### "Madame Sherry."

A capacity audience greeted "Madame Sherry" at the opera house last evening, and was delighted with the entrancingly delightful French vaudeville. "Madame Sherry" is different, charmingly different. It has all the pleasing elements of musical comedy and of vaudeville, with all that is stale and shop worn left out. It comes like a breath of fresh air to the tired playgoer, ever seeking something new to divert.

It is difficult to tell just where the charm of "Madame Sherry" lies. Its music is beautiful but it would never be a transcendent success because of its music alone. Its comedy is in the whole situation rather than in anything that is said or done. Its dancing numbers include many new steps and almost athletic feats, but it isn't the dancing alone that wins it favor. Its staging and costumes are costly and beautiful, but no more so than many other plays. But put all together and the combination makes one of the hits of the season.

"Madame Sherry" was presented last night by an excellent cast. The title role is carried by Marion Mille, who sings beautifully and is the embodiment of grace in her dancing. Her transition through the awakening of love from girlhood into woman, in the second act, is a splendid piece of acting. Opposite Miss Mills plays Willard Curtis, who handles his part acceptably. The comedy parts are well cared for by Edith Sinclair and Edward Favor. Others entitled to credit in making the piece a success are Joe Smith, Maria, as Philippe, the janitor; Alice Hills as Pepita, a Spanish maiden, in which part she makes good use of her opportunity to please in several thrilling dances and song numbers, and Mita Davis, as Lulu, who poses as the real Madame Sherry throughout the play.

"Every Little Movement" is easily the big song hit of the show and is one of the catchiest airs sung in Marquette in many a day. Other numbers that were especially well received last night were "The Birth of the Butterfly," "The Birth of Passion," "The Dance of Danger" and "We Are Only Poor Weak Mortals."

### MAPLE SYRUP AND SUGAR.
