Captain Martin M. Foley, village su perintendent of public works and captain of the Houghton Light Infantry. fell from a ladder in the armory Saturday morning and sustained a bad fracture of his left leg above the knee Captain Foley lay on the floor for two hours before he was discovered.

Receiving notice of the impending annual inspection of the miltary company by Colonel McCaughna of Owosso, regimental commander, Captain Foley went to the armory to inspect the company's property to reassure himself regarding it. In carrying on his inspection and Hubbel combe climbed a step ladder to count the is the summary: and he was rendered unconscious.

Captain Foley found on recovering consciousness that his leg was badly broken and he was helpless. His left wrist also was badly sprained. He had no choice but to await the arrival at the armory of some member of the company. He fell about 10 o'clock and it

GUARD FOR CHILDREN'S EYESIGHT.

"Force the children to take a back seat

at the moving picture show," is the advice of an English authority, who says that no child should be allowed to sit nearer than thirty feet away from the curtain. "Children as a rule like to crowd down to the front of the show, and the parent sees no cause for objection. But parents are marking the ill effects of the flickering shadow pictures ignorant of the fact that the nearer the child is to the front the worse the effect upon the immature eye. As many parents accompany their children to these shows let them force the children to take back seats, thirty or forty feet back if possible. It would be even a better idea if the management of these shows would prescribe a line be-

lowed to sit. For a nation of defective eyes may be expected if something isn't done along this line of reform." A touch of rheumatism, or a twinge of neuralgia, whatever the trouble is. So far as the Oil company itself is concerned, the ruling could scarcely have been more drastic, for it leaves the corporation no choice but to dissolve and abandon its present combination method of doing business. This will involve the distribution of the corporation's assets of all kinds among its stockholders and the re-establishment of what are at present subsidiary companies on a practical working basis as independent concerns. working basis as independent concerns. ## NO MEN IDLE HERE.

Additional Hands Being Put On At Mines Take Up Superfluous Labor.

The announcement in Saturday's issue of The Mining Journal that the Breitung 150 men was received with much satisfaction by the business men of the city. as it was feared for a few days that there would be a curtailment in the forces at some of the properties, because of the heavy stocks of ore on hand. With the Cleveland-Cliffs Iron com pany resuming operations at the Jack son property, with a force of some lifty bands, it will be necessary to give employment of a number of outside men in

The Breitung company has disposed of considerable tomage of ore since the 15th, of March. A large contract was entered into with furnace interests shortly before the first of April, when 100 additional men were put to work. The recent contracts closed by the management insure steady employment for the present forces for a number of plastered. months and an effort will be made to keep the crews infact throughout the of year.
