

Big Flood Is Washing a Town Off the Map

Black River Falls, Wis., Is Already Largely Wiped Out and in All Probability Will Be Wholly Obliterated.

PEOPLE FLEE TO PLACES OF SAFETY AND ONLY TWO PERSONS ARE MISSING

Water Impounded by Power Company Cuts Through Embankment and Sweeps Down Valley in Tremendous Volume--Mighty Current Is Resistless and One After Another Buildings Are Undermined and Crumble to Pieces--A Similar Fate Threatens Other Villages in the Path of the Deluge--Surrounding Farming District Is Over-Run and Apparently It Has Sustained Extensive Damage.

La Crosse, Wis., Oct. 6.—Half of the business portion of Black River Falls, a thriving little village of two thousand people, was swept away by a flood this afternoon when the waters of Black River, swollen by recent rains, washed through the embankments of the La Crosse Water Power company's dams at Hatfield. Part of the residence district also was destroyed and townspeople who have taken refuge on the high lands say the village will be washed off the map.

At 7 o'clock tonight between twenty-five and thirty stores, comprising all the business establishments on both sides of two streets, had been destroyed, together with an equal number of residences. At that hour the water was still rising and it was feared the town was doomed.

Citizens Scatter to Safety. It is not certain that any lives have been lost. The citizens scattered to places of safety. A canvass is being made to determine how many, if any, are missing. Thus far two persons have not been accounted for.

Dams in Good Condition. "The Hatfield dams are in good condition. At the west end there is a concrete wall and the water started the earth bank there, pouring over that corner."

Flood Follows Week of Rain. The disaster was caused by the sudden rise of the Black River behind the two dams of the LaCrosse Water Power company, following rains which lasted almost a week. The dams withstood the pressure, but in each case the river washed around the side, taking out a big slice of the river bank, and the flood came down upon the country below in almost as great volume as though the dams had been swept away.

Buildings Destroyed at Wausau. Wausau, Wis., Oct. 6.—With the Wisconsin river seven feet above the normal and continuing to rise three inches an hour, the flood situation here has become alarming. Railroad tracks are inundated and buildings on the river banks have been swept away. Residents of Schofield, three miles west of here, are deserting their homes.

Farming District Inundated. Besides the damage at Black River Falls, a great tract of surrounding country was over-run. Efforts were made to send warning to farmers, but the telephone wires went down and the fate of many settlers is the cause of some apprehension.

So Line Trains Marooned. Chippewa Falls, Wis., Oct. 6.—Damage amounting to thousands of dollars has resulted from the overflow of the Upper Chippewa river, which went out of its banks today. The Soo Line trains will be unable to reach this city for several days, because of the washout. Almost the entire stretch of new line built by the road between here and Minneapolis has been ruined. Trains on the Soo Line leaving the Twin Cities last night are marooned at Downing.

Story of Eye-Witness. "Black River Falls is doomed; the town will be wiped off the map," was the comment of W. W. Holcomb, manager of the Standard Oil company at La Crosse, who returned to the city tonight from the threatened town.

MONSTER BANQUET IN HONOR OF THE PRESIDENT PLANNED AT MILWAUKEE. Milwaukee, Oct. 6.—"The luncheon to be given to President William H. Taft at the Auditorium on Oct. 27 will be a notable event," said General Otto H. Falk yesterday.

When I left there at 4 o'clock this afternoon," continued Mr. Holcomb, "the main portion of the place was under water and the flood was racing down Water street apparently at the rate of twenty miles an hour. Earth disappeared before it as though it were only snow."

Will Do All He Can to Have Solved the Perplexing Public Lands Question. Boise, Idaho, Oct. 6.—Former Governor Brady of Idaho today promised President Taft to bring thirteen western governors to Washington next winter to help him thresh out the question of the public domain.

It would seem past belief, but I saw a big stone building on a hill one hundred feet from the water crumble like an egg shell and disappear completely along with the hill that supported it. The water had undermined the hill and carried everything away. There wasn't a piece of the building a foot square in sight a moment afterward.

FOUND PEARL IN TOOTH. Ruskia Antilles, an Italian laborer employed at the Wigan reservoir at Thomaston, Conn., is \$100 richer as the result of a visit to a dentist at that place.

When the water appeared, the fire-escape seats and galleries will be occupied. About three thousand five hundred persons will be admitted. Immediately after the luncheon President Taft

will address this vast audience on one of the great economic problems of the day. "A large number of reservations have already been made. Individual plants have made as high as fifty reservations for their representatives. The price per plate is \$2. No formal invitations will be issued."

The Weather

Washington, Oct. 6.—The following is the weather bureau's forecast for Upper Michigan. Generally fair, Saturday and Sunday; slightly warmer, Sunday; moderate north winds, becoming variable.

STATE AUTHORITIES FAIL TO LOCATE A HAVEN FOR CALUMET'S ALLEGED LEPER

Saginaw, Mich., Oct. 6.—Marilis Jensen of Calumet, Mich., the state's only leper, will probably remain a charge of Houghton county, for the efforts of the state officials to have him sent to a leper colony have failed. There is a possibility, however, that he may be taken to the university hospital at Ann Arbor. For some time citizens of Calumet and other upper peninsula cities have demanded that the unfortunate man be transported elsewhere. It has been a number of years since a similar case was discovered in Michigan.

TUG SOUTH SHORE, REPORTED FOUNDERED, SAFE AT GRAND MARAIS.

Sault Ste. Marie, Mich., Oct. 6.—A telegram was received tonight from Grand Marais, Mich., by R. V. Endress, son of the owner of the tug South Shore, that the tug and crew, reported lost off Whitefish point in Wednesday's gale, were safe in the harbor at Grand Marais. No further details could be secured tonight.

ZOE VARNEY-WEBSTER PROCURES A DIVORCE.

Cedar Rapids, Ia., Oct. 6.—Mrs. Zoe Varney-Webster, second wife of Dr. Harry E. Webster, the confessed slayer of his third wife, was granted a divorce here this afternoon.

LITTLE SHOP WORK ON ILLINOIS CENTRAL

Strike Breakers Quit Their Posts Almost as Fast as Company Installs Them.

Chicago, Oct. 6.—The end of the first week's strike of shomen on the Harriman lines sees strike breakers rapidly filling the places of strikers in the various cities and equally as swift in deserting their posts. This is the situation tonight, particularly in the South, where most of the violence has occurred.

Excitement at New Orleans. Bloodshed was narrowly averted at New Orleans today when an angry mob of strikers and sympathizers stormed an old school building where one hundred strike breakers were quartered.

Mr. Sackett said Levi H. Bancroft, a candidate for the assembly during the campaign, was given \$200 for expenses, but it was not known what he did with the money. The same, he said, was true of L. H. Stevens, of Lancaster, who received \$700.

R. J. Shields, who was mentioned by Senator Stephens in the investigation of Senator William Lorimer, again figured in the hearing when Mr. Sackett said the records showed that Shields had received \$200 from Mr. Stephens, but Sackett did not know what for.

Harry J. Brown, a son-in-law of Senator Stephens and a member of the Stephens National bank at Marinette, testified to having paid \$700 to J. A. VanCleve.

POSTMASTER GENERAL WANTS \$50,000 TO EXPERIMENT WITH AERIAL MAIL TRANSPORTATION.

Washington, Oct. 6.—Provision for the establishment of a post office and the transportation of mail by airplane has been made by Postmaster General Hitchcock in his annual estimates of the post office department's expenditures, submitted to the treasury department today.

Mr. Hitchcock asks \$289,038,460, or \$2,585,740 below year appropriations, the current fiscal year, a change of less than 1 per cent., the smallest on record. This includes \$50,000 to cover the preliminary expenses on rural mail by airplane and an equal appropriation to start mail service by airplane.

Mr. Hitchcock also asks for \$50,000 to cover experiments in the transportation of mail by aeroplane.

Mr. McGann declares that much of the stray current can be diverted to less destructive channels, and that the elevated and surface transportation companies, the chief offenders, will be immediately notified to make changes necessary to bring this about.

The summarized conclusions of the report are: "1. That the underground water mains have been seriously damaged in certain localities by electrolysis. "2. That some of the subsurface metallic structures, including water and gas mains, cable sheaths, structural steel work of bridges and buildings, are being damaged by electrolysis at the present time. "3. That most of the damaged conditions are caused by the stray, elevated and Illinois Tunnel companies' return currents, which leak or stray from the rails or return feeders to these metallic structures. "4. In some of the pipes tested there is considerable current," continues the report, referring to the city water mains. "An examination and test of a thirty-six inch pipe in Wabash avenue, showed it badly pitted and damaged by electrolysis. The surface of this pipe in places has been changed from gray cast iron to a soft composition. "There is only one outcome for pipes in this condition. When the maximum strength has been reduced below the strength for which they are designed or used, they will break when subjected to the strains which occur during water hammer periods. Photographs show water mains which have burst recently, due to damage by electrolysis."

Tripoli Gives New Government

Rear Admiral Borea d'Olmo Is Appointed Administrator and the City Is Formally Occupied in a Military Sense--Arab Chiefs Make Submission.

Tripoli, Oct. 6.—The Italians have established a new government for Tripoli. Rear Admiral Borea d'Olmo has been appointed governor. Captain Cogni was made commander of the forces disembarked by the Italian fleet.

Europeans Pass Through the Bombardment Unscathed and No Property Owned by Them Is Damaged--Turkey Appeals to the World for Intervention.

Syracuse, Italy, Oct. 6.—The Italian battleship San Marco arrived here today from Tripoli. The officers of the battleship described the bombardment of Tripoli as having been arranged with great care, in order to spare the enemy as much as possible.

The Turkish soldiers gave proof of extraordinary courage. Frequently they exposed themselves unnecessarily. It appears from statements made by prisoners taken that the Turks did not at first realize their inferiority. The government at Constantinople and the local authorities had insisted in their conviction that Italy was an insignificant nation and weaker than Greece.

When they saw the imposing fleet assembled off the coast they were assured by their officers that the vessels were not Italian, but British warships, which had been ordered to Tripoli to prevent its occupancy by the Italians. Notwithstanding this deception and the subsequent sequel, the Turkish gunners responded bravely to the attack and made a good fight, considering the equipment at their disposal.

Turkey Protests to the World. Constantinople, Oct. 6.—At a meeting today at the mosque of St. Sophia, a telegram of protest against Italy's declaration of war on Turkey was formulated and sent to the parliaments of the world, peace and arbitration societies, and to the various international organizations and the Hague tribunal. The telegram says the occupation of Tripoli is unjustified. It asks whether Western civilization has considered the effects upon the Eastern mind of Italy's brigandage.

Examination for Rangers. Assistants to Foresters Needed at \$1,100 Entrance Salaries.

Washington, Oct. 5.—Oct. 23-24 the United States civil service commission will hold an examination at the national forest headquarters for the position of assistant forest rangers. The examination will be held in Arkansas, Kansas, Oklahoma and other states that have national forest headquarters. Assistant forest rangers are paid an entrance salary of \$1,100 per annum.

The law requires that when practicable forest rangers must be qualified citizens of the state or territory in which the national forest where they expect employment is situated. The list of local eligibles must be exhausted before eligibles residing in other states can be appointed.

The fore the chance is small for citizens of outside states who go to national forest states and take the examination.

FOUND PEARL IN TOOTH. Ruskia Antilles, an Italian laborer employed at the Wigan reservoir at Thomaston, Conn., is \$100 richer as the result of a visit to a dentist at that place.

The dentist's examination of a tooth which had been troubling Antilles showed that a gizzardized pink pearl was lodged in a cavity in the side of the tooth. It was removed in good condition and appraised at \$100. Antilles remembered getting something in the cavity when eating oysters a few weeks ago at a shore resort.

GRAVITATION STILL UNFOUNDED. Nearly two hundred and fifty years ago one of the greatest intellects connected with science turned his attention to gravitation, says Wilson C. Morris in the Popular Science Monthly.

In that two hundred and fifty years physical science has made rapid advances. "A boy who has completed a year's work in elementary physics could entertain New-

Merger Plan Is Abandoned by the C. & H.

Big Copper Company Gives Up the Project of Consolidating With Its So-Called Subsidiaries--This the Formal Announcement of the Board of Directors.

Boston Stock Quotations Go Up With a Rush Late in the Day's Session, When the Decision Comes Known, and the Closing Prices Are Highest in Weeks.

The abandonment of the proposed consolidation of the Calumet & Hecla Mining company with nine subsidiary companies, all in Michigan, was officially announced at Boston before the close of the stock market yesterday.

The reasons assigned for the action by the Calumet & Hecla directors was the uncertainty as to when there would be handed down the final decisions in the various suits pending in respect to the merger.

Directors Issue a Statement. The directors of the Calumet & Hecla—Quincy A. Shaw, Rudolph L. Agassiz, Francis W. Hunnewell, Francis L. Higginson and James MacNaughton—in making known the abandonment, stated that the reason was the uncertainty as to when the final decisions in the various suits now pending would be rendered and also that the officials would be obliged to sacrifice much time in case the litigation was continued.

The companies it was proposed to consolidate with the Calumet & Hecla were the Seneca, Almek, Allouez, Osceola, Centennial, Hancock, Laurium, La Salle and Superior. All but the Laurium had voted for the merger. The directors, in their statement, said that at the Laurium meeting Nov. 16 they would vote the Calumet holdings against the merger.

In a circular to stockholders, the directors say the valuation of the property of the parent company is held to be conservative and fully borne out by the actual conditions, and the stockholders are assured that there is no cause for uneasiness.

Consolidation Fought Hard. The merger plan was announced Jan. 2, 1911, proposing to form a new company under the Michigan laws, to have the same title and a capital of \$10,000,000. Opposition developed from the first and litigation of questions of permanent injunctions still await disposition.

The plan was not received with favor on the stock exchange, and although a committee reported in favor, with qualifications, Calumet & Hecla dropped from 350 to 300, while there were declines in the stocks of all the smaller companies.

With the announcement of the abandonment of the merger today, Calumet rose to 390 1/2 and Osceola advanced ten points to 93. The entire copper list followed.

WALL STREET MARKET WEAK AND LOWER AGAIN; TAFT'S ATTITUDE FEARED.

New York, Oct. 6.—The reactionary tendency which has appeared in the stock market this week received added impetus today from President Taft's utterances in Idaho concerning the policy of the administration towards corporations.

The market closed the day United States Steel ended the day nearly two points below the previous day's close. Reading, which is prominent in the government's proceedings against the anthracite carriers, lost as much as other stocks lessor amounts. The trading was slow throughout the day.

Bradstreet's bank clearings report for the week ending Oct. 5 shows an aggregate of \$3,438,121,000, as against \$3,241,477,000 in the corresponding week last year.

IRON AND COAL INTERESTS IN ALABAMA AT WORK ON A HUGE MERGER PROJECT.

Baltimore, Md., Oct. 6.—The Manufacturers Record says that a \$30,000,000 consolidation of iron and steel and coal interests in Alabama, "of great magnitude and far-reaching importance," bringing into the development of that district great financial forces not heretofore identified with it, is now rapidly materializing through plans which have been worked out for the final completion of the merger of the Alabama Consolidated Coal & Iron company and the Southern Iron & Steel company.

AIRSHIP RUN BY FAUCET. Washington, Oct. 6.—An airship capable of speeding from one end of the hour to 100 miles was promised to Postmaster General Hitchcock in a letter received from H. P. Booge of Topka, who enclosed a diagram of his scheme.

"The power used is the air we breathe," wrote Booge. "Turn the faucet and the power is on; press the button and away you go. My airship will never be out of power or fuel as long as the air lasts. It will carry 100 passengers seated in arm chairs inside the ship, so they can look out of the windows."

Ex-King Is in England. London, Oct. 6.—The report from Paris that ex-King Manuel is on his way presumably to Portugal, is without foundation. Manuel is at Richmond, with the queen mother.

Mrs. Elizabeth Lowe Watson owns and manages her own ranch near Los Gatos, Cal. She is well known and a successful rancher. She has been working for suffrage for more than fifty years and is now the president of the California Woman Suffrage Association, which has enrolled 100,000 women to work for the passage of the suffrage bill at the special election to be held next month.

BALLOON RACE IS IN DOUBT. Kansas City, Mo., Oct. 6.—Two balloons—the Condor, flying the flag of France, and the Berlin II, carrying the national colors of Germany—are still in the air tonight, fighting for the honor of winning the international balloon race and thereby wresting the James Gordon Bennett cup from America.

America pins her hope of winning to the Buckeye, piloted by Lieutenant Frank P. Lahn, who has flown farther than any other bag entered in the international race that has been reported. The Buckeye came down near Sparta, Wis., 370 miles from Kansas City, this morning. To win, the foreign aeronauts yet in the air must exceed this mark.

The Million Population Club, the hope of the American aeronauts, landed at 5 o'clock this evening at Mason City, Ia., having covered but 315 miles. The other balloons landed as follows:

America II; William F. Assmann, pilot—Landed near Emmettburg, Ia., at 1:30 a. m.; today; estimated distance, 200 miles.

Pennsylvania I; A. T. Atherholt, pilot—Landed near Buffalo Center, Ia., at 6:20 a. m.; estimated distance, 300 miles.

Topoka I; Frank M. Jacobs, pilot—Landed near Danvers, Minn., at 8:30 a. m.; estimated distance, 335 miles.

Berlin I; Leopold Vogt, pilot—Landed near Austin, Minn., at 10 a. m.; estimated distance, 345 miles.

Buckeye; Lieutenant Frank C. Lahn—Landed near La Crosse, Wis.; estimated distance, 370 miles.

Kansas City II; J. C. Hunnewell, pilot—Landed near Kennan, Wis., at 9:20 a. m.; estimated distance, 350 miles.

Aeronaut Has Thrilling Experience. Mason City, Ia., Oct. 6.—Captain John Berry, the veteran of many thrilling balloon flights, went through the worst experience of his career late today when he attempted to bring the balloon "Million Population Club" to the ground.

The balloon anchor struck a barn and tilted the basket. A. J. McCullough, aid to Captain Berry, was thrown out and Berry saved himself by clinging to a rope as the big gas bag, relieved of McCullough's weight, shot upward.

Dangling by the rope, Berry was carried several hundred feet into the air and an hour later came safely to earth several miles south of the city, when the balloon settled. Berry did not try to anchor it and the balloon sailed away to the southwest until lost in the darkness.

Despite the rough experience neither man was seriously hurt. The barn where the landing was first attempted was unroofed by the balloon anchor.

FIGHTING IN PORTUGAL IS REPORTED BRISK. Tide Is Against the Royalist Forces, According to Claims of the Government.

Lisbon, Portugal, Oct. 6.—A band of royalists has been defeated in a fight with republican troops near Braganza, in the northeastern province of Portugal. It is rumored that a royalist column fourteen miles west of Braganza is surrounded by republicans.

A column of seven hundred monarchists entered Portugal Thursday morning from Spain and occupied several towns near Braganza. Several fights, in addition to that near Braganza, have taken place, but according to official reports there were few casualties.

The government has eight thousand troops near the Spanish frontier, which is considered an ample number to cope with the situation.

Ex-King Is in England. London, Oct. 6.—The report from Paris that ex-King Manuel is on his way presumably to Portugal, is without foundation. Manuel is at Richmond, with the queen mother.

Mrs. Elizabeth Lowe Watson owns and manages her own ranch near Los Gatos, Cal. She is well known and a successful rancher. She has been working for suffrage for more than fifty years and is now the president of the California Woman Suffrage Association, which has enrolled 100,000 women to work for the passage of the suffrage bill at the special election to be held next month.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per year, by mail, \$6.00. For month, by carrier, \$0.60.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

MARQUETTE, MICH., OCT. 7.

BEING KEPT BUSY.

President Taft is being kept busy avoiding the pitfalls that are being dug for him by friends who are possessed of more devotion than discretion and of other "friends" who deliberately try to turn his prestige to serve their own political advantage.

In Denver this week he had gently, but firmly, to show his lack of sympathy with the attempt of the Taft Republicans to make capital out of his visit against the initiative, referendum and recall. These reforms are urged by the Denver progressives, and the regulars, or Taft Republicans, saw a chance to hit at the progressives over the president's shoulder.

Out in Salt Lake City President Taft had to drop on Fred W. Young, president of the Young Men's Republican league of Utah, because he was tactless enough to make, in the course of his introductory remarks, a red hot, if brief, campaign speech, in which he waxed eloquent in predicting the re-election of President Taft, and the tenacity by the Democrats of their accustomed place.

Most of the trouble of this kind arises from the inability of the lesser figures whom official position gives a place in the president's retinue for the time being to resist the temptation of stepping through their paces before audiences the like of which they never have had an opportunity to address before and probably never will address again.

A PROPER ATTITUDE.

Two convicts, recently released on parole, have been ordered returned to prison by Governor Osborn because they have violated the conditions on which they were given freedom.

This conclusion is confirmed by actual experience in the administration of the parole law. It has been rarely indeed that a convict who once violated a parole made good when he was released provisionally a second time.

I am handling these cases in the spirit of the new penology. If

a convict shows a desire to become a good citizen and his prison record indicates he is to be trusted, I believe he should have his chance. That is the proper spirit for them to show. They are entitled to an opportunity, and it relieves the state of its maintenance, which, however, is a minor matter, as the state is responsible for them. I believe in giving these men their freedom, under restrictions, however, which will aid them in keeping straight and once they have violated their parole, then I do not think they are entitled to a second parole. I am not issuing pardons, but I am releasing men under stringent conditions, which must be obeyed to the letter.

As a matter of fact, the administration of the parole law for several years past has been very favorable to the convicts. It has been the disposition of the board of pardons to give the convict the benefit of the doubt. If there was any reasonable promise that he would make good use of the clemency extended to him, he has been provisionally released. In many cases men have been given paroles regarding whom the board of pardons has been none too optimistic, but as there was a chance that they would make the most of their opportunity to prove themselves they were given that chance. No doubt clemency has, on occasions, been denied convicts who might better have been granted it than some of the men actually paroled. The board of pardons is not infallible. But it has been fair, and at times even indulgent, to the convicts. If there has been any mistake made in the administration of the law it has been on the side of too great clemency. If Governor Osborn makes any mistake it will be of the same nature.

Senator Smoot, of Utah, has formally proposed the president's secretary, Mr. Hillis, for the position of chairman of the Republican national committee, in which post he would have practical direction of the Republican campaign next year. This is a position for which Collector Loeb, of the port of New York, has been prominently mentioned. However, Mr. Loeb is not seeking the appointment, and would probably prefer not to have it urged on him, though if it was put up to him as his duty to accept the responsibilities of the position he might do so. Mr. Loeb is generally regarded as having exceptional qualifications for the chairmanship. Mr. Hillis has been mentioned as a possible chairman, in case the New York man was not drafted into service, and the general opinion seems to be that he is well equipped for the post.

In the death of William E. Curtis the newspaper correspondents lose one of their best known associates. As a traveling correspondent for the Chicago Record-Herald, he has had hundreds of thousands of readers and has been widely quoted. His journeyings for his paper have taken him to every corner of the world, and his letters, which no matter where he roamed appeared with practically unbroken regularity, were one of its leading features. Mr. Curtis was a man of broad information and of pleasing, direct style. He wrote without affectations and his principal aim was to pack his columns as full of fact and meat as possible. If the upper peninsula is a fair criterion, Mr. Curtis was held in higher esteem before he had written of the locality with which his admirers were themselves familiar, than after. His papers from this region were marked by much more accuracy than was pardonable, and caused many of his readers to revise their estimates of the value of his writings. His work was done in great haste, the material for several papers frequently being gathered in a few hours. Doubtless when he discussed historical themes in connection with his travels, on which his wide reading bore, he was more accurate than in writing purely local stories, such as he dated from the upper peninsula towns. Mr. Curtis' personality was a most genial and attractive one. All who knew him will feel a distinct sense of loss at the news of his death.

There has been in evidence of late much more activity than the public has been accustomed to look for in the deputy game wardens. In this county Deputy Rough and Mosher each have several recent arrests to their credit, and in other districts of the upper peninsula also the violators are being given a merry chase. Large sums in fines have been levied and collected within the past few weeks, and there can be no doubt that fear of arrest has been a deterrent that has kept at home many hunters who would otherwise have been in the woods. Just where the credit belongs for this condition The Mining Journal cannot say. Whether it is largely due to the game wardens themselves, or a spurring the force has received from the chief, W. R. Oates, does not appear, but the condition is a gratifying fact, and one for which the entire department deserves credit. It serves to show that the game wardens have not in the past been doing as good work as could reasonably have been expected, and establish

lishes a standard by which their activities can be judged in the future. Let them keep up the pace. There are still more violators in the woods than have even been caught.

Senator William Alden Smith believes that Champ Clark will be the Democratic nominee for president. Presumably he is of the opinion that the supporters of Governor Wilson and Governor Harmon will become deadlocked, and that the convention will finally be compelled to turn to a third man. Senator Smith will have no trouble finding numerous people who will entirely disagree with his forecast.

The Stephenson investigating committee evidently does not intend to repeat the mistake of the first Lorimer investigating committee and lay itself open to the charge of lack of diligence. There is a marked contrast between the way Chairman Heyburn is going at his work and the attitude of ex-Senator Burrows as head of the first Lorimer committee.

Now that the investigating committee has made plain its position that the burden of proof as to how Uncle Ike's \$107,000 was spent rests on the defendants, Messrs. Edmonds, Sackett, Van Cleave and Pulcher will have to stimulate their memories greatly, or Uncle Ike's case will likely get before the senate in most unpromising condition.

State Press

Governor Osborn says he will not raise a finger to secure a renomination, but that will not interfere with his stepping lively.—Flint Journal.

Although many people are starting to cross the country by aeroplane, the germ-laden sleeping cars are probably a healthier method of making the journey.—Lansing State Journal.

Aviator Jimmy Ward is going to take Alderman Conklin (Bathhouse John) up in an aeroplane, and Chicagoans are afraid nothing will happen to the machine.—Flint Journal.

Yes, we should say the nomination of Governor Osborn for the vice presidency would give the Republican ticket just about the requisite amount of progressiveness, balancing Mr. Taft's conservatism without being topheavy.—Saginaw News.

If President Taft isn't an authority on state fairs when he gets back to Washington it won't be because of lack of opportunity. Already he has attended the state fairs of New York, Michigan, Kansas and Missouri, and he is not yet half way across the continent.—Battle Creek Enquirer.

A Laugh or Two

Hubert Latham, the Antoinette flyer, was talking at a tea to a pretty California girl. "Mr. Latham," said the girl, as she took her nineteenth wafel-and-lettuce sandwich, "tell me, does flying require any particular application?" "Well, no, none in particular," Mr. Latham answered. "Arista or horse linn—ones as good as another."—San Francisco Chronicle.

Thoughtful.

"Don't rough it too much on your summer vacation," said Dr. Phineas O. Raycroft, of Des Moines. "See that you get plenty of baths and plenty of good food. Otherwise your vacation will be apt to do you harm. "Once thought of spending my mid-summer holidays in the Tennessee mountains. So I wrote to a mountaineer whose picturesque homestead had been highly recommended to me, and in the course of my letter I asked the man if there was a bath in his house. "If you want a bath, you had better take it before you come."—

Your Youthful Hopes.

William Dean Howells, the noted novelist, was being congratulated on the new edition of his works that is beginning to appear. "You should be very happy, sir," said the reporter, "over the success of your literary career." "But Mr. Howells, shaking his head, rejoined: "Our careers are never successful enough to make us happy. I am not achieved at seventy what he expects at twenty-one, you couldn't get out of doors."

Trade of the United States with its noncontiguous territories in the fiscal year which ended with June will exceed \$200,000,000, against less than \$100,000,000 in 1904. In this trade merchandise received in the United States slightly exceeds in value that sent to the territories in question, though shipments from the United States show the larger and more rapid growth. In 1903, the earliest year for which complete records are available, the shipments from the United States to the territories under discussion—Alaska, Porto Rico, Hawaii and the Philippines—aggregated \$36,000,000; in 1910, \$83,000,000, and in 1911 they seem likely to be \$96,000,000, a gain of \$60,000,000, or nearly 170 per cent. Inward shipments from the territories were \$50,000,000 in 1902, \$108,000,000 in 1910, and at the rate of \$10,000,000 in the ten months of 1911, a gain of \$48,000,000, or 80 per cent over 1902. The largest gain in outward trade with the noncontiguous territories was in shipments to Porto Rico.

A fleet of forty-two automobiles has been shipped to India from London to take part in the festivities in connection with the Delhi Durbar. All of them are handomely fitted and of British make, four of the number being intended for the king's personal use. Valued at \$125,000 with luxurious handcrafted woodwork and capable of seating six persons each, his majesty's special cars, all of twenty horsepower, are painted royal blue, with red lines, and upholstered in gray and blue. The other automobiles will be used by the viceroy and his suite, the government officials of India, and the governor of Bombay and his suite, and will be of different colors.

How is this? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all his transactions and financially able to carry out any obligation made by him in this connection. W. A. WALLING, KINMAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. The only reliable remedy for Catarrh is sold by all druggists. Price 75 cents per bottle. Sold by Dr. Hall's Family Pills for constipation.

without stumbling over Washingtons and Homers, Croesses and Michael Angolos, Henry Watt Reechers, John D. Rockefeller and Theodore Roosevelt. —New York Sun.

Well Enough Didn't Satisfy Him.

This is the sad story of one of the most thoroughbred sports known to the history of hazards. His name was Sullivan and he had blue eyes and red hair, with a brogue to match his coloring. John Hays Hammond, the mining engineer, met him in prison in South Africa at the time when Hammond and other prominent men were held as captives by the Boers in connection with the Jameson raid. The engineer and the Irishman became well acquainted. "Probably you wonder why I'm in here," said Sullivan one day, when the thermometer had gone as high as 115 in the shade. "Well, I'll tell you: I got into a little trouble, and I pleaded guilty to it. "Five years!" said the judge. "Your honor!" I cried out, "I'll throw my head and neck to you to see whether it shall be ten years or nothing. "And would you believe it, Mr. Hammond? That judge got mad and added on the five years, anyhow. And now I'm serving that extra five. What's the use of being a sport?"—Popular Magazine.

A Promising Pupil.

St. Thomas college at St. Paul, Minn., is one of the largest military schools in the United States. It is a Catholic institution and is the pride and hope of Archbishop Ireland. One of the pupils is a Filipino boy. One day not long ago the archbishop wished to speak to one of the professors and called the college on the telephone. "This is St. Thomas," replied the archbishop. "No; it's Pedro," replied the youth. "Is this St. Thomas college I am speaking to?" demanded the archbishop. "No; it is Pedro," the youth explained. The archbishop sighed and then slowly and distinctly said to the youth: "This is the archbishop. I wish to speak to Prof. Jamieson."

Here and There

The first statue of Abraham Lincoln erected in Europe is in the Calton cemetery at Edinburgh, Scotland. It was raised to perpetuate the memory of the Scottish-American soldier who was killed in the Civil war. The statue of Lincoln, mounted on the top of the pedestal, is a life-size bronze cast, and the figure on one of the ledges of the pedestal is a freed slave, poised as if to greet his liberator.—Popular Magazine.

To recall a judge because his decisions do not meet with popular approval is an insult to the dignity, the independence and the self-respect of our judiciary. Far less commendable would it be to recall an occasional corrupt or incompetent judge than one who would be the habitual slave of a capricious multitude, who always had his ear to the ground trying to find out the verdict of the people. The constitution of the United States is the paladium of our liberties and our landmark in social progress. It has weathered the storms of the century which is passed, and it should be trusted to weather centuries to come. What has been good enough for our fathers ought to be good enough for us. Every change, either in the political or religious world, is not a reformation.—Cardinal Gibbons.

Replicas in miniature of the breweries conducted by William Penn in Pennsylvania a few centuries ago, by Samuel Adams, of pre-revolutionary fame, as well as models of the breweries of the United States, and even decorations used by the prehistoric Egyptians, the first brewers, will be among some of the things shown at the International Hop and Cereal Exhibit, which will be held at the Chicago Columbian Exposition, Oct. 22. Biologists and chemists from many countries of Europe will take part in the discussions at the congress. James Wilson, secretary of agriculture, is honorary president of the congress.

KALAMAZOO—Falling to hear any word from his brother for more than thirty years, William H. Poland, of Grand Rapids, wrote to Chief of Police Allen of this city, asking the whereabouts of Alfred Poland, William Poland stated that he had recently heard that his brother was in Kalamazoo. The letter was shown to Alfred Poland, who was sentenced by Judge Knappen to spend from ten months to ten years in Jackson prison. The prisoner weepingly declared that the letter was from his brother. He had not written to in over a quarter of a century. "But to think he has located me just as I am to be taken to prison," sobbed the prisoner as he was taken back to his cell. William Poland in his letter stated that his letters to his brother here had always been returned by the postoffice as unclaimed.

JAMES C. DAHLMAN, "COWBOY" MAYOR OF OMAHA, "THROWS THE LARIAT." Mayor Jas. C. Dahlman started his career as a cowboy, and is at present mayor of Omaha, and has the following record: Sheriff of Dawes Co., Neb., three terms; mayor of Chadron, two terms; Democratic Nat'l Committeeman, eight years; mayor of Omaha, six years, and in 1910 candidate for governor of Nebraska. Writing to Foley & Co., Chicago, he says: "I have taken Foley Kidney Pills and they have given me a great deal of relief so I cheerfully recommend them to you." Yours truly, (Signed) JAMES C. DAHLMAN, The People's Drug Store.

If you have young children, you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by the People's Drug Store.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? For sale by the People's Drug Store.

Lower State Notes

LANSING—The report rendered at the annual stockholders' meeting of the Reo Motor company showed a surplus of \$250,000, with \$1,000,000 in cash on hand. The report also showed that the 1912 car on hand unsold. It is believed that the company probably will declare a stock dividend instead of cash this year.

LANSING—Banking Examiner Charles E. Toms, the oldest examiner in the state banking department in point of service, has tendered his resignation, to accept a position with the Detroit Trust company. Mr. Toms had been with the department about five years. Of the examiners who were connected with the department when Banking Commissioner Doyle was appointed the first of the year but five are still on the payroll.

DETROIT—R. C. Hupp has been sued by the Hupp Motor Car company in an attempt to restrain him from using that name in a new company he recently organized. The plaintiff claims that Hupp is the original company that Mr. Hupp organized, with a capital of \$25,000, and since the founder has left, he is organizing a new company bearing the Hupp name.

MUSKOGON—Pleading guilty to assaulting and robbing Miss Olive Moore, whom he had taken out for a pleasure drive, Albert Hoffman was sentenced to serve ninety days in the Detroit house of correction. Miss Moore claimed that while driving back from a roadhouse in Eggleston township, Hoffman attacked her, robbed her of \$16 and threw her out of the buggy. She walked back to the roadhouse and telephoned to the police who arrested Hoffman.

IONIA—The announcement that the Pere Marquette railroad has three thousand cars in need of repairs has caused Ionia citizens to renew their plans to donate additional land for yard and track purposes to the railroad. A fund of \$100,000 for this purpose already is in a local bank and T. B. Preston has been made its trustee. It is expected that a deal for land can be completed this week, when it will be handed over to the company with an agreement that it be used to enlarge the railroad shops and that a large force of men be added to the Pere Marquette force at Ionia.

JACKSON—Saying he would blow the lights out of anyone who dared to move, Peter Douglas of Sherwood, filled with bad whiskey and armed with a .28-calibre revolver, started the wits out of a crowd of passengers in the Michigan Central railroad. He flourished the pistol just after the train had pulled into the station. No one moved and before Douglas was finished talking about what he could do he was arrested and faced the serious charge of carrying concealed weapons.

IONIA—Work will be started this week on a new \$15,000 addition to the Ionia state asylum building, which addition, when completed, will make room for one hundred more patients, relieving the present congested condition of the institution. The hospital population now is 430. Removal and deaths during the last few weeks have made it possible to take in new inmates. The additional building will be constructed during the winter.

LANSING—In line with the federal regulations governing the militia medical departments, the state military board has decided to provide a field hospital corps and ambulance corps in place of the present medical corps detachments. The medical service men will be designated as sanitary troops. To complete the number of additional medical officers required under the reorganization, the following were appointed to rank as first lieutenants and surgeons: Howard M. Griggs, Grand Rapids; G. H. Townsend, Jackson; F. A. Roberts, Flint; A. E. Leason, Saginaw; M. A. Randall, Manistee. Dr. Graba is surgeon at the Michigan Soldiers' home in Grand Rapids.

KALAMAZOO—To decide whether Kalamazoo wants a revision of its charter for the purpose of establishing a commission form of government, an election will be held Nov. 5. Eight commissioners will be elected to revise the charter, which will again be submitted to a vote. Candidates for the charter commission will be nominated by political parties. Although it has been desired to eliminate politics entirely the new state law provides no way for the nomination of a charter commission except through political parties.

JAMES C. DAHLMAN, "COWBOY" MAYOR OF OMAHA, "THROWS THE LARIAT." Mayor Jas. C. Dahlman started his career as a cowboy, and is at present mayor of Omaha, and has the following record: Sheriff of Dawes Co., Neb., three terms; mayor of Chadron, two terms; Democratic Nat'l Committeeman, eight years; mayor of Omaha, six years, and in 1910 candidate for governor of Nebraska. Writing to Foley & Co., Chicago, he says: "I have taken Foley Kidney Pills and they have given me a great deal of relief so I cheerfully recommend them to you." Yours truly, (Signed) JAMES C. DAHLMAN, The People's Drug Store.

If you have young children, you have perhaps noticed that disorders of the stomach are their most common ailment. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take, and mild and gentle in effect. For sale by the People's Drug Store.

FEARFUL BURNING ITCH WAS CURED

By Cuticura Soap and Ointment. Another Man Had Itching on Scalp. Hair Fell Out, Leaving Bald Spots. Now Hair Has Grown, Thanks to Cuticura Soap and Ointment.

"I deem it my duty to tell about a cure that the Cuticura Soap and Ointment have made on myself. My trouble began in spots breaking out right in the edge of my hair on the forehead, and spread over the front part of the top of my head from ear to ear, and over my ears which caused a most fearful burning itch, or eczema. For three years I had this terrible breaking out on my forehead and scalp. I tried my family doctor and he failed to cure it. Then I tried the Cuticura Soap and Ointment and used them for two months with the result of a complete cure. Cuticura Soap and Ointment should have the credit due, and I have advised a lot of people to use them." (Signed) C. D. Thurginton, Creek, N. C., Jan. 25, 1911.

"I will say that I have been suffering with an itching on my scalp for the past few years. My hair fell out in spots all over my head. My scalp started to trouble me with sores, then the sores healed up, and crusts formed on the top. Then the hair fell out and left me three bald spots the shape of a half dollar. I went to more than one doctor, but could not get any relief, so I started to use the Cuticura Remedies. I tried one bar of Cuticura Soap and some Cuticura Ointment, and felt relieved right away. Now the bald spots have disappeared, and my hair has grown, thanks to the Cuticura Soap and Ointment. I highly recommend the Cuticura Remedies to all that are suffering with scalp troubles." (Signed) Samuel Stern, 236 Floyd St., Brooklyn, N. Y., Feb. 7, 1911.

Although Cuticura Soap and Ointment are sold everywhere, a liberal sample of each, with 32-page book on the skin, will be sent post-free, on application to Potter Drug & Chem. Corp., Dept. 9A, Boston, Mass.

COPPER

The New Edition of the COPPER HANDBOOK. Just published, is Volume X, for the years 1910-1911, and, required nearly eighteen months in preparation.

IT HAS 1902 PAGES

containing nearly one and a half million words, or about twice as much matter as the Bible. There are 25 chapters, and the book covers the

COPPER INDUSTRY OF THE WORLD

The book covers Copper History, Geology, Geography, Chemistry, Mining, Smelting, Refining, Leaching, Smelting, Refining, Uses, Substitutes, Impurities, Alloys, Deposits, by Districts, States, Countries and Continents; Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc.

8,130 MINES AND COMPANIES

These descriptions ranging from 2 or 3 lines, in the case of a dead company, in which case reference is made to a preceding edition giving a fuller description, up to 21 pages in the case of the Anaconda, which produces one-eighth of the copper supply of the world. The chapters giving mine descriptions, which lists the largest number of mines and companies ever given in any work of reference on mines or mining investments, has been FULLY REVISED.

The new edition of the Copper Handbook is a dozen books in one, covering all phases of the copper industry of the entire world. It is used as the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

by the managers of the mines that make ninety-eight per cent. of the world's output of copper, and is used in every civilized country. It is the book sent you, all approval is to be returned. Call on your agent or pay for it if it suits you. You afford not to see the book and judge for yourself of its value to you.

City Brevities

Today's weather: Generally fair. Yesterday's temperatures: Seven a. m., 42 degrees; noon, 42; 7 p. m., 45; highest, 45; lowest, 40.

J. T. Jones, of Iron Mountain, was in the city on business yesterday. J. H. LaRoche announces his grand fall opening of millinery and furs today. Mrs. E. J. Ellison and daughter, Miss Agnes, left last evening to make a short visit in Duluth.

C. D. Hanchette, of Hancock, spent yesterday in the city, and left last evening for Chicago.

F. A. Weeks picked a ripe wild strawberry on the railroad right-of-way a mile west of the city yesterday.

A. B. Eldredge, vice president and general counsel of the D. S. S. & A. railroad, has gone to Detroit on business.

Thomas V. Williams, son of Bishop Williams, has been appointed dean of the law department at Center college, Danville, Ky.

Mrs. E. C. Huling, who has been visiting at G. L. Burtis' home for six weeks, returned to her home in Evansville, Ill., last evening.

Announcement is made of a baseball game to be held Oct. 27 for the purpose of wiping out the deficit, which stands against the baseball association.

Mrs. M. P. Youngs and Miss Pyrie Smith went to Trout Lake yesterday, called there on account of the critical illness of their father and grandfather.

Mart Adson, general passenger agent of the South Shore, and Jack Rivers, chief clerk in the passenger department, were in the city this week on their way to Detroit.

Mr. and Mrs. Ed A. Merritt, of Cleveland, and Mrs. Will Huntington, of Elyria, O., spent Thursday and Friday with Mr. and Mrs. D. H. Merritt. They left for their homes last evening.

The auditing county officers' accounts and Morgan Heights sanitarian committees of the board of supervisors held meetings at the court house yesterday, in preparation for the annual meeting of the board on Monday.

Robert L. Somer, who returned a few days ago from a visit to his parents at Watertown, Wis., has received word of the death of his father, and will leave for Watertown again this morning.

Mr. and Mrs. John Bond, 210 West Prospect street, were given a surprise party by a number of their friends last evening. The event was in the nature of a farewell to Mr. and Mrs. Bond, having decided to remove to California, leaving the city next Tuesday.

Mrs. Erickson Passes Away—Mrs. Jacob Erickson, 312 Harrison street, died yesterday afternoon at the age of fifty-three after an illness of only two days. She is survived by a husband and four children, Anna, Hilda, Carl and Eric, all of whom are at home. Funeral arrangements have not been made.

Two Arrivals at Prison—The convict population at the Marquette prison was swelled by two yesterday. Sheriff John Greenfield and Deputy Wm. R. Bart, of Algoma county, brought in Fred Miller, who is under a life sentence for murder.

Sheriff Leo J. Remmele and Deputy Henry J. Boud were also in the city yesterday with John Messina, who has been convicted of assault with intent to murder, and is under sentence of from twenty to forty years.

Nedau Bound Over—William Nedau, the Ne-gaunee policeman who is charged with the murder of Matt Saarikoski, of that city, was arraigned before Justice Byrne yesterday, and upon waiving examination, was bound over to circuit court. No testimony was taken. With the consent of Assistant Prosecuting Attorney Kennedy, Nedau was admitted to bail in the sum of \$10,000 by Circuit Court Commissioner H. A. Clark, which was promptly furnished by six well-known Ne-gaunee businessmen.

Civil Service Examination—An examination will be held in this city Feb. 3, 1912, for first grade or clerical positions in the customs service, the positions of deputy collector at dock and storekeeper-gauger in the Internal Revenue service, and the position of office deputy marshal and other first grade and clerical positions as they may occur. An examination will also be held on the same date for the positions of messenger, watchman and skilled laborer and positions requiring similar qualifications. Application blanks and all information may be had from W. A. Jellison, local secretary, customs office, Marquette, Mich.

Merchants Made Kick—Several merchants made complaint to the city officers yesterday regarding the Reckmeyer fur sale in progress at the Marquette Millinery company. The merchants asserted that Reckmeyer should be compelled to pay a license before selling fur coats worn out for the sale of a man's arrest, but it had not been served up to last evening, as Marshal Manning had no evidence that sales had been made. City Attorney Brown states that if the sale is being conducted by Mr. Reckmeyer, he should pay a license, but that if he is simply acting as salesman for the Marquette Millinery company, his business is legitimate.

INSURE WITH PETER WHITE & CO. SUNDAY AT THE CHURCHES.

Methodist Church—Public worship at 10:30; sermon subject, "The Place of Religious Faith in Common Life." Sunday school at noon. Epworth league at 6:45 p. m. Evening worship at 7:30; sermon subject, "Some Conditions of Happiness in Home Life."

Presbyterian Church—Sunday school at 9:45, including Brotherhood Bible class and organized Bible class for women. Rally day will be observed, prizes will be given and a special contribution will be taken. Public worship at 11 o'clock; sermon theme, "Fading Leaves." Christian Endeavor at 6:30 p. m. Evening worship at 7:30; sermon subject, "Second Fiddles." Note the change of hour of morning worship and Sunday school.

First Baptist—Morning worship at 10:30 o'clock. At this service the pastor will begin a series of sermons "The History of American Christianity." Sunday school at 12 o'clock. Evening worship at 7:30 o'clock; pastor's theme, "The Standard of Human Success."

Christoforo Colombo, a cigar of quality, 10-3-47

TELLS HOW TO LIVE ONE HUNDRED YEARS

Exercise Daily, Eat Only When Hungry, and Use Will Power, Says Prof. Roche.

Professor J. B. Roche, who has been in the city for several weeks conducting a school of physical culture, will leave Sunday for Houghton, where he will instruct a class. Professor Roche came to Marquette highly endorsed by prominent men of the state and he will go away with the best wishes of all with whom he came in contact. A large number of local people have taken his instruction here, and several of them have made formal statements highly endorsing his methods, while all whom he has assisted to health and strength speak most highly of him.

Professor Roche declares that the human body was made to live 100 years, and there is no reason why any one should not round out a full century if he pays strict attention to a few simple rules of health.

"Your health and the health of your family are of vital importance to you and to your business," says Professor Roche. "The energy and enthusiasm which perfect health gives makes you able to plan and do 25 per cent. more work than proprietors and clerks who are handicapped by indigestion and other ills."

"Health means strength. It gives you a clear head and steady hand. You need both to get the utmost out of your business."

"Good health means increased ability to do things—to earn more money. To clearly understand the principles of health we may compare the human body, the most wonderful of engines, to a locomotive."

"A locomotive is tended by a competent engineer. He must understand its mechanism thoroughly. He must know how much coal the furnace needs, how much water the boiler needs."

"Now, suppose the engineer of a big locomotive should sit in his cab reading a book, paying absolutely no attention to the water gauge or steam gauge; if that engine started abroad, blowing off steam, the fireman hurling in more coal all the time, what would be the result? Either the fire would be smothered or the boiler would explode. You can put out a fire with too much coal."

"It is exactly the same with our bodies. Nature supplies us at the beginning with a perfect engine. The human engine is 45 per cent. more efficient than any mechanical device. But we handle it with such carelessness and with such lack of knowledge of its requirements, that it breaks down and is in need of repairs, often a locomotive."

"The trouble is not with the human engine. It is with ourselves. We are poor engineers. The locomotive and the human body are constantly wearing themselves out. The steam engine can stop for repairs at any time. It must make repairs, never running. If it stops, it dies. It is imperative, therefore, that we learn how to feed this engine, if we want it to wear long and give the best service."

"The human engine is built to work one hundred years. There is no reason why a man should not live that long if he will pay strict attention to a few simple rules of health."

"During the last six years researches have been made by the most learned men in the world, the men who write the books which doctors study. The purpose of these researches was to find out what was the matter with the human engine. Not only has the principal defect been discovered, but also the way to overcome it. Anybody can get his engine running properly without any great cost or trouble. First, physical exercise daily; second, eat only when hungry; third, use a little will power."

Not so much apparatus as will power is needed in order to gain beautiful bodies. Women lack persistence and if they do not see immediate results from their work are inclined to throw it over, after an inadequate trial, and go back to artificial means, not realizing that fifteen minutes daily exercise will overcome all defects in figure, develop the heart and lungs and bring brighter eyes and clearer complexions than all the balneation, arsenic and other cosmetics combined could enable them to simulate. The pale, anaemic girl, with cold hands and feet can be completely made over in six weeks, and if you could only persuade the woman inclined to be embonpoint she could keep her figure under perfect control."

"It is the duty of every woman to make as much as possible out of her physical gifts bestowed by nature. But she should also help nature along in her good work, and devote a few minutes daily to a systematic course of exercise. A perfect form, pure complexion and good health are every woman's birthright."

"It is certainly everyone's duty to be as beautiful as possible. See how much beauty is given to birds and flowers and other soulless things. Next to a sweet, womanly disposition, nothing adds so much to a woman's happiness, and the happiness of those around her, as a personal attractiveness. Nothing commands so much respect, from men as well as from women, as a beautiful form. And this you can gain and keep through the proper system of physical culture."

DOCTOR DAGNAULT NOW IN CHICAGO.

A few days ago we were favored with a communication from Dr. T. J. Dagnaault, nephew of Rev. P. S. Dagnaault, formerly of Peshtigo, but now in Green Bay, Wis. The doctor has had offices at 1409 La Salle avenue for the past two years. He informs us, that he decided to study medicine at the last visit he made here, six years ago; he set to work immediately and obtained his license. Now he tells us that he is so well pleased with his practice in Chicago, that he is permanently located there. We extend our hearty congratulations to the young doctor, who was so welcome here, a few years ago.

ALLEYS OPEN MONDAY

Bowling Season Is Scheduled to Start Early Next Week.

The Marquette bowling alleys will be opened to the public next Monday evening. This announcement was made yesterday by H. O. Bell, who has leased the alleys from the Marquette Bowling company, and will operate them on his own account this winter. During the past week, the hall on the third floor of the Bacon building, where the alleys are located, has been thoroughly cleaned, the alleys have been redressed and revarnished, and it is expected that a complete set of new pins will arrive before Monday night.

There seems to be more interest in bowling this fall than for several years at this early date, and indications are that the devotees of ten pins will put in a busy winter. As there will be no alleys at Ishpeming, and it is probable that a number of the up-the-road bowlers will come to Marquette occasionally, just to keep their hands in. One five-man team at Ishpeming has already issued an open challenge to any five Marquette bowlers.

An innovation is to be introduced by the management this year, which will make the cost of bowling less than formerly. The price of single games per man will be ten cents, as heretofore, but tickets, each good for one game, may be purchased at reduced rates, namely, six for a half dollar, thirteen for \$1 and seventy for \$5. It is expected that this system will result in many taking up the game who have refrained before, on account of the expense entailed.

300 CANAL PASSAGES.

ANOTHER BOAT COLLISION.

Steamer Codorus Sheers Into J. H. Wade in St. Clair Flats.

The steamer Codorus, of the Anchor line and the J. H. Wade, owned by W. C. Richardson & Co., Cleveland, were in collision just above southeast bend, St. Clair flats, about 1 o'clock Wednesday afternoon. The Wade, coming down with ore, was struck well aft on her port side, forward of her engine room. A number of her plates were sprung and finding the water was coming in more rapidly than her pumps could free her, Captain Willett ran her nose on the bank on the American side of the channel above Bedore's hotel. It was reported last night that her stern was on the bottom. The wrecker Favorite has gone to her assistance from Port Huron.

The Wade is a steel vessel of 1,863 gross tons, 236 feet long. The accident is attributed to a broken cable in the steering gear of the Codorus, which caused the Anchor liner to take a sudden sheer to port when about to pass the Wade. Temporary repairs were made while the Codorus lay near the scene of collision and she then turned back, arriving at Detroit at about 11 o'clock Wednesday night. It is expected she will resume her trip after her steering gear is mended.

Several plates on the bluff of her port bow are bent in her starboard bow was pressed out and a number of deck planks loosened. The impact of the collision was diminished by the fact that the Codorus had reversed her engine after her steering gear broke.

ELECTRIC ROAD MEN TO MEET NEXT WEEK

Three Thousand Expected to Attend Annual Convention at Atlantic City.

New York, Oct. 6.—The second week of October will be devoted by the American Electric Railway association to the annual convention at Atlantic City. The great iron pier is to serve for exhibition purposes. A more impressive display of inventions, as well as of apparatus which has already proved serviceable, will be made than ever before.

At least three thousand men will take part in this convention. The presidents and executive officers, as well as the heads of departments of the electric railways of the United States and of Canada, will be found in attendance. Arthur W. Brady of Indiana, president of the American Electric Railway association, has been for some days in this city preparing for the meeting. In his opinion it is the most important meeting of electric railway men ever held.

The American people are paying for urban and suburban transportation approximately \$500,000,000 a year. That is the yearly wealth upon a gross income basis which this modern development of electricity for city and country railway traffic has made possible. President Brady says, furthermore, that these electric railways are capitalized at \$4,000,000,000. The railroads are paying \$150,000,000 a year to 225,000 thousand employees. Electric railways of the

HUGHES HOME IS IN NEGRO BELT

Supreme Court Justice and Family Only White Persons in Block.

Washington, Oct. 5.—Justice Charles E. Hughes of the United States supreme court and his family will be the only white persons living in the block when they take possession of Mr. Hughes' new \$100,000 home which is to be finished within the next two weeks. The remainder of the persons in the block are negroes. The new house is at Sixteenth and V streets. Shortly after work was started on the Hughes home, which at that time was one of the quietest spots in the capital, all of the property on V street between Sixteenth and Seventeenth was sold to a speculator, who erected twenty "two-story" box houses. These houses did not appeal to white people and were offered to negroes.

HAULING BUFFALO BONES.

In the early days the principal occupation of the Harper county people was hauling buffalo bones to Wichita, a distance of sixty miles, explains the Kansas City Journal. Thirty hundred pounds could be gathered up in a day, with the whole family at work, and it would take two more days to get to Wichita and they could get from \$7 to \$70 for the load. Usually they had a load of lumber or merchandise to haul back and made a living in that way. Senator Hemmingway, of Indiana, was one of the bone haulers and lived in Harper County near Danville.

MEASLES GERM IS DISCOVERED.
Dr. J. F. Anderson Conducts Successful Experiments at Washington.

Boston, Mass., Oct. 6.—A series of persevering experiments conducted during the past year at the Hygienic laboratory in Washington by its director, Dr. John F. Anderson, and its assistant surgeon, Joseph Goldberger, with a view to discovering the specific bacillus of measles, has at last succeeded, and the inoculation of a monkey with the virus has produced all the symptoms noticeable in the human organism when attacked.

"In estimating the usefulness in hospital practice of the discovery," said Dr. Edward Hemphill Plax of the city hospital yesterday, "it must be remembered that the experimental period of the research is not ended by the mere discovery of the germ and its assignment to the class of 'protozoa.' But Dr. Anderson's success has rendered possible a further series of experiments that should have valuable and practical results, especially in determining the exact period at which infection is most virulent and its duration.

"It is known that the after effects of measles are often deplorable, and by its weakening effect upon the lungs it may even be the starting ground for consumption. Luckily the germ is one of the shortest lived known, a fact which helps to explain the difficulty Dr. Anderson has found in cultivating it.

"There is great need of a thoroughly equipped experimental laboratory in all

our big city hospitals. At present the comparative insufficiency of equipment and the pressure of routine work necessitates research being conducted away from the place where the greatest number of cases pass under the doctor's or surgeon's care, and much valuable data is undoubtedly lost thereby."

TROUBLESOME SYNONYMS.

The French Canadian always has trouble with the aspirate "th." At a debating club in the Province of Quebec, relates Success, members were required to draw a slip from a hat and debate upon the subject they received. A young countryman arose.

"I have drew the word bat." I must told you dere is de bat wot you play de baseball wit, de bat wot fly in de air at night and also de bat where you take de swim."

AVERTS AWFUL TRAGEDY.

Timely advice given Mrs. C. Willoughby, of Marengo, Wis. (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c, and \$1.00. Trial bottle free. Guaranteed by The Stafford Drug Co.

Ishpeming Department

BARTENDER ROBS EMPLOYER OF \$340

Mikko Majjala Leaves Suddenly for Finland With the Loot, It Is Alleged.

August Algren, who conducts the saloon in the Backus building, corner First and Pearl streets, was relieved of \$340 yesterday morning and Mikko Majjala, one of his bartenders, is suspected of having the loot. Algren has been in the woods for several days and is still there, but the shortage was discovered by his other bartender, Antti Ekola, who came down to work yesterday noon to find the saloon closed.

While Mr. Algren has been in the woods, Majjala has opened the saloon in the morning and Ekola has remained until closing time. When Ekola closed up at 11 o'clock Thursday night, there was \$340 in the safe, and every cent of this was gone when he came away to work yesterday noon. Majjala was missing and it was learned he had left the city yesterday morning at 4 o'clock on the South Shore train. He also ascertained that he purchased a ticket for New York city and it is assumed he is on his way to Finland.

Ekola immediately had a warrant sworn out for the arrest of Majjala and Marshal Trevarrow wired ahead of the train a description of the fugitive, instructing that he be arrested and held a prisoner.

Majjala is the bartender who worked in Victor Polomakki's saloon, on Pearl street, some three or four weeks ago, at the time the proprietor was robbed of \$65. Polomakki was in the woods and Majjala reported the robbery to the police officers. He tried to throw suspicion on the woman living over the saloon, but the officers did not think that she was guilty. When Polomakki returned he discharged Majjala, as he felt satisfied he had stolen his money. Shortly afterward Algren hired him.

A letter was received here this week from the copper country, asking what name he was going under here. It seems that he used some other name in the copper country and it is suspected that he committed some crime there before coming to Ishpeming.

WON STATE BANNER.

Escanaba Branch of American Yeomen Rewarded for Good Work.

A. B. Dupois, manager of the Brotherhood of American Yeomen in the upper peninsula, has been informed that the banner to be awarded to the homestead having the largest number of initiations in three months, ending Oct. 1, has been given to the Escanaba homestead.

The banner is valued at \$50, and was competed for by all of the homesteads in Mr. Dupois territory, which comprises the upper peninsula and the northern part of Wisconsin.

WESSINGER RESIGNS.

Chief Engineer of Oliver Company to Devote Time to Personal Interests.

Henry J. Wessinger, who for the past ten years has held the position of chief engineer of the Oliver Iron Mining company, and who during that period has been a frequent visitor to this city, has resigned, and will hereafter devote his time to the care of his private interests. Mr. Wessinger has been chief engineer of the Oliver company since it was first organized, and his retirement will be greatly regretted, as he was very popular with his associates. Among his interests in Duluth is the Imperial Iron Works of West Duluth, of which concern he is the principal owner.

Mr. Wessinger has been succeeded as chief engineer by Spencer Ramsey, who for the past four years has been the company's engineer of construction. Mr. Ramsey is a graduate of the engineering department of the University of Wisconsin, having received his degree in 1904. After leaving college he took a position with the E. P. Allis company, of Milwaukee. He remained with that company for three years, until he became identified with the Oliver company at Ironwood.

For today only, home dressed spring chicken, 14 cents per pound. Also, prime beef roast, 14 cents. J. J. LEFFLER. 10-7-1t.

BRIGHT OUTLOOK FOR THE SKI SPORT

Secretary of National Association Predicts Much Activity the Coming Winter.

A press dispatch from Ashland, Wis., states that Axel Holter, formerly of this city, who is secretary of the National Ski association, predicts much activity in skiing the coming winter. Mr. Holter says that more interest is being shown than in any previous year.

The eighth annual National ski tournament will be held in Chicago and the features will be advertised as they never have before.

Ironwood, Virginia and Duluth will be in the race, when the national convention is held, for the honor of having the following year's national tournament. Virginia is to erect a huge steel scaffold for a local tournament and will guarantee to the national convention proper equipment should Virginia be selected for the next annual tournament. The Ironwood club is making a number of improvements on their hill, and they plan on it surpassing any other. The fact that last year a record of 152 feet was made from the Ironwood hill, this being within two feet of the world's record, shows that the hill in that city is an unusually fine one.

The national secretary is getting the annual book of the association ready for the printers, and it is going to be an interesting volume of seventy-five pages, with many illustrations.

For today only, home dressed spring chicken, 14 cents per pound. Also, prime beef roast, 14 cents. J. J. LEFFLER. 10-7-1t.

WILL SHOW WRESTLING PICTURES.

Films of Gutch-Hackenschmidt Match Will be Presented at Opera House.

Moving pictures of the Gutch-Hackenschmidt world's championship catch-as-catch-can wrestling match will be shown at Ishpeming theater at an early date. It is said that the pictures reproduce the match to fine advantage. Many interesting pictures of the preliminaries were secured, and the program runs an hour and one-half or more.

Pilakoff May Wrestle Here.

An effort is being made to have Fred Pilakoff, "the Finnish Lion," meet some noted wrestler in this city within two or three weeks. Negotiations are pending for a match between Pilakoff and "Kid" Cutler. Pilakoff demonstrated his ability as a catch-as-catch-can wrestler recently when he defeated Yankee Rogers in two out of three falls, in Duluth. He took the first fall in twenty-four minutes, lost the second in fifteen minutes, and won the third in a little over three minutes.

The Duluth papers expressed the opinion that Pilakoff, because of his great strength and quickness, will some day be the champion of the world. Pilakoff is under twenty-eight years of age and he has been wrestling for a number of years.

Of Pilakoff's wrestling with Yankee Rogers, the Duluth Evening Herald said in part:

"A veteran at the catch-as-catch-can style, Rogers showed more cleverness than the giant opposing him. But there where the advantage of the Duluth wrestler ended, Pilakoff showed strength that was nothing less than marvelous and time and time again broke holds and simply shook himself free from the grasp of his tall and raw boned opponent."

Arrangements have been completed for a match between Pilakoff and Carl Mattson, of Minneapolis, at Clouet, Minn. Outside of Ordelemann, Mattson is conceded to be the best wrestler in Minnesota.

PRESENTED WITH FOBS.

Henry Olmstead, the former Escanaba pitcher, and the other members of the Denver team, were this week presented with handsome gold fobs, with a diamond setting, as a reward for winning the championship of the Western league this season. The fobs were presented to the players by President Taft on Thursday, in behalf of the baseball fans of Denver. Besides presenting the players with the fobs, Mr. Taft also presented President James Maxwell, of the Denver team, with a handsome loving cup and Manager John Hendricks was presented with a touring car.

Champion

Miss Theresa Rohl, of Centralia, Ill., is visiting with C. H. Rohl and family. Mr. and Mrs. M. Donovan, of Ishpeming, visited over Sunday with Champion relatives.

Mrs. John Fitzgerald, of Ironwood, visited Sunday at the home of Miss Margaret Cronin.

J. F. Collins, wife and daughter, Mayme, who have been visiting with Champion relatives for the past three weeks, left Tuesday for their home in Butte, Mont.

Miss Eva Marchand returned Monday, after a few days' visit with relatives in Amasa.

Miss Eva Bellmer went to Ishpeming Thursday to attend the party given by the Knights of Columbus.

Miss Minnie Coron attended the Knights of Pythias party at Ishpeming last evening.

Mrs. A. Carron has sold the lunch counter in the St. Paul depot to Mrs. J. Coroh. The Misses Eva and May Dishno have taken charge of the counter for Mrs. Coroh.

T. J. Dundon, of Ishpeming, was a business visitor in Champion on Thursday.

Charles Simmons spent Thursday in Ishpeming on business.

William Wejander, of Ishpeming, spent Wednesday in Beason on business for the Oliver Iron Mining company.

A number of Champion and Beason young folks attended the dance given by the Bungalow club at its bungalow on Stensrud's point, last evening.

Postmaster G. J. Murray, of Michigan, was a business visitor in Champion Thursday.

The employees of the Champion mine will be paid a week from next Tuesday, the 17th.

B. J. Goodman, who has conducted logging operations north of Clowery for several years, has a few men at work

preparing for the opening of the coming season. From forty to fifty men will be employed during the winter. Mr. Goodman owns a considerable stumpage in the territory where he is operating, and it will take him several seasons to clean it out. Various kinds of timber are cut, including a fair percentage of pine, but mining timber constitutes the principal output. Mr. Goodman is now one of the largest dealers in mining timber in the upper peninsula. He buys the output of a number of the jobbers operating along the Northwestern line, below Negaunee.

ILLEGAL SPONGE FISHING.

Considerable trouble is being given officials of the revenue cutter service in their efforts to regulate sponge fishing among the Florida Keys.

In a report just received by officials in Washington the captain of the cutter Forward, which was sent there to enforce the law, says he found a number of schooners and steam sloops on the sponge fishing grounds, but he was unable to catch any of them with any sponges illegally taken.

All of these vessels are equipped with diving apparatus, which is always idle when the Forward is sighted. It is an easy matter for a vessel to suspend diving and to get rid of sponges taken in violation of the law before the revenue cutter can get close enough to them to catch them in the act.—Washington Herald.

Ishpeming FORESTS ARE NOW BETTER PROTECTED

Ranger Ed Sandberg Says Homesteaders and Others Are Being More Careful.

Ed Sandberg, the forest ranger who patrols the territory north of Ishpeming, is still on duty, and he expects to remain on the job until winter sets in. If there should be two or three weeks of dry weather there would be considerable danger of forest fires in November, as the ground would be covered with dry leaves.

Mr. Sandberg says that the homesteaders living in his territory, as well as the people who have gone in that direction fishing and hunting, have shown interest in forest protection, and they have not been as careless with their fires as in former years. Mr. Sandberg knows every homesteader in the entire district, and he is personally acquainted with every man owning farms in his territory. He has called on these men and interested them in the movement to protect the forests. Many of them have become members of the Northern Forest Protective association.

Thousands of signs of warning have been posted in conspicuous places in the forests. The signs are changed frequently, each one being worded differently. One of the most striking signs that the Northern Forest Protective association has used calls attention to the fact that 500 people lost their lives and \$5,000,000 worth of property was destroyed by forest fires in Lower Michigan and Ontario the past summer. These fires not only caused great loss of life and property, but they also threw thousands of workmen out of employment, creating poverty and distress in the districts where they occurred. Carelessness was responsible for fully 90 per cent of all these forest fires and fire losses.

A strong appeal is made to the man

who does not own property in the timber districts, urging him to be considerate of the interests of others. The people who frequent the woods are asked to inform the ranger in case they discover a fire. Mr. Sandberg has not had occasion to cause any arrests during the summer. The people as a rule exercise due care and he has known of many instances where campers were very careful to put out their fires before leaving for their homes.

Spring chickens, 15 cents per pound, today at Braastad's. 10-6-2t.

\$250 upright mahogany piano, drupe and stool, \$250 if taken today. Easy terms. GRINNELL BROS. 10-7-1d

ISHPEMING IN BRIEF.

The first snow flurries of the season were seen here yesterday morning.

President William G. Mather, of the Cleveland-Cliffs Iron company, is in the city for a few days.

Mrs. Mina Packard, of Traverse City, Mich., is in the city visiting her son, Eugene Packard, and family.

The family of B. J. Goodmah, Jr., has returned from their summer home at Little Lake, where they spent the past four months.

Miss Lillian Penelon, who has spent the past several weeks in the city, will leave this evening for her home in Ripon, Wis.

Peter Koski, manager of the Peter Koski & Co.'s general mercantile store at Gwinn, came up from there last evening on a business mission.

Arthur Sandberg left last night for Chicago, to spend a few days at the headquarters of the Heinz Pickle company, which he represents in the upper peninsula.

The employees of the Oliver Iron Mining company will be paid this month as follows: Lake Superior mines, Monday, the 16th; Champion and Stegmiller, Tuesday, the 17th, and the Queen group, Wednesday, the 18th.

Most of the Ishpeming teachers who attended the sixteenth annual meeting of the Upper Peninsula Educational association, held Thursday and yesterday in Houghton, are expected to arrive home this evening. The others will return tomorrow or Sunday.

Mrs. Nellie Krogan, who is a member of the Negaunee high school, attended the Upper Peninsula Educational association's meeting in Houghton the past two days, arriving home last evening.

Several members of the Ishpeming and Marquette councils of the Knights of Columbus will attend a ceremonial session in Calumet tomorrow. There will be nearly one hundred candidates in the class and the degree work will be done by teams from Menominee and Duluth.

A suit case filled with men's working clothes, was picked up yesterday morning on the sidewalk near the corner of Grace Episcopal church. The owner may have it by calling at Judge West's office.

Under a city ordinance, children must be in their homes every night at 8 o'clock from Oct. 1 to April 1. Marshal Trearrow yesterday stated that the ordinance will be strictly enforced and he desires the children of the city to take notice.

While moving into her new home this week, Mrs. Andrew Sandberg turned on her ankle, sustaining a sprain that necessitated placing the foot in a plaster-of-paris cast. She probably will be confined to her bed for two or three weeks.

Miss Irene Sullivan was last evening tendered a social surprise at her home on Excelsior street, by about forty of her young friends. A very enjoyable evening was spent and dainty refreshments were served.

The usual services will be held at the Salisbury Methodist church tomorrow, preaching at 10:30 a. m. and 7 o'clock p. m. Rev. Edward Bickford of Bessemer, former pastor at National Mine, will preach there Sunday evening.

Nearly 300 people attended the first of the series of dancing parties of the Ishpeming council of the Knights of Columbus, Thursday evening in the Anderson hall. A number came up from Marquette by special train. The knights plan on giving parties about once a month throughout the fall and winter months.

\$350 upright mahogany piano, drupe and stool, \$250 if taken today. Easy terms. GRINNELL BROS. 10-7-1d

Michigan

MARRIED AT ESCANABA.

H. K. Anderson, a Kenton business man, who is well known here, was on Thursday afternoon married to Miss Lulu Bell Haring of Escanaba, the ceremony being performed at the home of the bride's parents. The Escanaba Press had the following account of the wedding:

"In the presence of only a few relatives and friends Miss Lulu Bell Haring, daughter of Mr. and Mrs. P. V. Haring of this city and H. K. Anderson of Kenton, Mich., were married at 5:30 o'clock Thursday afternoon at the home of the parents of the bride at 1400 Hale street. Rev. F. W. Ainslie, pastor of the First Baptist church, officiated at the ceremony. The ceremony at the home was a simple but pretty one and with Mrs. W. L. Brown, sister of the bride and M. A. Haring, brother of the bride serving as attendants. Following the wedding ceremony members of the party went to the home of M. A. Haring, brother of the bride, where an elaborate wedding banquet was served.

"Mr. and Mrs. Anderson left Thursday night for a honeymoon trip to Minneapolis, St. Paul, Duluth and other cities in the northwest. After Nov. 5 the newly married couple will be at home to their friends at Kenton. "The bride has for several years been employed as a teacher in the public schools of Escanaba and has a host of friends in this city. The groom is the owner of a general store at Kenton and has provided a home in that village to be occupied by them immediately after their return from the wedding trip."

MICHIGAMME IN BRIEF.

Ed Wyatt, of Gwinn, spent Sunday visiting with Lawrence Paquin. Miss Goldman, representing the Paris Fashion store of Marquette, conducted a

sale of ladies' and misses' cloaks at the Northwestern hotel the greater part of the week.

C. F. Sundstrom paid a business visit to Ishpeming Tuesday.

E. M. Stensrud spent Wednesday in Marquette, on business.

Claude Murray and Eddie Brophy visited Sunday with friends in Ishpeming.

D. J. Caven, traveling freight agent of the Duluth, South Shore & Atlantic Railway company, spent Thursday in Michigan, on business.

William J. O'Connor, and the Misses Hattie N. Adams and Ella T. Johnson, of the high school faculty, attended the Upper Peninsula Educational institute meeting at Houghton this week.

The Bungalow club's dance last evening was a social success, and was attended by a large crowd. Johnson's orchestra furnished the music. A number of out-of-town people were in attendance.

G. J. Schwendman has recently been appointed a deputy by County Clerk Frank Jenks, to issue deer licenses for Michigan. Every applicant will be given a complete synopsis of the game and fish laws applying to Marquette county.

It is now certain that the coming winter will, unless something unforeseen happens, be the quietest that Michigan has had in a number of years. The Imperial mine, which has been the sole employer of men in Michigan, will this evening at 6 o'clock discontinue operations for the winter. The closing of the Imperial will throw out of employment some 125 or more men. The men who will be thrown out of work are, for the most part, heads of families.

Munising

BUNCOED AGAIN.

Between forty and fifty Munising people about a year ago subscribed for what was known as the Art Lover's Weekly, a pictorial publication. In order to secure subscriptions, the city longed solicitor offered new subscribers their choice of several handsome pieces of furniture, ranging in value from twenty to forty dollars, which they were to receive at the end of the year gratis, after the payment of one cent.

When questioned by some as to the possibility of the magazine company furnishing such costly premiums without the subscription, the agent waited away all fear by saying that the handsome furniture cost his concern not one cent, the furniture being donated for advertising purposes. A different person called, in the role of collector, on the Munising people regularly for ten or eleven months, but has failed to put in an appearance or make demand for the last one or two payments. A clause in the contract has now disclosed to the subscribers that, having neglected to pay the last month's installment when due, they had forfeited all right to the premiums. Thus, for ten or eleven dollars they have received a magazine worth perhaps a dollar or two per cent, and the food dream of handsome library tables and other articles in the furniture line have gone a glimmering.

WAIFS FROM GOOD WILL FARM.

Four bright and well trained little children, two girls and two boys, ranging in age from six to eleven years, were returned to the county by the Houghton Good Will Farm, Thursday, after the disposition of their case by the juvenile court, are being cared for by Mrs. James M. Conry, matron of the juvenile detention ward at the court house. The children's father is William H. Scott, late of Shingleton. Their mother died in 1908 and the father placed them in the Good Will Farm. He has since failed to pay the small pittance for the care and keep of the little ones, and with no other course available, the Good Will Farm has returned the children to the county as neglected children. The delinquent father has been cited to appear in probate court to show cause why he should not support and care for his offspring, or relinquish them for adoption. The little ones traveled from Houghton to Munising alone, having been placed in charge of the conductor of the train. It is said that the father visited Munising only a few weeks ago and in a debate squandered a large sum of money, finally landing in jail.

ORGANIZE K. OF C. CLUB.

The Munising members of the Knights of Columbus, most of whom belong to Marquette council, tendered a farewell reception to James L. News at the rooms of Dr. Scholtes Tuesday evening. The evening was enjoyably spent. Refreshments were served. The organization of the Knights of Columbus club in this town was perfected, with the following officers: President—Dr. T. W. Scottes. Vice President—George Mayo. Secretary—Arthur D. Wood. Chaplain—Rev. E. J. Hartman. Directors—Frank Haugler, James M. Conry, Henry Gollinger. By-laws are to be drafted and adopted and permanent quarters secured. The club starts off with a membership of twenty.

PETIT JURORS.

The following jurymen were empaneled Tuesday to serve at the October term of circuit court, which will convene on the 23rd inst.: Frank Carrier, An Train, John Peterson, Burt Alf Eversoh, Grand Island; John McAfee, Limestone; R. L. Miller, Mathias; John Cameron, Munising; Alfred Magnuson, Onota; H. W. Crawford, Rock River; A. D. Badger, An Train; E. J. Lavender; Burt Eric Johnson, Grand Island; George Phillips, Limestone.

stone; M. G. Kiser, Mathias; Charles A. Olson, Munising; Dan H. Davis, Onota; William Gattling, Rock River; Edgar M. Doucette, An Train; W. J. Haines, Burt; Aaron Powell, Grand Island; Dan H. McDonald, Limestone; E. A. Culver, Mathias; G. A. Leiphart, Munising; Arthur Marlow, Onota; Victor Lampinen, Rock River.

MUNISING BRIEFS.

I. Saulson is in Chicago on business. Saul Saulson, of Gwinn, is in the city. S. M. Higgins was down from Negaunee Wednesday.

T. H. Noble, of Marquette, was in the city on business Wednesday.

W. P. Belden, of Ishpeming, was here on business Tuesday.

M. A. Doty left Tuesday for Detroit, on a business trip.

"Ole Olson, Jr.," will be presented at the opera house tonight.

S. D. Rogers, of Manistiquet, called on Munising friends Thursday.

W. J. Rohrage, the Dixon merchant, was a business caller in Munising Wednesday.

Miss Grace Kline, of Negaunee, is visiting at the home of Mr. and Mrs. W. R. Burns.

Manager F. J. Eaton, of the Munising Leather company, arrived home from Merrill, Wis., Wednesday.

Miss Agda Carlson, compositor for the Munising Publishing company, is visiting at her home in Ludington.

Miss Florence McDougal, stenographer for the Great Lakes Veneer company, is visiting at her home in North Branch.

Mrs. J. C. Pope, of Regina, Sask., was the guest of her brother, W. A. Lemox, for several days the forepart of the week.

Mr. and Mrs. W. R. Burns and Madame Lobb visited Negaunee friends Wednesday, returning to spend a several weeks' outing at Chapel Beach.

C. H. Worcester, of Chicago, was here Tuesday to attend a meeting of the board of directors of the Munising Paper company.

A farewell reception was held in honor of Dr. W. S. McKenzie by the members of the staff at Munising hospital Monday evening.

Messrs. T. M. Glenn, of Chicago, and T. S. Kirby, of Aurora, Ill., arrived here yesterday morning to spend a several weeks' outing at Chapel Beach.

President W. G. Mather, of the Cleveland Cliffs Iron company, was here Tuesday to attend a meeting of the board of directors of the Munising Paper company.

Thomas Mistic and Miss Elena Mahnie, of Coalwood, were joined in marriage at Sacred Heart church Thursday morning. Rev. Father Dittman celebrating nuptial high mass.

Angus Gagnon, an employe of the Munising Paper company, fell from the coal trestle Thursday morning, sustaining serious injuries to his spine. He was taken to Munising hospital.

F. L. Rennets, of Chicago, and T. H. Height, of New York, first and third vice presidents, respectively, of the American Hide & Leather company, were in Munising Wednesday to inspect the local plant.

Kenneth Ziegler, late of Munising, who is holding down the position of telegraph operator at Annis, Kas., on the Santa Fe system, is expected home next week to remain on a visit with his parents.

James L. News, accompanied by his mother, left Wednesday morning for Negaunee, N. Y., where they go to remain for the future. They will stop off at Detroit, to visit friends.

Mrs. Samuel Martin, wife of former County Surveyor Martin of Grand Marais, died at her home in the latter place on Sunday morning, following a brief illness, the direct cause of death being pneumonia.

Ground was broken Monday for Carlson & Doucette's new summer resort hotel, which is to be built on the shores of An Train lake, a mile and a half from the village of An Train. All the masonry work will be completed before cold weather sets in. The proprietors are planning to have the summer resort ready to open in May of next year.

Superintendent J. W. Taylor, of the Munising public schools, was in attendance at the sixteenth annual meeting of the Upper Peninsula Educational association, which was combined a state teachers' institute for the upper peninsula, which was held at Houghton Thursday and Friday.

Dr. W. S. McKenzie, who has practiced medicine in Munising for the past six or seven years, bade his friends farewell and took his departure yesterday morning for Adrian, where he will locate permanently and continue the practice of his profession. Sam Nahir and George Bastos were each assessed ten dollars and costs in Justice Meeker's court Tuesday for violation of the game laws. The complaint was made by Game Warden Marks, who overhauled the young men with part-time in their possession.

The certificate of the state board of equalization has been received by County Clerk Gibson, certifying to the valuation of the several counties as equalized by the state board at its recent session. The certificate shows that the valuation of Alger county was placed at \$4,223,530 by the board of supervisors at their June meeting, and that the sum of \$1,776,470 was added by the state board of equalization, which makes the valuation an even \$6,000,000.

KNIVES AND MORE KNIVES.

An extraordinary thing about the cutlery trade is the variety of knives made. At the Suffolk works in Sheffield, for instance, they have 10,000 different patterns on their books. They make some times 3,000 patterns to order at one time.

The same thing is true of the large cutlery works at Solingen, in Germany. One firm has 9,000 patterns for Germany going out. New ones are constantly coming out.

IS THE WORLD GROWING BETTER?

Many things go to prove that it is. The weary thousands are trying to help others is proof. Among them is Mrs. W. G. Wood, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufferers, everywhere, to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed until I took Electric Bitters. By this great remedy helped me wonderfully. They're just what I needed. They're the best tonic and finest liver and kidney remedy that I found. Try them. You'll see. 50c. at the Stafford Drug Co."

Mining News

VIEWS OF A COPPER MAN.

A prominent Boston copper man says: "From all sources of information with which I am in contact, I am inclined to believe that the price of copper is pretty nearly at a dead center. I do not look for any decided movement one way or the other for some months. Foreign consumption continues extremely good, and selling agents in New York report to me a persistent demand for all the copper that they are willing to sell at a figure only slightly below present quotations. Demand from England and Germany is particularly encouraging, and I believe that all copper that is shipped to those points is going into consumption. These countries represent a substantial part of our export business, and the position of copper, the American surplus we shall be wondering where enough is coming from to supply the demand. Electrification of railroads is bound to come, and while this is not a matter of the immediate future it should be constantly in mind when thinking of the position of copper. The American consumer will be the backbone of the copper market in the next year or two, because he is going to do more business than he is doing now, and so far as raw material is concerned he has got to start with nothing."

American consumers are going to make a grand rush and force the price up on themselves. They are banking a great deal on the coming increase in production from the new mines, but in my opinion they are counting without their host. "It seems to be forgotten that even the most pessimistic view of the future allows that new production will be taken care of by natural increase in consumption in three years; but at the same time it is lost sight of that some of the vein mines have been for some time outputting less copper than in former years. This will become accentuated more and more in the future. I believe that over the next ten years the price of copper will average over 14 1/2 cents per pound, and that instead of beavelling a copper surplus we shall be wondering where enough is coming from to supply the demand. Electrification of railroads is bound to come, and while this is not a matter of the immediate future it should be constantly in mind when thinking of the position of copper. The American consumer will be the backbone of the copper market in the next year or two, because he is going to do more business than he is doing now, and so far as raw material is concerned he has got to start with nothing."

MASS CONSOLIDATED.

The Mass Consolidated is giving full time and attention to the development of the several copper-bearing adjuvinal lodes opened through shafts "B" and "C." The "A" shaft workings remain idle. In the reopening of "B" shaft the company has found much ground available for mining, and some of this is proving exceptionally rich. New openings are being made in this shaft on alternate levels from the 2d to 14th, inclusive. The more southerly "C" shaft is down in the neighborhood of 1,000 feet in excellent copper ground of unknown extent, but apparently sufficiently extensive to make a mine. Shipments to the mill average around 240 tons rock daily, the net results of mining operations, after a very proper selection of the ground broken down, possibly 40 per cent of which is too lean to return a profit.

FOLEY KIDNEY PILLS

Supply just the ingredients needed to build up, strengthen and restore the natural action of the kidneys and bladder. Specially prepared for backache, headache, nervousness, rheumatism and all kidney, bladder and urinary irregularities. The People's Drug Store.

Little Stinger Island, only 10x22 feet, will be sold this week for \$15,000, representing the highest price paid for a piece of land of such small dimensions ever to be recorded in Princess Anne county. Although Little Stinger Island only contains 220 square feet of land rising from the waters of Back Bay, Virginia, its value lies in the fact that it forms a natural barrier for shooting ducks and is located at the head to the great Virginia and Carolina ducking grounds. The title includes a strip of land on the mainland, which, however, has no particular value for the erection of a clubhouse.—Norfolk Landmark.

Negaunee Department

COUNCIL TRANSACTED GRIST OF BUSINESS

Routine Matters Claimed Aldermen's Attention at Session Thursday Night.

The common council met Thursday evening. Several petitions were given attention and several other matters were discussed and acted on. The question of water supply at the new cemetery came up, but was not disposed of.

A petition from the board of directors of the Workers' Hall company, for the grading of the north side of Tobin street, also asking that the construction of concrete sidewalks along the east side of Tobin street, from Iron street to its North end be required, was read and referred to the board of public works and the street and highways committee. The street and highways committee also asked that the construction of concrete sidewalks along the east side of Tobin street, from Iron street to its North end be required, and the concrete sidewalk asked for is badly needed.

The petitions of Mrs. Charles Olson, Mrs. John Ammonino, Mrs. John Gaffney, Mrs. L. H. Stanley, Mrs. James Jordan, and Mrs. William Tregay, asking that they be exempted from water rates because they are widows was referred to the water works committee. An invitation was extended to the council to attend the Italian societies' celebration of Columbus Day, October 12. It was accepted.

Reports Presented.

Dolph Wheeler, the city poundmaster, reported the impounding of eighteen head of cattle.

Marshal Jackson reported thirty-five arrests during the past month, twenty-six of them for drunkenness, one for manslaughter, five for assault and battery, one for the malicious destruction of property, one for gambling, and one for being a disorderly person.

Frank Larson, W. S. Haggerton, and C. B. Driscoll, the committee on cemetery work, submitted a report of work done at the new cemetery during the month of September. Six blocks were cleaned, and the streets and alleys running between them were put in good condition, at a cost of \$946.86.

The street and highways committee gave an itemized report of work done during the month of September. The expenditure amounted to \$802.59, the items being as follows:

Item	Amount
Grading and Widening Goose Lake road	\$290.14
Sidewalk filling	151.60
Cleaning alleys	92.40
Repairing fence around Teal lake	121.30
Repairing fence around Teal lake	84.00
Macadamizing and rolling High school alley	260.00
Operating roller	57.50
Street cleaning	115.25

The receipts of the electric lighting plant for the month of August were, lighting, \$1,518.86, materials, \$159.75. During the month 167 incandescent lamps were added to the city's circuits, and one arc light. The receipts for August of this year fell somewhat below the receipts of the same month in 1910.

Chris Hansen, superintendent of the water works and electric light plant, reported an expenditure of \$661.18 at the water works, for coal and oil and an expenditure of \$733.68 at the electric light plant.

The claim of Pamela Rock for damages was settled for the amount of \$60. Another claim, made by Dr. Lindgren, of Ishpeming, for damages done his automobile while driving on Hain street, due to a fire, was rejected upon the recommendation of the city attorney.

SANITARY EXPERT HERE.

Water Supply Will Be Investigated by Board of Public Works.

W. G. Kirchoffer, of Madison, Wis., a consulting engineer on water supply questions, arrived in the city yesterday and collected data relative to the city water supply at Teal lake. The conditions at the lake at present are all right, but the board of public works has been considering the future of the water supply, and that there might be no chance for mistakes it has called in the services of Mr. Kirchoffer.

During the past ten years, the water level has dropped four feet. This year it is two inches higher than last year at this time. The board has been making tests by sinking sand pipes along the shore, and has everywhere encountered water. There need be no fear that the supply will give out suddenly, as it is estimated that conditions will remain the same for more than fifteen years. The lake is fed by springs at its bottom, the water coming from the hills. Years ago there was a creek which drained the lake, but there is now no outlet. As indicated by the last chemical and biological examinations, the water is sanitary and suited to drinking purposes, but the probable expansion of the city in that direction has led the board to seek means of keeping the water pure.

Mr. Kirchoffer spent the day at the lake with the members of the board. He will return directly to Madison, where he will compile a report.

TAXES ARE LEVIED.

Council Fixes the Amounts of the Annual Appropriations.

At the meeting of the council Thursday night the annual budget was adopted. A total of \$109,786 is to be raised for city purposes by taxation as follows: City fund for general purposes, \$12,506.67; street and highway fund, \$25,013.34; fire department, \$12,506.67; special fund for the payment of outstanding debts and interest on bonds and debts, \$12,506.67; one mill tax, \$6,253.34; school district No. 1, \$40,000; library tax, \$1,000; total, \$109,786.69.

THOREN WILL SPEAK.

T. A. Thoren, city attorney, will give an address at the Columbus Day celebration of the Italian societies. The program will take place at the city square. There will be a parade through the principal streets of the city in the morning, starting at 9 o'clock. Addresses will be

delivered in the native tongue by prominent Italians. In the evening a dance will be given in the Scandinavian Hall on Gold street, the music to be furnished by the Negaunee Italian band.

BAND REORGANIZES.

The Negaunee Light Infantry band has been reorganized, and from now on will be known as the Negaunee Concert band. The new organization has strong financial backing. It is ready to furnish music for all kinds of entertainments. The members plan to give open air concerts in the city bandstand in the near future, the weather permitting. The new officers are: Stephen Paul, conductor; Joseph Thomas, manager; Al Bennett, assistant manager; William Ford, treasurer, and Gust Leaf, secretary.

WILL WORK ONE SHIFT.

Notice has been given that, beginning next Monday, only one shift of men will be worked at the Negaunee mine. This means cutting down the force one-half. No reason is given for this action. It is supposed that trade conditions are such that with the present oversupply and the low price of ore, mining operations must be curtailed.

LOCAL LACONICS.

Ed. Pearce is in Iron Mountain, on business.

C. L. Sporley left Thursday for Milwaukee.

Mrs. H. C. Wagner will entertain her lady friends next Tuesday afternoon.

The first snow of the season in Negaunee fell yesterday morning at 8:30 o'clock. Exactly a year ago, Oct. 6, the first snow fell.

Will Davey went to Marquette yesterday, to take charge of the Cleveland Cliffs Iron company's blasting crew there.

Rev. Mr. Prouse, and wife, and Mrs. Henry Mitchell, left yesterday for Ironwood, after having visited with Mrs. Mitchell in this city.

The "pennant dance" of the Negaunee baseball club at McDonald's Opera House last evening, was a brilliant success and was largely attended. Music was furnished by Brotherton's orchestra.

Boston . . . 02010000—3 8 3
Batteries: Dent, Schardt and Miller; Young, Weaver and Bariden. Two-base hits—Sweeney, Boston; Tooley (2), Hummel, Coulson and Daly, Brooklyn. Three-

A Wise Old Owl

Said Shiftless Sam: "It is easy enough to make money if you have money to make it with, I see chances every day to make money if I only had a little stake to start with, but a fellow that has no capital doesn't have a fair shake in this world."

Said the Wise Old Owl: "You never will have a stake until you start. Stop your spending and try saving. Pinch out a little of your earning and start a bank account no matter how small. Add to it. The longer you put it off the longer opportunity will give you the cold shoulder."

Which one was right, Sam or the Owl?
