

CHINA REBELS ESTABLISHING A GOVERNMENT

Revolution Now in Progress, the Most Serious in the History of the Nation, Is a Concerted Movement to Transform Flowery Kingdom into a Republic.

Thousands of Troops Have Joined the Mutiny in Hu Peh and the Outbreak Has Spread to Other Provinces—Many Cities Are Taken and Pekin Is Terrorized.

Hankow, China, Oct. 12.—The revolution which has been hanging over China for months past, and of which the rising in the province of Sze Chuen was only a small part, has begun in earnest. It is a concerted movement to take the empire and to declare a republic.

The noted exile revolutionist, Dr. Sun Yat Sen, former anti-Manchu party, is to be elected president. He is a delegate of the revolutionary party to the United States in 1910 and is believed during that tour to have made arrangements for financing the movement.

The whole assembly has seceded from the imperial government. The rebels are well organized and financially strong. They have confiscated the local treasuries and banks and are issuing their own paper money, reforming the government notes with this, as foreign banks are refusing government notes.

Many Cities Captured. The revolutionaries have captured Wu Chang, the native section of Hankow, and all the adjoining cities in Hu Peh province, including Han Yang, Chang Sha, the capital of Hunan, is reported to have risen in revolt, and Xanking, capital of the province of Kiang Su, is on the verge of a rising, several public buildings having been destroyed.

Thousands of troops have joined the mutiny in Hu Peh. Many Manchus have been killed and their families are fleeing from the cities into the country, carrying their belongings. The prisons have been opened and prisoners liberated. There has been fighting in the streets, but there are stringent orders have been issued that the lives of foreigners and their property shall be respected.

An American expedition which was dispatched from Hankow to Wu Chang to aid the mission, has returned here today with all of the missionaries except Miss R. S. Kemp of the Episcopal society; the members of the Roman Catholic mission, including the sisters, and the London mission, who declined to depart.

There was a brief exchange of shots today between the Wu Chang forces and a loyal cruiser. The firing ceased after British and Japanese officials had protested that it endangered the foreign possessions.

Pekin Awakens to the Danger.

Pekin, China, Oct. 12.—The Chinese government has awakened to the danger of the revolution in Hu Peh province. The minister of war left hurriedly this evening for Pao Ting Fu, one hundred miles to the south of Pekin, where the sixth division of the army is making preparations to leave tomorrow for Hankow. At the same time orders have been issued for the assembling of a fleet of warships in the Yang Tse Kiang, to unite with the land forces against the rebels.

According to official reports, at least ten thousand and possibly fifteen thousand troops have mutinied in the province of Hu Peh alone. It is said that they captured thirty modern guns at Wu Chang. There is an unconfirmed report that the revolutionaries occupied Chang Sha on Oct. 10.

Extra precautions have been taken in Pekin to prevent a rising and large bodies of troops are guarding the palace.

Imperial Throne Totters.

London, Friday, Oct. 13.—A Pekin dispatch to the Times says that the well-organized appearance of the rebellion indicates that the Chinese government is confronted with a most formidable danger. At any moment news may arise of a sympathetic outbreak at Canton and Nanking or Anhwei. The government has learned that the mutiny, with two million tons of government silver, has been captured at Han-Yang and that all the government buildings at Wu Chang have been destroyed.

Paris, Friday, Oct. 13.—A Pekin dispatch says that the rebels have captured Yenchow. Yenchow lies about eighty miles to the southwest of Wu Chang.

DUKE OF CONNAUGHT ARRIVES IN CANADA.

Quebec, Oct. 12.—The Duke of Connaught, the new governor general of Canada, arrived in the harbor tonight, aboard the Empress of Ireland. The official landing will be made tomorrow and the ceremony of assuming the dukedom will follow shortly afterward in parliament.

NO CHANGE MADE IN THE GREAT NORTHERN DIRECTORATE.

St. Paul, Oct. 12.—James J. Hill, Frederick Weyerhaeuser and Louis W. Hill were re-elected directors of the Great Northern at the stockholders' annual meeting today.

CHICAGO EXPOSITION OPENS.

Chicago, Oct. 12.—More than \$10,000,000 was represented in exhibits, it was

said, when the American Exposition of Brewing Machinery and Products here opened today. The exhibit will continue ten days, with the International Brewers' congress to open next Wednesday, to continue the remainder of the session.

EX-SECRETARY LESLIE SHAW SAYS THAT A MAN CAN MAKE A MILLION DOLLARS HONESTLY.

Chicago, Oct. 12.—Former Secretary of the Treasury Leslie M. Shaw took issue with those who have maintained that a fortune cannot be made honestly when he said today: "A man can make a million dollars honestly if he has courage and aptitude." The statement was made in an address before the National Association of Life Underwriters. Mr. Shaw said that he once had a chance to make a million, but had not taken it, because he lacked the courage and aptitude.

CHASE OSBORN INDORSES WAR WAGED BY ITALY AS A BOON TO CHRISTIANITY.

Detroit, Oct. 12.—Governor Chase S. Osborn, introduced as a traveler and author of exploration narrative, in discussing "Religion and War" at the Presbyterian synod for Michigan here tonight glorified the Turco-Italian war, declaring "it was really a driving of the boundaries of Christianity." He declared that in an attempt to Christianize Tripoli he is able to see a justification for the war, in that matter what its brutal features may be. The ministers applauded. Governor Osborn's most noted travel researches have been in extremely remote parts of the world.

ITALY LANDS BIG FORCE ON THE AFRICAN COAST

Commander-in-Chief Decides to Act Swiftly and Will Attack the Turks at Once.

Tripoli, Oct. 12.—General Caneva, commander-in-chief of the Italian expedition, has decided to act swiftly. It is stated that the troops under him will march immediately against the positions occupied by the Turks. A reconnaissance of the desert today disclosed the central body of the Turks, with field guns, not far from the city.

Nineteen more Italian transports, escorted by warships and carrying the second division of the troops, arrived this morning. The men were hastily landed. This division is 15,000 strong and there are now 22,000 Italian soldiers on the coast of Tripoli. It is reported that the Arabs have accepted the Italian occupation joyfully.

Cholera Makes Its Appearance.

Although the utmost precautions have been taken looking to the sanitary arrangements, cholera has broken out and it is reported that a number of deaths have occurred.

General Caneva has addressed a proclamation to the inhabitants, assuring them that they have not been enslaved by Italy. They will be ruled by their own chiefs, under the patronage of the king of Italy. Religious and civil laws will be respected and taxes will be reduced or abolished. The proclamation concludes by announcing that Italy desires that Tripoli shall remain the land of Islam, under the protection of Italy.

Arabs Fight Sultan's Troops.

London, Friday, Oct. 13.—A Tripoli dispatch to a news agency says that a Turkish sultan's army has taken place between 200 starving Arabs and the Turkish troops at Churium. Both sides suffered heavily.

London, Oct. 12.—The Daily Telegraph's Constantinople correspondent, in reviewing the situation, says that Turkey lacks a government, practical leaders or a policy; that she is foundering hopelessly and crumbling away for want of a binding force to keep her constituent elements together.

The sultan's response declares that Turkey will refuse to sign a peace treaty, unless the sultan's suzerainty in Tripoli is recognized and will "simply hold her arms and wait, confident of her ability to endure the economic and financial consequences incomparably better than can Italy."

Washington Expects Early Peace.

Washington, Oct. 12.—State department officials expressed the view today that with the German emperor working on his ally, the king of Italy, and with the czar of Russia in a favorable position to influence the porte, peace between Italy and Turkey is not far off and that an armistice at least can be arranged as soon as Turkey is prepared to admit that Italy is in technical possession of Tripoli.

Reported Armistice Denied.

Rome, Italy, Oct. 12.—That an armistice has been arranged between Italy and Turkey, as reported from Berlin, is strenuously denied by the Italian government.

FOUR HENS MAKE UP EACH OF THE TEAMS Fowls from Many Countries Will Compete in International Egg-Laying Contest.

Storrs, Conn., Oct. 12.—Arrangements are about complete for the international egg-laying contest, to be conducted under the supervision of the Connecticut Agricultural college. The contest will last one year, commencing Nov. 1. There will be five hundred hens in the race, four hens to a team, and each team housed by itself in a separate house. A fifth bird will be permitted as a substitute in case of sickness. One hundred frame houses have been erected for the contestants. The entries are from the United States, Canada, Mexico, Cuba, South America and Japan.

ANOTHER TRUST IS SMASHED BY UNCLE SAMUEL

Electric Lamp Business of the Country No Longer Will Be in the Hands of a Grasping Monopoly—Sweeping Decree Entered in U. S. Court at Toledo.

National Company Is Ordered Dissolved and Price Agreements Are Forbidden—Government's Victory Is Complete, for the Combine Accepts the Decision.

Washington, Oct. 12.—By a sweeping decree entered in the United States circuit court at Toledo today, the backbone of the so-called electrical trust was broken and, in the judgment of Attorney General Wickersham, the government was equipped with precedents of genuine value in its prosecutions of commercial combinations forbidden by the Sherman law.

Meeting the government's charges that the trust controlled the electric lamp business of the country, regulating by agreement the prices at which all lamps were sold, the decree severed the relationship between the General Electric company and the National Electric Lamp company. The latter concern and all its subsidiaries are ordered dissolved.

The contracts and combinations entered into by the defendant companies, and the attorney general pointed out today, are declared unlawful and the companies are enjoined from entering into any agreements to control the prices of incandescent lamps. The important principle was laid down, according to the attorney general, that once a lamp is sold by a manufacturer the price at which it is resold by a dealer or jobber must be open to free competition.

The decree was acquiesced in by the defendant companies, and the attorney general pointed out today, are declared unlawful and the companies are enjoined from entering into any agreements to control the prices of incandescent lamps. The important principle was laid down, according to the attorney general, that once a lamp is sold by a manufacturer the price at which it is resold by a dealer or jobber must be open to free competition.

The contracts and combinations entered into by the defendant companies, and the attorney general pointed out today, are declared unlawful and the companies are enjoined from entering into any agreements to control the prices of incandescent lamps. The important principle was laid down, according to the attorney general, that once a lamp is sold by a manufacturer the price at which it is resold by a dealer or jobber must be open to free competition.

Charges and Counter Charges of Attempted Bribery Filed at Kansas City.

Kansas City, Mo., Oct. 12.—"There is a fellow on the job that can be bought. Leave it to me and I'll fix it." In the foregoing words, according to an affidavit made by Dr. B. Clarke Hyde, Harry Hoffman, a deputy county marshal, sought a bribe from the physician who was to follow shortly.

The affidavit was introduced in the criminal court here during a hearing on the application of Dr. Hyde's attorneys for the appointment of jurors to take charge of the jury at the physician's second trial.

Counter charges of attempts at jury-bribing by the friends of Dr. Hyde were made in affidavits presented by the prosecution. One affidavit alleges that Thomas McAnany had offered an attendant at the hotel where the jury boarded \$5,000 for a chance to get to the jurors.

The second trial of Dr. Hyde will begin Oct. 23. Late this afternoon an affidavit, sworn to by Hoffman, was introduced by an assistant prosecuting attorney, denying any conversation with the physician wherein he said he could hang the jury.

GOMPERS AND ASSOCIATES PETITION COURT TO DISMISS THE CHARGES OF CONTEMPT.

Washington, Oct. 12.—President Gompers, Vice President Mitchell and Secretary Morrison of the American Federation of Labor, today petitioned the district court to dismiss the charges of contempt preferred against them by a committee of lawyers appointed by the court last May, after the supreme court of the United States had decided that jail sentences for the labor leaders were illegal because they had been criminally charged in a civil suit. Unless the motion of the labor leaders prevails, it is expected that Justice Wright will take action tomorrow on the motion of the committee of prosecutors that an examiner in chancery be named to take evidence in the contempt proceedings.

RAILWAY COMMISSIONERS UPHOLD RIGHT OF STATES TO GOVERN FREIGHT RATES.

Washington, Oct. 12.—The National Association of Railway Commissioners today adopted resolutions approving the recent action of the convention of governors of various states at Spring Lake, N. J., in authorizing the presentation to the supreme court of the United States of a brief supporting the right of states to regulate freight rates within their borders. Washington, on Nov. 19, 1912, was selected today by the association as the place and time of its next annual convention.

RUINS YIELD TWO MORE BODIES.

Austin, Pa., Oct. 12.—Two bodies were recovered from the wreckage today. This

The Weather

Washington, Oct. 12.—The following is the weather bureau's forecast for 4 p. m. Michigan: Fair, Friday; Saturday, unsettled, probably local rains; moderate east winds.

TRAIN ROBBER YOUNG IS SENT TO PRISON.

Fargo, N. D., Oct. 12.—John Young, who was arrested at Nismen, Wis., on the charge of train robbery, was this morning sentenced to serve fifteen years in the North Dakota penitentiary. Young pleaded guilty to the robbing of a Northern Pacific train at Buffalo, N. D., July 19. Five hundred dollars was secured and the engineer was shot in the stomach. He has recovered. There were three bandits in the gang, but Young was the only one apprehended.

NEW RINK BEING BUILT FOR YALE'S HOCKEY TEAM.

New Haven, Conn., Oct. 12.—Work is under way here for a new rink for the Yale hockey team. The stands will seat at least four thousand spectators.

NATIONAL LEAGUE CLOSES ITS SEASON

Giants Play Brooklyn and, Using Mostly Substitutes, Lose a Double-Header.

New York, Oct. 12.—The pennant struggle in the National League was definitely decided three days ago, but the official close of the championship season did not occur until today. Three games were played on the season's final day. The positions of the eight clubs remain as they were when the battle for the flag was decided, the added days of play affecting no changes in the relative standings. The Giants closed their season by dropping a double-header to Brooklyn, Metraw using mostly substitutes and the twisters of the Superbas pitching in excellent form. First game: Score: R. H. E. New York...00000000—0 3 4 Brooklyn...00000021—3 6 0 Batteries: Ames and Meyers; Ragon and Miller.

Second game: Score: R. H. E. New York...000000101—2 8 5 Brooklyn...210000020—5 9 2 Batteries: Druce, Maxwell, Faust and Hartley; Dent and Erwin. Two-base hits—Wright and Costello; Brooklyn; Hartley, New York.

The gates of the Polo grounds were banged shut tonight, with the close of the league series, to be reopened Saturday, when the first game of the series to decide the world's championship will be staged on the Giants' playing field. There was a lull in the betting today, with little inclination to play either the Giants or the Athletics as a favorite to any pronounced extent.

All Stars Lose to Mackmen.

Philadelphia, Oct. 12.—Connie Mack of the Athletics gave nearly all of his substitutes a chance to win today's game with the All Stars, which was taken by the world's champions, 3 to 2. The Philadelphia team will go to New York tomorrow afternoon. Score: R. H. E. Philadelphia...10011000—3 5 2 All Stars...0000200—2 3 3 Batteries: Bender, Danforth, Martin, Morgan and Thomas and Lapp; Wood and Street. Two-base hits—Gardner and Street, All Stars; Lord, Athletics.

Cincinnati Defeats Chicago.

Cincinnati, Oct. 12.—In an uninteresting and loosely played game, Cincinnati finished the National league season here today by defeating Chicago, 4 to 3. Score: R. H. E. Cincinnati...101001100—4 10 1 Chicago...000100101—3 12 2 Batteries: Slapnicka and Graham; Humphries, Boyd and McLean and Severoid. Two-base hit—Severoid, Cincinnati. Three-base hit—Esmond, Cincinnati.

Wild Throw Decides St. Louis Game.

St. Louis, Oct. 12.—A wild throw by Stephens enabled the St. Louis Nationals to score the winning run in today's game with the St. Louis Americans in the city championship series, 3 to 2. Score: R. H. E. Nationals...200001100—3 9 0 Americans...000200000—2 5 1 Batteries: Harmon and Bliss; Pelly and Stephens.

WOMAN AND TWO MEN WERE HIS VICTIMS

Farm Hand James Dygart, Jailed at Minneapolis, Confesses to Three Murders.

Minneapolis, Oct. 12.—James Dygart today confessed to three murders—those of Mrs. Amelia Bolton and her cousin, Frank E. Rhoades, on the Bolton farm, in Anoka county, Minn., and that of John Heffsted, a farmer of Douglas, Wis. Dygart was employed by Walter Bolton, husband of the murdered woman, as a farm hand, as he was by Heffsted. He said he killed Heffsted because the latter attacked him during a quarrel. He killed the Bolton woman because she refused to clope with him. Rhoades interfered and suffered a similar fate.

The man's confession to the Wisconsin murder came late today, after a grueling fight that had brought out his admission of guilt in the Bolton farm mystery.

QUIZZERS HAVE HIM ON THE BACK FOR FIVE HOURS

Henry A. Shepard, Banker and Former Legislator, Is a Witness at Lorimer Inquiry and Undergoes a Relentless Examination—Private Life Delved Into.

There Is Laid Bare an Escape Which Three Former Investigations Had Failed to Reveal—Lumberman Edw. Hines Is Questioned in Secret Session.

Chicago, Oct. 12.—Consideration of the private life of witnesses was pushed aside by the committee investigating the Lorimer case today, when Harry A. Shepard, a Jerseyville (Ill.) banker and former state representative, was subjected to a rapid-fire examination of five hours' duration.

Despite his protest, Shepard was forced to strip bare an escape which he had managed to keep secret through two grand jury inquiries and a previous senatorial investigation of the Lorimer case. The witness admitted, under close examination, that he used a fictitious name in registering at a Chicago hotel in April, 1910, because he was accompanied by a woman who was not his wife. Until this time he had insisted that his object in using the fictitious name was to avoid reporters. The Jerseyville banker will be placed on the witness stand again tomorrow.

Explains His Vote for Lorimer.

Shepard testified that he voted for Lorimer after the latter had promised him to prevent the reappointment of an editor in Jerseyville as postmaster. Shepard told the committee, however, that Senator Lorimer had failed to keep his part and that the editor, a Mr. Richards, had not been removed from office. The witness emphatically denied that he had received bribe money for his vote or that it had been offered to him.

"The bath room" meeting at St. Louis, said to have been attended by Brown, Wilson, White, Link, Leike, Beckmeyer and others, after the adjournment of the legislature in 1909, was then discussed.

"Why did you go into the bath room with Wilson?" asked Senator Lea, a member of the committee. "Wilson wanted to ask me something regarding a lady with whom he saw me at lunch that day, and didn't want the others in the room to hear our conversation," replied Shepard.

Shepard underwent several hours of grilling by members of the committee, without changing testimony which previously he had given regarding the inquiry.

Hines Quizzed Behind Closed Doors.

Edward Hines, the Chicago lumberman, who has been mentioned during previous inquiries into Senator Lorimer's election, was called before an executive meeting of the committee just prior to the opening of today's hearing and was examined for a period of half an hour. Comments on the committee declined to discuss what had occurred during Mr. Hines' examination.

LAVISH EXPENDITURE EVIDENCE OF GUILT?

That Point Argued at Length at the Stephenson Senatorial Investigation.

Milwaukee, Oct. 12.—Arguments as to whether the largeness of a candidate's expenses for nomination to congress was to be taken as a presumption that the money was used wrongfully occupied a great portion of the senatorial investigation of United States Senator Isaac Stephenson's election today.

After it had been testified by witnesses that instead of \$107,793, Senator Stephenson might have expended \$220,000 for the nomination at the primaries in 1908, and after it was figured out on the basis given that all four Republican candidates might have expended an aggregate of \$480,000, Charles E. Littlefield, counsel for Senator Stephenson, raised the question whether the amount was to be considered evidence of guilt on the part of the senator who is charged with bribery.

"Congress may say a senatorial candidate's expenses shall not exceed \$100,000, but there is no logic in the world which will show that just because he spent more than \$100,000 the money was used corruptly," said Mr. Littlefield. "If this committee in its report is to base a presumption of guilt on the size of the senator's expenses, then we ask the right to inquire of witnesses what is their opinion of the cost of properly conducting a campaign in Wisconsin."

Says Primaries Favor Millionaire.

"The fact that the senator spent that great amount of money was probably due to the condition in Wisconsin resulting from the primaries," said Senator Sutherland. "To favor millionaires

seems to be one of the effects of the primary system."

Mr. Littlefield then asked D. E. Riordan of Ashland, Wis., whether Senator Stephenson was justified in spending \$107,793. "He could have spent a great deal more to advantage—perhaps \$250,000," said Mr. Riordan.

"On this basis," remarked Senator Sutherland, "the four Republican candidates could have spent \$800,000."

Members of the two committees of the Wisconsin legislature which investigated Senator Stephenson's election have been called to testify.

J. R. GARFIELD IN CHICAGO TO ATTEND FORTHCOMING PROGRESSIVE CONFERENCE.

Cleveland, Oct. 12.—Following a talk he had with former President Roosevelt and Senator Bourne of Oregon at New York, James R. Garfield, former secretary of the interior, returned to Cleveland today and left tonight for Chicago, where next week he will attend the conference of the so-called progressive Republicans leaders.

Mr. Garfield understands that the conference is not designed to boom any particular candidate for the presidency. At the conference he will advocate a progressive constructive platform, based on the Republican platform of 1908, and urge that progressive Republicans in all congressional districts of the country make campaigns to nominate progressives as delegates to the Republican national convention.

CALIFORNIA WOMEN WILL VOTE, AFTER ALL

Belated Returns Wipe Out Adv. Verse Majority and Give Suffrage the Victory.

San Francisco, Oct. 12.—Woman suffrage has triumphed in California. Straggling returns today wiped out the majority previously reported against the amendment and since this turn the margin in favor of the amendment has increased steadily. The totals struck off tonight showed this result: For the suffrage amendment...119,084 Against...117,408

Majority for amendment...1,678 These figures represent the returns from 2,517 precincts out of a total of 3,121 in the state.

San Francisco, Oct. 12.—Midnight—Complete official returns from 2,877 precincts out of the 3,121 in the state give: For woman suffrage...119,820 Against...117,779

Majority for suffrage...2,051 The remaining precincts are in remote mountain districts and their returns are not expected to change this majority greatly. In the aggregate, they should slightly increase the suffrage lead.

All of the constitutional amendments voted on Tuesday have by the favorable decision of the voters been written into the constitution of the state. The proposed amendments were ratified in advance by the legislature as preliminary to their submission to the people.

Jubilee Arranged at New York.

New York, Oct. 12.—Dr. Anna Shaw, the suffragist national president, received the following telegram this afternoon: "San Francisco—Praise God, Victory ours. (Signed) Elizabeth Lane Watson, president California Suffrage association."

The reply sent by Dr. Shaw was: "All hearts rejoice with you. Your victory ours. Jubilee meeting in Cooper Union Friday night."

UNCLE JOE RAPS 'EM ON THE WRIST

Reformers, Gompers, the Recall and the Press All Assailed by the ex-Speaker.

Newman, Ill., Oct. 12.—Ex-Speaker Joseph G. Cannon, at a housewarming celebration here tonight, assailed the recall system, Samuel Gompers and some of the press.

Picturing a community in which the recall operated and in which the newspapers had free rein, the speaker exclaimed: "My God! What would happen? You would have even more cowards in public office than you have now."

Relating his experience with "reformers" who he said, offered a panacea for civic ills and had the "only right road to government," he declared: "When I see one of them I always clasp my pocketbook tightly in my hand and walk away."

Senator George Sutherland said he thought the amount set by Senator Stephenson warranted an inquiry along the line that it was unreasonably large.

ADMIRAL SCHLEY'S ESTATE VALUED AT ONLY \$20,000.

Washington, Oct. 12.—The estate of Rear Admiral Winfield Scott Schley, according to a petition by his widow and children, filed today for the probate of his will, does not exceed \$20,000.

SUGAR TARIFF DENOUNCED BY JOHN ARBUCKLE

Big Refiner Declares the Tax a Most Wicked Levy on a Food Necessity of All the People—He Intends to Fight Vigorously for Its Removal.

Were the Raw Product Permitted to Come into the Country Free of Duty There Would Be Saved to Consumers Nearly \$150,000,000 a Year, He Figures.

New York, Oct. 12.—Just before sailing for Europe today, John Arbuckle, the sugar refiner and coffee manufacturer, issued a statement strongly attacking the tariff on raw sugar, declaring it to be a "wicked tax" for the benefit of the beet sugar interests. Mr. Arbuckle said: "I have not been well and I am going abroad to rest and recuperate, in preparation for the fight to be made in congress at its session for free sugar. I propose to devote all my time and all my ability and all my strength to the abolition of all import duties on raw sugar, a most wicked tax on a food necessity of all our people. It taxes the man who works for a wage of a dollar as much as it taxes an Astor or Mr. Morgan or Mr. Rockefeller. Each eats, or at least needs, the same amount of sugar and they pay, not according to their ability, but according to their needs, reversing an elemental rule of taxation."

Mr. Arbuckle said that free sugar would mean that "every household that now buys three and one-half pounds of sugar could for the same money buy five and one-quarter pounds, if this tax were removed." Then, he said: "If, as someone has said, sugar is the comfort of old age and the delight of youth, the United States is engaged in taking candy from children, the height of meanness. The duty on raw sugar is 78 per cent of its value. You will be surprised to compare this import duty with others." Mr. Arbuckle gave the following figures:

Article Duty Sugar...78.87 Champagne...70.00 Automobiles...75.00 Furs...50.00 Diamonds...10.00 Pearls...20.00

"The saving to the American people on the sugar consumed last year if the tax were removed," said Mr. Arbuckle, "would amount to almost \$150,000,000."

VICE PRESIDENT J. S. SHERMAN ATTACKS STRICT CONSERVATION AND THE POLICIES OF PINCHOT

Sturgis, Mich., Oct. 12.—The policies of former Chief Forester Gifford Pinchot in particular and the idea of strict conservation in general were criticized rather severely by James S. Sherman late today, in an address made at the celebration here marking the opening of the new municipal hydro-electric power plant. The plant is said to be the largest of its kind owned by a municipality in America.

The keynote of the vice president's address was that the present generation has the right to and to utilize natural forces and products to its best advantage and let the succeeding generation use its wits and devices to make existence comfortable. He predicted that a new generation would discover new heat, power and life-giving substances which the world today knows nothing about.

SENATOR LA FOLLETTE PLANS TO MAKE A TOUR OF THE MIDDLE WEST.

Washington, Oct. 12.—Senator La Follette of Wisconsin, progressive Republican leader, today decided to start early next month on a speech-making swing through the Middle West. The tour will last until congress meets in December. It will embrace the Dakotas, Minnesota, Iowa, Kansas, Nebraska, Missouri, Oklahoma, Illinois, Indiana, Michigan, Mississippi and probably Ohio. The itinerary has not been arranged.

Senator La Follette will make eight or ten feature speeches and numerous brief ones. Senator La Follette said he did not visit Ohio on this trip he would during the Christmas holidays. The coast was not included in the tour, because of lack of time.

NATION'S EXECUTIVE TRAVERSES OREGON

All Day Long He Travels a Land That Blossoms With Flowers and Fruit.

Ashland, Ore., Oct. 12.—His voice a bit husky from constant use, but strong, President Taft "spoke" his way down the Willamette valley and across the state of Oregon today. For hour after hour his train traveled a land that blossomed in fruits and flowers, and the folk who came to the little towns where his train passed for a minute or two brought tribute of all sorts to the chief executive. Tonight, with the California line only a few miles away, the presidential train passed through Ashland.

Mr. Taft today spoke on many subjects. He declared several times that the old battleship Oregon should be the first vessel through the Panama canal, an announcement that always brought forth cheers. He spoke on arbitration and peace and half a dozen other topics. He is due in San Francisco tomorrow.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per year, by mail, \$6.00. Per month, by carrier, \$0.60.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

MARQUETTE, MICH., OCT. 13.

SHOULD CONTINUE WORK.

The Mining Journal heard some of the men who were busy with the work of equalizing the county this week, and others who closely followed the proceedings...

Or should we say those Owosso telephone operators who were fired have been disconnected?—Detroit Times.

Here and There

The substitution of the pastoral staff for the cross as the insignia of the chaplains of the United States war veterans is in harmony with a practice which was established many years ago in Russia...

A Laugh or Two

Scientists are not the only ones who occasionally lay the ghost of an ancient superstition.

He Needed a Secretary

Dugan is one of the best engine drivers on the road, but like many another "old-timer" he is much bothered by the multiplicity of reports which the modern order of administration compels him to write out.

Food for Thought

Captain Prescott of the Fifth Infantry was leading a long hike in the Philippines. Food gave out and his command was forced to resort to the emergency rations, which consist of condensed food of one kind and another.

A Ticklish Customer

Whatever the outcome of the strike in Dublin, the jury will probably reap a rich harvest. Here is a story of a characteristic frie. A gentleman, new to Ireland, wished to hire a car. The first driver who offered himself was "dressed" in a horrible assortment of rags, and was indignantly rejected by the driver.

The Unexpected Had Happened

Half a dozen years ago Captain Wilson Daveny used to "work" the New York hotels for one of the New York newspapers. Having a chance to make money, he abandoned newspaper work and went west, or part of the way thither. He is now in New York with an address at Pontiac, Mich.

MADE SORRY SHOWING.

Senator Blaine, the man who had most to do with pushing the charges against Senator Stephenson through the Wisconsin legislature and with securing their submission to the U. S. senate, made as sorry a showing before the senate investigating committee this week as he had in the 1908 primary.

WHY THEY FAIL.

Most Pile Remedies Miss the Cause of Piles. Disagreeable treatment with ointments or suppositories usually fails to cure piles and cutting them off won't remove the cause. Such treatment only moderates the outside effects of the disease and fails to remedy the inside cause.

Emblagaard Dairy

Pure Dairy Products From Holstein Cows. News of a snow storm in Butte, Mont., that has paralyzed traffic reminds that it is time to put the storm wind on.

Or should we say those Owosso telephone operators who were fired have been disconnected?—Detroit Times.

The probability is all in favor of the assumption that some part of Uncle Ike's \$107,000 was spent corruptly. Even if Uncle Ike and his advisers had the best intentions in the world, it is apparent that so much money could not have been spilled in a campaign in a few weeks without some of it being improperly used.

COPPER

COPPER HANDBOOK

Just published, is Volume X, for the years 1910-1911, and required nearly eighteen months in preparation.

IT HAS 1912 PAGES containing nearly one and a half million words, or about twice as much matter as the book covers the year 1911.

COPPER INDUSTRY OF THE WORLD

The book covers Copper History, Geology, Geography, Chemistry, Metallurgy, Mining, Milling, Leaching, Smelting, Refining, Trade, Statistics, Alloys, Uses, Substitutes, Terminology, Deposits, by Districts, States, Countries and Continents; Mines in Detail, Companies, Production, Consumption, Imports, Exports, Finance, Dividends, etc.

8,130 MINES AND COMPANIES these descriptions ranging from 2 or 3 lines, in the case of a dead company, in which case reference is made to a preceding edition giving a fuller description, up to 24 pages in the case of the Anaconda, which produces one-eighth of the copper supply of the world. The chapter giving the names of the mines, which lists the largest number of mines and companies ever given in any work of reference on mines or mining investments, has been

FULLY REVISED.

The new edition of the Copper Handbook is a dozen books in one, covering all phases of the copper industry of the entire world. It is used as the

WORLD'S STANDARD REFERENCE BOOK ON COPPER

by the managers of the mines that make ninety odd per cent. of the world's output of copper, and is used in every civilized country of the globe. It is filled with FACTS of vital importance to

regarding one-sixth ownership of the Morton hotel property, the leading history of the city. Mrs. Hawley A. Newkirk, who inherited one-sixth share from her father, George B. Norton, asked for an amendment to the deed in 1891. The deed was made jointly when she married Newkirk. Then she died. Her administrator, Peter Doran, died here a few weeks ago, before the case could be heard. The judge declared the deed had been voluntarily made and dismissed the bill. In the case \$75,000 was at stake.

Copper Country

ALL WOODEN BRIDGES ARE TO BE REPLACED

Copper Range Railroad Will Have Steel and Concrete Structures All Along Line.

There arrived in the Copper Range yards in Houghton yesterday a shipment of steel for the big bridge which the railroad is erecting over the Houghton County Traction company's tracks near Lake Linden. This is one of the most important bridges built by the company this season and its construction is in line with the policy of the railroad to build steel and concrete bridges to replace all wooden structures on the system. The bridge will be made up of two steel spans 46 feet, 3 inches long, and one reinforced concrete span 22 feet long. It will rest on concrete piers forty feet high.

Hungarian Creek Bridge.
The largest bridge being built by the company this year is that over Hungarian creek near Tamarack Mills. This bridge is made up of four spans, each 46 feet, 3 inches long. It will rest on concrete piers thirty feet high. The bridge follows a curved route and its construction involves a nice engineering problem. No portion of the bridge will be curved, but it will have that appearance, as the bridge spans follow the chords of arcs and, possessing short spans, will present the appearance of a continuous curve. The Hungarian creek bridge will have a ballasted floor and the curved track will be laid on cross-tied timber stringers.

Fill at St. Louis Creek.
Chief Engineer Batchelder began on Aug. 26 to fill up the ravine at St. Louis creek so as to do away with the wooden bridge at that point. The outlet of the Laurentian sewer system, which discharges into the Trap Rock river, connecting with St. Louis creek, goes through this ravine and it was necessary to build a concrete culvert through the ravine before beginning the fill. This culvert is 324 feet long. The fill is estimated to require 100,000 yards of gravel. Up to date 60,000 yards have been dumped. Mr. Batchelder says that in one day the work train employed dumped 2,100 yards, constituting a record on the Copper Range for this kind of work.

Part of Permanent Plan.
This bridge and culvert work is all a part of the plan of the Copper Range railroad to build permanent bridge structures throughout its system. The work will consume about two years yet, as there are still seventeen bridges between Houghton and Calumet to be replaced. But south of Houghton, all bridges will be permanent, between Houghton and MacKeever and between Painesdale and Freda.

THEIR SILVER WEDDING.

Ex-Mayor and Mrs. Coughlin Married Twenty-five Years Ago.
Former mayor and Mrs. Thomas Coughlin of Hancock arranged to observe the twenty-fifth anniversary of their wedding in a quiet manner Wednesday evening by a family gathering. Their friends were not disposed to let the event pass without a more extensive celebration, however, and at 9 o'clock there arrived at the home a delegation numbering many of the oldest residents of the Portage Lake town. A delightful evening was spent.

Mr. and Mrs. Coughlin were married at Ontonagon in 1886. A few years later they removed to Hancock, where Mr. Coughlin engaged in the livery business, which he conducted until a few years ago, when he became a member of the insurance firm of Finley & Coughlin.

LABOR IS IN DEMAND.

Hancock Employment Agency Is Asked to Furnish 500 Men.
The ranks of the idle can be reduced at least 500 if this many will call at the employment office of A. Meola of Hancock. Orders for that number of men were received this week, the calls coming from Wisconsin, Minnesota and Michigan. Mines, woodmen and labor for quarries and railroads are wanted. The lumberjacks can get from \$28 to \$35 a month, the railroads are offering \$2 a day for common laborers and the quarries and mines are paying \$2.25 for laborers. Mr. Meola says there is a heavier demand for labor this fall than at any time the past five years.

ORGANIZE A LEAGUE.

Copper Country Bowlers Get Together at Calumet Y.M.C.A.
A meeting of bowlers was held last night at the Calumet Y. M. C. A., for the purpose of making preliminary plans for a Copper Country Bowling league. President Fred S. Eaton of the Upper Peninsula Bowling League, clerk of the Calumet & Hecla Mining company, presided. Committees were appointed to select the rules of the league and to arrange a schedule.

PLANS ARE MADE FOR MASONIC CEREMONY

Officers of the Grand Lodge to Dedicate Houghton Lodge-room Next Wednesday.

Houghton lodge, No. 218, F. & A. M., next Wednesday afternoon and evening will dedicate to the purposes of Masonry the magnificent new lodge room in the Masonic temple, with the assistance of the officers of the Michigan grand lodge. Dedication day is to be divided into three periods. The morning will be for the public generally, to give everyone an opportunity to inspect the new rooms. The actual dedication service will be held in the afternoon, and in the evening there will be a social gathering, including a dance, banquet, concert program and exhibition of motion pictures. The afternoon and evening ceremonies are for Masons and their ladies only, because of the limitations of space.

Dedication Program.
The following is the program of the dedicatory exercises in the afternoon: Dedication ceremony—Grand lodge. Remarks—G. H. Banks, worshipful master.
Response—J. E. Dillon, grand master. Address—Rev. F. P. Knowles, chaplain.
Response—W. H. Gallagher, grand chaplain.
Vocal solo—Mildred Ronsdahl, Calumet.
Address—"The Message of the Dedication," Richard T. Bannalack.
Address—G. L. Lusk, grand deacon, song—John A. Wood, Calumet.
There will be a reception, with refreshments, at 5 o'clock p. m.
The evening program will be:
Concert, 8 o'clock—Song, "Dreams," Calumet Mixed quartet; instrumental solo for euphonium and trombone, Harry R. King, Calumet; vocal solo, Miss Mildred Ronsdahl, Calumet; reading, Mrs. John A. Doelle; song, "Good Evening," Calumet quartet.
Dancing, 9 o'clock.
Moving pictures, 10 p. m.—S. L. Phillips.

The Calumet mixed quartet is composed of Miss Mildred Ronsdahl, Mrs. Charles D. Thomas, J. H. Bennett and Lew H. Hall. Mrs. Thomas E. Richards is accompanist.
Officers of the Lodges.
The following are the officers of various temples and the dedication program:
Masonic Building Association—President, William B. McLaughlin; vice president, John H. Rice; secretary, Deen L. Robinson; treasurer, William D. Collier; directors, the officers and Frank L. Batchelder, Adelbert D. Edwards and W. Corbin Douglas.
Masonic Apartments Company—President, Claude V. Soeber, representing the Ancient Order of Hibernians; Joseph Rashleigh, representing F. & A. M.; secretary-treasurer, Charles H. Lang, representing O. E. S.; Edward W. Presko, representing R. & S. M.

The following are the officers of the grand lodge and the members of Houghton lodge assisting in the dedication ceremony: James E. Dillon, East Tawas, master; James E. Thompson, Lansing, deputy master; Francis D. Clark, Flint, senior warden; William H. Perrett, Detroit, junior warden; William Wentley, director; Lou B. Winsor, Rosd City, secretary; William H. Gallagher, Saginaw, chaplain; George L. Lusk, Bay City, junior deacon; John H. Hawks, Lansing, senior deacon; Louis H. Feal, Oscoda, marshal; James F. McGregor, Detroit, tiler; Charles W. Maas, architect; William Bath, bearer of holy bible, square and compasses; Frank Major, bearer of golden vessel of corn; John H. Rice, bearer of silver vessel of wine; Edgar Rashleigh, George Y. Harris, and John M. Nelson, bearers of burning tapers.
Dedication committee—James Fisher Jr., John H. Rice, John T. McNamara, Charles E. Avery and Frank L. Batchelder.

NOVEMBER TERM JURY.

Personnel of the Body Selected to Try Circuit Court Cases.
The following are the jurors selected Wednesday for the November term of the Houghton county circuit court: Thomas Jeffrey.
Schoolcraft—Henry W. Parks, Victor Miller, Sam Robinson.
Calumet—Herman R. Miller, Martin Nordstrom, Stephen D. Nicholas, King John Blomquist, Edwin George, Alex. Gibson Jr., Joseph Galipeau, Horace Hall, John England, Michael Sunich, John Vignotto, Nath White.
Chassell—William W. Despins, Edward Moran.
Hancock—Alfred J. Kinville, John R. Wilks, Edward Cuff, Joseph Allen, Al Gutsch, J. S. Nichols, James Good, Michael Doyle, Jr.
Portage—Bert Dunn, John Trebilcock, Martin Yaugh, Sr., Ed. C. Krellwitz.
Franklin—Sam Montello, Thomas Laity.
Torch Lake—John D. Sullivan.

TO JOIN THE ITALIAN ARMY.

Four Hancock Italians left Wednesday night to enlist in the military service of their native land and their first objective point being New York city. Pasquale Capobianco, Bart Sasso, Mera Bella and Leonard Carli make up the quartet. They said the love for their mother country was still so strong that their conscience impelled them into taking the decided step, which meant at least hardship if not their lives. A crowd of fellow countrymen accompanied the quartet to the depot, chanting Italian songs and wishing the departing ones good luck.
COLLEGE'S BIGGEST CLASS.
The principal business transacted by the board of control of the Michigan College of Mines Wednesday was to approve the degrees of the graduating class of 1911. The class totalled sixty-

six men and 108 different degrees were conferred. The class of 1911 was the largest in the history of the college. The board also selected the year 1910 as the time of holding the next college reunion.

PARTRIDGES PLENTIFUL.

Some Excellent Sport Is Promised Copper Country Hunters.
Contractor Robert Hall of Laurium, who has returned from the Stackpole district, west of Houghton, says there undoubtedly will be excellent bird hunting this fall, the season for which will open on Sunday. Mr. Hall says that while driving from Stackpole to Houghton he saw some thirty partidges feeding along the road. Calumet people who have been in the woods of Keweenaw of late claim to have seen large coveys of grouse and believe the birds are plentiful. Mr. Hall praised the game warden of the district and says that he believes they will be well attended to their duties that a season of fine bird hunting will be the result. The birds have thrived and propagated.

DEMISE DEEPLY REGRETTED.

Walter Seifert One of Baraga County's Most Popular Young Men.
The announcement of the death of Walter B. Seifert of L'Anse has been received with genuine regret by copper country people. During his high school days the young man was a member of the baseball team of the senior team of the L'Anse High school, and as a member of these organizations he was very well known.
Following his graduation from the high school the deceased entered the Michigan agricultural college at Lansing, where he studied electrical engineering for a year. Later he entered the forestry department, from which he was graduated two years ago. For several months prior to his death Mr. Seifert was stationed at Munising as forestry ranger, and recently had contributed scientific articles to upper peninsula papers on the forestry question.
The young man's death causes deep sorrow especially in his home town, where he enjoyed the esteem and friendship of the entire population. He was the son of Mr. and Mrs. Herman J. Seifert, respected citizens of the Baraga county town.

DENNIS MCCARTHY DEAD.

Pioneer Hancock Resident Passes Away Without Warning.
Dennis McCarthy, sixty years of age, passed away at his home on Quincey street, Hancock, yesterday morning shortly after 4 o'clock, of heart failure. Mr. McCarthy had given no evidence of being ill and until his morning death he was as usual. He is known to have been sick. His daughter, Miss Catherine, hastened to her father's room, but by the time she arrived there the sufferer was dead.
Mr. McCarthy came to this country thirty-five years ago. He located at Hancock. For a number of years he was employed by the Quincey Mining company, but retired to private life eight years ago. He is survived by three sons—Earl, William and Frank; two daughters—Miss Catherine of Duluth, who arrived Sunday to visit, and Mrs. W. J. Lloyd of Dillon, Mont. The deceased was a member of the Ancient Order of Hibernians. Funeral arrangements are held up pending the arrival of the children.
Death of Catherine Lynch.
Miss Catherine Lynch of Hancock died Wednesday afternoon at St. Joseph's hospital, following a week's illness. The deceased suffered a paralytic stroke last week. She was forty years of age, and was a daughter of the late Jerry Lynch. Her brothers are Dennis of Duluth and Jerry of Hancock. Her sister is Mrs. Joseph Breen of Dollar Bay.

NEW UNIVERSITY SONG.

A new song has made its bow to the students and alumni of the University of Michigan, copies having been received here by the latter. The words were written by Fred Lawton, III, of Detroit, and the music by Fred W. Stroyke, of Lansing. "Varsity" is the title. The song has a "swing" to it, while the words are of the rollicking kind that roll out of one's throat. The second part of the chorus goes like this: "Varsity, we're here for you, Here for you, To cheer for you, O Varsity."
Another part of the song that appeals is the following:
"Varsity, the field, never yield, hold high our shield. March on to victory for Michigan and the maize and blue."

MEETING OF MACCABEES.

Hancock tent, Knights of the Modern Maccabees, will this evening be host to delegations of Maccabees from the different lodges in the county. A thorough explanation of the new rates and necessary changes from one class to another will be given.
The Hancock tent is advised that the medical examiner of the K. O. T. M. M. has been empowered to complete details for the care of members suffering with tuberculosis. The idea is to lodge the patients in suitable sanitariums already established. That plan is regarded as better than to attempt to build an institution. The impression has become prevalent that the Maccabees had intended to build an orphan's home, but after discussion it was found the consensus of opinion was opposed to the project.

MARRIED AT CALUMET.

Miss Susan M. Allen, daughter of John Allen of Oak street, Red Jacket, became the bride of John M. Broan, of the engineering staff of the Houghton Copper company, Wednesday evening. The ceremony was performed at the home of the bride's parents, Rev. R. W. Farquhar officiating, and was witnessed by a large number of friends of the young people. The bridesmaid was Miss Anna James and the best man, William Broan, brother of the groom. Mr. and Mrs. Broan left on the St. Paul train in the afternoon for a ten days' honeymoon trip, during which they will visit Chicago and other points. The bride formerly was employed as bookkeeper at the Fashion store. The groom is a graduate of the Michigan College of Mines.

GO DUCK HUNTING.

John F. Proyt and Joseph Orison of Houghton and Ed. Johnson, of Laurium, left for the Calumet & Hecla, left last night on a duck hunting expedition into Minnesota, expecting to be absent one week.

AMERICA CONSUMES VAST PILE OF SUGAR

400 Beet Factories Would Be Needed to Supply the Nation's Demand.

Washington, Oct. 12.—To supply the nation's sugar demand, 400 beet sugar factories with the same capacity as the seventy old now flourishing in fourteen different states of the Union will be required, according to officials of the department of agriculture. The erection of additional factories is entirely feasible and there is no reason why it should not be done, they say. The present sugar beet production has been one of the hobbies of Secretary Wilson. He has advocated sugar beet agriculture on an extensive scale and created the board of sugar beet investigation to scientifically study the cultivation of the plant, seed production, sugar reduction, climatic effect and other things affecting the sugar beet industry. He has made personal investigations of the sugar beet industry in California, Colorado and Michigan, the leading sugar beet states of the country.

COLUMBUS DAY CELEBRATION.

Columbus Day was celebrated in various ways in the copper country yesterday. There were gatherings of Italian societies at South Range, Mesnard and Calumet, and last night the Hancock and Calumet councils of the Knights of Columbus entertained with a dancing party at the Amphidrome, Houghton. All copper country banks and brokerage offices were closed during the day, as were Houghton county schools.

NEW PHYSICAL DIRECTOR.

J. R. Applegate of Louisville, Ky., arrived in Calumet yesterday to take the position of physical director of the Y. M. C. A., succeeding George D. Sherwood, who leaves Monday for Chicago, where he is to be physical director of the West Side Y. M. C. A.

A TALK ON EXPLOSIVES.

C. A. Novell of Chicago, inspector for the bureau of explosives of the American Railway association, last night gave a talk on explosives and shipping explosives to the employees of the Copper Range railroad in the Houghton station. Approximately 7,000,000 tons of best sugar are produced in the world annually. Of this amount the United States grows about one-fourteenth or 500,000 tons. The leading sugar beet producing countries are Germany, 2,500,000 tons; Austria-Hungary 1,500,000 tons; France, 1,100,000 tons. The best sugar is about one-half of the world's sugar supply. In the United States, Colorado leads with a production of 150,000 tons; Utah, 48,000 tons; Idaho, 200,000 tons and Wisconsin 18,000 tons. The sugar beet factories are located as follows: Colorado sixteen, California eighteen, Michigan seventeen, Utah seven, Idaho five, Wisconsin five, Nebraska two and the remaining states one each.

HE TELLS OF A REGION WHERE LIONS EAT MEN

Dr. Dunbar-Brunton, Big Game Hunter, Describes North-east Rhodesia.
London, Oct. 12.—Northeast Rhodesia and its native tribes have been interestingly described to the London Chronicle by Dr. Dunbar-Brunton, who has recently returned to England after spending some years in that country as a district medical officer. Dr. Dunbar-Brunton is well known as a big game hunter, and some of his trophies are to be seen in London clubs. In Northeast Rhodesia he had plenty of opportunities for sport, for the Wavemba territories in which he was on duty have not been explored by many hunters, and are richly stocked. On many a night, sitting in a veranda, he has heard the full-throated roar of the forest lion, the cough of the leopard, and the yell of the hyena.

Enlisted to Fight Spain.

When war was declared against Spain in 1898, McManigal enlisted, but did not get out of the training camps. He was made orderly to an officer, a position he said he liked very much. Upon being mustered out of the military service he went to London, where he met a girl, George Behm, who figured recently in contempt proceedings here for refusing to answer questions propounded in the grand jury room, wanted him to become a railroad worker. He started to enter railroad employment, but later went to a quarry in Milwaukee and afterward worked at a foundry there. Then he removed to Melrose Park, a suburb of Chicago, and worked for a copper concern.

Known as a "Daredevil."

McManigal fell in love with his wife while she was visiting his relatives in Milwaukee, and married her May 8, 1901. After his marriage he became an iron worker, and joined Local Union No. 8, in Milwaukee, in 1903. He worked at his trade in Louisville, Milwaukee, Chicago and other cities, then left the ranks of the iron workers to join his father and half-brother in the saloon business in Tiffin. But he had trouble there with his half-brother and sold out his liquor interest. That was in 1906, and he remained in Tiffin, working in the iron trade, until his self-accepted connection with the McNamaras.

McManigal appears to regard his connection with the McNamaras as a blot on his record.

McManigal appears to regard his connection with the McNamaras as a blot on his record. He recently determined to break with his wife because he said the doctor took a quick shot, but just missed the elephant's brain-pink. It charged. A second shot struck it in the shoulder. The doctor shot again when it was within a few paces, and hitting past him, it fell with legs outstretched, with a hollow in its heart. The doctor turned to his wife and finished his

WOMAN'S HEARING TODAY.

Mrs. Barney LeDuce of Hancock, will be arraigned in Justice Eickbren's court this morning on the charge of assault with intent to do great bodily harm. Mrs. LeDuce was locked up Wednesday afternoon, following a quarrel with her husband, whom she is accused of assaulting. The defendant in the hearing scheduled for this morning appeared before Justice Eickbren Wednesday morning, together with her sister-in-law, Mrs. Clara Adams, on the charge of being drunk and disorderly. They were both fined and given forty-eight hours to get out of town. When Officer Wright made the arrest the two women were breaking up the furniture and raising a general disturbance.

MAN IS UNCONCERNED AT COMING ORDEAL

Ortie McManigal, Civil Witness Against the McNamaras, Has Deckless Nature.
Los Angeles, Calif., Oct. 12.—Ortie E. McManigal, who, in a confession, declared that he was the confederate of John and James McNamara in a conspiracy which involved murder and the shooting of the country club, and an uneventful life, as he himself described it, up to the time he was arrested in Detroit with James B. McNamara last April, and brought to this city to stand trial on the charge of having murdered nineteen of the men killed in the destruction of the Los Angeles Times building October 1, 1910.

Los Angeles, Calif., Oct. 12.—Ortie E. McManigal, who, in a confession, declared that he was the confederate of John and James McNamara in a conspiracy which involved murder and the shooting of the country club, and an uneventful life, as he himself described it, up to the time he was arrested in Detroit with James B. McNamara last April, and brought to this city to stand trial on the charge of having murdered nineteen of the men killed in the destruction of the Los Angeles Times building October 1, 1910.

He was born at Bloomville, Ohio, April 1, 1874. His mother died when he was four years of age, and he was brought to live at the same place, took him and his sister and cared for them until he was six or seven years of age. Then his father remarried, and took the children back to his home, where they resided until Ortie was about twelve years old. A separation then occurred between father and stepmother, and the children were sent to live with the father's parents in Hutchinson, Kas., where they lived for a year or two.

When war was declared against Spain in 1898, McManigal enlisted, but did not get out of the training camps.

When war was declared against Spain in 1898, McManigal enlisted, but did not get out of the training camps. He was made orderly to an officer, a position he said he liked very much. Upon being mustered out of the military service he went to London, where he met a girl, George Behm, who figured recently in contempt proceedings here for refusing to answer questions propounded in the grand jury room, wanted him to become a railroad worker. City Brevities

Today's weather: Fair. Yesterday's temperatures: Seven a. m., 53 degrees; noon, 54; 7 p. m., 46. Highest, 54 degrees; lowest, 46.

G. L. Burtis went to Chicago last evening.

Rush Culver, of L'Anse, is in the city on business.

Miss Jessie Palmer left yesterday afternoon for New York city.

St. Paul's guild will meet at the Guild Hall this afternoon at 2 o'clock.

Mr. and Mrs. A. M. Sutherland, of Superior, are visiting in the city.

James Norton, of Ewen, spent yesterday in the city on business.

Born, to Mr. and Mrs. J. T. Powers, 222 West Michigan street, a daughter.

Frank Tuck has returned from Duluth, where he visited his son, Otto.

E. H. Bush has returned from a trip to Duluth, where he visited his father and brother.

Born, Wednesday night, to Mr. and Mrs. P. J. O'Donnell, Spruce street, a daughter.

There will be a sale of home-made cooking in Morgan Memorial chapel this afternoon at 2:30 o'clock.

The Baptist Ladies' Aid society will meet this afternoon with Mrs. F. W. Read, 425 East Arch street.

Rev. Bates G. Burt left yesterday for Omaha, Neb., to attend a meeting of the Episcopal church.

Francis MacDonald, who has the contract for the extension of the breakwater, left last evening for Duluth.

The Ladies' Aid society of the Baptist church will meet at the home of Mrs. F. W. Read at 3 o'clock this afternoon.

The Woman's Home Missionary society of the Methodist church will meet at 3 o'clock this afternoon with Mrs. Gregory, corner Fourth and Ridge streets.

The Woman's society of the Presbyterian church will hold a missionary meeting this afternoon with Mrs. Harry DeHaas, East Michigan street.

Steamer Agawa is loading ore at the South Shore dock. The Castana and the Centurion are in with coal. The Hutellusson, light, was due last night.

The fancy work committee of the Methodist Ladies' Aid society will meet this afternoon at the home of Mrs. George D. Sherman, on Spruce street.

Thomas Treloar, district manager and claim adjuster for the Fidelity Accident company, of Saginaw, left here yesterday for that city. He will be out of town about a week.

J. M. Longyear, A. T. Roberts, J. E. Sherman and R. S. Rose left yesterday in the Longyear Stearns car for Menominee. They will travel by way of Republic and Iron Mountain and expected to remain over last night at Republic.

Machinery Expected Daily—M. F. Goldberg states that the large electric presses being made for the Marquette glove factory are expected to arrive any day. They are being manufactured in an eastern firm. The new industry will give steady employment to fifteen girls.

Reichel Mill Sold—Reichel Bros., sawmill on Dead river was sold at forced sale yesterday to E. S. Bice, trustee, representing the syndicate of Marquette business men who hold a mortgage against the property, and at whose instigation the sale was brought about. Mr. Bice was the only bidder and his price was \$2,000.

Ladies Finish Shoot—Mrs. A. C. Richards finished her deferred shooting yesterday afternoon at the grounds of the Presque Isle club, winning the trophy by a very close margin. The other ladies finished were Mrs. H. Hall, with 374 points, and Mrs. A. C. Ludington, with 399. Mrs. Richards' score was 401. There was much interest manifested in the shoot and many more ladies have signified their intention of entering the next event.

Three from Bay County—Three prisoners from Bay county were added to the Marquette prison population yesterday, brought here by Sheriff Henry Kennedy and Deputies Fred Fitzgerald and John Kennedy. The convicts are: Claude Schroeder, burglar, three to fifteen years; Lindner, burglar, two to four years; and Mrs. H. H. Lawrence, forger, two to four years. The last two named are brothers.

V. N. A. Monthly Report—The monthly report of the Visiting Nurse association for September is as follows: Number of patients, 36; total number of visits made, 164; prescriptions filled, 6; county and other doctors employed, 7; employment found for 4; office calls, 42. Total disbursements for the month were \$124.06, included in which were: Groceries, \$21.18; meat and eggs, \$3.84; milk, \$10.50; clothing, \$1.85; shoes, \$8.85; labor, \$7.50; care of baby, \$12. One hundred and twenty-six garments were given away.

Wheeler on Rampage—Charles Miller, the stevedore on the steamer Castalia, got on a glorious drunk Wednesday night, as the upshot of which he assaulted a Marquette business man with rather disastrous results, as far as the local "innocent bystander" was concerned. Officer Toard was in the vicinity and promptly arrested the sailor, who was brought before Justice Byrne late yesterday afternoon and assessed \$30, with the alternative of forty days in jail.

Sale of Ethel J.—Deputy United States Marshal Wills has given legal notice that the tug Ethel J., the home of which is in the Marquette harbor, will be sold under the hammer next Tuesday at 10 o'clock, to satisfy the libel attachments that have been issued against her. The ill-fated tug has been tied up by libel claims most of the time for the past three years. Last year she was operated in the fishing trade off Keweenaw point for a short time, but libel claims have prevented her operation this summer. It is stated that the claims filed against the tug probably exceed her value.

TAKE YOUR COMMON COLDS SERIOUSLY.

Common colds, severe and frequent, lay the foundations of chronic diseased conditions of the nose and throat, and may develop into bronchitis, pneumonia, and consumption. For all coughs and colds in children and in grown persons, take Foley's Honey and Tar Compound promptly. The People's Drug Store.

POSTOFFICE RULES MADE MORE STRICT

"Endless Chain" Letters, Guessing Contests, Etc., Are No Longer Mailable.

Upper peninsula postmasters, as well as those all over Michigan are receiving hundreds of letters that contain "endless chain" prayers. Some of these are poorly addressed and will have to be returned to the dead letter office at Washington. The large amount of this kind of mail matter has caused the department to take rather drastic measures. They are to be barred from the mails, according to reports.

All postmasters have been notified that from now on special attention is to be paid to section 499 of the postal laws of the United States relative to lotteries, illegitimate mail matter, etc. Under a ruling of the postmaster general this gives the postoffice officials, the postmaster and the inspector authority to put a stop to endless chain schemes, when the promoters attempt to use the mails for the furtherance of their promulgation.

Recently, due to the fact that the mails have been heavy with fake literature and alluring circulars of the get-rich-quick concerns, "endless chain" enterprises, phases of lotteries and similar matter, the postoffice officials have decided to institute anew, a rigorous campaign against the abuse of the mails in these directions.

Guessing or estimating contests, raffles, whether lay or general, for private gain, or for charitable, educational or religious objects, whether the consideration for chances be money or otherwise—all are unconditionally placed under the ban.

Enterprises in which prizes are distributed among purchasers of merchandise, in stated amounts, through the medium of drawing or guessing contests are lotteries," says section one of the postal laws.

This regulation of the government mail service, which is believed to be a wise and sane provision, the officials intend shall be enforced strictly and impartially. Merchants may sell their goods through legitimate newspaper advertising, etc. They may conduct their business in a fair, honest and sensible manner, and the government will aid with every facility, but as soon as a deceptive or disagreeable scheme is offered to the public, the people should be given it, through placing its ban on such fake enterprises.

INSURE WITH PETER WHITE & CO. 500 CANAL PASSAGES.

Names of the Boats Bound for Lake Superior.

Sault Ste. Marie, Mich., Oct. 12.—(Special.)—The following upbound boats have passed the canals the past twenty-four hours: Turret Chief, Gayley, 7:30 last night; Rees, 8:30; Busson, 9; Verona, 10:30; Minnetonka, midnight; Phipps, 2 this afternoon; Jenkins, Neslen, 4:30; Albrigt, Kcepawah, 9; Norton, 10; Willis King, Mariska, 10:30; Harmonic, Frontenac, 11; Northern King, Randolph, Warner, Warriner, Griffin, W. W. Brown, noon; Australia, Samuel Mather (small), Huron City, Alberta, 1 this afternoon; Ashley, LaSalle, 2:30; Maricopa, Bryn Mawr, 3; Arthur Hawgood, 3:30; Buffalo, 4:30; Newona, 5:30; House, 7; Van Hise, Maia, 7:30; Murphy, Maria, 9.

Guild Hall Notes

The Hit and Miss club will meet in Guild Hall assembly room this afternoon at 4 o'clock.

All candidates for the football team are asked to meet in Guild Hall gymnasium at 7:30 this evening. It is urgently requested that all members of the Guild Hall who have had football experience shall be present. Tomorrow at 2:30 p. m. the Guild Hall football team will play the team Y. M. C. A. eleven at the fair grounds. Special street car service will be provided from the furnace to the fair grounds for this event. The probable line-up of the Guild Hall team will be: Lindstrom, left end; Anderson, left tackle; A. Priemeat or Call, left guard; Scully or McKereghan, center; Patrick or Mack, right guard; Carr, right tackle; Watson, right end; F. Reinhardt, quarter; C. Reinhardt and B. Primeau, halves; Lobb or Johnson, full backs.

HOW TO GAIN A CENTURY OF LIFE.

In his book, lately published in the Hungarian language and translated into almost every modern tongue, Dr. Leonard Rogers, that from recent reports of the frontier offices of Austria, Germany, France and England it appears that we are justified in assuming that though life is usually limited to 55 or 60 years, it may occasionally be prolonged to 100, or even more, by the operation of certain internal and external agencies.

By studying these we may eventually be able to prolong the lives of many individuals beyond 80 or even 90, and to prolong our term of youthfulness by 10 or 20 years. We need no longer grow old at 40 or 50, comments the British Medical Journal. This can be brought about by improving the functions of a certain few of the glandular structures of the body, providing one or more of the main organs have not already been too gravely compromised by incurable organic disorders.

To prevent old age coming on too soon the first condition necessary is the possession of healthy ductless glands (chief among them being the thyroid, the adrenals, the pancreas and the liver), and this depends upon heredity.

Marriage is an invaluable aid in the struggle against old age. If married life is one of the best means of resisting the approach of old age; on the other hand, it is positively certain that unhappy marriages are the surest means of hastening its coming.

To avoid premature old age and early death we have to follow these rules:

Wear loose collars, because a tight collar presents obstacles to the free circulation of the blood through the thyroid.

Do not take too much meat, because abundance of meat alters the ductless glands.

Take large quantities of milk, this being the extract of various glands, and especially that of the thyroid.

Be as much as possible in the open air, and especially in the sunshine, and take

JUDGE HAULED ALOFT BY PLANE.

Lifted by Son's Machine and Dropped with Him Into a Tree.

Parkersburg, W. Va., Oct. 12.—Caught in the wires of his son's aeroplane, which suddenly started backing, Judge Homer B. Woods, one of the wealthiest jurists of this county, was carried fifty feet off the ground, and when the big craft turned turtle he, with his son, was thrown into the top branches of a tree. While in a serious condition, the aged jurist is not thought to be fatally injured. His son escaped with minor injuries. The machine was constructed by young Woods. Judge Woods was standing near, and without warning the craft swooped against him, and to prevent being knocked down he grabbed the wires.

PRESCRIPTION 3,400 YEARS OLD.

What is undoubtedly the oldest prescription in America is listed at the New York Metropolitan Museum of Arts. Its date is probably not later than 1500 B. C., some time during the nineteenth dynasty. It is written on a small piece of limestone about three and one-half by three inches in its present somewhat injured condition, carefully smoothed for the purpose, forming what is called an "ostracum." The writing was done with a brush and some sort of black ink or paint, for pens did not come into use in Egypt until the Roman time. The substance employed was well adapted to its purpose, for the writing is still quite plain, except near the edges of the stone where fragmentation has occurred. The inscription is in the old cursive hieratic

writing, somewhat similar to that of the Ebers papyrus, which dates from about 1600 B. C.

It is written on both sides of the stone, with what Egyptologists would probably call typical old Egyptian neglect of such details, from above down on the longer measurement of the stone on one side, but across on the other side as some women of the present day, after having written down one sheet of letter paper, then turn it over and write crosswise on the back of it. Unfortunately it is not known whence this specimen comes.

It was noticed in the museum some years ago by Mr. Max Muller, who recognized the medical character and translated the inscription, though rather unsatisfactorily. An effort was then made to find the place of its origin, but the specimen had come with a number of other antique finds of many kinds gathered from various portions of Egypt and its exact provenience, to use the archeological term, could not be determined.

The prescription as written seems to be a copy, because portions that in the ordinary medical writings of the time are abbreviated are here written out completely, just as copies of prescriptions written out by druggists today have the abbreviations enlarged. The ingredients called for in the prescription are mainly precious stones. These were to be ground up to be used for fumigation. Professor von Oefele, an authority on ancient Egyptian medicine, suspects that the case was one of hysteria, though there is no indication of this in the prescription itself.

Ground precious stones were favorite remedies for hysterical manifestations. They were used for fumigation whenever the fall in the throat, our gloom hystericus, was a prominent symptom.

Indications on the prescription show that various classes of precious and semi-precious stones were used for patients of differing degrees of wealth, continues the Journal of American Med.

Why should you continue to experiment with salves, greasy lotions and fancy hair dressings trying to rid your scalp of germ life. They can't do it because they cannot penetrate to the seat of the trouble and draw the germ life to the surface of the scalp and destroy it.

Why not try a PROVEN REMEDY? One that will do this. We have a remedy that will rid the scalp of germ life and in this way will cure DANDRUFF and ITCHING SCALP.

This remedy is ZEMO, a clean, refined, penetrating scalp tonic that goes right to the seat of the trouble and drives the germ life to the surface and destroys it.

For the very wealthy, a valuable stone like sapphire was used. For those of moderate wealth a more modest stone would do. For the poor, malachite, which was rather common, sufficed.

The remedies which cure the nervous affections of ordinary people seem never to have been capable of producing the same effect on the nervous symptoms of the wealthy, for whom something quite different, and above all, much more costly, was required. Further study of the specimen will doubtless bring out more interesting details with regard to the medicine of the time.

USES OF THE AEROPLANE.

"What will be the practical utility of aviation?" is a question asked and answered by Hudson Maxim, the inventor, in an article entitled "Practical Uses of the Aeroplane in Commerce, Travel and War," in Country Life in America.

"Will the aeroplane ever become a safe and practical vehicle of travel, or are the limitations of its possibilities such that it will never be more than a plaything in hazardous sport, or a military machine?"

Maxim writes on, in answer to his own question, "I predict that in the near future--assuredly within the next decade--the commuting aeroplane will be a common sight. The aeroplane will be a great timesaver. The tiresome hours of the commuter spent on trains and trolley cars are always so many hours added to the day's work. The flying machine will change the weary coming and going to invigorating recreation and sport."

Further on in the article, while going into the practical uses of the aeroplane in detail, Maxim says:

"Much is being done, and much will continue to be done by the sportsmen to develop and perfect the Aeroplane; but it will be the exacting requirements of government boards to adapt the machine to the exigencies and uses of war, that will, more than anything else, compel aviation to develop on practical scientific lines."

Making another prophecy concerning the use of the aeroplane in war Maxim says:

"In the wars of the future, for days previous to any great battle, aerial scouts will ride the sky in all directions making observations and taking photographs. Both sides will have their aerial pickets out, and there will be many a hot encounter between contending air craft."

EXPERTS AT SEA OVER RESULT OF WORLD'S SERIES

Records of the Teams So Evenly Balanced the Outcome of the New York-Philadelphia Ball Games Is Classed as "Delightfully Doubtful Uncertainty."

If the Weight of Any One Player Can Tip the Scales It Likely Will Be One of the Pitching Stars--Attendance Sure to Fill the Parks to Overflowing.

New York, Oct. 12.—The world's championship baseball series about to begin marks the climax of interest in the great American game of baseball. The championship contest comes every year, but is ever new in the intense excitement over the crucial series. Last year Philadelphia and Chicago were the centers of this championship storm, the Philadelphia Athletics of the American league winning the coveted title.

With the world's pennant still flying over their magnificent home at Shibe Park in Philadelphia, and with another American league flag freshly won, Connie Mack and his Philadelphiaans now meet John J. McGraw and his Giants of the National league. It is the second time that these two generals have clashed over the same great issue. In the war of 1905 McGraw won four of the five battles, and thereby brought to New York a world's pennant.

Seasoned by six years' more experience in the generalship of their formidable baseball forces, these two baseball leaders now meet again for the championship struggle. Two more divergent types than McGraw and Mack cannot be picked in the baseball world. The contest between the two chiefs may be summed up briefly as follows:

Mack vs. McGraw.
Mack—Aged forty-nine. Born in New England. Tall and lanky. Chiefly deliberative. Leads from the bench. Plans battle before game. Never done anything. Known as a tactician.

McGraw—Aged thirty-eight. Born in New York state. Short and chubby. Chiefly impulsive. Always on coaching lines. Resorts to quick judgment. Always on the edge. Distinctly a strategist.

And so on, with finer distinctions, but when the problem was finally worked out it would be found that about the only point of intersection in their methods is success.

Walter Gilliland, so named at birth, but rechristened by the fans as "Connie Mack," has been called the "wizard of baseball" because of his skill in developing seemingly inferior talent into the superior player. Since he organized the Philadelphia club eleven years ago he has turned out four champion teams in the American league and has led his men close to the front ranks in the league every season but one.

His career has been, perhaps, the most successful of any of the so-called bench managers. Sitting back away from the dust of battle, the cool and crafty chief with pencil and score book in hand plots out the progress of the engagement and only occasionally amends the orders he gives the men before he sent them into the field.

McGraw, known to fandom as the Napoleon leader of the "Giants," has won three league pennants for New York and one world series. Since 1903 he has been manager of the famous twenty-four inning victors over Boston in 1907. During the 1910 season he went fifty-three innings at one stretch.

Whether McGraw can bring his men back to the world-leading class or must lead the Mackmen possess the big flag for a second successive season, depends in some part upon some of the veterans who won for him the war of 1905.

Each Team Has 21 Men.
By the rules governing the world series each of the leaders is allowed to enlist twenty-one men eligible as participants in the struggle. The choice of the year has fallen to the following men:

—New York—
Ames, pitcher.
Bender, utility.
Crandall, pitcher.
Doyle, second base.
Devon, left field.
DeVlin, utility.
Drucker, pitcher.
Fletcher, short stop.
Herzog, third base.
Hartley, catcher.
Latham, catcher.
McGraw, manager.
Meyers, catcher.
Mathewson, pitcher.
Marquard, pitcher.
Murray, right field.
Merkle, first base.
Pascarelli, utility base.
Snodgrass, center field.
Wilke, pitcher.
Wilson, catcher.

—Philadelphia—
Baker, third base.
Barr, short stop.
Bender, pitcher.
Collins, second base.
Cramer, left field.
Davis, utility.
Danforth, pitcher.
Eaton, pitcher.
Hartel, utility.
Krause, pitcher.
Lanning, pitcher.
Livingston, catcher.
Mord, left field.
Martin, utility.
Moran, pitcher.
Morgan, right field.
Quiring, center field.
Stern, utility.
Thomas, catcher.

These forty-two men and none other are eligible to play in the present series. It is probable that not more than a dozen from each list will be picked for the crucial games. Of the "Giants" there are three who fought and won in the 1905 series with Philadelphia—Ames, Devlin and Christy Mathewson. Of this veteran trio the last named has been the "Giants" pitch-

ing mainstay for many years. In three of the four games won from Philadelphia in 1905 he pitched a shutout and was acclaimed the hero of the series. In the present series, for his part in the game, he has grown in the confidence of the New York fans, and while his most ardent admirers can hardly expect him to repeat so remarkable an achievement, he is expected to render good account of himself.

Mathewson is native Pennsylvanian, and for one brief period was a member of the team he now opposes, but for the better part of ten years he has been with the Giants. He first attracted attention at Bucknell University and his first professional berth was, on the Tinton nine of the New England league. Twice the big fellow has pitched no-hit games. In 1908 he was credited with thirty-seven of the "Giants" victories. He won more than two-thirds of the games he pitched this year. He is thirty-one years old.

Marquard the Real Star.
Notwithstanding the confidence still placed in Mathewson, it is likely that he will have less of a chance to figure as a big hero in the present series, for his left-handed pitching mate, "Rube" Marquard, and Matty's junior by eight years, has won championship distinction. The young "southpaw," whose services cost McGraw \$11,000, proved a good investment for it is mainly due to his phenomenal pitching that the "Giants" are in a position to face the "Athletics" for the title. He has won twenty-four and lost only six games this season.

Marquard's first professional play was with the Waterloo team of the Iowa State league. He was with the Canton club of the Central league and was drafted by the Detroit, who turned him over to Indianapolis. He proved the sensation of the American association and it took the big price named to bring him to New York in 1908. While he possessed all kinds of speed and a varied assortment of curves he was almost a complete failure in his first seasons, but McGraw stuck to him and has been well rewarded.

Leon Ames, who has been on the "Giants" pitching staff ever since he jumped the New York State league in 1904, and George R. Wilke, another former state leaguer, are the most likely candidates for relief work in the box. Otis Crandall is the fifth member of the staff.

There are six of Connie Mack's men who were with him when he fought in vain for the 1905 flag. They are Bender, Plank, Lord, Hartzel, Murphy and Harry Davis. Head and shoulders above the rest is "Chief" Bender, a red-skin of the Chippewa tribe, who was sent to the Carlisle school for his education and promptly evinced his fondness for the great white man's game.

After leaving college he joined the Harrisburg (Pa.) team, and in 1903 was brought into the big league by Connie Mack. He became one of the famous quintette of twirlers which brought Philadelphia into its second league championship in 1905. In the world's series he was the pitching hero of the only game which the "Athletics" took from the "Giants" that year. On the other hand, to him is charged the only defeat suffered by the "Athletics" in the series with Chicago last year, though this came after he had allowed but one hit for eight innings.

With the Indian in the box is, as was the case last year, Jack Coombs, the real hero of the last series. Coombs, known as Mack's "man of iron," won three straight games in the 1910 series, a feat which the giant Mathewson equaled in 1905. Coombs is twenty-seven years old. He played at Colby college, in Maine, and graduated at once into big league company with the Athletics in 1906. He is exactly the same height as his pitching mate, "Chief" Bender, 6 feet, 1 inch. He is the holder of records in the National league, having pitched twenty-four inning victories over Boston in 1907. During the 1910 season he went fifty-three innings at one stretch.

Record-Breaking Crowds Sure.
In at least one respect the series will mark a record in baseball history, for it is estimated that more than twice as many enthusiasts will seek admission to the Polo grounds daily than can be accommodated, and the accommodation will be greater than ever before provided in a baseball park in this country.

John T. Brush, owner of the New York club, has replaced the old wooden amphitheatre at the Polo grounds which burned early this season with a mammoth steel and concrete structure, which, when wholly finished, is expected to be the best of the several magnificent baseball parks in the country, and by the extension of outfield bleachers he has provided room, it is estimated, for nearly 60,000 spectators Saturday.

The number is nearly a third greater than ever witnessed a ball game. Attendance records at the world series and receipts for the past six years compare as follows:

Year	Receipts	At. Attend.
1905	\$ 98,476.81	18,344
1906	106,252.00	10,642
1907	101,727.00	15,613
1908	94,975.50	12,446
1909	188,262.29	22,953

Benjamin F. Shibe, owner of the Philadelphia club, is also preparing to handle a record crowd when the playing of the big games alternates to his new park bearing the family name. The proximity of the two rival cities is expected to cause a daily flock of enthusiasts from one city to the other and by far overtax the capacity of either park.

LIMPET THREATENS OYSTER.
England Worried Over an Invader That Is Starving Bivalves.
London, Oct. 12.—Another American invasion is now stirring England. The Kent and Essex Sea Fisheries commission reports that the American limpet is threatening the oyster industry.

An expert of the board of agriculture states that on the seawest coast a limpet of a species hitherto unknown to British waters has appeared, and he declares that the invader must have been imported from America, where it flourishes in and near oyster beds.

As American oyster growers have no dread of the limpet, the expert was asked why it was feared here. He explained that for the short time it has been here the limpet has spread with extraordinary rapidity, and there has been a slight decrease in oysters. It has therefore been suggested that its new environment the limpet uses the same food as the oyster and so starves that bivalve. The possibility of the limpet smothering young oysters by its clinging habits is also suggested.

But aside from the danger to the oys-

without letting an opposing club score on him.
Bender and Coombs will be called upon, it is believed, to do most of the pitching in the series at hand, but as the "Giants" are said to be weaker before left-handers it is possible that two "southpaws," Plank and Krause, will be given a chance to distinguish themselves. Plank was one of the trio of twirlers who won for Philadelphia its first taste of league championship in Mack's second year. Veteran though he is, at the age of thirty-six, he is still able to do effective work.

Records of the Rivals.
In cold figures, the records of the pitchers selected for the present series is as follows:

—New York Giants—			
Name	W.	L.	P.C.
Marquard	47	24	66.7
Crandall	42	14	75.0
Mathewson	36	21	63.2
Wilke	29	14	67.5
Ames	25	10	71.4

—Philadelphia Athletics—			
Name	W.	L.	P.C.
Bender	47	18	72.5
Coombs	45	29	61.0
Plank	42	9	82.1
Morgan	38	16	70.2
Krause	27	10	73.1

The back-stopping for Philadelphia will be same as last year. Ira Thomas, who took the most of the famous John Kling of Chicago, in last year's series, will be first choice behind the bat, and Lapp, who caught one game last year, will be a close second. Lapp is young, and this season's play has improved him.

"Big Chief" Meyers, Wilson and Hartley will catch for the Giants. But it is needless to give biographical sketches of all the newer stars of the forthcoming series. Experts agree that in no wise can the outcome of the series or of a single game be expected to rest with a single player unless it be the pitchers.

Team for team the opponents are evenly matched as any two that ever fought for the world's title. Experts agree as to this, and recalling their mistaken judgment in picking the Chicago Cubs as a favorite last year, they are prone to play safe and declare the outcome of the present series to be a matter of "delightfully doubtful uncertainty."

Betting Odds Both Ways.
In the betting, odds have been given both ways. Local experts look back to the wonderful rush of the "Giants" through the closing stages of the league fight and pin their faith to McGraw's "Rush them off their feet" slogan and the pitching of "Rube" and "Matty," supported by the all-round excellence of the team.

Philadelphia supporters take account of the fact that their favorites are already world champions and that they won the title by trouncing the Chicago National League club, which gave New York a close race for this year's league title. They believe that General Mack has plotted out a winning campaign and that his men, with an average of 300 at the bat and with what they consider the finest infield in either league, will take world honors as handily as they captured the league pennant this year.

In batting the "Giants" lead the National league at 271, conceding twenty-three points to the Athletics who lead the American league with 294, in extra base hitting the margin of difference is smaller, but still slightly in favor of the Athletics. In the base running department the experts give advantage to McGraw's men, six of whom are leaders in feet-footedness among the National league runners. Altogether the men have stolen 346 bases this season, as compared with 228 to the credit of the Athletics.

So go comparisons, which made from this one angle seem-aw-ful, that the "Giants" to the "Athletics" and back again, leaving both forces quite evenly balanced. If the weight of any one player can tip the scale it will be, experts agree, one of the pitching stars.

GROWS HAIR ON BALD HEADS
Bald-headed People May Get a New Chance in Life.
In these days when youth is the moving factor in business, when a man makes his mark at thirty-five and is ready to retire at forty-five, when call "middle aged" rather than allow his lagging indolence to intrude upon the commercial rush, a bald head is almost one of the things that a man must therefore prove interesting to people who are losing their hair or who are bald.

Resorelin is one of the latest and most effective germ killers discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment, and also creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Placarpin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. Yet, it is not a coloring matter or dye.

The combination of curatives mixed with alcohol as a stimulant perfects a most effective remedy for hair and scalp troubles.

The famous Rexall "93" Hair Tonic is chiefly composed of Resorelin, Beta Naphthol, and Placarpin. It nourishes the scalp healthily, to help the hair, to stimulate the follicles. Where the head is already bare, it enters the follicles, revitalizes the roots, supplies nourishment, and stimulates a new growth.

We want you to try a few bottles of Rexall "93" Hair Tonic, on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except, of course, where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done for hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Remember, you can get Rexall Remedies in this community only at our store—The Rexall Store. The Stafford Drug Co.

That Slim-And-Trim English Suit MUST be Merchant-Tailored.

The soft-front, roll-lapel, natural-shoulder Coat is all in the making. Only merchant-tailoring can give it the unstiffened, unstilted, "high-caste" look that "makes it one" with the wearer's proportions and personality. You'll gain that "London-like" ease and elegance in Clothes tailored by

COFFEE STILL SOARING.
Consumption of Commodity Has Dropped Off 20 Per Cent in Six Months.

A representative of one of the wholesale concerns, in the city yesterday, said that his company is offering very little encouragement to their trade with reference to the future prices of coffee. He expressed the opinion that it will not be long before the cheapest grades of coffee will be retailing at thirty cents per pound. The cheapest grade of roasted coffee is now bringing above twenty-two cents per pound wholesale in New York.

This agent believes from what he has seen of the situation the past few months, that there is a successful corner on coffee. He recalls how coffee was cornered in 1883 by B. G. Arnold and Bowley, Daak & Co., of New York, and Charles Kimball of Boston. At that time the wholesale price of green coffee was boosted to eighteen cents per pound. The syndicate finally went to smash and green coffee fell to five and one-half cents. In 1901 the Standard Oil interests undertook to corner the coffee market and lost millions. He said that the corner that is now on looks like a much better organized deal, because it has the Brazilian government behind it. He expressed the belief that John C. Arbuckle, the coffee man, has planned the whole affair, and he said that Arbuckle will probably boost the coffee

prices until the small coffee roaster may be able to recover some of the roasting trade it used to have before the little roasters became so numerous and cut so deeply into the market.

Green coffee, the commercial man said, is now wholesaling at fifteen and three-fourths cents per pound, but he expects to see the price go to twenty cents. The price of green coffee, he declared, has come up a cent and one-half during the last week.

The price of coffee began to increase a year ago last August. At that time the Ishpeming dealers were paying from fifteen to fifteen and one-half cents a pound for coffee that then retailed at twenty cents. Now the same grade costs them twenty-three to twenty-four cents per pound and they get on an average of twenty-eight cents for it. The commercial man expressed the opinion that the very cheapest coffee on the market will retail at thirty cents per pound by the first of the year. He declared that the wholesale concerns are dealing cautiously with the coffee situation and that they are not trying themselves up with future orders.

In August, 1910, when coffee started on its present upward movement, the Brazilian government started buying up the surplus coffee that was a drag on the market. The government bought 1,000,000 bags, of 130 pounds each, and it took \$85,000,000 to do it. The money was raised by means of bonds, which were floated with New York and London national banks and the coffee that the government purchased was put up as collateral. This same coffee, in the opinion of the commercial man, is now being sold off from time to time as the bonds become due. Up to this time about 200,000 bags of the coffee have been sold. Meanwhile the Brazilian planters have been getting higher and higher prices for the coffee and are now receiving fifteen and sixteen cents per pound, whereas they used to get seven and eight cents. The demand for coffee is gradually falling off. It has declined 20 per cent during the past six months. A great quantity of adulterated coffee is coming into the market and finding ready sale as many people cannot pay the present prices for the real article.

FUNERAL TOMORROW.

The time of the funeral of the late Mrs. Xavier Racine, of Greenwood, has been changed from this morning to tomorrow morning at 9 o'clock. Relatives coming from outside were unable to be here for the funeral if it was held today. Among the relatives who will attend the obsequies is Mrs. John Pappin, Mr. Racine's grandmother, who lives at Crystal Falls. The old lady lived at Greenwood for a number of years and is known to many here.

Ishpeming Department

GENERAL PROPERTY WILL PAY LOW TAX **PAVEMENT WORK TO GO OVER TO SPRING**

Mining Companies on Basis of New Valuations; Others on the Old Figures.

Task of Removing Poles and Wires from Main Street Is a Considerable One.

The increased valuation of the Ishpeming mines will give the public schools of the city \$24,370.50 more than they would have received if the state tax commission had not boosted the figures. The public schools received one mill per annum on the total valuation of the city, but for a few years past the Ishpeming schools have been receiving two mills extra, to provide for the payments on the new high school property, as they fell due.

In order to be certain that the schools are entitled to the additional money that will be raised through the special two mill tax, as a result of the increased valuation, Henry Routhier, the city assessor, obtained legal advice on the question. The attorney told him that the schools are entitled to the money, and the extra sum will be spread on the tax roll. If the valuation in the city had remained unchanged from the figures of last year, the schools would have received \$85,461.50, but the sum that will now go to the schools will be \$109,832, an increase of \$24,370.50. In both cases the \$65,000 that the taxpayers voted at a recent meeting of the school district on Labor day to be spread upon the tax roll for school purposes is included in the total.

Big Boost for the Mines.
Of the total assessed valuation of the city, as equalized by the board of supervisors at its meeting in Marquette this week, the mining companies will pay taxes of \$8,193,500 on their mines alone, exclusive of personal property. Most of the mines will be assessed at from 100 to 200 per cent more than last year. Of the increase above referred to the sum that falls upon the Cleveland Lake and Moro mines is \$2,350,000; the Salisbury increase is \$415,000; Cliffs shafts, \$2,964,000; Lake Superior Hard Ore, \$139,000; and the Oliver companies Section 16 property, \$345,000. The Lake Angeline got off with an increase of \$50,000.

The state tax commission placed a smaller proportionate increase on the Lake Angeline property than on any other mine in the city. The commission found that the ore reserves in the Lake Angeline mine are small. The estimates of the ore reserves were based on the maps, showing the development work, presented to the experts by the mining officials.

A comparison of the total valuation of all taxable property in the city, as the roll was approved by the board of review in June, and the figures adopted by the county board this week, show Ishpeming's increase in valuation to be less than 100 per cent. The assessed valuation of the general property in the city has not been increased, owners of this class of property will pay considerably less taxes than last year, but it is quite certain that the valuations on city realty will be increased by the board of review.

Last year the tax rate in Ishpeming was \$3.28, and the year before the rate was \$3.27. While it is not yet possible to tell what this year's rate will be, Mr. Routhier yesterday expressed the opinion that it will be something above \$2 on each \$100 valuation, so that the taxes on general property will be in the neighborhood of 33 per cent lower than they were a year ago.

City and School Taxes \$174,652.47.
Including the extra sum that will be raised by the special two mill tax for school purposes, the total school taxes of Ishpeming will be increased to \$174,652.47, divided as follows:
City contingent tax \$ 14,000
Highway tax 25,000
Library 6,824.07
Fire fund tax 7,000
School tax 29,888
Firm building tax (2 mill) 29,888
One mill tax 14,944
Sewer fund 11,900
Cemetery fund 1,000

Total \$174,652.47

The one mill tax for school purposes is based on the total assessed valuation as fixed by the state tax commission and the extra two mill tax comes under the same head.

Will Curtail Developments.
According to a prominent Ishpeming mining man, the mining companies will doubtless curtail their plans for development work in the future, as the increased valuations of the properties as fixed by the state tax commission, upon recommendation of Expert Finlay, was based wholly upon the tonnage of ore in sight, as shown by the drill holes and the developments in the working mines. The mining man said that on this basis of taxation it would not be long before the companies paid in taxes a sum in excess of what the ore in the ground is worth. He contends that this basis of estimating mine values is entirely unfair to the mining companies, and says that unless some new system is adopted, the companies will defer their exploratory and development work until they are in actual need of the ore. He said that it would not be good business policy for the mining companies to block out large bodies of ore and pay taxes on their findings for a period of years before mining the product. If this system of assessing the properties is continued, he said, the mining companies will do very little advance exploring in the future, and for this reason the new plan of taxing properties will be a detriment to all of the mining corporations operating in Michigan as well as to other interests.

As the removal from Main street and the reconstruction of the telephone and electric light lines will be a big job, no work will be done on the city will be able to lay the proposed bituminous macadam, this fall. The Marquette County Gas & Electric company has ordered all of the material that will be needed for the reconstruction of its lines and the placing of the poles in the alleys running parallel with Main street, will be started within a few days. About twenty poles will be put in.

Every pole now on Main street will be removed, but three poles will be placed close to Main street. There will be one on Division, near the corner of the Simons' block; one on Pearl street, either near the Anderson or Loth buildings, and one on Cleveland avenue, either alongside the Voelker or the Dundon block.

In order to complete its outside work before cold weather sets in several extra men will be hired by the Marquette County Gas & Electric company. The company has had improvements under way practically all summer. Several additional men could be used on Main street, in Negumee, where a new track is being laid, also at the power plant, where a boiler is to be reset. Manager McCorkindale yesterday said that he hoped he would be able to secure some of the men from the Salisbury mine, who will soon be laid off for two or three weeks, while the shaft is being repaired. The Cleveland-Cliffs Iron company have not yet decided when the work will be started, but it will probably be commenced within a week or two. Mr. McCorkindale said he could use at least thirty men on the three jobs that he will have under way.

The rewiring of the buildings on Main street will cause some delay in the removal of the poles and wires from the thorough fare, as the company will not move the lines until all of the buildings are rewired. About forty places will have to be rewired and it is anticipated that most of this work will be done during the winter months, after several outside construction is finished. In all of the places to be rewired the service wire will have to be changed from the front to the rear of the buildings.

CRIBBAGE TOURNAMENT.
Tailender Trimmed One of the Strong Players Thursday Evening.

The cribbage tournament, being played by sixteen members of the Ishpeming lodge of Elks, becomes more interesting each day, and all the participants are doing their best to raise their percentage. The outcome of Thursday night's contest was the winning of eight games by M. W. Whims from Dr. A. E. Gourdeau, who is conceded to be one of the best players in the lodge. Whims, who has occupied the cellar position for the board of directors, has given several of the other crabbage players similar treatment. He says he has no idea of finishing where the Ishpeming baseball team ended its league series, and as he has sixty-two games still to play he feels certain that some one else will be in last position when the tournament is finished.

Dr. W. S. Picoette is the first to finish his total of 180 games. He closed with ninety-three won and eighty-seven lost, his percentage being 517. W. J. Locher still has six games to play with John Lacey before concluding his series, and as he expects to "put it over" Lacey, he feels certain he will finish with a percentage close to the 500 mark. Some of the participants already conceded the trophy to Whims, while others do not take that view of it. Messrs. Locher and H. J. Heindel expect to meet Israel Dyson and Joseph Schilling in a special match of either seven or thirteen games Sunday.

The standings of those participating in the tournament are now as follows:

Name	W	L	Pct
Locher	102	72	.586
Brownell	82	68	.541
Arank	75	60	.552
Gourdeau	62	48	.563
Heindel	74	67	.525
Routhier	30	31	.492
Eger	45	69	.485
Finnegan	60	57	.513
Ramsdell	68	81	.456
Picoette	87	87	.500
Youngbluth	40	47	.460
Lacey	14	16	.467
Barnaby	42	46	.477
Trevanon	71	89	.444
Vilas	82	74	.525
Whims	46	72	.393

POTATOES OF POOR QUALITY.
Expert from Chicago Gives Marquette County Potatoes a Black Eye.

According to an expert, who recently inspected potatoes raised in this county for L. Starks, the Chicago "potato king," the potatoes here are not of as good quality as in former years, owing to the frequent rains during the summer. The expert spent some time in this section and he inspected potatoes raised in various parts of the county. He found that most of them contain an excessive percentage of moisture, which will greatly impair their keeping qualities. He expressed the opinion that many of the potatoes, especially those raised in the low lands, will not keep through the winter.

The potato market has been acting peculiarly for some time past and is governed largely by the local supply and demand. The wholesale price of potatoes here now is eighty-five cents, while in Chicago they are wholesaling at \$1.25 per bushel.

According to the dealers, apples will be higher than usual the coming year. Fall apples are now retailing at forty cents per peck, but it is expected that the winter stock will bring a much higher price. While the apple crop has been excellent this year, it seems the canning people are preserving a greater quantity of apples than ever before and they are buying up much of the choice

stock, especially the ballwin and spies, which are scarce.

FINDING NEW ORE BODIES.

Hibbing Man Who Visited Here Speaks of Conditions in His Home Town.

Peter Tetra of Hibbing, Minn., spent the past few days in Ishpeming visiting his brother-in-law, Otto Schadt, and family. He left yesterday for Marquette and left last night from the latter city for his home at Hibbing. Mr. Tetra lived for a number of years in Negumee, leaving there eighteen years ago for the Mesabi range, where he has been located ever since. He said yesterday that the recent discoveries of ore in the city of Hibbing necessitated the moving of a portion of the town to a new location. Ore has been discovered on the site of the water works plant, which will have to be moved. The depth of the body of ore found in the well of the water plant is 120 feet, and a mine will be developed at that point.

Real estate values have increased greatly in Hibbing during the past five years or so. Five years ago he purchased three building lots outside of the city proper, paying \$500 for them. He recently sold one of the lots for \$1,000 and he expects to get a better price for the other two, as the town is to go in that direction. Mr. Tetra has been in the employ of the Oliver Iron Mining company at one of its Hibbing mines for a number of years past.

IN SKATING RACES.

Ole Wiggins, one of Ishpeming's speediest roller skaters, tackled Jack Fitch for a speed contest following his exhibition in trick and fancy skating Tuesday and Wednesday evenings at the Elite rink. The first evening they covered fifteen laps, Fitch winning by about a quarter of a lap. The professional, at then challenged Mr. Wiggins and any other local skater for the following night, declaring that he would cover thirty-two laps, while his opponent covered thirty laps, each going fifteen times around the rink. The challenge was accepted by Wiggins and Gilbert, of Negumee, and they gave Fitch a tight run, the professional finishing the thirty-two laps just a few feet ahead of Gilbert, who skated the last fifteen laps. Mr. Wiggins goes to Negumee tonight to skate against Fitch.

DEATH OF FORMER TEACHER.

The unexpected news of the death of Mrs. C. L. Bering, formerly Miss Grace Wook, was received here yesterday in a letter written by a member of the family to Miss Hay of the Ishpeming High school faculty. Mrs. Bering passed away at Waverly, La. She was a former member of the high school faculty in Ishpeming, leaving here some two years ago, shortly before her marriage, and was one of the most popular teachers this city has ever had. She lived here two years. Her marriage took place at her former home at Milwaukee and directly afterward Mr. and Mrs. Bering took up

their home in Louisiana. She was ill only a short time preceding her death.

IS FUNNY COMEDY.

"The Aviator" reached new heights of success, is rich in fun, unexpected incidents, bright dialogue and touches of sentiment that ring true," wrote Harold Wolf, in The New York Telegraph, of the offering at Ishpeming theatre Monday evening. The Truesdale Bros. production is complete in every detail, scenery, costume, electric and mechanical effects, the best that can be secured. The company carries a Beriot XI Monoplane, which makes a trip skyward at every performance.

ISHPEMING IN BRIEF.

John Kujala of Negumee was operated upon for acute appendicitis, Wednesday at Dr. Lindgren's hospital.

Miss Lydia Ring entertained a number of her friends at cards last evening, at her home on Bank street. A dainty lunch was served.

Mrs. J. Doney, 321 Barnum street, entertained Thursday afternoon in honor of Mrs. Jane W. Fielding of Detroit, who is spending a few days in the city.

Colonel Marshall and Major Boyd of Minnesota, will conduct a special meeting this evening in the Salvation Army hall, commencing at 8 o'clock. The public is invited to attend.

Walter Fitch, who managed the Champion mine for several years before it passed into control of the Oliver Iron Mining company, and who is now at the head of the mining corporation in Utah, was in the city yesterday.

Urgel Lavigne's grocery store and meat market, corner Pearl and Pine streets, will be closed Saturday from 9 o'clock until 12 on account of the funeral of the late Mrs. Xavier Racine of Greenwood, who is related to the family.

Will and James Harrington have been called home on account of the critical illness of their mother, Mrs. James Harrington, who has been quite sick for several days. Will Harrington is studying for the priesthood at St. Thomas' college, in St. Paul.

Rev. J. C. Thomas, an Ojibway Indian preacher, will speak tonight in the Young People's hall of the Swedish Lutheran church, on the subject, "Life Among the Aborigines of America." Rev. Thomas will appear in Indian costume. A musical program will also be given. The admission will be twenty-five cents for adults and fifteen for children.

The "open night" at the Young Men's Christian association being Wednesday evening was largely attended, and the athletic program by the seniors was much enjoyed. The gymnasium was well filled with spectators during all of the time the program was being given, and practically all of those in attendance remained for the refreshments served at the conclusion of the entertainment. The Y. M. C. A. orchestra rendered a social program.

Will St. John, clerk of the municipal

Republic

Republic people are getting in their winter supply of coal and wood. Alfred Ringette of Ishpeming visited a few days this week in Republic with his folks. Miss Bertha Suneson has taken a position as teacher in the public schools at Crystal Falls. Charles Leaf has moved his family into the second story of the Munson residence on Klonman avenue. Thomas Kendall an old and wellknown resident of Republic, was reported as being seriously ill this week. Jalmer Erickson has moved his family into the residence on Republic avenue, which he recently purchased from Mungo Wallace. The rival Juniors baseball team will give another of its successful dancing parties Friday evening, Oct. 27, in the Town hall. Martin Suneson and Frank Pascoe this week returned from New Hampshire, where they have spent the past two months doing diamond drill work. Justice of the Peace J. R. Trebles and E. E. Extrum have been appointed by County Clerk Jenks as deputies to sell hunting licenses for Republic and vicinity. Republic sportsmen, who have had occasion to be in the woods during the past few weeks, report that game of all kinds is plentiful, and that deer hunters should have little or no trouble in filling their licence tags this season. Mrs. Granis will accompany the Cederlof family when they leave for Texas, where they will join Mr. Cederlof, who has taken up a farm there. He has spent the greater part of the past year there and has a nice home built for his family, and also has the necessary barns and other buildings. The farm is located near Stowell, Texas. A new and up-to-date hoisting plant was this week installed at the Klonman mine. A large quantity of new machinery has been installed at the Klonman property this past summer and the winter is over it is thought that all of the equipment for the mine and furnace will be in position. T. W. Clemo, superintendent of the Republic schools, and the teachers who attended the sessions of the Upper Peninsula Educational association at Foughton the latter part of the week, returned home Sunday. The teachers in the party were the Misses Pascoe, Extrum, Zeitler, Durand, Clemo, Johnson and Utherg. The steam shovel which has been at work at the Republic mine for the greater part of the summer has completed loading the ore from the stockpile known as the Pascoe pile, and has begun work on the loading of the ore from the pile at No. 8. About 50,000 tons of ore were loaded from the Pascoe pile and as much will be loaded from the No. 8 pile as is possible before the shipping season closes. The Republic mine has been one of the heaviest shippers of ore on the Marquette range for the summer. Some of the mines on the range did little or no shipping at all.

START STYLE REBELLION.

American Custom Cutters Decide to Fight British Fashions. Chicago, Oct. 12.—It has been decided by the Custom Cutters' association that free-horn American male citizens will not be forced to wear the vaudeville garments now being displayed in all the magazines and on fashion plates as the correct thing for the season. Neither will men be required to torture themselves with skin-tight English styles, which require shoe-horns and talcum powder to get on, and which wrench to button. The extreme English style, which makes a man appear as sloping from his ears to his knees, with no shoulders whatever, finds no favor with the custom cutters. The same wave of revolt will sweep from the boards the pettor trousers, which resemble skirts at the hips and are turned up half way to the knees. No money will be shown "out" clothes of any character by the cutters' association.

Upper Peninsula

Life Beater Goes to Jail— Charged with beating his wife, Noah Lafond was arraigned before Judge O. V. Linden at Escanaba and was sentenced to thirty days at the county jail. The prisoner had previously been arrested for the same offense and no alternative of paying a fine was offered him. Refuses to Settle Suit— The common council of Iron Mountain met in special session this week, and as a result ordered to settle with Matt Grimrod for \$1,000. Mr. Grimrod refused to accept the proposition. He is suing the city for \$25,000 damages because of an injury to his knee alleged to have been caused by stepping into a hole in the sidewalk on Carpenter avenue. New Chairman Is Chosen— R. E. MacLean of Wells township has been chosen chairman of the Delta county board of supervisors. He recently moved to Cleveland, O. At the opening of the annual meeting, the name of Mr. MacLean and that of Wesley Gray of Garden township were presented for the honorary position. Mr. MacLean received sixteen votes and Mr. Gray nine.

SCHOOL WHIPPINGS OPPOSED.

Atlanta Mothers Up in Arms Because Boys Are Severely Beaten. Atlanta, Ga., Oct. 12.—As the result of whippings administered to two boys in the Atlanta schools, the day of the rod is being abolished. The women of the city are up in arms against corporal punishment, declaring that it is the place of the parent to administer such punishment as is necessary. Resolutions have just been introduced in the council asking that the whip be abolished. The agitation resulted from the action of Eugene Oberdorfer in withdrawing his son, Donald, from school after a severe whipping and from the report that Eugene Roberts, an undersized lad, has been made half insane as the result of punishment administered in a South Side school.

ALASKANS EAT REINDEER.

See Solution of High Meat Prices on the Pacific Coast. Washington, Oct. 12.—That the reindeer will be an important factor in lowering the high prices of meat on the Pacific coast, and that the meat shippers are already beginning to feel the shortage in demand for beef in Alaska, is the statement made by Dr. James A. Holmes, director of the bureau of mines, who has returned from a two months' trip among the coal fields of the northern territory of the United States. A great future is open to the Eskimo and other settlers in the fertile valleys of Alaska, in Dr. Holmes' opinion, for the land is unusually fertile, and the reindeer herd is able to withstand the cold, winter and resist on moss and other vegetation where cattle would starve. "The reindeer were the most interesting things we encountered," said Dr. Holmes. "Thousands of these animals are now in Alaska and are multiplying rapidly. The Eskimos and others who own them find them indispensable as food and useful for transportation of the produce. The meat of the reindeer is being used extensively for food in the cities, and it is said to be good as the best beef."

LUTHERANS PLAN CELEBRATION.

Will Make Fourth Centennial of Birth of Church a Big Occasion. New York, Oct. 12.—The 2,000,000 Lutherans in the United States are getting ready to celebrate the four hundredth anniversary of the birth of the Lutheran church. The three hundredth anniversary, in 1817, gave the start in America to Lutheran unity and the forming, a little later, of such general bodies as the synod and council. The four hundredth, occurring in 1917, will be, if possible, a time for further unity, especially of synod, council and most of the new independent synods that have made English and not German their service language. A first step toward the celebration in 1917 is taken by the council, the second largest single body in the church, in an endowment fund of \$2,000,000, the income to be employed for missions and other advance work at home and abroad. The recommendation is made by the council committee, and will, it is said, be adopted by the council as a whole. Other Lutheran bodies are considering money plans as part of the celebration of the anniversary, and from now on will come several announcements of them. Lutherans of the United States give to missions about \$2,000,000, and this sum will be maintained, doubtless increased, while the anniversary endowments are being used. The council, just announcing its 1917 plan, has nearly 400,000 communicants. October 31 is the fourth centennial of the nailing of the protest on the wall of Wittenberg church by Martin Luther.

Potato Warehouse in Sight.

If present plans materialize, Stephenson, Menominee county, will have a potato warehouse. The Stark company of Chicago, which owns warehouses in various parts of the country, is soliciting the erection of a warehouse in the potato belt of the upper peninsula which has been raised extensively. The company will build if contracts can be procured for only 500 acres, believing that as the farmers see how the proposition works out the acreage will be much increased. At present about half of that amount has been booked and no difficulty is anticipated in getting the requisite total. G. H. Roe, of Marinette, the company's representative, considers the prospects unusually good. Menominee county, in common with the others of the peninsula, has long been famed for its fine potatoes. Not only has the yield been good, but the quality is excellent. With the advent of a warehouse it is expected that many Stephenson farmers will go into potato raising extensively. The price is not fluctuating and the prices to be paid make the tuber one of the most profitable crops that can be raised.

Favors a Six-Club League.

The board of directors of the Escanaba baseball club has gone on record as favoring the organization of a six-team league next season, representing Marquette, Ishpeming, Negaunee, Marinette, Menominee and Escanaba. It is believed that such a league, playing three games a week, instead of two, as has been the rule this year, would prove a paying proposition for all of the clubs. The Escanaba directors will proceed on the theory that such a league will be formed and will begin at once to sign up players believed to be of the calibre required. Unlike in former seasons the officials will not await until next spring, but will seek applications at once, and long before the opening of the schedule the entire team that will represent Escanaba on the diamond in 1912 will be booked up. The officials already have nearly twenty-five applications for places on next season's nine.

Fine U. P. Exhibit Sure.

The coming Chicago Land show is creating a great deal of interest among the people of the North country. That the upper peninsula will have a first-class exhibit of agriculture products is now assured. Visitors to previous land shows have looked in vain for produce of the northern Michigan. Other parts of the state were well represented and any inquiry as to the farm exhibits from the upper peninsula would bring the reply that there wasn't anything grown here to exhibit. The corn exhibit from this region ought to open the eyes of the most skeptical. There is no doubt that the finest

A CERTAIN CURE FOR CATARRH

The mucous membranes of the nose and throat are exposed to the irritating influence of dust, impure air, etc., and for this reason are the places Catarrh usually first manifests itself. But these are simply exciting causes, the inflammation and discharge being really produced by an impure and vitiated condition of the blood. It is well enough to use some local treatment to cleanse these membranes, but any one can readily see that if the inflammatory matter is left in the blood, such treatment cannot possibly have any permanent effect. S. S. S. cures Catarrh by purifying the blood of all impure catarrhal matter and irritating germs and at the same time builds up the system by its fine tonic effects. When S. S. S. has purified the blood, the mucous surfaces are all nourished and made healthy. There can be no inflammation of the membranes then, because the blood is pure, and every tissue receives nourishment from the purified matter. Our book on Catarrh will give proper advice as to what is best to use as a local aid while S. S. S. is purifying the blood. This book is free, and also special advice you may feel you need. S. S. S. is sold at drug stores. THE SWIFT SPECIFIC CO., Atlanta, Ga.

Supervisors Elect Physicians.

The physicians who will serve for three years as official physicians at the Delta county hospital and attend to all Delta county business falling within their profession were chosen by the supervisors at their annual meeting this week, each one on the first ballot. The doctors named are: W. A. Lemire, M. P. Fenelon and Dr. W. A. Coffey. Dr. Coffey, formerly one of the county physicians, was defeated for re-election by a single vote. Other candidates were: Dr. H. W. Reynolds, Dr. J. O. Groos and H. W. Long.

Ball Club to Give Minstrel Show.

To make up a small deficit that exists in the treasury, the Escanaba baseball club is arranging for a minstrel show to be given at the Peterson opera house within the next thirty days. A. A. Leve, who has been named as manager, and E. E. Levine have been named to take complete charge of the performance, and they have promised to put forth every effort to make the event a minstrel as well as a financial success. It is planned to have as many of the members of the team and the board of directors as possible appear in the cast. The other men taking part will be requisitioned from among the best minstrel talent in the city.

Runaway Causes Excitement.

Iron Mountain people were given a thrill the other morning when Joseph Tamborini's team of horses ran away. Mr. Tamborini was driving along Main street and was enroute to the Scavarda mill for a load of shingles, becoming frightened, the two spirited steeds suddenly and unexpectedly made a dash for liberty. Taken by surprise, and in an effort to control the horses, Tamborini was thrown to the ground. He struck on his head, receiving a wound above the temple. The Capistrano store delivery wagon was close by, and the two horses plunged into this. Their front feet struck a case of eggs, with the result that the eggs were smashed, while a kerosene tank, carried in the front of the vehicle, was tipped over, the oil flowing out on terra firma. Also during the excitement the horses pulled the heavy wagon into the lighter delivery vehicle, which was then smashed and the horses then became entangled in the harness, which complicated matters all the more.

SEISMOLOGY IN AMERICA.

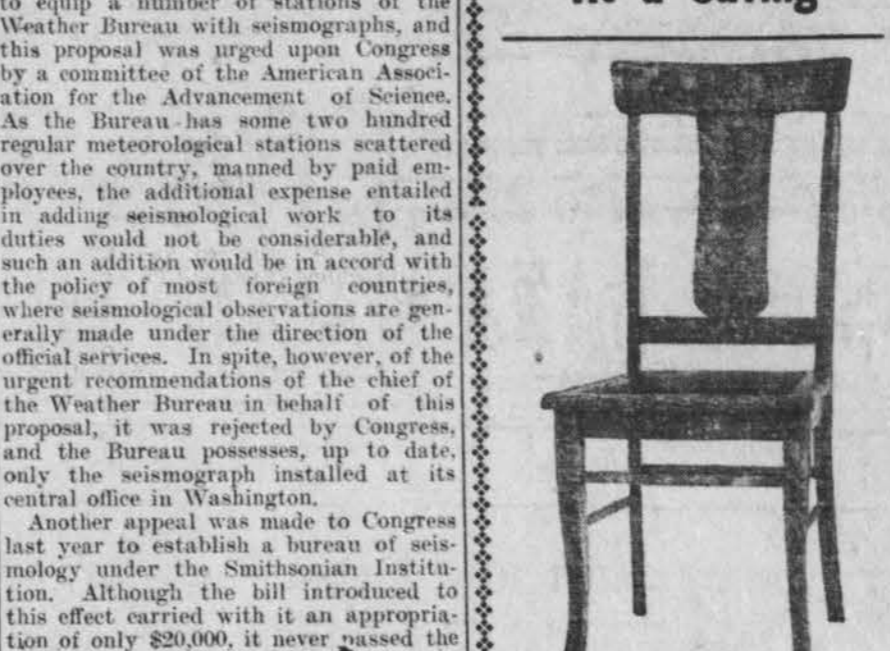

A Science That Has Been Neglected Here, Though Without Reason. The United States has heretofore lagged behind most other civilized countries in the cultivation of the science of earthquakes, and to this day there is no chair of seismology or department of seismology in any American university. Shortly after the San Francisco earthquake of April, 1906, a number of scientific men on the Pacific coast organized the Seismological Society of America, which now has a large membership and number of this publication Professor Andrew C. Lawson gives a timely review of the status of seismology in this country; while elsewhere in the Bulletin appears a list of all the seismographs known to exist in North America and the West Indies. Probably few scientific men realized how numerous these instruments have become on this side of the Atlantic. Forty-three are enumerated within the United States. The instrument which has been most notable for the zeal with which they have extended and organized such installations. Professor Lawson appeals to the Car-

AFTER FORTY YEARS

Camden, S. C., Woman Recovers from Stomach Trouble. No one who is not well nourished can be good-natured. That is why dyspeptics are always irritable. But stomach trouble can be cured in nearly all cases, even after years of suffering. Mrs. Sarah C. Annons, Camden, S. C., says: "I suffered from nervous dyspepsia for forty years and feared I should never get over it. It kept me in misery all the time. I was terribly run down, could not sleep—thought my life was ruined. "Last spring I began taking Vinol and it was no equal. I soon began to improve and now I am a well woman again for the first time in forty years. My appetite is good, I sleep well and have no stomach trouble at all. These are the plain facts. "Take our word for it, when you are weak and run down, cannot eat or sleep, Vinol is what you need, for it will build you up and make you strong. We guarantee Vinol to please—your money back if it does not. The Stafford Drug Co., Marquette; also Fred P. Tilton, Ishpeming, and J. E. O'Donoghue, Negaunee.

F. BRAASTAD & CO.

What an odd, pro-incidental, pleasant little old New York was that of the earliest seventies, just what the waves after-war prosperity had begun to strike its sides and make it feel the impulse toward a progress never afterward to cease.

"LITTLE OLD NEW YORK" IN THE SEVENTIES.

Another relic of twofold historic interest is the alabaster bust of Marie Antoinette, which she herself gave to Lord Ronald Gower at Chislehurst in 1877. It had been discovered hidden away in Marie Antoinette's room in the Tuileries after the mob had broken in and it was always kept on the Empress Eugenie's writing table. On the occasion of her giving it to Lord Ronald the Empress swept it off the table by accident, as it caught in her long sleeves; Lord Ronald hastened to catch it, but before he could do so it had fallen on the floor and the head had come off, severed almost as neatly as if with a knife. The Empress held up her hands in horror and exclaimed: "Poor Queen! She never had a fair chance!"

WHY AMERICAN GIRLS WIN ENGLISH HUSBANDS.

Why does the American girl succeed in "capturing" and marrying so many Englishmen? Is it because she is more attractive than the English girl? Some interesting opinions from novelists, who are familiar with both countries, were obtained on this question by the London Daily Mirror. "The American girl is no more attractive than the English girl—except on the surface," said a well-known writer. "When a man gets to know an English girl well she is just as attractive—even more charming—than her American cousin. "But English etiquette makes it extremely difficult for a young man to get to know a girl without it being thought that he intends to marry her. The

mother, perhaps, is overanxious to see her daughter married, and tries to "push along things" with undue haste. "In consequence the young Englishman hesitates to pay attention to any girl for fear of her matchmaking mother. Matchmaking mothers are practically unknown in the states. "An Englishman is attracted by the American girl because she differs from any woman he has ever known," said Mrs. York Miller, the Anglo-American authoress. "He is struck at first by her apparent selfishness—she is so full of her own life and individual interests she appears to be indifferent to his regard—a new sensation for the ordinary Britisher. "The American girl has not the husband-hunting look in her eye, and marriage to her is not the end-all and be-all of life. "What is the cause of this curious mentality of American women? It is chiefly brought about by their upbringing. All their life they are allowed to associate freely with the opposite sex. "Their intellectual training is more complete than of American men. They are elevated above the male sex. Boys in American families are taught to idealize and obey their sisters. "Although, as I have said, the American girl is not a husband-hunter, she is really rather attracted by the well-bred Englishman. "The English girl's upbringing entirely differs from that of her American sister. "In her home sons of the family come first. She is imbued with the idea—after she has reached a suitable age—that her chief aim in life is to get married. "Thus when she meets eligible young men the English girl is naturally self-conscious, and the husband-hunting look comes into her eyes."

J. H. WINTER IS HOME.

Did Not Hunt Big Game as He Expected, But Had Fine Outing.

Joseph H. Winter, who, together with O. F. Mayer of Chicago, went into north-eastern Canada to hunt big game, returned Wednesday night. When they arrived in the country where they were to hunt, they found conditions such that successful big game hunting was out of the question. Only four or five days of their time in the region was spent in the woods, when they shot small game. However, they spent considerable time in boating and fishing on the St. Johns river, the country through which this river flows being among the most beautiful in the world. The region visited was the Gaspe peninsula, at the mouth of the St. Lawrence river. It is just north of New Brunswick, and is settled by French-Canadian people whose ancestors settled on the land about the middle of the sixteenth century. They make a meager living out of the soil, and do a little hunting and fishing. The country where they have settled is a level strip on the seaward side of the peninsula, at the foot of the hills. The country for miles around is uninhabited. The people are still rather primitive, and some of them have never been out of the territory. Mr. Winter tells of some who never saw a railroad train before a branch of the Colonial railroad built a road and established train service to one of the little villages.

DEATH OF OLD RESIDENT.

Henry Schulte, aged eighty-seven years, died last Wednesday evening. He had lived in Negaunee for over fifty years. His birthplace was in Prussia, Westphalia, Germany, where he was born on November, 1825. He came to this country thirty years ago, during the first part of President Buchanan's administration. He reached Detroit in the fall, and the following spring, at the opening of navigation, he went to Eagle River, in the copper country on the old steamer "North Star." There he worked at the Clinch mine for seven years, and married Juliana Meyers. He came to live in Negaunee shortly afterward, and had been a resident ever since. He was employed for most of his active life by the Jackson Iron Mining company, and stopped work only when he was too feeble to stand it. His only relative in this country was a brother, now dead, who was a deacon for Bishop Baraga, and again for Bishop Mack. His wife died on the fourth of July, 1909. He leaves no children to mourn his death. The funeral will be held this morning at 9 o'clock from St. Paul's church. He will be buried at the side of his wife in the Negaunee cemetery.

MRS. HORAN'S FUNERAL.

The remains of Mrs. John Horan, mention of whose death was made in yesterday's issue of The Mining Journal, arrived here last night at midnight, accompanied by her husband, Mrs. Peter Lemire, and Geo. Lemire. Funeral services will be held in Negaunee at 9 o'clock Saturday morning from St. Paul's church. Mrs. Horan was born in

Negaunee thirty-two years ago. Previous to moving to Saginaw a year ago, she resided at Gwin. She had been ill for several years and the past summer she spent at her mother's home in Negaunee. Three weeks ago she left for her home in Saginaw feeling fairly well. Her death was a great shock to her relatives and many friends.

Besides her husband she is survived by a child of eleven months. Her parents, Mr. and Mrs. Peter Lemire, four sisters and two brothers, are also living. The sisters are Mrs. M. J. Rice, Manistique, Mich.; Mrs. J. E. Schoen, Ishpeming, and Bernadette and Lillian, at home. The brothers are Leo Lemire of Escanaba, and Aloysius of Negaunee. Mrs. M. J. Rice will arrive this morning, and Miss Kate Horan, sister of John Horan, and Mrs. J. H. Zimmerman of Milwaukee, are also expected this morning.

NEGAUNEE VS. MARQUETTE.

There will be a football game between the Marquette and Negaunee high school teams tomorrow at Union Park, commencing at 2:30 o'clock. It will be the second game of the year for Negaunee, but the first game for Marquette. The game will decide Negaunee's standing compared with the other two high school teams of the county. A week ago last Saturday Negaunee defeated Ishpeming rather handily, having a heavier team and more experienced players.

NEW SHOE SHOP.

M. T. Murphy is building a small shoe shop in the rear of his property on Tobin street. It will soon be occupied by Mike Bastello, a shoemaker who, formerly worked here. He hopes to regain some of his old patronage when he is again established in business.

LOCAL LACONICS.

T. A. Thoren spent the past two days on professional business in Hittell.

Mr. and Mrs. C. W. Perkins, of Harbor Springs, are in the city.

B. Rose and H. Miller, of St. Paul, were in Negaunee yesterday.

Dr. Kirby, of Hermansville, spent yesterday visiting in Negaunee.

J. D. Chubb, of Chicago, is in the city, looking after his business affairs.

C. A. Fohrman, formerly a musician of this city, but now a Chicago mining man, is visiting friends and relatives in Negaunee.

Rev. D. C. Planette and wife left last night for Madison, Wis. A large number of their former parishioners were at the train to bid them goodbye.

Nelson Fleeslock and Clara Hanson were married Wednesday evening at the M. E. parsonage by the Rev. D. C. Planette.

A party of Negaunee people went to Marquette last night to attend the ball given by the K. of C.'s in Fraternity Hall. They returned on the midnight train.

Mrs. Louis Miller arrived home yesterday from Chicago, where she has been with her daughter, Louise, who is convalescing at the Augustana hospital after an operation for appendicitis.

Another carload of engine parts was received yesterday from the Allis Chalmers company of Milwaukee, for the

new plant which is being installed at the electric light station. The car will not be unloaded at present, as the parts on it are not needed for the time being.

A new concrete sidewalk at the rear of Mrs. Katherine Quinn's building on Jackson street has just been finished. The work was done by Anton Henriksen. The new sidewalk replaces one laid previously, but which was undermined by a flood of water during the wet weather, and broke in pieces.

AN ELABORATE SUICIDE.

An Englishman's Way of Evading the Law Against It.

Suicides often adopt ingenious methods, but the art of the felo de se seems not to have advanced materially during the centuries. The modern case of a heavily insured broker who on a feigned hunting trip stood barelegged in a quagmire for hours and willfully contracted a fatal pneumonia is matched in cleverness by one 500 years old.

The following facts are well vouched for, and indeed were never questioned. Sir William Hankford, a judge of the King's bench in the reigns of Edward III, Henry IV, Henry V, and Henry VI, and at the time of his death chief justice of England, was a man of melancholy temperament.

He seems to have contemplated suicide the greater part of his long life and during his later years the idea became a fixed purpose. The act was of peculiarly serious consequence in those days for the reason that the law treated it as a capital crime. The offender was hanged at the cross roads, with a stake driven through his body, and all his goods and property were forfeited to the crown, to the utter ruin of his family.

Hankford made good use of his wits and succeeded in accomplishing his purpose without incurring either unpleasant penalty. He gave open instructions to his gamekeeper, who had been troubled with poachers in the deer preserve, to challenge all trespassers in the future and to shoot to kill if they would not stand and give an account.

One dark night he purposely crossed the keeper's path and upon challenge made motions of resistance and escape. The faithful servant, failing to recognize his master, followed instruction to shoot. The servant was protected by his instructions. Hankford had honorable burial and his estate passed to those whose interests as heirs he had so wisely considered.

AVERTS AWFUL TRAGEDY.

Timely advice given Mrs. C. Willoughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "It was being used for some time," she wrote "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and \$1.00. Trial bottle free. Guaranteed by The Stafford Drug Co.

Negaunee Department

STRICKEN CITY ASKS FOR AID

Mayor of Black River Falls, Wis., Appeals to the City of Negaunee for Assistance.

Mayor J. W. Elliott received a letter yesterday from the mayor of Black River Falls, Wis., in which he asks Mr. Elliott to make an appeal to the people of Negaunee for aid for the stricken city. Enclosed in the letter is a set of resolutions adopted by the common council requesting and empowering the mayor to make an appeal to the president of the United States, to the governors and to the mayors throughout the country for monetary aid for the sufferers.

Black River Falls was practically wiped out by a flood October 6th, when the water burst forth from the sides of a dam on the Black River, near Hatfield, Wis. The people of the city were warned in time, and few lost their lives when the great wall of water descended on the city and wrecked the business district. Since the disaster the people have suffered a shortage of food, and many are without homes or shelter. Below is a copy of the resolutions sent to the mayor:

"Resolved, by the common council of the city of Black River Falls, that the mayor be and is hereby requested and empowered to make an appeal to the President of the United States, The Governors of the different states of the union, and the mayors of the different cities throughout the world, for aid in money to aid our grief stricken city whose business portion and a large portion of the residence district has been wiped away the flood on October 6th, and whose loss exceeds \$1,500,000.

"Resolved further, that we request all contributions to be sent to the banks and disbursed on orders of the common council.

"We make this appeal for a deserving and needy people, trusting that the good people of our land will respond promptly and liberally to so worthy a cause, remembering that the Lord loveth a cheerful giver."

"J. J. McGillivray, mayor; H. N. Parsons, city clerk; James F. Austin, B. H. Bright; J. F. Dunn; A. Erickson; R. C. Geharty; Thos. King; Samuel Lund; F. G. Preston."

Just what will be done in the matter has not yet been decided. It has been suggested that the council give \$150.

YESTERDAY'S CELEBRATION.

Italian Societies Observe Columbus Day in a Fitting Manner.

Columbus day was celebrated by the Italian societies yesterday in a fitting manner. In the morning at 10 o'clock, a parade of the members formed in front of the Scandinavian Hall on Gold street, and marched to the corner of Silver and city officials, to the end of the line. The Italian Concert band headed the procession, which was nearly two blocks long. It wound its way through all of the principal streets, and finally back to the hall, where the addresses and city officials, well into the end of the line. The Italian Concert band headed the procession, which was nearly two blocks long. It wound its way through all of the principal streets, and finally back to the hall, where the addresses and city officials, well into the end of the line.

The principal address of the day was made by Emanuel Cavello, who spoke in Italian. He eulogized Columbus, telling of his life and work, and placing him before all other discoverers and adventurers. Marius DeGabelle gave an address of welcome to the city officials who were present.

The day was spent as a holiday by the Italian people. In the evening there was a ball given in the Scandinavian Hall.

ITS EQUAL DOESN'T EXIST.

Shake off the grip of your old enemy, Nasal Catarrh, by using Ely's Cream Balm. Then will all the swelling and soreness be driven out of the tender, inflamed membrane. The fits of sneezing will cease and the discharge, as offensive to others as to yourself, will be stopped when the causes that produce it are removed. Cleanliness, comfort and renewed health by the use of Cream Balm. Sold by all druggists for 50 cents, or mailed by Ely Bros., 50 Warren Street, New York.

GENERAL PROPERTY TAXES WILL BE LIGHT

Mining Corporations Will Pay More Than 80 Per Cent. of Levy in Negaunee.

The tax question has been generally discussed in Negaunee the past few days as a result of the valuations placed on the Negaunee mines by the state tax commission. It is generally claimed by Negaunee people that the city was not used very well, either by the tax commission or the county board of equalization, and many expressions of disapproval of the valuations placed on Negaunee mining property are heard.

The increase in the valuations of the mines will result in much lower taxes for the individual property owners of the city, but it is taken for granted that the valuation of general property will be rearranged next year, so that the taxes to be paid by its owners will be in proportion to those paid by the mining companies. Under the plan of assessing the general properties followed here, the cash values have not been taken into consideration by the board of review, but the rate of valuation on general property in this city compares favorably with the rate of valuation of the same class of property in Ishpeming, and it is certain that next year there will be a big increase in the valuation of this class of taxable property in both cities. It is admitted by the individual property owners here that their assessed valuations average only about 50 per cent. of the real cash value. Inasmuch as the mining properties have been assessed on a basis of their full value, other property will likely be boosted accordingly.

Many people were of the belief, prior to the meeting of the county board of equalization, that the valuation of general property would be increased this year, but this cannot be done until the assessment rolls are made out next spring.

Tax Rate Will Be Low.

In 1910, the tax rate in Negaunee was \$2.43 on each \$100 valuation. The previous year it was \$2.58. In view of the fact that no changes are to be made in the valuation of the general property this year, and because of the heavy increases in the valuation placed on the mining properties, it is believed that the rate on each \$100 valuation will be less than \$1.50, but the exact percentage will not be known for a few days, as there is still considerable work to be done on the assessment roll. It is certain, however, that the mining companies will pay considerably more than 80 per cent. of the taxes in Negaunee.

The increase in the assessed valuation of the city will give the schools nearly \$8,000 more than they would have received if the valuations had not been raised this year. The schools are receiving one mill on the total assessed valuation. Last year's assessed valuation was \$6,250,000, while the valuation as fixed by the county board this week is \$14,000,000.

How Values Are Determined.

The heavy increase in the valuation of the mining properties in the county will doubtless result in a curtailment of exploratory and development work, as the properties were assessed on a basis of their ore in sight, or, in other words, of the ore that has been proved up by diamond drills and underground development. Many Negaunee people do not understand why the valuations in this city were increased so much more than the mines in other parts of the county.

When Experts Leitch and Finlay inspected the mining properties, with facts and figures as to the amount of ore in sight, as shown by the underground development and surface drilling explorations. The mining officials doubtless did not realize that the experts would recommend taxing the properties on the basis of their development and exploratory work, and they consider this unfair, because they may have to pay taxes on the unproved ore for years to come, thereby eating into the profit that might be secured when the ore is mined.

It appears that the mines of Negaunee have shown up a larger percentage of ore in their exploratory and development work than have the mines in other parts of the county, and the heavy increase in the valuations of the properties here is largely due to that fact. During the past five years several new mines have been opened in Negaunee and there is now more ore in sight than there was four or five years ago. Under these circumstances, it is natural to suppose that the mining companies will curtail their exploratory and development work, so that when the tax commission makes its next examination there will not be as large a tonnage of ore in sight.

WILL RACE TONIGHT.

Jack Foteh, the truck roller skater who is at the Palace Roller rink this week, will close his engagement tonight with a mile race. Ole Wiggins, a crack amateur skater of Ishpeming, will be his opponent. The course will be twenty-two laps. Last evening Mr. Foteh pleased a large audience with his remarkable trick skating. Among his accomplishments were some wonderful feats in maintaining equilibrium. The ease and grace with which he was able to go through a maze of figures and steps was astonishing. Tonight Mr. Foteh will again entertain the patrons of the rink and tomorrow night he will present a different line of stunts. At the end of tomorrow night's program he will race Frank Winters, a Negaunee man, in a mile event.

Shake off the grip of your old enemy, Nasal Catarrh, by using Ely's Cream Balm. Then will all the swelling and soreness be driven out of the tender, inflamed membrane. The fits of sneezing will cease and the discharge, as offensive to others as to yourself, will be stopped when the causes that produce it are removed. Cleanliness, comfort and renewed health by the use of Cream Balm. Sold by all druggists for 50 cents, or mailed by Ely Bros., 50 Warren Street, New York.

Predicted by Men Who Are Familiar With Situation That All Property Now Undervalued Will Be Brought Up to Where It Belongs Before End of 1912.

Supervisor Siebenthal to Put Experts at Work in Republic Township—Most Marquette People Seem to Feel That Latest Equalization Should Stand.

There was much discussion yesterday of the figures, presented by The Mining Journal, showing the work of the board of equalization in a manner in which it has affected taxation in the different cities and townships. The general impression locally seemed to be that, the question of principle aside, Marquette had fared pretty well as a result of the board's work, and there were numerous expressions to the effect that the taxation apportioned to it by the board should be accepted without any further question. There was some sentiment that the disposal made of the matter by the board should be contested, but it did not appear to be as strong as that in favor of paying the fiddler without undertaking a legal fight. This latter point of view was expressed by a somewhat informed tax expert, who said: "The Marquette committee is correct in its estimation of the principle of the matter. The board of supervisors never had the information necessary for a true equalization. The committee which did the work yesterday did not have it. The equalization, as it stands, represents a finding made largely on arbitrary assumptions. But I believe the day of this slipshod method of doing this important work is past, for, as has been commented, it is in the interest of the mining companies to insist on a determination of true values throughout the county, so that all property will share the tax burden in the proper proportion with them. I should say that Marquette should accept the work of the board of equalization and bend its energies to putting in a case next year when there will likely be a general shakeup in taxing conditions in the county."

One Supervisor Moves.

Supervisor Siebenthal, who is the manager of the Republic mine, told a fellow member of the board this week that he had already employed three or four men having experience in that work to make, for his information as assessing officer, a true cash valuation of the general property in Republic township. When Mr. Siebenthal has this information, he will be able to make an assessment roll that will value all property in the township at the same ratio, assuming the tax commissioners' figure on the mining property of the township to be 100 per cent. Once this is done, it will be assumed that the taxes apportioned to Republic township will be divided equitably. It will then be Mr. Siebenthal's concern to see that Republic township is equalized in fair relation to the other townships and cities.

Other supervisors in the mining townships will undoubtedly take the same steps Mr. Siebenthal has taken to determine just where they are at. It is probable, indeed, that the board of supervisors, as a whole, will take some action to provide for a proper valuation of the entire county, with the idea of supplying the members with the data that they must have if they are to dispose of equalization with any certainty that they are getting substantial justice to all interests.

Assessment values on general property in the cities of Ishpeming and Negaunee will also be given some marked increases, it is expected. This year the tax rates on this class of property will be unprecedentedly low, for recent years, at least, because of the heavy increases given the mining companies, but when the new assessment rolls are made out it will doubtless be aimed to bring the general property up to about 75 per cent, which was the basis on the mines used in the equalization this week. It is regarded as likely by men who have given some study to the question that it will be but a short time before the entire county is on a 75 per cent basis.

Marquette Needs Attention.

The taxing conditions in Marquette city may well stand for considerable attention, also. It is the assertion of well informed real estate men and tax experts that the claim that Marquette is in at 75 per cent of its true value can be substantiated without any trouble. Blocks in the business district held at high prices, considering their physical condition and the net revenue that they yield. As was demonstrated this week in two instances, some of them can actually be bought for less than they are assessed for. A piece of water frontage assessed for \$41,000 can be bought for \$35,000. Much of the outlying acreage is on the rolls at excessively high figures, considering both what it can be sold for and what corresponding acreages in the other cities of the county are assessed for. The more desirable residence property is in at very high figures, some of it being assessed at 100 per cent on the last selling price.

But while, as stated, there is said to be no doubt that the contention that the city averages an assessment of 75 per cent there are many inequalities of assessment within the city. The values on the rolls have been reached without applying any uniform rule of assessment. The discrepancies between different parts of the city are pronounced. Marquette men who have given some thought to the subject, believe that if the taxation question is going to be thoroughly gone into a complete review of the city by a competent and disinterested expert should be made, and a uniform rate of assessment applied. It is altogether probable that some plan of this nature will be taken up.

WAS BRILLIANT FUNCTION.

Knights of Columbus Ball Last Night a Complete Success.

With Fraternity Hall beautifully decorated and lighted, a large crowd of merry makers thoroughly enjoyed the annual Knights of Columbus ball, given last evening. During a part of the evening the crowd was so large that dancing was difficult, but everybody was bent on having a good time and the crowd was not disappointed. The committees proved themselves excellent entertainers and everyone who attended went home enthusiastic over the success of the event.

The decorations were unusual in that the crepe ribbons which covered the ceiling were draped from the corners, about half between the floor and ceiling, toward the center. This arrangement resulted in better light and gave a more roomy appearance to the hall. The decorations consisted of white and purple crepe paper, ground pine and electrical pieces. The orchestra balcony was covered with white and purple and in the center was a beautiful K. of C. emblem. On the wall opposite the orchestra balcony was a large electric piece, "Welcome," and at the west wall "K. of C." was worked out in many colored incandescent lights. Many declared that the hall was never more beautifully decorated than last evening.

DEATH OF F. L. BEMAN.

Bookkeeper at Pickands & Co., Passed Away Unexpectedly Yesterday.

Floyd Llewellyn Beman, a bookkeeper employed at Jas. Pickands & Co.'s office in this city, passed away very unexpectedly at St. Luke's hospital yesterday morning, at the age of twenty-seven. Mr. Beman had been sick for about six weeks and had been in the hospital two weeks, but his ailment was not considered serious, and only the day before his death he was able to get out of bed and walk about the hospital. Early yesterday morning he was seized with convulsions and died a short time later.

Automobile Went Over Embankment

Seven Marquette Young People Narrowly Escaped Injury at Chocoley Bridge.

An automobile accident, in which the occupants of the car had a fortunate escape from injury, occurred at the Chocoley river bridge, just below Harvey about 10 o'clock yesterday morning. Those in the car were Miss Grace Rule, Miss Eugenia Primeau, Miss Ella Jacobs, Joseph H. Primeau, Jr., George Rule, Jr., and the chauffeur, Joseph Dehor, all of this city.

BUSINESS AT BIG BAY.

Company Expects to Log on Larger Scale the Coming Winter.

According to Theo. Schneider, manager of the Lake Independence Lumber company, the report that the company's plant at Big Bay is to be greatly enlarged and extended in the immediate future has no official confirmation whatever. "You will do me a favor," said Mr. Schneider to a Mining Journal reporter, "if you will publish a denial of the reports going around to the effect that Big Bay is shortly to become a young Chicago. It is true that we are building ten or a dozen houses and that we intend to operate more actively in the coming winter than we have up to this time, but the statement that we contemplate any material additions or enlargements of our finishing factory without foundation in fact is without foundation. Logging operations will be conducted the coming winter on a larger scale than ever before, according to our present plans, and we expect to keep the plant we now have in steady operation during the coming season. Some time in the future, it is possible that we may have a larger plant at Big Bay than we now have, but no important developments in that direction are contemplated this year."

Just now we cannot get men enough to operate the machinery we have, and unless the labor situation improves it is certain that no new finishing plant will be built. We hope to exceed our last year's output during the coming season, but beyond that there is nothing authoritative to be said, and the wild reports that are going the rounds are absolutely without foundation."

SAGINAW WAKING UP.

Considering Plans for Reaching Out for Upper Peninsula Trade.

Concerning plans for the proposed invasion of the upper peninsula by a delegation of trade boosters from Saginaw, the Saginaw Courier Herald contains the following: "Shippers of Saginaw met yesterday morning in the Board of Trade rooms to consider the question of inaugurating a campaign to secure business in the upper peninsula. There was a good representation of business interests and the importance of the territory was impressed upon all. It was pointed out that improved railroad service was necessary and Freight Agent S. S. Armstrong of the Michigan Central stated that he would provide a through car out

By JOSEPH WILLS, Deputy. 10-13-11

HUNTING SEASON OPENS SUNDAY

Down State Nimrods Effectually Prevented from Getting Into the Woods Early.

Whatever may have been said against the game laws as passed by the last legislature, they have their good points, not the least important of which is that it effectually prevents the lower Michigan hunters from going into the woods a week or ten days before the season opens, which has been their custom heretofore. As it takes an upper peninsula hunter not longer than a day at the most to locate himself in camp, it is generally believed that the "Kerosene crowd" has come north this early with the intention of killing a deer or two before the season opened, if possible.

Under the new laws, however, no one can obtain a deer license before the first day of the season without shortening the number of days in any hunt, and the license must be obtained in the county of which the applicant is a resident. As the deer season this year opens on Sunday, Oct. 15, none of the down state hunters can get their licenses until Sunday or perhaps Monday, and the earliest corner will not arrive in the north woods until Tuesday or Wednesday. This will give the upper peninsula sportsmen opportunity to get in one or two days' hunting before the arrival of the down state contingent, a situation which has not obtained for many years. Many local people yesterday remarked that it was strange that no down state hunters had put in an appearance this week, as in past years the city had been visited by many of them in the two weeks preceding the opening of the season. The revised game laws account for their absence. These changes in the laws will probably result in large numbers of hunters crossing the straits next week, and the South Shore railroad probably will be taxed to handle the traffic.

Many Going Out Sunday.

Expressions heard on the street indicate that a large number of Marquette sportsmen will leave for the woods Sunday morning, some to hunt deer and others to hunt partridges. It is the first time that the deer and partridge season opened on the same day, and by many it is thought that this will result in more hunters than usual being in the woods during the first week or so of the season. Others believe that the long season will result in a large number waiting until the season is somewhat advanced before they take out their licenses or go into the woods. Unless this is the case, the danger of hunting accidents will be greater than ever before, and hunters will do well to exercise the utmost precaution to prevent accidental shooting of their fellow hunters.

ORMSBEE & ATKINS

Nester B'k, Washington St.

of here every night, arriving at St. Ignace at 8 o'clock the next night. If the local shippers would guarantee 1,000 pounds of freight, Ralph C. Morley, of Morley Bros., who have a large upper peninsula business, believed this amount could be easily furnished. George F. Dice, who formerly traveled in that territory, spoke of the great possibilities and believed Saginaw should make an effort to gain the trade.

Secretary Tracy read a telegram showing the many places which could be reached from St. Ignace. Saginaw is the nearest large city to the big territory, and as stated by upper peninsula men, if Saginaw can deliver the goods its merchants will be welcome, as this city has an advantage over Detroit and others by its direct connection. Among the cities which may be reached from St. Ignace are Calumet, Houghton, Hancock, Sault Ste. Marie, Newberry, Marquette, Iron Mountain, Escanaba, Menominee, Ishpeming and Negaunee. Nothing was decided upon but the matter will be further considered.

You Cannot Economize By Wearing Cheap Clothes

Your initial expense will be less but your final expense will be greater. Discontent with yourself, shyness with your friends will all go into the cost.
