

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per year, by mail, \$9.00; Per month, by carrier, \$0.90

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

MARQUETTE, MICH., OCT. 16.

AN IRON COUNTY VIEW.

P. H. O'Brien, editor of the Iron River Reporter, discusses the work of the tax commission in the iron counties last week at some length. He is less disturbed at the conclusions reached by the commissioners than are some other editors who have commented on the subject.

After reviewing the figures the commission fixed on the mines and known iron properties of Iron county, he says: Many of the mining companies vigorously protest that this is an unjust valuation, that the physical condition of the mines do not warrant any such valuation and they threaten to pay their taxes under protest, other companies look at the matter in a more reasonable light, asserting that while their taxes may be high this year that another year or so conditions will be so adjusted that they will have no kick coming.

There is no doubt that in the hurry of making out such an assessment as was required inequalities in valuation have been made, but these are matters that time will adjust satisfactorily. There is no question but in the past mining companies, like the railroad companies, have had the best end of the taxation question, and for that reason they should not show now that they have cold feet. There are none of us who want to pay more taxes than we are obliged to, but if we have the property, and the other fellow is assessed in the same manner, then we should not object to paying a tax that is just and fair.

We understand that The Reporter is blamed to some extent for this exorbitant raise in mine valuations, because it has everlastingly kept on boosting the resources of the county. This is a compliment that we were not looking for and did not expect, but it is a compliment that we thoroughly appreciate. We have no desire to be the means for molesting anyone, last of all those who have been our friends; but in this instance we do not feel that anyone has been misled intentionally or unnecessarily.

It is refreshing to learn that combinations in restraint of trade like the National Electric Lamp company are being broken up. The operations of this company were explained at some length in The Mining Journal's local columns Saturday. It was made up of sixteen manufacturers in agreement to maintain uniform prices and destroy competition.

The same methods, it is stated, have been followed by manufacturers of other electrical equipment, and in only large machinery, such as generators, has there been any real competition. It is claimed that 90 per cent of the electrical industry has been effectively monopolized for many years past.

has not attracted much public attention and thus one that has escaped the public criticism that has been directed at other combinations. But it has been as busy on the job of exploiting the public as any of the illegal combinations, and has been earning swollen profits through its agreements to avoid real competition.

The Ishpeming Record says that the attorneys of the mining companies will give very careful study, in the interval before the time when the taxes will be due, to the legal aspects of the situation created by the increases the tax commission gave the mine valuations, and that they may decide to fight the taxes, on the score of their alleged injustice.

The committee conducting the inquiry into the election of Senator Stephenson refuses to have its activities in any way abridged. Mr. Littleton, attorney for Stephenson, has been informed, on his attempting to argue objections to the committee's procedure, that it is the members' purpose to direct the inquiry along the broadest and most comprehensive lines and that it does not intend to pay any attention to objections seeking to restrict the scope of its work.

Ishpeming is going to pave Main street, its principal business thoroughfare, with treated macadam next season. If they have not already done so, The Mining Journal would suggest that its commissioners of public works inspect the asphalt macadam that has been laid in Marquette the past two seasons.

The Ishpeming Iron Ore remarks, in the course of an article on the proceedings before the board of equalization last week, that "we don't blame the people of Marquette." It's a wise people who look after their own. Self interest is an important motive in public affairs, and the community that sits by and waits to have other communities put its interest ahead of their interest usually finds, when the meeting is over and the final adjournment is taken, that it has been left with an unusually tart lemon in its hands.

We would dislike to be as seriously disturbed over anything as Messrs. Baldwin and Guck, editors of the Escanaba Journal and the Houghton Gazette, respectively, are disturbed over the continued existence of Chairman Knox, of the Republican state central committee. They are in a condition of acute Knox-phobia. If their cases continue to increase in virulence they will call for heroic treatment from scientists accustomed to deal with these ailments.

The initiative and referendum are regarded in California as emergency measures, to be used only when the ordinary instruments of government fail to give the results that can properly be expected of them. Let the Southern Pacific, for instance, establish its old time dominance over the legislature, and they would be found to come in very handy.

Senator Cummins says that President Taft's trip through Iowa was a failure and made matters worse than they were before he visited that state. Senator Cummins is, however, a prejudiced witness. The defense should have an opportunity to put in its case before the public returns judgment.

neither does one game win a world's championship baseball series. Senator Stephenson's weak point is the inability of his campaign aides to prove that his \$107,000 was spent without corruption. His strong point is the apparent inability of his enemies to prove that any part of it was laid out in an illegal manner.

When we attain the millennium, among other things we will doubtless see the identity of the world's greatest baseball team established without the accompaniment of a ticket scalping scandal. The football heroes are chaffing. But they should be patient. They will receive their fair meed of recognition in a few days, just as soon as that Athletics' Giants series is out of the way.

An Illinois legislator takes great risk in departing from the straight and narrow path. He can't tell at what moment the spotlight will be turned on his peccadilloes.

Judging by the time it is taking to obtain the first juryman, the case of the McNamara's will be with us for some months to come.

State Press

Captain Piazza is in command of the Italian fleet or aeroplanes. The captain sounds more like a front porch than an aviator.—Grand Rapids Press.

Danlay may have to hustle some, but Solicitor McCabe, we have no doubt, will be able to land a lucrative job with some catsup manufacturing company.—Saginaw News.

Not since the days of rare old Ben Franklin has an American excited more interest in Europe than Thomas A. Edison on his recent tour. They call him a "big un."—Kalamazoo Telegraph Press.

Colonel Bryan sees no necessity for him to examine for the presidency. A big majority of his fellow citizens never saw any. There's not only no necessity, but there's no demand.—Lansing State Journal.

Any man who spends \$100,000 to secure his election to the United States senate, buys his senatorship just as completely and just as commercially as though he bribed a legislature, because the money is the motive power; and where money is the predominant factor in a political situation there is political corruption regardless of how the money is used.—Grand Rapids Herald.

A Laugh or Two

Only in Self-Defense. President Alderman of the University of Virginia is a brilliant orator and makes it a habit to travel through the country delivering speeches to the alumni associations of the institution which he governs. On one occasion he was making such an oration and was in the midst of a glowing star-shaking tribute to the old students when he stopped and said: "The fact of the matter is, gentlemen, that the alumni of the university are dear to my heart, whether they commend me or abuse. I am like the Irishman who lined up his family of seven giantlike sons and invited his caller to take a look at them.

"Ah! they're the line boys!" inquired the father. "They are," agreed the visitor. "The finest in the world!" exclaimed the father. "An' I never laid violent hands on any of 'em except in self-defense."—Popular Magazine.

Marse Henry—Tells This One. Henry Watterson, editor of the Louisville Courier-Journal, was a member of a newspaper men who during a convention of that fraternity, were one afternoon talking of typographical errors.

"While I've heard of a great many funny typographical breaks in my time, but the oldest and most humorous transposition of types that ever came to my observations was that in a New York paper some years ago. "The paper used to print its shipping news on the same page with the obituaries. Imagine the trouble which the readers found the captions changed one morning, a long list of respectable names being set forth under the marine head, "Passed Through Hell Gate Yesterday."—Kansas City Star.

Then He Flew. A gentleman who was anxious to catch a certain train had with him a horse, and the best way to make him go faster is for you to bet me half a crown he won't catch the three-forty-five. "That'll put him on his mettle directly he hears it, and he'll fly like the wind." The cabman won the half crown.—London Tit-Bits.

Versatile. "Madam," remarked the weary wayfarer with the bandaged eye, "I was not always as you see me now." "I know it," replied the stern-visaged woman at the back door. "The last time you were here you had on a deaf and dumb sign."—Puck.

Proved. The skipper was a man who had a good opinion of himself and his notions. He had pulled through shipwreck, mutiny, and other perils of the deep, but he came a cropper once. For on one of his voyages he had shipped a boatswain's

Here and There

The mammoth gusher in the Poconero de Llano, held state of Vera Cruz, Mexico, was recently allowed to perform for twenty minutes for officials of the Texas company and the Gulf Mining Reclaiming company, according to the Mining and Scientific Press. The gate valve, which opened for the first time since the well was brought under control and a column of oil shot into the air to a height of 400 feet. The flow was estimated at 100,000 barrels daily. With the possible exception of the Dos Fuegos gusher, which burned out, the Poconero is the greatest in the history of the oil industry.

During August the topographic engineers of the United States Geological Survey made field surveys of 6,517 square miles—over 4,000,000 acres—in various parts of the country, ranging from swamps to high mountain areas. The surveys comprise actual map-making on the ground, and the putting on the map of every natural and artificial feature in its exact relative position as it actually exists in the area surveyed.

The use of meters on electric cars, states Electrical Industries, has now become the rule rather than the exception, and within the next year or two the meterless car will be almost a curiosity. Testimony to the value of the watt-hour meter continues to accumulate at a most gratifying rate for three out of every four cars are fitted with meters on the watt-hour principle. The long controversy between the two types of meters may therefore be regarded as practically settled by an overwhelming majority.

Harvard's famous class day tree is about to hear the call of the woodman. The noted old elm, which has outlived its neighbors and fought bitterly against the ravages of time and the attacks of the elm beetle, is fast decaying and must soon die. One by one its comrades have become a prey to the saw and ax. Red oak saplings have been planted where many of the old elms were taken out. The senior class men have for years gathered beneath the friendly shade of the old elm and bade their last farewell to alma mater.

"We are not disposed," says the "Congregationalist" of Boston, "to apply a coat of whitewash to our American colleges indiscriminately. In many of them there is too much drinking and too much smoking, also. Drunkenness, we believe, is comparatively rare, and the social evil far less in evidence than among large groups of young men who do not go to college."

In all the schools of Boston "Health Day" was observed last Friday, the first Friday in October being set apart as a day on which special instruction on the 7th day of November, A. D. 1911, for the trial of said premises, and the owner or owners, and all persons who may have or claim any interest, are hereby cited to be and appear at the time and place aforesaid to show cause, if any they have, why a final decree should not pass as prayed for. N. J. WHELAN, By JOSEPH WILLS, Deputy. 10-13-11

FLOWERS IN CEREMONIES.

When the swartly Spaniards captured Mexico, they found in the lake which almost surrounded the capital city many floating gardens, the fragrant products of which were used only for the temples. In Greece and Rome flowers were made into huge triumphal arches, and a special feast of flowers, known as the Flora, was established in their honor.

BOND ISSUE.

CITY OF MARQUETTE, MICHIGAN. (Exempt from taxes in Michigan). The Board of Fire and Water Commissioners of the City of Marquette offers for sale \$65,000 Water Works Improvement Bonds of said city, and will receive tenders for the whole issue, or parts thereof, at its office in the City Hall until Tuesday, October 24, 1911, at 2:00 p. m. in rate of interest 4 1/2 per cent, payable semi-annually on April first and November first. Denomination \$1,000, unless otherwise specified by buyer. Bonds to be coupon or registered. Date of issue, November 1, 1911. Principal and interest payable at the office of the Treasurer of the City of Marquette, City Hall, Marquette, Michigan. All tenders shall provide for the payment of accrued interest from date of bonds (Nov. 1, 1911) to date of delivery of the bonds and to be accompanied by certified check for one-half of one per cent of amount of bonds bidder proposes to take. The right to reject any or all bids is reserved. BOARD OF FIRE AND WATER COMMISSIONERS, JOHN P. KERN, Secretary, City Controller.

OFFICIAL STATEMENT.

CITY OF MARQUETTE, MICHIGAN. Estimated real value of all property in Marquette, Michigan, \$1,000,000.00. Assessed valuation for taxation year 1911, 632,325.00. Same as equalized for year 1911, 679,000.00. The valuation of the property owned by this city as appraised by the City Controller March 1, 1911, is: City buildings and land \$3,400.00. Water power elec. 250,121.00. Water works plant, 209,757.00. School, 30,000.00. Public library, 84,550.00. Public parks, 100,000.00. Cemetery, 120,940.00. Street making outfit, 29,757.00. Rate of taxation, all purposes, year 1910, 0.0273.

BONDED DEBT.

Total school bonds, 70,000.00. Total City Hall bonds, 50,000.00. Total City Improvement bonds, 10,000.00. Total Water Works bonds now outstanding, 85,000.00. Total Light and Power bonds authorized but not yet issued, 100,000.00. Total Water-Power and Electric Light bonds now outstanding, 15,500.00. No total debt, \$328,500.00. No floating debts of any kind. No sinking fund.

The City of Marquette has never defaulted nor contracted any financial obligation whatever and there is no litigation nor controversy over the corporate existence, boundaries or powers of the municipality, nor any of its officers, nor as to the validity of the proposed issue of bonds Nov. 1, 1911, for the purpose of extending the water works intake under authority of the act of the Legislature of the State of Michigan Local No. 353, approved March 18, 1897, as amended by local No. 378, approved March 7, 1897, and voted by the electors of the city at the special election held May 5, 1911, by a vote of 286 for, to 142 against the issue. The net revenues of Board of Fire and Water Commissioners for the past year, over and above operating expenses, was \$13,301.62. BOARD OF FIRE AND WATER COMMISSIONERS, JOHN P. KERN, Secretary, PETER PRIMEAL, Controller. (10-13-1911)

Copper Country

IMPORTANT TRIAL IS TO OPEN TODAY

Mrs. Laura Stannard to Answer at Ontonagon to the Charge of Murder.

The most important murder trial held in years in the upper peninsula will be that which opens tomorrow before Judge Richard Flannigan in the Ontonagon county circuit court. Mrs. Laura Stannard of Greenland is to be tried on a charge of murder. She is accused of having caused the death of her husband, Charles F. Stannard, March 25. The prosecution charges that she administered poison.

The case has excited a great deal of interest in the copper country and much attention has been given it outside, largely because of the activities of old yellow correspondents. It is true that Mrs. Stannard is a member of an old Ontonagon county family, the Chynoweths, and that her husband's family is just as prominent, but fact makes for local interest. But there are no sensational details in the case. While poison is alleged to have been found in the husband's stomach, it is for the prosecution to prove that Mrs. Stannard administered it. The defendant has been in jail since her arrest several months ago. She was refused bail by the court.

Prosecuting Attorney John Jones will have the assistance of Judge of Probate Van Slyke and Attorney W. A. Burritt of Hancock. Hon. P. H. O'Brien of Laurium is chief counsel for the defense and he will be assisted by his law partner, E. F. LeCompte, and Arthur H. Brown, circuit court commissioner of Ontonagon county.

It is expected that there will be great difficulty in getting a jury, because of the wide publicity given the case and because of the sympathies of Ontonagon county people for and against the defendant.

The Mining Journal will have a special representative in attendance at the trial and will give a full report of its proceedings daily.

PLAN TO ORGANIZE LEAGUE.

Copper Country Bowlers Will Try to Get Together Wednesday Night.

The meeting of copper country bowlers called for last Friday night at Calumet did not materialize to the extent that the more enthusiastic bowlers hoped for, and no definite action was taken. Captain Treloar of the Houghton team has sent out cards, calling for another meeting Wednesday night at the Laurium Social club. It is expected the county league will then be organized.

The bowling committee of the Calumet Social club has perfected the organization of a league, prepared a schedule and lined up ten teams of eight men each. Five teams are named for well-known copper country rivers and five are named for prominent copper country lakes. The lake teams will bowl the river teams only, not meeting between their own divisions, and at the conclusion of the schedule the winners in one division will bowl the winners of the other division for the championship of the league. The first games will be bowled tonight, when the Montreal river and Mosquito lake teams will meet. The schedule will continue throughout this month and November. The teams are the Mosquito, Fanny Hoe, Seneca, Gratiot, La Belle, Montreal, Trap Rock, Piglac, Sturgeon and Otter.

The schedule for the coming five weeks in the Y. M. C. A. Commercial league of Calumet will be opened this evening, when the Commercial and Tamarack teams will bowl. Wednesday evening the Independent and Laurium teams will bowl and the Calumet & Hecla teams will bowl Thursday evening. Throughout the season scheduled games will be bowled Monday, Wednesday and Thursday nights. Following the holiday season the league will be given a new schedule which will likely contain twice as many games as the schedule starting tonight.

INCENDIARISM SUSPECTED.

Buildings of Coppo Chicken Ranch Near Calumet Destroyed.

Fire believed of incendiary origin destroyed the hennery buildings at the chicken ranch and farm of Peter Coppo, near Calumet. Mr. Coppo was digging potatoes near the hennery when he noticed the blaze. He telephoned for assistance and men went to fight the fire, their work saving the Coppo clubhouse and a large barn, filled with hay. The two-story poultry house, contents, including incubators and other equipment, were destroyed. The loss is \$3,000. This is the second fire Mr. Coppo has suffered at his chicken ranch.

A large area of stubble and grass land the farm was burned over, the flames being driven to the grass by the brisk easterly wind. There was no loss of stock. Mr. Coppo has been one of the most successful chicken raisers in the district. He will rebuild his hennery, probably this fall or early in the spring.

The U. S. Government in its "Pure Food Law" does not "indorse" or "guarantee" any preparation, as some manufacturers in their advertisements would make it appear. In the case of medicines the law provides that certain drugs shall be mentioned on the labels, if they are ingredients of the preparations. Ely's Cream Balm, the well-known family remedy for cold in the head, hay fever and nasal catarrh, doesn't contain a single injurious drug, so the makers have simply to print the fact that it complies fully with all the requirements of the law.

ANCIENT CRAFT IS PATCHED UP

Schooner Exile Undergoes Temporary Repairs and Is Taken Out by a Steamer.

The schooner Exile, which was waterlogged and sank in Lydon harbor of refuge near the Portage lake canal two weeks ago, was patched up at Houghton Saturday under the direction of Captain Gary of the firm of Gary & Shannon, of Saginaw, owners of the craft, and left Houghton Saturday night in tow of the steamer Homer Warren. What disposition will be made of the old schooner is not known. Captain Gary would not say that she would be repaired and put into commission again. She is forty-four years old and she looks it. The Exile was built at Milan, O., in 1867. She was a smart little schooner on those days and well known on the upper lakes. Captain Fred Rogers of the Portage Lake Steamer International knew the Exile for many years ago. Captain Rogers was then fifteen years of age and was cook in the old tug Old Fellow, the other side of Marquette. Captain Wayne Hursley of the Soo was captain and his brother, Captain Jay Hursley, later mayor of the Soo, was engineer. The Exile was downed that fall with a cargo of lumber, traveling under full sail. A snowstorm came up and the captain lost his bearings somewhat, so that he went into the Choslay bay, the other side of Marquette. He put out his anchors but they dragged and he soon found himself drifting into the Choslay river, four miles from Marquette. He let his anchors go and the schooner gently floated up the river and landed at the old furnace dock. She wintered there. There is a sanbar at the mouth of the Choslay and in the winter this piles up at a great rate so that in the spring when the Old Fellow was sent to tow the Exile out into the lake it was found necessary to dredge her out of the sand. She was pulled into the lake and sailed away, none the worse for her experience.

Experience of the Leuty.

The steamer, D. Leuty, towed into Houghton for the purpose of being repaired last Friday night, had an unusual experience. She was loaded with lumber out of Pennington and was just off Houghton when her crank pin broke. Captain W. C. Spaulding rigged up a sail out of the lumber in her deck load and this kept her from going ashore. She was at a point sixteen miles from Pennington. The mate, Mr. Huyser, and a party took a small boat and rowed to Pennington to get the Morse. The tug went out and picked up the steamer. Repairs are being made on her at Charlevoix. The D. Leuty is one of the old lumber steamers of the lake. She was built in 1882 at Lorain, O. She is now owned by the Saginaw Bay company of Cleveland.

GUN TOTER ARRESTED.

Henry Sehmbach May Be Prosecuted Under the New State Law.

An example is to be made of Henry Sehmbach of Dodgeville. He was arrested Saturday night at Dodgeville, the Houghton suburb which is productive of so much Saturday-night disturbance, on a charge of shooting a revolver, or rather of having it in his possession. Sehmbach and a number of others were engaged in a general altercation when Officer Maler arrived. Sehmbach was firing a long-barreled .38-revolver promiscuously and it was a wonder that he did not hit any of the bystanders. He and two others were arrested and at the jail it was found that he had a plentiful supply of ammunition.

The gun toter will be charged with carrying concealed weapons, under the law made in the last legislature, which law makes the crime a state prison offense, punishable by two years' imprisonment. There seems to be a question as to the application of this law in some portions of the state. Sheriff Brown is acting under the impression that it affects the whole state and will prosecute Sehmbach accordingly. His intention is, if possible, to make such an example of this offender, that the practice of carrying revolvers, not uncommon in Houghton county, will become less popular.

GREAT SINGERS ARRIVE.

Alice Nielsen, Riccardo Martin, and Their Associates.

Miss Alice Nielsen and Riccardo Martin, the great American grand opera opera singers who are to sing in concert at the most important musical event ever given in the upper peninsula. This statement is made in view of the fact that such singers as Mme. Schumann-Heink and Mme. Melba have sung here, too. The company is virtually an opera company, giving as it does, scenes from operas in costume. Miss Nielsen is the greatest living prima donna of American birth, with the possible exception of Emma Eames. Mr. Martin is the only American tenor ever to attain grand opera rank.

WILL SPREAD TAXES TODAY.

Houghton County Board Has More Than Half Million to Raise.

A meeting of the Houghton county board of supervisors for the purpose of spreading the 1911 taxes will be held this morning. A rough guess, based on reports and estimates furnished the board at the meeting a week ago, places the amount of the county taxes to be spread at \$533,227. This does not include the township taxes, which will be spread at the same time, nor the taxes of the various wards of Hancock for local purposes.

HUNTING SEASONS OPEN.

The deer and partridge season opened in the copper country yesterday, as it did elsewhere in the upper peninsula. There was a consequent rush to the woods by hunters. The early hunters are mostly after partridge, as deer hunting under present summer conditions is a difficult matter. The great bulk of the deer hunters will start the arrival of the snow before starting out. At that, County Clerk Kay was issued up to Saturday afternoon 200 licenses, not including the number issued by deputy clerks in other parts of the Houghton CHAMPIONSHIP.

DEMOCRATS FIGHTING HARD FOR KENTUCKY

Old War Horses Making Mighty Effort to Take Control from Republicans.

Louisville, Oct. 13.—The Blue Grass state is in the throes of a real political campaign. Republicans would retain their grip upon the honorable office of governor for another four-year term. Democrats are trying to wrest this office from them. All Democrats of eminence in the nation, Kentucky-born, are faring forth into their native domain sounding keynotes. Old war-horses of ancient days, for no factional reasons or otherwise have refrained from action, are now getting into the fray. Accordingly the Kentucky-born are faring forth into their native domain sounding keynotes. Old war-horses of ancient days, for no factional reasons or otherwise have refrained from action, are now getting into the fray.

ODD FELLOWS DEPART.

A party of twenty copper country Odd Fellows left Saturday night for Saginaw to attend the grand lodge meeting. They left in a special lodge motor from the Copper Range railroad.

HANCOCK MEN TO LABRADOR.

Carl Swanson and Gus Skjerven of Hancock left Friday night for Labrador to join a party of twenty-five persons formed for the purpose of investigating reports of the finding of gold in that region.

AVIATOR HERE NEXT SUNDAY.

Thomas McGoey, the Duluth aviator, will make flights at the Laurium Driving park next Sunday afternoon. McGoey has made successful flights in and around Duluth. His coming to the copper country is a private enterprise.

MINE WORKER KILLED.

Peter Fabbri, employed in the Quincy mine, was killed Saturday. He was employed operating an electrical motor and when he stumbled in front of the motor and fell, he accidentally pulled the throttle and the motor passed over his body. The deceased was twenty-eight years of age and is survived by a bride of three months.

DUAL JUBILEE OF CARDINAL GIBBONS

Ecclesiastical Celebration at Baltimore Is Participated in by Many Prelates.

Baltimore, Mo., Oct. 15.—In the cathedral here, where fifty years ago he was ordained a priest, the late cardinal, John Joseph Gibbons, presided at a secreted a bishop and invested with the pallium of an archbishop and twenty-five years after his ordination received the red hat of a cardinal. James Cardinal Gibbons today received honors from illustrious prelates and laymen from all parts of this country and foreign lands.

The ecclesiastical celebration of the cardinal's dual jubilee began this morning with pontifical high mass, celebrated by the cardinal. Archbishop John J. Glennon of St. Louis delivered the sermon, which was an eloquent eulogy of the head of the American church. The music was chiefly Gregorian, though there were intervals of figured music and orchestral instruments were employed in the choir, relieving the somber color of the Paestrum harmony.

In the procession, which for impressiveness probably never has been surpassed in this country, were nine of America's twelve archbishops and about thirty bishops, included among the archbishops was Diomedo Falconio, the apostolic delegate.

Following the mass, dinner was served to the visiting clergy at St. Mary's seminary. In response to a toast to the president of the United States, Archbishop John Ireland of St. Paul said the sermon was delivered by Archbishop James H. Blenk of New Orleans.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. It is called kidney trouble. It is a heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. It is a kidney trouble that allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves breaks down and waste away cell by cell.

Bladder troubles are the result of a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince anyone.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle sent to you that tells all about it, both sent free by mail. Address: Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root if you do you will be disappointed.

PHILADELPHIA PARK IS WET AND SOGGY

Because of Heavy Rain, Giants and Athletics May Not Play Today.

New York, Oct. 15.—The National league baseball game between the Philadelphia Athletics and the New York Giants, which was scheduled to play today, has been postponed because of heavy rain. The Athletics and the Giants are scheduled to play tomorrow.

Sex Trounce the Cubs Again.

Chicago, Oct. 15.—The largest crowd that ever has witnessed a baseball game in Chicago saw the Chicago American league team win its third successive game from the Chicago National league club in the city championship series today. The score was 4 to 2.

Appealing Through Stomach.

Meanwhile Democratic managers are delighting the populace with monster barbecues and feeding the hungry ones with free food. The Democrats are faring forth into their native domain sounding keynotes. Old war-horses of ancient days, for no factional reasons or otherwise have refrained from action, are now getting into the fray.

Reds Win Ohio Championship.

Cleveland, Oct. 15.—Cincinnati won the inter-league series to decide the championship of Ohio today by defeating Cleveland in the second game of a double-header by a score of 7 to 0. Cleveland won the first game, 4 to 2. Six games were played to decide the supremacy of the teams, one at Cincinnati and five at Cleveland. Cincinnati won the first three, dropped the next two and then won the sixth. Cleveland won its first game today because of the effectiveness of Pitcher Karger. First game:

Browns Defeat Cardinals Twice.

St. Louis, Oct. 15.—The Americans won two games today from the Nationals in the major league series for the city championship by scores of 6 to 2 and 10 to 8. The second game was called in the fifth inning on account of darkness. First game:

Court's Ruling Whether Talesman Nelson Shall Serve as Juror Is Awaited Eagerly.

Los Angeles, Cal., Oct. 15.—Judge Walter Bordwell, before whom James B. McNamara is being tried on indictments charging murder in connection with the explosion of the Times building, occupied himself today with the study of the answers made by Talesman Z. T. Nelson when examined on the subject of labor warfare and the guilt or innocence of the defendant. Tomorrow the court will give its opinion. Allowing or disallowing the challenge of the defense that Nelson is biased against the man on trial, the principal figures in the case rested today, no conference or other developments materializing.

Passengers Suffer in Train Collision.

Wreck Near Omaha Causes Seven Deaths and Injuries to Many Persons.

Omaha, Neb., Oct. 15.—Seven persons were killed and twenty-nine were injured, four of them seriously, in a collision between a Missouri Pacific north-bound passenger train, enroute for the city, and a fast freight train. The accident occurred at Fort Crook, ten miles south of this city, at 10 o'clock this morning. The accident is believed to have resulted from a misunderstanding of orders on the part of the freight crew.

A passenger train due to leave this city for the south about the time of the accident was converted into a relief train and sent to the scene. The staff of Union Pacific surgeons were on board this train, shortly before noon the relief train returned to this city with the injured, while several of those who were slightly injured were sent on their way. The more seriously injured are being cared for at the army hospital at Fort Crook. Governor Gilchrist of the north-bound train was uninjured.

Monetary Commission Is to Conduct Hearings in Many Important Cities.

Washington, Oct. 15.—The beginning of the end of the work of the national monetary commission will be marked by meetings which will open in New York tomorrow. These meetings, in other cities, are to afford final opportunities to financial and commercial bodies to be heard on the Aldrich reserve plan before the presentation of the commission's report. Under the law terminating the existence of the commission this report must be presented to congress by Jan. 8, 1912.

Following the New York hearings the commission will go West, the tour extending as far as the Pacific coast and including Chicago, St. Louis, St. Paul, Minneapolis, Denver, San Francisco and Seattle. The Chicago conference is set for Oct. 20. The commission also probably will hold meetings in Southern cities.

M'NAMARA DEFENSE DECLARED AT STAKE

Court's Ruling Whether Talesman Nelson Shall Serve as Juror Is Awaited Eagerly.

Los Angeles, Cal., Oct. 15.—Judge Walter Bordwell, before whom James B. McNamara is being tried on indictments charging murder in connection with the explosion of the Times building, occupied himself today with the study of the answers made by Talesman Z. T. Nelson when examined on the subject of labor warfare and the guilt or innocence of the defendant. Tomorrow the court will give its opinion. Allowing or disallowing the challenge of the defense that Nelson is biased against the man on trial, the principal figures in the case rested today, no conference or other developments materializing.

Football Scores.

Chicago, Oct. 15.—Football games played yesterday resulted as follows: Michigan, 15; Aggies, 3. Beloit, 35; Monmouth, 5. Indiana, 42; Franklin, 0. Browns, 33; Bondou, 0. Army, 18; Rutgers, 0. Ohio State, 0; Western Reserve, 0. Northwestern, 10; Wesleyan, 0. Chicago, 11; Purdue, 3. Yale, 33; Virginia Polytechnic, 0. Detroit University, 0; Olivet, 6. Princeton, 31; Colgate, 0. Cornell, 0; Pennsylvania State, 5. Harvard, 18; Williams, 0. Navy, 16; Washington-Jefferson, 0. Marquette, 21; Williams and Vashit, 0. Wisconsin, 24; Ripon, 0. Carlisle, 24; Ripon, 0. Carlisle, 28; Georgetown, 5. Lafayette, 36; Gettysburg, 0. Philadelphia, 6; Holy Cross, 0. Rochester, 3; Syracuse, 6. Trinity, 13; Amhurst, 0.

COURT OF CLAIMS HAS MANY CASES TO DECIDE.

Washington, Oct. 15.—Claims involving millions of dollars, and suits against

OCTOBER SALE OF FURS

The incentive to save at our annual midfall event gains in importance from the fact that the cost of furs advances as the season advances. Unusual extent of our extremely early purchases, explains our present position to give our customers furs at a big saving. Splendid American Mink sets at \$25.00. Lustrous Black Fox sets at \$25.00. Exquisitely beautiful Mink sets at \$75.00. Russian Pony Coats at \$50.00. During this week a discount of 15 per cent. will be allowed on all furs. You can make your selection now and we will take care of your furs until wanted.

be put into effect, as scheduled, Oct. 17. In order to get an injunction, the company must go to the circuit court and make a proper showing. The ordinance was drafted very carefully and it is considered doubtful if the company can find a loop hole on which to base an argument.

Partridges Invade City—

Grouse seem to be plentiful in the vicinity of Escanaba. The other morning a partridge crashed through the window of the barbershop conducted by Mrs. Roberts on Sinclair street and was instantly killed by the impact. Mrs. Roberts was engaged in shaving a customer. When the bird plunged through the glass the woman thought her patron had shot a revolver, while the customer leaped from the chair, thinking some one had made a desperate attack on his life. The next day a partridge crashed into the door of the home of Chris Buckley on Second street and was badly stunned. The bird remained on the steps until it had recovered from the shock and then flew away. A partridge has been seen perched on the top of a building in the business district and only recently one crashed through the window of a street car.

Mr. Rutledge Writes a Book—

Rev. C. H. Rutledge of Ishpeming, Anti-Saloon League superintendent for the upper peninsula, is now making a final revision of the manuscript for a book he has written and which will soon be published. The title of the volume will be "Flashes from the Furnace." The story is based upon experiences, incidents and observations during the many years that Mr. Rutledge has been in the field and in the Anti-Saloon League work. The names of the characters are fictitious. The scene of the story is placed in Northern Michigan, and most of the incidents have taken place here during the past seven years, although the story is supposed to cover a period longer than that. Many of the incidents related here, it is said, occurred in Escanaba. The book will be out about three months hence.

Alleged Poisoner Acquitted—

John D. Winters, J. M. Shady and David Stevens, of Mathias township, each recently lost a cow by Paris green poisoning, reports the Mining News. It appears the cattle got into the field of one Louis Heide and ate the poison out of a barrel. On complaint of John D. Winters Mr. Heide was arrested on a warrant issued by Justice A. W. Clark of Trena at that place. Prosecuting Attorney Fryman appeared for the people and prosecuted the case under the state statute which makes it unlawful for any person to expose any poisonous substance so that the same shall be liable to be eaten by any horses, cattle, dogs or other beasts of another. The law makes the offense a misdemeanor punishable by a fine of \$100. The defendant introduced testimony to show that the poison was covered securely, as he supposed. The jury acquitted him.

Farm Property in Demand—

An awakening in the real estate market is being felt in Chippewa county especially in farm property. Much land will be sold this fall, it is claimed by real estate men in touch with the situation, and much improved land will change hands. The Chippewa county hay lands are attracting outsiders, especially men from Ohio and Indiana who are skilled in the dairy business. As a result of a deal closed last week, John Woodhall, of Walla Walla, Washington, becomes the possessor of 100 acres of improved land five miles out of the city. Mr. Woodhall was born in the Soo and left for Washington some time ago. While he was successful in that new state the Chippewa lands appealed to him and he has returned to the Soo to engage in agricultural pursuits. By another transaction C. H. Hungerford, a postoffice employe, takes over sixty acres of improved land on the Pickford road. Mr. Hungerford is one of the many city dwellers about the state who have seen the solution of the high cost of living by raising what he needs and what others require. Mr. Hungerford will go in for diversified farming and will make a specialty of poultry and vegetables for the local market.

Will Have Artificial Legs—

Miss Anna Bergman, who for many months was a patient at the Delta county hospital, suffering from typhoid fever and complications which followed that disease, and who was finally forced to submit to the amputation of both legs, has been taken to St. Paul by Superintendent of Poor F. M. Olmsted to be fitted with artificial limbs. The unfortunate young woman will remain in St. Paul while the limbs are being prepared and fitted. Miss Bergman is without relatives who could aid her and following a movement started by Olmsted the city of Escanaba will pay for the limbs that are being provided while the cost of taking her to St. Paul and fitting the artificial members will be borne by the county poor department. In spite of her long illness and affliction Miss Bergman has now regained robust health, and at no time in her life has been more cheerful and hopeful than at present. At the almshouse, where she has been cared for since being released from the hospital, she has constantly insisted on helping and carrying out many useful tasks. She has shown marked aptitude for work as a milliner and when she returns to the city an effort will be made to procure a position for her in that work.

Hotel Sold at Auction—

The Haywarden Inn of Gladstone, one of the largest hoteleries in the upper peninsula, has been sold at public auction by Court Commissioner C. D. McEwen to Clancy D. Dempster of San Francisco, Cal. Mr. Dempster bit it in at \$8,000. In the opinion of real estate men this is Foley's Home and Tar Compound. Mrs. T. J. Adams, 522 No. Kansas Ave., Columbus, Kas., writes: "For a number of years my children have been subject to coughs and colic. I used Foley's Home and Tar Compound and found that it cured their coughs and colic, so I keep it in the house all the time." Refuse substitutes. The People's Drug Store.

was a favorable price for the purchaser. The Haywarden Inn occupies an entire city block. Mr. Dempster was one of the former owners and in buying he takes over the interests of the estate heirs and the Chicago Title & Trust company. When asked whether he would operate the hotel, Mr. Dempster said that he would not. He remarked that the property was now for sale and suggested that a syndicate of Gladstone business men purchase the hotel and make a modern summer resort hotel out of it. His business interests elsewhere will not allow him spending any time at Gladstone. The Haywarden Inn has not been occupied for some time.

Rare Bird Shot Near the Soo—

The high school museum at the Soo has had an addition to its collection of mounted water fowl in a bird that is exceptionally rare, a cormorant, having been donated by J. C. Barthelet, who shot the fowl some days ago on Hay lake. The cormorant was mounted. When it was killed by Mr. Barthelet, no one in his party could properly name it. His bird resembles a goose in a way and has many peculiar characteristics. Its sharp, its cliffs and rocky places along both the Atlantic and Pacific oceans and is a expert salt water fisher.

The cormorant has web feet, but is one of the few water fowl that alights in trees to rest after long flights. The cormorant is closely allied to a pelican in conformation and habits. He is an expert diver and swims with such swiftness under water that few fish can overtake him. The cormorant swims very low in the water and is not often seen by the unobservant. When on land, his rigid tail feathers support him and he makes an awkward appearance. In the breeding season, it is said that vast numbers of the birds congregate on cliffs and rocky places. The female deposits three or four eggs in a loosely constructed nest of dry seaweed which the bird gathers. The Chinese and Japanese have long trained the cormorant to fish. A number of the birds are taken to sea on boats and at a signal, all fly into the water and begin the day's business for their master. When first taught, a ring is placed about the neck of the young birds so that it is unable to swallow the prey that it captures in the water. How the bird happened to be in this locality is not known. He often leaves the sea, however, for rivers inland. It is thought that the cormorant might have been driven further inland than is usual by the high winds and storms that prevailed on the Atlantic coast.

A MEDICINE THAT GIVES CONFIDENCE.

Is Foley's Home and Tar Compound. Mrs. T. J. Adams, 522 No. Kansas Ave., Columbus, Kas., writes: "For a number of years my children have been subject to coughs and colic. I used Foley's Home and Tar Compound and found that it cured their coughs and colic, so I keep it in the house all the time." Refuse substitutes. The People's Drug Store.

Upper Peninsula

Has Money Forced Upon Him—

At its annual session this week, the Delta county board of supervisors forced \$45 upon J. W. Colt, of Gladstone, for services as a member of the soldiers' relief committee. Mr. Colt who is a member of the board, arose and insisted that he did not want remuneration, and when his name was called he cast his ballot against the motion, his being the only negative vote.

Child's Escape Remarkable—

The two-year-old daughter of Joseph Dolan of the Soo apparently has suffered no ill effects from a long fall of two stories, the babe having dropped off the rear porch of a building. The little girl was playing on the veranda and got too near the edge. She was picked up from the ground below, seemingly uninjured, except for the fact that the breath was knocked out of her.

Home Opened to Man Now Dead—

On the day that William Shay, a Civil war veteran and pioneer resident of Escanaba, passed away at the Delta county hospital, after a long illness, his application for admission to the Soldiers' home at Grand Rapids was granted. Announcement of the action of the board of control in admitting Shay to the institution was received by Judge Emil

More Money for Boosting—

The Upper Peninsula Development bureau will receive \$1,000 as the result of an appropriation made by the Menominee county board. The supervisors of the district are all interested in the work of the bureau and are desirous of furthering its publicity campaign in every way possible.

Upper Michigan Peaches—

C. A. Cram is the champion peach grower of Delta county and some of his fruit will grace the exhibit that will be displayed at the big land show in Chicago. The peaches are not from an orchard, but were raised at the family home at 401 South Elmore street. They are beauties and compare with the finest fruit raised in southern Michigan.

Bond Issue of \$50,000 Proposed—

The Menominee county board of supervisors has decided to submit to the vote of the electors the proposition to bond the county for \$50,000 for the purpose of putting the main trunk highways between Menominee city and the Delta county line and between Spalding and the Dickinson county line in first-class condition, this to be accomplished by completing them under state specifications and by using gravel or crushed stone. This action was decided upon after the subject had been thoroughly

discussed in committee of the whole. The vote on the proposition was twelve to five, with two supervisors absent.

Farmer Kills Wolves—

Thomas Boyd, a farmer living in Inwood township, Schoolcraft county, took five wolf pelts to the county clerk at Manistiquette the other day and received bounty to the amount of \$125. Mr. Boyd stated that he shot some of the animals and some of them he trapped. One of the latter he believes he shot and wounded the year before. All five animals belonged to the same pack, and all were fine specimens.

Will Enlarge Plant—

The management of the Escanaba Manufacturing company is having plans prepared for a large addition to the company's factory building on Stephenson avenue. Manager T. M. Juson states that the addition will be 100x200 feet, and it will be built of solid brick. The addition will be joined to the present building on the north side. This will necessitate tearing down the present office building. A fine suite of office rooms will be provided in the new addition. The addition will be used for warehouse purposes. When it is completed the big factory building will present a much more imposing appearance.

Delta County's Tax Levy—

According to action taken by the board of supervisors a total of \$60,000 will be raised by taxation to conduct the gen-

eral affairs of Delta county the coming year. The amount is the same as was levied last year for the same purpose. In addition, following the recommendation of the finance committee, \$28,141.83 will be raised for road building purposes, \$928.06 for the Delta County Agricultural society, and \$1,000 for the Upper Peninsula Development bureau.

Drunks Given Another Chance—

Guided by a new state law, Municipal Judge Runnels of the Soo is giving drunks "another chance." By taking a pledge, offenders are released under suspended sentence. The idea is one that is appealing to all justices. Oftentimes a jail sentence would mean disgrace to the family and the notoriety would be especially humiliating to children and wife. The state has, therefore, worked out the pledge system in these cases and it has been found to work better than anticipated by the framers of the law. Fines often work a hardship on a family and in case of jail sentence the family is deprived of the support of its head. In neither case does the state or county benefit as far as moral returns are concerned. The fine may be paid and the sentence served, but neither has worked for any particular good. The

Editor Baldwin Protests—

Some person should secure an injunction to restrain either the city council or the board of supervisors from draining that part of the city traversed by Butcher's creek at the expense of the taxpayers, says the Escanaba Journal. The draining of this district will increase the value of the real estate in that section several hundred per cent. It is the owners of this property who will be benefited, and they are the ones who should pay the expense. We are at a loss to understand what wires are being pulled that reach into the public treasury to secure the funds to pay the expense of this drainage project. It may be on the square, but it looks very much as if there is an ebony-hued fellow somewhere in the fagot pile. If this drainage work is done at the expense of the taxpayers as a whole it will be an outrage, and there is no other way to figure it.

Ferry Company Will Fight—

An ordinance having been passed by the city council, reducing the rates of fare, the Trans-St. Mary's Traction company has signified its intention of contesting the legislation. It is contended by the company that it can not make a profit with a reduction of rates as stipulated in the new municipal law. The company makes no objection to the freight rates, but contends that ten cents per passenger should be charged the year around. According to the new ordinance the company may charge ten cents a passenger between Nov. 15 and April 15, while during the other months the new ruling reduces the rate to five cents, but does not change the freight rates. The question will be brought up next Monday night for discussion in the council, although judging from the present attitude of the aldermen no concessions will be made and the ordinance will

CAN YOU ASK MORE?

Your Money Back for the Asking. You Promise Nothing.

We are so confident that we can furnish relief for indigestion and dyspepsia that we promise to supply the medicine free of all cost to every one who uses it according to directions who is not perfectly satisfied with the results. We exact no promises and put no one under any obligation whatever. Surely nothing could be fairer. We are located right here where you live, and our reputation should be sufficient assurance of the genuineness of our offer.

We want every one who is troubled with indigestion or dyspepsia in any form to come to our store and buy a box of Rexall Dyspepsia Tablets. Take them home, and give them a reasonable trial, according to directions. If they don't please you, tell us and we will quickly return your money. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the relaxed muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity. Three sizes, 25c., 50c., and \$1.00. Remember, you can obtain Rexall Remedies only at our store—The Rexall Store, The Stafford Drug Co.

MANY WENT HUNTING.

Several hundred Ishpeming men and boys went into the woods yesterday in quest of deer or partridge. Fewer deer licenses have been issued to Ishpeming sportsmen than usual prior to the opening of the season, as many of the old time deer hunters will not go out until later. They prefer to wait until freezing weather, so that their game will keep until they are ready to return home. The early opening of the season will result in the big end of the hunting being done toward the close, instead of the first two or three weeks, as has been the case in years past.

ISHPEMING IN BRIEF.

The funeral of the late Mrs. Xavier Racine, held Saturday morning from St. Joseph's church, was largely attended.

Mrs. S. H. Forsberg, of Minneapolis, is here on a visit to her parents, Mr. and Mrs. P. A. Killstrom.

Mrs. R. L. Vilas and daughter arrived home Saturday from Buffalo, where they spent the past few weeks visiting relatives.

Mrs. W. S. Nelson and her daughter, Miss Jean, of Gwin, visited relatives and friends in the city Friday and Saturday.

Miss Evelyn Ekyka, of Denver, Colo., is visiting her school friend, Miss Lillian Braastad, having arrived in the city Saturday.

Con Mahoney, who spent the early part of last week at Escanaba, has returned to Ishpeming, and is again holding down his position at the Nelson house.

R. J. Wise, general secretary of the Young Men's Christian association, and several other members of the organization, spent Saturday at Camp Wisagaming, storing the equipment and closing the camp for the winter.

Andrew Olson, a former resident, who left here eighteen years ago for Rhineland, Wis., is visiting his sister, Mrs. Eric Anderson of North Third street, and other relatives in the city. Mr. Olson is the supervisor in his ward.

R. L. Vilas, general manager of the Pluto Powder Co., and George Schroeder, sales agent, were visitors here this week. An agency has been located here with Fred Maddock of Ishpeming in charge. This makes three of the large powder companies that have agencies located in this district.—Iron River-Standard Reporter.

MAYOR M'CORKINDALE ISSUES PROCLAMATION

CIGAR MAKERS HAVE ENTERED PROTEST

Ishpeming People Asked to Contribute to Flood Sufferers of Wisconsin City.

Mayor McCorkindale, who last week received an appeal for aid from the mayor of Black River Falls, Wis., for the flood-stricken people of that city, has issued a proclamation, asking the people of Ishpeming to respond to the appeal as liberally as they can. Contributions left at either the Miners' or Peninsula bank will be forwarded to the relief committee.

The mayor's proclamation is as follows:

Whereas, The citizens of Black River Falls, Wis., have met with dire misfortune through the flood which recently devastated their city, and

Whereas, By reason of said misfortune, a great many citizens of said city have been reduced to want and are now in destitute circumstances, and

Whereas, Property representing three-fourths of the tax roll of said city has been destroyed, and

Whereas, The public schools will have to be closed on account of the lack of funds to keep them open unless financial aid is sent to said city.

Now, Therefore, I respectfully lay the matter before our citizens, requesting all citizens to contribute, according to their means, for the aid of these afflicted people of Black River Falls.

Subscriptions may be handed to either of the banks of the city and they will forward the funds to the proper relief committee.

W. J. M'CORKINDALE, Mayor.

DEATH OF MRS. WALTON.

Wellknown Resident of South Pine Street Passed Away Saturday.

Mrs. Walton, wife of William Walton, of 757 South Pine street, who had been in poor health, died Saturday evening, her demise being due to a complication of diseases.

The deceased was wellknown in Ishpeming and had many friends. She had resided here for the past twenty-two years. She was a daughter of Joseph Graham. Her age was forty-seven years. Besides the husband, there are two sons and four daughters surviving. The sons are Joseph and Thomas Walton and the daughters are Mrs. Lawrence of Bisbee, Ariz., Mrs. Richard Johns, of Nogans, Wis., Mrs. H. H. Keyser, and Miss Susan Walton, the latter living at home. The deceased was a member of the Ladies of the Golden Eagle, under whose direction the funeral will be held.

ISHPEMING GIRL COMMENDED.

Daughter of F. Braastad Has Been Chosen a Member of Northwestern Choir.

Miss Borghild Braastad, who left a few weeks ago for the Northwestern University, at Evanston, Ill., to take a musical course, has been selected for membership in the A. Capella choir of the Conservatory of Music. This is an unusual distinction for a first year student. The choir is composed of only sixteen members, and those selected must be among the best singers attending the institution.

Mrs. Miller, one of Miss Braastad's instructors, paid her a fine compliment in writing to a friend here, stating that she has a rare voice and that she could be developed into a fine singer. During the past few years, Miss Braastad has delighted a number of Ishpeming audiences with her solos.

WILL HAVE STRONG TEAM.

Y. M. C. A. Football Eleven Will Play Its First Game Next Saturday.

The football players who are trying for positions on the Young Men's Christian association team are working steadily in signal and scrimmage practice and the team promises to be the strongest that has ever represented the local organization. The first game will be played next Saturday afternoon, at the Union park, with the Guild hall team of Marquette. The Ishpeming team had a scrimmage Saturday with the high school eleven in the Cleveland field, and there will be two or more scrimmages this week, in addition to the signal and trick play practices that are to be held in the "Y" gymnasium every evening between 7 and 8 o'clock.

A. Holt is to have charge of the "Y" team. He is favorably impressed with the local players, all of whom have had experience either with college or high school teams. Mr. Holt played football under Walter Camp, coach of the Yale squad, and last year he was the assistant coach of the Yale team.

During this week the boys' baseball team will be organized, and a schedule will be arranged.

The members of the Business Men's class played the Ishpeming high school faculty basketball team Friday evening. The Business men won by a score of 2 to 8. The Business Men's team was composed of Messrs. McCorkindale, Lupton, Walters, Haglund, Wise and Tompkins. The faculty team was made up of Hopper, Downum, Parrish, Plummer, Warmessle and Clarke. The Business Men's class is popular, but there is still room for a large increase in membership.

JAMES C. DAHLMAN, "COWBOY" MAYOR OF OMAHA, "THROWS THE LARIAT"

Mayor Jas. C. Dahlman started his career as a cowboy, and is at present mayor of Omaha, and has the following record: Sheriff of Daves Co., Neb., three terms; mayor of Chadron, two terms; Democratic Nat'l Committeeman, eight years; mayor of Omaha, six years, and in 1910 candidate for governor of Nebraska. Writing to Foley & Co., Chicago, he says: "I have taken Foley Kidney Pills and they have given me a great deal of relief so I cheerfully recommend them." Yours truly, (Signed) JAMES C. DAHLMAN. DRIVEN INSANE BY POLITICS.

New York State Man Got the Idea He Was the Whole Thing.

Kingston, N. Y., Oct. 13.—Politics and practical jokers seem to have unbalanced Edward J. Center's mind. He has been taken to the Middletown state hospital, having been committed there by County Judge Cantine.

Center, a wealthy Southerner, bought a farm on the Sawkill road near here. A committee of prominent Democrats visited him and asked him to accept the nomination for assessor. It is said the committee selected Center because he has plenty of the sinews of political war. Center accepted and was nominated next day.

Immediately local politicians showered attentions on him. Flattering written messages poured in on him over the names of high political leaders until Mr. Center seemed to imagine that he was the real center around which state politics revolved.

Mr. Center became erratic. He went to the Republican town convention at Esopus and told the delegates he would recommend Esopus to Charles F. Murphy's favorable consideration. The howling delegates denounced him and Murphy and threw out Center. He went to the Democratic convention at Esopus the next day and his rather rambling speech was listened to politely.

Center took all jokes seriously. If a man told him he would be the next Democratic nominee for governor, he seemed to believe it. He went to a Kingston clothing store and ordered \$200 worth of suits, then emerged from a dressing room in such a condition that the clerks hustled him back and explained that he was not in the Garden of Eden.

It was not until Mr. Center had shown a disposition to turn from politics to religion that most of the politicians suspected his brain was awry, and his family took him in charge.

FAVOR SIX-TEAM LEAGUE.

Menominee and Marinette Nines Would Enter such an Organization.

According to the Menominee Herald-Leader, Marinette and Menominee would look favorably on a proposal to enter into a playing agreement with the teams of the Marquette-Delta county league next season. While the matter has been given very little consideration by the supporters of the Ishpeming team, many doubt whether a six-team league would be an improvement over one of four teams, as they fear it would cost more to support the team, owing to the heavy railroad expense in sending it to Menominee and Marinette. It appears from the Herald-Leader that the teams in Menominee and Marinette were not self-supporting during the season recently closed, and means are now being devised for the raising of funds to pay off the indebtedness.

The Herald-Leader said of the six-team proposition:

"Some talk has been heard among Menominee and Marinette baseball men in the last few days which is to the effect that the twin cities may have a chance to break into the Marquette-Delta league. The board of directors of the Escanaba club held a meeting the other night and pronounced themselves in favor of a six-team league with three games a week instead of two.

"Other cities of the league are supposed to be willing to make the increase in club, and it is likely that agitation for such will result, judging from what is being said in Escanaba and in the twin cities. Menominee and Marinette have always voiced the sentiment that entering the M.-D. league would be desirable. It could undoubtedly be organized with these teams.

"The board at Escanaba also made arrangements for a minstrel show to be given to clean up the deficit in the club's coffers, and local talent will immediately begin to rehearse for the affair. It is possible that Menominee will start something within the next two weeks by which to help out the finances of the club. The local baseball men are all in favor of the Marquette-Delta league and

AUTO OVERTURNS AND IS WRECKED

August Sutinen and a Friend, of Ishpeming, Marvelously Escape Death.

August Sutinen, an Ishpeming drugist, and a second man had a narrow escape from death about 7 o'clock Saturday evening when his Oakland runabout left the county road in short distance south of Cherry Creek. The car was being driven at forty miles or more, and when a team of horses loomed up ahead it either skidded from the road when the brakes were put on, or was thrown off when it struck the soft dirt alongside the macadam. From the appearance of the car it must have turned over two or three times, as the frame work is almost a total wreck. It is nothing less than marvelous that its two occupants escaped with only minor bruises and injuries.

The car was brought in yesterday by employees of the Pioneer Motor company. One of the front and one of the rear wheels were completely wrecked. A front wheel was shifted to the rear axle, the front of the wrecked machine was jacked up and hooked onto the Pioneer Motor company's Mitchell touring car, and the wreck was brought in in this manner. It has been viewed with much interest at the company's garage. The car will have to be completely rebuilt and the damage amounts to several hundred dollars. The wind shield and lamps were completely wrecked, the mud guards twisted together, the dash board and frame split, the front axle broken and much other damage done. The motor appears to be in fair condition.

Mr. Sutinen and two friends started out for Chatham. Near Greengarden late in the afternoon, they came upon Clyde Yoakam, who drives the big logging-Sheras Lozier car, who was returning from Munising where he had driven a party earlier in the day. The Lozier had struck a soft spot in the road just a minute before and was stuck. Mr. Sutinen and his passengers turned in and helped Yoakam extricate the Lozier. It was no small task. Two hours elapsed before the Lozier was fairly on the road, and by that time it had become dark. Mr. Sutinen and his friends then decided to give up their trip to Chatham, and to return to Ishpeming.

One of the Oakland car's passengers decided to return to Marquette in the Lozier, so that the other two men would have more room. Sutinen wanted to give the big Lozier a race, but Yoakam declined, saying it was too dark and the road too dusty. The Oakland pulled out ahead, running at a high speed. Yoakam drove the Lozier perhaps two or three miles back to allow the dust to settle. When he approached the Cherry Creek bridge, he was flagged by Sutinen's companion and when he stopped his machine he found Sutinen lying on the ground and the Oakland in its badly wrecked condition. The farmer whose team had in a manner been responsible for the accident was

also standing nearby. It was thought at first that Sutinen was severely injured. Both he and his companion were placed in the Lozier and Yoakam drove them to town and got them to St. Mary's hospital as quickly as possible. There examination showed that they were not badly hurt and they were taken through to Ishpeming. The land where the Oakland left the road was comparatively level and free of stumps and trees, which accounted for the escape of the two men. Sutinen's willingness to race and the condition of the car indicates that it was being pushed to pretty close to its top speed. Sutinen, according to local automobile drivers, has had a reputation of being a reckless man at the wheel, and yesterday they expressed little surprise that he had come to grief.

PENSION OFFICE MAY SAVE \$1,000,000

Proposed to Do Away With Vouchers on Remittances and Issue Checks.

Washington, Oct. 15.—A saving, estimated at \$1,000,000 annually, to the pensioners of the United States and eventually about \$180,000 a year to the government is contemplated by a simplified plan for the payment of pensions without vouchers which Commissioner of Pensions F. L. Davenport submitted to the Secretary of the Interior in his annual report, made public today. During the year \$157,325.16 was paid as pensions, a decrease of \$3,498,154 from last year, making the total amount paid in pensions since the foundation of the government \$4,230,381,730. There were 55,185 names dropped from the roll and 26,200 added, leaving a net loss of 28,985 pensioners. The total number at the end of the year was 892,098, the smallest since 1892. Methods of economy resulted in a decrease of the cost of administration by \$140,546, the amount being \$2,517,127, the lowest since 1882.

Commissioner Davenport's plan, which was devised at the request of congress and which will require the passage of a law, would greatly simplify the methods of paying pensions, result in the mailing of pension checks on the date upon which the pension falls due, eliminate the cost to the pensioners in a large majority of cases of the execution of pension vouchers, which varies from \$1 to \$3 yearly; decrease to a considerable extent the work in drawing and mailing the pension checks and eliminate the sending of 4,000,000 letters yearly through the mails, saving about \$80,000 thereby.

The plan contemplates payment direct by checks mailed to the last address of the pensioner. Besides the endorsement on the back of these checks the government would require certification by two witnesses as to identity. In a few

instances Commissioner Davenport said vouchers still would be required. Commissioner Davenport told of his efforts to ascertain the truthfulness of reports in the press and elsewhere that the pension roll was honey-combed with fraud. He sent field men from pensioner to pensioner in the Washington agency, and is now doing the same in the Knoxville agency, with a view to prologing fraud. Out of a total of 47,181 pensioners seen and questioned only 26 cases of improper pensioning were revealed. The commissioner said he believed the check system would put an end to any fraud that may now exist.

Pension Statistics.

The number of soldiers and sailors on the pension roll at the close of the fiscal year was 570,050; dependents and widows, 321,642; and army nurses 40. There were 329,884 survivors of the civil war, 35,243 having died during the year. It is believed that only about 70 per cent of the estimated 2,335 individuals in the United States service during the civil war are now living, the death rate of the survivors being now slightly in excess of 6 per cent yearly. The average age of survivors is now about 70 years.

The last pensioner of the revolutionary war, Mrs. Phoebe M. Palmeter, daughter of Jonathan Woolley, who served in a New Hampshire company, died at Brookfield, N. Y., April 25, 1911, aged 90 years.

Mrs. Britannia W. Kennon, of Washington, D. C., a great granddaughter of Martha Washington and who died during the year, drew a pension as a widow longer probably than any other person in the history of the pension office, having received \$50 a month almost 67 years. Mrs. Kennon was the widow of the captain of the U. S. S. Princeton, who was killed February 28, 1844, by the bursting of a cannon on that vessel, in which occasion two members of President Tyler's cabinet were killed.

CACTI TO CARRY WIRES.

Salmuera cactus for telephone and telegraph poles is the latest idea and one that is to be tried out. It sounds plausible and it is believed that it will be more economical than the old style of poles. Its test is to come from Tucson. The government is to build a telephone system for the forestry service of the Coronado Forest Reserve. The first of these lines to be built out of Tucson is to be used into the Catalinas, and it is there that the Salmuera experiment is to be tried.

The giant cacti will not be saved off and set by wire will be transplanted but the growing plant will be used as a pole where it is found practical. Where they can be found in what approaches alignment, so that the line will not have to zigzag too much, the Salmuera up in the canons through which the line will pass are to be utilized for the purpose of attaching brackets to which the wires will be fastened. And so the secret is out.

Along the proposed line it is difficult to set poles, owing to the rock nature of the country traversed. Not only is this the case, but it is difficult to get the poles up there in the hills to set, while the Salmueras are right there in many instances, and while not at a uniform distance, this is not considered important.—Arizona Republican.

"I consider the Metrostyle... the Pianola and I have indicated my interpretation of several compositions with great interest."
I. J. PADEREWSKI

"The Metrostyle places the Pianola beyond all competitors. It will be my pleasure to work many rolls from my repertoire when I return to my home in Berlin."
JOSEF HOFMANN

"The Metrostyle is of extraordinary interest. I have Metrostyled some of my own compositions, and numerous Pianola can now play them according to the interpretations I have indicated."
SIR EDWARD ELGAR

"Of all the piano playing devices which I have heard, the Pianola is the only one deserving of serious consideration from the musical world. Apart from the faultless technique and almost human touch which the instrument has, it is equipped with an invention which is of equal, if not greater importance—that is the Metrostyle, which gives the player a true and authoritative guide to the proper interpretation of a composition."
THEODORE LESCHETIZKY
(The most famous piano teacher in the world, whose pupils include Paderewski, Gubrilowitch and other great artists.)

Look for This Line

THE only pieces you can play well, on any Player-piano you may buy, are the pieces that you know. There may be ten of these—twenty, perhaps even fifty. But after these, what? What of the thousands of other compositions that you do not know—compositions that you cannot by any possibility play well until you do know them? There are just two ways by which you can learn these unfamiliar pieces, and play them with proper expression. One way is to have a musician personally teach you the expression of each individual piece. The other way is to buy the one Player-piano that has the Metrostyle and the music-rolls marked with the red Metrostyle interpretation line. This instrument is

The Pianola Piano

The ONLY Player-piano which teaches you the music while you play it

When you purchase the Pianola Piano, you virtually become the music pupil not only of Paderewski, Bauer, Busoni, Dr. Richard Strauss, Moszkowski and scores of other world-famous musicians, but of popular composers and musicians like Chamade, Sousa, etc., as well. These have all marked their individual interpretations on Pianola music-rolls, in the form of the red, Metrostyle interpretation line. This line teaches you the music—teaches it to you better than the greatest musician could teach you in any other way. It makes you familiar with practically every piece of music ever composed. Not ten or twenty pieces, but actually thousands of pieces. Unless you would sacrifice the one feature that will make a Player-piano enjoyable to you, look for the Metrostyle and the red, Metrostyle interpretation line, when you make your selection of an instrument.

Recognition of the Pianola Piano's absolute pre-eminence among instruments of its type is world-wide. It is confined to no one country or class. In England, Germany, France, Australia, the leading musicians, the Rulers, the cultured classes, give unanimous preference to this famous Player-piano. The Metrostyle, vital as it is—indispensable to the Pianola—Paderewski says—is but one of the many superiorities of the Pianola Piano. No other Player-piano has so perfect, so responsive an action. No other has such complete expression control—due to original and patented features like the Themedist, the Graduated Accompaniment and the Sustaining Pedal Device. No other is so durable. And no other offers the purchaser so superb a selection of piano-fortes, as those combined with the Pianola, to make the Pianola Piano. There are but five genuine Pianola Pianos. These are

THE STEINWAY, WEBER, STECK, WHELOCK AND STUYVESANT PIANOLA PIANOS

Prices and Terms—Pianola Pianos cost from \$550 upwards. A liberal allowance will be made on other pianos in exchange and monthly terms to suit your convenience may be arranged

Conklin's Music House Marquette Michigan

Mining News

NEVADA CONSOLIDATED.

An agreement has been reached between the Nevada Consolidated Copper company and the local miners' union by which the strike at the Veteran mine has been called off. The strike went into effect two years ago the first of last July when the Veteran was under the control of the Cumberland Ely Copper company, and was caused by dissatisfaction over the contract system which was then in force. Various attempts have been made since then to come to an understanding between the miners and the company but it was never before found possible to reach an agreement. The mine will be reopened under the contract system, but concessions have been made by both sides and it is hoped that all labor difficulties are at an end. It will require perhaps two months to clean out the old workings, retimber portions of the mine, get the shaft in working order and get supplies on the ground for an active campaign of production. The Veteran was producing about 2,000 tons of ore a day at the time of the strike and no doubt an equal production can be maintained in the future as soon as the mine is in good working order. Production from the Veteran will commence at just about the time when snow and cold weather are beginning to interfere with the production of ore from the steam-shovel pits at Copper Flat and Liberty and the extra supply of dry ore from the underground workings will be very acceptable to the management in keeping up the production of from 8,000 to 10,000 tons a day that is required by the Steptoe concentrator.

MIAMI.

The Miami Copper company, with four sections of the mill in operation, is mining and milling about 1,850 tons of ore per day and is producing daily about eighty-two tons of concentrates averaging from 41 per cent to 42 per cent copper. The mill recovery is reported to be 70 per cent. A prospect is

NOTES OF COPPER NEWS.

The Oneco is confining all activity to shaft work in the Oneco lode. A depth of 850 feet has been attained. Short crosscuts are out at intervals of 100 feet during the progress of sinking the shaft in working order and get supplies on the ground for an active campaign of production. The Franklin has received and installed the new hoist for the No. 1 Pebawie shaft, has completed the erection of the steel shaft rockhouse at this point, and is now engaged in enlarging the shaft, with the object of increasing production. The shaft is 3,200 feet deep, and fully six weeks will be required for this work. Development work and other underground activity, with the exception of that in the shaft, has ceased, and no production will be made until this work is completed. Mohawk's average yield of copper per ton of rock mined has risen steadily and on Sept. 1 was 15.12 pounds compared with 14.13 for the corresponding period in the previous year. An excellent grade of copper ground is being developed at nearly all points in the No. 5 shaft and at a number of points in the No. 4 shaft. In the older and deeper No. 1 shaft fair to average ground has been the rule for many months past and this territory at depth holds some of the very best stops opened in

being driven to the ore body from the main working shaft on the 570-foot level, which will be the second tramming level, the 420-foot level being the first tramming level and the one through which all ore is now being extracted. The mine is easily furnishing all the ore that the mill can handle and a reserve is continually accumulating in the shrinkage stopes, of which there are well advanced and two more are being started. These stopes are from 225 to 450 feet long, fifty feet wide and from 125 to 150 feet high with 50-foot pillars between the stopes. The unique method, devised by Superintendent N. O. Lavton, of mining out these stopes or rooms, wherein practically no timber is used, is working out admirably and the ore is broken very cheaply. About six hundred men are employed.

Mohawk acreage. Shafts 2 and 3 are below average. In the No. 6 shaft opened on the extreme south end of the property drifting is in progress south on the fourth and fifth levels and both ways on the sixth, seventh and eighth levels. This shaft is about a little over 600 feet with fair to excellent showings in the various late-falls referred to.

At the inspiration, the experimental mill is being altered and enlarged to a capacity of 150 tons per day, for the purpose of trying out the method of concentration proposed by J. M. Calloy. The track in the main tunnel is being changed from 18-inch to 20-inch gauge preparatory to mining. It is estimated that about 4,500,000 tons of ore can be extracted through this tunnel, it being necessary to extract the rest through shafts. Surveys are in progress on pumping stations, reservoirs and pipe lines.

The Nipissing Mining company reports an output of 436,004 ounces of silver, valued at \$227,982, for September. Ore of an estimated value of \$229,828, was shipped. At the Meyer vein and on the new third level, which is driving to the eastward at a depth of 250 feet below the surface, the last 100 feet has disclosed a vein from one to five inches in width, averaging 1,200 ounces per ton. Both the average value and width are said to be showing steady improvement, with the face now averaging 1,500 ounces for a width of five inches.

Superintendent Hooper of the Victoria reports that the nineteenth level east has cut into the copper-bearing part of the lode and the rock from there is very good stamp rock. The eighteenth and twenty-second levels are still rich districts and the twenty-second east is especially rich, these lower levels being of a very promising nature on the eastern end. The eighteenth level referred to is east of the shaft and the ground has been continuously rich for more than 550 feet. The twenty-second level are the deepest openings in the mine.

The Granby Mining & Smelting company has taken a bond for \$50,000 on the Copper Queen mine at Chevelan, B. C. The development will be under the supervision of E. E. Campbell, engineer for the Granby company, and work

will begin as soon as the necessary arrangements can be made. Buildings for quarters will be erected at once. The long tunnel will be completed and the work backed up with prospecting with a diamond drill. A large force of men will be kept at work, as it is the company's intention to put the mine on a shipping basis as quickly as possible, the ore which is self-fluxing, being valuable for blending with other ores.

The station at the 1000-foot level of the Giroux shaft has been retimbered and good headway is being made with repairs to the shaft. Water has risen in the shaft to a point about 132 feet below the 1000-foot level. It is now pretty certain that the fire started in the pocket at the 1000-foot level and it is not anticipated that the shaft will be found to be much damaged below that point. As soon as the shaft is in shape two tiers with a combined capacity of 3,000 gallons per minute will be put in and the workings unwatered. From present indications it is thought that but little damage has been done to the station at the 1200-foot level and the pumps and other machinery therein.

It is reported that Thomas L. Chadbourne, a director in the Almeek Mining company and an active antagonist of the Calumet & Hecla consolidation, proposes to bring legal action against the directors of the Occochee, Almeek and Calumet & Hecla mining companies, in order that none of these companies may be made to share any portion of the legal expenses in connection with the attempted merger.

AVERTS AWFUL TRAGEDY.

Timely advice given Mrs. C. Willoughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This marvelous medicine has no equal for throat and lung troubles. Price 50c, and \$1.00. Trial bottle free. Guaranteed by The Stafford Drug Co.

Mining News

GRANBY.

The question of ore reserves at Granby has been a much mooted one ever since the Sussman report was made public in 1910. This report stated that the ore in reserve amounted to less than four and one-half years' supply, which was regarded as a startling exposure. Apropos of the report for the year ending June 30, 1911, which has just been issued, placing the ore reserves at approximately 67,000,000, it is interesting to refer to some of the former estimates of ore in reserve at this mine made by examining engineers and make comparisons. In this respect we are fortunate in having in our possession an old report made on the property by A. R. Ledoux in July, 1901, say Thompson, Towle & Co. According to this report, made not quite a year after operations began, the ore reserves amounted to 7,000,000 tons. From that date, up to the spring of 1910, when the Sussman report was made, there were extracted nearly 6,000,000 tons of ore from which there were produced roughly 150,000,000 pounds of copper. At that date Mr. Sussman estimated there were 5,500,000 tons of ore in reserve in the mine. Since the issuance of that report more than 1,000,000 tons have been extracted, and now follows the report placing the reserves at 67,000,000 tons of a grade equal to the Sussman report. In the above comparison it is not to be lost sight of that the grade of the ore has declined from 1.7 per cent in 1901 to 1.25 per cent in the Sussman and 1911 reports. However, by the economies effected and the treatment of greater tonnages the cost per pound has not increased in proportion. From the above estimates it is seen that the tonnage today at Granby is practically the same as that allowed by the examining engineer ten years ago, though of lower grade. Since the Sussman report was issued, causing much comment on the ore reserves, Granby has been casting about for a new mine and recently acquired the Hidden Creek property at Goose Bay, British Columbia. By the acquisition of this property, which, according to reports, contains from 6,000,000 to 12,000,000 tons, Granby's total ore reserves are at least doubled and the company is in a much stronger position than it has been for many years.

CALUMET & HECLA SUBSIDIARIES.

With the Calumet & Hecla merger a thing of the past, the financial position of the various subsidiaries becomes of vital importance. Had recently been successful the consolidated company would have been amply supplied with working capital. As things stand now, several of the subsidiaries are urgently in need of funds, and it can hardly be expected that Calumet & Hecla will continue to carry the burden. The parent company has its own notes coming due which will call for \$8,500,000 between now and 1919, the first instalment of \$1,700,000 maturing March 1 next. In order to appreciate what the Calumet & Hecla ownership has meant to stockholders of subsidiaries, it is only necessary to mention that on April 30 last, Alouez, Centennial, Grotto and Superior were indebted to the parent company \$1,151,800. That this credit extended by Calumet & Hecla has taken the place of assessments goes without saying. Dec. 31, last, three of the subsidiaries—Centennial, Superior and Isle Royale—reported a balance of current liabilities over current assets, and in addition the two first named properties showed a deficit from operations. Isle Royale made a net profit last year of \$92,316, since which time underground conditions have shown improvement and it is therefore quite probable that the company has by this time wiped out its deficit of \$18,731, has a small working capital and is in relatively comfortable shape, although it must be admitted that a larger surplus is essential.

Centennial would seem to need financing, as it showed a loss of \$20,742 in 1910 which brought its balance of liabilities up to \$20,107, and no indications have yet been given that the situation has changed. It is only fair to say, however, that since Jan. 1, Centennial has more than paid expenses. Superior is, of course, still in the making, and with a floating debt of \$250,000 can hardly be expected to be placed on a firm financial foundation without more money from its shareholders. Of the other companies, Alouez is the only one whose finances are not satisfactory, although there appears no reason why that company cannot work out its own salvation. It made net profit of \$71,096 in 1910, and is today in better condition—from an underground standpoint—than ever before. Its rock is running higher in copper content and costs are lower than last year, while with its No. 2 shaft in operation it is in position to show an increased output and in fact has done so during the 1911 calendar year.

Tamarack is in good financial shape with over \$1,000,000 working capital, but is hardly to be considered, as its operations have been reduced to a minimum. It operated at a loss of \$172,246 in 1910. La Salle has been a disappointment to date, but has over \$350,000 working capital.

ALMEEK.

Although the initial disbursement of \$2 per share by AlmEEK was designated simply as "dividend" it is understood, according to the intent, to make such payments quarterly. That AlmEEK can well afford to disburse to its shareholders \$400,000 per year is confirmed by a brief survey of its operating and financial situation. The company is producing 15,000,000 pounds of copper per annum, at a cost of not over eight cents per pound. Indicated profits on present price of copper are over \$600,000 yearly, or better than \$12 per share on AlmEEK's 50,000 shares. As a matter of fact, AlmEEK's cost is probably quite as low as 7 1/2 cents per pound as 8, as its mine cost is running at 6 1/2 cents per pound, to which must be added smelting charges and eastern expenses of 1 1/2 cents per pound. An output of 15,000,000 pounds does not represent the ultimate which may be expected from AlmEEK, as its Nos. 3 and 4 shafts are not yet on a producing basis, nor can they be for a considerable time. When this time arrives AlmEEK can easily output 25,000,000 pounds and show handsome earnings for its stock even on lower-price copper.

AlmEEK is in easy financial position, with net cash, copper and supplies on hand amounting to \$800,000. Payment of the recent \$2 dividend will reduce this to \$800,000, which makes a very respectable working capital even taking into account that in the next year or two there will have to be spent between \$500,000 and \$600,000 for equipping the Nos. 3 and 4 shafts and increasing the capacity of the mill. There is no present reason to suppose, however, that a large part of these expenditures cannot be made from earnings.

AlmEEK's rise to the dividend-paying class is of more than passing interest. The property lay idle for a great many years, the stock was almost unobtainable, and many now well-to-do Lake Superior people owe their start, in part at least, to purchases of the stock at cents per share. The only money paid in by AlmEEK shareholders in recent years was \$5 per share. With this \$250,000 practically as a starter, AlmEEK has paid for all its equipment, opened up a valuable mine and laid by nearly \$1,000,000 in net quick assets—all from the copper extracted during the period of its development. Its record has few parallels in mining history.

ALLOUEZ.

A director of the Alouez Mining company says: "The new construction and development work at the Alouez property has so far progressed that it is now a matter of comparatively short time when the output can be doubled and dividend payments will then be in sight. There is no question that dividends could have been paid for a year past if the property had been continued under the former management as quicker work would have been done in making the necessary improvements than under the Calumet & Hecla management. It must be said, however, that the work as done under the Calumet & Hecla, while it appeared slow to some, has been very thorough and the property was never in better physical condition than at the present time. The company will end the present calendar year with a debt of probably \$100,000, but there will be little difficulty in clearing up this debt when the output is doubled."

DENIES ACCIDENT.

Captain Haggaton, of the Blue mine, denies the report of an accident in which a young Finn miner was said to have fallen fifty feet and miraculously escaped injury. Captain Haggaton says that there was no accident of any kind at the Blue mine Friday.

SEASON OPENS.

Hundreds of Negaunee hunters took to the woods yesterday to open the partridge and deer season. As yet none have reported any remarkable killing and the first deer has yet to come in. Hunters are going northwest and south to stalk deer.

LOCAL LACONICS.

Ida Field entertains the C. C. M. club at her home Friday evening.

Mr. and Mrs. Eusebe Bertrand of Marquette visited in the city yesterday.

Mr. and Mrs. Timothy Duette, of Marquette, visited friends in Negaunee yesterday.

It is expected that the Star theatre, in the Mykonen block, will open Thursday evening.

Miss Margaret McCombs and Miss Pearl Tucker, of Marquette, spent the week end visiting Miss Marion Bedford.

Work on the concrete sidewalk in front of the Kullman property on Iron street has been started by Jackson & Lindquist.

Panorama views taken during the flood disaster at Austin, Pennsylvania, by the Lubin Film company, will be presented at the Bijou this evening.

The Marquette County Gas & Electric company has started reconstruction work on the car line between the Northwestern crossing and the Breitung hotel.

Mrs. H. W. Trembath was pleasantly surprised at her home Saturday evening by a party of her friends. The occasion was her birthday. Cards were played, and refreshments served.

Mr. and Mrs. H. L. Zimmerman, of Milwaukee, arrived in the city Saturday to attend the funeral of the late Mrs. John Moran, which was held from St. Paul's church at nine o'clock on the same morning.

Harold Ashton and wife, of Chicago, who were recently married, arrived in Little Lake yesterday, where they will spend their honeymoon at the Yates camp. Charles Yates, a cousin of the groom, who attended the couple in the wedding ceremony, arrived home yesterday morning from Chicago.

Wesley Harold, the ten-year-old son of Mrs. George B. Mitchell, died Saturday forenoon after a few days' illness with diphtheria. The lad was sick but a short time, and his death comes as a decided shock to the many friends of his mother. The funeral was held yesterday afternoon from the family home.

Jack Foteh concluded his visit to the Elite rink Saturday night in a new and original program, following which he received Frank Winters, of this city, who is the champion amateur skater of the upper peninsula. Foteh won by a quarter of a lap, but it was a faster and closer race than he had had for some time, by his own acknowledgment.

JAPANESE DENTISTRY.

Japanese native dentists conduct their business in a manner which would undoubtedly cause any European practitioner to open his eyes in amazement. The victim is seated on the ground, the dentist bends over him, and forces his left hand between the patient's jaws, in such a manner that the mouth cannot possibly be closed. Then he grasps the doomed tooth between the thumb and forefinger of the right hand, and with one deft wrench removes it and throws it upon the ground.

So great is the skill of these native dentists that many of them are able to remove six or seven teeth a minute. Indeed, their skill is hardly to be wondered at, when one considers the course of preparatory training they are obliged to undergo.

A number of holes are bored in a stout plank, and this is fixed firmly to the ground. In the holes are driven wooden pegs, and the would-be dentist has to extract them with his fingers without dislodging the board. This process is repeated with a board of pine wood, and finally with one of oak, and it is only when he has succeeded in extracting the pegs from the oak plank that the Japanese considers himself qualified to practice upon his fellow men.—New York Tribune.

When you have a bad cold you want the best medicine obtainable so as to cure it with as little delay as possible. Here is a druggist's opinion: "I have sold Chamberlain's Cough Remedy for fifteen years," says Enos Lollar of Saratoga, Ind., "and consider it the best on the market." For sale by the People's Drug Store.

TAKE YOUR COMMON COLDS SERIOUSLY.

Common colds, severe and frequent, lay the foundations of chronic diseased conditions of the nose and throat, and consumption. For all coughs and colds in children and in grown persons, take Foley's Honey and Tar Compound promptly. The People's Drug Store.

NEGAUNEE WINS FOOTBALL CONTEST

Marquette Downed Saturday in a Fast Game at Union Park by Score of 23 to 0.

The Negaunee High school team won Saturday's football game from Marquette at the Union park by a score of 23 to 0. The weather was ideal, but not a man crowd turned out. Marquette won the toss and kicked off to Sterling, who advanced the ball twenty-five yards. After three downs, Negaunee was forced to punt; the ball went thirty yards and a Marquette man fumbled it. Negaunee got the ball, which was saw-sawed for a few downs; Negaunee finally being forced to punt. Lahti was put through for seven yards, to Marquette's fifteen yard line. Marquette carried the ball back for ten yards, when Negaunee again secured possession of it. Lahti went through the line for seven yards and Manning for eight, but the locals were held on Marquette's four-yard line. Marquette got the ball on their own thirty-five yard line, when Sterling and Manning fumbled a punt.

Negaunee quickly recovered the ball, and Swartzberg tore off a thirty-five yard run. Paull was sent through the line for five. Time was called with the ball on Marquette's ten-yard line. In the second quarter Sterling failed in an attempt for a drop kick after two attempts had been made to secure touchdowns. The ball went over the goal line and Marquette secured it. Marquette tried a forward pass, which was blocked by Beaudin, Paull falling on the ball. Manning was sent around for twenty-five yards and Sterling threw a beautiful forward pass to Beaudin, who ran in for a touchdown, after six minutes of play. Sterling failed to get the ball, but Manning failed to get the ball, and after three unsuccessful plays, the ball went to Negaunee on Marquette's thirty-yard line. Negaunee was held for downs, the ball going over to Marquette. After Marquette punted, Sterling ran the ball back for twenty yards; Manning went through the line for ten, Lahti, five and Paull, four.

Negaunee was again held for downs, but secured the ball on the next play, when Connors dropped it on a fumble. Lahti was sent to the twenty-yard line, eight yards; Manning took two. Lahti again went through for five. On the next play a Negaunee man fumbled the ball on Marquette's four-yard line. Marquette punted out twenty-five yards, Negaunee having the ball on Marquette's five-yard line when time was called.

During the intermission a fast and furious game was played between the Marquette Guild ball team and the Negaunee second team, which the latter won by a score of 10 to 0.

Good Gains on Forward Pass.

In the second half Negaunee kicked off to Quarters, who ran the ball back fifteen yards. Marquette was forced to punt, the ball going to the fifty-five yard line. Beaudin went around for ten yards and Swartzberg on a beautiful forward pass ran forty yards for Negaunee's second touchdown. Sterling kicked goal, making the score 11 to 0. Marquette kicked off to Sterling, who ran the ball forty yards before being tackled. Negaunee was held, Marquette getting the ball, but Marquette failed to make their downs and was forced to punt. Manning returned the punt forty yards, Sterling went four yards around end and Swartzberg, on a forward pass, went over for a touchdown, after a run of fifteen yards. Sterling kicked goal, making the score 17 to 0. Time played, six minutes.

On the kick off, Sterling advanced the ball twenty-five yards, but the next two downs Negaunee was held and was forced to punt. Marquette was forced to punt, the ball going to the forty-yard line. Marquette was held for downs, Sterling made fifteen yards on an end run, Manning ten on a forward pass, and Lahti eight on a line buck. Time was called with the ball on Marquette's forty-five yard line.

After play was resumed, Negaunee made forty yards on a forward pass, but in the next play fumbled, with the ball on Marquette's three-yard line. Marquette punted out to their own fifty yard line. Sterling advanced the ball thirty yards. In the next play, Lahti went through the line for five, and Manning ran fifteen yards around the end for a touchdown. Time of play, seven minutes. Sterling kicked goal, making the score 23 to 0.

Marquette kicked off to Sterling, who advanced the ball twenty yards and Swartzberg took thirty on a forward pass. Sterling also made thirty on a forward pass, but Negaunee was held for downs. Marquette punted out to their own forty-yard line, and time was called.

The game was fast from beginning to end, and was featured by many brilliant plays on both sides. Sterling, Manning, Lahti, Swartzberg and Beaudin were easily the feature players for Negaunee, while Courtney and Quarters were the stars for Marquette. Joseph Primeau, Jr., of this city, and W. H. Norman, physical director of the Y. M. C. A., at the opening were the officials. The time played were ten and fifteen minute quarters.

WORK IS COMPLETED.

The work on the concrete coping walks and abutments on the grounds of the Labor temple has been completed. Anton Henriksen had the contract. The space inside the front retaining wall is being filled up with large gravel, and on top of this a layer of soil suitable for planting grass and clover will be placed. It is hoped the work will be finished while the good weather lasts, so that it will be possible to sow a lawn this fall. The wall of concrete at the rear wall of the property gives the lot a neat appearance. It is hoped the city will grade and macadamize the street next spring.

TO BE MARRIED WEDNESDAY.

Elizabeth V. Dwyer, daughter of J. Dwyer will be married Wednesday to Alfred Baker, of Escanaba. The wedding will take place in St. Paul's church, probably in the morning at six o'clock. Following the ceremony the couple will leave on a short wedding trip to Detroit, and vicinity. Mr. Baker is an engineer on the Chicago & Northwestern railroad. After the wedding the couple will go to Escanaba where they will make their home.

SUCCESSFUL SOCIAL.

The social given by the Ladies' Auxiliary, A. O. H., in Shea's hall Friday night was a social and financial success. The guests were entertained with progressive pedro until ten o'clock, when a dainty luncheon was served. Following this, there was informal dancing up to a late hour. The music was furnished

DEATH OF MICHAEL SHEA.

Old Negaunee Resident Passed Away Saturday Morning.

Michael Shea, the second of three brothers who located in Negaunee in the fifties, passed away Saturday morning at the home of his daughter, Mrs. Charles Vincent. Death did not come unexpectedly as Mr. Shea had been feeble for some months, and he had sunk rapidly during the past few weeks. His demise was due to old age, he having been eighty-nine years old.

The deceased was born in the County Kerry, Ireland, in 1822. He came to America with other members of his family in 1853, locating at Newport, R. I., and remaining there a short time. He later moved to Washington, where in 1854 he helped to lay the gas mains in the principal streets of that city. He remained there until 1857, when he came to Negaunee, continuing his residence in this city until his death.

The deceased did his first work in Negaunee at the old Pioneer furnace, going from there to the Jackson mine, and taking a position under Captain Partridge, who was the first man to have charge of underground operations at that property. He worked continuously at the Jackson for thirty-four years, having been there practically all of the time that Captain Harry Merry was in charge of the property.

The deceased is survived by one brother, Stephen Shea, who lives in Ironwood, and one sister, Mrs. Daniel Manning, of Hibbing, Minn. His wife died in Negaunee in 1872. They were the parents of four children, Mrs. Charles Vincent and three sons, Daniel, Thomas and Michael, all of the latter having died in this city. Seven grandchildren are living.

The funeral will be held this morning at 9 o'clock from St. Paul's church.

TWENTY-FIVE YEARS OLD.

Swedish Evangelical Lutheran Congregation Celebrating Anniversary.

The Swedish Evangelical Lutheran Bethany congregation is celebrating its twenty-fifth anniversary. The celebration began yesterday and will continue today. It opened at 10 o'clock yesterday with the usual morning service and the communion of the Lord's supper. Rev. S. Bergdahl of Republic gave the sermon preparatory to the holy communion and Rev. C. E. Lindquist preached at the regular service. In the evening at 7:30 o'clock there was a young people's program, as follows:

Invocation.
Declaration—Miss Hildur Larson.
Song—Church choir.
Dialogue—Arranged by the Misses Hulda and Miss Hilma Olson.
Piano solo—Hilma Erickson.
Address—Rev. Oscar Sandahl, of Marquette.

Song—Church choir.
Orchestra Music—Arranged by John Mauritz Lindquist.
Vocal solo—Miss Euphemia Goring.
Declaration—Hilda Sjoholm.
Piano solo—Mrs. Olivia Hasselblad.

Closing remarks and benediction. This afternoon at 2 o'clock Rev. A. E. Monell of Calumet will speak concerning the mission work of the church and Rev. S. Bergdahl on the subject, "The Different Forces at Work Under the Church's Auspices." Both of these clergymen were formerly pastors at Negaunee. In the evening, Rev. A. T. Fant of Iron Mountain will speak. Rev. Mr. Lindquist, the pastor, will give a review of the development of the congregation during the past twenty-five years. The church choir will sing.

All the pastors in the Ishpeming district of the Swedish conference will be present today. The church has been very prettily decorated by the ladies of the congregation.

DELEGATES LEAVE.

Captain J. H. Dunstan and Charles Haines Go to Grand Lodge Meeting.

Captain J. H. Dunstan and Charles Haines, the two delegates from the Negaunee lodge, A. O. F. E., leave this morning for Saginaw to attend the annual meeting of the grand lodge in that city. R. G. Jackson goes with them as a member of the board of control of the Odd Fellows' home, located at Jackson. After the meeting of the grand lodge, Mr. Jackson will go to Jackson to attend a meeting of the board, of which he is secretary.

There will be from 700 to 800 delegates at the Saginaw convention, as there are five hundred and forty-six Odd Fellows' lodges in the state. Each of these lodges has the privilege of sending one delegate to the convention, and if any lodge has more than one hundred members, it is allowed two delegates. The Negaunee lodge now has a membership of 150.

When Dr. J. S. Leonhardt, of Lincoln, Neb., located the cause of piles and found a successful inward remedy for piles, he had it put on sale under a strict guaranty of satisfaction. In ten years only 3 per cent of HEM-ROD users have asked for their money back, and it speaks well for this scientific modern remedy. Get a guaranteed \$1 package from 'The People's Drug Store, Marquette, and The City Drug Store, Ishpeming, Mich., or any druggist, or write to Dr. Leonhardt Co., Station B, Buffalo, N. Y., for free HEM-ROD booklet.

After exposure, and when you feel a cold coming on, take Foley's Honey and Tar Compound. It checks and relieves. Use no substitute. The genuine in a yellow package always. 'The People's Drug Store.

SPORTSMEN HAD ONLY FAIR LUCK

No Deer Carcasses Were Brought in on the Cleveland Cliffs Roads' Trains Last Night, and Nine Out of Ten Who Went Into Woods Were in Quest of Partridges.

Many Local Hunters Believe it is Too Early to Hunt Deer and Will Not Take Out Licenses Until Later—A Few Brought Home Fine Bags of Birds.

Though the hunting season opened Saturday night at midnight, as far as could be learned no venison had been brought into the city before midnight last evening. No deer carcasses were brought in on either of the Cleveland-Cliffs roads' trains last night, though they had carried out over fifty hunters in the morning. Last year several deer were brought into the city before midnight the first day of the season.

While it is estimated that considerably over 100 Marquette hunters were in the woods yesterday, at least nine out of ten were hunting partridges and not deer, but the flocks were rather small at the opening of the season. As the woods are dry and there is still considerable foliage on the trees, bird hunting is more difficult than it would be later, provided no hunting was being done now. With the woods full of hunters, however, it will be but a short time until the flocks are so scattered that it will be luck more than anything else when anyone gets a bird.

Too Early for Deer.

In the opinion of most Marquette sportsmen, it is too early for successful deer hunting and many of them have decided to wait until the season is farther advanced before taking out their licenses. Comparatively few licenses have been issued from the county clerk's office to date, but it is expected that there will be more of a rush this week. As the license expires twenty-five days after issue, hunters do not intend to get them until the time they have arranged to hunt, and the experienced deer hunters believe that they will have better success a little later, even though others may have had a first chance in the hunting grounds.

At the South Shore railroad offices yesterday it was stated that very few hunters had crossed the straits up to last evening, which fact doubtless in some measure is due to the provision of the new law, under which licenses cannot be issued before the opening day of the season without shortening the life of the license a corresponding number of days. It is expected that a great many downstate hunters will cross the straits this week, and the railroad company has made preparation for handling a big crowd.

South Shore train crews report that there were a good many hunters in the woods Saturday night, and that in a few instances deer were seen hung up near the track before the season opened. About 11 o'clock Saturday night, three deer ran across the track near Oneta, just ahead of passenger train No. 7, one of which escaped the pilot of the locomotive by only a few feet. The South Shore men report that they have seen more deer than usual at this time of year.

APOPLECTIC STROKE FATAL.

Frank E. Withey Passed Away at an Early Hour Sunday Morning.

Frank E. Withey, a well-known Marquette attorney, suffered a stroke of apoplexy late Saturday afternoon, from which he did not rally and passed away Sunday morning at 2:30. Mr. Withey was sixty-one years of age and had lived in this city for the past ten years. He had been afflicted with whooping cough for several weeks, which is believed to have been instrumental in bringing on the apoplectic stroke.

Mr. Withey was in his usual good health Saturday, and spent the day at the Northwestern Collection agency office, of which his son, Frank H., is manager, and where he has been employed for two years in adjustment and legal work. The stenographer left Mr. Withey in the office reading about 4 o'clock Saturday afternoon. Half an hour later the janitor of the building found him lying on the floor unconscious. A physician was hurriedly summoned and the patient was taken to St. Luke's hospital, where he died ten hours later.

Frank E. Withey was born at Fulton, N. Y., May 17, 1850. In 1875, he married at Baldwin, Mich. His wife is now critically ill at a hospital in Big Rapids. In 1890 he moved to Manistee, where he engaged in the practice of law. In 1901 he came to Marquette, where, until two years ago, when he entered his son's office, he was engaged in putting through mining deals, etc.

He is survived by his wife and four children: Mrs. Geo. W. Farwell, of Los Angeles; Agnes F., Frank H., and Helen M., all of this city; also by one brother, Edwin W., who resides at Little Rock, Ark.

Mr. Withey was a member of the Maize lodge of Masons, and he was affiliated with the Maccabees and the National Union.

The funeral will be held at 3:30 this afternoon from his late residence, 613 Front street.

ENGINE CUT OFF LEGS.

Opie Anderson Terribly Injured Near L. S. & I. Station.

While sleeping or walking on the railroad track (it is not known which) Opie Anderson, aged about thirty, was run over by a L. S. & I. locomotive about 100 feet south of the passenger station at an early hour Sunday morning. One leg was cut off at the foot and the other leg was severed several inches from the hip. He suffered several scalp wounds and probably sustained internal injuries, but he was still living last evening and has a possible chance of recovery.

The engine crew, who had brought in a crew of workmen from the L. S. & I. ore dock, did not know that they had run over a man, and he was found by Police Officer Ford, who heard groans as he passed back of the buildings on Front street about 2:30 a. m., and went to investigate. Anderson was at once taken to St. Mary's hospital, where every possible effort is being made to save his life.

Anderson has worked in this city intermittently for about two years past, and recently he has been employed at Schweitzer's camps near Birch and on the construction of the Cleveland-Cliffs electric pole line from the Carp river plant. It is said his father lives in Green Bay.

SOO CANAL PASSAGES.

Marie, Mich., Oct. 15.—[Special.]—The following upbound boats have passed the canals the past twenty-four hours: Arabian, 8:30 last night; Lakeland, 10; Andrews, 11; Omega, midnight; Morse, 1:30 this morning; Wickwire, Jr., 2; McGee, 2:30; Harvey Brown, Gates, 3:30; Fairmount, Andrew Upson, 4:30; Kopp, Corsica, 5; Kamini-tiquia, 6; James Wallace, 6:30; Hanna, (small) 7; Byers, 9; Widener, Assiniboia, 10; Masaba, Bradley, (steel), Sani-lac, Black Rock, noon; Ball Bros., Ironia, 1:30 this afternoon; Perkins, 2:30; Berry, 3; Andaste, Townsend, Maunaloa, Doric, 4; Price, Cort, Malta, 5; Palmer, Wexford, 5:30; V. Tionesta, 7:30; Sahara, 9; Superior City, Holley, 10.

GUILD HALL WON BY 5 TO 0 SCORE

Gwynn Y. M. C. A. Defeated Saturday, Both Elevens Using Old-Style Football.

For the second time in as many games, Guild Hall football team defeated the Gwynn Y. M. C. A. eleven at the fair grounds Saturday afternoon by the score of 5 to 0. At Gwynn a week ago the Marquette team won by the close score of 6 to 5. While neither team played particularly brilliant football Saturday, Guild Hall managed to keep the pigskin in the visitors' territory the major part of the time, and the score fairly represents the relative strength of the two elevens. At Gwynn last week, however, Guild Hall's victory was largely the result of a fluke.

Both teams depended almost entirely on the style line-backing game, interspersed with end runs. The few forward passes attempted were unsuccess-ful and, generally speaking, on-side kicks and trick plays were noticeable in their absence. There was very little punting done, the ball usually changing hands after a third-down scrimmage in which the offensive team failed to gain the required distance, or on a fumble.

Guild Hall made its lone touchdown in the third period, by taking advantage of the bad judgment of Gwynn's quarterback. Guild Hall had advanced the ball to Gwynn's ten-yard line, where they lost in on downs. Instead of punting out of danger, the Gwynn quarter gave the signal for a line play. The ball fumbled, recovered by Guild Hall player and carried back of the line. A fair catch was made on the kick-out but Guild Hall missed an easy goal.

Except in this one instance, neither goal was in imminent danger of being crossed, and the ball rambled regularly from one twenty-five yard line to the other, only to be lost on downs or fumbles. Both teams showed the need of more practice, and better results would probably have been obtained if kicking had been resorted to more frequently.

During the coming week, Guild Hall will practice every afternoon, and particular attention will be paid to developing the forward pass. With the material now on hand a strong team should be developed. Arrangements are being made for further games with the Gwynn Y. M. C. A. and Ishpeming "Y" has been scheduled for next Saturday. A complete schedule will be announced later.

Guild Hall Notes

The regular gymnasium classes for young women and girls will be conducted by Miss Stafford this evening; the Hit and Miss club meeting at 7:30, and the C club at 8:15. A swimming class for each club will also be held immediately after the gymnasium classes. A good attendance of C club members is especially desired.

A ladies' handicap bowling tournament is talked of, and a committee will be appointed tonight to take charge of the tournament, which will probably begin next week. Much interest is already shown in this event and a number of young women are already getting their bowling eyes and muscles into trim.

Director Call will organize a business men's class this week, which will meet twice a week from 5 to 6 in the gymnasium, commencing next week. The date of the first meeting will be announced later.

A "football smoker" will be held at Guild Hall Wednesday evening, at which all players and members interested in football are invited to be present. A regular captain for the eleven will be chosen and the make-up of the team for next Saturday's tussle with the strong Ishpeming Y eleven will be decided. Interest in football has been much increased by the fine showing made by the Guild Hall eleven in the two games with Gwynn and the turnout of rooters is likely at the next game. Everybody interested in football, whether Guild Hall members or not, will be welcome at the "smoker" Wednesday evening.

All "early birds" who would like to

take a 45-minute cross-country run before breakfast during the present spell of fine weather are invited to be at the Guild Hall Tuesday morning at 6:45, sharp. If sufficient interest is shown, the run will be repeated each morning while the fine weather lasts. Some who have tried it lately say there is nothing like it to drive the cobwebs from the brain and to put one in fine fettle for the rest of the day.

GIRL'S LONG WATCH ENDS.

Oklahoma Normal Student "Proves Up" and Gets Title to Her Land.

Edmond, Ok., Oct. 15.—Miss Elizabeth Borden is young—in years. She is anything but old in appearance. And the only way in which the average man may know that she has lived a life that rivals in interest that of any heroine of fiction is by hearing the story that she tells, if she can be persuaded to tell it.

It is a story of a five-year vigil. Five years when the civilization she created was practically the only civilization she saw; when months of life in the wilderness were punctuated by little horseback trips twenty miles through a dusty desert to the town of Sayre; trips from a little "dugout" in the center of a prairie, seemingly endless, to what was then a scattered group of frame buildings, for a few hours' converse with those who spoke her language, thought some of her thoughts and lived a life somewhat like her own. It is a story of five years' fall of lonely nights with the heart of the coyote and the tick of a little alarm clock the only company in the darkness; a few ignorant laborers, a few cacti and many books her companions during waking hours.

Miss Borden is attending the Oklahoma Normal here now, and though she is slow to talk except casually about the years she spent "holding down" a claim in Roger Mills county, the story has been spread through the student body. Her claim only recently has been "proved up," and now she is doing some of the things she thinks she earned the right to do during the time she spent on her claim.

In proving her claim she showed to the satisfaction of the United States authorities that she had lived on the land for five years and had converted forty acres of prairie into farming land and cultivated it, and had improved it during the time of her residence. As a result of this proof she holds a clear title to the tract.

During part of the time Miss Borden was holding down her claim she taught school at Sayre, taking the long, dusty ride to the Beckham county town every morning and returning late in the evening to her little "dugout," which, fitted up as she had it, was a veritable haven of refuge.

Dugout Nicely Fitted.

This little "dugout" was her only luxury during the five years, for inside it was fitted up so as to do credit to Fifth avenue in New York, or Fifteenth street in Oklahoma City. Not that there was anything lavish about it, but it breathed a refinement that comes only from a true knowledge of the eternal fitness of things, and was so fitted up as to give a feeling of true restfulness to the weary one who entered.

Miss Borden did little of the work about the place herself, merely superintending the digging of a well or the building of a barn, whichever might be required.

Miss Borden gives no glowing description of her house, but says it was "just nice."

"It was not quite a 'dugout,'" she maintains. "It was just a sort of a sunken house. It was celled throughout with matched boards, had a glass window in the rear, and also an inner glass door, besides the heavy storm door in front. It was decorated inside just like any other girl's room, and was just as snug as anything, really! It was just lots of fun. And honestly, any one could do it, you know!"

FOOD LAW VIOLATORS FINED.

Some Fifty Found Guilty in New York and Pay from \$10 to \$500.

New York, Oct. 15.—Sixty men accused of purveying unwholesome or adulterated foodstuffs or drugs were arraigned in Special Sessions in a single day. Most of them were found guilty and fined, the fines ranging from \$500 down to \$10. The \$500 fine was imposed upon Edward Farrell of 644 Fifty-eighth street, Brooklyn, manager for James Butler, the grocer. The health department condemned 43,499 cans of condensed milk in the Butler depot last April. Farrell pleaded guilty, but said that as the milk was not a loose product but sealed in cans he could not know it was bad.

Louis Strudler, a wholesale egg dealer at 197 Duane street, was fined \$100 for selling rotten eggs. Strudler is a wholesaler who sells eggs to storekeepers and bakers. Inspector Taylor found in his place thirty-four cases of eggs that were practically all bad. A case contains thirty dozen eggs. The thirty-four cases were destroyed. Assistant Corporation Counsel Herman Stiefel prosecuted the bad food cases. He made a plea for a heavy penalty in Strudler's case, referring to him as the "fountain head of New York's supply of bad eggs." He said that two more cases are pending against Strudler.

A fine of \$100 was imposed upon Bessie Schuur, who runs a liquor store at 21 Suffolk street. Inspector Distler bought from her for ten cents a pint of "white whiskey." Analysis showed it to contain about 40 per cent of wood alcohol. Louis Vogel, a baker at 626 Sixth street, was fined \$50 for using bad eggs in his products. Board of Health Inspector Taylor found one case of eggs in his bakery that were practically all spoiled, a second case in which half the eggs were "rots and spots" and a fifteen-pound pail of rotten liquid eggs, which were used to varnish cakes. Vogel pleaded guilty.

BIG STONE FOR FISHERS' GRAVES.

John Hays Hammond Adds to His Gift to Gloucester Cemetery.

Gloucester, Mass., Oct. 15.—A large granite stone, weighing about ten tons, will soon be set in the center of the Fishermen's Rest at Beechbrook cemetery, West Gloucester, through the generosity of John Hays Hammond, who bought a large tract of land in the cemetery a year ago, for the burial of indigent Gloucester fishermen and their families. In turning over the lot to a board of trustees, Mr. Hammond said it was his purpose to later put a huge boulder from the sea there with a suitable inscription, but this was found almost impracticable, so a granite stone was chosen.

The stone, which will be of boulder shape, will have a five-foot base, and will be three feet in width and five and one-half feet high. It will have a
