

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Issued daily except on Sundays. Contains Associated Press dispatches and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per year, by mail, \$6.00; Per month, by carrier, .60

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

MARQUETTE, MICH., NOV. 15.

HE LOVED THE GAME.

Joseph Pulitzer was a man who was in the newspaper game more for the love of the game than for the money he made out of it.

The devotion of Mr. Pulitzer to the profession in which he was such a mighty force is shown by the terms of his will, in which bequestations to newspaper institutions and newspaper men have an important place.

In addition to bequests for some of the old members of the staff of his newspapers and his personal attendants, all of whom are singled out for faithful and effective service.

Mr. Pulitzer's will is one that assures that his influence in his beloved profession did not come to an end with his life.

MAY POINT THE WAY.

Marquette will observe with much interest what the Soo is able to accomplish in the work of charter revision.

In Marquette, too, there is no doubt that scientific city administration would save the city large amounts of money.

Emblagaard Dairy Pure Dairy Products From Holstein Cows George Gillette Tel. 554-D DISTRIBUTOR

pal government, what it succeeds in accomplishing may serve as an inspiration for this city. There are many people who have been closely in touch with local municipal affairs who believe that the Marquette charter should be overhauled and that to subject it to a thorough revision would be to pave the way for a considerable saving of money, greater efficiency in all departments and centered responsibility.

The scope of the federal campaign for pure foods is illustrated by a bulletin just issued by the department of agriculture. The bureau of chemistry collected 9,500 official samples of foods and drugs during the fiscal year, of which 3,380 were found to be legal and 3,003 were misbranded or adulterated.

When the universities of Wisconsin and Minnesota clash on the gridiron this fall they will, for once, determine the championship of the west. Usually all the two best conference teams have had to play for has been the confederence championship, and Michigan has been secure in possession of the major honors.

Memominee says it has the championship high school football team of the upper peninsula. Perhaps it has, but its title is clouded. The Newberry team, which was carefully avoided by the contenders in its own territory, is rated by experts who have seen it work as one of the best eleven that has been developed in this part of the state.

When William Barnes, Jr., the Republican state chairman in New York, refused to produce the books of the Albany Journal company, of which he is president, for the enlightenment of the legislative committee that is investigating the control of the politics of the city of Albany and Albany county and various irregularities in which Barnes is alleged to be involved.

The publishers are appealing to President Taft, urging immediate action to secure the free importation of wood pulp from Canada. The publishers have one remedy in their own hands that would greatly relieve the pulp situation and that would operate to conserve this natural resource that is now being wiped out at such a rapid rate.

There's no reasonable doubt that if the manufacturers would present to the commission on tax inquiry an alternative plan by which it would be assured that they would be adequately taxed the honorable commissioners would throw their corporate excess plan in the waste basket.

Made Pure Kept Pure It's the Brown Bottle

Cleanliness is a science where Schlitz is brewed. We filter even the air where the beer is cooled. Then we filter the beer. Then we sterilize every bottle.

We go to Bohemia for hops. Our barley is selected by a partner in our business.

The water is brought from rock 1,400 feet underground. Our yeast is produced forever from the same mother cell.

Schlitz beer is sent to you in Brown Bottles, protecting its purity from the brewery to your glass. Light starts decay even in pure beer. Dark glass gives protection against light.

If you knew what we know about beer, you would say, "Schlitz—Schlitz in Brown Bottles."

Schlitz The Beer That Made Milwaukee Famous

Phones 1, 114, 121, 273 Andrew Hartvig 219 S. Front St., Marquette

A Laugh or Two

Governor Hughes' Comeback. Shortly after Governor Hughes of New York was elected the second time, after a bitter campaign, a lawyer from New York came to see him and was told to go to the executive mansion in Albany.

It was the first time the lawyer had ever been in the official residence of New York governors, and, after Hughes came into the room, the visitor said: "You have a handsome place here."

"Yes," Hughes replied; "but I had a hard time getting the landlord to renew the lease."—Saturday Evening Post.

Diplomatic Side-Stepping. "Last winter, during a social function in Washington," says Mr. Kennard, counselor of the British embassy, "I overheard a remark on the part of a young clubman there, the tact of which indicates that the youth in question should immediately adopt diplomacy as his lifework."

It must be a lot of satisfaction to a fellow who has been killed in a railroad wreck to have the grand jury determine which conductor disobeyed orders.—Ogemaw Republican.

Connie Mack has signed a first baseman, seventeen years old. He will probably demand a ransom for the child's return.—Detroit News.

Goats' milk is strongly recommended as a cure for inebrity. Still, the victim may find difficulty in getting anybody's goat.—Pontiac Press Gazette.

Michigan leads thus far in the number of vital statistics submitted to central shooting. This is, indeed, a great distinction.—Kalamazoo Telegraph Press.

If the McNamara trial is going to set the precedent, it will be unsafe hereafter for any person to express an opinion excepting about the weather.—Bay City Times.

Melvin Vaniman has named his dirigible balloon "Akron." The Ohio town famous in past as the home of Gus Ruhlin. If the dirigible can get up as often as Gus had to, it ought to be a great success.—Detroit Times.

Don't waste your money buying strengthening plaster. Chamberlain's Liniment is cheaper and better. Dampen a piece of flannel with it and bind it over the affected parts and it will relieve the pain and soreness. For sale by The People's Drug Store.

Here and There

Dr. Cressy L. Wilbur, chief statistician for vital statistics, has submitted to Census Director Durand a table showing the number of deaths and the death rates to 100,000 population from suicide for each month of the year 1910 for the registration area of the United States. The total for the year was 8,590.

Lawyers engaged to assist poor people in New York who had been in the clutches of the "loan sharks," have reported that their clients took an aggregate of \$8,299.60 in loans, on which they were to pay \$3,744.71 in interest in three months. The lawyers in most cases were able to persuade the loan companies to continue the loans at the rate of 6 per cent annually. The loans had generally been obtained to pay doctors' bills or funeral expenses.

An interesting discovery has just been made at the famous china factory of

Sèvres—of no fewer than 385 of the models used in the eighteenth century for the manufacture of the famous "bisquit" ware. These had been lost for nearly 100 years, the invasions of 1814 and 1870 and the neglect of certain of the managers of the factory having been contributory causes.

That the last of government land in Missouri is fast being taken by honest or cash entry is shown in the report of the United States land office. Within the last two years this land has divided from more than 20,000 acres to less than 1,500 acres. Through there were originally six land offices in Missouri, Springfield has had the only office for years, the rough land of the Ozark section being all that was left of the government domain.

Dr. Basil L. Gildersleeve, the foremost representative of classical scholarship in this country, is over eighty years old, and is still a member of the faculty of Johns Hopkins university, as he has been since its establishment in Baltimore in 1876. He is not without hope for Greek in the colleges. "The great trouble with the new scheme of education is that it attempts to educate without effort. They don't want the students to be hurt. That, perhaps, accounts for the decline in popularity in the classics. But I believe that the study of Greek and Latin will increase."

One place where surgery fails to bring permanent relief is in the treatment of piles, because even when the evil tumors are cut away, the cause of their formation still remains. That cause is poor circulation. Dr. Leonard's HEM-ROID is the tablet remedy that is taken inwardly and gets right to the inside cause.

HEM-ROID is sold for \$1 by People's Pharmacy and City Drug Store of Islip and all druggists. Money back if it fails. Dr. Leonard Co., Station B, Buffalo, N. Y. Write for booklet.

"It is a pleasure to tell you that Chamberlain's Cough Remedy is the best cough medicine I have ever used," writes Mrs. Hugh Campbell, of Lavonia, Ga. "I have used it with all my children and the results have been highly satisfactory." For sale by The People's Drug Store.

Classified Want Directory

City Brevities

John Geritta, of Trout Creek, spent yesterday in the city.

P. C. Hatch, manager of Emburgard farm near Big Bay, was in the city last evening.

Mrs. Schumacher, 223 West Ridge street, returned Monday after a two months' visit in Duluth.

Mr. and Mrs. J. Stiles have gone to Taconite, Minn., for a three weeks' visit with their son, Herbert Stiles.

The W. C. T. U. will meet this afternoon at 2 o'clock with Mrs. A. Cowden, 121 East Michigan street.

Mrs. F. H. Willey returned yesterday afternoon from Alma, where she has been visiting for several weeks.

The St Paul train due in Marquette at 11:30 a. m. was several hours late yesterday and the sleeper did not arrive until 2:35 p. m.

Any persons interested in the organization of a city basketball team are requested to meet at Legion Hall at 8 o'clock this evening.

Mrs. Leona T. Field, vice president of the Michigan organization and national superintendent of purity work of the W. C. T. U., will be in Marquette Sunday and Monday, to address a series of meetings.

Captain Kurth, of the barge Mowatt, who was stricken with apoplexy on the way down the lake from Skanee and was taken to St. Mary's hospital, left for home at Northfield, Mich., yesterday afternoon. He was accompanied by Dr. Turner, of Detroit.

Miss Della Cleary, stenographer at the Northwestern Collection agency, left last evening for Michigan to be bridesmaid at the wedding of Miss Eleanor Veale and R. C. Rough, of Chisholm, Minn., which will take place at Michigan this morning. Miss Veale has been teaching at Michigan and has a wide circle of friends.

T. R. Hasley, who has been employed in the L. S. & I. railroad engineering department during the past summer, left last evening for Pittsburgh and from there he will take a trip South. Mr. Hasley does not expect to return to Marquette and his plans for the future are indefinite. Mrs. Hasley is staying in Menominee.

Guild Hall Notes—The boxing class will meet in the gymnasium at 4:45 this afternoon. The businessmen's class will meet this evening at 7:30.

Guest of Mrs. H. O. Young—Miss Flora Wilson, daughter of Secretary of Agriculture Wilson, who has been heard in concert work in Marquette county this week, is in Ishpeming as the guest of Mrs. H. O. Young, who is one of her Washington friends.

Yacht Alvina is Safe—Thomas F. Cole's yacht Alvina, which was out in Sunday's gale on Lake Superior and for which apprehension was felt, passed the Soo at 2:30 yesterday afternoon, forty-eight hours overdue. Though not definitely known, it is presumed that the yacht lay in some sheltered spot until the gale subsided.

M. C. M. Game Cancelled—The basketball game advertised for Friday evening Nov. 17, between Michigan College of Mines and the Knights of Colubus, is postponed, as the M. C. M. team cannot come here on that date. The K. C.'s are trying to arrange a game with one of the local teams for Friday night. If no game can be arranged, the postponed party will be held from 9 to 12 o'clock. Trombly's orchestra will furnish the music and the usual admission will be charged.

House Badly Damaged—Plumbers have been unusually busy the past week repairing water pipes which were broken during the recent spell of near-zero weather. The greatest damage from the sudden cold that has been reported was at Dr. H. M. Cunningham's residence on Spruce street. Nearly every water pipe and radiator in this house was broken and it is estimated that it will cost well up toward \$1,000 to repair the damage. There was no fire in the house, as Dr. Cunningham is on a hunting trip and Mrs. Cunningham is visiting at the Soo.

Lights Out Dec. 10—Lights maintained on the lakes by the United States bureau of lighthouses, will practically all be dark after sunrise the morning of December 10, which is 10 days later than the date set for the termination of hull insurance. Lights and fog-signals on Lake Superior and Lake Huron will be discontinued at the stations named, at sunrise on the following dates: December 7, Granite island light station, Huron island light station, Stannard rock light station; December 7, Manitou light station, Gull rock light station; December 8, Split rock light station, Isle Royale light station, Rock of Ages light station; December 10, Spectacle rock light station, Poe reef light vessel No. 59, Martin reef light vessel No. 80, Outer island light station, Michigan island light station, Raspberry island light station; Devil's island light station, Sand island light station.

Robberies at Big Bay—Deputy Sheriff Jack Ellsworth came down from Big Bay yesterday afternoon with one William Szalno, and three other saw mill hands, whom the deputy expected to give evidence to show that Szalno had cut one of the witnesses face with a knife and also that he had been guilty of several small robberies that have recently been perpetrated in that village. The case was investigated by Justice Carey, and when the facts were gotten at through an interpreter, the case against Szalno flattened out like a pancake. There have been several thefts of money at Big Bay during the past week or ten days, but no evidence was brought forward to indicate that Szalno was the thief, and it is now believed that the guilty parties have escaped to Chicago. It further appeared from the evidence that the cuts on Henry Zeebur, one of the witnesses, were inflicted by Szalno in self-defense.

INSURE WITH PETER WHITE & CO. HUNTER'S SPECIAL.

on the M. M. & S. E. Ry to the Big Bay hunting country Leave Marquette at 6:30 a. m., on the following Sundays: Nov. 5th, 12th and 19th. Returning will leave Big Bay at 5:00 p. m. Fare for the round trip to Big Bay, \$1 to Birch, seven-cent. In addition to the above a train will also be run on the three Saturdays preceding the above dates leaving Marquette at 2:00 p. m. and returning from Big Bay at 6:15 p. m.

OATES FAVORS SUGGESTION.

State Game Warden Endorses Law Prohibiting Killing of Does.

State Game Warden Oates is in accord with the opinion of many upper peninsula sportsmen that a law should be passed prohibiting the killing of female deer at any season of the year, according to the following dispatch from Lansing to a Detroit paper:

Major W. R. Oates, state game and fish warden, returned today from the upper peninsula, where he has been investigating conditions in regard to the hunting of deer. The warden has formulated a plan for the lessening of accidents to human beings that he believes will be effective. This is to prevent the shooting of any but male horned deer.

"Lots of deer," said the warden, "and plenty of hunters. The latter are crossing the state now in army corps and within a few days they will begin the shipment of deer carcasses by the score. Most of the hunters waited for the snow to come before going north. As a result the business of watching the shipments out of trophies of the chase has just begun."

Asked what percentage of chances a man takes in going into the woods in these days of high power rifles and numerous amateur hunters, Warden Oates replied: "Pass a law prohibiting the killing of any except horned male deer and the mortality record of our woods would be greatly decreased, in my judgment. Excitable hunters, as it is, shoot first and then look to see what stirred in the bushes. If there was a penalty for killing does, then the shooter would have to wait until he could determine whether it was really a deer or another man with a gun and the loss of life would be lessened."

SOO CANAL PASSAGES.

Names of the Boats Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., Nov. 14.—[Special.]—The following upbound boats have passed the canal the past twenty-four hours: Harvester, 9 last night; Corrigan, 1 this morning; Impoco, Rawford, 4:30; Rosedale, 6; Burlington, 2; Gary, 7:30; Mataafa, 9:30; Doris Baker, 1 this afternoon; Schuck, 2:30; Chilo, Athabasca, Emperor, 5; Andrew Union, 7:30; Superior City, 8:30.

Theatrical

"Busy Izzy." If anyone should attempt to spring a joke on you today that you never heard before, just say "Busy Izzy" and walk away.

"Busy Izzy" was presented at the opera house last evening and for two hours of merriment and merriment it would be hard to beat. It probably classed as a musical comedy, but more exactly it is a comedy with a little music and not even a suggestion of a plot. This latest vehicle of George Sidney is really little more than a series of vaudeville sketches put on with lightning rapidity, but it is good vaudeville and the production was well received by the rather small audience in attendance.

Mr. Sidney, the leading comedian, makes up as a Jew, and much of his success is due to the fact that he does not malign or caricature the race. He has a long line of new jokes and he never failed to provoke a laugh. Fully as entertaining as Mr. Sidney, though in a different way, is Mrs. Sidney, whose stage name is Carrie Webber. Miss Webber first appears as an Italian organ grinder and she is a tremendous success as a character woman. She seems to be especially well fitted to portray the dramatic Italian character, though she was pleasing in the other character parts she attempted. Others who materially added to the fun-making were Nick Bassil as Yuki Quick, John McGee, as Gee Whiz, Frank Wilbans as Jim Crow, Ben Turpin as Hooly Hapigan and C. L. Patterson as Harry Smart. Walter Webber was cast in the role of a burlesque villain. Perhaps the best parts of the show were the "takeoffs" and burlesques among which an "ulcerated song" and "Every Little Improvement" to the tune of "Every Little Movement" were most enthusiastically received. The burlesque minstrel show in the last act was also a very clever piece of work.

Howe's Moving Pictures.

History has never recorded a more majestic spectacle than the coronation of George V., which will be reproduced by Lyman H. Howe at the Opera house Thursday and Friday evenings. The pomp and circumstances of dead centuries are lived again. The traditions and chivalry of the middle ages are pictured amid the scenes of today—the today of aeroplanes, dreadnaughts and electricity. Imagination could not create a spectacle as dazzling as that which Mr. Howe promises to reproduce in all the splendors of the original. Soldiers from the four corners of the earth in their varied uniforms, ambassadors, premiers, dukes, marquises, earls, barons, all pass in review many times and so closely to Mr. Howe's camera that spectators grow to feel well acquainted with the mighty ones of earth.

A ride on an aeroplane with Lincoln Beachey; another on a diligence through the mountain passes of New Zealand; and a ride on the Rio Grande railroad through the Royal Gorge of Colorado will also be reproduced by Mr. Howe. Another subject "The Birth of Flowers" reveals the mysteries of nature; surfering in Hawaii shows the dexterity and skill of the natives utilizing the forces of nature; a pictorial excursion through Japan takes the audience through the sacred deer park at Nara, to Nikko, and to the rapids of the river Magadisa. The training of the children of the Samurai will also be witnessed. A remarkable coronation drill by the Redham Orphans, London, and the latest winter sports in Switzerland are still other features of a program which is heralded everywhere as the most elaborate Mr. Howe has ever presented.

PILES CURED IN 6 TO 14 DAYS.

Your druggist will refund money if FAZO OINTMENT fails to cure any case of itching, blind, bleeding or protruding piles in 6 to 14 days.

COUGHING AT NIGHT.

Means loss of sleep which is bad for everyone. Foley's Honey and Tar Compound stops the cough at once, relieves the tickling and dryness in the throat and heals the inflamed membrane. Prevents a cold developing into bronchitis or pneumonia. Keep always in the house. Refuse substitutes. For sale by all dealers.

DUCKS KILLED BY BALLOONISTS.

Wild Fowl, Blinded by Mist and Entangled, Are Easy Prey.

St. Louis, Nov. 14.—Lieutenant H. E. Honeywell, veteran balloonist, who has returned from Kansas City, tells of a wild duck hunt which his balloon party made in the air.

"George W. Meyers, president of the Kansas City Aero Club; E. H. Thompson, John Watts and myself made an ascent," said Honeywell. "We were more than 1,000 feet above the clouds, which were driving rapidly northward under the influence of a forty-mile-an-hour wind. The sun was shining brightly as we started to descend through them. "As we passed through the cloud strata we encountered a flock of ducks which were making frantic efforts to gain headway against the clouds in their southward course. The ducks were apparently blinded by the mist, for they ran head on into our balloon and became entangled in the shrouding. They flapped wildly and fell into the basket. We caught some of them, when they fell and managed to kill eleven before we passed through the flock."

TO CURE A COLD IN ONE DAY.

Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVES signature is on each box. 25c.

Soyer's System of Cooking in Paper Bags is said to have revolutionized cooking in England, and a like result is predicted for it in this country as soon as its remarkable virtues become known to the American housewife.

Wholesale Prices on Women's High Grade Fur Coats

We announce a display and sale of women's fine furs and fur garments by a manufacturing furrier at our store on Nov. 17 and 18, Friday and Saturday this week.

We have made an arrangement with the factory to give our customers strictly wholesale prices on all garments and high grade fur sets on these two days and advise every woman who contemplates the purchase of furs to make her selection from this large stock on above dates.

Mr. Barth, representative of the factory, will be in charge of the display and will be glad to give customers intelligent advice on all sorts of furs.

Our guarantee of absolute satisfaction is back of every garment offered.

It is the best chance of the year to your choosing, because this display affords a larger selection than any store can afford to carry in stock.

ENGINEER RETIRES.
Northwestern Employee Placed on Pension List.

Charles A. Cotton, who has been in the employ of the Chicago & Northwestern Railway company for the past forty-seven years, and who is well known to many of the company's employees on this end of the Peninsula division, has been retired by the company under the pension system. Mr. Cotton, whose home is at Green Bay, has served the company as an engineer for forty-four years. He was a fireman prior to being advanced to the position of runner.

Mr. Cotton entered the service of the Northwestern company on Sept. 1, 1865, and at that time was at work on the Wisconsin division of the system. In those days the fuel used on the engines was cord wood. Two years later, or in the spring of 1867, he was promoted to be an engineer. In July he took a "run" on the Iowa division of the system, and at other times during his long career he was employed on the Kenosha and Rockford, Galena, Wisconsin and Lake Shore divisions.

Mr. Cotton has the distinction of having been the first engineer to take a passenger train out of Green Bay north. After the completion of the extension of the Northwestern line from Green Bay to Marinette and Menominee Mr. Cotton was "called" to take out the train carrying the officials of the road over the new extension on a tour of inspection.

Ishpeming Department

OLIVER COMPANY IS HIGHLY COMMENDED

Minnesota Deputy State Labor Inspector Says Safety Devices Are Adequate.

The Oliver Iron Mining company has been highly commended by Andrew Horngren, deputy state labor inspector of Duluth, because of the adequate nature of the safety devices it has provided at its plants on the Mesaba range. Mr. Horngren recently investigated all of the safety appliances installed by the Oliver company during the past year. In one of the shops inspected the mechanical superintendent offered Mr. Horngren \$10 if he could suggest any improvement in any of the safety devices in the building. Mr. Horngren tried to earn the \$10, but he failed, so thoroughly had the safeguarding of the men employed in the shops been provided for.

Mr. Horngren investigated the safety devices installed by other companies operating in the Mesaba district and he found them satisfactory, but he said that the Oliver company has done its work more thoroughly than any of the other companies. The Oliver company has, during the past year, spent several hundred thousand dollars on safety devices at its properties in the Lake Superior district, and it is noticeable that few accidents have occurred since the work was completed.

The company's expenditures on the Marquette range were in keeping with those on the Mesaba and in the other districts. The work was only recently completed. After the committees appointed by W. H. Johnston, the company's range manager, had made their report, men were employed for several months making and installing the devices. The engine house plants and machines in workshops are so thoroughly safeguarded that it is almost impossible for a workman to receive an injury, except because of his own carelessness.

The Cleveland-Cliffs company now has committees at work devising plans for the safeguarding of its workmen at its various plants in Marquette county. W. G. Mather, president of the company, has instructed the officials on the range to spare no expense in providing the necessary equipment. The committees have partially completed their reports and it is expected that a considerable portion of the safety appliances will be installed during the winter months. Safety devices will be installed at the Cleveland-Cliffs iron company's properties both underground and on surface, and particular attention will be paid to the shafts, where, as a rule, more fatal accidents occur than in any other part of the mine.

GOOD THEATRICAL ATTRACTIONS BOOKED

Early Offerings at Ishpeming Theatre Will be Among the Best of the Season.

Patrons of the Ishpeming theater will see several first-class performances prior to the close of the year. "The Cow and the Moon," one of Charles A. Selton's successful extravaganzas, will be presented this evening. The title of the piece is from the Mother Goose stories and it offers an evening of fun for both old and young. Ed Gilmore is the principal fun maker in "The Cow and the Moon." As the company does not arrive in the city until 6 o'clock the curtain will not be rung up until 8:30.

Tomorrow evening George Sidney, one of the best known impersonators of the Hebrew character, will be seen in his production of "Busy Izzy." Mr. Sidney is said to have a capable company. "Busy Izzy" is a jingling musical comedy. Miss Carrie Webber, a versatile comedienne, is Mr. Sidney's chief assistant.

"Traveling Salesman" Monday. Next Monday evening "The Traveling Salesman" will be presented at the theater. This comedy had extended runs in Chicago, New York and other large cities, and this is the first time that it has been sent over this circuit. "The Traveling Salesman" was dramatized by James Forbes, author of "The Chorus Lady."

The story of the play is laid in Grand Crossing, a village of the Middle West, and opens on a Christmas day. The first act shows the interior of a railway station, where the principal characters, Bob Blake, a traveling salesman, and Beth Elliott, a pretty telegraph operator, meet. Beth owns a piece of apparently worthless land, which suddenly acquires value, because it is necessary to a scheme of improvement planned by a railroad company. Blake's employer tries to defraud the girl of her property. Of course Bob Blake comes to the rescue. The second act occurs in the drummer's room, in the Elite Hotel, and here is shown what is regarded by everyone who has seen the play as the most laughable situation ever employed by a playwright—a real hot poker game.

"The Private Secretary." Wednesday evening of next week C. James Bancroft, an English comedian who has met with success in America and Canada, will be seen at the Ishpeming theater in the comedy "The Private Secretary." This is the play in which William Gillette was so successful. It is said that Mr. Bancroft portrays the role of the private secretary in a manner entirely different from Mr. Gillette's interpretation.

Basketball Promises to Be Popular Sport This Winter.

Tonight is registration night for the teams intending to enter the Y. M. C. A. basketball league. Among the teams being organized is one made up of members of the Order of Omb, and another will be composed of members of the high school faculty.

The members of the intermediate class are to conduct a league series, with three teams, and the organization will be perfected at a meeting to be held this afternoon.

The regular team of the association promises to be much stronger than it was last year. The squad has had several tryouts and a practice has been called for this evening. It is expected

Why Should I Use Cuticura Soap?

"There is nothing the matter with my skin, and I thought Cuticura Soap was only for skin troubles." True, it is for skin troubles, but its great mission is to prevent skin troubles. For more than a generation its delicate emollient and prophylactic properties have rendered it the standard for this purpose, while its extreme purity and refreshing fragrance give to it all the advantages of the best of toilet soaps.

While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears to a wafer, often outlasting several cakes of other soap, and making its use, in practice, most economical. Cuticura Soap is sold by druggists and dealers everywhere, but the truth of these claims may be demonstrated without cost by sending to "Cuticura," Dept. M, Boston, for a liberal sample cake, together with a thirty-two-page book on the skin and hair.

high order and merited much more liberal patronage than the performers received.

Ishepeming in Brief

Gust Fredin, the well-known contractor, was a visitor in the city yesterday. J. S. Kennedy, of Ironwood, was a business visitor in Ishepeming yesterday.

George S. Webb, who travels for the Marshall-Wells Hardware company of Duluth, was in the city yesterday.

Mrs. Joseph Martin, of Superior street, has gone to Crosby, Minn., to see her son, T. H. Martin, who has been critically ill the past few days.

John Verran and wife arrived home yesterday from the copper country, where they visited their daughter, Mrs. Charles Cornish, and family.

"The Cow and the Moon" company does not arrive in the city until 6 o'clock this evening, the curtain at the Ishepeming theater will be raised at 8:30, instead of 8:20.

The Ishepeming band will give its annual concert at the Ishepeming theater on the evening of Tuesday, Dec. 26. The band is in first-class condition and a fine program is being arranged for the annual entertainment.

The piano player concert, given yesterday afternoon at Grinnell's music store, by Prof. Allen, was attended by a large number of people. The program was greatly enjoyed by the music lovers present.

E. G. Person, of Swanson & Person, furniture dealers, is confined to his home with pneumonia. Emil Sawson, who is in the employ of the concern, has been taken down with a severe attack of rheumatism.

The Michigan Bell Telephone company's crew took down the last of the company's poles on the west side of Main street yesterday. The improvement in the appearance of the street was generally commented on yesterday.

From two to three inches of snow fell here yesterday. The ground is now in excellent condition for sleighing, as a result of the cold snap Sunday and Monday, and the first sleigh was brought out late in the afternoon.

The employees of the Cleveland-Cliffs Hard Ore and Lake mines were paid yesterday and the men working at the Cliffs Shafts and Salisbury properties will receive their checks today. The employees in the North Lake district were paid Monday.

Births recorded in the city yesterday were a daughter to Mr. and Mrs. John S. Thompson 514 Jasper street; a daughter to Peter Hendrickson and wife, 659 East Division street, and a son to Mr. and Mrs. Jacob Pretela, 221 Hill street.

Charles Pockola, of Foster City, Mich., and Isaac Holso, of Pequaing, recently submitted to surgical operations at Dr. Lindgren's hospital, Mrs. Oscar Latas, of Saint Ste. Marie, who had been a patient at the hospital for two operations, has returned to her home.

The Swedish-American Trio & Co. gave a delightful entertainment Monday evening at the Ishepeming theater, before a small audience. The concert was of a

THE DAILY MINING JOURNAL.

The directors offered their famous consolidation plan, that another extraordinary decline set in. When the merger was first presented to the shareholders, Calumet & Hecla was selling around \$300. It was not long before dissatisfaction with the terms arose among some of the minority stockholders, notwithstanding the consolidators were able to muster in the case of each subsidiary company a legal, or 60 per cent, assent to the merger. All sorts of obstructive legal tactics were resorted to in an effort to break the plan and by reason of some rather vicious criticism on the part of the obstructionists the stock each month dropped to new low level until in September the low point of \$30 was reached, the difference between this figure and the 1907 high point representing a stock market shrinkage of 84,000,000.

Why Should I Use Cuticura Soap?

While its first cost is a few cents more than that of ordinary toilet soaps, it is prepared with such care and of such materials, that it wears to a wafer, often outlasting several cakes of other soap, and making its use, in practice, most economical. Cuticura Soap is sold by druggists and dealers everywhere, but the truth of these claims may be demonstrated without cost by sending to "Cuticura," Dept. high order and merited much more liberal patronage than the performers received.

Mining News

MASS CONSOLIDATED.

The foundations for the new hoist and shaft house at "C" shaft at the Mass Consolidated property have been completed and by the first of next year when the hoist is in operation, the company will be in a position to double its present output. The hoist will be able to handle between 500 and 600 tons of rock daily and with the character of rock now in sight, the officials figure a substantial profit from operations at that price. As was stated in the last quarterly report, the amount of ore blocked out in the Snowball vein has not kept up with the production of ore from the stopes and development work the past three months was practically confined to the one vein, so that in the next three months an extensive development policy in opening up the 2,600 and 2,800-foot levels of the Edith May and Jessie veins will undoubtedly place the company in a position to report an increase in the ore reserves early in the new year.

ANACONDA.

The retimbering of the shaft of the Anaconda mine from the top to the lowest level the 2,400, has been completed, and operations will be resumed shortly after a year's shutdown, some slight repairs about the mine being yet required before work is started. It is three years since the work of repairing the shaft was started. Owing to a fire which had been smoldering in the St. Lawrence mine which adjoins the Anaconda, it was necessary to suspend operations in the latter in September, 1908. The shaft was not considered in very good shape, it was decided to take advantage of the shutdown and make repairs. The work was completed as far down as the 600-foot level the following year and mining was resumed. One year ago it was considered a good time to renew the shaft from the 600-foot level to the deepest point and the work was commenced. This was completed a few days ago, so that today the Anaconda shaft is new from collar to sump and is in condition to stand many years of constant wear. As soon as the Anaconda starts up, repairs will be commenced in other mines, and without reducing the production below the present rate per month, all the mines in need of repairs will receive a thorough overhauling and be prepared to increase production when the time arrives.

NOTES OF MINING NEWS.

It is estimated that before the close of the first half of next year the Chino company will be producing at the rate of 55,000,000 pounds of copper a year, and the Ray Consolidated at the rate of 80,000,000 pounds. Compressed air hoisting, power has been in use long enough at some of the Anaconda mines to make positive a reduction of cost. Under steam power it cost twenty cents a ton for hoisting compressed, and means a saving of seventeen cents a ton.

FREE IF IT FAILS

Your Money Back if You Are Not Satisfied With the Medicine We Recommend

We are so positive that our remedy will permanently relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine at our expense should it fail to produce satisfactory results.

It is worse than useless to attempt to cure constipation with cathartic drugs. Laxatives or cathartics do much harm. They cause a reaction, irritate, and weaken the bowels and tend to make constipation more chronic. Besides, their use becomes a habit that is dangerous.

Constipation is caused by a weakness of the nerves and muscles of the large intestine or descending colon. To expect permanent relief you must therefore tone up and strengthen these organs and restore them to healthier activity.

We want you to try Rexall's Constipation Remedy. They are exceedingly pleasant to take, being eaten like candy, and are ideal for children, delicate persons, and old folks, as well as for the robust. They act directly on the nerves and muscles of the bowels. They apparently have a neutral action on other associated organs or glands. They do not purge, cause excessive looseness, nor create any inconvenience whatever.

They may be taken at any time, day or night. They will positively relieve chronic or habitual constipation, if not of surgical variety, and the myriads of associate or dependent chronic ailments, if taken with regularity for a reasonable length of time. 12 Tablets, 10 cents; 36 Tablets, 25 cents; 80 Tablets, 60 cents. Rexall in Marquette only at our store—The Rexall Store, The Stafford Drug Co.

Stiff Neck Relieved

For any stiffness or lameness Sloan's Liniment gives relief at once. It acts like massage—quickens the blood and limbers up lame muscles and joints. When applied immediately after violent exercise it prevents stiffness. Here's Proof "I am using your liniment for stiffness. I have bought two bottles of it and it is the best I ever saw." Mrs. MARY CURRY, Milltown, Ga. "I had a severe pain between my shoulders, and noticing your advertisement in the street cars I got a bottle which quickly relieved me." R. D. BURGUYNE, Maysville, Ky.

SLOAN'S LINIMENT

is an excellent antiseptic remedy for sore throat, cuts and bruises. Very penetrating—needs no rubbing. Sold by all dealers. Price 25c., 50c. and \$1.00. Sloan's book on Horses, Cattle, Hogs and Poultry sent free. Address DR. EARL G. SLOAN, BOSTON, MASS.

"STERLING"

Some idea of the wonderful popularity of the Sterling Piano may be gained from the fact that it is found in nearly 15,000 homes in Michigan alone—think of the vast total output this signifies for the Sterling has been on the market for over Fifty Years. It is known from one end of the country to the other—small wonder that it has gained the title, "The Great American Home Piano."

And these are the features which have made it the choice of so many thousands of music-lovers: full, sweet, singing tone; handsome case designs; responsive, reliable action; and the use of materials and workmanship of a quality which insures the maximum of service and dependability.

It is a fact that Sterling Pianos we sold more than a quarter century ago are still in the home today—in use—and meeting the requirements of their music-loving owners. Can you ask for a stronger guarantee, or greater assurance of satisfaction?

EASY TO OWN A STERLING

In our immense Fall stock will be found the latest, finest Sterling instruments. \$225 buys a splendid Sterling Piano; others at \$350, \$400, \$425, etc. Think of the pleasure a Piano would bring to the home—how it would liven these long evenings—of the entertainment available any hour of the day. And this is yours on first payment of only \$10—let us place it in your home today; a small amount weekly or monthly pays the balance.

The purchase of a good Piano is a splendid investment—see, hear and test the Sterling. To know its excellence is to know that it embodies the very features you seek in your choice. Catalog and full information, post-paid, if you can't call. We are sole Michigan representatives.

Wholesale Prices on Women's High Grade Fur Coats

We announce a display and sale of women's fine furs and fur garments by a manufacturing furrier at our store: on Nov. 17 and 18, Friday and Saturday this week.

We have made an arrangement with the factory to give our customers strictly wholesale prices on all garments and high grade fur sets on these two days, and advise every woman who contemplates the purchase of furs to make her selection from this large stock on above dates.

Mr. Barth, a representative of the factory, will be in charge of the display and will be glad to give customers intelligent advice on all sorts of furs. Our guarantee of absolute satisfaction is back of every garment offered. It is the best chance of the year to do your choosing, because this display affords a larger selection than any store can afford to carry in stock. The Paris Fashion Marquette, Mich. 11-15-11

UNITED STATES DEPOSITORY

WILL AID "SOUSES."

New York's "Board of Inebriety" Begins Recovery of Toppers.

New York, Nov. 14.—New York's new "board of inebriety" which constitutes the most ambitious scheme ever attempted by any government to cope with the problems presented by habitual drunkards, has begun operations and the word is going around among the perpetual jags that "the board'll get you if you don't watch out." It is the purpose of the new organization to round up all the confirmed "souses," forcibly extract their brains and make new men of them. This it proposes to do by isolation of the "drunks" under the supervision of experts. The board of inebriety consists of the commissioners of charities and of correction, members ex officio, two clergymen, two physicians and a retired merchant. All serve without pay.

When a citizen of New York is arrested for drunkenness, his case is reported to one of the board's seven probationary officers. If the case is chronic and requires special treatment, the patient will be sent to one of the two reception hospitals. From these he will be discharged after he recovers.

If arrested a second time, the prisoner will be sent to a big farm. Sentences there will be run from one to three years, and the inmates will be discharged as soon as the doctors in charge believe they are safe from temptation.

EXPERTS ON THE JOB.

How to Button Women's Dresses Is Told by Harassed Husbands.

Chicago, Nov. 14.—A worried husband has appealed to a newspaper on the better way to button his wife's dress, whether to begin at the top or bottom. Experts hand him this advice: "I would say that I have buttoned my wife's dress for a few years, and find that buttoning it down the back is much better than buttoning it up the back. If you start at the top and start down you gradually get to the tightest part of a woman's dress, around the waist, while if you start at the waist line and button upwards the books or buttons are liable to come off the dress before you get started."

Another: "The best way is to begin at the waist line and when you get one

Crystal Falls Miner Killed—

Victor Goldman, an employe of the Bristol Mining company at Crystal Falls, was instantly killed by being struck on the head by a falling plank. He is survived by a wife.

Gets a Post in Porto Rico—

Harry Zimmerman, of Manistique writes from the Ferris Institute at Big Rapids that he has secured a position as sugar chemist at a large factory at Porto Rico and will leave for that place shortly after Christmas.

Fire Destroys Home—

Howard Fox's home near Cooks, Schoolcraft county, has been destroyed by fire. The fire seemed to have originated in the dining room and was not noticed by the family, who were in the kitchen, until it had gained considerable headway.

Big Catch of Trout—

Captain John Coffey's fishing fleet, consisting of the tugs Alice, Burger and Anabel, of Manistique, made a big catch the other day. The Alice C. had 6,500 pounds of trout, the Burger 4,000 and the Anabel 1,000, making a total of 12,000 pounds. All the fish were of the large variety, called, in the fisherman's language, "bull-dog" trout.

Soe Man Breaks Shoulder—

W. M. Howden of the Soe was thrown from his buggy, suffered a broken shoulder and is confined to his home in consequence. Mr. Howden was sitting in his buggy in front of his business place on Ashman street when a heavy tractor ran into his rig from behind and took off a wheel. This caused the horse to become frightened and run away.

Newberry Man in Luck—

Mr. and Mrs. Mulvaney of Newberry have left for a visit at Mr. Mulvaney's old home in West Virginia. Mr. Mulvaney owns a hundred-acre tract of land in the oil and gas region in West Virginia, upon which a gas well has recently been discovered and which promises to become immensely valuable. It is partly to inspect this property as well as visit again the scene of his childhood that Mr. Mulvaney is taking the trip.

Manistique Dogs Win Prize—

John Schuster of Manistique has returned from Knox, Ind., where with his beagle hounds he attended a field trial show. Mr. Schuster received the blue ribbon for exhibiting the best kept dogs. His three-year-old beagle Midget took second prize in her class, while her two seven-month-old puppies took first prize in their class. Mr. Schuster is noted as a dog fancier. He keeps a large kennel at his home.

Boy Loses a Forearm—

Joe Kondoles, nineteen years old, lost his right forearm while helping the operator of the setting machine at the Northwestern Tanning company's plant at Manistique. The operator of the machine generally starts work before the whistle blows, in order to get through earlier in the evening, and Kondoles, whose work did not begin until the whistle blew, volunteered to help, with the result that one of the heavy grippers caught his hand and mangled it badly. It was necessary to amputate the arm just above the wrist.

Injured in Runaway Accident—

Ed Ramsdell of Iron River, who was driving a team for his brother James, was seriously injured when the horses ran away. He was hauling drill pipes for the St. Clair Exploring company. The pipes became loose and worked forward enough to strike the horses, which became frightened. Ramsdell held on to the lines as long as he could, but was finally thrown off the wagon. He was injured internally. Mercy hospital was notified and the ambulance went out and brought him in. The horses continued running and went into a ditch, in which one of them suffered a broken neck.

Bear Sears Deer Hunter—

An Ohio tenderfoot hunting in the north part of this county was frightened out of a year's growth when he chanced

to meet a big black bear in the woods, says the Newberry News. When Mr. Bruin "rized up" on his hind legs before him, the tenderfoot dropped his gun and, cutting a trail that could be heard a mile away, hiked it for camp as fast as his legs could carry him, never stopping until he was safely hid beneath the blankets in his bunk. Nor could he be prevailed upon next day to return for his rifle, and soon afterward he hit the back trail for home, glad to escape alive from the dangers of the north woods.

Game Law Violators Fined—

Thomas St. Arnold, who is working in the Nester Lumber company's camp nine miles east of L'Anse, was on complaint of Deputy Game Warden Slocote, arraigned before Justice C. D. Shea and fined ten dollars and costs, for hunting deer without a license.—L'Anse Sentinel.

Wm. Heamer of Thomaston was arrested by Game Warden Alfred Kallander for hunting deer without a license, and was fined ten dollars and costs.—Trowood News-Record.

High School Principal Resigns—

A. J. Carr, who has been principal of the high school at Iron Mountain for three years, has resigned his position, which resignation has been accepted by the board of education, to accept the chair of chemistry in the State Normal of South Dakota. E. F. Van Dyke, who has been assistant principal, has been promoted to the vacancy caused by Mr. Carr's resignation. Miss Pearl Windsor, eldest daughter of W. H. Windsor, has been selected to take Mr. Van Dyke's position. Miss Windsor is a graduate of the high school and the University of Michigan. Mr. and Mrs. Carr will leave for their new home this week.

Mine's Coal Pile Afire—

A fire has been raging in the Bristol mine coal pile for over two weeks, but the efforts of the workmen seem to be bearing fruit and the fire is about conquered at this writing, says the Crystal Falls Herald. How the fire originated is not known, but spontaneous combustion is the theory. The crew at work on the pile got down close to the seat of the fire at one time, and the high winds fanned the fire into flames so that the pile crew had to be called out. The method used to put out the fire is to spread out the coal about the surface of the docks in a layer about ten feet thick, thoroughly saturating the coal with water as it is spread out. The coal gas is being removed by means of a fan, so that the workmen have to work in relays.

NOVEL WEDDING FEES.

"No doubt," said a clergyman to the Now York Herald, "there are stories of novel wedding fees. On one occasion a state, after I had spoiled a young couple, the man took me aside.

"Be you fond of carrots?" he inquired.

"Yes," said I.

"I'll send you some," he promised. "You'll find them tasty in soup."

"Two days later a wagon load of the vegetable was dumped into the parsonage cellar. As that was in October we ate carrots daily until April, but I believe they improved our complexions."

"After another ceremony the bridegroom silently handed me a sealed envelope. Opening when he had gone I found a half sheet of newspaper on which was scrawled 'I O U \$10.' That was eight years back. I did not see him again until the other day, when he called at my house.

"Guess you don't remember me, parson," he said.

"I don't remember your face," I answered.

"Well," he exclaimed, "I'm the fellow who gave you an I O U wedding fee a few years ago, and I want to pay you the money. Here's the ten. And in another instant he was gone."

A FATHER'S VENGEANCE.

Would have fallen on any one who attacked the son of Peter Bondy, of South Rockwood, Mich., but he was powerless before attacks of kidney trouble. "Doctors could not help him," he wrote, "so at last we gave him Electric Bitters and he improved wonderfully from taking six bottles. It's the best kidney medicine I ever saw." Backache, tired feeling, Nervousness, Loss of Appetite, warm of kidney trouble that may end in dropsy, diabetes or Bright's disease. Beware: Take Electric Bitters and be safe. Every bottle guaranteed. 50c at The Stafford Drug Co.

Negaunee Department

ARRESTED FOR SHIPPING BIRDS

Paul Honkavara Must Answer to Charge of Serious Violation of Game Laws.

Paul Honkavara was arrested yesterday on a warrant sworn out by Deputy Game Warden Harrington, charging him with unlawfully shipping partridge to Clark Kirkpatrick, of Escanaba. It is expected that there will be some interesting revelations as a result of the case.

The details of how the discovery of the violation came about could not be obtained yesterday. Deputy Harrington arrested Mr. Honkavara in the morning. He had examined express packages sent from Palmer to Escanaba, and he decided that they contained partridge.

The law covering the matter is plain. Its principal section being as follows: "It is unlawful to ship game animals or game birds under cover, unless plainly marked on outside of package with name of consignor, and consignee, initial point of billing and destination, together with an itemized statement of contents of package; provided, that no game bird shall be shipped by express, freight or baggage, or in any other way except as hand baggage.

"This law applies to transportation both within and without of the state. It is understood that Deputy Harrington has been watching closely the express leaving Palmer. When he secured actual evidence he acted immediately.

Paul Honkavara is well known in the county. He runs an automobile livery at Palmer, and carries passengers back and forth between Palmer and the city.

CHANGES AT BIJOU.

Manager Skiff, of the Bijou, has decided that instead of changing his program every day he will change it only four times a week. However, in the future he will show only "thirty day" films, which will reach him less than thirty days after their release from the manufacturers. They will be the latest subjects, presented by the best actors. The new service will compare with that of the highest class moving picture theaters in the large cities.

Mr. Skiff is about to make extensive improvements in his operating rooms. It will be made modern and fireproof, and will meet the rather stringent fire laws of the state. The room will be lined with sheet iron and asbestos, making it a practical impossibility for a fire to start there.

FIRE DRILLS COMMENCED.

In compliance with a law passed by the last legislature, regular fire drills were started in the high school last Friday afternoon. The alarm is rung without notice during school hours; the object of the drill being to get the pupils out of the building as quickly and in as orderly a manner as possible. The high school is an absolutely fire-proof building, but the drills are designed more to prevent a panic among the pupils in case of emergency than for any other purpose.

LOCAL LACONICS.

William Millman has gone on a hunting trip to Lakeland.

Mrs. Richard Nesbitt is home from a visit in Wisconsin.

Charles T. Sporely spent yesterday in Marquette, on business.

Con Curran, of Green Bay, is in the city, visiting his mother.

Eddie Paul and John Rachel have gone hunting near Three Lakes.

Mrs. A. Mathews, of Marquette, visited in the city yesterday afternoon.

Jerry Dompson, of Marquette, was in Negaunee on business yesterday.

August Rytkonen has moved into the Lobb block, on Gold street.

The Paralla saloon is again opened, and Edward Kaupinen is managing it for the Paralla estate.

A. T. Roberts and Jack Croner, of Marquette, made a flying visit to Negaunee yesterday afternoon.

Henry Anderson and Earl Hodson were in Negaunee yesterday on a survey with the engineers of the L. S. & I. railway.

John Honka, Charles Koski, Henry Litvin and John Niemi left Monday night for their former home in Finland.

Mr. and Mrs. Dan Comstock returned to Sault yesterday, after spending the week-end with their daughter, Mrs. William Contois.

John Rudness and his brother are doing the repair work on King's Inn, at the west end of Iron street. The rooms are being repartitioned, and a steam plant is being installed.

HOOSIER STATE BOASTS IT HAS "THE PERFECT TOWN."

Indianapolis, Nov. 14.—The "perfect" town has at last been found. It is named Ferdinand and it is located in Dubois county, this state.

"Ferdinand" had an unimpeachable record. No fires.

No jail.

No graft.

No justice of the peace.

No civil suits in the memory of the old inhabitant.

No tax dodgers. Several years ago, two citizens let tax day go by, but it was a mistake.

CURED TO STAY CURED.

How a Marquette Citizen Found Complete Freedom from Kidney Troubles.

If you suffer from backache—

From urinary disorders—

From any disease of the kidneys, Be cured to stay cured.

Doan's Kidney Pills make lasting cures.

Marquette people testify.

Here's one case of it:

Mrs. Hattie Parker, 175 W. Crescent St., Marquette, Mich., says: "I am constantly recommending Doan's Kidney Pills to my friends who are in need of a kidney remedy. I do not hesitate to confirm the public testimonial I gave in 1905 recommending this remedy. My back ached a great deal and I had severe pains in my sides and loins. Headaches and dizzy spells were common and I was often very nervous. I did not rest well and I arose in the morning feeling all tired out. I finally procured Doan's Kidney Pills from The Stafford Drug Co. and through their use, I was given complete relief."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.

TERMS ARE RIGHT.

Rudolph Ganz Has Open Date, But School Board Refuses Use of Auditorium.

J. E. O'Donoghue, Negaunee, Mich. "Ganz" available November twenty-third, day before Marquette engagement. Terms, eighty per cent of gross receipts, with a guarantee Ganz share to be not less than two hundred dollars. Wire New York, care Bresslin Hotel today if wanted, and will ship printing at once from St. Paul.

"CHAS. L. WAGNER, Manager."

It was Mr. O'Donoghue's plan to get the pianist to give a recital here for the purpose of giving the Starr grand piano in the high school auditorium a demonstration. Mr. O'Donoghue volunteered to personally guarantee the expenses. The high school auditorium is the only suitable hall for such a recital in Negaunee, and it could be filled at a comparatively low price of admission, the engagement would net the school a little profit. However, the school board at its last meeting resolved to stand by the rule that the high school auditorium shall be used for no other than school purposes, except by the old school. There was considerable disappointment yesterday when it was learned that the use of the high school auditorium for such a purpose could not be permitted.

A big cut, on all trimmed hats, from now on. MRS. A. M. ARLAND. 11-13-31.

His Hypnotic Spell Baffles a Burglar

Midnight Marauder Is Made Helpless by Amateur Mesmerist Until the Cops Arrive.

Philadelphia, Nov. 14.—The capture by Attorney Luther S. Kauffman of a city of a six-footer who broke into his home at Drexel Hill, Delaware county, has brought hypnotism into the limelight as an aid to the capture of midnight burglars. Kauffman, who is sixty-five years old and only five feet and three inches in height, claims he held the big intruder helpless by casting a hypnotic spell over him until a policeman appeared and arrested him.

Kauffman was awakened by his daughter Edith shortly after 2 o'clock. She told him she had heard strange noises on the lower floor, and arming himself with a loaded cane he started down to investigate. Switching on the electric light in the dining room, he found a window broken in, and protruding from beneath a buffet he saw what appeared to be a bundle of rags. Poking his cane into it the bundle moved, and then a man's head appeared at one end of the buffet.

Kauffman, who has somewhat of a reputation as an amateur hypnoticist, commanded the man to get on his feet and throw up his hands, at the same time looking sharply into the man's eyes. The man rose and meekly raised his hands over his head, where he held them rigid and immovable while Kauffman sent one of his daughters to the residence of ex-Police Captain Edward Malin, next door. With his wife and four daughters looking on the unusual scene from a stairway, Kauffman held the man fast in his power until Malin arrived with a big revolver and took him into custody. The whole neighborhood had been aroused and a policeman, attracted by the commotion, soon arrived upon the scene and took the big man to the Ferrawood police station. He gave his name as James Maloney of Oakview.

"When that man poked me with his cane and looked me in the eye I was helpless," he said. "He caught my eye as I was crawling from beneath the buffet, and as I arose to my feet he ordered me to throw up my hands, and I couldn't resist him. When he told me to stand there I couldn't move, although I knew that there was an open window three feet from me and that if I jumped through it I could easily have gotten away. But I guess he hypnotized me, for I couldn't move a muscle."

ROCK CRUSHING BIG INDUSTRY

Marquette Quarries Have Been Operated on Large Scale the Past Summer and Have Given Employment to Over 100 Men—Product Was About 45,000 Tons.

Superiority of Trap Over Limestone for Street Work and Concrete Just Beginning to Be Recognized Outside of This County—Summary of Year's Work.

Facts regarding Marquette's rock crushing industry:
Total production this season—45,000 tons.
Estimated value of product—\$50,000.
Number of men employed—110.
Number of quarries in city—3.
Uses of crushed rock—To make macadam and concrete roads and in the manufacture of concrete.

As shown by the above the quarrying and manufacture of crushed rock in and near Marquette has come to be one of the city's important industries, and as the raw material is found here in unlimited quantities it is not over-optimistic to predict that the industry is now only in the infancy stage of development. It is only within the last two years that there has been much demand for crushed rock outside of Marquette county, but in the few places that the Marquette rock has been used for street building or for concrete work, it has proven so much superior to other materials that other and larger orders are coming from the same cities and contractors, as well as from many new customers. The two plants that sell crushed trap rock in the open market are receiving letters almost every day regarding the cost, etc., of the product, many of these inquiries coming from distant states.

There are at present three rock quarries and crushing plants in the city, operated by the Marquette Stone company, Lipsett & Sinclair, and the city park cemetery and street commission. The two first named plants sell their product in the open market, but all of the product of the latter is used in street and sidewalk improvement work within this city. Most of the crushed rock shipped out of Marquette county this summer went to Detroit and Wayne county, where it was used in road and street building. Other cities to which Marquette rock has been shipped this year are: Muskegon, Escanaba, Sault Ste. Marie, Manistique, Newberry and other points along the South Shore railroad.

Marquette's Three Quarries.

The Marquette Stone company, which operates a quarry at Harvey, has turned out the most rock this season, its total production being upwards of 30,000 tons. Most of this product has gone into the L. S. & I. new ore dock, the company having taken the contract to furnish all the rock used by the Raymond Concrete company on the dock contract. Most of the rock used in the concrete for the dock was of large size, which can be gotten out cheaper and much faster than the finely crushed rock, which has to be crushed several times. Besides the rock that went into the dock, the Marquette Stone company has shipped rock to Detroit and Wayne county has been liberal buyers from this company, and rock has also been shipped to Sault Ste. Marie, Manistique and Newberry. This plant started up in June and has been employing about thirty-five men since that time. About half of the men have been laid off now and operations will be suspended for the winter in about a week.

Both the Marquette Stone company and Lipsett & Sinclair have been rushed to keep with their orders this year and have done a larger business than ever before. The city quarry on Pine street, however, has not been operated as extensively as in former years, there having been less street improvement work done. About twenty-five men on an average were employed at the city quarry and crushing plant. The city quarry suspended operations some time ago, the season's output having been about 3,000 tons.

Trap Better Than Limestone.

While trap rock has been used extensively in eastern cities for street building and general concrete work, its use in the central west has been very limited up to this time. Detroit is about the only city west of Pittsburg that has used trap rock in street building to any extent. This condition is due largely to the fact that there are no trap rock quarries except in the eastern states and in Marquette county.

Limestone has been most frequently used in both macadam road building and in general concrete work in the central states, and as limestone can be produced at about one-third the cost of trap rock it has been an uphill fight to convince buyers that the trap rock is enough better to more than make up for the increased cost. Experience is proving the claims of Marquette rock manufacturers to be true, however, and Detroit is now using the upper peninsula rock largely and discarding limestone.

For road building purposes the advantages of trap rock over limestone are that it is tougher and harder, and therefore more durable. A limestone road breaks up into dust quickly, particularly in dry weather, and its cementing qualities are poor compared with trap. The trap found in this county is not excellent in the United States in toughness and hardness, which are the highly desirable qualities of any macadam road-making material. Trap is also being used extensively for the top covering of concrete roads, which are being built in many cities.

Makes Excellent Concrete.

In the manufacture of concrete, the advantage of concrete over limestone is even more forcibly illustrated. Though

limestone has been largely used for concrete work, engineers are coming to see that it is not a success. Limestone concrete does not withstand the test of time and it offers little resistance to fire. In view of these facts, the city of Cleveland has forbidden the construction of limestone concrete buildings.

Concrete made of trap rock, on the other hand, has proved itself to have greater resisting qualities, both as to wear and fire, than granite or any other material. Trap rock is little affected by exposure to the weather and it will stand very great heat. Its excellent cementing qualities also make it an ideal substance to use in concrete. Another advantage of trap rock concrete is that its compression strength is greater than if made of any other material. For this reason, trap rock is specified in the concrete being used in the construction of the new lock on the St. Mary's river.

Once the superior advantages of the trap rock found in Marquette county become generally known and it has stood the test of experience in macadam roads and in concrete structures, it is constantly believed that the demand from nearby states will increase until it will be necessary to open many more rock quarries in this locality. The quantity of rock near Marquette seems almost limitless and it would not be surprising if within a few years this city will be widely known as the home of the trap rock industry.

FULLER MAY BE STRONGLY OPPOSED

Is Said That Osborn Forces May Fight Renomination of Auditor General.

Upper peninsula politicians who have lately been below the straits have heard with much interest a story that it is among the strong probabilities that the friends of Governor Osborn and the friends of Auditor General Fuller will not be found pulling together in the next Republican state convention. Inasmuch as both are upper peninsula men the situation that is said to be framing up is one of unusual interest.

Of course the talk hinges on the assumption that Governor Osborn will be renominated in the primaries. This seems to be a safe assumption, for it is the general opinion of the men who have sounded the political currents that the governor is stronger now, particularly in the lower peninsula, than he has ever been before, and that the opposition to him in his own party will be negligible. Secretary of State Martindale's candidacy is still a condition but there is no school politician who can see where Mr. Martindale can prove a serious factor, and many predictions are made that eventually he will dodge the issue by pulling out.

At the root of the trouble between the governor's friends and Auditor General Fuller is the alleged disloyalty to the governor of the Delta county man. It is stated by the former that Mr. Fuller has at no time given the governor the loyal support and friendship he is entitled to expect from a man from his own part of the state and a man who had his support in the last state convention. It is charged that throughout the primary campaign in 1910 the auditor general and his friends at Lansing were playing both ends against the middle, and that the sympathy and friendship were with P. H. Kelley, rather than with the upper peninsula candidate, although they were careful to keep their hands pretty well covered. They expected, it is said, Osborn's defeat, and were prepared to regard it with much complacency.

No Team Work Shown.

In the intervening year, it is asserted, there has been little team work between the auditor general's department and the executive office. They have had little to do with one another. Auditor General Fuller is shown a disposition to go his way and to let Governor Osborn go his, apparently having little or no concern as to what the governor thought of his attitude. As an instance of the auditor general's disregard of how his course might strike the governor, it is said that he has given, or intends to give, the state tax list for Delta county to the Escanaba Journal, whose editor is F. L. Baldwin, whom the governor sued for criminal libel because of certain charges that he published in his paper during the primary campaign. It is also said, in this same connection, that the auditor general refused this patronage to the newspaper owned by Secretary DeFoe, of the pardon board, who was formerly executive secretary to the governor and who was one of his right hand men in the campaign. While the executive office is said to be reticent on these matters, it is asserted that the governor interprets the course of Mr. Fuller as a deliberate affront.

It is pointed out that if Auditor General Fuller should enter the next convention laboring under the handicap of the active hostility of the governor's friends he would be unlikely to secure the renomination for which he is a candidate, and that what strength he was able to muster in the upper peninsula, for if Governor Osborn makes a big sweep in the primaries his friends will be straggle in the saddle in the convention. In 1910 the governor made no attempt to steer the convention, and the ticket was made up with little regard to the relationship that the men on it had borne to the Osborn candidacy. But it is predicted that there will be a different situation in 1912, and that the Osborn forces will present a complete slate. This does not, of necessity, mean that the governor will play any part in the slate-making, but it is said to be unlikely that the men who have been making the fight for him and who have worked up an organization throughout the state will stand by and let those who have opposed their efforts grab of the plums.

Number of Candidates.

There has been a number of candidates mentioned for the office of auditor general. One of them is representative Baker, speaker of the house. Beyond an organization throughout the state will be full of candidates. Governor Osborn's friends believe that opposition to Fuller would produce no bad effects in the upper peninsula for the reason that it would have as its basis Fuller's alleged disloyalty.

There will be a regular meeting of Division No. 4, A. O. H., at Knough's Hall this evening at 8 o'clock. 11-15-15

ILLNESS PROVED FATAL

Mrs. Thomas Broderick Passed Away at St. Mary's Last Evening.

Mrs. Thomas Broderick passed away at 6 o'clock last evening at St. Mary's hospital, where she had been taken a week ago last Friday suffering from a complication of diseases. Mrs. Broderick was seventy years of age and had resided in this city for thirty-nine years. She resided at 903 North Third street.

Mrs. Broderick was born in Ireland but she came to this country when four years of age. The family resided at Waukesha, Wis., from which city the deceased came to Marquette, and twenty-two years ago she was married to Mr. Broderick, who lives to mourn her death. She is also survived by a niece, Mrs. James Ahearn, of this city, and two sisters, Mrs. A. M. Kelley, of Kansas City, Mo., and Mrs. A. Kemy, of Waukesha.

The funeral will be held at St. Peter's cathedral at 8:30 Thursday morning, after which the body will be taken to Waukesha for interment.

VIOLATED PAROLE.

Frank Nantell Was Returned to Marquette Prison Yesterday.

Deputy Warden Catlin arrived at the prison yesterday from Detroit with Frank Nantell in charge, he having been returned to the institution for violation of a parole that he obtained last September. Nantell was sent up from Detroit about three years ago for forgery. His sentence was from seven to fourteen years, and the court recommended that he serve the maximum. Strong influence was brought to bear to secure his release on probation, however, and his mother worked energetically in his behalf. Representations were made to the board of pardons that he would be carefully looked after if he were given his liberty, and a well-known insurance man of Detroit offered to be his first friend.

Nantell speedily got back into his old ways, however. He was taken to the police headquarters at Detroit last Saturday on the charge of passing a worthless check for \$25. He was held for several hours without being booked, and Mrs. A. McGraw, who is described as a well-known society woman of Detroit, endeavored to have him let off. It was finally agreed to let him go if he settled the amount of the check, but he failed to do this and the complaint was made to stick. Besides this offense Nantell was also guilty of other bad conduct during the period that he was on parole.

He is a young man of twenty-four years and is well connected. He is a good looking fellow, and not of the criminal type in appearance, but he appears to be a hopeless violator. The prison officials were not very kindhearted that he would observe his parole and were not greatly surprised to learn that he was in trouble. His case has been particularly notable for the persistent effort that was made to obtain his parole in the face of strong opposition.

CLOSING UP FOR WINTER.

No More Work Toward Building of Breakwater Until Next Spring.

Francis MacDonald, who has the government contract to place the rip rap foundation for the extension of the Marquette breakwater, is closing down the rock quarry on Middle Island and preparing to suspend operations for the winter. Mr. MacDonald has had a good deal of hard luck, particularly in getting the quarry started, this season, and only a small part of the breakwater foundation has been placed. He has until next August, however, to complete the contract, and he is confident that he will have the job done by that time.

For several days past a report has been in circulation to the effect that Mr. MacDonald had given up his contract and that it had been turned over to Whitney Bros., but this rumor was refuted by Mr. MacDonald and by an employee of the United States engineering department who was in the city last evening. The report has probably arisen over the fact that Mr. MacDonald recently engaged Whitney Bros. to conduct the operations at the quarry at Middle Island.

If in need of anything in Ready-To-Wear Apparel, we kindly ask you to come and inspect our lines before making elsewhere as we have made special prices on all garments in our Suit Department, and on all Millinery goods. Come and compare our prices with others you have seen.
