

HENRY DEVISES PLAN TO SMASH UP THE TRUSTS

Texas Representative Drafts a Bill Which It Is Said the Democrats Will Put Through the House—'Felon's Stripes' Are Proposed for Guilty Magnates.

'Rule of Reason' Is Eliminated and Prison Terms Are Provided for Violations—Move of the Packers Much More Important Than the Government Realized.

Washington, Nov. 15.—'Felon's stripes' as a punishment for commercial piracy under benevolent 'rules of reason,' are proposed in a bill amending the Sherman anti-trust law as drafted by Representative Henry of Texas and which will be introduced in the house upon the opening of congress next month. This introduction probably will mean the passage of the legislation by the house.

The bill defines just what constitutes a trust, legislates from the present statute the 'rule of reason' as interpreted by the supreme court in the Standard Oil and American Tobacco decisions and provides as punishment for violation of the law imprisonment of two to ten years in the penitentiary. It will be referred to the judiciary committee for deliberation.

In explaining his bill, Representative Henry said today that actual imprisonment of great industrial offenders was essential to a cure for the trust evil and that a law to be rigid must not necessarily define a trust to leave no room for controversy.

The Democratic leaders will confer on the bill as soon as the members assemble late this month, and it is their purpose to make the bill one of the foremost on the legislative program for the regular session.

Packers' Move Is Found to Affect All the Big Business Interests. Chicago, Nov. 15.—A further appreciation of the importance of the action taken yesterday by the indicted Chicago meat packers in surrendering themselves to custody and asking writs of habeas corpus developed today with a further explanation of the plans of the attorneys for the defendants.

The guilt or innocence of the accused men has become, for the time being, a matter of secondary importance, the issue of the immediate amount of work by the government investigators. Instead, the question of the worth of the law itself has come up for decision, and the immediate effect of this decision on the meat business likewise has moved back to make way for a realization of what the action means to all big business interests in the United States.

The recent dissolution of the American Tobacco company and the Standard Oil company; the suits begun against the so-called lumber trusts in the great cities; the effort of the government to dissolve that largest of American corporations, the United States Steel corporation; the adjustment of the affairs of the International Harvester company; the future of the Standard Oil trust; the recently 'discovered' business interests in New York characterized as a 'money trust'—all these are now discovered to hold a vital interest in the fight of the packers and the preceding action of the attorney in the Caval Stores case. The hearing on the permanency of the temporary writs of habeas corpus will be held tomorrow.

Mr. Bryan Comments on the Case. St. Louis, Nov. 15.—William Jennings Bryan holds that it will be interesting to see how the supreme court of the United States will handle the case of counsel for the Chicago packers. Commenting today during a visit here, on the case, Mr. Bryan said: "On account of the defendants appealing to the habeas corpus act, the question arises also to whether the Standard Oil and American Tobacco decisions weakened or strengthened the law. The president has insisted that the law is strengthened by them, while others think they repeal the criminal section. The packers take this view."

Senate Committee Opens Inquiry. Washington, Nov. 15.—Every phase of trust regulation and control is to be under inquiry before the senate committee on interstate commerce during a hearing which began here today. Advocates of a more vigorous enforcement of the present Sherman law are to have their findings ignored with the sessions that are to follow representatives of "big business" and leading students of economic problems will be heard.

WALL STREET MARKET SHOWS WEAKNESS AGAIN; THE BULLS DISCOURAGED. New York, Nov. 15.—That the position of the stock market had been weakened considerably by the extensive realizing of the last few days was indicated by the movement of prices today. The tone was heavy and at times weak, and the market exhibited a lack of staying power which discouraged the bulls.

ing, but quickly lost their advantage. The market became heavy, and remained in that condition until just before the close, when it moved upward briskly, presumably owing to the covering of lines of short stocks put out during the day.

SENATOR LA FOLLETTE LEAVES ON WESTERN TRIP THE 20TH OF THIS MONTH.

St. Paul, Minn., Nov. 15.—Senator LaFollette will speak in St. Paul on some date between Nov. 20 and 27. He will leave Washington on his Western trip Nov. 20 and, after speaking in St. Paul and Michigan, will come to St. Paul and Minneapolis for addresses and a conference with the Minnesota progressives, under whose auspices the meetings hereabouts will be held.

BET SUGAR REFINERS PLAN FOR HARD FIGHT TO RETAIN TARIFF DUTY.

Chicago, Nov. 15.—Beet sugar refiners, in convention here, today formed a temporary organization, in preparation for carrying on their fight to retain the tariff on sugar. Ninety-five per cent. of the beet sugar production in the country is represented at the meeting, according to C. C. Hamlin of Colorado Springs, Colo., chairman of the convention.

MODERN BARBARAS WAVE FLAGS AT TAFT

President Visits the Maryland Town Made Historic by the Poem of Whittier.

Frederick, Md., Nov. 13.—President Taft came over into the Frederick valley today to advocate his arbitration treaties in a speech before the associated boards of trade of Maryland and to lay a wreath on the tomb of Francis Scott Key, father of the "Star Spangled Banner." It was the greatest day this little town has had since Barbara Frickel waved her flag at Stonevall Jackson's men and drew a poem from the pen of Whittier. Hundreds of Twentieth century Barbaras waved flags at the president today and drew nods of recognition from him.

The president's address was substantially the same advocacy of the treaties which he made in speeches on the 15,000-mile trip just finished. The president had a cold which affected his throat and he did not speak at length.

BRAND WHITLOCK, TOLEDO, DIDN'T SPEND A PENNY IN BEING REJECTED MAYOR.

Toledo, Nov. 15.—Brand Whitlock, who was elected mayor of Toledo for the fourth time on Nov. 7, filed with the board of elections today a certified statement that he did not spend a cent for expenses during the campaign just ended. W. E. Ries, socialist candidate for mayor, declared that he spent \$1,100 expounding the cause of socialism, but had no personal expenses. The Ohio law compels all candidates to file an itemized account of campaign expenses within ten days after election.

CHAIRMAN KNOX IN FAVOR OF PRIMARIES

However to Adopt LaFollette Idea in Michigan Would Be Without Legal Sanction.

Detroit, Mich., Nov. 15.—Prior to a meeting of the Republican state central committee here today, Chairman Frank Knox of Sault Ste. Marie gave in an interview his opinion of the proposal made by the LaFollette campaign committee for presidential primaries. "I have always been in favor of primary elections," he said. "If any one can show me now that the state central committee can institute a primary that will give an expression from any considerable percentage of the Republican voters, I will favor it. But it is doubtful in my mind, if a primary instituted by the state committee without legal sanction would not do more harm than good, by testing out the primary idea as applied to presidential nominations under most unfavorable conditions and with no legal assurance that the result would be adhered to."

COOK COUNTY PROSECUTOR DENIES ORDERING POLICEMAN TO GET WITNESSES DRUNK.

Chicago, Nov. 15.—State's Attorney John E. Wayman of Cook county today denied before the Lorimer investigating committee his part in the activity which resulted in the formal charges that Senator Lorimer's election was secured through corrupt means.

Mr. Wayman explained how, in March, 1910, his attention was brought to the so-called White confession and the methods he employed to corroborate the statements of White, who confessed that he received money for his vote for Lorimer. The prosecutor said his detectives were sent out to see all those involved in the alleged bribery and get them committed before the publication of the confession, "so they would not get together and agree on a story."

Mr. Wayman denied the statements of Policeman Patrick J. Keely, who yesterday testified that he had been instructed by the prosecutor to take out witnesses in the Browne bribery trial and get them drunk, so they would talk freely.

Cannelton, Ind., Nov. 15.—Mrs. Ella B. Mertz has been found guilty of manslaughter by a jury. She shot and killed her husband in Dubois county, Indiana, A. Waldron, who declared himself in favor of woman suffrage, if it would lessen in any degree the number of girls unable to resist temptation. Economic

LAKE TRAFFIC APT TO COME TO A SUDDEN STOP

Fear Is Expressed That Mud Lake, in St. Mary's River, May Soon Be Closed to Navigation—A Cold Snap of Only a Few Days Would Do It.

Weather Conditions Are Already So Severe That the Lighthouse Service Is Seriously Considering Taking Up the Buoys, a Work Usually Left Until December.

Sault Ste. Marie, Mich., Nov. 15.—It is now feared that Mud Lake, in St. Mary's river, may soon be closed to navigation. This body of water is always the first to become un navigable in the winter, and the last to open in the spring, and a cold snap of a few days would close it.

This would mean the laying up of the large number of boats at the head of the lakes and at this port, and the displacement of a large number of independent owners who had anticipated big profits during the closing weeks of the season by reason of the large amount of timber awaiting shipment from the head of the lakes and stored in elevators at Fort William and Port Arthur.

So unusual have been the weather conditions that Captain Bernier of the lighthouse tender Aspen, which also has charge of the aids to navigation in the St. Mary's river, is seriously considering the advisability of at once taking up the buoys and other aids, although the work is usually left until December.

Sellwood Has Hazardous Voyage.

Duluth, Minn., Nov. 15.—Forty-eight hours overdue, the steamer Joseph Sellwood, upon which coal arrived here today, after a hazardous trip. Captain R. C. Jackson found it necessary during the big storm to take on twelve hundred tons of water aft, in order to keep the wheel under water.

The Sellwood was riding a heavy sea and, although loaded with 9,200 tons of coal, she "threw her wheel out of water." The No. 6 compartment was opened, and four feet of water were taken in. The space under the engine room also was filled with water for ballast. The Sellwood is 545 feet long and fifty-five feet beam and is owned in Cleveland.

Freeze-Up Hampers Ore-Loading.

Since the freeze-up, boats have been delayed considerably in getting any kind of dispatch at the ore docks. The ore is frozen solid. Under ordinary circumstances, any of the large bulk freighters can fill in a few hours. With the ore frozen, it is taking from two to three days to load. When frozen ore is loaded, there is a shrinkage in cargo, as is shown in the instance of the steamer James H. Reed, which got the last of its cargo today. While the Reed's carrying capacity is 7,200 tons of ore, she was able to take only 6,900 tons.

Ocean Whaleback Is Missing.

New York, Nov. 15.—The search for the missing whaleback barge Seaport, which with her crew of four men broke loose from the tug Underwriter in a gale Sunday off Fire Island, has been abandoned. Captain John J. Kelly of Underwriter, is convinced the Seaport foundered with all hands some time during Sunday night.

CAPTAIN JOSEPH KIDD IS DEAD AT DULUTH.

Duluth, Minn., Nov. 15.—Captain Joseph Kidd, one of the best known marine surveyors on the Great Lakes, died suddenly of heart disease here tonight. He was superintendent of the American Steel barge works and supervised the construction of all the "whaleback" ships ever constructed, many of which are now in Atlantic and Pacific ocean service. He was born at Newcastle-on-Tyne, England, sixty-four years ago. He leaves a wife and five children.

FIRE AT HARBOR BEACH WRECKS MASONIC TEMPLE.

Harbor Beach, Mich., Nov. 15.—The Masonic temple here was wrecked by fire last night. The blaze is thought to have been started either by an overheated stove or defective wiring. The loss is \$65,000.

The Weather

Washington, Nov. 15.—The following is the weather bureau's forecast for Upper Michigan: Fair, Thursday; Friday, probably snow and warmer; light to moderate variable winds.

DULUTH MAN RECEIVES 13,000 VOLTS AND SURVIVES, AT LEAST TEMPORARILY.

Duluth, Minn., Nov. 15.—David Carlson, who received a shock of 13,000 volts at a Duluth power house, is at St. Mary's hospital, in a critical condition and is expected to live only a short time. That he has survived so long is considered remarkable.

NEW YORK WHITE WINGS BEGGING FOR OLD JOBS; THE STRIKE IS BROKEN.

New York, Nov. 15.—The first week of the 22,000 collectors' strike ended tonight. During the last three days an increasing number of strike-breakers has made a deep impression on the accumulated garbage and under the efforts of a force of nearly four thousand men swept up on without the slightest interruption today. In a week the city will be normally tidy. The authorities consider the strike as broken, and many strikers are said to be begging for their jobs back. None will be reinstated, unless acquitted in the trial to be held under civil service rules on Monday.

MINNEAPOLIS SOCIETY RECEIVES A SHOCK

Man Prominent in Its Circles Is Under Arrest, Charged With Stealing Jewelry.

Minneapolis, Nov. 15.—Wilfred Stuart Sheldon Dickson, said to be a member of an old English family and for some time prominent in Minneapolis society circles, is in jail here tonight, charged with robbing Mrs. Olga Hassell, a society woman, of diamonds and jewelry valued at \$2,950.

Dickson, who had been staying at the Hassell home for some time, denies the theft. He arrived here several months ago with letters to prominent people and from that time has played a leading part in society. He at one time, it is said, was a reporter and has written a number of magazine articles. According to Mrs. Hassell when she returned from a reception on Tuesday she placed the jewels in a glass and hid the glass beneath the mantel. "I looked around," Mrs. Hassell said, "and saw Mr. Dickson standing in the doorway. I knew he had seen me putting the jewels away. However, he made only a passing remark and walked down stairs."

Woman's Son Also in Custody.

In jail also, held for investigation, is George Hassell, son of Mrs. Olga von W. Hassell and of C. E. Hassell, now of Washington, D. C., formerly owner of the Boston Herald and still carrier of the Minneapolis Times and part owner with his father of the Minneapolis Journal.

GOPHERS AND BADGERS WILL PLAY SATURDAY

Fullback Earl Pickering, Protested by Wisconsin, Will Not Be in the Game.

Minneapolis, Nov. 15.—The University of Minnesota football team will meet that of the University of Wisconsin at Madison next Saturday and Captain Earl Pickering, the Minnesota fullback, will not be in the game. That Pickering would not be played was decided after a long conference with W. G. Miller, athletic director of the University of Wisconsin, who yesterday protested Pickering on the charge that he has played professional baseball. Whether the game should be cancelled was not decided until after a long session of the athletic board of control at which, it is said, two of the nine members favored the cancellation of the game.

U. S. Soldiers Going to China.

Washington, Nov. 15.—The state department has practically decided to send a regiment of troops from Manila to Chin King Tao, a sea port in China about 200 miles from Peking, and on the Gulf of Pechili. The purpose is to open an international duty under the Boxer treaty, in keeping open the lines of communication between Peking and the sea.

ITALIAN TROOPS IN TRIPOLI REPORT REPULSING TURKS IN VARIOUS MINOR ATTACKS.

Tripoli, Nov. 15.—A report from an Italian source says that the attacks by the Turks on Derus and the Italian outposts at Tobruk were repulsed. It is stated that a large number of Italians have been wounded by bullets and heavier projectiles which had been purposely misdirected, in violation of the rules of war.

Washington, Nov. 15.—The health of the Italian troops in Tripoli remains good, in spite of unfavorable weather, according to a dispatch received tonight at the Italian embassy. Minor military

STRONG MAN OF CHINA TAKES UP GIANT TASK

Yuan Shi Kai Accepts the Premiership and Will Strive to Keep the Emperor on the Throne—He Is Given a Free Hand—Butchery at Nanking Continues.

Viceroy Chang's Blood Is Up and He Behaves All Queequee Chinese He Finds—Rebels Are Planning Vengeance—Regiment of Troops Is Going from Manila.

Peking, Nov. 15.—Yuan Shi Kai has accepted the premiership and probably will assume office at once, as he did not undertake the task without receiving guarantees that he would practically have a free hand while he retains his official position.

The premier said today that he intended to form a cabinet immediately and endeavor to carry on the government by gaining the support of as many provinces as possible, allowing the remainder to retain their independence for the time being. "It will be his endeavor also gradually to win back their allegiance to the throne.

Reign of Terror at Nanking.

Shanghai, China, Nov. 15.—A veritable reign of terror prevails at Nanking, according to late dispatches from that city, under the dominance of General Chang Jen Chun, the viceroy, who has cast restraint to the winds in a systematic search for being made for Chinese who have discarded their queues, and all found are beheaded. The revolutionaries in Shanghai are making vigorous preparations to attack Nanking and at a meeting last night volunteers were called on to undertake the assassination of Chang.

Dr. Gilbert Reid, a prominent missionarist, visited Viceroy Chang yesterday and endeavored to induce the general to agree to an armistice. General Chang refused to entertain the idea and declared that he must be loyal to the emperor. He said that he intended to lead his troops in the capture of Chinkiang, Foochow and Shanghai for the throne.

Dr. Reid says Chang's blood is up; that he is fired by his successes and the number of those he has beheaded. He boasts that he has twenty thousand devoted soldiers and holds Nanking in the palm of his hand. It is admitted that Chang is a man of great courage and military ability. He has abundant money and ammunition and he has sowed the city with mines.

Bloody Battle Impends.

Chefoo, China, Nov. 15.—Indirect reports of the great fight of the present revolution will take place at Nanking. The city is now a huge military camp. General Chang is in command, with fifteen to twenty thousand troops. They are well armed and fairly trained. They are determined and desperate and are entrenched in positions which experts regard as impregnable.

U. S. Soldiers Going to China.

Washington, Nov. 15.—The state department has practically decided to send a regiment of troops from Manila to Chin King Tao, a sea port in China about 200 miles from Peking, and on the Gulf of Pechili. The purpose is to open an international duty under the Boxer treaty, in keeping open the lines of communication between Peking and the sea.

AVIATOR FOWLER EXPECTS TO RESUME HIS FLIGHT TODAY.

El Paso, Tex., Nov. 15.—Robert G. Fowler, the Pacific-Atlantic aviator, is still here, but says he will resume his eastward flight tomorrow morning, going from here to Pecos, Tex., and thence to Fort Worth.

German Flyer Is Killed. Berlin, Germany, Nov. 15.—Herr Pletscher, an aviator, fell while making a flight over the Johannisthal field today and was killed. His neck was

operations also are reported, including the capture of a German airplane, and ammunition belonging to the Turks. An attack of the Turks on the southwest front of the Italian cavalry at Homs, according to the dispatch was repulsed.

RULE OF A CHICAGO COURT MAKES AN ATTORNEY PUT SAME QUERY 235 TIMES.

Chicago, Nov. 15.—An attorney in the municipal court today asked one witness the same question 235 times while the jury dozed and the judge gazed listlessly at the afternoon papers.

An office-fitting company was suing a bank for \$2,416, paid out on 235 checks alleged to have been forged by B. S. Slaney, former assistant manager of the furniture company. The company's attorney desired to question his witness about all the checks at once but on objection was forced by the court to present each one at a time, repeating monotonously the query: "I hand you a piece of paper, purporting to be a check signed by you. Is that your signature?" To which the witness replied, no less monotonously, "It is not."

MOST "BLACKHAND" LETTERS NOT WRITTEN BY ITALIANS, ASSERTS U. S. JUDGE LANDIS.

Chicago, Nov. 15.—"Blackhand" letters, popularly supposed to be written by Italian gangsters, are not, in the experience of United States District Judge Knesaw Mountain Landis; instead only a small portion of the threatening letters are penned by former residents of Italy. He made this statement today in sentencing to an indeterminate term in the federal prison Jacob Basta, who pleaded guilty to a charge of sending a threatening letter.

CO-EDS TAKE A HAND AND WIELD HATPINS

Even Hair-Pulling and Fists Figure in an Exciting Melee at McAllister College.

St. Paul, Nov. 15.—An hour's reign of terror, in which hatpins, hair-pulling and fists figured freely, was precipitated at McAllister college today when the freshmen appeared at chapel wearing little blue caps, emblazoned with "15" in bright gold figures.

The trouble started immediately after chapel, when the sophomores waylaid the freshmen in the halls and took away a number of their caps. For half an hour the struggle continued and then the co-eds, who had satisfied themselves with cheering the male members of their respective classes, could no longer contain themselves and started a fight among themselves.

CHICAGO DESERTED WIVES APPLY FOR RELIEF FROM THE COUNTY.

Chicago, Nov. 15.—Scores of wives of laborers applied to the Cook county agents for relief today, declaring that they had been deserted by their husbands. "Most of the men come to this country from southern Europe, and every winter they find the climate of Chicago too severe and leave for the South," County Agent Meyer said. "They leave their families destitute and the county is obliged to take care of them. We will have a dozen or more of these cases to handle every day throughout the winter."

SCHOOL TEACHER SAYS THE MAN IS KIMMEL

So Do Thirty-Five Other Witnesses for Insurance Company in Niles Case.

Niles, Mich., Nov. 15.—The taking of depositions to be used at the trial of the Kimmel insurance case at St. Louis, Mo., ended today for the present. Thirty-six witnesses had been sworn and all were more or less emphatic in their declaration that the man released from Auburn prison in September is George A. Kimmel.

The last witness sworn today was Miss Rachel Tait of the Mt. Pleasant (Mich.) school. Miss Tait taught in the Niles High school in 1879 to 1881. George Kimmel was one of her pupils and she was also a neighbor of the Kimmel family.

CHURCHES AND SCHOOLS AT SUPERIOR RALLY TO AID OF STRICKEN CITY.

Superior, Wis., Nov. 15.—From every Catholic church pulpit in the city, relief for the stricken at Black River Falls will be urged by the pastors and their assistants next Sunday. Collections will be taken up in the parochial as well as all the public schools in the city for the help of the unfortunate at the flooded city. On Saturday, collections are to be taken up in the various stores of the city.

BEATTIE GOES TO DEATH CHAIR ON FRIDAY NEXT

Declaring That He Is Convicted of the Guilt of the Prisoner, Governor Wm. H. Mann of Virginia Refuses to Reprive the Convicted Wife-Murderer.

Told by Clergyman That Every Possible Effort to Save Him Has Failed, Condemned Youth Hears the Message in Silence, Although He Is Visibly Affected.

Richmond, Va., Nov. 15.—With the statement that he was convinced of the prisoner's guilt, Governor Wm. H. Mann today declined to grant a respite to Henry Clay Beattie, Jr., convicted on Sept. 8 of the murder of his wife of a year. The refusal of the governor to interfere with the sentence which the supreme court sustained on Monday means that Beattie will die in the electric chair at the state penitentiary on Friday, Nov. 24.

Being aware that a final decision would be reached in his case today, Beattie, in the death cell, waited expectantly for some word from the governor's office. His gray-haired father, broken in spirit and strength, who notified him on Monday that an appeal had been denied, was spared the ordeal of conveying the second message that all hope was lost.

Rev. Benjamin Dennis, an Episcopal minister who had interceded in the young man's behalf, went quickly to the prison to inform him that every possible effort to save him had failed. Beattie heard the announcement in silence, though he was visibly affected.

MRS. VERMILYA DENIES SHE IS A MURDERESS

Alleged Poisoner Declares Herself Victim of a Peculiar Chain of Circumstances.

Chicago, Nov. 15.—Mrs. Louise Vermilya today made the first public statement she has given out since she was arrested on charges of poisoning Police-mer Arthur Bissonette and since suspicion has been directed against her by the police in others of the ten deaths that have occurred beneath her roof in the last eighteen years. She received newspaper men at the county jail here today, where she is recovering from the effects of poison said to have been self-administered.

ODOR OF STRONG ACID FOELS JAIL DELIVERY AT LOS ANGELES, CAL.

Los Angeles, Cal., Nov. 15.—Guards at the county jail where the McNamara brothers are confined, discovered last night that one of the prisoners was cutting the bars of his cell with a power-driven acid. In a corridor nearby, lying unheeded in a discarded bucket, was found a cache of pistols and knives. While satisfied that their timely discovery prevented a desperate attempt at a jail delivery, the prison officials also solve the McNamaras from complicity in the attempt.

The odor of the acid having attracted the attention of a turnkey, L. A. Peterson, awaiting trial on charges of felonious assault, had the bucket found, dropped in hand with but a fraction of an inch on each of three bars separating him from the corridor. Peterson was arrested in Chicago several months ago and brought back to stand trial for a daring midday robbery in a downtown office building.

KIDNAPPERS RETURN BOY ABDUCTED BY MISTAKE.

New York, Nov. 15.—"Kidnapped by mistake," is the theory advanced to explain the return to his parents late last night of four-year-old Pietro Quatrano, found wandering on a Brooklyn street, with his father's name and address pinned to his coat. The child had been missing since Aug. 21. The fact that the father received none of the usual "Blackhand" letters demanding ransom leads him to believe that the child was mistaken for some other man's son.

IMMIGRATION CONFERENCE.

Washington, Nov. 15.—Immigration officials from practically every state in the Union arrived here tonight to attend a federal and state conference for the purpose of devising a workable plan by which immigrants, native home-seekers and the unemployed may be distributed to the portions of the country where they are urgently needed. The meeting will be opened tomorrow and extend through Friday. It is expected to result in a more active co-operation between the department of commerce and labor and the state immigration officials.

DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE MINING JOURNAL CO. (LIMITED).

Subscription Rates: Per year, by mail, \$6.00; Per month, by carrier, \$0.50.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

MARQUETTE, MICH., NOV. 16.

FOR WOMAN SUFFRAGE.

Dean S. S. Marquis, of St. Paul cathedral, Detroit, Sunday preached a sermon on the subject of woman's suffrage, which he favors, that was a direct and convincing setting forth of the reasons underlying the demand of the woman for the ballot.

Pursuing his argument Dean Marquis said: "When we set these prejudices aside we discover many reasons why women should have the ballot. Under existing social and economic conditions the responsibility of woman is increasing.

are invariably men who have been long in the public eye. Every angle of their public careers is known intimately, and, as a rule, their early history and their private lives, as well as familiar to the mass of voters.

The advantage to the parties from the introduction of the presidential primary would be the assurance it would carry that they would start with the candidates who possessed the greatest natural strength.

The presidential primary is coming as surely as an arch has a keystone. It is the logical fruit of the primary system. It will not come this year, for the national committees, which alone have the power to secure its general introduction, are, for the time being, in the hands of men who are opposed to any change in the present system.

A GROWING INDUSTRY.

As shown by the figures published by The Mining Journal yesterday, the crushed stone industry in Marquette made a considerable advance in the season just closed. The two plants that are operated to supply the general market were run to their capacity throughout the season and found a ready demand for all the stone they were capable of producing.

There is a steadily increasing demand for crushed stone and it seems as if the market for it will become considerably enlarged, in which event the Marquette stone industry may attain good proportions. This is one of the nearest points at which trap rock for meeting the lower peninsula demand for this product, can be obtained, and the freight rates from this city are as advantageous as can be secured from any other source of supply.

The rock being quarried and crushed in Marquette has been shown by the tests to be a most satisfactory product for both road construction and concrete work. For road building it has good cementing qualities and is tough, insuring a long life for a highway made of it. It has been highly recommended by the good roads bureau of the department of agriculture. The supply of the raw material here is unlimited. It is only a question of opening up quarries, putting in crushing plants and building railroad spurs to obtain any production that may be desired. It is the present promise that the crushed stone industry here will continue to grow in importance.

The Michigan commission appointed to report on the question of employers' liability will find something to interest it in the decision of the Wisconsin supreme court that the compensation law enacted by the last legislature in that state is constitutional. This law was the result of a good deal such an inquiry as is now being carried on in Michigan.

There's one thing about the governor that can always be counted on. He is ready to "mix" with any man who is desirous of "mixing" with him. He enjoys a good shindy as much as the next man, and is perfectly willing to go into one on the terms of "no quarter."

The manufacturers feel just the way about it that the railroads felt when it was first proposed that they should take up their share of the taxation, and, like the railroads, they propose to protect their soft thing to the limit.

Another Match. On the death of his first wife a literary celebrity of the south created an elaborate memorial to her on which was inscribed the sentiment, "The Light of My Life Has Gone Out." The late Bishop Wilmer of Alabama pointed out the memorial to a friend who read the words and then asked, "But he married again, didn't he?"

No Use for Molly. "The late Rear Admiral Schley, as his own career showed, didn't believe in automations," said a Washington veteran. "He didn't believe in the subordinate who lets his boss do all his thinking for him."

That joke about Italy carving the Turk for Thanksgiving day has had to go into the discard. The Turk has proved a tougher old bird than anyone expected it would be.

The united testimony of an ambitious young blizzard, a cold wave flag and belated trains amply warrants the conclusion that winter is here to stay.

What "Cooking in Paper Bags" Does

IT does away with the cleaning of greasy pots and pans. As bags are sealed when contents are cooking, it keeps cooking odors from filling house or apartment.

It conserves the health-giving juices of meats and the life-giving salts of vegetables that escape wholly or in part under the present system of pot-and-pan cooking.

Because of this fact it makes every dish more savory and nutritious, and it is economical, the food weighing practically the same when drawn from, as when put in, the oven.

It means quicker cooking, and, hence, lowering of gas or coal bills. It saves time and anxiety—you don't have to keep looking at the food from time to time as it is cooking to see if everything is all right. You just put the food in the

oven, shut the door, and at the set time take it out, done to a turn.

If food is left in the oven five or ten minutes longer than time called for it will not be harmed in the least, as is likely to be the case under present system of cooking.

A housewife, intelligently employing Soyer's paper-bag cooker, can put an entire meal in the oven, and then, secure in the knowledge that it cannot burn or come out underdone or overdone, go about other duties, or pleasure, until the minute arrives when the meal is to be served.

The Chicago Daily News tells all about Soyer's "Cooking in Paper Bags." It prints every day a descriptive article, telling just how to do the thing, and gives new recipes every day for cooking the every-day meals by the new system.

All newsdealers sell The Chicago Daily News. It is Chicago's family newspaper. Its circulation is over 300,000 copies a day. Considering that almost every copy goes into a family of two, three or more members, it is safe to say that a million people read it every day. More people in Chicago read The Chicago Daily News than read any other Chicago newspaper.

Order it of your newsdealer today.

It's getting along to the time when Governor Osborn will have to make up his mind about that proposed special session.

However, it appears that if Manominee is satisfied with the kind of a title it has obtained it is nobody's business.

The point of view is everything. Whether the blowing off of a hat is funny depends altogether on whether or not it is your hat.—Jackson Citizen-Press.

Luther Burbank has evolved a thornless blackberry bush. There are merchants in the country who long ago evolved a blackberry brandy that contains no blackberry.—Lansing State Journal.

The United States senate is going to take up the cost of living again this winter. Future generations will at least know that during the twentieth century it cost something to live.—Boy City Times.

A Laugh or Two

Nothing to Write About.

A new reporter on a western paper was assigned to go to a church meeting and get a story of it. He went. When he came back the city editor asked: "How did it pan out?"

"Oh," said the reporter, as he struck his feet on the desk and lighted a cigarette, "there was nothing doing. I haven't got anything to write. The meeting broke up in a fat fight between the minister and a deacon—and not a bit of church business was done."—Saturday Evening Post.

Another Match.

On the death of his first wife a literary celebrity of the south created an elaborate memorial to her on which was inscribed the sentiment, "The Light of My Life Has Gone Out." The late Bishop Wilmer of Alabama pointed out the memorial to a friend who read the words and then asked, "But he married again, didn't he?"

"Yes," replied the bishop, "he did. You see, he struck another match, as it were."—Harper's Magazine.

No Use for Molly.

"The late Rear Admiral Schley, as his own career showed, didn't believe in automations," said a Washington veteran. "He didn't believe in the subordinate who lets his boss do all his thinking for him."

"I once heard Admiral Schley talking to a young Annapolis student. He told the student that unreasoning and unquestioning obedience to orders was, if the orders were wrong, a foolish thing. He said the navy had no more use for men of that stamp than the widow Black had for her maid Molly."

"The widow, he explained, told Molly one evening that, if any one called, she was only at home to Mr. Munn. Then she retired to her room and took a little nap. On towards 10 she awoke, and, ringing for Molly, she asked: "Did any one call?"

"Oh, yes, ma'am," said Molly; "Mrs.

Blank called, and Miss Dash and the pastor."

"And you told them what I told you to?"

"Yes, ma'am. I said you was only home to Mr. Munn."

Going the Limit.

The novelty of having his hair trimmed by a lady barber appealed to a mildly intoxicated clubman who entered an establishment, where girls were employed as tonsorialists.

Loath to leave the chair after his hair had been trimmed, the clubman said to the girl: "Now, gimme a shave."

"The girl performed the task and waited further instructions. "Guess you can put on a couple of hot towels," said the clubman.

After the hot towels had been applied, the clubman enjoyed a face massage and permitted his hair to be anointed with perfume.

"Anything else?" sweetly asked the maid.

"Yes; I guess you may pull a couple of teeth."—Judge.

Future Millionaire.

Assemblyman Brennan, author of the Brennan cold storage law, was talking in Albany about a dealer who objected to the labeling of cold storage products.

"This man's objection to the words 'cold storage' on cold storage goods," said Mr. Brennan, "recalls vividly to my mind an Itca boy."

"The boy had gone in for chicken raising and had done well. He possessed an egg-dating stamp. You could always tell, when you bought an egg from him, whether it would be best to eat it soft-boiled or to use it as a political missile."

"But the football season came on, eggs got high and scarce, and the boy began to waver in his virtue.

"And one day, while he was still wavering, he found under a hedge a whole nestful of eggs. He took them home and showed them to his mother.

"I don't know what to date them," he said, doubtfully.

"Well, break 'em," said his mother. "That will give you some idea of their date."

"So the boy broke one of the eggs, and the odor told its story.

"Let's see," said his mother. "This is November 10. Date them November 1910."

"But the boy, as he got out his egg-dating machine, answered.

"No; they might have been laid in 1909 or even in 1908. I'll just date them November 10, without the year. Then I'll be misleading nobody."

Here and There

Mrs. Carrie Chapman Catt, who is making a trip around the world, has dropped in South Africa for the purpose of being present at the first suffrage convention ever held in that country.

The fashionable young man of Berlin who happens to have a sweetheart may now be seen with a miniature portrait of her printed on his thumbnail. The picture is warranted to last for four months, and the cost of it is \$20.

For the first time in the history of New York state the Socialists have elected a member of the legislature; this, too, in the industrial city of Schenectady, where the great manufacturing works of the General Electric company, employing thousands, are at Schenectady. The Socialist elected to the assembly will of course look by himself. He will not enter either the Republican or the Democratic caucus for the election of a speaker and floor leaders.—New York Sun.

Queen Elizabeth of Belgium is taking steps to revive the making of Brussels lace by the girls and women of her country. She is having lace making taught in the industrial schools, and has formed a company with a capital of \$27,000 for the purpose of getting the lace to higher priced markets, particularly in the larger American cities.

Mrs. Edward H. Harriman during the last year has been in control of her late husband's business. She has managed a street railway and lighting plant, a

We offer subject to sale or change in price any part of \$50,000 Detroit Terminal & Tunnel First mortgage 4 1/2 per cent, 50 year Gold Bonds of the Detroit River Tunnel Co., at 102 and interest, yielding about 4.40 per cent. Principal and interest guaranteed by endorsement by the Michigan Central Railroad Co.

hotel, a gold mine, an iron mine, a dairy farm, a bank, a road building company, a blast furnace and several other enterprises scattered throughout the country. All of these enterprises are said to have flourished just as they did under the management of Mr. Harriman.

A board of five army and navy officers has been appointed to proceed to Havana to inspect the wreck of the battleship Maine and report all possible data which it can gather, including the cause of the destruction of the vessel. The members of the board are Rear Admiral Charles E. Vreeland, aid for inspections; Chief Constructor Richard M. Watt; Col. William Black, Engineer Corps; Commander Charles E. Hughes, member of the board of inspections and survey, and Commander Joseph Strauss, on duty in the office of the aid for material.

James Francis Dwyer, the Australian author of adventure stories laid in the South Seas, has with his wife, little daughter and half carload of household goods, emigrated to America. Mr. Dwyer has lived on nearly every corner of the globe, having for many years served as an antipodean correspondent for an Australian magazine. He is now a New York flat dweller but refuses to say for how long. A few days ago he delivered to Doubleday, Page & Co. the manuscript of a novel, "The White Waterfall," which will be published in 1912.

There is no need for clocks on the Aegean sea any day when the sun is shining. There nature has arranged her own timepiece, one that does not vary through the centuries' pass. This natural time maker is the largest sundial in the world. Projecting into the blue waters of the sea is a large promontory which lifts its head 3,000 feet above the waves. As the sun swings round, the pointed shadow of the mountain casts touches, one after the other, a number of small islands, which are at exact distances apart and act as hour marks on the great dial.

BACKACHE, HEADACHE, NEUROUSNESS. And rheumatism, both in men and women, mean kidney trouble. Do not allow it to progress beyond the reach of medicine but stop it promptly with Foley Kidney Pills. They regulate the action of the urinary organs. Foie in action, quick results. For sale by all dealers.

J. E. Parker, 2921 No. 10th St., Ft. Smith, Ark., says that he had taken many kinds of kidney medicine, but did not get better until he took Foley Kidney Pills. No matter how long you have had trouble, you will find quick and permanent benefit by the use of Foley's Kidney Pills. Start taking them now. For sale by all dealers.

"It is a pleasure to tell you that Chamberlain's Cough Remedy is the best cough medicine I have ever used," writes Mrs. Hugh Campbell, of Lavonia, Ga. "I have used it with all my children and the results have been highly satisfactory." For sale by The People's Drug Store.

Today's weather: Fair and colder. Yesterday's temperatures: Seven a. m., 22 degrees; noon, 21; 7 p. m., 18. Highest, 22 degrees; lowest, 16.

Mrs. N. M. Kaufman left last evening to spend a few days in Chicago.

Dr. H. M. Cunningham and G. F. St. John returned yesterday from a hunting trip.

D. T. Morgan and G. F. Heyn were Ishpeming visitors in Marquette yesterday.

William Christian, of Gilbert, Minn., is spending a few days with his son, Chas. Christian.

Charles Retalle went to Silver Lake yesterday to inspect the new dam under construction for the light and power commission.

Mr. and Mrs. L. J. LeVeque arrived home last night from Sault Ste. Marie, whither Mr. LeVeque had gone on a business mission.

The funeral of John Oberg will be held this afternoon at 2 o'clock from his late residence and at 2:30 from the Swedish Lutheran church.

A fire alarm was turned in at noon yesterday and the department rushed to the residence of Chas. Johnson, West Park street, but no fire was found.

Herman Schauer, Henry Nobel and Steve Richardson have returned from a hunting trip in Sands township. They did not bring home any venison.

St. Paul's guild will have fruit cake and mince meat for Thanksgiving. Anybody desiring these articles can obtain them by telephoning to Mrs. H. R. Harris.

Mrs. Dan Keough and mother, Mrs. Caroline Brooks, left yesterday for Upland, Cal., where Mrs. Brooks will spend the winter. Mrs. Keough expects to return to Marquette in about two months.

There will be special meetings Saturday and Sunday in the Salvation Army hall. Major Morton will be present. Saturday evening there will be a special musical program by the Swedish String band.

H. R. Fox moved into one of the flats in the Hargrave apartment house yesterday, he being the first tenant to occupy the new building. Other tenants will move in within the next few days, the flat being now practically completed.

Basketball Team Dance—An informal dance will be given by the Knights of Columbus basketball team at Legion Hall Friday evening. It will take the place of the basketball game scheduled with the M. C. M. team of Houghton, which was postponed. A game with another team could not be secured. Music for the dance will be furnished by Trombley's orchestra.

Fined for Violation—Deputy Game Warden Mosher brought Ed Lambert down from Big Bay yesterday, charged with violating the deer laws. He was arraigned before Judge Byrnes and fined \$10 and costs of \$6 for killing deer without a license in his possession. Deputy Mosher found half of a carcass in the possession of the defendant, which was sent to St. Mary's hospital.

Semi-Darkness Last Night—As all but one of the bolts in the coupling shaft between the large water wheel and generator at the city electric plant had broken, it was necessary to shut down the larger generating unit from 8:30 until 9:30 last evening until new bolts could be put in. As the lighting in the city was too great for the small generator, the lights were very dim and the city was in semi-darkness for about an hour.

Surprise Party—Mr. and Mrs. John J. Duttner were pleasantly surprised last evening by a party of fifty to sixty friends who called at their home at 249 Fisher street to celebrate the twentieth anniversary of the couple's marriage. The self-invited guests were received enthusiastically and the evening was most enjoyably spent with cards and other games and music. The merry-making was concluded with the serving of refreshments.

Mutt and Jeff at Bijou—What promises to be an interesting program will be offered at the Bijou the last half of this week. Dohes and Bokel in a singing act will furnish the vaudeville and in addition three picture plays are offered for viewing. "Through the Air" and "Conspirators." "Mutt and Jeff" will be the feature on Wednesdays and Thursdays each week hereafter. This is Douglas Robertson's farewell week and he is singing some special songs.

Mrs. Broderick's Funeral—The funeral of the late Mrs. Thomas Broderick will take place this morning, with services at St. Peter's cathedral at 8:30 o'clock. Following the services, the remains will be conveyed to the Tomella undertaking parlors, where they will remain until the departure of the train on which they will be forwarded to Waukesha, Wis., the former home of the deceased, for interment. The mortuary will be open to friends of the family until 4 o'clock.

Much Interest in Bowling—Interest in the bowling game seems to be more general this fall than for several years. Besides the old hands at the game, most of the employees at the new dock are enthusiastic bowlers and the alleys are in use almost steadily every evening. As the storm kept the dock men from working yesterday, all of the down town alleys were in use most of the afternoon. Bill Miller, an old Ishpeming pin boy, holds the season record with a score of 820, and M. H. Fourd with 235 has the high score of the Marquette bowlers.

Bergland School Burned—Frank Sullivan, district chief for the Michigan State Telephone company, informed The Mining Journal last evening that the Bergland school house burned to the ground yesterday. The structure was in flames when the South Shore train passed through the village. In fact it was two-thirds destroyed at that time. It was a good sized frame building, and the flames made rapid progress on it. The fire broke out so suddenly and spread so quickly that the pupils were hard put to get out of the building in safety and they lost many books and other personal belongings.

INSURE WITH PETER WHITE & CO.

### WHEAT HARVEST WAS PUT BACK BY RAIN

#### Frost Not the Explanation of the Short Crop in the Saskatchewan Country.

James A. Stewart arrived in Marquette yesterday after a year's absence in the Saskatchewan country, where he has been farming about forty miles from Battleford for the past five years. Discussing the shortage in the wheat crop in the Canadian Northwest, Mr. Stewart said last evening:

"An erroneous idea is abroad in this country in regard to the shortage. Many people believe that it was due to the frost, and that the shortage shows that frosts are likely to cut down the crop any year in the Northwest provinces. As a matter of fact, the frosts had nothing to do with the short crop, but it is due rather to an unprecedented wet spell in the latter part of the growing season. The wet weather put back the cutting of the grain a full month, and this, in turn, delayed the threshing for a like time. As a result, it was impossible to thresh more than half the grain and the other half lands in the shock in the fields. Whether it will be saved depends on the character of the winter and spring weather. If the winter and spring are dry a large portion of the wheat in shock will be threshed.

"Even under ideal conditions the crop would not have exceeded the wheat standing in the fields for the reason that the threshing capacity available in the province falls far short of what it should be to thresh all the grain offered. The country has been put under cultivation so fast that the grain is being grown more rapidly than the facilities for handling it are provided, and there are not at this time half enough threshing outfits in the country to take care of the wheat in a proper manner. This condition was greatly aggravated by the setback the harvest received because of wet weather. A good threshing outfit costs in the neighborhood of \$5,000 and in a new country there is naturally some hesitation about making such a large investment. But late last fall many farmers co-operated to put in plants, and next year this condition promises to be greatly relieved."

Asked about reciprocity, Mr. Stewart says that the Northwest was almost a unit in favor of it and gave strong support to the Liberal candidates. Much regret was felt when it was learned that Eastern Canada had rejected the Laurier government on this issue. Mr. Stewart says that the policy of "to the victor belongs the spoils" is being applied in a most thorough manner in the Dominion. It has been over a decade since there has been a Conservative ministry in power in Canada and the Conservatives are pretty hungry for public office. Liberal jobholders are being decapitated as fast as they can be reached to make places for the active men in the Conservative party.

#### MORE TAX AGENTS ARE IN THE CITY

Clerks Copying Assessment Rolls, Probably for Purpose of Making a Review.

F. R. Metcalf, chief field agent for the state tax commission, and five assistants are spending the week in Marquette, and they are likely to remain in the upper peninsula from counties for some time, as they are doing work that probably is preliminary to a review of the assessment rolls of the four counties. Mr. Metcalf's assistants are S. H. Roe, W. G. Kuhn, C. C. Thorington, C. M. Warner and G. S. Mann. In addition to these men the state tax commission has several timber estimators in the iron counties, some of which are now working in Powell township.

When interviewed last evening Mr. Metcalf was reticent about giving out his plans to the public just now, stating that it had not been determined just what would be done in the way of reviewing the assessments of Marquette county. The force now in the city are copying the assessment rolls and Mr. Metcalf stated that the course to be pursued in the future would depend largely on the discoveries made in those rolls.

Though he would not say so definitely, Mr. Metcalf strongly intimated that the state tax commission would review the roll of every city and township in this county within the next six months. With the exception of estimating the value of timber lands, the field agents do not actually value properties in the winter months, and until spring the work done will be largely preliminary.

"Before making any assessments," Mr. Metcalf states that it is the policy of the field force to spend some time in a city to ascertain local conditions that influence property values. It is probably with this purpose in view that Mr. Metcalf plans to spend most of his time in Marquette from now until the first of the year. When informed that the Marquette city council had appointed a committee of three to prepare a new assessment roll, Mr. Metcalf expressed his hearty approval and his wish to confer with that committee at an early date. He further stated that he would gladly work with that committee toward the end of bringing about an assessment roll in which all taxpayers would pay in equal proportion according to the value of their respective properties.

Mr. Metcalf says that making property assessments in the upper peninsula is more difficult than below the straits, as there are few plat maps to base the work on, and it is harder to arrive at the actual value of wild lands than of improved property. When the plans of the commission have assumed more definite form, Mr. Metcalf states that he will be glad to inform the public more fully of his purpose here and his methods of work.

### 300 CANAL PASSAGES.

Names of the Boats Bound for Ports on Lake Superior.

Sault Ste. Marie, Mich., Nov. 15.—[Special.]—The following upbound boats have passed the canals the past twenty-four hours: Butler, 11 last night; Pe-

lett, Wickwire, midnight; Calumet, 10 this morning; McKee, 11; Fenobscot, Carleton, 11:30; Ball, Henry, Hawgood, 12:30 this afternoon; Willis King, Northern Queen, Keewatin, Carter, Noble, Randolph, Warner, Warriner, 2:30; John Reiss, 3; Siemens, 3:30; John Donaldson, 4; Ohl, 5; Harmonic, 5:30.

### CHARTS SOLD OUT.

#### Howe Pictures Will Be Shown to Two Capacity Houses.

When the theater managers of the upper peninsula besought the management of the Howe moving picture shows to book two nights, so that their patrons could be accommodated, the Howe people were loath to give them more time, fearing that the attraction would only do a fair business two nights, whereas there would be more money in selling out to standing room and moving on to the next town. The charts for the performances at the Marquette one-house this and tomorrow evening last night indicated that the local managers had the situation sized up more accurately than Mr. Howe's business manager, for in both of them there were not enough seats left to give accommodations to a corporal's guard. The ever popular Howe pictures will be greeted by two bumper houses, and it will be necessary to sell standing room for both nights. The way the seats have gone indicates that Marquette would stand three nights of this attraction. Manager Koepeke asked Mr. Howe's manager yesterday to give a matinee Friday, but the latter said he could not do so and get ready in time for the evening performance. Chairs will be placed in the rear, at the sides and in the orchestra pit on the ground floor, which now are being sold at Bigelow's. The sale for the Howe picture shows is said to make a house record, as never before have the seats been sold out so rapidly for a two nights' engagement for one attraction.

### COUGHING AT NIGHT.

Means loss of sleep which is bad for everyone. Foley's Honey and Tar Compound stops the cough at once, relieves the tickling and dryness in the throat and heals the inflamed membranes. Prevents a cold developing into bronchitis or pneumonia. Keep always in the house. Refuse substitutes. For sale by all dealers.

**HOW TOM McNULTY UPSET MARYLAND**

Independent Run of Moneyless Democrat Causes the State to Go Republican.

Baltimore, Md., Nov. 15.—One militant Irishman, singlehanded and alone, without funds or the vestige of an organization, brought about the defeat of the ten thousand workers for the Democratic organization in Maryland and turned the state over to the Republicans at the recent election. It was one man pitted against an army. He routed his foes and brought about a political revolution, with the Republicans now in the saddle in a close state on the eve of a presidential election. The man is "Honest" Tom McNulty, probably the most widely known man in Baltimore. He wanted to be sheriff of the city. He went to the Democratic leaders and says he was promised the backing of the Democratic organization. Soon he learned that the organization was supporting J. Albert Hughes, vice president of a bank, for sheriff. McNulty went into the primaries, but lost. He discovered that votes cast for him were not counted and he made the facts public. The grand jury took it up and officially found the Democratic organization workers had robbed McNulty of about 700 votes and that the frauds affected forty precincts. The frauds became the issue of the campaign, in which McNulty ran as an independent candidate for sheriff. McNulty had first gone to John J. (Sonny) Mahon, the Democratic boss of the organization in Baltimore. He had seen United States Senator John W. Smith and Arthur Pue Gorman do the same thing. Mahon said: "Tom, you are right. You get out of the whiskey business and you will be the next sheriff of Baltimore." McNulty accepted this as an endorsement by the Democratic organization and announced himself a candidate for sheriff in the Democratic primaries. He resigned a \$5,000 position as salesman for a wholesale whiskey house to better his candidacy, but he soon found that the leaders had dropped him to support Hughes. It is believed that Mahon changed his mind because McNulty had run for the shrievalty once before and was defeated. McNulty, however, kept in the game and fought the campaign. McNulty made a great campaign. He was out day and night, making a house-to-house canvass, with the Democratic organization against him. A few days before the votes were to be cast the petty precinct leader of the organization and McNulty met in a cafe. It was then that the organization man, aware of the plot to count McNulty out, told the big Irishman that he would not get a ballot in one precinct of his ward. The organization man tried to rub it in by repeating the taunt, but McNulty paid no attention to him and turned aside. When the votes were counted McNulty got a zero. His tormentor again appeared with the remark: "Didn't I tell you so, Tom?" Then McNulty awoke. He knew he had friends in the precinct who had promised to vote for McNulty. He called on their homes. He found eighteen men, in one afternoon, who said they had voted for him. McNulty laid his case before the grand jury. They opened the ballot boxes in the precinct where McNulty was supposed to have got a zero and found forty-four voters cast their tickets for him. Then the grand jury began opening every one of the ballot boxes in the 231 polling places. They found fraudulent returns all over the city. Election booth officials of both parties were involved, but it was the Democrats who really juggled the returns, while the Republicans, having no contests in the primaries, simply acquiesced. Election officials were arrested by the score. The Democrats got bail for their workers, but the Republicans set their men adrift. Frauds were found in the wards controlled by Daniel J. Loden, chairman of the Democratic city executive committee; Sheriff Robert J. Padgett and "The" Frank Kelly, the triumvirate ruling under "Boss" Mahon. "Boss" Mahon went off on an automobile tour of ten days. While the city Democrats were in a rout Arthur Pue Gorman tried to stem the tide. The district judges were in a panic, expecting to be arrested as the men high-up. Gorman denounced the frauds and showed a disposition to eliminate any candidates that had profited by them. Then following a conference with distinguished Democratic attorneys, Gorman asked Judge Dwyer to take the recount of the ballots out of the hands of the grand jury and place it with the general assembly to be called in extra session to count the ballots. This would have taken the frauds out of the courts and placed the recount in the hands of the Democratic majority of the legislature, but Governor Crothers refused to convene the extra session for such a purpose. The grand jury finished its recount before election. It showed frauds in forty-four precincts and 264 election officials were indicated. The most interesting figures are those showing how McNulty was counted out. He was the most aggressive independent, and the frauds were hatched at him. In the primaries, J. Albert Hughes, the organization candidate, the grand jury discloses, got 16,817 votes. The grand jury's recount shows that McNulty was robbed of a total of 700 votes and that Hughes led the Irishman by 108 votes. McNulty achieved great results, considering that he had

but the independents and his personal friends to draw on. Gorman profited by the frauds in that it enlarged his majority over Blair Lee, but he had sufficient legitimate votes outside the complimentary ones from the election officials to win.

McNulty started out single-handed to fight the organization as an independent candidate for sheriff of Baltimore. He went to the market houses to meet the crowds and visited factory after factory. At the shoe factory of A. H. Calmar & Co. everyone of the 300 workmen in the establishment left the machines and crowded around the man who started the investigation of the election irregularities. Though they were working on piece work, not a man could be induced to go back to his machine until "Tom" McNulty was out of the building. For an hour McNulty talked to the men and told them how he was doing his best for clean politics and honest elections. There was a remarkable, spontaneous outburst of enthusiasm. It had been so all day. Early in the morning he went to Blair market. The butchers, countrymen, hawkers and chicken men all ran out to meet him. They cheered him and passed him along, one to the other, finally getting together at the end and forming the "Tom" McNulty Butchers' association. McNulty also went into the stores of the shopping districts. "I am 'Tom' McNulty, and I'm running for sheriff, and I want your prayers and your influence. Do what you can for me."

Then the women capitulated and smiled back and promised to help. Two or three of them got together on one occasion and raised a shrill cheer for McNulty. McNulty pressed one of his circulars on a tall, handsome blonde, telling her his name and his object. She froze immediately. "Do I look like a suffragette?" she asked laughingly. "No, but you look like one of the good Lord's sweetest creations," answered the gallant "Tom" with a less. "The suffragette movement is immediate and complete."

"Well, I can't vote myself, and I don't want to," said the tall blonde, "but I've got six brothers." "And a sweetheart, too, I'll wager," said the Irish blood in McNulty. "Make him promise to vote for me." "If he doesn't he can't come back any more," said the blonde, and "Tom" went on his way. The proprietors and the managers and floor walkers, too, were glad to see the man who adopted such unusual methods of reaching them. "It's the only way I've got of getting before the people," said the candidate. "I haven't any organization or any backers. I'm fighting my own fight and I want your help."

"You've got it already," came the reply. In several stores the managers confided that there were regular McNulty clubs among the employees. The news travelled by the mysterious agency that spreads such tidings and before he got far McNulty found that his coming was being awaited. Shoppers, crowding around the Monday bargain counters, sought for places to hear the Celtic blarney of the genial "Tom." The saleswomen forgot their customers in smiling back at him. He went up to a colored woman who was talking to a concision of the same shade.

"Don't let him court you until he promises to vote for McNulty," he said. "Deed, he can't court me," answered the woman, "he's my brother-in-law." "Well," said the abashed "Tom," "that's the first mistake I've made this morning."

Adopting a method that would mean ruin to a man who had the mixing instinct to a less degree, McNulty, with his remarkable poise and energy, his unflinching good humor, his blarney and his ready Irish wit, came out a victor and even a hero in situations that would have embarrassed a less accomplished man. Yet when the votes were counted McNulty, who many thought deserved victory more than other candidate, was beaten, but the run he made was surprising, as he actually polled more votes than the regular Democratic candidate and fell only a few thousand short of the regular Republican nominee, who was elected. Hughes got 22,895, McNulty 20,155 and Lee 29,175. The "Goose egg" returned in the twenty-third ward gave McNulty ninety-five votes.

"I have been defeated, but the principles that I represent will never be beaten," declared McNulty. "For the loyalty of 20,000 friends I am deeply grateful." He continued to campaign. "They cast their ballots for me and for those principles of honesty and justice and fairness in politics for which I stood in this campaign. Their support was spontaneous and prompted by no desire to make a record, but to take to them prospects of reward. My neighbors rallied to me in great shape. In my precinct I got 137 votes, or more than my two opponents put together. Those opposed to me did their best to defeat me. In the spirit of the 10th article of Hughes' While McNulty lost, he worked up a popular indignation that elected Phillips Lee Goldsborough governor of Maryland. He brought about the defeat of Robert H. Carr, Democratic organization candidate for state's attorney. A Republican state's attorney will prosecute the election fraud cases and Baltimore will have a Republican sheriff.

**WHOLESALE PRICES ON Women's High Grade Fur Coats**

We announce a display and sale of women's fine furs and fur garments by a manufacturing furrier at our store on Nov. 17 and 18, Friday and Saturday this week.

We have made an arrangement with the factory to give our customers a retail wholesale prices on all garments and high grade fur sets on these two days and advise every woman who contemplates the purchase of furs to make her selection from this large stock on above dates.

Mr. Barth, a representative of the factory, will be in charge of the display and will be glad to give customers intelligent advice on all sorts of furs. Our guarantee of absolute satisfaction is back of every garment offered. It is the best chance of the year to do your choosing, because this display affords a larger selection than any store can afford to carry in stock.

**Theatrical**  
"The Cow and the Moon."  
At the opera house Saturday night will be Chas. A. Sellen's musical extravaganza entitled, "The Cow and the Moon." Mr. Sellen's success in providing this style of entertainment has been so pronounced that he has veritably "spread" himself with his new production. It is claimed to be mammoth in every detail, and undoubtedly will prove one of the biggest scenic productions ever presented on our stage. A company of forty people is promised. There are twenty musical numbers and a large chorus. For gaiety and fun, abundance of color, music, girls and cast "The Cow and the Moon" bids fair to outdo any of Mr. Sellen's previous efforts.

**CHINESE NOISEMAKERS.**  
Of the excess of noises that accompanies a Chinese new year a correspondent of the North China Daily News writes from Hainan: "Now that the new year has been well entered upon, we are looking forward to the enjoyment of quiet nights once more. The noise of firecrackers at the close of the old and at the beginning of the new year was less of a disturbance than the vigil against sneak thieves for ten days before. The going of the extra night watchmen, the tooting on sea shells by small farmers watching their vegetable gardens, the loud singing on the own courage, and an occasional shout of part of some lonely watcher to keep up his 'three! three! catch him!' made nights hideous."

**STARTS MUCH TROUBLE.**  
If all people knew that neglect of sanitation would result in a world of suffering, they would not be so careless. For the trouble they would not take Dr. King's New Life Pills, and end it. It's the only safe way. Best for biliousness, headache, dyspepsia, chills and debility. 25c at The Stafford Drug Co.

**FOR DYSPEPSIA**

You Risk No Money if You Try This Remedy.

We want every one troubled with indigestion and dyspepsia to come to our store and obtain a box of Rexall Dyspepsia Tablets. They contain Bismuth Subnitrate and Pepsin carefully combined so as to develop their greatest power to overcome digestive disturbance. Rexall Dyspepsia Tablets are very pleasant to take. They tend to soothe the irritable, weak stomach, to strengthen and invigorate the digestive organs, to relieve nausea and indigestion, thus promoting nutrition and bringing about a feeling of comfort. If you give Rexall Dyspepsia Tablets a reasonable trial we will return your money if you are not satisfied with the result. Three sizes, 25-cents, 50-cents, and \$1.00. Remember, you can obtain Rexall Remedies only at our store--The Rexall Store, The Stafford Drug Co.

### ARM OF THE LAW STOPS FUEL FORAY

Officers Captured Thief Stealing Coal from Car Yesterday Morning at 4 O'Clock.

Tony Denopiro, a young Italian, who boards with Marino Carso, in Nelson property, corner Second and Bank streets, was arrested yesterday morning at 4 o'clock by Officers Tasson and Johnson, who caught him stealing coal from a flat car, on the South Shore siding, near the depot. Another man accompanied Denopiro, but he was too far away to be seen and made his escape. Denopiro had a bag of coal on his back, and was headed for the boarding house, a little over a block distant, when the officers caught him. He pleaded guilty to the charge of petty larceny, and was fined \$12 and was fined \$12 and costs, amounting to \$16. By the aid of friends, Denopiro paid the fine. The officers have an idea that the man who was with Denopiro at the time he was caught lugging away the coal is a relative of the culprit, but they have no positive grounds upon which to arrest him.

The discovery of coal thefts by the officers solves a mystery that has puzzled some of the fuel dealers of the city for a number of years. The car from which Denopiro and his partner were stealing was consigned to Michael Losselyong, who yesterday said that during the years he has been in the fuel business he has had hundreds of dollars worth of coal stolen from his cars and wagons. Mr. Losselyong said that Monday night about a ton and a half of coal was stolen from the same car that Denopiro had attacked yesterday morning. There were other cars of coal on the side track, some consigned to Tibbels Bros., others to the Superior Lumber company.

It is said that several hundred pounds of the Superior Lumber company's coal was carried away yesterday morning by children, who helped themselves to it. The coal had been purchased by the schools.

Mr. Losselyong said that it is difficult for him to estimate the amount of coal that has been stolen during the years that he has been in business. He has hardly ever received a carload of coal, but what it was some short. His weights have been tampered with those of the shipper. He supposed that most of the missing coal was taken while it was in transit, but he suspected that local thieves were helping themselves to some of the fuel. When his men finished work Monday evening about one ton was left in the car, and he estimated the weights Mr. Losselyong said there should have been two and one-half tons. He at first thought that the coal had been stolen in transit and he intended to put in a claim to the Duluth, South Shore & Atlantic Railway company for it.

Only a short time ago one of Mr. Losselyong's men left a wagon load of coal standing on the street, near his stable, and in the morning they noticed that part of it was missing. They reweighed the load and found that 300 pounds had been carried away during the night.

Marino Carso was very much disturbed yesterday over the detection and arrest of his boarder, for the officers told him that he would probably be brought into the case, as the coal had been stolen for his use. Carso formerly lived on Lake street, near the Superior Lumber company's yards, and he recently moved to the Nelson building. He has about forty boarders. An effort will be made to prove that the coal stolen from Losselyong's car Monday night was carried away by either Carso or his boarders.

Mr. Losselyong said that he expected the Duluth, South Shore & Atlantic Railway company to take action against the coal thieves, but Agent J. E. La Brecche asserted that the coal on the tracks had been delivered to the local dealers and had been accepted by them, so that the company does not feel responsible for the loss.

It is said that every fuel concern in the city had wood and coal stolen from either the cars or the yards, at one time or another. In view of the large quantity of coal removed from Losselyong's car Monday night it is evident that the fuel thieves have been conducted on a large scale.

Miss Alice Cuzin, traveling for the J. E. McBrady Co., will have something of special interest to offer the women of Ishpeming and vicinity, at the Nelson house, Saturday, the 18th, 11-16-3d.

**FIRST MONTHLY "POP."**  
Program Arranged for Tomorrow Night's Entertainment at Y. M. C. A.

The first of the monthly "pop" to be given in the Y. M. C. A. building will take place tomorrow evening. A good program has been arranged and those who attend will be well entertained. Miss Hinchmore, of Marquette, is to take part and Miss Minton and Mr. Polito are also on the program for piano and mandolin solos, respectively.

The second part of the entertainment will consist of a game of volleyball between teams chosen from the members of the senior class, captained by Charles Johnson and Cecil Bengry, and an exhibition on the parallel bars by the senior leaders.

The musical part of the program will be as follows:  
Piano Duet.....Selected  
Reading.....Miss Trembath  
Music.....Dolores  
.....Miss Rushmore  
.....Men of Harlech  
Mandolin Solo.....Selected  
Reading.....Mr. Polito  
Music.....Pianologues  
.....Miss Rushmore  
.....All Thru the Night  
.....Glee Club

### ISHPEMING'S MOST TRYING SHAFT JOB

**Veteran Miner Recalls Trials of Workmen in Sinking the Cliffs 'B' Shaft.**

"The sinking of shafts in treacherous ground by the method employed by the New York Foundation company has proved a great thing for the Lake Superior district, especially when the difficulty experienced in putting down shafts through quicksand from twenty-five to thirty years ago is recalled," said an old Marquette range miner yesterday. "When I recall the trouble encountered by the miners employed at the Cliffs-Cliffs Iron company's 'B' shaft in their effort to reach quicksand I am certain that parts of this range would have been slow in development if some new plan of sinking shafts through quicksand had not been adopted.

"I remember well how the miners in Marquette county used to talk about the work at the Cliffs 'B' shaft. Many of the best men predicted that the shaft would never be completed to the ledge, for several times it looked as if the shaft would be completely destroyed, as the flow of quicksand was continually getting the better of the workmen.

"The sinking of 'A' shaft, which was started in 1879, and was completed to a depth of 585 feet in January, 1882, was an easy task compared with the sinking of 'B' shaft, as no quicksand was encountered in 'A' shaft, although 'B' shaft quicksand was encountered forty-one feet from surface. The first run of sand was so rapid and heavy that work had to be suspended temporarily. The shaft was started twenty feet square and on encountering the quicksand an iron caisson, ten feet in diameter, was sunk inside the timber and was put down seventy-two feet, but the workmen could not get within ten feet of the bottom. The caisson came in as fast as it could be removed.

"The company adopted a pumping process of removing the sand and water after a long pull the shaft finally reached the ledge. I remember well how deep the caisson was in the company were to complete the shaft, regardless of expense. The pump installed was capable of removing 1,500 gallons of water a minute.

"After 'B' shaft had passed the danger stage all of the mining men on the range used to refer to it as something new and novel. When the iron caisson was within ten feet of the ledge, the immense pressure of the sand against it crushed the bottom sections into an oval shape and out of line, and it had to be abandoned. It was some time after this before the shaft was in condition for the timber and several times while the work was passing through the last seven feet it was feared that it would collapse. The late Captain William Sedgwick was then in charge of the property. Following the completion of 'B' shaft about 150 men were employed at the mine.

"The old Borium mine, which was abandoned by the company some years ago, was opened in 1867 by Alexander Mattland of Negaunee having put down the first test pits. The exploratory work was continued through 1868 by Captain James R. Grey, who was in charge of the property for about two years, when it was succeeded by Captain Patrick Tracey, who remained until 1872, when he went to the Saginaw mine. Captain Tracey was succeeded by Captain William H. Murray, who remained about a year, when Captain William Sedgwick was given charge, having previously been with the company at the Jackson mine in Negaunee."

### THE WILSON CONCERT

Washington Girl Greeted by Large and Enthusiastic Audience.

The concert given at Ishpeming theater Tuesday evening by Miss Wilson, daughter of James Wilson, secretary of agriculture, assisted by Mr. Armstrong, of Marquette, Mrs. L. Eaton, Henry Girzi, Mrs. H. S. Thompson, the Ishpeming Girls' Glee club, and other Ishpeming talent, was largely attended, and the audience was an enthusiastic one. The entertainment was under direction of Mrs. J. D. Spitzer's division of the Presbyterian church.

Miss Wilson, who, while in the city was the guest of Congressman and Mrs. H. O. Young, was given a hearty reception, and she responded to a number of "encores." Following the entertainment Miss Wilson was tendered an informal reception at the Young residence.

Mr. Armstrong made a favorable impression with his tenor solo, and all of the numbers by home talent were well received. Mrs. Lucien Eaton and Henry Girzi, the former with violin, and the latter with flute, assisted Miss Wilson in one of her numbers.

Mrs. H. S. Thompson and nine little girls executed a beautiful butterfly dance, arranged by Mrs. Thompson. They were required to respond to three encores.

The stage was artistically decorated with trees, palms, flowers and special electric lights. The ladies of the church were assisted with the decorations by Mrs. F. P. Tillson, who has exquisite taste in that line.

**RECEIVED ANOTHER CUB.**  
The Marquette County Gas & Electric company yesterday received from Onaway, Mich., another cub for the "Coo" at Cleveland park. The cub is eight months old and is about the size of the one that Manager McCorkingale purchased early last summer. The other cub, and the old deer and fawns at the park, have thrived during the past few months. A dugout has been made for the bears and they will be able to retire for the winter at any time. There are sixteen rabbits in the enclosure.

**EAGLES' MEETING TONIGHT.**  
A regular meeting of the Ishpeming aerie, Fraternal Order of Eagles, will be held this evening at 8 o'clock, in the "Miss Workers' hall." A full attendance of members is desired.

**MINE WORKER KILLED.**  
Falling 250 feet in "B" shaft of the Cliffs Shafts mine, a man whose name could not be learned last evening was instantly killed at 5 o'clock yesterday afternoon. The victim of the fatality was a Finn and was a stranger to the Cliffs Shafts mine, he having entered the employment of the company only yesterday morning. Only the shift boss had his name and this official could not be seen last night. The man had been assigned to work of the ninth level, but for some reason unknown he went to the tenth level in the late afternoon and evidently became confused. He walked into the shaft at that point and fell to the fifteenth level.

**Wholesale Prices on Women's High Grade Fur Coats**

We announce a display and sale of women's fine furs and fur garments by a manufacturing furrier at our store on Nov. 17 and 18, Friday and Saturday this week.

We have made an arrangement with the factory to give our customers strictly wholesale prices on all garments and high grade fur sets on these two days and advise every woman who contemplates the purchase of furs to make her selection from this large stock on above dates.

Mr. Barth, a representative of the factory, will be in charge of the display and will be glad to give customers intelligent advice on all sorts of furs.

Our guarantee of absolute satisfaction is back of every garment offered.

It is the best chance of the year to do your choosing, because this display affords a larger selection than any store can afford to carry in stock.

## Ishpeming Theatre Tonight

Laugh From Beginning to End

# BUSY-IZZY

Curtain at 8:20

### CLOTHING for Young Men ON CREDIT

**YOU YOUNG MEN** feel that you have to economize in buying clothing, you want the lively style and smart effects in cut and weave, and you are apt to be a little careless about quality. There's a lot of cheap stuff that's flashy, but

**Gately's Clothes** are real economy; you get everything you want in style and fashion, color and weave; and at the same time you get the Gately Quality, which means the best there is.

Suits ..... \$10.50 to \$25.00  
Overcoats ..... 15.00 to 25.00

**We Trust You**

# Over-Worked Girls

### Read What This Girl Says:

Appleton, Wis.—“I take pleasure in writing you an account of my sickness. I told a friend of mine how I felt and she said I had female trouble and advised me to use Lydia E. Pinkham's Vegetable Compound, as she had taken it herself for the same trouble with wonderful results. I had been sick for two years and overworked myself, and had such bad feelings every month that I could hardly walk for pain. I was very nervous and easily tired out and could not sleep nights. I had dizzy spells, and pimples came on my face. But I have taken your Vegetable Compound and I am entirely cured. I think it is the best medicine in existence.”—Miss Cecilia M. Bauer, 1161 Lawrence St., Appleton, Wis.

**THIS GIRL SAYS IT IS WOMAN'S BEST FRIEND:**  
Chicago, Ill.—“Your Compound cured all my troubles and I am feeling strong and happy and able to work now. Wherever I go I shall praise Lydia E. Pinkham's Vegetable Compound, as I think it is woman's best friend. I have told all my friends the good it has done me.”—Miss Maggie Isbauer, 2418 So. Whipple Street, Chicago, Illinois.  
Lorimer, Iowa.—“I had a heavy cold in the spring and got all run down and was irregular. I had no strength and had bearing down pains in my sides and back, and was very nervous and excitable. I took Lydia E. Pinkham's Vegetable Compound, and I am all right again, and stronger than before.”—Miss L. E. Williams, Lorimer, Iowa.

Is it not reasonable to suppose that a medicine that did so much for these girls will benefit any other girl who is suffering with the same troubles?

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there is lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## Ishpeming

**“THE TRAVELING SALESMAN.”**  
Fotbes' Successful Comedy Will Be Opening at Ishpeming Theater.

“The Traveling Salesman,” said to be one of the most delightful comedies of recent years, will be the attraction at Ishpeming theater Monday evening, with Robert E. O'Connor in the title role. “The Traveling Salesman” has received the endorsement of the United Commercial Travelers of America, and the Travelers' Protective association, and in many cities where it is being produced the members of these organizations buy out the attraction.

It is the only play ever written that truthfully depicts that most interesting of all American characters, the modern commercial traveler. Written by its author for the sole purpose of entertaining all classes of playgoers, it more than makes good, as evidenced by the fact that it played for over nine months in New York and for twenty-one weeks in Chicago, to crowded houses.

### JUVENILE PUBLICATIONS.

New Books For Children Now On Shelves At The Carnegie Library.

The following juvenile books were recently received at the Carnegie public library and are now on the shelves.  
Baker—Fairmount Girls in School and Camp.  
Baum—The Sea Fairies.  
Beach—Ensign Ralph Osborn.

## ISHPEMING IN BRIEF.

B. H. Silverman, proprietor of the Fashion Suit company, came up from Escanaba yesterday.

Mrs. Leroy Christian will entertain the members of the Luncheon club Saturday afternoon at her home on North Main street.

Several of Miss Lucy Stark's girl friends tendered her a miscellaneous shower Tuesday evening at the home of the Misses Perrault on High street.

The officers of the Ishpeming aerie of the Fraternal Order of Eagles request a large attendance of members at tonight's meeting, as important business is to be considered.

The fire department was called out yesterday afternoon, about 4 o'clock, to extinguish a blaze in a barn east of a dwelling on East Cleveland avenue. The damage was trifling.

R. J. Andrews and wife celebrated the fifth anniversary of their marriage Saturday evening at their home on Iron street. A number of their friends were entertained in honor of the event.

There was almost a continuous snow-fall in Ishpeming yesterday and by evening the ground was covered with several inches of snow. Practically all of the business houses put their sleighs in use.

Charles Skiff, who a week ago purchased the Royal theatre, in the Voelker block, from the Royal Theatre company, will reopen the house Saturday. Mr. Skiff expected to be able to open it tonight, but the decorators have not yet finished their work. The interior has been redecorated and the machine booths have been reconstructed and they now meet the requirements of the state law. A stock room for films adjoins the machine room. The main entrance has been improved.

Send or call and get one of our Thanksgiving grocery lists, it will pay you big. J. SELLWOOD & Co. 11-15-21.

### RUEZ'S MARKET LETTER.

George F. Ruez, Ishpeming broker, yesterday said: The New York market was rather quiet today and closed fractionally lower throughout. The Boston market also showed a let up in activity, but prices are practically unchanged. North Butte is receiving some support around 22, while Live Oak continues to be picked up around 25. The Boston market is rather quiet, but the following on Live Oak: “Charles Hayden, of Hayden, Stone & Co., visited the Live Oak property Saturday. He says that 19,000,000 tons of ore have now been developed there, averaging 2.11 per cent. copper contents, of which 15,000,000 tons are in place. The Boston market is rather quiet, but the following on Live Oak: “Charles Hayden, of Hayden, Stone & Co., visited the Live Oak property Saturday. He says that 19,000,000 tons of ore have now been developed there, averaging 2.11 per cent. copper contents, of which 15,000,000 tons are in place. The Boston market is rather quiet, but the following on Live Oak: “Charles Hayden, of Hayden, Stone & Co., visited the Live Oak property Saturday. He says that 19,000,000 tons of ore have now been developed there, averaging 2.11 per cent. copper contents, of which 15,000,000 tons are in place. The Boston market is rather quiet, but the following on Live Oak: “Charles Hayden, of Hayden, Stone & Co., visited the Live Oak property Saturday. sound awakened them and they found the entire lower part of the house in flames. They escaped through a front window and over the porch. Mrs. S. and her two children were overcome by smoke and been ill since the fire. The house was destroyed.

**GRAND RAPIDS**—Mr. and Mrs. Henry Lantz, owners of a west side store, are in jail awaiting trial on a charge of obtaining goods under false pretenses from local merchants. After ordering a dozen of goods on the C. O. D. plan, they are alleged to have paid for them with checks on a bank from which they had drawn their account. Lantz and his wife had from pointing they claim.

**LANSING**—State Immigration Commissioner A. C. Carter has evolved a scheme which he believes will prove a boon to agricultural interests of the state and has been promised the cooperation of various granges to assist in putting his theory to practical advantage in Michigan. Mr. Carter says that the reason agriculture is on the decline in Michigan is the fact that the farmer is unable to secure help, and he proposed to induce the immigrants who land at the eastern ports to come to Michigan for employment. The national bureau of immigration stands ready to assist the Michigan commissioner, and if the plan is carried into effect it will not be many months before there will be a Michigan representative working in New York. He will be supplied with a list of the farmers in this state who want help, and it is thought that it will be an easy matter to induce many of the foreigners who are natural agriculturists to enter the employ of Michigan farmers. The local granges will cooperate with the state commission, in listing the number of men wanted and the wages that will be paid.

**PONTIAC**—In a statement Prosecutor Pelton announces that liquor complaints will be made against liquor dealers who sell to men who are known to be habitual drunkards and tipplers. The prosecutor points out recent instances of men released from prison celebrating their release by immediately getting drunk, and declares that the orders of Chief of Police Judd have been violated. Mr. Pelton says that hereafter the Cleveland plan of dealing with drunks will be tried. The first time a man is found drunk he will be taken

home. The second offense will mean arrest, and every saloonkeeper will be notified by letter not to sell to the man arrested. Should the same be arrested a third time, he will be dealt with severely and complaint also made against the man who sold him the liquor. Acting under this plan, William Choate, whose wife grabbed him off the platform of a street car as he was about to start for Detroit, was sentenced to 30 days and then immediately released upon signing the pledge not to take a drink for a year. Harry Moore, of Syracuse, N. Y., asked the court to sentence him to 100 days for being drunk. The court conceded ten days of the period

of his sentence. The value of a human life, the speaker said, is being considered from an economic rather than a sentimental standpoint, with the result that slums and unhealthy parts of the cities are being done away with.

"It is not due to pitiful tales of suffering and wrong that our cities are beginning to consider the possibility of wiping out the slum," said Mr. Ihlder. "It is due to the growing realization that the slum means an economic loss, that its presence indicates ignorance on the part of the citizens and inefficiency on the part of the government."

From an inquiry made amongst health and police officials of leading cities of the country, Mr. Ihlder drew the conclusion that in nearly all cities the full import of insanitary housing of the people is not known. In many places investigations are now being made to determine just what effect all the evils of crowding and slum living have on the people.

"Four miles from the workingman's district of Birmingham, Ala., is the model industrial town of Bourneville," said Mr. Ihlder. "Out of every 1,000 children born in the first 331 die; out of every 1,000 born in Bourneville, only sixty-eight die. Have we not passed the time when a few leaders shall monopolize the benefits of the knowledge that wholesome housing is a business asset?"

A HOUSEHOLD MEDICINE That stops coughs quickly and cures colds is Foley's Honey and Tar Compound. Mrs. Anna Felzer, 2320 Jefferson St., St. Omaha, Neb., says: "I can recommend Foley's Honey and Tar Compound as a sure cure for coughs and colds. It cured my daughter of a bad cold and my neighbor, Mrs. Benson, cured herself and her whole family with Foley's Honey and Tar Compound. Everyone in our neighborhood speaks highly of it." For sale by all dealers.

Wholesale Prices on Women's High Grade Fur Coats We announce a display and sale of women's fine furs and fur garments by a manufacturing furrier at our store on Nov. 17 and 18, Friday and Saturday this week.

We have made an arrangement with the factory to give our customers strictly wholesale prices on all garments and high grade fur sets on these two days and advise every woman who contemplates the purchase of furs to make her selection from this large stock on above dates.

Mr. Barth, a representative of the factory, will be in charge of the display and will be glad to give customers intelligent advice on all sorts of furs. Our guarantee of absolute satisfaction is back of every garment offered. It is the best chance of the year to do your choosing, because this display affords a larger selection than any store can afford to carry in stock.

The Paris Fashion Marquette, Mich. 11-14-11

## Negaunee Department

### SHOULD PAVE THE PRINCIPAL STREETS

Opinion Expressed that City Work Should Be Done Where Need is Greatest.

Considerable fault has been found by Negaunee men who are not given to fault finding with the policy that has been pursued here of expending considerable sums of money on comparatively unimportant streets, when the principal thoroughfares are in need of attention. One of their number, whose business requires a great deal of attention, both by horse and automobile, at all times of the year, expresses the opinion that the improvement of Iron and Main streets has been too long delayed. The matter of paving Iron street has been pending for nearly two years but no headway has been made as to choice of materials. This street is in abominable condition, and is one of the worst streets in the city. It is dusty in dry weather, and in wet weather it is a veritable mudslide. Main street is also in bad condition, but as it is a residence street, there is not so much traffic on it as on Iron street. Nevertheless, it is the main residence street, and outsiders driving cars into the city use it more than any other street. It is poorly graded, and is full of holes.

At a rather informal meeting of businessmen in a downtown drug store yesterday morning, the matter was discussed, and opinions as to the proper treatment of the city's streets were put forward. It was the general opinion that less time and money should be spent improving roads and streets seldom used, and that work on the two most important streets should be taken up. As an example, Peck street and Healy avenue were both paved with macadam last summer, and next spring work will be started on Merry street. These three streets have only a comparatively light traffic. They are scarcely used except by delivery rigs.

**TRAVEL IS HEAVY.** Agents Busy Supplying Transportation to European Ports. Travel returning to Europe is now heavy. During the past thirty days the Negaunee agents of the railroad and steamship companies estimate that there have been some two hundred people from this city alone who have purchased tickets to take them "back home." Scarcely a day passes but a party leaves. They are composed for the most part of foreigners who have lived here for a year or two and have been employed in the mines. There is a prevailing idea that this will be a hard winter, but it is safe to say that it is a false impression, and the underlying conditions are not as bad as is sometimes pictured.

Last night six persons left Negaunee. Mrs. Ellen Uren and her sons, Arthur and Leonard, left for Plymouth, England, by way of New York. They will sail on Nov. 18 on the American line steamer St. Paul. Nicholas Marinovich and Michelo Soeulich left for Austria, by way of New York and the Cunard line. Isaac Anderson left last night for Montreal, from where he will take a White Star line steamer for his home in Finland. The agents have long lists of persons who have applied for tickets with the intention of leaving in the near future. At this time of the year special rates and inducements offered by the transportation companies reduce the cost of travel.

A big cut, on all trimmed hats, from now on. MRS. A. M. ARLAND. 11-13-11.

**ROAD CAMPS STARTED.** Contractor Predeen, of Norway, is Preparing for Next Spring's Work. Work on the new county road, from Little Lake to the county line, near Helena, has been started, and camps are being built for the men who will be employed on the job in spring. At present the right-of-way is being cleared. The road will be only about seven miles long, but will open up a new high way between Marquette and Delta county. It will be built of trap macadam, the rock for its base being quarried from a bluff not far from the point where the work will start. The crushed rock to be used on the surface will probably be hauled from one of the nearest crushers. The road will be built absolutely straight.

A small crew of men who are fixing up the location for the stockpile at the new Negaunee mine shaft have been

employed by the contractor and will go on the job when they finish their present work by the end of the week.

**BEAR CUB RECEIVED.** A black bear cub was received yesterday at Cleveland park. It is about nine months old, and is tame, it having been raised by a man living at Unaway, near Cheboygan, Mich. The animal came by express, crated, and made a most unusual package for the messenger of handle, there being instructions as to how it should be fed and watered, three times a day. After its arrival in Ishpeming it was given a car ride and introduced to its mate, who has lived at the park for some months.

All the other animals in the newly started "zoo" are thriving. The cold weather appears to be agreeing with all of them, even though there is no provision made for their shelter. There are now two bears and three deer, and many small animals in the enclosure.

**LOCAL LAONICS.** today in Negaunee, attending to business. A son was born, Nov. 6, to Mr. and Mrs. Philon Surtala. J. E. Jackson, of Green Bay, transacted business in the city yesterday. Mrs. John Sederstrom, of Little Lake, is in the city, on a week's visit. May Sanders is visiting her sister, Mrs. William Argall, in Humboldt. Henry Boyer is on the list of jurors for the next term of circuit court. Errol Stensrud, of Superior, Wis., is in the city, visiting friends. Mr. and Mrs. Abel Levine and Mr. and Mrs. Phil Levine spent yesterday visiting in Champion and Republic. Shiley Northey and Henry Choquette arrived home Tuesday night from a short visit to Chicago. Cho Meilieu leaves tonight for Minneapolis, to be absent a few days on business. Mrs. C. Meilieu returned this morning from a trip to Chicago and Milwaukee. Caesar D. Marks, of Milwaukee, was a business visitor in Negaunee yesterday. W. A. Single, of Marquette, was a business visitor in the city yesterday. Joseph Mitchell, of Becon, spent yesterday. T. P. Kirkwood and Dr. Bergeron plan on going deer hunting in the vicinity of Cyr's swamp next Saturday. Clark Kirkpatrick, of Escanaba, came to Negaunee Tuesday afternoon, and remained in the city until yesterday morning. A. J. Anderson left Tuesday night for Detroit, where he has accepted a position in the Ford automobile factory for the winter. Louis Ross, of Detroit, representing the C. H. Ritter Liqueur company, is in the city visiting and calling upon his local customers. H. B. Lehman left last night for central Canada, where he has accepted a position, and will make his home in the future. The special meeting of the Northern Land & Iron company, which was to have been held in J. M. Edgerton's office Tuesday evening, has been indefinitely postponed. J. W. Elliott, who has the contract for painting the interior of the Negaunee National Bank building, is now at work in John Honka's barber shop, in the basement.

**Mining News** CALUMET & ARIZONA. The Calumet & Arizona company has abandoned the hoisting of ore from the Irish Mag shaft. The hoist is still at the shaft, and is in use to raise ore to the 1100 level and to lower the timbering, but ore is now shipped from the Oliver instead of from the Mag. For some time past most of the ore taken out of the Mag workings, practically all from the lower levels, was raised to the 1100 level, where there is underground connection with the workings of the Oliver, and though these workings brought to the surface through the Oliver shaft. Under these circumstances it was considered a wise move as a matter of economy to bring all the ore to the surface in that manner and to load the cars with the ore from the Mag as well as from the Oliver at the latter shaft's mouth for shipment to the smelter at Douglas. The change of method does not mean that the Mag has been abandoned. Exploration work is being done with a view of determining its probable life as a producer. At the same time production continues in the Mag workings, principally the lower ones, and how deep the ore goes down has not been determined here any more than it has in the other workings. The Mag is the oldest of the Calumet & Arizona shafts. It has been a great producer for the company, and it will continue to be.

**ARIZONA COMMERCIAL.** The success of the reorganization plan for the Arizona Commercial has pleased stockholders in a position to retain their interest in a property that has possibilities, even if the past has been a very severe disappointment and brought principally of two claims, the Copper Hill and the Black Hawk. The work originally was started on the Copper Hill end, but for some reason it was transferred to the Black Hawk, where results were satisfactory down to the 700-foot level. The lode when cut on that level looked well, but drifting soon proved that a fault had taken place and lower levels were reached. The showing on the 1200-foot level will probably tell the story of the Black Hawk lode and President Smith will no doubt be guided by it in determining whether or not to continue the work at that end of the property. The Copper Hill is generally regarded as a good prospect and it is understood that the workings in the United Globe have given some useful information as to what can be expected when the Copper Hill is opened up. The property is not a forlorn hope in the opinion of mining men familiar with it and, now

that the financing of the work has been arranged, there is a feeling that something good will come of it. Some time will elapse before the new company will acquire ownership of the property, but in the meanwhile the new management has been placed in possession of the management of the existing company.

**SAVED MANY FROM DEATH.** W. L. Mock, of Mock, Ark., believes he has saved many lives in his 25 years of experience in the drug business. "What I always like to do," he writes, "is to recommend Dr. King's New Discovery for weak, sore lungs, hard colds, hoarseness, obstinate coughs, la grippe, croup, asthma or other bronchial affection, for I feel sure that a number of my neighbors are alive and well today because they took my advice to use it. I honestly believe it is the best throat and lung medicine that's made." Easy to prove he's right. Get a trial bottle free or regular 50c or \$1.00 bottle. Guaranteed by The Stafford Drug Co.

## Should Pave the Principal Streets

Opinion Expressed that City Work Should Be Done Where Need is Greatest.

Considerable fault has been found by Negaunee men who are not given to fault finding with the policy that has been pursued here of expending considerable sums of money on comparatively unimportant streets, when the principal thoroughfares are in need of attention. One of their number, whose business requires a great deal of attention, both by horse and automobile, at all times of the year, expresses the opinion that the improvement of Iron and Main streets has been too long delayed. The matter of paving Iron street has been pending for nearly two years but no headway has been made as to choice of materials. This street is in abominable condition, and is one of the worst streets in the city. It is dusty in dry weather, and in wet weather it is a veritable mudslide. Main street is also in bad condition, but as it is a residence street, there is not so much traffic on it as on Iron street. Nevertheless, it is the main residence street, and outsiders driving cars into the city use it more than any other street. It is poorly graded, and is full of holes.

At a rather informal meeting of businessmen in a downtown drug store yesterday morning, the matter was discussed, and opinions as to the proper treatment of the city's streets were put forward. It was the general opinion that less time and money should be spent improving roads and streets seldom used, and that work on the two most important streets should be taken up. As an example, Peck street and Healy avenue were both paved with macadam last summer, and next spring work will be started on Merry street. These three streets have only a comparatively light traffic. They are scarcely used except by delivery rigs.

**TRAVEL IS HEAVY.** Agents Busy Supplying Transportation to European Ports. Travel returning to Europe is now heavy. During the past thirty days the Negaunee agents of the railroad and steamship companies estimate that there have been some two hundred people from this city alone who have purchased tickets to take them "back home." Scarcely a day passes but a party leaves. They are composed for the most part of foreigners who have lived here for a year or two and have been employed in the mines. There is a prevailing idea that this will be a hard winter, but it is safe to say that it is a false impression, and the underlying conditions are not as bad as is sometimes pictured.

Last night six persons left Negaunee. Mrs. Ellen Uren and her sons, Arthur and Leonard, left for Plymouth, England, by way of New York. They will sail on Nov. 18 on the American line steamer St. Paul. Nicholas Marinovich and Michelo Soeulich left for Austria, by way of New York and the Cunard line. Isaac Anderson left last night for Montreal, from where he will take a White Star line steamer for his home in Finland. The agents have long lists of persons who have applied for tickets with the intention of leaving in the near future. At this time of the year special rates and inducements offered by the transportation companies reduce the cost of travel.

A big cut, on all trimmed hats, from now on. MRS. A. M. ARLAND. 11-13-11.

**ROAD CAMPS STARTED.** Contractor Predeen, of Norway, is Preparing for Next Spring's Work. Work on the new county road, from Little Lake to the county line, near Helena, has been started, and camps are being built for the men who will be employed on the job in spring. At present the right-of-way is being cleared. The road will be only about seven miles long, but will open up a new high way between Marquette and Delta county. It will be built of trap macadam, the rock for its base being quarried from a bluff not far from the point where the work will start. The crushed rock to be used on the surface will probably be hauled from one of the nearest crushers. The road will be built absolutely straight.

A small crew of men who are fixing up the location for the stockpile at the new Negaunee mine shaft have been

employed by the contractor and will go on the job when they finish their present work by the end of the week.

**BEAR CUB RECEIVED.** A black bear cub was received yesterday at Cleveland park. It is about nine months old, and is tame, it having been raised by a man living at Unaway, near Cheboygan, Mich. The animal came by express, crated, and made a most unusual package for the messenger of handle, there being instructions as to how it should be fed and watered, three times a day. After its arrival in Ishpeming it was given a car ride and introduced to its mate, who has lived at the park for some months.

All the other animals in the newly started "zoo" are thriving. The cold weather appears to be agreeing with all of them, even though there is no provision made for their shelter. There are now two bears and three deer, and many small animals in the enclosure.

**LOCAL LAONICS.** today in Negaunee, attending to business. A son was born, Nov. 6, to Mr. and Mrs. Philon Surtala. J. E. Jackson, of Green Bay, transacted business in the city yesterday. Mrs. John Sederstrom, of Little Lake, is in the city, on a week's visit. May Sanders is visiting her sister, Mrs. William Argall, in Humboldt. Henry Boyer is on the list of jurors for the next term of circuit court. Errol Stensrud, of Superior, Wis., is in the city, visiting friends. Mr. and Mrs. Abel Levine and Mr. and Mrs. Phil Levine spent yesterday visiting in Champion and Republic. Shiley Northey and Henry Choquette arrived home Tuesday night from a short visit to Chicago. Cho Meilieu leaves tonight for Minneapolis, to be absent a few days on business. Mrs. C. Meilieu returned this morning from a trip to Chicago and Milwaukee. Caesar D. Marks, of Milwaukee, was a business visitor in Negaunee yesterday. W. A. Single, of Marquette, was a business visitor in the city yesterday. Joseph Mitchell, of Becon, spent yesterday. T. P. Kirkwood and Dr. Bergeron plan on going deer hunting in the vicinity of Cyr's swamp next Saturday. Clark Kirkpatrick, of Escanaba, came to Negaunee Tuesday afternoon, and remained in the city until yesterday morning. A. J. Anderson left Tuesday night for Detroit, where he has accepted a position in the Ford automobile factory for the winter. Louis Ross, of Detroit, representing the C. H. Ritter Liqueur company, is in the city visiting and calling upon his local customers. H. B. Lehman left last night for central Canada, where he has accepted a position, and will make his home in the future. The special meeting of the Northern Land & Iron company, which was to have been held in J. M. Edgerton's office Tuesday evening, has been indefinitely postponed. J. W. Elliott, who has the contract for painting the interior of the Negaunee National Bank building, is now at work in John Honka's barber shop, in the basement.

**Mining News** CALUMET & ARIZONA. The Calumet & Arizona company has abandoned the hoisting of ore from the Irish Mag shaft. The hoist is still at the shaft, and is in use to raise ore to the 1100 level and to lower the timbering, but ore is now shipped from the Oliver instead of from the Mag. For some time past most of the ore taken out of the Mag workings, practically all from the lower levels, was raised to the 1100 level, where there is underground connection with the workings of the Oliver, and though these workings brought to the surface through the Oliver shaft. Under these circumstances it was considered a wise move as a matter of economy to bring all the ore to the surface in that manner and to load the cars with the ore from the Mag as well as from the Oliver at the latter shaft's mouth for shipment to the smelter at Douglas. The change of method does not mean that the Mag has been abandoned. Exploration work is being done with a view of determining its probable life as a producer. At the same time production continues in the Mag workings, principally the lower ones, and how deep the ore goes down has not been determined here any more than it has in the other workings. The Mag is the oldest of the Calumet & Arizona shafts. It has been a great producer for the company, and it will continue to be.

**ARIZONA COMMERCIAL.** The success of the reorganization plan for the Arizona Commercial has pleased stockholders in a position to retain their interest in a property that has possibilities, even if the past has been a very severe disappointment and brought principally of two claims, the Copper Hill and the Black Hawk. The work originally was started on the Copper Hill end, but for some reason it was transferred to the Black Hawk, where results were satisfactory down to the 700-foot level. The lode when cut on that level looked well, but drifting soon proved that a fault had taken place and lower levels were reached. The showing on the 1200-foot level will probably tell the story of the Black Hawk lode and President Smith will no doubt be guided by it in determining whether or not to continue the work at that end of the property. The Copper Hill is generally regarded as a good prospect and it is understood that the workings in the United Globe have given some useful information as to what can be expected when the Copper Hill is opened up. The property is not a forlorn hope in the opinion of mining men familiar with it and, now

that the financing of the work has been arranged, there is a feeling that something good will come of it. # BIG FIELD FOR CHARITY WORK

### Poor of City Are Likely to Have a Hard Winter, According to the Visiting Nurse Association—Second-Hand Clothing is Most Needed at the Present Time.

### Closing Down of Summer Work Has Thrown Many Out of Employment, Who Have No "Rainy Day" Fund Stored Up to Tide Them Over Until Spring Comes.

Indications are that there will be more poverty and suffering in Marquette the coming winter than for several years, according to Miss Eklund, the visiting nurse employed by the Visiting Nurse Association. Though work has been plentiful during the past summer, the sudden closing down of operations at the L. S. & L. ore dock, the rock crushing plants and the laying off of many employed in other industries has left many without employment. Owing to the increased cost of living it has been hard for many of these laborers, particularly those who have large families, to lay aside anything for a "rainy day," the result being that many families have anything but a cheery outlook for the winter.

Even now requests for employment, for clothing and for food are pouring in on the Visiting Nurse Association in numbers far beyond the ability of the organization to provide for. In addition to those families who are likely to experience a hard winter by reason of the head of the household being unemployed, there are many families without a bread winner, except as the mother may go out by day's work and the little that may be brought in by the older children. In some of these families the husband is dead, while in others he is in dire straits because of the heartless husband having deserted those whom he had vowed to provide for and protect.

Winter clothing is more needed by the poor of Marquette than anything else, according to Miss Eklund. While the Visiting Nurse Association is originally organized to care for the indigent sick, its leaders have found sickness and poverty so closely allied that it has had to branch out into relief work. Children, especially, are in need of clothing at this time of year, and Miss Eklund states that many of the children are poorly clothed, including second hand shoes, can be used to excellent advantage.

### Old Things Will Do.

"Many people hesitate to turn over their discarded clothing to the Visiting Nurse Association because it is considerably worn," said Miss Eklund yesterday, "but if people only realized how gratefully those garments would be received in many homes, there would be no such feeling. There are many families in the city who are glad to take old clothing and mend the holes, provided it is given them, and who otherwise will suffer with the cold this winter. If the public only could be brought to realize the good that can be done with discarded clothing I am sure that all the garments we could use would be contributed."

"There are a good many children who are unable to go to school, because they do not have clothing, particularly shoes, and during the past month the association has given away 275 garments. We could use as many more if we had them. In this connection I wish you would state that I am in my office in the Harlow block from 1 until 2 o'clock every day, and at no other times. People who need clothing should call at the office at other hours, and then wonder why they can get no answer."

While clothing is most sorely needed by the poor of the city now, later in the year it is probable that food and fuel will also be required in large amounts than usual. Even though working steadily, it is said that the laboring classes have been able to earn little more than a hand to mouth living during the summer, and with the prospect of little work during the winter there is likely to be much suffering.

Allied to some extent with relief work the visiting nurse is serving as an employment agent. Requests frequently are made for her girls to do housework or for wash women, and many deserving girls looking for employment have been put in position to earn money through Miss Eklund's efforts. In some instances Miss Eklund has even been able to find work for men who had families dependent on them.

### October Monthly Report.

Following is the report of the visiting nurse and relief committee of the Visiting Nurse Association for the month of October:

- Number of patients visited, 33.
- Total number of visits made, 218.
- Prescriptions filled, 9.
- Doctors sent, 11.
- Garments given away, 275.
- Cases called, 99.
- Total disbursements for the month amounted to \$178.07, of which the relief committee expended for eggs and meat, \$3.08; groceries, \$2.11; clothing and bedding, \$12.62; shoes and rubbers, \$4.85; milk, \$9.09; drayage, \$3.75; labor, \$64.00; care of baby, \$7.

If in need of anything in Ready-To-Wear Apparel, we kindly ask you to come and inspect our lines before purchasing elsewhere as we have made special prices on all garments in our Suit Department, and on all Millinery goods. Come and compare our prices with others you have seen.

L. GETZ'S Department Store,  
220-222 S. Front Street,  
11-10-11 Marquette, Mich.

### HUNTER'S SPECIAL.

on the M. M. & S. E. Ry. to the Big Bay hunting country Leave Marquette at 6:30 a. m., on the following Sundays: Nov. 19th, 26th and 27th. Returning will leave Big Bay at 6:00 p. m. Fare for the round trip to Big Bay, \$1.00 to Birel, seventy-five cents. In addition to the above a train will also be run on the three Saturdays preceding the above dates leaving Marquette at 2:00 p. m. and returning from Big Bay at 6:15 p. m. 11-8-10d

## CITY TEAM ORGANIZED.

### Will Be Active Contestant for Basketball Honors.

A city basketball team has been tentatively organized that promises to be a strong contestant for the city championship the coming winter. It is composed of men who have played the game in other years, the membership being Gene Sullivan, "Petie" Jeanson, Reinhardt, H. Christianson, Hap Scholtus and Kenny Richardson. Claire Drake will act as manager. The players have already begun practice and they plan a stiff preparation for the season's campaign. Three games have already been booked, for Dec. 2, 9 and 16. One of the games will be with the K. of C. team, which won the upper peninsula championship last season, and another will be with the team representing the Gwin club. Other games are being negotiated for. The line-up of the new team is one that promises a formidable five, and its members hope to be a factor in the championship race.

## HERE RECRUITING FOR U. S. MARINE CORPS

### Sergeant Swinecki Explains the Function of This Branch of the Military.

Sergeant Theodore Swinecki, of the United States marines, has opened a recruiting office for the United States marine corps in the Hotel Brunswick. The United States marines are a branch of the military with which the general public is less familiar than with either the army or navy, but according to Sergeant Swinecki, they are no less important. In reply to a query as to the function of the United States marine corps and the duties of men enlisted in that service, Sergeant Swinecki said:

"When on Feb. 2, 1898, the battleship Maine in Havana harbor was lifted from the water by a terrific explosion, and a pandemonium reigned on board the wrecked ship, it was a man wearing a uniform differing from either that of a sailor or a soldier that worked his way through the mob to the cabin door of Captain Sigsbee and said:

"I have to report, sir, that the ship has been blown up and is sinking."

"Such was the report made amid the chaos of the explosion by Private Bill Anthony, of the United States marine corps. So it has been throughout the 137 years of history which belong to the marine corps. No matter what emergency has arisen, even when as sudden and unexpected as the destruction of the Maine, the presence of mind, courage and military training of the marines have been displayed in a manner that makes the record of that little body of fighting men a glorious one. Whenever the United States has been threatened or engaged in national or international trouble, the marines have been present and maintained with honor their motto—Semper Parati, meaning Ever Faithful.

"The United States marine corps was first called into existence by an act of the Continental congress of Nov. 10, 1775, and served with distinction throughout the Revolutionary war. It was disbanded at the close of the war, April 11, 1782, but was reorganized and permanently established July 11, 1798. The marines comprise the military branch of the military service, and serve both at sea and on shore at the navy yards and naval stations. Its members are the first on the ground in case of trouble with a foreign power, and the first men into battle in case of hostilities.

### Capable of Moving Quickly.

"Great mobility and facilities for quick action are required of the marines. They must be kept in readiness to move at a moment's notice and in many of the actions in which they have engaged they have had to contend with superior numbers. The battle of Guantanamo bay during the late war with Spain is a good instance of the great mobility with which the marines have to contend. A battalion of twenty-three officers and 623 men was landed on the shores of Guantanamo bay on June 10, 1898, and with but little food and no rest, engaged a very large Spanish force, which was concealed in the swamps and underbrush, thereabouts, for three days and nights, and finally succeeded in defeating and driving the enemy entirely out of the district.

"Their services in late years ashore and afloat against Spain; in China in 1900; in San Francisco during and after the earthquake and fire; in Chelsea, Mass., during the great fire there several years ago; their recent services in Panama and Nicaragua; and their active participation in the maneuvers that took place at the outbreak of the Mexican revolution, are fresh in the public mind. It is doubtful if our government will participate in the present Italian-Turkish war, but in case intervention is necessary, there is little doubt that Uncle Sam will send his "handy-men, dandy-men, soldiers and sailors, too,"—the marines—to protect the interests of this government. Since the outbreak of the Chinese revolution, a battalion of marines has been rushed to Peking from the Philippine Islands to reinforce the American legation guards and to protect American interests there. The marines have landed and have the situation well in hand; is a familiar phrase to the reading public, and bears adequate evidence of the wonderful mobility of the marines.

### Opportunity to Travel.

"Very rarely does one meet a man whose make-up does not include the desire for adventure, and to whom the possibility of travel, especially to foreign countries, does not appeal. No matter how fond one may be of home and its surroundings, the spirit of, and desire for, travel and adventure is deeply rooted in his nature. To travel by sea from port to port, from country to country, from ocean to ocean, amid ever changing scenery and climatic conditions, to see and study the habits and customs of the strange races of mankind, and, always, to be among the highest ambitions of the average man.

"By far the great majority of recruits sworn into the service are men who give up good positions and are at the time employed. Many of them want the experience of travel, others want the military training and nearly all express the desire that they be permitted to see active service before their enlistment expires. Our offices have been filled to

the overflowing with applicants for enlistment since the outbreak of the Chinese revolution by young fellows who want to fight. It is a well known fact that the marines are the first on the spot in case of trouble, and whenever trouble breaks out in any part of the world, we are kept busy examining young fellows who want to get into the fray."

## U. P. BREWING CO. IN NEW OFFICE

### Handsome Finished and Furnished New Building Has Just Been Occupied.

The Upper Peninsula Brewing company has just occupied a handsome brickstone office building that has been in course of erection for the past few months. It is located a short distance east of the old office structure, at the turn from the road into the plant, and its ground dimensions are 50x24 feet. In its exterior appearance it harmonizes with the other buildings of the company's plant, the same Marquette sandstone being used in all of them, and the top of the walls having eubattlements.

The first floor of the structure is given over to the business force of the company. It is floored throughout with tile. Mr. Meeske's office is provided with a handsome fireplace and the ceiling is beamed in golden oak. The decoration of the walls and ceiling are shades of buff, and the effect is harmonious and restful. The first floor has been provided throughout with new furniture in golden oak. The bookkeeper's office is finished in light blue, with a cream ceiling, and an assistant's room is decorated in a sea green shade, with light yellow for the ceiling and border.

In the second story there are two roomy bedrooms, used by members of the office force, which open on a sitting room, and there is also a storage room for stationery and supplies. The building is supplied with toilet and bath rooms and is fitted up in every detail for the comfort and convenience of the men who will use it. It is one of the handsomest and best appointed office structures to be found in the upper peninsula, and one in which Mr. Meeske takes justifiable pride.

The old office building will be removed to the residence location, and will be remodeled for use as a dwelling.

## ARE CHAMPION DODGERS.

### Menominee Sidestepped Game With Escanaba St. Joseph's Team.

There may be some doubts about Menominee's title to the high school football championship of the upper peninsula, but the title of being the champion dodgers in the north country will have to be conceded to them. After sidestepping an encounter with the Newberry team, one of the strongest high school eleven that has ever been developed in this part of the state, the Menominee management, according to the Escanaba Press, also ducked out of a game that had been booked with the St. Joseph's team of that city, which was to have been played the coming Saturday. All arrangements for the game had been completed, the Press says, and the St. Joseph players were working overtime in preparation for the clash, when word came that Menominee had decided to cancel the game.

The action of the Menominee team is all the more difficult to understand in the light of the fact that the St. Joseph eleven held Menominee to a 0 to 0 tie after the Menominee team had defeated the Escanaba high school eleven 34 to 0. St. Joseph had every confidence that it would be able to defeat Menominee in the coming game. The team has been coached by Scanlon the Notre Dame man who pitched for the Escanaba baseball team last season, and other old football players, and is said to be a well schooled eleven. It is the fastest team that has ever been turned out of a parochial school in the upper peninsula. The action of the Menominee management in ducking the St. Joseph's game after also refusing to meet Newberry will result in little recognition being given to its claim to the upper peninsula championship.

## TRAVELING MEN'S SAMPLE BLANKETS.

We wish to announce we are making a reduction of one-quarter off on sample blankets we have just received. L. Getz, 220-222 S. Front St., Marquette, Mich. 11-4-11

## A Really Good Cough Remedy

As a general family cough cure we know of none better than Tar, Honey, Horhound and Wild Cherry.

It is a pleasant, harmless remedy that can be used with best results by either adults or children. It relieves and cures promptly. It won't cure every cough—no remedy will—but it comes as near to being a certain cure as any we know of.

We always guarantee it and will cheerfully refund the money if it fails.

Price, 25c and 50c.

### DESJARDINS' PHARMACY

417 NORTH THIRD ST

## ON MONTHLY PAYMENTS

## To Old and Middle Aged Men

Do you have to get up several times a night? Do you have pain in the back? Do you have prostate trouble? Do you have kidney and bladder trouble? Do you tire easily? Do you see spots before the eyes? Is your mind incompetent? Are you going to neglect those conditions until it is too late? You have a good idea of what the matter is now. I do not have to name the trouble here. What should interest you is this: That the above conditions in the vast majority of cases are positively curable.
