STATE EMERGENCY WELFARE

RELIEF COMMISSION

Lansing, Mich., Oct. 1, 1935

To Members of Board of Supervisors:
Attention: County Clerk.

Official information from the Federal Emergency Relief Administration advises us that no grants for direct relief purposes will be made available to the State of Michigan after employable persons have been transferred to WPA projects. The State and local subdivisions will have the responsibility of providing necessary relief for those dependents who are not employed by the WPA because they are unemployable or for some other reason.

By Act of the 1935 Legislature, the State Relief Commission was given an appropriation of \$9,000,000 a year for a two-year period ending July 1, 1937. This appropriation for the current year has been reduced 5 per cent, making the appropriation from the State \$8,550,000. County and city governments have heretofore been providing approximately \$250,000 to \$300,000 per month, or about \$3,000,000 per year for emergency relief. Some of this has been in the form of work relief from road funds which probably will not be available hereafter, due to the WPA program on roads.

The State Relief Commission estimates that approximately 42,000 families now on the relief rolls will not be transferred to WPA and will continue to be the responsibility of the State and local governments. It estimates further that the total cost for meeting the necessities for this large group of families will approximate \$14,000,000 per year. These amounts are minimum estimates for they do not include new cases which may be applying for relief after this date. Nor does it include those employable cases who may not be absorbed on the WPA program.

County Boards of Supervisors now or soon to be in session are in the process of making up their budgets for the coming year. It is of the utmost importance that the County Boards of Supervisors carefully study the situation outlined above.

The State Emergency Relief Commission is cognizant of the financial conditions which face many counties. But the Commission is obliged to call to the attention of the County and other local authorities that its own appropriation is fixed by legislative act, as indicated above, and that if the needs of the destitute on relief are to be met, local funds will have to be provided to supplement the state appropriation.

The State Relief Commission will make drastic cuts in its personnel as soon as employable cases are transferred to the WPA. The cost of administration of the State Relief Administration during the past two years has been slightly over 8 per cent. Efforts to reduce this further are constantly being made. In order to make possible the best cooperative relationship between local subdivisions and the State Relief Administration, the Commission is anxious to consult with the Board of Supervisors concerning the details of the Relief Administration in each county. It is hoped that the Board will appoint a committee from its members for the purpose of consulting with County Relief Commission and the State Relief Administration.

On the basis of past estimates now available, state funds will provide for not more than 55 to 65 per cent of the cost of relief for the next calendar year. The balance will obviously have to be provided from local sources.

The Commission is also hopeful that in counties where the County unit plan is not in operation the Board will, for purposes of considering appropriations for emergency relief, represent all of the townships in its relationships with the County Relief Commission.

We are directing the County Relief Commission and the County Relief Administration to make available information concerning the relief load, the administrative expense and any other pertinent data to the County Boards of Supervisors or to their representatives at the request of the Board.

Sincerely yours,

Charles H. Bender, Chairman.

The following communication and request was read, and it was moved by Supervisor Wiseman that the request be granted, supported by Supervisor Healy and carried by the following Yea and Nay vote:

STATE OF MICHIGAN
DEPARTMENT OF CONSERVATION

Marquette, Mich., Sept. 18, 1935.

Mr. H. E. Perkins, Chairman, Marquette
County Board of Supervisors,
Big Bay, Michigan.

Dear Sir:--The fire season will very likely come to a close in the Upper Peninsula on or about October 1st. At that time we will be faced with the necessity of releasing practically all of our fire personnel.

For some time, but particularly this year, we have felt the necessity of having a man work almost continuously on land trespass and delinquent tax work in Marquette county. As you perhaps know, Mr. Frank Krieg has been doing this work in conjunction with his other duties and we feel that he is well qualified to pursue this activity. I have recently talked the matter over with the authorities in Lansing in connection with keeping Mr. Krieg on the payroll to take care of this work during the winter months.

It was finally decided that the Department would pay half of Mr. Krieg's salary and all of his expenses providing the county would pay the other half of his salary for a period of not to exceed seven months, or until May 1st, when he can again be taken up on the fire payroll. This would involve the county to the amount of about \$350.00.

The benefit to be derived by the county would be the collection of delinquent taxes especially on trespass cases and the general acceleration of tax payments into the county treasurer's office.

Trusting that your honorable body may approve this matter, I am

Yours very truly,

W. A. Bergin,
Deputy Field Administrator.

It was moved by Supervisor Stakel that Mr. Krieg make monthly reports to the County Treasurer, supported by Supervisor Nicholas and unanimously carried.

BOARD OF COUNTY ROAD COMMISSIONERS.

Ishpeming, Mich., Oct. 2, 1935.

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:-- In the matter of two petitions referred by your Board to the Committee on County Roads and Bridges and the Board of County Road Commissioners.

Your Committee and Board met in joint session on September 30th, 1935 and viewed the sites involved in both petitions.

In the matter of petition of Peter LaChapelle and others relative to plowing County Road BF.

We recommend that this be held for consideration at the time the snow plowing schedule for the winter is determined.

In the matter of petition of Otto Maienknecht and others for construction of a road between Sections 11 and 12, Town 45, North, Range 23 W, which is an extension of one mile on the south end of County Road OJ.

Your Committee reports that this is a desirable and necessary improvement and that the Board of County Road Commissioners have included this improvement in the project for which they have made application to the Works Progress Administration and that it is expected to build this piece of road if this application is approved. If the application is not approved it will necessarily have to wait until other financial arrangements can be made.

We recommend concurrence in the report.

Board of County Road Commissioners

Ishpeming, Mich., Sept. 23, 1935.

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:--Relative to the communication from the Board of County Park Trustees concerning improvements to the County airport referred by your body to the Road Commission and the Committee on Parks and Legislation.

On September 13th your Park Committee and the Board of County Road Commissioners met in joint session with Mr. Steers, Assistant Director of the State Aeronautical Department and considered this matter at length.

It was pointed out that the State Aeronautical Department was very anxious to have an airport with adequate facilities in Marquette County in the central part of the Upper Peninsula. That Marquette County already has adequate ground facilities provided for this port, and that there was needed a hangar, place of residence for the custodian, and service buildings, and that certain of the ground markers should be built of permanent construction, and additional parking areas provided, and certain cleaning up work was desirable in the areas adjacent to the runways.

The Superintendent pointed out that on the last of August, when notice was received that there would be a closing of receipt of applications for the Works Progress Administration projects on the 1st of September, he was summoned to the Works Progress Administration for the Emergency Relief Administration of the County, and that on that visit he made tentative application so as to retain the ability to have projects for the above purposes. That in the tentative setup as made, it was contemplated that the buildings would provide for \$87,393.00 worth of work, of which \$84,923.00 would be at Federal expense, and \$2,470.00 would be contributions by the County, and included in this \$2,470.00 is the value for use of County owned equipment, and that the tentative application for ground work contemplated \$7,883.00 of work, of which \$7,283.00 would be at Federal expense, and \$600.00 would be contributions by the County.

The hangar contemplated for the airport would be 100 x 100 ft. floor area and would accommodate the largest ships now generally used in the mid West. It was pointed out by Mr. Steers that extension of commercial air service is now under contemplation by one of the large airway operators to Green Bay, and that further extension of this line would be probable if suitable facilities were available.

It was also pointed out that the Board could expect to receive return of a considerable part of its annual cost from customary charges for service, and that as this air service developed it could be anticipated that an adequate port would be self supporting as the use grew and that no amount of use could be anticipated until a hangar and fueling services were provided.

After thorough discussion your Committee and the Board of County Park Trustees recommend that the Board of County Park Trustees be authorized to institute application for a Works Progress Administration project in conformity with tentative application already submitted.

✓ The following report was read, and on motion of Supervisor Labold, supported by Supervisor Price, the report was unanimously adopted.

Ishpeming, Mich., Oct. 1, 1935.

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:-- Your Agriculture Committee, to whom was referred the matter of cattle and other animals running at large on the highways, met with the Superintendent of the Board of County Road Commissioners on September 26th, 1935.

These appear to be the conditions:

That particularly cattle, and at times horses, and other animals, are roaming at large on the highways in parts of Marquette County; that this having of unrestrained animals on the highways creates a menace to the safety of all motorists and other drivers on the highways, and also creates a very bad impression in the minds of tourists and other travelers in the County.

We recommend that the Board of Supervisors of Marquette County do all possible to end this matter of cattle and other animals running at large on the highways, and at the earliest possible date.

Contact was had with the Prosecuting Attorney's office and copy of the Prosecuting Attorney's opinion is attached.

Pursuant to this, and after careful consideration, it would appear that the following things should be undertaken forthwith by the Board of Supervisors.

First: That the Board of Supervisors pass the necessary resolution making the statute contained under Compiler's Section 9037 to 9042 inclusive, effective in Marquette County. This would enable the Park Board to keep cattle out of the Parks, and in some instances effect certain abatement of the difficulty. We recommend this be done forthwith.

We would also recommend that the County Clerk be instructed to write each Township in Marquette County stating to each Township that the Board of Supervisors consider the running of cattle and other animals at large on the highways to be a menace to public safety, and recommending to each Township that the matter of cattle and other animals running at large on the highways be taken up at the next meeting of the people in each of the various Townships, and that the Board of Supervisors recommend to the people of the various Townships that they enact an ordinance as under Compiler's Section 959 to 961 inclusive, which would prohibit the running at large of cattle and other animals in the respective Townships.

It would also appear that the Prosecuting Attorney's suggestion, that re-writing of the statutes in regard to this matter, is probably a prerequisite to complete and effective control and that a start should be made to that end.

We further recommend that the County Clerk be instructed to send copies of this communication to every County in the State, with a request that they join with Marquette County in a request to the Legislature for suitable legislation prohibiting cattle and other animals from running at large on the highways.

It further appears that this is not entirely a one-sided question, and that there are in this County a number of persons who are largely depending on their cattle for their subsistence, and who have in the past been able to secure the grazing of their cattle on lands owned by the corporations, and other commons, and to deprive them of this food supply for their cattle would work a hardship and in some instances materially increase the cost to the County for the sustenance of County wards included in this group.

We recommend that the Committee be empowered to try to arrange for pasturage with the various corporations at such points as would provide pasturage for the various communities, and to enclose same so that the various individuals could arrange to drive their stock to these enclosures.

We recommend concurrence in each of the above specific recommendations.

Agriculture Committee,

Joseph F. Labold
Matt Mackey
John Weiland

↓ In addition to the above, the following resolution was read, which was

October 14, 1935

prepared by the Prosecuting Attorney:

"RESOLVED AND ORDERED:
That Act Number 185 of Public Acts of 1867, being Compiler's Sections 9037 and 9044, both inclusive, of the Compiled Laws of 1929, and being an act to prevent animals from running at large in the public highways, shall be henceforward in full force, operation, application, and effect in this County of Marquette, State of Michigan. Effective at once.
Dated: October 14, 1935."

and it was moved by Supervisor Van Riper that as this was a matter that should be given careful consideration, a copy of this resolution be forwarded to each Supervisor by the Clerk and that this matter be left open until the next meeting of this Board. Motion was seconded by Supervisor Anderson, and after general discussion the motion was unanimously carried.

✓ The following report of the Special Committee on Zoning was read, and upon motion of Supervisor Labold, supported by Supervisor Dobson, unanimously adopted.

Ishpeming, Mich., Oct. 7, 1935.

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:--Your Special Committee to whom was referred communication from the Board of County Road Commissioners with reference to County Planning of Land use, sometimes spoken of as zoning, report;

That meeting of the Committee was held on October 3rd, 1935; that the meeting was attended by the full Committee and also by the Chairman of the Board of Supervisors, Mr. Voelker, Prosecuting Attorney and Mr. Sawyer, County Road Engineer.

A thorough discussion was had of the matter, which is of very vital importance to Marquette County.

Mr. Voelker read the statute in the matter and it appears that the matter should be handled by the Committee created as is provided for in Act 44 of Public Acts 1935, and that this Committee must be composed of the Chairman of the Board of Supervisors who will be Chairman of the "COUNTY PLANNING COMMITTEE" and that the Committee should also include from two to six additional members of the Board, appointed by the Board of Supervisor.

We recommend that the Board of Supervisors appoint a "COUNTY PLANNING COMMITTEE," composed of the Chairman of the Board, and six members to be appointed by the Board of Supervisors.

We further recommend that the Committee be instructed to proceed with the investigations and other pertinent matters needed for proper consideration of this matter by the Board as is provided by said statute.

Yours truly,

SPECIAL COMMITTEE,

Joseph F. Labold
Lester Healy
P. R. Perring
John Weiland
W. J. Wiseman.

Marquette, Mich., Nov. 13, 1935.

To the Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:--The Jones Bankhead Act, which passed the last session of Congress, made large enough additional appropriations to agricultural extension work to permit the Extension Division of Michigan State College to take over the salaries of county agricultural agents on a basis according to years of service and as to grade each may be given. This does not mean that counties cannot contribute to salary within the county if the Board desires to do so, and it is hoped this county will desire to do so. The counties continue to pay all expenses of the agent the same as before, that is, pay travel and office expenses.

The Act of Congress also permits the State to be divided into small districts with district 4-H Club agents and home demonstration agents to be placed in each district with salary and all expenses paid except each county within the district must furnish office, office supplies and office help for the work done within the county. Marquette County is a district with Alger and Schoolcraft Counties.

November 13, 1935

I cannot say how soon this district can get a club or home demonstration agent as there are not enough qualified in this profession to take all the openings now offered. It is well, however, to be ready when the College has the right persons ready for the positions.

The new arrangements mean that the county can have full time services of county agricultural agent, one-third time or more of a 4-H Club agent and a home demonstration agent by paying entire expenses of county agricultural agent and only office expenses of the other two.

The appropriation made at the annual meeting last month was \$1,000. This is about the average travel and office expenses of the agricultural agent, not including the stenographer. The last three years I have been personally paying my office help \$25.00 per month and the county \$40.00. Under the new arrangement I cannot continue making this payment. The county can now have the services heretofore rendered plus the part time services of a home demonstration agent and 4-H Club agent at the same or less cost than ever before for just the one. It is necessary that an additional amount be added to last month's appropriation so that the entire office help can be paid by the county. The present salary paid by county and agent jointly is for about two-thirds time. I suggest that \$1,000 be taken from the general fund and added to the \$1,000 already appropriated and the stenographer be put on full time with same salary as other county stenographers, the change in salary arrangement to begin November 1, 1935.

Respectfully submitted,
L. R. Walker,
County Agricultural Agent.

✓ A communication from Wm. J. Fountain, Acting Administrator of the Marquette County Emergency Welfare Relief Commission, requesting an outline of the detailed action of the Board of Supervisors of Marquette County regarding local appropriations, was read, and it was moved by Supervisor Nicholas that this matter be laid on the table until after the reading of the Budget and Executive Committee's report. Seconded by Supervisor Dolf and carried.

✓ The following communication was read, and it was moved by Supervisor Stakel that this communication be laid on the table until the report of the Budget and Executive Committee had been presented. Supported by Supervisor Wiseman and carried.

STATE ASSOCIATION OF
THE SUPERINTENDENTS OF POOR

October 14, 1935.

To the Honorable the members of the Board of Supervisors.

Gentlemen:-- By Act No. 201 of the Public Acts of 1933 the State Legislature created the State Emergency Welfare Relief Commission for the purpose of administering the emergency funds made available for relief by the Federal Government, together with additional emergency funds provided by the State and local communities. That act was distinctly and definitely an emergency measure and designed to meet certain requirements laid down by the Federal Relief Administration in order to make available in the State Federal Funds for relief. Now all indications point to an early termination by the Federal Government of providing further funds for direct relief; that the Federal Government will limit its aid only to those employables who can be aided by employment through the Works Progress Administration or so-called W.P.A. projects.

In speaking of the change to be made by the Federal Government in relation to its aid for relief, we quote from a speech made by Dr. William Haber, State Emergency Relief Administrator, to the Board of Supervisors of Genesee County, on September 26th, 1935 as follows:

"Now, apparently, the program has changed, and in its change it presents problems to all of us, which we ought to both as public officials, as well as citizens, examine thoroughly as to what it means to us. The change arises from this fact: That beginning as of a certain time, the Federal Government says its obligation is going to be limited to those cases which are employable, and that they are going to provide funds to the State of Michigan, through its own organization, through the Works Progress Administration, of which Mr. Pearson is the State Administrator, to meet payrolls for those relief cases who are employable and working on so-called W.P.A. projects. That its obligation will cease with that, and that all other cases, unemployable or border line cases, or employables which they themselves are not able to absorb, will become the obligation of the State and local groups. That's been told to us not by implication or indirectly, but definitely and precisely, that the function of the Federal government, insofar as relief is concerned, will be definitely limited to providing funds to meet payrolls, to meet projects; that it will cease to provide funds to meet the cases of direct relief either for those who are unemployable, or for those who are employable and if for one reason or another are not absorbed on W.P.A. projects. That's the basic problem involved in the picture. In brief, we will not be able to call on the F.E.R.A. month after month and say--'We need so much,--such and such an amount is provided by the States and the municipalities, and the counties and townships, the balance you give us,--because they will not meet the balance. So we are examining this problem very candidly to see just exactly what the situation is."

November 13, 1935

It is clear then that as far as the Federal Government is concerned, by its change in policy on direct relief, it considers the emergency no longer exists and is shifting to the State and Local units the entire burden of direct relief.

It is apparent that the Emergency Welfare Relief Commission is attempting to obtain from the various boards of Supervisors appropriations to carry on the relief work of its organization. With Federal Funds gone it wants the Supervisors to appropriate money for it to help keep its machine in operation at taxpayers expense.

A comparison of costs of administration reveals that it is far more expensive for relief to be administered by the Emergency Relief Commission than by the local Superintendents of Poor. In the year 1932 it cost Saginaw County 4 3/4% to administer all relief, in 1933 the cost was 4%. In January, 1935 administration costs in Saginaw County of the Emergency Relief Commission was 6.4%. In May the cost jumped to 9.6%, while in September it reached 11.3%. In Genesee County in 19 months from November 1, 1933 to June 30, 1935 the total cost for administrative and other services was the huge sum of \$430,223.13 or \$21,511.16 per month, or a total cost of 12.9%.

It has been reported that administrative cost of the State Emergency Welfare Commission is now the staggering figure of over \$400,000 per month for the State and that it has been as high as the unbelievable total of \$750,000 per month. Can the taxpayer continue to carry this burden of administrative expense when they already have a department of local government to do the job, namely, the Superintendents of Poor?

Another fact to be considered is that these huge administrative expenses are incurred by the Emergency Welfare Relief Commission while handling only a part of the relief burden. They do not take care of hospitalization cases or ambulance cases; while they Superintendents of the Poor, with much lower administrative costs took care of all types of relief before the creation of the Emergency Relief Commission.

An outstanding example of the extreme generosity of the Emergency Welfare Commission with taxpayers money is found in the case of Lapeer County. On November 15, 1934, the Emergency Relief Commission dumped in the laps of the Superintendents of Poor of Lapeer County its entire relief load of 900 families. In approximately two weeks the Superintendents of the Poor had cut 600 families who had been receiving aid from taxpayers money, from that same relief load, and on December 3, 1934 when the Emergency Welfare Commission again took over relief, the Superintendents of Poor had reduced the load by two-thirds, and every family that really needed relief had been cared for by the Superintendents of Poor. That is eloquent evidence of the immediate need for termination of the extravagant spending by the Emergency Welfare Relief Commission.

Why should the Board of Supervisors appropriate funds to be expended by the State Emergency Welfare Relief Commission, over which it has no control. The Emergency Relief Commission is not responsible to the Board of Supervisors nor is it by law required to report to the Board of Supervisors.

Section 15 of Act No. 201 of the Public Acts of Michigan provides as follows:

"Nothing contained in this act shall be construed so as to take from county poor commissions their rights and duties as defined by act one hundred forty-six, public acts of nineteen hundred twenty-five, except as this act pertains to emergency relief."

By that section it was intended to leave in the hands of the Superintendents of the Poor the duty to administer all but emergency relief appropriations. If the counties now have to assume the burden of relief except for the aid given by the State, the Board of Supervisors should return to the Superintendents of Poor the duty of expending local funds for local relief purposes.

No reason exists for appropriating local funds for the expensive, extravagant State Welfare Relief Commission, when Superintendents of the Poor are designated to administer relief by Act 146 of Public Acts of 1925. No reason exists why the taxpayer should be required to maintain two organizations to do one job. No reason exists why local boards of Supervisors should relinquish their control and supervision over local expenditures for relief by turning over local tax money to the State Emergency Welfare Commission.

Before any appropriation is made for relief, we trust this matter will be given serious consideration by your Honorable Body.

Respectfully submitted.

MINUTES OF A MEETING

Held in the Marquette County Court House on Friday Afternoon, October 25th, 1935.

The meeting was called to order at 1:45 o'clock by Dr. Van Riper, Chairman of the Marquette County Executive and Budget Committee:

November 13, 1935

The following were present:

Mr. Arthur Jacques, Mayor of Marquette, representing the Chairmanship of the Marquette County Emergency Relief Commission; Mr. William Fountain, Administrator of the Marquette County Emergency Relief Commission, and his assistant Mr. Johnson; Mr. Walter Barry, of Stambaugh, the Upper Peninsula representative of the State Emergency Relief Commission; Mr. Clarence Smazel, representative of the State Emergency Relief Department; Mr. G. R. Jackson, Chairman of the Marquette County Poor Commission; and the entire Budget and Executive Committee of the Board of Supervisors.

After Dr. Van Riper had called the meeting to order, Mr. Smazel was asked to speak, and he dwelt at great length on what the State Emergency Relief Commission would be compelled to do after November 1st, and made a plea that Marquette County should contribute substantially towards taking care of the unemployables. Mr. Smazel remarked that it would take \$15,000,000 to take care of the unemployables in the State of Michigan, of which \$9,000,000 was to be contributed by the State, and the other \$6,000,000 would have to come from the counties, cities, townships, villages and other sources. As all the State Departments have been cut 5%, only \$8,550,000 was available as the State's share to take care of the unemployables. It was assumed that after November 1st in Marquette County there would be approximately 525 people that could not be employed on any of the WPA projects due to physical infirmities, old age, etc., and it was assumed that the State would be willing to put up \$105,000 if the county would put up \$74,000. It was further brought out that there were 189 people in the County that were eligible for Old Age pensions, but that only 19 thus far had been recommended. It was further stated that although the County was taking care of 129 widows by appropriations under the Dependent Children's Fund, that there were 69 more who were eligible to receive this aid.

After Mr. Smazel had finished the introductory remarks, the Chairman of the Finance and Taxation Committee was asked to say a few words. The latter then presented to the group a tabulation which showed that in the fiscal year just passed, that Marquette County had actually contributed for welfare and relief work, 48.85 cents for every 100 cents contributed by the Federal and State governments. He further pointed out that back in 1932, that our County Road Commission had accumulated a fund of approximately \$225,000, practically all of which was spent taking care of the relief load prior to the time that anything was done by the State and Federal governments. In the latter part of 1932 it was pointed out that the electors of Marquette County approved of a \$400,000 bond issue, the proceeds of which were to be used in taking care of the unemployed. The speaker pointed out that in 1932, for instance, the total welfare load carried by Marquette County, without any help from the Federal and State governments, amounted to approximately \$470,000. In 1933, Marquette County contributed \$318,000, while the Federal and State governments contributed only \$11,000.00. For the County Fiscal Year of 1934-35, this county and its political sub-divisions spent approximately \$502,000, while the Federal and State governments spent \$1,026,000. The representatives of the State Emergency Relief Commission were told that Marquette County had always done its share, and would continue to do so, provided, however, that our county received credit for the money spent actually for welfare and relief work.

The Chairman of the County Finance and Taxation Committee admitted, because the figures are available for public inspection, that Marquette County was financially able to meet any reasonable demand of the State Emergency Relief Commission, but that we did not feel that because of our strong financial cash position, that we ought to be penalized in favor of the counties that had no resources and that had not used as much care as they may have in the past in the running of the affairs of their counties. The plea was then made to the representatives of the State Emergency Relief Commission that they give Marquette County credit for certain functions that we have been and are still performing to help out on the relief problem, such as the continuance of our so-called Widows' Pensions, the Poor Commission's Wood Project, the monies spent for Dependent Children, Visiting Nurse, etc. Mr. Smazel replied that the county would receive full credit for all of the wood hauled in order to help the unemployed, and also to help those working on WPA projects, but, no mention was made of the possibility of receiving any credit for other Public Funds for welfare and relief work, except that Mr. Smazel indicated that the County ought to receive credit for home medical care paid for by the County Poor Commission.

A joint discussion then ensued as to the merits of the Emergency Relief Commission's method of acquiring information through the case-work supervisors, as compared with the old methods adopted by the Marquette County Poor Commission. Mr. Smazel rather condemned the old system, even intimating that Marquette County, despite its small administrative expenses for the Poor Commission, compared with the large amount spent for overhead by the County Emergency Relief Commission, that the County Poor Commission was paying too much money to its personnel. Mr. Arthur Jacques then replied, defending the personnel of the Poor Commission and its representatives, and further commended the Board of Supervisors and all of the other agencies in the County for co-operating so well with the County Emergency Relief Commission.

November 13, 1935

Mr. Nightingale then asked Mr. Walter Barry if there was any rule that would prevent any case worker from contacting a supervisor and he replied on the contrary, and that the case workers were supposed to get in touch with the supervisors when making investigations in any particular ward or township.

Captain T. J. Nicholas then arose and thanked Mr. Smazel for the information that had been furnished the group attending the meeting, referring particularly to the explanation regarding our County Poor Commission set-up.

A recess was taken for a short period, and when the group reconvened, a resolution was offered by Mr. Perkins and supported by Captain Nicholas, that the Marquette County Board of Supervisors cooperate with the State Emergency Relief Commission to the fullest extent. This resolution was passed unanimously. Captain Nicholas then offered a vote of thanks to Mr. Smazel. This action was seconded by Matt Richards, and was carried unanimously.

The representatives of the Emergency Relief Commission then left, and the Executive Committee then agreed amongst themselves that we would recommend to the Board of Supervisors that no definite appropriation be voted by the Board until the Poor Fund was actually exhausted. There was approximately about \$60,000 on hand in the Poor Fund on September 1st, to which must be added the \$85,000 appropriated this year. Then, if credit is given the Poor Fund for the Wood Project and also for the cost of Home Medical care, considerable of the \$74,000 asked for by the Emergency Relief Commission will all be taken care of.

Your Committee would therefore recommend that no further appropriation be made until the present Poor Fund is exhausted, and then only appropriate enough money month by month to take care of the different matters as they arise, assuming, however, that due credit be allowed this and other counties still continuing to make appropriations for welfare and relief, when these items have been omitted from the budgets of other counties in the State; taking for example, appropriations for Widows' Pensions and Aid for Dependent Children.

We further recommend that the Board of Supervisors at all times continue to cooperate in the future as we have in the past with all Federal and State Agencies and Commissions on matters of welfare and relief.

Ishpeming, Mich., Dec. 16, 1935.

Mr. Frank G. Jenks, Court House Building, Marquette, Mich.

Dear Sir: I wish to announce my candidacy for membership on the Board of Poor Commissioners to fill the vacancy caused by the expiration of Mr. G. R. Jackson's term (December 31, 1935).

I am a legal resident of Ishpeming, Michigan, having lived here all my life.

I am a taxpayer in the above city.

My work has been in Ishpeming or nearby for the past twenty years.

For the past eighteen months, I have been an investigator for the E.R.A. Case Department. My work here has given me a first hand knowledge of the relief situation in Marquette County. I know the problems of the clients and I am aware of the problems facing the administrators of this relief.

I firmly believe that the office of Poor Commissioner, now being held by Mr. E. R. Nelson, is being paid a salary out of proportion to the amount of work being done. This particular salary has appeared to me to be excessive ever since the actual contacting of the relief clients was taken over by the Case Department of the E.R.A.

I respectfully submit my application for the consideration of the Board of Supervisors of the County of Marquette.

Yours very truly,

JOHN J. MURPHY.

Marquette, Mich., Dec. 18, 1935.

To the Honorable Board of Supervisors
of Marquette County.

Gentlemen:-- The agricultural committee recommends to the Board of Supervisors of Marquette County that they accept the offer of Michigan State College, Extension Division, to supply the county a part time home demonstration agent and a part time 4-H Club agent, with the understanding that the only expense to the county is to be office room, office supplies and office help. The salary and traveling expenses are to be paid by Michigan State College.

Michigan State College has taken over the entire salary of the county agricultural agent but the county is to continue paying his traveling and office expenses.

The county has been paying the county agricultural agent's stenographer \$40.00 per month and the agent has contributed \$25.00 per month. The State college asked that the entire office expenses be paid by the county for the three agents which the college will supply with full salaries paid by the college. This arrangement calls for a full time stenographer and very small amount added office equipment. The average cost of the agricultural office for the last three years has been \$2428.52. The State college paying the entire salary of the county agricultural agent makes it possible for the county to have the continued entire services of the county agricultural agent and at least one-third time of a home demonstration agent and a 4-H Club agent at less cost than for the agricultural agent alone.

At the annual meeting \$1,000 was appropriated out of the general fund to pay expenses of agricultural agent's office. This sum is not enough to carry on the work of the office with a full time stenographer. We recommend that the agricultural agent's expense allowance for the year be increased to \$1,600 and that a full time stenographer be employed at \$75 per month beginning January 1, 1936.

✓ The following report was read, and upon motion of Supervisor Nicholas, supported by Supervisor Mongrain, was ordered filed:

PROSECUTING ATTORNEY'S OFFICE

Ishpeming, Mich., Dec. 5, 1935.

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:--At the November meeting of the Board on motion of Supervisor Nicholas of Richmond Township, certain questions were referred to me concerning motor vehicles, particularly the transporting and securing of loads on logging trucks.

I am unable to find any statute or regulation prescribing the manner of securing loads on trucks, whether logging trucks or otherwise. Neither the general laws nor the regulations of the Utilities Commission or Motor Vehicle Division aid this question. And in my opinion only the legislature may correct this situation, if such regulation is believed to be desirable. (See Section 4725.)

There are, however, numerous related regulations which may be found applicable to truckers who are careless in the matter of loading and transporting logs or other materials.

Thus Compiler's Section 4728 provides that no vehicle, loaded or unloaded, shall exceed 8 feet in width, 14 feet in height, or 40 feet in length.

The following sections touch of the matters of equipment, such as flags, red lights, trailers, brakes, horns, mirrors, windshield wipers and mufflers.

Sections 4758, and following, as amended by Act 253 of P. A. 1933, also provide further general regulations as to size: Section 4760, as amended, provides in great detail the maximum axle load of vehicles, while Section 4766, as amended, regulates the speed.

Section 4767 provides the penalties, while Section 4768 provides that it is the duty of the Sheriff to enforce these provisions, but that any peace officer may also arrest on sight or warrant for any such violation, and to this end they may stop and examine loads.

Section 4768-1, added by the 1933 amendment, gives broad powers to sheriffs and any peace officer to stop and examine trucks, and correct any violations then and there, if possible, even to the extent of removing all or part of the load, and if there are defects in equipment such peace officer shall direct the driver to go to a designated garage at once to have the truck fixed so as to comply with the law.

It is a permissible inference that truckers who transport logs that are carelessly secured are often guilty of infractions of these other regulations at the same time; and so, as a practical matter, if the Sheriff's department and other peace officers stopped these persons often enough, for these other infractions, and at the same time told them to secure their loads properly, much of the loading danger could probably be eliminated.

Very truly yours,

John D. Voelker.

PROSECUTING ATTORNEY'S OFFICE

Ishpeming, Mich., Dec. 18, 1935.

Honorable Board of Supervisors,
Marquette County, Michigan.

In re: County Planning Committee.

Dear Sirs:-- At the Board's request at the last meeting, on November 14 I wrote Governor Fitzgerald as follows:

"At the direction of the Board of Supervisors of Marquette County I am writing you to respectfully request that you appoint a State Planning Commission that may function under the new land-use and zoning law, No. 44, P. A. 1935.

"The Board has already appointed its County Planning Committee, pursuant to the act, and has just been informed that the former State Planning Commission is inactive. Inasmuch as this county has been one of the pioneers in the movement for zoning, you may feel assured that the Board will deeply appreciate your thoughtful and favorable consideration of this request."

I have had no reply to this letter, and I am therefore unable to report what steps have been taken in that direction.

It may be that an appropriate resolution directly from the Board would be more effective than another letter from me. I still feel that the appointment of an active State Planning Commission is very important to any progress we may make under our county planning program.

Very truly yours,

John D. Voelker.

The monthly reports of County Treasurer, Superintendents of the Poor, Morgan Heights Sanatorium, County Jail Physician, Red Cross Nurse and Trespass Agent were read and ordered filed.

The following resolution was read, and it was moved by Supervisor Van Riper that this be referred to the Executive Committee for investigation. Supported by Supervisor Stakel, and carried.

Our Board of Supervisors suggest a meeting of the delegates from the various counties, in Lansing at the annual meeting in January of the State Association of Supervisors to discuss the Emergency Relief problem.

Special meeting of the Board of Supervisors of Clinton County, Michigan, held at St. Johns November 29, 1935.

Supervisor Ewing offered and moved the adoption of the following:

RESOLUTION

Under legislative action and appropriation the Governor of the State of Michigan is charged with the duty of disbursing for welfare work and relief a sum of approximately nine million dollars annually, which money is now being applied through combined federal and state agencies.

It is the belief of the members of this board that the local county authorities are better able to apply such funds for the relief of the poor in their respective counties than are state and federal agencies or any combination of the two. The members of this board believe that such funds will be and can be more economically administered locally, and that the funds should be paid into the county treasuries in the amounts to which the several counties would be entitled under proper rule of allocation. Therefore, be it

Ishpeming, Mich., Jan. 6, 1936.

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:--Your Planning Commission met on December 30th, 1935 and thoroughly reviewed the matter of County zoning.

Arrangements for circulating of petitions on forms approved by the Prosecuting Attorney and for presenting same at the January meeting of the Board of Supervisors were made.

Your Commission represents that we have carefully considered this matter over the past several months; that we feel that the matter of County zoning is of vital importance to Marquette County; that maintenance of financial stability in the County will be largely dependent on some such action, and that this action will contribute to the public health, convenience and welfare through the maintenance of financial stability in the County and the utilizing of such money as the County can afford to spend for public services where it will give the greatest benefit.

January 29, 1936

Your Commission respectfully recommends that the question of making Act 44, Public Acts of 1935, operative in this County, be submitted to the voters of Marquette County at the election to be held on September 15th, 1936. A resolution to be prepared by the Prosecuting Attorney for that purpose is to be introduced at this meeting and we respectfully recommend favorable action thereon.

Your Commission further believes from their study to date, that there is some question as to whether the present State Planning Commission is on an operating basis and in shape to co-operate with the County Planning Commission, as is required by the statutes. We feel that this zoning movement is so vital that time should not be lost, and recommend that the Board of Supervisors representing Marquette County should request from the Governor that this State Planning Commission be placed on an operating basis at least by the date of the April election. To that end we have prepared a resolution, requesting the Governor to perform all necessary acts, which will be presented at this meeting and we respectfully recommend adoption of that resolution.

Further, as the subject matter involved in the proposed referendum is new in this territory we recommend that the County Planning Commission be authorized to get the matter before the public in as intelligible a form as possible and to provide such information as is within their power, to the end of having as complete an understanding of the matter as is possible.

Respectfully submitted,

County Planning Commission.

WHEREAS, the Michigan Legislature through Act 44, Public Acts of 1935, has provided for the creation of County Planning Committees, and subject to referendum, for the zoning of Counties into use districts to the end that the financial stability of the Counties may be sustained and a greater contribution be made to the public health, convenience and welfare by expending such monies as may be provided so the public can have services where they will provide the greatest benefit and;

On the Basis of the Present Fire Insurance carried on this group of \$200,650.00, a comparison of the three year cost would be:

1932 -- \$ 3,732.09

1936 -- \$ 1,193.86

✓ Supervisor Petersen made a verbal request that the road to Dan Hill's farm in his Township be plowed. This road has always been plowed in previous years and Mr. Hill had no reason to believe it would not be plowed this year. He has ten head of cattle and one team and he has made no arrangements to take care of this stock as he believed the road would be plowed. Also there are two alleys in Gwinn that should be plowed. One alley there are eleven cars in garages which cannot be moved on account of snow and would like to have this referred to the proper committees. It was moved by Supervisor Wiseman that this matter be referred to the Highways and Bridges Committee and the County Road Commission. Supported by Supervisor Laine and carried.

✓ Supervisor Munson also stated that Jack Van Wormer, a farmer living in Section 10, Township 46-25, had requested him to have his road plowed. This is on the new road to Sands. He has five children who are unable to attend school and on this one mile road there are two other families that are having difficulty to move on account of the road not being plowed and request that this matter also be referred to the proper committees. Moved by Supervisor Wiseman that this request be referred to the Highways and Bridges Committee and the County Road Commission and that the Clerk put these requests in writing and forward to the County Road Superintendent. Motion was seconded by Supervisor Price and carried.

There being no further business, it was moved by Supervisor Dobson, supported by Supervisor Dolf, that the Board adjourn until Wednesday, the 25th day of March, A. D. 1936, at 1:30 p.m.

Gentlemen:-- The recertification of total township road mileage in all counties as provided for in Act 132, P. A. 1935 has now been completed.

Very truly yours,
M. D. Van Wagoner,
State Highway Commissioner.

✓ A deed from Charles Perrault to the Superintendents of the Poor of Marquette County as Trustees of Marquette County, was presented, with a request from G. R. Jackson that this be deeded back to Mr. Perreault as his sister is going to be responsible for his maintenance and care and for the further reason that the Marquette County Poor Commission has never given Mr. Perreault any aid. It was moved by Supervisor Rogers that the Board authorize this deed to be made, seconded by Supervisor Dobson. It was moved as an amendment by Supervisor Nicholas that this matter be referred to the Contact Committee of the Superintendents of the Poor and the Prosecuting Attorney and report back to the Board. Ishpeming, Mich., March 6, 1936.

Honorable Board of Supervisors of Marquette County, Michigan.

Gentlemen:-- Your Committee on County Roads and Bridges and the Board of County Road Commissioners met in joint session on March 4th, 1936 and considered communications referred for joint action.

In the matter of communication from Edward Munson. The road in question had been plowed because of the fact that heretofore relief work was being carried on, on this road. Plowing was discontinued, when this was no longer necessary for relief activities, on the assumption that those residents utilizing it could do as they had done in past winters, use other existing plowed roads. Because of the inconvenience which would be caused these persons, having to go to the roads formerly used, plowing was resumed for the balance of this winter. It is thought, however, that in all probability this one mile of road may be omitted next winter and these people use other roads which are being plowed and this plowing applied at points where it will do more good.

In the matter of communication from J. M. Petersen. It was recommended to the Board of County Road Commissioners that the two alleys requested by Mr. Petersen be plowed and the County Road Commission will perform this service.

In the matter of the Dan Hill Road. Recommendation was made that this portion of the application be tabled as it is not thought to be a justifiable expenditure of public moneys.

We recommend concurrence in the recommendations of the Committee to the County Road Commission.

Respectfully submitted,

BOARD OF COUNTY ROAD COMMISSIONERS OF MARQUETTE COUNTY, MICHIGAN,

By K. I. SAWYER, Supt.

COMMITTEE ON COUNTY ROADS AND BRIDGES,

A resolution from the Board of Supervisors of Hillsdale County recommending that a fair share of the funds derived from the Sales Tax Law, be allocated to the counties in proportion to their contribution of the sales tax, was read and it was moved by Supervisor Nicholas that this be referred to the Legislation Committee. Supported by Supervisor Price and carried.

March 25, 1936

✓ A resolution from the Board of Supervisors of Huron County that they favor the one unit relief system where the counties have full responsibilities for funds expended for all branches of relief and that the State should make outright grants to Counties on half population basis and half need bases to be equitable and fair to the Counties. Further that this will cut the expense for relief, Federal, State and County to one-half of the costs heretofore, and that relief workers should work more hours in the summer time on public projects and that County hold part of their pay for the winter months so that men would not need to work out doors in the zero weather and accomplish practically nothing, was read and it was moved by Supervisor Healy that this resolution be filed. Supported by Supervisor Stearns and carried.

✓ A resolution from the Board of Supervisors of Hillsdale County recommending the abolishment of the State Emergency Welfare Relief Commission and that all State Aid for direct relief and welfare shall be allotted through the County authorities, to supplement the local funds used for relief, was read and upon motion of Supervisor Nicholas, supported by Supervisor McNamara, was referred to the Legislation Committee.

Supervisor Stakel spoke on the question of relief funds and the necessity of strict economy in meeting the demands from this source.

✓ The following resolution was offered by Supervisor Nicholas, seconded by Supervisor Dobson, and unanimously carried.

WHEREAS: Under existing conditions it is known that County expenditures are running beyond income, and if persisted in, a sizeable deficit will obtain before the end of the fiscal year, and

WHEREAS: It is reasonably sure that certain sums could be saved to the Taxpayers if conferences could be had among the various tax spending departments of the County.

Now Therefore, BE IT RESOLVED: That the Executive Committee be, and is hereby instructed to prepare a method, whereby the Board of Supervisors may contact, through representation, all officers, and offices that are by law permitted to spend County tax money for any purpose within the law, and that the aforesaid method be presented to the Board of Supervisors for consideration at its next meeting.

T. J. NICHOLAS.

It was moved by Supervisor Van Riper that in order to save delay at the next meeting, the old Auditing Committee be authorized to audit the bills which will be presented at the next meeting. Motion was seconded by Supervisor Anderson, and carried.

There being no further business, it was moved by Supervisor Nicholas that the Board adjourn, subject to the call of the Clerk. Supported by Supervisor Laine, and carried.

Ishpeming, Mich., April 2, 1936.

To the Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:--On Tuesday, April 1, 1936, the Poor Commission Contact Committee met in the county building to consider the question referred to it at the last regular meeting concerning the trust deed by one Charles Perrault to the Superintendents of the Poor.

After discussing this matter with Mr. E. R. Nelson and among ourselves, and being advised by the prosecuting attorney, the Committee begs to report as follows:

The trust deed in question was given to secure reimbursement for the anticipated future support of Mr. Perrault. Similar trust deeds have been employed in like cases in this county for a number of years in instances where the person seeking aid has property. In this case, however, it appears that Mr. Perrault's sister arranged and undertook to care for him before the county had spent anything for his care. It therefore follows that the Superintendents of Poor not only should but must reconvey the property in question to Mr. Perrault without delay, and the committee recommends that the Superintendents of Poor as trustees reconvey this property.

Respectfully submitted,

MARQUETTE COUNTY POOR COMMISSION
CONTACT COMMITTEE,

William H. Oakley,
Chairman.

Thos. O. Price,
John T. Dobson,
W. J. Wiseman,

✓ The following report of the Committee on Buildings, Grounds and Insurance was read, and it was moved by Supervisor Stenglein that the report be adopted. Supported by Supervisor Gribble and carried.

To the Honorable Board of Supervisors,
Marquette County, Michigan.

Your committee on Buildings, Grounds and Insurance beg to make the following report:

Inspection made October 16th, 1935, of Morgan Heights Sanatorium, Fair Grounds, Court House Group and Infirmary. Trustees of Morgan Heights Sanatorium requested that report be withheld until power plant was completed. On April 1st, 1936 an inspection was made of the Boiler house which was almost complete and in first class condition. The trustees have also installed water pipes for fire protection and have improved the grounds and buildings in keeping with other County property which is in first class condition. The men in charge are to be complimented for their faithful service.

The rewiring of the Court House referred to the committee has been inspected by City employees and the J.&H. Electric Shop. The committee after careful consideration do hereby make the following recommendations:

Replace Cut-outs by one piece wires.

Install Steel boxes and main switch to replace wood boxes.

Tests prove that the lines are not overloaded, only between the hours of 11:00 a.m. and 12:30 p.m. when electric ranges are used in the city. The committee does not recommend the spending of \$1600.00 to \$1800.00 for rewiring of the Court House as we have secured the minimum fire insurance rate possible.

Inspection of outside of Court House was made and found that windows, window frames and sills should be repainted. The Sheriff's residence and Jail were also inspected and found in need of repairs, with several leaks in the roof which should be given attention. The attention of the Chairman was called to the difficulty in heating the Probate Court office due to faulty piping which should be corrected.

The Committee recommends that bids be called for on all repairs as listed in this report and same be submitted to the Board of Supervisors for approval.

Respectfully submitted,
COMMITTEE ON BUILDINGS, GROUNDS AND
INSURANCE,

John G. Stenglein,
Chairman.

Thomas Gribble,
John Ghiardi,
James Nardi.

MARQUETTE COUNTY BUDGET AND
EXECUTIVE COMMITTEE

Marquette, Mich., May 13th, 1936.

To the Honorable Board of Supervisors,
Marquette County, Michigan.

Your Budget and Executive Committee after considering the subject matter of this communication very carefully, beg leave to make the following report.

Because of the large sums now being spent each month for Adult Afflicted, we recommend that the County Welfare Agent and the Judge of Probate be authorized in every case where adult afflicted persons apply for hospitalization at County expense, that the same procedure be followed as is now the practice in the case of afflicted and crippled children. We recommend that an agreement similar to the form adopted by the Auditor General's department for crippled and afflicted children be used in the case of adult afflicted. This form or agreement makes it mandatory on the part of the beneficiary to reimburse the County for medical and surgical treatment, when, and if the patient is able to do so at some future date.

We further recommend that a communication be sent to the Marquette and Alger County Medical Society requesting that organization to appoint a committee of three physicians with whom the Judge of Probate can confer in every case before the adult afflicted patients are granted authority to receive hospitalization at County expense. This also is in line with the procedure adopted and now functioning in the case of afflicted and crippled children.

We further recommend that a Consultative Board be organized consisting of the Chairman of Finance, Budget and Executive, and Auditing committees, the County Clerk and the County Prosecuting Attorney, the said Board to plan for securing each month a report on all disbursing activities of every type of relief agency operating within the jurisdiction of Marquette County. Said Board to embody in their report to the Supervisors each month, the several reports of all tax spending agencies secured, together with any and all suggestions made by the said Board to each, or any of the tax spending agencies within the county.

Also, at the discretion of the proposed Board, reports may be called for from any standing committee, or organized society engaged in spending county tax money, such reports and comments thereon to be embodied in the monthly reports to the Board of Supervisors.

If the Board of Supervisors should vote to adopt the proposed plan, we recommend that the County Clerk be asked to communicate with the several agencies referred to, notifying them of the action taken by the Board of Supervisors, and kindly ask them for their willing cooperation with Consultative Board.

H. E. Perkins,
John G. Stenglein,
Joseph F. Labold,
T. J. Nicholas,
H. S. Nightingale,
Paul Van Riper,
Chas. J. Stakel.

" THIS AGREEMENT, made this 1st day of May, A. D. 1936, by and between Oliver Iron Mining Company, a Minnesota corporation, hereinafter called the Lessor, party of the first part, and the County of Marquette in the State of Michigan, hereinafter called the Lessee, party of the second part, WITNESSETH:

That the Lessor, for and in consideration of the rents, conditions, covenants and obligations hereinafter contained to be kept and performed by the Lessee, does hereby let, lease and demise unto the Lessee the surface only of the Southeast quarter of the Southwest quarter (SE $\frac{1}{4}$ of SW $\frac{1}{4}$) of Section Thirty (30) and the north three hundred and thirty (330) feet of the North half of the Northwest quarter (N $\frac{1}{2}$ of NW $\frac{1}{4}$) of Section Thirty-one (31) in Township Forty-eight (48) North of Range Twenty-nine (29) West in Marquette County, Michigan, and hereinafter referred to as said premises, subject to all highways, railroad rights of way and other public or private easements over and across said premises.

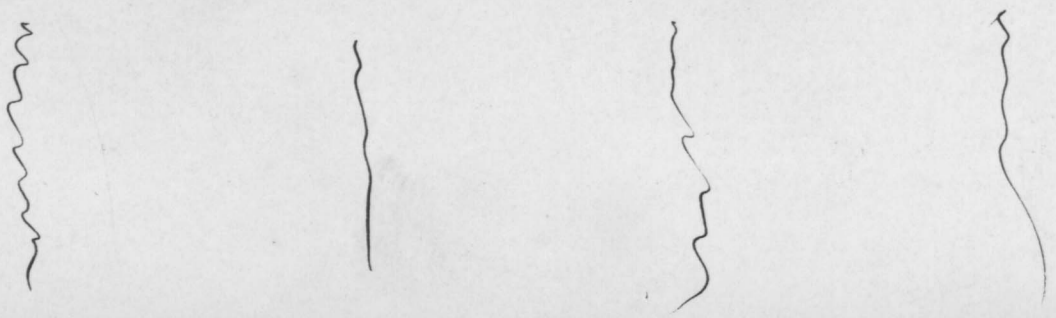

TO HAVE AND TO HOLD said premises unto the Lessee for and during the term of five (5) years from the first day of June, 1936, or until this lease is sooner terminated as hereinafter provided for the following uses and purposes, viz: to improve, maintain and use said premises as part of a county public park, and for such use and purpose only, for a rental of twenty-five dollars (\$25.00) per year payable in advance on the first day of June in each year during the continuance of this lease, and upon and subject to all and singular the following terms, conditions, exceptions, reservations and obligations, to each of which the Lessee, in consideration of the foregoing demise, hereby agrees, to-wit:

The Lessor hereby reserves all iron ores and other ores and minerals in or under said premises, together with the right at any time to explore for, mine and remove the same as though this demise had not been made; and the Lessee agrees not to make any claim against the Lessor, or any person or corporation operating by agreement with or consent of the Lessor, for damages on account of any exploring, mining or other operations or business upon, under or adjacent to said premises, whether such damages shall occur by reason of the subsidence, caving or removal of the surface of said premises or from any other cause or causes.

The Lessor hereby reserves the right at any time to terminate this lease by giving to the Lessee six (6) months written notice to that effect, which may be served by delivering a copy thereof to the Chairman of the Board of Supervisors of said County of Marquette or by mailing the same by registered mail addressed to such Chairman at Marquette, Michigan; and this lease and all rights and privileges hereby demised shall absolutely terminate six (6) months after the service of any such notice, without any further act or proceeding, judicial or otherwise.

The Lessee shall pay promptly and before delinquency all taxes and assessments, general or special, that may be levied or assessed upon said premises, and upon any building, structure or other property at any time placed or permitted thereon by the Lessee, for the year 1936 and all subsequent years during the continuance of this lease, including the year in which this lease may expire or be terminated and to furnish the Lessor duplicate tax receipts for all such taxes when paid, and shall protect said premises and all buildings, structures and other property thereon from all mechanics', laborers' or other liens and keep the title thereto free and clear from all clouds or encumbrances in any way arising from such liens or from its use or occupancy thereof.

It is covenanted and agreed by the Lessee that it shall keep said premises and all improvements thereon or appurtenant thereto in good repair and in a safe, clean and respectable condition; that it shall not use said premises, or any part thereof, nor permit the same to be used, for any purpose other than that hereinabove stated; that it shall not grant any concessions for the erection of buildings or other structures thereon, nor grant concessions or licenses of any character, that shall not be limited in term to one season and also be terminable upon short notice, not exceeding thirty (30) days; the Lessee may clear away the underbrush on said premises, but it shall not cut or damage, nor permit any person or persons to cut or damage, any green or growing timber thereon; and that any and all buildings or other structures that may be erected thereon by the Lessee shall be such as may be readily removed on or before the termination of this lease, as hereinafter provided.

May 20, 1936

The Lessee covenants and agrees during the continuance of this lease to promptly remove all garbage, refuse and debris that may accumulate upon said premises and to keep the same at all times in a neat, clean and respectable condition, to keep the walks, roads and passageways upon, contiguous or appurtenant to said premises in good repair and, generally, in the use and care of said premises, to comply in every respect with all laws, ordinances and requirements of any officer or other authority having control or jurisdiction over said premises, so as to relieve the Lessor during the continuance of this lease from all obligation in any way arising from the ownership of said premises.

The Lessee covenants and agrees to indemnify and save the Lessor harmless from any and every claim, demand and cause of action made or brought by reason of any real or alleged default or imperfection in any sidewalk, road or passageway upon, contiguous or appurtenant to said premises or any building, structure or improvement at any time thereon or by reason of any failure to repair any such walks, buildings, structures or improvements or by reason of any actual or alleged act or omission of the Lessee, or any of its officers, agents, servants or contractors, in the use of said premises or in doing anything hereby permitted or required to be done, or on account of any loss of life or health or other injury, whether avoidable or not, that may in any way be due or be alleged to be due, to the use or occupancy of said premises under this lease or to any act or omission of the Lessee whatsoever; it being understood that the Lessor assumes no risk and shall be under no additional obligation or liability whatsoever by reason of having made this lease.

If and whenever the Lessee shall cease to use said premises for the purposes aforesaid, or shall use the same, or any part thereof, for any other purpose, or shall fail to keep and perform any of the covenants or conditions herein contained, then and in every such event the Lessor may at its option forthwith declare this lease terminated by giving to said Lessee thirty (30) days notice in writing of its intention so to do, which may be served by mailing the same by registered mail addressed to the Chairman of the Board of Supervisors of Marquette County at Marquette, Michigan; and this lease and all rights and privileges hereby demised shall absolutely terminate thirty (30) days after the service of any such notice, without any further act or proceeding, judicial or otherwise.

The Lessee may at any time terminate and surrender this lease by executing a written instrument of surrender in proper form for record and by removing the buildings, structures and other property from said premises and surrendering possession thereof as hereinafter provided.

On or before the termination of this lease in any manner the Lessee shall, at its own cost and expense, remove from said premises any and all buildings, structures and other property thereon, and quietly and peaceably restore and surrender possession of said premises to the Lessor in a neat and orderly condition, in default whereof the Lessor may forthwith re-enter said premises, with or without process of law, expel any and all persons occupying the same, using such force as may be necessary so to do, appropriate to its own use, or at its option remove, any and all buildings, structures and other property remaining thereon and dispose thereof as it may desire, restore said premises to a neat and orderly condition and repossess and enjoy the same as before this demise without prejudice to any remedy that might otherwise be used for breach of any of the agreements herein contained and without any liability whatsoever to the Lessee; and the Lessee shall pay promptly all costs and expenses of any such re-entry, removal or restoration.

It is expressly agreed that this instrument contains the whole of the agreement made between the parties hereto with respect to said premises and that no employee, agent, superintendent or officer of the Lessor, except its President or Vice President, has any authority to waive or modify any of the terms of this agreement and that no modification hereof shall be binding upon the Lessor unless it be made by an agreement in writing signed by its President or Vice President.

This agreement and all the terms, conditions and obligations hereof shall be binding upon and inure to the benefit of the respective successors and assigns of the parties hereto; but the Lessee shall not assign this lease, nor sublet said premises, or any part thereof, without the written consent of the Lessor.

IN WITNESS WHEREOF, the parties hereto have duly executed this instrument in duplicate on the day and year first above written. "

"SUGGESTED FORM OF RESOLUTION

WHEREAS, the United States Social Security Act provides for aid to dependent children amounting to approximately one third of the cost of such care but requires that both the state and local governments participate in the program, with certain requirements as to administration, to which the present system in Michigan of administering aid to dependent children as so called mothers' pensions does not conform and can not be made to conform except by action of the State Legislature, which would involve a considerable delay, and

WHEREAS, the federal Social Security Board suggests a co-operative plan administered by the State Emergency Welfare Relief Commission which would be acceptable to the board and which would make federal aid for dependent children immediately available in Michigan, and

WHEREAS, the plan proposed by the board requires that the Probate Judges of the various counties voluntarily agree to relinquish administrative control over aid to dependent children within their respective counties and that the boards of supervisors of these counties transfer from month to month a portion of the appropriation for mothers' pension to the Marquette County Emergency Welfare Relief Commission, and

WHEREAS, WALDO T. POTTER, probate judge for MARQUETTE County has agreed to voluntarily relinquish control of the administration of aid to dependent children in this county and to entrust such administration to the Marquette County Emergency Welfare Relief Commission, local agency of the State Emergency Welfare Relief Commission, therefore,

COOPERATIVE EXTENSION WORK

Marquette, Mich., June 22, 1936.

To the Honorable Board of Supervisors
of Marquette County.

Gentlemen: The grasshopper season is again with us and your agricultural committee believes in preparedness.

The county has on hand for this season's grasshopper bait preparation the following:

60 tons of bran
40 tons of sawdust
27 barrels of sodium arsenite
16 barrels of molasses
18 gallons of banana oil

The bran, sawdust and sodium arsenite were furnished last year by the Federal Government, while the molasses and banana oil were paid for by the county.

The only necessary article needed for a complete poison bait mixture is salt.

Last year the Board appropriated \$1500 for use in a campaign against grasshoppers; only \$344.45 were used.

The cold weather has delayed the hatching and maturing of the hoppers this year, but they are plentiful in places and there is a possibility of the need of using bait in some sections of the county, so your agricultural committee asks for an appropriation of \$200 be made to be used for purchase of salt and to take care of other incidentals that may arise.

We also ask for the cooperation of the county road superintendent in transporting of bait materials if such is needed; otherwise a larger appropriation may be needed.

The appropriation will not be used if not needed.

Respectfully submitted,

JOSEPH F. LABOLD,
WM. JORY,
THEO. WARMANEN,
MATT MACKEY,
JOHN WEILAND.

STATE EMERGENCY WELFARE RELIEF COMMISSION
OF MICHIGAN

Chairman, County Board of Supervisors:

The State Emergency Welfare Relief Commission at its session in Lansing on Thursday, June 4th decided to revise the membership of the County Emergency Relief Commission in order to provide a greater degree of participation, by local government officials in the administration of relief. The Commission has decided, with the approval of the Governor, that effective July 1, the County Emergency Relief Commission in each county will be composed of the Chairman of the present County Emergency Relief Commission (except where he is a county official), the Chairman of the County Board of Supervisors, or a Supervisor recommended by him to serve in his place, and a third member, who need not be a member of the Board of Supervisors, to be recommended by the County Board of Supervisors for appointment by the State Emergency Relief Commission.

Under act 201, of 1933, which created the State Emergency Relief Commission, members of County Relief Commissions may not be compensated for membership on such commissions, other than necessary expenses.

The name of the Chairman of the County Board of Supervisors or the Supervisor selected by him to serve in his place, and the name of the person recommended by the Board to serve on the Commission should be mailed to the office of the State Relief Commission, 603 Bauch Building, Lansing, Michigan.

We are attaching a copy of a letter sent to all County Emergency Relief Administrators, which it is suggested may be read to the County Board of Supervisors as part of this communication.

Sincerely yours,

WILLIAM HABER,
State Relief Administrator.

STATE EMERGENCY WELFARE RELIEF COMMISSION
OF MICHIGAN

S.E.R.A. Letter No. 589
Lansing, Mich., June 4, 1936.

To all County Administrators and Commission Members:

Subject: Reorganization of County Relief Commissions:

The State Emergency Welfare Relief Commission met with the Governor today to discuss with him the proposal that the membership of the County Relief Commissions be revised so as to make possible a greater degree of participation by local governmental officials in the administration of relief. The Commission has given very careful thought to this problem and has decided to revise the membership of the County Relief Commissions to facilitate a greater degree of local participation. The new County Relief Commissions will be composed of the Chairman of the present County Emergency Relief Commission except when he is a County official; the Chairman of the County Board of Supervisors or a supervisor selected by him to serve in his place; and a third member to be recommended by the County Board of Supervisors for appointment by the State Emergency Relief Commission.

The State Commission is genuinely hopeful that this revision of the membership of the County Relief Commission will secure greater public support and interest in the administration of relief and will result in a more thorough understanding of the problems of relief and its financing.

There will be no changes in the State Commission nor in its personnel or policies. The supervision of the state office over the local administration of public relief funds will continue as at the present time.

The State Commission will set up at once a civil service or merit system for all employees of the State and County Emergency Relief Commissions. Such a plan will operate until a State Civil Service Commission may be established.

Needless to say, the State Commission regrets to part with the fine services of those members of the County Relief Commissions who may not continue to serve in the new organization. They have made a real contribution in guiding the development and administration of the relief program in their communities. We hope, of course, that some of these present commission members may be recommended by the Board of Supervisors to continue to serve on the reorganized Commission. We hope also that this will prove to be a step in the direction of an integrated state and county Public Welfare organization.

Any questions concerning the problems created by this change, should be referred directly to the Field Representatives of the State Relief Commission who are fully advised concerning these changes.

Sincerely yours,

WILLIAM HABER

State Relief Administrator.

✓ The following Executive Order and Notice were read, and it was moved by Supervisor Nicholas that this matter be referred to the Budget and Executive Committee to outline and report back to this Board at this meeting. Supported by Supervisor Mongrain and unanimously carried.

STATE OF MICHIGAN
EXECUTIVE OFFICE, LANSING
EXECUTIVE ORDER

GREETINGS:

WHEREAS, under the provisions of Act 256 of the Public Acts of Michigan 1935, the sum of \$1,400,000 was appropriated for the medical, surgical and hospital treatment of indigent children, both afflicted and crippled, for each of the fiscal years of the state ending June 30, 1936 and June 30, 1937,

AND WHEREAS, under the provisions of Acts 169, 207 and 208 of the Public Acts of 1935, the demands upon said appropriation are greatly in excess of the amount made available by the Legislature, and the bills would cause an over-draft which is estimated will amount to more than half a million dollars on June 30, 1936.

AND WHEREAS, the Michigan Association of the Judges of Probate on or about October 30, 1935 recommended the appointment in each county of a Filter Board, consisting of a Medical Committee, of not less than three physicians, and an Economic Committee, to investigate and report to the courts the medical and economic conditions affecting such indigent child patients.

AND WHEREAS, the demands made upon this fund in the past, and those which appear likely to be made in the future, make it necessary to have each case scrutinized closely from both the economic and medical standpoints.

AND WHEREAS, during the past ten months the medical profession of the state has given its services generously without compensation, no matter how serious the illness or how long continued the treatment, but who are entitled to fair and reasonable compensation.

THEREFORE, having in mind the best interests of the deserving and worthy afflicted and crippled children whose health is security for the future good citizenship of the state, and in order that the limited appropriation may go as far as possible toward the care of urgent and necessary cases:

IT IS ORDERED, that no state money shall be paid for the care and treatment of afflicted or crippled children until there has been filed with the Judge of Probate a statement by a parent or legal guardian, under oath and approved by the Economic Committee, giving fully the economic condition of the parents or guardian of said children, including the details of property owned, and income received by all members of the family, and such other information as such Economic Committee requires--and until there shall have been a physical examination by said Medical Committee of said Filter Board, with a report thereof, in plain terms, filed with the Judge of Probate. If the Judge of Probate makes an order for the medical and/or surgical treatment, bills rendered to the state therefor shall be accompanied by certified copies, from the Judge of Probate of the county, of both the Economic Committee report and the Medical Committee report.

THIS ORDER shall apply only to services rendered on and after July 1, 1936, the date of the commencement of the fiscal year of the State of Michigan ending June 30, 1937.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Great Seal of the State of Michigan to be affixed, this 4th day of June, A.D. 1936.

MICHIGAN CRIPPLED CHILDREN
COMMISSION

Lansing, Mich., June 16, 1936.

ATTENTION! Probate Judges, State County Welfare
Agents, Approved Hospitals.

An opinion rendered to the Michigan Crippled Children Commission 6-5-36 by the Attorney General of Michigan made the following interpretation of the matter of court conveyances for Afflicted and Crippled Children and for Afflicted Adults in respect to RESIDENCE and LEGAL SETTLEMENT:

1. AFFLICTED CHILDREN--Act No. 274 of 1913 as amended. The opinion definitely states that the actual residence of the child determines the county in which the order should be made and that the order is in no way determined by the legal settlement of the child or his family even if it should be outside of the State of Michigan.
2. CRIPPLED CHILDREN--Act No. 236 of 1927 as amended. The above also applies to Crippled Children--the actual residence of the child determines the county in which the order should be made and that the order is in no way determined by the legal settlement of the child or his family even if it should be outside of the State of Michigan.
3. AFFLICTED ADULT--Act No. 267 of 1915 as amended. The opinion holds in the case of Afflicted Adults, the order of conveyance must be made in the county in which the adult patient has a legal residence, or in other words, in the county in which he has legal settlement or is domiciled.

This affirms the formal opinion of the Attorney General dated May 3, 1927, which was published in the Biennial Report of the Attorney General, 1926-1928, page 364.

HARRY H. HOWETT, Sec'y-Treas.
Michigan Crippled Children Comm.

Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:-- Your Committee on County Parks and the Board of County Road Commissioners met on June 4th, 1936 and considered the matter of communication from Powell Township with reference to the County adopting the Powell Township tourist park into the County Park System.

Your Committee viewed the site. We find that Powell Township has a nice park on the Westerly shore of Lake Independence between the L.S. & I. Railroad and the lake and adjacent to County Road 550, containing approximately six acres which is well developed and a very desirable park site, and that Powell Township has deed to this property and will convey same to the County without cost. Also that Powell Township is not financially able to operate this as a park and it will revert to the original owners unless it is continued as a park. Your Committee unanimously recommend that this park be taken into the County Park System.

In addition to viewing the park your Committee made their customary inspection of the County airport, the Dexter Emergency Landing Field and the Champion Beach Park.

We found the work at the County airport proceeding very well, with the hangar, custodian's house and garage under construction and showing very good workmanship. The Dexter Emergency Landing Field is in good condition but will need mowing at the proper time as will also the County airport, it being too early to do this work.

The Champion Park has been opened up for the season manned and guarded the same as in previous years, and it being further equipped through a W.P.A. project with 100 additional tables and 200 additional benches. We found the park in very good condition and ready for the season's business.

Marquette, Mich., July 20, 1936.

Honorable Board of Supervisors of
Marquette County, Michigan.

Gentlemen:-- I hereby petition your honorable body for a raise of ten cents per day for the board of prisoners confined to the County Jail.

I respectfully make this request on the strength that the cost of food stuff is so high at the present time I find it almost impossible to carry on at the present rate. Potatoes alone are \$3.00 per bushel.

I trust that this petition will be given your careful consideration.

Respectfully yours,

R. P. Franson, Sheriff.

Ishpeming, Mich., Aug. 22, 1936.

Honorable Board of Supervisors of
Marquette County, Michigan.

Gentlemen:

In the matter of five petitions referred by your Board at the last meeting and one petition referred at a previous meeting, on which we requested additional time.

Your Committee met on August 20th, 1936 and viewed the site of all roads referred to in the various petitions.

In the matter of County Road 533 covered by two petitions, one referring to this road South from U.S. 41 and the other referring to this road North from U.S. 41.

Your Committee finds that this road South from U.S. 41 can be graveled without a very large amount of grading, and that the road North from U.S. 41 will have to be graded before it is graveled and that the work involved is included in the W.P.A. program and will be handled when the program has developed so that this road is reached. We recommend nothing further in this matter.

In regard to petition relative to County Roads OX and OW. We find work in progress on this job by the County, leading from the junction of County Road OW and OV Easterly and thence Northerly on County Road OX to County Road OA, this work being done by the County. We find that the balance of the work is in the W.P.A. program and that the crew working on County Road OJ will move to this road next. We therefore find that there is nothing further to recommend in this petition.

In the matter of petition of C. J. Johnson regarding County Roads TL and TJ. Your Committee finds that County Road TL to Johnsons's gate is in the W.P.A. program and will be reconstructed as soon as it is reached in the logical sequence of this program; that County Road TJ and the half mile of road between the Easterly end of County Road TJ, and the Southerly end of County Road TL across the Johnson property, had been in the former relief program and at the time when work was ready to start had been held up and abandoned because of the demands placed upon the County Road Commission in regard to moving buildings, and right of way, by Mr. Johnson, and that the work on the Johnson property on County Road TJ cannot be included in the current program for financial and practical reasons.

In the matter of petition from Mr. Flodin for a road in Sands Township. The Committee finds that this road serves but one family, who have no school children, they have very little stock and a small clearing and that the program of the County Road Commission is already so large it will be impossible to include this road in the current season's operations.

In the matter of the Chief Lake Road, being County Road LD, on which we have made previous report and requesting additional time. In discussing the matter it develops that it would be impossible to undertake to rebuild this road to a standard width during the current season. There appears, however, a possibility of the County Road Commission working out a co-operative arrangement with the Northern Sawmills Company whereby this road will be put in shape adequate to meet conditions, and for the above reason we recommend that this be left in the hands of the County Road Commission.

Yours truly,

Board of County Road Commissioners,
By K. I. Sawyer, Supt.

Committee on County Roads and Bridges,
By W. J. Wiseman,
Chairman.

Ishpeming, Mich., Aug. 25, 1936.

Honorable Board of Supervisors of
Marquette County, Michigan.

Gentlemen:-- Your Committee on County Parks met on August 25th, 1936, at the request of the Park Trustees.

Pursuant to action of your Board the Big Bay Park has been taken over this season and was underbrushed, tables, buildings, etc., painted and the Park put into good shape.

The Park immediately come into more popularity than was anticipated and has received usage way beyond the facilities possible in the Park, as taken over.

Anticipating an even larger increase in its use in coming years and knowing that the property around the Park is being sold very rapidly, the Park Trustees have approached the owners of the lands adjoining the Park and they have indicated their willingness to sell government lots 5 and 6 in Section 15, Town 51 North, Range 27 W.

This purchase would add approximately 65 acres to the holdings of the County and would give the Park property one-half a mile frontage on County Road 550, on the West side of the Park, and one-half a mile frontage on Lake Independence, on the East side of the Park, and the owners are willing to sell to the County for park purposes for the sum of \$1000.00.

We are positive that delaying action would result in the sale of this property to others, as we know offers have been made on parts of these premises at per acre rates much higher than is asked of the County for these lands.

We recommend that lots 5 and 6 in Section 15, Town 51 North, Range 27 W be purchased for the sum of \$1000 and that the money therefore be appropriated from funds not otherwise appropriated. Respectfully submitted,

Ishpeming, Mich., Aug. 25, 1936.

Honorable Board of Supervisors of
Marquette County, Michigan.

Gentlemen:-- Your Committee on County Parks and the Board of County Park Trustees met in joint session on August 25th, 1936, and the matter of improvements at the Big Bay Park were considered.

We have in another communication recommended the purchase of additional lands for this Park.

We are informed that the Works Progress Administration are still accepting applications for public improvements, and we consider that it is timely and to the advantage of the County, to attempt improvement of some of these additional lands as a Works Progress Administration project.

Therefore we recommend to the Board of Supervisors, that the Board of County Park Trustees be authorized to make application for a Works Progress Administration project to construct comfort stations, a custodian's house, and make improvements on the grounds of the Big Bay Park.

Respectfully submitted,

UPPER PENINSULA DEVELOPMENT BUREAU
OF MICHIGAN

Marquette, Mich., Sept. 15, 1936.

Marquette County Board,
Marquette, Michigan.

Attention: Frank Jenks, Clerk.

Gentlemen: ✓

The Upper Peninsula Development Bureau is again soliciting the financial support of Upper Peninsula counties for their 1937 advertising program. Last year the Marquette County Board appropriated \$1,000.00 to the Development Bureau, in return for which we gave them a full page ad. in our 1936 "Lure" book. This year we would like to suggest that Marquette County take the same "ad" as last year, one full page, (using the same copy, or new copy if desired) and, if possible, again make us a contribution of \$1,000.00.

We plan on reissuing the "Lure of the Land of Hiawatha" in quantities of 50,000 copies or more, of the same general size, with a new color scheme, a new picture appeal, for distribution throughout the nation.

According to present plans, if the same financial support is given to our 1937 book as was given this year, supplemented by our share of the State's appropriation, we shall be able to do a more effective piece of advertising than we have ever done before. We anticipate stepping up the funds for magazine and newspaper advertising from \$2,500.00 to \$6,000.00 or \$7,000.00 in 1937.

The tourist and resort business during the past three years has witnessed a thirty per cent pick-up each year over the preceding year and there is every indication to believe that we can effect a similar growth and development in volume another year.

We submit to you that the growth and development of this tourist and resort business is bringing to the Upper Peninsula of Michigan new markets for farmer's produce and new cash dollars to those who are in a position to house, feed and entertain the tourists and that the State itself, through taxes paid by tourists on gas, groceries, liquor, etc., is a substantial beneficiary and thereby making available funds for roads, etc.

May we have your continued financial co-operation as proposed above?
Very truly yours,

UPPER PENINSULA DEVELOPMENT BUREAU,
G. E. BISHOP, Secretary-Manager.

✓ THE MARQUETTE COUNTY HISTORICAL
SOCIETY

Sept. 14, 1936.

The Finance Committee,
The County Board of Supervisors,
Marquette, Mich.

Gentlemen:

This society very much hopes that, in making up your budget for the coming fiscal year, an appropriation as nearly as may be up to the statutory limit of \$200, may be included for the use of this society in adding to its library of materials relating to the history of Marquette County. I am asking the Treasurer to submit to you our report of receipts and expenditures for the last fiscal year.

While the society is able from time to time to secure accessions of material without expense, books, manuscripts, maps, photostats, etc., handled by regular dealers have a price and our principal additions are from such sources. During the past year we have added among other items, a complete set of photostats of the original plats of the townships and islands of the county as found in the Lands Division of the State Department of Conservation. We subscribe to a series of periodicals that contain references to occurrences within the county. We have added necessary filing equipment. Using a bequest from Mrs. J. M. Longyear we have purchased a building in Marquette to be reconstructed for the purpose of housing our museum and library and to make these accessible to the public.

Your past co-operation is gratefully acknowledged. It has been a very important element in our success.

Faithfully yours,

L. A. CHASE,
Corresponding Sec'y.

Marquette County Board of Supervisors,
Marquette, Michigan

Gentlemen:

Below is a summary of the work of the Michigan Children's Aid Society in your County for the year October 1, 1935 to October 1, 1936. During this year the Society has been of assistance to 32 children in Marquette County. This service has been distributed as follows:

(a) 22 children were in approved boarding homes with board, clothing and medical attention provided.

(b) 1 child was supervised in his own home.

(c) 1 child was supervised in an adoption home.

October 12, 1936

(d) The home conditions of 8 children in 7 different families were investigated and plans made for their protection and care.

(e) 5 new boarding homes were investigated.

The gross cost of service during the year was \$4,377.54. Reimbursements received from the County, relatives or other sources amounted to \$1,432.95, leaving a net cost of \$2,944.59.

Based on the above figures we are asking for an appropriation of \$800 from Marquette County to enable us to carry on our work this coming year. A representative of our Society will be present to address the Board in our behalf on Monday, October 12.

We wish to thank you at this time in anticipation of your financial assistance.

Sincerely,

EDWARD S. BICE, Sec.-Treas.

✓
GOOD WILL FARM

To the Honorable Board of Supervisors:

Friends: -- When tragedy enters a home, and a father or mother is stricken with sickness, insanity or death, and the family is left lonely, troubled and destitute, Good Will Farm enters the breach and offers to care for their little ones until the disabled parent is well and able to re-establish their home or until foster parents are found.

And Good Will Farm provides for its children just what a good parent wants:

A clean, attractive, comfortable home.

Education: Our children attend the public or parochial school (according to their faith) and nothing but illness interferes with their regular school attendance, and where they have home-work they are given help with that.

On Sundays they attend their own church or Sabbath school.

Musical training: Every child who wishes and will practice is given music instruction on whatever instrument he is most interested in and is qualified to perform on.

Prompt nursing and medical attention is given when needed. This summer nineteen boys and girls had diseased tonsils removed.

Books: Our living room shelves are lined with hundreds of the best.

The State Welfare Commission which supervises all children's work in Michigan, when making their annual inspection here this summer told us that our home was quite ideal. We are located at the edge of town, away from dangerous traffic, amidst five acres of the most beautiful wooded country in the county. On the play ground there are swings, slides, teeters, a flying dutchman and a big sand pile; just all the things that are dear to the hearts of little children, and in addition in summer there is swimming and fishing; in winter skiing and skating, so that nothing is lacking to make their lives full and complete.

We never refuse your Probate Judge or other officials when they ask us to take children because we always have room. Should we be filled here in the home we have many fine boarding homes where we board children, so that we are ready and willing to serve you always.

Even in normal times we found it difficult to meet the needs pressed on us, and now this economic crises which the depression has brought about has dangerously depleted our resources, and we find ourselves having to meet an increased need with a decreased income.

We realize that you too are having to wrestle with money matters, but we sincerely trust you will find a way to help these brave little unfortunate children.

You know that we have no solicitor. We do our soliciting by mail, which means a big saving, and is less annoying for our friends.

Assuring you of our sincere appreciation of your generosity and interest in the past, I am,

Sincerely yours,

E. MAC DOUGALL, Supt.

P. S. -- Do come up and see us some time.

MARQUETTE COUNTY EMERGENCY WELFARE RELIEF COMMISSION

Ishpeming, Mich., Aug. 31, 1936.

Mr. Frank Jenks, County Clerk,
Court House, Marquette, Mich.

Dear Mr. Jenks:-- I am writing to you on the subject of local contributions to the Marquette County Welfare Relief Administration, and the agreement that was entered into by this administration and the County Board of Supervisors that 40% of the total cost would be provided by the Marquette County Board of Supervisors. The actual percentages of the total cost of relief to the Marquette County Welfare Relief Administration paid for by local contributions have been as follows:

January, 1936	- - - - -	39.1%
February	- - - - -	40.0%
March	- - - - -	31.3%
April	- - - - -	38.7%
May	- - - - -	34.07%
June	- - - - -	27.54%
July	- - - - -	40.26%

I am in receipt of a letter dated August 24th from William Haber, State Relief Administrator, concerning the State funds allotted for the September re-

October 12, 1936

lief costs. Part of his letter reads as follows: "You are authorized to make commitments only against your allotment of State Funds plus any available local funds. Deficits may not be incurred without authorization from the State office and in no case can a deficit be incurred against State Funds."

You will note that nothing is said about 60% of the total costs being defrayed by state funds. However, I might mention that the amount allotted from state funds, namely, \$4,200.00, is approximately 60% of the estimated cost for September. I am bringing this matter to the attention of the Board so that in the event that Marquette County is asked to provide more than 40% of the relief cost of the Marquette County Welfare Relief Administration for any particular month they should bear in mind the previous months of this year when the actual local contribution was lower than 40%.

Yours truly,

WM. J. FOUNTAIN,
Administrator.

STATE OF MICHIGAN

ATTORNEY GENERAL'S DEPARTMENT

Lansing, Mich., Oct. 8, 1936.

Mr. Frank G. Jenks, County Clerk,
Marquette, Michigan.

Dear Sir:-- I am in receipt of your favor of the 6th inst. in which you inquire as to whether the state should not pay the expense of getting the ballot boxes as ordered by the State Board of Canvassers, for the recount on the Democratic candidates at the Primary for United States Senator.

I direct your attention to Section 8238 of the Compiled Laws of 1929, as follows:

"All expenses incurred in the conduct of the recount of such votes in any county shall be paid by the county. All expenses in connection with the direction, supervision and control of such recount by the board of state canvassers, shall be paid from the general fund of the state on vouchers to be approved and audited by the state board of canvassers."

The bringing of the ballot boxes to the county seat by the several clerks is a part of the expense of the conduct of the recount, and is not an expense incurred in direct supervision and control. The expense of bringing the ballot boxes to the county seat, under this statute, must be paid by the counties.

I agree with you that this is somewhat unfair inasmuch as, upon withdrawal of the petitions, the money is refunded to the petitioner.

An attempt will be made to have the next Legislature amend this statute, forbidding the return of money to candidates who withdraw. It is believed that this will put an end to the practice of petitioning for recounts where sufficient basis in fact do not exist to justify them.

Yours very truly,

DAVID H. CROWLEY,
Attorney General.

STATE EMERGENCY WELFARE RELIEF COMMISSION

Lansing, Mich., Oct. 8, 1936.

To: Chairman, Board of Supervisors,
Dear Sir:

Re: Emergency Relief Appropriations for the next County fiscal year.

As a result of experience during the past year, the State Emergency Welfare Relief Commission feels that each county with the knowledge which it has concerning its relief needs, can best decide as to the amount of direct relief appropriations necessary for the county for the next fiscal year.

As the result of meetings with officials of a number of counties it is suggested that a program for financing relief needs, which includes all local welfare problems, be worked out at a meeting of the Board of Supervisors with the principal welfare and relief officers of the county. Insofar as direct relief appropriations are concerned, it is suggested that the past year's experience may be used as a basis for appropriations except in those counties where the amount of local relief appropriations, when added the state allotment, have not been sufficient to maintain a minimum standard of living, and where the county is financially able to make such appropriations.

Undoubtedly there are two things of which we can be certain--first, that will be a direct relief problem in each county; and second that there will not be sufficient available state funds to meet this need. The SERA office will be glad to assist any local community in working out its problem, if we can be of service.

Insofar as the State Commission's activities relating to the financing of direct relief in your county during the next fiscal year are concerned, there is already under way a thorough survey which will make possible the distribution to the counties of emergency relief funds on an equitable basis. As far as present information goes, the State Relief Commission hopes to be able to continue to make allotments to counties on the basis of its present allotments, making allowance of course for the increased needs which may result because of winter weather. It is, however, evident that there will not be sufficient State funds available to substitute for local relief funds in counties which are financially able to appropriate and do not make such appropriations to adequately meet their own needs.

Very truly yours,

WILLIAM HABER,

State Relief Administrator.

October 12, 1936

The following communication was read, and it was moved by Supervisor Stakel that this be referred to the Budget and Executive Committee. The motion was supported by Supervisor Gribble and carried.

MARQUETTE COUNTY EMERGENCY
WELFARE RELIEF COMMISSION

Ishpeming, Mich., Sept. 28, 1936.

Mr. F. G. Jenks, County Clerk,
Marquette County Court House,
Marquette, Michigan.

Dear Mr. Jenks:-- The matter of transferring Mothers' Pension cases from the jurisdiction of the probate court to that of the Marquette County Welfare Relief Commission in order to qualify for Federal grant under the Social Security Act, was approved by a resolution adopted at the May meeting of the Marquette County Board of Supervisors with the provision that this would not be effective until the Board of Supervisors had been officially notified that Michigan's plan for the administering of such aid was approved by the Social Security Board.

I am therefore submitting to the Board the enclosed copy of S.E.R.A. letter No. 637 which carried notification of the approval by the Social Security Board of Michigan's plan for administering this aid through the various county relief commissions operating under the State Emergency Welfare Relief Commission. I am also enclosing copies of Miss Ruth Bowen's letters to me further emphasizing that this plan has been approved by the Social Security Board. In order that there shall be no question as to the legality of the transfer I have requested Dr. Haber to write a personal letter to the Board of Supervisors to be read at the next meeting to be held on October 12th. It is hoped that final action will be taken by the Board so that these cases may be transferred as of October 1st, which is the beginning of a new quarter, and thereby secure the maximum Federal grant for Marquette County.

Yours truly,

W. J. FOUNTAIN, Administrator.

The following communication was read, and it was moved by Supervisor Nicholas that the same be filed. Supported by Supervisor Nardi and carried.

COOPERATIVE EXTENSION WORK

Marquette, Mich., Oct. 12, 1936.

To the Honorable Board of Supervisors
of Marquette County, Michigan.

Gentlemen:-- I have been called to attend the annual conference of county agricultural agents and Extension specialists of Michigan State College, which will be held November 4, 5 and 6.

I have attended these conferences annually and have found them very essential in the work, in fact it is considered part of the regular work of county agricultural agents to attend.

The Extension division of the State College has paid the travelling expenses for many years and will do so this year. The county has always paid my hotel and meal expenses. Some months ago the Board passed a resolution to pay only railroad fare to county officials attending conferences. I am asking the Board to give me the privilege to attend this conference and put in my hotel and meal expenses instead of railroad fare.

Very truly yours,

L. R. WALKER,
County Agricultural Agent.

The following communication was read, and upon motion of Supervisor Perring, supported by Supervisor Nightingale, referred to the Auditing Committee.

U. S. DEPARTMENT OF LABOR

Marquette, Mich., Oct. 12, 1936.

Marquette County Board of Supervisors,
c/o Mr. Frank G. Jenks, County
Clerk, Marquette, Michigan.

Gentlemen:

I have been asked by members of the Auditing Committee to submit a formal request for the honoring of certain telephone calls made outside of Marquette County. I can assure you that any calls of this nature are incidental to the work of the National Reemployment Service here in Marquette County, also that we religiously endeavor at all times to keep our telephone expense down to a minimum, resorting to this means of communication with outside points only when the use of same is imperative. I wish to assure you further that only when this county is to receive benefit by such calls does it bear the expense of same.

October 12, 1936

For instance, some time ago we had occasion to call our office in Munising for two carpenters to work on a job in Marquette County. This call was reversed to our office in Munising because, inasmuch as we were offering employment to Alger County men it naturally follows that the benefiting office should bear the expense. Reversing the above example, if our Munising office had called us for carpenters, Marquette County men would be receiving employment and Marquette County should absorb the expense. This policy is prevalent throughout the Marquette District, which comprises the fifteen counties of the Upper Peninsula.

I trust that you will give the above matter your favorable consideration and wish to thank you for your co-operation, which you have extended to our organization since its inception.

Yours very truly,

T. A. DOWNEY, Manager,
Marquette District.

We recommend that the Board of Supervisors re-adopt the plan made effective at the Annual Meeting of October 10th, 1932, with reference to fees and salaries of county officers. We also recommend, however, that the Board of Supervisors make an exception in the case of the Sheriff, and that he be allowed to retain all of the fees collected by him, making it unnecessary for him to report his fees and turning them over to the County Treasurer on the last day of each month.

We also recommend that the County Agricultural Agent be limited to \$500.00 per year for mileage and expenses.

Your Committee also recommends that the various departments in the Court House keep within the budgets as adopted by the Board of Supervisors, and that no extra Clerk hire or salaries be paid to the various clerks and stenographers beyond that fixed by the Board. In case a contingency arises and a department becomes overcrowded with work, we recommend that the head of that department present this matter to the Board of Supervisors, where the matter can be correctly considered and authority granted whenever necessary to exceed the figures set up in the Annual Budget.

CHARLES J. STAKEL,

October 12, 1936

Finance and Taxation Committee, Marquette County.

A bill from H. H. Pellow for repairs to the roof of the Jail and the Sheriff's residence was presented, and it was moved by Supervisor Laine that the bill be allowed and presented with the Auditing Committee's report, which was supported by Supervisor Weiland and unanimously carried.

The report of the Auditing Committee was read, and upon motion of Supervisor Nightingale, supported by Supervisor McNamara, adopted by the following Yeas and Nays vote:

Yeas: Allen, Anderson, Annala, Danielson, Dobson, Dolf, Ewing, Ghiardi, Gribble, Heikkila, Hebert, Jernstad, Labold, Laine, Mackey, Mitchell, Mongrain, Muck, Mussatto, McNamara, Nardi, Nelson, Nicholas, Nightingale, Perkins, Perring, Price, Richards, Stakel, Stearns, Stenglein, Swanson, St. Onge, Toms, Warmanen, Weiland, Wiseman, Yelle and Van Riper--39.

Nays: None.

The following report was read and ordered filed by the Chair.

October 9, 1936.

Board of Supervisors, Marquette County:

The undersigned members of the Morgan Heights Sanatorium Contact Committee have, on the invitation of the trustees, recently inspected the Institution. We found the property in excellent condition and noted a number of improvements which will be of considerable benefit in its future operation. We were very much impressed with the facilities which have been developed by those in charge for the treatment of tuberculosis. The trustees have given diligent attention to matters pertaining to the Sanatorium. They not only have been working on the buildings and equipment but have also, as a result of several years observation, made changes in the personnel which they and we believe will place our County Sanatorium well forward in the most efficient and modern treatment of tuberculosis.

The trustees have impressed us with the handicap resulting from a limitation to the one mill tax for its operation. Last year the Board of Supervisors reduced the amount requested for Morgan Heights Sanatorium and consequently the current surplus is about used up. The budget submitted by the trustees this year is again in excess of the one mill tax. We confer with the trustees that the amount requested is definitely required and recommend to the Board of Supervisors that some arrangement be made to permit of the full appropriation requested.

Respectfully submitted,

JOHN GHIARDI,
JERRY HEBERT,
MATT ANNALA,
IRVING MITCHELL,
C. E. DOLF,
P. R. PERRING.

The following report was read, and it was moved by Supervisor Nelson that the report be adopted. Supported by Supervisor Toms and unanimously carried.

Marquette, Mich., Sept. 16, 1936.

To the Honorable Board of Supervisors,
Marquette County, Michigan.

Gentlemen:-- Your Poor Contact Committee met with the County Poor Commission on the above date and having under consideration the matter of petition of Mrs. Emma Coles, in regards to rental of dwelling to a Mr. Matt Maki, do hereby submit the following report.

Mrs. Emma Coles received twenty dollars rent for two months, May and June, 1934, which was paid by the County. Mrs. Coles was to assume the responsibility of the rent after Mr. Maki began work. Mr. Maki began work prior to June, 1934. Records show that Mrs. Coles received rent for nine months at the rate of ten dollars previous to June, 1934, paid by the E.R.A. This has been strictly an E.R.A. case since June, 1934.

We hereby recommend that the petition be denied.

Yours truly,
WILLIAM NELSON,
RUSSELL H. TOMS,
JOHN T. DOBSON,
THOS. O. PRICE.
