Sacramento, Calif., May 1 .- An indication of the form the Democratic opposition will take to the passage of the Webb redraft of the anti-alien land bill was given in the senate today when the MANY BANKS WILLING measure came up for final action.

It was the original plan of the progressive Republican majority to force the measure to a vote at once, but at the request of the Democrats a postponement of one day was granted at the last minute. In return for the delay, the administration leaders received a pledge that the minority would abide by the results as shown in the final roll call tomorrow, and not demand a reconsid-

The safety of the funds entrusted to this Bank indirectly affects the whole community, as much, if possible, as it directly affects its depositors and the Bank itself.

Thus, the chief concern of its management, and of the wise laws to which a National Bank willingly responds, have to do with the safeguarding of depositors' funds. "Safety first" is the invariable iron clad rule.

The record of this Bank is one that inspires confidence in its determination to measure every transaction by the rule of safety.

## Cure for EXTRAVAGANCE

THERE is no use denying that the cost of living is higher today than it has been in a very long time. It is a condition and not a theory that confronts every householder who has to think twice before making an expenditure, with income stationary and expense advancing. Under these circumstances the need for systematic economy is much greater if one desires to get ahead at all. The tendency sometimes is to give up attempts to save money when it seems hard to accomplish the result, but remember that it is doing the hard things that develops character and thought. In this case self-sacrifice brings its own reward. Save 5 per cent of your income if you cannot do any better, but save something and let this bank help you with 3 per cent compound interest. the close of a long and successful career as a businessman in this c'ty which dat ed back to 1861, when, at the age of twenty-one years, he arrived in Marquette from his birthplace in Canada He was born July 9, 1840, in Brockville Ont., and was the son of William and Sarah (Clark) Manhard, both deceased. He is survived, besides his son, by brother, Howard Manhard, of Walla Walla, Wash., and his sister, Mrs. Foster, who lives with her son, James C Foster, in Newberry.

Ernest, industrious and possessing rare business instinct, Mr. Manbard came to this city to find work as a tinsmith, a trad which he had learned by apprenticing himself without remuneration at his home in Canada. He spent about two years here and then departed for Negaunee, where he finally became associated with J. B. Maas, then a hardware dealer and in whose store he obtained his first insight into the hardware business. were sent to the principals of upper peninsula high schools, asking for an expression of sentiment regarding the pro posed athletic gathering. Most of thes chool officials have answered with glov ng enthusiasm, promising even greater articipation than was the case last year hile in June, 1912, eight high school ere represented in the meet conduct inder the auspic s of the Northern Stat ignified their intention of sending cams. From now on, until the day the meet, the Normal Athletic association tion will conduct a stremuous campai to arouse interest in the meet, not or sula. A similar campaign last year sulted in bringing the Normal before t people of the upper peninsula in such manner as it was never before advertise and its effect was far-reaching.

#### Free Transportation for Many.

The representatives of the upper pe sula high schools will come here at the invitation of the Normal school and, for lowing the policy adopted last year, th chool will pay the transportation e senses of four contestants from each shool that has entered. These letter must be on file, according to the rule adopted in 1912, on the Saturday pri to the meet. No limit is, however, place on the number of individual entries for each school, and from the present indica tions there will be at least one hundre the greatest among which was the typhoid fever scare, the mest was largel attended by both out-of-town partici pants and spectators. It is hoped the the gate receipts this year will be mularger, as the expenses will be mu-

Letters received by the athletic ass iation have been highly commendator of the efforts of the Normal in estab lishing the annual track and field meet and of encouraging participation by the adoption of regulations that are easily met and which afford a basis for emula tion in track and field athletics. Each letter told of track and field work already being started and of the enthusi asm with which the young men are entering into practice in the hopes of being selected for the teams that are to be sent to Marquette. The annual meet has stimulated an interest in high school athletics that is greatly appreciated throughout the peninsula.

#### System of Scoring and Awards.

The systems of scoring and awards will be the same this year as last. Each school may enter only three men in any one event and start only two, the thir man to be used as a substitute. Any one man from any school may participate in four events only, but as thit rule takes no account of the three relay participate in seven different events The prizes will be awarded in ribbon for each of the four highest scores an silver trophy cup will go to the team making the greatest number of points.
