

## CHIEFS IN THE G. O. P. GATHER IN CONFERENCE

### Meeting Convened at Chicago to Consider the Matter of Reorganizing the Party Along Progressive Lines Is Attended by 40 Leaders, Representing 9 States.

### Round-Table Discussion Results in the Appointment of a Committee of Five, One of Whom Is W. Frank James, to Present Today Concrete Plan for Rehabilitation

Chicago, May 11.—A concrete proposal for the rehabilitation of the Republican party is to be presented tomorrow to the conference of Republican senators and leaders here by a committee of five appointed tonight after the conferees had discussed fully the situation.

Tomorrow's conference is to revolve about the report which the committee drafted tonight and which is to express the consensus of opinion of the Republican leaders attending the meeting. The committee is composed of Robert Luce of Massachusetts, Senator Bryan of Idaho, State Senator W. Frank James of Michigan, United States Senator Kenyon of Iowa and State Senator James Trautman of Kansas.

### Six U. S. Senators Present.

Gathered at the conference called to consider proposals to reorganize the party were six Republican United States senators and thirty-two other party leaders, representing nine states. The immediate subject before the assemblage was as to what action shall be sought at the meeting of the Republican national committee at Washington May 21 looking toward reorganizing the party along progressive lines and as to whether there shall be a Republican national convention this year.

The conference lasted for more than four hours and was held in a room overlooking the lake in a room where the seven governors last year drafted the letter urging Colonel Roosevelt to be a candidate for the presidency. Although the public was not admitted, Senator Albert B. Cummins stated "It was merely an informal talk, a sort of a round-table discussion of what may be done for the best interests of the party by reorganizing it along progressive lines."

### Sherman of Illinois Presides.

Presided over by Senator L. V. Sherman of Illinois, the discussion was participated in by Senators Cummins of Iowa, William E. Borah of Idaho, C. C. Crawford of South Dakota, A. J. Gronna of North Dakota and William S. Kenyon of Iowa, Congressman E. A. Hayes of California and J. W. Good of Iowa and many members of state legislatures.

"Did you come to a decision as to whether there ought to be a national convention this year?" Senator Cummins was asked.

"We did not decide on that, but everyone seems to feel that the condition of the party seems to necessitate a convention this year. Our informal talk today will be followed by a more formal conference tomorrow, when former Governor Hadley of Missouri will be here. We shall then issue a statement telling just what we think ought to be done in behalf of the party."

Somewhat asked Senator Kenyon whether there was to be an effort made to get a new national committee. "That subject did not come up, but most of us would have no objection if the present committee resigned," Mr. Kenyon replied. "What did come up was a proposition to have the next committee take office soon after its election, so that it might pass upon the credentials of the delegates to the 1916 convention."

### Meet Where Third Party Was Born.

The conference brought together the largest assemblage of Republican leaders in Chicago since last year's convention. When Senator Kenyon noticed that the room assigned for the conference was also the one used as the Progressive party headquarters, he said:

"What! Are we going to reorganize the Republican party in the very room where the Progressive party was born?"

When the meeting adjourned for the day, Senator Sherman gave out what he said was a synopsis of the discussion.

"We considered," Mr. Sherman said, "whether the national committee should be as inflexible in character as it has been. The opinion was that the committee should be amenable to public opinion and keep pace with what is going on."

"There was no action on the question of calling a national convention this year. A call, of course, would have to come from the national committee. The question then arose as to whether the committee would issue a call, and we felt that the committee would yield to the sentiment of Republicans generally on that point, as last year's election was a pretty positive indicator that some radical change should be made."

"We agreed that Southern representation in the convention should be cut down according to the strength of the party in each Southern state. We did not take up the details as to how this should be done, but left that to be worked out later."

### Presidential Primaries Favored.

"Presidential primaries were not considered, but I think we are all agreed as being in favor of them. Our whole conference was merely informal, permitting us a free and easy interchange of views as to ways and means of reorganizing the party as some of us progressive Republicans see it."

Senator Cummins, who had been here since yesterday arranging for the meeting, was asked why the formal meeting was put off until tomorrow to await former Governor Hadley's arrival.

"Well," Mr. Cummins said, "on ac-

count of its being Sunday we did not want to transact what might be considered business."

## CHICAGO POLITICIAN ACCUSED OF A SWINDLE BY MILWAUKEE WOMAN.

Chicago, May 11.—C. P. "Barney" Bertsche, politician and former convict, charged by State's Attorney Hoyne with having arranged protection to a ring of pickpockets, safe blowers and wire tappers, was arrested in a spectacular raid here early this morning. He was released on bonds tonight. Bertsche was looked on a charge of conspiracy, after detectives had broken down the door of his home and overpowered him.

The charge of conspiracy arose in the case of Mrs. Hope L. McEldowney, of Milwaukee, who alleged she had been swindled out of \$15,000 by Frank Ryan, who is charged with being a member of the so-called clairvoyant trust. Bertsche's name appeared as endorser of the draft given Ryan by the Milwaukee woman.

The state's attorney charges that Bertsche arranged for the importation of a ring of confidence men, on the claim that he could extend protection to them. Numerous other politicians as well as some members of the police department are involved in the conspiracy, according to the state's attorney.

## MONEY LAUNDRY READY FOR DUTY

### Uncle Sam's New Plant at Washington Will Turn Out 100,000 Notes Daily.

Washington, May 11.—The federal government's "money laundry" will be in full swing this week, when the treasury department will begin the operation of four currency washing machines, turning out daily 100,000 washed and ironed notes which otherwise would be destroyed.

Simultaneously with this experiment, the question of forbidding the washing of money because of the alleged danger of counterfeiting is being agitated in congress. Secretary McAdoo and Treasurer Burke, however, have announced their intention to give the machines a fair trial, devoting particular attention to the danger of counterfeiting.

The one machine in the treasury for some years has been reinforced by three imported machines and by their results will depend the efficacy of the "money laundry." The sub-treasury at New York already has four machines, and those at Boston and Philadelphia one each. It is claimed the "laundry" will save the government a half million dollars or more yearly.

## MOTHERS' DAY OBSERVED IN NATION'S CAPITAL

Washington, May 11.—"Mothers' Day" was grandly observed in the national capital today. President Wilson, cabinet officers, members of congress and thousands of Washingtonians joined in paying homage by wearing white carnations and attending services where "Mothers' Day" was the theme of the sermon. The president and members of his family attended the Central Presbyterian church this morning, and each of them wore the carnation, the recognized emblem of Mothers' Day.

## CANCER PATIENTS SHOW IMPROVEMENT

### Opiates Made Unnecessary After Inoculation With Dr. Newell's Rabbit Serum.

Boston, Mass., May 11.—A marked improvement has been noted in the condition of fifty cancer patients at the Massachusetts Homeopathic hospital who have been inoculated with the rabbit serum recently discovered by Dr. Howard W. Newell of Boston University. That is the substance of an announcement made by a committee of five physicians connected with the hospital. Within forty-eight to ninety-six hours after the first inoculation, says the report, all the patients were made so comfortable that opiates had been dispensed with.

While some of the patients had shown a gain in weight, Dr. Newell said that sufficient time has not elapsed to draw conclusions. He does not advise anyone to take his treatment where surgery is possible, and, with his fellow physicians, recommends that at least a year should pass before definite statement may well be made.

Dr. Newell admitted for the first time that he had apparently "cured" many rabid cancer patients from virus obtained from a human malignant growth. Previously he had announced his success in immunizing rabbits. He disclaims, however, that he has a cure for "the world's second greatest scourge."

## LOS ANGELES REWARD MONEY TO GO TO DETECTIVE BURNS.

Sacramento, Cal., May 11.—The \$10,000 reward offered by the state tycoon ago for the apprehension of the persons responsible for the dynamiting of the Times building in Los Angeles is about to be paid. A bill appropriating that amount to satisfy the claim of William J. Burns against the state was passed yesterday in the assembly and sent to the governor, having already passed the senate.

## SHRINERS RALLY AT DALLAS.

Dallas, Tex., May 11.—With the arrival of Imperial Potentate William J. Cunningham, of Baltimore, accompanied by a large delegation of nobles, Dallas today became the temporary headquarters for the imperial council, Ancient Arabic Order of the Nobles of the Mystic Shrine, and will be the Mecca for the mystic of the desert for the next five days. The first session of the imperial council will be held Tuesday morning. The convention will be in session for three days.

## ASK GOVERNOR OF CALIFORNIA TO VETO BILL

### President and Premier Make Final Effort to Prevent Enactment of the Land Measure—They Promise to Strive to Reach the Desired End by Diplomacy.

### Should State Executive Sign the Legislation, a Test in Courts Is Regarded as Certain, With a Possibility a Resort to the Referendum Will Be Made Also.

Washington, May 11.—The federal government's final effort to delay all land-owning legislation in California was made tonight when Secretary Bryan, in the name of President Wilson, telegraphed Governor Johnson, notifying him that the Japanese ambassador had expressed protest against the bill passed by the California legislature and urging that the governor postpone action by withholding his signature.

Secretary Bryan's telegram, which was framed after a conference with the president yesterday, was dispatched tonight and made public at the White House a few minutes later. It was as follows:

### Hope for Diplomatic Arrangement.

"The president directs me to express his appreciation of your courtesy in delaying action on the land bill now before you until its provisions could be communicated to the Japanese government and considered by it.

"His excellency, Baron Chinda, has, on behalf of his government, presented an earnest protest against the measure. As you have before you but two alternatives, viz. to approve or to veto, it will avail nothing to recall to your attention the amendments suggested to the legislature; and as the president has already laid before you his views upon the subject, it is unnecessary to reiterate them.

"The president passes over questions affecting treaty rights for two reasons: First, because the bill passed by the legislature is avowedly intended to conform to treaty obligations, and, second, because any conflict complained of would be a matter for the courts; but the president feels justified in expressing again his desire that action on the subject be deferred until diplomatic efforts be expressed the desire the more freely because the legislature can be reconvened at any time if the welfare of the state requires it.

"The president is fully alive to the importance of removing any root of discord which may create antagonism between American citizens and the subjects of Oriental nations residing here, but he is impelled by a sense of duty to express the hope that you will see fit to allow time for diplomatic efforts. The nations affected by the proposed law are friendly nations—nations that have shown themselves willing to cooperate in the establishment of harmonious relations between their peoples and ours.

"If a postponement commends itself to your judgment, the president will be pleased to cooperate in a systematic effort to discover and correct any evils that may exist in connection with land ownership by aliens."

### Series of Conferences Held.

The decision of the administration to urge Governor Johnson to use his power of veto to postpone any land legislation was reached after a series of conferences between the president, Secretary Bryan and John Bassett Moore, counselor of the state department, and frequent calls at the department by Ambassador Chinda. It was realized that any further attempt to delay the bill enacted by the California legislature amended would be fruitless, since Secretary Bryan's trip to Sacramento was unavailing and the legislature is to adjourn next Tuesday.

Until Governor Johnson's reply is received, the government probably will make no reply to the protests of Japan, further than to acquaint the ambassador with the facts that every possible effort has been made to have action in California delayed, pending a settlement of the problem involved by diplomacy.

Whether or not the governor complies with the administration's request, there probably will be important diplomatic negotiations between the United States and Japan immediately. If the land bill is vetoed, the president and Secretary Bryan will have to undertake to carry out their promise to accomplish through diplomacy the end sought by the Californians.

### Two Alternatives in View.

There has been no intimation of what may be expected in the event the governor gives the bill his signature. However, a test in the courts is regarded as a certainty, if the law becomes effective, and in spite of the silence at the White House, and state department, there still is talk outside of the possibility of employing the referendum as a means for delaying the effectiveness of the proposed law for at least nearly two years.

### Governor Receives the Telegram.

Sacramento, May 11.—Governor Johnson received the communication from Secretary of State Bryan at a few minutes before 10 o'clock tonight, but declined to make any comment upon it other than to say he would formulate his reply as soon as possible.

"Will you telegraph your reply to-night?" he was asked.

"No, not until tomorrow morning, at the earliest," replied the governor.

## BUTTE POLITICIAN CONVICTED.

Butte, Mont., May 11.—Max Fried, Butte politician and man of affairs, was found guilty here yesterday of having

violated the Mann white slave act. The jury recommended a light sentence. Fried was charged with having brought Mrs. Grace B. Spokan here for immoral purposes in January, 1912.

## The Weather

Washington, May 11.—The following is the weather bureau's forecast for Upper Michigan: Increasing cloudiness; Monday, warmer in east and south parts; showers at night or Tuesday; cooler; Tuesday; moderate to brisk south winds, shifting to northwest Tuesday.

## EVIDENCE FOUND IN ROOMS OF CHINESE MAY BE CLUE IN THE ELSIE SIEGEL CASE.

San Francisco, May 11.—A key to the mystery of the murder of Elsie Siegel, granddaughter of General Franz Siegel, Civil War hero, in New York's Chinatown on June 18, 1906, is believed to have been found in the city of Oakland. In searching the rooms of Lee Dor, a Chinese who was arrested recently by the federal authorities, charged with having opium in his possession, the officers found a complete set of press clippings describing the death of the Siegel girl and a list of names of beautiful white women. Prior to this discovery, the prisoner had been released under \$1,000 bonds. His whereabouts now is unknown.

The Chinese suspected of strangling Elsie Siegel, who was a missionary among the Chinese, was Leon Ling. His description does not tally with that of Lee Dor.

## AFFAIRS VERY BAD IN SING SING PRISON

### Agent of Gov. Sulzer Reports Finding Conditions He Describes as Frightful.

Albany, N. Y., May 11.—"Stories of torture of prisoners in the Middle Ages sound like descriptions of luxuries in comparison to the tales that have been told me of the Sing Sing life," said an agent of Governor Sulzer who has just returned from a tour of inspection of the Sing Sing prison.

This indictment of conditions alleged to exist within New York state's oldest penal institution is contained in a report of an investigation of the prison made by George W. Blake, a special commissioner appointed by Governor Sulzer to probe prison affairs.

The investigator describes the conditions as "frightful." The prison cells, he says, are dark, small, damp, filthy and infested with vermin. In them men contract rheumatism and go out crippled for life. Into none of the cells on the lower tiers has a ray of sunshine entered for eighty years.

### Grafting Practiced, He Says.

Certain prisoners, Mr. Blake asserts, through political influence or by the payment of money, receive favors. He has evidence, he says, showing that because of influence exerted by men well known in numerous walks of life, money has been wrung from persons seeking clemency for prisoners.

"The commissary department of the prison," the investigator says, "is run along incompetent if not dishonest lines. There is criminal carelessness, if not downright grafting."

Mr. Blake charges that Colonel Joseph F. Scott, removed recently as superintendent of state prisons, was aware of the existence of certain of these conditions, but made no effort, so far as he knows, to remove them, or to minimize them. John S. Kennedy, warden at Sing Sing, also is charged by Mr. Blake with having violated the law.

## JACK FROST'S VISIT DECLARED COSTLY

### Southwestern Michigan Orchards Reported Badly Damaged by Last Week's Freeze.

South Haven, Mich., May 11.—After careful examination of hundreds of orchards in the southwestern Michigan fruit belt, well-protected fruit growers tonight declared that one-half of the promised bumper crop of everything but late fall apples was killed by the freeze of Friday and Saturday nights. There will be no early strawberries or pears, they stated, though the later varieties were less seriously affected.

Smuggling was resorted to in many places, but generally it proved ineffective, as the frost had penetrated the orchards before they could be warmed. The damage along the Lake Michigan shore was less severe than in the interior.

## TYPHOON IN PHILIPPINES CAUSES MANY FATALITIES.

Manila, P. I., May 11.—The worst typhoon experienced in years struck the islands today, causing many deaths and wrecking several small steamers and numerous lighter craft. The known fatalities at sea total fifty-eight, but the total death list from the storm, with swelling with incoming reports.

## WILL STREW HUSBAND'S ASHES ON SEA 1,000 MILES FROM LAND.

New York, May 11.—A golden urn containing her husband's ashes, which are to be strewn on the waves a thousand miles off Sandy Hook, was taken with Mrs. Harriet M. Howland of Norwich, Conn., when she sailed as a passenger on the steamship Berlin for Europe yesterday. The ashes will be disposed of in the manner stated in accordance with a clause of the will of the husband, Dr. George T. Howland, who died Sept. 24, 1911. Accidents to Mrs. Howland since his death delayed her carrying out his written wish before the present time. Dr. Howland was formerly a health officer of Washington, D. C.

## STRIKE LEADS TO FATAL RIOT AT FT. WILLIAM

### Police and Mob That Sympathizes With Street Car Employees Who Walked Out Saturday Engage in Battle—One Man Meets Death and Others Are Wounded.

### Fighting of Serious Nature and Due to the Same Cause Takes Place at Cincinnati, O., Also Resulting in One Fatality—Traction Service Is Suspended.

Fort William, Ont., May 11.—One man was shot to death, another was fatally wounded and several more were injured in a battle between police and sympathizers with the striking street car employees here tonight.

The trouble started when the company attempted to operate one of its cars. A mob gathered and attacked the car and those manning it, breaking windows and finally throwing the car from the tracks. The police attempted to repulse the crowd, but their efforts were futile.

Peter Landi was arrested and placed in a bank station. Armed with clubs and stones, a crowd gathered and attempted to rescue the prisoner. The police fired a warning volley into the air. The mob continued to approach. Several shots were fired by the police at the rioters, during which one man—Lindl—fell dead in the street. The police were reinforced and the crowd dispersed. The other man who was shot down has not been identified. The mob consisted mostly of foreigners.

Fifteen hundred men paraded the streets of Fort William in sympathy with the strikers who walked out yesterday, demanding increased wages and better working conditions.

### Similar Turbulence at Cincinnati.

Cincinnati, O., May 11.—One man was probably fatally injured and three others were hurt today when the first clash between the employees of the traction company and strikers and their sympathizers took place. When the company attempted to move several of its cars, Charles Webber, a motorman of Chicago, was pulled from his car and injured internally. He is not expected to live. The injuries of the other three, all strike sympathizers, were from thrown missiles and they are not serious.

The strike, which began Friday night, has tied up the street car system. After a futile effort in the morning to move a few cars, the traction company officials today confined their activities to procuring men for tomorrow, when a determined effort, it is said, will be made to resume service. Two hundred men to be used as motormen and conductors came this morning and were escorted by police to a street car barn.

## Colorado Car Men Quit Work.

Colorado Springs, Colo., May 11.—Service upon the Colorado Springs and suburban electric lines was suspended this evening after attempts had been made to operate with men who had imported from Denver and a few old-time men remaining loyal to the company. The men had been working upon a schedule of payment by the hour. No violence is reported.

## MINING CAMP CONDITIONS IN WEST VIRGINIA TO BE INVESTIGATED BY SOCIALISTS.

Chicago, May 11.—Victor L. Berger, former Socialist member of congress from Milwaukee; Eugene V. Debs, Socialist candidate for president, and Adolph Germer, Socialist leader, were appointed a committee of the Socialist party to investigate the conditions of miners in West Virginia and to make a personal report to President Wilson. The committee was named at a meeting of the national committee of the party. The committee also addressed a memorial to President Wilson, declaring that a reign of terror exists in West Virginia and asking an investigation by the department of justice.

Wheeling, W. Va., May 11.—Representatives of thirty-eight Wheeling labor unions, with an aggregate membership of five thousand, at a meeting here today adopted resolutions endorsing the demand of Senator John W. Kern, of Indiana, for an investigation of the conditions in the Paint and Cabin Creek coal mining districts of West Virginia.

## Second Trial for Patrick Quinlan.

Paterson, N. J., May 11.—Patrick Quinlan, the Industrial Worker of the World speaker, whose trial last week on a charge of inciting to riot in connection with the silk mills strike here resulted in a disagreement of the jury, will be placed on trial again tomorrow on the same indictment. Prosecutor Dunn made this announcement tonight. Quinlan, who is at liberty on \$6,500 bail, has been notified to appear tomorrow morning, and the state has subpoenaed the same witnesses who testified against him last week.

## O. of R. C. in Session at Detroit.

Detroit, May 11.—The Order of Railway Conductors, comprising forty-nine thousand members in the states and territories, the Dominion of Canada and Mexico, will meet in general convention here tomorrow to discuss the enactment of new laws and amendments to the old ones. It was announced by the committee on arrangements today that wage questions are not likely to come up for any official action.

## In Seeking Success Learn Wisdom from the Man Who Has Found It Rather than from the Man Who Awaits It.

## MADRID GIVES ALFONSO NOTABLY WARM WELCOME.

Madrid, May 11.—The Spanish people, proud of King Alfonso's personal popularity in France, greeted the sovereign on his return today from Paris with unusual enthusiasm. Women strewed flowers in the king's path between the station and the palace. Government and diplomatic dignitaries gathered at the station and the queen and the queen mother were there also to welcome the king.

## RECOVERY OF THE POPE CELEBRATED AT ROME.

Rome, May 11.—A solemn Te Deum was celebrated in St. Peter's today by Cardinal Rampolla in thanksgiving for the recovery of the pope. Thousands attended. All the churches were illuminated this evening, and at St. Peter's fourteen thousand lanterns and torches were utilized in illuminating the facade and colonnades. "The form of illumination was an outline of Constantine celebrating the jubilee of the freedom of the church."

## BRITISH FREIGHT STEAMER COLLIDES WITH AN ICEBERG.

Montreal, May 11.—The fate of the steamer Chiffen Hango, on a collision with an iceberg on the east of the Newfoundland banks on her voyage from Hull to this port, where she arrived today. The bow plates of the steamer, a British freighter, were badly dented by the iceberg, which struck the berg, and only the fact that she did not break up and escaped contact with any sharp section of the underlying portion of the berg saved her from disaster, in Captain Rea's opinion.

## SIX DROWN WHEN BOAT OVERTURNS

Wausau, Wis., May 11.—The overturning of a motorboat here late this evening caused the deaths of six persons—Florin Roehl, Gustav Jahnke and Jahnke's four children, Eleanor, Gertrude, Walter and Gustav, Jr. Four persons were saved—R. Radcliffe, Walter Roehl and Henry and Gilbert Jahnke.

The boat struck a submerged log, breaking the rudder. There was a heavy current and the boat struck a partly submerged pier, thereupon capsizing. The body of Gustav Jahnke, Jr., was recovered, but the others have not been found.

"The wife of Jahnke witnessed the accident from the shore."

## Bride Killed on Honeymoon Tour.

Cottonwood Falls, Kas., May 11.—Mrs. D. G. Hertz of Kansas City, a bride of four days, was killed and her husband was seriously injured here today when a train struck the automobile in which they were taking their honeymoon tour.

## FEDERALS AND CIVILIANS ON THE RETREAT IN MEXICO HARASSED BY INSURGENTS.

El Paso, Tex., May 11.—Riding everything from burros to bicycles, three hundred residents of Durango are harassing the federal garrison of the Chihuahua mining town, peacefully occupied last week by Constitutional forces. From Parrel to Chihuahua city is a march of two hundred miles. The trip will require a week. Most of the refugees are residents who had declared themselves against the revolution, thus endangering their safety when the twelve hundred federal troops were withdrawn.

It is thought that a battle will result before the arrival of the refugees at the state capital. Already there have come rumors of fighting, it being said that groups of insurgents have begun to harass the retreating federal column preliminary to an actual attack. A large portion of the column is of infantry. Necessitating slow progress, while the insurgents are all mounted.

## SERIOUS RACE WAR IN ARIZONA TOWN

### Americans Who Attack Mexicans at Miami Kill One Man and Wound Another.

Globe, Ariz., May 11.—One man was stoned to death and another seriously hurt in a race war between Americans and Mexicans early today at Miami, eight miles from here. The Americans were the aggressors and three of them are in the county jail here.

A gang of Americans determined to run the Mexicans out of town, and the first it encountered were Jose Peres and M. Ortez. The Mexicans were chased through the streets until they were killed with broken heads. Peres did not get away and Ortez was taken to a hospital.

A free-for-all fight, in which about fifty men took part, followed and not until the arrival of the sheriff and a posse from Globe did the rioting cease.

## ARGENTINA PLANS WAR ON U. S. BEEF COMBINE.

Buenos Ayres, May 11.—The Argentine government is taking measures to oppose the American beef combine in Argentina. The council of ministers will go fully into the question to prevent speculation unfavorable to the home market. The newspapers comment unfavorably on the so-called beef trust and the Argentine Rural society has called a meeting of cattle breeders to protest against an American monopoly. The minister of agriculture has invited the managers of the American refrigerators here to explain their intentions.

## WOMEN THROW ROCKS AT HOUSE OF JOHN DILLON

### Dublin Suffragettes Are Roiled When the Member of Parliament Says He Will Never Vote for Their Bill and They Retaliate by Stoning His Residence

### Many Windows Smashed—Hyde Park Rioting Gives London Usual Sunday Thrill—Crowds Break Up Two Meetings Held in Interest of Equal Franchise.

Dublin, Ireland, May 11.—John Dillon, member of parliament for East Mayo, surrounded by a band of suffragettes opposite the Mansion house on Saturday, told the women he would vote against them every time. Early this morning Mr. Dillon's residence was bombarded with stones. Many windows were smashed. Three women were arrested on the charge of breaking the windows on the premises of the United Irish league about the same time.

## More Rioting in Hyde Park.

London, May 11.—Another suffrage riot took place in Hyde Park this afternoon. The Men's League for Women Suffrage had been given permission to hold a meeting. Several prominent workers addressed a crowd of several thousand from a truck, but the crowd kept up a running fire of interruption with shouts of "Go home and make more bombs" and remarks about the burning of churches and the attempts to blow up St. Paul's.

After half an hour's endeavor to get a hearing, the league gave up, and the speakers were about to withdraw when the crowd broke through the police ranks. The wagon was overturned and partly wrecked. The police had difficulty in protecting the speakers and eventually had to resort then to the station for safety.

In the meantime, a suffragette planted a flag on the Park Lane side of the park, where fashionable people promenade, and started speaking. Men destroyed the flag and jostled the women until the police rescued them.

Another suffragette outrage is reported from Preston, Lancashire, where a white marble statue of the fourteenth Earl of Derby in Miller Park has been covered with liquid tar.

## ITALIAN MONARCHS MEET THE COMMISSION OF WHICH E. N. BREITUNG IS MEMBER.

Rome, May 11.—King Victor Emmanuel and Queen Helena are taking a deep interest in the visit of the American commission which is to study in Rome and other European capitals the question of agricultural co-operation and farmers' credit. The sovereigns and many members of the diplomatic corps went to the international institute of agriculture today to meet the American delegates, who had just arrived from Naples.

The minister of agriculture, Senator Nitti, had welcomed the delegates. Representative R. V. Moss, chairman of the commission, said: "We have come from the New World to the Old World in search of useful information. Our nation is paying the tribute of respect which youth with perfect propriety can always accord to age. Even in our distant country, we have heard of your majesties' deep and abiding interest in agriculture and in the international institute of agriculture made possible by your generosity. Therefore it seems fitting that this commission should begin its official labors here during the session of the institute."

Kenyon L. Butterfield, of Amherst, Mass., who followed Representative Moss said: "The group of American citizens who have been commissioned to discover better ways for aiding the American farmer have traversed nearly the same path as that of Columbus, so that they may learn here the lesson which the older civilization has on offer."

## TRAIN COLLISION COSTS BULGARIAN GOVERNMENT LIVES OF MANY SOLDIERS.

Saloniki, May 11.—Two Bulgarian military trains collided last night between Drama and Pank. One hundred persons were killed and three hundred were injured.

## Turkish Peace Envoys in London.

London, May 11.—The Turkish delegates arrived in London today for the peace conference. Dispatches from Sofia indicate that the Greek government is trying to delay the conclusion of peace by refusing to accept the draft of the treaty drawn up by the ambassadorial conference. The Bulgarian government, however, has notified Greece of its determination to permit no further delay in signing the peace treaty.

Friction between Bulgaria and Greece still menaces the situation. The mixed commission appointed by the two governments to reconcile the rival claims over disputed towns and territories in Macedonia has failed to reach an agreement. Two sets of representatives have arrived at absolutely opposite and irreconcilable conclusions.

## NEW FUNNEL AT VESUVIUS IS EMITTING DENSE SMOKE.

Naples, May 11.—The activity of Mount Vesuvius, which has been apparent for several days, reached a climax today, when parts of the crater collapsed. The tremblings of the mountain could be distinctly felt and after the explosion observations showed that a funnel two hundred and five feet deep had been formed. From this dense sulphurous clouds of white smoke ascended,

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY THE Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per year, by mail, \$6.00. Per month, by carrier, .50.

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

MONDAY, MAY 12, 1913.

A CLOSED INCIDENT?

If the resignation by Mr. Young of his seat in congress as the member from the Twelfth is followed by the seating of Mr. MacDonald to fill the vacancy now created...

And there is little doubt that Mr. MacDonald will be seated. His right to prosecute his contest was accorded by a number of representatives who spoke in the debate Saturday...

This will be a disposal of the matter that should be received with general approval. The issue involved is one that is much more important than individuals.

Miller, the Washington correspondent of the Detroit News, asserts that the appointment of John Purroy Mitchell to be collector of the port of New York indicates a purpose on the part of the administration to open war on Tammany...

And now this will undoubtedly be brought about by the action of congress. Every person who desires questions fairly decided and who abhors resort to technicalities to defeat popular verdicts should be content and pleased.

PROFESSOR TAFT LAGS.

It appears, in any event, that the Republican party in Michigan has progressed far beyond Professor Taft. The initiative and referendum which he describes as "very much like legislation during the French revolution..."

Unless Professor Taft is prepared to accept principles "very much like legislation during the French revolution" the Republican party cannot long be a permanent abiding place for him.

In the time ripe for the men who share the professor's views, and there is an influential and numerous body of them still trying to stick to the Republican party along with the radical progressives...

AND WHY, PRAY?

And why, indeed, should the United States recognize Huerta? By what title does he hold the office of president of Mexico, and by what authority has he set up a government to rule over its affairs?

Nothing can be more certain than the widespread approval of the American people for the course of the Wilson administration in denying recognition until the present Mexican government can show some title of legitimacy.

The Massachusetts Moozers are steadfastly opposed to proposals to reunite the Progressive and Republican parties. Addressing a meeting last week, Charles Sumner Bird, the Progressive candidate for governor last year...

Apologists for Huerta early urged that he would at least enforce peace on the country, as Diaz did. He was a "man of iron" before whose ruthless measures opposition would quickly melt away.

franches. But the "man of iron" has not yet left Mexico City. He is busy there trying to untangle the diplomatic knots by which his government is bound...

The public inclines to the view that the charges against Lieutenant Governor O'Hara, of Illinois, belong in the same category as those launched against Funk, the man whose testimony was responsible for the re-opening of the Lorimer case...

The plan to get schoolboys interested in mathematics as a means of figuring out baseball averages, will work excellently under certain circumstances. But what is the tactful parent or teacher to do when the home team is so misjudged as to persist in losing?

The state tax commission has just announced the results of a revaluation of Bay City by its agents. The new roll will show an increase of a fifth over the roll of last year, and aggregate \$22,100,000, in round numbers...

Things must be getting critical with Huerta when he loses his temper with Ambassador Wilson. By all accounts the complacency of the ambassador made the way much easier for Huerta when the unpleasant business of deposing Madero, and also disposing of him, was in progress.

Assurance is given at one and the same time that the proposed removal of the sugar tariff will make beet sugar factories unproductive of profits and still increase the price of sugar. It is difficult to understand how both these things can happen.

General Carranza, head of the revolutionary forces, has announced a list of the men he is going to hang when he takes possession of Mexico City. And Huerta is at the head of the list. This helps to explain Huerta's violent antipathy to Carranza and the Carranzists.

For governor? Looks very much like Hon. L. L. Wright at this particular writing, says Ishpeming Iron Ore. We don't think Pat Kelley will be looking for it, and Frank James, according to our idea, has other aspirations.

The department of agriculture also has undertaken to help the farmers solve this problem, and there is no doubt that, from one source and another, data will be obtained that will result in the formation of plans by which American farmers can borrow money on better terms than at present, and by which they can cooperate to get their products to market more cheaply.

The President wants a currency law this session of congress. Perhaps he reflects that it may be a long time before he will find congress in as tractable a frame of mind as it is at this time.

In Lord Rosmore's recently published "Things I Can Tell" he gives this story at the expense of Mr. Gladstone and the home rule agitation.

David Grayson, in an article in the current number of the American magazine, declares that many of our farmers are "helplessly dependent on money." They complain that "if they only had a little cash" they could accomplish more than they do.

The Massachusetts Moozers are steadfastly opposed to proposals to reunite the Progressive and Republican parties. Addressing a meeting last week, Charles Sumner Bird, the Progressive candidate for governor last year...

TIMELY QUIPS.

Give It Up. What would France do if the east wind blew some German dust over her boundary?—New York World.

Warning. Anyway, the man who always carries an umbrella for fear it may rain some time will never be a regular Napoleon.—Chicago News.

Proof Positive. Perhaps you have never thought of it but most people do really believe that cleanliness is next to godliness. Otherwise, why should there be a Saturday night bath?—Milwaukee Sentinel.

Lo, the Rich Indian. The Creek Indian who is receiving \$12,000 a month in royalties from Oklahoma oil lands has become the Rockefeller of his race.—New York World.

Art News. The announcement that a cubist camera has been invented should excite little comment, since all amateur photographers discover cubistic tendencies in their picture days.—Chicago Record-Herald.

Educational. The plan to get schoolboys interested in mathematics as a means of figuring out baseball averages, will work excellently under certain circumstances. But what is the tactful parent or teacher to do when the home team is so misjudged as to persist in losing?

A LAUGH OR TWO

Husband's Condition Unchanged. Two women, mutually confiding their groceries. One woman, a sweet little soul, the other, a self-assured lady.

Even Exchange. The man of whom we were told went into a downtown restaurant a noon or so ago and ordered a substantial lunch.

The Proud King. A dear old Irishwoman is the proud mother of a successful politician, who is now engaged to deliver a never-fails to write to the old lady regularly.

The Good Night Message. The patter of tiny feet was heard from the head of the stairs. Mrs. Kintery raised her hand, warning the others to silence.

A Well Cooked Breakfast. Two youthful artists having a studio in Philadelphia, wherein they not only work, but lodge as well, were obliged to make shifts, not long ago, during a period of financial stress.

Why He Failed. It was during the dinner hour and Mike and Pat were playing seven-up while waiting for the whistle to blow.

When Love Comes. Love comes to many among men when life has taken away much, as dimmed the early gladness and princely hopes.

LOWER STATE NOTES

FLINT—Charles George, Buick workman, is suing Ralph E. Deven, grocer, for \$15,000 damages because of the death of his son, Irving George, twelve, in July, 1912.

KALAMAZOO—At the side of the grave of his former wife, is the last page of E. H. Eberly, the missing shoe soldier, was seen. Friends who have taken up the search for him fear that he has either killed himself or has not found play.

LANSING—Eleven thousand dollars of the total of \$39,000 which the Lansing E. A. C. asks to be raised in one day was subscribed in a single morning.

PONTIAC—While Mrs. Joseph Thorpe, 116 North Saginaw street, left her home for a few minutes, the wind blew the curtains into the flame of the gas stove and set the house on fire.

LANSING—During the coming summer the public domain commission will spend \$6,000 to establish fire towers around the state forestry reserve near Higgins lake.

LANSING—A chauffeur who wanted his license issued in the shape of a ring had written the following letter to Secretary Martindale: "Dear Sir—Last year I got a license from your department but the pin came off the back and I could not wear it much."

LANSING—The tax levy for 1912 and 1913 will exceed the figures of the past two years by \$1,846,000, according to statistics compiled by Auditor General Fuller.

MUSKOGEE—A suit of \$35,000 has been commenced here against Dixon & Campbell, contractors, to build Muskogee's \$250,000 new water main, by Helen Mitchell, who claims that through their negligence that he is now blind in the left eye and that the right one is becoming sightless.

One Man's Great Work. New York vaguely knew of its police "system" and finally it, because it was said to be too firmly established to be broken down, in its functions which came directly before the notice of the public the police force was efficient and well managed.

Small change was more common in Saxon days than at later periods in English history. For, while the Normans coined nothing but silver, the earlier Saxons were accustomed to the use of brass in addition. The number of things--not always metals--of which British coins have been made is surprising. Julius Caesar is said to have coined leather money in Britain. James II. tried pewter and gun metal and some antiquaries have thought that pieces of coal were once used as money. At any rate, coal was once a slang term for money, as is the French braise (live coal) at the present day.

### City Brevities

Today's weather: Increasing cloudiness and warmer.  
Yesterday's temperature: Seven a. m., 39 degrees; noon, 47; 7 p. m., 60. Highest, 67 degrees; lowest, 36.

Nelson Cadarette, of Duluth, was home for the week end.

James Sinclair left yesterday for Detroit on a business mission.

E. S. Walters, of Munising, was a weekend visitor in Marquette.

F. A. Bell, of Negaunee, spent yesterday afternoon visiting in Marquette.

John Garvin, of Ontonagon, spent Saturday and Sunday visiting his son in this city.

Miss Elsie Magnuson, of Ishpeming, spent the weekend as the guest of Miss Helen Fassbender.

Thomas Gowling left last evening for Duluth, after spending Sunday at his home in this city.

Miss Angie Gallagher, a school teacher at Diorite, spent the weekend visiting her parents in this city.

Homer J. Penneck, of Baraga, and Peter W. Dungen, of L'Anse, spent yesterday visiting friends in Marquette.

Miss Elma Kraft, who teaches school at L'Anse, spent the week-end as the guests of her parents in this city.

H. B. Rogers, Jr., who spent Sunday calling on friends in Marquette, returned last evening to his home in Calumet.

August Paveglia, who spent the winter in Tulsa, Ok., stone carving, has returned to Marquette to spend the summer.

Leo Long, Mrs. T. A. Aho, Miss Adeva Horngren and Miss Julia Sorenson, of Rumley, spent Saturday in Marquette.

Karl W. Ellis, son of Rev. J. H. Ellis, spent the weekend visiting friends and relatives in Manistique, his former home.

Mrs. C. C. Carlisle will leave the first part of this week with her daughter Ruth for an extended visit in Grand Rapids.

C. E. Button and S. W. Shaull left yesterday for Grand Rapids on a business mission. Mr. Shaull will also go to Detroit.

The funeral of the late Frederick Lamere will be held this morning at 8 o'clock, with services at St. Peter's cathedral and burial in Holy Cross cemetery.

Miss Blanche Primeau, daughter of Joseph H. Primeau, who teaches school at L'Anse, arrived in the city Friday evening to spend the weekend at her home.

Olaf Sorenson, superintendent of woods operations for the Chocomaug Iron company at Rumley, and several members of his family, spent Saturday visiting friends in Marquette.

Joseph H. Primeau, Jr., has returned from a three weeks' trip through the south and west and is spending a few days at the home of his father in this city, before returning to Negaunee.

Wesley Sweet and William Ford, the latter of Harvey, caught thirteen trout yesterday at the mouth of the Chocomaug river. The fish weighed twenty pounds. Several of the trout weighed more than a pound and a half each.

Superintendent J. V. Brennan, of the Ironwood public schools, arrived in the city Saturday to interview prospective teachers among those students who are to be graduated from the Northern State Normal school this June, in the hopes of placing contracts to fill vacancies on his staff.

C. A. Laurier and wife left Sunday morning for Ottawa and Montreal, Canada, where they will visit a few days with relatives. From there they will journey to Western Canada, where Mr. Laurier has business which requires his attention. They expect to return to Marquette sometime in June.

While fishing yesterday in the Chocomaug district, Abe Agnew had the good fortune to catch a trout weighing three pounds, undoubtedly the largest taken from any stream this season. It measured twenty-one and one-half inches in length and four and one-half inches through the widest part of its body.

Six Members Received--At a meeting of the Boys' National club Friday evening at the North Marquette school, six members, including two had previously dropped out, joined the organization. The usual program was given.

Death of Mrs. Guhke--Mrs. August Guhke passed away last evening at her home at 728 Cedar street, aged forty-six years. She had been ill for more than a year with cancer. Besides her husband, she is survived by one son and four daughters. The funeral arrangements are not completed.

Spring Excursions--The South Shore railway has arranged for its annual spring excursions to Detroit, Cleveland, Toledo and Buffalo, by way of St. Ignace and the Detroit & Cleveland Navigation company's steamers. Rates of \$7 to Detroit, \$7.50 to Toledo, \$8.50 to Cleveland and \$9 to Buffalo will prevail June 7, 11, 14 and 18.

Concert This Evening--The Methodist Brotherhood will not meet this evening, because of the concert to be given in the church by the colored students of the Southern Normal college, of Alabama. A meeting will, instead, be held Wednesday evening, at which the program and schedule of summer meetings will be arranged. It is proposed to have meetings but once a month during the summer.

Traveling Men Play Ball--Nineteen members of Upper Peninsula council, No. 186, United Commercial Travelers, which recently decided to put a baseball team in the field, turned out for the first practice Saturday afternoon. Through a misunderstanding, eleven of the men went to the Longyear field, at the foot of Ridge street, while the rest went to the field at the corner of Pine street and Fair avenue, the appointed meeting place. Each squad indulged in a practice game with a picked-up team. Some good material was found in both squads and some lively future contests are expected.

Bushfire at Chocomaug--The farmers of the Chocomaug district were somewhat alarmed Saturday afternoon and evening by a bushfire which was started, it is believed, by fishermen camping on Silver creek, where it is crossed by the Southeastern railway, and which spread south in the face of the wind that prevailed most of the day until it had covered several acres of scrub pine and poplar growth. While the fire did not

gain really alarming proportion, South-eastern section men were dispatched to extinguish it Saturday afternoon and evening. Yesterday it was reported to have practically died down.

Fish Fry to Munising--Car No. 1, bureau of fisheries, department of commerce, arrived in Marquette early Saturday morning from Duluth, with a consignment of about one hundred cans of trout fry hatched at the government hatcheries in the Zenith City from spaw taken from Lake Superior waters near Munising. The car was coupled to the morning M. & S. E. train east and taken to Munising, where the infant fish were placed in the shoals in unexpended waters surrounding Grand island. The car was returned to the city Saturday evening and sent to Duluth on South Shore train No. 7, leaving here at midnight Saturday.

Appointed House Surgeon--Dr. R. C. Markham has received word of the appointment of his son, Dr. Harold Markham, as house surgeon of Flower hospital, New York city, where the young man has been serving as house physician for several months past. His term of service will begin July 1. Both of these positions are open to competitive examinations and are awarded to the successful candidate. The term of service is six months and offers young men who have graduated in medicine a rare opportunity to round out their medical education in actual practice under the most favorable conditions. Dr. Markham expects his son home in June for a brief vacation.

Speeder Fined--Joseph Guilbor, chauffeur for the Cleveland Auto company, was arrested and fined \$15 Saturday afternoon for speeding on Washington street from the corner of Third street west. He was charged with driving a 1910 Buick twenty-five miles an hour. The legal speed limit within city limits is ten miles. Upon returning to the heart of the city, after his little spurt of speed, the chauffeur was picked up by Marshal Manning and pleaded guilty before Justice Byrne. This is the first speeding case of the season. After the episode, Marshal Manning was overheard to remark that the speed laws are no different than they were last year. He anticipates harvesting a bumper crop of speed cranks before the snow flies again.

#### HOUSES UNDERMINED.

Chocomaug River Erodes Sand Bank at Second Bend at Harvey.

The rear of two of the Lake Superior Iron & Chemical company's dwelling houses, which face the South Shore right-of-way at Chocomaug and which are near the edge of a steep sand bank, mounted on the second curve above the mouth of the Chocomaug river, have been undermined by the river, and the buildings are threatened with being engulfed. The spring freshets, though they lasted but a comparatively short time, filled the Chocomaug river valley with a destructive torrent of water during the latter part of April, and the rapid erosion changed to a considerable extent last season's course of the river. The curves have widened on their outer edges.

At the point where the rear portions of the houses are undermined, the sand banks of the river on the east side are between twenty and twenty-five feet high. The base of the bank has been eroded, and the top has caved. The pile of the bank is unchanged. There appears to be only one alternative to allowing the houses to finally drop into the river and that is to move them east. They are at present untenanted.

#### MARCH REPORT.

Light and Power Commission Earnings Were Not as Large as Last Year.

The financial report of the light and power commission for the month of March shows a falling off of more than \$300 in the earnings compared with those for March a year ago. The net income shows a decrease of almost \$1,500, owing to the high manufacturing and general expenses. The shop earnings, however, show a substantial increase, as does the asset of delinquent accounts. The cash balance, it is to be noted, is practically the same as last year, while the total investment of the commission has increased to \$404,452.22. Below are the usual details:

	Mar. '13	Mar. '12
Street lighting	\$ 767 02	\$ 717 92
City lighting	92 26	85 85
Business lighting	1,617 98	1,598 47
Residence lighting	2,017 61	2,182 74
Power	661 46	966 89
Miscellaneous	69 60	49 73
<b>Total</b>	<b>\$ 5,226 09</b>	<b>\$ 5,443 60</b>
Expenses--		
Manufacturing	\$ 1,147 63	\$ 309 62
Distribution	492 01	633 32
General	1,263 04	585 52
Interest (per mo.)	300 00	318 75
<b>Total</b>	<b>\$ 3,142 68</b>	<b>\$ 1,846 61</b>
<b>Net inc.--electric</b>	<b>\$ 2,083 92</b>	<b>\$ 3,596 99</b>
Shop earnings	\$ 2,736 27	\$ 1,841 96
Delinquent acc'ts.	8,960 69	8,580 25
Cash bal., Apr. 30, 1912	11,125 31	11,770 72
Installations	2,405	2,204
Bonds--\$71,000.		
Investment--\$404,452.22.		

#### INSURE WITH PETER WHITE & CO.

#### NOTICE OF SPECIAL ELECTION AND REGISTRATION.

Notice is hereby given that a special election has been duly called by the common council of the city of Marquette to be held in the various wards of the city on Saturday, the 24th day of May, 1913, from 7 o'clock a. m. to 10 o'clock p. m., at which election a commission will be elected for the general revision of the charter of said city, consisting of three commissioners, at large and one commissioner from each ward.

Notice is also hereby given that the boards of registration of the respective wards of the city will be held on Friday, the 10th day of May, 1913, from 8 o'clock a. m. to 12 o'clock p. m.

Notice is also hereby given that the following places respectively have been designated for the registration and election aforesaid, viz:

First Ward--Lake Superior Carriage Works.

Second Ward--The building at No. 132 West Spring street.

Third Ward--Flanagan's Livery Office.

Fourth Ward--City Hall, Washington street.

Fifth Ward--The building at No. 225 North Third street.

Dated, Marquette, Mich., May 12, 1913.

DANIEL S. DOVONAN,  
Recorder of the City of Marquette.

Mr. Jas. Orenstein, the Furrier, of Calumet, Mich., will be at J. L. Walton's tailor store Monday, Tuesday and Wednesday, May 12, 13, and 14. Special orders. Repairing, remodeling and storage of furs. (5-94f.)

### MODERN METHODS AND MODERN BUSINESS

Something like \$250,000,000 worth of property is annually consumed each year by fire. Every business has certain valuable documents, patents, prints, formulas, secret processes which are afforded no sure protection in your business house. These can be kept in a safe deposit box in our vaults--in one of the most substantial buildings in the state. The vaults are fire-proof and burglar-proof. The sizes of the boxes range from 4 by 5 to 6 by 10 and the annual rentals from \$2.50 to \$5. May we talk this over with you?

### THE SANITARY ALL GAS KITCHEN

Picture to yourself this kitchen in operation--the Roud Automatic Gas Water Heater in the basement--without any attention--save the turn of a faucet, supplying you with unlimited, inexpensive, pure hot water. How convenient for cleaning and scrubbing--and time-saving to start your various cooking operations.

Think of the modern Gas Range--especially equipped for any mode of cooking--heat easily regulated to a "just right" temperature--no dirt--no ashes--no excessive labor, and all this comfort and convenience at a low cost for gas.

The best demonstration of the merits of these "comfort makers" is to see them in operation at our showroom or a postal will bring you complete information by return mail.

## IT'S FUN

To cook breakfast on a visible Gas Range. In five minutes after you enter your kitchen your task is almost done.

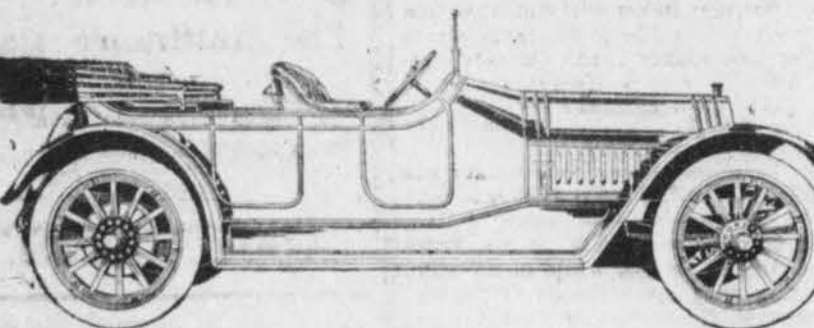

You can cook the things that papa likes best while he is getting into his clothes—the things you could not get ready on anything but a gas stove for lack of time.

It's such a simple matter to use a fire when you can turn the heat on or off or up and down with a little handle.

Yours for comfort, convenience and economy.

MARQUETTE COUNTY GAS & ELECTRIC CO.

YOUR reasons for buying a 1913 Mitchell can be concentrated in one sentence: it proves itself the most reliable, powerful, complete and beautiful car in the moderate price class.

All Mitchell 1913 cars have left drive and center control; Bosch ignition; Rayfield carburetor; Firestone demountable rims; rain vision windshield; Jones speedometer; silk mohair top with dust cover; Turkish upholstered cushions; Timken front axle bearings; gauges on the dash to show air pressure and oil pressure; gauge in gasoline tank showing amount of gasoline it contains; and a portable electric lamp which also illuminates the instruments on the dash.

## Ishpeming Department

### FIVE HORSES WERE SHOT SATURDAY

Animals Taken from Cleveland-Cliffs Barn Fire Were Badly Burned.

The fire which destroyed the east portion of the Cleveland-Cliffs Iron company's barn at an early hour Saturday morning was the worst the Ishpeming fire department has had to fight since the fire that destroyed the Koski building and other structures on Division street two years ago this spring.

Five of the nineteen horses taken from the barn during the fire were in such condition Saturday that it was deemed advisable to shoot them. It is thought that three or four more will not recover. Only one horse died in the stable.

It is thought that the fire was caused by electric wires, as the wires were located near where the blaze started, in the south end of the structure, and were found to be short-circuited. What was considered to be the finest draft team in Marquette county was in stalls directly back of where the fire broke out.

Mr. Culbert, who lives near the stables and was one of the first on the scene, gave the members of the fire department high praise for their excellent work. He said that if it had not been for their promptness and bravery, all of the horses would have been burned in their stalls. The animal that died in its stall had fallen down and the firemen could not raise it to its feet.

Time and again the firemen had to retreat for short intervals, in order to avoid suffocation. Michael Hickey, one of the firemen, was overcome while working on the second floor, and had to be carried out. Mr. Culbert said that the firemen who removed the horses took desperate chances, as they had to pass through flames and smoke very close to the barn. They were given a cow, after the horses had been taken out. The big team was among the first to be shot, as they were badly burned. M. M. Dunne's new driving team, handsome animals, were slightly burned, and it will perhaps be a week or more before it will be possible to use them.

The barn was one of the oldest in the city, it having been erected some forty years ago, when the Barnum mine was one of the few properties working here. The west wing, where the carriages and automobiles were kept, was built several years later, after the Barnum property passed into control of the Cleveland-Cliffs company. As the main structure was almost completely destroyed, the company will doubtless erect a new stable.

The loss will amount to several thousand dollars. There were several loads of oats and seven carloads of hay stored in the top floor of the barn.

Michael Collins, night watchman at the Cliffs shafts property, turned in the alarm. It is his duty to visit the company's buildings at intervals every night. "The fire," he said, "broke out a little after 1 o'clock. I was through the barn at 11 o'clock. Everything seemed all right at that time, and there was no sign of fire, nor did I smell smoke. I spent some time around the captain's office, at the Cliffs shafts, between 11 and 12 o'clock and a little after 1 o'clock I went to the dry to look up after the men who had left there to go underground. After leaving the dry I noticed the blaze and turned in the alarm. I ran to the barn and opened the doors and helped to get out the live stock, also the carriages and automobiles."

### MINING STUDENTS HERE.

Are Studying Iron Mines and Geological Formations of County.

A party of twenty-eight students of mining engineering and geology arrived in Ishpeming Friday afternoon, and Saturday and Sunday visiting the mines and various points of interest. The party is in charge of Professor C. K. Leith, of the University of Wisconsin, and the students are drawn from the universities of Wisconsin, Chicago and Minnesota.

Professor Leith is one of the leading American geologists. A few years ago he took a party of students into the wilds of northern Canada. After being lost for some time, he finally brought them all back and with them a new fund of geological information.

The party left Madison, Wis., about ten days ago and has visited the Vermilion, Mesaba and Gogebic ranges and the copper country. It is now studying the formations of the Marquette range.

### WOMAN'S DANGER PERIOD

Is said to be from 45 to 50. What should be a most natural change in a woman's life, is, on account of modern methods of living, fraught with most alarming and painful symptoms. Women passing through this critical period should rely upon Lydia E. Pinkham's Vegetable Compound, as it has proved wonderfully successful in carrying women safely through the change of life.

"My sister's husband had an attack of rheumatism in his arm," writes a well-known resident of Newton, Iowa. "I gave him a bottle of Chamberlain's Liniment which he applied to his arm and on the next morning the rheumatism was gone." Far chronic muscular rheumatism, you will find nothing better than Chamberlain's Liniment. Sold by All Dealers.

### MISSIONARY SOCIETY MEETS THIS WEEK

Representatives of Houghton District M. E. Churches in Three Days' Session.

The Women's Home Missionary of the Houghton district of the First Methodist Episcopal church will hold its annual convention in the First Methodist church of this city today, tomorrow and Wednesday. A large number of delegates will be present from all parts of the peninsula and the members of the Ishpeming congregation will entertain the visitors during their stay in the city. The first meeting will be held this evening at 7:30 o'clock. The programs for the different sessions during the three days follow:

Monday, May 12—7:30—Prayer for all circles. Anthem—Choir of Ishpeming First M. E. church. Devotional service—Rev. J. G. Haller, First church, Ishpeming. Response—Mrs. W. G. King, Marquette. Solo—Miss Mabel Laury. Anthem—Circle Girls, East and North—Miss Carolyn and Miss Phillips. President's greeting—Mrs. A. R. Cox, Hymn.

Tuesday, 9:30 a. m.—Devotional service—Rev. Hartley Campbell, Negaunee. Organization of convention—Mrs. George Roberts, recording secretary. Appointments of committees. Music.

Annual report of secretary of literature—Kate Bennett. Annual report of secretary of missions—Mrs. John Delbridge. Annual report of secretary of systematic beneficiaries—Mrs. A. E. Healey. Address—Miss Rena Pearl Waltz, assistant secretary of young people's work. Annual report of secretary of deaconess work—Mrs. W. E. Marvin, Hancock.

Annual report of secretary of temperance—Mrs. R. F. Brunner. Annual report of secretary of reading circles—Mrs. G. D. Westerman. Annual report of secretary of home helps and mothers' jewels—Mrs. J. G. Haller.

Report of endowment of district money—Rev. W. E. Marvin. Tuesday, 1:30 p. m.—Conference and officers of department secretaries.

2:00, Devotional services—Mrs. Richard and Mrs. T. J. Mountain. Minutes. Annual report of corresponding secretary—Mrs. J. D. James.

Annual report of treasurer—Mrs. Joseph Rashleigh. Auditor's report—Mrs. John MacPherson, Marquette. Solo—Miss Minnie Cornish. Paper "Evangelism"—Mrs. Gus Donald, Kearsarge.

"Widening circles"—Ethel Manzier, Mabel Reynolds, Gladys W. Rowe, Evelyn Wheeler, Marion Shields, Mary Roberts, Myrtle Richards, Ethel Symons, Hilda Jacobson, Mae Rose, Liv Larson and Ethel Taylor.

Report of secretary of young people's work—Mrs. William Tonkin. Solo—Miss Leslie Austin. Address—Mrs. Pearl Waltz, Hymn.

Tuesday evening, 7:30—Organ—Voluntary. Devotional service—Rev. Lewis Keast. Quartet—Misses Hanaly, Cornish, Hawes and Mrs. Delbridge. Address—Rena Pearl Waltz, Berkeley, California. Offering. Hymn.

Wednesday Morning—Devotional service—Mrs. W. J. Reynolds, Laurium. Minutes. The harvest sheaves garnered by the corresponding secretaries. Question box. Election of officers. Installation of officers. Report of committees. Adjournment.

POOL TOURNAMENT STARTED.

The pool tournament at the Empire pool room has been commenced, with seventeen contestants. The first games were played Thursday evening between Bergdahl, Bowden and Backa. Two or three games will be played each night until the ninety games have been completed. Three prizes are offered by the management for the highest runs. Those who have entered the tournament are Renillius, Kemp, Saline, Backa, Burke, Beauchamp, Hickey, Vanballe, E. Maloney, H. Maloney, Mahoney, Bowden, Quinlan, Manley, Bergdahl and Farley.

SAW MANY CHANGES.

C. W. Ellsworth, editor and publisher of the Commonwealth of Ripon, Wis., came to Ishpeming yesterday to attend the funeral of his brother-in-law, the late Dr. Albert S. Marshall, whose funeral will be held this morning in Marquette. Mr. Ellsworth travelled through this county more than thirty years ago, paying his last visit to Ishpeming in 1887. In those days there were no electric lights in the city, and when the travelers, or others, left their hotels or homes at night they carried lanterns.

CHARTER SUPPLEMENT ISSUED.

A supplement to the charter of the city of Ishpeming, compiled by A. V. Jurna, city attorney, by authority of the common council, recently has been issued. It contains all enactments of the council since 1899, when William Andrews was mayor of the city and also House act, No. 85, which amended and revised the charter of Ishpeming. It also contains a complete list of city officers since 1899. The men who have served in the office of mayor since and including that year are Theodores A. Fickel, George E. Persons, William J. Roberts, Frank E. Keese, William J. McCorkindale and George G. Barnett.

### ISHPEMING IN BRIEF.

Edward Schilling is here from Detroit on a business mission.

J. M. Fitzpatrick has returned from a business trip to Cleveland.

Harvey Rose, of Marquette, visited friends in the city yesterday.

Mrs. Joseph Gabourie has returned from Escanaba, where she attended the funeral of Adolph Gabourie.

Albert Ellstrom, engineer on the Lake Superior & Ishpeming railway, is confined to his home for several days.

Miss Margaret Conway, who is attending the Northern State Normal school at Marquette, visited with her mother in the city over Sunday.

Jackson, Spatz and Jackson, who do a high class musical act, will be the vaudeville attraction of the Ishpeming theater tonight, tomorrow and Wednesday evening.

The annual meeting of the Ishpeming Ski club will be held on Thursday evening, May 15, 1913, at 8 o'clock in the Scandinavian hall on North Second street. Officers will be elected for the coming year.

Dr. Albert S. Marshall, who passed away Saturday morning at Sands, will be held this morning at 8:45 o'clock from St. Peter's cathedral at Marquette. Interment will be in Holy Cross cemetery. Thomas E. Marshall and C. H. Ellsworth, of Ripon, Wis., are here to attend the funeral. Dr. Marshall's mother resides in Ripon, but is unable to be here.

Match Heads Poison Child. Wilhelmina Pellerin, small daughter of Lazine Pellerin, is dead at Wakefield as a result of eating the heads of several matches taken from a box obtained by the child while at play in the kitchen. The girl was two and one-half years old.

Diplomas Given to Four Nurses. Before one of the largest audiences that ever filled the Soo Opera House, the commencement exercises of the graduating class of the Sault Ste. Marie Hospital Training school were held. A program of musical and literature numbers was thoroughly appreciated. Diplomas were presented to the Misses Belle Stillwell, Pearl E. Miller, Harry Van Zant and Mary Kelly.

Road Contract Let. John E. Bloomgren was the lowest bidder for the construction of the first six-mile link of the new Sandyville-Felch highway, in Dickinson county and he was awarded the contract at a meeting of the board of county road commissioners. Mr. Bloomgren's tender was \$11,050. Three other bids were received as follows: Gus Fredrick, \$12,689; Martin King, \$15,110.75; and Wallstrom Brothers, \$15,900.10.

Church Edifice to Be Rebuilt. Extensive improvements are planned at the Central M. E. church at Iron Mountain. A basement will be put under the entire church and the building raised two feet. A new steam heating plant will be installed. The auditorium will be altered. The windows will be changed and the seating capacity made larger and other work will be done to make it an up-to-date church building. The work will cost in the neighborhood of \$1,000.

Will Enforce Fire Law. John A. Higgins, of Lansing, inspector of railroad locomotives and rights-of-way, representing the state forestry department, has been in the upper peninsula lately in consultation with game wardens. Mr. Higgins says that it is the purpose of his department to use every endeavor to prevent forest fires this season and with this object in view every locomotive operated in the district will be inspected. The law provides that the locomotives must be provided with firebox and stack sparks screens. Some considerable attention will also be paid to section men, who in the past have been inclined to carelessness in the mat-

Road Contract Let. John E. Bloomgren was the lowest bidder for the construction of the first six-mile link of the new Sandyville-Felch highway, in Dickinson county and he was awarded the contract at a meeting of the board of county road commissioners. Mr. Bloomgren's tender was \$11,050. Three other bids were received as follows: Gus Fredrick, \$12,689; Martin King, \$15,110.75; and Wallstrom Brothers, \$15,900.10.

Domestic Science Work Popular. The annual public demonstration and exhibition of the work being done in the domestic science department of the high school at Escanaba were conducted last week. The cooking department is under the supervision of Miss Elizabeth Gougeon. The sewing department is supervised by Miss Helen Simonson. The work is practical in every sense of the word. In the sewing department, the work is started with making seams, patching and other simple tasks. Afterwards the girls make kimonos, which each student has for her own use. The second year students in sewing make shirt waists, woolen skirts and afternoon dresses. In the cooking department, each student has an individual gas plate for her work, the kitchen

also being equipped with lockers, kitchen cabinets and both coal and gas ranges. The students in this department are started in cooking the simple things and from that they advance to simple combinations until they are at last allowed to work with dough. The cooking on display last week consisted of bread, cakes, pies, cookies and desserts. In the two departments there are seventy students and every one of this number is intensely interested in the work.

Appointments at St. Ignace. Mayor Wing of St. Ignace has made his appointments for the ensuing year, as follows:

City Attorney—Henry Hoffman. City Marshal—R. J. Moore. Health Officer—Dr. Zimmerman Ross. Poor Commissioner—Chas. Anderson. President of Council—F. H. Johnson. Member Board of Public Works—E. H. Hotchkiss. Park Commissioner—Thos. O. Sullivan. The appointments have been confirmed by the council without a dissenting vote. Alderman Eby, supported by Alderman Sayles, advocated the purchase of a street sprinkler. They had the support of Alderman Hulbert also, but on a vote they were defeated. Alderman Johnson, Amiett and Rhoades voting against the proposition and the mayor casting his vote with the opposition. Alderman Hulbert and Clerk Rogers were appointed a committee to solicit funds for sprinkling the streets in the same manner as has prevailed other years.

will be just as safe from intrusion as the great steel chest which contains the thousands of dollars this bank always keeps on hand.

In your little box you can assemble all your valuable papers, your jewelry and other articles, too precious to keep about the home or office.

A small, private room is at your disposal near by, where you may lock yourself in, clip your coupons or consult in strict privacy the contents of your box—all for a rental of \$3.00 a year.

### Upper Peninsula

#### New Depot for Maple Ridge.

A prominent citizen of Maple Ridge reports he has information to the effect that the state railroad commission has ordered the C. & N. W. Railway company to build a passenger and freight depot at that place and to employ an agent there. The people of the community have been crying for several years to get an agent and a depot. The company officials have been petitioned, but nothing was done. After waiting a reasonable length of time a copy of the petition was sent to the state railroad commission, together with a complaint and a request for the commission to order the depot built. There is a heavy freight and passenger business out of and into Maple Ridge.

#### Woods Workers in Demand.

At the close of the summer season for woods operations lumbering manufacturers who are dependent on timber to keep their plants running may face an unparalleled shortage of raw material. The scarcity of labor may not become acute until the bark-peeling season is at hand, but from present indications it will get serious trouble then. The Superior Veneer & Composite company has already made the announcement that in addition to its usual large force of woodmen it will need this season two hundred cedar operatives. The Munising Paper company can use two hundred and fifty men in addition to its present force of bark peelers, sawyers, swappers, axmen, road builders and teamsters. This company is offering from \$35 to \$40 a month for experienced woodmen.

#### Placed on Accredited List.

St. Ambrose High school of Ironwood is now on the accredited list of the University of Michigan, and also of the Catholic University of America at Washington, D. C., which affiliation will hereafter give St. Ambrose graduates wishing to enter either of these institutions for the purpose of pursuing higher studies the privilege of doing so without the necessity of effecting for some entrance examination, their diplomas being sufficient to admit them. This is a step which the Sisters of Saint Francis, who are in charge of St. Ambrose school, and the pastor, Father Moriarty, have been endeavoring to effect for some time past, and consequently the attaining of the same is the source of great rejoicing not only among those immediately connected with the school, but likewise among all the members of the congregation.

#### Uses Auto to Cover Territory.

John Schoenberg of Escanaba, one of the district salesmen for the National Biscuit company, is this season demonstrating the adaptability of the automobile to the use of traveling men. Mr. Schoenberg this spring purchased a runabout and has been making regular trips over his territory in the machine. He has now completely covered the district in the car and is highly enthusiastic over the possibility that has been developed. Mr. Schoenberg has found that with his car he is able to cover his route in less than one-half of the time required when he depended on team service. All of the towns in that portion of the peninsula are now connected with a network of standard roads and there is not a town in Mr. Schoenberg's territory that he cannot reach with his machine.

#### Missing Child Not With Father.

The officials at Escanaba have received a message from H. W. Dunn, chief of police of Omaha, Neb., stating that Thomas S. Carmody was being held for further orders from them. The telegram follows: "Thomas A. Carmody in custody here. Has not been in Michigan for six months. Child not here. Answer what you want done." (Signed) H. W. Dunn, Chief of Police." Following the telegram was a letter from the chief, stating that Carmody had been shadowed for two days previous to his arrest, and every effort to locate the child has been made. After his arrest Carmody conclusively proved that he had not been out of the city of Omaha in the last six months. Prosecuting Attorney T. E. Strom advised the Escanaba officers to wire the Omaha chief to let Carmody go, as it was evident that the child is not in his possession. It is believed now the missing boy is dead.

#### Parochial School for Munising.

The contract for the erection of the parochial school which Sacred Heart parish is to build at Munising has been awarded. The general contractor is the Herman Bros. Construction company, of Antigo, Wis. The plumbing and heating contract has been let to Holler & Deshardins of Munising. The contract calls for the completion of the building by Sept. 1st, next. The structure will be the town's most modern building. For its size, it will probably not be exceeded by any parochial school in Clarendon. The building will be six stories, with basement and two stories. In the main it will be constructed of hammer-dressed rubble stone. An auditorium and club room, 60x24, with the largest stage in the village, will be in the basement. A library and society room will also

### Mining News

#### ANACONDA.

#### A Big Year in 1912—Earnings Nearly Double Those of 1911.

Anaconda's 1912 report is excellent, with its big surplus over dividends, almost stationary costs, even with higher wages, and big increase in ore reserves. The net earnings of \$13,856,234 were practically double those of 1911, being equal to \$2.97 a share against 1.85 a share. Moreover, out of last year's income there was charged a round \$1,000,000 for depreciation before figuring the net, so that based on previous methods of accounting—the depreciation being an innovation—earnings were \$3,889 a share. The surplus after dividends amounted to \$5,000,000, 1912 being the first time since 1906 that there has not been a deficit. In this period Anaconda paid to shareholders \$6,278,000 more than it earned, so that last year's surplus goes a long way to meet the needs of \$30 or more to the building fund. The building will cost about \$17,000, its erection will represent years of patient toil and self-sacrifice on the part of Rev. Father Dittman and of the people of Sacred Heart parish.

#### City's Business Suffers.

While aldermen scrimp, towns are going to seed and business of the city is neglected, says the Iron Mountain Press. The main business transacted at the past week's council meeting was the discharge of the entire police force by Mayor Nevens and the appointment of Joseph H. Sanderoock, who received five votes. Later the nomination of Dr. Cruse was confirmed by a unanimous vote. W. W. Thompson was nominated for member of the board of the board of public works, but the appointment failed, five aldermen voting in the negative. Captain Oliver Symons was elected sealer of weights and measures. Alfred St. Arnaud was confirmed as poundmaster for the south-town district and John Massa for the upper wards. Joseph H. Sanderoock was elected president pro tem and Arthur Uddeberg was appointed a member of the board of cemetery trustees to succeed himself. For reasons best known to themselves, the aldermen, in a tie vote, declined to confirm the committee appointments of the mayor. This is a strange condition of affairs. The action of the aldermen would indicate that they have agreed to disagree. The division is five and five and unless the full of peace hovers over the city hall forthwith the business of the city is likely to suffer.

#### NOTES OF MINING NEWS

With the exception of Calumet & Hecla, which reduced its last dividend from \$12 to \$10, none of the producing coppers have reduced their dividends on account of the two-cent drop in the price of the copper market. Greenan, which passed its dividend, but this was on account of the disturbing conditions in Mexico. The Copper Range report for 1912 makes a good showing, with a net of \$1,092,506, compared with \$894,960 in 1911, equal to \$4.29 a share, against \$2 paid in dividends. The results at Montana did excellently, the results at Florida being disappointing. The excess of quick assets of the consolidated company have increased from \$200,000 to \$1,094,000. A machine known as a "sectional positive jig," designed by the superintendent of the Quincy stamp mill has been in operation on Quincy rock for eight months, with results more satisfactory than have been obtained by the regular tables and jigs. The copper recovery is higher and the expense of operation less. It is possible that the machine will be widely adopted in the Lake Superior district.

#### BENEFIT OF A YAWN.

Yawning may be rude—especially in company—but it is a good thing for you to do. For one thing, it ventilates the lungs. When you take an ordinary breath the lungs are not completely filled, nor are they thoroughly emptied by an ordinary respiration. There is a certain quantity of air left in the lungs all ways, which physiologists call "residual air." This air in time becomes foul and affects the blood, acting through the blood, the nervous centers. Certain nerves get tickled as it were, and the result is a yawn, stretching the lungs to their fullest extent, filling them with clean, fresh air and driving the foul air out. That's one reason why it is good to yawn. For another, yawning opens and stretches and ventilates all the various passages leading to the lungs. You will perhaps be surprised to know that yawning is even beneficial to your hearing. The cracking sound which you so often hear when giving an extra big yawn is due to the stretching and opening of the eustachian tubes. These tubes communicate between the ear and the back of the throat. If they are congested, which happens when you have a bad cold in the head, people complain of deafness. If you feel inclined to yawn, then do so. It is Nature's way of cleaning out your lungs and air passages.

Did you try our last recipe? If not order some KNOX from your grocer and try the next one.

Or let us send you the Knox Recipe Book—and enough Gelatine to make candy—enough to try most any one of our desserts, puddings, salads or jellies, also ice cream, ices and candies.

Recipe book free for your grocer's name and sample for 25 cents.

### SHOOTS TWO AND TAKES OWN LIFE

Frank Catrecala, While Temporarily Insane, Runs Amuck at Mary Charlotte Location.

Frank Catrecala, a miner employed at the Mary Charlotte mine, in a temporary fit of insanity Friday evening shot two of his friends, Bruno and Michael Tassoni, seriously injuring them, and later killed himself. The shooting occurred in the kitchen of the boarding house at the Mary Charlotte mine location, shortly after ten o'clock. At the time of the affray the three men concerned were preparing to go to work on the night shift and were assembled in the kitchen. Catrecala, who was standing before a mirror, remarked to his friends that he was not feeling well and went to the adjoining room. On returning a minute later he had a thirty-two calibre revolver in his hand, and, without a word, he fired five shots at the two men in the kitchen. Bruno received one of the bullets in the left side of his neck and another in his left arm. His cousin, Michael Tassoni, was shot in his left hand. The other two shots were fired at random. It is said that both Tassoni will recover. After the first shot was fired one of the others in the room endeavored to take the revolver away from Catrecala, but was unable to do so. Both Bruno and Michael Tassoni and the others at the boarding house rushed from the house. The injured men ran up the Chicago & Northwestern train to Iron Street, Negaunee, where they took the car for the home of officer Mike Tassoni, of Ishpeming, a relative. Tassoni took them to the Ishpeming hospital, where their wounds were attended to. In the meantime Catrecala, who had driven all the remaining men out of the boarding house, secured a new supply of cartridges for his revolver and started up the road towards Negaunee. His body was found on the road a half mile from the boarding house, with a bullet hole in his right temple. Four loaded and one empty shells were found in the revolver, which was lying near the body. A number of loaded cartridges were found in his coat pocket. No motive for the shooting has been learned and it seems safe to presume that the man was temporarily insane. He was unmarried, was twenty-one years of age and had worked at the Mary Charlotte mine for the past six or seven months. He had been in the United States for three years and came to Negaunee from Chicago about a year and a half ago. His only relatives in the United States are two cousins, who live in Negaunee. No enemy existed between Bruno and Michael Tassoni, who he was treated by a specialist. A few days ago the news was pronounced out of danger and he returned to the scene of his activity.

### CALL FOR LARGE MOVEMENT OF ORE

Small Quantities Are in Stock at Many Ports Along the Great Lakes.

But little ore is in stock at all the docks along the Great Lakes, which means a heavy movement of ore this season. The May 1 dock balance this year was 5,456,774 tons, compared with 5,717,801 tons in May 1, 1912, and 6,887,325 tons May 1, 1911.

Heretofore the same docks have never shipped 4,500,000 tons in the same period. The May 1 dock balance this year was 5,456,774 tons, compared with 5,717,801 tons in May 1, 1912, and 6,887,325 tons May 1, 1911. The May 1 balance compares favorably with the smallest balances since 1908. May 1, 1909, the dock balance was 5,270,208 tons, but one dock that, since 1911 has been closed with the shipping docks was then classed as a lake front furnace dock. Considering the growth of the ore storage facilities the last few years the dock balance this year is probably proportionately smaller than that of five years ago.

The following table shows the dock balances for the last two years:

	May 1, 1912.	May 1, 1913.
Buffalo	369,121	139,624
Erie	325,150	449,455
Conneaut	229,462	135,100
Ashabula	2,121,373	2,105,816
Fairport	381,705	257,995
Cleveland	1,186,695	1,164,999
Lorain	287,294	358,884
Toledo	357,934	407,593
Huron	255,496	294,837
Sandusky	2,471	2,471
Totals	5,717,801	5,456,774

Of the 800,000 tons of ore shipped by the upper lake docks in April, 1913, 235,440 tons were delivered at Lake Erie docks, 8771 tons at Detroit and 18,119 tons at South Chicago and Gary. The total receipts according to these figures were 262,330 tons.

#### NEARLY LOST EYE.

Wellknown Mining Man Is Victim of Painful Accident In South Dakota.

Enright E. Woodbridge, the Duluth mining man, who had just recovered from what promised for a time to be a severe injury to one of his eyes and is now at work again in the mining country of Black Hills, near Deadwood, S. D. The accident occurred there some weeks ago.

He was watching a workman breaking a piece of ore, when a chip from the rock struck him in the eye, cutting it dangerously close to the pupil. Mr. Woodbridge immediately went to Minneapolis, where he was treated by a specialist. A few days ago the eye was pronounced out of danger and he returned to the scene of his activity.

#### RETURNS FROM PANAMA.

Jack Morrissey Has Spent Past Two Years in Canal Zone.

After spending more than two years in the Panama canal zone, Jack Morrissey, of Hubbell, wellknown in Negaunee, has returned for a brief visit. He visited friends and relatives in Negaunee, Ishpeming Saturday and Sunday, and left last evening for his home. Several years ago he worked in Negaunee for the United States Steel and Bridge company on the steel trestle at the Negaunee mine.

#### LOCAL LACONICS.

Two boys were born to Mr. and Mrs. Charles J. Muck, Friday night. J. Golden has returned from a several days' business trip to Escanaba. D. E. Foley, chief of the Oliver Iron Mining company's police department, of Virginia, Minnesota, was in the city Saturday and Sunday. Mrs. S. J. Perkins, wife of Captain Perkins, of Gwinn, has returned to her home in Ironwood, after visiting with her sister, Mrs. Charles J. Muck. A. C. Seass went to Little Lake Saturday morning to spend several days. He reports that recent frosts have injured many of the blueberry blossoms. The L. O. T. M. M. will give a dance in Kirkwood's hall on the evening of May 21. Arrangements are now being made by the committee in charge. Wick O'Connell, of Houghton, who has the contract for the construction of the spur into the Volunteer mine at Palmer, was a Negaunee visitor Saturday.

#### MARRIAGE CUSTOMS IN HOLLAND.

A curious old custom still exists in many provinces in Holland. If a young man is in love with a girl, and wishes to ask her hand in marriage, he goes about it in the following manner: He buys a small sweet cake, and wrapping it up in soft paper, proceeds to the house of his inamorata; upon his arrival, he is ushered into the midst of the family circle; without a word, he walks up to the young lady he wishes to make his wife, and he lays the cake on the table before her. The rest of the family affect not to notice anything unusual, and continue their work or their reading. The young man turns aside and talks to the father or mother on some very ordinary subject, keeping his eyes eagerly fixed on the girl's face while he is conversing. If she accepts his offer, she takes up the cake and eats it. Sometimes, though the young man by turning it over and playing with it before she decides to bite it, and then enraptures him by eating it, and the last errand will be conversing. If, on the other hand, she wishes to have nothing more to do with her admirer, she quickly rewraps the cake in its covering, and puts it back on the table. In this case, the young man

eight runs in the first inning, but were held during the remainder of the game, by the excellent team work of the Negaunee nine. A small crowd witnessed the game.

D. E. Foley, F. E. Keesee, C. L. Sporely, C. M. Murphy and Thomas Gribble left Saturday morning for Green's creek, south of Palmer, for a few days fishing.

Now is the time to get measured for your spring suit at the London Tailors, \$16.00. We show 300 all wool patterns. Fit guaranteed. L. Lieberman, Pearce block, West Iron street. 4-29-1f.

I am prepared to do chimney sweeping, repair storm windows or sheds, masonry work, etc., Gust Hatto, call at 217 East Iron street, Phone 106.

### Ishpeming

#### Priest's "Auto" Attracts Attention.

A motor cycle sidecar, purchased for Rev. Father Soudard of Rapid River, was given a try-out at Escanaba. Throughout the afternoon the vehicle was demonstrated up and down Ludington street by the agent, carrying the heaviest and lightest persons as passengers. The car is something new in the district and attracted a great deal of attention from the pedestrians in the street.

#### Find Infant in Shoe Box.

Memories has another mystery. The corpse of an infant thought to have been about four days old was found near the Menominee Saw Works plant. The body was enclosed in a paste board shoe box, no clothing being left to give a clue to the child's parentage. The body was found by an employee of the Saw Works who was engaged in preparing a plat for planting seeds. The ground had been ploughed several days ago. The body was partly decomposed.

#### New Toll Line.

Another indication of upper peninsula prosperity is the construction of a new toll line by the Michigan State Telephone company from Houghton to Ironwood. The line will relieve the pressure of business between Houghton and Duluth and Minneapolis, as telephone connections to these points are made by way of Ironwood. Another toll line recommended by Manager Baker will run from Iron Mountain to the Marquette range town via the new county road. Connection is now made by way of Escanaba.

#### A Cattle Experiment.

Sheriff Dykes of Dickinson county has gone to St. Paul, where he intends purchasing two carloads of young cattle. He will place the cattle on his Fence River ranch, where he will feed them until spring, when he will ship to the Chicago market. There is an abundance of meadow lands in the district and the cattle will no doubt make weight rapidly. The experiment of winter feeding, however, will be watched with interest and should it not prove too expensive others will follow the lead of the sheriff. Fat cattle are worth considerably more in the spring than in the fall. The success of the experiment depends upon the cost of winter feeding and care.

#### MARRIAGE CUSTOMS IN HOLLAND.

A curious old custom still exists in many provinces in Holland. If a young man is in love with a girl, and wishes to ask her hand in marriage, he goes about it in the following manner: He buys a small sweet cake, and wrapping it up in soft paper, proceeds to the house of his inamorata; upon his arrival, he is ushered into the midst of the family circle; without a word, he walks up to the young lady he wishes to make his wife, and he lays the cake on the table before her. The rest of the family affect not to notice anything unusual, and continue their work or their reading. The young man turns aside and talks to the father or mother on some very ordinary subject, keeping his eyes eagerly fixed on the girl's face while he is conversing. If she accepts his offer, she takes up the cake and eats it. Sometimes, though the young man by turning it over and playing with it before she decides to bite it, and then enraptures him by eating it, and the last errand will be conversing. If, on the other hand, she wishes to have nothing more to do with her admirer, she quickly rewraps the cake in its covering, and puts it back on the table. In this case, the young man

takes up the cake, satisfied with his refusal, and with a "Vanvaal byzmen" leaves the house. The matter is then kept a profound secret by all the members of both families, and the outer world never hears of it. If, on the other hand, the affair progresses favorably, and the suitor is accepted, the father takes him on one side to ask about his business prospects, and if he can afford to take his wife for a wedding journey up the Rhine, the ideal wedding journey of all Dutchmen. The girl, in a case of this sort, does not go into society for about six weeks; at the end of that time she reappears at balls and parties, and is not thought any the less of, or shunned by young men who wish to marry, as she would be either in France or Germany.

St. Peterburg society circles are manifesting keen interest in the publication of the "Memoirs" of Countess Lambard. The authoress, who, in her youth, was an enthusiastic dancer, stated that prior to her marriage she attended 225 balls and after her wedding 557 more. At the dances she received eighteen offers of marriage. Afterward 272 men sent her love letters, and 100 admirers threatened to shoot themselves in despair.

# McDONALD WILL BE GIVEN SEAT

### It Is Said That Resignation of Representative Young Means That Calumet Man Will Serve During Remaining Life of Present Congress as Member from 12th.

### Action of Ishpeming Man Closes Service of Five Full Terms and a Few Weeks in the Present Body—Had to Stand Only One Fight for a Nomination.

The action of H. O. Young, of Ishpeming, in resigning his seat as a member of congress from the Twelfth district, which he did Saturday in a formal statement in which he said he was convinced that a plurality of the voters of the district had cast their ballots for W. J. MacDonald, did not come entirely as a surprise, as it had been distinctly surmised that it regarded as likely that Mr. Young yielded to the entreaty of his fellow Republican members of congress, who have been greatly concerned at the prospect of having to meet the issue raised by the MacDonald case. Another feature of the situation that perhaps influenced Mr. Young is the fact that all the members of the Michigan delegation, with the exception of Representative Fordney, who had expressed themselves on the subject had announced that they would vote to support MacDonald's right to the seat.

While, as noted, there has been a belief in many quarters that Mr. Young would not force the case to an issue, still the announcement of his resignation came as a considerable surprise to most persons, as within a few days, or up to the limit of the legal time for closing the testimony, Mr. Young's attorneys examined witnesses having knowledge of the case. Their evident purpose was to show that Mr. MacDonald was not legally entitled to run as a Progressive candidate. Several witnesses were examined recently in the upper peninsula.

### Early Settlement Promised.

If the contest was to go to a vote its early settlement was foreshadowed by a press dispatch, printed in The Mining Journal several days ago, in which the assertion was made that Majority Leader Underwood had promised Mr. MacDonald that the special committee appointed to consider the case would report while the tariff bill was in the senate.

While no definite word on that score has been received here, it is thought that Mr. Young's resignation means that Mr. MacDonald will occupy the seat for the Twelfth district. If Mr. Young had refused to accept the certificate of election issued by the state board of canvassers, and that body had taken no further action, it is said that Mr. MacDonald would have been thrown out and a new election would have had to be held. But Mr. Young accepted the certificate, and it was formally recognized by the house, after notice of a contest had been filed. Thus, it is said, Mr. Young's action now amounts to a surrender of his rights in the contest, and assures that Mr. MacDonald will be accepted as a member by a majority of the house.

Since the convening of congress in the present session and also during the regular session Mr. MacDonald has spent considerable time in Washington. Both he and his attorney, Henry Coehome, of Milwaukee, have consistently maintained that there was absolutely no question about the disposal that congress would ultimately make of the case.

### Outlines Young's Course.

A press dispatch says in the connection: "H. Olin Young, of Ishpeming, Mich., resigned from the house today. Young, a Republican, read a statement in which he said William J. MacDonald, his Progressive rival, received the most votes and was entitled to the seat. "Through an error in the wording of the ballots in one district, 458 votes for MacDonald were thrown out by the election canvassers. It was these votes that decided the contest in favor of Young. "I am now convinced," he said, "if the 458 votes in dispute were counted for the contestant the verdict would not be in my favor. I am convinced that those 458 electors intended to vote for William J. MacDonald, and while under the law he is not entitled to those votes, I do not care to hold a seat that may be questioned by honorable and disinterested men. I therefore have prepared my resignation and will forward it to the secretary of state of Michigan and will file a copy with the speaker of the house. "The house accepted the resignation. "Young's resignation constitutes a signal victory for the members of the Progressive party in the house, whose first official act on the day the extraordinary session of congress convened was to protest against the swearing in of Young. "Representative Hinebaugh of Illinois offered the resolution, declaring that MacDonald was rightfully elected and that Young had been given the certificate of election on a technicality. "The Democrats and Republicans combined and ran the steam roller over the Progressives. Young was sworn in and the contest referred. "In his statement today Young disclaimed any responsibility for the action of the board of canvassers in awarding him the certificate of election. "The returns certified by the canvassers gave Young a plurality of 215 votes, but in one county of the district 458 votes were cast for Sheldon William J. MacDonald. "These votes were cast for William J. MacDonald, the Progressive candidate, but the appearance of the word 'Sheldon' on the ballot was due to an error in a telegram instructing the county clerk as to the spelling of MacDonald's name. The telegram as sent read:

"Name of Progressive candidate should be spelled William J. MacDonald. "The word 'Sheldon' was transformed into 'Sheldon.' "May Not Run Again. "While Mr. Young has made no announcement of his plans for the future, it is not believed among his Marquette friends that he will again be a candidate

# HENRY CURLEY MEETS DEATH IN DEAD RIVER

### Well-known Young Man Was Drowned Yesterday Morning Near Stone's Mill.

The body of Henry Curley, aged twenty-six years, the son of Mr. and Mrs. Michael Curley, of Negaunee, was discovered yesterday morning at about 11 o'clock in the Dead River near Stone's mill, about five miles from this city, by Joseph DuRoche, a South Shore railway conductor, who was fishing at the time. Mr. DuRoche went at once to the Collinsville power house and telephoned Marshal Manning. The officer and an undertaker and a member of the lifesaving crew who took with him grappling hooks to be used in raising the body left for the scene about 2 o'clock. The body lay in about ten feet of water and considerable difficulty was experienced in bringing it to shore. It was at once identified. The drowned young man was well-known about the city, having been employed the last two years in the freight offices of the Marquette, Marquette & Southeastern railway.

It was ascertained that the body had been brought to the city that Curley had left the night before to go fishing with August Haupt, who works in the shops of the South Shore and who boarded with Curley at the Summit House. The two had reached the river at daybreak. Shortly before the body was discovered by DuRoche, Haupt told a fisherman whom he met that he was with a companion, but had not seen him for about an hour. It was not until after news of the identification of the body reached the city that Haupt, who returned early in the afternoon, realized that his companion had drowned.

From the position of the body and the condition of the banks of the stream Curley evidently fell into the river several hundred feet up-stream. The banks above Stone's mill are sandy and steep and the river in places has a depth of twenty feet. The exact circumstances of the death, however, will ever be a mystery, it is thought, as there were no eye witnesses to the tragedy.

Funeral arrangements have not as yet been completed, but at the deceased was a member of Ishpeming council, Knights of Columbus, the obsequies will be held under the auspices of this order. A jury composed of John Hager, Louis Pendlif, J. S. Harland, Timothy Downs, Charles Meyer and James Hudson was impaneled by Coroner Prin. The remains were viewed and an inquest will be held Wednesday in this city. All that is known of the fishing expedition is that late Saturday night Curley and Haupt left the hotel, hoping by walking to be able to reach the river at daybreak. Haupt returned to the city early in the afternoon. The body of Henry Curley was raised from the bed of the stream about 3 o'clock.

All who knew Henry Curley and he had a wide acquaintance in this city—knew him to be a fine young man of high quality and high standing. He was an earnest, industrious worker and was thought much of by his employers. He worked for the American Express company in Negaunee, where he was born and reared, nine years previous to coming to this city. He was a graduate of the Negaunee High school. In addition to his father and mother, five brothers—John, Walter and Ray, of Negaunee, Michael J. Curley, of St. Paul, and Lawrence Curley, of Chicago—survive him.

# FIRST AUTO TRIP TO ESCANABA AND RETURN

### Detroiters Gives Good Account of Itself in Long Run Under Trying Conditions.

The first automobile trip between Marquette and Escanaba was made yesterday by Ed R. Bell, of the Superior garage, driving a Detroit, a twenty-five horsepower car. The trip was remarkable in some respects. It is seldom that the opening trip over any of the Marquette-Escanaba routes can be made with a car as small as the Detroit. In addition to Mr. Bell, there were four men in the auto, which constituted the maximum load. The trip was started in the morning at 4:30 o'clock. The party left by way of the road to Chocoma, taking the Green Garden road turn. Easy going was experienced as far as Tremery. Although sandy in the high, dry country and muddy in the low, well-watered areas, the roads were found in fairly passable condition. But after reaching Tremery much mud was encountered and the little car was called upon to undergo many a power strain. Without any being stalled, however, or the driver being obliged to leave the seat, this stretch of roadway was negotiated. It was probably the most grueling test to which the car had been put since it has been in use, unless that of climbing the Genesee street hill with but one gear and under the handicap of an unadjusted car. The car was more severe. Five hours and ten minutes were consumed in the trip south. Upon arriving at Escanaba, the party used the car freely about the streets and found that nothing had been thrown out of adjustment by hard trip. Shortly after 4 o'clock yesterday afternoon, the men decided to begin their homeward journey, and after five hours spent on the road they arrived here at 9:15 o'clock. The return trip was also made by way of Chocoma. It was found upon arriving at the garage that the car was still in perfect condition and ready to proceed on another sixty-five mile journey, except for a depleted stock of gasoline and oil. The tire depreciation was comparatively nothing. The company is satisfied that it is handling a car as high in value and efficiency as any other on the market at the price, which is \$850.

# STATE BOARD OF ACCOUNTANCY

Notice is hereby given that an examination for the degree of Certified Public Accountant will be held in the rooms of the Detroit Technical Institute, Y. M. C. A. building, Detroit, Mich., Thursday and Friday, June 12 and 13, 1913. Information concerning the same, and application blanks may be had by addressing the secretary of the board, D. W. Springer, Ann Arbor, Mich. (5-9-31)

# PRISON NINE WINS

### Marquette Picked Team Lost Yesterday in Baseball Contest.

A picked team of Marquette baseball players was defeated, 1 to 20, yesterday morning in a game at the Branch prison. That was the special occasion for the game was the pitching of Mursen, of the prison team. Mursen struck out twenty men and allowed but three hits. The four nine only run was due to an error. Mack, a former player on the Marquette team, was on the bench which was one of the strongest batters, was fanned four times. LaVieko caught for the prison team. The Marquette battery was Jeanson and Richardson. The game was the first that has been played at the prison this year.

# REGISTRATION AND ELECTION.

City Recorder Orders Printing of Special Election Notices. Daniel S. Donovan, city recorder, has caused copies of notices to be published relative to the special election for the choice of a commission to prepare a general revision of the city charter and for the special registration which is to precede it. The election is to be held Saturday, May 24. The polls will be open from 7 a. m. to 8 p. m. The boards of registration will be in session from 8 a. m. to 8 p. m. on Friday, May 16. The notice includes the usual list of polling and registering places designated for all elections, as follows: First Ward—Lake Superior Carriage works, Champion street. Second Ward—Building at 132 West Spring street. Third Ward—Flanigan's livery barn, Pine street. Fifth Ward—Building at 825 North Third street. The legal publication of the election and registration notices will be found in another column.

# SOO CANAL PASSAGES.

Satisfaction guaranteed in all our dealings.

# ORMSBEE & ATKINS

Marquette's Largest Clothiers and Haberdashers. Nester Block—Washington Street.

# TEMPLE PLANS EXHIBITED.

Levee & Byrns Have Prepared Sketch of Elks' Proposed Home.

In the window of Fred Donckers' confectionery iron tollage store yesterday was exhibited a water color sketch, prepared by Levee & Byrns, a new firm of architects which is to open an office in this city, showing a proposed plan for the temple that Marquette lodge, No. 415, Benevolent and Protective Order of Elks, is hoping to build this summer. The sketch attracted much attention and was commented upon favorably.

# New Picture House in Prospect.

What was a surprise to most people was the appearance alongside the pictured temple of a one-story building, built along the same general plan and ostensibly a moving-picture theater, to judge from its front. According to the sketch it would fill the open space between the temple and the Donckers block. Mr. Donckers, when asked about it, was reticent, but questioning finally brought out that it was a tentative plan of a moving picture theater he is thinking of building providing he can arrange for a tenant. This structure would completely fill up the building space in the block on Washington street between Front and Third.

# VAUDEVILLE-MOTION PICTURES.

Extra Matinee Wednesday. The management of the Marquette Opera House decided last evening to give an extra matinee Wednesday afternoon of this week to accommodate those unable to attend the evening performance. Beginning tonight, "King Bolo," a musical comedy sketch, in which eight persons take part—the largest vaudeville production to come to this part of the country—will be the most expensive offerings the house has under-
