NUMBER 8563.

MARQUETTE, MICH., FRIDAY, MAY 23, 1913.

PRICE FIVE CENTS.

## MERGER MOVE IN G. O. P. RANKS GAINS GROUND

Senators at Washington Take Significant Action When They Declare for a Joint Caucus to Plan for the Reorganization of the Congressional Committee.

Coincidentally and for the Purpose of Drafting a Scheme for Presentation to the National Body, Mr. Cummins Calls a Meeting of the Chicago Conciliators.

Washington, May 22.—With Republican senators urging a joint senate and house caucus for the immediate reorganization of the congressional campaign committee to seek the reclamation of republican power in congress next year; with progressive Republicans conferring in plans for the reconciliation of the divided party, and members of the national executive committee meeting in a meeting here Saturday, Washington today became a bee hive of Republican activity.

Most significant was the conference of Republican and progressive Republican senators today to institute reorganization of the congressional campaign committee, which reorganization the house leaders of the G. O. P. fruitfully attempted for several weeks. Thirty-one senators attended the conference, presided over by Senator Gallinger, and a committee of five was appointed to confer with the house leaders with a view to holding a joint caucus as soon as possible to clear away the party difficulties. Party leaders pointed to the personnel of this consulting committee as an indication of the genuine efforts being made to reunite the party, its members consisting of progressives and regulars as well.

The members are Senators Gallinger, Townsend, Clark of Wyoming, Norris and ones. These five will consult with the house Republicans and expect to find no opposition for a joint caucus, the house Republicans having found trouble already in trying to reorganize the congressional committee to choose the successor to William B. McKinley as chairman. Representative Gardner of Massachusetts recently announced his candidacy for the chairmanship, on which he and they and an attempt of his champions to hold a caucus failed to bring it to a quorum. Since then nothing has been done and the senators hope to bring about definite action.

"Conciliators" to Confer Today.

The conciliators appointed as a result of the Chicago progressive Republican conference a few weeks ago have been called to meet with Senator Cummins tomorrow to plan for the presentation of a plan to the national executive committee called to meet Saturday by chairman Hilles. The members of the conciliation committee are Senators Cummins, Crawford and Jones, Representatives Cranston of Michigan, Rogers of Massachusetts, Anderson of Minnesota, and former Governor Hadley of Missouri.

The conference called by Senator Cummins for tomorrow will outline to the executive committee the desires of the progressive Republicans for the reorganization of the party to reform its machinery relating to the election of delegates and the conduct of contests. In line with these ideas, Senator Sherman of Illinois today introduced in the senate a bill which would provide that delegates to national conventions of all political parties be elected at primaries.

Under the terms of Senator Sherman's bill, the delegates would be chosen according to the vote cast at the preceding election of the candidates of the respective parties, and the primary law of each state would govern. The law would go into effect for the campaign of 1916.

Reorganization Discussed at Minneapolis. Minneapolis, May 22.—A reorganization of the Republican party along progressive lines was informally discussed at a conference of progressive Republicans at a meeting here late today. No formal action was taken, however.

Representative I. L. Leavelle, of Wisconsin, spoke at a banquet following the conference tonight, given by the Minnesota Progressive Republican league.

INCOME TAX PLAN NOT LIKELY TO BE CHANGED, SAY SENATE LEADERS.

Washington, May 22.—No amendment to the income tax section of the Underwood tariff bill is likely to be proposed by the senate finance committee or Democratic caucus, according to the leaders here in charge of that part of the bill. Senators Williams, Shively and one have the income tax in hand. The committee room is piled high with votes. Among the "loudest" are some mutual insurance companies connected for profit. Complaints from railroads and other holding companies that they will have to pay dividends are reported to have been held in check by members of the committee.

Senator Penrose failed today to get up a resolution providing for the publication of the list of tariff questions to manufacturers as proposed by Senator Follette, the senate going into executive session before the tariff was reached.

IR. TAFT CONFERENCES GETTING LEGAL TRAINING AT "EXPENSE OF PEOPLE."

Cambridge, Mass., May 22.—Former President Taft told members of the graduating class at the Harvard law school at their banquet here tonight that he had received much of his legal training "at the expense of the people."

other speaker had said: "The truth is that we have too many young judges who get their experience on the bench." Professor Taft said: "I agree with him. I was one of those young judges. I went on the bench at twenty-nine and that was the first real legal training that I got. I regret to say that I learned much of the law at the expense of the people."

SENATOR ASHURST ASKS GRANT OF \$1,600,000 FOR A FEDERAL ARMOR PLANT.

Washington, May 22.—Senator Ashurst, of Arizona, introduced a bill today to appropriate \$1,600,000 for a government armor plate plant. The bill would have a board of three members select a site and report within three months after the passage of the measure. The erection would begin within six months. Secretary Daniels, who favors a government armor plate plant, has conferred with Senator Ashurst on the bill. In a statement regarding his measure, Senator Ashurst said he had determined on \$1,600,000 because a senate committee in 1896 had estimated that a government armor plate plant could be established for that amount and because, he said, that sum would have been saved to the government on the new dreadnought Pennsylvania had the government manufactured its own plate.

## MIKADO'S ILLNESS CAUSES CONCERN

President Is Prompt to Cable Assurances of the American People's Sympathy.

Washington, May 22.—When news of the sudden illness of the emperor of Japan reached Washington today, President Wilson and Secretary Bryan expressed deep concern. The American embassy at Tokyo was called immediately to convey a message of sympathy to the Japanese government and President Wilson sent a personal message to the emperor. It is regarded here as possible that the emperor's illness may have the effect of delaying the negotiations in progress regarding the California alien land law.

President Wilson late today called the emperor of Japan as follows: "Reports received through press agencies are current to the effect that your majesty is indisposed. I have heard these reports with sorrow and with great concern. Should they prove to be true, I desire to offer my prayers for myself and for the government and people of the United States the assurance of my sincere sympathy and to express the ardent wish that your illness may prove to be of brief duration and your recovery complete."

Condition Reported Not Serious.

Tokyo, Friday, May 23.—The following statement regarding the condition of Emperor Yoshihito was issued this morning: "His majesty is asleep. His condition has not changed since yesterday and is not serious. The bulletin issued by the attending physicians apprised the people of the real condition of the imperial patient. His majesty has been in good health since ascending the throne, despite the reports that he suffered from weakness of the lungs, and he has actively attended to affairs of state."

Reports yesterday declared the emperor was suffering from inflammation of the lungs.

Report of Death Excites Frisco Japs.

San Francisco, May 22.—There was consternation in San Francisco's Jap community for a few minutes tonight, over the receipt by one of its newspapers of a cablegram announcing the death of the emperor. Scarcely had the bulletin been posted when another report, contradicting the first was received, it stating that the imperial invalid was resting easily.

Orientalists Buying Steamship.

London, May 22.—Several British steamships ranging in tonnage from three thousand to five thousand have been sold to Japanese buyers in the last few days.

## HENRY W. A. PAGE IS ORDERED RE-ARRESTED

Libeller of Congressmen Claimed to Have Violated Terms of Suspended Sentence.

New York, May 22.—A warrant was received here from Washington today calling for the re-arrest of Henry W. A. Page, a wealthy English linen merchant, convicted in Washington a year ago for libelling members of congress. At that time he was sentenced to five years' imprisonment and fined \$1,000, but was released under suspended sentence. The order for re-arrest, it is understood, was issued on the ground that he had violated the terms under which the sentence was suspended by writing of his grievances to the president, attacking the department of justice. Page's conviction followed his circulation of pamphlets calling congressmen "crooks." He believed that the courts had treated him unfairly in giving his wife the custody of their three children, after granting her a separation. He memorialized congress, asking for the impeachment of certain New York judges, and when the house judiciary committee gave him no satisfaction he printed and mailed to members of both houses pamphlets containing a lurid attack on various congressmen.

Page could not be found this afternoon.

New York, May 22.—A telegram was received today at the offices of the National Association of Manufacturers announcing that officers had been elected today by the directors of the association, en route to Battle Creek, Mich., after the annual meeting in Detroit. George Pope, Hartford, Conn., was elected president.

## BANKERS DENY HAVING CAUSED PANIC OF 1893

Records of the American Association Are Presented to the Senate to Refute the Statement Made by Mr. Thomas in Debate Several Days Ago.

Charge Is Branded as a Fraud and a Dastardly Attack—Thinks the "Money Power" Capable of Resorting to Most Anything.

Washington, May 22.—Senator Smoot, Republican, of Utah, today presented to the senate records of the American Bankers' association to answer the statement made by Senator Thomas, Democrat, of Colorado, several days ago that the cause of the panic after the passage of the Wilson bill in 1893 was the calling of loans by the bankers to procure the silver purchase clause of the Sherman law. Senator Thomas had read an unsigned circular and a magazine article which asserted that the circular was issued at the time by the American Bankers' association, the circular urging bankers to retire one-third of their silver certificates and call one-half their loans to bring about a money stringency.

Senator Smoot read a letter from Fred E. Farnsworth, general secretary of the Bankers' association, in reply to a letter written and mailed to him directly after the Senator Thomas made his speech in the senate. Mr. Farnsworth declared that the circular referred to was "a fraud and a dastardly attack upon the American Bankers' association and the banks of the country." He sent a copy of the records of the proceedings for the years 1893 and 1894, wherein appeared an original reproduction of the circular referred to.

Replying to the denial, Senator Thomas declared that he had read the circular, published in a reputable American magazine, fifteen months before he made his speech and that in all the time since its publication he had never seen the statements denied.

"Does the senator himself believe that the American Bankers' association sent out such a circular?" asked Senator McCumber.

"I never said so," replied Senator Thomas.

"I will ask the senator if he believes the circular was issued by any responsible authority," said Senator Smoot.

"Yes," said Senator Thomas. "I think that if the money power in this country makes up its mind to accomplish a purpose, it will resort to almost anything."

Senator Smoot declared that conditions in Europe were largely responsible for the panic of 1893.

In 1912 Russia produced 36,968 short tons of copper, as against 28,294 tons in 1911.

## The Weather

Washington, May 22.—The following is the weather bureau's forecast for Upper Michigan: Cloudy and slightly warmer, Friday; Saturday, fair and warmer; moderate variable winds.

ORGANIZATION IS FORMED TO WAGE WAR ON CANCER THROUGHOUT THE COUNTRY.

New York, May 22.—A permanent organization of American physicians and laymen engaged in a nationwide fight against cancer was effected here today at a gathering at which were represented most of the medical bodies identified with the Congress of American Physicians and Surgeons.

A campaign of education against the disease will be undertaken through written and spoken word in magazines, training schools, women's clubs and other ways, according to the plans announced. Special attention will be given to teaching women the early symptoms of cancer.

The members who attended today included committees appointed at the recent congress of American Physicians and Surgeons in Washington. The selection of a name for the new body was left to the executive committee. George C. Clark, a financier of this city, was elected president.

## WEBB IS LOSER IN DESPERATE CHANCE

Refusing a 25-Year Term, Chicago Bandit Is Convicted and Is Sentenced for Life.

Chicago, May 22.—Robert Webb, the auto bandit, charged with the murder of Detective Peter Hart, was found guilty today and sentenced to imprisonment for life.

Webb, with James Perry and a number of other amateur desperadoes, for three months last winter terrorized Chicagoans by holding them up and escaping in an automobile. They were known as the "auto bandits."

Webb was being sought for his depredations when he shot Hart. The detective had gone to the flat of Michael Cassella to search for loot supposed to have been hidden by the bandits. Webb went to the rooms and when Hart attempted to arrest him he opened fire.

This was Webb's second trial. On April 17 a jury failed to agree. At the time of his capture Webb was offered twenty-five years in the penitentiary if he would plead guilty, but he determined to stand trial.

COURT UPHOLDS PICTURE-TAKING.

New York, May 22.—Baseball players are public characters and photographers may make photographs of them in action without their consent, according to a ruling of Magistrate Butts, in a police court here this afternoon. The case decided was brought by the National Baseball commission and the New York baseball club against a moving picture concern which had taken photographs of games without a permit from the management. The pictures in question were taken during the world's series.

MORE MEAT FROM AUSTRALIA IS RECEIVED AT FRISCO.

San Francisco, May 22.—One hundred and ninety-two thousand pounds of meat—mostly beef—was shipped from Australia today to the port today from Australia. This is the third shipment of meats received from the Antipodes in the campaign to combat the high prices asked by San Francisco wholesalers. The meat is consigned direct to retailers.

Former Stenographer a Witness at the Investigation of the Schoolmaster.

Pittsburg, May 22.—Mrs. Arthur H. Wessels, who was Alice Lang, a stenographer in the office of Superintendent of Schools S. L. Heeter, today on the witness stand before the committee of citizens named by the board of education to probe rumors reflecting on Superintendent Heeter, told her story of the educator's alleged misconduct, supplementing a recent sworn affidavit she had made.

Mrs. Wessels said the superintendent had begun his attentions by putting her on the shoulder and playfully kicking her feet beneath her dress, and later had forcibly kissed her. She said she did not resign at once, because her salary was needed at home and she feared if she complained to the board of education her story would be contradicted. Finally, a week after the kiss, she said she resented against working at night and the superintendent discharged her.

B. SANDERS WALKER MEETS END BRAVELY

Georgia Banker Poisoned by Mercury Goes to His Death With Resignation.

Macon, Ga., May 22.—After facing for a week the inevitable result of his mistake in taking a tablet of bichloride of mercury, B. Sanders Walker, a young Macon banker, died this morning at 1:35 o'clock.

When the end neared today, Mr. Walker gave no sign of flinching, but went to his death with resignation. During the last day he was under the influence of opiates most of the time, but in his conscious intervals he gave evidence that he was not suffering.

Scores of messages were received by the family, and many of them were inquiries as to the treatment being given Mr. Walker. It has been impossible to find out definitely what course the physicians took, as they have refused to talk, except to briefly trace the progress of the poison's slow but deadly effects.

Same Drug Taken by Iowa Man.

Sioux City, Ia., May 22.—Robert Palmer, a cattle salesman, who took several bichloride of mercury tablets last night, with suicidal intent, while in a lobby of a leading hotel, was still in a critical condition tonight, but the doctors hold hope for recovery, owing to the fact that antidotes were quickly given and the contents of the stomach were pumped out.

PRESBYTERIANS CHOOSE CHICAGO.

Atlanta, Ga., May 22.—Chicago was selected late this afternoon by the Northern Presbyterian assembly as the meeting place of that body in 1914.

## CHICAGO, ILL., DECLARES WAR AGAINST NOISE

Mayor Harrison Announces the Decision of the Administration to Make the Western Metropolis One of the Quietest Big Cities of the Country.

Ordinances Designed to Put an End to Discordant Sounds Are Resurrected and Will Be Enforced Strictly—Even Rooster Crowing Put Under the Ban.

Chicago, May 22.—Chicago's great orchestra of discordant sounds, arising from rattling elevated trains, locomotive whistles, river boat sirens, automobile squawks, the cries of peddlers and the crowing of roosters, was placed on trial today and was found guilty of being a nuisance.

The sentence was "immediate suppression" and all the city ordinances relating to whistles and other noises have been ordered revived. Many of the anti-noise laws have been regarded as "dead letters."

Doctors, lawyers, merchants, managers of hospitals and others appeared before the anti-noise sub-committee of the city council health committee today and the result was an agreement that the city administration will make every effort to reduce noises in the streets, and especially in the down-town districts.

"We shall try to make Chicago one of the quietest big cities in the country," said Mayor Harrison.

For more than fifteen years committees and reformers have been endeavoring to devise some practical scheme for reducing the increasing volume of noise. Experts have testified that the efficiency of people working in offices has been reduced 25 per cent. by the nervous strain caused by noise.

CHICAGO WORKMAN FALLS FROM EIGHTEENTH STORY.

Chicago, May 22.—Losing his footing while placing a stone on the eighteenth floor of a downtown office building, James Hamilton, a workman, this afternoon pitched headlong over the edge and, in view of hundreds of people who were passing, was dashed to death. The body struck the sidewalk within a few feet of passersby.

## CISTERN OF HARD CIDER EXPLAINS MYSTERY OF MANY KANSAS DRUNKS.

Bonner Springs, Kas., May 22.—The discovery of a cistern filled with "hard" cider on a farm near here today solved a mystery that had baffled the law enforcement officers of Wyandotte county for more than a year.

Frequent complaints had been filed with the prosecuting attorney that many men and boys in this vicinity were being ruined by strong drink, but the utmost vigilance on his part failed to locate either joints or bootleggers. The cistern was found by one of the prosecutor's assistants who had been in the neighborhood a week disguised as a farm hand. A chemist's analysis showed that the cider was about 6 per cent. pure alcohol. The farmer who owned the cistern was enjoined from selling and making cider and the cistern and its contents were destroyed.

FLORIDA MAN, VICTIM OF PECULIAR FATALITY, INSURED FOR BIG SUM.

Jacksonville, Fla., May 22.—E. O. Painter, a wealthy fruit grower, taken with a fit of coughing today while crossing St. John's river on a ferry, fell overboard and was drowned. He was said to have carried life insurance totalling \$500,000 and to have had applied today for an additional policy of \$50,000.

KILLED BY BEAR AND PARTLY DEVoured

That the Shocking Fate of a California Girl Who Ran Away from Home.

Truckee, Calif., May 22.—After a week's search, the body of Miss Winnie Cott, a girl of eighteen, was found today in a ravine in the Sierra Nevada twenty miles from Truckee. She had been killed and partly devoured by a bear.

The girl ran away from her home here on Wednesday last week. Six days later a pet dog that had accompanied her returned alone. Since her disappearance large parties, each led by one of her brothers, had continued a search extending over a large portion of the mountains. There were bear tracks all around the spot where the body was found and the corpse had been dragged for some distance.

Miss Cott ran away because of a disagreement with her mother, who is seventy-five years of age.

YOUNG WOMAN SAYS HEETER KISSED HER

Former Stenographer a Witness at the Investigation of the Schoolmaster.

Pittsburg, May 22.—Mrs. Arthur H. Wessels, who was Alice Lang, a stenographer in the office of Superintendent of Schools S. L. Heeter, today on the witness stand before the committee of citizens named by the board of education to probe rumors reflecting on Superintendent Heeter, told her story of the educator's alleged misconduct, supplementing a recent sworn affidavit she had made.

Mrs. Wessels said the superintendent had begun his attentions by putting her on the shoulder and playfully kicking her feet beneath her dress, and later had forcibly kissed her. She said she did not resign at once, because her salary was needed at home and she feared if she complained to the board of education her story would be contradicted. Finally, a week after the kiss, she said she resented against working at night and the superintendent discharged her.

LOOSE PEAK MENACING A VILLAGE IN FRANCE IS BLASTED TO PIECES.

Chambers, France, May 22.—Military engineers blasted into fragments today the loose peak of a mountain consisting of eighty-six thousand cubic feet of rock which had threatened to fall and destroy at any moment the village of Torment. The village had been in danger for a long time ever since its foundation as a cluster of huts in the Middle Ages. A charge of nine hundred pounds of dynamite was used for the explosion. Before the fuse was fired the villagers removed all their portable property to the neighboring hills.

PORCELAIN TEA SERVICE, ONCE OWNED BY BURKE, IS AUCTIONED FOR \$7,600.

London, May 22.—A porcelain teapot, cream jug and two cups and saucers, once the property of Edmund Burke, the Irish orator, were sold at auction here today for \$7,600. The same tea pot fetched \$750 when sold thirty years ago. It was presented to Burke when he was first elected a member of the house of commons for Bristol in 1774. The service was manufactured in Bristol.

LONDON FASHIONABLE HOMES DAMAGED BY MILITANTS.

London, May 22.—Militant outrages, it is said, are now being committed in the residences of the aristocracy in the West end. At several of the recent social functions in that district pictures and tapestries have been cut, hostesses are alarmed and are employing detectives to protect their homes.

CHICAGO PRODUCE QUOTATIONS.

Chicago, May 22.—Butter lower 2 cents, 24 1/2 to 27 1/2 cents. Eggs, unchanged; receipts, 16,117 cases. Poultry, unchanged in price from yesterday.

## FORT MOULTRIE IS THE SCENE OF A FATAL MISHAP

Accident While the Garrison of Coast Artillery Is Engaged in Target Practice Results in the Death of Three Men and Serious Injuries to Nine Others.

Breech Block of a 4.7-Inch Gun Blows Out—Bodies of Two of the Victims Are Out in Twain—Captain Guy G. B. Hanna One of the Wounded Soldiers.

Charleston, S. C., May 22.—Three men were killed and nine others were seriously injured late tonight when the breech block of a 4.7-inch gun at Fort Moultrie, across the bay from Charleston, blew out. Privates Baxter, Christian and Dalton, of the coast artillery, were killed, two of them being cut in two and dying instantly. The men were at night practice when the fatality occurred. One of those injured is Captain Guy G. B. Hanna.

The explosion occurred at ten o'clock tonight. Reports are conflicting as to the exact manner in which the accident occurred. Several of the wounded soldiers are believed to have sustained fatal injuries. On account of the location of the fort, only meagre details are obtainable.

BULGARS AND GREEKS ENGAGE IN BATTLE

Saloniki Reports a Desperate Struggle in Which Artillery Is Used Freely.

London, Friday, May 23.—The Times Saloniki correspondent says that the fighting between the Bulgarians and Greeks continued the whole day, apparently with great fury. Artillery was freely used to cover the infantry attack.

## FIRST MATCH SET FOR MEMORIAL DAY

### Portage Lake Golf Club's Program of Stated Events for 1913 Is Announced.

Chairman S. E. Byrne of the golf committee of the Portage Lake Golf club yesterday announced the schedule of stated events for the season as follows: May 29, Memorial Day—Handicap match, medal play, three winners to receive prizes. Entrance fee of fifty cents for each entrant.

July 23, Wednesday—Goodell cup. Handicap. Aug. 29, Wednesday—Goodell-Prout cup; club championship. Handicap match play against bogey. During the month of June there will be match play against bogey on each Saturday and Sunday, from June 1 to June 30. Cards showing scores for complete rounds of eighteen holes, made on one day, must be turned in to the golf committee. Automatic handicap rule to obtain. Prize of one dozen golf balls to the player making the best score during the period.

In both of the foregoing matches it is understood that in all cases the first eighteen holes to be played on any half-day will constitute the rounds to be considered.

Prospective Events: Two other events of greater importance than any included in the schedule may be looked for during the summer. While the announcement of the donation of a Duluth-Portage Lake cup to replace the W. D. Calverley cup has not been made formally, it is known that a wealthy Duluth golfer intends to hang one up. This will mean a Duluth-Portage Lake match in Houghton in June and a return match in Duluth in September, as was the order under the Calverley cup rules.

The Portage Lake Golf club will be represented with a strong team at the upper peninsula tournament at Iron Mountain this summer. The dates for this event have not been announced, but the contest probably will be in August.

### PASSES AWAY IN OHIO.

#### Father of Mrs. Meola of Hancock Dies—Was Known Here.

Leonard Meola of Hancock has been advised of the death in Columbus, O., of John B. Lemme, father of Mrs. Meola. Mrs. Meola was at the bedside when the end came, having gone to Columbus a month ago. Mrs. Lemme was sixty years of age and was well known in Hancock, where he had visited. A year ago he was seriously ill and his recovery was doubtful. He summoned his children, ten in number, to his bedside at that time. But a turn for the better came and in a few weeks he was up and about as usual. This was the cause of a family celebration in which all of his children participated. The funeral of Mr. Lemme will be held at Columbus this afternoon.

### NEW HANCOCK TEACHER.

Miss Harriet Petry of Detroit, was engaged by the board of education of Hancock yesterday as supervisor of music, drawing and laboratory work. Miss Petry will succeed Laurent Cullen, who has held the position the last several years. The new supervisor is a graduate of the Michigan Conservatory of Music and comes with the recommendation of Frederick L. Abel, a directory of the Michigan conservatory.

## MAYOR OJALA HAS A DIFFICULT TASK

### Hancock's Executive at the Head of a City That Is Almost Bankrupt.

Sympathetic people in all parts of Houghton county are giving consideration to the case of Hon. Abram Ojala, mayor of the city of Hancock. His is the saddest political lot ever thrust upon any man. Mayor Ojala was elected this spring in a sort of political upheaval in Hancock, one that was expected to smooth out existing differences and get the municipality back to normal, after several years of religious-political strife. Mayor Ojala, a matter of a few weeks after assuming his office, finds himself at the head of a city that is almost bankrupt. Hancock's tax rate is now as high as the statutes of the state will permit; it has a heavy bonded debt and a constantly growing demand for costly municipal improvements. In the face of these conditions, the county board of equalization recently lopped off a cool million dollars of valuation from the city. It cut the Hancock mine \$400,000 and by force of the removal of the Phelps, Keeweenaw and Washington Mining companies' general offices to Calumet and the retirement from business of the Hancock Mortgage Loan & Surety company these corporations had to be stricken from the assessment roll.

What Mayor Ojala is up against is this: With the tax rate as high as it can be placed legally, he must increase assessed valuations all around in order to get money for the bare necessities of the city. It is expected he will go before the county board of supervisors at the June meeting with a request for authority to do this boosting.

Sympathetic people all over the copper country are considering the case of Mayor Ojala. He very probably will be exceedingly popular in Hancock, if this raise in valuations is announced.

### RETIREMENT PLANS.

"Economy" and in big letters, is the motto of the administration for the coming year, according to statements made by a number of the aldermen following the council meeting Wednesday evening. The tone of the remarks is identical with those of Mayor Ojala, who announced several days ago that the municipality must live within its means and close the year without having drawn on next year's appropriation.

The principal difficulty in the past seems to be that too much attention was given at the close of the year to money that would come in during the succeeding administration. This has resulted in the incoming city government being encumbered with obligations contracted by its predecessor. Mayor Ojala is against a repetition of this condition and the chairman of the different committees have been notified to "go slow."

### EXPENSES ARE HEAVY.

The running expenses of the city, together with the task of taking care of the bonded indebtedness, compels the new council to act slowly. Bonds falling due must be retired. There are several thousand dollars' worth of these this year and it is the plan of the administration to cancel these bonds and not incur any additional expense above that absolutely necessary.

During the last few years the different administrations have made various public improvements, at the urgent requests of the citizens, leaving a heavy debt that must be met as payments fall due. One of the heaviest obligations thrust upon the city is the debt which resulted from the experiment with the free water plan several years ago. In a short time this debt amounted to \$75,000.

which made it necessary for the city to issue bonds, and it is these obligations in part that place the city in its present sad plight.

### FATE OF TWO WAYFARRERS.

#### Robert McDonough's Case Somewhat Similar to Chassel's Unknowns.

Robert McDonough, forty-one years of age, died Wednesday night at the Houghton county tuberculosis sanatorium. He succumbed to consumption, after having been an inmate of the institution less than three days. Regarding the man's life story little more than his name is known.

McDonough first came to the attention of the Houghton county authorities last Thursday when Sheriff Cruse was advised by someone in Copper City that a man named McDonough was drunk and acting in a disorderly manner. The sheriff put an order into effect to make the man leave Copper City and McDonough went to Houghton, arriving Sunday. He was picked up Sunday night in a delirious condition, the result of a prolonged debauch, and Monday morning Dr. LaBine, the county physician, diagnosed his case as tuberculosis and ordered him sent to the sanatorium. The man's case is one in a long line of similar cases. He is forty-one years of age, but that his parents has not lived in that city for many years. These are the short and simple annals of John McDonough. Absolutely nothing more can be learned regarding him. His body will occupy a grave in the potter's field.

### CHASSSEL MAN UNIDENTIFIED.

The body picked up on the Paradise road near Chassel Wednesday morning remains at the Krellwitz morgue, unidentified. The man's case is one in a long line of similar cases. He is forty-one years of age, but that his parents has not lived in that city for many years. These are the short and simple annals of John McDonough. Absolutely nothing more can be learned regarding him. His body will occupy a grave in the potter's field.

### POSTMASTER IS DECORATED.

#### Vincent Vairo of Laurium Receives insignia from Italian Government.

Vincent Vairo of Laurium, postmaster of that village, yesterday received from Arturo Castiglioni of Duluth, Italian consul at that city, a medal voted by Mr. Vairo six years ago by the Italian chamber of deputies. It recalls his service in the African campaign, Italy against Morocco, of 1887 and 1888.

Mr. Vairo served in this war as a member of the Italian engineers corps. He left for the United States after the campaign and located in Houghton county. The chamber of deputies voted the bronze medal to all survivors of the war six years ago and since that time the government have been trying to locate the survivors.

The medal can be worn only on certain stipulated occasions, the Italian government making restrictions in order that the medal may not be cheapened by promiscuous exhibition.

There is some question of Mr. Vairo's right to accept this medal, under the constitution of the United States, being an officer of the government, but he will retain it till he is advised he is wrong in so doing.

### ENGINEERS ARE AT WORK.

A detachment of troops from the Calumet Engineers, M. N. G., arrived at Grayling Tuesday with some of the members of the state military board and two engineers from the war department. They are now mapping out the grounds at Portage lake for the permanent National Guard camp site. The engineers expect it will require about six weeks to make an accurate layout of the lands. Superintendent M. C. Coyne of the Michigan Central railroad is also at Grayling, preparatory to starting work on the construction of a railroad spur to the grounds.

### MORE COAL BOATS ARRIVE.

All records for the amount of coal shipped to Portage Lake fuel companies this season will be broken if the present rate of receipts is kept up. Scarcely a day has passed when boats have not been tied at docks, either unloading or waiting their turn to discharge their cargoes. The Vulcan cleared yesterday noon, and the Gettysburg at one took her place. The G. H. Van Black is due to arrive today with 3,000 tons of coal for the People's Fuel company.

### GARDEN HOSE IS STOLEN.

Rev. Reuben Crosby of First Methodist Episcopal church of Hancock was minus a garden hose when he arose yesterday morning, the theft having been committed during the night. The hose had been left attached to the faucet on the west side of the parsonage the previous evening.

### TO VISIT HOME OF BAKED BEANS.

Charles Kemerson of Hancock will leave next week for Boston to spend a month at his old home. Before returning to Hancock Mr. Kemerson will visit several farming districts with the expectation of buying horses for his livery stable.

### APPLY FOR NATURALIZATION.

Vincent Parenti of Trimountain and Henric Hjalmar Kaspa of Chassel yesterday applied for naturalization. The former is an Italian, arriving in the United States in 1894, and the latter a Finn arriving in 1907.

So many pedestrians have been killed by motor buses in London that an inventor has brought out a device intended to pick up, unharmed, a person that one of the big vehicles may knock down.

### ODD FELLOWS' REUNION DANCE.

#### Big Gathering of Three-Link Folk in Houghton Tonight.

The largest gathering of Odd Fellows and their ladies during the year in Houghton county will be held tonight in the Amphitheatre at Houghton. The occasion is the annual May party of the Copper Country Odd Fellows' association. The association is a central body for the conduct of social and other affairs for all of the Odd Fellows' organizations of Houghton county, the most numerous fraternal order in the district.

The entertainment tonight includes a concert program and a dancing program. The concert numbers are provided chiefly by Calumet artists, excepting Klinghammer's orchestra of Hurontown, which is to play both in the concert and for the dance numbers.

Special transportation has been arranged by the Copper Range railroad from Calumet and intermediate points and from all South Range towns. The special will leave on the return to Calumet at 1 o'clock and to South Range points at midnight.

### FOR PORTAKE LAKE BRIDGE.

#### County Bridge Committee Considering Lighting Plan and Stairway.

Manager Gardner Rogers of the Houghton County Electric Light company has submitted to Chairman Hartman of the Houghton county bridge committee a proposal for a lighting system for the Portake Lake bridge.

The proposal is that the company will supply the bridge with lights on ornamental iron brackets on a contract for five years, at a stated figure, or for ten years, at a 10 per cent. reduction. The lights will be thirty-five in number, each of 100-watts, in twelve feet globes, twenty-four to burn all night and eleven to burn till 10 o'clock each night. Nine of the lights will be hung over the roadway of the bridge and the others along the footwalks, at the sides. Mr. Hartman expects tonight to have a meeting of the bridge committee to consider the proposal.

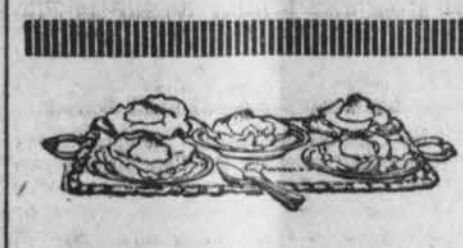

### BARAGA AUTOMOBILE ROAD.

#### Force of Men Engaged on Work Ordered by Private Subscription.

A force of men has been at work for several days on a section of road one and one-half miles long, south from the Haas homestead in Baraga county. The road is being built by a private subscription of a fund donated by automobile owners of Houghton and Baraga counties. The subscription amounts to \$350 and this will be expended in making the road passable. Last year it was impossible to drive an automobile from Baraga county to Houghton county.

### TAX SALE IS CLOSED.

County Treasurer Brain of Houghton closed yesterday formally closed the annual tax sale, in progress since the first of the month. A total of 225 descriptions were sold, a comparatively small amount, and covering virtually all of the desirable lands in the county delinquent for taxes of 1911 and previous years.

### You'll Like This Dessert—Try It For Dinner!

#### Knox Coffee Spanish Cream

1/2 envelope Knox Sparkling Gelatine. 1 teaspoonful vanilla. 2 eggs. 1/2 cup sugar. 1/2 cup strong coffee. Pinch salt.

Soak gelatine in 1/2 cup cold coffee 5 minutes. Place on stove one cup coffee, 1/2 cup milk; when boiling add coffee, eggs, sugar, and vanilla. Cook 3 minutes, then add sugar and remaining coffee. When cool mix in whites of eggs beaten to stiff froth. Flavor with vanilla. Mold and serve with whipped cream.

You can make a different dessert every day, with Knox Gelatine. Your family will be delighted with these pleasing dainty sweets—and you can make them easily and economically.

### THREATENS DISCLOSURES.

#### Howard Wibben, Alleged Burglar, a Hancock Boy, Hints Darkly.

Howard Wibben, the eighteen-year-old Hancock boy arrested in Laurium Wednesday night with Leonard Hosking, aged fifteen, charged with the burglary of Sakari's store in Hancock the previous night, told Sheriff Cruse yesterday that if this case is pushed against him he will "peach" on a lot of other Hancock youths. He hints at many dark crimes in the city. The sheriff is willing he should disclose if he has any disclosing to do. In fact, the sheriff thinks the disclosing is good, if Wibben wants any of it, because the youth seems to be criminally inclined.

Wibben and Hosking, if they actually are guilty of the theft of \$85 from Sakari's store, should be given credit for clothing to handle their financial affairs. They had a total of \$118.85 in their possession when arrested. They had new clothes from trunk to keel and Wibben had bought a revolver and ammunition. And they had tickets for Detroit and Chicago, a considerable amount of purchases for a sum total of about \$85.

Wibben wishes to appear as a desperate character. He asserted Wednesday night to Under Sheriff Heikkinen that there was no jail in Houghton county strong enough to hold him. He took a look around the county jail when locked up and Turkey Hosking remarked, "Looks stronger than you thought, doesn't it?" and Wibben humbly answered, "Yes, sir."

### Markets

#### WALL STREET STOCKS.

Paine, Webber & Co. wired from New York yesterday as follows: The market displayed better form today and presented a broader trading interest than for some time, which indicated both a liquidated condition and a large short interest outstanding. It is stated in well informed quarters that much confidence is felt as to the petitions for higher freight rates, which would in fact only offset a portion of the increased wages granted or pending. Quiet purchases have been made based on this. From time to time we look for reactions in the stock market but we believe that the general trend will be upward. However, discrimination must be used and operations confined to stocks enjoying an active market. The closing prices were:

#### Boston Coppers.

Of the market of Boston Paine, Webber & Co. wired yesterday as follows: Sentiment seems to be gradually changing to the better, but the market is still quite as confident and pessimistic talk is less frequently heard. Very few have courage yet to buy, but there is more interest in the market. Standard stocks in New York were stronger today, the rally extending to the copper in some cases. A few of the coppers were at better demand, but on the whole there was little change. The money and industrial situations are still serious and must be adjusted before we can have a rally prolonged rise. In the meantime the level of prices is low and standard stocks are safely purchased. The closing prices were:

#### Rue's Market Letter.

George F. Rue, broker, of Lehighport, yesterday wired from New York that the market had opened fractionally lower but around noon time good buying in some of the leaders appeared and advances ranging from one to three points resulted. The Boston coppers also showed more life, with the lead, advancing from 18 1/2 to 40 on the report that a seven-fifty-cent dividend would very likely be declared next week. A message from New York stated that the initial move for the consolidation of the Giron and adjoining properties has been taken by the incorporation of the Consolidated Copper Mines company with a capitalization of \$8,000,000, divided into 1,000,000 shares of a par value of \$5. This is practically the same as the plan reported

# Bowels Get Weak As Age Advances

### The First Necessity Is to Keep the Bowels Gently Open With a Mild Laxative Tonic.

MR. O. P. MILLER

Healthy old age is an absolutely dependent upon the condition of the bowels that great care should be taken to see that they act regularly. The fact is that as age advances the stomach muscles become weak and inactive, and the liver does not store up the juices that are necessary to prompt digestion.

Some help can be obtained by eating easily digested food and by plenty of exercise, but this latter is irksome to most elderly people. One thing is certain, that a state of constipation should always be avoided as it is dangerous to life and health. The best plan is to take a mild laxative as often as is deemed necessary. But with equal certainty it is suggested that cathartics, purgatives, physics, salts and pills be avoided, as they do but temporary good and are so harsh as to be a shock to a delicate system.

A much better plan, and one that thousands of elderly people are following, is to take a gentle laxative-tonic like Dr. Caldwell's Syrup Pepsin, which acts as a healthy tonic, as well as a laxative. In fact, the tendency to take a laxative to strengthen the stomach and bowel muscles and so train them to act naturally again, when medicines of all kinds can usually be dispensed with. This is the opinion of many people of different ages, among them Mr. O. P. Miller, Baraboo, Wis., who writes: "I am 80 years old and have been constipated for many years. Since receiving your sample bottle I have procured two 50c bottles and find that it is the best remedy I ever used and does just what you claim for it to be very better. I can not recommend it too highly."

### SERUM TO CURE DISEASES.

#### Dr. S. B. Wolbach Says That Antitoxins Will Be the Future Medicines.

Boston, May 22.—The progress of the cure of disease through the use of serums was discussed by Dr. S. B. Wolbach, who lectured at Harvard Medical school on "Future Lines of Investigation of Infectious Diseases." It was the opinion of the speaker that the outlook for the conquest of disease through laboratory experimentation is most favorable.

After classifying diseases and describing the various kinds of micro-organisms which cause them, Dr. Wolbach continued: "We have lately discovered a new and mysterious group of parasites, we cannot see them, however, through the highest magnification of the microscope, but they are known through the filtration method. We know of them, moreover, from their effects and through experimentation. Yellow fever, infantile paralysis, trachoma, measles, scarlet fever, foot and mouth disease and at least thirty others are caused by this hitherto undiscovered group. This subject has been under investigation less than ten years. The progress has been slow, but in the last year the virus of poliomyelitis, or infantile paralysis, has been separated. Smallpox furnishes an example of immunization through an injection of virus, although we do not know the organism which produces the disease. In time, it is probable that we shall vaccinate for infantile paralysis, hydrophobia, typhoid fever, measles and scarlet fever."

### EEL ROUTS SWIMMERS.

#### Wriggles About Unseen on Floor of Pool of Turkish Bath House.

New York, May 22.—Isaac Smalowitz dived into the big plunge in the Turkish bath house at 178 Norfolk street, where about twenty swimmers were already enjoying themselves. He put his feet on the bottom, and felt something odd and round and slippery.

It wiggled and it kept on wiggling, further investigation, "Oh, Oh!" he yelled, leaping frantically for the ladder. "A snake! A snake!"

Instantly every other man in the pool felt in imagination a cold and slippery coil about his ankles. There was one unanimous yell and the water was torn into foam by the mad scramble of a score of wet bodies for the ladder.

Slipping, falling, rolling over, stepping on one another, the entire twenty gained the tiles of the bathroom floor with a splash.

They did not care where they were going. The one thought was to escape from the dread terror in the pool.

Every one of them was firmly convinced that a thirty-foot sea serpent or a monster devil fish was lurking there ready to devour.

Herman Korowitz, proprietor of the baths, who had been aroused by the commotion, entered the empty plunge room. He is a large and slow-moving person of placid temperament.

"Ach Himmel!" he murmured. "Such an annoyance. Gross, even now the pool and let's see what has frightened them."

The water was drawn from the pool and there on the clean, white floor lay the squirming long black object.

"Ah!" quoth Herr Korowitz, "an eel."

When a reporter arrived, Korowitz was even more placid.

"But, what became of the eel?" the reporter asked.

Herr Korowitz said nothing, but as he picked his teeth and gazed (still placidly) at the pool his expression spoke volumes.

### SEE END OF DEMON RUM.

#### Government Officials Introduce Country to Paprika Highball.

Washington, May 22.—Goodly to demon rum. It is going to be the paprika highball and the paprika cocktail soon if the experts of the department of agriculture are right.

Generous sprinkling of the Hungarian product will take the place of all whiskey. The experts are going to disclose the recipe in an official document for the cultivation of the red pepper here.

Bela Augustin of the University of Berlin declares that in southern Germany and in Austria-Hungary where they use large quantities of paprika, the desire for strong drinks has almost disappeared. Professor Augustin will be quoted by the department experts.

### TO PRESERVE EGGS.

When eggs begin to get plentiful it is well to know how to preserve them for eating when they are scarce.

The fresher the eggs in the first instance the better they answer for keeping purposes. If possible, date the eggs on the day they are laid as a guide which to use first later on.

Boil them in the usual way for about two and a half to three minutes, then store them in a dry but airy place. They can be kept for several months in this condition, and when they are required it is only necessary to put them in cold water and let this water get quite hot over the fire. They are then ready to eat. This method is one very much used by the French.

Another French method for raw eggs that is very successful is as follows: Dip the eggs into a fairly strong solution of gum arabic and put them into a box filled with powdered charcoal. Keep this firmly closed. The charcoal is easily washed off when they are needed for use. The gum arabic closes the pores of the shell.

The dedication of twenty-nine memorial markers on the Santa Fe trail between Kansas City and New Franklin, Mo., has begun. The old trail committee of the Kansas City chapter of the D. A. R. is conducting the ceremonies on a 150-mile motor trip. The work of dedication will end Saturday at New Franklin, when Governor Major will assist in the ceremonies.

### City Brevities

Today's weather: Generally fair and slightly warmer.

Yesterday's temperatures: Seven a. m., 39 degrees; noon, 40; 7 p. m., 45. Highest, 45 degrees; lowest, 37.

Austin Farrell left last evening for Gladstone.

Miss Maney left last evening for Duluth, to visit relatives.

C. W. Baggott and wife, of Seney, spent yesterday in Marquette.

C. E. Bigelow, of Ishpeming, attended to business in the city yesterday.

W. J. Fax, of Escanaba, was a business visitor in Marquette yesterday.

P. W. Brown left last evening for Chicago, on a few days' business trip.

W. J. Crego, of Cusino, spent yesterday attending to business in Marquette.

St. Paul's guild will meet this afternoon at 2:30 o'clock in the Morgan Memorial chapel.

Durt L. King, superintendent of schools of Escanaba, was a business visitor in Marquette yesterday.

Klamert's band will give a dancing party next Thursday evening in Keough's Hall.

Ransom Manhard, Frank Stolpe and L. E. Gensiver left yesterday for Saginaw, on a visit.

J. W. Fraser left last evening for Cleveland, after spending several days in the city on a business mission.

Mrs. Ray Mueck, of Negaunee, who spent several days visiting relatives in Marquette, has returned to her home.

Mr. and Mrs. Joseph Bertrand and family, of St. Ignace, arrived in the city yesterday afternoon to visit relatives.

Mr. and Mrs. C. V. R. Townsend and W. A. Garner, of Negaunee, spent Wednesday visiting Marquette friends.

A meeting of the Marquette aerie of the Fraternal Order of Eagles will be held at Keough's Hall this evening.

John Norton, editor of the Escanaba Press, will be in Marquette next week to report the Roosevelt-Newett case for his paper.

The Baptist Ladies' Aid society will meet this afternoon at 3 o'clock at the home of Mrs. E. P. Monteeth, 715 Spruce street.

W. J. O'Donnell has opened a cash grocery store at the corner of Presque Isle avenue and Center street, North Marquette.

Miss Emma Brockman, of Green Bay, has arrived in Marquette to be the guest of Miss Hannah Peterson for two weeks or more.

The Ladies' Aid society of the M. E. church will meet this afternoon at 2:30 o'clock with Mrs. W. G. King, 159 West Hewitt avenue.

The funeral of Mrs. John Johnson will be held Friday afternoon, with services at the Swedish Lutheran church at 2:30 o'clock and interment in Park cemetery.

Luther L. Wright, state superintendent of public instruction, who spent the last two days in Marquette, left last night for Ironwood, his former home.

H. R. Howard was down from Big Bay yesterday, on a business mission. Leonard Miller, another resident of the Powell township, also came to Marquette yesterday.

S. D. Williams, editor of the Modern Maccabee, will be in Marquette Monday, and will attend a meeting of the Marquette branch of that order in the evening.

Charles Reddick, a trapper operating on the Yellow Dog river, brought fourteen beaver pelts to the office of the county clerk yesterday, to have the seals cancelled.

Ornboe & Atkins' electric sign over the entrance to their Washington street clothing and furnishings store has been refurbished and new tungsten sign globes have been placed in the sockets.

Mr. and Mrs. A. M. Day, Mrs. L. C. Lawrence, F. C. Farwell and Miss Florence Farwell, the latter accompanied by her maid, arrived yesterday from Chicago to spend a few days at the Huron Mountain club.

On account of a Maccabee lecture to be given next Monday evening at Fraternity Hall, the card party and sale Superior have had arranged to conduct in the lodge rooms of that building that night has been postponed until June 9.

The six-compartment sleeping car "Negaunee" used on the Soo-Duluth run of trains No. 7 and 8, was taken out of the South Shore car shops yesterday resplendent in fresh paint and varnish. The company's sleeping cars are being overhauled one at a time. Nearly all of them have been put through the shops since the first of the year.

Inspected Mail Cars—Newton DeForest, inspector of the railway mail service of the fourth district of Division II, left for his home in Duluth yesterday, after spending a day with the master car builder of the South Shore railway. Alteration to several South Shore mail cars are proposed and Inspector DeForest came here to recommend improvements.

Memorial Service Sunday—Members of Albert Jackson post, G. A. R., and the Women's Relief corps No. 188, together with confederate veterans and veterans of the Spanish-American war, will attend memorial services Sunday at the Methodist church. Veterans are requested to meet in the Albert Jackson post-room in the city hall Sunday morning at 10:30 o'clock. The members of the relief corps will meet at 10:50 o'clock in the parlors of the Methodist church.

New Time Table June 1—C. E. Lyle, general superintendent of the South Shore railway, announced yesterday that the operating and passenger departments were figuring on cutting down the running time of train No. 7 one hour between the Soo and Duluth. The time of train No. 8, however, will remain unchanged. Train No. 7 arrives in Marquette from the east at 11:15 p. m. The proposed change will be made to conform to a new time table which will go into effect June 1 on the Canadian Pacific railway. It is planned to make

the change in South Shore time effective the same day.

Mr. and Mrs. James Gray were pleasantly surprised last night by a party of thirty of their friends, who called at their home at 317 Crescent street in mask costume. Prizes were awarded as follows: Best dressed couple, Mr. and Mrs. Stewart Zryd; best dressed "lady," Frank Marvin. Mrs. Harry Grass was also awarded honors in this latter particular. Mrs. George O'Neill received a prize for her comic get-up.

Blasting Big Boulders—The heavy blasts that echoed over the city yesterday were caused by the operations of T. L. Durocher, the contractor who is laying the foundations for the proposed new breakwater for the lower harbor. The charges, fired off from rocks, were heavy, and they gave rise to some complaints. Mr. Durocher asserted, however, that the public should be pleased to have him undertake the work he was doing as he broke up several great boulders whose tops approached so near to the surface of the water that they have been a menace to small craft. He also blasted down one overhanging mass of rock that was likely to fall away any time.

INSURE WITH PETER WHITE & CO.

**ANTI-SALOONERS TO SEEK \$100,000 FUND**

Will Soon Begin to Raise Money for Statewide Prohibition Fight.

Detroit, May 22.—Michigan will be the next battleground of the anti-Saloon league in a statewide prohibition contest.

The state organization will celebrate the twentieth anniversary of the national organization next month by instituting a campaign for \$100,000 for the fight, and by uniting with the national league to carry on an attack for national prohibition.

While the league income in recent years has averaged \$30,000 annually, State Superintendent J. F. Burke, returning from a trip in the state, says this sum will be doubled and tripled before the fight is finished. At the same time the national league is soliciting funds in this state for its work, centering at Washington, where it plans to maintain a legislative bureau to advise state legislatures and to bring public pressure to bear on the temperance side when vital matters are at stake in congress.

To Keep Tabs on Congressmen.

Political prophets here predict that "it will be anything but pleasant for congressmen" in Michigan when the national league gets into the congressional districts of the entire country at the next election and puts every candidate on record either for or against national prohibition by constitutional amendment. Superintendent Burke says that the employers' liability law is operating to decrease saloon patronage in factory sections of the state. As at present framed the law gives an employer the benefit of compensation if he is injured, though he may have been slightly under the influence of liquor just before the accident. Several automobile companies are known to have issued orders prohibiting their employes from drinking any kind of liquor, whether on or off duty.

Since the passage of the Webb interstate bill by congress, forbidding shipment of liquors into dry states, both railway and distilling representatives, it is said, have called at the local headquarters of the Anti-Saloon league and given notice that they did not wish to "fool" with the new law and wished to keep informed as to what is dry territory, so that they might co-operate in not shipping liquor contrary to law.

**YO, HO, SODAS WILL WELCOME SAILORS**

Chocolate Sundaes to Greet Jolly Tars at New Boozeless Haven in New York City.

New York, May 22.—After a deep investigation the reason why Jack ashore makes a bee line for a saloon has just been determined by the Seamen's Church institute. It made a psychological discovery.

It is announced that the brass rail in front of the bar is the attraction. There is something about the brass rail which levels social bars, cements friendships, soothes the quarrelsome, quiets the perturbed mind and brings a great peace to the soul of the seafaring man as well as to his landlubber brethren.

Working with this discovery as its foundation, the institute intends to deal a mighty blow to the waterfront thirst resorts.

The institute is to start this work when it moves into its big new home at 25 South street, and opens on May 28. Tea will be served and many prominent in society will be there to launch the new enterprise and Lafayette post, G. A. R., will be there for a flag raising.

Once the institute gets working no more will Jack leap the pier with, "Yo! ho! ho!" and a bottle of rum.

From then on will issue from his lips a jolly little chant of "Yo! ho! ho!" and a good long swig of chocolate nut sundae.

It is Edmund L. Bayliss, chairman of the building committee, who evolved the idea of a brass rail lemonade bar to replace the "third rail" one. He figures that the football will lead the men to discover heretofore unsuspected sociability lurking at the bottom of an ice cream soda glass.

The suggestion has been taken up with enthusiasm by Mrs. Irene K. Lane, secretary of the committee and editor of the Lookout, the institute's magazine, who is working hard to raise the \$1,000 needed for the bar fixtures.

It is going to be a real bar, all right; none of these imitation marble, be-mir-

### TRADE SECRETS—No. 5.

A florist would not get very far in business without a greenhouse—would he? And after he has his greenhouse and his plants he has to give them careful, individual attention. He has to watch the temperature, water them, see that each plant has the soil adapted to its healthy growth. You young men and women whose young lives are just about flowing can no more bring them to perfection without a bank account than a florist can succeed without a greenhouse. And you need a bank that fits your requirements. A child needs different banking treatment than a man—a merchant than a farmer. Here in Marquette you find a Bank of Personal Service in the Marquette National Bank. It meets your business needs. For whatever you do that is your business.

**MARQUETTE NATIONAL BANK**  
Marquette, Mich.

When you are looking for us, be sure and look for the two words MARQUETTE NATIONAL. If you don't see these two words—it is not our bank.

### Tailored Suits

at \$18.50 and \$25.00.

Finely tailored, which assures you of a perfect fitting garment, shown in all the late fabrics.

**A. L. Guetter**

### CONGRESSMAN WANTS GOVERNMENT TO COLLECT BIG BILL AGAINST RAILROAD.

Washington, May 22.—Representative Neely of Kansas has submitted to Attorney General McReynolds a formal request that the government at once proceed to collect from the Missouri Pacific railroad the sum of \$43,362,346 due the government on subsidized bonds advanced to aid in the construction of the central branch of the Missouri Pacific railroad in Kansas.

This is the only claim the government now has account of the subsidy bonds issued to aid in the construction of the Pacific railroads. All other bond-aided railroads have paid their subsidy loans. Solicitor Thompson of the treasury department has advised the secretary of the treasury that "it would seem now, after a lapse of forty-five years from the date of the bonds, matters should be brought to a conclusion with respect to the only remaining unsatisfied claim. It must be apparent to everyone that if no effort is made to collect it, it will never be paid."

### TRADES UNIONISTS PROTEST AGAINST PAGE SERVING AS AMBASSADOR TO BRITAIN.

New York, May 22.—At a meeting of the executive council of the Central Federated union tonight, strong objections to the appointment of Walter H. Page as ambassador from this country to Great Britain were voiced. After the meeting, Secretary Ernest Bohn, it is stated, sent a telegram to President Wilson on behalf of the union, asking for the recall of the ambassador. Mr. Bohn said that the executive council of the union, which embraced more than five hundred thousand union men in this city, had sent a request to the executive council of the American Federation of Labor, asking that organization to request the president to withdraw the name of Mr. Page.

### WILSON AWAITS OUTCOME OF THE MEXICAN ELECTION.

Washington, May 22.—President Wilson made it clear today that the United States government had reached no decision as to recognizing the Huerta government in Mexico. He indicated that when recognition is extended it will be as a result of a general adjustment of conditions in Mexico. The impression gained at the White House was that the Washington government would await the outcome of the presidential elections in the southern republic.

### BADGER SOLONS KILL PLAN TO REVISE CONSTITUTION.

Madison, Wis., May 22.—The Wisconsin assembly tonight defeated an effort to submit to the people the question of holding a convention to revise the state constitution. The resolution to this end was adopted a few days ago, but the vote was reconsidered tonight and the resolution indefinitely postponed by a heavy vote.

### STOCK MARKET IS STRONG.

New York, May 22.—In a comprehensive upward movement which lifted the values of important stocks one or two points, the market today broke away from the narrow groove which it has been following recently. Trading was heavier, and the ease with which prices

were marked up suggested a scant supply of stocks. The Harriman issues led in the upward movement, being influenced by rumors that a plan had been agreed upon for the separation of the properties in accordance with the decree of the supreme court.

### PUBLIC MARKET HOUSE TO CUT COST OF LIVING AT ST. JOSEPH, MO.

St. Joseph, Mo., May 22.—With the intention of reducing the cost of living, the city of St. Joseph today leased a municipal market house, recently erected at a cost of \$75,000, to Hugh J. Bowen, a resident, who is to pay \$1 for eleven months' tenancy of the building. In consideration for the small rental, Bowen has agreed to reduce the cost of food-stuffs, especially to the people.

Under the contract, the city may employ expert accountants to examine Bowen's books, and if they should report that Bowen has failed to reduce the cost of food products the city may terminate the contract by giving the lessee ten days' notice.

### QUARRYMAN TESTIFIES TO HAVING FURNISHED DYNAMITE TO LAWRENCE "PLOTTERS."

Boston, May 22.—Ernest W. Pitman supplied the dynamite that was "planted" in Lawrence during the textile strike, according to evidence introduced by the state today. The outside of Pitman the morning that he was to have appeared as a witness before the grand jury investigating the alleged conspiracy to discredit the strikers created a sensation at the time. As a building contractor he erected the woolen mill at Lawrence owned by the American Woolen company of which William M. Wood was president.

When John J. Breen, who has confessed to actually "planting" the dynamite, had concluded his testimony today at the trial of William M. Wood, Frederick E. Atteux and Dennis J. Collins, the alleged conspirators, the prosecution called William H. Rice, a quarry owner. Rice testified that Pitman asked for a quantity of dynamite for a construction job, that he got it from his quarry and accompanied Pitman to Boston, where he saw Pitman deliver it to Breen.

### IRON ORE FROM TEXAS.

Shipments for Philadelphia Concern to Begin in June.

St. Louis, Mo., May 22.—The East Texas Brown Ore Development company which controls 29,000 acres of iron ore land near Marshall, in northeastern Texas, will start shipments to Atlantic coast ports June 1. The initial shipments will be at the rate of 300 tons a day. The first cargoes will be consigned to Philadelphia for the Alan Wood Iron & Steel company. It is said that about 200,000 tons have already been surveyed. The haul from the ore mines to tidewater at Galveston is over three hundred miles.

### MCUE IS VICTOR OVER SOKOL.

Fond du Lac, Wis., May 22.—Matty McCue, aspirant for the middleweight championship, was given the popular verdict here tonight in a ten-round decision bout with Johnny Sokol, of Minneapolis. McCue won, but not by a great margin. Sokol being apparently strong at the finish, McCue abandoned his former rushing tactics and fought a

careful hard battle. He took no chances in the earlier rounds and when he finally opened up in a desperate attempt to end the fight in the ninth the time was too short.

### INNOCENCE RUINS MAN.

He Doesn't Know What a Flush Is, but Still Plays Poker.

New York, May 22.—"Poker ruined me," said Louis Appel when he was under examination before United States Commissioner Gilchrist to explain why Appel Brothers, fur merchants, failed. "I lost \$800 a week ago playing poker." "Where did you play poker?" asked Stephen B. Rosenthal, counsel for the receiver. "All over town," replied Appel. "Name one place where you lost money," said the lawyer. "There are so many gambling houses in New York I could not remember," answered the witness. "What is a straight flush?" asked the lawyer. "I don't know," said Appel. "Does a flush beat a straight?" "Don't ask me; I don't know." "Does a full house beat a straight flush?" "I couldn't say." "No wonder poker ruined you," commented the lawyer.

### TEMPTING THE BUYER.

"Advertising flour from selected wheat in order to tempt the public is a good deal like the colored man's hot pies," says a miller, in commenting on a bargain flour advertisement. The colored man shouted, "Hot pies, hot pies!" And a hungry colored brother who bought one found it stone cold. In an

#### GUY VOYER MAKING GOOD ON THE STAGE

Former Ishpeming Boy Is Leading Comedian in a Musical Comedy Production.

Guy Voyer, son of George E. Voyer, former manager of the Nelson house and Copper company's hotel in Anaconda, Mont., is making good on the stage. He is now leading man in "Merry Merry," a tabloid musical comedy that is playing an evening.

An Ishpeming man who spent last week in Racine, Wis., visited Guy, and witnessed a performance of "Merry Merry." He was much impressed by Guy's performance. He is playing comedy roles exclusively. His company, which is composed of twenty-five people, filled a four days' engagement at Racine. His opening song, "Good Bye Boys I Am Going to Get Married" is one of the best numbers of the piece.

The management is featuring the former Ishpeming boy with one and three-sheet posters. Next season he is to be principal comedian in "Bright Eyes," playing the part formerly played by Cecil Lean, who appeared in the production in this city two years ago. In "Merry Merry" company he plays the part of "Billy Dasher." His work is on the George Cohan style and he has developed into a graceful dancer.

Mr. Voyer told his Ishpeming friend that he was not relying on his voice, but he was studying acting, which, he said, was the principal requirement, even in musical comedy work.

For more than a year before going on the stage, Guy was in the employ of the Snyder Publishing company of Chicago, as a demonstrator of their songs. He also sang for a time with a male quartet.

#### RIVALRY BETWEEN CITIES SPIRITED

Both Ishpeming and Calumet Making Every Endeavor to Procure 1914 Pythian Meet.

The contest between the Ishpeming and Laurium lodges, for the 1914 convention of the Knights of Pythias of the upper peninsula, is developing into an interesting affair, as the members of both are putting forth every effort to secure pledges of support at the convention in Marquette June 3, 4, 5 and 6.

The Ishpeming lodge has had a representative seeking pledges two or three weeks past, and he has met with excellent success. It is believed that the Ishpeming lodge will have the support of a majority, if not all, of the copper country delegates. The Ishpeming members here feel that the copper country should step aside and give Ishpeming the meeting, as this is the first time that the Ishpeming lodge has asked for recognition since the original meeting some years ago.

Ishpeming will send a large delegation to the Marquette convention. It will include a large majority of the members of the Ishpeming lodge, as well as many of the Pythian Sisters, who recently organized a branch with a membership of over 100. The Uniform Rank, which is composed of more than fifty members, will also be present, and will head the Ishpeming lodge in the parade.

The Ishpeming lodge has not yet chosen its delegates to the convention, but they will probably be selected at the next meeting. About twenty lodges will be represented at the Marquette meeting, and each will be entitled to two delegates.

The Ishpeming Advancement association will aid the Pythians in landing the 1914 meeting, and if Ishpeming is selected will co-operate with the city officials in helping entertain the visitors.

#### Laurium Claims Strong Support.

The following reference to the campaign being waged by the members of the Laurium lodge in their effort to line up delegates from the Calumet News, is of interest:

"Laurium lodge of Pythians is confident of landing the 1914 meeting of the upper peninsula league and assurance of support has been given by members by a majority of lodges in the northern part of the state. Further, the aid of grand lodge officers has been offered and grounds for their confidence are not lacking. The efforts of Ishpeming lodge appear to be confined to iron country lodges and beyond the announcement of its candidacy for the next meeting, nothing further has been heard locally.

"Forty or more members will represent Laurium lodge and a majority will take part in the third annual rank contests. A rehearsal was held this week and excellent progress has been made by the team. Many members of the victorious team of 1911 are still affiliated with the Laurium lodge and the advanced and experienced members is the lot of the order.

"Plans for a street parade on the night of the departure for Marquette have been laid and headed by a band, the local lodge will proceed to the hall of Charity lodge and both orders will march to the depot in a body. Portage Lake and Chassel lodges will board the train at Houghton and the entire copper country delegation will enter the convention city in a body.

"Secretary W. A. Ross of the upper peninsula league has issued a circular letter to secretaries of all lodges requesting information as to the number of attendants from each order to provide accommodations. Marquette lodge is perfecting details for entertainment of the visitors and various sight-seeing trips have been planned. The convention will open June 3 and will conclude June 6."

#### IMPRESSIVE DRAMA.

"The Witness for the Defense" is Admirably Acted by Frohman Company.

In "The Witness for the Defense," in which Charles Frohman presents Blanche Bates in a stellar role, theatergoers have an opportunity to witness a play of unusual and powerful interest presented by a company of exceptional abilities. Blanche Bates is cast in a congenial role that she interprets in a wholly satisfying and authoritative manner, and the supporting players present a group of highly artistic impersonations. Set with two scenes in which every detail has received artistic attention, the performance is one that may be unhesitatingly recommended to theatergoers looking for plays well worth while. At Marquette, Calumet and Hancock "The Witness for the Defense" has this week won the highest approval.

#### BACKACHE IS A WARNING.

Marquette People Should Not Neglect Their Kidneys.

Backache is often nature's most frequent signal of weakened kidneys. To cure the pains and aches, to remove the lameness when it arises from weakened kidneys, and to reach the cause—the kidneys. If you have pain through the small of your back, urinary disorders, headaches, dizzy spells, or are nervous and depressed, start treating the kidneys with a tested kidney remedy.

Doan's Kidney Pills have been proved good and are especially for weak kidneys. Doan's have been used in kidney trouble for over fifty years. Read Marquette testimony.

Mrs. J. J. Cleary, 322 Rock St., Marquette, Mich., says: "Although I never used Doan's Kidney Pills, I can recommend them highly, as they have been used in our household with good results. A member of the family suffered from weak kidneys and had severe backaches. Doan's Kidney Pills restored the person who was a victim to good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

### Mining News

Shipments by Quincy have fallen off to 3,200 tons daily, compared with average shipments of 4,200 tons daily last year. The labor shortage is responsible.

Adventure is operating a second diamond drill from the end of the long crosscut about 350 feet from the bottom of the shaft. Drift driving from the surface for the South Lake lodges is down 570 feet.

Hoisting will commence at the Mohawk No. 6 shaft within two weeks. No. 3 shaft will then be shut down and the men transferred to No. 6. The territory commanded by No. 3 will be mined from Nos. 2 and 4.

Some Lake Superior stockholders of the Wolverine who six months ago expressed vehement objections to a consolidation with Mayflower and Old Colony now express the belief that a merger might have advantages to the future of Wolverine.

It is said that holders of the American Saginaw stock, who lately entered agreement to transfer their holdings to Calumet & Arizona in exchange for stock, will participate in the Calumet & Arizona dividend of \$125 per share, payable June 23.

Advices are expected at any moment from the Indiana property that the diamond drill being driven horizontally west from the shaft at a depth of 1,000 feet has encountered the Indiana lode. This drill was started several weeks ago when the shaft at depth of 1,000 feet failed to encounter the lode encountered at this depth by No. 2 drill three years ago.

With the flotation process Butte & Superior is recovering near 90 per cent of values and treating 650 tons of ore per day while the concentrator is handling about 150 tons additional. The second section of the plant will be completed by the middle of June and the capacity thereby increased to 1,400 tons daily. W. A. Clark has adopted the same oil flotation process for his new mill, having entered into a contract with the Mineral Separation company, which claims a patent on the system used by Butte & Superior and is using the latter for infringement.

The officials of the Western Federation of Miners have decided not to give the labor trouble at the Mass mine the standing of a strike, and as a result the strike payments of \$1 a day per man from the federation's funds, expected by the men who precipitated in the trouble will not be forthcoming. The action of the men who determined the mining company to shut down was not authorized by the federation. This development is expected to prove an important influence toward bringing about an early settlement.

The commencement of work on the enlargement of the capacity of the East Butte smelter will be postponed for a while, as the present condition of the copper market is such as to impress upon the management the idea that it would be better to turn out, as is being done at present, 1,400,000 pounds of copper per month, than to have to close down about one-half the capacity of the smelter for a month or more. The East Butte is sending to the smelter a high grade of copper and the ore bodies being mined will admit of this for a long time to come.

Tulamee is reported to have opened up a good body of ore on the 2,200-foot level, but just to what extent is not yet known. A director of the company has made the statement that the ore body has given the management new hope and that it indicates that the mine is rich at depth. It is known that the mine has not been showing up as well of late as was expected and that the shipments have been cut down to about 125 tons a day as compared with 250 a few months ago. With the new ore body on the 2,200-foot level opened up, the management will in the near future start sinking to greater depth.

The new smelter of the Calumet & Arizona company which will start operations the first week in June, was not expected to be ready until August.

### You, Mr. Husband---This Is For You

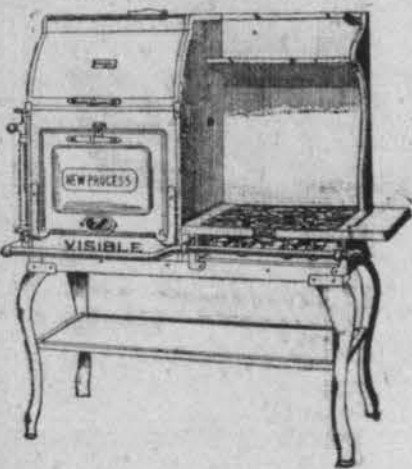

This ad was written for that busy fellow who forgets the comforts of those at home.

How do you feel when your breakfast is late?

Kind of grouchy, eh? Well, it is aggravating to have the cook oversleep herself. Then to add insult to injury, the old coal range balks.

The cook, to hurry matters, dumps on an armful of wood, which only serves to fill the house full of smoke, which doesn't improve your temper a little bit. Let us suggest that right now. This very day, you OREER A GAS RANGE. Then your breakfast will never be late, nor will your other meals. A gas range is always ready. It's willing--it's cheap. Call and see our Gas Range, for your comfort and economy.

MARQUETTE COUNTY GAS & ELECTRIC CO.

#### TEN-YEAR-OLD BOY HITS THE TRAIL

Son of Superintendent of Pluto Powder Plant Tires of School and Leaves Home.

Paul Barger, ten-year-old son of E. G. Barger, superintendent of the Pluto Powder plant, disappeared from the Garfield house, where the family boards, at an early hour yesterday morning, leaving a note addressed to his father saying that he had become tired of attending school and that he was going away to look for a job. Mrs. Barger is absent from the city on a visit, and Paul has been attending school in the city during the day, while his father has been at the powder plant.

The boy misbehaved in school Wednesday and the teacher sent him home. He said nothing to his father about his trouble in school, but it would seem from the fact that he packed his clothes in a bundle and took them with him that he had planned to run away some time before he started on his hike.

He had traveled down the Chicago & Northwestern track and had gone as far as Cascade Junction before he was stopped. He called on the station agent there, and although tired and hungry, said that he intended to keep on his trip. The agent heard the message about the boy's disappearance going over the wire and he immediately sent word of his whereabouts to Ishpeming. He held the boy at the station and sent him back home on the afternoon passenger train.

#### NOT SERIOUSLY INJURED.

John Murray, the section hand at Escanaba, who was struck by the south-bound passenger train Tuesday morning while walking along the track, sustaining two fractures and a number of bad cuts and bruises, is reported as getting along nicely at the Delta county hospital. The attending physicians say there is no indication of internal injuries.

Ishpeming LAUNDERERS —Tel No.

### The New Unifold Davenport

Finally solves the problem of making a davenport as comfortable for sleeping purposes as a regular open bed and at the same time retaining, no features suggestive of the ordinary bed davenport.

We justly claim many points of superiority for our new bed davenport over any style heretofore in use, a few of which are as follows:

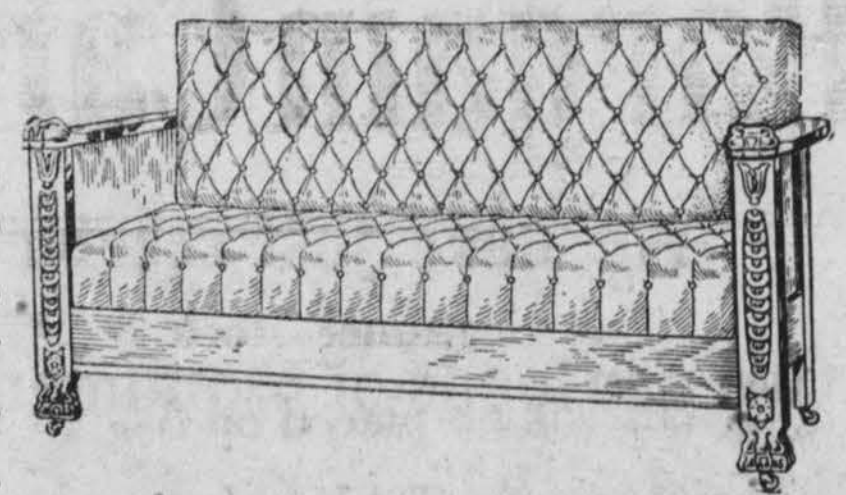

First: The back is stationary. It does not have to be moved from the wall when being converted into a bed.

Second: Unlike other bed davenports, when not in use as a bed, it possesses the style and outlines of the ordinary straight davenport.

Third: While in use as a bed the occupant sleeps on a real mattress, not on hard upholstered tufts, as is the case with other bed davenports.

Fourth: It is the only davenport bed that equally divides the merits of the bed and the davenport, in as much as it is a comfortable and real bed when used for that purpose, and at other times a stylish davenport not even faintly suggesting its double purpose. The springs and mattresses of the bed have nothing to do with the upholstering of the seat and back.

Step in and let us demonstrate the utility of the davenports and view the various patterns in the different grades of upholstering, all marked at Gately's Reasonable Prices.

"THE WITNESS FOR THE DEFENSE"

## Ishpeming Department

### BODY OF A BABE IS FOUND.

Grossome Discovery Made Yesterday Morning Near Humboldt.

The body of a baby a few days old was found early yesterday morning near a culvert at McKinney lake, three-quarters of a mile from the Baron mine. The little corpse was enclosed in a white cloth bag. A Finnish newspaper was wrapped about the head. The discoverer, Dave Johnson, at once notified Dr. Paul Van Riper, of Champion, who will conduct a post-mortem examination today. Coroner William Prin of this city left for Republic yesterday, after being informed of the gruesome find. He impounded a jury which will investigate the case today. The jury is composed of James Toy, L. M. Theobald, Edward Venore, Walter Webber, John Champion and John Olmstead, all of Humboldt.

### SWIMMING CONTEST.

Next Saturday morning the juniors of the Ishpeming Y. M. C. A. will hold swimming games and contests in the pool at the "Y." The junior "B" boys are scheduled to meet at 9:30 o'clock and the junior "A" members are requested to meet at 10:30 a. m. There will be water baseball, wrestling matches in the water, diving contests and races, to which all the junior members will be eligible. No spectators will be allowed.

### "PRINCE OF PILSEN."

"The Prince of Pilsen" famous for its witty dialogue, pretty music, magnificent scenery and beautiful girls, will be the attraction at the Ishpeming theatre on next Wednesday evening. This famous musical comedy is a Pixley-Luders masterpiece that has charmed the entire world with its many alluring features and is today the most welcome attraction offered by theater managers throughout the country. Henry W. Savage has equipped the entertainment with a carefully selected cast, which is headed by the popular comedian, Jess Dandy, who has his old part of Hans Wegner, the Cincinnati brewer, a part that he has made famous in this country. To Lottie Kendall will fall the plum among the feminine parts, that of Mrs.

Madison Crocker, the city widow, who is expected to lend charm and dignity to the character, who wins the love of the susceptible old German. Other parts have been filled with Mr. Savage's customary care. In addition to the new scenic investiture that will reflect the effulgence of this international favorite, the play has been fitted with an entire set of new costumes from the leading Paris and New York dressmakers. Accompanying the organization will be an orchestra.

### ISHPEMING IN BRIEF.

A. J. Gunville, of Gwinn, spent Thursday in Ishpeming as a business visitor. F. T. Boaler, of Houghton, spent yesterday in Ishpeming on a business mission. R. C. Lowe, of Marquette, was a business visitor in Ishpeming yesterday afternoon.

C. R. Holbrook left yesterday afternoon for Munising, where he will remain until Saturday.

F. DeMoran, of Iron Mountain, was among the business callers in Ishpeming yesterday.

Victor Olson, of Duluth, was a visitor in Ishpeming yesterday. He was on his way to Boston.

H. E. Bending, of Marquette, of Bending & Co., was in Ishpeming business visitor yesterday.

George W. Pettit was here from Menominee yesterday, and spent the day in the city on business.

William Burch, representing the Melchior company, of Chicago, was a business caller in Ishpeming yesterday.

L. L. Wright, of Lansing, state superintendent of public instruction, visited the Ishpeming public schools yesterday.

The Modern Woodmen of America gave a private dancing and card party in Anderson's hall last evening, the members of the lodge and their families being present.

The special train on the South Shore line, on which the members of the Ishpeming and Negaunee lodges of the Odd Fellows will travel Saturday evening on their trip to Republic, will stop both going and returning at Humboldt for

the accommodation of members there desiring to attend the meeting.

Mesdames W. H. and G. G. Johnston and the Misses Stone and Hulson will conduct a ten cent social this afternoon at 3 o'clock in the parlors of the Presbyterian church.

The ladies' temple of the Golden Eagle entertained at a social in the Swedish Home hall on Wednesday evening. More than two hundred were present, all spending an enjoyable evening.

Two births were recorded at the office of the city recorder yesterday. They were a son to Mr. and Mrs. Julius Johnson, 320 Bank street, and a son to Mr. and Mrs. Frank Ruml, of Romely.

A. J. Brandt, of Gwinn, manager of the Gwinn baseball team, was in Ishpeming yesterday afternoon, in attendance at the meeting of the baseball enthusiasts of Marquette, Ishpeming, Negaunee and Gwinn.

Mr. and Mrs. J. L. Bradford have returned from Chicago and lower Michigan points. Mr. Bradford has been absent for the past ten days on a business mission and Mrs. Bradford has been visiting in lower Michigan for several weeks.

Professor A. A. Stanley spoke in the assembly room of the Ishpeming high school Wednesday evening. He is head of the music department of the University of Michigan and took as his subject "How May a Community Become Musical and Is It Worth While?" His lecture was greatly enjoyed.

Steve Simons and wife entertained the members of a ladies sewing club and their husbands Wednesday evening at their home on High street. Cards were played and a dainty lunch was served. Oscar Gouge of Negaunee, won the first men's prize, and Captain William Goodman, the second. The ladies' prizes were won by Mrs. Oscar Gouge and Mrs. Elmer Dobbis. The guests presented Mrs. Simons with a very beautiful cut glass vase.

New uses for the pulmotor, the wonderful electric apparatus for administering oxygen and keeping the lungs in motion after asphyxiation from gas or drowning, and so restoring the apparently dead to life, are being found by American physicians. A Kansas City physician recently used it to resuscitate a baby that had been born apparently dead, and after three hours' application of the instrument the infant's lungs were working normally and was as lively as most new-born babies.—Popular Mechanics Magazine.

## KING'S TREASURES CAUSE OF CONTEST

Threatening Clouds Arise Between English Ruler and Mother—\$15,000,000 at Stake.

London, May 21.—An extraordinary contest between King George and his mother, Queen Alexandra, or her testamentary representatives, is threatened. The late King Edward left a vast quantity of art treasures, gold and silver plate, presents and so forth, valued at upward of \$15,000,000. He had been a very popular prince and monarch, and during a long life he had received presents from all over the world. The Indian princess whom he visited during his famous tour of India alone sent him \$3,000,000 of beautiful presents. By a liberal interpretation of an ambiguous codicil to King Edward's will, Queen Alexandra took possession of all these treasures. They included the most valuable furnishings of Buckingham palace, which she removed to her present London residence—Marlborough house. The King did not like to interfere with his mother's disposition of the property she had already enjoyed, but the real crisis will come when Queen Alexandra attempts to dispose of them by will.

### Belong to Eldest Son.

There is strong reason to believe that she intends to leave most of these treasures to her favorite grandson, Prince Olaf, son of her favorite daughter, Queen Maude of Norway. King George and Queen Mary naturally assert that these things should go to their eldest son, the Prince of Wales. Queen Alexandra is credited with the intention of scattering many ornaments of the royal palaces among her relatives in Denmark, Russia, Greece and other foreign countries. It is even said that she claims the right to dispose of the Colling diamond, the largest in the world, which was presented to King Edward by the South African colonies. It was divided in two parts for the sake of appearance.

### Hostility Between Queens.

The struggle for this property is the real cause of the savage hostility known to exist between Queen Alexandra and Queen Mary. They have never appeared together at any ceremony since King Edward's death. Queen Alexandra has on every possible occasion usurped the mother-in-law of the reigning queen, while Queen Mary has caused her mother-in-law to feel a desire to stay away from public ceremonies. The disagreement arises in the first place from the hasty manner in which King Edward's will was drawn. The monarch's will in England is not subject to probate duty. The ordinary English law relating to wills does not apply to the king's will at all; if it did it is highly probable that ere this a receiver would have been appointed over the late king's estate. King Edward bequeathed it in a manner that left his wishes respecting the division of it open to a good deal of doubt.

In the summer of 1909, King Edward's solicitor went down to Sandringham and received the king's instructions to draw up his will. Sir Ernest Cassel, the financier, who was a great personal friend of King Edward and Lord Knollys were named trustees to the will. Under this document Queen Alexandra was to receive money amounting to about \$900,000 and the two Sandringham houses and all the contents for life and also all the gold and silver and art treasures at Buckingham palace, which were the personal possessions of the late king. This document later was submitted to the king, who signed it after a few minor alterations had been made in it.

Nothing more was done in the matter until nearly a year later when King Edward returned from his last journey from the continent in what his doctors told him was his dying condition. Sir Ernest Cassel, who with Lord Knollys was trustee to the king's will, was then summoned to Sandringham, but he was out of England and did not arrive until the day after the monarch had returned to Buckingham palace and was actually in his deathbed. In his friend's absence King Edward would give no instructions about his will, though he had announced his intentions of making several alterations in it. The financier arrived at Buckingham palace late on Wednesday afternoon; to him in the presence of Lord Knollys and the present King George, King Edward gave instructions concerning the disposition of his personal property, possession and estates.

### Codicil Is Unsigned.

These instructions were taken down in brief by the financier on some sheets of foolscap, which were sent to King Edward's lawyer post haste to be fully written out as a final codicil to the existing will. The codicil was to have been signed by King Edward on Thursday, but it never was, for on Thursday he was in a state of coma and he never recovered consciousness. The unsigned will dealt with a number of bequests to personal friends of the king, notably to one fair friend, who received under it an annuity of \$50,000 per annum. It was agreed between King George and his mother, who were the chief beneficiaries under King Edward's will, to treat this unsigned codicil so far as the bequests to friends were concerned as if it had been signed, but when it came to King Edward's bequests to Queen Alexandra as made under this document, Her Majesty objected to it not truly representing her husband's wishes. Her Majesty had good reasons for raising these objections because the financier who took down King Edward's instructions admitted that they were given somewhat confusedly and that they might not represent the king's real wishes.

The great point of contention which arose between King George and Queen Alexandra over King Edward's will was whether part of the money (about \$500,000) left to her by the monarch and all of the gold and silver and art treasures at Buckingham palace were bequeathed to her absolutely or were to revert at her death to the Prince of Wales. King George maintained (and still maintains) that the money and treasures should revert to the Prince of Wales; Queen Alexandra claims that they were left to her absolutely.

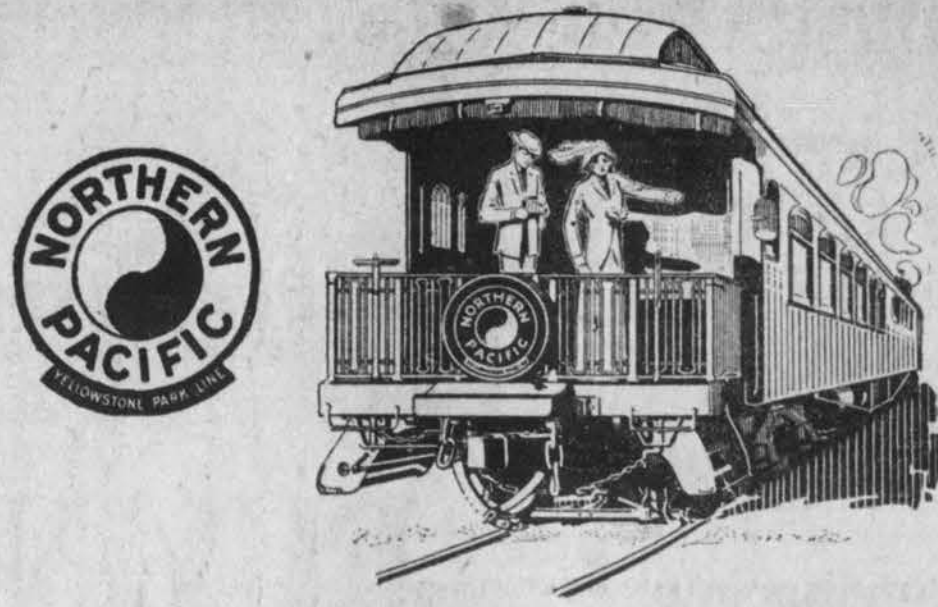

Claimed Everything. The king could not afford to have an open rupture with his mother on such a question. Queen Alexandra was allowed to have everything she claimed, and her Majesty, it must be added, claimed everything in sight, from the wine in the cellar to the flag on the roof of Buckingham palace. When she moved to Marlborough house she took all the gold, silver and art treasures which had actually been purchased by or given to King Edward. The gold and silver treasures were put down in the big plate room at Marlborough house and the art treasures, in the way of old masters, statuary, priceless old furniture, china and tapestries, were disposed about the different rooms at Marlborough house.

Over the removal of the famous Gobelin tapestries from Buckingham palace an open quarrel very nearly occurred between King George and his mother; the tapestries had been at Buckingham palace since the early days of Queen Victoria's reign, and it is understood that Queen Victoria had stipulated that they should be kept always at Buckingham palace.

But Queen Alexandra claimed that they were included in the art treasures left her by King Edward. Finally, the prime minister, Mr. Asquith, was sent for and on his advice Queen Alexandra was allowed to take them. Her Majesty undertook to sign a document acknowledging them to be merely "lent" and that they might be taken back to Buckingham palace in the event of her death. But this document has, as a matter of fact, never been signed.

The value of the gold and silver treasures claimed by Queen Alexandra were placed by the court jeweler before they left Buckingham palace roughly at \$10,000,000, but a more recent and more careful estimate of their value puts the figure nearer \$15,000,000.

It is understood by those behind the scenes at Marlborough house that Queen Alexandra will bequeath the gold and silver treasures to her daughter, Queen Maude of Norway, which would mean that they would all ultimately go to the latter's son, Prince Olaf. But if her Majesty made such testament it would hardly be allowed to take effect without strong opposition on the part of King George and Queen Mary, who are quite

## New Northern Pacific Service Duluth and Superior to the West

The new "Twin Ports Limited"—fast, de luxe Observation-Car and Dining-Car train, affording direct service, in connection with Train No. 1, the "North Coast Limited," and Train No. 5, the "Pacific Coast Express," and Train No. 4, the "Northern Pacific Express"—Eastbound to and from Fargo, Jamestown, Bismarck, Mandan, Glendive, Terry, Miles City, Billings, Butte, Helena, Missoula, Spokane, Seattle, Tacoma, Portland, Vancouver, California Points, etc. Reducing previous schedule to Butte, Spokane and Pacific Coast by twelve to fifteen hours. GUITERMAN BROS. MAKERS ST. PAUL, MINN.

### A GOOD COMPLEXION.

No one can have a good complexion who suffers from a sluggish condition of the digestion. Fruit, cereals, green salads, brown bread, these help to remedy this condition.

Be sure your teeth are all right. I couldn't tell you how many ailments and disfigurements arise simply from decayed teeth.

Start the day by drinking a glassful of either hot or cold water as soon as you wake; also eat an apple very slowly while dressing.

Don't begin the day by soaking in a hot bath, but have a quick all-over wash with very hot water, then sponge down with cold. It needn't be icy cold, but the chill just off. Then scrub yourself with a very rough towel till you glow all over, and you will feel as fit as possible. Get as much outdoor exercise as you can, walking whenever it is possible.

Wash your face every night with water as hot as you can bear it, bathe it well, and then apply soap with a face-brush. Lapse off all the soap, dry the face with a Turkish towel, and then apply a thin coating of cream, wiping it off afterward. Once a week cleanse the face of all blackheads. Persevere with these methods and in a little while the skin should improve in every way.

My sister's husband had an attack of rheumatism in his arm," writes a well known resident of Newton, Iowa. "I gave him a bottle of Chamberlain's Liniment which he applied to his arm and on the next morning the rheumatism was gone." For chronic muscular rheumatism you will find nothing better than Chamberlain's Liniment. Sold by All Dealers.

THE PATRONAGE

I remember the distribution of federal offices as far back as 1841, when the scramble of the whigs for places wore out the slender life of the elderly Harrison after a month in his long-desired presidency. The quarrel with Tyler, his successor, led to a new distribution a year later, and when Taylor succeeded Polk in 1849, there was another great displacement. It was then that Hawthorne lost his snug place at the Salem estate house through the machinations

of his whig neighbor, C. W. Upham; as he thought. The civil service rules have exempted the new presidents from much of this scramble, but it is still lively a year or so. President Wilson seems to be managing this department of his manifold activities with deliberation and good luck. He has nominated for a circuit judge at the southeast the most eminent and learned South Carolina jurist of the state supreme court, Charles A. Woods of Marion, S. C., and thereby distributed the equanimity of at least seven illustrious Virginians, named respectively

by Cooke, Meredith, Montague, Moore, Patterson, Ballard and St. George Tucker who were all ready to don the robe, but the honor has properly gone to Carolina, where the need of good judges is enhanced by the presence of such citizens as Governor Blesse. Justice Woods is well-known at Washington and the north, and will be an ornament to the bench. Mr. Sanborn in Springfield Republican.

FIND THE GOOD IN PEOPLE.

"If there isn't some good in everyone, what are they here for?" asks a writer in the American Magazine.

"Anybody can point out anybody else's bad qualities. If you want to distinguish yourself go around pointing out good qualities.

"Pick out the man whom everyone dislikes. Select the one you feel could best be spared from your office. From your circle of acquaintances, from the community in which you live. Ask yourself if there isn't something good about him.

"Put him on a mental dissecting table. Cut him to pieces and see what's in him. Remember—you are looking for the good. Throw away the bad in him and forget it. Make a list of his good qualities. It will surprise you how many you can find.

"The next time you hear him criticized, tell him the things you know about him—the good things. You'll at least

be different and you'll find that it does you more good than it does him. "How would you feel if you knew that people whenever they talked about you talked only about what was bad in you. You know it's there, plenty of it, but you'd rather not have it talked about. It's much nicer to have only your good points discussed.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots, How to Remove Easily. Here's a chance, Miss Freckle-face, to try a remedy for freckles that will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of ointment—double strength from your druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one-ounce needed for the worst case.

Be sure to ask the druggist for the double strength ointment as this is the prescription sold under guarantee of money back if it fails to remove freckles.

nothing good about him, say nothing. "There are mighty few people in the world we can't say something good about if we try. The trouble is, we don't try.

ARMLESS GIRL; TALENTED FEET.

A remarkable demonstration of the control the mind has over the body is provided by Miss Kittie M. Smith, an armless Chicago girl who uses her feet to do the things the average person accomplishes with the hands. So adept has Miss Smith become that she makes cabinets, bookcases, desks, and like furniture, using with skill all the necessary tools, such as saws, chisels, planes, etc. In nailing, however, she uses a hatchet instead of hammer, as the shape of the former is better adapted for a tight clutch between the toes. Miss Smith also sketches with pen and pencil, does excellent needlework, and uses a typewriter for her correspondence. The daily task of making a toilet, including brushing her teeth and washing her face, is done with comparative ease. She is also an adept gardener, using all ordinary implements with her toes in the garden of the home for disabled children which she has founded at Maywood, a Chicago suburb.—Popular Mechanics.

Marquette News

TWO MORE WITNESSES EXAMINED YESTERDAY

Eagle Mills Railway Agent and Companion of Jarvi Testify in Larceny Case.

F. X. Brisette, agent for the South Shore railway at Eagle Mills, and John Rabys, porter at Mattson's saloon, were examined yesterday as witnesses for the defense at the hearing before Justice Byrne of Leo Rivers and Howard Stewart, charged with larceny from the person of Oscar Jarvi, of Republic, who alleges that the men robbed him of \$40 last Thursday night, after leaving him at Eagle Mills, where they are claimed to have taken him in an automobile when he had bargained to be taken to Negaunee.

From the testimony of Brisette and Rabys, C. F. Britton, attorney for the young men, made an effort to establish an alibi for his clients. However, after four hours of examination and cross-examination, the hearing was adjourned until this afternoon at 2 o'clock. There is a likelihood that the defendants may decide to waive further examination, in which event they will at once be bound over to circuit court, Justice Byrne declared yesterday he could not see that any evidence had yet been submitted to disprove the alleged facts related by Jarvi when he testified Wednesday as the complaining witness.

The railway agent testified that around midnight of the evening of the alleged robbery he was awakened at his home at Eagle Mills by a party who told him through the closed door of a man taken there in an automobile and who wanted him (Brisette) to put the man aboard the midnight train for Negaunee. Brisette said he had been sleeping and would not open his door. A short time after leaving his door, he said, he heard an automobile driving away, and believed it to be going in the direction of Negaunee. Later, when he went to the station to meet the midnight train, he found a man who was evidently under the influence of liquor and who wanted to be put aboard the train for Negaunee. Brisette helped the stranger onto the train and afterwards returned home.

Rabys testified that he was with Jarvi the night in question and that they drank extensively. They, with a party that was made up of several acquaintances, and, upon Rabys' statement, that included Stewart and Rivers, later in the evening, visited three saloons each three times. On each visit the members of the party drank heavily, according to Rabys, and before it became very late were all "pretty drunk." When asked by Justice Byrne how many rounds of drinks each had taken, Rabys could only answer by saying that they had had many and these were mixed freely.

Jarvi met during the course of the evening the two young men who are alleged to have robbed him, said Rabys, and after talking to them told his companions that he had hired a car to take him to Negaunee. Rabys asked what "the chances were" of accompanying them, and alleged that Stewart said the chances were good. Jarvi, however, had paid the driver but \$2, which sum the driver protested was not enough to take the party to Negaunee, saying he wanted \$5. The driver told the party he would take them to Dead River for \$2. Rabys then testified that they went to Dead River and drank several rounds in Rustenhoven's saloon. Jarvi, he said, paid for all the drinks, as he had done all evening. He spent considerable money, the witness declared, probably several dollars, at Rustenhoven's. They were finally turned out by the proprietor, when it was 11 o'clock. Rabys said that back in town he and Rivers left the car and that Stewart and Jarvi drove off alone. After they disappeared from view around a corner on Baraga avenue, Rabys claims to know no more about the case.

INSPIRED BY DREAM. Former Marquette Man Is Building Memorial to His Wife.

A despatch from Tampa, Fla., published in the Detroit newspapers tells of the building of a \$5,000 church at Anna Maria Beach, on an island between Tampa bay and the Gulf of Mexico, of which edifice C. M. Roser, a former resident of this city, is the donor. The following article, reprinted from a Detroit paper of recent date, describes the circumstances of the gift:

"Following the behests of a spirit which came to him in a dream, C. M. Roser, of St. Petersburg, Fla., a wealthy lumberman formerly of Marquette, Mich., is building a \$5,000 church at Anna Maria Beach. It is to stand as a monument to his wife, who died last summer. "The spirit came to me while I slept," said Mr. Roser. "It said, 'Why not leave

a memorial to your wife that will do good to others?'"

"In pursuance of this idea, Mr. Roser has had plans made for a building 35 by 40 feet, to be built of concrete blocks at a cost of about \$5,000. The church is to be non-sectarian and its pulpit will be filled by supply preachers from Bradenton or Tampa.

"Mr. Roser will leave soon for his summer home in Marquette. He is a great reader of the Bible and can generally be found with one in his hands, when not otherwise engaged."

OLD GUARD SHIES AT HARMONY CRY

Sure of Control, National Committee Plans to Reject Progressive Republican Plan.

Washington, May 22.—After a careful secret canvass of the members of the Republican national committee, the old guard Republican leaders—the men who handled the Taft fight in the last Republican convention—convinced they are still in control, have decided to reject all suggestions for harmony coming from the so-called progressive Republicans.

There will be no Republican national convention this year to take steps looking to a reorganization of the party. The harmony plan proposed by the self-appointed reorganizers at their meeting in Chicago recently, which contemplated the convening of a national convention this year to reduce the southern representation in such conventions hereafter, will be ignored by the Republican national committee, which is in control of the old guard. This course has been agreed upon by the leaders of the conservative faction, who seem certain of their ability to stay in the organization saddle.

When the executive committee of the Republican national committee meets in Washington Saturday it will take no action looking to the issuance of a call for a convention. This executive committee in itself does not hold the power to summon a convention, but a recommendation from it to the full committee doubtless would have the effect of calling a convention. However, such a recommendation will not be made.

The counter proposition of the old guard to that of the progressive wing, asking for an extraordinary session of the national convention, will be that the executive committee of the national committee was called to meet here "to arrange for an organization to keep up the work of proselyting until the opening of the next national campaign."

It is intended to establish a press bureau with headquarters in Washington, which will forward the propaganda of Republicanism according to the standards of the old guard. The Democratic national committee has just arranged for such an organization and the progressives have had a bureau of this kind in existence for several weeks.

To carry out plans of this nature is entirely within the scope of the executive committee and it can be done without consulting the full committee. Chairman Hillis has called the meeting, it is said, for this purpose, but now the opportunity is to be grasped to let the "wreckers" know that for the present there is no disposition to forget and to forgive.

The proposition for calling a convention this year was not favored by the old guard because of the fear that even if a reduction of southern representation would bring peace, the proposition might not be put through without trouble. The southern members of the national committee are a big factor and if they fought the proposition, as it is stated they would, and could get some support among the northern members, they could defeat a plan to call the convention.

If the old guard has its way it is probable that there will be no convention until 1916, when one is convened to nominate a candidate. The old guard is not disposed to permit the radical element of the party to make the terms for reorganization.

LAWRENCE COLLEGE Appleton, Wis. ONE OF THE STRONGEST COLLEGES IN THE MIDDLE WEST.

### Upper Peninsula

#### Menominee Bells May Toll

Those who will have charge of the Memorial Day observances in Menominee on May 30 will inaugurate some new features, it plans do not miscarry. It has been decided to follow the custom of the Eastern cities. In most of Eastern cities all the bells are tolled for five minutes at noon, when the officers bow in prayer and remove their

hats in recognition of their deceased comrades. A move is now on foot to have that feature inaugurated at Menominee.

#### Nets in St. Mary's River Unlawful

With the many changes made in the fishing laws of the state, fishermen at the Soo, especially those who are making a livelihood from the industry, are still uncertain as to what their rights are. It has been stated that it is unlawful to take fish by the use of nets, except in specified places. But some-what exact regulations the taking of fish

in St. Mary's river. The following clause from the act explains itself: "It shall be unlawful to place or set any kind of a net or to take or attempt to take any kind of fish with a net in any of the connecting waters between Lake Superior and Lake Huron. For the purpose of this act, the connecting waters between Lake Superior and Lake Huron shall be defined as all that part of the Straits of St. Mary in this state, extending from a line drawn straight from the most northerly point of Round island to Point aux Pins to a line drawn due east and west from the most southerly point of Lime island."

#### Two Mashers Pay Fines

Two strangers claiming to hail from Milwaukee and in the employ of the Northwestern railway were arraigned before Justice C. D. McEwen at Escanaba, charged with "mashing." They were arrested separately. Officer Sauer noticed a stranger attempting to flirt with a girl, but she refused to be "mashed." Walking further down the street the man met a young woman who, though somewhat shy, seemed to "fall" for the game; but about this time the clasp from Milwaukee was hurried off to the station. The same evening Officer Carney picked up a second masher, after the fellow had made ungentlemanly advances to a young woman. One was fined \$5 and costs amounting to \$4.25, while the other was allowed to go with the payment of the costs. The offense with which the young men were charged carries with it the possibility of not only a heavy fine but a jail term. Chief Iversen says that careful watch will be kept and young men or women who should be promptly arrested. Especial attention will be paid to a certain class of girls of the city, who have been indulging too freely in the practice of flirting.

#### Municipal Operation is Profitable

According to a report filed with the council by A. H. Rolph, who has completed an audit of the books of the Escanaba municipal lighting plant, that institution was conducted during the past fiscal year with a profit of \$21,908.87. It was held by the auditor, however, that \$2,509.42 should be charged off for depreciation, thus leaving a net gain to the operation of the plant of \$19,399.45. The report shows that the total cost of all departments amounting to \$55,116.69, while there was received from other sources a total of \$6,399.18. The total cost of conducting the plant was \$48,717.51. The total earnings from independent lighting and power were \$40,678.83; from the arc light service, \$7,872.41; and from the gas plant \$4,728.96. In spite of the fact that the gas service has as yet been extended to only a small part of the city and was offered to all at a low rate, the fact that that department was run at a loss of but slightly over \$2,000. When the necessary extensions are completed, and the gas service is made available to all parts of the city, that department will prove as great a money maker as the electric department. The total value of the city plant is placed at \$132,942.58. The total bonded indebtedness is \$55,000.

#### Escanaba's Expenditures Exceed Receipts

It appears from a report of A. H. Rolph, who has just completed an audit of the city's books, that the city of Escanaba last year spent \$4,201.55 more than was taken in from all sources. The total receipts for the fiscal year extended from May 1, 1912, to May 1, 1913, was \$243,610.20, while the total amount paid out of the city's cash box during the year was \$247,811.75. According to the report of the auditor, the following funds on the books of the city are: General city fund, \$59,681.56; fire fund, \$5,701.57; street fund, \$3,484.81; Ford River Switch road fund, \$57,194.95; Langley street fund, \$5,925.70; North-Sarah and Sinclair streets fund, \$3,854.12. The total outstanding bonded indebtedness on May 1 of this year was \$209,500. In addition the city has a floating interest-bearing debt of \$17,450 and a floating non-interest-bearing debt of \$3,540.81. During the past year the city paid off bonds amounting to \$17,500 and during the present fiscal year there will fall due bonds amounting to \$25,500.

#### See Men Training for Marquette Meet

To determine the members of the athletic team which will be sent to Marquette to participate in the upper peninsula track and field meet, May 31, a field meet of the classes of the South Ste. Marie High school will take place Saturday afternoon at the Y. M. C. A. field. Much rivalry is being shown. The team to be sent to Marquette will consist of six members. During the past two weeks practices were given. The events have been held. Roy McDonald, who carried off honors in the high jump last year at Marquette, will be a member of the team this year, while Sharnie, MacLachlan, Parsille and Metzger also show good chances of going as representatives of the South Ste. Marie. The work is being done in the efforts, the men are making up in their dashes in the high jump, shotput and discus throwing.

## Negaunee Department

### BASEBALL LEAGUE FORMED YESTERDAY

Opening Games of Marquette County Teams Will Be Played On Decoration Day.

A Marquette county baseball league was organized in Negaunee yesterday afternoon, at a meeting attended by representatives of the fans in Ishpeming, Marquette, Gwin and this city. The sentiment was unanimously in favor of a county league. The delegates from the different cities were in session for nearly three hours, discussing all phases of the plan.

A. C. Braastad, Ishpeming, was elected president; A. G. Buckman, Gwin, vice president; Sidney Northby, Negaunee, secretary, and E. F. Rydholm, Marquette, treasurer.

It was decided that the receipts of all league games shall be divided on a 60-40 per cent basis, the home team receiving 60 per cent, and the visiting team 40, after the expenses are paid. The receipts will be played only on Sundays and holidays. The league season will open Friday, Decoration Day, when the Ishpeming and Negaunee teams will play at Union park, and the Marquette and Gwin teams will meet in Marquette.

It was decided that all holiday games will be played at Union Park and Marquette. The receipts and expenditures of the holiday games will be pooled, and the net proceeds divided equally among the four teams.

Players must be bona fide residents of the county. Each city will decide whether it desires to pay players salaries or divide the net receipts of the games between them. The latter proposition was generally favored. It is understood that all of the professional players now in the county, who were members of last year's teams, will play again this year. Among those in Marquette are the veteran first baseman of the Ishpeming nine, who has had several opportunities to play outside the county this year. It is understood that Con Mahoney, formerly of the Negaunee team, will play with Ishpeming this season, and Rosevear will be Negaunee's principal twirler.

None of the teams will be permitted to carry over eleven players. At least this number will be the limit in figuring expenses on pool games. If it is found that a club is generally desired, it will be included in the schedule after the league opens. The second games of the season will be played a week from next Sunday, when Negaunee will go to Marquette and Gwin will come to Ishpeming.

The first game of the schedule was left to Mr. Rydholm, who will submit copies of it to the managers of the other teams for their approval. It is understood that the league series will close on Sunday, Sept. 14. The holiday games will be played on Decoration Day, Midsummer Day, the Fourth and Labor Day.

### WILL BUILD BLOCK

Loftgren & Kangas Will Erect Concrete Structure on Iron Street.

The frame building at 529 Iron street, owned by Loftgren & Kangas, bakers, will be torn down next week and in its place will be built a two-story concrete structure. While the new block is being built the bakery will be located at the corner of Jackson and Tolin streets. The new building will be considerably larger than the present structure and will provide more commodious quarters for the bakery, which will be on the first floor. The block, which will be located on West Iron street, several doors west of the postoffice, will have a frontage of twenty-four feet and will extend back from the street about forty-two feet. Loftgren & Kangas have awarded to Henry Lukkarinen the contract for the erection of the new building and razing the present structure.

The new building will be approximately six feet wider than the building now in use and will cost about \$5,000.

### LOCAL LACONICS

C. A. Blanchard, of Marquette, spent yesterday in the city on business.

E. A. McDonald, of Marquette, visited in Negaunee yesterday afternoon.

Frank W. Hans, of Houghton, was a business visitor in Negaunee yesterday.

A. M. Harris, of Escanaba, was among the business callers in Negaunee yesterday.

### DIED IN GWINN

William T. Taft, Aged Eighty-Six, Passed Away Wednesday Morning.

While visiting his granddaughter, Mrs. Joseph LaRoche, of Riverside, Wis., Pennsylvania, died early Wednesday morning. He had only been in Gwinn for a short time. He was eighty-six years of age and the cause of his death is said to have been apoplexy.

He has no relatives in this country other than Mrs. LaRoche, who will act as executor of his estate in Pennsylvania, where it will be taken for burial.

### WILL VISIT IN ENGLAND

Mr. and Mrs. William I. Loverton and family, of Heath street, Mrs. William I. Mitchell and family, of Barn street, and Mrs. A. T. Dutton, of the Cambria mine location, left yesterday morning for England, where they will spend the summer visiting with relatives and friends. They left by the way of the Duluth, South Shore & Atlantic railway for New York city, from where they will sail for Plymouth, England, Saturday, May 24, on the steamer Olympic of the White Star line.

### Marble Pudding

Steamed puddings will not be heavy if made with K C Baking Powder and cooked slowly to give the pudding time to rise before the dough is cooked through. Have a low blaze under the water for at least the first fifteen minutes.

### K C Marble Pudding

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.

2 cups sifted pastry flour; 2 level teaspoons K C Baking Powder; 1 teaspoonful cinnamon; 1/2 teaspoonful salt; 1/2 cup sugar; 1/2 cup melted butter; 1 cup cold water; whites of 2 eggs, beaten dry; 1/2 ounce melted chocolate.

Sift together, three times, the flour, baking powder, salt and cinnamon. To the yolks add the sugar, butter and water, and stir into the dry ingredients. Add the whites of the eggs. Divide the mixture into two parts and add the chocolate to one part. Dispose the two parts in a buttered mold to give a marbled appearance. Steam forty-five minutes.

### Vanilla Sauce

Boil 2 cups sugar and a cup of water six minutes; add 2 tablespoonfuls of butter and a teaspoonful of vanilla extract.

The K C Cook's Book containing this and 90 other delicious, successful, recipes sent free upon receipt of the colored certificate and 50¢ in K C Baking Powder. Write your name and address plainly. Jacques Mig. Co., Chicago.

### TYPEWRITER ARTIST GIVES DEMONSTRATION

Master Schliebner, of New York, Attains High Rate of Speed in His Exhibitions.

R. V. Schliebner, of New York city, the seventeen-year-old typewriting wonder, who has been giving demonstrations in the upper peninsula for the past several days, gave exhibitions of his skill in the commercial department of the Negaunee High school yesterday afternoon, and in the morning at the Ishpeming Business college and in the commercial department of the Ishpeming High school. W. R. Davis, representing the Remington Typewriter company, accompanied Mr. Schliebner, preceding his exhibition with a talk on typewriting and stenography and the proper use of typewriters. In demonstrating speed and even touch at the Ishpeming Business college, Mr. Schliebner attained phenomenal speed.

One test that won the admiration of the entire student body was when he conversed with one of the German students in his native language and copied an article from a French text book, a language with which he is totally unfamiliar, writing ninety words a minute. Mr. Schliebner said yesterday that previous to taking up typewriting demonstration work, he practiced writing on a typewriter only six months and that his speed seemed to be natural.

SUITS FOR SUMMER WEAR.

For summer wear, smart suits of linen, pongee and cotton corduroy are shown, says the Dry Goods Economist. These usually consist of a cutaway coat fastened with one or two buttons and made quite long in the back, from about 32 to 36 inches. The skirts are usually of a simple type and the trimming is confined to the buttons and buttonholes. Many are slightly shirred in the back and finished off at the waistline with a belland buckle.

For afternoon wear more elaborate models are being taken, consisting of Russian and rami linen, plain and brocaded pongee, cretonne and hand-embroidered linen. These show many different kinds of coats, including the cutaway, Russian blouse and Chinese coat. The more elaborate garments show the introduction of fancy vests, as well as collars and cuffs.

Cretonne and printed pongee are used frequently as a trimming and are very effective. Plain colored pongee is also employed with good effect, and flit net embroidered in the new Futurist colorings makes a very smart trimming.

FOR SALE—First-class driving horse, weight, 1650 pounds. Call phone 128.

FOR RENT—The East Jackson Hotel to any good responsible party; 20 rooms furnished, good location, near west of the opera house. Enquire on premises. Matthew Maloney, Negaunee.

# HEENESSY ON CITY HALL RENT

**Alderman Asserts That Finance Committee Would Have Considered Favorably Request of Light and Power Commission for More Room in the City Building.**

**Band Room Could Have Been Used to Display Electric Supplies, Had It Been Asked for, He Says—Refuses to Believe That Council Is Greatly to Blame.**

Alderman Heenessy, of the finance committee of the council, yesterday asserted that if the committee of which he was a member had been requested to see that the light and power commission was given more room at the city hall it would have been pleased to have recommended favorable action to the council, "and I am sure," the alderman asserted, "that the commission could have had anything it would have been likely to have wanted."

"If necessary," Alderman Heenessy continued, "I would have favored a considerable expenditure in alterations at the city hall to give the commission the desired quarters. As the rental that would have been placed to the city hall account would have been very low, we would have been warranted in making a considerable outlay to provide the commission with a fine display and store room. It could have had the best room any time it made a formal request for it."

Alderman Heenessy expressed great regret that the city hall was going to lose the revenue that it might have had if the commission had paid \$1,200 annually for improved quarters. He regards the failure of the commission and council to get together on a deal that would keep all the activities of the commission at the city hall as a mistake that will cost the taxpayers considerable money. He refuses to concede, however, that the council is greatly to blame in the premises.

**Not Up to Council.**

"We had no opportunity of making the commission an offer," he asserted. "We would have done anything in reason to get that rental money. But the matter only came to the attention of the aldermen when it was announced in the newspapers that the lease was closed. Personally I can't see any necessity of a downtown storeroom for the commission. The city has a monopoly of the fixture and supply business, and, furthermore, it has been selling at cost, as I understand it. I believe the logical place for all the commission's activities is at the city hall, particularly because of the financial burden that structure has been to the taxpayers of the city."

Alderman Heenessy recalled the time a few years ago when the plan of charging both the board's rent was brought up. Alderman Schauer, he said, suggested that for some reason the council failed to act, though Alderman Heenessy said yesterday he believed this failure was a mistake. The water board, he said, had not made a great deal of money from its operations, owing to the constant expense it was under extending its mains and providing for new consumers.

A city official yesterday suggested an arrangement of the city hall that would have given the light and power commission admirable quarters.

"The recorder," he said, "could have been moved into the mayor's suite of offices, which is now but rarely used and the present recorder's office could have been thrown into the band room, giving a display and store room more than ample for the commissions needs. Then, for greater convenience, a stairway direct from this room to the shop in the basement could have been provided. The necessary alterations would have been inexpensive, and the commission would have been as well housed as it could ask."

**Well Over \$100,000.**

It was yesterday commented that the investment in the city hall is well over \$100,000, instead of about \$85,000 as asserted by The Mining Journal. The bonds were issued twenty years ago. The annual interest in that time has aggregated \$45,000, which, added to their face value, makes a charge of \$90,000 in bonds and interest against the structure. But in addition, considerable sums have been spent, from time to time, on improvements and repairs at the structure, running the investment there up to considerably over \$100,000. Various projects for establishing a sinking fund for paying off the bonds have been considered at intervals, but they have never come to anything. For all that now appears to the contrary in the next twenty years another \$45,000 of interest will be piled up against the building.

**SOO CANAL PASSAGES.**

Sault Ste. Marie, Mich., May 20.—[Special].—The following upbound vessels have passed the canals the last twenty-four hours: Samuel Morse, N. A. myth, Briton, Maria, 10:30 o'clock; last night; Snyder, Jr., midnight; Hoover, 1:30 o'clock this morning; James Davidson, 2:30; Gary, Sheldon Parks, 4; Wular, 4:30; Jay Morse, 5; Dalton, 6; Demark, 7:30; Lakeland, 8; North Wind, 8:30; Matton, 9; Matthews, 9:30; Conopus, 10; Squire, 11; Thuronic, noon; Farrell, 12:30 o'clock this afternoon; Rosemount, Malietta, Kepp, Wexford, 1:30; John Owen, 2:30; Robbins, 3; Sirius, 4:30; Davock, 5; Sonoma, Superior City, 5:30; Michigan, Ends, 6:30; Poe, Corlies, Filbert, Willis King, 8.

Steamers plying between England and Holland have been equipped with apparatus by which all their lifeboats can be launched from either side of the vessel.

**NOTICE TO HEATING CONTRACTORS.**

Sealed proposals will be received by Maria Voetsch, county clerk of Baraga county, L'Anse-au-Loup, for the heating of the jail and sheriff's residence at L'Anse, Mich., and the connecting up of the present court house heating to the same system.

Proposals to be in the hands of the board of county clerk on or before 12 o'clock of the 27th day of May, 1913.

Plans, specifications and instructions can be seen at the court house, L'Anse, Mich., also in the office of the architect in Marquette, Mich., and in Milwaukee, Wis.

Architects, Marquette, Mich.

## AWARD AGAINST FORDNEY. Judgment in Land Case.

After seventeen years, Mrs. Turner Gets Judgment in Land Case.

A report from Saginaw states that Mrs. Sophia Turner, who is a holder of property in Marquette county, was last Tuesday awarded a judgment for \$3,556 against Congressman J. W. Fordney in a case involving timber lands in Powell township. Mrs. Turner, who is the widow of the late J. M. Turner, of Lansing, is well known in this city, although she has never made her home here.

The case was started seventeen years ago, when Representative Fordney became the owner of a large tract of timber along the Salmon Trout river and conducted logging operations there. Mrs. Turner sued for \$7,500, claiming that Mr. Fordney had taken timber from lands belonging to her. The tract purchased by Mr. Fordney included holdings formerly owned by A. T. Bliss, ex-governor of Michigan.

The jury deliberated but a short time. The congressman was present at the trial.

## NEW INSTRUCTOR AT NORTHERN NORMAL

**Principal Engaged for the Training School—Social Problems to Be Studied.**

Stephen A. Stockwell, A. M., a graduate of the University of Chicago, has been engaged by President J. H. Kaye, of the Northern Normal school, as superintendent of the Normal training school. He will succeed Hugh F. Buffum, who held this position last year and who resigned the early part of the school year 1912-13. Since Professor Buffum's resignation, President Kaye has had in direct charge of the department of pedagogy, of which the training school is a part.

Professor Stockwell comes to Marquette with a reputation as a man eminently fitted to superintend work in the department of pedagogy. His appointment was strongly recommended by Professor Elliott R. Downing, Ph. D., head of the department of zoology, department of biology, University of Chicago, who formerly was professor of natural science at the Normal and who resigned two years ago to take the position he now holds. Dr. Downing became acquainted with Professor Stockwell at Chicago and speaks highly of his work.

Professor Jordan, who is head of the department of psychology at the Normal, will spend the greater part of the present year on his farm in Colorado, is also well acquainted with Professor Stockwell and commends him as an able instructor and executive. Professor Stockwell formerly was superintendent of schools at Cheyenne, Wyo., serving there for ten years.

**New Sociology Course.**

The Normal summer school bulletin announces a new course in the new department of sociology, of which Professor Lautner, head of the department of German and French, is the instructor. The title of the course is "Living Social Problems." It aims to acquaint the student with certain important phases of the social environment with which he will have to reckon if he desires to fulfill his highest functions as a citizen. Professor Lautner believes this aim can be attained through the scientific study of some of the vital social problems of the day.

The specific problems to be studied at the Normal will be selected from the following list: The home, child labor, women in industry, wealth, labor, civic corruption, public utilities, socialism, immigration, the race question, prison reform, poverty and pauperism, crime, the city agencies, eugenics, old age pensions, industrial insurance, peace, liberty, conservation, moral training, social hygiene, industrial hygiene, competition, co-operation, the tariff and taxation, and the socialization of the school.

The material used in this course consists of text books, magazine articles, reports of special investigations, etc. This is supplemented by lecture, discussions, debate and papers. One hour each week will be devoted to the report and discussion of current events, the material to be drawn from some good weekly publication.

**Results Are Gratifying.**

Sociology is a new department at the Normal and one that has become popular. Classes were organized for the first time a year ago last fall. The last three terms the work has been most gratifying and has aroused much new interest among the students. The original course was elementary, but this has been extended to embrace the new course in living social problems, which will be offered for the first time during the summer term. As this new course is particularly adapted to the needs of the teacher, its popularity is assured.

The training for good citizenship has long been the chief aim of the public school. Too often, however, it is commented, this training is not sufficiently effective, because it is carried on in a sort of social vacuum. It takes but slightly into account the complex and interlarded social relations of society in which the future citizen is to exercise his powers. In the light of modern sociological science the assumption that the boy, if taught to "be good" in general, will, when a man, conduct himself judiciously under any conditions, is only half truth. The willingness to do right is only partial preparation for wise and just conduct. The question, therefore, may naturally be raised, "How much helpful knowledge do our pupils get in school of the real social environment in which they will live their future lives?" What do they learn of the complicated, variegated social fabric into which they must weave their lives? The new course is offered for the purpose of giving a partial answer to this question. It is to be offered at least one term as a test course. If it fulfills the demand for the kind of work that will prepare a teacher to carry out the aims of the modern idea in teaching, it will have been a success. Professor Lautner says he does not know that a course that is just like it has ever been offered in any institution. It is strictly an innovation and the results of the undertaking will be closely watched.

The classes in sociology have been beyond Professor Lautner's expectation both in size and scholarship. Four students were enrolled in the elementary course the first term it was offered at most two years ago. Since then the enrollment has grown steadily, both men and women students taking the interest in it. It is now one of the most successful of the strictly elective courses, and the enrollment, which is around twenty, promises to grow each term, in comparison with the other elective courses, a larger percentage of men have enrolled in the classes than in any other of a similar nature.

The summer session of the Normal opens Monday, June 30 and closes Friday, Aug. 5.

## Why You Should Buy Stein Bloch and Kuppenheimer Clothes

You'll find the makers' names on the clothes we sell. Names you know, names that are respected the world over. This is a store that handles only recognized standard lines that have won and held Public Confidence.

Every suit we sell is backed by the Makers' guarantee and our own.

The materials have been tested and tried—the tailoring is at the highest standard—and styles are right.

Test the reliability at this store and learn why it is deserving of your Confidence and Patronage.

Satisfaction is guaranteed in all our dealings.

## MANY NOTABLES TO COME WITH ROOSEVELT

**Is Now Expected That the Party Traveling With the Colonel Will Number a Dozen.**

Two of the notables who were expected to visit Marquette next week in connection with the trial of the civil libel case of Colonel Roosevelt against George A. Newett, Dr. Lyman Abbott, of the Outlook magazine, Colonel Roosevelt's editor-in-chief, and General Wood, commander of the U. S. army, will not be able to be here, and W. P. Belden, of Ishpeming, counsel for the defendant, yesterday said that their depositions will be taken in New York, according to notification received by the attorneys for Mr. Newett.

A New York dispatch asserts that among Colonel Roosevelt's friends who will accompany him to Marquette will be Robert Bacon, a former ambassador, William Loeb, Jr., his private secretary through his presidential term and until recently editor of the New York Times, O. K. Davis, secretary of the Progressive National committee, who accompanied Colonel Roosevelt throughout his campaign tour last summer and fall, Dr. Alexander Lambert, Colonel Roosevelt's family physician, John Callan O'Laughlin, of the Chicago Tribune's Washington correspondent, Gilson Gardner, another well-known Washington correspondent, James Garfield, formerly secretary of the interior, and Gifford Pinchot, formerly U. S. forester. It is said that there will be several other persons besides for the complaining, including secret service men whose intimate relationship with Colonel Roosevelt extended over a period of years.

When questioned about the probable order of events at the trial, Mr. Belden said yesterday that he supposed that would depend to a considerable extent on the plans of the witnesses who will appear in person. Although loath to discuss the case in any way for publication, Mr. Belden expressed the opinion that the drawing of a jury would not be attended by as much difficulty as some persons seemed to expect.

How to Get Into Court?

How to get into court is a question that is giving concern to many persons who have an idea that they would like to follow the development of this great annual case. There will be no royal road to the court room. Judge Flannigan will, it is said, make no special provision except for the newspaper men who will have the task of reporting the proceedings. The members of the bar will also, of course, have their customary privileges of the court room, and it is possible that a few courtiers will be extended to the counsel for the respective parties. But for the general public there will be no special cards or special privileges. It is said, and the last way to insure a seat will be to be on the premises some time before the doors are to be opened. The seating accommodations of the court room are not very large for a trial of such interest, and it will be quickly taken up once the doors are opened. Sheriff Moloney will be in general charge of the policing of the court, and he will have such deputies as he judges necessary to meet the situation.

It now appears that there will be at least a dozen newspaper men in attendance at the trial, including representatives of all the press associations, and the special correspondents of several newspapers.

## YOUTHFUL TYPIST TO PERFORM TODAY

**Master Schliebner Will Give Demonstrations at Three Marquette Schools.**

Richard V. Schliebner, aged seventeen years, noted all over the United States for his remarkable ability as a typist, arrived in Marquette yesterday and today will give three demonstrations of scientific touch typewriting. The first will be conducted this morning at 9 o'clock in the commercial department of the Baraga High school. The afternoon at 2 o'clock he will give a demonstration in the commercial department of the Marquette High school and this evening at 7:30 o'clock he will again give an exhibition at the Marquette Business college.

Master Schliebner is accompanied by W. O. Davis, of New York city, a member of the executive school department of the Remington Typewriter company, in the interests of which concern he and Master Schliebner are traveling. Mr. Davis will give a lecture at all three schools, setting forth a few of the primary principles and elements of accurate touch typewriting. Mr. Davis says that Master Schliebner's demonstration is simply proof of what any student of typewriting could do if he would follow instructions closely. However it is admitted that the young man has wonderful accomplishments that are rather the result of peculiar adaptability of typewriting than of study, and these features make his performance spectacular.

Among the tests Master Schliebner will give will be writing at the rate of 700 efforts, or finger movements, a minute, or at the rate of thirteen strokes a second; the copying of a paragraph of French, of the language he speaks fluently, at the rate of eighty words a minute while he carries on a conversation in German with one of the spectators; the writing of a business letter at the rate of 115 words a minute without an error, and writing from dictation with his eyes blindfolded. Following his demonstrations, Master Schliebner will give a short talk on the student's own work in which he will point out the common-

## Mining News

Of the 10,000 South Lake Mining company new shares offered at \$6.00 a share, 200 shares have thus far been subscribed for by stockholders, leaving a balance of 9,700 shares to be taken by the underwriters. The new shares were offered to stockholders of record May 3. A pit is being cut at the 400-foot level of the shaft. Sinking consequently has been interrupted. When the pit is completed the work of deepening the shaft will be resumed and pushed with all speed until the 500-foot level is reached. Here another pit will be cut and the crosscut for the South Lake series of lodes started. This crosscut will be given precedence over all other work. At present the 300-foot crosscut is being extended only when some of the three drills used in the shaft work are not operating—this, because all the compressed air is needed for shaft work when the three drills and pump are working.

## Upper Peninsula

**Forest Fire Danger Passes.**

Herman Leisner, of Escanaba, deputy state game warden, who has been on an extended trip through that district, reports that there is little probability of fires for some time to come. Mr. Leisner states that the woods were soaked by the recent rains. The warden reports that an unusually large number of fishermen are out this spring, but are meeting with little success for the reason the streams are yet badly swollen.

**Telephone Wires to Go Underground.**

The annual appropriation bill for the year 1913 was passed at the Sault Ste. Marie council meeting without a dissenting vote. The bill provides for the sum of \$80,000 to be spread on the assess-

## VAUDEVILLE-MOTION PICTURES.

**Circus Pleases.**

Blake's Comedy circus, which is the attraction in vaudeville at the Marquette Opera House the last half of this week, pleased a large attendance at both performances on its first presentation last evening. The "troupe" consists of four ponies, four monkeys, three dogs and "Maud." Maud herself is a large factor in the amusement of the spectators. The management of the circus offers \$1 a minute to any person who can ride her, baraback and without a bridle. Several persons in the house tried last evening, with the usual results. "Maud" spilled them all over the stage promptly and with great agility. The attempts were uproariously funny and great laughter followed the drop of the curtain.

The circus program opens with a pa-
