

JUDGE LOVETT TO TAKE STAND IN SENATE QUIZ

Overmann Committee Will Ask an Explanation from Railroad Man—Is Quoted as Saying Lobbyists Proffered Their Aid in Settling Harriman Merger Case.

More Letters Showing Activity of Beet Interests Are Read Into Record Over Protests of Attorneys—Free Sugar Side Is Taken Up Also—An Exciting Day

Washington, June 18.—The senate's lobby investigation reached out in new fields today when the senate, acting on a resolution presented by Senator Norris, of Nebraska, ordered the Overmann committee to subpoena Judge Robert S. Lovett, chairman of the board of directors of the Union Pacific railroad, to explain a published statement credited to him yesterday in New York, that lobbyists had sought to procure employment from the Union Pacific on the grounds that they would be able to influence a settlement of the Union Pacific-Southern Pacific dissolution case.

Earlier in the day the committee had made public over the protests of a lawyer representing Henry T. Oxnard and Truman G. Palmer a series of letters written by the two beet sugar representatives, showing a long-continued effort to influence legislation in Washington, to control congressional committees and to direct national political affairs in support of the continuance of a protective sugar tariff.

Michigan Sugar Man Subpoenaed.

Chairman Overmann had not determined tonight when the railroad phase of the investigation would be opened. A summons was sent today to Charles B. Warren of Detroit, president of the Michigan Beet Sugar company and one of the men to whom many of the Hamilton letters, produced yesterday, were addressed. Mr. Warren was asked to appear before the committee tomorrow, and it is expected that he will be asked for more details of the beet sugar publicity campaign.

Late in the afternoon the committee abandoned temporarily the sugar-protection lobby and took up the free sugar side, calling Frank C. Lowry of New York, who directed much of the free sugar publicity under the association name of "the committee of wholesale grocers." Mr. Lowry admitted he was employed by the Federal Sugar Refining company, and under questions by Senator Cummins agreed that free sugar would benefit the tin snuff and the household goods. The Oxnard-Palmer letters produced at the close of the committee's morning session were the feature of an exciting day. They covered a period from 1906, when Philippine free trade came up, through the balance of the Roosevelt administration, the political campaign of 1908, and into the Taft administration.

Show Effort to Control Legislation.

Assurances that certain senators would be on the Philippine committee; that "no stone was being left unturned to get real protection" on the houses and means committee, and that strong pressure could be and was being brought to bear upon members of both houses to accomplish various ends appeared frequently in the series of letters.

The committee tonight granted the request of Melville E. Stone of New York, general manager of the Associated Press, who asked to be allowed to testify tomorrow regarding claims made in some of the Hamilton letters, produced yesterday, as to the publicity the beet sugar industry hoped to gain through the Associated Press.

PRESIDENT DRAWS WRATH OF WASHINGTON GIRLS WHO LIKE WHITE HOUSE AIDES.

Washington, June 18.—If President Wilson persists in the innovation of removing the White House aides from his personal staff he will lose his popularity with the belles of Democracy, and the civilian beaux of the capital will be greatly vexed.

To do away with the White House aides is social heresy to the younger set of Washington, who have brightened their parties and teas with the gold lace and buttons of the presidential aides for generations.

President Wilson, it is understood, will draw upon the various regiments stationed in and around Washington and the battalions in port here for aides when special occasions demand their use.

FORMER CRUISER DETROIT TO BE A COAL BARGE.

Philadelphia, June 18.—The United States cruiser Detroit, once considered one of the greatest sea-fighters of the navy, is being converted into a coal carrying barge to be used in coastwise and river trade and soon will be trailing along in the wake of a puffing tug, carrying its dirty cargo, Henry Hittor & Sons recently purchased the cruiser as junk. The firm got enough brass and copper from the engine room alone to pay the purchase price.

WOMEN WILL VOTE APART AT POLLS IN ILLINOIS.

Springfield, Ill., June 18.—Separate ballot boxes for women are provided for in a bill passed by the house and which makes important changes in the primary law. It is the first legislation of its kind framed since the passage of the woman suffrage act and provides that women shall vote at the primary for the nomination of such officers as they are allowed to vote for at the election.

SUBJUGATION OF MOROS IS AT COST OF THE LIVES OF FOURTEEN U. S. SOLDIERS.

Washington, June 18.—Fourteen American soldiers were killed in the recent four days' fighting on Jolo island, in the Philippines, when General Persing's command finally subdued and disarmed the rebellious Moros, according to a report today to the war department.

AGRICULTURAL STATISTICIAN SUSPENDED BY HOUSTON.

Washington, June 18.—Victor H. Olmstead, chief of the bureau of statistics of the department of agriculture, was suspended today by Secretary Houston, pending an inquiry into charges of lack of discipline and poor administration in the bureau. It was officially stated that Olmstead was the subject of leaks in crop reports similar to the famous "cotton leak" a few years ago, which resulted in a complete overhauling of the office.

SENATORS CORRECT "JOKER" IN THE UNDERWOOD BILL.

Washington, June 18.—An eleven-hour discovery that the sugar schedule the Underwood tariff bill contained a "joker" which would have operated to make all refined sugar dutiable at two cents a pound and nullify the provision for free sugar after three years resulted today in an amendment by the majority members of the senate finance committee correcting the provision.

PURSUIT BAFFLED BY SHREWD TRICK

Pepper Makes Dogs Useless in Trailing Illinois Train Bandits—Loot but \$20.

Springfield, Ill., June 18.—The two bandits who early this morning held up and robbed the express car of the Illinois Central railroad had not been captured up to a late hour tonight. Police, railway detectives and sheriffs' possees scoured the country all day, without result.

Bloodhounds were brought into play, but found no scent to follow, as the bandits had shrewdly sprinkled pepper about the tracks.

It was learned late today that the bandits obtained only \$20 in cash from the express safe.

The railroad has offered a reward of \$1,000 for the capture of the bandits.

WIFE SUES HUSBAND FOR A DIVORCE TO WIN BACK HIS FRIENDSHIP.

Los Angeles, June 18.—"I hope to restore through divorce the best friendship which my husband and I lost in marriage. That is why I am suing him now."

This is the explanation given by Mrs. Joseph Lander Eastland, society leader in San Francisco and wife of the millionaire Venezuelan consul in that city, for her suit for divorce and half a million dollars alimony, filed in San Diego.

"I am suing on the grounds of 'incompatibility,'" Mrs. Eastland says. "Isn't that sad? When we married that was the last word that could have applied to us. Well, we married and found that love does not spring from friendship."

GEORGE W. HINMAN ELECTED HEAD OF MARIETTA COLLEGE.

Marietta, O., June 18.—George Wheeler Hinman, recently editor of the Chicago Inter-Ocean, was today elected president of Marietta college to succeed the late R. T. Parry.

ACTOR BECOMES A PRIEST.

Altoona, Pa., June 18.—Michael J. Byrne, for many years an actor, was ordained to the priesthood by the Right Rev. Eugene A. Garvey, bishop of Altoona, here yesterday. An unusual circumstance was the presence of children and grandchildren of the new priest.

Father Byrne will be stationed at Savannah, Ga. His wife and two children died about five years ago.

HENWOOD GIVEN DEATH SENTENCE

Second Trial of Denver Man in Sensational Murder Case Ends in Conviction.

Denver, Colo., June 18.—The jury in the second trial of Harold F. Henwood, charged with the killing of George E. Copeland, returned a verdict of first degree murder late this afternoon and prescribed the death penalty.

Henwood shot George E. Copeland, Sylvester L. von Phul of St. Louis and James W. Atkinson in the barroom of a Denver hotel the night of May 24, 1911. Copeland and Atkinson were bartenders and were hit by stray bullets. Copeland and Von Phul died.

MOTHER JONES TROUBLE-MAKER IN COAL FIELDS

Witnesses for the West Virginia Operators Say Woman Agitator Urged the Miners to Use Guns—She "Swore a Great Deal for a Lady," too, Testifies One.

Threat to "Tear Up State" if Prisoners Were Not Set at Liberty Is Attributed to the Aged Amazon—Investigation at Charleston Is Concluded.

BULLETIN.

Charleston, W. Va., June 18.—A general strike of miners in the New River coal field will be called next week, according to announcements tonight by Thomas Haggerty, a member of the miners' international board. Fifteen thousand men are employed in the New River fields.

Charleston, W. Va., June 18.—The United States senate mine-strike investigating committee tonight closed up its work in Charleston for the present and started for Washington. The investigation will be resumed in the nation's capital within the next two weeks.

Today the operators controlling the mines on Paint creek and Cabin creek, where the trouble of the last year resulted in rioting and bloodshed, continued a presentation of their side of the controversy. Witnesses who were called contradicted the contention of the miners that the presence of the "mine guards" in the district was the cause of the trouble.

This afternoon the operators put on witnesses to show the activities of armed miners and call several witnesses who testified that "Mother Jones and other agitators had urged the miners to arm themselves."

James Claggett, a coal inspector, of Boomer, told of hearing "Mother Jones" speak. He said her speech was inflammatory. "She told the miners at that meeting," he said, "to hold their guns and if they had no guns to save their money and buy them. She said that when she was ready for them to use their guns she would let them know."

She said she was going to Charleston to see the governor and if he did not release the prisoners held at the military headquarters at Pratt they would tear up the state.

C. C. Woods, a colored miner at Boomer, said that he had heard the same speech and that "Mother Jones told the miners that if necessary she would take a gun and go with them."

"Did she use any profane language?" asked Attorney Knight, for the operators. "She swore a great deal, for a lady," replied the miner.

FLAG FOR KANSAS CITY.

Kansas City, Mo., 18.—The city council has adopted a pennant for Kansas City, to be used on all occasions where

BASEBALL GAMES IN THE BIG LEAGUES: THEIR SCORES AND FEATURES.

The Weather

Washington, June 18.—The following is the weather bureau's forecast for Upper Michigan: Local showers, Thursday and probably Friday; rising temperature; light and variable winds.

MODERN WOODMEN RATES GO TO A REFERENDUM VOTE OF THE ENTIRE MEMBERSHIP.

Rock Island, Ills., June 18.—The question of a reduction of the rates of the Modern Woodmen of America is to be left to a referendum vote of the entire membership of the society, according to an order of the board of directors today.

ONION GROWERS IN OHIO HUNT WORMS AT NIGHT.

Kenton, O., June 18.—Throughout many big onion fields of the Scioto marsh near here vivid twinkling lights may be seen during all hours of the night at this time. They are not jack lanterns. Onion growers and their employees are hunting cut-worms by lantern light.

Following the recent frosts the whole marsh has been infested by millions of worms. The worms which do not survive the hot sun work during the night, and it is then the armies of employees armed with lights and buckets pick up the larvae by the thousands.

Prominent growers today said the frosts and the worms had wrought such havoc that half a crop in this region would be considered fortunate. The loss is already estimated at over \$100,000.

BIBLE CONTINUES TO BE THE MOST POPULAR BOOK PRINTED.

Chicago, June 18.—For every volume of the six best sellers that is issued each year a carload of Bibles is manufactured. This information was gleaned at the annual book fair at the Palmer House.

"The public taste changes from time to time," said Arthur J. Saffield, president of the Saffield Publishing company of New York, "but the Bible continues to be the most popular book printed. Where other books are turned out by the volume it is turned out by the Bible publisher, in his thousands of copies."

According to Saffield, "Robinson Crusoe" and "The Swiss Family Robinson" will live as long as the Bible itself. They constitute the two most popular volumes, he says.

STOCKS END DAY AT GAINS, BUT UNDER THE BEST PRICES.

New York, June 18.—While there was some irregularity in the movements of stocks today, the tendency continued upward. Conversation prevailed on both sides of the market. In spite of the strong tone of last week, bull operators were not inclined to attempt an ambitious undertaking in view of the many uncertainties of the present situation.

Various rumors were circulated concerning the Harriman dissolution proceedings, and the latest one, to the effect that the court would in all probability appoint a receiver for Union Pacific's holdings of Southern Pacific, was associated with a sharp dip in prices just before the close, which cut down the gains made earlier in the day.

SPANPING COSTS \$100,000.

Monticello, N. Y., June 18.—Mrs. J. Wolfe of Ferrisville tried to spank her young son and in so doing set on fire a store. In the fire that followed twelve business houses and three dwellings, including the Wolfe home, were destroyed. The loss will reach \$100,000.

WALL STREET ASKS A HOLIDAY.

New York, June 18.—The members of the New York Stock exchange have voted by petition to close the exchange Saturday, July 5, following the July 4 holiday. The petition will now be submitted to the board of governors for final action.

Berlin Electrician Will Seek to Test His Theories on a Large Scale.

Berlin, June 18.—Richard Rodrian, Berlin's "weather maker," is going to America this summer, hoping to interest the United States agricultural department in the theory of weather control. The electro-technician who evolved the theory that weather changes are caused by electrical activity which can be controlled by the use of electrical instruments has been unable, because of lack of funds, to construct powerful instruments. However, he declares that he was responsible for the pleasant weather this year on Whit Monday and Ascension day in the face of official predictions of rain.

"I am convinced," said Herr Rodrian, "that not only storms and tornadoes, but floods and earthquakes, are caused by electrical changes in the air. Often floods are much greater than the amount of water that has fallen. The earth is probably interlaced with canals of gas, which, when the pressure changes, expands, forcing the underground water to the surface. The pressure also produces earthquakes. In all the disturbances of Europe since I began my investigations the weather map invariably indicated the coming catastrophe. I shall study the American charts and shall prove that the same is the case there."

"These catastrophes could be avoided without a great outlay of capital. America has the duty of guarding the Panama canal from earthquakes and of saving large regions devastated by floods. I am trying to interest the government because the power of changing the weather also means power to cause any desired weather, and unless this power is in the hands of a great international alliance catastrophes of a terrible nature might be produced. It was once approached by some Americans who wished me to blight the American cotton crop after they had laid in a big stock of cotton. I was also asked to cause an earthquake in France, but I am interested in the assistance, and not in the destruction of humanity."

CARNEGIE GIFT DENOUNCED BY CHURCH LEADER

Donation of a Million Dollars to Vanderbilt University at Nashville the "Impudent Proposal of Agnostic Steel Monger," Declares M. E. Bishop Candler.

Prelate Avers It a Shrewd Attempt to Get Control of Part of the College Property and Designed Also to Influence Litigation Pending in the Courts.

Atlanta, Ga., June 18.—Charges that the recently announced gift of \$1,000,000 by Andrew Carnegie to the Vanderbilt University at Nashville, Tenn., is "not a donation, but a shrewd attempt to get control of part of the university property," and that the retired ironmaster is "dangling money before the public with the purpose of influencing litigation pending over the university," are made in a statement given out here tonight by Bishop W. A. Candler, of the Methodist Episcopal church, South.

Bishop Candler characterized Mr. Carnegie's offer of a donation as an "impudent proposal of an agnostic steel monger." His statement says: "The loud heralded gift, on close inspection of its plans, appears to be no gift, but is a shrewd attempt to get control of a part of the property of Vanderbilt University, in order to set up a medical school fashioned according to the peculiar ideas of Mr. Carnegie."

Litigation Involves Church Ownership. The university property, says the bishop, has been in litigation, the lower courts having decided in favor of the church on every point as to the church's ownership. An appeal is pending in the Tennessee supreme court. The bishop quotes Mr. Carnegie's offer as being dependent upon the university throwing off denominational control. He then says: "It appears also that the Episcopalians see in this affair an effort to defeat the proposed medical department of the University of the South. If they are correct in their opinions, Mr. Carnegie is proposing at one blow to destroy the medical school of the Episcopalians and denature the medical school of the Methodists and raise from the ruins of both a Carnegieized establishment, in his own image and likeness."

SPANKING COSTS \$100,000. Monticello, N. Y., June 18.—Mrs. J. Wolfe of Ferrisville tried to spank her young son and in so doing set on fire a store. In the fire that followed twelve business houses and three dwellings, including the Wolfe home, were destroyed. The loss will reach \$100,000.

I was also asked to cause an earthquake in France, but I am interested in the assistance, and not in the destruction of humanity."

PIPE IS FATAL TO A BABY. South Norwalk, Conn., June 18.—An old meerschaum pipe was given as a plaything to Harold Thornfield, aged two, and an hour later the child died of nicotine poisoning.

PRODUCE PRICES UNCHANGED. Chicago, June 18.—Butter, eggs and poultry in the Chicago market were unchanged in price today. The receipts of eggs were 20,078 cases.

WORLD'S GREATEST SHIP, THE STEAMER IMPERATOR, ARRIVES AT NEW YORK.

New York, June 18.—The Hamburg-American Line steamship Imperator, the giant of the seas, completed her maiden voyage tonight, arriving off the Sandy Hook bar at one hour and twelve minutes before midnight. The steamer, the largest ocean liner in the world, sailed on Wednesday last from Hamburg. The Imperator is 950 feet long and 100 feet wide. She has a double hull, extending well above the water line. The leviathan is furnished as lavishly as any fashionable hotel in the world and possesses such features as a large gymnasium, a swimming pool, rathskeller and a grand dining room which will accommodate all of the first cabin passengers simultaneously. The ship is capable of maintaining a speed of twenty-two and one-half knots an hour. It is equipped with eighty-four boats, two of which are propelled by high power engines, powerful enough to tow all the others.

SIX CHINESE WHO LET FELLOW ORIENTAL END LIFE NOW FACE MURDER CHARGE.

Atlantic City, June 18.—Because they did the "honorable" thing under their religion, six Chinese laundry men face charges of murder here following the discovery by the police of the body of Ho Why in a New York kitchen on a room with a bullet wound through his head.

Under the laws of their clan it developed a member may announce his intention of committing suicide and carry out his desire with other members present and expect no interference. Why, suffering from tuberculosis, carried out this program while the half dozen celestial sat in the same room and stoically watched the deliberate preparation and accomplishment of the deed.

CLEVELAND FOLKS APPEAL TO MAYOR

Call for Municipal Help to Battle Crickets That Ravage Their Homes.

Cleveland, O., June 18.—Swarms of crickets that are overrunning homes in the vicinity of E. Sixty-fifth street and Morgan run, demanding curtains, carpets and other household articles in sight, have brought about an appeal to Mayor Baker, the board of health, the street cleaning department and the city forestry division for prompt action in the direction of exterminating the pests.

The appeal came from Councilman Joseph Peleinski, who denatured the medical school of the Methodists and raise from the ruins of both a Carnegieized establishment, in his own image and likeness."

Dr. Ford advised the burning of the refuse on the dump, but when told that there was a lumber bridge close at hand he stated that this plan could not be followed. Use of oil would be of no avail, he said, as it would not reach the insects beneath.

Peleinski carried his appeal to the office of Mayor Baker and to the other city departments. He was promised that something would be done.

"Fire is the only thing that will kill them off," said Dr. Ford. "If the city cannot build a fire there I do not know what other measures can be taken."

WEATHER MAKER IS COMING TO AMERICA

Berlin Electrician Will Seek to Test His Theories on a Large Scale.

Berlin, June 18.—Richard Rodrian, Berlin's "weather maker," is going to America this summer, hoping to interest the United States agricultural department in the theory of weather control. The electro-technician who evolved the theory that weather changes are caused by electrical activity which can be controlled by the use of electrical instruments has been unable, because of lack of funds, to construct powerful instruments. However, he declares that he was responsible for the pleasant weather this year on Whit Monday and Ascension day in the face of official predictions of rain.

"I am convinced," said Herr Rodrian, "that not only storms and tornadoes, but floods and earthquakes, are caused by electrical changes in the air. Often floods are much greater than the amount of water that has fallen. The earth is probably interlaced with canals of gas, which, when the pressure changes, expands, forcing the underground water to the surface. The pressure also produces earthquakes. In all the disturbances of Europe since I began my investigations the weather map invariably indicated the coming catastrophe. I shall study the American charts and shall prove that the same is the case there."

"These catastrophes could be avoided without a great outlay of capital. America has the duty of guarding the Panama canal from earthquakes and of saving large regions devastated by floods. I am trying to interest the government because the power of changing the weather also means power to cause any desired weather, and unless this power is in the hands of a great international alliance catastrophes of a terrible nature might be produced. It was once approached by some Americans who wished me to blight the American cotton crop after they had laid in a big stock of cotton. I was also asked to cause an earthquake in France, but I am interested in the assistance, and not in the destruction of humanity."

PIPE IS FATAL TO A BABY. South Norwalk, Conn., June 18.—An old meerschaum pipe was given as a plaything to Harold Thornfield, aged two, and an hour later the child died of nicotine poisoning.

PRODUCE PRICES UNCHANGED. Chicago, June 18.—Butter, eggs and poultry in the Chicago market were unchanged in price today. The receipts of eggs were 20,078 cases.

NEAR-SCANDAL IN COMMONS ENDS TAMELY

British Ministers Who Admit Buying Marconi Wireless Company Shares Spike the Guns of Bitter Political Opponents by Expressing Regret at the Transaction.

This Outcome Apparently the Result of a Truce Between Party Leaders to Protect Parliament's Name—Liberals Threatened to Dig Up Conservative Skeletons.

London, June 18.—For the first time in many years British cabinet members were compelled today to defend their personal honesty before parliament. The attorney general, Sir Rufus Isaacs, and the chancellor of the exchequer, David Lloyd-George, explained on the floor of the house their dealings in Marconi shares and the final scene in the affair, which political enemies had attempted to magnify into a scandal, was tense and dramatic.

The two ministers admitted that they had acted mistakenly, although without dishonest intentions, and regretted their failure to divulge all the facts when they had made their denial to the house last October of buying the shares. It has been charged that members of the cabinet bought Marconi shares at a time when the government was negotiating contracts with the company. Having finished their defense, the ministers walked from the chamber together. A great cheer from their partisans followed them.

Opponents' Guns Spiked. The resolution introduced by the Unionists in behalf of the opposition and which brought about the debate went no further than to express the regret of the house at the transactions of the ministers and the lack of frankness displayed before the house. By expressing their regret, thereby agreeing with the resolution, the two ministers spiked the guns of their bitterest opponents, who regarded the case as an opportunity to make political capital.

This comparatively tame ending of a fierce controversy was apparently the result of a truce between the party leaders to protect the good name of parliament. The Liberals were threatening, if attacked unreasonably, to resurrect all the buried shortcomings of the Conservative ministers from almost forgotten folders.

DOCTORS TRY TO PREVENT BOY FROM BECOMING GIANT.

Philadelphia, Pa., June 18.—Surgeons at the Medico-Chirurgical hospital are anticipating the successful outcome of an operation on a fifteen-year-old boy to prevent his becoming a giant. The youth, John Michael, is now 6 feet 7 inches tall, and the doctors who have made a study of his case have decided to remove a portion of the pituitary body from the base of his brain. This operation has never been performed for such a reason. The pituitary body and pineal gland is believed to control the mechanism of life that has to do with the growth of an individual.

LIQUOR ORDINANCE HELD INVALID. Atlanta, Ga., June 18.—The state supreme court has held invalid an Atlanta ordinance which required railroads, express companies and other common carriers to furnish the police with records of liquor shipment. The court held the ordinance void on the ground that it was in contravention of a section of the interstate commerce act which makes it unlawful for the agent of any common carrier knowingly to disclose the contents of any shipments. The court intimated such an ordinance might be valid with respect to intrastate shipments.

KAISER RECOGNIZES MEXICO. Mexico City, June 18.—An autograph letter from the German emperor recognizing the Mexican administration has been placed in the hands of Provisional President Huerta by Herr Von Kardorff, the charge d'affaires of the German legation.

GIRL WALKS SEVENTY-FOUR MILES. St. Paul, Minn., June 18.—Carrying a heavy suitcase, Miss Margaret Delmont, aged eighteen, of Chicago, has arrived here, completing a walk of nearly seventy-four miles, which began at Menomonee, Wis., last Thursday.

KINDLY ACTS COSTS A LIFE. Northfield, Minn., June 18.—While lifting a young bird with a broken wing from a railroad track Thomas H. Gill was struck by a train and instantly killed. He was deaf and was unaware of the approaching danger.

TRIPLE METHOD OF SUICIDE. Galesburg, Ills., June 18.—George Michael Smith, aged eighty-five, was found hanging by the clothesline from a peach tree. He had battered his head with a hammer and had also slashed himself with a razor.

PIPE IS FATAL TO A BABY. South Norwalk, Conn., June 18.—An old meerschaum pipe was given as a plaything to Harold Thornfield, aged two, and an hour later the child died of nicotine poisoning.

PRODUCE PRICES UNCHANGED. Chicago, June 18.—Butter, eggs and poultry in the Chicago market were unchanged in price today. The receipts of eggs were 20,078 cases.

Advance temple, Temple of Honor, of  
 Mohawk, will have the honor next week  
 of entertaining the state convention of  
 the order. It is expected that hundreds  
 of visitors, including delegates from al-  
 most every temple in the state, will  
 visit the Keweenaw county town. Most  
 of the lodges are in northern Michigan  
 and the greatest attendance, therefore,  
 will be from the copper and iron dis-  
 tricts. Elaborate plans are being made  
 for the entertainment of the visitors.  
 William Trevelyan of the Mohawk tem-  
 ple is the grand chief ranger in Michi-  
 gan.

Saturday of next week will be the  
 big day of the convention. Following a  
 parade there will be a program of ad-  
 dresses and musical numbers, while for  
 those who care for sporting events a  
 fine program is being arranged. The  
 Wolverine and Mohawk teams of the  
 Copper Country Cricket league will meet  
 during the afternoon on the Mohawk  
 pitch and should put up an argument  
 in the great British sport that will  
 please the palate of all sport lovers,  
 for a few months, although too short for  
 some of them while others will be an-  
 xious to return to the grind, finish their  
 studies and get out in the world.

**STUDENTS ARE RETURNING.**  
 Individually or by groups students are  
 returning to Houghton county from col-  
 lege they have attended during the past  
 year, coming back to spend the vacation  
 and visit with friends and relatives for  
 a few months, although too short for  
 some of them while others will be an-  
 xious to return to the grind, finish their  
 studies and get out in the world.

## STATE EXAMINERS IN COPPER REGION

### Are Quizzing Applicants for Barbers' Certificates—Secretary Explains Law.

H. H. Rapp of Sault Ste. Marie, treasurer, and William Braund of Jackson, secretary of the state board of examiners of barbers, are in Houghton county for the purpose of carrying on the examinations of applicants for barbers' certificates. H. J. Weigle of Detroit, president of the board, is not making the tour.

Examinations were held yesterday in Houghton and Hancock and will be held probably today in Calumet.

Secretary Braund said yesterday that a new law governing the state board of examiners of barbers will be put into effect Aug. 15. Some of the important provisions of the statute follow:

Apprentices must register with the state board as soon as they begin work, in order that the board may be assured they have served a full apprenticeship when later they apply for a certificate.

Shop owners are equally responsible with journeymen for infractions of the law. If a journeyman is not fulfilling the requirements of the law the man hiring him may be punished as well.

The state board will have the power to deputize examiners so that the applicant for certificate may be examined without delay at any time.

The applicant for a certificate must present a medical certificate to the examining board, certifying that he is not infected by dangerous communicable diseases.

The fee for a certificate will be \$5, with fifty cents for renewal on Oct. 1 of each year and \$2 for renewal when a certificate is permitted a lapse.

Secretary Braund says that thus far in his tour of the copper peninsula he has found the barber shops to be in excellent condition and that the barbers as a class rank high in their profession.

## DRAINAGE WORK HALF-COMPLETED

### Excellent Progress Is Being Made With Project of Reclaiming Chassel Swamp.

C. T. Hancock of Chassel, engineer in charge of the reclamation project of the Houghton Land & Drainage company in the Sturgeon swamp near Chassel, reports gratifying progress with the work of draining the drainage ditches and canals, half of the system being completed. Mr. Hancock was in Houghton yesterday and he spoke enthusiastically of the future of the project.

The company's scheme includes the digging of twenty-five miles of canals and ditches, and twelve miles have been completed. In May the company excavated forty thousand yards of material and expects to proceed for the remainder of the summer at the rate of fifty thousand yards, completing the work within the present year.

**Drainage Proves Effective.**  
 Mr. Hancock says that already the drainage plans have proved effective. In some places the ditches are dry and in most of them the water is very low, showing that the water is running out of the swamp just as planned. The soil throughout is revealing itself as being particularly well suited to agriculture, the subsoil of sandy clay, having an overburden of black loam from two to eight feet thick.

**Marketing the Land.**  
 The company has begun marketing the farm lands that this drainage will develop and already has sold two forty-acre tracts. A Cleveland real estate concern has taken an interest in the matter to the extent of sending an expert to investigate the project and has been so favorably impressed that within a short time it is going to bring an excursion party of prospective buyers to examine the reclaimed lands. This concern expects to locate on the land an Austrian colony of from fifteen to twenty families within the next year.

**A Future Garden District.**  
 Mr. Hancock is confident that every hope of the promoters of the reclamation scheme will be realized and that the present, Sturgeon swamp will in a few years be one of the finest garden districts of the upper peninsula.

## COMMENCEMENT EXERCISES.

### Calumet Class Day—Dollar Bay and Chassel Commencements.

The class day exercises of the Calumet High school class of 1913 were held last night in the assembly room of the school.

With Dr. John M. Driver of Chicago as the commencement orator, the exercises of the Dollar Bay High school were held last night in the school.

The commencement exercises of the Chassel township schools will take place tonight in the high school building, with the following program:

Invocation—Rev. H. F. Harris.  
 Overture—Chassel Boys' band.  
 Address—Dr. John M. Driver.  
 Chorus—Third grade.  
 Presentation of diplomas—President P. H. Willson.  
 Benediction.

The following are the members of the class: Josephine E. Fish, Ruth V. Coffey, Manda M. Michaud, Dick Warner, Beatrice J. Gagnon, Lempi Karppi, Priscilla Craig, Lillian Rieth.

## STATE COMMANDER TALKED.

### Gives Stereophon Address to Hancock Lady Maccabees.

Mrs. Alberta Driles, state commander of the Lady Maccabees of the World, left Hancock yesterday morning for Iron Mountain, where she will organize the branch of the order. The Iron Mountain branch has prospects of a large membership, there being a large area from which to draw. A special meeting of the Hancock live was held Tuesday evening, when Mrs. Driles gave an address to the members, illustrating her lecture with stereophon slides. After installing the new live at Iron Mountain the state commander will return to her home in Detroit.

## FUTURE OF EUROPEAN CONTRACT.

### Township Board to Hold Special Meeting to Consider the Matter.

A special meeting of the Portage township board has been called for tomorrow afternoon by Supervisor Hartman for the purpose of taking up the future of the Drapeau contract for the construction of the township highway between Houghton and Otter Lake. Contractor Thomas Drapeau was killed on the work June 11 and now it is likely that his surety, a bonding company, will be called upon to complete his contract, unless his estate decides to undertake its completion.

At this meeting the board also will consider a plan to build one and one-half miles of road from Bruneau's farm to the Adams township line to connect with a projected road in that township. The board also will visit the Park addition to inspect the site of a proposed retaining wall to be built by Dr. L. L. Hubbard and H. S. Goodell.

## NO FUNDS FOR IMPROVEMENTS.

### Laurium's Finances Compel Postponement of Important Plans.

Because there was a general sentiment in Laurium against increasing the tax rate, even one-tenth of a mill, this year it is not at all unlikely that the village council will find that it cannot afford to take up the matter of repaving Lincoln street, from Fourth street to Lake Linden avenue, and Lake Linden avenue for its entire length. It is probable, according to a member of the board, that all paving work will be deferred indefinitely until the village's finances mend.

## Circulation of Books the Past Year Totaled 6,363.

Miss Priscilla Eddy, librarian of the Hancock public schools, has compiled statistics of the operations of the library during the fiscal year which closed June 30. The report shows a slight falling off in the circulation of books compared with the figures of the previous year. This is accounted for largely because of the mildness of last winter, as a result of which the children did not stay indoors as much as usual.

The report shows further that the juveniles are far in the lead in the matter of patronizing the library, a condition that has prevailed for several years, while works of fiction, as is to be expected, are more popular than non-fiction books. During the last year several hundred volumes have been added to the library. The schools recently received a complete new set of the Encyclopedia Britannica of twenty-nine volumes.

This report is the last to be submitted by Miss Eddy, as she recently resigned, her resignation to take effect the last of this month. Miss Eddy intends going to school in Washington, D. C., next year. Miss Luella Mayworm has been appointed to succeed her as librarian.

The librarian's report shows the following circulation for the year: Juvenile books, 4,631; fiction, 1,273; non-fiction, 469; grand total, 6,363.

## SCHOOL SAVINGS BANK DATA.

Cashier Reports on Condition of Houghton Institution.

G. A. Spaulding, director of the commercial department of the Houghton High school, and cashier of the school savings bank, yesterday furnished Superintendent Doelle with a report of the condition of the bank to date, the institution now being closed for the long school vacation.

The department has been in operation two and one-half years and in that time the following business was transacted: Total amount deposited, \$2,274 11; Total paid out, \$189 93; Total due depositors, 1,554 18; Interest earned, \$100 00; Accounts for the six months ending June 1, 18 44; Largest single interest item, 50 00; On deposit in city banks, 1,565 19; The whole number of depositors is 520.

## WILL INSPECT THE YANTIC.

Lieutenant Paul J. Ruppe, executive officer of the U. S. S. Yantic, expects to leave Hancock tomorrow for Escanaba to join Commander Stephenson of the Second battalion. Together they will visit the Yantic at Sturgeon Bay, where the ship is being repaired, and also the Third division of the Second battalion, Michigan Naval brigade, at Traverse City. The trip from Escanaba will be made in Commander Stephenson's private yacht.

## OPENS OFFICE AT HOUGHTON.

The Northern Michigan Building & Loan association of Hancock yesterday made announcement of the opening of its branch office in Houghton. The office will be in the Citizens' National bank building and will be in charge of Thomas E. Mitchell until W. B. Hoar, assistant secretary, returns from Europe.

## VISITING FIRE CHIEF.

Chief Julius Johnson of the Negamie fire department arrived in Calumet yesterday to make arrangements for accommodations for the Negamie delegation at the firemen's tournament next month.

## PLAYGROUND OPENS SATURDAY.

The Laurium playground, at the corner of Hecla and First streets, will be formally opened on Saturday afternoon of this week. The equipment has been put into the best of condition.

No person need hesitate to take Foley Kidney Pills on the ground that they know not what is in them. Foley & Co. guarantee them to be a pure curative medicine, specially prepared for kidney and bladder ailments and irregularities. They do not contain habit forming drugs. Try them. For sale by All Druggists.

## Markets

### [From Geo. F. Ruez, Ishpeming.]

Boston, June 18.—Without any great volume of trading, the stock markets maintained their recent strength today and odd lot buying as well as steady quiet accumulation by large interests is the main reason for advance. More encouraging news from the spring wheat territory was the occasion for further rise in the rails and crop scare reports not seriously considered. The labor strike at the Nichols refinery, which is entirely closed, should have an important bearing on the immediate future of copper metal if long drawn out as they have a monthly output of 35,000,000 pounds. We believe the course of the market will be gradually upward and favor purchases on all declines. The day's closing prices follow:

Ahm	285 62 25	Tam	27 1/2 27 1/2

## DAILY MARKET LETTER.

The New York market was strong throughout today's session on the reports from Washington that the currency legislation will not be delayed. The Boston copper shares were firm and fractionally higher but not very active. A message from New York stated that the Nichols copper refinery in New York is now shut down tight. The strike at this plant, the largest of its kind in the world, with a 35,000,000-pound monthly capacity, has thus far resulted in the elimination of 10,000,000 pounds from the June yield of refined copper. The effect of the shut-down has not yet been felt in the market for copper. At the annual meeting of Lake Copper company held today directors were re-elected. President Paine stated that the company was in no immediate need of additional funds but a little later, possibly in two or three months, an assessment of 51 cents would be levied, making the first assessment of the Lake stockholders. President Paine also stated that the management feels hopeful regarding the property but not too sanguine as freakishness of hole is a disturbing factor. The May production of Calumet & Arizona and Superior & Pitsburg was 4,200,000 pounds of blister copper. Closing quotations follow:

Amalg	96 1/2	U. Pacific	140 1/2

## TESTING THE HEARING OF ANTS.

Professor Pringle, a Scotch scientist, is quoted in the Chicago Tribune as saying that ants have the most perfect sound-producing organs yet discovered in insects, and that they are extremely susceptible to sound. He claims that these organs are situated in certain segments of the abdomen, and that sounds are brought forth by rubbing, but no one has ever heard them, as they are too faint to be detected by human ears. Ants have been made to hear things with the aid of the microphone, but the only sound detected was that of the crawling of the ants.

Again, in regard to the hearing of ants, careful and extensive experiments have been conducted with the species from the country and England, and it was decided that these species could perceive sounds. How they did it was more or less a matter of doubt, as some scientists insisted they heard through organs or hearing, while others claimed that it was through a sense of touch, excited by atmospheric vibrations.

## SUICIDES OF CHILDREN.

At the annual meeting of the Progress Medical society, which will take place at Moscow this month, one of the subjects for discussion will be the suicide epidemic which an investigating committee has reported as "raging in all grades of society." The report shows that there were thirty-five suicides in over 1,000,000 in 1910, against twenty-three in 1902. In Moscow the number of self-murders increased fourfold in four years. St. Petersburg had five deaths by suicide in every 1,000 inhabitants in 1906 and seventeen in 1910. "The most alarming feature of the deplorable condition," says the report, "is that boys and girls form a large percentage of the unfortunate." In 1901 twenty-four boys and girls committed suicide, while the cases which were reported by the school authorities in 1910 numbered 256. In the penal institutions the deaths by suicide in 1910 numbered fourteen times more than in 1900.

## THE BRILLIANT STARS OF JUNE.

By the end of June, Mars, Venus, Saturn and Jupiter will all be morning stars, but Foley's Honey and Tar Compound is at all times the "Star" medicine for coughs, colds, croup and whooping cough. A cold in June is as apt to develop into bronchitis or pneumonia as at any other time, but not if Foley's Honey and Tar Compound is taken. For sale by All Druggists.

# ALPHA THE TOWN OF INDUSTRY

## OPENING LOT SALE JUNE 29

### SPECIAL TRAIN SERVICE

#### THE GREAT MINING SECTION OF MICHIGAN at MASTODON, IRON COUN Y

#### A \$10 payment on a lot here will make a land owner.

#### Alpha wants the Wage Earner and the Investor to own these splendid lots at very low prices. Why? Read on.

#### Alpha is the Biggest Mining district on the Menominee range.

#### Alpha is the locality that has more to guarantee its future than any other town has had in the history of the Lake Superior District.

#### \$10 DOWN and \$10 per month until paid for gives you title to one of these valuable lots.

#### HOW TO GET TO ALPHA

#### A special train will be run from Iron River to connect with the train from Chicago at Stager and this will be run right in to Alpha. Free buss and auto service from Crystal Falls for Marquette Range and people from the north.

#### A FEW FACTS ABOUT ALPHA.

There are many large and rich mines in the territory adjacent to our property. Some of these will employ 2,000 men. One of the largest in the Great Judson mine. Work is now in progress opening up this mine and when completed it will be the largest iron mine in Michigan. The United States Steel company, the Cleveland-Chris company, the Corrigan-McKinney company and other of the large mining companies have large finds in the locality.

The big Balkan, on which a stripping contract approximating one-half million dollars is being let at the corner of our property, all of these big mines lie within a few minutes walk of Alpha, making our town the center of the district.

We want you to come to Alpha on June 29 and be convinced that there never was such an opportunity offered to real estate investors and home seekers.

We expect you to come out to Alpha. If you cannot come fill out the coupon and let us tell you more about

#### ALPHA, Its Future and Possibilities.

#### A free dinner will be served to all visitors on June 22. A rare opportunity to get acquainted.

#### PRICES and TERMS—Residence Lots (32x125) \$75 and up. Corner Lots \$100 and up. TERMS—\$10 or more down and \$5 or more per month. We will make it easy for you.

#### FILL OUT AND MAIL TODAY.

Nevada Land Co.,  
 Crystal Falls, Mich.  
 Gentlemen: I would like to know more about your property at Alpha. Please send me some of your descriptive matter.

Name .....

Address .....

#### The NEVADA LAND CO., Crystal Falls, Mich. Herman Holmes, Agent.

## DINING ON SHIPBOARD.

When Dickens came over to America seventy-one years ago, there was one large table in the dining room for the passengers. The first officer sat at the head, carving the turkey with all the grace he could command between lurches of the good ship, trusting to Providence that the gravy would not slop over. The passengers sent their plates along the line and waited for their help. Today the dining room of a large ship looks like the dining room of a fine hotel. It is just as expensively appointed and has every good thing to eat that can be found on land. In fact, one of the new ships has a restaurant named after a famous one in New York, and the two keep in touch by wireless, so that the menus, day by day, are the same. Think how large have been made to hear things with the aid of the microphone, but the only sound detected was that of the crawling of the ants.

Again, in regard to the hearing of ants, careful and extensive experiments have been conducted with the species from the country and England, and it was decided that these species could perceive sounds. How they did it was more or less a matter of doubt, as some scientists insisted they heard through organs or hearing, while others claimed that it was through a sense of touch, excited by atmospheric vibrations.

## The World's Oil Specialists Make Polarine

### FRICION REDUCING MOTOR OIL

The oil that maintains the correct lubricating body at any motor speed or heat, and flows equally well at zero.

The oil for use at high and low temperatures, and in every type and make of motor for pleasure and commercial use.

The Standard Oil Company, for 50 years, has studied all kinds of friction problems and supplied the proper oils to meet them.

Vast facilities and great resources are concentrated on producing the finest motor lubricant known.

Polarine eliminates friction, saves upkeep cost and guards against quick depreciation. Motors in which Polarine is used bring the best prices on re-sale.

And give the best service, and longest service, to those who want to keep them. Try it on your motor. See what it does.

## Let Your Summer Breakfast

### Be a dish of Grape-Nuts and Cream.

# Grape-Nuts

These crisp, nutty granulates have delicious flavour and the food elements which fully nourish every part of the body.

Brain workers especially need such food as Grape-Nuts because it is rich in the Phosphate of Potash which Nature requires for rebuilding daily the tissue cells in Brain and Nerves—a scientific fact.

If your plans for money-making and fame call for the work of keen Brains, try Grape-Nuts.

### "There's a Reason"

Enjoy a Vacation in the Black Hills

The wonderful Black Hills of South Dakota afford an ideal locality for rest and recuperation.

Hunting, fishing, horse-back riding over wooded mountains, trails, bathing in the medicinal waters of the hot springs are all to be enjoyed in a glorious climate amid splendid scenery.

Reduced fares June 1 to Sept. 30. Return limit Oct. 31. Direct and excellent service. Favorable stop-overs. Choice of routes.

### City Brevities

Today's weather: Cloudy and warmer, probably with showers.  
Yesterday's temperatures: Seven a. m., 50 degrees; noon, 60; 7 p. m., 53. Highest, 66 degrees; lowest, 45.

A. F. Maynard left last evening for Chicago.

Dr. J. E. Hudson left last evening for Chicago.

Dr. R. S. MacKnight was down from Big Bay yesterday.

J. F. Hicks, of Trout Lake, was in Marquette yesterday.

W. H. Loree, of Houghton, was in Marquette yesterday.

T. H. Noble left Tuesday evening on the Juniata for Cleveland, O.

Dr. A. Jones, of Butte, Mont., was a visitor in Marquette yesterday.

Merwin Armstrong, of Duluth, was a business visitor in Marquette yesterday.

Mr. and Mrs. R. C. Lowe are the parents of a son born yesterday afternoon.

E. L. Blanchard, of Escanaba, spent yesterday in Marquette.

George P. Shiras has returned to Marquette after a ten days' visit in the East.

William and Howard Gattis, of Chatham, were business visitors in Marquette yesterday.

Thomas P. Kirkwood was down from Negaunee yesterday, attending to business and visiting friends.

K. M. Way left last evening for Milwaukee, to be absent from the city two days on a business mission.

Miss Nellie Devins, of Michigan, spent the last few days visiting at the home of Peter Donovan, Rock street.

Marlow H. Crocker, an attorney of Hibbing, Minn., is here on business. He will remain in this city several days.

W. E. Dolan and wife, of St. Ignace, spent Tuesday in Marquette. They left yesterday to visit friends in Ishpeming.

F. E. Stoppenbach, of Jefferson, Wis., son of a well-known meat packer of central Wisconsin, is in the city on a visit.

Mrs. Alice McComber and daughter, Laura, of Port Arthur, Ont., are the guests of Joseph H. Primeau and family.

R. R. and H. S. Goodell, of Houghton, arrived in Marquette yesterday by automobile. The car was driven by John Aram.

T. C. Yates and wife and Miss Richardson arrived in Marquette yesterday and departed aboard the steamer Tionesta for the Soo.

Edwin Denby, of Detroit, former representative of a Detroit district, arrived in Marquette yesterday morning. He left for his home on the afternoon train.

James Block, who is employed by the Michigan State Telephone company, arrived home yesterday from several days' absence, during which he visited Mackinac Island.

Miss Helen O'Connor, a teacher in the public grade schools, left last evening for Chicago to take up a course of study during the summer term at the University of Chicago.

The steamer Octorara, eastbound, will arrive here Saturday evening at 5:30 o'clock. The steamer Tionesta will arrive Sunday morning and will leave at 9 o'clock, westbound.

Donald Begole is home from Ann Arbor, where he has been attending the University of Michigan, and will spend the summer at the home of his father, F. H. Begole, in this city.

I. W. Byers and wife, and the Misses Anna F. Judith E., and Ruth Byers, of Iron River, arrived in Marquette Tuesday night by automobile and departed shortly before dinner for Munising.

Lewellyn Drake, son of Dr. E. L. Drake, arrived home yesterday from the University of Michigan to spend his summer vacation in this city. He was accompanied by his father, who went to Chicago to meet him.

Russell Blanchard has gone to Detroit, where he will visit. While away, he will attend the commencement exercises of the Ypsilanti State Normal college, from which his sister, Miss Bess Blanchard, will be graduated next week.

Mrs. N. G. DeHaas and sons, Eugene and Clyde, left yesterday morning for Buffalo. From there Eugene will go to New York city, while Mrs. DeHaas and other son will go to Toronto, Ont., to visit two weeks with relatives and friends.

Miss Lou Palast left yesterday morning to visit in Detroit, and Rochester, Mich., and in Toronto, Ont. She will be away several weeks. In Detroit she will be the guest of Mr. and Mrs. H. C. Davis, former resident of this city, and in Toronto she will visit a school friend.

HOLDERS of exchange tickets for the Normal play, "College Days," will have the first opportunity to reserve seats when the sale opens Friday morning at 8:30 o'clock. All others may purchase reserved seats after 10 o'clock. No one person may reserve more than six seats.

Miss Mattie Foster of Perth Amboy, N. J., a sister of J. H. Foster, formerly a well-known business man of Marquette and who for some years was concerned in conducting the Foster business, is in Marquette and will be the guest of Mr. and Mrs. A. H. Meyers and Mr. and Mrs. Bert Hixon.

A petition was received yesterday in the office of the probate judge asking that Oni Maki, who is now serving a sentence in the county jail, be sent to the Newberry state hospital. Maki has become mentally unbalanced. He talks continually, apparently without knowing what he is saying.

R. H. McDonald and son, Roderick, passed through Marquette yesterday on their way home to Dollar Bay after having toured the lower part of the state. They stopped in Marquette to visit Miss Lorna McDonald, the daughter of R. H. McDonald, who is a student at the Northern State Normal school.

Arrested for Careless Driving—Marshall Manning yesterday arrested Howard Stewart for driving over the corner of Spring and Front streets at a reckless speed. The hearing has been set for today at 2 p. m. in Justice Byrne's court.

Road Roller Fell—The city steam roller broke through a manhole at the corner of Fourth and Bluff streets Tuesday evening. Yesterday it was raised by the use of 12 by 12 inch timbers and jacks.

crews. The heavy engine had crushed the six-foot manhole so that it was necessary to excavate it and a new structure will have to replace it.

**Speaker at Presbyterian Church**—Dr. S. J. Kirkbride, of Chicago, representing the American Bible society, will deliver an address on "The Making of the Bible" this evening at the Presbyterian church. Incidentally he will tell of the work of the Bible society throughout the world. The public is cordially invited. The Methodist and Baptist prayer meetings will not be held, in order that the congregations may attend the lecture.

**Tax Commission Here Today**—The state tax commission will hold a public review in the council chamber of the city hall today, beginning this morning at 9 o'clock. Property owners who have some curiosity concerning their assessments or who have "kicks" to register concerning the assessed valuation of their real or personal property, may take advantage of this opportunity of voicing their complaints before the proper tribunal. This is the first, last and only chance to change the valuation of their property before the taxes are spread on the assessment rolls.

**Sent to Ionia**—Sheriff Moloney has taken James O'Connell, of Ishpeming, to the Ionia asylum for the criminally insane. This is the second time O'Connell has been sent to Ionia. In January, 1912, he was taken to Newberry, where he remained for several months. When he became refractory, the hospital physicians sent him to Ionia, where, after a month, he was discharged as cured. After returning to his home he created another disturbance and an effort was again made to commit him to Newberry, but the hospital physicians refused to take him. He was thereupon again committed to Ionia.

**INSURE WITH PETER WHITE & CO.**

### NEW ROAD PROJECT NOW BEING URGED

**If Marquette Township Comes In to Line Highway May Be Built Into North Part.**

At a meeting at the town hall of Marquette township this evening it is hoped to commit a majority of the voters of that township to a project to open up the northern part of Marquette county and the Skanes county in Baraga county by a good highway. Powell township is already on record as favorable to the project, and recently authorized a bond issue of \$30,000 for its part of the improvement. Residents of Avon township, in Baraga county, also have taken an active interest in the plan, and the township, it is said, is ready to take up the improvement at the Baraga line as soon as it is assured that the Marquette county townships will undertake their share of the work. If Marquette township should fall into line, it is said that the carrying out of the project would be practically assured.

The situation in Marquette township is, however, a most peculiar one. In the first place, it is asserted that 90 per cent. of the property of the township is owned by non-residents. The vote in the township is only about thirty, and most of these voters live in a part of the township which the district that would be served by the proposed road. Only a few, if any, actual residents of the township would have use for the road, and thus there has been considerable apathy on their part in regard to the proposed improvement. It is in an effort to meet this apathy that the meeting this evening will be held.

For the construction of the road needed in Marquette township it is said that a bond issue of \$25,000, at least, will be necessary. Most of the burden involved would fall on non-resident property owners. The Marquette township line extends to a point near which the present road crosses the Little Garlie. The present road traverses the rough county near Sugar Loaf and also passes over several miles of sandy soil where, in dry weather, the going is very heavy. It is said, however, that there is excellent road building material at hand for the proposed improvement.

The present road in both Marquette and Powell townships is in such bad condition that it is little used, most of the traffic into Powell townships being carried on over the Marquette & South-eastern railway. At a point near which the Powell township are highly favorable to the improvement, and it was largely through the influence of the Brunswick-Balke company that the \$30,000 bond issue was carried.

At the meeting at the townhall in Marquette, township tonight, Frank B. Rogers, the state highway commissioner will be present, and he will be accompanied to the meeting place by a number of Marquette men.

### SYSTEMATIZE YOUR AFFAIRS

Open a Bank Account at the Marquette National Bank and put all the money you receive so soon as you receive it right into bank. The pocketbook leaks. Your Bank Account doesn't. It costs you nothing to keep a Bank Account here. We furnish you with books, checks, etc., free. If you don't know how to do it let us show you. Everyone must learn sometime. ## WOMAN FEELS 10 YEARS YOUNGER

Since Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Louisville, Ky.—"I take great pleasure in writing to inform you of what Lydia E. Pinkham's Vegetable Compound has done for me. I was weak, nervous, and cared for nothing but sleep. Now I can go ahead with my work daily and feel ten years younger than before I started taking your medicine. I will advise any woman to consult with you before going to a doctor."—Mrs. INIZE WILKINS, 2229 Bank St., Louisville, Ky.

Another Sufferer Relieved.  
Romayor, Texas.—"I suffered terribly with a displacement and bladder trouble. I was in misery all the time and could not walk any distance. I thought I never could be cured, but my mother advised me to try Lydia E. Pinkham's Vegetable Compound and I did. I am cured of the displacement and the bladder trouble is relieved. I think the Compound is the finest medicine on earth for suffering women."—Mrs. VIOLA JASPER, Romayor, Texas.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## Ishpeming Department

### AUTOMOBILE TRIP FOR HOME COMERS

Former Residents Will Be Taken About City and Surrounding Country July 3.

Visitors in Ishpeming for the Home Coming and Fourth of July celebrations will be entertained by an automobile tour of the city Thursday afternoon, the 3rd. A route that will include all parts of the city and considerable surrounding territory, including the Lake Angelina, Salisbury and North Lake locations, will be arranged. Miss V. Winifred Lacey, who has charge of the school girls who will take part in the baby parade Wednesday evening, asks all who would like to participate to leave their names and ages at the stores where they trade. The committee has not yet decided on the prizes for the baby parade, but they will be numerous and attractive. For the parade on the Fourth the first prize for the best float in the commercial division will be \$25; second, \$10, and third, \$5. Prizes of similar amounts will be awarded in the industrial division and in the callithumpian section. The Duluth, South Shore & Atlantic railway will grant for the home coming round trip fares of one and one-third of the regular fare. Tickets will be good for the night trains of the 2nd and on all trains during the remainder of the week, with return privileges up to the 7th. A reception committee will be appointed to meet all trains, and to aid the visitors in getting located in the hotels or at the homes of their friends. All home comers will be asked to call at the Y. M. C. A. building to register and procure their souvenir badges. A rest room will be provided at the Y. M. C. A. building and the lobby will be decorated and made as attractive and comfortable as possible.

### ISHPEMING IN BRIEF.

Miss Jean Hay left yesterday morning for Detroit.  
H. S. Halliwell, of Diorite, was an Ishpeming business visitor yesterday.  
Mrs. F. Gargiele, of Nekosa, Wis., is in the city, visiting Mr. and Mrs. S. R. William P. Belden and family will spend the next three or four weeks in Richmond, N. Y.  
Mrs. Homer P. Yutzey will entertain the Bohemian club at her home on Ridge street this evening.  
Mrs. A. J. Yungbluth has gone to Little Falls, Minn., to visit for ten days with her mother, Mrs. Clapp.  
Miss May Mortley entertained a number of her friends at the Mortley summer home at Deer lake yesterday.  
E. L. Pearce, George Tucker and Louis Pendill, of Marquette, spent yesterday in the city, on a business mission.  
Miss Clara Fitzpatrick returned to the city Tuesday morning from Lafayette, Ind., where she has been visiting for three months.  
Mr. and Mrs. E. J. Goodman, Jr., returned yesterday from Grand Rapids and Chicago, where they have visited relatives for the past week.  
Mrs. Nellie Brayton, librarian at the Carnegie public library, will return tomorrow from Island Lake, where she has spent the week at camp.  
Carl Smedberg will return today from the University of Michigan at Ann Arbor, where he has been a student in the engineering department.  
Elaborate arrangements have been made for the social to be given this evening on the church lawn by the young ladies of St. Joseph's church.  
The girls of one of the Sunday school classes of the Presbyterian church entertained the boys of the Sunday school in the church parlors last evening.  
Miss Charlotte Nelson and Miss Loreta Burke returned yesterday morning from a trip on the Great Lakes, having been gone about two weeks.  
Mrs. R. W. Bowers and Miss Lillian Pearce went to Detroit yesterday morning by the way of the D. & C. line, and will spend about three weeks there.  
The Ishpeming Sewing club will leave this morning for Champion, where they will be the guests of Mrs. Thompson today. They will return this evening.  
John Sullivan of the Lake Angelina, who a short time ago submitted to an operation for appendicitis at the Ishpeming hospital, has returned to his home.  
Dr. J. G. Haller, pastor of the First Methodist Episcopal church, who was recently operated on at the Ishpeming hospital for appendicitis, is able to be out again.  
Mr. and Mrs. George Nelson of Marquette, stopped in Ishpeming Tuesday afternoon on their honeymoon trip. They left the following day for points in lower Michigan.  
Mr. and Mrs. J. E. Schoen left Tuesday for Delevan Lake, Wis., where they will attend the Wisconsin druggists' convention being held there this week. Mr. Schoen will visit relatives in Chicago and Milwaukee before returning.  
M. P. Kirish, who some weeks ago closed out his store in the Robbins block on Cleveland avenue, has decided to engage in business on the Menominee range, and will erect a business block between Stambaugh and Palatka.  
Three births were reported yesterday. They were a daughter to Mr. and Mrs. Pasquale Russo, 215 South Lake street; a son to Mr. and Mrs. Richard Konster, 502 Jasper street; and a son to Mr. and Mrs. Mike Sauli, 346 W. Division street.  
Mr. and Mrs. Otto Warnberg, Mr. and Mrs. Gus Sundlie and daughter, and Mrs. John Anderson have gone to Little Falls, Minn., to visit with Mr. Warnberg's brother, Seth Warnberg. On their return they will visit with friends in Duluth.  
William Landia has returned from Boone, Ia., where for the past several months he has been following his trade as bricklayer on the new high school building being erected by L. E. Chaussee of Negaunee. The brick work has been finished.

### BOARD OF REVIEW FINISHES TODAY

Tax Roll, as Prepared by Assessor Henry Routhier, Has Been Approved.

The board of review will finish its work today. The tax roll was reviewed last week, and in the private sessions this week the members have been looking up improvements on different properties and considering complaints from taxpayers. Comparatively few protests have been made, as the taxpayers understand that all valuations will be changed by the state tax commission. The valuations placed on the properties by City Assessor Routhier have been approved, as a rule, by the board. Mr. Routhier did not make any attempt to increase the valuations to figures that would meet the approval of the tax commission, as he believed that this would be useless work. While none of the tax commission's figure have been made public, it is said that the values they are placing on many properties are from two to three times as high as the values now found on the roll. Dwellings that are on the roll for from \$500 to \$1,000 are being raised to from \$1,000 to \$2,000, and in some cases more. The representatives of the tax commission are making a thorough examination of every dwelling and business block in the city, and are interviewing property owners. Their final figures will be close to actual cash value on all properties. It has been announced by representatives of the commission that there will be a general review of the tax rolls of Ishpeming, Negaunee and all of the townships in the western end of the county in August or September, prior to the county board meeting in October. It is not expected that the Ishpeming board of review will be called together to consider valuations at that time, but the assessor will be on hand to give his opinion as to the actual cash value of properties. Individual property owners will also be permitted to enter protests if they feel that their valuations are too high.

### NEXT CONVENTION AT SOO.

Finnish Lutherans Will Meet there in June, 1914.

At the closing session of the Finnish Lutheran convention, in Ishpeming last week, it was decided to hold the next annual convention of the church in Sault Ste. Marie in June, 1914. The last of the delegates to the Ishpeming convention left for their homes Tuesday evening. Members of the board of directors of the Finnish College at Hancock and the Finnish book concern and auditors for both the college and the book concern were elected at the final meeting. The officers are: Secretary of the consistory—Rev. F. J. Kava, Negaunee; President of the Finnish College—J. W. Elline, Duluth, three years; Mrs. Alma Haapanen, Ironwood, three years; and Isaac Wargelin, Hancock, two years. New directors of Finnish Book concern—J. H. Jansberg, Hancock, two years; O. H. Larson, Calumet, three years; Werner Nikander, Hancock, three years; Matt Kivi, South Range, one year; Rev. A. Bantalahti, Ishpeming, one year; and William Johnson Hancock one year. Treasurer of the consistory—Isaac Wargelin, Hancock. Auditors of Finnish college—M. Kivi, South Range; J. Beldo, Negaunee; and Matt Kandelin, Ishpeming.

### FIVE NEW DWELLINGS.

A. H. Swanson has completed concrete block foundations for five new dwellings to be erected by Louis Erickson & Son for Carl Lehman, North Second street; William Robbins, North Second; James Tobin, North Lake; Joseph H. Gill, North Pine, and A. Hanson, Rock street. Mr. Swanson has taken a contract for the construction of a concrete business block for Sam Koka, Negaunee.

Sun Bros' show will exhibit on the grounds near Union Park on Saturday, July 19. The Sun Bros. brought their show to this section six years ago, playing Ishpeming and other cities in the upper peninsula. The show does not give a street parade.

W. THURTELL, THE OPTOMETRIST, is again in Ishpeming at Nelson House. Eyes thoroughly and scientifically tested and glasses fitted, all work guaranteed. Telephone for private calls. 6-17-1f.

### AN ADVENTURE IN BAGDAD.

This time the fair Scheherezade had a real adventure to relate. It happened as usual, upon one of those tours of the bazars of Bagdad which supply that lady with her favorite pastime. She was accompanied by Zuleika, favorite wife of the grand vizier. They shopped, and shopped, and shopped. Between shops they sometimes walked and sometimes rode in trolley cars. "When we got off the car the last time," said Scheherezade, as she sank into a seat beside one of those little tea tables provided for the tired business woman, "I found I'd left my parasol, and I tried to make the conductor stop, but, of course, he wouldn't. And just then a big automobile came by with two young men in it without hats, and they saw me waving at the car. One of them smiled and called out, 'Do you want to catch that trolley?' and I said, 'Yes,' and they said, 'Jump in and we'll overtake it for you.' So I jumped in and they threw on high speed and we dashed off after the car, leaving Zuleika gasping in the middle of the street because I'd gone off with two perfectly strange men. "It took some time to catch the car because the traffic policeman held us up at a crossing, but at last we did overtake it and ran up alongside, and the perfectly strange young men just held up the car like highwaymen and made the conductor give me my parasol. They were awfully nice boys, really, and it was no end of a lark—and at last we got back to where we'd left Zuleika. "There she was, staring up the street the way we'd gone and looking scared to death. She didn't see us till we got

right up on her and I jumped out beside her and was thanking the young men, and they were saying the pleasure was theirs. I said, 'Not at all,' and they drove off looking back just once to nod and smile at us. But Zuleika caught me by the arm and said, 'How could you?' "It seems she thought I had been kidnapped, and just after I had been whisked away another motor car with some more perfectly strange young men in it had stopped beside her and they asked if she wouldn't get in and try to catch her friend. She said 'no' very haughtily, and they laughed and went on. Then she had waited, and waited, and was just about to telephone to her husband to telephone to the caliph that it had been carried off by the Black Hand to be held for ransom or worse." The fair Scheherezade ceased for very lack of breath. Then she patted her parasol. "Anyhow I got it back," she said, "and her lot is full and Zuleika's a 'traid cat anyway.'"—New York Evening Post.

### DEEM BRYAN FOE TO MERIT SYSTEM

Early Appointments in the Diplomatic Ranks Oust Men Who Have Worked Up.

Washington, June 18.—Friends of the merit system as applied to the American diplomatic service see strong indications of the intent of Secretary Bryan to break down that system in their scrutiny of the changes made up to date in the personnel of the service. During the last two Republican administrations the practice of choosing for ministers men who had served apprenticeship in the lower grades of the service was rapidly increased. There are now twenty men in the diplomatic service of the rank of ambassador or minister who rose to their present rank from the lower grades. With the exception of some of the European posts, during the Taft administration it was practically a settled policy to choose men from within the service by promotion for the heads of missions. President Wilson has made comparatively few appointments to the diplomatic service. Leaving out of consideration those who hold the rank of ambassador, the appointments already made indicate that the men who rose to the grade of minister by the merit system are to be ousted with the same abandon as the admittedly political appointees. Four of these men, among the most capable public servants in the diplomatic service, have already been dropped. These are James T. Dabois, until recently minister to Colombia; George T. Wetzel, of St. Louis, minister to Nicaragua; Arthur M. Beaupre, minister to Cuba, and Lewis Einstein, minister to Costa Rica. Each of these men reached the grade of minister by serving first in the lower grades of the service. They have been or are to be displaced by men chosen from outside the consular or diplomatic service. Mr. Dabois spent twenty-five years in the consular and diplomatic services. He was first, in 1877, commercial agent at Mexico City, and later served as consul at Calleo, Peru, and at Leipzig. Re-entering the consular service in 1897, he was made consul general at St. Gall, Switzerland, where it is a matter of record that he saved the United States treasury more than \$1,000,000 in revenue by detecting undervaluations of goods for export to this country. He served at the state department from 1901 to 1909, when he was made consul general at Singapore, where he was appointed minister to Colombia. In Colombia he did much to alleviate the hostility to Americans, engendered by the Panama incident.

Career of Wetzel. Mr. Wetzel was appointed in 1907, after examination, to be secretary of the legation at Nicaragua. He served subsequently as diplomatic adviser to Admiral Kinkaid, who commanded the American expedition to Nicaragua; second secretary of the embassy at the City of Mexico, and later was detailed for special duty in that capital during the Madero revolution. Then he became assistant chief of the Latin-American division of the state department, and minister to Nicaragua in 1911.

Mr. Beaupre began in 1897 as secretary of legation and consul general at Guatemala. He served in a similar capacity at Bogota; next as minister to Colombia; minister to Argentina, minister to The Netherlands and minister to Cuba, where he now is awaiting the arrival of his successor. Mr. Einstein was appointed first in 1903 to be third secretary at Paris, serving successively at the embassies at London, Constantinople and the legation at Peking. He went to Costa Rica in 1911. In the last six or eight years young men have been induced to prepare themselves for the examinations for appointment to the lower grades of the diplomatic service on the ground that henceforth the policy of the state department would be to make appointments to the grade of minister from among those who had begun at the bottom and worked up through the merit system. It is now feared that the breaking

### SWITZERLAND PLANS WAR ON DISEASES

Parliament Revises Laws to Reduce Nation's Death Rate—Aims Blow at Phthisis.

Berne, June 18.—The energetic measures taken by local and cantonal organizations throughout Switzerland of late years to combat dangerous diseases, and, above all, tuberculosis, have resulted in both houses of parliament agreeing to revise article 69 of the Swiss Constitution, so as to empower the confederation or government to legislate not merely in regard to the prevention of all dangerous and widely-spread diseases of men and animals. In accordance with Swiss law, however, every revision of the constitution must be submitted to referendum. The revision of the constitution agreed to by a large majority. The majority would have been much greater but for the large number of peasants and country-folk who, on principle, always vote against everything and pride themselves on doing so. The necessity for national legislative measures, uniform throughout Switzerland, to deal with consumption is shown by the statistics published by the Swiss Central Committee for the Prevention of Tuberculosis. According to the committee, Switzerland takes a "disgraceful place" in the list of countries publishing statistics of mortality from consumption, and this despite her pure air and relatively high altitude. From 1906 to 1910 twenty-four persons per 10,000 inhabitants died of tuberculosis in Switzerland, 15 per cent. of the total number of deaths. This figure is exceeded only in the case of Austria (32 per 10,000), Bavaria, Ireland (24.9), Norway and Russia. The figures for England and Wales are given as 15.7 per 10,000, and for Belgium as 13.1—the lowest of all.

Even allowing for the consumptives of foreign birth who come to Switzerland, often only to die, the rate of mortality from tuberculosis is far too high. It is estimated that now that article 69 of the constitution has been revised, about 1,000 deaths will be avoided every year, deaths of able-bodied persons between the age of fifteen and sixty. One of the first measures which the Swiss government will probably take to combat tuberculosis will be to condemn a certain number of houses and to legislate against jerrybuilding.

GUARANTEED ECZEMA REMEDY.

The constant itching, burning, redness, rash and disagreeable effects of eczema, tetter, salt rheum, itchy piles and irritating skin eruptions can be readily cured and the skin made clear and smooth with Dr. Hobson's Eczema Ointment. Mr. J. C. Eveland, of Bath, Ill., says: "I had eczema twenty-five years and had tried everything. All failed. When I found Dr. Hobson's Eczema Ointment I found a cure." This ointment is the formula of a physician and has been in use for years—not an experiment. That is why we can guarantee it. Price 50¢. Pfeiffer Chemical Co., Philadelphia and St. Louis. The Stafford Drug Co.

#### Highway Contract Awarded.

A contract for building the first section of four miles of the Gogebic county trunk road east of Watersmeet was awarded to A. D. Meltae, of Palatka, Iron county, at a meeting of the road commissioners, the price being \$12,320. The other bidders were William Weston, of Verona, \$13,232, and J. E. McNicholas & Co., of Marquette, \$13,660. The time for finishing the contract is November first, next.

#### Commercial Club Wants Law Enforced.

There was a good attendance at the recent monthly meeting of the directors of the Commercial club of Ironwood. It was decided to memorialize the council, asking it to enforce Section 6301 of the Compiled Laws of 1897, providing a fine of \$25 for any railway company obstructing street crossings for a longer period than five minutes at any one time. The transportation committee was instructed to reopen correspondence with the Chicago & Northwestern Railway company relative to the long-promised

### Freight Station and Rearrangement of Train Yards.

It was decided to admit clergymen as honorary members without charge. Robert A. Douglas and J. C. Thomas were appointed to arrange a meeting with officials of the Duluth, South Shore & Atlantic railway relative to the extension of its lines through the Gogebic range towns. Manager Wilcox of the Telephone company reported the situation relative to the rebuilding of the lines and the removal of poles from Suffolk, McLeod and Aurora streets, stating that several carloads of material had been received and construction crews will soon start the work.

#### Judge Shepherd a Sick Man.

Owing to the continued poor health of Judge Shepherd, that jurist is to take a long rest, in the hopes of recuperating his strength. County Clerk Rapin of Mackinac county has been advised by Judge Feau of Newberry that court matters at St. Ignace will be taken care of by him and he will be there to preside over regular terms of court. Judges Sharpe and Mayne will take care of the business in the other counties comprising the circuit.

#### Menominee College Students.

Menominee is represented among the graduating classes of various universities and colleges this year. Leslie Waite son of Judge Waite, has the distinction of being the only one to wear a cap and gown at the commencement exercises at the University of Michigan. Mr. Waite is to be graduated from the engineering department. Arthur Madden, a member of the graduating class in the literary department, will not receive his diploma until the next semester, as he was ill several weeks during his college course. Miss Olive Trudell, daughter of Attorney Fabian Trudell, was among the graduates of Cassar college last week. The Menominee young woman completing a four-year course at the famous college at Poughkeepsie, N. Y. Miss Harriet Simonsky completes a course in domestic science at Milwaukee. Downer college this week, and Miss Madge Lowrey is a graduate from a similar course at the Stout school, Menominee, Wis. Miss Edna Sawyer, daughter of R. J. Sawyer, completed a four-year course in domestic science at Lewis institute in Chicago last week. Miss Cecelia Nolin completed a course at the Oshkosh Normal. Among the other Menominee young people who have attended outside schools during the past year and who have either arrived home or are expected the coming week are Milton Gregory, Howard Walton, Charles Erdlitz, Harold Collett and Robert Novacek, University of Michigan; the Misses Wilda and Ruth Sawyer and Will Carpenter, University of Wisconsin; Catherine Mariner, Northwestern University; Helen Hicks, Wellesley college; Irvin Daniell, Dartmouth college, Hanover, N. H.; Fred Murphy, Marquette University, Milwaukee; Johanna McNeilly and Miss

### Dorothy Lehman, Ypsilanti Normal.

Catherine Holmes, Lillian and Margaret Gleason and Erna Dittmore, Milwaukee Normal; Clara Frank, Camille Sieman and Lena Larson, Ferris Institute, Big Rapids, Mich.; Eugene Parent, Willard Rappley, Gaston Grignon and Elmer Nelson, University of Illinois (Champaign, Ill.); Marion Robinson, Gertrude Prescott and Elizabeth Jackson, Stout school, Menominee, Mich.; Edith La-Billois, St. Joseph's academy, Green Bay, Wis.; Margaret Brissette, St. Agnes academy, Fond du Lac; Stanley Wachowick, Orchard Lake seminary, and Frank Siefert, Josephinum seminary, Columbus, O.

#### Locates on Canadian Shore.

J. A. McGuire, who was superintendent for the Ford River Lumber company for some years previous to the closing of that company's operations at Ford River, Delta county, has gone to Point of Mines, Ont., to take the management of a lumber and mill owned by himself and J. R. Andrews of Escanaba. Mr. McGuire will have his office at Point of Mines, but expects to move his family to the Soo. Point of Mines is on the Lake Superior shore about sixty miles from the Soo.

#### Old Court House in New Garb.

The old court house at Eagle River now presents a much different appearance from what it has for a great many years, says the Keweenaw Miner. A new roof has been put on the building and a deep veranda has been built across the front of the building. The whole structure has been painted. The old and dangerous staircase has been modeled. A landing built about half way up does away with the narrow winding steps which had been a menace to people when the building was crowded.

#### Oil on the Streets.

The street committee of the Ironwood council is considering the use of crude oil on the macadam streets in the residence sections of the city. A small piece of the county road between Ironwood and Bessemer was oiled a short time ago, and the committee is awaiting the outcome of this trial. It is the opinion that all is the proper thing for macadam streets. Not only will it smooth the surface and act as an excellent binder, preventing the wearing away of the street, it is said, but it will keep down all dust even more effectually than will sprinkling.

#### Best Men Wanted for Office.

The commission which is to draft a new charter for Escanaba has perfected its organization, comments the Escanaba Journal. The charter is still to be drafted, and after it is drafted it will remain to be approved by the electors of the city. No one, not even, excepting the commissioners, know how many elective officers will be provided for in the charter, and yet the jobs are already spoken of several times over. There probably will be three or five commissioners to elect, and to date a dozen or more men have laid, or are laying, wires for commissionships, and we have not heard one name mentioned yet that has lack of it a man big enough for the job.

#### CONVENTION OPENS TODAY.

The upper peninsula convention of the United Family societies opens in Negaunee today. Delegates began arriving last evening, and in all about three hundred are expected. They will represent nearly every Italian lodge in the northern part of the state. Elaborate preparations have been made for the entertainment of the visitors, who will be here until Sunday night.

#### NOTICE.

The Board of Education of School District No. 1 of the city of Negaunee will receive sealed bids for the erection of a manual training school building, and in the office of said architect at 22 North Clark street, Chicago, up to and including the twenty-seventh day of June, nineteen hundred and thirteen. All bids submitted must be in the hands of the secretary of the board, R. G. Jackson, not later than three o'clock p. m. of said date and will be opened at eight o'clock p. m. of the same date by the Board of Education, which reserves the right to reject any or all bids.

#### A MOST WONDERFUL CURE.

Joseph D. Underhill, of Doland, S. Dakota, says:—I have received great benefit from your White Wine of Tar Syrup. I had a deep seated cough and the doctors gave up all hopes of my recovery and pronounced it consumption. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I took 1-2 bottles and am entirely cured. Such medicine I can recommend to those who are afflicted as I was.

## Negaunee Department

### FORMER RESIDENT ANSWERS SUMMONS

**Veteran Employee of Northwestern, Who Began Work Here, Dead at Escanaba.**

David Rees, a veteran engineer of the Chicago & Northwestern, who did his first work for the company in Negaunee, having given up his position as stationary engineer at the mines to enter the railroad service, died Tuesday night at his home in Escanaba. For some time after entering the employ of the Northwestern company, Mr. Rees was engaged as a fireman on the Ishpeming yards. Some years later he ran a switch engine here. He is remembered by all of the old-time citizens of the city, and he was well-known to the railroad men.

Of his passing the Escanaba Press yesterday said: "David Rees, veteran engineer and one of Escanaba's most highly respected citizens, passed away early last night at his home at 416 South Elmwood street. Mr. Rees had not enjoyed good health for the past six months, but only for the last few days he had been confined to his bed. On Sunday he suffered from a stroke of apoplexy and from the effects of which his weakened system could not rally. Shortly after 7 o'clock last night, surrounded by the members of his family, he passed peacefully away."

"Probably no man has ever come to the city of Escanaba who so thoroughly enjoyed the respect of all who knew him than did Mr. Rees. Of a quiet, companionable disposition, he made friends and held them. His one great regret in life was to speak ill of no one and to that principle he adhered to the end."

"Mr. Rees was born Oct. 15, 1843, at Aberystwyth, Wales, left his native home and came to Escanaba in 1869. He was engaged as watchman on the single ore dock that was constructed here at that time and also for a time carried the mail between the trains that arrived from Negaunee to the postoffice and delivered outgoing mail for the south to boats going through this part of Green Bay. He remained in Escanaba continuously for eight years and then returned to Wales, where he was married. He remained in Wales for three years and then returned to America with his family, locating at first at Negaunee. This he was employed at first as a stationary engineer, but after a few months entered the employ of the Northwestern road and remained continuously in the employ of that company up to the time of his retirement from active service this spring. He came with his family to Escanaba to remain permanently in 1880 and in 1882 became a locomotive engineer for the Northwestern road. He remained continuously in the same position for over twenty years, being relieved on the company's pension list in February of this year."

"Mr. Rees is survived by his wife and two daughters—Mrs. H. W. Long of this city and Mrs. O. C. Curtis of Phelps, Wis., and who has been in this city for the past few weeks on account of the serious condition of her father. In addition to his immediate family, Mr. Rees is survived by two nephews, David T. Rees of Iron Mountain and Frank Rees of Oshkosh."

"He was a member of the Escanaba lodge of Masons and of the Brotherhood of Locomotive Engineers. For many years he had served as an elder in the First Presbyterian church and throughout his residence here had been a prominent worker in that church. "Funeral services will be conducted over the body at the First Presbyterian church at 2 o'clock Friday afternoon, under the auspices of the Escanaba lodge of Masons and with the Rev. P. B. Ferris officiating. Interment will be at Lakeview."

### PLEADED GUILTY.

**Four Negaunee Men Assaulted Batiste Jourdain Monday Evening.**

Oscar Ollila, Leander Neimi, Jacob Alu and Jacob Selkaneemi, who were arrested Monday evening on the charge of assaulting Batiste Jourdain, an Italian, with intent to do great bodily harm, were released from custody Tuesday afternoon upon pleading guilty to the charge and paying their fines and costs. "When the men were arraigned Tuesday morning in Judge Votaw's court, they pleaded not guilty and were remanded to the city jail, pending further investigation by the police. They were again brought before the judge later and changed their plea to guilty."

The assault on Jourdain occurred near the yards of the Consolidated Fuel & Lumber company Monday night. He was driving down the hill towards the tracks of the Chicago & Northwestern railway, when one of his assailants threw a beer bottle at him, striking him in the head. He got out of the rig and went towards the four men, who attacked him and beat him over the head.

### CONVENTION OPENS TODAY.

The upper peninsula convention of the United Family societies, to be held at the Fair grounds at Marquette on Wednesday day, June 24, a special train will leave Ishpeming at 8:30 o'clock and Negaunee at 8:45 o'clock, reaching Marquette at 9:20 a. m. A fare of fifty cents will be charged for the round trip.

A force of men is engaged in tearing up the block on Iron street between Silver and Gold streets. The two blocks between Cyr and Gold streets have already been torn up and the surface material removed. It is being used by the street car company in filling about the company's tracks at Cleveland park. The macadamizing of the street will soon be started.

### A WORKER APPRECIATES THIS

Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidneys and bladder incapacitated me for all work. About eight months ago I began using Foley's Kidney Pills, and they have done what other medicines failed to do, and now I am feeling fine. I recommend Foley's Kidney Pills." For sale by All Druggists.

### INTEREST TAKEN IN BOARD'S WORK

**Taxpayers Are Now Comparing the Valuations Placed on Different Properties.**

Taxpayers have shown great interest in the results of the nine days' sessions of the board of review. Many have protested against the high assessments on their property. The board has been consulted by the assurance of a low rate, which will make the taxes probably not much higher than they were last year. Since the board closed its sessions, the taxpayers have been comparing notes, and many comments on its work are heard. Many assessments have been doubled and tripled. But few persons appeared before the board at the public sessions Monday and Tuesday to make complaints.

The three Negaunee banks were assessed as follows: First National, \$137 00; Negaunee National, 78 00; Negaunee State, 38 00. The only reduction in assessment of a Negaunee mine was that of the Lillie, which has now been practically abandoned. The shaft is full of water and it is probable that the mill not be worked for some time to come. The assessment was \$33,000.

The assessments on several of the prominent residences and business blocks, not included in the list published yesterday, are:

Negaunee Greenhouses	\$11,900
Quinn's block	9,500
Thos. Pallow's residence	10,000
San. Mitchell's residence	17,000
A. Maitland's residence	18,000
M. C. Quinn's residence	9,000
Os. H. Winter's residence	8,500
Dr. R. E. Drake's residence	11,800
Ceo Meilleur's residence	10,000
Mrs. S. B. Klein's residence	6,100
Jas. Pickands & Co.	7,500
Ind. Fuel & Lumber Co.	8,000

### LOCAL LAÇONICS.

C. G. Tellefsen, of Saginaw, is a Negaunee business visitor for a few days.

J. L. Hogan, Robert C. Lowe and Percy G. Teeple, of Marquette, were business visitors in the city Tuesday.

Mrs. R. T. T. Hicks, who has been visiting her parents in Mt. Pleasant, Mich., has returned to her home here.

Uniforms have been received for the Maas mine baseball team. They were ordered through J. E. O'Donoghue.

Yesterday was payday for the Breitung Hematite and Mary Charlotte mines. The other mining companies will also pay this week.

Mrs. Catherine McDonald and daughter, Anna, left yesterday morning for Detroit, where they will visit with friends for about two weeks.

Stowe's Uncle Tom's Cabin company last evening presented its show at the grounds near the Chicago & Northwestern Railway company's tracks.

John Larson, bookkeeper at the Negaunee office of James Pickands & Co., has returned from Champion, where he spent a vacation of two weeks.

Judge Irving Argall was called to Crystal Falls last evening to serve as a witness in a case to be tried during the present term of circuit court in Iron county.

A. H. Swanson, of Ishpeming, has been awarded the contract for the erection of the two-story concrete block on Iron street on the site occupied by Loggins & Kangas' bakery.

Rev. L. W. Gullstrom, of Orion, N. Y., will arrive in Negaunee today to visit with his son, Lawrence Gullstrom, who is staying with his grandparents, Mr. and Mrs. Charles Thoren.

Ceo Meilleur, vice president of the Negaunee National bank, who was injured late last week at his auto garage, is recovering rapidly from his injuries and will be able to be out in a few days.

A surprise party was tendered to Charles Larson of Park street, Tuesday evening. About fifty guests were present, all spending an enjoyable evening. The occasion was his birthday anniversary.

The work of repairing and rebuilding the gas plant of the Marquette County Gas & Electric company is about completed. The brick walls of the structure have been reconstructed and a new roof has been provided.

Frank Stagnone has returned from Milwaukee, where he went to consult with Dr. Schneider concerning his eyesight. He visited three other eye specialists in that city, but received little encouragement. He will make another trip there in a few weeks.

Mrs. Will Yates and Mrs. T. C. Yates left yesterday morning on one of the steamers of the Anchor line for Duluth, where the former is to reside permanently. Mrs. T. C. Yates will visit there for about two weeks. They were joined at Houghton by Will Yates.

## STATEMENT

# The Negaunee National Bank

NEGAUNEE, MICH.

at close of business, June 4th, 1913.

## POSTAL SAVINGS BANKS POPULAR

Few States Make Better Showing Than Michigan In the Amount of Deposits.

Washington, June 18.—There are few states which manifest more interest in the postal savings banks run by Uncle Sam in connection with the postoffices throughout the country, and, in comparison with their population, resources, etc., there are fewer still which make a better showing on the proper side of the cash book than the Wolverine state. For those substantial reasons, if for no others, a cursory glance over the operations of the postal savings system in Michigan will be of interest.

From the initial establishment on Jan. 3, 1911, of one depository office in each state and territory to the close of the fiscal year, six months later, the system was largely experimental.

The first depository office established in Michigan was at Houghton, and at the close of the fiscal year, June 30, 1911, the system had been extended to ten offices of the presidential grade. During the year ending June 30, 1912, the depositories were increased to 394, including eight branches and stations.

Shows Splendid Increase. During this same period the deposits increased from \$13,414 to \$625,302, the number of depositors from 198 to 6,890, and the average principal per depositor from \$68 to \$91.

Up to March 31, 1913, the latest date for which these figures are available, the total amount deposited was \$2,109,196, and the amount withdrawn \$922,996, leaving \$1,186,170 to the credit of depositors.

On May 31, 1913, there were 498 offices with 513 depositories (including branches and stations) in operation and of these 498 offices, 313 were of presidential grade and 185 fourth-class. It is estimated that the amount on deposit, on this date, was \$1,160,000. The funds were deposited in 261 banks, of which 85 were national banks, 98 state banks, and 78 savings banks. The \$1,160,000 is exclusive of \$84,500, which is the sum withdrawn by depositors for the purpose of buying bonds.

Of the \$1,160,000 on deposit May 31, 1913, \$700,528, or 60.4 per cent., was on deposit in the ten offices having \$10,000 or more on deposit; \$739,548, or 63.8 per cent., in the fifteen offices having \$10,000 or over; and \$902,561, or 77.8 per cent., in the thirty-six offices having \$5,000 or over on deposit.

Offices Showing Greatest Deposits. The ten offices having deposits amounting to \$15,000 or over with the amounts in each are as follows:

Detroit	\$306,352
Troy	100,000
Grand Rapids	36,681
Glessner	33,339
Niles	28,913
Norway	23,258
Lansing	23,443
Albion	21,868
Muskegon	19,738
Ishpeming	15,790

ULCERS AND SKIN TROUBLES. If you are suffering with any old, runny or fever sore, ulcers, boils, eczema or other skin troubles, get a box of Bucklen's Arnica Salve and you will get relief promptly. Mrs. Bruce Jones, of Birmingham, Ala., suffered from an ugly ulcer for nine months and Bucklen's Arnica Salve cured her in two weeks. Will help you. Only 25c. Recommended by The Stafford Drug Co.

**The Man Who Put the E's in FEET.**  
Look for This Trade-Mark Picture on the Label when buying ALLEN'S FOOT-EASE  
The Antiseptic Powder for Tetter, Itch, Scald, Ring, Sock, etc. where. Sample FREE. Address, ALLEN S. OLIMIST, Le Roy, N. Y.

**Minutes Mean Dollars IN TREATING ANIMALS.**  
Doubtless you know the danger of delay in treatment of all other diseases. You also realize that wrongly applied remedies are often worse than no treatment at all. In other words, not to diagnose a case accurately may prove fatal. Every owner should be able to recognize an ailment and give correct treatment at the first symptoms. Premise action is the great secret of treating horses.  
Minutes mean dollars.  
Of course proper treatment is always necessary. This is just how Hemphrey's 92 page Veterinary Manual will prove so valuable to you. It is by F. Hemphrey, M. D., V. M., and teaches how to diagnose and give proper treatment.  
This book will save you hundreds of dollars and save you needless expense. It will be sent absolutely free on request to any farmer in order to introduce Hemphrey's Veterinary Remedies. Remember, it is absolutely free. You do not have to order any remedies to secure the book. Address, Hemphrey's Homeopathic Medicine Company, 124 William Street, New York City. This is a splendid opportunity to obtain a veterinary treatise that you should have in your library. As a reference work you will find it invaluable. To have it free of charge will be worth many dollars, whereas it will cost you but a post card by writing for it now.

# CLASS OF '13 NOW IN HISTORY

### Senior Students Who Were Graduated This Spring from the Marquette High School Listen to a Scholarly Discourse on "Socializing an Individual."

### Professor W. D. MacClintock's Address Was Couched in Clear, Simple Language, Yet It Was Highly Illuminating—The Exercises Were Largely Attended.

The Marquette High school class of 1913, consisting of fifty students who have been graduated from the six different courses, received diplomas last evening and passed from within the boundaries of schoolboy and schoolgirl life into the broad field of life's general activities. In the transition the young men and women listened to a scholarly commencement address by Professor W. D. MacClintock, of the department of English literature, University of Chicago, in which the speaker pointed out to them their social duties and the places they will occupy in the social scheme of the world. Selections from the high school opera, "The Chimes of Normandy," were sung, a prayer was given by Rev. Walter H. Smith and the program was concluded with a benediction by Rev. Platt T. Amstutz.

#### Second Largest in History.

The class this year is the second largest in the history of the school. It comprised twenty young men and thirty-one young women. Thirty-two of the number were graduated from the English course. Six were graduated from the industrial course, which means they have completed four years of special work in the manual training or domestic science departments. Six members completed the Latin course, among whose number were Hannah E. Cummings, the winner of first honors and valedictorian of the class, and James J. Beckman, the recipient of second honors and who delivered the class oration. Four of the class completed the commercial course. Three specialized in science. Among the latter is Ernest K. Hill, son of Attorney W. S. Hill.

Mr. Hill's work is especially noteworthy. He completed his studies with a grade of ninety-five and in three years' time. This he accomplished under the most adverse circumstances, illness in early life having deprived him of the faculty of hearing. Overcoming this great drawback by mastering the art of lip-reading, the young man applied himself with great fervor to the work of the department of science, with a result that his diploma was awarded him on a standing that is above that of the average of the class.

But one member of the class was graduated from the modern language course. She is Miss Edna Smeberg, whose work in German and French won her a high standing.

#### Commencement Address.

In his commencement address last evening, Professor MacClintock held the attention of every person in the assemblage that filled the opera house. His hearers followed every word intently. Professor MacClintock said he "was happy to have a part in this bright occasion, one in which all are young, all handsome and all happy. A commencement occasion is one in which a human world and its institutions come to flower. For many years the community has been giving its young people its most precious gifts, meditating to them the best it can afford; for years these young people have been quickly and for the most part happily developing their powers and ideals as members of society. Now we meet to celebrate their maturity and endeavors.

"Socializing a human soul is the world's oldest community problem, taking an individual from his natural selfishness and making him a vital member of the whole body, one whose life affects all and affects them for good. Our schools even at their best are yet only half social. We do not really know how to develop the mind to its full capacity, to advise every child what he can best do to serve society. Yet how change for the better is clear; our schools are closer to the community life, are centers of social training, are wholesome and practical as never before.

"The first evidence of being really a member of a vital society is the eagerness to bring to society a return for all the favors the individual has received. This doing something worth while has most often been put as a duty, a social service, even a sacrifice. Perhaps it can be better placed before the young as good mental and moral health, as the best way of perfecting themselves. They must see that all healthy organisms—engines, plants, the bodies and the minds—must give out energy, work, product, and are ruined if they only receive. It is not only for the young to receive, to live themselves; but the time comes when good health requires that they enthusiastically begin to give out in kind what they have taken in. It is utterly unsocial to keep on living on the community instead of for it.

#### Idleness the Most Unsocial Thing.

"The first principle results immediately in a happy acceptance of the law that to be social each of us must work, must put forth strenuous personal effort at something the community needs, and must respect labor in others, and the more disagreeable the labor the more must it be respected. The most unsocial thing is not personal sin but idleness. This means that the social person recognizes that all in human good depends on labor and principally physical labor. To work oneself means that we realize what all the things we receive have cost in human toil. The school and home systems together should see to it that every individual of whatever social grade can expertly cook, clothe, shelter, think for and amuse himself. This knowing how to work and respecting labor would especially connect in your people's minds their pleasure with the cost of these to the community and we should have a way of testing the value of pleasure. It would advance social good if the community could furnish the necessities of life but each of us were to labor for our pleasure.

## FRONT STREET LIKELY BE IMPROVED

### Commission Is Considering Laying Asphalt Macadam Between Washington and Baraga

While no formal decision to that effect has yet been reached, the members of the park, cemetery and street commission have about made up their minds to rebuild Front street between Washington and Baraga avenue, this season with asphalted macadam. Members of the commission have informally discussed the plan of laying a concrete pavement, but they have practically decided that it is advisable to use a material that has already been tested here with excellent results. In every instance in which asphalted macadam has been laid the results have been good. The east side of Front street, between Washington and Bluff streets, was one of the first pieces of street treated with this material, and although it has been three years since the material was laid it is in practically as good condition as the day the work was finished, and it has not required any repairs. As this block is on a side hill, where the traffic is about as heavy as it is anywhere in the city, the test has been an exacting one, and fully warrants the commission in using the material in three blocks of Front street that now requires attention. The west side of the block between Washington and Front, on which asphalted macadam was laid the following year, is also in good condition.

It is believed that in the long run this material will give as good results as a concrete pavement, and the first cost will be considerably less. "Much has been learned about laying asphalted macadam," Mr. Sank, the president of the commission said yesterday, "and we can expect much better results from the material than we have heretofore secured. The manufacturers of the asphalt recommend the pouring method that we have used heretofore, saying that it gives excellent results, and we will probably employ it. They have offered to send an expert to supervise any work that we have to do and we will probably place the work on Front street, at least under his direction."

The construction of an asphalted macadam highway is simple in the extreme. A foundation of coarse rock is laid and rolled. Then the asphalt is poured over the rock, so as to get an even distribution. The surface is then covered with fine crushed rock and the street is again rolled. The asphalt makes a perfect binder. The street is impervious to water and possesses remarkable wearing qualities. Furthermore, it is easy to repair and keep clean. When the work is carefully done, it has practically all the advantages of a first class pavement. The manufacturers of the asphalt recommend that streets that have been built with their material be resurfaced after a few years. This can be done by placing on their surface a thin coating of the asphalt, covering it with fine rock and then rolling it. This makes good, at a low cost, all the wear on the old streets. It is possible that the Marquette commission will do some of this work this season.

There will be general pleasure that Front street is to be permanently repaired the present season as it has been in bad condition for two or three years past. The old board macadam has been worn away so that both the street car tracks and the cross walks project several inches above the surface of the street, making it rough for traffic. As the lighting system of the street is now modern, if it is provided with an asphalted macadam dressing it will have the appearance of a thoroughly modern thoroughfare.

#### WILL BUILD THREE STORIES.

Upper Floors of Jopling Building Will be Unfinished Until Leased.

Morgan W. Jopling has decided to carry out the original plans for his building under the Hager block and the Marquette Opera House block by erecting a three story structure. The first floor tenants will be the Woolworth company, of New York, who will occupy a five and ten-cent store, and Asire & Palmer, who will have an automobile salesroom in the west store. The front of the building is to be of colonial design, a departure from the usual architecture of business structures in the upper part of the city. The first two stories will be faced with pressed brick. The mansard roof will drop to take in the front of the third story, and dormer windows will be used. The sills will be of colonial design, and the upper sash on both floors will carry small panes of glass. The sloping front of the third story will be faced with slate, and a heavy railing will surmount the cornice over the brick portion of the wall. The second and third floors will not be finished until they are leased. No beams for the third floor will be put in, so that in case the upper stories are used as a hall they can be adopted for this purpose without any remodeling. An option has already been taken on the vacant space in the building.

#### TO THE FISHERMEN.

The "South Shore" early morning Express train of Sundays stops at Rock River, Sand River, Deerton, Onota, Gordon River, An Train, Velmore and Creighton. The night express of Sundays will stop at same places to pick you up. Special low excursion fares. A golden opportunity for capturing the funny tribe. 6-7-8-31.

#### NOTICE TO CONTRACTORS.

Sealed proposals will be received by the Board of Trustees of the Newberry State Hospital, Newberry, Mich., for the building of a cottage for women. Proposals to be in the hands of Dr. E. H. Campbell, secretary of the board, on or before 4 P. M. of Saturday, June 28, 1913. Plans, specifications and instructions will be on file after June 14, 1913, at the following places: Newberry State Hospital, Newberry, Mich.; The American Contractor, Chicago, Ill.; The offices of the architects, in Marquette and Sault Ste. Marie, Mich., and in Milwaukee, Wis. The right to reject any or all bids is reserved.

#### CHARLTON & KUENZLI AND R. DEMMEL, ARCHITECTS.

#### SOO CANAL PASSAGES.

Sault Ste. Marie, Mich., June 18.—[Special.]—The following upbound vessels have passed the canal the last twenty-four hours: Octarona, Augustus, 8 o'clock last night; Branford, Saronic, 8:30; Sherwin, 9:30; Newona, 10; Shaughnessy, midnight; Gratswick, 12:30 o'clock this morning; Henlock, Fleetwood, Moravia, 1; Mackinac, 1:30; Major, 3; Spokane, 4:30; Fisher, 5:30; England, 6:30; Marigold, 7; Dave Mills, Anderson, 8; Nettleton, 8:30; Kewatigan, Peter White, Neptune, 11:30; Corrigan, noon; Joseph Wood Rowan and oil barges, 1:30 o'clock this afternoon; Philip Mich., Reiss, 2:30; Caldera, Malletton, 4:30; Chas. Hutchinson, 6; Matthews, unusual thing is not personal sin but idleness. This means that the social person recognizes that all in human good depends on labor and principally physical labor. To work oneself means that we realize what all the things we receive have cost in human toil. The school and home systems together should see to it that every individual of whatever social grade can expertly cook, clothe, shelter, think for and amuse himself. This knowing how to work and respecting labor would especially connect in your people's minds their pleasure with the cost of these to the community and we should have a way of testing the value of pleasure. It would advance social good if the community could furnish the necessities of life but each of us were to labor for our pleasure.

#### VAUDEVILLE-MOTION PICTURES.

##### Alvorado's Goats.

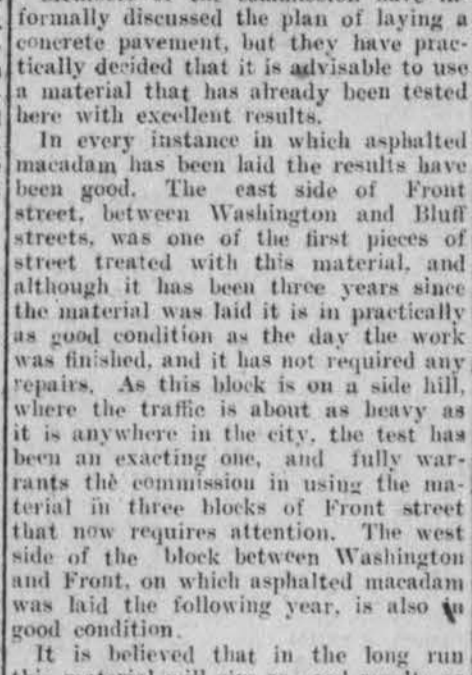

A novel attraction is booked for Thursday, Friday and Saturday evenings of this week at the Marquette Opera House. The bill is to be Alvorado's trained goats. These are six of the animals and they are said to perform some interesting "stunts" and to show remarkable intelligence.

The two new leading patterns of 1847 Roger Bros. Silversware for the table at Schoch & Hallams. Ask to see them. We meet all. Mail order competition.
