

PRESIDENT IS ASKED TO OUST MR. McREYNOLDS

Special Agent Herrington of the Department of Justice Joins U. S. Attorney McNab in Attack Upon the Attorney General—He Demands His Official Head.

Washington's Action in Holding Up the White Slavery Case Involving Son of Commissioner Caminetti Finds Echo in Congress—Republicans Want Quiz.

Washington, June 23.—Attorney General McReynolds will make a full report to President Wilson, at the president's request, on the causes that moved him to direct postponements of the Diggs-Caminetti white slave cases and the trials of two directors of the Western Fuel company, the basis of the resignation of United States Attorney John L. McNab, of San Francisco, and his sensational charges against the head of the department of justice.

One of the day's most remarkable developments in the unusual episode was the receipt by the president of a telegram from Clayton Herrington, special agent of the department of justice, in charge of federal bureau of investigation at San Francisco, demanding the removal of office of Attorney General McReynolds, his official superior. Officials tonight declared the question of summary action in Herrington's case would be taken up by the attorney general.

While no action has yet been taken on the McNab resignation, White House officials let it be known that the president was looking for a successor. They stated that the character of the new district attorney would soon show whether there could be any manipulation of these cases by the department of justice through political influences, as charged by District Attorney McNab.

Republicans Want Investigation.

The episode found an echo in the halls of congress, where Representative Kuhn, Republican of California, and Hines, Progressive, of Illinois, introduced in the house two resolutions, one calling for the official papers in the case and the other for an investigation by the judiciary committee. Representative Mann, the Republican leader, earlier issued this statement:

"The Republicans will call on the attorney general, through a house resolution, for a statement of all the facts in his possession as to the Caminetti case under the Mann white slave act. Mr. Caminetti, the father, has recently been appointed commissioner general of immigration, because of his prominence in Democratic politics, and not for any known efficiency. Mr. Caminetti, the son, is under indictment for violation of the Mann act. The only way the son can be acquitted is by tampering with the case.

"The influence of the new commissioner general of immigration, and his political friends already had effected the present administration in this case. If President Wilson believes in the Mann act and does his duty, he will appoint a new commissioner general of immigration, on the grounds that the incumbent has used both his political and official influence to prevent his son from being brought to a speedy trial under the Mann act for one of the most horrible of all offenses, the ruination of a young girl. Has the president the nerve to do this? I do not know."

Interest here in the incident centers largely around the Caminetti-Diggs case, for the postponement of which Secretary Wilson of the department of labor yesterday took responsibility.

Fuel Case Explained. Assistant Attorney General Harr tonight assumed full responsibility of the order to Attorney McNab to postpone the trial of Robert Bruce and Sydney V. Smith, directors of the Western Fuel company, on charges of customs coal frauds.

"The trial of the entire Western Fuel case was not held in the city of Chicago, Mr. Harr, 'but only the trials of Bruce and Smith, who were indicted with three other directors of the company. Bruce and Smith were only directors, while the other three defendants were officials as well as directors."

"Attorney Pringle, for the company, asked that the indictment of Bruce and Smith be dismissed, on the ground of no evidence to connect them with the alleged fraud. I carefully studied the evidence in the case submitted by United States Attorney McNab and reached the conclusion that Bruce and Smith, who seemed men of high character, probably were innocent, as apparently they were directors in the usual sense and were not familiar with the operations of the company."

In order to prevent a miscarriage of justice, I recommended, and Attorney General McReynolds acquiesced, that it would be better to try first the three directors who were officials, because this trial undoubtedly would develop the extent of the connection of Bruce and Smith with the alleged fraud."

GOVERNOR FERRIS ASKS MORE FEDERAL HELP IN AGRICULTURAL WORK.

Washington, June 23.—Governor Ferris of Michigan called today on Secretary Houston to tell him that his state desired more aid from the national government in co-operative farm work. The department of agriculture now has six representatives in Michigan who are helping the farmers in one branch or another of rural organization service. The secretary said he would give Michigan additional help as soon as possible.

ANTI-FREE SUGAR MEN OPEN FINAL BATTLE IN THE SENATORIAL CAUCUS.

Washington, June 23.—Democratic senators opposed to free sugar enlivened the senatorial caucus late today, beginning their final effort to change the schedule before the tariff bill reaches the senate for general debate. Western and Louisiana senators were primed to make a titanic fight against the provision approved and urged by President Wilson, which provides that sugar shall be free of duty in 1916.

Senators Shaforth of Colorado and Walsh of Montana took up the contest when the schedule was reached suddenly late in the afternoon. It had not been expected that the caucus would begin sugar before tomorrow, but the metal and wool schedules were rushed through without much discussion and before 5 o'clock the decks were clear for the first and most determined internee party tariff struggle.

This will be the acid test for free sugar. To the decision of the caucus the Democratic senators will be pledged and the prospect is that only Senators Thornton and Ransdell of Louisiana will be released from the binding resolution that is to be adopted. There is a possibility of one other senator asking for release.

BANKER DENOUNCES MONETARY MEASURE

Mr. Forgan Calls Administration's Currency Bill Chaotic and Alarming.

Chicago, June 23.—James B. Forgan, chairman of the Chicago Clearing House association and president of the First National bank of Chicago, today attacked the administration's currency reform bill. In a statement, Mr. Forgan declared that the proposed bill would ruin over the banks' affairs to politicians.

"I cannot conceive of such a chaotic measure being enacted into law by congress," he said. "If the national banks should have such a law forced upon them, they would give up their charters and become state institutions in self-defense."

Mr. Forgan's chief objection is to the federal reserve clause, in which the banks, he said, have no say in the appointment of the reserve board members.

"There is consternation among bankers over the bill," declared Mr. Forgan. "The measure as it first appeared was not alarming, but the changes that have since been made in it alter the complexion of the entire situation."

SIGNS BILL BECAUSE MONEY IS NEEDED

President Approves Sundry Measure, Though Condemning Its Anti-Trust Exemptions.

Washington, June 23.—President Wilson today signed the sundry civil appropriation bill, with a statement declaring that he would have vetoed it, if he could, the provision in it exempting labor unions and farmers' organizations from prosecution under a certain \$300,000 fund designated for the operation of the Sherman anti-trust law.

The president characterized the exemption as "unjustifiable in character and principle," but called attention to the fact that the department of justice possessed other funds with which to enforce the anti-trust law.

The urgent need of various government departments for funds appropriated by the bill influenced the president to speedy action on the measure. The bill carries 119,900,000 in appropriations, and was vetoed by Mr. Taft on March 4 because of the labor exemption clause. When the bill was reintroduced and passed by both houses in identical form by the present congress, this provision was the subject of sharp debates.

DOREMUS WINS WITH PRESIDENT'S BACKING

Democrats Choose Michigan Man as Chairman of the Congressional Campaign.

Washington, June 23.—The Democratic congressional committee tonight elected Representative Doremus, of Michigan, chairman, and agreed to co-operate with the Democratic national committee in the coming mid-presidential campaign.

Mr. Doremus is understood to have been President Wilson's choice. He was elected by a vote of thirty to twenty-four, after several months of lively skirmishing for the post, with Representatives Cline of Indiana, Sabath of Illinois, Lloyd of Missouri, the retiring chairman, and Sharp of Ohio prominently mentioned as possibilities.

The new chairman is serving his second term in congress. He was active in the Washington and Chicago headquarters of the congressional committee in the last campaign. He said tonight that it was too early to forecast any campaign program.

Harmony prevailed throughout tonight's proceedings.

BRAKEMAN GIVEN \$17,000 FOR THE LOSS OF AN ARM.

St. Paul, Minn., June 23.—Andrew Larson, a brakeman of Albert Lee, Minn., today was awarded a verdict of \$17,000 in district court here against the Illinois Central Railway company for the loss of an arm.

MR. MANN SEES THREAT IN PLEA OF MR. WILSON

Appealing to Congress in Person for Currency Legislation at Present Session, the President's Message Stirs the House Republican Leader to Criticism.

He Observes in It an Intimation Patronage Will Be Withheld Unless a Monetary Bill Be Promptly Passed—Also He Describes the Address as "Bunk"

Washington, June 23.—A fixed determination to have currency legislation passed at this session of congress was accepted by the members of the house and senate as President Wilson's text of a message which he personally presented today to congress assembled in joint session in the house chambers.

Both Democrats and Republicans saw in the carefully worded appeal of the president an earnest conviction that the money situation must be dealt with before congress adjourns.

Crowded galleries, cabinet officials and senators and representatives, Democrats and Republicans, sat in a tense silence as the president, with forcible earnestness, told them of the money situation.

"It is perfectly clear that it is our duty to supply the new banking and currency system the country needs, and that it will immediately need it more than ever."

"We must act now, at whatever sacrifice to ourselves. It is a duty which the circumstances forbid us to postpone. I should be recreant to my deepest convictions of public obligation did I not press it upon you with solemn and urgent insistence."

When the president had concluded there was a burst of applause.

The currency bill will go into both houses this week.

Mr. Mann Is Caustic.

The first authoritative statement on the president's message was critical, and came from Republican Leader Mann, of the house. Mr. Mann said the message was a fine example of classical English, but there is nothing more to it, unless it be considered as a threat that patronage will be withheld until a banking and currency bill is passed.

Representative Mann criticized the bill as "stolen from the Aldrich monetary report, with a few radical provisions taken from the Bryan platform mixed in." Mr. Mann's statement further said:

"He erred in saying that the committee of congress had consulted with him and prepared a bill. The committee of the house has had no bill before it and has had no meetings to consider a bill. Outside of dealing out a little bunk about a new freedom, there was nothing to the message. That was sophomoric."

"The president came before congress like a schoolmaster before fourth grade school children and told the members to be good, but he did not dare analyze what goodness in this case consists of."

"While congress has had no help

(Continued on Page Eight.)

The Weather

Washington, June 23.—The following is the weather bureau's forecast for Upper Michigan: Fair, Tuesday; Wednesday, increasing cloudiness, with probable showers; moderate south winds.

MARQUETTE POSTOFFICE IS RAISED TO THE FIRST CLASS; OTHERS ARE ELEVATED, TOO.

Washington, June 23.—Marquette, Mich., was today raised by the postoffice department from a second-class post office to the rank of first class. The same promotion was given Benton Harbor and St. Joseph, Mich., Iron River, Crystal Falls, Buchanan, Litchfield and Reed City, Mich., were raised from the third to the second class.

NO VETERANS TO GO HUNGRY AT GETTYSBURG; STATE INCREASES GRANT.

Harrisburg, Pa., June 23.—Provision was made in the general appropriation bill for the purpose of meeting the cost of transportation where veterans are entitled to it, together with quarters and subsistence at Gettysburg. This action makes the total Pennsylvania appropriation \$450,000.

FAIRBANKS SPEAKER AT HARMONY FEAST

"Forget and Forgive" the ex-Vice President's Theme at a Nebraska Banquet.

Omaha, Neb., June 23.—Counselor-at-law, former Vice President Charles W. Fairbanks delivered an address here tonight at a banquet tendered him by three hundred Republican leaders of this state. The gathering was fairly representative of both wings of the party in this state. "Forget and forgive" was advocated by the Indian.

"Now and then we have heard it said that the Republican party has ended its career; that it is a party of the past rather than of the future. Such prophecy is not new, we have heard it proclaimed in other days," said Mr. Fairbanks.

"Circumstances which unfortunately led to party division a year ago no longer exist. The Democratic party is in full power and it can be overturned by the united efforts of the great body of those who believe in the soundness and efficacy of Republican principles. Republicans, that is to say those who believe in the political doctrines of the Republican party, are largely in the majority throughout the country. I have no doubt whatever that the logic of events will bring them into a co-operation again. This much-to-be-desired result cannot be accomplished by coercion of any sort; it must come about naturally by the exercise of a spirit of tolerance and patience. Old scores should be forgotten. As President McKinley put it—it does not do to keep books in politics."

Mr. Fairbanks declared that the Republican party should stand firm for the integrity of the courts in the exercise of their judicial functions. "We do not believe," he said, "that the ends of justice will be subserved by undermining our judicial systems, directly or indirectly."

BOY TRIES TO EMULATE ACT OF THE ALLENS

Refused Release on Probation, an 18-Year-Old Bandit Attempts to "Shoot Up" the Criminal Court at Washington, D. C.—Bullets He Fires Go Wild.

Judge, Lawyers and Spectators Scramble for Places of Safety and Panic Prevails Until One Nervy Man Seizes Culprit and Chokes Him Into Submission.

Washington, June 23.—Judge, lawyers, policemen and spectators were sent scurrying to cover in the criminal court here today when Ray Stewart, aged eighteen, fired three wild shots in an attempt to "shoot up" the court.

At the first crack, Justice Wendall P. Stafford disappeared beneath his desk, and out in the courtroom there was a wild scramble for places of safety. Some sought refuge under tables, or behind heavy chairs, while others, frenzied by fear, leaped through windows and dropped to the ground some fifteen or twenty feet below.

Justice Stafford has just refused to release Stewart on probation, after conviction for attempted highway robbery. The boy whipped out a .32-calibre automatic pistol and fired three shots, two of which narrowly missed Assistant United States Attorney Samuel M. Hawken and Harvey Given and Policeman Moffitt. He was in the attitude of turning toward the judge as if to shoot, when a witness sprang upon him and choked him into insensibility.

In the confusion that followed many thought that Justice Stafford had been struck by a bullet, but the judge emerged from his haven without a scratch.

Close Call for Two.

Stewart had been convicted previously of holding up a negro in a Washington suburb last December. He had applied for probation as a first offender, and Justice Stafford had been hearing the testimony of witnesses for and against the applicant. Hawken, Given and Moffitt, who were conducting the prosecution, were seated near the boy, who had been at liberty on bail.

The judge had barely uttered the last words in passing sentence when the prisoner brought out his pistol and prepared to shoot. The first shot was aimed in the direction of the prosecutors, and just missed Hawken, who forthwith ducked under the table. The bullet lodged in the casement of a window and behind him. The next shot went toward the jury box and passed dangerously near Detective Sergeant Grant. It struck the wall near the window and rebounded, falling near Justice Stafford's desk. The third shot struck the ceiling.

As the youth wheeled and faced the desk, Edwin Blaine, a clerk in the department of agriculture, who had been a witness for the state, seized the boy by the throat and bore him to the floor.

By this time the court room had been nearly cleared of officials and spectators. Stewart lay unconscious for several

minutes after being disarmed. Later he was removed to the cell room beneath the courtroom, where he refused even to admit that he did the shooting.

Counsel for Stewart said the youth was unbalanced as the result of reading cheap literature. The hold-up for which the boy was about to be sentenced had many features of the dime novel variety. It was said, and added to it, was an attempt to imitate the Allens' murderous attack on the Hillsville (Va.) court.

Tonight the boy is in jail, awaiting trial on the charge of shooting with intent to kill.

LUNCHES AT ST. LOUIS STILL PRACTICALLY FREE, DESPITE NEW STATUTE.

St. Louis, Mo., June 23.—Investigations made by newspaper reporters today to determine to what extent the saloons of St. Louis were complying with the law, effective today, forbidding the serving of free lunches in the saloons, disclosed that many of the bars were serving lunches at nominal prices.

A saloon in the financial district had at the head of the lunch counter a cash box on which was the following sign: "Please pay for your lunch here." No prices were named and the customer was at liberty to pay as much or as little as he pleased. He then could go to the lunch counter and help himself. The cash box contained pennies, nickels and dimes.

BAN PUT ON CHEWING GUM MAKES CHICAGO CO-EDS POUT.

Chicago, June 23.—Co-eds of the University of Chicago today were inclined to pout at a new order which, in effect, places the ban on chewing gum. They said the gum was so much, but many of them regard the order as an unjust infringement of personal rights. There was a rumor that several "blind pigs" where the chicle product may be obtained were already in operation in corridors and dormitories. The order of the board of governors took the form of eliminating gum from articles sold at the university book store.

WEDDING FETE HAS A TRAGIC ENDING

Two Persons Dead and Three Dying the Result of Attack by Rejected Suitor.

Philadelphia, June 23.—A rejected suitor tonight shot and killed a young bride and a man who attempted to save her, while three others—one woman and two men—were probably fatally wounded. The tragedy took place at a wedding celebration in the northern part of the city. The dead were:

MRS. NICHOLAS BOZELLE, eighteen years old. YVETTE SPIRIT, Lansdowne, Pa. Solite Spirit of Morton, Del., was stabbed near the heart; an unidentified woman, about twenty-five years old, was shot through the breast, and Angelo Goezino, who is accused of doing the shooting, was slashed about the throat. None of the wounded is expected to recover.

Mrs. Bozelle was married five months ago upon her arrival here from Italy to the man who was her childhood sweetheart. But during his absence in this country she had been courted by Goezino, whose attentions she is said to have spurned. Goezino, it is said, followed her to America, but did not cause her any annoyance until tonight, when he appeared at the celebration.

As he entered the room where the merry-making was in progress, it is said, Goezino opened fire at the young bride. Spirit sprang to her assistance, and was stabbed in the heart. When Goezino had emptied his weapon, the crowd surged upon him and one slashed him through the neck with a knife.

ICE SOLD ONLY ON DOCTORS' CERTIFICATES

Due to Strike of Workers, Novel State of Affairs Prevails at Cincinnati, O.

Cincinnati, O., June 23.—The ice manufacturers of this city, after a protracted session, today were unable to agree on any method of dealing with their striking engineers, firemen, drivers and helpers. This city and others on Kentucky side of the river are now practically without ice as the union plants supply only hotels and cafes and the ice from other sources is inadequate for the demand and is being sold by the city only on physicians' certificates.

Mayor Hunt tonight received notice that many carloads of ice had been shipped from lake ports and are due to arrive tomorrow. The ice will be sent to fire halls for distribution. The union teamsters today served notice that they would refuse to handle ice from non-union plants. The strikers are remaining firm in their demands, and no immediate ending of the strike is in sight.

Garment Makers Vote to Quit.

Cincinnati, O., June 23.—By a unanimous vote late today, the garment workers of this city refused to consider the proposition made to them by the manufacturers and will go on strike tomorrow. The strike, it is estimated, will involve about eight thousand workers of all classes.

In deciding to go on strike the workers over-ruled the decision of their business manager, John Riessenberger, and also that of B. A. Langer, international secretary of the garment workers' union, who warned the workers that the strike was illegal and asked them to return to work.

ARTHUR PELKY ACQUITTED BY CALGARY JURY

Pugilist Held Responsible for the Death of Luther McCarty in Bout May 24 at the Burns Arena Is Found Not Guilty of the Charge of Manslaughter.

Only Purpose of the Prosecution, Says Crown Counsel, Was to Define a Prize Fight—This Accomplished in a Manner Held to Doom the Game in Canada.

Calgary, June 23.—Arthur Pelky, the pugilist, was tonight acquitted of a manslaughter charge which was placed against him as the result of the demise of Luther McCarty, who died in the first round of a scheduled ten-round bout at the Burns arena here May 24, last. It was charged by the crown that McCarty died from a blow administered by Pelky.

The jury was out forty-five minutes. The verdict was to the effect that the contest was a prize fight, but that Pelky was not guilty of manslaughter, inasmuch as the blow he struck was not intended to cause fatal results.

Friends Congratulate Defendant. A big demonstration followed the announcement of the verdict, and as Pelky stepped from the prisoners' box he was warmly congratulated.

The defense presented many medical experts to show that death was not caused by the blow to the jaw, which the prosecution contended caused a subluxation of the neck and subsequent death.

Pelky probably will continue his career in the prize ring. It is reported that he has been training earnestly during the last two weeks, and that a fight with "Gunboat" Smith probably will be arranged.

Tommy Burns, who is to answer a charge similar to that under which Pelky was tried, declared that he was glad that Pelky was freed, but that evidently from the verdict of the jury the knell of prize fighting had been sounded in Canada.

In this connection James Short, the king's counsel, said that the only desire in prosecuting had been to define a prize fight, and that if Pelky had been convicted he would have been released on suspended sentence.

Gate Receipts Missing

Springfield, Mo., June 23.—Probate Judge G. G. Lydy today refused to approve the inventory of the Luther McCarty estate, because it listed proceeds from the fatal fight in Calgary, Alta., as only \$25. He said he would begin an investigation into the matter.

The gate receipts at the fight were \$8,000. Of this McCarty was to get 50 per cent. The petition accompanying the inventory declared that William McCarty, the late pugilist's manager, had paid out of the fight proceeds the fare for Mrs. McCarty, himself and the pugilist's body to Piqua, O., burial expenses and \$100 for a monument.

WOMAN HOLDING CHILD ESCAPES LIGHTNING BOLT WHILE YOUNGESTER DIES.

St. Louis, June 23.—The two-week-old son of Mr. and Mrs. Charles Fisher of Alton, Ills., died today as the result of being struck by lightning while he sat on his grandmother's lap during an electrical storm Sunday evening. The grandmother was shocked but slightly.

COULON MEETS A TARTAR IN BOXER FRANKIE BURNS.

Kenosha, Wis., June 23.—Johnny Coulon, the bantamweight champion, felt his crown jostling here tonight in his ten-round bout with Frankie Burns, which proved the best fight among the little fellows ever held near Chicago. Coulon showed his old-time speed, but Burns' cleverness surprised the three thousand fight "fans." Burns got an even break, and many of the fight critics at the ringside insisted on giving him a shade over the champion.

QUOTATIONS OF PRODUCE

Chicago, June 23.—Butter, quiet; creamery extras, 27 1/2; 28 cents; firsts, 25 1/2 to 26; Pauleys, steady; turkey, 17 cents; fowls, 16; springs, 24. Eggs, cases included, 16 1/2; to 17 1/2 cents; firsts, 18 to 18 1/2; ordinary firsts, 17 1/2. Elgin, Ills., June 23.—Butter firm, at 27 1/2.

DROWNING THE FATE OF TWO AVIATORS

Rochester, N. Y., June 23.—Fred Gardner, an aviator, was drowned in Lake Kauka this afternoon, according to a dispatch from Bath, when his aeroplane fell about 150 feet. Gardner is said to have lived in Portland, Me. The aviator had been maneuvering in the sky for some time when, in making a turn, he banked too sharply, and the machine fell upside down into the river. Divers failed to recover the body.

Britisher Drops Into the Sea. London, June 23.—An aviator, Fairbairns, was drowned off Shooburys this evening. He had flown from Brooklands and was experimenting with a new type of machine, which he had proposed to trans-Atlantic flight in July. Fairbairns fell into the sea from a height of a thousand feet and sank before a friend, who was cruising in the vicinity, was able to rescue him. The machine was of 350 horsepower. It was completely enclosed and provided with a glass conning tower.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES: Per year, by mail, \$6.00 Per month, by carrier, .60

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

TUESDAY, JUNE 24, 1913.

THE SOUL OF TOSSY.

Under the heading "Tossy's Soul Is Grieved," Saturday Night proceeds to have a little fun at the expense of one of the standpat members of the Detroit charter commission.

Champions of the ward system from Charter Commissioner Tossy down (or up) will be grieved to learn that another terrific blow has fallen on representative government.

According to the Tossy philosophy of representative government Jersey City is just 96 per cent worse off by the adoption of the commission form of government.

THE TAFT ORDER STANDS.

According to the latest reports on the subject, the Taft order for the reorganization of the customs districts will become effective July 1, as originally planned, the proposal that it be postponed at least until January 1, 1914, having apparently failed for lack of sufficient backing.

The reasons why the Taft order should be carried out are much more weighty than the reasons why there should, at this late date, be any temporizing.

The postponement of the application of the order could mean but one thing, that the importunities of prospective collectors of customs and other spoils-men among the Democrats had become so insistent that the chiefs of the administration had found themselves unable to resist them, and against their better judgment, had decided for spoils politics and in opposition to the public interest.

That is what a postponement would mean, and that is the way the country would interpret it. No amount of pretty conversation could gloss over the obvious fact.

The maintenance of the present customs establishment through so many years has been due not to the business necessities of the service, but to the political necessities of the senators and the party organizations.

The public's business will, no doubt, be as effectively handled under the new dispensation as under the old. Some money will be saved. But what is more important the power of organization in politics will be, in a measure, decreased, and the cause of popular rule, through such instrumentalities as may be developed, will be correspondingly advanced.

Under the compact and highly efficient organization that only began to go to pot a few years ago, the flesh and blood had been squeezed out of the party system, and the rank and file of voters were reduced to miserable pawns whose part in the business of governing had become merely perfunctory.

Ontonagon county has organized a farm bureau. It is but one of several counties that has undertaken a follow-up movement in connection with the work of the Upper Peninsula Development association.

SOME ONE MUST CONTROL.

The bankers who object to the new currency bill because it lodges the ultimate authority with officers of the national government are moved by the same feeling that led railroad men to oppose giving to the Interstate Commerce commission power to fix interstate railroad rates.

But ultimate power to control must exist somewhere, and wherever lodged there is always possibility of its misuse. This is an unescapable condition. If the government should determine on a hands-off policy and turn over to the bankers the sole and exclusive control of currency and reserve matters those bankers, many believe would use the power selfishly and arbitrarily.

Ultimate authority must be lodged somewhere, and it has been sufficiently demonstrated during one hundred and twenty-five years of national history that the American people will not consent to any currency plan that does not lodge such authority in the hands of its agents.

The Mexican situation has rather slipped from sight again, for the time being. The revolutionists, however, are as valiantly revolutionary as at any time since the slaughter of the Maderos.

Andy Carnegie has found a surprising number of people who, despite the admonition of the old adage, insist on looking their gift horses in the mouth.

Mr. Wood spent a full thirty minutes with President Wilson last week. And what has Representative Beakes to say to that, pray?

Emigration, says Champ Clark, is costly to the United States. So is no small part of the immigration.

A LAUGH OR TWO

Dr. Edward Sanger, who has abandoned his post as assistant to a celebrated specialist because he dislikes the latter's methods, said in New York: "We should not announce cures unless they are real cures. Imagination plays too great a part in a patient's feelings. Imagination must always be reckoned with in medicine—sometimes as a friend, sometimes as a foe. I know a doctor who treated an old woman for typhoid, and on each visit he took her temperature by holding a thermometer under her tongue. One day when she had nearly recovered the doctor did not bother to take her temperature and he had hardly got a hundred yards from the house when her son called him back. "Mother is worse," said the man. "Come back at once."

The doctor returned. On his entry into the sickroom, the old woman looked up at him with angry and reproachful eyes. "Doctor," she said, "why didn't you give me the jigger under my tongue today? That always done me more good than all the rest of your trash."

William Jennings Bryan once visited Cornell University, and while being entertained at dinner by a prominent member of the legal fraternity he told the following story: "Once out in Nebraska I went to protect against a real estate assessment, and one of the things I had to do was to particularly complain was assessing a goat at \$25. I claimed that a goat was not real property in the legal sense of the word and should not be assessed. One of the assessors, a very pleasant old man, very obligingly said that I could go upstairs with him and together we would look over the rules and regulations and see what could be done. We worked over the rules and finally the old man asked: "Does your goat run loose on the road?" "Well, sometimes," said I, wondering what the penalty was for that dreadful offense. "Does he butt?" again queried the old man. "Well," I answered, "he butts."

"Well," said the old man, looking at me, "this rule says that all property running and abutting on the highway, I don't see that I can do anything for you. Good day, sir."—Omaha Bee.

Reference being made to a existing doubt at a recent banquet, former senator James Smith, of New Jersey, told of an incident in connection with a visit of a well known philanthropist to Georgia.

While walking through a small town on Sabbath, the senator said, the philanthropist paused in front of a colored church. He was talking to a man being invited to step in for a pew and remained the entire service.

Of course the appeals of the pastor were not lost on the kindly disposed visitor, and when the collection was taken he turned to the man on the plate. Then came a rather unexpected remark. "Bruddah White," impressively remarked the pastor, who had closely watched the passing of the plate, "what am de mount'ab de election dis mawnin'?" "Five dollars an' twenty-six cents," answered the deacon, placing the plate on the pulpit.

"Dat am berry good, bruddahs an' sistern," returned the pastor with a satisfied smile, "an' if de five-dollar bill giben de german from de north am a good one, we will begin to repair de roof ob de church immediately."—Philadelphia Telegraph.

"Five dollars an' twenty-six cents," answered the deacon, placing the plate on the pulpit.

"Dat am berry good, bruddahs an' sistern," returned the pastor with a satisfied smile, "an' if de five-dollar bill giben de german from de north am a good one, we will begin to repair de roof ob de church immediately."—Philadelphia Telegraph.

"Five dollars an' twenty-six cents," answered the deacon, placing the plate on the pulpit.

"Five dollars an' twenty-six cents," answered the deacon, placing the plate on the pulpit.

"Dat am berry good, bruddahs an' sistern," returned the pastor with a satisfied smile, "an' if de five-dollar bill giben de german from de north am a good one, we will begin to repair de roof ob de church immediately."—Philadelphia Telegraph.

LOWER STATE NOTES

LANSING—In an opinion given Representative David Montross, of Port Huron, Attorney General Fellows declared that the bill passed at the last session of the legislature which requires companies to pay their employees twice a month is constitutional.

LANSING—More boosts in valuations were announced by the state tax commission during the present session, that following a review, Jackson county has been raised \$15,000,000 and Saginaw increased to \$10,533,000, while Pontiac adopted the recommendations of the commission relative to valuations, thus avoiding a review. On request, Iosco county was reviewed and an increase of practically 100 per cent resulted. This week the commission is in Bay City.

MARSHALL—While ditchers were at work on a drain in Burlington township they discovered what is believed to be a tooth, five inches square, of a prehistoric animal known as a "glacial bill." The tooth is evidently a back tooth, as the top of it is corrugated. The dinosaur, which is supposed to have inhabited North America about 26,000 years ago, was a reptile, 75 feet long, with a head and neck 25 feet long. The tooth was found in what is known as a "glacial hill." The tooth is evidently a back tooth, as the top of it is corrugated. The dinosaur, which is supposed to have inhabited North America about 26,000 years ago, was a reptile, 75 feet long, with a head and neck 25 feet long. The tooth was found in what is known as a "glacial hill." The tooth is evidently a back tooth, as the top of it is corrugated. BIG DOUBLE BILL FOR 4TH OF JULY

Old-Fashioned Celebration and Carnival Shows the Attractions at Laurium.

The people of Laurium are assured of the greatest observance of the Fourth of July ever held in the village. With no celebration in any of the neighboring towns and with the prospect of many visitors, the businessmen have gotten together and pledged themselves for subscriptions that already amount to more than \$1,000.

A display of fireworks that will cost \$500 has been ordered. It will include a large number of set pieces. The fireworks will be set off at the east end of First street. The street decorations will consist of banners and arches, special electrical lighting effects, etc., while most of the business houses and many residences will be decorated by their owners.

Ernest Warren has been named as reader of the Declaration of Independence. The stand for these exercises will be built at the corner of Osceola and Fourth streets. A male chorus and double quartet will sing, under the direction of Harry E. King. Joseph Willis, president of the village, will be chairman. Further arrangements will be made this week.

The Patterson shows, which are billed to appear at the Laurium park during the week of the Fourth, have been doing a record business at Milwaukee. The trained animal show is probably the biggest feature. This is in reality a two-ringed circus, including performing elephants, lions, goats, dogs and ponies, as well as acrobatic acts, trapeze performances, tight and slack wire work and various other acts.

The Patterson shows, which are billed to appear at the Laurium park during the week of the Fourth, have been doing a record business at Milwaukee. The trained animal show is probably the biggest feature. This is in reality a two-ringed circus, including performing elephants, lions, goats, dogs and ponies, as well as acrobatic acts, trapeze performances, tight and slack wire work and various other acts.

"Norma," a musical comedy, given by thirty-five performers, is another of the best attractions. Others are "De Souf

BEFORE WAR" a plantation show, with real colored singers and dancers; "The Annex," showing strange and curious people and things from all parts of the world; "The Crystal Palace," an educational exhibition of the working of glass, showing a steam engine made entirely of glass and in actual operation; "The Mofordrome," a sensational exhibition of motorcycle riding in a saucer track seventy feet in diameter; "Jungle-land," a collection of one hundred strange wild animals; "Donavan's Division," something new in the moving picture world; "The Squeezes," "Penny Arcade," "Deep Sea Divers," "The Whistler," "The Carrotary," "The Ferris Wheel" and several free acts.

The company travels with a train of twenty-two 60-foot cars and will come in over the Copper Range railroad.

EPWORTH LEAGUE CAMP INSTITUTE

Lake Michigan Event Will Open Aug. 1 and Continue for a Week.

The Epworth League camp institute, under the auspices of the Epworth League of the Houghton district of the upper peninsula, M. E. churches, will open at Lake Michigan Aug. 1 and continue for a week. The camp will be under the direction of the Houghton county district cabinet, constituted as follows: President, Rev. Horace H. Mallinson; first vice president, Miss Elizabeth Carlson; second vice president, Thomas Hylslop; third vice president, Miss Dorothy Baubry; fourth vice president, Dr. C. B. Gates; recording secretary, P. B. Hatch; corresponding secretary, Fred Derrick; treasurer, Fred Vin; executive board, Rev. W. E. Merrill, Rev. C. M. Merrill and George Westerman.

The following is the daily schedule of the camp: 6:15 to 7:15 a. m.—The Morning Watch. 8:00 to 8:45 a. m.—Bible Study. Teaching of Christ. Epistle of Romans. Personal Evangelism. 9:00 to 9:45 a. m.—Mission Study. Christian Stewardship and Church Beneficence. 10:00 to 10:45—Christian Social Service. Temperance and Christian Citizenship. Young People's Religion. 11:00 to 11:45—Social activities. Training for Service. 11:50 to 12:30—Study of Religious Experience. 1:30 to 6:00 p. m.—Recreation. 7:00 p. m.—Evening Services. 8:30 p. m.—Around Camp Fire. Friday evening, Social—Dr. C. B. Gates. Saturday evening, Lecture—Rev. P. T. Amstutz, Marquette. Sunday, Morning Watch—7. 8. Preaching service, 10 to 11:30. Rev. E. Farrell, of Wisconsin. The Sunday School, 11:30 to 12:30—Professor C. W. Greene. League Devotional Meeting, 6:30 to 7:30—Rev. C. L. Adams. Preaching, 7:30—Rev. H. A. Field. Monday, Lecture—Rev. E. T. Farrell. Tuesday evening—Social evening with camp across the lake. Wednesday, Address, Pleasures and Law—Dr. Greene.

The Morning Watch—The Morning Watch is a notable feature of the spiritual life of the institute. These services will be both practical and inspirational. The topics will be related in sequence, and these morning periods can hardly fail to be cumulative in interest and power. Each member of the institute is expected to be present promptly at the opening of the service.

The Training Classes—Each morning from eight until past twelve the training classes will be in session. Usually several classes meet simultaneously. This is necessary on account of the many branches of work and desirable that our Epworthians may specialize thoroughly in the departments in which they serve. Each course of training is given one period each day for five successive days.

Personal Interviews—The members of the Institute faculty may be consulted in private interviews on any matters related to the work in their charge. No one should fail to have at least one such interview during the institute.

Recreations and What to Bring—Each afternoon will be given up to recreations. Games and sports that are wholesome and yet enjoyable will be the special order of the hour. The grounds allow a wide variety of pastimes, and they will be carefully planned and organized in advance that in number, character, and variety they may afford the liveliest interest and enjoyment for all. Each one should bring tennis rackets, balls, nets and other equipment for indoor or outdoor recreations of any kind; also blanket, small book and pencil, sheet, blanket, small pillow, soap, towel. During the hours of class work, study, or religious services, no recreative pastimes will be permitted.

All baggage should be checked to Michigan, Mich., marked Y. M. C. A. A charge of twenty-five cents, for transfer from station to dock and return for baggage will be required.

DEATH OF A HANCOCK GIRL

Miss Loretta LaFortune, daughter of Joseph LaFortune, of 807 Franklin street, Hancock, passed away Sunday afternoon. Her demise was unexpected. The funeral will be held tomorrow morning from St. Joseph's church, Rev. Father Glaser officiating. The remains will be laid to rest in the old Catholic cemetery. Miss LaFortune was fifteen years of age.

FRENCH AND FINNISH DAY.

June 24 an important day for these two nationalities.

Seldom does it happen that two countries have the same national holiday. Today is the exception to the rule. June 24 being midsummer day for the Finns, also the day on which the French-Canadians celebrate.

The French people of Houghton county will celebrate today at Calumet and the St. John Baptist societies and French Canadian-American Knights will take part in the festivities. Four special street cars will leave Houghton and Hancock this morning for Calumet and it is expected every car will be filled.

There will be no county celebration by the Finns, although the day will be observed by this people in some manner. The Finnish colony at Oskari has arranged for an outing at the celebration opening last evening at Oskari and continuing today on the shore of Lake Superior.

FOUND BROODING IN PARK.

Hancock Chief Takes Charge of Girl Whose Actions Are Strange.

Mary Kangas, giving her age as eighteen, was taken to the county jail Sunday by Chief Reutenbach of Hancock. The girl says her home is at Cliff mine and it is likely she will be returned to her parents if they can be found.

For several days the girl has been seen in Hancock, a major portion of the time in the city parks, always alone and being content to sit on a bench for several hours at a stretch. Her actions aroused attention and the matron of the juvenile detention building was advised, the matron in turn notifying C. B. Bentley, judge of the juvenile court.

This is the third arrest, if the latter might be construed as one, that Chief Reutenbach has made since assuming office. It is a record that bids fair to be a close second to that established by ex-Sheriff Byers, whom it has been said made but few arrests personally during his time in office. Chief Reutenbach professes to know the name, unless the violation be serious, feeling that the individual and the taxpayers are ahead in the long run.

NEW STATION FOR HANCOCK?

Rumor Afloat Is Decidedly Pleasing to People of the City.

Rumors were in circulation about Hancock yesterday that the South Shore road would erect a modern sandstone passenger station to replace the frame structure now known as Lake View depot. The rumor carries the additional statement that the station would be built on the west side of the tracks near the railroad crossing, the lot adjacent to the Eliola store.

Credence was given the report through reasons advanced by the station should be located at the particular point mentioned. It would avoid the necessity of backing into the station as has to be done at present. The grade is probably a little steeper than where the depot is now located, but the services of an extra engine to assist up the hill, a condition which now exists, this obstacle is overcome. The present passenger station, it was said, would be converted into a freight storage.

Nothing has been learned from the committee appointed recently at a mass meeting of the citizens to confer with the officials of the road. The committee waited upon the Hancock officers of the road and it was assured that a meeting with W. W. Walker, general manager, would be arranged. If the rumors prove true there will be general satisfaction, because the desire for a new station has been general for several years.

SUOMI TEAM WINS AGAIN.

The Suomi baseball team of Hancock continues its winning streak, this time adding the scalp of the Independent team by the score of 6 to 4. The victory did not come without a hard struggle, however, requiring ten innings to do the trick. When the ninth inning ended, the score stood a tie, 4 to 4. The Independents were blanked in their half, while the Suomi team scored two runs. The batteries were Wilmer and Nikkila, for the Suomi team, and Oulette and Gilbert for the Independents.

DOCTORS DID NOT HELP HER

But Lydia E. Pinkham's Vegetable Compound Restored Mrs. LeClear's Health—Her Own Statement.

Detroit, Mich.—"I am glad to discover a remedy that relieves me from my suffering and pains. For two years I suffered bearing down pains and got all run down. I was under a nervous strain and could not sleep at night. I went to doctors here in the city but they did not do me any good."

"Seeing Lydia E. Pinkham's Vegetable Compound advertised, I tried it. My health improved wonderfully and I am now quite well again. No woman suffering from female ills will regret it if she takes this medicine."—Mrs. JAMES G. LECLEAR, 336 Hunt St., Detroit, Mich.

ANOTHER CASE.

Philadelphia, Pa.—"Lydia E. Pinkham's Vegetable Compound is all you claim it to be. About two or three days before my periods I would get bad backaches, then pains in right and left sides, and my head would ache. I called the doctor and he said I had organic inflammation. I went to him for a while but did not get well so I took Lydia E. Pinkham's Vegetable Compound. After taking two bottles I was relieved and finally my troubles left me. I married and have two little girls. I have had no return of the old troubles."—Mrs. CHAS. BOELZ, 2650 S. Chadwick St., Phila., Pa.

BEWARE OF THE RED BOOK.

Association Is Compiling Names of Copper Country Deadbeats.

At the next meeting of the Portage Lake Businessmen's association, Secretary Davis expects to submit a report which will list the "deadbeats" in Houghton county. The secretary has been working on this task for several weeks, under instructions from the association. It is the intention to write to persons owing accounts of three years or more, advise them that unless they pay their bills their names will appear in the red book and give them a chance to settle if they desire. The arrangements made with the creditors will then decide whether the names shall be made public.

DR. A. C. LANE IS HONORED.

Former Michigan State Geologist Given Degree at Tufts.

At the commencement exercises at Tufts college, Medford, Mass., last Wednesday, Dr. Alfred C. Lane, formerly of Houghton, was given the honorary degree of doctor of science. He was one of four men so honored, the four including Rear Admiral Robert E. Peary, discoverer of the North pole.

Dr. Lane was a professor of geology at the Michigan College of Mines and later for a number of years was state geologist for Michigan, resigning that position to take the chair of geology and mineralogy at Tufts college, the institution that has just honored him.

CANCEL ORDER FOR LAUNCH.

Friends of Rev. Messrs. Crosby and Marvin Disappointed.

When it became known a few days ago that Rev. Mr. Crosby and District Superintendent Marvin of Hancock had placed an order with a Detroit firm for an 18-foot gasoline launch, friends of the gentlemen at once began working into the minds of the pair several unfavorable thoughts of the many fine rides they were to enjoy. Alas! The boat did not arrive. The firm wired that the launch had been shipped in the Tionesta, but the steamer came minus the launch.

Yesterday the retired gentlemen wired the company to cancel the order. Meanwhile their friends are casting furtive glances about, hoping to discover others who may contemplate purchasing a motor boat.

CLOSES WITH A BIG PICNIC.

Finland Temperance Convention at Mass City Well Attended.

The annual convention of the league of Finnish temperance societies of the copper country at Mass City came to a close Sunday with a big picnic. More than one thousand persons were present. The special train from copper country towns Sunday morning carried two hundred excursionists.

Following the election of officers halting to determine the place for the 1914 convention was taken up, Chassel winning. Reports from the secretary and treasurer showed the organization to be in a prosperous condition, the receipts during the last year more than balancing the expenditures. It is hoped by the executive committee to bring a number of prominent Finnish temperance workers to the district the coming fall and winter.

Officers of the league for the coming year are: President—John Hill, Dollar Bay. Vice President—Jacob Wainamaki, Mohawk. Secretary—Henry Mollanen, Hancock. Treasurer—Herman Perttila, Hancock. Directors—Minnie Perilla, Hancock; Herman Kasa, Calumet and Olga Kunnala, Hancock.

Delegates to Ely convention—Henry Mollanen and Ed Johnson. The Ely organization will be held July 22 and will be a joint meeting of the national organization and the Finnish temperance newspaper association.

LIGHT INFANTRY SHOOTING.

The Sunday practice shoots of the Houghton Light Infantry at Hurontown, under the direction of Lieutenant Sanders, are developing good shots. The shoot last Sunday was particularly satisfactory to the officers, particularly to Lieutenant Sanders, who made the best score of the day, beating Lieutenant Smith in two of the events and tying him for the total.

Private E. Eggleston is looked upon as one of the most promising shots in the company, though he ranks sixth in Sunday's score. He shot well up with the leaders at that, considering that he did the shooting for all the shooters all day and shot last on the string in wind conditions that none of the others had to contend with.

This shooting is being done in anticipation of the advent on July 25 and 26 of Captains Wilson of Flint and Patterson of the Soo, who will conduct a two-days school at the Hurontown range. It is also for the purpose of selecting a candidate for the Michigan National Guard team to shoot at Camp Perry, O., late in the summer. The name of this candidate must be sent to the state military board by July 10. The candidate will be an enlisted man, not necessarily the best shot of the company. He will be selected for general fitness, based on his attendance at drill, his proficiency in the general work of a soldier, as well as his shooting, the intention being to make the man an instructor in rifle practice.

ORGANIZE COMMERCIAL CLUB.

A commercial club or chamber of commerce for Houghton county will be organized at a meeting in Electric Park tomorrow night. The club is being organized at the suggestion of Colonel Mott, manager of the Upper Peninsula Development bureau. It will have four hundred members to begin with and ultimately, it is expected, one thousand.

MASONS TO GO TO MARQUETTE.

A large party of copper country Masons will leave this morning for Marquette to attend the meeting of the constituency and the Shrine meeting, later in the week. While it will be a large party it was not possible to obtain an official list.

No person need hesitate to take Foley Kidney Pills on the ground that they know not what is in them. Foley & Co. guarantee them to be a pure curative medicine, specially prepared for kidney and bladder ailments and irregularities. They do not contain habit forming drugs. Try them. For sale by All Druggists.

LOOK FORWARD TO CRUISE.

Members of Hancock Reserve Will Have Fine Ship for Trip.

Although the annual cruise of the Yantic and other training ships of the Great Lakes fleet is several weeks off, members of the First division, Second battalion, Michigan Naval brigade, of Hancock, are looking forward with much pleasure to the time when they do the cruise hold its pleasures, but the Hancock reserve will make the trip this year in almost a new ship, the Yantic now being in drydock at Sturgeon Bay. Several thousand dollars are being spent on improvements and the ship will probably be the most modern in the fleet. The Yantic will also take part in the Perry celebration.

The Hancock reserves will go to Escanaba by rail a day before the cruise starts there. The ship will return to Hancock at the close of the maneuvers.

HUMOROUS OPPORTUNITIES.

Chances for Laughter in Circuit Court Not Taken Advantage of.

The circuit court, whether it be in Houghton county or not, is no place for laughter. Here the blind goddess charges the atmosphere with an indefinable something that has a sedative effect on the risible nerves and quiesces and if the goddess does not have that effect Judge O'Brien and Sheriff Cruse sternly repress any attempt at levity. Counting is indeed a serious business, no matter what construction you may place upon the word.

But now and again there comes up something in the court that forces a smile to ripple over the faces of the jurymen and the auditors. Ever and anon even the judge unbends enough to smile that the bench has not atrophied his sense of humor. The judge smiled yesterday a case that might have occasioned some laughter. The fact that it did not, need make no difference. The scenario for a laugh was there.

It was the case of Israel Harris vs. Al Greenshield, a suit to recover \$30 paid on a cow and giving a note on due on the cow. Mr. Harris is a miner, living at Kearsarge, and Mr. Greenshield is a dealer in horses and cows in Laurium.

Mrs. Harris, wife of the plaintiff bought the cow from Mr. Greenshield, paying \$50 down and giving a note for the balance, \$15. Mr. Harris alleges that the cow had sustained an injury or had contracted some disease, making her unfit for milking. Mr. Batesman, in his opening statement as attorney for the plaintiff, did not see or know the cow or anything of the matter with her.

Mr. Harris returned the animal to the Greenshields stable, and when the seller refused to make his point of view, he claimed for a new cow or for the money and note. Mr. Harris brought suit.

In making his statement to the jury, before the opening of the examination of witnesses, a somewhat unusual proceeding, Mr. McCormack, for the defense, explained the case from his point of view. He explained that sometimes Mr. Greenshield went into southern Michigan or some other stock-raising district and bought "a cowload of cows" for sale at Calumet. Mr. McCormack revised this Spoonerism immediately by saying "a cowload of cows" and the jury did not notice the lapsus linguae. Had the jury noticed it the jury would have laughed and the dignified atmosphere of the court would have been lifted for a time.

Mr. McCormack explained that Harris had bought the cow in good faith and that Mr. Greenshield had sold it in good faith and that the defense pleaded under the doctrine of "caveat emptor," thus recalling to the jury a noted lawyer, of fiction, one Henry D. Feldman. The jury failed to notice this resemblance and again failed to smile.

The case occupied the attention of the court and jury all day.

HERMAN CASE GOES OVER.

The case of Lucas Herman vs. James J. Byers as sheriff of Houghton county, a ripens matter, was to have been tried yesterday, but was put over the term because of the unavoidable absence of material witnesses.

TO CLOSE FOR THE SEASON.

The final meeting for the season of Houghton chapter, No. 304, Order of the Eastern Star, will be held tonight. The chapter will suspend operations for the remainder of the summer.

Baking Powder Biscuits

Light as a Feather By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine

Baking Powder Biscuits made by this recipe are so far ahead of ordinary baking powder biscuits that, if once tried, you will never use any other recipe. Try it the next time you run short of bread. Save this recipe.

Three cups flour; 1/2 to 3/4 cup shortening; 3 level teaspoons salt; 1 cup Baking Powder; about 1 cup milk or water; 1 teaspoonful salt.

Sift three times, the flour, salt and baking powder. Work into the flour the shortening, using lard or butter for shortening. Then mix to a very soft dough with the milk. The more the biscuit enters the oven, the lighter it comes out. Never knead baking powder biscuits; press the dough into shape and roll lightly. Cut in small shapes and bake on a sheet or very shallow pan in a hot oven.

In placing biscuits in the pans place well apart, not allowing edges to touch. Small biscuits are better than large ones. Large biscuits do not have the proper amount of time to raise and bake.

Have you seen the new K. C. Cook's Biscuit? It is a new recipe that is so simple and successful every time. If you would like to see it, write to K. C. Cook, 2500 Broadway, New York City. You will gladly pay 50 cents for this valuable book. It is a complete guide to the art of baking biscuits. Write for your copy today. K. C. Cook's Biscuit Book, 2500 Broadway, New York City. Small cans do not have Cook's Biscuit certificates.

Gwinn Department

PREPARING FOR TRIP.

Gwinn Members of Naval Reserves Will Be Away During August.

The six Gwinn members of the Escanaba division of the Michigan Naval Brigade are making preparations for the annual cruise, the early part of August. The trip will include the centennial celebration of Perry's victory on Lake Erie. The Gwinn young men who are members of the division belong to the signal corps and have been attending regularly the meetings of the reserves in Escanaba. The work of the corps now consists of learning the Arivia and electric light systems, semaphore and wig-wag codes, and the use of alphabetical flags.

ELECTED CAPTAIN.

At a meeting of the Gwinn baseball association, Arthur Brandt was chosen captain of the club. He is also manager of the team. Mr. Brandt is at present in Cleveland, visiting his parents, and his position as captain will be taken by Ed Houghton until his return. The captaincy was formerly held by Chester F. Kuder, who is third baseman in the team.

LIGHTS OUT WEDNESDAY.

The power plant of the Cleveland-Cliffs Iron company was out of commission Wednesday evening last, following the severe electrical storm in the afternoon, and Gwinn was in darkness that evening. The shutting off of the power caused the stoppage of the pumps at the Stevenson mine. The water rose several feet and it was necessary to suspend work for a day.

GWINN BRIEFS.

Mrs. William Jory visited friends in Negaunee last Thursday.

Nyquist Bros. will install a new soda fountain tomorrow at their store.

G. Sherman Collins, of Munising, spent Saturday in Gwinn, on a business visit.

Miss Anna Oien, of Ishpeming, is visiting with Mrs. Agnar Bloomquist for several days.

A. U. Hammer visited friends in Ishpeming last Friday, returning to Gwinn Saturday.

Carl Fosberg, of Ishpeming, is here installing the plumbing in John Lehman's new residence.

Mrs. G. Weinhold spent Saturday and Sunday at Marquette, visiting with Mrs. C. E. Erickson.

Mrs. Bally, mother of Miss Sarah Bally, instructor in the Gwinn high school, is here for a few days' visit.

The Misses Trebilcock, who have been attending school in lower Michigan, have returned to their home in Gwinn.

E. Lindberg, of Ishpeming, was here Thursday last to attend the graduation exercises of the Gwinn high school.

Miss L. Gill, a teacher in the Princeton schools, returned to her home in Ishpeming last week, to spend the summer.

A. E. Larson, manager of the Gwinn Lumber company, went to his home in Negaunee Saturday to spend the weekend.

John Abraham, of New Swazey, is in New York city, on a several weeks' business trip.

Miss Bessie Lindberg, of Munising, is the guest of Miss Fannie Gray for several days.

Martin Sather, physical director of the Gwinn club, spent Saturday and Sunday in Ishpeming.

Caspar Wilson has taken the position at Quayle's store recently resigned by Peter Johnson.

Dr. and Mrs. G. G. Barnett, of Ishpeming, and their two sons, were visitors in Gwinn Saturday.

Mrs. J. P. Outhwaite, of Ishpeming, was the guest of Dr. and Mrs. C. M. Leonard last week.

Axel Lindquist, J. Ernell and O. Paulson have accepted positions as engineers at the Gwinn mine.

O. D. McClure, master mechanic of the Cleveland Cliffs Iron company, was down from Ishpeming last week.

A number of the friends of Miss E. Fogerberg gave a linen shower in her honor last Friday evening.

Oscar Nyquist, J. R. Raigart and William Hirwas drove to Marquette last Friday in Mr. Nyquist's car.

C. Trudgen has accepted a position at the Gwinn club, succeeding Richard Hirwas, who recently resigned.

ed by a large audience, principally the parents and friends of the members of the graduating class.

Miss Clara Wilson, of Little Lake, was the guest of friends at the Austin location during the latter part of the week.

P. Lindquist, who formerly served in the capacity of shift boss at the Stephenson mine, has been transferred to the Smith.

The Princeton, No. 2 mine was closed down yesterday so that the hoist, which broke down last week, could be permanently repaired.

Sven Krogdahl, of Ishpeming, who has been employed at Gwinn, has gone to Chicago, where he will enter the Success school of shorthand.

A large water main on Maple street burst last Wednesday, causing considerable inconvenience to the residents in that part of the town.

Dr. S. G. Main, of Ishpeming, stopped in Gwinn last week for a short visit with his brother, Dr. M. M. Main. He was on his way from Escanaba in his auto.

The blueberries in the plains near Sands are ripening fast and a large crop is predicted, despite the many frosts this spring, which it was said would injure the berries.

John Lehman's residence is nearing completion, a force of carpenters have been engaged on the work for the past several weeks. The plumbing is now being installed.

Announcements is made of the wedding tomorrow of Miss Beatrice M. Willis and Mr. G. Sundberg. The ceremony is to take place in the evening at the home of the bride's parents.

Miss Rose Lindberg, who has been attending the Northern State Normal at Marquette during the past year, has returned to her home in Gwinn, following the completion of her work there.

William Dabb has been promoted to the position of sample picker at the Stephenson mine. He succeeds his brother, J. Dabb, who was recently promoted to the position of shift boss.

Mr. and Mrs. George Kitto, of Dollar Bay, and daughter, Myrtice, are the guests of Mr. and Mrs. Richard Quayle. Miss Kitto was recently graduated from Lawrence college, Appleton, Wis.

Mr. and Mrs. Peter Johnson and Miss Amelia Aronson returned to Seattle, Wash., where they will reside permanently. Miss Aronson was graduated from the Gwinn high school.

Miss E. Hanson has returned to her home in Negaunee, following the close of the Princeton schools for the summer vacation. She will return when school opens during the first week in September.

Bert Bogetto, who is employed at the Gwinn branch of Winter & Snicek, is back on duty again, after having been laid up for the past week as the result of injuries received while on a fishing trip a week ago Sunday.

Mining News

NOTES OF MINING NEWS.

Mohawk is about to get the benefit of its big outlay on No. 6 shaft. Within six weeks the shaft will be contributing 800 tons of rock daily.

Wyandott's drifts from the bottom of the winze at 815 feet better to open rather bumpy ground, better than half of it commercial. The drifts have been extended about 250 feet.

Mass now has a force of 150 men, 100 less than at the time of the shutdown. Men are being added steadily, but it will be a long time before a full force can be obtained. Since the resumption of work there has been no hoisting at night, but the management hopes soon to procure enough trammers to work two shifts.

Calumet & Hecla has decided to make big increase in tonnage from the Osceola lode. To this end several shaft-houses are undergoing alterations to make it possible to handle much more rock. As soon as all the machinery is installed at No. 14 shaft four two-compartment shafts will be working on the Osceola lode. Shaft-houses Nos. 17 and 18 are being remodeled so that the rock crushers will handle 1,000 tons daily each, a 100 per cent increase.

There are over a dozen mining stocks selling for less than \$1 on the Boston Stock exchange, as follows: Boston & Corbin, Helvetia, National, New Aradian, Ojibway, South Utah, Victoria, Wyandott, Arnold, Ashbed, Bonanza, Guanoquato, Union Copper Land and Consolidated Meser, for which latter stock a bid of one cent was made yesterday. A year ago Boston & Corbin sold at about 8, New Aradian, Ojibway and Victoria around 5, and Wyandott 2 1/2.

WHEN YOU ARE THIRSTY

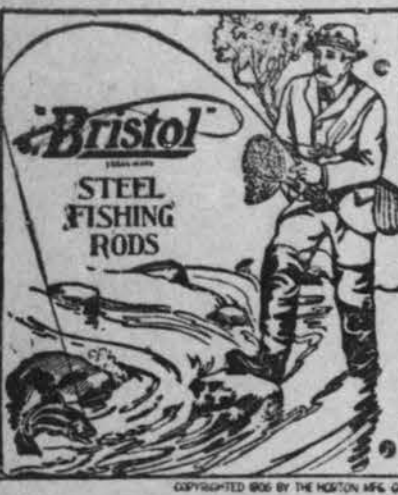

Call at NYQUIST BROS. for a refreshing drink.

We have the best insect powder that money will buy and charge \$1.00 a pound for it. There is cheaper powder and we have it for sale, but the best is not too good when the fly and mosquito season is at hand.

Then we have all sorts of powders, oils and washes for protecting horses, cattle and chickens as well as men.

City Brevities

Miss Ruth Ross, of Negaunee, spent Sunday visiting friends in Marquette. Miss F. Rowland, of Republic, was the guest of Marquette friends yesterday. O. Sorenson, of Runley, was among the visitors in the city yesterday. V. A. Rivett, of Munising, is in Marquette, visiting relatives. Joseph Kostelnik, of Ewen, is in Marquette, to spend several days. J. M. Keith was down from Ishpeming yesterday. Mrs. Bates G. Burt and daughter have returned from the Soo where they spent three weeks visiting Mrs. Burt's parents. Mrs. Walter Thompson and daughter, of Duluth, are visitors at the home of S. A. Houck, North Front street. Miss Rose van Linden, who is a teacher at Sands, has arrived home to spend her summer vacation. Neil van Horn, a teacher in the public schools of Munising, is home to spend his summer vacation. Bubbling drinking fountains have been placed at the prominent street corners in the downtown district. Mrs. George Robare, of Munising, submitted to an operation yesterday at St. Luke's hospital. Mrs. James Russell left yesterday morning for Fond du Lac, Wis., to attend the wedding of her niece, Miss Bess Dana and Peter Keoble, of Detroit. E. E. Scribner and wife, Dr. E. G. Robbins and wife and Mrs. Barbour, of Ishpeming, visited in Marquette Sunday evening. Mrs. William Bond, of Ironwood, is in Marquette to attend the Normal school commencement exercises. Her daughter, Miss Jessica Bond, is a member of the graduating class. Filmore Stolpe, who was graduated from the Marquette High school this spring, has gone to Ives Lake, where he has accepted a position at the Embury guard dairy. Schoch & Hallam have on display several thousand dollars' worth of Consistory and Shrine jewels. It is the largest assortment of its kind ever shown in the upper peninsula. Miss Florence Rublein, who teaches school in the copper country, arrived home Saturday on the steamer Octorara. She will spend her vacation in Marquette. C. L. Sensiba and wife, of Iron River, are in Marquette attending the Normal commencement exercises. Their daughter, Miss Maud Sensiba, will be graduated today. The Misses Hazel Bush and Irene Stolpe, who have been teaching school at Gladstone the last year, have arrived home to spend their summer vacations in this city. Miss Lather, of Reed City, Mich., and Miss Wells, of Manchester, Ia., stopped over in Marquette yesterday on their way home from Hancock, where they have been teaching school, to visit Miss Jennie Anderson, of this city. Miss Florence Garreau and Miss Laura Gabrey of Ishpeming are the guests of Marquette friends this week. Miss Gabrey is visiting at the home of Dolph Paris, Third street, and Miss Garreau is the guest of Miss Verge St. Onge. Miss Nellie A. Hogan and William H. Rohan will be married Wednesday morning at 8:30 o'clock at St. Peter's cathedral. Mgr. Pinten will officiate. Miss Hogan is the daughter of Mrs. Sarah Hogan, Genesee street. Miss Edith Williams arrived Saturday on the steamer Octorara from Houghton, where she has taught school for the last two years. She will spend the summer with her sister, Mrs. Sam Houck, North Front street. Sparks' Circus Today--One of the several events of today and that promises to be one of the most attractive and interesting is Sparks' circus. The show has been extensively advertised all through the county and is likely to attract large numbers of outside people. Two performances, one in the afternoon and one in the evening, will be given. The animal show and menagerie are features.

Two Wolf Bounties--John Fraker of Michigan township was paid state and county bounties amounting to \$54 yesterday at the office of the county clerk for two wolf pelts procured by him. The animals were killed near his home near the village of Michigan, and it is considered unusual that at this time of the year, when the animals are well fed and remain generally at great distances from the habitation of mankind, that they should have been shot.

Marquette Strawberries Ripe--Marquette strawberries have ripened. Three cuses raised by Otto Gantz at his farm in Chequamegon township have been received at Murray's grocery. These are the first and only Marquette strawberries on the market at present. Charles Krieg, storekeeper of the light and power commission, yesterday displayed a box of luscious strawberries raised in his outdoor garden in this city. These attracted much notice, as it is considered early for this variety of fruit to ripen in this country.

Ball a Success--The sixth annual dancing party given at Fraternity Hall last evening by the traffic girls of the Michigan State Telephone company's operating department was a great success. The young women played host to a party of two hundred guests. The ball was brilliantly decorated in blue and white, the company's colors. Crepe paper and electrical effects were used in a unique decorative scheme.

Caught Big Trout--M. K. Reynolds caught a three and a half pound trout last evening in the slack waters of Dead river, above the old Powder Mill bridge, while fishing from a canoe. The fish rose to a fly and on the first cast tore away the lure. He rose a second time, however, and hooked the fish. It was two or three sizes too large for the dip net, and it required from half an hour to forty-five minutes to land him. The trout was something of a puzzle to fishermen who saw it last evening. Its body color was dark brown, with bright red spots, and a suggestion of scales. Its head was unusually large. It was evidently not a true brook trout and it was not a rainbow. Last evening Mr. Reynolds had not succeeded in having the fish satisfactorily identified.

Death of Michael Reno. Michael Reno, aged ninety-five years, for the last forty-eight years a resident

of Marquette, passed away this morning at 1:50 o'clock at the home of his daughter, Mrs. Thomas Cook, Rock street. He is survived by three daughters--Mrs. John Munro, Mrs. Peter Boyer and Mrs. Cook--and by one son--Napoleon Reno, of Superior, Wis. The birthplace of the deceased was Egansville, Can. The funeral arrangements will be announced later.

REPORT IS FAVORABLE.
Water Board Receives Analysis of Sample Taken June 19.

William Johnston, secretary of the water board, yesterday received a report on an analysis of a sample of water taken from a centrally located water tap June 19, in which the state bacteriologist pronounces the water safe. "The bacteriological findings in this sample of water," writes Dr. Holm, "indicates the same to be entirely safe for drinking purposes." The report places the number of bacteria at tuberculin count at eighteen, and at incubating temperature nothing was apparent. In the lactose test for gas production no traces of contamination were found either in twenty-five cubic centimeter quantities or in one cubic centimeter. The sample had no acidity and no turbidity. The water was wholly free from colon bacilli.

CUSTOMS DISTRICTS WILL BE ABOLISHED

Is Said That There Will Be No Change in Proposed Plan for Reorganization.

While it was reported a few weeks ago that congress was likely to postpone the reorganization of the customs districts provided for by an executive order issued by President Taft in the closing days of his administration until January 1, 1914, it now appears that the terms of the Taft order will be carried out, and that the district of Superior, of which Marquette is the headquarters, will be wiped out the first of the coming month, along with about 100 other customs districts.

A Washington dispatch relates that the first step toward the sweeping reorganization was taken by Mr. McAdoo, the secretary of the treasury, Thursday, when he sent to the collectors of customs throughout the country detailed instructions to govern the collection of duties, under the new system, on all exports into the United States. "With the reduction of the number of customs districts from 162 to 49, the keynote of the new regulations," it is stated, "is a concentration of customs administration in the hands of the customs collectors at the headquarters of each district."

Under the new regulations collectors along the Canadian border who for years enjoyed perquisites from the sales of manifests and other customs blanks, no longer will receive the revenue from such sales, which, it is said, at some ports where the salary for the office has been comparatively small has made the aggregate income of the collectors from \$15,000 to \$20,000 annually. The office of collector of the district of Superior has been understood to be worth \$7,000 or \$8,000 a year.

Have Been In Doubt. Collector Byrns and other employees of the department in the district of Superior have been in considerable doubt the past few weeks whether or not the Taft order would be carried out, and they have found great difficulty securing definite information on the subject. Members of congress in Washington have professed inability to say just what would be done. There have been many conflicting reports.

Recently J. B. Whelan, collector of the district of Detroit, Judge Parker, special agent of the treasury department, and Mr. Byrns made an inspection of the various ports of the district of Superior on orders from the treasury department, but they were at the time unable to say what would be made of the information they were instructed to gather, although it had a bearing on the proposed reorganization. If the Taft order is carried out, Mr. Whelan will, after July 1, be the collector of the entire state of Michigan. His term has about two more years to run. The office will be the most important in Michigan in the disposal of the Democrats.

BUSY WITH ORGANIZATION WORK.

J. S. Emerson, of Muskegon, is canvassing the Progressives. J. S. Emerson, of Muskegon, who is in the upper peninsula in behalf of the Progressive state organization, has been in Marquette the past few days, and from here will go to other towns of the district. Mr. Emerson is conducting a canvass of men interested in the Progressive party to secure pledges sufficient in amount to defray the expense of the organization work planned for the next two years, and he is meeting with much success. The pledges already amount to more than it was estimated would be secured in the territory visited.

"I find the Progressives in a very receptive attitude," Mr. Emerson said yesterday, "fully willing to manifest their interest in the movement by generous subscriptions. It is the exception for the requests for pledges in behalf of the state organization to be refused, and there is no doubt that we will easily obtain the entire amount we estimate to be necessary for the two years' work. The pledges provide for quarterly payments over two years of the amounts promised."

"My visit is merely preliminary to the coming of Secretary Hoffman, who is in charge of the permanent Progressive headquarters, and who will shortly undertake the detailed organization of the counties of the state. He will stay in each county as long as he may be required to organize committees that will be representative of every ward and township. When his work is finished it is expected that the Progressives will have the state at least as well organized as any other party."

"Generally speaking, on my trip I have found the Progressives I have come in contact with firm in the conviction that the activities of the party must be carried on and liberally supported. Much progress is being made with placing the organization on a permanent basis."

BIJOU THEATRE

FREE Thursday, June 26 FREE

Three reels of beautiful pictures will be shown Thursday night, June 26th, entirely free of charge. Everybody invited to be guests of the management of the Bijou. We are showing three reels of pictures entirely free as an inducement for you to become acquainted with the class of pictures shown at the Bijou. Also to convince you that our pictures compare favorably with any shown in cities of this size. Remember, not one cent will be charged. Everyone invited, old as well as young. Special music.

All this week admission for matinees is 5c to all, in which 4 reels are shown.

Saturday afternoon six reels, including a two-reel Western feature will be shown for 5c to all. Come down and get acquainted. We will use you right.

MATINEE, DOORS OPEN 3 P. M. NIGHT, 7:30

Peverett, a former convict at the institution, and one of the most notorious men in the criminal annals of Michigan, died in the Ohio penitentiary at Columbus. Peverett was a member of the notorious Lake Shore gang of yegmen and thieves, and, with his pals, operated with much success for many months along the Indiana-Michigan line. He and other members of the gang were finally convicted of robbing a bank at Richland, Kalamazoo county, and Peverett was sent to Jackson prison. He made life miserable for the officers there, and was finally shipped off with a number of other so-called incorrigibles, to the Marquette prison. Some of the incorrigibles gave a good account of themselves, but not so "Whitely Black." He quickly earned and retained during his time there the reputation of being the meanest man to deal with in the institution. It is one time he mutilated his hand to escape

work. After getting free of the Michigan prisons, Peverett pursued his criminal career and it is not long ago that he was arrested in Chicago, having been a member of a criminal gang broken up by means of information given the officers by a woman. Peverett's criminal record was a long one, he having served terms in several prisons, and in every prison he attained the distinction of being one of the bad men.

MASONS!

DR. FISCHER WRITES FOR "PUBLIC HEALTH"

Copper Country Physician Who Lectured Here Speaks for Municipal Activity.

Dr. Arthur F. Fischer, B. S., M. D., chief of the Quincy Mining company's medical department, of Hancock, has written an article, the text of which is similar to that of an address he delivered at the Guild Hall in this city not many months ago. The paper is entitled "Municipal Control of Venereal Diseases" and is published in the June number of Public Health in connection with a report on the second meeting of the Michigan Health Officers' association.

The pamphlet Public Health is issued quarterly by the state department of health for the general dissemination of sanitary knowledge. In his article Dr. Fischer gives the same statistics that he presented in his lecture at the Guild Hall and discusses his subject bluntly, writing as he spoke here to Marquette men, young and old, without using any screen to hide his meaning or attempting to veil his ideas under a shawl of affected modesty.

"The gravity of the situation in regard to the prevalence and spread of venereal diseases is that which makes it so necessary for venereal diseases to come under municipal control," writes Dr. Fischer. "While municipal control, independent of the co-operation of the state, may work out well in large communities, I do not believe that it is the most efficient way of dealing with it in smaller communities. I believe thoroughly effective municipal control of disease can be accomplished only by having back of it a good state system of health administration.

"Michigan has a very capable board which, under the guidance of the world-renowned veteran of efficient sanitation, our own and beloved Doctor Vaughan, has accomplished wonders against the mountains of difficulties with which it has been hampered; no one could gainsay that had there been no mountain we might today be enjoying the benefits of what we are still striving for.

"The division of the state into sanitary districts, each in charge of an efficient director, is a step in the right direction. Then, again, a further subdivision might be suggested, at the head of which should be a health officer as we know him at present. Again, the state board of health, through its executive officer, the secretary, should be in full charge of all health matters with the power to act.

"This would take the entire question of health administration out of the hands of the social authorities and the orders of the department would be issued direct through its officers to the police for execution. Such orders, when issued regarding diseases, should be of equal concern to men and women, and this is of especial importance in dealing with venereal diseases. Both sexes must be treated alike in the administration of health laws.

"In mapping out a campaign of municipal control of venereal diseases, it will be necessary to clear the atmosphere of any clouds of ambiguity, so we can see clearly what we wish to do and outline exactly our standard in order to avoid the failures of the past. In other words, we must get far enough away from prudery so we can stand on a broad platform. Those that are fortunate enough to be innocent onlookers must remember that we are all a part of the vicious social and economic condition that in its ignorance allows such environment. It is of no purpose for us to wear a halo and set ourselves apart from these."

Dr. Fischer believes that the municipality ought to take up the educational factor in the control of venereal diseases. He believes the educational problem when taken up by the municipality should take on three phases:

A thorough study of the problem as a whole, and specifically as pertains to the condition which exists within its own limits. This should be done quietly so as to get at the normal condition of affairs without arousing suspicion.

Giving the citizens the benefit of such study in a series of lectures, exhibitions or printing of a pamphlet embodying such results as the study of the problem brought to light.

Gradually inaugurating or aiding movements that tend toward preventing these diseases. Some of the lines of work that might be attempted are here-with given:

Requiring enterprises that employ many people to have systematic examinations of employees.

Summary action against specializing in venereal diseases.

The suppression of suggestive literature and patent medicine advertisements.

The introduction of manual training and domestic science into our schools, something practical to occupy children's minds outside of their studies.

Pleasure facilities for all the public and especially the youth so that their spirit of romance may have legitimate vent.

Improving economic conditions so men may marry earlier and women will not find hunger and want a temptation bringer.

Strict supervision of maternity hospitals, night messenger service, and similar organizations.

Establishing and maintaining curfew.

Using every endeavor to have the state require physical examination as to candidates' fitness for marriage.

Through aid of the board of education a study of the question of venereal diseases should be taken up, as regards its prevalence and prevention among school children.

It has been suggested that the charter commission, while considering measures for the establishment of a municipal health department, should take cognizance of the facts presented in the article by Dr. Fischer.

Minutes Mean Dollars IN TREATING ANIMALS

Doublets you know the danger of delayed treatment of sore and other diseases. You also realize that wrongly applied remedies are often worse than no treatment at all. In other words, not to diagnose a disease accurately may prove fatal. Every owner should be able to recognize an ailment and give correct treatment at the first symptoms. Prompt action is the great secret of treating horses.

Minutes mean dollars. Of course proper treatment is always necessary. This is just how Humphreys' 300 page Veterinary Manual will prove so valuable to you. It is by V. Humphreys, M. D., V. S., and teaches how to diagnose and give proper treatment.

This book will save you hundreds of dollars and costs you nothing. It will be sent absolutely free on request to any farmer in order to introduce you to Humphreys' Veterinary Remedies. Remember, it is absolutely free. You do not have to order any remedies to secure the book. Address, Humphreys' Homeopathic Medicine Company, 138 William Street, New York City. This is a splendid opportunity to obtain a veterinary treatise that you should have in your library. As a reference work you will find it invaluable. To have it the time of need will be worth many dollars, whereas it will cost you but a post card by writing for it now.

GRAND OFFER

We are now offering to the housekeepers of Ishpeming and Negaunee a Gas Stove at \$8—installed complete ready for cooking.

This stove is exactly the same style that is being sold for \$16 to \$18, only the oven is 2 inches smaller—finish and equipment of this stove is exactly like our \$18 stove.

A family of 5 people can and are now cooking all their meals on these stoves at a cost of 8 cents per day.

To use these modern stoves brings the cost of preparing meals below what coal or wood would cost and saves dirt and worry.

Shall be glad to have you call and inspect our line of Gas Ranges

Marquette County Gas & Electric Co.

Upper Peninsula

Needy Soo Woman Aided.
 Responding to a call for help from Mrs. Agnes McGrath, 519 Pine street, who was without money and food, many women have gone to her house, talking food, clothing and money to the sick mother and administering aid in every way. Today Mrs. McGrath faces better circumstances than she has for some time. Her cupboard is well supplied with food, while money has been given her, so that the rent will be taken care of. Some have been kind enough to see that medical attention will be furnished. Mrs. McGrath is thankful to those who have helped her and could hardly express her gratefulness. "I did not know that people would so kind," she said. "Last evening many came to see me bringing money and other aid. I am thankful for what they have done."

"Muskie" Caught at Escanaba.
 The first muskallunge caught in Escanaba waters in years was hooked in the Escanaba river below the traction company's power dam No. 1 by William Matt. After a brisk fight of fifteen minutes Matt landed the fish, which when dressed tipped the scales at twelve pounds. Matt was fishing for bass and was using an ordinary line, baited with a minnow. When the strike came he realized that he had hooked a fish of unusual proportions. He played the fish until it was exhausted. He gradually drew it to the edge and when once he succeeded in pulling it up on the rocks he killed it with a stone. In early years "muskies" were plentiful in Escanaba waters, but that caught by Matt is the first hooked in many years.

Wedding Is Surprise to Friends.
 Surprising a large circle of friends, Miss Rose Jaegers, daughter of Mrs. Amelia Jaegers, Escanaba, and Omar O'Callahan of Norway were married at Iron Mountain. The couple made the trip by automobile. The nuptial knot was tied by Rev. R. Hewson. Miss Helen O'Callahan, sister of the bridegroom, and Edna O'Callahan, brother, attended the couple. Following the ceremony the party went to Norway, where dinner was served at the home of the parents of the bridegroom. In the evening they arrived in Escanaba, where they were given an enthusiastic reception at the home of the mother of the bride. Mr. and Mrs. O'Callahan will enjoy a wedding trip by automobile and after July 1 will be at home to their friends at Norway. The bride was born in Escanaba and has spent all of her life in that city. For some time she has been a stenographer and bookkeeper in the office of the Chatfield Brass & Iron company. The bridegroom is a son of George O'Callahan of the O. C. Lumber company of Norway. He is engaged in the automobile business.

FOR SALE—Potatoes, thirty-five cents a bushel at car. Delivered free in lots of five bushels or over. Car on Second street. **H. J. Goodman**, 6-23-11.

W. J. M'COCKINDALE SENDS GREETINGS

Former Mayor of Ishpeming Regrets That He Cannot Be Here for the Home-Coming.

W. J. M'cockindale, former mayor of Ishpeming, who is now manager of the Wilmington Gas company, at Wilmington, Del., has written to the secretary of the arrangement committee for the Homecoming and Fourth of July celebration extending his best wishes for the success of the affair. He says: "I wish to acknowledge receipt of the invitation to 'come home,' which I received from you some days ago, but regret very much indeed that my business here will not permit it.

"I am sure, with the committee that is in charge of this celebration, that you are going to have a grand time and hope that it will be a grand success without being much of a burden on the people.

"Last week our Chamber of Commerce here with twenty-two automobiles went across the Delaware river, (which is two miles wide at its widest) into New Jersey and visited a number of cities in order to encourage them to come to Wilmington with their produce, and for their supplies.

"While at Salem, New Jersey, a city of about 14,000, my car and its occupants were invited to take dinner at the 'Nelson House,' which was a coincidence with me, having lived at and eaten so often at our 'Nelson House' in Ishpeming. I am enclosing you our menu card, which also shows a picture of the 'Nelson House.' There were 100 in our party, including the business men who were guests, assigned to this place, and they served us handsomely indeed.

"At Pennsboro, N. J., just the other side of the river, we were met by the Salem business men in twenty cars and a brass band, and we went the twenty miles in a procession of forty-two machines, taking a few of the Pennsboro representative citizens to help along the celebration.

"At Salem the residence and business streets were all decorated most profusely with flags and bunting, and we had a great time.

"I often think of my old friends and really long to see them again. You may rest assured that at any time if any of them come this way, they will receive a most royal welcome from me.

"Last Wednesday the Middlewest Utilities company's stockholders had a meeting here, it being a Delaware corporation, and I met among others, Mr. Martin Insull and Mr. Flexner, general attorney, and I heard directly regarding Ishpeming conditions and Mr. Myers.

"Again wishing your celebration all kinds of success, and with the personal regards to you and yours, believe me,

"Yours very sincerely,
W. J. M'COCKINDALE.

GRATEFUL FOR CONTRIBUTIONS.

Treasurer of Dayton Relief Committee Writes Mayor Barnett.

Mayor G. G. Barnett recently sent W. F. Bippus, treasurer of the Dayton Citizens' relief committee, drafts for \$141.50, the amount contributed by Ishpeming citizens to the flood sufferers. Mr. Bippus acknowledged receipt of the money in the following letter:

"Mr. George G. Barnett, Mayor,
 "Ishpeming, Mich.
 "Dear Sir: We acknowledge with deep gratitude your letter of June 10, enclosing drafts for \$61.00 and \$80.50, as a contribution from the citizens of your city, for relief of the flood sufferers of Dayton.

"In the name of all of the afflicted people of this city, we thank you from the bottom of our hearts.

"Be assured that this offering, so freely given, will be carefully administered to the end that it will reach the greatest possible amount of distress.

"Yours very truly,
"DAYTON CITIZENS' RELIEF COMMITTEE.
"W. F. Bippus, Treasurer."

HAD PENSION MONEY COMING.

According to a letter received by Coroner William Prin from O. A. James, pension agent of Detroit, five years back pension money was due Emerson Slough, a veteran of the Civil war, at the time of his death about a year ago. Mr. Slough, who had lived at Little Lake for a number of years, died alone in his cabin at that place.

Mr. James writes that Mr. Slough had not drawn any pension since 1907 and that he was entitled to \$12 a month since March of that year. At the time of his death, the coroner was unable to locate any of the old soldier's relatives.

Mr. Prin intends to make application to Mr. James for a pension to be placed over Slough's grave in the New Geneva cemetery. His funeral was held under auspices of Charles H. Towne post of the Grand Army, although he was not a member of the organization.

WILL RECEIVE CLASS.

Sir Humphrey Davey lodge, Sons of St. George, balloted favorably on seven candidates at its meeting last week and preparations are now being made for the adoption of a class of thirty or more on the evening of the second Thursday in July. The members are trying to send their membership over the 300 mark prior to the grand lodge convention which is to open in Hancock on the 19th.

DEAFNESS CANNOT BE CURED

by local applications. It cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional means. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation is taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

FOND DU LAC PAPER TELLS OF WEDDING

Mrs. Alma Ruez Keith and E. G. Heath Were Married Thursday Afternoon.

The Daily Commonwealth, Fond du Lac, Wis., contains an account of the wedding last Thursday afternoon of Mrs. Alma Ruez Keith of this city, to Ewart G. Heath, of Fond du Lac. "Ewart G. Heath, manager of the Fond du Lac Steam laundry, and Mrs. Alma Ruez Keith of Ishpeming, Mich., sprang a surprise on their friends Thursday afternoon, when they were married by Rev. J. B. Piette at St. Louis' church and left the city before any of their relatives and friends knew of the affair," the Commonwealth says.

The affair has all the earmarks of an elopement, plucked from the pages of romance. A special marriage dispensation was secured from Judge Richter, and while relatives of the couple were awaiting them at Pipe village, where it had been planned to have supper, they went to the parsonage of St. Louis' church, where the ceremony was performed.

"From the church Mr. and Mrs. Heath motored back, the groom to his office and the bride to the home of relatives, where she was visiting. Later in the afternoon an auto delivery wagon from the laundry drove up in front of the home of the bride who, informing her relatives that she was going to drive to Winnebago park with Mr. Heath, left the house.

In the meantime C. L. Marston, business associate of Mr. Heath, who had driven an auto load to Pipe village and returned for E. G. Heath and Mrs. Alma Keith, was awaiting his passengers. It was 5:15 o'clock when Miss Ida Johnson, who had met the departing couple at the depot, called up to inform members of the family that she had met the bride and groom and had left a note from Mr. Heath addressed to Mr. Marston at the office of the laundry.

"When Mr. Marston opened the note, the bride and groom theory was verified. The note contained the brief explanation, 'Alma and I were married this afternoon. Ewart.' It was a surprised group that received the news when Mr. Marston arrived at Pipe village. Relatives of both the bride and groom were in the party and, while it was known that an engagement existed between Mr. Heath and Mrs. Keith, the elopement came as a decided surprise.

"The laundry auto delivery was found at the Northwestern passenger depot by the regular driver, having been left there when the bride couple left on an afternoon train for the South. They will be absent for a week or ten days.

"Mr. Heath is a son of Mrs. N. R. Heath, East First street, and a graduate of the Fond du Lac high school. He has been engaged in the laundry business in the city for a number of years. Mrs. Heath is a daughter of Mrs. Joseph Ruez, of Ishpeming, Mich."

TENNIS COURT READY.

The "Y" tennis court is now in condition for use. Tennis will this year be a club privilege, and members of the association may join the club on paying the club fee of fifty cents. The club has purchased four racquets, which will be rented at the rate of five cents per half hour each. Members of the association who do not belong to the club may also use the court and equipment on payment of the fees that have been fixed.

FINED FOR ASSAULT.

The case of the People vs. Felix Millymaki, a farmer in Tilden township, was disposed of in Judge West's court yesterday when Millymaki was found guilty, and a fine and costs, amounting to \$12.70, were imposed by the court. The complaint, charging assault and battery, was made by Louis Haisinen, another farmer in the township. Three witnesses were examined and the services of two interpreters were required.

CARRIED CONCEALED WEAPON.

Tony Valia, an Italian miner, was arraigned before Judge John D. West yesterday, on the charge of carrying a concealed weapon, on complaint of one of the police officers, who picked him up in a drunken condition on the street and found a loaded revolver in one of his pockets. He was fined \$50 and costs of \$4.70.

WILLIAMS-DAWSON.

Ishpeming Young Couple Married Saturday Evening by Rev. Keast.

A pretty home wedding took place Saturday evening at the home of Arthur Schimont, of the Salisbury location, when Miss Elizabeth E. Dawson and John Paul Williams were united in marriage. The ceremony was performed by Rev. Lewis Keast, pastor of the Salisbury Methodist Episcopal church. The couple will make their home on South Pine street.

Thomas Simons was best man and Miss Lottie Dawson, a sister of the bride, was bridesmaid. Intimate friends and relatives of the couple were present. Mr. Williams is employed as engineer at the Lake Angelino mine. Both of the young people are well known in Ishpeming.

Upper Peninsula

Woman Is Badly Burned.

While engaged in washing clothes Mrs. Ralph Tennant, of Manistique had a narrow escape from death, as the result of having her dress catch fire from a smudge. She rushed into the house and jumped into bed, wrapping the bed clothes about her. In this way she saved her life. She was badly burned, nevertheless.

Receives Carload of Sheep.

J. A. Shattuck of Newberry has received a carload of sheep, purchased in the lower part of the state, and has placed the animals on his big farm south of Newberry. Mr. Shattuck believes there is money to be made in sheep raising in this region and if his venture is successful he will go into the business on a large scale. This is the first time sheep have been introduced into Lapeer county in any numbers and Mr. Shattuck's venture will be watched with interest by the farmers.

"Bums" Don't Like Road Work.

The county jail is not so popular since the road work started, says the Crystal Falls Drill. The bums who have made the jail their hangout are disgusted with the shoveling that has been handed out to them on the county road and as a result there are no shovellers today. As fast as the terms of the men expired they hiked out of town instead of going down town and getting full again. Joe Keast has had charge of the men for the last week and had been taking them back and forth on the train that leaves in the morning and returns in the evening. The men got off at Stager. They covered a lot of the road while they were at work, as the road is gravelled for more than three miles from the bridge this way. The experience of the county board this time is similar to the experience a few years ago, when the ball and chain stunt was tried. The bums fought shy of this county until the practice became obsolete and then commenced coming again. They will probably fight shy of it until the county road work is completed.

Schlitz Brown Bottle Is Making History

Two years ago, Schlitz adopted the Brown Bottle.

Scientists, world famous, had rendered opinions that beer exposed to light cannot remain pure.

One year ago, Schlitz corroborated its claims by reprinting such parts of these opinions as were pertinent.

Today, the last link in this long chain of incontrovertible evidence is complete.

We reproduce herewith in miniature the printed matter on covers or caution cards taken from cases of beer sold by brewers using the light bottle.

Read them.

They are self-explanatory. They are eloquent.

These competitors admit the weakness of their own product when exposed to light, by warning the public to "Keep the cover on."

Schlitz

The Beer That Made Milwaukee Famous.

IMPORTANT

Our reason for using a case with lid is to prevent the sun or light from coming in contact with the beer.

Drinkables should be kept covered and protected at all times. When fishing for fishing, hunting and other outings, the cover or paper lid should be placed on the case to protect the beer from the sun or light affecting the quality of the beer.

This case conforms to the cards with this notice. Please hand them to your friends, and caution your people accordingly, thereby greatly obliging.

Now Are the Days Children Need Care

Summer Heat Dangerous to Little Ones Whose Bowels Are Neglected.

A mother cannot do better for her children than to teach them from their earliest days regularity of the bowels. Regularity can be promoted without the child knowing it by watching its food and by varying the food that all the elements of digestion are used, when nature will do the rest. The future health of the child depends upon this.

But try as you will there are times when the little one will become constipated and bilious. In hot weather immediate attention is necessary, as many serious diseases result from stuffed-up bowels. Don't give salts or cathartics or purgatives, as they are too harsh, but give a gentle, pleasant-tasting bowel stimulant like Dr. Caldwell's Syrup Pepsin. It has been used by the children of this as well as a former generation, and thousands of families are proud to speak well of it, among whom we can mention Mrs. Louise Reynolds, 909 Jackson St., Lynchburg, Va., who is glad to recommend it, and Mr. Chas. W. Allen, Manor, Texas, who writes that he often felt 100 years old, but feels younger now than his years.

Every druggist sells Dr. Caldwell's Syrup Pepsin and the price is only fifty cents and one dollar a large bottle. It will cure constipation and biliousness in young or old break up a cold and stop summer diarrhoea by filling the bowels with the poisons and germs that cause the trouble. It is a grand family laxative, with valuable tonic properties.

Families wishing to try a free sample bottle can obtain it, postpaid, by addressing Dr. W. B. Caldwell, 418 Washington St., Monticello, Ill.

Marquette News

PREPARE ORDINANCE FOR ITS SUBMISSION

City Attorney Draws Up Traffic Regulations Like Those to Be Adopted Up Road.

George P. Brown, city attorney, yesterday drafted an ordinance that is to be presented at the next meeting of the common council and that has for its purpose the regulation of street traffic. Similar ordinances will be adopted in Ishpeming and Negaunee. It is the idea to make street traffic regulations uniform. This movement is the result of a concerted action by the police departments of the three cities. The motorists complain that it is impossible to observe all the regulations of three different sets of ordinances and the police have complained that it is impossible to enforce ordinances affecting the stopping of cars on the wrong side of public thoroughfares, turning across the wrong corners and similar offenses.

At a recent consultation of the chief executives of this city, Ishpeming and Negaunee, the provisions of the ordinance were framed and City Attorney Brown was instructed to put the ideas into legal text. The following sections are the result of his efforts and are ready for adoption by the council at its next meeting. It is not likely that any material change will be made except in minor details. It follows similar regulations adopted in the majority of the smaller cities of the United States. Below is the text:

Section 1. During the months of April to November, inclusive, of each year, each of the persons in charge of the operation of any street car, while the same is running upon any public street of this city south of Hewitt street, shall close and keep closed the doors upon the left side of such street car, and shall not permit access to and departure from such street car by any person, except from the right side of such street car.

Section 2. No person shall in this city drive, or attempt to drive, any road animal or vehicle past any street car while such car is at or approaching and within fifty feet of any crosswalk or other usual stopping place for such street car.

Section 3. Every person in charge or control of any road vehicle while the same is upon any street in any business district in this city, or in any portion of any street in which street cars are operated south of Hewitt avenue, shall keep such vehicle upon the right side of the roadway and shall not pass the same on the left side of such vehicle, whether in motion or standing, shall at all times be nearest the curb; provided, that it shall be a good defense to any prosecution for violation of this section that the act complained of was necessary either to avoid accident or for the proper passing of other vehicles, animals, or pedestrians.

Section 4. At intersections of streets, in this city, teams and vehicles traveling either north or south shall have the right of way over teams and vehicles traveling east or west; and drivers of teams and vehicles traveling east or west shall give way to teams and vehicles traveling either north or south at street intersections.

Section 5. No person shall drive any road team or vehicle in a southerly direction into or along Baker street.

Section 6. No person shall cause or permit any vehicle to stand unattended by some competent person for to exceed twenty minutes at a time at any place in any street in any business district of this city, or in any portion of any street south of Hewitt avenue in which street cars are operated.

Section 7. Every person in charge or control of any road animal or vehicle upon any street, in this city, shall immediately stop such animal or vehicle upon the order by raised hand, voice, or other signal, of any police or street traffic officer; and shall also promptly obey any proper order of such officer for the public safety and convenience of travel respecting the driving of such vehicle.

Section 8. Any person guilty of any violation of any provision of this ordinance shall upon conviction thereof be punished by a fine of not less than five dollars and not more than twenty dollars, or by imprisonment in the city lock-up, or county jail, for a period not exceeding fifteen days; or by both such fine and imprisonment in the discretion of the court before whom a conviction is had.

INJURED WHEN WALL FELL

Jacob Bridenstein, Marquette Mason, Seriously Hurt at Big Bay.

Four workmen were hurled under a wall of the new engine house at the Big Bay plant of the Lake Independence Lumber company when the structure fell Saturday. Jacob Bridenstein, a stone mason of this city, received serious hurts. His right hip was shattered and the abdomen perforated. His condition is bad.

Our repair department is splendidly equipped to do the most difficult at reasonable prices. We use only the best of material and take a pride in our workmanship. Once we have done your repair work you'll not have it done anywhere else. Try us and see if we cannot more than please you.

M. F. GOLDBERG
3rd St. Opposite Post Office
6-24-cod-1f.

dition is arousing apprehension. J. Chamberlain, another mason, whose home is in Marinette, had his right arm and several ribs fractured. An Austrian laborer suffered a fractured leg. A Swedish laborer was seriously injured.

After completing the masonry work on the end wall of the engine house being erected at the new plant, it was thought the temporary support could be removed. While in the act of removing the scaffolding the upper portion of the wall, forming the front of the building, tumbled to the ground.

MANN SEES THREAT IN PLEA OF WILSON

Republican Leader Is Caustic in His Criticism of the President's Message.

(Continued from Page One)

from the president's message on banking and currency matters, and has received no enlightenment or suggestion of ideas from the president, still I do not wish to judge in advance the proposed bill, because of the lack of an intelligent presentation by the president. It is an indication that the measure is to be considered a Democratic partisan bill; but, even so, if it will advance the interests of the country, the Republicans will support it; but if it threatens to go still further than the tariff bill in breaking down the prosperity of the last few years, then we cannot support it but will try to amend it."

Chief Executive's Message.

The president's message was as follows:

"Mr. Speaker, Mr. President, Gentlemen of the Congress: It is under the compulsion of what seems to me a clear and imperative duty that I have a second time this session sought the privilege of addressing you in person. I know, of course, that the heated season of the year is upon us, that work in these chambers and in the committee rooms is likely to become a burden as the season lengthens, and that every consideration of personal convenience and personal comfort, perhaps, in the cases of some of us, considerations of personal health even, dictate an early conclusion to the deliberations of the session; but there are occasions of public duty when these things which touch us privately seem very small; when the work to be done is so pressing and so fraught with big consequences that we know that we are not at liberty to weigh against it any point of personal sacrifice. We are now in the presence of such an occasion. It is absolutely imperative that we should give the business men of this country a banking and currency system by means of which they can make use of the freedom of enterprise and of individual initiative which we are about to bestow upon them.

"We are about to set them free; we must not leave them without the tools of action when they are free. We are about to set them free by removing the trammels of the protective tariff. Ever since the Civil war they have waited for this emancipation and for the free opportunities it will bring with it. It has been reserved for us to give it to them. Some fell in love, indeed, with the slothful security of their dependence upon the government, some took advantage of the shelter of the tariff to set up a mimic mastery of their own within its walls. Now both the tonic and the discipline of liberty and maturity are to ensue. There will be some readjustments of purpose and point of view. There will follow a period of expansion and new enterprise, freshly conceived. It is for us to determine now whether it shall be rapid and facile and of easy accomplishment. This it cannot be unless the resourceful business men who are to deal with the new circumstances are to have at hand and ready for use the instrumentalities and conveniences of free enterprise which independent men need when acting of their own initiative.

Duty to Act Now.

"It is not enough to strike the shackles from business. The duty of statesmanship is not negative merely. It is constructive also. We must show that we understand what business needs and that we know how to supply it. No man, however casual and superficial his observation of the conditions now prevailing in the country, can fail to see that one of the chief things business needs now, and will need increasingly as it gains in scope and vigor in the years immediately ahead of us, is the proper means by which readily to vitalize its credit, corporate and individual, and its originality. What will it profit us to be free if we are not to have the best and most accessible instrumentalities of commerce and enterprise? What will it profit us to be quit of one kind of monopoly if we are to remain in the grip of another and more effective kind? How are we to gain and keep the confidence of the business community unless we show that we know how both to aid and to protect it? What shall we say if we make fresh enterprise necessary and also make it very difficult by leaving all except the tariff just as we found it? The tyranny of business, big and little, lie within the field of credit. We know that. Shall we not act upon the knowledge? Do we not know how to act upon it? If a man cannot make his assets available at pleasure, his assets of capacity and character and resources, what satisfaction is it to him to see opportunity beckoning to him on every hand, when others have the keys of credit in their pockets and treat these as all but their own private possession? It is perfectly clear that it is our duty to supply the new banking and currency system the country needs, and that it will immediately need it more than ever.

"The only question is, When shall we supply it—now, or later, after the demands have become reproaches that we waver so dull and so slow? Shall we hasten to change the tariff laws and then be laggards about making it possible and easy for the country to take advantage of the change? There can be only one answer to that question. We must act now, at whatever sacrifice to ourselves. It is a duty which the circumstances forbid us to postpone. I should be reluctant to my deepest convictions of public ob-

Alpha wants the Wage Earner and the Investor to own these splendid lots at very low prices. Why? Read on.

Alpha is the Biggest Mining district on the Menominee range.

Alpha is the locality that has more to guarantee its future than any other town has had in the history of the Lake Superior District.

\$10 DOWN and \$10 per month until paid for gives you title to one of these valuable lots.

HOW TO GET TO ALPHA

A special train will be run from Iron River to connect with the train from Chicago at Stager and this will be run right in to Alpha. Free buss and auto service from Crystal Falls for Marquette Range and people from the north.

A FEW FACTS ABOUT ALPHA.

There are many large and rich mines in the territory adjacent to our property. Some of these will employ 2,000 men. One of the largest in the Great Judson mine. Work is now in progress opening up this mine and when completed it will be the largest iron mine in Michigan. The United States Steel company, the Cleveland-Cliffs company, the Corrigan-McKinney company and other of the large mining companies have large finds in the locality.

The big Balkan, on which a stripping contract approximating one-half million dollars is being let lies at the corner of our property. All of these big mines lie within a few minutes walk of Alpha, making our town the center of the district.

We want you to come to Alpha on June 29 and be convinced that there never was such an opportunity offered to real estate investors and home seekers.

We expect you to come out to Alpha. If you cannot come fill out the coupon and let us tell you more about

ALPHA, Its Future and Possibilities.

A free dinner will be served to all visitors on June 22. A rare opportunity to get acquainted.

PRICES AND TERMS—
Residence Lots (32x125) \$75 and up. Corner Lots \$100 and up.
TERMS—\$10 or more down and \$5 or more per month. We will make it easy for you.

FILL OUT AND MAIL TODAY.

litation did. I not press it upon you with solemn and urgent insistence.

What Legislation Is Needed.

"The principles upon which we should act are also clear. The country has sought and seen its path in this matter within the last few years—sees it more clearly now than it ever saw it before—much more clearly than when the last legislative proposals on the subject were made. We must have a currency, not rigid as now, but readily, elastically responsive to sound credit, the expanding and contracting credits of everyday transactions, the normal ebb and flow of personal and corporate dealings. Our banking laws must mobilize reserves; must not permit the concentration anywhere in a few hands of the monetary resources of the country or their use for speculative purposes in such volume as to hinder or impede or stand in the way of other more legitimate, more fruitful uses. And the control of the system of banking and of issue which our new laws are to set up must be public, not private, must be vested in the government itself, so that the banks may be the instruments, not the masters, of business and of individual enterprise and initiative.

"The committees of the congress to which legislation of this character is referred have devoted careful and dispassionate study to the means of accomplishing these objects. They have honored me by consulting me. They are ready to suggest action. I have come to you, as the head of the government and the responsible leader of the party in power, to urge action now, while there is time to serve the country deliberately and as we should, in a clear air of common counsel. I appeal to you, with a deep conviction of duty. I believe that you share this conviction. I therefore

Ishpeming

TWO BALL GAMES TODAY.

At the Union park grounds this afternoon the first game will be played by the Ishpeming and Marquette teams and it will be called at 1:15 o'clock. The second game will be contested between the Negaunee and Gwin teams. It is likely that Goulette and Toman will pitch for Ishpeming.

ISHPEMING IN BRIEF.

The grocery stores will close tomorrow at noon.

The Carnegie public library will be closed today.

Miss Anna Guido has gone to Gwin to spend a week with her parents.

F. R. Spear, of Marquette, was an Ishpeming visitor yesterday afternoon.

Arlington Ham was up from Marquette Sunday for a visit with his parents.

H. W. Bending, of Marquette, was an Ishpeming business visitor yesterday.

Misses Borghild Braastad and Olga Aas are spending the week at Braastad's farm.

Sheriff James Moloney, of Marquette, was an Ishpeming business visitor yesterday.

John Roberts, of Pine street, who has been in Canada for the past year, has returned.

Jack Anderson spent Sunday at his home in Michigan and returned Monday morning.

Mrs. Sedgwick is building a summer home at Island lake, next to Captain Walters' cottage.

Mrs. E. C. Thompson has returned from Gwin, where she has been visiting for the past three days.

Miss Alice Harrington went to Marquette Saturday to spend several days visiting with friends.

Miss Genevieve McKereghan, a student at the University of Michigan, is home to spend the summer vacation.

Miss Catherine Deutch has returned from the copper country, where she visited with friends for a week.

Mrs. J. K. Osborn entertained a number of her friends at her home on Barnum street yesterday afternoon.

Mr. and Mrs. Edward Williams left Saturday evening for Butte, Mont., where they will visit their daughter, Mrs. Mitchell.

Mr. and Mrs. Orrie Flynn, of Minneapolis, who have been visiting Ishpeming friends for the past week, leave tomorrow for their home.

Messrs. Ed Ham and Chevre have gone to Au Train, where they will spend the summer on a survey for the Cleveland Cliffs Iron company.

Republic will celebrate the Fourth. A program of sports is now being arranged. The children of the town will be treated to candy, nuts and fruit. The committee will put up 1,200 packages for the little

folks. The Negaunee band will furnish the music.

Heman Allen, who has been attending the Michigan Agricultural college at East Lansing, has returned to his home in this city for the summer months.

The Ishpeming lodge of Owls will give its annual ball on Friday evening, July 4, at Braastad's hall. Arrangements are now being made for the event.

Mr. and Mrs. R. P. Bronson, Mrs. Read, of Marquette, and Misses Anna and Lida Bronson are spending the week at the Bronson cottage at Island lake.

Trelawney lodge, Sons of St. George, will give a picnic today at the Cleveland grove. The members of the lodge and their families will be in attendance.

The Salisbury Sunday school will enjoy its annual picnic today at the school grounds adjacent to the church. There will be a program of sports for the boys and girls.

Eugene Cassidy and wife, former residents, who now live on the Mesaba range, spent Sunday with relatives in the city, having stopped off here on their way home from the lower peninsula.

John Arala and Miss Edna Lusty, of Republic, were married last evening at the home of the bride's parents, Rev. John Wargelin, pastor of the Finnish Lutheran church at Republic, performed the ceremony.

Medames Krogerman and Ludlow, Miss Beatrice Sedgwick, of this city, Mrs. Al Maitland, of Negaunee, and Mrs. H. W. Hornbogen, of Marquette, left last evening on one of the carriers of the Cleveland Cliffs Iron company for a trip on the lakes.

Bruce Wallace, mining engineer at the Republic mine, and Miss Dagmar Peterson, only daughter of Carl Peterson, one of Republic's prominent business men, will be married tomorrow evening at 8 o'clock at the Peterson home. Mr. Wallace's parents, Mr. and Mrs. R. B. Wallace, two sisters and two brothers, of Chicago, are now in Republic to attend the wedding.

A WORKER APPRECIATES THIS

Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidneys and bladder incapacitated me for all work. About eight months ago I began using Foley's Kidney Pills, and they have done what other medicines failed to do, and now I am feeling fine. I recommend Foley's Kidney Pills." For sale by All Druggists.

Katherine L. Norton, New Bedford, Mass., says: "I had a terrible pain across my back, with a burning and scalding feeling. I took Foley's Kidney Pills as advised, with results certain and sure. The pain and burning feeling left me, I felt toned up and invigorated. I recommend Foley's Kidney Pills." For backache, rheumatism, lumbago, and all kidney and bladder ailments, use Foley's Kidney Pills. For sale by All Druggists.

W. THURTELL, THE OPTOMETRIST, is again in Ishpeming at Nelson House. Eyes thoroughly and scientifically tested and glasses fitted, all work guaranteed. Telephone for private calls. 6-17-1f.

Doctors Use This for Eczema

Dr. Evans, Es-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the blood. The germs must be washed out, and no salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema. Dr. Holmes, the well known skin specialist writes: "I am convinced that The Stafford Drug Co., Marquette; City Drug Store, Ishpeming; J. E. O'Donoghue, Druggist, Negaunee."

The D.D.D. Prescription is as much a specific for eczema as quinine for malaria. I have been prescribing the D.D.D. remedy for years. It will take away the itch the instant you apply it.

In fact, you are so sure of what D.D.D. will do for you that you will glad to let you have a \$1 bottle on our guarantee that it will cost you nothing unless you find that it does the work.

Ask us also about D.D.D. Soap. It helps.

Markets

[From Geo. F. Ruez, Ishpeming.]

Boston, June 23.—The heavy selling of stock on Saturday did not bring out any extensive liquidation today and most of the session, the buying was good with gradually advancing prices. The only item of interest in the local coppers was the declaration of a \$5 dividend on Ahmeek a reduction of \$2 from the last payment. The future of the market depends on developments of the crops and no extended movement can be expected until the crop situation is more clearly defined. The closing prices were:

Daily Market Letter.

The New York market opened with a much better tone this morning and showed gain from 1 to 3 points during the first half of today's session. Sentiment was good during the last hour resulted in a slight reaction, but the buying was good and there was a slight recovering just before the close. The Boston coppers were dull with but few changes. North Butte was well taken just above 24. Calumet & Arizona, around 50%. Ahmeek declared \$5 quarterly dividend as compared with \$7 three months ago. The dividend is payable July 10th to holders of record June 25th. U. S. Smelting declared regular quarterly dividend of 50 cents on the Common stock and 8 1/2 cents on the Preferred.

The closing prices were:

Force of Habit.

There is at Princeton an instructor in mathematics who was country bred, a fact that is frequently betrayed by some homely saying of his.

One day an undergraduate had performed some peculiarly useless and complicated process in arriving at the solution of a problem, when the instructor said:

"This reminds me of a colt once owned by an old friend of mine, down east. This colt was put out to pasture, after having been fed from its birth in a hay stall and watered at a trough in the yard. The pasture lay across a small river, and in the middle of the day the colt would swim the stream to go up to the barn for a drink of water."—Harpers Magazine.

FIRE AT PALMER.

The hall building at Palmer, owned by the Young People's association, burned to the ground at an early hour Sunday morning. The structure and all the furniture were a total loss. A dance was held there the previous evening and it is thought by many that the blaze was started by a lighted cigar stub. As there is no fire protection at Palmer, nothing could be done to stop the headway of the flames.

MANY CONTRACTORS INTERESTED.

A Negaunee contractor and nine outside firms are figuring on the new manufacturing school contract, and will submit their bids to the board of education at a special meeting Friday evening. Five plumbing concerns, two of which are Negaunee firms, will bid on the plumbing work, and four firms will bid on the electrical work.

A MOST WONDERFUL CURE.

Joseph D. Underhill, of Doland, S. Dakota, says:—I have received great benefit from your White Wine of Tar Syrup. I had a deep seated cough and the doctors gave up all hopes of my recovery and pronounced it consumption. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I took 1-2 bottles and am entirely cured. Such medicine I can recommend to those who are afflicted as I was.

Negaunee Department

IS NOW BUILDING STEEL LADDER

W. T. Cole Has Improved Device Which He Believes Will Be Introduced in Mines.

William T. Cole, the boiler maker, has started the manufacture of a steel ladder which in time will, he believes, be extensively used in mines, as it has been declared by practically all of the mining men who have examined it to be by far the best ladder they have ever seen.

Mr. Cole is now building 940 feet of steel ladders for the Cascade Mining company, which is opening a property on the Cascade range. The first 200 feet of the ladders were sent to the mine last week, and they are now being put in place in the shaft.

Two types of steel ladders have been sold heretofore, but neither of them compare with the one that Mr. Cole is turning out. His ladder is made of two-inch angle bar iron, with three-quarter inch wrought iron rungs. Mr. Cole has all the machinery necessary to manufacture the ladders, so that all their parts fit perfectly. The rungs are held in place by a safety bar iron, which swings into position when the rungs are set.

The ladders can be put together very rapidly and can be shipped. One day last week one of Mr. Cole's men put 150 rungs in place in the ladders that were sent to the Cascade mine in less than an hour.

The ladder is constructed in such a way that the rungs cannot turn, nor can they move from their position unless they are hammered out after the buttons are raised. One of the steel ladders now on the market has pipe rungs that are fastened with threads. In time the thread wears and the round becomes loose, making it dangerous for men climbing it.

Mr. Cole believes that his ladders will be very generally introduced in place of the wooden ladders. They cost but little more than wooden ladders and besides are more durable and will last longer. Mr. Cole has applied for a patent on the ladder.

GRAND MASTER IS COMING JULY 17

Harry McNeil and Fred Rogers, State Officers of I. O. O. F., to Conduct Session.

Harry McNeil, of Payson, grand master, and Fred Rogers, of Lansing, grand secretary, of the International Order of Odd Fellows, will be in Negaunee July 17 to hold a grand lodge session to be attended by members from Gwin, Michiganam, Champlain, Republic and Ishpeming lodges as well as by the Negaunee Odd Fellows.

The grand master and grand secretary will also hold a grand session in Marquette.

The Negaunee sermon will be one of the most important gatherings of the order that has been held here in several years, and it is expected that it will bring a large number of visitors to the city. Grand lodge degrees will be conferred by the state officers.

Following the special program that will be prepared for the occasion, luncheon will be served. The grand lodge officers will be the principal speakers.

Thursday evening, July 3, the Negaunee lodge will install the following officers: John Leuten—N. G., William Bath—B. C., Fred Staple—R. S., R. G. Jackson—Treasurer.

Robert Finley, trustee—Three years, Fred Ward and Fred Staple were chosen delegates to the grand lodge meeting at Kalamazoo on the third Tuesday in October. John Nyquist and C. J. Thoren are the alternates.

GOLF TOURNAMENT TODAY.

There will be a handicap medal play tournament today at the Wagoner Golf club, open to club members only. Three prizes will be offered. Handicaps will be posted in the clubhouse. Score cards must be signed and all scores turned in must be for eighteen consecutive holes. Competitors must choose their own opponent in play, and can make the round at any time during the day.

FIRE AT PALMER.

The hall building at Palmer, owned by the Young People's association, burned to the ground at an early hour Sunday morning. The structure and all the furniture were a total loss. A dance was held there the previous evening and it is thought by many that the blaze was started by a lighted cigar stub. As there is no fire protection at Palmer, nothing could be done to stop the headway of the flames.

MANY CONTRACTORS INTERESTED.

A Negaunee contractor and nine outside firms are figuring on the new manufacturing school contract, and will submit their bids to the board of education at a special meeting Friday evening. Five plumbing concerns, two of which are Negaunee firms, will bid on the plumbing work, and four firms will bid on the electrical work.

A MOST WONDERFUL CURE.

Joseph D. Underhill, of Doland, S. Dakota, says:—I have received great benefit from your White Wine of Tar Syrup. I had a deep seated cough and the doctors gave up all hopes of my recovery and pronounced it consumption. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I took 1-2 bottles and am entirely cured. Such medicine I can recommend to those who are afflicted as I was.

SHERIDAN AWARDED CONTRACT BY BOARD

Submitted Lowest Bid for Filling in Tract to Be Used as City Playground.

Phil O. Sheridan, the Houghton contractor, has been awarded the contract for filling in the tract between Teal Lake avenue, Water street and Hungerford avenue, that is to be used as a playground by the school children of the city. Mr. Sheridan's bid was twenty-seven and one-half cents per cubic yard, and was the lowest of five.

The other bidders were Oliver Lacombe, Negaunee; Moses Pleau, Negaunee; John Hackenjos and William Neel, Negaunee, and Michels, Stoyke & Lucas, of Houghton. The amounts of the bids did not vary greatly.

The filling in of the tract will be a considerable job, as the land is low and is flooded during the spring of the year. City Engineer Ray Brotherton has estimated that it will require approximately fifteen thousand cubic yards of earth to fill in the tract. Mr. Sheridan will also get ten dollars per acre for removing the brush from the four acre tract, and twenty dollars per acre for grubbing the land. If rock is encountered in the place where the material for filling is being procured, an additional charge of \$1.40 per cubic yard will be made.

Using the estimate of the city engineer as a basis, at the rate of twenty-seven and one-half cents per cubic yard the filling will cost the board of education \$4,125, and the removing of the brush will cost \$120 more, making a total cost of \$4,245.

The filling is to be completed by August 20. The board of education will purchase play ground apparatus for the tract before the opening of school in September.

Yesterday afternoon the board, together with Ray Brotherton, city engineer, the superintendent of the board of public works, and Mr. Sheridan, the contractor, visited the site of the proposed grounds, to locate the water pipes that will be necessary to supply the tract. The filling is being secured from a lot near Ridge street, owned by the Cleveland Cliffs Iron company.

A public playground has long been needed here, and the many benefits that will be derived by the school children more than warrant the expenditure. There will be a baseball diamond, a football field and possibly a tennis court on the tract, besides athletic apparatus and equipment. The grounds will be used as a public ice rink during the winter months.

LOCAL LACONICS.

Miss Katherine Pimey, of Rockland was a Negaunee visitor yesterday.

The Finnish Temperance society will hold its annual picnic today at the Maas mine grove.

The Negaunee city band has been engaged to play at Republic for the Fourth of July celebration.

August Skoglund, a student in the University of Illinois, has returned home to spend his vacation.

The Scandinavian Aid and Fellowship society will give its annual picnic today at Cleveland park.

The dry goods stores will be closed this noon. The grocery stores of the city will be closed all day.

F. Braastad & Co. are showing two attractive displays in their windows. The backgrounds are landscapes.

The Sunday school children of the Swedish Lutheran church will be given a picnic today in Deer Lake grove.

Martin Sweder, of Marquette, proprietor of the Lakeside Iron Works, was a Negaunee business visitor yesterday.

The work on the second story of Hugo Mock's building is going ahead rapidly. There will probably be completed by the latter part of the month.

Mr. and Mrs. E. R. Herman and Mr. and Mrs. F. Hoyer motored up from Munising in Mr. Hoyer's car Sunday. They returned that evening.

The Negaunee series of Eagles will meet this evening in Kirkwood's Hall. The officers request a large attendance. Special business will be considered.

The macadamizing of Marquette street from Iron street to the tracks of the Duluth, South Shore and Atlantic railway company is nearly completed.

Gilbert Christensen has returned from Ann Arbor, where he has been attending school during the past year. He will spend the summer months at his home in this city.

Miss Beatrice Jenkin has returned from Painesdale, where she taught school the past year. She was accompanied by her sister, Miss Ethel, who visited her for a week or so.

The Ishpeming Giants defeated the Rexall ball team Sunday morning at the Maas mine diamond. The score was 13-12, the feature of the game being two home runs by Rexall players.

The funeral of the late Mrs. William Gorman, who passed away Saturday afternoon at her home on Cherry street, will be held Wednesday morning at 9 o'clock from St. Paul's Catholic church.

Walter Lally, who is studying for the priesthood in a Quebec seminary, has returned home. He has been confined to a hospital for several months, and although he is improving it will be some time before he will be entirely well.

Dr. Holm, of the Finnish hospital, Sunday accompanied A. W. Carlson, the contractor, of West Superior street to Chicago, to consult Dr. Murphy. They were accompanied by Mrs. Holm, who will visit in Waukegon, her former home, for several years.

George Kappes has returned from the Porcupine district, where he has spent the past six months. He was engaged in diamond drill work. Mr. Kappes has several interesting pictures of a recent flood in that district. The water rose to the roofs of the dwellings.

Mrs. J. K. Osborn, of Barnum street, entertained yesterday afternoon in honor of Miss Boss Beatty of Houghton, who, with her mother, Mrs. A. J. Beatty, are

RESPONSIBILITY-

For many of our misfortunes lies largely in our lack of forethought. We must look beyond tomorrow. It is a vital matter in these days of "High Cost of Living" to save out of present earnings something for the future. It is not the 3% interest this bank pays on your deposit that is so important--To get into the habit of saving is of much greater importance.

visiting at the Osborn home for a few days. On Saturday Miss Beatty will be married at her home to William Perkins of Norway.

The Maas mine team leaves this morning for Marquette where they will meet the Marquette Tigers at the fairgrounds this afternoon.

The funeral of Mrs. William Rowe, a former resident of Negaunee, who died Friday last at Virginia, Minn., will be held this afternoon at 2 o'clock from the home of William Rowe, on Lincoln street, Rev. R. T. Hicks, pastor of the St. John's Episcopal church, will conduct the funeral service.

The Salisbury baseball team defeated the Dorrite nine on the latter's grounds Sunday, by a score of 16 to 0. The latter were Harris and Pellow for Salisbury and Harper and Brown for Dorrite. Harris had five strikeouts and Harper six. It was the fourth game the Salisbury team has won this season.

THE BRILLIANT STARS OF JUNE

By the end of June, Mars, Venus, Saturn and Jupiter will all be morning stars, but Jupiter's Honey and Tar Compound is at all times the "Star" medicine for coughs, colds, croup and whooping cough. A cold in June is an apt to develop into bronchitis or pneumonia as at any other time, but not if Foley's Honey and Tar Compound is taken. For sale by All Druggists.

CROSS-DAY PLAY WAS BRILLIANT

"In College Days" Presented to Large Audience Last Evening by the Northern State Normal Class of 1913—Pleased from Start to Finish by Its Novelty.

Individual Work and Capable Direction of Miss Gertrude Mosler Responsible for Its Success—The Musical Interpolations Were Spectacular Features.

The class of 1913, Northern State Normal school, last evening presented one of the most ambitious amateur theatrical entertainments that has been offered in Marquette in several years. "In College Days," a light, entertaining comedy, interspersed with seven musical numbers, three of which are original, furnished an evening of pleasure for an assembly that filled the theatre to the gallery. The appreciation of the audience was manifest by the almost continuous applause from the rise of the curtain on the first act, disclosing the campus of Campbell college with a group of students singing their college songs to the close of the last act, when these same students, clad in cap and gown and carrying small suitcases bearing the letters, "Northern State Normal," marched across the stage to the music of "Goodbye N. S. N."

A Typical College Plot.

From the opening of the first act the same elements of college "go" which made "Strongheart" and "The College Widow" successes in their day were noted. A football game between Campbell and Washburn, two mythical colleges typical of any large schools in the United States, in which Campbell expected to be defeated, turns out a victory for this school because of the star work of the halfback, Tod Woodbury, the son of a crumpled old millionaire, railway magnate whose pleasure seems to be the enjoyment of Washburn. How Tod happens to take part in the game is the basis of the pretty love plot. The story runs about as follows:

Charles Woodbury, president of the N. H. & R., impersonated by Tracy Kaye, and his son, Tod, which part is taken by J. E. Johnson, stop at Campbell college on their way to Washburn, a few miles farther on. While his father visits President Wilcox, played by Professor DeForrest Stull, who is an old friend, Tod visits the gridiron and participates in football practice. Here he is recognized by a famous player, who he tells the trainer that he is on his way to Washburn to continue his studies and to get into his favorite game. A conspiracy to keep young Woodbury at Campbell is hatched, and Miss Lucie Wilcox, daughter of the president, agrees to bring her influence to bear upon him. She is the typical "college widow" having with a long string of broken hearts to her credit. However after she has entangled young Woodbury in a dainty love plot, her usual behavior is modified and she finally accepts him "for better or for worse," just before the last curtain drops, much to the surprise of her associates, who had believed from the start that she was only "playing the game." Miss Jessica Bond assumed the part of the president's daughter. The star halfback, in the meantime, remains at Campbell, enters the team and leads it to victory in a thrilling game in the third act. This act ends as the hero is carried in on the shoulders of his teammates.

Comedy Parts Well Played.

Had it not been for the excellence with which every member of the cast of fifty persons carried the parts, a play built upon a plot that has been tried over so often as that of "In College Days" might have failed of its purpose—that of amusing purely and simply. The comedy was supplied by Morris Stevenson, carrying two parts, that of Joshua Fisher, "from the country," and Thaddeus Prentice, the town marshal. Garfield Wilcox as "Spud Fisher," a green freshman; Bartlett King as Pinky Wingert, a college "cut-up"; William Sobesky, as "Big" McCarty; and Miss Angeline Theriault as Maggie Belle Leonard, the daughter of the boarding house mistress, Messrs. Stevenson and Wilcox, as father and son, just off the farm, making their first appearance together early in the first act, "brought down the house." Bartlett King, who impersonated the type of college boy who is continually either getting into or out of ludicrous "serapes," was another whose presence on the stage meant fun in large measure. In the second act, William Sobesky, as the typical misfit who attends college to play football and is "worked off" on the department of art in order to meet collegiate qualifications, was the center of the comedy. After draining the punch bowl in the scene that depicts a faculty reception, causing undue disturbance because of his appearance in an evening coat, high vest and four-inch-hand tie, his exit with "Spud" Fisher, he of the hickory shirt, flaming necktie and green socks, from a circle of beautifully gowned women and well-roomed men created a laugh that was not lashed until after the curtain dropped. Miss Theriault was the only girl who appeared in a strictly comedy role and her work was remarkably clever.

Admirable Work by Principals.

Much of the credit for the success of the production lies with Mr. Johnson, Miss Bond, Tracy Kaye, Austin Catlin and DeForrest Stull. The latter, who admirably carried a difficult role introducing rich satire, had it thrust upon him less than a week before the play was ready to be presented, owing to the unexpected illness of Grover Quarters. Austin Catlin took the part of Ralph Sherwin, the football coach, and he played it well. Mr. Catlin also acted as the stage manager. Miss Bond's work as Lucie Wilcox was a feature of the play. Gifted with remarkable dramatic talent, at ease before the footlights, she made all that was possible of her part. Miss Bond is a strikingly pretty young woman, with a charming stage presence and a manner that bespeaks of a brilliant future. She should be chosen to follow up dramatic work. Mr. Johnson was naturally fitted

to handle the important role in which he was cast and made an excellent impression. Musical Numbers Are Features.

The seven musical numbers, introduced incidentally, were tuneful and were well sung. Seventeen young women and six young men participated in the chorus work. This was strictly of a musical comedy nature. In the first act, "If I Had a Million," with Earl Ross as soloist, and "Why Don't You Whistle It," featuring Miss Louise Hanson, were well received. In the second act, "Just Say You Care at All," by Miss Magda Grotte and chorus, was a charming number. These songs were taken from "The Idle Idol," a musical comedy produced at the University of Kansas in 1910 by Miss Gertrude Mosler, under whose direction "In College Days" was given.

The fourth act opened with an aesthetic dance by the Misses Gertrude Purchase, Louetta Wareham, Clare Younger, May Kraft, Theresa Dillon, Magda Grotte, Louise Hanson, Mabel Wright, Elvina Ostrom, Florence Keightley, Myrtle Lehman, Lillie Champton, Florence McDonnell, Constance Cleary, Margaret DuMonde and Harrietta Peterson, in Grecian costume. Each carried a censor at the opening of the dance, but later changed these for long spangled scarfs with which they accentuated the aesthetic movement. This dance was given on a darkened stage, a powerful calcium ray being the only source of illumination. An altar in which incense smoldered was set in the center. The dance was one of the most difficult numbers in the piece and weeks had been spent in teaching it. It was a striking success, and was repeatedly encored. The music was "A Dream of Heaven," a waltz used in the class song of 1911. In the closing ensemble in the fourth act a background showing in black and white the completed group of Normal buildings elicited much applause when it was lowered as the 1913 class song was being sung. This was given for the first time in public in the ensemble.

A Successful Class Day Exercise.

"In College Days" was in every way a most successful class day exercise and one which reflects much credit upon the class of 1913, which will be formally graduated this morning at the Marquette Opera House when the commencement exercises proper will be held, beginning at 10:30 o'clock. Dr. Nathaniel Butler, head of the department of education, University of Chicago, will deliver the commencement address and the diplomas will be presented. The public is cordially invited to attend this exercise. The alumni annual dinner which was to have been given at 1:30 o'clock at the Town and Country club, has been abandoned.

"SOMETHING DOING" EVERY MINUTE TODAY

Midsummer Day 1913 Is a Big Occasion for Marquette—Numerous Attractions.

Today, which is Midsummer Day, or St. John's Day, whichever one may choose to call it, is a day of many and varied attractions in Marquette and it promises to be a holiday such as the city has not known in years. The Society St. Jean Baptiste will observe the occasion by a county celebration, in which the Neegaunee, Ishpeming and Republic lodges will join. Sparks' circus will hold forth afternoon and evening; the Scottish Rite Masons open the first meeting of the Francis M. Moore consistory today, which in itself would, under ordinary circumstances, be a big event for this city; the Normal School commencement exercises in almost every available vacant lot, and in the evening the Society St. Jean Baptiste will give its annual Midsummer Night ball.

This morning the advance guard of the Grand Rapids consistory, which is to exemplify the work in the consistory degrees for the candidates of the Francis M. Moore consistory, will begin to arrive. The consistory choir will arrive on the early Northwestern train, coming by way of Chicago. The evening train should bring the degree team. Every incoming train today will bring the 150 or more candidates who will assemble from all parts of the upper peninsula. The Normal school commencement exercises will begin at 10:30 a. m. in the opera house. Dr. Nathaniel Butler, head of the department of education, University of Chicago, will deliver the address. The public is invited to witness this formal graduation of one of the largest classes that has ever completed the Normal course at Marquette. The closing of the school until the summer term will see an exodus of students from the city.

A special train from Republic will arrive at the South Shore passenger station at about 9 a. m., bringing the out-of-town delegation to the county celebration of St. John's Day. The train will be met by the Marquette society, headed by Klamer's hand. The visitors will march in procession to St. John's church, where a special solemn high mass will be sung by the Rev. Father Jodrey, assisted by other members of the clergy. After the services, the societies will again march to the depot, where awaiting trains will take them to the fairgrounds. Here dinner will be served by the wives and daughters of the society members at noon, in the administration building. After dinner there will be dancing, horse racing and athletic sports for men and women, young and old. At 5:30 supper will be served. The last train will leave the fairgrounds for the city at 6:30 o'clock. The special will leave returning to Republic at 7:30 o'clock. There will be a baseball game at the fairgrounds between two amateur teams, in addition to the other attractions of the day.

At Union park today the Marquette and Ishpeming and the Neegaunee and Gwin baseball teams of the Marquette County league will play regular league games, the first, that between Marquette and Ishpeming, at 1:10 o'clock. Marquette fans may reach the park in time to witness the first contest by leaving here on the 1 o'clock train. The players will leave at noon by automobile. The second game will be called immediately after the close of the Marquette-Ishpeming contest, probably at 3:30 o'clock.

"In College Days" will please you. 6-20-3t. Remember "In College Days." 6-20-3t.

COMMISSION PLAN ADOPTED

Men Who Will Frame New Charter Last Evening Voted Unanimously to Submit to Voters of Marquette Proposal for Fundamental Change in Government.

Several Committees Appointed to Report Friday Night on Important Matters, Preliminary to Undertaking of Actual Work Toward Framing New Instrument.

The men the voters have entrusted with the task of framing a new charter for Marquette will formulate an instrument that will propose the commission form of government. This, and the future course of their deliberations, was determined last evening by a unanimous vote, with the full membership present. The momentous decision was arrived at by the adoption of the resolution presented by Commissioner Lautner at Friday night's session and which was laid over until last evening at the request of a charter commission, composed of one member from each ward and three from the city at large, for the purpose of framing a charter from the city of Marquette.

Whereas, the provisions of this bill have been complied with is the election of a charter commission, composed of one member from each ward and three from the city at large, for the purpose of framing a charter from the city of Marquette; "Resolved, That the said charter commission shall immediately proceed to frame a charter for the city of Marquette providing for the election of a mayor and four commissioners, who shall be vested with legislative power, and provide for the appointment of a clerk, a treasurer and an assessor, said mayor and assessors to be elected by the qualified electors of the city at large and to be known and designated as the commissioners of said city; and to incorporate in the said charter all necessary powers for the government of the city not inconsistent with the constitution and general laws of the state."

Work to Be Expedited.

On the heels of the disposal of the question as to the kind of charter to be framed, the commissioners reiterated their purpose to proceed energetically with their task, and they were appointed to report at Friday night's session on several matters that must be disposed of before work on the main body of the instrument can be undertaken. They are as follows:

Nominations—Clark, Small and Brown. Manner of election—Clark, Small and Godwin. Term of officers and compensation—MacKerzhan, Brown, Lautner. Tentative division of city departments—Lautner, Godwin, Clark, Gannon, Ross. It is expected that the reports will be exhaustive and will give the commissioners material on the basis of which they will be able to arrive at final decisions, so that the actual framing of certain parts of the charter may be started.

Attorneys Will Draw Charter.

The actual work of drawing up the new charter will rest largely with Harlow Clark, one of the members of the board and the only attorney on it, and George P. Brown, the city attorney. Mr. Clark volunteered his services last evening.

The actual procedure of making the charter will be comparatively simple. The commissioners will settle questions of policy as they come up, one at a time, and then the attorneys will embody the commission's ideas in a prospective section of the new charter. When this is complete and their satisfaction is reported to the commission for discussion, if desired, amendment.

It is the purpose to have the attorneys constantly busy with the formal statement of the commission's ideas, while the members are advancing to new ground and discussing various provisions it is proposed to embody in the charter. This procedure, it is expected, will result in having the charter largely framed by the time the commission has decided on the final provisions that are to be embodied in it, and it is believed that it will make possible the completion of the work well within the ninety days mentioned in the home rule bill. It is likely that the commission will soon meet oftener than once a week, this depending on the progress made with the work. From now on, it is promised, the ground will be covered as rapidly as is consistent with careful work.

Decision Was Expected.

The decision of the framers of the new charter to propose the commission form of government has been anticipated, but it has been by no means certain that it would be arrived at by unanimous vote. Two or three of the members have been critical of the attitude toward the arguments for the commission plan, and have evidently been not entirely convinced that it would be advisable to propose a radical change in the present form of city government. The weight of the argument before the commission by persons having official position in the present government and by other Marquette men who have addressed the board has, however, been strongly favorable to the commission plan. It has been stated, also, that some of the men who proposed opposition to the commission plan presented, in the course of their discussions, strong arguments for that plan, in the criticisms they made of the present form of government.

Much Work to Be Done.

The decision to submit a commission charter only marks the beginning of the work of the charter framers. All that has gone before has been merely preliminary, and now it will be necessary to do much close work to evolve a satisfactory instrument. The commissioners plan a careful study of charters of numerous other cities with an idea of securing the best possible scheme for Marquette. The meeting Friday night is expected to give definite direction to their work.
