

COL. MULLHALL SUBROGATED BY LOBBY PROBERS

Baltimore Man Who Recounts Amazing Things in Published Articles Over His Sworn Signature Will Be Examined by the Senate Special Committee.

Claiming to Have Represented the Manufacturers in Matters of Legislation and Politics for 20 Years, His Claims Are Sensational—Implicate Law-Makers.

Washington, June 29.—Further sensationalism in the senate lobby investigation was foreshadowed today when it became known that a subpoena had been served upon Colonel Martin M. Mullhall, of Baltimore, reported to have been for twenty years the active "field agent" and lobbyist of the National Association of Manufacturers.

The subpoena was ordered by Chairman Overman of the lobby committee, after representations had been made to him that Mr. Mullhall was willing and able to give the committee important facts regarding attempts to influence legislation, to elect or defeat candidates for congress and to control the make-up of committees of congress. A sergeant-at-arms of the senate served the subpoena upon Mr. Mullhall late last night in Washington.

Allegations Sensational. The nature and extent of the disclosures that are expected were outlined in an article published today, over the sworn signature of Mr. Mullhall, in New York and Chicago papers. The statement purports to be Mr. Mullhall's personal history as the representative from 1903 to 1912 of the National Association of Manufacturers and his relations with the names of congressmen whom he alleged were "subservient" or who were punished for their opposition to legislation favored by the association.

The allegations that he had helped to defeat congressmen who opposed the interests of the manufacturers; that his organization had spent thousands of dollars to elect congressmen expected to be sympathetic to their influences; that he had aided in procuring favorable members on committees that handle labor legislation; and that his associates had used great efforts to procure the establishment of a federal tariff commission in 1908, as a means of delaying tariff revision, are contained in the long article over Mr. Mullhall's name.

The facts alleged in the striking story of legislative lobbying and political cannying were not laid before Chairman Overman prior to their publication. He said today, however, that the story was so circumstantial in its details that he expected the committee to go to the bottom of the allegations and to uncover any new angle of "insidious lobbying or pernicious political campaigning that might be discovered."

Many Solons Mentioned. The Mullhall article names many former and present members of congress who were alleged to have been active agents in support of legislation desired by the National Association of Manufacturers. It specified employees of congress who had been retained to procure information, and alleged that even the page boys of the house of representatives were used to pick up information about proposed legislation.

The writer said he had spent more than \$200,000 in his lobby and political work and had conducted state and national campaigns; helped to break up labor unions, and had personal knowledge of the extent to which influence exerted by his associates had swayed legislators and legislation.

Senator Overman said tonight that subpoena would also be issued for James A. Emery, representative of the National Manufacturers' association at Washington, whom the Mullhall article designates as "chief lobbyist" for the association at Washington, and for former Congressman James G. Watson, of Indiana, referred to in the Mullhall statement as an "insidious lobbyist" for members of the Manufacturers' association who were leading the fight for a tariff commission in 1908. He said the committee would determine at a meeting on Monday, July 7, as to the summoning of other congressmen or former congressmen and officials of the National Association of Manufacturers.

"The lobby investigation has gone far beyond its original scope," said Chairman Overman today, "and I do not see any course for us to pursue but to ask for more power from the senate and to go into every phase of the remarkable situation that has been developed."

DATES IN TARIFF BILL CHANGED BY SENATORS.

Washington, June 29.—Postponement of the date on which the new sugar tariff shall go into effect until March 1, 1914, and a change of the date when the same tax shall be operative—from Jan. 1, 1913, to March 1, 1913—were agreed upon by the majority members of the senate finance committee today. In announcing the date when the proposed rate of a cent a pound on sugar shall be applied, the committee did not amend the statute to affect the provision that sugar shall go on the free list May 1, 1915. That provision remains as it was originally in the bill which passed the house and which the senate Democratic caucus approved last week.

OPIMUM CONFERENCE TO RECONVENE TOMORROW.

Washington, June 29.—With the purpose of taking the last step necessary to cut out the international traffic in smoking opium, cocaine and other narcotics and habit-forming drugs, representatives of nearly all the nations of the world will gather at The Hague next Tuesday to continue the international conference which adjourned in that capital Jan. 23, 1912.

The purpose of the present gathering is to ascertain whether a sufficient number of powers will join in ratifying the international convention looking to the suppression of the opium traffic, drafted by that conference, to insure its successful operation.

Opium has long been a cause of serious international conflict, China and Great Britain having gone to war on the subject in 1840 when the "opium war" finally resulted in the cession of Hong Kong to Great Britain. The recent movement for the suppression of the trade in habit-forming drugs is American in origin.

HARRIMAN MERGER PLAN, APPROVED BY PRESIDENT, WILL BE PRESENTED TODAY.

Washington, June 29.—The plan for dissolving the Union Pacific-Southern Pacific merger which Attorney General McReynolds, with the approval of President Wilson, has agreed upon with the officials of the railroads will be presented to the federal court at St. Paul, Minn., tomorrow.

The attorney general tonight gave out the plan for publication in the newspaper tomorrow morning, but later withdrew it, with the request that it be withheld from publication until after it actually has been presented in court.

It became known several days ago that the new plan for dissolving the merger contemplated the Union Pacific giving up its entire holdings in the Southern Pacific, \$28,000,000 worth of the shares to be exchanged for the Pennsylvania railroad holdings in the Baltimore & Ohio railroad and the remainder to be disposed of to the public through a trust company. Details of the plan, however, were withheld by agreement between the government officials and the railroads.

ZACH CHANDLER STATUE TO BE UNVEILED TODAY.

Washington, June 29.—A marble statue of Zachariah Chandler, once governor of Michigan, will be unveiled tomorrow in Statuary Hall in the Capitol. Michigan's senators and representatives are to be the guests of the exercises that will attend the unveiling.

MR. OWEN DOUBTS BANKS WILL REBEL

Administration's Currency Bill Makes for Stability, Says Senate Chief.

Washington, June 29.—Senator Owen, chairman of the senate banking and currency committee, issued a statement today explaining the terms of the administration currency bill, which he believes will become law before the end of September.

The senator commented upon the probable effectiveness of the measure in improving financial conditions, and said the chief end in view was to make bank reserves more mobile and to provide an elastic currency for times of need. "It has been suggested," said Senator Owen, "that some of the largest national banks might go out of this system and become state banks because of their displeasure at not having representation on the governing federal reserve board, and because they are not satisfied to have their correspondent banks put a part of their reserve in the federal system and for the further reason that they were displaced at the United States issuing public currency and in the bill not giving the right to the reserve banks to issue the currency of the country. They have taken infinite pains to ascertain the reasons for these objections and feel justified in saying that there is no reason to apprehend that any national banks will go out of the system because of the provisions of this bill, but that they will generally rejoice at the opportunity afforded them of having a more stable condition in the financial and commercial world."

TWO WOMEN LAWYERS TO DEFEND MISS FLYNN AT TRIAL AT PATERSON.

Pateron, N. J., June 29.—Elizabeth Gurley Flynn's trial begins here tomorrow. Inciting silk mill strikers to assault workers is the charge. The counsel for the defense will include two women members of the New York bar, Misses Inez Millholland and Jessie Ashley. The indictment charges that Miss Flynn, on the first day of the strike which began in February, advised strikers: "I understand that some of you want you to go in a body through the streets to each of the mills and drive them out, club them out, kick them out. Do this if it takes your entire force."

This alleged remark by Miss Flynn is said to have preceded the arrest of Patrick Quinlan, another leader, for which the latter was convicted. He took an appeal.

STRIKERS' FRIENDS MAKE THREE TOWNS PHONELESS.

St. Louis, Mo., June 29.—Every Bell telephone in Venice, Granite City and Madison, Ills., was put out of commission today when a heavy lead cable, opening to the Granite City office, was cut by sympathizers of the striking girl operators. Fifteen of the company's guards, heavily armed, were led out of Granite City by police escort. The exchanges in the three towns will remain closed until the two hundred lines are repaired.

New River Coal Strike Averted.

Charleston, W. Va., June 29.—The opinion prevails tonight that a general strike in the New River coal field, where from 1,500 to 3,000 miners are employed, has been averted, as a result of conferences between Governor Hatfield, coal operators and miners' officials. Official sanction, however, has been given by the United Mine Workers of America for a general strike on Paint Creek and Cabin Creek, where rioting and bloodshed occurred during 1912 and 1913.

FEDERAL GAOL IS SHY TWO OF ITS PRISONERS

Most Daring Escape That Warden McClaughry Can Recall During His Career of Thirty-Nine Years Takes Place at the Penitentiary at Leavenworth, Kansas.

Pair Now Missing Saw Bars Both of Their Cell and a Window and Gain the Wall by Means of an Ingenious Contrivance—They Leave Dummies in Their Beds.

Leavenworth, Kas., June 29.—An all-day search for Richard Osborn and Walter Leyman, convicts who made a daring escape from the federal prison early today, was unavailing, and tonight the men still are at large.

Osborn, serving eighteen years for a robbery in Washington, D. C., had made previous efforts to escape, in one of which he had scaled the prison wall before being apprehended. Leyman, his cellmate, serving three years for counterfeiting in California, also had made a previous effort to get away while here. He escaped once from McNeil Island, the government prison on the Pacific coast, but was recaptured.

Osborn was the chief shaker of the prison. He was a perfect workman and his good humor had earned him the confidence of the prison officials. Last night a guard walked by the cell of Osborn and Leyman repeatedly. After 10 o'clock this morning he was called to attend a convict in a nearby cell. Passing Osborn's cell, the guard discovered the bars had been sawed. Inside, on the cot of the convicts, lay dummies.

Stout Bars Sawed Through. The escaped men had sawed the bars in their cell door and in the cell house window, ten feet away. To complete the latter work they had to stand in the corridor in view of the other cells. Crawling through a small hole in the window, the men lifted themselves to the roof of the cell house by means of apparatus resembling a mechanic's rule. It was made of blocks of wood riveted together and on the end was a hook with which the men could draw themselves up. The device was found on the prison wall where the convicts had placed it to lower themselves to the road beside the prison. The guards remembered hearing a motor car shortly after midnight, and it is presumed it was in this that the men made their getaway.

"It was the most daring escape I remember since I have been in prison work—thirty-nine years," said Warden McClaughry. "Osborn ranked with Dick Turpin and other dangerous men of pick-pocket fame in the world of crime, and on history. I do not understand, however, how the pair could have cut the bars both of their cell and the window without discovery, unless there was 'drowsiness' in the cell house."

IN LONG VOYAGE BY ROWBOAT.

St. Paul, Minn., June 29.—Andrew Koehn, U. S. N., who is making a voyage in a rowboat from the source of the Mississippi river to the Gulf of Mexico, arrived here early today, and after a short stop continued on his way. During the last twelve days Koehn has rowed 527 miles from Lake Hasen to St. Paul. He has worked at the oars sixteen hours a day.

BASEBALL

Home Run by Crawford Decides Game at Detroit and Regains 6th Place for Jennings' Aggregation. Hal Chase's Batting Wine for the Chicago Sox.

STANDINGS OF THE TEAMS.

Table with columns for American League and National League, listing teams and their records (W, L, P.C.).

YESTERDAY'S GAMES.

Table listing yesterday's baseball games, including American League and National League results, scores, and key players.

The Weather

Washington, June 29.—The following is the weather bureau's forecast for Upper Michigan: Local thunder showers, Monday, and cooler; Tuesday, fair and cooler; moderate south to west winds.

FIRE DESTROYS FAMOUS STABLES.

Lexington, Ky., June 29.—The Tattersall stable, famous for the auctions of noted race horses, were destroyed by fire here today. Twenty horses worth \$15,000 were lost, and about a hundred were sustained by their trainers in an effort to rescue them. The total loss will be \$33,000.

HEAT AT CHICAGO KILLS 40 IN 5 DAYS

For More Than 120 Hours the Mercury Hovers About the 90-Degree Mark.

Chicago, June 29.—The fifth day of unmitigated heat brought the death toll from heat strokes from this hot spell here to above forty tonight. Ten deaths during the day were reported by the police and there were hundreds of prostrations, taxing the capacity of the hospitals.

The maximum temperature here today was ninety. The mercury stuck near that point nearly all day. For more than 120 hours, the thermometers have registered around that figure, and neither night nor day has there been a lull breeze sufficient to comfort the suffering. Thousands rushed to the lake for relief, and several drownings were reported, with half a dozen additional drownings from sunstroke during the day. The Central states for several days is in sight. In its weekly bulletin tonight the weather bureau predicted that the extreme heat would be broken in the plains states on Monday or Tuesday and a cool wave then would move slowly eastward.

FARMERS WORSHIP IN BIG TOWNS NOW

Motorcar Era Blamed for Desertion of 1,200 Kansas Rural Churches.

Manhattan, Kas., June 29.—What is to become of the twelve hundred country churches in Kansas, abandoned and deserted because of a lack of interest in church work? Rural pastors, agitators and preachers will try to answer that question at a four days' conference that will begin here July 2.

Professor E. L. Holton, head of the rural and vocational education department at the state agricultural college, who issued the call for the conference, says the era of motor cars on farms has brought another problem for the church to solve. Distance now is such a small item that the farmer with a motor car is tempted to leave the little church in the country and take his family to a larger house of worship in town, where there are a pipe organ and a choir and where the pews are a little more comfortable.

ARMIES OF OLD AGAIN IN CAMP AT GETTYSBURG

From Dawn Till After Sundown, Veterans in Blue and in Gray Arrive in More Than Thirty Trains to Participate in Semi-Centenary of Famous Battle.

Sun Is Scorching Under a Cloudless Sky and Many Old Soldiers Succumb; but There Is No Complaining—"Still Hotter 50 Years Ago," Says ex-Warrior.

Gettysburg, Pa., June 29.—Gettysburg looked fifty years backward today into the halo of history and looked again upon an army of blue and an army of gray meeting on her doorstep—this time to join in the semi-centennial celebration of the greatest battle of the war between the states and to show the world that scars are not so deep as the feeling of American brotherhood.

From early morning until long after sundown, veterans in blue and in gray trooped into the little town which has slept so peacefully among its hills since Lee and Meade turned their legions southward so long ago. More than thirty special trains came into the village during the day, and thousands of veterans who tramped up from the Shenandoah on their last visit rode in the luxury of soft-back day coaches from Harrisburg, Baltimore and Washington.

Instead of the roar of guns, the thunder of charging cavalry and the vocal tribute of the mule drivers that greeted them in the other days, the old soldiers walked or rode through the quiet, calm Sunday of a country town. Only the flags flying from every window, the city of tents in the distance and the crowds that Gettysburg had come out of the usual into the extraordinary once more.

Old Sol's Rays Prostrate Many.

From the station of the two railroads that come into the village is a good long mile to the camp of five thousand tents where the veterans are housed. Many of them made the trip by automobile or by carriage or in the friendly shelter of a "seeing-Gettysburg" car, but thousands wearing their suitcases and walked. The sun was scorching hot under a cloudless sky, and many succumbed before they found their tents. There was no complaining, however, and the veterans seemed reluctant to acknowledge that the heat was hot.

"It's hot," said one old soldier tonight, "but it isn't as hot as it was fifty years ago." Although the regular army and the Gettysburg commission of the state could not cope with the heat, every possible arrangement for the comfort of the united armies has been made. The camp of tents is under the direction of officers of the regular army. The streets of Gettysburg are under the grim scrutiny of the Pennsylvania constabulary, and for the care of the sick the army, the state and the Red Cross all have made extensive preparation.

Tents Pitched on Historic Ground.

The tents fall westward with the slope of the ground from the Emmittsburg road to the point on Seminary ridge where the immortal charge of Pickett started on the first day of the fight. They cover the "deep orchard" and the "wheat field," where thousands

of men were lost, and part of the ground over which Pickett charged; but they do not reach to the "bloody angle" or to the base of Cemetery ridge, from whose height Meade's artillery poured out its merciless rain of grape and canister and cut to pieces the legions of Pickett.

The formal exercises will be held in a big tent near the Emmittsburg road, but they will last only two hours each day, and the remainder of the time the veterans will spend as they please.

MISSOURI RIVER YIELDS BODY OF GEO. TOWNSEND, PROMOTER OF RAILWAYS.

Kansas City, Mo., June 29.—The body of George Townsend, a wealthy Chicago railway promoter, who disappeared last Tuesday, was found today on a small strip of land in the Missouri river six miles west of Kansas City, Kas. It had been washed ashore. The body was fully clothed.

Eight hundred dollars' worth of jewelry, which Mr. Townsend was in the habit of wearing, was missing. It is believed, however, that Mr. Townsend placed his valuables under the hat that he left on the river bank, and that someone appropriated them. Congressman Edward Townsend of New Jersey said he was satisfied his brother had not been robbed before he jumped into the river.

The body will be cremated and the ashes scattered over the roadbed of the Kansas City, Clay County & St. Joseph interurban line the last railway built by the dead promoter.

PUGILIST JOHNSON SAILS; SAYS HE WILL GET BACK TO CHICAGO BY NOVEMBER.

Montreal, Can., June 29.—Jack Johnson, the negro pugilist, accompanied by his white wife, Lucille Cameron Johnson, left for Havre on the Allan liner Corinthian at 3 o'clock this morning. They boarded the steamer last night in the presence of Canadian immigration officers, who will watch the immigration of Europe until he is beyond their jurisdiction.

Just before going aboard, Johnson reiterated his declaration that he had no intention of forfeiting his bail bonds in Chicago, and was going to Europe to recuperate by boxing contests. He has been sustained in his trial. He declared he would be in Chicago when his appeal from a white slave conviction is argued in November. Johnson took with him two automobiles.

LONDON POLICE WIN IN THRILLING BATTLE

Suffragettes Fail in a Downing Street Raid Directed at the Ministry.

London, Eng., June 29.—Miss Sylvia Pankhurst, leader of Mrs. Emmeline Pankhurst, the suffragette leader, led an attacking party to Downing street this afternoon for the purpose of imprisoning the cabinet ministers. The expedition was unsuccessful. The attempt to capture Downing street failed, but the victory of the police was not one without a series of serious scuffings, in which both police and women were injured.

Miss Pankhurst appeared at a demonstration in Trafalgar square in favor of free speech. She denounced the Rt. Hon. Reginald McKenna, the home secretary, for "killing my mother." Then she invited the crowd to go to Downing street and "imprison the ministers in their own houses."

At the head of a large body of sympathizers, many of whom were dock workers, Miss Pankhurst marched down Whitehall with the flag of the Women's Social and Political union surmounted by a liberty cap. The police, however, had been apprised of the intention of the demonstrators and had thrown a strong cordon around Downing street.

The dockers tried to break through and some of the women went to their aid, but were severely handled. In the fighting, women were thrown to the ground and the dockers were clubbed. Many were arrested. Finally, mounted police dispersed the crowd.

BALKAN PEACE OUTLOOK IS CONSIDERED IMPROVED DESPITE FURTHER FIGHTING.

Sofia, Bulgaria, June 29.—The prospects of a peaceful settlement of the Balkan situation are considered improved. It is said that Premier Danef will go to St. Petersburg and it is rumored that the Bulgarian government is prepared to make some concession to Serbia. Danger continues, however, in the military situation. It is reported tonight that the Serbians are concentrating large bodies of troops on their advance line. Heavy outpost firing persists between Zetovo and Istib and another engagement has occurred between the Greeks and Bulgarians north of Laftera.

ADRIAN (MICH.) PITCHER HURLS A NO-HIT GAME.

Adrian, Mich., June 29.—Loomis of the Adrian team of the South Michigan league today pitched a no-hit game against Bay City. Only twenty-seven men faced Loomis, and of these none struck out. In the ninth inning the first man up reached first on an error but the next batter hit into a double play and the third man fanned.

KEEP SILENCE TEN YEARS.

Pittsburg, June 29.—After ten years with his wife, sleeping in the same room and eating from the same table, yet never exchanging a word, Lorenz Benz, a millionaire of South Hills, has filed a suit asking divorce on grounds of cruel and barbarous treatment. Benz is sixty-four and his wife is fifty-eight. According to Benz his married life until ten years ago was patterned after Dante's "Inferno." At that time he was taken sick and his wife, instead of caring for him, repeatedly wished him lying in a cemetery. After recovering from his illness he and his wife agreed never to speak to each other as long as they lived. The pact has been kept.

PHILADELPHIA, June 29.—Alfred H. Loomis, president of the Universal Peace union, since its formation in 1856 as one of the world's foremost workers in the cause of universal peace, died at his home here today, after a brief illness. He was eighty-three years old.

Chicago, June 29.—Colonel William S. Edson, widely known as a hotel owner and manager, died today at a hospital, after two weeks' illness. He was seventy-two years old. He was Colonel Edson first added to the celebrity of a hotel by fastening as a unique decoration in the marble floor one of the most frequent parts of the establishment a large number of silver dollars.

POLICE BELIEVE MOTHER GUILTY OF BLOODY DEED

That Mrs. Augustus Ekman Murdered Her Twelve-Year-Old Daughter, Found Dead in a Trunk, Is Confession She, Herself, Makes at Salt Lake City.

To Hide Woman's Alleged Dual Life from Husband Absent for Nearly One and a Half Decades Is Given as a Motive—Couple Married at Hancock, Mich.

Salt Lake City, June 29.—Frances Williams or Ekman, a twelve-year-old girl found dead in a trunk at Ogden yesterday, was murdered by her mother, Mrs. Augustus Ekman, according to the police tonight. A post-mortem over the body of the child here today disclosed that she had not been assaulted. This was taken to confirm the mother's story, which, according to the police, is that she herself chloroformed Frances to prevent C. L. Anderson, her former husband, learning that she had an illegitimate child. The fact that the girl's life was insured for \$150 also may have had an influence, the police say.

According to the story now accepted in large part by the police, Anderson arrived here on Wednesday from Los Angeles at his wife's solicitation. He married her more than fourteen years ago at Hancock, Mich., and his coming here was for a reconciliation. Just before he arrived Mrs. Ekman, by her own confession, murdered her daughter by giving her chloroform and put the body in a trunk. After spending the night in a Salt Lake hotel with the gruesome trunk in their room, the couple went to Ogden. Anderson did not know what was in the trunk, which was handed aboard from place to place, until arrests were made yesterday. Mrs. Ekman, intellectual, talented and apparently rational, agrees to these details without a sign of emotion.

Anderson left Mrs. Ekman fourteen years ago in Hancock, Mich., according to Mrs. Ekman, to escape arrest after killing "an Irishman." A year later Mrs. Ekman met George Williams. He left her after Frances was born. Four years ago she married Augustus Ekman, although she was not divorced from Anderson. Ekman, now in Klamath, Wyo., says the woman told him that Anderson had murdered a man in Michigan. Anderson denies the charge.

In the absence of Ekman, Anderson came here after his arrest, and stated that she had been waiting faithfully for his return for fourteen years.

CHICAGO JURY CONVICTS TWO ALLEGED MEMBERS OF SO-CALLED ARSON TRUST.

Chicago, June 29.—The first convictions in the so-called arson trust, in which forty-six men were recently indicted by the Cook county grand jury, were gained here today after a jury had deliberated more than twenty hours. Edward J. Conroy, a former insurance merchant, and Joseph Clarke, a public fire insurance adjuster, were found guilty of causing a fire in the Covitz place of business on Nov. 5, 1912.

Conroy, who called himself "the torch" and who lighted the fire, was the chief witness against the three men. He testified that Clarke had given him \$700 to start the fire. The Covitz brothers are at liberty on \$40,000 bonds and Clarke is out on \$75,000. This surety will be allowed to stand until a motion for a new trial is disposed of.

DURBOROW AGAIN FAILS TO REACH THE GOAL IN LONG SWIM AT NEW YORK.

New York, June 29.—Charles Durborow of Philadelphia made another attempt today to swim from the Battery to Sandy Hook, but was forced to give up by the strong tide within three-quarters of a mile of his goal. He was in the water seven hours and thirty-five minutes and the distance covered was estimated to be about 2 1/2 miles. Newspapermen who accompanied the swimmer in a power boat said Durborow was blind from the action of the water on his eyes for fully an hour after he was lifted into the boat. Durborow said he would never attempt the feat again.

RESCUER LOSES A LEG IN SINGULAR ACCIDENT

St. Louis, Mo., June 29.—William Bleakley, aviator, and Henry Brooker, city councilman of St. Charles, Mo., fell four hundred feet with a hydro-aeroplane into the Missouri river near St. Charles during the regatta of the St. Charles Boating association today. In rescuing them, George L. Holton lost his right leg when it was caught between a rope and the steering wheel of a motor boat.

THOSE WHO HAVE DIED.

New York, June 29.—Frederick A. Booth, philanthropist and religious worker, died suddenly at his home here today, aged forty-six.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

Subscription Rates: Per year, by mail, \$6.00 Per month, by carrier, \$0.50

Entered as second class matter of the second class in the postoffice at Marquette, Mich. MONDAY, JUNE 30, 1913.

INTEREST IS WANING.

The Upper Peninsula Firemen's association may not survive the year, according to a report that comes from Red Jacket, where the annual tournament is slated to be held this summer. Only two teams have entered for the track events, and the local committee cannot see the wisdom of raising the \$1,500 necessary to provide the track and the prizes, if only two teams are to compete. It is suggested that unless there is a speedy display of interest the tournament may be abandoned altogether, and the assertion is made that if Red Jacket cuts out the running events this year it will probably be the death of the Firemen's association.

This is not at all unlikely, for the running events have been the only features of the annual tournaments that have made them distinctive firemen's affairs. Outside of these events, the features they have provided have been those that might as well characterize a homecoming week or the hilarity that attends a visit of a street carnival.

The possibilities of the Firemen's association have hardly been realized. It has had little serious significance. The annual meetings have not contributed to the efficiency of the fire fighting forces of the district in any material manner. No papers on fire fighting problems have been read and discussed, and the delegates have been principally concerned with electing the new officers and choosing the place where the next tournament should be held. If the association had been conducted on different lines, made of more vital interest and concern to the firemen, it could not now be said that the collapse of the running events would probably mark its finish.

The annual firemen's tournament has been a three days' jubilation for the members. Its significance has been that of an occasion given up entirely to somewhat riotous pleasure. The firemen have enjoyed it, in the main, and can be depended on to keep the association intact for the particular purpose it serves as long as they continue to enjoy it. If the annual pleasures of the tournament have paled on them and have become monotonous because of their sameness, the event may very well be given up. It is peculiarly a matter for the firemen to decide. The public's interest in it is very remote.

MEXICO AGAIN.

The latent interest in the affairs of Mexico will be aroused by the discussion of the subject precipitated by the criticisms directed by Senator Fall, of New Mexico, at the administration policy, particularly at the contradictory condition that while it denies formal recognition to the Huerta government it nevertheless recognizes it sufficiently to permit the free shipment of arms to its representatives, while refusing to permit arms for the revolutionists to pass the border.

Senator Fall is one of the numerous Americans who regard Huerta as a bloodguilty traitor to a constitutional government, and as entitled to no consideration. His present complaint at the policy of the administration, however, is based on his assertion of its effect on American interests. As a result of the discrimination by the government in favor of the Huertistas, Senator Fall says that the Mexican revolutionists, angered at their inability to get arms across the border, are led to undertake reprisals against these interests, with the result that they have suffered much more severely than they would have if the attitude of the American government was one of neutrality.

It is a fair deduction from his reasoning on this subject that Senator Fall would have the Huerta faction—for it is more a faction than a government—put on a basis of equality with the revolutionists, the combatants to be allowed to fight the thing to a finish in the hope that finally, on some basis, a stable government would be evolved.

The Mexican situation is one that the administration is handling gingerly, in the hope that it will presently solve itself. It shares with the administration its feeling that intervention would be a great calamity for this country, and is thus a step that should be undertaken only as a last resort. It is reluctant to recognize the Huerta government, and still feels compelled in some respects—as in the matter of the arms—to take cognizance of the fact that it has the closest resemblance to a government of anything to be found in Mexico. It is a trying situation at the best, and there need be no surprise that there are apparent contradictions in the administration's attitude towards it.

One of the reasons why the Republicans never made any progress with currency reform lay in the fact that there were too many Republicans in congress who desired the wrong kind of a currency bill. Democrats of that stripe are by no means lacking, but they have been tamed by the irresistible logic of events.

THE LIBRARY BOARD.

There are two boards, the library and school boards, that, it appears, are beyond the reach of the charter commissioners. It is unfortunate, in a way, that the library board cannot be touched in the present effort to revamp the city government. The increase in the assessment roll by the state tax commission automatically entitles this particular board to \$2,000 additional income. This will give it \$11,000, in round numbers, more than it wants, more than it has any use for and more than it ought to have. Each increase in the tax roll of late years has, without any request from the board, sent the library trustees in a panic until now it is all one of proportion to the needs of the institution and what the city may fairly be expected to spend on it.

Inasmuch as the charter commission has no power to provide for a reduction of this income, and as the board, even if it had the disposition, has no power to turn any of the tax moneys it receives back to the general fund to be used for general purposes, it appears that it will be necessary to go to the legislature to get the library trustees in leading strings again.

An act that will provide for a restriction of their income to approximately the amount that they need, and ought to have, will have to be sought. If the library trustees do not ask such an act of their own initiative it will be the duty of the general officers of the city to make the request for it. And it should be sought from the next legislature. Indeed it might very well have been sought at the session not long ago closed. That it was not is simply another instance of everybody's business having been nobody's business.

Governor Ferris, it is asserted, left Washington convinced that the patronage question, as it affects Michigan, will remain up in the air for some additional time. When the governor finished his interviews with the President and Secretary Daniels he felt that it would be soon disposed of by recognition of the organization in the state, but it is said he found Postmaster General Burleson disposed to avoid a final choice between the factions while he still pursued his efforts to find some basis for an agreement. Thus when Governor Ferris left Washington he left the patronage situation much as he found it. The representatives of the rival clans still continue to spar for every possible advantage.

The Detroit Free Press says that Attorney General McReynolds' usefulness is at an end. The President does not agree with this estimate, and the country is much more reasonable than the Free Press. It is willing to wait and see. One misstep need not necessarily wreck a cabinet career. As long as the attorney general's percentage is a reasonably good one, he will be permitted to hack away at the job. The public knows that it is impossible to fill a cabinet with supermen. There are no supermen.

The University of Michigan commencement was marked by the announcement of a gift of \$75,000 by the Newberry heirs for the erection of a residential hall for women, in memory of their mother. The proposed structure will be a valuable and greatly appreciated adjunct to the institution, and the most notable addition to its plant by wellwishers since the completion of the Hill auditorium.

Thomas A. Dailey, of Adrian, one of the best known newspaper men in the Second district, has announced that he will seek the Republican nomination for congress, and says he is asking for a chance at Representative Beakes. Mr. Dailey will retire from eight years' service as postmaster in Adrian within a few days. An editor-postmaster ought to know the ropes pretty well.

As another instance of the lengths to which unbridled gossip will go comes the story that the President, in a moment of extreme exasperation on the golf links the other day, said "tat tat." It is to the credit of the reputable newspapers of the country that the yarn has, as yet, had no extensive circulation in the public prints.

The duty of the charter commissioners is plain. They must prepare the best and most modern charter it lies in their power to put together. If the voters do not want that kind of a charter, they will display a lack of enterprise for which it will be absurd to try and hold the commissioners responsible.

Jackson, Mich., man was arrested in a drunken condition while attempting to expound Bible texts to a street crowd, while he was fumbling the leaves of a testament. Strange things happen in Jackson.

It appears to be finally settled that the order of former President Taft for the reorganization of the customs districts will be carried out. Collector Byrns, of the district of Superior, has resigned and provision has been made for

the transfer of certain employees of the Marquette office to other offices. What has gone on in the Superior district has gone on all over the country. Just how seriously the Democrats entertained the proposal that the Taft order should be overturned has not been made to appear. Not unlikely President Wilson sat on it. The President does not appear to be much of a spoilsman.

The hot weather had such an untoward effect on the Detroit charter commissioners that they became involved in a serious row. Why not try the expedient of meeting in a cool place?

The Michigan State Telephone company is about to rebuild its Islipening system. Gentle hints heard lately in that quarter indicate that there is some room for improvement there.

It is expected that the forwarding of the Marquette-Delta county road project will soon begin in earnest. Next on the list will come the Marquette-Copper Country project.

Against the day when the sane Fourth will be universally accepted, it's not a bad idea to have a supply of antitetanus serum on hand over the nation's birthday.

Mr. Johnson's getaway leaves the judge who permitted \$15,000, or just half, to be sliced off his original bail with some explaining to do.

Governor Ferris may or may not win a second term, but he is certain that he isn't going to compromise with his fighting spirit to get one.

Missouri is the first state in the production of plug tobacco. It's not a distinction that Missouri boasts of in polite society.

Lajoie, however, is to be spared the worst fate. He is not to be sold to the minors.

How about the eight hour day for the charter commissioners?

A LAUGH OR TWO

Hope for All.

Vice President Marshall said in Washington the other day: "All of us may win fame. If we cannot do great deeds, let us firmly resolve to live long enough to get to be the oldest something or other."

A Happy Moment.

"What was the happiest moment of your life?" asked the sweet girl. "The happiest moment of my life," answered the old bachelor, "was when the jeweler took back an engagement ring and gave me sleeve links in exchange."

A Cure.

"Does your wife often gripe because she threw over a wealthy man in order to marry you?" "She started to once, but I cured her of it the first rattle out of the box." "I wish you would tell me how." "I started right in grieving with her. And I grieved harder and longer than she did."

Point to Remember.

Mayor Gaynor, of New York, was condemning a society whose object is the enforcement of the old Sunday blue laws—those laws which make it a crime to sell milk or newspapers, ice or other necessities on Sunday.

A Gigantic Breed.

A woman at a recent dog show noticed a pretty girl gazing around as if puzzled. She went over to her and said: "Pardon me, but can't you find the kennel you wish? If not, I shall be glad to assist you." "Oh, thank you," she replied. "Would you mind showing me where they are exhibiting the ocean greyhounds?" National Monthly.

Particular.

A man who was dining in a village hotel gazed at the second course for a moment, and then asked the waiter: "What is this leathery stuff?" "That is a fillet of sole, sir," replied the waiter. "Well, you may take it away," said the diner, after attacking it with his fork, "and see if you can't get me a nice, tender piece of the upper, with the buttons removed." Magazine of Fun.

At the Wedding.

A friend of the family had been summoned to testify, much against his will, as to domestic disturbances in a certain household. "You saw those blows administered?" asked counsel. "Yes, sir," replied the witness. "Did you witness the beginning of the quarrel between Mr. and Mrs. Dash?" "I did." "When was it?" "Six years ago." "How is that possible?" "I was a guest at their wedding," said the witness.

Discriminating.

For a long time the friendly relations between two little girls whose families are next door neighbors in Washington were unbroken by any untoward circumstances. Finally, however, there came a "falling out," and Louise hastened to communicate to the parents of her erstwhile friend, Blanche, certain details of the distressing occurrence.

When next the two children met severe recriminations were exchanged. Said Blanche: "You're just as mean and hateful as you can be—telling my father and mother that I bit you. You ought to be ashamed of yourself."

"You ought to be ashamed to bite me!" retorted Louise. "Suppose I did," she vehemently retorted from Blanche. "You bite, don't you?" Whereupon the other showed the greatest indignation. "Let me tell you

STATE PRESS.

Also, by getting up early you will be surprised at the people you meet going home.—Pontiac Press Gazette.

The lynching season is on in Arkansas in full swing. This year, however, the total will be cut down by the coroner.—Detroit News.

But until the Traverse Bay sea serpent makes his appearance in the dispatches nobody will believe that the resort season is on in earnest.—Grand Rapids Press.

Governor Ferris should send a copy of his "plea for peace" speech to Representative Beakes and National Committeeman Wood.—Jackson Citizen-Press.

Where is the scientist who several years ago informed the world that the earth was gradually cooling off and that we would have no more summers?—Saginaw News.

The girl who has just graduated from college may not be able to get into the kitchen and make pie like mother, but she is a mighty handsome ornament for the front porch.—Benton Harbor News-Palladium.

With ninety vacancies at West Point, and the navy and army recruiting office making extraordinary efforts to keep up the enlistment, it begins to look as if the peace propaganda is making considerable headway.—Bay City Times.

TIMELY QUIPS.

Definition.

Senator Luke Lea is correct when he says that a lobbyist is a man who is opposed to your views.—New Orleans Picayune.

Ways of Peace.

Lovers of peace might find aeroplanes useful in escaping from submarines and submarines useful in avoiding aeroplanes.—Chicago News.

Up-to-Date Method.

The up-to-date method of going into the cellar with a lighted match to und a gas leak, is to crank the auto with the clutch in.—Milwaukee Sentinel.

Undoubtedly.

Mary Garden kissed a Denver hotel porter for returning jewels lost for her. But undoubtedly the press agent squared it with the porter afterward.—Cleveland Leader.

Goner.

Old landmarks are rapidly disappearing. Among the missing is the old-fashioned lobbyist with the diamond shirt studs and the heavy gold watch chain.—Washington Star.

Educational Test.

Among the members of the San Francisco Dishwashers' union are found 100 college graduates and yet some folks claim that our educational system is deficient.—Washington Post.

EDITORIAL OPINION

Dr. Woodbridge N. Ferris.

The state's university has done well in giving its highest honors to the state's best men. It is customary to confer degrees upon the incumbent of the first place in our commonwealth, but in this particular instance we think there was some personal recognition accompanying the gift. The regents of the university probably felt as many citizens feel that Woodbridge N. Ferris is not only a good governor but that he is a good governor and is personally worthy of honors.

It is not necessary to agree with every word that Mr. Ferris has said since his inauguration or to applaud all his acts in office. We are not inclined to think he has made some blunders since the first of the year, and one or two of his public utterances might better have been left unspoken, in our judgment. But the governor is human like the rest of us and will make mistakes. We grant too, that our judgment is not infallible and the points on which we have had occasion to differ with him occasionally may be questions of opinion. Whatever they are, they do not eclipse his general record in his present place. The best of us will err sometimes, and we think a man does well, not at what he does poorly once in a while, to determine his value.

Mr. Ferris—Dr. Ferris now—has been thus far a distinctly good governor of Michigan. He has attended to his own business in the government, and not engaged in every kind of representative activity or distracted his energies by meddling in others' functions. He has been concentrating his strength on the work of being governor, and that is largely the reason he has been able to discharge his duties creditably. In his public and his private capacity he has set an example to the state's officials and citizens. In development of his innate intellectual powers, in honorable dealings with his fellowmen, in conscientious attention to the tasks delegated to him, he has shown himself worthy of the laurels the university has bestowed upon him, and we believe his receipt of them gratifies a very large proportion of our people, regardless of partisan alignment altogether.—Detroit Free Press.

An Unwise Caucus Decision.

It will not be believed that the decision of the house Democratic caucus on the question of a budget committee will stand indefinitely as the party's policy. There is too much to be said for a budget committee and too little against it to permit a negative vote to go long unchallenged.

The chief objection to the budget plan, defeated by the house caucus, is that it might prove a serious check on future pork-barrel legislation. It might be a potent discouragement of treasury raiding. If might become a supersedeant obstacle for members who seek unwarranted appropriations.

Is the country to believe that a majority of the house caucus are believers in the doctrine that the more a member of congress eats get for his constituents the better representative he is? That is about the way the decision against a budget system will be interpreted at large. In the main, it will be a perfectly just and natural interpretation. Party leaders in the house like Speaker

Clark, Floor Manager Underwood and Chairman Fitzgerald of the appropriations committee are firmly for the budget system. Successive presidents have endorsed it. The house caucus should reverse its action, with what grace it can muster for the flop.—Cleveland Plain Dealer.

Millions Can Vote.

One of the press associations sent out a dispatch reporting the signing of the woman suffrage law in Illinois by Governor Dunning and added that this act enfranchised 1,600,000 women and more than doubled the number of women in the United States who had the right to vote.

This is far from the truth. Probably the estimate of the number of women in Illinois who are entitled to the limited suffrage which the new law gives is not exaggerated, but it is not true that there were less than 1,600,000 who had previously been enfranchised, not given only a partial right of suffrage, as in Illinois.

Nine states have granted the unrestricted vote of the ballot to women. They are California, Kansas, Washington, Oregon, Colorado, Utah, Idaho, Arizona and Wyoming. In these states the number of women entitled to vote cannot be less than 2,200,000. What the partial enfranchisement of women in the third state of the Union has done is to carry the female voting population up nearly to 4,000,000.

Most of woman suffrage in the United States is on so great a scale that it will soon cease to be true that the country lacks sufficient and convincing object lessons to make possible an instructed and safe decision upon this issue.—Cleveland Leader.

LOWER STATE NOTES

GRAND HAVEN—Owing to the inability of the special bond committee to dispose of any of the \$300,000 worth of Ottawa county bonds, the supervisors have passed a resolution providing for the resubmission of the proposition to the people in hope they will rescind the action taken at the election in 1911, when \$600,000 was voted for repairing the roads in the county.

LANSING—States Bacteriologist M. L. Holm says that there should be a state law placing more rigid restrictions on the sale of bi-iodide of mercury. "Time was when bi-iodide of mercury was generally used as an antiseptic but there are so many good non-poisonous germicides at the present time that some restrictions should be placed on the sale of the drug," he declared.

BATTLE CREEK—Emil Kibbey, sixty-one years old, and employed by the railroad, was fatally hurt when run down by engine No. 2, en route to small fire. Kibbey's shoulder, elbow and nose were fractured, and he was injured internally. Kibbey, who was deaf, turned into the path of the engine without seeing it approach. The horses knocked him down and the wagon passed over him.

PONTIAC—A peculiar series of accidents occurred in Grand City, five miles south of here. Theodore Blumberg was tearing down an old barn when a beam fell on him, breaking two ribs and injuring his spine. George Wade drove his auto into the yard to pick him up, and ran into Miss Lois Weston, knocking her down and breaking her right ankle. An ambulance was sent out from here and took Blumberg to Birmingham and then brought Miss Weston to a hospital here. Blumberg is seriously injured.

SAGINAW—The state association of county clerks selected Mt. Clemens for the 1914 meeting place and the dates set were July 12 and 16. Officers elected were as follows: President, Frank E. Jenks, Marquette; vice president, Frank A. Wertman, Flint; secretary, Felix H. Flynn, Cadillac; treasurer, Herbert L. Parnelle, Sault Ste. Marie. At the first session Bert Wickman, of Hart, spoke on "New Laws Pertaining to the Duty of the County Clerk." Secretary of State Frederick C. Martindale spoke on "The Relation of the Work of the County Clerk to the State Department."

SAGINAW—The Saginaw-Bay City Railway company, controlling the traction lines of Saginaw and Bay City and the interurban connecting the cities with the Saginaw River line, posted a notice in the car barns of a voluntary increase of wages of 1 cent an hour for the motormen and conductors of the local and interurban lines, and from one to two cents on the S. & F. line. The increase affects about 350 men, becomes effective July 1 and will add about \$100,000 a year to the company's payroll. The company grows a slightly larger increase a year ago.

DETROIT—Subject to confirmation of the United States court, the entire assets of the Warren Motor Car company, except notes and bills receivable, were sold by the Detroit Trust company, receiver, to the Rands Manufacturing company, of Detroit, whose bid of \$104,000 was highest of those received at the auction conducted by the receiver. Total liabilities of the Warren company are about \$375,000. No distribution of assets will be made among the company's creditors until some date subsequent to August 1, that being the final day of the period allowed creditors within which to submit proof of their claims.

LANSING—Coke Manufacturers here say they will ship to Detroit rather than submit to the city ordinance which requires a covering for coke so that the product will not be exposed to the elements, but will be kept in a dry state. Wet coke has been a bone of contention here for several seasons, and there has been much agitation against dealers being allowed to wet their coke. One concern here which manufactures coke say it would rather ship the product out of the city than build sheds to house it in. The consumers meanwhile are sitting on one side and saying "We should worry."

LANSING—The state railroad commission has authorized the Citizens Telephone company, of Grand Rapids, to issue corporate bonds in the sum of \$750,000. In the application it is set out that \$163,000 of the amount is desired to pay the state of Michigan for back taxes, this being the company which lost its fight in the United States supreme court when it attempted to have the law under which it was taxed, held unconstitutional. One hundred and ninety-five thousand dollars of the amount is desired for current liabilities; \$250,000 for future developments, and \$100,000 as a guarantee for the Citizens' Telephone companies, located at Jackson and Battle Creek, and which are owned and controlled by the Citizens, of Grand Rapids.

This is the first time in the history of the state that a corporation has asked the state's permission to issue bonds, a part of which were to be used for paying back taxes due the state.

BATTLE CREEK—When the Elks ran the city C. W. Post was arrested for speeding and Police Chief Farrington for firing. Both were arraigned before "Justice" W. R. Wooden and fined. Stores were closed, the object of the event being to finance the Elks drill team to Rochester, where they will enter the national competition.

GRAND RAPIDS—An automobile in which State Highway Commissioner Frank Rogers, of Lansing, was making an inspection tour turned turtle in a ditch near the Graham farm, west of here. Mr. Rogers was thrown through a thick hedge, but escaped serious injury. The inspection trip was made for the purpose of locating the proposed state trunk lines through Kent county. Mr. Rogers will recommend that both trunk lines pass through this city north and south. Kent county will conform to the state reward provisions and build twenty-two miles of highway.

PORT HURON—You had a mighty close call that time, said Loren Elliott, deputy city clerk, shortly after a lot of lightning snuffed out the life of Peter Noel, a ship carpenter, seventy-two years old. Elliott did not realize that the man was cold in death, until his remarks failed to elicit a reply. Noel was seated in a rocking chair at the home of his daughter, Mrs. J. Martell. During the day he had complained of the heat and his daughter would not allow him to go to work for fear that he might be prostrated. During the storm he seated himself under a shade tree, thinking that the blow would pass over quickly.

MUSKEGON—Strikers and their sympathizers were repeatedly driven away from places where they were picketing the Muskegon-Grand Rapids Power company were working. There were no riots, and only here and there minor disorders. At the Continental Motor company and the Muskegon Motor Specialties Manufacturing company plants strikers broke up the pickets when hundreds of the employees of both concerns lined up to roost them with sneers and taunts. The only work completed was that of wiring private homes or repairing damage to the company's lines.

DEAFNESS CANNOT BE CURED by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed membrane of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or humming in the ears, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is not cured by an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by other means. Send for circulars free. P. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists. Write for circular.

Take Hall's Family Pills for constipation.

UNITED STATES OF AMERICA. NOTICE.

In pursuance of a warrant of attachment and motion, issued out of the District Court of the United States for Michigan, Northern District, under the seal of that court, and dated the 29th day of June, 1913, and directed to me, public notice is hereby given to all persons claiming certain merchandise, to-wit: fifty-one packages of said merchandise, to appear before the said court, and there to set aside, and to the said district and division, for reasons and causes mentioned in a certain information filed in that behalf by the United States versus Fifty-one packages of ten said, being case No. 216 in said court, the said merchandise so seized as aforesaid having been by me attached in the custody of the deputy clerk of said court, for the purpose of said merchandise, and being now detained in his custody within the judicial and collection district aforesaid by order of the said court, and to all persons claiming or having any right, title, interest or claim in or to the said merchandise and to the destruction of the same, according to the prayer of the said information; and that they be and appear before the said court, to be held in and for the said Western District of Michigan, at the United States Court room in Grand Rapids, Michigan, in the said district, on the 8th day of July, next, if that be a day of jurisdiction, and if not, then on the first day of jurisdiction thereafter, at 10 o'clock in the forenoon of that day, to show cause why the return day of the warrant aforesaid, and the day of the trial of the said information, should not be set aside, and there to interpose a claim to the said merchandise and to make their allegations in that behalf.

United States Marshal for the Western District of Michigan, Grand Rapids, Mich. Per W. A. ROSS, Deputy. FRED C. WETMORE, United States Attorney. 6-21-14.

PROPOSALS WANTED.

Sealed bids will be received by the Marquette County Road Commission at its office in Ishpeming until 6 p. m. Thursday, July 10, 1913, for grading about three miles of road between stations 223 and 401 on the Green Garden-Yalmer road. The work will require approximately 11,500 yards of earth and gravel, besides clearing, grubbing and ditching. Specifications with form of contract and bonds and profile may be obtained from the board of Ishpeming and at the home of William Zerbel on the road. Every company bidding must be accompanied by a certified check for \$200, payable to W. H. Johnston, chairman, as a guarantee that the bidder, if awarded the contract, will execute the same and furnish the required bonds. Blank forms on which to make bids may be obtained from the office of the board in Ishpeming, or at William Zerbel's home.

The board reserves the right to reject any or all bids. The checks of the unsuccessful bidders will be returned. W. H. JOHNSTON, Chairman. 6-29 7-1-2-3-5-7-8-9

ST. LUKE'S HOSPITAL.

Bids will be received by the Board of Trustees of St. Luke's Hospital for the construction of a new hospital at Marquette, Mich. The plans are as follows: A building of Morgan W. Jopling, treasurer, Marquette, Michigan. Plans are also on file at the office of the architect, Meyer J. Staro, 216 South Michigan avenue, Chicago, Ill. A certified check for \$10,000, or the amount of the bids must accompany all bids, and a deposit of \$10 will be required for all plans and specifications. All bids must be filed on or before July 10, 1913. MORGAN W. JOPLING, Treasurer. 6-27-14

SEALED BIDS.

Sealed bids will be received until 12 o'clock noon, July 15th, by the Michigan state highway commissioner, Lansing, Michigan, according to plans and specifications on file in his office, on a concrete bridge with an aggregate length of 249 feet and a roadway of sixteen feet, the bridge to be located near Marquette, Michigan. 6-30-14

SHAKE OFF YOUR RHEUMATISM. Now is the time to get rid of your rheumatism. Try a twenty-five cent bottle of Chamberlain's Liniment and see how quickly your rheumatic pains disappear. Sold by All Dealers.

Today's weather: Probably showers. Yesterday's temperatures: Seven a. m., 82 degrees; noon, 80; 7 p. m., 30. Highest, 95; lowest, 68

Leo Demers, of Duluth, is a visitor in Marquette.

Miss Frances Gross, of Chicago, is visiting at the home of Godfrey Urbach, North Third street.

Mr. and Mrs. E. Abrahamson, of Escanaba, are visiting Mr. and Mrs. F. P. Moffat, of East Prospect street.

John Stack has sold forty acres of land in Skandia township, not used in his saw mill operations, to John M. Nelson.

All persons having bills against the Scottish Rite lodges are requested to turn them in to Elmer C. French, secretary.

Miss Mattie Foster, who has been the guest of friends in Marquette the last two weeks, left Saturday for her home in Amboy, New York.

Mrs. J. L. Walton and son, Andrew, left Saturday morning for London, Ont., where they will visit Mrs. Walton's home during the summer months.

Miss Bill, of the faculty of the Northern State Normal, who has had a leave of absence for the past several months, arrived in Marquette yesterday.

Mr. and Mrs. G. J. Slining, of Gladstone, returned to their home Saturday evening after spending Thursday and Friday visiting friends in this city.

Miss Fannie Snobolin, who attended the wedding of the Misses Mathilda and Annie Swedler in Marquette last week, left Friday evening for her home in Chicago.

Nelson Stewart, who has been visiting at the home of his father, E. L. Stewart, the last two weeks, left last evening for Breckenridge, Minn., where he is employed.

Morgan W. Jopling arrived home Saturday morning from Lansing, where he attended a meeting of the state board of corrections and charities of which he is a member.

Robert Rohl, who has been spending two weeks visiting his mother, Carl Rohl, in this city, and other relatives in the county, has returned to his home in Centralia, Ill.

Miss Alma Bigelow has arrived home from Chicago and will leave today for Grand Island, on a two weeks' outing trip. She will spend the remainder of the summer vacation in Marquette.

Mrs. Alexander McComber and daughter, Miss Laura, who have been visiting at the home of Joseph H. Primeau the last two weeks, left last evening for Port Arthur, Ont., where they will visit.

Miss Evelyn Reany will leave this morning for Toronto, Montreal and Tweed, Ont., to spend a month visiting relatives. Her mother and Mrs. David Todd will accompany her as far as the Soo.

G. W. Gehland, superintendent of schools, left Saturday evening for Chicago, enroute to Fort Atkinson, Wis., where he will meet his family and with them go to Devil's Lake, near Baraboo, Wis., to spend the summer.

The funeral of the late James F. Waterson was held yesterday afternoon at 3 o'clock from the home of his son-in-law, C. E. Zryd, Ridge street. Rev. Platt T. Amstutz conducted the services and burial took place in Park cemetery.

Mr. and Mrs. David Watt have returned from Canada, where they visited for a month. They spent two weeks at the home of "Jack" Wilson, visiting J. B. Wilson, formerly of Marquette, and they spent some time in Collingwood, Parry Sound.

Dr. E. T. Tapping and Charles B. Warren, of Detroit, accompanied by their families, arrived in Marquette Saturday morning enroute for Huron Mountain club. The party spent Saturday morning in this city and left yesterday morning for the resort.

Miss Francis Russell, who has spent the past few months in New York, while on leave of absence from her duties as a member of the Normal school faculty, arrived home yesterday morning by water, and will resume her duties at the Normal as an instructor in the summer school.

An advertising car was here yesterday in advance of Son Brothers' circus, which will give afternoon and evening performances in Marquette, July 14. Some of the acts will make an excursion into the rural districts this morning, the others remaining here to assist the Marquette billposters in "papering" the city.

Miss Rena Maitland left Saturday evening for Chicago to meet her sister, Mrs. J. H. Farrell, of California. They will visit their brother Leslie Maitland in Chicago a few days, before returning to Neenah, Mrs. Farrell and her young son expect to spend the summer here as the guests of Mr. and Mrs. Alexander Maitland, parents of Mrs. Farrell.

Banks Will Close July 4 and 5--The banks of Marquette county will all be closed July 4 and 5. Friday, July 4, is always observed as a legal holiday, but inasmuch as Saturday is a half-holiday as far as notes and obligations of all kinds are concerned, this day, too, will witness a suspension of the banking business.

Have Engaged C. & H. Orchestra--Mr. and Mrs. Morgan W. Jopling, Miss Ella Shirak, George Shiras and Henry Reynolds will entertain their friends at a dancing party to be given in Fraternity Hall the evening of July 9. The Calumet & Hecla orchestra, which played here last week for the Masons and Sisters, has been engaged to furnish music.

Receives Fine Promotion--Of a recent promotion for L. H. Kellan, agent for the American Express company at Sheboygan, Wis., the Sheboygan Daily Journal of June 27 says: "L. H. Kellan, agent for the American Express company here has received a flattering promotion. He has been appointed agent for the company at Evanston, Ill. This is a notable raise. Mr. Kellan goes to his new post July 1. He came here from Iron Mountain, Mich., about one and a half years ago. Mr. and Mrs. Kellan have friends here." Mr. Kellan was formerly a resident of this city.

Marquette Team Won--The Tigers baseball team of this city defeated the Salisbury team in a game at the Lake Angelie field yesterday afternoon by a score of 11 to 6. Riopelle and Marquette were the battery for Marquette. This is the third consecutive victory for the Tigers since they organized this spring and they have not as yet lost a game.

The features of yesterday's playing was a home run by Mowick, for Marquette, and McDougal's stick work. McDougal got four hits in five times at bat. Horace Riopelle is credited with a three-bagger. The work of Lawrence, at second, was also a feature.

MacPherran In City--E. W. MacPherran, of Duluth, who recently resigned the position of land commissioner of the South Shore with the purpose of undertaking the practice of law at the head of the lakes as a member of a well-known firm, spent the week-end in Marquette. His resignation becomes effective on the first. Mr. MacPherran practiced law in Marquette for a brief period before taking a position with the South Shore, and has always been closely in touch with the profession. His Duluth opening is regarded as an admirable one, and his Marquette friends have been wishing him the largest measure of success in the profession.

Jenks Is President--Frank G. Jenks, clerk of Marquette county, was elected president of the County Clerks' Association of Michigan at the closing session held Friday in Saginaw. Mr. Jenks' successor as vice president of the organization, which offers the Marquette man has held during the last year, is F. A. Wertman, of Flint. Other officers were elected as follows: Secretary, Felix H. H. Flynn, of Cadillac; treasurer, Herbert L. Parsille, of the Soo. Mt. Clemens was chosen as the place of the next annual meeting the date for which is July 15 and 16, 1914. President Jenks named six committees shortly after his elevation to the office of president. Frederick C. Martindale, secretary of state, who was guest of honor at the meeting, delivered an address Friday on the relation of his department to the work of the county clerks.

Suffers Serious Injury--Raymond Lawrence, aged twenty-three years, and a married man, loses the last three fingers and a part of the palm of his right hand as the result of an accident which occurred Friday noon at the Lake Shore Engine works. Lawrence placed a piece of sheet iron under a steam hammer, and the hammer, through some mischance, descended while the young man's hand was directly underneath it. The employees are making every effort to save his thumb and forefinger, and will succeed unless blood poisoning sets in.

Mr. Lawrence for the last two years has been employed as a riveter in structural steel work for the Wisconsin Bridge and Steel company. He has been working out-of-town and came home a few days ago to take up less dangerous employment. Friday was his first day at the Lake Shore Engine works.

Crowds at Presque Isle--A crowd of several thousand people thronged Presque Isle yesterday afternoon. The Marquette City band played a fine program of classic and popular music and the street cars handled the largest part of the crowd. The weather on Presque Isle was about five degrees cooler, even in the island spots than in the city, and on the lake front a chill Lake Superior breeze helped to cool off hundreds who sweltered elsewhere. Yesterday was one of the biggest days the street car company has had for many months. Rowboats were rented all afternoon from H. O. Bell's boathouse in the launch excursions around Presque Isle were largely patronized. Pleasure craft of every kind and description were used by all who could handle them as a means to keep cool. The temperature varied with that of territory hundreds of miles south.

Auto Owners to Meet--A. E. Archambault, president of the Commercial club, was asked Saturday by the managers of the Ishpeming home-coming event to interest Marquette automobile owners in the matter of participating in the motor car parade to take place Friday afternoon, one of the big features of the Fourth of July celebration, which will be practically a county observance. Posters sent here to advertise the Ishpeming fête may be seen in the windows of Front and Washington street stores. More will be distributed today. A large attendance from Marquette is expected. Mr. Archambault has appointed a committee of three, consisting of S. J. Mitchell, as chairman, and Dr. R. W. Boyer and P. G. Teeple, to present the idea of Marquette's representation in the Fourth of July parade to the motorists of this city. Automobile owners are asked to meet in the ball room of the city hall this evening between 7:30 and 8 o'clock, when the approximate number that will take part in the Ishpeming event will be determined.

Daughter of D. J. Caven Weds--At a private wedding, which took place Saturday afternoon at 3 o'clock at the home of the bride's father, D. J. Caven, Pine street, Miss Katherine Caven became the wife of Kenneth George McKiernan, of Chicago. The couple were attended by Miss Viola Richardson, as bridesmaid, and William Martin, of Chicago, a friend of the groom, as best man. Rev. Platt T. Amstutz, pastor of the Presbyterian church, tied the nuptial knot. Mr. and Mrs. McKiernan left on the evening train for Chicago, where they will reside. Mr. McKiernan is associated with his father in the McKiernan & Son Printing company. Miss Caven has been an instructor in domestic science and art during the last year at the Marquette High school. She is a graduate of the Northern State Normal school. Mr. McKiernan and his wife became acquainted several years ago in Menominee, where they were classmates in high school during the years the Caven family made that city their home.

INSURE WITH PETER WHITE & CO. SCHWARTZ UNDER ARREST.

Newspaper Man Wellknown in Upper Peninsula Violated Parole.

J. E. Schwartz, a newspaper man well-known in Escanaba, the copper country and Marquette, he having been connected with the Marquette Chronicle for some time over a year ago, is under arrest in New York for violation of the terms of his parole from the Ionia reformatory. The Escanaba Mirror says of his case: "John E. Schwartz, formerly city editor of the Mirror is in custody in Salamanca, New York, and will be returned to the reformatory at Ionia, Mich., for the violation of his parole. "Schwartz was sentenced to an indefinite term of from three to fourteen years in the Ionia reformatory for forgery. He was released on parole after he had served nine months of his time and given an opportunity of making good. "Recently a state reward of \$25 was offered for information leading to his arrest. The offer together with his description and front and profile likeness was sent to practically every Salvation army headquarters in the coun-

VICIOUS INVESTMENTS.

Lots of people make them. Won't ask--or afraid to ask their Banker before they do so. Before you make any investment come around and get our opinion on it. You don't have to take our advice, if you don't want to do so. It costs you nothing and it's a good thing to get the view of a Bank on an investment.

Indianapolis, Ind., June 29.—Rear Admiral George Brown, retired, aged seventy-eight, died at his home here tonight. He had been in failing health for several months. He was appointed to the Naval Academy from Indiana in 1849 and served sixteen years in the navy.

Our repair department is splendidly equipped to do the most difficult at reasonable prices. We use only the best of material and take a pride in our workmanship. Once we have done your repair work you'll not have it done anywhere else. Try us and see if we cannot more than please you.

M. F. GOLDBERG
3rd St. Opposite Post Office

The discovery of fossil bones of a camel in Alaska, within the Arctic circle, as announced by the Smithsonian institution, experts say, tends to support the theory of the existence of a wide Asiatic-Alaskan land connection of comparatively recent date, which for a great length of time served as a highway for the migration of mammals from the Old World to America.

NO SUBSTITUTE COULD DO THIS.

No inferior substitute, but only the genuine Foley Kidney Pills could have rid J. F. Wallich, Bartlett, Neb., of his kidney trouble. He says: "I was bothered with backache, and the pain would run up to the back of my head, and I had spells of dizziness. I took Foley Kidney Pills and they did the work and I am now entirely rid of kidney trouble." For sale by All Druggists.

The recent Italian census has established the fact that there are still hermits in Italy who live solitary lives in mountain caves, and that they number no fewer than 990. Among these recluses there are sixteen who are over ninety-five years of age and three centenarians, while all the others have passed the age of fifty.

THE BRILLIANT STARS OF JUNE

By the end of June, Mars, Venus, Saturn and Jupiter will all be morning stars, but Foley's Honey and Tar Compound is at all times the "Star" medicine for coughs, colds, croup and whooping cough. A cold in June is as apt to develop into bronchitis or pneumonia as at any other time, but not if Foley's Honey and Tar Compound is taken. For sale by All Druggists.

MEXICO'S EXPENSES ARE RUNNING HIGH

Out of \$80,000,000 Borrowed in May, Not More Than \$24,000,000 Remains.

Mexico City, June 29.—The expenditure of the money borrowed by Mexico in the latter part of May, about two hundred million pesos, is not going to be at all difficult. According to reliable information something like \$50,000,000 gold already has been disbursed, and there remains on hand not more than \$24,000,000 gold. The loan was placed at 90, and a commission of at least 2 per cent was paid, leaving the total amount actually available not more than \$20,000,000 gold. The \$30,000,000 already paid out is accounted for roughly by \$21,000,000 returned to New York bankers in the shape of bonds and \$8,500,000, to the National bank for the payment of accounts in Paris and London and other pressing claims. Of the remaining \$24,000,000 the government has promised to pay \$7,000,000 for port improvements at Salina Cruz, Vera Cruz, Tampico and Frontera, and other items listed account for a few millions more, leaving available for the war fund probably not more than \$15,000,000 gold.

An unofficial estimate of the cost of the general conduct of the war, including keeping the army in the field, is \$7,500,000 a month, providing, of course, that all bills are liquidated. In addition to this borrowed money the government has its ordinary income, but this has been materially reduced because of a diminution in the totals of imports upon which duties are collected, and a reduction in the sale of stamps for the conduct of general business. The stamp tax brings money to the treasury in proportion to the volume of business, and business is light.

Given these conditions, there is speculation in Mexico City today as to how long President Huerta's financial resources will hold out, and the general opinion is that they will last between three and four months.

Rebel Wins Bride at Point of Gun.

That the spirit of romance never is far from that of fighting is frequently to be seen these days in stories brought in from the provinces. Xateno Elizondo, a rebel chieftain who is operating in Nuevo Leon, recently fulfilled his promise of marriage to his betrothed in spite of the opposition of the girl and her parents, and the loud protests of the priest who performed the ceremony.

The girl's family did not believe in revolutions; not this one at any rate. It was not their idea of the way to be patriotic. One day Elizondo rode at the head of his band into Higueros, the village where his sweetheart lived. He "captured" the town solely for the purpose of being present on the date which had been set for the marriage. Instead of finding all prepared for the ceremony, however, he was met by an indignant sweetheart, an angry father and an obdurate priest. Although surprised, Elizondo was not willing to ride out of town without his bride, so he summoned the priest and instructed him to perform

the ceremony or be shot as an enemy to the "cause."

The wedding festivities which came afterwards were none the less joyous, however, for the bride soon lost her contempt for her rebel husband, and her oldest brother rode away with Elizondo a week later as his second in command.

Huerta Buying Rifles in Japan.

Mexico has shifted her trade in arms and ammunition from German manufacturers to Japanese. The war department has contracted to purchase from a house in Japan, 200,000 rifles of the Mauser type. They are to be finished with a number of improvements over the old Mauser, and in order to avoid the use of inferior materials and to guarantee careful and exact work at the factory, a commission of three Mexican army officers will supervise the work of fitting the order. A range of 1,500 feet more than that of the old type is claimed for the new arm, with a considerably increased muzzle velocity.

Prior to signing the contract it was alleged by a portion of the local press that the guns Japan wants to sell are nothing more than the old ones used in the Russo-Japanese war. These were six and a half millimetre calibre, and it was claimed that this bore had been routed to the stipulated seven millimetre. The charge was refuted.

Army Recruits Drafted.

Compulsory military service was to have been inaugurated in Mexico on June 1, but it was then announced that before the president's decree providing for enforced service could be put into effect it would be necessary to make a number of changes in the law which would make its application impracticable for some six months longer.

The proposed scheme of compulsory enlistment is regarded by many as rather lax. One of its provisions is that any man earning more than a soldier's wage shall be exempt. Heads of families, or any one able to show that someone is dependent on him, also may plead exemption. These exemptions would confine the draft to the most ordinary laboring classes, not materially different from those not composing the army.

It is not a secret that the recruits, under the present system, are drafted just as much as if there were in force a law compelling service. For the most part they are taken from the jails, but not infrequently well built young men whose only crimes are being "out of a job," are forced into the ranks. So common has this custom become that protests are frequent, and at times very annoying to the authorities. The appearance of the recruiting officer in a given locality has been known to drive the entire male population to hiding in the hills, to return only when the representative of the army had taken himself elsewhere.

A WORKER APPRECIATES THIS

Wm. Morris, a resident of Florence, Oregon, says: "For the last fourteen years my kidney and bladder incapacitated me for all work. About eight months ago I began using Foley's Kidney Pills, and they have done what other medicines failed to do, and now I am feeling fine. I recommend Foley's Kidney Pills." For sale by All Druggists.

BEST LAXATIVE FOR THE AGED.

GRAND OFFER

We are now offering to the housekeepers of Ishpeming and Negaunee a Gas Stove at \$8—installed complete ready for cooking.

This stove is exactly the same style that is being sold for \$16 to \$18, only the oven is 2 inches smaller—finish and equipment of this stove is exactly like our \$18 stove.

A family of 5 people can and are now cooking all their meals on these stoves at a cost of 8 cents per day.

To use these modern stoves brings the cost of preparing meals below what coal or wood would cost and saves dirt and worry.

Shall be glad to have you call and inspect our line of Gas Ranges.

Marquette County Gas & Electric Co.

PARADES WILL BE RECORD BREAKERS

Judges Have Been Named for the Various Divisions in Friday's Big Event.

The members of the parade committee for the Fourth of July celebration have had to send to adjoining cities and towns for so many horses, but the great draft horses for business men and others who are preparing floats and other features. The parade will be by far the largest ever seen in Ishpeming, and this means that it will be the largest ever seen in the upper peninsula in connection with a celebration of the national holiday.

The committee has purchased much material for parade floats, including a large number of clown suits and other uniforms. The representations of Ishpeming judges will make a good-sized parade in themselves, to say nothing of the numerous commercial and industrial representations and the military and citizenship divisions.

Friday evening the committee appointed judges for the several divisions.

For the commercial division the judges will be James Russell, of Marquette; W. A. Garner, of Negaunee, and Dr. E. G. Robbins, of Ishpeming.

Industrial—Dan W. Powell, Marquette; Frank A. Bell, Negaunee, and Rev. Carl G. Ziegler, Ishpeming.

Civic division—Joseph Fay, Marquette; C. L. Sporey and Napoleon Markett, Negaunee.

Lodges and Nationalities—A. E. Archambault, Marquette; Dr. R. J. Miller, Negaunee, and C. H. Moss, Ishpeming.

The judges will review the parade from a stand that will be erected in the city square.

Floats for Children.

Miss V. Winifred Lacey, in charge of the Children's parade, to be held Wednesday evening at 7 o'clock, asserts that there will be at least 2,000 boys and girls in line, and the number may be considerably in excess of this figure.

She has been informed that many decorated doll and baby carts, miniature floats, etc., are being planned. Miss Lacey asks that the parents of children who enter floats, decorated carts, etc., accompany them to the front lawn of the high school grounds at 6:30 o'clock. The children will be formed in line in the high school corridor. Ladies from Negaunee and Marquette will act as judges.

All traffic will be discontinued while the children's parade is in progress, and the children will be carefully looked after by the larger boys and young women acting as marshals. There will be about 150 young women and boys marching either side of the procession. Marshal Trevarrow will have charge of the patrol work along the line of march.

The young ladies in charge of the children's parade will meet this evening in the new fire hall, to discuss the plans.

WRESTLERS HERE.

Two Prominent Finnish Mat Artists in Ishpeming Saturday.

Karl Lehto and Karl Wirtinen, Finnish catch-as-catch-can wrestlers, visited August Suttinen and Dr. Holm here for a few hours Saturday, while on their way from Crystal Falls, where they gave a wrestling exhibition Friday evening, to Sault Ste. Marie, where they will put on a match tomorrow night. From the Soo they go to Port Arthur, Vancouver and other Canadian points.

Lehto and Wirtinen have been traveling together for some weeks past, ever since Lehto left college. Mr. Wirtinen conducts a bakery business in Ontario, Can., but he is on the road wrestling considerable of his time. Wirtinen has taken on ten pounds in weight since he was last seen in Ishpeming, and he is now a much better match for Lehto than he was a few years ago.

In every place Lehto wrestles he offers to throw all comers, and as a rule he puts down from two to four local wrestlers in comparatively few minutes.

BOTH GAINED.

Man and Wife Fatten on Grape-Nuts.

The notion that meat is necessary for real strength and the foundation of soft flesh is now no longer as prevalent as formerly.

Excessive meat eaters are usually sluggish a part of the time because they are not able to fully digest their food, and the undigested portion is changed into what is practically a kind of poison that acts upon the blood and nerves, thus getting all through the system.

"I was a heavy meat eater," writes an Illinois man, "and up to two years ago, was in very poor health. I suffered with indigestion so that I only weighed 95 pounds.

"Then I heard about Grape-Nuts food and decided to try it. My wife laughed at me at first, but when I gained to 125 pounds and felt so fine, she thought she would eat Grape-Nuts too. Now she is fat and well and has gained 10 pounds. We never have indigestion any more and seldom feel the desire for meat.

"A neighbor of ours 68 years old, was troubled with indigestion for years, and was a heavy meat eater. Now since he has been eating Grape-Nuts regularly, he says he is well and never has indigestion.

"I could name a lot of persons who have rid themselves of indigestion by changing from a heavy meat diet to Grape-Nuts." "There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Well-being," in pages.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

W. THURTELL, THE OPTOMETRIST,

is again in Ishpeming at Nelson House. Eyes thoroughly and scientifically tested and glasses fitted, all work guaranteed. Telephone for private calls. 6-17-1f.

Take advantage of this opportunity. We are selling fine imported linens for half price. Peterson & Willers, Negaunee. 6-27-1w.

FORMER RESIDENT WRITES LETTER

W. A. Thompson, Here Several Years Ago, Replies to Home-Coming Invitation.

During the past two or three weeks the secretary of Ishpeming's Home-Coming and Fourth of July celebration has received many letters from former residents in response to invitations to "come home." Among them is an interesting letter from W. A. Thompson, who was an engineer on the old Marquette, Houghton & Ontonagon railroad, and who is remembered by many of the older fellows, J. D. West and J. P. Outwaite.

Four years ago Mr. Thompson wrote a letter to his old friend, John P. Outwaite. Mr. Thompson writes as follows:

"Mr. Ed. J. Butler, Secretary Ishpeming Home-Coming: "Dear Sir—Your invitation is before me, but I can't see my way clear to be there. You say that my old friends will be there. Yes, a good many will, but some cannot, among them Bob Maxwell, Charley Kirkwood, Tillotson, Phil Kirkwood, Engineer William Green and Andy Steele. I would like to see all the old fellows, J. D. West and J. P. Outwaite.

"I have been with the Soo line since Sept. 27, 1887, sometimes running an engine, fifteen years as general agent, or more plainly, station agent, round house foreman, townsite agent and traveling freight agent. The latter job was opening up new towns at end of track, and seeing that we got our share of the business. I have been in politics all the time, on the Republican county committee and have been pretty busy. I kept four horses, and drove many miles every week, looking out for business, but the road got big fast, and the business comes to it now without much soliciting.

"I got tired of the job and asked to go back on the road as engineer and run a local passenger from Glenwood to Thief River Falls and return, 186 miles, twenty-six stops, six hours and ten minutes, and twenty minutes for supper at Manometon. It is all daylight and I am home twenty-six hours each trip. I am sixty-five years and feel like forty. I have four boys and four girls, three boys railroading, one girl married to a conductor, one a graduate nurse and the balance at home. Come in when you come to town. We have a fine lake, ten by three miles.

Yours truly,
"W. A. THOMPSON.
"Glenwood, Minn., June 26, 1913."

THE LATE REV. H. H. ALLEN.

Father of Ishpeming Clergyman Was Ordained Before the Civil War.

Rev. M. M. Allen, pastor of the Presbyterian church, who took the remains of his father, the late Heman H. Allen, who passed away in this city in 1912, to Kentucky for burial, arrived home Saturday. The Herald and Presbyterian, published in Kentucky, referred to the deceased as follows:

"Rev. Heman H. Allen, D. D., of Washington, D. C., died at Ishpeming, Mich., June 17. He was born at Canton, N. Y., studied at Centre College and Danville Seminary, and was ordained in 1859 by the Presbytery of West Lexington. He served the churches of Cynthiana, Pisgah, Bethel, Glasgow, Kentucky, St. Charles, Missouri, and Olivet, Kentucky. He was eminent as an educator, and will be most widely remembered as president of the Collegiate Institute at Princeton, Ky. Of late years he has resided in Washington, D. C., and has devoted his time to teaching and writing. He was associated in the early sixties with Centre college and Danville seminary, as financial agent, and later was editor of The Western Presbyterian. He was a man of rare gifts and fine spirit. He married Miss Mary Washington Marshall, daughter of Glass Marshall, of Kentucky. Of late years he has spent his summer vacations with his son, Rev. M. Marshall Allen, in Northern Michigan. His remains were brought for burial to Payne's depot, near Bethel, Kentucky."

LINDQUIST AN ARCHITECT.

Joe Lindquist, former star first sacker of the Escanaba baseball team, who last fall was signed by the Chicago White Sox, but refused to report for the club's spring training trip, is now an architect, he having recently completed a course in Armour Institute, Chicago. Mr. Lindquist was one of the prominent factors last spring in winning the college championship of Chicago for Armour Institute. In his final game he drove out a home run in the eleventh inning in a game that gave Armour two straight victories over the University of Chicago. In sliding into the plate after making the long drive he sustained a severely sprained ankle, with which he was confined to his home for nearly a month.

ISHPEMING IN BRIEF.

The Chicago & Northwestern Railway company is putting a metal roof on its warehouse building, First and Bank streets.

The thermometer in front of George Voelker's place registered ninety-eight degrees under the awning yesterday afternoon at 1:30 o'clock.

"Boney" Dixon, the former Ishpeming and Marquette twirler, who, for the past few weeks has been playing with the Sheboygan nine, has returned to the Milwaukee team of the Wisconsin-Illinois league.

The Winter Garden Four, a comedy quartet, will be the vaudeville attraction at the Ishpeming theater tonight, tomorrow and Wednesday evening. This is a very high-priced attraction that was specially engaged for home-coming week.

The force employed on the asphalt work on Cleveland avenue made a record Saturday, when they completed the en-

Upper Peninsula

Iron County Electric Line.

P. D. Sullivan, representing the proposed electric line in Iron county, says engineers have surveyed a route and actual construction work on the grading will be started about the middle of July. It is the intention to build from Spring Valley to Stambaugh and Iron River and out to the mines north of that place. Later on a line will be built to Crystal Falls.

Fatality at Gladstone.

When a section of the tram way at the plant of the Northwestern Copperage & Lumber company at Gladstone collapsed, Robert Craig, mill foreman, sixty-two years old, received injuries that caused his death a few hours later and Theodore Johnson and Fred Joyce were driving along their horse got scared at a bear alongside the road and in jumping threw both men over the dashboard. Frank suffered a cut lip and a bruised nose and Paul had a thumb disabled. A few feet away from them sat a she-bear on her haunches, with two cubs beside her.

Cigar Stub Costly.

According to the annual report of the state fire marshal, just issued, a cigar stub caused a \$10,000 fire in Dickinson county, but the exact location of the aforesaid blaze is not stated. A lamp explosion is credited with being instrumental for a \$250 loss and \$200 damages and sparks from an engine \$700 loss and \$10 damages. A candle caused \$800 worth of damages and children and matches only \$50 worth. Tramps are credited with being responsible for fire damages in the sum of \$1,000. Sparks from an engine are charged with \$95 worth of damage and sparks from a furnace with \$15 worth. Defective chim-

Proposed Elks' Lodge.

C. E. L. Thomas, of Calumet, deputy grand exalted ruler of the Benevolent and Protective Order of Elks, has been in Crystal Falls, investigating an application for a dispensation. Crystal Falls has no social club, so prominent mining and business men have applied for a dispensation to form an Elks' lodge. Mr. Thomas will submit a report to the grand exalted ruler and that official will likely abide by the report of the deputy, provided the consent of the Iron Mountain lodge is procured. While the grand lodge provides that lodges may be constituted in towns and cities of more than 5,000 population, the surrounding locations in the vicinity of Crystal Falls may be considered as part of the city, since with \$15 worth. PLAYED FINE GAME.

Ishpeming Defeated Marquette Yesterday by 2-1 Score.

One of the best played ball games of the season at the Union Park grounds was won yesterday by Ishpeming from Marquette by a score of 2 to 1. Neither team scored after the first inning. Ishpeming had but one error. Marquette had three, all on infield grounders.

Both Scholtus and Goulette pitched six-right ball after the initial inning, and each allowed seven hits. Mandley, of the Ishpeming team, was the only player who hit for an extra sack. Nichols was behind the bat for Ishpeming and Richardson caught for Marquette. The feature of the game was Boyer's playing at third for Marquette. He scooped up a number of fast grounders and he covered his position like a veteran.

Both teams showed improvement, and if they continue to play such ball as they put up yesterday the attendance will show a large increase. The attendance was very light yesterday, due to the heat. It was about eighty-eight degrees in the shade when the game started.

URGED TO DECORATE.

Business Men, Owners of Homes and School Authorities Asked to Act.

The committee directing the home-coming celebration urges every business man and house owner in the city to decorate their places, and also asks the school officials to decorate the school building. The merchants have large supplies of flags, bunting and other material that can be used to advantage in this work. It is requested that the decorations be completed as soon as possible, and especially before Thursday, when the home-comers will be taken on an automobile tour of the city.

Captain F. E. Keese, chairman of the arrangement committee, Saturday appointed James Clancy, chairman of the reception committee. Mr. Clancy has named three pioneers, John Penglass, Henry Routhier and Fred J. Eggan, as his assistants. Members of the committee will meet the incoming trains from now until the fourth.

REMOVE NOXIOUS WEEDS.

Notice is hereby given that all noxious weeds growing on any land in the township of Tilden, county of Marquette, or within the limits of any highway passing by or through such lands must be cut down and destroyed on or before the first day of July, nineteen hundred and thirteen. Failure to comply with this notice on or before the date mentioned or within ten days thereafter shall make the parties so failing liable for the costs of cutting same and an additional levy of ten per centum of such, to be levied and collected against the property in the same manner as other taxes are levied and collected.

Dated, June 25, 1913.
CHAS. JUNTILA,
Commissioner of Highways of the Township of Tilden, County of Marquette.

TO ENFORCE ORDINANCE.

Every Precaution Will Be Taken to Give Ishpeming a Safe Fourth.

The police have been instructed by Mayor Barnett to enforce strictly the ordinance relating to the sale and use of explosives, which follows: "Be it ordained by the Common Council of the City of Ishpeming: "Section 1. That no person shall sell, give or furnish to any child under the age of thirteen years, any cartridge of any form or material, or any pistol, gun, giant or cannon crackers, or other mechanical contrivance, specially arranged or designed for the explosion of the same, within the corporate limits of the city of Ishpeming.

"Sec. 2. Any person violating any of the provisions of the foregoing ordinance shall be punished by a fine of not less than \$10 nor more than \$50, or imprisonment in the county jail of the county of Marquette, or the city jail of said city, for not to exceed ninety days, or both such fine and imprisonment in the discretion of the court.

"Sec. 3. It shall be unlawful for any person under the age of thirteen years to have in possession or use any of the articles named in Section 1 of this ordinance.

"Sec. 4. This ordinance shall take effect on June 30, A. D. 1910."

Mayor Barnett also suggests that the men in charge of the mines take precautions to see that giant powder is not removed from the property to be exploded in the hills surrounding the city the night of the third. This practice, which has been frequent in the past, is attended by danger, and is furthermore a great annoyance to many people.

ISHPEMING IN BRIEF.

Mrs. William Stephens of Ironwood is visiting relatives in the city.

Mr. and Mrs. David Lavigne, of Hibbing, Minn., are the guests of U. Lavigne and family for a few days.

The Misses Etta Peterson and Ruth Wainberg have departed for Madison, where they will attend the summer session of the University of Wisconsin.

Harry Van Brocklin, a member of 1913 class of the Ishpeming High school, has taken a position with the Pluto Powder company. He will assist Edwin Smith, the chemist at the plant.

Miss Alice Roach, who teaches school at Ironwood, visited her friend, Miss Belle Brazil, Friday and Saturday. She left Saturday for Marquette, where she will teach at the Normal during the summer session.

Henry Nelson, formerly of this city, who now travels as inspector for a Minnesota Lumber concern, spent Sunday with friends in this city, he having been at Calmer Saturday inspecting lumber that the firm he represents has purchased.

Will Blaney, of the Mugfur Fruit company, arrived home yesterday from a two day's business trip in Chicago, Saturday was one of the hottest days ever experienced in Chicago. There were hundreds of prostrations, many of which

resulted in the death of the victims. At 10 o'clock Friday night it was ninety degrees, and at 4 Saturday morning, it was eighty-four.
Mrs. Eldin, wife of Rev. William Eldin, who spent the past several weeks in the city visiting her parents, Mr. and Mrs. Neils Hanson, of Maurice street, has departed for her home in Kansas.

Mining News

GIROUX CONSOLIDATION.

General Manager Gray Enthusiastic Over Company's Prospects.

More than the needed amounts of stocks in the various companies concerned have been deposited to insure the success of the Giroux consolidation. The merger of the Giroux, Coppermines, Butte & Ely and Chairman group of mines in the Ely district is the result of a thorough examination of the district by eminent engineers, and will result in putting 2,340 acres of mineral ground under one ownership. The Giroux company stockholders will derive the greatest benefit of the consolidation, as its stockholders will secure 75 per cent of the new stock, while Coppermines stockholders will receive 16 per cent, Butte & Ely 5 per cent and Chairman 4 per cent. Under this consolidation new interests will enter the company.

Charles F. Hand, the president, is president of the American Institute of Mining Engineers, and has had years of experience in prominent mining operations in both copper and iron. At present he is in charge of the mining end of the Pennsylvania and Maryland Steel companies. Of the present board of directors, Isadore Hershheim and Mulford Martin represent the original stockholders of the Giroux company. Joseph B. Cotton and Thomas F. Cole are the only former members of the board remaining, and they are among the largest individual stockholders in the Giroux company. William B. Joyce is president of the National Surety company and Erastus T. Telford is a member of the New York Stock exchange house of Telford & Co., James Phillips, Jr., Hinkle Smith and William B. Thompson enter the board through the Coppermines company. Of the other directors, C. Lawrence Perkins represents a considerable stock ownership. The general offices will be in New York, instead of at Duluth. A factor of importance is the election of Edwin F. Gray as general manager. Mr. Gray is familiar with Ely mining conditions. He was the first general manager of the Nevada Consolidated and placed practically all of the tonnage of that property in sight, and started the company off on its present wonderful record of production and earnings. Mr. Gray is enthusiastic over the prospects of the new company, and believes he will be able in a comparatively short space of time to place a large tonnage of additional ore in sight to actually demonstrate the necessity for the erection of a mill and smelter.

Giroux already has a large tonnage of porphyry ore, not only in sight but in shape for mining, and is now producing 1,000 or 1,200 tons of 2 per cent ore per day, and the saving in the cost of treatment of this ore at its own plant will go some way toward the cost of construction of a mill, for on the present limited production the new interests figure that the saving would be over \$200,000 a year, and enough is known of the present porphyry deposits within the confines of the territory of the consolidated company to justify the erection of a mill to treat a very much larger tonnage. As to the Alpha limestone deposits, diamond drilling and underground work has already demonstrated the existence of the ore, but the only available smelting rates have been prohibitive, and this is probably the reason why the management has paid more attention to the development of the porphyry end of the property, rather than to the limited cash resources in opening up the limestone deposits.

Officials of the Giroux company admit that the results underground may not have met expectations, but they say that there have been unavoidable delays in the work, which have added much to the cost and prevented the desired exploration, but as the new company has made provisions for prospective financial needs, both for underground development and for construction of mill and smelter, there is every reason to expect that out of the present consolidation a property of some importance will be developed.

Leading interests in the new company have agreed to take the underwriting for a large proportion of the \$3,000,000 7 per cent bonds it is proposed to issue, to insure the success of the new company from the financial standpoint, subject, of course, to the stockholders' rights to take the new bonds.

COPPER DIVIDEND PROSPECTS.

The reduction in Alameck's quarterly dividend rate from \$7 to \$5 brings up the question as to how many of the other dividend paying copper companies will have to follow suit if copper stays around the present level of fifteen cents. With the exception of Calumet & Hecla, Osceola and Mohawk, there seems to be no reason to anticipate reductions, most of the dividend paying "coppers" listed on the Boston Stock exchange showing a very fair margin over present requirements.

Osceola directors are due to meet any time for dividend action, and as earnings on fifteen-cent metal can hardly be in excess of \$0 per share against a last quarter of \$2—so the discussion of the next quarterly dividend at the rate of \$12, somewhat here is to be expected, say to \$2 quarterly, unless the directors should decide to cut into the large surplus account. Calumet & Hecla has just paid a quarterly dividend of \$10—a reduction of \$2—so the discussion of the next declaration is somewhat premature, but \$35 per share is a good estimate of its earnings on 15-cent copper—5½ cents profit on 60,000,000 pounds, or \$3,300,000, to which should be added dividends from Alameck and Osceola and a note interest deducted. Equity in undivided subsidiary earnings would bring the figure above \$40 per share. Quincy likewise has just paid a reduced dividend—\$1.25 against \$1.50 three months ago.

Copper Range, Old Dominion and Wolverine can just about break even, the

remaining companies showing excess share earnings on 15-cent copper over present dividends as per the following table. Isle Royale and Shannon not being included because of obvious uncertainty of dividend action under present conditions:

Company	Share earn. on 15c. cop.	Prev. div.
Alameck	825.00	\$20.00
Amalgamated	7.00	6.00
Anaconda	3.25	3.00
Calumet & Hecla	7.00	5.00
Calumet & Hecla	35.00	40.00
Copper Range	3.25	3.00
Clino	4.75	3.00
Miami	2.80	2.00
Mohawk	5.00	6.00
Nevada Cons.	2.50	1.50
North Butte	3.25	2.00
Old Dominion	5.00	5.00
Osceola	9.00	12.00
Quincy	6.50	5.00
Ray Cons.	2.25	1.50
Utah Copper	6.75	3.00
Wolverine	11.00	10.00

made from Cornwall ores, the latter carrying a small percentage of copper. These rails were found to show extreme toughness and resistance to wear. The conclusion of the St. Paul engineers is that the possibility of a big new source of demand for copper. It is interesting in this connection to calculate that were all the railroads to require a 0.5 per cent copper alloy in their rails, a new outlet would thus be created for 3,327,000 tons.

INSPIRATION.

After several months of apparent indecision the Inspiration finally has announced its intention of erecting a 600-ton mill to test the flotation process of extracting sulphide ores. The machinery for the mill has already been ordered, and it will be built at a point just west of the main concentrator site. Chief Engineer H. Kenyon Burch says that the machinery to be used in equipping the test mill has been so selected that it can be used in the main mill in the event of the flotation process not being used by the company. The building of the test mill will occupy six months, but the construction of the Inspiration concentrator will not be retarded as a result of this alteration of the original program, as the test plant will have been finished and sufficient time elapsed for all tests necessary before that portion of the main mill's equipment shall be needed. The grading at the mill site will be finished about Aug. 15 and building will proceed as rapidly as arrival of supplies permit. The railroad grading between the mine and mill site has been finished and the track laid. The work on the main haulage

COPPER IN STEEL RAILS.

Of vital interest to the copper industry as well as to the railroad world is the report of the officials of the St. Paul railroad on the 5,000 tons of steel rails which the company ordered last year loaded with an alloy of 0.5 per cent copper. Not one broken rail was discovered in the entire lot, which was distributed throughout various sections of the Northwest. On the strength of this exceptional showing the company has ordered 10,000 tons more of the copper-steel rails, and if further experience confirms the results to date it is likely that this alloy will be adopted as the standard in rails. The experiment was based on the performance of rails which were

AIRYKNIT

UNDERWEAR FOR MEN

You can see through the Airyknit fabric. It has 576 pores to the square inch. Think of that for airiness, ventilation and sheerness. An Airyknit union garment of average size has over a million little air vents. Airyknit is several times more porous than ordinary porous underwear and proportionately cooler and more comfortable. There is no other underwear like it, either of domestic or foreign production.

The Airyknit fabric is admittedly the sheerest, airiest, lightest, softest and most elastic ever put into an underwear. It is the closest imitation to the porous human skin ever conceived in a fabric—576 pores to the square inch.

ASSERTS TETANUS IS PREVENTABLE

But Dr. Holm Says the Disease Is Not Curable Once It Takes a Firm Hold.

State Bacteriologist M. L. Holm says that children who are injured by firecrackers or other explosives used in celebrating Fourth of July should be rushed immediately to a doctor for treatment, declaring there should be no

delay in treating a case that is apt to result in tetanus.

"Every penetrating wound caused by blank shells, firecrackers or other explosives is a potential tetanus infection, and should be referred to a competent physician, who will inject 1,500 units of tetanus anti-toxin and treat and dress the wound according to indications," said Dr. Holm.

"Tetanus is caused by a resistant germ belonging to the so-called spore-bearing type. It is found widely distributed in nature, being present in street dirt, garden soil, manure, decaying organic matter, etc. When this germ is lodged in the tissue, and air is excluded, it develops a poison which produces fatal results in fully three-fourths of the cases. Tetanus anti-toxin will not cure the disease, but if injected before

symptoms appear it will act as an absolute preventative.

"During the past 10 years there have been reported in the United States 1,109 deaths from tetanus, resulting from Fourth of July injuries. Among these, 882 cases were caused by blank cartridges, and only 227 from other causes. Proper restrictions and more sane celebrations have reduced the deaths from tetanus during the past two years, but it is safely predicted that the coming celebration will not be without necessary fatalities.

"In Michigan during the past 10 years there have been reported 80 deaths from tetanus, resulting from Fourth of July injuries. The highest number reported in any one year was 29 in 1903, and the lowest is one in 1912. In about 79.5 per cent of cases the wound was caused by blank cartridges, 8.4 per cent by giant crackers, 2.4 per cent by cannons, 3 per cent by fire arms and the remaining 6.6 per cent by powder, etc. Statistics show that approximately 10 per cent of injuries from blank cartridges result in fatal tetanus.

"The average period intervening between the injury and the onset of symptoms of tetanus is about seven days, but may vary between 5 and 15 days. In these cases where the symptoms appear early fatal results almost invariably follow. Tetanus should always be regarded as a very serious disease and all preventive measures should be utilized, as there is no treatment which may be relied upon for a cure."

FOUR CENTURIES IN SAME HOUSEHOLD

Unique Record of Servitude by Family in Germany Is Duly Celebrated.

Berlin, June 29.—American newspapers now and then publish stories of servants who have been employed continuously in the same family twenty-five, thirty and even forty years, and describe the "jubilees" held in honor of the faithful worker. But the American record, however, becomes insignificant when compared to the history of the Spankrebe family, in East Prussia, the members of which have served the Counts of Eulenburg for four hundred years.

The Eulenburg family acquired the estate of Gallingen, near Koenigsberg, in 1413. Among the workers who were then installed on the land was a certain Hermann Spankrebe, whose descendants have lived on the estate ever since. Generation after generation they have entered the service of the owners of the property. To celebrate the four hundredth anniversary of this relation, the present Count of Eulenburg and the senior Spankrebe invited all the employees on the estate to an elaborate jubilee dinner, the cost of which was met by the count, who presided at the banquet.

Woman Blamed for 23 Deaths.

Germany's "Typhoid Mary," a cook in the regimental kitchen of the Railroad Regiment No. 3, in Hanau, can score up twenty-three deaths to her account from the typhoid epidemic which broke out in the first battalion of the regiment

last December, and which has only now ended.

According to an official statement made before the reichstag the epidemic, which involved several hundred active soldiers and reservists called to the colors for training, has been traced to a potato salad prepared by this woman, who evidently had carried the bacilli of typhoid in her body for years. She is now, of course, permanently barred from employment as a cook.

This case has brought out an interesting discussion as to the right of such "bacilli carriers" to demand from the state a pension to compensate them for their permanent "disability" to practice their trade. A workman who loses his arm; a stenographer whose writing hand is crippled, or an engraver whose sight is permanently affected, are entitled to compensation from the insurance fund. Why not then a cook who, through no fault of her own, becomes a permanent menace in the kitchen and is thereby thrown out of employment?

Business Letters Minus Bouquets.

The Association of Iron and Steel Industries of Berlin has decided, following a movement started in the German business world some time ago, to recommend to its members that, beginning Oct. 1, next, they discard all unnecessary salutations and closing formulas in their correspondence, and also that redundant and superfluous phrases be dispensed with. The association's lead is likely to find many followers, especially in the Rhineland, where the revolt against what is called "merchant German" is widespread. As a sample of the phrases to be discarded the following may be cited:

"In the possession of your honored letter of yesterday, I acknowledge to you the receipt of the same thankfully, and have taken the most careful notice of its contents."

"This is the stock formula for acknowledging a business letter. The reformers see no reason why 'yours of yesterday received and contents noted' does not fill all requirements.

A MOST WONDERFUL CURE.

Joseph D. Underhill, of Doland, S. Dakota, says:—I have received great benefit from your White Wine of Tar Syrup. I had a deep seated cough and the doctors gave up all hopes of my recovery and pronounced it consumption. I tried everything that we could hear of. Finally one of my friends prevailed upon me to use your White Wine of Tar Syrup. I took 1 1/2 bottles and am entirely cured. Such medicine I can recommend to those who are afflicted as I was.

ULCERS AND SKIN TROUBLES

If you are suffering with any old, running or fever sores, ulcers, boils, eczema or other skin troubles, get a box of Bucklen's Arnica Salve and you will get relief promptly. Mrs. Bruce Jones, of Birmingham, Ala., suffered from an ugly ulcer for nine months and Bucklen's Arnica Salve cured her in two weeks. Will help you. Only 25c. Recommended by The Stafford Drug Co.

Katherine L. Norton, New Bedford, Mass., says: "I had a terrible pain across my back, with a burning and scalding feeling. I took Foley Kidney Pills as advised, with results certain and sure. The pain and burning feeling left me. I felt toned up and invigorated. I recommend Foley Kidney Pills." For backache, rheumatism, lumbago, and all kidney and bladder ailments, use Foley's Kidney Pills. For sale by All Druggists.

DOLLAR by DOLLAR

That is the way fortunes are built.

Are you missing your opportunity to acquire independence because you let the dollars, and the small coin that makes them slip through your fingers?

Open a savings account NOW with the First National Bank. Put a little wholesome restraint on your spending and give your future a chance.

Upper Peninsula

Is Retained at Bigger Salary.

John F. Reed has been re-engaged as superintendent of the schools at Wakefield. His administration has been so successful, that the board has voted him increased compensation. He has a force of about thirty assistants and under his management the Wakefield schools have advanced most materially in the past two years.

Car and Owner Went Into Lake.

Dr. J. F. Deedman had a narrow escape from serious injury at St. Ignace Friday. He was washing his car on the rear platform of the Litchard & Madison livery when the platform gave way, precipitating the doctor, who was in front of the machine, and the car into the lake, the fall being about twelve feet. The doctor escaped without serious injury, although his right arm was scratched and bruised. The machine hardly bore a scratch and when pulled out was ready for business.

Dividend for Bank Creditors.

A dividend that will probably mean not over 10 per cent to the creditors of the defunct bank of D. Hammel & Son of Gladstone is likely to be paid during the next few days, according to Trustee I. N. Bushong. The Hammel house, the garage, the bank building and the dock property sold to the city will bring approximately \$12,000 or \$15,000 and it is estimated that a few minor sources of income will permit of a disbursement of 10 per cent after paying the necessary expenses incurred in handling the affairs of the estate, including the fees of trustee, lawyers and referee and incidentals.

Murderer Is Visited by Wife.

Through the kindness of sympathetic neighbors who provided transportation, Mrs. Joseph Ellary of Hermansville was able to go to Menominee to visit her husband, who is held in jail on the charge of murdering his cousin, Frank Ayoitte. It was the first time that the wife, who figures as a principal in the alleged affair that prompted the killing of Ayoitte, had seen her husband since he was placed under arrest four weeks ago. The woman, accompanied by a nine-year-old daughter, visited the husband in his cell. The reunion was pathetic. Mrs. Ellary, it is understood, will testify in her husband's behalf when the case is called for trial at the October term of court.

Church Damage Heavy.

The damage inflicted to St. Joseph's church, at Iron Mountain by lightning followed by water, recently, is much greater than was at first anticipated. Rev. George O. M. DeForest is of the opinion that the loss may total \$2,000. The steeple, which was struck by lightning and set on fire, was badly wrecked and may have to be entirely rebuilt. The walls of the church were also damaged. The inflow of water resulted in much damage. The organ was totally ruined and the beautiful altar statues were badly damaged, perhaps

Mining News

MIAMI.

Vice President and Consulting Engineer J. Parke Channing of Miami reports recent mining to have revealed no serious damage to the pillars of the mine resulting from the cave-in April 17. During the first ten days of June 26,473 tons of ore were delivered to the mill, but during the following days the mine's output averaged 3,110 tons per day, a rate of extraction that will continue. With only five of its six units in operation the mill is easily handling the daily output. The sixth section of the mill is being employed somewhat in the nature of an experimental section, multiple Deister tables and other added equipment resulting in a saving of one and a half pounds more copper per ton of ore treated. Because much of the Miami ores near the surface and in the stockpiles contain considerable amounts of other mineral values that would not be saved by the flotation process, the Miami management has decided not to alter in any radical manner any portion of its concentrator until the flotation, leaching and other methods now being tested shall have been thoroughly tried out. Mr. Channing stated that while all manner of water concentration, flotation and leaching methods would be tried out thoroughly, it is his opinion that leaching will prove most effective in saving the copper now lost in treatment of the Miami's ores.

Mining News

MIAMI.

There has been about \$15,000 thus far paid in on the Algonquin assessment out of a possible \$70,000. The company is gradually cleaning up its debts, paying off a \$4,000 note last week, and at present has about \$8,000 cash on hand. Davis-Daly is now shipping about 300 tons of ore a day and it is stated that the earnings for last month amounted to \$6,000. With the increase in the output Consulting Engineer Creden predicts that the earnings for June will run somewhere between \$10,000 and \$12,000. The \$1 assessment levied by the North Lake Mining company about a month ago has thus far been paid on about 50,000 shares, out of 100,000 shares outstanding, and the company has been able to clean up all its debts, leaving a cash balance of about \$12,000 on hand. Recently the company was a borrower of \$38,000 from banks. Including the dividend of \$1 per share, the fifth this year, declared last week, the Champion Copper company's disbursements total \$8,000,000, which have been equally distributed between the Copper Range company, subsidiary of the Copper Range Consolidated, and the St. Mary's Mineral Land company, as owners of 50,000 shares each.

NOTES OF MINING NEWS.

There has been about \$15,000 thus far paid in on the Algonquin assessment out of a possible \$70,000. The company is gradually cleaning up its debts, paying off a \$4,000 note last week, and at present has about \$8,000 cash on hand.

Davis-Daly is now shipping about 300 tons of ore a day and it is stated that the earnings for last month amounted to \$6,000. With the increase in the output Consulting Engineer Creden predicts that the earnings for June will run somewhere between \$10,000 and \$12,000.

The \$1 assessment levied by the North Lake Mining company about a month ago has thus far been paid on about 50,000 shares, out of 100,000 shares outstanding, and the company has been able to clean up all its debts, leaving a cash balance of about \$12,000 on hand. That is compounded from nature's own remedies, the roots and herbs of the field, that has stood the test of time by restoring health and happiness to more suffering women than any other remedy we know? Such is Lydia E. Pinkham's Vegetable Compound which complies with all conditions of the Pure Food and Drugs law.

Negaunee Department

CITY HALL TO BE MODERN STRUCTURE

Blue Prints and Specifications Are Now on File at the Office of the City Recorder.

Blue prints and specifications for Negaunee's new city hall and library can now be seen at the office of the city recorder. The new structure will be the most modern city building in the upper peninsula. It will be twice the size of the present city hall, and will cover the lot between Silver, Kenter, Jackson and Case streets. Its outside dimensions will be approximately ninety-four feet from north to south and about sixty-five feet from east to west. Ample room will be provided for all the city officers, there will be a large council chamber, and the library, on the first floor, will be nearly three times the size of the present library.

Many Contractors In City.

The present city hall structure will be razed, and it is not expected that much of the material will be used by the contractor in the construction of the new hall, with the exception of some of the rock from the basement. Many outside contractors, besides several local ones, are now looking over the plans and specifications with a view of submitting bids. The contractors have been given only a little more than two weeks in which to prepare their figures, but it is expected that at least ten contractors will submit bids on the general construction.

The material used in the construction of the building will be principally brick and terra cotta. The main entrance to the building, which is to be located on Jackson street, will be imposing and will include a long flight of concrete steps. Inside the main doors a short flight of marble steps will lead to the first floor, leaching and other methods now being tested shall have been thoroughly tried out. Mr. Channing stated that while all manner of water concentration, flotation and leaching methods would be tried out thoroughly, it is his opinion that leaching will prove most effective in saving the copper now lost in treatment of the Miami's ores.

Basement Plans.

The jail will be located in the basement, and will be approximately twenty-seven by twenty-one feet, slightly larger than the jail in the present building. The office of the city marshal and the squad room will also be in the basement. The jail will be equipped with shower baths and conveniences. The boiler room will be twenty-four by thirty-two feet. The floors of both the jail and the boiler room are to be of concrete. The entrance to the jail will be on Silver street.

A children's play room, approximately twenty-one by thirty-eight feet, will occupy a portion of the space in the basement. A women's comfort and rest room will also be located there, and space is provided for two store rooms and a storage vault. A flight of concrete steps will lead from the basement to the first floor.

First Floor.

Directly inside the main storage entrance on Jackson street, on either side of the corridor, will be the offices of the city recorder and treasurer, the dimensions being twenty-two by twenty-five feet and twenty-three feet by fifteen feet, respectively. A large vault will be provided for each. With the exception of these two offices the entire first floor will be devoted to the public library. A reading room for children, a children's reading room, adults' reading room, stack room, two public lobbies, library's office, work room and store room. The children's reading room will be approximately twenty-one by twenty-six feet and will be located on the east side of the building. On the opposite side of one of the public lobbies will be the adults' reading room, twenty-two by thirty-nine feet, and adjoining it will be the reference room, about the same size as the children's reading room. The stack room will be about thirty-seven feet square and will be large enough for many more books than are now contained in the library. All the floors of the library, with the exception of the stack room, will be of an attractive pattern. There will be two entrances to the library, one from the Case street side of the building and the other through the main entrance on Jackson street.

Plan of Second Floor.

The office of the mayor will be located at the top of the flight of stairs which will lead from the first to the second floor. A large corridor will run from the front to the rear of the second floor, and the other offices of the city will have rooms on either side of this corridor. The council chamber, forty-seven by twenty-four feet, will be located on the right side of the corridor, near the stairway. The public space will set off from the remainder of the chamber and the mayor's chair and desk will be placed upon a platform. Adjoining the council chamber will be several committee rooms and a cloak room. Ceiling lights will furnish an abundance of light for all the rooms on the second floor.

Large Clock Tower.

Surmounting the structure, which will be rectangular in shape, will be a large clock tower. The distance from the street to the center of any one of the clock faces will be seventy feet, so the clock will be visible from almost any portion of the city. The tower will be constructed of terra cotta and faced brick. There will be four faces to the clock, facing north, east, south and west, each of which will be of sufficient size to be seen for a considerable distance. The tearing down of the old building has commenced following the awarding of the contract, and the city officials are hoping to have the new building completed by the latter part of the year.

NEGAUNEE LOST TO GWINN YESTERDAY

Swanzy Range Nine Won on Its Home Diamond by Score of Three and Two.

Negaunee lost its position at the head of the percentage column in the Marquette County league yesterday, by losing to Gwinn at that town by a score of 2 to 3. The pitching of Collins, Negaunee's new pitcher, who formerly served on the Negaunee High school nine, was the feature of the game. Swanzy's work was also excellent. Ishpeming now leads the league, as it won from the Marquette nine at Union Park yesterday afternoon. Although the weather was decidedly hot, the contest yesterday was witnessed by a large sized crowd of Gwinn people, who are displaying great interest in their team. The summary of the game follows:

Negaunee	A. B. R. H. P. O. A. E.
Heinonen, 2b	5 0 0 1 1 0
Faul, ss	5 0 0 0 0 0
Dyer, lf	3 0 2 3 0 0
Peel, c	4 0 0 4 0 0
Holman, 3b	4 0 0 1 0 2
Ford, rf	4 0 1 1 0 1
McKibb, lb	4 0 0 10 0 0
Frederickson, cf	4 2 2 3 0 0
Collins, p	4 0 1 3 4 1
Total	37 2 8 26 5 4

Gwinn	A. B. R. H. P. O. A. E.
Messier, 3b	4 0 2 0 3 2
Knib, ss	4 0 0 0 1 0
Kuder, rf	4 0 0 0 0 0
Adamsen, lf	3 1 0 2 1 0
Haglund, 2b	4 0 0 5 3 0
Robare, cf	3 1 1 0 0 0
Dabb, lb	3 0 0 10 0 0
Johns, c	2 1 0 7 0 0
Swanson, p	2 0 0 1 4 2
Total	29 3 3 25 12 5

Out, hit by batted ball. Stolen bases—Messier (2), Main, Heimonen, Roberts Dyer. Struck out—by Collins, 4; by Swanson, 6. First on base—off Swanson, none off Collins, 1. Double plays—Adamsen to Haglund, Sacrifice hits—Haglund, Johns, Robare and Dabb. Passed ball—Peel (2). Umpires—McIntyre and Scanlon.

HINKLEY & LAMBEAU AWARDED CONTRACT

Green Bay Firm Bids \$23,304 for Construction of the Manual Training Building.

The school board has awarded Hinkley & Lambeau, a firm of Green Bay, Wis., the contract for the construction of the manual training building to be erected on the site of the old First Presbyterian church, corner of Pioneer avenue and Case street. The firm bid on the general construction work \$23,304.00. Seven bids on the general construction were presented, they vary from Hinkley & Lambeau's bid to \$38,304.00, a difference of \$15,000. Six firms submitted bids for the heating and ventilating of the building, the bid of the Lake Superior Steam Heating company, of Ishpeming, having been accepted, as was also their bid on the plumbing. The Herman Andrae Electric company of Milwaukee, was awarded the contract for the electrical work. The National Regulator company's bid for installing regulators was accepted, it having been \$47 less than another submitted.

Amounts of Bids.

The bids on the general construction of the building were:	
Hinkley & Lambeau, Green Bay	\$23,304 00
Herman Construction Co., Antigo	24,300 00
G. A. Gustafson, Norway	24,400 00
Andrew Lindquist, Negaunee	24,400 00
Eraser & Greinke, Appleton	29,192 00
Appleton Construction Co., Appleton	31,169 00
L. E. Chausser, Negaunee	38,304 00

The bids for heating and ventilating:

Lake Superior Steam Heating Co., Ishpeming	\$3,026 00
Swanson Bros., Negaunee	3,339 00
Peninsula Heating & Plumbing Co., Laurium	3,637 00
Industrial Heating & Engineering Co., Milwaukee	4,100 00
W. S. Patterson Co., Appleton	3,392 00
N. J. Yonkers, Holland, Mich.	3,800 00

The bids for plumbing:

Lake Superior Steam Heating Co., Ishpeming	1,945 00
Swanson Bros., Negaunee	2,215 00
Peninsula Heating & Plumbing Co., Laurium	2,588 00

The contract for both the heating and ventilating and the plumbing was given to the Lake Superior Heating company, as the aggregate amount of their two bids was slightly lower than that of Swanson Bros. The bid of Swanson Bros. for the heating and ventilating was lower than that of the other competitors, following as there being a difference in the material specified by the two firms.

The bids submitted on the wiring and installation of electric fixtures were: Beaver Electric Co., Chicago, \$2,400 00; S. B. Moran, Soudr Bend, Ind., 1,400 00; Herman Andrae Construction Co., Milwaukee, 1,000 00; Richardson Electric Co., Duluth, 2,150 00. The amount of the bid of the Johnson Service company, of Milwaukee, for the installation of heat regulators was \$700.00 compared with a bid of \$723.00, submitted by the National Regulator company.

Work Begins In August.

The contractors on the general construction will begin work during the first week of August, as specified in the contract, and the board expects to have the building completed by November, so that machine and equipment may be installed before the opening of the second semester in February.

The Thrift Habit

Habits of thrift should be cultivated just as soon as wages are earned or as soon as one has the handling of any regular amounts of money. There is nothing you will do in all your life that will give you such satisfaction as seeing the savings grow little by little until there comes a time when the accumulation has reached the sum that means:

A Business Opportunity Increased Comforts Shelter Against a "Rainy Day" Opportunity for Benevolence

Something else that would otherwise have been missed. The thrift habit will mean a great deal to you more than you realize now, if you have not yet begun to practice it.

Negaunee National Bank

Capital and Surplus \$200,000.00. UNITED STATES DEPOSITORY. Special attention given to banking by mail.

HUNDREDS WILL ATTEND.

Negaunee people are planning to attend the events of Ishpeming's homecoming week. Several Negaunee men and women have been named as judges for parades, practically all judges for celebration being outside persons. Names of the Negaunee women who act as judges have not yet been made public, but among the men who will in that capacity are W. A. Garmes, Commercial "Robt's"; C. L. Spaulley and Johnson Market, call thumpian; B. Bell, industrial floss, and Dr. E. J. Her, bold and nationalities. Special street service has been arranged. A number of Negaunee people will enter their machines in the automobile parade the afternoon of the Fourth.

MISS ELLARY NAMED AS JUDGE FOR ISHPERING'S HOMECOMING.

Many Negaunee people are planning to attend the events of Ishpeming's homecoming week. Several Negaunee men and women have been named as judges for parades, practically all judges for celebration being outside persons. Names of the Negaunee women who act as judges have not yet been made public, but among the men who will in that capacity are W. A. Garmes, Commercial "Robt's"; C. L. Spaulley and Johnson Market, call thumpian; B. Bell, industrial floss, and Dr. E. J. Her, bold and nationalities. Special street service has been arranged. A number of Negaunee people will enter their machines in the automobile parade the afternoon of the Fourth.

HIGH TEMPERATURE RECORDED.

Yesterday was one of the hottest days of the summer. From 12 o'clock noon until 4 o'clock the mercury hovered about the nine mark, and at 5 o'clock the temperature recorded was eighty-six degrees. Owing to the extreme heat most people remained indoors during the afternoon.

LEL LACONICS.

Mrs. Ed M. and son, of Marquette, were the guest Negaunee friends yesterday. Mrs. John Martin, of Green Bay, is here for a visit with her mother, Mrs. Gaffney. Miss Edith Worth, of Calumet, is the guest of friends in Negaunee for several days. Miss Erla Schunk, of Marquette, is in Negaunee to visit with her sister, Mrs. J. P. Burns.

USE MOVIES TO FIND GIRL.

Films Flash Likenesses of Daughter Kidnaped by Father. Boston, June 29.—A world-wide search for Olga Ellis, aged six, of Revere, who was kidnaped last February, by her father, John Ellis, has been instituted through the medium of moving picture films, and soon wherever there are moving pictures shown a striking likeness of the girl and her father will be thrown on the canvas. The movement started in California. With the pictures are fascicules of the police circulars containing descriptions of Olga and her father. Since newspapers took up the search for the missing pair, Mrs. Harriet Ellis, the child's mother, has received letters from all over the country offering aid.

CITY HALL BIDS WANTED.

Bids are wanted for the remodeling of the Negaunee city hall and will be received by the undersigned at his office in Negaunee up to Tuesday, July 15, 1913, at 3 o'clock p. m. Plans and specifications can be seen at my office and any one desiring to take them away for the purpose of preparing figures will be obliged to deposit either \$25 in currency or a certified check for that amount to insure their prompt and safe return. The council reserves the right to accept any or reject any or all bids.

CONTRACT FOR COTTAGE IS LET

Herman Gunlach, of Houghton, to Construct Building at the Newberry State Hospital on a Bid of \$44,300—Many Other Proposals Received by the Trustees.

Plumbing and Steam Heating and Concrete Cloister Floor Contracts Were Also Awarded—New Structure Will Be Fireproof—Will Have New Use.

At a meeting of the board of trustees of the upper peninsula state hospital, held Saturday evening at Newberry, bids on the erection and the plumbing of the proposed new cottage and on the construction of the concrete cloister floor, which are regarded as separate pieces of work, were opened and contracts for each of the three were awarded. Herman Gunlach, of Houghton was the successful bidder on the construction of the cottage, his estimate of \$44,300 being the lowest. Charles Beckingham, of the Soo, bidding \$5,933.50, won out on the plumbing and steam heating work, and Marshall N. Hunt, of the Soo, was the successful bidder for the concrete cloister floor, his figure being \$7,450. All bids were within the appropriations allowed by the last legislature.

Below is a list of the bidders and the amounts of their bids:

—Construction Work—

Herman Gunlach, Houghton	\$44,300
Marshall N. Hunt, Soo	45,275
Reisen & Reisen, Milwaukee	47,290
Northern Construction company, Milwaukee	48,144
Herman Construction company, Antigo, Wis.	49,690

—Plumbing and Steam Heating—

Charles Beckingham, Soo	\$5,933.50
T. E. Logan, Soo	5,106.00
Lake Superior Steam Heating company, Ishpeming	5,420.00
Peninsula Heating company, Laurium	5,435.00
W. S. Patterson company, Appleton, Wis.	5,552.00

The figures of the bids on the concrete cloister flooring were not made up on a basis that would lend them to fair comparison, tabulated as those above. Beside Marshall N. Hunt, the successful bidder, George D. Sherman and Gus Anderson, of this city, and the Herman Construction company figured on the work and had estimates ready for the trustees at Saturday's meeting.

Room for More Buildings. With the completion of the proposed structure, only two more cottages will be required to complete the full quadrangle of twenty buildings. The cottage now to be erected—the eighteenth—will measure 100 by 80 feet and the building will be two stories in height, erected in a style that is a continuation of the general design of the present buildings and in harmony with the other structures of the quadrangle. The construction will be entirely fireproof throughout. This is the first time it has been possible to obtain an appropriation that would allow of entirely fireproof construction, the other buildings being of the semi-fireproof or slow-burning type.

The basement of the new building will contain a dining room and kitchen and the ventilating plant. The first floor will provide for the patients a day room of 38 by 45 feet, one large dormitory, five individual rooms and a special observation ward. The second floor will provide another large day room, two dormitories, nine individual rooms and two private rooms.

Each floor is to be equipped with bathing, toilet and cloak rooms. The building includes one connecting cloister. Each of the seventeen buildings in the quadrangle is connected by cloisters to those at either side. This forms a means of communicating with all the buildings without necessitating going out-of-doors.

The plans and specifications for the proposed building were prepared by Charlton & Kuenzli, who, associated with Edward DeMar, originally planned the entire quadrangle.

ALFALFA SPECIMENS.

F. H. Vandenberg Produces Fine Crop at the Marquette City Dairy.

F. H. Vandenberg, proprietor of the Marquette City dairy, Saturday brought in some sample stalks of alfalfa, grown on his farm west of the city. Mr. Vandenberg has been experimenting with alfalfa for three years or more and has had excellent success with an extensive field of it. He reports that another fine field sown this spring is doing nicely. He believes there is no longer any question about growing alfalfa in the upper peninsula and thinks it a strikingly successful crop in the region.

MRS. D. H. MERRITT HAS PASSE AWAY

Old Resident of This City Died Saturday Afternoon Her Home on Ridge Sect.

Mrs. Daniel H. Merritt, 66 of one of Marquette's oldest residences and herself a pioneer of the city, passed away Saturday afternoon at 4:50 o'clock, after a week's illness. Her death was due to advanced age. She was buried last Saturday afternoon at her home on Ridge section. At her side were her husband and four children. All but one of the latter reside in town. They were called here when what was apparent the end was near.

Since coming to the city a bride in 1869 Mrs. Merritt had been active in social matters until advanced age prevented. She was one of the who built up the foundation upon which Marquette stands socially today. Her tract was a valuable real estate woman and her a large circle of life-long acquaintances. Mrs. Merritt was especially fond of young people. She was a out member of St. Paul's Episcopal church and was one of its earliest supporters. Her charities were numerous, and her giving to someone at all was a characteristic of Mrs. Merritt.

James Alford, father of J. Merritt, was born in England and migrated to this country at the age of fourteen. After a few years' residence in this country he married Eliza C. of Vermont and about 1838 and his wife moved to Cleveland. Their daughter was born April 1839, near where the Weddell House, Cleveland, now stands, at the corner Superior street and what was once a street.

A few years later she with her parents to Lancaster, O., where she lived until she was married, June 20, 1869, coming to Marquette with husband in that year. Mrs. Merritt resided here continuously since.

Of the Alford family, to survive Mrs. Merritt. She leaves husband and four children, the eldest the latter being Edward Alford Met, of the Cleveland Stone company Cleveland.

The others are Mrs. W. J. Stevens, of Onida, N. Y.; Mrs. R. S. of 321 Page street, of this city; Mrs. I. Page Laughlin, of Leedys, Va. Five grandchildren also survive her. Three of these are children of Mrs. Stevens and two are children of Mr. and Mrs. Rose.

The funeral will take place at 2:30 o'clock from Mrs. Merritt residence, 410 Ridge street, in Bates G. Burt, pastor of St. Paul church, will conduct the services, remains will be interred in Park cemetery.

C. J. BYRNS RESIGNS OFFICE OF COLLECTOR

W. W. Osband, His Deputy, and Joseph Shephard Have Been Transferred to Detroit.

C. J. Byrns, collector of the district of Superior, in common with all the other collectors of customs for districts that are to be abolished July 1 in accordance with the executive order of former President Taft, last week presented his resignation to the head of the treasury department, and is now completing arrangements for taking up his new duties as special representative in the state of Michigan for the Equitable Life association.

Of the men who have been employed at the Marquette office, headquarters for the district, W. W. Osband, who has been Mr. Byrns' deputy and who formerly held that position under the late Gal Smith, has been transferred to the Detroit office, with the same salary that he has been drawing here. Joseph Shephard has also been transferred to Detroit office for similar work to that which he did here. W. A. Johnson will be retained in the service, with residence in Marquette. He will be the deputy collector in charge of the various department matters that will have to be disposed of in this port.

Since coming to the city a bride in 1869 Mrs. Merritt had been active in social matters until advanced age prevented. She was one of the who built up the foundation upon which Marquette stands socially today.

The contest that finally resulted in Mr. Byrns getting the commission was one of the liveliest that was ever waged for the appointment. Mr. Byrns was Senator Smith's choice for the place, and the fact that influential politicians in the district endorsed other candidates did not cause Mr. Byrns to swerve from his demand that Mr. Byrns be given the place. Senator Burrows was not overly friendly to Mr. Byrns, but the Smith influence proved much the stronger.

Has Politics Alone. Mr. Byrns entirely subordinated politics to the duties of the office, to which he has given unrelenting personal attention. The business administration of the district by him has been highly commended by his superiors, he having shown comparatively low costs of administration, considering the volume of duties collected during the term he has served.

For several weeks past there has been much doubt whether the Taft order would be carried out, a proposal to have its application postponed until Jan. 1, 1914, having been put forward. At first it appeared as if this plan might be adopted, but it was not energetically pushed and nothing came of it.

TEMPERATURE WAS HIGH. Thermometer Rose Steadily from Noon Until 4 o'clock Yesterday.

A maximum temperature of 95 degrees, the highest so far this summer was recorded by the weather bureau yesterday. The observer considers the weather normal, however, and though showers are predicted for today and these will probably bring a drop in the mercury, cooler weather is not forecast.

Marquette missed a thunder shower Saturday by the slightest margin. Although it was predicted for Friday night or Saturday morning, it did not get around till late in the evening. About 9 o'clock the clouds started piling up in the west. The storm, which was accompanied by a marvelous display of lightning, passed a few miles south of the city. A muttering rumble of thunder was the only other evidence of the severity of the disturbance. It was relieved by many, however, to have been one of the severest electrical storms of the season and had it passed over the city, with its transmission system and its various attractions of lightning, trouble might have resulted.

An echo from Friday morning's storm was heard Saturday when August Beckman, a farmer of West Branch township, came to town to tell of losing two cows which were killed when a bolt of lightning struck the barn. Through some freak a calf which stood between the two cows was unharmed. Mr. Beckman extinguished the blaze resulting from the bolt with a pair of water. The farmer is a poor man who can ill afford the loss.

The thermometer in the office of the weather bureau yesterday traced a line which went up almost steadily except between 10 a. m. and noon when the temperature dropped four degrees. The line started at 12 o'clock midnight at 75 degrees, went down to 68 at 2:30 a. m. and then rose without a break from 4 to 10 a. m., from 79 to 91 degrees. At 10 o'clock it dropped quickly to 77. At that point the temperature began to rise. At that point the temperature started rising in fits and starts until 4:30 o'clock, when the maximum, 95 degrees, was reached. At 7 p. m. the temperature had fallen to 79, where it hovered the greater part of the night.

WHEW!

Right now is the accepted and best time to choose your summer outfit.

Can't begin to tell you in these few lines about all the good things we have to offer.

New things coming in daily. Just a hint or two.

Straw and Panama Hats in every style wanted.

Two-Piece Underwear and Union Suits in all makes and all prices.

Hosiery in Cotton Silk Lisle and Pure Silk all colors.

Light Trousers in Flannel or worsted.

Neckwear in Four-in-Hands, Knitted Scarfs and Wash Ties.

Soft Shirts or anything to embellish a wardrobe.

Satisfaction is guaranteed in all our dealings.

Ormsbee & Atkins

Marquette's Largest Clothiers and Haberdashers. Vestor Block Washington St. Take advantage of this opportunity. We are selling fine imported linens for half price. Peterson & Willers, Organize. 6-27-13.

YOUR FIRST NATIONAL BRANCH OFFICE

Your own mail box is a First National branch office. The postman and the United States railway post office are your messengers and ours. You need not cover the miles in person, that separate you and the First National Bank. Deposit and withdraw your funds by mail. Any points about banking by mail that are not clear to you, we are to explain.

FIRST NATIONAL BANK MARQUETTE, MICH.

DESIGNATED UNITED STATES DEPOSITORY. Capital, Surplus and Undivided Profits \$250,000.00. Send for our Booklet "Modern Banking."

Suit Cases and Traveling Bags

THE Man or Woman who travels will surely be Pleased with Our New Line of Suit Cases and Traveling Bags. They are constructed to be lastingly durable, yet they are light in weight and very smart in appearance. All the newest devices for the convenience of the traveler are incorporated in this showing---And our moderate prices make it most profitable that you secure what you need in this line at Our Store.
