

THREE DAYS' GALE ON GREAT LAKES COSTLY TO LIFE AND TO PROPERTY

Wreckage Strews Shores of Superior, Huron and Erie, Probably Sixty Sailors Are Dead, Damage Is in the Millions.

ON LAND, CLEVELAND, OHIO, IS HIT THE HARDEST; LOSS, \$2,000,000; DEATHS OCCUR; SNOW 21 IN. DEEP

Their Steamers Wrecked Off Keweenaw Point, the Crews of the L. C. Waldo and Turret Chief Are Saved After Great Suffering -- At Isle Royale, an Unknown Vessel Is on the Rocks; in Whitfish, the Nottingham Is Aground -- Steel Freighter Found Bottom-Up Near Port Huron Is Believed to Be the Regina, of Toronto -- At Buffalo, a Lightship Is Torn to Pieces and There Is No Trace of Its Men -- Strandings of Craft With Little or No Havoc Resulting Number More Than Thirty.

Chicago, Nov. 11.—The shores of Lakes Superior, Huron and Erie were strewn tonight with the wreckage of a three days' gale and snow storm which cost the lives of probably three-score sailors, turned bottom-up in midlake a 300-foot steel vessel, with its crew, wrecked or grounded numerous other craft and caused a property loss as yet unestimated but which will run into the millions.

SEVEN DUCK HUNTERS THOUGHT TO HAVE MET DEATH IN SAGINAW BAY. Schewaga, Mich., Nov. 11.—Seven hunters are believed to have perished Sunday in the hurricane which swept Saginaw bay. The men were in duck boats on the "middle ground," a partly submerged marsh-covered spot half a mile from the shore. J. Ruby, of this place, forced to leave the hunting grounds when his boat began to fill, saw eight men in the rushes as he passed. Of these, only one is known to have escaped. Searching parties have been unable to find trace of the men, but an empty boat was found tonight in the weeds.

until the steamer struck. Then they went forward to save themselves from the waves. When the steamer struck, she opened up amidships and it would have been impossible then for any member of the crew to get aft for food. They remained without food till rescued. The big seas washed over the stranded ship all day Friday and Saturday and Sunday and Monday, until this morning at 7 o'clock the storm began to abate and the life-saving crews came in sight.

On land, the storm hit hardest at Cleveland, O., where twenty-one inches of snow fell, where five persons were killed and ten others were lost and where damage of \$2,000,000 was caused to property, chiefly telephone and telegraph systems, thus keeping that city out of direct communication for two days.

at Argus point, Isle Royale, Lake Superior. Among the frail craft jeopardized, but saved, was the Santa Maria, a reproduction of Columbus' caravel, which is bound from Chicago to San Francisco. It was driven into a mud bank near Erie, Pa. On board is what is cherished as the original anchor with which Columbus set sail for America.

Rescue a Hazardous Undertaking. Captain Tucker of the Eagle Harbor station left at midnight Monday night for Manitowish, having made an unsuccessful effort to get to the wreck early Monday morning. Captain McCormick and the Portage Lake lifesaving crew started out by the way of the Entry, but were picked up there by Captain Bert Nelson of the tug Hebard, who took the crew aboard and towed their big power life boat north until 3 o'clock this morning, when Keweenaw point was reached. Here they waited for daylight.

Two bodies washed ashore on the west shore of Lake Huron. Six members of a lightship crew drowned in Lake Erie near Buffalo, N. Y. The escapes from death were numerous. After the storm had blown away the forward part of the ship Friday about midnight, Captain J. W. Duddleson, of the steamer L. C. Waldo, navigated by a small, inaccurate compass and the aid of a lantern held by a sailor. In this way he guided himself and crew to a reef, where the crew, on landing, suffered intense cold and hunger until their rescue today.

Waldo's Crew Suffers Severely. Houghton, Mich., Nov. 11.—[Special.]—The tug Charles Hebard brought to Houghton this afternoon the rescued crew of the steamer L. C. Waldo, which was wrecked on Gull rock, Manitowish island, last Friday morning. The sailors were taken off this morning by the combined lifesaving crews of the Eagle Harbor and Portage Lake stations, after having been without food for ninety hours and for the same length of time in imminent danger of being washed into the raging lake.

While Captain Duddleson is not willing to admit it, the Waldo seems to be a complete wreck. She is broken in two and all of her upper works are washed away. There may be a chance to get her off the rocks and into shallow water this fall, but it would require a long period of calm weather, such another job as the Moreland wrecking operation of two years ago and which was unsuccessful.

Heavy Losses in Detroit Region. It was impossible even to estimate the total loss to vessels totally wrecked or damaged. Shippers in Detroit estimated the loss on Lake Huron and the St. Clair and St. Mary rivers to be several hundred thousand dollars. Three of the wrecked steamers increased the loss by \$500,000, while the scores of smaller craft driven ashore in Lake Superior and Lake Erie will send the total much higher.

The Waldo, ore laden for Lake Erie, was steaming down the lake from Two Harbors, At 11:45 o'clock Thursday night she encountered a heavy sea off Manitowish island and this sea struck with such force that it tore the pilot house away, tearing off nearly all of the forward upper works of the steamer. With this wreckage the compass went overboard.

The Waldo is owned in Detroit. She is 452 feet long, 48 feet wide, 20 feet deep. The steamer was built at Detroit in 1896. Captain Duddleson has been her master since she was launched. Every member of the Waldo's crew praises the work of Captain McCormick and Captain Tucker and their lifesaving crews. They all say that to come up at the Waldo in the terrific sea that was running was the most dangerous sort of an attempt, and they praise the coolness and skill of the lifesavers in getting the crew into the life boats without a mishap.

Lightship No. 82, in Lake Erie, off Port Albino, fifteen miles west of Buffalo, wrecked with crew of six believed lost; lifeboat found floating bottom-up in wreckage of the ship floated into Buffalo harbor.

Ship Runs Onto a Reef. With these rude devices, Captain Duddleson was enabled to hold his course to within a half a mile of his reckoning, but this half-mile threw him hard on a reef running out of Gull rock, where the Waldo is now pounding to pieces. While on this course, and with the wind dead aft, Captain Duddleson said he could look back and see the big seas breaking over the stern of the steamer, leaving nothing of her in sight but the smokestack.

Pick Way Over Rocks to Safety. A majority of the crew were asleep when the boat struck and a hasty exit was necessary. With the impact, the men were thrown from the beds and with only time to don their clothing they left the craft. Several of the crew had not sufficient time to find their shoes or hats and none had time to obtain food.

The doom of the vessel was soon sealed, and with waves washing over the reef the crew picked their way over the rocks to the mainland. An improvised hut was hastily built, and in this the seventeen men found shelter from the blizzard until Monday morning. Indians then happened along, and the crew were guided to Copper Harbor, where they arrived this afternoon.

Derelict Said to Be the Regina. Detroit, Nov. 11.—Tonight the black-bottomed freighter which tosses in Lake Huron, keel upward, was still an unidentified derelict. Marine men who returned to Port Huron late today all say that the fact that her bow is in the shape of the Hawgood line, of Cleveland. But William Livingstone, president of the Lake Carriers' association, dispelled that belief this evening, when he announced that the steamer Jenks was safe in a harbor in Georgian bay.

Port Huron, Mich., Nov. 11.—According to the Port Huron Times-Herald, the capsized steamer, the identity of which has been hidden by the waters of Lake Huron since she was discovered, late Monday afternoon, is the Regina, of Toronto, Ont. The vessel is owned by the Canadian Inter-Lake line, of Toronto. She is 249 feet long and forty-three beam. Ten bodies have been washed ashore on the Canadian side of the lake since Saturday. Of these, two were identified tonight as having been members of the Regina's crew.

Nottingham Loses Three Men. Sault Ste. Marie, Mich., Nov. 11.—The steel freighter William Nottingham must be added to the list of wrecks caused by Monday's gale on Lake Superior. The vessel struck late Monday afternoon on a reef near Sault Ste. Marie, Whitefish bay. In an effort to summon assistance, a boat was lowered, but it was capsized almost as soon as it touched the waves. A wheelman, an oiler and a deckhand, whose names have not been learned, were drowned. The surviving members of the crew remained aboard the vessel tonight.

Northern Queen's Sailors Safe. Port Huron, Mich., Nov. 11.—It was definitely established late tonight that no lives were lost in the wreck of the steamer Northern Queen on Kettle point, on the Canadian shore of Lake Huron. The ship's crew, twenty-two members, were rescued late Monday afternoon. The captain and his two mates remained on board the vessel, in the belief that she is in no danger of breaking up. Earlier reports tonight were that a number of the crew had perished.

Steamer Huronic Is Floated. Port Arthur, Ont., Nov. 11.—The Northern Navigation steamer Huronic, with fifty passengers aboard, got off the bar at Whitefish late this afternoon, without damage. Washington, Nov. 11.—The following is the weather bureau's forecast for Upper Michigan: Cloudy Wednesday, rain or snow at night or Thursday; moderate to brisk south winds.

The Waldo is owned in Detroit. She is 452 feet long, 48 feet wide, 20 feet deep. The steamer was built at Detroit in 1896. Captain Duddleson has been her master since she was launched. Every member of the Waldo's crew praises the work of Captain McCormick and Captain Tucker and their lifesaving crews. They all say that to come up at the Waldo in the terrific sea that was running was the most dangerous sort of an attempt, and they praise the coolness and skill of the lifesavers in getting the crew into the life boats without a mishap.

THREAT OPENS LIPS AT QUIZ IN NEW YORK CITY

Informed That an Indictment for Perjury Is Hanging Over Him, G. H. McGuire Admits Authorship of Telegram Relative to Enforced Donations to Tammany.

Henry P. Bergard, a Buffalo Contractor, Also a Witness at Prosecutor Whitman's Inquiry, Corroborates Investigator Hennessey in Many of His Charges.

New York, Nov. 11.—George H. McGuire, of Syracuse, who denied under oath last Thursday that he had sent a telegram to John A. Hennessey, former Governor Sulzer's graft investigator, relative to political contributions today admitted that he was the author of the telegram.

A threat of indictment for perjury was hanging over the witness when the admissions fell from his lips, and he lost the stand almost in a state of collapse. A physician was called to attend him. McGuire was testifying for the second time in the "John Doe" inquiry instituted by District Attorney Whitman into Hennessey's charges that contractor Bergard had been "sandbagged" into making campaign contributions to Tammany Hall.

McGuire had testified that he obtained most of his information from McGuire and that the latter had sent him a telegram from Syracuse, signed "G. H.," setting forth that William H. Kelly, Democratic leader of Onondago county, had been helping Arthur A. McLean, treasurer of the Democratic state committee, to "shake down" state highway contractors. McGuire on Thursday, last, denied that he had anything to do with the telegram.

Truth Wrung from Syracuse Man. Today District Attorney Whitman sent before the grand jury three witnesses who gave testimony to show that McGuire had not told the truth. One of these was a stenographer in McGuire's office. Another was a typewriter expert, who took with him a typewriter which had been brought from McGuire's office. The stenographer testified, it is understood, that the machine was one which McGuire himself frequently used, and the expert declared that the letters and the original of the telegram corresponded with the letters on the machine.

McGuire was informed at his hotel of the contemplated action of the district attorney, and soon afterward his friends telephoned to Mr. Whitman, saying that he had collapsed. They wanted to know, Mr. Whitman said, what he would promise if "McGuire" told the truth. The district attorney replied that he would promise nothing, but that McGuire would be indicted if he did not tell the truth.

PLAN TO BLOCK MEXICO CITY'S MONEYSOURCES

With Cash Shut Off, Washington Officials Believe, the Regime of Huerta Would Soon Collapse—Negotiations With Europe Seek to Accomplish That Purpose.

President and Mr. Bryan Reluctant to Adopt So Radical a Measure as Arming the Rebels—Whole Cabinet Stands Firmly Behind Nation's Executive.

Washington, Nov. 11.—President Wilson's cabinet stands firmly behind him in his efforts to force the retirement of Provisional President Huerta as a necessary step to the pacification of Mexico. For more than two hours today the cabinet discussed every phase of the Mexican situation, and the consensus of opinion was that the United States government should not take a single backward step in its announced program looking to the restoration of constitutional government in the neighboring republic.

Though the secretaries were reluctant afterwards about expressing their views, it became known that they all favored steps which would convince Huerta that the United States was earnest in its demand that he eliminate himself from the situation. On the question of raising the embargo on arms, the cabinet members expressed various opinions. Some of them recognized in this method a practical and perhaps early solution of the difficulty, but there was no final decision on the point.

Powerful Influences at Work. There is a hope on the part of both the president and Secretary Bryan that a measure so radical as permitting the exportations of arms may not be required to solve the problem. Influences are at work, which in the minds of many officials, may force the early collapse of the Huerta regime. There is a closer understanding, for instance, and more frequent communication between the state department here and foreign governments generally than has been in evidence at any time since the Mexican problem became so widely international. Not only through the American embassy in Mexico City, but through the diplomatic corps in Washington, Secretary Bryan is giving such detailed information of the American policy as to leave no doubt of what the United States would like to see accomplished.

So far as is known, there has been no direct requests for foreign support. But the strong intimations that the United States would like foreign nations to refrain completely from interference in the affairs of the Huerta government are expected to produce tangible results. Financial Isolation Planned. What the United States is seeking is an acquiescence in its policy by the powers, such an approval to carry with it the discouragement of financial aid to the Huerta regime through any private foreign agencies. A few weeks of financial isolation, it is believed by high officials here, will force the retirement of Huerta.

That President Wilson might possibly issue a statement in a day or two, making a comprehensive explanation of the purposes of the United States, was indicated by some of the diplomats who have been fully informed about the situation. The president, it is said, has not yet finally determined whether he shall make another pronouncement. Athens, Nov. 11.—The Greek and Turkish peace delegates reached an agreement today practically on all points under negotiation, growing out of the late war.

INDIANS CLAIM LAND VALUED AT MILLIONS

Suit for an Injunction Filed at Chicago Halls Lakefront Improvement Plans.

Chicago, Nov. 11.—All plans for municipal improvement along the twenty miles of lake front here were jeopardized today by a suit for an injunction filed against the city and others by representatives of the Pokagon band of the Pottawatome nation of Indians. The suit also makes claim to a strip of land along the lake front from Evanston to South Chicago, valued at many millions of dollars.

The Indians base their suit upon a treaty between the United States and the united tribes of Ottawa, Chippewa and Pottawatome Indians Aug. 3, 1783. The government surveys, the suit charges, show that the eastern boundary of the grant is one hundred feet back from the lake, provided to give the Indians fishing and camping privileges along the lake shore.

DON'T LOCK YOUR STAMPS WHEN MAILING PACKAGES; LET POSTMASTER DO IT. Washington, Nov. 11.—Christmas gift-givers this year will not be forced to lock their own stamps when they mail the proper postage to their parcels for mailing, unless they wish to, for the postoffice department announced today that its postmasters and their assistants would attend to that duty if required. Orders were issued today to postmasters to affix postage when required on mail matter of the second, third and fourth class, the latter being parcel post matter. The stamps will be pre-cancelled. The plan is expected to prevent the great waste of time experienced by postage patrons while waiting in line to buy postage and mail their packages.

JAIL SENTENCES GIVEN MEN WHO FLIRT WITH NEW YORK SHOP GIRLS. New York, Nov. 11.—On evidence that he had winked at a salesgirl in the waiting room at a Sixth avenue department store, Daniel Sager was sentenced to twenty days in the workhouse by Magistrate House today. Two of ten other young men, arrested by detectives at the same time on the charge of flirting, were sentenced to thirty days each. The other eight prisoners will be tried tomorrow, after spending the night in jail in default of bonds. The crusade to eliminate flirtation, it was said, will be extended to other department stores.

Dynamite Again Figures in Copper Country Strike

Dwelling House Rented to Mine Guards at the Centennial Is Shattered by an Explosion and Two Occupants Are Injured--Imported Men Continue to Arrive--Citizens' Alliance Growing.

Houghton, Mich., Nov. 11.—[Special.]—The second actual dynamite outrage in the copper country since the opening of the Western Federation of Miners' strike took place at 4:45 o'clock this morning per Michigan. The front of the dwelling house of John Salminen, used as a boarding house by a number of Asher mine guards, was blown out and four rooms within the building were damaged. Two of the twelve Asher employees living in the house suffered cuts on their hands from broken glass.

The first dynamite outrage in the district was the attempt to blow up a Keweenaw Central train some weeks ago. Persons familiar with the action of dynamite express the opinion that three sticks of the powerful explosive were employed in the attempt on the Salminen house. The sticks must have been placed at the foot of the front door.

Suspect in Custody. William Teddy, an active striker, was arrested and it is believed by the authorities he has knowledge of the explosion, though his arrest is specifically on the charge of stealing a star and a revolver from a deputy sheriff two weeks ago.

was escorting a crowd of Centennial miners and trammers to work. They were halted by a crowd of strikers, one of whom was William Teddy, and the latter was so active in his interference to mine these properties, but cannot proceed without men, the few he has being engaged in getting the shafts ready to operate. It is believed that the visit of Mr. Stanton is for the purpose of a personal investigation of conditions at the Mohawk and Wolverine and that the importation of workmen to those properties will follow very soon.

The Wolverine and Mohawk have suffered probably greater injury than any mines in the district, because for more than two months they were not pumped, were completely by the strikers, to be absolutely idle, entailing a great money loss and great physical injury.

Citizens' Alliance Growing. The Citizens' alliance is reported to be gaining strength every day. The early estimate of ten thousand signers to the pledge seems not to have been exaggerated, and the number is growing. The promoters of the alliance are determined that every able man in the district must line himself up with one side or the other in the struggle. There appears no doubt that an overwhelming majority will enroll against the Western Federation of Miners and that within a short time there will be a popular up-

rising against that organization. The signs point to extra-legal, extraordinary measures for the restraining of the principal federation leaders. The Calumet & Hecla mounted police appeared today in their new uniform garb. The feature is a heavy blue Mackinac coat, with light trousers and cap, gloves and leggings in keeping. The force is made up largely of former members of the Michigan National Guard who close to remain in the district after their commands had been ordered home.

Dynamite Scores Colored Enginemen. Grand Junction, Colo., Nov. 11.—One hundred pounds of gunpowder and fifty sticks of dynamite accidentally found in the coal at the Rio Grande Western railroad supply depot at Helper, Utah, today, spread a panic among the engineers and firemen of engines standing for fuel. The explosives are believed to have been placed in the fuel by sympathizers with the Colorado coal strikers.

Trinidad, Colo., Nov. 11.—Six members of the party of strikers accused of the murder of four members of an automobile party enroute from La Veta to Oakview last Saturday afternoon have made detailed confessions, according to reports received today by Adjutant General John Chas. from Major Townsend at Walsburg.

usual parades conducted. This dynamite outrage was the only incident in a quiet strike day. There were the usual parades all over the district, but the Centennial parade was the only one to result in disorder. Two carloads of imported workmen for the Copper Range and the Quincy ar-

ried today, without resulting disorder. John R. Stanton of New York, president of the Wolverine and Mohawk Mining companies, arrived in the district Monday night. General Manager Denig has been making preparations to mine these properties, but cannot proceed without men, the few he has being engaged in getting the shafts ready to operate. It is believed that the visit of Mr. Stanton is for the purpose of a personal investigation of conditions at the Mohawk and Wolverine and that the importation of workmen to those properties will follow very soon.

The Wolverine and Mohawk have suffered probably greater injury than any mines in the district, because for more than two months they were not pumped, were completely by the strikers, to be absolutely idle, entailing a great money loss and great physical injury.

THE DAILY MINING JOURNAL

A MORNING PAPER PUBLISHED BY

The Mining Journal Company, Limited.

Issued daily except on Sundays. Contains Associated Press dispatches, and is especially devoted to the Upper Peninsula interests.

SUBSCRIPTION RATES:

Per year, by mail, \$6.00 Per month, by carrier, .50

Entered as mail matter of the second class in the postoffice at Marquette, Mich.

WEDNESDAY, NOVEMBER 12, 1913.

A MANY SIDED PROBLEM.

In Menominee a contractor has been instructed to proceed with plans for a block of twenty-four dwellings, to be erected next year. The housing problem there is one of some seriousness. The city's industrial plants have expanded steadily and there is difficulty finding homes for all the working people.

the danger of the commission plan lies in the fact that it will not be possible to obtain the right kind of men to undertake its administration.

A NEW CHAIRMAN.

Republican newspapers assert that in all probability Charles D. Hilles, national chairman of the G. O. P., will soon resign from the position. The "reorganizers" are quite insistent that Mr. Hilles must withdraw, if they are to make any progress.

Now it is pointed out that Mr. Hilles, who is in business, is apparently little interested in politics, that he took no part in the fall campaigns this year and has shown little inclination to fill the post militantly.

In fact it can well be believed that Mr. Hilles will feel a certain relief in writing Thins to his active political career. Though not particularly adapted by either training or temperament for the work forced upon him, Mr. Hilles did not do as badly as the results seemed to indicate.

However this may be, when Mr. Hilles closes his political career by resignation from the national chairmanship of his party, he will be followed into private life by no recommitments and all who have known him, or have seen him from afar, will wish him the largest measure of success—in business.

PECULIAR ELECTIONS.

As the Detroit Free Press interprets them, the elections held last week were decidedly peculiar in their results. It finds that neither the Democrats nor the Progressives have any cause to feel elated over them. The Democrats were big winners all right, but only because of the split in the opposition vote.

Since the Republicans were largely losers, they, surely, have no occasion for rejoicing, so we have the singular spectacle of results which afford no cause for satisfaction to any one of the three parties contesting the elections.

A. E. Sterne, county commissioner of schools, who is quoted at some length in another column, evidently had in mind that The Mining Journal, in its editorial comment on the article of G. S. Lasher, auditor of the department of education, on the deficiencies of the rural schools of the state, was referring particularly to the schools of Marquette county.

Mr. W. S. Prickett, Roycroft Farm, Sidnaw, Mich. Dear Sir: This is to certify that the sample of assembled milk of your entire herd, drawn at four p. m., Oct. 24th, plated 23 hours later, showed the presence of 895 bacteria per cubic centimeter for an average of seven plates. An excellent record.

Yours truly, S. D. MAGERS, Prof. Biology, Northern State Normal.

asserted. "The best illustration of the advisability of this is the present antiquated machinery for county government. The large body of men assembled at considerable expense to the county is supposed to direct the management of county affairs, but the responsibility of each member is to the township, or ward, which he represents, and not to the county. The individual supervisor endeavors many times to protect his township at the expense of the county. I believe boards of supervisors should be abolished and in their place there should be substituted a small board of county commissioners, elected at large. Then the management of the county business would be in the hands of men responsible to the county as a unit, instead of to the townships and wards. The county could be assessed as a unit, and the necessity for equalization could be avoided."

As the tale is told by Senator Townsend himself, he talked Jim MacNaughton, of the Calumet & Hecla, into supporting him in the primary election in 1910, although MacNaughton started out as a Burrows man. It happened when Townsend visited Calumet during his tour of the upper peninsula, and had a long conference with MacNaughton. This isn't at all surprising. The senator talked himself into the confidence of thousands of other upper peninsula voters on the same trip, but mighty few of them are to be found who don't keenly regret having put faith in the professions that he then voiced so glibly. Townsend as a figure in politics is a mighty good talker, but a disappointing actor.

Messrs. McLeod and Grossbeck have agreed among themselves that there is not much chance of Secretary of State Martindale scoring in the gubernatorial free-for-all next year. He is a modest violet, they say, too shy and retiring, by far, to cope successfully with the demands of the modern primary campaign. But the McLeod-Grossbeck forgets that Martindale is the heir apparent to the G. O. P. nomination. He was runner up in 1912 and if he had been a sturdier for technicalities he, instead of Mr. Musselman, would have had the distinction of having been defeated by Governor Ferris.

The injunction to prominent Americans in Mexico City to refrain with great care at this juncture from getting themselves shot up by overhasty natives is one that may well be taken with the greatest seriousness. Any exciting contemptrats at this time would precipitate action so swift and vigorous that the delay of the past months in reference to the Mexican situation would be far more than made up for.

We have Premier Asquith's word that the utmost cordiality exists between the British and American governments. It will continue to exist just as long as the American government is of the opinion that the British foreign office is showing it due consideration with regard to Mexican affairs, and not twenty-four hours longer.

Judging by the time it has taken to secure a jury of "twelve good men and true" for the trial of Alderman Gliman in Detroit, citizens of that class must be mighty scarce in Michigan's mighty metropolis.

If there was any question about the title of the early November storm to be considered in the record breaking class there is an impressive enumeration of marine disasters to sustain it.

As far as has yet appeared there have been no overtures from the Republicans of the Thirty-first senatorial district to Senator Winegar to help pull 'em out of the ditch.

Reports come to us from Mexico that Huerta has taken to drink. Probably driven to it by President Wilson's irritating ultimatum.

The Annual Federation fight on old Sam Campers is in progress, but old Sam is the one best bet, as he has been in other years.

Advice to hunters: Get your two deer and then get out of the woods; the quicker the better, if you would save your life.

The Black Hundreds include in their ranks some of the most distinguished Russian Standpatters, it is said.

DELICATE CHILD

Made Strong and Healthy by Vinol.

Growing children play hard and work hard at school, which with rapid growth uses up an enormous amount of energy and vitality that must be replaced.

When a child is tired all the time, no appetite, weak, delicate and sickly we guarantee Vinol, our delicious cod liver and iron tonic, will build it up, create a hearty appetite, sound flesh and muscle tissue, pure, healthy blood, and make it strong.

Mrs. L. L. Bertrand, New Iberia, La., says: "My little one was weak and run down in health, and was continually taking cold. Different medicines failed to help, but when Vinol was recommended I found it a wonderful help to any child. It broke up the cold, and quickly restored health and strength. Vinol is a most excellent tonic for children."

If Vinol fails to do just what we say, we will give back your money. The Stafford Drug Co., Marquette, Mich.; also The F. P. Tibson Drug Co., Ishpeming, and J. E. O'Donoghue, Negaunee, P. S. For any skin trouble try our Sazo Salve. We guarantee it.

ROYAL Baking Powder. Makes the lightest most delicious and tasty hot biscuit. No other baking powder equals it in effectiveness, purity and wholesomeness. ROYAL Has No Substitute.

STATE PRESS.

Murphy unmade a governor, but he seems to have made a foeman worthy of his steel.—Pontiac Press-Gazette.

The government of Carranza has served at least one useful purpose. It has made some rare postage stamps.—Saginaw News.

What congress wants for now most of all is a man big enough to put through a motion to adjourn.—Jackson Citizen-Press.

The income tax makes it worth a thousand dollars a year to a man to get married, or sort of equalizes the matter of the cost of coal.—Detroit Times.

If the national educators would submit the question of simplified spelling to the small boys in the public school, they could solve it in a minute.—Muskegon Chronicle.

The new management of the New Haven road announces that by Dec. 31 all wooden sleeping cars will have been taken off the system. Happy New Year!—Grand Rapids Press.

A Chicago man explained to the judge that he turned in false alarms of fire to amuse his mother-in-law. With all our boasted progress, amusing mother-in-law does not seem to have been made any easier.—Port Huron Times-Herald.

TIMELY QUIPS.

Forceful Example. For one thing, Gen Huerta has shown the American political bosses what tyros they are.—Chicago News.

Hurry Up! Before Democrats can satisfactorily explain the soar in the high cost of living, we may all be in the poorhouse.—Milwaukee Sentinel.

In the Sweet By and By. It is said that women will wear men's vests this fall. It may be the time will come when it will be possible to stop a woman and ask her for a match.—Cleveland Leader.

Proof Positive. William Howard Taft took occasion the other day to pay a glowing tribute to Grover Cleveland. Every little while Mr. Taft says something which indicates he is a broad statesman in more ways than one.—Chicago Record-Herald.

Fashion News. A New Jersey school teacher has resigned because she was not permitted to wear a tight skirt while on duty. Probably no member of the school board that laid down the dictum concerning the lady's skirt would think any woman had the right to say whether his trousers should be loose or otherwise.—Chicago Record-Herald.

Relief comes instantly. A dose taken every two hours until three doses are taken will end gripper misery and break up a severe cold either in the head, chest, body or limbs. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and snuffling! Ease your throbbing head! Nothing else in the world gives such prompt relief as Pape's Cold Compound, which costs only 25 cents at any drug store. If not without assistance, tastes nice, causes no inconvenience. Be sure you get the genuine.

Don't Stay Stuffed-Up! End Gripper Misery With Pape's Cold Compound.

EDITORIAL OPINION.

Native Labor's Zealous Defender.

Frank Morrison, secretary of the American Federation of Labor, is victoriously angry with former President Taft because he voted the immigration bill of the last congress. Employees who opposed this bill, Mr. Morrison told a gathering at Seattle, were bent on "tearing down the civilization of this country to fatten their own purses." There will be an enormous flow of European immigrants to the Pacific coast through the Panama canal, he said, and their arrival will precipitate the most awesome evils upon our unprotected land. This flood of foreigners will take the bread out of the mouths of domestic workers, will compete for jobs until they have cut wages to the vanishing point, will work for just enough to avoid starvation and make living conditions in the United States a veritable horror.

Turning to "Who's Who in America" for some information about this zealous defender of native labor, we find out this much about Mr. Morrison: Frank Morrison, Ont., Canada, Nov. 23, 1857.

From Berrien county comes the glad-soon tidings that at last a cure for crime has been adequately demonstrated. Surgery is the thing. It is no longer necessary for a man to remain a pickpocket, cutthroat, horse thief or crane snatcher, or whatever else it may be in the criminal line that happens to appeal to his fancy. More interesting yet, is the fact that it is not even necessary for him to go to jail, instead he can go to a hospital, submit to a little operation, be cared for for a time by a pretty, soft footed nurse, and swept over with tears of joy, finally to be dismissed with the tender ministrations of the judge.

Here's the affecting description of the dispatches contain of the scene in the circuit court at Benton Harbor when two prisoners who had lately been operated upon stood before the judge. One was a burglar; just what the accomplishment of the other had been does not appear.

"Can you be a good citizen?" the judge asked. "I am now, your honor," said Corbett as he stood erect, his shoulder square and his eyes clear. Chappell had previously pleaded guilty to burglary.

"I believe, I am cured," said Chappell. "Both prisoners certainly had undergone a physical transformation since leaving the county jail."

What a picture, and what a change for tender hearted old ladies of both sexes to wipe their glasses and fervently offer thanks for this modern miracle!

But isn't it remarkable that they should come up so magnificently after the operation, that their forms should have straightened, their shoulders automatically have squared themselves and their eyes cleared, and all in such a short time, and when they ought to have been a little weak and unsteady but for the strengthening force of a great reformation? Isn't there a touch of romance in it?

Yes, gentle reader, there is, but the romance is in the telling, not in the scene. The whole thing reads like a bit of joyful bunk, at the expense of either a gullible public or a dear, gentle, trusting, kindly judge, or both. Yes, they are "stringing" you judge, and it looks very much as if someone had been trying to "string" the public too.—Saginaw Courier-Herald.

In Primitive Mexico.

An interesting sidelight on the condition of affairs in Mexico at the present time is furnished by Mrs. John Lind, wife of the special envoy sent by President Wilson to treat with President Huerta, and who has just returned to this country after spending a number of weeks in Mexico with her husband. Mrs. Lind evidently used her eyes and ears to good purpose while stopping in the revolution zone recently, and with such discretion has refrained from discussing the political aspects of the Mexican situation she has freely related some of her personal observations and experiences, which in a general way have a bearing on the Mexican problem as a whole.

Among other things Mrs. Lind describes the vast mass of the people of Mexico as "mere children," and in this

observation she probably has hit on one of the most important truths that affect the development of that country. In spite of the fact that this is the Twentieth century, in spite of the fact that there are in Mexico many persons who are educated, cultured and advanced in every way, it is still a primitive country, with a primitive population, and with conditions appropriate to a primitive way of life. The enormous land holdings by individuals, the state of practical slavery which is the lot of a very large share of the people, the almost absolute power wielded by the owners of great estates, all these things carry back one's thought to patriarchal times in the history of Israel, and they belong centuries back in point of time. One of the elements of unrest in Mexico is the conflict between the primitive and the advanced, the ancient and the modern. It is inevitable that the immaturity which is seen in the social and industrial conditions in Mexico should be expressed also in its political life, and that there should be a condition that pertains to the country, the instability and uncertainty which belong to the life and character of the child.—Osakosh Northwestern.

England At San Francisco.

It is intimated that Great Britain may respond to the invitation of our institution to exhibit at the Panama fair at San Francisco. Such a recurrence of common sense on the part of that government will be gratefully recognized. The change in attitude is attributed, with reason, to the protest from English manufacturers, artists and dealers. These do not relish being left out of an international show in which the competitive element is conspicuous. The sentimental influence does not appear; it is altogether commercial.

The official representation of the British government at the exposition is expected. The "peace movement" is also expected as inspiring the change of purpose. However it may come, there is a welcome awaiting it.—Boston Globe.

Huerta And Carranza.

Conviction grows that Huerta is not nearly so formidable a personage as he seemed to be last spring. All his distinguished contemporaries, who gave him temporary support for expediency's sake, have fallen away from him. He represents nothing but military force, and that of uncertain value. When he first complained that the withholding of recognition by the United States had destroyed the credit of his country, he asserted that his army numbered 80,000 men. When the finances of Mexico had become straiter, he abandoned the figure, and announced that the army would be increased to 150,000 men. Now that the national credit is at the lowest ebb he insists that he will raise an army of 500,000 men. Apparently he is only waiting his chance to get out with the least show of giving way to Washington and the smallest loss of profit. On the whole, it must be admitted that President Wilson's patient and forbearing Mexican policy bids to be reasonably successful.

There are grave dangers in the situation, however, of riot and assassination, of a state of anarchy in some parts of the republic before order can be restored. And thus far there is not a bit of evidence that the majority of Mexicans are willing to take Carranza at his own estimate of his value as a statesman and a patriot. It seems that it would be well to proceed with great caution in all negotiations involving Carranza.—New York Times.

UPPER PENINSULA.

Game Warden Arrests Fur Trapper. Deputy Game Warden J. A. Vizona of Munising arrested Riley Howard at Sage, Luce county, Friday for hunting wild fur-bearing animals in the closed season. Riley was fined \$20 and costs in Justice Mulvaney's court in Newberry.

Traveling Man Given Stiff Fine.

W. L. Baldwin, a drummer, was fined \$50 and costs by Justice Campbell for stealing \$25 worth of knives and razors from Matt Hansen's store Wednesday. Sheriff Demgen landed him at Houghton and the trial was held yesterday.—L'Anse Sentinel.

War Hero Decorated.

A. Castigliano of Duluth, Italian consul, made a visit to New Caspian, Iron county, recently for the purpose of conferring a royal medal on Cirilo Gonello for bravery in the Turkish-Italian war, in which Gonello served as a soldier. The event was made the occasion of a

celebration by the Society of the Duke d'Abuzzi, the visitor being met by the Spring Valley band and a large crowd at the station and escorted to Soga's Hall, where the festivities took place.

Big Bear on Grand Island.

There is a big bear on Grand Island, but the animal is doing no damage and its presence there is making no one uneasy. The bear has been seen at least once and its tracks are frequently seen. It is probable that attempts will be made to capture the animal alive. Under the 1913 game law, bears may be killed twelve months in the year.

An Unusual Fatality.

Delpius Labeau, a dweller at Nadeau, Menominee county, for many years, met death in an unusual way Thursday evening at 9:30 o'clock. It appears that in the garret of the building, which is an old structure, was a large amount of grain stored away and that, under the weight of the grain the floor collapsed. The boards lit Labeau with terrific force. It is said that he made an attempt to call for help, but was unable to speak, the grain choking him quickly. His brother Tom, who was sleeping with him, also was stifled, but escaped death. Labeau was fifty-three years and single.

Her Death Was Unexpected.

Entirely unexpectedly, Mrs. William R. Smith of Detroit, formerly Miss Florence Moran, died suddenly at the residence of her mother, Mrs. S. A. Moran, 3410 St. Clair, at 10:30 p. m. She had been troubled with slight attacks, but it was not believed her condition was serious. Mrs. Smith was born and spent the greater part of her early life at the Soo, Minn., where she was a considerable ability, was a musician of considerable ability. Her mother, who is an employee of the Burns detective agency, has been at work in New York. The surviving relatives are the mother and the husband and four brothers and three sisters: John K. Moran, of the Soo; David J. Moran, of San Diego, Cal.; Chester L. and Robert T. Moran, of the Soo; Mrs. Frances Harvey and Miss Blanche Moran, of the Soo, and Mrs. Fred Bennett, of Houghton.

RELIEF FROM CONSTIPATION

It's Me for Dr. Edwards' Olive Tablets.

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative. No griping is the "scent" of these little sugar-coated, olive-colored tablets. "Tobacunas," Tab's olive-colored tablets, irritate the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth" now and then—a bad breath—a dull tired feeling—sick headaches—torpid liver and are constipated, you'll find quick, sure and only pleasant results from one or two little R. Edwards' Olive Tablets at bedtime.

Thousands take one or two every night just to keep right. Try them. 10c and 25c per box. The Olive Tablet company, Columbus, O.

THE AIRMAN'S DREAM.

M. Esnault Pelterie, one of the best-known aviation experts, is of the opinion that the day will come when communication between the earth and the moon and stars will be possible in aeroplanes.

Providing that radium is one day found in larger quantities and that some way of harnessing its energies is discovered by scientists, he calculates that an aeroplane weighing a ton should be able to cover the 238,800 miles which separate the earth and the moon in three hours and five minutes.

About 800 pounds of radium would be necessary to provide the fuel for the journey. At the current price, about \$10,000,000,000 worth would be required. Trips to certain of the stars he considers equally practicable.

City Brevities

Today's weather: Fair and warmer. Yesterday's temperature: Seven a. m., 22 degrees; noon, 32; 7 p. m., 32; highest, 34; lowest, 20.

Mrs. Andrew Nelson left yesterday for the Soo to visit for a few days.

Mrs. Abel Olson, of Houghton, is visiting friends and relatives in Marquette.

Mrs. Thomas Broderick left last evening for Duluth to visit for two weeks with her sister, Mrs. D. J. Wilson.

Miss Burkholder of the high school faculty is visiting with Miss Laroux, at Marinette. Miss Laroux is formerly of Marquette.

William Pohlman and party left yesterday for Witch Lake on a ten days' deer hunt. They will stay at J. F. Viede's camp.

Miss Myrtle Schrandt, service inspector for the Michigan State Telephone company, left yesterday for Ironwood on a business trip.

The Women's Christian Temperance union will meet this afternoon at 3 o'clock at the home of Mrs. John Strong, 302 West Park street.

Mrs. J. J. Lang is expected home today from Chicago, where she has been visiting for a week. She will be accompanied by her mother, Mrs. L. Delair.

Miss Lou Unsworth, a student at the Northern Normal, who was called to Calumet last week by the death of her mother, returned to Marquette last evening.

Marquette lodge, No. 101, F. & A. M., will give a dancing party Thursday evening. Supper will be served. The local orchestra will furnish the music. This will be the last party to be given in the old hall, the next dance being the grand ball Thanksgiving night by the Knights Templar, marking the opening of the new hall in the Colonial building.

After a visit of four and one-half months in the Central region and in the West, Mrs. John Stacey arrived home yesterday. She visited at Chicago, Denver, Tonopah, San Francisco, Salt Lake, Mapleton, Ia., and Kankakee, Ills. At San Francisco, she was the guest of her son, Joseph. At Mapleton, she visited her sister-in-law, whom until that time she had never seen.

Joint Installation—The Marquette and Ishpeming councils of the Knights of Columbus will hold a joint installation of officers Saturday evening at Bureau's Hall. Following the work, lunch will be served at the clubrooms.

Railroad Men Here—H. G. Grant, traveling passenger agent for the Norfolk & Western railroad, and Leon R. Poore, traveling passenger agent for the Pennsylvania lines west of Pittsburgh, were Marquette visitors yesterday.

Kappa Party—Invitations for the Kappa Alpha Pi dancing party to be given in Fraternity Hall Friday evening, Nov. 21, will be sent out the latter part of the week. The dance program will consist of two-steps, waltzes, three-steps and the Boston.

Billiard Tournament—A tournament to be open to all billiard players of Marquette will be conducted shortly at Fred Frei's pool and billiard parlor, on Washington street. Five persons have already registered. Two prizes will be awarded to the best averages.

Hunters Number 3,100—Three thousand hunters from the lower part of the state and Illinois have crossed the straits to the upper peninsula to hunt deer, according to figures obtained yesterday from the South Shore railroad. This number does not show where near represent the total number of hunters in the upper peninsula woods, however, as it takes no account of resident hunters.

Patriotic Club Organized—After the Daughters of the American Revolution held their monthly meeting yesterday afternoon in the Peter White Public Library an interesting paper was read by Miss Martha Clark, "Women in Industry" by her topic. The society, which is studying this year along sociological lines, has organized a Boys' Patriotic club in North Marquette. This club is a branch of the society of the Children of the Republic, organized by the national society, D. A. R., for the development of patriotism and the general betterment of the future citizens of the nation. The meetings are held in the North Marquette school, where a reading room and gymnasium have been provided. The girls of North Marquette will be organized into a similar club.

Feature Films Today—Motion picture dancing lessons will be the feature films at the Marquette Opera House this afternoon this evening and tomorrow evening. The pictures show, step by step, how to dance the tango, Viennese hesitation waltz and the turkey trot, with Professor Wallace McCutcheon and Miss Jean Sawyer as the instructors. The picture by the Kalem company, Special music accompanies the pictures, and the opera house management has engaged an orchestra for the two days. The matinee today will begin at 4 o'clock. It is just possible that Professor McCutcheon has taken some of the "tang" out of the tango, in giving his exhibition, but it goes to prove that it is not the dance but the dancer who is to blame for any odium that may attach to these newest variations of the "light fantastic." The Ross Kids, two young boys who travel with their father and mother, will be the vaudeville attraction at the opera house the last half of the week, presenting a gymnastic act "A Day in the Gymnasium." They put on three rounds of good boxing.

INSURE WITH PETER WHITE & CO. NOTICE OF MEETING. Notice is hereby given that a special meeting of stockholders of the Superior Lumber company will be held at the office of the company, in Marquette, Michigan, on December 1, 1913, at 11 o'clock a. m., or the purpose of ratifying, approving, authorizing and confirming the sale of all its property, the distribution amongst its stockholders of all its assets remaining after payment of its liabilities, the liquidation of the company, and the transaction of all other business which may come before the meeting.

Dated November 8th, 1913. J. H. HICOK, President. A. F. JAQUES, Secretary.

DELEGATES TO GO TO WASHINGTON

Representatives of Northern Forest Protective Ass'n to Attend Conservation Meet.

It is expected that the Northern Forest Protective association, which now includes practically all of the big land owners of the upper peninsula and many of the small ones, will be represented at the Fifth National Conservation congress to be held Nov. 18, 19 and 20 at Washington, D. C.

Thornton A. Green, president of the association, has appointed the following delegates: Thomas R. Wyman, Munising; Alton T. Roberts, Marquette; Edward A. Hannan, Chassell; A. E. Miller, Marquette, and W. H. Johnston, Ishpeming. The alternates are: James E. Sherman, Marquette; C. H. Worcester, Chassell; E. E. Johnson, Ontonagon; John Pryor, Houghton.

Mr. Wyman, secretary-for-forester of the association, makes the following announcement:

"The Northern Forest Protective association has just completed the posting of nearly one thousand direction signs upon the outlying roads and trails of the upper peninsula. These signs were put up solely as a kindness to woods travelers, and to properly direct them to the location being sought or to a place where protection and lodging could be found.

"This is the first effort with any breadth of scope to properly designate the roads and camps of the peninsula, and if it meets with the approval of the general public it will be continued until it is almost impossible for one not familiar with the woods to become lost.

"There are always, however, certain lawless individuals who think it proper and smart to destroy work which is done as a benefit to the public, and there are already evidences in some locations of these signs being mutilated and destroyed. It behooves every individual who is interested in this movement to assist in the protection of these signs, or any other signs which are posted in the interest of the general welfare, and under compulsion section 11,586 of the compiled laws of 1897, as amended by the last legislature, all such signs are given protection and a punishment by imprisonment in the county jail not more than three months or by a fine not exceeding \$50, or both fine and imprisonment is provided.

"It is to be hoped that the general public will so recognize the value of properly posted signs and notices that it will collectively and individually see that no damage is done to such signs, and if evidence is obtained it will be handed over to the proper authorities for action."

City Charter

To the Editor of The Mining Journal:—Mr. Gannon cites as one of my "mis-statements" the following: against which I place his absolutely correct one, and ask a discriminating public to note their resemblance, viz: "What" the design of the new charter is to strip the mayor of the little special authority he now has.

Gannon's correct statement: "The charter did not intend that * * * the mayor should have or exercise any more power than any other individual" of the commission.

Mr. Gannon quotes provisions which prove his statement, and mine also, to be true; but he demonstrates the double aspect of the charter when he repeats its empty words saying "the mayor shall be the executive head," and cites the power of the commission to "assign" the mayor to other departments or duties.

The trouble is that the charter is so framed that it enables Mr. Gannon to blow hot, as he does, to one class of voters, that the mayor is made by the charter of extra consequence and power; and to blow cold, as he does, to another class of voters, that the mayor will not have or exercise any more power than any commissioner.

Now isn't Mr. Gannon himself something of a twister when he turns my word "what" into his word "whom," in such a manner as to misrepresent entirely what I said and what I mean? Here's how he did it, and I couldn't beat it if I tried:

Brown's statement: "The design of the new charter is to fix it so that the people shall not * * * know any more 'what' they are voting for in the election of mayor than in case of any commissioner."

Gannon's twist of this: "I take it that the people will know 'whom' they are voting for in the case of the mayor, as against the commissioner."

Of course the people will know "whom" they are voting for, and that is all; but they will not know "what" they are voting for. This right to know, is denied them.

GEORGE P. BROWN. DON'T EXPERIMENT

You Will Make No Mistake if You Follow This Marquette Citizen's Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are frequently symptoms of kidney trouble, and a remedy which is recommended for the kidneys should be taken in time.

Doan's Kidney Pills is a good remedy to use. No need to experiment. It has acted effectively in many cases in Marquette. Follow the advice of a Marquette citizen.

Mrs. Leonard Rieber, 407 Rock St., Marquette, Mich., says: "One of my family had kidney and bladder weakness and had little control over the kidney secretions at night. We tried remedy after remedy and spent a great deal of money but nothing brought relief until Doan's Kidney Pills were used. They improved her health and acted beneficially in every way. The public endorsement I gave Doan's Kidney Pills some years ago still holds good. I still think they are the best kidney remedy anyone can buy. The one of our family who took them has not been bothered by her kidneys or back since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

ON DOING WITHOUT

HUGE CAKE BAKED FOR JESSIE WILSON

Will Weigh 135 Pounds When Ready for the Wedding and Will Cost \$500.

New York, Nov. 11.—Miss Jessie Wilson's wedding cake was baked here today. The first layer is four inches thick and twenty-two inches across. When ready for the knife, the cake will weigh 135 pounds, and will be two and one-half feet tall, if one counts the vase of white orchids to be placed on top.

The cake will cost about \$500 and will contain nineteen ingredients. In two thousand dainty white boxes, tied with satin ribbon, the cake will be distributed, each box the proper size to go under one's pillow to dream upon.

Over the body of the cake will be moulded a thick white-icing scroll work. "Then," to quote the artist who is making it, "there will be a design for the initials of the bride and the bridegroom. It will be done in silver. And then there will be filices of the valley, in white sugar, on the sides."

House's Gift a Diamond Ornament. Washington, Nov. 11.—A pendant made up of one carat diamond weighing six and one-half carats, surrounded by eighty-five smaller diamonds, arranged in a pear shape and attached to a neck chain in which smaller diamonds are set, will be the gift of the house to Miss Jessie Wilson when she marries Francis B. Sayre in the White House Nov. 25.

Republican Leader Mann, who started the movement by which members of the house contributed more than \$2,000 for the gift, announced the description in a statement today. Mr. Mann, chairman of the committee to select the present, explained that the committee had studied many suggestions and designs and had the advice and aid of Miss Genevieve Clark, daughter of the speaker.

"Many beautiful pieces and sets of silver were suggested," said Mr. Mann, "but the committee finally determined to select something with more of an individual and special character than the conventional tea and coffee service, with its accompanying silver pieces—something which the lady will learn to love more and more with time—an ornament for personal use, which will give constant pleasure to the owner—a thing of rare and singular beauty, neither ostentatious nor glancingly ornate."

"As the love and respect of the whole American people will go with Miss Wilson through her entire life, this unique remainder of that love will always be with her, undimmed and untarnished by the lapse of years."

Jewel Sellers Besiege Senate's Buyer. When Senator Martin's clerical force reached his office today, they found in waiting a line of well-dressed, eager-eyed men who appeared to prosper for office seekers. Some of the men were clerks who had been waiting for a clerk opening the office door and the waiting line passed through, each man with a card, each card inscribed, "Mr. So-and-So, representing Such & Such Jewelers."

A new procession appeared intermittently all day, and every mail brought catalogs from some would-be purveyor of jewels and silversware to the senator from New Jersey, who has undertaken to buy a wedding present for Miss Wilson on behalf of the senate.

MINNEAPOLIS MAN JAILED ON THE CHARGE OF BIGAMY. Minneapolis, Nov. 11.—Arthur B. Carter, son-in-law of former Congressman Frank M. Nye, was indicted here today for bigamy. He is said to have confessed that he married Selma Benderson who resided only a few blocks from the Carter home, in February, 1913, while Mrs. Carter was away on a visit. Carter, it is said, roomed at the Benderson home during his wife's absence. Carter was married to Mr. Nye's daughter sixteen years ago. They have three children.

GOVERNMENT CHARGES SEATTLE CHINESE WITH ENSLAVING WHITE GIRL.

Seattle, Wash., Nov. 11.—Harry Toy, a wealthy Americanized Chinese, was arrested today on a charge of violating the Mann act in making a slave of Goldie Goddell, the eighteen-year-old daughter of a Portland (Ore.) clergyman.

Toy created a sensation three years ago when he married Christie Goddell, a worker in a Portland mission where Toy attended school. Soon after the marriage, Toy's wife died, and her sister, Goldie, grieving over Mrs. Toy's death, entered a convent. The government agents allege that after months of pleading, Toy induced Goldie Goddell to leave the convent and come to Seattle to live with him. Soon afterward, it is alleged, he placed her in a resort.

STARING AT POLICEMAN A CRIME IN GERMANY.

Breslau, Germany, Nov. 11.—Sentence of a fortnight in prison for staring at a policeman was imposed on a business man of this city today. In his defense, the defendant said he believed the policeman was observing him too conspicuously, so he stared back. The court in pronouncing judgment said the defendant had been guilty of a "most serious insult to an official."

VERDICT AT KIEV IS CONDEMNED BY JEWS

Question of "Ritual Murders" Undecided, Chance for Mischief Still Prevails. London, Nov. 11.—All the leaders of the Jewish communities in London and the other European capitals today expressed extreme dissatisfaction over the Kiev verdict, because its ambiguity leaves the question of "ritual murders" still undecided, and they are anxious as to its effect in encouraging "Black Hundred" agitators in Russia.

Thus far, according to the St. Petersburg dispatches, the preparations taken by the authorities have been successful. No disorders are reported and a majority of the Russian people appear to have accepted the verdict quietly. But among the Jews, great apprehension exists that the last has not been heard of the matter. As an indication of the spirit prevailing at Kiev, a banquet was given, after the verdict, by the anti-Semitic organizations in honor of two of the counsel for the prosecution at which six hundred persons, including some very prominent men, were present.

Duma Refuses to Naturalize Hebrews. St. Petersburg, Nov. 11.—In the duma today, a motion was made on behalf of the Constitutional Democratic party, that a committee be appointed to draft a bill conferring equal civil rights on all Russian subjects. The Constitutional Democratic speakers declared that Russia could never become a legal state until the Jews enjoyed full rights of citizenship.

The opponents of the motion argued that today less than ever should such equal rights be granted, for any concession to the Jews would provoke only mischief. The motion was rejected, 152 to 92.

ROBBERY OF MAIL WAGON AT CHICAGO IS CHARGED TO A MISSING TEAMSTER. Chicago, Nov. 11.—A pouch of registered mail, stolen today from a wagon carrying United States mail, yielded the thief \$268.40, according to a statement, by postal inspectors tonight. It had been given out earlier in the day that money and gems to a total value of \$10,000 were lost in the loading of the mail pouch. The inspectors are searching for Albert P. Tardy, driver of the wagon, from which the mail was stolen. Mrs. Tardy confessed that her husband told her he had robbed a mail pouch and that he was going to escape to Canada.

DEER SEASON TAKING ITS CUSTOMARY TOLL

Three Deaths in Wisconsin and One in Maine Is the Day's Record.

Superior, Wis., Nov. 11.—Joseph Mewga, a member of the Douglas county board, today called up the sheriff and informed him that he had just shot a few miles from town a man whom he mistook for a deer. He said he would give himself up. The dead man was a laborer, of Superior.

Boy Accidentally Kills His Mother. Superior, Wis., Nov. 11.—While showing a friend the workings of his new high-power rifle, with which he had just killed a deer, Roy Hoskins, twenty years old, accidentally shot and fatally injured his mother, Mrs. Fred Hoskins, at their home near Bennett, this county, late today. Mrs. Hoskins died a few minutes later.

Coleman, Wis., Nov. 11.—An unidentified hunter shot and killed Harold Enderby, fifteen years old, near here today. Ashland, Wis., Nov. 11.—Fred Becht, a hunter, was shot in the leg here today, when his gun was accidentally discharged.

Maine Guide Is a Victim. Milo, Me., Nov. 11.—Mistaken for a deer, Charles Dodge, a guide, was shot and killed today in the woods near here. Dodge's death makes the third hunting fatality in Piscataquis county this season.

Six Vancouver Men Are Missing. Vancouver, B. C., Nov. 11.—Six Vancouver hunters aboard a launch are believed to have perished Saturday night in a storm on the Gulf of Georgia. Since they tacked out of the harbor, they have not been heard from, though they had intended to return Sunday night.

HOME-TOWN BASEBALL FANS GIVE WATCH TO SNOODGRASS; GIANTS WIN, THREE TO TWO. Oxnard, Calif., Nov. 11.—The New York Giants defeated the Chicago White Sox today, 3 to 2, in a game featured by Crawford's home run in the third inning. This is Snodgrass' home town and when he went to bat he was presented with a gold watch.

The score: R. H. E. Giants..... 10 1000100—3 13 4 White Sox..... 0 11 000000—2 12 6 Batteries: Mathewson and Meyers; Benz; Russell and Daley.

FINNISH RUNNER'S STATUS TO BE INVESTIGATED TODAY. New York, Nov. 11.—Investigation of the amateur standing of Hannes Kolehmainen, the Finnish Olympic champion will be begun tomorrow night by the registration committee of the Metropolitan association of the Amateur Athletic union, it was announced tonight. Friends of this runner maintain his innocence of any violation of the amateur laws, while members of the committee are equally as positive that they have evidence that he has become a professional since coming to America.

CHICAGO PRODUCE QUOTATIONS. Chicago, Nov. 11.—Butter showed no change in price in Chicago today; creameries were quoted at 22 1/2 to 31 1/2 cents. Eggs, unchanged; receipts, 3,760 cases; eggs at mark, cases included, 28¢ to 33 cents; ordinary firsts, 30¢ to 32¢; firsts, 34¢. Poultry, alive, higher; springs, 12¢; cents; fowls, 10 1/2 cents; turkeys, 16 cents.

WILL GO TO JURY TODAY. Chicago, Nov. 11.—The case of Attorney Daniel Donahoe and Isaac Steifel, a detective, charged with having conspired to defame Clarence S. Funk, president of the Rumley company, will go to

FIVE PERSONS IN ILLINOIS DIE WHEN TRAPPED BY FIRE IN THEIR DWELLING HOUSE.

Springfield, Ill., Nov. 11.—Forced to rush through fire after being trapped on the second floor of a fire dwelling at Broadway, near here, five persons perished in an early morning blaze that destroyed the house today. The fire was discovered by trainmen on a passing train. The dead were: W. D. LASETER, fifty-four years old. PAULINE McFETRIDGE, aged one. MARY McFETRIDGE, aged three. MRS. W. D. LASETER. GENEVA McFETRIDGE, aged five years.

The cause of the fire has not been learned. MOTHER AND WIDOW GET BULK OF GATES ESTATE. New York, Nov. 11.—The estate of the late Charles G. Gates will be divided between his widow, Mrs. Charles G. Gates, and his mother, Mrs. John W. Gates, who will get equal shares, about two million dollars each, after bequests amounting to about six hundred thousand are paid to relatives and friends. The principal provisions of the will were announced tonight.

SPENCER HAS A POOR OPINION OF HIS JURY. Chicago, Nov. 11.—Eleven jurors to try Henry Spencer on the charge of murdering Mrs. Mildred Allison Recusart had been obtained when the adjournment of the second day of the trial at Wheaton, Ill., was taken this evening. Eight of the men are farmers who have expressed themselves as not opposed to hanging.

Spencer continued his tactics of interrupting the attorneys and talking to the veniremen. Just before adjournment, he looked at the eleven who had been chosen. "That's a fierce jury," he said. "Just about nerve enough in the whole bunch to send a man to rot in the penitentiary—not enough nerve to hang him. It's just as hard to get justice, as it is when justice means liberty."

"Your jury system is no good. Just as soon as a man says he's got an opinion, out he goes. What good is a man without an opinion? A man's got to be a fool before you will even consider him."

SPUGS SET AFLOAT CAMPAIGN OF 1913. All Citizens Invited to Join Society for the Prevention of Useless Giving. New York, Nov. 11.—A country-wide appeal for the abolition of the useless Christmas gift and a plea for intelligent and thoughtful giving instead were voiced tonight by Mrs. August Belmont, president of the "Spugs," at the opening meeting of the 1913 campaign to be waged by that organization against unnecessary, compulsory and waste in Christmas giving.

At this meeting the membership rolls of the Spugs—the Society for the Prevention of Useless Giving—were thrown open to all residents of the United States who might want to enroll against the foolish Christmas gift. Having grown from a handful to more than five thousand within a few weeks during the last Christmas season, the Spugs have outlined for this year a national campaign and hope to establish societies in all cities and towns throughout the country.

Mrs. J. Gordon Harriman presided at tonight's meeting. District Attorney Whitman, newly enrolled as a member, and Francis Crownsfield delivered addresses. Mrs. Belmont was the orator of the evening. The original purpose of the society, she said, was to prevent compulsory giving by girls in stores and factories to their employers, the custom of collective giving which the girls felt they could not afford but which they could not avoid without embarrassment.

"We do not disapprove of collective giving when it is done on the spur of the moment," Mrs. Belmont said, "or for some particular cause, because then it means that you have collected a sense of human fellowship of which the money collected is but an expression. We do approve of it when it is for the man lower down instead of for the man higher up."

"Some persons think that we oppose giving, but we advocate intelligent giving—giving that is done with the Christmas spirit of goodwill as distinguished from giving that is compulsory, from fear or with the hope of obtaining reward, whether that reward be the favor of the man higher up or advancement. The world at large should put more of the Christmas spirit into giving. Christmas should be a time for every person to do his or her share."

"Some folks say to us, 'Of course, you want to promote useful giving.' The world useful has many changes of meaning. Usually when one thinks of a useful present, it is a present decidedly middle-class or commonplace. So we do not attempt to promote useful giving in the commonly accepted definition of that word. The thing we are really out to do is to abolish something. We feel that when we have done that there will follow good sense in giving and that everybody will be profited thereby."

"We propose to decrease the cost of the gift and increase the good will; to make the heart of Father Christmas rejoice by little acts of kindness, usefulness, by putting thought into the gift we send our dear ones. Give generously; but from your heart, with all your thought. Don't make a business of giving; make it an art. Don't waste

Schlitz Brown Bottle Needs No Cover

OUR LEADING BRANDS SELECT EXPORT SALVATOR (MILD)

To Protect Beer From The Light Keep This Cover On

We claim, scientists corroborate and Schmidt Brewing Co. tacitly admits in big type on their case cover reproduced above—that light affects the quality of beer, that the light bottle is insufficient protection.

It is not enough to make pure beer—it must be protected from the light. Schlitz in Brown Bottles is pure and wholesome from the brewery to your glass.

Phones: (Bell 130 County 281) Andrew Hartvig 219 S. Front St., Marquette

Schlitz The Beer That Made Milwaukee Famous.

Three Reasons Why POSTUM Instead of Coffee

A Food Postum made of choice whole wheat roasted, with a small portion of New Orleans molasses, contains the nutritive elements of the grain and is wholesome and nourishing. Coffee has no food value whatever.

Has Fine Postum has a dark, seal brown color which changes to rich golden brown when cream is added. It has a delightful aroma, and a rich, snappy flavour quite similar to that of Old Dutch Java.

Free From Postum is absolutely free from any drug. Coffee contains caffeine, a poisonous drug—about 2 1/2 grains to the cup. It often causes biliousness, headaches, heart agitation, nervousness, sleeplessness, and other ills. Postum, being pure and free from caffeine or any other drug, may be used freely by young and old.

Postum comes in two forms: Regular Postum must be well boiled to bring out the flavour and food value. Instant Postum is a soluble powder. Made instantly by stirring a spoonful in a cup of hot water—with sugar and cream added.

If coffee don't agree, try POSTUM.

"There's a Reason"

what should be a season of good will freely given."

NEW YORK STOCKS STRONG UNTIL THE CLOSING HOUR; DAY'S GAINS MOSTLY LOST. New York, Nov. 11.—Quotations on the Stock exchange moved upward today as abruptly as they declined yesterday. Both railroad and industrial shares advanced strongly. The higher prices were well maintained until the last hour, when a swift reaction cancelled a large part of the gains. The change in the market apparently was due primarily to the strong technical position. The copper stocks were benefited by the rally in the copper metal abroad.

Bear traders sought to make capital of the arbitration board's award of an increase in wages on the Eastern roads. This decision, however, was of comparatively small significance in the eyes of speculators, for the reason that they had expected that some such compromise would be made. It was contended also that the decision would arm the railroads with another argument in favor of increased freight rates.

Wheat Market Shows Nervousness. Chicago, Nov. 11.—The widening of the damage area in Argentina turned the wheat market today up-grade, after there had been a material setback in prices. The close was nervous. Final prices were: December wheat, 86 1/2 to 86 3/4; May, 91; December corn, 68 1/2; May, 70 1/2; standard oats, 40 to 40 1/2.

Lower State Notes CHEBOYGAN—The six-year-old son of Mr. and Mrs. Alonzo Murray of Mackinaw City was shot through the right temple and instantly killed by a hunter's stray shot. The boy was standing in the yard a few feet from the door and the mother, who heard the shot, turned to see her child sink silently to the ground.

PETOSKEY—In police court seven residents of Bay Shore each paid \$12.50 for a venison supper which they partook of last month. A deer swam ashore at Bay Shore, was captured by the men, confined in a barn and subsequently killed, the meat being divided. Game Warden Smith procured the evidence and arrested the "hunters." They gave their names as John Deschmier, Zina Matthews, Wolf Glaser, Oscar Ford, John Lett, Moses James and Will Grand.

ADRIAN—Louis Muzzio, the alleged yeggman who was captured here last week with nitroglycerin and caps on his person, has been identified by the Toledo authorities as an escaped convict, who made his getaway from the Ohio penitentiary Aug. 28 last. He was sentenced from Lucas county, O., charged with larceny and burglary. His records certify that he has shot two men, and he bears the marks of two wounds. He has been arrested under many aliases. James Carroll, who was captured with Muzzio, has not been identified.

LANSING—Victor Boyne, a Belgian, thirty-five years of age, lies unconscious at his home here from the effects of three bullet wounds in his back. He was shot by a 32-caliber automatic revolver fired by an unknown Italian in the railroad yards at the Owosso Sugar company's factory on North street. Working on the theory that the attempted murder is the act of an alleged "black hand" gang known to the police to have been working in Lansing during the past summer, Chief of Police Henry Brehend ordered the arrest of Peter Kostello, aged twenty-eight, Tony Marlow, aged twenty-four; Charles Rady, aged nineteen, and Frank Fredo, aged nineteen. The quartet were found an hour after the shooting occurred. Search of the men's effects uncovered an automatic 32-caliber revolver and several shells. The gun bore evidence that it had been used recently, according to the police.

PAW PAW—In circuit court this week will be heard the suit for \$25,000 brought by Lynn Lewis, of Bangor, against Representative C. A. Weidenfeller, of Bloomington. It grows out of the primary election, a year and a half ago, when Weidenfeller defeated Lewis for the nomination for the state legislature.

Lewis bases his action on alleged statements made by Weidenfeller two or three days before the primary election, in which Lewis claims Weidenfeller said Lewis had withdrawn from the race, or would do so for \$200. Lewis declares it was this assertion which beat him. He denies he ever said he intended to withdraw. Lewis is a lawyer, but his case will be conducted by Paw Paw attorneys, Attorney General Fellows has been retained to appear for Representative Weidenfeller. Representative Weidenfeller made the statement before election that he would resign his place if the charges made by Lewis were proven true.

SURGEONS LAUNCH MOVE TO STANDARDIZE HOSPITALS. Chicago, Nov. 11.—A national movement to standardize hospitals was endorsed today by the Clinical Congress of Surgeons of North America. After the report of a special committee on the subject, there was adopted a resolution which will result in every hospital on the continent receiving an urgent request to adopt a new system of records designed for the protection of patients. The plan includes the appointment of an efficiency committee in each hospital. Many rare operations were performed today in more than one hundred clinics.

BUSINESS MEN TO HAVE BANQUET

Advancement Association Will Elect Officers at Annual Meeting in January.

A meeting of the Ishpeming Advancement association was held yesterday afternoon at the Y. M. C. A., for the purpose of electing officers for next year, but it was found that there was a misunderstanding as to the proper time for the election, which the constitution sets for January.

On the date of the annual meeting a banquet will be given.

Yesterday a proposal to hold a Chauntiqua in the city the coming summer was discussed. The matter was left in the hands of A. C. Harrington, who has been in touch with a number of Chauntiqua agencies. It is thought that a representative of one of these agencies will come here to discuss the plan and to enlighten the members further on the subject.

A report was read from the playgrounds committee, but no action was taken, pending further investigations. P. H. Devine advised the committee to procure options on all the sites possible and then eliminate all but the ones most suited for the playgrounds.

A communication was read from the Auto Route Book Publishing company of New York, and E. J. Wise was appointed a committee of one to furnish them with a description of the city and information about its points of historical interest. The report will be published in the yearly route book that is issued by the company.

Jacobi P. Neimi, asked the association to establish a bureau to look up the farm lands about the city that can be bought by parties wishing to settle near here. Mr. Neimi said that to his knowledge exactly 100 Finnish families have left the city during the past six years, because they were not able to procure land near here for farming purposes.

PIONEERS TO CELEBRATE.

Several Former Ishpeming Men Prominent in Coleraine Arrangements.

The pioneers of Coleraine, Minn., who have formed an association, are now preparing for their first gathering, when an entertainment and banquet will be held. Ishpeming and Winthrop men are the real pioneers of Coleraine. Nearly all of the former residents of Ishpeming who left here to take positions under John C. Greenway are still living there and most of them are doing well. Several hold official positions with the Oliver company and others have jobs as mechanics, engineers and steam shovel operators.

Several former Ishpeming men are members of the arrangements committee for the first meeting of the Pioneers. Among them are Case Downing, Ole Rein, William Cashen, William Hathaway, Peter L. Ranquist and Gust Youngberg. William Curley, a Negaunee boy, is also a member of the committee. Others on the committee are Nels Goodwin, chairman; F. Provisko, Erik Johnson, Frank Radosovich, S. G. Plummer, Dave Vermilyea, Fred Ekman, E. H. Winberg, F. W. Eastabrooks, C. W. Lynn, H. C. Holmes, M. Cady, Alex King, W. J. Stock, J. H. Gotsworth, Clarence Mott, Durant Barclay, J. D. Murray, Charles Larson and E. R. Blair.

BASEBALL PICTURES TONIGHT.

World's Series Games Will Be Special Attraction at Theater.

Included in the picture program at Ishpeming theater tonight will be views of the world's series games between the Giants and the Athletics.

The pictures show the most important plays in each game, the magnificent Shibe park in Philadelphia and the Polo grounds at New York. Although the pictures are an extra feature there will be no extra admission charge.

Jacobi P. Neimi, asked the association to establish a bureau to look up the farm lands about the city that can be bought by parties wishing to settle near here. Mr. Neimi said that to his knowledge exactly 100 Finnish families have left the city during the past six years, because they were not able to procure land near here for farming purposes.

ISHPEMING IN BRIEF.

The Ishpeming lodge of Elks will conduct a series of dancing parties during the winter. The first will be given in the Anderson hall Friday, the 28th. The committee in charge is composed of A. J. Yungbluth, H. G. O'Keefe, H. L. Ramsdell and George Hayden.

Wilbur Frewerd, Gene Rock, and "Red" Murray are spending a few days hunting near Greenwood. Norman Leffler is relieving Mr. Frewerd as manager of the Western Union Telegraph office.

Ed J. Schilling, of Detroit, the architect who drew the plans for the remodeled parochial school and sisters' dwelling here, has furnished Rev. J. A. Keul, pastor of St. John's church, with an attractive sketch, showing the exterior of both buildings as they will appear when completed. It is now on exhibition in the window of William Leininger's furniture store.

William Millman, who, for several years was employed as meat cutter at the Ishpeming Co-operative store, leaving there some months ago, to enter the employ of Winter & Sues, Negaunee, has taken a position with the Hughes Mercantile company, succeeding Frank Mueck, who will open a meat market in Negaunee in a few days in partnership with his son, Ray.

BOWLING SCORES.

Teams No. 6 and No. 3 were the contenders in the league match at the Empire bowling alleys last evening. The scores follow:

Team No. 6	Total
Dyer	136 181 160 477
Heindel	174 183 188 545
Hanst	169 113 128 410
Totals	479 477 476 1,432
Team No. 3	Total
Branstad	179 171 216 566
O'Brien	133 155 179 467
H. Johns	136 147 151 434
Totals	448 473 546 1,467

Teams Nos. 1 and 8 and Nos. 2 and 5 will roll tonight.

ISHPEMING IN BRIEF.

Victor Young, of Big Bay, visited with friends in the city yesterday.

Charles Smeltz has returned from the west, where he spent the past year.

Robert Cronin, who has been employed at Sharon, Wis., for the past two months, has returned home.

The members of the Girls club of the Grace Episcopal church will meet with Miss Emma Wheeler at her home on Ridge street, this evening.

The funeral of the late James Donahoe, who died at the Soo Monday, after a short illness with pneumonia, will be held Thursday morning at 9 o'clock, with services at St. John's church.

Mrs. Isabella Comish, of the Junction, will leave tonight for Nevada and California, on a three months' visit to relatives. She will be accompanied by her sister-in-law, Mrs. Joseph Wade, of Negaunee, who will spend some time in California. Mrs. Comish has a brother living in Nevada, also one in California.

Frank Gleason has gone to Thomson, where he will take a position as freight brakeman with the Duluth, South Shore & Atlantic railway, between Thomson and Duluth.

Joseph Covieu has purchased the residence property on the north side of his tenement house on Pearl street, from the Nelson estate. He plans to erect a modern dwelling on the lot next spring.

The paydays at the Ishpeming mines for the last half of October will start today, at the Cleveland-Cliffs Iron company's Lake, Hard Ore and Cliffs shafts mines. Tomorrow the company will pay at the Salisbury and North Lake mines and the Oliver Iron Mining company will pay here. The workmen at the Lake Angeline mine will be paid Saturday. The Oliver company will pay at the Steemiller mine, Swaney range, today, and at the Queen mine, Negaunee, Friday. The Cleveland-Cliffs company will pay its men in the Gwinn district Saturday, and in the Negaunee district Friday.

LOST-On street car, leaving Lake Angeline at 3:30 Saturday, small black shopping bag. Reward. Return to Mining Journal office, Ishpeming. 11-10-1w

K. OF C. INSTALLATION.

The newly elected officers of the Ishpeming council, Knights of Columbus, and the officers of the Marquette council will be installed Saturday evening at a joint meeting in Bureau's hall, Marquette. J. N. LaBilloy, of Menominee, who was recently appointed district deputy to succeed M. H. Kern, will conduct the installation. He will be assisted by an officer of the Menominee council. The Knights will leave here on the 6:30 train, and the round trip rate of fifty cents will be in effect. Lunch will be served at the conclusion of the meeting.

OPEN TONIGHT.

The first open house to be held at the "Y" this season will occur this evening. The program will be opened with a volleyball game between the Oliver and Cleveland-Cliffs teams. The "Y" orchestra will furnish music during the evening and refreshments will be served. An invitation is extended to the public, and especially to the ladies. No admission will be charged to the game, which will commence at 8:15 o'clock.

ACCEPTS ENGAGEMENTS.

The Hematite City Four, who filled an engagement at Ishpeming theater on Thursday and Friday evenings of last week, have already had several offers of engagements, and they will likely appear in other places in the county. The quartet is composed of experienced singers and their act is a meritorious one. The feature is a piano solo by Ed Hann in selection of his own composition.

WRESTLING MATCH.

Dave Watts, a wellknown Iron River man, is arranging a catch-as-catch-can wrestling match between Farmer Burns, lightweight champion of Michigan, and Young Gotch, of Iron River, the latter a former Ishpeming boy. Since locating on the Menominee range Young Gotch has defeated a number of fine wrestlers. Several of his friends wanted to have the forthcoming match staged in Ishpeming, but it is thought that it will draw better at Iron River.

TONIGHT.

Tonight, if you feel dull and stupid, or bilious and constipated, take a dose of Chamberlain's Tablets and you will feel all right tomorrow. For sale by All Dealers.

FRANK J. CHENEY.

Sworn to before me and subscribed in my presence this 8th day of December, A. D. 1888.

Upper Peninsula

Quincy Girl Weds a Soldier.

Another wedding as the outcome of the copper country strike took place when Miss Ethel Peters of the Quincy location became the bride of Paul Millard of Ionia. The bride is the daughter of A. Peters. She was born in St. Brengre, Cornwall, and came to the country when two years of age. She has taken an active part in social and church affairs. Mr. Millard is an Ionia man and did strike duty as a member of the Michigan National Guard, being stationed at the Quincy location, where the acquaintance which resulted in the marriage was made. After the Ionia company returned home he enlisted with the Grand Rapids company and remained until the last infantry left. Miss Peters, accompanied by her mother, went to Grand Rapids, where she was met by Mr. Millard. The wedding took place last Saturday. Mr. and Mrs. Millard went to Ionia, where they will locate. Mr. Millard being employed in a large furniture factory; he is a cabinet maker by trade.

O'Rourke Wins When He Loses.

Wednesday, Tom O'Rourke had a sick horse and, feeling pretty certain that the horse would die, he called Dr. Florentine for consultation. "Doc" was willing to gamble that the horse would live, and offered Tom ten cents for the horse. Tom accepted. Later, Doc got a little worried, thinking he would have a dead horse on his hands, and so he interested Dr. O'Malley, the latter paying five cents for a half interest. Yesterday morning the two professional men had to bury the horse, for the animal died—Even Press.

Thomas House Changes Hands.

The Thomas House, the oldest established hotel in L'Anse, has a new management, W. J. Reece succeeding V. D. Sinar, formerly of Marquette. The new proprietor has been a resident of L'Anse for the last year, during which time he has been in the real estate business and has had an agency in fire, life and accident insurance which he will continue to operate. Mr. Sinar will move to Houghton, being interested in chief engineer with the Sheridan Construction company, whose business has greatly increased and will require his entire time. During Mr. Sinar's proprietorship, since last May, the house has enjoyed a period of prosperity and popularity.

New Men Expert Cricket Players.

A blanket of snow that is likely to remain for several months may not be the most propitious time to discuss cricket, but Secretary Reid of the copper country cricket league believes the copper country will see a faster brand of cricket next season. He gives as his reason that a large percentage of the men arriving from Cornwall to work in the mines have played cricket, in some cases with the best teams in Cornwall. Their coming will make them available for teams in the copper country next season. During the last three months several of the best cricket players in the district have been compelled to leave for other fields, but they are returning to resume their positions. The new arrivals from Cornwall will furnish material for the weaker teams, so that several surprises may be sprung on the fans next season. Mohawk won the championship last season.

Automobile Cranking Perilous.

Harry Fraser had one of the bones in his wrist broken Monday while cranking his automobile. He was spinning the shaft when a charge was exploded, the crank shooting back and snapping the bone. About the same time, Bradley Barlow broke his arm while cranking his automobile a short distance this side of Florence. His engine stalled. The spark was set right and everything seemed O. K. but the engine shot the crank out of Barlow's hand and swung it around before he could get out of the way, striking him on the forearm and breaking the bone.—Crystal Falls Drill. Mason Smith broke the large bone in his right arm Wednesday afternoon in cranking his auto. The accident was caused by what is known as "slow firing." The machine was standing in front of the postoffice, and Mr. Smith, who was in somewhat of a hurry, cranked it once and when it failed to start took hold of the crank handle to turn it again, when the motor started, jerking his arm violently.—Ironwood Times.

A NIGHT OF TERROR.

Few nights are more terrible than that of a mother looking on her child choking and gasping for breath during an attack of croup, and nothing in the house to relieve it. Many mothers have passed nights of terror in this situation. A little forethought will enable you to avoid this. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. Keep it at hand. For sale by All Dealers.

COMMENDS BARASA.

Former Negaunee Man Now Among Leading Chicago Attorneys.

Bernard P. Barasa, of Chicago, son of Baptiste Barasa, is highly spoken of in the current number of Standard Opinion, a Chicago weekly law paper, which says: "Mr. Bernard P. Barasa has advanced to the front rank among the most prominent lawyers in Chicago and the West. Square and honorable to all, a gentleman of splendid character and integrity, Bernard P. Barasa commands the confidence, respect and admiration of his brethren in legal practice as well as laymen. Mr. Barasa has the judicial temperament and will grace the bench, we hope, in the near future. His office is at 127 North Dearborn street."

NEW BOOKS AT LIBRARY.

Yesterday a number of books, including juvenile fiction, were added to the Negaunee public library. The list of acquisitions follows: Alice F. Jackson—Little Nell. James Willard Schultz—Sinopah, the Indian Boy. Lieutenant Howard Payson—The Boy Scouts and the Army Airships. Lieutenant Howard Payson—The Boy Scouts for Uncle Sam. Lieutenant Howard Payson—The Boy Scouts on the Range. Lieutenant Howard Payson—The Boy Scouts and the Panama Canal. Lieutenant Howard Payson—The Boy Scouts' Mountain Camp. Lieutenant Howard Payson—The Boy Scouts of the Eagle Patrol. By "Lee"—Claire Loraine. Randall Parrish—The Maid of the Forest. Oliver Huckel—Wagners Parsifal. E. Hopkinson Smith—The Arm Chair at the Inn. Marie Van Vorst—His Lone Story. George Barr McCutcheon—A Fool and His Money. Lucy Foster Madison—Peggy Owen and Liberty. Candace Wheeler—How to Make Rugs. Margaret Vandercok—The Ranch Girls at Boarding School. Margaret Vandercok—The Camp Fire Girls at Sunrise Hill. L. M. Montgomery—The Golden Road. Commander E. L. Beach, U. S. N.—Lieutenant Ralphy O'Keefe. Robert H. Schaffer—Flag Day. Constance D'Arcy Mackay—Patriotic Plays and Pageants for Young People. Molly Elliot Seawell—The Son of Columbus. Clifton Johnson—The Fur Tree Fairy Book. Seven volumes—The Boy Aviators' Series.

MATINEE TODAY.

This afternoon at 4 o'clock the Star theater will give a special matinee, featuring the Ross Brothers as the vaudeville attraction. A special two-reel picture, "In Convict Garb," is included in the program.

HEAD COVERED WITH DRY SCALE.

Hair Came Out, Head Itched and Bled. Could Not Attend School. Two Cakes of Cuticura Soap and One Box Cuticura Ointment Cured.

2700 Tamm Ave., St. Louis, Mo.—"My little daughter's head began with a dry harsh scale covering it. First it got a white scale over the top and then it got a dirty brown scab with pus under it. Her hair came out in loss than a week and her head itched and bled. She had no rest. I had her wear a scarf all the time, it looked so badly. She was so sore and had such big brown scales on her head that the teacher would not let her attend school. "We took and had her treated for three months with no relief. She kept getting worse until I tried Cuticura Soap and Ointment. I used the Cuticura Soap every third day and the Cuticura Ointment at night. After three days the scales began to come off and now her hair is coming in. In three weeks her head was well of sores. Two cakes of Cuticura Soap and one box of Cuticura Ointment completely cured her." (Signed) Mrs. Walter Rogers, Nov. 28, 1912.

Why not have a clear skin, soft white hands, a clean scalp and good hair? It is your birthright. Cuticura Soap with an occasional use of Cuticura Ointment will bring about these coveted conditions in most cases when all else fails. A single set is often sufficient. Sold throughout the world. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

Negaunee Department

KILLED IN ROCK CUT ON NORTHWESTERN

Charles Fronzen Was Struck Yesterday Afternoon by Passenger Train.

Charles Fronzen, sixty-nine years of age, and for many years a resident of Marquette and neighboring counties, met death in a tragic manner at about 4 o'clock yesterday afternoon, when he was struck by the Northwestern north-bound passenger train in the rock cut near the Blue mines.

The number of fatal and other accidents that have occurred in this cut is large. It is a treacherous place, as during the winter months a person has no opportunity of getting out of the way of an approaching train. Mr. Fronzen was known to many Negaunee people, having been employed for some time at Miller Bros. farm, three miles east of the city. He was on his way to the farm when the accident happened.

After having been in town since the early part of the afternoon and having made purchases at several stores, Mr. Fronzen left at about 3:30 o'clock for the farm, carrying several bundles. Just before he entered the cut he dropped a package of meat, and he walked about half way through the cut before he discovered his loss. He started back to get it, and was struck by the passenger train coming up from behind him. His death is said to have been almost instantaneous. The body was taken to Dawe's undertaking rooms.

Mr. Fronzen was a thrifty man and had a good sized bank account. While in Negaunee he left a sum of money with a friend to be deposited in one of the banks, it is said. For many years he had cooked at camps in Marquette and nearby counties, and was a familiar figure about town.

It is thought that Fronzen has a brother living in Wisconsin and an effort will be made to reach him.

STATE ENGINEER HERE.

Edward D. Rich, of Lansing, state sanitary engineer, arrived in Negaunee yesterday afternoon and, together with the water works committee of the council, mayor, health officer and superintendent of the board of public works, took up a survey of Negaunee's water supply situation. The water works plant at Teal lake was the first place visited by the party.

Today the engineer will look over the general water supply situation of the city. A special meeting of the council will be called during Mr. Rich's stay in the city.

DIVIDED INTO TWO CABINETS.

The Houghton district of the Epworth league, including the copper and the iron country, has been divided into two cabinets, carrying out a plan decided upon at the recent institute here. The institute also covered the continuing of the Phoenix rest home and the Lake Michigan conference.

TO CHANGE QUARTERS.

The Negaunee lodge of the Sons of St. George will soon give up the rooms in the Mulvey block they have occupied for the past seven years and take quarters in the Williams' block, over Elliott's hardware store. These rooms are now used by the Knights of Kaleva, the Finnish society.

Now is the time to order your chin-chills, and to order your Peterson & Willers, ladies' and men's tailors, Negaunee. 10-27-13

Mining News

COPPER SURPLUS.

The October statement of the Copper Producers' association was favorable, the small increase of 2,700,000 pounds in the surplus being a negligible factor in view of the extremely small stocks which the producers are carrying. Deliveries held up well—undoubtedly a reflection of the considerable buying movement which occurred some six or eight weeks ago. If there was a feature it was in the relatively large production, notwithstanding the prolongation of the Lake Superior strike. It is doubtful if the Lake district produced over 8,000,000 pounds last month at the most, so with normal output from the Michigan camp the previous high record production of 145,028,000 pounds—in August, 1912—would undoubtedly have been exceeded. However, with Rio Tinto closed down tight and the Mexican situation still so uncertain, there appears no reason to expect any great increase in world's stocks for some time to come even if consumption does fall off somewhat.

Notwithstanding the increase in surplus in the United States during October the world's visible continued its downward course, partly because of the drop in Europe, so that another new low record at 90,483,000 pounds was registered. Obviously there is some justification for the big producers hanging tenaciously to their 10% cents asking price. One large selling interest admits, however, that a bid for a considerable tonnage at fractionally under 10% cents would receive serious consideration.

There seems to be no reason to doubt that 1913 will go down as an extremely satisfactory one from the standpoint of the producers, no matter if an increased surplus is shown in the next two months. The world's visible in the ten months ended Nov. 1 had decreased no less than 111,000,000 pounds.

NOTES OF MINING NEWS.

North Butte has let the contract for a hoist to be erected at the Granite Mountain shaft and to have a capacity for hoisting from a depth of 5,000 feet. It will be the largest electric hoist ever built and will be installed in six months. The shaft, which will ultimately be the main working shaft of North Butte, is now 2,700 feet deep and will be carried to a depth of 3,200 feet before sinking is stopped. In October, North Butte produced 1,500,000 pounds of copper.

MAPPING OF CITY TO BE FINISHED SOON

General Maps of City's Water and Sewer Systems Are Now About Complete.

R. A. Brotherton, the city engineer, has about finished mapping the city's water and sewer systems, in compliance with instructions given by the common council a year ago.

The work of mapping the water and sewer systems was not much of an undertaking but the re-survey of the systems entailed an immense amount of work. The city had no records of any kind for the engineer and his assistants to base their work on. The engineer has made eighty maps, and all that now remains to be finished is a general map of the sewer system.

Since the work was first ordered done by the common council, Mr. Brotherton and two assistants have spent all their spare time securing the necessary data. Permanent bench marks or points of elevation were established by Mr. Brotherton and mean sea level data was used as a datum for all elevations. The data of the re-survey, from which the maps were made, required many months' work and is recorded in four good-sized books.

Edward D. Rich, state sanitary engineer, yesterday arrived in Negaunee and will look over the city engineer's work. Mr. Rich will also confer with the water works problem, and it is probable that a special meeting of the common council will be called as soon as he has looked over the ground.

The information to be furnished the board of health includes matters relating to water supply, sewerage and sewage disposal. Among the information desired as to sewerage is the number of buildings in the city connected and not connected with the city's sewers.

Detailed maps of the city's five sewer districts have been made by the city engineer. They show all connections, grades and elevations, the laterals as well as the main sewers being mapped. Profiles and plans of the sewers have been made, the horizontal scale being one inch to one hundred feet and the vertical scale one inch to four feet. Separate maps of all various styles of man-holes, flush-tanks, lamp holes, catch-basins, sewer sections, manhole covers and bulkheads have been made and are on file. There are eighty of the small detail maps, these being twenty-two by thirty inches in dimension.

The general map of the city, which has been drawn by Mr. Brotherton, is made to the scale to two hundred feet to the inch, also the general map of the water system. Construction plans of the water intake in Teal lake and of flexible joints, as required by the state board of health, have also been made by the engineer.

A Woman's Business Affairs

The woman who is called upon to assume business responsibility whether in connection with the care of an estate, investments or insurance, will find this bank of great assistance.

Its officers welcome the opportunity to counsel with those unfamiliar with business procedure concerning financial affairs. Commodious Ladies' Room for Woman Patrons.

The Negaunee National Bank Negaunee, Michigan.

THE MOST SKILLFUL BAKERS

Are in command of our ovens. We spend too much money and time in getting the finest of flour and other materials to risk our baking to unskilled help. So our bread, rolls, cakes and pastry are baked as well as they are mixed. How well that is only the eating of some will prove. Eat some today.

General Bakery
529 W. Iron St. Negaunee.

LOCAL LACONICS.

Everett Burge, of Munising, is in the city visiting friends and relatives.

Mr. and Mrs. Chris Messner went to Houghton Sunday, for a visit with relatives.

Miss Louise V. Cyr left yesterday afternoon for Marquette for a visit with friends.

P. L. Sullivan, of Escanaba, was among the business visitors in the city yesterday.

Mrs. J. E. O'Donoghue left Monday evening for Fond du Lac, Wis., for a visit with relatives.

Francis Winfield, who has been ill for the past three months with typhoid fever, is able to be out again.

Most of the Negaunee mines have ceased shipping for the season and have commenced to stock their ore.

Mrs. Phillip Rowe, who submitted to an operation at the Negaunee hospital Saturday, is reported to be recovering.

Mrs. Mildred Andrus will entertain the altar guild of St. John's Episcopal church at her home Saturday evening.

Mrs. K. C. Pellow and son, Robert, who have been visiting with relatives in Escanaba, have returned to their home here.

Mrs. Baptiste Barasa, accompanied by her daughters, Mrs. Weber, of Chicago, and Seraphine, left last Saturday evening for Chicago, where Mrs. Barasa is under the care of a specialist. Mr. Barasa and daughter, Mrs. Carmine, will leave in a short time for Chicago.

The funeral of Frank Stangoni, who died several days ago, will be held this morning at 9 o'clock from St. Paul's church.

Mr. Anderson, father of Dr. A. H. Anderson arrived in the city yesterday afternoon from the copper country for a visit with his son.

A meeting of the Boys' debating society of the Negaunee High school was held last evening at 7:30 o'clock, and was largely attended.

The Ladies' Thimble Bee of the Mitchell M. E. church will meet at the home of Mrs. Noah Hares, at the Jackson location, Thursday afternoon at 2:30 o'clock.

Miss Anna G. Anderson, of Elroy, Wis., is visiting at the home of Herbert Burzo, Clark street. Miss Anderson was formerly a domestic science teacher in the Negaunee schools.

Charles Vincent, Jr., was pleasantly surprised last Saturday night by about twenty-five of his friends. Games and dancing furnished entertainment for the evening, following which lunch was served.

ANNOUNCEMENT

I have arranged with the Paris Fashion of Marquette to hold a display and sale of pretty DRESSES here

TOMORROW

THURSDAY, NOV. 13

A large assortment of the season's newest styles will be shown in both wool and silk fabrics.

Street Dresses, Dancing Frocks Afternoon Dresses, Evening Gowns

Individual fittings will be given by the fitter from the Paris Fashion.

Women who appreciate dresses that are out of the ordinary should all see this display.

The display will be opened at 10 o'clock tomorrow, for the whole day. Each model as it is sold will be taken away, not to be shown again.

There will be two hundred garments and no two alike—all at sensible prices.

Mrs. M. E. Arland

Milliner
Negaunee, Michigan

Another Guessing Contest

How much does the immense hot water bottle in our show window hold? To the nearest guesser we will give a Maximum 2 quart hot water bottle, valued at two dollars.

SCHOOLS HERE ABOVE AVERAGE

County Commissioner Sterne Gives Data to Show That General Education in Rural Districts Is More Advanced Than It Is in Michigan, Taken as a Whole.

Asserts Township Boards Are Progressive and Willing to Do What Is Needed—Seating Is Modern and Sanitary Arrangements Good—Better Water Needed.

That the rural schools of Marquette county average much better in appointments, facilities for the comfort of the children and sanitary devices than those of the state at large is the assertion of Albert E. Sterne, county commissioner, in a letter to The Mining Journal. Mr. Sterne bases his conclusion on a survey of conditions in these schools in comparison with the data recently compiled by G. S. Lasher, auditor of the state department of education, which was outlined in The Mining Journal last Friday. His letter makes clear that a gratifying measure of progress has been attained in the development of the Marquette county schools, a thing for which he is entitled to no small part of the credit. Mr. Sterne writes:

"Although I do so reluctantly, I cannot allow your news item of the 7th instant, and your subsequent editorial, on rural schools to pass without comment. It is not with the idea of shielding myself from the criticism of implied inefficiency, which the editorial seeks to make, that I have compiled the following data of the condition of Marquette county rural schools to compare with the data on these schools throughout the state.

"All the schools in this district, outside of the cities, are organized under the upper peninsula township unit act. Under this act the township boards of education have all the powers and duties that city boards exercise. They may consolidate, establish high schools, kindergartens, domestic science and manual training, etc., hire a township superintendent, and vote sufficient taxes for the erection of buildings for school purposes and the maintenance of the same. Five townships in this county have established high schools and employ capable superintendents, with whom it is the duty of the commissioner to advise and cooperate. All of these schools have kindergartens, two have domestic science and manual training, and three are on the university list. Two have high school buildings that cost in the neighborhood of \$50,000, equipped with baths and heating and ventilating systems devised by the best architects. There is in course of erection at this time in one of the townships of the county an exact duplicate of the high school building at Muskegon. Besides, there are some five or six three and four room buildings in other townships in which the sanitary, lighting and seating provisions are modern. These schools are under the supervision of principals, under the commissioner.

Data on County Schools.

"It is, however, the rural school, the one to three room school, at which the criticisms are directed, and it is these schools on which I have obtained data since I read your article. I give all the items that Mr. Lasher mentions, and add others—standard qualification of teachers employed and water supply. The survey follows, but before I give it, I wish to state that there is not a rural school room in this county in which the pupils sit facing the light, and, further, there is not a teacher in any of the township schools who is not at least a graduate of a high school:

P.C.
Schools supplied with heating and ventilating stoves 84
Schools supplied with drinking fountains 52
Schools properly seated 73
Schools with proper outhouses 70
Schools having cross lights supplied with window shades 90
Schools supplied with 1/2 acre or more playgrounds 96
Schools having water supply 45
Teachers teaching in the rural schools of the county hold certificates as follows:

P.C.
Normal life 41
Normal graded 28
County (all grades) high schools, and 80 per cent. holding second grade certificates with several years' experience) 32
Total normal teachers in rural schools 69

"The above data does not indicate a standard anywhere near as low as Mr. Lasher indicates for the state at large. The percentage of heating and ventilating stoves, playgrounds, seating, cross lights with window shades, etc., is very favorable in comparison. Drinking fountains are fast replacing the old water pail and cup. It is a question of a short time only when all the schools will be supplied with modern drinking fountains. The water supply at the rural schools is a crying shame. Only 52 per cent. are supplied with fountains and only 45 per cent. have a water supply. In the others the pupils or teacher have to carry water from a near-by creek or a neighbor's well.

Many Old Buildings.

"It is true we have too many old and antiquated rural school buildings, but I find the boards of education very willing to build new model buildings when new buildings are required. Wherever the influence of the large corporations operating in this county can reach, it has been most commendably exerted in procuring good school buildings and good schools. There is constantly on file in this office plans and specifications of school buildings and outhouses of the most approved models. Our plan of a rural school outhouse is original, and has been adopted by the state board of health. It is very gratifying to see how favorably it has been received and used by boards of education in the construction of these buildings in this county. It strikes me that we are improving in such matters. True, now and then the best laid plans are upset by local

politics, but sooner or later they right themselves.

"In conclusion, it would appear that it would aid to procure better rural schools if the power to select school sites, erect and equip buildings, and appoint teachers and supervise them were given over to the state. I hope I have the interest of the generations to come at heart when I state this. The more matters of vital interest to the commonwealth can be centralized, and responsibility placed, the better for our schools, government and material welfare. I have no apology to make, as it seems to me that I have tried to be conscientious in the discharge of the duties of the office. The commissioner's work is advisory only. He has no power. He can only wait and watch and through moral suasion do all he can in that way for one of the most important interests of the state. Marquette county contains 1,900 square miles of territory. It is 700 square miles larger than the state of Rhode Island, and it is often felt that matters of importance are not attended to because it is a physical impossibility."

HUNTER BADLY WOUNDED.

Postal Found in His Pocket Carries Address "James Smith, Marquette."

Who in Marquette can throw light on the peculiar case outlined in the following letter received by The Mining Journal yesterday:

"The Mining Journal, Marquette, Mich.
"Dear Sirs—I picked up a young man Saturday night between Bessemer and Ironwood when I was driving home who had two severe bullet wounds. I could not find out his name, but I found an old postal card in his pocket with an address, James Smith, Marquette, Mich. He is now at the Ironwood hospital. It is thought that he was shot down in mistake for a deer. It is hard to tell if he will pull through, as he lost a lot of blood.

"Yours truly,
"C. LARSON, Game Warden, Ironwood, Mich."

LOWER STATE HUNTERS UNDERWENT HARDSHIP

Many of Them Were Out in Tents Through Three Days Storm—Woods Are Thronged.

Persons arriving in Marquette from the eastern part of the peninsula yesterday reported that lower Michigan hunters in the woods for deer suffered considerable hardship as a result of the unprecedented storm that prevailed Saturday, Sunday and Monday.

"As is the case every year, many of the lower Michigan men came north figuring on using tents for shelter during the period of their hunt," a Marquette man said yesterday. "A number of parties were housed in no better quarters than these tents when the storm set in Friday night, and in consequence they spent the better part of the next three days trying to keep alive. Much hardship was suffered by these parties, but no cases in which serious illness resulted from the exposure have been reported, as far as I know."

Other hunters who had unpleasant experiences as a result of the storm were the lower Michigan men who crossed the straits and proceeded to their destinations while it was at its height. In many cases the weather was moderate when these men left home, and their numbers were so great that they were left no choice but to proceed to their destinations, as they could not well remain over at Mackinac City and St. Ignace. In the height of the storm many hunters were dumped off the trains with their belongings at various stations east of Marquette, and had to make the best they could of the situation confronting them.

The movement to the woods, interrupted by the storm, was generally resumed by upper peninsula hunters yesterday, and the movement is by no means at an end. Another large delegation was handled at the straits yesterday that the number of hunters from other states in the woods shows a marked increase over previous years, this being due largely to a change in the game laws by the terms of which each non-resident hunter is allowed to ship one deer out of the state to his home. It has been necessary in many counties to send for additional blanks for the issuance of non-resident licenses, owing to this unusual demand.

JAMES PAPPADAKUS INJURED.

Shot in the Shoulder During Balkan War—Will Come Here in Summer.

James Pappadakus, formerly employed in the candy kitchen on Washington street by his brother, Mike Pappadakus, and who left here when the Balkan war first started, was seriously injured in a battle a few months ago, according to a letter received here by friends. Pappadakus was shot through the shoulder, the bullet tearing the shoulder ligaments and smashing the shoulder bones. The arm socket was fractured, too, making a difficult wound to heal.

He is recovering rapidly, however, and says he expects to come back to Marquette next summer. It is probable he will bring his wife and child with him. A cousin, who left here with him to join the Greek army, was also wounded in battle. His wound was slight, however, a rifle bullet penetrating his leg. No bones were broken.

CARD OF THANKS.

We desire to hereby extend to our friends our gratefulness and sincere appreciation of the many favors, and to thank them for the assistance so generously tendered us in sympathy during the illness and after the death of our beloved wife and mother. We also wish to thank Rev. Hultman for the comforting interest he so kindly manifested.

ALFRED BERGLUND, and Children.
Carlsbad, Mich., Nov. 12, 1913.

WALDO'S CREW WAS FINALLY RESCUED

Steamer Cast on Gull Rock, Manitow Island, Broken Up by Heavy Lake Storm.

The surmise that the wreckage of the L. C. Waldo discovered at Big Bay late Monday afternoon identified the unknown steamer cast on Gull Rock, Manitow Island, off Keweenaw point, was yesterday proved to be correct. The crew was saved by the Portage Lake and Eagle Harbor life savers. The Portage Lake crew was taken through the entry and made their way to the scene of the wreck in the shelter of the east shore of the point.

The Waldo's men were rescued from the hull in a badly exhausted condition and taken to Portage Lake on the tug Hebard. The final rescue by the Eagle Harbor and Portage Lake life savers was brought about after a failure Sunday night of a brave attempt of the Eagle Harbor crew to go to the wreck in the very height of the gale. When the gasolene boat at Eagle Harbor failed, the men essayed the task in a surf boat, but were finally driven back exhausted from the attempted sixty-mile row.

The dispatches sent out from Marquette Monday night were the first that served in any way to identify the wreck on Gull Rock. As Gull Rock is located about forty miles due north of Big Bay and the prevailing winds were from that direction Captain Cleary of the Marquette life saving station expressed confidence, when informed that there was a wreck at Gull Rock, that the ill-fated steamer was the Waldo.

Light Keeper in City.

J. H. Bergan, keeper of the Big Bay light, came to Marquette yesterday afternoon. He reported that on his way to Big Bay from the light he encountered much wreckage from the Waldo on the beach. He counted seventy-six sections of hatch covers that had been torn from the steamer, and in addition there was much badly shattered debris of furniture, stanchions and deck house fittings.

When informed that a steamer was stranded on Gull Rock Mr. Bergan expressed confidence that it was the Waldo, as he said the winds came from the north and would be certain to cast wreckage from Gull Rock on the shore about Big Bay.

Mr. Bergan carried a section of life preserver covering he had cut from one of the preservers cast upon the beach. It bore the Waldo's name. The preserver, Mr. Bergan said, was apparently stuffed with seaweed. There wasn't a semblance of cork in the material with which it was filled and Mr. Bergan was surprised that it kept afloat long enough to reach the shore.

"I have been thirteen years at the Big Bay light and the storm exceeded in intensity any I had ever before witnessed there. It is also unusual for a storm to be so prolonged. I question whether the entire winter to come will see as severe a blow."

Damage Repaired.

The damage to the South Shore tracks east of the city has been repaired and yesterday the trains were handled over the company's own track.

An inspection of the trestle at the Carp furnace yesterday gave some idea of the force of the storm. This trestle was filled during the past summer with sand taken from the site of the new round house. During the early fall the South Shore hauled hundreds of cars of waste mine rock to the trestle and dumped it on the lake side of the sand embankment, until it had been heavily covered with this material.

When the work was finished it was believed that the fill had been made secure against any storm that was likely to occur. The blow over the weekend, however, made short work of about half of the fill. The water found its way between the rock and the sand washed out. This access continued for the better part of three days, and the fill was about half washed out. The rock that was used to cover the sea face of the fill now lies in a pile on the beach.

As the trestle is sound there will be no necessity of undertaking any filling at this point during the winter, but a lot of expensive work has gone for nothing.

WAS WELL GARBED.

Frank Geneve Had on Three Suits of Clothes and Two Sweaters.

Three suits of clothes, two sweaters, a heavy cap over a stocking cap, two pairs of gloves and a pair of mittens, two pairs of socks, and a pair of heavy shoes was the way Frank Geneve was clothed Monday afternoon when he was discovered in J. H. Primeau's cottage at Lakewood.

Geneve spent Monday night and last night in the county jail, and will be arraigned before Justice of the Peace Byrne this morning. It is expected he will be bound over to the next term of circuit court.

Alfred Primeau went to the camp Monday afternoon to see what damage the storm had done, and to close up the house for the winter. When he approached the building he noticed that one of the rear windows was broken in. He quietly opened the front door of the cottage, and discovered Geneve appropriating all the articles of wearing apparel he could find, he says. Geneve was facing the door when Mr. Primeau walked in, but was so surprised he did not move.

A revolver and box of shells was lying on the table. Mr. Primeau picked the gun up, loaded it, and then commanded Geneve to "march." Geneve marched. Mr. Primeau took him to Marquette and turned him over to the sheriff.

BALMY FLORIDA, THE GULF COAST AND CUBA. SOUTHLAND INVITES YOU THIS WINTER.

You can escape the inclemencies of the Northern Winters in a mild climate amid waving palms, blue skies, and balmy breezes from the Gulf. We will be pleased to help you plan your trip; quote you attractive round-trip fares in effect daily until April 30th. Return limit June 1st, 1914. Splendid train service to Chicago, connecting with fast trains of all lines South. Apply to any ticket agent, D. S. S. & A. R'y., or C. E. Webb, general agent, Houghton, phone 269.

LANPHER
Fur Lined Overcoats and Fur Caps

A fur lined overcoat is one of life's luxuries, and a necessity as well for the physician, motorist, or any man that is out of doors a great deal during extreme cold weather.

We are showing some beautiful fur lined coats in all sizes, priced at

\$45 TO \$125
Fur Caps

Persian Lamb and Beaver priced at

\$5 TO \$25
Cheaper Furs and Fur Lined Caps, priced at

50c TO \$5.00

No matter what the price may be, however, every coat is generously cut and well lined with dependable furs that will in all probability outlast the buyer.

No furs that will not wear are used in our overcoats, nor are there any linings made up of small pieces; only whole skins have been used.

The shells are beautifully and artistically tailored. and—
we are always ready and pleased to show you.

STATE ENGINEER HERE.

E. D. Rich Yesterday Inspected Work of Charles Cummings.

E. D. Rich, state sanitary engineer, was in the city yesterday and conferred with Mayor Fassender and City Engineer Cummings on the methods of making the sanitary maps required by the state board of health. He approved the system of maps started by Mr. Cummings five years ago as satisfactory and sufficient, if extended and posted up to date.

These maps, so far as they have been carried, consist of a set of city block plans, one hundred and five in number, at present, on a scale of thirty feet to the inch. They show water mains and sewers on two sides of each block and are drawn on sheets eighteen by thirty inches in size.

Besides these, to show the water and sewer systems as a whole, Mr. Rich requests a complete city map, such as Mr. Cummings has had for some time well advanced toward completion. This the city already has a long start on the

Bank By Mail If You Wish

You need not always come to town to transact your business with us. If you have a check on this or any other bank in this vicinity, endorse it on the back, place it in an envelope and address to this bank. The mail will bring it to us and we will credit your account and mail you a receipt. We want your banking business—and we want to make it easy for you to transact it, in fact, we want to make ourselves useful to you in anything pertaining to finance.

work of meeting the requirements of the state board.

Mr. Rich was on his way to Negaunee to advise with the officials of that city in the matter of water supply.

BOAT LOST HATCHES.
Storm Damaged Ore Carrier Peter White on Soo-Marquette Trip.

The ore-carrying steamer Peter White reached Marquette yesterday morning, after weathering Sunday's storm. It required more than forty hours to make the trip from the Soo, because of the heavy sea. Five hatches were torn off. The steamer Leonard B. Miller also arrived yesterday; it was not damaged. The Peter White is making repairs. It will take out ore for Ashtabula. The Miller and the Denmark, which has been in port for several days, are looked for Buffalo with ore cargoes. The Chortaw, which has been unloading coal, goes to Cleveland from here.

The steamer Winona, which was run on the sand at the Presque Isle dock Sunday because of the heavy gale, left port yesterday. The boat was not high on the sand, and it was necessary to keep the propeller going to hold it there. The water in the hull was pumped out after the boat had departed.

SOO CANAL PASSAGES.
Sault Ste. Marie, Mich., Nov. 11.—(Special.)—The following boats, up-bound, have passed the canal the past twenty-four hours: Gary, 11 last night; Elba, 6:30 this morning; Duluth, 7; Maunaloa, 8; Farrell, 8:30; Schoonmaker, 10; Assiniboia, Scottish Hero, 11; Phipps, Meaford, Brower, 12:30 this morning; Tiouesta, 1:30; Peter Reiss, 3; Murphy, Gratwick, 4; Colonel, 5:30; Merida, Charles Warner, 6; Holmes, 7.

CONSTIPATED, BILIOUS, HEADACHY?
CASCARETS TONIGHT!—DIME A BOX

No odds had had your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish intestines—you always get the desired results with Cascarets.

They end the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach. They cleanse your liver and bowels of all the sour bile, foul gases and constipated matter which is producing the misery. A Cascaret tonight will straighten you out by morning—a 10-cent box keeps your head clear, stomach sweet, liver and bowels regular, and you feel cheerful and bulky for months.
