

GREAT MEETINGS IN COPPER COUNTRY MAKE DEMAND FOR VIGOROUS ACTION

15,000 People at Calumet and 8,000 at Houghton Censure Civil Authorities and Call for Expulsion of Labor Agitators.

WESTERN FEDERATION LEADERS RETALIATE WITH A RESORT TO THE INJUNCTION

Order Issued by Judge O'Brien Restrains Citizens' Alliance from Using Force or Violence to Compel President Moyer and His Associates to Leave the District--Three Deputy Sheriffs Are Shot, None Mortally, in a Melee With Strikers at the Quincy--Grand Jury to Investigate Lawlessness Will Be Drawn This Morning.

The citizens of the copper district of Michigan, comprising men from all walks of life, gathered together in public meetings at Houghton and Calumet, called by and under the auspices of the Citizens' Alliance, an organization whose aim is the preservation of order and the enforcement of law in this community, and desiring in the most emphatic manner to aid to that end with equal emphasis to insist upon the early termination of the existing reign of lawlessness, violence and crime, do now adopt the following statements and resolutions:

Whereas, the Western Federation of Miners, through its officers, organizers and hired agitators, whose well known past history in the Western states has been one of bloodshed, violence, arson, dynamiting and murder, has entered into this district and by lying, false promises, deceit and fraud has endeavored to induce the labor of this community to affiliate with that organization, for the sole purpose of securing control of our mining industry and of gathering a financial harvest in the way of dues and assessments at the expense of the laboring classes; and

Whereas, after deluding a small percentage of the employees of the mining industry into affiliation with that organization, the Western Federation of Miners, without cause and without grievance, on the 23rd day of July last called a general strike involving the entire mining industry of this district, but in which there has participated but a minority of the workmen, which strike, under the direction of officers, organizers and hired agitators of the federation, for four months has been carried on and continued by a reign of lawlessness, violence, intimidation, assaults, dynamiting and murder which is still continuing, and for all of which the federation is directly responsible; therefore be it

Resolved, as follows:

Trouble-Makers Must Go.

The Western Federation of Miners, because of its record in the past, and its present activities in this district, can have no place in this community. Its alien officers, its paid organizers and its hired agitators must go. All and each of them must be held to the fullest extent for criminal responsibility for all lawlessness and crimes which have resulted from their methods.

We commend and approve the determination of the mining companies that they will in no manner recognize or deal with the federation and that they will not re-employ any laborer or workman who chooses to continue with that organization; and as a community we insist upon the carrying out of that determination to the fullest extent.

The justice courts, with a few exceptions, have encouraged lawlessness by inadequate punishment and inadequate bail. The situation demands of them, and the community demands, that in the interest of the preservation of order all convicted offenders shall be promptly and speedily punished to the full extent of the law.

County Prosecutors Scored.

The prosecuting attorney of Keweenaw county has shown absolute neglect of duty and entire incompetence. We commend and approve the reported action of the governor and attorney general in supplanting him by the appointment of an assistant attorney general to take charge of all prosecutions in that county and demand therein the prompt and vigorous prosecution of all offenders and the fullest enforcement of the law.

GUERRILLA WAR AT SOUTH RANGE.

Houghton, Mich., Thursday, Dec. 11.—[Special.]—Twelve men are in jail, and more arrests will be made this morning, as the result of a general guerrilla warfare in South Range late last night and early this morning. People of the village notified the sheriff's office at 11:30 o'clock last night that gangs of men were parading the streets, shooting in every direction, in total disregard of the possible consequences. No one was injured, nor was any damage done to property, so far as could be learned early this morning.

An automobile load of deputy sheriffs and a special train over the Copper Range railroad carrying forty Citizens' Alliance deputies were at once despatched to South Range. Twenty of the Alliance men were sent on to Palmsdale when reports were received from that place telling of disorders.

When the officers arrived at South Range, the rioters, disarmed, many of them, it is believed, taking refuge in the hall used for the meetings of the Western Federation of Miners men. A cordon of deputies was thrown around the place, and no one was permitted to leave or enter the building. Several shots were exchanged between those inside and the deputies. Today a search warrant was applied for and the hall searched. Those in it at the time will be placed under arrest.

Guns of every description were taken from the twelve men arrested this morning, and 240 rounds of ammunition were confiscated by the officers. One of the most interesting weapons was a rifle. John Vallamaki, said to be an organizer for the Western Federation of Miners, was one of those arrested.

At an early hour this morning the situation was threatening. Disorders of a nature similar to those at South Range were reported from the surrounding towns.

Censure Given Circuit Judge.

As a community we have the most profound respect for its circuit courts. We desire to retain and maintain that respect. But we insist upon our right as citizens to express our righteous indignation whenever the court fails in its highest functions as a protector of the public welfare and the chief conservator of the public peace. We believe that under the conditions now existing the court has so failed and that the suspension of sentence upon convicted offenders, the leniency towards other convicted offenders and the failure of the court adequately to insist by the punishment after conviction upon the strictest observance of its orders and the orders of the supreme court have endangered on the part of the community a loss of confidence in the efficacy of the court in the performance of its constitutional duties

and on the part of the lawless element of the district and on the part of the offenders themselves a disrespect for the court and a disrespect for law which has encouraged and precipitated lawlessness and crime. With respect, we insist that it is the function and the duty of the court now to take such action as will effectually, emphatically and in no uncertain manner convince the community that law and order must be preserved, that crime will be punished and that under existing conditions such punishment will be to the fullest extent of the law.

This community insists upon demands in the most emphatic manner the immediate restoration of law and order. It demands that the criminal activities of the Western Federation of Miners shall be made to cease. It demands that the workmen shall be permitted to live and labor in peace; that they and their wives and children may reside in this community in safety without fear of the midnight assassin. It demands the prompt arrest and speedy prosecution, conviction and adequate punishment of all offenders. It demands the removal or imprisonment of every officer, agitator and hireling of the Western Federation of Miners whose criminal conspiracies and plotting have wilfully and directly imposed upon this district a reign of lawlessness and crime that is a disgrace to the community and to the state. And the accomplishment of these things we now demand of the officers of the law and of the courts, to whom this entire community offers its strongest support and backing.

State Authorities Commended.

And be it further resolved: That this community, through its citizens here assembled, desires to express its sincere and grateful appreciation and approval of the action of its excellency, Woodbridge N. Ferris, governor of this state, in so promptly responding to the request for the protection of the Michigan National Guard at the time of its need, and to commend in the highest terms his attitude and actions throughout with respect to the conditions which have afflicted this district.

We further desire to commend the Michigan National Guard, its commanding officers and all of the officers and men and each of them individually for the efficiency and wisdom with which they met and coped with the situation, and for the firm and impartial manner in which they have endeavored to enforce and maintain law and order in this district. And in view of the malicious and unwarranted and absolutely false attacks made upon them, we desire to testify from personal observation and association to the excellent behavior of the entire body while in this territory.

And, finally, be it further and again resolved: That it is the unalterable determination of this community, backed by its entire citizenship, that the Western Federation of Miners shall not continue as an element in this district; that it must be wholly and finally eliminated; that its alien officers, agitators and organizers must go and to the accomplishment of these ends by lawful means we pledge our individual and combined efforts and support.

Federation Resorts to Injunction.

Upon the application of Attorneys A. W. Kerr, Legendre & Driscoll and E. A. McNally, representing the Western Federation of Miners, Circuit Judge O'Brien this afternoon issued to Charles H. Moyer, president of the federation, and others, an injunction enjoining the Citizens' Alliance, including the committee composed of John H. Rice, Ferdinand Petermann, John W. Black, H. S. Goodell, F. K. Guck, F. J. Bawlen, Michael Mosser, Jr., J. P. Petermann, Samuel Eddy and John Mandersfield, and others affiliated or in sympathy therewith, from compelling by force or violence the complainants to leave this district, claiming

PROHIBITION THE CURE FOR LABOR DISORDERS, ACCORDING TO BORA.

Washington, Dec. 10.—"Nationwide prohibition is bound to come, but just when I cannot tell," declared Senator Bora, of Idaho, in an address at a mass meeting here tonight to further the campaign for a constitutional amendment for national prohibition. Senator Bora urged his hearers to keep up the fight and said he would lend his support. He predicted that labor troubles would continue until prohibition was an accomplished fact.

EX-SENATOR PATTERSON OF COLORADO IS BONDSMAN FOR ACCUSED MINE WORKERS

Denver, Colo., Dec. 10.—Frank J. Hayes, international vice president of the United Mine Workers of America, and John H. Lawson, a member of the executive body, indicted by a federal grand jury at Pueblo last week, were bonded by \$3,000 each before a United States commissioner here today. The bonds were signed by former Senator Patterson. Lawson is charged with conspiracy in restraint of trade and Hayes with the same offense and with conspiracy to create a labor monopoly.

NO MORE STORM SIGNALS.

Chicago, Dec. 10.—Today was the last day for the display of storm signals on the Great Lakes, until the opening of navigation next spring.

PLAN NEW WRINKLE IN WAR WITH LOPEZ

Sheriffs Now to Guard Water Sources and Shoot Man as He Tries to Drink.

Bingham, Utah, Dec. 10.—Losing faith in their ability to starve him out quickly, and having failed to smoke him out, the sheriff's office here today planned a new wrinkle in the fight with the Lozopez, slayer of six men, decided to attempt to cut off his water supply in the Utah-Apex mine. The sheriff is convinced that there are only two places in the mine where water can be obtained. They intend to string wires through the tunnels and illuminate these places with searchlights, leaving guards in the darkness to prevent his approach to drink.

VIVISECTION CONDEMNED BY A BRITISH SURGEON IN WASHINGTON ADDRESS.

Washington, Dec. 10.—Vivisection of dumb animals was denounced as wrong and misleading today by Dr. Richard Cowen, of the Royal College of Surgeons, London, before the International Anti-Vivisection and Animal Protection congress. "This mutilation and torture," Dr. Cowen said, "has led many earnest men along the road of research. For more than a quarter of a century I have performed some thousands of operations, yet I cannot recall a single instance in which I owed anything to published reports of vivisection experiments. It is a terrible mistake to think that, as in the case of man, it is the same in the case of animals." Dr. Cowen declared that in an effort to find the cause of cancer, 145,000 animals have been tortured by a cancer research society in the last two years, with no resulting discovery.

RELATIVES FIGHT FOR BODY OF MAN

Widow at Chicago Wins Temporarily When She Replevins Husband's Corpse.

Chicago, Dec. 10.—A controversy among relatives for the body of Herbert Fiedler was won today by the widow, who obtained possession of a writ of replevin, only after a fight which was quelled by the police. Fiedler died Tuesday morning on a street car, of heart disease. After the inquest yesterday, his body was removed from an undertaking establishment to the home of Mrs. Elizabeth Gull, a sister of the dead man. Mrs. Fiedler refused admittance there. She appeared in court this morning and, after charging that the body had been kidnaped from the undertaker's, a writ of replevin was issued.

Huerta Asks High Authority.

Mexico City, Dec. 10.—President Huerta has asked congress again to vest him with full executive powers to conduct the affairs of the departments of war, finance and the interior. A bill to this effect was introduced in the chamber today. While the country was without a congress, other than that imprisoned in jail, President Huerta took to himself the arbitrary direction of the three departments.

PEACE MOVE IS INSTITUTED IN CITY OF MEXICO

Conservative Element Proposes That Carranza Be Asked to Cease Fighting and Be a Candidate for the Presidency—Plan Is Laid Before Huerta.

As Showing the Privations of the People, Young Women Parade With Banners Demanding Work—Rebels Attack Tampico—Federal Troop Train Is Dynamited.

BULLETIN.

Mexico City, Dec. 10.—Only the most meagre information regarding the fighting at Tampico is obtainable here. According to a dispatch, the town was attacked at 11 o'clock this morning, and at 5 o'clock this afternoon hard fighting was in progress.

Vera Cruz, Dec. 10.—Up to a late hour tonight no details of the attack on Tampico had been received, and it was considered probable that the rebel advance on the city was in the nature of a feint.

Mexico City, Dec. 10.—Tentative efforts were made today by the conservative element in the Mexican government to induce Provisional President Huerta to ascertain if General Venustiano Carranza would be willing to cease fighting for the purpose of holding an election at which the Constitutional leader would be a candidate for the presidency of the republic or would name his choice for that office. It is assumed in political circles here that General Carranza would have an opportunity in the presidential race candidates from the capital named by the Catholics and other political parties.

Idle Factory Workers Parade.

A parade of two hundred young women in the capital today reflected the impoverished condition to which many of the smaller towns have been reduced. They were seamstresses thrown out of employment by the closing of factories where the exclusive output consisted of soldiers' uniforms. These same women appealed to President Huerta a few days ago. They went to the palace again today and again the president refused to see them. Afterward they marched through the principal streets, displaying banners on which was inscribed: "We All Want Work." The parade was made up of many of these women are in the army service and the women are dependent on their own resources.

Carranza's Men Attack Tampico.

Vera Cruz, Dec. 10.—The attack on Tampico by the Constitutional forces began shortly before noon today. The rebels at that time were advancing on the city from various points. The United States battleship Louisiana has been ordered to Tampico and is leaving Vera Cruz tonight.

Mexico City, Dec. 10.—The American charge d'affaires, Nelson O'Shaughnessy, recently notified Washington that the property of foreign residents in the state of Sinaloa was in imminent danger of confiscation by the federal authorities as a war measure. The charge has received instructions to investigate the constitutional validity of the act and, if he finds that it is not supported by law, to register a protest with the Mexican government.

Mercado's Army Tired of War.

Presidio, Tex., Dec. 10.—Whether the remainder of the Mexican federal army under General Mercado, numbering four thousand soldiers, driven to bay on the United States border, will make a last stand at Ojinaga against the rebels advancing to that post, or whether the federalists will continue their retreat into the state of Nuevo Leon, became today the most critical question in the revolutionary movement in northern Mexico. That the rank of the federalists looks upon the prospects of any more fighting with disfavor was manifest to observers on the opposite side of the river. A score of soldiers saluted the American cavalrymen on border patrol and wistfully inquired whether they might cross the river. When told they might not, they yelled in Spanish they certainly would desert if attacked by the rebels.

Wealthy Rebel Is Made Captive.

Mexico City, Dec. 10.—Vicente Segura, a reputed millionaire, who shocked Segura society by becoming a bull fighter, has been captured at the head of a rebel band in his native state of Hidalgo. Segura abandoned bull fighting during the Madero regime for the more exciting game of rebel chief, and since then has invested part of his fortune in guns and ammunition.

Revived Interest at Washington.

NO DIVIDENDS AT THIS TIME BY THE NEW HAVEN

Big Eastern Road's Forty-Year Record of Continuous Disbursements of Profits to Owners of Its Shares Is Broken—Directorate Suspends the Usual Payments.

While Discounted in Stock Market, the Action Taken Will Be a Shock to Many Investors—It Dictated by the Depression in Business and Raises in Wages.

New York, Dec. 10.—After an unbroken record of forty years as a dividend payer, the New York, New Haven & Hartford Railroad company has finally been forced to the necessity of suspending further disbursements on its \$157,000,000 of stock.

This decision was reached late today, after a protracted meeting of the directors. The action of the board, while partly foreshadowed by the recent acute weakness of the stock, will come as a shock to thousands of investors. It is estimated that not less than \$40,000,000 of New Haven stocks and bonds, as well as securities of affiliated companies, are held by savings banks and other financial institutions, as well as in estates.

Chairman Elliott's Statement.

The formal statement of Chairman Howard Elliott, which gives the conclusions of the board, says, in part: "The New Haven is a strong company, owning valuable property, real estate and securities worth many millions of dollars. Some of this real estate and the property represented by the securities, as well as securities themselves, can in time be marketed and thus strengthen the cash resources of the company. It is very difficult to sell property and securities at this time, and the directors believe it is unwise to attempt to do so until general conditions are better. "The directors feel that the welfare of the company and of its stockholders and of the territory served by the various lines will be conserved better under all the conditions now confronting the company by not declaring at this time a dividend."

The statement points to the slowing down in business and the increases in wages as among the reasons for today's action.

Roads Hit by High Cost of Living.

Washington, Dec. 10.—The decrease in the purchasing power of a dollar has affected the American railroad as seriously as it has the American citizen, according to statements made today before the interstate commerce commission at a hearing on the proposed five per cent. advance in freight rates by railroads in the Eastern classification territory. It was pointed out by Charles A. Conant, of New York, that while the average receipts of the railroads per ton-mile had declined five and five-tenths per cent. during the last ten years, the cost of commodities had increased seven and six-tenths per cent. He figured that the purchasing power of each dollar of freight revenue received by the railroads now is only eighty and three-tenths per cent. of what it was a decade ago.

Statistics were submitted to show that for twenty-nine or the thirty-eight railway systems, parties to the proceeding, the increase in wages alone, for 1913 over 1912, amounted to more than \$45,000,000.

An adjournment without definite date was taken.

CHICAGO POSTOFFICE CLERKS NOW USING ROLLER SKATES

Chicago, Dec. 10.—Roller skates were brought into use in the postoffice here today to accelerate the movements of clerks in the checking room. Eight clerks donned the rollers, and more will be equipped if the innovation proves valuable. The skaters have a stretch of concrete in the basement a block long to cover.

BLACKSMITH TO SING ROLE IN THE MAGIC FLUTE OPERA

Cassel, Germany, Dec. 10.—Franz Baclmann, a blacksmith, who still works at his forge here, has been chosen to fill the leading bass role in "The Magic Flute," to be given at the court opera house on Dec. 16.

NATIONAL CAPITAL HAS DARK MYSTERY

Famous Bed of Mint in the Grounds at the White House Strangely Disappears.

Washington, Dec. 10.—What has become of the historic White House mint bed? No one seems to know, nor who gave the order that led to its disappearance. Andrew Jackson is said to have planted the bed, and no president since that time has touched it, except to pull the richly flavored twigs and leaves from the branches of the plants. During all the changes in the White House buildings and grounds, it had survived. But the place where the bed grew is covered with fresh earth, and there is not a twig or a sprig, or apparently a root of it in existence.

ELLA FLAGG YOUNG IS NOT RE-ELECTED

Chicago School Board Not United in Her Favor, She Withdraws as Candidate.

Chicago, Dec. 10.—Mrs. Ella Flagg Young, for the last four years superintendent of the Chicago schools, failed to be re-elected by the board of education today. John D. Shoop, who has been assistant superintendent, was chosen in her place.

Board Officials Resign.

Peter Reinberg, president of the board of education, at once announced his resignation as president, and Dean Walker Summer resigned as chairman of the school management committee. Both announced that the failure to reelect Mrs. Young showed a lack of confidence in the board's affairs.

Mrs. Young is declared, has not been in harmony with some members of the board since she offered to resign several months ago. At that time Mayor Harrison declined to accept the resignation, and many citizens interested themselves to persuade Mrs. Young to remain in office. It was reported that the offer of her resignation had been the result of a member of the board attempting to influence the board in the matter of adopting a certain spelling book to be used in the schools.

Mrs. Young said that she could not remain in office. It was reported that part of the board in sympathy with her work. The position of superintendent pays \$10,000 a year.

HONESTLY WON FORTUNE POSSIBLE, SAYS BRYAN

Commoner Concedes a Man Really Can Earn \$1,000,000 in a Lifetime.

New York, Dec. 10.—Secretary of State William J. Bryan, speaking here today before the clerical conference of the New York Federation of Churches on the subject of "fundamentals," declared it to be his belief that "it is possible for a man really to earn \$300,000 a year for a lifetime of thirty-three and one-third working years, or a million dollars a year." Secretary Bryan made this declaration in discussing man's relations to the society about him, which, he said, was one of the three things fundamental in human life. The other fundamentals he mentioned were one's relation to the government under which he lives, and to his God.

"How much can a man honestly collect from society? Only a sum that barely measures the services he renders to society. And an honest man will not desire to collect more than he honestly earns," said Mr. Bryan.

TO TUNNEL OR TO BRIDGE THE HUDSON IS QUESTION.

New York, Dec. 10.—Whether to dig a tunnel beneath the Hudson or build a bridge over it, was the subject today of divided opinion at a hearing of the joint commission of New York and New Jersey assemblymen appointed to consider the question. Testimony given was that a bridge would cost approximately \$42,000,000 and a tunnel \$11,000,000. A But the place where the bed grew is covered with fresh earth, and there is not a twig or a sprig, or apparently a root of it in existence.

Revived Interest at Washington.

Washington, Dec. 10.—Reports from Mexico City that efforts were being made by an element in the provisional government to induce General Huerta to negotiate an armistice with General Car-

A WRONG IDEA

Thousands of men are being called for all over the north this year. Lumber companies are seeking for more help...

In view of the fact that there are more men than jobs in the Lake Superior district it is unfortunate that any such roseate reports of labor conditions should be given...

THE PATRONAGE QUESTION

In commenting on the activities of job hunters, as the day approaches when Mayor-elect Mitchell will assume office in New York, the Globe expresses what is now a rather extreme view of the patronage question...

MR. MARTINDALE'S DANGER

Frederick C. Martindale, secretary of state, is in danger of progressing clear out of the Republican party before he will be able to trot off with his nomination for governor...

GETTING HIGHER UP

The inquiry being conducted by District Attorney Whitman as a result of the disclosures of John M. Hennessy in the course of the New York mayoralty campaign give promise of getting some of the men higher up.

GETTING HIGHER UP

The inquiry being conducted by District Attorney Whitman as a result of the disclosures of John M. Hennessy in the course of the New York mayoralty campaign give promise of getting some of the men higher up.

Mr. Murphy started more things than he had any idea of when he took the trail of Sulzer. Many persons marvelled that a man so vulnerable as Sulzer should have had the effrontery to "mix" it with Murphy.

No one can ever tell where an inquiry of the nature of the one now in progress in New York will end.

TIME FOR TRIFLING PAST

The report of Dr. Robbins on conditions at Big Bay indicates that it is high time for intervention there by the state board of health, so that the outside public can have some assurance that the town will not be the source of a general contagion of a dangerous and loathsome disease.

Dr. Robbins asserts that there are many evidences of laxness on the part of the supervisor, J. R. Deutch, and the health officer, Dr. Webster, in dealing with the conditions created by the disease. The bare facts of the situation makes this laxness plain.

Just how the local authorities failed and why they failed are matters of comparatively remote interest here, compared with the fact that they have failed and that Big Bay thus may be the means of giving smallpox a new foothold in Marquette and in other neighboring towns.

There has been too much temporizing with the Big Bay situation. Dr. Robbins several days ago visited the place and enjoined on the officials the necessity of aggressive measures to stamp out the disease. When he went to the town again this week he found conditions worse than they were on his first visit.

The Big Bay officials should be checked up again in a few days, and if they have not acted effectively an immediate and emphatic appeal for the intervention of the state board of health should be made, even if it results in an absolute embargo on travel in and out of the town.

According to General Manager Howe, in charge of the Armour business at Ontonagon, if the consumer who buys beef ribs and loins is paying as much as he did for them a year ago, the retailer is holding out a division of a considerable reduction made by the packers.

Secretary of State Martindale says he will manage his own campaign. Why not? He ought to know as much about a campaign as the next man. He has been in the game long enough.

Secretary of State Martindale says he will manage his own campaign. Why not? He ought to know as much about a campaign as the next man. He has been in the game long enough.

EDITORIAL OPINION

Regulating the Universe

Michigan Farmers' clubs apparently believe that the value of their convention resolutions is in proportion to the number of recommendations passed along all lines of human endeavor.

Premature

A well-known business man who lives in the suburbs and usually goes home by the 5:30 train, met a friend the other day, and was persuaded to remain in town for the evening and attend a smoker. He was at a loss for a moment how to square himself with his wife, but finally, going to the telephone office, he wired:

Followed Instructions

The conversation turned to kiddies and their instruction the other afternoon when Congressman Henry G. Dupre, of Louisiana, recalled the experience of little Gladys.

"Little Gladys was going to call on an acquaintance one day, and before starting out her mother gave her the usual instruction as to what to say and do. 'If they ask you to dine,' Gladys' said mother, among other things, 'you must politely decline. Just say, 'No, thank you, I have dined.'"

might be put out for and against the measure, under more favorable circumstances, would have been merely for consumption back home.

Mr. Taft's Scruples. Ex-President Taft told an audience at Cincinnati the other day that the reason for his removal from that city and from the great practice of law he might have expected was due to the fact that he had scruples against appearing as an advocate before judges whom he had himself placed upon the bench.

Daniels on Voting. Secretary of the Navy Daniels is one of the most conspicuous advocates of compulsory voting. He urges that the demand for the service of its citizens at the polls which it has to require their assistance in the army in time of need, and he says that the conditions existing justify this novel form of coercion of the individual by the state.

It is an interesting question concerning which strong men differ. Good arguments can be made on both sides. But in the mouth of Mr. Josephus Daniels pleas for the enforced exercise of the right of suffrage have a peculiarly amusing flavor.

For the secretary of the navy is the editor of a stunch Democratic paper in North Carolina. He stands for the dominant element in the South which absolutely refuses to tolerate the participation of a large element of the population in the suffrage, the United States constitution to the contrary notwithstanding.

It appears never to have entered the mind of the North Carolina editor that to force everyone to vote would upset what arrangements he has made with the government in many cases.

LOWER STATE NOTES

FLINT—Superintendent of the Michigan School for the Deaf Luther Wright, former state superintendent of public instruction, made his first public speech in the sign language at a banquet to Willis Hubbard, oldest teacher in the school, who has just completed his fiftieth year of service.

BAY CITY—The Northeastern Michigan Fair associated after a stormy session re-elected its old officers, headed by George Harting, with the understanding that they will resign as soon as financial difficulties are straightened out. In view of the grand jury criticism, strong objection was raised to the present officers. The fair went in debt \$20,000 this year.

LANSING—A letter came to the governor's office from a little girl in the upper peninsula in which the child said she understood Governor Ferris knew where Santa Claus was and she made her appeal to him. She said she had a broken doll which she was very anxious to have replaced by a new one Christmas, and for fear Santa Claus would miss her she wrote Governor Ferris.

ANN ARBOR—Percy has arrived at the university of Michigan, where it is his duty to enter the university for "listening course," with the work given principally in the museum. Percy came on the university auto truck, for Percy is no fairy. In fact, there was once so much of Percy that he would have made a huge lump of fat, but he is all that remains. Percy is the fossil of a hippopotamus and its coming has been awaited with considerable anxiety. It will be mounted at once.

KALAMAZOO—The third meeting of the Michigan State Tax conference will be held in Kalamazoo, January 15 and 16. Any person in good standing in his community may become a member of the conference and all who are interested in taxation problems are invited to make application. At the meeting in Kalamazoo a discussion of the subject of taxation will be held. Mayors of all the cities of Michigan, members of the county boards of supervisors and delegates from all commercial organizations of the state have been invited.

ANN ARBOR—Fraternal and independent interested in the J. hop, which was abolished by the university senate last spring, presented a petition to the senate council asking that the hop be reinstated as a university function. The petition was referred to the senate, which will meet Monday night. When the hop was abolished the senate declared that it should stay abolished until the students could satisfy everybody concerned that certain abuses would be remedied. The abuses complained of were the lavish expenditure entailed, the suggestive character of the music and dancing at the last hop, and the rowdiness that these features had incited in students "on the outside."

PONTIAC—It is proposed as a federal secret service officer just as a bluff to get some information I wanted concerning the affairs of the Prairie Land company of New York, said "Detective" Jack Middleton, who is in jail here on a charge of getting money under false pretense, preferred by Marshall Hayes. "I have been taken for the money except to be used as an investigating fund in behalf of Pontiac stockholders in the deal," Middleton was arrested on the strength of the story told by his "employers," who said he had accepted \$100 to investigate the concern, which owned several sections of land in northwest Canada. "My home is in Lincolnshire, England," said the prisoner, "but I have a home in Glencoe, Ont." The sheriff has written to Glencoe

to get more information concerning Middleton. He will be held here unless federal officers demand him.

LANSING—I have been in the service so long that I have been in the army instead of on the bench I would long ago have been retired on three-fourths pay," declared Chief Justice Steere in remarking upon the automatic change to take place on the supreme bench January 1, when Justice McAlvay will succeed him as chief justice. Justice McAlvay will have only one year to serve, as his term expires January 1, 1915.

PONTIAC—Jackson prison is not nearly so bad a place as I expected," said Ralph Jossman, convicted defaulting cashier of the Jossman bank at Clarkston, who is here to testify in the Clyde Morry hearing. Morrison is accused of fraudulent entries in the books of the bank while in its employ in 1908 as assistant cashier. "I am a teacher in the prison school," said Jossman, "and I find the work pleasant. I have twenty-one pupils, the seventh and eighth grades, teaching them geography, history, civics, government, grammar and arithmetic. During the day I work at weaving chair bottoms, but I have not yet grown expert enough to earn any money." Jossman has lost more than twenty pounds in weight since he entered the prison two weeks ago.

ANN ARBOR—Two young men who participated in the student riot that followed the Pennsylvanian game November 15, were fined \$25 and costs, and the cases against two others were dismissed before Circuit Judge Kime. The two fined, John Caraway, of Detroit, and Daniel Newton, of Salamanca, N. Y., had changed their pleas, to guilty. The other two, John Green, of Saginaw, and Irwin Oleson, of Chicago, were dismissed upon the recommendation of Chief of Police Kinney. Mayor Mackenzie also appealed in open court for leniency. Prosecuting Attorney George Burke told the court that personally he felt that everyone of the four should stand trial or plead guilty. "Generous allowance should be made for the exuberance of youth in any celebration following a victory such as that day brought," said the court, "but when the rights of property are disregarded, the authorities of the city, and the fundamental laws of the state are set at defiance, and human life is imperiled, it is high time for government action. The people of this state do not intend to pay taxes to educate desperadoes. Neither has the university any use for such humanity."

UPPER PENINSULA

Sues for Injuries to Son

Formal notice of the intent of Chester Schram, guardian for his son Lester, to bring suit against the city for damages amounting to \$2,000, because of injuries suffered by the boy when he fell into what is claimed to have been an unguarded trench near the Washington school, has been given at Escanaba. Mr. Schram first filed his claim with the council and that body refused to make any settlement whatever, upon the advice of City Attorney H. J. Rushton. According to action taken by the council, it will probably come up for hearing at the January court term.

Met Death in the West

There has been received word of the death in a railway accident at Clancy, Mont., of Edward Cooney, son of J. B. Cooney and wife, late Escanaba six weeks ago for the West. The mother of the young man is critically ill at the home of the family and the news of the demise of her son has been withheld from her. According to meager details of the accident received, Cooney was employed as a brakeman on the Great Northern road and in a wreck that occurred a short distance from Helena he received injuries that resulted in his death while he was being taken to a hospital. Walter Cooney, a brother, who resides at Portland, Ore., had arrived in Helena a few days before the accident to visit with his brother and was in that city when the accident occurred. Len Cooney, another brother whose home is at Portland, was notified after the accident and left at once for Helena to join his brother and accompany the body to Escanaba. Cooney was twenty-six years of age and single. He spent practically all of his life in this district and for a number of years was employed as a brakeman for the Northwestern road.

Soo Theater Men Yield

Managers Barrett & Walker of the Soo theater have announced that Sunday performances there will be discontinued. This action was taken after the matter had been presented to them by members of the police commission. The request to close was promptly obeyed. Commissioner Schoeneman stated that the Sunday opening had not been referred to the city police department until this week, but that as soon as it was found that there were objections to the picture shows being opened on Sundays he conferred with the managers and found that there were perfectly willing to discontinue. During the time the Soo theaters had operated on Sunday the proceeds were donated for charitable purposes and many needy people were helped. The theatrical managers did not derive much benefit from the extra day's business. The first Sunday performance precipitated a fight with the sheriff's department, and an unsuccessful effort was made to close the shows. A civil suit was brought against the stock company controlling the Star theater and dismissed, and later two of the performers from that theater were tried in justice court and assessed small fines. The voluntary agreement to close the theater will probably end the fight conducted by the county officials.

School Board Members Overpaid

Accused of having drawn pay for more school meetings than the state law allows, eight Powers residents find themselves in an uncomfortable situation. E. T. Cameron, auditor of the state department of public instruction, visited the Menominee county town and audited the books of the school board. Then he called attention to the following law: "It shall be illegal for any member of the district board to perform any labor, except as provided in this act, or furnish any material or supplies for the school district in which he is an officer, and he shall not be personally interested in any way whatever, directly or indirectly, in any contract with the district in which he holds office. Any act herein prohibited, if performed by any such school officer, shall be deemed a misdemeanor, and he shall be liable to the punishment provided for such offense in accordance with the statute in such case made and pro-

Classified Want Directory

FOR SALE—Entire stock of groceries, scales, cash registers, wagons, sleighs, harnesses, to be sold at private sale. Bids on all or part of same by telephone. H. H. McMillan, trustee. Estate of John W. Dewey, bankrupt. Marquette, Mich. 12-10-13.

MILLE MINE LEASE AND EQUIPMENT FOR SALE AT AUCTION.

ON DEC. 20TH, 1913, AT 11 O'CLOCK A. M., AT THE MINE OFFICE ON THE PROPERTY, IRON MOUNTAIN, MICHIGAN.

This valuable property, comprising 99 acres of ore bearing lands is bounded on the north by the Clinton mine, and on the east by the Walpole mine. These important and well known mines have developed large bodies of hematite and non-ferrous ore. Up to their boundaries with the Millie, and recent reports estimate that large quantities of these ores can be mined on the Millie from these leases within the life of the lease, which expires in 1919.

The mine is equipped with all working order. Royalties range from 10 to 25 cents per ton according to grade. Annual royalties amounting to over \$32,000 go with the sale. Responsible purchaser may distribute 75 per cent of payments semi-annually over three years. For particulars address S. J. MCGREGOR, Superintendent, the Dessau Mining Company, Iron Mountain, Mich. 12-4 to 12-18.

Munising Man Given Office

Governor Ferris has appointed James Tracy of Munising as assistant probation officer, under Edgar J. Swart of the Soo, for the Eleventh judicial district. Mr. Tracy is justice of the peace and had recently been appointed as Alger county probation officer by the probate judge. Under the act of the last legislature creating a uniform system of probation, the circuit judge of each district may recommend the probation of each county an assistant for the judicial circuit, the appointments to be made by the governor. In cities having a municipal court, a superior court, a recorder's court or a police court, the judges of such courts may each appoint a chief probation officer and an assistant. It is further provided that when a judicial circuit shall consist of more than one county, the court may appoint at least one assistant probation officer for each county. The compensation is left to the different county boards. The salaries and expenses of the officers are to be paid monthly by the city or county treasurers, where provision has been made for such pay. Probation officers are supposed to investigate the antecedents and character of every person under criminal charges and keep a record of all cases so investigated. They are also supposed to act as guardians for all prisoners released on probation.

Old Standpipe Not Needed

The question as to future use or disposition of the old brick standpipe on the hill near Fort Brady has been brought up at the Soo, with the result that Mayor Pro Tem Purvis has appointed a committee composed of Aldermen Armstrong, Connolly and Laphin to look into the matter and report at the next meeting of the council. Alderman Armstrong said his attention had been called to the fact that there was now no water in the standpipe and he wanted to know if this was neglect on the part of the water works department. He was informed that the reservoir had not been filled for many months, and had only been used of late years in cases of emergency. Further discussion revealed that the old standpipe is really of very little practical value, the city's water system, even as a reserve in case of an accident at the pumping station. Its capacity is sufficient only to supply a comparatively small district of the city, and then would not furnish the fire pressure maintained at the pumping station. It was argued that if filled for the purpose of reserve the water would soon become foul and contaminate the mains when used. Alderman Armstrong suggested that as the structure was of no value to the city, it be removed and the material sold to the highest bidder. The mayor pro tem appointed a committee of three to recommend to the council a disposal of the standpipe.

City Brevities

Today's weather: Fair. Yesterday's temperatures: Seven a. m., 29 degrees; noon, 32; 7 p. m., 29. Highest, 35 degrees; lowest, 29.

H. P. Bourke, of the Soo, was a Marquette business visitor yesterday.

Roy Ellis, of Gwinn, was a Marquette caller yesterday, visiting with friends.

Dr. and Mrs. W. H. Morse will leave Saturday for California, to spend a few months.

The Naval Reserves will meet this evening in their new hall in the Colonial building.

B. Taylor, of St. Ignace, left yesterday afternoon for his home after transacting business in Marquette.

Mrs. Chamberlain and daughter, Miss Iven, left yesterday afternoon for Ishpeming, to visit with relatives.

John Gill, Thomas Lucas, and W. H. Williams, of Ishpeming, were in the city yesterday, attending circuit court.

A special meeting of Superior five, K. O. T. M. M., will be held at Fraternity Hall tomorrow afternoon at 2 o'clock.

A son has been born to Mr. and Mrs. A. E. Dyer, of Hibbing, Minn. Mrs. Dyer was formerly Miss Helen B. Cray of this city.

Mrs. J. W. Weldon, Jr., of Toledo, arrived in the city yesterday afternoon for a visit with her parents, Mr. and Mrs. Robert Peters, Hewitt avenue.

Henry Lafave, who has been working in Negaunee for the past few months, returned to his home here yesterday and will leave shortly for North Milwaukee.

The Brotherhood of American Yeomen will hold its annual election of officers this evening in Keough's hall, followed by dancing. Refreshments will be served.

H. J. Paxton, of Detroit, sales manager of the Huron Portland Cement company, left yesterday afternoon for his home, having been here for the last few days on circuit court business.

Mr. and Mrs. Percy G. Teeple and daughter, Miss Helen and Miss Mary Love returned to Marquette yesterday afternoon from Pinckney, Mich., where they were called a week ago because of the death of Charles Love. They were accompanied by Mrs. Charles Love, who will reside in Marquette.

Soo Canal Passages—Four boats, up-bound, passed the Soo locks yesterday, as follows: Durston, 11:30 a. m.; Dun-see, A. E. Ames, 1:30 p. m., and Thomas Barlum, 8 p. m.

Private Kappa Party—Alpha Beta chapter of the Kappa Alpha Pi will give a private dancing party in Fraternity hall tomorrow evening. The presentation of invitations at the door will be requested.

Child Passes Away—Robert Peter, aged eighteen months, son of Charles John and Mrs. A. E. Ames, 410 West Michigan street, died Tuesday. Funeral services will be held from the residence at 2 o'clock this afternoon, with interment in Park cemetery. Rev. Mr. Wilkins, of the Swedish Methodist church, will officiate.

New Lockers Received—Several sections of steel lockers to be used by the Marquette division of the Naval Reserves have been received and are being installed in the new quarters in the Colonial building. Necessary changes are being made at the entrance of the second floor of the Colonial building in the opera house block. All of the walls have been replastered and refinished.

Will Decide Championship—The last of a series of class games between the classes of the Marquette High school will be played this afternoon at Fraternity hall, which will decide possession of the Peter White cup, which is held by the winning class for one year. The honor lies between the Senior and Sophomore teams. There will also be a game between the Junior and Freshman teams this afternoon.

Hearing Today—Captain Louis Setunsky, of the barge Plymouth, which was lost in the storm four weeks ago, and Captain Donald McKinnon, of the tug Martin, will be given a hearing today and tomorrow before United States Steamboat Inspectors York and Gooding, of this city, on the charge of violating the navigation laws. Following a recent investigation, the inspectors determined that there was no criminal negligence on the part of the captains.

Good Act Booked—The Pan-American male quartette will appear at the Marquette Opera house today, tomorrow and Saturday. This act is said to have played more return dates than any other of the Glenn C. Burd attractions. It was shown at the Ishpeming theater the forepart of the week, and was well received. For the first three days of next week the management has secured Palfrey, Bartou and Brown, a musical team presenting "The Follies of the Vanities," an act that consists of dancing and singing, also comedy bicycle riding. The Hematite City four, who were at the opera house Tuesday night and yesterday, proved to be a good attraction, drawing large houses.

INSURE WITH PETER WHITE & CO
 LIBRARY REPORT.

Circulation During November Was 5,359 Volumes.

The total circulation of the Peter White public library for November was 5,359 volumes, or approximately the same circulation as during November, 1912. The library was open twenty-four days and the average daily circulation was 223 volumes. The report follows:

- Adult fiction 2,026
- Adult non-fiction 753
- Juvenile fiction 997
- Juvenile non-fiction 300
- School circulation report—
- Fiction 687
- Non-fiction 506
- Total 5,359

THE MAN WHO NEGLECTS HIMSELF

When his condition points to kidney trouble takes an unwise risk. Backache, pain and soreness over the kidneys, nervous or dizzy spells, poor sleep, are all symptoms that will disappear with the regular use of Foley Kidney Pills. They put the kidneys and bladder in a clean, strong and healthy condition. For sale by All Druggists.

Guaranteed tuning work, repairing, etc. Leave orders at Grinnell Bros. (12-3-13.)

QUARRIES SHUT DOWN.

Much Crushed Rock Sent from Marquette to Third Soo Lock.

The Marquette rock quarries have been closed for the season after a satisfactory run. During the last weeks of the fall they were busy getting out rock for the third lock at the Soo, on a contract with MacArthur Bros., and the period of their operations in October and November was the busiest of the entire year.

The quarry of the Marquette Stone company, south of the prison, which furnished the bulk of the rock on the Soo contract, worked two shifts during the latter part of the season and from fifty to seventy men were given continuous employment. This quarry was closed for the winter Saturday last. The Lipsett & Sinclair quarry was closed about a week earlier.

As far as can be judged at this time it is said that the outlook for business for the quarries next year is good.

WILL HOUSE CLUB.

Goldberg Block Will Be Occupied by First Year.

The Goldberg block, now under erection on Washington street between Third and Fourth, will be occupied by the Marquette Athletic & Social club, an organization promoted by William Schabel, the first of the year. There are fifteen charter members, including a number of business men, and the club will be built up until, it is expected, it will have a membership of 200 or 300, at least. The charter members will act as the directors, and the club will be furnished and turned over to the association by Mr. Schabel. It is proposed to install gymnasium equipment in the basement, which has been provided with a concrete floor, and on the first floor there will be two bowling alleys and three pool tables. The second floor will be given up to reading rooms and the rooms that will be used for social purposes. The structure will be supplied with latrine, toilets and other conveniences. The by-laws will provide for the careful regulation of the conduct of members.

Orders have been placed for the bowling alleys and pool tables, and other equipment, and Mr. Schabel is confident that the building will be ready for occupancy by the first of the year.

CARNIVAL OPENS TONIGHT.

Guild Hall Entertainment Under Auspices of Guild.

This evening a two days' entertainment under the auspices of the women's guild of St. Paul's Episcopal church, will open at the Guild hall and will continue until tomorrow night. The carnival is one of the most extensive that has yet been undertaken by the members of the guild. It is under the direction of Mrs. Charles Haid, Mrs. M. W. Jopling, Mrs. D. Fred Charlton, Mrs. John D. Mangum and Mrs. E. G. Burt.

In the assembly hall on the first floor there will be dancing both evenings, and at intervals vaudeville sketches will be presented. Miss Flora Retalle is to appear in several vocal solos. Master Harold Thompson will present a singing and dancing sketch and the Dutch comedian is also among the performers of the vaudeville program. It is probable that exhibitions in the swimming pool will be given on both evenings.

There will be numerous booths throughout the building. On the second floor there will be athletic exhibitions and attractions such as Tom Thumb, the Strong Man and the Fortune Teller. One of the features of exceptional interest will be the museum of things of historical interest, in which will be included the toboggan and mail sack used in the early days by Peter White in transporting mail to and from Green Bay to this city.

CHRISTMAS ENTERTAINMENT.

Marquette Salvation Army Will Provide Tree for Poor.

In accordance with its annual custom, the Marquette corps of the Salvation Army will conduct in the city hall on Christmas day a Christmas entertainment for needy children. The assembly room has been obtained for the day and a program is now in preparation. There will be a large Christmas tree with an abundance of good things.

Next week the children of the public schools will make their annual contribution to the army. These contributions are used in making the baskets distributed by the army on Christmas day. Captain Lawrence Redgrove is hopeful of distributing seventy-five or more baskets this year. Last week contributions were asked from residents of the city and many have responded to the appeal.

BIG VAUDEVILLE ACTS NEXT WEEK

LESSEN
 Government Crusade

Washington will have some suggestions with its own in government of a standard work for every report to mission, an act composed of ury, the post torney genera senate and of public bu certain size of building.

By its necessity for new building expense of office would

LESSEN COST OF BUILDINGS.

Government Officials Start a General Crusade of Retrenchment.

Washington, Dec. 10.—Congress shortly will have an opportunity to digest some suggestions, made in accordance with its own command, for a reduction in government expenses by the adoption of a standard system for public buildings. Treasury officials have been at work for several months on a preliminary report to the public building commission, authorized by congress and composed of the secretary of the treasury, the postmaster general and the attorney general and two members of the senate and house committee in charge of public buildings, so that cities of a certain size should get a prescribed size of building.

Lessen Expense.

By its adoption it was argued the necessity for drawing plans for every new building would be eliminated, the expense of the supervising architect's office would be lessened and the actual

time consumed between the authorization of a building and its completion would greatly be diminished.

At present the supervising architect's office is six years behind in its work. This is due, it is claimed, largely to the fact that congress dropped about 80 persons in that office several years ago.

Much Work Ahead.

A suggestion which may ultimately be made to congress, which probably will meet with less favor than standardization, would put public building bills on somewhat the same plane as bills for the improvement of rivers and harbors. It would mean that while congress would authorize a public building at a certain place, a report on the amount that should be expended there would be forthcoming from the public buildings commission.

Congress is now appropriating between \$25,000,000 and \$40,000,000 for public buildings.

RED CROSS REELECTS PRESIDENT.

Washington, Dec. 10.—President Wil-

son was today reelected president of the American Red Cross society, at its annual meeting. He made a short address.

YELLOWSTONE RATES REDUCED.

Secretary Lane Makes 20 per Cent Cut in Transportation Charges.

Washington, Dec. 10.—The rates of transportation into and through the Yellowstone National park, by way of the western entrance at Yellowstone, Mont., have been reduced 20 per cent by Secretary Lane. This means that \$1 a day has been taken off the rate which heretofore has been charged to tourists in the park coming through the entrance.

This reduction is due to a contract for carrying passengers in the park which has been awarded by the department of the interior to F. J. Haynes, Robert Duff and R. W. McTavish, a corporation known as the Yellowstone Western Stage company.

Department officials say that this action is in the interests of the traveling public, inasmuch as it will enable persons to make the complete park tour

for \$20, whereas the rate heretofore has been \$25. Corresponding reductions will be made in the four-day, two-day and other short trips in the park.

DISTANT, YET FITS DRESS.

Mrs. Thomas R. Marshall Applies Absent Treatment to Clothes.

Washington, Dec. 10.—Mrs. Thomas R. Marshall, wife of the vice president, who is original in her ideas, has evolved a way of fitting clothes by absent treatment.

Like other women, Mrs. Marshall was greatly bored by long hours of fitting. So when she went west early in November she stopped off in Chicago, had her measure taken and a form made to represent her figure. Then she bought silk and satins for new gowns and gaily went down to Arizona to visit her mother.

Meanwhile in Chicago her winter wardrobe was nearing completion. On the return trip Mrs. Marshall visited Chicago, tried on her absent fitted clothes and found them satisfactory.

FINDS RAH RAH ANCIENT.

Professor Who Looks Up Record Says Cheering is Aged Malady.

Cambridge, Mass., Dec. 10.—The "rah rah" of college youth is not an institution original with American schools but was a means of giving vent to one's enthusiasm vocally in the days of ancient Rome and medieval Byzantium. Prof. Ernest Von Dobschütz, occupying the German exchange chair at Harvard, says:

"The Harvard cheer is similar to the cries which resounded through Rome and Byzantium in the olden days. In Rome in 499, A. D. there are records that at each synod the organized cheering was a feature.

BRITISH SUBMARINE SINKS.

Plymouth, Eng., Dec. 10.—The submarine C-14 sank in Plymouth sound today, as the result of a collision. The

crew was rescued. This is the first British submarine lost without a sacrifice of life.

NORTHWESTERN MUTUAL SUES TO RECOVER TAXES.

Madison, Wis., Dec. 10.—The Northwestern Mutual Life Insurance company of Wisconsin began suit today in the supreme court against the state of Wisconsin to recover a sum exceeding a million dollars, being the amount paid with interest, under protest as taxes for the years 1911 and 1912. The complaint alleges that the state law under which it is taxed is discriminatory and unjust and contravenes both the state and federal constitutions. The complaint among other things, alleges that of the total number of policies in force in the company, more than ninety per cent are on lives of persons who are not residents of Wisconsin.

IT'S A MISTAKE.

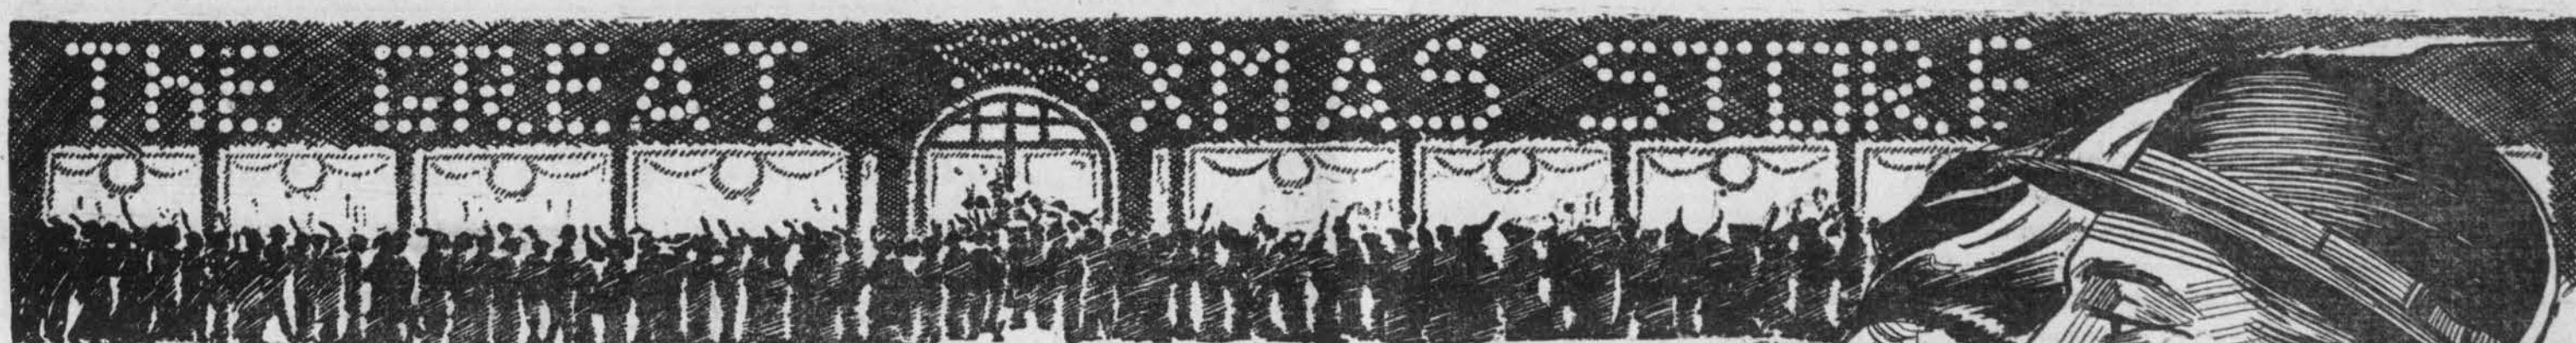

Made By Many Marquette Residents. Many people in a misguided effort to

get rid of kidney backache, rely on plaster, liniments and other makeshifts. The right treatment is kidney treatment and a remarkable recommended kidney medicine is Doan's Kidney Pills. Marquette is no exception.

The proof is at your very door. The following is an experience typical of the work of Doan's Kidney Pills in Marquette.

Mrs. Adolph Racine, 425 W. Spring St., Marquette, Mich., says: "One of my family was troubled by a dull, heavy ache in her back, together with severe pains. At times she had headaches and dizzy spells. She was also annoyed by too frequent passages of the kidney secretions. She was all run down and was miserable in every way. One of our neighbors advised a trial of Doan's Kidney Pills. After a few doses were taken she was so much better she used a second box. She has not been bothered since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Foster's— Santa Claus' Headquarters

SECRETARIES' CLUB MAY BE ORGANIZED

Manistique Man Suggests Co-Operation of All Upper Peninsula Officials.

M. H. Barton, secretary of the Commercial club of Manistique, has written to R. J. Wise, secretary of the Ishpeming Advancement association, suggesting that he attend the annual meeting of the Upper Peninsula Development bureau in Escanaba in February, and that he come prepared to consider a plan to organize a club to be composed of the secretaries of the different commercial organizations in the upper peninsula.

Mr. Barton says he has not endeavored to work out any plan for the proposed organization, preferring to wait until the opinions of other secretaries are obtained. Referring to the advantages of a secretaries' club, he says:

"During the last year a number of the commercial clubs in Cleveland have been created on an active basis with a paid secretary. They are boosting their individual communities as the development bureau is boosting Cleveland.

"Would it not be to the advantage of all of us, and to the upper peninsula in general, to form an organization of Upper Michigan secretaries? We could hold our meetings at such time as necessary, but particularly every year at such time and place as the development bureau meets.

"I do not feel that an organization of this character would in any way interfere with the Michigan association of commercial secretaries. We have foregone up here to face that they are foreign to the problems of the lower Michigan fellows; we all want to boost our game and this can be done by each of us acting alone."

THE LATE MRS. TIPPETT.

Winthrop Woman Died at Home of Daughter in Copper Country.

Of the death of the late Mrs. Matilda Tippett, who was buried yesterday afternoon in the Ishpeming cemetery, the Calumet Evening News of Tuesday said:

"Mrs. Matilda Tippett, aged eighty-seven years, passed away at the home of her daughter, Mrs. John Rowett, of South Rockland street yesterday, following a prolonged illness. Ailments incident to old age were responsible for her demise. The deceased was a resident of Calumet for an extended period and her departure is generally regretted.

"Mrs. Tippett was a native of Cornwall, England, but resided in Calumet for many years. There survive, five daughters and two sons, Mrs. Rowett, Mrs. W. J. Harper of Veleau, Mrs. John Nettle of Tempe, Arizona, Mrs. Smith of Morristown, N. C., Mrs. Hooper of California, Ben of Quincy and Joseph of Iron Mountain, also one sister, Mrs. Skewes of La Salle.

"The funeral will be held Thursday from the Rowett residence and the remains will be taken to Ishpeming for final interment."

LADIES' AUXILIARY OFFICERS.

At the regular meeting of Division No. 1 Ladies' Auxiliary to the Ancient Order of "Hibernians" Tuesday evening, the following officers were elected: President—Miss Margaret Malloy. Vice President—Miss Amelia Hickey. Recording Secretary—Miss Nora P. Kennedy. Financial Secretary—Mrs. Will Schaeffer.

Mistress at Arms—Miss E. O'Brien. Sentinel—Mrs. P. Gleason. Physician—Dr. R. A. Burke. Standing Committee—Mrs. M. McGrath, chairman, Julia Donovan, Mrs. Will Tobin, Margaret Benedict and Mrs. William Leininger.

The installation will take place at the first regular meeting in January.

UNIFORM RANK ELECTION.

At a meeting of the members of the Uniform rank, Knights of Pythias, Tuesday evening the following officers were elected:

Captain—W. H. Millman. First Lieutenant—Thor Rem. Second Lieutenant—L. O. Bengry. Sergeant Recorder—A. H. Knight. Treasurer—A. L. Johnson.

The captain will appoint a commissary and first and second lieutenants prior to the installation in the second Wednesday evening in January. Colonel Charles Thomas will be the installing officer.

ERECTING NEW SLIDE.

Work has been started on the new ski slide located on the route of the interurban railway between Virginia and Eyleth. If there is sufficient snow on the ground the officers of the club intend to use the new slide for the first time on Christmas day. The new location is said to be an ideal one. It is expected that fully 200 riders will compete for the national prizes, Feb. 14 and 15.

LAW AND THE WEEK END.

What, or rather when, is a "week-end"? An Englishman has had to determine the meaning of the phrase. A man bought a reduced rate "week-end" ticket on Friday and when he sought to return Saturday night was told that he would have to pay full fare, as the special ticket would be good only on Sunday, Monday and Tuesday. The man sued the company for the excess fare charged him and won his case.

CROUP AND COUGH REMEDY.

Croup is a terrible disease, it attacks children so suddenly they are very apt to choke unless given the proper remedy at once. There is nothing better in the world than Dr. King's New Discovery. Lewis Chamberlain, of Manchester, Ohio writes about his children: "Sometimes in severe attacks we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup, coughs and colds." So can you. A bottle should be in every home. At The Stafford Drug Co.

OLIVER COMPANY MAY ENTER CUYUNA

Is Reported That Subsidiary of Steel Corporation Is Quietly Picking Up Mines.

The Oliver Iron Mining company is reported to have been quietly engaged for several months in getting a line on certain properties on the Cuyuna range, and it may, it is reported, enter that district for part of its ore supply shortly after the expiration of its lease on the Hill ore properties, next year.

A rapidly growing interest is shown by furnace men in the development of the ore deposits on the Cuyuna, and it is intimated that several large eastern concerns have opened negotiations for holdings that were drilled, with good results, during the past season. It is said that Pickands-Mather & Co. have peacefully decided to develop holdings on the range next season.

The recent entry of the Jones & Laughlins interest into the Cuyuna district is regarded as one of the most important developments that has occurred there since the discovery of ore. With the Pickands-Mather company, the Jones & Laughlins and the United States Steel corporation operating in the field, the output of the district would be certain to increase rapidly.

The passenger traffic of the Cuyuna district has developed to such an extent within the past few weeks that the Soo line has decided to establish an interurban service. A sixty passenger motor car has been ordered and will be put in service between Crosby, Cuyuna, Riverton, Iron Hill, Aitkin and Deerwood.

The shaft on the Duluth-Barnard Iron company's property reached the ore body this week. The Cuyuna-Duluth Iron company has increased its force engaged in mining and sinking its shaft to the second level. A depth of 240 feet has been attained.

The Northern Pacific Railway company has made a final survey to the Cuyuna-Mille Laes Iron company's mine and is arranging to let the contract for the building of the extension, with the understanding that it will be ready for operation early in the spring.

OPTIMISTIC FOR ROADS, FUTURE

Shippers' Stand Allays Fear Regulation Would Fail, It Is Stated.

New York, Dec. 10.—"Optimism as to the future of American railways," announces the Railway Business association, the national organization of railway supply manufacturers, at the end of its fifth year.

"Current experience," says the annual report of the general executive committee, just mailed to members, "tends to dispel the most serious ground for doubt of success for public regulation of privately owned railways. The car has been that no tribunal of political origin would survive if it permitted an important general increase in transportation charges, because, it was predicted, the shipping public would always resist and rebuke any attempt to retaliate by attacks upon the commission. Instead of this we actually see organized shippers sending resolutions to the commission declaring not only that they will cheerfully accept an advance if found necessary, but that they will not be represented in opposition at the hearings."

Scrutiny Is Proper.

The report continues: "The public does not and should not relinquish its purpose of scrutinizing the practices of railway corporations and dealing with these where necessary. But it has been made manifest that when national prosperity requires a strengthening of railway revenue public opinion will discountenance attempts to postpone action on the present or an alternative theory of conduct must first be established and enforced. Railway managers are endeavoring as energetically as business men or men of public life to improve standards both of efficiency and of propriety.

"A number of members of the interstate commerce commission and of state commissions after long service but still in vigorous health have recently retired. Not even an enlightened public opinion will insure the success of regulation unless men who have acquired experience and knowledge are retained. Security of tenure minimizes the waste of time and danger of mistakes involved in breaking in new commissioners, it gives the older commissioners an independence and serenity which promote efficiency and quality of work, and it enables the appointing power to command the services of men who would not accept if they believed the position would be used as a political reward.

"Numerous bills are before congress, which, if passed, would require enormous expenditures by the railways, notably the steel car bills. Of passenger train cars placed in service in 1900 51.4 per cent were wooden.

"The railways, without any law, have adopted steel. They ordered in 1912 no wooden passenger cars whatever. Congress has no occasion for severity or haste. Some of the bills fix brief periods within which all wooden passenger train cars must be displaced by steel. This should be looked into. It would take ten years with existing car building facilities to substitute steel for wooden, and private capital can not be compelled by law to invest in enlargement of the car building plants. Such substitution would cost more than 600 million dollars and would divert great sums from other purposes more important to safety than steel cars.

"Many of the wooden passenger train cars which would be scrapped are comparatively new and are reasonably safe for the usual conditions of traffic. The type of steel car is a subject of difference among experts. After an accident a steel car is a means of safety.

Precautions to prevent accidents—sound rails, sound ties, good ballast, ample signaling, discipline most important of all—must also be provided. The steel car question will settle down gradually to its proper proportions. We urge congress to act if at all by avoiding minute specifications and authorizing the interstate commerce commission to deal with the matter in its discretion as experience and study dictate."

BOY IS BANK PRESIDENT.

Galveston Youth Put In Charge of Institution With \$50,000 Capital.

Galveston, Texas, Dec. 10.—Barely twenty years of age, W. L. Moody III, has been elected president of the American Bank and Trust company of Galveston. He is said to be the youngest bank president in the United States.

Despite his youth, he is no novice in the banking business, and he is directing the affairs of his bank like a veteran. It is a state bank, with a capital of \$50,000. It was organized several months ago, with W. J. Moody II, as president and his son as vice president.

The senior Moody resigned recently and the son was elected to the place. His disability as a minor was removed by law last year. He is conducting the affairs of the City-National bank of Galveston, on his own initiative and investment.

using his own discretion entirely in making loans and investments.

President Wilson grows bigger day. Having had a possum wished on him by some lunatic in Mississippi, who wanted to get rid of the beast, Woodrow did pretend to eat the "only American marsupial," but sent it to the zoo. It sums are about as fit to eat as a cat snake.—Richmond Times-Dispatch.

MONEY FOR CONVENTION.

Sir Humphrey Davey Lodge Will Conduct Fair and Masquerade Ball.

To raise money for the annual convention and reunion of the grand lodge of the Sons of St. George, to be held in Ishpeming next July under direction of Sir Humphrey Davey lodge, the members have decided to arrange a fair, and to give a masquerade ball. The date for the ball is Feb. 13 and the fair will be held in Braastad's hall April 14, 15, 16, 17 and 18.

The fair will be conducted along lines similar to the one held last week under direction of Zenith lodge, Knights of Pythias.

RACE AT RING TONIGHT.

Miss Adelaide DeVorak, who is the attraction this week in the Elite roller rink, defeated Louis Garceau in a half mile race Tuesday evening, winning by about ten feet. Tonight she will race Ole Wiggins, Ishpeming's speediest roller skater, and Saturday night she will race either Alfred Toman or Gordon Prin. Miss DeVorak's exhibition is put on at 9 o'clock. The race will take place at 9:30. The admission is five cents, with an extra charge for skates.

Leaves Gwin 6:45 a.m.
For M. M. & S. E. stations to Munising, M. M. & S. E. stations to Marquette 4:15 p.m.
Leaves Gwin 4:20 p.m.

PLAN MANY ENTERTAINMENTS.

Knights of Columbus Look Forward to Lively Social Season.

Elmer E. Jacques, chairman, and other members of the entertainment committee of Ishpeming council, Knights of Columbus, are planning a series of entertainments for the winter months that will include lectures by well-known speakers, card parties, vaudeville acts, a sleigh ride and dancing parties. It is planned to have the proposed sleigh ride conclude with a dancing party and lunch at the Ski club house, on North Third street.

The committee expects to have some entertainment feature out of the ordinary at each meeting during the winter, with the purpose of building up the attendance.

Among those who will be invited to give a lecture here is Rev. Father Barth, pastor of St. Patrick's church, Escanaba. If Father Barth comes to Ishpeming, his lecture will be public and will probably be given in the Ishpeming theater some Sunday evening.

The council will open club rooms. The officers have been instructed to look into the question of quarters and to report what it will cost to equip the rooms.

ISHPEMING IN BRIEF.

Born, a son to Mr. and Mrs. E. G. Robbins yesterday afternoon.

A discussion club was organized last night by senior members of the Y. M. C. A. The club will take up present day problems.

The members of the Ishpeming Ski club will have an outing tonight at the clubhouse. Volley ball will be played and a lunch will be served.

The doors on both sides of the street cars will be open during the winter. The new traffic ordinance provides for closing the doors on one side of the cars during the summer months.

The Young Men's Christian association indoor baseball team defeated the Rivals Tuesday evening by a score of 19 to 8. The battery for the "Y" team was Mitchell and Peterson and for the Rivals, Watters and Harper.

About twenty of their friends surprised Mr. and Mrs. R. Kinness Tuesday evening at their home at the Salisbury location, the occasion being the twentieth anniversary of their wedding. The evening was enjoyably spent by the party and a fine supper was served. Mr. and Mrs. Kinness were recipients of gifts of china.

Kenney and Allen, in a singing, dancing and talking act, will be the vaudeville attraction at Ishpeming theater tonight, tomorrow and Saturday. A two-reel Kalem feature drama, "The Invaders," will be included in tonight's program. Other pictures will be "The Strong Man's Burden," a Biograph drama; "A Wall Street Wall," a Pathelplay trick picture, and "Riding the Flames," a Pathelplay Indian drama.

George Town, Texas. J. A. Kimbro, says: "For several years past Foley's Honey and Tar Compound has been my household remedy for all coughs, colds and lung troubles. It has given permanent relief in a number of cases of obstinate coughs and colds." Contains no opiates. Refuse substitutes. For sale by All Druggists.

BIG SPORTING EVENTS CARDED FOR NEXT YEAR

Season of 1914 Promises International Competitions in Golf, Yachting and Polo.

New York, Dec. 10.—The formal acceptance by the American Polo association of the British challenge for a match next June, adds one more international contest to the list of those which will be staged in America next year and will make 1914 even more of a banner sport year than 1913.

The polo match next year promises to be even more thrilling and more wonderful than the two games staged last June. England will put an almost new team in the field, composed of the best players in the British possessions. A fortune has been spent in the purchase of ponies.

Sir Thomas Lipton will again attempt to carry the International cup back to England. Lipton's new yacht, it is said, will be far superior to his others. He has engaged the greatest yacht designer and yacht builders in Europe and has placed his full purse before them with orders to grain it if necessary.

The builders and designer, profiting by the mistakes made in the construction of the old boats, are at work on a yacht which they declare will be faultless and be the fastest that ever sailed the seas.

To Try and Win Back Davis Cup.

The Davis cup tennis matches will be fought out here next summer owing to the fact that American youths grabbed the honor from England last year.

In connection with these tennis matches it is possible also that William, the world's tennis champion, will come to America and meet McLaughlin, the California wizard, and other American stars in defense of his title.

Perhaps the first international contest that will be fought out on American soil will take place in April, when athletes from Oxford university will come to compete with the American college athletes in the field and track events.

Late in the summer Varden and Ray, the great English golfers, will journey to America, perhaps accompanied by some lesser luminaries of Great Britain, and try to even things up for their defeat last summer at the hands of Francis Ouimet, the twenty-year-old American open champion.

In addition to these contests there may be another of international importance, a finish fight between Willie Ritchie, lightweight champion of the United States, and Freddie Welsh, lightweight titleholder of Great Britain, to settle the question of world's supremacy.

MAKES PINEAPPLE JELLY FROM THE LOWLY CARROT.

U. of M. Chemist Teaches Co-eds How to Cut the Cost of Living.

Ann Arbor, Mich., Dec. 10.—Making delicious jelly from the peel of an orange or a lemon that would otherwise find its way into the garbage can, and making an equally delicious jelly from the lowly carrot, flavored with a bit of the juice from a pie of currants from which the pie for yesterday's dinner was made, those are two of the ways that Dr. W. S. Hubbard, of the chemistry department of the University of Michigan, has found for teaching the co-eds who elect household chemistry how to cheat the high cost of living.

Carrots Not Much Used.

According to the state chemist, jelly manufacturers of Michigan have not made use of the carrot in their products, and yet Dr. Hubbard says that there is nothing that contains so much jelly material and that carrots can be introduced in considerable quantity with a limited quantity of currants, plums or grapes.

He even makes a pineapple jelly of carrots alone, flavoring with the juice from a can of pineapples.

Gives Carrot Jelly Recipe.

Here's the recipe for carrot jelly: Take the peel of an orange, leaving the white inner skin on, and simmer it in

NEW FIELD OPENS FOR BLIND GIRLS

Sense of Touch Makes Them Good Masseuses—Milwaukee Schools Instruct.

Washington, Dec. 10.—A phase of vocational education which is believed to be unique with the Milwaukee public schools and which is attracting unusual attention is the training of blind girls to become professional masseuses. The training is given in the downtown business establishment of the instructor, the school board paying for the training of each blind girl having the inclination, aptitude and ability for this line of work.

Open Up Office.

Three of the graduates are established in business and are self-supporting, one of the girls being the only masseuse in the city of Kenosha. She is Miss Sara Van Wald, the first blind masseuse in the state of Wisconsin and believed to be the first one in the United States indebted to the public schools for her training.

It was her desire to take up this line of work, believing it to be a profession in which she could become proficient and in which she would find the opportunity for service to others instead of being herself a burden, that led to its adoption by the Milwaukee school board.

Training Without Funds.

After graduating from the State School for the Blind at Janesville, Miss Van Wald entered one of the Milwaukee high schools for the sake of daily association with seeing pupils, which is a feature of the education of the blind in this city. She was well, she was strong and she had the delicacy of touch which is so essential to success, especially in the treatment of nervous patients.

Miss Van Wald went to Miss Carrie Levy, supervisor of the work for the blind in the Milwaukee schools, with her ambition. How was she to get the necessary training without money? There was no provision for such instruction in the school fund, so Miss Levy went to C. G. Pearce, now president of the Milwaukee Normal school, but at that time city superintendent of schools.

Volunteer Patients.

Mr. Pearce saw the school directors and they voted to pay for Miss Van Wald's training if a suitable instructor could be found. As the result of the search which followed Miss Ellen T. McEvoy was selected to undertake the experiment.

Some of the latter's patrons, prominent in the city's social life, became so interested in the blind girl that they volunteered as patients for practice work.

So remarkable was the development of Miss Van Wald in self-reliance, in breadth of view, and in eagerness to shoulder responsibility instead of dodging it, as well as in professional skill, that the school board voted to extend this phase of activity. The result is that in the last two years three blind girls have received diplomas and one of them, Miss Ethel Tyrrell, has been employed by Miss McEvoy as one of her assistants. Miss Van Wald immediately after her graduation opened an office in her home city of Kenosha, where she works under the direction of several of the city's physicians. Miss Emma Bouzren is establishing a private practice in Milwaukee, finding her way from house to house without escort in spite of the fact that she is totally blind.

UNCANNY "TELAUTOMATICS."

A young American, John Hays Hammond Jr., has recently been doing things down on the east coast of Massachusetts that would have been his death-warrant in the days of the Salem witch-hunt. From a hill-top overlooking Gloucester harbor he was directing daily, by means of invisible waves the manufacturing of a sinister-looking craft of high speed which may soon develop into a very formidable instrument for coast defense. Mark you, no one is on board; the boat performs all of its amazing evolutions guided by a curious combination of

NOT BEYOND HELP AT 87.

Sleep-disturbing bladder weakness, stiffness in joints, weak, inactive kidney action and rheumatic pains are all evidences of kidney trouble. Mrs. Mary A. Dean, 47 E. Walnut St., Taunton, Mass., writes: "I have passed my 87th birthday, and thought I was beyond the reach of medicine, but Foley Kidney Pills have proved most beneficial in my case." For sale by All Druggists.

COUNTRY FOLKS GET BETTER MAIL SERVICE

Postmaster General Looking After Interests of Farmers—Adds Many Routes.

Washington, Dec. 10.—Since taking charge of his department last March Postmaster General Burleson has been busy seeing that Uncle Sam's rural population is taken care of in a postal way. When he assumed office he found that during the seven years immediately preceding his advent there had accumulated 830 petitions for the establishment of rural free delivery routes. All but thirty-six of these, besides 750 applications filed during this administration, have been passed upon. Mail facilities for 500,000 more persons have been provided for by the establishment of 225 more routes.

There are 42,953 rural routes in operation now, providing delivery service for 4,295,300 families, or about 20,000,000 people. Illinois leads with 2,856 routes. The aggregate rural delivery area is about 1,035,924 square miles. It is estimated by the department that rural dwellers have been saved hundreds of millions of dollars by this service.

The parcel post, with provisions for receiving packages at the farm, has made it possible and profitable for the farmer to market products that hitherto have gone to waste.

Furthermore, rural delivery has proved a great incentive to road-building. The government is now conducting an experiment with the plan of co-operation with state officials for improvement of roads over which rural free delivery is established. Contracts are now being let for post roads to be built by federal and state authorities, the one paying one-third and the other two-thirds of the cost.

Farm Furnishes Carriers.

The army of 42,617 rural carriers and 30,000 substitute carriers is recruited almost entirely from the farm, said Postmaster General Burleson. "The records show that the mail in the country districts is carried even when ordinary traffic on the roads is suspended. During the fiscal year 1912 it was necessary to remove for cause only 194 rural carriers out of more than 42,000.

"It is likely that within the next year 1,200 or more new rural routes will be established and that the growth of the service will proceed until the total number of routes reaches 50,000. In some states practically all the territory available for rural routes appears to be now covered."

There are no figures available showing the amount of parcel post matter handled by rural carriers, but a conservative estimate places the number at 250,000 parcels a day, the postage paid on which totals probably \$30,000.

On June 30, 1897, nine months after the establishment of the first rural route, the service had grown to eighty-three routes emanating from forty-three postoffices. Now the 50,000 mark is in sight.

EXHIBITION AT 9 RACE, 9:30

Admission 5c; Skates Extra.

10 DAYS STOCK REDUCING SALE BEGINS TODAY

at the FASHION SUIT COMPANY, South Main Street

WOMEN'S WEARING APPAREL in the finest grades and most beautiful styles and at the most sensational prices you have ever known. Prices we would not think of making on such merchandise were it not for the fact that we have had a backward season, and we are over stocked in Suits, Coats, Dresses, Skirts and especially Furs. We will make the greatest sale on Furs ever known in this section of the country. We have shipped in from our other stores our best Furs in order to make the biggest selection of High Grade Furs in the market. It is not necessary to send out for your Furs or buy from agents. We guarantee to save you money by buying your Furs from us during this Big Sale. We would rather take the loss now than to wait until after the season is over when there is a demand for our merchandise which now makes a practical and useful Christmas gift. Railroad fare refunded to out of town customers in Marquette County during this sale.

FASHION SUIT COMPANY

ANEMIA

BLOOD POVERTY

AND DEVELOPS AT ANY AGE

cheeks and lips become pale, the body is languid and colds are easily contracted—it undermines the very source of health and must have immediate treatment.

Drugs or alcoholic mixtures cannot make blood. Nourishment is necessary and Scott's Emulsion is always the physicians' favorite—its concentrated medical nourishment charges the blood with red corpuscles, feeds the famished tissues and carries food value to every tiny nerve and fibre in a natural, easy way.

Take Scott's Emulsion to enrich your blood, but shun the alcoholic substitutes.

Marquette News

NEW RETORTS HAVE BEEN INSTALLED

URGES "FULL TIME" FOR HEALTH OFFICERS

Marquette Gas Light Company Makes Improvements at Plant in South Marquette.

Twelve retorts, manufactured by the Parker-Russell company, of St. Louis, Mo., have been recently installed at the works of the Marquette Gas Light company, replacing the old retorts, which had been in use for the two years past. During the time the new equipment was being put in, it was necessary to close down the coal gas plant and resort to the making of water gas. The apparatus for the manufacture of gas of the latter kind has been installed at the works for many years but it used only when it is necessary to close the coal gas plant.

The new retorts are made of fire clay and are surrounded by fire brick. Their dimensions are about ten feet long, twenty-six inches in width and sixteen inches in height. The cost of the equipment approximated \$1,500. The retorts were installed by an expert sent to this city by the St. Louis company.

The manufacture of carbureted "water gas," such as made here recently, is a more expensive process than the process commonly used and is one that requires constant attention. Oil is used, and this is purchased at from three to six cents a gallon. Coke is burned for heating fire brick over which the oil is sprayed, this combining with steam under pressure. The gas is formed in this manner, afterwards being purified and stored. It is an interesting process and one that has been inspected of late by many persons.

While there is some difference in the qualities of the two gases, nevertheless both give satisfactory results and the change from the manufacture of coal gas to the water gas for a short time was unnoted by the greater number of gas users.

COMMERCIAL CLUB TO MEET.

Session Will Be Held This Evening at City Hall.

A business meeting of the Marquette Commercial club has been called for this evening at the city hall for the purpose of choosing the remainder of the members of the ways and means committee, which will be one of the most important bodies of the club. E. A. Daley, secretary, will today request all the members of the club to attend. The object of the meeting is outlined in the following letter:

"Dear Sir: You are urged to attend a meeting of the Commercial club to be held Thursday night, Dec. 11, in the band room at the city hall, for the purpose of electing members to represent the following businesses on the ways and means committee:

"Dry goods, tailors, real estate, hardware and furniture, pharmacists, jewelry, hotels, dry service, contractors, architects, coal and wood, laundries, bakers and confectioners, and miscellaneous.

"The ways and means committee is one of the most important divisions of the commercial club. It will act as an advisory body to the board of directors, and will be a medium through which the members can obtain quick action on important matters. The committee should be composed of energetic and willing workers, and you are asked to attend Thursday night's meeting to assist in the selection of such representatives.

"One of the important matters which will be taken up at this meeting will be the appointment of a special committee, to meet with railroad officials and other employees to ask that they pay off their help on Dec. 23 and 24, so that the workmen will have their money for holiday purchases.

"Do not fail to attend this meeting because it will be one of the most important ever held by the club, and it concerns a matter which is of great personal benefit to you.

"E. A. DALEY, Secretary."

MANY WOODSMEN ARRIVING.

Majority Are from Logging Camps in the Big Bay District.

During the last few days many woodsmen have arrived in Marquette from the camps in the vicinity of Big Bay and from camps east and west of the city. The greater part of the movement from the Big Bay district is due to the prevailing strike conditions there, also to the increase in the number of small poxes. More than thirty men arrived from Big Bay yesterday afternoon and there have been equally as large numbers that every day this week.

Marshal Manning said last evening that few men are staying in the city, but are moving to other camps in the upper peninsula, where they have found employment. However a few of the woodsmen have been causing the officers trouble. Tuesday evening three lumberjacks who had arrived in Marquette on the afternoon train from Saginaw became intoxicated and attempted to board the late train for the west, but were prevented from entering the train owing to their condition. At about midnight they caused a disturbance on Front street, and when Officer King attempted to arrest one of the number, a fight was started, in which the officer received a severe cut near the eye. Another officer was called and the trio were taken to the city jail. Yesterday morning the woodsmen paid fines and costs.

DRY BLOCK WOOD. Prompt delivery. E. B. Spear & Sons. 12-2-tf

MACCABEES CHOOSE OFFICERS.

At a meeting of the Ladies of the Macabees of the World, held last evening in Keough's Hall, the following officers were chosen for 1914:

Commander—Margaret Haid.
 Lieutenant—Carrie Weeks.
 Past Commander—Anna Beals.
 Chaplain—Minnie Peters.
 Record Keeper—Elizabeth Green.
 Finance Auditor—Phyllis King.
 Lady-at-Arms—Helen Libersal.
 Sergeant—Phebe Jonsson.
 Picket—Belle Mick.
 Sentinel—Nellie Berry.
 Captain of Guard—Alice Goudreau.
 Color Bearer—Mabel Sells.
 Musician—Myra McMillan.

MORGAN'S TOMB GUARDED.

Although eight months have passed since the body of John Pierpont Morgan was buried in the cemetery of Cedar Hill cemetery, Hartford, Conn., the grave is now, as it has been from the day of burial, closely guarded, particularly at night. During the day a specially assigned watchman is kept there, but at night an armed guard goes on duty until sunrise.

The body of Mr. Morgan was buried April 14, in a concrete lined grave with a large slab of stone covering it. A cemetery official says that the Morgan family is paying for the guard and it will be continued as long as the family desires.

What's Rheumatism Pain only?

"Stop drugging! Not one case in fifty requires internal treatment. Rub soothing, penetrating 'St. Jacobs Oil' directly upon the tender spot" and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism cure which can not burn the skin.

Limber up! Get complaining! Get aches and pains from your drugging, and in just a moment you'll be free from rheumatic pain, soreness, stiffness and swelling. Don't suffer! Relief and a cure awaits you. "St. Jacobs Oil" has cured millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache and sprains.

Sneezing?

There's no need of it. Sniff a little Kondon's, the original and genuine Catarrhal Jelly, up the nostrils. Its soothing, healing properties quickly relieve you. Best thing for hay fever, colds, catarrh, sore throat, catarrhal headache, nose bleed, etc. Relieves the condition which causes sneezing. Sold only in 25c and 50c sanitary tubes by druggists or direct. Sample free. Write Kondon Mfg. Co., Mt. Pleasant, Minn.

Markets
 (From Geo. F. Rueb, Ishpeming.)

BOSTON COPPERS.

The market at Boston showed no change Wednesday. The selling of investment stocks continued, but the speculative favorites held well. The Boston coppers were unchanged, with a good demand under the market. On the whole, the market is well presented and will probably have little change during the present period of uncertainty. Copper Range was well taken around 33, Calumet & Hecla around 60 1/2 and North Butte around 24 1/2. Closing prices were as follows:

WHERE GUY FAWKES PLOTTED

White Webbs park, near London whose footpaths are in dispute, is the center of two interesting legends. The first is a local tradition that it was here that Guy Fawkes was one of the meeting places of the Gunpowder Plot conspirators; and it is at any rate certain that Fawkes was a frequent visitor there. And apparently the house was of a kind to lend itself to plotting, for the commissioners who searched it after Guy's arrest reported it to be full of trap doors and passages, presumably secret.

This house was demolished in 1700 but some portions of its outbuildings are probably embodied in the King and Tinker inn, for the story of King James and the Tinker are claimed. This legend, to which, by the way, Enfield is not the scene, tells how the King separated from his hunting companions came across the tinker, who, after some familiar conversation, expressed a wish to see the monarch.

He was hidden to mount behind his new friend and look out for the only man who kept his hat on when they rejoined the hunting party, and in due course found that he had been sharing the King's horse.

DAYS THAT ARE PAST.

Elisha Lee, the brilliant counsel for the railroads in the recent arbitration proceedings in New York, said at a luncheon:

"Well, the poor railroads, at any rate, have got rid of the pass evils. Cornelius Vanderbilt used to tell a story about that."

"Mr. Vanderbilt said that a man once called and asked him for a pass over the New York Central to Albany."

"Why do you ask for a pass?" said Mr. Vanderbilt.

"Because I'm so sensitive," the man answered.

"So sensitive? What's that got to do with the matter?"

"Well, I'll you, Mr. Vanderbilt," the applicant explained. "I went up to Albany on your line last week and I was the only man on the whole darn train that paid his fare. The other passengers gazed me about it like the dickens, and as I'm so very sensitive, I don't want to go through such an unpleasant experience again."—Chicago Record Herald.

NEW YORK STOCKS.

Amalgamated and United States Steel were fairly well bought in New York Wednesday. Amalgamated closed with a gain of one point, opening at 60 1/2 and closing at 70 1/2. Steel advanced from 107 1/2 to 108 1/2 on the publication of the report of the office of Superintending a decrease of but 117,620 tons. A decrease of about 300,000 tons was expected. A message from Cleveland says: "A more cheerful tone has been given to the iron trade by some important orders, which showed 30 per cent. of capacity, the reduction of forces seems to be checked." The total New York sales Wednesday were 229,900 shares. Closing prices were:

Amalg.	70 1/2	So. Pac.	87 1/2
Am. Sme.	61 1/2	Can. ac.	223
Steel Com.	108 1/2	Reading	163 1/2
Steel Ind.	108 1/2	Pan.	88 1/2
Atchison	92 1/2	Utah Cop.	48 1/2

CALUMET & HECLA.

From the 1913 high to the recent low there was a depreciation of \$7,513,285 in the market value of 392,427 subsidiary shares owned by Calumet & Hecla. High prices in every instance were recorded in the closing of the year. During the past week or two Alameck, Osceola, Isle Royale, Osceola and Superior sold at the 1913 low point. On Jan. 3, Alameck sold at 330; its recent low was 230. Isle Royale within the last few days closed at 18, compared with a year's high of 33 1/2. The price of Superior was high in halves, or from 40 1/2 to 20 1/2. The 100-point decline in Alameck represented a paper loss of \$2,420,000 on Calumet & Hecla's 24,200 shares ownership. The 30-point decline in Osceola decreased the value of shares held by Calumet & Hecla by \$2,277,250. The appended tabulation is self explanatory:

Shares owned by C & H	Depreciation
Alameck	24,200 \$2,420,000
Alouez	1,000 22,750
Centennial	41,500 207,500
Isle Royale	30,500 545,187
La Salle	152,977 267,710
Osceola	32,750 2,277,250
Superior	50,100 1,020,788
Tamarack	19,400 252,200
Total	392,427 \$7,513,285

DISAPPEARING LAKES.

The disappearance of Lake Casentorno near Rome, will not seriously affect the map of Italy. Only the local fishfolk will miss its few square miles, should its waters never return from the subterranean caves in which they have again disappeared. The Russian government, however, is much concerned about the greatest of all the world's lakes, the Caspian sea, which covers an area of 1,900,000 square miles. The waters of the great inland sea are slowly disappearing, and the Imperial academy of Science has appointed a commission to investigate on the spot the cause. (Which has been suggested), there seems no other explanation but that the water

CELL GROWTH SHOWN BY FILM.

The formation of living cells was shown in a moving picture film before the Society of Biology, in Paris, by Professors Joly and Commandant. The experiments were made on the blood of tadpoles. These were forced to undergo a fast for several weeks and afterwards fed for ten days. Then drops of their blood were placed under the cinematograph. The experimenters could see the blood corpuscles form and then divide, showing the phenomena of the growth of animal matter.

DR. HOBSON'S OINTMENT HEALS ITCHY ECZEMA.

The constantly itching, burning sensation and other disagreeable forms of eczema, tetter, salt rheum and skin eruptions promptly cured by Dr. Hobson's Eczema Ointment. Geo. W. Fitch of Mendota, Ill., says: "I purchased a box of Dr. Hobson's Eczema Ointment. Have had Eczema ever since the Civil war, have been treated by many doctors, none have given me the benefit that one box of Dr. Hobson's Eczema Ointment has." Every sufferer should try it. We're so positive it will help you we guarantee it or money refunded. Price, 50c.

RUB RHEUMATIC PAIN, SORENESS, STIFFNESS

Instant Relief With a Small Trial Bottle of Old "S. Jacobs Oil."

What's Rheumatism Pain only? "Stop drugging! Not one case in fifty requires internal treatment. Rub soothing, penetrating 'St. Jacobs Oil' directly upon the tender spot" and relief comes instantly. "St. Jacobs Oil" is a harmless rheumatism cure which can not burn the skin.

Limber up! Get complaining! Get aches and pains from your drugging, and in just a moment you'll be free from rheumatic pain, soreness, stiffness and swelling. Don't suffer! Relief and a cure awaits you. "St. Jacobs Oil" has cured millions of rheumatism sufferers in the last half century, and is just as good for sciatica, neuralgia, lumbago, backache and sprains.

UGH! NOT CALOMEL, OIL OR SALTS, TAKE "CALIFORNIA SYRUP OF FIGS"

Delicious "Fruit Laxative" Cleans Stomach, Liver and Bowels of Old and Young Folks.

A harmless cure for sick headache, biliousness, sour stomach, constipation, indigestion, coated tongue, sallow complexion. "California Syrup of Figs." For the cause of all such misery comes from a torpid liver and sluggish bowels. A tablespoonful tonight means all constipation poison, water matter, fermenting food and sour bile gently moved out of your system by morning without gripping. Please don't give up "California Syrup of Figs" as a physic. Don't think you are drugging yourself or your children, because this delicious fruit laxative can not cause injury. Even the most delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel cleanser, regulator and tonic ever devised.

Your only difficulty may be in getting the genuine, so ask your druggist for a 50 cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company." This city has many counterfeit "fig syrups," so watch out.

WRECKS OFF CAPE RACE

IN THE EARLY DAYS

Tragedy Which Befell Some of the Passengers of William Brown.

The wrecks of the Titanic and the Voltorno, both within a few hundred miles of Cape Race, recall the loss of the William Brown near the same spot in April, 1841. Just as the Titanic disaster brought forth a storm of criticism and resulted in a public investigation of the wreck of the William Brown brought about the famous trial of Alexander Holmes—a trial which attracted the attention of the entire country and aroused such intense public feeling that the representatives of the public press were admitted to the courtroom only on condition that they would not report the proceedings, the Washington Star says.

The William Brown, which left Liverpool for Philadelphia with sixty-five passengers, chiefly Scotch and Irish immigrants, and a crew of seventeen, struck an iceberg 250 miles east of Cape Race on the calm, freezing night of Monday, April 19, 1841, and foundered in half an hour. Only two boats got away from the sinking vessel, the jolly boat, containing the captain, second mate, seven of the crew and one passenger who were picked up six days later, and a long boat containing the first mate, thirty-two passengers and eight seamen, including Holmes.

The boat leaked so badly that bailing had to begin the instant it struck the water. It was loaded to within about six inches of the water's edge, so that only the most careful distribution of the passengers kept the boat afloat even during the perfect calm of the night.

Holmes, a Finn by birth, had followed the sea from boyhood. He had distinguished himself by his self-possession, seamanship and his kindness. He had won the admiration of the passengers by climbing back on the rapidly filling vessel to rescue the sick child of one of the distracted women in his boat.

His conduct toward all the passengers was kindness itself, and he exposed himself to the bitter cold in order that a woman might be wrapped in his jacket. Nothing was seen of the other boat Tuesday morning. Matters grew from bad to worse. The sea was full of ice, which threatened to send the frail craft to the bottom, and it was with the greatest difficulty that the overloaded boat was kept out of harm's way. Then came rain, the one thing necessary to reduce the castaways to a state of utter despair. Then the wind, and soon a heavy sea was running, making all attempts to control the boat useless. Every wave added to the danger, and it was soon seen that the bailing was futile.

Again and again there were despairing shrieks of "the boat is sinking!" "The plug is cut!" "God have mercy on our souls!" until at last the mate, who had been bailing in desperate silence, frightened up and said grimly: "This work won't do. Men, you must go to work or we shall all perish." The awful significance of these words was entirely lost upon the passengers, but the sailors knew that it meant some of the occupants of the boat must be cast over in order to lighten it.

After a moment's hesitation the command was repeated. The boat was foundering. Holmes, the courteous, the brave, was also Holmes the mariner trained from childhood in that first law of the sea—instant, unquestioning obedience.

Without fear. Most remedies give you relief sometimes—they are slow, but not sure. Diapiesin is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as Pape's Diapiesin comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Put an end to stomach trouble by getting a large fifty-cent case of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

EAT NEW BREAD, CABBAGE, SAUSAGE AND DIGEST IT. "PAPE'S DIAPIESIN"

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. and Mrs. Dyseppe, get this down: Pape's Diapiesin digests everything, leaving nothing to sour and upset you. No difference how badly your stomach is disordered, you get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods

MAYOR HEGGATON INJURED IN MINE

Ten Foot Fall Knocked Him Unconscious and Dislocated His Shoulder Yesterday.

William S. Heggaton, superintendent of the Blue and Queen mines, suffered a dislocation of his collar bone yesterday when he fell a distance of ten feet from a ladder which he was descending in the third level of the Blue mine.

Mr. Heggaton was supervising the work of moving a tram car from the third to the fourth level, and was going down the ladder when the accident happened.

A platform in the ladder way had to be taken out to allow the passage of the tram car. Although Mr. Heggaton was aware of the removal of the platform, he evidently forgot about it when he began to descend, for when he reached the place in the ladder way where the platform would have been, had it not been moved, he stepped from the ladder and fell to another platform ten feet below.

He was unconscious for a few minutes after being picked up, but was quickly revived. He was taken to his home and was examined by Dr. H. W. Sheldon. It was found that besides a dislocation of the shoulder Mr. Heggaton suffered from a strain.

Although his injuries are painful, they are not serious, although they will keep him from his duties for some time.

LOCAL LACONICS.

Rev. H. A. Bucholtz visited yesterday in Escanaba.

The members of the Bridge club met last evening with Mr. and Mrs. C. L. Sporley.

The members of the Afternoon Bridge club met with Mrs. Joseph H. Winters yesterday.

Al Lehman is home from Eveleth, Minn., to spend the holidays with Negaunee relatives.

A number of Negaunee ladies attended a party given by Mrs. J. J. Lefler at her home in Ishpeming yesterday.

The Misses May Sanders and Gertrude Dieroff went yesterday for a week's visit with relatives in Crystal Falls.

The finder of a ring containing four keys can secure the name of the owner by calling at Miller Bros. store.

Will Wagner, representing a wholesale jewelry firm of Cleveland, O., will be at Perkins' store this afternoon.

Miss Clara Raymond returned home yesterday from a two months' visit with her aunt, Mrs. J. May, at Iron River.

Mesdames Abel Layne, and Ernest Klein, of Negaunee, and Harry Davidson, of Palmer, visited in Marquette yesterday.

Mrs. Bell Delyrae, who has been seriously ill with pneumonia at her home at the Union park for the past three weeks, is improving.

Mrs. James Johnson was surprised at her home at South Jackson last evening by about thirty of her friends, the occasion being her birthday.

Leo L. Wilcox, chief engineer of the Republic Iron & Steel company, with headquarters at Gilbert, Minn., is spending a few days in the city looking over the company's Hartford property.

Andrew Lindquist has completed one of the flats that he has been at work on in the Lafkas block. He expects to finish the other flat in a week. The painters have already commenced work.

A surprise party was held in honor of Miss Sarah Farson at her home on Peck street Tuesday evening, by twenty-five of her friends. A musical program was given, after which a lunch was served.

John Meski, foreman for the Vorden Alloy company, who had charge of the steel work at the new engine house, which is being built at the Athens mine, left last evening for his home in Milwaukee.

At a meeting of the Knights of the Modern Maccabees Tuesday evening candidates for the several offices were put in nomination and will be voted upon at the next meeting, which will be held Tuesday, the 23rd.

Miss Mabel Jackson arrived home yesterday from a week's visit in Detroit. She was accompanied by her sister, Mrs. Ida Kinsman, who will spend the winter here visiting with her parents, Mr. and Mrs. R. G. Jackson.

Henry Lafave, who has been employed by the Wisconsin Bridge & Iron company at the Athens mine, went to his home in Marquette yesterday. He will leave in a few days for Milwaukee, to do work similar to that he did here for the company.

At a special meeting of the council Tuesday evening the bond of Elzear Morell, administrator of the estate of the late Louis Villeneuve, was approved. Mr. Morell, who is a brother of Mrs. Villeneuve, will conduct the same business meeting.

Frank Ashelman has opened his flower store in the Tracy building, Iron street. Mr. Ashelman is an experienced florist, and was employed at the Negaunee greenhouses for a number of years. He will keep a complete line of cut flowers and potted plants, and will make a specialty of funeral designs.

Keith Maitland departed Tuesday evening for London, Eng., to spend the next three months. He was met in Chicago by R. S. Walker, general superintendent of the engineering department of the M. A. Hanna company, with headquarters in Duluth, who will accompany him. Mr. Walker's parents live in London.

YOUNG WOMEN: NUMBER SURPRISING.

The number of young women who suffer from weak back, dizzy and nervous spells, dull headache and weariness is surprising. Kidney and bladder ills cause these troubles, but if Foley Kidney Pills are taken as directed relief follows promptly and the ills disappear. Contain no habit forming drugs. For sale by All Druggists.

EXPERIENCE IS VALUABLE.

The judgment and experience of the officers of this institution are backed by the combined judgement and experience of an able Board of Directors. Our patrons get the benefit.

The Negaunee National Bank

Negaunee, Michigan. Designated U. S. Depository

from the post office, will be under the management of the Wisconsin Hotel company.

SAYS "WATER CURE" SAVES THE INSANE

Remarkable Results from Treatment Claimed by Western Hospital Head.

Stockton Cal., Dec. 10.—Scientific methods have made possible the cure of fully 85 per cent of insane persons taken to the Stockton state hospital for the insane.

This was the positive declaration of Dr. Fred P. Clark, medical superintendent of the institution. The hydrotherapeutic process, supplemented by the new reeducational method, is working curative miracles which give assurance of an almost complete victory over "dementia praecox," the prevailing form of insanity afflicting a very large proportion of the inmates of state hospitals.

Acute Cases Cured. Since the introduction of the "water cure" at the state hospital, the percentage of recoveries has increased enormously. Acute cases, due to alcoholism, worry, overwork and similar causes, but temporarily relieved by medicine, are either restored to normal mentality or prevented from becoming violently insane.

Acute insanity, brought on by poor circulation, nervous disorders or unsatisfactory conditions of living, readily yields to the hydrotherapeutic treatment, which is nothing less than the application of water in varying degrees of temperature and force. Nature is assisted in the performance of her functions and the patient is restored to normal condition by the elimination of the brain-clogging toxins.

"Under the old system," said Dr. Clark, "a person was brought to the institution acutely insane, with his system charged with poison resulting from the failure of the eliminating functions.

Women Are Recovering. "Here are some women patients who showed absolutely no interest in anything when they were committed. This was the result of the anaemic condition of the brain. They were given the 'water cure,' which restored the circulation, and now they are recovering.

"Among the more than 2,000 patients in this hospital there are fully 500 who would have been restored to useful citizenship had hydro-therapy been practiced earlier. Now—well, they will die here, because it is too late to help them. Except in cases in which insanity is caused by disease or injuries, which break down the brain tissues, or in which it is paralytic in character, and we can get them in time, the prognosis is favorable in about 85 per cent."

"The action of the warm water in the hydro-therapeutic treatment relieves the muscular strain about the capillaries and smaller blood vessels by relaxation, bringing the blood to the surface and restoring the normal circulation. The toxins are thus eliminated through the natural channels. The dull, anaemic patients are aroused, as though given a tonic, while the noisy, fighting ones are quieted and calmed. In other words the 'middle of the road' condition is restored."

OFFERS HIS STATUE TO CONGRESS. "Millionaire for a Day" McDevitt Will Travel in Special Train.

Wilkesbarre, Pa., Dec. 10.—John G. McDevitt's ship has come in and the "millionaire for a day" who spent \$2,500 for "the honor" and went broke again is in possession of considerable money.

Just where he got it is unexplained but John J. McDevitt has a new \$2,500 in his pockets and he declares this is

more money than he can spend conveniently in Wilkesbarre.

The money is burning holes in McDevitt's pockets and the "millionaire for a day" who also answers to the name of "Butch," has decided to charter a special train of six cars and make a trip to Washington, taking along a statue of himself which he will offer to congress and asked to have placed in Statuary hall in the capitol. The statue was carved in New York, and the sculptor has been paid in full.

McDevitt plans to leave in January. The train will be made of a parlor car, a sleeper and a diner, exclusively for McDevitt; a special car for the statue and men hired to guard it; a parlor car for newspaper men and a special diner for them.

"Butch" will hire a retinue of servants and it is his plan to go from here to New York, thence by water to Philadelphia and then to Washington.

Before leaving "Butch" will write Speaker Clark that he is on his way to offer congress the McDevitt statue and whether the speaker agrees to accept the offer makes no difference to "Butch" for he will make the trip anyway.

JUDGE WILL GO TO IRON COUNTY

Present Term of the Circuit Court for Marquette County Will Be Interrupted for a Few Days, While a Session Is Conducted at Crystal Falls.

Jury in the Case of Spear & Sons vs. Huron Portland Cement Company Yesterday Found for the Plaintiffs on One Count—More Personal Injury Suits.

The trial of the case of F. B. Spear & Sons vs. the Huron Portland Cement company yesterday afternoon resulted in the jury returning a verdict of \$547 for the plaintiffs. The defendant company will, it is said, pay the judgment. The case had been on trial for two and a half days, and the jury was about two hours reaching its verdict.

F. B. Spear & Sons brought suit against the defendant company for \$1,118, on two counts, one setting up claim to relatives alleged to have been received by the defendant company on shipments of cement made by water, and the other setting up claim to commissions on the cement furnished for the L. S. & I. concrete dock in 1912. There had been a settlement between the parties on the cement furnished in 1911, and the suit was brought for a final accounting.

The first count was taken from the jury by Judge Flannigan, as the attorneys for F. B. Spear & Sons were not prepared to present competent evidence in support of the charge that any relatives were received by the Huron Portland Cement company from the transportation company. The claim for commissions on the cement used in the dock in 1912, however, was allowed to go to the jury, with the result noted.

The case was tried by E. A. MacDonald of Marquette and R. T. Gray, of Detroit, for the Huron Cement company and by Ball & Ball for F. B. Spear & Sons.

Will Be Few Days' Recess
Owing to the exceptionally heavy calendar at the present term of circuit court, all of the cases on the docket will not have been disposed of when court adjourns Saturday. Judge Flannigan will then leave for Crystal Falls, where he will open the December term of Iron county circuit court Monday. However, as the number of cases before the court there is unusually small, it is expected that they will all be disposed of in a few days.

Judge Flannigan expects to be able to return here during the latter part of the week to dispose of the remaining cases on the docket, consisting largely of personal injury suits.

A number of cases in chancery are also to be disposed of during the present term.

Eight Suits for Trial
Mr. Driscoll, of the firm of LeGendre & Driscoll, who are counsel for the plain-

tiffs in the greater number of personal injury suits brought against the mining corporations, said yesterday that he expects that eight more of these cases will come to trial this term. One of these that of Peter Sormunen vs. the Cleveland Iron Mining company, is now before the court, the jury having been impanelled at the beginning of the afternoon session yesterday.

Sormunen was injured at the Hard Ore mine at Ishpeming, commonly known as the "J" shaft, on January 19, 1912, his injuries being of such a nature that he has been able to do little work since that time. He was employed as a miner on the fifth level and was struck by a mass of falling rock.

Three suits were yesterday dismissed, namely, Matti Heikkila vs. the Cleveland Iron company; Peter Sormunen vs. the Cleveland Iron company and a second case of Matti Heikkila vs. the Cleveland Iron company.

About ten of the suits in which LeGendre & Driscoll are the counsel for the plaintiffs have been continued to the February term.

Judge Flannigan has not yet imposed sentence on three persons who pleaded guilty of various offenses, on the first day of the term.

James N. Fehrman, of Ishpeming, who pleaded guilty last week to a statutory offense, was taken to the Marquette branch prison Tuesday night.

ICE RINK MAY BE OPENED NEXT WEEK

Street Railway Company Building Large Structure for Waiting Rooms and Office.

Provided that freezing weather prevails within the next few days, the Marquette City & Presque Isle Railway company will open its ice rink near the power house next week. Everything is now in readiness for flooding the tract and the erection of a large building, to be used as a waiting room, office and skate rooms, is nearing completion. The rink will be as complete as any in this part of the upper peninsula.

The building in course of construction is seventy feet long by twenty-six feet wide. It thus will accommodate many persons. A large portion of the space will be used as a general waiting room. There will also be a women's waiting room and refreshment counters at which hot drinks will be on sale. The building is of frame construction and is substantially built.

On the west side of the structure there will be a porch, running the length of the building, which may be used by spectators, and there will also be a fence around the rink, in front of which space will be provided for spectators. The dimensions of the rink itself will be about seventy-five by 280 feet, giving a large skating surface. The ground has been graded and leveled and is ready for flooding. The place will be adequately lighted so that the rink may be used during the evenings. A large band stand is also provided. The rink will be operated by the street railway company. It is the intention to make no admission charge to the rink to persons who travel by street car to and from the rink. Others will be charged ten cents.
